The University of Iowa 2015-16 General Catalog

The General Catalog provides information about academic programs at the University of Iowa, one of three universities governed by the Board of Regents, State of Iowa. The Catalog also provides links to supporting offices at the University, a list of administrative officers, an A-Z list of University of Iowa faculty members, a University calendar, and a link to the Code of Iowa for information regarding admission requirements and Iowa resident/nonresident standing.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Iowa. Every effort is made to provide information that is accurate at the time of publication. However, information on courses, curricula, fees, policies, regulations, and other matters is subject to change any time during the period for which the Catalog is in effect.

For PDF versions of archived back editions, visit Office of the Registrar/General Catalog and use the drop-down menu under "Catalog Snapshots."

The General Catalog is produced by the Office of the Registrar. Your comments and suggestions are welcome. Questions concerning the Catalog may be directed to the Office of the Registrar at registrar-publications@uiowa.edu.

The University of Iowa has been accredited by the North Central Association of Colleges and Schools since the association's organization in 1913. The University is a member of the Association of American Universities and is associated with Indiana, Michigan State, Northwestern, Ohio State, Pennsylvania State, Purdue, and Rutgers Universities and the Universities of Illinois, Maryland, Michigan, Minnesota, Nebraska, and Wisconsin in the Big Ten Conference. Along with the Big Ten universities, it also is associated with the University of Chicago in the Committee for Institutional Cooperation (CIC).

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information on nondiscrimination policies, contact the Director, Office of Equal Opportunity and Diversity, The University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316; 319-335-0705 (voice), 319-335-0697 (TDD), diversity@uiowa.edu.
Academics at Iowa

The University of Iowa offers academic degree and nondegree programs at the undergraduate and graduate levels. It also offers postdoctoral study and other opportunities for nondegree study and research. The General Catalog describes the University's degree and nondegree programs at the undergraduate and graduate levels.

The following pages provide global information about undergraduate, graduate, and professional study across the University. They include lists of all undergraduate majors (including tracks, concentrations, emphases, or subprograms), certificates, and minors, with links to the relevant Catalog sections; a link to the College of Liberal Arts and Sciences' undergraduate General Education Program; information about the undergraduate Four-Year Graduation Plan; information about graduate and professional study; descriptions of the University's course numbering and grading systems; and contact information for supporting offices (admissions, registrar, housing, student financial aid, and equal opportunity).

• Undergraduate Study (p. 6)
  • Undergraduate Majors and Pre-majors (p. 7)
  • Undergraduate Certificates (p. 11)
  • Undergraduate Minors (p. 12)
  • General Education Program (p. 13)
  • Four-Year Graduation Plan (p. 15)
  • Iowa Degree in Three (p. 14)
• Graduate and Professional Study (p. 16)
• Course Numbering (p. 17)
• Grading (p. 21)
• Supporting Offices (p. 22)

For information about degree and nondegree programs in specific disciplines and interdisciplinary areas, including graduation requirements and courses offered, see the links under Colleges and Other Academic Units (p. 23) in the Catalog.

To find the Catalog section for a specific academic department or program, use the Catalog’s A-Z Directory or the Catalog Contents index.
Undergraduate Study

University of Iowa undergraduate students may earn majors, certificates, and minors in more than 100 subject areas. Many majors have varied subprograms, tracks, or concentration areas, which students may choose according to their own educational goals and interests. Each program is described in the 2015-16 General Catalog, with information on courses and other graduation or completion requirements. Click on the program links under "Undergraduate Majors and Pre-majors," "Undergraduate Certificates," and "Undergraduate Minors."

- Undergraduate Majors and Pre-majors (p. 7)
- Undergraduate Certificates (p. 11)
- Undergraduate Minors (p. 12)

Students enrolled in the College of Liberal Arts and Sciences must complete the college's General Education Program in order to earn an undergraduate degree; other colleges also require General Education course work as part of their undergraduate curricula. For a detailed description of the program and its requirements, use the following link.

- General Education Program (p. 313)

Undergraduate students may participate in the Four-Year Graduation Plan, in which students agree to certain conditions that guide their study, and the University ensures availability of courses that students need in order to graduate in four years or provides remedies for delays in graduation due to lack of a course.

- Four-Year Graduation Plan (p. 15)

The Iowa Degree in Three is a new program that undergraduate students can choose so that they can complete their major in three years. There are five majors that now offer this accelerated program.

- Iowa Degree in Three (p. 14)
Undergraduate Majors and Pre-majors

The University of Iowa offers the following undergraduate majors, pre-majors, interest areas, and preparatory course work for selected degrees. Some majors offer Teacher Education Programs or the opportunity to earn a degree with teacher licensure, as indicated below. Each major links to the appropriate section of the 2015-16 General Catalog. Additional information about all majors is available on the Office of Admissions web site under Undergraduate Areas of Study.

Majors and Tracks

Accounting (p. 648) (B.B.A.)
Actuarial science (B.S.): see Statistics and Actuarial Science (p. 613)
African American studies (p. 28) (B.A.)
American studies (p. 44) (B.A.)
Ancient civilization (B.A.): see Classics (p. 149)
Ancient Mediterranean Religions
Egypt and the ancient Near East track
Anthropology (p. 55) (B.A., B.S.)
Anthropology for the health professions track (B.S.)
Cultural resource and heritage management specialization
Gender and culture specialization
Environmental anthropology specialization
Medical anthropology specialization
Teacher licensure
Applied physics (B.S.): see Physics and Astronomy (p. 507)
Art (B.A., B.F.A.): see Art and Art History (p. 74)
Ceramics concentration (B.F.A.)
Drawing concentration (B.F.A.)
Graphic design concentration (B.F.A.)
Intermedia concentration (B.F.A.)
Jewelry and metal arts concentration (B.F.A.)
Painting concentration (B.F.A.)
Photography concentration (B.F.A.)
Printmaking concentration (B.F.A.)
Sculpture concentration (B.F.A.)
Three-dimensional design concentration (B.F.A.)
Teacher licensure (B.A., B.F.A.)
Art history (B.A.): see Art and Art History (p. 74)
Teacher licensure
Asian languages and literature (B.A.): see Asian and Slavic Languages and Literatures (p. 100)
Chinese track
Hindi track
Japanese track
Sanskrit track
Teacher licensure
Astronomy (B.A., B.S.): see Physics and Astronomy (p. 507)
Athletic training (B.S.): see Health and Human Physiology (p. 349)
Bachelor of Applied Studies (p. 1192) (B.A.S.)
Creative writing emphasis
Human relations emphasis
Justice studies emphasis
Political science emphasis
Bachelor of Liberal Studies (p. 1195) (B.L.S.)
Global studies track
Health and human studies track
Organizational studies track
Biochemistry (p. 1021) (B.A., B.S.)
Biology (p. 119) (B.A., B.S.)
Cell and developmental biology track
Comprehensive biology track
Evolutionary biology track
Genetics and biotechnology track
Neurobiology track
Plant biology track
Teacher licensure
Biomedical engineering (p. 851) (B.S.E.)
Bioinformatics/computational biology track
Biomaterials track
Cardiovascular biomechanics track
Cellular engineering track
Musculoskeletal biomechanics track
Pre-medicine track
Biomedical sciences (p. 133) (B.S.)
Business administration (B.B.A.): see Business (p. 642)
Business analytics and information systems (B.B.A.): see Management Sciences (p. 687)
Chemical engineering (B.S.E.): see Chemical and Biochemical Engineering (p. 861)
Biochemical engineering track
Business track
Chemical process engineering track
Entrepreneurship track
Energy and environmental engineering track
Pharmaceuticals track
Polymers track
Pre-medicine track
Sustainability track
Chemistry (p. 135) (B.A., B.S.)
Teacher licensure
Cinema (B.A.): see Cinematic Arts (p. 143)
Civil engineering (B.S.E.): see Civil and Environmental Engineering (p. 871)
Civil subtrack
Environmental subtrack
Civil practice track (civil or environmental)
Environmental engineering track (environmental)
Hydraulics and water resources track (civil or environmental)
Management track (civil or environmental)
Structures, mechanics, and materials track (civil or environmental)
Transportation engineering track (civil or environmental)
Urban and regional planning track (civil or environmental)
Classical languages (B.A.): see Classics (p. 149)
Teacher licensure
Communication studies (p. 177) (B.A.)
Comparative literature (B.A.): see Comparative Literature (p. 193)
Literature and arts track
Undergraduate Majors and Pre-majors

World languages and literature track
Computer science (p. 198) (B.A., B.S.)
Dance (p. 215) (B.A., B.F.A.)
Economics (p. 664) (B.A., B.B.A., B.S.)
Analytical track
Business track
Policy track
Electrical engineering (B.S.E.): see Electrical and Computer Engineering (p. 884)
Computer track
Electrical track
Elementary education (p. 243) (B.A., B.S.)
Teacher licensure
Engineering (p. 831) (B.S.E.)
English (p. 244) (B.A.)
Creative writing track
Teacher licensure
Enterprise leadership (p. 273) (B.A.)
Environmental policy and planning (p. 275) (B.A., B.S.)
Planning track
Policy track
Environmental sciences (p. 278) (B.A., B.S.)
Biosciences track (B.S.)
Chemical sciences track (B.S.)
Geosciences track (B.S.)
Hydrosciences track (B.S.)
Ethics and public policy (p. 286) (B.A.)
Economics specialization
Philosophy specialization
Political science specialization
Sociology specialization
Student-designed specialization
Finance (p. 677) (B.B.A.)

