P. Barry Butler, B.S., M.S., Ph.D.  
*Interim Executive Vice President and Provost*

Douglas K. True, B.S., M.B.A.  
*Senior Vice President and University Treasurer*

Jordan Cohen, B.S., M.S., Ph.D.  
*Vice President for Research and Economic Development*

Thomas R. Rocklin, A.B., M.S., Ph.D.  
*Vice President for Student Life*

Carroll J. Reasoner, B.A., J.D.  
*Vice President for Legal Affairs and General Counsel*

## **HENRY B. TIPPIE COLLEGE OF BUSINESS**

William C. Hunter, B.S., M.B.A., Ph.D.  
*Dean*

## **COLLEGE OF DENTISTRY**

David C. Johnsen, B.S., D.D.S., M.S.  
*Dean*

## **COLLEGE OF EDUCATION**

Sandra Bowman Damico, B.A., M.A., Ph.D.  
*Dean*

## **COLLEGE OF ENGINEERING**

Alec B. Scranton, B.S., Ph.D.  
*Interim Dean*

## **GRADUATE COLLEGE**

John C. Keller, B.S., M.S., Ph.D.  
*Dean and Associate Provost for Graduate Education*

## **COLLEGE OF LAW**

Gail B. Agrawal, B.A., M.P.H., J. D.  
*Dean*

## **COLLEGE OF LIBERAL ARTS AND SCIENCES**

Linda Maxson, B.S., M.A., Ph.D.  
*Dean*

## **ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE**

Paul B. Rothman, B.S., M.D.  
*Dean*

## **COLLEGE OF NURSING**

Rita A. Frantz, B.S.N., M.A., Ph.D.  
*Dean*

## **COLLEGE OF PHARMACY**

Donald E. Letendre, B.S., Pharm.D.  
*Dean*

## **COLLEGE OF PUBLIC HEALTH**

Susan J. Curry, B.A., M.A., Ph.D.  
*Dean*

## **UNIVERSITY COLLEGE**

M. Beth Ingram, B.S., Ph.D.  
*Dean and Associate Provost for Undergraduate Education*

## **DIVISION OF CONTINUING EDUCATION**

Chester Rzonca, B.S., M.A., Ed.D.  
*Dean and Associate Provost*

## HONORARY DEGREES

The University of Iowa confers honorary degrees to individuals who have demonstrated extraordinary achievements in such areas as research, scholarship, education, artistic creation, social activism, human rights, or humanitarian outreach. Nominations are made by the faculty, with selections approved by the Provost and the Board of Regents, State of Iowa.

Honorary degrees have been awarded to the following individuals:

**Marvin Pomerantz, Honorary Doctor of Humane Letters, December 2007**

**Ignacio Ponseti, Honorary Doctor of Science, December 2007**

**Robert Solow, Honorary Doctor of Humane Letters, May 2008**

**Himie Voxman, Honorary Doctor of Humane Letters, December 2008**

**Johan Hultin, Honorary Doctor of Science, May 2009**

**Henry B. Tippie, Honorary Doctor of Humane Letters, December 2009**

**Tom Brokaw, Honorary Doctor of Humane Letters, May 2010**

**Robert Hass, Honorary Doctor of Humane Letters, May 2010**

**John Pappajohn, Honorary Doctor of Humane Letters, May 2010**

**C. Vivian Stringer, Honorary Doctor of Humane Letters, May 2010**

**Gregs Thomopoulos, Honorary Doctor of Science, May 2010**

**Arthur A. Neu, Honorary Doctor of Humane Letters, December 2010**

The University of Iowa is pleased to make the following awards in May 2011:

### **RICHARD (DICK) MYERS, HONORARY DOCTOR OF HUMANE LETTERS:**

Richard (Dick) Myers was educated at The University of Iowa, Iowa State University, and Kirkwood Community College. Following service in the U.S. Army, he founded the Hawk I Truck Stop in Coralville and later Hawk I Harley Davidson. His service on numerous voluntary and elected councils and boards led to his election in 1994 to the Iowa House of Representatives, where he became House Minority Leader. Gaining bipartisan trust and respect, he focused on education, small business, agriculture, and local government. Mr. Myers has long been an advocate for public higher education in general and the UI in particular, working actively to educate others about the value of higher education to the community and the importance of scientific research. He has spoken with many UI classes about the connections between the statehouse and local communities. Mr. Myers continues to advocate for higher education, and to assist the UI on such matters as general operating funding, capital projects, and operational issues.

### **JERRE STEAD, HONORARY DOCTOR OF HUMANE LETTERS:**

Jerre L. Stead earned a BBA from The University of Iowa in 1965 and is a graduate of the Harvard University Advanced Management Program in Switzerland. After holding numerous executive positions with other technology and information firms, he is currently Chairman and CEO of IHS Inc., which provides information and insight services to businesses worldwide. Known as a leader who displays the highest standard of ethics and focuses on the values of teamwork, respect, accountability, integrity, and innovation, Mr. Stead has served on 34 corporate and several nonprofit boards and was honored by the Outstanding Directors Exchange as one of its 2009 Outstanding Directors. It was thanks to his vision and support that the UI Tippie College of Business established the Stead Technology Services Group. He also teaches in Tippie's Executive MBA Program. Currently, Mr. Stead and his wife, Mary Joy, serve as co-chairs of the "Iowa First" development campaign, which aims to raise \$500 million in support of UI Health Care's academic and clinical missions.

