Museums embrace every aspect of human experience. Iowa’s Museum Studies Program reflects this multiplicity, offering courses related to many fields, including American studies, anthropology and archaeology, art, business, communication studies, elementary and secondary education, English, world languages, geoscience, history, library and information science, and leisure studies.

Because the Museum Studies Program is interdisciplinary, instructors for its courses include faculty members from anthropology, art and art history, business, history, law, library and information science, and other related fields.

The Museum Studies Program is administered by the Department of Anthropology (p. 52).

Undergraduate Program

• Certificate in Museum Studies

College of Liberal Arts and Sciences students who are interested in museum studies may earn the certificate, or they may use the individualized plan of study track in the interdepartmental studies major to create a museum studies concentration relevant to their academic and professional interests.

Certificate

The Certificate in Museum Studies requires 18 s.h. The program provides a broad foundation of knowledge increasingly valued in the museum field.

The certificate is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Completion of the certificate is noted on the student’s transcript.

Museum studies courses introduce students to the spectrum of museum endeavors, from organization and mission planning to institutional histories and current developments in the field. Most courses developed by the program offer hands-on experience in exhibition planning and design, collection management, educational programming, community development, and administration.

A major in one of the natural sciences (e.g., biology, geoscience), anthropology, science education, art history, American studies, or history is recommended for students preparing for museum careers.

Students may count a maximum of 6 s.h. completed for their major, a minor, or another certificate offered by the College of Liberal Arts and Sciences toward the Certificate in Museum Studies.

Work for the certificate consists of an introductory course, a minimum of four courses on specific museum studies topics, and an internship, as stated below. Students must request permission from the coordinator of the museum studies certificate to use courses that are not included in the program, and the proposed course content and requirements must fit into one of the program’s defined areas.

Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The Certificate in Museum Studies requires the following course work (total of 18 s.h.).

INTRODUCTORY COURSE
Students should begin the certificate with the course 024:102 (MUSM:3001) Introduction to Museology, which is a prerequisite for some of the program’s more advanced courses. It provides a historical overview of museum development and function while introducing students to issues such as museum governance and financing, ethics and law, collection management, exhibition and educational programming, interpretation, and audience research.

024:102 (MUSM:3001) Introduction to Museology 3 s.h.

MUSEUM STUDIES TOPIC AREAS
Students complete a minimum of four courses in museum studies topic areas, choosing from the lists below. The areas are collection care and management; exhibition development and public education; history, theory, and culture; and museum administration and management. Students must select one course from each of the four topic areas (9 s.h. total). They also must complete a fourth course (3 s.h.) from any of the four topic areas.

Collection care and management:

024:103 (MUSM:3003) Natural History Research 3 s.h.
024:120 (MUSM:3200) Collection Care and Management 3 s.h.
024:140 (MUSM:4200) Advanced Collection Care and Management 3 s.h.
024:155 (MUSM:4900) Preservation and Conservation of Collection Materials 3 s.h.
024:160 (MUSM:3060) Introduction to Archives and Manuscripts 3 s.h.
024:190 (MUSM:3090) Topics in Archives and Manuscripts 1 s.h.

Exhibition development and public education:

024:104 (MUSM:3004) Exhibition Planning 3 s.h.
024:110 (MUSM:3110) Learning in Museums 3 s.h.
024:121 (MUSM:4000) Power of Placement 3 s.h.

History, theory, and culture:

024:106 (MUSM:3120) The Natural History Museum: A Museological History 3 s.h.
024:115 (MUSM:4130) Museum Literacy and Historical Memory 3 s.h.
024:124 (MUSM:3237) Politics of the Archaeological Past 3 s.h.

Museum administration and management:
024:100 (MUSM:3100) Historic House Management and Preservation 3 s.h.
024:147 (MUSM:3500) Nonprofit Organizational Effectiveness I 3 s.h.
024:148 (MUSM:3600) Nonprofit Organizational Effectiveness II 3 s.h.
024:181 (MUSM:3080) Marketing, Promoting, Politicking for Contemporary Public Art 3 s.h.
024:247 (MUSM:6010) Nonprofit Organizational Effectiveness I 3 s.h.
024:248 (MUSM:6020) Nonprofit Organizational Effectiveness II 3 s.h.

MUSEUM STUDIES INTERNSHIP

After completing the required course work above (15 s.h.), students must complete the following internship, earning a minimum of 3 s.h.

024:180 (MUSM:4080) Museum Internship arr.

The Certificate in Museum Studies coordinator works closely with students and affiliated faculty members to ensure that the internship provides students with the instruction and experience they need.

Facilities and Resources

Museum studies students have access to a wide variety of museums and related resources, including the following University of Iowa museums: the Museum of Natural History, the Museum of Art, the Old Capitol Museum, the Medical Museum, and the Athletics Hall of Fame.

The Museum Studies Program maintains close connections with a number of local, community-based museums and organizations, including the State Historical Society of Iowa, the Herbert Hoover Presidential Library and Museum, the African American Museum of Iowa, the Iowa Children's Museum, the University of Iowa museums: the Museum of Natural History, the Museum of Art, the Old Capitol Museum, the Medical Museum, and the Johnson County Historical Society.

The University of Iowa Collections Coalition, consisting of 19 collections and collection-support organizations, provides an essential resource for the Museum Studies Program. It provides museum studies internships, directed study projects, opportunities for site visits, and volunteer experiences for students as well as guest speakers.

Courses

Introduction

024:102 (MUSM:3001) Introduction to Museology 3 s.h.
Overview of museum history, function, philosophy, collection and curatorial practices, governance and funding issues, exhibition evaluation, audience studies; American cultural institutions. GE: Values, Society, and Diversity. Same as OTS:112 (EDTL:3001), 097:115 (SIED:3001), 113:103 (ANTH:3001).

Collection Care and Management

024:103 (MUSM:3003) Natural History Research Collections 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections; such as 002:010 (BIOL:1402) or 002:011 (BIOL:1502) or 002:031 (BIOL:1411) or 002:032 (BIOL:1412), and 024:102 (MUSM:3001) or 024:120 (MUSM:3200); or other experience.

024:120 (MUSM:3200) Collection Care and Management 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as 012:120 (GEOS:3200).

024:140 (MUSM:4200) Advanced Collection Care and Management 3 s.h.
Builds on 024:120 (MUSM:3200); types of museum objects and materials, their care and management; care, storage, and use of paper, books, photographs, works of art, electronic information media, textiles, furniture, archaeological artifacts, natural history specimens, archives; digitization projects, integrated pest management, risk assessment, museum security, museum construction and renovation, grant writing; for students planning museum careers or for professions that require care of collections. Prerequisites: 012:120 (GEOS:3200) or 024:120 (MUSM:3200). Same as 012:160 (GEOS:4200).

024:155 (MUSM:4900) Preservation and Conservation of Collection Materials 3 s.h.
Overview of responsible stewardship of library and archival collections; principles and practice of book conservation with focus on prototypes for conservation rebinding; appropriate care of books, papers, photographs (traditional and digital), film, and other non-print items; fundamental instruction in methods of page repair, investigation of eight historical prototypes, construction of related conservation binding models; lecture, discussion, student presentation, and hands-on activities. Prerequisites: 021:101 (SLIS:5010). Same as 021:150 (SLIS:4900).

024:160 (MUSM:3060) Introduction to Archives and Manuscripts 3 s.h.
Purpose and function of archival repositories (as compared with libraries); professional responsibilities of archivists; theoretical basis of currently accepted practices; collection solicitation and development; appraisal of records and manuscripts; processing, or arrangement and description, of collections; archival preservation and conservation, including digital preservation; reference services; outreach efforts; current issues, including electronic records, privacy and copyright.

024:190 (MUSM:3090) Topics in Museum Studies 1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation; designed by members of the University of Iowa Collections Coalition. Same as 012:159 (GEOS:3090).

Exhibition Development and Public Education

024:104 (MUSM:3004) Exhibition Planning 3 s.h.
Preliminary work for and process of developing museum exhibitions; history of exhibit design, evaluation, budgets, teams and team member roles, working with community and special interest groups, methods of production and display; students research a topic, choose artifacts and images, and create a narrative and exhibit script. Prerequisites: 024:102 (MUSM:3001).
024:110 (MUSM:3110) Learning in Museums 3 s.h.
Introduction to theory and practice of learning in museums; identification of institutional objectives; goals that facilitate learning in museum setting; development of educational materials and programs. Prerequisites: 024:102 (MUSM:3001). Recommendations: good writing skills.

024:121 (MUSM:4000) Power of Placement 3 s.h.
How placement of artworks in a setting and their relationship to each other affect the way in which viewers understand the works; influence of curator’s choice of placement, sequence, height, wall color, and so forth; varied settings, with focus on display issues in art museums; includes gallery and museum experiences. Prerequisites: 024:102 (MUSM:3001).

History, Theory, and Culture

024:106 (MUSM:3120) The Natural History Museum: A Museological History 3 s.h.
Study of the history of the natural history museum; origin, character and evolution, anecdotes and personalities, how natural history museums influenced society, their continuing relevance to a technological world. Recommendations: at least one course in museum studies, such as 024:102 (MUSM:3001).

024:115 (MUSM:4130) Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as 016:120 (HIST:4130).

024:124 (MUSM:3237) Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as 115:124 (ANTH:3237).

Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Museum of Art collections. Same as 01H:181 (ARTH:4081).

024:148 (MUSM:3600) Nonprofit Organizational Effectiveness II 3 s.h.

024:181 (MUSM:3080) Marketing, Promoting, Politiicking Contemporary Public Art 3 s.h.
How public art projects are conceived, created, and paid for; projects sponsored and funded by federal, state, and local governments and private businesses 1960 to present; projects’ operational structures, how artists are selected; Vietnam Veterans Memorial, Serra’s Tilted Arc, recent projects. Requirements: an introductory course in an appropriate area for art majors. Same as 01H:180 (ARTH:3080).

024:247 (MUSM:6010) Nonprofit Organizational Effectiveness I 3 s.h.

024:248 (MUSM:6020) Nonprofit Organizational Effectiveness II 3 s.h.

Directed Studies and Internship

024:150 (MUSM:4050) Directed Studies and Projects arr.
Advanced readings in historical development, educational philosophy, programs, operations of museums; individual projects coordinated with programs, exhibits, or collections of campus and area museums. Prerequisites: 024:102 (MUSM:3001) or 024:104 (MUSM:3004) or 024:120 (MUSM:3200).

024:180 (MUSM:4080) Museum Internship arr.
Working experience in functions, departments, programs of the sponsoring museum; relation to museum’s overall mission and museum field in general.

Museum Administration and Management

024:100 (MUSM:3100) Historic House Management and Preservation 3 s.h.
Management, preservation, interpretation, and basic operations of historic structures and the museums they serve. Prerequisites: 024:102 (MUSM:3001).

024:147 (MUSM:3500) Nonprofit Organizational Effectiveness I 3 s.h.
Music

**Director, Division of Performing Arts**
Alan MacVey

**Associate professors**

**Associate professors emeriti**
Richard J. Bloesch, Don Haines, T.M. Scruggs, Carole Thomas, Robert Yeats

**Assistant professors**
Matthew Arndt, Mary Cohen (Teaching and Learning/Music), Robert Cook, Nicole Esposito, Gregory Hand, Jennifer Iverson, Elizabeth Mellon, Andrew Parker, Nathan Platte, David Puderbaugh, Amy Schendel, Erin Wehr

**Adjunct assistant professors**
Rachelle Tsachor, Joey Walker, Brett Wolgast

**Lecturers**
Jonathan Allen, James Dreier, Steven Grisomore, Trevor Harvey, Susan Jones, Elizabeth Oakes, Donna Parsons, Shari Rhoads, Brent Sandy

**Undergraduate major:** music (B.A., B.M.)
**Undergraduate minor:** music
**Graduate degrees:** M.A. in music; M.F.A. in music; Ph.D. in music; D.M.A.
**Graduate minor:** theory pedagogy
**Graduate certificate:** sacred music
**Web site:** http://music.uiowa.edu

The University of Iowa School of Music is prominent in a fine arts community of international repute. It has long been recognized as one of the excellent university-based schools of music in the United States.

The school’s on-campus enrollment of approximately 470 music majors is large enough to sustain strong programs in all areas of specialization, yet small enough to ensure the individual attention essential to each student’s development.

The faculty consists of highly trained artist-teachers in each area of specialization and scholars of international distinction. Faculty ensembles in residence include the Iowa Woodwind Quintet and the Iowa Brass Quintet. Private lessons with faculty members are offered in all band and orchestra instruments, voice, piano, and organ.

The school’s undergraduate programs offer all qualified students, whether music majors or nonmajors, the opportunity for further study of music. In addition to its comprehensive course offerings for majors, the school provides a substantial selection of courses especially recommended for nonmajors and several approved for the General Education Program (p. 276) (see "Courses for Nonmajors" below).

Graduate programs in music are designed primarily to prepare students for teaching in secondary schools, colleges, and universities and for careers in performance and music therapy.

The School of Music is a charter member of the National Association of Schools of Music. The requirements for entrance and for graduation are in accordance with the association’s published standards.

The department is one of three academic units in the Division of Performing Arts (p. 210). It participates in offering the division’s Performing Arts Entrepreneurship (p. 445).

**Undergraduate Programs**

- Major in music (Bachelor of Arts, Bachelor of Music)
- Minor in music

The Bachelor of Music program offers concentrations in composition, music therapy, and performance; a second emphasis in jazz studies may be added to the performance concentration. Professional certification in music education and music therapy are available only through the B.M.

The Bachelor of Arts is a nonprofessional degree for students who are not planning careers as musicians or for those who wish to pursue a double major or earn more than one bachelor’s degree.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through audition either in person or by recording before they register. Students who plan to major in composition also must submit examples of creative work; for details, see “Composition Concentration” below. All entering students must complete the online theory diagnostic examination for 025:002 (MUS:1201) Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower- or upper-level) and one year of major ensemble at The University of Iowa in order to earn a degree in music.

Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (025:002 (MUS:1201) Musicianship and Theory I, 025:003 (MUS:1202) Musicianship and Theory II, 025:004 (MUS:2203) Musicianship and Theory III, and 025:005 (MUS:2204) Musicianship and Theory IV) must complete
a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at The University of Iowa.

**Bachelor of Music**

The Bachelor of Music requires a minimum of 120 s.h.; many students earn more than 120 s.h. in fulfilling the requirements for their majors—for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so B.M. students may count more than 50 s.h. of course work in music toward the degree. All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The program offers concentrations in composition, music therapy, and performance; a second emphasis in jazz studies may be added to the performance concentration. Bachelor of Music students may not choose guitar as their major instrument, and Bachelor of Arts students may not transfer to the B.M. program with guitar as their major instrument.

Students seeking licensure/certification in music education or music therapy should enroll in the B.M. program.

The Bachelor of Music requires the following School of Music course work.

**GENERAL COURSE REQUIREMENTS**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>025:001</td>
<td>Fundamentals of Music for Majors (3 s.h.)</td>
<td></td>
</tr>
<tr>
<td>025:002</td>
<td>Musicianship and Theory I (4 s.h.)</td>
<td></td>
</tr>
<tr>
<td>025:003</td>
<td>Musicianship and Theory II (4 s.h.)</td>
<td></td>
</tr>
<tr>
<td>025:004</td>
<td>Musicianship and Theory III (4 s.h.)</td>
<td></td>
</tr>
<tr>
<td>025:005</td>
<td>Musicianship and Theory IV (4 s.h.)</td>
<td></td>
</tr>
<tr>
<td>025:071</td>
<td>Instruction in Piano I and II (2 s.h.)</td>
<td></td>
</tr>
</tbody>
</table>

Registration in 025:071 (MUS:1211) Group Instruction in Piano I and II is corequisite with 025:072 (MUS:1212) Group Instruction in Piano II, unless exempted by proficiency exam. Transfer students should complete this requirement in their first year of residence, unless exempted by proficiency exam.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>025:074</td>
<td>Recital Attendance (six semesters) (6 s.h.)</td>
<td></td>
</tr>
</tbody>
</table>

Six semesters of 025:074 (MUS:1210) Recital Attendance are required for all B.M. students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

- 025:107 (MUS:3625) Techniques of Conducting (2 s.h.)
- 025:144 (MUS:3301) History of Music I (western music of the Middle Ages, Renaissance, and Baroque) (3 s.h.)
- 025:146 (MUS:3302) History of Music II (western music 1750-present) (3 s.h.)
- 025:154 (MUS:4900) Senior Recital (1 s.h.)

To complete the senior recital, students must have achieved upper-level applied status or be enrolled in upper-level applied music courses (see “Applied Music” below). Music therapy students may complete a senior recital or a senior research project. Composition students substitute 025:099 (MUS:4910) Bachelor’s Thesis for the senior recital. The senior recital, research project, or thesis must be completed at The University of Iowa.

One of these:

- 025:080 (MUS:1009) Jazz Cultures in America and Abroad (3 s.h.)
- 025:103 (MUS:3310) World Music (3 s.h.)
- 025:104 (MUS:3311) Music of Latin America and the Caribbean (3 s.h.)
- 025:141 (MUS:3720) History of Jazz (3 s.h.)
- 025:178 (MUS:3312) Music, Culture, and Identity (3 s.h.)

At least 3 s.h. from these:

- 025:006 (MUS:2206) Form and Analysis (3 s.h.)
- 025:101 (MUS:2710) Introduction to Improvisation (3 s.h.)
- 025:102 (MUS:3710) Intermediate Jazz Improvisation (2 s.h.)
- 025:117 (MUS:3665) Arranging for Band (2 s.h.)
- 025:118 (MUS:3750) Jazz Theory (2 s.h.)
- 025:145 (MUS:4200) Counterpoint Before 1600 (3 s.h.)
- 025:147 (MUS:4201) Counterpoint After 1600 (3 s.h.)
- 025:148 (MUS:3220) Instrumentation (2 s.h.)
- 025:153 (MUS:4210) Keyboard Harmony (2 s.h.)
- 025:157 (MUS:4220) Orchestration (2 s.h.)
- 025:243 (MUS:4710) Advanced Jazz Improvisation (2 s.h.)
- 025:244 (MUS:4750) Transcription (2 s.h.)
- 025:247 (MUS:5230) Post-Tonal Analysis (3 s.h.)
- 025:249 (MUS:5235) Tonal Analysis (3 s.h.)
- 025:256 (MUS:5240) Special Topics in Theory and Analysis (3 s.h.)

**APPLIED MUSIC**

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present the senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program, and are student teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano. Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

**ENSEMBLE PARTICIPATION**

Students must complete eight semesters of major ensemble participation. They normally enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. String students participate in University Orchestra and Chamber Orchestra. Wind and percussion students participate in the Symphony Band/Concert Band/University Band. Voice students participate in Camerata Singers, University Choir, Kantorei, and/or University Chorale. Keyboard students may substitute accompaniment for
major ensemble participation for two semesters during their junior and/or senior years, with their major applied-music teacher’s consent. Composition students may, with their advisor’s consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.

Any student who requests adjustment of the major ensemble requirement must submit his or her request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

025:142 (MUS:3172) Camerata Singers 1 s.h.
025:181 (MUS:3174) University Choir 1 s.h.
025:185 (MUS:3170) Kantorei 1 s.h.
025:191 (MUS:3176) Women’s Chorale 1 s.h.
025:192 (MUS:3180) Orchestra 1 s.h.
025:194 (MUS:3160) Symphony Band/Concert Band/University Band 1 s.h.

ELECTIVES

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

Performance Concentrations

A performance concentration is available in each of the orchestral areas—strings, brass, woodwinds, and percussion—and in voice, piano, and organ. Students must take at least an additional 17 s.h. beyond the School of Music general course requirements. This course work includes required courses and electives unique to each performance area. Course listings for each of the respective areas are available from the School of Music office.

JAZZ STUDIES EMPHASIS

Students with a performance concentration may add a second emphasis in jazz studies. To be admitted to the jazz studies emphasis, students must audition after they complete their first year. Students admitted to the emphasis are assigned to the jazz studies advisor in addition to their regular faculty advisor.

Senior recital and recital attendance requirements are the same as those for the Bachelor of Music. In addition to satisfying all course requirement for the B.M., jazz studies emphasis students must complete 21 s.h. of jazz course work. Many jazz studies courses fulfill other B.M. course requirements, including music electives.

Music Therapy Concentration

Admission to the music therapy concentration is based on successful completion (grade of C-plus or higher) of 025:087 (MUS:1687) Orientation to Music Therapy. In addition to the core courses in music therapy listed below, specific courses are required in biology, anatomy, psychology, and music.

A six-month internship in an approved off-campus clinical facility is required. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy.

The music therapy concentration requires the following course work.

All of these:
075:144 (EDTL:5630) Psychology of Music 2 s.h.
075:149 (EDTL:5640) Introduction to Music Research 2 s.h.
025:017 (MUS:1120) Secondary Performance--Voice 1 s.h.
025:071 (MUS:1211) Group Instruction in Piano I 1 s.h.
025:072 (MUS:1212) Group Instruction in Piano II 1 s.h.
025:073 (MUS:2213) Group Instruction in Piano III 1 s.h.
025:074 (MUS:1210) Recital Attendance (four semesters required) 4 s.h.
025:087 (MUS:1687) Orientation to Music Therapy 2 s.h.
025:094 (MUS:3675) Music Therapy Practicum (three semesters, for 1, 2, and 2 s.h., respectively) 5 s.h.
025:096 (MUS:3680) Music Techniques in Special Education and Recreation 3 s.h.
025:101 (MUS:2710) Introduction to Improvisation 3 s.h.
025:139 (MUS:3690) Music Therapy Techniques: Adult Clients 3 s.h.
025:140 (MUS:4670) Internship in Music Therapy 2 s.h.

One of these:
025:007 (MUS:1007) Garage Band: The Basics 2 s.h.
025:117 (MUS:3665) Arranging for Band 2 s.h.
025:148 (MUS:3220) Instrumentation 2 s.h.

One of these:
025:098 (MUS:4675) Senior Project in Music Therapy 1 s.h.
025:154 (MUS:4900) Senior Recital 1 s.h.

Music therapy students who elect the senior recital option must take four years of applied music and attain upper-level status; they also must take 8 s.h. of major ensemble participation. Those who elect the senior research project option must take three years of applied music and 6 s.h. of major ensemble.

Composition Concentration

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for 025:036 (MUS:1139) Secondary Performance--Composition.
Composition students must satisfy the degree requirements stated under "Bachelor of Music." The composition concentration requires additional course work in composition and music theory; contact the School of Music office.

The course 025:099 (MUS:4910) Bachelor's Thesis replaces the recital required of applied music students. It consists of one or more compositions, approved by a committee of three faculty members and performed in regularly scheduled School of Music recitals.

**B.M. with Teacher Licensure**

Music majors who intend to earn licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the Bachelor of Music major and all requirements for graduation.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Undergraduate students seeking teacher licensure/certification must be enrolled in a Bachelor of Music program in performance and must complete the appropriate licensure program (e.g., band, choral, string). Students must be admitted to the Teacher Education Program before they may take required professional education courses. See "Admission to the Teacher Education Program" below.

All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276). In addition to the B.M. requirements in music, TEP students must take General Education courses that fulfill licensure requirements. The certification program requires music methods and techniques courses, professional education courses, and student teaching.

The following courses are required for all music TEP students.

- One college-level math course, excluding 22M:001 (MATH:0100), 22M:003 (MATH:0300), and 22M:008 (MATH:1005)
- 07B:180 (EPLS:4180) Human Relations for the Classroom Teacher 3 s.h.
- 07E:100 (EDTL:3000) Foundations of Education 3 s.h.
- 07E:102 (EDTL:3002) Technology in the Classroom 2 s.h.
- 07E:145 (EDTL:3620) Methods and Materials: General Music 3 s.h.
- 07E:192 (EDTL:4192) Special Area Student Teaching 6 s.h.
- 07P:075 (PSQF:1075) Educational Psychology and Measurement 3 s.h.
- 07S:096 (EDTL:3610) Introduction and Practicum: Music Teacher 2 s.h.
- 07S:187 (EDTL:4087) Seminar: Curriculum and Student Teaching 1 s.h.
- 07S:190 (EDTL:3090) Orientation to Secondary Education 1 s.h.
- 07S:191 (EDTL:4091) Observation and Laboratory Practice in the Secondary School 6 s.h.
- 07S:195 (EDTL:3095) Teaching Reading in Secondary Content Areas 1 s.h.
- 07U:100 (EDTL:4900) Foundations of Special Education 3 s.h.

**BRASS, WOODWIND, AND PERCUSSION STUDENTS**

Brass, woodwind, and percussion students in the TEP participate in 025:193 (MUS:3165) Hawkeye Marching Band for one semester. Exceptions must be approved by the head of the music education area.

The following courses are required.

- 07S:140 (EDTL:3630)/025:164 (MUS:3630) Band Methods and Materials 3 s.h.
- 07S:143 (EDTL:3605)/025:105 (MUS:3605) Instrumental Techniques (taken three times) 6 s.h.
- 07S:145 (EDTL:3635)/025:108 (MUS:3635) Instrumental Conducting 3 s.h.
- 025:095 (MUS:1711) Sight Reading Jazz 1 s.h.
- 025:100 (MUS:3659) Class Strings (Section 1) 1 s.h.
- 025:182 (MUS:3666) Marching Band Techniques 1 s.h.
- 025:193 (MUS:3165) Hawkeye Marching Band 1 s.h.
- 025:196 (MUS:3760) Jazz Band Techniques 1 s.h.

**STRING STUDENTS**

String majors in the TEP take one semester of secondary performance on each of three string instruments other than their primary instrument (total of 3 s.h.).

The following courses are required.

- 025:100 (MUS:3659) Class Strings (Section 2, taken three times) 3 s.h.
- 025:114 (MUS:3664) Introduction to Band Instruments 2 s.h.
- 07S:145 (EDTL:3635)/025:108 (MUS:3635) Instrumental Conducting 3 s.h.
- 07S:150 (EDTL:3660)/025:112 (MUS:3660) String Methods and Materials 3 s.h.

**VOCAL AND KEYBOARD STUDENTS**

The following courses are required.

- 07S:148 (EDTL:3645)/025:110 (MUS:3645) Choral Conducting and Literature 3 s.h.

**KEYBOARD STUDENTS (NONVOCAL)**

Keyboard students who plan to teach in nonvocal areas complete the requirements in either the brass-woodwind-percussion area or the string area, as stated above.

**Admission to the Teacher Education Program**

Application forms for admission to the Teacher Education Program are available from the Office of Education Services at the College of Education. Application deadlines for the secondary Teacher Education Program are October 15 for entry the following spring and March 1 for entry the following fall. The Teacher Education Program in music accepts a limited number of applicants; meeting the minimum requirements (stated below) does not guarantee admission. Application also requires a proficiency exam and a personal statement.

Minimum requirements for admission to the music TEP are:
admission to the School of Music; a University of Iowa g.p.a. and a cumulative g.p.a. of at least 2.70 (effective for spring 2013 admission) or at least 3.00 (effective for fall 2013 admission) at the time of admission to the program; a g.p.a. of at least 3.00 on all music course work; successful completion of 025:002 (MUS:1201) Musicianship and Theory I and 025:003 (MUS:1202) Musicianship and Theory II; completion of at least 33 s.h. of college credit; completion of a 10-hour volunteer practicum in a secondary school setting; and the PRAXIS I exam.

**Bachelor of Arts**

The Bachelor of Arts with a major in music requires a minimum of 120 s.h., including 42-47 s.h. of work for the major. The music major for the Bachelor of Arts is designed for students who have strong abilities and interest in music but are not planning on careers as musicians or who wish to pursue a double major or earn more than one bachelor’s degree. Students must audition and be accepted into a performance area. They develop musicianship and performance skills and choose from a wide variety of music electives.

Students in many areas, from engineering and physics to history, art, and English, find that a B.A. in music is a good addition to their studies. Other students choose the B.A. in music to complement course work in business (especially the minor in business administration), foreign language and literature, or interdisciplinary fields such as American studies. Some students combine a B.A. in music with undergraduate preparation to study law or medicine.

All B.A. students must complete the College of Liberal Arts and Sciences General Education Program (p. 276) and satisfy all other requirements for graduation with a bachelor’s degree. For more information, contact the School of Music and the Academic Advising Center.

The B.A. in music requires the following course work.

- 025:001 (MUS:1200) Fundamentals of Music for Majors
- or successful completion of 025:002 online theory diagnostic examination

- 025:002 (MUS:1201)-025:003 (MUS:1202) Musicianship and Theory I-II
- 025:071 (MUS:1211)-025:072 (MUS:1212) Group Instruction in Piano I-II
- (or successful completion of proficiency exams I and II)

Registration for 025:071 (MUS:1211) Group Instruction in Piano I and 025:072 (MUS:1212) Group Instruction in Piano II is corequisite with 025:002 (MUS:1201) Musicianship and Theory I and 025:003 (MUS:1202) Musicianship and Theory II unless exempted by proficiency exam. Transfer students should complete this requirement in their first year of residence, unless they are exempted by proficiency exam.

- 025:074 (MUS:1210) Recital Attendance (two semesters)
- 025:197 (MUS:3730) Jazz Band to satisfy the major ensemble requirement.

Any student who wants to request adjustment of the major ensemble requirement must submit his or her request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

**Two of these:**

- 025:141 (MUS:3720) History of Jazz
- 025:144 (MUS:3301) History of Music I
- 025:146 (MUS:3302) History of Music II

**Performance electives (lower- or upper-level applied music, ensembles, or improvisation)**

- 025:004 (MUS:2203) Musicianship and Theory III
- 025:005 (MUS:2204) Musicianship and Theory IV
- 025:103 (MUS:3310) World Music
- 025:104 (MUS:3311) Music of Latin America and the Caribbean
- 025:107 (MUS:3625) Techniques of Conducting
- 025:117 (MUS:3665) Arranging for Band
- 025:118 (MUS:3750) Jazz Theory
- 025:141 (MUS:3720) History of Jazz
- 025:144 (MUS:3301) History of Music I
- 025:146 (MUS:3302) History of Music II
- 025:145 (MUS:4200) Counterpoint Before 1600
- 025:231 (MUS:4760) Jazz Composition and Arranging
- 025:244 (MUS:4750) Transcription

Music electives

- 6 s.h.

All music majors with scholarships must participate in a major ensemble and studio lessons each semester.

For a list of major ensembles, see "Ensemble Participation" under "Bachelor of Music" above.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Four-Year Graduation Plan is not available for music therapy and music education.

**Bachelor of Arts**

The Bachelor of Arts in music requires 42-47 s.h. in School of Music courses.

**Before the third semester begins:** 15-18 s.h. of course work in the major, including 025:002 (MUS:1201) Musicianship and Theory I, 025:003 (MUS:1202) Musicianship and Theory II, 025:071 (MUS:1211) Group Instruction in Piano I, and 025:072 (MUS:1212) Group Instruction in Piano II; and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** at least 23-32 s.h. of course work in the major and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** at least 33-41 s.h. of course work in the major and at least three-quarters of the semester hours required for graduation
before the eighth semester begins: at least 40-46 s.h. of course work in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Music

Students may apply more than 50 s.h. earned in School of Music courses toward the minimum 120 s.h. required for the B.M.

Before the third semester begins: 18 s.h. of course work in the major, including 025:002 (MUS:1201) Musicianship and Theory I, 025:003 (MUS:1202) Musicianship and Theory II, 025:071 (MUS:1211) Group Instruction in Piano I, and 025:072 (MUS:1212) Group Instruction in Piano II; and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: at least 34 s.h. of course work in the major, including 025:004 (MUS:2203) Musicianship and Theory III and 025:005 (MUS:2204) Musicianship and Theory IV, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: at least 50 s.h. of course work in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: at least 56 s.h. of course work in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors

Exceptional music majors who are members of the University of Iowa Honors Program and maintain a music g.p.a. of at least 3.80 may participate in the School of Music's honors program. Membership in the University of Iowa Honors Program requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information).

Honors students in music may enroll in honors sections of courses offered by the School of Music and by the College of Liberal Arts and Sciences. They also may seek honors designation for any course, with the instructor's consent. All honors course work must be approved by the School of Music honors advisor at the beginning of the semester in which the work is to be done.

Junior and senior honors students with a music g.p.a. of at least 3.80 may work toward graduation with honors. Graduation with honors in music requires 6-8 s.h. of honors credit, including a minimum of 3 s.h. earned in 025:097 (MUS:4995) Honors in Music. Honors projects may include honors performances (solo and/or ensemble); honors compositions (or transcriptions, orchestrations, or arrangements); and honors essays, research papers, editions, or translations. Honors projects may not duplicate projects that are assigned in other courses or that are required for graduation [e.g., 025:154 (MUS:4900) Senior Recital]. Students normally earn 2 s.h. of honors credit for a full honors recital or 3 s.h. for a full honors recital accompanied by a paper or extensive program notes.

Honors students in music are encouraged to take graduate-level courses and may receive honors credit for the work, with the instructor's approval. Advanced courses in music history and music theory are particularly recommended. Consult the School of Music honors advisor for more information.

Minor

The minor in music requires a minimum of 15 s.h. in music courses, including 12 s.h. in advanced courses and 3 s.h. taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work toward the minor may not be taken pass/nonpass.

Work for the minor must include one music theory course, one music history course, and 3 s.h. of performance courses (applied instruction or ensembles). Auditions with the instructor are required for admission to the lower-level applied instruction courses; admission to the theory courses is determined by results on the theory placement exam or completion of 025:001 (MUS:1200) Fundamentals of Music for Majors.

The following courses are considered advanced for the minor.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>025:002 (MUS:1201)</td>
<td>Music History I</td>
</tr>
<tr>
<td>025:003 (MUS:1202)</td>
<td>Music History II</td>
</tr>
<tr>
<td>025:004 (MUS:2203)</td>
<td>Music History III</td>
</tr>
<tr>
<td>025:005 (MUS:2204)</td>
<td>Music History IV</td>
</tr>
<tr>
<td>Courses numbered 025:100 (MUS:3659) and above</td>
<td>All lower-level applied instruction courses for majors</td>
</tr>
</tbody>
</table>

Students may count a maximum of 7 s.h. of transfer credit up to 7 s.h. toward the music theory, music history, and elective requirements. No transfer credit may be counted toward music performance requirements.

Courses for Nonmajors

The School of Music offers a wide range of courses that are appropriate for non-music majors. Courses about jazz, music and culture, music history, music software, and other topics are available as well as individual instruction on a number of instruments and voice. See "General," "Jazz Studies," and "Music History" under "Courses" below.

Participation in School of Music ensembles is open to all University of Iowa students with the ensemble director's approval. Major ensembles are as follows.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>025:142 (MUS:3172)</td>
<td>Camerata Singers</td>

<td>Introduction to Film Music</td>
</tr>
</tbody>
</table>
025:080 (MUS:1009) Jazz Cultures in America and Abroad 3 s.h.
025:103 (MUS:3310) World Music 3 s.h.
025:104 (MUS:3311) Music of Latin America and the Caribbean 3 s.h.
025:141 (MUS:3720) History of Jazz 3 s.h.
025:144 (MUS:3301) History of Music I 3 s.h.
025:146 (MUS:3302) History of Music II 3 s.h.

Students interested in taking 025:059 (MUS:1020) Performance Instruction for Nonmajors should consult with the instructor of their instrument.

Other courses particularly recommended for nonmajors include the following.

025:007 (MUS:1007) Garage Band: The Basics 2 s.h.
025:009 (MUS:1000) First-Year Seminar 1 s.h.
025:010 (MUS:1100) Fundamentals of Music 3 s.h.
025:013 (MUS:1301) Concepts and Contexts of Western Music 3 s.h.
025:063 (MUS:1150) Survey of World Percussion 1 s.h.
025:064 (MUS:1010) Recital Attendance for Non-Majors 1 s.h.
025:082 (MUS:1003) Group Piano I: Non-Music Majors 1 s.h.
025:084 (MUS:1002) Group Piano II: Non-Music Majors 1 s.h.
025:137 (MUS:1004) World of the Beatles 3 s.h.
025:166 (MUS:1006) Popular Music in the United States 3 s.h.
025:167 (MUS:3850) Introduction to Laban Movement Studies 2-3 s.h.
025:173 (MUS:3154) Introduction to Afro-Cuban Drumming 1 s.h.
025:178 (MUS:3312) Music, Culture, and Identity 3 s.h.

For course content descriptions, see "Courses" below.

National Honor Society

The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. All music majors with scholarships must enroll in a major ensemble and studio lessons each semester. For information, write to the School of Music.

Certificate in Disability Studies

The School of Music administers the undergraduate certificate program in disability studies; see Disability Studies (p. 208) in the Catalog.

Graduate Programs

- Master of Arts in music
- Master of Fine Arts in music
- Doctor of Philosophy in music
- Doctor of Musical Arts
- Minor in theory pedagogy
- Certificate in Sacred Music

Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available from the school’s academic office or on the School of Music web site.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations of the Graduate College or Graduate (p. 808) College in the Catalog.

ADVISORY EXAMINATIONS

Before they register, entering graduate students must take two School of Music advisory examinations: one in music theory, and one in music history and literature. M.A. students in music therapy are not required to take the advisory examination in music theory or music history. These examinations are given at the beginning of the fall semester on the two days (except Sunday) immediately preceding the opening of classes, and at the beginning of the spring and summer sessions by appointment. A leaflet describing the general content of these tests is available from the School of Music academic office.

ENSEMBLE PARTICIPATION

Graduate students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students normally enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director. Major ensembles are as follows.

025:142 (MUS:3172) Camerata Singers 1 s.h.
025:181 (MUS:3174) University Choir 1 s.h.
025:185 (MUS:3170) Kantorei 1 s.h.
025:191 (MUS:3176) Women's Chorale 1 s.h.
025:192 (MUS:3180) Orchestra 1 s.h.
025:194 (MUS:3160) Symphony Band/Concert Band/University Band 1 s.h.

Keyboard majors may substitute piano accompanying for major ensemble participation, at their major applied teacher’s discretion. Jazz studies majors substitute 025:197 (MUS:3730) Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement. The M.A. in musicology requires one semester of any ensemble.

Any student who wants to request adjustment of this requirement must submit his or her request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music associate director for graduate studies.

Master of Arts

The Master of Arts program in music requires a minimum of 30-37 s.h. of graduate credit. The M.A. concentrations in performance, conducting, jazz studies, composition, music theory, musicology, music therapy, and music education require a recital, capstone project, or thesis. Performance majors present a public recital in place of a written thesis. Music therapy majors complete a capstone research project. Jazz studies majors present a public recital and a
separate performance project. The Master of Arts in music education is offered with thesis and non-thesis options. All M.A. programs—except music therapy and music education—require the following course work.

025:321 (MUS:5300) Introduction to Graduate Study in Music 2 s.h.

**MUSIC THEORY**

Students must earn 6 s.h.

025:240 (MUS:5200) Basic Analytical Techniques (unless exempt by advisory exam) 3 s.h.

Students exempted from 025:240 (MUS:5200) Basic Analytical Techniques through the advisory examination in music theory must substitute an additional theory elective chosen from the following.

025:145 (MUS:4200) Counterpoint Before 1600 3 s.h.
025:147 (MUS:4201) Counterpoint After 1600 3 s.h.
025:247 (MUS:5230) Post-Tonal Analysis 3 s.h.
025:249 (MUS:5235) Tonal Analysis 3 s.h.
025:256 (MUS:5240) Special Topics in Theory and Analysis 3 s.h.

Students also must choose one elective from these:

025:145 (MUS:4200) Counterpoint Before 1600 3 s.h.
025:147 (MUS:4201) Counterpoint After 1600 3 s.h.
025:241 (MUS:6210) History of Music Theory I 3 s.h.
025:242 (MUS:6211) History of Music Theory II 3 s.h.
025:247 (MUS:5230) Post-Tonal Analysis 3 s.h.
025:249 (MUS:5235) Tonal Analysis 3 s.h.
025:256 (MUS:5240) Special Topics in Theory and Analysis 3 s.h.
025:311 (MUS:6245) Advanced Post-Tonal Theory and Analysis 3 s.h.
025:312 (MUS:6250) Advanced Tonal Theory and Analysis 3 s.h.

**MUSIC HISTORY**

Students must earn 6 s.h.

025:301 (MUS:5301) Advanced History and Literature of Music I 3 s.h.
025:302 (MUS:5302) Advanced History and Literature of Music II 3 s.h.

Students exempted from 025:301 (MUS:5301) Advanced History and Literature of Music I and/or 025:302 (MUS:5302) Advanced History and Literature of Music II through the advisory examination in music history must substitute a music history course from the following list for each of the exemptions.

025:303 (MUS:6320) Medieval Music 3 s.h.
025:304 (MUS:6325) Renaissance Music 3 s.h.
025:305 (MUS:6330) Seventeenth-Century Music 3 s.h.
025:306 (MUS:6335) Eighteenth-Century Music 3 s.h.
025:307 (MUS:6340) Nineteenth-Century Music 3 s.h.
025:308 (MUS:6345) Music 1900-1945 3 s.h.
025:309 (MUS:6350) Music 1945-Present 3 s.h.
025:310 (MUS:6355) American Music 3 s.h.
025:313 (MUS:6360) Major Composers 3 s.h.
025:318 (MUS:6314) Topics in Ethnomusicology 3 s.h.
025:319 (MUS:6315) Foundations of Ethnomusicology 3 s.h.
025:323 (MUS:6321) Medieval Music Notations 3 s.h.
025:324 (MUS:6326) Renaissance Music Notations 3 s.h.
025:325 (MUS:6375) Music Editing 3 s.h.
025:330 (MUS:6310) Seminar in Musicology 3 s.h.
025:331 (MUS:6327) Performance Practices of Medieval and Renaissance Music 3 s.h.

**Master of Fine Arts**

The Master of Fine Arts program in music requires a minimum of 60 s.h. of graduate credit. It is designed for students of superior ability in instrumental or vocal performance. M.F.A. students present at least two full-length recitals or programs and must write a thesis, a research paper of moderate length, in 025:401 (MUS:6910) M.F.A. Thesis. The thesis may relate to some or all of the repertoire included on the recitals.

Students may earn a Master of Arts while working toward the Master of Fine Arts, but they must take two separate final examinations.

**Doctor of Philosophy**

The Doctor of Philosophy program in music requires a minimum of 72 s.h. of graduate credit. Ph.D. concentration areas include composition, musicology, music education, music theory, and vocal pedagogy and literature. The vocal pedagogy and literature program is designed for students who already have achieved a professional level of musical performance; they are required to audition in their major performance area.

Information about specific admission and curricular requirements for each area is available from the School of Music office.

Ph.D. students in composition, musicology, music theory, and vocal pedagogy and literature must complete the courses required for the M.A. (see “Master of Arts” above). They also must complete the following course work.

One or more additional music theory course(s) listed in the M.A. requirements

One of these:

Proficiency in one or more foreign languages is required for Ph.D. students in composition, musicology, music theory, and music literature. Ph.D. students in music education should contact the School of Music for requirements.

**Doctor of Musical Arts**

The Doctor of Musical Arts is offered with two concentrations: conducting, and performance and pedagogy. Requirements for the D.M.A. are the same as for the Ph.D. (see "Doctor of Philosophy" above), except that the D.M.A. requires three recitals or programs [025:503 (MUS:7900) D.M.A. Recital and 025:502 (MUS:7970) D.M.A. Essay] instead of the Ph.D. thesis. At the performance area’s discretion, a concerto performance with orchestra or other appropriate ensemble from the School of Music may be substituted for one of the recitals. Some performance areas allow one or more lecture recitals, with faculty approval. Singers may substitute one major opera role or one major solo contribution to an orchestra performance for one of their recitals. See the school’s associate director for graduate programs for specific area requirements.
## Minor in Theory Pedagogy

Any student admitted to a graduate degree program in the School of Music may earn the theory pedagogy minor by completing the following courses.

### One of these:

<table>
<thead>
<tr>

## Certificate in Sacred Music

The Certificate in Sacred Music requires 25 s.h. It is an interdisciplinary program with courses in sacred music, choral conducting and literature, keyboard, voice, religion, and art and art history. Students may earn the certificate while working toward a graduate degree. Individuals not enrolled in a graduate program also may complete the certificate, but they must be admitted to the Graduate College and have the consent of a faculty advisor. Completion of the certificate is noted on the student’s transcript.

### Financial Support

Qualified graduate students are invited to apply for teaching and research assistantships. Inquiries should be directed to the School of Music office.

### Facilities, Resources

#### Center for New Music

The Center for New Music is a vital component of the School of Music’s composition program. Since its founding in 1966, the center has been both laboratory and showcase for late-20th and 21st-century music. It presents at least four concerts of contemporary works each academic season. It also provides a forum for visiting composers and other creative artists, bringing new music to a variety of outreach venues. Audition, rehearsal, and programming information is available on the Center for New Music web site.

#### Rita Benton Music Library

The Rita Benton Music Library is currently located in the University’s Main Library. The music library holds more than 70,000 scores, including chamber music sets; 50,000 books, including bound journals; 3,500 microforms, chiefly manuscripts and early printed books; and 28,000 media items in all formats. It receives about 300 journals. Its rare book division has particular strengths in 18th- and 19th-century music theory treatises and instrumental methods, and an outstanding collection of keyboard and chamber music by Ignaz Pleyel. The library also houses the Goldman Band Collection. Music manuscripts of the composer Phillip Greeley Clapp, a former director of the school, are housed in Special Collections & University Archives.

The library’s large reference collection is supplemented by several online resources, including Music Index, IMP, Grove Music Online, RILM, RIM, WorldCat, and InfoHawk Catalog, the University’s online library catalog. Online resources for streamed audio include Classical Music Library, Naxos Music Library, Naxos Jazz, African-American Song, Smithsonian Global Sound, and the Database of Recorded American Music (DRAM).

Materials circulate to University of Iowa faculty and students and to institutions that have reciprocal agreements with the University. Individuals not affiliated with the University may qualify for borrower’s permits.

### Courses

Several School of Music courses are especially appropriate for non-music majors. Some are approved for General Education; look for them (prefix 025 (MUS)) in the Literary, Visual, and Performing Arts course list in the General Education Program (p. 276) section of the Catalog.

The courses listed under "General" below are especially appropriate for non-music majors, as are several listed under "Music History" below. For others, see "Courses for Nonmajors" earlier in this Catalog section.

Non-music majors may participate in most School of Music ensembles; see "Ensembles" below.

#### General

The following courses are especially appropriate for non-music majors.

Instruction in 025:059 (MUS:1020) Performance Instruction for Nonmajors consists of a half-hour lesson per week. The course is offered on a fee-per-course basis, in addition to tuition. Students register under separate section numbers for different instruments.

</table>

Application of GarageBand software (Mac platform) using midi keyboards; composition and music theory for projects using drag-and-drop looping, multitrack recording, sound effects, mixing, importing music for composition. Requirements: prior musical experience (student can sing or play an instrument).
025:009 (MUS:1000) First-Year Seminar  
1 s.h.
An aspect of performance, creativity, musical literature, or scholarship; seminar format with classroom participation, papers, projects, other assignments; may require attendance at lectures, rehearsals, or performances. Requirements: first- or second-semester standing.

025:010 (MUS:1100) Fundamentals of Music  
3 s.h.
Notation of pitch and rhythm, intervals, scales, key signatures, triads, and seventh chords. Offered by Saturday & Evening Classes. Requirements: non-music major.

025:012 (MUS:1012) Creativity in Music  
3 s.h.
Where does music come from? When, why, and how did people first start making music? How do music creators turn raw inspiration into finished pieces? How do improvisers create music on the spot? Can anyone create music or is that something only for composers? Development of music creation from long ago to present day; presentations by guest composers and performers who will demonstrate how they compose or improvise their music. GE: Literary, Visual, and Performing Arts.

025:013 (MUS:1301) Concepts and Contexts of Western Music  
3 s.h.
Ideas, social and historical contexts, emergence of genres and styles, diverse performing traditions in music making of Europe and North America. GE: Literary, Visual, and Performing Arts.

025:014 (MUS:1302) Great Musicians  
3 s.h.
Lives and works of important composers, performers. GE: Literary, Visual, and Performing Arts.

025:059 (MUS:1020) Performance Instruction for Nonmajors  
1 s.h.
Bassoon, cello, clarinet, euphonium, flute, horn, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, or voice. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

025:063 (MUS:1150) Survey of World Percussion  
1 s.h.
Percussion music explored through a selection of nonwestern musical and cultural traditions; hands-on experience learning to play instruments from a variety of musical genres; music of Cuba, Brazil, Africa, Trinidad, Asia, other areas.

025:064 (MUS:1010) Recital Attendance for Non-Majors  
1 s.h.
Musical experience through student, faculty recitals.

025:066 (MUS:1066) Introduction to Film Music  
3 s.h.
Major styles and composers of film music from early 20th century to the present; focus on case studies to understand different roles music can play in cinema; opportunities to employ critical thinking and listening skills to analyze particular films or key scenes. GE: Literary, Visual, and Performing Arts.

025:074 (MUS:1210) Recital Attendance  
1 s.h.
Requirements: music major.

025:082 (MUS:1001) Group Piano I: Non-Music Majors  
1 s.h.
Reading, technical study, chording, playing by ear, improvisation; for beginners. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

025:084 (MUS:1002) Group Piano II: Non-Music Majors  
1 s.h.

3 s.h.
History of popular female musicians and the influence of their lyrics, music, and performances on American and British cultures; how women’s musical careers have been influenced by civil rights, the British invasion (Beatles, Rolling Stones), second-wave feminism, postfeminism, Vietnam, counterculture, social injustice, music education, rock festivals, charity concerts.

025:103 (MUS:3310) World Music  
3 s.h.
Varied perspectives on the relationship of music and culture, drawing from musical cultures around the world. GE: Literary, Visual, and Performing Arts.

025:104 (MUS:3311) Music of Latin America and the Caribbean  
3 s.h.
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

025:106 (MUS:2106) Improvisation for Classical Musicians  
3 s.h.
Theory and practice in beginning nonjazz improvisation; development of aural and rhythmic skills, creation of rhythms and melodies, use of timbres and extended techniques in expression, development of instrumental technique for improvisation, practical understanding of harmony and form, experience in solo and accompaniment roles, creation of short pieces as vehicles for improvisation. Requirements: one year of music theory.

025:111 (MUS:3315) Special Topics  
3 s.h.
One or more musical styles, genres, cultures, composers, or subjects.

025:137 (MUS:1004) World of the Beatles  
3 s.h.
How the Beatles’ music was influenced by American pop music, the drug culture, and the Avant Garde, nonwestern instruments and philosophy, anti-war sentiments, and world politics, and so forth; Beatlemania’s impact on British and American cultures and its role in opening Eastern Europe to the West. Same as 188:137 (DPA:1004).

025:143 (MUS:3800) Reed Class  
1 s.h.
Development of reed-making skills; focus on steps to complete reeds from tube cane to a finished reed; different ways of reed making; practical, pedagogical, and historical approaches; producing various reed styles. Requirements: music major.

025:160 (MUS:2160) Drumline Techniques  
1 s.h.
Training and experience in contemporary marching percussion and rudimental drumming techniques.

025:166 (MUS:1006) Popular Music in the United States  
3 s.h.
Popular music and culture in the United States from early 20th century to present; basic musical style and performance analysis, social meaning and use.
025:167 (MUS:3850) Introduction to Laban Movement Studies 2-3 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as 049:105 (THTR:3850), 137:160 (DANC:3850), 188:167 (DPA:3850).

025:172 (MUS:2872) The Music and History of the Symphony Orchestra 3 s.h.
History and great works of symphonic literature; major composers of orchestral music; institutional history of the symphony orchestra; development of critical listening skills to identify orchestral instruments and perceive structure and style of selected orchestral works; following musical scores to derive information about orchestration, style, and form. Recommendations: upper-level non-music major or undergraduate music major.

025:173 (MUS:3154) Introduction to Afro-Cuban Drumming 1 s.h.
Drumming, dance, songs from folkloric and ceremonial Afro-Cuban forms; emphasis on drumming; may include participation in Afro-Cuban drum and dance ensemble. Same as 188:173 (DPA:3154).

025:176 (MUS:3851) Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and “self-use”—how our movement choices affect the results we achieve; improving physical skills and presence; principles from the Alexander Technique in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting) and applied to skills in daily life, addressing the underpinnings of movement; physical participation, including laying, rolling, sitting, standing, and locomotion. Same as 188:168 (DPA:3851), 137:173 (DANC:3851), 049:170 (THTR:3851).

025:178 (MUS:3312) Music, Culture, and Identity 3 s.h.
Use of music as marker of social identity; focus on popular music in the United States and interplay among Latino, African, and European-American musical cultures; listening skills.

Applied Music
Instruction consists of individual and/or class lessons, at the instructor’s option, for a minimum of one hour per week (students register for 2 s.h.), or one half-hour per week (students register for 1 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music.

Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

Guitar instruction is offered only at the lower level. Enrollment in 025:043 (MUS:2038) Lower Level Jazz Guitar is limited to three Bachelor of Arts students. Students may not enroll in the Bachelor of Music program with guitar as their major instrument.

LOWER-LEVEL UNDERGRADUATE MAJORS

025:040 (MUS:2020) Lower Level Voice 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:041 (MUS:2021) Lower Level Piano 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:042 (MUS:2022) Lower Level Organ 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:043 (MUS:2038) Lower Level Jazz Guitar 1 s.h.
Requirements: Audition required.

025:044 (MUS:2023) Lower Level Violin 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:045 (MUS:2024) Lower Level Viola 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:046 (MUS:2025) Lower Level Cello 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:047 (MUS:2026) Lower Level String Bass 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:048 (MUS:2027) Lower Level Flute 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:049 (MUS:2028) Lower Level Oboe 1 s.h.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
025:050 (MUS:2029) Lower Level Clarinet
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:051 (MUS:2030) Lower Level Bassoon
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:052 (MUS:2031) Lower Level Saxophone
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:053 (MUS:2032) Lower Level Horn
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:054 (MUS:2033) Lower Level Trumpet
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:055 (MUS:2035) Lower Level Euphonium
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:056 (MUS:2034) Lower Level Trombone
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:057 (MUS:2036) Lower Level Tuba
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:058 (MUS:2037) Lower Level Percussion
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

UPPER-LEVEL UNDERGRADUATE MAJORS

025:119 (MUS:3020) Upper Level Voice
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:120 (MUS:3021) Upper Level Piano
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval following a successful audition.

025:121 (MUS:3022) Upper Level Organ
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:122 (MUS:3023) Upper Level Violin
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:123 (MUS:3024) Upper Level Viola
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:124 (MUS:3025) Upper Level Cello
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:125 (MUS:3026) Upper Level String Bass
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:126 (MUS:3027) Upper Level Flute
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:127 (MUS:3028) Upper Level Oboe
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:128 (MUS:3029) Upper Level Clarinet
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:129 (MUS:3030) Upper Level Bassoon
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
025:130 (MUS:3031) Upper Level Saxophone
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:131 (MUS:3032) Upper Level Horn
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:132 (MUS:3033) Upper Level Trumpet
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:133 (MUS:3035) Upper Level Euphonium
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:134 (MUS:3034) Upper Level Trombone
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:135 (MUS:3036) Upper Level Tuba
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

025:136 (MUS:3037) Upper Level Percussion
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

SECONDARY PERFORMANCE INSTRUCTION FOR MAJORS
Instruction consists of one half-hour lesson per week. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

025:017 (MUS:1120) Secondary Performance--Voice
1 s.h.

025:018 (MUS:1121) Secondary Performance--Piano
Requirements: music major.

025:019 (MUS:1122) Secondary Performance--Organ
1 s.h.

025:021 (MUS:1123) Secondary Performance--Violin
1 s.h.

025:022 (MUS:1124) Secondary Performance--Viola
1 s.h.

025:023 (MUS:1125) Secondary Performance--Cello
1 s.h.

025:024 (MUS:1126) Secondary Performance--String Bass
1 s.h.

025:025 (MUS:1127) Secondary Performance--Flute
1 s.h.

025:026 (MUS:1128) Secondary Performance--Oboe
1 s.h.

025:027 (MUS:1129) Secondary Performance--Clarinet
1 s.h.

025:028 (MUS:1130) Secondary Performance--Bassoon
1 s.h.

025:029 (MUS:1131) Secondary Performance--Saxophone
1 s.h.

025:030 (MUS:1132) Secondary Performance--Horn
1 s.h.

025:031 (MUS:1133) Secondary Performance--Trumpet
1 s.h.

025:032 (MUS:1135) Secondary Performance--Euphonium
1 s.h.
025:033 (MUS:1134) Secondary Performance--Trombone
1 s.h.

025:034 (MUS:1136) Secondary Performance--Tuba
1 s.h.

025:035 (MUS:1137) Secondary Performance--Percussion
1 s.h.

025:036 (MUS:1139) Secondary Performance--Composition
1 s.h.

Choral Literature

025:341 (MUS:6561) Seminar: Choral Literature and Analysis I
1-3 s.h.

025:342 (MUS:6562) Seminar: Choral Literature and Analysis II
1-3 s.h.

025:343 (MUS:6563) Seminar: Choral Literature and Analysis III
1-3 s.h.

025:344 (MUS:6564) Seminar: Choral Literature and Analysis IV
1-3 s.h.

Composition

025:148 (MUS:3220) Instrumentation
Basic techniques of writing for orchestral instruments; ranges, transpositions, sound production, notating scores and parts. Prerequisites: 025:005 (MUS:2204).
2 s.h.

025:156 (MUS:3230) Composition Seminar
0-1 s.h.

025:157 (MUS:4220) Orchestration
Instrumental capabilities and combinations in solo, chamber, and large ensemble literature; application in composition. Prerequisites: 025:148 (MUS:3220).
2 s.h.

025:179 (MUS:2220) Composition
arr.

025:223 (MUS:5220) Advanced Composition
arr.

025:250 (MUS:4250) Composition: Electronic Media I
Composition using analog, digital technology. Offered fall semesters.
3 s.h.

025:251 (MUS:4251) Composition: Electronic Media II
Advanced interactive techniques in composition in association with analog, digital technologies. Offered spring semesters.
3 s.h.

Conducting

025:107 (MUS:3625) Techniques of Conducting
Basic elements, score analysis.
2 s.h.

025:158 (MUS:6580) Advanced Conducting
Requirements: graduate standing.
2 s.h.

025:200 (MUS:6590) Seminar in Advanced Band Literature and Band History
Band literature; history.
arr.

025:203 (MUS:6581) Advanced Choral Conducting I
1-3 s.h.

025:204 (MUS:6582) Advanced Choral Conducting II
1-3 s.h.

025:205 (MUS:6583) Advanced Choral Conducting III
1-3 s.h.

025:206 (MUS:6584) Advanced Choral Conducting IV
1-3 s.h.

025:225 (MUS:6585) Score Reading
1 s.h.

025:291 (MUS:6586) Orchestral Literature
2 s.h.

Ensembles
Enrollment requires consent of instructor. Courses may be repeated.

025:142 (MUS:3172) Camerata Singers
1 s.h.

025:162 (MUS:3184) All-University String Orchestra
Repertoire, rehearsal pacing, and performance expectation geared to general students. Open to all UI students with no audition.
1 s.h.

025:180 (MUS:3163) Steel Band
Musical and cultural introduction to steel band music of Trinidad and other Caribbean musical styles, including calypso, soca, ska, and reggae.
1 s.h.

025:171 (MUS:3190) Center for New Music Ensemble
Participation in the Center for New Music; focus on contemporary composition and performance, 20th- and 21st-century repertoire and styles.
1 s.h.

025:180 (MUS:3166) Large Pep Band
Performing ensemble for men's basketball games during spring semester. Requirements: membership in 025:193 (MUS:3165) and audition.
1 s.h.

025:181 (MUS:3174) University Choir
1 s.h.

025:183 (MUS:3182) Chamber Orchestra
Requirements: upper-level undergraduate standing.
1 s.h.
Jazz Studies

025:185 (MUS:3170) Kantorei 1 s.h.

Collaborative arts techniques, methods, and history. Requirements: keyboard major.

Requirements: music major.

025:188 (MUS:3482) String Chamber Music arr.

Preparation, performance of representative literature; sections for woodwinds, brass, flute, clarinet, horn, saxophone, double reed, trumpet, trombone, brass choir, tuba/euphonium ensemble.

025:191 (MUS:3176) Women's Chorale 1 s.h.

025:192 (MUS:3180) Orchestra 1 s.h.

025:193 (MUS:3165) Hawkeye Marching Band 1 s.h.
Offered fall semesters.

025:194 (MUS:3160) Symphony Band/Concert Band/University Band 1 s.h.
Participation in Symphony Band, Concert Band, and/or University Band.

Range of styles and idioms, primarily written during the 20th and 21st centuries; historical or cultural aspects such as ancient rudimental drumming styles, ragtime, jazz, popular music, and music from Africa, the Caribbean, Brazil, Cuba, China.

025:258 (MUS:3151) Percussion Chamber Ensemble 1 s.h.
Advanced percussion ensemble experience to complement work in larger format percussion ensemble; preparation and performance of most important repertoire for percussion ensemble; new works brought to light in a small chamber group setting. Requirements: upper-level undergraduate or graduate percussion major.

Jazz Studies

025:080 (MUS:1009) Jazz Cultures in America and Abroad 3 s.h.
How to listen to jazz and recognize a variety of processes that are taking place in performances and recordings; historical, social, and political issues, including race and gender; the unique blend of jazz of a particular region; attendance at live performances, meet and interview musicians, critics, and educators. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

025:095 (MUS:1711) Sight Reading jazz 1 s.h.
Methods for sight-reading and interpreting jazz notation. Requirements: music major or audition.

025:101 (MUS:2710) Introduction to Improvisation 3 s.h.

025:102 (MUS:3710) Intermediate Jazz Improvisation 2 s.h.
Improvisation in the jazz repertoire of standards, bebop, and major composers such as Thelonious Monk, Wayne Shorter; memorization and use of melodies, knowledge of chords to the thirteenth, chromatic harmony, development of rhythmic motifs/alteration, strategies for multiple chorus improvisations; separate section for drummers. Prerequisites: 025:101 (MUS:2710) and 025:118 (MUS:3750). Requirements: audition.

025:118 (MUS:3750) Jazz Theory 2 s.h.
Development of skills for interpreting melodies and chord symbols in mainstream practice of jazz harmony at the piano; application of scales, development of voice leading for jazz harmonies, reharmonization, and analysis. Requirements: 025:002 (MUS:1201) or audition.

025:141 (MUS:3720) History of Jazz 3 s.h.
Major 20th-century styles, artists, seminal works, and recordings; developments between 1917 and 1972. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

025:196 (MUS:3760) Jazz Band Techniques 1 s.h.
Development of skills for sight-reading and interpreting notated jazz. Prerequisites: 025:095 (MUS:1711).

025:197 (MUS:3730) Jazz Band 1 s.h.
Jazz performance ensembles, rehearsals, and concerts on and off campus.

025:224 (MUS:3740) Small Jazz Ensembles 1 s.h.
Development of repertoire from standard jazz literature, arrangements and compositions by ensemble members; rehearsals (three hours per week) and performances on and off campus. Requirements: audition.

025:231 (MUS:4760) Jazz Composition and Arranging 2 s.h.
Experience writing and arranging original jazz material for small and large ensembles, and presenting scores in computer notation; individual lessons. Prerequisites: 025:118 (MUS:3750).

025:243 (MUS:4710) Advanced Jazz Improvisation 2 s.h.
Builds on the skills learned in 025:102 (MUS:3710); contemporary techniques and styles used by current practitioners of improvisation; free improvisation, bitonal harmonies, through-composed forms, collective improvisation, nonwestern approaches. Prerequisites: 025:102 (MUS:3710) and 025:118 (MUS:3750). Requirements: audition.

025:244 (MUS:4750) Transcription 2 s.h.
Individual projects to transcribe improvisations, small ensemble arrangements, large ensemble arrangements, or nonwestern techniques; use of computer notation programs and midirealizations. Prerequisites: 025:102 (MUS:3710) and 025:118 (MUS:3750).

Music Education

The College of Education offers additional music education courses; see Teaching and Learning (p. 699) in the Catalog for listings and descriptions. Some courses have two numbers, one for the School of Music and the other for the College of Education. Students preparing for music teacher licensure should register under the education number.

Also see 025:196 (MUS:3760) Jazz Band Techniques under "Jazz Studies."
025:100 (MUS:3659) Class Strings 1 s.h.
String playing and basic principles of string pedagogy; for band and string students. Offered fall semesters for band; offered fall and spring semesters for string. Requirements: teacher education student in music.

025:105 (MUS:3605) Instrumental Techniques 2 s.h.
Same as 075:143 (EDTL:3605).

025:108 (MUS:3635) Instrumental Conducting 3 s.h.
Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: 025:107 (MUS:3625). Same as 075:145 (EDTL:3635).

025:109 (MUS:3640) Choral Methods 3 s.h.
Organization, implementation of effective choral music programs for all ages. Same as 075:147 (EDTL:3640).

025:110 (MUS:3645) Choral Conducting and Literature 3 s.h.
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under 075:148 (EDTL:3645). Prerequisites: 075:147 (EDTL:3640) and 025:107 (MUS:3625). Same as 075:148 (EDTL:3645).

025:112 (MUS:3660) String Methods and Materials 3 s.h.
Methods for teaching bands in schools. Offered fall semesters. Same as 075:150 (EDTL:3660).

025:114 (MUS:3664) Introduction to Band Instruments 2 s.h.
Survey of wind and percussion instruments; for music education string majors.

025:117 (MUS:3665) Arranging for Band 2 s.h.
Scoring and arranging techniques for concert, marching bands. Offered spring semesters.

025:164 (MUS:3630) Band Methods and Materials 3 s.h.
High school and elementary school music methods required for teaching certificate; for instrumental music education majors. Same as 075:140 (EDTL:3630).

025:182 (MUS:3666) Marching Band Techniques 1 s.h.
Administration, show design. Offered fall semesters.

025:220 (MUS:5600) Music Education Workshop 1 s.h.
For in-service music teachers; topics vary. Same as 075:241 (EDTL:5600).

025:234 (MUS:5601) Music Education Workshop II 1 s.h.
Varied topics; for in-service music teachers. Same as 075:242 (EDTL:5601).

Music History

This listing includes several courses appropriate for non-music majors. Other music history courses appropriate for nonmajors are listed under “General” above.

025:144 (MUS:3301) History of Music I 3 s.h.
Requirements: 025:003 (MUS:1202) and 025:004 (MUS:2203) for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

025:146 (MUS:3302) History of Music II 3 s.h.
Requirements: 025:003 (MUS:1202) and 025:004 (MUS:2203) for music majors. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

025:238 (MUS:6300) Musicology Colloquium 0 s.h.

025:301 (MUS:5301) Advanced History and Literature of Music I 3 s.h.
History and style of Medieval, Renaissance, and Baroque music (750-1750). Offered fall semesters.

025:302 (MUS:5302) Advanced History and Literature of Music II 3 s.h.
History and style of Classical, 19th-, 20th-, and 21st-century music (1750-present). Offered spring semesters.

025:303 (MUS:6320) Medieval Music 3 s.h.
Prerequisites: 025:301 (MUS:5301).

025:304 (MUS:6325) Renaissance Music 3 s.h.
Prerequisites: 025:301 (MUS:5301).

025:305 (MUS:6330) Seventeenth-Century Music 3 s.h.
Prerequisites: 025:301 (MUS:5301).

025:306 (MUS:6335) Eighteenth-Century Music 3 s.h.
Prerequisites: 025:302 (MUS:5302).

025:307 (MUS:6340) Nineteenth-Century Music 3 s.h.
Prerequisites: 025:302 (MUS:5302).

025:308 (MUS:6345) Music 1900-1945 3 s.h.
Prerequisites: 025:302 (MUS:5302).

025:309 (MUS:6350) Music 1945-Present 3 s.h.
Prerequisites: 025:302 (MUS:5302).

025:310 (MUS:6355) American Music 3 s.h.
Prerequisites: 025:302 (MUS:5302).

025:313 (MUS:6360) Major Composers 3 s.h.
Life and works of one or more important composers.

025:318 (MUS:6314) Topics in Ethnomusicology 3 s.h.
Perspectives on analysis and representation of selected musical cultures from around the world.

025:319 (MUS:6315) Foundations of Ethnomusicology 3 s.h.
Ethnomusicology in relation to domains of musical, humanistic, social science scholarship on expressive culture and artistic processes. Requirements: senior standing.

025:320 (MUS:5310) Introduction to Musicology 1-3 s.h.
Methods, materials of research in historical musicology; field of musicology. Offered fall semesters. Requirements: for 1 s. credit option, 025:321 (MUS:5300). Corequisites: for 3 s. option, 025:321 (MUS:5300).
**Music Therapy**

**025:321 (MUS:5300) Introduction to Graduate Study in Music**
2 s.h.

Music library; reference materials; bibliography; research problems, methods; writing research papers. Offered fall and spring semesters.

**025:323 (MUS:6321) Medieval Music Notations**
3 s.h.

Chant neumes, medieval black notation, musical and textual paleography; transcription of early vocal and instrumental notations; editorial problems. Prerequisites: 025:301 (MUS:5301).

**025:324 (MUS:6326) Renaissance Music Notations**
3 s.h.

Renaissance white notation, keyboard tablatures, musical paleography; transcription of early vocal, instrumental notations; editorial problems. Prerequisites: 025:301 (MUS:5301).

**025:325 (MUS:6375) Music Editing**
3 s.h.

Principles and methods of music editing; use of primary source materials, establishment of music text, preparation of critical apparatus; project to prepare a critical edition of music for publication. Prerequisites: 025:321 (MUS:5300).

**025:330 (MUS:6310) Seminar in Musicology**
3 s.h.

One or more selected areas of music history.

**025:331 (MUS:6327) Performance Practices of Medieval and Renaissance Music**
3 s.h.

Practical approaches to performing vocal and instrumental music before 1600; theoretical, social issues bearing on performance. Prerequisites: 025:301 (MUS:5301).

**025:381 (MUS:7380) Readings in Music History**
arr.

**Music and Technology**

**025:149 (MUS:3780) Audio Recording I**
3 s.h.

Audio fundamentals, including sound generation, acoustical environments, forms of sound energy, basic audio systems; use of microphones (primarily stereo techniques), mixers, recorders, related equipment; introduction to Pro Tools digital recording, editing, and mixing on Macintosh; production of high-quality audio compact discs. Offered fall semesters.

**025:152 (MUS:3781) Audio Recording II**
3 s.h.

Functionality with Pro Tools digital audio recording, editing, mixing, and mastering on Macintosh; basic digital theory; configuration of Macintosh G4 computer with Pro Tools hardware and software; music editing projects and production of multitrack recordings. Offered spring semesters. Requirements: 025:149 (MUS:3780).

**025:161 (MUS:3410) Fundamentals of Piano Technology**
1 s.h.

Offered spring semesters.

**Music Therapy**

**025:087 (MUS:1687) Orientation to Music Therapy**
2 s.h.

Theory, practice; typical clients and places of employment in music therapy.

**025:091 (MUS:2671) Music Foundations in Therapy I**
2 s.h.

Skill development on social instruments such as guitar, autoharp, piano; percussion, song-leading skills, and repertoire development for use in clinical music therapy sessions. Prerequisites: 025:087 (MUS:1687). Requirements: music therapy major.

**025:092 (MUS:2672) Music Foundations in Therapy II**
1-2 s.h.

Advanced skill development on guitar for use in clinical music therapy sessions; percussion techniques, and related skills used in therapeutic settings. Prerequisites: 025:091 (MUS:2671). Requirements: music therapy major.

**025:093 (MUS:3676) Percussion Experience for Teachers and Therapists**
arr.

Hands-on learning experiences in percussion techniques used by music teachers, special education teachers, music therapists, or social workers; basics of hand drumming centering on West African djembe and Trinidadian steel band; skills necessary for interacting with students and clients in educational and clinical settings.

**025:094 (MUS:3675) Music Therapy Practicum**
1-2 s.h.

Supervised clinical training with adult clients and children in variety of health care and educational settings. Prerequisites: 025:087 (MUS:1687). Requirements: music therapy major.

**025:096 (MUS:3680) Music Techniques in Special Education and Recreation**
2-3 s.h.

Music methods and materials appropriate for students with disabilities in special educational settings; overview of individualized educational planning for students with disabilities. Requirements: music therapy or music education major.

**025:098 (MUS:4675) Senior Project in Music Therapy**
1 s.h.

**025:138 (MUS:4685) Music Therapy Techniques: Atypical Children**
3 s.h.

**025:139 (MUS:3690) Music Therapy Techniques: Adult Clients**
3 s.h.

Techniques, procedures for work with adult clients with disabilities. Prerequisites: 025:087 (MUS:1687). Requirements: music therapy major.

**025:140 (MUS:4670) Internship in Music Therapy**
arr.

Clinical training under direction of board certified music therapist. Requirements: core music therapy requirements.

**025:221 (MUS:6690) Special Studies in Music Therapy**
1-3 s.h.

Seminar. Requirements: music therapy or music education graduate standing.

**025:283 (MUS:6670) Graduate Music Therapy Practicum**
arr.

Seminar, clinical field work. Requirements: undergraduate music therapy practicum.

**025:285 (MUS:6675) Research in Music Therapy--Graduate**
1 s.h.

Research methodology; foundation for subsequent semesters of research on capstone project in music therapy.

**025:286 (MUS:6680) College Teaching and Clinic Supervision in Music Therapy**
3 s.h.

Principles of college teaching, curriculum development, clinical supervision in music therapy.
025:287 (MUS:6685) Theory and Research in Music Therapy
Historical background, current principles and practices associated with theories of music therapy, common uses with specific populations; research methodologies associated with testing; theories and clinical practices, assigned research publications; information covered over several semesters with each semester covering three to four common theories; seminar includes strengths and limitations of each theory and its place within clinical practice. Requirements: undergraduate core courses in music therapy.

Orchestra and Band Instruments
Also see 025:112 (MUS:3660) String Methods and Materials, under "Music Education" above.

025:168 (MUS:3140) Audition Repertoire
Practicum on passages frequently requested at professional auditions.

025:174 (MUS:3483) Baroque Seminar for Strings
Introduction to Baroque performance practices and techniques on period string instruments; ensembles. Requirements: enrollment in upper-level or graduate-level applied studies.

025:209 (MUS:5101) Advanced Woodwind Pedagogy and Literature I
Saxophone and clarinet solo and study literature; integration of pedagogical topics.

025:210 (MUS:5102) Advanced Woodwind Pedagogy and Literature II
Oboe, bassoon, and flute solo and study literature; integration of pedagogical topics.

025:253 (MUS:5111) Advanced Brass Pedagogy and Literature I
Tuba, euphonium, and trombone literature; pedagogical topics.

025:254 (MUS:5112) Advanced Brass Pedagogy and Literature II
Trumpet and horn literature; pedagogical topics.

025:255 (MUS:5115) Advanced Brass Ensemble Literature
Brass chamber music literature, including mixed and like-instrument ensembles.

025:295 (MUS:5130) Advanced Percussion Pedagogy and Literature
Percussion literature, styles, notation, performance techniques, composition; survey.

025:298 (MUS:5121) Advanced String Methods and Literature I
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

025:299 (MUS:5122) Advanced String Methods and Literature II
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

025:335 (MUS:6131) Seminar in Performance and Pedagogy Research I
Research in the student's area; selection of a research topic. Offered spring semesters.

025:340 (MUS:7132) Seminar in Performance and Pedagogy Research II
Continuation of 025:335 (MUS:6131); thesis proposal preparation; survey of related literature. Offered spring semesters.

Organ and Sacred Music

025:184 (MUS:4452) Liturgics
History of liturgies and survey of liturgical music from Judaism to present.

025:189 (MUS:4450) Organ Literature Survey
Fifteenth century to present. Requirements: advanced undergraduate or graduate standing.

025:198 (MUS:4454) Service Playing and Improvisation
Hymn playing, accompanying, basic improvisation techniques. Requirements: organ major.

025:226 (MUS:5450) History of Organ Building and Design
Development of organ design from Middle Ages to present; basic concepts of construction, maintenance.

025:228 (MUS:5452) Organ Pedagogy
History, theory, practice from Renaissance to present; methods, literature appropriate for various levels.

025:229 (MUS:5475) Organ Literature Special Topics
Specialized study in selected areas of organ literature.

025:252 (MUS:5465) Hymnology
Survey of historic hymnody: ancient odes, Latin hymns, Reformation hymns and psalms; current developments in hymnody and hymnals; may be special topic study.

Piano

025:071 (MUS:1211) Group Instruction in Piano I
Beginning instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; skill development in sight reading, technique, harmonization, transposition, improvisation, simple literature. Corequisites: 025:002 (MUS:1201). Requirements: music major.

025:072 (MUS:1212) Group Instruction in Piano II
Elementary to early intermediate instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; continued skill development begun in 025:071 (MUS:1211); introduction of easy solo and ensemble literature. Corequisites: 025:003 (MUS:1202). Requirements: 025:071 or successful completion of proficiency examination.

025:073 (MUS:2213) Group Instruction in Piano III
Varies by semester: skills for the music therapy profession, sight-reading, harmonization, transposition, reading from a fake book, and improvisation (fall); skills for the music education profession, sight-reading, harmonization, transposition, score, and hymn reading (spring). Requirements: music therapy, music education, or piano major.

025:113 (MUS:3400) Methods of Teaching Piano
Methods, materials, and teaching techniques for preschool students, precollege students, and adult learners. Requirements: keyboard major.
025:232 (MUS:5400) Piano Pedagogy I 2 s.h.
In-depth study of techniques and materials needed to teach intermediate and advanced piano students; judging competitions; conducting master classes; writing curriculum vitae and cover letters in preparation for academic job searches.

025:233 (MUS:5401) Piano Pedagogy II 2 s.h.
History of the piano and its technique and pedagogy; national schools of piano playing; relationship of technological changes in piano construction to piano technique, pedagogy, and composition; major methods and treatises, historical recordings and video clips; research leading to understanding of students' individual piano lineage.

025:296 (MUS:5410) Piano Literature I 2 s.h.
Baroque era to Mozart or Chopin through 1900.

025:297 (MUS:5411) Piano Literature II 2 s.h.
Beethoven through Schumann or 20th century.

025:361 (MUS:7400) Special Studies Piano Literature
Individual research in special aspects of piano literature; primarily for D.M.A. students.

025:362 (MUS:7401) Special Studies in Piano Accompaniment and Chamber Music
Advanced collaborative arts practicum. Prerequisites: 025:186 (MUS:3480).

Recital and Thesis

025:097 (MUS:4995) Honors in Music 1-4 s.h.
Requirements: honors standing.

025:099 (MUS:4910) Bachelor's Thesis 0-1 s.h.

025:154 (MUS:4900) Senior Recital 1 s.h.

025:199 (MUS:3990) Special Studies arr.

025:503 (MUS:7900) D.M.A. Recital arr.

Theory

025:001 (MUS:1200) Fundamentals of Music for Majors 3 s.h.
Rudiments of music—notation of pitch and rhythm, meter, scales, keys, intervals, triads; first of a five-semester sequence.

025:002 (MUS:1201) Musicianship and Theory I 4 s.h.
Principles of harmony; emphasis on aural skills, theoretical concepts, notation. Offered fall semesters. Requirements: 025:001 (MUS:1200) or successful completion of music theory diagnostic exam, and concurrent enrollment in 025:071 (MUS:1211) or successful completion of piano proficiency exam.

025:003 (MUS:1202) Musicianship and Theory II 4 s.h.

025:004 (MUS:2203) Musicianship and Theory III 4 s.h.
Continuation of 025:002 (MUS:1201) and 025:003 (MUS:1202); focus on common-practice repertory. Offered fall semesters. Prerequisites: 025:003 (MUS:1202).

025:005 (MUS:2204) Musicianship and Theory IV 4 s.h.
Continuation of 025:002 (MUS:1201), 025:003 (MUS:1202), and 025:004; focus on late 19th- and early 20th-century repertories. Offered spring semesters. Prerequisites: 025:004 (MUS:2203).

025:006 (MUS:2206) Form and Analysis 3 s.h.
Analysis of musical forms and procedures, including 18th- and 19th-century tonal repertoires. Prerequisites: 025:005 (MUS:2204). Requirements: undergraduate standing.

025:145 (MUS:4200) Counterpoint Before 1600 3 s.h.
Two- and three-part counterpoint; Renaissance polyphony. Requirements: 025:004 for undergraduates; 025:240 (MUS:5200) for graduate students.

025:147 (MUS:4201) Counterpoint After 1600 3 s.h.
Two- and three-part writing in the style of J.S. Bach; fugue. Requirements: 025:005 (MUS:2204) for undergraduates; 025:240 (MUS:5200) or exemption on Graduate Theory Advisory Exam for graduate students.

025:153 (MUS:4210) Keyboard Harmony 1-2 s.h.
Melody harmonization and figured-bass realization at the keyboard. Requirements: 025:005 (MUS:2204) for undergraduates, 025:240 (MUS:5200) for graduate students; and keyboard proficiency.

025:236 (MUS:6215) Music Theory Pedagogy 3 s.h.

025:240 (MUS:5200) Basic Analytical Techniques 3 s.h.
Theories and strategies of analysis applied to tonal and post-tonal music.

025:241 (MUS:6210) History of Music Theory I 3 s.h.
Requirements: 025:240 (MUS:5200) or exemption from 025:240 (MUS:5200) on the Graduate Theory Advisory Examination.

025:242 (MUS:6211) History of Music Theory II 3 s.h.
Prerequisites: 025:240 (MUS:5200) and 025:241 (MUS:6210).

025:247 (MUS:5230) Post-Tonal Analysis 3 s.h.
Requirements: 025:005 (MUS:2204) for undergraduates; 025:240 (MUS:5200) or exemption on Graduate Theory Advisory Examination for graduate students.

025:249 (MUS:5235) Tonal Analysis 3 s.h.
Requirements: 025:005 (MUS:2204) for undergraduates; 025:240 (MUS:5200) or exemption on Graduate Theory Advisory Examination for graduate students.

025:256 (MUS:5240) Special Topics in Theory and Analysis 3 s.h.
Requirements: 025:005 (MUS:2204) for undergraduates; 025:240 (MUS:5200) or exemption on Graduate Theory Advisory Exam for graduate students.
Voice and Opera

025:311 (MUS:6245) Advanced Post-Tonal Theory and Analysis 3 s.h.
Prerequisites: 025:247 (MUS:5230).

025:312 (MUS:6250) Advanced Tonal Theory and Analysis 3 s.h.
Prerequisites: 025:249 (MUS:5235).

Requirements: theory major.

025:115 (MUS:1510) Diction for Singers I 2 s.h.
Italian and German pronunciation for singing; basics of international phonetic alphabet; no previous background required.

025:116 (MUS:2510) Diction for Singers II 2 s.h.
French and English pronunciation for singing. Prerequisites: 025:115 (MUS:1510).

025:150 (MUS:3510) Interpretation of German Art Song 1 s.h.
Schubert, Schumann, Brahms, Wolf, Strauss, Mahler; appropriate diction, style. Prerequisites: 025:115 (MUS:1510) and 025:116 (MUS:2510).

025:151 (MUS:3511) Interpretation of Non-German Art Song 1 s.h.
Art songs in English, French, Italian, Spanish; appropriate diction, style. Prerequisites: 025:115 (MUS:1510) and 025:116 (MUS:2510).

025:159 (MUS:5510) Graduate Diction 2 s.h.
Advanced pronunciation of singing languages. Requirements: grade of B or higher in undergraduate diction in French, German, and Italian.

025:165 (MUS:3500) Opera Workshop 2 s.h.
Opera performing techniques, including acting, aria interpretation, scene work. Requirements: vocal major or audition.

025:169 (MUS:3520) Singing for Actors 2 s.h.

025:170 (MUS:3501) Opera Theater Chorus 1 s.h.
Requirements: audition.

025:175 (MUS:3521) Acting for Singers and for Dancers 2 s.h.
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as 049:102 (THTR:3521), 137:165 (DANC:3521).

025:201 (MUS:5520) Principles of Voice Production 3 s.h.
Basic physical, physiological, pedagogical principles in understanding professional, nonprofessional, impaired voice production; vocal anatomy, voice classification; control of loudness, pitch, register, quality; efficient, inefficient use of voice; instrumentation for voice analysis, synthesis. Offered fall semesters of odd years. Same as 003:201 (CSD:5201).

025:202 (MUS:6520) Methods of Teaching Voice 3 s.h.
Attitude, musicianship, foreign language aptitude, physical and emotional characteristics; mental images used to modify respiratory, phonatory, articulatory behavior; vocal hygiene; performance anxiety; student-teacher relationships; administration in vocal schools, professional organizations. Offered spring semesters. Same as 003:202 (CSD:6202).

025:216 (MUS:6525) Voice for Performers 2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as 003:204 (CSD:6204), 049:201 (THTR:6525).

025:235 (MUS:6530) Survey of Operatic Literature 3 s.h.
Selected areas of vocal performance.

025:245 (MUS:3502) Opera Production 2-4 s.h.
Preparation and rehearsals leading up to performance of full production; may include one-act opera, chamber opera, musical theater production, or full-length opera. Corequisites: 025:348 (MUS:3503). Requirements: audition.

Exploration, discussion, and experience using techniques unique to directing opera. Score and libretto analysis, fundamentals of stagecraft, casting and management skills.

025:339 (MUS:6540) Survey of Operatic Literature 3 s.h.
Important operatic scores examined from standpoint of performers, directors; production problems.

025:348 (MUS:3503) Vocal/Operatic Coaching 1 s.h.

025:351 (MUS:6541) Survey of Song Literature I 3 s.h.
German language lieder from 18th century to present; French mélodie from Meyerbeer to present. Offered fall semesters of odd years.

025:352 (MUS:6542) Survey of Song Literature II 3 s.h.
British, American, Italian, Spanish, Latin American, Scandinavian, and Russian art song from 18th century to present. Offered fall semesters of even years.

025:356 (MUS:6555) Voice Habilitation 2-3 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Prerequisites: 003:114 (CSD:4114) or 003:201 (CSD:5201). Requirements: enrollment in Summer Vocology Institute, Salt Lake City, Utah. Same as 003:213 (CSD:6213).

025:357 (MUS:6556) Instrumentation for Voice Analysis 2 s.h.
Glottographic, videostroboscopic, electromyographic, and acoustic analysis for assessment of vocal and respiratory function; using these techniques in conjunction with perceptual evaluation of voice; through the Vocology Institute in Utah. Offered summer sessions of even years. Requirements: enrollment in Summer Vocology Institute, Salt Lake City, Utah. Same as 003:221 (CSD:6221).
Performing Arts Entrepreneurship

Director, Division of Performing Arts
Alan MacVey

Coordinator, Performing Arts Entrepreneurship Program
David McGraw

Undergraduate certificate: performing arts entrepreneurship
Web site: http://performingarts.uiowa.edu/paec

Undergraduate Program

• Certificate in Performing Arts Entrepreneurship

The Division of Performing Arts, in partnership with the John Pappajohn Entrepreneurial Center in the Tippie College of Business, offers the undergraduate Certificate in Performing Arts Entrepreneurship. The program gives students the opportunity to pursue professional studies in the performing arts, in the framework of a liberal arts education, and to develop the skills required for creating market-based opportunities in the arts.

Certificate

The undergraduate Certificate in Performing Arts Entrepreneurship requires a minimum of 29 s.h. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

The program is designed for students of dance, music, and theatre arts who wish to learn about the business of the performing arts and to develop the entrepreneurial skills necessary for promoting their artistic work.

Certificate students are strongly encouraged, but not required, to pursue a major in one of the performing arts.

Work for the certificate includes entrepreneurship-related courses in accounting, financial management, and marketing as well as courses focused on arts management and leadership practices in both commercial and nonprofit organizations (20 s.h.). Students also must complete course work in dance, music, or theatre arts (9 s.h.) and an internship in an arts organization (0 s.h.).

Students may not use a single course to satisfy more than one certificate requirement (e.g., a business course required for the certificate that is cross-listed in dance, music, or theatre arts may not also be counted toward the performing arts course requirement).

The Certificate in Performing Arts Entrepreneurship requires the following course work.

PERFORMING ARTS

Certificate students earn 9 s.h. in advanced or 100-level courses taken in one of three performing arts units: the Department of Dance, the School of Music, or the Department of Theatre Arts. Many 100-level courses have prerequisites; consult an advisor about course sequencing.

BUSINESS AND ENTREPRENEURSHIP

Students complete one course in each of these areas: accounting, marketing, financial management, new ventures/entrepreneurship, entrepreneurial marketing, e-commerce, arts management, and arts leadership. They also must complete 06T:050 (ENTR:1000) Foundations in Entrepreneurship, an entrepreneurship prerequisite that is offered both on campus and online.

Prerequisite:

06T:050 (ENTR:1000) Foundations in Entrepreneurship 2 s.h.

One of these:

01P:185 (ARTS:3400) Grant Writing in the Arts 3 s.h.
06T:133 (ENTR:3100) Entrepreneurial Finance 3 s.h.

One of these:

06T:120 (ENTR:2000) Entrepreneurship and Innovation 3 s.h.
188:111 (DPA:3520) New Ventures in the Arts 3 s.h.

All of these:

06T:134 (ENTR:3200) Entrepreneurial Marketing 3 s.h.
06T:148 (ENTR:3600) E-Commerce Strategies for Entrepreneurs 3 s.h.
188:109 (DPA:3510) Introduction to Arts Management 3 s.h.
188:195 (DPA:4510) Arts Leadership Seminar 3 s.h.

INTERNSHIP

Students may complete the required internship (0 s.h.) during any semester in the program. The Pomerantz Career Center coordinates a wide variety of internships; see Career Center Programs (p. 1103) (University College) in the Catalog. Students also may choose other internship opportunities. The Iowa Arts Council and the Iowa Cultural Corridor Alliance maintain lists of recommended host organizations.

Living-Learning Community

First- and second-year students studying performing arts entrepreneurship may apply to live in the Arts Living-Learning Community, a coed floor in a University of Iowa east campus residence hall. The community includes students from art and art history, dance, film, music, and theatre arts.

Courses

188:029 (DPA:1000) First-Year Seminar 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.
188:080 (DPA:2060) Dance and Society: U.S. Forms in Transnational and Critical Contexts
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. GE: Literary, Visual, and Performing Arts. Same as 137:080 (DANC:2060).

188:109 (DPA:3510) Introduction to Arts Management
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as 049:109 (THTR:3510), 145:109 (INTD:3510).

188:111 (DPA:3520) New Ventures in the Arts

188:137 (DPA:1004) World of the Beatles
How the Beatles' music was influenced by American pop music, the drug culture, and the Avant Garde, nonwestern instruments and philosophy, anti-war sentiments, and world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. Same as 025:137 (MUS:3154).

188:147 (DPA:3221) Technology for the Entertainment Industry
Introduction to technology skills that are at the center of the entertainment industry; programming and operating digital lighting and sound consoles, intelligent lighting systems, projection hardware and software; outdoor event rigging, metal construction, and fabrication. Same as 049:147 (THTR:3221).

188:156 (DPA:3210) Stage Makeup
Same as 049:156 (THTR:3210).

188:161 (DPA:2401) The Arts in Performance

188:167 (DPA:3850) Introduction to Laban Movement Studies
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as 025:167 (MUS:3850), 049:105 (THTR:3850), 137:160 (DANC:3850).

188:168 (DPA:3851) Introduction to the Alexander Technique
The Alexander Technique and "self-use"—how our movement choices affect the results we achieve; improving physical skills and presence; principles from the Alexander Technique in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting) and applied to skills in daily life, addressing the underpinnings of movement; physical participation, including laying, rolling, sitting, standing, and locomotion. Same as 025:176 (MUS:3851), 137:173 (DANC:3851), 049:170 (THTR:3851).

188:173 (DPA:3154) Introduction to Afro-Cuban Drumming
Drumming, dance, songs from folkloric and ceremonial Afro-Cuban forms; emphasis on drumming; may include participation in Afro-Cuban drum and dance ensemble. Same as 025:173 (MUS:3154).

188:174 (DPA:3085) Introduction to Afro-Cuban Dance
Introduction to the dance, drumming, and songs of the Afro-Cuban folkloric traditions; emphasis on dance. May participate in UI Afro-Cuban Drum and Dance Ensemble. Same as 137:174 (DANC:3085).

188:175 (DPA:3086) Afro-Cuban Drum and Dance Performance
Dance repertory for the UI Afro-Cuban Drum and Dance Ensemble. Performance pieces based on dance, drumming, songs of the Afro-Cuban folkloric traditions. May participate in UI Afro-Cuban Drum and Dance Ensemble. Same as 137:175 (DANC:3086).

188:182 (DPA:4060) The Contemporary Dance Scene
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research. Same as 137:182 (DANC:4060).

188:195 (DPA:4510) Arts Leadership Seminar

188:202 (DPA:5060) Theories of Dance and the Body
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Same as 137:202 (DANC:5060).

188:275 (DPA:5550) Collaborative Performance
Collaborative experience with advanced artists from varied disciplines that culminates in a final performance; emphasis on sharing and investigating ideas, artistic intent, personal vision, and creating collaborative projects. Same as 137:275 (DANC:5550), 049:275 (THTR:5610).
Philosophy

Chair
Diane Jeske

Professors
James Duerlinger, Richard Fumerton, Diane Jeske, Gregory Landini, David Stern

Professors emeriti
Laird Addis, Panayot Butchvarov, Phillip Cummins

Associate professors
David Cunning, Evan Fales

Assistant professors
Carrie Figdor, Ali Hasan, Katarina Perovic

Undergraduate major: philosophy (B.A.)
Undergraduate minor: philosophy
Graduate degrees: M.A. in philosophy; Ph.D. in philosophy
Web site: http://www.uiowa.edu/~phil

The Department of Philosophy offers programs for undergraduate and graduate students. It also administers the interdisciplinary undergraduate major in ethics and public policy, which it presents jointly with the Departments of Economics and Sociology; see Ethics and Public Policy (p. 254) in the Catalog.

Undergraduate Programs

- Major in philosophy (Bachelor of Arts)
- Minor in philosophy

Undergraduate courses in philosophy are designed to impart knowledge of fundamental issues and main developments in philosophy while strengthening logical and analytic skills. A major in philosophy develops abilities useful for graduate or professional work in many fields—law, for example—and for any situation requiring clear, systematic thinking. Students who intend to teach philosophy in a college setting must earn a graduate degree.

Bachelor of Arts

The Bachelor of Arts with a major in philosophy requires a minimum of 120 s.h., including at least 27 s.h. of work for the major. Courses numbered 026:061 (PHIL:2061) Introduction to Philosophy through 026:198 (PHIL:5798) Topics in Philosophy count toward the major. The final 12 s.h. in philosophy courses used to complete the major must be earned at The University of Iowa; the department may make exceptions for students who pursue approved study abroad during their senior year.

Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The major in philosophy requires the following courses.

Both of these:
026:103 (PHIL:2603) Introduction to Symbolic Logic 3 s.h.
026:111 (PHIL:3111) Ancient Philosophy 3 s.h.

One of these:
026:114 (PHIL:2214) Seventeenth-Century Philosophy 3 s.h.
026:115 (PHIL:2215) Modern Philosophy 3 s.h.
026:116 (PHIL:2216) Eighteenth-Century Philosophy 3 s.h.

And:
Additional philosophy courses (prefix 026) chosen from those numbered 061 through 198 18 s.h.

In addition to prerequisites listed for individual courses, considerations such as the order in which historical courses are taken are relevant to the effective structuring of the undergraduate major in philosophy. A student’s department advisor or the director of undergraduate studies can provide more information.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the third semester begins: at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: at least one course in the major and at least one-half of the semester hours required for graduation

Before the seventh semester begins: at least five courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: at least six courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors

The department administers an honors program for undergraduate students of superior ability. In order to be admitted to the honors program in philosophy, a student must have taken and passed three courses required for the philosophy major and must be a member of the University of Iowa Honors Program, which requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). In order to graduate with honors in philosophy, a student must complete the regular requirements for an undergraduate major in philosophy with a g.p.a. of at least 3.40 in philosophy courses and must write an acceptable honors thesis on a significant topic in philosophy that interests him or her. Contact the honors advisor for more information.

Minor

The minor in philosophy requires a minimum of 15 s.h. in philosophy courses, including 12 s.h. in 100-level courses offered by the Department of Philosophy at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. Contact the undergraduate studies director for more information.
Graduate Programs

- Master of Arts in philosophy
- Doctor of Philosophy in philosophy

The Department of Philosophy grants admission only for the Ph.D. program. The M.A. is not offered as a terminal degree; it is awarded to students as they work successfully toward the Ph.D.

The graduate program is designed to train teachers and scholars in philosophy. The main areas in the graduate curriculum are metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Master of Arts

The Master of Arts in philosophy requires a minimum of 30 s.h. of graduate credit and is offered without thesis. The M.A. is not offered as a terminal degree; it is awarded to students as they work successfully toward the Ph.D. Requirements include courses in metaphysics, epistemology, history of philosophy, ethics, logic, philosophy of science, and value theory. There is no foreign language requirement. Students must take an oral final examination. Contact the graduate studies director for more information.

Joint M.A./J.D.

The Department of Philosophy and the College of Law offer a joint Juris Doctor/Master of Arts degree program. M.A./J.D. students may count 12 s.h. earned in the joint program toward both degrees. They must earn 18 of the 30 s.h. required for the M.A. in graduate-level philosophy courses (the usual requirement is 24 s.h.). They also must earn a minimum of 36 s.h. in undergraduate and graduate philosophy courses, combined (the usual requirement is 42 s.h.).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

See "Juris Doctor" and "Joint J.D./Graduate Degrees" in the College of Law (p. 880) section of the Catalog.

Doctor of Philosophy

The Ph.D. requires a minimum of 72 s.h. of graduate credit. Candidacy for the doctoral program is determined by a formal vote of the entire Department of Philosophy faculty, usually after the student has completed three semesters of graduate study in residence.

Requirements include courses in metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. Students are required to take a comprehensive examination that covers their area of specialization and includes both written and oral components. Upon successfully completing the exam, they begin work on a prospectus for their dissertation. There is no foreign language requirement. Contact the graduate studies director for more information.

Courses

For more detailed descriptions of undergraduate and graduate courses offered during a given semester or summer session, visit the University’s ISIS web site before early registration.

For Undergraduates

The following courses are open only to undergraduates.

026:001 (PHIL:2401) Matters of Life and Death 3 s.h.
Important ethical controversies with life and death implications (abortion, capital punishment, torture, terrorism and war) discussed and analyzed using philosophical reasoning.

026:033 (PHIL:1033) The Meaning of Life 3 s.h.
Philosophical investigation of the nature of human life and of what makes human life valuable and/or meaningful. GE: Historical Perspectives.

026:034 (PHIL:1034) Philosophy and the Just Society 3 s.h.
The nature of individuals and governments and the obligations they have to each other; philosophical and historical examination of theories from Plato through the 19th century. GE: Historical Perspectives.

026:036 (PHIL:1636) Principles of Reasoning: Argument and Debate 3 s.h.
Elementary logic and its application to evaluation of arguments and debates. GE: Quantitative or Formal Reasoning.

026:061 (PHIL:2061) Introduction to Philosophy 3 s.h.
Issues and arguments; topics may include rational belief, evidence, the self, causation, and the presuppositions of religion. GE: Values, Society, and Diversity.

For Undergraduate and Graduate Students

The following courses are closed to first-year students.

026:102 (PHIL:2402) Introduction to Ethics 3 s.h.
Analytical and historical introduction to ethical theories about issues such as the nature of goodness, the nature of right conduct. Requirements: sophomore or higher standing. GE: Values, Society, and Diversity.

026:103 (PHIL:2603) Introduction to Symbolic Logic 3 s.h.
Main ideas and techniques of formal deduction. Requirements: sophomore or higher standing.

026:104 (PHIL:3604) Introduction to Philosophy of Science 3 s.h.
Fundamental issues in scientific method, inductive reasoning, explanation, the distinctive nature of science. Requirements: sophomore or higher standing.

026:110 (PHIL:3110) Philosophy of Ancient Greece and Rome 3 s.h.
Ancient Greek and Roman philosophy from its inception in Ionia in sixth century B.C.E. through the Neoplatonic philosophy of Plotinus in third century C.E., encompassing philosophies of Plato, Aristotle, the Stoics and Epicureans, and later Platonists. Same as 20E:138 (CLSA:3338).

026:111 (PHIL:3111) Ancient Philosophy 3 s.h.
Main trends and major figures, such as Plato and Aristotle. Requirements: sophomore or higher standing.
026:112 (PHIL:3112) Medieval Philosophy 3 s.h.
Main trends and major figures, such as Augustine and Aquinas. Requirements: sophomore or higher standing. Same as 16E:114 (HIST:3112).

026:114 (PHIL:2214) Seventeenth-Century Philosophy 3 s.h.
Main trends, central arguments, major positions; Bacon and Descartes to Leibniz and Locke. Requirements: sophomore or higher standing.

026:115 (PHIL:2215) Modern Philosophy 3 s.h.
Main trends and major figures from Descartes to Kant. Requirements: sophomore or higher standing.

026:116 (PHIL:2216) Eighteenth-Century Philosophy 3 s.h.
Main trends, central arguments, and major positions; Berkeley to Kant.

026:118 (PHIL:3318) Twentieth-Century Philosophy 3 s.h.
Main trends and major figures. Requirements: sophomore or higher standing.

026:131 (PHIL:3431) Aesthetics 3 s.h.
Major problems in philosophy of the arts. Requirements: sophomore or higher standing.

026:132 (PHIL:3432) Introduction to Political Philosophy 3 s.h.
Major problems. Requirements: sophomore or higher standing.

026:133 (PHIL:3633) Philosophy of History 3 s.h.
Major problems: objectivity, historiographic methods and theory of interpretation, nature of historical explanations, reduction. Requirements: sophomore or higher standing.

026:134 (PHIL:2534) Philosophy of Religion 3 s.h.
Medieval to contemporary treatments of central issues: the nature of faith; the existence and nature of God; religion and ethics; the interpretation of religious texts. Requirements: sophomore or higher standing. Same as 026:146 (PHIL:2834).

026:135 (PHIL:3435) Philosophy of Law 3 s.h.
Introduction; the nature of law, legal authority, legal reasoning; issues in criminal law, such as punishment, responsibility; issues in property law; constitutional law. Prerequisites: 026:034 (PHIL:1034) or 026:102 (PHIL:2402) or 026:132 (PHIL:3432). Requirements: sophomore or higher standing.

026:136 (PHIL:3436) The Nature of Evil 3 s.h.
The nature of evil explored through philosophical works, case studies of individuals, videos, and films. Requirements: sophomore or higher standing.

026:137 (PHIL:3437) Introduction to Metaphysics 3 s.h.
How metaphysics inquires about ultimate nature of reality and our place in it: fundamental categories of being and relationships; the nature of time, whether time travel is possible, conditions of persistence through time of persons and material objects; the nature of causation and human freedom. Requirements: sophomore or higher standing.

026:138 (PHIL:3538) Philosophical Problems of Artificial Intelligence 3 s.h.
Major issues and controversies. Requirements: sophomore or higher standing.

026:141 (PHIL:3341) Existentialist Philosophy 3 s.h.
Main ideas of existentialism; emphasis on Kierkegaard, Nietzsche, Heidegger, Sartre. Requirements: sophomore or higher standing.

026:143 (PHIL:3143) Philosophy East and West 3 s.h.
Comparative analysis of ideas in Eastern and Western philosophy. Requirements: sophomore or higher standing.

026:145 (PHIL:3845) Buddhist Philosophy 3 s.h.
Introduction to main ideas. Requirements: sophomore or higher standing. Same as 032:175 (RELS:3645).

026:147 (PHIL:4047) Philosophical Issues 3 s.h.
A philosophical topic or controversy. Requirements: sophomore or higher standing.

Requirements: honors standing and sophomore or higher standing.

026:149 (PHIL:4049) Undergraduate Seminar in Philosophy 3 s.h.
Selected problems. Requirements: sophomore or higher standing.

026:152 (PHIL:5152) Plato 3 s.h.
Main ideas, major texts.

026:153 (PHIL:5153) Aristotle 3 s.h.
Main ideas, major texts.

026:158 (PHIL:5258) Descartes 3 s.h.
Major works, such as the Discourse on Method, as well as lesser known works, such as The World.

026:160 (PHIL:5260) Spinoza and Leibniz 3 s.h.
Main ideas, major texts.

026:163 (PHIL:5263) Berkeley and Hume 3 s.h.
Comparative and critical examination of metaphysical and epistemological views of 18th‑century empiricists George Berkeley and David Hume; theory of ideas, perception, skepticism, limits of knowledge, scientific and philosophical method, role of God in Berkeley’s and Hume’s philosophical systems.

026:166 (PHIL:5266) Kant 3 s.h.
Main ideas, major texts of Kant’s metaphysics and epistemology.

026:173 (PHIL:5373) Heidegger 3 s.h.
Main ideas and major texts of Heidegger; early and later periods, particular attention to Being and Time; focus on Heidegger’s analyses of being and being-in-the-world.

026:174 (PHIL:5374) Sartre 3 s.h.
Phenomenological and existentialist works.

026:176 (PHIL:5376) Frege and Russell 3 s.h.
Main ideas, major texts.

026:177 (PHIL:5377) Wittgenstein 3 s.h.
Main ideas, major texts.

026:179 (PHIL:5379) Quine 3 s.h.
Major ideas, major texts.

026:180 (PHIL:5480) Analytic Ethics 3 s.h.
Topics in contemporary ethics.

026:182 (PHIL:5482) History of Ethics 3 s.h.
Selected topics in the history of philosophical ethics.
026:184 (PHIL:4089) Russian Thinkers
Same as 041:189 (SLAV:4089), 048:189 (CCL:4089).
3 s.h.

026:185 (PHIL:5485) Political Philosophy
Selected topics.
3 s.h.

026:186 (PHIL:5586) Topics in Metaphysics
Fundamental topics; major works, both classical and contemporary.
3 s.h.

026:187 (PHIL:5587) Epistemology
Contemporary topics.
3 s.h.

026:188 (PHIL:5588) Philosophy of Mind
Contemporary topics.
3 s.h.

026:189 (PHIL:5589) Philosophy of Language
Contemporary topics. Same as 103:163 (LING:5589).
3 s.h.

026:190 (PHIL:5590) Philosophical Foundations of Cognitive Science
Processes leading from stimulus to behavioral response in cognitive or mentalistic terms; motivations for cognitive explanations, nature of cognitive architecture, problem of mental representation; additional topics may include individuation of inputs and outputs, role of consciousness in cognition, relation between language and thought, nature of concepts.
3 s.h.

026:191 (PHIL:5691) Mathematical Logic
Presentation of central metatheorems relating to decidability, completeness, model theory; second-order logic.
3 s.h.

026:192 (PHIL:5692) Modal Logic
Formal techniques developed and applied to problems in analysis and modal semantics; related philosophical issues.
3 s.h.

026:194 (PHIL:5694) Philosophy of Science
Central topics—for example, scientific explanation, confirmation, the meaning of scientific theories; survey of major 20th-century developments in these areas.
3 s.h.

026:196 (PHIL:5696) Philosophy of the Human Sciences
Explanation and understanding, theories and reduction, values and ideology, freedom and causality.
3 s.h.

026:198 (PHIL:5798) Topics in Philosophy
A single philosopher or philosophical problem.
3 s.h.

Primarily for Graduate Students

026:220 (PHIL:6540) Seminar: Philosophy of Language
3 s.h.

026:221 (PHIL:6510) Seminar: Metaphysics
3 s.h.

026:222 (PHIL:6520) Seminar: Epistemology
3 s.h.

026:223 (PHIL:6300) Seminar: Philosophical Analysis
3 s.h.

026:224 (PHIL:6620) Seminar: Philosophy of Science

Physics and Astronomy

Chair
Mary Hall Reno

Professors
David R. Andersen (Electrical and Computer Engineering/Physics and Astronomy), Thomas F. Boggess (Physics and Astronomy/Electrical and Computer Engineering), Michael E. Flatté (F. Wendell Miller Professor), John A. Goree, Donald A. Gurnett (Carver/James A. Van Allen Professor of Physics), Richard Hichwa (Radiology/Physics and Astronomy), Philip Kaaret, Paul D. Kleiber (Harriet B. and Harold S. Brady Professor of Laser Physics), Craig A. Kletzing (F. Wendell Miller Professor), Mark T. Madsen (Radiology/Physics and Astronomy), Usha Mallik, Robert L. Merlino, Yannick Meurice, Robert L. Mutel, Yasar Onel, Wayne N. Polyzou, Mary Hall Reno, Vincent G.J. Rodgers, Jack D. Scudder, Frederick N. Skiff, Arthur L. Smirl (Physics and Astronomy/Electrical and Computer Engineering, Lowell Battershell Chair in Laser Engineering), Steven R. Spangler

Professors emeriti

Associate professors
Kenneth G. Gayley, Cornelia C. Lang, Jane M. Nachtman, John P. Prineas, Craig Pryor, John J. Sunderland (Radiology/Physics and Astronomy), Markus Wohlgenannt

Associate professor emeritus
Charles R. Newsom

Assistant professors
Gregory Howes, Maxim Khodas, Randall McEntaffer, R. Alfredo C. Siochi (Radiation Oncology/Electrical and Computer Engineering/Physics and Astronomy)

Undergraduate majors: physics (B.A., B.S.); applied physics (B.S.); astronomy (B.A., B.S.)

Undergraduate minors: physics; astronomy

Graduate degrees: M.S. in physics; M.S. in astronomy; Ph.D. in physics (optional specializations in astronomy and astrophysics)

Web site: http://www.physics.uiowa.edu

The Department of Physics and Astronomy provides comprehensive and rigorous instruction in all basic aspects of its subjects. It also provides research facilities and guidance in selected specialties for advanced individual scholarly work.

All of the department’s courses and advanced laboratories are taught by faculty members. Faculty members also supervise associated laboratories taught by graduate students. Enrollment in courses beyond the elementary level is typically 15 to 20 students; there is ample opportunity for individual work. Special introductory courses are offered for students majoring in physics and astronomy and for others with a special interest in these subjects.

Total enrollment in physics and astronomy courses is approximately 1,700 each semester of the academic year and 150 during the summer session. The department has around 80 undergraduate majors, half of whom are honors students, and 70 graduate students.

About 70 percent of graduates with bachelor’s degrees pursue advanced study. Others find positions in government and industrial laboratories and in secondary school teaching. Some use their training as the basis for careers in other fields.

Graduates with an M.S. or Ph.D. in physics or astronomy have opportunities for employment in universities, colleges, and research laboratories in government and industry.

Undergraduate Programs

- Major in physics (Bachelor of Arts, Bachelor of Science)
- Major in astronomy (Bachelor of Arts, Bachelor of Science)
- Major in applied physics (Bachelor of Science)
- Minor in physics
- Minor in astronomy

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see “B.A. or B.S.: Double Major in Physics and Astronomy” below. Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a joint degree program offered by the College of Liberal Arts and Sciences and the College of Education; see “Joint B.A./M.A.T. in Science Education” below.

Bachelor of Science: Physics

The Bachelor of Science with a major in physics requires a minimum of 120 s.h., including at least 64 s.h. of work for the major (minimum of 46 s.h. in physics plus 18 s.h. in supporting course work). The program provides preparation for careers in industry, employment in research laboratories, and graduate study in physics and related sciences.

Bachelor of Science students take calculus and linear algebra in addition to physics courses, which include laboratories, and the department encourages them to do additional work. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The physics major for the Bachelor of Science requires the following courses or their equivalents. Many 100-level physics courses have prerequisites; students should consult their advisors when choosing 100-level courses.

**MATHEMATICS**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>

</tbody>
</table>

Students who choose 029:128 (PHYS:3850) Electronics as one of their two required laboratory courses are advised to take it before they take 029:132 (PHYS:3756) Intermediate Laboratory.
The Bachelor of Arts: Physics

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 46 s.h. of work for the major (minimum of 24 s.h. in physics plus 22 s.h. in supporting course work). The B.A. program requires fewer physics courses than the B.S. program does, giving students a wider choice of electives.

The program is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. It is appropriate for those planning careers in medicine, law, science-related administration, business, or technical writing. It also is good preparation for students interested in secondary school science teaching; see "B.A. or B.S. with Teacher Licensure" below.

Bachelor of Arts students take calculus in addition to physics courses, which include a laboratory. They also take science courses in a thematic area or the physics course work required for teacher licensure, and the department encourages them to do additional work. Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The physics major for the Bachelor of Arts requires the following courses or their equivalents. Many 100-level physics courses have prerequisites; students should consult their advisors when choosing 100-level courses.

One of these sequences:
029:081 (PHYS:1611)-029:082 (PHYS:1612) 8 s.h.

All of these:
029:030 (PHYS:2704) Physics IV 4 s.h.
029:115 (PHYS:3710) Intermediate Mechanics 3 s.h.
029:118 (PHYS:3730) Statistical Physics 3 s.h.
029:129 (PHYS:3811)-029:130 (PHYS:3812) Electricity and Magnetism I-II 6 s.h.
029:140 (PHYS:3741)-029:141 (PHYS:3742) Introduction to Quantum Mechanics I-II 6 s.h.

Two of these:
029:119 (ASTR:3771) Introduction to Astrophysics I 3 s.h.
029:120 (ASTR:3772) Introduction to Astrophysics II 3 s.h.
029:128 (PHYS:3850) Electronics (may not be repeated) 4 s.h.
029:133 (PHYS:4750) Advanced Laboratory 3 s.h.
029:180 (PHYS:4720) Introductory Optics 3 s.h.
029:182 (PHYS:4726) Electro-Optics 3 s.h.
029:184 (PHYS:4820) Optical Signal Processing 3 s.h.
029:186 (ASTR:4770) Radio Astronomy 3 s.h.
029:192 (PHYS:4740) Elementary Particles and Nuclear Physics 3 s.h.
029:193 (PHYS:4728) Introductory Solid State Physics 3 s.h.
029:194 (PHYS:4731) Plasma Physics I 3 s.h.
029:196 (PHYS:4860) Computational Physics 3 s.h.

One of these sequences:
029:081 (PHYS:1611)-029:082 (PHYS:1612) 8 s.h.

All of these:
029:030 (PHYS:2704) Physics IV 4 s.h.
029:132 (PHYS:3756) Intermediate Laboratory 3 s.h.
Three additional 100-level physics courses approved by the advisor, excluding 029:103 (PHYS:4990), 029:105 (PHYS:4905), 029:171 (PHYS:4761), and 029:172 (PHYS:4762) 9-10 s.h.

One of these:
Additional science courses in a thematic area, approved by the advisor 12 s.h.

B.A. or B.S. with Teacher Licensure

Physics majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a major offered by the Science Education Program. Students choose from emphases in biology, chemistry, earth science, and physics and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Science Education (p. 500) in the Catalog.

Joint B.A./M.A.T. in Science Education

Students interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed
for undergraduates in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and an M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "B.A./M.A.T. in Science Education" in the Teaching and Learning (p. 699) (College of Education) section of the Catalog. Interested students should consult an advisor.

Bachelor of Science: Applied Physics

The Bachelor of Science with a major in applied physics requires a minimum of 120 s.h., including at least 65-89 s.h. of work for the major. The program offers four areas of concentration: optics, solid-state electronics, computer science, and medical physics. Total credit required for the major depends on a student’s choice of concentration. Students also may design customized concentration areas in close consultation with their advisors and with departmental approval.

The applied physics program is intended primarily for students interested in a broad program of study in physics combined with a significant concentration of courses in a field that has immediate application to industry. The degree provides a foundation for a wide range of employment opportunities in high-technology industries, including research and development, product design and testing, sales, and quality control. It also is designed to include exposure to physics sufficient to allow students to continue with graduate studies in either physics or astronomy.

An essential component of each concentration is successful completion of a one-semester industrial internship or practicum experience in a research laboratory (an applied physics thesis is required for the latter option). This requirement may result in the need for a ninth semester to fulfill all requirements. Because of this, the Four-Year Graduation Plan is not available for the major in applied physics. Well-prepared students will be able to complete the degree in four years. Students should work closely with their advisors on a graduation plan.

All applied physics students complete a common set of courses that includes calculus, linear algebra, physics, and an experiential learning course. They also complete the courses required for their chosen concentration. The department encourages them to take additional course work; advisors can suggest electives that will enrich programs and help students prepare for graduate work.

Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The major in applied physics requires the following courses. Many 100-level physics courses have prerequisites; students should consult their advisors when choosing 100-level courses.

COMMON REQUIREMENTS

Students in all concentrations must successfully complete the following courses or their equivalents.

Mathematics—all of these:

- 22M:025 (MATH:1850) Calculus I
- 22M:026 (MATH:1860) Calculus II
- 22M:027 (MATH:2700) Introduction to Linear Algebra
- 22M:028 (MATH:2850) Calculus III

Physics

One of these sequences:

- 029:081 (PHYS:1611) - 029:082 (PHYS:1612) Introductory Physics I-II

All of these:

- 029:030 (PHYS:2704) Physics IV
- 029:115 (PHYS:3710) Intermediate Mechanics
- 029:129 (PHYS:3811) Electricity and Magnetism I
- 029:140 (PHYS:3741) Introduction to Quantum Mechanics I

Experiential learning—one of these:

- A one-semester industrial internship
- A one-semester practicum in a research laboratory (requires an applied physics thesis)

COMPUTER SCIENCE CONCENTRATION

All of these:

- 22C:016 (CS:1210) Computer Science I: Fundamentals
- 22C:021 (CS:2230) Computer Science II: Data Structures
- Two additional 100-level computer science courses
- 029:118 (PHYS:3730) Statistical Physics
- 029:128 (PHYS:3850) Electronics
- 029:130 (PHYS:3812) Electricity and Magnetism II
- 029:132 (PHYS:3756) Intermediate Laboratory

One of these:

- 22C:022 (CS:2820) Object-Oriented Software Development
- 22C:031 (CS:3330) Algorithms
- 22C:060 (CS:2630) Computer Organization

OPTICS CONCENTRATION

All of these:

- 029:118 (PHYS:3730) Statistical Physics
- 029:128 (PHYS:3850) Electronics
- 029:130 (PHYS:3812) Electricity and Magnetism II
- 029:132 (PHYS:3756) Intermediate Laboratory
- 029:180 (PHYS:4720) Introductory Optics

Two of these:

- 029:182 (PHYS:4726) Electro-Optics
- 029:184 (PHYS:4820) Optical Signal Processing
- 029:193 (PHYS:4728) Introductory Solid State Physics

SOLID-STATE ELECTRONICS CONCENTRATION

All of these:

- 029:118 (PHYS:3730) Statistical Physics
- 029:193 (PHYS:4728) Introductory Solid State Physics
- 055:018 (ECE:2740) Principles of Electronic Instrumentation
- 055:032 (ECE:3320) Introduction to Digital Design
- 055:040 (ECE:2400) Linear Systems I
- 055:041 (ECE:3410) Electronic Circuits
- 057:017 (ENGR:2730) Computers in Engineering
- 059:006 (ENGR:1300) Engineering Problem Solving II
- 059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits

One of these:
029:130 (PHYS:3812) Electricity and Magnetism II 3 s.h.
029:141 (PHYS:3742) Introduction to Quantum Mechanics II

MEDICAL PHYSICS CONCENTRATION

One of these sequences:
002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function 8 s.h.

All of these:
004:141 (CHEM:2410) Organic Chemistry Laboratory 3 s.h.
Two additional advanced biology courses 6-8 s.h.
029:128 (PHYS:3850) Electronics 4 s.h.
029:132 (PHYS:3756) Intermediate Laboratory 3 s.h.

One of these:
225:101 (STAT:3510) Biostatistics 3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.

One of these:
029:105 (PHYS:4905) Special Topics in Physics (physics of the body) 3 s.h.
029:118 (PHYS:3730) Statistical Physics 3 s.h.
029:130 (PHYS:3812) Electricity and Magnetism II 3 s.h.
029:133 (PHYS:4750) Advanced Laboratory 3 s.h.
029:141 (PHYS:3742) Introduction to Quantum Mechanics II 3 s.h.

Bachelor of Science: Astronomy

The Bachelor of Science with a major in astronomy requires a minimum of 120 s.h., including at least 69 s.h. of work for the major. The program provides balanced and integrated course work in astronomy, mathematics, and physics that prepares students for advanced study in astronomy or astrophysics. It also serves as an interesting choice of major for a liberal arts education.

Bachelor of Science students take calculus and linear algebra in addition to physics and astronomy courses, which include laboratories. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The astronomy major for the Bachelor of Science requires the following courses or their equivalents. Required courses 029:137 (ASTR:4850) Astronomical Laboratory and 029:119 (ASTR:3771) Introduction to Astrophysics I are offered every other year; students are responsible for registering for them when they are offered.

MATHEMATICS

22M:027 (MATH:2700) Introduction to Linear Algebra 4 s.h.
22M:028 (MATH:2850) Calculus III 4 s.h.

LABORATORIES

029:137 (ASTR:4850) Astronomical Laboratory (offered every other year) 3 s.h.

029:128 (PHYS:3850) Electronics 4 s.h.
029:132 (PHYS:3756) Intermediate Laboratory 3 s.h.

OTHER REQUIRED COURSES

One of these sequences:
029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II 8 s.h.

All of these:
029:030 (PHYS:2704) Physics IV 4 s.h.
029:061 (ASTR:1771)-029:062 (ASTR:1772) General Astronomy I-II 8 s.h.
029:115 (PHYS:3710) Intermediate Mechanics 3 s.h.
029:119 (ASTR:3771)-029:120 (ASTR:3772) Introduction to Astrophysics I-II (offered every other year) 6 s.h.
029:129 (PHYS:3811)-029:130 (PHYS:3812) Electricity and Magnetism I-II 6 s.h.
029:140 (PHYS:3741) Introduction to Quantum Mechanics I 3 s.h.

One of these:
029:141 (PHYS:3742) Introduction to Quantum Mechanics II 3 s.h.
029:194 (PHYS:4731) Plasma Physics I 3 s.h.

ADDITIONAL COURSE WORK

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, by taking one or more of the courses listed below.

029:118 (PHYS:3730) Statistical Physics 3 s.h.
029:141 (PHYS:3742) Introduction to Quantum Mechanics II 3 s.h.
029:180 (PHYS:4720) Introductory Optics 3 s.h.
029:186 (ASTR:4770) Radio Astronomy 3 s.h.
029:192 (PHYS:4740) Elementary Particles and Nuclear Physics 3 s.h.

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.A. or B.S. may apply a maximum of 50 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 50 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students earning a B.S. with a double major in physics and astronomy may count more than 50 s.h. earned in the Department of Physics and Astronomy to the 120 s.h. required for graduation, but they must earn at least 56 s.h. in course work outside the department in order to graduate.

Bachelor of Arts: Astronomy

The Bachelor of Arts with a major in astronomy requires a minimum of 120 s.h., including at least 55 s.h. of work
for the major. The B.A. program requires fewer physics and mathematics courses than the B.S. program does, giving students a wider choice of electives.

The program is designed for students who wish to build considerable knowledge in astronomy but do not plan a research-oriented career in the field. It is appropriate for students planning careers in secondary school science teaching or science-related administration; see Science Education (p. 500) (College of Liberal Arts and Sciences) in the Catalog. It also is appropriate for those planning to earn professional degrees.

Bachelor of Arts students take calculus in addition to physics and astronomy courses, which include laboratories. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The astronomy major for the Bachelor of Arts requires the following courses or their equivalents.

One of these sequences:

- 029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II

All of these:

- 029:030 (PHYS:2704) Physics IV 4 s.h.
- 029:115 (PHYS:3710) Intermediate Mechanics 3 s.h.
- 029:119 (ASTR:3771)-029:120 (ASTR:3772) Introduction to Astrophysics I-II 6 s.h.
- 029:132 (PHYS:3756) Intermediate Laboratory 3 s.h.
- 029:137 (ASTR:4850) Astronomical Laboratory 3 s.h.

One of these:

- 029:118 (PHYS:3730) Statistical Physics 3 s.h.
- 029:180 (PHYS:4720) Introductory Optics 3 s.h.

One of these:

- 029:128 (PHYS:3850) Electronics 4 s.h.
- 029:129 (PHYS:3811) Electricity and Magnetism I (requires vector calculus as prerequisite) 3 s.h.

**B.A. or B.S.: Double Major in Physics and Astronomy**

Students working toward a Bachelor of Arts or Bachelor of Science with a double major in physics and astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See Requirements for a Degree in the College of Liberal Arts and Sciences Academic Policies Handbook.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**B.A.: Astronomy**

Before the third semester begins: math through calculus I and II, physics I and II, and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: physics III and IV, at least one more course in the major, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: three more courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: nine courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**B.S.: Astronomy**

Before the third semester begins: calculus I and II, physics II, and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: remainder of the required math courses, physics III and IV, two other courses in the major, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: four more courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**B.A.: Physics**

Before the third semester begins: calculus II, physics II, and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: physics III and IV, up to four more courses in the major, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: two to four more courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**B.S.: Physics**

Before the third semester begins: calculus II, physics II, and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: physics III and IV, introduction to linear algebra, calculus III, up to two more courses in the major, and at least one-half of the semester hours required for graduation
Before the seventh semester begins: two to four more courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.S.: Applied Physics

The Four-Year Graduation Plan is not available for the major in applied physics. Students should work with their advisors to develop individual graduation plans.

Honors

Physics, applied physics, and astronomy majors who are members of the University of Iowa Honors Program may work toward graduation with honors in their major. During their junior and senior years, they take 6-8 s.h. of 029:099 (PHYS:4999) Undergraduate Research and conduct an investigation under the guidance of a faculty member. They must present a written research report (honors thesis) and describe the results of the research at a departmental seminar.

Membership in the University of Iowa Honors Program requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information).

Minor in Physics

The minor in physics requires a minimum of 15 s.h. in physics, including 12 s.h. taken at The University of Iowa, chosen from 029:029 (PHYS:2703) Physics III, 029:030 (PHYS:2704) Physics IV, and 100-level physics courses. Students must maintain a g.p.a. of at least 2.00 for all work in the minor. Course work in the minor may not be taken pass/nonpass. Before enrolling in 029:029 (PHYS:2703) Physics III, students must complete that course’s prerequisites [029:027 (PHYS:1701) Physics I and 029:028 (PHYS:1702) Physics II, or 029:081 (PHYS:1611) Introductory Physics I and 029:082 (PHYS:1612) Introductory Physics II].

Minor in Astronomy

The minor in astronomy requires a minimum of 15 s.h. in astronomy and physics courses, including 12 s.h. of upper-level course work and 12 s.h. taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 for all work in the minor. Course work in the minor may not be taken pass/nonpass.

The upper-level course work must include 6 s.h. chosen from 029:119 (ASTR:3771) Introduction to Astrophysics I, 029:120 (ASTR:3772) Introduction to Astrophysics II, and 029:137 (ASTR:4850) Astronomical Laboratory. Remaining work may be chosen from any 100-level astronomy or physics courses.

Graduate Programs

• Master of Science in physics (with thesis or critical essay)
• Master of Science in astronomy (with or without thesis)
• Doctor of Philosophy in physics (astronomy and astrophysics specializations available)

Graduate study in physics and astronomy is highly individualized. The department does not offer a Ph.D. in astronomy, but students may pursue a Ph.D. in physics with a specialization and dissertation in astronomy or astrophysics.

Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student’s progress. All graduate students who intend to pursue a Ph.D. in physics must pass the qualifying exam (see "Doctor of Philosophy: Physics").

In addition to offering graduate degree programs, the Department of Physics and Astronomy participates in an interdisciplinary doctoral program, the Program in Applied Mathematical and Computational Sciences (p. 827) (Graduate College).

Master of Science: Physics

The Master of Science program in physics requires a minimum of 30 s.h. of graduate credit. It is offered with thesis or critical essay. The M.S. with thesis requires a thesis based on an original experimental or theoretical investigation by the student. The M.S. with critical essay requires a critical essay on the literature of a particular area of physics.

The M.S. may be a terminal degree or a step toward a Ph.D. In either case, the final examination is oral, conducted by a committee of three faculty members.

Each student’s plan of study should provide for as much advanced work as his or her aptitude and previous preparation permit.

All master’s degree students in physics must earn the required 30 s.h. of graduate credit in courses numbered 170 or above, with at least 15 s.h. at the 200 level. They must maintain a g.p.a. of at least 3.00.

Students who choose the thesis option must write a thesis based on an original experimental or theoretical investigation that they have conducted. Students may earn a maximum of 6 s.h. in 029:220 (PHYS:7992) Individual Critical Study or 029:281 (PHYS:7990) Research: Physics. Up to one-third of the graduate program may be taken in related scientific fields other than physics and mathematics (e.g., chemistry, astronomy, geology, engineering).

Students who choose the critical essay option must conduct an independent study of the literature on a chosen topic and write a critical essay on that topic. Students may earn a maximum of 4 s.h. in 029:220 (PHYS:7992) Individual Critical Study or 029:281 (PHYS:7990) Research: Physics. Up to one-third of the graduate program may be taken in related scientific fields other than physics and mathematics (e.g., chemistry, astronomy, geology, engineering).

Master of Science: Astronomy

The Master of Science program in astronomy requires a minimum of 30 s.h. of graduate credit. It is offered either with or without thesis. The M.S. may be a terminal degree or a step toward a Ph.D. in physics with specialization and a dissertation in astronomy or astrophysics. In either case
the final examination is oral, conducted by a committee of three faculty members.

Students in the thesis program earn the required 30 s.h. in courses numbered 170 or above, with at least 15 s.h. at the 200 level. They must maintain a g.p.a. of at least 3.00. The 30 s.h. must include at least 6 s.h. chosen from 029:233 (ASTR:6780) Theoretical Astrophysics II, 029:234 (ASTR:6790) Stellar Astrophysics, and 029:235 (ASTR:7775) Special Topics in Astrophysics. Students may earn a maximum of 6 s.h. in 029:220 (PHYS:7992) Individual Critical Study and 029:282 (ASTR:7991) Research: Astronomy. Seminars do not count for credit toward the 30 s.h. requirement. Up to one-third of the course work may be in graduate courses in related fields, such as meteorology, geology, and electrical engineering; selection of such courses is encouraged.

Students in the nonthesis program earn 18 s.h. of the required 30 s.h. in the core graduate courses 029:205 (PHYS:5710) Classical Mechanics, 029:213 (PHYS:5811) Classical Electrodynamics I, 029:214 (PHYS:5812) Classical Electrodynamics II, 029:233 (ASTR:6780) Theoretical Astrophysics II, 029:234 (ASTR:6790) Stellar Astrophysics, and 029:235 (ASTR:7775) Special Topics in Astrophysics. Students must maintain a g.p.a. of at least 3.00 in the core graduate courses. They may earn a maximum of 4 s.h. in 029:220 (PHYS:7992) Individual Critical Study and 029:282 (ASTR:7991) Research: Astronomy. Seminars do not count toward the required 30 s.h. Up to one-third of the course work may be in graduate courses in related fields, such as meteorology, geology, and electrical engineering; selection of such courses is encouraged.

**Doctor of Philosophy: Physics**

The Doctor of Philosophy program in physics requires a minimum of 72 s.h. of graduate credit.

Graduate students who wish to pursue a Ph.D. in physics must pass a qualifying examination in all principal areas of physics at the level of advanced undergraduate work. The examination, which may be repeated only once, is given each year before the beginning of the spring semester. Students must pass the qualifying examination before the beginning of their fourth semester of graduate work at The University of Iowa.

All Ph.D. students must take comprehensive examinations; participate in advanced seminars; do original research in experimental physics, theoretical physics, or astrophysics; and prepare and defend a written dissertation based on this work.

The program of study for the Ph.D. with a major in physics includes thorough course work in both classical and quantum physics for all students, whether their specialized research is to be in an experimental or a theoretical area.

Students must take at least 24 s.h. of 200-level courses in the department, excluding 029:220 (PHYS:7992) Individual Critical Study, 029:281 (PHYS:7990) Research: Physics, 029:282 (ASTR:7991) Research: Astronomy, and seminars. The following courses are required.

- 029:245 (PHYS:5741)-029:246 (PHYS:5742) Quantum Mechanics I-II 6 s.h.

Advanced mathematics, such as complex variables and tensor analysis, is used freely in these courses. An introduction is given in 029:171 (PHYS:4761) Mathematical Methods of Physics I and 029:172 (PHYS:4762) Mathematical Methods of Physics II. The selection of less advanced course work depends on the adequacy of a student’s preparation for graduate work; students’ choice of more advanced and specialized courses depends on the direction in which their interests develop.

After a student has chosen a research specialty, he or she must submit a formal thesis proposal and defend the proposal in an oral comprehensive exam. The appropriate thesis advisor then becomes the candidate’s general advisor and the chair of the comprehensive and final examination committee. The comprehensive exam must be taken before the beginning of the fourth year of graduate study.

Ph.D. candidates are not recommended for the degree until they have written the dissertation in proper form for formal publication and have submitted it for publication, with the approval of the research advisor, to a widely distributed, refereed scientific journal.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

**Financial Support**

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

**Research, Facilities**

The department has an excellent library and a number of well-equipped laboratories and observatories, as well as a student computer cluster for which students can obtain accounts. Faculty, students, and staff access national supercomputers via the Internet. The central machine shop is fully equipped and staffed by skilled instrument makers and machinists, and there are electronics and machine shops for use by advanced students and research staff.

Experimental research is conducted in astronomy (optical, radio, and X-ray), atomic and molecular physics, condensed matter physics, elementary particle physics, laser physics, medical physics, plasma physics, and space physics. Extensive facilities are available for construction of specialized research equipment and for data processing and analysis.

State-of-the-art semiconductor materials and devices are grown in two molecular beam epitaxy machines. Ultrafast laser techniques are developed and used to probe electron transport, energy relaxation, recombination, and spin dynamics in the novel nanostructures grown in these machines. Experiments also are conducted on laser-induced coherent phenomena and coherent control of charge carriers in semiconductor nanostructures.
Physics, Primarily for Undergraduates

029:001 (PHYS:1905) Selected Topics in Physics  arr.

029:002 (PHYS:1300) Nanoscience  3 s.h.
Properties of very small materials and structures; unique properties emerging at a length scale of one billionth of a meter, or one nanometer. GE: Natural Sciences without Lab.

029:003 (PHYS:1100) From Quarks to Quasars  3-4 s.h.
Conceptual explanation of the latest discoveries in physics—from the smallest objects, such as quarks and atoms, to the largest, such as galaxies, black holes, and quasars. Requirements: nonscience major. GE: Natural Sciences with Lab; Natural Sciences without Lab.

029:006 (PHYS:1200) Physics of Everyday Experience  3 s.h.
Principles of physics for nonscience majors; basic motion, behavior of fluids, waves, temperature and heat, gravity and planetary motion, electricity and magnetism, optics, nuclear energy, radioactivity, and medical imaging technology; examples from everyday experience. GE: Natural Sciences without Lab.
029:008 (PHYS:1400) Basic Physics 3-4 s.h.
Quantitative treatment of mechanics, electricity, heat, liquids, gases, and atomic, nuclear, and elementary particle physics. Prerequisites: 22M:005 (MATH:1010). Recommendations: closed to students who have taken 029:011 (PHYS:1511) or 029:012 (PHYS:1512). GE: Natural Sciences with Lab; Natural Sciences without Lab.

029:011 (PHYS:1511) College Physics I 4 s.h.
Mechanics, waves, thermodynamics, special relativity. Prerequisites: 22M:005 (MATH:1010). GE: Natural Sciences with Lab.

029:012 (PHYS:1512) College Physics II 4 s.h.

029:027 (PHYS:1701) Physics I 4 s.h.

029:028 (PHYS:1702) Physics II 4 s.h.

029:029 (PHYS:2703) Physics III 4 s.h.
Continuation of 029:028 (PHYS:1702); electromagnetic waves, optics, mechanical and sound waves; thermal physics. Offered fall semesters. Prerequisites: 029:028 (PHYS:1702).

029:030 (PHYS:2704) Physics IV 3-4 s.h.
Introduction to quantum mechanics and other topics in modern physics, including special relativity, atomic and solid state physics. Offered spring semesters. Prerequisites: 22M:026 (MATH:1860) and 029:029 (PHYS:2703). Requirements: 3 s.h. only for nonmajors.

029:039 (PHYS:1000) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

029:044 (PHYS:1410) Physics of Sound 3-4 s.h.
Acoustical foundations of music; production of sound by vibrating objects, properties of sound waves, vocal acoustics, hearing, room acoustics, principles of electroacoustics. GE: Natural Sciences with Lab; Natural Sciences without Lab.

029:081 (PHYS:1611) Introductory Physics I 4 s.h.

029:082 (PHYS:1612) Introductory Physics II 3-4 s.h.
Continuation of 029:081 (PHYS:1611); electricity, magnetism, light. Prerequisites: 029:081 (PHYS:1611). Corequisites: 22M:026 (MATH:1860) or 22M:032 (MATH:1540). GE: Natural Sciences with Lab; Natural Sciences without Lab.

029:084 (PHYS:1619) Introductory Physics II Lab 1 s.h.
Laboratory for 029:082 (PHYS:1612). Requirements: 3 s.h. in 029:082 (PHYS:1612). GE: Natural Sciences Lab only.

029:093 (PHYS:2900) Reading in Physics arr.
Selected topics in physics.

Selected topics in physics and astronomy; discussion, presentations.

029:099 (PHYS:4999) Undergraduate Research arr.
Supervised research leading to written report or oral presentation.

Physics for Undergraduate and Graduate Students

029:103 (PHYS:4990) Reading in Physics arr.
Selected topics in physics.

029:115 (PHYS:3710) Intermediate Mechanics 3 s.h.
Newtonian mechanics; noninertial reference systems; central forces, celestial mechanics; rigid body motion; Lagrangian, Hamiltonian equations of motion; small oscillations. Prerequisites: 22M:026 (MATH:1860), and 029:011 (PHYS:1511) or 029:027 (PHYS:1701) or 029:081 (PHYS:1611).

029:118 (PHYS:3730) Statistical Physics 3 s.h.
Integrated introduction to subjects of thermodynamics, statistical mechanics, kinetic theory; emphasis on applications. Prerequisites: 029:030 (PHYS:2704) and 029:115 (PHYS:3710).

029:128 (PHYS:3850) Electronics 4 s.h.
Design and construction of small circuits; use of measurement instruments—oscilloscope, multimeter, function generator; circuits, including transistors, operational amplifiers, digital, analog-to-digital conversion. Prerequisites: 029:012 (PHYS:1512) or 029:028 (PHYS:1702) or 029:082 (PHYS:1612). Requirements: physics or astronomy major.

029:129 (PHYS:3811) Electricity and Magnetism I 3 s.h.
Electrostatics, magnetic fields, introduction to Maxwell’s equations. Prerequisites: 22M:028 (MATH:2850), and 029:012 (PHYS:1512) or 029:028 (PHYS:1702) or 029:082 (PHYS:1612).

029:130 (PHYS:3812) Electricity and Magnetism II 3 s.h.
Continuation of 029:129 (PHYS:3811); magnetism, electromagnetic waves, A.C. circuits, applications of Maxwell’s equations to wave guides, antennas, optics, plasma physics, other topics. Prerequisites: 029:129 (PHYS:3811).

029:132 (PHYS:3756) Intermediate Laboratory 3 s.h.
Electricity; electronics; magnetism; optics; atomic, nuclear, solid state physics; techniques in data analysis, including error analysis. Prerequisites: 029:028 (PHYS:1702) or 029:082 (PHYS:1612), and 029:029 (PHYS:2703). Corequisites: 029:129 (PHYS:3811).

029:133 (PHYS:4750) Advanced Laboratory 3 s.h.
Topics in electricity; electronics; magnetism; atomic, nuclear, plasma, solid state physics; techniques in data analysis, including error analysis.

029:135 (PHYS:3750) Fundamentals of Micro and Nanofabrication 3 s.h.
Fundamentals of microfabrication and nanofabrication techniques involved in manufacture of a wide-range miniature device with applications in communications, energy, and biomedical industries. Prerequisites: 002:002 (BIOL:1141), 004:006 (CHEM:1060) or 004:011 (CHEM:1110) or 004:012 (CHEM:1120), 029:028 (PHYS:1702) or 029:082 (PHYS:1612), and 029:081 (PHYS:1611).
029:140 (PHYS:3741) Introduction to Quantum Mechanics I  
Superposition principle, Stern-Gerlach experiment, linear operators, measurement theory, time evolution, angular momentum, wave mechanics in one dimension, one-dimensional harmonic oscillator, two-body problems with central forces, the hydrogen atom. Prerequisites: 029:030 (PHYS:2704), 029:115 (PHYS:3710), 22M:027 (MATH:2700), and 22M:028 (MATH:2850).

029:141 (PHYS:3742) Introduction to Quantum Mechanics II  
Perturbation theory, variational methods, WKB approximation, scattering, Helium atom, periodic table, atomic spectroscopy, transition rates, other selected applications. Prerequisites: 029:140 (PHYS:3741).

029:171 (PHYS:4761) Mathematical Methods of Physics I  
Functions of complex variables, integration methods, linear vector spaces, tensors, matrix algebra. Prerequisites: 22M:028 (MATH:2850).

029:172 (PHYS:4762) Mathematical Methods of Physics II  

029:180 (PHYS:4720) Introductory Optics  
Geometrical and physical optics; interference; diffraction; polarization; microscopic origins of macroscopic optical properties of matter; optical activity; electro-optical, magneto-optical, acousto-optical phenomena; spontaneous Brillouin, Raman, Rayleigh scattering. Prerequisites: 029:130 (PHYS:3812). Same as 055:177 (ECE:4720). Same as 055:177 (ECE:4720).

029:182 (PHYS:4726) Electro-Optics  
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for 055:179 (ECE:5790) — 055:070 (ECE:3700); for 029:182 (PHYS:4726) — 029:130 (PHYS:3812). Same as 055:179 (ECE:5790).

029:184 (PHYS:4820) Optical Signal Processing  
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for 055:178 (ECE:5780) — 055:070 (ECE:3700); for 029:184 (PHYS:4820) — 029:130 (PHYS:3812). Same as 055:178 (ECE:5780).

029:192 (PHYS:4740) Elementary Particles and Nuclear Physics  
Accelerators, particle detectors, passage of radiation through matter; nuclear structure, nuclear reactions; quark model of hadrons; strong, electromagnetic, weak interactions of elementary particles; gauge theories, intermediate vector bosons; unification of electromagnetic and weak interactions. Prerequisites: 029:140 (PHYS:3741).

029:193 (PHYS:4728) Introductory Solid State Physics  
Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric, properties of solids. Prerequisites: 029:140 (PHYS:3741) and 22M:028 (MATH:2850). Same as 055:173 (ECE:4728).

029:194 (PHYS:4731) Plasma Physics I  
Physics of ionized gases, including orbit theory, guiding center motion, adiabatic invariants, ionization balance description of plasmas by fluid variables and distribution functions; linearized wave motions, instabilities; magnetohydrodynamics. Prerequisites: 029:130 (PHYS:3812).

029:195 (PHYS:4732) Plasma Physics II  
Continuation of 029:194 (PHYS:4731); linear, nonlinear solutions of the Vlasov equation, kinetic theory of plasmas, including Landau damping and velocity space instabilities. Prerequisites: 029:194 (PHYS:4731).

029:196 (PHYS:4860) Computational Physics  
Introduction to contemporary use of computers by physicists; topics such as numerical solutions of ordinary differential equations in classical mechanics, boundary value problems in electricity and magnetism, eigenvalue problems in quantum mechanics, Monte Carlo simulations in statistical mechanics, methods of data analysis. Prerequisites: 029:115 (PHYS:3710), 029:129 (PHYS:3811), and 029:140 (PHYS:3741).

Physics, Primarily for Graduate Students

029:202 (PHYS:5000) Workshops and Special Training in Physics  
Workshops and special training opportunities for postbaccalaureate students; may include collaborations with other departments, institutions, or externally funded research organizations.

029:205 (PHYS:5710) Classical Mechanics  
Dynamics of mass points; Lagrange multipliers, small oscillations, Hamilton’s equations; canonical transformations, Hamilton-Jacobi theory; chaos. Prerequisites: 029:115 (PHYS:3710).

029:206 (PHYS:6710) Nonlinear Dynamics  
Deterministic approach of turbulence and chaotic dynamical systems; qualitative theory of ordinary differential equations, perturbation in classical mechanics, ergodicity, bifurcation, universal properties of discrete maps, intermittency, fractals, quantitative characterizations of chaos.

029:212 (PHYS:5730) Statistical Mechanics I  
Probability concepts; kinetic equations; classical and quantum equilibrium statistical mechanics with applications, including ideal and imperfect gases and phase transitions, irreversible processes, fluctuation-dissipation theorems. Prerequisites: 029:118 (PHYS:3730) and 029:140 (PHYS:3741).

029:213 (PHYS:5811) Classical Electrodynamics I  
Advanced electromagnetostatics, boundary value problems, Green’s functions, Maxwell’s equations, radiation theory, physical optics, multipole expansion of radiation field. Prerequisites: 029:130 (PHYS:3812).

029:214 (PHYS:5812) Classical Electrodynamics II  
Special relativity, motion of charges in fields, theories of radiation reaction, special topics. Prerequisites: 029:213 (PHYS:5811).

029:220 (PHYS:7992) Individual Critical Study  
Essay on topic chosen in consultation with faculty member. Requirements: candidacy for M.S. with critical essay.
029:222 (PHYS:6720) Nonlinear Optics

029:224 (PHYS:6726) Laser Principles

029:225 (PHYS:7905) Special Topics in Physics
arr.

029:228 (PHYS:6822) Topics in Quantum Electronics
Quantum optics, optical properties of matter, laser science, photonics.

029:229 (PHYS:7720) Semiconductor Physics

029:240 (PHYS:6002) Medical Physics
Characteristics of X-ray machines, nuclear accelerators, teletherapy devices; properties of X-rays and gamma rays, their interaction with matter; radiation exposure, depth dose measurements; radiation therapy. Offered spring semesters of even years. Requirements: 6 s.h. of physics. Same as 077:211 (FRRB:6002).

029:245 (PHYS:5741) Quantum Mechanics I
Nonrelativistic quantum mechanics, Schrödinger wave mechanics, Hilbert space methods, perturbation theory, scattering, spin and angular momentum, identical particles, selected applications, introduction to relativistic theory. Prerequisites: 029:140 (PHYS:3741) and 029:141 (PHYS:3742).

029:246 (PHYS:5742) Quantum Mechanics II

029:247 (PHYS:7740) Introduction to Quantum Field Theory
Quantization of relativistic and nonrelativistic field theories, covariant perturbation theory, theory of renormalization, dimensional regularization, renormalization group theory, introduction to gauge theories and anomalies. Prerequisites: 029:246 (PHYS:5742).

029:248 (PHYS:7840) Quantum Gauge Theories

029:261 (PHYS:7930) Seminar: Plasma Physics
Current research. Same as 055:291 (ECE:7930).

029:262 (PHYS:7920) Seminar: Solid State Physics
Current research.
Astronomy, Primarily for Undergraduates

029:050 (ASTR:1070) Stars, Galaxies, and the Universe
Survey of stars, galaxies, and the universe; life cycles of stars, including black holes and pulsars; diversity of galaxies, including the Milky Way and distant quasars; cosmology—the history, structure, and fate of the universe; current results from recent astronomical observations; night sky observation. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab. 3-4 s.h.

029:051 (ASTR:1079) Introductory Astronomy Laboratory
Laboratory for 029:050 (ASTR:1070). Requirements: 3 s.h. in 029:050 (ASTR:1070). GE: Natural Sciences Lab only. 1 s.h.

029:052 (ASTR:1080) Exploration of the Solar System
Survey of the solar system; physical properties of the planets, comets, and asteroids; origin of the solar system; search for extrasolar planetary systems; search for life in the universe; current results of recent planetary space missions; night sky observation. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab. 3-4 s.h.

029:053 (ASTR:1090) Life in the Universe
Are we alone? Scientific foundations of this question, technology behind searches for extraterrestrial life in the solar system and on extrasolar planets: evolution of life on Earth, likelihood that such conditions exist elsewhere in the universe; cultural consequences of discovering extraterrestrial life. GE: Natural Sciences without Lab. 3 s.h.

029:061 (ASTR:1771) General Astronomy I
Qualitative and quantitative introduction to the development of astronomy, celestial mechanics, time, electromagnetic radiation, telescopes and astronomical instrumentation, planets, smaller solar system objects; laboratory emphasis on observation with telescopes. Requirements: four years of high school math. GE: Natural Sciences with Lab. 4 s.h.

029:062 (ASTR:1772) General Astronomy II
Continuation of 029:061 (ASTR:1771); qualitative and quantitative introduction to properties and evolution of sun, stars, interstellar matter, galaxies; cosmology; laboratory emphasis on observation with telescopes. Requirements: four years of high school math. GE: Natural Sciences with Lab. 4 s.h.

029:094 (ASTR:2991) Reading in Astronomy
Selected topics in astronomy. arr.

Astronomy for Undergraduate and Graduate Students

029:104 (ASTR:4996) Reading in Astronomy
arr.

029:106 (ASTR:4906) Special Topics in Astronomy
arr.

029:119 (ASTR:3771) Introduction to Astrophysics I
Fundamentals of astrophysical processes in solar system objects, stars, nebulae, interstellar medium, galaxies, cosmology; topics include stellar spectra, binary stars, interstellar gas and dust, stellar and galactic kinematics, stellar evolution, HII regions, radiation processes in galaxies and quasars, mathematical descriptions of the universe. Prerequisites: 22M:027 (MATH:2700), 22M:028 (MATH:2850), 029:030 (PHYS:2704), 029:061 (ASTR:1771), and 029:062 (ASTR:1772). Recommendations: computer programming experience. 3 s.h.

029:120 (ASTR:3772) Introduction to Astrophysics II

029:137 (ASTR:4850) Astronomical Laboratory
Techniques and instrumentation in optical and radio astronomy. Prerequisites: 029:030 (PHYS:2704), 029:061 (ASTR:1771), and 029:062 (ASTR:1772). 3 s.h.

029:186 (ASTR:4770) Radio Astronomy
Survey of radio astronomy, emphasizing technical aspects; radiation, antennas, receivers, radio spectroscopy, interferometer arrays and aperture synthesis; emission mechanisms, pulsars, supernova remnants, radio galaxies. 3 s.h.

Astronomy, Primarily for Graduate Students

029:232 (ASTR:6870) Radiative Processes in Astrophysics
Physical mechanisms for generation of electromagnetic radiation in astrophysics; continuum mechanisms (bremsstrahlung, Compton scattering, synchrotron radiation); spectral line radiation from atoms, molecules, and nuclei, including fine structure effects; fundamental physics of processes; application to astronomical observations. 3 s.h.

029:233 (ASTR:6780) Theoretical Astrophysics II
The interstellar medium: optical properties of small interstellar grains, radiative processes in interstellar gas, structure of HII regions, interstellar shock waves, supernova remnants, modification of interstellar medium by luminous stars, molecular clouds. 3 s.h.

029:234 (ASTR:6790) Stellar Astrophysics
Stellar interiors, nuclear astrophysics; advanced topics. 3 s.h.

029:235 (ASTR:7775) Special Topics in Astrophysics
Advanced lectures. 1-3 s.h.

029:237 (ASTR:6880) High Energy Astrophysics
Detection of X-rays and gamma-rays, analysis of X-ray data, black holes and neutron stars, accretion onto compact objects, pulsars, supernova remnants, cosmic rays, gamma-ray bursts. 3 s.h.

029:238 (ASTR:6781) Galactic Astronomy
Structure of the Milky Way galaxy; distance indicators, orbits in the galaxy, spiral structure; evidence for dark matter in the Milky Way, the galactic center; comparison of Milky Way with nearby galaxies. 3 s.h.

029:239 (ASTR:6782) Extragalactic Astronomy
Normal and active galaxies, large scale structure, the early Universe, cosmology. 3 s.h.

029:263 (ASTR:7970) Seminar: Astrophysics
Current research. arr.
029:278 (ASTR:7830) Space and Astrophysical Plasma Physics
3 s.h.
Dynamics and evolution of space and astrophysical plasmas; heliosphere, planetary magnetospheres, accretion disks; plasma waves, shock waves, turbulence.

029:282 (ASTR:7991) Research: Astronomy
arr.
Original research in observational, theoretical astronomy.
Political Science

Chair
Cameron Thies

Professors

Professors emeriti
Joel D. Barkan, Alfonso J. Damico, Michael S. Lewis-Beck, Chong Lim Kim, Gerhard Loewenberg, Douglas K. Madsen

Associate professors
Frederick J. Boehmke, Cary R. Covington, Douglas Dion, Timothy M. Hagle, Kelly M. Kadera, Brian H. Lai, Tracy Osborn, Rene Rocha

Assistant professors
Kyle Mattes, Julianna Pacheco, Frederick Solt

Undergraduate majors: political science (B.A., B.S.); international relations (B.A., B.S.)

Undergraduate minors: political science; international relations

Graduate degrees: M.A. in political science; Ph.D. in political science

Web site: http://clas.uiowa.edu/polisci

The Department of Political Science offers two undergraduate majors and minors as well as graduate degree programs. It also offers several courses that undergraduate students in all majors may use to fulfill General Education Program (p. 276) requirements and a First-Year Seminar designed for entering undergraduate students.

Undergraduate Programs

• Major in political science (Bachelor of Arts, Bachelor of Science)
• Major in international relations (Bachelor of Arts, Bachelor of Science)
• Minor in political science
• Minor in international relations

B.A. and B.S.: Political Science

The Bachelor of Arts with a major in political science requires a minimum of 120 s.h., including 33 s.h. of work for the major (all in political science courses). The Bachelor of Science with a major in political science requires a minimum of 120 s.h., including 44 s.h. of work for the major (33 s.h. in political science courses and 11-13 s.h. of approved mathematics/statistics courses). Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Most of the political science course work required for the major is the same for B.A. and B.S. students, but the major for the B.S. includes a political science research component. The major for the B.S. also requires a set of mathematics/statistics courses, while the major for the B.A. does not.

Students must maintain a g.p.a. of at least 2.00 in all political science courses taken at The University of Iowa, and in all political science courses taken at other institutions and at the University combined.

Students must earn at least 12 s.h. of the political science credit required for the major (33 s.h.) at The University of Iowa. Credit earned in 030:029 (POLI:1000) First-Year Seminar, 030:187 (POLI:3124) Political Science Des Moines Internship Program, and 030:191 (POLI:4900) Government Internship does not count toward the major, but grades in these courses become part of a student’s grade-point average.

In planning course work, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.A. or B.S. may apply a maximum of 50 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 50 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The major in political science requires the following course work.

POLITICAL SCIENCE COURSES (B.A. AND B.S.)

Introductory course:
030:001 (POLI:1100) Introduction to American Politics 3 s.h.

Additional introductory courses—four of these:
030:020 (POLI:1001) Introduction to Politics 3 s.h.
030:030 (POLI:1300) Introduction to Political Thought and Political Action 3 s.h.
030:041 (POLI:1401) Introduction to the Politics of Russia and Eurasia 3 s.h.
030:043 (POLI:1403) Introduction to Politics in the Muslim World 3 s.h.
030:045 (POLI:1405) Introduction to Comparative Politics 3 s.h.
030:050 (POLI:1200) Introduction to Political Behavior 3 s.h.
030:060 (POLI:1500) Introduction to International Relations 3 s.h.
030:061 (POLI:1501) Introduction to American Foreign Policy 3 s.h.
030:070 (POLI:1600) Introduction to Political Communication 3 s.h.
030:071 (POLI:1601) Introduction to Political Media 3 s.h.

Advanced courses:
Political science courses numbered 100 or above, offered as regularly scheduled classroom courses 12 s.h.

ADDITIONAL POLITICAL SCIENCE COURSES (B.A.)

Bachelor of Arts students also complete the following political science course work.

At least two additional political science courses numbered 100 or above 6 s.h.
ADDITIONAL POLITICAL SCIENCE COURSES (B.S.)
Bachelor of Science students also complete the following political science course work.

030:100 (Poli:3000) Understanding Political Research 3 s.h.

One of these:
030:185 (Poli:4600) Honors Research Project 3 s.h.
030:193 (Poli:4701) Undergraduate Research Tutorial 3 s.h.

Recommended but not required:
030:194 (Poli:4702) Senior Research Project/Paper 3 s.h.

MATHEMATICS/STATISTICS COURSES (B.S.)
Bachelor of Science students complete one of the following approved sets of mathematics/statistics courses (11-13 s.h.). Other sets of courses may be used with written approval of the B.S. program advisor.

Set 1:
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business (students may substitute 22M:025 or 22M:031) 4 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.
22S:148 (STAT:6513) Intermediate Statistical Methods 4 s.h.

Set 2:
06E:071 (ECON:2800) Statistics for Strategy Problems 3 s.h.
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business 4 s.h.
22S:008 (STAT:1030) Statistics for Business 4 s.h.

Set 3:
22M:025 (MATH:1850) Calculus I (students may substitute 22M:031) 5 s.h.
22M:026 (MATH:1860) Calculus II (students may substitute 22M:032) 5 s.h.
22S:102 (STAT:5543)/07P:143 (PSQF:5143) Introduction to Statistical Methods 3 s.h.

EMPHASES IN POLITICAL SCIENCE (B.A. AND B.S.)
Students may elect to complete one or two emphases while fulfilling the requirements for the major. If a student completes an emphasis and requests recognition from the department, the emphasis is indicated on the transcript at graduation.

Each emphasis consists of four courses. Emphases are available in American institutions, American political practice, business and politics, international relations, law and politics, identity politics, political communication, political economy, political processes, political theory, politics of democratization, politics of developing areas, and politics of industrial democracies. For lists of courses approved in each area, contact the Department of Political Science.

B.A. and B.S.: International Relations
The Bachelor of Arts with a major in international relations requires a minimum of 120 s.h., including at least 33 s.h. of work for the major. The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 44 s.h. of work for the major.

The major in international relations focuses on economic relations between states, a crucial area of study in today’s globalized world. Students in the major are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track. Requirements for the major are the same for B.A. and B.S. students, except that the major for the B.S. requires a set of mathematics/statistics courses, while the major for the B.A. does not.

All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Students must maintain a g.p.a. of at least 2.00 in all international relations courses taken at The University of Iowa, and in all international relations courses taken at other institutions and at the University combined. Students must complete a minimum of 18 s.h. of work for the major at The University of Iowa. A maximum of 15 s.h. of approved transfer credit may be applied toward the major.

The major in international relations requires the following course work.

Common Requirements (B.A. and B.S.)
INTERNATIONAL RELATIONS CORE (B.A. AND B.S.)
All of these:
030:060 (Poli:1500) Introduction to International Relations 3 s.h.
030:165 (Poli:3512) International Conflict 3 s.h.

One of these:
016:003 (Hist:2403) Western Civilization III 3-4 s.h.
016:082 (Hist:3255) The World Since 1945 3 s.h.
016:143 (Hist:3143) International Politics: The History of the Present 3-4 s.h.

METHODS COURSE (B.A. AND B.S.)
030:100 (Poli:3000) Understanding Political Research 3 s.h.

SENIOR SEMINAR (B.A. AND B.S.)
030:179 (Poli:4800) Senior Seminar in International Relations 3 s.h.

MATHEMATICS/STATISTICS COURSES (B.S.)
Bachelor of Science students must complete one of the following approved sets of mathematics/statistics courses (11-13 s.h.) with a g.p.a. of at least 2.00. Substitutions must be approved by the director of undergraduate studies.

Set 1:
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business (or equivalent or higher level calculus course) 4 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.
22S:148 (STAT:6513) Intermediate Statistical Methods 4 s.h.

Set 2:
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business (or equivalent or higher level calculus course) 4 s.h.
22S:008 (STAT:1030) Statistics for Business 4 s.h.
06E:071 (ECON:2800) Statistics for Strategy Problems 3 s.h.
Set 3:

**Tracks (B.A. and B.S.)**

International relations students complete one of the following five tracks, each of which requires 15 s.h. of course work. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

**CONFLICT AND FOREIGN POLICY TRACK**

The conflict and foreign policy track requires the following course work (minimum of 15 s.h.).

This course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>030:061</td>
<td>(POLI:1501) Introduction to American Foreign Policy</td>

<td>3 s.h.</td>
</tr>
</tbody>
</table>

**REGIONAL POLITICS AND RELATIONSHIPS TRACK**

The regional politics and relationships track requires the following course work (minimum of 15 s.h.).

This course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>030:045</td>
<td>(POLI:1405) Introduction to Comparative Politics</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Four of these, including at least 6 s.h. of courses from each of two departments:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>016:155</td>
<td>(HIST:4475) Germany Since 1914: Weimar, Hitler, and After</td>
<td>3 s.h.</td>

### SELF-DEFINED TRACK

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at The University of Iowa. It must consist of at least 15 s.h. of course work, which must include 3 s.h. of credit earned in courses from each of three departments.

### B.A. or B.S. with Teacher Licensure

Political science majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

The Department of Political Science course 030:001 (POLI:1100) Introduction to American Politics is approved for teacher education requirements.

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

#### B.A.: Political Science

In addition to the following checkpoints, B.A. honors students must complete 030:180 (POLI:4000) Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** two courses in the major and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** six courses in the major and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** eight courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

#### B.S.: Political Science

In addition to the following checkpoints, B.S. honors students must complete 030:180 (POLI:4000) Honors Seminar on the Study of Pol
Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** two courses in the major and at least one-half of the semester hours required for graduation

**Before the seventh semester:** eight courses in the major, including two of the three required mathematics/statistics courses and 030:100 (POLI:3000) Understanding Political Research, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** 11 courses in the major, including 030:193 (POLI:4701) Undergraduate Research Tutorial

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### B.A.: International Relations

**Before the third semester begins:** 030:060 (POLI:1500) Introduction to International Relations and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** all core courses, the methods course, and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** all core courses, the methods course, at least 12 s.h. in the track, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** all core courses, the methods course, and all track requirements

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### B.S.: International Relations

**Before the third semester begins:** 030:060 (POLI:1500) Introduction to International Relations and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** all core courses, the methods course, and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** all core courses, the methods course, at least two of the mathematics/statistics courses, at least 12 s.h. in the track, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** all core courses, the methods course, the remaining mathematics/statistics course, and all track requirements

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Honors in Political Science

Outstanding students in political science may work toward graduation with honors in the major. The honors program in political science is open to students who have a g.p.a. of at least 3.33 in the political science major and are members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information).

To graduate with honors, students must maintain a g.p.a. of at least 3.50 in the major. They must complete 9 s.h. of 100-level honors course work with a grade of B or higher in each course, and they are encouraged to take honors sections of introductory courses whenever available. They must complete 030:180 (POLI:4000) Honors Seminar on the Study of Politics, preferably as sophomores. They also must take at least one additional honors seminar [030:181 (POLI:4100) Honors Seminar on American Politics, 030:182 (POLI:4300) Honors Seminar on Political Theory, 030:183 (POLI:4400) Honors Seminar on Comparative Politics, or 030:184 (POLI:4500) Honors Seminar on International Politics]. This requirement also may be met by taking a 300-level course, with the instructor’s consent.

The last 3 s.h. required for graduation with honors in political science may be earned by completing 030:185 (POLI:4600) Honors Research Project or 030:186 (POLI:4601) Honors Senior Thesis. For more information, contact the Department of Political Science honors advisor.

### Honors in International Relations

Outstanding students in international relations may work toward graduation with honors in the major. Honors students in international relations must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). To graduate with honors, students must maintain a g.p.a. of at least 3.50 in the major. They must complete 030:184 (POLI:4500) Honors Seminar on International Politics or 030:183 (POLI:4400) Honors Seminar on Comparative Politics. They also must designate 030:179 (POLI:4800) Senior Seminar in International Relations as an honors course and complete an honors thesis [030:186 (POLI:4601) Honors Senior Thesis].

### Minor in Political Science

The minor in political science requires a minimum of 15 s.h. in political science courses, including 12 s.h. in 100-level courses and 12 s.h. taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. Credit by exam is not accepted. Credit from 030:029 (POLI:1000) First-Year Seminar, 030:187 (POLI:3124) Political Science Des Moines Internship Program, and 030:191 (POLI:4900) Government Internship does not count toward the minor. Credit earned through a University of Iowa Regents program is considered credit earned at The University of Iowa.

Students may complete an emphasis area (see “Emphases in Political Science”); however, emphasis areas in the minor are not recorded on the transcript. Students may request a letter from the Department of Political Science noting the completion of an emphasis area in the minor.
Minor in International Relations

The minor in international relations requires a minimum of 15 s.h. in course work approved for the international relations major, including at least 9 s.h. in 100-level courses and at least 12 s.h. taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 9 s.h. earned in course work from one department toward the minor.

The minor must include the following courses.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of course work in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

Graduate Programs

- Master of Arts in political science
- Doctor of Philosophy in political science

Graduate study in political science emphasizes the Doctor of Philosophy program, which is designed for students planning academic careers. The department usually offers the master’s degree only as a preliminary step toward the Ph.D.

Master of Arts

The Master of Arts program in political science requires a minimum of 30 s.h. of graduate credit, with a g.p.a. of at least 3.25. No thesis is required. Each student’s record is reviewed by a final examination committee, which may waive the final oral examination. If the evaluation committee convened at the end of the student’s first year of courses finds that a student’s work provides sufficient evidence of the research and writing skills ordinarily demonstrated in a master’s thesis, it may recommend that the student be allowed to proceed with a doctoral program.

When a first-year evaluation committee finds the quality of a student’s work inadequate for recommending continuation toward the Ph.D., the committee may recommend that the student be permitted to seek the nonthesis M.A. as a terminal degree.

Doctor of Philosophy

The Doctor of Philosophy program in political science requires a minimum of 72 s.h. of graduate credit. The program is designed to prepare students for research, teaching, and scholarly endeavor in academic settings and private or governmental institutions. It produces graduates who are deeply committed to the study of politics, familiar with fundamental knowledge about political processes, well trained in methods and techniques for careful investigation of basic and applied research questions, and determined to make contributions to the discipline of political science and to society.

The department usually admits seven to ten Ph.D. students each year, so students work closely with faculty members, often collaborating on research and publication. Graduate students know one another and enjoy supportive, congenial working conditions.

Doctoral study usually lasts four to five years. The first-year curriculum for all students consists of core courses equally divided between substance and methodology. Emphasis is on basic research methods, including quantitative methods, that political scientists must understand thoroughly. Special attention is given to research design, collection of observations, and data analysis and interpretation.

The second and third years of study are spent in small seminars with focused, substantive topics. Papers written for these seminars might be submitted to journals or read at professional meetings. Students must take their qualifying examinations by the end of the third year. They take their comprehensive examination (oral defense of the dissertation proposal) by the middle of the first semester of their fourth year.

The fourth and fifth years are spent on dissertation research and writing. Students who do basic research and gather data abroad often require an additional year to complete the dissertation.

Six fields of study are available: American politics, comparative politics, international relations, political theory, formal theory, and for those who wish to go beyond the basic methodology training, research methods. Each student chooses three fields of study for qualifying examinations.

The Guide to Doctoral Study in Political Science, available from the Department of Political Science and on its web site, provides a comprehensive statement of departmental requirements.
030:001 (POLI:1100) Introduction to American Politics 3 s.h.
Structure and processes; political institutions including Congress, presidency, Supreme Court, parties, interest groups, bureaucracy; discussion of framing and significance of the U.S. Constitution. GE: Social Sciences.

030:020 (POLI:1001) Introduction to Politics 3 s.h.
Introduction to selected processes, institutions, or behaviors central to the study of politics.

030:021 (POLI:1002) Lawyers in the American Political System 3 s.h.
Training and careers of lawyers; various roles they play in the American political system. Requirements: no prior enrollment in 030:119 (POLI:3150) with the subtitle Lawyers in the American Political System.

030:029 (POLI:1000) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

030:030 (POLI:1300) Introduction to Political Thought and Political Action 3 s.h.
Common problems, literature, analytic techniques. GE: Social Sciences; Values; Society, and Diversity.

030:041 (POLI:1401) Introduction to the Politics of Russia and Eurasia 3 s.h.
Political dynamics in postcommunist countries of east-central Europe and Eurasia; imperial legacies, ideology and practice of communist politics, patterns of democracy and authoritarianism. GE: International and Global Issues; Social Sciences.

030:043 (POLI:1403) Introduction to Politics in the Muslim World 3 s.h.
Processes of politics and government in pivotal countries of the Muslim World; political culture and historical legacies; links with economic development; ideologies; ruling elites and oppositional organizations; public policy (domestic and foreign); selected countries including Saudi Arabia, Iran, Iraq, Egypt, Afghanistan, Pakistan, Turkey, and Palestine. GE: International and Global Issues; Social Sciences.

030:045 (POLI:1405) Introduction to Comparative Politics 3 s.h.
Politics worldwide, including all regions and levels of development; wide-ranging themes, including democratization, sustainability, role of interest groups, authoritarian regimes, electoral systems, parties. Recommendations: closed to students who have taken 030:040 or 030:042. GE: International and Global Issues; Social Sciences.

030:050 (POLI:1200) Introduction to Political Behavior 3 s.h.
Patterns and basis of political behavior; emphasis on common elements across social, organizational, institutional settings. GE: Social Sciences.

030:060 (POLI:1500) Introduction to International Relations 3 s.h.
Theoretical introduction to contemporary international relations; emphasis on security and military affairs, international political economy, politics of global environmental problems. GE: International and Global Issues; Social Sciences.

030:061 (POLI:1501) Introduction to American Foreign Policy 3 s.h.
Foreign policies: goals, basic themes and general patterns, problems encountered by policy makers, means employed in dealing with other nations and international organizations, processes by which policies are formulated, factors that influence structure of policies. GE: International and Global Issues; Social Sciences.

030:070 (POLI:1600) Introduction to Political Communication 3 s.h.
Institutions, dynamics, issues of political communities considered as networks of communication; representative topics include political actors, ads, films, media, myths, news, publics, regulations, rhetorics, symbols. GE: Social Sciences.

030:071 (POLI:1601) Introduction to Political Media 3 s.h.
Politics in news, culture, commerce, campaigns, and government with attention to current media (e.g., cinema, internet, print, television).

030:100 (POLI:3000) Understanding Political Research 3 s.h.
Creating knowledgeable evaluators of current research in political science; interpretation of different quantitative techniques with examples from current political science research.

030:101 (POLI:3001) Hawkeye Poll 3 s.h.
Basics of survey design, sampling, question wording, interpreting responses, and writing press releases; students work together to help design questions as part of the Hawkeye Poll, a collaborative teaching and research enterprise in the Department of Political Science.

How eleven states of Southeast Asia order government and society; emphasis on issues of democracy, identity, and development; geographic, ethno-demographic, and colonial foundations; current politico-economic dynamics; political participation, identity politics, and various approaches to political, economic, and overall human development.

030:103 (POLI:3421) The Politics of Southern Africa 3 s.h.
Comparative approach to politics of ten countries in the Southern Africa region; mineral riches, substantial agricultural resources, millions of hard working and talented people; poverty, underdevelopment, and inequality; varied paths toward development; mosaic of ethnic, religious, and regional groups that impact domestic and regional politics; politics analyzed at regional, state, and sub-state level.

030:106 (POLI:3113) Research in Judicial Politics 3 s.h.
Applied research training in courts and judicial politics. Prerequisites: 030:116 (POLI:3101) or 030:153 (POLI:3121) or 030:158 (POLI:3120).

030:107 (POLI:3114) Women and Politics in the United States 3 s.h.
Involvement of women in the U.S. political system; topics include political theories about women’s involvement in politics and government, women and constitutional law, public policies that affect women, women’s participation in politics at the mass and elite levels.
030:108 (POLI:3104) Immigration Politics 3 s.h.
United States immigration policy and political consequences of Latino population growth; contrast of political experiences of Latinos with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics.

030:109 (POLI:3109) Fixing America’s Electoral System 3 s.h.
What’s wrong with American politics and what can be done to fix it; overview of major problems facing American democracy from polarized political parties and money in politics, to low voter turnout and trust in government, to growing gap between super rich and middle class; focus on problem solving, including movement towards digital politics and new media, participatory democracy, reform of congressional elections and non-partisan redistricting, presidential elections (Electoral College), presidential nomination process, campaign finance, voter registration and voting, proportional representation. Requirements: no prior enrollment in 030:119 (POLI:3150) with the subtitle of Election Reform.

030:110 (POLI:3123) State Politics in Iowa 3 s.h.
Introduction to Iowa government and politics; emphasis on Iowa Constitution, founding and history, political institutions, voting, political parties, mass movements and interest groups; evangelical movement in Iowa, immigration, and Iowa’s role in national politics given the state’s first-in-the-nation caucus.

030:111 (POLI:3110) Local Politics 3 s.h.
Models of city government, relation to state and federal governments; rights, liabilities of municipalities; city elections, campaigns, issues; role of pressure groups.

030:112 (POLI:3105) Minority Representation in American Politics 3 s.h.
Effects of voting rights legislation, election laws, interest groups, and institutional constraints on minority representation in American politics.

030:113 (POLI:3100) American State Politics 3 s.h.
Approaches to analysis of political behavior in American state governments; emphasis on cultures, parties, actors, processes, issues.

030:114 (POLI:3106) Racism and Politics in the U.S. 3 s.h.
Evolution of white racial attitudes over time; political experiences of African Americans contrasted with other groups and the ideals of democratic political systems; effect of race on political participation, partisan affiliation, vote choice, and policy preferences.

030:115 (POLI:3116) The Presidency 3 s.h.
Development, current status of the office, powers, functions of American presidency; recruitment, multiple roles of chief executive; party, congressional, administrative, judicial relationships.

030:116 (POLI:3101) American Constitutional Law and Politics 3 s.h.
Role of U.S. Supreme Court in American political system; emphasis on analysis of Supreme Court cases.

030:118 (POLI:3108) American Political Development 3 s.h.
Transformations in American political behavior and institutions over time.

030:119 (POLI:3150) Problems in American Politics 3 s.h.
Problems in studying American system; structures, functions, behavior.

030:120 (POLI:3117) Public Administration and Bureaucratic Politics 3 s.h.
Administrative and organizational theory and behavior; techniques of management; relations between administration and other branches in federal and state governments; administrative politics.

030:121 (POLI:3122) Public Choice 3 s.h.
Introduction to some of the most important topics in public choice (i.e., How do we explain what the public “wants”? Can we determine group preferences and group choices even if individual incentives run contrary to society’s needs?); study of public choice theory problems in political science—how we determine society’s preference among candidates, public policies, or even types of government.

030:125 (POLI:3118) Interest Groups 3 s.h.
Theory, organization, structure of interest groups; how they influence Congress, executive branch, courts, elections.

030:126 (POLI:3111) American Public Policy 3 s.h.
Functions and policies of national government; emphasis on domestic policy making, impact of public policy.

030:127 (POLI:3201) Political Campaigning 3 s.h.
Current state of political campaigning at all levels of government; history of campaigning, role of money and campaign finance reform, television and negative advertising, Internet campaigning.

030:128 (POLI:3112) Direct Legislation 3 s.h.
Direct democracy—lawmaking by the citizenry without legislative action; origins, historical perspectives, usage across politics, regulations; consequences of direct democracy; concerns about equality of access, tyranny of majority; United States, other countries.

030:129 (POLI:3119) Policy Matters: Perspective on Contemporary Problems 3 s.h.
Public policy issues in scholarly perspective; UI experts provide background introduction to weekly issues; presentations of new policy initiatives, roundtable on policy options; panels representing local, state, and national options and experience involving policy practitioners, legislators, and advocates. Same as 016:115 (HIST:3115).

030:130 (POLI:3506) Consequences of War 3 s.h.
War’s enduring effects: war’s impact on individuals, including combatants and noncombatants; war’s impact on states, including states’ development, economic, political, and social effects; war’s effects on the international system.

030:131 (POLI:3304) Global Justice 3 s.h.
Introduction to normative issues in international politics (i.e., Under what conditions are wars just? When is intervention justified? Do wealthier nations owe anything to those elsewhere who are in need?); theoretical works on global justice by Rawls, Kant, Pogge, Walzer, and others; normative theories analyzed against background of empirical examples, such as recent humanitarian interventions, contemporary wars, current trade regime, global environmental problems; seminar. Requirements: may not enroll if already taken the course as a subtitle under 030:169 (POLI:3550).

030:132 (POLI:3305) Modern Political Theory 3 s.h.
Major writers and intellectual trends in political thought from Renaissance and Reformation to 19th century.

030:133 (POLI:3300) Postmodern Political Theory 3 s.h.
Major writers and intellectual trends, from 19th century to World War II.
030:134 (POLI:3306) Problems of Democracy 3 s.h.
Theory and practice of democracy; democratic ideals and the institutions and practices necessary for those ideals to work in everyday politics—power, equality, majority rule, participation, trust, representation.

030:136 (POLI:3301) Strategy in Politics 3 s.h.
How to isolate the most important elements in strategic political behavior, build models to understand them, recognize common scenarios, devise institutional resolutions to the Prisoners' Dilemma and coordination problems.

030:137 (POLI:3400) Introduction to Political Economy 3 s.h.
Economic reasoning applied to political issues, including evolution of institutions, voting, leadership, interest groups, bargaining tactics, federalism, bureaucracy, fairness and compensation for wrongs, legitimacy of democracy, electoral cycles in economic policy.

030:138 (POLI:3302) Current Political Theory 3 s.h.
Thinkers or schools of thought, from World War II to present.

030:139 (POLI:3303) Political Issues 3 s.h.
Representative topics include democracy, revolution, justice, obligation, technology, authority.

030:140 (POLI:3412) Government and Politics of Europe 3 s.h.
Political institutions, processes of selected European countries. GE: International and Global Issues; Social Sciences.

030:141 (POLI:3413) Russian Politics 3 s.h.
Institutions and processes of governing this large world power; Russian political dynamics, including struggles to unify or diversify power; political responses to major economic, technical, and social challenges. Recommendations: 030:041 (POLI:1401). GE: International and Global Issues; Social Sciences.

030:142 (POLI:3401) European Integration 3 s.h.
Politics of the European Union; institutional characteristics and major political issues of the European Union, including popular and national responses to European integration.

030:143 (POLI:3414) Government and Politics of the Far East 3 s.h.
Functions, institutions of government in countries of Far East; focus on social, economic, historical environments. GE: International and Global Issues; Social Sciences. Same as 039:178 (ASIA:3414).

030:144 (POLI:3415) Latin American Politics 3 s.h.
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences.

030:145 (POLI:3419) War in the Muslim World 3 s.h.
Foundations, evolutions, and outcomes of recent wars in the Middle East; primary focus on insurgencies in Iraq and Afghanistan, together with Arab-Israel conflict; post-World War I mandate system; Saddam Hussein era; Sunni-Shiite and Arab-Kurd cleavages; military activities of coalition forces; Soviet occupation; rise of the Taliban; Al Qa’ida alliance; Operation Enduring Freedom; collapse of law and order; shadow governments; safe havens in Pakistan; Zionism and colonization of Palestine; Palestine Mandate; institutions of governance; strategies and ideologies of Hezbollah and Hamas. Requirements: no prior enrollment in 030:149 with subtitle "War in the Muslim World."
030:155 (POLI:3509) International Courts: The Intersection of Law and Politics
3 s.h.
Introduction to important international courts including (Permanent) International Court of Justice, European Court of Justice, International Criminal Tribunal for Yugoslavia, International Criminal Tribunal for Rwanda, and International Criminal Court; the formation, design, and expansion of international courts from political and legal perspectives; states’ capabilities, regime type, and war; intersection of domestic and international law, emphasizing the major legal systems in the world (civil law, common law, Islamic law).

030:156 (POLI:3406) Ethnic and Religious Conflict in the Muslim World
3 s.h.
Ethnic and religious conflict in the Muslim world; cultural preservation and religious nationalism examined through case studies of ethnic and religious groups in countries such as Afghanistan and Iraq; conditions under which conflict becomes violent, protracted, and regionalized; strategies and ideologies employed by states and oppositional and/or insurgent groups; role of international actors in regional conflicts.

030:157 (POLI:3203) Voting Behavior and Elections
3 s.h.
Determinants of voting behavior; correlates of political participation, political apathy; political socialization processes; nature and functions of elections.

030:158 (POLI:3120) The Criminal Justice System
3 s.h.
Role of actors, institutions that constitute and participate in the American criminal justice system.

030:159 (POLI:3405) Authoritarian Politics
3 s.h.
Political dynamics in countries with authoritarian governing regimes; how those dynamics differ from their counterparts in democracies; how decisions are reached and get enforced; forms political struggles take; how interest groups pursue influence; ways individuals deal with the government; tension between regime control and societal progress.

030:160 (POLI:3507) Women and Politics in Global Perspective
3 s.h.
Women and politics in Europe and the global South; women’s participation in political parties and social movements, women in the bureaucracy, women and the politics of intersectionality, feminism and the state, emergence of female gender identities.

030:161 (POLI:3501) International Organization and World Order
3 s.h.
How and why states have developed regularized patterns of interaction in the spheres of economics and security through international organizations and international regimes; regional integration processes, multilateralism.

030:162 (POLI:3500) American Foreign Policies
3 s.h.
Ends pursued, problems encountered, means employed by the United States in relations with other states and international organizations.

030:163 (POLI:3407) Chinese Foreign Policy
3 s.h.
Foreign policy of the People’s Republic of China from its founding in 1949 to present; important events (China’s entry into the Korean War, Sino-Soviet split in the 1960s, rapprochement between China and the United States in the 1970s, tensions with Taiwan in the 1990s, China’s entry into the World Trade Organization); competing explanations for these turning points, theoretical approaches to the study of international relations.

030:164 (POLI:3508) Race in World Politics
3 s.h.
Fundamental questions about racial and ethnic politics; racial and ethnic identities and their intersection with other major social cleavages such as class, nationality, sexuality, religion, gender; concepts and use of race and ethnicity viewed through varied theoretical perspectives; contemporary events around the globe.

030:165 (POLI:3512) International Conflict
3 s.h.
International conflict as the primary ingredient of international politics; sources, causes, and effects of conflict, alliance structures, power distribution, geography, arms races, deterrence.

030:166 (POLI:3515) Global Communication and Politics
3 s.h.
How distance and language barriers in communication have fallen since 2000; how politics and the world are affected when such barriers to communication disappear.

030:167 (POLI:3502) Politics and the Multinational Enterprise
3 s.h.
Political factors affecting a firm’s decision to go multinational; effects on home and host countries; political risk management; bargaining between states and corporations; regulation of multinationals by nation-states and international organizations; political implications of global mergers.

030:168 (POLI:3503) Politics of Terrorism
3 s.h.
Political motivations of terrorists; responses to terrorism, politics of prevention and preparation for terrorism; contemporary terrorist organizations, international responses to them.

030:169 (POLI:3550) Problems of International Politics
3 s.h.
Problems in studying international system, structures, functions, behavior.

3 s.h.
Political, historical dimensions; political aspects of trade, monetary systems, foreign investment, aid, dependency, global interdependence.

