LIST OF ILLUSTRATIONS.

PLATES.

i. Map showing progress of detailed mapping.

ii. Geological map of state of Iowa.

iii. Preliminary map of drift sheets.

iv. Fig. 1. Hanging Rock, Redfield. Fig. 2. Cottonwood Mill sandstone.

v. Fig. 1. Raccoon river at Van Meter. Fig. 2. Drift section southwest of Redfield.

vi. Fig. 1. Top works of Chicago & Van Meter mine. Fig. 2. Brick works Platt Pressed & Fire Brick Co.

vii. Fig. 1. Limestone projecting through Iowan drift. Fig. 2. Rounded boss of Niagara limestone in Iowan drift plain.

viii. Fig. 1. Stony knob projecting through drift. Fig. 2. Valley of Elk creek.

ix. Fig. 1. Stairway at the "Backbone." Fig. 2. Beds of passage from Maquoketa shales to Niagara limestone.

x. Fig. 1. Fallen masses from basal ledges of the Niagara. Fig. 2. Pentamerus-bearing limestone.

xi. Fig. 1. Vertical cliff of Niagara. Fig. 2. Casts of *Pentamerus oblongus.*

xii. Fig. 1. Buchanan gravels near Earlville Fig. 2. Fountain Spring Mills.

xiii. Map of Pleistocene formations in Delaware county.

xiv. Fig. 1. City quarry at Independence. Fig. 2. Folded beds near Brandon.

xv. Fig. 1. Regular stratification in Cedar Valley limestone. Fig. 2. Cedar Valley limestone east of Independence.

xvi. Fig. 1. General view of the typical exposure of the Buchanan gravels. Fig. 2. Nearer view showing Iowan drift above the gravels.

xvii. Fig. 1. Iowan bowlder overlying Buchanan gravels. Fig. 2. Field showing Iowan surface bowlders.

xviii. Fig. 1. Buchanan gravels east of Winthrop. Fig. 2. Nearer view of Winthrop gravel pit.

xix. Fig. 1. Characteristic field strewn with Iowan bowlders. Fig. 2. An Iowan bowlder showing weathering effects.

xx. Fig. 1. Large Iowan bowlders near Winthrop. Fig. 2. A typical Iowan bowlder.

PLATES.

xxi. Fig. 1. The Grand River valley in Decatur county. Fig. 2. Fragmental limestone at Bethany, Missouri.
xxii. Typical exposure of Bethany limestone, at Bethany, Missouri.
xxiii. Fig. 1. Surface of Winterset limestone, showing position of glacial striæ. Fig. 2. Glacial striæ near Lamoni.
xxiv. Fig. 1. Winterset limestone west of Decatur City. Fig. 2. Winterset limestone on Potter's branch.
xxv. Fig. 1. Loess slopes along Broken Kettle creek. Fig. 2. Loess slopes of the upland region, Plymouth county.
xxvi. The Dakota and Benton formations on the Sioux river.
xxvii. Chalk cliff on the Sioux river.
xxviii. Fig. 1. Valley of the Floyd at Dalton. Fig. 2. Loess over drift near Dalton.
xxix. Fig. 1. Loess over drift near Akron. Fig. 2. Loess and stratified drift at Le Mars.
xxx. Micro photographs of Monroe and Van Meter sandstones.
xxxi. Micro photographs of Burlington limestone.
xxxii. Micro photographs of Anamosa limestone.

FIGURES.

1. Hanging Rock section, Redfield.
2. Bluff near Pritchard drift, High Bridge.
3. Coal bed at Platt mine, Van Meter.
4. Coal bed at Old Leeper mine, Redfield.
5. Coal bed at Redfield mine, Redfield.
6. Coal seams at Topping mines, south of Linden.
7. Section at Chaney drift, north of Adel.
8. Coal seam at Tudor shaft, Dawson.
9. Sketch map showing location of drift exposure, near Davis City.
10. Drift section, section west of Leon.
11. Geological section along the Sioux river.
12. Section on the Illinois Central railway, east of Remsen.
13. Drift, loess and old soil, west of Dalton.

CROSS-SECTIONS.

1. Section along Raccoon river in Dallas county.

MAPS.

Surface deposits of Dallas county.
Geological map of Dallas county.
Geological map of Delaware county.
Geological map of Buchanan county.
Geological map of Decatur county.
Geological map of Plymouth county.