## Doctor of Philosophy

Chitra V. Akkooor, *North Liberty*

Communication Studies. Thesis: Ways of Speaking in the Diaspora: Afghan Hindus in Germany

Carla-Maria Alana Alexander, *Trincity, Trinidad and Tobago*

Immunology. Thesis: T Regulatory Cells and the Germinal Center

Brian Alan Almquist

Business Administration. Thesis: Mining for Evidence in Enterprise Corpora

David Gustav Rathe Anderson,

*Downers Grove, IL*

Pharmacy. Thesis: Oxidation and Reactivity of 3,4-Dihydroxyphenylacetaldehyde, a Reactive Intermediate of Dopamine Metabolism

Harsha Vardhan Reddy Annapureddy

Chemistry. Thesis: Theoretical Studies on the Structure and Dynamics of Room-temperature Ionic Liquids

Fatima Baig

Teaching and Learning. Thesis: Investigating the Motivations of Parents Choosing Language Immersion Education for Their Child

Koushik Banerjee, *Iowa City*

Chemistry. Thesis: Manganese Mediated Radical Addition Strategy toward Asymmetric Synthesis of Gamma-Amino Esters and Asymmetric Total Synthesis of Tubulysins

Kehinde Seun Bankole, *Lagos, Nigeria*

Chemical and Biochemical Engineering. Thesis: Uncatalyzed Esterification of Biomass-derived Carboxylic Acids

Erin Frances Barnes, *Matteson, IL*

Rehabilitation and Counselor Education. Thesis: Factors Influencing Perceptions of Locus, Blame, Justice, and Behavioral Intentions among Persons with Disabilities

James Matthew Barnes, *Idaho Falls, ID*

Molecular Physiology and Biophysics. Thesis: Influence of Matrix and Fluid Microenvironments on Cancer Cell Migration, Survival, and Metastasis

Darci Lynn Sturtz Becker, *Maquoketa*

Speech and Hearing Science. Thesis: Patient Awareness of Dysphagia

Sarah Bergeron

Molecular and Cellular Biology. Thesis: Biochemical Basis of Human Disease-causing Actin Mutations

Andrew John Borst, *Bettendorf*

Educational Policy and Leadership Studies. Thesis: Evaluating Academic and Student Affairs Partnerships: The Impact of Living-Learning Communities on the Development of Critical Thinking Skills in College Freshmen

Doyle Leo Buhler, *Forest Grove, OR*

Art History. Thesis: Capturing the Game: The Artist-Sportsman and Early Animal Conservation in American Hunting Imagery, 1830s-1890s

Erin Rae Burnight

Genetics. Thesis: Targeting Therapeutic Vector Expression and Integration for Gene Therapy Applications

Rebecca Lee Verkerke Busanich,

*Menominee, MI*

Health and Sport Studies. Thesis: Changing the Lens: Looking beyond Disordered Eating and into the Meanings of the Body, Food and Exercise Relationship in Distance Runners

Adam John Case, *Iowa City*

Free Radical and Radiation Biology. Thesis: The Role of Mitochondrial Superoxide in the Development of the Mammalian Hematopoietic System

Brandyce Kay Case Haub, *West Des Moines*

Anthropology. Thesis: Together We Stand Apart: Island and Mainland Puerto Rican *Independentistas*

Katherine Elizabeth Castellano

Psychological and Quantitative Foundations. Thesis: Unpacking Student Growth Percentiles: Statistical Properties of Regression-based Approaches with Implications for Student and School Classifications

Leslie Maureen Cavendish

Teaching and Learning. Thesis: Stories from International Teachers: A Narrative Inquiry about Culturally Responsive Teaching

Scott Hogeland Cederburg

Business Administration. Thesis: Essays in Cross-sectional Asset Pricing

Lorenzo Cena, *Torino, Italy*

Occupational and Environmental Health. Thesis: Assessment of Exposure to Composite Nanomaterials and Development of a Personal Respiratory Deposition Sampler for Nanoparticles

Alvaro Correa

Mathematics. Thesis: Bifurcation Theory for a Class of Second Order Differential Equations

Susana María Cortina De Cárdenas, *San Juan, Puerto Rico*

Geography. Thesis: Does Private Management Lead to Improvement of Water Services? Lessons Learned from the Experiences of Bolivia and Puerto Rico

John Nickolas DenBleyker

Psychological and Quantitative Foundations. Thesis: Comparing Trend and Gap Statistics across Tests: Distributional Change Using Ordinal Methods and Bayesian Inference

Junjun Deng

Applied Mathematical and Computational Sciences. Thesis: Parallel Computing Techniques for Computed Tomography

Juan Francisco Diaz, Jr.