030:171 (POLI:3204) Public Opinion
3 s.h.
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as 034:153 (SOC:3525).

030:172 (POLI:3416) France in the 21st Century
3 s.h.
French politics from the end of the 20th century to beginning of the 21st century; history of France’s Fifth Republic; institutional development; key events that influenced politics in France over the last 50 years; major issues that shape France today—citizenship, immigration, identity, France’s role in the European Union, electoral and institutional reform, rise of the extreme right, role of women in French society, how protest still affects French politics.

030:173 (POLI:3510) State Failure in the Developing World
3 s.h.
State failure in the developing world, including notable cases like Somalia and Zimbabwe; causes of state failure; potential policy interventions designed to address consequences of state failure.

030:174 (POLI:3600) Multimedia Politics
3 s.h.
How increasingly universal access to communication affects political campaigning and advocacy; the use of blogging, video, and developing communication media by citizens and candidates to talk politics.
**030:175 (POLI:3601) Politics of Film**  
3 s.h.  
Issues in the popular politics of aesthetics, communication, culture, and myth, explored through analysis of films.

**030:176 (POLI:3418) Governance in the Middle East**  
3 s.h.  
Institutions and social systems that are affected by political behavior; ways in which Islam, oil production, and international forces shape political evolution in the region; comparative political inquiry of the operation of government institutions in the context of specific historical legacies, economic structures, and population characteristics in Iran, Iraq, Egypt, Turkey, Saudi Arabia.

**030:177 (POLI:3504) Globalization**  
3 s.h.  
Introduction to multidisciplinary literature on political economy and culture of globalization; major topics of debate on globalization.

**030:178 (POLI:3505) Causes, Consequences, and Management of Civil War**  
3 s.h.  
Causes, duration, management, and consequences of civil war; factors that create more frequent, longer civil wars (e.g., greed, grievance, ethnic conflict, state capacity); conflict management strategies for ending civil wars and minimizing long-term negative consequences.

**030:179 (POLI:4800) Senior Seminar in International Relations**  
3 s.h.  
Completion of final research project as a culmination of student’s work in the major; research supervised by a faculty member; required for international relations major. Recommendations: taken during one of student’s final two semesters at The University of Iowa.

**030:180 (POLI:4000) Honors Seminar on the Study of Politics**  
3 s.h.  
Selected topics in philosophy, theory, and methods for the systematic study of politics; foundations of scientific inquiry, including processes of theory building, concept formation, and hypotheses testing; political research; challenges faced when conducting good political science; questions of research design, measurement accuracy, and sample selection; application of multivariate research process. Requirements: honors standing in political science.

**030:181 (POLI:4100) Honors Seminar on American Politics**  
3 s.h.  
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

**030:182 (POLI:4300) Honors Seminar on Political Theory**  
3 s.h.  
Intensive study of ideas, issues, methods in an area of political theory. Requirements: junior or senior honors standing in political science.

**030:183 (POLI:4400) Honors Seminar on Comparative Politics**  
3 s.h.  
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

**030:184 (POLI:4500) Honors Seminar on International Politics**  
3 s.h.  
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

**030:185 (POLI:4600) Honors Research Project**  
3 s.h.  
Special research assistance to political science faculty. Requirements: junior or senior honors standing in political science.

**030:186 (POLI:4601) Honors Senior Thesis**  
3 s.h.  
Supervised research and writing. Requirements: honors standing in political science and more than one semester before graduation.

**030:187 (POLI:3124) Political Science Des Moines Internship Program**  
1-6 s.h.  
Supervised professional work experience in government and nongovernment organizations, as well as private industry. Corequisites: 030:188 (POLI:3125). Requirements: sophomore or higher standing.

**030:188 (POLI:3125) Perspectives on Contemporary Iowa**  
3 s.h.  
In-depth examination of the state of Iowa; culture, politics, and contemporary issues facing the state and Midwest region in which it resides; historical and political development of Iowa as a state; policy implications of development on contemporary Iowa; how history, culture, and politics impact citizenry of the state; designed to enrich internship program in Des Moines. Prerequisites: 030:187 (POLI:3124) Requirements: sophomore or higher standing.

**030:190 (POLI:4700) Independent Study**  
arr.  
Supervised special projects.

**030:191 (POLI:4900) Government Internship**  
1-3 s.h.  
Undergraduate internships in state or national legislative office, executive agency, or with election campaign official.

**030:192 (POLI:4703) Special Topics in Politics**  
1-2 s.h.  
Presentations by distinguished lecturers on topics in the study of politics not covered in other courses. One or two weeks.

**030:193 (POLI:4701) Undergraduate Research Tutorial**  
3 s.h.  
Individual training in applied research.

**030:194 (POLI:4702) Senior Research Project/Paper**  
3 s.h.  
Supervised research and writing. Requirements: political science major and more than one semester before graduation.

**030:195 (POLI:3511) International Law**  
3 s.h.  
Introduction to field of international law from a political and legal perspective; history and contemporary status of international law in several areas: human rights, humanitarian (law of war), environmental law, trade; structure and areas of international law; ask if international law is or can it be an effective tool of international cooperation from a political science perspective; structure of the basic documents of international law and organizations, key cases in the field from a legal perspective. Requirements: may not enroll if already taken the course as a subtitle under 030:169 (POLI:3550).

**030:196 (POLI:3411) Democracy: Global Trends and Struggles**  
3 s.h.  
Diverse contemporary understandings and practices of democracy; worldwide democratization trends; what political, economic, cultural, and transnational factors shape these trends; how, within countries, elites and citizens struggle to promote or retard democracy.

**030:197 (POLI:3513) Politics of International Human Rights Law**  
3 s.h.  
Interaction between politics and international human rights law; international law and organizations, human rights, ratification of human rights treaties; theories of international law and cooperation, exposure to tools of international relations (diplomacy, trade, aid, shaming, sanctions), the role that international and domestic civil society groups play in advocating for states to commit to human rights laws.
For Graduate Students

Courses numbered 200 to 299 are core courses; those numbered 300 and above are advanced.

030:198 (POLI:3514) Regional Peace and Security 3 s.h.
Analysis of the causes of peace and conflict between countries in various regions of the world; theories of zones of peace, security communities, regional security complexes.

030:199 (POLI:3602) New Media and Politics 3 s.h.
Blogging, microblogging, and video production as tools of new media (anyone can twitter and reach a large audience); how these technologies work, how they are being used in current politics, what they portend for the future, and what tools are next. Requirements: no prior enrollment in 030:139 with the subtitle New Media and Politics.

030:200 (POLI:5000) Introduction to Political Analysis 4 s.h.
Conceptual problems of political analysis; empirical research strategies, philosophy of science. Requirements: M.A. or Ph.D. standing in political science.

030:201 (POLI:5001) Introductory Methodology 3-4 s.h.
Introduction to quantitative techniques in political science; set theory, probability distributions, estimation, testing; emphasis on acquiring mathematical skills for more advanced quantitative work in political science. Requirements: M.A. or Ph.D. standing in political science.

030:205 (POLI:5004) Introduction to Formal Models in Political Science 4 s.h.
Use of formal mathematical models; current modeling techniques, applications in American politics, comparative politics, international politics. Requirements: M.A. or Ph.D. standing in political science.

030:210 (POLI:5100) American Politics 4 s.h.
Major literature of American politics, emphasis on comparative, systemic, behavioral studies. Requirements: M.A. or Ph.D. standing in political science.

030:230 (POLI:5300) Political Theory 4 s.h.
Methods of political theory, epistemological and moral foundations of political inquiry; terms of political discourse (e.g., power, legitimacy, equality, ideological foundations of politics); schools of thought and current controversies in political theory. Requirements: M.A. or Ph.D. standing in political science.

030:240 (POLI:5400) Comparative Politics 4 s.h.
Current approaches, analysis of systems; emphasis on conceptual, methodological issues. Requirements: M.A. or Ph.D. standing in political science.

030:242 (POLI:6635) Crossing Borders Seminar 2-3 s.h.

030:260 (POLI:5500) International Politics 4 s.h.
Approaches to study of international politics. Requirements: M.A. or Ph.D. standing in political science.

030:301 (POLI:5003) Intermediate Methodology 4 s.h.
Techniques of data analysis; statistical models and their relationship to hypotheses tested. Requirements: doctoral standing in political science and one semester of intermediate statistics.

030:302 (POLI:7000) Writing Political Science 4 s.h.
Practice in planning and completing political inquiries, with emphasis on writing for scholarly publication; experience refining one's prior research projects for submission to disciplinary journals, and drafting dissertation proposals. Requirements: doctoral standing in political science.

030:303 (POLI:7003) Advanced Methodology 4 s.h.
Introduction to regression techniques for limited dependent and qualitative variables in political science; logit, probit, multinomial logit and probit, ordered logit and probit, event history models, event count models; emphasis on understanding how and when to apply these models.

030:304 (POLI:7001) Experimental Methods 4 s.h.
Methods, techniques used in political science experiments.

030:306 (POLI:7002) Topics Methodology 4 s.h.
Application of advanced statistical techniques in political science; limited dependent variable regression techniques, simulation methods, missing data techniques, history/rare event analysis and maximum likelihood, and topics tailored to students' research; focus on learning how and when to apply these techniques.

030:307 (POLI:7004) Qualitative Methods 4 s.h.
Introduction to qualitative methods in political science research; interviewing, ethnographic research, process tracing, comparative historical analysis, content and discourse analysis, fuzzy set theory.

030:310 (POLI:7100) Modeling American Politics 4 s.h.
Exploration of how well formal models explain the real world and how the fit between models and world can be improved.

030:315 (POLI:7102) The Presidency 4 s.h.
American chief executive: history, recruitment, behavior, roles, responsibilities, powers, relationships with other institutions.

030:319 (POLI:7150) Problems in American Politics 4 s.h.
Problems in study of American political system; structures, functions, behavior.

030:339 (POLI:7350) Problems in Political Theory 4 s.h.
Prescriptive and explanatory political theory.

030:342 (POLI:7411) Religion, Ethnicity, and Politics 4 s.h.
Theories and empirical work on the relationships between religions and politics; issues of law and political behavior, development of theoretical models in study of ethnicity and nationalism; religious and national identities in modern society, opportunity structures and resource mobilization in context of religious and national movements.

030:344 (POLI:7401) European Union 4 s.h.
Politics of the European Union; institutional characteristics and major political issues of the European Union, including popular and national responses to European integration.

030:345 (POLI:7422) The State 4 s.h.
Apparatus of government; major theoretical and empirical work of the state, drawn from comparative politics; state building, bureaucracy, "developmental" and "predatory" states, state-society relationships, failed states.
030:346 (POLI:7423) Comparative Parties and Elections
Introduction to important questions and puzzles in the study of political parties: party formation and development, the role of parties in society, how parties are organized, party systems, electoral systems, party strategy and behavior, development of new parties, whether parties are still relevant, regeneration of communist parties in post-communist regimes, ethnic parties, failure of party consolidation.

030:349 (POLI:7450) Problems of Comparative Politics
Problems in study of comparative political systems; structures, functions, behavior.

030:352 (POLI:7200) Legislative Behavior
Institutions, processes, behavior in the United States, Europe, or developing countries.

030:353 (POLI:7201) Political Psychology
Political phenomena from a psychological perspective; decision making by elites and masses, evaluations of political candidates, mass mobilization, response to mass media; psychological theories used to explain these behaviors, including stereotyping, social cognition, attitude, group identification, attribution.

030:357 (POLI:7202) Public Opinion and Electoral Behavior
Political attitudes and beliefs in mass publics; voting behavior; how electoral systems function.

030:361 (POLI:7500) Foreign Policy
Foreign policy making and international behavior in relation to theories, findings from selected countries.

030:362 (POLI:7503) International Conflict and Cooperation
Recent theoretical and empirical debates in international relations literature; emphasis on formal and quantitative research.

030:363 (POLI:7501) Dynamic Models of International Politics
Overview of several dynamic modeling techniques used to study international relations; modeling assumptions, the kinds of information models can provide, evaluation of models.

030:367 (POLI:7504) Theories of International Political Economy
Theories focusing on international system, the state, bureaucracies, interest groups, international organizations, bargaining processes, distributive norms.

030:368 (POLI:7502) International Systems and Global Governance
Literature of international systems and international organization; major schools of thought in international relations theory, their utility in explaining evolution of the international system and recent developments in international organization and global governance.

030:369 (POLI:7550) Problems in International Politics
Issues of international politics, emphasis on problems of theoretical analysis.

030:390 (POLI:7900) Readings Tutorial
Independent study.

030:393 (POLI:7901) Research Tutorial
Individual training in applied research.
Psychology

Chair
Jodie M. Plurmer

Professors
Mark S. Blumberg (F. Wendell Miller Professor), Alan J. Christensen (Psychology/Internal Medicine), Steven W. Duck (Communication Studies/Psychology), John H. Freeman, Gary J. Gaeth (Marketing/Psychology), Andrew R. Hollingworth, A. Kim Johnson (F. Wendell Miller Professor), Grazyna Kochanska (Stuit Professor of Developmental Psychology), Susan K. Lutgendorf, Cathleen M. Moore, Michael W. O'Hara, Jane S. Paulsen (Psychiatry/Psychology), Jodie M. Plurmer, John P. Spencer, Scott P. Stuart (Psychiatry/Psychology), Jerry M. Suls, Daniel T. Tranel (Neurology/Psychology), Shaun P. Vecera, Edward A. Wasserman (Stuit Professor of Experimental Psychology), Paul D. Windschitl

Professors emeriti

Professor (clinical)
James N. Marchman

Adjunct professor
Lori J. Nelson

Associate professors
Prahad Gupta, Richard Eliot Hazeltine, Erika Lawrence, Robert M. McMurray, John F. Mordkoff, Amy Poremba, Larissa K. Samuelson, Teresa A. Treat, Mark W. Vander Weg (Internal Medicine/Psychology)

Associate professor emerita
Sue R. Rosner

Associate professor (clinical)
Joseph Barrash (Neurology/Psychology)

Adjunct associate professors
Robert F. Kirby, René E. Martin

Assistant professors
Jason K. Clark, Susan Wagner Cook, Lilian N. Dindo (Psychiatry/Psychology), Thomas A. Farmer, Julie J. Gros-Louis, Ryan T. LaLumiere, Kristian E. Markon, Molly A. Nikolas, Jason J. Radley, Lisa S. Segre (Nursing/Psychology), Andrew R. Todd, Michelle W. Voss

Assistant professor (clinical)
Jody L. Jones (Surgery/Psychology)

Adjunct assistant professors
Martin Acerbo, Alex Casillas, Leyre Castro, Benjamin J. Chihak, Brian K. Gehl, Gregory L. Gullickson, James P. Howell, M. Bryant Howren, Debra L. Johnson, Michi Matsukura, Sammy Perone, Shannon Ross-Sheehy, Robert L. Thunhorst, Gregory Tinkler

Lecturer
Meara Habashi

Undergraduate major: psychology (B.A., B.S.)
Undergraduate minor: psychology
Graduate degrees: M.A. in psychology; Ph.D. in psychology
Web site: http://www.psychology.uiowa.edu

The Department of Psychology offers an undergraduate major and minor as well as graduate degree programs. It also offers courses that undergraduate students in all majors may use to satisfy the General Education Program (p. 276) Social Sciences requirement and a First-Year Seminar designed for entering undergraduate students.

Undergraduate Programs

• Major in psychology (Bachelor of Arts, Bachelor of Science)
• Minor in psychology

The major in psychology is designed to contribute to students’ general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as areas such as business, law, communication, medicine, and the allied health sciences. Students who intend to enter the job market immediately after completing an undergraduate degree should complement their psychology major with substantial preparation in another program more closely tied to the world of work (e.g., education, social work, business, journalism, nursing). Almost all vocational opportunities in psychology require advanced degrees.

The psychology major for the Bachelor of Science is intended for students who plan to pursue advanced work in psychology or in a related discipline. It requires a specific grade-point average for admission and certain courses in statistics, experimental psychology, mathematics, and natural science. The psychology major for the Bachelor of Arts has fewer specific requirements and puts less emphasis on methodology. Both programs leave ample time for students to combine psychology with another discipline or program.

Students who change to a psychology major after two years of undergraduate work may find they do not have sufficient background for the B.S. program. They may wish to enrich the B.A. program with courses in experimental psychology and other advanced electives if they intend to pursue graduate work in psychology or a related field.

Students in either program begin with a general introductory course, followed by biological psychology, statistics, and methodology courses and introductory courses in several broad areas: developmental science, clinical psychology, cognitive psychology, and social psychology. These courses are followed by upper-level psychology course work selected by the student.

The department maintains excellent facilities to support teaching and research on human and animal behavior. All faculty members are directly engaged in research, and they bring to their undergraduate teaching the excitement that such activity generates. Many opportunities exist for interested and capable students to participate in current research projects in the department.

The department has an active undergraduate organization, the Iowa Students Psychology Association, which is open to all interested students. The group sponsors speakers, films, career days, and student symposia.

Admission to the Major

Admission to psychology major for the Bachelor of Arts is open; any University of Iowa undergraduate student may enter the B.A. program.
Admission to the major for the Bachelor of Science is selective. To be eligible for admission to the B.S. program, students must have completed 30 s.h. of college course work (excluding any credit by exam) and must have a cumulative g.p.a. of 2.67 or higher. There is no limit on the number of qualified students admitted to the B.S. program. Students who do not meet the minimum admission requirements may petition the department in writing, presenting additional evidence of their qualifications.

Entering first-year and transfer students who have completed less than 30 s.h. of course work and are interested in entering the B.S. program are admitted to the B.A. program until they satisfy the admission requirements for the B.S. program. New transfer students who meet the admission requirements for the B.S. program may choose to enter the B.S. or the B.A. program.

Any student in the B.A. program may switch to the B.S. program if he or she meets admission requirements at the time of the request. Students may switch from the B.S. to the B.A. program at any time.

**Bachelor of Arts, Bachelor of Science**

The Bachelor of Arts with a major in psychology requires a minimum of 120 s.h., including 44-45 s.h. of work for the major, with a minimum of 29 s.h. in psychology courses. The major for the B.A. is designed for students who wish to gain considerable knowledge in psychology but do not necessarily plan a professional career in the discipline. It is appropriate for students preparing for careers in law, business, counseling, social work, or secondary school teaching (see "B.A. or B.S. with Teacher Licensure" below). It can be combined with a second major more easily than can the Bachelor of Science program.

The Bachelor of Science with a major in psychology requires a minimum of 120 s.h., including 53-56 s.h. of work for the major, with a minimum of 36 s.h. in psychology courses. The major for the B.S. emphasizes research methodology, so the B.S. may be the degree of choice for students who plan to do graduate work in psychology and related research fields. However, a Bachelor of Science is not required for graduate study in psychology.

Choice of a degree program should be dictated by the student’s personal career goals. B.A. students interested in pursuing graduate study in psychology or other social sciences may enrich their program by taking courses in mathematics, statistics, research methods, and the natural sciences.

B.A. and B.S. students complete the same psychology core and psychology electives. The major for the B.A. also requires an additional statistics or computer science course plus a second concentration area, while the major for the B.S. also requires a pair of natural science courses, one semester of calculus, and an additional mathematics course. All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Transfer students must complete at least 15 s.h. of the major at The University of Iowa.

The psychology major requires the following courses or their equivalents.

**Common Requirements**

**PSYCHOLOGY CORE (B.A. AND B.S.)**

All psychology majors (B.A. and B.S.) complete the following course work for the psychology core.

Psychology—all of these:
- 031:001 (PSY:1001) Elementary Psychology 3 s.h.
- 031:002 (PSY:2701) Biological Psychology 4 s.h.
- 031:010 (PSY:2810) Research Methods in Psychology 4 s.h.

Statistics—one of these (3-4 s.h.):
- 22S:008 (STAT:1030) Statistics for Business 4 s.h.
- 22S:025 (STAT:1020)/07P:025 (PSQF:1020) Elementary Statistics and Inference 3 s.h.
- 22S:101 (STAT:3510) Biostatistics (recommended for B.S. students) 3 s.h.
- 22S:102 (STAT:5543)/07P:143 (PSQF:5143) Introduction to Statistical Methods (recommended for B.S. students) 3 s.h.

**LOWER-LEVEL PSYCHOLOGY ELECTIVES (B.A. AND B.S.)**

B.A. and B.S. students take three of these (9 s.h.) after completing 031:001 (PSY:1001) Elementary Psychology.

- 031:013 (PSY:2301) Introduction to Clinical Psychology 3 s.h.
- 031:014 (PSY:2401) Introduction to Developmental Science 3 s.h.
- 031:015 (PSY:2501) Introduction to Social Psychology 3 s.h.
- 031:016 (PSY:2601) Introduction to Cognitive Psychology 3 s.h.

**UPPER-LEVEL PSYCHOLOGY ELECTIVES (B.A. AND B.S.)**

B.A. and B.S. students take three upper-level psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. Prerequisites are stated in course descriptions; see "Courses" later in this section.

Electives are chosen from 100-level psychology courses. However, students may not use the following courses to fulfill the electives requirement.

- 031:121 (PSY:4020) Laboratory in Psychology 4 s.h.
- 031:185 (PSY:2960) Research Practicum in Psychology 3 s.h.
- 031:188 (PSY:4960) Advanced Research Practicum 1-3 s.h.
- 031:189 (PSY:2970) External Practicum in Psychology 1-3 s.h.
- 031:190 (PSY:4090) Psychology Seminar 3 s.h.
- 031:191 (PSY:2990) Individual Readings and Projects 1-3 s.h.
- 031:192 (PSY:2980) Teaching/Advising Practicum in Psychology 1-3 s.h.
- 031:195 (PSY:4940) Honors Proseminar in Psychology 1 s.h.
- 031:199 (PSY:4990) Honors Thesis Research 1-3 s.h.

For a list of approved upper-level courses and their prerequisites, see Undergraduate Psychology at Iowa, available from the department and on its web site. Check Iowa Student Information Services (ISIS) to learn which courses are offered in a particular semester.

**Additional Bachelor of Arts Requirements**

**COGNATE REQUIREMENT (B.A.)**

Psychology majors earning a B.A. complete one of the following upper-level statistics or computer science courses. Students who fulfill the psychology core statistics requirement (above) with 22S:101 (STAT:3510) Biostatistics or 22S:102 (STAT:5543) Introduction to
Statistical Methods must use a different course to fulfill the cognate requirement.

Statistics:

06E:071 (ECON:2800) Statistics for Strategy Problems 3 s.h.
22S:101 (STAT:3510) Biostatistics 3 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.
22S:120 (STAT:3120) Probability and Statistics 4 s.h.
22S:148 (STAT:6513) Intermediate Statistical Methods 4 s.h.

Computer science:

22C:001 (CS:1020) Principles of Computing 3 s.h.
22C:005 (CS:1110) Introduction to Computer Science 3 s.h.
22C:016 (CS:1210) Computer Science I: Fundamentals 4 s.h.
22C:080 (CS:2110) Programming for Informatics 4 s.h.

SECOND CONCENTRATION AREA (B.A.)

B.A. students complete 9 s.h. of course work in a single department other than psychology. Courses used to fulfill this requirement must be taken at The University of Iowa and may not be used to fulfill General Education Program (p. 276) requirements. A second major or a minor may be used to fulfill the requirement.

Additional Bachelor of Science Requirements

PSYCHOLOGY TOPICS COURSES (B.S.)

Psychology majors earning a B.S. take both of these.

031:121 (PSY:4020) Laboratory in Psychology 4 s.h.
031:190 (PSY:4090) Psychology Seminar 3 s.h.

NATURAL SCIENCE COURSES (B.S.)

B.S. students are required to complete one of the following pairs of specified natural science courses.

One semester each of chemistry and biology
One semester each of chemistry and physics
Two semesters of chemistry
Two semesters of physics

All of these combinations can be used to fulfill the General Education Program (p. 276) natural sciences requirement. Students should consult with their advisors concerning specific courses that satisfy these requirements.

CALCULUS AND ADDITIONAL MATHEMATICS (B.S.)

B.S. students must complete at least one semester of calculus; in most cases, students also must have completed at least one precalculus mathematics course.

One of these:

22M:016 (MATH:1460) Calculus for the Biological Sciences 4 s.h.
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business 4 s.h.
22M:025 (MATH:1850) Calculus I 5 s.h.

B.S. students also complete at least one additional course in advanced mathematics, statistics, or computer science chosen from the following lists.

Mathematics:

22M:026 (MATH:1860) Calculus II 5 s.h.
22M:027 (MATH:2700) Introduction to Linear Algebra 4 s.h.
22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.

Statistics:

06E:071 (ECON:2800) Statistics for Strategy Problems 3 s.h.
22S:120 (STAT:3120) Probability and Statistics 4 s.h.
22S:148 (STAT:6513) Intermediate Statistical Methods 4 s.h.

Computer science:

22C:001 (CS:1020) Principles of Computing 3 s.h.
22C:005 (CS:1110) Introduction to Computer Science 3 s.h.
22C:016 (CS:1210) Computer Science I: Fundamentals 4 s.h.
22C:080 (CS:2110) Programming for Informatics 4 s.h.

B.A. or B.S. with Teacher Licensure

Psychology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Bachelor of Arts

In addition to courses in psychology, the B.A. requires three courses in a second concentration area.

Before the third semester begins: 031:001 (PSY:1001) Elementary Psychology and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: 031:002 (PSY:2701) Biological Psychology, statistics, one or more lower level electives, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: four courses in the major [including 031:010 (PSY:2810) Research Methods in Psychology], one second-area course, and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: two additional courses in the major and an additional second-area course

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Science

Note: The psychology major for the B.S. is open only to students who have earned 30 s.h. and have a g.p.a. of at least 2.67. Students must complete a natural
science sequence, either as part of the General Education Program or in addition to it. Students also must complete a semester of calculus and an advanced math, statistics, or computer science course, which may require some preliminary work.

**Before the third semester begins:** 031:001 (PSY:1001) Elementary Psychology, 031:002 (PSY:2701) Biological Psychology, and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** calculus, statistics, three additional courses in the major (including 031:010 (PSY:2810) Research Methods in Psychology), and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** two more courses in the major, one course for the psychology natural science requirement, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** the advanced math/statistics/computer course and two more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors**

In order to pursue honors studies in the Department of Psychology, a student must be a member of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). The department has an active honors program that includes research seminars and individual research collaboration with faculty members. Interested psychology majors should contact the department’s honors advisor.

**Minor**

The minor in psychology requires a minimum of 15 s.h., including 12 s.h. in psychology courses taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass or satisfactory/fail. Before registering for a psychology course, students must satisfy the course’s prerequisites.

A minor in psychology complements majors in a variety of disciplines. Department advisors can help students identify courses for the minor that are especially appropriate for their major.

**National Honor Society**

The department sponsors a chapter of Psi Chi, the national honor society in psychology and affiliate of the American Psychological Association. Students who have a g.p.a. of at least 3.00 overall and 3.10 in psychology course work and who have completed 9 s.h. of psychology may request a membership application form. Consult the department’s academic coordinator for more information.

**Graduate Programs**

- Master of Arts in psychology (with or without thesis)
- Doctor of Philosophy in psychology

Graduate study in psychology is designed for students seeking the Ph.D.; students enrolled in the doctoral program may elect to receive a Master of Arts when they have completed the M.A. requirements.

**Master of Arts**

The Master of Arts program in psychology requires 30 s.h. of graduate credit with thesis, and 37 s.h. of graduate credit without thesis. The department ordinarily offers the M.A. only to students enrolled in the Ph.D. program.

Thesis students must earn 24 of the required 30 s.h. at The University of Iowa. Course work for the thesis program must include a statistics course, courses outside the primary specialization area, and at least an additional 8 s.h. earned in Department of Psychology courses and seminars. Thesis students also must complete an acceptable scholarly thesis and perform successfully in an oral defense of their thesis.

Nonthesis students must earn 30 of the required 37 s.h. at The University of Iowa. Course work for the nonthesis program must include a statistics course, courses outside the primary specialization area, and at least an additional 15 s.h. earned in Department of Psychology courses and seminars. Nonthesis students also must perform successfully on an examination covering their area of specialization.

**Doctor of Philosophy**

The Doctor of Philosophy program in psychology requires a minimum of 72 s.h. of graduate credit. Students entering without previous graduate work usually require at least four years to complete the program; those entering with previous graduate training usually require three to five additional years in the department, depending on the nature of the earlier preparation.

The Ph.D. program places strong emphasis on preparation for research, teaching, and scholarly endeavor, whether in academic settings or in industrial, governmental, or medical institutions. The intent is to produce graduates who are deeply committed to the study of psychology, familiar with fundamental knowledge about psychological processes, well-trained in the methods and techniques for careful investigation of basic and applied problems, and determined to make contributions to the discipline of psychology and to society.

Graduate training is organized in six broad areas: behavioral and cognitive neuroscience, clinical psychology, cognition and perception, developmental science, health psychology, and social psychology (see "Graduate Training Areas" below). Each entering student is expected to identify one of these as his or her primary area and to follow a program that develops thorough understanding of the substantive material and methods of investigation central to that subdiscipline. While pursuing specialty training, all students must meet course requirements in statistics and research methods and in content areas other than their primary one.

The training area programs are sufficiently flexible to permit students to develop substantial competence in a
second training area. Individually tailored programs are possible.

The 72 s.h. required for the Ph.D. includes at least 33 s.h. in Department of Psychology courses. All students must satisfy, through one of several options, requirements in statistics and research methods. They also must take course work outside the primary training area to develop a background in the discipline of psychology as a whole.

During each of the first two semesters, graduate students ordinarily take three courses—for example, a statistics course, a course or two in the primary training area, and/or an outside area elective. Students also begin their research under the supervision of their advisor and with the guidance of their research advisory committee.

Near the end of the fall semester of the second year, students submit a report describing their research to date. At the beginning of the following semester, they present their research at the annual graduate research symposium.

During subsequent years, students continue selected course work in their training and interest areas and continue to develop their research programs. In addition, they develop a prospectus for the dissertation research and take the comprehensive examination, which covers material in the specialty area. The final year is devoted primarily to conducting the Ph.D. study and preparing the dissertation. In the Ph.D. final examination, students present an oral defense of their dissertation and are expected to relate the dissertation work to broader issues in the discipline of psychology.

**Graduate Training Areas**

**Behavioral and Cognitive Neuroscience**

The program in behavioral and cognitive neuroscience focuses on the analysis of learning, memory, attention, motivation, aging, sensory processing, and sleep, in both human and nonhuman subjects, through the application of behavioral and biological principles. Special faculty strengths are in classical and operant conditioning, motivation and emotion, developmental psychobiology, neurobiology of learning, comparative psychology, cognitive neuroscience, neuropharmacology, neuroendocrinology, and neuroanatomy. Students in this program have the opportunity to learn state-of-the-art techniques in computer-controlled experimentation and electronic instrumentation as well as advanced analytic and laboratory methods in neurophysiology, nonhuman neurosurgery, histology, and assays of biochemical activity.

Faculty members in the behavioral and cognitive neuroscience area interact extensively with colleagues from other divisions in the psychology department and from several basic science and clinical departments in the Carver College of Medicine, including anatomy, anesthesiology, pharmacology, internal medicine, pediatrics, and neurology. These collaborative activities provide excellent research and training opportunities for students interested in emerging interdisciplinary fields such as behavioral medicine.

**Clinical Psychology**

The clinical training program emphasizes a clinical science approach to the study of mental and physical health. It is designed for students who intend to pursue careers in clinical research and are interested primarily in developing scholarly understanding of clinical phenomena, acquiring research skills necessary for systematic investigation of such phenomena, and developing and implementing evidence-based approaches to service. Students whose primary interest is clinical practice should apply to a program with a focus on practice.

Students in the clinical program may develop special competence in areas such as aggression, marital and family dysfunction, eating disorders, personality disorders, anxiety disorders, affective disorders, behavioral and cognitive therapies, child psychopathology, and clinical health psychology. Faculty members collaborate actively with colleagues from departments such as internal medicine, microbiology, neurology, obstetrics and gynecology, otolaryngology—head and neck surgery, pediatrics, psychiatry, and surgery, and from other units, such as the Center for Health Policy and Research and the Iowa City Veterans Affairs Medical Center.

Students must become familiar with clinical material and competent in the application of clinical skills in order to pursue clinical research, so the department closely integrates practicum experience in the Seashore Clinic with course work and supervised research experience. Advanced students have opportunities to gain additional practicum experience through placement in clinical facilities maintained by local, state, federal, and University agencies. Students in the clinical program who wish to have the designation “clinical psychology” on their official transcript must satisfactorily complete a one-year internship at an approved internship site before receiving a Ph.D. The internship ordinarily comes after completion of all course work and most, if not all, of the dissertation project.

The clinical training program is fully accredited by the American Psychological Association (see Accreditation on the association’s web site) and the Psychological Clinical Science Accreditation System (PCSAS).

**Cognition and Perception**

The cognition and perception training area is guided by the philosophy that understanding a specific cognitive process requires an understanding of how it interacts with other cognitive processes. The area pursues empirical rigor and theoretical development, so its research is theory driven and data tested.

Research programs of the area’s laboratories overlap with each other, and most content areas are studied by multiple laboratories and with multiple methodologies. Areas of strength include categorization, computational modeling, cognitive control, language and language learning, learning and memory, visual cognition, attention, and working memory.

Students in perception and cognition take basic courses and seminars in specialty areas, but they devote most of their time to research activities. Students work closely with a faculty mentor at first and then become progressively independent as they gain knowledge and skills. The program encourages students to work with more than one faculty member, both in the program and across the department and the University. Students often combine basic work on cognition with work in areas such as neuroscience, psychiatry, marketing, law, social psychology, and human factors engineering.
Developmental Science

The developmental science program focuses on understanding the processes that underlie change as each individual follows a unique developmental pathway. Students examine influences on development ranging from the level of neurons to neighborhoods, and they work to understand the step-by-step accumulation of effects across these levels and over time. Students are taught a broad range of developmental theory and acquire expertise in multiple research paradigms, such as observational research, experimentation, computational methods, and neuroimaging. They also have the opportunity to study and collaborate with faculty members whose research cuts across domains such as perception, cognition, action, social processes, and basic biological mechanisms. Faculty members collaborate with their colleagues across the University, including those in the Carver College of Medicine. These collaborations provide students with a unique breadth of training.

Students take courses in many areas of developmental science as well as in other areas of psychology. They also have research opportunities in early communication and social development, cognitive development in infancy and childhood, neuroimaging in toddlers and adults, and developmental psychobiology. The developmental research group meets regularly in conjunction with other members of the Delta Center, providing students and faculty members the opportunity to present and discuss their own research as well as to gain exposure to other developmental work being conducted in the department and at the University.

Health Psychology

The health psychology program is concerned with application of psychological theory, methods, and treatment to understanding of physical health and illness. The program’s perspective is based on the biopsychosocial model, which posits that biological, psychological, and social processes are integrally and interactively involved in physical health and illness.

Graduate training in health psychology emphasizes the integration of knowledge about biological, psychological, and social factors. Students are involved in research whose content and methods reflect the biopsychosocial perspective. Training in health psychology is facilitated by the faculty’s long-standing collaborations with medical practitioners and researchers at the University’s Carver College of Medicine and University of Iowa Hospitals and Clinics. Availability of medical populations and state-of-the-art medical technologies afford a unique opportunity for doctoral students in health psychology.

Research areas of the health psychology program include stress and illness, psychoneuroimmunology, patient adherence, animal models of hypertension and heart failure, postpartum depression, women’s health issues, and psycho-oncology.

Social Psychology

The social psychology program offers a variety of perspectives on interpersonal and intrapersonal processes. Examples of research foci of faculty and students are social cognition, social comparison, close relationships, social and emotional development, attitudes and persuasion, decision making, health psychology, and individual differences.

Graduate training in the social psychology program is designed primarily to prepare students for careers in psychology research and teaching. In addition to their experiences and coursework in the program and in the Department of Psychology, students can benefit from opportunities in related academic units at the University, such as the Departments of Sociology, Communication Studies, and Statistics and Actuarial Sciences and the Tippie College of Business. Such experience can broaden a student’s training, research opportunities, and employment prospects.

Admission

Since the graduate program in psychology is designed primarily for students seeking the Ph.D., all applicants are considered on that basis. Occasionally, a qualified applicant who is in good standing in another UI graduate program and is interested in advanced work in psychology only through the M.A. level may be admitted to pursue a joint graduate program. Students interested in such a program should contact the department chair before filing an application.

The application deadline is December 15. For all materials to be on file by that date, applicants should take the Graduate Record Examination (GRE) General Test in October, and no later than December. The subject test in psychology is not required. Applications may be submitted any time but are considered only once each year—between December 15 and February 1—for admission the following fall. Admission decisions are based on a composite consideration of prior academic and research performance; letters of reference; scores on the verbal, quantitative, and analytic writing sections of the GRE General Test; and the applicant’s statement about background and purpose. Admission materials are reviewed initially by faculty members in the applicant’s primary training area.

An undergraduate major in psychology—including a laboratory course in experimental psychology, a course in statistics, and additional work in the natural sciences and in mathematics—is desirable but not required. Students who have not had such a background but are strongly qualified on other grounds may be admitted. They are expected to remedy deficiencies through special course work or independent study before embarking on the regular graduate program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

All students admitted to the Ph.D. program in psychology are guaranteed five years of financial support, as long as they make satisfactory progress and remain in good academic standing. Financial support is provided through fellowships, teaching assistantships, research assistantships, and traineeships, depending on merit and availability. No separate application for financial aid is required.

Faculty

Faculty members of the Department of Psychology are nationally and internationally renowned leaders in a variety of subdisciplines. Their research is funded by...
numerous federal and private research grants, their findings are documented in many publications, and their accomplishments have won many awards.

Facilities

The department’s facilities for graduate training and research are among the finest in the country. The Kenneth W. Spence Laboratories of Psychology, adjoining space in Seashore Hall, and the newly renovated Stuit Hall provide a variety of laboratories for human and animal studies. Facilities include animal housing areas; a histology laboratory; observation suites with remote audiovisual control and recording equipment; soundproof chambers; electrophysiological recording rooms; conditioning laboratories; the Seashore Clinic; and well-equipped electronic, mechanical, and woodworking shops. Computers are widely available. Office space for graduate students and faculty members is provided in Seashore Hall.

The research and teaching activities of the department benefit greatly from the facilities and staff of other University and local agencies, including University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, the University Counseling Service, the Center for Disabilities and Development, the Wendell Johnson Speech and Hearing Clinic, the Center for Health Policy and Research, and the School of Social Work.

Courses

Primarily for Undergraduates

The following courses are open to first-year students who have satisfactorily completed an introductory psychology course (031:001 (PSY:1001) Elementary Psychology or equivalent); 031:002 (PSY:2701) Biological Psychology, 031:013 (PSY:2910) Industrial/Organizational Psychology.

031:001 (PSY:1001) Elementary Psychology 3 s.h.
Psychology as a behavioral science. GE: Social Sciences.

031:002 (PSY:2701) Biological Psychology 4 s.h.
Biological mechanisms of behavior; comparative study of behavior, behavioral organization, animal intelligence, social behavior, communication; behavioral neuroscience, how brain systems control sensation, movement, homeostasis, emotion, learning. Prerequisites: 031:001 (PSY:1001).

031:010 (PSY:2810) Research Methods in Psychology 4 s.h.
Logic of experimental and nonexperimental methods, application of methods to analysis of behavioral phenomena; skills for critical evaluation of professional and public literature dealing with scientific study of behavior: philosophy of scientific psychology, principles of research design and control, psychological testing, applications in several research areas. Prerequisites: 031:001 (PSY:1001), and 225:008 (STAT:1030) or 225:025 (STAT:1020) or 225:101 (STAT:3510) or 225:102 (STAT:5543) or 07P:025 (PSQF:1020) or 07P:143 (PSQF:5143) or 034:010 (SOC:2160).

031:013 (PSY:2301) Introduction to Clinical Psychology 3 s.h.
Introduction to abnormal psychology; scientist-practitioner model, training, ethics, research methods in clinical psychology; current approaches to intellectual, personality, behavioral assessment; theories, research on treatment of psychological disorders. Prerequisites: 031:001 (PSY:1001). GE: Social Sciences.

031:014 (PSY:2401) Introduction to Developmental Science 3 s.h.
Current research in developmental science; prenatal development, brain development, motor and physical development, perceptual development, language development, cognitive development, aspects of socio-emotional development; emphasis on modern theoretical approaches. Prerequisites: 031:001 (PSY:1001). GE: Social Sciences.

031:015 (PSY:2501) Introduction to Social Psychology 3 s.h.
Research and theories on people’s thoughts, feelings, and behaviors in social situations; attitudes, attributions, person perception, aggression, stereotypes and prejudice, attraction, relationships, social influence, group processes, altruism. Prerequisites: 031:001 (PSY:1001).

031:016 (PSY:2601) Introduction to Cognitive Psychology 3 s.h.

031:019 (PSY:2910) Industrial/Organizational Psychology 3 s.h.
Applications of psychology to problems in world of work; emphasis on personnel selection, training, attitudes, motivation, measurement of job performance. Prerequisites: 031:001 (PSY:1001).

031:029 (PSY:1000) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

031:050 (PSY:2915) Psychology of Aging 3 s.h.
The later years of human life viewed from perspectives of developmental psychology, biology, sociology. Prerequisites: 031:001 (PSY:1001). Same as 153:150 (ASP:3150).

031:063 (PSY:2930) Abnormal Psychology: Health Professions 3 s.h.
Introduction to psychological disorders; description of psychopathology; general issues in etiology and treatment; for non-psychology students in allied health professions. Prerequisites: 031:001 (PSY:1001). Requirements: non-psychology major.

For Undergraduate and Graduate Students

Before enrolling in any upper-level undergraduate courses, students must complete all specified lower-level prerequisites or obtain consent of instructor.
031:103 (PSY:3030) Social and Personality Development
Emotional, social, and personality development from infancy to adolescence; major theories and empirical research; child temperament, parent-child relationship, and social context as contributors to individual differences. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401) or 031:015 (PSY:2501).

031:105 (PSY:3530) Personality
Classic theoretical models and contemporary empirical research in personality, including influence of heredity and environment, consistency and stability of behavior. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301) or 031:015 (PSY:2501).

031:106 (PSY:3540) Attitude Change
Current theoretical approaches; laboratory and field methods of research; basic processes of change considered within broader framework of psychology. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:015 (PSY:2501).

031:111 (PSY:3570) Social Cognition
Research and theory on cognitive structures and processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, schemas, person perception, stereotypes, attitudes. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:015 (PSY:2501).

031:112 (PSY:3045) Development of Mathematical Cognition
Current research on mathematical cognition, with focus on change over time; quantity and number, the mental number line, symbols, fractions, algebra, individual differences in math cognition, relationships between math and language, theories of mathematical knowledge, theories of conceptual change. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401) or 031:016 (PSY:2601).

031:114 (PSY:3420) Cognitive Development of Children
Developmental research, theory concerning children’s concepts, thinking, problem solving, memory, communication. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401).

031:115 (PSY:3430) Theories of Developmental Psychology
Major theoretical approaches to the study of developmental change (e.g., social learning, information-processing, ethological, contextual); related topics such as perceptual development and attachment. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401).

031:116 (PSY:3560) Psychology of Gender
Origins of gender roles, gender socialization in childhood, gender differences across lifespan; research on gender differences in cognition, emotions, behavior, physical and mental disorders, communication. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:015 (PSY:2501).

031:118 (PSY:3450) Infant Development
Physical, motor, perceptual, cognitive, and social development during first two years of life, with focus on early mechanisms of change: locomotion, perceptual abilities, precursors of cognition, early language acquisition, social interaction. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401).

031:119 (PSY:3620) Human Memory
Contemporary psychological theory and research on short-term and long-term memory, acquisition processes, related topics in cognition. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:016 (PSY:2601).

031:121 (PSY:4020) Laboratory in Psychology
4 s.h.
Laboratory study of an aspect of behavior; topics in a particular area (e.g., learning and memory, perception, social behavior, operant behavior, physiological processes). Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810).

031:122 (PSY:3085) Language Development
3 s.h.
Introduction to first language acquisition, with focus on infancy through five years; sound discrimination abilities, word learning, babbling and speech production, acquisition of grammar; perspectives from psychology, audiology, linguistics, speech pathology. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401) or 031:016 (PSY:2601). Same as 164:140 (SLA:3401).

031:123 (PSY:3040) Psychology of Learning
3 s.h.
Psychological science of acquired behavior; interests in experimental study of Pavlovian conditioning, operant conditioning, cognition in humans and nonhuman animals, relevance to behavioral adaptation. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701) or 031:016.

031:125 (PSY:3210)Animal Cognition
3 s.h.
Mental functions of animals, comparison to humans; intelligence, memory, communication, language, social learning, consciousness, human-animal interaction. Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701).

031:126 (PSY:3220)Behavioral Neuroscience
3 s.h.
Basic concepts and techniques in neurosciences, their application to analysis of sensory processes, arousal mechanisms, motivation, learning. Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701).

031:128 (PSY:3230)Psychopharmacology
3 s.h.
How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701).

031:129 (PSY:3250)Neuroscience of Learning and Memory
3 s.h.
Major topics in the neuroscience of learning and memory; focus on anatomical, cellular, molecular bases of various learning and memory processes. Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701).
031:130 (PSY:3630) Psychology of Thinking 3 s.h.
Problem solving, reasoning, judgment and decision making, language and thought, intelligence, creativity. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:016 (PSY:2601).

031:132 (PSY:3240) Motivation, Addiction, and the Brain 3 s.h.
Analysis of motivated behaviors (e.g., behaviors to obtain specific goals, such as food) and the brain processes that guide such behavior; exploration of brain processes underlying addiction. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:002 (PSY:2701) and grade of C- or higher in 031:010 (PSY:2810).

031:133 (PSY:3060) Visual Perception and Cognition 3 s.h.
Psychological and neurophysiological examination of vision. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 and grade of C- or higher in 031:002 (PSY:2701) or 031:016.

031:134 (PSY:3070) Cognition and the Brain 3 s.h.
Analysis of brain systems and neuroanatomy that underlie cognitive tasks such as vision, hearing, emotion, attention, language, decision making, learning, and memory. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:002 (PSY:2701) or 031:016 (PSY:2601).

031:136 (PSY:3065) The Aging Mind and Brain 3 s.h.
Current theories and research on biological, cognitive, and emotional changes that occur during aging; methodologies for studying cognitive and brain aging. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:002 (PSY:2701) or 031:016 (PSY:2601), and grade of C- or higher in 031:010 (PSY:2810).

031:137 (PSY:3670) Language Processes 3 s.h.
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810), grade of C- or higher in 031:016 (PSY:2601), and psychology major; or nonmajor and 103:100 (LING:2000) or 003:015 (CSD:1015). Same as 103:137 (LING:3670).

031:140 (PSY:3015) Psychology of Interpersonal Relations 3 s.h.
Theories, empirical findings, speculation from social psychology and related disciplines regarding how people form, maintain, and alter close, interpersonal relationships. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301) or 031:015 (PSY:2501).

031:152 (PSY:3010) Health Psychology 3 s.h.
Psychological contributions to understanding etiology, prevention, treatment of physical illness; basic and clinical research that addresses reciprocal effects of behavior and physical health. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810), and grade of C- or higher in 031:002 (PSY:2701) or 031:013 (PSY:2301) or 031:015 (PSY:2501).

031:156 (PSY:3660) Human Information Processing 3 s.h.
Early through contemporary theory and research on human information processing; focus on human-machine interaction and ergonomics. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:015 (PSY:2501) or 031:016 (PSY:2601), or graduate standing.

031:163 (PSY:3320) Abnormal Psychology 3 s.h.
Etiology, phenomenology, and treatment of child and adult DSM-IV psychological disorders (e.g., mood disorders, psychotic disorders, anxiety disorders, personality disorders). Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301).

031:166 (PSY:3330) Childhood Psychopathology 3 s.h.
Major forms of childhood psychopathology; current theoretical approaches and methodological issues in diagnosis and conceptualization, treatment of developmental psychopathology. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301).

031:168 (PSY:3350) Psychotherapies 3 s.h.
Current theories and research on frequently used psychotherapeutic approaches; focus on methodology in psychotherapy research, specific types of therapy, and empirically supported therapies. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301).

031:170 (PSY:3340) Behavior Modification 3 s.h.
Basic approaches to modification of clinically distressing behavior; learning theory principles underlying techniques, translation into procedures, experimental evaluation of effectiveness. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:013 (PSY:2301).

031:174 (PSY:3020) Mind and Behavior 3 s.h.
Theories of what it is to act and know, of what intelligence might be in animals, humans, machines; perspectives from philosophy, psychology. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810), grade of C- or higher in 031:002 (PSY:2701) or 031:016 (PSY:2601), and junior or senior standing.

031:185 (PSY:2960) Research Practicum in Psychology 3 s.h.
Small-group participation in faculty research projects; literature review, study planning, data collection, analysis, interpretation, write-up.

031:188 (PSY:4960) Advanced Research Practicum 1-3 s.h.
Individual participation in faculty research projects; significant reading and writing. Requirements: two semesters of 031:185 (PSY:2960) or 143:100 (HONR:3200).

031:189 (PSY:2970) External Practicum in Psychology 1-3 s.h.
Student participation in career-related professional activities in community and University of Iowa agencies.

031:190 (PSY:4090) Psychology Seminar 3 s.h.
Readings from original sources, presentations, papers, student participation. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810), psychology B.S. enrollment, and senior standing.
031:191 (PSY:2990) Individual Readings and Projects
Requirements: psychology major and undergraduate standing.

031:192 (PSY:2980) Teaching/Advising Practicum in Psychology
Participation in faculty teaching (undergraduate teaching assistant) or the Psychology Peer Advisor Program.

031:195 (PSY:4940) Honors Proseminar in Psychology
Research topics, psychology colloquium attendance and discussion, student presentations on honors project progress. Requirements: honors standing and psychology honors project in progress.

031:199 (PSY:4990) Honors Thesis Research
Supervised original project; leads to written thesis, oral defense. Requirements: honors standing.

Primarily for Graduate Students

031:201 (PSY:6510) Advanced Social-Personality Psychology
Classic and contemporary theory, research, methodological issues in social-personality psychology.

031:202 (PSY:6520) Attitudes and Persuasion
Classic and current theories and findings on persuasion, the formation and measurement of attitudes.

031:206 (PSY:6530) Advanced Social Cognition
Research and theory on cognitive processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, counterfactual thinking, schemas, person perception, stereotypes, attitudes.

031:210 (PSY:5410) Proseminar in Developmental Science
Introduction to developmental process and developmental science; topics organized around mechanisms of development, with cross-disciplinary focus.

031:211 (PSY:6550) Advanced Social and Personality Development
Theory and research on social and personality development; overview of development and individual differences in emotions, temperament, attachment, self, social cognition, conscience; influence of biological factors, social relationships, and broader ecology on adaptive and maladaptive developmental pathways.

031:214 (PSY:6450) Processes of Language Acquisition
Theoretical and computational approaches to the study of first language acquisition from infancy to five years, including prelinguistic sound discrimination, babbling, semantic development, categorization abilities, syntactic and grammatical development.

031:216 (PSY:6490) Dynamic Systems and Development
Dynamical systems theory, its application to basic problems in developmental psychology; development of motor control, cognition, language; comparisons with other theoretical approaches in developmental psychology.

031:218 (PSY:6430) Cognitive Development
Theoretical and empirical analyses of children’s cognitive development; spatial and numerical concepts, causal reasoning, categorization, metacognition, memory. Same as 164:240 (SLA:6466).

031:220 (PSY:5610) Proseminar in Cognition and Perception
Broad overview of study of cognition, including cognitive psychology, computer science and artificial intelligence, linguistics, neuroscience, philosophy of mind.

031:226 (PSY:6640) Visual Perception
Theoretical and empirical analyses of low- and high-level visual functions, including edge detection, surface representation, object identification.

031:227 (PSY:6650) Attention
Theory and research on attention, from viewpoints of cognitive psychology and cognitive neuroscience, including historical perspectives, recent approaches.

031:230 (PSY:6210) Behavioral Pharmacology
Behavioral analysis of drug action; emphasis on physiological and biological mechanisms underlying behavioral processes in experimental animals, humans.

031:240 (PSY:6040) Judgment and Decision Making
Models, methods used in study of human judgments and decisions; applications in areas such as clinical diagnosis, social and educational evaluations, economic judgments, consumer decisions.

031:241 (PSY:5210) Fundamentals of Behavioral Neuroscience
Concepts, methods, and findings in behavioral and cognitive neurosciences; emphasis on principles of neuroscience, sensation, motivation, emotion. Same as 132:241 (NSCI:6241).

031:242 (PSY:5212) Fundamentals of Learning and Behavior
Concepts, methods, and findings in behavioral and cognitive neurosciences; emphasis on principles of comparative psychology, motor control, learning. Same as 132:242 (NSCI:6242).

031:245 (PSY:5050) Quantitative Methods in Psychology
Overview of statistical methods based on the general linear model, including ANOVA, ANCOVA, and multiple regression; how to conduct these analyses using SPSS. Requirements: first-year graduate standing in psychology.

031:250 (PSY:5710) Introduction to Health and Behavioral Science
Evolution of health psychology; survey of major physiological systems in which pathology is affected by behavioral processes; review of theoretical approaches, experimental paradigms from behavioral science as they may apply to assessment of health problems; prevention, intervention, psychological adaptation to physical disease.

031:252 (PSY:6050) Clinical Behavioral Medicine
Biopsychosocial framework applied to study, treatment of chronic and acute physical conditions; clinical concepts, procedures.

031:254 (PSY:6740) Drug Addiction
Analysis of factors involved in drug addiction; social, clinical, and biological processes.

031:258 (PSY:6570) Personality and Individual Differences
Major theoretical, empirical issues in contemporary personality research, including stability and consistency of behavior, influence of heredity and environment in personality development, nature and organization of traits, validity of trait inferences.
031:260 (PSY:5320) Descriptive Psychopathology 3 s.h.
Psychiatric syndromes, including description, etiology, experimental and clinical research; development, function of classification systems.

031:263 (PSY:5330) Principles of Psychological Assessment 4 s.h.
Assessment theory and basic psychometric principles in test construction, evaluation, application; ethical, social, psychological, psychometric issues and controversies in assessment.

031:264 (PSY:5332) Psychological Appraisal II 3 s.h.
Introduction to assessment with children and adults, including assessment of cognitive abilities and achievement testing, neuropsychological assessment, and psychodiagnostic/personality assessment. Prerequisites: 031:263 (PSY:5330).

031:265 (PSY:6265) Neuroscience Seminar 0-1 s.h.

031:266 (PSY:6340) Psychological Therapies 3 s.h.
Historical development and current status of empirically based therapies for psychological disorders, including anxiety, depression, schizophrenia, childhood disorders; emphasis on critical evaluation of therapy techniques.

031:276 (PSY:6320) Advanced Developmental Psychopathology 3 s.h.
Psychiatric syndromes manifested in childhood and adolescence; theoretical approaches, methodology from developmental and clinical psychology as they apply to study of childhood psychopathology.

031:278 (PSY:6370) Principles of Neuropsychology 3 s.h.
Principles of human neuropsychology, including foundations (history, methods, approaches), major functional systems (vision, memory, language, spatial processing), executive functions (emotional processing and personality), and applications (experimental, clinical). Recommendations: prior course work in psychological assessment; psychopathology, and neuroanatomy.

031:280 (PSY:7150) Current Topics in Psychology 3 s.h.

Individual study.

031:302 (PSY:7510) Seminar: Social Psychology 1 s.h.
Professional issues, current topics relevant to social psychologists.

031:315 (PSY:7530) Seminar: Social Development 0-2 s.h.
Theoretical, methodological, and empirical issues in early social and personality development.

031:318 (PSY:7430) Seminar: Cognitive Development 0-3 s.h.
Theoretical, methodological issues focused on cognitive and perceptual development.

Neurological and behavioral investigations of attention, perception, learning, memory, decision making, planning; contemporary models, theories.

031:338 (PSY:7210) Seminar: Advanced Topics in Behavioral and Cognitive Neuroscience 3 s.h.
Prerequisites: 031:241 (PSY:5210).

031:360 (PSY:7310) Seminar: Orientation to Clinical Research 0-1 s.h.
Issues in clinical research, including use of databases, advisor/advisee relationships, preparation of IRB proposals, paper presentation and publication, common early career problems, funding resources.

Clinical neuropsychology and cognitive neuroscience: cutting-edge research from scientific journals, case presentations in clinical neuropsychology, and current research. Same as 064:365 (NEUR:5365), 132:365 (NSCI:5365).

031:370 (PSY:7030) Seminar: Health Psychology 0-3 s.h.
Theoretical and methodological issues; focus on specific topics (i.e., chronic disease, psychoneuroimmunology).

Major ethical and legal issues relevant to clinical psychologists’ varied roles; understanding of legal and ethical issues encountered by psychologists in varied settings, development of personal working model for resolving ethical and professional concerns.

031:461 (PSY:7350) Introductory Practicum arr.
Orientation to Department of Psychology clinic, including instruction in interviewing, observation of clinic procedures, attendance at clinic rounds under supervision of clinical psychology faculty members.

Supervised practice in psychological assessment techniques.

031:463 (PSY:7360) Therapy Practicum arr.
Supervised practice and clinical experience in application and evaluation of psychological therapies.

Supervised practice and clinical experience in field setting; psychological assessment techniques and/or application, evaluation of psychological therapies.

031:465 (PSY:7370) Supervision and Consultation Practicum arr.
Supervision and training of less advanced students; consultation to other programs and agencies.
Chair
Diana Fritz Cates

Professors
Diana Fritz Cates, Jay A. Holstein, Raymond A. Mentzer, Frederick M. Smith (Religious Studies/Asian and Slavic Languages and Literatures), Richard B. Turner (Religious Studies/African American Studies)

Professors emeriti

Associate professors
Michelene Pesantubbee (Religious Studies/American Indian and Native Studies), Morten Schlütter, Ahmed Souaiaia

Assistant professors
Robert Cargill (Religious Studies/Classics), Melissa Anne-Marie Curley, Paul Dilley (Religious Studies/Classics)

Lecturer
Jordan A. Smith

Undergraduate major: religious studies (B.A.)

Undergraduate minor: religious studies

Graduate degrees: M.A. in religious studies; Ph.D. in religious studies

Web site: http://www.uiowa.edu/~religion

The Department of Religious Studies offers multidisciplinary approaches to the study of Asian, indigenous, Islamic, and Western religions in their many manifestations, from local and regional practices to worldwide religious phenomena. The department’s faculty and students study different religious traditions from a variety of perspectives, drawing from ethics, gender studies, history, law, and philosophy.

Religious studies students explore religious ideas and practices that have shaped and been shaped by diverse human experiences. They gain insight into how different groups from different parts of the world have responded to age-old questions about human life and human dignity in a constantly changing world. They also acquire the core skills they will need in order to flourish in today’s world: thinking, writing, communicating, and developing relationships with other people.

Because religious ideas inform every aspect of life, many undergraduate students who major in religious studies decide to earn a second major in a discipline such as anthropology, classics, communication studies, English, history, journalism, philosophy, political science, psychology, or sociology.

Undergraduate Programs

- Major in religious studies (Bachelor of Arts)
- Minor in religious studies

The major in religious studies helps students acquire the core skills, knowledge, and experiences critical to flourishing in today’s global world: critical thinking, written and oral communication skills, knowledge of varied religious cultures, and opportunities to engage with ideas different from one’s own.

Bachelor of Arts

The Bachelor of Arts with a major in religious studies requires a minimum of 120 s.h., including 30 s.h. in work for the major (15 s.h. of foundation studies, 12 s.h. of continuing studies, and the senior seminar). Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276); they may count a maximum of three religious studies courses toward General Education Program requirements. Transfer students may count a maximum of 15 s.h. of transfer credit toward the major; transfer credit is evaluated individually.

The major in religious studies requires the following coursework.

FOUNDER STUDIES

Western Religious Traditions

Two of these:
032:001 (RELS:1001) Judaism, Christianity, and Islam 3 s.h.
032:011 (RELS:1070) Introduction to the Hebrew Bible/Old Testament 3 s.h.
032:012 (RELS:1080) Introduction to the New Testament 3 s.h.
032:025 (RELS:1225)/016:035 (HIST:1225) Medieval Religion and Culture 3 s.h.
032:026 (RELS:1250)/016:036 (HIST:1250) Modern Religion and Culture 3 s.h.
032:030 (RELS:1130) Introduction to Islamic Civilization 3 s.h.
032:034 (RELS:1350)/129:050 (AFAM:1250) Introduction to African American Religions 3 s.h.

Asian Religious Traditions

Two of these:
032:004 (RELS:1404)/039:064 (ASIA:1040) Living Religions of the East 3 s.h.
032:006 (RELS:1506)/039:006 (ASIA:1060) Introduction to Buddhism 3 s.h.
032:014 (RELS:1410) Introduction to Indian Religions 3 s.h.
032:017 (RELS:1610)/39J:017 (JPNS:1115) Japanese Religions 3 s.h.

Theoretical and Comparative Studies in Religion

One of these:
032:002 (RELS:1702) Religion and Society 3 s.h.
032:003 (RELS:1903) Quest for Human Destiny 3 s.h.
032:016 (RELS:1810) Religion and Liberation 3 s.h.
032:020 (RELS:2720) War and Peace in Religious Thought and Practice 3 s.h.

CONTINUING STUDIES

Students must complete 12 s.h. of course work in continuing studies for the major. This work must be chosen from courses in one of three concentration areas: Western religious traditions; Asian religious traditions; or religion, culture, and society. Courses in each area are listed below.

Western Religious Traditions
032:051 (RELS:2351) Religious Thinkers of the West 3 s.h.
032:054 (RELS:2090) Introduction to Catholicism 3 s.h.
032:056 (RELS:2356) Christianity and the Enduring Human Experience 3 s.h.
Asian Religious Traditions
032:058 (RELS:2050)/16E:058 (HIST:2050) Liturgy and Devotion in Christian Tradition 3 s.h.
032:061 (RELS:2361)/20E:071 (CLSA:2461) Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
032:067 (RELS:3767) Theological Questions 3 s.h.
032:082 (RELS:2182)/20E:082 (CLSA:2482) Ancient Mediterranean Religions 3 s.h.
032:085 (RELS:3385) Early Modern Catholicism 3 s.h.
032:089 (RELS:2289)/20E:089 (CLSA:2489) Jerusalem from the Bronze to the Digital Age 3 s.h.
032:090 (RELS:2210) Women and the Bible Prophecy in the Bible 3 s.h.
032:094 (RELS:2320) Jesus and His Interpreters 3 s.h.
032:095 (RELS:2340) The Apostle Paul 3 s.h.
032:105 (RELS:3105) The World of the Old Testament 3 s.h.
032:107 (RELS:3320) In Search of the Good Life 3 s.h.
032:109 (RELS:3340) The Development of the Afterlife in Judaism and Christianity 3 s.h.
032:121 (RELS:2121) The Bible and the Sacrifice of Animals 3 s.h.
032:122 (RELS:3003) Classical and Hellenistic Periods I 3 s.h.
032:132 (RELS:3075) Medieval and Reformation Religious Thought 3 s.h.
032:137 (RELS:3237) Modern Religious Thought: 19th Century 3 s.h.
032:142 (RELS:3247) Banned from the Bible: Introduction to Pseudepigrapha and Apocrypha 3 s.h.
032:143 (RELS:3243) Early Christianity: From Jesus to the Rise of Islam 3 s.h.
032:145 (RELS:3245)/20E:145 (CLSA:3445) Mythology of Otherworldly Journeys 3 s.h.
032:154 (RELS:4155) Religious Conflict: Early-Modern Period 3 s.h.
032:157 (RELS:3020) Religion and Politics 3 s.h.
032:160 (RELS:4360) Religious Identity in the Modern Secular State 3 s.h.
032:192 (RELS:3190) Traditions of Religious Reform 3 s.h.

Eastern Societies
032:251 (RELS:3571)/ASIA:3871) Gender and Society 3 s.h.
032:253 (RELS:3573) Hindu and Buddhist Cultures 3 s.h.
032:254 (RELS:3574) Islamic and Arabic Culture 3 s.h.
032:256 (RELS:3576) The Middle East 3 s.h.
032:257 (RELS:3577) The Modern Middle East: Islam, Empire, and the West 3 s.h.
032:258 (RELS:3578) Classical Arabic Literature: From the Pre-Islamic Period to the Mamluk Period 3 s.h.

American Religion
032:301 (RELS:4101) Religion in America 3 s.h.
032:302 (RELS:4102) Religion and Ethnicity 3 s.h.
032:303 (RELS:4103) Religion, Race, and Ethnicity 3 s.h.
032:304 (RELS:4104) Religion in American Society 3 s.h.
032:305 (RELS:4105) Religion in American Culture 3 s.h.
032:306 (RELS:4106) Religion and American Politics 3 s.h.
032:307 (RELS:4107) Religion and Social Movements 3 s.h.
032:308 (RELS:4108) Religion and the Media 3 s.h.

Otherworldly Journeys
032:121 (RELS:2121) The Bible and the Sacrifice of Animals 3 s.h.
032:122 (RELS:3003) Classical and Hellenistic Periods I 3 s.h.
032:132 (RELS:3075) Medieval and Reformation Religious Thought 3 s.h.
032:137 (RELS:3237) Modern Religious Thought: 19th Century 3 s.h.
032:142 (RELS:3247) Banned from the Bible: Introduction to Pseudepigrapha and Apocrypha 3 s.h.
032:143 (RELS:3243) Early Christianity: From Jesus to the Rise of Islam 3 s.h.
032:145 (RELS:3245)/20E:145 (CLSA:3445) Mythology of Otherworldly Journeys 3 s.h.
032:154 (RELS:4155) Religious Conflict: Early-Modern Period 3 s.h.
032:157 (RELS:3020) Religion and Politics 3 s.h.
032:160 (RELS:4360) Religious Identity in the Modern Secular State 3 s.h.

Religion, Culture, and Society
032:052 (RELS:2852) Women in Islam and the Middle East 3 s.h.
032:060 (RELS:2700)/149:060 (AINS:1600) Sacred World of Native Americans 3 s.h.
032:062 (RELS:2962) Religion in the Public Sphere 3 s.h.
032:063 (RELS:2730) African American Islam 3 s.h.
032:066 (RELS:1825) Introduction to Religion and the Arts 3 s.h.
032:071 (RELS:2771) Sexual Ethics 3 s.h.
032:076 (RELS:3976) American Indian Environmentalism 3 s.h.
032:080 (RELS:2980) Religion and Contemporary Popular Culture 3 s.h.
032:103 (RELS:3103) Biblical Archaeology 1-3 s.h.
032:104 (RELS:3704)/01H:110 (ARTH:3320) Egyptian Art 3 s.h.
032:111 (RELS:3711) Religion and Women 3 s.h.
032:112 (RELS:2912) The Bible in Film: Hollywood and Moses 3 s.h.
032:127 (RELS:3700)/06:147 (MGMT:3500) Nonprofit Organizational Effectiveness I 3 s.h.
032:128 (RELS:3701)/06:148 (MGMT:3600) Nonprofit Organizational Effectiveness II 3 s.h.
032:130 (RELS:4730)/113:139 (ANTH:4130) Religion and Environmental Ethics 3 s.h.
032:133 (RELS:4133) Special Topics: Islamic and Middle Eastern Societies 3 s.h.
032:139 (RELS:4939) Religion and Violence in America 3 s.h.
032:141 (RELS:4741)/16A:122 (HIST:4241) Varieties of American Religion 3 s.h.
032:146 (RELS:2834)/026:134 (PHIL:2534) Philosophy of Religion 3 s.h.
032:147 (RELS:2947) Quest II: Sex, Love, and Death 3 s.h.
032:150 (RELS:2775) The Bible and the Holocaust 3 s.h.
032:152 (RELS:4352) Qurman and the Dead Sea Scrolls 3 s.h.
032:153 (RELS:3953) Religion and the Arts 3 s.h.
032:155 (RELS:3855) Human Rights and Islam 3 s.h.
032:159 (RELS:4859)/091:223 (LAW:8250) Comparative Islamic Law 3 s.h.
032:164 (RELS:3716)/20E:115 (CLSA:3416) Greek Religion and Society 3 s.h.
032:165 (RELS:3714)/113:142 (ANTH:3114) Anthropology of Religion 2-3 s.h.
032:169 (RELS:2969) Quest III: Heroes, Lovers, and Knaves 3 s.h.
032:178 (RELS:3575)/039:188 (ASIA:3775) East Meets West: The Western Reception of Eastern Religion 3 s.h.
032:179 (RELS:4870)/035:179 (SPAN:4870) Islamic Cultural Presence in Spain 3 s.h.

SENIOR SEMINAR
All students must complete the senior seminar.
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the third semester begins: at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: one or two courses in the major and at least one-half of the semester hours required for graduation

Before the seventh semester begins: three to six courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: five to seven courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors

Honors students in religious studies must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). To graduate with honors in the major, students must complete the usual requirements for the major plus an additional 3 s.h., for a total of 33 s.h. for the major. They may apply 3 s.h. of 032:195 (RELS:4960) Individual Study: Undergraduates or 032:197 (RELS:4970) Honors Tutorial toward their 12 s.h. requirement in the concentration area. Honors students must take 032:198 (RELS:4975) Honors Essay under the supervision of a faculty advisor; copies of the completed and approved essay are submitted to the Department of Religious Studies and to the University of Iowa Honors Program.

Minor

The minor in religious studies requires a minimum of 15 s.h. in religious studies courses, including 12 s.h. in courses taken at The University of Iowa that satisfy the continuing studies requirement for the major in religious studies (see “Continuing Studies” above). Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. With the recommendation of the department’s undergraduate committee and approval of the faculty, students may count a maximum of 3 s.h. of transfer credit toward the minor.

Graduate Programs

• Master of Arts in religious studies (with or without thesis)
• Doctor of Philosophy in religious studies

Graduate study in the department places religion in a broad intellectual and cultural context, provides a substantial methodological dimension, and helps students develop necessary research skills. Graduate study is flexible. Students build individual study programs in consultation with their advisors and in accordance with available faculty expertise, which is clustered in four general areas:

- Islamic and Judaic multidisciplinary studies;
- Religion, ethics, and society;
- Religion in Asia; and
- Religion in Europe and the Americas.

Departmental knowledge and expertise in these areas is supplemented by faculty from other departments. For detailed information about resources in each area, see Graduate Study on the department’s web site.

A graduate degree in religious studies ordinarily leads to an academic career teaching at the college or university level or to a career in a religious, nonprofit, or governmental organization.

Master of Arts

The Master of Arts program in religious studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis. The program is designed for students who wish to advance their understanding of a particular area of religious studies.

Students must complete 24 of the required 30 s.h. at The University of Iowa and must maintain a cumulative g.p.a. of at least 3.20. Requirements for languages and other research tools vary according to the student’s study focus. M.A. students are supervised by a three-person faculty committee.

All M.A. students complete the following four courses.

032:202 (RELS:5200) Asian Religious Traditions 3 s.h.
032:203 (RELS:5300) Western Religious Traditions 3 s.h.
032:205 (RELS:5400) Methods and Theories in the Study of Religion 3 s.h.
032:204 (RELS:5350) History of Religious Studies 3 s.h.

One graduate seminar

The following course is optional for M.A. students.

032:201 (RELS:5100) Teaching Religious Studies 3 s.h.

Students select remaining course work depending on their interest area and in consultation with their faculty advisor.

In the M.A. thesis, students demonstrate and refine their research and writing skills. They may count a maximum of 6 s.h. of thesis credit toward the degree. Students who do not write a thesis must pass an M.A. examination that tests their competence in completed course work.

Doctor of Philosophy

The Doctor of Philosophy program in religious studies requires a minimum of 72 s.h. of graduate credit. Students may transfer up to 24 s.h. of credit from another accredited graduate school.

The Ph.D. program prepares students to become specialists in the study and teaching of religion. Students are trained in the research skills and methods they will need to become productive scholars in their chosen fields of study. They also are trained to teach religious studies across a broad range of traditions.

Course requirements for the Ph.D. vary according to concentration area. However, all students must complete the following eight required courses.

032:201 (RELS:5100) Teaching Religious Studies 3 s.h.
032:202 (RELS:5200) Asian Religious Traditions 3 s.h.
032:203 (RELS:5300) Western Religious Traditions 3 s.h.
Financial Support

All Ph.D. students in religious studies receive funding. Ordinarily, no departmental funding is available for M.A. students.

The department offers financial support for graduate students in the form of teaching assistantships. The department may nominate eligible applicants for the Presidential Graduate Fellowship or for the Dean’s Graduate Fellowship, which promotes recruitment of students from underrepresented groups.

The Gilmore Scholarship, for doctoral students interested in the relationships among religion, the visual arts, and humanistic values, pays up to full tuition for one year. It is awarded every few years.

Language Study at the University

The University offers a variety of modern European languages (see French and Italian (p. 256), German (p. 309), and Spanish and Portuguese (p. 524) in the Catalog) as well as Greek and Latin (see Classics (p. 145) in the Catalog); Arabic and Swahili (see French and Italian (p. 256) in the Catalog); and Chinese, Czech, Hindi, Japanese, Korean, Russian, and Sanskrit (see Asian and Slavic Languages and Literatures (p. 91) in the Catalog).

Courses

032:001 (RELS:1001) Judaism, Christianity, and Islam
Introduction to Judaism, Christianity, and Islam; focus on the scriptural foundation and historical development of these related traditions; texts and other forms of religious expression, especially in art, music, literature, law, and philosophy; readings from the Hebrew Bible, New Testament, and the Qur’an; other materials from selected Jewish, Christian, and Muslim thinkers. GE: Historical Perspectives.

032:002 (RELS:1702) Religion and Society
Meaning of religious questions and answers in traditional and modern social contexts in the West. GE: Values, Society, and Diversity.

032:003 (RELS:1903) Quest for Human Destiny
Quests for destiny in terms of perceived options/goals and ability to recognize, pursue, achieve them. GE: Values, Society, and Diversity.

032:004 (RELS:1404) Living Religions of the East
Religious beliefs, practices in India, China, Japan. GE: Values, Society, and Diversity. Same as 039:064 (ASIA:1040).

032:006 (RELS:1506) Introduction to Buddhism
Basic tenets, religious paradigms, historical phases important in the development of Buddhism; from the Buddha’s life to evolution of Mahāyāna Buddhism; readings from India, Tibet, China, Japan, Korea, Southeast Asia. GE: Values, Society, and Diversity. Same as 039:006 (ASIA:1060).

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Applicants to the M.A. program ordinarily must have a combined verbal and quantitative score of at least 1050 on the Graduate Record Examination (GRE) General Test and a g.p.a. of at least 3.00.

Applicants to the Ph.D. program ordinarily must have a combined verbal and quantitative score of at least 1150 on the GRE General Test and a g.p.a. of at least 3.40.

Application materials must include an application form; a transcript of all undergraduate and graduate work (one copy must be sent to the University’s Office of Admissions and a second copy must be sent to the Department of Religious Studies); an application or waiver of consideration form for graduate assistantships; three letters of recommendation; and a writing sample that demonstrates the applicant’s ability to engage in critical thinking. Applicants also must submit a brief personal essay that explains their objectives for graduate study and states which area of graduate study in religion will suit their objectives best. For details, see Graduate Admission and Financial Aid on the department’s web site.

All application materials must be received by February 1 for fall admission.
History of religious beliefs and practices in China; role in modern-day Chinese society; specific case studies that illuminate current situation of religion in China and impact on Chinese society; focus on the still widespread worship of gods and ancestors, the Confucian, Buddhist and Daoist traditions, recent upsurge of Christianity in China, and emergence of new religions (e.g., the Falun gong). Same as 039:007 (ASIA:1110).

032:011 (RELS:1070) Introduction to the Hebrew Bible/Old Testament  3 s.h.
History, religion, and thought of ancient Jews as recorded in their scripture. GE: Values, Society, and Diversity.

032:012 (RELS:1080) Introduction to the New Testament  3 s.h.

032:013 (RELS:1113) Gateway to the Bible  3 s.h.
Disagreement of Jews, Catholics, Protestants, and Eastern Orthodox Christians about the Bible, one of the most influential works in Western culture, on how it should be interpreted, what books should be included, and what versions of those books should be authoritative; introduction to issues involved in creating and interpreting the Bible; how academic study of religion seeks to provide answers.

032:014 (RELS:1410) Introduction to Indian Religions  3 s.h.
Religions with origins in the South Asian geographic region (e.g., Vedas in mid-second millennium BCE, Jainism and Buddhism from sixth to fourth centuries BCE, Sikhism in 15th century). Indian Christianity, Islam); focus on Hinduism and Buddhism; rise of varied literary forms, ritual, rise of devotional religion, Tantra, how religious practices affect indigenous medical traditions, how these traditions developed in different South Asian regions; broad changes in South Asian religion in 20th and early 21st centuries, current politicization of religion.

032:016 (RELS:1810) Religion and Liberation  3 s.h.

032:017 (RELS:1610) Japanese Religions  3 s.h.
Religions of Japan from ancient times to the present day; elite and popular Japanese interpretations of Chinese Buddhist and Daoist traditions; the parallel development of shinto kami tradition, contemporary new religious movements; focus on the codification of a variety of religious (and sometimes quasi-religious) paths, including the way of tea, the way of the brush, and the way of the samurai. Same as 39J:017 (JPNS:1115).

032:020 (RELS:2720) War and Peace in Religious Thought and Practice  3 s.h.
History, major themes, and contemporary applications of religious traditions regarding proper use of armed force; Christian just war and pacifist traditions, Islamic traditions of jihad, debates of issues such as humanitarian intervention, terrorism, nuclear weapons.

032:025 (RELS:1225) Medieval Religion and Culture  3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as 016:035 (HIST:1225).

032:026 (RELS:1250) Modern Religion and Culture  3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, nationalism, pluralism. GE: Historical Perspectives. Same as 016:036 (HIST:1250).

032:029 (RELS:1000) First-Year Seminar  1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

032:030 (RELS:1130) Introduction to Islamic Civilization  3 s.h.
Major areas of Islamic religious tradition: Qur’an, traditions of the Prophet, development and character of Islamic law, theology. GE: International and Global Issues; Values, Society, and Diversity.

032:034 (RELS:1350) Introduction to African American Religions  3 s.h.
GE: Values, Society, and Diversity. Same as 129:050 (AFAM:1250).

032:051 (RELS:2351) Religious Thinkers of the West  3 s.h.
Augustine, Bonaventure, Fichte, Kierkegaard, Heidegger. GE: Values, Society, and Diversity.

032:052 (RELS:2852) Women in Islam and the Middle East  3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur’an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values, Society, and Diversity. Same as 131:060 (GWSS:2052).

032:054 (RELS:2090) Introduction to Catholicism  3 s.h.
Catholic doctrine, liturgy, moral teaching.

032:056 (RELS:2356) Christianity and the Enduring Human Experience  3 s.h.
Topics in Christian history and thought; emphasis on the relationship between communities of belief and Christian traditions.

032:058 (RELS:2050) Liturgy and Devotion in Christian Tradition  3 s.h.
Liturgal traditions and devotional practices in western Christianity; Medieval Christian tradition, changes in liturgy and devotion that occurred with reformations of the 16th and 17th centuries; overview of modern developments. Same as 16E:038 (HIST:2050).

032:060 (RELS:2700) Sacred World of Native Americans  3 s.h.
GE: Values, Society, and Diversity. Same as 149:060 (AINS:1600).

032:061 (RELS:2361) Middle East and Mediterranean: Alexander to Suleiman  3 s.h.
GE: Historical Perspectives. Same as 016:045 (HIST:2461), 20E:071 (CLSA:2461).

032:062 (RELS:2962) Religion in the Public Sphere  3 s.h.
Religion as exerting undeniable influence in public sphere in communities around the world; examination of ways in which religion manifests itself in public sphere; religion in the arts, politics, science, literature, sports, communication, business, education, and many other domains of public sphere.

032:063 (RELS:2730) African American Islam  3 s.h.
Same as 129:063 (AFAM:1230).

032:066 (RELS:1825) Introduction to Religion and the Arts  3 s.h.
Religion in different art genres, including visual, performing, and literary.

</table>
032:153 (RELS:3953) Religion and the Arts
Analysis, interpretation of religious themes in literature, film, painting. 3 s.h.

032:154 (RELS:4155) Religious Conflict: Early-Modern Period
Reformation of 16th century—Lutheran, Calvinist, Radical, English; readings from major representatives of each. Same as 16E:123 (HIST:4455). 3 s.h.

032:155 (RELS:3855) Human Rights and Islam
Human rights in religious and secular discourse, seventh century to present; Islamic law, human rights law, religion, politics. GE: International and Global Issues. 3 s.h.

032:156 (RELS:4660) The Karma of Words
Key issues in the relationship between Buddhism and the literary arts. Same as 039:156 (ASIA:4660). 3 s.h.

032:157 (RELS:3020) Religion and Politics
Major trends in Islamic religious thought since the colonial period, focusing on encounters between Islamic and the modern world; Ibn Khaldun; renewal movements; varieties of religious reform and accommodation; nationalism, socialism, and so forth. Recommendations: prior course work in content topic. 3 s.h.

032:158 (RELS:4920) Native American Women and Religious Change
Native women’s diverse experiences and their roles in native societies, examined through contact experiences between native and nonnative peoples; changes in women’s roles in context of interactions between native people, missionaries, European colonists, and Americans; approaches to re-imaging women’s early contact roles presented in cultural narratives, archaeology, history, ethnography, and missionary records. Same as 149:158 (AINS:4560), 131:159 (GWSS:4560). 3 s.h.

032:159 (RELS:4859) Comparative Islamic Law
Sources of Islamic law; origins and functions of varied schools of jurisprudence; Islamic legal philosophy and Islamic legal rulings in contexts of five major schools of law; major legal topics covered by the Ottoman Legal Code. Same as 091:223 (LAW:8250). 3 s.h.

032:160 (RELS:4360) Religious Identity in the Modern Secular State
Shifting relations between organized religions and political institutions, between private piety and public life, in the West since the Enlightenment; rise of nationalism and the altered role of churches since the Revolutionary era; challenges of science and philology to traditional understandings of revelation, rise of fundamentalism in the wake of those challenges; Christian responses to the social effects of the Industrial Revolution; intertwining of ethnic, religious, and political identities in the late 20th and early 21st centuries. 3 s.h.

032:163 (RELS:4620) Turning East
The global nature of pilgrimage, primarily religious travel in or to Asia; journeys to single sacred sites, travel circuits to multiple destinations, internal or metaphorical pilgrimages. Same as 039:162 (ASIA:4620). 3 s.h.

032:164 (RELS:3716) Greek Religion and Society
From Bronze Age to the Hellenistic period, in context of Mediterranean culture; evidence such as choral hymn, inscribed prayers, magical curses inscribed on lead, architecture, sculpted offerings to the gods. GE: Values, Society, and Diversity. Same as 20E:115 (CLSA:3416). 3 s.h.

032:165 (RELS:3714) Anthropology of Religion
Approaches; religious roles; shamanism, witchcraft, curing; mythology; place of religion in social and cultural change. Same as 113:142 (ANTH:3114). 2-3 s.h.

032:166 (RELS:3666) The History of a Religious and Spiritual Practice: Yoga in Asia and Beyond
Historical, textual, and anthropological readings; visual material, yoga demonstrations, discussions of yoga practices; theory underlies readings, including ritual theory and practice theory; psychology and inquiries into the nature of religious adaptation and syncretism. 3 s.h.

032:169 (RELS:2969) Quest III: Heroes, Lovers, and Knives
Tension between Paganism and the Bible regarding heroism and eroticism; the Song of Songs, stories of Rachel, Samson, Saul, Bathsheba; Plato’s Symposium, Hemingway’s The Snows of Kilimanjaro, Salinger’s For Esmé with Love and Squalor; The Highlander, The Matrix, Bridget Jones’ Diary; unmasking knaves to truly appreciate heroes and lovers. 3 s.h.

032:170 (RELS:3560) Topics in Asian Religions
Same as 039:168 (ASIA:3560). 3 s.h.

032:172 (RELS:3572) Comparative Ritual
Practice and theory; rituals from religions, including Hinduism, Buddhism, Christianity, Indian religions; theories of interpretation. Same as 039:172 (ASIA:3890). 3 s.h.

032:175 (RELS:3645) Buddhist Philosophy
Introduction to main ideas. Requirements: sophomore or higher standing. Same as 026:145 (PHIL:3845). 3 s.h.

032:177 (RELS:3401) Indian Literature
Readings from medieval and modern periods in English translation. Same as 039:136 (SOAS:3201). 3 s.h.

032:178 (RELS:3575) East Meets West: The Western Reception of Eastern Religion
Introduction of religious ideas and forms from India, China, and Japan into Europe and America to late 20th century, from Greeks to New Age. Same as 039:188 (ASIA:3775). 3 s.h.

032:179 (RELS:4870) Islamic Cultural Presence in Spain
Islamic history and culture in the Iberian Peninsula from Middle Ages to present. Taught in Spanish. Requirements: one Spanish literature or culture course numbered 035:130 (SPAN:3200) or above. Same as 035:179 (SPAN:4870). 3 s.h.

032:180 (RELS:3580) Religion and Healing

032:181 (RELS:4181) Special Topics in Western Religion
Examination of a specific topic of interest related to Western religious traditions. Recommendations: some background in Judaism, Christianity, or classics. 3 s.h.

032:182 (RELS:3582) Enlightenment: Cross-Cultural Experiments in Religious Realization
Enlightenment as one of the most important ideas that feeds contemporary religious and spiritual imagination; exploration of this concept in contemporary religious and spiritual discourse. Same as 039:183 (SOAS:3920). 3 s.h.

032:186 (RELS:4404) The Literature of Daoism
Texts of philosophical, religious Daoism; Daoism in traditional Chinese political theory, literature, the arts, alchemy and medicine, sexual custom, combat. Taught in English. Same as 039:140 (CHIN:4204). 3 s.h.
032:188 (RELS:2655) Zen Buddhism 3 s.h.
Prerequisites: 032:004 (RELS:1404) or 032:006 (RELS:1506) or 032:010 (RELS:1510). Same as 039:170 (ASIA:2655).

032:192 (RELS:3190) Traditions of Religious Reform 3 s.h.
Same as 016:192 (HIST:3190).

032:196 (RELS:4950) Senior Majors Seminar 3 s.h.
Issues central to academic study of religion.

032:197 (RELS:4970) Honors Tutorial 2-3 s.h.

032:198 (RELS:4975) Honors Essay 2-4 s.h.

032:201 (RELS:5100) Teaching Religious Studies 3 s.h.
Teaching methods, course development, examination construction.

032:202 (RELS:5200) Asian Religious Traditions 3 s.h.

032:203 (RELS:5300) Western Religious Traditions 3 s.h.

032:205 (RELS:5400) Methods and Theories in the Study of Religion 3 s.h.
Principal methods, theories in academic study of religion.

032:208 (RELS:6030) Asian Religions Colloquium 3 s.h.

032:218 (RELS:6150) Seminar: Religion in America 3 s.h.
Religious experience in America; topics.

032:220 (RELS:6425) Seminar: Topics in Western Religious Thought 3 s.h.
In-depth reading of original sources and modern scholarship on selected problems in the modern study of Western religious thought.

032:222 (RELS:6450) Seminar in Historical Theology 3 s.h.

Culture and theology of 16th-century Europe. Same as 016:223 (HIST:6475).

Ricoeur’s hermeneutics.

032:225 (RELS:6723) Seminar on Islamic Law and Government 3 s.h.
Islamic legal and political legacy from formative period until modern time; critical analysis of logic and context of development; development of jurisprudential, legal, and political literature; overview of theories and practices of governance in Islam beginning with Caliphate system and ending with modern nation-state models. Same as 091:636 (LAW:9723).

032:226 (RELS:6200) Seminar: Religious Ethics 3 s.h.

032:227 (RELS:6070) Nonprofit Organizational Effectiveness I 3 s.h.

032:228 (RELS:6075) Nonprofit Organizational Effectiveness II 3 s.h.

032:229 (RELS:6040) Tiberius to Trajan arr.
Authors and topics from the first and second centuries C.E. Same as 20L:229 (CLSL:6013).

032:231 (RELS:6580) Seminar: Religion and Society 3 s.h.

032:235 (RELS:6520) Seminar: South Asian Religion 3 s.h.
Topics in South Asian religions. Same as 039:235 (ASIA:6520).

032:237 (RELS:6500) Seminar: East Asian Religion 3 s.h.
Emphasis on China and/or Japan. Same as 039:237 (ASIA:6500).

032:240 (RELS:6240) Seminar: Religion and Law 3-4 s.h.
The role of law in ongoing conflicts over the relationship between religion, morality, and society in the United States. Same as 091:685 (LAW:9901).

032:243 (RELS:6010) Religion and the Arts 3 s.h.

Ways in which Jews and Muslims in the Middle Ages interpreted sacred writ; works by al-Farabi, Averroes, Halevi, and Maimonides; tension between reason (the great attraction of these thinkers to Plato and Aristotle and their interpreters) and revelation (their faith commitment to revelation, i.e., sacred writ). Requirements: reading knowledge of Biblical Hebrew or Arabic.

032:260 (RELS:7260) French Paleography 1.3 s.h.
Independent study of original French writings.

032:261 (RELS:7100) Readings in American Religions arr.

032:264 (RELS:7200) Readings in Religious Ethics arr.

032:265 (RELS:7500) Readings in Asian Religions arr.

032:266 (RELS:7600) Readings in Classical Arabic 1-3 s.h.
Requirements: proficiency in Modern Standard Arabic.
032:267 (RELS:5067) Readings in Islamic Studies arr.
Current scholarship in the field of Islamic studies; major works in areas such as modern Islamic thought, Islamic legal and philosophical traditions, religion and politics.

Rhetoric

Lecturers
Rebecca Blair, Jennifer Buckley, Jessica Citti, Cinda Coggins Mosher, Patrick Dolan, Matt Gilchrist, Consuelo Guayara Sanchez, Will Jennings, Tom Keegan, Megan Knight

Web site: http://clas.uiowa.edu/rhetoric

The Department of Rhetoric offers courses that fulfill the Rhetoric requirement of the College of Liberal Arts and Sciences General Education Program (p. 276) and provides individual instruction in its Writing Center and Speaking Center. It also offers other undergraduate courses and graduate seminars.

General Education Courses

Rhetoric courses help students to develop skills in speaking, writing, listening, and critical reading. They also build competence in research and inquiry as well as in analysis and persuasion, especially in the area of understanding public controversies in their social contexts.

Rhetoric courses are sometimes organized around a special topic, such as the STEM fields (science, technology, engineering, and mathematics), nursing, or but the primary emphasis is always on responsible inquiry and analysis. Some course sections involve special activities, such as service-learning components, but the workload across all sections is comparable, with a fixed number of major assignments and a department-approved set of readings.

During their first year at the University, students enroll in the rhetoric course indicated on their degree audit unless they are required to complete one or more prerequisite courses in English as a Second Language (ESL) as a result of their English proficiency evaluation. Students required to enroll in English as a Second Language (ESL) courses must complete all of their required ESL courses before they may register for any rhetoric course or use the services of the Writing Center or the Speaking Center.

Students planning to transfer to The University of Iowa should discuss rhetoric course equivalencies as soon as possible with the University of Iowa Office of Admissions. To learn more about General Education’s Rhetoric requirement, see General Education Program (p. 276) in the Catalog.

Students who undergo formal evaluation by Student Disability Services and are found to be learning disabled in reading, writing, or speaking should request reasonable accommodations in order to complete rhetoric. Accommodations may be arranged by Student Disability Services in consultation with the Department of Rhetoric and individual instructors.

Courses

For Undergraduates

General Education

010:003 (RHET:1030) Rhetoric 4 s.h.
Use of writing and speaking to discover, question, explain, and justify positions in a controversy; reading and listening to comprehend and consider arguments; employment of rhetorical concepts (e.g., purpose, audience); understanding research as responsible inquiry for speaking and writing; special topics, activities. GE: Rhetoric.

010:004 (RHET:1040) Writing and Reading 3 s.h.
Introductory course in writing required of students who have completed a college-level public speaking course and writing course, but have not satisfied the rhetoric requirement. Requirements: completion of speaking requirement. GE: Rhetoric - Writing.

010:006 (RHET:1060) Speaking and Reading 3 s.h.
Introductory course in speaking required of students who have completed 6 s.h. of college writing instruction, but have not completed a 3 s.h. college-level speaking course; intended to improve speaking, listening, critical, analytical, and advocacy skills. Requirements: completion of writing requirement. GE: Rhetoric - Speech.

Other Courses

010:010 (RHET:1010) Writing for Academic Success 0 s.h.
Individualized instruction in the Writing Center; in conjunction with General Education rhetoric courses.

010:020 (RHET:1005) Academic Seminar I 3 s.h.
IowaLink seminar. Requirements: first-year standing.

010:021 (RHET:1007) Academic Seminar II 3 s.h.
IowaLink seminar. Requirements: first-year standing.

010:029 (RHET:1000) First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

For Undergraduate and Graduate Students

010:160 (RHET:3600) Issues in Rhetoric and Culture 3 s.h.
Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Communication studies majors may apply this course to the following area requirement. AREA: Context. Requirements: for 036:146 (COMM:3600) — g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as 036:146 (COMM:3600), 160:160 (PORO:3600), 048:160 (CCL:3160).
010:161 (RHET:3610) Rhetorical Issues in Health Care

010:170 (RHET:3700) Rhetoric of Sustainability
How sustainable development and related concepts have been used to shape public opinion on a range of topics, from environmental protection to economic globalization; role in discourse of public policy. Requirements: fulfillment of rhetoric requirement.

010:198 (RHET:4980) Special Projects for Undergraduates

For Graduate Students

010:243 (RHET:6015) Feminist Cultural Studies

010:271 (RHET:6071) Studies in Sentimentalism
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psycho-social phenomenon; focus on attendant theories of affect; integration of literature and culture with work on the politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, and gender and sexuality studies. Same as 008:271 (ENGL:6075), 160:271 (PORO:6071).

010:275 (RHET:6965) Topics in Second Language Acquisition: Writing

010:330 (RHET:5330) Directing a Writing Center
Supervised tutoring in Writing Center involving graduate and undergraduate tutors and fellows across disciplines; providing instruction on recruitment and development of writing support teams; helping a variety of persons on campus (undergraduate, graduate, faculty) to improve their writing skills in many different areas, ranging from class or conference papers to publicity materials. Requirements: professional development program and rhetoric teaching.

010:335 (RHET:5335) Directing a Speaking Center
Supervised tutoring in Speaking Center involving graduate and undergraduate tutors and fellows across disciplines; providing instruction on recruitment and development of writing support teams; helping a variety of persons on campus (undergraduate, graduate, faculty) to improve their speaking skills in many different areas, ranging from class or conference papers to publicity materials. Requirements: professional development program and rhetoric teaching.

010:340 (RHET:6400) Current Issues in Rhetoric
Ethical, social, or cultural issues; rhetoric’s role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as 160:340 (PORO:6450), 036:317 (COMM:6400).

010:350 (RHET:5350) Colloquium: Teaching Rhetoric
Professional development program for new rhetoric teachers; includes three-day workshop.

010:360 (RHET:6500) Issues in Rhetoric and Culture
Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Same as 160:360 (PORO:6500).

010:375 (RHET:5375) Teaching in a Writing Center
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as 08N:375 (CNW:5375).

010:385 (RHET:5385) Teaching in a Speaking Center
Preparation to teach in University of Iowa Speaking Center or similar settings; seminar component on speaking and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in speaking center.

010:550 (RHET:7900) Special Project for Graduate Students

Assistant professor
Cory Forbes

Clinical instructors
M. Leslie Flynn, Ted Neal

Undergraduate major: science education
Graduate degrees: M.A.T. in science education; M.S. in science education; Ph.D. in science education
Web site: http://www.education.uiowa.edu/teach/scied/

The Science Education Program provides preparation in more than one discipline of science; a consideration of science from a philosophical, historical, and sociological perspective; an introduction to applied science (technology); and an education sequence.

Program planning in science education requires the cooperation and involvement of a variety of University departments and colleges. Most of the program’s requirements are drawn from courses offered by these varied academic units.

Undergraduate Program

• Major in science education (Bachelor of Science)

The major in science education is interdisciplinary. It is intended for students interested in education; it is not intended to prepare students for advanced study in one area of science. When graduates of the Science Education Program elect to pursue graduate study in a specific area of science, they often must complete additional course work in that discipline after they are admitted to the Graduate College.

Students majoring in science education earn a Bachelor of Science degree, which is awarded by the College of Liberal Arts and Sciences.

Special Rules

Since the Science Education Program may involve many faculty advisors and more than one college or department, the following special rules apply to science education students.

At least 10 s.h. of graded credit in science must be earned at The University of Iowa.

No credit from the CLEP Natural Science General Examination may be applied toward the major in science education.

Courses for the major may not be taken pass/nonpass. Grades from all courses applied toward the science education major are used in computing a student’s grade-point average in the major, both at The University of Iowa and overall.

Since mathematics forms an integral part of so many aspects of modern science, all science education students are urged to complete appropriate advanced courses in both pure and applied mathematics (including statistics and computer science) so that they may be qualified to do graduate work and quantitative research later.

Bachelor of Science

The Bachelor of Science with a major in science education requires a minimum of 120 s.h., including 57-61 s.h. of work for the major. The curriculum includes courses offered by science departments in the College of Liberal Arts and Sciences, science applications courses, and courses in the history, philosophy, and sociology of science. Students choose a primary and a secondary emphasis area from these: biological sciences, earth science, chemistry, and physics. Students who complete the major gain:

• depth in a general area of science equivalent to three years or six semesters of sequential study;
• preparation in a second area of science equivalent to two years or four semesters of sequential study;
• introduction to two other fields of science;
• a specified proficiency in mathematics as a tool of science (with more mathematics study required for the physical science emphases than for the biological ones);
• a view of science from a historical/philosophical/cultural perspective; and
• experience with the application of scientific knowledge.

Students who wish to be certified to teach science must complete the College of Education’s Teacher Education Program (TEP), including the 48 s.h. professional education sequence; see "B.S. with Teacher Licensure" later in this section.

The major in science education requires 24-30 s.h. in the primary emphasis area (amount of credit depends on the area), 15 s.h. in the secondary emphasis area (may include a science applications course), the broad field science block, and at least 6 s.h. of additional course work in one or more of the other emphasis areas (excluding applications courses). Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

BIOLOGY EMPHASIS AREA

Primary emphasis area total of 27-30 s.h.

One of these sequences:

002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function 8 s.h.

This course:

097:103 (SIED:4103) Societal and Educational Applications of Biological Sciences 4 s.h.

One of these:

002:081 (BIOL:1311) Human Genetics in the Twenty-First Century 3 s.h.
002:128 (BIOL:2512) Fundamental Genetics 3-4 s.h.
One of these:
002:103 (BIOL:2374) Biogeography 3 s.h.
002:134 (BIOL:2673) Ecology 3-4 s.h.

One of these:
002:022 (BIOL:1370) Ecology and Evolution 3 s.h.
002:131 (BIOL:3172) Evolution 4 s.h.

One of these:
002:124 (BIOL:3343) Animal Physiology 3 s.h.
027:130 (HHP:3500) Human Physiology 3 s.h.

One of these:
002:104 (BIOL:3233) Introduction to Developmental Biology 3 s.h.
002:114 (BIOL:2723) Cell Biology 3 s.h.
002:117 (BIOL:3363) Plant Developmental Biology 3 s.h.
099:110 (BIOC:3110) Biochemistry 3 s.h.

CHEMISTRY EMPHASIS AREA
Primary emphasis area total of 26 s.h.
All of these:
004:021 (CHEM:2021) Basic Measurements 3 s.h.
004:125 (CHEM:3250) Inorganic Chemistry (spring) 2 s.h.
097:106 (SIED:4106) Societal and Educational Applications of Chemical Concepts 4 s.h.

Two of these:
004:111 (CHEM:3110) Analytical Chemistry I 3 s.h.
004:121 (CHEM:2210) Organic Chemistry I 3 s.h.
004:131 (CHEM:4431) Physical Chemistry I 3 s.h.

One of these:
004:141 (CHEM:2410) Organic Chemistry Laboratory 3 s.h.
004:143 (CHEM:3430) Analytical Measurements 3 s.h.
004:144 (CHEM:3440) Physical Measurements 3 s.h.

EARTH SCIENCE EMPHASIS AREA
Primary emphasis area total of 24-30 s.h.
All of these:
012:004 (GEOS:1040) Evolution and the History of Life 4 s.h.
012:005 (GEOS:1050) Introduction to Geology 4 s.h.
012:008 (GEOS:1080) Introduction to Environmental Science 4 s.h.
097:102 (SIED:4102) Societal and Educational Applications of Earth Science and Environmental Science 4 s.h.

One of these:
012:100 (GEOS:3000) Geologic Training Assignment 1-3 s.h.
012:112 (GEOS:4831) Geologic Field Methods 3 s.h.
012:130 (GEOS:3300) Sedimentary Geology 3 s.h.
012:132 (GEOS:3840) Structural Geology 4 s.h.

One of these:
012:102 (GEOS:3020) Earth Surface Processes 3 s.h.
012:121 (GEOS:3210) Principles of Paleontology 3 s.h.
012:136 (GEOS:3360) Soil Genesis and Geomorphology 3 s.h.

One of these:
012:114 (GEOS:3140) Energy and the Environment 3 s.h.
044:005 (GEOG:1050) Foundations of GIS 3 s.h.
044:180 (GEOG:4010) Field Methods in Physical Geography 2-4 s.h.

One of these:
012:107 (GEOS:3070) Marine Ecosystems and Conservation 3 s.h.
012:108 (GEOS:3080) Introduction to Oceanography 2 s.h.

PHYSICS EMPHASIS AREA
Primary emphasis area total of 24-28 s.h.
097:105 (SIED:4105) Societal and Educational Applications of Physical Sciences 4 s.h.

One of these sequences:
029:011 (PHYS:1511)-029:012 (PHYS:1512) College Physics I-II (if physics is a secondary emphasis area) 8 s.h.
029:027 (PHYS:1701)-029:028 (PHYS:1702) Physics I-II 8 s.h.
029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II 8 s.h.

One of these:
029:029 (PHYS:2703) Physics III 4 s.h.
029:115 (PHYS:3710) Intermediate Mechanics 3 s.h.

One of these:
029:050 (ASTR:1070) Stars, Galaxies, and the Universe (if physics is a secondary emphasis area) 3-4 s.h.
029:052 (ASTR:1080) Exploration of the Solar System (if physics is a secondary emphasis area) 3 s.h.
029:061 (ASTR:1771) General Astronomy I 4 s.h.

One of these:
029:128 (PHYS:3850) Electronics 4 s.h.
029:129 (PHYS:3811) Electricity and Magnetism I 3 s.h.

One of these:
029:006 (PHYS:1200) Physics of Everyday Experience (if physics is a secondary emphasis area) 3 s.h.
029:044 (PHYS:1410) Physics of Sound 3-4 s.h.

BROAD FIELD SCIENCE BLOCK
097:102 (SIED:4102) Societal and Educational Applications of Earth Science and Environmental Science 4 s.h.
097:103 (SIED:4103) Societal and Educational Applications of Biological Sciences 4 s.h.
097:105 (SIED:4105) Societal and Educational Applications of Physical Sciences 4 s.h.
097:106 (SIED:4106) Societal and Educational Applications of Chemical Concepts 4 s.h.
097:135 (SIED:4135) The Nature of Science 4 s.h.

B.S. with Teacher Licensure
In order to earn licensure to teach in elementary and/or secondary schools, students must satisfy all requirements for the science education major and for graduation and must complete the College of Education’s Teacher Education Program (TEP).

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

In order to be considered for admission to the TEP, students must have completed a minimum of 33 s.h. of course work with a cumulative g.p.a. of at least 2.70
(effective for spring 2013 admission) or at least 3.00
(effective for fall 2013 admission). Admission decisions
are based on grade-point averages in science courses and
other criteria relevant to teaching. A limited number of
applicants are accepted to the TEP, so having the required
grade-point average does not ensure admission. Contact
the Office of Education Services for information about
applying to the TEP.

The TEP requires the following professional education
courses, which total a minimum of 48 s.h.

(MATH:0100), 22M:003 (MATH:0300), and 22M:008
(MATH:1005)

### Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in science education.

### Honors

To graduate with honors in science education, students must maintain a University of Iowa g.p.a. of at least 3.33,
in addition to other requirements. Contact the University of Iowa Honors Program for more information about honors study at Iowa.

### Graduate Programs

- Master of Science in science education
- Doctor of Philosophy in science education

For information about graduate programs in science education, see Teaching and Learning (p. 699) (College of Education) in the Catalog. The M.A.T., M.S., and Ph.D. are described under “Graduate Programs: Secondary Education.”

### Research

Each faculty member in science education is responsible for one or more areas of research. Major interests include studies of effective teaching and learning, science through writing, philosophy and sociology of science, individualized learning, social issues in science and technology, curriculum planning and development, professional development, intellectual development related to teaching and learning science, studies of effective use of hands-on activities, and evaluation and assessment of science instruction and programs.

### Programs and Projects

A wide range of funded programs provides ample opportunity for students to be involved in innovative development and research in science education.

Science education faculty members collaborate on a number of international research projects in many countries. Activities include faculty exchanges and cross-national studies.

International students enrich the opportunities for graduate studies in Science Education. New international collaborative efforts are under way each year.

Ed Barnes, Margaret Bessman-Quintero, Susan Bixenman, Ryan Bobst, Varetta Braden, Lois Buntz, Mark Chappelle, Tara Clark, Lance Clemens, Rick Connor, Amy Correia, Raygena Curry, Lisa D’Aunno, Suzanne Dell, Monique DiCarlo, Schael Engel, Erin Feldman, Sr. Shirley Fineran, Diane Finnerty, Romaine Foege, Judy Foote, Joel Fry, Brenda Geisinger, Kim Hanrahan, Barbara Hirsch-Giller, Tiffany Keimig, Kate Kemp, Brandy Koller, Sid Lutz, Sandra McGee, Lynn Meincke, Bonnie Mikelson, Ron Mirr, Pam Moore, Karen Mullin, Mary Newcomb, Greg Nooney, Angela Ohrt, Sarah Oliver, Jennifer Lock Omann, Joelle Osterhaus, Tammy Reiff, Elizabeth Rembold, Kathleen Ruyle, Mari Samuelson, Kathleen Shey, Elizabeth Smith, Diane Sonnevile, Scott Stange, Eileen Swoboda, Ellen Szabo, Michael Thompson, Diane Tönkyn, Molly Twohig, Jin Wang, Kristine Warford, John Werner, Ross Wilburn, Carol Winetroub, Sue Witte, Joanne Young

Undergraduate major: social work (B.A.)
Undergraduate minor: social work
Graduate degrees: M.S.W.; Ph.D. in social work
Web site: http://www.uiowa.edu/~socialwk

The School of Social Work’s mission is to develop, disseminate, and integrate excellent and compelling research-based knowledge, practice, and policy, particularly that related to children, families, and older adults. The school operates from strengths-based perspectives and systems perspectives. It educates its graduates to be culturally competent scholars and practitioners who are committed to social justice and social work values and ethics, and who are prepared to serve in and have a positive impact on a broad range of family-centered and community-based practice settings throughout the State of Iowa and beyond.

The school provides a program of professional training accredited by the Council on Social Work Education at the baccalaureate and master’s degree levels, aimed at developing effective intervention in multiple systems and using professional social work values and ethics. It also offers a Ph.D. program, which prepares students to conduct research that contributes to the knowledge base of social work, to be leaders in setting policy and practice, and to teach in colleges and universities.

In addition to offering undergraduate and graduate programs in social work, the school administers the Aging Studies Program, which offers a certificate for undergraduate and graduate students and a minor for undergraduates. The school also administers the undergraduate Certificate in Critical Cultural Competence. See Aging Studies (p. 34) and Critical Cultural Competence (p. 199) in the Catalog.

Undergraduate Programs

• Major in social work (Bachelor of Arts)
• Minor in social work

The undergraduate program in social work has been accredited continuously by the Council on Social Work Education (CSWE) since 1974 and is designed to be consistent with the council’s 2008 Educational Policy Statement competencies and practice behaviors. The program’s goals are to:

• prepare students for culturally competent generalist social work practice with individuals, families, small groups, organizations, and communities;
• provide students with a base for continuing graduate education in social work and for lifelong learning; and
• prepare students for active engagement with issues of social justice, oppression, and social welfare in local, state, regional, national, and global goals.

The program draws on a liberal arts perspective; social and behavioral science theory; social research; social policy development, analysis, and implementation; culturally competent intervention and prevention approaches in working with individuals, families, small groups, organizations, and communities; social integration; multiple systems assessment and evaluation; and knowledge pertaining to diversity.

Consistent with CSWE standards, the program views dimensions of diversity as intersections of multiple factors, including age, class, color, culture, disability, ethnicity, gender, gender-identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Students learn that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

Knowledge and practice in social work values and ethics is also an integral part of students’ education. Knowledge and skill related to the evaluation of practice are integrated throughout the curriculum, beginning in 042:022 (SSW:2222) Introduction to Social Work,
continuing through practice and research courses, and culminating in the field experience and field seminar.

**Admission to the Major**

The School of Social Work endeavors to maintain a heterogeneous student body by enrolling students who represent diverse backgrounds and cultural perspectives.

A limited number of students are admitted to the major each year. The application deadline is March 1. Admission to the undergraduate program in social work requires:

- completion of 042:022 (SSW:2222) Introduction to Social Work with a grade of C or higher during the sophomore year;
- a cumulative g.p.a. of at least 2.50 (exceptions may be made for persons who do not meet the grade-point average requirement if they are strong candidates on the basis of other criteria); and
- completion of application forms and statement.

Students should complete 042:022 (SSW:2222) Introduction to Social Work and apply to the major during their sophomore year. Students who apply during their junior year and are admitted must expect to complete an additional summer session, or more, in order to fulfill the requirements of the major.

Meeting the admission requirements above does not guarantee admission. Admission often is limited by available instructional resources and opportunities for field placement. The school does not grant academic credit for life experience or previous work experience.

For more information about admission policies, contact the School of Social Work undergraduate director or admissions director.

**Social Work Interest**

Students who are interested in applying to the social work major may declare a social work interest at any time after they enroll at the University and before they earn more than 72 s.h. of credit, and preferably while they still will have time to enter and complete the major in a total of four years of study. Students may not declare a social work interest after they have earned 72 s.h., even if they already have declared another major.

Declaration of a social work interest qualifies students with at least sophomore standing to be advised by social work faculty and to participate in the Social Work Student Association and other School of Social Work activities, but it does not allow them to register for courses required specifically for the major.

Students may continue their social work interest standing until they are admitted to the major or until they have earned more than 72 s.h. of credit.

**Social Work Courses in Des Moines**

In addition to its on-campus undergraduate program in Iowa City, the School of Social Work offers social work courses for the Bachelor of Arts through its program in Des Moines. Students in the Des Moines program take courses in sequence, completing the social work courses required for the degree in two years. Courses are offered in a classroom setting. Students may complete other requirements for the Bachelor of Arts in online and/or classroom course work. The Des Moines program is approved by the Council on Social Work Education. For more information about the social work program in Des Moines, contact the University of Iowa School of Social Work admissions director.

**Bachelor of Arts**

The Bachelor of Arts with a major in social work requires a minimum of 120 s.h., including at least 64-69 s.h. of work for the major (a minimum of 36-39 s.h. in social work courses, 16-18 s.h. in cognate areas, and 12 s.h. in a concentration area). Students must complete 042:022 (SSW:2222) Introduction to Social Work (4 s.h.) to be admitted to the major and before enrolling in the remaining social work courses required for the major.

Students must complete the College of Liberal Arts and Sciences General Education Program (p. 276). Many students use the major’s required course 002:021 (BIOL:1140) Human Biology as partial fulfillment of General Education’s Natural Sciences requirement.

The major in social work requires the following course work.

**SOCIAL WORK**

All of these:

- 042:022 (SSW:2222) Introduction to Social Work 4 s.h.
- 042:140 (SSW:3840) Human Behavior in the Social Environment 4 s.h.
- 042:142 (SSW:3842) Interpersonal Skills Laboratory 2 s.h.
- 042:143 (SSW:4843) Social Welfare Policy and Practice 3 s.h.
- 042:144 (SSW:3844) Introduction to Social Work Research 4 s.h.
- 042:147 (SSW:3847) Discrimination, Oppression, and Diversity 3 s.h.
- 042:171 (SSW:3845) Social Work Processes 4 s.h.
- 042:189 (SSW:4189) Field Experience Seminar 1 s.h.
- 042:193 (SSW:4193) Field Experience 8-11 s.h.

**COGNATE AREAS**

Natural and social sciences—all of these:

- 002:021 (BIOL:1140) Human Biology 4 s.h.
- 030:001 (POLI:1100) Introduction to American Politics 3 s.h.
- 031:001 (PSY:1001) Elementary Psychology 3 s.h.
- 034:001 (SOC:1010) Introduction to Sociology Principles 3-4 s.h.

Social science or quantitative studies—one of these:

- 066:001 (ECON:1010) Principles of Microeconomics 4 s.h.
- 066:002 (ECON:1200) Principles of Macroeconomics 4 s.h.
- 225:002 (STAT:1010) Statistics and Society 3 s.h.
- 225:025 (STAT:1020) Elementary Statistics and Inference 3 s.h.
- 113:003 (ANTH:1101) Cultural Anthropology 3 s.h.
- 113:010 (ANTH:2100) Anthropology and Contemporary World Problems 3 s.h.

**CONCENTRATION AREA**

Students complete a minimum of 12 s.h. of course work in one of the concentration areas listed below. Most choose either sociology or psychology as their concentration. Students who wish to complete a concentration area not listed below must present a written request and rationale to the faculty advisor and undergraduate coordinator.

Courses used to fulfill other requirements for the major or
the General Education Program do not count toward the 12 s.h. required for the concentration area.

African American studies
Aging studies
American studies
Anthropology
Business
Communication studies
Critical cultural competence
Economics
Education
English
Gender, women’s, and sexuality studies
Health and human physiology
Health promotion
History
Journalism and mass communication
Leisure studies
Political science
Psychology
Religious studies
Sociology
Spanish
Sport studies

**Recommended Course Sequence**

The school recommends that students complete required course work in the following sequence. Most social work courses are offered only once each year.

**FIRST AND SECOND YEARS**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**Admission to the major in social work is selective. The four-year graduation plan applies only to students who are admitted by the beginning of their fifth semester.**

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** 042:022 (SSW:2222) Introduction to Social Work, four courses that can be applied to the major (may include concentration area courses), admission to the major, and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** six more courses in the major and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** four or five more courses in the major and finalized field placement

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors**

The School of Social Work has an honors program leading to graduation with honors in social work. A cumulative University of Iowa g.p.a. of at least 3.33 is required for participation in the program, which enables students to do in-depth study in subjects that interest them. Consult the school for information about honors requirements. Contact the University of Iowa Honors Program for more information on honors study at Iowa.

**Minor**

The minor in social work requires a minimum of 15 s.h in social work courses, including 12 s.h. in 100-level courses taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. The minor must include 042:022 (SSW:2222) Introduction to Social Work (or for transfer students, an equivalent course from another institution). Contact the School of Social Work undergraduate program director or program administrator for more information.

**Certificate in Aging Studies**

The School of Social Work administers the Aging Studies Program, which offers a certificate for undergraduate and graduate students and a minor for undergraduates; see Aging Studies (p. 34) in the Catalog.

**Certificate in Critical Cultural Competence**

The School of Social Work administers the undergraduate certificate program in critical cultural competence; see Critical Cultural Competence (p. 199) in the Catalog.

**Graduate Programs**

- Master of Social Work (thesis or nonthesis)
- Doctor of Philosophy in social work

The Master of Social Work program has been accredited continuously by the Council on Social Work Education since 1951.
Licensure for Work in Iowa
Licensure is mandatory for master’s-level social workers in Iowa. For more information, see the Iowa Department of Public Health web site.

School Social Work Endorsement
The school cooperates with the College of Education and the State Department of Education to provide curricula that meet requirements for school social work endorsement in Iowa.

Master of Social Work
The Master of Social Work requires 60 s.h. of graduate credit; the requirement is 48 s.h. for students who hold an undergraduate degree in social work from a program accredited by the Council on Social Work Education. The degree is offered with or without thesis. An optional specialization in end-of-life care is available.

The goals of the M.S.W. program are to:
• prepare students to shape the profession’s future by providing education in family-based, community-based, and culturally competent practice approaches using the person-in-environment framework; and
• prepare competent professionals for autonomous practice and leadership within the professional community; autonomous practice and leadership include advanced interventions at multiple system levels, supervision, program development, program administration, training, evaluation of practice, dissemination of new models of practice, and policy development.

The school offers the M.S.W. program on the University’s Iowa City campus and at three off-campus sites: Des Moines and Sioux City, Iowa, and the Quad Cities area of Iowa and Illinois (see “M.S.W. off Campus” below). Each site provides the required structured sequence of courses and includes opportunities for students to individualize their plans of study. All sites give students access to the resources of an RU/VH Research University.

Requirements for the M.S.W. include 25 s.h. in foundation-level courses and 35 s.h. in advanced courses. All students must earn a minimum of 36 s.h. after admission to the M.S.W. program. Students may count a maximum of 9-12 s.h. of credit from previous graduate work toward the M.S.W.

All M.S.W. students follow a structured sequence of courses. They must obtain permission to revise their plan, and they must complete the degree within a maximum of four years. All students must maintain a cumulative g.p.a. of at least 3.00 and must be promoted and each semester in compliance with the school’s student advancement policy.

The full-time M.S.W. program must be completed in five semesters, beginning in fall and including summer session. Full-time students complete the degree in the spring semester of their second year. Students whose degree requirement is 48 s.h. may enroll full-time or part-time their first semester, following the sequenced plan.

Full-time study and a four-year part-time program are available in Iowa City and Des Moines. A three-year sequence of courses is available at all sites, although the Sioux City and Quad Cities sites admit new entering classes only on a three-year cycle.

Following is an outline of the full-time 60 s.h. program. For information about the three-year and four-year part-time sequences, contact the School of Social Work.

FIRST-YEAR: FOUNDATION

Fall Semester
042:140 (SSW:3840) Human Behavior in the Social Environment 3 s.h.
042:143 (SSW:4843) Social Welfare Policy and Practice 3 s.h.
042:146 (SSW:6146) Computer Laboratory 1 s.h.
042:147 (SSW:3847) Discrimination, Oppression, and Diversity 3 s.h.
042:148 (SSW:6148) Social Work Research Methods 3 s.h.

Spring Semester
042:150 (SSW:6150) Social Work Practice with Individuals, Families, and Groups 3 s.h.
042:151 (SSW:6151) Social Work Practice Skills Laboratory 1 s.h.
042:145 (SSW:6145) Organization and Community Practice 3 s.h.
042:270 (SSW:7270) Advanced Research 3 s.h.
042:290 (SSW:6290) Foundation Practicum in Social Work 3 s.h.
042:291 (SSW:6291) Foundation Practicum Seminar 1 s.h.

Summer Session
Electives (including preplacement field practice courses) 4-10 s.h.

SECOND-YEAR: CONCENTRATION

Fall Semester
Elective 3 s.h.
One of these:
042:250 (SSW:7250) Family-Centered Theory and Practice I 3 s.h.
042:260 (SSW:7260) Integrated Social Work Theory and Practice I 3 s.h.
One of these:
042:292 (SSW:7292) Advanced Practicum in Family-Centered Practice I and II 5-6 s.h.
042:295 (SSW:7295) Advanced Practicum in Integrated Practice 5-6 s.h.
One of these:
042:293 (SSW:7293) Advanced Practicum Seminar in Family-Centered Practice I 1 s.h.
042:297 (SSW:7297) Advanced Practicum Seminar in Integrated Practice I 1 s.h.

Spring Semester
One of these:
042:251 (SSW:7251) Family-Centered Theory and Practice II 3 s.h.
042:261 (SSW:7261) Integrated Social Work Theory and Practice II 3 s.h.
One of these:
042:252 (SSW:7252) Advanced Social Policy for Family Practice 3 s.h.
042:262 (SSW:7262) Advanced Social Policy for Integrated Practice 3 s.h.
Concentrations

In the advanced year of the master’s program, students choose one of two concentrations: family-centered practice or integrated practice. These advanced specializations build on the school’s liberal arts perspective and on the professional foundation. Both are based on a comprehensive eco-systemic theoretical perspective, and both apply the principles that are part of the school’s mission statement, with a focus on culturally competent family-centered and community-based approaches.

FAMILY-CENTERED PRACTICE

The family-centered practice concentration teaches knowledge and skills necessary for advanced social work practice with individuals and families. These include clinical practice methods that mobilize and develop clients’ coping skills, empowering them to manage difficult situations, and culturally sensitive methods for collaborating with clients, their families, and other professionals in planning interventions. Students also learn about advocating for clients, facilitating client self-advocacy, coordinating services to meet multiple needs, and influencing social policy on behalf of clients.

The concentration prepares students to work with individuals and families at appropriate levels of intensity, mobilize existing strengths, and enhance coping skills. Using principles of family-centered practice, students learn to take community and larger systems into account while working in partnership with individuals and families in all aspects of assessment and intervention planning. The concentration emphasizes sensitivity to a variety of family forms and to cultural diversity within family forms. “Family” is broadly defined to include step families, single-parent families, same-sex-couple families, grandparent-as-parent families, adult parent-adult child families, and traditional forms of families.

INTEGRATED PRACTICE

The integrated practice concentration teaches methods of advanced practice that empower organizational and community change at multiple system levels. Students learn skills for assessment, planning, and direct intervention in larger systems such as neighborhoods, social support networks, and service delivery systems, and for policy making. They develop skills for a broad range of interventions, including direct practice, case management, community education, community development and practice, management and administration, organizational and interorganizational planning and program development, team building, organization and program evaluation, and social policy advocacy. They also learn culturally sensitive methods to collaborate with families and communities; identify strengths, assets, and challenges; and develop services and programs that will meet clients’ needs.

Building on strengths and assets of organizations and communities, students learn how to mobilize community members in advocacy and change efforts—skills useful for case managers, service coordinators, supervisors, program planners and developers, and administrators. Students also learn how to apply advanced skills to advocacy, community assessment, planning and mobilizing resources, and influencing social policy.

The concentration prepares students for practice in varied settings, including hospitals and community health programs, schools, mental health centers, neighborhood and family resource centers, community- and family-based community service agencies, correctional facilities, and programs that serve the elderly, both in the community and in care facilities. In many of these settings, social workers work as interdisciplinary team members and team leaders within organizations. They also collaborate with community organizations, community residents, and service providers. Many social workers are involved in staff supervision, program development, and agency administration. Content areas include grant writing; intervention in multiple systems, including team and network building; policy practice; and design of evaluation methods for client assessment and program evaluation.

Admission

The school seeks to maintain a heterogeneous student body by enrolling students who represent diverse backgrounds and cultural perspectives. Previous experience in human services and cross-cultural experiences is desirable. The school does not grant academic credit for life experience or previous work experience.

Admission to the M.S.W. program requires a bachelor’s degree from an accredited college or university, with a reasonable distribution of courses in the liberal arts and sciences (the humanities and the social, behavioral, and biological sciences). Applicants should have an undergraduate g.p.a. of 3.00 or higher, or a g.p.a. of 3.00 or higher on 12 s.h. of letter-graded graduate coursework; consult the University’s Office of Admissions for help in calculating grade-point average. Competence with word processing and spreadsheet application on personal computers is required.

Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants must submit three letters of recommendation, including one regarding academic abilities and one from the applicant’s most recent employer (if the employment was social work-related); and a personal statement addressing criteria specified by the School of Social Work.

Applications are accepted beginning September 1 and must be completed by February 1 to be considered for the next academic year.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.
For a complete statement of graduate admission policies, contact the School of Social Work.

Financial Support

Students seeking financial assistance should apply for aid through The University of Iowa Office of Student Financial Aid. Students may apply for a limited number of research and teaching assistantships available from the School of Social Work. Application materials for research or teaching assistantships are available from the school each spring, or as positions become available. Aid received through the Office of Student Financial Aid does not preclude students from consideration for aid through the School of Social Work.

M.S.W. off Campus

The School of Social Work delivers the M.S.W. curriculum to three off-campus sites: Des Moines and Sioux City, Iowa, and the Quad Cities area of Iowa and Illinois. Each site is administered by the School of Social Work in cooperation with the Division of Continuing Education. Social work faculty members teach required courses at each center and are available for student advising. The off-campus programs have been evaluated by the Council on Social Work Education and The University of Iowa Graduate Council as providing a program comparable to that available on the Iowa City campus.

Courses at each off-campus site are taught in classrooms by tenure-track, clinical, visiting, and adjunct faculty members. Instructional connections between sites are maintained through varied technologies, including computer-based instruction.

For program entry and application dates, contact the School of Social Work.

Des Moines Center

The Des Moines Education Center is located in the state’s largest metropolitan area, in central Iowa. It offers courses sequenced to accommodate both part-time and full-time study. Students may complete the entire degree program at the Des Moines center, although they may travel to Iowa City for selected elective courses offered during the summer.

Quad Cities Center

The Quad Cities Graduate Study Center (QCGC) is located on the campus of Augustana College in Rock Island, Illinois, on the Iowa-Illinois border. The center offers a part-time program for a cohort admitted once every three years. Students in the Quad Cities part-time program can complete their degree entirely off-campus with the exception of some electives, which they can take during summer sessions in Iowa City or at other area colleges and universities. In addition to the part-time cohort students, there are some full- or part-time students from Iowa City in practicum in the Quad Cities.

Sioux City Center

The Tri-State Graduate Center is located in Sioux City, on Iowa’s western border. The Sioux City part-time program is nearly identical to the Quad Cities part-time program.

Joint M.S.W./Ph.D. in Social Work

The School of Social Work collaborates with the College of Law to offer the joint Juris Doctor/Master of Social Work. It also collaborates with the School of Urban and Regional Planning to offer the joint Master of Social Work/Master of Arts or Master of Science in urban and regional planning. Each program permits students to apply up to 12 s.h. of graduate credit toward both degrees, reducing the time required to graduate. Applicants must apply to each program separately and be admitted to each one before they may be admitted to the joint degree program. For information about the law and planning programs, see Juris Doctor (p. 880) (College of Law) and Urban and Regional Planning (p. 874) (Graduate College) in the Catalog.

Similar arrangements may be made with other departments. Academic units in which social work students have pursued joint degrees include the Tippie College of Business, the College of Education, the Department of American Studies, the Department of Religious Studies, and the School of Journalism and Mass Communication.

Social work students are encouraged to take courses in other departments whether or not they are pursuing joint degrees.

M.S.W. Professional Association

Graduates of accredited M.S.W. programs may be eligible for associate membership in the American Association for Marriage and Family Therapy (AAMFT) upon fulfilling certain curriculum requirements at the graduate level. Courses are not automatically accepted; graduates need to demonstrate that specific courses meet the AAMFT’s requirements, usually by sending course outlines.

Doctor of Philosophy

The Doctor of Philosophy program in social work requires a minimum of 86 s.h. of graduate credit. The program prepares students to conduct research that contributes to the knowledge base of social work, to become leaders in the profession, and to teach social work in postsecondary educational institutions.

Doctoral students develop close working relationships with faculty members who have achieved national recognition in areas such as child welfare, diversity and cultural competence, gerontology, social policy, and mental health.

The Ph.D. offers students a coherent program of study with opportunities to pursue their own scholarly interests. Requirements include course work, research and teaching practicums, and dissertation work. Students take courses in one of three outside disciplines: sociology, psychology, or public health. This course work prepares them for the comprehensive examination and dissertation defense.

Students who enter the program with an M.S.W. are granted credit for 30 s.h. and must complete an additional
The school makes special efforts to recruit students from underrepresented minorities, especially Iowa residents. The program accepts four or five students each year.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

Applicants must have taken the Graduate Record Exam (GRE) General Test and should have their scores sent to The University of Iowa. A score of at least 575 on both the verbal and quantitative sections, or a composite score of 1150, is preferred for individuals who took the exam before August 1, 2011. A score of at least 158 on the verbal section and at least 147 on the quantitative section, or a composite score of at least 305, is preferred for those who took the test on or after August 1, 2011. The School of Social Work has not established a minimum analytic writing score.

Applicants also must submit a completed Graduate College application form; undergraduate transcript (an undergraduate g.p.a. of at least 3.00 and an introductory statistics course are required); graduate transcript; a personal statement of professional goals, including area of interest and reason for pursuing the Ph.D. (two to three pages); a résumé; a sample of scholarly writing (scholarly publication or research or theoretical paper); and three letters of recommendation (two must be academic references).

Applicants whose first language is not English must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants must submit the application form, fee, and other materials to the University’s Office of Admissions. An application packet and list of guidelines are available from the admissions office and on the School of Social Work web site. The application is due February 1 for the following academic year.

Financial Support

Doctoral students are typically awarded two or three years of financial support from the School of Social Work, including research or teaching assistantships and fellowships. Students whose first language is not English must take the English Speaking Proficiency Assessment (ESPA) test in order to be considered for teaching assistantships. Assistants who hold appointments of one-quarter-time or more are assessed Iowa resident tuition, for which they receive a scholarship, and their computer fees and health insurance premiums are waived for each semester they hold an appointment during the academic year. For more information, see Cost of Attendance on the Office of Student Financial Aid web site.

Certificate in Aging Studies

The School of Social Work administers the Aging Studies Program, which offers a certificate for undergraduate and graduate students and a minor for undergraduates; see Aging Studies (p. 34) in the Catalog.

Projects, Seminars

Students may become involved in special projects such as the National Resource Center for Family-Centered Practice
and the School of Social Work’s programs in gerontology and in end-of-life care.

The school also offers students the opportunity to participate in travel/study seminars. Urban, rural, national, and international seminars are available.

Continuing Education

Nondegree students may enroll for selected courses and workshops through Saturday & Evening Classes in Iowa City and the School of Social Work’s off-campus programs. There are limits on the amount of graduate course work that may be applied to the master’s requirements for students who later enroll in the program.

Courses

**Primarily for Undergraduates**

</table>
042:112 (SSW:3712) Human Sexuality, Diversity, and Society 1-3 s.h.
Physiological, psychological aspects; parameters defined by students, instructor. Same as 096:112 (NURS:3712).

042:120 (SSW:3720) Service Learning and Social Welfare 1-3 s.h.
Experiential learning in areas such as social justice, child welfare, community organizing; early intervention.

042:129 (SSW:3729) Substance Use and Abuse 3 s.h.
Chemical dependency for helping professions; etiological, physiological, psychological, legal, sociological aspects; treatment methods. Requirements: junior or higher standing.

042:130 (SSW:4130) Family Development Specialist Model 3 s.h.
Use of family development specialist model of family-centered practice to facilitate improved family functioning, economic independence; relationship building, systems theory, family-centered case management, conflict management, empowerment strategies. Requirements: completion of family development specialist certification course.

042:135 (SSW:3135) Global Aging 3 s.h.
Demographic factors that contribute to the world wide phenomenon of population aging in context of WHO Active Aging and the United Nation’s Principles for Older Persons frameworks. Same as 153:135 (ASP:3135), 152:153 (GHS:3050).

042:140 (SSW:3840) Human Behavior in the Social Environment 3-4 s.h.
Behavior and development in context of social, ecological systems and human diversity; overview of biopsychosocial dimensions, individual behavior and development throughout lifespan; contexts of diverse family, group, community, organization, and cultural systems.

042:143 (SSW:4843) Social Welfare Policy and Practice 3 s.h.
Basic social welfare policies and programs; economic, social, ideological, and political conditions that have influenced formation and implementation of social policy; current structure of major social welfare policies.

042:147 (SSW:3847) Discrimination, Oppression, and Diversity 3 s.h.
Theoretical and historical perspectives on racism, sexism, other forms of discrimination; applications to social work, culturally competent practice, change strategies. Requirements: admission to social work B.A. or M.S.W. program.

042:180 (SSW:4100) Social Work in the Criminal Justice System 3 s.h.
How social work practice intersects with different aspects of the criminal justice system; focus on integrating social work values into criminal justice field; social work’s responsibility to address social justice problems (e.g., mental illness, racial disparity, gender, human rights) within criminal justice system; critical examination of past and present practices in criminal justice and implications for social work practice and policy when working with individuals in criminal justice system.

042:185 (SSW:3785) Social Policy and the Elderly 3 s.h.
Public social policies, their affect on well-being of elderly, including women and minorities; U.S. and other nations’ policies. Prerequisites: 042:143 (SSW:4843). Requirements: an introductory course on aging, and junior or higher standing. Same as 153:185 (ASP:3785).

042:186 (SSW:3786) Death/Dying: Issues Across the Life Span 3 s.h.
Introduction to death and dying; historical, cultural, societal, personal perspectives. Requirements: admission to School of Social Work or Aging Studies Program. Same as 153:186 (ASP:3786).

042:190 (SSW:4190) Aging Studies Internship arr.
Opportunities for students in various disciplines to relate their areas of study to elderly and aging; interdisciplinary relationships, approaches to meeting needs of elderly. Same as 153:190 (ASP:4190).

042:194 (SSW:5194) Social Work Practice in Health Care Settings 2 s.h.
Introduction to organization, provision of social work services in health care settings; practice issues such as models of intervention, ethical questions, impact of cultural diversity on health care. Prerequisites: 042:141 (SSW:3841) or 042:150 (SSW:6150).

042:195 (SSW:3501) Introduction to Nursing Homes 3 s.h.
Overview of nursing home roles in context of long-term care system, characteristics of nursing home residents. Same as 153:195 (ASP:3501).

042:196 (SSW:3796) Family Violence 2-3 s.h.
Child abuse and neglect, domestic violence, elder abuse; causes, policy aspects, identification, reporting, treatment, prevention.

042:197 (SSW:3797) Child Welfare Policy and Practice 3 s.h.
Public and private child welfare practice and organizations in the United States; historical and legal aspects, co-occurring issues, foster care, adoption, family preservation.

Human behavior, practice, social welfare policy.

Primarily for Graduate Students

042:145 (SSW:6145) Organization and Community Practice 3 s.h.
Models that underlie theories of organization, community practice; principles of macro social work and skill development in relationship building, needs assessment, decision making, planning, implementing, ethics, program and self-evaluation. Requirements: admission to M.S.W. program.

042:146 (SSW:6146) Computer Laboratory 1 s.h.
Use of microcomputers in social work practice; user skill, software for a variety of applications in social service settings. Requirements: admission to M.S.W. program.

042:148 (SSW:6148) Social Work Research Methods 3 s.h.
Knowledge and skills for evaluating practice and carrying out social work research; formulation of research questions; research design and methodology; sampling techniques; protection of human subjects; descriptive statistics; computerized data analysis. Requirements: admission to M.S.W. program.
042:150 (SSW:6150) Social Work Practice with Individuals, Families, and Groups 3 s.h.
Models and underlying theories of empirically based direct social work practice; emphasis on an ecosystem strengths perspective; phases of helping relationship, strengths-based assessment, change process in interpersonal helping relationships. Prerequisites: 042:140 (SSW:3840). Requirements: admission to M.S.W. program; concurrent enrollment in 042:151 (SSW:6151), 042:290 (SSW:6290), and 042:291 (SSW:6291) for students who have completed 60 s.h.

042:151 (SSW:6151) Social Work Practice Skills Laboratory 1 s.h.
Interpersonal skills practice in the helping relationship; small-group format. Corequisites: 042:150 (SSW:6150), 042:290 (SSW:6290), and 042:291 (SSW:6291), if not taken as prerequisites. Requirements: admission to M.S.W. program.

042:153 (SSW:3753) Programs and Services for Aging Adults 3 s.h.
Major gerontological programs and services, practitioners’ need for basic aging-practice competence; aging network; income, employment, health maintenance programs; continuum of care (preventive and well-elderly services, in-home services, community-based services, institutional care); assessment; major elder health issues, informal care; end-of-life care. Same as 153:153 (ASP:3753).

042:200 (SSW:5200) Grief Work with Individuals and Families 2 s.h.
Complexity of grief and its multifaceted impact on family systems; utilizing grief theories, including Worden’s Tasks of Mourning, ambiguous loss theory, several family systems models; examination of multi-generational dynamics that affect how we learn to grieve, how we experience grief, and how we live after a loss; acknowledged and unacknowledged grief and loss; generational family dynamics; difficulties and strengths passed from one generation to the next; assessing grief at individual, family, group, and community levels; how loss can affect personal well-being and professional practice, particularly when working with an interdisciplinary team. Requirements: social work graduate standing.

042:204 (SSW:3904) Human Services Administration 2 s.h.
Effects of organizational structures/processes on individual performance; models of management, communication patterns, leadership styles; skill in technical writing, decision making, personnel and financial management, applied professional ethics. Requirements: completion of foundation courses.

042:211 (SSW:5211) Individual and Family Development: Life Span 3 s.h.
Infancy through senescence; families from their beginnings through their later years; theoretical, methodological issues. Same as 153:211 (ASP:5211).

042:216 (SSW:4216) Group Facilitation in Human Sexuality 0-3 s.h.
Principles of group dynamics, group process; leadership skills for small, task-oriented discussion groups on human sexuality. Prerequisites: 042:112 (SSW:3712). Same as 096:216 (NURS:4216).

042:219 (SSW:5219) Aging and the Family 2-3 s.h.
Research related to aging and the family; intergenerational relations, marital status in later life, diversity of older families, caregiving, elder abuse, policy issues. Same as 153:219 (ASP:5219).

042:220 (SSW:6220) Family Law 3 s.h.
Legal systems, rights, processes related to families; marriage, divorce, custody, protective services, reproductive rights, adoption, commitment, delinquency, education, poverty, discrimination; roles of lawyers, social workers in legal system. Prerequisites: 042:143 (SSW:4843).

042:224 (SSW:6224) Spirituality and Ethics in Social Work 2-3 s.h.
Knowledge, values, and skills that provide a framework for spiritually sensitive social work practice; preparation for responding competently and ethically to diverse spiritual perspectives, for recognizing and reflecting on one’s own spiritual beliefs, and for identifying appropriate ways to apply personal beliefs to practice with varied populations while safeguarding client autonomy and self-determination.

042:228 (SSW:6228) Theories of Personality and Psychopathology 2 s.h.
Theories and their relevance to social work practice with diverse populations. Prerequisites: 042:140 (SSW:3840). Requirements: social work graduate standing.

042:229 (SSW:6229) Working with Groups 2 s.h.
Theory and practice of group work, group process, leadership styles and skills; fundamental theory, skills necessary to form and facilitate a small group. Requirements: completion of foundation courses.

042:232 (SSW:6232) Therapy with Couples 2 s.h.
Married and other couples as social systems; theories of functional, dysfunctional systems; techniques of intervention. Requirements: completion of foundation courses.

042:233 (SSW:6233) School Social Work Practice 2 s.h.
School as a social institution; activities of school social worker; theoretical, practice issues; current issues in field.

042:234 (SSW:6234) Social Work Practice and Use of the Diagnostic and Statistical Manual of Mental Disorders 3 s.h.
Major categories of psychopathology, DSM-IV system of classification; individual behavior and presentation of symptoms considered through DSM-IV multiaxial approach to diagnosis; effects of culture, developmental stage, and gender on presentation of mental disorders.

042:236 (SSW:6236) Interventions with Individuals 2 s.h.
Comparison of two or more intervention theories and approaches used in social work practice with individuals; attention to diverse populations and across life span. Requirements: completion of foundation courses.

042:237 (SSW:6237) Social Work Practice with Children, Youth, and Families 2 s.h.
Preparation for practice in child welfare, family service agencies; family life cycle, child development, child maltreatment, problems of adolescence, social services for families and children, legal issues. Requirements: completion of foundation courses.

042:238 (SSW:6238) Introduction to Play Therapy 2 s.h.
Major theories and techniques of play therapy, relevance to social work practice. Prerequisites: 042:150 (SSW:6150).
042:247 (SSW:6247) Nonprofit Organizational Effectiveness I 3 s.h.

042:248 (SSW:6248) Nonprofit Organizational Effectiveness II 3 s.h.

042:250 (SSW:7250) Family-Centered Theory and Practice I 3 s.h.
Theoretical bases for family-centered practice; comparison and analysis; skill development in analyzing problem situations, implementing change strategies. Requirements: completion of M.S.W. foundation courses.

042:251 (SSW:7251) Family-Centered Theory and Practice II 3 s.h.
Techniques for assessment, intervention in family-centered practice; evaluation of practice; theoretical and clinical bases for intervention. Prerequisites: 042:250 (SSW:7250).

042:252 (SSW:7252) Advanced Social Policy for Family Practice 3 s.h.
Systematic basis for examining social, economic, and political factors that influence formation of social policies; social policy implementation, impact of social policies on vulnerable populations, service providers, communities. Requirements: completion of M.S.W. foundation courses.

042:254 (SSW:5254) Introductory Seminar: End-Of-Life Services in Rural Communities 2-3 s.h.
Basic principles of hospice and palliative care, rural service delivery, community assessment.

042:255 (SSW:7255) Integrative Seminar in End-Of-Life Care 1 s.h.
Integration of students’ knowledge, and values, and skills for practice in end-of-life care and bereavement; application to case studies and advanced practicum setting. Corequisites: 042:292 (SSW:7292) or 042:295 (SSW:7295). Requirements: admission to end-of-life care area.

042:260 (SSW:7260) Integrated Social Work Theory and Practice I 3 s.h.
Theories, skill development, evaluation, ethical issues in integrated social work practice; intermediate group work for culturally competent intervention; small task groups. Requirements: completion of foundation courses.

042:261 (SSW:7261) Integrated Social Work Theory and Practice II 3 s.h.
Continuation of 042:260 (SSW:7260); theories, skills evaluation, ethical issues; advanced group work for culturally competent intervention; case management, program development, funding evaluation, large task groups. Prerequisites: 042:260 (SSW:7260).

042:262 (SSW:7262) Advanced Social Policy for Integrated Practice 3 s.h.
Systematic basis for critical examination of social, economic, and political factors that influence formation of social policies; social policy implementation, impact of social policies on vulnerable populations, service providers, communities. Requirements: completion of M.S.W. foundation courses.

042:268 (SSW:7268) Continuing Education: 2-3 s.h.
Individual Study
Project related to student interest; directed by faculty member. Requirements: completion of course contract.

042:269 (SSW:7269) Continuing Education: Thesis 2-3 s.h.
Thesis research project.

042:270 (SSW:7270) Advanced Research 2-3 s.h.
Research project relevant to social work practice that builds on knowledge and skills developed in 042:148 (SSW:6148); data analysis, report of results; ethical principles applied to research. Prerequisites: 042:148 (SSW:6148). Requirements: admission to M.S.W. program.

042:271 (SSW:7271) Individual Study 2-3 s.h.
Project related to student interest; directed by faculty member.

042:272 (SSW:7272) Thesis 2-3 s.h.

042:281 (SSW:6281) Social Work Practice: Selected Aspects 2-3 s.h.
Topics not covered in another course; diversity, social justice and ethics issues related to a social work practice area.

042:282 (SSW:6282) Grant Writing 1-2 s.h.
Same as 102:282 (URP:6282).

042:285 (SSW:3585) Travel/Study Seminar 1 s.h.
Opportunity for cross-cultural learning through U.S. or international travel; focus on social welfare issues. Prerequisites: 042:143 (SSW:4843).

042:290 (SSW:6290) Foundation Practicum in Social Work 3 s.h.
Generalist practice experience with individuals, families, small groups, organizations, communities; communication skills, change process, professional values and ethics applied at multiple system levels; students evaluate their own practice using a learning contract in an agency setting. Corequisites: 042:140 (SSW:3840), 042:143 (SSW:4843), 042:145 (SSW:6145), 042:146 (SSW:6146), 042:147 (SSW:3847), 042:150 (SSW:6150), 042:151 (SSW:6151), and 042:291 (SSW:6291); if not taken as prerequisites. Requirements: admission to M.S.W. program.

042:291 (SSW:6291) Foundation Practicum Seminar 1 s.h.
Integration of academic, experiential learning; self-assessment, peer feedback to promote model of professional accountability. Corequisites: 042:140 (SSW:3840), 042:143 (SSW:4843), 042:145 (SSW:6145), 042:146 (SSW:6146), 042:147 (SSW:3847), 042:150 (SSW:6150), 042:151 (SSW:6151), and 042:291 (SSW:6291); if not taken as prerequisites. Requirements: admission to M.S.W. program.

042:292 (SSW:7292) Advanced Practicum in Family-Centered Practice I and II 3 s.h.
042:293 (SSW:7293) Advanced Practicum Seminar in Family-Centered Practice I

042:294 (SSW:7294) Advanced Practicum Seminar in Family-Centered Practice II

042:295 (SSW:7295) Advanced Practicum in Integrated Practice
Integrated social work theories and interventions implemented in work with individuals, families, organizations, formal and informal networks; two semester field course. Corequisites: (fall) 042:297 (SSW:7297) or 042:298 (SSW:7298), 042:260 (SSW:7260), 042:261 (SSW:7261), 042:262 (SSW:7262), and 042:270 (SSW:7270); if not taken as prerequisites. Requirements: completion of M.S.W. foundation courses.

042:296 (SSW:7296) Advanced Practicum in School Social Work
Field course; social work theories and interventions implemented in schools. Corequisites: 042:250 (SSW:7250) or 042:260 (SSW:7260), 042:251 (SSW:7251) or 042:261 (SSW:7261), and 042:252 (SSW:7252) or 042:262 (SSW:7262); if not taken as prerequisites. Requirements: completion of M.S.W. foundation courses.

042:297 (SSW:7297) Advanced Practicum Seminar in Integrated Practice I
Two-semester course; social work knowledge, skills, values, and professional identity integrated in context of advanced practice and direct multisystemic interventions. Corequisites: 042:295 (SSW:7295) or 042:296 (SSW:7296).

042:298 (SSW:7298) Advanced Practicum Seminar in Integrated Practice II

042:300 (SSW:7800) Social Work Proseminar
Faculty research related to families, children, and elderly theory, research designs, methodologies, findings, dissemination. Requirements: admission to Ph.D. program.

042:301 (SSW:7801) Knowledge Building in Social Work Practice
Epistemology of social work practice theories, importance for knowledge building; practice theories of personal and interpersonal change, family life cycle development, empowerment. Requirements: admission to Ph.D. program.

042:302 (SSW:7802) Social Policy and Poverty in the U.S.
Causes of poverty in the U.S., public policies for low-income families; arguments and evidence offered for and against a particular explanation for poverty in the U.S. or approach to anti-poverty policy; how authors construct their arguments, underlying theory, evidence the authors bring to bear, ways they explore consequences of policy proposals; role of social science theory in advancing knowledge in social policy and research interests. Recommendations: admission to a doctoral program.
Requirements for the major are similar for the Bachelor of Arts and the Bachelor of Science, except B.A. students take 3-4 s.h. of introductory math or statistics and three theory and methods courses, while B.S. students take 8 s.h. of introductory calculus and five theory and methods courses. Remaining requirements (electives, the capstone course, and the graduation portfolio) are identical for B.A. and B.S. students.

Several courses required for the major have specific prerequisites, and in some cases, students must earn a minimum grade in a prerequisite course. In planning to complete the major, students must be careful to take courses in the proper sequence.

The following sociology courses do not count toward the major:

- 034:029 (SOC:1000) First-Year Seminar
- 034:197 (SOC:4930) Teaching Internship
- 034:198 (SOC:4990) Directed Individual Study

In addition to specific courses required for the degree, students are advised to take 6 s.h. of course work in at least one of these departments: anthropology, economics, geography, political science, or psychology. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Transfer students majoring in sociology must meet the same requirements as other sociology students. They must take at least 12 s.h. in sociology at The University of Iowa and must have transfer course work approved for credit toward the major, by a sociology advisor.

The introductory sociology course and math or statistics (B.A.) or calculus (B.S.) should be taken early. They lay the foundation for all other work in the major and are prerequisites for the required theory and methods courses.

INTRODUCTORY SOCIOLOGY

All students take this:

034:001 (SOC:1010) Introduction to Sociology Principles 3-4 s.h.

INTRODUCTORY MATH OR STATISTICS (BACHELOR OF ARTS)

B.A. students complete one of these:

- 22M:009 (MATH:1020) Elementary Functions (or a higher-level math course) 4 s.h.
- 22S:008 (STAT:1030) Statistics for Business 4 s.h.
- 22S:025 (STAT:1020) Elementary Statistics and Inference 3 s.h.
- 22S:101 (STAT:3510) Biostatistics 3 s.h.
- 22S:102 (STAT:5543) Introduction to Statistical Methods 3 s.h.
- 07P:025 (PSQF:1020) Elementary Statistics and Inference 3 s.h.
- 07P:143 (PSQF:5143) Introduction to Statistical Methods 3 s.h.

INTRODUCTORY CALCULUS (BACHELOR OF SCIENCE)

B.S. students complete one of these sequences:

THEORY AND METHODS (BACHELOR OF ARTS)

The following three theory and methods courses are required for the B.A. and should be completed as early as possible. Students must earn a grade of C or higher in each course in order to complete the major.

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in sociology requires a minimum of 120 s.h., including at least 33 s.h. of work for the major. The Bachelor of Science with a major in sociology requires a minimum of 120 s.h., including at least 45 s.h. of work for the major, with a minimum of 30 s.h. in sociology.

The major offers an optional track for both B.A. and B.S. students with a particular interest in crime and related issues; see “Criminology Track” below.
034:009 (SOC:2130) Sociological Theory  3 s.h.
034:010 (SOC:2160) Quantitative Data Analysis  3 s.h.
034:011 (SOC:2170) Research Methods  3 s.h.

THEORY AND METHODS (BACHELOR OF SCIENCE)
The following five theory and methods courses are required for the B.S. and should be completed as early as possible. Students must earn a grade of C or higher in 034:009 (SOC:2130), 034:010 (SOC:2160), and 034:011 (SOC:2170) in order to complete the major.

034:009 (SOC:2130) Sociological Theory  3 s.h.
034:010 (SOC:2160) Quantitative Data Analysis  3 s.h.
034:011 (SOC:2170) Research Methods  3 s.h.
225:120 (STAT:3120) Probability and Statistics  4 s.h.

One of these:
026:103 (PHIL:2603) Introduction to Symbolic Logic  3 s.h.
026:104 (PHIL:3604) Introduction to Philosophy of Science  3 s.h.

ELECTIVES
B.A. and B.S. students complete 15 s.h. of elective course work in sociology, chosen from all courses offered by the department, except 034:029 (SOC:1000) First-Year Seminar, 034:197 (SOC:4930) Teaching Internship, and 034:198 (SOC:4990) Directed Individual Study, which do not count toward the major. Two of the required electives must be taken after the student completes 034:009 (SOC:2130) Sociological Theory, 034:010 (SOC:2160) Quantitative Data Analysis, and 034:011 (SOC:2170) Research Methods.

CAPSTONE COURSE
All students complete the capstone course, which illustrates their accomplishments; it is usually taken during the student's last semester of course work for the major and includes assembling a portfolio. In order to enroll in the capstone course, students must earn a grade of C or higher in 034:009 (SOC:2130) Sociological Theory, 034:010 (SOC:2160) Quantitative Data Analysis, and 034:011 (SOC:2170) Research Methods.

034:195 (SOC:4910) Capstone Course in Sociology  3 s.h.

GRADUATION PORTFOLIO
During their last semester, students enroll in 034:194 (SOC:4909) Graduation Portfolio (0 s.h.), in which they submit the portfolio they assembled in the capstone course.

Criminology Track
The criminology track requires a minimum of 15 s.h. It is open to sociology majors who are interested in understanding the nature of crime and who want to pursue careers in criminological research, policing, probation, parole, or the law. The track teaches students about various data sources used to study the causes of crime, the dominant sociological explanations for crime and crime control, and how law as an institution affects and is affected by other institutions. It includes courses on topics such as the criminal legal system, gender and violence, and global criminology.

Criminology track students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major. Although 034:148 (SOC:4400) Internship in Criminal Justice and

Corrections is not required for the track, students are encouraged to complete it, but they may count it only once toward track requirements.

Criminology track students earn a minimum of 15 s.h. in courses chosen from the following.

034:040 (SOC:3410) Criminology  3 s.h.
034:045 (SOC:3415) Global Criminology  3 s.h.
034:128 (SOC:3220) Sociology of Mental Illness  3 s.h.
034:141 (SOC:3420) Juvenile Delinquency  3 s.h.
034:143 (SOC:4461) Gender and Violence  3 s.h.
034:146 (SOC:3425) Deviance and Control  3 s.h.
034:148 (SOC:4400) Internship in Criminal Justice and Corrections (counts once towards track requirement)  1-5 s.h.
034:149 (SOC:4420) Sociology of Criminal Punishment  3 s.h.
034:182 (SOC:4460) Sociology of Law  3 s.h.
034:184 (SOC:4450) Juvenile Justice: A Socio-legal Perspective  3-4 s.h.
034:186 (SOC:3450) Criminal Legal System  3 s.h.

B.A. or B.S. with Teacher Licensure
Sociology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Note: Sequencing of course work is important in meeting the four-year plan.

Bachelor of Arts

Before the third semester begins: at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: 034:001 (SOC:1010) Introduction to Sociology Principles or equivalent, one sociology elective, and at least half of the semester hours required for graduation

Before the seventh semester begins: the introductory math or statistics course, two of the three theory and methods courses, one more sociology elective, and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: the remaining theory and methods course and one more sociology elective

During the eighth semester: enrollment in all remaining course work in the major, including the
capstone course and the last two sociology electives; all remaining General Education courses; and a sufficient number of semester hours required for graduation

**Bachelor of Science**

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** 034:001 (SOC:1010) Introduction to Sociology Principles or equivalent, 034:009 (SOC:2130) Sociological Theory, one sociology elective, and at least half of the semester hours required for graduation

**Before the seventh semester begins:** 034:010 (SOC:2160) Quantitative Data Analysis, 034:011 (SOC:2170) Research Methods, calculus I-II, one more sociology elective, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** 22S:120 (STAT:3120) Probability and Statistics and one more sociology elective

**During the eighth semester:** enrollment in all remaining course work in the major, including the capstone course and the last two sociology electives; all remaining General Education courses; and a sufficient number of semester hours required for graduation

**Honors**

Undergraduate sociology students who perform at a high level may work toward graduation with honors in the major. Honors students in sociology must be members of the University of Iowa Honors Program, which requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). They also must maintain a g.p.a. of at least 3.33 in work for the major.

To graduate with honors in sociology, students complete the following courses.

034:100 (SOC:4997) Honors Seminar (taken spring of junior year) 2 s.h.

At least one advanced sociology course numbered 100 or above or a graduate course (must have course instructor’s consent for honors designation)

The honors thesis is conducted under faculty supervision; it gives students an opportunity to conduct sociological research in close consultation with a faculty member of the student’s choice.

**Minor**

The minor in sociology requires a minimum of 15 s.h. in sociology courses, including 12 s.h. in courses taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. The minor must include 034:009 (SOC:2130) Sociological Theory.

A minor in sociology is a good complement to a number of majors, particularly other social sciences, business, elementary education, or nursing.

**National Honor Society**

The department sponsors a chapter of Alpha Kappa Delta International Sociology Honor Society. Students who have a cumulative and sociology g.p.a. of 3.00 or higher and have attained junior or higher standing are considered for membership. Consult the Alpha Kappa Delta faculty advisor for details.

**Graduate Programs**

- Master of Arts in sociology (with or without thesis)
- Doctor of Philosophy in sociology

Graduate study in sociology focuses on the Doctor of Philosophy. Students are awarded the M.A. as they fulfill requirements for the Ph.D.

The Doctor of Philosophy emphasizes research and aims primarily to prepare sociologists for academic positions in colleges and universities or for research positions in academic, private, and government institutions. Opportunities for research using survey, experimental, and observational methods are readily available in the department.

**Master of Arts**

The Master of Arts program in sociology requires 30 s.h. of graduate credit with thesis or research paper, and 38 s.h. of graduate credit without. The program without thesis is intended for students seeking a terminal degree and for whom a wider range of course content in sociology is appropriate.

All M.A. students must complete the following with grades of B-minus or higher.

- 034:201 (SOC:5110) History of Sociological Theory 3 s.h.
- 034:214 (SOC:6170) Introduction to Sociological Data Analysis 3 s.h.
- 034:215 (SOC:5160) Sampling, Measurement, and Observation Techniques 3 s.h.
- 034:216 (SOC:6180) Linear Models in Sociological Research 3 s.h.

**Doctor of Philosophy**

The Doctor of Philosophy program in sociology requires a minimum of 72 s.h. of graduate credit. In addition to 034:214 (SOC:6170) Introduction to Sociological Data Analysis and 034:216 (SOC:6180) Linear Models in Sociological Research, which are required for the M.A., students must complete two 200-level elective courses in methods/statistics, and an advanced theory course, such as 034:202 (SOC:6110) Theory Construction and Analysis. Most courses for the Ph.D. are taken in the student’s two areas of interest. Candidates also must pass two area examinations, write and defend a dissertation prospectus, and write and successfully defend a dissertation.

Doctoral students take two area exams—one from list A, the other from list A or B. List A has five standing committees: crime, law, and deviance; family; political sociology; social psychology; and stratification. For the list B exam, a student may propose any area that is not covered under List A and for which there is adequate faculty support.

For a detailed statement of graduate study regulations, contact the Department of Sociology. Prospective doctoral students should examine this document carefully.
Joint Ph.D./J.D.

The Department of Sociology and the College of Law offer the joint Juris Doctor/Doctor of Philosophy. The program is highly individualized, allowing students to explore varied aspects of the relationship between law and society. Joint Ph.D./J.D. students may count up to 12 s.h. of graduate credit toward both degrees, with approval from the Department of Sociology and the College of Law.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the J.D., see the College of Law (p. 880) section of the Catalog.

Teaching Assistantship Training

All new graduate students are expected to attend a three-day orientation for teaching assistants before classes begin. In addition, 034:382 (SOC:7010) Teaching Sociology is required for students who wish to teach their own courses.

Admission

Admission to graduate study in sociology usually requires an undergraduate g.p.a. of at least 3.25 and a score of 1100 or higher (quantitative and verbal) on the Graduate Record Examination (GRE) General Test. Students whose first language is not English should submit scores on the Test of English as a Foreign Language (TOEFL).

Applicants must meet the admission requirements of the Graduate College; see Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Applicants also must complete the sociology department application and use the department’s personal reference forms to obtain three letters of recommendation; forms may be printed from the Department of Sociology web page.

All application materials for fall admission must be received by January 1. The deadline for applying for departmental financial support is January 1. Evaluation of applications begins in early January.

Admission decisions are based on consideration of prior academic performance, personal reference letters, scores on the GRE General Test, and the applicant’s statement of reasons for pursuing advanced work in sociology at The University of Iowa. The department has no specific undergraduate course requirements for admission, but a background in the social sciences with some mathematical training is useful. A foreign language is not required for admission, and there is no foreign language requirement for a graduate degree in sociology. To inquire about admission, consult the chair of the admissions committee, Department of Sociology.

Financial Support

The Department of Sociology offers teaching assistantships and research assistantships for graduate students. Students who receive one-half-time teaching or research assistantships work 20 hours each week for faculty members on either teaching or research assignments. Out-of-state students who hold assistantships are assessed tuition at the resident rate. Graduate students also may be eligible for fellowships offered by the Graduate College.

Research Centers and Facilities

Center for Asian and Pacific Studies

The Center for Asian and Pacific Studies provides excellent opportunities for studying Asia from a social science perspective. It supports related Asia studies and offers a monthly seminar that features lively discussions by scholars from many different disciplines.

Center for Criminology and Sociolegal Studies

The Center for Criminology and Sociolegal Studies is an interdisciplinary research and teaching program for the study of crime, law, deviance, social control, and mental health. It sponsors a colloquium series in crime, law, and social control, in which affiliates, graduate students, and outside speakers present their ongoing research, and a working-paper series in which members disseminate research papers to the academic community. The center also provides research support and a research infrastructure for faculty and graduate students and offers graduate research assistantships for interested students. Internship in Criminal Justice and Corrections [034:148 (SOC:4400)] is administered through the center.

Center for the Study of Group Processes

The Center for the Study of Group Processes has an 18-room small-group laboratory with eight computer-controlled subject rooms that provide audiovisual and psychophysiological recording capabilities, two large-group rooms with an adjoining observation room, an audiovisual control room, a sociophysiological instrumentation lab, a virtual social environment lab, and other flexible research office spaces.

Institute for Inequality Studies

The Institute for Inequality Studies (IIS) promotes research on the causes and consequences of social inequality’s many forms—class, gender, race, ethnicity, age, sexual orientation, religion, and disability. The institute’s mission is to stimulate interdisciplinary exchange; encourage scholarly engagement in research through seminars highlighting current policy-relevant research and methodology; train the next generation of demography and inequality scholars; provide technical and administrative support to researchers working with survey and population data; and facilitate development of collaborative proposals for external funding. IIS also promotes the visibility of social inequality scholarship by sponsoring symposia on inequality research issues that attract community interest.

Courses

For Undergraduates

Students majoring in sociology must complete 034:009 (SOC:2130) Sociological Theory, 034:010 (SOC:2160) Quantitative Data Analysis, and 034:011 (SOC:2170) Research Methods with a grade of C or higher in each course; they do not have to take the three courses in numerical order.

**034:001 (SOC:1010) Introduction to Sociology Principles**
How individuals are organized into social groups, ranging from intimate groups to bureaucracies, and how these influence individual behavior; nature and interrelationships of basic social institutions, such as family, education, religion, economy. GE: Social Sciences.

**034:002 (SOC:1020) Social Problems**
Emergence and distribution of selected social problems; alternative solutions; may include population, inequality, female-male relationships, racism, crime. GE: Social Sciences.

**034:009 (SOC:2130) Sociological Theory**
Theoretical perspectives in sociology; construction, evaluation of sociological explanations. Prerequisites: 034:001 (SOC:1010).

**034:010 (SOC:2160) Quantitative Data Analysis**
Applied statistics for sociology majors: frequency distributions, graphic presentation, measures of central tendency, measures of variability, elementary probability, populations and samples, sampling distributions, estimation and confidence intervals, hypothesis testing, chi-square test, regression and correlation, analysis of variance; computer software used in data analysis; emphasis on appropriate use and interpretation of statistics in the study of sociological topics. Prerequisites: 034:001 (SOC:1010). Requirements: sociology major, and 22M:009 (MATH:1020) or a higher-level math course.

**034:011 (SOC:2170) Research Methods**
Basic scientific concepts; emphasis on theoretical thinking, statement of researchable propositions, logic and meaning of proof operant in the research process; general issues in designing social research, including problems of sampling and measurement, analysis, presenting research data, interpreting research findings. Prerequisites: 034:001 (SOC:1010). Requirements: sociology major, and 22M:009 (MATH:1020) or a higher-level math course.

**034:029 (SOC:1000) First-Year Seminar**
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**034:100 (SOC:4997) Honors Seminar**
Topic development for senior honors projects. Offered spring semesters. Requirements: sociology honors standing.

**034:190 (SOC:4900) Selected Topics in Sociology**
Topics vary.

**034:194 (SOC:4909) Graduation Portfolio**

**034:195 (SOC:4910) Capstone Course in Sociology**
Senior project illustrating student’s accomplishments during his or her undergraduate career; prepared in collaboration with sociology faculty member or other experts in the student’s area of sociological interest; record for student’s own reflection, information for potential employers and graduate programs. Requirements: grades of C or higher in 034:009 (SOC:2130), 034:010 (SOC:2160), and 034:011 (SOC:2170).

**034:196 (SOC:4920) Field Experience**
Supervised field experience in sociology; primarily for students participating in Washington Center internship. Requirements: sociology major and junior standing.

**034:197 (SOC:4930) Teaching Internship**
Experience providing supervised support for instructors teaching basic courses in sociology. Requirements: appointment as sociology undergraduate teaching aide.

**034:198 (SOC:4990) Directed Individual Study**
arr.

**034:199 (SOC:4998) Honors Research**
Research projects under faculty supervision.

### Advanced Courses

#### Theory and Methods

**034:200 (SOC:5000) Graduate Proseminar**
2 s.h.
General introduction to department and discipline for entering graduate students; departmental and graduate college requirements, program and career planning, interaction with faculty members, consideration of student interests and concerns. Two semesters beginning in fall. Requirements: sociology graduate standing.

**034:201 (SOC:5110) History of Sociological Theory**
3 s.h.
Ideas of major 19th- and 20th-century social thinkers (e.g., Marx, Weber, Durkheim, Simmel, Mead).

**034:202 (SOC:6110) Theory Construction and Analysis**
3 s.h.
Contemporary theoretical issues and nature of theory, theory’s place in research, strategies of theory construction. Requirements: sociology graduate standing.

**034:203 (SOC:6140) Seminar: Selected Topics in Sociological Theory**
3 s.h.
Logic of qualitative research; basic skills necessary for a qualitative research project. Requirements: sociology graduate standing.

**034:213 (SOC:6175) Qualitative Methods**
3 s.h.
Logic of qualitative research; basic skills necessary for a qualitative research project. Requirements: sociology graduate standing.

**034:214 (SOC:6170) Introduction to Sociological Data Analysis**
3 s.h.
Statistical measures for descriptive methods and association; logic of statistical inference, hypothesis testing; background essential to understanding linear models, models for categorical data analysis. Requirements: introductory statistics or graduate standing.

**034:215 (SOC:5160) Sampling, Measurement, and Observation Techniques**
3 s.h.
Research designs; sampling designs and techniques; questionnaire construction, interviewing techniques; participant and nonparticipant observation; coding and preparation of data for analysis; measurement techniques, reliability, and validity. Requirements: 034:214 (SOC:6170) or graduate standing.

**034:216 (SOC:6180) Linear Models in Sociological Research**
3 s.h.
Statistical techniques associated with general linear model; emphasis on multiple regression, its generalizations; corresponding computer programs. Requirements: 034:214 (SOC:6170) or graduate standing.
034:218 (SOC:7170) Advanced Statistical Modeling of Data
Models for analysis of categorical data, including loglinear, logit, related discrete data models. Requirements: advanced graduate standing.

034:219 (SOC:7180) Structural Equation Modeling
Overview of structural equation models (SEMs), also known as LISREL models, covariance structure models; specific types of SEMs, such as simultaneous equations and confirmatory factor analysis; intermediate topics.

Social Psychology

034:020 (SOC:3210) Principles of Social Psychology
Introduction to theory and research in small groups; interpersonal and intergroup processes. GE: Social Sciences.

034:122 (SOC:3225) Paranormal Society
Sociological perspectives to investigate paranormal beliefs; popular support of paranormal claims despite being rejected by the scientific community; examination of paranormal claims, validity and voracity of popular explanations through the application of scientific process; social psychological theories to understand and decipher society's historical and growing fascination with paranormal beliefs.

Techniques, proven by research, that enhance students' ability to know, work with, and lead people; recent research in social psychology, how it applies to practical leadership problems.

034:124 (SOC:4230) Sociology of Self-Improvement
Goal of individual self-improvement as a basic cultural component of society in the United States; where it shaped development of political, business, and educational and religious institutions; selected readings from self-improvement literature and lectures on research showing which self-improvement techniques can be effective and how much individual self-improvement is possible. Prerequisites: 034:001 (SOC:1010) or 034:020 (SOC:3210).

034:125 (SOC:4210) Small Group Analysis
Internal processes governing small groups (e.g., friendship groups, families, the president's cabinet, committees); how small groups relate to the larger social environment; groups' impact on their members. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:3210).

034:128 (SOC:3220) Sociology of Mental Illness
The socially constructed nature of mental illness; theoretical perspectives and research on social antecedents and social consequences of mental health. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020) or 034:020 (SOC:3210).

034:220 (SOC:6210) Contemporary Approaches to Social Psychology
Review and critical analysis of current theoretical approaches and systems of social psychological analysis. Recommendations: sociology graduate standing.

034:221 (SOC:6220) Seminar: Selected Topics in Social Psychology
Selected theoretical and methodological issues.

Deviance, Delinquency, Crime, Law

034:025 (SOC:2325) Gender, Race, and Criminal Justice
Ways that gender and race/ethnicity affect experiences with the criminal justice system in the United States; focus on role of social class and poverty; inequalities in police-citizen interactions, criminal justice processing, imprisonment, and other criminal justice supervision. Recommendations: some background in social science. Same as 131:025 (GWSS:2325).

034:040 (SOC:3410) Criminology
Nature and causes of crime; the criminal justice process, correctional treatment, crime prevention.

034:045 (SOC:3415) Global Criminology
Crime and the control of crime at the transnational and sub-national levels of analysis; focus on non-U.S. societies; consequences of economic, political, and cultural globalization.

034:141 (SOC:3420) Juvenile Delinquency
Delinquency as an individual and social problem; theories of the causes of juvenile delinquency; law enforcement and the juvenile court; methods of correction and prevention. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:143 (SOC:4461) Gender and Violence
Extent and nature of gendered violence, interpretation of patterns using feminist theory and perspectives on masculinities and heterosexism; examination of interpersonal violence, including criminal violence committed by women and men, violence against women and men (victimization), spousal/intimate partner abuse, youth gangs, bullying in schools, sexual violence, femicide, and genocide. Same as 131:161 (GWSS:4461).

034:146 (SOC:3425) Deviance and Control
Norm violation or deviant behavior; behaviors that, while deviant, do not violate legal norms, and ways of controlling these behaviors that do not involve the criminal justice system; ways of explaining deviance, consequences of deviant behavior for the deviant actor. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:148 (SOC:4400) Internship in Criminal Justice and Corrections
Supervised field work in a criminal justice or correctional agency. Prerequisites: 034:040 (SOC:3410) or 034:141 (SOC:3420). Requirements: sociology major, junior standing, and consent of director of the Center for Criminology and Socio-Legal Studies.

034:149 (SOC:4420) Sociology of Criminal Punishment
Sociological theories and research on criminal punishment; classical and contemporary theories; research on imprisonment and capital punishment.

034:182 (SOC:4460) Sociology of Law
Conceptual, historical, and theoretical issues of law and operation of the criminal justice system; theory and research on law and the criminal justice system. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:184 (SOC:4450) Juvenile Justice: A Socio-legal Perspective
Examination of social, historical and legal foundations of juvenile justice system in the United States; adjudication processes in juvenile justice, transfer of juveniles to criminal court, contemporary juvenile court, community-based corrections programs, legalities of juvenile system; current and future directions in juvenile justice. Prerequisites: 034:001 (SOC:1010).
034:186 (SOC:3450) Criminal Legal System 3 s.h.
Discretionary decision making in the U.S. criminal courts, from arrest through sentencing; legal and sociological issues relevant to each stage of felony adjudication; sociological and social-psychological theories of decision making in adjudication; empirical research testing these theories. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:188 (SOC:4465) Philanthropy and Philanthropic Organizations 3 s.h.
Overview of law applicable to the American philanthropic sector; recent and controversial issues in the interface between philanthropy and the law; comparative and international aspects of the regulation of philanthropy and the nonprofit sector. Same as 091:325 (LAW:9851).

034:240 (SOC:6410) Seminar: Criminological Theories 3 s.h.
Theories of crime causation and their relationships to the cultures in which they have functioned.

034:242 (SOC:7410) Communities and Crime 3 s.h.
Distribution of crime as rooted in community-level conditions such as concentrated affluence or poverty, racial residential segregation, unemployment, family disruption, and immigration. Requirements: sociology graduate standing.

034:282 (SOC:7460) Sociology of Law Seminar 3 s.h.
Relationship between law and society explored through writings and research of classical and contemporary sociologists and legal scholars. Requirements: sociology graduate standing.

Family, Lifestyle, Children, Aging

034:018 (SOC:1310) Gender and Society 3-4 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values, Society, and Diversity. Same as 131:018 (GWSS:1310).

034:061 (SOC:3710) The American Family 3 s.h.
Structure and process; change over the life cycle; interrelations with other institutions; historical changes; variations by social class and ethnic group. Prerequisites: 034:001 (SOC:1010). GE: Values, Society, and Diversity.

034:075 (SOC:2750) Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children, comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as 131:075 (GWSS:2750).

034:162 (SOC:4860) Work and Family Institutions 3 s.h.
Contemporary problems in the integration of work and family life; origins of work-family conflict in process of industrialization; effects of job-family conflicts on mothers, fathers, children; cross-cultural differences in dealing with work-family conflict. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020). Same as 131:160 (GWSS:4860).

034:266 (SOC:7710) Gender Inequalities 3 s.h.
Current sociological research on public policies that affect family life and well-being; divorce and child custody policies, teen pregnancy and abortion, family poverty, child care and work-family policies. Same as 131:266 (GWSS:7710).

Social Institutions, Social Change

034:022 (SOC:2222) Introduction to Social Work 4 s.h.
Social welfare as a social institution; settings, methodologies of social work, practice; profession of social work; historical development of American social welfare, social work; a minimum of 45 hours volunteer work. Requirements: sophomore or higher standing. Same as 042:022 (SSW:2222).

034:126 (SOC:4540) Social Movements in the U.S. 3 s.h.
Social unrest; crowd behavior; social movements treated as a form of social change. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:133 (SOC:5130) Sociology of Education 3 s.h.
Effects of school and school organization on educational outcomes; course-taking patterns and tracking, desegregation, differences in school sector; focus on entire span of student’s academic career; examination of school and organizational effects at the primary, secondary, and postsecondary levels of education. Same as 07B:130 (EPLS:5130).

034:153 (SOC:3525) Public Opinion 3 s.h.
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as 030:171 (POLI:3204).

034:280 (SOC:5680) Sociology of Higher Education 3 s.h.
Sociological approach to study of higher education; issues of inequality and stratification in higher education; focus on relationship between higher education and larger economic and demographic processes; college access, college destinations, attainment, and returns to a college degree. Same as 07B:142 (EPLS:5142).

034:285 (SOC:6610) Complex Organizations 3 s.h.

034:310 (SOC:5810) Education and Social Change 2-3 s.h.
Role of educational institutions, in connection with political and economic structures, in the process of social change; illumination of theories of social change through case studies of educational systems in both less-developed and industrialized nations. Same as 07B:210 (EPLS:5210).

Social Class, Inequality, Race, Organizations, Politics

034:066 (SOC:3810) Social Inequality 3 s.h.
Major theoretical perspectives for understanding inequality in economics, power, prestige; the magnitude of social inequality in the United States; sex and race inequality; trends in and causes of social mobility; selected consequences of social inequality. GE: Values, Society, and Diversity.

034:135 (SOC:4820) Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020). Same as 131:136 (GWSS:4820).

034:150 (SOC:3520) Political Sociology 3 s.h.
Sociological analysis of political behavior and belief, group conflict and political process, group consensus, political institutions, power and policy-making systems; relationship of the political system to the social system. Prerequisites: 034:001 (SOC:1010).
034:155 (SOC:3830) Race and Ethnicity 3 s.h.
Multidisciplinary study of intergroup relations, with emphasis on historical, sociological, and social psychological issues in the study of American minority groups. GE: Values, Society, and Diversity.

034:156 (SOC:4310) Gender Inequality 3 s.h.
Gender issues in major social institutions such as family, education, workplace, culture; marriage, family care, childhood gender socialization, occupational segregation, wage gap, household division of labor, and so forth. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:158 (SOC:3850) Economy and Society 3 s.h.
Economic debates that faced advanced market economies in the 20th century with extensions to the developing world; development and maintenance of investment elites and labor markets, development and extension of state activity.

034:164 (SOC:3610) Organizations and Modern Society 3 s.h.
Approaches to the sociological study of economic and noneconomic organizations; the role of power and authority within the organization, and between the organization and its environment. Prerequisites: 034:001 (SOC:1010) or 034:020 (SOC:3210).

034:170 (SOC:3880) Social Networks 3 s.h.
Introduction to the basic properties of network structure (e.g., density, mutuality, cliques); substantive insights regarding the role and consequences of networks in social life; the role of networks in job searching/hiring processes; how innovations diffuse through networks; and relationships as social resources. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:175 (SOC:3840) Community and Urban Sociology 3 s.h.
Impact of urbanization on social life, social networks; how social forces shape patterns of urban growth; racial segregation, gentrification; consequences of the growth of suburbs; urban crises, including concentrated poverty and crime. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:178 (SOC:3650) Education and Schooling: Sociological Approaches 3 s.h.
Overview of sociology of education; historical and current sociological perspectives on education; race, class, and gender inequality in schooling; higher education; contemporary debates in education (e.g., affirmative action, school choice); service-learning component. Prerequisites: 034:001 (SOC:1010) or 034:002 (SOC:1020).

034:253 (SOC:6810) Social Stratification 3 s.h.
Classical and contemporary theories; current research on the causes and magnitude of inequality in economics, power, and prestige; social mobility; critical issues in stratification.

034:254 (SOC:7820) Seminar: Selected Topics in Social Stratification 3 s.h.
Requirements: social science graduate standing.

034:257 (SOC:6850) Seminar: Sociology of Labor Markets 3 s.h.
Sociological and economic theories and research concerning area/regional/local labor markets; industrial sectors and the dual labor market, occupational/internal labor markets; other structural explanations of inequality.

034:258 (SOC:7860) Seminar: Economy and Society 3 s.h.
Relationships between social classes and nation-states in capitalist societies; historical experience of the United States; comparative perspective, especially regarding Western Europe.

034:259 (SOC:7620) Social Network Analysis 3 s.h.
Relational, data-oriented approach to representing linkages or relationships among social units, and to examine the relevance of these social structures in social processes. Requirements: basic multiple regression.

Teaching

034:382 (SOC:7010) Teaching Sociology 2-3 s.h.
Supervised preparation for teaching sociology courses; literature on teaching; course objectives, alternative teaching techniques; preparation of course syllabus, lectures, discussions, exams. Requirements: advanced sociology graduate standing.

Independent Reading and Research

034:381 (SOC:5010) Summer Research Practicum 2 s.h.
Students discuss their participation in ongoing research, review and critique each other’s projects, write research reports describing their work. Requirements: sociology graduate standing.

Spanish and Portuguese

Director, Division of World Languages, Literatures, and Cultures
Russell Ganim

Chair, Department of Spanish and Portuguese
Mercedes Niño-Murcia

Professors
Thomas E. Lewis, Adriana Mendoza-Rodenas, Mercedes Niño-Murcia

Associate professors
Maria Jose Barbosa, Maria A. Duarte, Denise K. Filios, Brian Gollnick, Paula M. Kempchinsky, Judith E. Liskin-Gasparro, Luis Martin-Estudillo, Ana Merino, Kathleen Newman (Spanish and Portuguese/Cinema and Comparative Literature), Diana Velez

Associate professor emeritus
Philip W. Klein

Adjunct associate professor
Sue E. Otto

Assistant professors
Roberto Ampuero, Amber Brian, Horacio Castellanos Moya, Ana Rodriguez, Santiago Vaquera-Vasquez, Sarah Ann Wells

Lecturers
Gay Allan, Carl Brown, Ozzie Diaz-Duque, Deanna Johnson, Maria Nilsson

Undergraduate majors: Spanish (B.A.); Portuguese (B.A.)
Undergraduate minors: Spanish; Portuguese
Graduate degrees: M.A. in Spanish; Ph.D. in Spanish
Web site: http://clas.uiowa.edu/dwllc/spanish-portuguese

The Department of Spanish and Portuguese provides course work for undergraduate and graduate majors in Spanish or Portuguese and for students in other disciplines. It offers a wide selection of courses in Spanish and Portuguese, languages that are spoken in many cultures around the world and are important in the study of literature, art, film, and many other areas. Spanish and Portuguese language courses are open to any student who has satisfied the course prerequisites.

In addition to language courses, the department offers general interest courses on literature, film, and culture that are taught in English. It also participates in several study abroad programs.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program (p. 276) with courses in Spanish or Portuguese; see "Language for General Education" below. The department offers other courses that are approved for General Education and are taught in English, and entering undergraduates may take its First-Year Seminar.

The Department of Spanish and Portuguese is one of the academic units in the Division of World Languages, Literatures, and Cultures (p. 211).

Undergraduate Programs

- Major in Spanish (Bachelor of Arts)
- Major in Portuguese (Bachelor of Arts)
- Minor in Spanish
- Minor in Portuguese

Elementary and intermediate courses in Spanish language interrelate five performance goals—listening, reading, speaking, writing, and cultural knowledge—in a staged progression whose overall goal is to develop proficiency. The curriculum emphasizes acquisition of Spanish language skills in communicative contexts, enrichment of vocabulary through an introduction to Hispanic culture, and development of grammatical accuracy in speaking and writing.

The beginning course in Portuguese is for students without previous study or experience with the language. There also is a special Portuguese course for students who already know Spanish. Portuguese classes provide a great deal of individual attention in an informal language-learning environment. Courses emphasize speaking, comprehending, reading, and writing Brazilian Portuguese. They incorporate cultural material in the form of videos and music.

Bachelor of Arts: Spanish

The Bachelor of Arts with a major in Spanish requires a minimum of 120 s.h., including 36 s.h. of work for the major. The program is built on course work in Spanish peninsular and Spanish American literature, Hispanic cultures, Hispanic linguistics, and advanced language skills. The goal of the major is twofold: to study content areas related to the Spanish language, such as literature, culture, and linguistics; and to develop proficiency in the Spanish language in all four skills: speaking, listening, reading, and writing.

Students who major in Spanish may go on to graduate study in areas such as Spanish and Spanish American literature, Hispanic linguistics, or comparative literature. They also may combine their Spanish studies with other areas to prepare for career opportunities in international business, government, travel, journalism, or communications, where knowledge of another language and other cultures is essential.

Course work for the major includes a core of one course from each of the four principal academic areas of the department (see "Required Core" below) and eight electives, which may focus on one or more of the four principal areas or may include a broad range of courses (see "Electives" below). Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

All courses taken for the Spanish major must be numbered 100 or above. At least three must be Spanish courses ([prefix 035 (SPAN)] numbered 170 or above. A maximum of 6 s.h. of course work in Portuguese ([prefix 038 (PORT)]) may be counted toward the major. Students may count a maximum of 6 s.h. in courses taught in English, offered by the Department of Spanish and Portuguese or by other departments, toward the major.

A maximum of 15 s.h. of approved transfer credit may be counted toward the major.

Advanced undergraduates preparing to earn a B.A. with honors may enroll in graduate courses with the permission of their advisor and the department chair. Ordinarily, permission is granted only to students who
have completed a minimum of 30 s.h. of work for the major and whose g.p.a. in the major is 3.75 or higher.

The major in Spanish requires the following course work.

