Data Management Needs Assessment Phase I: Web-based Survey

Xiaomei Gu, Clinical Education Librarian, Hardin Library for the Health Sciences, The University of Iowa Libraries

Shawn Averkamp, Data Services Librarian, Digital Research & Publishing, The University of Iowa Libraries

Linda Walton, Associate University Librarian & Director, Hardin Library for the Health Sciences & UI Branch Libraries, The University of Iowa Libraries

Several funding agencies including the National Institutes of Health (NIH) require developing data management plans for research. The University of Iowa Libraries has taken the initiatives to assess the data management needs across campus using web-based questionnaires and face-to-face interviewing. Information gained will help coordinate services across campus to support effective data stewardship throughout the research life cycle and help increase visibility and accessibility of research data produced at the University of Iowa.