Science Education. Thesis: Examining Student-generated Questions in an Elementary Science Classroom

Seth Ian Dillard, *Iowa City*

Mechanical Engineering. Thesis: Image Based Modeling of Complex Boundaries

Anthony J. Donofrio, *Cleveland, OH*

Music. Thesis: In Violent Silence

Bridget Draxler, *Amery, WI*

English. Thesis: Novel Spectators: Spectatorship in the Eighteenth-Century Novel

Paul Harlan Drube

Mathematics. Thesis: TQFT Diffeomorphism Invariants and Skein Modules

Marion Duval, *Iowa City*

French and Francophone World Studies. Thesis: D'un Salaud l'autre: Étude de la figure romanesque des Nazis et de leurs collaborateurs

Megan Lyn Ealy, *Iowa City*

Genetics. Thesis: Otosclerosis—Identifying Genetic Contributions to a Complex Hearing Disorder

Scott Douglas Easton, *Cedar Rapids*

Social Work. Thesis: Men Who Were Sexually Abused during Childhood: An Examination of Factors That Influence Long-term Mental Health

Edugie Jennifer Ekuase

Pharmacy. Thesis: Structure-Activity Relationships for Interaction of Hydroxylated Polychlorinated Biphenyls with Human Hydroxysteroid Sulfotransferase hSULT2A1

Joseph John Engler, *Coggon*

Industrial Engineering. Thesis: Characterization of Normality of Chaotic Systems Including Prediction and Detection of Anomalies

- Ho Seop Eom, *Coralville*  
Chemical and Biochemical Engineering. Thesis: Photopolymerizations of Multicomponent Epoxide and Acrylate/Epoxy Hybrid Systems for Controlled Kinetics and Enhanced Material Properties

## HENRY B. TIPPIE COLLEGE OF BUSINESS

The University of Iowa first offered courses in economics and business in 1858. The School of Commerce was formally established in 1914 and the College of Business Administration, which was founded in 1921, received national accreditation in 1923. The College was renamed the Henry B. Tippie College of Business in 1999. Today, there are more than 3,000 students in the College working toward Bachelor of Business Administration (B.B.A.), Master of Accountancy (M.Ac.), Master of Business Administration (M.B.A.) and doctoral (Ph.D.) degrees.

The Undergraduate Program provides a broad business education along with specializations in the areas of accounting, economics, finance, marketing, management and organizations, and management information systems. Student organizations, the Frank Business Communications Center, and specialized programming for targeted student groups provide a full-service educational experience. In addition, students can earn certificates in International Business, Entrepreneurship, and Risk Management and Insurance.

The Tippie M.B.A. program provides advanced management education that expands a student's ability to excel in the global business economy. The full range of M.B.A. programs is listed in the adjacent column. The Master of Accountancy program is intended for students seeking a career in public accounting. The College's Ph.D. program prepares individuals for faculty positions in academia, as well as for business or government careers.

The College hosts a number of centers that promote research and opportunities within specialized career areas. The Hawkinson Institute of Business Finance provides opportunities for students interested in working in the investment community, while the Emmett J. Vaughan Institute for Risk Management and Insurance helps students explore careers in risk management and insurance. The Institute for Economic Research and the RSM McGladrey Institute of Accounting Education and Research provide research and services to their respective fields. The John Pappajohn Entrepreneurial Center offers a full spectrum of programming for both student and community-based entrepreneurs. Students in the Tippie College of Business can learn more about the global business environment through the Institute for International Business and participate in hands-on projects with real world clients through the Marketing Institute.

With more than 42,000 alumni living around the globe, the Tippie College of Business has had an impact on the world of business.

## HENRY B. TIPPIE SCHOOL OF MANAGEMENT

Created by Dean Sidney Winter in 1960, the Master of Business Administration (M.B.A.) Program at The University of Iowa was "born into a secure future as the College's flagship." Now, boasting enrollment of more than 1,000 students, the M.B.A. Program is recognized as being among the top programs in the world.

The M.B.A. Program at the Henry B. Tippie School of Management provides its students the opportunity to broaden their managerial skills and enhance their professional careers in the business or public sector. The curriculum is designed for college graduates in any field but emphasizes the importance of professional work experience prior to enrollment.

Students have the option of pursuing the M.B.A. degree on campus through the Full-time M.B.A. Program, part-time through the M.B.A. for Professionals and Managers (M.B.A.-PM), or via the Executive M.B.A. or the International M.B.A. programs. M.B.A.-PM classes are offered in the Quad Cities, Cedar Rapids and Des Moines. Students may pursue the Executive M.B.A. program in Iowa City or Des Moines. The International M.B.A. Program is based in Hong Kong and Italy and has more than 100 alumni. More than 200 companies are currently represented in the Tippie programs designed for working professionals.

The School participates in several joint-degree programs for students enrolled full-time. These include the M.B.A./J.D. Program with the College of Law, the M.B.A./M.D. Program with the Carver College of Medicine, and the M.B.A./M.H.A. Program with the College of Public Health.

More than 7,300 graduates now hold an M.B.A. degree from The Henry B. Tippie School of Management. Successful alumni can be found worldwide, in every facet of today's global economy.

## COLLEGE OF DENTISTRY

Dental education began at The University of Iowa in 1882 with 14 students, four faculty members, and a first year's budget of just over \$1,000. Patients were treated in an improvised clinic equipped with borrowed barber chairs. Today the College of Dentistry is ranked among the leading dental schools in the United States. An integral part of The University of Iowa Health Sciences Center, the College enrolls dental students, advanced education and graduate students in programs representing almost all of the dental specialties as well as master's and Ph.D. programs in oral science.