**REQUIRED CORE**

One course in Hispanic linguistics chosen from these:

- 035:121 (SPAN:3100) Introduction to Hispanic Linguistics 3 s.h.
- 035:122 (SPAN:3110) Spanish Sound Structure 3 s.h.
- 035:123 (SPAN:3120) Foundations in Sociolinguistics 3 s.h.
- 035:124 (SPAN:3130) Introduction to Bilingualism 3 s.h.
- 035:126 (SPAN:3150) Spanish Applied Linguistics 3 s.h.
- 035:128 (SPAN:3170) Introduction to Spanish Language Acquisition 3 s.h.
- 035:184 (SPAN:4170) Linguistic Aspects of Second Language Acquisition 3 s.h.
- 035:185 (SPAN:4190) Topics in Hispanic Linguistics 3 s.h.
- 035:186 (SPAN:4150) Introduction to Spanish Syntax 3 s.h.
- 035:187 (SPAN:4120) Spanish Word Formation 3 s.h.
- 035:188 (SPAN:4140) History of the Spanish Language 3 s.h.
- 035:189 (SPAN:4100) Introduction to Spanish Phonology 3 s.h.

One course in Spanish peninsular literature chosen from these:

- 035:110 (SPAN:2400) Readings in Spanish Literature 3 s.h.
- 035:151 (SPAN:3750) Literature in the Time of Cervantes 3 s.h.
- 035:152 (SPAN:3810) Romanticism and Revolution in Spain 3 s.h.
- 035:155 (SPAN:3790) Hispanic Institute: Literature 3 s.h.
- 035:156 (SPAN:3830) Spanish Literature of the Transition 3 s.h.
- 035:157 (SPAN:3840) Contemporary Spanish Short Story 3 s.h.
- 035:160 (SPAN:3700) The Cid in History and Legend 3 s.h.
- 035:161 (SPAN:3820) Modern and Contemporary Spanish Literature 3 s.h.
- 035:180 (SPAN:4620) Spanish Golden Age Fiction 3 s.h.
- 035:181 (SPAN:4690) Topics in Spanish Literature 3 s.h.
- 035:182 (SPAN:4630) Society and Poetry: Spanish Lyric 3 s.h.
- 035:183 (SPAN:4650) Don Quijote 3 s.h.

One course in Spanish American literature chosen from these:

- 035:111 (SPAN:2500) Readings in Spanish American Literature 3 s.h.
- 035:131 (SPAN:3300) Contemporary Spanish American Fiction 3 s.h.
- 035:132 (SPAN:3320) Spanish American Poetry 3 s.h.
- 035:134 (SPAN:3310) Spanish American Short Story 3 s.h.
- 035:140 (SPAN:3350) Contemporary Spanish American Literature 3 s.h.
- 035:144 (SPAN:3360) Latin American Women Writers 3 s.h.
- 035:147 (SPAN:3370) Topics in Literatures and Cultures 3 s.h.
- 035:171 (SPAN:4350) Twentieth-Century Spanish American Theater and Performance 3 s.h.
- 035:173 (SPAN:4330) Colonial Spanish American Literature 3 s.h.
- 035:177 (SPAN:4370) Literature and Mass Culture in Latin America 3 s.h.
- 035:178 (SPAN:4390) Topics in Spanish American Literature 3 s.h.
- 035:193 (SPAN:4380) Narratives of Underdevelopment 3 s.h.

One course in culture (peninsular or Spanish American) chosen from these:

- 035:113 (SPAN:2800) Screening Latin America 3 s.h.
- 035:114 (SPAN:2200) Introduction to Spanish American Cultures 3 s.h.
- 035:130 (SPAN:3200) Cultures of Spanish America 3 s.h.
- 035:135 (SPAN:3440) Latinos in the United States 3 s.h.
- 035:137 (SPAN:3400) Introduction to Chicano Literature and Culture 3 s.h.
- 035:138 (SPAN:3230) Modern Mexico 3 s.h.
- 035:148 (SPAN:3290) Topics in Cinema and Society 3 s.h.
- 035:149 (SPAN:3220) Visual Culture: Colonial Spanish America 3 s.h.
- 035:150 (SPAN:3600) Cultures of Spain 3 s.h.
- 035:153 (SPAN:3620) Madrid 3 s.h.
- 035:154 (SPAN:3610) Hispanic Institute: Culture 3 s.h.
- 035:164 (SPAN:3500) Topics in Culture of the Hispanic World 3 s.h.
- 035:170 (SPAN:4860) The Spanish Civil War 3 s.h.
- 035:172 (SPAN:4850) Topics in Cultural Studies 3 s.h.
- 035:174 (SPAN:4820) Latino/a Popular Culture 3 s.h.
- 035:179 (SPAN:4870) Islamic Cultural Presence in Spain 3 s.h.
- 035:190 (SPAN:4800) Chicano Cinema 3 s.h.
- 035:191 (SPAN:4810) Topics in Latin American Cinema 3 s.h.
- 035:192 (SPAN:4920) Topics in Film Studies 3 s.h.

**ELECTIVES**

Eight elective courses in Spanish numbered 100 or above 24 s.h.

The eight electives may include course work in Spanish language skills as well as more advanced language courses that focus on specialized language functions and purposes. They also may include a maximum of 6 s.h. earned in 100-level Portuguese courses or in related 100-level courses from other departments and programs, such as history, anthropology, comparative literature, international studies, or linguistics. Related courses must be approved by the director of undergraduate studies; for a list of approved related courses, contact the Department of Spanish and Portuguese.

The following Spanish and Portuguese courses do not count toward the major and may not be used as elective credit: 035:116 (SPAN:3095) Spanish Composition and Grammar (if taken after spring 2010), 035:165 (SPAN:4095) Advanced Spanish Grammar, and 038:100 (PORT:3010) Accelerated Elementary Portuguese. A maximum of 3 s.h. earned in 038:101 (PORT:3020) Accelerated Intermediate Portuguese may be counted toward the major.

**Bachelor of Arts: Portuguese**

The Bachelor of Arts with a major in Portuguese requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must complete the courses listed under "Prerequisites" below (12 s.h.), or their equivalents, before they may begin fulfilling requirements for the major.

Portuguese is spoken in Portugal, Brazil, Angola, Mozambique, Cape Verde, and Guine-Bissau. There are more speakers of Portuguese in South America than there are of Spanish. Knowledge of Portuguese and of Luso-Brazilian culture is extremely helpful for students interested in career opportunities in international business, government, or related fields.

The major in Portuguese requires the following courses or their equivalents. All course work in the major must be more advanced than second-year level. Courses listed
under "Prerequisites" do not count toward the 30 s.h. of work for the major.

Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

### ELECTIVES

Portuguese courses numbered above 038:102 (15 s.h.)

A maximum of 6 s.h. may be taken in approved courses in related areas (e.g., art, anthropology, comparative literature, geography, history, Latin American studies, linguistics, sociology, Spanish).

### B.A. with Teacher Licensure

Spanish majors interested in earning licensure to teach at the elementary and/or secondary level must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students who plan to use a major in Portuguese or their work toward a minor in Spanish or in Portuguese as academic background for earning teacher licensure should contact the Office of Education Services about requirements.

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

#### B.A.: Spanish

**Before the third semester begins:** Intermediate Spanish I (or equivalent second-year, first-semester competence in Spanish) and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** two courses in Spanish beyond Intermediate Spanish II (or equivalent second-year, second-semester competence) and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** four more courses in the major and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** a total of nine courses in the major

### Honors in Spanish

Admission to the honors program in Spanish requires a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in Spanish (contact the University of Iowa Honors Program for more information about honors study at Iowa). To graduate with honors in Spanish, students must request honors designation for one course they take for the major (3 s.h.), in consultation with the department honors advisor. They also must register for 3 s.h. in 035:198 (SPAN:4998) Honors: Research and Thesis. To complete 035:198 (SPAN:4998) successfully, students must submit an honors thesis they have written in Spanish and present it orally to a faculty committee in a meeting conducted in Spanish.

### Honors in Portuguese

Admission to the honors program in Portuguese requires a cumulative g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in Portuguese (contact the University of Iowa Honors Program for more information about honors study at Iowa). To graduate with honors in Portuguese, students must earn 3 s.h. in 038:198 (PORT:4999) Honors Research and Thesis plus 3 s.h. in a course chosen in consultation with the department honors advisor. Both courses (6 s.h.) count toward the total 30 s.h. required for the major in Portuguese. Students must write an honors thesis and present it orally to a committee of three faculty members.

### Related Certificates

#### Certificate in International Business

The College of Liberal Arts and Sciences and the Tippie College of Business offer the Certificate in International Business. The program entails study of international business and economics; international relations and institutions; a language; and the art, literature, culture, and/or politics of a geographic area. For detailed
information about the certificate see International Business (p. 358) in the Catalog.

Certificate in Latin American Studies

The department plays an important role in the Latin American Studies Program, which focuses on the history, politics, social organization, economy, art, music, religion, and literature of Latin America. See Latin American Studies (p. 385) in the Catalog for detailed information about the program’s undergraduate certificate and minor.

Minor in Spanish

The minor in Spanish requires a minimum of 18 s.h. in Spanish courses, including 15 s.h. in 100-level courses taken at The University of Iowa or in a University of Iowa study abroad program. At least one of the 100-level courses must be in Spanish or Spanish American literature or culture, or in Hispanic linguistics. Students may not count 035:116 (SPAN:3095) Spanish Composition and Grammar (if taken after spring 2010) or 035:165 (SPAN:4095) Advanced Spanish Grammar toward the Spanish minor. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in Spanish.

Minor in Portuguese

The minor in Portuguese requires a minimum of 15 s.h. in Portuguese courses, including 12 s.h. in advanced courses taken at The University of Iowa or in a University of Iowa study abroad program. For the minor, courses numbered 038:103 (PORT:3100) Composition and Conversation and above are considered advanced. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass.

Language for General Education

The Department of Spanish and Portuguese offers course sequences that students in all majors may use to satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 276).

Students who have previous course work or other experience with Spanish should take the online World Languages Placement Test, which helps determine the level at which a student should begin Spanish language study at The University of Iowa. Students should take the test before they register for their first University of Iowa Spanish course. Students with experience in Portuguese may receive individual evaluations from the department.

SPANISH

Three course sequences in Spanish satisfy the General Education Program’s World Languages requirement. Students without background in Spanish should choose the first sequence. Others should talk with a departmental advisor to determine which sequence is best for them.

035:001 (SPAN:1001) Elementary Spanish I 5 s.h.
035:002 (SPAN:1002) Elementary Spanish II 5 s.h.
035:011 (SPAN:1501) Intermediate Spanish I 5 s.h.
035:012 (SPAN:1502) Intermediate Spanish II 5 s.h.
035:005 (SPAN:1003) Elementary Spanish Review 5 s.h.
035:011 (SPAN:1501) Intermediate Spanish I 5 s.h.
035:012 (SPAN:1502) Intermediate Spanish II 5 s.h.

PORTUGUESE

Only one course sequence in Portuguese fulfills the General Education Program’s World Languages requirement. It consists of two intensive courses that combine two semesters into one, so that the sequence is completed in a total of two semesters rather than four. Both courses are open to any student with an interest in the language, including entering first-year students.

038:100 (PORT:3010) Accelerated Elementary Portuguese 6 s.h.
038:101 (PORT:3020) Accelerated Intermediate Portuguese 6 s.h.

Study Abroad

SPANISH

The department participates in study abroad programs in Spain and Latin America; most of these programs offer both summer and semester or yearlong programs. The programs in Spain include the Board of Regents Hispanic Institute program in Valladolid (summer only); USAC (University Studies Abroad Consortium) programs in Alicante, Bilbao, Madrid, and San Sebastián; and CIEE programs in Alcalá de Henares, Alicante, Barcelona, Madrid, Palma de Mallorca, and Seville.

The programs in Latin America include USAC programs in Chile (Santiago), Costa Rica (Heredia, Puntarenas, and San Ramón), and Mexico (Puebla); CIEE programs in Argentina (Buenos Aires), Chile (Santiago and Valparaiso), Dominican Republic (Santiago), Mexico (Guanajuato), and Peru (Lima). They also include the CIC Latin America Health, Nutrition, and Environmental Issues Program in Santiago, Dominican Republic, and the CIC Summer Program in Guadalajara, Mexico. For information about other foreign study programs in Spanish, contact the Office for Study Abroad.

Participation in a number of different programs allows the department to offer study abroad opportunities that take into account a variety of student interests and needs. Credit earned in these or other study abroad programs may be applied toward the requirements for the Spanish major or minor. The amount of credit that may be accepted varies according to the program.

Interested students should contact the department's study abroad advisor. Credit earned in study abroad programs other than those listed above counts as transfer credit and is subject to the 15 s.h. maximum allowed for the major and the 3 s.h. maximum allowed for the minor.

PORTUGUESE

The department offers a seven-week program in Salvador, Bahia, Brazil that includes courses in Portuguese language, culture, and literature. Contact International Programs Study Abroad for details.

Graduate Programs

• Master of Arts in Spanish
• Master of Fine Arts in Spanish creative writing
• Doctor of Philosophy in Spanish
Master of Arts

The Master of Arts program in Spanish requires 30 s.h. of graduate credit. Students choose one of two emphases: literature, which provides training in literary analysis and broad knowledge of representative works in principal areas of Hispanic literature; or linguistics, which provides training in linguistic analysis and argumentation and broad knowledge of the principal subfields of Hispanic linguistics. Applicants to the M.A. program should have completed the equivalent of the undergraduate Spanish major with a g.p.a. of at least 3.00 in course work for the major.

A maximum of 9 s.h. of graduate credit in approved courses may be transferred from other institutions toward the 30 s.h. required for the M.A.

The M.A. requires the following 10 courses.

**LITERATURE EMPHASIS COURSES**

One of these:

<table>
<thead>

At least six of the 10 linguistics emphasis courses must be taken in the Department of Spanish and Portuguese and numbered above 035:170 (SPAN:4860) or above.

**LANGUAGE TOOL REQUIREMENT**

M.A. students must complete the equivalent of one year of college-level study of any approved second foreign language; Portuguese is highly recommended. They may satisfy this requirement either by examination or through courses taken at The University of Iowa or another accredited university; such course work does not count toward the 30 s.h. required for the M.A.

**EXAMINATIONS**

The M.A. comprehensive examination includes written and oral components. The written portion consists of a two-hour examination in each of three areas; an oral examination follows, usually lasting 90 minutes. The examining committee is composed of four departmental faculty members.

Students in the literature emphasis may choose to be examined in three literature areas or in two literature areas and one linguistics area. At least one literature area must be in Spanish literature and at least one must be in Spanish American literature. If three literature areas are chosen, at least one must represent literature written before 1700 (peninsular or Spanish American).

Students in the linguistics emphasis may choose to be examined in three linguistics areas or in two linguistics areas and one literature area. At least one of the linguistics areas must be in syntax or phonology. For students in both emphases, the third examination area may be a film area.

For reading lists, contact the Department of Spanish and Portuguese.

**MAXIMUM STUDY LOADS**

Maximum course registration is 15 s.h. of graduate-level course work during fall or spring semesters and 8 s.h. of graduate-level work during summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. The normal full-time registration for students who hold one-half-time assistantships is three graduate courses in fall and spring semesters; one-half-time assistants may register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Additional semester hours may be taken only with Graduate College approval.

Minimum course registration is 2 s.h. Students who fail to register for a period of 36 months must apply for readmission to the Graduate College.

**Master of Fine Arts**

The Master of Fine Arts in Spanish creative writing requires 48 s.h. of graduate credit earned over four semesters in residence at The University of Iowa. Students complete courses in writing, including several workshops, and other relevant course work. They also are required to participate in several outreach workshops in the community and to do a final public reading in the spring semester of their second year. Work toward the degree culminates in a creative thesis.

The M.F.A. requires the following 16 courses.

All of these:

<table>
<thead>

<td>3 s.h.</td>
</tr>
</tbody>
</table>

All of these:

- Four graduate-level courses offered by the Department of Spanish and Portuguese
- Four additional courses offered by the Department of Spanish and Portuguese or by related units

Related units include the University of Iowa Center for the Book, the Creative Writing Program (Iowa Writer’s Workshop), the Department of Cinema and Comparative Literature, and the International Writing Program.

**THESIS**

The thesis is a fiction or poetry manuscript of substantial length, which students submit during the last semester. The thesis committee is composed of at least three members: two faculty members in the Spanish creative writing program and a third Department of Spanish and Portuguese faculty member who is not part of the creative writing program, or a faculty member from one of the related units.

**Doctor of Philosophy**

The Doctor of Philosophy program in Spanish requires a total of at least 72 s.h. of graduate credit. Ph.D. students choose from two programs; one is dedicated to Hispanic literatures, the other to Hispanic linguistics. The literature program trains students in textual analysis and literary history, criticism, and theory. The linguistics program provides training in linguistic analysis and theory.

The literature program requires a minimum of 66 s.h. of course work (22 courses), of which 30 s.h. may have been earned for an M.A. in Spanish at The University of Iowa or at another institution, as approved by the director of graduate studies.

The linguistics program requires a minimum of 57 s.h. of course work (19 courses), of which 30 s.h. may have been earned for an M.A. in Spanish at The University of Iowa or at another institution, as approved by the director of graduate studies.

Both programs also require 6 s.h. earned in 035:299 (SPAN:6999) Thesis, to complete the 72 s.h. required for the Ph.D.

Course requirements for each program are as follows.

**LITERATURE TRACK: COURSES**

Students must complete at least 36 s.h. (12 courses) beyond the master’s degree (or 22 courses beyond the bachelor’s degree). The following courses are required; courses taken for the M.A. may be used to meet part of this requirement.

<table>

Two courses in literary theory

Three courses in Spanish literature, at least one of which must be pre-1700 literature

Three courses in Spanish American literature

One course in cinema

Two 300-level seminars in literary studies

One literature course in another Romance language (see "Language and Literature Tool Requirements")

Each student’s plan of study is tailored to his or her area of emphasis and must be approved by the student’s advisory committee. Ph.D. course work in Spanish (taken after the M.A.) must be at the 200 and 300 levels, except the Romance literature course taken for the language tool requirement.

**LITERATURE TRACK: LANGUAGE AND LITERATURE TOOL REQUIREMENTS**

Before the comprehensive examination, students must complete the equivalent of three years of college-level study in another Romance language and become well acquainted with its literature in limited areas of specialization; the study of Luso-Brazilian literature is highly recommended. This requirement may be satisfied only through course work at The University of Iowa or another accredited university.

Students also must complete the equivalent of one year of college-level study of another approved foreign language. Students who do not fulfill the Romance language requirement with Portuguese must use it to satisfy this requirement. Students who will write dissertations on topics in Spanish or Portuguese literature before 1700 are strongly encouraged to select Latin, Arabic, or an American Indian language to satisfy this requirement; students should consult specialists in their field to determine which language is most appropriate. Students may take more than two languages, earning more than the 72 s.h. required for the degree, if their literary course work permits.

Students may satisfy the language tool requirement by examination or by course work at The University of Iowa or at another accredited university; language tool course work does not count toward the 72 s.h. required for the degree. Courses taken to fulfill the language tool requirements may be taken pass/nonpass. If the language tool requirements are satisfied by examination, the exam results must be documented in the student’s file. Courses taken to fulfill the second Romance literature requirement must be taken for grades and may be counted toward the degree.

**LINGUISTICS TRACK: COURSES**

Students must earn at least 27 s.h. (9 courses) beyond the master’s degree (or 19 courses beyond the bachelor’s degree). The following courses are required; courses taken for the M.A. may be used to meet part of this requirement.

<table>

</table>
The purpose of the Ph.D. comprehensive examination is to determine whether the student has gained sufficient breadth and depth of research knowledge in Hispanic literatures or linguistics to enter the profession as a teacher-scholar. The examining committee is composed of five departmental faculty members or four departmental faculty members and a fifth faculty member from a related department.

**Literature Track**

The literature track’s comprehensive exam has written and oral components.

**Linguistics Track: Language Tool and Additional Requirements**

Students in the linguistics track must complete the equivalent of three years of college-level study of Portuguese, and the equivalent of one year of college-level study of each of two other languages. For students specializing in historical linguistics, one of those two languages must be Latin.

Students may satisfy the language tool requirement by examination or by course work at The University of Iowa or at another accredited university. Courses taken to fulfill the language tool requirements may be taken pass/nonpass. If the language tool requirements are satisfied by examination, the exam results must be documented in the student’s file. The language tool course work does not count toward the 57 s.h. of prethesis course work required for the degree, except the third-year-level course work in Portuguese, which may be counted with the faculty advisor’s approval if the student took it for a grade.

Students in the linguistics track also must write two extended research papers and give two colloquium presentations based on these papers. The first paper must be in an area distinct from the intended dissertation research; it must be approved by the student’s advisory committee by the end of fall semester of the second year of Ph.D. course work in order for the student to continue in the program. The second paper must be in the dissertation research area, must be of publishable quality, and must be approved by the student’s advisory committee no later than the beginning of the semester in which the student takes the comprehensive exam.

**COMPREHENSIVE EXAMINATION**

The written component includes four elements: two broad areas, one specialized area, and one article. Each element is supervised by a different committee member. The two broad areas comprise lists of approximately 40 readings, with each list covering an established historical period that is tied to the student’s Ph.D. course work (one Peninsular, the other Spanish American). The lists must be approved by the supervisor before distribution to the rest of the committee. Each area is evaluated with a three-hour written exam, which is discussed during the student’s oral exam.

The specialized area’s reading list includes 25-40 secondary works that define the area and are related to the dissertation. The area is examined via a 15-20 page position paper, which is a critical synthesis of the secondary readings and normally becomes part of the dissertation introduction. The list and the paper must be written in consultation with a faculty supervisor and must be approved by the supervisor at least one month before the oral exam.

The article is a 20-25 page research essay, usually a revised version of a paper written for one of the two required 300-level seminars. The article should be written in consultation with the professor who taught the seminar and with a faculty supervisor; if the professor who taught the course also supervises the area, the student must consult with at least one more professor. The article must be approved by the supervisor at least one month before the oral exam.

The oral exam lasts two hours, with approximately half devoted to the two broad areas and half to the article and the position paper.

**Linguistics Track**

The comprehensive exam for the linguistics track includes written and oral components. The written component comprises two weekend take-home exams consisting of linguistic analysis in two subdisciplines distinct from the subdiscipline of the intended dissertation research. The two-hour oral exam consists of one hour devoted to discussion of the second research paper and the other hour devoted to follow-up questions on the written exams.

**DISSERTATION**

After the Ph.D. comprehensive examination is completed, the candidate submits a dissertation prospectus for the dissertation committee’s approval. The dissertation committee is composed of five faculty members; at least four committee members must be from the Department of Spanish and Portuguese.

All doctoral dissertations must be submitted to the Graduate College in electronic format.

The dissertation, complete and in final form, must be submitted in the required electronic format at the Graduate College office by the first-deposit deadline date of the session in which the degree is to be conferred. The final deposit of the approved dissertation in electronic format must be deposited at the office by the appropriate deadline in the student’s graduation semester.

Students must adhere to the Graduate College regulations regarding preparation of the dissertation copy; consult the Graduate College. For information on the dissertation and final examinations, see the Manual of Rules and Regulations of the Graduate College.
Financial Support

Teaching and research assistantships are available to qualified graduate students. Usually, two years of support are available for completion of the M.A. and four years beyond the receipt of the M.A. for the Ph.D. Applications for financial support should be made directly to the Department of Spanish and Portuguese.

Facilities

The Language Media Center (LMC) provides students and faculty with a broad range of services and facilities that include a state-of-the-art audio language laboratory, individual audio recording carrels, video viewing rooms for small groups, video viewing stations for individuals, and networked microcomputer and interactive multimedia workstations. The LMC maintains a number of instructional technology classrooms that have special video, audio, and computer equipment for in-class presentations. The center’s extensive collection of international media resources on audio tape, videotape, computer diskette, videodisc, and CD-ROM serves learners at many levels and in many disciplines.

Courses

Spanish and Portuguese language courses are open to all students who have satisfied the specified course prerequisites.

Basic Spanish

Students must have permission from the chair of the Department of Spanish and Portuguese to take an elementary course for credit after having completed a higher-level course for which the elementary course or its equivalent is a prerequisite.

035:001 (SPAN:1001) Elementary Spanish I 5 s.h.

035:002 (SPAN:1002) Elementary Spanish II 5 s.h.

035:005 (SPAN:1003) Elementary Spanish Review 5 s.h.

035:011 (SPAN:1501) Intermediate Spanish I 5 s.h.

035:012 (SPAN:1502) Intermediate Spanish II 5 s.h.

Course sequence 035:011 (SPAN:1501) and 035:012 (SPAN:1502) in one semester. Prerequisites: 035:002 (SPAN:1002) or 035:005 (SPAN:1003). GE: World Languages Fourth Level Proficiency.

035:020 (SPAN:1800) Contemporary Spanish American Narrative 3 s.h.

035:029 (SPAN:1000) First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

035:030 (SPAN:1600) Exploring Latino Culture: Music, Food, and Salsa 1 s.h.
Exploration of rich diversity of Latino culture in Iowa; may attend cultural celebrations, visit Latino resources on campus, meet Latino student leaders and faculty from the Spanish department, learn about study abroad and careers involving Spanish language skills.

035:053 (SPAN:1998) Special Work 1-3 s.h.

035:060 (SPAN:1700) Latino/a Literature in the U.S. 3 s.h.
Introduction to growing cultural production of varied Latino communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

035:070 (SPAN:2700) Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as 038:070 (PORT:2700), 130:070 (LAS:2700), 187:070 (IS:2700).

Spanish Level 1, Primarily for Undergraduates

Students should take these courses at the start of the Spanish major.

035:102 (SPAN:2040) Spanish for Heritage Speakers 3 s.h.
Development of reading and writing skills for bilingual students who have acquired listening and speaking skills in Spanish; review of grammar and registers of use.

Bridge from second-year Spanish to more advanced courses in Spanish language, linguistics, and literature; emphasis on skill development in writing, critical reading in Spanish, and oral communication. Taught in Spanish. Prerequisites: 035:012 (SPAN:1502).

035:104 (SPAN:2020) Hispanic Institute: Language 3 s.h.
Grammar essentials, written exercises, short compositions, conversational activities. Prerequisites: 035:012 (SPAN:1502).

035:105 (SPAN:2910) Hispanic Institute: Study/Life in Spain 1 s.h.

Development of conversational proficiency and cultural competence through action learning; strategic role playing and creative language use based on everyday situations in Hispanic cultures; composition skills and grammar review. Prerequisites: 035:012 (SPAN:1502).

035:107 (SPAN:2900) Music of the Hispanic World 3 s.h.
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Prerequisites: 035:012 (SPAN:1502) or 035:013 (SPAN:1503).

035:108 (SPAN:2050) Spanish in the U.S. 3 s.h.
Issues related to Spanish in the United States; aspects of linguistics and sociolinguistics inherent to the existence and proliferation of Spanish in the United States. Taught in English.

035:109 (SPAN:2030) Study of Language: Myths and Concepts 3 s.h.
How linguists look at language; basic concepts of linguistics and grammar. Prerequisites: 035:012 (SPAN:1502).

035:110 (SPAN:2400) Readings in Spanish Literature 3 s.h.
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on literature of Spain. Prerequisites: 035:012 (SPAN:1502).

035:111 (SPAN:2500) Readings in Spanish American Literature 3 s.h.
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on Spanish American literature. Prerequisites: 035:012 (SPAN:1502).

035:112 (SPAN:2300) Introduction to Reading Literature 3 s.h.
Close readings of literary texts from Spain and Spanish America; basic concepts of genre (narrative, poetry, theater, essay); writing about literature. Prerequisites: 035:012 (SPAN:1502).

035:113 (SPAN:2800) Screening Latin America 3 s.h.
Latin American film; histories of the four major national film industries; aesthetic and political debates surrounding the New Latin American Cinema movement of the 1960s and 1970s. Prerequisites: 035:012 (SPAN:1502).

035:114 (SPAN:2200) Introduction to Spanish American Cultures 3 s.h.
Introduction to study of cultural history of Spanish America; topics range from precolombian times to present; for students who are just starting work on the Spanish major or minor. Prerequisites: 035:012 (SPAN:1502).

Spanish Level 2, Primarily for Undergraduates

Students should have at least one Level 1 course before starting these courses. Some courses have additional prerequisites.

Language Skills

035:116 (SPAN:3095) Spanish Composition and Grammar 3 s.h.
Development of three types of compositions; selected readings and comprehension activities; vocabulary expansion; grammar review with exercises. Requirements: good proficiency in written and oral Spanish based on several university-level Spanish courses and study abroad experience in a Hispanic country.

035:117 (SPAN:3030) Introduction to Spanish-English Translation 3 s.h.
Introduction to written and sight translation; translation theory, elements for good translations and effective translation process, cultural aspects; practice in written translation. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

035:118 (SPAN:3040) Business Spanish 3 s.h.
Clear, concise business writing; emphasis on linguistic and cultural proficiency. Requirements: one Spanish course numbered above 035:100.

035:119 (SPAN:3020) Journalistic Writing in Spanish 3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

035:120 (SPAN:3060) Taller Basico de Escritura Creativa 3 s.h.

035:129 (SPAN:3050) Translation Workshop: Spanish to English 3 s.h.
Spanish to English literary translation; meaning, form and equivalence, authenticity; questions of untranslatability. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

035:139 (SPAN:3000) Advanced Spanish Language Skills: Writing 3 s.h.
Development of writing skills in Spanish, focus on expository writing for academic purposes. Requirements: at least two courses taught in Spanish at the 100 level (2000 level) or above.

035:141 (SPAN:3010) Advanced Spanish Speaking and Writing 3 s.h.
Development of oral proficiency; secondary emphasis on continuing development of writing skills; cultural knowledge of several Spanish-speaking countries. Requirements: two courses taught in Spanish at the 100 level (2000 level) or above.

Hispanic Linguistics

035:121 (SPAN:3100) Introduction to Hispanic Linguistics 3 s.h.
Basic linguistic theory as applied to analysis of Spanish language; systematic study of sound patterns, sentence construction, word formation; meanings, historical linguistics, sociolinguistics, psycholinguistics. Requirements: one Spanish course numbered above 035:100.

035:122 (SPAN:3110) Spanish Sound Structure 3 s.h.
Articulation of Spanish sounds—description and practice; how Spanish sounds are organized into classes, relations among the different classes, how they are implemented in context, patterns they exhibit. Requirements: one Spanish course numbered above 035:100.

035:123 (SPAN:3120) Foundations in Sociolinguistics 3 s.h.
Dialects, speech communities, variation, choosing a code, solidarity and politeness, language and gender, language planning. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.
Spanish American Literature and Culture course taught in Spanish at the 100 level (2000 level) or above. Culture; materials range from journalistic and literary writing to gender relations, indigenous cultures, border issues, and popular Twentieth-century Mexican cultural history, including nationalism, poets from Modernism to present; cultural essays to complement literary readings; pan-Caribbean cultural practices—music and carnival celebrations. Taught in English. Requirements: for 048:162 (CCL:3262) — junior or senior standing; for 035:146 (SPAN:3270) — two literature courses. Requirements: for 048:162 (CCL:3360). Currents Twentieth-century fiction, film, and cultural practices in the Hispanic, Francophone, and Anglophone Caribbean; cultural essays to complement literary readings; pan-Caribbean cultural practices—music and carnival celebrations. Taught in English. Requirements: for 048:162 (CCL:3262) — junior or senior standing; for 035:146 (SPAN:3270) — two literature courses. Same as 048:162 (CCL:3262).

035:147 (SPAN:3370) Topics in Literatures and Cultures Literature and culture of specific regions, countries, or cities of Latin America. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

035:148 (SPAN:3290) Topics in Cinema and Society Concept of national cultures examined through film history in one Latin American nation. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

035:149 (SPAN:3220) Visual Culture: Colonial Spanish America Intersection between written word and visual culture in colonial Spanish America; imperialism, native culture, violence and race in codices, paintings, maps and illustrations. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.

Spanish Literature and Culture

035:150 (SPAN:3600) Cultures of Spain Political, religious, social, economic background; important cultural, literary movements. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above. GE: Values, Society, and Diversity.

035:151 (SPAN:3750) Literature in the Time of Cervantes Introduction to literary questions of 15th to 17th centuries in Spain; understanding of literary Spanish and cultural issues of the period—end of the feudal mind, beginning of individualism, poetry, emergence of theater, crisis of empire. Requirements: at least one course taught in Spanish at the 100 level (2000 level) or above.
035:152 (SPAN:3810) Romanticism and Revolution in Spain 3 s.h.
Spanish Romanticism as the cultural expression of social revolution in first half of 19th-century Spain. Taught in Spanish. Requirements: At least one course taught in Spanish at the 100-level (2000-level) or higher.

035:153 (SPAN:3620) Madrid 3 s.h.
Contemporary Madrid as one of the premier capital cities of the European Union; history and present day reality of the city; examination of paintings, descriptions, movies, fashion, and customs from several historical periods. Requirements: At least one course taught in Spanish at the 100 level (2000 level) or above.

035:154 (SPAN:3610) Hispanic Institute: Culture 3 s.h.
Overview of geography, history (political, economic, social), architecture, painting, music of Spain; readings, slides, video and audio cassettes, visits to local sites of cultural significance. Prerequisites: 035:012 (SPAN:1502).

035:155 (SPAN:3790) Hispanic Institute: Literature 3 s.h.
Introduction to poetry, narrative, and theater in Spanish literature; textual commentary and critical interpretations of major representative works of selected historical periods. Requirements: At least one course taught in Spanish at the 100 level (2000 level) or above.

035:156 (SPAN:3830) Spanish Literature of the Transition 3 s.h.
Literary production of the transition in post-Franco Spain; works by Carmen Martín Gaite, Luis García Montero, Pedro Almodóvar, others. Requirements: At least one course taught in Spanish at the 100 level (2000 level) or above.

035:157 (SPAN:3840) Contemporary Spanish Short Story 3 s.h.
Contemporary short stories from 20th- and 21st-century Spain; emphasis on reading strategies and interpretation skills; focus on historical and social contexts. Requirements: One Spanish course numbered above 035:100.

035:160 (SPAN:3700) The Cid in History and Legend 3 s.h.
Rodrigo Díaz de Vivar, el Cid, in history and legend; changing perceptions of the Cid from the 13th century to the present. Requirements: One Spanish literature course numbered above 035:100.

035:161 (SPAN:3820) Modern and Contemporary Spanish Literature 3 s.h.
Works of the last 30 years of the 19th century, up to the outbreak of the Spanish Civil War; Realism, Naturalism, generation of 1898, generation of 1913, generation of 1927. Requirements: At least one course taught in Spanish at the 100 level (2000 level) or above.

035:163 (SPAN:3690) Iowa Global Internship in Madrid 3 s.h.
Intensive language and eight-week internship in Madrid through the Tippie College of Business Madrid Internship Program; writing an extensive report in Spanish. Requirements: At least two courses taught in Spanish at the 100 level (2000 level) or above.

035:164 (SPAN:3500) Topics in Culture of the Hispanic World 3 s.h.
Specific topics; culture of different parts of Spanish-speaking world, or cross-regional or cross-national cultural phenomenon. Requirements: At least one course numbered above 035:100.

035:165 (SPAN:4095) Advanced Spanish Grammar 3 s.h.
Deep and broad high-level grammar review featuring textbook analysis and examples, instructor's commentary, and relevant written exercises on problematic areas of vocabulary and grammar in written international standard Spanish. Requirements: High communicative proficiency in written and oral Spanish based on extensive experience in classroom and the real world (e.g., completion of major in Spanish, and study or residence abroad in Hispanic countries or equivalent).

035:168 (SPAN:3080) Advanced Business Spanish 3 s.h.
Tools for effective business communication, building on concepts learned in 035:118 (SPAN:3040); linguistic, sociolinguistic, practical skills for effective oral and written communication developed through discussion of business case studies, presentations, meetings; selected Spanish and Latin American companies examined through varied media, including news and Internet; role of transaction intermediaries in international trade. Prerequisites: 035:118 (SPAN:3040).

035:169 (SPAN:4940) Writing Narrative Journalism in Spanish 3 s.h.
In-depth interpretative journalistic writing on a range of topics and forms, including profiles, social and political issues and controversy, cultural affairs, education. Prerequisites: 035:119 (SPAN:3020).

Spanish Level 3 for Undergraduates

Undergraduates should take the following courses during their last semesters of enrollment. These courses are also open to M.A. students. All of these courses require a research paper. Prerequisites vary.

035:170 (SPAN:4860) The Spanish Civil War 3 s.h.
Exploration of literature, history, and art of the Spanish Civil War (1936-1939); ideological debates and aesthetic achievements of the period; relationships among art, politics, and propaganda. Requirements: One Spanish literature or culture course numbered 035:130 (SPAN:3200) or above.

035:171 (SPAN:4350) Spanish American Theater and Performance 3 s.h.
Introduction to 20th-century Spanish American theater; study of five major playwrights; readings of plays with analysis of performances. Requirements: Two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:172 (SPAN:4850) Topics in Cultural Studies 3 s.h.
Requirements: One Spanish literature or culture course numbered 035:130 (SPAN:3200) or above.

035:173 (SPAN:4330) Colonial Spanish American Literature 3 s.h.
Readings from the formative period of Spanish American culture; may include discovery and conquest, ethnicity and gender, dissent and popular resistance. Requirements: Two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:174 (SPAN:4820) Latino/a Popular Culture 3 s.h.
Role of Latino/a popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Requirements: Two Spanish literature or culture courses; at least one must be numbered 035:131 (SPAN:3300) or above.
035:175 (SPAN:4310) Cultural Identity in Caribbean Literature
Main currents in Caribbean literature; primary focus on Hispanic Caribbean; may include americanismo literario, poesía negra, testimonial narrative; Caribbean cultural context in music, humor, Afro-Caribbean rituals. Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:176 (SPAN:4900) Latin American Studies Seminar

035:177 (SPAN:4370) Literature and Mass Culture in Latin America
Examination of literature in relation to other media in Latin America in the 20th century; close readings of novels, short stories, and essays analyzed in combination with film clips, photographs, music, and blogs. Requirements: two Spanish literature courses; at least one must be numbered 035:131 (SPAN:3300) or above.

035:178 (SPAN:4390) Topics in Spanish American Literature
Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:179 (SPAN:4870) Islamic Cultural Presence in Spain
Islamic history and culture in the Iberian Peninsula from Middle Ages to present. Taught in Spanish. Requirements: one Spanish literature or culture course numbered 035:130 (SPAN:3200) or above. Same as 032:179 (RELS:4870).

035:180 (SPAN:4620) Spanish Golden Age Fiction
Literature and society in first centuries of Spanish Modernity, Renaissance and Baroque periods, love and the self, alienation, utopias, the body and morals, cultural dimensions of genres. Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:181 (SPAN:4690) Topics in Spanish Literature
Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:182 (SPAN:4630) Society and Poetry: Spanish Lyric
Twentieth-century Spanish lyric poetry in its sociocultural context. Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:183 (SPAN:4650) Don Quijote
Exploration of Cervantes' Don Quijote; sociohistorical context, questions of human existence, literary tradition, metafiction, influence of Don Quijote on novelists and filmmakers, critical reception of the text. Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:184 (SPAN:4170) Linguistic Aspects of Second Language Acquisition
Theoretical linguistic approaches to acquisition of Spanish as a second language. Prerequisites: 035:121 (SPAN:3100).

035:185 (SPAN:4190) Topics in Hispanic Linguistics
Prerequisites: 035:121 (SPAN:3100) or 035:123 (SPAN:3120) or 035:124 (SPAN:3130).

035:186 (SPAN:4150) Introduction to Spanish Syntax
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Prerequisites: 035:121 (SPAN:3100). Same as 164:186 (SLA:4300).

035:187 (SPAN:4120) Spanish Word Formation
Basic principles of morphology (derivational and inflectional) applied to analysis of Spanish complex word formation; extensive practice in morphological analysis. Prerequisites: 035:121 (SPAN:3100).

035:188 (SPAN:4140) History of the Spanish Language
Development of phonetic, morphological, syntactical properties of the Spanish language from its Latin roots; emphasis on historical development and process of expansion from a minor dialect (Castilian) to a significant world language. Prerequisites: 035:121 (SPAN:3100).

035:189 (SPAN:4100) Introduction to Spanish Phonology
Sound patterns of Spanish; how various theoretical approaches solve basic problems in Spanish phonology; identification of linguistic universals, how they are manifested in the sound structure of Spanish. Prerequisites: 035:121 (SPAN:3100) or 035:122 (SPAN:3110). Same as 164:189 (SLA:4301).

035:190 (SPAN:4800) Chicano Cinema
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered 035:130 (SPAN:3200) or above, or one film studies course numbered above 048:050 (CCL:2113). Same as 048:190 (CCL:4690).

035:191 (SPAN:4810) Topics in Latin American Cinema
Taught in English. Requirements: one Spanish literature or culture course numbered above 035:130 (SPAN:3200) or one film studies course. Same as 048:178 (CCL:4678).

035:192 (SPAN:4920) Topics in Film Studies
Requirements: one Spanish literature or culture course numbered 035:130 (SPAN:3200) or above.

035:193 (SPAN:4380) Narratives of Underdevelopment
Works of Spanish American narrative and essay that illuminate questions of geo-political inequality and national consolidation; readings examined in relationship to Latin American social theory in a historical context. Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:194 (SPAN:4910) Topics in Literary Studies
Requirements: two literature courses in Spanish, at least one of which must be numbered 035:131 (SPAN:3300) or above.

035:196 (SPAN:4950) Taller Avanzado de Escritura Creativa
In-depth consideration of characters, dialog, conflict, setting, point of view, other fundamentals of fiction; experience writing short stories and other pieces, with class discussion; fictional texts by renowned writers, authors’ essays on their own creative process; narrative strategies of short stories, songs, painting, etc. Requirements: one creative writing course in Spanish and one literature course in Spanish numbered 035:131 (SPAN:3300) or above, or two literature courses in Spanish numbered 035:131 (SPAN:3300) or above.
Spanish, Primarily for Graduate Students

035:198 (SPAN:4998) Honors: Research and Thesis 2-3 s.h.
Requirements: honors standing.

035:199 (SPAN:4999) Special Work 1-3 s.h.

Foreign language multimedia in context of current second
language acquisition theories and research; readings on
interactivity, interface design, feedback, learner control;
acquisition of vocabulary, grammar, and culture. Requirements:
foreign language teaching methodology course. Same as 164:211

035:225 (SPAN:6850) Topics in Literary Studies 3 s.h.

035:226 (SPAN:6860) Topics in Cultural Studies 3 s.h.

035:227 (SPAN:6965) Topics in Second Language
Acquisition: Writing 3 s.h.
Theory, pedagogy, research, and assessment in second language
writing. Taught in English. Same as 010:275 (RHET:6965),
164:227 (SLA:6965).

035:228 (SPAN:6950) Topics in Second Language
Acquisition: Speaking 3 s.h.
Theory, pedagogy, research, and assessment in second language

035:230 (SPAN:6310) Spanish American Narrative:
Nineteenth Century 3 s.h.
Review of narrative, with emphasis on Romanticism.

035:231 (SPAN:6330) Spanish American Narrative:
Modern and Regional 3 s.h.

035:236 (SPAN:6320) Contemporary Spanish
American Narrative 3 s.h.
Narrative from mid-20th century to present; emphasis on the
Boon, post-Boon.

035:247 (SPAN:6400) Readings: Latin American
History arr.
Same as 016:288 (HIST:7505).

035:248 (SPAN:6500) Topics in Film Studies 3 s.h.

035:250 (SPAN:6600) Medieval Spanish Literature 3 s.h.
Critical reading of canonical medieval texts in their cultural
context; application of modern theory to medieval texts; works
such as El Poema del Cid, El Romancero Viejo, Milagros de
Nuestra Señora, El Conde Lucanor, El Libro de Buen Amor.

035:255 (SPAN:6620) Spanish Renaissance and
Baroque Literature 3 s.h.
Critical analysis of social, moral, political function of literature
in early modern Spain; Renaissance and Baroque poetry; La
Celestina; pastoral literature; Don Quijote; narratives of the court;
modern subjectivity; the question of genre.

035:258 (SPAN:6650) Nineteenth-Century Spanish
Novel 3 s.h.
Development of the novel in Spain, from Romanticism to the
Generation of 1898; novel's role in helping to consolidate
ideologies and structures of 19th-century bourgeois society.

035:259 (SPAN:6660) Contemporary Spanish
Fiction 3 s.h.
The post-Franco novel in Spain; literary "postmodernism" and
relationships between Spanish literature, politics, and society
since 1975; representative significant works.
035:260 (SPAN:6680) Contemporary Non-Castilian Narrative Spain
Readings in Spanish of novels and short stories written in another language of the Spanish state or by a member of one of Spain's non-Castilian historic nationalities. 3 s.h.

035:264 (SPAN:6670) Contemporary Spanish Poetry
Poetry on the Spanish literary scene circa 1968; authors' reactions to predecessors, their connections with foreign traditions, metapoetry, the aesthetics of culturalism. 3 s.h.

035:269 (SPAN:6390) Topics in Spanish American Literature
Specific topics in Spanish and/or Spanish American cultural studies. 3 s.h.

035:270 (SPAN:6690) Topics in Spanish Literature
3 s.h.

035:271 (SPAN:6903) Crossing Borders Proseminar

035:273 (SPAN:6904) Crossing Borders Seminar

035:281 (SPAN:6905) Introduction to Contemporary Literary Theory
How major theories construct literary text; structuralist, semiotic, psychoanalytic, Marxist, reader response, Derridian criticism. Taught in English. Same as 048:217 (CCL:6105). 3 s.h.

035:282 (SPAN:6815) Marxist Literary Criticism
Contemporary Western Marxist literary and cultural theory; major thinkers in the Marxist tradition—Georg Lukacs, Louis Althusser, Terry Eagleton, Fredric Jameson, Juan Carlos Rodriguez; readings on topics in Marxist literary and cultural criticism—Marxism and the media, dialectics, Lenin. Taught in Spanish and English. 3 s.h.

035:286 (SPAN:6300) Colonial Spanish American Literature
Chronicles of the conquest: close reading with focus on role of writing and operations of "othering"; balance between critical secondary sources and primary sources. 3 s.h.

035:298 (SPAN:6998) Special Work
arr.

035:299 (SPAN:6999) Thesis
arr.

035:300 (SPAN:7000) Seminar: Spanish Linguistics
Same as 103:300 (LING:7000). 3 s.h.

035:302 (SPAN:7200) Seminar: Literary Studies
Specific topics on aspects of Spanish and/or Spanish American literature. 3 s.h.

035:303 (SPAN:7300) Seminar: Cultural Studies
Specific topics in Spanish and/or Spanish American cultural studies. 3 s.h.

035:310 (SPAN:6210) Introductory Workshop: Short Story
Craft of writing short stories; underlying principles examined through lectures, readings, craft analysis, discussions, exercises, and workshops; activities linked with International Writing Program. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:311 (SPAN:6260) Detective Narrative Workshop
Basic elements of narrative used by authors of detective novels; acclaimed short stories, novels, and theatrical related to the genre; write three short stories of detective fiction; written critique of classmates' work. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:312 (SPAN:6230) Graphic Novel/Comic Script Workshop
Basic steps to develop a comic book or a graphic novel; different styles and ways to develop scripts and characters; read main authors and their graphic works; student work on possible script or group of characters. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:313 (SPAN:6240) Advanced Narrative Workshop
Short stories written by internationally published authors; meetings with international authors; reading and discussion of students' short stories or sequential chapters of a novel; for students who have previously completed at least one workshop on narrative in the M.F.A. program. Requirements: admission to M.F.A. in Spanish Creative Writing program. 3 s.h.

035:314 (SPAN:6250) Advanced Poetry Workshop
Analysis and discussion of students' poetic manuscript; work of other poets in context with personal creative experience; meetings with visiting poets and International Writing Programs. Requirements: admission to M.F.A. Spanish Creative Writing program and at least one workshop on poetry in the M.F.A. program. 3 s.h.

035:315 (SPAN:6280) Nonfiction Workshop
Practice of self narrative and the construction of the self in literature; readings of self-narrated texts in different literary forms and cultural traditions (from autobiography to testimonial narratives); various ways in which the narrating self is formed and deformed by literary conventions that define him/her; readings as springboards for thinking on ways to write the self; series of autobiographical sketches. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:316 (SPAN:6270) Children, Youth Literature
Practice of writing literature for children and youth; reading literary texts in different cultural traditions; how narratives and poems for children or youth are created; using readings as springboards for thinking and writing for children and youth; texts for this group of readers. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:317 (SPAN:6235) Film Script/Theater Workshop
Basic steps to developing plays; different styles and ways to develop plays and characters; reading main authors and their plays; student work on a possible play. Requirements: admission to M.F.A. in Spanish Creative Writing program. 3 s.h.

035:318 (SPAN:6220) Introductory Workshop: Writing Poetry
Construction and recognition of poetic voice through readings, analysis, and exercises from different poets and by students; poetic voice in three spaces (diary of poetic prose, collection of poems, object poem). Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.

035:399 (SPAN:6299) Thesis: Creative Writing
Continuation of work on student manuscript. Requirements: admission to M.F.A. Spanish Creative Writing program. 3 s.h.
Portuguese for Undergraduate and Graduate Students

038:020 (PORT:1800) Contemporary Brazilian Narrative 3 s.h.
Novels, short stories, other narrative forms, beginning with neorealists of 1930s; cultural background of different periods, innovative literary approaches of writers through films, other media. Prerequisites: 08G:001 (ENGL:1200). GE: Literary, Visual, and Performing Arts.

038:070 (PORT:2700) Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as 035:070 (SPAN:2700), 130:070 (LAS:2700), 187:070 (IS:2700).

038:077 (PORT:1810) Brazil: The Erotic/Exotic Lure 3 s.h.
Popular culture (carnaval, soccer, lay and religious festivities), the land, and the people. Taught in English.

038:100 (PORT:3010) Accelerated Elementary Portuguese 6 s.h.
First-year course in one semester; comprehending, speaking, reading, writing modern Portuguese; emphasis on speaking. GE: World Languages Second Level Proficiency.

038:101 (PORT:3020) Accelerated Intermediate Portuguese 6 s.h.
Second-year course in one semester; reading comprehension, oral and writing skills; grammar review. Prerequisites: 038:100 (PORT:3010). GE: World Languages Fourth Level Proficiency.

038:102 (PORT:3050) Portuguese for Spanish Speakers 3 s.h.
Systematic differences and similarities between Spanish and Portuguese; emphasis on reading, writing. Requirements: seven courses numbered above 035:100.

038:103 (PORT:3100) Composition and Conversation 3 s.h.
Speaking, writing skills through discussion and oral presentations, grammar and vocabulary review, composition; materials from current Brazilian newspapers, magazines, short fiction, telenovelas and films. Prerequisites: 038:101 (PORT:3020).

038:104 (PORT:3200) Introduction to Literary Analysis 3 s.h.
Basic concepts of genre, literary periods, narrative and literary analysis; close reading of literary texts in Portuguese; tools for improving reading and writing skills. Taught in Portuguese. Prerequisites: 038:101 (PORT:3020).

038:105 (PORT:3350) Brazilian Literature Before 1900 3 s.h.
Beginnings through end of 19th century; representative readings from all periods and genres; focus on works of major Brazilian authors such as Gonzaga, Alencar, Castro Alves, Machado de Assis, Cruz e Sousa. Taught in Portuguese. Prerequisites: 038:101 (PORT:3020).

038:106 (PORT:3400) Brazilian Literature After 1900 3 s.h.
Twentieth-century poetry, novels, short stories; modernism, regionalism, generation of '45, concretism; works of principal figures behind these movements; focus on major writers of modern period, such as Lima Barreto, Mário de Andrade, Drummond, Jorge Amado, Cabral de Melo Neto, Guimarães Rosa, Lispector, and contemporary writers. Taught in Portuguese. Prerequisites: 038:101 (PORT:3020).

038:107 (PORT:3500) Introduction to Portuguese Literature 3 s.h.

038:112 (PORT:4000) Topics in Luso-Brazilian Literature 3 s.h.
Genres, themes, movements. Taught in Portuguese. Requirements: one Portuguese or Brazilian literature course.

038:115 (PORT:2800) Writing Brazil in the U.S. 3 s.h.
Representation of the Amazon region and Rio de Janerio in travel narratives, novels, diaries, journals, letters, poems, and essays by American authors published in the United States. Taught in English.

038:119 (PORT:3150) Topics in Portuguese Language 3 s.h.
Various aspects of Portuguese language use. Prerequisites: 038:101 (PORT:3020) or 038:102 (PORT:3050).

038:120 (PORT:4100) Topics in Luso-Brazilian Culture 3 s.h.
Comparative analysis of Brazil and Portuguese-speaking countries in Africa; colonization, independence, religion, music, language. Taught in Portuguese. Prerequisites: 038:101 (PORT:3020).

038:176 (PORT:4700) Latin American Studies Seminar 3 s.h.

038:179 (PORT:4998) Special Work 1-3 s.h.

038:198 (PORT:4999) Honors Research and Thesis 2-3 s.h.
Requirements: honors standing.

038:279 (PORT:6998) Special Work arr.
Statistics and Actuarial Science

Chair
Luke Tierney

Professors
Kathryn Chaloner (Biostatistics/Statistics and Actuarial Science), Kung-Sik Chan, Richard L. Dykstra, Jian Huang (Statistics and Actuarial Science/Biostatistics), Michael P. Jones (Biostatistics/Statistics and Actuarial Science), Joseph B. Lang (Statistics and Actuarial Science/Biostatistics), Johannes Ledolter (Management Sciences/Statistics and Actuarial Science), Russell V. Lenth, Paul S. Muhly (Mathematics/Statistics and Actuarial Science), Ralph P. Russo, Elias S.W. Shiu (Principal Financial Group Professor of Actuarial Science), Qihe Tang, Luke Tierney (Ralph E. Wareham Professor of Mathematical Sciences), Dale Zimmerman (Robert V. Hogg Professor of Statistics; Statistics and Actuarial Science/Biostatistics)

Professors emeriti
James D. Broffitt, Jonathan D. Cryer, John Geweke (Statistics and Actuarial Science/Economics), Robert V. Hogg, George G. Woodworth (Statistics and Actuarial Science/Biostatistics), Robert F. Woolson (Biostatistics/Statistics and Actuarial Science)

Associate professors
Mary Kathryn Cowles (Statistics and Actuarial Science/Biostatistics), N.D. Shyamalkumar, Osnat Stramer

Assistant professors
Rhonda DeCook, Joyee Ghosh, Jerome Pansera, Aixin Tan, Ting Zhang

Lecturers
Matthew A. Bognar, Mary D. Russo, Blake Whitten

Undergraduate majors:
- statistics (B.S.); actuarial science (B.S.)

Undergraduate minor: statistics

Graduate degrees:
- M.S. in statistics (optional subtrack in actuarial science); Ph.D. in statistics

Web site: http://www.stat.uiowa.edu

Probability and statistics is an important scientific discipline essential to all fields of study that rely on information obtained from data. In a world bombarded with numerical information, informed decisions rely on the ability to separate fact from fiction by applying valid statistical analyses. Statisticians can provide crucial guidance in determining what information is reliable and which predictions may be trusted. They often help search for clues to the solution of a scientific mystery and sometimes keep investigators from being misled by false impressions.

The work of a statistician may range from the theoretical (developing new methodologies and statistical theory) to the applied (working with scientists and decision makers to collect, analyze, and interpret data). Regardless of the areas in which they work, statisticians need a strong background in mathematics and computer use. Because uncertainty and data arise in many settings, statisticians have the opportunity to work on a variety of projects in industry, education, government, and research. Thousands of statisticians work in medicine, law, agriculture, public policy, marketing, manufacturing, engineering, and other fields in the social and natural sciences. The diversity of applications is an exciting aspect of the field and is one reason why the demand for well-trained statisticians continues to be strong.

An actuary is a business executive, professionally trained in the mathematical sciences. Actuaries specialize in the evaluation of financial risk—most often in the context of life, health, and casualty insurance, where they design, analyze, and refine varied programs to meet the insurance needs of society. Most actuaries are employed by insurance companies, where they have responsibilities for all phases of the development and maintenance of their company’s products. They have considerable influence on the financial soundness of their company through work in pricing insurance policies and in compiling data for financial statements.

Many actuaries are employed as consultants. Their actuarial services are used by smaller insurance companies and by individual employers who need actuarial guidance in establishing insurance and retirement programs for their employees. A growing number of actuaries work in the areas of asset/liability management and risk management. Some of these actuaries are employed by investment and consulting firms; others are employed by insurance companies.

Actuaries have been called financial architects and social mathematicians, because their combined analytical and business skills help solve a growing variety of financial and social problems. The actuarial profession is a demanding yet rewarding career choice.

Graduates of the Department of Statistics and Actuarial Science have enjoyed great success in finding employment at all levels of the profession’s fields.

Undergraduate Programs
- Major in statistics (Bachelor of Science)
- Major in actuarial science (Bachelor of Science)
- Minor in statistics

Bachelor of Science: Statistics

The Bachelor of Science with a major in statistics requires a minimum of 120 s.h., including a minimum of 49 s.h. of work for the major. Students complete 10 core courses that provide essential instruction in statistical methods, applications, and theory. In addition, they concentrate on their particular interest areas by completing four courses in one of the following three emphasis tracks: the statistics in business, industry, government, and research track; the statistical computing track; or the mathematical statistics track (see “Emphasis Tracks” below for track descriptions and course lists).

All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The major in statistics requires the following course work.

CORE COURSES

All students complete the following.

Computer science:
22C:016 (CS:1210) Computer Science I: Fundamentals 4 s.h.

Mathematics—all of these:
22M:027 (MATH:2700) Introduction to Linear Algebra 4 s.h.
22M:028 (MATH:2850) Calculus III 4 s.h.

Statistics—all of these:
22S:152 (STAT:3200) Applied Linear Regression 3 s.h.
22S:158 (STAT:3210) Experimental Design and Analysis 3 s.h.

Emphasis Tracks

Students complete four courses in their choice of one of the following three emphasis tracks.

STATISTICS IN BUSINESS, INDUSTRY, GOVERNMENT, AND RESEARCH TRACK

The statistics in business, industry, government, and research track emphasizes statistical applications and data analysis. It is appropriate for students interested in careers as applied statisticians.

171:164 (BIOS:5310) Research Data Management 3 s.h.

Three of these:
22S:133 (STAT:3620) Quality Control 3 s.h.
22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
22S:165 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
22S:173 (STAT:6220) Statistical Consulting 3 s.h.
22S:183 (BIOS:6510)-22S:184 (STAT:6550) Design of Sample Surveys and Functions 3 s.h.
22S:185 (BIOS:6310)-22S:186 (STAT:6550) Introduction to Longitudinal Data Analysis 3 s.h.

STATISTICAL COMPUTING TRACK

The statistical computing track emphasizes statistical applications and requires additional course work in computing. It prepares students for statistical work that requires computing expertise for data management, analysis, and reporting.

22C:022 (CS:2820) Object-Oriented Software Development 4 s.h.
171:164 (BIOS:5310) Research Data Management 3 s.h.

Two of these:
22C:072 (CS:3700) Elementary Numerical Analysis 3 s.h.
22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
22S:166 (STAT:5400) Computing in Statistics 3 s.h.
22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
22S:173 (STAT:6220) Statistical Consulting 3 s.h.

MATHEMATICAL STATISTICS TRACK

The mathematical statistics track provides a solid foundation in statistical theory and applications. It requires additional course work in mathematics and is good preparation for graduate study in statistics.

22M:055 (MATH:3770) Fundamental Properties of Spaces and Functions I 4 s.h.

Three of these:
22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
22S:173 (STAT:6220) Statistical Consulting 3 s.h.
171:173 (BIOS:6510) Design of Sample Surveys 3 s.h.

If 22S:153 (STAT:4100) Mathematical Statistics I and 22S:154 (STAT:4101) Mathematical Statistics II are used to satisfy the core requirements, they may not be used to satisfy the track requirement.

Bachelor of Science: Actuarial Science

The Bachelor of Science with a major in actuarial science requires a minimum of 120 s.h., including 62 s.h. of work for the major. The program prepares students for careers as actuaries. It also helps them learn material that is included in professional examinations administered by the Casualty Actuarial Society and/or the Society of Actuaries, which actuaries must pass in order to achieve professional status.

Students take a variety of actuarial science courses. In addition, preparation for business aspects of the actuarial profession requires the study of accounting, law, finance, insurance, and economics. Courses relating to communication skills, such as writing and speaking, are also important.

Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Due to the demanding nature of the actuarial science major and the difficulty of the professional examinations, the department maintains a selective admission program for actuarial science. Students must apply and be admitted to the major.

Students interested in becoming actuaries should declare an interest in actuarial science as their major when they enter the University. Ordinarily, students apply for admission to the actuarial science major in the fall semester of their sophomore year, after they have taken 22M:055 (MATH:3770) Fundamental Properties of Spaces and Functions I and 22S:130 (STAT:3100) Introduction to Mathematical Statistics I. Students should apply no later than the end of the spring semester of their junior year.

Students admitted to the actuarial science major usually have completed at least 40 s.h. at the University or at
another postsecondary institution, including a three- or four-course calculus sequence, a course in linear algebra, and a calculus-based course in probability and statistics. The admission decision is based on the student’s performance in these courses and other courses relevant to success in the major. The student’s grades from semester to semester also are considered. ACT or SAT scores are considered in evaluating transfer students. Factors such as work ethic, enthusiasm, and commitment may be considered.

Students who do well in prerequisite math courses tend to be most successful in actuarial science.

For application forms and more information about selective admission, contact the Department of Statistics and Actuarial Science.

Permission to substitute course work taken at another institution for required courses at Iowa is decided case by case.

The major in actuarial science requires the following course work.

Computer science:

22C:016 (CS:1210) Computer Science I: Fundamentals 4 s.h.

Economics—both of these:

06E:001 (ECON:1100) Principles of Microeconomics 4 s.h.
06E:002 (ECON:1200) Principles of Macroeconomics 4 s.h.

Mathematics—all of these:

22M:027 (MATH:2700) Introduction to Linear Algebra 4 s.h.
22M:028 (MATH:2850) Calculus III 4 s.h.
22M:055 (MATH:3770) Fundamental Properties of Spaces and Functions I 4 s.h.

Statistics and actuarial science—all of these:

22S:174 (ACTS:4130) Quantitative Methods for Actuaries 3 s.h.
22S:179 (ACTS:3085) Introduction to Mathematics of Finance 4 s.h.
22S:183 (ACTS:4380) Mathematics of Finance II 3 s.h.

In exceptional cases, the advisor may grant permission to waive 22S:130 (STAT:3100) Introduction to Mathematical Statistics I and/or 22S:131 (STAT:3101) Introduction to Mathematical Statistics II.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Much of the course work in statistics and in actuarial science is sequential, so students must begin requirements for the major as soon as possible. Individual study plans must be made carefully. Students who first enroll for a spring semester must consult the department to confirm a four-year plan.

B.S.: Statistics

Courses must be taken in sequence, so students must begin work early.

Before the third semester begins: at least one-fourth of the semester hours required for graduation

Before the fifth semester begins: at least four courses in the major, including 22M:025 (MATH:1850) Calculus I, 22M:026 (MATH:1860) Calculus II, and 22S:030 (STAT:2010) Statistical Methods and Computing, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: seven or eight courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: nine or ten courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.S.: Actuarial Science

Before the third semester begins: 22M:025 (MATH:1850) Calculus I, 22M:026 (MATH:1860) Calculus II, 22M:027 (MATH:2700) Introduction to Linear Algebra, and at least one-quarter of the semester hours required for graduation

Before the eighth semester begins: 22S:182 (ACTS:4280) Life Contingencies II

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors

Qualified undergraduate students majoring in statistics or actuarial science may work toward graduation with
honors. Honors students in statistics and in actuarial science must be members of the University of Iowa Honors Program, which requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). They also must maintain a g.p.a. of at least 3.40 in departmental courses.

To graduate with honors in the statistics major, students must complete an honors project or a suitable alternative. Statistics honors students should consult with the statistics honors advisor.

To graduate with honors in the actuarial science major, students must complete the following five courses in addition to all courses required for the major.

- 06F:117 (FIN:3300) Corporate Finance 3 s.h.
- 22M:100 (MATH:3600) Introduction to Ordinary Differential Equations (or 22M:178) 2-3 s.h.
- 22S:150 (STAT:4510) Regression, Time Series, and Forecasting (or 22S:152 and 22S:156) 3 s.h.
- 22S:176 (ACTS:6580) Credibility and Survival Analysis 3 s.h.
- 22S:177 (ACTS:6480) Loss Distributions 3 s.h.

Actuarial science honors students may not elect to complete 22S:176 (ACTS:6580) Credibility and Survival Analysis and 22S:177 (ACTS:6480) Loss Distributions instead of 22S:183 (ACTS:4380) Mathematics of Finance II in fulfilling requirements for the actuarial science major. They must complete 22S:183 (ACTS:4380) as part of the major, and they must complete 22S:176 (ACTS:6580) and 22S:177 (ACTS:6480) for honors credit.

### Minor in Statistics

The minor in statistics requires a minimum of 15 s.h. in statistics courses, including 12 s.h. in 100-level courses taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. The minor requires the following courses:

Two of these:

- 22S:105 (STAT:4200) Statistical Methods and Computing 3 s.h.
- 22S:152 (STAT:3200) Applied Linear Regression 3 s.h.

Three of these:

- 22S:120 (STAT:3120) Probability and Statistics 4 s.h.
- 22S:130 (STAT:3100) Introduction to Mathematical Statistics I 3 s.h.
- 22S:131 (STAT:3101) Introduction to Mathematical Statistics II 3 s.h.
- 22S:133 (STAT:3620) Quality Control 3 s.h.
- 22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
- 22S:154 (STAT:4101) Mathematical Statistics II 3 s.h.
- 22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
- 22S:158 (STAT:3210) Experimental Design and Analysis 3 s.h.
- 22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
- 22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.

### Graduate Programs

- Master of Science in statistics (actuarial science subtrack available)
- Doctor of Philosophy in statistics

### Master of Science

The Master of Science program in statistics requires 34 s.h. of graduate credit. The program prepares students for careers as professional statisticians or for entry into the Ph.D. program. It includes a solid foundation in statistical computing, statistical modeling, experimental design, and mathematical statistics plus electives in statistical methods and/or theory. Students have the opportunity to concentrate on theory or applications or a combination of the two.

In addition to required course work, students must pass the two-part graduate core examination and complete the M.S. creative component. The examination and creative component constitute the M.S. final (comprehensive) examination required by the Graduate College.

M.S. students in statistics must maintain a g.p.a. of at least 3.00 in all work toward the degree and in additional relevant course work. Students must take a computer programming proficiency test during the first semester of study; those who display inadequate programming skills are assigned activities to build their proficiency.

The Master of Science program in statistics requires the following work.

### STATISTICS COURSES

All of these:

- 22S:166 (STAT:5400) Computing in Statistics 3 s.h.
- 22S:170 (STAT:5090) ALPHA Seminar 1 s.h.
- 22S:173 (STAT:6220) Statistical Consulting 3 s.h.
- 22S:197 (STAT:6990) Readings in Statistics (two consecutive enrollments) 2 s.h.

At least three of these:

- 22S:138 (STAT:4520) Bayesian Statistics 3 s.h.
- 22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
- 22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
- 22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
- 22S:163 (STAT:6547) Nonparametric Statistical Methods 3 s.h.
- 22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
- 22S:172 (STAT:6970) Topics in Statistics 3 s.h.
- 22S:196 (STAT:6301) Probability and Stochastic Processes II 3 s.h.

A Ph.D.-level course (22S:200 and above) 3 s.h.

M.S. students planning to enter the doctoral program may wish to include 22S:190 (STAT:5120) Mathematical Methods for Statistics.
Methods for Statistics in their course selections, since it is part of the required Ph.D. core.

**GRADUATE CORE EXAMINATION**

Graduate core exams are offered the week before classes begin in August and in January. Study guides are available in the department office. Students who do not succeed the first time they take the exam may repeat it once.

Students must complete all requirements and be granted the Master of Science within one calendar year of passing the graduate core examination; those who do not meet this deadline are required to take the exam again.

**CREATIVE COMPONENT**

The M.S. creative component is related to each student’s individual application and career interests. The student writes a report (8-15 pages) on a suitable topic, under an advisor’s supervision, enrolling twice in 22S:197 (STAT:6990) Readings in Statistics, normally during the fall and spring semesters of the second year in the program. The student completes a draft of the paper by the end of the first enrollment and a polished version by mid-semester of the second enrollment. He or she presents the paper orally in a public seminar, and the paper is evaluated by a faculty committee.

Students who will enter the doctoral program may satisfy the M.S. creative component requirement by completing the creative component of the Ph.D. program; see “Doctor of Philosophy” below.

**M.S. with Actuarial Science Subtrack**

The Master of Science program in statistics with actuarial science subtrack requires 36 s.h. of graduate credit. The program prepares students for actuarial careers by emphasizing the theory that underlies risk processes and the application of this theory to practical problems of insurance pricing and management. It also helps them learn material included in the professional examinations administered by the Casualty Actuarial Society and/or the Society of Actuaries, which actuaries must pass in order to achieve professional status.

Students in the actuarial science subtrack complete required courses and an M.S. final (comprehensive) examination.

The M.S. in statistics with actuarial science subtrack requires the following course work.

One of these sequences:

- 22S:193 (STAT:5100)-22S:194 (STAT:5101) Statistical Inference I-II (for well-prepared students) 6 s.h.

All of these:

- 22S:150 (STAT:4510) Regression, Time Series, and Forecasting 3 s.h.
- 22S:171 (ACTS:6160) Topics in Actuarial Science 3 s.h.
- 22S:174 (ACTS:4130) Quantitative Methods for Actuaries 3 s.h.
- 22S:176 (ACTS:6580) Credibility and Survival Analysis 3 s.h.
- 22S:177 (ACTS:6480) Loss Distributions 3 s.h.
- 22S:180 (ACTS:3080) Mathematics of Finance I 3 s.h.
- 22S:183 (ACTS:4380) Mathematics of Finance II 3 s.h.

**M.S. FINAL EXAMINATION**

The M.S. final (comprehensive) examination is offered the weekend before classes begin in January. The exam covers the material presented in 22S:171 (ACTS:6160) Topics in Actuarial Science, 22S:181 (ACTS:4180) Life Contingencies I, 22S:182 (ACTS:4280) Life Contingencies II, and 22S:183 (ACTS:4380) Mathematics of Finance II. Students who do not succeed the first time they take the exam may repeat it once.

**Doctor of Philosophy**

The Doctor of Philosophy program in statistics requires a minimum of 72 s.h. of graduate credit, including work done for the master’s degree. The program prepares students for careers in research, applications, and teaching.

Ph.D. students complete required course work, including four courses in one of four concentration areas: biostatistics, probability/mathematical statistics, statistical modeling and computing, or actuarial science/financial mathematics (see “Concentration Areas” below for area descriptions and course lists). They may take course work or seminars in other departments to relate an area of specialization to other fields of knowledge, to acquire the ability to use electronic digital computing equipment, or to learn non-English language skills necessary for reading scientific journals and communicating with scholars in other languages.

They also take the two-part graduate core examination and complete the Ph.D. creative component. Students are admitted to Ph.D. candidacy upon successful completion of the graduate core exam and creative component.

Students complete the program by passing the Ph.D. final (comprehensive) examination and writing and defending a dissertation. Students usually complete the program three years after earning the master’s degree.

A program that does not conform to the requirements described below but is of high quality may be approved by the department chair.

Ph.D. students in statistics must maintain a g.p.a. of at least 3.00 in all work toward the degree and in additional relevant course work.

Each semester a Ph.D. student in statistics registers for at least 6 s.h., he or she must include at least one 2 s.h. course offered by the department, excluding 22S:197 (STAT:6990) Readings in Statistics and 22S:299 (STAT:7990) Reading Research.

The Doctor of Philosophy in statistics requires the following work.
STATISTICS COURSES
Ph.D. core included in the M.S. program—all of these:

- 22S:166 (STAT:5400) Computing in Statistics 3 s.h.
- 22S:170 (STAT:5090) ALPHA Seminar 1 s.h.
- 22S:173 (STAT:6220) Statistical Consulting 3 s.h.
- 22S:197 (STAT:6990) Readings in Statistics (two consecutive enrollments) 2 s.h.

Additional Ph.D. core—all of these:

- 22S:203 (STAT:7300) Foundations of Probability I 3 s.h.
- 22S:253 (STAT:7100) Advanced Inference I 3 s.h.
- 22S:254 (STAT:7101) Advanced Inference II 3 s.h.
- 22S:255 (STAT:7200) Linear Models 3 s.h.
- Seminars, at least 2 s.h. of 22S:291 (STAT:7190) or 22S:293 (STAT:7390) or 22S:295 (STAT:7290) or 22S:299 (STAT:7990) Research Reading 18 s.h.

CONCENTRATION AREAS
Students take at least four courses in one of the following concentration areas; at least two of the four courses must be at the Ph.D. level (numbered 200 or above).

Biostatistics
Biostatistics emphasizes exposure to various biostatistical methods, such as survival analysis, categorical data analysis, and longitudinal data analysis. It prepares students for consulting and other positions in industry.

- 22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
- 22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
- 22S:220 (STAT:7510) Analysis of Categorical Data 3 s.h.
- 22S:225 (STAT:7570) Survival Data Analysis 3 s.h.
- 171:185 (BIOS:6410) Microarray Data Analysis 3 s.h.
- 171:264 (BIOS:7310) Longitudinal Data Analysis 3 s.h.

Probability/Mathematical Statistics
Probability/mathematical statistics emphasizes a broad, solid foundation in techniques and underpinnings of mathematical statistics. Its focus on breadth and depth is intended to produce well-rounded, knowledgeable scholars. It is excellent preparation for academic positions in mathematical statistics and industrial or government positions that require broadly trained statisticians with a strong understanding of statistical theory.

- 22S:196 (STAT:6301) Probability and Stochastic Processes II 3 s.h.
- 22S:204 (STAT:7301) Foundations of Probability II 3 s.h.
- 22S:235 (STAT:7560) Time Series Analysis 3 s.h.
- 22S:238 (STAT:7520) Bayesian Analysis 3 s.h.

Statistical Modeling and Computing
Statistical modeling and computing emphasizes the theory and application of a broad array of statistical models, such as linear, generalized linear, nonlinear, categorical, spatial, correlated response, and nonparametric regression models. This concentration area prepares students to specify and choose appropriate models; fit the models using available statistical software; and make sound statistical conclusions and interpretive statements. It is excellent preparation for students interested in academic, industrial, or government positions that involve data modeling and analysis.

- 22S:156 (STAT:6560) Applied Time Series Analysis 3 s.h.
- 22S:161 (STAT:6540) Applied Multivariate Analysis 3 s.h.
- 22S:162 (STAT:6510) Applied Generalized Regression 3 s.h.
- 22S:167 (STAT:6530) Environmental and Spatial Statistics 3 s.h.
- 22S:172 (STAT:6970) Topics in Statistics 3 s.h.
- 22S:220 (STAT:7510) Analysis of Categorical Data 3 s.h.
- 22S:235 (STAT:7560) Time Series Analysis 3 s.h.
- 22S:238 (STAT:7520) Bayesian Analysis 3 s.h.

Actuarial Science/Financial Mathematics
Actuarial science/financial mathematics emphasizes the theory of actuarial science, finance, and risk management. It is excellent preparation for academic positions in universities that offer actuarial science programs and for positions in the insurance, pension, and financial industries. Most students who choose this concentration area are admitted after earning an M.S. in statistics with actuarial science emphasis at The University of Iowa.

- 06F:225 (FIN:7110) Finance Theory I 3 s.h.
- 06F:227 (FIN:7130) Finance Theory II 3 s.h.
- 22S:196 (STAT:6301) Probability and Stochastic Processes II 3 s.h.
- 22S:235 (STAT:7560) Time Series Analysis 3 s.h.

GRADUATE CORE EXAMINATION

Students planning to enter the doctoral program must pass the examination at the Ph.D. encouragement level.

Graduate core examinations are offered the week before classes begin in August and in January. Study guides are available in the department’s office. Students who do not succeed the first time they take the exam may repeat it once.

Students entering the Ph.D. program who already have taken the equivalent of the first-year courses may take the graduate core examination before beginning further studies.

CREATIVE COMPONENT
The Ph.D. creative component is research oriented and related to a potential dissertation topic. The student chooses a faculty advisor for the component and writes a research paper (8-15 pages), enrolling in 22S:197 (STAT:6990) Readings in Statistics twice, normally during the fall and spring semesters of the second year in the program. The student completes a draft of the paper by the end of the first enrollment and a polished version by mid-semester of the second enrollment. He or she presents the paper orally in a public seminar, and the paper is evaluated by a faculty committee.
Students must complete the creative component within one calendar year of passing the graduate core examination at the Ph.D. encouragement level; those who do not meet this deadline are required to take the exam again.

**PH.D. FINAL EXAMINATION**

Students typically take the Ph.D. final (comprehensive) examination at the beginning of the third year of graduate study, during the week before fall classes begin. Students who do not succeed the first time they take the exam may repeat it once.

The comprehensive examination consists of a written core examination and an oral examination in two of the following four areas:

- statistical inference [topics in 22S:253 (STAT:7100) Advanced Inference I];
- linear models [topics in 22S:255 (STAT:7200) Linear Models];
- statistical modeling and computing [topics in 22S:248 (STAT:7400) Computer Intensive Statistics and concentration courses in modeling].

Ph.D. students in the actuarial science/financial mathematics concentration area may qualify to take an examination designed by their advisor and approved by the director of graduate studies.

**PH.D. COMMITTEE**

Upon passing the Ph.D. final exam, the candidate chooses a committee of at least five members, which is approved by the advisor. One of the committee members must be from outside the student’s home discipline and may not serve as the committee’s chair.

**PROSPECTUS**

Within 12 months of passing the Ph.D. final exam, the candidate presents a written and oral prospectus to the committee. The prospectus describes the problems the student is considering for the thesis, relevant background material, ideas for solving the problems, and any preliminary results.

**Financial Support**

Funds are available to help support outstanding applicants. Fellowships, teaching assistantships, and research assistantships provide an attractive stipend plus resident tuition status and tuition scholarships for students who are appointed at least one-quarter time. In some cases, full tuition waivers are granted.

Students who wish to be considered for financial assistance for their third year in the program should request a Ph.D. candidacy review no later than the spring semester of their second year.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

**Facilities**

The Department of Statistics and Actuarial Science is housed in Schaeffer Hall, adjacent to Old Capitol, a National Historic Landmark and the center of campus. The department operates two computer labs in Schaeffer Hall. One, which also is used as an electronic classroom, contains 28 Windows PCs. The second houses 18 high-end UNIX workstations. Students use these labs for both class work and research.

**Courses**

**Primarily for Undergraduates**

**22S:002 (STAT:1010) Statistics and Society** 3 s.h.

Statistical ideas and their relevance to public policy, business, and the social, health, and physical sciences; focus on critical approach to statistical evidence. Requirements: one year of high school algebra or 22M:001 (MATH:0100). GE: Quantitative or Formal Reasoning.

**22S:008 (STAT:1030) Statistics for Business** 4 s.h.

Descriptive statistics, graphical presentation, elementary probability, estimation and testing, regression, correlation; statistical computer packages. Prerequisites: 22M:008 (MATH:1005). GE: Quantitative or Formal Reasoning.

**22S:025 (STAT:1020) Elementary Statistics and Inference** 3 s.h.

**22S:029 (STAT:1000) First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
3 s.h.
Methods of data description and analysis using SAS: descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Prerequisites: 22M:008 (MATH:1005). GE: Quantitative or Formal Reasoning.

3 s.h.
Descriptive statistics, exploratory data analysis, random variables, important discrete and continuous distributions, point and interval estimation, tests of hypotheses, regression. Prerequisites: 22M:032 (MATH:1560).

For Undergraduate and Graduate Students

22S:101 (STAT:3510) Biostatistics
3 s.h.
Statistical concepts and methods for the biological sciences; descriptive statistics, elementary probability, sampling distributions, confidence intervals, parametric and nonparametric methods, one-way ANOVA, correlation and regression, categorical data. Prerequisites: 22M:001 (MATH:1005).

22S:102 (STAT:5543) Introduction to Statistical Methods
3 s.h.
Analysis, interpretation of research data; descriptive statistics; introduction to probability, sampling theory, statistical inference (binomial, normal distribution, t-distribution models); linear correlation, regression. Same as 07P:143 (PSQF:5143).

22S:105 (STAT:4200) Statistical Methods and Computing
3 s.h.
Methods of data description and analysis using SAS: descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Prerequisites: 22M:008 (MATH:1005).

22S:120 (STAT:3120) Probability and Statistics
4 s.h.
Models, discrete and continuous random variables and their distributions, estimation of parameters, testing statistical hypotheses. Prerequisites: 22M:026 (MATH:1860) or 22M:032 (MATH:1560).

22S:130 (STAT:3100) Introduction to Mathematical Statistics I
3 s.h.
Descriptive statistics, probability, discrete and continuous distributions, sampling, sampling distributions. Prerequisites: 22M:026 (MATH:1860) or 22M:032 (MATH:1560).

22S:131 (STAT:3101) Introduction to Mathematical Statistics II
3 s.h.
Estimation, testing statistical hypotheses, linear models, multivariate distributions, nonparametric methods. Prerequisites: 22S:130 (STAT:3100).

22S:133 (STAT:3620) Quality Control
3 s.h.
Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and industrial experimentation; modern management aspects of quality assurance systems. Offered fall semesters. Prerequisites: 22S:030 (STAT:2010) and 22S:039 (STAT:2020). Same as 056:162 (IE:3600), 053:142 (CEE:3142).

22S:138 (STAT:4520) Bayesian Statistics
3 s.h.
Bayesian statistical analysis, with focus on applications; Bayesian and frequentist methods compared; Bayesian model specification, choice of priors, computational methods; hands-on Bayesian data analysis using appropriate software; interpretation and presentation of analysis results. Prerequisites: 22S:120 (STAT:3120) and 22S:152 (STAT:3200). Same as 07P:148 (PSQF:4520).

22S:140 (STAT:5610) Design and Analysis of Biomedical Studies
3 s.h.
Simple and multiple linear regression and correlation; one- and two-way layout considerations in planning experiments; factorial experiments; multiple comparison techniques; orthogonal contrasts. Offered spring semesters. Prerequisites: 171:161 (BIOS:5110). Same as 171:162 (BIOS:5120).

22S:148 (STAT:6513) Intermediate Statistical Methods
4 s.h.

22S:150 (STAT:4510) Regression, Time Series, and Forecasting
3 s.h.
Regression analysis, forecasting, time series methods; use of statistical computing packages. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101). Requirements: grade of C+ or higher in 22S:154 (STAT:4101) or 22S:194 (STAT:5101).

22S:152 (STAT:3200) Applied Linear Regression
3 s.h.
Regression analysis with focus on applications; model formulation, checking, selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA, hands-on data analysis with computer software. Prerequisites: 22S:030 (STAT:2010) or 22S:039 (STAT:2020). Same as 056:176 (IE:3760).

22S:153 (STAT:4100) Mathematical Statistics I
3 s.h.
Probability, conditional probability, random variables, distribution and density functions, joint and conditional distributions, various families of discrete and continuous distributions, mgf technique for sums, convergence in distribution, convergence in probability, central limit theorem. Prerequisites: 22S:027 (MATH:2700) and 22M:028 (MATH:2850).

22S:154 (STAT:4101) Mathematical Statistics II
3 s.h.

22S:156 (STAT:6560) Applied Time Series Analysis
3 s.h.
General stationary, nonstationary models, autocovariance autocorrelation functions; stationary, nonstationary autoregressive integrated moving average models; identification, estimation, forecasting in linear models; use of statistical computer packages. Offered spring semesters. Prerequisites: 22S:131 (STAT:3101), and 22S:152 (STAT:3200) or 22S:164 (STAT:5200).

22S:157 (STAT:6514) Correlation and Regression
4 s.h.
22S:158 (STAT:3210) Experimental Design and Analysis
3 s.h.
Single- and multifactor experiments; analysis of variance; multiple comparisons; contrasts; diagnostics; fixed, random, and mixed effects models; designs with blocking and/or nesting; two-level factorials and fractions thereof; use of statistical computing packages. Prerequisites: 22S:030 (STAT:2010) and 22S:152 (STAT:3200).

22S:159 (STAT:6516) Design of Experiments
4 s.h.

22S:160 (STAT:6550) Introductory Longitudinal Data Analysis
3 s.h.
Statistical models and estimation methods used to analyze correlated data (e.g., same subject measured repeatedly); emphasis on use of statistical software. Offered fall semesters of even years. Prerequisites: 22S:152 (STAT:3200), 22S:162 (STAT:6510), 171:203 (BIOS:5730), or 171:241 (BIOS:6110). Same as 171:174 (BIOS:6310).

22S:161 (STAT:6540) Applied Multivariate Analysis
3 s.h.

22S:162 (STAT:6510) Applied Generalized Regression
3 s.h.
Applications of semiparametric models, generalized linear models, nonlinear normal errors models, correlated response models; use of statistical packages, especially SAS. Requirements: introductory statistics and applied linear models.

22S:163 (STAT:6547) Nonparametric Statistical Methods
3 s.h.
Selected nonparametric methods; one- and two-sample location tests and estimation methods, measures of association, analyses of variance; emphasis on relationships to classical parametric procedures. Prerequisites: 07P:243 (PSQF:6243) or 22S:120 (STAT:3120). Same as 07P:247 (PSQF:6247).

4 s.h.
Introduction to computing environments and statistical packages, descriptive statistics, basic inferential methods (confidence intervals, chi-square tests); linear models (regression and ANOVA models—specification and assumptions, fitting, diagnostics, selection, testing, interpretation). Prerequisites: 22S:120 (STAT:3120). Requirements: facility with matrix algebra.

22S:165 (STAT:5201) Applied Statistics II
3 s.h.
Design of experiments and analysis of designed experiments; models for fixed and random effects; mixed models; design and analysis of complex plans; sample-size methods. Prerequisites: 22S:164 (STAT:5200).

22S:166 (STAT:5400) Computing in Statistics
3 s.h.
R; database management; graphical techniques; importing graphics into word-processing documents (e.g., LaTeX); creating reports in LaTeX; SAS; simulation methods (Monte Carlo studies, bootstrap, etc.). Corequisites: 22S:164 (STAT:5200) and 22S:193 (STAT:3100).

22S:167 (STAT:6530) Environmental and Spatial Statistics
3 s.h.
Methods for sampling environmental populations, sampling design, trend detection and estimation, geostatistics, kriging, variogram estimation, lattice data analysis, analysis of spatial point patterns. Prerequisites: 22S:152 (STAT:3200) and 22S:154 (STAT:4101).

22S:170 (STAT:5090) ALPHA Seminar
1 s.h.
Resources available to students, program requirements, tips for academic success, professional statistical organizations, library and career center resources, statistical computing, scientific document preparation, history of statistics. Requirements: graduate standing in statistics.

22S:171 (ACTS:6160) Topics in Actuarial Science
3 s.h.
Prerequisites: 22S:181 (ACTS:4180) and 22S:183 (ACTS:4380). Requirements: grades of C+ or higher in 22S:181 (ACTS:4180) and 22S:183 (ACTS:4380).

22S:172 (STAT:6970) Topics in Statistics
3 s.h.

22S:174 (ACTS:4130) Quantitative Methods for Actuaries
3 s.h.

22S:175 (ACTS:4230) Actuarial Models
3 s.h.
Fundamental theorem of asset pricing; Poisson processes, Markov chains, Brownian motion, financial applications. Offered spring semesters. Prerequisites: 22S:174 (ACTS:4130) and 22S:175 (ACTS:3080). Requirements: grades of C+ or higher in 22S:174 (ACTS:4130) and 22S:180 (ACTS:3080).

22S:176 (ACTS:6580) Credibility and Survival Analysis
3 s.h.
Construction and selection of parametric models; credibility; simulation. Offered spring semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101). Corequisites: 22S:177 (ACTS:6480), Requirements: grade of C+ or higher in 22S:154 (STAT:4101) or 22S:194 (STAT:5101).

22S:177 (ACTS:6480) Loss Distributions
3 s.h.

22S:179 (ACTS:3085) Introduction to Mathematics of Finance
4 s.h.
Mathematics of compound interest, including annuities certain, amortization schedules, yield rates, sinking funds, bonds, introduction to financial derivatives. Offered spring semesters. Prerequisites: 22S:130 (STAT:3100). Requirements: grade of B- or higher in 22S:130 (STAT:3100).

**Primarily for Graduate Students**

- **22S:238 (STAT:7520) Bayesian Analysis**

- **22S:225 (STAT:7570) Survival Data Analysis**
  - Types of censoring and truncation; survival function estimation; life tables; parametric inference using exponential, Weibull, and accelerated failure time models; nonparametric tests; sample size calculation; Cox regression with stratification and time-dependent covariates; regression diagnostics; competing risks; analysis of correlated survival data. Offered fall semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 22S:164 (STAT:5200) or 171:202 (BIOS:5720). Same as 171:262 (BIOS:7410).

- **22S:220 (STAT:7310) Analysis of Categorical Data**
  - Models for discrete data, distribution theory, maximum likelihood and weighted least squares estimation for categorical data, tests of fit, models selection. Offered spring semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 22S:164 (STAT:5200) or 171:202 (BIOS:5720). Same as 171:262 (BIOS:7410).

- **22S:235 (STAT:7560) Time Series Analysis**
  - Stationary time series, ARIMA models, spectral representation, linear prediction inference for the spectrum, multivariate time series, state space models and processes, nonlinear time series. Prerequisites: 22S:154 (STAT:4101) and 22S:156 (STAT:6560).

- **22S:238 (STAT:7520) Bayesian Analysis**

  - Computer arithmetic; random variate generation; numerical optimization; numerical linear algebra; smoothing techniques; bootstrap methods; cross-validation; MCMC; EM and related algorithms; other topics per student/instructor interests. Prerequisites: 22S:131 (STAT:3101), and 22S:164 (STAT:5200) or 171:201 (BIOS:5710). Requirements: proficiency in Fortran or C or C++ or Java.
22S:253 (STAT:7100) Advanced Inference I 3 s.h.
Concepts of convergence, asymptotic methods including the delta method, sufficiency, asymptotic efficiency, Fisher information and information bounds for estimation, maximum likelihood estimation, the EM-algorithm, Bayes estimation, decision theory. Prerequisites: 22S:190 (STAT:5120) and 22S:194 (STAT:5101).

22S:254 (STAT:7101) Advanced Inference II 3 s.h.
Hypothesis testing, asymptotics of the likelihood ratio test, asymptotic efficiency, statistical functionals, robustness, bootstrap and jackknife, estimation with dependent data. Prerequisites: 22S:253 (STAT:7100).

22S:255 (STAT:7200) Linear Models 4 s.h.
Linear spaces and matrix theory, multivariate normal distribution and distributions of quadratic forms, full-rank and non-full-rank linear models, estimability, interval estimation, hypothesis testing, random and mixed models, applications. Prerequisites: 22S:164 (STAT:5200), 22S:165 (STAT:5201), and 22S:194 (STAT:5101).

22S:299 (STAT:7990) Reading Research arr.
Theatre Arts

**Director, Division of Performing Arts**
Alan MacVey

**Chair, Department of Theatre Arts**
Alan MacVey

**Professors**
Eric Forsythe, Alan MacVey, Kim Marra, Bryon Winn

**Professors emeriti**
David Schaal, David Thayer

**Associate professors**
Loyce Arthur, Art Borreca, John Cameron, Merrel Dare Clubb, Sydne Mahone, R. Eric Stone

**Assistant professor**
Paul Kalina

**Lecturers**
James Albert, Meredith Alexander, Carol MacVey, David McGraw

**Undergraduate major:** theatre arts (B.A.)

**Undergraduate minor:** theatre arts

**Graduate degree:** M.F.A. in theatre arts

**Web site:** [http://theatre.uiowa.edu](http://theatre.uiowa.edu)

The Department of Theatre Arts offers academic programs for undergraduate and graduate students. It also stages live performances throughout the academic year and during the summer.

The department is one of three academic units in the Division of Performing Arts (p. 210). It participates in offering the division’s Certificate in Performing Arts Entrepreneurship (p. 445).

**Undergraduate Programs**

- Major in theatre arts (Bachelor of Arts)
- Minor in theatre arts

The undergraduate program in theatre arts is based on the philosophy that the best way to develop future artists is to expose them to rigorous professional practice within the framework of a liberal arts and sciences education.

Department of Theatre Arts students take workshop courses in acting, directing, design, technical theatre, stage management, and playwriting and complement them with classes in dramatic literature, history, and criticism. Students also are encouraged to explore a range of courses throughout the University. Around 25 public productions are staged each year, providing additional opportunities to learn the theatre craft and to develop a personal artistic vision.

The department also educates students who plan to enter other fields in which understanding of the arts and experience with theatre skills are useful. Some pursue a major in theatre arts or work toward a double major in theatre arts and another discipline. Others take theatre classes as nonmajors or earn a minor; see “Minor” and “Courses for Nonmajors” in this section of the Catalog.

**Bachelor of Arts**

The Bachelor of Arts with a major in theatre arts requires a minimum of 120 s.h., including 33 s.h. of work for the major. The required courses listed below constitute the basic experience for all undergraduate theatre arts students. Registration in some courses for the major requires special permission. Contact the Department of Theatre Arts for details.

All students must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

Students majoring in theatre arts may count a maximum of 17 s.h. earned in Department of Theatre Arts elective courses (prefix 049) toward their degree requirements. Theatre arts elective credit in excess of 17 sh. is included on the student’s transcript, but it does not count toward the 120 s.h. required for graduation.

Students must maintain a g.p.a. of at least 2.00 for all courses in the major.

Students who transfer to the University from other accredited two- or four-year institutions must demonstrate that they have successfully completed course work equivalent to the basic requirements of the Department of Theatre Arts and The University of Iowa before they may take advanced-level electives. Consult the department’s director of undergraduate studies for more information.

In planning course work, especially electives, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.A. or B.S. may apply a maximum of 50 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 50 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students must complete a course’s prerequisites before registering for the course. Required courses 049:025 (THTR:2140) Acting I, 049:060 (THTR:2402) Performance Analysis, 049:112 (THTR:2410) History of Theatre and Drama I, and 049:113 (THTR:2411) History of Theatre and Drama II and the design requirement normally are completed within the first four semesters in the major.

Students who complete 049:002 (THTR:1400) Theatre and Society: Ancients and Moderns or 049:003 (THTR:1401) Theatre and Society: Romantics and Rebels before declaring a major in theatre arts must consult the undergraduate director before registering for 049:112 (THTR:2410) History of Theatre and Drama I or 049:113 (THTR:2411) History of Theatre and Drama II.

The theatre arts major requires the following course work.

**THEATRE FOUNDATION COURSES**

All of these:

- 049:025 (THTR:2140) Acting I [3 s.h.]
- 049:060 (THTR:2402) Performance Analysis [3 s.h.]
- 049:044 (THTR:2215) Introduction to Theatrical Production Technology [3 s.h.]
- 049:112 (THTR:2410) History of Theatre and Drama I [3 s.h.]
- 049:113 (THTR:2411) History of Theatre and Drama II [3 s.h.]
- Theatre courses numbered 100 or above [6 s.h.]

**Design—one of these:**

- 049:049 (THTR:2215) Introduction to Theatrical Production Technology [3 s.h.]
- 049:112 (THTR:2410) History of Theatre and Drama I [3 s.h.]
- 049:113 (THTR:2411) History of Theatre and Drama II [3 s.h.]
- Theatre courses numbered 100 or above [6 s.h.]

- [http://theatre.uiowa.edu](http://theatre.uiowa.edu)
One of these:

049:043 (THTR:2200) Elements of Design 3 s.h.
049:134 (THTR:3230) Scene Design I 3 s.h.
049:135 (THTR:3240) Costume Design I 3 s.h.
049:136 (THTR:3250) Lighting Design I 3 s.h.
049:138 (THTR:4240) Costume Design II 3 s.h.

Dramatic literature—one of these:

049:072 (THTR:3287) Shakespeare 3 s.h.
049:116 (THTR:4420) Dramatic Theory 3 s.h.
049:117 (THTR:3440) American Drama Since 1900 3 s.h.
049:118 (THTR:4401) American Women Playwrights: 1776-Present 3 s.h.
049:119 (THTR:4402) Dramas of the Spirit 3 s.h.
049:181 (THTR:3276) Medieval Drama 3 s.h.
049:182 (THTR:3403) Free Style Writing: Poetry, Plays, and Performances 3 s.h.
049:183 (THTR:4413) Black Feminist Tradition and Culture 3 s.h.
049:184 (THTR:3277) English Renaissance Drama 3 s.h.
049:185 (THTR:3415) Cultural Diversity and Identity 3 s.h.
049:186 (THTR:3462) African American Drama 3 s.h.
049:188 (THTR:3420) Sex and Gender in Performance 3 s.h.
049:190 (THTR:3410) African American Theatre I 3 s.h.
049:191 (THTR:3411) African American Theatre II 3 s.h.
049:192 (THTR:3416) Culturally Diverse Theatre 3 s.h.
049:193 (THTR:4403) Studies in Drama 3 s.h.

**PRODUCTION COURSES**

Required production lab:

049:045 (THTR:2220) Production Lab 3 s.h.

Students must earn a total of 3 s.h. in 049:045 (THTR:2220) Production Lab. The course requires students to work backstage on a department production. All students must serve as a crew member on at least one production (normally earning 1 s.h. per production). They have options to earn 2 s.h. for serving as a crew chief or taking on other advanced responsibilities.

Elective production courses:

049:046 (THTR:3220) Construction Technology for New Works 3 s.h.
049:132 (THTR:3501) Stage Management 3 s.h.
049:147 (THTR:3221) Technology for the Entertainment Industry 3 s.h.
049:148 (THTR:3222) Introduction to Props Construction 3 s.h.
049:149 (THTR:3223) Introduction to Lighting Technology 3 s.h.

With the instructor’s approval, students who enroll in one of the five elective production courses [049:046 (THTR:3220) Construction Technology for New Works, 049:132 (THTR:3501) Stage Management, 049:147 (THTR:3221) Technology for the Entertainment Industry, 049:148 (THTR:3222) Introduction to Props Construction, or 049:149 (THTR:3223) Introduction to Lighting Technology] also may enroll in the required production course 049:045 (THTR:2220) Production Lab during the same semester or session and may complete an additional project, earning 1 s.h. for 049:045 (THTR:2220) in addition to the credit they earn for the elective course. Students may earn a maximum of 1 s.h. of required production course credit for 049:045 (THTR:2220) this way.

**CAPSTONE COURSE**

One of these:

049:130 (THTR:4180) Directing I 3 s.h.
049:172 (THTR:4690) Senior Seminar 3 s.h.

**Student Auditions for Theatre Arts Productions**

Theatre arts majors are encouraged to audition for the department’s productions in general auditions at the beginning of the fall semester. Students normally present a three-minute audition consisting of two contrasting pieces. From this audition, callback lists are posted for major productions offered during the first semester. Additional general auditions normally are scheduled in early November and in February.

Students in other majors are welcome to audition for the department’s productions, as are community members (see “Productions and Auditions” later in this section). For academic considerations, theatre arts majors are given first consideration for roles.

Materials and information about the general auditions are available from the Department of Theatre Arts office in August. Notices of auditions for all subsequent productions are posted on the department’s call board.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** three courses in the major chosen from 049:025 (THTR:2140) Acting I, 049:043 (THTR:2400) Elements of Design, 049:060 (THTR:2402) Performance Analysis, 049:112 (THTR:2410) History of Theatre and Drama I, and 049:113 (THTR:2411) History of Theatre and Drama II, and at least one-half of the semester hours required for graduation

**Before the seventh semester begins:** three more courses in the major, two semesters of production credit, and at least three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** two more courses in the major and another semester of production credit

**During the eighth semester:** enrollment in remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors**

Students who wish to pursue honors studies in the Department of Theatre Arts must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). Students who wish to graduate with honors in theatre arts should declare their intention to the department’s honors advisor and to the University of Iowa Honors Program before their last year of study.

To graduate with honors in the major, students must maintain a g.p.a. of at least 3.33 in the major; complete at least 9 s.h. of work in Department of Theatre Arts honors courses, which must include 049:197 (THTR:4692)
Honors Theatre Arts; and give a creative presentation or performance or write an honors thesis.

Students who elect to give a creative presentation or performance must have senior standing and must complete at least one honors course before their proposed project may be approved. They must apply to the director of theatre for approval of their project by April 1 of the year before the project is to be scheduled (projects are not guaranteed a production slot). They also must enroll in 049:197 (THTR:4692) Honors Theatre Arts during the semester in which they complete their presentation or performance.

For more information about theatre arts honors requirements, contact the Department of Theatre Arts office.

Minor

The minor in theatre arts requires a minimum of 15 s.h. in theatre arts courses, including 12 s.h. in advanced courses taken at The University of Iowa. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. Students must complete all prerequisites for the courses they choose for the minor.

All theatre courses are open to students minoring in theatre arts, except 049:025 (THTR:2140) Acting I, which is reserved for students earning the theatre arts major. Theatre arts minors who are interested in acting normally take 049:020 (THTR:1140) Basic Acting and 049:021 (THTR:1141) Basic Acting II. Then they may request permission to enroll in 049:120 (THTR:3140) Acting II. When enrollment allows, they may request permission to take 049:025 (THTR:2140) Acting I.

The following courses are considered advanced for the minor.

Courses numbered 049:100 and above (some require special permission)

Contact the Department of Theatre Arts for more information about how to meet the requirements for the minor.

Courses for Nonmajors

Most theatre arts courses are open to all students, regardless of their majors, and are appropriate for nonmajors interested in theatre.

The following courses are approved for the Literary, Visual, and Performing Arts requirement of the General Education Program (p. 276). Several are designed specifically for nonmajors.

For a complete list of theatre arts courses, see "Courses" below.

Graduate Program

• Master of Fine Arts in theatre arts

Master of Fine Arts

The Master of Fine Arts program in theatre arts requires 61-82 s.h. of graduate credit, depending on specialty area. Students normally must complete six semesters in residence (internships may be substituted).

The graduate program is dedicated to creative development of theatre artists. Graduates have a solid background in major performance theories, dramatic literature, and practices of the past and present as well as in the craft of their chosen specialties.

Special attention is given to understanding the role and importance of live theatre in society. Interactions among the various theatre disciplines are emphasized, both in classes and through the department's extensive production program. Particular emphasis is placed on the development of new works for the theatre.

Students must make normal progress toward completion of the degree requirements to remain in the program: they must maintain a g.p.a. of at least 3.00 overall and in all course work within the primary area of concentration, and they must build a record of substantial creative work of high quality. Students who fail to make normal progress are placed on academic probation and given one additional semester to demonstrate their qualifications for earning the degree.

Contact the Department of Theatre Arts for specific information on any of the M.F.A. specialty areas.

Admission

Students who demonstrate exceptional ability in acting, directing, dramaturgy, playwriting, design, or stage management may apply for admission to the program of study and production leading to the M.F.A. Admission is based on interview, audition, and/or a portfolio of relevant work, the undergraduate record or other proof of artistic accomplishment, and letters of recommendation.
Submission of playscripts is the most important element in gaining admission to the Playwrights Workshop.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Production and Auditions

The Department of Theatre Arts presents around 25 public productions each year. These include a subscription series of five plays, a festival of new works by students, three productions by Iowa Summer Repertory Theatre (a professional company that also employs students), and other productions, many of them new plays.

Special attention is given to the process of developing new works and to the collaborative process that involves writers, directors, designers, dramaturgs, stage managers, and actors. Graduates, undergraduates, faculty, and visiting guest artists work together on large and small projects throughout the year and in a special summer repertory season.

Auditions for Theatre Arts Productions

Auditions for theatre arts productions are open to everyone, including all University of Iowa students and members of the local community. Theatre arts students are given first priority for roles, but many roles are available throughout the year, and many non-theatre students and nonstudent actors are cast each season. Occasionally, professional actors are employed.

General auditions are held at the beginning of the fall semester, and callback lists are posted during the semester. Additional general auditions usually are scheduled in early November and in February. Information about auditions is available from the Department of Theatre Arts office in August. Notices of auditions are posted on the department’s call board.

Facilities

The University of Iowa has one of the finest educational theatre complexes in the country. The Theatre Building offers four theatres and up-to-date facilities for classroom, laboratory, shop, and performance work.

The E.C. Mabie Theatre, a continental-style, 457-seat proscenium playhouse, is one of the finest theatres of its type in the United States. The David Thayer Theatre is a “black box” production space; its flexible seating units accommodate from 140 to 225 people and allow modification of space and audience relationships. Theatre B, which seats 144, is an open-stage theatre dedicated primarily to the production of new and experimental works. The flexible studio theatre seats 50.

In addition to classrooms for acting and directing, several spaces are designed for teaching particular aspects of dramatic studies. The Cosmo Catalano Acting Studio is for study of movement and motion by acting students. The Arnie Gillette Design Studio serves as classroom and studio workshop for design students.

To support its production schedule and to provide students with an appropriate range of experience, the department maintains shops for building, painting, maintaining, and storing scenery, costumes, and properties. Using these shops, students learn to work in metal, plastics, canvas, and wood.

Courses

Primarily for Undergraduates

049:001 (THTR:1010) Art of the Theatre 3 s.h.

049:002 (THTR:1400) Theatre and Society: Ancients and Moderns 3 s.h.
Representative plays as performed in social contexts of ancient Egypt; classical Greece, Rome, India, and Japan; and medieval and early modern Europe. Duplicates 049:112 (THTR:2410). GE: Historical Perspectives; Literary, Visual, and Performing Arts.

049:003 (THTR:1401) Theatre and Society: Romantics and Rebels 3 s.h.
Representative plays as performed in social contexts of revolutionary and modern Europe and postwar United States. Duplicates 049:113 (THTR:2411). GE: Historical Perspectives; Literary, Visual, and Performing Arts.

049:020 (THTR:1140) Basic Acting 3 s.h.
Concentration, relaxation, imagination, observation, communication, sensory awareness; development of theatrical creativity through objectives, obstacles, action, conflict, spontaneity; development of a scene from scripts. Requirements: non-theatre arts major. GE: Literary, Visual, and Performing Arts.

049:021 (THTR:1141) Basic Acting II 3 s.h.
Continuation of 049:020 (THTR:1140); emphasis on development of scenes. Prerequisites: 049:020 (THTR:1140). Requirements: non-theatre arts major.

049:029 (THTR:1000) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

049:030 (THTR:1011) New Student Collaboration Project 1-2 s.h.
Collaborative work on a script, from table work to staging; student participation as a creative team; production culminating in one performance; ensemble of actors, designers, dramaturges, directors, and stage managers who are new majors to the Department of Theatre Arts. Requirements: first-year standing or transfer student or new declared theatre major.

049:043 (THTR:2200) Elements of Design 3 s.h.
Development of visual literacy; manipulation of line, shape, color, value, texture, form; development of designs for theatre through techniques explored in class.

049:044 (THTR:2215) Introduction to Theatrical Production Technology 3 s.h.
Theatrical production; technology and backstage operations including sound, projections, lighting, scenery, costumes, stage management.

049:045 (THTR:2220) Production Lab 1-3 s.h.
Practical experience in physical construction and operation of live theatre; theatre department productions provide lab experiences for applied learning in technical theatre and run crew opportunities in scenery, costumes, lighting, sound, and stage management.
049:046 (THTR:3220) Construction Technology for New Works 3 s.h.
Production of scenic and prop elements for the Department of Theatre Arts annual Iowa New Performance Festival; basic construction and painting skills in a lab environment; weekly design and production meetings to include each student in the entire production process; run crew assignments, projects.

049:050 (THTR:1410) Musical Theatre 3 s.h.
American musical theatre's form, function, evolution; major composers (Berlin, Gershwin, Rodgers and Hammerstein, Sondheim), lesser-known and contemporary writers; roots of the rock musical, future of musical theatre, how musicals reflect their own eras and cultural attitudes of their times; readings, recordings, videos. Ability to read music not required.

049:051 (THTR:1411) Comedy and Society 3 s.h.
How comedy reflects, comments upon, and intersects with western culture, society, and identity; roots of western comedy, satire, censorship; stand-up comedians, improv and sketch troupes, satirists; race, gender and sexuality, class perception; how portrayals of African Americans in popular culture evolved from 19th century to present; videos, readings, live performances. GE: Values, Society, and Diversity.

049:060 (THTR:2402) Performance Analysis 3 s.h.
Basic skills in critical reading and close analysis of dramatic texts, with focus on dramatic structure, challenges of putting texts into production.

049:062 (THTR:2301) Playwriting I 3 s.h.
Elements of playwriting; emphasis on analysis and discussion of original student writing. GE: Literary, Visual, and Performing Arts.

049:072 (THTR:3287) Shakespeare 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as 008:147 (ENGL:3287).

For Undergraduate and Graduate Students

Acting and Directing

049:025 (THTR:2140) Acting I 3 s.h.
Development of creativity, imagination, and openness through exercises to engage mind, body, and voice in theatrical play and scene work. Requirements: theatre arts major, or theatre arts minor and 049:020 (THTR:1140).

049:035 (THTR:2120) Movement: Special Topics 2-3 s.h.
Specialized study in movement techniques and movement styles for body conditioning; development of yoga techniques; varied topics.

049:101 (THTR:3610) Drama in the Classroom 3 s.h.
Theories of community, culture, identity in relation to language arts teaching and learning; emphasis on incorporating multiple literacies, both oral and print, into language arts curricula; action research involving oral literacy. Same as 07E:180 (EDTL:3180).

049:102 (THTR:3521) Acting for Singers and for Dancers 2 s.h.
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as 025:175 (MUS:3521), 137:165 (DANC:3521).

049:103 (THTR:3150) Voice/Speech/Text--Speaking in Public 3 s.h.
How to be an effective and confident communicator; exercises designed to develop and improve vocal sound, vocal strength, clarity of speech; appropriate interpretation of text.

049:105 (THTR:3850) Introduction to Laban Movement Studies 2-3 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as 025:167 (MUS:3850), 137:160 (DANC:3850), 188:167 (DPA:3850).

049:106 (THTR:3130) Singing for Actors 2 s.h.

049:108 (THTR:3070) Dance Kinesiology 3 s.h.
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: 027:053 (HHP:1100). Same as 137:147 (DANC:3070).

Use of improvisation, storytelling, readers' theatre to explore complex social issues; participation in Darwin Tumer Action Theatre; experience creating works that examine social issues, especially those related to cultural diversity; performances in Iowa schools and communities.

049:114 (THTR:3421) Performing Autobiography 3 s.h.
Write and perform original pieces stemming from personal experiences and interests; readings and videos; genre of contemporary autobiographical performance as established artists have developed it; improvisational performance and writing exercises to foster deeper reflection on personal experiences; final staging of students' original work. Same as 131:114 (GWSS:3421).

049:120 (THTR:3140) Acting II 3 s.h.
Extension of work begun in 049:025 (THTR:2140); scene study, with focus on contemporary realism and development of collaborative dynamic. Prerequisites: 049:021 (THTR:1141) or 049:025 (THTR:2140).

049:122 (THTR:4142) Acting With Verse 3 s.h.
Approaches to poetic material; emphasis on Shakespeare; contemporary scenes written in poetic or abstract styles. Prerequisites: 049:120 (THTR:3140) and 049:125 (THTR:2150).

049:124 (THTR:4144) Acting: Special Topics 3 s.h.
Specialized study in a specific aspect or theory of acting.
049:125 (THTR:2150) Voice for the Actor 3 s.h.
Progressive development of voice and speech for theatre; physical awareness, relaxation, breathing, freeing the sound channel, resonance, articulation; application of voice work through prose, poetry, text. Prerequisites: 049:025 (THTR:2140).

049:126 (THTR:3151) Voice, Text, and the Actor 3 s.h.
Varied topics on a rotational basis, may include vocal study of classical text including Shakespeare, dialects, and voice in classical and contemporary comedy. Prerequisites: 049:125 (THTR:2150).

049:127 (THTR:2160) Theatre Movement 3 s.h.
The body as a tool for dramatic expression; basic principles and practices of stage movement; approaches to physical technique. Prerequisites: 049:025 (THTR:2140). Requirements: theatre arts major.

049:128 (THTR:3160) Movement Styles 3 s.h.
Intensive study of a selected movement style (e.g., mask, clown, commedia dell’arte). Prerequisites: 049:127 (THTR:2160).

049:129 (THTR:3161) Stage Combat 3 s.h.
Fundamental principles of unarmed combat; rapier and dagger techniques.

049:130 (THTR:4180) Directing I 3 s.h.
Basic elements of stage direction; exercises in composition, emphasis, movement, rhythm, directorial analysis; director’s role in production process; short scenes, projects, papers. Prerequisites: 049:025 (THTR:2140), 049:043 (THTR:2200) or 049:134 (THTR:3230), 049:060 (THTR:2402), and 049:135 (THTR:3240) or 049:136 (THTR:3250). Requirements: completion of design requirement.

049:131 (THTR:4182) Directing II 3 s.h.
Continuation of 049:130 (THTR:4180); practical work in stage direction culminating in a larger directing project. Prerequisites: 049:130 (THTR:4180).

049:154 (THTR:3162) Movement: Special Topics II 3 s.h.
Specialized study in movement techniques and movement styles for body conditioning; intermediate development of yoga techniques; varied topics. Prerequisites: 049:035 (THTR:2120).

049:170 (THTR:3851) Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and “self-use”—how our movement choices affect the results we achieve; improving physical skills and presence; principles from the Alexander Technique in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting) and applied to skills in daily life, addressing the underpinnings of movement; physical participation, including laying, rolling, sitting, standing, and locomotion. Same as 188:168 (DPA:3851), 025:176 (MUS:3851), 137:173 (DANC:3851).

049:201 (THTR:6525) Voice for Performers 2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as 003:204 (CSD:6204), 025:216 (MUS:6525).

049:220 (THTR:6140) Advanced Acting 3 s.h.
Preprofessional training; may include psychophysical training in impulse, openness and the “mask,” individual and group dynamics, improvisation, repetition, characterization and scene work, Shakespeare and style, on-camera, development of professional work habits and skills, audition and interview.

049:225 (THTR:6150) Vocal Technique 3 s.h.
Skills training; voice and speech for the actor, phonetics, dialects, sound exploration, contemporary and classical text analysis. Requirements: admission to M.F.A. acting program.

049:227 (THTR:6160) Movement Technique 3 s.h.
Fundamental principles and practices required for physical acting technique; basic stage movement, stage combat, mime technique, Lecoq-based improvisation; a new works project. Requirements: graduate acting major.

049:230 (THTR:6180) Director’s Seminar 1-3 s.h.
Preprofessional training in stage direction; the art and craft of directing; research, practical experience; development of new pieces; approaches to a variety of theatrical materials through concept, type, style.

Design and Technical Theatre

049:104 (THTR:3876) Video for Performance 3 s.h.
Introduction to making video for use in a performance; how video can unlock new artistic possibilities for performance in theater, dance, and performing arts in general; focus on acquiring basic skills necessary to shoot and edit video, and project it during a performance; practices of animation, found or archival footage work, and live performance. No previous knowledge of cameras or editing equipment required. Same as 048:136 (CCL:3876).

049:134 (THTR:3230) Scene Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in three-dimensional models, simple sketches, and drafting. Same as 01P:134 (ARTS:3230).

049:135 (THTR:3240) Costume Design I 3 s.h.
Introduction to theatre costumes; how to conceptualize and express ideas through rendering and 3-D mannequin projects. May be taken after 049:138 (THTR:4240).

049:136 (THTR:3250) Lighting Design I 3 s.h.
How to research, conceptualize, and express ideas through light plots, other design paperwork, and theatre lighting design projects.

049:137 (THTR:4230) Scene Design II 3 s.h.
Design and execution of increasingly complex projects in a variety of formats, including perspective sketching, detailed drafting, and color models. Prerequisites: 049:134 (THTR:3230).

049:138 (THTR:4240) Costume Design II 3 s.h.
Conceptual and analysis skills in costuming; fashion history and dress related to individual, cultural, and artistic expression. May be taken before 049:135 (THTR:3240).

049:139 (THTR:4250) Lighting Design II 3 s.h.
Production styles and venues; skills developed through increasingly complex light plots, more precise paperwork. Prerequisites: 049:060 (THTR:2402) and 049:136 (THTR:3250).

049:140 (THTR:3260) Sound Design for the Theatre 3 s.h.
Introduction to digital sound recording and live sound reinforcement techniques for a variety of entertainment venues (theatre, dance, concerts, and industrial projects); creation of soundscapes using Pro Tools software; implementation of designs through the use of SFX/QLab playback systems; documentation of sound design for theoretical or realized production. Offered every other year.

049:141 (THTR:3211) Period Styles 3 s.h.
Survey of design and motifs spanning history of western civilization through development of interior and exterior architecture, furniture, decorative themes, fashion, and fine art.
049:142 (THTR:4207) Textile Science 3 s.h.

049:144 (THTR:3202) Web Design 3 s.h.
Creation of graphic identities and web sites using Adobe Photoshop and Dreamweaver.

049:145 (THTR:3203) Computer Visualization 3 s.h.
Creation of virtual design using Adobe Photoshop and Google SketchUp.

049:147 (THTR:3221) Technology for the Entertainment Industry 3 s.h.
Introduction to technology skills that are at the center of the entertainment industry; programming and operating digital lighting and sound consoles, intelligent lighting systems, projection hardware and software; outdoor event rigging, metal construction, and fabrication. Same as 188:147 (DPA:3221).

049:148 (THTR:3222) Introduction to Props Construction 3 s.h.
Development of specific skills needed to produce various properties as designed for an artistic production; skills accomplished through a series of projects produced by student in laboratory environment, including molding/casting, vacu‑forming, cabinet construction, upholstery/soft goods, finishing techniques, and found object articulation.

049:149 (THTR:3223) Introduction to Lighting Technology 3 s.h.
Training for a career as a touring or resident stage electrician in the entertainment industry; plot organization/shop orders, digital fixtures, power distribution, personal management, console configuration/control, and electrical troubleshooting/maintenance.

049:150 (THTR:3270) Entertainment Design 3 s.h.
Introduction to entertainment design and technology; primary focus on contemporary approaches to design and delivery of content in entertainment industry; assignment of practical projects using media servers, projection, LED arrays, video editing software, and moving light technologies. Offered every other year. Prerequisites: 049:136 (THTR:3250). Recommendations: digital arts majors, including computer science, art, music, and dance, should have equivalent experience to 049:136 (THTR:3250).

049:151 (THTR:4270) Scenic Art 3 s.h.
Techniques in scenic art for the theatre; classical trompe l’oeil scene painting, sculpting with nontraditional materials, finishing. Offered every other year.

049:152 (THTR:3208) Mask and Puppet Crafts 3 s.h.
Mask and puppet design; paper mache, plaster gauze, thermal plastics, and soft sculpture techniques.

049:156 (THTR:3210) Stage Makeup 3 s.h.
Same as 188:156 (DPA:3210).

049:157 (THTR:3205) Concepts in Drawing 3-4 s.h.
Drawing from topics at the intermediate level; observation, theory, media, form, content; emphasizes personal direction. Prerequisites: 01F:007 (DRAW:2310). Same as 01F:105 (DRAW:3310).

049:158 (THTR:3206) Environmental Design I 4 s.h.
Human interaction with the interior and exterior environment. Offered fall semesters of odd years. Prerequisites: 01T:021 (TDSN:2210). Same as 01T:137 (TDSN:3210).

049:159 (THTR:3225) Makeup Design: Body Art 3 s.h.
Advanced techniques in stage makeup design and application through analysis of forms, research, and hands‑on projects.

Graduate design in set, lighting, and costume design; teamwork; meetings with design faculty in specific disciplines; short‑term projects in the theatre department; long‑term projects, including summer design work, internships, and other professional opportunities during the three‑year program and beyond. Prerequisites: 049:137 (THTR:4230) or 049:138 (THTR:4240) or 049:139 (THTR:4250).

049:237 (THTR:5230) Scene Design III 3 s.h.
Complex assignments; documentation skills, scenic design preparation. Prerequisites: 049:134 (THTR:3230) and 049:137 (THTR:4230).

049:238 (THTR:5240) Costume Design III 3 s.h.
Advanced projects in costume design and portfolio development. Prerequisites: 049:138 (THTR:4240).

049:239 (THTR:5250) Lighting Design III 3 s.h.
Advanced projects in venues such as dance, opera, industrials; preparation of lighting designs for production. Prerequisites: 049:139 (THTR:4250).

049:251 (THTR:7260) Internship in Design 1-6 s.h.
Experience as designer or assistant designer with a professional theatre, dance, or opera company or with a professional design studio. Requirements: theatre design M.F.A. enrollment.

Stage Management and Arts Management

049:109 (THTR:3510) Introduction to Arts Management 3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as 145:109 (INTD:3510), 188:109 (DPA:3510).

049:111 (THTR:3520) New Ventures in the Arts 3 s.h.
Arts administration principles and trends as applied to creation of an arts‑related enterprise; case studies; students create business plans for a new arts organization. Duplicates 06A:125 (MGMT:3100) and 06T:120 (ENTR:2000). Corequisites: 06T:050 (ENTR:1000), or 06A:001 (ACCT:2100) and 06M:100 (MKTG:3000). Same as 06T:125 (ENTR:3520), 145:111 (INTD:3520), 188:111 (DPA:3520).

049:132 (THTR:3501) Stage Management 3 s.h.
Duties and procedures of stage management; focus on development of production from preparatory work through performance; examine role of stage manager in collaboration.

049:195 (THTR:4510) Arts Leadership Seminar 3 s.h.

049:200 (THTR:5500) Stage Management: Special Topics 3 s.h.
Topics in stage management, arts production, and their professional practice. Requirements: admission to M.F.A. stage management program.

049:233 (THTR:6500) Stage Management Seminar 1-2 s.h.
Practice and techniques of stage management. Requirements: graduate stage management major.
Playwriting

049:155 (THTR:3301) Playwriting II 3 s.h.
Application of fundamental skills learned in 049:062 (THTR:2301) to more advanced study of dramatic structure and style; reading of plays, weekly writing assignments; focus on writing one-act play. Prerequisites: 049:062 (THTR:2301).

049:165 (THTR:3300) Advanced Playwriting 3 s.h.
Continuation of 049:063; original student writing, extensive rewriting; may focus on specific style, genre, or approach. Prerequisites: 049:063.

049:169 (THTR:3310) Undergraduate Playwriting Workshop 1-3 s.h.
Workshop discussion of original full-length plays, collaborative creation of new plays, work with guest artists. Prerequisites: 049:062 (THTR:2301) and 049:155 (THTR:3301). Requirements: submission of writing sample.

049:182 (THTR:3403) Free Style Writing: Poetry, Plays, and Performances 3 s.h.
Creative writing lab experience in reading, writing, and performing poetry and short plays; expansion of students' horizons of the self; arc of innovation in African American performing poetry and short plays; expansion of students' creative writing lab experience in reading, writing, and performing poetry and short plays; expansion of students' horizons of the self; arc of innovation in African American performances.

049:249 (THTR:5510) Production Management 3 s.h.
Organization and supervision of theatre productions; resources, procedures for successfully mounting a theatre production or season; personnel, equipment, facility and budget management, scheduling, communication. Requirements: stage management M.F.A. enrollment.

Dramatic Literature, Theory, and Dramaturgy

049:112 (THTR:2410) History of Theatre and Drama I 3 s.h.
Major developments in Anglo-European, Indian, Asian, and African theatre and drama, 3000 B.C.E. to C.E. 1700; sociopolitical, economic, and cultural circumstances of original productions. Offered spring semesters. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

049:113 (THTR:2411) History of Theatre and Drama II 3 s.h.
Continuation of 049:112 (THTR:2410), 1700 to 1960; revolutionary and modern European theatre and culturally diverse postwar U.S. theatre. Offered fall semesters. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

049:116 (THTR:4420) Dramatic Theory 3 s.h.
Theoretical questions of interest to dramatists and philosophers in western and nonwestern traditions; metaphysics of play; theories of character, psyche, self; narrative and nonnarrative dramatic forms. Prerequisites: 049:060 (THTR:2402), 049:112 (THTR:2410), and 049:113 (THTR:2411).

049:117 (THTR:3440) American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. American playwrights and plays after 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as 008:197 (ENGL:3440).

049:118 (THTR:4401) American Women Playwrights: 1776-Present 3 s.h.
How women in the United States have expressed themselves in theatre since 1776; diversity of voices in works by African American, Asian American, Latina, Native American, European American, lesbian playwrights; female-authored drama and production in relation to concurrent male-authored traditions and socioeconomic, political, cultural phenomena. Same as 045:118 (AMST:4401).

049:119 (THTR:4402) Dramas of the Spirit 3 s.h.
Western and nonwestern dramatic texts that enact or describe journeys of the human spirit; textual analysis, investigation of the notion of spirit and its relation to dramatic form. Prerequisites: 049:060 (THTR:2402), 049:112 (THTR:2410), and 049:113 (THTR:2411).

049:161 (THTR:2401) The Arts in Performance 3 s.h.

049:164 (THTR:4410) Shakespeare the Dramatist 3 s.h.
Exploration of a number of Shakespeare’s greatest works; close textual analysis supplemented with historical, theoretical, theatrical, and philosophical considerations; special attention given to Shakespeare’s dramatic method and relation of his dramaturgy to profession of theater-making.

049:174 (THTR:3180) Topics in Digital Media 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as 008:173 (ENGL:3180).

049:181 (THTR:3276) Medieval Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as 008:144 (ENGL:3276).

Undergraduate certificate: writing
Web site: http://magidcenter.uiowa.edu

The University of Iowa is known nationally and internationally for its writing programs, particularly for its top-ranked Master of Fine Arts programs in creative writing (p. 197) (Iowa Writers’ Workshop) and nonfiction writing (p. 222) (Department of English). It also offers a creative writing track for undergraduate English (p. 222) majors and numerous discipline-based programs that emphasize writing. Several of its colleges have their own writing centers.

The undergraduate Certificate in Writing enables students in all majors to benefit from the University’s wide-ranging writing programs and resources by pursuing a concentration in writing related to their majors, their career goals, or their personal interests.

The Certificate in Writing is administered by the College of Liberal Arts and Sciences (p. 25).

Learn more about the University’s wealth of writing resources by visiting The Writing University web site, and read about the University’s central role in Iowa City’s designation as a UNESCO City of Literature.

Undergraduate Program

• Certificate in Writing

Certificate in Writing students explore writing and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.

Certificate

The Certificate in Writing requires a minimum of 21 s.h. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student’s transcript.

Students who complete the certificate develop:

• skill in planning and using strategies that help them start to write and overcome obstacles to writing, obtain feedback from other writers, revise their work, and present their writing in public venues;
• skills in the craft of writing, such as the ability to write clearly and concisely, control of mechanics and style, and the ability to communicate with particular audiences for specific purposes; and
• competence in discussing writing.

Course work for the certificate includes a minimum of 11 s.h. in core courses, a minimum of 9 s.h. in focused electives, and a minimum of 1 s.h. in a capstone independent study course that results in a project and/or portfolio of work. Students may count a maximum of 6 s.h. earned for a major, a minor, or another certificate toward the Certificate in Writing.

Certificate students participate as members of a writing community through activities such as attending readings and lectures; presenting their own work in public; working with professional journals, newspapers, or other publications; and repeated registrations in 610:020 (CLAS:1500) Writing Commons: A Community of Writers.

The Certificate in Writing requires the following work.

CORE COURSES

Students earn a minimum of 11 s.h. in the following core courses.

610:020 (CLAS:1500) Writing Commons: A Community of Writers 2 s.h.

Three of these:

08N:102 (CNW:3632) Prose Style 3 s.h.
08C:145 (CW:4745) The Sentence: Strategies for Writing 3 s.h.
08C:160 (CW:4760) The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.
103:028 (LING:1003) English Grammar 3 s.h.
103:131 (LING:2070) History of the English Language 3 s.h.

FOCUSED ELECTIVES

Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category).

Writing

• Writing for the professions
• Writing and the literary arts
• Writing and the media
• Writing in context
• Student-designated writing-intensive courses

Each focused elective course may be used to fulfill only one certificate requirement, even if the course is listed in more than one category below. Some of these courses have prerequisites and other requirements for registration; students must complete a course’s prerequisites and meet its registration requirements before they may register for the course.

Writing for the Professions

Art:

01H:007 (ARTH:1080) Writing About the Visual Arts 3 s.h.
01P:185 (ARTS:3400) Grant Writing in the Arts 3 s.h.

Business:

06B:140 (BUS:3800) Business Writing 3 s.h.
08N:113 (CNW:3640) Writing for Business and Industry 3 s.h.

Journalism:

019:098 (JMC:2010) Journalistic Reporting and Writing 3 s.h.
019:124 (JMC:3412) Strategic Communication Writing 4 s.h.
019:125 (JMC:4405) Freelance Reporting and Writing 4 s.h.
019:126 (JMC:4410) Arts and Culture Reporting and Writing 4 s.h.

**Student-Designated Writing-Intensive Courses**

Students may request permission to count a maximum of 3 s.h. earned in a 100-level or more advanced course of their choice as credit toward the focused elective requirement. They propose a writing-related project that extends the writing focus of their chosen course. They must have the approval of the faculty member teaching the course and of the writing certificate coordinator in their own undergraduate college.

**CAPSTONE INDEPENDENT WRITING EXPERIENCE**

Each student must earn at least 1 s.h. in an independent writing project course that serves as a capstone experience and results in a substantial project and/or portfolio of the student’s own writing. Students must have a faculty sponsor for the independent writing project and must register for the course.

Tippie College of Business

Dean
Sarah Fisher Gardial

Senior associate dean
Kurt M. Anstreicher

Associate dean, School of Management
Jarjisu Sa-Aadu

Associate dean, undergraduate program
Lon D. Moeller

Undergraduate major: B.B.A.
Undergraduate minor: business administration
Undergraduate certificates: entrepreneurial management; international business; risk management and insurance
Graduate degrees: M.Ac.; M.B.A.; Ph.D.
Web site: http://tippie.uiowa.edu

The Henry B. Tippie College of Business is composed of six academic departments: accounting, economics, finance, management and organizations, management sciences, and marketing.

The college's undergraduate and graduate programs are accredited by AACSB International—the Association to Advance Collegiate Schools of Business.

Research, executive development, and education activities are supported by the centers and institutes of the college: Emmett J. Vaughan Institute for Risk Management and Insurance, Entrepreneurial Management Institute, Hawkins Institute of Business Finance, Institute for Economic Research, Institute for International Business, Iowa Electronic Markets, John Pappajohn Entrepreneurial Center, Judith R. Frank Business Communications Center, Marketing Institute, Pomerantz Career Center, RSM McGladrey Institute of Accounting Education and Research, Small Business Development Center, and Tippie Business Solutions Center.

HONOR CODE

Integrity and honesty are essential to success in all facets of life. The purpose of the Tippie College of Business Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code.

Undergraduate Programs

The Tippie College of Business offers the Bachelor of Business Administration (B.B.A.) with majors in accounting, economics, finance, management, management information systems, and marketing, and it collaborates with the College of Liberal Arts and Sciences to offer an undergraduate major for Bachelor of Arts and Bachelor of Science students in economics. See Bachelor of Business Administration (p. 573) for information about B.B.A. requirements common to each of the degree's majors as well as admission and academic rules and procedures for the B.B.A.; see the Tippie College of Business department sections in the Catalog for information about the individual majors. The college also offers joint undergraduate degrees with the College of Engineering and the College of Liberal Arts and Sciences; see "Joint Degrees" in the Bachelor of Business Administration section.

The college offers the undergraduate Certificate in Entrepreneurial Management and Certificate in Risk Management and Insurance (p. 620). It collaborates with the College of Engineering to offer the Certificate in Technological Entrepreneurship (p. 807) and with the College of Liberal Arts and Sciences to offer the Certificate in International Business (p. 358). The John Pappajohn Entrepreneurial Center collaborates with the College of Liberal Arts and Sciences to offer the Certificate in Performing Arts Entrepreneurship (p. 445).

The college also offers a minor in business administration for non-business students; see "Minor" below.

Minor

The minor in business administration is open to all University of Iowa undergraduates except those majoring in business (Tippie College of Business) and interdepartmental studies majors in the business studies track (College of Liberal Arts and Sciences).

The minor in business administration requires 37 s.h., including at least 12 s.h. taken in the Tippie College of Business. Students must maintain a g.p.a. of at least 2.00 in the minor overall and in all courses in the minor at The University of Iowa. Course work in the minor may not be taken pass/nonpass.

The following courses, or their equivalents, satisfy all requirements for the minor. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course.

Students who will have completed all requirements for the minor when they graduate should indicate a business administration minor on the Application for Degree. Contact the Undergraduate Program Office for more information about the business administration minor.

Graduate Programs

The Tippie College of Business offers four graduate degree programs: the Master of Accountancy (M.Ac.), the Master of Business Administration (M.B.A.), the Doctor of Philosophy (Ph.D.) in business administration, and the Doctor of Philosophy in economics. For information about the M.Ac. and the Ph.D. in economics, see Accounting (p. 567) and Economics (p. 562) in the Catalog.
The M.B.A. program is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

For a description of the Ph.D. in business administration, see Doctor of Philosophy (p. 581) in the Catalog. The Ph.D. is an interdepartmental degree; programs leading to the degree are offered by the Departments of Accounting (p. 567), Finance (p. 592), Management and Organizations (p. 602), Management Sciences (p. 607), and Marketing (p. 611).

Study Abroad
The Consortium of Universities for International Studies (CUIS) offers semester and summer programs at Paderno del Grappa, Italy, for undergraduate students and at Asolo, Italy, for graduate students. Both campuses are located northwest of Venice. Students and faculty in the programs come from a variety of public and private universities in the United States.

CUIS programs encourage personal growth through intense international academic experiences that focus on developing an appreciation for diversity in culture and perspective. Rigorous, high-quality courses emphasize current international events and are taught in English. Students are encouraged to study the Italian language and to participate in executive lectures, plant tours, and unique personal development opportunities.

Centers and Institutes

**Emmett J. Vaughan Institute of Risk Management and Insurance**

The Tippie College of Business, in partnership with the Iowa insurance industry, has established the Emmett J. Vaughan Institute of Risk Management and Insurance to provide innovative education and research in modern risk management and insurance.

The institute collaborates with the Department of Finance to offer the Certificate in Risk Management and Insurance. The certificate program provides undergraduate students with a foundation for careers in corporate risk management, risk management consulting, employee benefits management, insurance brokerage, underwriting, personal banking and asset management, financial analysis, claims adjustment, and auditing. See Risk Management and Insurance (p. 620) in the Catalog.

**Entrepreneurial Management Institute**

The Entrepreneurial Management Institute works with top entrepreneurial management track students in the B.B.A. management major and with Certificate in Entrepreneurial Management students to help them develop career advancement skills. Experienced business professionals and entrepreneurial leaders provide strategic career development training. Activities include seminars on developing professional résumés, creating extensive personal networks, networking with successful Iowa CEOs and business leaders, and making connections for internships and job placement.

**Hawkinson Institute of Business Finance**

The Hawkinson Institute of Business Finance facilitates career opportunities in investment banking, sales and trading, and related areas for students in the Tippie College of Business. The institute sponsors the Hawkinson Scholars Program, which trains high-achieving undergraduates for interviews, internships, and full-time jobs in the financial services industry. Criteria for admission to the institute include a strong academic record, involvement in campus and community activities, high motivation, good interpersonal skills, and demonstrated interest in business, markets, and corporate finance.

Hawkinson scholars participate in a class that is taught by former investment bankers and features guest speakers from investment banking, private equity, hedge funds, start-ups, and other sectors. Hawkinson scholars also receive intensive education in equity valuation, financial market dynamics, and more. An extensive network of dedicated Hawkinson alumni serve as mentors.

The Institute has worked to broaden entry-level employment opportunities for Iowa graduates, who land jobs at prestigious firms such as Goldman Sachs, Credit Suisse, Barclays, Merrill Lynch, JP Morgan, and UBS. Graduating Hawkinson scholars typically enjoy a placement rate of 100 percent.

The Hawkinson institute also supports research in the Department of Finance and participates in outreach to the financial services industry.

**Institute for Economic Research**

The Institute for Economic Research engages in and supports economic research and establishes a formal mechanism for providing interaction with and economic advice to industry and government. The institute’s main objectives are to provide economic information, forecasts, and advice to business and public agencies; to provide a state focal point for applied economic research; and to promote and enhance academic research and teaching in economics.

**Institute for International Business**

The Institute for International Business provides students at all levels with the education, experience, and skills they will need to compete in the global marketplace. The institute’s staff coordinates and augments international initiatives throughout the Tippie College of Business, serving undergraduate and graduate students. The institute also works to promote Iowa’s current and future economic interests by increasing international skills in the state’s business and education communities and by strengthening the link between academic research and Iowa corporations. In addition, the institute develops and advances knowledge through research and teaching on issues related to international business.

**Iowa Electronic Markets Institute**

The Iowa Electronic Markets Institute supports scholarship in prediction markets and experimental economics. It operates the Iowa Electronic Markets (IEM), online futures markets where contract payoffs are based on real-world events such as political outcomes, companies’ earnings per share, and stock price returns. The Iowa Electronic Markets are known internationally as the genesis of
modern prediction markets and are used as research and teaching tools.

John Pappajohn Entrepreneurial Center
The John Pappajohn Entrepreneurial Center (JPEC) has developed a comprehensive, interdisciplinary program that combines advanced course work with experiential learning for University of Iowa students. The program prepares students to launch new ventures, manage growing companies, and apply entrepreneurship concepts in their careers. It is designed to empower students to accelerate their careers and pursue their dreams.

The entrepreneurship curriculum incorporates experiential learning opportunities in which students apply their knowledge and skills in their own ventures or in emerging or growing Iowa companies. JPEC’s Bedell Entrepreneurship Learning Laboratory is dedicated to student entrepreneurs creating new businesses. Students also may participate in a wide variety of extracurricular programs such as business plan competitions, lecture series, conferences, workshops, a living-learning community, and the I-Envision student organization.

B.B.A. students in the Tippie College of Business who are majoring in management (p. 602) may complete the major’s entrepreneurial management track, and University of Iowa students working toward bachelor’s degree may earn the Certificate in Entrepreneurial Management. Both programs are offered on campus at the business college as well as online through the Division of Continuing Education. Graduate and professional students across the University may enroll in advanced entrepreneurship courses; see Master of Business Administration Program (p. 615) in the Catalog.

JPEC offers several programs for entrepreneurial businesses and individuals, including student field study projects, training, consulting, seminars, and conferences. In partnership with the Jacobson Institute for Youth Entrepreneurship, it provides training and a specialized curriculum to Iowa high school teachers in an effort to foster the development of innovative, creative, and entrepreneurial young Iowans. The center also partners with Iowa community colleges to deliver entrepreneurship training statewide.

Judith R. Frank Business Communications Center
The Judith R. Frank Business Communications Center provides one-on-one tutoring to Tippie College of Business undergraduates for writing assignments, projects, and case studies. The center’s staff includes graduate students with expertise in writing and undergraduate peer tutors who have completed a semester-long peer tutor training course. Communication consultants are available on staff to help students with speech presentations or other oral communication assignments.

The center’s course-dedicated consulting program helps faculty and students plan and prepare for required writing projects. Center staff work closely with faculty to study assignment requirements, develop handouts and assessment rubrics, and deliver class or workshop presentations to students on how to meet the expectations of the assignment. They also provide ongoing training and mentoring to the center’s undergraduate peer tutors.

The Frank Business Communications Center oversees the B.B.A. core course 06B:100 (BUS:3000) Business Communication and Protocol; the peer tutor training courses 06B:130 (BUS:3900) Business Communication Internship I and 06B:131 (BUS:3910) Business Communication Internship II; and the electives 06B:140 (BUS:3800) Business Writing and 06B:110 (BUS:3700) Effective Communication in a Global Workplace. In addition, the center’s staff adjudicates the annual Mary Thomas Prappas Business Ethics Essay Competition and helps prepare Tippie College of Business undergraduates for national case competitions.

Marketing Institute
The Marketing Institute prepares students for challenging entry-level positions in today’s diverse and competitive marketing environment. Each year, the institute invites around 15 top undergraduate students, primarily marketing majors, to become members. Students are selected on the basis of their academic performance, leadership, interpersonal skills, and executive potential. They work on consulting projects for a wide variety of national and local businesses, gaining hands-on experience in identifying and addressing marketing-related issues. Students are advised and mentored by an advisory council of 22 senior marketers with diverse expertise from companies such as ACT, Allianz, Nike, Pella, HON, Target, and Wells Fargo as well as CEOs of several advertising firms. The institute and its advisory council work together to foster internship opportunities and provide career guidance that will help students compete well for their first jobs.

Pomerantz Career Center
Career development and on-campus recruiting services are provided by the Marvin A. and Rose Lee Pomerantz Career Center. The center’s career advisors and online resources provide University undergraduate students and alumni with help on resumes, cover letters, career choice, internship and job searches, employer research, interviewing skills, negotiation of job offers, community involvement through volunteerism, and more. The center also presents several fall and spring semester career fairs. Campus recruitment is facilitated through web-based software. Students may participate in mock interviews and in actual on-campus interviews for full-time positions and internships year-round. The center also offers career-related courses and a career leadership academy. Contact the Pomerantz Career Center for more information.

RSM McGladrey Institute of Accounting Education and Research
The RSM McGladrey Institute of Accounting Education and Research fosters educational excellence in accounting at The University of Iowa and encourages high-quality research by Iowa accounting faculty members. The institute sponsors varied educational initiatives and activities, including an annual national speaker series and the biennial Sidney Winter Lecture Series. It helps faculty members initiate and carry out research projects, as well as to disseminate the findings to the academic, business, government, and professional accounting communities.

Small Business Development Center
Since 1981, The University of Iowa Small Business Development Center has played an important role in helping enterprising Iowans manage or start their own successful businesses. The center provides support for small business owners and entrepreneurs. Its personnel
are trained to meet the varied needs of small business management, including market, business, financial, and human resource planning; cash flow analysis; product commercialization; market research and analysis; strategic planning; international trade; and advertising and public relations.

**Tippie Business Solutions Center**

The Tippie Business Solutions Center provides the opportunity for MBA students to engage in strategic consulting projects with companies. The firms involved range from mid-sized Iowa-based companies to Fortune 500 companies. The center brings together diverse teams possessing a variety of skills, knowledge, and experience. They apply rigorous business tools and techniques in order to research circumstances surrounding a business problem for a real-world client. Students meet with representatives from the client company, analyze the situation, and present recommendations.

**Facilities and Resources**

The Henry B. Tippie College of Business is located in the John Pappajohn Business Building, at the heart of the campus. The Pappajohn Business Building contains seminar and conference rooms, a computer laboratory, two auditoriums, two computer classrooms, a behavioral laboratory, a restaurant (Pat’s Diner), the Marvin A. Pomerantz Business Library, and a variety of classroom facilities.

The computer laboratory in the John Pappajohn Business Building serves the instructional programs of the college, and the staff maintains a current library of computational programs to accommodate users’ needs. Business students also have access to the full range of services offered by the University’s Information Technology Services and the extensive research materials and other resources of the University of Iowa Libraries.

**Alumni Relations**

The Tippie College of Business alumni network numbers more than 42,000 graduates worldwide. Alumni have access to the college’s wide array of resources, including the in-house Office of Alumni Relations. The college’s director of alumni relations and staff in the Undergraduate Program Office and the Tippie School of Management maintain relationships with alumni. *Business at Iowa*, the college’s alumni magazine, is mailed to individuals who support the college.

The alumni office hosts individual visits, receptions, speakers, and other events on campus and in cities nationwide and around the world. Members of the Business Student Ambassadors, an undergraduate student organization, often serve as hosts and guides for alumni who visit the college, and the Young Alumni Board works to strengthen ties between the college and younger alumni.

Learn more about staying in touch at Alumni and Friends on the college’s web site.

**Interdepartmental Courses**

Most Tippie College of Business courses are offered by the college’s departments and programs. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" on this page.

The college also offers the following interdepartmental courses for undergraduate students.

- **06B:010 (BUS:1100) Tippie Scholars Seminar** 1-3 s.h.
  - Introduction to majors and academic departments, research opportunities, and professional enrichment activities in the Tippie College of Business. Requirements: enrollment in Tippie Scholars Program.

- **06B:020 (BUS:1200) Tippie College Direct Admit Seminar** 1 s.h.
  - Facilitates a successful transition to college; Tippie college traditions and expectations, academic and personal success skills; majors and academic opportunities; advisor and advisee responsibilities; campus resources; career exploration skills; ethics; team and group work; multicultural and global society existence. Requirements: admitted to the direct admission program.

- **06B:030 (BUS:1130) Diversity Awareness for Business** 1-3 s.h.
  - Opportunity to develop awareness and appreciation of multiculturalism and diversity; importance of diversity in the workplace; development of skills for working in a diverse environment; development of cultural competencies through classroom activities, discussions, group projects, readings, and personal reflections.

- **06B:040 (BUS:1150) Academic Leadership Seminar** 1 s.h.
  - Orientation to service learning; service learning project, professional enrichment activities, academic skill enhancement; for students living on the Business and Entrepreneurship Living-Learning Community Floor.

- **06B:050 (BUS:2300) Searching for Business Information** 1 s.h.
  - Search concepts and sources specific to business information; print, CD-ROM, online search services, the Internet.

- **06B:060 (BUS:3500) Tippie Senate** 1 s.h.
  - For elected student representatives on the Tippie Senate.

- **06B:080 (BUS:3400) Business Student Ambassador Seminar** 1 s.h.
  - Experiences as a Business Student Ambassador providing tours of the John Pappajohn Building, acting as hosts at college functions, providing information and assistance to visiting groups, assisting student recruitment activities. Requirements: admission to Tippie College of Business and acceptance as a Business Student Ambassador.

- **06B:090 (BUS:2500) International Perspectives Program I** 0 s.h.
  - First in a two-course sequence; orientation to International Perspectives Program (IPP) community; introduction to the concept of an academic study map; development of an individual strategy towards academic study maps; begin foundational introduction to materials covered in 06B:091 (BUS:2510), including an introduction to concepts of identity and culture from macro and micro perspectives; required seminar for all first-year IPP students. Requirements: admission to the International Perspectives Program.
06B:091 (BUS:2510) International Perspectives Program II
Continuation of 06B:090 (BUS:2500); exploration of concepts of identity and culture from both a macro and micro perspective; how culture and background impact how students think about and understand the world; exploration of having built-in assumptions about the world and why in some circumstances the ability to challenge those assumptions can be useful; study of cross-cultural communication. Prerequisites: 06B:090 (BUS:2500). Requirements: admission to the International Perspectives Program.

06B:092 (BUS:2520) IPP Project
1-2 s.h.
Enhancement of foreign language studies and study abroad experiences; students select a topic of interest to explore an aspect of a study abroad country and culture in greater depth; creation of real-world interactions with people in host communities to utilize and develop language skills. Prerequisites: 06B:090 (BUS:2500) and 06B:091 (BUS:2510). Requirements: admission to the International Perspectives Program.

06B:100 (BUS:3000) Business Communication and Protocol
3 s.h.
Foundation in business communication and protocol; composing business messages, organizing and reporting workplace data, developing business presentation and team-building skills, exploring issues pertaining to business ethics and professional behavior. Prerequisites: 010:003 (RHET:1030). Requirements: admission to Tippie College of Business and 30 s.h. earned.

06B:102 (BUS:3050) Business, Culture, and Society
3 s.h.
International business environment and interpersonal traits and skills expected of successful international businessperson; interdisciplinary overview of issues related to business in Western Europe; important cultural differences, the code of business and professional etiquette, business protocol, Italian business history, cultural appreciation, and executive legal/ethical concerns in the workplace; series of lectures, workshops, speakers, plant tours, and cultural events.

06B:110 (BUS:3700) Effective Communication in a Global Workplace
arr.
Development of communication skills that people use in professional settings; concepts and ideas that include domestic and international perspectives; how culture affects communication patterns; effective response styles; how language choices and nonverbal cues affect the image a person projects; best channel and tone for various oral exchanges; effective ways to give and receive criticism.

06B:115 (BUS:3750) Technical and Professional Editing
1-3 s.h.
Introduction to editorial skills required for production of high-quality professional and technical documents; hands-on workshop.

06B:130 (BUS:3900) Business Communication Internship I
arr.
Opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center.

06B:131 (BUS:3910) Business Communication Internship II
3 s.h.
Continuation of 06B:130 (BUS:3900); opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center. Prerequisites: 06B:130 (BUS:3900).

06B:140 (BUS:3800) Business Writing
3 s.h.
Individualized, practical projects based on student’s interests and career goals; development of communication, analytical, and creative skills to sell ideas in the professional world.

06B:187 (BUS:3850) Global Business Perspectives
3 s.h.
Virtual classroom component of summer internships in London, Dublin, or Hong Kong; value of international work assignments, work as part of cross-cultural teams, skills and perspectives for living and working in a culturally diverse world; students set goals and complete professional development assignments, and analyze cultural and political environment of their internship sites.

06B:194 (BUS:3999) Honors Seminar
1-3 s.h.

06B:195 (BUS:4999) Honors Thesis in Business
3 s.h.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

06B:199 (BUS:4900) Academic Internship
arr.
Professional internship experience with associated academic content (e.g., paper, course work).

Lecturers
Amy An, Thomas J. Carroll, Kevin Den Adel, Robert J. Hartman, Mary M. Murphy

Undergraduate major: accounting (B.B.A.)
Graduate degrees: M.Ac.; Ph.D. in business administration

Web site: http://tippie.uiowa.edu/accounting

The Department of Accounting offers a broad education that prepares undergraduate and graduate students for careers in public accounting, private industry, government, nonprofit organizations, and academia.

PROFESSIONAL PROGRAM IN ACCOUNTING

The Professional Program in Accounting draws on curricula that provide a strong base of traditional technical subject matter and the skills needed for solving complex business problems. This framework of study enables students to continue professional growth over the entire span of their careers. The program emphasizes communication skills and provides the academic background required for leadership positions in business, government, and public accounting. It also qualifies students to take the Certified Public Accountant (CPA) examination.

The Professional Program in Accounting leads to a Bachelor of Business Administration with a major in accounting, which requires 120 s.h. of credit (see "Undergraduate Program" below), and the Master of Accounting, which requires 30 s.h. of graduate credit (see "Graduate Programs" later in this section). Students are granted the B.B.A. upon successful completion of the third and fourth years of the Professional Program in Accounting; they are granted the M.Ac. after successful completion of 30 s.h. beyond the B.B.A.

Undergraduate Program

• Major in accounting (Bachelor of Business Administration)

Students who wish to earn the Bachelor of Business Administration with a major in accounting must be admitted to the Professional Program in Accounting. Undergraduate accounting majors are subject to the probation and dismissal rules described in the Bachelor of Business Administration (p. 573) section of the Catalog and are governed by the Tippie College of Business Honor Code.

The B.B.A. is not sufficient preparation for CPA licensure in some states that have passed a 150 hour law, including Iowa.

Bachelor of Business Administration

The Bachelor of Business Administration with a major in accounting requires a minimum of 120 s.h., including at least 25 s.h. of work for the major. The major in accounting is for undergraduate students admitted to the Professional Program in Accounting. Course work in the program provides concentrated coverage of professional accounting subjects and closely related topics in commercial law, business, and information systems.

To enter the Professional Program in Accounting, undergraduates must be admitted to the Tippie College of Business. They must have a University of Iowa g.p.a. of at least 3.00 and a cumulative g.p.a. of at least 3.00; a g.p.a. of at least 2.67 (B-minus average) in 06A:001 (ACCT:2100) Introduction to Financial Accounting and 06A:002 (ACCT:2200) Managerial Accounting; and a passing score on the Department of Accounting writing assessment. Students who wish to declare accounting as a major but do not satisfy the automatic admission requirements may still apply to the professional program; applications are reviewed case-by-case.

Students must complete the following prerequisite courses before admission to the Professional Program in Accounting.

06A:001 (ACCT:2100) Introduction to Financial Accounting 3 s.h.
06A:002 (ACCT:2200) Managerial Accounting 3 s.h.
06E:001 (ECON:1100) Principles of Microeconomics 4 s.h.
06E:002 (ECON:1200) Principles of Macroeconomics 4 s.h.
22M:017 (MATH:1380) Calculus and Matrix Algebra for Business 4 s.h.
225:008 (STAT:1030) Statistics for Business 4 s.h.

The major in accounting requires the following work during the third and fourth years. For B.B.A. common requirements, see Bachelor of Business Administration (p. 573) in the Catalog.

THIRD YEAR

Fall Semester
06A:131 (ACCT:3200) Income Measurement and Asset Valuation 3 s.h.
06A:133 (ACCT:3400) Introduction to Taxation 3 s.h.
06A:150 (ACCT:3100) Professional Orientation Seminar Series (must be taken during first or second semester in the professional program) 1 s.h.
06B:100 (BUS:3000) Business Communication and Protocol (taken first year after admission to the college) 3 s.h.
One business core requirement 3 s.h.
Elective 3 s.h.

Due to overlap in course content, accounting majors may not count 06A:120 (ACCT:3020) Financial Accounting and Reporting toward the B.B.A. degree.

**Spring Semester**

06A:132 (ACCT:3300) Valuation of Financial Claims 3 s.h.
Two business core requirements 6 s.h.
Elective 3 s.h.

**Summer: GMAT and Admission to the M.Ac.**

Students who intend to continue in the Professional Program in Accounting after receiving the B.B.A. should take the Graduate Management Admission Test (GMAT) during the summer before their senior year, as preparation for applying to the Master of Accountancy program.

**FOURTH YEAR**

Students must choose one of the following accounting electives during their fourth year.

06A:141 (ACCT:3500) Advanced Tax Topics 3 s.h.
06A:145 (ACCT:4400) Advanced Financial Accounting 3 s.h.

**Fall Semester**

06A:144 (ACCT:4100) Auditing 3 s.h.
One accounting elective 3 s.h.
One business core requirement 3 s.h.
Two electives 6 s.h.

**Spring Semester**

06A:130 (ACCT:4200) Accounting for Management Analysis and Control 3 s.h.
06A:148 (ACCT:4300) Business Law 3 s.h.
One accounting elective (if not taken fall semester) 3 s.h.
Two or three electives 6-9 s.h.

**Optional Accounting Elective**

All undergraduates, whether admitted to the M.Ac. program or not, may take 06A:199 (ACCT:4900) Academic Internship for 1 s.h. in fall, spring, or summer. Department consent is required.

**Graduate Programs**

- Master of Accountancy
- Doctor of Philosophy in business administration

The department collaborates with the College of Law to offer the joint M.Ac./J.D. program; see “Joint M.Ac./J.D.” below. It also participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

Graduate students in accounting are subject to the probation and dismissal rules of the Graduate College and are governed by the Tippie College of Business Honor Code.

**Master of Accountancy**

The Master of Accountancy requires 30 s.h. beyond the B.B.A. The program permits students to specialize in accounting areas according to their interests and objectives. It builds on the technical skills acquired in the undergraduate program, broadens students' perspectives of the role of accounting in organizations and decision making, and further develops written and oral communication skills.

Students from a variety of academic backgrounds enter the M.Ac. program. Those who enter with an undergraduate degree in accounting can expect to complete the degree in 12 months. Those who enter with a non-accounting undergraduate degree typically require four semesters to complete the M.Ac. Study plans are adjusted to reflect each student's particular academic background; see "Course Work for Students Without Undergraduate Degrees in Accounting" later in this section.

The M.Ac. is a nonthesis program. Course work focuses on the conceptual and economic foundations of accounting with applications to current and emerging problems of professional practice. M.Ac. students also have the opportunity to acquire expertise in one of four specialization areas: financial accounting/auditing, management information systems, taxation, and managerial accounting.

The required 30 s.h. must include at least 12 s.h. earned in graduate-level accounting courses and at least 21 s.h. earned in 200-level courses.

Courses leading to specialization areas and those required for the core program are as follows. Because of the cross-disciplinary nature of the subject matter included in the specialization areas, courses in a number of other departments are included.

**Specialization in Financial Accounting/Auditing**

**Accounting Courses**

Total of 12 s.h.

All of these:

- 06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
- 06A:245 (ACCT:9040) Financial Information and Capital Markets 3 s.h.

One of these:

- 06A:231 (ACCT:9050) Taxes and Business Strategy 3 s.h.

**Finance Courses**

Total of 6 s.h.
06N:225 (MBA:8180) Managerial Finance (requires consent of M.B.A. office) 3 s.h.
One additional 200-level finance course 3 s.h.

Management Information Systems Courses
Total of 3-6 s.h.
06K:226 (MSCI:9200) Visual Basic Programming (if not already taken) 3 s.h.
06K:230 (MSCI:9230) Database Systems 3 s.h.

General Electives
Total of 6-9 s.h.

SPECIALIZATION IN MANAGEMENT INFORMATION SYSTEMS
Due to the timing of course offerings, students who do not begin the M.Ac. program in the summer session should take a computer programming course while they are undergraduates. This decreases the number of required management information systems courses and increases electives by 3 s.h. in the M.Ac. program.

Accounting Courses
Total of 12 s.h.
Two of these:
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
06A:231 (ACCT:9050) Taxes and Business Strategy 3 s.h.
One of these (not already taken):
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
06A:231 (ACCT:9050) Taxes and Business Strategy 3 s.h.
06A:241 (ACCT:9150) Tax Research 3 s.h.
06A:245 (ACCT:9040) Financial Information and Capital Markets 3 s.h.

Management Information Systems Courses
Total of 9-12 s.h.
06K:226 (MSCI:9200) Visual Basic Programming (if not already taken) 3 s.h.
Three 200-level information systems courses (06K or 22C) 9 s.h.

General Electives
Total of 6-9 s.h.

SPECIALIZATION IN TAXATION

Accounting Courses
Total of 9 s.h.
Two of these:
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
One of these (not already taken):
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
06A:241 (ACCT:9150) Tax Research 3 s.h.
06A:245 (ACCT:9040) Financial Information and Capital Markets 3 s.h.

Management Information Systems Courses
Total of 3-6 s.h.
06K:226 (MSCI:9200) Visual Basic Programming (if not already taken) 3 s.h.
06K:230 (MSCI:9230) Database Systems 3 s.h.

Business Electives Outside Accounting
Two 200-level business electives 6 s.h.

General Electives
Total of 6-9 s.h.

CORE PROGRAM COURSE REQUIREMENTS
Students who do not wish to pursue a specialization area must complete 30 s.h. beyond the B.B.A. At least 15 s.h. must be earned in graduate-level accounting courses and at least 21 s.h. must be earned in 200-level courses. The following courses are required.

Accounting Courses
Total of 15 s.h.
06A:221 (ACCT:9130) Financial Reporting: Theory and Practice (taken fall semester) 3 s.h.
06A:230 (ACCT:9140) Advanced Auditing (taken spring semester) 3 s.h.
06A:231 (ACCT:9050) Taxes and Business Strategy (taken fall semester) 3 s.h.

One of these (not already taken):
06A:241 (ACCT:9150) Tax Research 3 s.h.
06A:245 (ACCT:9040) Financial Information and Capital Markets 3 s.h.

Management Information Systems Courses
Total of 3-6 s.h.
06K:226 (MSCI:9200) Visual Basic Programming (if not already taken) 3 s.h.
06K:230 (MSCI:9230) Database Systems 3 s.h.

General Electives
Total of 9-12 s.h.

Course Work for Students Without Undergraduate Accounting Degrees
Courses taken by students who enter the program with a non-accounting bachelor's degree are determined by each student's background and interest area. In addition to meeting the core program requirements for the M.Ac., students typically take a combination of undergraduate and M.B.A. courses to remove academic deficiencies in quantitative methods, business, and accounting. Students with a bachelor's degree in another area of business typically are required to take 45-51 s.h. in order to complete the M.Ac. program. Those with degrees outside of business and with no accounting courses typically are required to take 57-60 s.h.

CPA Examination and the Iowa Accountancy Act
The Iowa Accountancy Act that became effective in January 2001 requires individuals who wish to take the CPA examination to have a bachelor’s degree, 24 s.h. of business course work, and 24 s.h. of accounting course work beyond 06A:001 (ACCT:2100) Introduction to Financial Accounting.

Admission
Admission to the M.Ac. program is competitive. The admissions committee reviews applications individually, considering quantitative aspects (grade-point average and GMAT scores) and qualitative aspects of each applicant's background and professional experience (if applicable) to assess the applicant's potential for academic success and professional growth.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Application materials must include the following: the Application for Graduate Admission; official transcripts of all undergraduate and graduate course work submitted by each institution the applicant has attended; official scores on the Graduate Management Admission Test (GMAT); a supplemental application form with essay responses; a résumé and cover letter; and at least three letters of reference from former instructors or employers. (B.B.A. accounting students at The University of Iowa are not required to provide letters of reference.)

Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

University of Iowa undergraduate accounting students are encouraged to take the Graduate Management Admission Test (GMAT) the summer before their senior year. They may apply to the M.Ac. after December 1 of their fourth year. See "Application Deadlines" below.

For complete information about application procedures, contact the Department of Accounting.

APPLICATION DEADLINES
The Department of Accounting admissions committee reviews completed M.Ac. application files (which must include official GMAT scores) on five dates: March 1, April 15, July 15, October 1, and December 1. Applications are reviewed on these dates regardless of whether the applicant plans to begin the M.Ac. program in the fall semester (August), spring semester (January), or summer session (June). Final Graduate College application deadlines are as follows:

Fall semester entry: July 15 (April 15 for international students)
Spring semester entry: December 1 (October 1 for international students)
Summer session entry: April 15 (March 1 for international students)

Students who wish to apply for a teaching assistantship must apply to the M.Ac. program no later than March 1.

Joint M.Ac./J.D.
The Department of Accounting and the College of Law offer the joint Master of Accountancy/Juris Doctor program. The joint M.Ac./J.D. requires a minimum of 18 s.h. of graduate course work in accounting. Students in the program may count up to 12 s.h. of College of Law courses as electives for the M.Ac. and up to 12 s.h. of graduate accounting courses as electives for the J.D. Separate application to each degree program is required; applicants must be admitted to each program before they may be admitted to the joint program.

For information about the Juris Doctor degree, see the College of Law (p. 880) section of the Catalog.

Doctor of Philosophy
Graduate students in accounting may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy (p. 581) in the Catalog and visit the Department of Accounting web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Application materials must include the applicant’s score on the Graduate Management Admission Test (GMAT).
Faculty
The department’s faculty members stay current in their discipline by producing and disseminating accounting-related knowledge. They keep abreast of the latest developments in the field of education and the profession by participating in educational conferences and seminars and publishing in leading academic journals.

Courses
Primarily for Undergraduates

**06A:001 (ACCT:2100) Introduction to Financial Accounting**
3 s.h.
Accounting and financial reporting procedures used by business and not-for-profit entities; emphasis on accounting concepts and use of accounting information in making economic decisions. Requirements: sophomore or higher standing.

**06A:002 (ACCT:2200) Managerial Accounting**
3 s.h.
Basic topics in cost behavior, measurement, accumulation; use of cost data for relevant analysis, budgeting, performance evaluation. Prerequisites: 06A:001 (ACCT:2100), 06E:001 (ECON:1100), and 22M:017 (MATH:1380).

For Undergraduate and Graduate Students

**06A:101 (ACCT:4050) Directed Readings in Accounting**
arr.
Individual guided readings in accounting topics. Requirements: admission to Professional Program in Accounting.

**06A:120 (ACCT:3020) Financial Accounting and Reporting**
3 s.h.
External financial reporting practices in context of decisions by management, current and potential stockholders, financial analysts; emphasis on interpretation, use of financial statements. Prerequisites: 06A:002 (ACCT:2200). Requirements: non-accounting major.

**06A:130 (ACCT:4200) Accounting for Management Analysis and Control**
3 s.h.
Advanced topics in cost estimation, measurement, accumulation; use of cost data for decision making, performance evaluation in multi-unit organizations. Prerequisites: 06E:071 (ECON:2800) and 06K:070 (MSCI:2000). Requirements: admission to Professional Program in Accounting.

**06A:131 (ACCT:3200) Income Measurement and Asset Valuation**
3 s.h.
Accounting rules that determine how economic events and transactions are described in published financial reports; emphasis on revenue and expense recognition, asset valuation, accrual accounting model. Corequisites: 06A:133 (ACCT:3400). Requirements: admission to Professional Program in Accounting.

**06A:132 (ACCT:3300) Valuation of Financial Claims**
3 s.h.

**06A:133 (ACCT:3400) Introduction to Taxation**
3 s.h.
Federal income taxation of individuals and businesses, including corporations, partnerships, and sole proprietors; emphasis on developing a broad perspective on structure, administration, and rationale of federal income tax system. Corequisites: 06A:131 (ACCT:3200). Requirements: admission to Professional Program in Accounting.

**06A:141 (ACCT:3500) Advanced Tax Topics**
3 s.h.
Taxation of corporations and partnerships from organization through liquidation; relative merits of conducting business as C corporation, partnership, S corporation; the alternative minimum tax; introduction to tax research. Prerequisites: 06A:133 (ACCT:3400). Requirements: senior standing.

**06A:144 (ACCT:4100) Auditing**
3 s.h.
General framework underlying auditing, role of audit standards in planning and conduct of audits, effect of regulation, ethics, liability on audit practices. Prerequisites: 06A:132 (ACCT:3300), 06A:150 (ACCT:3100), 06E:071 (ECON:2800), and 06K:180 (MSCI:3100). Requirements: senior standing.

**06A:145 (ACCT:4400) Advanced Financial Accounting**
3 s.h.
Accounting and reporting standards for business combinations, including mergers, consolidations, and multinational enterprises; accounting for partnerships, business segments, transactions denominated in foreign currency, including hedges using foreign currency derivative instruments; reporting standards for interim financial statements and fund accounting applied to government and nonprofit entities. Prerequisites: 06A:132 (ACCT:3300). Requirements: senior standing.

**06A:148 (ACCT:4300) Business Law**
3 s.h.
Contracts, sales, debtor-creditor relations, business organizations, other aspects of law applied to business. Prerequisites: 06J:047 (MGMT:2000). Requirements: senior standing.

**06A:149 (ACCT:3000) Financial Statement Analysis**
3 s.h.
How to analyze published financial statements; practical experience using financial statement information to assess accounting quality, historical performance, forecasted performance, credit risk, firm value. Prerequisites: 06A:120 (ACCT:3020).

**06A:150 (ACCT:3100) Professional Orientation Seminar Series**
1 s.h.
Seminar topics, including accounting careers, curriculum, M.A. program, internships, CPA examination and other professional certificates, Beta Alpha Psi, ethics, and global standards. Offered fall semesters. Corequisites: 06A:131 (ACCT:3200) or 06A:132 (ACCT:3300). Requirements: admission to Professional Program in Accounting.

**06A:170 (ACCT:4000) Special Topics in Accounting**
1-3 s.h.
Independent study topics determined by faculty member.

**06A:171 (ACCT:4001) Continuing Education: Special Topics in Accounting**
arr.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

**06A:199 (ACCT:4900) Academic Internship**
1 s.h.
Professional internship experience.
Primarily for Graduate Students

Development of cost accumulation and reporting systems that complement a firm's strategy and structure; how activity-based cost management systems increase competitiveness by helping a firm manage its costs, processes, people. Prerequisites: 06A:130 (ACCT:4200) or 06A:235 (ACCT:9020).

06A:221 (ACCT:9130) Financial Reporting: Theory and Practice 3 s.h.

06A:230 (ACCT:9140) Advanced Auditing 3 s.h.
Advanced issues such as ethics, internal control audits, forensic auditing, and fair value auditing. Prerequisites: 06A:144 (ACCT:4100). Requirements: graduate standing in business.

06A:231 (ACCT:9050) Taxes and Business Strategy 3 s.h.
Effect of taxes on business decisions, including investment strategies, capital structure decisions, compensation policies, international business, mergers and acquisitions, and financial reporting. Prerequisites: 06A:141 (ACCT:3500) and 06N:215 (MBA:8140). Requirements: graduate standing in business.

06A:235 (ACCT:9020) Strategic Cost Analysis 3 s.h.
Introduction to cost accumulation, reporting, cost management systems; managerial and divisional performance evaluation; appropriate use of cost data for short- and long-run decisions; product costing in manufacturing and service industries. Prerequisites: 06N:215 (MBA:8140).

06A:240 (ACCT:9030) Financial Accounting Standards and Analysis 3 s.h.
Accounting model, underlying measurement concepts, valuation rules for assets, liabilities, related issues of income determination; emphasis on economic substance of transactions, evaluation and interpretation of financial data. Prerequisites: 06N:215 (MBA:8140).

06A:241 (ACCT:9150) Tax Research 3 s.h.
Understanding the validity and use of various tax law sources; performing tax research using printed and electronic tax materials; evaluation of tax law provisions and application to specific facts and circumstances; preparing tax memorandums. Prerequisites: 06A:141 (ACCT:3500). Requirements: admission to M.Ac. program.

06A:245 (ACCT:9040) Financial Information and Capital Markets 3 s.h.
Use of corporate financial statements for investment and lending decisions; emphasis on financial analysis techniques, valuation, business analysis, cash flow projections, credit scoring, related research evidence. Prerequisites: 06N:215 (MBA:8140), or 06A:131 (ACCT:3200) and 06A:132 (ACCT:3300); and 06N:225 (MBA:8180).

06A:246 (ACCT:9160) Corporate Governance 3 s.h.
How to evaluate and implement mechanisms for good corporate governance; to ensure returns for investors and firms' access to capital markets on reasonable terms; perspectives of investor, firm, regulator.

06A:286 (ACCT:7850) Seminar in Accounting Research 3 s.h.
Forum on current research in accounting, related disciplines; faculty, student, guest papers, Ph.D. dissertation proposals. Requirements: Ph.D. enrollment.

06A:287 (ACCT:7900) Seminar in Selected Accounting Topics arr.
Individual study, research paper preparation. Requirements: Ph.D. enrollment.

Requirements: Ph.D. enrollment.
Bachelor of Business Administration

**Undergraduate major:** B.B.A.

**Web site:** http://tippie.uiowa.edu

**Undergraduate Program**

- Bachelor of Business Administration

The Bachelor of Business Administration is offered with majors in accounting, economics, finance, management, management information systems, and marketing. This Catalog section provides information about requirements that all B.B.A. students must fulfill, regardless of their major, as well as admission information and academic rules and procedures for the B.B.A. For information about the individual majors, see Accounting (p. 567), Economics (p. 582), Finance (p. 592), Management and Organizations (p. 602), Management Sciences (p. 607), and Marketing (p. 611) in the Catalog.

Students may earn double majors in the B.B.A.; they also may earn joint degrees in the College of Engineering or the College of Liberal Arts and Sciences. See “Double Majors in Business” and “Joint Degrees” below.

Many business students earn one or more of the wide variety of certificates and minors offered in disciplines across the University; see “Minors” and “Certificates” below.

The Tippie College of Business’s undergraduate and graduate programs are accredited by AACSB International—the Association to Advance Collegiate Schools of Business.

**UNDERGRADUATE ADVISING**

All business students are advised at the business college’s Undergraduate Program Office. Pre-business students are advised at the University’s Academic Advising Center or the college’s Undergraduate Program Office. Assignment to the Undergraduate Program Office for advising depends on a student’s grade-point average, completion of calculus and statistics, and/or the number of semester hours completed. Walk-in hours and scheduled appointments are available at both offices. For more information on advising, contact the college’s Undergraduate Program Office or the UI Academic Advising Center.

**HONOR CODE**

Integrity and honesty are essential to success in all facets of life. The purpose of the Tippie College of Business Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code.

**Bachelor of Business Administration**

The Bachelor of Business Administration requires a minimum of 120 s.h. of credit, including at least 48 s.h. earned in business courses and at least 60 s.h. earned in nonbusiness courses.

B.B.A. students must earn 30 s.h. in residence following admission to the Tippie College of Business. At least 24 s.h. in courses offered by the business college and at least two-thirds of the semester hours in the student’s major must be earned at The University of Iowa. Nonresident instruction includes course work at colleges and universities other than The University of Iowa.

To graduate, B.B.A. students must have a cumulative g.p.a. of at least 2.00 in all college course work attempted, all college course work attempted in business, all college course work attempted in the major, all course work attempted at The University of Iowa, all business course work attempted at The University of Iowa, and all course work in the major attempted at The University of Iowa.

**Common B.B.A. Requirements**

B.B.A. students must satisfy the following minimum common requirements or approved equivalents. For approved equivalents, consult the college’s Undergraduate Program Office.

**GENERAL EDUCATION REQUIREMENTS**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Minimum Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rhetoric</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>Interpretation of Literature</td>
<td>3 s.h.</td>

<td>3 s.h.</td>
</tr>
</tbody>
</table>

Tippie College of Business students may complete the World Languages requirement using one of two options. One year of high school language study is generally equivalent to one semester of college language study.

**Option one:** attain fourth-level proficiency in a single world language, usually by completing four years of that language in high school or four semesters in college or an equivalent combination of high school and college course work; or pass an achievement test or evaluation at fourth-level proficiency.

**Option two:** attain second-level proficiency in each of two world languages, usually by completing two years of each language in high school or two semesters of each language in college or an equivalent combination of high school and college course work; or pass achievement tests and/or evaluations at second-level proficiency in each language. Option two does not fulfill the World Languages requirement for the College of Liberal Arts and Sciences or qualify students to earn credit under the Furthering Language Incentive Program (FLIP).

Students may not count courses taken to fulfill General Education Program requirements toward other requirements for the B.B.A.

MAJOR STUDY AREA

All B.B.A. students must complete a major area of study. The college offers majors in accounting (p. 567), economics (p. 582), finance (p. 592), management (p. 602), management information systems (p. 607), and marketing (p. 611). The requirements for each major are established by the department that offers the major.

Students with Associate of Arts Degrees

Students who have been granted an Associate of Arts (A.A.) from a community college participating in the Iowa Community College/Regents Articulation Agreement are considered to have met all high school unit requirements for admission to the B.B.A. and all of the General Education Program requirements listed under “General Education Requirements” above, except the World Languages requirement. The program of study for which the student was awarded the A.A. must have included:

- a minimum of 60 s.h. (or 90 quarter hours) of credit acceptable toward graduation from The University of Iowa, mathematics courses comparable to 22M:001 (MATH:0100) Basic Algebra I and 22M:003 (MATH:0300) Basic Geometry, and are not accepted toward graduation;
- completion of the agreed-upon group of courses at the community college; and
- a g.p.a. of at least 2.00.

Completion of an Associate of Arts does not guarantee admission to the Tippie College of Business. See "Admission" later in this section for a complete list of requirements for admission to the B.B.A.

Students who use the provisions of the articulation agreement are granted a maximum of 60 s.h. of transferable credit from two-year colleges toward the 120 s.h. required for a B.B.A. Credit earned for the A.A. beyond the 60 s.h. transferable maximum is used in computing the student’s grade-point average, and it may be used to satisfy course requirements, but it does not count toward the B.B.A. Transfer credit for business courses taken during the first and second years is counted toward the B.B.A. only if such courses are usually offered as lower-division courses at The University of Iowa.

Transfer Courses

Students who have taken courses at another institution that are similar to those approved for the common business requirements at Iowa may request that these courses be evaluated for transfer credit. Students who transfer fewer hours than needed to meet a common business requirement may use only approved courses to complete the remainder of the requirement. Only third- and fourth-year-level courses taken at accredited four-year institutions may be used to satisfy common business course requirements numbered 100 (3000) and above. Students must complete a minimum of 24 s.h. of business course work and at least two-thirds of the course work in the major at The University of Iowa. They also must meet the 30 s.h. residency requirement of the Tippie College of Business. Credit earned through Guided Independent Study may be counted toward all requirements for graduation, subject to approval by the student’s major department.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Note: The following checkpoints are designed for students who enter the University as direct admission or pre-business students. In order to stay on the plan, pre-business students must maintain the grade-point averages required for admission to the Tippie College of Business and must apply for admission to the college by the established deadline. The Four-Year Graduation Plan is not available to students who choose to pursue a double major in the college or to those enrolled in a joint degree program.

Students must take 06B:100 (BUS:3000) Business Communication and Protocol during their first year after admission to the Tippie College of Business, except direct admission students, who take the course during their second year.

**Before the third semester begins:**

- 06E:001 (ECON:1100) Principles of Microeconomics or 06E:002 (ECON:1200) Principles of Macroeconomics, 22M:017 (MATH:1380) Calculus and Matrix Algebra for Business, and 22S:008 (STAT:1030) Statistics for Business, or equivalents; and at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:**

- 06A:001 (ACCT:2100) Introduction to Financial Accounting, 06A:002 (ACCT:2200) Managerial Accounting, and 06E:001 (ECON:1100) Principles of Microeconomics or 06E:002 (ECON:1200) Principles of Macroeconomics (whichever has not already been taken), or equivalents; all General Education requirements; and at least half of the semester hours required for graduation

**Before the seventh semester begins:**

- business core requirements, approximately half of the course work in the major (varies by major), and three-quarters of the semester hours required for graduation

**Before the eighth semester begins:**

- approximately three-quarters of course work in the major (varies by major)

**During the eighth semester:**

- all remaining course work in the major, and a sufficient number of semester hours to graduate

Honors

The Tippie College of Business Honors Program offers outstanding students the opportunity to undertake independent study and to work closely with faculty.
members and other honors students. To graduate with honors, students must complete 06B:194 (BUS:3999) Honors Seminar during the spring of their third year or fall of their fourth year. During the following semester, they must complete an honors thesis in one of the college’s departments, registering for the appropriate course from the following list.

06A:195 (ACCT:4999) Honors Thesis in Accounting 3 s.h.
06E:195 (ECON:4999) Honors Thesis in Economics 3 s.h.
06F:195 (FIN:4999) Honors Thesis in Finance 3 s.h.
06J:195 (MGMT:4999) Honors Thesis in Management and Organizations 3 s.h.
06K:195 (MSCI:4999) Honors Thesis in Marketing Sciences 3 s.h.
06M:195 (MKTG:4999) Honors Thesis in Marketing 3 s.h.

Students must have a g.p.a. of at least 3.50 to enter the Tippie Honors Program. To earn the B.B.A. with honors, students must successfully complete all college and honors program requirements with a g.p.a. of at least 3.50 in all courses taken at Iowa, all business courses taken at Iowa, all courses taken (including transfer courses), and all business courses taken (including transfer courses).

See Tippie College of Business Honors Program to learn more.

Pre-business students interested in the honors program are encouraged to participate in the University of Iowa Honors Program until they are admitted to the business college.

Double Majors in Business

Students may earn a double major by meeting the requirements of more than one major in the Tippie College of Business. They receive one B.B.A. with two majors. The Four-Year Graduation Plan is not available to students pursuing a double major.

Students may declare only one major when they apply to the college, but they may add a second major on the first day of classes during their first semester after admission to the college, or any time after that. Students may declare a maximum of two programs (programs include majors and certificates). Students who have officially declared double majors have access to degree audits for both majors. They also have access to both sets of major courses, with some limitations, during early registration. Students may not change majors in order to have priority registration for more than two majors at one time. A student must be in good academic standing in order to declare a second major. See Double Majors—Policies and Procedures.

Joint Degrees

Joint B.B.A./Liberal Arts and Sciences Degree

The Tippie College of Business and the College of Liberal Arts and Sciences offer a joint degree program in which students earn two University of Iowa bachelor’s degrees: a Bachelor of Business Administration (B.B.A.) from the Tippie College of Business; and a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.) from the College of Liberal Arts and Sciences.

All students in a joint degree program must complete requirements for both degrees, including all General Education requirements.

The second-grade-only option is available to students in joint degree programs. Students should consult with their advisors about whether they are eligible for the second-grade-only option.

Joint degree students are assigned two advisors, one in the Tippie College of Business Undergraduate Program Office, the other in their major in the College of Liberal Arts and Sciences.

To enter a joint degree program, students must have approval from the Tippie College of Business and must be admitted to both colleges. Interested students should see an advisor in the college’s Undergraduate Program Office.

To learn about liberal arts and sciences majors, see "Index: Academic Programs" in the College of Liberal Arts and Sciences section of the Catalog.

Joint B.B.A./B.S.E.

The Tippie College of Business and the College of Engineering offer a joint degree program in which students earn two University of Iowa bachelor’s degrees: a Bachelor of Business Administration (B.B.A.) from the Tippie College of Business and a Bachelor of Science in Engineering (B.S.E.) from the College of Engineering. Students interested in the joint B.B.A./B.S.E. program must be admitted to the Tippie College of Business through accelerated or standard admission; those who enter the college through direct admission are not eligible for the joint program.

Students in the joint degree program must complete all requirements for both degrees, including all General Education requirements. They must enroll in appropriate mathematics and engineering courses early in their course of study in order to complete the program in a timely way. Because courses in natural sciences, mathematics, humanities, and social sciences count toward the B.B.A. and the B.S.E., students may count a single course toward both degrees.

B.B.A./B.S.E. students usually meet the degree requirements of both colleges in about five years; time required depends on the student’s choice of major study areas.

The second-grade-only option is available to students in joint degree programs. Students should consult with their advisors about whether they are eligible for the second-grade-only option.

Students are assigned two advisors, one in the Tippie College of Business Undergraduate Program Office, the other in their College of Engineering major department.

To enter the joint degree program, students must have approval from the Tippie College of Business and must be admitted to both colleges. Interested students should see an advisor in the college’s Undergraduate Program Office.

For information about the B.S.E., including degree requirements, see Bachelor of Science in Engineering (p. 737) (College of Engineering) in the Catalog.

Minors

Bachelor of Business Administration students may earn minors in a number of disciplines. For example, students
interested in international business might choose to earn a
minor in a second language. For a list of minors and links
to the departments and programs that offer them, see
Undergraduate Minors (p. 14) in the Catalog.
Students may declare a minor on ISIS. To have the minor
recorded on their transcripts, they must complete the
“minor” section on the B.B.A. Application for Degree before
submitting the form to the Office of the Registrar early in
their final semester, or when they apply for the degree
using ISIS.

Certificates
Bachelor of Business Administration students may earn
certificates offered by the Tippie College of Business
as well as by other colleges at the University. The
business college offers the Certificates in Entrepreneurial
Management and in Risk Management and Insurance
(p. 620). In addition, it partners with the College of
Engineering to offer the Certificate in Technological
Entrepreneurship (p. 807) and with the College of Liberal
Arts and Sciences to offer the Certificates in International
Business (p. 358) and in Performing Arts Entrepreneurship
(p. 445).
The College of Liberal Arts and Sciences, the College
of Public Health, and University College offer a wide
range of certificates open to all undergraduates. Many
pair exceptionally well with a business major. See
Undergraduate Certificates (p. 13) in the Catalog for a
complete list of certificates and links to the departments
and programs that offer them.

Study Abroad
The Consortium of Universities for International Studies
(CUIS) offers semester and summer programs at Paderno
del Grappa, Italy, for undergraduate students and at Asolo,
Italy, for graduate students. Both campuses are located
northwest of Venice. Students and faculty in the programs
come from a variety of public and private universities in
the United States. The program’s rigorous, high-quality
courses emphasize current international events and are
taught in English. Students are encouraged to study
the Italian language and to participate in executive
lectures, plant tours, and unique personal development
opportunities.
The University’s Office for Study Abroad offers a wide
variety of study abroad programs in more than 40
countries. Students may choose from summer, semester,
academic year, and winter session programs that
complement their areas of study. See Study Abroad (p.
1135) (University College) in the Catalog for a list of
programs.