Child life track
Inclusive recreation track

Pre-majors, Interest Areas, and Preparatory Course Work

For information about the following pre-majors, interest areas, and preparatory course work for selected degrees, see the Office of Admissions web site Undergraduate Areas of Study.

Actuarial science interest
Athletic training interest
Biomedical sciences interest
Dance interest
Elementary education interest
Medical laboratory science interest
Music interest
Nuclear medicine technology interest
Nursing interest
Pharmacy interest (preparatory course work for the Pharm.D.)
Pre-business (preparatory course work for the B.B.A.)
Pre-chiropractic
Pre-dentistry (preparatory course work for the D.D.S.)
Pre-law (preparatory course work for the J.D.)
Pre-medicine (preparatory course work for the M.D.)
Pre-mortuary science
Pre-occupational therapy
Pre-optometry
Pre-physical therapy (preparatory course work for the D.P.T.)
Pre-physician assistant (preparatory course work for the M.P.A.S.)
Pre-podiatry
Pre-R.N.-B.S.N. nursing
Pre-veterinary medicine
Radiation sciences interest
Social work interest
Therapeutic recreation child life interest
Therapeutic recreation inclusive recreation interest
Undergraduate Certificates

The University of Iowa offers a number of certificates for undergraduates, most in interdisciplinary areas. Colleges offering undergraduate certificates include the College of Liberal Arts and Sciences, the Tippie College of Business, the College of Engineering, the College of Public Health, and University College.

Certificate in Aging Studies (p. 34)
Certificate in American Indian and Native Studies (p. 37)
Certificate in American Sign Language and Deaf Studies: see American Sign Language (p. 41)
Certificate in Clinical and Translational Science (p. 1206)
Certificate in Critical Cultural Competence (p. 214)
Certificate in Disability Studies (p. 224)
Certificate in Entrepreneurial Management (p. 673)
Certificate in Event Planning (p. 289)
Certificate in Fundraising and Philanthropy Communication (p. 301)
Certificate in Global Health Studies (p. 343)
Certificate in Human Rights (p. 1003)
Certificate in International Business (p. 408)
Certificate in Large Data Analysis (p. 445)
Certificate in Latin American Studies (p. 446)
Certificate in Leadership Studies (p. 1216)
Certificate in Medieval Studies (p. 467)
Certificate in Museum Studies (p. 470)
Certificate in Nonprofit Management (p. 1228)
Certificate in Performing Arts Entrepreneurship (p. 498)
Certificate in Public Health (p. 1151)
Certificate in Risk Management and Insurance (p. 702)
Certificate in Social Science Analytics (p. 571)
Certificate in Sustainability (p. 1248)
Certificate in Technological Entrepreneurship (p. 914)
Certificate in Wind Energy (p. 915)
Certificate in Writing (p. 638)
Undergraduate Minors

Undergraduate minors are offered in numerous disciplines and interdisciplinary areas by the College of Liberal Arts and Sciences, the Tippie College of Business, the College of Education, and University College.

Aerospace studies (p. 1190)

General Education Program

All students entering the College of Liberal Arts and Sciences who wish to earn a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.) degree must complete the CLAS General Education Program in addition to the requirements of their major and other requirements for graduation.

Undergraduate degree programs in other colleges include General Education requirements, which often may be satisfied with certain courses approved for the CLAS General Education Program.

For detailed information about CLAS General Education requirements and lists of courses approved in the CLAS General Education areas, see General Education Program (p. 313) (College of Liberal Arts and Sciences).
Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the newly-implemented Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Five majors in the College of Liberal Arts and Sciences and one major in the Tippie College of Business are currently part of the Iowa Degree in Three program.

- College of Liberal Arts and Sciences:
  - Communication studies
  - English
  - History
  - International studies
  - Theatre arts

- Tippie College of Business:
  - Marketing
Four-Year Graduation Plan

Nearly all students who enter the University as first-year students are automatically eligible for the University's Four-Year Graduation Plan. Students who fulfill their responsibilities to the plan as outlined at the web site below have a commitment from the University of Iowa that they will be able to enroll in the courses they need to graduate in their primary major in four years.

Students wanting to stay on track for a four-year graduation need to work closely with their advisors to make sure they understand the requirements that must be met, as well as the appropriate sequences in which to take courses.

More information about the Four-Year Graduation Plan and about a student's responsibilities is located on the First-Year Experience web site.

The Plan does not apply to second majors, minors, or certificates. The following majors are not part of the Four-Year Graduation Plan:

- Computer Science
- Elementary Education
- Environmental Sciences
- Informatics
- Nuclear Medicine Technology
- Nursing (B.S.N. competitive admission students)
- Radiation Sciences
- Science Education

Although these departments do not participate in the program, with careful planning students still may be able to complete some of these programs in four years.
Graduate and Professional Study

The University of Iowa offers graduate and professional degree programs and graduate certificate programs in a broad array of disciplines and interdisciplinary areas of study. Eleven of the University's 12 colleges offers one or more master's degree programs, and most offer doctoral degree programs. Degree programs are presented by individual colleges, with most graduate degrees being conferred by the Graduate College.

The Graduate (p. 916) College section of the Catalog provides a list of most University of Iowa graduate degree programs as well as information about interdisciplinary graduate degree programs, joint degree programs, and certificate programs.

For information about graduate and professional degree and nondegree programs in specific disciplines and interdisciplinary areas, including graduation requirements and courses offered, see the appropriate General Catalog sections.

- Tippie College of Business (p. 642)
- College of Dentistry (p. 704)
- College of Education (p. 735)
- College of Engineering (p. 831)
- Graduate (p. 916) College
- College of Law (p. 969)
- College of Liberal Arts and Sciences (p. 24)
- College of Medicine (p. 1005)
- College of Nursing (p. 1110)
- College of Pharmacy (p. 1128)
- College of Public Health (p. 1143)

Prospective graduate and professional students should apply through the Office of Admissions.
Course Numbering

Course numbers at the University of Iowa consist of an alphabetical prefix (up to four letters) showing the college, department, or program, followed by a colon and a four-digit numerical suffix for the individual course. For example, SOC:2810 identifies the course numbered 2810 in the Department of Sociology (SOC), titled Social Inequality.

Course suffix numbers 0000-0999 designate prelower-level courses; numbers 1000-2999 designate lower-level undergraduate courses; numbers 3000-4999 designate courses for upper-level undergraduate and graduate students (except in the College of Engineering, where numbers 3000-5999 designate courses for undergraduate and graduate students); numbers 5000-7999 designate graduate-level courses; and numbers 8000-9999 designate professional-level courses.

Grading

The University uses a letter grading system for individual courses, except for the College of Law, which uses a numeric system for course grading. In order to compute grade-point average, letter grades are converted according to the following numerical scale. Grade-point averages are displayed at the bottom of students' grade reports. All of the following marks appear on the permanent record.

**Grade points for each semester hour:**

<table>
<thead>
<tr>
<th>Grade</th>

Supporting Offices

Prospective undergraduate, graduate, and professional students should apply to the University through the Office of Admissions. Several other University of Iowa offices provide major services to entering and continuing students.

Application for admission (undergraduate, graduate, and professional programs):
Office of Admissions
The University of Iowa
107 Calvin Hall
Iowa City, IA 52242-1396
Phone: 1-319-335-3847
E-mail: admissions@uiowa.edu
Web site, undergraduate admissions: http://admissions.uiowa.edu
Web site, graduate and professional admissions: http://grad.admissions.uiowa.edu

Registration, course offerings, tuition and fees, residency status, transcripts, verifications, general catalog, classroom scheduling, graduation analysis, degree audits, diplomas and certificates, GI Bill:
Office of the Registrar
The University of Iowa
1 Jessup Hall
Iowa City, IA 52242-1316
E-mail: registrar@uiowa.edu
Web site: http://www.registrar.uiowa.edu

Student housing information, application:
University Housing and Dining
The University of Iowa
8 Burge Hall
Iowa City, IA 52242-1214
Phone: 1-319-335-3000
E-mail: reshall-housing@uiowa.edu
Web site: http://housing.uiowa.edu

Scholarships, grants, loans, student employment:
Office of Student Financial Aid
The University of Iowa
208 Calvin Hall
Iowa City, IA 52242-1315
Phone: 1-319-335-1450
E-mail: financial-aid@uiowa.edu
Web site: http://financialaid.uiowa.edu

Equal opportunity/nondiscrimination:
Office of Equal Opportunity & Diversity
The University of Iowa
202 Jessup Hall
Iowa City, IA 52242-1316
Phone: 1-319-335-0705
E-mail: diversity@uiowa.edu
Web site: http://diversity.uiowa.edu/office/equal-opportunity-and-diversity
Colleges and Other Academic Units

The University of Iowa offers academic programs and courses through its 11 colleges, University College, and the Division of Continuing Education. For information on each unit, including its constituent departments, programs, and schools and its academic programs (degrees, certificates, minors), click on the following links. University courses are listed under the units that offer them.