The Dental Science Building affords faculty and students of the college excellent facilities for their many programs of research into the nature and treatment of oral diseases. These investigations have resulted in a number of significant advances in dental science.

An expansion and renovation of clinic, classroom and research space are currently underway and will result in state-of-the-art facilities for students, faculty and patients.

Faculty, postdoctoral and predoctoral students extend service to hundreds of thousands of Iowa citizens in the patient-care clinics of the Dental Science Building. Students also provide dental care to Iowa communities through the College's extramural programs in hospitals, community health centers and nursing homes. Dental health educational presentations are regularly provided by dental students in schools, nursing homes and other locations throughout the state.

The College has a long history of graduating students who become nationally prominent clinicians, dental educators, and researchers. More than 3,000 living alumni perpetuate the College's tradition of excellence as they distinguish themselves with contributions to their professions and our society.

## COLLEGE OF EDUCATION

The University of Iowa College of Education traces its roots to the founding of the University itself. Teacher training was the only program specifically called for in the 1847 statute creating the "State University of Iowa." This teacher training program was popular with students, enrolling more than half the University's students during its first decade of existence and never having given preference to men over women in enrollment.

In addition to being the University's first and only continuously operating program, the College of Education was also the nation's first to develop a permanent college-level department of education and the first to establish a professorial chair of education at a U.S. university.

The College of Education continues this tradition of placing education first, as exemplified through its innovative teaching methods, ground-breaking research, and wide-reaching service. Today, as in the past, top-notch students who score higher than the national average on GPA, GRE, and the Praxis I exam come to the College because they want to make a difference in this world. They gain the skills necessary to excel both academically and professionally. Graduates can be found serving as teachers, principals, counselors, testing specialists, psychologists, and educational leaders in a variety of fields in almost every Iowa school district, in every state in the nation, and in countries throughout the world.

Currently, the College enrolls more than 570 teacher education undergraduate students (more than 61 percent from Iowa) in programs that prepare them for licensure in special education, elementary education, and eight secondary education areas.

652 graduate students are enrolled in a wide range of programs that consistently rank among the top tier by *U.S. News & World Report*.

The College of Education is a national leader in technology. Its history of embracing technology to empower learning stems from such practical inventions as the first automated scoring machine to recent advancements infusing multimedia into the teacher training program with the ePortfolio™ project. From nationally recognized literacy projects to internationally renowned testing instruments, the College's 84 tenure-track faculty produce meaningful and applicable research, working closely with practitioners and the education community to improve our lives in countless ways.

The College of Education has four academic departments: Educational Policy and Leadership Studies; Rehabilitation and Counselor Education; Psychological and Quantitative Foundations; and Teaching and Learning. In addition, the College of Education is home to several centers that provide invaluable resources throughout the world: the internationally renowned Iowa Testing Programs; the Connie Belin and Jacqueline N. Blank International Center for Gifted Education and Talent Development; the Center for Evaluation and Assessment; the Center for Advanced Studies in Measurement and Assessment; the Center for Research on Undergraduate Education; and the Iowa Center for Assistive Technology Education and Research.

The College of Education remains proud of its long and distinguished role in preparing the next generation of educational leaders.

## COLLEGE OF ENGINEERING

Engineering is a profession devoted to applying knowledge of the mathematical and natural sciences to the discovery and development of efficient ways to use the materials and forces of nature for the benefit of society.

Career opportunities in engineering are numerous and diverse. In preparing men and women for these opportunities, The University of Iowa College of Engineering seeks to produce high-calibre professionals with interdisciplinary interests and strong backgrounds in engineering fundamentals. It offers students engineering education in the context of a diversified university with a strong College of Liberal Arts and Sciences and outstanding professional colleges.

With educational courses dating back more than 100 years, the College today has an enrollment of about 1,984 students—1,573 of whom are undergraduates. About 55 percent of undergraduate enrollment comes from the state of Iowa, with another 37 percent attending from contiguous states. Women make up approximately 20 percent of undergraduates.

There are 82 faculty serving six undergraduate programs in biomedical, chemical, civil, electrical, industrial, and mechanical engineering.

Student achievement has become a hallmark of the College. Average ACT scores are consistently in the top 10th percentile.

Even though engineering students represent only 5.8 percent of University enrollment, they are awarded many top first-year merit scholarships. Since 1980, 25 engineering students have earned the prestigious University Hancher-Finkbine Medallion for achievement and leadership. The College is the first in the U.S. to offer a Technological Entrepreneurship Certificate with an engineering degree.

The college offers graduate programs in biomedical, chemical and biochemical, civil and environmental, electrical and computer, industrial, and mechanical engineering. Research units of the college include the Center for Bioinformatics and Computational Biology, Center for Computer-Aided Design, IIHR—Hydroscience and Engineering, and the Iowa Institute for Biomedical Imaging.