Admission
Students enter the Tippie College of Business in one of two
ways: direct admission or standard admission. All students
admitted to the College of Business must follow the Tippie
College of Business Honor Code. Students who meet the
admission requirements may be denied admission upon
evidence of postsecondary academic misconduct or other
violations of the honor code. Students are required to
meet with the associate dean, undergraduate program, to
discuss incidents of academic misconduct.
Admission standards are set by the Undergraduate
Program Committee. All admission appeals are reviewed
by the Undergraduate Program Office. Prospective
students must submit acceptance of admission offers
and all transcripts showing course work that satisfies the
Tippie College of Business admission requirements to
the University’s Office of Admissions by the appropriate
deadline. Letters of recommendation are not accepted. For
more information about application and admission, contact
the Undergraduate Program Office.

Note: The Tippie College of Business has adopted a new
selective standard admission policy for students applying
to enter the college in spring 2013 or after. The new policy
enables the college to evaluate applicants in a way that
is comprehensive and appropriate for a preprofessional
academic program.

Admission requirements for entry to the college through
fall 2012 are published in the 2011-12 General Catalog.

Direct Admission
Direct admission is designed to enable highly qualified
high school students to enter the college directly after
high school. Applicants must have a composite ACT score
of 27 or higher and a high school g.p.a. of 3.70 or higher
to qualify; see Admission Policies on the Tippie College
of Business web site for information about admission
requirements.
Entering first-year students may request an individual
review for direct admission to the Tippie College of
Business if they meet either the direct admission criterion
of an ACT composite score of 27 or higher or a high
school grade-point average of at least 3.70 (on a 4.00
scale). Requests are accepted through August 1. For more
information, see the Request for Individual Review for
Direct Admission form.

Additional requirements for declaring a major in
accounting include a University of Iowa g.p.a. of at
least 3.00 and a cumulative g.p.a. of at least 3.00; a
g.p.a. of at least 2.67 (B-minus average) in 06A:001
(ACCT:2100) Introduction to Financial Accounting and
06A:002 (ACCT:2200) Managerial Accounting; and a
passing score on the Department of Accounting writing
assessment.

Students who receive direct admission to the college
are eligible to apply to apply for scholarships through
the Tippie Scholars scholarship program. The application
process is highly competitive and is based on high school
record and an application essay. Application deadline is
January 15.

Standard Admission
University of Iowa students are eligible to apply to the
Tippie College of Business through standard admission
if they have completed at least 12 s.h. of graded course
work; have completed the four prerequisite courses
listed under “Common B.B.A. Requirements” above with
grades of C or higher; and have a g.p.a. of at least 2.75
on the prerequisite courses, on all college course work
completed, and on all University of Iowa course work.
Transfer students who have at least 60 s.h. of credit and
who meet these requirements also may apply through
standard admission.

Standard admission applicants must submit a 300-500
word personal statement and a one-page résumé, which
are considered in the admission decision along with the student’s academic performance.

Requirements for declaring a major include completion of 06A:002 (ACCT:2200) Managerial Accounting and 06E:002 (ECON:1200) Principles of Macroeconomics; see "Common B.B.A. Requirements" above. Additional requirements for declaring a major in accounting include a University of Iowa g.p.a. of at least 3.00 and a cumulative g.p.a. of at least 3.00, a g.p.a. of at least 2.67 (B-minus average) in 06A:001 (ACCT:2100) Introduction to Financial Accounting and 06A:002 (ACCT:2200) Managerial Accounting; and a passing score on the Department of Accounting writing assessment.

Applications for standard admission must be submitted online at Admissions on the Tippie College of Business website. Application deadlines are March 1 for fall admission and October 1 for spring admission; applicants should meet all admission requirements by the end of the semester in which they apply. Admission is not granted for the summer session or the three-week winter session. Applicants transferring from another college or university are held to the application deadlines. Students denied admission who can provide documentation of extenuating circumstances that affected their academic performance may file an Appeal for Denial of Admission to Business. Grades from the three-week winter session do not count toward admission for the following spring semester, and grades from a summer session do not count toward admission for the following fall semester.

Nondegree Admission

Students visiting from another institution who wish to enroll in undergraduate courses to earn credit that they can transfer to their home institution may be granted admission as undergraduate nondegree students. Nondegree students are not guaranteed access to specific courses; they must have the approval of the undergraduate program staff in the Tippie College of Business and may earn no more than 9 s.h. on nondegree status.

Reentry

Reentry to the Tippie College of Business after an absence from the University follows this policy.

Students absent 12 months or more, in good standing: These students must apply to the University’s Office of Admissions for reentry and must contact the Tippie College of Business Undergraduate Program Office for advising before they register. Their reentry is approved regardless of any changes in admission requirements during their absence.

Students absent 12 months or more, not in good standing: These students must file a petition for reinstatement with the Tippie College of Business Undergraduate Program Office. If the petition is approved, the student must file an application with the University’s Office of Admissions (the Undergraduate Program Office notifies the Office of Admissions about the approval). The student must schedule an appointment with an advisor in the Undergraduate Program Office for advising before he or she may register. Not in good standing is defined as being on probation or being dismissed from the Tippie College of Business due to unsatisfactory scholarship, academic misconduct at The University of Iowa or at another institution, or a violation of the Tippie College of Business Honor Code. Students who have been dismissed officially follow the procedures for reinstatement.

Students absent less than 12 months, in good standing: These students are not required to file an application for reentry; they should contact the Tippie College of Business Undergraduate Program Office for advising before they register. Their reentry is approved regardless of any changes in admission requirements during their absence.

Students absent less than 12 months, not in good standing: These students must contact the office of the Tippie College of Business Undergraduate Program Office; they may be readmitted on probation. They are not required to file an application for reentry or to schedule an appointment with an advisor.

All returning students: Students who have been enrolled in another college or university since leaving The University of Iowa are required to submit official transcripts along with their application for reentry. Completed application materials must be received at least two weeks before the opening of classes. Students may be approved to reenter with direct or accelerated admission status. Students are held to the General Catalog requirements that were in effect at the time of their reentry.

Academic Rules and Procedures

Academic Recognition

DEAN’S LIST

Undergraduate students in the Colleges of Liberal Arts and Sciences and Engineering and the Tippie College of Business who achieve a g.p.a. of 3.50 or higher on 12 s.h. or more of University of Iowa graded course work during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean’s List for that semester. Undergraduate students in the Carver College of Medicine may qualify for the Dean’s List with fewer than 12 s.h. of graded credit if deemed appropriate by the college. Beginning fall 2011, College of Nursing students participating in clinical courses must have a total of 12 s.h. of earned credit, with 8 s.h. of graded credit with a g.p.a. of 3.50 or higher.

PRESIDENT’S LIST

University of Iowa undergraduate students who achieve a g.p.a. of 4.00 on 12 s.h. or more of University of Iowa graded course work and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President’s List. Beginning fall 2011, College of Nursing students participating in clinical courses must have a total of 12 s.h. of earned credit, with 8 s.h. of graded credit, to qualify for the President’s List.
GRADUATION WITH HONORS
Graduation with honors recognizes high scholastic achievement based on grades and on completion of academic work beyond the requirements of the student’s major. To graduate with honors, students must maintain a cumulative, University of Iowa, business, and UI business g.p.a. of 3.50 and must successfully complete an honors project under the supervision of a faculty member. See “Honors” earlier in this Catalog section.

GRADUATION WITH DISTINCTION
Graduation with distinction recognizes high scholastic achievement based on grades. The Office of the Registrar certifies to the Tippie College of Business associate dean the names of students eligible to graduate with distinction. The college awards degrees "with highest distinction" to students in the highest two percent of the graduating class, "with high distinction" to students in the next highest three percent, and "with distinction" to the next highest five percent. Ranking is based on students’ grade-point averages for all college-level study undertaken before their final registration.

To be eligible to be considered for graduation with distinction, a student must complete 60 s.h. in residence as an undergraduate at The University of Iowa; 45 s.h. of that must be completed before the final registration.

Credit and Grading
CREDIT BY EXAMINATION
Students may earn up to 30 s.h. of credit by examination by taking selected tests from the College-Level Examination Program (CLEP) and the Advanced Placement (AP) program of the College Board or the International Baccalaureate Program (IB). For information about when and how to take the CLEP and AP examinations, contact the University’s Evaluation and Examination Service. The Tippie College of Business Undergraduate Program Office has information on scores, credit, and course duplicates for all CLEP, Advanced Placement, and IB tests accepted by the college.

MAXIMUM SCHEDULE
During early registration, students admitted to the Tippie College of Business may register for a maximum of 16 s.h. Course schedules that exceed 16 s.h. require approval from the Undergraduate Program Office. After early registration, students may register for a maximum of 18 s.h. Course schedules of more than 18 s.h. for a fall or spring semester, 9 s.h. for the six- or eight-week summer session, or 3 s.h. for the three-week session require approval from the Undergraduate Program Office.

ADDING AND DROPPING COURSES
Students may drop courses, except College of Law courses, any time before the deadline published in the University’s academic deadline calendar. Deadlines are different for regular and off-cycle courses. See Academic Deadlines for The University of Iowa on the Office of the Registrar web site (http://www.registrar.uiowa.edu).

Students must obtain approval from the college that offers the course in order to request permission to add or drop a course after these deadlines.

ADMINISTRATIVE DROPS FOR LACK OF PREREQUISITES
Students are responsible for making sure that they have satisfied all prerequisites for any course for which they register. Instructors and departments also have the option to drop a student from a course if the student has not satisfied the required prerequisites. Administrative drops must be processed by the first eight calendar days of the semester; the first two calendar days of the winter session, the three-week summer session, or the start of an off-cycle course; or the first four days of the six- or eight-week summer session. Administrative drops are made without assignment of a W (withdrawn). Students who are dropped from courses are notified. Students should not assume that they have been dropped from a course because they do not have the prerequisites.

ADMINISTRATIVE DROPS FOR NONATTENDANCE
Instructors have the option to drop a student who has missed the first two class periods of a course, unless the student has offered an acceptable reason for beginning the course late. Administrative drops must be processed by the first eight calendar days of the semester; the first two calendar days of the winter session, the three-week summer session, or the start of an off-cycle course. These administrative drops are made without assignment of a W (withdrawn). Students who are dropped from courses are notified. Students should not assume that they have been dropped from a course because they have not attended it.

PASS/NONPASS
Up to 15 s.h. of course work required for the B.B.A. may be taken pass/nonpass with the consent of an advisor and the instructor. Students must be in good academic standing to be eligible for the pass/nonpass option. A maximum of two pass/nonpass courses may be taken in one semester. Courses taken pass/nonpass may not be used to satisfy general education, core, or major business requirements; major business requirements include any course that fulfills a major course requirement or is offered by the major department. Pass/nonpass registration must be completed during the first 10 days of a fall or spring semester or the first one-and-one-half weeks of a summer session, and it requires the approval of the advisor and the instructor. For courses taken pass/nonpass, an earned grade of C-minus or higher is recorded as a P; an earned grade of D-plus or lower is recorded as an N. Pass/nonpass credit is not included in grade-point-average calculations.

SATISFACTORY/FAIL, SATISFACTORY/UNSATISFACTORY
Certain courses are offered satisfactory/fail (S/F) or satisfactory/unsatisfactory (S/U). All students registered for these courses receive one of these marks.

Special forms are not necessary to register for S/F or S/U courses, since all students enrolled in such courses automatically receive an S, an F, or a U.

Semester hours of S or U graded course work are not used in computing grade-point averages, but hours of F graded course work are used.

Semester hours of S graded course work are counted as semester hours earned toward graduation; semester hours of F or U graded course work do not count as semester hours earned toward graduation.
A maximum of 15 s.h. of S credit from The University of Iowa is accepted toward a bachelor’s degree.

SECOND-GRADE-ONLY OPTION

Pre-business majors admitted to the College of Liberal Arts and Sciences must follow the second-grade rules established by that college; contact the Academic Programs & Student Development office or see the CLAS Academic Policies Handbook.

Business majors (students admitted to the Tippie College of Business) may use the second-grade-only option for any course except Tippie College of Business courses numbered 101 or above; business courses include those with prefix 06A (ACCT), 06B (BUS), 06E (ECON), 06F (FIN), 06J (MGMT), 06K (MSCI), 06M (MKTG), or 06T (ENTR). This policy was effective as of summer 2010 and is retroactive, so students who repeated a course before then may be eligible to file for a second-grade-only option. Contact the Undergraduate Program Office for more information.

Business students may apply the option to a maximum of three different courses while they are enrolled at The University of Iowa; any second-grade-only option used before the student entered the Tippie College of Business counts as one of the three second-grade-only options allowed. The option may be used only once per course; once the option is placed on the record, it may not be retracted.

Courses taken at other colleges or universities may not be repeated at The University of Iowa under the second-grade-only option. University of Iowa courses may not be repeated at other institutions under the second-grade-only option.

If the course was taken for a grade the first time, it must be taken for a grade the second time. If the course was taken pass/nonpass the first time, the student may take it either pass/nonpass or for a grade the second time.

Any University of Iowa course taken in any mode of delivery (e.g., during a regular semester, summer session, or intensive session, or through distance learning and the Division of Continuing Education) may be repeated in the same delivery mode or in any other delivery mode.

The second-grade-only option may not be used by a student who has been awarded a degree from The University of Iowa for a course the student took before the degree was awarded.

Graduate or professional colleges may recalculate grade-point averages using all grades visible on the permanent record.

Business students must register as usual for the course that is to be repeated. After the beginning of the session in which the course is being repeated, students must request the second-grade-only option by contacting their assigned Undergraduate Program Office advisor.

The Office of the Registrar marks the permanent record with a pound symbol (#) to show that the first grade has been replaced by the second grade in the grade-point-average calculations and to show that only the hours from the second registration have been counted as hours earned.

INCOMPLETE GRADES

Instructors may report a mark of I (incomplete) only if the unfinished part of the student’s work in a course other than research, thesis, or independent study is small; if the work is unfinished for reasons acceptable to the instructor; and if the student’s standing in the course is satisfactory.

Students should not re-enroll in a course for which they have an incomplete. Incomplete grades must be removed by completing the unfinished part of the work. Faculty and students are encouraged to state clearly in a written agreement how the incomplete is to be completed. Both the faculty member and the student should keep a record of the written agreement.

Failure to remove the incomplete before the end of the next full semester, excluding summer and winter sessions, results in replacement of the I with a grade of F, regardless of whether the student is enrolled during that semester. A grade change may be submitted to convert a grade of F to another letter grade, with the instructor’s approval.

GUIDED INDEPENDENT STUDY

University of Iowa Guided Independent Study is counted as resident credit and may be applied to all requirements for graduation, subject to approval by the student’s major department. Guided Independent Study courses can be taken any semester, up to four courses at a time.

Students eligible for the second-grade-only option may retake the course through Guided Independent Study for the second-grade-only option. Likewise, students eligible for the second-grade-only option in a Guided Independent Study course may retake the course on campus for the second-grade-only option.

PROBATION AND DISMISSAL

Students are placed on academic probation when their grade-point average in any of the following categories falls below 2.00: all course work taken, all course work taken at The University of Iowa, all business course work taken, all business course work taken at The University of Iowa, all course work taken to satisfy requirements for the major(s), and all course work taken at The University of Iowa to satisfy requirements for the major(s). In probation decisions, a 3 s.h. minimum is used to calculate the grade-point average for all course work taken to satisfy requirements for the major(s), and all course work taken at The University of Iowa to satisfy requirements for the major(s).

When all of the above grade-point averages equal or surpass 2.00, students are removed from probation. Students usually are allowed only one session to return to good academic standing. They are required to meet with an academic advisor. Students on academic probation who withdraw registration after the deadline for dropping courses may be dismissed.

Students may be dismissed from the college at any time for unsatisfactory scholarship. While some probationary period usually precedes a dismissal, students in good academic standing who complete a term with extremely unsatisfactory grades may be placed on academic probation or dismissed immediately. Students dropped from the college for poor scholarship may petition for permission to reregister, but usually only after one year following the end of the term in which they were dismissed.

REINSTATEMENT

Students dismissed for unsatisfactory scholarship for the first time ordinarily are not permitted to register again.
for one year. Students dismissed for the second time may or may not be granted a second reinstatement. Requests for reinstatement must be made in writing and should be addressed to the associate dean in the Undergraduate Program Office. Students seeking reinstatement must make an appointment with an advisor in the Undergraduate Program Office. Reinstatements are limited to one major and may include a limit on the number of semester hours the student may take upon reinstatement. Late requests are deferred to the following semester.

Students who are permitted to register following dismissal are registered on academic probation and ordinarily are allowed two semesters to achieve good standing. Very poor academic work in the first semester of a reinstatement may result in dismissal at the close of that semester.

Returning for Baccalaureate Degrees

RETURNING FOR A SECOND BUSINESS MAJOR

Graduates who have a B.B.A. from The University of Iowa and have not been enrolled in a graduate or professional program may complete the requirements for another business major except accounting (see "Reentry" earlier in this section). Those interested in pursuing a degree in accounting must be admitted to the Graduate College to earn the Master of Accountancy degree; see Accounting (p. 567).

Students who return to The University of Iowa to complete another business major must meet the current requirements for that major. It is their responsibility to notify the Office of the Registrar upon completion of the requirements for the second major so that a notation can be placed on their permanent record.

Students who hold a degree from another college or university may not complete a second business major at The University of Iowa. (see “Returning for an Additional Bachelor’s Degree”).

RETURNING FOR AN ADDITIONAL BACHELOR’S DEGREE

Students who hold a bachelor’s degree from another college at The University of Iowa and who have not been enrolled in a graduate or professional program may return for an additional bachelor’s degree from the Tippie College of Business. They must satisfy all current requirements for undergraduate admission to the business college. Once admitted, they must satisfy all current requirements for the B.B.A. in their chosen major.

For information about pursuing an additional bachelor’s degree in accounting, see “Accounting as a Second Degree” below.

STUDENTS WITH BACCALAUREATES FROM OTHER INSTITUTIONS

Students with a bachelor’s degree from another college or university may apply for admission to The University of Iowa to earn an additional undergraduate degree from the Tippie College of Business. The requirements are the same as those listed under “Returning for an Additional Bachelor’s Degree” above.

For information about pursuing an additional bachelor’s degree in accounting, see “Accounting as a Second Degree” below.

ACCOUNTING AS A SECOND DEGREE

Graduates who have a non-business bachelor’s degree, either from The University of Iowa or from another college or university, may in some cases be considered for admission to the Tippie College of Business to pursue a second undergraduate major in accounting. Individuals interested in earning a second degree with a major in accounting should contact the Department of Accounting to discuss the B.B.A. or Master of Accountancy (M.Ac.); see Accounting (p. 567) in the Catalog.

Students may not earn a second major in accounting if they already have a B.B.A. from The University of Iowa or any undergraduate business degree from another college or university.
Doctor of Philosophy

Graduate degree: Ph.D. in business administration
Web site: http://tippie.uiowa.edu/phd

Graduate Program

• Doctor of Philosophy in business administration

The Doctor of Philosophy in business administration is an interdepartmental degree open to students in several Tippie College of Business departments. Basic requirements for the degree are detailed below. For additional information, see "Graduate Programs" in the Accounting (p. 567), Finance (p. 592), Management and Organizations (p. 602), Management Sciences (p. 607), and Marketing (p. 611) sections of the Catalog.

The Tippie College of Business also offers a Doctor of Philosophy in economics; see Economics (p. 582) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy in business administration requires a minimum of 72 s.h., including approved transfer credit. The program prepares students for research positions in business and government or for research and teaching positions at academic institutions. It is flexible, permitting students to choose a specialization area according to their interests. Course work and related experience enable students to achieve competence in economic theory, statistical methods, and behavioral science as well as expertise in a major and minor study area. Students also have opportunities to develop research and teaching skills.

Ph.D. course work consists of prerequisites (as necessary), the Ph.D. core, major and minor study areas, and dissertation research, described in brief below. For more detailed information about Ph.D. requirements, contact the individual Tippie College of Business departments or visit their web sites.

CORE COURSES
Core courses develop research competence and provide background for specialized study. Doctoral students consult with their advisors to develop a study plan that reflects the individual students’ background and interests and satisfies core requirements.

MAJOR STUDY AREA
At least 12 s.h. of approved doctoral-level courses must be completed in one of the following areas: accounting, finance, human resource management, management information systems, marketing, operations management, organizational behavior, or quantitative methods.

MINOR STUDY AREA
Students must complete a minimum of 9 s.h. of doctoral-level courses beyond the Ph.D. core course requirements in one of the major study areas listed above or in a concentration outside the Tippie College of Business.

COMPREHENSIVE EXAMINATIONS
Students must satisfactorily complete a comprehensive examination, consisting of written or oral parts or both, at the discretion of their major department.

DISSERTATION
Students must present a dissertation proposal at a forum attended by dissertation committee members and open to interested faculty members and graduate students, as established by the student’s major department. Researching and writing the dissertation typically require two years of full-time effort.

FINAL EXAMINATION
Ph.D. candidates defend the dissertation in an oral examination attended by dissertation committee members and open to interested faculty members and graduate students.

Admission

Applicants to the Ph.D. program in business administration must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College (p. 808) College section of the Catalog.

Applicants must take the Graduate Record Examination (GRE) General Test or the Graduate Management Admission Test (GMAT) and have their scores sent to the University in order to be considered for admission. The Departments of Finance, Management and Organizations, Management Sciences, and Marketing accept test scores for either the GRE or GMAT. The Department of Accounting accepts only GMAT scores. Required scores on these tests and their weight in admission decisions vary by department.

International applicants who do not hold a baccalaureate or more advanced degree from an accredited university in the United States, the United Kingdom, Canada (except French language institutions in Quebec), English-speaking Africa, Australia, or New Zealand must take the Internet-based Test of English as a Foreign Language (TOEFL) or the International English Testing System (IELTS) test and have their scores sent to The University of Iowa. An IELTS total score of at least 7.0 with no subscore below 6.0 satisfies the English language requirement. Applicants who use the IELTS test are required to take the on-campus English Proficiency Evaluation.

Admission is for fall entry. Completed applications should be submitted as early as possible and no later than the following deadlines.

Accounting: January 15
Finance: January 15
Management and Organizations: January 15
Management Sciences: February 1
Marketing: January 15

Visit Ph.D. Programs on the Tippie College of Business web site to learn more.
Economics

Chair
John L. Solow

Professors
John W. Fuller, Marlynne Beth Ingram (Henry B. Tippie Professor of Economics), Daniel J. Kovenock (J. Edward Lundy Professor), Forrest D. Nelson (Henry B. Tippie Research Fellow), George R. Neumann (George Daly Professor of Economics), Raymond G. Riezman (C. Woody Thompson Professor), John L. Solow (Justice International Business Research Fellow), Nicholas Yannelis (Henry B. Tippie Research Professor of Economics)

Professors emeriti

Associate professor
Martin Gervais (Leonard A. Hadley Research Fellow)

Assistant professors
Antonio Galvao Jr., Ayca Kaya, Kyungmin "Teddy" Kim, Alice Schoonbroodt, Nicolas Ziebarth

Lecturers
Stacey L. Brook, Jennifer L. Fuhrman, Blake Whitten

Undergraduate major: economics (B.A., B.S., B.B.A.)
Undergraduate minor: economics
Graduate degrees: M.A. in economics; Ph.D. in economics
Web site: http://tippie.uiowa.edu/economics

Economics is the study of how societies allocate limited resources to achieve competing ends. Using both empirical and deductive methods, economics analyzes incentives, constraints, organizational forms, and market forces to understand patterns of production, exchange, and consumption of goods and services. It treats diverse issues such as wealth and poverty, government expenditures and taxation, prosperity and depression, inflation and unemployment, relations between management and labor, economic growth, environmental protection, health care delivery, the war on drug abuse, free trade versus protectionism, U.S. competitiveness in international markets, and the quality of American education.

The Department of Economics offers degree programs for undergraduates and for graduate students. It also partners with the Departments of Philosophy and Sociology to offer the undergraduate major in ethics and public policy, an interdisciplinary program administered by the Department of Philosophy (College of Liberal Arts and Sciences); see Ethics and Public Policy (p. 254) in the Catalog.

Undergraduate Programs

• Major in economics (Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration)
• Minor in economics

The Tippie College of Business and the College of Liberal Arts and Sciences offer the major in economics. Students may complete the major with their choice of three degrees. The Bachelor of Arts and Bachelor of Science are awarded by the College of Liberal Arts and Sciences; the Bachelor of Business Administration is awarded by the Tippie College of Business.

The B.A. in economics is designed to achieve a balance of economic theory, mathematical tools, and field applications. The B.S. maintains a similar balance but emphasizes development of analytical tools; it prepares students for graduate work in economics or related business and technical fields. The B.B.A. emphasizes economic foundations of business fields: accounting, finance, marketing, business law, and management.

Each program provides an excellent educational background for a variety of positions in business and government. Graduates find employment in banking, financial institutions, industrial firms, and trade organizations and in federal, state, and local government agencies dealing with economic policy, regulation, and analysis. Economics also provides excellent preparation for the study of law and for graduate study in fields such as business management, public administration, hospital and health administration, urban and regional planning, transportation, journalism, political science, and statistics.

All students majoring in economics choose one of three tracks: business economics, policy economics, or analytical economics. They complete three sets of requirements for the major: mathematics and statistics courses that provide the skills needed for understanding economic theory and data; economic theory courses that provide the tools needed for analyzing economic issues; and field courses that apply economic tools to business, social, or specialized analytical issues. The applied field course requirement varies, depending on the student’s choice of track.

Bachelor of Arts

The Bachelor of Arts with a major in economics requires a minimum of 120 s.h., including 32 s.h. of work for the major. The program provides a balance of economic theory, mathematical tools, and field applications. It offers good educational background for a variety of positions in business and government as well as for the study of law and for graduate study.

The major requires a set of courses in mathematics and statistics (11 s.h.), a set in economic theory (6 s.h.), and a set of applied field courses (15 s.h.). Students must choose one of three tracks: business economics, policy economics, or analytical economics. The applied field courses vary depending on the student’s choice of track.

The analytical economics track is for students planning to earn a graduate degree in a discipline that is highly quantitative or who plan to pursue technical and/or analytical work in the public or private sector. The business economics track is designed for students who intend to work in the private sector. The policy economics track is for students interested in earning a degree in law or a graduate degree in a discipline that is not highly quantitative, or in seeking a decision-making position in the public or private sector.

All B.A. students majoring in economics must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The economic theory courses 06E:104 (ECON:3100), Microeconomic Theory or 06E:106 (ECON:3140), Advanced Microeconomics, and 06E:105 (ECON:3120), Macroeconomics; and three of the five applied field
The economics major for the Bachelor of Arts requires the following course work.

**MATHEMATICS AND STATISTICS COURSES**

- 06E:071 (ECON:2800) Statistics for Strategy Problems 3 s.h.
- 22M:017 (MATH:1380) Calculus and Matrix Algebra for Business 4 s.h.
- 22S:008 (STAT:1030) Statistics for Business 4 s.h.

**ECONOMIC THEORY COURSES**

- 06E:104 (ECON:3100) Microeconomic Theory 3 s.h.
- 06E:106 (ECON:3140) Advanced Microeconomics 3 s.h.
- 06E:105 (ECON:3120) Macroeconomics 3 s.h.

**APPLIED FIELD COURSES**

Five courses are required; course selection is determined by the student’s choice of track.

### Analytical Economics Track

Four of these:

- 06E:173 (ECON:3500) International Economics 3 s.h.
- 06E:174 (ECON:3400) Monetary Economics 3 s.h.
- 06E:175 (ECON:3300) Labor Economics 3 s.h.
- 06E:176 (ECON:3420) Public Sector Economics 3 s.h.
- 06E:177 (ECON:3310) Industrial Organization 3 s.h.
- 06E:183 (ECON:3320) Natural Resource Economics 3 s.h.
- 06E:187 (ECON:3850) Mathematical Economics 3 s.h.
- 06E:189 (ECON:3900) Topics in Analytical Economics 3 s.h.

One additional economics course numbered 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

### Business Economics Track

Five of these:

- 06A:002 (ACCT:2200) Managerial Accounting 3 s.h.
- 06E:111 (ECON:3160) Personnel Economics 3 s.h.
- 06E:117 (ECON:3200) Money, Banking, and Financial Markets 3 s.h.
- 06E:125 (ECON:3240) Global Economics and Business 3 s.h.
- 06E:141 (ECON:3350) Industry Analysis 3 s.h.
- 06E:143 (ECON:3355) Economic and Business Forecasting 3 s.h.
- 06E:160 (ECON:3370) Household Finance 3 s.h.
- 06J:048 (MGMT:2100) Introduction to Management 3 s.h.

### Policy Economics Track

Four of these:

- 06E:113 (ECON:3180) Health Economics 3 s.h.
- 06E:119 (ECON:3220) Policy Analysis 3 s.h.
- 06E:125 (ECON:3240) Global Economics and Business 3 s.h.
- 06E:129 (ECON:3260) Economic Growth and Development 3 s.h.
- 06E:133 (ECON:3330) Environmental and Natural Resource Economics 3 s.h.
- 06E:135 (ECON:3340) Regional and Urban Economics 3 s.h.
- 06E:145 (ECON:3750) Transportation Economics 3 s.h.
- 06E:165 (ECON:3390) Sports Economics 3 s.h.
- 06E:171 (ECON:4100) Antitrust Economics 3 s.h.
- 06E:172 (ECON:3440) Law and Economics 3 s.h.

One additional economics course numbered 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

### Prerequisites

Prerequisites for most 100-level courses in economics:

- 06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics
- 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

### Bachelor of Science

The Bachelor of Science with a major in economics requires a minimum of 120 s.h., including 33-35 s.h. of work for the major. The program addresses economic theory, mathematical tools, and field applications, with an emphasis on developing skill using analytic tools. It offers good educational background for a variety of positions in business and government as well as for the study of law and for graduate study.

The major requires a set of courses in mathematics and statistics (17-19 s.h.), a set in economic theory (6 s.h.), and a set of applied field courses (12 s.h.). Students must choose one of three tracks: business economics, policy economics, or analytical economics. The applied field courses vary depending on the student’s choice of track.

The analytical economics track is for students planning to earn a graduate degree in a discipline that is highly quantiative or who plan to pursue technical and/or analytical work in the public or private sector. The business economics track is designed for students who intend to work in the private sector. The policy economics track is for students interested in earning a degree in law or a graduate degree in a discipline that is not highly quantiative, or in seeking a decision-making position in the public or private sector.

All B.S. students majoring in economics must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The economic theory courses 06E:104 (ECON:3100) Microeconomic Theory or 06E:106 (ECON:3140) Advanced Microeconomics, and 06E:105 (ECON:3120) Macroeconomics; and three of the four applied field courses in each track must be taken at The University of Iowa.
Students should pay close attention to the order in which they take courses, since some courses are prerequisites for others; see "Prerequisites" below. For help in developing a study plan, visit the Department of Economics web site.

The economics major for the Bachelor of Science requires the following course work.

**MATHEMATICS AND STATISTICS COURSES**

- 06E:184 (ECON:4800) Introduction to Econometrics 3 s.h.
- 22M:025 (MATH:1850) Calculus I 5 s.h.
- 22M:026 (MATH:1860) Calculus II 5 s.h.
- 225:120 (STAT:3120) Probability and Statistics 4 s.h.

The department recommends that students planning to pursue a graduate degree in economics take 225:130 (STAT:3100)-225:131 (STAT:3101) rather than 225:120 (STAT:3120). It also recommends that they take additional courses in mathematics, including 22M:027 (MATH:2700) Introduction to Linear Algebra, 22M:028 (MATH:2850) Calculus III, and 22M:100 (MATH:3600) Introduction to Ordinary Differential Equations.

**ECONOMIC THEORY COURSES**

- 06E:104 (ECON:3100) Microeconomic Theory 3 s.h.
- or 06E:106 (ECON:3140) Advanced Microeconomics 3 s.h.
- 06E:105 (ECON:3120) Macroeconomics 3 s.h.

**APPLIED FIELD COURSES**

Four courses are required; course selection is determined by the student’s choice of track.

**Analytical Economics Track**

Three of these:

- 06E:173 (ECON:3500) International Economics 3 s.h.
- 06E:174 (ECON:3400) Monetary Economics 3 s.h.
- 06E:175 (ECON:3300) Labor Economics 3 s.h.
- 06E:176 (ECON:3420) Public Sector Economics 3 s.h.
- 06E:177 (ECON:3310) Industrial Organization 3 s.h.
- 06E:183 (ECON:3320) Natural Resource Economics 3 s.h.
- 06E:187 (ECON:3850) Mathematical Economics 3 s.h.
- 06E:189 (ECON:3900) Topics in Analytical Economics 3 s.h.

One additional economics course numbered 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

**Business Economics Track**

Four of these:

- 06A:002 (ACCT:2200) Managerial Accounting 3 s.h.
- 06E:111 (ECON:3160) Personnel Economics 3 s.h.
- 06E:117 (ECON:3200) Money, Banking, and Financial Markets 3 s.h.
- 06E:125 (ECON:3240) Global Economics and Business 3 s.h.
- 06E:141 (ECON:3350) Industry Analysis 3 s.h.
- 06E:143 (ECON:3355) Economic and Business Forecasting 3 s.h.
- 06E:160 (ECON:3370) Household Finance 3 s.h.
- 06E:048 (MGMT:2100) Introduction to Management 3 s.h.

**Policy Economics Track**

Three of these:

- 06E:113 (ECON:3180) Health Economics 3 s.h.
- 06E:119 (ECON:3220) Policy Analysis 3 s.h.
- 06E:125 (ECON:3240) Global Economics and Business 3 s.h.
- 06E:129 (ECON:3260) Economic Growth and Development 3 s.h.
- 06E:133 (ECON:3330) Environmental and Natural Resource Economics 3 s.h.
- 06E:135 (ECON:3340) Regional and Urban Economics 3 s.h.
- 06E:145 (ECON:3750) Transportation Economics 3 s.h.
- 06E:165 (ECON:3390) Sports Economics 3 s.h.
- 06E:171 (ECON:4100) Antitrust Economics 3 s.h.
- 06E:172 (ECON:3440) Law and Economics 3 s.h.

One additional economics course numbered 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

**Prerequisites**

Prerequisites for most 100-level courses in economics: 06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics

Prerequisites for courses numbered 06E:171 (ECON:4100) and above: 06E:104 (ECON:3100) Microeconomic Theory or 06E:105 (ECON:3120) Macroeconomics, or both, depending on the course

**Bachelor of Business Administration**

The Bachelor of Business Administration with a major in economics requires a minimum of 120 s.h., including 18 s.h. of work for the major. The program emphasizes economic foundations of business fields: accounting, finance, marketing, business law, and management. It provides good educational background for a variety of positions in business and government as well as for the study of law and for graduate study.

All students must complete the B.B.A. common requirements: the General Education courses, the prerequisites to the business core, and the business core; see "Common Requirements" in the Bachelor of Business Administration (p. 573) section of the Catalog.

The major requires a set of courses in mathematics and statistics, which students take as part of the B.B.A. common requirements; a set in economic theory (6 s.h.); and a set of applied field courses (12 s.h.). Students majoring in economics choose one of three tracks:
business economics, policy economics, or analytical economics. The applied field courses vary depending on the student’s choice of track.

The analytical economics track is for students planning to earn a graduate degree in a discipline that is highly quantitative or who plan to pursue technical and/or analytical work in the public or private sector. The business economics track is designed for students who intend to work in the private sector. The policy economics track is for students interested in earning a degree in law or a graduate degree in a discipline that is not highly quantitative, or in seeking a decision-making position in the public or private sector.

Students may request permission to apply a limited amount of transfer credit or correspondence credit toward requirements for the major, but they should take the economic theory courses 06E:104 (ECON:3100) Microeconomic Theory or 06E:106 (ECON:3140) Advanced Microeconomics, and 06E:105 (ECON:3120) Macroeconomics at The University of Iowa.

Students should pay close attention to the order in which they take courses, since some courses are prerequisites for others; see "Prerequisites" below. For help in developing a study plan, visit the Department of Economics web site.

The economics major for the Bachelor of Business Administration requires the following course work.

**Mathematics and Statistics Courses**

Students take these courses as part of the B.B.A. common requirements.

</tbody>
</table>

One additional economics course numbered 06E:111 (ECON:3160) - 06E:189 (ECON:3900)

**Prerequisites**

Prerequisites for most 100-level courses in economics:

06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics

Prerequisites for 06E:104 (ECON:3100) Microeconomic Theory: 06E:001 (ECON:1100) Principles of Microeconomics and 22M:017 (MATH:1380) Calculus and Matrix Algebra for Business

Prerequisites for courses numbered 06E:171 (ECON:4100) and above: 06E:104 (ECON:3100) Microeconomic Theory or 06E:105 (ECON:3120) Macroeconomics, or both, depending on the course

**B.A. or B.S. with Teacher Licensure**

Economics majors in the College of Liberal Arts and Sciences (B.A. and B.S. students) who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.
Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**Bachelor of Arts, Bachelor of Science**

**Before the third semester begins:** at least one-quarter of the semester hours required for graduation

**Before the fifth semester begins:** at least one-half of the semester hours required for graduation, 06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics, and the math component of quantitative courses required for major

**Before the seventh semester begins:** three-quarters of the semester hours required for graduation, 06E:104 (ECON:3100) Microeconomic Theory and 06E:105 (ECON:3120) Macroeconomics, and one 100-level economics course

**Before the eighth semester begins:** three 100-level economics courses and the statistics component of the quantitative course requirement

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Bachelor of Business Administration**

The following checkpoints are designed for students who enter the University as first-year pre-business students. In order to stay on the plan, students must maintain the grade-point average required for guaranteed admission to the Tippie College of Business and must apply for admission to the college by the established deadline.

Students must take 06B:100 (BUS:3000) Business Communication and Protocol during their first year after admission to the Tippie College of Business.

**Before the third semester begins:** 06E:001 (ECON:1100) Principles of Microeconomics or 06E:002 (ECON:1200) Principles of Macroeconomics, 22M:017 (MATH:1380) Calculus and Matrix Algebra for Business, and 22S:008 (STAT:1030) Statistics for Business, or equivalents; all General Education courses, and a sufficient number of semester hours to graduate

**Before the fifth semester begins:** 06A:001 (ACCT:2100) Introduction to Financial Accounting, 06A:002 (ACCT:2200) Managerial Accounting, and 06E:001 (ECON:1100) Principles of Microeconomics or 06E:002 (ECON:1200) Principles of Macroeconomics (whichever has not already been taken), or equivalents; all General Education requirements; and at least half of the semester hours required for graduation

**Before the seventh semester begins:** business core requirements, approximately half of the course work in the major (varies by major), and three-quarters of the semester hours required for graduation

**Before the eighth semester begins:** approximately three-quarters of course work in the major

**During the eighth semester:** all remaining course work in the major, and a sufficient number of semester hours to graduate

**Honors**

**Bachelor of Arts, Bachelor of Science**

College of Liberal Arts and Sciences students majoring in economics are encouraged to take part in the economics honors program, which provides opportunities for high-achieving students to pursue special research interests. To enter the economics honors program, students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). They also must complete 06E:104 (ECON:3100) Microeconomic Theory and 06E:105 (ECON:3120) Macroeconomics before the senior year. Interested students should consult the department’s honors advisor by the second semester of their junior year.

Honors students typically register for 06E:194 (ECON:3999) Honors Seminar in the fall of the senior year. To graduate with honors in the major, they define and complete a research project under the guidance of a supervising faculty member, earning up to 6 s.h. in 06E:195 (ECON:4999) Honors Thesis in Economics. They present the thesis orally to a committee of three faculty members, typically the undergraduate honors advisor, the student’s research supervisor, and a third faculty member agreed upon by the student and the honors advisor.

**Bachelor of Business Administration**

The Tippie College of Business offers qualified B.B.A. students the opportunity to pursue honors study. For more information, see "Honors" in the Bachelor of Business Administration (p. 573) section of the Catalog and visit the Tippie College of Business Honors Program web site.

**Minor**

The minor in economics requires a minimum of 15 s.h. in economics courses, including 12 s.h. taken at The University of Iowa in courses numbered above 06E:100 (ECON:3000). Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass.

**Courses for Nonmajors**

Students in the College of Liberal Arts and Sciences may wish to use economics courses as part of other majors or the General Education Program (p. 276). The introductory courses 06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics are approved for the Social Sciences area of General Education; they introduce the field of economics and the specialized topics of upper-division courses. The intermediate theory courses 06E:104 (ECON:3100) Microeconomic Theory and 06E:105 (ECON:3120) Macroeconomics provide a deeper foundation in the core theories and methods of the discipline. They serve as preparation for upper-division field courses or as terminal courses in an economics study plan.

Course work in economics can be related to majors in many other fields. For example, political science majors could elect 06E:119 (ECON:3220) Policy Analysis and 06E:125 (ECON:3240) Global Economics and Business; international studies majors, 06E:133

Undergraduate Economics Forum

Students are invited to join the undergraduate Economics Forum. The group sponsors programs to help students plan for careers or graduate study and holds social events, special lectures, and round-table discussions. It provides opportunities for students to meet other economics majors and department faculty members.

Graduate Programs

- Master of Arts in economics
- Doctor of Philosophy in economics

The department partners with the College of Law to offer a joint degree program; see "Joint Ph.D./J.D." later in this section. It also participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

Master of Arts

The Master of Arts is offered only to students working toward a Ph.D. in economics.

Doctor of Philosophy

The Doctor of Philosophy program in economics requires a minimum of 72 s.h. of graduate credit. The program provides rigorous training in economic theory, econometrics, and applied economics. It has six components: a coordinated sequence of core courses, a qualifying examination, a research paper, a set of major field courses, a dissertation proposal and comprehensive examination, and a dissertation. Requirements are as follows.

CORE SEQUENCE

First semester:
- 06E:200 (ECON:5000) Economic Analysis I 3 s.h.
- 06E:203 (ECON:5100) Microeconomics I 3 s.h.
- 06E:204 (ECON:5200) Macroeconomics I 3 s.h.

Second semester:
- 06E:201 (ECON:5010) Economic Analysis II 3 s.h.
- 06E:205 (ECON:5110) Microeconomics II 3 s.h.
- 06E:206 (ECON:5210) Macroeconomics II 3 s.h.

Third semester:
- 06E:221 (ECON:5800) Econometrics 3 s.h.

Fourth semester:
- 06E:222 (ECON:5810) Applied Econometrics 3 s.h.

QUALIFYING EXAMINATION

The qualifying examination is normally taken the summer after the first year.

RESEARCH PAPER

The research paper is normally completed the summer after the second year.

MAJOR FIELD COURSES

Each student chooses a major study area in addition to the core courses. The requirement for the major area is a minimum of 24 s.h. of intensive study in a field and in courses that enable students to understand the relationship between their specialty and related fields.

DISSERTATION PROPOSAL AND COMPREHENSIVE EXAMINATION

Students must defend a dissertation proposal in a comprehensive examination within one year of completing the research paper requirement.

DISSERTATION

Submission of the completed dissertation and an oral defense of the dissertation research completes the Ph.D. program.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Application deadline for admission and financial support is January 15 for fall semester entry.

Applicants must take the Graduate Record Examination (GRE) General Test and have their scores sent to the University. Those whose first language is not English and who do not hold a baccalaureate or advanced degree from an accredited college or university in the United States must take the Test of English as a Foreign Language (TOEFL) and have their scores sent to the University.

Applicants must submit a completed Application for Graduate Admission, official transcripts from all institutions they have attended, and all official test scores to the University of Iowa Office of Admissions. They must upload unofficial transcripts, statements of purpose, résumés, and reference information to the Tippie College of Business Ph.D. applicant portal.

Joint Ph.D./J.D.

The Department of Economics and the College of Law offer a joint Doctor of Philosophy/Juris Doctor program; for information about the J.D. degree, see "Juris Doctor" in the College of Law (p. 880) section of the Catalog. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

Special Seminar

Each year the department offers a seminar program that brings eminent economists from other universities and from government agencies to The University of Iowa campus. Presentations by Department of Economics faculty members and students also are featured.
### Courses

#### Primarily for Undergraduates

Students may take 06E:001 (ECON:1100) Principles of Microeconomics and 06E:002 (ECON:1200) Principles of Macroeconomics in either order or simultaneously. They are approved for the Social Sciences area of the College of Liberal Arts and Sciences General Education Program.

#### Details:

- **06E:001 (ECON:1100) Principles of Microeconomics**
  - Organization, workings of modern economic systems; role of markets, prices, competition in efficient allocation of resources and promotion of economic welfare; alternative systems; international trade. Requirements: B.B.A. students cannot use this course for General Education social sciences. GE: Social Sciences.

- **06E:002 (ECON:1200) Principles of Macroeconomics**
  - National income and output, employment and inflation; money, credit; government finance; monetary, fiscal policy; economic growth, development; international finance. Requirements: B.B.A. students cannot use this course for General Education social sciences. GE: Social Sciences.

- **06E:029 (ECON:1300) First-Year Seminar**
  - Small discussion class taught by a faculty member; topics chosen by instructor; may have student outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

- **06E:071 (ECON:2800) Statistics for Strategy Problems**
  - Continuation of 22S:008 (STAT:1030); working knowledge of statistical techniques, scientific data-based approach to problem formulation and solution, statistical techniques in the context of real data analysis, assessment of defects in statistical analyses, using data for making business decisions, choosing appropriate statistical procedures, developing skill in communicating statistical results to audiences without knowledge of statistics. Prerequisites: 22M:017 (MATH:1380) and 22S:008 (STAT:1030).

- **06E:104 (ECON:3100) Microeconomic Theory**
  - Economic theory of the behavior of consumers, producers, and other economic agents; role of markets in coordinating economic activity, conditions that markets require for efficient allocation of resources; market imperfections; strategic behavior of economic actors. Prerequisites: 06E:001 (ECON:1100) and 22M:017 (MATH:1380).

- **06E:105 (ECON:3120) Macroeconomics**
  - Measurement of macroeconomic indicators; economic growth and business cycles; use of macroeconomic models to study the role of government fiscal and monetary policies. Prerequisites: 06E:002 (ECON:1200) and 22M:017 (MATH:1380).

- **06E:106 (ECON:3140) Advanced Microeconomics**
  - Mathematical treatment of the economic theory of the behavior of consumers, producers, and other economic agents; the role of markets in coordinating economic activity and the conditions required by those markets for an efficient allocation of resources; market imperfections; and the strategic behavior of economic actors. Prerequisites: 06E:001 (ECON:1100), and 22M:017 (MATH:1380) or 22M:025 (MATH:1850). Recommendations: 22M:025 (MATH:1850).

- **06E:111 (ECON:3160) Personnel Economics**
  - Microeconomic analysis of labor markets, related institutions; labor supply decisions made by workers, labor demand decisions made by firms, market equilibrium; economic analysis of unions; returns to education; family decisions. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:113 (ECON:3180) Health Economics**
  - Structure of America’s health care industry, economic analysis applied to its problems of production, pricing, distribution; cost-effectiveness, financing of medical costs, role of government. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:117 (ECON:3200) Money, Banking, and Financial Markets**
  - Role of money, institutions in determination of income, employment, prices in domestic and world economy. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:119 (ECON:3220) Policy Analysis**
  - Economic functions of government in modern economies; economic decision making; budgetary processes; effects of government expenditures, taxation on allocation of resources, distribution of income, economic growth, stability. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:125 (ECON:3240) Global Economics and Business**
  - Modern theories of international trade and investment; role of tariffs and other restrictions of international trade; foreign exchange markets, international monetary arrangements, international economic policy. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:129 (ECON:3260) Economic Growth and Development**
  - Determinants of rising living standards; accumulation of physical and human capital; predictions of economic growth models compared to observed changes in living standards. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:133 (ECON:3330) Environmental and Natural Resource Economics**
  - Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 102:135 (URP:3135).

- **06E:135 (ECON:3340) Regional and Urban Economics**
  - Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 102:134 (URP:3134).

- **06E:141 (ECON:3350) Industry Analysis**
  - Structural evolution; imperfect competition, resource allocation, development of public policy on monopoly; selected industries. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

- **06E:143 (ECON:3355) Economic and Business Forecasting**
  - How to develop and utilize forecasts; emphasis on modern statistical methods and software applied to quantitative forecasting problems; specific applications to business and economics include forecasting sales, market prices, inventory, macroeconomic factors (interest rates, exchange rates, levels of employment). Prerequisites: 06E:071 (ECON:2800).

- **06E:145 (ECON:3750) Transportation Economics**
  - Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 044:133 (GEOG:3940), 102:133 (URP:3350).
06E:158 (ECON:3360) American Economic History 3 s.h.
Requirements: 06E:001 (ECON:1100) and 06E:002 (ECON:1200) for economics majors; 06E:001 (ECON:1100) and 16A:061 (HIST:2261) for non-economics majors. Same as 16A:144 (HIST:3360).

06E:160 (ECON:3370) Household Finance 3 s.h.
Micro- and macroeconomic theory applied to economic decisions of families, households; practical and theoretical issues in income generation, spending and saving decisions, risk management and asset allocation, investments, and intergenerational wealth transfers. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

06E:165 (ECON:3390) Sports Economics 3 s.h.
Theory and literature of economic issues in professional sports; issues such as relative advantages of large-and small-market teams, city subsidies for baseball and football stadiums, star players’ true value to their teams; ideas from introductory economics (such as demand and cost curves) combined with additional economic theory, statistical evidence, and information about particular sports. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

06E:169 (ECON:3410) Topics in Policy Economics arr.
Topics vary. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200).

06E:171 (ECON:4100) Antitrust Economics 3 s.h.
Topics in federal antitrust policy; merger policy, monopolization, predatory pricing, collusion, vertical restrictions, resale price maintenance, enforcement; case law, economics literature. Prerequisites: 06E:104 (ECON:3100) or 091:208 (LAW:8146).

06E:172 (ECON:3440) Law and Economics 3 s.h.
Law examined through analytic tools of microeconomics; impact of legal rules on resource allocation, risk bearing, distribution of economic well-being. Prerequisites: 06E:001 (ECON:1100).

06E:173 (ECON:3500) International Economics 3 s.h.
Neoclassical model of international trade, imperfect competition and international trade and investment, role of trade barriers; regional trade agreements and the World Trade Organization. Requirements: 06E:104 (ECON:3100) and 06E:105 (ECON:3120), or graduate standing.

06E:174 (ECON:3400) Monetary Economics 3 s.h.
Demand for and supply of money; money’s role in economy; empirical studies of money’s impact; problems with monetary control. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:175 (ECON:3300) Labor Economics 3 s.h.
Labor supply and demand; investments in human capital, compensating wage differentials, discrimination, long-term contracts, occupational choice, family decisions, unions, immigration. Prerequisites: 06E:104 (ECON:3100).

06E:176 (ECON:3420) Public Sector Economics 3 s.h.
Economic functions of government; budgetary processes; effects of government expenditures, taxation on resource allocation, income distribution, economic growth and stability. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:177 (ECON:3310) Industrial Organization 3 s.h.
Market structure; effects of business practices, informational problems on market structure; appraisal of antitrust policies, government regulation of business. Prerequisites: 06E:104 (ECON:3100).

06E:179 (ECON:3600) History of Economic Thought 3 s.h.
Evolution of economics as a social science; ideas of Smith, Ricardo, Malthus, Marx, Marshall, Keynes, and their major critics. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:183 (ECON:3320) Natural Resource Economics 3 s.h.
Economics of natural resources; interaction between economic theory, empirical evidence, and public policy; land, water, fish, trees, minerals; externalities. Prerequisites: 06E:104 (ECON:3100).

06E:184 (ECON:4800) Introduction to Econometrics 3 s.h.
Single equation linear statistical models, estimation and hypothesis testing; serial correlation, heteroscedasticity, generalized least squares estimation; specification analysis; errors in variables; emphasis on interpretation, application of econometric models, methods, use of computers. Prerequisites: 22S:120 (STAT:3120).

06E:187 (ECON:3850) Mathematical Economics 3 s.h.
Mathematical structure of economic principles, problems, systems; may include constrained optimization, choice under uncertainty, general equilibrium and welfare economics, dynamical systems and control theory, game theory. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:189 (ECON:3900) Topics in Analytical Economics Topics vary. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:190 (ECON:3870) Federal Reserve Challenge 3 s.h.
Experience doing what Federal Reserve economists do every day: study the real U.S. economy, make forecasts and policy recommendations, defend their views to academic and professional economists; development of analytical skills, teamwork, how to build presentations. Prerequisites: 06E:104 (ECON:3100) and 06E:105 (ECON:3120).

06E:191 (ECON:3871) Federal Reserve Challenge II 0 s.h.
Participation in Federal Reserve Challenge after completion of 06E:190 (ECON:3870). Prerequisites: 06E:190 (ECON:3870).

For Advanced Undergraduates

06E:194 (ECON:3999) Honors Seminar 1-3 s.h.

06E:195 (ECON:4999) Honors Thesis in Economics 3 s.h.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

06E:196 (ECON:4050) Readings and Independent Study in Economics arr.
Participation in approved internship program (e.g., Washington Center Internships).

06E:199 (ECON:4900) Academic Internship arr.

Primarily for Graduate Students

Qualified undergraduates may enroll in graduate-level courses with consent of the department chair.

06E:200 (ECON:5000) Economic Analysis I 3 s.h.
Basic metric topology, convex analysis, function spaces, measure theory and integration.
06E:201 (ECON:5010) Economic Analysis II 3 s.h.
Behavior under uncertainty, macroeconomic models; dynamic programming, asset pricing, saving, consumption.

06E:203 (ECON:5100) Microeconomics I 3 s.h.
Consumer choice theory, producer theory, choice under uncertainty, basic game theory. Offered fall semesters.

06E:204 (ECON:5200) Macroeconomics I 3 s.h.
Economic growth, business cycles, money and inflation. Offered fall semesters.

06E:205 (ECON:5110) Microeconomics II 3 s.h.
General equilibrium and welfare analysis, adverse selection, the principal-agent problem, social choice, mechanism design. Offered spring semesters. Prerequisites: 06E:203 (ECON:5100).

06E:206 (ECON:5210) Macroeconomics II 3 s.h.
Dynamic macroeconomic models; stochastic macroeconomics; time consistency equilibrium business cycle theory. Offered spring semesters. Prerequisites: 06E:204 (ECON:5200).

06E:211 (ECON:6850) Mathematical Economics I 3 s.h.
Convex analysis in economic theory; ordinal and cardinal preference relations; quasiconcave, concave numerical representations; separation principle for convex sets—linear programming, concave programming; Brouwer fixed point theorem; existence of competitive equilibrium. Prerequisites: 06E:205 (ECON:5110).

06E:221 (ECON:5800) Econometrics 3 s.h.
Statistical inference in single and multiple equation stochastic models, models with nonindependent or nonidentically distributed error structure, dynamic models; OLS, GLS, IV, ML estimation; asymptotic distribution theory; exact; asymptotic hypothesis tests. Prerequisites: 22S:154 (STAT:4101).

06E:222 (ECON:5810) Applied Econometrics 3 s.h.
Empirical problems; multiple linear regression, nonlinear regression, maximum likelihood, hazard functions, univariate and multivariate time series, flexible functional forms. Prerequisites: 06E:221 (ECON:5800).

06E:223 (ECON:6420) Macroeconomics III 3 s.h.
Current research in macroeconomics; development of research topics with emphasis on theoretical and empirical analysis. Prerequisites: 06E:205 (ECON:5110) and 06E:221 (ECON:5800).

06E:250 (ECON:6300) Labor Economics 3 s.h.
Problems and models, including intertemporal models of labor markets; uncertainty and labor market activity; retirement decisions, economic theories of fertility; economics of discrimination; job search models; economic models of unions; bargaining and strikes, public sector labor markets; determinants of income distribution; emphasis on empirical verification of theory. Prerequisites: 06E:205 (ECON:5110), and 06E:184 (ECON:4800) or 06E:221 (ECON:5800).

06E:271 (ECON:6310) Industrial Organization 3 s.h.
The firm, monopolistic competition, oligopoly and workable competition; industrial organization, nature of equilibrium under uncertainty. Prerequisites: 06E:205 (ECON:5110) and 06E:211 (ECON:6850).

06E:299 (ECON:6900) Contemporary Topics in Economics 3 s.h.
Topics not offered in other courses.

06E:300 (ECON:7950) Readings in Economics arr.

06E:301 (ECON:7975) Thesis in Economics arr.

Advanced Graduate Seminars

06E:310 (ECON:7000) Seminar in Economic Theory arr.

06E:311 (ECON:7010) Seminar in Economic Theory II arr.

06E:321 (ECON:7870) Workshop in Microeconomics 1 s.h.

06E:322 (ECON:7880) Workshop in Macro and Monetary Economics 1 s.h.

06E:200 (ECON:5000) International Business-M.B.A. 3 s.h.
Problems in international business; how to export, how to deal with import competition, international joint ventures; country studies.

06E:235 (ECON:6500) International Trade Theory 3 s.h.
The theory of international trade, including basic models of international trade; capital and labor mobility and trade; protection of international trade; the political economy of international trade; empirical applications of international trade.

06E:241 (ECON:6420) Macroeconomics III 3 s.h.
Current research in macroeconomics; development of research topics with emphasis on theoretical and empirical analysis. Prerequisites: 06E:205 (ECON:5110) and 06E:221 (ECON:5800).

06E:245 (ECON:6400) Monetary Theory 3 s.h.
Research at the frontier of monetary theory and policy; overlapping generations models, search models of money, representative agent monetary models, intermediate and banking theory, and financial contracts.
Finance

Chair
Erik Lie

Professors
David S. Bates (W. A. Krause Research Fellow), Jon A. Garfinkel (Waugh Business Research Fellow), Erik Lie (Henry B. Tippie Research Professor of Finance), Thomas A. Rietz (Leonard A. Hadley Research Fellow), Jarjisu Sa-Aadu (Chester A. Phillips Professor of Business Finance and Real Estate), Anand M. Vijn (Marvin and Rose Lee Pomerantz Chair in Finance)

Professors emeriti
William C. “Curt” Hunter, Charles E. Marberry, Richard A. Stevenson, Paul A. Weller

Clinical professor
John H. Spitzer

Associate professors
James T. Leverty (TRISTAR Risk Management Fellow), Yiming Qian, Gerry L. Suchanek, Ashish Tiwari (Michael Sandler Research Fellow)

Associate professor emeritus
G. Carl Schweser

Assistant professors
Artem Durnev, Wei Li, Amrita Nain, Shagun Pant, Tong Yao

Lecturers
Heidi J. Dybevik, John G. Gallo, Jeffrey R. Hart, Larry D. Hershberger, Todd I. Houge (Curt and Carol Lane Faculty Fellow), Brian D. Richman

Adjunct lecturers
Soren Bech, Philip D. Brooks, Scott R. Fisher, Jon Kettering, Calvin Norris, Donna L. Peary, Eric Perry, Leighton Smith

Undergraduate major: finance (B.B.A.)

Graduate degree: Ph.D. in business administration

Web site: http://tippie.uiowa.edu/finance

The Department of Finance is committed to delivering undergraduate and graduate degree programs that integrate the technology and analytics of today’s global financial community. The department’s goal is to provide students with the technical skills they will need to enhance their managerial effectiveness, whether they work in large corporations, small organizations, or private consulting.

The department also partners with the Emmett J. Vaughan Institute of Risk Management and Insurance to offer the Certificate in Risk Management and Insurance (p. 620).

Undergraduate Program

• Major in finance (Bachelor of Business Administration)

Bachelor of Business Administration

The Bachelor of Business Administration with a major in finance requires a minimum of 120 s.h., including 20 s.h. of work for the major. The program provides a balance of theory, applications, and financial information technology that facilitates students’ transition from classroom to workplace. Through fundamental finance principles and state-of-the-art financial market information technologies, students develop analytical abilities to interpret financial market data, implement the latest trading and investment strategies, and make effective managerial decisions in national as well as international settings.

The program stresses learning by doing, partnership with industry, and internships, with the goal of enhancing students’ career development. Students receive a balanced education consistent with the globalization of business and the explosion in financial markets and information technology.

Careers for students majoring in finance include corporate treasury operations, cash management, mergers and acquisitions, investment banking, sales and security trading, security analysis, commercial banking and financial services, credit analysis, mortgage lending, financial planning, consulting, public administration, and venture capital.

The major in finance requires the following course work. For B.B.A. common requirements, see Bachelor of Business Administration (p. 573) in the Catalog.

06A:120 (ACCT:3020) Financial Accounting and Reporting 3 s.h.
06F:110 (FIN:3100) Financial Information Technology 2 s.h.
06F:111 (FIN:3200) Investment Management 3 s.h.
06F:117 (FIN:3300) Corporate Finance 3 s.h.

Three of these:

06F:102 (FIN:3400) Principles of Risk Management and Insurance 3 s.h.
06F:103 (FIN:4420) Property and Liability Insurance 3 s.h.
06F:104 (FIN:4410) Corporate and Financial Risk Management 3 s.h.
06F:105 (FIN:4430) Life and Health Insurance 3 s.h.
06F:106 (FIN:4440) Employee Benefit Plans 3 s.h.
06F:109 (FIN:4020) Topics in Finance II 3 s.h.
06F:111 (FIN:4250) Applied Equity Valuation 3 s.h.
06F:113 (FIN:4220) Fixed Income Securities 3 s.h.
06F:114 (FIN:4320) Commercial Banking 3 s.h.
06F:115 (FIN:4330) Investment Banking 3 s.h.
06F:116 (FIN:4210) Futures and Options 3 s.h.
06F:118 (FIN:4310) Advanced Corporate Finance 3 s.h.
06F:119 (FIN:4340) Wealth Management 3 s.h.
06F:126 (FIN:4230) Real Estate Process 3 s.h.
06F:130 (FIN:4240) International Finance 3 s.h.

Note: students may count only one of the following courses toward the finance major: 06F:103 (FIN:4420) Property and Liability Insurance, 06F:104 (FIN:4410) Corporate and Financial Risk Management, 06F:105 (FIN:4430) Life and Health Insurance, 06F:106 (FIN:4440) Employee Benefit Plans.

Certificate in Risk Management and Insurance

The Department of Finance and the Emmett J. Vaughan Institute of Risk Management and Insurance offer the undergraduate certificate program in risk management and insurance; see Risk Management and Insurance (p. 620) in the Catalog.

Graduate Program

• Doctor of Philosophy in business administration

In addition to offering a finance major for the Ph.D. in business administration, the department participates in
the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

Doctor of Philosophy

Graduate students in finance may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy (p. 581) in the Catalog and visit the Department of Finance web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Courses

Primarily for Upper-Division Undergraduates

06F:029 (FIN:1300) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

06F:100 (FIN:3000) Introductory Financial Management 3 s.h.
Financial management goals and decision making; valuation of bonds and stocks, risk and return analysis, portfolio diversification, market efficiency, asset pricing, cost of capital, agency theory, capital budgeting, financial planning. Prerequisites: 06A:002 (ACCT:2200), 06E:001 (ECON:1100), and 06E:002 (ECON:1200). Requirements: junior standing.

Individually guided readings in selected topics.

06F:102 (FIN:3400) Principles of Risk Management and Insurance 3 s.h.
Introduction to risk and insurance; risk identification and evaluation, demand for insurance, effects of limited liability, theory of moral hazard and adverse selection; business and personal risk; insurance as a risk management tool. Corequisites: 06F:100 (FIN:3000).

06F:103 (FIN:4420) Property and Liability Insurance 3 s.h.
Fundamentals of commercial property and liability insurance; commercial property and liability contracts, functions of property and liability insurers; regulation and financial analysis of property and liability insurers; marketing, underwriting, rate making, claim settlements. Prerequisites: 06F:102 (FIN:3400).

06F:104 (FIN:4410) Corporate and Financial Risk Management 3 s.h.
Analysis and treatment of pure and financial risks faced by business organizations; development and implementation of the risk management process, application of varied risk management techniques to identified exposures; how businesses manage risk and how insurance is used to manage the cost of risk; case studies. Prerequisites: 06F:102 (FIN:3400). Corequisites: 06F:110 (FIN:3100).

06F:105 (FIN:4430) Life and Health Insurance 3 s.h.
Types of life insurance and annuity contracts and their uses; regulation of life and health insurers; development of financial plans using life insurance products; Social Security, group, and individual health insurance products, including major medical, disability income, long-term care policies; marketplace analysis; contractual provisions, determination of human life values, mathematics of life contingencies and pricing. Prerequisites: 06F:102 (FIN:3400).

06F:106 (FIN:4440) Employee Benefit Plans 3 s.h.
Management of employee benefit plans (e.g., group life and health insurance, retirement programs); design, administration, and financing of employee benefits; federal administration of employee benefit plans; funding requirements, financial alternatives; funding and vesting of retirement annuities; design and management of health care plans, including "cafeteria" approach and nonqualified deferred compensation arrangements; economic effects and financing employee benefits and retirement plans in private and public sectors. Prerequisites: 06F:102 (FIN:3400).

06F:107 (FIN:4450) Risk Modeling 3 s.h.
Theory used to solve real-life problems taken from a diverse set of risk management applications; varied areas where risk analysis has become important (i.e., finance, insurance, corporate risk management, personal financial planning); principles of probability theory, mathematical finance, and actuarial science developed for use in quantitative analysis of important risk management problems; spreadsheet-based course. Prerequisites: 06F:100 (FIN:3000).

06F:109 (FIN:4020) Topics in Finance II 3 s.h.
Contemporary issues in finance. Prerequisites: 06F:100 (FIN:3000).

06F:110 (FIN:3100) Financial Information Technology 2 s.h.
Applications of commonly used financial software and data systems reviewed by student teams. Corequisites: 06F:100 (FIN:3000).

06F:111 (FIN:3200) Investment Management 3 s.h.
Investment in marketable securities in domestic and international markets; financial markets, securities trading, evaluation of risk/return trade-off, formulation and implementation of investment strategies, efficient portfolio formation. Prerequisites: 06F:100 (FIN:3000). Corequisites: 06F:110 (FIN:3100).

06F:112 (FIN:4250) Applied Equity Valuation 3 s.h.
Equity valuation and portfolio management techniques by investment professionals; economic forecasting, industry analysis, financial statement analysis, spreadsheet modeling, cost of capital estimation, equity valuation and portfolio construction; students manage The University of Iowa’s Krause Fund (an endowed equity portfolio that blends academic rigor with real-world portfolio management experience). Prerequisites: 06F:100 (FIN:3000). Requirements: UI cumulative g.p.a. of at least 2.80.

06F:113 (FIN:4220) Fixed Income Securities 3 s.h.
Theories of fixed income securities, term structure of interest rates; asset pricing models, valuation of fixed income securities and contingent claims, fixed income portfolio management, immunization strategies, yield curve analysis. Prerequisites: 06F:100 (FIN:3000). Corequisites: 06F:110 (FIN:3100).

06F:114 (FIN:4320) Commercial Banking 3 s.h.
Management of commercial banks and financial service firms; asset and liability management, credit policy, capital risk; liquidity planning, use of swaps and derivatives to hedge interest rate risk, global banking, investment strategies. Prerequisites: 06F:100 (FIN:3000). Corequisites: 06F:110 (FIN:3100).
06F:115 (FIN:4330) Investment Banking 3 s.h.
How investment banks fill critical roles in maintaining well-functioning financial markets and provide access to capital and strategic advice to companies and governments; recent global financial crisis; how banker's role as intermediary between companies and markets adds value and creates conflicts and risk. Prerequisites: 06F:100 (FIN:3000) and 06F:117 (FIN:3300).

06F:116 (FIN:4210) Futures and Options 3 s.h.
Use of options, futures, and other derivative securities in financial management; understanding types of derivative securities, markets, trading technology; applications of risk management and speculation; pricing relations with underlying securities. Prerequisites: 06F:111 (FIN:3200).

06F:117 (FIN:3300) Corporate Finance 3 s.h.
Advanced managerial decision making; corporate financial policy, dividend policy, agency theory, corporate restructuring, capital structure strategies, mergers and acquisitions, option pricing fundamentals, convertible debt, callable debt, warrants. Prerequisites: 06F:100 (FIN:3000). Corequisites: 06F:110 (FIN:3100).

06F:118 (FIN:4310) Advanced Corporate Finance 3 s.h.
Issues relevant to financial management, payout policy, financial distress and bankruptcy, restructuring, market for corporate control; recent research and cases from the corporate arena; other topics (e.g., bankruptcy) to broaden application and understanding of finance theory. Prerequisites: 06F:117 (FIN:3300).

06F:119 (FIN:4340) Wealth Management 3 s.h.
Financial services for client wealth management; how to make personal investment decisions and build diversified, comprehensive investment portfolios; investment theory; common behavioral biases that lead to investment pitfalls, mistakes; wealth management objectives, portfolio risk and reward, asset allocation, portfolio diversification, tax shield structures, retirement plans, wealth protection, risk management, behavioral finance, psychology of investing. Prerequisites: 06F:100 (FIN:3000).

06F:126 (FIN:4230) Real Estate Process 3 s.h.

06F:130 (FIN:4240) International Finance 3 s.h.
International monetary systems, exchange rate determination, use of currency derivative in hedging and risk management, currency swaps, foreign direct investment, international corporate finance, international capital budgeting, international portfolio investment, Third World debt, privatization, joint ventures. Prerequisites: 06F:100 (FIN:3000). Corequisites: 06F:110 (FIN:3100).

06F:190 (FIN:3150) Hawkinson Scholar Seminar 1 s.h.
Advanced skill and understanding required for pursuit of investment banking, management consulting careers; specialized résumé and interview training, industry presentations, relevant case assignments.

06F:191 (FIN:3360) Hawkinson Scholar Seminar: Topics in Finance 0 s.h.
Subsectors in the financial services industry, including hedge funds, investment banking, commercial banking; valuation techniques used in real-world mergers, acquisitions, equity offerings, debt financing, and so forth.

06F:195 (FIN:4999) Honors Thesis in Finance 3 s.h.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

06F:199 (FIN:4900) Academic Internship 1-3 s.h.
Professional internship experience with associated academic content.

Primarily for Graduate Students

06F:205 (FIN:9010) Contemporary Topics in Finance arr.

How to model firm value from a discounted cash flow perspective; identify a company's key value drivers, create spreadsheet valuation models; projected financial valuation integrates projected pro forma accounting statements; forecasting, free cash flow estimation, industry competitive analysis. Prerequisites: 06N:225 (MBA:8180).

06F:207 (FIN:9350) Wealth Management 3 s.h.
Rapid growth of the field of wealth management over several decades, driven by general increase in personal wealth and increased responsibility for individuals to manage their own wealth; knowledge and tools to enter the financial services industry; financial planning industry, client characteristics, tax shield structures, insurance, asset allocation plans, estate planning, behavioral finance. Prerequisites: 06N:225 (MBA:8180).

06F:208 (FIN:9280) Structured Finance-Securitization 3 s.h.
Design of debt, equity, and hybrid financing techniques to resolve issuer and investor problems that conventional methods cannot address; why and when corporations and financial institutions issue structured securities; how securities are designed and priced; how securities meet investors' needs; securitized assets, mortgages, asset-backed securities, collateralized debt obligations, credit risk, valuation, cost of capital; legal, tax, and regulatory issues; design and implementation of structured-financed products. Prerequisites: 06N:225 (MBA:8180).

06F:210 (FIN:9100) Financial Information Technology 1 s.h.
Applications of commonly used financial software and data systems reviewed by student teams.

06F:212 (FIN:9200) Portfolio Management 3 s.h.
Introduction to fundamental elements of modern portfolio theory, application to investment analysis; investment environment, instruments, types of investors; concepts of risk and return, broad perspective on historical risk and return of various asset classes; asset allocation decision, risk and return dynamics of a multiple securities portfolio; varied asset pricing models, how capital markets work for investors and users of capital. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).
06F:213 (FIN:9210) Derivatives
Examination of the wide range of derivative securities that cover the financial landscape; the market place, trading, and investors; different derivative securities in existence, their relationship with the underlying securities, and pricing; applications of derivative securities to risk management and speculation; application of principles to fixed income, international finance, real estate, and securitization. Prerequisites: 06N:225 (MBA:8180).

3 s.h.

06F:214 (FIN:9230) Real Estate Finance and Investments
In-depth understanding of concepts and techniques of real estate financial analysis, equity investment decision making; real estate investing from analysis of developments through the securitization of mortgages; mortgage markets and pricing, real estate finance and investments, mortgage-backed securities, development process, real estate valuation, tax effects, securitized real estate, real estate cycles, application of derivative instruments, strategic asset allocation. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).

3 s.h.

06F:215 (FIN:9300) Corporate Investment and Financing Decisions
Underpinnings and optimization of corporations' investment and financing decisions; firm-wide and project-specific cost of capital, optimal capital structure decisions; in-depth capital budgeting methods, including real options techniques; corporate investment module of the class includes simulation analysis using Crystal Ball; cost of capital, valuation techniques, advanced capital budgeting, capital structure and dividend policy, option pricing models applied to corporate finance. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).

3 s.h.

06F:216 (FIN:9220) Fixed Income Securities
Conceptual framework and tools to undertake the valuation of fixed income securities and the management of fixed income portfolios; varied fixed income instruments and the markets in which they trade; introduction to basic building blocks of fixed income analysis, including concepts of duration, convexity, and term structure of interest rates; application of concepts in bond portfolio immunization strategies; use of interest rate derivatives in portfolio hedging applications. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).

3 s.h.

06F:217 (FIN:9290) Alternative Investments and Portfolio Strategies
Continuation of 06F:212 (FIN:9200); alternative investments, including hedge funds, private equity funds, and venture capital vehicles; purpose of alternative investments, including the risk/return profile of alternatives and correlations with traditional asset classes; specific hedge fund styles, strategies, risk profiles; portfolio strategy topics, including diversification benefits, management of downside risk, international diversification, behavioral finance, performance measures, and performance attribution analysis. Prerequisites: 06F:212 (FIN:9200) and 06N:225 (MBA:8180).

3 s.h.

06F:218 (FIN:9310) Corporate Financial Strategy
Major strategic decisions within the corporate form; risk management, including why firms engage in it, their methods for doing so, and exercises in the simulation of uncertainty; dividends and repurchases under the payout policy decision; corporate governance topics, including executive compensation, board structure, and institutional monitoring; merger and acquisitions analysis, including regulation, valuation, anti-takeover devices, payment method, and LBOs; divestitures and other restructuring topics, including corporate diversification, spin-offs, carve-outs, private workouts, and Chapter 11. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).

3 s.h.

06F:219 (FIN:9340) Finance for Entrepreneurs
Understanding the process of capital acquisition and cash flow management; techniques, projections, and measurements used in valuing and funding new and growing ventures; sources and strategies for raising capital. Same as 06T:233 (ENTR:9340).

3 s.h.

06F:220 (FIN:9320) Commercial and Investment Banking
Overview of commercial and investment banks; principles of underwriting securities, IPOs, mergers and acquisitions, commercial lending, funding sources, asset liability management, capital management. Prerequisites: 06N:225 (MBA:8180). Corequisites: 06F:210 (FIN:9100).

3 s.h.

Manage Henry Fund portfolio, learn legal environment in which the fund operates, analyze potential investments, implement controls to monitor the fund’s performance; decisions and investment recommendations made by students; each student analyzes an economic sector and geographic region (i.e., utilities analyst and specialist in South East Asia); while the fund cannot currently invest directly in foreign listed stocks, it holds U.S. listed stocks with significant overseas interests and students are able to invest in a number of ADRs. Prerequisites: 06N:225 (MBA:8180).

3 s.h.

06F:222 (FIN:9260) Applied Securities Analysis - Henry Fund II
Continuation of 06F:221 (FIN:9250) and 06N:225 (MBA:8180).

3 s.h.

06F:223 (FIN:9240) International Finance

3 s.h.

06F:224 (FIN:9270) Security Analysis
Valuation of financial securities (primarily equities) using discounted cash flow model; industry, regulatory analysis; financial statement analysis; active portfolio management; value-based management techniques; valuation of firms outside the United States. Prerequisites: 06N:225 (MBA:8180).

3 s.h.

06F:225 (FIN:7110) Finance Theory I
Consumption-based models of asset pricing; arbitrage, contingent claims; market efficiency and information economics, behavioral models; emphasis on theory. Requirements: Ph.D. enrollment.

3 s.h.

06F:226 (FIN:7120) Seminar in Corporate Finance
Valuation (DCF and CAPM); valuation under certainty, uncertainty; financial structure, cost of capital; dividend policy; firm investment in perfect, imperfect capital markets. Requirements: Ph.D. enrollment.

3 s.h.

06F:227 (FIN:7130) Finance Theory II
Continuous time theories of financial markets, including connection between an arbitrage-free pricing system and martingales; pricing of contingent claims, general equilibrium and term structure theory. Requirements: Ph.D. enrollment.

3 s.h.

06F:228 (FIN:7140) Advanced Empirical Finance
Market efficiency and term structure theory tests; tests of asset pricing models, dividend policy and financial structure issues. Requirements: Ph.D. enrollment.

3 s.h.

06F:229 (FIN:7850) Seminar in Finance
Requirements: Ph.D. enrollment.

1 s.h.
06F:230 (FIN:9390) Putting Finance into Practice 3 s.h.
Hands-on practical experience in corporate finance or investments; work in teams on a corporate finance project or an investment project for a corporate or institutional client; partner companies identify financial issues, challenges, and opportunities for students to help solve; students work with the companies and a faculty member to provide an analysis of the situation and proposals of actions to be taken. Prerequisites: 06N:225 (MBA:8180).

06F:288 (FIN:7950) Directed Reading in Finance-Ph.D. arr.
Requirements: Ph.D. enrollment.

International Business

Coordinators
Patricia Mason-Browne (Liberal Arts and Sciences), Matthew C. Edwards (Tippie College of Business)

Undergraduate minor: Certificate in International Business
Web site: http://tippie.uiowa.edu/undergraduate/programs/IBC.cfm

Undergraduate Program
- Certificate in International Business

The Tippie College of Business and the College of Liberal Arts and Sciences offer the undergraduate Certificate in International Business. The program is designed for students who intend to pursue careers in international business as well as those interested in gaining a better understanding of the global economy and a broader awareness of the political, historical, and social environment in which international business operates.

Certificate

The Certificate in International Business requires 29 s.h. and satisfaction of the certificate’s language requirement (total credit depends on which language the student decides to study). The program includes study of international business and economics, international relations and institutions, a language, and the contemporary art, literature, culture, and/or politics of the geographical region in which the language is spoken. The range of courses permits students to tailor areas of specialization suited to their individual interests and to complement majors in business and in liberal arts and sciences.

The certificate is open to current University of Iowa undergraduate students. It is also open to individuals who hold a bachelor’s degree from The University of Iowa or another institution and are not enrolled in a graduate or professional program; individuals with bachelor’s degrees from other institutions should contact the University’s Office of Admissions.

Completion of the certificate is noted on students’ transcripts.

Students should declare their intention to earn the certificate as early as possible and talk with an advisor about certificate requirements. They also must submit an individual plan of study. Tippie College of Business students should talk with the advising staff at the college’s Undergraduate Program Office; College of Liberal Arts and Sciences students should talk with a Certificate in International Business advisor at the Academic Advising Center.

Students must maintain a g.p.a. of at least 2.00 on all certificate course work. Certificate courses may not be taken pass/nonpass. A course may not be used to satisfy more than one certificate requirement.

A minimum of 20 s.h. of certificate course work (other than language courses) must be completed at The University of Iowa or in approved study abroad programs. Students who plan to count study abroad credit toward the certificate should consult a Certificate in International Business advisor before leaving campus. University of Iowa

Guided Independent Study (correspondence study) also is accepted toward the certificate.

The Certificate in International Business requires the following course work.

INTERNATIONAL BUSINESS

These courses provide students with an essential understanding of economics, which is central to all business operation. They also help students develop knowledge of the functional areas of international business.

Both of these:
06E:001 (ECON:1100) Principles of Microeconomics 4 s.h.
06E:002 (ECON:1200) Principles of Macroeconomics 4 s.h.

Three of these (total of 9 s.h.):
06E:125 (ECON:3240) Global Economics and Business 3 s.h.
06E:129 (ECON:3260) Economic Growth and Development 3 s.h.
06E:173 (ECON:3500) International Economics 3 s.h.
06F:130 (FIN:4240) International Finance 3 s.h.
06J:146 (MGMT:4500) International Business Environment 3 s.h.
06M:151 (MKTG:4300) International Marketing 3 s.h.
091:282 (LAW:8600) International Business Transactions 3 s.h.

INTERNATIONAL RELATIONS AND INSTITUTIONS

These courses familiarize students with comparative politics, social geography, foreign policy, and issues related to world population and the environment—topics relevant to decision making in the international business world.

Two of these (total of 6 s.h.):
016:101 (HIST:4101) History of Human Rights 3 s.h.
16A:152 (HIST:4232) United States in World Affairs 3 s.h.
16W:155 (HIST:3145) Europe and the U.S. in the Twentieth Century 3 s.h.
019:156 (JMC:3700) Comparative Communication Systems 3 s.h.
030:041 (POLI:1401) Introduction to the Politics of Russia and Eurasia 3 s.h.
030:043 (POLI:1403) Introduction to Politics in the Muslim World 3 s.h.
030:060 (POLI:1500) Introduction to International Relations 3 s.h.
030:061 (POLI:1501) Introduction to American Foreign Policy 3 s.h.
030:130 (POLI:3506) Consequences of War 3 s.h.
030:131 (POLI:3304) Global Justice 3 s.h.
030:137 (POLI:3400) Introduction to Political Economy 3 s.h.
030:142 (POLI:3401) European Integration 3 s.h.
030:149 (POLI:3450) Problems in Comparative Politics 3 s.h.
030:150 (POLI:3404) Public Policy Around the World 3 s.h.
030:151 (POLI:3417) Political Leadership 3 s.h.
030:155 (POLI:3509) International Courts: The Intersection of Law and Politics 3 s.h.
030:156 (POLI:3406) Ethnic and Religious Conflict in the Muslim World 3 s.h.
030:160 (POLI:3507) Women and Politics in Global Perspective 3 s.h.
Colleges and Other Academic Units

030:161 (POLI:3501) International Organization and World Order 3 s.h.
030:162 (POLI:3500) American Foreign Policies 3 s.h.
030:163 (POLI:3407) Chinese Foreign Policy 3 s.h.
030:165 (POLI:3512) International Conflict 3 s.h.
030:166 (POLI:3515) Global Communication and Politics 3 s.h.
030:167 (POLI:3502) Politics and the Multinational Enterprise 3 s.h.
030:168 (POLI:3503) Politics of Terrorism 3 s.h.
030:169 (POLI:3550) Problems of International Politics 3 s.h.
030:173 (POLI:3510) State Failure in the Developing World 3 s.h.
030:177 (POLI:3504) Globalization 3 s.h.
030:178 (POLI:3505) Causes, Consequences, and Management of Civil War 3 s.h.
030:195 (POLI:3511) International Law 3 s.h.
030:197 (POLI:3513) Politics of International Human Rights Law 3 s.h.
036:042 (COMM:3042)/042:042 (SSW:2042)/187:042 (IS:2042) Intercultural Communication 3 s.h.
044:010 (GEOG:1090) Globalization and Geographic Diversity 3 s.h.
044:011 (GEOG:2110) Population Geography 3 s.h.
044:015 (GEOG:2710) Introduction to Political Geography 3 s.h.
044:030 (GEOG:2910) The Global Economy 3 s.h.
044:194 (GEOG:3910) Geographic Perspectives on Development 3 s.h.
091:193 (LAW:8570) Human Rights in the World Community 3 s.h.
091:195 (LAW:8649) Foundations of International Law 3 s.h.
113:010 (ANTH:2100) Anthropology and Contemporary World Problems 3 s.h.
113:014 (ANTH:3132) Environmentalisms 3 s.h.
113:114 (ANTH:3132) Environmentalisms 3 s.h.
113:116 (ANTH:2136) Urban Anthropology 3 s.h.
113:143 (ANTH:3103) Environment and Culture 3 s.h.

WORLD LANGUAGES

Certificate students develop intermediate-level competence in a language that is spoken in one of six geographic regions. Through world language study, they gain insight into the culture of another region of the world and develop a deeper understanding of their own language and culture.

Students must complete one of the approved language sequences below. For questions about languages not listed or about study abroad course work, see a Certificate in International Business advisor.

Arabic

All of these:
195:102 (ARAB:1002) Elementary Modern Standard Arabic II 5 s.h.

Chinese

All of these:

French

One of these sequences:
009:001 (FREN:1001)-009:002 (FREN:1002) Elementary French I-II 10 s.h.
009:010 (FREN:1010) First-Year French Review 5 s.h.

German

One of these:
013:011 (GRMN:1001)-013:012 (GRMN:1002) Elementary German I-II (both courses) 8 s.h.
013:014 (GRMN:1010) First-Year German Review 5 s.h.

Italian

One of these:
018:001 (ITAL:1101)-018:002 (ITAL:1102) Elementary Italian I-II (both courses) 10 s.h.
018:103 (ITAL:3002) Intensive Elementary Italian 6 s.h.

Japanese

Jay J. Christensen-Szalanski

Professors
Kenneth G. Brown (Henry B. Tippie Research Fellow), Jay J. Christensen-Szalanski, Nancy R. Hauserman (Williams Teaching Professor), Maria L. Kraimer (Gary C. Fethke Research Fellow), Amy L. Kristof-Brown (Henry B. Tippie Research Professor of Human Resource Management), Michael K. Mount (Henry B. Tippie Research Professor of Human Resource Management), Sara L. Rynes (John F. Murray Professor), Greg L. Stewart (Henry B. Tippie Research Professor of Management and Organizations)

Professors emeriti

Clinical professors
David K. Hensley, Lon D. Moeller

Associate professors
Terry L. Boles (Henry B. Tippie Research Fellow), Amy E. Colbert (Leonard A. Hadley Research Fellow), Scott E. Seibert (Henry B. Tippie Research Fellow)

Assistant professors
Ean R. Crawford, Ning Li, Ernest H. O'Boyle

Lecturers
Joseph George, Robert E. Gettemy, Richard C. McCarty, Dennis M. Schrag, Joseph N. Sulentic, Mary Weideman

Adjunct lecturers

Undergraduate major: management (B.B.A.)
Graduate degree: Ph.D. in business administration
Web site: http://tippie.uiowa.edu/management-organizations

The Department of Management and Organizations offers study of human resource management; individual, team, and organizational behavior; employment law and ethics; leadership and personal development; negotiations; training and development; and organizational design.

Undergraduate Program

• Major in management (Bachelor of Business Administration)

Bachelor of Business Administration

The Bachelor of Business Administration with a major in management requires a minimum of 120 s.h., including 21 s.h. of work for the major. The program is designed to give students a thorough background in the department’s study areas as well as an understanding of their application to real-life situations. Specific courses, research projects, and other experiences, such as simulations, are blended to include both theoretical and pragmatic aspects of the field.

All B.B.A. students majoring in management choose one of three tracks: human resource management, leadership and management, or entrepreneurial management. The human resource management track covers business and employment law and prepares students to pursue careers in human resources or to earn a degree in law. The leadership and management track focuses on practical skills; it is best suited for students considering consulting or management careers. The entrepreneurial management track is intended for students who plan to start their own business or work in a small business. Each track provides a solid background in general management principles in addition to a specialized focus.

The major in management requires the following course work. For B.B.A. common requirements, see Bachelor of Business Administration (p. 573) in the Catalog.

COMMON REQUIRED COURSES

Students in all tracks must complete the following three courses.

06J:130 (MGMT:3200) Individuals, Teams, and Organizations 3 s.h.
06J:131 (MGMT:3300) Strategic Human Resource Management 3 s.h.
06J:156 (MGMT:4100) Dynamics of Negotiations 3 s.h.

ENTREPRENEURIAL MANAGEMENT TRACK

Students in the entrepreneurial management track complete all of these:

06J:125 (MGMT:3100) Entrepreneurial Strategy 3 s.h.
06T:134 (ENTR:3200) Entrepreneurial Marketing 3 s.h.
06T:150 (ENTR:4400) Managing the Growth Business 3 s.h.
And 3 s.h. from these:

06T:191 (ENTR:4100) Practicum in Entrepreneurship 3 s.h.
06T:192 (ENTR:4200) Entrepreneurship: Business Consulting 3 s.h.
06T:193 (ENTR:4600) Advanced Venture Finance 3 s.h.
06T:194 (ENTR:4300) Entrepreneurship: Advanced Business Planning 3 s.h.
06T:199 (ENTR:4900) Academic Internship arr.

HUMAN RESOURCE MANAGEMENT TRACK

Students in the human resource management track complete all of these:

06J:132 (MGMT:3400) Law and Ethics in Management 3 s.h.
06J:160 (MGMT:4200) Staffing and Talent Management 3 s.h.
06J:171 (MGMT:4350) Performance Management and Strategic Rewards 3 s.h.
And 3 s.h. from these:

06J:145 (MGMT:3900) Training and Developing Human Resources 3 s.h.
06J:146 (MGMT:4500) International Business Environment 3 s.h.
06J:162 (MGMT:4300) Leadership and Personal Development 3 s.h.
06T:150 (ENTR:4400) Managing the Growth Business 3 s.h.
06T:192 (ENTR:4200) Entrepreneurship: Business Consulting 3 s.h.
**LEADERSHIP AND MANAGEMENT TRACK**

Students in the leadership and management track complete all of these:

**Graduate Program**

- **Doctor of Philosophy in business administration**

In addition to offering a management and organizations major for the Ph.D. in business administration, the department participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

**Doctor of Philosophy**

Graduate students in management and organizations may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy (p. 581) in the Catalog and visit the Department of Management and Organizations web site.

Applicants must meet the admission requirements of the Graduate college; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

**Courses**

**Primarily for Upper-Division Undergraduates**

**06J:160 (MGMT:4200) Staffing and Talent Management** 3 s.h.
Staffing processes; external influences such as labor markets, the legal environment; support activities such as job analysis, employment planning; staffing activities such as internal and external recruiting, selection. Prerequisites: 06j:130 (MGMT:3200), 06j:131 (MGMT:3300), and 06j:132 (MGMT:3400).

**06J:162 (MGMT:4300) Leadership and Personal Development** 3 s.h.
Practical development and application of leadership and managerial skills to enhance individual and organizational effectiveness. Prerequisites: 06j:130 (MGMT:3200) and 06j:131 (MGMT:3300). Requirements: senior standing.

**06J:167 (MGMT:4325) Team and Project Management** 3 s.h.
Fundamentals of managing teams and group projects; emphasis on practical application, using case studies, and interactive and experiential exercises. Prerequisites: 06j:130 (MGMT:3200), 06j:131 (MGMT:3300), and 06j:132 (MGMT:3400).

**06J:168 (MGMT:4000) Topics in Management** 3 s.h.
Topics not regularly offered in other courses. Prerequisites: 06j:047 (MGMT:2000) and 06j:048 (MGMT:2100).

**06J:171 (MGMT:4350) Performance Management and Strategic Rewards** 3 s.h.
Role of pay and other rewards on organizational objectives; compensation's impact on employee behavior and performance; mix of pay and benefits in compensation systems; legal environment regulating pay and benefits; nonmonetary forms of reward. Prerequisites: 06j:130 (MGMT:3200), 06j:131 (MGMT:3300), and 06j:132 (MGMT:3400).

**06J:195 (MGMT:4999) Honors Thesis in Management and Organizations** 3 s.h.
Independent student project directed by faculty or staff advisor; culminates in a thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

**06J:199 (MGMT:4900) Academic Internship** arr.
Professional internship experience with associated academic content.

### Primarily for Graduate Students

**06J:201 (MGMT:7950) Directed Readings in Management and Organizations** arr.

**06J:202 (MGMT:6000) M.A. Research Report** 1 s.h.
Requirements: nonthesis M.A. enrollment.

**06J:205 (MGMT:7900) Contemporary Topics in Management and Organizations** arr.
Research topics in human resources and organizational behavior.

**06J:227 (MGMT:9270) Human Resource Management** 3 s.h.
Systematic approach to managing human resources through practices consistent with validated theories and empirical research; human resources practices and business strategies; human resource strategy, recruitment and selection, training and development, employment law, international human resources, career management, compensation.

**06J:232 (MGMT:9210) Legal Environment of Business** 3 s.h.
Legal issues surrounding start-up and day-to-day management of a business; contract law, standard business formations, tort law, employment law, business ethics, alternative dispute resolution. Prerequisites: 06N:212 (MBA:8120).

**06J:235 (MGMT:9220) Maximizing Team Performance** 3 s.h.
Current approaches to implementing effective teams within organizations; team selection and formation, group dynamics, facilitation skills, performance and obstacle management.

**06J:242 (MGMT:9230) Managing and Preventing Conflict** 3 s.h.
Skills for management of high-conflict situations in the workplace and for long-term business success and job satisfaction; experience developing mediation-based skills and communication techniques to prevent and resolve workplace conflicts.

**06J:244 (MGMT:9250) Managing Organizational Performance** 3 s.h.
Concepts and practices for effective management, measurement, and improvement of organizational performance; establishing and communicating organizational expectations, the manager as coach and motivator, measurement and methodologies, performance improvement methods. Requirements: 06N:212 (MBA:8120) or a management course.

**06J:245 (MGMT:9260) Strategic Employee Development** 3 s.h.
Concepts, practices in training and development; strategic issues affecting the design, implementation, and evaluation of training programs and of career management and organizational development activities.

**06J:246 (MGMT:9140) International Management** 3 s.h.
Management issues encountered in international business settings; assessing international politico-economic and sociocultural environments; managing a multicultural workforce; forming international structures and alliances; developing international business strategy.

**06J:247 (MGMT:9150) Nonprofit Organizational Effectiveness I** 3 s.h.

**06J:248 (MGMT:9160) Nonprofit Organizational Effectiveness II** 3 s.h.

**06J:256 (MGMT:4920) Dynamics of Negotiations** 3 s.h.
Predictable aspects and dynamics of bargaining experiences; simulations, experiential exercises to foster skills needed for effective negotiation in almost any situation. Requirements: M.B.A. enrollment.
06J:257 (MGMT:9280) Legal Issues in Human Resources Management 3 s.h.
Laws, regulations governing human resource management policies, practices; employee discipline, termination, layoffs, privacy, involvement programs; occupational safety and health; workers’ compensation; discrimination. Prerequisites: 06N:212 (MBA:8120).

06J:261 (MGMT:9310) Motivating Employees in Changing Environment 3 s.h.
Contemporary motivation theories and their application; role of intrinsic motivation, justice, incentive pay, job design, goals, feedback, social influence, attitudes, creativity. Prerequisites: 06J:227 (MGMT:9270) and 06N:212 (MBA:8120).

06J:262 (MGMT:9120) Leadership and Personal Development 3 s.h.
Major theories; determinants of leader effectiveness, personal and career success; practical development of leadership, managerial skills to enhance individual, organizational effectiveness. Prerequisites: 06N:212 (MBA:8120).

06J:263 (MGMT:9130) Strategic Management of Change 3 s.h.
How congruence in organizational strategy, structure and culture, job design, and employee characteristics produces effective organizations; emphasis on managing organizational change, implementing and working in teams, project management. Prerequisites: 06N:212 (MBA:8120).

06J:265 (MGMT:7124) Methods for Qualitative Research 2 s.h.
Qualitative methods available to researchers; role and contributions of qualitative methods in research; reasons why qualitative research papers get rejected by journals and strategies to avoiding them; work with qualitative data; philosophy of science, formulating research questions, sampling and gaining access, alternative qualitative data collection methods, ways of coding and analyzing qualitative data, building theory from qualitative data.

06J:266 (MGMT:7128) Methods for Experimental Research 2 s.h.
Research and principles of experimental design, including heterogeneity of variance, analysis of variance (ANOVA), multi-attribute analysis of variance (MANOVA); orthogonal, planned and unplanned comparisons, factorial experiments, including policy capturing designs, repeated measures and nested-factors design, Latin square designs; data sets with SPSS.

06J:267 (MGMT:7320) Organizational Theory Ph.D. 2 s.h.
Organizational theory; effect of changing environment and technological factors on organizational structure and effectiveness; resource dependency and power, conflict, interorganizational network, population ecology, economic theories of organization, institutional theory.

06J:268 (MGMT:7850) Seminar in Management 2-3 s.h.
Topics vary.

06J:269 (MGMT:7140) Meta-Analysis in Behavioral Social Sciences (Ph.D.) 3 s.h.
Methods for quantitative integration of findings in behavioral and social sciences; overall effect size or correlation, whether conflicting findings documented in research literature are due to moderators (interactions) or statistical and measurement artifacts.

06J:270 (MGMT:7120) Methods for Field Research (Ph.D.) 2 s.h.
Methods commonly used in behavioral research; critical evaluation of research; research process from idea generation to publication; practice in generating hypotheses, drafting surveys, analyzing data, reviewing manuscripts.

06J:271 (MGMT:7375) Performance Management 2 s.h.
Theories and research pertaining to employee work performance and evaluation; conceptual definitions of work performance; theories concerning the determinants of work performance; theory and research explaining the effectiveness and biases of performance evaluation systems; theories and empirical research on performance feedback; areas for future theoretical and empirical investigation in performance management.

06J:272 (MGMT:7380) Training and Careers (Ph.D.) 2 s.h.
Research-based examination of training and development programs; emphasis on societal, legal, organizational factors that affect training program design, implementation, evaluation; systemic relationships among training, careers, organizational development management.

06J:273 (MGMT:7160) Measurement Theory and Methods in the Behavioral and Social Sciences (Ph.D.) 3 s.h.
Classical measurement theory, methods applied to psychological tests, questionnaires, ratings of work-related and other performances, behaviors; reliability theory and methods, instrument construction and item analysis, criterion construction, validity, combining and weighting instruments, cross-validation. Requirements: basic statistical methods course.

06J:274 (MGMT:7330) Staffing Organizations (Ph.D.) 3 s.h.
Aspects of selection, including professional and legal standards, job analysis techniques, validation strategies, criterion development, selection techniques (e.g., psychological tests, interviews, biographical data, assessment centers), ethical issues.

06J:275 (MGMT:7340) Group Processes and Conflict (Ph.D.) 2 s.h.
Understanding and implementing work groups in organizations; social influence and group processes, including communications, conflict, intergroup relations.

06J:276 (MGMT:7350) Leadership (Ph.D.) 3 s.h.
Understanding and implementing leadership in organizations; focus on reading and analysis of basic research-related leadership theories; “great person” theories in contrast to traditional behavioral and situational theories.

06J:277 (MGMT:7360) Motivation and Attitudes (Ph.D.) 3 s.h.
Motivational processes, attitudes, communication and interorganizational networks; emphasis on motivational antecedents and consequences, theoretical implications for models of work performance.

06J:278 (MGMT:7370) Reward Systems (Ph.D.) 2 s.h.
Compensation systems, government influences, equity in compensation and individual wage determination; research-based examination of performance evaluation and appraisal, theories of work performance.

06J:279 (MGMT:7390) Individual Differences in Traits/Abilities (Ph.D.) 3 s.h.
Research on individual and group differences in intelligence, personality, interests, values, other traits; findings related to performance in work world.
06J:290 (MGMT:7975) Thesis in Management and Organizations

06J:295 (MGMT:7700) Mentored Research
Management research conducted by doctoral students under faculty supervision; culminates in second-year research paper.
Management Sciences

Chair
W. Nick Street

Professors
Kurt M. Anstreicher (Henry B. Tippie Research Professor of Management Sciences), Samuel Burer (Martha and Dennis Hesse Research Fellow), Philip C. Jones (Clement T. and Sylvia H. Hanson Chair in Manufacturing Productivity), Johannes Ledolter (C. Maxwell Stanley Professor of International Operations Management), Timothy J. Lowe (Chester A. Phillips Professor of Operations Management), Padmini Srinivasan, W. Nick Street (Henry B. Tippie Research Fellow)

Professors emeriti
Colin E. Bell, Warren J. Boe, Gary C. Fethke, Raj Jagannathan, Kenneth Kortanek

Associate professors
Ann M. Campbell (Martha and Dennis Hesse Research Fellow), Renato E. de Matta (Henry B. Tippie Research Fellow), Jeffrey W. Ohlmann (Huneke Research Fellow), Barrett W. Thomas (Leonard A. Hadley Research Fellow)

Assistant professors
Gautam Pant, Kang Zhao

Lecturers
Michael W. Colbert, Kevin Felker, Yvonne L. Galusha

Undergraduate major: management information systems (B.B.A.)

Graduate degree: Ph.D. in business administration

Web site: http://www.tippie.uiowa.edu/management-sciences/

The Department of Management Sciences specializes in using advanced computation and mathematical techniques to solve critical business problems. Its research and instruction strengths include operations management, information systems, and quantitative methods.

Undergraduate Program

• Major in management information systems (Bachelor of Business Administration)

Bachelor of Business Administration

The Bachelor of Business Administration with a major in management information systems requires a minimum of 120 s.h., including 22 s.h. of work for the major. The program provides a variety of educational experiences that develop students' knowledge of managerial decision-making systems. Students acquire skill in applying this knowledge by constructing quantitative models, using computer technology, and creating database systems.

Students majoring in management information systems prepare for career opportunities in both manufacturing and service organizations. Graduates find entry-level work as computer programmers, systems analysts, sales representatives with computer companies, and management trainees. Entry-level work in operations management is found in materials management, line supervision, purchasing, and manufacturing systems.

The major in management information systems requires the following course work. For B.B.A. common requirements, see Bachelor of Business Administration (p. 573) in the Catalog.

06K:126 (MSCI:3020) Visual Basic Programming 3 s.h.
06K:182 (MSCI:3200) Applications Database Management Systems 3 s.h.
06K:183 (MSCI:3300) Systems Analysis and Design 3 s.h.
06K:184 (MSCI:3400) Introduction to Data Communications 3 s.h.
06K:185 (MSCI:4250) MIS Capstone Project 3 s.h.
22C:016 (CS:1210) Computer Science I: Fundamentals 4 s.h.
One additional course from approved list of management sciences courses 3 s.h.

Graduate Program

• Doctor of Philosophy in business administration

In addition to offering a management sciences major for the Ph.D. in business administration, the department participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

Doctor of Philosophy

Graduate students in management sciences may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy (p. 581) in the Catalog and visit the Department of Management Sciences web site.

Applicants must meet the admission requirements of the Graduate College; see Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Courses

Primarily for Undergraduates

06K:029 (MSCI:1300) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

06K:050 (MSCI:1000) Business Computing Essentials 2 s.h.
Basic proficiency with common business application software (word processing, spreadsheet, presentation software, database); simulation training to achieve requisite skills; additional support available via optional textbook or ebook; online, modular, self-taught course.

The computer and its uses in organization operation, management; computer systems terminology, programming, management information systems, use of applications software.
For Undergraduate and Graduate Students

06K:100 (MSCI:3000) Operations Management 3 s.h.
Strategic, tactical, operational issues that arise in management of production and service operations; product and process design, facilities planning, quality management, materials management, operations planning and scheduling, emerging technologies in production and service management. Prerequisites: 22S:008 (STAT:1030). Corequisites: 06K:070 (MSCI:2000), if not taken as a prerequisite. Requirements: junior standing.

06K:126 (MSCI:3020) Visual Basic Programming 3 s.h.

06K:128 (MSCI:4260) Web and Multimedia 3 s.h.
How multimedia tech is accomplished; tools used with each tech and modifications needed to function efficiently on the web; projects culminating in a web site.

06K:170 (MSCI:3101) Advanced Computer Analysis 3 s.h.
Advanced spreadsheet and database application for decision analysis with macro coding and exploration of Web 2.0 technologies. Recommendations: students with sound technical skills are encouraged to take 06K:170 (MSCI:3101) instead of 06K:070 (MSCI:2000); those who have taken 06K:070 (MSCI:2000) may take 06K:170 (MSCI:3101) for more advanced work.

06K:175 (MSCI:3500) Business Intelligence 3 s.h.
Introduction to predictive analytics methods motivated by problems in operations, marketing, finance and accounting; data and text mining techniques, including classification, clustering, and association analysis. Prerequisites: 06E:071 (ECON:2800).

06K:177 (MSCI:3070) Management Sciences Topics arr.
Special topics in management sciences and information systems.

06K:180 (MSCI:3100) Applied Information Systems 3 s.h.
Application of computer technology to accounting and transaction processing systems; information systems infrastructure and trends; problem solving with microcomputer spreadsheets, databases; accounting cycle operations. Prerequisites: 06A:001 (ACCT:2100), 06A:002 (ACCT:2200), and 06K:070 (MSCI:2000) or 06K:170 (MSCI:3010).

06K:182 (MSCI:3200) Applications Database Management Systems 3 s.h.
Design and implementation of a database using relational DBMS; emphasis on issues of logical and physical design, database administration, concurrency control, maintenance. Prerequisites: 06K:070 (MSCI:2000) or 06K:170 (MSCI:3010).

06K:183 (MSCI:3300) Systems Analysis and Design 3 s.h.
Design and implementation of an information system; student projects in determination of information needs, system design, information plan development; construction of prototype information system. Prerequisites: 06K:126 (MSCI:3020). Corequisites: 06K:182 (MSCI:3200), if not taken as a prerequisite.

06K:184 (MSCI:3400) Introduction to Data Communications 3 s.h.
Computer communications: computer-communication system, hardware, data transmission principles; examples of existing communication networks; related managerial issues. Prerequisites: 06K:070 (MSCI:2000) or 06K:170 (MSCI:3010).

06K:185 (MSCI:4250) MIS Capstone Project 3 s.h.
Individual or team senior project incorporating knowledge and skills from management information science curriculum; projects from real-world customer, such as a software system, security system, or network design; outcomes including written documentation, presentation, project report. Prerequisites: 06K:183 (MSCI:3300) and 06K:184 (MSCI:3400). Corequisites: 06K:184 (MSCI:3400) (MSCI: 3400), if not taken as a prerequisite. Requirements: completion of 90 s.h.

06K:186 (MSCI:4220) Database Management II 3 s.h.
Advanced conceptual and logical design, in-depth SQL, DB administration, concurrency control, web database access; theory and practice. Prerequisites: 06K:182 (MSCI:3200).

06K:188 (MSCI:4280) Computer and Network Security 3 s.h.
Network-based attacks and how to respond to them; access control, authentication methods, encryption, Public Key Infrastructure, operating system hardening, security policy practices. Prerequisites: 06K:184 (MSCI:3400).

06K:190 (MSCI:4240) Network Design and Performance 3 s.h.
Computer software as central to the study of network facilities selection, performance metrics; skill development through work with the telecommunications hierarchy’s layered structure. Prerequisites: 06K:184 (MSCI:3400).

06K:192 (MSCI:3920) Supply Chain Management 3 s.h.
Key issues in design and management of global supply chains; issues in integration of business processes across organizations that are concerned with movement of goods, delivery of services, and information flow along the supply chain in order to create value for the customer; issues in coordinating production and logistics within a firm and with outside suppliers and customers in the supply chain. Prerequisites: 06K:100 (MSCI:3000).

06K:195 (MSCI:4999) Honors Thesis in Management Sciences 3 s.h.
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

Professional internship experience with associated academic content.

Primarily for Graduate Students

06K:201 (MSCI:7950) Directed Readings arr.

06K:217 (MSCI:9110) Advanced Analytics 3 s.h.
Development of data-driven, problem-solving skills for prediction of uncertain outcomes and prescription of business solutions; linear and nonlinear regression, Monte Carlo simulation, forecasting, data mining, and optimization utilizing spreadsheets and dedicated software packages. Prerequisites: 06N:216 (MBA:8150).

06K:218 (MSCI:9180) Statistical Methods for Process Improvement 3 s.h.
Strategies to improve quality of products, effectiveness of processes; managerial issues, statistical methods, quality, customer needs, customer satisfaction, quality measures and standards; understanding and reducing variability; builds on 06N:216; data-based management, statistical process control, control charts, capability indexes, design of experiments. Prerequisites: 06N:216 (MBA:8150).
06K:220 (MSCI:9220) Introduction to Information Systems
Effective ways for business firms to harness the power of information technology for strategic purposes; conventional and emerging architectures of information systems; integrated perspective on structural relationships among IT components; emphasis on case studies.

3 s.h.

06K:223 (MSCI:9225) Management of E-Commerce Systems
Benefits, capabilities, and related information technologies that compose the current state of electronic commerce; how to design, develop, and operate electronic commerce transaction processing-based applications; focus on web-based e-commerce systems and associated business models.

3 s.h.

06K:226 (MSCI:9200) Visual Basic Programming

3 s.h.

06K:227 (MSCI:9210) Introduction to Modeling with VBA
Introduction to programming Visual Basic for Applications in Excel; case studies in finance, marketing, operations, accounting. Prerequisites: 06N:216 (MBA:8150).

3 s.h.

06K:228 (MSCI:9260) Web and Multimedia
How multimedia tech is accomplished; tools used with each tech and modifications for efficient function on the web; projects culminating in a web site. Prerequisites: 06K:070 (MSCI:2000).

3 s.h.

06K:230 (MSCI:9230) Database Systems
Theories and methodologies for semantic, logical, and physical database design; entity/relationship diagrams and their mapping to database schemas; normalization; languages for relational database systems, including relational algebra, Structured Query Language, query by example; query optimization and index selection; database and view creation, query and update processing; form and report design; practice with commercial DBMS products; integrity, security, concurrency control, transaction recovery.

3 s.h.

06K:234 (MSCI:6190) Knowledge Management
How organizations acquire, manage, and use information; knowledge management and competitive intelligence, information from inside and outside the organization; organization types, including library, corporate, and nonprofit. Same as 021:234 (SLIS:6190).

3 s.h.

06K:235 (MSCI:9250) Strategic Information Technology
Impact of emerging technology, especially information technology, on a modern business; solving business problems using the intersection of innovation and emerging technology; impact of near-term technology advances (such as e-commerce tools, personal digital devices and integrated business systems); potential impact of emerging technologies which will significantly impact the business world in the near future; highly interactive course includes lecture, readings, case studies, and guest speakers.

arr.

06K:272 (MSCI:6200) Database Analysis and Design
Advanced topics in database management systems.

3 s.h.

06K:275 (MSCI:6421) Knowledge Discovery
Knowledge discovery process, including data reduction, cleansing, transformation; advanced modeling techniques from classification, prediction, clustering, association; evaluation and integration. Same as 22C:141 (CS:6421).

3 s.h.

06K:277 (MSCI:7000) Management Sciences Topics
Techniques for mining the web and other unstructured or semistructured, hypertextual, distributed information repositories; crawling, indexing, ranking, filtering algorithms.

3 s.h.

06K:285 (MSCI:9185) Project Management
Preparation for managing projects and project portfolios; project selection, project planning and budgeting, scheduling, resource allocation, project control; integration of project planning tools, including project management software.

3 s.h.

06K:286 (MSCI:6600) Linear Programming
Mathematical programming models; linear and integer programming, transportation models, large-scale linear programming, network flow models, convex separable programming. Requirements: calculus and linear algebra. Same as 056:270 (IE:6600).

3 s.h.

06K:287 (MSCI:6700) Discrete Optimization
Introduction to modeling and solving discrete optimization problems; integer programming, network flows, dynamic programming. Prerequisites: 06K:286 (MSCI:6600).

3 s.h.

06K:290 (MSCI:7975) Thesis in Management Sciences
Requirements: Ph.D. enrollment.

arr.

06K:291 (MSCI:9135) Strategy Deployment and Lean Enterprise
How organizations transform themselves into Lean enterprises that maximize customer value through the elimination of waste; focus on how manufacturing and service organizations successfully align their process improvement efforts to strategic goals of the organization (policy deployment); A3 thinking, strategic planning, balanced scoreboard, Lean supply chain, employee engagement, and cultural transformation. Prerequisites: 06N:229 (MBA:8190).

3 s.h.

06K:292 (MSCI:9120) Supply Chain Management
Design, operation, and management of a supply chain; supplier and customer contracting and partnering, inventory, transportation and logistics. Prerequisites: 06N:229 (MBA:8190).

3 s.h.

06K:293 (MSCI:9130) Seminar in Lean Practices
Lean principles across the enterprise; real-world applications in manufacturing and service sectors; taught in conjunction with LAI Lean Academy. Prerequisites: 06N:229 (MBA:8190).

3 s.h.

06K:294 (MSCI:9140) Rapid Continuous Improvement
Hands-on experience working on rapid continuous improvement (RCI) teams sponsored by industrial affiliates of the business college involved in using RCI. Offered spring break.

3 s.h.

06K:295 (MSCI:9150) Field Studies in Operations Management
Supervised study of operations systems in field settings; problem formulation, identification of process improvements, communication of results to client organizations. Prerequisites: 06N:229 (MBA:8190).

3 s.h.
**06K:296 (MSCI:9160) Six Sigma Project**  3 s.h.
Apply theory from the classroom to the real world; use classroom learning from 06K:218 (MSCI:9180) to work on a company-sponsored Six Sigma style project, which helps complete the requirements for Six Sigma Green Belt certification. Prerequisites: 06K:218 (MSCI:9180).

**06K:297 (MSCI:7850) Research Seminar in Management Sciences**  0 s.h.
Current research topics. Requirements: Ph.D. enrollment.

**06K:299 (MSCI:7900) Special Topics in Management Sciences**  arr.
Marketing

Chair
Gary J. Russell

Professors
Catherine A. Cole (Henry B. Tippie Research Fellow), Sarah Fisher Gardial (Henry B. Tippie Dean), Gary J. Gaeth (Cedar Rapids Area Business Chair), Thomas S. Gruca (Henry B. Tippie Research Professor of Marketing), Gary J. Russell (Henry B. Tippie Research Professor of Marketing)

Professors emeriti
Carol C. Fethke, Irwin P. Levin, Peter C. Riesz, Randall L. Schultz, Doyle L. Weiss

Associate professors
John P. Murry, Dhananjay Nayakankuppam (Henry B. Tippie Research Fellow), Jing "Alice" Wang (Leonard A. Hadley Research Fellow)

Associate professor emeritus
E. John Kottman

Assistant professors
Sheila Goins, William M. Hedgcock (McLean Faculty Research Fellow), Sanghak Lee, Qin Zhang

Lecturers
Robert Cline, David E. Collins, Robert Rouwenhorst

Undergraduate major: marketing (B.B.A.)

Graduate degree: Ph.D. in business administration

Web site: http://tippie.uiowa.edu/marketing/

The Department of Marketing offers programs that follow business trends and lead business practice.

Undergraduate Program

• Major in marketing (Bachelor of Business Administration)

Bachelor of Business Administration

The Bachelor of Business Administration with a major in marketing requires a minimum of 120 s.h., including 20 s.h. of work for the major. The program is designed to provide undergraduate students with an understanding of the business, social, and economic roles of marketing and to prepare them for marketing careers.

Several decades ago, the study of marketing dealt almost exclusively with business activities involved in the flow of goods from production to consumption. Today it includes principles that are more widely applicable; they are as relevant to the success of arts, sports, and social programs as they are to firms selling goods and services. A major in marketing includes study in the behavioral sciences, communications, statistical analysis, and computer methods as well as marketing decision making.

Graduates find employment opportunities as market analysts, merchandise managers, buyers, purchasing agents, advertising managers, brand managers, and sales representatives in a variety of for-profit and nonprofit organizations.

The major in marketing requires the following course work. For B.B.A. common requirements, see Bachelor of Business Administration (p. 573) in the Catalog.

All of these:
06M:102 (MKTG:3600) Professional Preparation in Marketing 2 s.h.
06M:134 (MKTG:3100) Marketing Research 3 s.h.
06M:135 (MKTG:3200) Consumer Behavior 3 s.h.
06M:147 (MKTG:4500) Marketing Management (must be taken in senior year) 3 s.h.

Three of these:
06M:105 (MKTG:3300) Web Business Strategy 3 s.h.
06M:107 (MKTG:3400) Retail Strategies 3 s.h.
06M:125 (MKTG:3500) Direct Marketing Strategies 3 s.h.
06M:137 (MKTG:4100) Advertising Theory 3 s.h.
06M:139 (MKTG:4200) Sales Management 3 s.h.
06M:140 (MKTG:4250) Marketing and Sustainability 3 s.h.
06M:151 (MKTG:4300) International Marketing 3 s.h.
06M:190 (MKTG:3701) Contemporary Topics in Marketing (counts once toward the major) 3 s.h.
06M:192 (MKTG:3701) Marketing Institute Field Studies 3 s.h.
06M:197 (MKTG:4800) Field Studies in Marketing 3 s.h.

Graduate Program

• Doctor of Philosophy in business administration

In addition to offering a marketing major for the Ph.D. in business administration, the department participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program (p. 615) in the Catalog.

Doctor of Philosophy

Graduate students in marketing may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy (p. 581) in the Catalog.

Applicants must meet the admission requirements of the Graduate College; see Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Courses

Primarily for Upper-Division Undergraduates

06M:029 (MKTG:1300) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

06M:100 (MKTG:3000) Introduction to Marketing Strategy 3 s.h.
Philosophy and activities of marketing; marketing environment of an organization; strategies with respect to marketing decisions, buyer behavior; spreadsheet analysis of marketing problems. Prerequisites: 06E:001 (ECON:1100). Requirements: junior standing.
For Undergraduate and Graduate Students

**06M:101 (MKTG:4050) Directed Readings in Marketing** 3 s.h.
Marketing problems of organizations; emphasis on marketing manager’s role in developing, presenting goal-oriented marketing strategies; application of marketing concepts to real business situations. Prerequisites: 06M:100 (MKTG:3000), 06M:134 (MKTG:3100), and 06M:135 (MKTG:3200). Requirements: marketing elective numbered above 100 and senior standing.

**06M:102 (MKTG:3600) Professional Preparation in Marketing** 2 s.h.
Overview of marketing careers; how marketing strategies are developed, evaluated, and implemented; how research on buyer behavior is used in marketing decisions; identification of research methodologies, analytical tools, and technologies for addressing marketing problems; marketing’s relationship to other business and organizational functions and to the external environment. Prerequisites: 06M:100 (MKTG:3000).

**06M:105 (MKTG:3300) Web Business Strategy** 3 s.h.
Introduction to World Wide Web business and marketing; concepts, methods, and applications associated with doing business on the web; web page construction and design; case studies and/or entrepreneurial projects. Prerequisites: 06M:100 (MKTG:3000).

**06M:107 (MKTG:3400) Retail Strategies** 3 s.h.
Strategies for retail site selection, store design, supply chain management, customer relationship management/customer service; merchandising management strategies for planning merchandise assortments, buying systems, buying merchandise, pricing, promotion. Prerequisites: 06M:100 (MKTG:3000).

**06M:125 (MKTG:3500) Direct Marketing Strategies** 3 s.h.
Principles and processes of direct and database marketing; insight into the requirements for building a customer-based marketing strategy. Prerequisites: 06M:100 (MKTG:3000).

**06M:134 (MKTG:3100) Marketing Research** 3 s.h.
Marketing, research methods; role of marketing research information as a tool in management decision making. Prerequisites: 06E:071 (ECON:2800) and 06M:100 (MKTG:3000).

**06M:135 (MKTG:3200) Consumer Behavior** 3 s.h.
Behavioral and social aspects of marketing; research methods and findings from behavioral sciences, their relation to production, consumption, and marketing of products, services. Prerequisites: 06M:100 (MKTG:3000).

**06M:137 (MKTG:4100) Advertising Theory** 3 s.h.
Advertising as a promotional force; emphasis on theory, planning, resulting strategic and tactical decisions made by advertising executives. Prerequisites: 06M:100 (MKTG:3000).

**06M:139 (MKTG:4200) Sales Management** 3 s.h.
Personal selling, management of sales force; emphasis on recruitment, selection, training of sales representatives; problems in allocation of sales effort, supervision, control. Prerequisites: 06M:100 (MKTG:3000).

**06M:140 (MKTG:4250) Marketing and Sustainability** 3 s.h.
Concepts for developing and implementing sustainable marketing strategies; developing more environmentally friendly products, more sustainable logistical systems, socially responsible pricing, and promoting sustainable products in a socially responsible way. Prerequisites: 06M:100 (MKTG:3000).

**06M:151 (MKTG:4300) International Marketing** 3 s.h.
Differences in global environment; how cultural considerations, political, legal, and economic conditions affect market entry strategies and marketing mix decisions; development of marketing plan for non-U.S. environments. Prerequisites: 06M:100 (MKTG:3000).

**06M:190 (MKTG:4000) Contemporary Topics in Marketing** 3 s.h.
Topics not regularly offered in other courses. Prerequisites: 06M:100 (MKTG:3000).

**06M:191 (MKTG:3700) Marketing Institute Seminar I** 1 s.h.
Soft skills and professional expertise to succeed in marketing and consulting careers; resume and interview training, industry presentations, business case assignments, lectures. Prerequisites: 06M:100 (MKTG:3000). Requirements: admission to the Marketing Institute.

**06M:192 (MKTG:3701) Marketing Institute Field Studies** 3 s.h.
Plan, design, carry out, and report on a marketing research project for a profit or nonprofit client organization; communicate with managers, apply knowledge of marketing research, meet deadlines, and convert research findings into actionable recommendations for management. Prerequisites: 06M:100 (MKTG:3000) and 06M:191 (MKTG:3700). Requirements: admission to the Marketing Institute.

**06M:193 (MKTG:4701) Marketing Institute Seminar II** 0 s.h.
Develop soft skills and professional expertise to succeed in marketing and consulting careers; resume and interview training, industry presentations, business case assignments, lectures; mentor student scheduled for 06M:191 (MKTG:3700). Prerequisites: 06M:100 (MKTG:3000), 06M:191 (MKTG:3700), and 06M:192 (MKTG:3701). Requirements: admission to the Marketing Institute.

**06M:195 (MKTG:4999) Honors Thesis in Marketing** 3 s.h.
Independent student project directed by faculty or staff advisor; culminates in a thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Prerequisites: 06B:194 (BUS:3999) or 06E:194 (ECON:3999). Requirements: admission to the Tippie College of Business honors program.

**06M:197 (MKTG:4800) Field Studies in Marketing** 3 s.h.
Experience in planning, designing, carrying out, reporting on a marketing research project for a profit or nonprofit client organization; communication with managers, application of marketing research, meeting deadlines, converting research findings into actionable recommendations for management. Prerequisites: 06M:100 (MKTG:3000) and 06M:134 (MKTG:3200).

**06M:199 (MKTG:4900) Academic Internship** arr.
Professional internship experience with associated academic content.

Primarily for Graduate Students

**06M:201 (MKTG:9000) Directed Readings in Marketing** arr.
06M:205 (MKTG:9210) Web Business Strategy 3 s.h.
Introduction to World Wide Web business and marketing; concepts, methods, and applications associated with doing business on the web; web page construction and design; case studies and/or entrepreneurial projects. Prerequisites: 06N:211 (MBA:8110).

06M:223 (MKTG:9150) Brand Management 3 s.h.
Strategies for building, leveraging, and defending brands; principles of consumer behavior, how they relate to building brand identity and equity; branding of consumer goods and services. Prerequisites: 06N:211 (MBA:8110).

06M:225 (MKTG:9180) Direct Marketing Strategies 3 s.h.
Principles and processes of direct and database marketing; insight into requirements for building a customer-based marketing strategy. Prerequisites: 06N:211 (MBA:8110).

06M:227 (MKTG:9110) Category Management 3 s.h.
Marketing strategy related to manufacturing product line interactions, retailer product assortment, consumer response; category definition, product line pricing and branding, cross-category promotions, channel coordination, efficient consumer response, loyalty programs, database marketing. Prerequisites: 06N:211 (MBA:8110).

06M:228 (MKTG:9115) Cases in Marketing Strategy 3 s.h.
Topics from marketing cases not covered in other marketing electives. Prerequisites: 06N:211 (MBA:8110).

06M:229 (MKTG:9120) Customer Relationship Management 3 s.h.
Analytical approaches to customer relationship management; issues, techniques and terminology associated with database marketing and data mining; analysis of customer databases; assessing lifetime valuation (LTV) of customers, identifying "high potential" customers, estimating return on marketing investment, building predictive models to estimate the probability of response to a marketing campaign. Prerequisites: 06N:211 (MBA:8110).

06M:230 (MKTG:9020) Marketing Research Methods 3 s.h.
Managerial applications of marketing research techniques, including methods of design, analysis, interpretation of marketing research studies; assessing value of information, sampling, sources of bias, instrument construction, interpretation of scanner data, geodemographic data, applications of integrated research systems. Prerequisites: 06N:211 (MBA:8110) and 06N:216 (MBA:8150).

06M:231 (MKTG:9170) Business to Business Marketing 3 s.h.
Industrial buyer behavior, buyer-seller relationships, interactive product policy and market segmentation, distribution and selling systems; skill development in market strategy formulation for industrial products and services, and in solving problems and making decisions about industrial marketing. Prerequisites: 06N:211 (MBA:8110).

06M:232 (MKTG:9030) Buyer Behavior 3 s.h.
Behavior of consumers and industrial buyers; research methods and findings from behavioral sciences applied to production, consumption, and marketing of products and services; application of consumer behavior concepts to managerial decision making. Prerequisites: 06N:211 (MBA:8110).

06M:233 (MKTG:9160) Service Marketing 3 s.h.
Production, consumption, and marketing of services; solutions to problems faced by service managers; development of an organizational marketing system for delivery of quality service. Prerequisites: 06N:211 (MBA:8110).

06M:234 (MKTG:9130) Product Management 3 s.h.
Techniques of new product development; idea generation, concept screening, product design, market testing, forecasting, brand management strategies within the firm. Prerequisites: 06N:211 (MBA:8110) and 06N:216 (MBA:8150).

06M:235 (MKTG:9190) International Marketing 3 s.h.
Domestic versus international perspective; identification and evaluation of opportunities and risks in non-U.S. markets; research problems in global markets; effects of international organizations, foreign exchange, macroeconomic policies, local law, and cultural differences on consumer behavior and marketing decisions; multinational versus global marketing strategies (entry, product adaptation, channel logistics, pricing, promotion); emphasis on practical applications. Prerequisites: 06N:211 (MBA:8110).

06M:236 (MKTG:9140) Advertising and Promotion Strategy 3 s.h.
Marketing communications as dialogue between producers and consumers, how promotional mix evolves; emphasis on advertising, sales promotion, branding. Prerequisites: 06N:211 (MBA:8110).

06M:237 (MKTG:9200) Field Studies in Marketing 3 s.h.
Experience in planning, designing, carrying out, reporting on a marketing research project for a profit or nonprofit client organization; communication with managers, application of marketing research, meeting deadlines, converting research findings into action recommendations for management. Prerequisites: 06N:211 (MBA:8110) and 06N:216 (MBA:8150). Recommendations: 06M:230 (MKTG:9020).

06M:238 (MKTG:9010) Contemporary Topics in Marketing 1-3 s.h.
Topics not regularly offered in other courses. Prerequisites: 06N:211 (MBA:8110).

06M:242 (MKTG:7850) Seminar in Marketing Models-Ph.D. 3 s.h.
Theoretical, operational models in marketing, with emphasis on recent advances; in-depth criticism of models, participation in model development project.

06M:243 (MKTG:7800) Seminar in Consumer Behavior-Ph.D. 3 s.h.
Key facets of consumer behavior—information processing, perception, memory, learning, attitude formation, attitude change, decision making, emotion; behavioral research methods.

06M:245 (MKTG:7900) Seminar in Research Topics-Ph.D. 3 s.h.
Individual research topics.

06M:247 (MKTG:7950) Directed Readings in Marketing-Ph.D. 3 s.h.

06M:250 (MKTG:9300) Applied Marketing Research 3 s.h.
Research design, survey design, sampling, data analysis, qualitative research methods, research project management.

06M:251 (MKTG:9310) Marketing Analytics 3 s.h.
Quantitative tools to support marketing planning decisions, including forecasting, elasticity analysis, conjoint analysis, and customer LTV; analysis of syndicated data.

06M:252 (MKTG:9320) Strategic Brand Positioning 3 s.h.
Define market boundaries; use customer and competitor analyses to create sustainable market positions; create and manage brand identities; brand architecture, brand equity measurement.
06M:253 (MKTG:9330) Product and Pricing Decisions
Create and capture value through product and service design, including stage-gate evaluation models; implement pricing strategy for new products and existing product lines. Prerequisites: 06N:211 (MBA:8110).

06M:254 (MKTG:9340) Customer Analysis
Use customer insights to support successful marketing programs; organizational, individual, and joint decision making; post sale satisfaction behaviors.

06M:255 (MKTG:9350) Marketing Communication and Promotions
Develop effective communication programs for business and consumer markets; manage agency relationships; integrate media/vehicle platforms; track and evaluate investments in communications and promotions. Prerequisites: 06N:211 (MBA:8110).

06M:256 (MKTG:9360) Managing Distribution Networks
Select distribution channels, manage distributor relationships; category level competition and coordination; monitor distributor performance.

06M:290 (MKTG:7975) Thesis in Marketing

### Master of Business Administration Program

**Associate dean**  
Jarjis Sa-Aadu  
**Senior assistant dean**  
Colleen Downie

**Graduate degree:** M.B.A.  
**Web site:** [http://tippie.uiowa.edu/mba/](http://tippie.uiowa.edu/mba/)

The Henry B. Tippie School of Management offers a Master of Business Administration (M.B.A.) program that provides students with a foundation for future growth and flexibility in professional management. The program, which is fully accredited by AACSB International—the Association to Advance Collegiate Schools of Business, enables students to build broad-based professional portfolios of analytical skills, knowledge, leadership, and applied experiences. The curriculum is rigorous, yet learning takes place in a collaborative environment that builds teamwork skills and encourages independent problem solving.

Students in Tippie M.B.A. programs come from every region of the United States and from countries worldwide. They represent a variety of backgrounds, undergraduate majors, and professional experience. The curriculum is designed for college graduates in any field; previous business course work is not required. However, full-time work experience is typically required for admission. Contact the Tippie School of Management for a brochure listing complete program requirements.

Students in the full-time M.B.A. program may enroll in one of several joint degree programs, simultaneously earning an M.B.A. and a University of Iowa graduate or professional degree in another discipline. See "Joint M.B.A./Graduate and Professional Degrees" below.

The Departments of Accounting, Economics, Finance, Management and Organizations, Management Sciences, and Marketing all contribute to the Master of Business Administration program through faculty participation and course work.

### Full-time M.B.A.

The full-time M.B.A. program requires 68 s.h. of graduate credit, including 34 s.h. of required courses and 34 s.h. of career academy and elective course work. Students complete business foundation (core) courses during their first semester in the program (fall) and advanced core courses, career academy courses, and electives in the remaining three semesters. M.B.A. students must complete 06N:201 (MBA:8100) Leadership, Ethics, and Professionalism each semester; the course provides in-class and out-of-class training and experience in career advancement, ethics in business, leadership assessment and development, and academy-specific skill-building activities. Students may take part in several Global Learning Opportunities in international locations in order to increase their understanding of the global business environment and its implications for business conduct.

The program’s career academies are the framework through which students become experts in a specific business field. Each career academy provides a unique set of curricular offerings as well as academic and professional experiences that include industry projects, interactions with the business community and with alumni, and skill-building activities designed to increase each student’s marketability. Prior to the second semester (spring), students choose one of the following career academies and concentration tracks based on their career goals.

- Finance Career Academy (concentration tracks: corporate finance and investment management)
- Marketing Career Academy (concentration track: managing customers, products, and brands)
- Strategic Innovation Career Academy (concentration tracks: process excellence and strategic management and innovation)

The full-time M.B.A. study plan is as follows.

### Admission

Applicants to the M.B.A. program must submit a complete application file, including the following:

- a completed Tippie School of Management application form and fee;
- official transcripts of all undergraduate and graduate course work, which must be submitted to the Office of Admissions by each institution attended;
- official Graduate Management Admission Test (GMAT) scores;
- the completed supplemental application form with essay responses, a résumé, and a cover letter; and
- the names of three people who can provide recommendations.

Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or
100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). In place of TOEFL, the program accepts International English Testing System (IELTS) scores.

For TOEFL registration information, contact the University of Iowa Office of Admissions.

The full-time M.B.A. program admits students only for fall entry. Application deadlines are as follows:

- International applicants: April 15
- U.S. citizens and permanent residents (priority deadline): April 15
- U.S. citizens and permanent residents: July 30

Applications received after April 15 are considered on a space-available basis.

**Accelerated Professional Track**

Highly qualified undergraduate students in the University of Iowa College of Liberal Arts and Sciences, the College of Engineering, or the Tippie College of Business may be admitted to the full-time M.B.A. program’s Accelerated Professional Track (APT). These students begin taking M.B.A. core courses as electives during their undergraduate programs; this permits them to earn a bachelor’s degree and an M.B.A. more quickly than they would if they pursued each degree separately. APT students must complete an internship in the program.

To enter the APT program, students must complete 90 s.h. of undergraduate work, have a g.p.a. of at least 3.50, have clearly defined career goals, and indicate their intent to pursue both degree programs on a full-time basis. Students also must have a professional background similar to that of students enrolled in the M.B.A. program.

**Joint M.B.A./Graduate and Professional Degrees**

Joint degree programs allow students to pursue two degrees simultaneously, earning both more quickly than they would if they pursued each degree separately. The Tippie School of Management collaborates with several other University of Iowa academic units to offer joint professional or graduate degrees: an M.B.A./J.D. with the College of Law; (p. 880) an M.B.A./M.D. with the Carver College of Medicine (p. 912); and an M.B.A./M.H.A. with the College of Public Health (p. 1051).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

**M.B.A. for Professionals and Managers**

The M.B.A. for Professionals and Managers (M.B.A.-PM) program requires 45 s.h. of graduate credit. The program is tailored for working professionals building on the synergies of working and concurrent learning. It prepares graduates to be effective leaders in the global marketplace. The curriculum is designed for students with varied backgrounds, undergraduate majors, and professional experience. Previous course work in business is not required.

Courses are offered each semester during evening hours or weekends in Cedar Rapids at the college’s Cedar Rapids Center; in Des Moines at the John and Mary Pappajohn Education Center (JMPEC); and in the Quad Cities at the Palmer College of Chiropractic; see Program Locations on the school’s web site. M.B.A.-PM students also may enroll in full-time M.B.A. courses in Iowa City when space is available.

The M.B.A.-PM program requirements include a business core of nine courses, which develops competency in general management skills and key functional business areas, and six business electives. The elective courses contribute to the development of an area of expertise and foster a deeper understanding of management and business practices; they are offered in marketing, finance, and management, with a smaller number offered in management information systems/operations management, accounting, and entrepreneurship. Students may take part in several Global Learning Opportunities in international locations in order to increase their understanding of the global business environment and its implications for business conduct.

Some students earn the degree in as few as two years, but they may have up to 10 years to complete it. Most earn the M.B.A. in three years, taking two courses each fall and each spring semester and one course during the summer. Course sequencing is flexible. A sample study plan follows.

**FIRST YEAR**

**Admission**

The M.B.A.-PM program admits students for summer, fall, or spring entry; applications are accepted throughout the year. Admission decisions are based on completed application materials, including quality of work experience, undergraduate grade-point average, GMAT score, and letters of reference. Applicants should have at least one and one-half years of postbaccalaureate professional work experience before admission.

Admission decisions are made before registration begins for completed applications received by the priority application deadline. Admitted applicants who have met the priority application deadline may request registration for classes on the first date of registration. The University must receive completed application materials by the following application deadlines.

- Priority deadline for summer session (May): March 1
- General deadline for summer session (May): April 15
- Priority deadline for fall semester (August): May 1
- General deadline for fall semester (August): July 15
The Executive M.B.A. requires 51 s.h. of graduate credit. The regular Executive M.B.A. program is held at the Pomerantz Center on campus in Iowa City, and the Executive Engineer Dual Master’s Degree program is conducted at the Tippie College of Business Cedar Rapids Center. See Program Locations on the school’s web site.

Course work for the Executive M.B.A. is presented over 21 months, typically beginning in mid-August with a five-day residency in Iowa City. The program continues with classes one day each week on alternating Fridays and Saturdays. A second five-day residency is held at the beginning of the second year. Students complete 16 core courses and an international business seminar (10-11 days during spring semester of the second year). Each entering class progresses through the program as a group.

Admission is limited to experienced managers and executives who want to broaden their management skills without interrupting their professional careers. Applicants should have at least 10 years of postgraduate managerial experience. Previous academic work in business is not required.

The Executive M.B.A. requires the following course work.

**International M.B.A. (Hong Kong)**

The International M.B.A. program in Hong Kong requires 45 s.h. of graduate credit. The program is designed for working professionals with at least three years of full-time work experience. Students enroll in classes sequentially. Most complete the program in 18-21 months. Each class begins with two weeks of online course work followed by two consecutive weekends of classes in Hong Kong and an additional two weeks of online course work. Faculty from Iowa travel to Hong Kong to teach the weekend classes. The program admits students year-round.

The International M.B.A. (Hong Kong) requires the following course work.

**International M.B.A. (Italy)**

The International M.B.A. program in Italy requires 47-53 s.h. of graduate credit. The 11-month program is held primarily at the Consortium Institute of Management and Business Analysis (CIMBA) campus in Asolo, Italy, but the final course is completed on the University of Iowa campus in Iowa City. The program focuses on personal leadership development and emphasizes strategic management, consulting, and international business. Students apply what they learn through consulting projects with local and international companies. In addition to the M.B.A., students earn certificates in Kepner-Tregoe problem solving and project management and a Six-Sigma Green Belt certificate in addition to the M.B.A. degree. The program’s faculty is drawn from The University of Iowa and from institutions across the United States and Europe.
The program admits students only for fall semester entry. Applicants must have at least two years of full-time work experience.

The International M.B.A. (Italy) requires the following courses:

60N:211 (MBA:8110) Marketing Management 3 s.h.
60N:212 (MBA:8120) Management in Organizations 3 s.h.
60J:262 (MGMT:9120) Leadership and Personal Development 3 s.h.
60N:213 (MBA:8160) Managerial Economics 3 s.h.
60N:215 (MBA:8140) Corporate Financial Reporting 3 s.h.
06A:235 (ACCT:9020) Strategic Cost Analysis 3 s.h.
60N:216 (MBA:8150) Business Analytics 3 s.h.
60K:217 (MSCI:9110) Advanced Analytics 3 s.h.
06T:220 (ENTR:9100) Entrepreneurship and Innovation 3 s.h.
60N:225 (MBA:8180) Managerial Finance 3 s.h.
60N:228 (MBA:8170) International Economic Environment of the Firm 2 s.h.
60N:229 (MBA:8190) Operations Management 3 s.h.
06K:292 (MSCI:9120) Supply Chain Management 3 s.h.
60N:240 (MBA:8300) Strategic Management and Policy 3 s.h.
Electives 6 - 12 s.h.

Courses

See the course lists for individual departments for descriptions of M.B.A. electives.

60N:000 (MBA:8400) M.B.A. Internship 0 s.h.
60N:199 (MBA:8020) M.B.A. Competitive Prep 1 s.h.
Professional development, career strategies for successful competition in the M.B.A. marketplace.

60N:200 (MBA:8000) Directed Readings-M.B.A. 1-3 s.h.
60N:201 (MBA:8100) Leadership, Ethics, and Professionalism 1-2 s.h.
Optimize to thrive in a competitive business landscape as an ethical business leader; LEAP identifies opportunities and obstacles relevant to career goals and designs a detailed action plan to achieve it; rigorous academy-specific activities provide context necessary to transition into higher levels of business; corporate speakers, round table discussions, group projects, individualized development; leverage experience and effectively market to employers, enhance leadership skills, and broaden business knowledge.

60N:202 (MBA:8420) M.B.A. Case Competition 1-3 s.h.
Students represent Tippie School of Management in a case competition; internal case work, presentation and case analysis training. Requirements: M.B.A. student standing.

60N:203 (MBA:8410) Application in Organizational Leadership 1 s.h.
Opportunity to develop leadership skills necessary for managing student organizations; class discussion, workshops, guest speakers; for M.B.A. organization treasurers and presidents.

60N:204 (MBA:8130) Corporate Communications 2 s.h.
Effective communication to become a successful business professional and leader; strengthen ability to speak and write confidently, competently, and effectively, regardless of venue; varied team and individual presentation coaching, applied exercises.

06N:205 (MBA:8010) M.B.A. IMPACT 0 s.h.
Introduction to the Tippie M.B.A. program and its culture; activities accentuate themes of involvement, motivation, professionalism, achievement, and challenge; week-long immersion in collaborative team-building experiences.

06N:211 (MBA:8110) Marketing Management 2-3 s.h.
Concepts, principles, models of marketing management; focus on strategic planning, management decision making, and implementation of marketing programs.

06N:212 (MBA:8120) Management in Organizations 2-3 s.h.
How to explain, predict, and influence behavior in organizations; decision making, leadership, communication, group skills in management positions; motivation, leadership, teams, organizational culture, organizational design, individual differences, organizational change.

06N:213 (MBA:8160) Managerial Economics 1-3 s.h.
Models of consumer and firm behavior with applications; market equilibrium and structure; pricing decisions.

06N:215 (MBA:8140) Corporate Financial Reporting 2-3 s.h.
Contemporary financial reporting practices in the United States; how alternative accounting treatments affect the usefulness of financial information in applied decision settings.

06N:216 (MBA:8150) Business Analytics 2-3 s.h.
Introduction to analytical techniques for making business decisions; utilizing Excel to apply descriptive and predictive analytical tools to solve practical business problems using real world data; dealing with uncertainty in decision making; formal probability concepts and statistical methods for describing variability (decision trees, random variables, hypothesis testing); application of techniques (linear regression, Monte Carlo simulation, linear optimization) to model, explain, and predict for operational, tactical, and strategic decisions.

06N:223 (MBA:8210) Global Business Strategy 3 s.h.
Strategic frameworks and skills critical for success in the global marketplace; content of an economic environment; cultural, ethical, and legal issues in the conduct of international business; how companies enter foreign markets and grow international subsidiaries, succeed in mergers and acquisitions, cooperate in joint ventures and strategic alliances. Prerequisites: 06N:212 (MBA:8120).

06N:225 (MBA:8180) Managerial Finance 2-3 s.h.
Time value of money, applications of present value techniques; stock and bond valuation, capital budgeting, cost of capital calculation, portfolio formation and efficient market analysis, financial statement analysis, pro forma analysis, hedging financial risks. Corequisites: 06N:215 (MBA:8140), if not taken as a prerequisite.

06N:228 (MBA:8170) International Economic Environment of the Firm 2-3 s.h.
Basic determinants of aggregate output, employment, wages, unemployment, consumption, investment, international trade flows, interest rates, exchange rates, prices and inflation in open economies; sources and nature of economic growth; effects of trade and foreign monetary, fiscal policies; effects of trade exchange rate policies. Prerequisites: 06N:213 (MBA:8160).
06N:229 (MBA:8190) Operations Management 2-3 s.h.
Planning and decision-making activities for managing an organization’s operations; trade-offs associated with operations management decisions; tools and techniques for helping operations managers implement decisions and reach goals; production and service delivery strategy, capacity planning, product and process design, total quality management, demand management, production and service planning, scheduling, materials control, emerging production and service technologies. Prerequisites: 06N:216 (MBA:8150).

06N:230 (MBA:8330) Seminar in Strategic Management I 1-3 s.h.
Introduction to strategic management; the role of marketing, operations, and finance in strategic planning; case studies.

06N:231 (MBA:8340) Seminar in Strategic Management II 1-3 s.h.
Strategic management integrating all aspects of business; computer simulation, lectures, case studies, readings.

06N:235 (MBA:8500) Seminar in International Business 0-6 s.h.
Issues and challenges facing organizations doing business in international markets; social, economic, political factors, business policies and customs in the global environment; may include travel, study abroad. Requirements: M.B.A. enrollment.

06N:240 (MBA:8300) Strategic Management and Policy 2-3 s.h.
Firm’s competitive strategy from a manager’s perspective; key strategic frameworks; integration of concepts learned throughout M.B.A. program, previous work experience. Prerequisites: 06N:211 (MBA:8110), 06N:215 (MBA:8140), 06N:225 (MBA:8180), and 06N:229 (MBA:8190).

06N:241 (MBA:8310) Business Integration 1-3 s.h.
Student teams run an operational business simulation, conduct organizational/industry analysis, assess market opportunities, define strategic direction, compete for company profitability and market share. Prerequisites: 06N:211 (MBA:8110), 06N:215 (MBA:8140), 06N:225 (MBA:8180), 06N:229 (MBA:8190), and 06N:240 (MBA:8300).

06N:244 (MBA:8309) Consulting Project Leadership 1 s.h.
Student Team Leads for the Business Solution Center engage in activities to support the launch of spring consulting projects; initial client interactions, project scope, project planning documents, project arrangement letters, and detailed work plans in consultation with their client and Business Solutions Center leadership; basics of leading a team of student consultants. Prerequisites: 06N:211 (MBA:8110), 06N:212 (MBA:8120), 06N:215 (MBA:8140), 06N:216 (MBA:8150), 06N:225 (MBA:8180), 06N:229 (MBA:8190), and 06N:240 (MBA:8300). Requirements: full-time M.B.A. student.

06N:245 (MBA:8200) Strategic Business Consulting 1-6 s.h.
Plan, schedule, and deliver strategic consulting services to commercial enterprises; project definition, preparation and presentation of deliverables, client relationship management.
Risk Management and Insurance

Director
Larry Hershberger

Associate director
Viana Rockel

Affiliated faculty
Philip D. Brooks (Finance), Scott R. Fisher (Finance), J. Tyler Leverty (TRISTAR Risk Management Fellow, Finance), Donna L. Pearcy (Finance)

Undergraduate certificate: risk management and insurance
Web site: http://tippie.uiowa.edu/vaughan

The Department of Finance and the Emmett J. Vaughan Institute of Risk Management and Insurance offer the Certificate in Risk Management and Insurance.

Undergraduate Program
• Certificate in Risk Management and Insurance

Certificate

The Certificate in Risk Management and Insurance requires 24 s.h. of credit. The program is designed to provide an understanding of the many aspects of risk management and insurance (RMI). It concentrates on value creation and asset protection, including pure insurance and risk management, as well as on corporate and financial risk management. It also addresses the financial and economic characteristics of potential exposures to loss that business organizations and individuals face, and the techniques available for hedging the risks and minimizing the costs associated with these exposures.

The certificate provides students in non-business majors (e.g., actuarial science, mathematics, or statistics) with a foundation for careers in financial and credit analysis, corporate risk management, risk management consulting, employee benefits management and insurance consulting, insurance brokerage, and underwriting. It also may be of value to students seeking professional designations, such as Chartered Life Underwriters (CLU) and Chartered Property and Casualty Underwriter (CPCU). Students typically find employment as financial analysts, bank compliance officers, stock exchange traders, capital and asset managers, insurance and accounting auditors, and personal bankers, as well as underwriters, claims adjusters, and insurance producers.

The certificate program is open to students earning an undergraduate degree at The University of Iowa who have reached third-year standing (completion of 60 s.h.) and have a cumulative and University of Iowa g.p.a. of at least 2.75. To be admitted to the certificate program, students must:

- complete 06F:100 (FIN:3000) Introductory Financial Management and 06F:102 (FIN:3400) Principles of Risk Management and Insurance with a g.p.a. of at least 2.75 and no grade lower than B-minus; students majoring in actuarial science are exempt from the requirement to complete 06F:100 (FIN:3000);
- have a cumulative and University of Iowa g.p.a. of at least 2.75. To be admitted to the certificate program, students have reached third-year standing (completion of 60 s.h.) and undergraduate degree at The University of Iowa who have
- completion of 06F:110 (FIN:3100) Financial Information Technology or 06K:170 (MSCI:3010) Advanced Computer Analysis; and
- have a grade of C or higher in all RMI courses they have taken.

Completion of the certificate is noted on the student’s transcript.

The Certificate in Risk Management requires the following courses. Most of these courses have prerequisites or other registration requirements; students must complete prerequisites and meet registration requirements before they may register for a course.

CORE COURSES AND COREQUISITES

Courses 06F:100 (FIN:3000) and 06F:102 (FIN:3400) are required for admission to the certificate program and are prerequisites for all other RMI courses. Students may take both courses during the same semester.

Courses for Noncertificate Students

B.B.A. students majoring in finance may concentrate in risk management and insurance (RMI), or they may supplement their corporate finance and investment courses with one or more RMI courses. Students enrolled in other Tippie College of Business majors and College of Liberal Arts and Sciences students earning majors in statistics (p. 539), actuarial science (p. 539), or mathematics program C (p. 403) may take one or more of the RMI courses to enhance their understanding of financial services and learn about employment opportunities in the industry.

Other University of Iowa students may enroll in RMI courses after early registration if space is available and if they have completed 06A:002 (ACCT:2200) Managerial Accounting, 06E:001 (ECON:1100) Principles of Microeconomics, 06E:002 (ECON:1200) Principles of Macroeconomics, 06F:100 (FIN:3000) Introductory Financial Management, and 06F:102 (FIN:3400) Principles of Risk Management and Insurance.

Students not admitted to the Tippie College of Business should meet with the associate director of the Emmett J. Vaughan Institute of Risk Management and Insurance for advising before they enroll in RMI courses.

Affiliated Courses

The Department of Finance offers six courses affiliated with the Emmett J. Vaughan Institute of Risk Management and Insurance that are included in the Certificate in Risk Management and Insurance curriculum. See Finance (p. 592) in the Catalog for course descriptions and prerequisites.

College of Dentistry

Dean
David C. Johnsen

Executive associate dean
Galen Schneider

Associate dean, finance and facilities
Scott Arneson

Associate dean, patient care
Michael Kanellis

Associate dean, research
Clark Stanford

Associate dean, student affairs
Catherine Solow

Professional degree: D.D.S.
Graduate degrees: M.S.; Ph.D.
Web site: http://www.dentistry.uiowa.edu

The College of Dentistry is an integral part of The University of Iowa and its health sciences campus. Its mission, which embraces the University’s academic values as well as the ethical responsibilities implicit in educating future members of a profession, rests on a foundation representing every aspect of collegiate activity: education of students as general practitioners and specialists; research into all aspects of oral and dental disease and the delivery of health care; and service to the community, the state, and the profession.

Faculty members, D.D.S. students, and dental specialty residents provide oral health care to patients at clinics in the Dental Science Building, the Center for Disabilities and Development, and dentistry clinics at University of Iowa Hospitals and Clinics and Iowa City Veterans Affairs Medical Center. Faculty, staff, and students participate in interdisciplinary research and training activities involving the University’s five health science colleges as well as other University colleges and departments.

Dentistry at The University of Iowa began in 1882 as a single department. In 1900 the University underwent general reorganization and the Dental Department became the College of Dentistry. Today the college is Iowa’s only provider of dental education and ranks as a leader in dental education nationwide.

The college and its educational programs are accredited by the Commission on Dental Accreditation of the American Dental Association, an independent tripartite commission authorized and recognized by the Commission on Post-Secondary Education.

Programs offered by the college cover the full spectrum of dentistry and closely integrated fields. They include the Doctor of Dental Surgery program (D.D.S.), which prepares general dentists; advanced education programs in all dental specialties, each of which may lead to certification in a dental specialty; several advanced education programs in other areas of dentistry, including the oral science program, which offers M.S. and Ph.D. degrees; post-D.D.S. residency programs in general dentistry and hospital-based dentistry; and a wide variety of continuing education programs for dental and allied professions.

Professional Program (D.D.S.)

The Doctor of Dental Surgery program prepares students to practice general dentistry. It requires a minimum of three years of preprofessional study and four years of study in the College of Dentistry. See Doctor of Dental Surgery (p. 625) for a description of the program’s curriculum and information about a joint bachelor’s degree/D.D.S., the dentistry licensure examination, student organizations, expenses, admission, financial support, and academic rules and procedures.

Graduate and Clinical Specialty Programs

Programs of study leading to a Master of Science in clinical specialty disciplines are offered by the Departments of Operative Dentistry (p. 632) and Orthodontics (p. 641). The Department of Preventive and Community Dentistry (p. 647) offers a program leading to an M.S. in dental public health. In addition, the Departments of Endodontics (p. 628) and Prosthodontics (p. 649) offer programs leading to a Master of Science and a Doctor of Philosophy in oral science, and the Departments of Oral Pathology, Radiology, and Medicine (p. 636) and Periodontics (p. 645) offer programs leading to an M.S. in oral science. Admission to these graduate programs requires satisfaction of all requirements for admission to the Graduate College; the Doctor of Dental Surgery degree or its equivalent, or a bachelor’s degree for dental hygienists applying to the Department of Preventive and Community Dentistry; and departmental approval. For graduate program descriptions, see the appropriate College of Dentistry department sections of the Catalog.

Several departments also offer postgraduate programs designed as preparation for clinical specialty practice (Endodontics (p. 628); Operative Dentistry (p. 632); Oral Pathology, Radiology, and Medicine (p. 636); Orthodontics (p. 641); Pediatric Dentistry (p. 643); Periodontics (p. 645); and Prosthodontics (p. 649)). Students who complete these programs satisfactorily are awarded a certificate. The Department of Oral and Maxillofacial Surgery (p. 634) offers a four-year residency program that culminates in a certificate.

For information about each graduate degree or certificate, see the College of Dentistry department sections of the Catalog.

Faculty

Iowa’s dental faculty is predominantly full-time. In addition, more than 100 part-time adjunct faculty members assist with clinical teaching in the D.D.S. and advanced residency programs. Approximately 88 percent of the college’s faculty members hold D.D.S. or D.M.D. degrees and 12 percent represent other disciplines. The vast majority of faculty dentists have advanced education past the D.D.S., generally with master’s degrees in specialty areas; about one-fifth hold a Ph.D.

The College of Dentistry is committed to the principle that diversity is essential to a strong educational environment—one that prepares new generations of dentists to provide high-quality care to patients from many backgrounds. The college’s full-time faculty reflects that commitment.
Facilities

The College of Dentistry is located in the Dental Science Building on the University of Iowa health sciences campus, in proximity to the Roy J. and Lucille A. Carver College of Medicine, College of Nursing, College of Pharmacy, College of Public Health, and University of Iowa Hospitals and Clinics. The Bowen Science Building and the Hardin Library for the Health Sciences also are nearby.

The south wing of the Dental Science Building is devoted to clinical teaching. There are 268 operatories in departmental clinics, student laboratories, clinical research space, and a cafeteria. The three clinical floors of the south wing are being remodeled in a sequenced four-year project that began in summer 2012. The north wing houses the simulation clinic and technique bench teaching laboratory, the electronic classroom, college administrative offices, educational media service, computer support services, the academic Department of Preventive and Community Dentistry, and the research laboratories and faculty offices of the Dows Institute for Dental Research.

A 33,000-square-foot addition that opened in fall 2011 features an ADA-compliant entrance, two floors of patient treatment areas, and one floor of space for students. The clinical spaces include 46 dental operatories in the Geriatric and Special Needs Clinic, the Endodontic Clinic, and the Center for Clinical Excellence. Student areas include a classroom that accommodates 80 people, small-group study rooms, a seminar room, a student lounge, lockers, and showers.

Dental Education and Patient Care

Patient care is integral to dental education. Students and faculty members deliver oral health care in clinics on the health sciences campus and at several off-campus sites, including nursing homes. More than 45,600 people receive oral health care yearly in the college’s clinics. Patients from throughout Iowa as well as from western Illinois and northern Missouri account for most of the 167,300 patient visits each year.

Interdisciplinary Centers

Dows Institute for Dental Research

Established in 1976, the Dows Institute for Dental Research occupies the fourth floor of the Dental Science Building’s north wing. Laboratories are equipped to support a wide variety of research projects reflecting the complex nature of modern health care needs. Research at the institute is coordinated by the College of Dentistry. Focus areas include oral soft tissue and oral cancer; cariology and microbiology; epidemiology, behavior, health policy, and outcomes; and biomaterials, bone, and tissue engineering. Research also is carried out at the Office of Clinical Research.

Although research is concentrated in these program areas, one of the unit’s strengths has been the consistent level of interaction and collaboration among individuals and programs across the college and the University.

Oral Craniofacial Clinical Research Center

For more than two decades, the Office of Clinical Research has offered outpatient research support for National Institutes of Health, Food and Drug Administration, and related federally supported research grants. The office’s Oral Craniofacial Clinical Research Center conducts protocol-based studies performed by faculty scientists and supported by oral health care industries. It also engages in translational research involving laboratory-to-clinical-research outcomes. The center is allied with the Carver College of Medicine’s General Clinical Research Center and the University’s Institute for Clinical and Translational Science.

Center for Oral and Maxillofacial Implants

Through integrated research, education, and clinical programs, the Center for Oral and Maxillofacial Implants facilitates the development of implants and their use as a therapeutic modality in dentistry. The center integrates basic and clinical research with technology transfer to the clinical setting, enhancing postdoctoral, postgraduate, and continuing education and expanding treatment options available to patients served by the college. The center also provides vital coordination of dental specialties that participate in this treatment modality.

Nondepartmental Courses

Most College of Dentistry courses are offered by the college’s departments and programs. They are listed and described in the corresponding General Catalog sections; see the links under “Index: Academic Programs” on this page. The college also offers the following nondepartmental courses.

112:100 (DENT:8000) Transfer Credits Accepted

112:118 (DENT:8118) Experiential Learning I

112:119 (DENT:8219) Experiential Learning II

112:120 (DENT:8100) First-Year Continuing Session

112:145 (DENT:8355) Introduction to Geriatric Dentistry

112:150 (DENT:8200) Second-Year Continuing Session

112:155 (DENT:8370) Introduction to Comprehensive Care/Experiential Learning III

Comprehensive dental diagnosis and treatment planning; small group discussion of students’ own patient cases; communication exercises with standardized patients.
112:167 (DENT:8371) Introduction to Quality Assurance
2 s.h.
Patient management, record writing skills, quality assurance concepts; students coordinate treatment, patient relations, issues of quality assurance for a group of patients; ethical, moral dilemmas in relation to dental practice.

112:168 (DENT:8368) Applied Dental Pharmacology
2 s.h.
Patients’ medications and their implications for dental treatment; clinical use of medications that dentists may prescribe; guidelines for dental prescribing.

112:170 (DENT:8300) Third-Year Continuing Session
arr.

112:180 (DENT:8400) Fourth-Year Lectures and Clinics
arr.

112:185 (DENT:8485) Clinical Admissions Emergency
1 s.h.
Clinical evaluation, diagnosis, and treatment of patients with dental emergencies; patient assessment and referral to appropriate department for treatment.

112:189 (DENT:8489) Advanced Topics in Quality Assurance
2 s.h.
Quality assurance from viewpoint of practicing dentist, dental educator, dental epidemiologist, court system; analysis of senior dental practice in relation to quality assurance criteria.

112:190 (DENT:8500) Dental Student Research Honors Program
arr.
Experience in conducting research. Requirements: D.D.S. enrollment and approval of mentor and program director.

112:199 (DENT:9000) Advanced Clinical Comprehensive Dentistry
0 s.h.
Clinical experience for professional improvement. Requirements: dental degree.
Doctor of Dental Surgery

**Professional degree:** D.D.S.

**Web site:** [http://www.dentistry.uiowa.edu](http://www.dentistry.uiowa.edu)

**Professional Program**

- Doctor of Dental Surgery

The Doctor of Dental Surgery program prepares students to practice general dentistry. The D.D.S. is a professional degree awarded by the College of Dentistry. Admission requirements include 90 s.h. of undergraduate credit, including specific required courses, completed at an accredited college; see "Admission" below. Students working toward a bachelor’s degree in the University of Iowa College of Liberal Arts and Sciences before being admitted to the College of Dentistry may be able to complete their bachelor’s degree during their first year in dentistry; see "Joint Bachelor’s Degree/D.D.S." below.

**Doctor of Dental Surgery**

The Doctor of Dental Surgery requires a minimum of three years of preprofessional study and four years of study in the College of Dentistry.

Course work during the first and second years in the College of Dentistry integrates the biomedical sciences with preclinical and clinical disciplines. The biomedical sciences include gross anatomy, biochemistry, general histology, microbiology, pathology, pharmacology, and physiology. Students also study topics specific to dentistry, such as principles of occlusion, anesthesia and pain control, operative dentistry, periodontics, prosthodontics, cariology, and preventive dentistry. During the latter part of the first year, students are introduced to their first clinical patient-treatment situation.

Second-year dental students continue their study of biomedical sciences, take preclinical courses, have additional patient treatment experiences in restorative and preventive dentistry, and are introduced to esthetic and implant dentistry.

Third-year dental students rotate through a series of clerkships that expose them to seven clinical disciplines: endodontics, operative dentistry, oral and maxillofacial surgery, oral pathology, pediatric dentistry, periodontics, prosthodontics, and radiology and medicine.

Fourth-year dental students deliver comprehensive dental care in conditions that closely approximate those in private dental practice. They also are exposed to varied community dentistry health programs throughout Iowa and other states that include hospitals, nursing homes, and the Special Care Clinic. They may choose to participate in the Colorado Migrant Worker Program, the Indian Health Service Program, or the Foreign Dental School Exchange Program. The community dentistry programs provide exposure to facets of dentistry usually not observable in an academic setting.

**Biomedical Sciences in the Dental Curriculum**

The following science courses are offered by University of Iowa departments outside the College of Dentistry and are a required part of the D.D.S. curriculum.

Dentistry nondepartmental courses are listed in the College of Dentistry (p. 622) section of the Catalog. Courses offered by the college’s departments are listed in each department’s General Catalog section.

**Joint Bachelor’s Degree/D.D.S.**

The College of Liberal Arts and Sciences (CLAS) allows its students to count 30 s.h. of elective credit earned in any other University of Iowa college toward graduation with a bachelor’s degree. Under this policy, CLAS students who enroll in the College of Dentistry before completing their bachelor’s degree may be able to complete their degree during their first year in dentistry. Students planning to take advantage of this plan must satisfy the CLAS residence requirement in order to enroll in the College of Dentistry. They also must fulfill all requirements for the bachelor’s degree, including the General Education Program (p. 276) requirements and the requirements for a major. Contact the College of Liberal Arts and Sciences for more information.

**Dentistry Licensure Examination**

The State of Iowa accepts clinical examination results from the Central Regional Dental Testing Service and from the Western Regional Examination Board. Examinations are administered at several testing sites located at dentistry schools in the United States. A separate license application is then filed with the individual state board of dentistry.

For licensure, all states also require the National Boards, conducted by the American Dental Association. Many states, including Iowa, also require a jurisprudence examination.

**Expenses**

The College of Dentistry maintains the Supply-Instrument Management System (SIMS), which provides students with instruments and supplies necessary throughout their dental training. The SIMS usage fee for the D.D.S. is payable in installments over the four-year program.

A fee for expendable laboratory supplies is charged each of the first two years. A $100 breakage fee also must be deposited; the deposit is refundable upon graduation or termination of enrollment.

**Student Organizations**

All dental students are members of the American Student Dental Association through its local chapter. The American Dental Education Association, the American Association of Dental Research (Student Research Group), the American Association of Women Dentists, the American Academy of Pediatric Dentistry Student Chapter, the American Society for Geriatric Dentistry, the Student National Dental
The national dental professional fraternities Delta Sigma Delta and Psi Omega have chapters at Iowa. Both fraternities provide academic and social activities for students and their spouses.

Admission

Applicants must submit a completed AADSAS (Associated American Dental Schools Application Service) application form to the American Dental Education Association (ADEA). The AADSAS application must be completed online at the American Dental Education Association web site (http://www.adea.org).

Applications are accepted beginning June 1 of the year before the year of entry. Completed applications must be on file at ADEA by October 1. Applicants should apply as early as possible. Notifications of acceptance are sent beginning December 1.

Prospective dental students are encouraged to embark on an educational program that leads to a standard bachelor’s degree. This ensures that students receive a well-rounded education.

Predental Studies

The basic academic requirement for admission to the College of Dentistry is completion of at least 90 s.h. of academic study at an accredited college. No more than 60 s.h. of credit is accepted from a junior college or two-year institution. The predental program of study should include the following.

- **English**: satisfactory accomplishment in English composition, rhetoric, and speech commensurate with the academic requirements for a bachelor’s degree at the college attended.
- **Physics**: one year (equivalent to 8 s.h.), of which one-fourth must be laboratory work.
- **Chemistry**: two years (equivalent to 16 s.h.), of which one year (equivalent to 8 s.h.) must be in organic chemistry; one-fourth of each year’s study must be laboratory work.
- **Biochemistry**: highly recommended.
- **Biological science**: one year (equivalent to 8 s.h.), which must include appropriate laboratory work; the requirement may be satisfied by a one-year course in principles of biology, with instruction in cell biology, metabolism, organismic biology, animal biology, genetics, development, ecology, and evolution. Preference is given to applicants who have completed more than 8 s.h. Courses in human anatomy and cell physiology are strongly recommended.
- **Gross anatomy**: highly recommended.
- **Electives**: sufficient course work in the social sciences, philosophy, psychology, history, foreign languages, business, and mathematics to provide a well-rounded educational background.

Grade-Point-Average Requirement

Applicants should have a cumulative g.p.a. of at least 3.25 on a 4.00 scale; a g.p.a. above 3.50 is preferred.

The admissions committee gives special consideration to the quality of applicants’ course work in the predental sciences, in addition to the cumulative grade-point average.

Interviews

Personal interviews are required of applicants for admission to the College of Dentistry. Applicants are contacted to arrange an interview, usually after the AADSAS application is received by the admissions office.

Required Dental Admission Test

All applicants must complete the Dental Admission Test (DAT) sponsored by the Council on Dental Education of the American Dental Association. A computerized DAT is available throughout the year at designated Prometric Centers.

Applicants should take the test by August 1, one year before entering dental school. Test application forms are available online (http://www.ada.org) and from the American Dental Association, 211 East Chicago Avenue, Chicago, IL 60611.

Deposit by Accepted Applicants

Applicants accepted before February 1 are required to submit a $500 deposit within 30 days after notification of admittance. Applicants admitted after February 1 must submit the deposit within two weeks after notification of admittance. This deposit is not refundable but is credited toward the first fee payment. Applicants who fail to make the deposit within the time specified forfeit their place in the entering class.

Additional Admission Considerations

Fulfillment of the specific requirements listed for admission does not ensure admission to the College of Dentistry. The admissions committee reviews applicants who meet the minimum requirements and selects those who appear best qualified for the study and practice of dentistry. The committee considers applicants’ academic averages, science averages, DAT scores, letters of recommendation, the interview, and other factors.

Applicants who met the admission requirements five or more years before they applied to the College of Dentistry are considered by the admissions committee only under exceptional circumstances.

Early Admission

The College of Dentistry’s Deferred Admit Program (DAP) allows academically motivated students who are residents of Iowa and are interested in a dental career to be admitted to the College of Dentistry as early as the end of their first year of undergraduate study. Students postpone matriculation to the College of Dentistry until they have earned the amount of credit required for their undergraduate degree. As undergraduates, they are engaged in a liberal arts and sciences curriculum that incorporates the dental prerequisite courses. Once selected for the program, students must maintain a specified level of academic achievement to assure matriculation to the College of Dentistry.

Financial Support

Financial assistance for dental students is based on need. Dental students who demonstrate need are eligible for
Health Professions Loans, Perkins Loans, and Stafford/Ford Loans. Students applying for loans must submit the Free Application for Federal Student Aid (FAFSA). Interest on many of these loans may be deferred while the student is in school, and the loans are repayable over an extended period of time after the course of study is completed.

Short-term and long-term loans are available through the financial aid coordinator at the College of Dentistry.

Tuition scholarships are awarded each year to qualified entering dental students. The awards provide financial support up to $15,000 per year for as many as four years, if the student maintains an appropriate level of performance.

Financial assistance (grants and loans) is available to disadvantaged students who qualify under The University of Iowa's Educational Opportunity Program and the Opportunity at Iowa Program.

Information on financial assistance for dental students is available from the University's Office of Student Financial Aid.

**Academic Rules and Procedures**

**Promotions, Graduation**

Student promotions and graduation are determined by the Collegiate Academic and Professional Performance Committee, which is made up of individuals appointed by the dean from the biomedical, preclinical, and clinical sciences and from other academic areas of the college. The performance committee may recommend to the executive associate dean that a student withdraw from the college or repeat specific courses when the student is deemed generally unprepared to be promoted or to enter the dental profession.

**Committee for Appeals**

When a student has been asked to withdraw from the college or wants special consideration of problems concerning promotion or graduation, he or she may appeal to the dean. All appeals are heard by an ad hoc committee appointed by the dean. The ad hoc committee investigates new information that has not been available previously or that has not been discussed as fully as the student feels it should have been. The committee determines whether this new information, or important new insights that may have been gained, could have influenced the Collegiate Academic and Professional Performance Committee’s decision. The recommendation of the appeals committee is submitted to the dean for final action.
Endodontics

Head
William T. Johnson

Associate professor
Anne E. Williamson

Clinical associate professor
Bruce C. Justman

Clinical assistant professor
Manuel R. Gomez

Professional certificate: endodontics
Graduate degrees: M.S. in oral science; Ph.D. in oral science
Web site: http://www.dentistry.uiowa.edu

D.D.S. Student Training

Course work and clinical experiences in endodontics are of vital importance in the overall education of D.D.S. students.

Preclinical endodontics, taught during the sophomore year, includes a didactic and a laboratory component. In clinical endodontics, taught during the junior year, students study both normal and pathological conditions of the dental pulp and periradicular pulp. Diagnosis of pulp and periradicular disease and various specialized aspects of endodontic treatment are emphasized. Students treat endodontic patients under direct supervision of faculty and staff.

Graduate and Clinical Specialty Programs

- Master of Science in oral science
- Doctor of Philosophy in oral science
- Certificate in Endodontics

Department of Endodontics graduate and clinical specialty programs are designed to provide qualified dentists with the scientific knowledge and clinical skills they will need to practice endodontics and/or pursue a career in dental education and research. The department's programs have similar clinical experiences but different didactic experiences. Each program satisfies training requirements for eligibility for certification by the American Board of Endodontics. Students who complete the programs are encouraged to seek board certification. Various activities throughout the courses of study prepare the candidates for the board examination process.

The goal of each program is to develop competent diagnosticians and clinicians. Students learn the scientific and clinical basis of endodontics; develop clinical skills; gain knowledge of and experience in the educational process in order to function confidently as dental educators; and develop skills in designing, conducting, reporting, and publishing the results of original research. Students in the M.S. and Ph.D. programs also gain in-depth knowledge in a scientific training discipline as preparation for an academic/research career.

Other graduate programs are available to endodontics students, such as master's degrees in other disciplines, or a certificate in combination with a Ph.D. in a basic science area. Such programs are available by special arrangement, depending on the candidate's experience and goals. Consult the Department of Endodontics for more information.

Master of Science and Certificate

The Master of Science program in oral science requires a minimum of 30 s.h. of graduate credit, earned over 36 months. An original research project and thesis are required. Students follow a plan of study outlined by the Department of Endodontics in compliance with basic Graduate College regulations for graduate programs in dentistry. Following successful completion of the program requirements, students are granted an M.S. and the Certificate in Endodontics.

The Certificate in Endodontics requires a minimum of 24 months of full-time formal training. The program has the same clinical but fewer didactic course requirements than the combined M.S./Certificate program, and it requires no formal thesis. Students are expected to complete an original research project in the area of endodontics and to write a scientific paper for submission to a refereed journal.

Students in the graduate and certificate programs must maintain a g.p.a. of at least 3.00 to receive the certificate and/or degree. Students who fall below this average are allowed one semester to raise their g.p.a. to at least 3.00. The circumstances of the grade-point average deficiency receive careful consideration.

Once students are enrolled in one of the department's graduate degree programs or the certificate program, they are not permitted to involve themselves in private dental practice enterprises outside the college. Failure to adhere to this policy may result in dismissal from the program.

Whenever possible, students should complete the graduate and certificate programs without interruption. Students who demonstrate a need to discontinue the program temporarily should limit their time away to a maximum of one calendar year. Students must have permission from the endodontic graduate program director in order to interrupt their study.

Doctor of Philosophy

The Doctor of Philosophy program in oral science requires a minimum of 72 s.h. of graduate credit, including advanced course work and original research that culminates in the successful defense of a dissertation. Students must pass a comprehensive examination, prepare and gain approval of a research prospectus, and complete and successfully defend a dissertation that describes the results of their research. Completion of the program usually requires at least four years of full-time study. Contact the Department of Endodontics for more information about the Ph.D. program.

Admission

Applicants to the M.S. and certificate programs must be graduates of (or be graduating from) an accredited college of dentistry or a foreign equivalent. M.S. and Ph.D.
applicants must meet the admission requirements of the Graduate College. A cumulative g.p.a. of at least 2.50 or equivalent is necessary for consideration for admission to any of the graduate programs.

All advanced programs begin on or before July 1. Applications should be submitted no later than August 15 of the year preceding the anticipated date of enrollment. Finalists for each program are asked for a personal interview in September or early October. Final decisions are made in November.

Application information for the M.S. and Ph.D. programs in oral science and the Certificate in Endodontics is available at Iowa Graduate Admissions—College of Dentistry. Applications for all programs must include the completed application form, official transcripts from all undergraduate and graduate institutions attended, three letters of recommendation, National Board Examination Scores (at least Part I, and Part II if available), an updated curriculum vitae, a personal statement, and a recent photograph.

Applicants to the M.S. program are not required to take the Graduate Record Examination. International applicants whose first language is not English must present a satisfactory score on the Test of English as a Foreign Language (TOEFL).

Financial Support

Applicants to the M.S. and certificate programs must be able to support themselves financially until they complete the program. Prospective students should plan to pay living expenses, tuition, and costs for books, specialized equipment (e.g., surgical operating microscope, notebook computer, and ultrasonic system), instrument usage, and thesis expenses. Stipends are determined on a yearly basis and depend on availability of funding.

Courses

For D.D.S. Students

083:140 (ENDO:8240) Endodontics Preclinical Didactic
Basic principles, concepts, technical procedures for treatment of pulpal problems.

083:141 (ENDO:8241) Endodontics Preclinical Laboratory
Basic technical procedures for treatment of pulpal problems.

Clinical experience in diagnosis and treatment of routine pulpal and periradicular pathology; emergency diagnosis; treatment of patients.

083:165 (ENDO:8365) Clinical Endodontic Seminar 1 s.h.
Tooth pain, anesthesia, pulpal and periradicular reactions, endodontic radiologic interpretation, trauma diagnosis and treatment, surgical endodontics, endodontic implants, bleaching, retreatment, apexification/apexigenesis.

For Graduate and Certificate Students

Courses offered by the graduate programs in oral science are listed in the Oral Science (p. 639) section of the Catalog.
Family Dentistry

Web site: http://www.dentistry.uiowa.edu

The Department of Family Dentistry reinforces and refines the comprehensive approach to managing patients’ oral health care needs.

D.D.S. Student Training

The senior year of the D.D.S. program integrates basic science knowledge, clinical skills, and dental laboratory experiences acquired during the first three years of dental school into a systematic approach to providing patient care.

Students who complete their education in Family Dentistry should:

• conduct themselves in a professional and ethical manner;
• understand the principles of comprehensive dental treatment planning;
• know the medical, ethical, and legal issues involved in patient care;
• be able to recognize the need for specialty consultation;
• be competent in coordinating and sequencing patient treatments;
• be effective members of the dental team;
• be prepared to enter general practice;
• be educated and trained for licensure examination; and
• appreciate the importance and value of lifelong learning.

Students spend five days a week in a clinical setting, where they gain experience in total patient management and care. Their didactic course work builds on their previous education. All areas of clinical and didactic instruction, patient awareness, and sensitivity to patients’ needs are stressed.

The department’s practice management curriculum prepares students to evaluate practice locations and manage the business aspects of a dental practice.

Courses

114:184 (FAMD:8484) Dental Practice Management 2 s.h.
Principles of dental practice management; delivery of comprehensive dental treatment in a simulated group-practice clinical setting, with chairside dental assistants.

114:187 (FAMD:8487) Clinical Experiences-Comprehensive Care arr.
Clinical experiences in diagnosis, treatment planning, and delivery of integrated, comprehensive dental care.

114:188 (FAMD:8488) Clinical Competencies-Comprehensive Care arr.
Refinement of clinical skills, judgment, and critical self-evaluation in the delivery of integrated, comprehensive dental care.

114:194 (FAMD:8494) Topics in Family Dentistry 3 s.h.
Current techniques, findings; applications for general practitioner and graduate specialty programs.

114:195 (FAMD:8495) Treatment Planning and Sequencing 2 s.h.
Documentation of diagnostic procedures used in developing a treatment plan and sequence for selected clinical patients; student presentations.
Hospital General Dentistry

**Head**
Kirk L. Fridrich

**Division directors**
Kirk L. Fridrich (Oral and Maxillofacial Surgery), Robert L. Schneider (Prosthodontics)

**Assistant professors**
Lance P. Forbes, Robert L. Schneider

**Web site:** http://www.uihealthcare.com/depts/hospitaldentistry/index.html

The College of Dentistry operates a hospital dentistry clinical service at University of Iowa Hospitals and Clinics. The service includes divisions of general dentistry, maxillofacial prosthodontics, and oral and maxillofacial surgery, and it interacts with the college’s specialties of orthodontics, periodontics, pediatric dentistry, endodontics, diagnosis, oral pathology, and prosthodontics.

The Hospital Family Dentistry Program offers a one-year general practice residency.

**Residency Program**

The general practice residency program prepares dentists for a broader scope of private practice in general dentistry. The program combines clinical and didactic training on an individual basis and meets fundamental requirements of the Commission on Dental Accreditation of the American Dental Association (ADA).

The residency covers one year of hospital-based training. Through postdoctoral clinical, didactic, and hospital experience, residents prepare to meet the oral health needs of a wide range of ambulatory and nonambulatory patients. Rotations and patient experiences are divided between University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center.

Residency training includes use of hospital resources, management of ambulatory patients, inpatients, same-day surgery patients, and emergency medical and dental patients. Residents participate in consultations with other hospital services and are assigned to appropriate hospital services to fulfill the objectives of the training program. They are appointed to the hospital’s house staff and have the same privileges and responsibilities as residents in other professional education programs.

All applicants, whether they are U.S. citizens or citizens of other countries, must be graduates of a dental school accredited by the American Dental Association. They also must be eligible for licensure to practice dentistry in the United States. Application deadline is October 1 for the following July 1. See General Practice Residency Program for admission and application requirements.
Operative Dentistry

Head

Professional certificate: operative dentistry
Graduate degree: M.S. in operative dentistry
Web site: http://www.dentistry.uiowa.edu/

D.D.S. Student Training

Course work and clinical experiences in operative dentistry are fundamental to the overall education of D.D.S. students. The operative dentistry curriculum is designed so that didactic material relates closely to laboratory and clinical experiences. The program prepares students to proceed independently in operative dentistry during their fourth year of training.

Graduate and Clinical Specialty Programs

• Master of Science in operative dentistry
• Certificate in Operative Dentistry

Graduate and clinical specialty programs in operative dentistry provide advanced training designed to prepare dentists for teaching, research, and practice. Since the American Dental Association does not recognize operative dentistry as a specialty area, graduate students have the opportunity to take courses that particularly interest them.

Master of Science and Certificate

The Master of Science program in operative dentistry requires 52 s.h. of graduate-level credit, preparation of an acceptable thesis based on original research, and a formal thesis defense. Students complete the certificate program as they work toward the Master of Science and are awarded the Certificate in Operative Dentistry when they receive the M.S. degree.

Students must provide their own financial support for the graduate program, including research and thesis expenses.

Applicants must be graduates of recognized schools of dentistry and must meet the admission requirements of the Graduate College. The department may request an interview with an applicant.

Courses

For D.D.S. Students

082:120 (OPER:8120) Dental Anatomy 3 s.h.
Basic dental terminology and nomenclature, human tooth morphology, creation of tooth crowns with wax.

082:122 (OPER:8122) Operative Dentistry I 6 s.h.
Principles, design of cavity preparations; placement of restorative materials; clinical simulation on dental mannequins.

082:140 (OPER:8240) Operative Dentistry II 1 s.h.
Principles, design of cavity preparations, restoration of teeth, patient management, pain control.

082:141 (OPER:8241) Operative Dentistry II Clinic 0,3 s.h.
Procedures performed on operative clinic patients; based on biological principles for preparation of cavities, restoration with appropriate materials.

082:142 (OPER:8242) Esthetic Dentistry 1 s.h.
Principles of esthetic dentistry; tooth bleaching, tooth recontouring, esthetic buildups with composite resin; exercises on mannequins in the simulation clinic.

082:170 (OPER:8370) Operative Dentistry III 4 s.h.
Combination of didactic and clinical aspects of operative dentistry; review of clinical problems, restorative dental materials, and treatment methods; patient treatment; amalgam, composite resin, gold; emphasis on physiological and esthetic importance of restorative treatment.

For Graduate and Certificate Students

Discipline Studies

082:224 (OPER:6224) Graduate Restorative Materials 2 s.h.
Dental materials science: mechanical, physical, and chemical properties of restorative materials; selection and manipulation. Same as 084:224 (PROS:6224).

082:225 (OPER:5125) Operative Dentistry Seminar I 1 s.h.
Basic concepts of cavity preparation, material placement.

082:226 (OPER:5126) Operative Dentistry Seminar II 1 s.h.
Direct resin systems, bonding technology; their use in dental esthetic treatment.

082:227 (OPER:6227) Operative Dentistry Seminar III 1 s.h.
Use of indirect techniques in bonded esthetic restorations.
082:228 (OPER:6228) Operative Dentistry Seminar IV 1 s.h.
Principles for health professions educators.

Research Program

082:230 (OPER:5130) Operative Dentistry Research I 3 s.h.
Thesis topic selection, committee selection, literature review.

082:231 (OPER:5131) Operative Dentistry Research II 2 s.h.
Thesis protocol, research.

082:232 (OPER:6232) Operative Dentistry Research III 3 s.h.
Thesis research, data gathering, writing.

082:233 (OPER:6233) Operative Dentistry Research IV 3 s.h.
Thesis completion, defense.

Advanced techniques.

Clinical Studies

082:240 (OPER:5140) Operative Dentistry Advanced Clinic I arr.
Materials, techniques; restoration procedures on a mannequin.

082:241 (OPER:5141) Operative Dentistry Advanced Clinic II arr.
Patient treatment in operative clinic; basic operative procedures.

Patient treatment in operative clinic; direct-bonded esthetic restorative procedures.

082:243 (OPER:6243) Operative Dentistry Advanced Clinic IV arr.
Patient treatment in operative clinic; advanced esthetic restorative procedures.

082:244 (OPER:6245) Operative Dentistry Advanced Clinic V arr.
Patient treatment in operative clinic; advanced esthetic restorative procedures.

082:245 (OPER:5245) Clinical Demonstrating arr.
Teaching undergraduate dental students in laboratory, clinic.

082:300 (OPER:9300) Operative Dentistry Certificate Program 0 s.h.
Advanced dental clinical, didactic education; nondegree program toward eligibility for board certification in operative dentistry.