- College of Liberal Arts and Sciences (p. 24)
- Tippie College of Business (p. 642)
- College of Dentistry (p. 704)
- College of Education (p. 735)
- College of Engineering (p. 831)
- Graduate College (p. 916)
- College of Law (p. 969)
- Carver College of Medicine (p. 1005)
- College of Nursing (p. 1110)
- College of Pharmacy (p. 1128)
- College of Public Health (p. 1143)
- University College (p. 1189)
- Division of Continuing Education (p. 1260)
College of Liberal Arts and Sciences

Dean
- Chaden Djalali

Associate dean for graduate and online education

Undergraduate majors: B.A.; B.S.; B.F.A.; B.L.S.; B.M.
Graduate degrees: programs leading to M.A.; M.S.; M.F.A.; Ph.D. (degrees conferred by Graduate College)
Web site: http://clas.uiowa.edu/

The College of Liberal Arts and Sciences (CLAS), established in 1900, is the largest of the 11 colleges that comprise the University of Iowa, with 39 departments spanning the visual, performing, and cinematic arts; humanities; natural and mathematical sciences; social and behavioral sciences; and communication disciplines.

More than 16,500 undergraduates are currently enrolled in the College, and more than 2,300 graduate students are enrolled in programs offered by CLAS departments. In any single year, the College awards about 70 percent of the University's undergraduate degrees, and 45 percent of the University's graduate degrees are awarded to students studying in CLAS departments.

CLAS students can choose from 64 undergraduate majors, 65 minors, and 15 interdisciplinary certificate programs. Students are encouraged to combine areas of study to create unique academic portfolios that help them to develop their talents and a breadth of knowledge.

About 56 percent of the College’s undergraduate students come from Iowa, representing all 99 counties. Fifty-six percent of CLAS students are female. About 1,900 international students study in CLAS—approximately 11 percent of the College's total enrollment—and almost 2,700 of these students (about 16 percent) identify as coming from U.S. minority populations. During the last decade, CLAS has awarded more than 28,000 undergraduate degrees; there are currently almost 140,000 living alumni of the College of Liberal Arts & Sciences, including more than 40,000 in Iowa.

The College has more than 650 tenured and tenure-track faculty members devoted to teaching, research, and service to their disciplines as well as to the University and to the state of Iowa. In fiscal year 2014, CLAS faculty garnered about $43.5 million in external research funding.

CLAS Web Site

The College of Liberal Arts and Sciences web site contains a wealth of information for students and faculty members.

The CLAS Office of Academic Programs & Student Development page is devoted to undergraduate students and their advisors. It provides information on academic policies and procedures, including requirements of the CLAS General Education Program (see Academic Policies Handbook). Information about scholarships, service opportunities, and upcoming deadlines also is available on this page and on the For Students pages.

The CLAS Departments and Divisions link provides a list of the college's departments, programs, and schools as well as its undergraduate majors, minors, and certificates.

Faculty members turn to the CLAS web site for information about teaching, curriculum, and resources for advising and instructing students. They also find updates on important CLAS committees as well as a link to the Dean's Office.

Office of Academic Programs & Student Development

Located in Schaeffer Hall, at the center of campus, the Office of Academic Programs & Student Development is an integral part of the College of Liberal Arts and Sciences. The office's staff, led by the associate dean for undergraduate programs and curriculum, welcomes students wishing to declare or change majors; file second-grade-only options; or petition to register late, add or drop a course late, or withdraw an entire registration after the established deadlines.

The office's staff members answer students' questions concerning academic requirements and programs of study. They meet with students about General Education Program requirements, graduation requirements, collegiate policies that affect students, and a range of other issues, including academic probation and dismissal and strategies for the successful completion of a degree.

Students in the College of Liberal Arts and Sciences may petition for exceptions to CLAS rules and requirements in the Office of Academic Programs & Student Development. Students may discuss their questions and the petition process first with an associate director in the office.

The office works closely with students on academic probation and counsels them on strategies for success. It conducts semiannual reviews of students on academic probation, handles dismissals from the college, and considers requests for reinstatement.

The Office of Academic Programs & Student Development also oversees appropriate disciplinary action for academic misconduct, such as plagiarism.

General Education Program

All students entering the College of Liberal Arts and Sciences who wish to earn a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.) degree must complete the requirements of the CLAS General Education Program in addition to the requirements of their major and other requirements for graduation.
The General Education Program requires students to explore topics outside of their chosen major, helping students to acquire the knowledge and transferable skills necessary for becoming well-educated individuals. During this exploration of General Education topics and courses, many students also discover intriguing majors, minors, and certificates that challenge them to embrace personal transformation and related goals.

The General Education requirements must be completed before graduation; most students complete the majority of these requirements during the first two years at Iowa, especially since General Education courses stress the transferable skills of critical thinking, writing, and speaking that help students to be more successful in their studies.

For General Education requirements, related academic policies, and lists of approved courses, see General Education Program (p. 313) in the Catalog.

CLAS Units and Academic Programs

Undergraduate Majors, Certificates, and Minors

The College of Liberal Arts and Sciences has 39 departments and offers 64 undergraduate majors, 65 minors, and 15 interdisciplinary certificate programs.

In addition, CLAS students may declare a number of majors offered by other undergraduate colleges at the UI, with the College of Liberal Arts and Sciences granting the degree. The Tippie College of Business offers a major in economics (B.A. and B.S.), and with the College of Liberal Arts and Sciences, sponsors a major in enterprise leadership (B.A.). The Carver College of Medicine offers majors in biochemistry (B.A. and B.S.) and in microbiology (B.S.); and the College of Education offers majors in elementary education (B.A. and B.S.) and in science education (B.S.). For descriptions of the above majors and their requirements, see "Majors Offered with Other Colleges" under "Index: Academic Programs" on this page.

The College of Education offers a Teacher Education Program leading to licensure at the secondary level for students who have completed certain CLAS majors, such as art, English, mathematics, the sciences, and world languages, and who wish to work with students in middle school or high school. Students must apply for admission to the Teacher Education Program; contact the College of Education's Office of Education Services.

Students who begin their study in the College of Liberal Arts and Sciences may apply to degree programs in other colleges at the University of Iowa. If they are accepted, they may earn undergraduate degrees in business (B.B.A.) or nursing (B.S.N.); a B.S. with a major in medical laboratory science, nuclear medicine technology, or radiation sciences; or a professional degree in pharmacy (Pharm.D.). Use the Catalog's A-Z Directory to link to these programs.

Students who are interested in earning a professional or graduate degree in addition to a bachelor's degree may apply to early admission or joint degree programs offered through partnerships between CLAS and other UI colleges. Students admitted to these programs may count a limited amount of credit toward both degrees. CLAS has early admission programs with the College of Dentistry (D.D.S. (p. 707)) and the College of Law (J.D. (p. 969)). Joint bachelor's/graduate degree programs are available in several disciplines; see "Joint Programs" in the Graduate (p. 916) section of the Catalog.

The College of Liberal Arts and Sciences offers a wide selection of undergraduate certificates and minors, including two certificates offered with other colleges: the Certificate in International Business (with the Tippie College of Business) and the Certificate in Wind Energy (with the College of Engineering). Find CLAS certificates and minors under "Index: Academic Programs" on this page.

CLAS students also may earn undergraduate certificates and minors offered by other colleges. The Tippie College of Business offers certificate programs in entrepreneurial management and in risk management and insurance, and a minor in business administration. The College of Public Health offers an undergraduate public health certificate, and University College offers certificate programs in clinical and translational science, human rights, leadership studies, nonprofit management, and sustainability. The College of Education offers minors in educational psychology and in human relations. For lists of all undergraduate certificates and minors offered by the University, see Certificates (p. 11) and Minors (p. 12) in the Academics at Iowa section of the Catalog.

Graduate Degrees and Certificates

The College of Liberal Arts and Sciences offers graduate programs in most of its disciplines, with degrees conferred by the Graduate College. Students may earn degrees at the master's and doctoral levels; graduate certificates are available in some areas of study. See the Graduate (p. 916) College section of the Catalog for a complete list of graduate degrees offered by the University.

For information about specific CLAS graduate programs, see the links under "Index: Academic Programs" on this page.

Nondepartmental Courses

Most College of Liberal Arts and Sciences courses are offered by the college's departments, programs, and schools. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" on this page.

The college also offers the following nondepartmental courses.

Lower-Level Undergraduate

CLAS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
CLAS:1001 CLAS Master Class  
1-3 s.h.
Exploration of a single topic in a series of lectures by faculty presenting divergent perspectives; illuminates intellectual adventure inherent in liberal arts and sciences; encourages discovery of majors and other areas of study within the College of Liberal Arts and Sciences. Same as RELS:1010, THTR:1001, CS:1001, CSD:1001, PHIL:1001, ENGL:1001, BIOL:1001, ARTS:1001.

CLAS:1050 Understanding U.S. Dialects  
1 s.h.
Introduction and overview of American English sound system; survey of major U.S. dialects; analysis of social and political issues related to dialects. Same as ESL:1050.

CLAS:1150 Introduction to the U.S. Constitution  
1 s.h.
Origin and analysis of the U.S. Constitution; current constitutional questions and related issues. Same as ESL:1150.

CLAS:1220 Exploring Cultural Values Through the Arts  
1 s.h.
Survey of major world cultures; analysis of artistic works; relationship between art and culture and its significance. Same as ESL:1200.

CLAS:1250 Presentation Skills for Academic Success  
1 s.h.
Organization and coherence of materials; intelligibility of speech and clarity of expression; active participation and practice in recorded presentations; for students whose first language is not English. Same as ESL:1250.

CLAS:1350 Exploring the Civil Rights Movement Through the Arts  
1 s.h.
How art reflects or influences society; history of Civil Rights Movement in mid-20th century and the many ways it has been documented; focus of authors, poets, and musicians on inequality in first half of century; playwrights and filmmakers contribution to change and continued documentation of era after legislation was passed in mid-1960s; examination of various media, discussions, presentations, writing. Same as ESL:1300.