## GRADUATE COLLEGE

The University of Iowa's Graduate College was founded in 1900 and that year awarded its first doctorate to Fred D. Merritt in political science. Since then, it has conferred 74,552 master's, 539 specialist, and 19,182 doctoral degrees. With more than 5,500 students, the college now accounts for nearly one-fifth of the University's total enrollment, in more than 100 different programs of advanced study, research, and artistic creation. The Graduate College is a proud supporter of interdisciplinary programs, including a unique, individualized interdisciplinary studies doctorate program.

All faculty members with professorial rank in the academic divisions of the University hold membership on the Graduate College faculty; thus, almost all of the University's 1,621 faculty members participate in graduate instruction. Because academic programs involve specialists from different disciplines and because many faculty members hold appointments in more than one department, school, or college, graduate instruction is assured a healthy interaction and collaboration among disciplines.

A number of the University's graduate programs are recognized as the finest, or among the finest, in the nation. The Graduate College boasts five winners of the prestigious UMI/CGS Dissertation Prize, the most awarded to any doctoral institution since the inception of the award. In 2001 the college inaugurated its Graduate College Outstanding Mentor Awards. The awards for the 2010-11 academic year were made to Professors Carolyn Colvin, Teaching and Learning; James Gloer, Chemistry; and Padmini Srinivasan, Computer Science, in recognition of their outstanding contributions to graduate education.

## COLLEGE OF LAW

The University of Iowa College of Law prepares its students to become tomorrow's leaders in law, government and industry. The leading academic law library, a global curriculum, and a strong writing tradition highlight the world-class legal education we provide. Through our unique Citizen Lawyer program, live-client clinics, and a wide-range of externship placements, our law students hone their skills and embrace the highest ideals of the legal profession by providing legal services to the indigent and working on law reform for the improvement of the general welfare. Iowa-educated lawyers begin early to make a difference.

When students choose to come to the University of Iowa College of Law, they become part of a proud history. The College of Law is the oldest law school in continuous operation west of the Mississippi and from the day we first opened our doors in 1865 through the current day, the College has been a welcoming and inclusive community, admitting students dedicated to the study of law without regard to ethnicity, gender, religion, sexual identity, or socio-economic status. Today, we have an enrollment of more than 600 students and a faculty of approximately 50 full-time professors. Ninety-three undergraduate institutions and 35 states and foreign countries were represented by the 2010 entering class; approximately 50 percent of whom are residents of the state of Iowa.

Our alumni practice law from Wall Street to the Silicon Valley, from London to Beijing, and in each of Iowa's 99 counties. As corporate counsel, they advise business leaders, and as chief executive officers, they run businesses. They are state and federal judges, appointed officials, elected leaders, law professors, law deans, and university presidents. They can be found in the halls of Congress, on Indian reservations, in classrooms, courtrooms, and boardrooms in every state in the nation, and in countries around the world.

The learning environment at the College of Law is rigorous and collaborative, and the intellectual climate is open and robust. Whether the topic is legal theory or legal practice, constitutional law or contracts, our students select courses from a rich and varied curriculum and participate in a wide array of extracurricular learning opportunities. Our Legal Analysis, Writing and Research program, along with our Writing Resource Center and our four student-edited law journals, showcase our longstanding tradition of training exceptional legal writers.

The College of Law offers service to the state of Iowa and prepares our students to become civically engaged citizens and community leaders through our Citizen Lawyer Program. This comprehensive pro-

gram develops and matches students with service opportunities while teaching the values and skills important to new lawyers through activities that include: pro bono (law-related volunteer) projects, community service opportunities, service learning courses, and professional values and civic leadership programs.

Our faculty is comprised of nationally and internationally known scholars and accomplished teachers who are leaders in their fields of study. Their scholarship is cutting-edge and their research and advocacy make a difference on issues ranging from bankruptcy law to the criminal justice system. The College of Law offers a climate of collegiality where student-faculty interaction is pervasive, and where collaboration across disciplinary boundaries yields new insights and cross-campus partnerships.

The College of Law ranks among the nation's best law schools, public or private. But, as a public law school, we take our public missions of access, affordability, and service seriously. To fulfill the promise to the public we serve, we draw upon the breadth and depth of the law school's assembled expertise to create new knowledge and to address the weightiest problems confronting modern society. We are grateful to the State of Iowa and the many individuals whose support contributes to our successes.

## COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences invites students to explore the entire range of human learning: the fine arts, the humanities, the social sciences, the natural and mathematical sciences. Our students work with faculty members who are committed to integrating their research into their teaching and to helping students develop their own capacity to ask significant questions, to think analytically, to draw conclusions from what they learn, and to discover workable solutions to problems. These skills, honed throughout the undergraduate experience, will form the basis for life-long success and learning. We seek to prepare our graduates to be knowledgeable citizens and to enable them to continually acquire the new information and skills they will need to meet the challenges of our continually changing world.

Although a liberal arts and sciences education has been available since The University of Iowa first began offering instruction in 1855, the "College of Liberal Arts" was not created until the beginning of the 1900-01 academic year. In the years that followed, other colleges evolved out of that first college: Engineering in 1905, Education in 1913, and Commerce (now the Tippie College of Business) in 1921. In fall

2001, The College of Liberal Arts became "The College of Liberal Arts and Sciences," a name that encompasses the breadth of the College's teaching and research.