Professional certificate: oral and maxillofacial surgery

The Department of Oral and Maxillofacial Surgery combines clinical and didactic training to fit the individual interests, abilities, and development of students. Its training program for D.D.S. students is based in the College of Dentistry, with some clinical assignments in the oral and maxillofacial surgery division at University of Iowa Hospitals and Clinics. Its certificate program is based primarily in the residency training program at University of Iowa Hospitals and Clinics.

D.D.S. Student Training

The professional curriculum in oral and maxillofacial surgery is designed to develop a foundation of professional knowledge, coupled with surgical skills, that will enable D.D.S. students to diagnose and manage surgical problems related to general dentistry practice. The program emphasizes high ethical standards and development of good surgical concepts and judgment. The clinical portion of the curriculum allows students to develop surgical skills and apply the theoretical knowledge acquired in didactic courses. Theory and application of anesthesia-analgesia, intravenous sedation, and nitrous oxide analgesia techniques are presented through didactic and clinical experiences.

Clinical Specialty Program

• Certificate in Oral and Maxillofacial Surgery

Certificate

The department offers a four-year residency program that culminates in the Certificate in Oral and Maxillofacial Surgery. The program combines clinical and didactic training to prepare dentists for specialty practice. Every effort is made to adapt the program to the individual interests, abilities, and development of students, but it is essential that all students meet certain fundamental requirements.

Recommendations of the American Dental Association, the Committee on Graduate Training of the American Association of Oral and Maxillofacial Surgeons, and the American Board of Oral and Maxillofacial Surgery have been considered carefully in planning the structure and scope of training.

The residency period covers four years of hospital training, providing an orientation to hospital procedures, integration of basic and clinical sciences, acquisition of surgery principles, and familiarization with varied aspects of health services.

Competence in clinical oral and maxillofacial surgery requires knowledge of the basic medical sciences related to the specialty. So in addition to hospital and clinical training, residents take advanced course work in subjects such as applied pharmacology, surgical anatomy, pathology, physiology, and microbiology. They also review closely related disciplines such as roentgenology, anesthesiology, physical diagnosis, and laboratory procedures.

The assumption of increased responsibility and the opportunity for clinical and operating room experience are important aspects of residency training.

Residents gain clinical training in anesthesiology through an assigned rotation in the Department of Anesthesiology (Carver College of Medicine). Previous advanced training in physical diagnosis, physiology, pharmacology, and pathology take on greater clinical significance, and increased responsibility in the operating room as first assistant and surgeon further develops surgical judgment and skills.

Development and implementation of a research project under staff supervision enhance the value of the residency training.

Senior residents may be given responsibility for major oral and maxillofacial surgical cases during rotations at University of Iowa Hospitals and Clinics and at the Iowa City Veterans Affairs Medical Center. Each fourth-year resident is assigned to a rotation as a clinical and didactic coordinator and assumes responsibility to qualify for examination by the American Board of Oral and Maxillofacial Surgery.

Admission

Students may begin the four-year certificate program only on July 1. Applicants are selected through a post-D.D.S. dental matching program sponsored by the American Association of Oral and Maxillofacial Surgeons. The application deadline for the match in oral and maxillofacial surgery is September 1 for admission the following July. Appointments are made after the match results are revealed and the staff elects to take official action.
Appointments are offered on or before February 1 for the following July.

Applicants must have graduated from an accredited college of dentistry, should be in the upper one-fourth of their graduating class, and must be eligible to be licensed to practice dentistry in the United States.

Facilities

The University of Iowa Health Sciences Campus has outstanding basic and clinical science departments that stimulate and support scholarly research and superior clinical practice. Appropriate environments for residency training in oral and maxillofacial surgery are provided by University of Iowa Hospitals and Clinics, the College of Dentistry, the Roy J. and Lucille A. Carver College of Medicine, and the Iowa City Veterans Affairs Medical Center.

Courses

For D.D.S. Students

087:115 (OMFS:8115) Anesthesia and Pain Control I
Principles, techniques of complete medical history, head and neck examination, cardiovascular and respiratory examination; neuroanatomical, psychophysiological aspects of pain; pharmacologic action and techniques for using local anesthetics.

087:130 (OMFS:8230) Basic Oral and Maxillofacial Surgery
Principles; indications, contraindications for extractions; evaluation of patient's related medical history; techniques of extraction, minor oral surgery procedures.

087:145 (OMFS:8245) Anesthesia and Pain Control II
Theory, application, instrumentation of nitrous oxide sedation; emphasis on cardiovascular, respiratory physiology; evaluation of patients, practical techniques for nitrous oxide sedation.

087:155 (OMFS:8355) Advanced Oral and Maxillofacial Surgery
History, examination, diagnosis, treatment of diseases and traumatic injuries of oral cavity.

087:160 (OMFS:8360) Clinical Oral and Maxillofacial Surgery
Clinical experience at the College of Dentistry, University of Iowa Hospitals and Clinics, Veterans Affairs Iowa City Health Care System.

For Graduate and Certificate Students

087:208 (OMFS:5208) Pain and Anxiety Control
Nitrous oxide; intravenous, oral, intramuscular anxiety and pain control; pharmacology of agents; complications, their management.
Oral Pathology, Radiology, and Medicine

Head
Steven D. Vincent

Professors
Michael W. Finkelstein, Axel Ruprecht, Christopher A. Squier, Steven D. Vincent, Philip W. Wertz

Professors emeriti
Daniel L. Hall, Harold L. Hammond

Adjunct professors
Eva Dahl, Thomas P. Williams

Clinical professor
John W. Hellstein

Associate professor
Karen A. Baker

Clinical associate professors
Ronald D. Elvers, Cindy L. Marek, Carrie McKnight

Assistant professor emeritus
George C. Kienzie

Adjunct assistant professors
Joanna L. Clancy, Carolyn P. Larsen, John A. Maxwell, Daniel S. Sarasin

Clinical assistant professors
Veeratrishul Allareddy, Ruth D. Spieker, Sherry R. Timmons

Professional certificates: oral and maxillofacial pathology; oral and maxillofacial radiology

Graduate degree: M.S. in oral science

Web site: http://www.dentistry.uiowa.edu

D.D.S. Student Training

The Department of Oral Pathology, Radiology, and Medicine teaches D.D.S. and other health care students about diseases that manifest in and around the oral and maxillofacial region. Students learn about the clinical, radiographic, laboratory, histopathologic, and therapeutic features of these diseases and about their etiology and natural history. They also study identification of systemic diseases through physical evaluation of patients.

Graduate and Clinical Specialty Programs

• Master of Science in oral science
• Certificate in Oral and Maxillofacial Pathology
• Certificate in Oral and Maxillofacial Radiology

Oral science involves the study of structure, function, and diseases of the oral and maxillofacial region. Study methods include examination of related histories, evaluation of clinical signs and symptoms, and use of biochemical, microscopic, and radiologic procedures to establish a diagnosis and plan for therapeutic management.

The department’s programs are diverse and flexible, allowing students to obtain advanced clinical, didactic, and research-related education while pursuing a Master of Science and certificate.

Master of Science and Certificates

The Master of Science program in oral science requires a minimum of 30 s.h. of graduate credit. Students choose one of two tracks: oral and maxillofacial pathology or oral and maxillofacial radiology.

Students may choose to pursue a joint program, earning a Master of Science degree and a certificate in their M.S. track area (Certificate in Oral and Maxillofacial Pathology or Certificate in Oral and Maxillofacial Radiology). Each joint program combines the minimum requirements of the M.S. and the certificate; completion time usually is 36 to 48 months. The educational requirements of each certificate program meet the requirements for preparation of dental specialists set by the Commission on Dental Accreditation of the American Dental Association, the American Board of Oral and Maxillofacial Pathology, or the American Board of Oral and Maxillofacial Radiology.

All graduate students in oral science pursue a comprehensive study of basic biologic and health sciences in preparation for teaching and research. They must complete the courses listed below, including the core courses and the basic science and departmental courses listed for their M.S. track. They also must prepare and submit a thesis based on the results of research conducted during their course of study.

Admission

Applicants must have successfully completed an accredited program leading to the D.D.S. or D.M.D., or a foreign equivalent, and must meet the admission requirements of the Graduate College. They must have a cumulative g.p.a. of at least 3.00 (or foreign equivalent) to be considered for admission.

International applicants whose first language is not English must present a satisfactory score on the Test of English as a Foreign Language (TOEFL).

The department’s faculty makes final decisions on acceptance of applicants who meet the requirements for admission. A personal interview is required.

Facilities

Facilities reserved for the Department of Oral Pathology, Radiology, and Medicine include a radiology special procedures area; an interpretation room; a surgical oral pathology laboratory; a clinical pathology laboratory with areas for histopathology; and a seminar room for small groups of graduate and undergraduate students.

In addition, the College of Dentistry has joint-use research laboratories that are well equipped and staffed for conducting research involving histology, histochemistry, materials technology, radiobiology, ultrastructure, and electron probe analysis and quantification.

Courses

For D.D.S. Students

086:120 (OPRM:8120) Fundamentals of Oral Radiology
Methods of clinical, radiographic examination, record keeping; correlation of basic, clinical sciences. 1 s.h.

086:135 (OPRM:8235) Oral Pathology
Diseases involving orofacial organs. 4 s.h.

086:145 (OPRM:8245) Introduction to Clinical Oral Radiology
Principles, techniques of diagnosis, radiology, clinical pathology in clinical practice. 1 s.h.

086:155 (OPRM:8355) Systemic Disease Manifestations
Clinical medicine for dental students; basic information for patient evaluation. 1 s.h.

086:160 (OPRM:8360) Clinical Oral Diagnosis
Diagnosis of orofacial diseases by clinical, laboratory, radiographic and treatment planning methods; clinical case analysis. 1 s.h.

086:161 (OPRM:8361) Clinical Oral Radiology
Making and processing intraoral, extraoral radiographs; principles of radiographic interpretation. arr.

086:165 (OPRM:8365) Clinical Oral Pathology
Oral and maxillofacial diseases: integration of the clinical, historical, radiographic features; therapeutic management. 1 s.h.

For Graduate and Certificate Students

Courses offered by the graduate programs in oral science are listed in the Oral Science (p. 639) section of the Catalog.

086:200 (OPRM:5200) Stomatology Literature Review
Current literature in oral and maxillofacial pathology and radiology; presentation of graduate student research; development of lectures or seminars for D.D.S. or graduate students, or continuing education for peers and practicing dentists.

086:225 (OPRM:5225) Manifestations of Oral and Paraoral Disease
Clinical experience in diagnosing, managing patients. arr.

086:226 (OPRM:5226) Physical, Laboratory, and Historical Features of Disease
Head and neck diseases, abnormalities. arr.

086:227 (OPRM:5227) Surgical Oral Pathology
Experience in day-to-day operations of surgical oral pathology laboratory; advanced training in histopathologic diagnosis of oral and maxillofacial diseases. Corequisites: 086:240 (OPRM:5240), if not taken as a prerequisite. 1 s.h.

086:228 (OPRM:5228) Introduction to Surgical Oral Pathology
Day-to-day operations of surgical oral pathology laboratory; histopathologic diagnosis of oral and maxillofacial diseases. 1 s.h.

086:230 (OPRM:5230) Research in Oral Pathology, Radiology, and Medicine
Includes thesis preparation. arr.

086:238 (OPRM:5238) Introduction to Histopathology
Case studies; histopathologic diagnosis of diseases that affect oral and maxillofacial region. 1 s.h.

086:240 (OPRM:5240) Histopathology
Case studies; advanced training in histopathologic diagnosis of diseases that affect oral and maxillofacial region. Corequisites: 089:202 (ORDN:5202), if not taken as a prerequisite. 1 s.h.

086:241 (OPRM:5241) Hospital Oral Pathology, Radiology, and Medicine
Management of patient consultations, diagnosis, therapy at a hospital-based dental service. arr.

086:242 (OPRM:5242) Clinical Oral and Maxillofacial Radiology
Radiologic manifestations of diseases; emphasis on craniofacial complex. arr.

086:243 (OPRM:5243) Practical Oral and Maxillofacial Radiology
Clinic participation; supervision of dental and dental hygiene students, review of their cases; participation in clinical radiology conferences, laboratory exercises. arr.

086:244 (OPRM:5244) Technical Oral and Maxillofacial Radiology
Experience with technical maintenance of darkroom, clinical equipment; troubleshooting under supervision of radiology staff.
Hospital-based rotation in diagnostic radiology with participation in interpretation sessions; CT, MRI, nuclear medicine, ultrasound.

Hospital-based rotation in diagnostic radiology; exposure to interpretive sessions on ultrasound, CT, MRI, nuclear medicine.

086:256 (OPRM:5256) Advanced Oral Pathology  1 s.h.
Diseases involving orofacial organs; emphasis on bibliographic research, biodynamic analysis of pathologic processes, diagnostic interpretation; content adapted to student interests. Requirements: graduate standing in oral pathology.

086:300 (OPRM:9300) Oral Pathology Certificate Program  0 s.h.
Advanced dental clinical and didactic education; nondegree program toward eligibility for board certification in oral and maxillofacial pathology.

086:301 (OPRM:9301) Oral Radiology Certificate Program  0 s.h.
Advanced dental clinical, didactic education; nondegree program toward eligibility for board certification in oral and maxillofacial radiology.
Oral Science

Director
Christopher Squier (Oral Pathology, Radiology, and Medicine/International Programs)

Graduate degrees: M.S. in oral science; Ph.D. in oral science
Web site: http://www.dentistry.uiowa.edu

Graduate Programs

• Master of Science in oral science
• Doctor of Philosophy in oral science

Graduate programs in oral science require that students complete courses from a core curriculum and conduct independent research leading to a thesis. The programs prepare graduates for careers in teaching and research.

The Departments of Endodontics (p. 628) and Prosthodontics (p. 649) offer programs leading to an M.S. and a Ph.D. in oral science, and the Departments of Oral Pathology, Radiology, and Medicine (p. 636) and Periodontics (p. 645) offer programs leading to an M.S. degree in oral science. See their General Catalog sections for information about the individual programs.

Master of Science

The Master of Science program in oral science requires a minimum of 30 s.h. of graduate credit, including 21 s.h. of course work, 9 s.h. of independent research leading to a thesis, and a final examination. M.S. students must spend at least two years in full-time residence.

Students pursuing the M.S. normally must be enrolled in a clinical specialty training program offered by a College of Dentistry department. Students should complete the M.S. and the clinical specialty training program in three years of study.

Doctor of Philosophy

The Doctor of Philosophy program in oral science requires a minimum of 72 s.h. of graduate credit, including advanced course work and original research that culminates in the successful defense of a dissertation. Students must pass a comprehensive examination, prepare and gain approval of a research project, and complete and successfully defend a dissertation that describes the results of their research. Completion of the program usually requires at least four years of full-time study.

Admission

Applicants to the M.S. and Ph.D. programs must meet the admission requirements of the Graduate College. Applicants whose first language is not English must score at least 550 (paper-based) or at least 79 (Internet-based) on the Test of English as a Foreign Language (TOEFL); they also may be asked to take the Test of Spoken English.

Programs normally begin July 1 each year.

Applicants to the Ph.D. program are asked to submit a statement describing past research experience and current research interests, and stating how completion of the Ph.D. program fits their career goals.

A personal interview may be requested for either program.

Courses

151:200 (ORSC:5200) Seminars in Dental Research 1 s.h.
151:210 (ORSC:5210) Dental Sciences Research Methodology 2 s.h.
Practical, experimental procedures in dental research; literature and design; writing of research protocols. Offered summer session.

151:212 (ORSC:5212) Statistical Methods for Dental Research 3 s.h.
Descriptive methods, elementary probability, distributions, populations and samples, methods for analyzing percentage data and paired and unpaired measurement data, regression, correlation, and analysis of variance.

151:215 (ORSC:5215) Research Design in Dentistry 2 s.h.
Types of studies used in dentistry; design validity; sampling methodologies; major descriptive and experimental designs used in dental research; application of statistical tests to these designs. Offered spring semester.

151:220 (ORSC:5220) Pathophysiology of Skin and Oral Mucosa 2 s.h.
Biology of skin, oral mucosa; changes in behavior of the tissues in varied physiological, pathological conditions. Offered spring semesters of even years. Prerequisites: 151:210 (ORSC:5210).

151:240 (ORSC:5240) Pathophysiology of the Pulp-Dentin Complex 2 s.h.
Biology of tissue; emphasis on pathological changes. Offered spring semesters of even years. Prerequisites: 151:210 (ORSC:5210).

151:250 (ORSC:5250) Current Concepts of Cariology 2 s.h.
Etiology of dental caries; pathogenesis, development of preventive measures. Offered spring semesters of odd years. Prerequisites: 151:210 (ORSC:5210).

151:260 (ORSC:5260) Bone and Tooth Support Structure and Implants 2 s.h.
Biology of bone and periodontal structures; biologic basis for therapeutic use of dental implants. Offered fall semesters of odd years.

151:275 (ORSC:5275) Oral Microbiology and Immunology 2 s.h.
Principles of microbiology and immunology, aspects of microbial community development in the oral cavity, basic concepts of host/parasite interactions related to development of oral diseases; biological, immunological, and clinical manifestations induced by major oral pathogens. Offered spring semesters of odd years. Requirements: microbiology, biochemistry, and biology. Recommendations: immunology.

151:280 (ORSC:5280) Advanced Dental Therapeutics 1 s.h.
Antimicrobial, analgesic, related therapies; emphasis on drug/drug interactions, dental implications of chronic cardiovascular and central nervous system medications. Offered fall semesters.

Thesis research. Requirements: oral science M.S. or Ph.D. candidacy.
151:610 (ORSC:5610) Independent Study
Independent study supervised by a faculty mentor.
Orthodontics

Head
Thomas E. Southard

Professors
John S. Casko, Andrew C. Lidral, Thomas E. Southard, Robert N. Staley

Professor emeritus
William Olin

Associate professor
Steven D. Marshall

Assistant professor
Lina Maria Moreno Uribe

Adjunct assistant professor
Michael A. Callan

Clinical assistant professor
David A. Jones

Professional certificate: orthodontics

Graduate degree: M.S. in orthodontics

Web site: http://www.dentistry.uiowa.edu

D.D.S. Student Training

The professional program in orthodontics prepares general practitioners of dentistry to competently recognize and diagnose malocclusions of the teeth.

Lecture courses guide D.D.S. students in learning basic concepts of dental and facial growth as well as treatment-oriented subject matter. In a laboratory course, students take and evaluate diagnostic records and fabricate treatment appliances.

Graduate and Clinical Specialty Programs

- Master of Science in orthodontics
- Certificate in Orthodontics

The graduate and clinical specialty programs in orthodontics prepare competent individuals to practice orthodontics and dentofacial orthopedics. The programs’ objectives are to provide students with an in-depth education in biological and biomechanical principles related to orthodontics; to teach students to diagnose, plan, and deliver comprehensive orthodontic health care service; and to develop students’ research and service skills.

Opportunities are available for research and independent study in the department, and there are special facilities for research in biomechanics and craniofacial growth. Interaction with other departments provides learning and research opportunities in surgical orthodontics, cleft lip and palate treatment, speech pathology, animal experimentation, and human growth.

Master of Science and Certificate

The Master of Science program in orthodontics requires a minimum of 30 s.h. of graduate credit. Students must satisfactorily complete a thesis based on an original research project to qualify for an M.S. in addition to the Certificate in Orthodontics.

Satisfactory completion of 24 months of intensive study, including lecture courses, seminars, clinical practicum, and a research paper, qualifies students to receive the Certificate in Orthodontics.

Admission

Applicants must have a D.D.S. degree or equivalent and must meet the admission requirements of the Graduate College. Application deadline is September 1 for entry the following July 1. Applicants are required to come to the University for interviews with department faculty.

Courses

For D.D.S. Students

089:115 (ORDN:8215) Growth and Development
Normal human growth and development; emphasis on craniofacial region. 1 s.h.

089:135 (ORDN:8235) Orthodontic Laboratory
Limited care case diagnosis and treatment. 1 s.h.

089:136 (ORDN:8236) Orthodontic Treatment
From patient management to use of appliances for correcting some malocclusions in the general practitioner’s office. 1 s.h.

For Graduate and Certificate Students

089:200 (ORDN:5200) Control Theory and Craniofacial Morphogenetic Systems
1 s.h.

089:201 (ORDN:5201) Orthodontic Theory: Diagnosis and Treatment Plan
Diagnosis, treatment planning implementation. 2 s.h.

089:202 (ORDN:5202) Diagnosis and Treatment Planning
Literature concerning orthodontic diagnosis; treatment of particular problems; case histories of patients treated in graduate clinic. 2 s.h.

089:203 (ORDN:5203) Advanced Orthodontic Technique
Skills for treatment of disfiguring malocclusions; use of edgewise biomechanical therapy; laboratory focus on typodont exercises. arr.

089:204 (ORDN:5204) Biomechanics
arr.

089:205 (ORDN:5205) Facial Growth
Theories, processes; use of accepted facial growth concepts in treatment of individuals with malocclusions during active growth period. 1-2 s.h.

089:207 (ORDN:5207) Case Analysis
Literature on diagnosis, treatment of mixed dentition patients; case histories of patients treated by serial extraction procedure. arr.

089:209 (ORDN:5209) Orthodontic Practicum
Clinical practice. arr.

089:210 (ORDN:5210) Orthodontic Seminar
Evaluation, discussion, criticism, defense of diagnostic and treatment approaches to orthodontic cases that need, are undergoing, or have completed orthodontic treatment. arr.

Professional certificate: pediatric dentistry

The Department of Pediatric Dentistry instructs D.D.S. and graduate students in the prevention and treatment of dental diseases in children. Instruction combines didactic, laboratory, and clinical experiences and gives special consideration to reviewing current literature and managing dental problems of children with special health care needs. It also emphasizes efficient treatment through proper use of dental auxiliary personnel and record management.

D.D.S. Student Training

All second-year D.D.S. students participate in a one-semester lecture course that includes preclinical exercises in the Simulation Clinic. Third-year D.D.S. students participate in a clerkship, which includes a lecture course and a clinical course. During their fourth year, D.D.S. students treat patients in the department’s outreach clinics.

Clinical Specialty Program

• Certificate in Pediatric Dentistry

The department’s certificate program is accredited by the Commission on Dental Accreditation of the American Dental Association.

Certificate

The Certificate in Pediatric Dentistry is a two-year residency program that prepares students for certification by the American Board of Pediatric Dentistry. Certificate students are trained in all phases of pediatric dentistry and have career choices in practice, education, or research. Special emphasis is placed on development of leadership skills and strategies for serving vulnerable populations. Approximately 60 percent of the graduate program is devoted to advanced clinical activity, 30 percent to didactic courses and practice teaching, and 10 percent to original research. The program includes a core of didactic, clinical, and research-oriented courses supplemented by electives determined by students’ individual interests.

Development of a minor subject area is recommended. Close associations with the Department of Pediatrics in the Roy J. and Lucille A. Carver College of Medicine, the Center for Disabilities and Development, and University of Iowa Hospitals and Clinics permit emphasis on oral rehabilitation under general anesthesia, instruction in physical diagnosis, and management of children with developmental disabilities.

Admission

Prospective students apply through the American Dental Education Association PASS program. Applicants must meet the admission requirements of the Graduate College.

Financial Support

Stipends for the two-year program are provided by federal agencies and other sources.

Research Opportunities

Clinical and laboratory research projects have financial support from federal agencies and other sources. Major research areas include cariology, dental materials, dentistry for persons with special health care needs, growth and development, fluoride therapy, child behavior management, prevention, and access to care.

Faculty

Faculty members hold numerous national and state offices, committee memberships, consultanthships, and honors in professional organizations. They serve as reviewers for professional journals and federal granting agencies. They also participate regularly in continuing education programs for dentists and other health science personnel. Sixteen of the department’s faculty members are diplomates of the American Board of Pediatric Dentistry.

Courses

For D.D.S. Students

090:140 (PEDO:8240) Pediatric Dentistry
Diagnosis and Treatment
Growth and development, behavior management, diagnostic-preventive-restorative techniques for pediatric patients.

090:160 (PEDO:8360) Clinical Pediatric Dentistry
Comprehensive clinical management of pediatric patients.

090:165 (PEDO:8365) Clinical Seminar in Pediatric Dentistry
Patient management, case histories, treatment philosophies, issues in contemporary dentistry for children.

For Graduate and Certificate Students

090:220 (PEDO:5220) Social, Cultural, and Public Health Issues in Pediatric Dentistry

1 s.h.
090:300 (PEDO:9300) Pediatric Dentistry 0 s.h.
Certificate Program
Advanced dental clinical and didactic education; nondegree program toward eligibility for board certification in pediatric dentistry.

Professional certificate: periodontics
Graduate degree: M.S. in oral science
Web site: http://www.dentistry.uiowa.edu

D.D.S. Student Training

The professional periodontal program for D.D.S. students combines didactic, laboratory, and clinical experience and applies the biological concepts of periodontology to the comprehensive clinical management of patients who have periodontal diseases.

Graduate and Clinical Specialty Programs

- Master of Science in oral science
- Certificate in Periodontics

Students working toward the Certificate in Periodontics may pursue the Master of Science in oral science in conjunction with the certificate.

Master of Science

The Master of Science program in oral science requires a minimum of 30 s.h. of graduate credit and 36 months of full-time study, including satisfactory completion of required and elective courses, preparation and defense of an acceptable thesis based on original research, and satisfactory completion of comprehensive written and oral examinations.

Certificate

The Certificate in Periodontics requires 36 months of full-time study, including satisfactory completion of required didactic and clinical courses, satisfactory completion of comprehensive written and oral examinations, and an acceptable literature review or research paper. Opportunities are provided for experience in clinical and basic research.

The certificate program provides a sound foundation for the clinical practice of periodontics. It meets all requirements of the American Dental Association’s Commission on Dental Accreditation for advanced dental education programs in periodontics. It also meets the educational requirements for application to take board certification examinations of the American Board of Periodontology.

Admission

Applicants to graduate study in periodontics must have a D.D.S. degree or equivalent and must meet the admission requirements of the Graduate College. Applicants must take the National Dental Board Examination and must interview with the department. Additional information about the M.S. program in oral science and the Certificate in Periodontics is available at Iowa Graduate Admissions—College of Dentistry.

Financial Support

Applicants must be financially prepared for uninterrupted studies.

Facilities

The department has 20 modern, well-equipped operatories devoted exclusively to periodontics. Hospital experience is available to students in the nearby University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center.

Research facilities include collegiate laboratories in histology, microscopy, biomaterials, quantitation, tissue culture, molecular biology and biochemistry, and microbiology. Other facilities are available by arrangement with University of Iowa Hospitals and Clinics, Eckstein Medical Research Building, Medical Laboratories, and the Iowa City Veterans Affairs Medical Center.

Courses

For D.D.S. Students

092:140 (PERI:8120) Periodontic Methods I 2 s.h.
Normal periodontium, periodontal diseases, diagnosis etiology, epidemiology of periodontal diseases.

092:141 (PERI:8230) Periodontic Methods II 1 s.h.
Periodontal treatment planning, prognosis, initial phase of periodontal therapy, treatment of acute periodontal problems, overview of surgical procedures.

092:160 (PERI:8360) Periodontics Clinic arr.
Comprehensive clinical management of periodontal patients.
092:165 (PERI:8365) Periodontology Seminar  1-2 s.h.
Comprehensive concepts of periodontology, clinical management of patients.

For Graduate and Certificate Students

Courses offered by the graduate programs in oral science are listed in the Oral Science (p. 639) section of the Catalog.

092:207 (PERI:6207) Practice Teaching in Periodontics  arr.
Experience in lecturing, directing seminars, clinical teaching.

092:208 (PERI:7208) Recent Advances in Periodontics  arr.
Review of current literature.

Role of microbial factors and host response in pathogenesis of periodontal diseases; interactions between periodontal diseases and systemic diseases/conditions.

Analysis of literature relating to a range of mucogingival conditions affecting the periodontium, different procedures to address/correct them, and expected outcome from each.

Critical evaluation of rationale, indications, and results of various regeneration procedures and materials used in periodontics.

effects and effectiveness of mechanical periodontal therapy.

092:228 (PERI:5228) Periodontology Literature Review--Occlusion  arr.
Role of occlusal trauma in periodontal diseases; occlusion, mandibular movements, and occlusal adjustment; diagnosis and management of tempromandibular disorders; occlusion related to implants.

Critical review, in-depth analysis, and discussion of classical and current implant literature involving basic and clinical science of surgical and some prosthodontic implantology.

092:230 (PERI:5230) Periodontic Literature Review--Resective  1 s.h.
Introduction to language and concepts for resective procedures used in patient treatment.

092:300 (PERI:9300) Periodontic Certificate Program  0 s.h.
Advanced education program in periodontics.
Preventive and Community Dentistry

Head

Clinical assistant professors
Erin M. Lacey, Marco E.B. Rouman

Graduate degree: M.S. in dental public health
Web site: http://www.dentistry.uiowa.edu

D.D.S. Student Training

Predoctoral training in preventive, community, and geriatric dentistry is designed to increase D.D.S. students’ awareness of preventive dental practices, aspects of dental practices affected by community factors, and care of compromised adult patients.

Community dentistry programs give students opportunities to interact with health care teams and the public in Iowa and around the world. The department conducts off-site community programs statewide, nationwide, and worldwide. It also operates the Special Care Clinic, which is housed in the Dental Science Building.

Using the community dentistry programs as the classroom, D.D.S. students observe and participate in a variety of activities that nurture their awareness of the societal obligations they must assume in order to become effective practitioners.

Graduate Program

• Master of Science in dental public health

Master of Science

The Master of Science program in dental public health requires 40 s.h. of course work and is designed to be completed in two academic years of full-time study. It prepares dentists and dental hygienists to be specialists in dental public health. The program emphasizes research and requires a research project culminating in the completion and defense of a thesis. Successful dentist graduates meet the educational requirements for eligibility to take the certifying examination of the American Board of Dental Public Health.

Applicants must meet the admission requirements of the Graduate College.

Courses

For D.D.S. Students

111:116 (PCD:8116) Fundamentals of Clinical Dentistry 1 s.h.
Identification of health and disease in the mouth; practical methods of disease control, philosophy of preventive dentistry; patient assessment, clinical diagnosis.

111:117 (PCD:8117) Cariology and Preventive Therapies 2 s.h.
Multifactorial etiology of dental caries; support data for use of fluorides, sealants, antimicrobials, and plaque control mechanisms in prevention of caries. Prerequisites: 111:116 (PCD:8116).

111:118 (PCD:8118) Preventive Dentistry and Patient Care 3 s.h.
Patient oral assessment, communication, patient management skills; preventive dentistry risk assessment, oral hygiene instruction for collegiate recall patients; skills in instrumentation for detection, removal of calculus deposits. Prerequisites: 111:116 (PCD:8116) and 111:117 (PCD:8117).

111:145 (PCD:8245) Clinical Preventive Dentistry 0,2 s.h.
Experience providing complete prophylaxis and preventive services for college patients; application of nutrition principles and communication skills in a clinic setting. Prerequisites: 111:116 (PCD:8116).

111:160 (PCD:8360) The Practice of Dentistry in the Community I 1-2 s.h.
Issues related to the role of the dental professional at a local and state level, including dental public health, health literacy, cultural competency, and forensic dentistry; the role of the state dental director.

111:161 (PCD:8361) The Practice of Dentistry in the Community II 1-2 s.h.
Factors that affect the profession and practice of dentistry, including basics of health care systems in the U.S. and in other countries; health care reform; Medicaid; dental insurance; health care delivery systems; legal and malpractice issues; dental utilization and dental workforce; quality of care.

111:185 (PCD:8485) Broadlawns Medical Center arr.
Dental care to low-income patients in a metropolitan hospital-based clinic; community-related assignments; student team experience in Des Moines.

Experience providing primary dental care and outreach services to a migrant population; broad understanding of needs, resources for migrant, low-socioeconomic populations.

Experience providing dental care at medical-dental ambulatory health care facility serving Scott County; community-related assignments.
111:188 (PCD:8488) St. Lukes-Dental Health Center
Experience providing clinical and outreach services for low-income children and adults with developmental disabilities at St. Luke's Hospital, Cedar Rapids; operative and behavioral dental problems, hospital protocol, special needs of low-socioeconomic clients.

111:189 (PCD:8489) Geriatrics and Special Needs Program
Experience in Special Care Clinic and Geriatric Mobile Dental Unit; comprehensive care for medically, physically, cognitively compromised adults, including frail elderly nursing home residents with portable equipment, other underserved populations.

111:191 (PCD:8491) Private Practice Preceptorship
Development of skills and knowledge necessary for day-to-day practice of dentistry; experience at selected preceptor sites in Iowa.

111:194 (PCD:8494) Special Field Clinic
Extramural experiences developed according to student needs, extramural opportunities.

111:196 (PCD:8496) Siouxland Community Health Center
Experience providing dental care at medical/dental ambulatory health care facility; community-related assignments.

For Graduate Students

111:200 (DPH:5000) Introduction to Dental Public Health
Science, philosophy, practice of dental public health.

111:201 (DPH:5001) Literature Review Methods: Dental Public Health
Concepts and process of literature review, particularly in area of student's interest.

111:202 (DPH:6002) Research Protocol Seminar
Development of a master's thesis protocol; identification of thesis topic, review of relevant literature, development of research methods, writing.

111:203 (DPH:6003) Independent Study: Dental Public Health
1-3 s.h.

111:204 (DPH:6004) Principles of Oral Epidemiology
Retrospective, prospective, cohort study designs; validity and reliability; distribution and determinants of oral diseases—caries, periodontal diseases, oral cancer, malocclusion, fluorosis, HIV infection, tooth loss, edentulism.

111:205 (DPH:5005) Administration of Public Dental Programs
Application of general management concepts; practical aspects of planning, financing, staffing, implementing, operating, evaluating dental public health programs at federal, state, local levels.

111:206 (DPH:5006) Preventive Programs in Dental Public Health
Prevention, control methods for major dental conditions, primarily dental caries, periodontal diseases; clinical efficacy, cost-effectiveness; development of comprehensive preventive oral health plan for a community.

111:208 (DPH:5008) Field Experience in Dental Public Health
Arranged with public and voluntary health agencies according to students' and agencies' needs.

111:209 (DPH:5009) Advanced Field Experience in Dental Public Health
Opportunity to research, develop, and implement programmatic objectives with local, state, national, and/or federal agencies and organizations on an issue that is both relevant to the student and the agency; may require off-site visits to agencies or organizations. Prerequisites: 111:208 (DPH:5008).

111:211 (DPH:6011) Thesis: Dental Public Health
Protocol preparation; data collection, analysis, organization; writing, defense of research.

111:214 (DPH:5014) Dental Care Policy and Financing
Dental financing and policy issues: payment mechanisms for health care service providers, third-party prepayment plans, salaried and public-financed programs, Medicaid and Medicare programs, dental insurance systems, and care of the underserved.

111:217 (DPH:6017) Teaching Methods and Evaluation
Philosophies of dental education, teaching methodologies, evaluation; focus on learning to write educational objectives, writing and analyzing exam items.

111:218 (DPH:6018) Clinical Teaching Practicum: Preventive Dentistry
Teaching experience in preventive dentistry clinic setting with first-year dental students; outcomes focused on methods in clinical teaching, evaluation, and remediation.

111:230 (DPH:5030) Geriatric Care I
Aging in humans, with emphasis on oral cavity; issues and problems of oral health care in older adults.

111:231 (DPH:5031) Geriatric Care II
Issues and problems related to oral health care in older adults, especially the frail or functionally dependent.

111:300 (DPH:9300) Dental Public Health Certificate
Dental public health certificate. Requirements: D.P.H. M.S. Program participation.
Prosthodontics

Head
Julie Holloway

Professors
Steven A. Aquilino, Isabelle Denry, Ronald L. Ettinger, Julie Holloway, Clark M. Stanford

Professors emeriti
William E. LaVelle, Robert J. Leubke, Forrest R. Scandrett, Max L. Smith, Keith E. Thayer

Associate professors
James M.S. Clancy, David Gratton, Terry L. Lindquist

Clinical associate professor
Peter S. Lund

Clinical assistant professors
Paul W. Aubrey, Yung-Shen Huang, Lawrence R. Huber

Adjunct instructor
Frederick R. Drexler

Professional certificate: prosthodontics
Graduate degrees: M.S. in oral science; Ph.D. in oral science
Web site: http://www.dentistry.uiowa.edu

Prosthodontics is the dentistry specialty involving crowns, fixed partial dentures (bridges), removable partial dentures, complete dentures, maxillofacial prostheses, and implant prostheses.

D.D.S. Student Training

The Department of Prosthodontics instructs D.D.S. students in the basic principles, practices, and concepts of prosthodontics required for the practice of general dentistry. Students learn through laboratory projects and treatment of patients with differing prosthodontic needs.

Graduate and Clinical Specialty Programs

• Master of Science in oral science
• Doctor of Philosophy in oral science
• Certificate in Prosthodontics

All post-D.D.S. students in the Department of Prosthodontics enroll in the certificate program and may choose to earn a graduate degree as well. Both graduate degree programs prepare individuals for careers in dental education and research and for independent study and professional growth.

Master of Science, Doctor of Philosophy

The Master of Science in oral science requires a minimum of 30 s.h. of graduate credit; the Doctor of Philosophy requires a minimum of 72 s.h. of graduate credit.

Both programs require more courses in the biomedical sciences and research methodology than the certificate program requires. Students must prepare and defend a thesis (M.S.) or dissertation (Ph.D.) based on original research. Facilities and support personnel for research are available through the college’s Dows Institute for Dental Research. For more information, see Oral Science in the Catalog.

Certificate

The Certificate in Prosthodontics requires a minimum of 34 months of study. It prepares individuals for specialty clinical practice in the discipline. The curriculum includes didactic courses and clinical training in all of the disciplines that make up the broad specialty of prosthodontics, including implant prosthodontics, maxillofacial prosthetics, and treatment of temporomandibular disorders. Patient care is completed in close collaboration with the other dental specialties. Clinically related basic science instruction compliments the clinical curriculum.

The certificate program is accredited by the Commission on Dental Accreditation of the American Dental Association. Successful completion of the program satisfies the formal training requirement for eligibility to take the American Board of Prosthodontics certification examination.

Admission

Applicants to the M.S., Ph.D., and certificate programs must meet the admission requirements of the Graduate College. They must hold a D.D.S. or a D.M.D. from a dental school accredited by the American Dental Association or an equivalent degree.

The certificate program begins around July 1 each year. Applications are accepted year-round; those received by September 1 are considered for admission the following July. A personal interview is required for qualified applicants.

Facilities

Most didactic, clinical, and laboratory instruction and patient treatment takes place in the Department of Prosthodontics, which is located in the Dental Science Building. The building also houses the Doctor of Dental Surgery (D.D.S.) program, training programs in specialties recognized by the American Dental Association, and the Dows Institute for Dental Research.

The college and the department provide supporting technologies that include cone beam CT radiography, implant imaging software, laboratory CAD/CAM systems, laser surgery, clinical operating microscopes, and digital shade matching.

Advanced prosthodontic students spend time at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center, where they work closely with medical professionals in other disciplines to treat medically compromised prosthodontic patients and those who require maxillofacial rehabilitation.

Courses

For D.D.S. Students

084:122 (PROS:8122) Occlusion and Complete Dentures Lecture
2 s.h.

Basic principles and clinical application of occlusion; basic principles, clinical steps, and laboratory procedures necessary for fabrication of complete dentures.
084:123 (PROS:8123) Occlusion and Complete Dentures Lab
Laboratory exercises illustrating the principles of occlusion; projects simulating the clinical and laboratory steps in complete denture fabrication.

084:140 (PROS:8140) Fixed Prosthodontic Lecture I
2 s.h.
Basic biomechanical principles of fixed prosthodontics; metal, single-unit, multiple-unit fixed prostheses; diagnosis and treatment planning for the partially edentulous patient, including occlusion and esthetic concerns.

084:141 (PROS:8141) Fixed Prosthodontic Patient Simulation I
2 s.h.
Laboratory exercises in fabrication of single-unit metal, provisional restorations; preparations for fabrication of a three-unit fixed partial denture.

084:142 (PROS:8242) Fixed Prosthodontics Lecture II and Removable Partial Denture Lecture
2 s.h.
Principles, clinical steps, materials, and laboratory procedures necessary for fixed and removable partial dentures; lecture format.

084:143 (PROS:8243) Fixed Prosthodontics Lab II and Removable Partial Denture Lab
2 s.h.
Participation in projects and seminars simulating the clinical and laboratory steps in fixed and removable partial denture fabrication.

084:146 (PROS:8246) Introduction to Implant Dentistry
2 s.h.
Fundamental principles of osseointegration, diagnosis and treatment planning, surgical and prosthodontic protocols, laboratory communications introduced through patient simulation.

084:160 (PROS:8360) Prosthodontic Clinic
arr.
Experience supplemented by individual supervision, demonstration.

084:165 (PROS:8365) Prosthodontic Seminar
2 s.h.
Knowledge in biological, basic sciences and technique applied to clinical fixed and removable prosthodontics procedures.

For Graduate and Certificate Students
Courses offered by the graduate programs in oral science are listed in the Oral Science (p. 639) section of the Catalog.

084:220 (PROS:6220) Fixed Prosthodontics Literature Review I
arr.
Fixed prosthodontic procedures; assigned readings, discussion of related research.

084:221 (PROS:6221) Fixed Prosthodontics Literature Review II
arr.
Porcelain-fused-to-metal and ceramic restorations, color science and esthetics; assigned readings, discussion of related research.

084:222 (PROS:6222) Implant Literature Review
arr.
Implant prosthodontics; assigned readings, discussion of related research.

084:223 (PROS:6223) Occlusion Seminar
arr.
Occlusion and the temporomandibular system; assigned readings and discussion of related research.

084:224 (PROS:6224) Graduate Restorative Materials
2 s.h.
Dental materials science: mechanical, physical, and chemical properties of restorative materials; selection and manipulation. Same as 082:224 (OPER:6224).

084:225 (PROS:6225) Complete Denture Literature Review
arr.
Complete denture prosthodontics; assigned readings, discussion of related research.

084:226 (PROS:6226) RPD Literature Review
arr.
Removable partial denture prosthodontics; assigned readings, discussion of related research.

084:231 (PROS:6231) Thesis Preparation: Prosthodontics
3 s.h.
Thesis preparation, defense.

084:300 (PROS:9300) Prosthodontic Certificate Program
0 s.h.
Advanced dental clinical, didactic education: nondegree program toward eligibility for board certification in prosthodontics.

Undergraduate major: elementary education (B.A., B.S., granted by the College of Liberal Arts and Sciences)
Undergraduate minors: educational psychology; human relations
Graduate degrees: M.A.; M.A.T.; M.S.; Ed.S.; Ph.D.
Web site: http://www.education.uiowa.edu

The nation's first university-level professorial chair in education was established at The University of Iowa in 1872. The department became the School of Education in 1907; and the College of Education, structured largely as it is today, was founded in 1913. Since then, the college's growth has mirrored the growth of the University.

Over the years, College of Education faculty members have been leaders in a variety of educational fields. Particularly noteworthy have been their contributions in the fields of educational testing and measurement. These contributions helped lay the foundation for today's testing and measurement industry, making Iowa City one of the best-known centers for this educational specialty.

The college has four departments: Educational Policy and Leadership Studies (p. 660); Psychological and Quantitative Foundations (p. 672); Rehabilitation and Counselor Education (p. 686); and Teaching and Learning (p. 699).

Teacher Education Programs and Student Teaching

The College of Education offers teacher preparation programs in elementary education and in secondary education for students earning bachelor's degrees. It offers the major in elementary education with a Teacher Education Program (TEP) for students earning a Bachelor of Arts or a Bachelor of Science from the College of Liberal Arts and Sciences. It offers a secondary education TEP for students earning bachelor's degrees with certain majors from the College of Liberal Arts and Sciences. The college also provides a number of specialized elementary and secondary teaching endorsement programs.

Graduate and postbaccalaureate students also may complete a Teacher Education Program; see "Graduate and Postbaccalaureate Admission to TEPs" below and the Teaching and Learning (p. 699) section of the Catalog.

Preparation for special education teaching is offered primarily at the graduate level. In addition, an instructional strategist program is available as an added endorsement for undergraduate students admitted to an elementary education program.

Undergraduate students admitted to a Teacher Education Program must complete all requirements for graduation from the College of Liberal Arts and Sciences, including the General Education Program (p. 276). They must satisfy General Education’s Quantitative or Formal Reasoning requirement with a college-level mathematics course.

The Office of Education Services provides information on Teacher Education Programs; offers assistance with admission, student field experiences, and teacher licensure/certification; and serves as a liaison with other University units and external agencies. For more information, visit the office's web site.

Undergraduate Admission to TEPs

Undergraduate applicants to The University of Iowa who wish to become teachers indicate their interest in the elementary major or a specific secondary-level teaching endorsement program on their application for admission. This results in an "Elementary Education Interest" (7EP) or a "Secondary Education Interest" (7SP) notation on the student's official records. Application materials for Teacher Education Programs are available from the Office of Education Services or on the office's web site.

Acceptance to a Teacher Education Program is prerequisite to registration for most College of Education undergraduate courses.

APPLICATION DEADLINES

Application deadlines for all Teacher Education Programs are as follows.

Summer session and fall semester: March 1
Spring semester: October 1
Late applications are not accepted.

GENERAL REQUIREMENTS

Admission to Teacher Education Programs is competitive. Admission requirements may vary by program area. Faculty members in each program area review and select students to be admitted to their program. In order to
be considered for admission to a Teacher Education Program, an undergraduate student must satisfy the following requirements: admission to The University of Iowa; a minimum amount of credit for college-level work; a minimum grade-point average; minimum scores on a preadmissions test; and a preadmission volunteer field experience in a regular K-12 classroom setting. There may be additional requirements. Teacher Education Program applications materials and current minimum application requirements are available on the Office of Education Services web site.

**Graduate and Postbaccalaureate Admission to TEPs**

Students who have completed a baccalaureate degree may be admitted to a teacher preparation program as graduate students or as postbaccalaureate students with senior standing. They may apply to the Graduate College and state their objective as "certification only." In some programs they may apply for a master's degree objective, either a Master of Arts in Teaching (M.A.T.) or in selected majors, a Master of Arts (M.A.).

Students who choose to pursue a graduate-level teacher preparation program must be eligible for admission to the Graduate College, which requires a g.p.a. of at least 3.00 on all previous college course work. They must submit an official Graduate Record Examination (GRE) General Test score report, with scores that meet the minimum score requirement. They also must submit a complete application to the Teacher Education Program; see the Iowa Graduate Admissions web site.

Students also may apply to the College of Liberal Arts and Sciences as postbaccalaureate students with senior standing. Students who choose this option must apply to the appropriate Teacher Education Program, following the undergraduate admissions procedure, and must meet the general requirements for undergraduate admission to The University of Iowa; see the Iowa Undergraduate Admissions web site.

Application deadlines for graduate students and postbaccalaureate students with senior standing are March 1 and October 1.

**TEP Standards and Policies**

Students in the Teacher Education Program must meet grade-point average requirements each semester. Students who do not meet the requirements are placed on probation; those who fail to meet the requirements in a successive semester may be removed from the Teacher Education Program or denied admission to student teaching. For more information on standards and policies, consult the Office of Education Services.

**Electronic Portfolio**

Students in the Teacher Education Program document their achievement of professional standards on ePortfolio, a web-based program in which they collect instructional artifacts and performances assigned in all their courses. Students receive instruction on the ePortfolio requirement beginning with the required course 07E:102 (EDTL:3002) Technology in the Classroom (teacher education) and 07X:181 (EALL:4081) ePortfolio Production (educational leadership).

**Student Teaching**

The final phase of the Teacher Education Program is the professional semester, devoted to supervised student teaching and directed observation in a variety of situations. The student teaching semester is a full-time, all-day, experience. Faculty members, professional staff, and advanced graduate students who are experienced teachers serve as supervisors.

Periodic seminars provide for discussion and evaluation of student teachers’ experiences. Transfer credit may not be used to satisfy the student teaching requirement.

To be admitted to the student teaching semester, students must submit a separate application to the Office of Education Services in the College of Education. All course work in education, for the major, and for the degree must be completed before the student teaching semester. Applications are submitted during the calendar year before the student teaching semester. The deadline is November 30 for students planning to student teach the following fall semester and April 30 for students planning to student teach the following spring semester.

Admission to student teaching requires program area faculty approval as well as verification of satisfactory progress in meeting both College of Education professionalism standards and program area standards, which are set at the time of admission to the TEP. In some programs, standards are higher than the college’s required g.p.a. of at least 2.70. Students should consult with their advisors regarding specific requirements for the program areas.

For more information, contact the Office of Education Services.

**WAIVERS**

Students who have completed courses that they wish to substitute for program requirements should consult with their advisors.

**URBAN STUDENT TEACHING**

Students who want to advance their educational interests through student teaching in an urban setting may apply through the Office of Student Field Experiences. The urban districts include Clark County, Nevada (Las Vegas area); Chicago Public Schools; Aldine, Texas (Houston area); Rialto, California (Los Angeles area); and St. Louis Park, Minnesota (Minneapolis area). These options are open to all education majors who meet the requirements established for these student teaching sites. For more information about this and other programs, contact the Office of Education Services.

**INTERNATIONAL STUDENT TEACHING**

International student teaching experiences are available primarily through the Indiana University Program for International Education. Sites include Australia, China, Costa Rica, Ecuador, England and Wales, India, Ireland, Kenya, New Zealand, Russian Federation, Scotland, Spain and Turkey.

Interested students must meet the regular requirements for student teaching and must have the approval of their advisor and the appropriate program coordinator. In most locations, students are assisted with housing by the on-site coordinator.
International assignments are for eight weeks. Students complete an eight-week assignment in a stateside placement followed by an eight-week assignment in an international placement. Secondary education students in some program areas (for instance, English education) are required to complete a full semester of student teaching in the United States before student teaching at an international site.

For more information about international student teaching opportunities, contact the Office of Education Services.

Teacher Licensure/Certification

The Iowa Board of Educational Examiners issues teacher, support service, and administrator licenses on the recommendation of Iowa colleges and universities whose programs have been approved by the Iowa Department of Education. All University of Iowa preparation programs have Iowa Department of Education approval.

Licensure/certification requirements across the nation are subject to change. Students who plan to seek employment in a state other than Iowa should make every effort to be informed about current requirements in that state. Many states require some type of competency testing. Generally, students who apply out-of-state should first secure Iowa licensure.

To be recommended by The University of Iowa, applicants must complete all requirements of the appropriate approved program. A minimum of 20 s.h. of course work applied to meet program requirements must be earned at The University of Iowa. Fingerprinting is required for all new applicants for Iowa licensure; the State of Iowa has outlined specific procedures for the fingerprinting process.

A passing score on one of two PRAXIS II tests is required for all students seeking elementary licensure in Iowa and for satisfaction of an approved Teacher Education Program. No test is currently required for secondary or K-12 Iowa licensure applicants.

The College of Education Office of Education Services provides Iowa application forms, fingerprinting procedures, and licensure/certification assistance to all students completing approved programs offered by the college. It also provides assistance to individuals interested in adding endorsements to their Iowa license based on completion of State of Iowa minimum licensure requirements.

State of Iowa Requirements

All University of Iowa students seeking an Iowa teaching license must complete 07B:180 (EPLS:4180) Human Relations for the Classroom Teacher (or an approved substitute) and 07U:100 (EDTL:4900) Foundations of Special Education. All University of Iowa Teacher Education Programs require 07B:180 (EPLS:4180) Human Relations for the Classroom Teacher and 07U:100 (EDTL:4900) Foundations of Special Education. Human relations courses offered through community colleges are not accepted. In the State of Iowa, applicants must be at least 21 years old to be granted a teaching license. Applicants who have been found guilty of a felony are barred from receiving an Iowa teaching license. Appeals may be filed directly with the Iowa Board of Educational Examiners.

Undergraduate Programs

Elementary Education Major

The College of Education offers the undergraduate major in elementary education for students earning a Bachelor of Arts or a Bachelor of Science degree from the College of Liberal Arts and Sciences. See Teaching and Learning (p. 699) for details about the major.

Honors in Education

The College of Education Education Honors Opportunity Program is open to sophomores, juniors, and seniors who have maintained a g.p.a. of at least 3.50. Students with lower grade-point averages who have demonstrated research potential also may be accepted based on the recommendations of faculty/staff members and the education honors advisor. Honors Opportunity Program students must take 07X:100 (EHOP:4100) Honors Seminar in Education, 07X:101 (EHOP:4101) Senior Honors Project, and complete five additional honors experiences. Successful completion of the program results in recognition of the student as a College of Education honors graduate. The Honors Opportunity Program is housed in and administered by the Belin-Blank Center for Gifted Education and Talent Development.

Minors

The College of Education offers two minors for students who wish to be better informed about education: one in educational psychology and one in human relations. The minors may help support students’ future career objectives and help students prepare to be better informed as parents, as taxpayers, or as future members of local boards of education. See Psychological and Quantitative Foundations (p. 672) to learn more about the minor in educational psychology and Rehabilitation and Counselor Education (p. 686) to learn more about the minor in human relations.

Graduate Programs

Graduate study in the College of Education is guided by the policies of the Graduate College, with additional requirements set by College of Education faculty members. Graduate students in education register in the Graduate College and receive their degrees from that college. See the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

All College of Education Ph.D. programs require students to complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also require an additional minimum of 15 s.h. in qualitative and quantitative research course work, with at least 9 s.h. from one area (qualitative or quantitative) and 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

Degree Programs Offered

The College of Education offers the following graduate degrees and programs.
DEPARTMENT OF EDUCATIONAL POLICY AND LEADERSHIP STUDIES
M.A., Ed.S., and Ph.D. in educational policy and leadership studies; the following programs are available:
- Educational leadership (offered in the M.A., Ed.S., and Ph.D.)
- Higher education and student affairs (offered in the M.A., Ed.S., and Ph.D.)
- School curriculum and assessment policy (offered in the Ed.S.)
- Schools, culture, and society (offered in the M.A. and Ph.D.)

DEPARTMENT OF PSYCHOLOGICAL AND QUANTITATIVE FOUNDATIONS
M.A., Ed.S., and Ph.D. in psychological and quantitative foundations; the following programs are available:
- Counseling psychology (offered in the Ph.D.)
- Educational measurement and statistics (offered in the M.A. and Ph.D.)
- Educational psychology (offered in the M.A. and Ph.D.)
- School psychology (offered in the Ed.S. and Ph.D.)

DEPARTMENT OF REHABILITATION AND COUNSELOR EDUCATION
M.A. and Ph.D. in rehabilitation and counselor education; the following programs are available:
- Counselor education and supervision (offered in the Ph.D.)
- Couple and family therapy (offered in the Ph.D.)
- Rehabilitation and mental health counseling (offered in the M.A.)
- Rehabilitation counselor education (offered in the Ph.D.)
- School counseling (offered in the M.A.)

DEPARTMENT OF TEACHING AND LEARNING
M.A., M.A.T., M.S., and Ph.D. in teaching and learning; the following programs are available:
- Art education (offered in the M.A. and Ph.D.; the Ph.D. program is closing, admission is suspended)
- Curriculum and supervision (offered in the M.A. and Ph.D.)
- Developmental reading (offered in the M.A.)
- Elementary Education (offered in the M.A. and Ph.D.; both programs are closing, admission is suspended)
- English education (offered in the M.A. and M.A.T.)
- Foreign language and English as a Second Language (ESL) Education (offered in the M.A, M.A.T. and Ph.D.)
- Language, literacy, and culture (offered in the Ph.D.)
- Mathematics education (offered in the M.A. and Ph.D.)
- Science education (offered in the M.A.T., M.S., and Ph.D.)
- Social studies education (offered in the M.A. and Ph.D.)
- Special education (offered in the M.A. and Ph.D.)

Master of Arts
The College of Education offers a Master of Arts. Some of the college’s M.A. programs are offered with thesis as well as without thesis. Nonthesis programs usually provide more specialized course work than do thesis programs. Although a nonthesis program is not necessarily terminal, students who expect to continue their studies in a doctoral program are urged to select a thesis program in order to gain more experience in research procedures. Students who complete a nonthesis M.A. and are admitted to a Ph.D. program may be asked to submit evidence of writing and research skills to their advisor or department during the early part of their doctoral program. For information about programs that offer a thesis option, see the program descriptions under “Graduate Programs” in College of Education department sections of the Catalog.

Course work completed more than 10 years before the session in which the degree is to be conferred must be evaluated to determine how much credit may be accepted toward the degree requirements. Students must earn at least 24 s.h. in University of Iowa courses after formal admission to a master’s degree.

Master of Arts in Teaching
The M.A.T. program is designed for academically superior liberal arts and sciences graduates who completed few or no professional education courses in their undergraduate program. It is a nonthesis program with requirements that range from 45 to 67 s.h. See Teaching and Learning (p. 699) in the Catalog.

The program leads to a master’s degree and licensure as a secondary teacher in the fields of English, foreign languages, and science education. Admission to the program requires a g.p.a. of at least 3.00 in undergraduate course work. The program includes 18 s.h. of graduate course work in the student’s teaching field. Students must complete a minimum of 20 s.h. of graduate work in education to satisfy licensure requirements.

A Master of Arts program with a secondary education major in social studies leads to initial teacher licensure. See "M.A. in Social Studies Education"/"Program B Requirements" in the Teaching and Learning (p. 699) section of the Catalog.

Master of Science
Thesis programs are available for M.S. students in science education. The degree requirements are similar to those for a Master of Arts.

Specialist in Education
The Ed.S. is granted upon completion of a prescribed two-year postbaccalaureate program designed for students preparing for professional work in fields such as administration and supervision, and special services. Of the minimum 60 s.h. required for the degree, 28 s.h. must be in the specialization area; the rest may be earned in cognate fields, supervised experience, research, and elective courses. The research must culminate in a written report.

Other requirements for the Ed.S. are the same as for the master’s degree, except that an Ed.S. requires students to complete 15 s.h. of resident work on campus in one 12-month period or in two summer sessions. Course work completed 10 years before the final examination must be evaluated to determine the amount of credit that may be accepted toward program requirements.

Not all programs offer an Ed.S. degree. For a list of programs and degrees offered, see "Graduate Programs" above.

Doctor of Philosophy
The Ph.D. is the most advanced academic degree. It is conferred upon students who have demonstrated superior scholarship and mastery of research skills in course work as well as in the preparation and defense of a dissertation. Ph.D. students must complete two full-time semesters of course work after they have earned 24 s.h. of graduate credit and have been admitted to the Ph.D. program.
Professional Improvement

Some students are admitted to professional improvement status in a College of Education department rather than to degree candidacy. This option is appropriate only for persons who wish to update their knowledge or who are temporarily undecided about career plans. Students should file a change of status stating a specific program objective at the earliest opportunity.

Extramural Education

Through the Division of Continuing Education, selected College of Education courses are offered at off-campus sites and hours outside the traditional schedule. If taken after formal admission to a specific program, some of these courses may be applied to meet residency requirements for degrees. Students who plan to complete a degree program should apply for admission to the Graduate College and satisfy all application requirements for the degree program they wish to enter.

Special regulations govern such course work. Students should obtain prior approval from their program advisor before registering in extramural courses. Students not regularly admitted to The University of Iowa also may register in extramural courses, but credit earned before admission does not count toward residency requirements.

Support Units and Resources

Belin-Blank Center for Gifted Education

The Connie Belin and Jacqueline N. Blank International Center for Gifted Education and Talent Development conducts research, training, and service in gifted education. It also gathers and disseminates information on the education of gifted students.

The center is located in the Blank Honors Center. Its programs and services include the Belin-Blank Fellowship Program in Gifted Education; the Honors Opportunity Program; Invent Iowa; Scholastic Art & Writing Awards; the Henry B. and Jocelyn Wallace National Research Symposium on Talent Development; the Wallace Assessment and Counseling Clinic; practicum and internship experiences; course work in gifted education (including state endorsement); academic talent searches for students in grades 2-9; a number of precourse programs for gifted students in grades 2-12; and programs for international students. The center also administers the Iowa Online Advanced Placement Academy.

The Belin-Blank center administers four University-level student programs: the Iowa Talent Project, developed for minority students from gifted programs in Des Moines and Cedar Rapids, Iowa; the National Academy of Arts, Sciences, and Engineering, a highly selective early-entrance program for students who have completed their junior year in high school; the China Scholars Program, an early decision program that admits to The University of Iowa selected high school seniors from the People’s Republic of China; and the Hong Kong Scholars Program, an early decision program that admits to The University of Iowa selected high school seniors from Hong Kong.

The center also provides practicum and internship experiences for undergraduate and graduate students and coordinates course work for the Iowa Talented and Gifted Endorsement.

The Belin-Blank center houses the Institute of Research and Policy on Acceleration (IRPA), which is dedicated to the study of curricular acceleration for academically talented children.

For more information, contact the Belin-Blank Center for Gifted Education and Talent Development.

Blommers Measurement Resources Library

The Paul Blommers Measurement Resources Library provides resources and services to support the teaching and research needs of the College of Education and Iowa Testing Programs as well as all University of Iowa faculty, staff, and students. The Blommers collection encompasses the literature of educational measurement, evaluation, research, and statistical methods.

Center for Advanced Studies in Measurement and Assessment

The Center for Advanced Studies in Measurement and Assessment (CASMA) pursues interdisciplinary research-based initiatives that lead to advances in the methods and practice of educational measurement and assessment. CASMA performs, promotes, fosters, and disseminates research in measurement and psychometric methodologies that respond to contemporary needs and initiatives in testing. Currently, the center devotes considerable resources to research on equating, scaling, and generalizability theory.

Together with ACT, CASMA co-sponsors a national conference on current challenges in educational testing. CASMA also offers workshops and training sessions on equating and on generalizability theory.

Extensive free suites of computer programs for equating are available on CASMA’s web site. The site also features research reports and technical notes on measurement topics such as generalizability theory, equating methods, revolutions and evolutions in educational testing, and decision consistency with complex assessments.

Center for Disability Research and Education

The Center for Disability Research and Education (CDRE) provides a bridge between research and practice to facilitate interdisciplinary collaboration and implementation of evidence-based practices and to conduct research that meets the needs of individuals with disabilities.

Center for Evaluation and Assessment

The Center for Evaluation and Assessment (CEA) conducts evaluations, research studies, and professional development initiatives. The center’s mission is to promote the sound use of assessment results, provide high-quality evaluation services to clients, create effective training activities for graduate students, improve the quality of evaluation theory and practice, and contribute to research on program evaluation and assessment.

The center conducts evaluations in a broad range of areas: clinical and translational science, minority recruitment and retention, delivery of social and human services, curriculum and instruction, professional training, and the impact of public policy on PK-12 education. The center’s
staff members consult with universities, school systems, and other policy-making organizations in Iowa and nationwide that use evaluation studies and assessments to make important decisions regarding individuals or organizations. The center also provides training and professional development in program evaluation and assessment.

**Center for Research on Undergraduate Education**

The Center for Research on Undergraduate Education (CRUE) is dedicated to the study of undergraduate education in America, from how academic and social experiences affect students to the methods schools use to improve students’ chances for success in the classroom and beyond graduation. CRUE brings a methodologically balanced approach to the study of undergraduate education.

**Cooperating Schools Program**

The Cooperating Schools Program (CSP) is a University-wide service that facilitates placement of research projects and service-learning projects conducted by faculty, staff, and students in public schools throughout Iowa. The program provides information to help researchers obtain permission to conduct research in Iowa schools. The Cooperating Schools Program was instituted at the request of school administrators charged with the responsibility of approving research projects in their schools.

**Education Technology Center**

The Education Technology Center (ETC) provides computer services to College of Education faculty, staff, and students. In addition to Internet access, services include collegiate file and application servers; standard office tools; specialized applications such as media production tools and qualitative and quantitative analysis programs; secure folders and directories; and electronic mailing lists for faculty, staff, and student groups.

The Education Technology Center provides faculty with technical and design support for online course management, research technologies, distance education, multimedia, and ePortfolio production. The center also partners with the University’s University of Iowa Television to maintain a laboratory for professional video production.

Polycom videoconferencing, SMART Boards and SMART Podiums, and wireless access are available throughout the college. Every classroom and conference room has a digital presentation system, and five classrooms are outfitted for videoconferencing and distance education instruction.

Faculty members and students can check out wireless laptops, computer projectors, audience response systems (clickers), digital audio recorders, digital video cameras, and other devices from the center. In all, the College of Education supports more than 700 computers, laptops, PDAs, and smartphones as well as seven servers.

**Institute on Disability and Rehabilitation Ethics**

The Institute on Disability and Rehabilitation Ethics (IDARE) is a cross-disciplinary, cross-institutional online community of scholars. Its goal is to use research, education, and consultation to improve the quality of ethical practice experienced by people with disabilities who receive services from rehabilitation, health, mental health, and social service professionals. IDARE works to influence disability policy and practice development nationally and locally and to influence professional organizations’ consideration of ethical issues that affect people with disabilities and other marginalized populations.

**Iowa Center for Assistive Technology Education and Research**

The Iowa Center for Assistive Technology Education and Research (ICATER) helps to ensure equal access and opportunities for persons with disabilities by advancing assistive technology through research, education, and service. The center collaborates with University and community programs to provide technical assistance that enhances the services and resources available to educators, service providers, and persons with disabilities. It also sponsors workshops and education programs. The center’s assistive technology laboratory is available for student use, demonstrations, consultations, and research.

**Iowa Testing Programs**

Iowa Testing Programs (ITP) provides assessment expertise to schools in the State of Iowa and consultation to the Iowa Department of Education and to area education agencies. Its faculty and staff develop standardized educational tests, such as the widely used Iowa Assessments, for use in elementary and secondary schools, as well as other assessment tools to support instruction and learning.

Iowa Testing Programs also conducts research studies in educational measurement and evaluation, publishes the results of these studies, sponsors lectures and symposia, provides consulting and in-service training to educators and school systems, and provides training experience for graduate students in educational measurement and evaluation.

**Libraries**

University of Iowa Libraries provides books, periodicals, reference works, videos, government publications, and other library resources in paper and electronic formats, and reserve materials for students and faculty at the Main Library, just across the street from the College of Education; at the Hardin Library for the Health Sciences, on the health sciences campus; and at the Science Library, near the center of campus. An education/psychology librarian, whose office is in the College of Education, helps students with course assignments and theses and assists faculty members and teaching assistants with their research and instructional needs.

**Office of Graduate Teaching Excellence**

The Office of Graduate Teaching Excellence (OGTE) is dedicated to excellence in college teaching and the preparation of future faculty. The office facilitates opportunities for research, teaching, and service. Through the Iowa Education Fellows Program (i-fellows), OGTE develops and conducts workshops and seminars that address the developmental needs of College of Education doctoral students, from their first semester on campus through completion of their degrees.

**Office of Education Services**

The Office of Education Services assists students, faculty, staff, and the general public in graduate and undergraduate admission, Graduate College examinations, student field experiences, and teacher
licensure/certification. It also serves as a liaison with other University units, including the Graduate College, the College of Liberal Arts and Sciences, the Office of Admissions, and the Office of the Registrar, and with external agencies, including the Iowa Department of Education, out-of-state teacher licensure/certification departments, and school district personnel in Iowa and outside of the state. A variety of application and information materials are available at the office and on its web site.

**Research Support**

The College of Education dean’s office, through the Grant and Research Services Center (GRSC), provides grant and research-related support services for the college’s faculty, staff, and students. GRSC staff members help identify internal and external funding sources, prepare and submit grant proposals and application materials, provide grant accounting services, and help in the preparation of applications for Human Subjects/Institutional Research Board review. The college also provides limited funds for faculty research, professional development, and travel.

**Statistics Outreach Center**

The Statistics Outreach Center (SOC), a service of the College of Education and Iowa Testing Programs, helps the college’s faculty, staff, and students use quantitative statistical methods to produce high-quality research. The center offers short-term consulting on statistical data analysis and grant proposals to the College of Education at no charge and provides services to departments and grants outside the college on a fee basis.

**Teacher Leader Center**

The Teacher Leader Center (TLC) helps students in the Teacher Education Program realize their career and professional goals and become leaders as 21st-century teachers. The center provides students with access to key individuals in the Teacher Education Program and offers core student support in one central location. Its technology-enhanced Learning Commons has collaborative work spaces for students, faculty, and staff. The facility models new and innovative technologies in education and supports seminars, workshops, and presentations. Community partnerships with area education agencies, community organizations, and schools provide access to classrooms where future teachers can innovate, improve, collaborate, develop, and discover their identities as teacher leaders.

**UI Helping Professional Workshops**

The UI Helping Professionals Workshops (IHELP) program provides affordable workshops intended to enhance the personal and professional development of helping professionals. The program offers Continuing Education Units (CEU’s) for community, agency, and education practitioners working with or interested in individuals, groups, families and organizations.

**Financial Support**

College of Education students may be eligible for scholarships, awards, or graduate assistantships. Information about financial support for students is available at Financial Aid and Assistantships on the college’s web site. The Graduate College posts a list of open assistantships on its Graduate College Bulletin Board. Students interested in employment opportunities in the college’s support units and special resources should contact the director of each facility and indicate their interests, their academic and experience records, and their career or degree goals at The University of Iowa.

**Graduate Assistantships**

Individual academic programs provide opportunities for teaching, research, or service assistantships as well as for fellowships and related employment opportunities. Inquiries should be addressed to the chair of the department or the director of the program in which the student believes he or she can provide service or achieve an outstanding academic record. Assistantship appointments are usually, but not always, made by the program area.

**Special Graduate Research Assistantships in Education**

The Iowa Testing Programs provides funds to support a limited number of special graduate assistantships in education, in which students do research work under the direction of a faculty member of their choice. Students must be enrolled for at least 6 s.h. but not more than 12 s.h. per semester; assistantships are for the academic year and are renewable for a limited number of years. Students admitted to or pursuing any advanced degree program offered by the College of Education are eligible to apply, provided they are committed to a professional career in the United States.

Applicants must submit transcripts of all completed college work (undergraduate and graduate), recommendation forms specific to the assistantship, and scores on the Graduate Record Examination (GRE) General Test. For assistantship application forms, contact the Iowa Testing Programs director. Application deadline is late February.

**Scholarships and Awards**

The College of Education presents a number of awards funded by donors; recipients must meet the criteria established by the donors for their awards. Recipients are presented with their award at a spring semester luncheon. For more information, see Scholarships and Awards on the college’s web site.

- **Duane D. Anderson Memorial Scholarship**: awarded to transfer students from Iowa community colleges.
- **Jack Bagford Elementary Education Scholarship**: awarded to undergraduate or graduate students from Iowa who are in elementary education.
- **David and Connie Belin Honors Award**: presented to graduating seniors who have completed all requirements for the Honors Opportunity Program.
- **Bollmers-Hieronymus-Feldt Fellowship**: awarded to doctoral students in educational measurement and statistics.
- **Lowell Brandt Rehabilitation Counseling Award**: presented to graduate students in the rehabilitation counseling program.
- **Barry Bratton Award for Achievement in Design of Instructional Processes**: presented to graduate students who have completed course work that reflects a
commitment to the systemic design and improvement of instructional processes and materials.

**Dr. Bettye M. Caldwell and Dr. Fred T. Caldwell Scholarship:** awarded to undergraduate students interested in pursuing careers in early childhood development.

**Debra Clausen Memorial Scholarship:** awarded to undergraduate or graduate students with preference given to students pursuing careers in special education.

**T. Anne Cleary Psychological Research Scholarship:** awarded to students in the Department of Psychological and Quantitative Foundations.

**John Leonard Davies Scholarship:** awarded to K-12 education students who will be first- or second-semester seniors.

**Harvey H. Davis Memorial Scholarship:** awarded to graduate students in educational administration or higher education with preference given to students interested in the financing of education.

**Dean’s Award of Excellence:** presented to students who demonstrate strong academic performance; commitment to their program, department, and the College of Education; and dedication to their future profession.

**Dr. Mary Agnella Gunn Memorial Scholarship:** awarded to undergraduate or graduate students.

**John H. Haefner Memorial Scholarship:** awarded to undergraduate or graduate students.

**Gladys and Margaret Harvey Education Scholarship:** awarded to undergraduate or graduate students.

**Emma E. Holmes Education Scholarship:** awarded to undergraduate or graduate students who are U.S. citizens.

**Albert Hood Promising Scholar Award:** presented to a graduate student in the Department of Rehabilitation and Counselor Education and to a graduate student in the higher education and student affairs program.

**H.D. Hoover Fund for Excellence:** awarded to graduate students in measurement and statistics who are working on mathematics achievement testing in the elementary grades.

**Howard R. Jones Achievement Award:** presented to undergraduate or graduate students.

**Kyle C. and Eula B. Jones Scholarship:** awarded to undergraduate or graduate students in elementary or secondary educations.

**Charlotte and Ruby Junge Scholarship:** awarded to undergraduate or graduate students in elementary or secondary education.

**Daniel G. Loetscher Memorial Science Education Scholarship:** awarded to undergraduate or graduate students in secondary education with an emphasis in the sciences.

**Mathematics Education Scholarship:** awarded to graduate students in mathematics education.

**Perry Eugene McClennen Memorial Scholarship:** awarded to graduate students in educational administration.

**Sheila E. McFarland Memorial Scholarship:** awarded to undergraduate students from Iowa majoring in elementary education.

**Leonard A. Miller Memorial Scholarship:** awarded to a first-year M.A. student in rehabilitation counseling.

**Minority Student Award:** presented to undergraduate or graduate students of color.

**Helen Mackin Nichol Memorial Scholarship:** awarded to undergraduate or graduate students from Iowa who are in secondary education and plan to teach and work with mentally and emotionally disturbed children.

**Melvin R. Novick Award in Educational Measurement and Statistics:** presented to Ph.D. students in educational measurement and research.

**Paul Opstad Scholarship:** awarded to graduate students pursuing any advanced degree in the College of Education.

**Margaret P. Park Scholarship:** awarded to undergraduate or graduate students from St. Louis County, Minnesota; Rock Island County, Illinois; or Iowa.

**Guy and Gladys Peterson Scholarship:** awarded to students admitted to the Teacher Education Program.

**Betty Piercy Award:** presented to an outstanding student in reading who will benefit the field.

**Ann Ramsey and Richard E. Posey Scholarship:** awarded to a student who is a junior pursuing a career in teaching or education.

**Lorraine Gutz Ragan Scholarship:** awarded to undergraduate or graduate students from Iowa who are enrolled in the Teacher Education Program.

**Rolland Ray Award:** presented to doctoral students completing dissertations concerned with measurement in mathematics education, science education, social studies education, or English education.

**Judith Young Saunders Scholarship:** awarded to students pursuing a degree in teacher education, with preference given to students with severe visual impairments.

**Margaret A. Sloan Scholarship:** awarded to undergraduate or graduate students from Iowa who are in elementary education.

**Lloyd Smith Scholarship:** awarded to students in elementary social studies.

**Franklin D. Stone International Student Award:** presented to international Ph.D. students.

**James and Coretta Stroud Fellowship:** awarded to a doctoral student in educational psychology.

**Edgar M. and Evelyn Benzler Tanruther Scholarship:** awarded to undergraduate or graduate students in elementary education.

**University High School Innovative Development in Education Award (IDEA):** presented to student teachers.

**Emily C. Wagner Scholarship:** awarded to undergraduate students from Iowa in secondary education with an English education major.

**Erwin and Louise Wasta International Scholarship:** awarded to full-time undergraduate or graduate international students.
Faculty

All tenure-track faculty members hold earned doctorates in their teaching fields, and many have had teaching or administrative experience in the public schools. Several hold joint appointments in the College of Liberal Arts and Sciences.

Interdepartmental Courses

Most College of Education courses are offered by the college’s departments and programs. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" toward the top of this page. The college also offers the following interdepartmental courses.

07X:100 (EHOP:4100) Honors Seminar in Education
Research in education and related professions in collaboration with a College of Education faculty member of student’s choice; preparation for senior honors project.

07X:101 (EHOP:4101) Senior Honors Project
1-2 s.h.
Collaboration with a faculty member on research project; written report. Prerequisites: 07X:100 (EHOP:4100).

07X:125 (EALL:4125) Universal Design for Learning and the Postsecondary Classroom
1 s.h.
Principles of universal design for learning and how they can be applied in a postsecondary classroom; strategies in a classroom environment, class presentation, and class products (tools needed to access the class) that reach all students, including those with disabilities; hands-on activities; readings include universal design research studies and specific procedures for application.

07X:140 (EALL:5000) Introduction to Multicultural Education and Culturally Competent Practice
3 s.h.
Introduction to foundations of multicultural education and cultural competence; numerous equal access movements that impact professional practice in education, social work, counseling, and the allied helping professions mobilized in the U.S. during the 20th century; issues of diversity and equity that continue to fuel current policy debates and impact professional practice; roots of equal access movements from Brown v. Board of Education to the present; social, political, and/or economic contexts for equal access policies concerning race/ethnicity, class, language, gender, ability, and sexual orientation.

07X:150 (EALL:5150) Introduction to Educational Research
3 s.h.
Principles of empirical educational research; logic of inquiry for both quantitative and qualitative research methodologies.

07X:181 (EALL:4081) ePortfolio Production
1-2 s.h.
Experience producing an ePortfolio and uploading it to the Internet; practical experience using digital tools, content and design related to ePortfolio production; experience using a web browser and access to the Internet and to a digital camera or scanner. Requirements: able to perform basic computer functions and use a World Wide Web browser. Same as 07P:181 (PSOF:4081), 07E:181 (EDTL:4081), 07C:181 (RCE:4081), 07B:181 (EPLS:4081).

07X:387 (EALL:7387) Introduction to Online Post-Secondary Course Design and Facilitation
3 s.h.
Knowledge of distance learning and teaching at the post-secondary level; instructional design principles relevant to development of online courses.

07X:475 (EALL:7475) Ph.D. ePortfolio in College Teaching
3 s.h.
Framework for connecting authentic evidence of scholarly work and teaching competencies; use of advanced web and multimedia technologies to link artifacts to ePortfolio templates.
Educational Policy and Leadership Studies

Chair
Christopher C. Morphew

Program coordinator, educational leadership
Marcus J. Haack

Program coordinator, higher education and student affairs
Debora L. Liddell

Program coordinator, schools, culture, and society
Christopher C. Morphew

Professors
David B. Bills, Lelia B. Helms, Alan B. Henkin, Christopher C. Morphew, Ernest T. Pascarella, Michael B. Paulsen, Donald B. Yarbrough

Professors emeriti
Larry D. Bartlett, Sandra B. Damico, Walter J. Foley, Jerry N. Kuhn, H. Bradley Sagen, Elizabeth J. Whitt

Clinical professors
Ronald S. Fielder, Susan M. Lagos Lavenz

Associate professors
Elizabeth Hollingworth, Debora L. Liddell, Christine L. McCarthy, Christine A. Ogren, Chet S. Rzonca, Katrina Sanders, Carolyn L. Wanat, Sherry K. Watt

Associate professors emeriti
Robert E. Engel, Scott F. McNabb, Ray A. Muston, Sara C. Wolfson

Clinical associate professors
Marcus J. Haack, Susan M. Lagos Lavenz

Assistant professors
Brian P. An, Cassie Barnhardt

Assistant professor emeritus
Charles M. Mason

Adjunct assistant professors
Andrew Beckett, Becki S. Elkins Nesheim, David L. Grady, Wayne Jacobson, Heidi B. Levine, Dorothy M. Persson, Von Stange

Adjunct assistant professor emeritus
Wendell C. Boersma

Graduate degrees:
- M.A. in educational policy and leadership studies
- Ed.S. in educational policy and leadership studies
- Ph.D. in educational policy and leadership studies

Web site: http://www.education.uiowa.edu/epls/

The Department of Educational Policy and Leadership Studies offers academic programs that prepare administrators, professional personnel, teachers, and researchers in the fields of educational leadership, higher education and student affairs, and schools, culture, and society. The department also offers joint programs with other College of Education departments and with other University of Iowa colleges.

Graduate Programs

- Master of Arts in educational policy and leadership studies
- Specialist in Education in educational policy and leadership studies
- Doctor of Philosophy in educational policy and leadership studies

The department offers graduate degree programs in three major areas within educational policy and leadership studies:

Educational leadership (offered in the M.A., Ed.S., and Ph.D.), including an interdisciplinary program in school curriculum and assessment policy (offered in the Ed.S.); Higher education and student affairs (offered in the M.A., Ed.S., and Ph.D.); and Schools, culture, and society (offered in the M.A. and Ph.D.).

The areas are described below under "Graduate Study Areas," followed by information about each degree program.

Applicants for admission to University of Iowa graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

REQUIRED PH.D. RESEARCH COURSES

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college's web site).

Graduate Study Areas

Educational Leadership

Study in educational leadership prepares individuals for leadership positions. In addition to graduate degree programs, the area includes principal licensure, superintendent endorsement, and supervision of special education (support and instructional).

LICENSURE

To be eligible for recommendation by The University of Iowa for licensure in Iowa as a principal or superintendent/area education agency administrator, students must complete the appropriate program. The specific requirements for each program are available from the Department of Educational Policy and Leadership Studies and the Office of Education Services.

Students who hold an M.A. must satisfy all core requirements and must complete at The University of Iowa the minimum semester-hour program for each licensure level they seek. Because each administrative license has specific requirements, candidates are required to plan their programs with their advisors’ approval.

SUPERINTENDENT ENDORSEMENT

The superintendent endorsement curriculum is designed to prepare individuals for licensure as a school superintendent (pre-K-12) as well as for other school district leadership positions; for the chief administrator position in Iowa’s area education agencies (AEA) as well as other AEA leadership positions; and for leadership...
positions in state or federal departments of education and related agencies.

The superintendent endorsement requires a total of 37 s.h., including 32 s.h. earned in required course work beyond the master’s degree plus 5 s.h. earned in elective courses. Electives may be taken in or outside the College of Education, depending on the student’s career goals and interests.

Higher Education and Student Affairs

Advanced study in higher education and student affairs draws upon diverse perspectives from varied disciplines and professional fields to analyze critical issues and policies and their effects on students, faculty, administrators, staff, and other members of the higher education community. It also explores the complex interactive relationships among institutions of higher education, the external environment, and society at large.

Graduate degree programs in higher education and student affairs prepare professionals and scholar-practitioners to serve as administrators, researchers, educators, and analysts in institutions of higher and postsecondary education and in related public and private agencies. The programs provide opportunities for concentrated study in organization and administration; policy in higher education; student affairs administration; teaching, learning, and curriculum in higher education; and higher education, culture, and society.

Schools, Culture, and Society

Schools, culture, and society is an interdisciplinary area that enhances students’ ability to analyze the influence of social, historical, and philosophical factors that frame contemporary issues in the formal social enterprise of education.

M.A.: Educational Leadership

The Master of Arts program in educational leadership requires a minimum of 36 s.h. of graduate credit and is offered without thesis. The program prepares individuals for appointments as school principals and for positions in area education agencies and state departments of education.

CORE REQUIREMENTS

With the aid of an advisor, each M.A. student prepares a plan of study that includes the following core requirements.

<table>
<thead>
<tr>
<th>Course Code (EPLS:4000)</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>07B:181 (EPLS:4081)</td>
<td>ePortfolio Production</td>
<td>1-2 s.h.</td>
</tr>
<tr>
<td>07B:201 (EPLS:6201)</td>
<td>Foundations of School Administration</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:236 (EPLS:6236)</td>
<td>Administration of Students with Special Needs</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:242 (EPLS:6242)</td>
<td>Research for Effective School Leaders</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:260 (EPLS:6260)</td>
<td>Contemporary Management Strategies for the Pre-K-12 Principal</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:285 (EPLS:6285)</td>
<td>School and Community Relationships</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:298 (EPLS:6298)</td>
<td>Legal Aspects of School Personnel</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:381 (EPLS:6381)</td>
<td>Analysis and Appraisal of Curriculum</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>07B:383 (EPLS:6383)</td>
<td>Supervision and Evaluation</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

For Iowa licensure as a principal, students must meet the human relations requirement of the State of Iowa.

Students must complete the core requirements listed above and the following required clinical courses.

<table>
<thead>
<tr>
<th>Course Code (EPLS:4000)</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>07B:400 (EPLS:6400)</td>
<td>Early Childhood Leadership Clinical</td>
<td>2-3 s.h.</td>

<td>Elementary Leadership Clinical</td>
<td>1-3 s.h.</td>
</tr>
<tr>
<td>07B:402 (EPLS:6402)</td>
<td>Secondary Leadership Clinical</td>
<td>1-3 s.h.</td>
</tr>
<tr>
<td>07B:403 (EPLS:6403)</td>
<td>Special Education Leadership Clinical</td>
<td>1-3 s.h.</td>
</tr>
</tbody>
</table>

Students earning an M.A. without principal licensure are not required to complete the clinical courses. Instead, they complete a series of electives approved by their advisors.

COMPREHENSIVE EXAMINATION

The M.A. comprehensive examination for students earning principal licensure consists of a three-hour examination and a presentation of the student’s ePortfolio. Students earning an M.A. without licensure complete a six-hour comprehensive examination consisting of two three-hour written exams. Students must be registered in the Graduate College during their comprehensive examination semester if they plan to graduate at the end of that semester.

ADMISSION

Applicants to the M.S. program in educational leadership must meet the admission requirements of the Graduate College. Admission decisions are made through a faculty review process. Factors considered include recommendations, grade-point average, Graduate Record Examination (GRE) General Test scores, an aptitude survey, an essay demonstrating writing ability, and other evidence of academic ability and professional promise.

Ed.S.: Educational Leadership

The Specialist in Education program in educational leadership requires 36 s.h. of graduate credit. The program prepares candidates to be superintendents in Iowa or to hold other district-level leadership positions in K-12 school districts. It also prepares them for appointments as area education agency chief administrators and for jobs in state or federal departments of education.

Students in the Ed.S. program must have an Iowa administration license. They obtain the superintendent endorsement (State of Iowa endorsement 171) upon completing the required Ed.S. course work.

Ed.S. students must complete 26 s.h. of course work. Many educational leadership courses are offered by distance education; see ISIS for information about courses offered during current semesters. They also must complete 10 s.h. of clinical work and must maintain an ePortfolio. The Ed.S. program culminates with the student’s presentation of the ePortfolio to his or her committee.

ADMISSION

Applicants to the Ed.S. program in educational leadership must meet the admission requirements of the Graduate College and of the educational leadership program. Required application materials include transcripts, official Graduate Record Examination (GRE) General Test scores, three letters of recommendation, and a personal statement of career goals. Admission is based on grade-point average and GRE scores, promise for scholarly and professional growth, and recommendations. Complete applications are reviewed as they are received.
Ph.D.: Educational Leadership

The Doctor of Philosophy program in educational leadership requires a minimum of 90 s.h. of graduate credit. The program prepares scholarly professionals for leadership positions in a wide range of educational and public sector settings. Ph.D. students acquire strong backgrounds in leadership, policy, and research. They equip themselves to discover, integrate, and apply knowledge as transformational leaders.

The Ph.D. in educational leadership requires the following work.

| Common courses | 12 s.h. |
| Cognates       | 9 s.h.  |
| Electives      | 29 s.h. |
| Concentration area courses | 12 s.h. |
| Research       | 18 s.h. |

Students also complete the comprehensive examination and a dissertation, described below.

Many educational leadership courses are offered by distance education; see ISIS for information about courses offered during current semesters.

REQUIRED RESEARCH COURSES

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

COMPREHENSIVE EXAMINATION

Ph.D. students must satisfactorily complete a written take-home comprehensive examination consisting of three parts. The first part covers the student’s major area of study, and the second covers two additional concentration areas. The third is on the student’s outside area of study and is prepared by faculty members outside the Department of Educational Policy and Leadership Studies. The written exams are followed by an oral examination.

DISSERTATION

All students must write a dissertation based on an original research project in an area of educational leadership. Students must earn 10 s.h. of credit for dissertation research. The doctoral program culminates with a final oral defense of the dissertation. Students must be registered at The University of Iowa during the session in which they graduate.

ADMISSION

Applicants to the Ph.D. program in educational leadership must meet the admission requirements of the Graduate College and of the educational leadership program. They also must satisfy the residency requirement of two full-time (at least 9 s.h.) registrations. Required application materials include transcripts, official Graduate Record Examination (GRE) General Test scores, three letters of recommendation, and a personal statement of career goals. Admission is based on grade-point average and GRE scores, promise for scholarly and professional growth, and recommendations. Complete applications are reviewed as they are received.

Ed.S.: School Curriculum and Assessment Policy

The Specialist in Education program in school curriculum and assessment policy requires 36 s.h. of graduate credit beyond the master’s degree (required credit may vary depending on the student’s academic background, experiences, needs, and interests).

The interdisciplinary program trains graduate students to become school leaders who know how to use assessment information for accountability purposes and curriculum evaluation. The program offers concentrations in policy, measurement and statistics, and curriculum and draws on course work from across the College of Education. Graduates are qualified to serve as educational leaders in the areas of school policy, assessment, and curriculum at federal, state, and district levels.

For more information, see School Curriculum and Assessment Policy on the Department of Educational Policy and Leadership Studies web site.

M.A.: Higher Education and Student Affairs

The Master of Arts program in higher education and student affairs requires a minimum of 40 s.h. of graduate credit. The program prepares graduates for entry-level and midlevel positions in two- and four-year institutions.

Students choose one of three concentrations when they apply to the program: student affairs, higher education policy, or higher education administration. Through these three concentrations, the program prepares individuals for positions in advising, programming, administration, management, and policy in higher education settings.

EXAMINATIONS

Students take six hours of written examinations based on the core, concentration, and specialization, according to the plan of study developed individually for each student. Concentration areas in which exams may be written include administrative practices, policy studies, and student affairs.

ADMISSION

Applicants to the M.A. program in higher education and student affairs must meet the admission requirements of the Graduate College. Admission is based on grade-point average, Graduate Record Examination (GRE) General Test scores, and promise for professional growth. Transcripts, GRE scores, a résumé, three letters of recommendation, and a statement of educational goals are required. Application deadline is February 1 for admission the following fall.

Ed.S.: Higher Education and Student Affairs

The Specialist in Education program in higher education and student affairs requires 60 s.h. of graduate credit. The program provides advanced graduate study in administration, policy studies, and specializations developed in consultation with the advisor. The Ed.S. also may be awarded upon completion of a joint program
of graduate work in higher education and an academic field, or upon completion of a higher education sequence following a master’s degree program.

REQUIRED COURSES

The Ed.S. program of study must include at least 18 s.h. in professional education and related fields, including an appropriate structured internship determined in consultation with the advisor; at least 28 s.h. in the student’s specialization area and 10 s.h. of electives, all approved by the advisor; and 4 s.h. of research credit in 07B:395 (EPLS:7395) Educational Specialist Research.

COMPREHENSIVE EXAMINATION

The comprehensive examination consists of a take-home written exam covering the field of higher education and student affairs and the student’s concentration area. The written exams may be followed by an oral exam.

RELATED FIELD

Students majoring in another field who want to complete a related field in higher education and student affairs should consult with a higher education and student affairs faculty member early in their study. Plans of study are developed individually.

TEACHING INTERNSHIP

Program participants teach half-time for a full semester at a cooperating community college under the supervision of an experienced faculty member in that college and with field supervision from The University of Iowa. Interns participate in the academic life of the host community college, and they often gather data for their Ed.S. research project during the internship. Participants must be willing to travel to a community college and reside there for the one-semester program.

ADMISSION

Applicants to the Ed.S. program in higher education and student affairs must meet the admission requirements of the Graduate College. Admission is based on grade-point average, GRE General Test scores, and promise for professional growth. Transcripts, GRE scores, three letters of recommendation, and a statement of educational goals are required. Applications must be submitted well in advance of the intended semester of admission.

Ph.D.: Higher Education and Student Affairs

The Doctor of Philosophy program in higher education and student affairs requires 90 s.h. of graduate credit. It prepares faculty and scholar-practitioners for leadership in varied higher education settings. Graduates typically serve in leadership positions in student affairs and academic administration, as graduate faculty, as leaders in conducting research about college students and higher education, and as policy analysts in postsecondary institutions and public or private agencies.

The program offers concentrations in five areas: student affairs administration; policy in higher education; teaching, learning, and curriculum in higher education; organization and administration of higher education; and higher education, culture, and society.

The 90 s.h. required for the Ph.D. includes a substantive common core (24 s.h.), a research core (18 s.h.), a concentration area (12 s.h.), graduate electives (24 s.h.), and dissertation research (12 s.h.).

Each doctoral student must successfully complete two semesters on campus (minimum of 9 s.h. each semester) to fulfill the residency requirement of the Graduate College.

SUBSTANTIVE COMMON CORE

The substantive common core reflects an important foundational understanding of higher education. It is a base of general knowledge that all students must master, regardless of their career goals and interests. All courses in the core (24 s.h.) must be taken at The University of Iowa.

RESEARCH CORE

The research core (18 s.h.) assures that the student achieves scholarly autonomy and initiative.

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site). Course selections must be consistent with the following research core requirements.

All students take the following four courses, or their equivalents, as approved by the advisor and the course instructor.

<table>
<thead>
<tr>
<th>Course</th>

<td>3 s.h.</td>
</tr>
</tbody>
</table>

In addition, students and their advisors choose at least three more research courses appropriate to the student’s research interests.

CONCENTRATION AREA

The concentration area gives students the opportunity to develop a particular expertise. Students may complete up to 24 s.h. in the program before they must declare a concentration, which they must choose from one of the following five areas: higher education, culture, and society; organization and administration; policy in higher education; student affairs administration; and teaching, learning, and curriculum in higher education. Each concentration requires 12 s.h. of credit and has its own course requirements and options.
GRADUATE ELECTIVES

Students choose 24 s.h. of elective graduate course work in consultation with their advisors. The student and his or her advisor may determine that some of the graduate elective work may be drawn from appropriate previous graduate course work that complements other aspects of the student’s doctoral program.

COMPREHENSIVE EXAMINATION

The Ph.D. comprehensive examination consists of a set of take-home questions with a limited time to respond. Questions are based on the substantive core, the student’s concentration, and research core content. The written examination is followed by an oral examination.

DISSERTATION

The dissertation is a major research study planned in collaboration with the student’s advisor. Students must write a formal dissertation proposal and submit it for approval, first to their advisor and then to the members of their doctoral committee. Students and their advisors determine when the proposal is complete. Students must earn 12 s.h. of dissertation research credit. The doctoral program culminates with a final oral defense of the dissertation.

Students must be registered at The University of Iowa each fall and spring semester from the semester in which they complete their comprehensive examination through the semester in which they defend their dissertation and graduate.

ADMISSION

Applications to the Ph.D. program in higher education and student affairs must meet the admission requirements of the Graduate College. Each applicant must submit a personal statement explaining his or her professional goals, experiences, and research plans; undergraduate and graduate transcripts; three letters of recommendation; a résumé; and scores on the Graduate Record Exam (GRE) General Test. Application deadline is January 15 for admission the following fall.

M.A.: Schools, Culture, and Society

The Master of Arts program in schools, culture, and society requires a minimum of 32 s.h. of graduate credit and is offered without thesis. The program develops students’ ability to analyze the influence of social, historical, and philosophical factors that frame contemporary issues in education.

M.A. students complete at least 24 s.h. in schools, culture, and society courses in three disciplinary areas: philosophy, history, and sociology. They earn 9 s.h. in each of two of the areas and 6 s.h. in the third area. The remaining 8 s.h. of course work must be in a concentration area appropriate to the student’s career and academic goals.

Students must satisfactorily complete a six-hour comprehensive examination covering the program’s three disciplinary areas and the student’s concentration area. The examining committee may elect to hold an oral examination after the exam.

ADMISSION

Applicants to the M.A. program in schools, culture, and society must meet the admission requirements of the Graduate College. A personal interview with one or more members of the program’s faculty is recommended. An undergraduate and/or graduate emphasis in education, philosophy, history, sociology, international studies, or the humanities is recommended. Each applicant must submit a personal statement explaining his or her professional goals, experiences, and research plans; undergraduate and graduate grade-point averages; undergraduate and graduate transcripts; three letters of recommendation; a résumé; and scores on the Graduate Record Exam (GRE) General Test. Application deadline is February 15 for admission the following fall.

Ph.D.: Schools, Culture, and Society

The Doctor of Philosophy program in schools, culture, and society requires a minimum of 90 s.h. of graduate credit. The program develops students’ ability to analyze the influence of social, historical, and philosophical factors that frame contemporary issues in education.

Ph.D. students complete a common core (15 s.h.), a disciplinary foundation (9 s.h.), an interdisciplinary focus (9 s.h.), cognate courses (27 s.h.), research tools (18 s.h.), and a dissertation (12 s.h.).

COMMON CORE

All Ph.D. students in schools, culture, and society must complete all five courses in the common core (15 s.h.).

DISCIPLINARY FOUNDATION

Students choose one of three disciplinary foundation areas: sociology, history, or philosophy. They complete 9 s.h. in the area by taking two courses offered by the Department of Educational Policy and Leadership Studies (prefix 07B) and one course offered by the corresponding department in the College of Liberal Arts and Sciences: sociology (prefix 034), history (prefix 016), or philosophy (prefix 026). The following lists provide examples of courses appropriate for the three disciplinary foundation areas.

Students earn a maximum of 27 s.h. in College of Liberal Arts and Sciences (CLAS) courses that are relevant to their program of study. CLAS courses taken to fulfill the disciplinary foundation requirement or the interdisciplinary focus requirement do not count toward the cognate course requirement. Relevant courses completed in earlier graduate study may be accepted for this requirement.

RESEARCH TOOLS

The research tool requirement is 18 s.h. All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college's web site). Students must complete one research course (3 s.h.) on the use of quantitative research in policy evaluation (e.g., 07B:370 (EPLS:6370) Quantitative Methods for Policy Analysis). Students should choose research courses in consultation with their advisors.

COMPREHENSIVE EXAMINATION

The comprehensive examination consists of three take-home exams, each with a maximum of 12 pages. The first exam covers the common core, the second covers the student's interdisciplinary focus area, and the third covers the student's disciplinary foundation area.

DISSERTATION

After completing the comprehensive examination, Ph.D. students write a formal dissertation prospectus and submit it for approval first to their dissertation advisor and then to the members of their dissertation committee. The dissertation prospectus must be formally approved by the dissertation advisor and the dissertation committee before the student may begin his or her dissertation research.

Students must earn 12 s.h. of dissertation research credit. The dissertation process culminates with a final oral defense of the dissertation. Students must register at The University of Iowa each fall and spring semester until the dissertation is successfully defended and the Ph.D. is awarded.

ADMISSION

Applicants to the Ph.D. program in schools, culture, and society must meet the admission requirements of the Graduate College. A personal interview with one or more members of the program’s faculty is recommended. An undergraduate and/or graduate emphasis in education, philosophy, history, sociology, international studies, or the humanities is recommended. Each applicant must submit a personal statement explaining his or her professional goals, experiences, and research plans; undergraduate and graduate grade-point averages; undergraduate and graduate transcripts; three letters of recommendation; and scores on the Graduate Record Exam (GRE) General Test. Admission is for fall semester entry. Application deadline is January 15 for admission the following fall.
07B:100 (EPLS:5100) Issues and Policies in Higher Education 3 s.h.
Development of the idea of a university; selected functions, issues, policies of American higher education.

07B:102 (EPLS:5102) History of American Education 2-3 s.h.
Purposes of public education, diversity, and control of schooling from a historical perspective; emphasis on conflicting interpretations of pivotal events and educational movements; connections between educational policies and larger historical developments.

07B:104 (EPLS:5104) Education in the Third World 2-3 s.h.
Educational implications of various development issues, including role of media, and multinational corporations and foreign aid; educational dilemmas currently facing Third World governments.

07B:110 (EPLS:4110) Administration and Policy in Gifted Education 2 s.h.
Policy, administrative, evaluation issues in developing and maintaining gifted programs in a school setting; participants develop gifted program and policies for a school; for school executives and coordinators of gifted programs.

07B:111 (EPLS:4111) Evaluation of Gifted Programs 1 s.h.
Fundamentals of program evaluation essential for exemplary gifted programs.

07B:113 (EPLS:4113) Staff Development for Gifted Programs 1 s.h.
Planning, content, and delivery of staff development regarding gifted students and their needs.

07B:116 (EPLS:5116) Characteristics of Effective Instruction: Assessment for Learning 3 s.h.
Professional development sequence designed for practicing teachers to develop conceptual knowledge and understanding of Assessment for Learning implementation and practice, a key component of effective instruction; training modules are aligned with the Iowa Department of Education’s “Characteristics of Effective Instruction,” with videos of best practice across the state.

07B:120 (EPLS:5120) Teaching in a Culturally Diverse Society 2-3 s.h.
Issues in education and individual educators’ own practice related to increasing cultural, racial, and linguistic diversity; challenges, concerns.

07B:122 (EPLS:5122) History of School Leadership in the United States 3 s.h.
History of public school administration; 19th-century crusade of Horace Mann and other common-school reformers, social-efficiency movement of early 20th century; gender issues, parental involvement in history of school leadership.

07B:123 (EPLS:5123) History of Ethnic/Minority Education 2-3 s.h.
Educational histories of American ethnic and minority groups; comprehensive understanding of American educational history, context for contemporary educational policy discussions.

07B:126 (EPLS:5126) Twentieth-Century Educational Movements 2-3 s.h.
Current educational policy debates concerning diversity and equity, historical roots of these policies; historical context for 20th-century equal education opportunity movements.

07B:130 (EPLS:5130) Sociology of Education 3 s.h.
Effects of school and school organization on educational outcomes; course-taking patterns and tracking, desegregation, differences in school sector; focus on entire span of student’s academic career; examination of school and organizational effects at the primary, secondary, and postsecondary levels of education. Same as 034:133 (SOC:5130).

07B:131 (EPLS:5131) Race, Class, and Gender Inequalities in Education 3 s.h.
Role of ascribed characteristics (e.g., race, class, gender) on educational opportunities and outcomes; achievement gaps, school desegregation, social and cultural capital, peer influence, family attributes, neighborhood influence, influence of significant others, course-taking patterns, and educational destinations.

07B:134 (EPLS:5134) Education and the World of Work 2-3 s.h.
Relationship between education and work in individual and organizational behavior, and between educational and economic systems; economics, psychology, sociology, education.

07B:142 (EPLS:5142) Sociology of Higher Education 3 s.h.
Sociological approach to study of higher education; issues of inequality and stratification in higher education; focus on relationship between higher education and larger economic and demographic processes; college access, college destinations, attainment, and returns to a college degree. Same as 034:280 (SOC:5680).

07B:150 (EPLS:4150) Leadership and Public Service I 3 s.h.
Preparation for providing public service to a local community; leadership skills for effective mentoring of children in grades 6-10.

07B:151 (EPLS:4151) Leadership and Public Service II 2 s.h.
Preparation to provide leadership and public service to a local community agency; being a leader and a public servant in the context of societal oppressions such as racism, sexism, able-bodyism; part of the human relations minor. Prerequisites: 07B:150 (EPLS:4150).

07B:154 (EPLS:5154) Education, Race, and Ethnicity 2-3 s.h.
Role of education in ethnic and racial stratification in the United States and other nations; influence of variations in family structure, stratification patterns, institutional constraints in formation of educational aspirations and achievement levels. GE: Values, Society, and Diversity.

07B:155 (EPLS:5155) Critical Thinking 3 s.h.
Formal and informal logic and probabilistic reasoning; focus on construction and critical analysis of arguments; introduction for students planning research in social foundations.

07B:156 (EPLS:5156) Philosophies of Education 2,3,5 s.h.
Principal educational philosophers and philosophies that have influenced Western education; emphasis on how philosophical ideas and conflicts have shaped the educational scene.

07B:157 (EPLS:5157) Ethics in Education 3 s.h.
Major theories of the nature of ethical action and of value judgment; theoretical accounts related to the practical decision making contexts of teaching.
- **07B:158 (EPLS:5158) John Dewey and Education** 2-3 s.h.
  Dewey’s philosophy of instrumentalism, with emphasis on his theories of knowledge, valuation, aesthetics, especially as applied to educational theory and practice.

- **07B:165 (EPLS:5165) Introduction to Program and Project Evaluation** 3 s.h.
  Skills and knowledge required for conducting evaluations of products, projects, and programs; recent scholarship on evaluation and project management. Same as 07P:165 (PSQF:5165).

- **07B:176 (EPLS:5176) Demographic Techniques for Educational Research** 3 s.h.
  Basic demographic concepts, techniques, resources; life table analysis, enrollment projections, demographic measurement, shift-share analysis.

- **07B:180 (EPLS:4180) Human Relations for the Classroom Teacher** 3 s.h.
  Influence of social factors such as discrimination, diversity, equity, racism, sexism, and ethnic and socioeconomic pluralism on American schools and classrooms; for teacher education candidates. GE: Values, Society, and Diversity.

- **07B:181 (EPLS:4081) ePortfolio Production** 1-2 s.h.
  Experience producing an ePortfolio and uploading it to the Internet; practical experience using digital tools, content and design related to ePortfolio production; experience using a web browser and access to the Internet and to a digital camera or scanner. Requirements: able to perform basic computer functions and use a World Wide Web browser. Same as 07P:181 (PSQF:4081), 07X:181 (EALL:4081), 07E:181 (EDTL:4081), 07C:181 (RCE:4081).

- **07B:195 (EPLS:5195) Research in Cross-Cultural Settings** 3 s.h.
  Cultural, psychological, logistical issues in conducting research in foreign settings; development of a research plan, recent debates in ethnographic research literature.

- **07B:200 (EPLS:6200) Leadership ePortfolio Production** 1 s.h.
  Foundation and skill practice in technology tasks relevant to educational leadership; experience formulating an education leader’s ePortfolio.

- **07B:201 (EPLS:6201) Foundations of School Administration** 3 s.h.
  Organization and administration of American public education; principles and concepts of leadership and organizations; socioeconomic, political, and professional factors relating to education and school administration.

- **07B:202 (EPLS:6202) Information Resources** 3 s.h.
  Research strategies, information literacy skills, University of Iowa Libraries and other sources for research.

- **07B:206 (EPLS:6206) Research Process and Design** 3 s.h.
  Research process, with emphasis on fundamentals of experimental design, internal and external validity, correlational designs, and statistical inference.

- **07B:209 (EPLS:6209) Survey Research and Design** 3 s.h.
  Survey design and implementation; writing and evaluation of survey questions; error in survey research; techniques to reduce error; sampling; postcollection processing of survey data. Prerequisites: 07B:206 (EPLS:6206) or 07P:143 (PSQF:5143). Same as 07P:209 (PSQF:6209).

- **07B:210 (EPLS:5210) Education and Social Change** 2-3 s.h.
  Role of educational institutions, in connection with political and economic structures, in the process of social change; illumination of theories of social change through case studies of educational systems in both less-developed and industrialized nations. Same as 034:310 (SOC:5810).

- **07B:214 (EPLS:6214) Individualized Instruction, Law** arr.
  Readings, special projects, and/or studies that reflect joint instructor/student interest in area of law.

- **07B:216 (EPLS:6216) Finance in Higher Education** 3 s.h.
  Theory, research, policy, and practice related to public and private funding of higher and postsecondary education.

- **07B:217 (EPLS:6217) Theory and Practice of Leadership** 2-3 s.h.
  Theory-based literature and critiques of leadership as applied to educational institutions.

- **07B:218 (EPLS:6218) The Law and Higher Education** 3 s.h.
  The role of law as it affects postsecondary institutions; analysis of case law in specific areas of concern to administrators, faculty, staff, students.

- **07B:220 (EPLS:6220) History of Higher Education** 3 s.h.
  History of postsecondary education in the United States; emphasis on conflicting interpretations of pivotal developments; consideration of access, curriculum, student life, academic freedom, role of universities in society, and balance of teaching, research and service from a historical perspective.

- **07B:221 (EPLS:6221) The College Curriculum** 3 s.h.
  Issues, principles, policies, and practices in college curriculum development; diverse philosophical, historical, cultural, social, psychological, political foundations of contemporary college curricula; perspectives on and models of college curriculum, related processes of teaching and learning; principles and practices that guide design and change of higher education curriculum.

- **07B:222 (EPLS:6222) Introduction to Policy Analysis and Evaluation** 3 s.h.
  Theoretical and technical approaches to analysis and evaluation of contemporary public policies.

- **07B:224 (EPLS:6224) Organizational Theory and Administrative Behavior** 3 s.h.
  Theories and concepts of organizational behavior applied in structural, organizational, administrative contexts of American education.

- **07B:225 (EPLS:6225) Introduction to Public Policymaking** 2-3 s.h.
  Overview of public policy making and the tools used to create and deliver policy benefits to constituents.

- **07B:226 (EPLS:6226) Educational Management** 2-3 s.h.
  Literature and research on management; emphasis on American education.

- **07B:228 (EPLS:6228) Policy Design and Implementation** 2-3 s.h.
  Review of literature, emphasis on policy drafting skills for administration and management in education and other settings.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>07B:230</td>
<td>Alternative Models of Schooling</td>
<td>2-3 s.h.</td>
<td>Popular alternatives to K-12 and postsecondary education; homeschooling, boarding schools, charter schools, magnet schools; construction of a conceptual framework for understanding alternatives.</td>
</tr>
<tr>
<td>07B:232</td>
<td>Advanced Theory Sociology of Education</td>
<td>3 s.h.</td>
<td>Sociology of education; concepts and nature of the field; strengths and weaknesses of theories and paradigms; research. Prerequisites: 07B:130 (EPLS:5130).</td>
</tr>
<tr>
<td>07B:236</td>
<td>Administration of Students with Special Needs</td>
<td>3 s.h.</td>
<td>Foundation for and skill practice in tasks performed by directors of special education and others administering to needs of special education students, and economically and socially deprived students; for prospective school administrative personnel. Same as 07U:236 (EDTL:6936).</td>
</tr>
<tr>
<td>07B:237</td>
<td>History of the Teaching Profession</td>
<td>3 s.h.</td>
<td>History of public school teaching, and teachers' problematic professional status; teacher education in the 19th and 20th centuries; formation and activities of teacher unions in the 20th century.</td>
</tr>
<tr>
<td>07B:238</td>
<td>Gender and Education in Historical Perspective</td>
<td>3 s.h.</td>
<td>Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as 131:238 (GWSS:6238).</td>
</tr>
<tr>
<td>07B:240</td>
<td>Topics in Education</td>
<td>arr.</td>
<td>Seminar for intensive study of one problem, issue, or work field.</td>
</tr>
<tr>
<td>07B:242</td>
<td>Research for Effective School Leaders</td>
<td>3 s.h.</td>
<td>Fundamental language of contemporary research; identification and application of basic research components to contemporary educational leadership problems; applicability of research toward effective decision making.</td>
</tr>
<tr>
<td>07B:245</td>
<td>The American Professorate</td>
<td>3 s.h.</td>
<td>Research on college and university faculty members; perspectives on faculty careers, values, beliefs, role in shared governance; tenure process and policies; issues unique to faculty members of color and women faculty members.</td>
</tr>
<tr>
<td>07B:247</td>
<td>Multiculturalism in Higher Education</td>
<td>3 s.h.</td>
<td>Theory and application of multicultural competency in higher education.</td>
</tr>
<tr>
<td>07B:250</td>
<td>Introduction to Student Affairs</td>
<td>3 s.h.</td>
<td>Foundations of student affairs work; overview of institutional cultures, legal issues, ethical principles, standards of practice in student affairs.</td>
</tr>
<tr>
<td>07B:251</td>
<td>College Students and Their Environments</td>
<td>3 s.h.</td>
<td>Characteristics of college students and issues they face; students' institutional, social, cultural environments; impact of environments on student learning, development.</td>
</tr>
<tr>
<td>07B:252</td>
<td>Administration of Higher Education and Student Affairs</td>
<td>3 s.h.</td>
<td>Administrative structures and processes in higher education settings. Requirements: higher education and student affairs major.</td>
</tr>
<tr>
<td>07B:253</td>
<td>Assessment in Higher Education and Student Affairs</td>
<td>3 s.h.</td>
<td>Theories, practices, and issues relevant to assessment of student outcomes and institutional effectiveness in higher education; basic overview of research, assessment, and evaluation; elements of assessment design, including methods for data collection and analysis; relevant ethical and political dilemmas; practical assessment activities. Requirements: M.A. standing in higher education and student affairs program.</td>
</tr>
<tr>
<td>07B:260</td>
<td>Contemporary Management Strategies for the Pre-K-12 Principal</td>
<td>3 s.h.</td>
<td>Leadership skills and management techniques for daily organization and operation of schools; emphasis on climate, communication, group processes, conflict resolution, curriculum management.</td>
</tr>
<tr>
<td>07B:265</td>
<td>Standards-Based Education and Accountability</td>
<td>3 s.h.</td>
<td>Standards-based education; academic content standards, K-12 articulation, alignment studies, use of standardized test results to evaluate academic programs.</td>
</tr>
<tr>
<td>07B:270</td>
<td>Policy and Politics of Leadership</td>
<td>3 s.h.</td>
<td>Current issues from academic journals, states, think tanks, consortia.</td>
</tr>
<tr>
<td>07B:273</td>
<td>The College Student</td>
<td>3 s.h.</td>
<td>Overview of theories, research, practices, and issues relevant to understanding students in institutions of higher education. Requirements: Ph.D. standing in Higher Education and Student Affairs program.</td>
</tr>
<tr>
<td>07B:275</td>
<td>Diversity and Equity in Higher Education</td>
<td>3 s.h.</td>
<td>Historical, contemporary, theoretical, and empirical aspects of diversity and equity in higher education; unique experiences of members of historically under-represented groups; challenges of transforming institutions to make them more responsive to the experiences of diverse groups.</td>
</tr>
<tr>
<td>07B:278</td>
<td>Helping Skills in Student Affairs Work</td>
<td>3 s.h.</td>
<td>Development of ability to identify, understand, and intentionally apply the active attending and influencing skills; readings and class presentations.</td>
</tr>
<tr>
<td>07B:285</td>
<td>School and Community Relationships</td>
<td>3 s.h.</td>
<td>Community analysis, politics and education, power groups and influences, school issues and public responses, public relations strategies.</td>
</tr>
<tr>
<td>07B:290</td>
<td>Master's Project</td>
<td>arr.</td>
<td>Research for the nonthesis program; topic approved by advisor.</td>
</tr>
<tr>
<td>07B:291</td>
<td>Administration of Educational Programs and Personnel</td>
<td>3 s.h.</td>
<td>Personnel and program planning examined against statements of educational purpose; interrelationships and internal consistencies of program and staff administration from perspectives of philosophy, psychology, learning theory, sociology, curriculum theory.</td>
</tr>
</tbody>
</table>
07B:293 (EPLS:6293) Individualized Instruction
Readings, special projects, and/or studies that reflect joint instructor/student interest.

07B:297 (EPLS:7297) Administrative Leadership Theory
Administrative leadership theory drawn from social psychology, sociology, political science, communications, business, and their applications; analysis and formulation of strategies for performing leadership functions in educational administration.

07B:298 (EPLS:6298) Legal Aspects of School Personnel
Teacher and student: liability, negotiations, rights, privileges, responsibilities of school personnel; principles of law derived from court decisions; constitutional and statutory provisions for teachers and administrators.

07B:299 (EPLS:6299) Legal Aspects of School Administration
Nonpersonnel concepts in education: organization, property, finance, religion, discrimination, intergovernmental relations; use of constitutional and statutory provisions plus court decisions; primarily for administrators but applicable to teachers.

07B:301 (EPLS:6301) Professional Seminar in Student Affairs I
Orientation to field; writing and academic support.

07B:302 (EPLS:6302) Professional Seminar in Student Affairs II
Working with groups in higher education.

07B:303 (EPLS:6303) Professional Seminar in Student Affairs III
Consulting, training, and curriculum development in student affairs.

07B:304 (EPLS:6304) Professional Seminar in Student Affairs IV
Professional identity, job search support.

07B:311 (EPLS:6311) Seminar: Research Topic in Education
Topic submitted by students, faculty.

07B:315 (EPLS:6315) Orientation to the Superintendency
Leadership theory and research of the superintendent's role of increasing student achievement; personal goals for communication; ethics, integrity, flexibility, reflective, and collaborative leadership; expectations of the superintendent by the board of directors; defining one's role; developing an entry plan; dealing with social/emotional isolation of superintendency; and influences in the larger political, social, economic, legal, and cultural context.

07B:317 (EPLS:6317) Operational Leadership and Management
Managing fiscal and physical resources responsibly, efficiently, and effectively; effective communication of school operations; leadership and management of nutrition program, transportation program, facilities, construction; board policy, legal issues; state reporting, ethical decision-making; relationship building, problem solving amidst barriers and various stakeholder groups.

07B:319 (EPLS:6319) Human Resources Leadership
Leadership theory and research of the superintendent's role of aligning human resources practice and increasing student achievement; employment law; contract negotiations process/collective bargaining; contract maintenance; recruiting, selecting, developing, and retaining employees; working with labor unions and Public Employee Relations Board; special education law; Evaluator 2 Training. Requirements: Evaluator 1 Training.

07B:321 (EPLS:6321) Social Advocacy Summit
Summit format; challenges and opportunities in Iowa's K-12 schools with changing demographics; opportunity for K-12 school districts and higher education institutions to engage in conversation on how to meet the needs of students and local school districts.

07B:332 (EPLS:6323) School Finance
Manage fiscal and physical resources; communicate effectively with internal and external audiences regarding school operations; comply with state and federal mandates and local board policies; align educational programs, plans, actions, and resources with the district vision and goals.

07B:333 (EPLS:6333) Practicum
Small-scale research projects; supervised experience in planning, design, management, analysis, reporting of research activities; assignments to current and personal faculty research projects; student assumes major responsibility.

07B:334 (EPLS:6334) College Student Learning, Cognitive, and Moral Development
Learning and development of college students; theoretical models of learning, cognitive development, moral development; applications to student affairs work.

07B:336 (EPLS:6336) Impact of College on Students
Introduction to literature; career and economic returns, values and attitudes, learning and cognitive development, assessment and methodological issues of studying college outcomes. Prerequisites: 07B:206 (EPLS:6206).

07B:337 (EPLS:7337) Theoretical Perspectives on Student Affairs Administration
Issues and problems in student affairs administration; theories of organization, administration, leadership. Requirements: enrollment in educational policy and leadership studies Ph.D. program.
07B:358 (EPLS:6358) Seminar in the Philosophy of John Dewey 3 s.h.  
John Dewey and education; extensive reading of the works of Dewey and of contemporary authors who comment on, interpret, or employ Deweyan philosophy. Prerequisites: 07B:158 (EPLS:5158).

07B:367 (EPLS:7367) Seminar: Current Issues in Special Education Administration 3 s.h.  
New developments in administration; new content each year. Requirements: 07B:236 (EPLS:6236).

07B:370 (EPLS:6370) Quantitative Methods for Policy Analysis 3 s.h.  
Methodological strategies for quantitative research; analysis of secondary data to investigate educational issues and policies; recoding variables, summation scaling and factor analysis, missing data, sample design and survey estimation, model building; identification and diagnosis of linear regression diagnostics; hands-on experience conducting statistical analysis of social data. Prerequisites: 07P:143 (PSQF:5143) and 07P:243 (PSQF:6243).

07B:373 (EPLS:7373) Qualitative Research Design and Methods 3 s.h.  
Theory and practice of qualitative research design and methodology; exploratory field experience in collection and analysis of data; individual and focus group interviews, participant observation. Requirements: Ph.D. standing.

07B:380 (EPLS:7380) Practicum in College Teaching 2 s.h.  
Supervised college teaching experience in courses related to major academic areas; collaboration with faculty course instructors.

07B:381 (EPLS:6381) Analysis and Appraisal of Curriculum 3 s.h.  
Comprehensive investigation of systematic procedures and resources for identifying and evaluating essential features and constituent elements of a given school district’s curricular offering; state and federal requirements of the curricular program; for persons in administration, curriculum, and supervision programs or positions.

07B:383 (EPLS:6383) Supervision and Evaluation 3 s.h.  
Data collection and management skills; data-driven leadership; coaching and feedback techniques; teacher quality legislation; research and best practice regarding teacher evaluation, supervision; teaching standards.

07B:385 (EPLS:7385) Teaching and Learning in Higher Education 3 s.h.  
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 650:385 (GRAD:7385), 07S:384 (EDTL:7385), 07C:385 (RCE:7385).

07B:400 (EPLS:6400) Early Childhood Leadership Clinical 2-3 s.h.  
Classroom instruction and supervised experience with problems in early childhood educational administration; organization, planning, evaluation, decision making.

07B:401 (EPLS:6401) Elementary Leadership Clinical 1-3 s.h.  
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision making; individual project in a school setting.

07B:402 (EPLS:6402) Secondary Leadership Clinical 1-3 s.h.  
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision making; individual project in a school setting.

07B:403 (EPLS:6403) Special Education Leadership Clinical 1-3 s.h.  
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision making; individual project in a school setting.

07B:404 (EPLS:6404) Central Administration Clinical 1-3 s.h.  
Supervised experience working with problems in educational administration, including organization, planning, evaluation, decision making; individual project in a school setting.

07B:415 (EPLS:6415) Orientation to the Superintendency: Clinical 2 s.h.  
Clinical experience aligned with course topics and assignments in a K-12 school or other educational organization; development of a clinical plan with the guidance of a university professor and local school district mentor based on course requirements, career goals, and interests.

07B:417 (EPLS:6417) Operational Leadership Clinical 1-3 s.h.  
Clinical experience aligned with course topics and assignments in the operational leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

07B:419 (EPLS:6419) Human Resources Leadership Clinical 2 s.h.  
Clinical experience aligned with course topics and assignments in the human resources leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

07B:425 (EPLS:6425) Organizational and Educational Leadership Clinical 1 s.h.  
Clinical experience aligned with course topics and assignments in the organizational and educational leadership course; completion of clinical in a K-12 school or other appropriate educational organization; development of a clinical plan based on course requirements, career goals, and student interests with guidance from a university professor and local school district mentor.

07B:431 (EPLS:7431) Seminar: Research on College Students 3 s.h.  
College student learning and development, outcomes, persistence. Requirements: enrollment in educational policy and leadership studies Ph.D. program.
07B:432 (EPLS:7432) Multicultural Initiatives 3 s.h.
Impact of culture, race, ethnicity, and intersection of identity in higher education, student affairs, and community agency settings; knowledge, skills, and competencies needed by teachers, student affairs professionals, social workers, counselors, and educational administrators to facilitate individual empowerment through relationships; focus on different ways to design multicultural initiatives to various professional work settings to promote diversity. Requirements: Ph.D. standing or advanced-level M.A. standing. Recommendations: introductory course on issues of race, culture, gender; and/or any course on sociopolitical issues or structural oppression strongly recommended.

07B:433 (EPLS:7433) Current Issues in Higher Education and Student Affairs 3 s.h.
Current issues related to higher education; opportunity to clarify perspectives; review of literature in a particular area of interest; readings, class discussions, independent research, consultations with professionals in the field, student presentations. Requirements: higher education and student affairs Ph.D. standing.

07B:444 (EPLS:7444) Advanced Practicum in Student Affairs arr.
Supervised work experience in student affairs settings.

Supervision of research, design, and writing of Ph.D. thesis; individual instruction.
Psychological and Quantitative Foundations

Chair
Timothy N. Ansley

Professors

Professors emeriti
Robert A. Forsyth, David A. Frisbie, Hiram D. Hoover, Nancy Ewald Jackson, Lowell A. Schoer

Clinical professor
Sam V. Cochran

Associate professors
Stephen M. Alessi, Saba Ali, Robert D. Ankenmann, Timothy N. Ansley, Kathryn C. Gerken, Won-Chan Lee, Kristen Missall, Joyce L. Moore, John Northup, Kathy L. Schuh

Associate professor emeritus
Carl S. Davis

Adjunct associate professor
E. James Maxey

Clinical associate professor
Mitchell Kelly

Assistant professors
Kathy Banks, Megan Foley Nicpon

Adjunct assistant professors

Clinical assistant professor
Ann Garcia-Santos

Undergraduate minor: educational psychology

Graduate degrees: M.A.in psychological and quantitative foundations; Ed.S.in psychological and quantitative foundations; Ph.D. in psychological and quantitative foundations

Web site: http://www.education.uiowa.edu/pq

The Department of Psychological and Quantitative Foundations offers programs in four areas: counseling psychology, educational measurement and statistics, educational psychology, and school psychology. These programs have two general goals: to help students acquire the knowledge and skills necessary to function effectively in settings that require the application of psychological and quantitative principles; and to extend knowledge and understanding of the teaching/learning process as it occurs in a variety of settings. The department's degree programs incorporate both goals, but the Master of Arts and Specialist in Education programs emphasize the first goal, and the Doctor of Philosophy programs emphasize the second.

Undergraduate Program

• Minor in educational psychology

In addition to offering a minor for undergraduates, the department offers a course (07P:025 (PSQF:1020) Elementary Statistics and Inference) that is approved for the Quantitative or Formal Reasoning area of the College of Liberal Arts and Sciences General Education Program (p. 276).

Minor

The minor in educational psychology is open to all College of Liberal Arts and Sciences students enrolled in an undergraduate degree program. The minor provides an enriched background in educational psychology, education testing, and research methods in education. It does not lead to certification for public school teaching. Students earning the minor select a department advisor, who helps them choose appropriate course work.

The minor in educational psychology requires 15 s.h., including 12 s.h. earned at The University of Iowa and 12 s.h. earned courses numbered 100 and above. Students must maintain a g.p.a. of at least 2.50 in the minor. Transfer credit must be approved in order to count toward the minor.

Course work for the minor must include 15 s.h. selected from the following list.

07P:075 (PSQF:1075) Educational Psychology and Measurement 3 s.h.
07P:106 (PSQF:5106) Child Development 3 s.h.
07P:111 (PSQF:5111) Motivation 3 s.h.
07P:120 (PSQF:4120) Psychology of Giftedness 3 s.h.
07P:130 (PSQF:4130) Early Adolescent Development 3 s.h.
07P:133 (PSQF:4133) The Adolescent and Young Adult 3 s.h.
07P:134 (PSQF:4134) Parent-Teacher Communication 1-3 s.h.
07P:143 (PSQF:5143) Introduction to Statistical Methods 3 s.h.
07P:150 (PSQF:5150) Introduction to Educational Measurement 3-4 s.h.
07P:165 (PSQF:5165) Introduction to Program and Project Evaluation 3 s.h.
07P:203 (PSQF:6203) Learning, Technology, and Effective Teaching 3 s.h.
07P:205 (PSQF:6205) Design of Instruction 3 s.h.

Contact the Office of Education Services for more information about the minor.

Graduate Programs

• Master of Arts in psychological and quantitative foundations

• Specialist in Education in psychological and quantitative foundations

• Doctor of Philosophy in psychological and quantitative foundations

The department offers graduate degree programs in four major areas within psychological and quantitative foundations:

Counseling psychology (offered in the Ph.D.);
Educational measurement and statistics (offered in the M.A. and Ph.D.); educational psychology (offered in the M.A. and Ph.D.); and school psychology (offered in the Ed.S. and Ph.D.). Each program is described below.

Applicants for admission to University of Iowa graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

**REQUIRED PH.D. RESEARCH COURSES**

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site). Course selections must be consistent with the requirements listed under “Statistics and Research Design” below.

**STATISTICS AND RESEARCH DESIGN**

Two courses are required.

07P:243 (PSQF:6243) Intermediate Statistical Methods 4 s.h.

One of these:

07P:244 (PSQF:6244) Correlation and Regression 4 s.h.
07P:246 (PSQF:6246) Design of Experiments 4 s.h.

**COUNSELING PSYCHOLOGY CORE**

All of these:

07P:223 (PSQF:6223) & 07P:225 (PSQF:6225) Introduction to Counseling Psychology Practice/Research I-II 6 s.h.
07P:235 (PSQF:6235) Multicultural Counseling 3 s.h.
07P:305 (PSQF:7305) Psychotherapy I: Dynamic and Phenomenological Approaches 3 s.h.
07P:306 (PSQF:7306) Psychotherapy III: Career Interventions 3 s.h.
07P:309 (PSQF:7309) Personality Assessment 3 s.h.
07P:310 (PSQF:7310) Intelligence Assessment 3 s.h.
07P:356 (PSQF:7356) Process and Outcomes in Counseling Psychotherapy 3 s.h.
07P:365 (PSQF:7365) Psychotherapy II: Cognitive and Behavioral Approaches 3 s.h.
07P:434 (PSQF:7434) Practicum in Counseling Psychology 3 s.h.
07P:452 (PSQF:7452) Leadership, Consultation, and Supervision 3 s.h.
07P:453 (PSQF:7453) Advanced Practicum in Counseling Psychology (repeatable) 1-3 s.h.
07P:465 (PSQF:7465) Issues and Ethics in Professional Psychology 3 s.h.

Students must enroll in practicums to reach a specified level of client contact, supervision, and additional experience hours. The first practicum’s site typically is University Counseling Service. Subsequent placements at other sites must have prior approval of the counseling psychology faculty. Students must successfully complete one semester of 07P:299 (PSQF:6299) M.A. Project: The Portfolio before enrolling in 07P:453 (PSQF:7453) Advanced Practicum in Counseling Psychology.

**ELECTIVES**

Elective courses are determined in collaboration with the major advisor.

**INTERNSHIP**

Students spend a calendar year in an internship setting approved by the counseling psychology faculty. The faculty determines student readiness to apply for the internship based on completion of all or almost all required course work, satisfactory progress toward completion of the portfolio requirement, and successful completion of practicum requirements. Internships usually require geographic relocation.

**COMPREHENSIVE EXAM AND DISSERTATION**

Comprehensive examinations are written in counseling psychology ethics and issues. The comprehensive examination is structured as a component of the portfolio...
review. For more information, contact the program coordinator.

The dissertation research study is planned in collaboration with the doctoral student’s major advisor. Dissertation credit ranges from 12 to 15 s.h.

ADMISSION

Applicants to the Ph.D. program in counseling psychology must meet the admission requirements of the Graduate College. Preference is given to applicants who have an undergraduate g.p.a. above 3.00 and a graduate g.p.a. above 3.50; an undergraduate major, minor, or substantial course work in psychology; a combined verbal and quantitative score above 1200 on the Graduate Record Examination (GRE) General Test; and previous research and counseling experience.

Application materials must include a Graduate College application form; official transcripts of all previous college work; an official report of GRE General Test scores (the GRE advanced test in psychology is recommended but not required); a personal statement outlining career goals and reasons for seeking advanced training in counseling psychology; and three letters of recommendation from individuals qualified to assess the applicant’s potential for completing the doctoral program. The faculty encourages applications from minorities, women, and persons from a wide range of backgrounds and academic preparation. The program typically accepts between five and eight students each year.

Admission is for fall entry. Application deadline is December 1. Admissions decisions usually are made by March 1. Applicants are invited to campus for interviews before final selection. All students must study full-time.

M.A.: Educational Measurement and Statistics

The Master of Arts program in educational measurement and statistics requires a minimum of 30 s.h. of graduate credit with thesis and 32 s.h. of graduate credit without thesis. The program provides students with basic knowledge of educational measurement and research methodology. Graduates find employment in large school systems, state departments of education, test publishing organizations, and research centers. The program also is appropriate for students who wish to broaden their knowledge of measurement and research methodology for personal development or professional improvement.

All M.A. students must complete a core of courses (approximately 26 s.h.) that includes a graduate-level survey course in educational psychology, elementary and intermediate courses in statistical methods, a course in educational research methodology, and courses in the development and use of evaluation instruments. Students who already have completed equivalent courses at another institution may add more advanced courses to the core.

Thesis students complete 2 s.h. of additional course work beyond the core and earn 2-4 s.h. of thesis credit. Nonthesis students complete 6 s.h. of additional course work beyond the core.

The six-hour comprehensive examination typically includes three-hour examinations in educational measurement and in applied statistics. With the approval of the M.A. committee, a student may take two-hour examinations in these fields plus a two-hour examination in educational psychology or a substitute area. Three-hour examinations assume a minimum of three courses in the area; two-hour examinations assume a minimum of two courses in the area.

ADMISSION

Applicants to the M.A. program in educational measurement and statistics must meet the admission requirements of the Graduate College. They should have a combined verbal and quantitative score of at least 1000 on the Graduate Record Examination (GRE) General Test. Completion of at least one college mathematics course and experience as a teacher or researcher are desirable. Applicants who do not meet these requirements but who show offsetting evidence of superior ability may be granted conditional admission.

Applicants must submit a statement of purpose that explains how the educational measurement and statistics program will help them accomplish their educational and vocational goals. For information about admission dates, contact the educational measurement and statistics program coordinator.

Ph.D.: Educational Measurement and Statistics

The Doctor of Philosophy program in educational measurement and statistics requires a minimum of 90 s.h. of graduate credit. The program prepares students for senior professional positions in educational measurement, evaluation, and statistical methods. Graduates find employment in colleges and universities, state and federal agencies, large public and private school systems, test publishing firms, and research centers.

During the first year of graduate study, the student and his or her advisor plan a program of study appropriate for the student’s interests and vocational objectives. The typical program involves advanced work in educational measurement, data analysis methods, research methodology, and educational psychology. Work in other University of Iowa departments is encouraged.

Students who concentrate in statistics and intend to teach at the college level take courses in the mathematical theory of statistics. Those who concentrate in educational measurement and evaluation take appropriate courses in curriculum, counseling, or higher education.

All students are required to develop familiarity with computer programming techniques and equipment.

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

Students who enter the program without completing an M.A. thesis must complete a substitute project before taking the Ph.D. comprehensive examinations.

After completing most of their course work, students take the comprehensive examination, which typically consists
of three 3-hour written examinations on educational measurement, applied statistics, and program evaluation, or approved substitute areas, such as educational psychology or mathematical statistics, in which the student has completed at least 9 s.h. of course work. In place of one written examination, the student’s committee may assign a project involving analytical and evaluative skills, or research creativity. The written examinations are followed by an oral examination in which the committee seeks further evidence of the student’s command of the three fields. A single decision is made on all aspects of the comprehensive examination.

Work for the Ph.D. concludes with the dissertation, which is included in the 90 s.h. required for the degree.

**ADMISSION**

Applicants to the Ph.D. program in educational measurement and statistics must meet the admission requirements of the Graduate College. They must have a combined verbal and quantitative score of at least 1000 on the Graduate Record Examination (GRE) General Test. They also must hold an M.A. from an accredited institution. At least one year of professional experience in teaching, research, or a related field is desirable. Applicants who expect to concentrate in statistics should have training in college mathematics through differential and integral calculus. Applicants who do not meet these requirements but who show offsetting evidence of superior ability may be granted conditional admission.

Applicants must submit a statement of purpose that explains how the educational measurement and statistics program will help them accomplish their educational and vocational goals.

For information about admission dates, contact the educational measurement and statistics program coordinator.

**M.A.: Educational Psychology**

The Master of Arts program in educational psychology requires a minimum of 30 s.h. of graduate credit. It is designed to help students become more effective practitioners by enhancing their ability to make responsible and creative decisions about how to help all of their students learn. By providing an evidence-based perspective on instructional approaches that work, it also addresses the emphasis on teachers’ accountability for choosing empirically supported approaches.

The program is intended for working educators. Many of its courses are offered in late afternoons, evenings, and summers.

M.A. students develop a program of study in consultation with their advisors. Each student’s progress is evaluated by the faculty after one academic year (two semesters) of study and during subsequent years.

Full-time students typically take at least 9 s.h. each semester, with the option of additional summer session work; they usually complete the program in four semesters. Part-time M.A. students take 3-6 s.h. each semester; they usually complete the degree in two or three years.

Students complete a required common core of courses, select additional educational psychology courses and electives appropriate to their professional goals, and complete a portfolio project. The two core courses, which are taken during the first year, prepare students for the M.A. program. Educational Psychology for Effective Teaching (07P:221 (PSQF:6221)) introduces them to a broad sampling of topics in educational psychology (e.g., development, cognition, motivation). Also during the first year, students begin their portfolios, which they continue to build throughout the program and complete during their final M.A. semester.

Students may apply to substitute equivalent course work from another institution or department for required or recommended courses.

**REQUIRED CORE**

Both of these:

- 07P:202 (PSQF:6202) Understanding Educational Research 3 s.h.
- 07P:221 (PSQF:6221) Educational Psychology for Effective Teaching 3 s.h.

**EDUCATIONAL PSYCHOLOGY COURSES**

Five of these:

- 07P:106 (PSQF:5106) Child Development 3 s.h.
- 07P:111 (PSQF:5111) Motivation 3 s.h.
- 07P:203 (PSQF:6203) Learning, Technology, and Effective Teaching 3 s.h.
- 07P:205 (PSQF:6205) Design of Instruction 3 s.h.
- 07P:208 (PSQF:6208) Designing Educational Multimedia 3 s.h.
- 07P:281 (PSQF:6281) Cognitive Theories of Learning 3 s.h.
- 07P:301 (PSQF:6301) Human Abilities 3 s.h.

**ELECTIVES**

Students select two electives (6 s.h.) based on their interests and in consultation with their advisors. Electives typically are chosen from areas outside educational psychology.

**PORTFOLIO PROJECT**

The program’s capstone project is a portfolio. Students enroll in 07P:299 (PSQF:6299) M.A. Project: The Portfolio (3 s.h.) during their final M.A. semester. The goal of the portfolio is to show how understanding and practical application of educational psychology can help the student become a more effective educator.

The portfolio is a creative and highly individual project. Each student’s portfolio reflects his or her own unique learning and synthesis of knowledge. Students begin building the portfolio during their first year, making an entry as they complete each course throughout the M.A. program. Portfolio entries vary widely. For example, the entry for a technology course might include a web site the student developed for the course, while the entry for a development course might detail an intervention program the student constructed to address problems of student aggression.

During enrollment in 07P:299 (PSQF:6299) M.A. Project: The Portfolio, the student revises and adds to his or her portfolio, then presents the portfolio to a group of faculty and students.

**ADMISSION**

Applicants to the M.A. program in educational psychology must meet the admission requirements of the Graduate College, including minimum grade-point average. They must have a combined verbal and quantitative score of at least 1000 on the Graduate Record Examination (GRE).
General Test; successful applicants usually score higher. International applicants whose first language is not English must submit acceptable scores on the Test of English as a Foreign Language (TOEFL). Teaching experience is desirable but not required.

Application deadline for fall semester entry is February 1. Review of applications for fall semester begins January 1, when applicants who wish to be considered for fellowships and other awards are screened. Application deadline for spring semester entry is October 1. Admission decisions are announced approximately one month after the application deadlines.

Applicants who accept admission or financial aid and do not relinquish either one on or before April 15 are committed not to solicit or accept another offer. Offers made by the program after April 15 include the provision that the offer is void if the applicant has accepted and continues to hold a previous offer from another program listed in the American Psychological Association publication *Graduate Study in Psychology and Associated Fields*. This policy is consistent with standards set by the association’s Board of Educational Affairs.

**Ph.D.: Educational Psychology**

The Doctor of Philosophy program in educational psychology requires a minimum of 72 s.h. of graduate credit. It is designed to help students master the core content and methods of educational psychology and acquire the depth of knowledge and methodological sophistication necessary for original research that contributes to the discipline.

Students develop a plan of study in consultation with their advisors. Those who begin the program after earning a master’s degree or with course work from another program may be able to waive some of the Ph.D. program’s requirements.

Students who enter the Ph.D. program without having completed an M.A. thesis are required to complete an independent research course sequence and its assigned research project during their first or second year. Students who have completed an empirical M.A. thesis that is acceptable to the faculty may omit the independent research sequence and second-year project.

Some of the program’s required courses encompass substantive areas within educational psychology. Other required courses include a research practicum, in which students assist with and eventually design and carry out original research, and several courses in measurement and statistics.

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site). Course selections must be consistent with the courses required for the Ph.D.

Students are reviewed annually by the faculty. Students must complete a second-year project by the end of their second academic year in the program. Those who do not fulfill this requirement or who otherwise fail to make satisfactory progress may be required to withdraw.

The Ph.D. program in educational psychology requires the following work.

**MINOR AREA**

Students must complete a minimum of 12 s.h. that constitute a coherent program of course work outside educational psychology and beyond the courses listed above. The minor area may be from a foundation discipline, such as psychology, or in another area of education, such as mathematics education, educational philosophy, or program evaluation. Course work must be at or above the 200-level, may span departments and colleges, and must reflect a plan approved by the student’s advisor.

**SECOND-YEAR RESEARCH PROJECT**

As part of their participation in 07P:230 (PSQF:6230) Research in Educational Psychology, Ph.D. students are required to complete a research project of modest scope under the direction of a faculty member. They must present the work in both oral and written form to the program’s faculty and students. The written report...
must be completed by the end of the student’s second academic year in the program.

Students who enter the Ph.D. program holding an M.A. or M.S. with an acceptable empirical thesis are exempt from 07P:299 (PSQF:6299) M.A. Project: The Portfolio and the project.

**COMPREHENSIVE EXAMINATION**

The Ph.D. comprehensive examination emphasizes competence and depth in one or more narrowly defined areas of research and theory. Students choose from three options in consultation with their advisor and with the approval of the examining committee, which is made up of five faculty members. The options are a review article, an extended research activity, or a traditional comprehensive examination. For details of each option’s requirements, visit Educational Psychology Graduate Program on the department’s web site.

**ADMISSION**

Applicants to the Ph.D. program in educational psychology must meet the admission requirements of the Graduate College, including minimum grade-point average. They must have a combined verbal and quantitative score of at least 1000 on the Graduate Record Examination (GRE) General Test; successful applicants usually score higher. International applicants whose first language is not English must submit acceptable scores on the Test of English as a Foreign Language (TOEFL). Applicants who do not meet all admission requirements may be granted conditional admission on the basis of other evidence, such as high grade-point average, strong academic preparation, and highly supportive recommendations. Conditional admission is rare.

Admission is for fall entry. Application deadline is January 1; late applications might not be considered. Review of applications begins January 1, when applicants who wish to be considered for fellowships and other awards are screened. Admission decisions are announced approximately six weeks after the application deadline.

Applicants who accept admission or financial aid and do not relinquish either one on or before April 15 may not solicit or accept another offer. Offers made by the program after April 15 include the provision that the offer is void if the applicant has accepted and continues to hold a previous offer from another program listed in the American Psychological Association publication *Graduate Study in Psychology and Associated Fields*. This policy is consistent with standards set by the association’s Board of Educational Affairs.

**Ed.S.: School Psychology**

The department’s school psychology program focuses on the Doctor of Philosophy degree; admission is granted only to the Ph.D. program. Doctoral students may be granted a Specialist in Education degree once they complete the Ed.S. requirements.

The Educational Specialist program in school psychology requires a minimum of 60 s.h. of graduate credit. The program provides course work and supervised field experience in education and psychology, enabling graduates to qualify for Iowa licensure as school psychologists (State of Iowa Endorsement 40).

The curriculum includes courses in psychological foundations, psychoeducational foundations, school psychology, and research methods. Other requirements include a written comprehensive examination and a research paper prepared in conjunction with 07P:342 (PSQF:7342) Research Project in School Psychology (1-6 s.h.).

**Ph.D.: School Psychology**

The Doctor of Philosophy program in school psychology requires a minimum of 125 s.h. of graduate credit. The program was granted full accreditation by the American Psychological Association in 1992 and has been reaccredited until 2015.

The program’s goal is to prepare doctoral-level school psychologists who will promote psychology as a science and contribute to the advancement of the profession. The faculty endorses a scientist/practitioner model of training and expects students to become competent researchers and proficient practitioners.

Emphasis areas are available in gifted and talented and in pediatric psychology.

Ph.D. students develop a plan of study in consultation with their academic advisors. All students are required to have a thorough grounding in the basic discipline of psychology, which may be achieved through earning a minimum of 3 s.h. of credit in each of the following areas: biological bases of behavior, cognitive/affective bases of behavior, social bases of behavior, individual differences, and history and systems.

Students are required to complete yearly portfolio reviews, which include oral examinations; carry out a preliminary dissertation research project equivalent in scope to an M.A. thesis; participate in an internship; and complete a doctoral dissertation, earning a minimum of 10 s.h. in 07P:493 (PSQF:7493) Ph.D. Thesis in Psychological and Quantitative Foundations.

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site). Course selections must be consistent with other course requirements for the Ph.D.

The following courses constitute the school psychology core.

<table>
<thead>

</tbody>
</table>
Program course work in evaluation is required.

Students must enroll in practicums to reach a specified level of client contact, supervision, and additional experience hours. Placements must have prior approval of the school psychology faculty. Students must successfully complete one semester of 07P:237 (PSQF:7237) Beginning Practicum in School Psychological Service before enrolling in 07P:337 (PSQF:7337) Advanced Practicum in School Psychology. Students must adhere to the most recent ethical principles and standards of the American Psychological Association.

ADMISSION

Applicants to the Ph.D. program in school psychology must meet the admission requirements of the Graduate College. Preference is given to applicants with an undergraduate major in psychology or education, a g.p.a. above 3.00, and combined verbal and quantitative scores above 1200 on the Graduate Record Examination (GRE) General Test. The faculty also encourages applications from individuals with an M.A. or Ed.S. and experience as psychologists or other human service providers.

Applications must include three letters of recommendation, a personal statement of interest and goals, and a writing sample. Complete application materials, including transcripts and test scores, must be received by January 1 to be considered for fall semester admission. Admission decisions usually are made by March 15. The program admits from six to eight students each year.

Courses

07P:025 (PSQF:1020) Elementary Statistics and Inference

07P:026 (PSQF:1026) Mindfulness: Being Here with It All

Training in Mindfulness-Based Stress Reduction; application to dealing with life changes (i.e., transition to University life); navigating daily life (academics, roommates, schedules); improving academic skills; self-regulation of emotions; questions of meaning and purpose. Same as 407:025 (CSI:1000).

07P:027 (PSQF:1027) Mindfulness Foundations in the Helping Professions

Training in Mindfulness-Based Stress Reduction; application to dealing with life changes.

07P:029 (PSQF:1029) First-Year Seminar

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

07P:075 (PSQF:1075) Educational Psychology and Measurement

Principles and classroom applications of cognitive and social development, learning and cognition, motivation, and assessment.

07P:106 (PSQF:5106) Child Development

Theories and research findings about typical course of child development, differences in development. Requirements: junior standing.

07P:111 (PSQF:5111) Motivation

Principles of motivation and their application to applied settings, especially to the classroom as teachers try to motivate students. Requirements: junior standing.

07P:115 (PSQF:2115) Introduction to Counseling Psychology

Historical and philosophical foundations of counseling psychology; theories, application, and work of counseling psychologists.

07P:116 (PSQF:2116) Applied Child and Adolescent Psychology

Overview of child and adolescent development, psychopathology, and basic-level intervention; foundation for working in applied child and adolescent mental health settings; typical areas of psychological difficulty, including developmental disorders, ADHD, depression, anxiety, substance use; contextual and environmental factors, including abuse, poverty, neglect.

07P:120 (PSQF:4120) Psychology of Giftedness

Theories of learning, child development, motivation; issues unique to gifted education. Same as 07C:120 (RCE:4120).

07P:121 (PSQF:4121) Identification of Students for Gifted Programs

Interpretation of standardized tests and other measurement instruments used to identify academic talent and program effectively for grades K-12; ability, aptitude, achievement tests; current issues in the uses of various instruments. Same as 07C:121 (RCE:4121).

07P:122 (PSQF:4122) Math Programming for High Ability Students

Unique challenges and opportunities confronted by teachers of high-ability students; theory and practice, development of program outlines for implementation. Same as 07S:122 (EDTL:4022).

07P:123 (PSQF:4123) Academic Acceleration: Providing Excellence and Equity in Education for High Ability Students

arr.
Acceleration as an effective curricular intervention for high-ability students; forms of acceleration, research evidence for acceleration, and process of implementing acceleration; reasons for persistent negative attitudes about acceleration; advocacy for acceleration; skills for effective practice and implementation. Requirements: computer with internet access, sound card, Adobe Reader, and Adobe Flash Player.

**07P:125 (PSQF:4125) Counseling and Psychological Needs of the Gifted**
Psychological aspects of giftedness, counseling techniques appropriate for gifted children, adolescents; socio-emotional concerns, career development, underachievement. Same as 07C:125 (RCE:4125).

**07P:126 (PSQF:4126) Cognitive and Affective Needs of Underachieving Gifted**
Diagnostic strategy for identifying types of underachievement, teaching and counseling interventions appropriate for each. Same as 07C:126 (RCE:4126).

**07P:127 (PSQF:4127) Research and Theory in Talent/Giftedness**
Biennial research symposium. Same as 07C:127 (RCE:4127).

**07P:128 (PSQF:4128) Neuroscientific Implications for Gifted**
Neurology of behavior and neurodegenerative disease; the psychology of learning and memory, its application to gifted education.

**07P:129 (PSQF:4129) Creativity: Issues and Applications in Gifted Education**
Theories that underpin contemporary definitions of creativity; instruments developed to measure creativity; activities in the school environment that enhance or inhibit student creativity. Same as 07C:129 (RCE:4129).

**07P:130 (PSQF:4130) Early Adolescent Development**
Psychological growth and development of the early adolescent (ages 10-14), including the physical, cognitive, social, emotional, and sexual development of the middle-school aged child.

**07P:133 (PSQF:4133) The Adolescent and Young Adult**
Psychological and social aspects of adolescence and young adulthood; emphasis on theory, research, and practical applications.

**07P:134 (PSQF:4134) Parent-Teacher Communication**
Realities of working with parents; interpersonal skills; options for parent support services. Same as 07U:134 (EDTL:4934).

**07P:136 (PSQF:4136) Home/School/Community Partnerships**
Issues related to collaboration among families, educators, community members in implementing school programs. Same as 07U:136 (EDTL:4936).

**07P:143 (PSQF:5143) Introduction to Statistical Methods**
Analysis, interpretation of research data; descriptive statistics; introduction to probability, sampling theory, statistical inference (binomial, normal distribution, t-distribution models); linear correlation, regression. Same as 22S:102 (STAT:5543).

**07P:148 (PSQF:4520) Bayesian Statistics**
Bayesian statistical analysis, with focus on applications; Bayesian and frequentist methods compared; Bayesian model specification, choice of priors, computational methods; hands-on Bayesian data analysis using appropriate software; interpretation and presentation of analysis results. Prerequisites: 22S:120 (STAT:3120) and 22S:152 (STAT:3200). Same as 22S:138 (STAT:4520).

**07P:150 (PSQF:5150) Introduction to Educational Measurement**
Test development procedures, reliability, validity, item writing, evaluation of item and test characteristics; classroom assessment methods; interpretation of scores from standardized achievement and aptitude tests; no background in statistics assumed.

**07P:165 (PSQF:5165) Introduction to Program and Project Evaluation**
Skills and knowledge required for conducting evaluations of products, projects, and programs; recent scholarship on evaluation and project management. Same as 07B:165 (EPLS:5165).

**07P:181 (PSQF:4081) ePortfolio Production**
Experience producing an ePortfolio and uploading it to the Internet; practical experience using digital tools, content and design related to ePortfolio production; experience using a web browser and access to the Internet and to a digital camera or scanner. Requirements: able to perform basic computer functions and use a World Wide Web browser. Same as 07X:181 (EALL:4081), 07E:181 (EDTL:4081), 07C:181 (RCE:4081), 07B:181 (EPLS:4081).

**07P:193 (PSQF:5193) Special Readings and Projects**
Supervised individual study. Requirements: senior standing.

**07P:194 (PSQF:5194) Continuing Education Individual Study**
Supervised individual study.

**07P:199 (PSQF:5199) Topical Workshop in Psychological and Quantitative Foundations**
School, educational, and counseling psychology and allied disciplines; for professionals and graduate students in education, mental health, social services, related fields.

**07P:200 (PSQF:6200) Educational Psychology**
Psychology of the learning/instruction process: theoretical perspectives on learning, instruction, motivation, and assessment; developmental concepts, social processes, individual variation, learning and technology, biological basis of learning.

**07P:202 (PSQF:6202) Understanding Educational Research**
Quantitative and qualitative research methods; emphasis on critical analysis of educational research rather than performance of research.

**07P:203 (PSQF:6203) Learning, Technology, and Effective Teaching**
Theories and issues in the use of technology in learning and teaching; project to design a technology-supported learning solution for an educational problem.

**07P:205 (PSQF:6205) Design of Instruction**
Introduction to processes used to design, develop, implement, and evaluate effective instruction; projects.
07P:206 (PSQF:6206) Advanced Child Development 3 s.h.
Theories of social and cognitive development; in-depth study of several current controversies in the field. Prerequisites: 07P:106 (PSQF:5106).

Clinical experience in conducting pediatric neuropsychology examinations in the Pediatric Attention/Learning Disorders Clinic. Requirements: course on psychological testing (including IQ) and graduate psychology standing (school, counseling, rehabilitation, clinical). Same as 070:245 (PEDS:7245).

07P:208 (PSQF:6208) Designing Educational Multimedia 3 s.h.
Theory, design, and evaluation of instructional software.

07P:209 (PSQF:6209) Survey Research and Design 3 s.h.
Survey design and implementation; writing and evaluation of survey questions; error in survey research; techniques to reduce error; sampling; postcollection processing of survey data. Prerequisites: 07B:206 (EPLS:6206) or 07P:143 (PSQF:5143). Same as 07B:209 (EPLS:6209).

07P:212 (PSQF:6212) Advanced Life-Span Development 3 s.h.
Selected theories and research in development across the life span, especially from adolescence through late adulthood; focus on relevance for instruction and counseling.

07P:215 (PSQF:6215) Web-Based Learning 3 s.h.
Theory and practice of designing web sites to support or deliver instruction; student team project to create an instructional web site that integrates the theory and principles from class readings.

07P:217 (PSQF:6217) Seminar in College Teaching 1-3 s.h.
Preparation for college teaching; for graduate students planning to teach. Same as 650:217 (GRAD:6217).

07P:220 (PSQF:6220) Quantitative Educational Research Methodologies 3 s.h.
Procedures for planning, conducting, and reporting research; evaluation of current methods in educational research; quantitative designs and methods. Prerequisites: 07P:143 (PSQF:5143) or 22S:102 (STAT:5543).

07P:221 (PSQF:6221) Educational Psychology for Effective Teaching 3 s.h.
How educators use educational psychology theories and research to develop expertise in teaching and learning; cognition, motivation, technology, individual differences.

07P:222 (PSQF:5222) Foundations of School Psychology 3 s.h.
Introduction to field of school psychology; becoming competent practitioners and leaders in school and community settings; roles and functions of school psychologists; ethical standards and issues in the profession of psychology; legal issues involved in practice of school psychology; current topics and trends. Corequisites: 07P:224 (PSQF:7224).

07P:223 (PSQF:6223) Introduction to Counseling Psychology Practice/Research I 3 s.h.
Historical, theoretical, professional, scientific traditions associated with counseling psychology; professional ethical principles.

07P:224 (PSQF:7224) Introduction to School Psychology Practice 1-3 s.h.
Introduction to the practice of school psychology; framework for understanding role and function, legal and ethical boundaries, professional requirements; preparation for practicum.

07P:225 (PSQF:6225) Introduction to Counseling Psychology Practice/Research II 3 s.h.
Learning and performance of basic helping skills; integration of these skills with counseling theories, broader counseling strategies; laboratory-based.

07P:226 (PSQF:5226) Assessment of Giftedness 3 s.h.
Training and practice in assessment of gifted children. Same as 07C:226 (RCE:5226).

07P:230 (PSQF:6230) Research in Educational Psychology 1-3 s.h.
Design, implementation, and presentation of an educational psychology empirical research project. Requirements: graduate standing in educational psychology.

07P:231 (PSQF:6231) Concepts and Principles of Behavior Analysis 3 s.h.
Comprehensive review of psychological principles of learning derived from experimental research and empirical studies; types of behavior, motivational influences on behavior, respondent behavior and operant conditioning, stimulus control, schedule influences on behavior, observational learning, verbal behavior, rule-governed behavior, and behavioral accounts of language and cognition.

07P:232 (PSQF:6232) Functional Behavior Assessment and Analysis 3 s.h.
Understanding the purpose of assessments of behavior, developing assessments based on the presenting problems of behavior, conducting assessments to understand the purpose of behavior, and develop an effective behavior intervention plan; advanced coverage of special topics, including preference assessments and verbal behavior.

07P:233 (PSQF:6233) Ethics for Behavioral Psychologists 1 s.h.
Ethics that are unique to applied behavior analysis; ethical considerations.

07P:234 (PSQF:6234) Advanced Multimedia Design 3 s.h.
Theory and development of multimedia programs that use video, CD-ROM, computer animation, digital audio; emphasis on team-development of software.

07P:235 (PSQF:6235) Multicultural Counseling 3 s.h.
Theoretical and practical aspects of the cultural adaptation process; implications for interventions in diverse populations; issues. Requirements: counseling skills introductory course.

07P:236 (PSQF:6236) Counseling and Psychotherapy for Persons with Disabilities 3 s.h.
Preparation for future psychologists and counselors to work with persons with disabilities throughout the lifespan; examination of disability issues within the context of present and past theoretical constructs. Requirements: enrollment in psychological and quantitative foundations or rehabilitation and counselor education. Same as 07C:236 (RCE:6236).

Supervised practicum in psychological and educational evaluation in school settings. Prerequisites: 07P:238 (PSQF:6238) and 07P:251 (PSQF:6251).

07P:238 (PSQF:6238) Assessment of Learning Differences 3-4 s.h.
07P:242 (PSQF:6242) Selected Applications of Statistics
3 s.h.
Application and interpretation of correlation techniques, chi-square, t- and f-tests, interval estimation, simple cases of analysis of variance. Prerequisites: 07P:143 (PSQF:5143).

07P:243 (PSQF:6243) Intermediate Statistical Methods
4 s.h.

07P:244 (PSQF:6244) Correlation and Regression
4 s.h.

07P:245 (PSQF:6245) Applied Multivariate Analysis
3 s.h.

07P:246 (PSQF:6246) Design of Experiments
4 s.h.

07P:247 (PSQF:6247) Nonparametric Statistical Methods
3 s.h.
Selected nonparametric methods; one- and two-sample location tests and estimation methods, measures of association, analyses of variance; emphasis on relationships to classical parametric procedures. Prerequisites: 07P:243 (PSQF:6243) or 22S:120 (STAT:3120). Same as 22S:183 (STAT:6547).

07P:249 (PSQF:6249) Factor Analysis and Structural Equation Models
3 s.h.
Foundations of exploratory and confirmatory factor analysis methods; least squares and maximum likelihood approaches; problems in factor extraction, rotation, interpretation; structural equation models via LISREL; assumptions and limitations of alternative approaches. Prerequisites: 07P:244 (PSQF:6244) and 07P:246 (PSQF:6246).

07P:250 (PSQF:6250) Computer Packages for Statistical Analysis
1-3 s.h.
Computer programs and systems designed to execute statistical analysis (SAS, SPSS, BMDP, and others); lectures on regression techniques, analysis of variance, multivariate techniques; practice in entering data, calling up desired programs, interpreting computer output. Prerequisites: 07P:243 (PSQF:6243). Requirements: elementary knowledge of computer programming.

07P:251 (PSQF:6251) Individual Intelligence Testing
3 s.h.
Administration of individual intelligence tests; interpretation of test results; issues in psychological testing; factors that influence performance. Prerequisites: 07P:143 (PSQF:5143) or 07P:150 (PSQF:5150).

07P:252 (PSQF:6252) Introduction to Multivariate Statistical Methods
3 s.h.
Selected topics in multivariate analysis, including multivariate significance tests, principal components and factor analysis, discriminant analysis, canonical correlation, multivariate analysis of variance (MANOVA). Prerequisites: 07P:244 (PSQF:6244) and 07P:246 (PSQF:6246).

07P:255 (PSQF:6255) Construction and Use of Evaluation Instruments
3 s.h.
Design and construction of measures used in educational evaluation: achievement tests, attitude scales, performance measures, questionnaires; emphasis on methods of instrument development and evaluation of instrument characteristics. Prerequisites: 07P:143 (PSQF:5143) and 07P:257 (PSQF:6257).

07P:257 (PSQF:6257) Educational Measurement and Evaluation
3 s.h.
Evaluation and use of standardized tests and inventories in individual and group assessment; analyzing reliability, validity, normative data; interpreting measures of achievement, intelligence, aptitude, interests, attitudes, personality; current issues; for counselors, administrators, teachers, measurement specialists. Corequisites: 07P:143 (PSQF:5143).

07P:258 (PSQF:6258) Theory and Technique in Educational Measurement
3 s.h.
Mathematical foundations, principal results, and applications of classical test theory; perspectives on conditional error variance; binomial error model and applications; introduction to generalizability theory; advanced measurement topics. Prerequisites: 07P:243 (PSQF:6243) and 07P:257 (PSQF:6257).

07P:259 (PSQF:6259) Scaling Methods
3 s.h.
Unidimensional and multidimensional scaling techniques; item response theory with a focus on polytomous models; introduction to available computer programs for scaling; applications in educational and psychological research. Prerequisites: 07P:262 (PSQF:6262). Corequisites: 07P:249 (PSQF:6249) and 07P:252 (PSQF:6252).

07P:262 (PSQF:6262) Item Response Theory
3 s.h.
Theoretical foundations and practical applications; mathematical models and estimation techniques; emphasis on current applications and issues in testing; computer estimation programs. Prerequisites: 07P:243 (PSQF:6243) and 07P:257 (PSQF:6257).

07P:263 (PSQF:6263) Consultation Theory and Practice
Same as 07C:263 (RCE:6263).

07P:265 (PSQF:6265) Program Evaluation
3 s.h.
Theoretical issues and considerations in evaluation of educational and social programs; evaluation design, methodology, metaevaluation; evaluation utilization.

07P:269 (PSQF:7269) Advanced Personality
3 s.h.
Current research and research methods in the psychology of personality; emphasis on individual differences in personality that have implications for teaching, learning, well-being.

07P:275 (PSQF:6275) Constructivism and Design of Instruction
3 s.h.
Theoretical foundations of constructivism; application of constructivist principles to the design of instruction.
07P:281 (PSQF:6281) Cognitive Theories of Learning 3 s.h.
Theories of learning and cognition as they relate to education; development of expertise, transfer of learning, design of learning environments, use of learning technologies. Prerequisites: 07P:200 (PSQF:6200).

07P:283 (PSQF:6283) Cognitive Development 3 s.h.
Information-processing, dynamic systems, social-contextual, and neo-Piagetian theories of cognitive development and their educational implications; individual differences in cognitive development.

07P:285 (PSQF:6285) Instructional Computer Simulations 3 s.h.
Theory and development of computer-based simulations, games; research on design characteristics and effectiveness; design, development, evaluation of simulation software by student teams. Prerequisites: 07P:208 (PSQF:6208).

07P:292 (PSQF:6292) Supervised Research in Educational Psychology 1-3 s.h.
Identification of research problems, development of research designs and materials, conducting of research studies; faculty-guided activity or seminars.

07P:293 (PSQF:6293) Individual Instruction in Psychological and Quantitative Foundations arr.

07P:299 (PSQF:6299) M.A. Project: The Portfolio 3 s.h.
Individual portfolio project; reflection, revision, and presentation of educational psychology portfolio.

07P:301 (PSQF:6301) Human Abilities 3 s.h.
Psychology of abilities required by or developed through schooling; theories of cognitive abilities, age, sex, ethnic differences; cultivation of intelligence through schooling. Prerequisites: 07P:143 (PSQF:5143).

07P:305 (PSQF:7305) Psychotherapy I: Dynamic and Phenomenological Approaches 3 s.h.
Major psychodynamic and existential-phenomenological theories of personality; emphasis on implications for psychotherapy.

07P:306 (PSQF:7306) Psychotherapy III: Career Interventions 3 s.h.
Foundations of career interventions; emphasis on major assessment instruments (vocational interests, values, abilities/skills, personality) and career counseling processes, skills, techniques.

07P:309 (PSQF:7309) Personality Assessment 3 s.h.
Standardized and projective techniques for personality assessment; preparation for competent administration and interpretation of varied tests and measures.

07P:310 (PSQF:7310) Intelligence Assessment 3 s.h.
Standardized intelligence testing; preparation to administer and interpret intelligence tests for children and adults.

07P:311 (PSQF:7311) Practicum in Counseling and Psychological Services for Gifted Students 1-6 s.h.
Prerequisites: 07C:178 (RCE:4178). Requirements: course work in counseling education, counseling psychology, school psychology, educational psychology, or related fields. Same as 07C:311 (RCE:7311).

07P:312 (PSQF:6312) Psychopathology Across the Lifespan 3 s.h.
DSM IV categories, related diagnostic issues.

07P:313 (PSQF:7313) Psychopathology in Childhood 3 s.h.
Current theories regarding the development of psychopathology in children and adolescents; current approaches to treatment for disorders in children and adolescents.

07P:315 (PSQF:7315) Social and Emotional Assessment 3 s.h.
Link between personality theory, child and adolescent assessment; interpretation, integration of assessment information; record reviews, interviews, objective tests, projective techniques. Prerequisites: 07P:238 (PSQF:6238) and 07P:251 (PSQF:6251).

07P:320 (PSQF:7320) History and Systems of Psychology 3 s.h.
Philosophical underpinnings of psychology, early systems in psychology, developments in the 20th century.

07P:331 (PSQF:7331) Seminar: Educational Psychology I--Current Topics arr.
Intensive investigation of a specific research topic.

07P:335 (PSQF:7335) Advanced Motivation: Laboratory and Classroom Investigation 3 s.h.
Contemporary theories of motivation, with focus on theory and application; in-depth study concentrating on one approach to motivation; student project.

Supervised experience in psychological interventions, consultation, counseling in school and clinic settings. Prerequisites: 07P:237 (PSQF:7237), 07P:238 (PSQF:6238), and 07P:251 (PSQF:6251).

07P:340 (PSQF:7340) School Psychology Professional Seminar 1-6 s.h.
Current issues influencing the practice of school psychology in relation to its historical roots.

Experience in research facilities on campus; writing research questions, planning a research study, writing a research article.

07P:345 (PSQF:7345) Academic Interventions 3 s.h.
Interventions used by school and support system personnel to address academic skill deficits among children, adolescents; instructional design and delivery problems associated with deficits.

07P:346 (PSQF:7346) Behavioral Interventions 3 s.h.
Interventions used by school and support system personnel to address behavioral and social/emotional status of children, adolescents.

07P:347 (PSQF:7347) Home/School/Community: System Interventions 3 s.h.
Interventions used by school and support system personnel; focus on work with parents, siblings. Same as 07C:347 (RCE:7347).

07P:348 (PSQF:7348) Family Interventions 3 s.h.
Theoretical and research literature on interventions with families of school-age children; opportunities to engage in intervention activities.

07P:350 (PSQF:7350) Seminar in Evaluation 2-3 s.h.
In-depth examination of selected topics. Prerequisites: 07P:265 (PSQF:6265). Requirements: two courses in program evaluation.
07P:352 (PSQF:7352) Seminar: Behavioral Assessment and Evaluation
3 s.h.
Broadens skills of graduate students who engage in research with exceptional persons; research designs are usually taught in the Department of Psychological and Quantitative Foundations, but because of the nature of handicapping conditions and the low incidence of some handicaps, the single-subject design yields better research information. Same as 07U:252 (EDTL:7952).

07P:354 (PSQF:7354) Seminar: Experimental Approaches in Counseling Research
arr.
Application of experimental methodology to study of counseling and vocational phenomena.

arr.
Critical examination of current issues and problems of the professional worker in the field of educational measurement and evaluation as reflected in research literature, other professional communication media.

07P:356 (PSQF:7356) Process and Outcomes in Counseling Psychotherapy
3 s.h.
Advanced knowledge of the state of process and outcome research on psychotherapeutic procedures. Requirements: Ph.D. candidacy in appropriate field.

07P:357 (PSQF:7201) Counseling Psychology Research Writing
3 s.h.
How to write scientifically in counseling psychology; qualitative and quantitative research writing, literature reviews, methodologies, discussions; APA style.

07P:358 (PSQF:7358) Equating and Scaling of Educational Tests
3 s.h.
Designs and methods, including linear, equipercentile, and item response theory methods; emphasis on concepts, applications to testing programs, research. Prerequisites: 07P:243 (PSQF:6243) and 07P:257 (PSQF:6257).

07P:359 (PSQF:7307) Group Psychotherapy
3 s.h.
Theoretical foundation for working with clients in group settings; major theories on group psychotherapy processes; integration of empirical research on effectiveness of group work; varied theoretical approaches to group psychotherapy.

07P:365 (PSQF:7365) Psychotherapy II: Cognitive and Behavioral Approaches
3 s.h.
Major cognitive and behavioral theories of personality and psychotherapy; emphasis on implications for clinical practice.

07P:367 (PSQF:7367) Social Psychology and Social Systems
3 s.h.
Social aspects of behavior in organizations; behavioral science theory and research on organizations, system change, transformation, leadership.

07P:375 (PSQF:7375) Topics in Educational Measurement and Statistics
1-3 s.h.

07P:380 (PSQF:7380) Practicum in College Teaching
arr.
Supervised college teaching experience in courses related to major academic areas, in collaboration with faculty course instructors.

07P:385 (PSQF:7385) Teaching and Learning in Higher Education
3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07B:385 (EPLS:7385), 650:385 (GRAD:7385), 07S:384 (EDTL:7385), 07C:385 (RCE:7385).

07P:390 (PSQF:7390) Supervision of School Psychology Practicum/Internship
arr.
Experience supervising school psychology practicum or internship students. Requirements: Ph.D. standing.

07P:393 (PSQF:7393) M.A. Thesis in Psychological and Quantitative Foundations
arr.

07P:394 (PSQF:7394) Supervised Research in Counseling Psychology
1-3 s.h.

07P:434 (PSQF:7434) Practicum in Counseling Psychology
3 s.h.
Supervised practice in counseling services. Prerequisites: 07P:223 (PSQF:6223) and 07P:225 (PSQF:6225).

07P:437 (PSQF:7437) Internship in School Psychology
arr.
Supervised internship for Ph.D. students in school psychology. Requirements: completion of required courses.

07P:450 (PSQF:7450) Practicum in Program Evaluation
arr.
Supervised experience in designing and implementing components of program evaluations. Prerequisites: 07P:265 (PSQF:6265). Requirements: two courses in program evaluation.

07P:452 (PSQF:7452) Leadership, Consultation, and Supervision
3 s.h.
Overview of intervention modalities other than individual and group therapy, especially those that pertain to leadership within organizations, consultation with organizations and communities, and supervision of the work of others; capstone course in counseling psychology sequence. Prerequisites: 07P:223 (PSQF:6223) and 07P:225 (PSQF:6225).

07P:453 (PSQF:7453) Advanced Practicum in Counseling Psychology
1-3 s.h.
Supervised work in counseling services. Prerequisites: 07P:434 (PSQF:7434).

07P:455 (PSQF:7455) Generalizability Theory
3 s.h.
Analysis of variance methods applied to estimation of components of various types of measurement error variance; basic concepts, mathematical foundations, models, assumptions, designs, applications; relationships with other measurement theories. Prerequisites: 07P:246 (PSQF:6246) and 07P:258 (PSQF:6258).

07P:457 (PSQF:7457) Advanced Group Leadership Experience
3 s.h.
Practice working in a psychotherapy group; review major theories on group psychotherapy processes, integrate empirical research on effectiveness of group work; multicultural considerations in group psychotherapy; didactic and experiential format. Prerequisites: 07C:357 (RCE:7357).

07P:458 (PSQF:7458) Internship in Counseling Psychology
arr.
Supervised work in internship setting. Prerequisites: 07P:434 (PSQF:7434) and 07P:453 (PSQF:7453). Requirements: Ph.D. standing in counseling psychology and completion of all requirements except the dissertation.

07P:465 (PSQF:7465) Issues and Ethics in Professional Psychology
3 s.h.
Professional ethics; issues in professional practice of psychology.

07P:466 (PSQF:7466) Psychological Services to Children, Adolescents, and Families: Legal and Ethical Standards
3 s.h.
Review of laws at state and federal level which are related to child, adolescent, and family functioning; emphasis on APA and NASP ethical standards, application of these standards, and ethical decision making models. Recommendations: graduate student who will provide services to children, adolescents, and families.

Rehabilitation and Counselor Education

Chair
Dennis R. Maki

Professors
Nicholas Colangelo, Dennis R. Maki, Leslie Margolin, Vilia Tarvydas

Professors emeriti
Richard Dustin, Dennis Harper, Albert B. Hood, David A. Jepsen

Adjunct professor
Harvey Joanning

Associate professors
David Duys, Noel Estrada-Hernandez, Malik Henfield, Tarrell Portman, Jodi Saunders, Volker Thomas, John Wadsworth, Susannah Wood

Associate professors emeriti
William A. Matthes, Ralph R. Roberts Jr.

Adjunct assistant professors
Barbara O'Rourke, Phil Striegel, Anne Zalenski

Clinical assistant professor
Carol M. Smith

Adjunct lecturers
Leanne Eichinger, Kayla Hand, James Stachowiak, Peter Teachen, Orville Townsend

Assistant in instruction
Claudia Bischoff

Undergraduate minor: human relations
Graduate degrees: M.A.in rehabilitation and counselor education; Ph.D. in rehabilitation and counselor education
Web site: http://www.education.uiowa.edu/rce

The Department of Rehabilitation and Counselor Education prepares students to facilitate human development across the life span, to advocate for clients and students, and to serve local, national, and international communities through the delivery and creation of state-of-the-art counseling services. The department achieves these goals by advancing knowledge, skills, and attitudes appropriate for effective and ethical professional counseling practice and by conducting and disseminating related research.

The department prepares practitioners and scholars primarily at the graduate level, through degree programs in counselor education and supervision, couple and family counseling, rehabilitation and mental health counseling, rehabilitation counselor education, and school counseling. It also offers basic courses in interviewing and interpersonal skills for students in other professional and graduate programs. In addition, it offers an undergraduate minor in human relations.

Undergraduate Program

• Minor in human relations

Minor

The minor in human relations is open to all University of Iowa students enrolled in undergraduate degree programs.

The minor in human relations requires a minimum of 15 s.h. of credit, including 12 s.h. earned at The University of Iowa and 12 s.h. earned in courses numbered 100 and above. Students must maintain a g.p.a. of at least 2.50 in the minor. Courses for the minor may not be taken pass/nonpass (unless they are offered only pass/nonpass). Transfer credit must be approved by the chair of the Department of Rehabilitation and Counselor Education in order to count toward the minor.

Course work for the minor must include 07C:199 (RCE:4199) Counseling for Related Professions. Students earn the remaining 12 s.h. for the minor in courses chosen from the following list. Registration in 07B:180 (EPLS:4180) Human Relations for the Classroom Teacher requires special permission for students not admitted to the College of Education’s Teacher Education Program.

07B:150 (EPLS:4150) Leadership and Public Service I 3 s.h.
07B:151 (EPLS:4151) Leadership and Public Service II 2 s.h.
07B:180 (EPLS:4180) Human Relations for the Classroom Teacher
07C:081 (RCE:2081) Making a Vocational-Educational Choice 2-3 s.h.
07C:130 (RCE:4130) Human Sexuality 3 s.h.
07C:137 (RCE:4137) Introduction to Educating Gifted Students 3 s.h.
07C:145 (RCE:4145) Marriage and Family Interaction 3 s.h.
07C:162 (RCE:4162) Introduction to Marriage and Family Counseling and Psychotherapy 3 s.h.
07C:163 (RCE:4163) Marriage and Family Counseling and Psychotherapy 3 s.h.
07C:173 (RCE:4173) Trauma Across the Lifespan 3 s.h.
07C:174 (RCE:4174) Positive Psychology 3 s.h.
07C:175 (RCE:4175) Motivational Interviewing 3 s.h.
07C:176 (RCE:4176) Child Abuse: Assessment, Intervention, and Advocacy 3 s.h.
07C:177 (RCE:4177) Life After War: Post-Deployment Issues 3 s.h.
07C:178 (RCE:4178) Microcounseling 1-3 s.h.
07C:179 (RCE:4179) Sexuality Within the Helping Profession 3 s.h.
07C:180 (RCE:4180) Topical Seminar for Helping Professionals arr.
07C:182 (RCE:4182) Workshop for Helping Professionals 1-2 s.h.
07C:185 (RCE:4185) Introduction to Substance Abuse 3 s.h.
07C:187 (RCE:4187) Introduction to Assistive Technology 3 s.h.
07C:190 (RCE:4190) Group Processes for Related Professions 3 s.h.
07C:192 (RCE:4192) Group Leadership in Human Sexuality 0-3 s.h.
07C:193 (RCE:4193) Individual Instruction-- arr. Undergraduate
07C:194 (RCE:4194) Interpersonal Effectiveness 3 s.h.
07C:195 (RCE:4195) Ethics in Human Relations and Counseling 3 s.h.
07C:197 (RCE:4197) Citizenship in a Multicultural Society 3 s.h.
07P:027 (PSQF:1027) Mindfulness Foundations in the Helping Professions 3 s.h.

Contact the Department of Rehabilitation and Counselor Education for more information about the minor.

Graduate Programs

• Master of Arts in rehabilitation and counselor education
• Doctor of Philosophy in rehabilitation and counselor education

The department offers graduate degree programs in five major areas within rehabilitation and counselor education:

Counselor education and supervision (offered in the Ph.D.); Couple and family therapy (offered in the Ph.D.); Rehabilitation and mental health counseling (offered in the M.A.); Rehabilitation counselor education (offered in the Ph.D.); and School counseling (offered in the M.A.).

Each degree program is described below.

Upon completing a degree in the department, students are evaluated and are expected to have awareness, knowledge, and skills in the following areas:

• current definitions, professional standards, and appropriate professional practices regarding multiculturalism;
• what it means to be a culturally competent helping professional;
• integration of feedback into practice and professionalism in interpersonal interactions;
• personal limitations and strengths that could ultimately support or harm a client or student;
• a personal plan for future practice in the field regarding multicultural relationships.

Prospective students must meet admission requirements for the individual programs as well as the department’s general admission requirements (see “Admission” toward the end of this section). Criminal background checks may be required. Applicants also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

REQUIRED PH.D. RESEARCH COURSES

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. of qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

Ph.D.: Counselor Education and Supervision

The Doctor of Philosophy program in counselor education and supervision requires 96 s.h. of graduate credit. The program prepares students with knowledge and skills related to general counseling (including mental health and school counseling), teaching, consulting, supervising counselors, and conducting research. Graduates enter professional work as counselors, counselor supervisors, counselor educators, researchers and/or consultants, or work in other positions requiring expertise in human relations. Students may choose an emphasis in gifted and talented education, school counseling, professional leadership, or other area agreed upon by faculty advisors.

Counselor education and supervision graduates are prepared to teach the knowledge and skills required of professional counselors and to supervise beginning and advanced counselors, perform counseling interventions with individuals and groups, and teach human relations skills in colleges or universities. They provide professional consultation with counseling practitioners and policy makers about counseling program development and evaluation. They also may perform research that contributes to knowledge about counseling, supervision, and counselor education.

The program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The American Counseling Association (ACA) and the Association for Counselor Education and Supervision (ACES) are the professional organizations most related to program activities.

The Ph.D. curriculum includes required courses in counseling and in research tools and applications, a minor outside the department, and a dissertation.

Most students complete their course work in three years and take a fourth year to complete the dissertation. Students who have not completed a master’s degree program approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) may need to remedy deficiencies by taking appropriate master’s-level course work. The Ph.D. program in counselor education and supervision requires the following work.

REQUIRED COURSES

All of these:

07C:255 (RCE:7255) Advanced Career Development and Counseling (or equivalent) 3 s.h.
07C:347 (RCE:7347) Home/School/Community: System Interventions 3 s.h.
07C:353 (RCE:7353) Advanced Counseling and Psychotherapy 3 s.h.
07C:357 (RCE:7357) Advanced Group Counseling and Psychotherapy 3 s.h.
07C:360 (RCE:7360) Advanced Practicum in Counseling (section 002) 3 s.h.
07C:380 (RCE:7380) Practicum in College Teaching 3 s.h.
07C:385 (RCE:7385) Teaching and Learning in Higher Education 3 s.h.
07C:400 (RCE:7400) Seminar: Ethics and Issues in Counseling 3 s.h.
07C:448 (RCE:7448) Integrated Developmental Theory and Counseling 3 s.h.
07C:451 (RCE:7451) Advanced Multiculturalism 3 s.h.
07C:454 (RCE:7454) Supervision Theory and Practice 3 s.h.
07C:455 (RCE:7455) Practicum in Clinical Supervision 3 s.h.
07C:457 (RCE:7457) Seminar: Professional Orientation to Counselor Education and Supervision 3 s.h.
07C:458 (RCE:7458) Seminar: Current Issues and Trends in Counselor Education and Supervision 3 s.h.
07C:459 (RCE:7459) Seminar: Leadership and Advocacy in Counselor Education and Supervision 3 s.h.
07C:465 (RCE:7465) Internship in Counselor Education (at least 240 hours) 3 s.h.

At least one advanced course in psychological or educational measurement 3 s.h.

RESEARCH TOOLS AND APPLICATIONS

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must
complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site). Course selections must be consistent with the research tools and applications required for the degree.

The following are minimum requirements. Students are expected to master research tools and applications beyond the minimum requirements in order to develop research skills consistent with their professional goals.

- **07C:338 (RCE:7338) Essentials of Qualitative Inquiry**: 3 s.h.
- **07C:394 (RCE:6394) M.A. Equivalency Research (for students without an approved M.A./M.S. thesis)**: 1-3 s.h.
- **07C:438 (RCE:7438) Advanced Qualitative Research Seminar in Rehabilitation and Counselor Education**: 3 s.h.
- **07C:460 (RCE:7460) Seminar: Research in Counseling**: 3 s.h.
- **07P:243 (PSQF:6243) Intermediate Statistical Methods**: 4 s.h.
- **07X:150 (EALL:5150) Introduction to Educational Research (taken during first year in program)**: 3 s.h.

**MINOR AREA**

Students take a series of courses (typically a minimum of three) in an area of study outside the Department of Rehabilitation and Counselor Education. They select course work in collaboration with their minor area advisor, a faculty member from the area, and with approval of the curriculum plan committee.

**MASTER’S THESIS PROJECT OR EQUIVALENT**

Students are required to submit a previously conducted master’s thesis for faculty review and approval or to complete a new supervised experiential research project before taking comprehensive exams.

**COMPREHENSIVE EXAMINATION**

The comprehensive examination consists an oral defense of a portfolio produced by the student covering six professional competency domains in counselor education and an exam on the minor area. The comprehensive exam may be taken during the student’s final semester of course work, which typically includes internship.

**DISSERTATION**

The major research project culminating in the doctoral thesis may be on any topic related to counseling and counselor education. The thesis advisor and the examining committee approve the topic and procedures at a formal prospectus meeting. The final oral examination on the thesis is conducted by the examining committee. Students usually earn 10 s.h. for dissertation work, but in some instances they may earn up to 15 s.h. The dissertation committee must include at least two counselor education and supervision faculty members.

