GEOLOGICAL CORPS

SAMUEL CALVIN.....STATE GEOLOGIST
JAMES H. LEES.....ASSISTANT STATE GEOLOGIST

NELLIE E. NEWMAN.....SECRETARY
FRANK A. WILDER.....ASSISTANT ON COALS
HENRY HINDS.....ASSISTANT ON COALS
W. H. NORTON.....ASSISTANT ON UNDERGROUND WATERS
S. W. BEYER.....ASSISTANT ON ECONOMIC MATERIALS
T. H. MACBRIDE.....ASSISTANT ON AREAL GEOLOGY
B. SHIMEK.....ASSISTANT ON AREAL GEOLOGY
MELVIN F. AREY.....ASSISTANT ON AREAL GEOLOGY
S. W. STOOKEY.....ASSISTANT ON AREAL GEOLOGY
IBA A. WILLIAMS.....ASSISTANT ON ECONOMIC MATERIALS

CONTENTS

MEMBERS OF GEOLOGICAL BOARD.....	iii
GEOLOGICAL CORPS.....	iv
TABLE OF CONTENTS.....	v
LIST OF ILLUSTRATIONS.....	vi
ADMINISTRATIVE REPORT.....	xi
STATISTICS OF MINERAL PRODUCTION FOR 1908.....	1
COAL DEPOSITS OF IOWA.....	21
FUEL VALUES OF IOWA COALS.....	397
-ANALYSES OF IOWA COALS.....	476
-HISTORY OF COAL MINING IN IOWA.....	521
COAL STATISTICS.....	591
GENERAL SECTION OF DES MOINES STAGE.....	598
CARBONIFEROUS SECTION OF SOUTHWESTERN IOWA.....	605
-BIBLIOGRAPHY OF IOWA COAL.....	659
PEAT AND PEAT DEPOSITS IN IOWA.....	689
BIBLIOGRAPHY OF IOWA PEAT.....	731
FLORA OF NORTHERN IOWA PEAT BOGS.....	735
INDEX	779

LIST OF ILLUSTRATIONS

PLATES.	PAGE
I. Map showing progress of detailed mapping, to face.....	xiii
II. Map showing location of mines in the Des Moines district.....	102
III. Geological sections in Polk county.....	151
IV. Geological section along North river in Warren county.....	172
V. Geological section along Middle river in Warren county.....	173
VI. Coal bed shown in Red Rock quarry.....	187
VII. Geological cross-section in Mahaska county, to face.....	198
VIII. Map showing mines in northern Monroe county.....	231
IX. Coal Measures sandstone resting unconformably on Saint Louis limestone, Keokuk.....	333
X. Sections of Iowa coal beds, from which coal for the St. Louis tests was taken	407
XI. Graphic log sheet, boiler test, Iowa No. 1 coal.....	423
XII. Graphic log sheet, boiler test, Iowa No. 2 coal.....	431
XIII. Graphic log sheet, boiler test, Iowa No. 3 coal.....	437
XIV. Graphic log sheet, boiler test, Iowa No. 4 coal.....	445
XV. Graphic log sheet, boiler test, Iowa No. 4 coal, large briquettes....	451
XVI. Graphic log sheet, boiler test, Iowa No. 5 coal.....	459
XVII. Graphic log sheet, producer-gas test, Iowa No. 2 coal.....	465
XVIII. Map of Iowa showing relative production of coal by counties, 1908..	590
XIX. Map of southwestern Iowa showing outcrop of geological formations.	608
XX. A. Section from Braddyville to Fox quarry. B. Section from Essex to Stennett.....	625
XXI. A. Section from Hamburg to West Fork river. B. Section along Missouri river bluffs.....	640
XXII. Section of fault north of Thurman.....	646

FIGURES.	PAGE.
1. Stratigraphical arrangement of Iowa coal beds.....	25
2. Uneven character of surface upon which coal was deposited.....	27
3. "Horseback" in coal bed.....	27
4. Carboniferous erosion: sandstone occupying "cutout" in coal seams....	28
5. Preglacial erosion: drift occupying small gorge.....	28
6. Postglacial erosion: gorge of Des Moines river at city of Des Moines..	29
7. Fault in coal bed.....	29
8. "Pinch" in coal bed.....	30
9. Fissure filled with clay.....	31