In 1900-01, the College had about 600 students in its four "courses of study," and a faculty consisting of only 28 professors and assistant professors. Today, more than 16,000 undergraduates are enrolled every year. Over 90 percent of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award more than 70 percent of the University's undergraduate degrees. Our students choose to major in one—or more—of nearly 60 different programs leading to a B.A., B.L.S., B.S., B.M, or B.F.A. degree. Many of our students add minors and certificates to their degrees, further expanding their knowledge and skills.

More than 600 tenured and tenure-track faculty members form more than three dozen separate departments and work together in numerous interdisciplinary programs to provide research, teaching and service to our students, the state, and the world. Faculty members from every area of the College have developed national and international reputations for the quality of their research and creative work. Every year, members of our faculty are recognized by national and international foundations, earning Fulbright, Guggenheim, National Endowment for the Arts, National Institutes of Health, and National Science Foundation fellowships and other awards. They receive recognition and awards from disciplinary organizations as well. Here on campus, CLAS faculty members routinely win University-wide teaching awards—including the prestigious Hubbard Award for Exemplary Teaching for each of the five years it has been awarded—as well as other recognition of their teaching and scholarship.

Our students are also recognized for their achievements. Every year, more than 200 College of Liberal Arts and Sciences students graduate "with honors" in their major. Even more graduate "with distinction," "with high distinction," or "with highest distinction." Our students participate in departmental honors societies, and in national honor societies including Phi Beta Kappa, Mortar Board, and Omicron Delta Kappa. We are pleased to recognize student achievement in other ways, too. Each year, the College provides many scholarships recognizing student achievement. We also provide research funding for undergraduates, including the Dewey Stuit Fund in Liberal Arts & Sciences, which provides support for undergraduate travel, research, and mentoring projects.

The College collaborates with other University units to foster scholarship, teaching, and service. We work with every one of the other colleges, offering joint programs and course work, and providing students

opportunities for collaborative research and other learning activities. We support and are supported by the Pomerantz Career Center in providing internships before graduation and career guidance after graduation. We are grateful to the many alumni who continue to support the College with their time and energy and who have helped to provide funding to create opportunities and scholarships for our students.

The College of Liberal Arts and Sciences is proud of our history and our current endeavors, remaining dedicated to the mission of the College: to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to conduct these activities in a culturally diverse, humane, technologically advanced and increasingly global environment.

## ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Carver College of Medicine admits students to the four-year Doctor of Medicine (M.D.) program. In addition, the College is home to the physical therapy, physician assistant, and medical scientist training programs. The College offers joint-degree programs with the Colleges of Law, Business and Public Health. Its faculty members also provide instruction to several thousand students each year from the Graduate College, the Colleges of Dentistry, Nursing, Pharmacy, and Public Health, and the life science areas of the College of Liberal Arts and Sciences. The clinical faculty additionally provides instruction for nearly 600 physicians in residency and fellowship training in all the medical and surgical specialties.

Each year, several thousand physicians and other health professionals update their knowledge and skills in the College's continuing medical education programs.

Community-based medical education for medical students, residents, and physician assistant students is available through six regional medical education centers across the state. The College administers a community-based primary care clerkship for third-year medical students as well as a job-shadowing program for first-year students. The College also coordinates the UI-Affiliated Family Practice Training Network—comprised of eight family medicine residency programs in seven Iowa communities—as well as a visiting professor program in which faculty members present teaching conferences and par-

ticipate in other education activities at the community-based residency sites.

The spectrum of new knowledge in medicine is such that health care problems need to be approached by an integration of relevant disciplines and a melding of faculty expertise into groups of scholars with a common purpose.

UI Carver College of Medicine researchers are leaders in the areas of biomedical imaging, cancer, cardiovascular disease, brain imaging and neurosciences, cystic fibrosis, hearing loss and deafness, muscular dystrophy, macular degeneration and other blinding eye diseases, and Huntington's disease. Carver College of Medicine investigators have been successful in obtaining external support, which contributes to the University's ranking of 12th in National Institutes of Health awards among all public universities. The research funding and reputation emanate from the efforts of faculty and staff, students, and postdoctoral trainees working in the laboratories of some of the nation's premier biomedical scientists in leading interdisciplinary research and training programs.

## COLLEGE OF NURSING

The University of Iowa College of Nursing has offered basic nursing education since the turn of the 20th century and baccalaureate and master's degree programs for more than 50 years. A Ph.D. program in nursing began in 1988. The College is an integral part of the health sciences campus, sharing in and contributing to teaching, research, and patient-care resources, which have earned international recognition.

Undergraduate students enter the nursing program after completing the pre-professional course. Six semesters of study in nursing are required to complete the undergraduate degree.

All senior undergraduates have a clinical internship that facilitates the transition from student to staff nurse. Internships are supervised by 300 staff nurse preceptors across the state.

Special program options are available for registered nurses pursuing the BSN. Registered nurses may complete their BSN through an online program.

The Master of Science—Clinical Nurse Leader (CNL) role is designed for nurses who want to stay at the bedside, lead teams, coordinate and improve care and help elevate professional practice standards. Nurses with a BSN and approximately two years of experience who are seen as strong clinicians are good candidates for the CNL program. Excellent communication skills, ability to negotiate, curiosity and desire to address systems problems are essential for CNLs. Nurses who like to be leaders and are comfortable with ambiguity do well as CNLs.