**ADMISSION**

Applicants to any of the department’s graduate programs must meet the department’s general admission requirements; see “Admission” toward the end of this Catalog section. In addition, applicants to the Ph.D. program in counselor education and supervision must provide evidence of successful experience in counseling or a closely related profession. Applicants without experience may be admitted if their credentials indicate exceptional strengths.

Students may be admitted for fall, spring, or summer entry, but the department strongly advises application for fall entry. Consideration of applications begins January 15 for fall entry; all application materials should be received at the University by this date.

**Ph.D.: Couple and Family Therapy**

The Doctor of Philosophy program in couple and family therapy (CFT) requires a minimum of 92 s.h. of graduate credit. The program prepares professionals for couple and family therapy/marriage and family therapy leadership roles in academic and research settings, administration and supervision, and clinical delivery systems. It provides couple and family therapists the opportunity to master cutting-edge theoretical knowledge; research competencies at the most innovative levels; and advanced clinical, teaching, and supervisory skills.

Ph.D. students focus on three areas of advanced training: clinical practice, quantitative and qualitative research methods, and teaching and supervision. The program is flexible within the doctoral standards of the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy. Ph.D. graduates are expected to have sufficient knowledge and skill to teach and conduct research at colleges and universities; supervise other professionals; and provide clinical services to individuals, couples, and families. They also should have competencies to engage in and evaluate theory-based qualitative and/or quantitative research.

Credit for the Ph.D. program may include credit for relevant course work completed for a COAMFTE-accredited master’s degree program in couple and family therapy/marriage and family therapy or the equivalent.

Each student is required to submit a curriculum plan during the first two years of the program, before completing the comprehensive examination. The CFT faculty reviews each student annually; students must fulfill departmental requirements in order to continue in the program.

Work for the Ph.D. includes course work, a comprehensive exam, a clinical or academic internship, and a dissertation. Most students complete the program’s required course work in two or three years and take one or two years to complete the internship and dissertation.

The program is designed to meet the accreditation standards of the COAMFTE.

The Ph.D. program in couple and family therapy requires the following work.

**DEPARTMENT CORE**

All of these:

- **07C:255 (RCE:7255) Advanced Career Development and Counseling**: 3 s.h.
- **07C:353 (RCE:7353) Advanced Counseling and Psychotherapy**: 3 s.h.
- **07C:357 (RCE:7357) Advanced Group Counseling and Psychotherapy**: 3 s.h.
- **07C:400 (RCE:7400) Seminar: Ethics and Issues in Counseling**: 3 s.h.
RESEARCH AND STATISTICS
All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. Program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative research methods course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college's web site). Course selection must be consistent with the following required statistics and research methods courses and with the student's dissertation research.

All of these:

Additional course work 27 s.h.

MINOR AREA
In collaboration with the advisor and the curriculum plan committee, each student plans a minor area and selects a minimum of 9 s.h. of course work for it.

MASTER’S THESIS PROJECT OR EQUIVALENT
During the first two years of the program, students whose master's degree did not include an empirical master's thesis must conduct and write up an empirical project that is equivalent to a master’s thesis.

COMPREHENSIVE EXAMINATION
The comprehensive examination consists of a portfolio the student has accumulated during the program and its oral defense once course work has been completed.

INTERNSHIP
Students must complete a clinical or academic internship.

DISSERTATION
Work for the doctoral dissertation employs the student’s independent skills in conducting original research. The dissertation process is supervised by the student’s advisor. Depending on the student’s research questions, the dissertation may require quantitative, qualitative, or mixed methods and may involve data collection or the secondary analysis of an existing data set. The thesis advisor and the examining committee approve the topic and procedures at a formal prospectus meeting. The final oral examination on the thesis is conducted by the examining committee.

ADMISSION
Applicants to any of the department’s graduate programs must meet the department’s general admission requirements; see “Admission” toward the end of this Catalog section.

Applicants should have a graduate g.p.a. of at least 3.00 and a Graduate Record Examination (GRE) General Test verbal and quantitative score of 1,100 or higher. They also should hold a master’s degree in couple and family therapy/marriage and family therapy from a Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE)-accredited program or the equivalent.

The program requires a personal interview with the faculty, in person or by telephone. Generally, the interview is scheduled once complete application materials have been received.

M.A.: Rehabilitation and Mental Health Counseling
The Master of Arts program in rehabilitation and mental health counseling requires a minimum of 60 s.h. of graduate credit. The program prepares professional counselors to provide assistance in psychological wellness, employment, independent living, and personal or economic development to persons with disabilities and other individuals who encounter barriers in meeting their functional needs. It also prepares counselors in mental health counseling/psychiatric rehabilitation to obtain licensure as professionals who provide services in mental health settings.

Rehabilitation and mental health counselors work in a variety of settings, including public agencies such as state vocational rehabilitation programs and Veterans Affairs vocational rehabilitation programs; independent living centers; community-based rehabilitation centers and supported employment programs; private for-profit worker’s compensation and insurance rehabilitation agencies; and mental health agencies. They provide interventions designed to help persons with disabilities adapt to the demands of their environments. They also prepare the environments to accommodate the individual’s needs. Assessment, personal and vocational counseling, development of rehabilitation and treatment plans, case management, service coordination, psychosocial adjustment, work development, placement, and follow-up are typical services that rehabilitation and mental health counselors provide.

The M.A. program in rehabilitation and mental health counseling is accredited by the Council on Rehabilitation Education (CORE). The program also is accredited in clinical mental health counseling by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Graduates of the M.A. program are eligible for certification by the Commission on Rehabilitation Counselor Certification (CRC) and the National Board for Certified Counselors. By completing the program’s course work, students also complete the courses they must take in order to apply for licensure as mental health counselors in Iowa.
Full-time students can complete the program in approximately 21 months (four semesters plus two summer sessions).

The M.A. curriculum blends academic work with supervised clinical experiences. Students take three semesters of practicum concurrently with academic courses. The program concludes with a full-time internship (40 hours per week) during a spring semester. Students are assigned to rehabilitation and community mental health agencies or facilities that meet CORE and CACREP accreditation standards and that have programs or clientele who match the student’s interests and educational objectives. Clinical placements require criminal background checks.

Supervised practicums, internships, and comprehensive examinations are not offered during summer sessions.

The M.A. program in rehabilitation and mental health counseling requires the following work.

**DEPARTMENT REQUIREMENTS**

All of these:

- 07C:202 (RCE:5202) Introduction to Group Counseling 3 s.h.
- 07C:221 (RCE:5221) Theories of Counseling and Human Development Across the Life Span 3 s.h.
- 07C:250 (RCE:5250) Multiculturalism in Helping Professions (or equivalent) 3 s.h.
- 07C:270 (RCE:5270) Issues and Ethics in Counseling 3 s.h.
- 07C:276 (RCE:5276) Research in Rehabilitation and Mental Health Counseling 3 s.h.
- 07C:278 (RCE:5278) Applied Microcounseling 3 s.h.

**PROGRAM REQUIREMENTS**

All of these:

- 07C:210 (RCE:5210) Rehabilitation Client Assessment 3 s.h.
- 07C:241 (RCE:5241) Introduction to Rehabilitation and Mental Health Counseling 3 s.h.
- 07C:247 (RCE:5247) Medical Aspects of Disability 3 s.h.
- 07C:249 (RCE:5249) Psychiatric Disorders and Interventions 3 s.h.
- 07C:341 (RCE:6341) Job Development Placement and Follow-up 3 s.h.
- 07C:342 (RCE:6342) Psychosocial and Developmental Aspects 3 s.h.

**CLINICAL PRACTICE**

All of these:

- 07C:348 (RCE:6348) Prepracticum in Rehabilitation and Mental Health Counseling 3 s.h.
- 07C:349 (RCE:6349) Practicum in Rehabilitation and Mental Health Counseling 3 s.h.
- 07C:350 (RCE:6350) Advanced Practicum in Rehabilitation and Mental Health Counseling 3 s.h.
- 07C:352 (RCE:6352) Internship in Rehabilitation and Mental Health Counseling 9-12 s.h.

**COMPREHENSIVE EXAMINATION**

The comprehensive examination consists of two exams totaling six hours: a three-hour departmental comprehensive examination and a three-hour written examination on the process and practice of rehabilitation and mental health counseling. Exams are offered only during fall and spring semesters.

**ADMISSION**

Applicants to any of the department’s graduate programs must meet the department’s general admission requirements; see "Admission" toward the end of this Catalog section.

No specific undergraduate major area of study is required for the M.A. program in rehabilitation and mental health counseling, but a major in one of the social sciences is considered good preparation. Applicants should have a good academic record and relevant experience, such as assisting individuals with disabilities. Postbaccalaureate work experience relevant to the field of rehabilitation and mental health counseling is preferred. The program encourages applications from persons traditionally underrepresented in the field, particularly those with a disability and/or members of minority or ethnic groups. Applicants also must meet the department’s admission requirements (see "Admission" later in this section). A personal interview is required, either in person or by telephone.

Applications for full-time study are accepted for summer session (June) entry; application deadline for full-time study is March 1. Applications for part-time study are accepted for fall and spring semesters and are considered when class space permits.

Students pursue a sequenced plan of study that begins in summer session. Although students may be admitted for any semester, the program highly recommends that full-time students begin in summer.

**Ph.D.: Rehabilitation Counselor Education**

The Doctor of Philosophy program in rehabilitation counselor education requires a minimum of 90 s.h. of graduate credit. The program prepares professionals for leadership roles in rehabilitation counselor education, research, administration, and service delivery systems. It provides rehabilitation counselors the opportunity to master knowledge; clinical, teaching, and supervisory skills; and research competencies at the most advanced levels.

Ph.D. students focus on three areas of advanced development: rehabilitation counselor education and supervision, research, and professional practice. The program is flexible, permitting students to pursue individualized plans of study within the required curriculum. Ph.D. graduates are expected to have sufficient knowledge and skill to teach at colleges and universities, supervise other professionals, and provide clinical services to clients. They also should have competencies to engage in and evaluate theoretical, qualitative, and quantitative research.

Each student is required to submit a curriculum plan. The rehabilitation counseling faculty reviews each student annually. Students must meet the department’s requirements in order to continue in the program.

The 90 s.h. required for the degree may include credit for relevant course work completed for a master’s degree. Students who have not completed a master’s degree in rehabilitation counseling must take appropriate masters-level courses or their equivalents. This combination of master’s and doctoral course work ensures exposure to vocational rehabilitation as well as to independent living...
rehabilitation and community-based counseling processes, concepts, programs, and services.

Most students complete their course work and comprehensive exam in three years and take a fourth year to complete the dissertation.

The Ph.D. program in rehabilitation counselor education requires the following work.

**DEPARTMENT CORE**

All of these:

<table>

**STATISTICS AND RESEARCH DESIGN**

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Course selections must be consistent with the following statistics and research design requirements and with the student's dissertation research.

<table>

One additional advanced quantitative or qualitative course approved by the advisor.

**MINOR AREA**

Students plan a minor area in collaboration with their major advisor and curriculum plan committee. The minor area must be outside the department. Students select a minimum of 9 s.h. of course work in the minor area, in collaboration with their minor advisor and with the approval of their curriculum plan committee.

**COMPREHENSIVE EXAMINATION**

The comprehensive examination consists of three exams that total nine hours. They cover the department core (three hours), rehabilitation counseling—theory, practice, and research (three hours), and the minor area (three hours).

**DISSERTATION**

The dissertation is a major research study planned in collaboration with the student’s major advisor. At least two rehabilitation counseling faculty members serve on the dissertation committee; one of them chairs or co-chairs the committee.

<table>

</table>

**ADMISSION**

Applicants to any of the department’s graduate programs must meet the department’s general admission requirements; see "Admission" toward the end of this Catalog section.

Applications to the Ph.D. program in rehabilitation counselor education should have a master’s degree in rehabilitation counseling or a related area and a graduate g.p.a. of 3.00 or higher. One year of full-time work experience in rehabilitation or a related field is strongly encouraged. Applicants should submit a written statement of purpose for pursuing the Ph.D. in rehabilitation counselor education and a statement of personal career objectives, official score on the Graduate Record Exam (GRE) General Test, and three letters of recommendation. A personal interview is required.

Applications are accepted for fall, spring, or summer entry; fall entry is strongly advised. Faculty consideration of applications begins January 15 for fall entry, November 15 for spring entry, and April 1 for summer entry.

**M.A.: School Counseling**

The Master of Arts program in school counseling requires a minimum of 54 s.h. of graduate credit. The program prepares individuals to work effectively as counselors in K-12 school settings. It is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Successful graduates are eligible for K-12 school counselor licensure in Iowa. Students may apply to the National Board for Certified Counselors at the completion of their programs. They also may earn an endorsement in talented and gifted education or a certificate from the Belin-Blank Center for Gifted Education by taking additional course work.
The M.A. program in school counseling emphasizes gifted education. During the first few semesters, students take core cognate courses, including course work on gifted education, and the microcounseling clinical skills laboratory. Then they enter a counseling practicum followed by an internship. Students who enter without teaching licensure are required to take additional course work in education, 07E:100 (EDTL:3000) Foundations of Education, 07U:100 (EDTL:4900) Foundations of Special Education, and 07P:200 (PSQF:6200) Educational Psychology or equivalent) to meet school counselor licensure standards. Students are expected to complete at least 100 clock hours in practicum and 600 clock hours in internship activities in an approved school setting, under the supervision of an experienced licensed school counselor and a University faculty supervisor.

Students must complete program and department core courses as outlined on the Department of Rehabilitation and Counselor Education web site before enrolling in 07C:300 (RCE:6300) Practicum in School Counseling for the spring session of their second year in the program. All students are required to complete a background check the spring before they enroll in the practicum. Students who are not licensed teachers must complete course work in education before enrolling in the practicum.

Each student’s progress is reviewed periodically by the program faculty. Students who have successfully completed all prerequisites for 07C:300 (RCE:6300) Practicum in School Counseling are reviewed in the semester before they take the practicum course, to assure that they are prepared for it. During the summer, students are evaluated to assure their readiness for the internship 07C:321 (RCE:6321) Internship in Elementary School Counseling or 07C:322 (RCE:6322) Internship in Secondary School Counseling, which requires assignment in approved schools for the fall and/or spring semesters.

The M.A. program in school counseling requires the following work.

REQUIRED COURSES

The following schedule of required courses reflects a three-year program of study. Students who do not have teacher licensure are required to complete at least three additional courses in education before the third year of classes.

COMPREHENSIVE EXAMINATION

All students are required to take comprehensive exams for the departmental core and for school counseling during their final semester of internship. Comprehensive exams include a written six-hour exam in the departmental core and school counseling. An oral exam also is required unless waived by the comprehensive exam committee.

ADMISSION

Applicants to any of the department’s graduate programs must meet the department’s general admission requirements; see "Admission" below. Applicants to the M.A. program in school counseling should have an undergraduate g.p.a. of 3.00 or higher. The department prefers that applicants have one year of teaching experience or successful experiences with children and/or adolescents, which they must document in a written statement. Graduate Record Examination (GRE) General Test scores must be on file at the University.

Applications are accepted for summer and fall entry and should be submitted by January 25th.

Admission

Applicants to any of the department’s degree programs must satisfy the following admission requirements. Applicants also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Applicants must submit the following:

- a completed graduate application form;
- copies of official transcripts of all previous undergraduate and graduate college work;
- official report of Graduate Record Examination (GRE) General Test verbal and quantitative scores;
- a statement of the applicant’s reasons for seeking an advanced degree in the department, including a statement of personal career objectives;
- three current letters of recommendation from persons qualified to assess the applicant’s prospects for completing the M.A. or Ph.D. and to assess the applicant’s commitment to the profession.

The department may request a personal or telephone interview.

The following admission standards are considered for individual program admission decisions.

M.A. applicants should have an undergraduate g.p.a. of at least 3.00.

Ph.D. applicants should have a graduate g.p.a. of at least 3.00; those who have not been granted a graduate degree should have an undergraduate g.p.a. of at least 3.00.
International applicants must score at least 550 (paper-based) or 80 (Internet-based) on the Test of English as a foreign language (TOEFL). The department may require applicants with lower TOEFL scores to complete University of Iowa course work in English language fluency. TOEFL scores must be submitted with the application for admission.

Typically, doctoral students are not admitted unless they have completed a master's degree in counseling or a related field. Relevant work experiences are important. Students who are accepted without a related master's degree must complete core master's-level course work before taking advanced Ph.D. courses. Required remedial courses and experiences are determined in consultation with the advisor and are included in a student's curriculum plan.

The criteria listed above are minimum standards for admission. Final admission decisions are made by faculty committees. Some of the department's degree programs have additional admission requirements; see the descriptions of the individual degree programs earlier in this Catalog section.

APPLICATION
For application materials, visit Iowa Graduate Admissions and the Department of Rehabilitation and Counselor Education web site.

Applications must be complete before they can be reviewed. Applicants are responsible for providing a complete application dossier; to check on whether an application dossier is complete, contact the College of Education Office of Education Services.

Applicants are notified in writing after their applications have been reviewed. Applicants who are accepted must reply in writing in order to maintain their admission status.

MAINTAINING GOOD STANDING
All graduate students must meet the following standards in order to remain in their degree programs and advance to candidacy and remain a candidate for a degree:

- maintain a g.p.a. of at least 3.00;
- successfully complete a practicum, internship, or equivalent professional experience;
- maintain professional behavior consistent with the American Counseling Association code of ethics and any additional code of professional ethics adhered to in any agency in which the student completes a practicum or internship;
- demonstrate progress toward the degree through successful completion of semester hours specified in the curriculum plan and active registration each session (exceptions may be approved by the advisor).

Each student's academic and professional progress is reviewed annually. A written report is provided to the student and a copy is placed in his or her department file.

PROBATIONAL STATUS
M.A. and Ph.D. students who earn a cumulative g.p.a. lower than 3.00 are placed on probational status and are notified in writing. Students on probational status have two consecutive sessions to raise their grade-point average to the established standard. If that requirement is not met, the student may be removed from the program. Each student is allowed one probational status during his or her program of study.

Financial Support
Students in the department may apply for a wide variety of graduate assistantships. For example, many of the University's student service units award graduate assistantships. Applicants for assistantships should contact the department or the coordinator of the particular graduate program they plan to enter.

Applicants seeking fellowships or assistantships should complete their applications as early as possible.

Facilities
An on-campus counseling suite serves as a laboratory for training. In addition, a wide variety of supervised clinical experiences are available in community agencies, schools, and colleges, as well as throughout the University. Internships may be completed at approved sites nationwide.

Courses

07C:029 (RCE:1029) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

07C:030 (RCE:1030) Belin-Blank Center First-Year Seminar 1 s.h.
Presentations and discussions by University resource experts and Belin-Blank Center for Gifted Education staff. Requirements: Belin-Blank Center student.

07C:081 (RCE:2081) Making a Vocational-Educational Choice 2-3 s.h.
Vocational decision-making process, self-evaluation, exploration of the world of work; for students who are uncertain about their educational and vocational goals.

07C:119 (RCE:4119) Family Issues in Giftedness 1 s.h.
Family dynamics and issues that arise when one or more children are identified as gifted; parent/child, sibling, school/family relationships.

07C:120 (RCE:4120) Psychology of Giftedness 3 s.h.
Theories of learning, child development, motivation; issues unique to gifted education. Same as 07P:120 (PSQF:4120).

07C:121 (RCE:4121) Identification of Students for Gifted Programs 3 s.h.
Interpretation of standardized tests and other measurement instruments used to identify academic talent and program effectively for grades K-12; ability, aptitude, achievement tests; current issues in the uses of various instruments. Same as 07P:121 (PSQF:4121).

07C:123 (RCE:4123) Gender Issues and Giftedness 1 s.h.
Effect of gender on development of giftedness; differential needs of girls, boys; strategies for effective teaching, gender equity.

07C:124 (RCE:4124) Ethnic and Cultural Issues and Giftedness 1 s.h.
Effect of ethnicity and culture on development of giftedness; special needs of Black, Hispanic, Native American, and Asian gifted students; strategies for identification, programming.

</table>

07C:125 (RCE:4125) Counseling and Psychological Needs of the Gifted
Psychological aspects of giftedness, counseling techniques appropriate for gifted children, adolescents; socio-emotional concerns, career development, underachievement. Same as 07P:125 (PSQF:4125).

07C:126 (RCE:4126) Cognitive and Affective Needs of Underachieving Gifted
Diagnostic strategy for identifying types of underachievement, teaching and counseling interventions appropriate for each. Same as 07P:126 (PSQF:4126).

07C:127 (RCE:4127) Research and Theory in Talent/Giftedness
Biennial research symposium. Same as 07P:127 (PSQF:4127).

07C:128 (RCE:4128) Advanced Leadership Seminar in Gifted Education
Development of administrative policies and programming based on empirical research; for experienced leaders in gifted education.

07C:129 (RCE:4129) Creativity: Issues and Applications in Gifted Education
Theories that underpin contemporary definitions of creativity; instruments developed to measure creativity; activities in the school environment that enhance or inhibit student creativity. Same as 07P:129 (PSQF:4129).

07C:130 (RCE:4130) Human Sexuality
How young adults experience, discuss, and engage in sex; short essays.

07C:137 (RCE:4137) Introduction to Educating Gifted Students
Fundamental issues such as curriculum, counseling, family issues, gender and minority issues. Same as 07U:137 (EDTL:4137).

07C:145 (RCE:4145) Marriage and Family Interaction
Contemporary American marriage, family relationships; mate selection.

07C:162 (RCE:4162) Introduction to Marriage and Family Counseling and Psychotherapy
Evolution of the family therapy movement and issues related to functional and dysfunctional family systems; significant models of family therapy and specific techniques.

07C:163 (RCE:4163) Marriage and Family Counseling and Psychotherapy
Experience working with families as human systems; skills that family therapists use in their work with couples and families.

07C:173 (RCE:4173) Trauma Across the Lifespan
Current theory and practice models related to trauma and crisis intervention; overview of multi-system level definitions of trauma experience (historical, individual, interpersonal, family, organizational, community, global); various approaches to trauma response theory; unique contributions that counselors offer (strength, resiliency, coping); commitments to multicultural and systems factors; macro- to micro-level understanding of trauma.

07C:174 (RCE:4174) Positive Psychology
Promotion of human potential as a focus for counseling professionals that provides a supplement to diagnosis and treatment of pathology; how to achieve happiness, resilience, wellness, and life satisfaction through enhancement of human strengths and virtues.

07C:175 (RCE:4175) Motivational Interviewing
Motivational Interviewing (Miller & Rollnick) and the stages of change model.

07C:176 (RCE:4176) Child Abuse: Assessment, Intervention, and Advocacy
Preparation for work involving abused children or child abuse issues; appropriate for careers in counseling, education, health sciences, law, psychology, social work, and so forth; interactive approach.

07C:177 (RCE:4177) Life After War: Post-Deployment Issues
Frequently experienced post-deployment issues from a biological perspective in order to provide a deeper understanding of the natural consequences of combat; scholastic preparedness component designed to enhance effective studying, academic retention, and success; utilization of the unique nature of a veteran-only environment by drawing upon veteran strengths such as camaraderie and teamwork to approach group projects. Requirements: Operation Iraqi Freedom, Operation Enduring Freedom, or Operation New Dawn veteran standing.

07C:178 (RCE:4178) Microcounseling
Basic skills of listening, responding, empathy, focus; advanced skills of meaning, confrontation, reframing, directives, action skills.

07C:179 (RCE:4179) Sexuality Within the Helping Profession
Relationship between sexuality and mental health; varied ethical and professional issues in sex therapy.

07C:180 (RCE:4180) Topical Seminar for Helping Professionals
Topics for the continuing education of counselors and related professionals.

07C:181 (RCE:4081) ePortfolio Production
Experience producing an ePortfolio and uploading it to the Internet; practical experience using digital tools, content and design related to ePortfolio production; experience using a web browser and access to the Internet and to a digital camera or scanner. Requirements: able to perform basic computer functions and use a World Wide Web browser. Same as 07P:181 (PSQF:4081), 07X:181 (EALL:4081), 07E:181 (EDTL:4081), 07B:181 (EPLS:4081).

07C:182 (RCE:4182) Workshop for Helping Professionals
One-week workshop; students choose a topic for community practitioners working with or interested in counseling individuals, groups, families, organizations.

07C:185 (RCE:4185) Introduction to Substance Abuse
Theories of addiction and pharmacology of psychoactive drugs; legal, familial, biological, multicultural, historical issues related to substance use and misuse.

07C:187 (RCE:4187) Introduction to Assistive Technology
How assistive technology can be used for attainment of goals in education or work. Same as 07U:187 (EDTL:4967).

07C:188 (RCE:4188) Practicum in Teaching and Curriculum Development in Gifted Education
Experience in developing course materials for classes offered through the Belin-Blank Center for Gifted Education. Same as 07U:188 (EDTL:4188).
07C:190 (RCE:4190) Group Processes for Related Professions 3 s.h.
Small-group procedures for personal and organizational development in educational settings; discussions of theoretical and ethical issues, multicultural considerations, and research findings supplemented with demonstrations; participation in a personal growth group.

07C:191 (RCE:4191) Advocacy: Awareness, Assertiveness, and Activism 0-3 s.h.
Introduction to advocacy skills (communicate, convey, negotiate or assert interests, desires, needs, and rights for self or others); opportunity to design and implement a plan of change; ecological model of human interaction that suggests a person must be viewed within context of his or her environment(s); how having power on a personal and social level impacts one's environment and is central to a person's well-being; advocacy as a central function of helping professions.

07C:192 (RCE:4192) Group Leadership in Human Sexuality 3 s.h.
How to teach human sexuality; how to help students achieve an open-minded yet responsible attitude toward their own and others' sexuality. Prerequisites: 07C:130 (RCE:4130).

07C:193 (RCE:4193) Individual Instruction--Undergraduate arr.

07C:194 (RCE:4194) Interpersonal Effectiveness 3 s.h.
Paradigms and techniques that enhance interpersonal relationship skills.

07C:195 (RCE:4195) Ethics in Human Relations and Counseling 3 s.h.
Morality and ethics; ethical issues; models and techniques for effective ethical decision making in personal and professional interactions.

07C:197 (RCE:4197) Citizenship in a Multicultural Society 3 s.h.
Human relationships in the context of societal oppressions such as racism, sexism, able-bodyism, and heterosexism.

07C:199 (RCE:4199) Counseling for Related Professions 3 s.h.
Counseling theories and techniques; ethical and multicultural considerations; small-group discussions, demonstrations, lectures.

07C:200 (RCE:5200) Professional School Counselor 3 s.h.
Professional identity of school counselors; K-12 school counseling program delivery systems, legal and ethical issues. Requirements: admission to school counseling program.

07C:202 (RCE:5202) Introduction to Group Counseling 3 s.h.
Research, theory, ethics, planning, and practice in group counseling; leadership styles and multicultural considerations; group participation. Prerequisites: 07C:221 (RCE:5221). Corequisites: 07C:278 (RCE:5278). Requirements: rehabilitation and counselor education enrollment.

07C:203 (RCE:5203) Career Development 3 s.h.
Preparation for counselors and student affairs professionals; career development concepts and theories, family and work, career counseling goals and objectives, exemplary techniques and materials, career program planning, evaluation procedures. Requirements: rehabilitation and counselor education enrollment.

07C:204 (RCE:5204) School Culture and Classroom Management for School Counselors 3 s.h.
American public elementary and secondary schools and the school counselor's role; classroom management for school counselors.

07C:210 (RCE:5210) Rehabilitation Client Assessment 3 s.h.
Process and practice of assessing persons with disabilities for rehabilitation plan development and decision making; multicultural and ethical considerations.

07C:221 (RCE:5221) Theories of Counseling and Human Development Across the Life Span 3 s.h.

07C:222 (RCE:5222) Counseling Children and Adolescents in Schools 3 s.h.
Theory and practice of school-based counseling interventions; child and adolescent development; prevention; special topics. Prerequisites: 07C:221 (RCE:5221) or 07C:278 (RCE:5278).

07C:223 (RCE:5223) Counseling Gifted and Talented Students 3 s.h.
Learning theories and best practices related to school counseling of gifted and talented students; academic, career, and personal/social development. Prerequisites: 07C:137 (RCE:4137).

07C:226 (RCE:5226) Assessment of Giftedness 3 s.h.
Training and practice in assessment of gifted children. Same as 07P:226 (PSQF:5226).

07C:230 (RCE:5230) School Counseling Program Leadership and Management 3 s.h.
Comprehensive K-12 school counseling program components and structures; program leadership, planning, accountability; behavioral consultation and collaboration; ethical, multicultural, family considerations. Corequisites: 07C:321 (RCE:6321) or 07C:322 (RCE:6322).

07C:236 (RCE:6236) Counseling and Psychotherapy for Persons with Disabilities 3 s.h.
Preparation for future psychologists and counselors to work with persons with disabilities throughout the lifespan; examination of disability issues within the context of present and past theoretical constructs. Requirements: enrollment in psychological and quantitative foundations or rehabilitation and counselor education. Same as 07P:236 (PSQF:6236).

07C:237 (RCE:5237) Seminar in Gifted Education 2-3 s.h.
Teaching and counseling needs of gifted students K-12; intensive 10-day residential program. Requirements: work as teacher with Belin Fellowship.

07C:238 (RCE:5238) Advanced Seminar in Gifted Education 1 s.h.
Supervisory, administrative, and research issues; fellowships for seminar participants. Prerequisites: 07C:237 (RCE:5237).

07C:241 (RCE:5241) Introduction to Rehabilitation and Mental Health Counseling 3 s.h.
Historical, philosophical, legislative, societal, and multicultural overview of rehabilitation and mental health process and practice in community-based settings; roles of rehabilitation and mental health professionals, nature of agencies, resources, contemporary issues and ethics.
07C:247 (RCE:5247) Medical Aspects of Disability 3 s.h.
Medical evaluation as part of the rehabilitation process; body systems, medical terminology, medical description of disabilities; functional limitations; projection of potential for rehabilitation and mental health applied to planning and placement.

07C:248 (RCE:5248) Diagnosis and Treatment Planning for Psychiatric Rehabilitation 3 s.h.
Psychiatric conditions, their diagnostic criteria using the DSM-IV-TR, treatment planning considerations; medical and psychiatric rehabilitation models, interrelationship in providing services to persons with psychiatric disabilities; functional assessment and client-driven rehabilitation planning for community reintegration. Requirements: rehabilitation and counselor education enrollment.

07C:249 (RCE:5249) Psychiatric Disorders and Interventions 3 s.h.
Description, classification, and theoretical perspectives related to psychiatric disorders; models of intervention in community-based settings.

07C:250 (RCE:5250) Multiculturalism in Helping Professions 3 s.h.
Theory and application of multicultural competency in the helping professions; ethical treatment of clients in the context of a multiculturally diverse society; knowledge, skill, self-awareness components relevant for helping practitioners. Requirements: rehabilitation and counselor education enrollment.

07C:254 (RCE:5254) Assessment and Appraisal 3 s.h.
Didactic experiences related to individual and group assessment and appraisal; for school professionals.

07C:255 (RCE:5255) Advanced Career Development and Counseling 3 s.h.
Major concepts and research evidence about life-span vocational behavior; theories of vocational choice, adjustment, development in a multicultural world.

07C:256 (RCE:5256) Action Research: School-Based Field Research 3 s.h.
Field-based research experiences in school settings; students conceptualize, design, conduct, and articulate school-based research findings. Prerequisites: 07C:254 (RCE:5254).

07C:262 (RCE:5262) Marriage and Family Counseling and Psychotherapy 3 s.h.
Introduction to counseling theory, ethics, and techniques as applied to problems of marriage and the family over the life span; multicultural considerations. Requirements: advanced graduate standing. Recommendations: 07C:162 (RCE:4162).

07C:263 (RCE:6263) Consultation Theory and Practice 3 s.h.
Same as 07P:263 (PSQF:6263).

07C:270 (RCE:5270) Issues and Ethics in Counseling 3 s.h.
Ethical standards and decision making; current issues; ethical, legal, and multicultural considerations for counseling in agencies and schools; emphasis on professional practice.

07C:276 (RCE:5276) Research in Rehabilitation and Mental Health Counseling 3 s.h.
Current state of counseling practice and emphasis on accountability as a professional quality; need for counselors to be knowledgeable and skillful in identifying and using "what works" in counseling endeavors; introduction to major principles, concepts, and practices in social science research, including program evaluation; preparing counselors-in-training as future research consumers. Recommendations: rehabilitation and mental health counseling major.

07C:278 (RCE:5278) Applied Microcounseling 3 s.h.
Development of basic and advanced counseling skills; preparation for work in education and community settings.

07C:280 (RCE:5280) Topical Seminar in RCE 3 s.h.
Special topics dealing with contemporary problems of concern to counselors in specific settings.

07C:293 (RCE:6293) Individual Instruction--Graduate 3 s.h.

07C:300 (RCE:6300) Practicum in School Counseling 3 s.h.
Supervised experience counseling and consulting in elementary and secondary school settings. Requirements: completion of school counseling core courses.

07C:311 (RCE:7311) Practicum in Counseling and Psychological Services for Gifted Students 1-6 s.h.
Prerequisites: 07C:178 (RCE:4178). Requirements: course work in counseling education, counseling psychology, school psychology, educational psychology, or related fields. Same as 07P:311 (PSQF:7311).

07C:321 (RCE:6321) Internship in Elementary School Counseling 3 s.h.
Supervised placement in an elementary school setting; performance of tasks, responsibilities of an elementary school counselor. Prerequisites: 07C:300 (RCE:6300). Requirements: completion of all required school counseling courses.

07C:322 (RCE:6322) Internship in Secondary School Counseling 3 s.h.
Supervised placement in a secondary school setting; performance of tasks, responsibilities of a secondary school counselor. Prerequisites: 07C:300 (RCE:6300). Requirements: completion of all required school counseling courses.

07C:323 (RCE:6323) Internship in Middle School Counseling 3 s.h.
Supervised placement in a middle school setting; performance of tasks and responsibilities of a middle school counselor. Prerequisites: 07C:300 (RCE:6300). Requirements: completion of all required school counseling courses.

07C:338 (RCE:7338) Essentials of Qualitative Inquiry 3 s.h.
Principles, processes of qualitative research in education; methods of design, data collection and analysis, interpretation, trustworthiness. Requirements: Ph.D. enrollment and introductory research course.

07C:341 (RCE:6341) Job Development Placement and Follow-up 3 s.h.
Obtaining appropriate jobs for individuals with disabilities who have received rehabilitation services; client, counselor, employer, job specifications.

</table>

Dynamics of adjustment and coping for persons with chronic illness or those with disabilities through the life span; somatopsychological, psychosocial, and developmental perspectives on disability.

Interventions used by school and support system personnel; focus on work with parents, siblings. Same as 07P:347 (PSQF:7347).

Counseling laboratory to promote knowledge, skills, and awareness of effective and ethical counseling methods, and fundamentals of helping relationships and case management. Prerequisites: 07C:221 (RCE:5221). Corequisites: 07C:278 (RCE:5278).

Experience in a community agency serving individuals with disabilities and mental health disorders, supervised by a certified rehabilitation counselor in an approved site. Prerequisites: 07C:348 (RCE:6348).

Experience to enhance competency in agencies and with persons represented in the student’s specialty area. Prerequisites: 07C:349 (RCE:6349).

Full-time clinical experience in rehabilitation and mental health settings; training in wide range of rehabilitation and mental health functions under supervision of a qualified M.A. counselor with appropriate credentials. Prerequisites: 07C:350 (RCE:6350) or 07C:351.

Theories, techniques, and ethics of counseling clients with personal and interpersonal problems; ethical and multicultural considerations.

Theories and techniques of group counseling and psychotherapy; integration of theory, experience, and research in group counseling; ethical and multicultural considerations.

Supervised practice in counseling; intensive analysis of counselor ethics, styles, methods. Advanced graduate standing in counselor education and consent of instructor required. Prerequisites: 07C:221 (RCE:5221). Requirements: Ph.D. enrollment, advanced graduate standing in counselor education, and counseling introductory practicum; and concurrent enrollment in 07C:249 (RCE:5249) for rehabilitation counselor education student.

Opportunity to accumulate client contact and supervision hours towards graduation and licensure; conceptual and executive skills, observational skills and abilities to work as a member of a therapeutic team, awareness of how personal growth and development as a therapist impacts work with clients, comfort and motivation to learn multiple training levels provided, creation of collaborative and supportive atmosphere on all practicum levels. Requirements: enrollment in couple and family therapy program.

Philosophy, theory, research base, practice of rehabilitation counseling, psychology; ethical and multicultural considerations; relationship to disability studies; psychological aspects of disability, client assessment, history, systems, contemporary issues.

Supervised college teaching experience in counselor education courses; teaching in collaboration with faculty, observation and critiques of teaching, participation in course planning and evaluation procedures; ethical and multicultural considerations.

Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 07B:385 (EPLS:7385), 650:385 (GRAD:7385), 07S:384 (EDTL:7385).

Preparation for comprehensive examination.

Ethical, professional, and contemporary issues in counseling practice, education, and research. Requirements: rehabilitation and counselor education Ph.D. enrollment.

Review and analysis of pertinent literature in area of child and adolescent intervention research; stage 1-3 clinical trials and federal funding process of intervention research in family therapy and family psychology fields; focus on published outcome studies in areas of childhood disorders, Filial Therapy, Functional Family Therapy, Multi-systemic Therapy, and Multi-Dimensional Family Therapy; published and unpublished outcome studies of six research groups within the last ten years and their federally funded research projects. Prerequisites: 07C:262 (RCE:5262).

Exploration of qualitative research at advanced theoretical, practical, and technical level, inside and outside a typical classroom environment; scholarly discussions. Prerequisites: 07C:338 (RCE:7338).
07C:440 (RCE:7440) Seminar in Family-Based Play Therapy Interventions
Inclusion of children in family therapy sessions; varied therapeutic strategies to effectively work with young children and their parents; employment of developmental lens (therapeutic techniques largely depend on children's age and developmental stage) and theoretical lens (many techniques are linked to certain theoretical approaches); development of therapeutic skills with application of varied therapeutic approaches in clinical work; does not train students to become play therapists and/or child therapists. Prerequisites: 07C:262 (RCE:5262).

07C:448 (RCE:7448) Integrated Developmental Theory and Counseling
Advanced issues, theoretical perspectives, and research in human development across the life span; influential theories in human development; related implications for counseling, supervision, and research; integrated understanding of perspectives through position papers, reflection papers, and research proposal project. Requirements: graduate standing in rehabilitation and counselor education.

07C:450 (RCE:7450) Advanced Social Psychology of Disability
Disability issues from individual and societal perspectives; psychosocial aspects of disability and disability studies; seminar. Requirements: Ph.D. enrollment.

07C:451 (RCE:7451) Advanced Multiculturalism
Impact of culture, race, ethnicity, and intersections of identity on counseling in higher education and student affairs settings. Prerequisites: 07C:250 (RCE:5250).

07C:454 (RCE:7454) Supervision Theory and Practice
Conceptual models, ethics, multicultural considerations, research, and program design for counselor supervision and consultation.

07C:455 (RCE:7455) Practicum in Clinical Supervision
Supervision of students enrolled in counseling practicum. Prerequisites: 07C:454 (RCE:7454).

07C:457 (RCE:7457) Seminar: Professional Orientation to Counselor Education and Supervision
Professional orientation issues in counselor education and supervision; related documents, bylaws, professional expectations.

07C:458 (RCE:7458) Seminar: Current Issues and Trends in Counselor Education and Supervision
Recent trends, including debates and findings in literature related to best practices for the profession.

07C:459 (RCE:7459) Seminar: Leadership and Advocacy in Counselor Education and Supervision
Leadership principles and theories, including applications to counselor education; student leadership potential and skills explored through self-reflective model.

07C:460 (RCE:7460) Seminar: Research in Counseling
Methods, examples, ethics, multicultural issues, problems of counseling research. Requirements: Ph.D. enrollment.

07C:461 (RCE:7461) Practicum in Research
Experience designing and implementing research relevant to student's plan of study, under supervision of rehabilitation and counselor education faculty member.

07C:462 (RCE:7462) Advanced Practicum in Clinical Teaching
Preparation for doctoral students to conduct didactic and experiential learning opportunities with counselors in training. Prerequisites: 07C:454 (RCE:7454).

07C:465 (RCE:7465) Internship in Counselor Education
Supervised experience in professional counseling, counselor supervision, consultation, teaching counseling; field placement and seminar.

07C:493 (RCE:7493) Ph.D. Thesis

Chair
Peter Hlebowitsh

Professors
Greg Hamot, Brian Hand, Jo M. Hendrickson, Peter Hlebowitsh, Paul M. Retish, Bonnie Sunstein, Kathryn F. Whitmore

Professors emeriti

Clinical professor
Ellen Herman

Associate professors

Associate professors emeriti

Adjunct associate professors
John Acharzegliou, Laurie Croft

Clinical associate professors
Nancy Langthut, Pamela Ries, Amy Shoultz

Assistant professors
Allison Bruhn, Kyong Mi Choi, Mary Cohen, Cory Forbes, Youjia Hua, Lia Plakans, Pamela Wesely, Suzanne Woods-Groves

Clinical instructors
Jane Cranst, Leslie Flynn, Carol Girdler, Ted Neal

Undergraduate major: elementary education (B.A., B.S., granted by the College of Liberal Arts and Sciences)

Graduate degrees: M.A.T. in science education; M.S. in science education; Ph.D. in science education; M.A. in teaching and learning; M.A.T. in teaching and learning; Ph.D. in teaching and learning

Web site: http://www.education.uiowa.edu/teach

Department of Teaching and Learning programs prepare graduates for positions in public schools, local and state education agencies, clinical settings, and institutions of higher education. All licensure programs are approved by the Iowa Department of Education. Undergraduate students pursuing a major in elementary education must meet the College of Liberal Arts and Sciences requirements for the Bachelor of Arts or Bachelor of Science; see the CLAS Academic Policies Handbook.

Teacher Education Program and Licensure/Certification

Undergraduate students must be admitted to the Teacher Education Program (TEP) before they may take required professional education courses. The application for admission should be submitted to the College of Education Office of Education Services. Deadlines for application are March 15 and October 15 for admission to restricted course work in the following semester. Each program reviews applications and chooses a limited number of students for admission.

In order to be considered for admission, students must complete a minimum of 33 s.h. of course work and must have a University of Iowa and cumulative g.p.a. of at least 2.70. Some subject areas have additional admission criteria. A limited number of applicants are accepted into each Teacher Education Program, so a 2.70 g.p.a. does not ensure admission. Admission decisions are based on grade-point average in the major and other criteria relevant to teaching success.

The application process includes submission of an application form, a writing sample, two letters of recommendation, and an Iowa criminal history check request form. Applicants are required to submit PRAXIS I test scores in mathematics, reading, and writing. Scores from either the PRAXIS computer-based tests (CBT) or the PRAXIS Pre-Professional Skills Tests (PPST) are accepted. Applicants must have a composite score of at least 522, with a minimum score of 170 on any single portion of the test. Applicants must also submit verification of completion of a 10-hour volunteer experience in a K-12 classroom setting.

If at any time after admission a student’s University of Iowa and/or cumulative g.p.a. falls below 2.70, he or she is placed on probation for one semester. Students who do not attain a 2.70 g.p.a. during the probationary semester are dropped from the TEP. Students should consult a College of Education advisor in their program area, or the Office of Education Services for more information on admission criteria.

Graduate students who apply to the Graduate College for a teacher licensure program must apply separately for admission to the Teacher Education Program. Deadlines for application to either program are October 15 or March 15 for admission to restricted course work in the following semester. Graduate and postbaccalaureate students may submit Graduate Record Exam (GRE) General Test scores instead of PRAXIS I scores. Applicants must have a verbal and quantitative score of at least 900 and an analytical writing score of at least 3.5.

A limited number of applicants are accepted into each Teacher Education Program, so meeting the Graduate College admission requirements does not ensure admission. Admission decisions are based on grade-point average in the undergraduate major and other criteria relevant to teaching. Upon admission to the TEP, students are assigned an education advisor.

Admission to Student Teaching

Admission to the student teaching semester requires a separate application. Applications must be submitted one year before the student teaching semester. Applicants’ credentials and academic and professional progress are reviewed to ensure that the student is qualified for placement in the profession. Verification that the student meets all specific program area requirements is made when the student applies for student teaching.

Consult a College of Education advisor or the Office of Education Services for information about admission and requirements for student teaching in specific licensure programs.
TEP: Elementary Education
(Undergraduate)

- Major in elementary education (Bachelor of Arts, Bachelor of Science)

The College of Education offers the undergraduate major in elementary education for students earning a Bachelor of Arts or a Bachelor of Science degree from the College of Liberal Arts and Sciences. The program prepares students to teach kindergarten through grade 6. In Iowa, the elementary specialization areas are designated as kindergarten through grade 8.

The Bachelor of Arts or Bachelor of Science with a major in elementary education requires a minimum of 120 s.h., including at least 83-85 s.h. of credit for the major. Students must complete all requirements for graduation from the College of Liberal Arts and Sciences, including the General Education Program (p. 276). They also must complete all requirements for the elementary education major and the Teacher Education Program (TEP), including student teaching.

A passing Praxis II score on the elementary content test is required for all students seeking elementary licensure in Iowa and for satisfaction of requirements for an approved Teacher Education Program.

The major in elementary education (Bachelor of Arts or Bachelor of Science) requires the following work.

FOUNDATION COURSES

Students must complete these four courses before beginning the methods courses (Block A/B below).

07E:090 (EDTL:3190) Orientation to Elementary Education 1-2 s.h.
07E:100 (EDTL:3000) Foundations of Education 3 s.h.
07E:102 (EDTL:3002) Technology in the Classroom 2 s.h.
07P:075 (PSQF:1075) Educational Psychology and Measurement 3 s.h.

METHODS COURSES

Block A—three courses taken concurrently:
07E:123 (EDTL:3123) Reading and Responding to Children's Literature 2 s.h.
07E:160 (EDTL:3160) Methods: Elementary School Language Arts 3 s.h.
07E:164 (EDTL:3164) Methods: Elementary School Reading 3 s.h.

Block B—three courses taken concurrently:
07E:161 (EDTL:3161) Methods: Elementary School Social Studies 3 s.h.
07E:162 (EDTL:3162) Methods: Elementary School Science 3 s.h.
07E:163 (EDTL:3163) Methods: Elementary School Mathematics 3 s.h.

METHODS PRACTICUM

Students complete a classroom management course and a semester-length practicum.

07E:170 (EDTL:3170) Elementary Classroom Management 2 s.h.

One of these:
07E:172 (EDTL:3172) Reading Instruction: Teaching Practicum 4 s.h.
07E:174 (EDTL:3174) Elementary Education: Practicum 4 s.h.

OTHER REQUIREMENTS

All of these:
07E:180 (EPLS:4180) Human Relations for the Classroom Teacher 3 s.h.
07E:127 (EDTL:3127) Physical Education and Health for Elementary Teachers 2 s.h.
07U:100 (EDTL:4900) Foundations of Special Education 3 s.h.

One of these:
07E:120 (EDTL:3120) Methods and Materials: Music for the Classroom Teacher 2 s.h.
07E:122 (EDTL:3122) Creativity, Imagination, Play, and Human Development through the Arts 3 s.h.

One of these:
22M:006 (MATH:1120) Logic of Arithmetic 4 s.h.
22M:012 (MATH:1130) Theory of Arithmetic 3 s.h.

AREA OF SPECIALIZATION

Students must complete a minimum of 24 s.h. in one of the following areas of specialization: art, English language arts, English as a Second Language (ESL), hearing impaired, mathematics, middle school, music, physical education, reading, science, social sciences (history, social studies), special education (Instructional Strategist I: Mild/Moderate), and speech communication/theatre. Courses in the area of specialization may be taken pass/nonpass if they are offered with the pass/nonpass option.

Requirement lists for each K-8 area of specialization are available from the Teacher Leader Center.

STUDENT TEACHING

Students seeking initial licensure must complete a minimum of 14 s.h. of student teaching.

07E:190 (EDTL:4190) Supervised Teaching in the Elementary School: Interactive Phase 7 s.h.
07E:191 (EDTL:4191) Supervised Teaching in the Elementary School: Pre- and Post-Active Phase 7 s.h.

TRANSFER STUDENTS

Before they student teach, transfer students must complete the following courses at The University of Iowa.

All of these:
07E:090 (EDTL:3190) Orientation to Elementary Education 1-2 s.h.
07E:102 (EDTL:3002) Technology in the Classroom 2 s.h.
A practicum

Two of these:
07E:123 (EDTL:3123) Reading and Responding to Children's Literature 2-3 s.h.
07E:160 (EDTL:3160) Methods: Elementary School Language Arts 3 s.h.
07E:161 (EDTL:3161) Methods: Elementary School Social Studies 2-3 s.h.
07E:162 (EDTL:3162) Methods: Elementary School Science 2-3 s.h.
The College of Education offers secondary school teacher preparation programs in the following areas.

Art
*Coaching

English
*English as a second language
*Hearing impaired
*Journalism

Mathematics
*Middle School

Music
*Reading

Science, including *physical science, biology, chemistry, *general science, physics, earth science, and 9-12 all science

Social science, including anthropology, economics, geography, history, political science, psychology, and sociology

*All social sciences
*Talented and gifted

World languages—Chinese, French, German, Italian, Japanese, Latin, Russian, Spanish

*Available as an additional approval area only; a major in one of the other areas is required for licensure.

An Iowa secondary teaching license qualifies holders to teach in grades 5-12. Students planning to teach art or music typically complete a program that prepares them for both elementary- and secondary-level licensure.

Secondary teacher preparation programs in mathematics and foreign language also offer a program that leads to licensure/certification as a subject matter specialist in grades K-8. This K-8 licensure/certification is available only in the same subject area as the secondary certification.

For more information and the name of an advisor, contact the Department of Teaching and Learning.

REQUIREMENTS

Undergraduates working toward licensure/certification to teach in secondary schools must complete the following requirements in addition to the requirements of their major. All course work must be completed before student teaching.

One introduction and practicum course in the major field 2-3 s.h.

07B:180 (EPLS:4180) Human Relations for the Classroom Teacher

07E:100 (EDTL:3000) Foundations of Education 3 s.h.

07E:102 (EDTL:3002) Technology in the Classroom (must be taken during student's first semester in the college) 2 s.h.

07P:075 (PSQF:1075) Educational Psychology and Measurement 3 s.h.

07S:171 (EDTL:3071) Secondary Classroom Management (required for art, mathematics, science, social studies education) 2 s.h.

07S:190 (EDTL:3090) Orientation to Secondary Education (must be taken during student’s first semester in the college) 1 s.h.

07S:195 (EDTL:3095) Teaching Reading in Secondary Content Areas (must be taken during student’s first semester in the college) 1 s.h.

07U:100 (EDTL:4900) Foundations of Special Education 3 s.h.

One or more methods of teaching courses in the major field 3-9 s.h.

One college-level mathematics course, except 22M:001 (MATH:0100), 22M:003 (MATH:0300), and 22M:008 (MATH:1005) 3 s.h.

Student teaching 12 s.h.

For initial licensure in all subject areas, student teaching must be an all-day, full-semester experience. Most students are placed in a district within a 60-mile radius of Iowa City. Placements outside this area require special approval and are considered on an individual basis. Special programs provide experience in districts with diverse populations, including Aldine, Texas (Houston area); Adams County, Colorado (Denver area); Rialto, California; and Clark County, Nevada (Las Vegas area). In most
program areas, students also may apply to student teach at international sites for the second half of the semester. Additionally, information about options for student teaching and application procedures is available from the Office of Education Services. Applications for student teaching must be submitted during the calendar year before the student teaching semester. The deadline is November 15 for students planning to student teach the following fall semester and February 15 for students planning to student teach the following spring semester.

TRANSFER STUDENTS
Transfer students must complete the following work before they student teach.

07E:102 (EDTL:3002) Technology in the Classroom 2-3 s.h.
07S:190 (EDTL:3090) Orientation to Secondary Education 1 s.h.
07S:195 (EDTL:3095) Teaching Reading in Secondary 1 s.h.
Content Areas
Appropriate methods courses
A practicum at The University of Iowa
All course work in the major

Transfer students must follow the normal application procedures. In addition, they are asked to complete a disclosure statement describing all practicum experiences they have taken at other institutions and a release statement allowing the College of Education Office of Education Services to contact all institutions where they have done professional preparatory work.

Graduate Programs: Overview
• Master of Arts in teaching and learning
• Master of Arts in Teaching in science education
• Master of Arts in Teaching in teaching and learning
• Master of Science in science education
• Doctor of Philosophy in science education
• Doctor of Philosophy in teaching and learning

The department offers a number of graduate degree programs in three major areas: elementary education, secondary education, and special education.

Elementary education programs:
Developmental reading (offered in the M.A.);
Elementary education (offered in the M.A. and Ph.D.; both programs are closing, admission is suspended); and
Language, literacy, and culture (offered in the Ph.D.).

Secondary education programs:
Art education (offered in the M.A. and Ph.D.; the Ph.D. program is closing, admission is suspended);
Curriculum and supervision (offered in the M.A. and Ph.D.);
English education (offered in the M.A. and M.A.T.);
Foreign language and English as a Second Language (ESL) education (offered in the M.A., M.A.T., and Ph.D.);
Language, literacy, and culture (offered in the Ph.D.);
Mathematics education (offered in the M.A. and Ph.D.);
Science education (offered in the M.A., M.A.T., and Ph.D.); and
Social studies education (offered in the M.A. and Ph.D.).

The secondary education area also collaborates with the College of Liberal Arts and Sciences to offer an education option for graduate students earning an M.S. in mathematics; an M.A. and Ph.D. in music with a concentration in music education; and a joint B.A./M.A.T. in science education for undergraduates majoring in biology, chemistry, environmental sciences, or physics. In addition, the area offers an ESL endorsement for individuals who are enrolled in a Department of Teaching and Learning graduate degree program or who are licensed in-service teachers.

Special education:
Special education (offered in the M.A. and Ph.D.); and
A program leading to special education consultant authorization.

Each degree program is described below.

Applicants for admission to University of Iowa graduate degree programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate Student Handbook (p. 808) College section of the Catalog.

REQUIRED PH.D. RESEARCH COURSES
All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

REQUIRED PH.D. CORE COURSES
All Ph.D. students in the Department of Teaching and Learning must complete one or both of the following Ph.D. core courses, depending upon program requirements.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

REQUIRED PH.D. COGNATES
All Ph.D. students in the Department of Teaching and Learning must complete two approved cognate areas as part of their doctoral study plan. Most comprehensive exams in the department are designed to cover the student’s core area plus two cognate areas, so selection of cognate areas is important. Cognates also may enhance students’ employment possibilities, since they represent a minor area of study.

The following list of cognates offered by program areas in the department is not exhaustive; students may select cognates from this list, or they may customize their own cognate areas in consultation with their advisors.

Curriculum Theory and Development
Both of these:

07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.
07S:186 (EDTL:5086) Curriculum Foundations 2-3 s.h.

One of these:

07B:265 (EPLS:6265) Standards-Based Education and Accountability 3 s.h.
07B:381 (EPLS:6381) Analysis and Appraisal of Curriculum 3 s.h.
07P:255 (PSQF:6255) Construction and Use of Evaluation Instruments 3 s.h.

Foreign Language and ESL Education
Both of these:
07S:183 (EDTL:6483) Second Language Classroom Learning 3 s.h.
07S:200 (EDTL:6400) Fundamentals of Second Language Assessment 3 s.h.
One of these, in consultation with faculty:
07S:180 (EDTL:6480) Issues in Foreign Language Education 3 s.h.
07S:184 (EDTL:6484) Reading in a Second Language 3 s.h.
07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction 3 s.h.
07S:203 (EDTL:6403) Second Language Planning in Education 3 s.h.

Gifted Education
Administrative strand—two of these, in consultation with faculty:
07B:110 (EPLS:4110) Administration and Policy in Gifted Education 2 s.h.
07B:111 (EPLS:4111) Evaluation of Gifted Programs 1 s.h.
07B:113 (EPLS:4113) Staff Development for Gifted Programs 1 s.h.
07C:127 (RCE:4127) Research and Theory in Talent/Giftedness 1 s.h.

Programming strand:
07E:166 (EDTL:4066) Curriculum Concepts in Gifted Education 3 s.h.
07E:199 (EDTL:4199) Program Models in Gifted Education 3 s.h.

Psychology strand—two of these, in consultation with faculty:
07C:120 (RCE:4120) Psychology of Giftedness 3 s.h.
07C:121 (RCE:4121) Identification of Students for Gifted Programs 3 s.h.
07C:137 (RCE:4137) Introduction to Educating Gifted Students 3 s.h.
07C:226 (RCE:5226) Assessment of Giftedness 3 s.h.
07C:237 (RCE:5237) Seminar in Gifted Education 2-3 s.h.

Global Education
07B:104 (EPLS:5104) Education in the Third World 2-3 s.h.
07B:195 (EPLS:5195) Research in Cross-Cultural Settings 3 s.h.
07S:341 (EDTL:6841) Infusing a Global Perspective into the Curriculum 3 s.h.

Language, Literacy, and Culture
07S:415 (EDTL:7015) Ph.D. Seminar in Language, Literacy, and Culture (when topic is historical and theoretical perspectives) arr.
An additional 07S:415 (EDTL:7015) seminar with a topic chosen in consultation with advisor

General emphasis—one of these:
07E:308 (EDTL:7008) Seminar: Research and Current Issues arr.
An additional 07E:308 (EDTL:7008) seminar with a topic chosen in consultation with advisor

Elementary emphasis—one of these:
07E:204 (EDTL:6104) Literature for Children II 3 s.h.
07E:264 (EDTL:6164) Early Literacy Development and Instruction 2-3 s.h.
07E:265 (EDTL:6165) Reading and Writing Across Intermediate Grades 3 s.h.

Secondary emphasis—one of these:
07S:193 (EDTL:3393) Reading and Teaching Adolescent Literature 3 s.h.
07S:315 (EDTL:6315) M.A. Seminar: English Education arr.

Mathematics Education
07S:235 (EDTL:5535) Current Issues in Mathematics Education 1-3 s.h.
07S:335 (EDTL:7535) Seminar: Research in Mathematics Education arr.
Two of these:
07S:230 (EDTL:6530) Workshop in School Mathematics 1-3 s.h.
07S:231 (EDTL:6531) Technology in School Mathematics 2-3 s.h.
07E:234 (EDTL:6534) Foundations of Mathematics Education 2-3 s.h.
07S:236 (EDTL:6536) Teaching of Geometry 2-3 s.h.
07S:239 (EDTL:6539) Teaching of Algebra 2-3 s.h.

Science Education
07S:257 (EDTL:6757) Learning in the Science Classroom 2-3 s.h.
07S:259 (EDTL:6759) Advanced Pedagogy 3 s.h.

Special Education
Three or four of these, depending on requirements of the major program:
07U:345 (EDTL:7945) Current Issues and Trends in Learning Disabilities 3 s.h.
07U:348 (EDTL:7948) Contemporary Research in Behavioral Disorders 3 s.h.
07U:353 (EDTL:7953) Seminar: Single Subject Design Research 3 s.h.

Graduate Programs: Elementary Education

M.A.: Developmental Reading

The Master of Arts program in developmental reading requires a minimum of 33 s.h. of graduate credit with thesis and a minimum of 35 s.h. of graduate credit without thesis. The program prepares graduate students for positions as reading specialists in kindergarten and grades 1-12. The required course work develops the skills, knowledge, and competence needed for supervisory, curricular, and remedial teaching positions in reading. The program also builds a background in reading for students who want to specialize further in the area and eventually to teach and/or conduct research at a college or university.

Successful completion of this program, combined with one year of successful teaching experience that includes teaching reading as a significant part of the responsibility, qualifies the student for certification as a reading specialist.

The M.A. program in developmental reading requires the following work.

REQUIRED COURSES
All of these:
07E:171 (EDTL:4171) Reading and Writing: Processes and Instruction 3 s.h.
07E:264 (EDTL:6164) Early Literacy Development and Instruction 2-3 s.h.
07E:265 (EDTL:6165) Reading and Writing Across Intermediate Grades 3 s.h.
07E:271 (EDTL:6171) Advanced Reading Clinic Techniques 2-3 s.h.
07E:272 (EDTL:6172) Advanced Reading Clinic Practicum 2-3 s.h.
07E:308 (EDTL:7008) Seminar: Research and Current Issues (Reading) 3 s.h.
07S:194 (EDTL:4394) Methods: Secondary Reading 2-3 s.h.

One of these:
07P:106 (PSQF:5106) Child Development 3 s.h.
07P:130 (PSQF:4130) Early Adolescent Development 3 s.h.
07P:133 (PSQF:4133) The Adolescent and Young Adult 3 s.h.
07P:200 (PSQF:6200) Educational Psychology 3 s.h.

Students who have completed educational psychology and/or human growth and development course work relating only to grades K-8 should choose 07P:130 (PSQF:4130), 07P:133 (PSQF:4133), or 07P:200 (PSQF:6200) from the list above. Those who have completed work relating only to grades 5-12 should choose 07P:106 (PSQF:5106) or 07P:200 (PSQF:6200).

One of these:
07P:150 (PSQF:5150) Introduction to Educational Measurement 3 s.h.
07U:138 (EDTL:3938) Assessment of Learning Problems 3 s.h.
An approved literacy assessment course

One of these:
07E:267 (EDTL:6167) Inquiry-Based Curriculum Development in Early Childhood and Elementary Classrooms 3 s.h.
07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.
07S:186 (EDTL:5086) Curriculum Foundations 2-3 s.h.

One of these:
07B:383 (EPLS:6383) Supervision and Evaluation 3 s.h.
07E:365 (EDTL:7165) Reading Clinic: Supervision 3 s.h.
Thesis (required for thesis option):

ELECTIVES
Students, in consultation with their advisors, may select the remaining required semester hours as electives from areas such as curriculum, supervision, language arts, testing and evaluation, linguistics, or speech pathology.

COMPREHENSIVE EXAMINATION
The comprehensive examination consists of two three-hour exams. Each three-hour exam is based on an aspect of reading or literacy. With agreement of the student’s advisor and committee, a comprehensive project may be substituted for the written examination in one or both areas.

ADMISSION
Applicants to the M.A. program in developmental reading must meet the admission requirements of the Graduate College. They must have an undergraduate g.p.a. of at least 3.00; hold an early childhood, elementary, or secondary school teaching certificate; and show evidence of completing two years of successful teaching experience.

M.A.: Elementary Education
The Master of Arts program in elementary education is closing. Enrollment in the program is suspended.

Ph.D.: Elementary Education
The Doctor of Philosophy program in elementary education is closing. Enrollment in the program is suspended.

Ph.D.: Language, Literacy, and Culture
The Doctor of Philosophy program in language, literacy, and culture requires a minimum of 88-90 s.h. of graduate credit. The program brings together scholarly traditions and contemporary theory in literacy and cultural studies. Course work provides both a broad background in relevant theoretic and research literature and opportunities to conduct original studies that explore the nature of literacy practices both in and out of school. Graduates find employment in university and college teaching, research, curriculum development, and administration of literacy programs.

REQUIRED COURSES
Course work for the Ph.D. includes an introductory seminar in language, literacy, and culture; at least 9 s.h. of additional doctoral seminars in the program; an approved cognate area (see “Required Ph.D. Cognates” under “Graduate Programs: Overview” above); and 9-12 s.h. of graduate course work outside the Department of Teaching and Learning (6 s.h. of that outside the College of Education). Students also earn 10-12 s.h. of dissertation credit.

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

In addition, all language, literature, and culture students must complete one of the following Department of Teaching and Learning core courses:

Ph.D.: Language, Literacy, and Culture

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

COMPREHENSIVE EXAMINATION AND DISSERTATION
As students near the completion of their course work, they identify several key strands for review and synthesis. With guidance from their advisors, students prepare three forms of written and oral exams: they answer take-home questions in two areas of literacy; they submit a substantive issues paper, typically a report of an exploratory study or a review of research literature on a topic of special interest; and they design a syllabus for a literacy course and write a reflective commentary that demonstrates understanding of the relationship between theory and practice.

Following successful completion of all components of the comprehensive exam, students work with a faculty
member to develop a proposal for a study that will make an original contribution to the understanding of some aspect of literacy. After the proposal has been approved, students conduct research and report their findings under the primary guidance of a dissertation chair.

For detailed information on the Ph.D. in language, literacy, and culture, see Our Programs on the Department of Teaching and Learning web site.

ADMISSION

Applicants to the Ph.D. program in language, literacy, and culture must meet the admission requirements of the Graduate College. They should have at least three years of experience teaching or tutoring language or literacy (reading, writing, English, language arts) and should have earned a master’s degree in a literacy-related field. Application materials should include a statement of purpose explaining the applicant’s reasons for pursuing graduate study and describing his or her future goals; transcripts of all undergraduate and graduate course work; Graduate Record Exam (GRE) General Test scores; a sample of academic writing; and three letters of recommendation.

Applications for admission and for financial aid are reviewed by December 1 each year.

Graduate Programs: Secondary Education

The Department of Teaching and Learning offers, or jointly administers with departments in the College of Liberal Arts and Sciences, advanced degree programs in the following fields of professional interest: art education; curriculum and supervision; English education; foreign language, second language, and English as a Second Language education; mathematics education; music education; science education; and social studies education.

M.A.: Art Education

The Master of Arts program in art education requires a minimum of 38 s.h. of graduate credit. The program prepares highly qualified teachers of art for elementary and secondary schools and community colleges. Its strong academic emphasis helps teachers who are creative artists to become highly literate in the history and language of art.

REQUIREMENTS

The M.A. plan of study includes a total of 18 s.h. in studio art and art history (either 12 s.h. of studio art and 6 s.h. of art history, or 12 s.h. of art history and 6 s.h. of studio art); a total of 8 s.h. in 07S:367 (EDTL:6267) Seminar: Current Issues in Art Education; and a total of 12 s.h. in additional course work, specified after the student begins the program.

M.A. students also must complete a studio thesis or a written thesis.

ADMISSION

Applicants to the M.A. program in art education must meet the admission requirements of the Graduate College. They must have completed the equivalent of the minimum course work in art required for a University of Iowa B.A. or B.F.A. in art and must have a license/certificate to teach art. Applications must include a representative portfolio of the applicant’s work, consisting of eight slide reproductions of artwork and one example of written work, which may be a paper previously written for a course or an original paper. Deficiencies in undergraduate art or courses recommended for teacher licensure/certification are evaluated following admission so that students can make up required course work concurrent with work for the degree.

Ph.D.: Art Education

The Doctor of Philosophy program in art education is closing; admission is suspended. For degree requirements, see the 2011-12 General Catalog.

M.A.: Curriculum and Supervision

The Master of Arts program in curriculum and supervision requires a minimum of 30 s.h. of graduate credit with thesis and a minimum of 32 s.h. without thesis. The program prepares teachers and administrators for positions as consultants, directors, and coordinators in curriculum development.

The M.A. program in curriculum and supervision requires the following work.

COMMON CURRICULUM CORE

Students complete a total of 15 s.h. for the common curriculum core, as follows.

Both of these:
- 07S:186 (EDTL:5086) Curriculum Foundations 3 s.h.
- 07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.

Three of these:
- 07B:222 (EPLS:6222) Introduction to Policy Analysis and Evaluation 3 s.h.
- 07B:381 (EPLS:6381) Analysis and Appraisal of Curriculum 3 s.h.
- 07E:267 (EDTL:6167) Inquiry-Based Curriculum Development in Early Childhood and Elementary Classrooms 3 s.h.
- 07P:203 (PSQF:6203) Learning, Technology, and Effective Teaching 3 s.h.
- 07P:205 (PSQF:6205) Design of Instruction 3 s.h.
- 07P:255 (PSQF:6255) Construction and Use of Evaluation Instruments 3 s.h.
- 07S:132 (EDTL:4032) Middle School Curriculum and Methods 3 s.h.

RESEARCH CORE

Students select two courses (total of 6 s.h.) in consultation with the advisor.

SUPERVISION CORE

Students select two courses (total of 6 s.h.) in consultation with the educational policy and leadership studies advisor.

COGNATES

Students complete a total of 6 s.h. in a subject field such as social studies education or educational measurement.

THESIS

Students who elect a thesis program earn 2-4 s.h. in 07S:393 (EDTL:6393) Master’s Thesis.
COMPREHENSIVE EXAMINATION
Two three-hour comprehensive exams are required: one in curriculum and one in a related field in education or in a cognate field; or three two-hour examinations.

ADMISSION
Applicants to the M.A. program in curriculum and supervision must meet the admission requirements of the Graduate College. Teaching experience is desirable.

Ph.D.: Curriculum and Supervision
The Doctor of Philosophy program in curriculum and supervision requires a minimum of 90 s.h. of graduate credit. The program prepares students for leadership positions in curriculum for elementary, middle, and secondary schools, state departments, intermediate systems, and college teaching.

The Ph.D. program in curriculum and supervision requires the following work. Students may be able to count previous graduate work toward the degree.

DEPARTMENT PH.D. REQUIREMENTS
All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

Ph.D. students in curriculum and supervision must complete one or both of the Department of Teaching and Learning Ph.D. core courses.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

All curriculum and supervision doctoral students are required to complete at least 9-12 s.h. of cognate work selected in consultation with their advisors. Suggested cognates include foreign language and ESL education, gifted education, global education, language literacy and culture, mathematics education, science education, and special education (see "Required Ph.D. Cognates" under "Graduate Programs: Overview" above).

COMMON CURRICULUM CORE
Seven of these (21 s.h.):

07B:222 (EPLS:6222) Introduction to Policy Analysis and Evaluation 3 s.h.
07B:381 (EPLS:6381) Analysis and Appraisal of Curriculum 3 s.h.
07E:267 (EDTL:6167) Inquiry-Based Curriculum Development in Early Childhood and Elementary Classrooms 3 s.h.
07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.
07P:205 (PSQF:6205) Design of Instruction 3 s.h.
07P:255 (PSQF:6255) Construction and Use of Evaluation Instruments 3 s.h.
07P:257 (PSQF:6257) Educational Measurement and Evaluation 3 s.h.
07S:132 (EDTL:4032) Middle School Curriculum and Methods 3 s.h.
07S:186 (EDTL:5086) Curriculum Foundations 2-3 s.h.

SUPERVISION CORE
Students complete a minimum of four courses (12 s.h.) in education policy and leadership studies selected in consultation with their advisors.

ELECTIVES
Students complete 9-12 s.h. of elective course work selected in consultation with their advisors.

COMPREHENSIVE EXAMINATION
Candidates take three three-hour comprehensive exams, one in secondary school curriculum and two in related fields in education or in a cognate field.

DISSERTATION

ADMISSION
Applicants to the Ph.D. program in curriculum and supervision must meet the admission requirements of the Graduate College. They must hold a valid teaching license/certificate, and have at least two years of teaching experience. A faculty review committee makes admission decisions.

M.A.: English Education
The Master of Arts program in English education requires a minimum of 30 s.h. of graduate credit. The program is intended for experienced teachers of English. It provides opportunities for professional development and preparation for department chairs, supervisors of English, and curriculum specialists for secondary schools.

M.A. students specialize in English education and in one or two other areas. The other area(s) may include reading, writing, curriculum, adolescent literature, or a literary area. Students and their advisors plan the program of study together. The only required course is 07S:315 (EDTL:6315) M.A. Seminar: English Education. At the end of the program, students take a comprehensive examination in English education and in their chosen area(s), or they may choose to write a thesis.

Students must maintain a g.p.a. of at least 3.00 while enrolled in the program.

ADMISSION
Applicants to the M.A. program in English education must meet the admission requirements of the Graduate College. They should have taken extensive course work in English and should have taught English for at least two years. Application should be made to the College of Education.

M.A.T.: English Education
The Master of Arts in Teaching program in English education requires a minimum of 45 s.h. of graduate credit. The program is designed for students who have an undergraduate degree in English and few or no professional education courses. Successful completion of the program enables students to receive a credential to teach English in secondary schools.
The M.A.T. program in English education requires the following work.

**COMPREHENSIVE EXAMINATION**

The comprehensive examination involves a series of reflective projects supervised by English education faculty. The projects encompass issues explored throughout the course of study and involve integration of theory and practice.

**ADMISSION**

Applicants to the M.A.T. program in English education must meet the admission requirements of the Graduate College. They must have either a B.A. in English or the equivalent, with an undergraduate g.p.a. of at least 3.00. They also must take the Graduate Record Exam and meet all TEP application requirements. Since the M.A.T. is a credentialing program, candidates must not have qualified previously for a credential. Applicants are expected to have no more than 6 s.h. of course work in professional education courses before admission.

**ESL Endorsement**

An ESL endorsement enables an individual to teach English as a Second Language in K-12 in the state of Iowa.

The M.A. program in foreign language and ESL education requires the following work, including these suggested courses.

**EDUCATION**

Students must maintain a g.p.a. of at least 3.00 while enrolled in the program. Candidacy for the master's degree is reevaluated annually.

**M.A.: Foreign Language and ESL Education**

The Master of Arts program in foreign language and English as a Second Language (ESL) education requires a minimum of 33-36 s.h. of graduate credit. The program is designed for students who would like to pursue a foreign language and ESL education specialization in teaching (kindergarten through college) or in related fields (e.g., language laboratory directors, instructional materials designers, or evaluation specialists). It also offers enrichment in foreign language pedagogical knowledge for practicing teachers. Students may design programs with a special focus.

The program offers three specializations: second languages and ESL education; a target language area (may subsume language, linguistics, literature, history, geography, or civilization); and a cognate area. The cognate area may be teacher education, reading, instructional design, measurement and statistics, or another area selected in consultation with the advisor.

Students take at least 15 s.h. in second language education course work, 9 s.h. in graduate language or linguistics, and 9 s.h. in the cognate area. They must earn 9 s.h. in courses numbered 200 or above. They also must complete a capstone project in consultation with the advisor.

Students must maintain a g.p.a. of at least 3.00 while enrolled in the program. Candidacy for the master's degree is reevaluated annually.

The M.A. program in foreign language and ESL education requires the following work, including these suggested courses.

</tbody>
</table>

**ADMISSION**

Each applicant to the ESL endorsement program must submit a one-page essay explaining why he or she wishes to teach ESL; a transcript of all university-level course work; and evidence of having completed two semesters of foreign language beyond the language component of the College of Liberal Arts and Sciences General Education Program (p. 276) or a documented score of “advanced plus” on the oral proficiency interview (OPI) given in the language department. Applicants whose first language is not English must provide evidence of scoring 55 or higher on the Test of Spoken English (TSL) or 26 (Internet-based) on the speaking section of the Test of English as a Foreign Language (TOEFL).

Applicants are admitted to the ESL endorsement program twice a year; application deadlines are October 15 and March 15.

Applicants are admitted to the ESL endorsement program twice a year; application deadlines are October 15 and March 15.
M.A.T.: Foreign Language and ESL Education

The Master of Arts in Teaching program in foreign language and English as a Second Language (ESL) education requires a minimum of 67 s.h. of graduate credit. The program is designed for superior liberal arts and sciences graduates who have had few or no professional education courses. Successful completion of the program leads to elementary and/or secondary teacher licensure. The M.A.T. is available in Chinese, French, German, Japanese, Latin, Spanish, and Russian.

M.A.T. students must complete at least 18 s.h. in graduate course work in the collaborating foreign language department in addition to professional education courses. The M.A.T. in foreign language and ESL education requires the following work.

PROFESSIONAL EDUCATION

All of these:

07B:180 (EDTL:4180) Human Relations for the Classroom Teacher 3 s.h.
07E:100 (EDTL:3000) Foundations of Education 3 s.h.
07E:102 (EDTL:3002) Technology in the Classroom (must be taken during student’s first semester in the college) 2 s.h.
07P:200 (PSQF:6200) Educational Psychology 3 s.h.
07S:190 (EDTL:3090) Orientation to Secondary Education (must be taken during student’s first semester in the college) 1 s.h.
07S:195 (EDTL:3095) Teaching Reading in Secondary Content Areas (must be taken during student’s first semester in the college) 1 s.h.
07U:100 (EDTL:4900) Foundations of Special Education 3 s.h.

FOREIGN LANGUAGE TEACHING

All of these:

07S:183 (EDTL:6483) Second Language Classroom Learning 3 s.h.
07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction 3 s.h.
07S:200 (EDTL:6400) Fundamentals of Second Language Assessment 3 s.h.

Total of 21-27 s.h. from these:

07S:106 (EDTL:4406) Foreign Language Education Practicum I 3 s.h.
07S:107 (EDTL:4407) Foreign Language Education Practicum II 3 s.h.
07S:116 (EDTL:4416) Learning to Teach Second Languages I 3 s.h.
07S:117 (EDTL:4417) Learning to Teach Second Languages II 3 s.h.
07S:187 (EDTL:4087) Seminar: Curriculum and Student Teaching 1 s.h.
07S:191 (EDTL:4091) Observation and Laboratory Practice in the Secondary School 1 s.h.
07S:192 (EDTL:4092) Observation and Laboratory Practice in the Secondary School 1 s.h.

K-12 LICENSURE

The K-12 licensure option requires the following course.

07S:189 (EDTL:4089) Elementary School Special Subject Area Student Teaching 1-4 s.h.

COMPREHENSIVE EXAMINATION

A comprehensive examination is required. The examination reflects candidate’s depth and breadth of knowledge in foreign language and ESL education, including but not limited to theory and practice as well as knowledge of and proficiency in the target language and/or literature of the candidate’s choice. The candidate and his or her advisor discuss the exam’s content and format eight months before the exam.

ADMISSION

Applicants must meet the admission requirements of the Graduate College. They must have been granted a bachelor’s degree with a major or a strong concentration
in a second language and must have an undergraduate g.p.a. of at least 3.00. They also must meet all TEP application requirements.

**Ph.D.: Foreign Language and ESL Education**

The Doctor of Philosophy program in foreign language and English as a Second Language (ESL) education requires a minimum of 80 s.h. of graduate credit. The program provides students with the necessary content-area knowledge and research skills for independent research, program administration, and varied leadership positions in foreign language and ESL education. It is designed for individuals who have demonstrated success in foreign language and ESL teaching and who wish to prepare for positions in academia, government, or the private sector where in-depth knowledge of foreign language educational issues is required.

Most course work for the Ph.D. should be taken at the 200 level or above. At least 30 s.h. must be taken in the core area of foreign language education. The student and his or her advisor discuss core area course work and cognate area specializations. The student’s progress toward the degree and his or her scholarship development is reviewed by the program’s faculty and discussed by the student and his or her advisor each year.

The Ph.D. program in foreign language and ESL education requires the following work. Students may be able to count some courses completed for the master’s degree toward the 80 s.h. required for the Ph.D.

**DEPARTMENT PH.D. REQUIREMENTS**

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

All Ph.D. students in the foreign language and ESL education must complete both of the following Ph.D. core courses.

- 07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
- 07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

In addition, all doctoral students in the Department of Teaching and Learning must complete an approved cognate area; see "Required Ph.D. Cognates" under "Graduate Programs: Overview" above.

**FOREIGN LANGUAGE EDUCATION CORE**

All students must complete these (21 s.h.):

- 07S:183 (EDTL:6483) Second Language Classroom Learning 3 s.h.
- 07S:184 (EDTL:6484) Reading in a Second Language 3 s.h.
- 07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction 3 s.h.
- 07S:200 (EDTL:6400) Fundamentals of Second Language Assessment 3 s.h.
- 07S:203 (EDTL:6403) Second Language Planning in Education 3 s.h.
- 07S:209 (EDTL:6409) Cultural Curriculum 3 s.h.

**CORE ELECTIVES**

Students may take the following courses in addition to, but not instead of, the courses listed under "Foreign Language Education Core" above. Students must have their advisor’s consent to substitute other courses as electives.

- 07S:180 (EDTL:6480) Issues in Foreign Language Education 3 s.h.
- 07S:202 (EDTL:6402) Second Language Program Management 3 s.h.
- 07S:207 (EDTL:6407) Reading in Non-Roman Scripts 3 s.h.
- 07S:208 (EDTL:6408) Designing Materials for Second Language Instruction 3 s.h.
- 164:211 (SLA:6920) Multimedia and Second Language Acquisition 3 s.h.

**COMPREHENSIVE EXAMINATION**

In order to qualify to take the comprehensive examination, students must successfully complete the required course work and an extended research activity. After successful completion of the required course work and the research activity, and upon recommendation of the program’s faculty, the student is eligible to sit for the comprehensive examination. Completion of the required course work and research activities does not guarantee advancement to the examination.

After passing the comprehensive examination, students consult with their advisor to choose a Ph.D. dissertation committee of at least five faculty members, who approve the dissertation proposal. The student then conducts research under the primary guidance of the advisor.

**ADMISSION**

Applicants to the Ph.D. program in foreign language and ESL education meet the admission requirements of the Graduate College. They should have at least two years of experience teaching foreign language or ESL and should hold a master’s degree or have completed a significant amount of graduate course work in a foreign language or foreign language education. Applicants must have a g.p.a. of at least 3.00 in graduate course work. International applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL) with a speaking score of 26 and a writing score of 25.

Application materials should include a statement of purpose explaining the applicant’s professional goals, transcripts of all undergraduate and graduate work, Graduate Record Exam (GRE) General Test scores, a sample of academic writing, and three letters of recommendation.

**Ph.D.: Language, Literacy, and Culture**

The Doctor of Philosophy program in language, literacy, and culture requires a minimum of 88-90 s.h. of graduate credit. The program brings together scholarly traditions and contemporary theory in literacy and cultural studies. Course work provides a broad background in relevant theoretic and research literature and opportunities to conduct original studies that explore the nature of literacy
practices both in and out of school. Graduates find employment in university and college teaching, research, curriculum development, and administration of literacy programs.

**REQUIRED COURSES**

Ph.D. students complete an introductory seminar in language, literacy, and culture; at least 9 s.h. of additional doctoral seminars in the program; approved cognate areas (see “Required Ph.D. Cognates” under “Graduate Programs: Overview” above); and 9-12 s.h. of graduate course work outside the Department of Teaching and Learning (6 s.h. of that outside the College of Education). Students also earn 10-12 s.h. of dissertation credit.

All College of Education Ph.D. students must complete:

- 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other.

Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

In addition, all language, literacy, and culture students must complete one of the following Department of Teaching and Learning core courses:

- 07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
- 07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

**COMPREHENSIVE EXAMINATION AND DISSERTATION**

As students near the completion of their course work, they identify several key strands for review and synthesis. With guidance from their advisors, students prepare for three forms of written and oral exams: they answer take-home questions in two areas of literacy; they submit a substantive issues paper, typically a report of an exploratory study or a review of research literature on a topic of special interest; and they design a syllabus for a literacy course and write a reflective commentary that demonstrates understanding of the relationship between theory and practice.

Following successful completion of all components of the comprehensive exam, students work with a faculty member to develop a proposal for a study that will make an original contribution to the understanding of some aspect of literacy. After the proposal has been approved, students conduct research and report their findings under the primary guidance of a dissertation chair.

For detailed information on the Ph.D. program in language, literacy, and culture, see Our Programs on the Department of Teaching and Learning web site.

**ADMISSION**

Applicants to the Ph.D. program in language, literacy, and culture must meet the admission requirements of the Graduate College. They should have at least three years of experience teaching or tutoring language or literacy (reading, writing, English, language arts) and should have earned a master’s degree in a literacy-related field. Application materials should include a statement of purpose explaining the applicant’s reasons for pursuing graduate study and describing his or her future goals; transcripts of all undergraduate and graduate course work; Graduate Record Exam (GRE) General Test scores; a sample of academic writing; and three letters of recommendation.

Applications for admission and for financial aid are reviewed December 1 each year.

**M.A.: Mathematics Education**

The Master of Arts program in mathematics education requires a minimum of 32 s.h. of graduate credit. The program provides students with advanced specialization in mathematics and education as a better foundation for K-12 teaching.

**REQUIRED COURSES**

M.A. students take a minimum of 9 s.h. of course work in mathematics approved by the advisor. They also take a minimum of four courses in mathematics education, which must include 07S:235 (EDTL:5535) Current Issues in Mathematics Education and three courses chosen in consultation with the advisor.

Students choose a cognate area, usually enrolling in three or more courses in the area. Suggested areas include educational psychology, educational statistics and measurement, history or philosophy of education, pure or applied mathematics, instructional design and technology, counselor education, curriculum, administration, and special education. Courses are chosen in consultation with a faculty member from the cognate area.

Students also complete a sufficient number of electives in mathematics and education, chosen with the approval of the advisor, to complete 32 s.h. of credit.

**COMPREHENSIVE EXAMINATION**

Students take three 2-hour comprehensive exams: one in mathematics education, the second in mathematics, and the third in the cognate area.

**ADMISSION**

Applicants to the M.A. program in mathematics education must meet the admission requirements of the Graduate College. Except in unusual cases, they should hold a professional license/certificate to teach school mathematics. A combined score of 1000 on the verbal and quantitative sections of the Graduate Record Examination (GRE) General Test is preferred.

**M.S.: Mathematics with Education Option**

The Master of Science in mathematics with education option requires a minimum of 32 s.h. of graduate credit. The program prepares licensed/certified teachers with advanced specialization in mathematics and mathematics education. It is administered by the Department of Mathematics (p. 403) (College of Liberal Arts and Sciences).

M.S. students must earn a minimum of 24 s.h. in the Department of Mathematics, including the core master’s program for either pure mathematics or applied mathematics as described below. They also must complete two courses in mathematics education.

**PURE MATHEMATICS**

One of these sequences:
22M:115 (MATH:5200)-22M:116 (MATH:5210) Introduction to Analysis I-II 8 s.h.
22M:210 (MATH:6200)-22M:211 (MATH:6210) Analysis I-II 6 s.h.

One of these sequences:

22M:120 (MATH:5000)-22M:121 (MATH:5010) Abstract Algebra I-II 8 s.h.
22M:205 (MATH:6000)-22M:206 (MATH:6010) Introduction to Algebra I-II 6 s.h.

And:

22M:132 (MATH:5400) General Topology 4 s.h.

APPLIED MATHEMATICS

All of these:

22M:140 (MATH:4610) Continuous Mathematical Models 3 s.h.
22M:142 (MATH:5600) Nonlinear Dynamics with Numerical Methods 4 s.h.
22M:144 (MATH:5700) Partial Differential Equations with Numerical Methods 4 s.h.
22M:151 (MATH:4060) Discrete Mathematical Models 3 s.h.
22M:174 (MATH:4820) Optimization Techniques 3 s.h.

COMPREHENSIVE EXAMINATION

Students take a comprehensive examination of six hours over the required courses in either pure mathematics or applied mathematics, and education. The examination assesses the candidate’s knowledge of mathematics and of the relevance of specific concepts in teaching secondary school mathematics.

ADMISSION

Application should be made to the Department of Mathematics.

Ph.D.: Mathematics Education

The Doctor of Philosophy program in mathematics education requires a minimum of 80-90 s.h. of graduate credit. The program prepares supervisors, teacher education personnel, community college personnel, and researchers in mathematics education. It is administered by the College of Education.

The Ph.D. program in mathematics education requires the following work. Students must update graduate course work done more than 10 years before admission to the program.

REQUIRED COURSES

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

All doctoral students in mathematics education must complete one of the following Ph.D. core courses.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

In addition, all doctoral students in the Department of Teaching and Learning must complete an approved cognate area; see "Additional Requirements" below.

Ph.D. students in mathematics education must complete a minimum of 24 s.h. of graduate work in the Departments of Computer Science, Mathematics, and Statistics and Actuarial Science, as approved by the advisor. Electives are encouraged in the pure mathematics and applied mathematics sequences.

Students who completed their mathematics requirement at another institution must complete at least 6 s.h. of additional course work in mathematics at The University of Iowa, chosen with the advisor’s approval.

Students also must complete at least six courses in mathematics education, including 07S:235 (EDTL:5535) Current Issues in Mathematics Education and 07S:335 (EDTL:7535) Seminar: Research in Mathematics Education.

ADDITIONAL REQUIREMENTS

Students concentrate in two additional comprehensive examination areas in either the mathematical sciences or education. A minimum of three courses usually are required for a comprehensive examination area, but candidates should consult with faculty members in the areas selected to determine which courses they should take in order to adequately prepare for the examinations.

Students must complete a total of at least 36 s.h. in College of Education courses; this include the course work listed above. All Ph.D. students must complete an approved cognate area; a partial list of potential cognate areas is available from the M.A. program in mathematics education.

Upon completing the program, the student must have a cumulative g.p.a. of 3.00 or higher on all graduate work in mathematics, all University of Iowa graduate work in mathematics, all graduate work, and all University of Iowa graduate work.

COMPREHENSIVE EXAMINATION

Students take three written comprehensive examinations, one in mathematics education and two in other fields of education or mathematics; an oral examination follows the written examinations.

DISSERTATION

Students must earn 10 s.h. of dissertation credit in 07S:493 (EDTL:7493) Ph.D. Thesis. Each candidate completes a dissertation on a research problem in mathematics education. A prospectus of the proposed research must be presented to the dissertation committee before the candidate undertakes the study. Upon completion of the dissertation, the candidate defends the dissertation in an oral examination.

ADMISSION

Applicants to the Ph.D. program in mathematics education must meet the admission requirements of the Graduate College. They must have an undergraduate major in mathematics or the equivalent; a current teaching license/certificate and at least two years of teaching experience are strongly preferred. A faculty review committee makes admission decisions.
M.A.: Music Education

The Master of Arts in music with concentration in music education prepares students for teaching, research, and administrative posts. Graduates find employment as college teachers of music education classes and activities; as band, chorus, and orchestra directors; and as administrators of music departments and schools of music. Some apply their skills in public schools as music supervisors, research and curriculum consultants, and directors of city or district school music programs.

The program is administered by the School of Music (p. 425) (College of Liberal Arts and Sciences) in cooperation with the College of Education. Application should be made to the School of Music.

Ph.D.: Music Education

The Doctor of Philosophy in music with concentration in music education requires a minimum of 48 s.h. of graduate credit. The program is designed primarily for graduates of bachelor’s degree programs in music who decide that they would like to become teachers. It features advanced work in music along with the courses required for certification, enabling students to earn a master’s degree and teaching certification at the same time.

The program assumes students have completed considerable course work in music (at least 36 s.h.) as undergraduates, but no previous course work in education. Students’ science course work should be equivalent to that required by the University of Iowa Science Education (p. 500) Program (College of Liberal Arts and Sciences).

The M.A.T. program in science education requires the following work.

ELECTIVES

A minimum of one graduate course in biology, chemistry, earth science, or physics is required. Students who have satisfied portions of the required science course work listed above must take additional science course work to meet the minimum requirement of 48 s.h.

COMPREHENSIVE EXAMINATION

Students complete comprehensive examinations before their student teaching semester. Two comprehensive exams, one in science education and one in a science specialization area, are required. They may not duplicate course examinations in these areas. The science education exam, under the guidance and supervision of the examining committee, consists of two parts, written and oral. Detailed requirements for the science education comprehensive examination are available from the Department of Teaching and Learning office.

ADMISSION

Applicants to the M.A.T. program in science education must meet the admission requirements of the Graduate College. They must have a bachelor’s degree with a major or equivalent in one of the sciences. A g.p.a. of at least 3.00 is required for admission and must be maintained throughout the program. Applicants must meet all TEP application requirements.

Joint B.A./M.A.T.: Science Education

College of Liberal Arts and Sciences students who want to teach science and are working toward a Bachelor of Arts in biology, chemistry, environmental sciences, or physics may earn their bachelor’s degree and a Master of Arts in Teaching in five years through the joint B.A./M.A.T. program. Students in the joint program complete all of the course work required for both degrees, but 18 s.h. of work required for the M.A.T. also is counted toward the B.A. degree.

B.A. students are admitted to the joint program before their fourth year. They may begin taking education courses during their third year, but they may not earn graduate credit for them until their fourth and fifth years, after they have been admitted to the joint program. Students take 30 s.h. of course work during the fifth year and must
complete all remaining requirements for both degrees that year.

**SCIENCE SPECIALIZATION (BROAD FIELD SCIENCE BLOCK)**

The following courses are required for the undergraduate degree in science education at The University of Iowa. They need not be repeated by M.A.T. candidates who need one or more advanced courses in their major science area, or by students from other interdisciplinary science discipline programs that prepare teachers for grades 6-9.

097:135 (SIED:4135) The Nature of Science  
Two of these (unless completed during undergraduate study):

- 097:102 (SIED:4102) Societal and Educational Applications of Earth Science and Environmental Science  
- 097:103 (SIED:4103) Societal and Educational Applications of Biological Sciences  
- 097:105 (SIED:4105) Societal and Educational Applications of Physical Sciences  
- 097:106 (SIED:4106) Societal and Educational Applications of Chemical Concepts

Education courses required for the joint program are listed under "M.A.T.: Science Education" above. Requirements for the B.A. degree are listed under Biology (p. 115), Chemistry (p. 127), Environmental Sciences (p. 247), and Physics and Astronomy (p. 451) (College of Liberal Arts and Sciences) in the Catalog.

**M.S.: Science Education**

The Master of Science program in science education requires a minimum of 38 s.h. of graduate credit. The program is designed for teachers and supervisors (K-college) and professionals in related fields, such as medical education, college teaching, museum program management, and outreach programs. It is intended to provide experience in understanding teaching and learning and the research processes required to advance the field.

M.S. students complete course work in four areas: science education, education, research, and science. Their individual programs of study are approved by the science education faculty.

The M.S. program in science education requires the following work.

**REQUIRED COURSES**

All of these:

- 075:255 (EDTL:6755) Practices of Inquiry in Science Learning Environments (no substitute for this course)  
- 075:257 (EDTL:6757) Learning in the Science Classroom (no substitute for this course)  
- 075:259 (EDTL:6759) Advanced Pedagogy (no substitute for this course)  
- 075:355 (EDTL:7755) Independent Study in Science Education Research (taken twice)  

Two science content courses chosen with the advisor  
A minimum of 13 s.h. chosen from these:

- 07E:304 (EDTL:7004) Schooling in the United States  
- 07S:258 (EDTL:6758) Writing in the Science Classroom  

**DEPARTMENT PH.D. REQUIREMENTS**

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college's
web site). Course selections must be consistent with other requirements for the degree.

All doctoral students in science education must complete one or both of the following Ph.D. core courses. Students may not substitute other courses for these.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

In addition, all doctoral students in the Department of Teaching and Learning must complete an approved cognate area; see “Required Ph.D. Cognates” under “Graduate Programs: Overview” above.

SCIENCE EDUCATION
All of these (15 s.h.):

07S:254 (EDTL:6754) Theory and Research on Curriculum Materials in Science (no substitute for this course) 3 s.h.
07S:257 (EDTL:6757) Learning in the Science Classroom 2-3 s.h.
07S:259 (EDTL:6759) Advanced Pedagogy 3 s.h.

Graduate-level science education courses chosen in consultation with advisor 6 s.h.

EDUCATION
All of these (12 s.h.):

07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.
07P:200 (PSQF:6200) Educational Psychology 3 s.h.
07P:275 (PSQF:6275) Constructivism and Design of Instruction 3 s.h.
07X:150 (EALL:5150) Introduction to Educational Research 3 s.h.

RESEARCH IN SCIENCE EDUCATION
Both of these (21 s.h.):

07S:350 (EDTL:7750) Seminar: Science Education (taken three times for 1 s.h. each) 3 s.h.
07S:355 (EDTL:7755) Independent Study in Science Education Research (taken six times for 3 s.h. each) 18 s.h.

SCIENCE AREA
Students complete a family of courses (total of 12 s.h.) in a major science area.

DISSERTATION

ADMISSION
Applicants to the Ph.D. program in science education must meet the admission requirements of the Graduate College. They should have completed a bachelor’s degree in a science area (or combination of science areas), in science education, or in elementary education with a science emphasis; have a cumulative g.p.a. of at least 3.00 on undergraduate and graduate work; and have a combined score of at least 1000 on the verbal and quantitative portions of the Graduate Record Exam (GRE) General Test. Applicants must submit three letters of recommendation; a statement of purpose describing their reasons for pursuing graduate work and their goals for graduate study; and an example of their academic writing.

M.A.: Social Studies Education
The Master of Arts program in social studies education requires 38 s.h. of graduate credit. The program provides an opportunity for interdisciplinary work in education, history, social science, or related areas for classroom teachers, high school department chairs, supervisors, and others interested in advancing their competence in history and the social sciences and greater proficiency in teaching and supervision.

Students choose one of two programs. Program A provides interdisciplinary study in education, history, social science, or related areas for classroom teachers or others interested in advancing their competence in instruction and their subject area. Program B is for individuals who have a bachelor’s degree in history or a social science and who wish to obtain a teaching license/certificate while earning the M.A. degree. Program B students must apply to both the Graduate College and the College of Education.

PROGRAM A REQUIREMENTS
Program A students distribute the program's required 38 s.h. among three concentration fields in history and social sciences (or related areas), social studies education, and general education, with at least 9 s.h. in each of three fields. They must earn at least 9 s.h. in courses numbered 200 or above distributed among the three concentration fields.

Students who choose the thesis option complete a research or investigative problem. If the thesis is research or investigation in history, social science, or a related area, the thesis director is a member of the appropriate department. If the thesis is an investigative problem in social studies education, the thesis director is a College of Education faculty member.

PROGRAM A COMPREHENSIVE EXAMINATION
The required comprehensive examination consists of three two-hour written exams, one on each of the three concentration fields.

PROGRAM B REQUIREMENTS
Program B students should have completed considerable work in the social sciences and/or history as undergraduates. Students in the College of Education’s Teacher Education Program for secondary education in social studies may not apply credit they have earned in required licensure courses to the 38 s.h. required for the M.A., even though the credit counts toward state teaching licensure.

Program B students who completed 07S:111 (EDTL:4811) Introduction and Practicum: Secondary Social Studies and/or 07S:170 (EDTL:4870) Methods: Secondary Social Studies as undergraduate or postbaccalaureate students at The University of Iowa are required to retake these courses during the M.A. program and immediately before student teaching. Required teaching licensure course work completed at other colleges or universities is reviewed on a case-by-case basis.

Program B students who were accepted to the undergraduate Teacher Education Program before they received a baccalaureate must complete a college-level math course.

For licensure, students admitted to the M.A. in social studies education must complete 30 s.h. in a history or
social science area; the 30 s.h. may include previous undergraduate and/or graduate-level course work. Required professional education course work not completed as part of the baccalaureate degree must be completed for licensure.

Students also must complete 15 s.h. in an additional history or social science licensure area; previous undergraduate course work may apply.

Students must complete all of the following professional education courses, unless they completed some of them as part of their bachelor’s degree. In such cases, the semester-hour requirement for Program B is reduced accordingly, but it never falls below 38 s.h. All students must take the course work required for meeting all Iowa Department of Education requirements for teacher licensure/certification.

Professional education courses:

**07B:180 (EDTL:4180) Human Relations for the Classroom Teacher** 3 s.h.
**07E:100 (EDTL:3000) Foundations of Education** 3 s.h.
**07E:102 (EDTL:3002) Technology in the Classroom (must be taken during student’s first semester in the college)** 2 s.h.
**07P:200 (PSOF:6200) Educational Psychology** 3 s.h.
**07S:111 (EDTL:4811) Introduction and Practicum: Secondary Social Studies** 3 s.h.
**07S:170 (EDTL:4870) Methods: Secondary Social Studies (for students admitted March 2008 and after)** 3 s.h.
**07S:171 (EDTL:3071) Secondary Classroom Management** 2 s.h.
**07S:187 (EDTL:4087) Seminar: Curriculum and Student Teaching** 3 s.h.
**07S:190 (EDTL:3090) Orientation to Secondary Education (must be taken during student’s first semester in the college)** 1 s.h.
**07S:191 (EDTL:4091) Observation and Laboratory Practice in the Secondary School** 6 s.h.
**07S:192 (EDTL:4092) Observation and Laboratory Practice in the Secondary School** 6 s.h.
**07S:195 (EDTL:3095) Teaching Reading in Secondary Content Areas (must be taken during student’s first semester in the college)** 1 s.h.
**07S:233 (EDTL:6833) History and Foundations of Social Studies Education** 3 s.h.
**07S:277 (EDTL:6877) Seminar: Social Studies Education** 3 s.h.
**07S:341 (EDTL:6841) Infusing a Global Perspective into the Curriculum** 3 s.h.
**07U:100 (EDTL:4900) Foundations of Special Education** 3 s.h.

Subject area specialization courses: a minimum of 9 s.h. of course work in history or a social science is required; students should take at least one course taught by the instructor who will serve on the examining committee.

**PROGRAM B COMPREHENSIVE EXAMINATION**

The comprehensive examination consists of three two-hour exams: one on the subject area specialization, one on general professional education, and one on social studies education.

**ADMISSION**

Applicants to the M.A. program in social studies education must meet the admission requirements of the Graduate College. They should have a bachelor’s degree in education, history, or one of the social sciences from an accredited institution; a cumulative g.p.a. of at least 3.00; a g.p.a. of at least 3.00 in history and/or social science courses; a combined verbal and quantitative score of at least 300 on the Graduate Record Examination (GRE) General Test; and two letters of recommendation. Evidence of writing ability in a completed major paper or essay also is required. Typically, applicants to Program A are expected to hold a secondary teaching license/certificate.

After declaring a social studies education major, M.A. students must maintain a g.p.a. of at least 3.00.

**Ph.D.: Social Studies Education**

The Doctor of Philosophy program in social studies education requires a minimum of 90 s.h. of graduate credit. The program prepares secondary department chairs, supervisors, curriculum directors, teacher education personnel, and college instructors in the social sciences and in social studies education.

The required 90 s.h. of credit includes course work and the dissertation (10 s.h.).

**REQUIRED COURSES**

All College of Education Ph.D. students must complete 07X:150 (EALL:5150) Introduction to Educational Research during the first year of their Ph.D. program. They also must complete an additional minimum of 15 s.h. in qualitative and quantitative course work, with at least 9 s.h. from one area (qualitative or quantitative) and at least 6 s.h. from the other. Courses to meet this requirement must be chosen from Required Ph.D. Research Courses (see Course Information in the A-Z directory on the college’s web site).

In addition, all Ph.D. students in the Department of Teaching and Learning must complete one or both of the following Ph.D. core courses.

**07E:304 (EDTL:7004) Schooling in the United States** 3 s.h.
**07S:333 (EDTL:7033) Seminar on Teacher Education** 3 s.h.

Seminars and courses numbered 200 or above are required in each of the study areas that constitute the major. Students must take 9 s.h. of required courses in social studies education, including 07S:233 (EDTL:6833) History and Foundations of Social Studies Education, 07S:277 (EDTL:6877) Seminar: Social Studies Education, and 07S:341 (EDTL:6841) Infusing a Global Perspective into the Curriculum.

The remaining course work must be distributed among approved cognate areas (see “Required Ph.D. Cognates” under “Graduate Programs: Overview” above), history, social sciences or related areas, and professional education, depending on the student’s background and goals.

**COMPREHENSIVE EXAMINATION**

Students take three three-hour examinations, one in each of the study areas. Depending on the distribution of course work, the nine hours of written examinations may be rearranged. The Ph.D. examining committee consists of five members, who are selected according to the nature of the student’s Ph.D. program and distribution of course work. An oral examination is conducted by the committee following the written exam.

**DISSERTATION**

Ph.D. candidates must complete a dissertation on a research problem in social studies education. The candidate must present a prospectus of the proposed research to the dissertation committee before undertaking
the study. Upon completion, the candidate defends the dissertation in an oral exam.

**ADMISSION**

Applicants to the Ph.D. program in social studies education must meet the admission requirements of the Graduate College. They must have a bachelor’s degree in history, the social sciences, or education; a master’s degree in history, the social sciences, or education; a cumulative g.p.a. of at least 3.00; and a combined verbal and quantitative score of at least 310 on the Graduate Record Examination (GRE) General Test. At least two years of teaching experience is strongly preferred. Applicants who did not write a thesis as part of their M.A. must submit seminar papers or field research as equivalents.

**Graduate Programs: Special Education**

Special education programs are offered in K-6 and 7-12 Instructional Strategist I: Mild/Moderate, and K-12 Instructional Strategist II: BD/LD. These programs are designed to prepare graduates for positions in public schools, local and state education agencies, clinical settings, and institutions of higher education. All teacher licensure/certification programs are approved by the Iowa Department of Education.

A program leading to special education licensure/certification in Instructional Strategist I: Mild/Moderate (K-6) is available to undergraduates (see "Teacher Education Program and Licensure/Certification" at the beginning of this section). Undergraduates who wish to pursue careers in special education should contact the Department of Teaching and Learning.

**Special Education Consultant Authorization**

The Special Education Consultant authorization program requires a minimum of 38 s.h., including credit required for the Master of Arts and the teaching endorsement program. The program prepares consultants to serve in special education programs.

Students who already hold an M.A. in special education and an endorsement congruent with their desired consultant authorization must complete the following three courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>07E:300</td>
<td>Design and Organization of Curriculum</td>
<td>3</td>
</tr>
<tr>
<td>07P:263</td>
<td>Consultation Theory and Practice</td>
<td>3</td>
</tr>
<tr>
<td>07P:347</td>
<td>Home/School/Community: System Interventions</td>
<td>3</td>
</tr>
</tbody>
</table>

Students without an M.A. in special education must complete an M.A. and teaching endorsement program in special education congruent with their desired consultant authorization, plus the three courses listed above [07E:300 (EDTL:7100), 07P:263 (PSQF:6263), and 07P:347 (PSQF:7347)], for a total of at least 38 s.h. of credit.

**ADMISSION**

Applicants to the Special Education Consultant authorization program must have been admitted to the M.A. program or to a certification program in special education. They must hold or meet the requirements for the special education teaching endorsement congruent with their desired consultant authorization. Teaching endorsements must be documented by copies of teaching credentials.

Applicants also must have completed four years of successful teaching experience, two of which must be congruent with their desired consultant authorization. They must provide evidence of successful teaching (e.g., written statements from school personnel documenting years of teaching, type of students served, and success as a classroom teacher).

Documentation of certifications and teaching experience should be submitted with the application for admission to the Graduate College.

**M.A.: Special Education**

The Master of Arts program in special education requires a minimum of 32 s.h. of graduate credit. The program prepares individuals to deliver appropriate levels of service to students with disabilities at the elementary and secondary levels, in either public or private settings. Applicants with a master’s degree and special education certification may request admission in order to obtain an additional area of special education licensure/certification (i.e., professional improvement). Students typically receive licensure/certification in at least one area upon completing the program. Contact the Department of Teaching and Learning for specific program requirements.

**ADMISSION**

Applicants to the M.A. program in special education must meet the admission requirements of the Graduate College. They must have an undergraduate g.p.a. of at least 3.00 (and/or at least 3.00 on a minimum of 12 s.h. of graduate course work). A combined verbal and quantitative score of at least 1000 on the Graduate Record Exam (GRE) General Test is preferred. Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Application materials must include a completed Graduate College application form; copies of official transcripts for all college course work; an official report of Graduate Record Examination test scores; three current letters of recommendation; and evidence of experience and/or teacher licensure/certification. An interview may be requested.

Final admission decisions are made by the special education graduate admissions committee.

**Ph.D.: Special Education**

The Doctor of Philosophy program in special education requires a minimum of 90 s.h. of graduate credit. The program prepares students for teaching and research positions in higher education, and for curriculum, supervisory, and research positions in state and local education agencies. The program permits students to study and practice extensively in their special education interest area and in an interest area outside of special education.

The Ph.D. curriculum includes an emphasis on research skills, all facets of special education, an approved cognate area (see "Required Ph.D. Cognates" under "Graduate Programs: Overview" above), and at least one specialization area.
All College of Education Ph.D. students must complete
07X:150 (EALL:5150) Introduction to Educational Research
during the first year of their Ph.D. program. They also must
complete an additional minimum of 15 s.h. in qualitative
and quantitative course work, with at least 9 s.h. from
one area (qualitative or quantitative) and at least 6 s.h.
from the other. Courses to meet this requirement must be
chosen from Required Ph.D. Research Courses (see Course
Information in the A-Z directory on the college’s web site).

In addition, all doctoral students in special education must complete
one of the following Ph.D. core courses.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.

All Ph.D. students in special education must complete the
following courses.

07U:343 (EDTL:7943) Proseminar: Issues, Trends, and
Research in Special Education 3 s.h.
07U:344 (EDTL:7944) Proseminar: Issues, Trends, and
Research in Special Education II 3 s.h.

Students also must complete an interdisciplinary minor
in a discipline outside of special education (minimum
of 12 s.h.). In addition, they are required to write the
comprehensive examination and complete a doctoral
dissertation, earning a minimum of 10 s.h. in 07S:493

ADMISSION

Applicants to the Ph.D. program in special education
must meet the admission requirements of the Graduate
College. They must have master’s degree or equivalent
in special education; those without an M.A. thesis must have
completed an equivalent project. Applicants should have a
graduate g.p.a. of at least 3.50 and a combined verbal and
quantitative score of at least 1000 on the Graduate Record
Exam (GRE) General Test. Applicants whose first language
is not English must score at least 600 (paper-based), 250
(computer-based), or 100 (Internet-based) on the Test of
English as a Foreign Language (TOEFL). Applicants should
have at least one year of full-time teaching experience
with exceptional children; several years are preferred.

Application materials must include a completed Graduate
College application form; copies of official transcripts
for all college course work; an official report of Graduate
Record Examination test scores; three current letters
of recommendation; and evidence of experience and/
or teacher license/certification. An interview may be
requested.

Final admission decisions are made by the special
education graduate admissions committee.

Financial Support

Elementary Education

A number of teaching assistantships are available for
graduate students in early childhood and elementary
education. Assignments vary. Some involve supervising
undergraduate majors enrolled in practicums; others
involve teaching sections of undergraduate methods
courses and supervising student teachers. Most
assistantships are classified as one-half-time, which
permits students to register for a maximum of 12 s.h. of
credit per semester. Graduate assistants must register for
at least 6 s.h. per semester.

All assistantships are awarded on a competitive basis.
Applicants must have been admitted to regular status in
the Graduate College and to an advanced program in the
College of Education. For information about assistantships,
contact the chair of the Department of Teaching and
Learning.

Secondary and Special Education

A limited number of assistantships are available for
graduate students in secondary and special education.
Assignments vary. Some involve teaching undergraduate
courses or supervising practicum experiences; others
consist primarily of research activities. Graduate assistants
may register for a maximum of 12 s.h. and a minimum of 6
s.h. per semester.

Graduate students in secondary education also may
be eligible for assistantships in some College of
Liberal Arts and Sciences departments. Students with
appropriate credentials should apply directly to the specific
department or consult the College of Education advisor in
the appropriate field.

Traineeships in selected licensure/certification and
master’s degree programs are available to full-time special
education students.

Courses

Elementary Education

07E:021 (EDTL:3121) Oral Interpretation 3 s.h.
Communication studies majors may apply this course to the
following area requirement. AREA: Practice. Requirements: for
036:021 (COMM:3121) — g.p.a. of at least 2.60 and 30 s.h. of
credit. Same as 036:021 (COMM:3121).

07E:029 (EDTL:1129) First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics
chosen by instructor; may include outside activities (e.g., films,
lectures, performances, readings, visits to research facilities).
Requirements: first- or second-semester standing.

07E:050 (EDTL:1050) Opportunities in Education 2 s.h.
Introduction for underrepresented students to the teaching
profession and its widely varied opportunities; faculty, students,
recipients of awards in education; tours of Iowa City schools;
reflection on and personal integration of class learning
experiences, consideration of future plans.

07E:090 (EDTL:3190) Orientation to Elementary
Education 1-2 s.h.
Overview of elementary education expectations, including
options for student teaching; classroom observation, lesson
planning, performance indicators, INTASC standards, classroom
management, information about mandatory child abuse
reporting, blood-borne pathogens, professional ethics. Eight-week
course.

07E:100 (EDTL:3000) Foundations of Education 3 s.h.
Overview of American education, preschool through secondary;
aims, history, philosophy of education; professional ethics, legal
responsibilities; school curriculum, organization, finance, school
law, political and social issues.

07E:102 (EDTL:3002) Technology in the Classroom 2-3 s.h.
07E:103 (EDTL:3103) Assessment for Instructional Planning and Practice 3 s.h.
Fundamentals of using assessment data to make instructional planning decisions that preservice educators need in their advanced course work and classrooms; practical application with curriculum-based procedures; emphasis on classroom-based procedures used to make educational decisions to plan instruction for students, particularly those who are experiencing academic difficulty. Requirements: admission to TEP.

07E:104 (EDTL:5104) Remedial Methods in Speech and Hearing 2 s.h.
Emphasis on elementary grades; usually taken in conjunction with 07E:192 (EDTL:4192), which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors.

07E:114 (EDTL:3114) Parent-Child Relationships 3 s.h.
Roles and relationships within and between families, culture, society; identify (family) resources and concerns based on children's development, abilities.

07E:120 (EDTL:3120) Methods and Materials: Music for the Classroom Teacher 2 s.h.
Teaching of music skills, techniques, knowledge of methods and materials for teaching music to young children; for elementary education majors. Requirements: admission to TEP.

07E:122 (EDTL:3122) Creativity, Imagination, Play, and Human Development through the Arts 3 s.h.
Different theories related to human development and visual arts; use of visual arts to make meaning out of experience from the time people began making symbolic marks; ways to integrate visual arts into everyday life; cognitive and physical processes involved in making, understanding, and looking at visual art through studio experiences; theories of cognitive development; role of visual art in education; introduction to art production, art history, art criticism, and aesthetics.

07E:123 (EDTL:3123) Reading and Responding to Children's Literature 2-3 s.h.
Reading and teaching children's literature in elementary classrooms for aesthetic, personal, social, and critical purposes; readings from a wide range of genres; approaches to teaching children's literature; recent trends and issues. Requirements: admission to elementary TEP.

07E:124 (EDTL:4024) Differentiating Projects with Technology 1 s.h.
Use of digital tools to enrich student presentations; PowerPoint slide shows, presentations uploaded to World Wide Web, interactive multimedia presentations via HyperStudio.

07E:126 (EDTL:4026) Reading for High-Ability Students 1 s.h.
Purposes and methods of reading instruction, with focus on developmentally appropriate needs of high-ability readers; genres of literature, enriched and accelerated reading curricula, role of reading in social and emotional development of gifted students.

07E:127 (EDTL:3127) Physical Education and Health for Elementary Teachers 2-3 s.h.
Methods, curriculum. Prerequisites: 07E:127 (EDTL:3127). Requirements: admission to TEP.

07E:128 (EDTL:4028) Differentiating through Advanced Technology 1 s.h.
Multimedia and web-based tools and utilities that enrich classroom learning and facilitate presentations made by technologically advanced students; production and editing of digital video, computer graphics, advanced web-publishing and communication techniques; skill development.

07E:129 (EDTL:4029) Developing Leadership Skills for Gifted and Talented Students, K-12 1 s.h.

07E:130 (EDTL:3130) Adaptive Physical Education for the Elementary Classroom Teacher 2 s.h.
Create and deliver quality, inclusive physical education for students with mental, physical, or emotional disabilities; identify and evaluate the needs of disabled students, plan units and lessons with appropriate modifications for all learners, write an IEP, comply with IDEA in a physical education setting.

07E:131 (EDTL:3131) Movement Education 2 s.h.
Movement education as a basis for psychomotor and cognitive development in children; summary of basic growth and motor development; in-depth instruction on theory and application of movement education curriculum, and practice on design and execution of movement education lessons. Prerequisites: 07E:127 (EDTL:3127).

07E:139 (EDTL:3139) American Government and Civics for the Elementary Classroom Teacher 3 s.h.
Foundations and processes of American government as related to development of civic literacy in elementary students and their teachers; founding documents, legal precedents, social and economic changes throughout American history; research-based teaching and learning processes from social studies education. Requirements: admission to TEP.

07E:141 (EDTL:3141) Elementary School Mathematics: Number and Operations 3 s.h.
Problem-solving approach to current trends in math education and process of teaching math; current math content knowledge assessed at start and end of course; opportunities to strengthen number and operations content knowledge; how children in grades K-5 think about and learn math; core ideas of learning, teaching, planning, and assessing number and operations concepts and skills; research-based pedagogical strategies that help children develop math concepts and procedures. Requirements: admission to TEP.

07E:142 (EDTL:3142) Elementary School Mathematics: Geometry and Measurement 3 s.h.
Problem-solving approach to current trends in math education; current math content knowledge assessed at start and end of course; opportunities to strengthen geometry and measurement content knowledge; how children in grades K-5 think about and learn math; core ideas of learning, teaching, planning, and assessing geometry and measurement concepts and skills; research-based pedagogical strategies that help children in elementary school develop math concepts and procedures. Requirements: admission to TEP.

07E:143 (EDTL:3143) Methods of Art Education in Elementary Schools 3-4 s.h.
Application of studio methods to teaching children in Saturday Children’s Art Class Program. Same as 01E:143 (ARTE:3143).

07E:145 (EDTL:3620) Methods and Materials: General Music 3 s.h.
Methods for teaching general music in elementary and secondary schools. Prerequisites: 07E:102 (EDTL:3002), 07S:096 (EDTL:3610), and 07S:190 (EDTL:3090).
07E:146 (EDTL:3146) Elementary School Mathematics: Data/Probability and Algebra
3 s.h.
Problem-solving approach to current trends in math education and process of teaching math; current math content knowledge assessed at start and end of course; opportunities to strengthen data analysis/probability and algebra content knowledge; how grade K-5 children think about and learn math; core ideas of learning, teaching, planning, and assessing data/probability and algebra concepts and skills; research-based pedagogical strategies that help children develop math concepts and procedures. Requirements: admission to TEP.

07E:153 (EDTL:4153) Gifted and General Education Collaboration
1 s.h.
Need for differentiated learning experiences throughout the school day for gifted students; how classroom teachers and gifted/talented resource teacher collaborate to provide appropriate instructional services to gifted students; collaborative models, planning process, and recommendations for both direct and indirect services. Requirements: access to the Internet.

07E:154 (EDTL:3154) Teaching and Learning in the Earth Sciences
3 s.h.
Meaningful and practical learning experiences to foster elementary science learning environments that engage learners in scientific practices and understanding of earth sciences; essential concepts in earth sciences; instruction to promote elementary student learning; learning, teaching, subject matter, curriculum, and assessment. Requirements: admission to TEP.

07E:158 (EDTL:3158) Teaching and Learning in the Biological Sciences
3 s.h.
Meaningful and practical learning experiences to foster elementary science learning environments that engage learners in scientific practices and understanding of biological sciences; essential concepts in biological sciences; instruction to promote learning of essential concepts; learning, teaching, subject matter, curriculum, and assessment. Requirements: admission to TEP.

07E:159 (EDTL:3159) Teaching and Learning in the Chemical/Physical Sciences
3 s.h.
Meaningful and practical learning experiences that foster elementary science learning environments and engage learners in scientific practices and understanding of physical sciences; essential concepts in physical sciences; instruction to promote student learning of essential concepts; learning, teaching, subject matter, curriculum, and assessment. Requirements: admission to TEP.

07E:160 (EDTL:3160) Methods: Elementary School Language Arts
3 s.h.
Theoretical foundations and practical skills for designing and implementing effective language arts instruction and assessment, grades K-6. Corequisites: 07E:164 (EDTL:3164). Requirements: admission to elementary TEP.

07E:161 (EDTL:3161) Methods: Elementary School Social Studies
2-3 s.h.
Objectives and content for grades K-6; integrated approaches, community-based learning. Requirements: admission to elementary TEP.

07E:162 (EDTL:3162) Methods: Elementary School Science
2-3 s.h.
Principles and concepts of science instruction in elementary school for preservice instruction of elementary education majors; emphasis on techniques that characterize new approaches to science. Requirements: admission to elementary TEP.

07E:163 (EDTL:3163) Methods: Elementary School Mathematics
2-3 s.h.
Content; techniques of teaching and means of assessment for K-6 mathematics. Requirements: admission to TEP.

07E:164 (EDTL:3164) Methods: Elementary School Reading
3 s.h.
Theoretical foundations and practical skills for designing and implementing effective reading instruction and assessment, grades K-6. Corequisites: 07E:160 (EDTL:3160). Requirements: admission to elementary TEP.

07E:165 (EDTL:4065) Social Studies for High-Ability Learners
1-2 s.h.
Intersection of unique challenges presented by talented students and the challenges of designing, implementing, and assessing quality inquiry-based social studies instruction; background in social studies or social studies education not required.

07E:166 (EDTL:4066) Curriculum Concepts in Gifted Education
3 s.h.
Analyzing and refining understanding of curriculum in context of: needs of gifted and talented students, rationale for and implementation of curriculum, and literacy principles and applications to gifted and talented; designed for preservice and in-service educators, as well as those interested in curriculum development, design, and delivery.

07E:168 (EDTL:3168) History for the Elementary Classroom Teacher
3 s.h.
Development of historical literacy in elementary students and their teachers; connecting children to the past using family histories; interactions and patterns in world history; diverse perspectives in U.S. history; using primary sources to investigate state and local history. Requirements: admission to TEP.

07E:170 (EDTL:3170) Elementary Classroom Management
1-3 s.h.

07E:171 (EDTL:4171) Reading and Writing: Processes and Instruction
3 s.h.
Factors that contribute to individuals' ease or difficulty in learning to read and write; issues in classroom instruction and assessment. Requirements: 07E:160 (EDTL:3160) and 07E:164 (EDTL:3164) for elementary education majors.

07E:172 (EDTL:3172) Reading Instruction: Teaching Practicum
3-4 s.h.

07E:174 (EDTL:3174) Elementary Education: Practicum
arr.
Experience conducting instruction for children; four schoolroom sessions and one on-campus meeting weekly. Corequisites: 07E:170 (EDTL:3170). Requirements: completion of appropriate area of specialization methods block.

07E:175 (EDTL:3175) Elementary Social Studies/Science Practicum
2 s.h.
Experience in teaching social studies and science to elementary students; opportunity to learn from an experienced teacher within a functioning classroom; mentoring and support from supervisor with classroom experience at practicum site; onsite practicum experiences preceded by on-campus seminar with practicum coordinator and supervisors; assignments designed to enrich and augment onsite experiences and tied to student’s current methods courses; for preservice teachers. Requirements: admission to TEP.
07E:176 (EDTL:3176) Teaching Elementary School Science 3 s.h.
Advanced science methods for elementary education majors seeking a science specialization. Prerequisites: 07E:162 (EDTL:3162).

07E:180 (EDTL:3180) Drama in the Classroom 3 s.h.
Theories of community, culture, identity in relation to language arts teaching and learning; emphasis on incorporating multiple literacies, both oral and print, into language arts curricula; action research involving oral literacy. Same as 049:101 (THTR:3610).

07E:181 (EDTL:4081) ePortfolio Production 1-2 s.h.
Experience producing an ePortfolio and uploading it to the Internet; practical experience using digital tools, content and design related to ePortfolio production; experience using a web browser and access to the Internet and to a digital camera or scanner. Requirements: able to perform basic computer functions and use a World Wide Web browser. Same as 07P:181 (PSQF:4081), 07X:181 (EALL:4081), 07C:181 (RCE:4081), 07B:181 (EPLS:4081).

07E:185 (EDTL:4085) Current Readings and Research in Gifted Education 1 s.h.
Research in the field of gifted education and talent development; applications of research to ensure best practices in providing services and programs for high-ability learners.

07E:190 (EDTL:4190) Supervised Teaching in the Elementary School: Interactive Phase

07E:191 (EDTL:4191) Supervised Teaching in the Elementary School: Pre- and Post-Active Phase

07E:192 (EDTL:4192) Special Area Student Teaching
Supervised teaching and observation in specific areas of elementary curriculum (see ISIS for areas offered).

07E:193 (EDTL:4193) Independent Study
Requirements: senior standing.

07E:196 (EDTL:4096) Topics in Teaching and Learning

07E:197 (EDTL:4197) Supervised Teaching Early Childhood Center: Interactive Phase

07E:198 (EDTL:4198) Supervised Teaching Pre- and Post-Active Phase

07E:199 (EDTL:4199) Program Models in Gifted Education 3 s.h.
Development and refinement of preservice and inservice educators’ understanding of academic programs; needs of gifted and talented students, including diverse and often underrepresented groups of students; rationale for and implementation of a comprehensive program model for gifted students. Requirements: Internet access.

07E:204 (EDTL:6104) Literature for Children II 3 s.h.
Current theory, research, and practice in reading and responding to children’s literature; genre and topic vary. Same as 08P:204 (ENGL:6104).

07E:234 (EDTL:6534) Foundations of Mathematics Education 2-3 s.h.
History of U.S. mathematics education; learning theory applied to teaching, learning mathematics; curriculum design; curriculum/standards and achievement patterns in the United States and other countries; equity; research literature.

07E:264 (EDTL:6164) Early Literacy Development and Instruction 2-3 s.h.
Understanding of early reading and writing experiences; relationship of reading to other communication areas; knowledge of instructional approaches, techniques, materials, assessment procedures; interrelationship of home and school experiences; identification of current and crucial issues and relevant research.

07E:265 (EDTL:6165) Reading and Writing Across Intermediate Grades 3 s.h.
Issues in teaching, learning, and assessment of students grades 4-9; fostering positive literate identities, literacy engagement, strategies for reading, writing, and critically responding to texts in a range of genres and formats and across content areas.

07E:267 (EDTL:6167) Inquiry-Based Curriculum Development in Early Childhood and Elementary Classrooms
Theoretical and practical organization of developmentally appropriate curricula and teaching methods to promote learning.

07E:271 (EDTL:6171) Advanced Reading Clinic Techniques 2-3 s.h.

07E:272 (EDTL:6172) Advanced Reading Clinic Practicum 2-3 s.h.
Practice in selecting and using instructional procedures that address the needs and interests of struggling literacy learners, with emphasis on teaching to students’ strengths; how to fit clinical teaching techniques into an overall literacy instructional program. Corequisites: 07E:271 (EDTL:6171).

07E:274 (EDTL:6174) Reading Recovery II 2-3 s.h.
Training for teachers; tutoring of first-grade children; effective moment-by-moment instructional decision making.

07E:293 (EDTL:6293) Individual Instruction

07E:300 (EDTL:7100) Design and Organization of Curriculum 3 s.h.
Major issues, modern selection, sequential arrangement, organization of content; relationship of time allotments to implementation; utilization of instructional equipment; appraisal procedures; staff participation in curriculum development.

07E:304 (EDTL:7004) Schooling in the United States 3 s.h.
Governance, finance, and policy structures that have influenced teaching and learning in public schools.

07E:308 (EDTL:7008) Seminar: Research and Current Issues
Review of literature, critical analysis of reported research, and study of current issues and problems for a specific curricular area; topics vary.
07E:340 (EDTL:7040) Advanced Topics in Teaching and Learning
Topics vary.

07E:365 (EDTL:7165) Reading Clinic: Supervision
Supervised experience in guiding and improving teacher performance in clinical practicums.

07E:391 (EDTL:7093) Research Project
Individual research projects in a specific curricular area; for advanced students.

07E:392 (EDTL:7092) Field Service Project
Individual field service project in a specific curricular area; for advanced students.

Secondary Education

07S:090 (EDTL:3290) Introduction and Practicum: Art
Practice of learning from an experienced art teacher in an art classroom and setting; observations in an art classroom side-by-side with experience and insight gained through participating and teaching in the Saturday Art Workshop Program. Requirements: admission to TEP.

07S:096 (EDTL:3610) Introduction and Practicum: Music
Experience observing and assisting music teachers and students in elementary or secondary schools; six hours per week in the school plus on-campus class meetings. Requirements: admission to TEP.

07S:105 (EDTL:3205) Methods of Art Education in Secondary Schools
Art education theory and methods at secondary levels; art curriculum, unit, and lesson planning; evaluation, motivation, instructional materials; observational techniques.

07S:106 (EDTL:4406) Foreign Language Education Practicum I
Skill development for teaching languages in the early grades; curriculum design, test creation, microteaching with inservice teachers. Prerequisites: 07S:110 (EDTL:4410). Corequisites: 07S:116 (EDTL:4416).

07S:107 (EDTL:4407) Foreign Language Education Practicum II

07S:109 (EDTL:3204) Art Education Studio
Art training related to processes of elementary, secondary school art teaching; studio methods applied to teaching children, adolescents. Requirements: concurrent enrollment in 07S:090 (EDTL:3290) for Teacher Education Program student.

07S:110 (EDTL:4410) Teaching K-12 Second Language Learners
Second language learning and teaching in the multicultural classroom; influence of school setting, societal context. Requirements: admission to TEP.

07S:111 (EDTL:4811) Introduction and Practicum: Secondary Social Studies
Experience observing and assisting social studies teachers and students in secondary schools; nine hours per week in the school plus on-campus class meetings. Requirements: admission to TEP.

07S:112 (EDTL:3001) Introduction to Museology
Overview of museum history, function, philosophy, collection and curatorial practices, governance and funding issues, exhibition evaluation, audience studies; American cultural institutions. GE: Values, Society, and Diversity. Same as 097:115 (SIED:3001), 113:103 (ANTH:3001), 024:102 (MUSM:3001).

07S:113 (EDTL:3025) Methods: Secondary School Journalism
Methods and materials for teaching high school journalism; publication policies, staff organization, production schedules, technology, the Internet, and techniques for advising student publications; experience in simulated teaching situations. Offered fall semesters. Same as 019:101 (JMC:3025).

07S:114 (EDTL:4314) Introduction and Practicum: Secondary English
Experience observing and assisting English or speech teachers and students in secondary schools; 12 hours per week in the school plus on-campus class meetings.

07S:115 (EDTL:4315) Methods: Secondary English
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: 07S:114 (EDTL:4314). Same as 08P:190 (ENGL:4810).

07S:116 (EDTL:4416) Learning to Teach Second Languages I
Approaches, methods, and techniques of teaching the modalities of listening, speaking, reading, and writing in a second language. Corequisites: 07S:106 (EDTL:4406) or 07S:118 (EDTL:4418).

07S:117 (EDTL:4417) Learning to Teach Second Languages II
Curriculum design, classroom management, student evaluation, technology, using context to teach culture in second languages. Prerequisites: 07S:110 (EDTL:4410). Corequisites: 07S:106 (EDTL:4407) or 07S:119 (EDTL:4419).

07S:118 (EDTL:4418) ESL Practicum I

07S:119 (EDTL:4419) ESL Practicum II

07S:121 (EDTL:4021) Science for High Ability Students
Unique challenges and opportunities confronted by teachers of students with above average ability and interest in science; theory and practice; development of program outlines for science programs.

07S:122 (EDTL:4022) Math Programming for High Ability Students
Unique challenges and opportunities confronted by teachers of high-ability students; theory and practice, development of program outlines for implementation. Same as 07P:122 (PSQF:4122).

07S:125 (EDTL:4025) Differentiated Instruction for the Gifted
Program options for K-12 gifted students; student abilities and needs linked with various curriculums; case studies, school materials.
07S:130 (EDTL:3026) Workshop for Secondary School Journalism/Communication Teachers
Workshops on journalism/mass media curriculum, audio/video production, photojournalism, publication design, journalistic writing techniques, advising student publications. Same as 019:102 (JMC:3026).

07S:132 (EDTL:4032) Middle School Curriculum and Methods
3 s.h.
Junior high and middle school development compared; characteristics of exemplary programs, disciplinary and interdisciplinary trends; variety of teaching methods (group and individual); hands-on activities. Requirements: admission to TEP.

07S:133 (EDTL:3532) Introduction and Practicum: Mathematics
3 s.h.
Experience designing and teaching lessons with varied instructional intent and use of multiple instructional strategies; study and practice methods of managing classroom learning environment; significant time spent in cooperating schools, on-campus meetings. Requirements: admission to TEP.

07S:134 (EDTL:3534) Methods: Middle School Mathematics
3 s.h.
Subject matter content, teaching and assessment techniques for grades 5-9 math; how students learn mathematics; mathematics curricular planning for all students.

07S:135 (EDTL:4535) Methods: High School Mathematics
3 s.h.
Subject matter content, teaching and assessment techniques for grades 9-12 math; how students learn mathematics; mathematics curricular planning for all students. Prerequisites: 07S:095 and 07S:134 (EDTL:3534).

07S:140 (EDTL:3630) Band Methods and Materials
3 s.h.
High school and elementary school music methods required for teaching certificate; for instrumental music education majors. Same as 025:164 (MUS:3630).

07S:143 (EDTL:3605) Instrumental Techniques
2 s.h.
Same as 025:105 (MUS:3605).

07S:144 (EDTL:5630) Psychology of Music
2 s.h.
Cognition of music, affective response, aesthetic response, musical ability.

07S:145 (EDTL:3635) Instrumental Conducting
3 s.h.

07S:147 (EDTL:3640) Choral Methods
3 s.h.
Organization, implementation of effective choral music programs for all ages. Same as 025:109 (MUS:3640).

07S:148 (EDTL:3645) Choral Conducting and Literature
3 s.h.
Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under 07S:148 (EDTL:3645). Prerequisites: 07S:147 (EDTL:3640) and 025:107 (MUS:3625). Same as 025:110 (MUS:3645).

07S:149 (EDTL:5640) Introduction to Music Research
2-3 s.h.
Preparation for conducting research on music behavior.

07S:150 (EDTL:3660) String Methods and Materials
3 s.h.
Methods for teaching bands in schools. Offered fall semesters. Same as 025:112 (MUS:3660).

07S:151 (EDTL:4751) Science Teaching and Practice with Early Learners
3 s.h.
Introduction to students, schools, the purpose of schooling children in science, learning theories, science curricula, contemporary science education issues, effective science teaching.

07S:152 (EDTL:4752) Methods of Teaching Science
3 s.h.
Developing, writing, and orally defending a robust research-based framework for teaching science that includes student goals, student actions, content, materials, activities, teaching behaviors and strategies, contemporary learning theories, self-evaluation. Prerequisites: 07S:151 (EDTL:4751).

07S:153 (EDTL:4753) Instructional Issues in Teaching Science
3 s.h.
Articulating, experiencing, practicing a research-based framework for teaching science in the real world of students, schools, teaching. Prerequisites: 07S:152 (EDTL:4752). Corequisites: 07S:179 (EDTL:4779).

07S:155 (EDTL:4355) Approaches to Teaching Writing
3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as 08N:141 (CNW:4355).

07S:156 (EDTL:4756) Learning in the Science Classroom
2 s.h.
Teaching and learning in the science classroom; teachers guided by assumptions about how students learn; examination of thoughts and understanding about learning, how this impacts pedagogical actions taken; contemporary learning theories; what ways these learning theories cause a change in how to teach, how to plan for these changes.

07S:157 (EDTL:4757) Assessment in the Science Classroom
2 s.h.
Exploration of ways in which students are assessed in science classrooms; methods used to assess student learning and theoretical backgrounds; formative/summative assessment techniques, including technology-based assessment; development of assessment around three guiding questions: Where are you trying to go? Where are you now? How can you get there?; ways in which assessment theories guide teaching and learning. Requirements: admission to Teacher Education Program.

07S:160 (EDTL:3060) Pre-Intern Fall
4 s.h.
First course in the Regents collaborative Iowa Teacher Intern License Pathway program. Requirements: admission to the ITILP program.

07S:161 (EDTL:3061) Pre-Intern Spring
4 s.h.
Second course in the Regents collaborative Iowa Teacher Intern License Pathway program. Prerequisites: 07S:160 (EDTL:3060).

07S:162 (EDTL:3062) Pre-Intern Summer I
4 s.h.
Third course in the Regents collaborative Iowa Teacher Intern License Pathway program. Prerequisites: 07S:160 (EDTL:3060) and 07S:161 (EDTL:3061).

07S:163 (EDTL:3063) Pre-Intern Summer II
6 s.h.
Fourth course in the Regents collaborative Iowa Teacher Intern License Pathway program. Prerequisites: 07S:160 (EDTL:3060), 07S:161 (EDTL:3061), and 07S:162 (EDTL:3062).
07S:164 (EDTL:3064) Intern Year
Fifth course in the Regents collaborative Iowa Teacher Intern License Pathway program. Prerequisites: 07S:160 (EDTL:3060), 07S:161 (EDTL:3061), 07S:162 (EDTL:3062), and 07S:163 (EDTL:3063).

07S:170 (EDTL:4870) Methods: Secondary Social Studies
Analysis of the teaching-learning process; organization of social studies content for teaching purposes; evaluation of learning procedures and new strategies; practicum work includes microteaching, computer-assisted modules, lesson plan development, writing test items.

07S:171 (EDTL:3071) Secondary Classroom Management
Characteristics of the classroom environment and their implications for organization and management; concepts and principles teachers can use when thinking about managerial tasks in the classroom; for prospective middle and secondary school teachers. Prerequisites: 07S:190 (EDTL:3090). Requirements: admission to TEP.

07S:172 (EDTL:4072) Thinking Skills
Factors involved in teaching thinking skills as a total concept; the relationship of critical and creative thinking; review of published programs.

07S:173 (EDTL:4073) Programming/Curriculum for High Ability Students
Programming and curriculum for K-12 students identified as gifted or highly able; in-class differentiations, special projects for pull-out programs, facilitating research projects, mentoring in advanced programming.

07S:174 (EDTL:4074) Differentiation at the Secondary Level
Importance of differentiation for gifted learners in middle school and high school; differentiation through advanced placement programs as well as broader perspectives on differentiation; essentials for differentiation understood and applied to a lesson that will be implemented with students.

07S:177 (EDTL:3005) Summer Institute for Teachers and Lifelong Learners
Interdisciplinary global issues; intensive course for teachers and students. Same as 287:177 (IP:3005).

07S:178 (EDTL:4105) Workshop in Teaching Communication and Forensics
Methods, materials, progression, evaluation in teaching and supervising students in courses and class activities; opportunities for observation, demonstration, practice in teaching theater, discussion and debate, individual speech, dramatic and forensic events. Prerequisites: 036:001 (COMM:2001), 036:005 (COMM:2005), 036:012 (COMM:1012) or 036:070 (COMM:1070), 036:017 (COMM:1017) or 036:030 (COMM:1030), and 036:074 (COMM:1074). Requirements: g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as 036:105 (COMM:4105).

07S:179 (EDTL:4779) Secondary School Science Practicum
Supervised teaching experience in a single subject; secondary school setting.

07S:180 (EDTL:6480) Issues in Foreign Language Education
Theoretical perspectives of pivotal research issues at the forefront of foreign language education; systems available to foreign language professionals for disseminating research. Same as 164:170 (SLA:6500).

07S:182 (EDTL:3382) Language and Learning
How language reflects and constructs learners' identities and cultures; readings related to oral and written language, native and second language development, linguistic diversity; discussion of the relationship of language theory to schools of language instruction. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as 08P:182 (ENGL:3190).

07S:183 (EDTL:6483) Second Language Classroom Learning
Synthesis of empirical findings on children's and adults' learning of a second or foreign language; emphasis on theoretical underpinnings of approaches, methods, techniques in language teaching. Same as 039:177 (ASIA:6483), 164:171 (SLA:6506).

07S:184 (EDTL:6484) Reading in a Second Language
Current theory, research, practice in second language reading field; role of textual features and the reader in reading comprehension. Same as 164:172 (SLA:6501).

07S:186 (EDTL:5086) Curriculum Foundations
Elementary and secondary background developments in curriculum; definitions, historical perspective, philosophies, theories of knowledge, models, learning theories, directions of development and shaping forces; emphasis on development of a curriculum project. Same as 164:173 (SLA:5501).

07S:187 (EDTL:4087) Seminar: Curriculum and Student Teaching
Discussions, role-playing, group and individual reports, analysis of critical incidents, classroom management, videotapes of student classroom performance pertinent to participants' student teaching experiences. Requirements: student teaching.

07S:189 (EDTL:4089) Elementary School Special Subject Area Student Teaching
Supervised teaching experience in a single subject in grades 1-6.

07S:190 (EDTL:3090) Orientation to Secondary Education
Overview, including options for student teaching, classroom observation, lesson planning, classroom management, performance indicators, INTASC standards, blood borne pathogens, professional ethics.

07S:191 (EDTL:4091) Observation and Laboratory Practice in the Secondary School
Student teaching experience in performing the duties of regular classroom teachers under supervision of experienced personnel in secondary schools.

07S:192 (EDTL:4092) Observation and Laboratory Practice in the Secondary School
Continuation of 07S:191 (EDTL:4091).

07S:193 (EDTL:3393) Reading and Teaching Adolescent Literature
Reading and evaluation of literature suitable for junior and senior high school students. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as 08P:198 (ENGL:3191).

07S:194 (EDTL:4394) Methods: Secondary Reading
Methods and materials used in teaching developmental reading in all junior and senior high school content areas. Prerequisites: 07S:114 (EDTL:4314).
07S:195 (EDTL:3095) Teaching Reading in Secondary Content Areas
Integration of reading strategies into secondary content areas for teacher candidates in secondary education.

07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction
Contemporary views of second language curriculum design; guidelines necessary for the creation of prototypical curriculum units to be transposed into classroom-ready forms; for individuals interested in foreign language materials development. Same as 164:174 (SLA:6502).

07S:198 (EDTL:4498) Language Structure for Teaching English Language Learners
Exploration of theory, rules, and examples to gain practical understanding of the system of language structure; focus on working with English language learners from a variety first language backgrounds in educational settings; principles of discourse, phonology, morphology, syntax, pragmatics, and semantics that build a framework for applications and analysis of student and teacher language; address English language learners’ development in P-12 settings; strategies to evaluate learner language; increase awareness of language challenges for English language learners that can occur in spoken and written educational instruction and materials. Requirements: admission to TEP.

07S:200 (EDTL:6400) Fundamentals of Second Language Assessment
How to write language tests; discussion of fundamental issues in development of new tests or selection of existing tests. Same as 164:270 (SLA:6503).

07S:201 (EDTL:7600) Seminar: Current Topics in Music Education
Major areas of professional and research interest.

07S:202 (EDTL:6402) Second Language Program Management
Preparation for supervising, administering foreign language programs at all levels; for precollegiate language teachers and graduate students. Same as 164:271 (SLA:6504).

07S:203 (EDTL:6403) Second Language Planning in Education
Sociology and politics of national policies involving language, internationally; development of a research-based policy perspective on language issues in the country in which the student intends to teach.

07S:206 (EDTL:5610) Foundations of Music Education Curricula
Curriculum development, instructional materials, analysis of current teaching methods and techniques in school music programs; historical foundations of music education.

07S:207 (EDTL:6407) Reading in Non-Roman Scripts
Theory and practice of reading in languages that use non-Roman alphabets, syllabary, logographic systems; reading in first and second language contexts; instructional and literacy development issues. Prerequisites: 07E:171 (EDTL:4171) or 07P:270 or 07S:184 (EDTL:6484). Same as 164:226 (SLA:6975).

07S:208 (EDTL:6408) Designing Materials for Second Language Instruction
Critical perspective on creating and using media for second language learning and teaching; research on materials design, development of media. Prerequisites: 07S:183 (EDTL:6483). Same as 164:272 (SLA:6505).

07S:209 (EDTL:6409) Cultural Curriculum
Culture’s role in foreign/second language teaching; definition, pedagogy, assessment, and materials that allow culture to be taught and learned. Same as 164:229 (SLA:6970).

07S:210 (EDTL:6100) International Programs Summer Institute for Teachers

07S:230 (EDTL:6530) Workshop in School Mathematics
Recent developments in school mathematics teaching methods and curriculum relevant to a selected issue; one to three weeks of intensive examination, experience.

07S:231 (EDTL:6531) Technology in School Mathematics
Methods, materials, issues, pedagogy, assessment; use, evaluation of technology for mathematics teaching and learning; implications for organization, development of course content.

07S:233 (EDTL:6833) History and Foundations of Social Studies Education
Historical, philosophical, social foundations of social studies education; recent debates over content and instructional processes; student research proposals.

07S:235 (EDTL:5535) Current Issues in Mathematics Education
Recent curriculum developments, experimental programs, research relevant to classroom instruction, trends in education that may have a significant impact on mathematics programs. Same as 22M:195 (MATH:5535).

07S:236 (EDTL:6536) Teaching of Geometry
Current developments in teaching middle school/junior high and high school geometry; selection, organization of content; research on teaching and learning.

07S:239 (EDTL:6539) Teaching of Algebra
Current developments in curriculum and instructional methods in secondary school algebra; classroom use of the history of algebra, use of technologies, implications of current research for the algebra classroom.

07S:241 (EDTL:5600) Music Education Workshop
For in-service music teachers; topics vary. Same as 025:220 (MUS:5600).

07S:242 (EDTL:5601) Music Education Workshop II
Varied topics; for in-service music teachers. Same as 025:234 (MUS:5601).

07S:244 (EDTL:6600) Individual Projects in Music Education
Projects of special concern to individual music teachers in the public schools.

07S:254 (EDTL:6754) Theory and Research on Curriculum Materials in Science
Theoretical perspectives and empirical research on design and use of science curriculum materials; contemporary theoretical assumptions about active and participatory relationships between curriculum materials, teachers, and students in particular institutional contexts; exploration of heuristics for development of effective science curriculum materials and recent research on how elementary, middle, and secondary teachers evaluate, adapt, and enact them through professional practice; for students with research and/or development interests based in K-16 contexts.
Contemporary perspectives on inquiry-based science teaching and learning; implications for theory and research; readings, discussions, presentations, and writing to examine and build upon policy-level science education reform discourse, sociological and organizational theory, empirical research in science education.

07S:256 (EDTL:6756) Science Education: The Nature of Science 3 s.h.
Relationship between scientists' work and current theoretical and practical portrayals of the nature of science in K-16 education.

07S:257 (EDTL:6757) Learning in the Science Classroom 2-3 s.h.
Assumptions about learning and about learning theories and their impact on pedagogical actions; how some concepts are planned and implemented.

07S:258 (EDTL:6758) Writing in the Science Classroom 3 s.h.
Literacy in the science classroom; theoretical and pedagogical perspectives; practical classroom activities that lead to effective writing and increased learning.

07S:259 (EDTL:6759) Advanced Pedagogy 3 s.h.
Theoretical and practical perspectives on pedagogy; how to assess practice, provide feedback, and build learning pathways for teachers.

Periodical literature, trends, curricular developments, research in various aspects of social studies education; for master's and doctoral candidates in social studies education.

07S:279 (EDTL:7640) Advanced Research in Music Education 3 s.h.
Design, performance, analysis, and reporting of music research.

07S:280 (EDTL:5080) Workshop: Teacher Training for Advanced Placement Courses 1-2 s.h.
Focus on a particular academic content area.

Procedures and techniques for writing research proposals at the doctoral level; written research proposal dealing with a question in second language teaching and learning.

07S:310 (EDTL:7410) Mixed Methods Research 3 s.h.
Introduction to mixed methods research in education; knowledge and skills necessary to conduct mixed methods study; history and language of mixed methods research; identify and process arguments for and against mixed methods research; extend understanding of research in education; develop an understanding of how to assess the strengths and weaknesses of published mixed methods studies; investigate one or more mixed methods research designs in depth; application of mixed methods research design to a research proposal. Prerequisites: 07X:150 (EALL:5150). Requirements: formal introduction to both quantitative and qualitative research methods, and familiarity with basic steps of the research process. Recommendations: direct experience conducting research studies is not required.

07S:315 (EDTL:6315) M.A. Seminar: English Education arr.
Significant developments in English education; primary and collateral readings. Same as 08P:405 (ENGL:6315).

07S:333 (EDTL:7033) Seminar on Teacher Education 3 s.h.
History, structure, and politics of teacher education; current practice and agendas for reform; new developments in teacher assessment.

07S:335 (EDTL:7753) Seminar: Research in Mathematics Education arr.
Analysis of current research, research methodology, curriculum developments in mathematics education; topics vary.

07S:341 (EDTL:6841) Infusing a Global Perspective into the Curriculum 3 s.h.
Rationales, conceptualizations, and themes in global perspectives in education, implications for curriculum change; elements of perspective consciousness, cultural universals, cultural diversity, cross-cultural awareness, global systems, global history, global issues; application and evaluation of ideas within fields of study and varied teaching situations.

07S:350 (EDTL:7750) Seminar: Science Education 0-2 s.h.
Discussion of completed faculty and doctoral candidates' research, national issues, program features.

07S:355 (EDTL:7755) Independent Study in Science Education Research 2-3 s.h.

07S:356 (EDTL:7756) Research Apprenticeship in Science Education 3 s.h.
Practical experiences in science education research in a collaborative, team-oriented environment; apprenticeship model of instruction in which students' participation in authentic tasks and their learning are mutually constitutive; engagement in actual research practices to produce an empirically-based product; development of expertise with some aspect of research methodology determined by instructor; for graduate students with interests in research or development based in K-16 contexts.

07S:367 (EDTL:6267) Seminar: Current Issues in Art Education 3-4 s.h.
Analysis of literature in art education and related disciplines. Same as 01E:367 (ARTE:6267).

07S:370 (EDTL:7070) Introduction to Qualitative Methods in Literacy Research 3 s.h.
Conceptual and practical exploration of qualitative research design methods, including data collection, analysis, and reporting; understanding proposal writing. Same as 08P:300 (ENG'L:7070).

07S:371 (EDTL:7071) Critical Discourse Analysis in Educational Research 3 s.h.
Critical discourse analysis (CDA) as theory and method; social and power relations, identities, and knowledge through written, visual, and spoken texts in social settings, such as schools, families, communities; theoretical and methodological traditions of CDA in educational research; critical approaches to analyzing spoken, written, and visual texts. Prerequisites: 07B:373 (EPLS:7373) or 07C:338 (RCE:7338) or 07P:331 (PSQF:7331) or 07S:370 (EDTL:7070).

07S:372 (EDTL:7072) Advanced Methods of Literacy Research: Qualitative Data Analysis and Reporting 3 s.h.
Advanced course in traditional and contemporary qualitative data analysis methods and varied forms of reporting to understand, critique, and conduct research about literacy learning and teaching. Prerequisites: 07B:373 (EPLS:7373) or 07C:338 (RCE:7338) or 07P:331 (PSQF:7331) or 07S:370 (EDTL:7070).
07S:373 (EDTL:7073) Ethnographic Methods, Theories, and Texts  
3 s.h.
Practical and theoretical background for conducting ethnographic field studies in literacy, schooling, language, or a field of student's choice; methods, methodologies, and perspectives from anthropology, sociology, folklore, journalism, literary criticism, cultural, critical, and composition theory; read historical and contemporary ethnography, consider ethnographic forms of expression (films, graphics, fiction, poems); roles, responsibilities, and ethics of writer, reader, viewer, and informant; tools, methods, and writer's techniques to develop an ethnographic portfolio. Prerequisites: 07B:373 (EPLS:7373) or 07C:338 (RCE:7338) or 07P:331 (PSQF:7331) or 07S:370 (EDTL:7070).

07S:384 (EDTL:7385) Teaching and Learning in Higher Education  
3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 07B:385 (EPLS:7385), 650:385 (GRAD:7385), 07C:385 (RCE:7385).

07S:385 (EDTL:7380) Practicum in College Teaching  
arr.

07S:393 (EDTL:6393) Master's Thesis  
arr.

07S:406 (EDTL:7206) Research in the Arts and Humanities  
3 s.h.
Individual research under supervision; application to thesis preparation, doctoral prospectus development. Same as 01E:406 (ARTE:7206).

07S:407 (EDTL:7707) Research: Science Education  
arr.
Planning of individual research projects by M.S. and Ph.D. students.

07S:415 (EDTL:7015) Ph.D. Seminar in Language, Literacy, and Culture  
arr.
Historical, recent research and theory in literacy education; topics vary. Same as 08P:425 (ENGL:7015).

07S:451 (EDTL:7751) Advanced Qualitative Data Analysis  
3 s.h.
Varied approaches to qualitative data analysis and philosophical foundations; analysis and interpretation of qualitative data; writing qualitative research findings. Prerequisites: 07B:373 (EPLS:7373) or 07C:338 (RCE:7338) or 07P:331 (PSQF:7331) or 07S:370 (EDTL:7070).

07S:493 (EDTL:7493) Ph.D. Thesis  
arr.

Special Education
Courses at the 100 level are open to students in education and related disciplines.

07U:100 (EDTL:4900) Foundations of Special Education  
3 s.h.
Students with disabilities, gifted and talented; strategies for effective treatment, collaboration between regular and special education teachers; remediation of academic, behavioral, social problems.

07U:101 (EDTL:3901) Methods: Child/Adolescents with Learning Disabilities and Behavioral Disorders  
3 s.h.
Strategies for effectively teaching elementary and secondary students with learning disabilities and behavioral disorders; emphasis is on practical, empirically verified techniques. Requirements: admission to TEP.

07U:110 (EDTL:3905) Teaching Deaf and Hard of Hearing Students  
3-4 s.h.
Issues in deaf education—management techniques, communication strategies, teaching strategies, instructional materials, hands-on activities, assessments, parent involvement; use of technology, ethnic and cultural diversity, classroom management, pre-reading techniques, literacy development, educational program options. Taught in American Sign Language. Requirements: 158:014 (ASL:2002), if not taken as a prerequisite. Same as 158:110 (ASLE:3905).

07U:115 (EDTL:3915) Introduction: Strategist I (Elementary)  
1-2 s.h.
Teaching students with mild disabilities in elementary resource placements; current trends and issues, basic and theoretical approaches, implications of federal and state statutes, multidisciplinary team approaches to providing appropriate educational programming; students complete a practicum with an elementary special education teacher. Requirements: admission to TEP.

07U:116 (EDTL:3916) Methods: Strategist I (Elementary)  
3 s.h.
Methods and materials for students with mild to moderate disabilities in elementary resource placements; effective school collaboration; empirically validated strategies. Corequisites: 07U:115 (EDTL:3915). Requirements: admission to TEP.

07U:121 (EDTL:5921) Transition and Related Issues  
3 s.h.
Curriculums, programs, and delivery systems that help persons with disabilities move from preschool to elementary, middle school, middle school to high school, and to postsecondary life; emphasis on ecological and task analysis, transition planning strategies, interagency collaboration, self-determination, access to resources and support services.

07U:122 (EDTL:4922) Supervised Teaching: Elementary Strategist I  
7 s.h.
Student teaching at the elementary level in a program for students with mild to moderate disabilities. Requirements: elementary education major.

07U:133 (EDTL:3933) The Culturally Different in Diverse Settings  
3 s.h.
Diversity in society; laws—past and present, experiences, incidents, how they affect society.

07U:134 (EDTL:4934) Parent-Teacher Communication  
1-3 s.h.
Realities of working with parents; interpersonal skills; options for parent support services. Same as 07P:134 (PSQF:4134).

07U:136 (EDTL:4936) Home/School/Community Partnerships  
3 s.h.
Issues related to collaboration among families, educators, community members in implementing school programs. Same as 07P:136 (PSQF:4136).

07U:137 (EDTL:4137) Introduction to Educating Gifted Students  
3 s.h.
Fundamental issues such as curriculum, counseling, family issues, gender and minority issues. Same as 07C:137 (RCE:4137).

07U:138 (EDTL:3938) Assessment of Learning Problems  
3 s.h.
Effective use of varied formal and informal assessment techniques for students with learning and behavior problems; techniques that inform teaching decisions. Requirements: admission to TEP and Elementary Strategist I program.
07U:140 (EDTL:4940) Characteristics of Disabilities 3 s.h.
Etiologies of mild/moderate disabilities; current educational trends; educational alternatives; importance of multidisciplinary team; psychological and social-emotional characteristics of individuals.

07U:150 (EDTL:4950) Behavioral and Social Interventions 3 s.h.
Individual behavioral management, behavioral change strategies, and social interaction strategies, methods, and techniques for individuals with exceptional learning needs.

07U:167 (EDTL:4967) Diversity, Career Exploration, and Transition I 1-3 s.h.
Hands-on, interactive experience to learn what is involved in working with young adult students with multiple learning and cognitive disabilities; three whole-group classroom sessions and required attendance at one of two REACH courses (career exploration or life skills III transition course).

07U:169 (EDTL:4969) Diversity, Career Exploration, and Transition II 1-3 s.h.
Hands-on, interactive experience to learn what is involved in working with young adult students with multiple learning and cognitive disabilities, and assist them with transitioning into the workplace; three whole-group classroom sessions and required attendance in one of two REACH courses (internship prep or job search strategies).

07U:176 (EDTL:3976) Reading Intervention for Students At Risk 3 s.h.
Reading instructional approaches for students at risk for, or with reading disabilities; students enrolled in lab apply content while working with a reading disability student; use of effective teaching principles and research-based practices for designing and delivering instruction in reading (including oral and silent reading), vocabulary development, reading fluency, comprehension. Requirements: admission to TEP.

07U:182 (EDTL:4982) Instructional Decision Making in Education 3 s.h.
Overview of and practical application with curriculum-based procedures for assessment and evaluation; classroom-based measures to make educational decisions for instruction of students, particularly those experiencing academic difficulty.

07U:183 (EDTL:4983) Academic and Behavioral Strategies for Students with Learning Disabilities and Behavioral Disorders 3 s.h.
Merge theory and practices for assessing, planning interventions, delivering instruction, and monitoring progress for individuals who have learning disabilities and emotional/behavioral disorders.

07U:184 (EDTL:4984) Academic Skills for Students with Special Needs 3 s.h.
Introduction to appropriate methodology for teaching academic skills to students with significant learning difficulties; how to teach students effectively regardless of the label that might be applied to them or the setting to which they might be assigned; effective application of classroom-based measurement, curriculum development, and instructional strategies for teaching academic skills to education students with special needs.

07U:187 (EDTL:4987) Introduction to Assistive Technology 3 s.h.
How assistive technology can be used for attainment of goals in education or work. Same as 07C:187 (RCE:4187).

07U:188 (EDTL:4188) Practicum in Teaching and Curriculum Development in Gifted Education 1-6 s.h.
Experience in developing course materials for classes offered through the Belin-Blank Center for Gifted Education. Same as 07C:188 (RCE:4188).

07U:190 (EDTL:4990) Interdisciplinary Issues in Disabilities 1-3 s.h.
Critical issues related to interdisciplinary delivery of services to persons with developmental disabilities; observation and participation in staffing and consultation; opportunity for related community experiences.

07U:201 (EDTL:6901) Strategist II Methods--Elementary 3-4 s.h.
Methods and materials; strategies for assessing behavior, academic achievement, social skills; instructional resources; consultation with parents and peers; collaboration strategies; empirically validated strategies. Prerequisites: 07U:138 (EDTL:3938) or 07U:238.

07U:203 (EDTL:6903) Strategist II Methods--Secondary 3-4 s.h.
Methods, materials, accommodations; practical skills for working in school/community settings; academic, affective, behavioral assessment; communication skills, management strategies, innovative program models, transition and career education planning; empirically validated strategies. Prerequisites: 07U:138 (EDTL:3938) or 07U:238.

Practicum experience with students with disabilities; experiences differ depending upon student’s program of study.

07U:209 (EDTL:6909) Seminar: Graduate Supervised Teaching 1 s.h.
For students enrolled in graduate student teaching practicum. Requirements: special education major.

07U:231 (EDTL:6931) Strategist I Methods 4 s.h.
Methods and strategies K-12 that include models for providing curricular and instructional methodologies used in educating mildly and moderately disabled, collaboration and consultation models; empirically validated strategies.

07U:236 (EDTL:6936) Administration of Students with Special Needs 3 s.h.
Foundation for and skill practice in tasks performed by directors of special education and others administering to needs of special education students, and economically and socially deprived students; for prospective school administrative personnel. Same as 07B:236 (EPLS:6236).

Student teaching in an elementary mild and moderate special education program.

Student teaching in a secondary mild and moderate special education program.

07U:252 (EDTL:7952) Seminar: Behavioral Assessment and Evaluation 3 s.h.
Broadens skills of graduate students who engage in research with exceptional persons; research designs are usually taught in the Department of Psychological and Quantitative Foundations, but because of the nature of handicapping conditions and the low incidence of some handicaps, the single-subject design yields better research information. Same as 07P:352 (PSQF:7352).
07U:253 (EDTL:6953) Strategist II Student
Teaching: Elementary
Student teaching in K-8 learning disabilities or behavior disorders.

07U:254 (EDTL:6954) Strategist II Student
Teaching: Secondary
Student teaching in secondary learning disabilities or behavior disorders.

07U:275 (EDTL:6975) Explicit Instruction
3 s.h.
Empirically supported methods for teaching reading and mathematics K-12 to students with mild-moderate disabilities; assessment and curricular adaptations to individual needs.

07U:343 (EDTL:7943) Proseminar: Issues, Trends, and Research in Special Education
2-3 s.h.
Conceptual and practical development of research across special education and related disciplines; empirical review of the literature; focus on professional writing skills.

07U:344 (EDTL:7944) Proseminar: Issues, Trends, and Research in Special Education II
2-3 s.h.
Recent research from a variety of special education areas reviewed by students; simulated comprehensive examinations.
Prerequisites: 07U:343 (EDTL:7943).

07U:345 (EDTL:7945) Current Issues and Trends in Learning Disabilities
3 s.h.
Readings and discussions of current issues and trends in learning disabilities (e.g., definition, prevalence, interventions, subtyping, assessment).

07U:348 (EDTL:7948) Contemporary Research in Behavioral Disorders
3 s.h.
In-depth analysis of current research in behavioral disorders; emphasis on evaluating its methodology and contribution to the field.

07U:353 (EDTL:7953) Seminar: Single Subject Design Research
3 s.h.
Reviews of single subject research, development of student proposals; focus on special education, applied research.

07U:392 (EDTL:7932) Field Service Project in Special Education Internship
arr.
Part-time or full-time experience as an intern in school districts or area education agencies; develops skills in supervision and administration of special education.
College of Engineering

Dean
Alec B. Scranton

Associate dean, research and graduate studies
Gregory R. Carmichael

Associate dean, academic programs
Keri C. Hornbuckle

Director, Center for Bioinformatics and Computational Biology
Tom Casavant

Director, Center for Computer-Aided Design
Karim Abdel-Malek

Codirector, Iowa Institute for Biomedical Imaging
Milan Sonka, Joseph Reinhardt

Director, IIHR—Hydroscience & Engineering
Larry Weber

Undergraduate major: B.S.E.
Undergraduate certificate: technological entrepreneurship
Graduate degrees: M.S.; Ph.D.
Web site: http://www.engineering.uiowa.edu

Engineering is defined by the Accreditation Board for Engineering and Technology as that profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to use, economically, the materials and forces of nature for the benefit of mankind.

In short, engineering is the application of science and mathematics to solve problems for society.

The major aim of engineering is the creation of a new process, product, material, or system. This activity demands a high degree of creativity and problem solving ability coupled with a full understanding of engineering fundamentals, good judgment, and a practical sense of economics.

The College of Engineering prepares men and women for one or more of the many career opportunities in the engineering profession. Such opportunities include positions in design, production, development, research, management, and consulting. Engineers are employed in industrial organizations, governmental agencies, and private practice.

The College of Engineering’s mission is to develop, disseminate, transfer, and preserve technical knowledge that improves people’s lives. The college endeavors to:

• provide a well-rounded and superior engineering education that draws upon resources of a comprehensive research university to attract outstanding undergraduate and graduate students in selected engineering fields;
• conduct high-quality research in selected areas, enabling faculty members and students to keep pace with new developments and ensuring that the newest concepts are taught in its courses; and
• serve the needs of the University, industry, government, and the general populace by making its facilities and faculty expertise accessible.

COLLEGE ORGANIZATION

The College of Engineering has five departments and four research units. The Department of Biomedical Engineering, Department of Chemical and Biochemical Engineering, Department of Civil and Environmental Engineering, Department of Electrical and Computer Engineering, and Department of Mechanical and Industrial Engineering offer a total of six undergraduate programs and many graduate programs.

The research units are the Center for Bioinformatics and Computational Biology, the Center for Computer-Aided Design, the Iowa Institute for Biomedical Imaging, and IIHR—Hydroscience & Engineering.

DIVERSITY AND INCLUSION AT THE COLLEGE OF ENGINEERING

The College of Engineering works to be a national leader in including women and men of all races and ethnic groups in its student body and in providing a model for other institutions that are interested in strengthening inclusion of all peoples in engineering. To these ends, it has developed programs that support inclusion through outreach to K-12 students in the Midwest, mentoring of undergraduate and graduate students, and recruitment of faculty members. These programs enjoy the support of several international engineering and manufacturing firms. Learn more at the college’s Ethnic Inclusion Effort web site.

Undergraduate Programs

The College of Engineering offers the Bachelor of Science in Engineering (B.S.E.) with majors in biomedical engineering, chemical engineering, civil engineering, electrical engineering, industrial engineering, and mechanical engineering. All six B.S.E. programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. Each has its own set of articulated educational objectives, and all are designed to ensure that graduates possess the following general attributes:

• ability to apply knowledge of mathematics, science, and engineering;
• ability to design and conduct experiments as well as to analyze and interpret data;
• ability to design a system, component, or process to meet desired needs;
• ability to function on multidisciplinary teams;
• ability to identify, formulate, and solve engineering problems;
• understanding of professional and ethical responsibility;
• ability to communicate effectively in oral, written, and graphical forms;
• broad education necessary to understand the impact of engineering solutions in a global and societal context;
• recognition of the need to engage in lifelong learning and the ability to do so;
• knowledge of contemporary issues; and
• ability to use the techniques, skills, and modern engineering tools necessary for successful engineering practice.

The University of Iowa B.S.E. programs distinguish the College of Engineering from other engineering colleges.
in the region. They draw on the University's recognized strengths to offer unique opportunities for students who wish to pursue a wide range of career options and an education that goes beyond technology.

See Bachelor of Science in Engineering (p. 737) in the Catalog for detailed information about the B.S.E., including requirements, admission, and academic rules and procedures. For information about each B.S.E. major, see the Catalog’s College of Engineering department sections: Biomedical Engineering (p. 747), Chemical and Biochemical Engineering (p. 757), Civil and Environmental Engineering (p. 767), Electrical and Computer Engineering (p. 779), and Mechanical and Industrial Engineering (p. 789).

The college also offers joint undergraduate degrees with the College of Liberal Arts and Sciences and the Tippie College of Business; a dual degree with the University of Northern Iowa; a joint bachelor’s/master’s degree program in each engineering discipline; and a joint bachelor’s/master’s degree with the School of Urban and Regional Planning. See "Joint and Dual Degrees" in the Bachelor of Science in Engineering (p. 737) section of the Catalog. In addition, the College of Engineering and the Tippie College of Business offer the Certificate in Technological Entrepreneurship (p. 807) for undergraduate engineering students.

Graduate Programs

The College of Engineering offers the Master of Science and Doctor of Philosophy in biomedical engineering, chemical and biochemical engineering, civil and environmental engineering, electrical and computer engineering, industrial engineering, and mechanical engineering. For information about principal research and study areas, degree requirements, admission, and financial support for individual graduate programs, see the Catalog’s College of Engineering department sections: Biomedical Engineering (p. 747), Chemical and Biochemical Engineering (p. 757), Civil and Environmental Engineering (p. 767), Electrical and Computer Engineering (p. 779), and Mechanical and Industrial Engineering (p. 789).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Professional Licensure

Licensure as a professional engineer is governed by the laws of each state. Most states’ minimum requirements include graduation from an accredited engineering curriculum of at least four years, followed by at least four years of practical experience and successful completion of two major examinations.

The agency that controls and monitors the licensing procedure in Iowa is the Iowa Engineering and Land Surveying Examining Board. The first step in the procedure for students enrolled in an accredited program is to pass an examination on engineering fundamentals given near the time of graduation. Following graduation and the successful completion of the engineering fundamentals exam, graduates receive an Engineer-in-Training (EIT) certificate. The final step in the procedure is to pass the principles and practice exam in a specialty area following a minimum of four years of approved professional experience. At this point, the graduate engineer becomes a licensed Professional Engineer.

Student Organizations

The College of Engineering student body is represented by the Engineering Student Council. The council plans and carries out activities involving the entire college, including the electronic newsletter E-Week. The organization also acts on collegewide matters of general student interest.

Several engineering professional societies have University of Iowa student chapters: American Institute of Chemical Engineers, American Society of Civil Engineers, American Society of Mechanical Engineers, Biomedical Engineering Student Society, Institute of Electrical and Electronics Engineers, Institute of Industrial Engineers, and National Society of Professional Engineers.

The following student organizations are multidisciplinary and are open to all engineering students: the American Institute of Aeronautics and Astronautics is a professional organization affiliated with the field of aerospace engineering; the American Wind Energy Association focuses on career development, research, and advocacy for wind energy; the Engineering Sales Club helps engineering students develop the professional skills required for sales careers; Engineers for a Sustainable World and Engineers Without Borders work to reduce poverty and improve global sustainability; the Human Factors and Ergonomics Society raises awareness of human factors issues; the Society of Automotive Engineers is a professional and technical organization; a local chapter of Theta Tau, a national professional engineering fraternity, is active in service to the college.

The University chapter of Tau Beta Pi, a national honorary society for students in all engineering fields, gives special recognition to superior students in their junior and senior years. The work of students who are outstanding in specific engineering disciplines is recognized by Alpha Eta Mu Beta (biomedical engineering), Omega Chi Epsilon (chemical engineering), Chi Epsilon (civil engineering), Eta Kappa Nu (electrical engineering), Alpha Pi Mu (industrial engineering), and Pi Tau Sigma (mechanical engineering).

Student organizations that support the enrollment of women and members of minority populations in the college include the Multi-Ethnic Engineering Student Association, the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers, the National Society of Black Engineers, the Society of Hispanic Professional Engineers, the Society of Women Engineers, and Women in Science and Engineering.

For more information, visit Engineering Student Organizations on the college’s web site.

Research Centers

The College of Engineering has four major research centers. College of Engineering researchers also collaborate with researchers from outside the college in several interdisciplinary research units.
College of Engineering Research Centers

CENTER FOR BIOINFORMATICS AND COMPUTATIONAL BIOLOGY

The Center for Bioinformatics and Computational Biology (CBCB) is a multidisciplinary research center dedicated to applying high-performance networking and computing to basic life science and applied biomedical research. The center is sponsored jointly by the College of Engineering and the University’s Carver College of Medicine.

CENTER FOR COMPUTER-AIDED DESIGN

The Center for Computer-Aided Design (CCAD) conducts basic and applied research in six units: the Operator Performance Laboratory (research in human performance); the Virtual Soldier Research program (research in human modeling and simulation); the Cognitive Systems Laboratory (research in human factors in transportation and human computer interaction); the Reliability and Sensory Prognostic Systems program; the National Advanced Driving Simulator (research in clinical, human factors, and simulation for ground transportation); and the Musculoskeletal Imaging, Modeling, and Experimentation Program (computational modeling of anatomic structures).

IOWA INSTITUTE FOR BIOMEDICAL IMAGING

The Iowa Institute for Biomedical Imaging (IIBI) conducts research in the following areas: medical image analysis and computer-aided diagnosis; cardiovascular image analysis (angiography-intravascular ultrasound data fusion, MR image analysis of congenital heart disease, coronary CT image analysis, early detection of cardiovascular disease); pulmonary image analysis (CT and MR image analysis of the lung); Cell image analysis (cell tracking, shape analysis); and virtual surgery planning (augmented reality for liver resection surgery). The institute is sponsored jointly by the College of Engineering and the University’s Carver College of Medicine.

IIHR—HYDROSCIENCE & ENGINEERING

IIHR—Hydroscience & Engineering, formerly the Iowa Institute of Hydraulic Research, is one of the nation’s premier and oldest fluids research and engineering laboratories. Its activities include fluid dynamics (turbulent flows, vortex dynamics, ship hydrodynamics, biological fluid flow, atmospheric boundary layer, experimental and computational fluid dynamics); environmental hydraulics (hydraulics structures, river mechanics, hydraulic structures, ice mechanics, cold regions engineering, fishers engineering, sediment management, heat disposal in water bodies and power productions, bioremediation of groundwater, computational hydraulics, water quality monitoring); and water and air resources (air pollution, hydroclimatology, hydrogeology, hydrology, hydrometeorology, remote sensing, water resources and basin-scale processes).

Interdisciplinary Research Units

CENTER FOR BIOCATALYSIS AND BIOPROCESSING

The Center for Biocatalysis and Bioprocessing (CBB) concentrates on biocatalysis and bioprocessing education, research, and technology transfer. Its research includes fermentation; bioprocessing of small molecules, peptides, proteins and biocatalysis; pilot-scale technology transfer; structural biology of biocatalysts; biocatalyst screening and discovery; bioremediation; cloning of genes and optimization of protein expression in microorganisms; and GMP operations for producing clinical-grade biotherapeutics.

CENTER FOR GLOBAL AND REGIONAL ENVIRONMENTAL RESEARCH

The Center for Global and Regional Environmental Research (CGRER) is devoted to studying and bettering the environment. Its focus includes multiple aspects of global environmental change, including regional effects on nature ecosystems, environments, and resources and on human health, culture, and social systems. The center helps Iowa’s agencies, industries, and people prepare for accelerated environmental change.

CENTER FOR HEALTH EFFECTS OF ENVIRONMENTAL CONTAMINATION

The Center for Health Effects of Environmental Contamination (CHEEC) is a multidisciplinary environmental health research center dedicated to supporting and conducting research to identify, measure, and prevent adverse health outcomes related to exposure to environmental toxins, particularly water contaminants. The center also conducts educational programs on environmental health and works with environmental database design, development, and systems support for environmental health research.

CENTER FOR INTERNATIONAL RURAL AND ENVIRONMENTAL HEALTH

The Center for International Rural and Environmental Health (CIREH) promotes understanding and awareness of the causes, consequences, and prevention of communicable, chronic, environmental, and occupational diseases in all regions of the world. The center focuses its education, training, and research on nations with substantial agrarian economies.

ENVIRONMENTAL HEALTH SCIENCES RESEARCH CENTER

The Environmental Health Sciences Research Center (EHSRC) researches the adverse health effects of environmental contaminants among rural and agricultural populations. The center is at the forefront of research on rural environmental health problems such as pesticide-induced cancers and birth defects, community and occupational exposures to airborne hazards from concentrated livestock operations, asthma among rural children, and remediation of rural hazardous waste sites. It also trains scientists to characterize mechanisms that underlie environmental disease and approaches to their prevention.

INJURY PREVENTION RESEARCH CENTER

The Injury Prevention Research Center (IPRC) is a multidisciplinary unit whose focus includes injury prevention, acute care, biomechanics, and surveillance activities. The center’s current work involves examining different types of residential smoke detectors, using simulation technology to study driving safety among persons with sleep apnea and persons on antiepilepsy medication, using bicycling simulation to study risk taking in children, and studying the effect of interpersonal violence on women’s health.

OPTICAL SCIENCE AND TECHNOLOGY CENTER

The Optical Science and Technology Center (OSTC) involves researchers from the College of Engineering and the College of Liberal Arts and Sciences. The center’s
objective is to catalyze research in the optical sciences by establishing an environment that promotes collaborative science and the development of innovative technology. Broad areas of interest include development of novel semiconductor materials with unique electronic and optical properties; design, fabrication, and characterization of nanostructures and nanomaterials; photopolymerization processes; exploration of environmental science; and application of novel optical devices in the biosciences.

ORTHOPAEDIC BIOMECHANICS LABORATORY

The Orthopaedic Biomechanics Laboratory researches the application of advanced innovative computational formulations and novel experimental approaches to clinically-oriented problems across the spectrum of musculoskeletal biomechanical research, including total joint replacement (hip, spine, knee, ankle) posttraumatic arthritis, osteonecrosis of the hip, high-energy limb trauma, carpal tunnel syndrome, and articular contact stresses as they relate to joint degeneration.

PHOTOPOLYMERIZATIONS CENTER

The Photopolymerizations Center (IUCRC) center works to advance the fundamental understanding of the kinetics and mechanisms of photopolymerizations; to establish a venue for active discussions and collaborations among industrial and academic researchers; to explore high-risk, cutting-edge research on photopolymerization processes that could lead to technological innovations; and to promote and/or develop novel applications that exploit the unique set of advantages offered by photopolymerizations.

PUBLIC POLICY CENTER

The Public Policy Center (PPC) facilitates interdisciplinary academic research on policy related to health, human factors and vehicle safety, crime and justice, housing, the environment, and transportation. It works to provide policy makers with information they can use to help communities and individuals thrive in sustainable ways.

Facilities and Resources

Seamans Center for the Engineering Arts and Sciences

The Seamans Center for the Engineering Arts and Sciences is home to the College of Engineering. Dedicated in 2001, the Seamans Center combines new construction with extensive renovation of the former Engineering Building to provide space for learning, teaching, research and collaboration that anticipates the needs of 21st-century engineering.

The center’s Student Commons and John Deere Plaza Lobby provide welcoming space for students to work individually or together on homework and projects, with wireless computer connections. Additional work rooms and conference areas join the center’s expanded classrooms and flexible research space in an environment designed to serve the needs of the college’s students, faculty, and staff.

All five of the college’s departments have headquarters in the building, and most faculty offices are located there.

Student Development Center

The professional staff of the Student Development Center administers student services for the College of Engineering, including admission, advising, tutoring, and student records and scholarship. It also provides professional development services such as co-ops/ internships, study abroad, and résumé and interviewing skills.

Engineering Professional Development

Engineering Professional Development (EPD) develops and promotes experiential education and professional opportunities for students in the College of Engineering. EPD programs and services include the Co-op and Internship Program, Study Abroad Programs, job shadowing, spring break programs, the fall Engineering Career Fair, and the spring Engineering Job and Internship Fair. EPD offers individual advising and class presentations on résumé preparation and interviewing skills as well as instruction on finding professional engineering positions and using electronic, print, and other resources in job searches. EPD also recruits employers and organizations interested in hiring engineering students and, in partnership with the Pomerantz Center, facilitates on-campus interviewing.

Lichtenberger Engineering Library

The Lichtenberger Engineering Library is a center of college activity. It maintains a collection of more than 150,000 volumes and provides access to more than 3,000 current journal titles. The library offers Internet access to a wide array of indexes and abstracts and houses a significant collection of standards. It also houses a variety of study spaces.

Hanson Center for Technical Communication

The Hanson Center for Technical Communication (CTC) helps undergraduate engineering students develop and polish their communication skills. The center’s coordinator and assistant coordinator supervise a staff of professional writing consultants and peer consultants.

CTC writing consultants are professional instructors who work in teams to help engineering faculty members present and evaluate writing-intensive assignments. They also provide individual feedback and assessment of students’ work throughout the writing process.

CTC peer consultants are engineering students who have strong communication skills. Peer consultants conduct one-on-one tutoring sessions at the center, helping their fellow students develop skills relating to organization, audience analysis, precise technical descriptions, and persuasive and logical narratives.

Engineering Computer Services

Engineering Computer Services (ECS) provides information technology administration for curricular, administrative, and research computing at the College of Engineering. The college has three drop-in computer labs with 180 high-end Linux and Windows computer workstations, a 45-seat computer classroom and lab, and a 200-seat virtual computer lab that students can access on the Internet. Numerous public domain applications and commercial engineering applications support the full range of engineering classes. Software is upgraded annually, and hardware is upgraded every four years. The college’s computer labs are open 24 hours a day, every day of the year.
Concerning their preparation for the course. They must consult the course instructor if they have questions. Credit in equivalent course work from another institution is recognized at the University of Iowa if the prerequisite is met according to the Catalog. Undergraduates from other colleges must contact the Student Development Center for policies and procedures. Consent for enrollment in an engineering course is based on space availability as well as on whether the student has the mathematics, science, and engineering background considered necessary to undertake the course work.

### Engineering Electronics Shop

The Engineering Electronics Shop (EES) is a full-service electronics facility that supports sales and service for the College of Engineering and the University. EES provides design, construction, repair, calibration, and preventive maintenance services for teaching and research laboratories and maintains more than 100,000 parts in stock. The shop has laser cutting and etching equipment and a fully functional printed circuit board production facility. EES also maintains a large set of rental lockers for students.

### Engineering Machine Shop

The Engineering Machine Shop is a full-service, light manufacturing facility that supports curricular, research, and operational needs of the College of Engineering and the University. EMS provides professional design and fabrication services and gives students, staff, and faculty controlled access to a variety of manufacturing equipment. The shop has its own six-seat computer instruction classroom, a 3-D scanner, and a 3-D printer. EMS also supports College of Engineering clubs with its projects support facility.

### Course Numbering System

#### Current Numbering System

University of Iowa course numbers consist of a three-digit prefix and a three-digit suffix separated by a colon. For the College of Engineering, the second digit of the prefix is 5; the third digit of the prefix corresponds with the academic program in the college that offers the course, as follows.

- **051**: biomedical engineering
- **052**: chemical and biochemical engineering
- **053**: civil and environmental engineering
- **055**: electrical and computer engineering
- **056**: industrial engineering
- **057**: engineering core (old curriculum) and Project Lead the Way
- **058**: mechanical engineering
- **059**: core engineering (new curriculum)

Each course's three-digit suffix identifies the level and type of the course. Generally, suffix numbers below 100 designate courses primarily for undergraduates, numbers 100 to 199 designate courses for undergraduate and graduate students, and numbers 200 and above designate courses primarily for graduate students.

Each College of Engineering course is listed in the department that offers it. Engineering core and core engineering courses are listed in the College of Engineering section; see "Core Program Courses." A brief description is included for each course. Prerequisite and corequisite courses listed in course descriptions are University of Iowa courses. Students who have not taken the University of Iowa prerequisite but who have earned credit in equivalent course work from another institution should consult the course instructor if they have questions concerning their preparation for the course. They must obtain the instructor's consent before registering for the course.

Engineering students may enroll in any course in the College of Engineering if they meet the course prerequisite and corequisite requirements. Undergraduates from other colleges must contact the Student Development Center for policies and procedures. Consent for enrollment in an engineering course is based on space available as well as on whether the student has the mathematics, science, and engineering background considered necessary to undertake the course work.

#### New Numbering System

The University is in the process of revising its course numbering system. Under the new system, course numbers will consist of an alphabetical prefix (up to four letters) and a four-digit numerical suffix separated by a colon. For the College of Engineering, each course's prefix will correspond to the academic program in the college that offers the course, as follows.

- **BME**: biomedical engineering (051 under the old system)
- **CBE**: chemical and biochemical engineering (052 under the old system)
- **CEE**: civil and environmental engineering (053 under the old system)
- **ECE**: electrical and computer engineering (055 under the old system)
- **IE**: industrial engineering (056 under the old system)
- **ME**: mechanical engineering (058 under the old system)
- **ENGR**: core (057 and 059 under the old system) and Project Lead the Way (057 under the old system)

The four-digit numerical suffix will identify the course's level and type, according to the following guidelines.

- **0000-0999**: noncredit courses and courses offered to nonmatriculated students.
- **1000-1999**: introductory, elementary, and general education courses appropriate for first-year students and for other students with no special background; they require few or no prerequisites.
- **2000-2999**: lower-level undergraduate courses usually taken by second-year and sometimes by third-year students; they may build on materials from 1000-1999 prefix courses and may require prerequisites.
- **3000-3999**: upper-level undergraduate courses such as courses for majors and courses that require prerequisites; although these courses are for undergraduates, graduate students earn graduate credit for courses at this level.
- **4000-4999**: advanced upper-level undergraduate courses such as senior seminars, advanced independent study courses, or honors thesis work; although these courses are for undergraduates, graduate students earn graduate credit for courses at this level.
- **5000-5999**: introductory or first-year graduate courses; although these are graduate courses, undergraduates may register for these courses without special permission, on the advice of their advisors.
- **6000-6999**: lower-level and intermediate graduate courses; undergraduates must have special permission to register for these courses.
7000–7999: advanced graduate courses; undergraduates must have special permission to register for these courses.
8000–9999: courses for professional degree programs offered by the professional colleges.