CLAS:1600 Life Design: Building Your Future  
1 s.h.
How interests and talents can be paired up to achieve a fulfilling life; what students are passionate about; address questions (i.e., How can you identify what you’re good at? How can you build a life of purpose and meaning? How can you cultivate mentors? What is the relationship between ambition, drive, and success? What major might be the best fit and how can University resources help your academic and personal success?); portfolio of reflective exercises, activities, journal assignments.

CLAS:1700 Got CLAS? Blending College of Liberal Arts and Sciences Majors with Your Passions  
1 s.h.
Process of choosing a major; focus on strengths, discover passions, and dream of possibilities while cultivating an active, complementary university experience; develop mentoring relationships with faculty, voice fears about choosing a major and career, take risks in revising and expanding life and career expectations; introduction to majors within the College of Liberal Arts and Sciences (CLAS): assessments to define strengths and interests, reflection of experiences. Recommendations: first-year undergraduate standing and College of Liberal Arts and Sciences open major.

Upper-Level Undergraduate and Graduate

CLAS:3111 Reimagining Downtown  
3 s.h.
Interdisciplinary perspective; assist upper-level undergraduates apply their education and creativity toward a specific initiative, the Downtown Project, located in the Fremont East and Arts District areas of Las Vegas, Nevada. Requirements: junior or senior standing and admission by application.

CLAS:3200 International Perspectives: Xicotepec  
1-3 s.h.
Interdisciplinary service-learning course; Mexican culture and history through community-based service project, assigned readings, and discussion; includes a required spring break trip to Mexico. Same as SOC:3200.

CLAS:4100 Peer Mentoring  
1-2 s.h.
Opportunities to participate in classroom and course activities as mentors for other students.

CLAS:4200 Undergraduate Internship  
arr.
Professional and/or creative experience for writing certificate students; students must arrange an on- or off-campus internship with faculty advisor approval. Requirements: undergraduate standing and a minimum of 24 s.h. of course work with at least 12 s.h. in University of Iowa courses.

Graduate

CLAS:5100 Practicum: College Teaching and Professional Development for Teaching Assistants  
arr.
Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborative learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation.

African American Studies

Chair
• Horace Porter

Undergraduate major: African American studies (B.A.)
Undergraduate minor: African American studies
Graduate degree: M.A. in African American world studies
Faculty: http://clas.uiowa.edu/afam/people/faculty
Web site: http://clas.uiowa.edu/afam/

African American studies focuses on the study of people of African descent in the United States and the African diaspora. The African American Studies Program originated in 1969 through courses intended to foster awareness of African Americans' role in the development of the United States and the world. Because a thorough understanding of the African American experience cannot be achieved through study restricted to the perspective of a single discipline, all students are required to pursue courses in the humanities, social sciences, and performing arts.

The African American Studies Program draws upon faculty from American studies; communication studies; education; English; gender, women's, and sexuality studies; health and human physiology; history; journalism and mass communication; religious studies; rhetoric; sociology; sport studies; and theatre arts.

Undergraduate Programs of Study
• Major in African American studies (Bachelor of Arts)
• Minor in African American studies

Bachelor of Arts

The Bachelor of Arts with a major in African American studies requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Transfer credit is evaluated individually and is limited to a maximum of 9 s.h.

INTRODUCTORY COURSES

Students are required to complete the following introductory courses.

AFAM:1020/AMST:1030 Introduction to African American Culture 3 s.h.
AFAM:1030 Introduction to African American Society 3 s.h.

Introduction to African American Culture [AFAM:1020] presents themes in African American cultural studies. It includes readings in literature, music, film studies, religious studies, and the visual and performing arts.

Introduction to African American Society [AFAM:1030] examines the construction of social and historical institutions in the United States and the African diaspora (e.g., Black church, Black family, gender, sexuality). The course may include readings in political science, religion, history, sociology, geography, anthropology, and other disciplines.

AFRICAN AMERICAN STUDIES CORE

In addition to the two required introductory courses, all students must complete at least two courses from each of the three topical areas below (minimum of 18 s.h.). Additional courses may be approved for the topical areas; consult with an African American studies advisor.

History, Religion, and the Diaspora
Two of these:
AFAM:1250/RELS:1350 Introduction to African American Religions 3 s.h.
AFAM:2265/HIST:2265 Introduction to African American History 3 s.h.
AFAM:2730/RELS:2730 African American Islam 3 s.h.
AFAM:3245/RELS:3745 Twentieth-Century African American Religion: Civil Rights to Hip-Hop 3 s.h.
AFAM:3555/ENGL:3555 Topics in African American Cinema 3 s.h.
AFAM:3900 Topics in African American Studies (when topic is history, religion, or the diaspora) arr.
AFAM:4195/HIST:4295 African American History 1619-1865 3 s.h.
AFAM:4275/HIST:4275 African American History 1865-Present 3-4 s.h.
AFAM:4298/HIST:4296 African American History 1865-Present 3 s.h.
AFAM:4310/HIST:4710 Pre-Colonial African History 3 s.h.
AFAM:4715/HIST:4715 African American History Since 1880 3 s.h.
EPLS:5126 Twentieth-Century Educational Movements 2-3 s.h.

Literature and Performing Arts
Two of these:
AFAM:1240 The Art of Listening to Jazz 3 s.h.
AFAM:1241 The Soundtrack of Black America 3 s.h.
AFAM:1820 Everybody is a Star: Black Celebrity Since 1968 3 s.h.
AFAM:1830 Music of the African American Diaspora 3 s.h.
AFAM:1830 Music of the African American Diaspora 3 s.h.
AFAM:2014 Giants of Jazz: Miles, Trane, and Duke 3 s.h.
AFAM:2465/ENGL:2465 Selected African American Authors 3 s.h.
AFAM:2781/ENGL:2460 Black Literature and Politics: Controversies of National Allegiance 3 s.h.
AFAM:3459/ENGL:3459 African American Literature Before 1900 3 s.h.
AFAM:3460/ENGL:3460 African American Literature After 1900 3 s.h.
AFAM:3462/THTR:3462 African American Drama 3 s.h.
AFAM:3465/ENGL:3465 African American Autobiography 3 s.h.
AFAM:3710/GWSS:3710 African American Women Writers 3 s.h.
Courses in the major are those required to complete the Four-Year Graduation Plan. Students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. The following checkpoints list the minimum requirements:

**World Languages Requirement**
- Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement. AFAM:3900 Topics in African American Studies (when topic is literature or performing arts) arr.
- AFAM:4710/ENGL:4410 Midwest African American Literature and Culture 3 s.h.

**General Education Program**
- Students are required of the College of Liberal Arts and Sciences studies major is the same as the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313). Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement.

**Media, Politics, and Social Institutions**
Two of these:
- AFAM:2064/SOC:2064 Racial Inequity and the Experiences of African American Families in the U.S. 3 s.h.
- AFAM:2070/COMM:2069 Black TV Drama: The Wire 3 s.h.
- AFAM:2076/COMM:2076 Race, Ethnicity, and Media 3 s.h.
- AFAM:2079/SPST:2079 Race and Ethnicity in Sport 3 s.h.
- AFAM:3053/AMST:3053 The Civil Rights Movement 3 s.h.
- AFAM:3130 Black American Cinema 3 s.h.
- AFAM:3400/AMST:3400 Black Popular Music 3 s.h.
- AFAM:3500/RELS:3808 Malcolm X, King, and Human Rights 3 s.h.
- AFAM:3900 Topics in African American Studies (when topic is media, politics, or social institutions) arr.
- AFAM:3925/JMC:3165 African Americans and the Media 3 s.h.
- AFAM:4001/COMM:4172 Television and African American Culture 3 s.h.

**ELECTIVES**
Students also must take two elective courses (minimum of 6 s.h.) selected from the three topical areas listed above. With the approval of an African American studies advisor, students may substitute relevant courses offered by other departments for one or both electives; the substituted courses may not be cross-listed with African American studies. Students must gain the advisor's approval before enrolling in a substitute course.

Two electives selected from the three topical areas above, or approved substitutes 6 s.h.

**LANGUAGE REQUIREMENT**
The language requirement for the African American studies major is the same as the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313). Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement.

**Four-Year Graduation Plan**
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

During the first year of study, students should focus on completing the General Education Program, perhaps including Swahili or Spanish course work to begin satisfying the World Languages requirement.

**Before the fifth semester begins:** at least three courses in the major, including AFAM:1020 Introduction to African American Culture and AFAM:1030 Introduction to African American Society

**Before the seventh semester begins:** at least seven courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least nine courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**
Honors in the African American studies major offers students the opportunity to pursue special interests and individual in-depth research. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and complete all required course work for the major (30 s.h.). Those who wish to graduate with honors in the African American studies major should register for up to 6 s.h. of AFAM:4990 Honors Project. Work in this course enhances the student's ability to complete honors projects under the guidance of the supervising faculty member. Students enroll in AFAM:4990 with the approval of their African American studies advisor, who typically supervises the course. They may count up to 6 s.h. earned in AFAM:4990 toward the 30 s.h. required for the major.

Under the guidance of the African American studies advisor, an honors student defines a research project (thesis) using primary, secondary, or archival sources. Students submit a project proposal by the end of their junior year. They also complete a thesis under the guidance of a supervising faculty member and present the results as a senior essay to a committee of two faculty members, including the supervising African American studies faculty member and one other African American studies faculty member, chosen in consultation with the supervisor. A student's committee may choose to hear an oral defense of the honors thesis, usually during the student's last semester.