The Doctor of Nursing Practice (DNP) degree is designed to prepare clinicians with

the knowledge and skills to provide the highest standard of care for individuals, families and communities and navigate today's complex health care systems. Nurse managers and administrators will gain the knowledge and skills necessary to develop, implement and monitor programs of care and policies in complex organizations. You can enter the DNP post-BSN or post-MSN.

The Doctor of Philosophy in Nursing (PhD) program prepares scholars to conduct research in nursing, to extend the knowledge base relevant to nursing, and to collaborate in interdisciplinary research with other scholars. Study requires expertise in nursing and developing competence in research that relates to the practice of nursing and delivery of health care. Graduates of the program are prepared for careers as researchers, faculty, consultants, and as leaders within the profession, in health policy making agencies, and within the health care system.

## COLLEGE OF PHARMACY

The College was originated by a forward-thinking group of pharmacists from the Iowa Pharmaceutical Association in 1885 and was one of the first Colleges of Pharmacy in the nation associated with a major public university. This nationally ranked program is located in the Health Sciences Center on the west side of the University's main campus in close proximity to the Colleges of Medicine, Nursing, Dentistry, Public Health and The University of Iowa Hospitals and Clinics.

The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to dispensing medicines to patients. An important concept in the delivery of pharmacy care is medical therapy management—the responsible provision of drug therapy to achieve defined outcomes that improve patients' quality of life. These outcomes include preventing, arresting, or curing a disease, and/or eliminating or reducing its symptoms. In order to carry out these responsibilities, pharmacists specialize in the science of drugs and drug information.

Iowa's pharmacy students study with professors who are pioneering the development of new drugs to solve chronic health problems and exploring means to improve the safety and effectiveness of current drugs. The College is also home to a drug research and manufacturing area where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The Doctor of Pharmacy (Pharm.D.) degree combines didactic course work with extensive pharmacy practice experience to prepare a pharmacist for an expanded role in monitoring, evaluating, and optimizing drug therapy in hospitalized and ambula-

tory patients. Students graduating from the college enjoy a wide variety of professional opportunities in community pharmacy, hospital pharmacy, government, and the pharmaceutical industry.

The College also has an extensive research and graduate education program leading to both master's and doctoral degrees in medicinal and natural products chemistry, pharmaceuticals, clinical pharmaceutical sciences, and pharmaceutical socioeconomics. Graduates of these programs are employed by the pharmaceutical industry, government and also assume academic positions. The College also offers a joint degree program with the College of Public Health.

## COLLEGE OF PUBLIC HEALTH

Formed in 1999, the College of Public Health is the newest collegiate unit at The University of Iowa. Building on the University's long tradition of public health training, research, and service—including programs targeting agricultural safety and health, birth defects and cancer monitoring, health services planning, and women's health—the establishment of this college marked a renewed and expanded commitment to improving the health of all Iowans and people throughout the world.

Public health is an interdisciplinary field made up of a wide range of professionals, including physicians, nurses, dentists, pharmacists, social workers, nutritionists, environmental scientists, health educators, biostatisticians, epidemiologists, health service administrators, and many others. What unites public health practitioners is the shared goal of preventing disease and injury and promoting healthy practices among entire populations.

The College of Public Health includes the Departments of Biostatistics, Community and Behavioral Health, Epidemiology, Health Management and Policy, and Occupational and Environmental Health. Four graduate degrees are offered: Master of Health Administration, Master of Public Health, Master of Science, and Doctor of Philosophy. Several public health combined-degree options are available with other UI colleges, including Business, Law, Medicine, and Pharmacy, as well as the College of Veterinary Medicine at Iowa State University. An interdisciplinary program in human toxicology is available as is an occupational medicine residency program. There are also opportunities for distance learning and certificate programs in public health. More than 25 research centers and institutes based in the college provide focused research on critical public health topics and deliver outreach and service activities in every Iowa county and

beyond. Approximately 400 students are enrolled in educational programs within the College of Public Health. The college is accredited by the Council on Education for Public Health (CEPH), the accrediting body for the nation's schools and colleges of public health.

## UNIVERSITY COLLEGE

The University College is home to a wide range of programs for University of Iowa students and precollege students. It includes major college-level programs such as the University of Iowa Honors Program, Career Center Programs, Lifetime Leisure Skills, and a degree program leading to the Bachelor of Applied Studies (B.A.S.). The B.A.S. is designed for graduates of community college technical programs who wish to complete a bachelor's degree without interrupting their careers. Students work with an advisor to plan their own emphasis areas. B.A.S. students may plan programs designed to help them advance in their chosen career, begin a new career, or prepare for graduate or professional study.

## GRADUATION HONORS

High scholastic achievement is recognized at graduation time in two ways: graduation with distinction, based on grades only, and graduation with honors in a particular field, based upon both grades and the completion of special work as outlined by the college and the major department.