Nondepartmental Courses
Most College of Engineering courses are offered by the college’s departments. They are listed and described in the departments’ General Catalog sections; see the links under “Index: Academic Programs” at the top of this page.

The college also offers the following nondepartmental courses.

Core Program Courses
The college’s individual undergraduate programs and course requirements for each engineering major are described in the Catalog’s College of Engineering department sections.

Each undergraduate program builds upon a core program (see Bachelor of Science in Engineering (p. 737) in the Catalog). The following core program courses are offered by the college. Not all core courses are required for each engineering major.

Undergraduates from other colleges may not register for core program courses without special permission from the college’s Student Development Center.

Introduction to digital systems and engineering applications of microprocessor-based computers; C programming language; serial and parallel I/O; analog-to-digital and digital-to-analog conversion; system control using polling and interrupts; lab arranged. Prerequisites: 059:006 (ENGR:1300).

Elementary theory of deformable bodies, stress, strain; axial, transverse, bending, torsion, combined and buckling loads; deflection of beam. Prerequisites: 059:007 (ENGR:2110). Corequisites: 22M:034 (MATH:2560).

Fluid properties; hydrostatics; transfer of mass, momentum, and energy in control-volume and differential forms; dimensional analysis and similitude; laminar and turbulent flow in conduits; flow past bluff bodies and airfoils; engineering applications; experimental laboratories, computer simulation projects. Prerequisites: 22M:034 (MATH:2560) and 057:010 (ENGR:2710). Corequisites: 059:009 (ENGR:2130).

Introduction to engineering fields of study; work closely with a faculty member or senior administrator; participation that eases the transition to college-level learning; cutting-edge research taking place in the College of Engineering.

Societal, economic, and environmental interactions as applied to informed consumerism, eco-economies, and livable environments in the United States and Costa Rica; intensive spring break learning experience at the University of Georgia Costa Rica campus embedded in course curriculum; satisfies 1 s.h. of project work for University of Iowa sustainability certificate.

Societal, economic, and environmental interactions applied to informed consumerism, eco-economies, and livable environments in the United States and Brazil; intensive spring break learning experience at the Instituto Nacional de Pesquisas da Amazonia in Manaus embedded in course curriculum; satisfies 1 s.h. of project work for University of Iowa sustainability certificate.

Introduction to engineering fields of study; work closely with a faculty member or senior administrator; participation that eases the transition to college-level learning; cutting-edge research taking place in the College of Engineering.
057:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
Introduction to practical issues associated with being a responsible scientist; topics in responsible conduct of research in engineering and the sciences using case studies, presentations, and discussions with visiting speakers; conforms to mandates set by the Office of the Vice President for Research and the Graduate College to train graduate students and postdoctoral scholars/fellows in responsible conduct of research. Requirements: new postdoctoral research scholar/fellow in College of Engineering.

Core Engineering (New Curriculum)

059:005 (ENGR:1100) Engineering Problem Solving I
Development and demonstration of specific problem solving skills; directed project or case study involving actual engineering problems and their solutions.

059:006 (ENGR:1300) Engineering Problem Solving II
Engineering problem solving using computers; introduction to digital computations, problem formulation using a procedural high-level language; structured, top-down program design methodology; debugging and testing; introduction to use of software libraries; examples from numerical analysis and contemporary applications in engineering. Corequisites: 22M:031 (MATH:1550).

059:007 (ENGR:2110) Engineering Fundamentals I: Statics
Vector algebra, forces, couples, moments, resultants of force couples; equilibrium of particles and finite bodies, centroids; applications. Prerequisites: 22M:031 (MATH:1550). Corequisites: 22M:032 (MATH:1560) and 029:081 (PHYS:1611).

059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits
Kirchhoff's laws and network theorems; analysis of DC circuits; first order transient response; sinusoidal steady-state analysis; elementary principles of circuit design; SPICE analysis of DC, AC, and transient circuits. Corequisites: 22M:034 (MATH:2560).

059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics
Basic elements of classical thermodynamics, including first and second laws, properties of pure materials; ideal gas law, reversibility and irreversibility, and Carnot cycle; control volume analysis of closed simple systems and open systems at steady state; engineering applications, including cycles; psychrometrics. Prerequisites: 004:011 (CHEM:1110) and 029:081 (PHYS:1611). Corequisites: 22M:032 (MATH:1560).

059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students
Introduction to engineering student life; electronic resources; keys to and skills for success; coping with adversity; selecting a major; advising; curriculum choices and career objectives; ethics; communication; internships and co-ops; job search skills. Requirements: first-semester standing.

Project Lead the Way Courses

Project Lead The Way (PLTW) is a four-year high school sequence taught in conjunction with traditional math and science courses. The program's curriculum emphasizes critical thinking, creativity, innovation, and real-world problem solving. PLTW courses provide students with in-depth, hands-on knowledge of engineering and technology-based careers.

057:021 (ENGR:2760) Design for Manufacturing
Fundamentals of design, engineering graphics, and manufacturing processes; computer graphics using Pro/ENGINEER for CAD and CAM; typical industrial processes, including casting, welding, machining, forming; laboratory exercises and projects. Corequisites: 057:015 (ENGR:2720).

057:030 (ENGR:1430) Introduction to Engineering Design
Problem-solving skills taught through a design-development process; use of solid-modeling and computer design software to create, analyze, and communicate models of product solutions. Requirements: Project Lead the Way high school student.

057:031 (ENGR:1431) Principles of Engineering
Introduction to engineering and engineering technology; exploration of varied technology systems and manufacturing processes to show how engineers and technicians use math, science, and technology to solve the everyday problems and help people; concerns about social and political consequences of technological change. Requirements: Project Lead the Way high school student.

057:032 (ENGR:1432) Digital Electronics
Applied logic, with focus on application of electronic circuits and devices; use of computer simulation software to design and test digital circuitry before circuits and devices are built. Requirements: Project Lead the Way high school student.

057:033 (ENGR:1433) Computer Integrated Manufacturing
Builds on computer solid modeling skills developed in 057:030 (ENGR:1430); application of robotics and automation principles; robotic in automated manufacturing, design analysis; students use CNC equipment to produce models of their 3-D designs. Requirements: Project Lead the Way high school student.

057:034 (ENGR:1434) Civil Engineering and Architecture
Overview of civil engineering and architecture; interrelationship and dependence of each field on the other; roles of civil engineers and architects, project planning, site planning, building design, project documentation and presentation; students use state-of-the-art software to solve real-world problems and provide solutions for projects and activities. Requirements: Project Lead the Way high school student.

057:035 (ENGR:1435) Aerospace Engineering
Experience applying scientific and engineering concepts to design materials and processes for aeronautics and flight; aerospace information systems, star sailing or astronautics rocketry, propulsion, physics of space science, space life sciences; habitat and crew systems with life support, biology of space science, principles of aeronautics, structures and materials, systems engineering. Requirements: Project Lead the Way high school student.

057:036 (ENGR:1436) Biotechnical Engineering
Experiences from the fields of biotechnology, bioengineering, biomedical engineering, and biomolecular engineering; biomechanics, cardiovascular engineering, genetic engineering, agricultural biotechnology, tissue engineering, biomedical devices, human interface, bioprocess engineering, forensics, bioethics. Requirements: Project Lead the Way high school student.

057:039 (ENGR:1439) Engineering Design and Development
Experience working in student teams to research, design, and construct a solution to an open-ended engineering problem, under a community mentor's guidance; application of design and engineering concepts. Requirements: Project Lead the Way high school student.
Understanding the field of engineering and engineering technology; technology systems and manufacturing processes explored to learn how engineers and technicians use math, science, and technology to solve engineering problems and benefit people; concerns about social and political consequences of technological change. Requirements: Project Lead the Way high school teacher.

057:134 (ENGR:6434) Concepts of Physical Science with Civil Engineering Applications 3 s.h.
Civil engineering and architecture field experience; proper paradigm for relating concepts to secondary-level students, history of civil engineering, architectural design, surveying, cost and efficiency analysis, sustainable design, soil testing, site evaluation and layout. Requirements: Project Lead the Way high school teacher.

057:136 (ENGR:6436) Concepts of Physical Science with Biotechnical Engineering Applications 3 s.h.
Experiences from biotechnology, bioengineering, biomedical engineering, and biomolecular engineering, and how to relate them to secondary students; biomechanics, cardiovascular engineering, genetic engineering, agricultural biotechnology, tissue engineering, biomedical devices, human interface, bioprocess engineering, forensics, bioethics. Requirements: Project Lead the Way high school teacher.

057:139 (ENGR:6439) Concepts of Physical Science with Engineering Design and Development 3 s.h.
Experiences from engineering design and development fields; proper paradigm for relating concepts to secondary-level students; team work to design and develop an original solution to a technical problem by applying engineering design process; research to choose, validate, and justify a technical problem; teams design, build, and test solutions, then present and defend original solution to an outside panel; developed by Project Lead the Way.
Bachelor of Science in Engineering

Undergraduate major: B.S.E.
Web site: http://www.engineering.uiowa.edu

Undergraduate Programs

• Bachelor of Science in Engineering

The College of Engineering offers the Bachelor of Science in Engineering (B.S.E.) with majors in biomedical engineering, chemical engineering, civil engineering, electrical engineering, industrial engineering, and mechanical engineering. The undergraduate programs are designed to attract the best and brightest students and prepare them to be engineers who will succeed in a workplace filled with diverse people, attitudes, and ideas; to compete in the global marketplace; to work effectively in multidisciplinary teams; and to confidently understand, use, and develop modern technology.

All six B.S.E. programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. Each has its own set of articulated educational objectives, and all are designed to ensure that graduates possess the following general attributes:

• ability to apply knowledge of mathematics, science, and engineering;
• ability to design and conduct experiments as well as to analyze and interpret data;
• ability to design a system, component, or process to meet desired needs;
• ability to function on multidisciplinary teams;
• ability to identify, formulate, and solve engineering problems;
• understanding of professional and ethical responsibility;
• ability to communicate effectively in oral, written, and graphical forms;
• broad education necessary to understand the impact of engineering solutions in a global and societal context;
• recognition of the need to engage in lifelong learning and the ability to do so;
• knowledge of contemporary issues; and
• ability to use the techniques, skills, and modern engineering tools necessary for successful engineering practice.

The University of Iowa B.S.E. programs distinguish the College of Engineering from other engineering colleges in the region. They draw on the University’s recognized strengths to offer unique opportunities for students who wish to pursue a wide range of career options and an education that goes beyond technology.

Each program emphasizes a broad understanding of fundamental principles common to all engineering disciplines and provides students with the opportunity to specialize in a selected engineering discipline. All build on the University’s research strengths. Program flexibility is provided by a curriculum in which each student develops engineering competency within a particular academic program and complements it with a tailored thematic option in support of chosen career objectives (e.g., engineering practice, project management, research and development).

This Catalog section provides information about requirements that all B.S.E. students must fulfill, regardless of their engineering major, as well as admission information and academic rules and procedures; see "Bachelor of Engineering" below.

Engineering students may earn more than one B.S.E. degree. They also may earn joint undergraduate degrees in the College of Liberal Arts and Sciences or the Tippie College of Business, a joint B.S.E./master’s degree in urban and regional planning, or a joint B.S.E./M.S. in engineering; see “Joint and Dual Degrees” later in this section.

The undergraduate Certificate in Technological Entrepreneurship (p. 807) is tailored specifically for engineering students who intend to start and operate their own businesses or who would like to understand and learn about managing innovation in business environments. The University offers a wealth of other certificates and minors in a wide range of disciplines that are open to all undergraduate students; see “Minors” and “Certificates” below.

DIVERSITY AND INCLUSION AT THE COLLEGE OF ENGINEERING

The College of Engineering works to be a national leader in including women and men of all races and ethnic groups in its student body and in providing a model for other institutions that are interested in strengthening inclusion of all peoples in engineering. To these ends, it has developed programs that support inclusion through outreach to K-12 students in the Midwest, mentoring of undergraduate and graduate students, and recruitment of faculty members. The programs enjoy the support of several international engineering and manufacturing firms. Learn more at the college’s Ethnic Inclusion Effort web site.

Bachelor of Science in Engineering

The Bachelor of Science in Engineering (B.S.E.) requires a minimum of 128 s.h. Students must be enrolled in the College of Engineering for at least the last 30 s.h. of work toward the degree, or 45 of the last 60 s.h., or a total of 90 s.h. They must have a g.p.a. of at least 2.00 on all college work used to satisfy degree requirements as well as on all work undertaken at The University of Iowa.

Engineering students earn the B.S.E. degree in one of six undergraduate programs (majors): biomedical engineering, chemical engineering, civil engineering, electrical engineering, industrial engineering, or mechanical engineering.

All students complete a core of common B.S.E. requirements, usually during their first three semesters; see “Core Requirements” below. They also must complete a curriculum—a set of required and elective courses—designed specifically for their major program. The curriculum prepares students to practice engineering in that program’s field of engineering. It is designed by the program’s faculty members according to guidelines provided by the national accrediting body, the Accreditation Board for Engineering and Technology (ABET).
Each program’s curriculum is divided into four major stems: mathematics and basic sciences; engineering topics; an elective focus area; and the general education component (humanities and social sciences). All of the courses in the curriculum stems are integrated and sequenced to help students understand the interrelationships and importance of each stem. See “Curriculum Stems” below.

Courses below the level of the beginning courses in each program’s curriculum count toward students’ overall grade-point averages and are recorded on their transcripts, but they do not count toward requirements for the B.S.E degree.

Core Requirements

All B.S.E. students must complete a core of courses that constitute approximately one-third of the courses required for the degree. They complete most of the core during their first three semesters, so most students may postpone making a decision about which engineering major to pursue or may change their engineering major during their first three semesters with little or no loss of time or credit.

The core includes 010:003 (RHET:1030) Rhetoric, a first-year course in writing, speaking, and critical reading; 059:005 (ENGR:1100) Engineering Problem Solving I and 059:006 (ENGR:1300) Engineering Problem Solving II, which cover a breadth of topics from engineering as a profession to team design projects to engineering computations and computer programming; and courses in chemistry, engineering mathematics and fundamentals, and physics. Students must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

Students should complete the core requirements according to the following three-semester plan. Those who do not follow this plan may encounter a delay in graduation because of scheduling problems for courses that must be taken in a specific sequence or that are offered only once a year.

First Semester
All of these:

004:011 (CHEM:1110) Principles of Chemistry I (all majors) 4 s.h.
010:003 (RHET:1030) Rhetoric (all majors) 4 s.h.
22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus (all majors) 4 s.h.
059:005 (ENGR:1100) Engineering Problem Solving I (all majors) 3 s.h.
059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (all majors; credit does not count toward B.S.E. degree) 1 s.h.

Second Semester
One of these:

004:012 (CHEM:1120) Principles of Chemistry II (biomedical, chemical, and environmental majors) 4 s.h.
General education component (civil, electrical, industrial, and mechanical majors) 3 s.h.

All of these:

22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus (all majors)
22M:033 (MATH:2550) Engineering Mathematics III: Matrix Algebra (all majors)
029:081 (PHYS:1611) Introductory Physics I (all majors) 4 s.h.
059:006 (ENGR:1300) Engineering Problem Solving II (all majors) 3 s.h.

Third Semester
One of these:

029:082 (PHYS:1612) Introductory Physics II (biomedical, civil, electrical, industrial, and mechanical majors) 3-4 s.h.
General education component (optional, chemical and environmental majors) 3 s.h.

All of these:

22M:034 (MATH:2560) Engineering Mathematics IV: Differential Equations (all majors) 3 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics (all majors) 2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits (all majors) 3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics (all majors) 3 s.h.

Requirements for Each Engineering Major

The curriculum for each B.S.E. major program is described in separate Catalog sections; see Biomedical Engineering (p. 747), Chemical and Biochemical Engineering (p. 757), Civil and Environmental Engineering (p. 767), Electrical and Computer Engineering (p. 779), or Mechanical and Industrial Engineering (p. 789). Each program’s curriculum is divided into four major stems, which are described below.

CURRICULUM STEMS

The curriculum for each B.S.E. program is divided into four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (humanities and social sciences). All of the courses in the curriculum stems are integrated and sequenced to help students understand the interrelationships and importance of each stem.

Mathematics and Basic Sciences

The mathematics and basic sciences stem provides the foundation upon which the engineering courses in each engineering program are based. It includes a minimum of five courses in mathematics and statistics and one each in chemistry and physics. The faculty of each engineering program has specified at least one additional chemistry or physics course and other additional mathematics or science courses beyond these minimum requirements to provide a base appropriate for the program’s major.

Engineering Topics (Science and Design)

The engineering topics stem builds upon the math and science stem, providing a bridge from fundamental principles to applications and creative practice.

The stem’s engineering science courses use the underlying principles learned in the mathematics and basic sciences stem to understand and predict the behavior of idealized models of real components or systems encountered in engineering. These courses include fundamentals of statics, thermodynamics, and electrical circuits, as well as other engineering courses relevant to each major.
The stem’s engineering design courses focus on the process of devising a system, component, or process to meet a desired objective. Engineering design integrates decision making and the optimal application of basic sciences, mathematics, and engineering sciences to reach a desired outcome. Elements of the design process include the establishment of objectives and criteria, synthesis, analysis, construction, testing, evaluation, and consideration of realistic constraints such as economic factors, safety, reliability, aesthetics, ethics, and social and environmental impact.

**Elective Focus Area**

The elective focus area stem provides a set amount of credit that students use to build strength in a technical focus area by completing a minor, earning a certificate, or pursuing a tailored program of study.

Students choose elective focus area courses consistent with traditional career goals or nontraditional career goals. Their choice of degree plan and courses may affect the number and type of employment opportunities available to them after graduation. Program advisors help students develop coherent, well-focused plans that fit their goals.

Students who pursue a traditional focus area may replace up to 21 s.h. of traditional technical electives with course work toward a minor or certificate. Students who choose nontraditional focus areas work closely with an advisor to build a rigorous, well-focused program. They must define and justify their career goals; provide a detailed plan of study and obtain their B.S.E. program’s approval for the plan before beginning the plan’s course work; and complete the plan as approved.

Each B.S.E. program is responsible for approving proposed plans of study, ensuring that the program’s ABET accreditation criteria are met, and that students’ choices are consistent with their career aspirations and with the college’s educational mission.

Guidelines for elective focus areas vary by program. For details, see Engineering Curriculum Guides on the college’s web site.

**General Education Component (Humanities and Social Sciences)**

The general education component stem promotes understanding of and appreciation for society and culture through course work in the humanities and social sciences.

Students earn 15 s.h. in humanities and social sciences courses chosen from approved departments and programs; at least 3 s.h. must be earned in courses that the College of Engineering has designated as humanities courses, and at least 3 s.h. must be earned in courses that the college has designated as social sciences courses. To ensure depth, students must earn at least 6 s.h. of general education credit in 100-level courses, with at least one 100-level course taken in the same department as a lower-level course the student already has completed. Individual B.S.E. programs may require further depth in one area and may include general education requirements in a student’s elective focus area.

Most general education component courses are offered by the College of Liberal Arts and Sciences (CLAS), but the College of Engineering defines the humanities and social sciences areas differently than CLAS does. See General Education Component on the College of Engineering web site for departments and programs that offer approved humanities and social sciences courses.

Courses that are primarily mathematical or scientific in nature and those designed specifically to develop art, music, or physical education skills are not accepted as social sciences or humanities electives.

Credit may be earned by examination; see “Undergraduate Academic Rules and Procedures”/“Academic Standards”/“Credit by Examination” later in this section.

Humanities and social sciences course work transferred to The University of Iowa by students with A.A. degrees who enter the College of Engineering directly from two-year schools is evaluated on the same basis as similar course work transferred by other students entering the college without a B.A. or B.S.

Students who enter the College of Engineering with a B.A. or B.S. are considered to have satisfied the general education component requirement.

Students who enroll in a combined degree program in the College of Engineering and the College of Liberal Arts and Sciences or the Tippie College of Business are considered to have satisfied the College of Engineering’s general education requirement once they have completed all requirements for the liberal arts and sciences or business degree.

**Four-Year Graduation Plan**

College of Engineering students who choose to participate in the University’s Four-Year Graduation Plan must be admitted on schedule and must complete specified courses during the first year in order to stay on the plan. They must work closely with their advisors to make sure they know what requirements must be met and the appropriate sequences in which to take courses.

The agreement holds both the student and the University responsible for clearly defined actions to ensure graduation within four years. Since changes in a student’s interests may lead to changes in goals or majors, there is no penalty for withdrawing from the Four-Year Graduation Plan. For more information, contact the College of Engineering’s Student Development Center.

**Honors**

Outstanding undergraduate students who demonstrate exceptional accomplishment through research, directed independent study, teaching internships, or other approved nondegree enrichment activities may graduate with honors. They must maintain a University of Iowa g.p.a. of at least 3.33, complete an honors project with a faculty member, and participate in a college-wide honors seminar with faculty members and other honors students. Successful completion of the honors requirements leads to a B.S.E. with honors, which is noted on the student’s transcript. See the College of Engineering Honors Program web page for details.

First-year and sophomore students with a University of Iowa g.p.a. of at least 3.33 are automatically admitted to the University of Iowa Honors Program, which provides access to all of the services offered through the University’s Blank Honors Center. Engineering students are encouraged to participate in honors activities; they are the second largest collegiate group in the University of Iowa Honors Program.
For more information, contact the college’s associate dean for academic programs.

**Second B.S.E. Degree**

Current College of Engineering students and recent graduates may earn a second Bachelor of Science in Engineering. The second degree must include all courses required by the second engineering degree program, including the senior-level design course sequence and any specific social science elective requirements. Elective focus area courses selected for the second B.S.E. must be of a variety and level that permit students to meet at least the minimal level of competence usually expected of graduates of that program.

Students must file an academic study plan, which must be approved by the faculty of the second degree program, submitted to the Student Development Center, and placed in the student’s permanent file before the student may begin course work in the second B.S.E. The study plan should include a list of the courses to be taken in the second program along with a list of the courses already completed and yet to be completed for the first engineering degree program. Any changes in the plan must be approved by the student’s faculty advisor in the second program and by the department chair of that program (the college petition form may be used for this purpose), submitted to the Student Development Center, and placed in the student’s permanent file.

**Joint and Dual Degrees**

**Joint B.B.A./B.S.E.**

The College of Engineering and the Tippie College of Business offer a joint degree program in which students earn two University of Iowa bachelor’s degrees: a Bachelor of Business Administration (B.B.A.) from the Tippie College of Business and a Bachelor of Science in Engineering (B.S.E.) from the College of Engineering.

Students in the joint program must complete all requirements for both degrees, including all General Education requirements. They must enroll in appropriate mathematics and engineering courses early in their course of study in order to complete the program in a timely way. Because courses in natural sciences, mathematics, humanities, and social sciences count toward the B.B.A. and the B.S.E., students may count a single course toward both degrees.

B.B.A./B.S.E. students usually meet the degree requirements of both colleges in about five years; time required depends on the student’s choice of major study areas.

Students in the joint B.B.A./B.S.E. program should consult with their advisors about whether the second-grade option is available to them.

Students are assigned two advisors, one in the Tippie College of Business Undergraduate Program Office and the other in their College of Engineering major department.

To enter the joint degree program, students must have approval from both colleges and must be admitted to both colleges. Interested students should contact the College of Engineering Student Development Center.

For information about the B.B.A., including requirements for the degree, see Bachelor of Business Administration (p. 573) (Tippie College of Business) in the Catalog.

**Joint B.S.E./Liberal Arts and Sciences Degree**

Students may earn two University of Iowa baccalaureate degrees in a joint program in the College of Engineering and the College of Liberal Arts and Sciences. Successful candidates are awarded a B.S.E. (Bachelor of Science in Engineering) by the College of Engineering and a B.A. (Bachelor of Arts), B.S. (Bachelor of Science), B.F.A. (Bachelor of Fine Arts), or B.M. (Bachelor of Music) by the College of Liberal Arts and Sciences.

Students in joint degree programs must complete all requirements for both degrees, including the College of Liberal Arts and Sciences General Education Program (p. 276) and the College of Engineering general education component.

Students in the joint program usually are able to meet the degree requirements of both colleges in about five academic years. The exact length of time necessary to complete the program is determined by the major areas of study selected in each college. Students who enter the joint degree program are assigned two faculty advisors, one in their major department in the College of Engineering and the other in their major department in the College of Liberal Arts and Sciences.

To enter the joint degree program, students must be admitted to both the College of Engineering and the College of Liberal Arts and Sciences and must have College of Engineering approval to enter the joint degree program. Joint degree program applicants must meet the high school course or unit requirements for admission to each of the two colleges.

It is crucial that students enroll in the proper mathematics and engineering courses early in their course of study to expedite the completion of the program. The specific engineering courses taken by each student vary according to engineering major. Since courses in natural sciences, mathematics, humanities, and social sciences are accepted for credit by both colleges, students may be able to count a particular course toward both degrees.

Contact the Student Development Center for information about specific requirements. To learn about liberal arts and sciences majors, visit College of Liberal Arts and Sciences (p. 25) in the Catalog and select majors from the college index.

**B.S./B.S.E. Dual Degree with Northern Iowa**

The 3+2 dual degree program leads to a B.S. in applied physics from the University of Northern Iowa (UNI) and a B.S.E. from The University of Iowa. It requires approximately three years of study at UNI followed by approximately two years of study at Iowa. There is no guarantee that students can complete the 3+2 degree in five years.

Students interested in the program are guaranteed admission to the University of Iowa portion of the program if they have a g.p.a. of at least 3.00 (B average) in all course work and in the chemistry, mathematics, and physics courses required by the University of Northern Iowa physics department.
During the first three years of the program, students complete at least 90 s.h. of course work at the University of Northern Iowa. They must successfully complete courses in each of the following areas: chemistry, mathematics through differential equations, physics to satisfy the applied physics major requirements, and courses to satisfy the General Education requirements. Credit for courses passed with a grade of C or higher is transferred to The University of Iowa as credit for equivalent courses there.

At The University of Iowa, students complete the B.S.E. requirements that were current at the time of their admission to the UI College of Engineering. Course work completed at The University of Iowa is transferred to the University of Northern Iowa and applied toward the requirements for that institution’s B.S. in applied physics.

When transferring to Iowa from UNI, students must submit applications for admission, housing, and financial aid to The University of Iowa by the University’s established deadlines.

**Joint B.S.E./M.S. in Engineering**

Engineering students may be eligible to enroll in a joint B.S.E./M.S. program, which allows them to begin working toward a master’s degree in engineering while they are completing the bachelor’s degree. The joint programs, which are offered by each College of Engineering department, allow students to count certain courses toward both degrees, completing both programs in less time than they would need to complete them separately. See "Joint B.S.E./M.S." in each College of Engineering department section of the Catalog.

**Joint B.S.E./M.A. or M.S. in Urban and Regional Planning**

The College of Engineering and the School of Urban and Regional Planning offer the joint Bachelor of Science in Engineering/Master of Arts or Master of Science program in urban and regional planning. The program, which is completed in five years, is designed for students who wish to pursue a public or private sector career in planning, a field that encompasses the development of alternatives to improve the quality of life in cities and regions.

Graduates are technically oriented professionals who have a clear understanding of policy development and implementation, which they apply to civil and industrial engineering problems. They fill positions such as public works director, transportation engineer, and public utilities staff member.

Each student in the joint program has two advisors, one in engineering and one in urban and regional planning. Students enroll in the College of Engineering for their first four years in the program and in the Graduate College for their fifth year. They follow the standard curriculum of their B.S.E. program during the first two years and begin adding courses from the urban and regional planning program during the third year. Successful students receive a B.S.E. at the end of the fourth year and an M.A. or M.S. in planning at the end of the fifth year.

Students in the joint program must maintain a cumulative g.p.a. of at least 3.00 in order to graduate with an M.A. or M.S. in planning.

See Urban and Regional Planning (p. 874) (Graduate College) in the Catalog for information about the graduate degree. Contact the College of Engineering’s Student Development Center for information about applying to the joint program.

**Minors**

Engineering students may complete minors in a number of disciplines. For instance, students interested in heading an engineering firm might choose to earn a minor in business administration. For a list of minors and links to the departments and programs that offer them, see Undergraduate Minors (p. 14) in the Catalog.

B.S.E. programs generally allow students to satisfy their elective focus area requirement by completing a minor. Students who choose this option must work closely with program advisors to ensure that the minor is compatible with their engineering career aspirations.

In order to have the minor noted on their transcript, students must inform the Office of the Registrar that they have fulfilled the minor’s requirements when they apply for a degree. See "Undergraduate Academic Rules and Procedures"/"Application for Degree" later in this section.

**Certificates**

Engineering students may earn certificates offered by colleges across the University. The College of Engineering partners with the Tippie College of Business to offer the Certificate in Technological Entrepreneurship (p. 807), which is tailored specifically for engineering students who intend to start and operate their own business or who would like to understand and learn about managing innovation in business environments. Other certificates of particular interest to engineering students include the Certificate in International Business (p. 358) and the Certificate in Sustainability (p. 1148). Completion of a certificate is noted on the student’s transcript.

See Undergraduate Certificates (p. 13) in the Catalog for a complete list of certificates and links to their individual Catalog sections.

**Cooperative Education and Internship Program**

The Cooperative Education and Internship Program offers students the opportunity to explore engineering careers and develop engineering skills through periods of professional practice while they are still students. Supervised professional engineering-related experiences in business, industry, education, or government expose students to the challenges and opportunities of the day-to-day life of an engineer. Students with co-op and/or internship experience are sought by employers and usually receive higher starting salaries upon graduation. A portion of registered co-op and/or internship experience before graduation can be credited toward the experience requirements for professional licensure in Iowa and some other states.

Qualified students may choose to alternate periods of on-campus study with full-time work experience, or they may elect to work half time while taking at least 6 s.h. of classes. The co-op experience may cover one to three semesters, a series of summer placements, or a single summer. Students may apply to the program following their first year. Academic record and class status are considered in acceptance decisions. Interested students and employers or organizations must register
with the College of Engineering director of professional development. For details, see Engineering Professional Development.

**Admission**

Applicants for admission to the College of Engineering as first-year students for academic year 2011-12 must have successfully completed at least four years of English/language arts; four years of mathematics, which must include at least two years of algebra, one year of geometry, and one year of higher mathematics (trigonometry, analysis, calculus); two years of a single foreign language; three years of natural science, which must include at least one year of chemistry and at least one year of physics; and at least two years of social studies. A high school computer programming course is recommended but not required.

Applicants are guaranteed admission to the College of Engineering if they have no high school unit deficiencies, an ACT composite score of 25 or higher, an ACT math score of 25 or higher, and a Regent Admission Index score of at least 265. Students who do not meet these requirements, or who attend a high school that does not rank its students, are encouraged to send recommendations from math and science teachers and a personal statement, which will be considered in an individual review by the College of Engineering.

Students who are admitted through the individual review process may be required to make up deficiencies by taking a lower-level course in their area of deficiency before enrolling in the first required course in that area. For example, students who have high math grades and standardized test scores, but who are deficient by one unit in mathematics, may be required to complete a course such as 22M:009 (MATH:1020) Elementary Functions before enrolling in the first engineering calculus course.

Incoming first-year and transfer students who do not meet the foreign language requirement may be admitted on conditional status for a maximum of four semesters in order to complete two semesters of an introductory college-level foreign language.

Students who are unsure whether to pursue a degree in engineering or a degree in liberal arts and sciences are strongly encouraged to begin in engineering if they meet the admission requirements.

Information about admission to the College of Engineering is available on the Office of Admissions web site.

**Transfer Applicants**

Transfer applicants must have completed the same high school unit requirements as entering first-year students and must submit an official high school transcript as well as a transcript of college work undertaken at other institutions. To transfer to the College of Engineering, students must have demonstrated success in math, science, and engineering courses, ideally earning all As and Bs with no grade lower than a C in these foundation subjects. Transfer students must have completed calculus I and the equivalent of either 004:011 (CHEM:1110) Principles of Chemistry I or 029:081 (PHYS:1611) Introductory Physics I (the first semester of chemistry designed for majors, or the first semester of calculus-based physics). Overall grade-point average also is considered in transfer applications.

Information about admission requirements for transfer students is available on the Office of Admissions web site.

**Academic Rules and Procedures**

**Academic Advising**

Undeclared engineering students and declared first-year students are advised by the staff of the Student Development Center. After the first year, engineering students who have declared an academic program are advised by faculty advisors assigned to that program. Students may request a change of advisor when it is deemed appropriate. All students are required to have a conference with their advisors before registering for classes each semester.

**Application for Degree**

Students who wish to be considered for graduation must file an Application for Degree with the Office of the Registrar before the deadline date during the session in which the degree is to be conferred.

Students who do not graduate on the date indicated in the Application for Degree must file another application for the next applicable session. Students do not need to be registered to apply for a degree.

See Apply for Degree on the Office of the Registrar web site.

**Academic Recognition**

**GRADUATION WITH HONORS**

Graduation with honors recognizes high academic achievement based on both grades and exceptional accomplishment. To be eligible for graduation with honors, students must be approved by a selected honors committee and the director of the honors program, and they must complete honors requirements. See "Honors" earlier in this Catalog section.

**GRADUATION WITH DISTINCTION**

Graduation with distinction recognizes high academic achievement based on grades. The college awards degrees "with highest distinction" to students in the highest 2 percent of their graduating class, "with high distinction" to students in the next-highest 3 percent, and "with distinction" to students in the next-highest 5 percent. Ranking is based on students’ grade-point average for all college-level study taken up to their final registration.

To be eligible to be considered for graduation with distinction, students must complete their final 60 s.h. of study in residence at the college and must have completed at least 45 s.h. in the college before their final registration. Students in the combined engineering/liberal arts and sciences program are eligible to graduate with distinction regardless of the college in which they complete their residency requirement.

**DEAN’S LIST**

Undergraduate students in the Colleges of Liberal Arts and Sciences and Engineering and the Tippie College of Business who achieve a g.p.a. of 3.50 or higher on 12 s.h. or more of University of Iowa graded course work during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean’s List for that semester. Undergraduate students
in the Carver College of Medicine may qualify for the Dean’s List with fewer than 12 s.h. of graded credit if deemed appropriate by the college. College of Nursing students participating in clinical courses must have a total of 12 s.h. of graded credit with a g.p.a. of 3.50 or higher.

**PRESIDENT’S LIST**

University of Iowa undergraduate students who achieve a g.p.a. of 4.00 on 12 s.h. or more of University of Iowa graded course work and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President’s List. College of Nursing students participating in clinical courses must have a total of 12 s.h. of earned credit, with 8 s.h. of graded credit, to qualify for the President’s List.

**Academic Standards**

**MAXIMUM SCHEDULE**

Course schedules of more than 19 s.h. for a semester, 9 s.h. for a summer session, or 3 s.h. for a winter session require approval of the advising staff in the college’s Student Development Center. The Permission to Register for Additional Hours form is available on the center’s web site.

**CLASSIFICATION OF STUDENTS**

Students in the College of Engineering are classified by the number of semester hours of credit they have earned toward the Bachelor of Science in Engineering.

- First-year: 0-29 s.h. earned toward the B.S.E.
- Sophomore: 30-59 s.h. earned toward the B.S.E.
- Junior: 60-89 s.h. earned toward the B.S.E.
- Senior: 90 s.h. or more earned toward the B.S.E.

**GRADING SYSTEM**

The college uses a letter grading system. A denotes superior performance, B denotes above average, C denotes average, D denotes below average, and F denotes failure of the course. Plus and minus designate gradations of performance between letter grades. Letter grades and their numerical equivalents are as follows.

- A-plus: 4.33
- A (superior): 4.00
- A-minus: 3.67
- B-plus: 3.33
- B (above average): 3.00
- B-minus: 2.67
- C-plus: 2.33
- C (average): 2.00
- C-minus: 1.67
- D-plus: 1.33
- D (below average): 1.00
- D-minus: 0.67
- F (failing): 0

This grading system is used for all students in both undergraduate and graduate engineering courses. Grades of D-minus are passing grades; that is, courses completed with grades of D-minus or higher count toward collegiate requirements, with the exception of 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus, which have a minimum grade requirement of C-minus or higher. Grades of A-plus have a value of 4.33 in calculating grade-point averages, but averages displayed in University records are truncated so that they do not exceed 4.00.

**ACADEMIC PROBATION AND DISMISSAL**

Students who do not achieve or surpass University of Iowa cumulative and semester minimum grade-point averages of 2.00 are placed on academic probation.

Students on academic probation are restored to good standing when they successfully complete an additional 9 s.h. toward an engineering degree, either in one semester or cumulatively, and their University of Iowa cumulative and semester grade-point averages equal or exceed 2.00.

The college reviews academic records for all students at the end of the fall and spring semesters. There is no review at the end of the summer session. Students are placed on probation, dismissed for unsatisfactory progress (with or without previous probationary status), or restored to good standing only at the end of the fall and spring semesters. Students on academic probation are not permitted to continue their enrollment without written expectations for their future performance.

Students who do not make satisfactory progress may be dismissed from the college without an intervening probationary period. Students who are dismissed from the college for unsatisfactory academic progress due to circumstances beyond their control, such as a death in their immediate family or extended personal illness, may appeal for a revocation of the dismissal. A student dismissed in January must submit a written appeal by the second day of spring semester classes. A student dismissed in May must submit the written appeal by June 15.

Students dismissed from the college for poor scholarship may appeal to re-enroll after an interval of at least one calendar year. A written appeal for reinstatement must be submitted to the Appeals Committee at the Student Development Center. Appeals must be submitted before June 15 for reinstatement in a fall semester or before December 1 for reinstatement in a spring semester.

For details, see Academic Standards and Appeal Procedures under Current Students on the college’s web site.

**DROPPING AND ADDING COURSES**

Courses may be added with permission of the advisor and the instructor during the first two weeks of the semester or first one-and-one-half weeks of the summer session.

Courses may be dropped with permission of the advisor and the instructor at any time during the first 10 weeks of the semester. Only under compelling circumstances may courses be dropped after the 10th week, in which case special approval must be granted by the advisor, the course instructor, and the dean’s office. Under no circumstance are students permitted to drop after the beginning of the scheduled final examination period.
LIMITS ON WITHDRAWING FROM COURSES

Undergraduates receive the mark of W for any course dropped after the second week of the semester or the first one-and-one-half weeks of the summer session. Students may not drop the same course with a mark of W more than twice. Special courses that may be repeated are exempt from this rule.

Students admitted to degree programs in the College of Engineering are limited to a total of five Ws while enrolled in the College of Engineering. First-year students entering the University directly from high school with no prior full-time college experience are permitted to exclude Ws received during their first two sessions of enrollment.

Students who have a legitimate reason for dropping a course (e.g., disabling illness, death of an immediate family member) and can document that reason are permitted to exclude that drop from the maximum, but the W is not removed from the record. Requests for such exclusions are made in the Student Development Center.

WITHDRAWAL OF REGISTRATION

Students who withdraw their entire registration must consult the staff at the Student Development Center. A student on scholastic probation who withdraws registration at any time without good cause may not be permitted to enroll for the following semester without specific approval from the Student Development Center staff. Withdrawal cards for students enrolled in the college are signed by the associate dean for academic programs.

PASS/NONPASS OPTION

A maximum of two courses taken pass/nonpass (P/N) may be applied toward satisfaction of the general education (humanities and social sciences) requirement. P/N registration must be approved by the student's advisor and the instructor of the course and must be completed during the first 10 days of a semester or the first two weeks of a summer session. P/N registration may not be changed after the deadline for adding courses. The pass/nonpass option may not be used for courses taken to satisfy the rhetoric requirement. Guided Independent Study courses taken for humanities or social science credit may not be taken P/N.

Students enrolled in courses taught in the College of Engineering may choose to be graded pass/nonpass under the following conditions:

- the signatures of the advisor and instructor must be obtained on the proper form, and the completed form must be submitted to the registration center by the student within the time period established by University policy;
- the mark of P (pass) is awarded where the final course grade earned was C-minus or higher; the mark of N (nonpass) is given for grades of D-plus or below; marks of P and N are not used in computing the grade-point average, and the mark of N does not count as earned credit.

No course work taken in the College of Engineering on the pass/nonpass option may be used to satisfy requirements for an engineering degree.

SECOND-GRADE-ONLY OPTION

A student may elect to repeat a course with only the new grade being counted in his or her grade-point average. The option may be applied to no more than three courses, and it may be applied only once to a particular course. Transfer students may apply the option on a prorated basis.

A course may not be repeated under the second-grade-only option once it has been used as a prerequisite for a more advanced course that the student has completed successfully.

To exercise the second-grade-only option, students register as usual for the course that is to be repeated, then complete a Second Grade Option form at the Student Development Center; the Second Grade Option form is available on the college's web site. The form must be completed during the session in which the course is repeated, within the first 12 weeks of the fall or spring semester or the first six weeks of the summer session. Students must follow this procedure or both grades will be counted in the University of Iowa grade-point average.

Under the second-grade-only option, the registrar marks the permanent record to show that a particular course has been repeated. Both grades remain on the permanent record, but only the second is used in calculating the grade-point average and semester hours earned. The course must be taken the second time under the same circumstances and with the same grade option as it was taken the first time.

The second-grade-only option cannot be used to remove a grade of incomplete, which must be removed in the usual manner. A student who holds a degree from The University of Iowa may not apply the second-grade-only option to a course taken before the degree was conferred.

SATISFACTORY/FAIL COURSES

The noncredit professional seminar courses required in each of the professional programs are offered only satisfactory/fail (S/F). No other engineering courses are offered on this basis. An F (fail) grade earned for such a class does not satisfy any portion of the professional seminar requirement.

INCOMPLETE AND NO REPORT GRADES

A mark of I (incomplete) that is not replaced by a final grade will automatically be converted to an F at the end of the next fall or spring semester (summer and winter sessions excluded), even if the student does not enroll after the session the incomplete was posted.

A mark of O (no grade reported) will remain on a student's permanent record until a valid grade is submitted.

CREDIT BY EXAMINATION

Students who have acquired knowledge in subject areas from sources other than formal course registrations may be granted credit toward graduation by examination, under the following conditions and limitations.

No more than 32 s.h. of credit by examination may be applied toward B.S.E. degree requirements.

College-Level Examination Program (CLEP) credit may be counted toward the lower-level general education (humanities and social science) requirements. CLEP credit earned in natural science areas does not count toward the engineering degree. Credit also may be earned through Advanced Placement (AP) Exams. For details about CLEP and AP credit, see Credit by Exam Options on the Office of Admissions web site.
Engineering students may earn credit for equivalent experience or former course work in any of the required common core courses through successful completion of examinations prepared and graded by the core course committees. Students who fail a core course are not permitted to earn credit by examination for the failed course. Students who wish to earn credit for core courses by examination must obtain approval from the associate dean for academic programs.

With approval of the departmental faculty, credit in three or fewer courses (totaling no more than 6 s.h.) may be awarded upon successful completion of final examinations in program elective courses.

**LANGUAGE INCENTIVE PROGRAM**

The University’s Furthering Language Incentive Program (FLIP) gives entering engineering students two options for earning college credit for study of a world language.

**Option 1:** Entering students who place into a fifth-semester language course and complete the course with a grade of B-minus or higher receive 4 s.h. of exam credit for the fourth-semester course. The credit is ungraded but may be counted toward the hours required for graduation. Incentive credit is not granted for college course work for which credit has been received.

Students are eligible for incentive credit only during their first and second registrations at The University of Iowa.

**Option 2:** Students may receive 2 s.h. of exam credit for earning a grade of B-minus or higher in a first-semester-level course in a language different from the language used to satisfy the world languages requirement. They may earn another 2 s.h. for completing the second-semester-level course in that language for a grade of B-minus or higher.

Visit the college’s web site for more information about FLIP Credit. For more information on eligibility and restrictions, consult the Student Development Center.

**CREDIT FROM OTHER COLLEGES**

Course requirements in engineering may be satisfied with credit earned in courses taken in other University of Iowa colleges or at other accredited colleges or universities. When students apply for admission to the College of Engineering, they must submit official transcripts from each college attended along with their application for admission. After the credit has been certified by the Office of Admissions as college-level work from an accredited institution and after admission has been granted, the credit is evaluated by the Student Development Center either before or during the student’s first semester of enrollment in the college.

Satisfaction of engineering course requirements by transfer course work may be approved by the Student Development Center if, course-by-course, there is a match in the content and level of the transfer courses, and if the grades earned for such courses are C-minus or higher. Students who want to satisfy the engineering General Education Component (social sciences and humanities) requirements or The University of Iowa rhetoric requirements by transfer work must follow the College of Engineering transfer credit guidelines.

Students planning to attend a two- or four-year institution before transferring to the College of Engineering should discuss the planned transfer with officials at both schools before embarking on a transfer program. The College of Engineering has recommended transfer course lists for most Iowa community colleges and some four-year colleges. Once students are enrolled in the College of Engineering, they must have prior approval for course work taken at other institutions.

Contact the Student Development Center for more information.

By policy of the Board of Regents, State of Iowa, a student may apply a maximum of 64 s.h. of transfer credit earned at a two-year college toward the 128 s.h. required for the B.S.E. However, transfer credit from a two-year school in excess of 64 s.h. is used in computing grade-point average and may be used to satisfy course requirements, even though the semester hours cannot be counted toward the total required for graduation. A grade of C-minus or higher is required in order for transfer credit to be applied toward a degree requirement.

**COURSE SUBSTITUTIONS**

For students in the College of Engineering, the substitution of an alternate course for a required course requires the approval of a petition. The Petition for Course Substitution form is available on the college’s web site or at the Student Development Center. The form must be completed by the student and must be approved by the student’s advisor and by the chair of the engineering program in which the student is majoring.

If the petition involves a required engineering core course or a General Education Component (social sciences or humanities) course, then it also must be approved by the Student Development Center. Substitutions for required engineering core courses should be made infrequently and only under compelling circumstances. Substitutions of courses that are required by the student’s program are governed by the faculty of that program; approval of these course substitutions is needed only from the faculty advisor and the department chair. All petitions must be forwarded to the Student Development Center for inclusion in the student’s permanent file.

**AUDITING COURSES**

Students in the College of Engineering may register for a course for zero credit (audit) with the permission of the course instructor and the advisor. The mark of R is assigned to students registered for zero credit if attendance and performance in the course are satisfactory; if unsatisfactory, the mark of W is assigned. Courses completed with a mark of R do not meet any requirements nor do they carry any credit toward graduation. Auditing may not be used as a second-grade-only option.

To register for a course on an audit basis, students must obtain the instructor’s authorizing signature and their advisor’s signature and must register for 0 s.h. To change registration from audit to credit or from credit to audit, a drop-add form is used. These changes must be made during the first three weeks of a semester or the first one-and-one-half weeks of a summer session.

**Misconduct, Complaints**

**STUDENT ACADEMIC MISCONDUCT**

Policies regarding cases of cheating or plagiarism are outlined on the College of Engineering web site (see Regulations Dealing with Academic Misconduct) and are
included in Policies and Regulations Affecting Students, on the University’s Division of Student Services web site). In cases of cheating on an exam or quiz, the policy recommends that the instructor reduce the student’s grade, including the assignment of F for the course. When a course grade has been reduced to an F, the student may not drop the course or use the second-grade-only option to eliminate the failing grade.

At the beginning of each semester, course instructors individually announce and explain their policies on acceptable levels of collaboration between students on graded work, which includes homework assignments, and lab or design projects. When a policy is violated, a zero is assigned for the total portion of the course grade allocated to the requirement in which the violation occurs. The instructor sends a written report of any disciplinary action to the office of the dean and the report is placed in the student’s file. Students are notified by the office of the dean of any disciplinary action reported and are informed of appeal procedures.

**STUDENT COMPLAINTS CONCERNING FACULTY ACTIONS**

In cases where complaints do not involve alleged student academic misconduct, students with complaints against engineering faculty members first should attempt to resolve the issue with the faculty member; see Informal Procedure for Student Complaints Concerning Faculty Actions on the college’s web site. Lacking a satisfactory outcome, the student should discuss the matter with the chair of the faculty member’s department.

Students who are uncomfortable dealing directly with a faculty member or a department chair may seek assistance from the engineering faculty ombudsperson when attempting to resolve a complaint related to an engineering course. Students taking non-engineering courses should seek assistance from the University ombudsperson. However, grievances generally can be satisfactorily resolved most expeditiously at the faculty or chair level. If students are not satisfied with the outcome of this procedure, they should discuss their complaints with the dean of engineering.

**Student Organizations**

The College of Engineering student body is represented by the Engineering Student Council. The council plans and carries out activities involving the entire college, including the electronic newsletter E-Week. Several engineering professional societies have student chapters at the University, as do a number of engineering honor societies. In addition, students may join a wide variety of engineering student organizations. See "Student Organizations" in the College of Engineering (p. 729) section of the Catalog or visit Engineering Student Organizations on the college’s web site.

Richard McLay

Associate professors

Adjunct associate professors
Anneliese D. Heiner, Prem Ramakrishnan, James W. Devocht, Jessica Goetz, Ram R. Gudavalli, Sarah Vigmostad, Yi Xing

Adjunct assistant professors
Junfeng Guo, Douglas R. Pedersen, Joel Pickar, Merryn Tawhai, R.T. Marler

Assistant professors
Nathan Fethke, Fiorenza Ianzini, Hans Johnson, William R. Lynch, James Martin, Salem Rahamatalla, Ed Sander, Jessica Sieren, Steven Stasheff, David A. Stoltz, Kai Tan, Sarah Vigmostad, Yi Xing

Adjunct assistant professors
James W. Devocht, Jessica Goetz, Ram R. Gudavalli, Anneliese D. Heiner, Prem Ramakrishnan

Adjunct instructors
Thakir Almomani, Tom Bair, Hyunggun Kim

Lecturer
Nicole Kallemeyn

Undergraduate major: biomedical engineering (B.S.E.)
Graduate degrees: M.S. in biomedical engineering; Ph.D. in biomedical engineering

Web site: http://bme.engineering.uiowa.edu/

Undergraduate Program

• Major in biomedical engineering (Bachelor of Science in Engineering)

The department provides undergraduate students with a contemporary education in a multidisciplinary field of engineering. Its objective is to produce graduates who:
• have the ability to identify, formulate, and solve open-ended problems with medical relevance, including the design of devices, systems, and processes to improve human health;
• are able to pursue a wide range of career options, including those in industry, academia, and medicine; and
• are able to advance to leadership positions in their chosen field.

Students who complete the program may pursue career opportunities in biomedical industries, such as design and development of biomedical instrumentation, diagnostic aids, life-support systems, prosthetic and orthotic devices, and man-machine systems; or they may pursue traditional career opportunities in industry, such as those rooted in mechanical or electrical engineering disciplines. Other career options are available in government (Food and Drug Administration, Environmental Protection Agency, National Institutes of Health, Veterans Affairs). Some biomedical engineering graduates elect to continue formal education in engineering, medicine, or law.

Bachelor of Science in Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in biomedical engineering builds on the foundation provided by the B.S.E. core requirements, preparing students for the challenges and opportunities associated with careers in the profession.

The program has been designed carefully to enable students to satisfy the entrance requirements of the Graduate (p. 808) College. Students whose choice of electives includes a three-course sequence in organic chemistry, an additional biology course, and a biochemistry course may satisfy entrance requirements of the Carver College of Medicine (p. 912), the College of Dentistry (p. 622), or the allied health sciences.

All engineering students complete the B.S.E. core requirement, which include 010:003 (RHET:1030) Rhetoric; 059:005 (ENGR:1100) Engineering Problem Solving I and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, and engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information

students participate actively with college faculty members and their colleagues in the life and health sciences on projects of mutual interest.
about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Biomedical engineering students must choose a track, which constitutes the elective focus area for the biomedical engineering major. They may choose one of seven preapproved tracks—bioinformatics, biomaging, biomaterials, cardiovascular biomechanics, cellular engineering, musculoskeletal biomechanics, or pre-medicine—or they may propose a track that they have tailored to their own individual biomedical engineering interests. Each approved track has a group of four required courses and a list of suggested electives. For details about tracks and their requirements, visit Tracks on the department’s web site.

The following study plan includes the B.S.E. core requirements and the curriculum for the biomedical engineering major. Some courses in this plan are prerequisites for others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

**FIRST YEAR**

**First Semester**
- 004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
- 059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree) 1 s.h.

**Second Semester**
- 004:012 (CHEM:1120) Principles of Chemistry II 4 s.h.
- 029:081 (PHYS:1611) Introductory Physics I 3 s.h.
- 051:090 (BME:1010) First-Year Forum 1 s.h.
- 059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.

**SECOND YEAR**

**First Semester**
- 002:010 (BIOL:1402) Principles of Biology I 4 s.h.
- 059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
- 059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
- 059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.
- 051:091 (BME:2010) Professional Seminar: Biomedical Engineering 1 s.h.

**Second Semester**
- 027:130 (HHP:3500) Human Physiology 3 s.h.
- 051:050 (BME:2500) Biomaterials and Biomechanics 4 s.h.
- 051:060 (BME:2200) Systems, Instrumentation, and Data Acquisition 4 s.h.
- 051:080 (BME:2210) Bioimaging and Bioinformatics 4 s.h.

**THIRD YEAR**

**First Semester**
- 029:082 (PHYS:1612) Introductory Physics II 3-4 s.h.
- 051:030 (BME:2110) Cell Biology for Engineers 3 s.h.
- 051:091 (BME:2010) Professional Seminar: Biomedical Engineering 3 s.h.
- 171:161 (BIOS:5110) Introduction to Biostatistics 3 s.h.

**Second Semester**
- 051:091 (BME:2010) Professional Seminar: Biomedical Engineering 1 s.h.
- Track prerequisites 6 s.h.
- Track electives 6 s.h.
- General education component course 3 s.h.

**FOURTH YEAR**

**First Semester**
- 051:085 (BME:4910) Biomedical Engineering Senior Design I 4 s.h.
- 051:092 (BME:3010) Leadership and Resourcefulness 1 s.h.

**Second Semester**
- 051:086 (BME:4920) Biomedical Engineering Senior Design II 4 s.h.
- Track electives 9 s.h.
- General education component course 3 s.h.

**Joint B.S.E./M.S.**

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for biomedical engineering undergraduate students who intend to earn an M.S. in biomedical engineering. B.S.E./M.S. students may take some graduate-level course work, attend the departmental graduate seminar, and work on a master’s thesis or research project while they are still undergraduates. They may count a limited amount of course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete course work for the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.50, and must submit a letter of application to the chair of the Department of Biomedical Engineering stating the intended area of specialization and the name of the proposed M.S. advisor.

**Graduate Programs**

- Master of Science in biomedical engineering (with or without thesis)
- Doctor of Philosophy in biomedical engineering

Graduate study in biomedical engineering prepares students to use contemporary methods at an advanced level during a professional career in engineering design, development, and research.
Each student’s course of study is based on individual background and career objectives, and sound academic practice. Department faculty members have teaching and research expertise in areas related to cardiovascular and fluid biomechanics, musculoskeletal biomechanics, biomaterials and tissue engineering, bioinstrumentation, biosystems, biomedical imaging, biological signal analysis, bioinformatics and computational biology, and other allied fields.

An individual program for each student may be developed from courses offered by the biomedical engineering department and other departments, especially mechanical engineering, electrical engineering, physiology, mathematics, and biological sciences. M.S. students who want a more general program may combine emphases, while those who want some specialization in a particular field can achieve their goals through the combination of departmental courses and appropriate electives from other departments of the College of Engineering and the University.

Ph.D. programs may center on any one of the previously described areas through the choice of appropriate course work and research topic.

Master of Science

The Master of Science program in biomedical engineering requires a minimum of 30 s.h. of graduate credit, with or without thesis. Students who choose the nonthesis program must earn at least 6 s.h. of credit in 200-level courses. Those who choose the thesis program may count no more than 6 s.h. of thesis research and writing credit toward the degree. The M.S. may be a terminal degree or a step toward the Ph.D.

A tentative plan of study for each student is determined through consultation with an advisor. An M.S. committee of at least three graduate faculty members, including at least two on the biomedical engineering faculty, is appointed by the dean of the Graduate College. The student’s plan of study is reviewed by the committee before the student has completed 18 s.h. of course work. The plan of study then is submitted for review to the department chair.

M.S. students must maintain a g.p.a. of at least 3.00 on a minimum of 30 s.h. of graduate work and must successfully complete the final examination administered by their committee.

M.S. students (thesis or nonthesis) must complete the following courses or their equivalents.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>027:130 (HHP:3500)</td>
<td>Human Physiology</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>171:161 (BIOS:5110)</td>
<td>Introduction to Biostatistics</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Advanced mathematics

Individual study plans should include as much advanced work as individual aptitude and previous preparation permit.

Doctor of Philosophy

The Doctor of Philosophy program in biomedical engineering requires a minimum of 72 s.h. of graduate work, including acceptable transfer credit. At least 42 s.h. must be earned in formal course work taken after the B.S. is awarded, and at least 12 s.h. must be earned for research and thesis. For students entering with an M.S., at least 18 s.h. of formal course work must be completed beyond the M.S., and at least 12 s.h. must be earned for research and thesis. Based on research progress, examination results, or other measures, the student’s graduate committee may require additional formal course work to strengthen perceived areas of weakness.

Ph.D. students must complete the following courses or their equivalents.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>027:130 (HHP:3500)</td>
<td>Human Physiology</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>171:161 (BIOS:5110)</td>
<td>Introduction to Biostatistics</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Admission to the Ph.D. program is conditional until students successfully complete a qualifying examination. The biomedical engineering faculty administers the exam and decides whether the student’s performance on it is adequate for admission to the Ph.D. program.

Admission to Ph.D. candidacy requires a g.p.a. of at least 3.25 on all graduate work done at The University of Iowa. Upon completion of the course work specified in the plan of study and with the required grade-point average and the advisor’s recommendation, students are admitted to the comprehensive examination by their committee.

Having satisfactorily completed these examinations, students usually have only to complete and defend their dissertation at the final examination. Requirements for the Ph.D. generally can be completed in about three years beyond the master’s degree.

Financial Support

Students are encouraged to apply for fellowships and assistantships. Contact the chair of the Department of Biomedical Engineering.

Facilities and Laboratories

Required Undergraduate Laboratories

Four dedicated undergraduate teaching laboratories are associated with the required and elective courses.
in biomedical engineering: Biomaterials Laboratory, Biomeasurements and Systems Laboratory, Biomechanics Laboratory, and Cell Biology for Engineers Laboratory.

BIOMATERIALS

The Biomaterials Laboratory is equipped to test varied properties of biomaterials, including hard and soft tissues and prostheses. The laboratory is used for biomaterials and senior design projects.

BIOMEASUREMENTS AND BIOSYSTEMS

The Biomeasurements and Biosystems Laboratory is equipped to measure biomedical variables of clinical and physiological interest, design and build electronic instrumentation, and conduct modeling experiments in physiology. It is used for 051:080 (BME:2210) Bioimaging and Bioinformatics, elective courses in biomeasurements and biological systems analysis, senior design projects, and demonstrations in 051:030 (BME:2110) Cell Biology for Engineers.

BIOMECHANICS

The Biomechanics Laboratory is equipped to perform experiments in biological flow analysis and in human musculoskeletal systems. The laboratory houses a pulse duplicator for simulating physiological pulsatile flow, a flow visualization set-up to analyze flow past stenosis and aneurysms, blood pressure and flow measurement devices, digital still and video cameras for kinematic analysis, a ski binding tester, a drop tower for impact testing, a two-channel EMG amplifier system, and a table-top material testing machine. The laboratory is used for 051:050 (BME:2500) Biomaterials and Biomechanics, elective courses in cardiovascular and skeletal biomechanics, other elective courses, and senior design projects.

CELL BIOLOGY FOR ENGINEERS

The Cell Biology for Engineers Laboratory trains students in cell culture and biochemical analysis techniques as a foundation for future studies in quantitative cell-based studies. Students learn basic cell culture techniques, protein and nucleic acid analysis, adenovirus-mediated gene transfer techniques, microarray and analysis, and polymerase chain reaction (PCR) analysis of nucleic acids. They also are introduced to bioinformatics techniques used in cell biology. Major equipment in the lab includes laminar flow hoods, cell culture incubators, centrifuges, an ultracold freezer, protein and nucleic acid electrophoresis equipment, thermal cyclers, microscopes, an automated microplate reader, and varied support apparatuses used in cell-based studies. The lab is used for 051:177 (BME:5421) Cell Material Interactions.

Research Facilities and Laboratories

BIOINFORMATICS AND COMPUTATIONAL BIOLOGY LABORATORY

The Bioinformatics and Computational Biology Laboratory is wired for high-speed networking (10- and 100-megabit and gigabit ethernet, wired and wireless, and ATM). It includes five dedicated Linux clusters, 126 computing systems, 178 CPUs, more than 100 gigabytes of RAM, and 2.5 terabytes of disk space. Computer resources include a dedicated computer server cluster of 18 Linux systems (36 CPUs) connected with a dedicated, switched, fiber-optic Gigabit Ethernet intranet--18 Dual AMD MP-2400 (2.2 GHz, 2 GB memory, 40 GB disk each); second dedicated compute server cluster of 16 Linux systems (32 CPUs) connected with a dedicated, switched, fiber-optic Gigabit Ethernet intranet--12 Dual Pentium III (500 MHz, 1 GB memory, 9 GB disk each), and four Dual Pentium III (500 MHz, 2 GB memory, 9 GB disk each); and third dedicated compute cluster of nine Linux systems (18 CPUs) connected with a dedicated 2.4 GB multistage intranet--eight Dual Pentium III (866 MHz, .5 GB memory, 45 GB disk each), and one Dual Pentium III (866 MHz, 1 GB memory, 45 GB disk each). There are two additional clusters: an 8-node cluster of Pentium II class machines, and a 12-system heterogeneous cluster of various SUNs, HPs, and SGIs; four dedicated, dual fiber channel, redundant disk storage systems (RAID) 412 GB usable each. An additional 78 computers are used as compute servers, web servers, database servers, file servers, workstations, laptops, and for other developmental and experimental needs.

BIOMATERIALS LABORATORY

The Biomaterials Laboratory is equipped to characterize implant materials and biological tissues for their mechanical and thermal properties. Hard tissue histological slide preparations, for both microradiograph and optical, can be made for the study of interactions between bone and implant interactions. Metallographic sample preparations can be made and analyzed under optical microscopes.

The laboratory contains MTS (model 812) materials testing machine with recorder and controller; automatic data acquisition and process computer dedicated to the MTS machine; differential scanning calorimeter (Perkin-Elmer DSC-4 model); Omega x-ray generator with microradiographic attachment; Bronwill thin sectioning saw; Buehler Isomet thin sectioning saw; Buehler metallographic and petchographic grinding and polishing wheels; IR, polarizing, reflection research type microscopes; temperature-controlled bath; Lindberg tube furnace; strain gage attachment and measurement devices; videotape and play equipment; and conventional and vacuum oven with a diffusion pump.

CARDIOVASCULAR BIOMECHANICS LABORATORY

The Cardiovascular Biomechanics Laboratory houses an EMS Whitest uniaxial tension/compression testing system, a pulse-duplicating apparatus with flow loop, a spectrophotometer, silicone prototype fabrication utilities, high-speed/high-resolution cameras, a Sun Solaris workstation, and personal computers. The lab is equipped for soft tissue tensile/compression testing and viscoelastic creep/relaxation testing; simulation of flow through fabricated, anatomically realistic, patient-specific models of vasculature and heart valves; quantification of protein content in soft tissues; fabrication of realistic, compliant prototypes of human organs; and computational modeling of hemodynamics and tissue mechanics of normal and pathological cardiovascular organs.

IOWA SPINE RESEARCH CENTER BIOMECHANICS LABORATORY

The Iowa Spine Research Center Biomechanics Laboratory is fully equipped to perform studies of tissue and/or specimen response to mechanical loads. An MTS Bionix machine (with extended columns) servohydraulic testing machine permits application of uniaxial tension or compression in concert with axial torsion under displacement (rotation) or load control. In addition, the laboratory has a large base plate with T-slots, grips, an
environmental chamber, and an independent controller with specialized test control and data acquisition and analysis routines.

An MTS Model 810 servohydraulic testing machine permits uniaxial tension or compression under displacement, load, or strain control. A bank of fatigue testing machines is planned.

An apparatus for testing spinal motion segments for their balance point and buckling behaviors also is available.

JOLT/VIBRATION/SEATING LABORATORY

The Jolt/Vibration/Seating Laboratory is equipped for investigation of the biomechanics of the spine, particularly problems related to low back pain due to the interaction between people and equipment in jolt (impact) and vibration environments. Three shakers are available to simulate impact and vibration environments.

Human responses are measured using equipment including load cells, electromyography, accelerometry, position sensors, and pressure pads. Portable sensors and data recorders are used to evaluate impact and vibration environments in the field and compare them to domestic and international guidelines and standards.

LARGE-SCALE DIGITAL CELL ANALYSIS LABORATORY

The Large-Scale Digital Cell Analysis Laboratory is involved in development of the large-scale digital cell analysis system (LSDCAS) and model-based approaches to problems of general biological interest. The facilities include the Real-Time Cell Analysis Laboratory, in the Seamans Center, with 10 Linux workstations, a Power Mac, printers, and scanners; and Real-Time Cell Analysis Data Center, also in the Seamans Center, with two Itanium servers (36 GB RAM/144 GB RAID storage), a fiber channel RAID storage system (2 terabytes), two dual-Pentium servers (2 MB RAM/36 GB disk storage), dual 30 amp/240 volt uninterruptible power supplies, 30-slot DL T tape library, fiber channel switch, fiber channel/SCSI bridge, rack-mount monitor/keyboard, and KVM switch.

The Quantitative Real-Time Cell Analysis Research Facility, located in the Medical Education and Research Facility, has a LSDCAS system consisting of three automated microscope systems capable of performing real-time single-cell analysis experiments, located in a dedicated darkroom to regulate illumination conditions. Each microscope system is controlled by a microcomputer interfaced to a digital camera and a microscope controller. This facility also includes a small tissue culture support laboratory containing a cell incubator, and access to tissue culture hoods, freezers, refrigerators, and other equipment. The Biomedical Research Laboratory, in the Medical Education Building, has a tissue culture hood, dual-chamber incubator, Coulter cell counter, protein and nucleic acid gel electrophoresis and blotting apparatus, refrigerators, freezers, and a variety of tools used for biochemistry, cell biology, and molecular biology.

ORTHOPAEDIC BIOMECHANICS LABORATORY

The Orthopaedic Biomechanics Laboratory occupies 20 rooms on the ground floor of Westlawn. It is configured primarily for macroscopic-level physical testing of musculoskeletal constructs (e.g., bones, articular joints, orthopaedic implants) and for corresponding computational modeling. The physical testing area includes a multipurpose wet lab, a multipurpose dry lab, a surgical preparation room, a mechanical testing room, a machine shop, and a specimen storage area. The computational modeling area is arranged around eight separate workstation seats in two adjoining partially partitioned areas. Adjacent to these core operational areas are offices for faculty, research staff, students, and fellows; a secretarial/reception area; a conference room; and a library.

SPINE BIOMECHANICS AND ERGONOMICS LABORATORY

Located at University of Iowa Hospitals and Clinics, the Spine Biomechanics and Ergonomics Laboratory is equipped for investigation of the biomechanics of the spine, particularly problems related to production and treatment of low back pain. For example, electromyography equipment, accelerometry, a motion capture system, and a force plate are used to study response to sudden loads. A stadiometer is used to evaluate how varied activities affect shrinkage (creep) in the spine. A pressure pad is used to study interface pressures between people and chairs or beds.

SPINE RESEARCH LABORATORY

The Spine Research Laboratory is equipped for interdisciplinary research. The laboratory’s MTS Bionix (with extended columns) servohydraulic testing equipment permits application of uniaxial tension or compression together with axial torsion under displacement or load control. The laboratory also has a fully automated 3-D motion measuring system. These devices are used to test mechanical properties of biomechanical joints and tissues, and for biomechanical evaluation of the performance of surgical treatment modalities. Other equipment includes digital cameras, surgical tools, and sensors (i.e., LVDTs, six-degrees-of-freedom load cell, pressure transducers, digital inclinometers).

A biaxial biomechanical culture system is available for application of controlled compression and/or shear forces onto the intervertebral disc during culture, in order to investigate the disc’s biological responses to mechanical loads. This culture system is used in conjunction with an incubator in which cells and tissues can be cultured. Basic equipment for histology and immunohistochemical analyses includes a microtome, ovens, a microscope, and glassware for chemical processes.

TISSUE ENGINEERING LABORATORY

The Tissue Engineering Laboratory is outfitted with a fume hood, sink, laboratory counters, tables, and major tissue culture equipment, including a Baker SG3 laminar flow hood, a NuAir water jacked incubator, an autoclave, a vacuum pump, a Zeiss Axiovert S-100 phase contrast and bright field microscope with a computer interface, computer-controlled peristaltic pumps, a computer-controlled water bath, and a refrigerator and freezer.

The inverted microscope has an image capture system interfaced to a computer workstation with image processing software. A variety of sensors for performing temperature, pressure, and flow measurements also are available. The laboratory’s computers are equipped with software for graphical, numerical, image analysis, word processing, and symbolic computation. Liquid nitrogen dewars, and CO2 and N2 tanks have been installed. An Ussing chamber with electrodes and a high impedance Keithley electrometer also are available.
Courses

Special Topics

**051:000 (BME:0000) Cooperative Education Training Assignment: Biomedical Engineering**

Biomedical engineering students participating in the Cooperative Education Program register for this course during work assignment periods; registration provides a record of participation in the program on the student’s permanent record. Requirements: admission to Cooperative Education Program.

**051:002 (BME:0002) Half-time Cooperative Education Training Assignment: Biomedical Engineering**

Registration for work assignment periods; for students participating in the Cooperative Education Program.

**051:029 (BME:1100) First-Year Seminar**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**051:030 (BME:2110) Cell Biology for Engineers**

Introduction to fundamental concepts in quantitative cell biology from an engineering perspective. Prerequisites: 002:010 (Biol:1402). Corequisites: 027:130 (HHP:3500), if not taken as a prerequisite.

**051:050 (BME:2500) Biomaterials and Biomechanics**

Introduction to mechanics and materials in biological systems; principles of mechanics (stress, strain, motion, fluid flow) presented and used to characterize behavior of biological entities (tendon/ligament, bone and cartilage, blood, blood vessels, heart); principles of material science; role of biomaterials (metals, polymers, ceramics) in medical devices. Prerequisites: 059:007 (ENGR:2110). Corequisites: 027:130 (HHP:3500).

**051:060 (BME:2200) Systems, Instrumentation, and Data Acquisition**

Introduction to linear system theory and application, including convolution, Laplace Transform, transient analysis, sinusoidal steady-state analysis, and Fourier analysis; patient safety; acquisition and analysis of data collected from living systems, including concepts of analog circuit design with emphasis on operational amplifiers, active filters, clinical circuits, Nyquist concepts and digital conversion, and interface to computers; physics, acquisition, and analysis of medical images, especially those collected from X-ray, CT, MR, and ultrasound systems. Prerequisites: 059:006 (ENGR:1300) and 059:008 (ENGR:2120). Corequisites: 027:130 (HHP:3500).

**051:062 (BME:2700) Design for Manufacturing**

Fundamentals of design, engineering graphics, and manufacturing processing; computer graphics using Pro/ENGINEER for CAD and CAM; applications of engineering drawing, fabrication, prototyping, and assembly processes (machining, casting, welding, forming); prototype fabrication using additive manufacturing techniques; next generation manufacturing and design tools (BioCAD, biomanufacturing); engineering design, computer graphics, computer-aided design (CAD), engineering materials, traditional and nontraditional manufacturing techniques, numerically controlled machine tools, rapid prototyping, process planning, biomanufacturing, electronics manufacturing, MEMS, and automation; laboratory exercises and projects. Corequisites: 057:015 (ENGR:2720). Same as 058:032 (ME:2032), 056:032 (IE:2032).

**051:063 (BME:2710) Engineering Drawing, Design, and Solid Modeling**

Introduction to methods and principles used by engineers to define and describe geometry and topology of engineered components; use of Parametric Technology's Creo Pro (formerly ProEngineer) 3-D CAD software; emphasis on elements of design; basic commands used in parametric design to develop spatial visualization skills and the ability to create and understand 3-D solid parametric design for assembly and 3-D drawing documentation; creation of 3-D assemblies and detailed drawings from art of design to part, utilization of solid modeling techniques. Prerequisites: 059:007 (ENGR:2110).

**051:080 (BME:2210) Bioimaging and Bioinformatics**

Introduction to bioinformatics and biomedical imaging, including computer algorithms, machine learning, databases and SQL, the web and web servers, ethics, computer security, genome technology, public warehouses of biological data; medical imaging hardware and software for the acquisition and analysis of medical images, especially those collected from X-ray, CT, MR, and ultrasound systems; medical imaging system physics, including the interaction of energy with tissue, concepts of image spatial and temporal resolution; applications of filtering, enhancement, and image processing for the analysis of medical images. Prerequisites: 059:006 (ENGR:1300). Corequisites: 027:130 (HHP:3500).

**051:085 (BME:4910) Biomedical Engineering Senior Design I**

Individual or group work on a creative design project involving current problems in biomedical engineering; interdisciplinary projects involving biomedical engineering and health sciences faculty members; first semester of a year-long senior capstone design project. Prerequisites: 051:030 (BME:2110), 051:050 (BME:2500), 051:060 (BME:2200), and 051:080 (BME:2210). Requirements: senior standing.

**051:086 (BME:4920) Biomedical Engineering Senior Design II**

**051:090 (BME:1010) First-Year Forum**

Presentations by faculty, graduate students, collaborators from the Carver College of Medicine, and Colleges of Dentistry and Law; may include visits to laboratories and industries.

**051:091 (BME:2010) Professional Seminar: Biomedical Engineering**

Professional aspects of biomedical engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Requirements: sophomore or higher standing.

**051:092 (BME:3010) Leadership and Resourcefulness**

Development of leadership skills and resourcefulness for real-world professional work and life. Requirements: completion of six semesters of 051:090 (BME:1010) and 051:091 (BME:2010) combined.

**051:093 (BME:4010) Biomedical Engineering Design Seminar**

Information and presentations about possible projects; mentors available for senior design projects. Requirements: junior standing.
051:098 (BME:3998) Individual Investigations: Biomedical Engineering
Individual projects for biomedical engineering undergraduate students, such as laboratory study, engineering design projects, analysis and simulation of an engineering system, computer software development, research.

051:121 (BME:3310) Introduction to Bioinformatics 4 s.h.
Basics of genetics and molecular biology; overview of bioinformatics and genome science, including genome projects, functional genomics, phylogenetics, proteomics, microarrays, DNA polymorphisms, data-mining algorithms; experimental methods, analytical approaches. Requirements: 002:128 (BIOL:2512) or 099:120 or graduate standing. Same as 002:169 (BIOL:3213), 055:121 (ECE:3213).

051:122 (BME:5330) Computational Genomics 3 s.h.
Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Same as 002:174 (BIOL:5320), 127:173 (GENE:5173), 055:122 (ECE:5220).

051:123 (BME:5320) Bioinformatics Techniques 3 s.h.
Informatics tools and techniques applied to modern problems in biomedicine and basic life sciences; common tools, experience applying tools in contemporary problem settings; genomics and genetics, how to sequence a genome, transcription and expression, SNPs, Perl, BioPerl, Perl modules, Ensembl API, BLAST/BLAT, NCBI, UCSC, Ensembl Genome browsers, linkage, association, disease gene identification. Requirements: 002:081 (BIOL:1311) and 059:009 (ENGR:2130), or graduate standing.

051:125 (BME:5340) Contemporary Topics in Network Biology 3 s.h.
Fundamentals of biological network analysis; focus on protein-protein interaction, regulatory, genetic interaction networks; principles of systems biology and biological networks, experimental methods and analytical approaches for specific networks side-by-side in detail; current emerging research areas in the field of systems biology; suitable for upper-level undergraduates and graduate students with background in biology, computer science, applied mathematics, statistics, physics, or engineering. Prerequisites: 051:121 (BME:3310) or 127:170 (GENE:6170) or 002:170 (BIOL:4213), and 051:122 (BME:5330). Recommendations: knowledge in molecular cell biology and a programming language (i.e., Perl, Matlab, R, C).

051:126 (BME:5325) Introduction to Systems Biology 3 s.h.
How higher-level properties of complex biological systems arise from the interactions among their parts; fundamentals of biological network analysis with focus on protein-protein interaction, regulatory, and genetic interaction networks; principles of systems biology and biological networks; experimental methods and analytical approaches for specific networks; current emerging research areas in the field of systems biology; didactic lectures and case-study projects. Prerequisites: 051:121 (BME:3310) or 127:170 (GENE:6170) or 002:170 (BIOL:4213), and 051:122 (BME:5330). Recommendations: senior standing; or upper-level undergraduate or graduate standing with background in biology, computer science, applied mathematics, statistics, physics, or engineering.

051:132 (BME:4110) Principles of Regenerative Bioengineering 3 s.h.
Embryonic, fetal, and adult sources, human and non-human "stemness" of cells; references to biomaterials (i.e., those designed to direct organization, growth, and differentiation of cells in the process of forming functional tissue by providing physical and chemical cues); biomarkers and nano-medicine; promises of bioinformatics in support tissue engineering, gene and protein sequencing, gene expression analysis, protein expression, and interaction analysis. Prerequisites: 002:010 (BIOL:1402), Corequisites: 027:130 (HH:3500). Recommendations: 051:030 (BME:2110).

051:133 (BME:4120) Advanced Cell Biology for Engineers 3 s.h.
Introduction to techniques and quantitative analysis used in cell biology, taught from cell engineering perspective; focus on isolation, intracellular localization, and determination of mRNA levels of specific cellular proteins; analyze resulting data and interpret reliability of results; primarily a laboratory course. Prerequisites: 002:010 (BIOL:1402), 027:130 (HH:3500), and 051:030 (BME:2110). Corequisites: 171:161 (BIOS:5110).

051:134 (BME:4111) Fundamentals of NanoScale Technologies in Regenerative Bioengineering 1 s.h.
Nanotechnology as an emerging field in the quest to better and more affordable health care; experimentation and development of new materials that benefit regenerative medicine; targeted drug delivery and enhanced tissue engineering as a priority in pursuit of new approaches in tissue and organ transplantation; state-of-the-art new technologies applied to role of stem cells and biomedical engineering in future health care; seminar with reading and comments of significant journal articles in the field. Prerequisites: 051:132 (BME:4110).

051:136 (BME:4112) Methods in Regenerative Bioengineering and NanoScale Technology 3 s.h.
Nanotechnology as an emerging field in the quest to better and more affordable health care; experimentation and development of new materials that benefit regenerative medicine; targeted drug delivery and enhanced tissue engineering as a priority in pursuit of new approaches in tissue and organ transplantation; state-of-the-art new technologies applied to role of stem cells and biomedical engineering in future health care.

051:162 (BME:5710) Digital Human Modeling and Simulation 3 s.h.
Fundamentals of using computational methods in modeling, simulating, and animating articulated kinematic chains such as robots and humans; underlying mathematics, introductory concepts in kinematics and dynamics, serial chain kinematics and multibody dynamics; methods from kinematics and dynamics, coupled with biomechanical concepts, provide an integrated approach to predicting and analyzing serial link motion (e.g., human and robotic manipulator motion). Prerequisites: 057:010 (ENGR:2710). Same as 058:136 (ME:5130).

051:178 (BME:5910) Fast-Track Biomedical Engineering Design 1-A 3 s.h.
Part A of first semester of year-long senior capstone design project; individual or group design project involving biomedical engineering problems. Prerequisites: 051:050 (BME:2500), 051:060 (BME:2200), and 051:080 (BME:2210). Corequisites: 051:180 (BME:5911). Requirements: senior standing.

051:179 (BME:5920) Fast-Track Biomedical Engineering Design 2-A 3 s.h.
051:180 (BME:5911) Fast-Track Biomedical Engineering Design 1-B
Part B of first semester of year-long senior capstone design project; individual or group project involving biomedical engineering problems. Corequisites: 051:178 (BME:5910).

051:183 (BME:5921) Fast-Track Biomedical Engineering Design 2-B

051:192 (BME:5020) Seminar in Bioinformatics
1 s.h.
Forum for research presentations by scientists with national and international prominence; broad range of research topics in bioinformatics, genomics, and high-throughput biology, sponsored by the NIH T32 Bioinformatics Predoctoral Training Program at The University of Iowa.

051:225 (BME:6310) Contemporary Topics in Bioinformatics
3 s.h.
Next-generation sequencing technology and design, next-generation sequencing analysis and algorithms, contemporary topics in bioinformatics, genetics of disease (visual system as a model) and genetic engineering; grant writing. Recommendations: 051:123 (BME:5320) or advanced programming skills and understanding of DNA.

051:236 (BME:6120) Advanced Topics in Regenerative Bioengineering and NanoScale Biotechnology
3 s.h.
Continuation of 051:132 (BME:4110), with in-depth examples and approaches: development of organs through stem cells maturation and differentiation, complemented by biomedical applications; fundamental concepts of stem cell biology applied to modern technology; reference to biomaterials (those designed to direct the organization, growth, and differentiation of cells); concept of biomarkers and nanomedicine, based on the notion that new materials can be engineered to not interfere with normal biological conditions and unique enough to be detected non-invasively with modern diagnostic instruments (CT, MRI, and Echo). Prerequisites: 051:030 (BME:2110) or 051:132 (BME:4110).

Biomaterials

051:168 (BME:5415) Polymer Fundamentals
1 s.h.
Basic knowledge of polymers required as a foundation for other UI courses on polymers: basic polymer terminology, polymer groups, polymerization mechanisms, molecular weight determination. Five weeks. Same as 052:140 (CBE:5309).

051:169 (BME:3450) Polymers as Biomaterials
2 s.h.
Structure-property relationships and in vivo and in vitro performances of polymers used to manufacture implants and other devices.

051:170 (BME:5401) Biomaterials and Implant Design
3 s.h.
Introduction to material and mechanical considerations underlying a broad range of medical implants with emphasis on understanding the factors involved in orthopaedic device design; major classes of biomaterials; considerations that underlie implant design, use, and failure; and contemporary areas of biomaterials and implant development. Prerequisites: 057:019 (ENGR:2750) and 051:050 (BME:2500).

051:173 (BME:5420) Metals as Biomaterials
3 s.h.
Property-structure relationship of metals used to fabricate implant materials; their interactions in vivo.

051:176 (BME:5440) Biomaterials Laboratory
3 s.h.
Practical experience in design, fabrication, and testing of biomaterials and devices; mechanical testing, tissue response, design to optimize response. Prerequisites: 051:070. Requirements: basic understanding of materials.

051:177 (BME:5421) Cell Material Interactions
3 s.h.
Current thought and techniques in the engineering and assessment of biomaterials. Prerequisites: 027:130 (HHP:3500), 051:030 (BME:2110), and 051:050 (BME:2500).

051:215 (BME:6410) Interfacial Engineering for Biological Systems
3 s.h.
Survey of current literature on interfacial engineering for biomedical engineering; student presentation and discussion of articles. Requirements: organic or polymer chemistry.

051:259 (BME:6110) Mechanics of Cells and Cellular Systems
3 s.h.
Mechanics of cells; focus on cellular mechanical properties, responses to mechanical stimuli, cellular forces and measurement, and computational tools; cellular environment considered with implication to disease pathologies and medical device design considerations.

Biomechanics/Biofluids

051:150 (BME:5610) Musculoskeletal Biomechanics
3 s.h.
Principles of solid mechanics applied to analytical, experimental investigation of biological systems; emphasis on applications in kinesiology of human musculoskeletal system. Prerequisites: 057:019 (ENGR:2750). Requirements: graduate standing.

051:151 (BME:5660) Intermediate Mechanics of Deformable Bodies
3 s.h.
Application of equilibrium analyses, strain-displacement relations, and constitutive relationships to practical structural systems and elementary plane elasticity problems. Prerequisites: 057:019 (ENGR:2750). Same as 053:140 (CEE:5540), 058:150 (ME:5150).

051:152 (BME:5640) Ergonomics of Occupational Injuries
3 s.h.
Epidemiology, surveillance systems, ergonomics, biomechanics, physiology, psychology, legal aspects, and cost control. Prerequisites: 051:050 (BME:2500) or 051:150 (BME:5610).

051:154 (BME:5510) Cardiac and Vascular Mechanics
3 s.h.
Bio-solid mechanics of the cardiovascular system; mechanical properties of ventricles, valves, and blood vessels, their normal function, how they are affected by disease states; design of artificial organs, prostheses. Prerequisites: 057:019 (ENGR:2750).

051:155 (BME:5520) Cardiovascular Fluid Mechanics
3 s.h.

051:157 (BME:5620) Introduction to Applied Biomedical Finite Element Modeling
3 s.h.
Introduction to finite element modeling as applied to biomechanics-related applications. Prerequisites: 051:050 (BME:2500) and 057:019 (ENGR:2750). Corequisites: 058:115 (ME:4115).
051:159 (BME:5530) Design of Circulatory Implants and Artificial Organs 3 s.h.
Exploration of current innovations and new technologies; evaluation of various devices currently on the market from a standpoint of design variables and objectives (i.e., stents, heart valves, dialyzers, VADs, artificial organs); biomedical engineers' vital role in design and improvement of these implants. Prerequisites: 051:155 (BME:5520). Corequisites: 051:154 (BME:5510).

051:220 (BME:6630) Human Response to Vibration 3 s.h.
Exploration of the human body, a complex mechanism exposed to mechanical shock and vibration from many sources, under many conditions; interactions and applicable exposure standards, effects of whole-body and hand- or arm-vibration. Requirements: graduate standing in College of Engineering or College of Public Health.

051:253 (BME:6610) Spine Mechanics 3 s.h.
Biomechanics applied to mechanics of the human spine; clinical aspects; state-of-the-art in spine research; basic engineering principles for biomechanical analysis. Prerequisites: 051:150 (BME:5610).

051:255 (BME:6520) Advanced Biofluid Mechanics 3 s.h.
Hemodynamic theories of atherogenesis, Womersley models, steady and unsteady flows in curvature, bifurcation and branching arterial segments, flow dynamics past prosthetic implants, experimental and computational models, particulate and mass transport simulations in human circulation. Prerequisites: 051:155 (BME:5520).

051:256 (BME:6515) Advanced Biological Soft Tissue Mechanics 3 s.h.
Topics in vascular solid mechanics; study of vascular tissue from theoretical (constitutive modeling), experimental, and computational perspectives.

051:257 (BME:6620) FE Analysis in Orthopaedic Biomechanics 3 s.h.

051:260 (BME:6415) Advanced Biomechanics and Modeling of Soft Tissues 3 s.h.
This course will cover the application of continuum mechanics and modeling to the study of biological tissues and biomaterials.

Bioelectrical Engineering

051:141 (BME:5251) Advanced Biosystems 3 s.h.
Biological systems unique to systems analysis; operation under nonequilibrium conditions; tools for systems analysis developed from models of systems at equilibrium (i.e., mechanical systems); fundamental difference between biological and mechanical systems that impact systems analysis; expand knowledge of linear systems and begin work with nonlinear systems; various modeling and analysis approaches useful in biomedical and biomedical engineering research. Prerequisites: BME:2200 (051:060 (BME:2200)), BIOL:1402 (002:010 (BIOL:1402)), and MATH:2560 (22M:034 (MATH:2560)).

051:148 (BME:5220) Digital Image Processing 3 s.h.
Mathematical foundations and practical techniques for digital manipulation of images; image sampling, compression, enhancement, linear and nonlinear filtering and restoration; Fourier transform analysis; image pre-processing, edge detection, filtering; image segmentation. Prerequisites: 051:040 or 055:040 (ECE:2400), and 051:060 (BME:2200) or 055:043 (ECE:3400). Same as 055:148 (ECE:5480).

051:182 (BME:5200) Biomedical Signal Processing 3 s.h.
Application of signal processing methods (e.g., Fourier, Laplace, z-transforms) to biomedical problems, such as analysis of cardiac signals, circadian rhythm, the breathing cycle; computer simulation lab. Prerequisites: 051:060 (BME:2200).

051:185 (BME:5210) Medical Imaging Physics 3 s.h.
Physics and data acquisition techniques of major medical imaging modalities (X-ray, CT, MR, ultrasound, PET, SPECT); physical interactions of energy with living tissue; principles and methods for acquiring imaging data and subsequent image construction; how individual modalities influence image quality; MATLAB programming required. Second in a medical imaging sequence. Prerequisites: 051:060 (BME:2200) and 051:080 (BME:2210). Requirements: background in physics, computers, and anatomy or biology or physiology.

051:186 (BME:5230) Multidimensional Medical Imaging Process 3 s.h.
Algorithms developed to process and analyze large volumetric data sets; physics of CT, MRI, ultrasound, 3-D convolution and filtering, geometric transformations, shape features, surface segmentation, regional segmentation, surface tiling, surface reconstruction, volumetric registration. Third in a medical imaging sequence. Prerequisites: 057:017 (ENGR:2730).

051:187 (BME:5250) Health Informatics I 3 s.h.

051:189 (BME:5252) Health Informatics II 3 s.h.
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 074:192 (RSNM:5301), 096:289 (NURS:5301), 056:287 (IE:5870), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

051:280 (NSCI:6280) Functional Magnetic Resonance Imaging 2-3 s.h.
Basic physics principles of functional magnetic resonance imaging and approaches to data acquisition, including BOLD imaging, arterial spin labeling, and magnetic source imaging; data analysis strategies; paradigm design and development. Same as 132:250 (NSCI:6250).

051:287 (BME:6220) Insight into Images 3 s.h.

Graduate Seminars, Advanced Topics, Research

051:191 (BME:5010) Seminar in Biomedical Engineering 0 s.h.
Presentation of recent advances in biomedical engineering. Requirements: graduate standing.

051:198 (BME:5998) Individual Investigations: Biomedical Engineering 0 s.h.
Individual projects for biomedical engineering graduate students, such as laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

051:199 (BME:5999) Research: Biomedical Engineering M.S. Thesis 0 s.h.
Experimental and/or analytical investigation of an approved topic for partial fulfillment of the requirements for the M.S. with thesis in biomedical engineering. Requirements: graduate standing.
051:298 (BME:7998) Advanced Individual Investigations in Biomedical Engineering
Advanced individual projects such as laboratory study, engineering design projects, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

051:299 (BME:7999) Research: Biomedical Engineering Ph.D. Dissertation
Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for Ph.D. with thesis in biomedical engineering.
Chemical and Biochemical Engineering

Chair
C. Allan Guymon

Professors
Gregory R. Carmichael, Vicki Grassian, C. Allan Guymon, Stephen K. Hunter, Lee Kirsch, David W. Murhammer, Tonya L. Peeples, David G. Rethwisch, Alec B. Scranton, Venkiteswaran Subramanian

Professor emeritus
J. Keith Beddow

Associate professors
Gary Aurand, Chris Coretsopoulos, Umran Dogan, Julie L.P. Jessop, Aliasger Salem, Charles Stanier

Assistant professors
Jennifer Riegel, Eric Nuxoll

Lecturer
Audrey Butler

Undergraduate major: chemical engineering (B.S.E.)
Graduate degrees: M.S. in chemical and biochemical engineering; Ph.D. in chemical and biochemical engineering
Web site: http://www.cbe.engineering.uiowa.edu/

Chemical and biochemical engineers combine engineering principles with knowledge of mathematics and specific sciences—chemistry, the biological sciences, and physics—to develop and operate processes that convert raw materials into products that benefit society. For example, biochemical engineers might develop and operate processes to convert switchgrass into biofuels or to mass produce an antibiotic.

Chemical and biochemical engineers engage in a wide variety of activities that benefit the global community. Fuel cells, solar energy, and biorenewable fuels (e.g., biodiesel or ethanol) fall within the realm of chemical engineering. Chemical engineering distinguishes itself from other engineering professions with its reliance on chemical reactions and physicochemical transformations to produce a wide variety of important materials and products.

Biochemical engineers are involved in a wide variety of industrial biocatalytic, fermentation, and cell culture processes that generate products ranging from the high fructose corn syrup in soft drinks to recombinant human insulin.

As part of their training, chemical and biochemical engineers learn ethical design and a respect for the larger issues in any design, such as community health, employee safety, and the global implications of the design. The University of Iowa’s curriculum emphasizes chemical process safety and environmentally conscious chemical engineering design.

Chemical and biochemical engineers work in a wide range of industries, including petroleum and specialty chemical production, polymer and plastic production, food processing, microelectronics production, pharmaceutical production, biochemical processing, and environmental compliance. Potential jobs include production, process development, plant design and construction, and fundamental research. Many experienced chemical and biochemical engineers move through management ranks to high-level administrative positions.

Undergraduate Program

• Major in chemical engineering (Bachelor of Science in Engineering)

The undergraduate program in chemical engineering produces graduates who have a strong foundation of scientific and technical knowledge and are equipped with problem solving, teamwork, and communication skills that will serve them throughout their careers. The program’s educational objectives are to produce graduates who:

• pursue careers as practicing chemical engineers in fields such as pharmaceuticals, microelectronics, chemicals, polymers/advanced materials, food processing, energy, or environmental engineering;

• pursue advanced studies in disciplines such as chemical engineering, environmental engineering, medicine, law, or business; and

• assume professional leadership roles.

The program uses the following methods and strategies to achieve its educational objectives:

• foster a personalized, supportive environment for all students by taking advantage of the unique combination of a small college atmosphere in a major research university;

• enrich the undergraduate experience through cultural diversity, international opportunities, and experiential learning;

• provide a solid foundation and understanding of the fundamental principles of mathematics, science, and engineering;

• provide students with experience in learning and applying tools (e.g., computer skills) to the solution of theoretical and open-ended chemical engineering problems;

• provide students with opportunities to participate in multidisciplinary teams, and to develop and practice written and oral communication skills, both within the team and to a broader audience;

• provide students with opportunities to design and conduct chemical engineering experiments, and to design systems, components, and chemical processes to meet specific needs and constraints; and

• provide a contemporary grounding in professional responsibility, including ethics, the global and societal impact of engineering decisions, and the need for lifelong learning.

Bachelor of Science in Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in chemical engineering provides a broad education at the leading edge of technology. It emphasizes fundamental concepts, problem solving, laboratory techniques, and communication skills. The biological sciences join physics, chemistry, and mathematics as foundation disciplines for chemical engineering.
All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric; 059:005 (ENGR:1100) Engineering Problem Solving I and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Seminars do not count toward the 128 s.h. required for the degree.

For chemical engineering students, the sophomore, junior, and senior years emphasize chemical engineering courses such as process calculations, engineering flow and heat exchange, chemical engineering thermodynamics, mass transfer and separations, chemical reaction engineering, chemical process safety, chemical engineering laboratories, biochemical engineering, process dynamics and control, and process design. Experience in instrumentation, analysis, and design is obtained through an integrated laboratory program. Routine use is made of computer-based data analysis, simulation, and design.

Students are required to participate in at least one enriching activity, which may include a research experience, a cooperative education or internship experience, study abroad, completion of the Certificate in Technological Entrepreneurship, or other approved experiences.

Chemical engineering students may gain depth of knowledge related to a career path through their selection of science, engineering, humanities, and social science electives. Several preapproved elective focus areas may help students define potential careers.

Students must select elective focus area courses according to guidelines established by the Department of Chemical and Biochemical Engineering. See “Elective Focus Area” after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the chemical engineering major. Some courses in this plan are prerequisites for others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

**FIRST YEAR**

**First Semester**

- 004:011 (CHEM:1120) Principles of Chemistry II 4 s.h.
- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
- 059:090 (ENGR:1000) Engineering Success Seminar for First Year Students (credit does not count toward B.S.E. degree) 1 s.h.

**Second Semester**

- 004:012 (CHEM:1120) Principles of Chemistry II 4 s.h.
- 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
- 029:081 (PHYS:1611) Introductory Physics I 4 s.h.
- 052:090 (CBE:1000) CBE Departmental Seminar 1 s.h.
- 059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.

**SECOND YEAR**

**First Semester**

- 052:041 (CBE:2105) Process Calculations 3 s.h.
- 059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
- 059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
- 059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.
- General education component course 3 s.h.

**Second Semester**

- 004:121 (CHEM:2210) Organic Chemistry I 3 s.h.
- 052:091 (CBE:3000) Professional Seminar: Chemical Engineering 1 s.h.
- 052:103 (CBE:3105) Chemical Engineering Thermodynamics 3 s.h.
- 052:151 (CBE:3110) Engineering Flow and Heat Exchange 3 s.h.
- General education component course 3 s.h.
- Statistics elective 3 s.h.

**THIRD YEAR**

**First Semester**

- 004:122 (CHEM:2220) Organic Chemistry II 3 s.h.
- 004:141 (CHEM:2410) Organic Chemistry Laboratory 3 s.h.
- 052:091 (CBE:3000) Professional Seminar: Chemical Engineering 1 s.h.
- 052:161 (CBE:3115) Mass Transfer and Separations 3 s.h.
- 052:171 (CBE:3150) Thermodynamics/Transport Laboratory 3 s.h.
- 057:015 (ENGR:2720) Materials Science 3 s.h.

**Second Semester**

- 052:091 (CBE:3000) Professional Seminar: Chemical Engineering 1 s.h.
- 052:105 (CBE:3120) Chemical Reaction Engineering 3 s.h.
- 052:172 (CBE:3155) Chemical Reaction Engineering/ Separations Laboratory 2 s.h.
- 052:187 (CBE:3125) Chemical Process Safety 3 s.h.
- Elective focus area courses 6 s.h.
- General education component course 3 s.h.

**FOURTH YEAR**

**First Semester**

- 052:091 (CBE:3000) Professional Seminar: Chemical Engineering 1 s.h.
- 052:108 (CBE:5205) Introduction to Biochemical Engineering 3 s.h.
- 052:184 (CBE:4109) Chemical Engineering Process Design I 2 s.h.
opportunities for graduates are in research and development.

The department emphasizes research, since most opportunities for graduates are in research and development.

Graduate Programs

- Master of Science in chemical and biochemical engineering (with or without thesis)
- Doctor of Philosophy in chemical and biochemical engineering

Graduate students in the Department of Chemical and Biochemical Engineering gain an understanding of the principles of engineering science and use those principles in contemporary applications related to energy, the environment, biotechnology, and materials. The department emphasizes research, since most opportunities for graduates are in research and development.

Research and Study Areas

Current research strengths of the Department of Chemical and Biochemical Engineering are in the areas of global and regional atmospheric modeling, biomaterials medical engineering, cellular engineering, photopolymerization, biocatalysis, and biofuels.

BIOCHEMICAL ENGINEERING

Biochemical engineering involves the industrial application of enzymes, microorganisms, cells, and tissues for production of chemicals, pharmaceuticals, and other materials of commercial value.

The department is working to solve problems with the use of insect cell culture for recombinant protein and viral insecticide production. Research is being conducted to improve the quality and quantity of recombinant proteins produced in large-scale bioreactors. In addition, a continuous viral insecticide production system is being developed for the large-scale production of these environmentally safe alternatives to chemical insecticides. The insect cell/baculovirus system is being used as a model system to investigate the role of oxidative stress in viral cytotoxicity.

Carbon dioxide accumulation, which commonly occurs in large-scale bioreactor systems, affects insect cell growth; the department’s researchers are investigating the corresponding effect on insect cell growth and the baculovirus infection process.

The department works to design technologies for the characterization and use of extremophiles, organisms that possess unusual abilities to survive in harsh chemical environments. In these studies, novel bioreactor systems that can withstand extremes of temperature, pressure, pH, and salinity are being developed. Extremophile strategies for survival also are being studied, with the aim of discovering unique enzymes for industrial application as well as evaluating molecular interactions that govern protein stability under extreme conditions.

In addition to the study of natural extremophiles, efforts to engineer stability in biocatalysts for industrial processing are under way. Novel solvent-tolerant enzymes and organisms for environmentally beneficial chemical reactions are being generated using molecular biology tools. Combinations of chemical and biological processing are being used to produce valued chemicals from renewable feedstocks. This work contributes to the interdisciplinary training of engineers and scientists to address the challenges of minimizing and cleaning up environmental pollution, while maximizing the economic benefits of chemical processing.

The department also conducts research in structural enzymology, molecular mechanisms of host-pathogen interactions, and biocatalysis. The laboratory uses biophysical, structural, and molecular biology techniques to understand the details of enzyme action. This information is used to design and engineer biocatalysts for the production of chiral compounds. Work also is under way on cellular recognition and signaling processing during infection and inflammation. Knowledge gained from these studies aids the design of drugs and biological sensors for bacterial presence.

The integration of biotechnology with traditional chemical engineering has led to an interdisciplinary area involving other engineering departments and the Departments...
of Chemistry, Biology, Biochemistry, Free Radical and Radiation Biology, and Microbiology and the College of Pharmacy. This focus includes involvement in the University’s Center for Biocatalysis and Bioprocessing, whose fermentation capabilities are highlighted by its 1,500-liter fermentor.

**BIOMEDICAL RESEARCH**

The department’s research involves a multidisciplinary approach to solving problems in the medical field, particularly in drug delivery and biomaterials. Researchers are working to develop safe delivery systems that target drugs precisely in the human body and avoid premature metabolism or elimination. To treat respiratory infections, micron-sized particles are being engineered with properties that enhance aerodynamic performance, particle stability, and targeting within the respiratory tract. Polymeric vehicles are being designed to provide sustained protection and prevention against cancers by kick-starting the immune system. Finally, work is under way to overcome barriers to efficient delivery of DNA, with the potential to provide cures for genetic disorders such as cystic fibrosis and X-Linked Severe Combined Immunodeficiency (X-SCID). This work brings together collaborators from the Carver College of Medicine, the Colleges of Dentistry and Pharmacy, and the Departments of Chemistry and Biomedical Engineering.

In the biomaterials realm, new materials are being developed that can interact with the human body to perform certain functions while maintaining compatibility. A project with the Department of Ophthalmology and Visual Sciences involves development of biodegradable stent materials to alleviate a serious eye disease induced by a blood clot in the central retinal vein. Research with the Department of Otolaryngology—Head and Neck Surgery is exploring the development of photo-patterned surfaces for directed growth of cells to improve cochlear implants. Current research in the tissue engineering field applies microfabrication techniques to develop scaffolds that are biodegradable and biocompatible with cell-interactive properties, and that directly incorporate controlled-release functionality within the scaffold.

The Department also conducts research that is focused on self-assembling systems, rational design of novel drug and gene delivery systems, and development of sophisticated scaffolds for tissue-specific regeneration. In tissue engineering, microfabrication techniques are applied to novel biomaterials to provide spatial control over tissue formation and to integrate minimally invasive scaffold delivery strategies. In drug and gene delivery, researchers are exploring the synergistic application of degradable particle technology, CpG oligonucleotides, and heat-shock protein therapy for generating sustained, stronger immune responses against carcinomas.

Students involved in animal research have access to the University’s Office of Animal Resources, which is adjacent to the University of Iowa Hospitals and Clinics.

**ENERGY AND ENVIRONMENT**

Chemical engineers are well-suited to make major contributions toward meeting challenges for the environment, energy, and sustainable development. The Department of Chemical and Biochemical Engineering has an active research program in the environmental areas of air pollution, biofuels, atmospheric chemistry, atmospheric CO2 fluxes, environmental change, bioremediation, and the design of new environmentally compatible technologies. Particular emphasis is placed on the chemistry and physics of local, regional, and global air-pollution problems. Research in support of this activity includes high-speed computing and detailed sensitivity analysis.

This work involves three centers and institutes on campus. The Center for Global and Regional Environmental Research brings together University scientists and scholars from more than 20 disciplines, including chemistry, civil and environmental engineering, geography, geology, law, and medicine. The center’s chief area of concern is environmental change. Chemical and biochemical engineering researchers interact with scientists at IIHR—Hydroscience & Engineering, a research institute focusing on applied fluid mechanics; their collaborations involve environmental fluid mechanics and air pollution field studies. The Nanoscience and Nanotechnology Institute at UI provides an interdisciplinary home for chemical and biochemical researchers working on the development, application, and environmental and health effects of nanomaterials.

**PHOTOPOLYMERIZATION**

Photopolymerizations are chain reactions in which a liquid monomer is converted to a solid, durable polymer in a process triggered by light of the appropriate wavelength. The use of light, rather than heat, to drive a polymerization reaction offers advantages in developing new processes or products.

Photopolymerizations provide both spatial control and temporal control of reactions, since light can be directed to locations of interest in the system and is easily shuttered on or off. Photopolymerizations also provide solvent-free formulations, which reduce the emissions of volatile organic pollutants, and they exhibit extremely rapid reaction rates. These advantages have led to tremendous growth in the application of photopolymerizations in the private sector, but much of this growth has occurred without a fundamental understanding of the underlying chemical processes.

The department’s research in this area focuses on comprehensive characterization of the kinetics, mechanisms, structure, and properties of photopolymerizations. Work includes the following types of studies: characterization of the photochemical processes by which polymerizations may be initiated; kinetic characterization of cationic photopolymerization; development of methods for photopolymerization of thick polymers and composites; development of photopolymerization systems based upon agricultural feedstocks; new methods for monitoring high-speed photopolymerization reactions; nanostructured materials through photopolymerization; biomedical devices formed by photopolymerization; and influence of order on photopolymerization reactions.

**Master of Science**

The Master of Science program in chemical and biochemical engineering requires a minimum of 30 s.h. of graduate credit, with or without thesis. All M.S. students must earn at least 24 s.h. in approved graduate-level course work; courses numbered below 100 may not be used to satisfy this requirement. Thesis students earn 6 s.h. in 052:199 (CBE:5999) M.S. Thesis Research: Chemical and Biochemical Engineering. Nonthesis students earn 6
s.h. in additional approved course work and must complete and pass a final written exam on the basic core material. M.S. students must maintain a graduate g.p.a. of at least 3.00. Each student must pass a final M.S. examination. There is no foreign language requirement. Graduate students who receive assistantships, fellowships, or other financial support awarded with the understanding that they will pursue an advanced degree with thesis may not elect the nonthesis option. Graduate students in the nonthesis program may petition for entry into the thesis program or the Ph.D. program by requesting a change of status through the Graduate College. The request is reviewed by the graduate admissions committee. If approved by the committee, it is forwarded to the chemical and biochemical engineering faculty for final approval. Students then are assigned to research advisors as though they were newly admitted graduate students. For a detailed description of program requirements, see the Department of Chemical and Biochemical Engineering web site.

**Doctor of Philosophy**

The Doctor of Philosophy program in chemical and biochemical engineering requires a minimum of 72 s.h. of graduate credit. However, the degree is granted primarily on the basis of achievement rather than on the accumulation of semester hours. Candidates usually are expected to have completed three academic years in residence, or two years if they already hold a recognized master's degree.

All candidates must complete a core course requirement, which consists of a course in transport phenomena, a course in reaction engineering, a course on proposal writing, and a thermodynamics course, as well as six additional courses (total of 30 s.h.).

Ph.D. candidates must maintain a graduate g.p.a. of at least 3.25.

All doctoral students are required to satisfy a qualifying requirement and pass a comprehensive examination before they can become candidates for the degree. The Ph.D. comprehensive examination is the presentation and defense of the candidate's Ph.D. research proposal. These examinations are arranged by members of the examining committee and may be repeated at the committee's discretion. Comprehensive examination policies are published in the Manual of Rules and Regulations of the Graduate College. There is no foreign language requirement. A final examination, which is a defense of the thesis, completes the doctoral program. For a detailed description of program requirements, visit the Department of Chemical and Biochemical Engineering web site.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Applicants should have a B.S. in chemical engineering or related discipline, with satisfactory grades, from a recognized college or university in the United States, and a g.p.a. of at least 2.80. Students who do not meet these requirements may be granted conditional admission, with the department chair's approval. Graduates of non-U.S. universities may be accepted, depending on evaluation of their records.

Applicants must submit their verbal and quantitative scores on the Graduate Record Examination (GRE) General Test with their applications.

Graduate courses in chemical and biochemical engineering are designed for students who have an undergraduate background in chemical engineering. Exceptional students from other areas also may apply for admission to the M.S. or the Ph.D. program in chemical and biochemical engineering. If admitted, they may be required to take specific undergraduate courses to prepare them for graduate course work.

**Financial Support**

A number of fellowships, assistantships, and scholarships are awarded on a competitive basis to graduate students who qualify. Graduate students have the opportunity to receive interdisciplinary research training in several fellowship programs administered through the Center for Biocatalysis and Bioprocessing (CBB). The program provides research training in areas that combine basic and applied research. Each year the center offers fellowships to doctoral students in biotechnology. These are funded by grants from the National Institute of General Medical Sciences, National Institutes of Health (NIH), National Science Foundation (NSF), and the CBB with funding from the State of Iowa. Through these programs, chemical and biochemical engineering students interact with students and faculty members from biochemistry, biology, chemistry, civil and environmental engineering, medicinal and natural products chemistry, and microbiology.

**Facilities and Laboratories**

**Undergraduate Core**

**MATERIALS SCIENCE LABORATORY**

The Materials Science Laboratory is equipped with optical microscopes and facilities for metallographic preparation. Mechanical tensile testing instruments, heat treatment and sintering furnaces, and hardness testing machines also are available. Teaching aids include metallography specimen kits and crystallography packages.

**Required Undergraduate Laboratories**

**CHEMICAL ENGINEERING LABORATORY**

The Chemical Engineering Laboratory provides instruction for undergraduate students. It is equipped for experimentation in transport phenomena, heat transfer, fluid flow, chemical engineering unit operations, and reaction kinetics and catalysis. The laboratory includes pilot plant equipment, such as a distillation column, wiped film evaporator, shell-and-tube heat exchanger, jacketed kettle, and agitated extractor. Other equipment includes an advanced reactive system screening tool, concentric tube heat exchanger, reciprocating plate extractor, membrane gas separator, and a tangential flow filtration system. Analytical equipment includes gas chromatographs, UV/visible spectrophotometers, and high-performance liquid chromatography. The laboratory is continuously updated to reflect advances at the forefront of chemical engineering technology. Additionally, a wide array of small equipment is available.
to support laboratory projects and demonstrations in chemical engineering courses and for use by students performing independent investigations.

**CHEMICAL PROCESS SAFETY LABORATORY**

The Chemical Process Safety Laboratory is an integral part of 052:187 (CBE:3125) Chemical Process Safety. It is equipped with two flash-point testers, an advanced reactive system screening tool (ARSSST), a flammability limits tester, a Hartmann tube, a Van de Graaff generator, two high impedance electrometers, a field meter, a Faraday cage, and relief sizing software. This equipment is used in a series of experiments to demonstrate the principles of flammability, reactivity, explosions, relief valve sizing, and electrostatics relevant to industry.

**PROCESS CONTROL LABORATORY**

The Process Control Laboratory is a modern, computer-based instructional laboratory that is integral to 052:185 (CBE:4105) Process Dynamics and Control in Design. The laboratory consists of computer control of a shell-and-tube heat exchanger, and a level-and-flow control process rig with state-of-the-art industrial control interfaces.

The Computer Control Laboratory offers an ensemble of learning experiences with the same equipment. Additional laboratories provide instruction in the use of process simulators that provide analogies and better insight into the control process. Topics include determination of the gain and time constants for single-capacitance systems; determination of gain, time constant, and damping factor of second-order processes; determination of open-loop and closed-loop response to step-and-ramp changes in input for single-capacitance and multicapacitance processes; approximations of multicapacitance systems as first-order and second-order processes with dead time; analysis of instrumentation characteristics and transfer functions; tuning and optimization of feedback control parameters (P, PI, PID); system identification through frequency response methods; and determination of system stability.

Experimental arrangements in the laboratory are simple enough in design to be easily understood, yet complicated enough to help students appreciate system characteristics inherent in industrial processes (e.g., large time lags, error in parameter estimation).

**Graduate Facilities and Laboratories**

The department offers a wide variety of facilities to support and develop research activities.

**AIR POLLUTION COMPUTATIONAL, FIELD, AND LABORATORY STUDIES**

The department maintains extensive facilities for computational, field, and laboratory studies of air pollution, carbon cycle gases, aerosols, and nanoparticles at the Center for Global and Regional Environmental Research (CGRER). The center occupies 5,000 square feet of laboratory and office space on the fourth floor of the Iowa Advanced Technology Laboratories.

CGRER houses one R2 ImmersaDesk Portable Large Scale Visualization System and is linked on campus to two more R2 ImmersaDesk units.

The center’s computer laboratory for environmental and spatial data analysis provides numerous Windows and UNIX workstations, sophisticated software packages, and workstations and a file server necessary to run intensive visualization programs. The network backbone is University supported with high-speed wireless throughout. A variety of digital environmental databases and an extensive library of documentation and related references are available. There are 4 Beowulf Linux clusters on site and Linux clusters of 4, 16, 18, and 20 nodes for large computations and data assimilation. CGRER retains 15 TB of redundant storage and 50 TB of total storage; local storage space is scalable and expandable. A variety of software packages and programming languages are available for data analysis and display, including Arc/Info, Arcview, NCAR Graphics, Matlab, S-Plus, and Vis5d, as well as geographical information software. The ESRI software suite is part of a University-wide site license.

Laboratory and field equipment includes aerosol samplers, including scanning mobility particles sizers for aerosols from 3 nm to 1 micron with time resolution to 30 seconds; aerosol particle sizers for aerodynamic measurements of in situ particles with time resolution to 1 second; and varied condensation particle counters for measuring total particle counts. Several hygroscopic tandem differential mobility analyzers are used, as well as varied aerosol generation devices and unique aerosol generation devices and unique aerosol nucleation nuclei detector. Advanced computer control of instruments is available through Labview.

Selected instruments are field deployable in a custom air conditioned trailer. Through collaboration with the IHR—Hydroscience & Engineering, access to micrometeorology sensors, 1-D and 2-D elastic and Raman LASER, and gas sensors is available, including multichannel ammonia monitors.

**BIOCHEMICAL ENGINEERING**

Biochemical engineering laboratories provide facilities for preparation of biological media and cultivation of organisms as well as for separation and analysis of biomolecules. This equipment includes biological incubators and floor incubator shakers, agitated and airlift bioreactors, light microscopes, autoclaves, Vi-Cell cell counter, thermocycler for PCR amplification of DNA, high- and low-speed centrifuges, UV-Vis spectrophotometers, a lyophilizer, biological safety cabinets, and an anaerobic glove box. Phase-contrast and epifluorescence microscopes, gel electrophoresis systems, gas chromatography units with flame ionization and electron capture detectors, and several high-performance liquid chromatography systems with refractive index and photodiode array detectors are available for characterization of microorganisms and constituent biomolecules. In addition, the lab has multiple extremophile cultivation systems including a high-pressure (0.1-100 MPa) cell cultivation system, several continuous cultivation systems, and high-temperature oil bath shakers for physiological studies of extremophilic microbes.

Through collaborative research agreements, graduate students also have access to specialized facilities for electron microscopy, large-scale fermentation, protein structure, recombinant DNA research, and tissue culture/hybridoma; the Flow Cytometry Facility; and the High Resolution Mass Spectrometry Facility.
BIOMEDICAL ENGINEERING
The biomedical engineering laboratories house particle technology equipment including microemulsion equipment for drug encapsulation, sonicators, benchtop scale spray dryers, laser diffraction particle sizer, zetapotentiometer; DNA preparation equipment, gel electrophoresis apparatus; interfacial stress rheometer, surface tensiometer, UV-Vis/fluorescent plate reader, high-performance liquid chromatograph, luminometer, lyophilizer, custom-built simulated cough machine, microscopes, incubators, wet chemistry equipment, rotary shakers, incubated plate shakers, autoclave, centrifuges, and laboratory computers. Cell culture and bacterial culture facilities are housed adjacent to the laboratories.
Graduate students also have access to core research facilities including the Central Microscopy Research Facility, Flow Cytometry Facility, DNA Facility, Electron Spin Resonance Facility, Nuclear Magnetic Resonance Facility, High Resolution Mass Spectrometry Facility, and the Center for Gene Therapy.
COMPUTER FACILITIES
The departmental computer facilities contain a variety of graphics workstations, printers, and microcomputers. The department is supported by the college’s Engineering Computer Services, which maintains a large network of high performance UNIX and Windows XP workstations along with extensive commercial and public domain software. The department also has access to the University’s central research facility in high-speed vector computation. This facility has SGI Power Challenger minisupercomputers and provides nodes for external links for access to supercomputers.
FUNDAMENTALS AND APPLICATIONS OF PHOTOPOLYMERIZATION
The Photopolymerization Center was established to advance fundamental understanding of the kinetics and mechanisms of photopolymerizations. To this end, the center provides unique opportunities for collaborations by industrial and academic investigators to explore photopolymerization processes and develop novel applications based on photopolymerizations.
The center provides equipment and instrumentation for the characterization of photopolymerization systems on the molecular, microscopic, and macroscopic levels. Center researchers pursue understanding of fundamental photophysical and photochemical processes involved in the photoinitiation reaction; characterization of high-speed propagation and termination kinetics that lead to the polymer structure; and evaluation of material properties through the course of the photopolymerization reaction. Both radical and cationic photopolymerizations are studied with state-of-the-art experimental techniques to elucidate the complex chemical and physical mechanisms that control the initiation, propagation, and termination of the active centers.

Courses
General Topics
052:000 (CBE:0000) Cooperative Education Training Assignment: Chemical Engineering
Chemical engineering students participating in the Cooperative Education Program register for this course during work assignment periods; registration provides a record of participation in the program on the student’s permanent record. Requirements: admission to Cooperative Education Program.
052:002 (CBE:0002) Half-time Cooperative Education Training Assignment: Chemical Engineering
Registration for work assignment periods; for students participating in the Cooperative Education Program.
052:029 (CBE:1180) First-Year Seminar
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.
052:030 (CBE:2030) Energy and Society
History of energy development and use throughout the world; how energy has affected the development of human societies; societal impact of engineering advances; current state of energy consumption worldwide, including distribution of energy sources, global variations in consumption, advantages and disadvantages of current energy sources; role of fossil fuel consumption in global climate change, potential scenarios for the future of energy.
052:041 (CBE:2105) Process Calculations
Fundamental principles of chemical process analysis, including material and energy balances for single-unit and multiple-unit processes; analysis of reactive and nonreactive systems, introduction to equations of state, thermodynamics of multiphase systems. Prerequisites: 22M:031 (MATH:1550).
052:090 (CBE:1000) CBE Departmental Seminar
Introduction to the profession and the department; presentations by guest speakers, visits to laboratories and industries.
052:091 (CBE:3000) Professional Seminar: Chemical Engineering
Professional aspects of chemical engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Prerequisites: 052:041 (CBE:2105). Requirements: sophomore standing.
052:092 (CBE:4195) Senior Enriching Activities Seminar
Aspects of chemical engineering education, including multidisciplinary team skills, understanding the impact of engineering practice locally and globally. Corequisites: 052:186 (CBE:4110).
052:098 (CBE:3998) Individual Investigations: Chemical Engineering
Individual projects for chemical engineering undergraduate students, such as laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research.
052:103 (CBE:3105) Chemical Engineering Thermodynamics
Applications of thermodynamic principles to chemical and physical processes; prediction of material properties; phase and chemical equilibria applied to mixtures and reacting systems. Prerequisites: 059:009 (ENGR:2130). Corequisites: 052:041 (CBE:2105).
052:105 (CBE:3120) Chemical Reaction Engineering
Application of chemical reaction kinetics to design of chemical reactors: batch reactors, mixed flow reactors, plug flow reactors; reversible and irreversible single reactions; parallel, series, and mixed reactions; temperature and pressure effects on reactor design; heterogeneous catalysis; transport in porous catalysts. Prerequisites: 052:161 (CBE:3115).

052:107 (CBE:4410) Sustainable Systems
New and emerging concepts in sustainable systems design and assessment. Same as 053:107 (CEE:4107).

052:115 (CBE:5104) Introduction to Literature Review and Technical Writing
Review of technical literature, how to contribute to it; produce and present orally a peer-reviewed-journal-quality review article; brainstorming, group writing, research ethics, plagiarism. Recommendations: nonthesis track graduate standing.

052:117 (CBE:5110) Intermediate Thermodynamics
Fundamental principles of thermodynamics as applied to phase equilibrium; properties of fluids, first and second law, variable composition systems, behavior of real fluids, mathematical techniques for solution thermodynamics. Requirements: 052:103 (CBE:3105) or 058:040 (ME:3040) or graduate standing. Same as 058:117 (ME:3110).

052:118 (CBE:5140) Mathematical Methods in Engineering

052:171 (CBE:3150) Thermodynamics/Transport Laboratory

052:172 (CBE:3155) Chemical Reaction Engineering/Separations Laboratory
Experimental design, data collection techniques, report writing, oral presentations; laboratory investigations of chemical reaction engineering and separations; experiments with plug flow and batch reactors, distillation, evaporation, membrane separation. Prerequisites: 052:161 (CBE:3115) and 052:171 (CBE:3150). Corequisites: 052:105 (CBE:3120).

052:195 (CBE:5199) Contemporary Topics: Chemical and Biochemical Engineering
Research techniques for graduate students in chemical and biochemical engineering. Requirements: graduate standing.

052:196 (CBE:5390) Photopolymerization Topics
Seminars presented by faculty members, research assistants, students.

052:209 (CBE:5240) CEBC Colloquium
Sustainable development issues addressed by guest speakers from chemical industries; process economics, environmental impact assessment.

052:215 (CBE:5105) Introduction to Literature Review and Proposal Writing
Tools for reviewing literature, skills for critical reading of publications, training in successful proposal writing; experience drafting a proposal that can be used as a starting point for the Ph.D. comprehensive.

Biochemical Engineering

052:108 (CBE:5205) Introduction to Biochemical Engineering
Biochemistry, cellular biology, recombinant DNA and hybridoma technologies; emphasis on engineering aspects of biotechnology, including enzyme kinetics, cell growth kinetics, transport phenomena in bioreactors, bioreactor design, bioseparations, formulation and sterilization of growth media, commercial applications of biotechnology. Prerequisites: 052:105 (CBE:3120).

052:180 (CBE:5215) Advanced Biochemical Engineering
Advanced concepts regarding behavior of biological systems used in modern technologies (e.g., food processing, pharmaceutical production, environmental remediation, chemical synthesis); principles of biochemical engineering applied to design, development, and analysis of processes that use biocatalysts; second in series addressing engineering aspects of biotechnology. Recommendations: 052:108 (CBE:5205).

052:181 (CBE:5210) Bioseparations
Unit operations used to isolate and purify biologically-derived chemicals, including flocculation, filtration, centrifugation, extraction, adsorption, chromatography, precipitation, crystallization, electrophoresis and cell disruption for intracellular product recovery.

052:223 (CBE:5250) Introduction to Biocatalysis
Applications of biological catalysis in varied industries; potential of biological catalysis to address future challenges in science and engineering.

052:225 (CBE:6210) Biotechnology of Extremophiles
Evolution and engineering of biocatalysis under extreme conditions; physiological, kinetic, and molecular behavior of systems that perform under extremes of temperature, pH, salinity, pressure, solvent concentrations.

052:226 (CBE:6215) Engineering Aspects of Animal Cell Culture
Applications of animal cell culture (insect and mammalian) in biochemical engineering, with emphasis on recombinant protein synthesis; special considerations of animal cell cultures (e.g., sensitivity to hydrodynamic stress), scale-up of attachment-dependent and attachment-independent cell cultures, medium development, hybridoma cultures, protein processing in animal cells. Prerequisites: 052:108 (CBE:5205).

052:275 (CBE:5875) Perspectives in Biocatalysis
Environmental Engineering

052:133 (CBE:3160) Engineering Analysis of Alternative Energy Systems
Engineering and sustainability analyses of conventional and emerging energy technologies; alternative energy sources, including biomass, wind, solar, geothermal; alternative energy carriers (transportation fuels), including biofuels, hydrogen, natural gas, ammonia. Prerequisites: 059:009 (ENGR:2130).

052:231 (CBE:5152) Environmental Chemistry I
Principles of general, physical, organic chemistry applied in water and air systems; emphasis on qualitative and quantitative understanding of chemical kinetics and equilibrium; acid-base reactions, complex formation, precipitation, dissolution, and oxidation-reduction reactions; organic nomenclature. Prerequisites: 004:012 (CHEM:1120). Same as 053:152 (CEE:5152).

052:235 (CBE:4459) Air Pollution Control Technology
Sources, environmental and health impacts, regulations, modeling of air pollution; processes and alternative strategies for control; global climate considerations. Prerequisites: 053:050 (CEE:2150). Same as 053:159 (CEE:4159).

052:236 (CBE:5425) Atmospheric Chemistry and Physics

052:237 (CBE:5405) Green Chemical and Energy Technologies
Strategies for pollution prevention for chemical processes studied at the macroscale (industrial sector), the mesoscale (unit operations), and the microscale (molecular level); case studies. Prerequisites: 052:041 (CBE:2105).

Transport Phenomena

052:151 (CBE:3110) Engineering Flow and Heat Exchange
Fundamentals of fluid flow and heat transfer; fluid rheology, boundary layer theory, potential flow, dimensional analysis, laminar and turbulent flow in pipes, flow through packed beds, fluidized beds, pumps, flow measurement, filtration, heat exchanger design, and conductive, convective, and radiative heat transfer. Corequisites: 052:041 (CBE:2105).

052:161 (CBE:3115) Mass Transfer and Separations
Mechanisms of diffusional mass transfer; solution of industrial problems, including the design of distillation, extraction, absorption, adsorption, drying, membrane processes; mechanical separations. Prerequisites: 052:103 (CBE:3105) and 052:151 (CBE:3110).

052:217 (CBE:5115) Transport Phenomena I
Unified treatment of momentum, mass, energy transport in chemical engineering problems; use of vector and tensor notations in expressing equations of continuity, motion, energy.

052:227 (CBE:6145) Diffusive Transport
Diffusive transport of heat, mass, and momentum; phenomenological laws and analogies; analytical and numerical solution techniques; inverse heat conduction; multiphase and multicomponent systems. Prerequisites: 058:145 (ME:5145). Same as 058:245 (ME:6245).

Materials Science

052:140 (CBE:5309) Polymer Fundamentals
Basic knowledge of polymers required as a foundation for other UI courses on polymers: basic polymer terminology, polymer groups, polymerization mechanisms, molecular weight determination. Five weeks. Same as 051:168 (BME:5415).

052:156 (CBE:4156) Scanning Electron Microscopy and X-Ray Microanalysis
Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as 012:156 (GEOS:4156), 060:156 (ACB:4156).

052:241 (CBE:5310) Polymer Science and Technology

052:242 (CBE:5315) Polymer Chemistry
Monomer reactivity and polymerization reactions; step, radical, ionic, and ring-opening polymerizations. Prerequisites: 004:122 (CHEM:2220).

Process Dynamics, Design, Analysis

052:184 (CBE:4109) Chemical Engineering Process Design I
Engineering economics of process evaluation, including time value of money and bases for cost estimation; preliminary design of chemical process plants using computer-aided engineering. Prerequisites: 052:105 (CBE:3120) and 052:161 (CBE:3115).

052:185 (CBE:4105) Process Dynamics and Control in Design
Theory and application of process dynamics to the design of chemical process control systems; mathematical models of unit operations, transfer functions, feedback and feed-forward control, stability, instrumentation, digital control systems; computer methods, including simulation and commercial software use; laboratory focus on process analysis and design. Prerequisites: 052:105 (CBE:3120).

052:186 (CBE:4110) Chemical Engineering Process Design II
Capstone chemical engineering course; design and optimization of chemical process plants; application of process calculations, thermodynamics, kinetics, process synthesis, energy efficiency in separations, heat-exchanger network synthesis, physical property estimation, safety, computer-aided design, unit operations theory, process control, and economics. Prerequisites: 052:184 (CBE:4109).

052:187 (CBE:3125) Chemical Process Safety
Graduate Seminars, Advanced Topics, Research

052:191 (CBE:5000) Seminar in Chemical and Biochemical Engineering
1 s.h.
Presentation and discussion of recent advances and research in chemical and biochemical engineering by guest lecturers, faculty, students. Requirements: graduate standing.

052:193 (CBE:5100) Graduate Professional Development Seminar
1 s.h.
Seminar participants work with a faculty member to select and attend eight hours of approved seminars and professional development trainings at The University of Iowa; final meeting of participants is held to share notable seminars; typical seminar series include College of Engineering lectures, departmental and research center graduate seminars, the CBE professional seminar series, offerings of the Center for Teaching and Learning. Requirements: CBE masters standing.

052:198 (CBE:5998) Individual Investigations: Chemical and Biochemical Engineering
arr.
Individual projects for chemical and biochemical engineering graduate students; may include laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

052:199 (CBE:5999) M.S. Thesis Research: Chemical and Biochemical Engineering
arr.
Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for M.S. with thesis in chemical and biochemical engineering. Requirements: graduate standing.

052:299 (CBE:7999) Research: Chemical and Biochemical Engineering Ph.D. Dissertation
arr.
Experimental and/or analytical investigation of an approved topic for Ph.D. in chemical and biochemical engineering.
Civil and Environmental Engineering

Chair
Michelle Scherer

Professors

Professors emeriti
Dan E. Branson, Forrest M. Holly Jr., Subhash C. Jain, Wayne L. Paulson, Han-Chin Wu

Adjunct professors
Konstantine P. Georgakakos, Tatsuki Nakato

Associate professors
George Constantinescu, Paul Hanley, Anton Kruger, Tim Mattes, Salam Rahmatalia, James W. Stoner, Frank Weirich, Y.K. Zhang

Adjunct associate professors
Shauna Hallmark, Louis A. Licht, John Nestler

Assistant professors
Nandita Basu, David Cwiertny, Craig Just, Gabrielle Villarini

Adjunct assistant professors
Ken Lloyd, Marcela Politano, Doug Schnoebelen, Nathan Young

Lecturer
Christopher Stoakes

Adjunct lecturers
Jon Bailey, Don Guckert, Michael Valde

Undergraduate major: civil engineering (B.S.E.)
Graduate degrees: M.S. in civil and environmental engineering; Ph.D. in civil and environmental engineering
Web site: http://www.cee.engineering.uiowa.edu

Civil engineering is one of the three largest fields of engineering. It traditionally has been concerned with infrastructure facilities that are both large in scale and essential to modern life. Civil and environmental engineering projects include transportation systems and their components, such as bridges, highways, public transit systems, railways, harbors, airports, seaports, and even spaceports; large-scale structures and office buildings that provide enclosed working and living space; environmental and hydraulic systems that provide clean water and air, including filtration plants and distribution systems for municipal and industrial water supplies, wastewater treatment plants, dams, levees, and irrigation systems.

Growth areas of civil and environmental engineering include water sustainability, infrastructure development, construction management, computer-aided design, hazardous waste management, and engineered environmental systems. In the future, civil and environmental engineers will be called upon to design structures for earth and outer space, prevent erosion and sedimentation of our rivers, predict effects of global climate change on the environment, provide modern and efficient transportation systems, and ensure the quality of our air and our surface waters and groundwaters.

In planning and design, civil and environmental engineers work with other engineers, architects, landscape architects, planners, economists, financiers, sociologists, lawyers, and other specialists as members of the design team. Some civil engineers work in engineering offices; others may be called upon to construct or supervise outdoor projects they have designed. These field assignments, many of which are in remote and fascinating parts of the world, are particularly appealing to many civil and environmental engineers. There also is significant potential for entrepreneurial work by civil and environmental engineers as they start their own companies.

Undergraduate Program

• Major in civil engineering (Bachelor of Science in Engineering)

The undergraduate program in civil engineering provides a well-rounded, superior engineering education that:

• provides students with appropriate proficiency in the civil engineering subdisciplines of structures and materials, water-resources engineering, transportation systems, and environmental engineering;

• ensures that students are knowledgeable about the importance, procedures, and benefits of professional licensure and continuing education;

• offers design experiences that include projects in the curriculum that are offered by and guided in part by the professional community; and

• provides research opportunities to undergraduate students through the department’s connections with on-campus research entities including IIHR—Hydroscience and Engineering, the Center for Global and Regional Environmental Research, the Public Policy Center, the Center for Computer Aided Design, the Center for Biocatalysis and Bioprocessing, and the Center for Health Effects of Environmental Contamination.

Bachelor of Science in Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. Students majoring in civil engineering choose one of two subtracks: civil, which provides breadth in the discipline; or environmental, which provides for a concentration.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric; 059:005 (ENGR:1100) Engineering Problem Solving I and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For
information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Subtrack requirements are the same for the first semester of the first year but are different beginning with the second semester.

Students must select elective focus area courses according to guidelines established by the Department of Civil and Environmental Engineering. See “Elective Focus Area” after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the civil engineering major. Some courses in the curriculum are prerequisites for others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

**FIRST YEAR**

**First Semester**
- 004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
- 010:003 (RHET:1030) Rhetoric 4 s.h.
- 059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
- 059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree) 1 s.h.

**Civil Subtrack**

**FIRST YEAR**

**Second Semester**
- 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
- 029:081 (PHYS:1611) Introductory Physics I 4 s.h.
- 059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.
- General education component course 3 s.h.

**SECOND YEAR**

**First Semester**
- 029:082 (PHYS:1612) Introductory Physics II 3-4 s.h.
- 053:015 (CEE:2015) Civil and Environmental Engineering Practice 2 s.h.
- 059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
- 059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
- 059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.

**Second Semester**
- 053:003 (CEE:1030) Introduction to Earth Science 3-4 s.h.
- 053:020 (CEE:2000) CEE Sophomore Seminar 0 s.h.
- 053:050 (CEE:2150) Natural Environmental Systems 3 s.h.
- 057:010 (ENGR:2710) Dynamics 3 s.h.
- 057:019 (ENGR:2750) Mechanics of Deformable Bodies 3 s.h.
- General education component course 3 s.h.

**THIRD YEAR**

**First Semester**
- 053:030 (CEE:3530) Soil Mechanics 3 s.h.
- 053:033 (CEE:3533) Principles of Structural Engineering 3 s.h.
- 053:063 (CEE:3763) Principles of Transportation Engineering 3 s.h.
- 053:091 (CEE:3000) Professional Seminar: Civil Engineering 0 s.h.
- 057:020 (ENGR:2510) Fluid Mechanics 4 s.h.
- Elective focus area course 3 s.h.

**Second Semester**
- 053:055 (CEE:3155) Principles of Environmental Engineering 4 s.h.
- 053:071 (CEE:3371) Principles of Hydraulics and Hydrology 3 s.h.
- 053:086 (CEE:3586) Civil Engineering Materials 3 s.h.
- 053:091 (CEE:3000) Professional Seminar: Civil Engineering 0 s.h.
- Elective focus area course 3 s.h.
- General education component course 3 s.h.

**FOURTH YEAR**

**First Semester**
- 053:091 (CEE:3000) Professional Seminar: Civil Engineering 0 s.h.
- General education component course 3 s.h.
- Two elective focus area courses 6 s.h.

Two of these:
- 053:134 (CEE:4535) Design of Steel Structures 3 s.h.
- 053:136 (CEE:3136) Design of Concrete Structures 3 s.h.
- 053:157 (CEE:4157) Environmental Engineering Design 3 s.h.
- 053:162 (CEE:4762) Design of Transportation Systems 3 s.h.

**Second Semester**
- 053:084 (CEE:3084) Project Design and Management in Civil Engineering 3 s.h.
- 053:091 (CEE:3000) Professional Seminar: Civil Engineering 0 s.h.
- General education component course 3 s.h.
- Three elective focus area courses 9 s.h.

**Environmental Subtrack**

**FIRST YEAR**

**Second Semester**
- 004:012 (CHEM:1120) Principles of Chemistry II 4 s.h.
- 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
- 029:081 (PHYS:1611) Introductory Physics I 4 s.h.
- 059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.

**SECOND YEAR**

**First Semester**
- 053:015 (CEE:2015) Civil and Environmental Engineering Practice 2 s.h.
- 053:015 (CEE:2015) CEE Sophomore Seminar 0 s.h.
- 053:050 (CEE:2150) Natural Environmental Systems 3 s.h.
- 057:010 (ENGR:2710) Dynamics 3 s.h.
- 057:019 (ENGR:2750) Mechanics of Deformable Bodies 3 s.h.
- General education component course 3 s.h.
Elective Focus Area

Civil engineering students may choose from several standard elective focus areas developed by the department, a focus area offered jointly with another engineering department, or an individual focus area tailored to the student’s interests.

Standard elective focus areas are offered in environmental engineering; hydraulics and water resources; structures, mechanics, and materials; transportation; urban and regional planning; and in the broad field of civil engineering. Elective focus areas offered jointly with other engineering departments cut across programs (e.g., computer-aided engineering, design and optimization, environmental processes).

Civil engineering students must take one general education component course related to their elective focus area.

For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the Catalog. For a list of standard elective focus area options and guidelines for tailored elective focus areas in civil engineering, see the Department of Civil and Environmental Engineering web site.

Joint B.S.E./M.S.

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for civil engineering undergraduate students who intend to earn an M.S. in civil and environmental engineering. B.S.E./M.S. students may attend the departmental graduate seminar and work on a master’s thesis or research project while they are still undergraduates. They may count a limited amount of course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h. and must have a cumulative g.p.a. of at least 3.25. They must submit an application form to the Department of Civil and Environmental Engineering, along with a letter stating their proposed area of specialization and the name of a department faculty member willing to be their primary M.S. advisor. They also must identify a faculty sponsor who can guide them from at least the second semester of their senior year until they complete the M.S.

Applications are due by March 1.

Graduate Programs

- Master of Science in civil and environmental engineering (with or without thesis)
- Doctor of Philosophy in civil and environmental engineering

Graduate study in civil and environmental engineering prepares students for professional careers and further study. The principal concentration areas are environmental engineering and science; global and regional environmental research; hydraulics, hydrology, and water resources; structures, mechanics, and materials; and transportation and infrastructure systems.

The department also participates in an interdisciplinary doctoral program offered by the Graduate College; see Applied Mathematical and Computational Sciences (p. 827) in the Catalog.
Research and Study Areas

ENVIRONMENTAL ENGINEERING AND SCIENCE

The environmental engineering and science curriculum provides a comprehensive base of course work and research in the areas of air- and water-quality management, environmental chemistry and microbiology, natural systems modeling, and processes for water supply, pollution control, and solid and hazardous waste management. Interdisciplinary specialization and study are conducted with programs including IIHR—Hydroscience & Engineering, the Center for Global and Regional Environmental Research, the Center for Health Effects of Environmental Contamination, the Hazardous Substances Research Center, the Center for Biocatalysis and Bioprocessing; the Departments of Chemical and Biochemical Engineering, Geography, Geoscience, Microbiology, Occupational and Environmental Health; and the Urban and Regional Planning Program. New areas of interdisciplinary focus include groundwater contamination, biotechnology, global climate change, and hazardous substances.

GLOBAL AND REGIONAL ENVIRONMENTAL RESEARCH

The department has an active interdisciplinary research program in the environmental areas of air pollution, water pollution, groundwater remediation, global atmospheric change, and hazardous waste management. Particular emphasis is placed on the microbiology, chemistry, and physics of local, regional, and global air, soil, and water quality problems. Research includes sophisticated environmental quality analysis, high-speed computing, and detailed sensitivity analysis. The Department of Chemical and Biochemical Engineering and the Center for Global and Regional Environmental Research also collaborate in these endeavors.

HYDRAULICS, HYDROLOGY, AND WATER RESOURCES

The hydraulics, hydrology, and water resources curriculum is associated with IIHR—Hydroscience & Engineering, a world-renowned research institute. Senior staff members of the institute are professors in the program; they devote about half of their time to teaching.

IIHR offers unique opportunities for students to participate actively in the research, analysis, and design aspects of real-world problems. Considerable attention is given to the use of computers in mathematical modeling and in data acquisition and processing. IIHR high-speed computer facilities and advanced graphics and communication software complement the hydrology, hydraulics, and water resources curriculum.

STRUCTURES, MECHANICS, AND MATERIALS

The structures, mechanics, and materials curriculum is designed for students who wish to gain knowledge and skill in the mechanics of solids and structures that they can apply to civil infrastructure systems and other fields. The program concentrates on developing appropriate methodologies for tackling broad, complex issues related to civil infrastructure systems, and on educating engineers in the implementation and application of methodologies to actual engineering projects. Faculty members have expertise in structural engineering, design optimization, solid mechanics, and computational methods.

TRANSPORTATION AND INFRASTRUCTURE SYSTEMS

The transportation and infrastructure systems curriculum aims at graduating students interested in developing specialized knowledge and skills applicable to diverse set of issues associated with transportation. Faculty members have expertise in traffic engineering, infrastructure management systems, pavement engineering, advanced construction materials, dynamic load and pavement simulation, optimal design, winter highway maintenance, real-time simulation, human factors, intelligent sensors, nondestructive testing, transportation planning, and travel demand modeling.

Master of Science

The Master of Science program in civil and environmental engineering requires a minimum of 30 s.h. of graduate credit, with or without thesis. The program enables students to concentrate in one or more areas of their choice. Graduates are placed in advanced technical positions in industry, consulting firms, or government, or they may continue their graduate study. Current and projected demand for M.S. graduates is excellent.

Students who choose the thesis program earn up to 6 s.h. for the thesis. Nonthesis students in the environmental engineering and science curriculum earn an additional 3 s.h.

With the approval of their advisor, students develop a study plan that satisfies the requirements of their chosen curriculum.

All M.S. students must have a g.p.a. of at least 3.00, pass an oral examination, and in some program options, a written examination.

Doctor of Philosophy

The Doctor of Philosophy program in civil and environmental engineering requires a minimum of 72 s.h. of graduate credit; the semester-hour requirements for some curriculum areas are higher. The doctoral degree is granted primarily on the basis of achievement rather than on a prescribed course of study. Students usually need at least three years of full-time graduate study to complete the degree. One year is devoted to the preparation of a dissertation that contributes to knowledge in the field. In some specialty areas, a qualifying examination may be required.

All doctoral students are required to pass a written and oral comprehensive examination before being formally admitted to candidacy for the degree. This examination usually is taken after all required course work has been completed.

The program culminates in a final examination, in which candidates must successfully defend their dissertation.

Ph.D. students must maintain a g.p.a. of at least 3.00 throughout the program.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.
Each of the program’s curricula is flexible; students may be admitted from all disciplines of engineering as well as from the mathematical and basic sciences.

Applicants to the M.S. program should have a cumulative undergraduate g.p.a. of at least 3.00. Ph.D. applicants should have a graduate g.p.a. of at least 3.00. Applicants whose grade-point average is slightly lower should contact the department.

Applicants should have a combined verbal and quantitative score of at least 301 on the Graduate Record Examination (GRE) General Test. Lower scores are considered with other evidence of academic promise (recommendation letters, grade-point average). GRE General Test scores also are used in financial aid decisions.

Financial Support
A significant number of research assistantships are available on a variety of research projects, as are a limited number of teaching assistantships. Selection of recipients usually is based on scholastic achievement and research interest.

Facilities and Laboratories
Undergraduate Core
The first-year engineering course 059:005 (ENGR:1100) Engineering Problem Solving I includes an introduction to the college’s Computer Systems Support (CSS). Students in the course use computer-aided design tools on engineering work stations. All civil engineering courses require knowledge of personal computers and contain significant computer content.

For information about laboratories affiliated with core courses coordinated by other engineering departments, see the Catalog section for each of the departments.

Required and Elective Undergraduate Laboratories
053:015 (CEE:2015) Civil and Environmental Engineering Practice (2 s.h.), 053:063 (CEE:3763) Principles of Transportation Engineering (3 s.h.), and 053:084 (CEE:3084) Project Design and Management in Civil Engineering (3 s.h.): use of a state-of-the-art laboratory for computer-aided design and drawing.

053:030 (CEE:3530) Soil Mechanics (3 s.h.): equipped for determining the classification, seepage characteristics, stress-strain properties, and strength of soils.

053:055 (CEE:3155) Principles of Environmental Engineering (4 s.h.): conducted at the University Water Treatment Plant and Iowa City Wastewater Plant for demonstrations of unit operations and processes of water and wastewater treatment, and applications in environmental chemistry and microbiology.

053:071 (CEE:3371) Principles of Hydraulics and Hydrology (3 s.h.): hydraulics of pressure conduits and open channels, dimensional analysis, flow measurements, hydraulic machinery, with laboratory.

053:153 (CEE:4153) Environmental Chemistry Laboratory (3 s.h.): experiments to demonstrate fundamental principles of aquatic chemistry and chemical analyses for characterization of water and wastewater quality, conducted in the Environmental Engineering Laboratories.

053:154 (CEE:5154) Environmental Microbiology (3 s.h.): typical microorganisms isolated and their physiology and metabolic characteristics studied in the Environmental Engineering Laboratories.

053:156 (CEE:5156) Physical-Chemical Process Fundamentals (3 s.h.) and 053:151 (CEE:4151) Biological Treatment Processes (3 s.h.): unit operations, processes studied in bench scale experiments; use of typical process analytical parameters; experiments conducted in the Environmental Engineering Laboratories, University Water Plant, and Iowa City Wastewater Treatment Plant.

Graduate Laboratories
ENVIRONMENTAL ENGINEERING AND SCIENCE LABORATORIES
The Environmental Engineering and Science Laboratories provide state-of-the-art facilities, equipment, and expertise to support both undergraduate and graduate-level instruction and research. The laboratories support research in contaminant fate and transport in various media (air, water, soil, plants, and microbes), drinking water disinfection and distribution, wastewater treatment, geochemical-contaminant interactions, bioremediation, and phytoremediation. They also provide resources for analytical chemistry, electrochemistry, molecular biology, microscopy, computer modeling, and simulated environments on the bench- and pilot-scale levels.

The Environmental Engineering and Science Laboratories are affiliated with the University’s Center for Health Effects of Environmental Contamination and its Center for Global and Regional Environmental Research, and with the UI Environmental Health Sciences Research Center, an affiliate of the National Institute of Environmental Health Sciences (NEIHS).

HYDRAULICS, HYDROLOGY, AND WATER RESOURCES
The teaching and research functions of the department are closely connected to the research activities of IIHR—Hydroscience & Engineering. The institute houses some of the most modern research facilities in the world, including a 330-foot towing tank, several hydraulic flumes and wind tunnels, an array of field instrumentation for hydrologic experiments, extensive laboratory space for hydraulic modeling, a special low-temperature flow facility for investigation of ice phenomena, state-of-the-art instrumentation for flow measurement and visualization, and comprehensive computational facilities.

Research related to ecohydraulics and the environment takes place at the Lucille A. Carver Mississippi Riverside Environmental Research Station. Located on the Mississippi River near Muscatine, Iowa, the station provides engineers and biological scientists with an ideal facility in which to examine the multifaceted ecohydraulic processes of the upper Mississippi. The 500-square-foot facility is equipped with water-quality laboratories and a seminar room and is operated by IIHR—Hydroscience & Engineering.

STRUCTURES, MECHANICS, AND MATERIALS
Facilities for computations, materials testing, geotechnical experiments, and small-scale structural testing are available for research and teaching. Faculty, staff, and students in structures, mechanics, and materials (SMM) have access to the computing resources of Engineering Computer Services and the Center for Computer-Aided Design (CCAD). Both centers continuously update their
computing facilities to maintain pace with the rapidly changing field.

A wide range of experimental facilities is available for testing structural materials such as Portland cement concrete, asphalt, metals, timber, and composites. These facilities include several loading frames (purely uniaxial, purely torsional, and axial-torsional) that are available with computer-based control and data collection systems. Facilities for creep testing, triaxial soil testing, and high-cycle fatigue testing are also available. The laboratories have a variety of ovens and other facilities for preparation and treatment of test specimens.

Four well-equipped physical testing laboratories are dedicated to SMM teaching and research: the Civil Materials Laboratory, Soil Mechanics Laboratory, Plasticity Laboratory, and the Asphalt Laboratory. The Civil Materials Laboratory currently has a small-scale single-degree-of-freedom shaker table. Faculty, staff, and students have access to a small-scale six-degree-of-freedom shaker table through CCAD and a 12-camera Vicon motion-capture system.

**Transportation Infrastructure Systems**

The department’s Asphalt Laboratory is equipped with a set of SuperPave testing equipment and new Interlaken Simple Performance Testing Equipment, which measures dynamic modulus and dynamic creep of asphalt mixtures. The laboratory’s Wirtgen asphalt foaming equipment can be used for mix design of cold in-place recycled asphalt using foamed asphalt; equipment for Marshall mix design, indirect tensile strength test, and volumetric analysis of asphalt mixtures is also available. The laboratory is one of the department’s group of laboratories for materials testing the strength behavior of other materials.

**Courses**

**Special Topics**

053:000 (CEE:0000) Cooperative Education 0 s.h.

Introduction to Civil and Environmental Engineering Practice: Civil Engineering 2 s.h.

053:020 (CEE:2000) CEE Sophomore Seminar 0 s.h.

Introduction to civil and environmental engineering curriculum and profession; presentations by senior undergraduate students, graduate students, faculty; laboratory visits. Requirements: sophomore standing.

053:040 (CEE:2240) Introduction to Computer-Aided Design for 3-D Design 3 s.h.

Basic principles of 2-D and 3-D computer-aided drafting: use of AutoCAD Software to draw plans, elevations, and sections for objects and interior spaces. Prerequisites: 01A:003 (ARTS:1510) and 01A:004 (ARTS:1520). Same as 01T:064 (TDSN:2240).

053:083 (CEE:3783) Surveying and Remote Sensing 3 s.h.

Engineering surveying measurements, methods, computations. Prerequisites: 059:005 (ENGR:1100).

053:084 (CEE:3084) Project Design and Management in Civil Engineering 3 s.h.

Design of civil engineering systems, individual and team design projects oriented toward the solution of local problems, project management, construction management, contracts, budgeting, bidding, Requirements: 053:033 (CEE:3533), 053:050 (CEE:2150), 053:063 (CEE:3763), 053:071 (CEE:3371), and senior standing.

053:091 (CEE:3000) Professional Seminar: Civil Engineering 0 s.h.

Professional aspects of civil engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Requirements: junior standing.

053:098 (CEE:3998) Individual Investigations: Civil Engineering 3 s.h.

Individual projects for civil engineering undergraduate students: laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research.

053:101 (CEE:5701) International Business and Infrastructure 3 s.h.

Differences between international and domestic businesses; how differences in infrastructure in the international environment influence business operations; effects of infrastructure on international commerce and business practices; case studies, site visits.

053:107 (CEE:4107) Sustainable Systems 3 s.h.

New and emerging concepts in sustainable systems design and assessment. Same as 052:107 (CBE:4410).

053:111 (CEE:4511) Numerical Calculations 3 s.h.

Development of algorithms for functional approximations, numerical differentiation and integration; solution of algebraic and differential equations, with emphasis on digital computations; initial and boundary value problems. Prerequisites: 22M:034 (MATH:2560). Same as 058:111 (ME:4111).

053:112 (CEE:4512) Engineering Design Optimization 3 s.h.

Engineering design projects involving modeling, formulation, and analysis using optimization concepts and principles; linear and nonlinear models, optimality conditions, numerical methods. Prerequisites: 22M:033 (MATH:2550) and 059:007 (ENGR:2110). Requirements: junior standing. Same as 058:112 (ME:4112).

053:113 (CEE:5513) Mathematical Methods in Engineering 3 s.h.

053:115 (CEE:4515) Computer-Aided Engineering 3 s.h.

053:116 (CEE:4116) Computer-Aided Design for Civil and Environmental Engineering 3 s.h.
Introduction to engineering design process and graphical communications tools used by civil engineers; fundamentals of engineering drawing, descriptive geometry, multiview projection, graphical analysis, coordinate systems, database manipulation, building information modeling (BIM); AutoCAD. Prerequisites: 053:015 (CEE:2015). Requirements: civil and environmental engineering major.

053:126 (CEE:4788) International Perspectives: Xicotepec 3 s.h.
Introduction to providing service to a community in a less developed country; student projects intended to improve community life in Xicotepec. Requirements: P3 standing. Same as 046:126 (PHAR:8788), 152:126 (GHS:4126).

053:168 (CEE:4568) Civil Infrastructure 3 s.h.
Analytical methods for developing Infrastructure Management Systems (IMS); evaluation of infrastructure condition, performance modeling, rehabilitation optimization, development of the IMS; basic concepts of information technology applied in solving civil infrastructure management problems. Prerequisites: 053:015 (CEE:2015).

053:187 (CEE:4187) Statistics for Experimenters 3 s.h.
Application of statistical techniques to evaluate data derived from experimental samples designs; use of spreadsheets, statistical software; design and analysis of experiments; regression analysis; model building; practical applications. Same as 175:182 (OEH:4540).

053:210 (CEE:5210) Developing Professional Service Business 2-3 s.h.
Use of professional skills and functional knowledge in creating a specialized service business. Same as 06T:210 (ENTR:9000).

053:214 (CEE:6310) Analytical Methods in Mechanical Systems 3 s.h.
Vector and function spaces; functionals and operators in Hilbert spaces; calculus of variations and functional analysis with application to mechanics; Ritz and Galerkin methods. Prerequisites: 058:113 (ME:5113). Same as 058:214 (ME:6214).

053:297 (CEE:7197) Teaching Undergraduate Science and Engineering arr.
Basic skills to be a successful undergraduate instructor; teaching of technical subjects and solving problems; emphasis on practical applications of lesson material and class demonstrations; techniques for teaching effective classes; opportunity for students to teach; intended for graduating Ph.D. students with a career interest in a university environment.

Structures, Mechanics, and Transportation

053:030 (CEE:3530) Soil Mechanics 3 s.h.
Identification and classification of earth materials; hydraulic and mechanical properties of soils; soil improvement; laboratory testing. Prerequisites: 057:019 (ENGR:2750).

053:033 (CEE:3533) Principles of Structural Engineering 3 s.h.
Fundamental principles of structural analysis applied to statically determinate and indeterminate structures, continuous beams, trusses, and frames; external and internal equilibrium, compatibility of deformation, influence lines, virtual work; parallel use of classical and matrix formulation; slope deflection, flexibility and stiffness methods; use of computers. Prerequisites: 057:019 (ENGR:2750).

053:063 (CEE:3763) Principles of Transportation Engineering 3 s.h.

053:086 (CEE:3586) Civil Engineering Materials 3 s.h.
Structure, strength and failure, durability, deformation, practice, and processing for primary construction materials systems, including steel, aluminum, concrete, asphalt, fiber-reinforced composites, masonry, timber. Corequisites: 053:030 (CEE:3530) and 057:019 (ENGR:2750).

053:131 (CEE:4131) Impacts of Technological Singularity 3 s.h.
Technological singularity—what it is, its current standing, impacts, implications; bio-, nano-, and information technologies; how new technologies affect sustainability; ethical issues raised by technologies.

053:132 (CEE:4532) Fundamentals of Vibrations 3 s.h.
Vibration of linear discrete and continuous mechanical and structural systems; harmonic, periodic, and arbitrary excitation; modal analysis; applications. Prerequisites: 057:019 (ENGR:2750). Same as 058:153 (ME:4153).

053:133 (CEE:4533) Finite Element I 3 s.h.
One- and two-dimensional boundary value problems; heat flow, fluid flow, torsion of bars; trusses and frames; isoparametric mapping; higher order elements; elasticity problems; use of commercial software. Prerequisites: 057:019 (ENGR:2750). Same as 058:115 (ME:4115).

053:134 (CEE:4535) Design of Steel Structures 3 s.h.
Concepts and procedures in steel design; LRFD (load and resistance factor design) methodology for beams/columns; analysis and design of indeterminate structures. Prerequisites: 053:033 (CEE:3533).

053:135 (CEE:3135) Structural Modeling and Health Monitoring 3 s.h.
Measurements, structural modeling, structural analysis, stiffness method, trusses and frames, structural testing, modal analysis. Prerequisites: 053:033 (CEE:3533) and 057:019 (ENGR:2750).

053:136 (CEE:3136) Design of Concrete Structures 3 s.h.
Fundamental analysis and design of reinforced concrete members and structures, flexure, shear, bond, continuity, beams, one-way slab system; columns. Prerequisites: 053:033 (CEE:3533).

053:137 (CEE:5137) Composite Materials 3 s.h.
Mechanical behavior of composite materials and their engineering applications; composite constituents (fibers, particles, matrices) and their properties and behavior; macromechanical behavior of composite laminae; micromechanical predictions of composite overall properties; classical lamination theory; composite beams and plates. Prerequisites: 22M:025 (MATH:1850) and 057:019 (ENGR:2750). Same as 058:167 (ME:5167).
053:139 (CEE:4539) Foundations of Structures 3 s.h.
Application of soil mechanics to analysis of structural foundations; slope stability analysis; bearing capacity and settlement of shallow and deep foundations; retaining structures, braced cuts, reinforced earth structures; usage of computational models; subsurface exploration methods. Prerequisites: 053:030 (CEE:3530). 053:140 (CEE:5540) Intermediate Mechanics of Deformable Bodies 3 s.h.
Application of equilibrium analyses, strain-displacement relations, and constitutive relationships to structural practical systems and elementary plane elasticity problems. Prerequisites: 057:019 (ENGR:2750). Same as 058:150 (ME:5150), 051:151 (BME:5660). 053:142 (CEE:3142) Quality Control 3 s.h.
3-D stress states, definition and criteria for failure, nominal and local yield phenomena, linear elastic and elastic plastic fracture mechanics, plane stress and plane strain fracture toughness, J-Integral, crack opening displacement, environmental assisted cracking, fatigue crack growth, fail safe, and damage tolerant design. Prerequisites: 051:085 (BME:4910) or 058:055 (ME:4055) or 058:150 (ME:5150). Same as 058:159 (ME:5159). 053:160 (CEE:4160) Introduction to Bridge Engineering 3 s.h.
Bridge engineering and design; history of the bridge; factors that affect bridge design; bridges according to use (e.g., road, rail, pedestrian and bicycle) and type (e.g., suspension, cable stay, truss); how sustainability concepts may impact bridge design; substantial design exercise. Prerequisites: 053:033 (CEE:3533). 053:162 (CEE:4762) Design of Transportation Systems 3 s.h.
Application of CAD/CAE tools to transportation systems design; review of CAD tools, derivation of standards for geometric design, roadway design software, cross-sectional and longitudinal geometric design of highways, applications to visualization and animation. Prerequisites: 053:063 (CEE:3763). 053:163 (CEE:4763) Traffic Engineering 3 s.h.
Design of traffic control devices; evaluation and analysis of intersections and transportation networks using appropriate computer software. Prerequisites: 225:039 (STAT:2020) and 053:063 (CEE:3763). 053:164 (CEE:4764) Winter Highway Maintenance 3 s.h.
Aspects of winter highway maintenance; current and innovative practices and the theory that underpins them. 053:167 (CEE:4167) Public Transit Operations and Planning 3 s.h.
Bus, light and heavy rail, and paratransit modes; transit operations, planning, modeling and optimization, transit agency economics, transit finance, and evolving transportation policy; skills essential to planners and engineers who intend to work for a either planning agency, transportation provider, or a transportation or planning consulting firm; individual and group projects involving transit operations. Requirements: undergraduate or graduate standing in engineering, or graduate standing in urban and regional planning. Same as 102:195 (URP:4195). 053:176 (CEE:4176) Transportation Demand Analysis 3 s.h.
City planning procedures and traffic engineering techniques applied to transportation problems; trip generation, distribution, assignment, mode choice models; travel surveys, data collection techniques; arterial flow, intersection performance, parking; transit system analysis. Same as 102:162 (URP:4262). 053:179 (CEE:3179) Continuum Mechanics 3 s.h.
Mechanics of continuous media; kinematics of deformation, concepts of stress and strain; conservation laws of mass, momentum and energy; constitutive theories; boundary and initial value problems. Prerequisites: 057:019 (ENGR:2750) or 057:020 (ENGR:2510). Same as 058:179 (ME:3179). 053:194 (CEE:5094) Graduate Seminar: Transportation 0 s.h.
Recent advances and research in transportation engineering. Requirements: senior or graduate standing. 053:233 (CEE:6532) Finite Element II 3 s.h.
Optimal design problem formulation; optimality conditions; linear, quadratic, convex, and nonlinear programming; Lagrangian duality; numerical algorithms for unconstrained and constrained design problems, design sensitivity analysis, engineering applications. Prerequisites: 053:113 (CEE:5513). 053:236 (CEE:5236) Optimization of Structural Systems 3 s.h.
Advanced topics; optimization of structural topology, shape, and material; finite dimensional dynamic response optimization, sensitivity analysis, distributed parameter systems; projects. 053:243 (CEE:4543) Computational Inelasticity 3 s.h.
Computational techniques and implementations for elastic, hyperelastic, elasto-plastic, visco-elastic, and visco-plastic material models; development of sound numerical integration algorithms from rate constitutive equations. Prerequisites: 053:241. Same as 058:251 (ME:4251). 053:244 (CEE:6544) Energy Principles in Structural Mechanics 3 s.h.
Computational modeling of engineering materials ranging from molecular to continuum scales, molecular dynamics and Monte Carlo methods, nanoscale continuum modeling, scale-coupling methods. Prerequisites: 058:115 (ME:4115) or 058:143 (ME:5143). Same as 058:255 (ME:6255).
053:250 (CEE:7250) Advanced Fracture Mechanics 3 s.h.
Fracture of modern engineering materials; linear-elastic fracture; computational methods; functionally graded materials; elastic-plastic fracture; multiscale fracture and fatigue crack initiation. Prerequisites: 058:113 (ME:5113), and 058:115 (ME:4115) or 058:159 (ME:5159). Same as 058:250 (ME:7250).

053:263 (CEE:6763) Application Simulation to Transportation 3 s.h.
Transportation system management and traffic engineering; application of real-time simulation and visualization. Prerequisites: 053:063 (CEE:3763) or 053:163 (CEE:4763). Same as 102:263 (URP:6063).

Environmental Engineering and Science

053:003 (CEE:1030) Introduction to Earth Science 3-4 s.h.
Relationships between plate tectonics, geologic time, and the rock cycle with volcanoes and igneous, sedimentary, metamorphic rocks; fossils; radioactive isotopes; landscape evolution; mountain building; natural resources; their impacts on civilization. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as 012:003 (GEOS:1030).

053:050 (CEE:2150) Natural Environmental Systems 3-4 s.h.
Environmental chemistry and biology of air, water, and soil quality, air and water pollution, limnology, global atmospheric change, fate and transport of pollutants; hazardous substances, risk analysis, standard setting. Prerequisites: 004:011 (CHEM:1110). Same as 012:050 (GH5:2150).

053:055 (CEE:3155) Principles of Environmental Engineering 4 s.h.
Water supply and treatment processes; wastewater treatment processes; processes for air pollution control, groundwater remediation; solid and hazardous waste management. Prerequisites: 053:050 (CEE:2150).

053:102 (CEE:4102) Groundwater 3 s.h.
Groundwater quality and quantity; Darcy’s Law, 2-D flow equation, unsaturated zone, contaminant transport, redox reactions, drinking water quality, bioremediation; laboratories in permeameter testing, porous media grain size analysis, pump testing, monitoring well installation.

053:104 (CEE:4104) Groundwater Modeling 3 s.h.
Groundwater flow and contaminant transport modeling; numerical methods, applications of groundwater modeling to water supply, groundwater resources evaluation, remediation design using software; GMS (MODFLOW, MODPATH, and MT3D). Prerequisites: 012:166 (GEOS:4630) or 053:103 (CEE:4103), and 22M:026 (MATH:1860). Same as 012:184 (GH5:4660).

053:141 (CEE:4141) Design for the Developing World 3 s.h.
Experience working on interdisciplinary teams to solve problems of the developing world; technologies for improving water and sanitation, energy, housing, and health; community building strategies, participatory methods, other techniques essential to good design; service-learning component. Same as 152:141 (GHS:4141).

053:147 (CEE:4147) Decentralized Wastewater Treatment 3 s.h.
Established and innovative technologies used in decentralized wastewater treatment; lagoons, constructed wetlands, sand filters, and other ecological technologies appropriate for small wastewater flows; need for more sustainable treatment of small wastewater flows; Iowa’s approximately 739 unsewered communities throughout the state, high-growth areas surrounding Des Moines and Cedar Rapids-Iowa City corridor with small developments in need of wastewater treatment, developing countries. Prerequisites: 053:050 (CEE:2150), 053:055 (CEE:3155), and 053:071 (CEE:3371).

053:151 (CEE:4151) Biological Treatment Processes 3 s.h.
Applied microbiology and fundamental principles of aerobic and anaerobic biological wastewater treatment processes; sludge processing and advanced wastewater treatment and bioremediation; lectures and laboratory. Prerequisites: 053:050 (CEE:2150), 053:152 (CEE:5152), and 053:154 (CEE:5154). Corequisites: 053:055 (CEE:3155) and 053:156 (CEE:5156).

053:152 (CEE:5152) Environmental Chemistry I 3 s.h.
Principles of general, physical, organic chemistry applied in water and air systems; emphasis on qualitative and quantitative understanding of chemical kinetics and equilibrium; acid-base reactions, complex formation, precipitation, dissolution, and oxidation-reduction reactions; organic nomenclature. Prerequisites: 004:012 (CHEM:1120). Same as 052:231 (CBE:5152).

053:153 (CEE:4153) Environmental Chemistry Laboratory 3 s.h.
Laboratory experiments to demonstrate important concepts in environmental chemistry and to familiarize students with procedures used to characterize water and wastewater and evaluate certain treatment processes. Prerequisites: 004:012 (CHEM:1120). Corequisites: 053:152 (CEE:5152).

053:154 (CEE:5154) Environmental Microbiology 3 s.h.
Fundamentals of microbiology and microbial ecology with application in water quality and biodegradation of priority pollutants; lectures and laboratory. Corequisites: 053:152 (CEE:5152).

053:156 (CEE:5156) Physical-Chemical Process Fundamentals 3 s.h.
Theory of physical and chemical operations and processes in water and wastewater treatment, including fundamental aspects of process dynamics; lectures, laboratory. Prerequisites: 053:050 (CEE:2150) and 053:152 (CEE:5152). Corequisites: 053:055 (CEE:3155).

053:157 (CEE:4157) Environmental Engineering Design 3 s.h.
Application of physical, chemical, and biological operations and processes to the design of water and wastewater treatment systems; applications in solid and hazardous waste treatment. Prerequisites: 053:050 (CEE:2150), 053:071 (CEE:3371), and 053:055 (CEE:3155).

053:158 (CEE:4158) Solid and Hazardous Wastes 3 s.h.
053:159 (CEE:4159) Air Pollution Control Technology 3 s.h.
Sources, environmental and health impacts, regulations, modeling of air pollution; processes and alternative strategies for control; global climate considerations. Prerequisites: 053:050 (CEE:2150). Same as 052:235 (CBE:4459).

053:161 (CEE:5115) Atmospheric Chemistry and Physics 3 s.h.

053:180 (CEE:4180) Fundamentals of Atmospheric Science 3 s.h.
Review of fundamental principles in atmospheric sciences needed for study of interdisciplinary topics involving the Earth’s atmosphere; understanding weather and climate processes to address problems in engineering; hydrometeorology of rainfall and its measurement by remote sensing; impact of climate anomalies and climate change on water resources; exchange of water, energy, and chemicals at the land-atmosphere boundary; forecasting of atmospheric chemistry and air quality. Prerequisites: 057:020 (ENGR:2510).

053:204 (CEE:4220) Environmental Health Policy 3 s.h.
Major concerns in environment and human health, legislation enacted to deal with these concerns; emphasis on contemporary issues. Offered fall semesters of odd years. Requirements: 012:102 (GEOS:3020) or another 100-level geology or hydraulics course. Same as 012:138 (GEOS:3380).

053:251 (CEE:6151) Environmental Systems Modeling 3 s.h.
Mathematical modeling of environmental systems, including rivers, lakes, estuaries, treatment systems for conventional and toxic pollutants. Prerequisites: 053:050 (CEE:2150), 053:055 (CEE:3155), and 053:152 (CEE:5152).

053:253 (CEE:6253) Environmental Chemistry II 3 s.h.
Solid-liquid interface problems, heterogenous equilibria, environmental organic chemistry, modeling chemical equilibrium and kinetics, redox chemistry, atmospheric chemistry. Prerequisites: 053:152 (CEE:5152).

053:275 (CEE:5875) Perspectives in Biocatalysis 1-3 s.h.

Hydraulics, Hydrology, and Water Resources

053:071 (CEE:3371) Principles of Hydraulics and Hydrology 3 s.h.
Hydraulics of pressure conduits and open channels, dimensional analysis, flow measurements, hydraulic machinery, laboratory. Prerequisites: 057:020 (ENGR:2510).

053:103 (CEE:4103) Water Quality 3 s.h.
Sources, availability, uses, characteristics, criteria, best management practices for surface waters; protection of waters impaired by eutrophication, soil erosion and sedimentation; pathogenic organisms, habitat destruction, wastewater discharges, contaminated sediments, atmospheric deposition, watershed development, invasive species, irrigation return flows, stormwater discharges, nonpoint sources, agricultural runoff, laboratory component, measurement of water quality characteristics in the field.

053:117 (CEE:4317) Remote Sensing 3 s.h.
Fundamentals of electromagnetic waves, atmospheric radiative transfer, passive remote sensing, weather radar, hydrologic application of remote sensing.

053:118 (CEE:4118) Probabilistic Methods in Hydroscience 3 s.h.
Common probabilistic models used in hydrology, hydraulics, and water resources; derived distributions; multivariate models and estimation of model parameters; analysis of data and model building; uncertainty analysis. Prerequisites: 22M:034 (MATH:2560) and 22S:039 (STAT:2020).

053:119 (CEE:4119) Hydrology 3 s.h.
Overview of fundamental processes in water cycle, including precipitation, evaporation, infiltration, and runoff; quantitative approaches for predicting streamflow and design discharges; applications to flood hazard assessment and stormwater management. Prerequisites: 057:020 (ENGR:2510).

053:120 (CEE:4120) Water Resources Sustainability 3 s.h.
Effect of human impact on hydrologic ecosystems (aquifers, watersheds, coastal zones, lakes, and wetlands); quantitative measures of impact and mitigation/attenuation efforts; key questions addressed (What does water resources sustainability mean? How can it be measured? How can it be implemented?); worldwide case studies that illustrate the detrimental effects of unsustainable resource utilization and the benefits of implementing sustainable resource management strategies.

053:128 (CEE:3328) Fluvial Geomorphology 3 s.h.
Hydrologic principles, stream channel processes, and fluvial geomorphology within drainage basin systems; spatial and temporal variations in water distribution, analysis of hydrological data, flow mechanisms, sediment transport, forecasting procedures, hydrograph construction, modeling. Requirements: 012:102 (GEOS:3020) or another 100-level geology or hydraulics course. Same as 012:138 (GEOS:3380).

053:169 (CEE:5369) Intermediate Mechanics of Fluids 3 s.h.
Basic concepts and definitions; pressure distribution in a fluid; governing equations and boundary conditions; integral and differential analysis; dimensional analysis and similarity; experimental analysis; laminar and turbulent internal and external flows; potential flows; engineering applications. Prerequisites: 057:020 (ENGR:2510) and 058:040 (ME:3040). Same as 058:160 (ME:5160).

053:170 (CEE:4370) Flow in Open Channels 3 s.h.
In-depth analysis of governing flow equations; steady uniform flow in channels of different resistance and cross section; flow control sections; specific energy considerations; analysis and computation of gradually varied profiles and spatially varied flow effected by lateral outflow and inflow; unsteady flow; flood routing. Prerequisites: 053:071 (CEE:3371).
053:171 (CEE:4371) Water Resources Engineering 3 s.h.
Planning and economics of varied water resources projects; stochastic basis for design; flood damage mitigation, reservoirs, river morphometry, economic analysis of water projects, urban water requirements, water supply, hydroelectric power systems, river navigation; contemporary civil-engineering problems and issues associated with water infrastructure development. Prerequisites: 053:174 (CEE:4374).

Review of theory; importance of experiments; modeling and scaling laws; experimental environment and facilities; measurements at full scale and on scaled models; use of wind and water tunnels, towing tanks, and hydraulic flumes; instruments for measuring pressure, temperature, velocity, turbulence; error analysis; data acquisition and processing; laboratory demonstrations, hands-on experiments; project. Same as 058:162 (ME:5162).

053:173 (CEE:4373) Alluvial Channel Hydraulics 3 s.h.
Laws governing fall velocity, applications to particle-size analysis; incipient motion, bed forms, bed load, suspended load, natural river processes; theory and practice of movable-bed model experiments. Prerequisites: 053:170 (CEE:4370).

Prerequisites to storm water management systems design, including design flows and rates; analysis and design of storm sewers, detention basins, street and highway drainage facilities, culverts, dams, spillways, measures for energy dissipation; review of wastewater transfer systems and design. Prerequisites: 225:039 (STAT:2020) and 053:071 (CEE:3371).

053:175 (CEE:5375) Environmental Fluid Dynamics 3 s.h.
Same as 058:163 (ME:5163).

053:178 (CEE:4378) Hydrometeorology 3 s.h.
Atmospheric thermodynamics; precipitation processes; evaporation; infiltration; surface runoff; hydrographs, runoff relations; runoff hydrograph; storage problems; frequency, intensity, duration studies of storms, floods, droughts; hydrometeorological observations and network design; watershed modeling; urban hydrology climate.

053:183 (CEE:5083) Introduction to Comp Flow in Pipes and Channels 3 s.h.
General review of numerical methods in hydraulics (finite-difference, finite-element, and method of characteristics); stability and accuracy of numerical schemes; steady free surface flows; flow transients in pipelines and channels. Prerequisites: 053:169 (CEE:5369).

053:184 (CEE:5184) The Fate and Transport of Contaminated Sediments 3 s.h.
Rich and complex field of sediment and contaminant transportation; involves physical, chemical, biological processes as well as mathematical modeling of these processes; recently investigated topics not covered elsewhere; physical processes affecting stability/mobility, transport, and fate of contaminants in sediments; lack of general understanding of development of fine-scale sedimentary structure in different systems, particularly contamination and contamination release; issue of sand suspension effects on turbulent flows; flow dynamics. Prerequisites: 053:030 (CEE:3530), 053:170 (CEE:4370), and 053:173 (CEE:4373).

053:185 (CEE:4385) International Perspectives in Water Sciences and Management 3 s.h.
Internationalization and water, with focus on a country or a world region; intensive, in-depth exposure to complex issues that affect planning and execution of water projects in large-scale watersheds.

053:216 (CEE:5216) Coherent Structures in Environmental Hydraulics 3 s.h.
Introduction to coherent structures and their role in explaining the physics of several important categories of environmental flows; focus on examples related to hydraulics, river engineering, stratified flows, and geosciences; turbulence modeling using eddy resolving techniques that can capture the dynamics of coherent structures; no prior experience in coding or numerical methods is expected. Prerequisites: 053:169 (CEE:5369). Requirements: M.S. or Ph.D. standing.

053:220 (CEE:6520) Watershed Sedimentation 3 s.h.
Exploration of rich and complex field of sediment transport, geomorphology, and contaminant transport; associated physical, chemical, and biological processes with associated mathematical modeling; investigation of current topics not covered elsewhere, including physical processes affecting stability/mobility, transport, and fate of soil/sediments; lack of general understanding in development of fine-scale sedimentary structure in different systems, particularly contamination and contamination release; suspension effects on turbulent flows. Prerequisites: 053:170 (CEE:4370) and 053:173 (CEE:4373).

053:272 (CEE:6372) Environmental Dispersion Processes 3 s.h.
Review of classical diffusion theories; longitudinal dispersion, transverse and vertical mixing in free-surface turbulent shear flow; application to natural channels; selected topics including stream-tube models, mixing and dispersion of heated effluents. Corequisites: 053:169 (CEE:5369).

053:276 (CEE:6376) Viscous Flow 3 s.h.

Graduate Seminars, Advanced Topics, Research

053:190 (CEE:5090) Readings in Civil and Environmental Engineering arr.
For graduate nonmajors who want to earn credit in undergraduate civil and environmental engineering courses. Requirements: nonengineering graduate standing.

053:191 (CEE:5091) Graduate Seminar: Structure, Mechanics, Materials
Presentation and discussions of recent advances and research in structures, mechanics, and materials engineering by guest lecturers, faculty, students. Requirements: senior or graduate standing.

053:192 (CEE:5092) Graduate Seminar: Coherent Structures in Environmental Hydraulics
Presentation and discussions of recent advances and research in environmental science and engineering by students, guest lecturers, faculty. Requirements: senior or graduate standing.

053:193 (CEE:5093) Graduate Seminar: Hydraulics, Hydrology, and Water Resources
Presentation and discussions of recent advances and research in hydraulics, hydrology, and water resources by guest lecturers, faculty, students. Requirements: senior or graduate standing.
053:195 (CEE:4995) Contemporary Topics in Civil and Environmental Engineering
New topics or areas of study not formally offered in other civil and environmental courses: ice engineering, chaos and strange attractors, remote sensing, nonlinear dynamics of hydrologic processes, advanced water and wastewater treatment processes, hazardous waste control, global climate change, damage mechanics; based on faculty/student interest.

053:198 (CEE:5998) Individual Investigations: Civil and Environmental Engineering
Individual projects for civil and environmental engineering graduate students: laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

053:199 (CEE:5999) Research: Civil and Environmental Engineering M.S. Thesis
Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for the M.S. with thesis in civil and environmental engineering. Requirements: graduate standing.

053:215 (CEE:6315) Hydrogeology Seminar
Innovative experimental and modeling studies in hydrogeology; experimental need, design, mathematical formulation, assumptions, data collection techniques; data analysis and its importance to groundwater modeling. Prerequisites: 012:166 (GEOS:4630). Same as 012:210 (GEOS:6100).

053:299 (CEE:7999) Research: Civil and Environmental Engineering Ph.D. Dissertation
Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for the Ph.D. in civil and environmental engineering.
Electrical and Computer Engineering

Chair
Milan Sonka

Professors

Professors emeriti
Steve M. Collins, Earl D. Eymen, Adrianus Korpel, Karl E. Longnren, Norbert R. Malik, John P. Robinson

Associate professors
Mark S. Andersland, Anton Kruger, John Prineas, Punam Saha, Tom Schnell, Xiaodong Wu

Assistant professors
Reinhard Beichel, Guadalupe Canahuata, Mona Garvin, Mathews Jacob, Hans Johnson, Raghuraman Mudumbai, Hassan Raza, Alf Siochi, Weiyu Xu

Adjunct assistant professors
Dave Matthews, Ed Ratner, Andreas Wahle

Lecturers
Cliff Curry, Jim Maxted, Dan Thedens

Undergraduate major: electrical engineering (B.S.E.)

Graduate degrees: M.S. in electrical and computer engineering; Ph.D. in electrical and computer engineering

Web site: http://www.ece.engineering.uiowa.edu/

Electrical engineers and computer engineers make vital contributions to nearly all facets of modern society through their work in areas such as computer systems, medical imaging, robotics, wireless communications, and fiber optics. From the World Wide Web to high-definition television, cellular telephones, and computer networks, the contributions of electrical and computer engineers are changing everyday life.

Many benefits that have sprung from electrical engineering technology now are taken for granted—noninvasive imaging of the brain and other internal organs, astonishing views of the solar system’s outer planets, and wireless telecommunications. Electrical engineers also play crucial roles in major emerging technologies, for example, wireless Internet, optical communications, and mapping of the human genome.

As the United States strives to retain or enlarge its share of national and international markets, electrical engineers are certain to play an important role in improving productivity through automation, increased efficiency, and new technologies.

Electrical and computer engineers work in research, design, development, manufacturing, sales, market analysis, consulting, field service, and management. They are employed in computer, semiconductor, software, aerospace, telecommunication, medical, radio, television, and power industries.

Undergraduate Program

Major in electrical engineering (Bachelor of Science in Engineering)

The undergraduate program in electrical engineering produces graduates who:

• contribute to society in a broad range of careers;
• function professionally in an increasingly international and rapidly changing world;
• effectively understand, use, and develop modern electrical and computer engineering technologies and concepts; and
• achieve success throughout their careers.

Bachelor of Science in Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in electrical engineering provides technical depth and breadth as well as flexibility and the opportunity for students to customize their programs according to their own goals. Students choose one of two tracks: computer or electrical engineering. The computer track provides focus and depth for students preparing for careers or graduate study in computer systems hardware or software engineering. The electrical engineering track provides a broad background in electrical engineering concepts and practice, preparing students for careers in a wide range of industries and organizations.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric; 059:005 (ENGR:1100) Engineering Problem Solving I and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Electrical engineering students complete a core of electrical and computer engineering foundation courses and then take five required track courses and two track electives. See "Track Breadth and Depth Electives" after the following curriculum list. Students must select elective focus area courses according to guidelines established by the Department of Electrical and Computer Engineering. See "Elective Focus Area" after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the electrical engineering major. Some courses in the curriculum are prerequisites for others. Students who take courses in the order below satisfy the prerequisite requirements automatically. Students who do not follow this sequence still must satisfy all course prerequisites.
**FIRST YEAR**

**First Semester**
004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
010:003 (RHET:1030) Rhetoric 4 s.h.
059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree) 1 s.h.

**Second Semester**
22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
029:081 (PHYS:1611) Introductory Physics I 3 s.h.
059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.
General education component course 3 s.h.

**SECOND YEAR**

**First Semester**
029:082 (PHYS:1612) Introductory Physics II 3 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.

**Second Semester**
22M:037 (MATH:3550) Engineering Mathematics V: Vector Calculus 3 s.h.
055:018 (ECE:2740) Principles of Electronic Instrumentation 4 s.h.
055:040 (ECE:2400) Linear Systems I 3 s.h.
057:017 (ENGR:2730) Computers in Engineering 3 s.h.
General education component course 3 s.h.

**THIRD YEAR**

**First Semester**
22S:039 (STAT:2020) Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
055:032 (ECE:3320) Introduction to Digital Design 3 s.h.
055:070 (ECE:3700) Electromagnetic Theory 3 s.h.
055:091 (ECE:3000) Professional Seminar: Electrical Engineering 1 s.h.
Two required track courses 6 s.h.

**Second Semester**
Three required track courses 9 s.h.
Two elective focus area courses 6 s.h.
General education component course 3 s.h.

**FOURTH YEAR**

**First Semester**
055:088 (ECE:4880) Principles of Electrical Engineering Design 3 s.h.
Track breadth elective 3 s.h.
Three elective focus area courses 9 s.h.
General education component course 3 s.h.

Second Semester
055:089 (ECE:4890) Senior Electrical Engineering Design 3 s.h.
Track depth elective 3 s.h.
Two elective focus area courses 6 s.h.
General education component course 3 s.h.