Honors students in African American studies must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

**Minor**
The minor in African American studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Course work completed for another major...
or minor may not be counted toward the minor in African American studies.

The minor must include the following course work.

African American studies core—all of these (9 s.h.), with at least two courses taken at the University of Iowa:

One course listed under "History, Religion, and the Diaspora" above
One course listed under "Literature and Performing Arts" above
One course listed under "Media, Politics, and Social Institutions" above

Graduate Program of Study

- Master of Arts in African American world studies
African American studies is not accepting graduate students in 2015-16.

Graduate Seminar

Graduate students from a range of disciplines in the College of Liberal Arts and Sciences are encouraged to participate in the program's interdisciplinary graduate seminar, which is dedicated to advanced readings, scholarly books, and articles in African American studies.

Cocurricular Activities

Afro-American Cultural Center

African American studies encourages students to use facilities of the Afro-American Cultural Center. The center serves as a museum and library of educational and cultural artifacts and exhibits of African American culture, providing cultural enrichment for the Iowa City community and promoting diversity among all members of the University community. It also provides a cultural meeting place for African American students.

African American Studies Student Association

The African American Studies Student Association aims to promote knowledge about people of African descent by sponsoring programs on various topics. Any University of Iowa student interested in African American studies is eligible to become a member.

Graduate Student Mentoring and Advising

African American studies sponsors several intellectual and social gatherings for graduate students across disciplines. During these events, students connect with others interested in African Americans studies and receive advice about becoming faculty members and being productive members of the academic profession.

Seminar and Lecture Series

The African American Studies Seminar Series and the Darwin Turner Lecture bring important scholars and creative artists to the University of Iowa campus. Guests of the lecture and seminar series have included Amiri Baraka, Michelle Wallace, and Valerie Smith.

The New Research in African American Studies lecture series, sponsored by the College of Liberal Arts and Sciences, focuses on research by faculty in the African American Studies Program.

</tbody>
</table>
How shifts in social access after 1968 meant that renowned blacks no longer automatically saw themselves as freedom fighters; effects of change shown in Michael Jackson's career, Barack Obama's election, and fame of Beyoncé, Lil' Wayne, and Oprah; analysis of black celebrity from 1968 to 2012 with focus on Muhammad Ali, Dianna Ross, Whitney Houston, Denzel Washington, Michael Jordon, Stevie Wonder, T.D. Jakes, Condoleezza Rice, Jay Z, LeBron James; black celebrity influence on post-civil rights understandings of gender, class, sexuality, politics; biographies, cultural criticism, music videos, movies, documents.

**AFAM:1830 Music of the African American Diaspora**  
3 s.h.

History and characteristics of music styles emerging from African American culture from time of slavery to present; beginning with Negro spiritual, exploration of origins and musical anatomy of relevant music styles (blues, gospel, jazz, rhythm and blues, funk); ubiquitous role music plays in civil, cultural, and political unrest amongst African American community throughout 20th century.

**AFAM:2014 Giants of Jazz: Miles, Trane, and Duke**  
3 s.h.

Miles Davis, John Coltrane and Duke Ellington as figureheads of the Jazz music style; how they changed the trajectory of modern music along with sidemen (B. Strayhorn and H. Hancock); Ellington's resolute defiance of stereotypical views of African Americans; Miles' brazen protests against civil injustices; how these icons are much more than mere musicians; cultural impact of landmark albums including "Kind of Blue," "A Love Supreme," and "The Birth of the Cool"; focus on their life, music and sociopolitical impact. Same as MUS:2014.

**AFAM:2055 The Look of Blackness: African American Literature and Visual Art**  
3 s.h.

Examination of African American literature over a 200-year span; how preoccupation with blackness as a visual marker of difference impacts formation of written works; how black writers wield, emphasize, and manipulate visuality; blackness foregrounded as if literary texts operate in league with, or in defiance of, visual images circulating throughout American culture, from late 18th-century poetry to mid 20th-century novels; primary texts placed alongside high art and popular visual forms of distinct historical moments to explore how black American writers deploy visual art forms in narrative conceptions of black identity. Same as ENGL:2462.

**AFAM:2064 Racial Inequity and the Experiences of African American Families in the U.S.**  
3 s.h.

Racial inequality and experiences of African American families in the U.S. during 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. Same as SOC:2064.

**AFAM:2070 Black TV Drama: The Wire**  
3 s.h.

Social and political impact of television dramas featuring people of African descent in the West; HBO's The Wire series—a social commentary, commercial, and aesthetic force—has pioneered new ways of thinking about the relationship between media and society at large while revolutionizing ways in which black urban life is portrayed in today's world; focus on complex intersections between urban poverty, education, and political system, crime, mediation in Western society. Same as COMM:2069.

**AFAM:2076 Race, Ethnicity, and Media**  
3 s.h.

Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as COMM:2076.

**AFAM:2079 Race and Ethnicity in Sport**  
3 s.h.

Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as SPST:2079.

**AFAM:2265 Introduction to African American History**  
3 s.h.

GE: Values, Society, and Diversity. Same as HIST:2265.

**AFAM:2465 Selected African American Authors**  
3 s.h.

English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:2465.

**AFAM:2730 African American Islam**  
3 s.h.

Same as RELS:2730.

**AFAM:2781 Black Literature and Politics: Controversies of National Allegiance**  
3 s.h.

Black literature born amid political controversy, from slave narratives to award-winning texts of late 20th century; evolving politics of African American writers; changing political landscape of this expansive period and representative literature; how African American writers shape U.S. political debate; surprising politics of many canonical African American writers. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:2460, POLI:2107.

**Upper-Level Undergraduate and Graduate**

**AFAM:3053 The Civil Rights Movement**  
3 s.h.

History of the American civil rights movement. Same as AMST:3053.
AFAM:3130 Black American Cinema 3 s.h.
Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, Blaxploitation, the Black Renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip-hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptions of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AMST:3130.

AFAM:3245 Twentieth-Century African American Religion: Civil Rights to Hip-Hop 3 s.h.
Twentieth-century African American religious history; major political and cultural movements, such as civil rights, black power, black feminism/womanism, hip-hop. Same as RELS:3745.

AFAM:3400 Black Popular Music 3 s.h.
History and expressive culture of people of African descent living in America through popular music forms; historical time span between the 17th and 21st centuries; poetry, music, cultural analysis, film, and art as sources for the study of Black music; genres covered include spirituals and gospel, blues, jazz, rock, rhythm and blues, Afropunk, alternative and neo soul, and hip-hop. Recommendations: AFAM:1020 and AMST:1030. Same as AMST:3400.

AFAM:3459 African American Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. Same as ENGL:3459.

AFAM:3460 African American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3460.

AFAM:3462 African American Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:3462, THTR:3462.

AFAM:3465 African American Autobiography 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3465.

AFAM:3500 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as RELS:3808.

AFAM:3550 African Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3550.

AFAM:3555 Topics in African Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3555.

AFAM:3710 African American Women Writers 3 s.h.
Introduction to major African American women authors of the 19th, 20th, and 21st centuries; major debates of black feminist literary scholarship; analyze African American literary representations by reading novels, poetry, short stories, plays, relevant historical and critical texts. GE: Values, Society, and Diversity. Same as GWSS:3710.

AFAM:3810 African American Theatre I 3 s.h.
Works by African American playwrights and relevant historical documents, Africa through Black Renaissance; themes, history, sociopolitical context; artists forging theatrical paths under oppressive conditions; exploration through discussion, performance; literature-based course, workshop approach. Same as THTR:3410.

AFAM:3811 African American Theatre II 3 s.h.
Works by African American playwrights and relevant historical documents, Black Renaissance to present; themes, history, sociopolitical context; artists forging theatrical paths under oppressive conditions; exploration through discussion, performance; literature-based course, workshop approach. Same as THTR:3411.

AFAM:3840 Free-Style Writing: Poetry, Plays, and Performances 3 s.h.
Creative writing lab experience in reading, writing, and performing poetry and short plays; expansion of students' horizons of the self; arc of innovation in African American literature from Harlem Renaissance to present, with texts from Langston Hughes and Zora Neale Hurston to Saul Williams and Jill Scott; role of the artist in society and as outsider and insider; shifting perspectives on race, gender, class; musical influences and models, from blues to house music; sensuality, spirituality; artistic reflections on the cultural moment; effects of these on literary form and performance style; students create and perform a work for an audience. Same as THTR:3403.

AFAM:3900 Topics in African American Studies arr.
Different topic each semester.

Aging Studies

Chair, School of Social Work
• Sara Sanders

Coordinator, Aging Studies
• Mercedes Bern-Klug

Undergraduate minor: aging studies
Undergraduate certificate: aging studies
Graduate certificate: aging studies
Faculty: http://clas.uiowa.edu/socialwork/undergraduate-program/aging-studies-program/aging-studies-curriculum-advisory-board
Web site: http://clas.uiowa.edu/socialwork/undergraduate-program/aging-studies-program/certificate-aging-studies

The Aging Studies Program offers undergraduate and graduate programs and a selection of courses open to students in all majors.

Undergraduate students in the College of Liberal Arts and Sciences who would like to focus on aging studies as their major or as a second major should consider the individualized plan of study track offered by the Interdepartmental Studies Program. See Interdepartmental Studies (p. 396) in the Catalog.