*Graduation with Distinction.* The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

With Highest Distinction	Highest 2%
With High Distinction	Next Highest 3%
With Distinction	Next Highest 5%

In the undergraduate programs in the College of Medicine, distinction recognition is determined as follows:

With Highest Distinction	3.85 GPA or above
With High Distinction	3.75-3.84 GPA
With Distinction	3.65-3.74 GPA

In the College of Nursing, distinction recognition is determined as follows:

With Highest Distinction	3.90 GPA or above
With High Distinction	3.80-3.89 GPA
With Distinction	3.75-3.79 GPA

In the College of Pharmacy, distinction recognition is determined as follows:

With Highest Distinction	4.0 GPA or above
With High Distinction	3.75-3.99 GPA
With Distinction	3.50-3.74 GPA

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation *with highest distinction*; two, *with high distinction*; and one, *with distinction*.

*Graduation with Honors Degrees.* An honors student may complete work for an honors degree in one of many fields of concentration. Honors students are admitted to work in candidacy for an honors degree, normally not later than the junior year, upon application to and formal acceptance by the department of their choice. At the option of the department, the special honors work may be planned as an addition to the regular requirements for the major or in substitution for some part of these requirements.

Liberal Arts and Sciences candidates who are graduating with honors in a particular field wear white cordons draped over the shoulders.

## ACADEMIC COSTUME

The history of academic dress reaches far back into the early days of the oldest universities. A statute of 1321 required that all “Doctors, Licentiates, and Bachelors” of the University of Coimbra wear gowns. It is still a vexing question whether academic dress finds its sources chiefly in ecclesiastical or in secular dress. Gowns may have been necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until they were superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as “academic.”

Over the many years of development, a great diversity of academic apparel made its appearance. When American colleges and universities desired to adopt some suitable system of academic apparel more than a century ago, it seemed to them best to agree on some definite system which all might follow. Accordingly, there was held on May 16, 1895 at Columbia University a conference of representatives of the governing boards of various interested institutions. The outgrowth of that meeting was the establishment of “The Academic Costume Code.” The code has been revised several times since its initial approval. The most recent change was in 1959. In nearly every instance of the many hundreds of colleges and universities of the United States which have adopted academic dress, the standards thus prescribed have been adopted and followed, either wholly or at least in the main.

The academic costume code recognizes three styles of gowns: a bachelor’s gown, a master’s gown, and a doctor’s gown. In conjunction with its centennial celebration in May 2000, the Graduate College inaugurated a new doctor’s gown. The differences in these gowns are mainly in the cut and shape of the sleeves and in the trimming. Hoods are also recognized for each of the above degrees. They vary in shape, size, and length, the larger and more elaborate designating the doctoral level. The shell of the hood matches the black material of the gown, and is lined with the color or colors of the institution conferring the degree—in the instance of The University of Iowa, old gold. The velvet border of the hood is of a color indicative of the field of learning to which the degree pertains. An abbreviated list of these colors as they apply to The University of Iowa follows:

Arts and Letters, white  
Business and Accounting, sapphire blue  
Dentistry, lilac  
Engineering, orange  
Law, purple  
Medicine, green  
Music, pink  
Nursing, apricot  
Pharmacy, olive green  
Philosophy, dark blue  
Science, golden yellow

The Oxford cap, proper for all degrees, is worn both indoors and outdoors with academic costume. The tassel, worn over the left eye, is also symbolic of the degree to be conferred on the wearer and conforms to the code colors for hood trimming.

Practice at The University of Iowa varies slightly from that established by the code. Candidates for degrees may be identified with the *colleges* from which they are to secure their degrees by the color of the tassels they wear. Colleges are designated by tassel colors as follows:

Business, sapphire blue  
Dentistry, lilac  
Engineering, orange  
Graduate, black  
Law, purple  
Liberal Arts and Sciences, white  
Medicine, green  
Nursing, apricot  
Pharmacy, olive green

Only candidates for the doctoral-level degrees (Doctor of Philosophy, Doctor of Audiology, Doctor of Musical Arts, Doctor of Physical Therapy, Doctor of Dental Surgery, Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy) wear hoods. The velvet trim on the hoods for these degrees conforms to the colors set forth in the intercollegiate code, and, with the exception of the Doctor of Philosophy, the Doctor of Musical Arts, the Doctor of Audiology and the Doctor of Physical Therapy hoods, are the same color as the tassel. The Doctor of Audiology and the Doctor of Physical Therapy are trimmed in teal. The Doctor of Philosophy hood is trimmed in blue, the color appropriate to philosophy, and the Doctor of Musical Arts hood is trimmed in pink, the color for music. In all four cases, the tassel worn is black.

## PRESIDENTIAL EMBLEM

The jeweled gold medallion worn by The University of Iowa president during commencement ceremonies and other formal academic events on the campus was designed as an emblem of the University’s presidency by a UI graduate student in the School of Art and Art History, Karen Cantine.

Featuring an abstract UI motif in the University’s colors—old gold and black—the emblem was first used in the investiture of Howard R. Bowen as the University’s fourteenth president during inauguration ceremonies on December 5, 1964.

Four and one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Mrs. Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Mrs. Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is almost an inch in diameter. A slightly smaller topaz is set in the link which attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one being placed at the end of each “spoke” which bears a UI motif.

Designing and making the presidential emblem was part of Mrs. Cantine’s work for a Master of Arts degree in metalwork and jewelry.