LIST OF ILLUSTRATIONS

vii

FIGURES.	PAGE.
10. Sketch of Webster county showing immature state of drainage.....	34
11. Map showing location of principal mines in Webster county.....	38
12. Cannel and bituminous veins at Johnson mine, Kalo.....	44
13. General geological section across Boone county along Des Moines river.	59
14. Map giving location of principal mines in Boone county.....	62
15. Bottom of shaft, Milford mine, Boonesboro.....	66
16. Section in Eagle shaft, Boonesboro.....	69
17. Vein of Big Five mine, Moingona.....	71
18. Coal bed in Hutchinson mine No. 2, near Squaw creek, Zenorsville....	76
19. Bed at Mormon Ridge mine, near Albion.....	84
20. Map showing shipping mines of Dallas county.....	87
21. Bluff near old Pritchard drift, High Bridge.....	88
22. Coal seam at old Tudor shaft, Dawson.....	90
23. Section at Chaney drift, three miles north of Adel.....	92
24. Clay seams in Topping mine, south of Linden.....	93
25. "Hanging Rock" section, Redfield.....	94
26. Bed of old Leeper mine, Redfield.....	95
27. Bed of Van Meter and Chicago mine, Van Meter.....	99
28. Ironstone nodules in roof of coal bed.....	109
29. Section showing undulatory character of the coal seam in the Flint mine No. 2.....	110
30. Railroad cutting near Rose Hill mine, four miles west of Des Moines.	119
31. Shaft of Giant No. 1, east Des Moines.....	124
32. Railroad cut one mile east of Hastie.....	127
33. Part of shaft of Manbeck mine, north of Avon.....	128
34. Railroad cutting near east county line, below Runnells.....	130
35. Map showing location of principal Polk county mines outside of Des Moines district.....	131
36. Shaft of mine near Altoona.....	143
37. Geological section from Prairie City to Newberg (Williams).....	153
37a. Map showing the principal mines of Jasper county.....	156
38. Shaft of old Black Oak mine, Lynnville.....	166
39. Coal on North river (Madison Tp., Sec. 25, Madison county).....	168
40. Section of shaft at Bennum mine, Summerset.....	177
41. Ironstone mass in coal bed.....	183
42. Fault in Hawkeye mine, Flagler.....	192
43. Section at Coalport (Keyes).....	193
44. Map showing shipping mines in southeastern Marion county.....	195
45. Ideal cross-section in Mahaska county.....	199
46. Map showing location of mines in southwestern Mahaska county....	200
47. Seam of coal northeast of Rose Hill.....	202
48. Coal bed, having small erosive channel filled with drift material....	206
49. Bluff near Given.....	209
50. Coal near Eveland.....	213
51. Ironstone band in roof of coal seam, Eveland mine.....	215
52. Section on Whitebreast creek. Six miles below Lucas.....	222
53. Churn drill of the Consolidation Coal Company, operated by a gasoline engine.....	226