The Aging Studies Program is administered by the School of Social Work (p. 572).

Undergraduate and Graduate Programs of Study

• Certificate in Aging Studies (undergraduate and graduate)
• Minor in aging studies (undergraduate)

The College of Liberal Arts and Sciences grants the undergraduate certificate and minor; the Graduate College confers the graduate certificate.

Certificate

The Certificate in Aging Studies requires 21 s.h. of credit. The undergraduate certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Undergraduate students must maintain a g.p.a. of at least 2.00 in work for the certificate. Undergraduate students may earn the undergraduate certificate or the minor in aging studies, but not both. The graduate certificate program is open to University of Iowa graduate students with aging-related career interests and needs. Graduate students must maintain a g.p.a. of at least 2.50 in work for the certificate.

The Certificate in Aging Studies takes a multidisciplinary approach to gerontology. Its course work has been coordinated and sequenced to provide a broad background in aging for students from varied disciplines. Students should talk with the Aging Studies Program coordinator about their intent to earn the certificate. They work with their academic advisors and the coordinator to develop an individual plan of study that complements their degree program and career interests.

The certificate's required 21 s.h. of credit must be earned in Aging Studies Program courses (prefix ASP) and other courses approved for the program. With permission from the Aging Studies Program coordinator, students also may be able to use other aging-related courses for the certificate. Students must earn at least 18 s.h. of certificate credit in courses numbered 3000 or above, and they must earn at least 15 s.h. toward the certificate at the University of Iowa.

Certificate requirements include a core curriculum of six courses and an additional 5 s.h. of elective course work from the list of approved aging-related courses. Students may take core courses before or concurrently with other courses in the program, but they should complete the core courses before they enroll in the internship and internship seminar. Students who complete an aging-related internship or practicum in their major field may be able to count that experience as their Aging Studies Program internship; consult with the Aging Studies Program coordinator. Transfer credit requests are evaluated individually by the Aging Studies Program coordinator.

The Certificate in Aging Studies requires the following course work.

CORE COURSES

All certificate students must complete the following six core courses. Graduate students should contact the Aging Studies Program coordinator about an independent study option for ASP:3900 Independent Study in Gerontology.

One of these—graduate students must choose ASP:3135:

- ASP:2181 The Anthropology of Aging 3 s.h.
- ASP:3135 Global Aging 3 s.h.

One of these—graduate students must choose ASP:3900:

- ASP:3900 Independent Study in Gerontology arr.

All of these:

- ASP:3150 Psychology of Aging 3 s.h.
- ASP:3160 Biology of Aging 3 s.h.
- ASP:4189 Aging Studies Internship Seminar 1 s.h.
- ASP:4190/SSW:4190 Aging Studies Internship 3 s.h.

ELECTIVES

Students must complete an additional 5 s.h. of electives selected from courses offered by the Aging Studies Program (prefix ASP) and/or from approved aging-related courses offered by other academic units. Practicum and/or research courses offered by other academic units may be accepted for elective credit if they focus on aging; students who wish to apply course work from other departments should consult the Aging Studies Program.

Minor

Undergraduate students in the Colleges of Liberal Arts and Sciences, Education, Engineering, Nursing, and the Tippie College of Business may earn the minor in aging studies. Students must have the approval of their college or major department in order to earn the minor.

Students may earn the minor or the undergraduate certificate in aging studies, but not both.
The minor in aging studies requires a minimum of 15 s.h. in aging-related course work, including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The minor must include ASP:1800 Basic Aspects of Aging. Students earning the minor may not enroll in ASP:4190 Aging Studies Internship. Courses for the minor must be approved by the Aging Studies Program.

Courses

Lower-Level Undergraduate

**ASP:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**ASP:1800 Basic Aspects of Aging** 3 s.h.

**ASP:2000 Creativity for a Lifetime** 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; integration of teamwork and opportunities for individual growth that allow for personal development; identification of ways for students to be more creative in their own lives and work. Same as ARTS:2000, RHET:2000, EDTL:2000.

**ASP:2181 The Anthropology of Aging** 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, GHS:2181.

Upper-Level Undergraduate and Graduate

**ASP:3135 Global Aging** 3 s.h.
Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as SSW:3135, GHS:3050.

**ASP:3150 Psychology of Aging** 3 s.h.
The later years of human life viewed from perspectives of developmental psychology, biology, sociology.

**ASP:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, GHS:3151.

**ASP:3152 Anthropology of Caregiving and Health** 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, GHS:3152.

**ASP:3160 Biology of Aging** 3 s.h.
Biogerontology; definition of aging and senescence, biological theories of aging, demographics, model systems foraging, premature aging syndromes, aging of organ systems in humans.

**ASP:3501 Introduction to Nursing Homes** 3 s.h.
Overview of nursing home roles in context of long-term care system, characteristics of nursing home residents. Same as SSW:3501.

**ASP:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice** 3 s.h.
Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Requirements: satisfactory completion of General Education rhetoric requirement. Same as RHET:3610, GWSS:3610.

**ASP:3740 End-of-Life Care for Adults and Families** 2-4 s.h.

**ASP:3753 Programs and Services for Aging Adults** 3 s.h.
Major gerontological programs and services, practitioners' need for basic aging-practice competence; aging network; income, employment, health maintenance programs; continuum of care (preventive and well-elderly services, in-home services, community-based services, institutional care); assessment; major elder health issues, informal care; end-of-life care. Same as SSW:3753.

**ASP:3785 Social Policy and the Elderly** 3 s.h.
Public social policies, their affect on well-being of elderly, including women and minorities; U.S. and other nations' policies. Prerequisites: SSW:4843. Requirements: an introductory course on aging and junior or higher standing. Same as SSW:3785.

**ASP:3786 Death/Dying: Issues Across the Life Span** 3-4 s.h.
Introduction to death and dying; historical, cultural, societal, personal perspectives. Same as SSW:3786.

**ASP:3900 Independent Study in Gerontology**
Individual projects and/or research.
ASP:3920 Service Learning in Aging Studies 1-3 s.h.
Experiential learning in settings with older adults. Corequisites: ASP:1800, if not taken as a prerequisite.

ASP:4165 Communication Disorders and Aging 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Offered spring semesters of even years. Same as CSD:4165.

ASP:4189 Aging Studies Internship Seminar 1 s.h.

ASP:4190 Aging Studies Internship 3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults. Same as SSW:4190.

Graduate

ASP:5219 Aging and the Family 2-3 s.h.
Research related to aging and the family; intergenerational relations, marital status in later life, diversity of older families, caregiving, elder abuse, policy issues. Same as SSW:5219.

ASP:5401 The Care of the Frail Elderly 3 s.h.
Clinical management of the elderly; emphasis on economic considerations, principles of gerontological care, common syndromes, ethical issues; clinical application experience in a long-term care setting. Prerequisites: NURS:5029. Same as NURS:5401.

ASP:5750 Medicare and Medicaid Policy 3 s.h.
Health policies most pertinent to Americans over age of 65. Same as HMP:5750.

ASP:7400 State of the Science in Biobehavioral Research on Aging 3 s.h.
Analysis and evaluation of science in biobehavioral aging research; overview of aging research and interdisciplinary contributions; biobehavioral phenomena pertinent to aging populations; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, measurement studies; ethical and methodological issues, context of care; identification of literature gaps and future research agendas that promote successful aging. Requirements: for NURS:7400 — doctoral standing; for ASP:7400 — Ph.D. enrollment. Recommendations: knowledge of pathophysiology, research design, and statistics. Same as NURS:7400.

ASP:7401 State of the Science in Geriatric Mental Health Research 3 s.h.
Analysis and evaluation of science in geriatric mental health research in nursing and other disciplines; cognitive and affective function, substance abuse, and caregiver health/support; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, and measurement studies; review and analysis of program evaluation and services research, emphasis on ethical and methodological issues; identification of literature gaps and future research agendas that promote successful aging. Requirements: for NURS:7401 — doctoral standing; for ASP:7401 — Ph.D. enrollment. Recommendations: knowledge of psychopathology, research design, and statistics. Same as NURS:7401.

ASP:8355 Introduction to Geriatric Dentistry 2 s.h.
Biological, psychological, and social aspects of aging; normal aging and disease processes associated with aging; pathological changes that affect oral health treatment of dental diseases and patient management. Requirements: D.D.S. enrollment or completion of dental hygiene program. Same as DENT:8355.
American Indian and Native Studies

**Director**
- Horace Porter

**Coordinators**
- Erica Prussing, Jacki Rand

**Undergraduate minor:** American Indian and native studies  
**Undergraduate certificate:** American Indian and native studies  
**Graduate certificate:** American Indian and native studies

**Faculty:** [http://www.uiowa.edu/~ainsp/faculty/](http://www.uiowa.edu/~ainsp/faculty/)  
**Web site:** [http://www.uiowa.edu/~ainsp/](http://www.uiowa.edu/~ainsp/)

The American Indian and Native Studies Program (AINSP) is an interdisciplinary program that focuses on the histories, cultures, literatures, and contemporary legal and political issues of Native North Americans and other indigenous peoples of the Americas.

Students taking AINSP courses begin to understand historical and contemporary social issues among indigenous peoples of the Americas, within the international and global context of settler colonialism and its legacies. Courses provide students with a better understanding of ethnics, social, and political diversity. The curriculum increasingly enables students to encounter innovative teaching methods that cross conventional disciplinary boundaries, that involve visiting and learning more about regional Native American communities in Iowa and the Midwest, and that focus on communicating knowledge to audiences both within and beyond the classroom. Students thereby gain expertise for employment in advocacy, social services, health care, education, and other areas that require cross-cultural understanding and communication with diverse public audiences. Students also gain a background for more specialized or advanced study in a variety of disciplines, including anthropology, economics, education, ethnic studies, geography, history, political science, psychology, and religious studies.