**Required Track Courses**
Both curriculum tracks require five track courses, as follows.

**COMPUTER TRACK**
22C:019 (CS:2210) Discrete Structures 3 s.h.
22C:031 (CS:3330) Algorithms 3 s.h.
055:033 (ECE:3330) Introduction to Software Design 3 s.h.
055:035 (ECE:3350) Computer Architecture and Organization 3 s.h.
055:036 (ECE:3360) Embedded Systems and Systems Software 3 s.h.

**ELECTRICAL ENGINEERING TRACK**
055:041 (ECE:3410) Electronic Circuits 4 s.h.
055:043 (ECE:3400) Linear Systems II 3 s.h.
055:050 (ECE:3500) Communication Systems 3 s.h.
055:060 (ECE:3600) Control Systems 3 s.h.
055:072 (ECE:3720) Electrical Engineering Materials and Devices 3 s.h.

**TRACK BREADTH AND DEPTH ELECTIVES**
Students in the computer track must choose their track breadth elective from the list of courses required for the electrical engineering track. Students in the electrical engineering track must choose their track breadth elective from the list of courses required for the computer track.

Students also choose one track depth elective, which must be an advanced course in a subject area within the student’s track—normally a 100-level course for which one of the required track courses is a prerequisite. For a complete list of depth electives for each track, see the Department of Electrical and Computer Engineering website.

**Elective Focus Area**
The elective focus area provides access to the broad range of course work in the department, the college, and the University. Students work with their academic advisors to develop an elective focus area tailored to their own goals—for example, additional technical depth in one or more areas of electrical engineering, completion of a minor in a relevant area, completion of the Certificate in Technological Entrepreneurship, or pursuit of interdisciplinary experience.

The elective focus area must include at least 15 s.h. of technical course work, at least 6 s.h. of which must be earned in 100-level electrical and computer engineering courses. Students earning a minor in business administration (Tippie College of Business) or a Certificate in Technical Entrepreneurship may apply up to 6 s.h. of the required technical course work to the minor or certificate. All students must demonstrate an ability to work on multidisciplinary teams.

All elective focus area plans must be approved in advance by the department.

For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the
The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for electrical engineering undergraduate students who intend to earn an M.S. in electrical and computer engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work and do thesis-level research while they are still undergraduates. They may count 9 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Electrical and Computer Engineering.

Graduate Programs

- Master of Science in electrical and computer engineering (with or without thesis; software engineering subtrack available)
- Doctor of Philosophy in electrical and computer engineering

The Department of Electrical and Computer Engineering stimulates excellence in scholarship and research through close contact with the faculty and programs tailored to fit students’ individual needs.

Students select an advisor and, with the advisor, plan an individual program bounded only by the broad guidelines of the Graduate College and the program. The department maintains close interdisciplinary ties with other University of Iowa departments, especially with the Departments of Physics and Astronomy, Computer Science, Mechanical and Industrial Engineering, and Biomedical Engineering, and the Carver College of Medicine. Principal areas of graduate study include waves and materials, computer systems, wireless communications, signal and image processing, computational genomics, and control systems and robotics.

Research and Study Areas

BIOINFORMATICS AND COMPUTATIONAL BIOLOGY

The Center for Bioinformatics and Computational Biology (CBCB) is a multidisciplinary research enterprise that encompasses numerous laboratories and collaborates with many graduate programs on campus. Students may earn the Certificate in Informatics, offered by the Graduate College, to augment their Ph.D. training in disciplines ranging from molecular biology to biochemistry to computer science to engineering.

Since 1994, the Coordinated Laboratory for Computational Genomics, a CBCB affiliate, has engaged in a broad range of research activities that complement the Human Genome Project. Members of the laboratory develop new hardware and software techniques for analysis and annotation of genomic sequence, its transcription and translation, and the proteome. Other efforts are aimed at systematic capture and curation of phenotypic information acquired from massive databases of clinical information derived from collaborations with the College of Medicine. The goal of these projects is to elucidate the mechanisms of human disease and develop promising new methods for cures and treatments.

The laboratory’s facilities include more than 200 workstations, 3 Linux clusters, and access to the NSF TeraGrid and other high-performance computing facilities. Projects in the laboratory frequently involve cutting-edge genomic and proteomic instruments such as the Roche 454 next-generation sequencing platform and several high-throughput gene expression (microarray) measurement platforms.

COMPUTER SYSTEMS AND VLSI CIRCUITS

Research emphasis is directed toward design and test of very-large-scale integrated (VLSI) circuits, high-performance computing and networking, and intelligent agent systems. Research in the VLSI area involves development of techniques and algorithms that assist in synthesis and testing of large-scale logic circuits, and incorporation of these techniques into computer-aided design tools. Current projects include new pattern sources for built-in-test, efficient test pattern generation, generation of compact test sets, and methods for reducing test data volumes.

High-performance computing research involves development of collaborative and parallel computing environments and associated software tools, and use of these facilities and tools in varied application domains, including image processing and computational biology. Current work in networking focuses on protocols and layer-integration schemes that support high-performance wireless networking, and on control and coordination of mobile ad hoc networks. Current research facilities in these areas include several large cluster computers and an experimental asynchronous transfer mode (ATM) network.

Departmental facilities that support this work include a network of SUN, HP, SGI, and Linux workstations, and high-speed network connections to collegiate, University, and national facilities, including an NSF-funded, dedicated ATM network of high-performance workstations, the college’s Engineering Computer Services, the University’s Information Technology Services, national supercomputer centers, federal laboratories, and facilities at other universities.

CONTROL SYSTEMS AND ROBOTICS

Current research emphasizes optimal, adaptive, digital, robust and stochastic control and the control of discrete event dynamical systems. Recent work has concerned the estimation, identification, and robust control of linear and nonlinear dynamical systems; set membership identification, control over wireless communication channels; coordinated fault tolerant control of unmanned vehicles; use of control theory to analyze distributed computing, communications, and manufacturing systems; and fast digital controllers using subband coding; and multirate control systems.

NANOSCALE ELECTRONICS AND SPINTRONICS

Nanoscale devices and systems provide solutions for low-power logic devices, high-density 3-D stackable electronic and/or spintronic memory elements, and solar/waste energy harvesting applications. Current nanoscale and
spintronics work involves post-CMOS transistor research to extend Moore’s law in this century; use of novel magnetic and nonmagnetic nanomaterials for enhanced-CMOS and nonvolatile memory; and intelligent solar cells, thermoelectric devices, fuel cells and batteries for efficient solid-state energy conversion. Departmental researchers are pursuing experimental, theoretical, and large-scale computational approaches.

**SIGNAL AND IMAGE PROCESSING**

Research in image processing and basic and applied signal processing is supported by a digital signal processing laboratory and an image analysis laboratory. Collaborative research with faculty in the Departments of Radiology, Neurology, Psychiatry, Internal Medicine, Ophthalmology and Visual Sciences, Radiation Oncology, and Biomedical Engineering is directed at quantitative analysis of medical images.

In the area of signal processing, current projects include analysis and design of efficient adaptive algorithms for signal processing, efficient coding and transmission of speech, speech processing aids for the hearing-impaired, robust equalization of uncertain channels, application of neural networks to communications systems, multirate signal processing, and subband coding and channel equalization.

Image processing and analysis projects include development of novel methods for image segmentation, image registration, computer-aided detection and diagnosis, early identification of disease patterns from medical image data, computer-aided surgical planning, virtual and augmented reality medical image visualization, building anatomic atlases, and a broad range of translational medicine projects focusing on research and clinical applications of the novel methods. The areas of interest span all scales, from molecules to cells to small animals to humans, and cover a broad range of organ systems and targeted diseases. The spectrum of medical imaging modalities used for research and applications in image processing and analysis is equally broad, encompassing all existing modalities, including X-ray, CT, MR, PET, SPECT, and OCT.

The Medical Image Analysis Labs consist of several specialized facilities for digital image processing. They are equipped with state-of-the-art devices for data storage, transfer, visualization, and analysis. High-capacity data storage devoted to image processing research offers more than 17 TB of online hard disk space. An augmented reality medical image visualization lab serves as a high-performance collaborative resource for the Iowa Institute for Biomedical Imaging. The institute makes additional resources available to image processing research, including small and large animal as well as human research scanning facilities, and provides a backbone for interdisciplinary medical image analysis research to electrical and computer engineering graduate students and faculty.

**WAVES AND MATERIALS**

Research in this area is carried out primarily in the Iowa Advanced Technology Laboratories, a well-equipped, modern facility two blocks from the Engineering Building, and in Van Allen Hall. Current research topics are optical and electronic properties of semiconductors, semiconductor devices, electro-optics, nonlinear optics, nonlinear wave propagation in plasmas, nanotechnology, and medical devices.

Much work is done in collaboration with other University of Iowa departments, including the Departments of Physics and Astronomy, Chemistry, Internal Medicine, and Neurosurgery. Facilities include two molecular beam epitaxy reactors (in physics and astronomy), a microfabrication laboratory with micrometer resolution capabilities, electrical characterization capability to 22 GHz, several Ti-sapphire lasers, a mid-infrared optical parametric oscillator, and plasma equipment for nonlinear wave plasma interaction studies.

Examples of current projects are the design and fabrication of diode lasers based on the bandgap engineering of antimony and arsenic-based III-V compound semiconductors, phase control of laser arrays, development of an all-optical power equalizer, characterization of quantum well devices, nonlinear waveguide devices, development of a noncontact method to measure transport properties, plasma and optical soliton excitation and propagation, development of cellular probes, and a noninvasive glucose sensor for medical research.

**WIRELESS COMMUNICATION SYSTEMS**

The department is engaged in research using wireless sensor networks (WSNs), which consist of spatially distributed autonomous devices that use sensors to cooperatively monitor physical or environmental conditions such as temperature, sound, vibration, pressure, motion, and pollutants at different locations. WSNs are used for environment and habitat monitoring, healthcare applications, home automation, and traffic control. Current research includes the application of WSN, traditional telemetry, and commercial cellular communication infrastructure for geosciences data collection (e.g., rainfall, water quality, soil moisture).

Another important research interest involving distributed sensor networks is the distributed control of power systems, especially requirements of the next-generation electric grid with smart metering and distributed generation using small-scale wind and solar generators. Research on WSNs also includes the design of cooperative communication techniques for energy efficient WSNs and issues of localization, network organization, and control.

Research activities in communication systems focus on design and analysis of receivers for digital wireless communications, especially the development of effective and practical receivers for multiple-user wireless cellular systems in multipath channels. Projects include the removal of intersymbol interference by blind identification/equalization, multiple-user detection in CDMA without power control, receiver structures for 3G wireless cellular systems, cooperative beam forming for ad hoc wireless networks, resource allocation in OFDM systems, and scheduling in wireless networks. Fundamental theoretical issues and practical implementation are emphasized.

**Master of Science**

The Master of Science program in electrical and computer engineering requires 30 s.h. of graduate credit with thesis and 36 s.h. of graduate credit without thesis. Either option may precede Ph.D. study.
M.S. students must maintain a cumulative g.p.a. of at least 3.00.

Thesis students must complete at least 12 s.h. from an approved list of electrical and computer engineering courses and 6 s.h. in 055:199 (ECE:5999) Research: Electrical and Computer Engineering M.S. Thesis. Nonthesis students must complete at least 18 s.h. from an approved list of electrical and computer engineering courses; nonthesis students may count no more than 3 s.h. of independent study toward the degree. Courses required for the B.S.E. in electrical engineering do not count toward the M.S. requirements.

All M.S. students must successfully complete a final examination, which is conducted by a committee of at least three faculty members. One part of the final examination for thesis students consists of an oral defense of the thesis.

**M.S. Subtrack in Software Engineering**

A Master of Science subtrack in software engineering is available to both thesis and nonthesis students. The M.S. with software engineering subtrack requires the same amount of graduate credit as the M.S. without the subtrack: a minimum of 30 s.h. for the thesis option, and 36 s.h. for the nonthesis option. All rules for additional credit and the M.S. final examination are the same as for the M.S. without the subtrack. Successful completion of the subtrack results in the designation "with specialization in software engineering" on the student's transcript.

The software engineering subtrack requires the following course work.

055:131 (ECE:5310) Introduction to VLSI Design 3 s.h.
055:132 (ECE:5320) High Performance Computer Architecture 3 s.h.
055:133 (ECE:5330) Graph Algorithms and Combinatorial Optimization 3 s.h.
055:180 (ECE:5800) Fundamentals of Software Engineering 3 s.h.
055:182 (ECE:5820) Software Engineering Languages and Tools 3 s.h.
055:183 (ECE:5830) Software Engineering Project 3 s.h.

In addition to the courses listed above, thesis students complete another 3 s.h. of course work from the approved list of electrical and computer engineering courses; nonthesis students complete another 6 s.h.

**Doctor of Philosophy**

The Doctor of Philosophy program in electrical and computer engineering requires a minimum of 72 s.h. of graduate credit. At least 45 s.h. must be earned in formal course work (not in thesis work or other independent study), including 30 s.h. from an approved list of electrical and computer engineering courses. Each Ph.D. student's study plan must be approved by the student's advisor and by the graduate committee.

Ph.D. students must maintain a cumulative g.p.a. of 3.25 or higher in all graduate course work.

Acceptance to the Ph.D. program requires successful completion of the Ph.D. qualifying examination. This all-day written exam is given once a year, late in the spring semester. It covers four areas chosen by the student from a list of six. Students normally are expected to take the qualifying examination within the first 30 s.h. of graduate studies. A cumulative g.p.a. of at least 3.25 is required for admittance to the exam. Students who fail the examination may retake it only once, the next time it is offered.

Following successful completion of the Ph.D. qualifying examination and invitation to the Ph.D. program, a student must complete the two-part Ph.D. comprehensive examination. The first part is a written research proposal that includes a thorough literature survey providing the motivation and background for the proposal. The second part is an oral examination.

Students must pass the Ph.D. qualifying examination before they may take the Ph.D. comprehensive exam, and they must complete the comprehensive exam no later than three calendar years after passing the qualifying exam. Students who fail to meet this deadline must retake the qualifying exam. The qualifying exam and the comprehensive exam may not be taken in the same semester.

The final requirement for completion of the Ph.D. program is the preparation and successful defense of the Ph.D. thesis. This must be completed no sooner than six months but no longer than three years after completion of the comprehensive examination.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

M.S. applicants must have a g.p.a. of at least 3.00, and Ph.D. applicants must have a g.p.a. of at least 3.25, on all electrical and computer engineering, mathematics, and physics course work. M.S. applicants with a g.p.a. between 2.75 and 3.00 in electrical and computer engineering, mathematics, and physics course work may be admitted on probation, if warranted by other aspects of their academic records.

Students with baccalaureate degrees in related areas (e.g., physics, mathematics, and computer science) may be admitted on conditional status. They may be required to complete additional course work, without earning graduate credit, before being granted regular status.

Each application is reviewed individually. Extenuating circumstances may permit deviations from the usual standards.

**Financial Support**

A number of fellowships, traineeships, assistantships, scholarships, and industrial grants are available to graduate students who qualify. These are awarded on a competitive basis.
Facilities and Laboratories

Undergraduate Core
Electrical and computer engineering provides core instruction for the college in electrical circuits, electronics, instrumentation, and computers. A key part of this core teaching responsibility lies in providing students with an early opportunity to use engineering laboratory instrumentation.

Undergraduate Laboratories
The undergraduate laboratories include facilities for the study of electrical and electronic circuits, signals and systems, microprocessor-based computers and systems, measurement automation, communication systems, control systems, computer-aided design of VLSI circuits, image processing, robotics, and optics. The laboratories are equipped with modern equipment, including digital oscilloscopes, computer-controlled virtual instrumentation, and software and hardware for embedded-systems development.

Graduate Facilities and Laboratories
The department has laboratories intended primarily for graduate research in the areas of parallel processing, image processing, robotics, and optics. These laboratories are equipped with modern equipment, including digital oscilloscopes, computer-controlled virtual instrumentation, and software and hardware for embedded systems.

Courses

Special Topics

055:000 (ECE:0000) Cooperative Education Training Assignment: Electrical Engineering
Electrical engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student's permanent record. Requirements: admission to Cooperative Education Program.

055:002 (ECE:0002) Half-time Cooperative Education Training Assignment: Electrical Engineering
Registration for work assignment periods; for students participating in the Cooperative Education Program.

055:012 (ECE:2120) Art and Engineering
Collaborative, interdisciplinary, cutting-edge opportunity to gain real-world engineering experience while learning to think creatively and analytically to create engaging works of art; interdisciplinary collaboration and creative methodologies that enhance life-long creative practice of artists and engineers; basic electronics and Arduino prototyping platform to create programmable, sensor-driven, responsive circuits. Same as 01T:020 (TDSN:2205).

055:018 (ECE:2740) Principles of Electronic Instrumentation
Principles of analog signal amplification, signal conditioning, filtering; operational amplifier circuit analysis and design; principles of operation of diodes, bipolar transistors, field effect transistors; discrete transistor amplifier analysis and design; laboratory included. Prerequisites: 029:082 (PHYS:1612) and 059:008 (ENGR:2120).

055:088 (ECE:4880) Principles of Electrical Engineering Design
Design problems requiring integration of subject matter from other required electrical and computer engineering courses. Requirements: senior standing.

055:089 (ECE:4890) Senior Electrical Engineering Design
Individual or team project; demonstration of completed project and formal engineering report. Prerequisites: 055:088 (ECE:4880) Requirements: senior standing.

055:091 (ECE:3000) Professional Seminar: Electrical Engineering
Professional aspects of electrical engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Requirements: junior standing.

055:098 (ECE:3998) Individual Investigations: Electrical Engineering
Individual projects for electrical engineering undergraduate students: laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research.

Digital Systems, Computers, Software Engineering

055:032 (ECE:3320) Introduction to Digital Design
Modern design and analysis of digital switching circuits; combinational logic; sequential circuits and system controllers; interfacing and busing techniques; design methodologies using medium- and large-scale integrated circuits; lab arranged. Requirements: sophomore standing.

055:033 (ECE:3330) Introduction to Software Design
Design of software for engineering systems; algorithm design and structured programming; data structures; introduction to object-oriented programming in JAVA; applications to engineering problems; lab arranged. Prerequisites: 057:017 (ENGR:2730).

055:035 (ECE:3350) Computer Architecture and Organization
Basic concepts; computer evolution, register transfer level design, simulation techniques, instruction sets (CISC and RISC), assembly language programming, ALU design, arithmetic algorithms and realization of arithmetic functions, hardwired and microprogrammed control, memory hierarchies, virtual memory, cache memory, interrupts and DMA, input/output; introduction to high-performance techniques, pipelining, multiprocessing; introduction to hardware description languages (Verilog, VHDL); students design and simulate a simple processor. Offered fall semesters. Prerequisites: 055:032 (ECE:3320) and 057:017 (ENGR:2730).
055:036 (ECE:3360) Embedded Systems and Systems Software
  Microprocessors and microcontrollers as components in engineering systems; embedded system design processes; microcontroller/microprocessor architecture; interrupts and traps; memory and device interfacing; low-level and high-level software design for embedded systems; examples of embedded system architecture and design; fundamentals of operating systems; tasks and processes; context switching and scheduling; memory and file management, interprocess communication; device drivers. Prerequisites: 057:017 (ENGR:2730).

055:121 (ECE:3213) Introduction to Bioinformatics
  Basics of genetics and molecular biology; overview of bioinformatics and genome science, including genome projects, functional genomics, phylogenetics, proteomics, microarrays, DNA polymorphisms, data-mining algorithms; experimental methods, analysis issues. Prerequisites: 002:128 (BIOL:2512) or 099:120 or graduate standing. Same as 002:169 (BIOL:3213), 051:121 (BME:3310).

055:122 (ECE:5220) Computational Genomics
  Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Same as 002:174 (BIOL:5320), 051:122 (BME:5330), 127:173 (GENE:5173).

055:130 (ECE:5300) Switching Theory
  Switching algebras; combinational circuits—hazards, minimization, multiple-output networks; sequential circuits—critical races, essential hazards, fundamental-mode, pulse-mode, synchronous circuits-state assignment, state reduction; input-output experiments. Prerequisites: 055:032 (ECE:3320).

055:131 (ECE:5310) Introduction to VLSI Design
  MOS devices and circuits; MOS transistor theory, MOS processing technologies, MOS device models; timing and power considerations;microwaves and RF circuits; various logic families; circuit techniques; clocking strategies; I/O structures; design styles; ASIC design; MOS subsystem design; system case studies, use of electronic design automation tools, introduction to hardware description languages, design synthesis, design projects; lab. Prerequisites: 055:032 (ECE:3320) and 055:041 (ECE:3410).

055:132 (ECE:5320) High Performance Computer Architecture
  Problems involved in designing and analyzing current machine architectures using hardware description language (HDL) simulation and analysis, hierarchical memory design, pipeline processing, vector machines, numerical applications, multiprocessor architectures, and parallel algorithm design techniques; evaluation methods to determine relationship between computer design and design goals. Prerequisites: 22C:112 (CS:3620) or 055:035 (ECE:3330). Same as 22C:160 (CS:5610).

055:133 (ECE:5330) Graph Algorithms and Combinatorial Optimization
  Combinatorial optimization problems; time complexity; graph theory and algorithms; combinatorial optimization algorithms; complexity theory and NP-completeness; approximation algorithms; greedy algorithms and matroids. Prerequisites: 055:033 (ECE:3330).

055:138 (ECE:5380) Testing Digital Logic Circuits
  Logic models for faults; fault detection in combinational and sequential circuits; fault-diagnosis; design for testability; random testing, compressed data testing, built-in testing. Prerequisites: 055:032 (ECE:3320).

055:180 (ECE:5800) Fundamentals of Software Engineering
  Problem analysis, requirements definition, specification, design, implementation, testing/maintenance, integration, project management; human factors; management, technical communication; design methodologies; software validation, verification; group project experience. Prerequisites: 22C:022 (CS:2820) or 055:033 (ECE:3330). Same as 22C:180 (CS:5800).

  Models, methods, and their application in all phases of software engineering process; specification methods; verification of consistency, completeness of specifications; verification using tools. Prerequisites: 22C:022 (CS:2820) or 055:033 (ECE:3330). Recommendations: 22C:188 (CS:4350). Same as 22C:181 (CS:5810).

055:182 (ECE:5820) Software Engineering Languages and Tools
  Object-oriented programming concepts (objects, classes, single and multiple inheritance, polymorphism and dynamic binding); object-oriented languages and environments such as JAVA and Eiffel; introduction to design patterns and software architectures such as Model-View-Controller and application frameworks; component-based software development; use of standard component frameworks such as CORBA and COM/DCOM. Prerequisites: 22C:180 (CS:5800) or 055:180 (ECE:5800). Requirements: experience with an object-oriented programming language. Same as 22C:182 (CS:5820).

055:183 (ECE:5830) Software Engineering Project
  Team software development project using concepts and methodologies learned in earlier software engineering classes; practical aspects of large-scale software development. Prerequisites: 22C:180 (CS:5800) and 22C:182 (CS:5820). Same as 22C:183 (CS:5830).

Signal and Image Processing

055:040 (ECE:2400) Linear Systems I
  Introduction to continuous and discrete time signals and systems with emphasis on Fourier analysis; examples of signals and systems; notion of state and finite state machines; causality; linearity and time invariance; periodicity; Fourier transforms; frequency response; convolution; IIR and FIR filters, continuous and discrete Fourier transforms; sampling and reconstruction; stability. Prerequisites: 22M:034 (MATH:2560) and 059:008 (ENGR:2120).

055:041 (ECE:3410) Electronic Circuits
  Design and analysis of FET and BJT amplifiers; low, midrange, high-frequency analysis; difference amplifiers; feedback amplifiers; SPICE simulation; power amplifiers; digital logic families. Prerequisites: 055:018 (ECE:2740) and 055:040 (ECE:2400).

055:043 (ECE:3400) Linear Systems II
  Continuation of 055:040 (ECE:2400), emphasis on Laplace and Z-transform analysis; unilateral and bilateral Laplace transform; region of convergence; stability; block diagram algebra; first- and second-order continuous and discrete time systems; Bode plots. Prerequisites: 055:040 (ECE:2400).

055:141 (ECE:5410) Advanced Circuit Techniques
  Advanced circuit principles; component, signal and noise models; sub-circuit design including oscillators, amplifiers, multipliers, noise generators, frequency converters, phase-locked loops, filters, transmission gates and level-shifters; measurement techniques including bridge, signal averaging and lock-in techniques, case studies of A/D and D/A converters, single-supply op amps, low-noise, large-signal and high frequency circuits; lab. Prerequisites: 055:041 (ECE:3410).
055:142 (ECE:5420) Power Electronics 3 s.h.
Fundamental concepts and design techniques of power electronics circuits; switching power pole and various switch-mode DC to DC power conversion topologies; feedback control of switch-mode DC to DC power supplies; diode rectification of AC utility power and Power Factor Control (PFC) circuits; electromagnetic concepts and design of high-frequency inductors and transformers; electronically isolated switch-mode DC power supply topologies and soft-switching DC-DC converters and inverters; techniques for synthesis of DC and low-frequency AC sinusoidal voltages. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:143 (ECE:5620) Electric Power Systems 3 s.h.
Overview of electric power systems; single phase and three-phase representations of electric power signals and electromagnetic concepts; AC transmission lines and underground cables, power flow in a power system network, AC power transformers, High Voltage DC (HVDC) power transmission, electric power distribution, synchronous generators, voltage regulation and stability, power system transients and dynamic stability, control of interconnected power systems, transmission line faults, transient over‑voltages and surge protection. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:145 (ECE:5450) Pattern Recognition 3 s.h.
Mathematical foundations and practical techniques of pattern recognition; adaptation, learning, description; statistical pattern recognition; syntactic pattern recognition, neural networks for recognition; fuzzy logic for recognition; nonstandard and combined pattern recognition approaches. Prerequisites: 055:040 (ECE:2400).

055:146 (ECE:5460) Digital Signal Processing 3 s.h.
Theory, techniques used in representing discrete-time signals; system concepts in frequency and sampling domains; FIR and IIR digital filter theory, design and realization techniques; theory, application of discrete Fourier transforms/FFT. Prerequisites: 055:043 (ECE:3400).

055:148 (ECE:5480) Digital Image Processing 3 s.h.
Mathematical foundations and practical techniques for digital manipulation of images; image sampling, compression, enhancement, linear and non‑linear filtering and restoration; Fourier transform analysis; image pre‑processing, edge detection, filtering; image segmentation. Prerequisites: 051:040 or 055:040 (ECE:2400), and 051:060 (BME:2200) or 055:043 (ECE:3400). Same as 051:148 (BME:5220).

055:245 (ECE:7450) Magnetic Resonance Imaging Systems 3 s.h.
Mathematical foundations and practical implementation for magnetic resonance imaging (MRI); principles of image formation using Fourier and projection techniques, non-Cartesian sampling, tomographic image reconstruction, sources of artifacts and their correction. Prerequisites: 055:146 (ECE:5460) and 055:148 (ECE:5480).

055:247 (ECE:7470) Image Analysis and Understanding 3 s.h.
Mathematical foundations and practical techniques of digital image analysis and understanding; image segmentation (from edges and regions), object description (from boundaries, regions, scale, scale insensitive descriptions, 3-D shape, texture) pattern recognition (statistical and syntactic methods, cluster analysis), and inversion (knowledge representation, control strategies, matching, context, semantics), image analysis and understanding systems; lab arranged. Prerequisites: 055:148 (ECE:5480).

055:248 (ECE:7480) Advanced Digital Image Processing 3 s.h.
Advanced local operators (scale-space imaging, advanced edge detection, line and corner detection), image morphology (binary/grayscale operators, morphological segmentation and watershed), digital topology and geometry (binary/fuzzy digital topology, distance functions, skeletonization), color spaces, wavelets and multi-resolution processing (Haar transform, multi-resolution expansions, wavelet transforms in one or two dimensions, fast sinelet transform, wavelet packets), image registration (intensity correlation, mutual information, and landmark-based deformable registration methods). Prerequisites: 055:146 (ECE:5460) and 055:148 (ECE:5480).

055:292 (ECE:7920) ECE Graduate Seminar on Image Processing, Computer Vision and Medical Imaging 0 s.h.
Recent advances and research in image processing, computer vision, and medical imaging; presentation by guest lecturers, faculty, students. Requirements: graduate standing.

Communication and Information

055:050 (ECE:3500) Communication Systems 3 s.h.
Introduction to analog and digital communications, with an emphasis on modulation and noise analysis; Fourier analysis, probability theory, random variable and processes, AM, FM, pulse-coded modulation, binary digital modulation, SNR analysis of AM and FM, BER analysis of digital modulation schemes. Prerequisites: 22S:039 (STAT:2020) and 055:043 (ECE:3400).

055:054 (ECE:3540) Communication Networks 3 s.h.
Communication networks, layered network architectures, applications, network programming interfaces (e.g., sockets), transport, congestion, routing, data link protocols, local area networks, emerging high-speed networks, multimedia networks, network security, Internet protocol; technology examples. Prerequisites: 057:017 (ENGR:2730). Corequisites: 22S:039 (STAT:2020).

055:150 (ECE:5500) Communication Theory 3 s.h.
Random processes, source coding, digital transmission at baseband, optimum receiver design for Gaussian noise, error probability and power spectrum analysis, signal design for bandlimited channels, digital carrier modulation, bandwidth/energy/interference probability tradeoffs, coding for error detection and correction. Prerequisites: 055:050 (ECE:3500).

055:152 (ECE:5520) Introduction to Information and Coding Theories 3 s.h.
Quantitative measure of information; source encoding; error detecting codes; block and convolutional codes, design of hardware and software implementations; Viterbi decoding. Prerequisites: 055:050 (ECE:3500).

Wireless sensor networks overview; antennas, radio propagation models; WSN power and energy considerations, engineering issues, batteries, networks layers, stacks; medium access control (MAC); spread spectrum, FHSS, CDMA; infrastructure establishment; WSN routing; localization; synchronization; sensors; RFID; WSN case studies; lab. Prerequisites: 055:050 (ECE:3500). Requirements: senior standing.

Controls

055:060 (ECE:3600) Control Systems 3 s.h.
Fundamental concepts of linear feedback control, mathematical modeling, transfer functions, system response, feedback effects, stability, root-locus and frequency response analysis and design, compensation, lab arranged. Prerequisites: 055:040 (ECE:2400).
055:160 (ECE:5600) Control Theory 3 s.h.
State space approach; controllability, observability, canonical forms, Luenberger observers, feedback control via pole placement; stability, minimal realization and optimal control. Prerequisites: 055:060 (ECE:3600). Same as 058:133 (ME:5360).

055:162 (ECE:5430) Electric Drive Systems 3 s.h.
Basic characteristics of DC and AC electric motors and their associated power electronics interfaces; applications of electric machines and drives that are essential for wind turbines, electric and hybrid-electric; emphasis on vehicles; electric machines in context of overall drives and associated applications; space-vector theory used to analyze electric machines and drives; DC motor/generator characteristics and control; AC single phase and three-phase motor characteristics and feedback control, including AC synchronous and induction motors. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:163 (ECE:5630) Sustainable Energy Conversion 3 s.h.
Overview of sustainable energy conversion technologies; thermal energy conversion; Carnot and Rankine cycles; solar resource and raw energy availability, PV solar cell characteristics, solar panel construction; Maximum Power Point (MPP) tracking and utility grid interface; wind energy conversion resource and available energy, wind turbine configurations, electrical power interface electronics; ocean energy conversion tidal and wave resources and conversion technologies; tidal basin containment conversion and tidal current turbine systems. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:164 (ECE:5640) Computer-Based Control Systems 3 s.h.
Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 058:134 (ME:5362).

Waves and Materials

055:070 (ECE:3700) Electromagnetic Theory 3 s.h.
Electric and magnetic forces, Maxwell’s equations, wave propagation; applications, including radiation, transmission lines, circuit theory. Prerequisites: 22M:037 (MATH:3550) and 029:082 (PHYS:1612).

055:072 (ECE:3720) Electrical Engineering Materials and Devices 3 s.h.
Fundamentals of semiconductor physics and devices; principles of the p-n junction diode, bipolar transistor, field effect transistor. Prerequisites: 029:082 (PHYS:1612) and 055:041 (ECE:3410).

055:170 (ECE:5700) Advanced Electromagnetic Theory 3 s.h.
Time varying fields; plane wave propagation, reflection, refraction; waves in anisotropic media transmission lines, impedance matching, Smith chart; metallic and dielectric wave guides; resonators; antennas, antenna arrays. Prerequisites: 055:070 (ECE:3700).

055:172 (ECE:5720) Solid State Physical Electronics 3 s.h.
Advanced topics in semiconductor physics and devices; elementary concepts in quantum and statistical mechanics, diodes, bipolar transistor, field-effect transistor. Prerequisites: 055:072 (ECE:3720).

055:173 (ECE:4720) Introductory Solid State Physics 3 s.h.
Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: 029:140 (PHYS:3741) and 22M:028 (MATH:2850). Same as 029:193 (PHYS:4728).

055:177 (ECE:4720) Introductory Optics 3 s.h.
Geometrical and physical optics; interference; diffraction; polarization; microscopic origins of macroscopic optical properties of matter; optical activity; electro-optical, magneto-optical, acousto-optical phenomena; spontaneous Brillouin, Raman, Rayleigh scattering. Prerequisites: 029:130 (PHYS:3812). Same as 029:180 (PHYS:4720).

055:178 (ECE:5780) Optical Signal Processing 3 s.h.
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for 055:178 (ECE:5780) — 055:070 (ECE:3700); for 029:184 (PHYS:4820) — 029:130 (PHYS:3812). Same as 029:184 (PHYS:4820).

055:179 (ECE:5790) Electro-Optics 3 s.h.
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for 055:179 (ECE:5790) — 055:070 (ECE:3700); for 029:182 (PHYS:4726) — 029:130 (PHYS:3812). Same as 029:182 (PHYS:4726).

055:273 (ECE:7720) Semiconductor Physics 3 s.h.

055:274 (ECE:6726) Laser Principles 3 s.h.

055:276 (ECE:6720) Nonlinear Optics 3 s.h.

Graduate Seminars, Advanced Topics, Research

055:191 (ECE:5000) Graduate Seminar: Electrical and Computer Engineering 0 s.h.
Presentation and discussion of recent advances and research in electrical and computer engineering by guest lecturers, faculty, students. Requirements: graduate standing.

055:195 (ECE:5995) Contemporary Topics in Electrical and Computer Engineering 3 s.h.
New topics or areas of study not offered in other electrical and computer engineering courses; based on faculty/student interest; not available for individual study. Requirements: senior standing.
055:198 (ECE:5998) Individual Investigations: Electrical and Computer Engineering
Individual projects for electrical and computer engineering graduate students; laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

055:199 (ECE:5999) Research: Electrical and Computer Engineering M.S. Thesis
Experimental and/or analytical investigation of approved topic for partial fulfillment of requirements for M.S. degree with thesis in electrical and computer engineering. Requirements: graduate standing.

055:291 (ECE:7930) Seminar: Plasma Physics
Current research. Same as 029:261 (PHYS:7930).

055:295 (ECE:7995) Advanced Topics in Electrical and Computer Engineering
Discussion of current literature in electrical and computer engineering.

Experimental and/or analytical investigation of approved topic for partial fulfillment of requirements for Ph.D. in electrical and computer engineering.
Mechanical and Industrial Engineering

Chair
Andrew Kusiak

Professors

Professors emeriti

Associate professors
Pablo Carrica, Yong Chen, Pavlo Krokhmal, Jia Lu, Albert Ratner, Thomas Schnell, Hiroyuki Sugiyama, Geb W. Thomas, Shaoping Xiao

Assistant professors
James Buchholz, Hongtao Ding, Ibrahim Ozbolat, Olesya Zhupanska

Undergraduate majors: industrial engineering (B.S.E.); mechanical engineering (B.S.E.)

Graduate degrees: M.S. in industrial engineering; Ph.D. in industrial engineering; M.S. in mechanical engineering; Ph.D. in mechanical engineering

Web site: http://www.mie.engineering.uiowa.edu/

The Department of Mechanical and Industrial Engineering offers distinct undergraduate and graduate degrees and research programs in industrial engineering and in mechanical engineering.

INDUSTRIAL ENGINEERING

Industrial engineering is concerned with analysis, design, and implementation of systems through optimal use of resources—human, material, energy, information, and financial. Systems may range from small units to extremely large operations. In order to accomplish these activities, the industrial engineer must be skilled in mathematics, physical sciences, management, and human relations as well as manufacturing, computer systems, economics, optimization, human behavior, and systems analysis and design.

Industrial engineers have many opportunities for employment and service in industrial, government, research, and public service organizations. Employment opportunities are among the most varied in the engineering field. Industrial engineers hold positions as advisors to management or may participate directly in management decisions. Representative job titles include industrial engineer, manufacturing engineer, systems analyst, quality specialist, operations research analyst, internal consultant, human factors specialist, supervisor, and manager. Industrial engineers are employed by manufacturing and energy firms, wind turbine manufacturers, government agencies, and service organizations such as airlines, banks, hospitals, health care groups, and consulting companies.

MECHANICAL ENGINEERING

Mechanical engineering is broadly concerned with energy, manufacturing, and design of machines. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of a wide variety of devices, machines, and systems—including complex human-machine systems—for energy conversion, biofuel production, environmental control, materials processing, transportation, materials handling, and other purposes. Major subspecialties of mechanical engineering include thermal-fluids engineering and mechanical systems engineering.

Thermal-fluid phenomena occur in many engineering systems and devices, such as aircraft; automobiles; off-road vehicles; ships; gas turbines; heat exchangers; material processes; heating, ventilating, air-conditioning, and refrigerating systems; hydraulic and wind turbines; airbag inflators; fuel cells; biofuel processes; environmental control devices; and biomedical systems.

Machines and mechanical systems and machines are the foundations of human technology. Mechanical systems are found in mechanical engineering systems and devices such as manufacturing equipment, medical equipment, ground vehicles, heavy equipment, farm equipment, aircraft, ships, home appliances, packaging machinery, wind turbine blades and gearboxes, robots, and biomedical systems.

Mechanical engineers find a wide variety of career opportunities in industry, government, and education. Mechanical engineers form an integral part of most industries, including aerospace firms, energy companies, automobile manufacturers, health care providers, food- and metal-processing industries, petroleum refineries, electronic and computer manufacturers, heavy construction and agricultural vehicle manufacturers, wind turbine manufacturers, thermal comfort equipment firms, farm equipment firms, and consulting companies.

Undergraduate Programs

- Major in industrial engineering (Bachelor of Science in Engineering)
- Major in mechanical engineering (Bachelor of Science in Engineering)

INDUSTRIAL ENGINEERING

The objective of the B.S.E. program in industrial engineering is to produce graduates who:

- have a strong foundation of mathematical, scientific, and technical knowledge and are equipped with skills in problem solving, teamwork, and communication that will serve them throughout their careers;
- are able to pursue successful careers as practicing industrial engineers in manufacturing industries, medical institutions, and engineering consulting firms;
- are able to successfully pursue advanced studies in industrial engineering; in other engineering disciplines; or in diverse nontechnical fields such as medicine, law, or business; and
- are able to assume professional leadership roles.
MECHANICAL ENGINEERING

The objective of the B.S.E. program in mechanical engineering is to produce graduates who:

• have a strong foundation of knowledge in mathematics, science, and mechanical engineering and are equipped with skills in problem solving, design, teamwork, and communication that will serve them throughout their careers;
• are able to pursue successful careers as practicing mechanical engineers in manufacturing industries, energy and utility companies, and engineering consulting firms;
• are able to successfully pursue advanced studies in mechanical engineering; in related technical areas such as physics, applied mathematics, and other engineering disciplines; and in other professional fields; and
• are able to assume professional leadership roles.

B.S.E.: Industrial Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in industrial engineering requires a strong foundation of courses in engineering science, mathematics, design, manufacturing, social science, and humanities.

Advanced work includes specialty courses in human factors and ergonomics, management, information systems, manufacturing, quality control, and operations research. Design is an integral part of the undergraduate program; all students complete a comprehensive design experience.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Students must select elective focus area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See “Elective Focus Area” after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the industrial engineering major. Some courses in the curriculum are prerequisites for others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FOURTH YEAR

First Semester

056:091 (IE:3000) Professional Seminar: Industrial Engineering 0 s.h.
056:134 (IE:3350) Process Engineering 4 s.h.
056:162 (IE:3600) Quality Control 3 s.h.
Elective focus area courses 6 s.h.
General education component course 3 s.h.

Second Semester

056:160 (IE:4600) Operational Systems Design 4 s.h.
Elective focus area courses (including math/science elective) 12 s.h.
Systems elective course 3 s.h.

Elective Focus Area

The industrial engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the Catalog. For a list of standard industrial engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Industrial Engineering

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for industrial engineering undergraduate students who intend to earn an M.S. in industrial engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program’s graduate seminar, and work with a faculty member on a master’s thesis project while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Some students in undergraduate majors other than industrial engineering may be admitted to the combined program; they must meet the same admission requirements as industrial engineering majors. In some cases, they may be required to take additional course work to meet the prerequisite requirements for upper-level courses.

B.S.E.: Mechanical Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in mechanical engineering lays a foundation in the basic disciplines of mathematics, physics, and chemistry and in the engineering sciences of statics, dynamics, thermodynamics, mechanics of deformable bodies, mechanics of fluids and transfer processes, materials science, and electrical sciences. An understanding of these sciences enables mechanical engineers to design parts of systems and understand whole systems, plan the production and use of energy, plan and operate industrial manufacturing facilities, and design automatic control systems for machines and other mechanical systems.

Mechanical engineering students develop an awareness of social and humanitarian issues relating to business, environment, government, history, language, religion, and international relations. They also acquire an appreciation of professional and ethical responsibilities.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Upper-level students work on team projects in a senior capstone design course, 058:086 (ME:4086) Mechanical Engineering Design Project. Some students may arrange to participate in established research projects.

Students must select elective focus area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See "Elective Focus Area" after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the mechanical engineering major. Some courses in the curriculum are prerequisites to others. Students must complete a course’s prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FIRST YEAR

First Semester

004:011 (CHEM:1110) Principles of Chemistry I 4 s.h.
010:003 (RHET:1030) Rhetoric 4 s.h.
059:005 (ENGR:1100) Engineering Problem Solving I 3 s.h.
059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree) 1 s.h.

Second Semester

22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus 4 s.h.
029:081 (PHYS:1611) Introductory Physics I 4 s.h.
059:006 (ENGR:1300) Engineering Problem Solving II 3 s.h.
General education component course 3 s.h.
SECOND YEAR

First Semester
029:082 (PHYS:1612) Introductory Physics II 3 s.h.
058:020 (ME:2020) Mechanical Engineering Sophomore Seminar 0 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics 2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits 3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics 3 s.h.
General education component course 3 s.h.

Second Semester
057:010 (ENGR:2710) Dynamics 3 s.h.
057:015 (ENGR:2720) Materials Science 3 s.h.
057:019 (ENGR:2750) Mechanics of Deformable Bodies 3 s.h.
058:032 (ME:2032) Design for Manufacturing 3 s.h.
Elective focus area course 3 s.h.

THIRD YEAR

First Semester
22M:037 (MATH:3550) Engineering Mathematics V: Vector Calculus 3 s.h.
225:039 (STAT:2020) Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
057:017 (ENGR:2730) Computers in Engineering 2-3 s.h.
057:020 (ENGR:2751) Fluid Mechanics 4 s.h.
058:051 (ME:3351) Engineering Instrumentation 2 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.
Elective focus area course 3 s.h.

Second Semester
058:040 (ME:3040) Thermodynamics II 3 s.h.
058:045 (ME:3045) Heat Transfer 3 s.h.
058:052 (ME:3052) Mechanical Systems 3 s.h.
Elective focus area course 3 s.h.
General education component course 3 s.h.

FOURTH YEAR

First Semester
058:048 (ME:4048) Energy Systems Design 4 s.h.
058:055 (ME:4055) Mechanical Systems Design 4 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.
Elective focus area courses 6 s.h.
General education component course 3 s.h.

Second Semester
058:080 (ME:4080) Experimental Engineering 4 s.h.
058:086 (ME:4086) Mechanical Engineering Design Project 3 s.h.
Elective focus area courses 6 s.h.
General education component course 3 s.h.

Elective Focus Area

The mechanical engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the Catalog. For a list of standard mechanical engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Mechanical Engineering

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for mechanical engineering undergraduate students who intend to earn an M.S. in mechanical engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program’s graduate seminar, and participate in master’s research while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor’s degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Graduate Programs

• Master of Science in industrial engineering (with or without thesis; windpower management concentration available)
• Doctor of Philosophy in industrial engineering
• Master of Science in mechanical engineering (with or without thesis)
• Doctor of Philosophy in mechanical engineering

Research and Study in Industrial Engineering

Graduate study in industrial engineering is tailored individually. Each student’s study program is based on his or her background and career objectives and is designed according to sound academic practice. The curriculum is highly flexible; the goal is academic excellence.

The program offers six principal academic focus areas: design and manufacturing, human factors engineering and ergonomics, engineering management, reliability and production systems, operations research and applied statistics, and information systems. Graduate students participate in research in their academic concentration areas.

ENGINEERING MANAGEMENT

Current research in engineering management consists of entrepreneurship, parametric cash flow analysis, strategic management, and economic risk analysis. Engineering management studies concentrate on engineering administration, engineering economics, and information systems. This area is covered by courses in the 50 series.

HUMAN FACTORS AND ERGONOMICS

Current research in human factors and ergonomics includes investigation of the effects of visual and auditory displays on human information processing and development of computer systems that ease the challenges of controlling complex medical and robotic
systems. This work examines how engineers should shape information technology to enhance productivity, safety, and customer satisfaction. Industrial engineering faculty members and students work to improve the effectiveness of robot systems for exploration of Mars and the Moon, to improve driving safety, and to design new cockpit interfaces. The department has several medical, flight, and driving simulators. It also conducts research in other facilities, including National Advanced Driving Simulator, the most advanced simulation facility in the world. Human factors and ergonomics studies concentrate on designing systems compatible with human capabilities and limitations. Human factors engineering integrates components from the fields of psychology, cognitive sciences, physiology, statistics, and technical sciences to address issues of human-interface design and human-systems design. Specific considerations include human cognitive abilities and limitations, visual performance, error reduction, workload assessment and mitigation, design of jobs in the industrial environment, information acquisition and processing, choice of action, operator performance measurement, and economic concerns. This area is covered by courses in the 40 series.

INFORMATION SYSTEMS

Studies in information systems concentrate on system design. Design problems involve devising information systems that meet a diverse set of requirements. Contemporary topics include network-based systems, client/server systems, internet systems, and medical informatics.

MANUFACTURING

Ongoing manufacturing research consists of flexible manufacturing systems, optimum control of processes, and reliability assessment. Manufacturing courses, denoted by the 30 series, delve into selecting appropriate manufacturing methods, planning processing operations, devising control strategies, and designing products and manufacturing systems. Contemporary topics include computer-aided process planning, computer-aided design, computer-controlled manufacturing, concurrent engineering, and applications of artificial intelligence in manufacturing.

OPERATIONS RESEARCH AND APPLIED STATISTICS

Ongoing research in operations research and applied statistics deals with the application of optimization techniques for informed decision making in the public and private sectors. The primary focus of this work is modeling, simulating, and optimizing the design and operation of systems such as logistics, communications, health care, and manufacturing. Studies in operations research and applied statistics concentrate on mathematical programming, statistical, and computer sciences for modeling, analyzing, and optimizing systems. Various methodologies in this area include mathematical programming, heuristic optimization, statistical analysis, and digital systems simulation. This area is covered by courses in the 70 series.

QUALITY CONTROL AND PRODUCTION SYSTEMS

Current research in quality control and production systems focuses on measures for corporate quality and reliability, computer-aided layout and scheduling, just-in-time production, inspection, and online expert systems in process control. Studies of quality control and production systems focus on reliability engineering, quality control, and production systems. This area is covered by courses in the 60 series.

Research and Study in Mechanical Engineering

The graduate programs in mechanical engineering educate students in more depth and breadth than is possible at the baccalaureate level. This prepares the graduate to use contemporary methods at advanced levels in professional careers in engineering design, development, teaching, and research. Each student’s plan of study is based on his or her background and career objectives, and is designed according to sound academic practice. Faculty members in the program have teaching and research expertise in energy and power conversion, fluid and thermal sciences, solid mechanics, mechanical systems, and related areas.

Students may develop programs emphasizing fluid mechanics, thermodynamics, heat transfer, fatigue and fracture mechanics, and mechanical systems. Some may pursue more general programs that combine emphases. Others may specialize in interdisciplinary areas (e.g., energy engineering, materials engineering, automatic control, chemical processes), which involve a combination of mechanical and industrial engineering departmental courses and appropriate electives from other departments in the College of Engineering and across the University. Ph.D. programs may center on any one of these areas through choice of appropriate course work and research topic.

For more information, see the Mechanical Engineering Graduate Student Handbook, available from the department.

The mechanical engineering program offers the following research and study areas.

FLUID MECHANICS

The graduate program in fluid mechanics provides a rigorous and broad foundation in theoretical, numerical, and experimental aspects of the subject. It is especially suitable for those seeking careers in teaching and/or research in academic and industrial organizations. The program focuses on fundamental principles and techniques of solving problems in the varied fields of fluids engineering. It emphasizes computer use, both in mathematical modeling of flow phenomena and in acquisition and processing of experimental data.

Although most of the relevant courses are offered by the Department of Mechanical and Industrial Engineering, students are strongly encouraged to take applied mathematics and classical mechanics courses offered by the Departments of Mathematics (p. 403) and Physics and Astronomy (p. 451) in the College of Liberal Arts and Sciences and by other College of Engineering departments.

Current research projects include computational modeling of viscous and turbulent flows; vortex dynamics; unsteady flows; pulmonary flow; flow separation and control; atmospheric flows; environmental flows; ship hydrodynamics; viscous flow around ships; propulsor flow and propulsor-body interactions; free-surface effects; nonlinear wave theory; biomimetic fluid mechanics; hydraulic turbines; quantitative flow visualization and image processing; computational fluid dynamics; LDV and
thermal anemometry for flow analysis; and uncertainty analysis.

MECHANICAL SYSTEMS
The graduate program in mechanical systems is designed to provide students with a broad, strong background in theoretical, computational, experimental, and applied aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamental principles, computational techniques, multiscale modeling and simulation, and experimentation used to analyze and design mechanical systems. Areas of concentration include reliability-based design and optimization, nanotechnology, tissue mechanics, machine and vehicle dynamics, optimal design, structural sensitivity analysis and optimization, computational solid mechanics, probabilistic mechanics, mechanics of composite materials, reliability, and fatigue and fracture mechanics.

Although most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering, students are encouraged to consider appropriate courses from other areas, such as mathematics (p. 403), statistics (p. 539), physics (p. 451), and other College of Engineering departments.

Current research projects include computational mechanics, tissue mechanics, multiphysics, and multiphase behaviors and life prediction under constant and variable amplitude loading, multibody dynamics; design sensitivity analysis of nonlinear structural systems; reliability-based design optimization; surrogate modeling for reliability-based design optimization; shape optimal design of elasto-plastic materials; optimal design of metal stamping process; probabilistic and elastic-plastic fracture mechanics; damage tolerant design; fatigue behavior and life prediction under constant and variable amplitude loading, multibody dynamics; design sensitivity analysis of rigid and flexible mechanical systems; computer-aided design; mechanism and manipulator workspace analysis; real-time dynamic simulation; and vehicle system dynamics.

THERMAL SCIENCES
The graduate program in thermal sciences and systems is designed to provide students with a rigorous and broad foundation in theoretical and experimental aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamentals of thermodynamics and heat transfer, and associated analytical, numerical, and experimental methods used in energy systems. Areas of concentration include fluid mechanics, thermodynamics, heat transfer, phase-change, combustion, and fuel cells.

Most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering. Students are encouraged to supplement these with courses from other areas, such as mathematics (p. 403) and physics (p. 451), and courses offered by other College of Engineering departments in order to balance their programs.

Current research projects include biomass gasification; turbulent flames; combustion of biomass; alternative and renewable fuels; combustion instability; spray atomization and combustion; transport modeling of fuel cells; transport phenomena in materials processing, melting, and solidification; and optical-based diagnostics of complex thermal processes.

M.S.: Industrial Engineering
The Master of Science program in industrial engineering requires a minimum of 30 s.h. of graduate credit with a thesis, and a minimum of 36 s.h. of graduate credit without a thesis. Students who intend to pursue a Ph.D. should select the thesis option; those who hold research or teaching assistantships may be required to select the thesis option. The M.S. concentration in wind power management is open to students in either option.

All M.S. students must earn 21 s.h. in graduate-level industrial engineering courses. They earn a minimum of 9 s.h. in 200-level industrial engineering courses and complete at least one 100- or 200-level course from each of three focus areas: human factors, operations research, and reliability and systems design. Thesis students who plan to pursue a Ph.D. may choose to take two 200-level courses in each of the three focus areas in order to complete their Ph.D. breadth requirement before entering the doctoral program. Students select other courses in consultation with their advisors; choices are documented in the student’s plan of study.

Thesis students may count a maximum of 6 s.h. of research credit toward the degree and may include that credit in the required 21 s.h. of graduate-level industrial engineering courses. The thesis option does not include research credit.

All graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

M.S. students must maintain a g.p.a. of at least 3.00 on all graduate work at The University of Iowa and must pass a final comprehensive examination as specified by their examining committees.

Entering students must have strong verbal and written skills in English and a background in computer programming (e.g., C++, C, VB), probability, statistics, and mathematics equivalent to that required by accredited undergraduate engineering programs. Students with insufficient academic background must remedy deficiencies by taking appropriate courses beyond those normally required for the study plan.

Entering students are advised by the department chair or by a designated faculty advisor. The department chair or the graduate program coordinator assigns an advisor to each student during his or her first regular semester in residence.

During that semester, the student and the advisor prepare a study plan, which they submit to the department chair for approval. Once the plan is approved, it is filed with the student’s record. It is the student’s responsibility to assure that the study plan is submitted to the department chair.

M.S. students must pass a final comprehensive examination, as specified by their examination committees. Examination committees consist of at least three Graduate College faculty members and must be approved by the department chair.
The comprehensive examination may consist of both oral and written parts. Its purpose is to assess the adequacy of the student’s defense of thesis and/or course preparation. The final study plan, approved by the Graduate College dean, is prerequisite to the exam. The student should consult with his or her advisor on the composition of the advisory/examination committee and the time and place for the exam.

It is the student’s responsibility to submit a degree application to the Graduate College by the college’s deadline.

For more detailed information about M.S. program requirements, including a list of focus area courses, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate programs on the Department of Mechanical and Industrial Engineering web site.

**M.S. Concentration in Wind Power Management**

M.S. students in industrial engineering may concentrate in wind power management. They must meet all regular requirements for the M.S. in industrial engineering. In addition, thesis option students must take three courses (9 s.h.) from the list of recommended courses. Nonthesis option students must take four courses (12 s.h.) from the list of recommended courses and one course (3 s.h.) from the list of electives. Students’ course selections must be approved by their advisors.

**Ph.D.: Industrial Engineering**

The Doctor of Philosophy program in industrial engineering requires a minimum of 72 s.h. It is granted upon demonstration of comprehensive knowledge and scholarly work at the highest level.

A maximum of 36 s.h. earned toward the M.S. may be counted toward the 72 s.h. required for the Ph.D. Students must spend at least two semesters in residence at The University of Iowa. They also must maintain a g.p.a. of at least 3.25 on all graduate work done at the University.

The degree requires broad academic background with considerable depth in at least one area of specialization that clearly demonstrates the student’s capability to do high-level research. Ph.D. students must complete a series of written and oral examinations and a written dissertation based upon the results of an original investigation.

Students without a Master of Science in industrial engineering or a closely allied area must satisfy all requirements for the M.S. in industrial engineering before they may be admitted to the Ph.D. program.

Entering students are advised by the department chair or by a designated faculty advisor. During the student’s first regular semester in residence, an advisor is assigned by the department chair or the graduate program coordinator. Students are expected to identify an industrial engineering faculty member willing to serve as their advisor by the end of their first regular semester in the program.

Once the student is assigned an advisor, he or she works with the advisor to prepare a study plan, which is submitted to the department chair for approval. Once the plan is approved by the department chair, it is filed with the student’s record. At the beginning of each academic year, the industrial engineering faculty reviews the study plan and gives the student feedback regarding progress toward his or her degree objective. It is the student’s responsibility to assure that the study plan is submitted to the program chair.

Admission to degree candidacy requires a g.p.a. of at least 3.25 on all graduate work taken at The University of Iowa, demonstration of capacity for individual research achievement (typically a dissertation research proposal), and successful completion of the comprehensive examination given by the examining committee.

The comprehensive examination is scheduled with approval of the student’s advisor and the industrial engineering program coordinator or the graduate coordinator once the student’s study plan is essentially completed. The examining committee determines the composition of the exam, including written and oral parts, and determines whether the student is ready to begin dissertation research.

For more detailed information about Ph.D. program requirements, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate programs on the Department of Mechanical and Industrial Engineering web site.

All Ph.D. students must satisfy the following requirements.

Graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

**INDUSTRIAL ENGINEERING BREADTH REQUIREMENT**

Each Ph.D. student must pass at least two 200-level industrial engineering courses in each of three focus areas: human factors, operations research, and reliability and...
systems design. Students who have earned an M.S. in the program may already have satisfied this requirement.

QUALIFYING EXAM
Each student must satisfy the qualifying exam requirement in two of the three focus areas. The requirement for a focus area can be satisfied by passing a written qualifying exam in the focus area or by earning a grade of A-minus or higher in each of two 200-level industrial engineering courses in the focus area.

FOCUS AREA
Students select one of the three focus areas and take additional course work in that area. They fulfill the minimum requirement of the focus area, completing at least two additional 200-level industrial engineering courses in the area.

COMPREHENSIVE EXAMINATION
Each student must demonstrate his or her ability to carry out creative individual research by completing and defending his or her dissertation research proposal in a comprehensive examination. The exam includes written and oral parts and is conducted by an examining committee of at least five industrial engineering and Graduate College faculty members. It is scheduled after the qualifying examination requirement has been satisfied. The examining committee determines whether the student is ready to begin dissertation research. Once the student has completed the comprehensive examination satisfactorily, he or she is accepted as a candidate for the Ph.D.

FINAL EXAMINATION (THESIS DEFENSE)
Each student must defend his or her completed dissertation in the final examination, which is conducted by the examining committee.

Ph.D. Concentration in Wind Power Management
Ph.D. students who concentrate in wind power management must meet all regular requirements for the doctoral degree. In addition, they must gain sufficient breadth and depth of domain knowledge in their study area by taking energy-related courses.

Related Certificate: Informatics
The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care. Industrial engineering students working toward the certificate complete 056:186 (IE:5860) Health Informatics I, 056:287 (IE:5870) Health Informatics II, and approved electives. Completion of the certificate is noted on the student's transcript. To learn more, see "Certificate" in the Informatics (p. 843) (Graduate College) section of the Catalog.

M.S.: Mechanical Engineering
The Master of Science program in mechanical engineering requires a minimum of 30 s.h., with or without thesis. Thesis students may count 6-9 s.h. earned for thesis research and writing toward the degree. Each student determines a study plan in consultation with an advisor and submits the plan to the department chair for approval.

All M.S. students must register for 058:191 (ME:6191) Graduate Seminar: Mechanical Engineering each semester.

To earn the M.S., the student must maintain a g.p.a. of at least 3.00 on graduate work used to satisfy the degree requirements and must be successful in the final examination. This examination is administered by the student’s committee, which consists of at least three faculty members, including at least one with primary appointment in the Department of Mechanical and Industrial Engineering.

The requirements for the M.S. may be completed within one calendar year. However, students with assistantship duties or other constraints may take up to two calendar years to complete the degree.

Ph.D.: Mechanical Engineering
The Doctor of Philosophy program in mechanical engineering requires 72 s.h. of graduate credit, including at least 54 s.h. in course work (excluding thesis research) and at least 12 s.h. earned for Ph.D. thesis research. Students must pass the qualifying examination administered by the program to be formally admitted to the doctoral program.

Each student takes the comprehensive examination after passing the qualifying examination and when the course work specified in the study plan is nearly completed; in any case, the comprehensive examination should be taken no later than 28 months after the first registration in the Ph.D. program. To be admitted to the comprehensive examination, a student must be in good academic standing and must be recommended by his or her advisor. The exam is administered by the student’s committee. Admission to Ph.D. candidacy is recognized upon successful completion of the comprehensive examination.

Having satisfactorily completed the exam, the student usually has only to complete and defend the dissertation at the final examination.

Requirements for the Ph.D. usually can be completed in three to four years beyond the M.S.

Admission
Applicants must meet the admission requirements of the Graduate College; for detailed information about Graduate College policies, see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

INDUSTRIAL ENGINEERING
Reference letters, student research interests, grade-point average for previous graduate study, and factors such as faculty availability are considered in admission decisions.

M.S. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum in any engineering discipline, or in the mathematical sciences, the physical sciences, or the computer sciences with a g.p.a. of at least 3.00 and an acceptable score on the Graduate Record Examination (GRE) General Test. Applicants from institutions outside the United States must meet equivalent conditions for regular admission. Students with
lesser qualifications may be considered for conditional admission.

Students from business or social science programs who have mathematical preparation similar to that of engineering students are considered for regular or conditional admission. Students on conditional status must achieve regular status within two sessions of their first registration by attaining an acceptable grade-point average and gaining regular acceptance by the industrial engineering program faculty; otherwise, they are dismissed. Admissions may be limited by available resources.

Ph.D. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum or a postbaccalaureate curriculum in any engineering discipline or in the mathematical sciences, computer science, or physical sciences with a g.p.a. of at least 3.25 and an acceptable GRE General Test score. Applicants from outside the United States must meet equivalent standards for regular admission as determined by The University of Iowa. Students also may be admitted from business or social science programs as determined individually.

Applicants who intend to pursue a Ph.D. and who have a B.S. or an M.S. without thesis usually are admitted first to the M.S. program. All admissions to the Ph.D. program are reviewed by the graduate studies committee.

**MECHANICAL ENGINEERING**

Applicants who have earned a baccalaureate or master’s degree in engineering curriculum or in the mathematical or physical sciences are eligible to be considered for admission to graduate study in mechanical engineering. In order to be considered for regular admission, applicants must have a g.p.a. of at least 3.00 on a 4.00 scale on all previous college-level work and Graduate Record Examination (GRE) General Test scores of at least 500 verbal, 750 quantitative, and 4.5 analytical writing. Students whose first language is not English must score at least 550 (paper-based), 213 (computer-based), or 81 (Internet-based) on the Test of English as a Foreign language (TOEFL). Applicants with a lower grade-point average and/or GRE or TOEFL test scores may be considered for conditional admission, under exceptional circumstances. Applicants admitted conditionally must achieve regular standing within one semester (excluding summer sessions) after admission by attaining a g.p.a. of at least 3.00 on their first 9 s.h. at The University of Iowa. The Graduate College cancels registration for the subsequent semester for students who have not submitted their GRE and/or TOEFL scores by the end of the first semester after admission.

**Financial Support**

**INDUSTRIAL ENGINEERING**

A number of one-quarter-time and one-half-time teaching and research assistantships are available for graduate students. Awards are based on students’ academic records and assessment of their potential contribution to the research and teaching goals of the program. Advanced graduate students also may qualify for appointments as graduate teaching fellows. Contact the chair of the Department of Mechanical and Industrial Engineering for details.

**MECHANICAL ENGINEERING**

Financial support is available to M.S. and Ph.D. students, primarily through graduate assistantships in teaching or research from the Department of Mechanical and Industrial Engineering, the Center for Computer-Aided Design, IIHR—Hydroscience and Engineering, and the National Advanced Driving Simulator. These awards may be made on a semester, academic year, or calendar year basis. Awards and reappointments are competitive and are based on the student’s potential contribution to the teaching and research goals of the department. Students who fulfill their assistantship responsibilities and continue to make satisfactory progress toward their degree objective receive preference in new assistantship awards. All applications for financial support should be submitted directly to the department chair.

M.S. students with assistantship appointments of one-quarter-time or more are required to register for a minimum of 9 s.h. during fall and spring semesters until they have completed 30 s.h. of course and research work beyond the baccalaureate degree. Ph.D. students with assistantship appointments of one-quarter-time or more must register for a minimum of 9 s.h. during fall and spring semesters until they have completed 72 s.h. of course and research work beyond the baccalaureate degree. Once they meet these minimums, graduate students must register for a graduate seminar each semester until they have successfully completed their final examination or thesis defense. All registrations should accurately reflect the amount and type of work undertaken, the use of University facilities, and the amount of consultation with the faculty.

**Facilities and Laboratories**

**Industrial Engineering**

The following facilities and laboratories are used by undergraduate and graduate students. For information about laboratories affiliated with core courses coordinated by other College of Engineering departments, see those departments’ Catalog sections.

**ACTIVE LEARNING FACILITY**

The Active Learning Facility (ALF) uses a project-oriented, team-based, hands-on approach to education. The facility provides NT servers, personal computers, and remote plug-ins for students’ laptops. It also offers a variety of software for project management, presentations, and data analysis and reporting.

**ADVANCED SYSTEMS LABORATORY**

The Advanced Systems Laboratory houses research on development and implementation of computational algorithms for the optimization of complex systems.

**BIOMANUFACTURING LABORATORY**

The Biomanufacturing Laboratory teaches students about emerging processes and techniques in cell-biomaterial interactions and gives them hands-on laboratory experience. Work in the laboratory is interdisciplinary, spanning engineering, medicine, biology, and biotechnology. The laboratory provides facilities for engineered living tissue systems. Next generation manufacturing tools are used to build biologically inspired structures intended to replace diseased or damaged organs and tissues. Laboratory research projects and
activities focus primarily on design, modeling, and fabrication of tissue replacement parts; tissue scaffolds and medical devices; and cell and organ printing. Diverse software and hardware are available to support bioadditive manufacturing platforms.

COGNITIVE SYSTEMS LABORATORY
The Cognitive Systems Laboratory is devoted to examining the safety, performance, and user acceptance implications of technology insertion into complex systems. The laboratory has networked computers, a video editing workstation, a process control simulation, and a low-cost driving simulator. The simulator is equipped with five cameras, instrumentation to record all driver activity, and an eye tracking system. The Cognitive Systems Laboratory shares the driving simulator and an instrumented vehicle with the Operator Performance Laboratory. The equipment supports class projects, system development, and undergraduate and graduate research.

COMPUTER NUMERICAL CONTROL MACHINING LABORATORY
The Computer Numerical Control (CNC) Machining Laboratory gives undergraduate and graduate students hands-on experience in programming and operating a CNC lathe, a CNC milling machine, and a coordinate measuring machine. CNC programs can be developed through the machine control keyboard or downloaded via RS232C data link from the college's network. Research on the machinability of metals for cutting tool and machining parameters are conducted in the lab. A machine vision system is used to evaluate tool wear patterns.

DESIGN FOR MANUFACTURING LABORATORY
The Design for Manufacturing Laboratory provides students with experience in CAD/CAM systems. The facility’s manufacturing equipment includes 4-axis CNC mills (Haas and Tormach), CNC router (Techno-CNC), CNC metal lathe (Haas and Techno-CNC), drill press, plastic injection molder, thermoforming machine, band saw, disc sander, bench grinder, polishing wheel, hand drill, sandblasting cabinet, press, foot shears, and welding stations. The lab has the latest software technology, such as Pro/ENGINEER and Rhinoceros.

E-COMMERCE LABORATORY
The E-Commerce Laboratory provides a facility for advanced research on Internet technologies and educational programs in key Internet subjects. The laboratory contains the full facilities necessary for a strong Internet capability, including Windows NT workstations, PCs and Macs, UNIX workstations, Internet server software for each platform, Java, VRML, JavaScript, ActiveX and VBScript programming facilities, videoconferencing cameras and group collaboration software, CAD systems software, and database systems.

Activities at the E-Commerce Laboratory include working with companies to improve their use of the Internet; providing assistance in advanced uses of the World Wide Web; providing seminars and workshops to improve Internet education; and carrying out research in key Internet technologies.

Research is under way in a number of key areas, including videoconferencing using the Internet; rapid product development through Internet links with suppliers and customers; virtual reality over the Internet; use of remote databases to access corporate data; use of the Internet to support team-based activities; security of Internet-based activities; and CAD file viewing and manipulation through the World Wide Web.

GROK LAB
The GROK Lab develops computer software and mechanical devices to improve human performance with complex tasks. The laboratory has developed technologies used by NASA to control robots exploring South America and Mars. It also designs and develops microsurgery and dental simulators to train new surgeons and dentists.

INTELLIGENT SYSTEMS LABORATORY
The Intelligent Systems Laboratory provides facilities for research in computational intelligence leading to applications in industry, service organizations, and health care. Research in the laboratory is funded by government agencies and industrial corporations. Solutions to practical problems and enhancement of engineering education are emphasized. Most of the laboratory’s recent projects concentrate on development of software tools for product development, manufacturing, and health care applications.

OPERATOR PERFORMANCE LABORATORY
Research in the Operator Performance Laboratory (OPL) focuses on determining human performance in a variety of situations, with particular emphasis on driving and flight deck environments. Much of the research is performed in the field using a state-of-the-art instrumented vehicle that is equipped with five cameras, eye movement equipment, two computers, video equipment, and a suite of sensors. The OPL also features a scale Boeing 737-400 fixed-base flight simulator with six channels of visuals. The flight simulator is equipped with a remote eye-tracking device that allows the activation of selected virtual controls in the flight deck. A specially designed stimulus presentation booth is used for color research and for photometry applications. Computer models of operator performance are designed based on the data obtained in the laboratory and field research.

Mechanical Engineering

Mechanical Engineering Undergraduate Instruction

ENGINEERING CORE
The laboratories for fluid flows and transport processes contain a wind tunnel; a water flume; a water table; four water channels with porous media; three air-jet tables; various air, water, and oil flow devices; and facilities for numerous small-scale experiments to demonstrate the principles of mass, momentum, and energy transfer.

For information about laboratories affiliated with core courses coordinated by other College of Engineering departments, see the departments’ Catalog sections.

REQUIRED AND ELECTIVE COURSE LABORATORIES
The mechanical engineering laboratory for experimental engineering provides undergraduate students with exposure to contemporary measurement theory, sensors,
Facilities available in the department include a flow visualization and imaging system with CCD (charge-coupled devices) camera, and a low-speed wind tunnel. IIHR and College of Engineering shops provide the necessary support. In addition to using in-house workstations and computers, the department’s faculty members and students make extensive use of supercomputers at national centers.

MECHANICAL SYSTEMS

Computer-based simulation research activities in the mechanical systems area are carried out mainly in the Center for Computer-Aided Design (CCAD). CCAD maintains a variety of high-performance computer systems in support of its technology research and development efforts. General computing services are supported by a number of LINUX and Windows applications servers connected to centralized file servers. CAD/CAE, software development, virtual prototyping, and virtual environment development applications are hosted on numerous high-performance workstations. Standard desktop, multimedia, and office productivity applications are hosted on a network of more than 40 workstations.

THERMAL SCIENCES

Facilities for research in the thermal sciences and systems consist of a low-pressure combustion chamber, a high-pressure continuous flow combustion chamber, a high-pressure chamber for atomization study, a test rig for heat transfer to near supercritical fluids, a diffusion flame test rig, an enclosed laminar flame test rig, an air atomization spray apparatus, test stands for melting and solidification studies, various optical measurement systems, and two fuel cell test rigs. Laser-based diagnostics (e.g., laser-induced fluorescence, imaging, and laser Doppler anemometry) are available for solidification, turbulent flow, heat transfer, and combustion studies. Flow visualization and imaging by CCD camera are available for the study of complex fluid motion and heat convection, and combustion flows.

</tbody>
</table>
056:134 (IE:3350) Process Engineering 4 s.h.
Methodologies, algorithms, and tools for processing modeling, analysis, and reengineering; modeling issues in product and component design; product and process modularity; quality, reliability, agility. Offered spring semesters. Prerequisites: 056:171 (IE:3700).

056:138 (IE:3138) Biomanufacturing 3 s.h.
Design and manufacturing technologies in development of biomedicale related products (customized implants, medical devices, tissue scaffolds, engineered tissues, organs, biological systems); tissue engineering, BioCAD, biomedical imaging and processing for customized implant development, reverse engineering, biomaterials, regenerative medicine and drug delivery, traditional manufacturing processes for tissue engineering, rapid prototyping and layered manufacturing, rapid tooling, bioadditive fabrication, biofabrication and new frontiers in biomanufacturing (organ printing); hands-on laboratory projects and assignments. Prerequisites: 056:032 (IE:2032) or 057:021 (ENGR:2760).

056:155 (IE:4550) Wind Power Management 3 s.h.
Principles of wind power production, wind turbine design, wind park location and design, turbine and wind park control, predictive modeling, integration of wind power with a grid.

In-depth study of CAD and manufacturing (CAD/CAM); review of CAD/CAM, computer graphics, NURBS modeling (curves/surfaces, solid modeling, design data exchange); computational geometry for product development, heterogeneous object modeling, rapid prototyping (RP) and layered manufacturing, computer-aided path planning, CAD applications (computer-aided tissue engineering, biomedical imaging and processing, biomanufacturing); related lab projects and assignments. Prerequisites: 056:032 (IE:2032). Requirements: knowledge of one programming language (C, C++, C#, VB, or Java).

056:235 (IE:6350) Computational Intelligence 3 s.h.

056:237 (IE:6370) Operational Issues in Supply Chain Management Engineering 3 s.h.
Probabilistic approaches, supply chain disruption analysis, human decision making in supply chains, auctions and electronic commerce in supply chains. Requirements: graduate standing.

Human Factors and Ergonomics

056:144 (IE:3400) Human Factors 3 s.h.
Design of human-machine systems; development of optimum work environments by applying principles of behavioral science and basic knowledge of human capacities and limits. Offered fall semesters. Prerequisites: 031:001 (PSY:1001).

056:147 (IE:3450) Ergonomics 3 s.h.
Ergonomic design of jobs and products in an industrial and consumer market setting; principles of good design, examples of poor design; consequences of poor job and product design; principles of work sampling, usability studies, performance rating, sizing and planning of workstations, hand tool design, ergonomic design in transportation; related group project.

056:241 (IE:6410) Research Methods in Human Factors Engineering 3 s.h.
Logic and methods for research and for analysis and evaluation of complex human-machine systems; advanced techniques for enhancement of human interaction with advanced information technology; emphasis on cognitive task analysis techniques for innovative design, understanding of how technology affects safety, performance, user acceptance. Requirements: graduate standing.

056:242 (IE:6420) Human/Computer Interaction 3 s.h.
Development of projects using human factors principles in the design of computer interfaces.

056:244 (IE:6440) Airborne Design of Experiments 3 s.h.
Issues in design of airborne human factors research, and techniques applicable to ground transportation research, statistical, human factors, flight mechanics, and organizational principles in flight test engineering; basic understanding of systematic approach to human factors flight testing, development of test points and test apparatus, flight envelope, proper briefing techniques, mission execution, and after-action review; securing, synchronizing, and analyzing data.

056:245 (IE:6450) Human Factors in Aviation 3 s.h.
Measuring, modeling, and optimizing human visual performance; display design for optimal legibility, research in visibility, legibility, conspicuity, and camouflage; visibility model development. Requirements: graduate standing.

Engineering Management

056:054 (IE:2500) Engineering Economy 3 s.h.

056:150 (IE:3500) Information Systems Design 3 s.h.
Structure and design of computer-based information systems; concepts of information systems, decision making; computer hardware, software, data structures; methods for determining system requirements; designing, implementing, evaluating, managing information systems; applied projects. Prerequisites: 059:006 (ENGR:1300).

Quality Control and Production Systems

056:160 (IE:4600) Operational Systems Design 2-4 s.h.
Projects involving product and related operational system design in an industrial or service organization; associated entrepreneurial or intrapreneurial planning. Offered spring semesters. Prerequisites: 056:054 (IE:2500) and 056:134 (IE:3350).

056:161 (IE:4610) Enhanced Design Experience 2-3 s.h.
Real-world, in-depth design experience in student teams, working with engineers at major companies in the region; application of industrial engineering knowledge and skills to design products and related operational systems.

056:162 (IE:3600) Quality Control 3 s.h.
Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and experimental experimentation; modern management and control charts. Requirements: graduate standing. Same as 22S:133 (STAT:3620), 053:142 (CEE:3142).
Statistics
Operations Research and Applied

056:164 (IE:3640) Six Sigma Operations and
Quality Control
Six Sigma techniques for the DMAIC cycle (Define, Measure, Analyze, Improve, Control); what is needed for data collection (process inputs and outputs, measurement tools), conduct analysis (hypothesis testing, process capability studies), and conduct process improvement studies (design of experiments, response surface methodology); overview of Six Sigma, process and project management skills.

056:165 (IE:3650) Advanced Six Sigma Operations
and Quality Improvement
Analytical techniques used for Six Sigma techniques DMAIC cycle; design and application of experiment techniques, including factorial designs, fractional factorial, Taguchi methods; semester-long project; understanding of statistical techniques required. Prerequisites: 22S:030 (STAT:2010) and 22S:039 (STAT:2020). Corequisites: 056:162 (IE:3600).

056:268 (IE:5610) Reliability Theory and
Applications
Fundamental topics in reliability engineering, including system reliability modeling, statistical inference of lifetime data, basic preventive maintenance models; statistics and random process models, and online monitoring and change detection techniques. Prerequisites: 22M:033 (MATH:2550), and 22S:039 (STAT:2020).

Operations Research and Applied
Statistics

056:166 (IE:3610) Stochastic Modeling

056:170 (IE:3700) Operations Research

056:176 (IE:3760) Applied Linear Regression
Regression analysis with focus on applications; model formulation, checking, selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; hands-on data analysis with computer software. Prerequisites: 22S:030 (STAT:2010) or 22S:039 (STAT:2020). Same as 22S:152 (STAT:3200).

056:178 (IE:3750) Digital Systems Simulation
Simulation modeling and analysis; emphasis on construction of models, interpretation of modeling results, input and output analysis—hands-on usage of ARENA simulation software, manufacturing, health care, and service. Offered spring semesters. Prerequisites: 22S:039 (STAT:2020).

056:186 (IE:5860) Health Informatics I

056:230 (IE:6300) Innovation Science and Studies
Innovative typology and sources, classical innovation models, measuring innovation, innovation discovery from data, evolutionary computation in innovation, innovation life cycle.

056:236 (IE:6360) Decision Making in Supply Chain
Management Engineering
Control theory and Kalman filter approaches, supply chains and behavioral supply chains, organizational approaches, network approaches. Requirements: graduate standing.

056:270 (IE:6600) Linear Programming
Mathematical programming models; linear and integer programming, transportation models, large-scale linear programming, network flow models, convex separable programming. Requirements: calculus and linear algebra. Same as 06K:286 (MSCI:6600).

056:271 (IE:6720) Nonlinear Optimization
Mathematical models, theory, algorithms for constrained and unconstrained optimization; nonlinear, geometric, quadratic, dynamic programming; optimality conditions; aspects of duality theory.

056:274 (IE:6750) Stochastic Optimization
General tools and approaches used in decision making under uncertainties; modeling of uncertainties and risk, changes that uncertainties bring to the decision process, difficulties of incorporating uncertainties into optimization models, common techniques for solving stochastic problems.

056:275 (IE:6760) Statistical Pattern Recognition
Fundamental mathematical tools for multivariate statistical analysis and decision-making processes in pattern recognition. Requirements: graduate standing.

056:276 (IE:6770) Game Theory
Problems, challenges, solution strategies, and other elements that arise among decisions makers who have aligned or opposing objectives; changes that collaboration and competition bring to decision making and problem solving; how ideas and concepts of game theory can be used to understand economic, industrial, social, and biological phenomena. Requirements: basic linear programming and probability.

056:277 (IE:6780) Financial Engineering and
Optimization
Quantitative methods of modeling various financial instruments (i.e., stocks, options, futures) and tools for measurement and control of risks inherent to financial markets; fundamentals of interest rates; options and futures contract valuation, including weather and energy derivatives; risk management and portfolio optimization; emphasis on modeling and solution techniques based on optimization and simulation approaches traditional to industrial engineering and operations research. Recommendations: basic knowledge of probability and statistics, numerical methods, and optimization.

056:287 (IE:5870) Health Informatics II
Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 096:289 (NURS:5301), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

Graduate Seminars, Advanced Topics,
Research
056:191 (IE:5000) Graduate Seminar: Industrial
Engineering
Recent advances and research in industrial engineering presented by guest lecturers, faculty, students. Requirements: graduate standing.
056:195 (IE:5995) Contemporary Topics in Industrial Engineering
New topics or areas of study not offered in other industrial engineering courses; topics based on faculty/student interest. 0 s.h.

056:198 (IE:5998) Individual Investigations: Industrial Engineering
Individual projects for industrial engineering graduate students: laboratory study, engineering design, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing. 0 s.h.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for M.S. with thesis in industrial engineering. Requirements: graduate standing. Arr.

056:295 (IE:7995) Advanced Topics: Industrial Engineering
Discussion of current literature in industrial engineering. Arr.

056:298 (IE:7998) Special Topics in Industrial Engineering
Topics based on faculty/student interest. New topics or areas of study not offered in other industrial engineering courses. Arr.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for Ph.D. in industrial engineering. Arr.

Mechanical Engineering

Special Topics

058:000 (ME:0000) Cooperative Education Training Assignment: Mechanical Engineering
Mechanical engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student's permanent record. Requirements: admission to the Cooperative Education Program. 0 s.h.

058:002 (ME:0002) Half-time Cooperative Education Training Assignment: Mechanical Engineering
Registration for work assignment periods; for students participating in the Cooperative Education Program. 0 s.h.

058:098 (ME:4098) Individual Investigations: Mechanical Engineering
Individual projects for mechanical engineering undergraduate students; laboratory study; engineering design project; analysis, synthesis, simulation of an engineering system; computer software development, research. Arr.

General Topics

Introduction to the mechanical engineering profession and curriculum; ethics and professionalism in classroom and workplace; mentorship program and professional societies; visits to laboratories and local companies. Requirements: sophomore or transfer standing. 0 s.h.

058:051 (ME:3351) Engineering Instrumentation
Basic elements of measuring circuits (bridges, voltage dividers, shunts, transformers); laboratory instrumentation (oscilloscopes, multimeters, power supplies, signal generators); amplifiers; frequency response principles; sensors; data acquisition, signal processing, filtering using Labview. Prerequisites: 029:082 (PHYS:1612) and 059:008 (ENGR:2120). 2 s.h.

058:080 (ME:4080) Experimental Engineering

058:086 (ME:4086) Mechanical Engineering Design Project
Application of mechanical, thermal, fluid systems design; student or team design projects initiated at various levels in the design process and carried through to higher levels; emphasis on synthesis, written and oral communication. Corequisites: 058:048 (ME:4048) or 058:055 (ME:4055). 2-3 s.h.

058:091 (ME:3091) Professional Seminar: Mechanical Engineering
Professional aspects of mechanical engineering: presentations, student/faculty interaction, professional society involvement, panel discussions, plant trip. Requirements: junior standing. 0 s.h.

058:110 (ME:4110) Computer-Aided Engineering
Computational engineering modeling and simulation, geometric modeling, grid generation, finite-element and finite-volume methods, uncertainty analysis, optimization, engineering applications. Prerequisites: 057:019 (ENGR:2750) and 058:052 (ME:3052). Same as 053:115 (CEE:4515). 3 s.h.

058:111 (ME:4111) Numerical Calculations
Development of algorithms for functional approximations, numerical differentiation and integration; solution of algebraic and differential equations, with emphasis on digital computations; initial and boundary value problems. Prerequisites: 22M:033 (MATH:2550) and 059:007 (ENGR:2110). Same as 053:111 (CEE:4511). 3 s.h.

058:112 (ME:4112) Engineering Design Optimization
Engineering design projects involving modeling, formulation, and analysis using optimization concepts and principles; linear and nonlinear models, optimality conditions, numerical methods. Prerequisites: 22M:033 (MATH:2550) and 059:007 (ENGR:2110). Requirements: junior standing. Same as 053:112 (CEE:4512). 3 s.h.

058:113 (ME:5113) Mathematical Methods in Engineering

058:114 (ME:4114) Predictive Human Modeling
Introduction to basic concepts of predictive human modeling, fundamental programming. Denavit-Hartenberg notation (robotics), optimization, posture prediction, interface development, validation, and applied problems for digital human models (DHM). Prerequisites: 22M:033 (MATH:2550) and 059:006 (ENGR:1300). 3 s.h.
058:115 (ME:4115) Finite Element I

One- and two-dimensional boundary value problems; heat flow, fluid flow, torsion of bars; trusses and frames; isoparametric mapping; higher order elements; elasticity problems; use of commercial software. Prerequisites: 057:019 (ENGR:2750). Same as 053:133 (CEE:4533).

058:131 (ME:4131) Manufacturing Systems

3 s.h.

058:186 (ME:4186) Enhanced Design Experience

2-3 s.h.

Experience working in teams on industry-sponsored design and product development projects scheduled for production; emphasis on practical experience with the complete design process, from conceptualization through prototyping, evaluation, testing, and production; written and oral communication. Prerequisites: 058:086 (ME:4086).

Thermal Engineering and Fluids

058:040 (ME:3040) Thermodynamics II

3 s.h.

Power and refrigeration cycles; mixtures of gases, psychometric mixtures; availability; thermodynamics of combustion and chemical equilibrium. Prerequisites: 059:009 (ENGR:2130).

058:045 (ME:3045) Heat Transfer

3 s.h.

Principles of heat transfer by conduction, convection, radiation; analytical and numerical methods of solution; applications to engineering problems. Prerequisites: 22M:037 (MATH:3550) and 057:020 (ENGR:2510). Corequisites: 057:017 (ENGR:2730).

058:048 (ME:4048) Energy Systems Design

4 s.h.

Principles and design of energy conversion systems, including solar, wind, and geothermal power systems; design of thermal-fluid system components, modeling and simulation of systems, optimization techniques; design projects. Prerequisites: 058:040 (ME:3040) and 058:045 (ME:3045).

058:125 (ME:4125) Biomimetic Fluid Dynamics

3 s.h.

Study and development of engineered systems that mimic the structure and function of biological systems; overview of the fluid dynamic principles that govern locomotion by swimming or flapping flight; equations of motion, fundamentals of aerodynamics; analytical models of force generation for swimming and flight; parameters governing effective locomotion; empirical and numerical studies to understand the present state of the art, challenges, and important questions. Prerequisites: 057:020 (ENGR:2510).

058:140 (ME:5210) Intermediate Thermodynamics

3 s.h.

Fundamental principles of thermodynamics as applied to phase equilibrium; properties of fluids, first and second law, variable composition systems, behavior of real fluids, mathematical techniques for solution thermodynamics. Requirements: 052:103 (CBE:3105) or 058:040 (ME:3040) or graduate standing. Same as 052:117 (CBE:5110).

058:142 (ME:4142) Wind Turbine Aerodynamics

3 s.h.

Fluid mechanics of wind turbines and wind farms; engineering methodologies to design wind turbine blades; evaluation of rotor wakes; interaction between machines; effects of topography on wind turbine and wind farm performance. Prerequisites: 057:020 (ENGR:2510).

058:143 (ME:5143) Computational Fluid and Thermal Engineering

3 s.h.

Governing equations of fluid flow and heat transfer; basic numerical techniques for solution of the governing equations; estimation of accuracy and stability of the approximations; boundary conditions; grid generation; applications to flows and heat transfer in engineering systems; familiarity with software for analysis and design of thermo-fluids systems. Prerequisites: 058:045 (ME:3045).

058:145 (ME:5145) Intermediate Heat Transfer

3 s.h.

Steady and unsteady conduction; forced and natural convection; surface and gaseous radiation; condensation and evaporation; analytical and numerical methods and applications. Prerequisites: 058:045 (ME:3045).

058:146 (ME:5146) Modeling of Materials Processing

3 s.h.

Manufacturing processes for metals, polymers, semiconductors; processing by casting, solidification, crystal growth, polymer molding and extrusion, welding, heat treating, application of optical (laser) and electromagnetic energy; processes that use momentum, heat, mass transfer principles; measurement and instrumentation for materials processing; current topics in materials processing. Prerequisites: 058:045 (ME:3045).

058:147 (ME:5147) Fuel Cells

3 s.h.

Introduction to fuel cell designs and performance evaluation; thermodynamics, transport phenomena, and reaction fundamentals essential to understanding of the processes and phenomena that pose limits on fuel cell performance. Prerequisites: 058:040 (ME:3040) and 058:045 (ME:3045).

058:148 (ME:5148) Combustion Engineering

3 s.h.

Chemical kinetics, thermodynamic equilibrium, transport equations; thermodynamics of fluid flows; laminar flames; basic gas turbine cycles; propulsion systems—open gas turbine cycles, turboprop, turbofan, turbojet, ramjet; supersonic inlets; nozzle flows; contemporary propulsion concepts. Requirements: 058:040 (ME:3040) or graduate standing.

058:149 (ME:5149) Propulsion Engineering

3 s.h.

Opportunity to develop basic understanding and knowledge of rocket and airbreathing propulsion systems, relevant terminology and analysis techniques, parametric cycle analysis for ideal engines, off-design analysis methods, problem-solving methodology. Requirements: 058:040 (ME:3040) or graduate standing.

058:160 (ME:5160) Intermediate Mechanics of Fluids

3 s.h.

Basic concepts and definitions; pressure distribution in a fluid; governing equations and boundary conditions; integral and differential analysis; dimensional analysis and similarity; experimental analysis; laminar and turbulent internal and external flows; potential flows; engineering applications. Prerequisites: 057:020 (ENGR:2510) and 058:040 (ME:3040). Same as 053:169 (CEE:5369).

3 s.h.

Review of theory; importance of experiments; modeling and scaling laws; experimental environment and facilities; measurements at full scale and on scaled models; use of wind and water tunnels, towing tanks, and hydraulic flumes; instruments for measuring pressure, temperature, velocity, turbulence; error analysis; data acquisition and processing; laboratory demonstrations, hands-on experiments; project. Same as 053:172 (CEE:5372).

058:163 (ME:5163) Environmental Fluid Dynamics

3 s.h.

Same as 053:175 (CEE:5375).
058:164 (ME:4164) Fundamentals of Wind Turbines 3 s.h.
Application of fundamental principles of thermodynamics, fluid mechanics, and mechanical systems to wind turbine engineering; fundamentals of horizontal-axis wind turbines, wind energy conversion to useful work; wind turbine aerodynamics, performance, design of components; overview of wind resource and historical development of wind turbines; introduction to wind turbine installation and wind farm operation. Prerequisites: 058:040 (ME:3040).

058:180 (ME:5180) Measurements in Fluid Mechanics: Fundamental and Advanced Topics 3 s.h.
General concepts in fluid mechanics measurement; classical methods for flow rate, pressure, velocity, temperature, concentration, and wall shear stress; state-of-the-art methods for flow visualization and full-field quantitative measurement; introduction to advanced optical measurement method, i.e., particle image velocimetry (PIV), and related image processing techniques; hands-on training with a class project assignment on writing a computer program to evaluate experimental image recordings. Prerequisites: 057:020 (ENGR:2510). Requirements: primary knowledge of fluid mechanics, thermodynamics, and heat transfer; basic skill in computer language.

058:245 (ME:6245) Diffusive Transport 3 s.h.
Diffusive transport of heat, mass, and momentum; phenomenological laws and analogies; analytical and numerical solution techniques; inverse heat conduction; multiphase and multiphase systems. Prerequisites: 058:145 (ME:5145). Same as 052:272 (CBE:6145).

058:248 (ME:7248) Combustion Theory 3 s.h.
Laminar flame theory; turbulent combustion; spray combustion; thermal ignition; pollutant formation, oxidation; combustion diagnostics. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160). Requirements: graduate standing.

058:260 (ME:6260) Viscous Flow 3 s.h.

058:262 (ME:6262) Inviscid Flow 3 s.h.
Derivation of governing equations for fluid flow; general theorems for motion of inviscid, incompressible flows; solution techniques for two- and three-dimensional inviscid flows; forces and moments acting on immersed bodies; vortex kinematics and dynamics; steady and unsteady aerodynamic theory. Prerequisites: 058:160 (ME:5160).

058:263 (ME:5263) Compressible Flow 3 s.h.
Compressible flow behavior; 1-D unsteady flow and appropriate use of x-t diagrams; 2-D flows and use of the method of characteristics; Burgers’ Equation and its properties.

058:266 (ME:7266) Interfacial Flows and Transport Processes 3 s.h.
Physics of fluid interfaces and numerical techniques to simulate interface dynamics; interfacial flow coupled with thermal-fluid transport, from molecular interactions to continuum approximations; development of computer code segments to track and represent interface-flow interactions. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:267 (ME:7267) Multiphase Flow and Transport 3 s.h.
Thermodynamic and mechanical aspects of interfacial phenomena and phase transitions; nucleation, phase-change, species transport, particulate flows, liquid-vapor systems, solidification, porous media. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:268 (ME:7268) Turbulent Flows 3 s.h.
Origin; need for modeling; averages, Reynolds equations, statistical description; experimental methods and analysis; turbulence modeling; free shear layers and boundary layers; complex shear flows; development of computational strategies; recent literature on theory and applications, chaos phenomena. Prerequisites: 058:160 (ME:5160).

058:269 (ME:7269) Computational Fluid Dynamics and Heat Transfer 3 s.h.
Development of numerical and algebraic approximations for finite-volume, spectral, pseudo-spectral, Galerkin techniques; stability of numerical methods; CFL condition; stiff problems; adaptive grid generation and boundary-fitted coordinates; numerical solutions for one- and two-dimensional compressible and incompressible fluid and heat transfer problems. Prerequisites: 058:111 (ME:4111) and 058:160 (ME:5160). Requirements: graduate standing.

058:275 (ME:6275) Advanced Heat Transfer 3 s.h.
Conservation laws, forced and natural convection; surface and gaseous radiation; analytical and numerical methods; applications. Prerequisites: 058:145 (ME:5145).

058:281 (ME:5281) Computational Ship Hydrodynamics 3 s.h.
Introduction to computation problems in three main areas of ship hydrodynamics—resistance and propulsion, seakeeping, and maneuvering; problems of simulating operating ships; modeling methods and numerical techniques used to approach these problems. Prerequisites: 058:143 (ME:5143) or 058:160 (ME:5160).

058:296 (ME:7296) Advanced Topics in Thermal and Fluid Engineering 3 s.h.
Thermodynamics, fluid mechanics, heat and mass transfer, related experimental and analytical techniques; selection of subject and content determined by instructor/student interest. Requirements: graduate standing.

**Mechanical Systems**

058:032 (ME:2032) Design for Manufacturing 3 s.h.
Fundamentals of design, engineering graphics, and manufacturing processing; computer graphics using Pro/ENGINEER for CAD and CAM; typical industrial processes (machining, casting, welding, forming); prototype fabrication using additive manufacturing techniques; next generation manufacturing and design tools (BioCAD, biomaterials); engineering design, computer graphics, computer-aided design (CAD), engineering materials, traditional and nontraditional manufacturing techniques, numerically controlled machine tools, rapid prototyping, process planning, biomaterials, electronics manufacturing, MEMS, and automation; laboratory exercises and projects. Corequisites: 057:015 (ENGR:2720), 057:032 (ME:2032). Same as 051:062 (BME:2700), 056:032 (IE:2032).
058:055 (ME:4055) Mechanical Systems Design  4 s.h.
Design considerations for mechanical engineering systems; strength, deformation, durability of mechanical elements; safe-life, fail-safe, damage-tolerant design; standards, products liability, ethics in design. Prerequisites: 058:052 (ME:3052).

058:133 (ME:5360) Control Theory  3 s.h.
State space approach; controllability, observability, canonical forms, Luenberger observers, feedback control via pole placement, stability, minimal realization and optimal control. Prerequisites: 055:060 (ECE:3600). Same as 055:160 (ECE:5600).

058:134 (ME:5362) Computer-Based Control Systems  3 s.h.
Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 055:164 (ECE:5640).

058:136 (ME:5130) Digital Human Modeling and Simulation  3 s.h.
Fundamentals of using computational methods in modeling, simulating, and animating articulated kinematic chains such as robots and humans; underlying mathematics, introductory concepts in kinematics and dynamics, serial chain kinematics and multibody dynamics; methods from kinematics and dynamics, coupled with biomechanical concepts, provide an integrated approach to predicting and analyzing serial link motion (e.g., human and robotic manipulator motion). Prerequisites: 057:010 (ENGR:2710). Same as 051:162 (BME:5710).

058:150 (ME:5150) Intermediate Mechanics of Deformable Bodies  3 s.h.
Application of equilibrium analyses, strain-displacement relations, and constitutive relationships to practical structural systems and elementary plane elasticity problems. Prerequisites: 057:019 (ENGR:2750). Same as 053:140 (CEE:5540), 051:151 (BME:5660).

058:153 (ME:4153) Fundamentals of Vibrations  3 s.h.
Vibration of linear discrete and continuous mechanical and structural systems; harmonic, periodic, and arbitrary excitation; modal analysis; applications. Prerequisites: 057:019 (ENGR:2750). Same as 053:132 (CEE:4532).

058:154 (ME:5154) Intermediate Kinematics and Dynamics  3 s.h.

058:159 (ME:5159) Fracture Mechanics  3 s.h.
3-D stress states, definition and criteria for failure, nominal and local yield phenomena, linear elastic and elastic plastic fracture mechanics, plane stress and plane strain fracture toughness, J-integral, crack opening displacement, environmental assisted cracking, fatigue crack growth, fail safe, and damage tolerant design. Prerequisites: 051:085 (BME:4910) or 058:055 (ME:4055) or 058:150 (ME:5150). Same as 053:149 (CEE:5549).

058:167 (ME:5167) Composite Materials  3 s.h.
Mechanical behavior of composite materials and their engineering applications; composite constituents (fibers, particles, matrices) and their properties and behavior; macromechanical behavior of composite laminae; micromechanical predictions of composite overall properties; classical lamination theory; composite beams and plates. Prerequisites: 22M:025 (MATH:1850) and 057:019 (ENGR:2750). Same as 053:137 (CEE:5137).

058:179 (ME:3179) Continuum Mechanics  3 s.h.
Mechanics of continuous media; kinematics of deformation, concepts of stress and strain; conservation laws of mass, momentum and energy; constitutive theories; boundary and initial value problems. Prerequisites: 057:019 (ENGR:2750) or 057:020 (ENGR:2510). Same as 053:179 (CEE:3179).

058:214 (ME:6214) Analytical Methods in Mechanical Systems  3 s.h.
Vector and function spaces; functionals and operators in Hilbert spaces; calculus of variations and functional analysis with application to mechanics; Ritz and Galerkin methods. Prerequisites: 058:113 (ME:5113). Same as 053:214 (CEE:6310).

058:215 (ME:6215) Finite Element II  3 s.h.
Computer implementation; plate and shell elements; mixed and hybrid formulations; nonlinear analysis; recent development; introduction to boundary element method. Prerequisites: 053:133 (CEE:4533). Same as 053:233 (CEE:6332).

058:246 (ME:6246) Advanced Numerical Methods for Mechanical Systems  3 s.h.
Introduction to meshfree particle methods, extended finite element method, material stability analysis, thermal-mechanical coupling, and coupling of finite element/meshfree methods. Requirements: 058:115 (ME:4115) or 058:143 (ME:5143) or background in computational mechanics, computational chemistry, or computational physics.

058:247 (ME:6247) Contact Mechanics  3 s.h.
Varied aspects of contact mechanics and engineering applications, including stationary contacts, sliding, rolling, impact, and fretting fatigue; emphasis on theoretical basis of solutions of contact mechanics problems; mathematical methods of solving contact problems using Green’s function method; complex potentials and integral transform methods. Prerequisites: 058:113 (ME:5113) and 058:150 (ME:5150).

058:250 (ME:7250) Advanced Fracture Mechanics  3 s.h.
Fracture of modern engineering materials; linear-elastic fracture; computational methods; functionally graded materials; elastic-plastic fracture; multiscale fracture and fatigue crack initiation. Prerequisites: 058:113 (ME:5113), and 058:115 (ME:4115) or 058:159 (ME:5159). Same as 053:250 (CEE:7250).

058:251 (ME:4251) Computational Inelasticity  3 s.h.
Computational techniques and implementations for elastic, hyperelastic, elasto-plastic, visco-elastic, and visco-plastic material models; development of sound numerical integration algorithms from rate constitutive equations. Prerequisites: 053:241. Same as 053:243 (CEE:4543).

058:252 (ME:6252) Advanced Continuum Mechanics  3 s.h.

Principles of virtual work; stationary minimum potential energy; calculus of variations; Ritz method, Galerkin’s method; beams, plates; Hamilton’s principle; elastic stability; extremum principle of plasticity. Requirements: for 058:254 (ME:6254) — 058:113 (ME:5113) and 058:150 (ME:5150); for 053:244 (CEE:6544) — 053:113 (CEE:5513) and 053:140 (CEE:5540). Same as 053:244 (CEE:6544).
058:255 (ME:6255) Multiscale Modeling 3 s.h.
Computational modeling of engineering materials ranging from molecular to continuum scales, molecular dynamics and Monte Carlo methods, nanoscale continuum modeling, scale-coupling methods. Prerequisites: 058:115 (ME:4115) or 058:143 (ME:5143). Same as 053:249 (CEE:7549).

058:256 (ME:7256) Computational Solid Mechanics 3 s.h.
Advanced computational methods for nonlinear and dynamic analysis of solids, structures; new space- and time-discretization methods for problems, including highly nonlinearities, large deformation, contact/impact conditions. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:257 (ME:7257) Probabilistic Mechanics and Reliability 3 s.h.
Stochastic and reliability analysis of mechanical systems; computational methods for structural reliability; random eigenvalue problem; random field and stochastic finite element methods. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:258 (ME:6258) Computational Ship Hydrodynamics 3 s.h.
Introduction to computation of problems in three main areas of ship hydrodynamics: resistance and propulsion, seakeeping, and maneuvering; focus on issues of simulating operating ships, modeling methods, and numerical techniques used to approach ship hydrodynamics. Prerequisites: 058:160 (ME:5160). Corequisites: 058:143 (ME:5143).

058:259 (ME:7259) Mechanical Design in Structures 3 s.h.
Discrete and continuum variational equilibrium equations, discrete design sensitivity analysis for static responses and eigenvalues, interactive design workstation, continuum sizing design sensitivity analysis for static responses and eigenvalues, design sensitivity analysis of structural dynamics, differentiability theory, shape optimal design, shape design sensitivity analysis, design sensitivity of nonlinear structural systems. Prerequisites: 058:113 (ME:5113), 058:115 (ME:4115), and 058:150 (ME:5150).

058:265 (ME:7265) Multiphysics Modeling of Solids 3 s.h.
Coupling of mechanical, electrical, electromagnetic, and thermal fields in solids; how to formulate and solve applied multiphysics problems where mechanical, electromagnetic, and thermal loads must be taken into account. Prerequisites: 058:150 (ME:5150).

058:278 (ME:6278) Nonlinear Elasticity 3 s.h.
Nonlinear elasticity theory; modern applications in biomechanics; vectors and tensors, constitutive theory of elastic material, some exact solutions of boundary value problems, inverse deformation relations, stability of elastic material, theories of tissue adaptive response. Prerequisites: 058:150 (ME:5150). Requirements: elementary linear elasticity.

058:295 (ME:7295) Advanced Topics in Mechanical Systems 3 s.h.
Advanced contemporary topics in mechanical systems engineering not covered in other courses and determined by student/faculty interest.

Graduate Seminars, Advanced Topics, Research

058:191 (ME:6191) Graduate Seminar: Mechanical Engineering 0 s.h.
Presentation and discussion of recent advances and research in mechanical engineering by guest lecturers, faculty, students. Requirements: graduate standing.
Technological Entrepreneurship

Undergraduate certificate: technological entrepreneurship
Web site: http://www.engineering.uiowa.edu/about/tec/index.php

The College of Engineering partners with the Tippie College of Business to offer the Certificate in Technological Entrepreneurship. The program is administered by the John Pappajohn Entrepreneurial Center in the business college.

Undergraduate Program

- Certificate in Technological Entrepreneurship

Certificate

The Certificate in Technological Entrepreneurship requires a minimum of 18 s.h. of credit. Certificate students study how the entrepreneurial process relates to technology-based businesses. The program is intended for students who plan to start and operate their own businesses as well as for those who would like to develop an understanding of how to manage innovation in business environments.

Students who complete the certificate program are able to:
- understand sound business thinking;
- use team-building skills in small and large companies;
- understand the entrepreneurial approach to acquiring and managing resources;
- create a business plan;
- bridge engineering and business principles; and
- network with businesses and industries.

The certificate program is open to Bachelor of Science in Engineering students who have earned at least 45 s.h. of credit toward the B.S.E. and have a University of Iowa g.p.a. of at least 2.75. Students must declare their intention to pursue the certificate with the certificate program coordinator and must apply for admission using the application form available online or at the College of Engineering Office of the Dean.

Students must complete at least 12 s.h. of the 18 s.h. required for the certificate at The University of Iowa or in approved study abroad courses. They must maintain a g.p.a. of at least 2.00 in work toward the certificate. Students must be granted the B.S.E. and complete all certificate requirements in order to receive the certificate. Completion of the certificate is noted on the student’s transcript.

The Certificate in Technological Entrepreneurship requires the following course work.

ENGINEERING PROGRAM COURSE

One of these, depending on the student’s engineering major:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>051:085</td>
<td>Biomedical Engineering Senior Design I</td>
<td>4</td>
</tr>
<tr>
<td>052:186</td>
<td>Chemical Engineering Process Design II</td>
<td>3</td>
</tr>
<tr>
<td>053:084</td>
<td>Project Design and Management in Civil Engineering</td>
<td>3</td>

<td>3-4</td>
</tr>
<tr>
<td>058:086</td>
<td>Mechanical Engineering Design</td>
<td>2-3</td>
</tr>
</tbody>
</table>

ENTREPRENEURSHIP ELECTIVES

Students customize their programs with their choice of electives. They earn sufficient elective credit to reach the total of 18 s.h. required for the certificate.

Tarrell Awe Agahe Portman

Web site: http://www.grad.uiowa.edu

The University of Iowa has been a leading center of advanced study for more than a century. Presently, the Graduate College accounts for nearly one-fifth of the University's total enrollment. This high ratio reflects the breadth of the University's graduate programs and resources, the strength of a graduate faculty with a long tradition of personal and professional concern for students, and the opportunities afforded graduate students for involvement, recognition, and support.

The Graduate College is responsible for the review and approval of proposals for new graduate programs and for the periodic survey and evaluation of existing programs. Through its administration of scholarship, fellowship, and research assistantship funds, the college encourages research and strengthening of departments. In cooperation with the Office of the Vice President for Research, it offers assistance to individual faculty members in finding the resources necessary for research projects, and it works with the other colleges and departments of the University to formulate policies concerning selection, supervision, and support of graduate students.

The faculty of the Graduate College is made up of all University tenure-track faculty members at the ranks of assistant professor, associate professor, and professor. A 17-member Graduate Council, elected from and by the graduate faculty and the Graduate Student Senate, is the executive committee of the graduate faculty and is advisory to the dean of the Graduate College.

Degrees Offered

The Graduate College confers the Master of Arts (M.A.), Master of Science (M.S.), Master of Accountancy (M.Acc.), Master of Arts in Teaching (M.A.T.), Master of Computer Science (M.C.S.), Master of Fine Arts (M.F.A.), Master of Health Administration (M.H.A.), Master of Physical Therapy (M.P.T.), Master of Public Health (M.P.H.), Educational Specialist (Ed.S.), Master of Science in Nursing (M.S.N.), Master of Social Work (M.S.W.), Doctor of Philosophy (Ph.D.), Doctor of Musical Arts (D.M.A.), Doctor of Musical Arts (D.M.A.), Doctor of Physical Therapy (D.P.T.), and Doctor of Audiology (Au.D.) degrees.

The college currently confers degrees in the following major fields.

Accounting: M.Acc.*
African American World Studies: M.A.*
American Studies: M.A.*, Ph.D.
Anatomy and Cell Biology: M.S., Ph.D.
Anthropology: M.A.*, Ph.D.
Applied Mathematical and Computational Sciences: Ph.D.
Art History: M.A.*, Ph.D.
Asian Civilizations: M.A.*
Astronomy: M.S.*
Biochemistry: M.S., Ph.D.
Biology: M.S.*, Ph.D.
Biomedical Engineering: M.S.*, Ph.D.
Biostatistics: M.S.*, Ph.D.
Book Arts: M.F.A.
Business Administration: M.A.*, Ph.D.
Chemical and Biochemical Engineering: M.S.*, Ph.D.
Chemistry: M.S.*, Ph.D.
Civil and Environmental Engineering: M.S.*, Ph.D.
Classics: M.A.*, Ph.D.
Clinical Investigation: M.S.*
Communication Studies: M.A.*, Ph.D.
Community and Behavioral Health: M.S., Ph.D.
Comparative Literature: Ph.D.
Comparative Literature--Translation: M.F.A.
Computer Science: M.S.*, M.C.S.*
Dance: M.F.A.
Dental Public Health: M.S.
Economics: M.A.*, Ph.D.
English: M.A.*, M.F.A., Ph.D.
Epidemiology: M.S.*, Ph.D.
Exercise Science: M.S.*
Film and Video Production: M.A.*, M.F.A.
Film Studies: M.A.*, Ph.D.
Free Radical and Radiation Biology: M.S.*, Ph.D.
French and Francophone World Studies: M.A.*, Ph.D.
Genetics: Ph.D.
Geography: M.A.*, M.F.A.
Geoscience: M.S.*, Ph.D.
German: M.A.*, Ph.D.
Greek: M.A.*
Health and Sport Studies: M.A.*, Ph.D.
Health Management and Policy: M.H.A.*, Ph.D.
Health Services and Policy: Ph.D.
History: M.A.*, Ph.D.
Human Toxicology: M.S., Ph.D.
Immunology: Ph.D.
Industrial Engineering: M.S.*, Ph.D.
Informatics: M.S.*, Ph.D.
Integrative Physiology: Ph.D.
International Studies, M.A.*
Journalism: M.A.*
Latin: M.A.*
Leisure Studies: M.A.*
Library and Information Science: M.A.*
Linguistics: M.A.*, Ph.D.
Mass Communications: Ph.D.
Mathematics: M.S.*, Ph.D.
Mechanical Engineering: M.S.*, Ph.D.
Microbiology: M.S., Ph.D.
Molecular and Cellular Biology: Ph.D.
Molecular Biology: Ph.D.
Molecular Physiology and Biophysics: M.S.*, Ph.D.
Music: M.A.*, M.F.A., D.M.A., Ph.D.
Neuroscience: Ph.D.
Nursing: M.S.N.*, D.N.P., Ph.D.
Occupational and Environmental Health: M.S.*, Ph.D.
Operative Dentistry: M.S.
Oral Science: M.S., Ph.D.
Orthodontics: M.S.
Pathology: M.S.
Various joint programs have been developed whereby students work simultaneously toward two degrees. Consult the appropriate Catalog sections for more information. Established joint programs include business administration/library and information science; health management and policy/business administration; health management and policy/urban and regional planning; occupational and environmental health/urban and regional planning; public health/law; public health/medicine; public health/pharmacy; public health/veterinary medicine; and social work/urban and regional planning.

Joint B.S./Ph.D. in Biochemistry

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.S./Ph.D. program in biochemistry. The program permits students to count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements before they have been awarded the B.S. degree. See Biochemistry (p. 930) in the Catalog.

Joint B.A. in Biology/M.P.H. (Epidemiology Subtrack) or M.S. in Epidemiology

The Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health offer a joint B.A./M.P.H. or M.S. in biology and epidemiology. The program permits students to count 12 s.h. toward both the B.A. and the M.P.H. or M.S. degree requirements, enabling them to maximize their selection of upper-level classes for advanced training in epidemiology. See Biology (p. 115) and Epidemiology (p. 1066) in the Catalog.

Joint B.S.E./M.S. in Biomedical Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in biomedical engineering. B.S.E. students admitted to the program may count a limited number of courses toward both the B.S.E. and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master’s thesis or research project before they have been awarded the B.S.E. degree. See Biomedical Engineering (p. 747) in the Catalog.

Joint B.S.E./M.S. in Chemical and Biochemical Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in chemical and biochemical engineering. B.S.E. students admitted to the program may count 12 s.h. of course work, typically advanced chemistry sequences and electives, toward both the B.S.E. and M.S. degree requirements. See Chemical and Biochemical Engineering (p. 757) in the Catalog.

Joint B.S.E. in Chemical Engineering/M.S. in Civil and Environmental Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in chemical engineering and civil and environmental engineering. B.S.E. students admitted to the program may count 12 s.h. of course work toward both the B.S.E. and M.S. degree requirements. See Chemical and Biochemical Engineering (p. 757) and Civil and Environmental Engineering (p. 767) in the Catalog.

Joint B.S.E./M.S. in Civil and Environmental Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in civil and environmental engineering. B.S.E. students admitted to the program may count a limited number of courses toward both the B.S.E.
and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master’s thesis or research project before they have been awarded the B.S.E. degree. See Civil and Environmental Engineering (p. 767) in the Catalog.

**Joint B.A./B.S. in Computer Science/ M.C.S.**

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.A./M.C.S. or B.S./M.C.S. program in computer science. The program allows students to count 12 s.h. of course work, typically advanced technical courses and electives, toward both the bachelor’s and the M.C.S. degree requirements. See Computer Science (p. 183) (College of Liberal Arts and Sciences) in the Catalog.

**Joint B.S.E./M.S. in Electrical and Computer Engineering**

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in electrical and computer engineering. B.S.E. students admitted to the program may count 9 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements and engage in thesis-level research before they have been awarded the B.S.E. degree. See Electrical and Computer Engineering (p. 779) in the Catalog.

**Joint B.A./M.A. in German**

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.A./M.A. program in German. The program permits students to take 12 s.h. of course work that fulfills both B.A. and M.A. degree requirements and provides an opportunity for early entrance to advanced courses in German. See German (p. 309) (College of Liberal Arts and Sciences) in the Catalog.

**Joint B.S.E./M.S. in Industrial Engineering**

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in industrial engineering. B.S.E. students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements, attend one of the department’s graduate seminars, and work on master’s thesis research before they have been awarded the B.S.E. degree. See Mechanical and Industrial Engineering (p. 789) in the Catalog.

**Joint Law and Graduate Degrees**

Joint programs under which students can pursue degrees simultaneously in the College of Law and the Graduate College have been developed with the law college and a number of departments in the Graduate College. See College of Law (p. 880) in the Catalog.

**Joint M.A. in Library and Information Science/Certificate in Book Studies**

The joint M.A. in library and information science and Certificate in Book Studies/Book Arts and Technologies prepares students for careers in special collections librarianship. The 51 s.h. program trains individuals to manage varied types of special collections, such as rare books, manuscripts, archives, graphics, music, and ephemera. Successful completion of the program is noted on the student’s transcript. See Center for the Book (p. 833) and Library and Information Science (p. 848) (both Graduate College) in the Catalog.

**Joint B.A./M.A. in Linguistics**

A joint B.A./M.A. program in linguistics with a specialization in Teaching English as a Second Language (TESL) is offered by the Graduate College and the College of Liberal Arts and Sciences. The program permits students to take a limited number of courses that fulfill both B.A. and M.A. degree requirements and provides for early entrance to advanced courses in linguistics. Joint B.A./M.A. students also may gain experience teaching ESL at the college level early in their graduate careers. See Linguistics (p. 397) (College of Liberal Arts and Sciences) in the Catalog.

**Joint B.S.E./M.S. Mechanical Engineering**

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in mechanical engineering. B.S.E. students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 6 s.h. toward the M.S. degree requirements, attend a graduate seminar, and participate in master’s thesis research before they have been awarded the B.S.E. degree. See Mechanical and Industrial Engineering (p. 789) in the Catalog.

**Joint B.S.E. in Mechanical Engineering/M.S. in Civil and Environmental Engineering**

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in mechanical engineering and civil and environmental engineering. B.S.E. students admitted to the program may count 9 a.h. of course work toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements before they have awarded the B.S.E. See Mechanical and Industrial Engineering (p. 789) and Civil and Environmental Engineering (p. 767) in the Catalog.

**Joint M.D./Ph.D. in the Medical Scientist Training Program**

The Medical Scientist Training Program (MSTP) is an interdisciplinary M.D./Ph.D. program offered jointly by the Carver College of Medicine and the Graduate College. See Medical Scientist Training (p. 961) Program (Carver College of Medicine) in the Catalog.

**Joint B.S./Ph.D. in Microbiology**

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.S./Ph.D. program in microbiology. The program permits students to count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements before they have been awarded the B.S. degree. See Microbiology (p. 963) in the Catalog.

**Joint B.A. in Psychology/M.S. in Epidemiology**

The Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health offer a joint B.A./M.S. in psychology and epidemiology. The program permits students to count 12 s.h. of credit toward both the B.A. and M.S. degree requirements, enabling them to focus on public health earlier than they would if they earned two degrees separately. See Psychology (p. 477) and Epidemiology (p. 1066) in the Catalog.
Joint B.A./M.A.T. (Science Education Subtrack)

The Graduate College, the College of Education, and the College of Liberal Arts and Sciences offer a joint B.A./M.A.T. program for students pursuing a B.A. with a major in biology, chemistry, environmental sciences, or physics who wish to earn an M.A.T. in science education. The five-year program allows students to apply 18 s.h. of credit toward both the B.A. and the M.A.T. degree requirements. See Biology (p. 115), Chemistry (p. 127), Environmental Sciences (p. 247), or Physics and Astronomy (p. 451) (College of Liberal Arts and Sciences) or Teaching and Learning (p. 699) (College of Education) in the Catalog.

Joint Au.D./Ph.D. in Speech and Hearing Science

The Graduate College, through the Department of Communication Sciences and Disorders, offers the joint Au.D./Ph.D. program. The program requires 137 s.h., allowing students to count 30 s.h. toward both degrees (the Au.D. requires 95 s.h., and the Ph.D. requires 72 s.h.). The program is a natural choice for students who are interested in practicing audiology but who also wish to pursue academic, tenure-track faculty positions in university settings. See Communication Sciences and Disorders (p. 158) (College of Liberal Arts and Sciences) in the Catalog.

Certificate Programs

Several Graduate College programs offer certificates. For detailed information about each one, see Center for the Book (p. 833), Informatics (p. 843), Rhetorics of Inquiry (p. 861), and Transportation Studies (p. 872).

The Graduate College also participates with other University of Iowa colleges in offering the following graduate certificates.

Advanced Practice Nursing

The Certificate in Advanced Practice Nursing is a post-master's degree program that allows for advanced clinical training in four specialty tracks: pediatric nurse practitioner, adult/gerontology nurse practitioner, family nurse practitioner, and psychiatric/mental health nursing. Certificate requirements include advanced clinical core courses and a sequence of specialty courses. Successful completion of the specialty sequence qualifies a student to sit for certification as a nurse practitioner and/or a clinical nurse specialist. Completion of the certificate program is noted on the student's transcript. See College of Nursing (p. 1017) in the Catalog.

Aging Studies

The Aging Studies Program is a multidisciplinary certificate program administered by the College of Liberal Arts and Sciences in cooperation with other University of Iowa colleges. The 21 s.h. program is designed to complement graduate degree programs or to serve as a stand-alone nondegree program for students with academic, professional, research, or service career interests in aging. Completion of the Certificate in Aging Studies is noted on the student’s transcript. See Aging Studies (p. 34) (College of Liberal Arts and Sciences) in the Catalog.

Agricultural Safety and Health

The Certificate in Agricultural Safety and Health is a postbaccalaureate program for practicing health care professionals serving rural areas, and health professions students who intend to practice in rural areas. The 12 s.h. program is designed to help rural health professionals address safety and health issues in farm settings. Successful completion of the program is noted on the student's transcript. See Agricultural Safety and Health (p. 1053) (College of Public Health) in the Catalog.

American Indian and Native Studies

The American Indian and Native Studies Program (AInSP) offers an interdisciplinary certificate program focusing on the histories, cultures, languages, arts, religious traditions, political and social organizations, economies, geographies, literatures, and contemporary legal and political concerns of Native Americans of the United States as well as other indigenous peoples of the Western Hemisphere. Successful completion of the Certificate in American Indian and Native Studies is noted on the student's transcript. See American Indian and Native Studies (p. 37) (College of Liberal Arts and Sciences) in the Catalog.

Biostatistics

The Certificate in Biostatistics is open to students in University of Iowa graduate degree programs outside biostatistics and to individuals admitted to the Graduate College as nondegree students. The certificate program enables students to add a formal biostatistics emphasis to their degree programs. The 15 s.h. program consists of two core courses and three elective courses. Students who complete the certificate in conjunction with a graduate degree may count a maximum of 6 s.h. of certificate credit toward their degree. See Biostatistics (p. 1054) (College of Public Health) in the Catalog.

College Teaching

The Certificate in College Teaching provides overarching administration and structure that complements discipline-oriented graduate teaching preparation programs. The 12 s.h. program has three parts: course work, teaching experience, and preparation of a teaching portfolio. The program is open only to graduate students enrolled in graduate degree programs. Successful completion of the program is noted on the student's transcript. Application is made through the College of Education. See Graduate Certificate in College Teaching on the College of Education web site.

Emerging Infectious Disease Epidemiology

The Certificate in Emerging Infectious Disease Epidemiology is a post-baccalaureate program designed to meet the training needs in emerging infectious disease of international public health professionals as well as graduate students at The University of Iowa. The 12 s.h. program requires one short term, intensive on-campus session, coupled with year-round, web-based, distance-learning course work. Applicants to the program must have earned a bachelor's degree. Successful completion of the program is noted on the student's transcript. See Emerging Infectious Disease Epidemiology (p. 1065) (College of Public Health) in the Catalog.
Gender, Women’s, and Sexuality Studies
The Certificate in Gender, Women’s, and Sexuality Studies is open only to students enrolled in graduate degree programs. The 16 s.h. program consists of six courses. It begins with foundation and theory core courses and ends with a capstone conference. See Gender, Women’s, and Sexuality Studies (p. 268) (College of Liberal Arts and Sciences) in the Catalog.

Global Health Studies
The interdisciplinary Global Health Studies Program emphasizes international health problems and solutions in the developing and developed worlds, including the United States. Requirements for the Certificate in Global Health Studies include core courses, electives, foreign study and/or internship, a research project, and foreign language skills. Students do not need special health science courses to participate. Completion of the certificate program is noted on the student’s transcript. Both the College of Liberal Arts and Sciences and the Graduate College award a Certificate in Global Health Studies. See Global Health Studies (p. 315) (College of Liberal Arts and Sciences) in the Catalog.

Multicultural Education and Culturally Competent Practice
The Certificate in Multicultural Education and Culturally Competent Practice is open to graduate students enrolled in graduate degree programs and to postbaccalaureate nondegree graduate students. The curriculum, which consists of five courses (15 s.h.), begins with an introductory course and ends with a capstone course. The College of Education and the School of Social Work collaborate to offer the certificate.

Sacred Music
The Certificate in Sacred Music is an interdisciplinary program with course offerings in sacred music, choral conducting/literature, keyboard, voice, religion, and art and art history. The certificate requires 25 s.h. It is open to students enrolled in a graduate degree program and to nondegree students who have been admitted to the Graduate College and who have consent of the certificate’s faculty advisor. Successful completion of the certificate program is noted on the student’s transcript. See Music (p. 425) (College of Liberal Arts and Sciences) in the Catalog.

Translational and Clinical Investigation
The Certificate in Translational and Clinical Investigation is designed for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. Certificate requirements include didactic course work, clinical research preceptorships, and clinical research seminar participation. Students in the certificate program must be practicing academic clinicians who have completed doctoral training. Successful completion of the program is noted on the student’s transcript. See Epidemiology (p. 1066) (College of Public Health) in the Catalog.

Affiliated Programs

Office of Graduate Ethnic Inclusion
The Office of Graduate Ethnic Inclusion (OGEI) is dedicated to providing academic assistance to graduate students from underrepresented populations across graduate programs; to helping build a sustainable practice of inclusion that nourishes and attracts underrepresented graduate students campus wide; and to helping build community through individual and group activities focused on successful academic progress.

OGEI’s specific goals are to increase numbers of underrepresented ethnic minorities in graduate programs; increase the number of doctoral students among U.S. ethnic minorities in graduate programs at Iowa; create a department-centered effort of graduate ethnic inclusion; offer support to University of Iowa departments and programs that are interested in building, extending, or sustaining their practices of ethnic inclusion; support faculty-based efforts for recruiting top graduate scholars who are underrepresented ethnic minorities; provide mentoring and support for students throughout their degree programs; and provide information on grant opportunities for departments and programs that are pursuing graduate ethnic inclusion.

Women in Science and Engineering
Women in Science and Engineering (WISE) is dedicated to expanding and improving educational and professional opportunities for women in STEM disciplines (science, technology, engineering, and mathematics). The program aims to provide academic support, promote professional development, facilitate research opportunities, engage in community outreach, and encourage global cooperation.

WISE provides academic support by promoting activities that motivate and encourage undergraduate and graduate students to complete degrees and pursue careers in scientific and technical fields. It supports the recruitment and retention of women students, staff, and faculty and the full participation of women and precollege girls in gender-equitable educational programs that focus on science and engineering. The program facilitates professional development by promoting activities that empower women scientists, engineers, mathematicians, and health professionals to achieve success and assume leadership positions in their careers.

WISE encourages global cooperation by supporting activities that prepare women to enter the international STEM workforce, that support academic partnerships with foreign institutions, and that encourage scholarship and professional development of foreign women in STEM disciplines on the University of Iowa campus.

For more information on WISE goals and activities including the WISE learning community, WISE ambassadors, the Eunice Beam WISE travel grants, professional development workshops, and the WISE library and newsletter, visit the Women in Science and Engineering web site.
Research Resources

Many of the University’s diverse research activities are centrally administered by the Office of the Vice President for Research, which has a cooperative relationship with the Graduate College.

Financial Support

Approximately half of the University’s graduate students receive some form of University-administered financial assistance. For eligibility requirements and application procedures, see “Section VII. Graduate Appointments” in the Manual of Rules and Regulations of the Graduate College. The following are the primary sources of assistance.

Teaching and Research Assistantships

Teaching and research assistantships are available in most departments. Assistantship stipends typically range between $17,330 for a half-time academic-year appointment and $21,180 for a half-time fiscal-year appointment; assistants also are eligible for tuition scholarships. Assistants (one-quarter-time or more) are classified as residents for fee purposes.

Iowa Arts Fellowships

Iowa Arts Fellowships are for University of Iowa graduate students entering M.F.A. programs. Typical stipends are $18,500 for the academic year, with all tuition (excluding mandatory fees) paid, plus a health insurance allowance, for a maximum of two years (the second year being contingent on demonstrated exceptional progress toward completion of the M.F.A.). There are no departmental service obligations.

Iowa Performance Fellowships

Iowa Performance Fellowships are for first-year D.M.A. candidates in a performance area of music. Recipients are nominated by the School of Music. Awards include academic-year fellowships ($17,500 for year one, $8,665 for years two and three), summer fellowships ($2,000 for years one and two), and tuition (excluding mandatory fees). The School of Music provides a one-quarter-time research assistantship in years two and three.

Dean’s Graduate Research Fellowships

Dean’s Graduate Research Fellowships are awarded to first-year graduate students who are members of minority groups underrepresented in the nominating department’s discipline area. Doctoral students receive an annual stipend of $22,000 ($18,000 for the academic year and $4,000 for summer session) plus tuition (excluding mandatory fees) for the first year and final dissertation year. They also receive a half-time research or teaching assistantship stipend, tuition (excluding mandatory fees), and a summer stipend ($4,000 if they register) during years two and three. Students earning a terminal master’s degree (e.g., M.F.A.) receive fellowship support equivalent to one academic year ($17,000) and are eligible to receive two summer session stipends ($3,000 each if they register) and tuition (excluding mandatory fees) for two years. The master’s fellowship support may be distributed over two academic years ($8,500 per year), if requested. Both doctoral and master’s degree fellows are expected to conduct mentored research and/or scholarly activities while on fellowship support during the academic year and summer sessions.

Presidential Graduate Fellowships

Presidential Graduate Fellowships provide five-year awards for doctoral students on a year-round basis. Fellows receive an annual stipend of $24,000 ($18,500 for the academic year and a $5,500 summer stipend), plus full tuition (excluding mandatory fees) for years one and four; a research assistant or teaching assistant stipend during the academic year and a $5,500 summer stipend and full tuition (excluding mandatory fees) for years two and three. Recipients have no duties during their fellowship years and are eligible for up to four summers of support. In their final year, awardees are eligible to apply for a Ballard and Seashore Dissertation-Year Fellowship; those who do not receive the fellowship are awarded a research assistantship, a teaching assistantship, or a fellowship from their department.

Graduate College Summer Fellowships

Graduate College Summer Fellowships are for advanced doctoral students who have completed their comprehensive exams, are working to complete their dissertations, and do not otherwise have funding for the summer session. Awards provide a summer stipend of $3,000 plus tuition for 1-2 s.h. at the College of Liberal Arts and Sciences tuition rate. Awardees must enroll for the six-week or eight-week summer session; students enrolled in the three-week summer session are not eligible to receive the fellowship.

T. Anne Cleary International Research Fellowships

The T. Anne Cleary International Research Fellowships are for doctoral students who have completed all predissertation requirements, including the comprehensive examination, and who will use the fellowship for dissertation research outside North America. The awards may vary from $1,500 to $5,000 and are meant to supplement other research funds. Doctoral students in any discipline may apply. Past recipients of the Cleary fellowship and Doctor of Musical Arts students who choose the D.M.A. essay option are not eligible.

Ballard and Seashore Dissertation-Year Fellowships

Ballard and Seashore Dissertation-Year Fellowships are final-year fellowships for doctoral students in the humanities and social sciences who have completed all doctoral degree requirements except their dissertation. Recipients are nominated by their departments. Fellowships provide $18,000 for the academic year plus tuition (excluding mandatory fees) for up to 2 s.h. and a health insurance allowance.

Scholarships

Scholarships provide up to full tuition.

GRADUATE STUDENT TRAVEL AWARDS

Graduate student travel awards provide reimbursement for travel by students who present research and scholarship results to professional conferences. Awards are competitive across disciplines and vary from $200 to $400. Funds are administered by the Graduate Student Senate and the Graduate College.
Other Sources
For other sources of financial support, contact the Office of Student Financial Aid.

Many departments offer additional support through traineeships, part-time employment in research, or part-time teaching appointments. The Office of the Vice President for Research maintains a library of information on public and private agencies that provide funds for research and graduate study. Much material has been collected concerning awards for overseas study.

Graduate Student Senate
The Graduate Student Senate is the University graduate student body representative organization. Representatives are elected annually from each University department that has a graduate degree program. The senate's primary purpose is to serve the interests of the graduate student body in matters affecting its welfare. The senate advises the dean of the Graduate College on matters pertaining to the college.

Manual of Rules and Regulations of the Graduate College
The following text is from the Manual of Rules and Regulations of the Graduate College. The most up-to-date version of this manual is available online; see “For Students” on the Graduate College web site.

The Academic Program
Section I. Admission to the Graduate College

A. APPLICATION PROCEDURE
All students seeking to register for the first time in the Graduate College of The University of Iowa must secure formal admission from the director of Admissions. Applicants may obtain the proper forms from the Office of Admissions. Prospective students may also download the application or apply online from the admissions web site.

In addition to these forms, official transcripts, test scores, and other supporting material must be submitted by the designated deadline prior to the session in which admission is expected. Specific deadline dates will be established by the dean of the Graduate College and the director of Admissions and printed in the Catalog and elsewhere.

B. ADVANCED MEASUREMENT TESTS
Each graduate program will determine which, if any, advanced measurement test(s) will be required of the applicants to the program. Examples of such examinations include the General (Aptitude) Test of the Graduate Record Examination (GRE), the GRE Subject (Advanced) Tests, and the Graduate Management Admission Test (GMAT). For those departments or programs that choose to require an examination, the examination must be required for all students; there cannot be exempt categories. Additionally, a final admission decision will not be made by the Office of Graduate Admissions until the student’s scores have been received. The judgment of acceptable levels of performance on these tests, and the weight of such scores in the overall decision-making process, is left to the department or program.

C. ENGLISH FOR INTERNATIONAL STUDENTS
Prior to consideration for admission, international student applicants whose native language is other than English must take and pass either the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), unless they have received a degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand. These examinations are given at various times of the year and in many centers throughout the world.

International students transferring from unfinished degree programs of other universities in the United States who have not taken either of these examinations, or who have received a score lower than the minimum established by the Graduate College dean, must take the TOEFL or IELTS examination and receive a passing score prior to consideration for admission.

Students who barely pass the established minimum on the TOEFL, as well as all IELTS submitters, will be required to sit for an English evaluation upon arrival in Iowa City. The Graduate College will require these students to take and pass recommended course work in English usage at The University of Iowa designed especially for international students.

D. EARLY ADMISSION
A student who is within 6 s.h. of having satisfied all the requirements for the bachelor’s degree at The University of Iowa or any other accredited college may be given provisional admission.

E. CANDIDACY
Admission to the Graduate College is not the equivalent of acceptance as a candidate for an advanced degree, which must be earned through work successfully completed at The University of Iowa. (See “Section X. Master’s Degrees” and “Section XII. Doctor’s Degrees.”)

F. DECLARATION OF MAJOR AND DEGREE
Every applicant for admission must indicate on the application form the department or program of major interest and the degree, certificate, or professional objective he or she intends to pursue. The only exceptions to this regulation are the limited number of applicants registered as nondegree (“special”) students. (See definition of nondegree status in next section.) Changes in the major or degree status may be made in the course of a student’s graduate study with the approval of the department to which the transfer is proposed. To initiate such action, the student must file a change of major or degree status in the Office of Admissions.

G. ADMISSION REQUIREMENTS AND STATUS
Graduates of any college or university accredited by regional accrediting associations may be admitted to the Graduate College if their academic records meet the required standards. Upon admission, all students fall into one of the following three categories:

1. Regular--For students who have met the minimum requirements for admission and who have been accepted by a department, or interdepartmental degree program, for work leading to a graduate degree or certificate or
for professional improvement. The minimum g.p.a. for admission as a regular student to all graduate programs is 3.00.

Departments or programs may petition the Graduate College dean for admission of a student whose g.p.a. is lower than 3.00, if there is sufficient evidence of the student’s academic and/or professional achievement indicating his/her potential for success in a graduate program.

Departments, or committees in charge of interdepartmental degree programs, may, and often do, set higher minimum admission requirements than those set forth above for the Graduate College as a whole. Information concerning departmental or program requirements may be obtained directly from the executive of the department concerned.

2. Conditional—Students who are interested in working toward a graduate degree or certificate but who are required by a department to demonstrate their ability to do satisfactory graduate work before being admitted to regular status. To be admitted on a conditional basis, the student must be recommended by a department, which will assume responsibility for advising him or her. The student on conditional status must achieve regular status within two sessions of registration in the Graduate College by attaining a g.p.a. of at least 3.00 and acceptance by the major department, or be dismissed.

3. Nondegree (Special)—Students with a valid bachelor’s degree and at least a 2.50 g.p.a. are eligible to register for a total of no more than two courses per semester. In addition, a nondegree student may not accumulate more than two courses within a given department/program under this classification. These students must be approved for admission by the Graduate College and the Office of Admissions. Nondegree graduate students are not eligible for a graduate degree.

H. ADMISSION OF FACULTY MEMBERS TO GRADUATE STUDY

Persons who hold faculty rank of assistant professor (including clinical assistant professor) or above at The University of Iowa may be admitted as nondegree students. (See “Section G” above.) A person holding faculty rank as specified above may petition the Graduate College dean for permission to enter a departmental program for work leading to an advanced degree, certificate, or professional improvement except in the department of his or her appointment or a closely related department. Such petitions must have prior approval of the department of appointment, dean of the college of appointment, the department in which study is to be pursued, and the Graduate College.

I. READMISSION

If a student’s enrollment is interrupted for any reason so that she or he is not enrolled for three consecutive academic sessions (including the spring, summer, and fall sessions but excluding the winter session), the student must apply for readmission. The readmission application form must be used. The Graduate College will not require new letters of recommendation, a new Personal Statement section, a written explanation of the reasons for the absence, or a plan for degree completion. However, departments and programs may choose to require any or all of the foregoing.

Section II. Registration

A. STANDARD SCHEDULE

Students registered in the Graduate College may register for no more than 15 s.h. in all courses eligible for graduate credit (100-level or above). A maximum, graduate semester-hour registration will include all courses numbered 100 or above, whether they are offered as on-campus, extension, or workshop classes. In a schedule of mixed graduate and undergraduate courses, two hours of undergraduate credit may be substituted for 1 s.h. of graduate credit, with registration limited to a total of 18 s.h. This equivalency applies to the calculation of academic load only. Graduate credit is not given for courses numbered under 100. The maximum for the eight-week summer session is 8 s.h. Corresponding maximums for the three-week summer and winter sessions and the six-week summer session are 3 or 6 s.h., respectively.

The maximum semester-hour registration for work scheduled outside of the regular eight-week summer session will be arranged on a basis proportionate to that stated above with the approval of the Graduate College dean. In the regular semester, 9 s.h. constitutes full-time registration. (Fellows are required to carry at least 9 s.h. during a semester as a condition of their appointments.) One-quarter-time and one-third-time appointees are permitted to register for the maximum 15 s.h. per semester and 8 s.h. during the eight-week summer session.

B. COURSES NOT INCLUDED IN FULL REGISTRATION

In addition to a full schedule, a graduate student may register for offered courses carrying 0 s.h. of credit.

C. CHANGES IN ANNOUNCED CREDIT

Graduate students may not register for more credit than that offered for any course, but may register for less credit, or no credit, by permission of the instructor. The number of courses a graduate student may take for limited or no credit is subject to the consent of the advisor and the approval of the dean of the Graduate College.

D. REDUCED SCHEDULES FOR TEACHING AND RESEARCH ASSISTANTS AND OTHER APPOINTEES*

1. One-half-time appointees may register for not more than 12 s.h. during a semester or 6 s.h. during the eight-week summer session.

2. Five-eighths-time appointees may register for not more than 10 s.h. during a semester or 5 s.h. during the eight-week summer session.

3. Two-thirds- and three-quarter-time appointees may register for not more than 9 s.h. during a semester or 5 s.h. during the eight-week summer session.

*See Section VII.F. for information regarding graduate assistant overload appointments (those more than one-half-time/20 hours per week).

E. RETROACTIVE REGISTRATION

No form of retroactive registration is permitted.

F. REGISTRATION FOR PART OF A SESSION

A graduate student may register at any time during the semester or the eight-week summer session for not more than 1 s.h. of credit for each of the remaining weeks of classes (not including the examination period) in the term. The total registration may not exceed the 15 s.h.
permitted for a semester and the 8 s.h. permitted for the
eight-week summer session. Registration after the last
day of the second week of a semester or the third day of
the second week of a summer session is permitted only in
courses involving special projects, readings, individual
study, thesis, or research, with the signed approval of
the instructor concerned and the Graduate College dean.
Proportional credit limitations and deadlines for the three-
week and six-week summer sessions will be established on
a prorated basis.

G. EXTRAMURAL REGISTRATION
After admission to a departmental program in the
Graduate College, registration for work done off campus
may be accepted for residence credit under the following
circumstances:
1. Traveling Scholar Program of the Committee on
Institutional Cooperation (see "Section III").
2. Research at approved locations under the direction of
members of the graduate faculty of The University of Iowa.
3. Fieldwork as part of a regularly scheduled course or
research program.
4. Courses taught off campus by members of the graduate
faculty (see "Section X.D." and "Section XII.C." for minimum
semester hours required on campus for the master's and
doctor's degrees).
5. Residence graduate credit from another Iowa Regents'
university (see "Section V.B.").
6. As many as 9 s.h. of graduate work taken at the Quad
Cities Graduate Center from faculty other than faculty
of the Iowa Regents' universities, provided the work is
acceptable to the student's major department for the
specified degree.
Extramural registration does not count toward residence
credit in the following circumstance:
Course work transferred from another institution.

H. SYSTEM OF COURSE NUMBERS
Courses primarily for graduate students are numbered
200 or above in each department. Courses open to and
carrying credit for both graduate and undergraduate
students are numbered from 100 to 199. A student must
be enrolled in the Graduate College in order to earn
graduate credit for course work numbered 100 or above.
Courses below 100 are not accepted for graduate credit
irrespective of a student's classification. Graduate credit
may not be earned for taking courses numbered below
100 by registering in such courses as readings, special
projects, or independent study having course numbers of
100 or above.

I. AUDITING OF COURSES
Upon approval of the instructor and the advisor,
graduate students may audit courses for zero credit. Fee
assessment for auditing courses is based on the number of
hours for which the course is offered, with a minimum
of 1 s.h. Auditing is permitted only for a student who is
currently registered. See "Section VI.C." for the marking
system.

J. DROPPING OF COURSES
All graduate students who drop courses after the deadline
date established by the dean of the Graduate College for
each session and published by the registrar shall receive
the grade of F unless the entire registration is withdrawn.
This regulation may be waived by the Graduate College
dean only on the recommendation of the Student Health
director or the Counseling Service. If a student withdraws
registration after the deadline date, the student must
obtain permission from the dean of the Graduate College
before being permitted to reregister.

Section III. Traveling Scholar Program
A. PURPOSE
The program, under the auspices of the Committee on
Institutional Cooperation representing 13 universities in
the Midwest, enables a doctoral student to take advantage
of special resources available on another campus but
not available on his or her own campus: special course
offerings, research opportunities, unique laboratories, and
library collections.

B. PROCEDURE
1. A CIC Traveling Scholar first must be recommended by
his or her own graduate advisor, who will approach an
appropriate faculty member at the possible host institution
in regard to a visiting arrangement.
2. After agreement by the student's advisor and the faculty
member at the host institution, graduate deans at both
institutions will be fully informed by the advisor and have
the power to approve or disapprove.
3. A CIC Traveling Scholar will be registered at the home
university, and fees will be collected and kept by that
institution.
4. Credit for the work taken will be recorded at the home
university.
5. Those desiring additional information should inquire at
the office of the Graduate College.

C. CONDITIONS
CIC Traveling Scholars will normally be limited to two
semesters or three quarters on another campus. Each
university retains its full right to accept or reject any
student who wishes to study under its auspices.

Section IV. Academic Standing, Probation,
and Dismissal
A. NONDOCTORAL STUDENTS
A nondoctoral departmental (master's, professional
improvement, certificate) student, except one on
conditional status, shall be placed on probation if,
after completing 8 s.h. of graduate work, the student's
cumulative grade-point average on graduate work done at
The University of Iowa falls below 2.75. If, after completing
8 more s.h. of graduate work at this University, the
student's cumulative grade-point average remains below
2.75, the student shall be denied permission to reregister
within any departmental program; otherwise the student
shall be restored to good standing.*

Nondotalor, nondepartmental (nondegree, extension,
workshop) students shall be evaluated for probation and
dismissal purposes based on the same semester-hour
sequence as stated above, at a minimum cumulative
grade-point average of 2.50.

*This requirement shall apply to students entering
nondoctoral departmental programs beginning with the
fall 2001 semester. A minimum cumulative grade-point
The nature of the departmental advisory system shall be following, and other matters as are appropriate. The probation and dismissal policies and procedures (see "E") especially from the master's to the doctor's--departmental grade-point requirements, requirements for changing from study, departmental registration policies, departmental and renewing assistantships, time limits on programs of evaluations, departmental policies with regard to awarding of study, examination procedures and other formal courses applicable to the various departmental programs standards established by the department more stringent already in the program. In addition to notifying students will not apply retroactively to the disadvantage of those revise standards for a given program, the new regulations and the Graduate College dean. Whenever departments shall be communicated by the department to each student. Subsequent changes in standards or procedures departments shall make all reasonable efforts to inform students admitted prior to that session.

C. RESTRICTION ON STUDENTS ON PROBATION
A student on probation shall not be permitted to take comprehensive or final examinations leading to any degree or certificate, nor may the student receive any graduate degree or certificate.

D. DEPARTMENTAL REGULATIONS AND DISSEMINATION OF INFORMATION
In addition to the above University-wide requirements, departments may establish further requirements which then determine the individual student’s standing with regard to probation and dismissal. To this end, each department or program shall compile a written list of standards and procedures for work in that area. These documents shall be on file in each departmental office and the office of the Graduate College dean. Copies are to be available for students in the departmental office, and departments shall make all reasonable efforts to inform students. Subsequent changes in standards or procedures shall be communicated by the department to each student and the Graduate College dean. Whenever departments revise standards for a given program, the new regulations will not apply retroactively to the disadvantage of those already in the program. In addition to notifying students that they are subject to the rules of the Graduate College as set forth in the Manual of Rules and Regulations, any standards established by the department more stringent than the general Graduate College requirements shall be stated. Information shall be provided outlining required courses applicable to the various departmental programs of study, examination procedures and other formal evaluations, departmental policies with regard to awarding and renewing assistantships, time limits on programs of study, departmental registration policies, departmental grade-point requirements, requirements for changing from one degree program to another within the department--especially from the master’s to the doctor’s--departmental probation and dismissal policies and procedures (see "E" following), and other matters as are appropriate. The nature of the departmental advisory system shall be explained to incoming students.

E. ACADEMIC PROGRESS, DEPARTMENTAL PROBATION, AND DISMISSAL PROCEDURES
If a student is failing to meet departmental standards, the department shall warn the student of this fact in writing. The notification shall specify in what way(s) the student is failing to meet the standards. The student shall be provided a reasonable amount of time to meet the standards prior to departmental dismissal. If conditions such as conditional admission or probation are imposed, the department shall give, at the time of its imposition, written explanation of this status and its time limits. A student who will not be permitted to reregister for failure to meet standards shall be notified of this fact in writing with reasons for the action provided. Such dismissal may follow failure to meet conditions of admission, conditions of probation, pre-announced departmental grade-point requirements or other standards, or failure of a regularly scheduled examination or formal evaluation. If a student judges the dismissal decision improper, the student has a right to review. Each department shall establish procedures for handling such reviews. The procedures are to be approved by the Graduate College dean and shall afford a fair and expeditious review. A description of these procedures shall be included in the departmental regulations described above. (See "Section IV.D.")

F. PLAGIARISM BY GRADUATE STUDENTS
The Online Oxford English Dictionary (http://ood/Entry/144941?redirectedFrom=plagiarize#eid) defines "plagiarize" as follows, "to take and use as one's own (the thoughts, writings, or inventions of another person); to copy (literary work or ideas) improperly or without acknowledgement; (occas.) to pass off as one's own the thoughts or work of (another)." In practice, the exact definition of "plagiarize" or "plagiarism" is dependent upon the unique attributes of the creative work of a particular discipline. Thus, it is understood that different academic disciplines and cultures may have different interpretations as to the actual actions which constitute plagiarism. With this in mind, the Graduate College will operate in the following manner when a program or department discovers an act or acts of plagiarism on the part of a graduate student.

1) If the faculty members of a program or department determine that the transgression is not major, or else feel that there is a misunderstanding of the acts which constitute plagiarism, the program or department may wish to work with the student so as to prevent future occurrences of plagiarism on the part of that student. Written notification of the offense and the remediation for the offense must be sent to the Graduate College for inclusion in the student’s file.

2) If the faculty members of a program or department discover an act (or acts) of plagiarism that is (are) sufficiently egregious that expulsion from the program is warranted, the student will be terminated from his or her graduate program for reasons of plagiarism. In this case, the student will be simultaneously terminated from the Graduate College of The University of Iowa. The program or department must notify the student of his or her termination in writing. All relevant facts, as well as the process for appealing the decision, must be contained in the termination letter. The Graduate College must receive a copy of the termination letter. If the graduate student resigns from the program to avoid being terminated for
reasons of plagiarism, the student will be considered to have simultaneously resigned from the Graduate College.

The appeal process for students accused of academic misconduct is specified in The University of Iowa document, “Policies and Regulations Affecting Students, C. Academic Misconduct,” which states: “Questions of academic dishonesty arising within the colleges of Medicine, Law, Pharmacy, and Dentistry, and the Graduate College are treated on an individual basis.” “In the Graduate College, the questions of academic dishonesty are handled at the departmental level. If the departmental decision is appealed, the dean may appoint an appeals committee of faculty and students from a slate of nominees prepared by the Graduate Council and the Graduate Student Senate to recommend an appropriate course of action.”

The appeal process must be initiated by the student. If the student wishes to appeal the department’s or program’s action, that appeal must be lodged with the Senior Associate Dean for Academic Affairs of the Graduate College within 30 days of program or departmental dismissal.

G. GRADUATE COLLEGE REVIEW OF DEPARTMENTAL DISMISSAL

Questions involving judgment of performance will not be reviewed beyond the department level. If, however, the student feels there has been unfairness or some procedural irregularity concerning dismissal, the student may pursue a grievance according to the Academic Grievance Procedure (AGP) established by the Graduate College. The AGP is available in the Graduate College. The student should consult with the Graduate College prior to initiating an academic grievance.

Section V. Credits

A. TRANSFER OF GRADUATE CREDIT

Graduate work at other institutions will be entered on the student’s permanent record by the Office of Admissions and a report of this action will be sent to the student and to his or her major department. Credit for these courses toward an advanced degree at Iowa must have the approval of the major department and the dean of the Graduate College. (See “Section X.E.” and “Section XII.E.”, Reduction of Old Credits.)

B. RESIDENCE TRANSFER CREDIT

After admission to a departmental program in the Graduate College, residence graduate credit from another Iowa Regents’ university may be counted as residence credit at this institution, provided such work is acceptable to the student’s major department on the basis of the department’s determination of its applicability toward the degree. (See “Sections X.D.” and “XII.C” for minimum semester hours required on campus for the master’s and doctor’s degrees, and “Sections X.E. and XII.E.”, Reduction of Old Credits.)

C. GRADUATE CREDIT FOR VETERANS

Credit may be granted for studies pursued in war and military situations under such regulations as may be formulated by the national educational agencies and under such adaptation of standing rules as the Graduate Council may authorize from time to time to meet group or individual situations. The value of such credit in satisfying requirements for a degree will be determined by the major department with the approval of the dean.

D. WITHDRAWAL OF REGISTRATION AND PROPORTIONAL CREDIT FOR STUDENTS ENTERING MILITARY SERVICE

1. Students who leave within the first six weeks of the semester receive no credit.

2. Students who leave within the period of seven to nine weeks receive one-half credit.

3. Students who leave within the period of 10 to 12 weeks receive two-thirds credit.

4. Grade reports for the one-half and two-thirds credit periods: (a) Instructors report grades only as satisfactory or unsatisfactory. (b) Credit is to be assigned on the basis of total registration minus thesis and seminar. (c) Courses are to be counted toward specific degree requirements only after the student returns and then only with the department’s approval.

5. Students who complete the twelfth week receive full credit.

6. Grade reports for the full-credit period: (a) Grades are to be reported only at the end of the semester. (b) Credit is to be reported in specific courses.

7. In each instance, the instructor reports the student’s credit, grade, and date of withdrawal. No credit is granted unless the student’s work is satisfactory at the time of leaving.

8. The amount of credit in thesis and research registration is to be reported to the registrar by individual instructors on the above basis except that less or zero credit may be assigned.

Section VI. Marking System

A. MARKS CARRYING GRADUATE CREDIT

B. MARKS CARRYING NO GRADUATE CREDIT

These are D+, D, D-, F, I--incomplete, W--withdrawn without discredit, R--registered, and U--unsatisfactory.

C. AUDIT

R is assigned when a student registered for zero credit attends as an auditor throughout the course; if the student fails to meet the instructor’s auditing requirements, W is assigned.

D. INCOMPLETE

The grade of I is to be used only when a student’s work during a session cannot be completed because of illness, accident, or other circumstances beyond the student’s control. In registrations for thesis, research, or independent study, the satisfactory/unsatisfactory grades may be applied. (See next paragraph, “E.”) An incomplete will automatically be converted to an F at the end of the next full semester (summer and winter sessions excluded), even if the student does not enroll after the session the I was posted.

Courses may not be repeated to remove incompletes; removal of an I is accomplished only through completion of the specific work for which the mark is given.
E. THESIS, RESEARCH, READINGS, INDEPENDENT STUDY, AND SPECIAL PROJECTS

Grades of S and U may be used for registrations in thesis, research, readings, independent study, and special projects. S—satisfactory means that the student receives credit for the work; U—unsatisfactory means that he or she receives no credit. Neither S nor U is used in computing grade-point averages. At a later date, the instructor may change the S to a letter grade. In addition, departments may ask the Graduate College dean for permission to use grades of S and U as described above for courses which, because of their special or experimental nature, are judged to be more appropriate for such grading. The type of grading system to be used in the above cases should always be mutually understood by the instructor and student.

F. GRADES OF S AND U

S and U may be used for courses taken by a graduate student outside the major department or interdepartmental degree program provided that the instructor of the course and the student’s departmental advisor approve the registration. Arrangements for satisfactory/unsatisfactory grading in these courses are accomplished by filing a card with appropriate signatures in the Registrar’s Office at the time of registration, or no later than the last day of the second week of a semester or the third day of the second week of a summer session. No changes from letter grades to satisfactory/unsatisfactory grades or vice versa will be allowed after these dates.

It is not the policy of the Graduate College to abandon the traditional letter grades described in this section; however, in certain exceptional instances, departments having several areas of concentration involving widely differing types of effort may request the permission of the Graduate Council to allow students majoring in one area to register in courses in another area within the same department or program on a satisfactory/unsatisfactory basis. In these instances, satisfactory/unsatisfactory cards will be used as described in the preceding paragraph.

G. COMPUTED GRADE-POINT AVERAGE

This is based only upon graduate work graded A+=4.33, A=4.00, A−=3.67, B+=3.33, B=3.00, B−=2.67, C+=2.33, C=2.00, C−=1.67, D+=1.33, D=1.00, D−=0.67, and F=0. Although a grade of A+ has a value of 4.33 in computing a student’s g.p.a., the cumulative average is truncated so as not to exceed 4.00.

Section VII. Graduate Appointments

A. SCHOLARSHIPS

Scholarships are competitive and are awarded on merit.

1. Eligibility for graduate scholarships and fellowships will include but will not be exclusive to: (a) registration in the Graduate College; (b) cumulative g.p.a. of at least 3.00; (c) a satisfactory rate of progress in completing the program for the degree.

2. Preference will be given to candidates for the doctoral degree.

3. Recommendations for graduate scholarships may be made to the Graduate College by the appropriate department executive, director, or dean. A graduate scholarship may be awarded whether or not a student holds an assistantship. The amount of scholarship for the academic year may vary, but in no case exceed the comprehensive fee assessed. Scholarships will be credited to the student’s University account.

B. GRADUATE COLLEGE FELLOWSHIPS

Fellowships are awarded by the Graduate College upon recommendation by departments to students with outstanding academic records. Fellows must be registered as full-time students. The primary purpose of the awards is to permit an advanced student to complete his or her dissertation or creative project and take the degree. Other terms of the award will be established by the Graduate College dean in consultation with the Graduate Council.

C. FACULTY RESEARCH ASSISTANTSHIPS

Faculty research assistantships are awarded to qualified graduate students and serve two purposes: to provide research service to professorial members of the academic staff and to provide apprenticeship experience for graduate students who are in training in research. Not more than 20 hours of service per week are required of a half-time assistant. Other part-time service is scaled in proportion, and a limited academic schedule is permitted (see "Section II.D"). Appointments ordinarily are made for the nine-month academic year, but appointments may be made for other periods of time by special arrangement. Stipends vary with the qualifications of the appointee and the amount of service rendered.

D. GRADUATE TEACHING ASSISTANTSHIPS

These assistantships serve two purposes: assistance in the instructional program of the University and the preparation of future college teachers. In order to achieve both aims, scholastically superior graduate students who show exceptional promise as teachers are selected for graduate teaching assistantships. All appointments are made by the dean of the appropriate college on recommendation of the department.

E. ELIGIBILITY FOR SCHOLARSHIPS, FELLOWSHIPS, AND RESEARCH ASSISTANTSHIPS

Scholars, fellows, and faculty research assistants on the Graduate College budget must be registered as regular students in good standing in order to hold such appointments. Appointments will be terminated when registration and/or student status is terminated. In no instance may a student be promised or tendered an appointment until after approval for admission to the Graduate College by the director of Admissions.

F. GRADUATE ASSISTANT OVERLOAD APPOINTMENTS

Overload graduate assistantship appointments (those more than 20 hours/week) will be granted only when there is a clear case to be made beyond the student’s monetary gain or the benefit to the department.

Before making a graduate assistantship appointment that brings a student’s total appointment beyond 50%, the DEO or DGS of the program in which the student is enrolled (in consultation with the student’s advisor) must receive permission from the Associate Dean for Student and Administrative Affairs. All overload requests must address: (1) the potential academic benefit to the student from the additional appointment; (2) the student’s current progress towards degree completion; and (3) the effect of the additional appointment on the student’s future progress.

A total appointment of more than 62.5% should be seen as an exceptional situation and will be granted to a maximum
of 75% only for one semester during the entire time of a student’s graduate studies.

Before submitting an overload appointment request, the DEO or DGS must confirm that course registration for the semester does not exceed limits specified in “Section II.D.” of this manual for the specific level of appointment.

Upon approval, international students must contact OISS and gain permission for Curricular Practical Training (CPT).

This policy applies only to teaching assistantships and research assistantships during the regular academic year. The DEO or DGS should make their graduate students aware of this policy during the department/program’s fall orientation.

G. LOANS

Graduate students requiring financial assistance may apply for loans at the Office of Student Financial Aid.

H. OTHER FORMS OF SUPPORT

Many departments offer financial assistance in the form of traineeships, part-time employment on research programs, or part-time teaching. Inquiries should be addressed directly to the major department.

Section VIII. Advanced Programs Offered in the Graduate College

The major areas in which the Graduate College offers degree programs are listed under "Degree Programs" at the beginning of this section of the Catalog.

Section IX. General Requirements for Advanced Degrees

A. APPLICATION FOR DEGREE

The student must file an application for an anticipated degree with the registrar by the deadline date printed in the Graduate College academic calendar for the session in which the degree will be conferred. The student must have the application signed by his or her advisor. Failure to file the application by the deadline date established by the Graduate College dean will result in postponement of graduation to a subsequent session.

B. ENROLLMENT IN FINAL SESSION

The student must be enrolled during the session in which the degree is to be conferred. Students who are away from the University campus during that session may meet this requirement by registering for independent study, research, or thesis hours according to the practice in the various departments. Doctoral candidates who have completed all work except the final examination may register for Doctoral Final Registration described in "Section XII." if such registration is appropriate. Master’s candidates who have completed all work except the final examination may register for Master’s Final Registration if such registration is appropriate. Both the Doctoral Final Registration and Master’s Final Registration require a 2 s.h. tuition/fee payment, and may be repeated if the degree requirements are not completed in this session. Registration in a course for which tuition/fees are not assessed (Cooperative Education Internship, for example) will not satisfy this requirement.

Section X. Master’s Degrees

A. KINDS OF DEGREES

The University of Iowa offers programs leading to the Master of Arts (M.A.) degree, Master of Science (M.S.) degree, and several professional master’s degrees.

M.A. and M.S. degrees require mastery of methodologies and practices of research and scholarship of the discipline. A thesis describing original scholarship or research may be required. M.A./M.S. degrees may be designed either as preparation for entry into doctoral degree programs or to provide advanced study and accomplishment that serves a variety of career and other purposes. Degrees are awarded in many fields of study, or majors, consistent with conventions of the discipline (e.g., M.A. in Art, English, Psychology; M.S. in Chemistry, Mathematics, Microbiology).

For complete list, see Section VIII.) M.A. and M.S. degrees require a minimum of 30 s.h., a final examination and, in some fields, a thesis.

Professional master’s degrees provide knowledge, perspectives, and skills required for professional practice. Some programs may include introduction to research or scholarship sufficient to allow application of current literature to practice. Professional master’s degrees generally are indicated by a three- or four-letter designation; examples include the Master of Fine Arts (M.F.A.), Master of Social Work (M.S.W.), Master of Public Health (M.P.H.), Master of Science in Nursing (M.S.N.), Master of Accountancy (M.Ac.). (For complete list, see Section VIII.) Professional master’s degrees require a minimum of 30 s.h. Some may require a final examination as well as a thesis, papers, projects, colloquia, internships, or other experiential-based activity typical of preparation for practice in the field.

A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, a research plan, and a committee of at least three faculty members, with either the department most directly concerned or the Graduate College designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student’s supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (master’s) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

B. PLAN OF STUDY

The applicant for a master’s degree must file a plan of study approved by the advisor and the departmental executive with the Graduate College within the session in which the degree is to be granted and by the deadline date printed in the Graduate College academic calendar. If the session in which a student takes his or her final exam is earlier than the session in which the degree is to be granted, the Plan of Study must be filed prior to the administration of the student’s final examination. The plan shall meet the requirements for the degree approved by the graduate faculty. (See also “Section IV.D. Departmental Regulations and Dissemination of Information.”)

C. MAJOR AND RELATED FIELDS

The plan of study should provide for reasonable concentration in the major field of interest and, subject to
the approval of the major department, may include related subjects from other departments.

D. ACADEMIC RESIDENCE REQUIREMENT

Of the minimum of 30 s.h. required for the degree, at least 24 s.h. must be completed under the auspices of The University of Iowa after admission to a graduate department/program. Various forms of extramural registration may qualify toward fulfillment of the aforementioned 24-hour residence requirement (see "Section II.G. Extramural Registration") in addition to regular on-campus registration. Students who have elected or who are required to write a thesis for conferral of their master's degrees, must complete at least 8 semester hours of the 24-hour, academic residence requirement on campus. At the discretion of the department, the 8-semester hour, on-campus requirement may be waived for nonthesis master's programs. Election of the waiver option is to be applied programatically, and not on a student-by-student basis, and must be formally conveyed to the Graduate College.

E. REDUCTION OF OLD CREDITS

Courses taken ten or more years prior to the session in which the master's degree is to be conferred must be evaluated by the major department in order to determine the possible use of these credit hours within a student's plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.

F. LIMIT ON PROFESSIONAL COURSES

Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a master's degree if it is taken after the student has earned a bachelor's degree or has completed work equivalent to that required for a bachelor's degree at The University of Iowa. The work accepted from the professional college must be directly related to the student's major field of study in the Graduate College and be approved as a part of the plan of study by the student's advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the residence requirement for nondoctoral degrees in the Graduate College only when the student is registered in an appropriate joint degree program.

G. TWO MASTER'S DEGREES

The granting by this university of two master's degrees simultaneously or in succession requires that all of the requirements for each degree be satisfied separately. That is, the student must pass two final examinations, write two theses (if each program requires a thesis), and satisfy the Graduate College residency requirement for each degree separately. A minimum combined total of 60 s.h. of graduate credit must be achieved at the time that the second degree is conferred.

Some credit can be shared when one master's degree requires, or both master's degrees require, more than 30 s.h. of graduate credit. No more than one-fourth of the credit necessary for one degree may be composed of course work taken for the other degree, and there must still be a minimum combined total of 60 s.h. of graduate credit.

The directors of graduate study for the two programs, or the department heads of the departments housing the programs, must exchange letters in which they convey each program's approval of the student pursuing the two degrees. Copies of these letters must be sent to the Graduate College.

H. MASTER'S DEGREE WITH THESIS

Not more than 9 s.h. of credit for thesis research and writing shall be counted in satisfying the 30 s.h. minimum requirement. The thesis may be a scholarly study or an artistic production.

Beginning with the Fall 2009 Semester all master's theses, excluding MFA theses, must be submitted to the Graduate College in electronic format. MFA students will have the option of submitting hard-copy or electronic theses.

The first deposit of a thesis (an ETD or one hard copy of the MFA thesis), complete and in final typed form, must be presented to the Graduate College for a check of formal characteristics by the first-deposit deadline date in the session in which the degree is to be conferred. After approval by the Graduate College and by the thesis committee, the final deposit of the thesis (an ETD or two, identical hard copies of the MFA thesis) must be deposited with the Graduate College by the final deposit deadline date in the student's graduation session. Failure to submit the first and final deposits of the thesis by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. (For detailed submission and formatting requirements, see Theses & Dissertations under Policies & Deadlines on the Graduate College web site.)

Nonrefundable fees are charged each thesis candidate to cover processing and publication costs of the thesis.

The thesis committee shall consist of at least three members of the graduate faculty and may or may not be identical to the final examination committee. (The final examination committee for the master's degree shall consist of at least three members of the graduate faculty, at least two of whom are from the major department or program, and are members of The University of Iowa tenure-track faculty. See "X.K. Examining Committee.")

I. MASTER'S DEGREE WITHOUT THESIS

A master's degree without thesis, consisting of at least 30 s.h. of graduate work, may be awarded upon the completion of a curriculum prescribed by a department and approved by the Graduate Council.

J. FINAL EXAMINATION

The requirements for master's degrees may include a final examination which, at the discretion of the major department, may be written or oral or both. Such an examination will not duplicate course examinations. It will be evaluated by the examining committee as satisfactory or unsatisfactory, with two unsatisfactory votes making the committee report unsatisfactory. The report of the final examination is due in the Graduate College not later than 48 hours after the examination, and by the deadline date established by the Graduate College.

If the department so recommends, a candidate who fails the examination may present himself or herself for reexamination, but not sooner than the next regularly scheduled examination period in the following session.
The examination may be repeated only once. A student must graduate within one calendar year after passing the final examination for a master’s degree; failure to meet this deadline will require reexamination of the student.

Upon recommendation of a department, the comprehensive examination for a doctoral degree may be substituted for the master’s examination.

Some master’s programs do not require a final exam. Students are responsible for checking the specific requirements of their individual degree programs.

K. EXAMINING COMMITTEE

The examining committee for the master’s degree consists of at least three members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

At least two of the faculty members must be members of The University of Iowa tenure-track faculty.

At least two of the faculty members are from the major department or program (defined as faculty members who hold any appointment in the major department or program), and are members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean’s permission to replace one of the three members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

Section XI. Graduate Certificate Programs

Graduate certificate programs reflect specialization, either within a field or in an area of study, research, or training. Some graduate certificate programs may be open only to students seeking degrees in related fields; others may be offered as independent programs. Graduate certificate programs are designed to enhance skills, to provide professional development and career advancement opportunities, to broaden career options, and for other purposes, both for traditional, full-time students and for those with full-time employment.

Graduate certificate programs usually require a minimum of 15 s.h. of specified course work and may, in addition, require papers, projects, or experiential learning components designed for specific cohorts. Certificate programs generally require two to three semesters to complete.

Examples include the graduate certificates in aging studies, American Indian and native studies, informatics, and advanced nurse practitioner. Requirements for each graduate certificate are included in The University of Iowa General Catalog.

Section XII. Doctor’s Degrees

A. CHARACTER OF DEGREE

The Graduate College offers doctoral programs leading to the Doctor of Philosophy (Ph.D.), the highest degree awarded by the university; the Doctor of Musical Arts (D.M.A.); the professional Doctor of Physical Therapy (D.P.T.); the professional Doctor of Audiology (Au.D.); and the professional Doctor of Nursing Practice (D.N.P.). The Doctor of Philosophy degree indicates marked excellence in original research or other creative work, and superior comprehension in the discipline. The Doctor of Musical Arts degree indicates marked excellence in performance and pedagogy. The Doctor of Physical Therapy degree indicates marked excellence in physical therapy differential diagnosis and clinical integration. The Doctor of Audiology degree indicates marked excellence in theoretical and advanced clinical skills. The Doctor of Nursing Practice degree indicates marked excellence in clinical practice and the application of clinical theory in the classroom and administrative venues.

B. PREREQUISITES

The candidate must present evidence of having completed a satisfactory amount of undergraduate work in the subject proposed for investigation or, in the case of deficiency, must register for prerequisite courses.

C. RESIDENCE REQUIREMENT

The Ph.D. is granted primarily on the basis of achievement rather than on the accumulation of semester hours of credit; however, the candidate is expected to have completed at least three years of residence in a graduate college. At least part of this residence must be spent in full-time involvement in one’s discipline, at this university, beyond the first 24 s.h. of graduate work; this requirement can be met either by: (1) enrollment as a full-time student (9 s.h. minimum) in each of two semesters; or (2) enrollment for a minimum of 6 s.h. in each of three semesters during which the student holds at least a one-quarter-time assistantship certified by the department as contributing to the student’s doctoral program. (For purposes of record and assessment of fees, student registration should reflect accurately the amount and kind of work undertaken in the Graduate College. All doctoral programs, including acceptable transfer credit, will contain a minimum of 72 s.h. of graduate work.)

D. INTERDISCIPLINARY STUDIES PROGRAMS

A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, research plan, and a committee of at least five faculty members with either the department most directly concerned or the Graduate College, designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student’s supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (doctorate) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

E. REDUCTION OF OLD CREDITS

Courses taken 10 or more years prior to the doctoral comprehensive examination must be evaluated by the major department in order to determine the possible use of these credit hours within a student’s plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.
F. LIMIT ON PROFESSIONAL COURSES
Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a doctoral degree if it is taken after the student has earned a bachelor’s degree or has completed work equivalent to that required for a bachelor’s degree at The University of Iowa. The work accepted from the professional colleges must be directly related to the student’s major field of study in the Graduate College, and the plan of study must be approved by the student’s advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the one academic year which must be spent in residence as a doctoral student only when the student is registered in a formally established joint degree program.

G. JOINT PROGRAM FOR MASTER’S AND DOCTORAL DEGREES
Those students who expect to continue their training through the doctoral degree may pursue a joint program for the master’s and doctor’s degrees. The master’s examination may be combined with the comprehensive examination for the doctorate for these candidates. The examining committee will file separate reports of its actions on the final examination for the master’s degree and for the comprehensive examination. Upon recommendation of the department and approval of the Graduate College dean, students who are well qualified by previous training may submit a plan of study that leads directly to the doctoral degree without earning the master’s degree as an intervening part.

H. REQUIREMENT IN FOREIGN LANGUAGES
There is no general Graduate College requirement in foreign languages. Those departments that do require competence in one or more foreign languages establish standards as to the extent and level of competence, as well as methods of testing. Specific requirements will be found in the departmental statements of standards and procedures (see “Section IV.D.”).

Specifications of departmental requirements in foreign languages are filed in the Graduate College office and may be changed upon the initiative of the departments.

Students enrolled in professional D.P.T., D.N.P., and Au.D. programs do not take comprehensive and final examinations and do not deposit a thesis with the Graduate College. The departments will be required to submit a doctoral plan of study to the Graduate College during the session of degree conferral. The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress. The plan is to be filed no later than the deadline date printed in the Graduate College academic calendar.

J. PLAN OF STUDY
The development of a plan of study at the doctoral level is the responsibility of the student working together with his or her advisor. A formal plan of study must accompany the departmental request to the Graduate College for permission to conduct the comprehensive examination. The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress or to be completed after the comprehensive examination.

K. COMPREHENSIVE EXAMINATION
The candidate must satisfactorily complete a comprehensive examination, consisting of written or oral parts or both at the discretion of the major department. Admission to the comprehensive examination is granted upon the recommendation of the major department, the filing of the plan of study, and the approval of the dean of the Graduate College. A student must be registered in the Graduate College at the time of the comprehensive examination, which must be satisfactorily completed not later than the session prior to the session of graduation. This examination, administered only on campus, is intended to be an inclusive evaluation of the candidate’s mastery of the major and related fields of study, including the tools of research in which competence has been certified.

The comprehensive examination is not a deferred qualifying examination. It is intended to evaluate the candidate’s mastery of the subject at or near the end of his or her formal preparation and prior to the completion of the dissertation. The comprehensive examination and the final examination, which is concerned chiefly with defense of the thesis and related subjects, are the two principal examinations for the Ph.D. and D.M.A. doctoral degrees.

The comprehensive examination will be evaluated by a convened meeting of the committee. Each committee member will sign the examination report as satisfactory, reservations, or unsatisfactory. The completed exam warrant will be submitted to the Graduate College office within 14 days after the completion of the examination. Two "unsatisfactory" votes will make the committee report unsatisfactory.

A vote of "reservations" should only be used when a faculty member feels that the deficiencies displayed by the student were modest, and can be readily rectified. In the event of a report with two or more votes of "reservations," the actions required of the student, by the committee, that are necessary to correct the deficiencies must be recorded and submitted to the Graduate College with the examination report form. Copies of the written statement of necessary actions should be kept by: the appropriate departmental executive, the chair of the examination committee, and the student. The statement must specify the time allowed for completion of the aforementioned actions. The language describing the actions must be specific. For instance, if additional course work is required, a list of suitable courses must be presented. If the candidate needs to rewrite his or her research prospectus, the deficient areas must be identified, etc. If the candidate satisfies the required actions in the specified period of time, the appropriate departmental executive will send a written report to the Graduate College indicating the date for which the examining committee considers the actions to have been satisfied. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as “satisfactory” as of that date. If the actions are not satisfied on time, or if the actions are not of sufficient quality, the appropriate departmental executive will send a written report to the Graduate College indicating that fact. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as “unsatisfactory”
as of that date. The candidate will not be admitted to the final oral examination of the dissertation until a grade of "satisfactory" has been recorded for the comprehensive exam. In case of a report of unsatisfactory on a comprehensive examination, the committee may grant the candidate permission to present himself or herself for reexamination not sooner than four months after the first examination. The examination may be repeated only once, at the option of the department.

L. CONTINUOUS REGISTRATION AFTER COMPLETION OF THE COMPREHENSIVE EXAMINATION

The student is required to register each fall and spring semester after satisfactorily completing the comprehensive examination until the degree is awarded. If a student fails to register, the student may not be readmitted to candidacy until the student has submitted an application that has been approved by the student's advisor, the departmental executive, and the Graduate College dean.

In order to maintain continuous registration, doctoral students may register (1) for required and/or elective courses, research, and thesis hours to complete the plan of study, or (2) for Doctoral Continuous Registration (DCR). DCR requires a 2 s.h. tuition/fee payment. If a temporary lapse in a student's academic program is required due to military service, medical leave, maternity leave, or personal/family leave, a student may petition the Graduate College to be allowed to register for Ph.D. Postcomprehensive Registration (PCR), which allows for the assessment of a special minimum fee. If a petition is granted, it is to be understood that a student will not make significant use of university resources, or engage in significant consultation with the faculty. In the final semester, doctoral students may register for Doctoral Final Registration (DFR), which requires a 2 s.h. tuition/fee payment, or appropriate course work. The DFR may be repeated if the degree requirements are not completed in this session.

Under no circumstances may courses for which tuition/fees are not assessed (Cooperative Education Internship, for example), be used to satisfy the continuous registration or final registration requirement of the Graduate College.

No registration for the summer or winter sessions is required. The exceptions are when the student is taking a degree at the end of the summer session, or when enrollment is required by the student's department.

M. DISSERTATION FOR THE DOCTORAL DEGREE

Beginning with the Fall 2009 Semester all doctoral theses must be submitted to the Graduate College in electronic format. The student’s dissertation, complete and in final form, must be presented in ETD (electronic thesis/dissertation) format at the office of the Graduate College by the first-deposit deadline date in the session in which the degree is to be conferred. The final deposit of the approved ETD must be deposited at the office by the appropriate deadline date in the student’s graduation semester. The final deposit can be no later than the end of the semester (summers excluded) following the session in which the final examination is passed; failure to meet this deadline will require reexamination of the student. Failure to submit the first and final deposits of the dissertation by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. [For detailed submission and formatting requirements, see Theses & Dissertations under Policies & Deadlines on the Graduate College web site.]

Regulations regarding preparation of the dissertation shall be promulgated by the dean of the Graduate College. An external abstract of the dissertation, not to exceed two, double-spaced pages (text and approval lines), is to be deposited with the dissertation. The abstract must be approved and signed by the dissertation advisor. Approved ETDs will be forwarded to ProQuest for microfilming and digital archiving; the doctoral abstracts will be published in Dissertation Abstracts International. The PDF format of all electronic submissions will be forwarded by ProQuest to The University of Iowa Libraries, where they will be catalogued and made available for public use.

Dissertations shall be made available to all members of the examining committee not later than two weeks before the date of the examination.

N. DISSERTATION FEES

Nonrefundable fees are charged each doctoral candidate to cover processing and publication costs of the dissertation and abstract.

O. FINAL EXAMINATION

The work for the degree culminates in a final oral examination administered on campus. This examination should include: a critical inquiry into the purposes, methods, and results of the investigation—not a mere recapitulation of the procedures followed—and intensive questioning on areas of knowledge constituting the immediate context of the investigation.

The final examination may not be held until the next session after the student satisfactorily completes the comprehensive examination; however, a student must pass the final examination no later than five years after satisfactorily completing the comprehensive examination. Failure to meet this deadline will result in a reexamination of the student to determine his or her qualifications for taking the final examination. The procedures to be followed are the same as those for the comprehensive examination. (See "XII.K. Comprehensive Examination.")

Final examinations for the doctorate are open to the public. Members of the faculty of the Graduate College are especially invited to attend and, subject to the approval of the chair, to participate in the examination. The report of the final examination is due in the Graduate College office not later than 48 hours after the examination. The final examination will be evaluated as satisfactory or unsatisfactory. Two unsatisfactory votes will make the committee report unsatisfactory. In case of a report of unsatisfactory in the final examination, the candidate may not present himself or herself for reexamination until the next session. The examination may be repeated only once, at the option of the major department.

P. EXAMINING COMMITTEES

The Graduate College encourages departments and programs to construct Ph.D. examining committees which are comprised of faculty members with varying, but related, areas of expertise.
The comprehensive and final examinations are conducted by committees of no fewer than five members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

- At least four of the faculty members must be members of The University of Iowa tenure-track faculty.
- At least two of the faculty members are from the major department or program (defined as faculty members who hold any appointment in the major department or program), and are members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean’s permission to replace one of the five members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

**Section XIII. Exceptions**

Petitions to waive these regulations may be made for appropriate and justifiable reasons on behalf of any graduate student through the departmental executive to the dean and the Graduate Council.

**Nondepartmental Courses**

Most Graduate College courses are offered by the college’s programs and schools. They are listed and described in the corresponding General Catalog sections; see the links under “Index: Academic Programs” toward the top of this page.

The college also offers the following nondepartmental courses.

- **000:000 (GRAD:6000) Ph.D. Postcomprehensive Registration**
  0 s.h.

- **000:001 (GRAD:6001) Master’s Final Registration**
  Requirements: master’s degree candidate.
  0 s.h.

- **000:002 (GRAD:6002) Doctoral Continuous Registration**
  Requirements: doctoral degree candidate who has passed comprehensive examinations.
  0 s.h.

- **000:003 (GRAD:6003) Doctoral Final Registration**
  Requirements: doctoral degree candidate in final session of enrollment.
  0 s.h.

- **000:008 (GRAD:0008) CIC Scholar Nongraduate Level**
  arr.

- **000:800 (GRAD:6800) CIC Scholar**
  arr.

- **000:801 (GRAD:6801) Regents Exchange Program**
  arr.

- **000:997 (GRAD:6997) Graduate/Professional Transfer**
  arr.

- **000:998 (GRAD:6998) Undergraduate Transfer**
  arr.

- **000:999 (GRAD:6999) Resident/Fellow/Post-Doctoral**
  0 s.h.

- **650:006 (GRAD:0006) SROP/McNair Scholars Program**
  0 s.h.

- **650:030 (GRAD:3030) SROP/McNair Scholars Academic Development for Juniors**
  Training and mentorship opportunities to enhance academic and professional success; academic preparation (including preparation of personal statements, selection of referees, mock interviews); seminars, interactive workshops, readings, written assignments.
  Requirements: UI SROP/McNair Scholar and junior standing.
  0-1 s.h.

- **650:040 (GRAD:3040) SROP/McNair Scholars Academic Development for Seniors**
  Training and mentorship opportunities to enhance academic and professional success; academic preparation and professional development to navigate the graduate admissions process (including preparation of personal statements, selection of referees, mock interviews); seminars, interactive workshops, readings, written assignments.
  Requirements: UI SROP/McNair Scholar and senior standing.
  0-1 s.h.

- **650:217 (GRAD:6217) Seminar in College Teaching**
  Preparation for college teaching; for graduate students planning to teach. Same as 07P:217 (PSQF:6217).
  1-3 s.h.

- **650:270 (GRAD:7270) Principles of Scholarly Integrity**
  Training in the responsible conduct of research and scholarly activities; discussion of case studies—student/mentor responsibilities in the pursuit of scholarly work (ownership, authorship, plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects).
  Requirements: enrollment in Graduate College degree-seeking program. Recommendations: first-year graduate standing (Ph.D., M.S.,/M.A.) and involvement in conducting NSF/NIH-funded research.
  0-1 s.h.

- **650:275 (GRAD:7275) OGEI Topical Seminar: Professional Sustainability in Graduate School**
  Skill development and sustainability plan; professional literature, guest speakers.
  1 s.h.

- **650:280 (GRAD:7280) Obermann Center for Advanced Studies Special Topics Seminars**
  Active participation and engagement in a major program, such as the annual Humanities Symposium; readings on interdisciplinary histories, contexts, and theoretical perspectives that frame featured events; work of artists, scholars, and researchers participating in the program.
  Requirements: admission to Graduate College.
  1-3 s.h.

- **650:285 (GRAD:7285) Obermann Center Professional Development Seminar**
  Active participation and engagement in a series of classes dedicated to connecting public engagement, research, and teaching; readings and media viewings that frame course topics; production of a short film, marketing materials, grant, and syllabi relevant to public engagement project.
  Requirements: admission to Graduate College and completion of Obermann Graduate Institute on Engagement and the Academy.
  1 s.h.

- **650:300 (GRAD:6300) Writing for Learned Journals**
  Help for graduate students in bringing written work to publishable form; analysis of target journals' audiences and interests; submission, response to criticism.
  Same as 160:300 (PORO:6300), 08N:340 (CNW:6300).
650:313 (GRAD:6313) Digital Rhetorics 3 s.h.
Current discourse (utopic, dystopic, other strands) about the Internet as it shapes and is shaped by competing forces. Same as 160:313 (PORO:6313).

Supervised college teaching experience; teaching in collaboration with faculty, observation and critiques of teaching, participation in course planning and evaluation procedures; ethical and multicultural considerations. Requirements: admission to the graduate certificate in college teaching program.

650:385 (GRAD:7385) Teaching and Learning in Higher Education 3 s.h.
Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 07B:385 (EPLS:7385), 07S:384 (EDTL:7385), 07C:385 (RCE:7385).

650:601 (GRAD:7601) Postdoctoral Research Scholar 0 s.h.
Requirements: postdoctoral standing.

650:602 (GRAD:7602) Postdoctoral Research Fellow 0 s.h.
Requirements: postdoctoral standing.

650:604 (GRAD:7604) Principles of Scholarly Integrity 0 s.h.