FIGURES,	PAGE.
54. Sketch map of Monroe county.....	229
55. View of Buxton from the west.....	232
56. Steel tippie, showing box car loader, shaft No. 10, Consolidation Coal Company. Buxton.....	236
57. Tippie of shaft No. 2, Hocking Coal Company, Hocking.....	241
58. Tippie at shaft No. 3, Wapello Coal Company, Hiteman.....	243
59. Diamond drill of the Wapello Coal Company.....	244
60. Coal seam in Frye mine. Confidence.....	258
61. Coal at Seymour.....	260
62. Bed of Winger mine, Harvard.....	261
63. Map showing shipping mines in central Appanoose county.....	269
64. Bluff on Walnut creek. Mystic.....	272
65. A type of tippie at the smaller mines.....	273
66. Fault in Centerville Block No. 9. Centerville.....	278
67. Fissure in seam at Thistle No. 1. Cincinnati.....	282
68. Ideal cross-section through the What Cheer district from Rock creek to the North Skunk river.....	287
69. "Fault" in What Cheer coal.....	289
70. Coal bed at Rowley mine. North of Sigourney.....	290
71. Coal near the old Leibig mine. Verdi.....	291
72. Unconformity between the Saint Louis limestone and the Coal Measure shales. At quarry on Des Moines river, three miles above Ottumwa.....	294
73. Map showing mines in central Wapello county.....	296
74. Section of shaft of Phillips No. 4, Ottumwa.....	299
75. Bluff in Sugar creek. East of Ottumwa.....	302
76. Coal bed at Bates and Spratt mine. Fairfield.....	311
77. Exposure of Coal Measure strata in the north bank of Cedar creek, Section 32, Fairfield township, Jefferson county.....	313
78. Section of shaft of Washington mine. Perlee, Jefferson county.....	315
79. Exposure of coal in Section 5, Salem township, Henry county.....	317
80. Outcrop west of Rome. Henry county.....	318
81. Bluff on Soap creek, near old Brown cannel mine. Carbon, Davis county.....	321
82. Seam at Whitmore mine, Bonaparte, Van Buren county.....	329
83. Section at Farmington, Van Buren county, showing Coal Measure deposits resting in depression in Saint Louis limestone.....	330
84. Unconformity of Coal Measures and Saint Louis limestone, Sonora quarry, Lee county.....	332
85. Outcrop northwest of Denmark, Lee county.....	335
86. Top of bluff on Mississippi river at Nassau slough. Below Keokuk.....	338
87. Cross-section along Skunk river, Des Moines county.....	339
88. Contact of Carboniferous with Devonian strata at the Sanders quarry, north of Iowa City.....	344
89. Basal conglomerate of the Des Moines, in the left bank of Montpelier creek, Muscatine county.....	346
90. Coal at Hoor drift. East of Muscatine.....	348
91. Sinking a shaft near Buffalo, Scott county.....	351
92. Coal bed in Goodwin mine, Grand Junction, Greene county.....	358

LIST OF ILLUSTRATIONS

ix

FIGURES.	PAGE.
93. Map showing mines in the Panora and Fanslers districts, Guthrie county	366
94. Coal bed at Greenbriar mine, Jamaica, Guthrie county.....	367
95. Section of former Scott shaft, Fanslers, Guthrie county.....	370
96. Coal bed south of Adair, Adair county.....	379
97. Section at Beynon shaft, near Henshaw, Taylor county.....	382
98. Seam at Anderson shaft, New Market, Taylor county.....	384
99. Bluff at Shambaugh mill, west Nodaway river, Clarinda, Page county..	387
100. Coal bed at old Westrope mine, Montgomery county.....	390
101. Coal bed in Plowman shaft, Briscoe, Adams county.....	392
102. Vein at old Syfert and Jones mine, Carbon, Adams county.....	392
103. Indicator diagrams of gas engine tests on Iowa No. 2 coal made at Saint Louis testing station.....	467
104. Diagram showing value of coal production from 1897-1908.....	597
105. Section, west to east, from the Wilson section to Corning.....	649
106. Larger blue flag (<i>Iris versicolor</i>).....	743
107. Cat-tail (<i>Typha latifolia</i>) on border of swamp in central Iowa.....	744
108. Ladies' Tresses (<i>Spiranthes cernua</i>) a bog plant of northern Iowa....	746
109. Hoary Willow (<i>Salix candida</i>), a bog plant of Worth county.....	764
110. Bog Willow (<i>Salix pedicellaris</i>).....	765
111. Beaked Willow (<i>Salix rostrata</i>).....	765
112. Dulichium (<i>Dulichium arundinaceum</i>).....	767
113. Great Bullrush (<i>Scirpus validus</i>) on margin of pond in central Iowa..	768
114. Tickseed Sunflower (<i>Bidens trichosperma</i>).....	770
115. Water Marigold (<i>Bidens beckii</i>).....	771
116. Swamp Thistle (<i>Cirsium muticum</i>).....	772
117. Pondweed (<i>Potamogeton ephihydrus</i>).....	774