A certificate in AINSP also complements preprofessional and professional training in areas such as health care, business, social work, and law.

The American Indian and Native Studies Program is administered by the Department of American Studies (p. 44).

**Undergraduate Programs of Study**
- Certificate in American Indian and Native Studies  
- Minor in American Indian and native studies

The College of Liberal Arts and Sciences grants the undergraduate certificate and minor.

**Certificate**

The undergraduate Certificate in American Indian and Native Studies requires a minimum of 21 s.h. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

A student may earn the certificate or the minor in American Indian and native studies, but not both.

Students plan their programs in close cooperation with AINSP faculty advisors. Students may count a maximum of 6 s.h. of course work from their major toward the AINSP undergraduate certificate. Courses applied toward the AINSP certificate also may be used to complete the General Education Program (p. 313) or the requirements for a major or a minor.

The AINSP undergraduate certificate requires the following course work.

- All of these:
  - AINS:1049 Introduction to American Indian and Native Studies 3 s.h.
  - AINS:3002 Introduction to American Indian History and Policy 3 s.h.
  - AINS:3441 Native American Literature 3 s.h.
- At least 3 s.h. from these:
  - AINS:2165 Native Peoples of North America 3 s.h.
  - AINS:3276 American Indian Environmentalism 3 s.h.
  - AINS:4000 Special Topics: American Indian and Native Studies arr.
  - AINS:4095 Directed Cultural Experience arr.
  - AINS:4990 Independent Study arr.
- And:
  - Electives chosen from the "Associated Courses" and "Courses" lists below 9 s.h.

**Minor**

The minor in American Indian and native studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 6 s.h. of course work from a major toward the AINSP minor.

A student may earn the minor or the certificate in American Indian and native studies, but not both.

The minor includes the following course work.

- AINS:1049 Introduction to American Indian and Native Studies 3 s.h.
- One of these:
  - AINS:3002 Introduction to American Indian History and Policy 3 s.h.
  - AINS:3441 Native American Literature 3 s.h.
- At least 3 s.h. from these:
  - AINS:2165 Native Peoples of North America 3 s.h.
  - AINS:3276 American Indian Environmentalism 3 s.h.
  - AINS:4000 Special Topics: American Indian and Native Studies arr.
AINS:4095 Directed Cultural Experience  arr.
AINS:4990 Independent Study  arr.
And:
Electives numbered 2000 or above chosen 6 s.h.
from the "Associated Courses" and "Courses" lists below

**Cultural Experience**
The program highly recommends that students have an in-depth American Indian cultural experience, usually through study or volunteer work, before they complete their undergraduate requirements. Consult AINSP faculty advisors about available options for AINS:4095 Directed Cultural Experience.

**Graduate Program of Study**
- Certificate in American Indian and Native Studies
  The Graduate College confers the graduate certificate.

**Certificate**
The graduate Certificate in American Indian and Native Studies requires a minimum of 20 s.h. in courses approved for AINSP and numbered 3000 or above (see "Associated Courses" and "Courses" below). Graduate students must maintain a g.p.a. of at least 3.00 in work toward the certificate. They may count a maximum of 6 s.h. of course work from their major field of study toward the AINSP graduate certificate.

Graduate students must apply to the academic coordinator to be admitted to the AINSP graduate certificate program. Students who earned an undergraduate certificate in the program may not receive a graduate certificate.

The AINSP graduate certificate requires the following course work.

- AINS:3002 Introduction to American Indian History and Policy 3 s.h.
- AINS:6099 Independent Study Project 2 s.h.
- Electives numbered 3000 or above chosen 15 s.h.
  from the "Associated Courses" and "Courses" lists below

**Associated Courses**
AINS accepts the following courses as electives. Although these courses are not offered by AINSP, they are concerned in part with Native North Americans or other indigenous peoples of the Americas. Students may petition the AINSP faculty for permission to use other relevant courses as electives for the undergraduate or graduate certificate or the minor.

For course descriptions, see the appropriate department sections of the Catalog.

**ANTHROPOLOGY**
- ANTH:2220 Archaeology of Mesoamerica 3 s.h.
- ANTH:3265 Archaeology of the Great Plains 3 s.h.

**ART AND ART HISTORY**
- ARTH:1095 American Indian Art 3 s.h.
- ARTH:3120 The Art of Ancient Mexico 3 s.h.
- ARTH:3990 Topics in Art History (when content is appropriate) 3 s.h.

**EDUCATION**
- EPLS:5123 History of Ethnic/Minority Education 3 s.h.

**ENGLISH**
- ENGL:2410 Selected American Authors After 1900 (when content is appropriate) 2-3 s.h.
- ENGL:3418 Literature and Culture of America Before 1800 3 s.h.
- ENGL:3419 Literature and Culture of Nineteenth-Century America 3 s.h.
- ENGL:3444 Literatures of the American Peoples 3 s.h.

**HISTORY**
- HIST:4220 The Frontier in American History to 1840 3 s.h.
- HIST:4221 The Frontier in American History 1840-Present 3 s.h.
- HIST:4510 Colonial Latin America 3 s.h.

**SPANISH AND PORTUGUESE**
- SPAN:3220 Visual Culture: Colonial Spanish America 3 s.h.
- SPAN:4330 Colonial Spanish American Literature 3 s.h.

**Courses**

**Lower-Level Undergraduate**
- AINS:1049 Introduction to American Indian and Native Studies 3 s.h.
  Themes and methodologies in the study of American Indians and other indigenous peoples; approaches from anthropology, history, law, literature, other disciplines. Offered fall semesters. GE: Values, Society, and Diversity. Same as AMST:1049.
- AINS:1355 Literatures of Native American Peoples 3 s.h.
  Genres of Native American literature, including oral literature; focus on written literature (fiction, essays, poetry, drama). Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity. Same as ENGL:1355.
- AINS:2078 American Indian Women: Myth, Ritual, and Sacred Power 3 s.h.
  Participation of women and girls in native religious traditions; obstacles to knowing and understanding native women's religious roles and experiences. Same as RELS:2778, GWSS:2778.
- AINS:2085 Native American Material Culture 3 s.h.
  Overview of American collectors and collections of Indian objects, prehistoric to contemporary. Same as AMST:2085.
- AINS:2165 Native Peoples of North America 3 s.h.

AINS:2290 Food and Culture in Indian Country 3 s.h.
Native Americans as original farmers of 46% of the world’s table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AMST:2290, HIST:2290.

AINS:2300 Native Americans in Film 3 s.h.
Representations of Native Americans in film from the western to science fiction and animation. Same as AMST:2300.

AINS:2500 Indigenous Art, Land, and Social Justice 3 s.h.
Examples, readings, discussions, and special projects examine contemporary visual, performance, and multimedia art by Native North American and other indigenous artists as a component of broader indigenous activism for social justice and defense of land.

AINS:2700 Sacred World of Native Americans 3 s.h.
GE: Values, Society, and Diversity. Same as RELS:2700.

Upper-Level Undergraduate and Graduate

AINS:3002 Introduction to American Indian History and Policy 3 s.h.
Same as HIST:3202.

AINS:3110 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as ANTH:3110, GHS:3110.

AINS:3211 Native North America I: Precontact-1789 3 s.h.
Same as HIST:3211.

AINS:3212 Native North America II: 1789-Present 3 s.h.
Same as HIST:3212.

AINS:3257 North American Archaeology 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.

AINS:3258 Southwestern Archaeology 3 s.h.
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as ANTH:3258.

AINS:3276 American Indian Environmentalism 3 s.h.
Same as RELS:3976.

AINS:3441 Native American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3441.

AINS:3554 Native Histories and Endurance in the Greater Midwest 3 s.h.
Indigenous histories in the Great Lakes region; colonization and decolonization as ongoing processes rather than historic events.

AINS:3555 Exploring American Icons: Cowboys, Indians, Bikers 3 s.h.
Cowboys, Indians, and bikers as cultural icons from historic to contemporary times; examination of ideologies that circulate within and through these three groups as part of expressions of American identities.

AINS:4000 Special Topics: American Indian and Native Studies arr.
American Indians and other indigenous peoples; concepts, problems, issues.

AINS:4095 Directed Cultural Experience arr.
In-depth American Indian cultural experience, usually study or volunteer work, under supervision of an AINSP faculty member.

AINS:4270 Colonial North America, ca. 1600-1775 3 s.h.
Introduction to major themes in colonial American history prior to the American Revolution. Same as HIST:4270.

AINS:4272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h.
Overview of major issues in Native American history during the period of European Imperialism in North America. Recommendations: junior or senior standing. Same as HIST:4272.

AINS:4289 The Atlantic World c. 1450-1850 3 s.h.
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as HIST:4289.
AINS:4502 History of Mexico  
3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as HIST:4502.

AINS:4560 Native American Women and Religious Change  
3 s.h.
Native women's diverse experiences and their roles in native societies, examined through contact experiences between native and nonnative peoples; changes in women's roles in context of interactions between native people, missionaries, European colonists, and Americans; approaches to re-imaging women's early contact roles presented in cultural narratives, archaeology, history, ethnography, and missionary records. Same as GWSS:4560, RELS:4920.

AINS:4990 Independent Study  
arr.

Graduate

AINS:5099 American Indian and Native Studies Proseminar  
1 s.h.
Intensive reading on designated topics with multidisciplinary relevance in American Indian and Native studies; may include screenings, field trips, guest speakers, special events.

AINS:5150 Graduate Seminar in Native Peoples of North America  
3 s.h.
Native American studies; key current themes, anthropology's role, working with tribal communities as an anthropologist, strategies for introductory undergraduate teaching; advanced readings. Same as ANTH:5150.

AINS:6099 Independent Study Project  
arr.
Completion of a significant scholarly project that addresses the scope, goals, and ongoing development of American Indian and native studies as an academic field; findings presented on campus (e.g., AINSP steering committee or in association with an AINSP-sponsored event) or at an academic conference.

AINS:6620 Readings in Native American Literatures  
3 s.h.
Same as ENGL:6620.
American Sign Language

**Director, Division of World Languages, Literatures, and Cultures**
- Russell Ganim

**Director, undergraduate studies**
- AmyRuth McGraw

**Undergraduate minor:** American Sign Language
**Undergraduate certificate:** American Sign Language and Deaf Studies

Faculty: http://clas.uiowa.edu/dwllc/asl/people
Web site: http://clas.uiowa.edu/dwllc/asl

The American Sign Language Program offers two undergraduate programs of study. It also offers a number of courses open to all students. They include a four-semester course sequence in American Sign Language (ASL), courses for teacher licensure (see "Hearing Impaired Endorsement for Teachers" below), and courses on fingerspelling, Deaf culture, ASL literature, ASL interpreting, and other topics. The four-course ASL sequence satisfies the World Languages requirement of the General Education Program (p. 313) (see "Language for General Education" below). Classroom instruction is supplemented by video materials and interactive software in the Language Media Center.

The American Sign Language Program is administered by the Division of World Languages, Literatures, and Cultures (p. 228).

**HEARING IMPAIRED ENDORSEMENT FOR TEACHERS**

The American Sign Language Program offers courses that fulfill requirements for the Hearing Impaired Endorsement offered by the College of Education. The University of Iowa currently is the only institution in Iowa that offers this endorsement program. Holders of the endorsement are authorized to serve deaf and hard-of-hearing students from birth to age 21. The program is open to undergraduate and graduate students; applicants must hold or be in the process of completing requirements for an elementary or secondary teaching license. Contact the College of Education Office of Education Services to learn more.

Undergraduate Programs of Study
- Certificate in American Sign Language and Deaf Studies
- Minor in American Sign Language

**Certificate**

The Certificate in American Sign Language and Deaf Studies requires 34 s.h. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students may earn the Certificate in American Sign Language and Deaf Studies or the minor in American Sign Language, but not both.

The certificate program teaches students about the history, culture, and language of the American Deaf community. It is interdisciplinary, permitting students to link study in two or more disciplines into an organized investigation of a language and culture. Through their study of American Sign Language, students learn a language that is semantically and grammatically very different from their own and that operates in a different sensory channel. They also encounter a rich and complex culture, including a rapidly growing literature recorded on film and videotape since the early 20th century.

Certificate requirements include the four-course American Sign Language sequence (16 s.h.) or demonstration of equivalent proficiency; 6 s.h. of core courses; and 12 s.h. of focused electives in two or more disciplines.

Students may use each course required for the certificate to satisfy only one certificate requirement. But they may use a course to satisfy a certificate requirement as well as a requirement for a major or for a minor in another discipline. Courses used to satisfy certificate requirements may not be taken pass/nonpass.

A maximum of 6 s.h. of transfer credit may be accepted toward certificate requirements, with the approval of the American Sign Language and deaf studies advisor.

The Certificate in American Sign Language and Deaf Studies requires the following course work.

**LANGUAGE SEQUENCE**

Certificate students must complete the following sequence or be able to demonstrate equivalent proficiency. Students must demonstrate 75 percent proficiency in the expressive and receptive elements of each course in order to register for the next course in the sequence.

**FOCUSED ELECTIVES**

Students earn a total of at least 12 s.h. in courses chosen from the lists below. They must choose courses from at least two different disciplines.
American Studies
AMST:1010 Understanding American Cultures 3 s.h.
AMST:2025 Diversity and American Identities 3 s.h.

Anthropology
ANTH:1040 Language Rights 3 s.h.
ANTH:1401 Language, Culture, and Communication 3 s.h.

Communication Sciences and Disorders
CSD:3117 Psychology of Language 3 s.h.
CSD:3118 Language Acquisition 1-3 s.h.
CSD:3185 Hearing Loss and Audiometry 3 s.h.

English
ENGL:3190 Language and Learning 2-3 s.h.

History
HIST:4201/ASL:4201 History of the American Deaf Community 3-4 s.h.
HIST:4203 Disability in American History 3 s.h.

Linguistics
LING:1010 Language and Society 3 s.h.
LING:1020 Introduction to the Study of Language 3 s.h.
LING:1040 Language Rights 3 s.h.
LING:1060 Languages of the World 3 s.h.
LING:2900 Language and Gender 3 s.h.
LING:3001 Introduction to Linguistics 3 s.h.
LING:3030 Child Language-Linguistic Perspectives 3 s.h.
LING:3117 Psychology of Language 3 s.h.
LING:3118 Language Acquisition 1-3 s.h.
LING:3670 Language Processes 3 s.h.
LING:4080 Linguistic Theory and Second Language Acquisition 3 s.h.

Psychological and Brain Sciences
PSY:3085 Language Development 3 s.h.
PSY:3670 Language Processes 3 s.h.

Second Language Acquisition
SLA:3401 Language Development 3 s.h.
SLA:4080 Linguistic Theory and Second Language Acquisition 3 s.h.

Social Work
SSW:3847 Discrimination, Oppression, and Diversity 3 s.h.

Special Education
EDTL:3382 Language and Learning 2-3 s.h.
EDTL:3905 Teaching Deaf and Hard of Hearing Students 3-4 s.h.
EDTL:3933 The Culturally Different in Diverse Settings 3 s.h.
EDTL:4900 Foundations of Special Education (requires admission to Teacher Education Program) 3 s.h.
EDTL:4940 Characteristics of Disabilities 3 s.h.

EPLS:4180 Human Relations for the Classroom 3 s.h.

Minor
The minor in American Sign Language (ASL) requires 15 s.h. of ASL course work, including 12 s.h. in advanced courses numbered 2500 or above taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The minor must include ASL:2002 American Sign Language IV or demonstrated equivalent proficiency. Students may count a maximum of one of the following courses taught in English toward the minor—ASL:4201 History of the American Deaf Community or ASLE:3905 Teaching Deaf and Hard of Hearing Students or ASLE:2500 Introduction to ASL Interpreting—and also must enroll in the 4 s.h. option with discussion conducted in ASL.

Students may earn the minor in American Sign Language or the Certificate in American Sign Language and Deaf Studies, but not both.

Language for General Education
The following four-course sequence satisfies the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313). Students must demonstrate 75 percent proficiency in the expressive and receptive elements of each course in order to register for the next course in the sequence.

ASL:1001 American Sign Language I 4 s.h.
ASL:1002 American Sign Language II 4 s.h.
ASL:2001 American Sign Language III 4 s.h.
ASL:2002 American Sign Language IV 4 s.h.

Students taking more than one calendar year off from the American Sign Language (ASL) sequence are required to contact the ASL Program to schedule a placement test which will determine their placement in an American Sign Language I-IV course. Students are strongly advised to complete the ASL sequence without such a gap whenever possible. A student taking the placement test and not placing into the next course in the sequence may be retested before the class begins if he or she has undertaken a significant experience since the last placement test that might warrant retesting. All retesting is at the discretion of the ASL Program.

Courses
Lower-Level Undergraduate

ASL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASL:1001 American Sign Language I 4 s.h.
Conversational skills, basic grammar of ASL; introduction to the ASL cultural community through readings, videos. Taught in American Sign Language. First in a four-semester sequence. GE: World Languages First Level Proficiency.
ASL:1002 American Sign Language II
Continuation of ASL:1001; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1001. GE: World Languages Second Level Proficiency.

ASL:1101 Fingerspelling and Numbers I
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1001.

ASL:1102 Fingerspelling and Numbers II
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1101.

ASL:2001 American Sign Language III
Continuation of ASL:1002; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1002. GE: World Languages Second Level Proficiency.

ASL:2002 American Sign Language IV

ASL:2500 Introduction to ASL Interpreting
Introduction to signed language interpreting; history and current nature of the field, available opportunities, certification, training, ethics. Taught in spoken English. Corequisites: ASL:1002.

Upper-Level Undergraduate and Graduate

ASL:3100 American Sign Language Conversation
Improvement of receptive and expressive conversational ASL skills through small group discussion, class presentations. Taught in American Sign Language. Corequisites: ASL:2002, if not taken as a prerequisite.

ASL:3200 Topics in Deaf Studies
Current topics in deaf studies; skill development in communicative fluency in ASL. Taught in American Sign Language. Corequisites: ASL:2002, if not taken as a prerequisite.

ASL:3300 American Deaf Culture

ASL:3400 Issues in ASL and Deaf Studies
Current issues in American Sign Language and the American deaf community, such as linguistics, culture, literacy. Corequisites: ASL:2002, if not taken as a prerequisite.

ASL:3500 Deafness in the Media
Exploration of the construct of deafness through mainstream media (e.g., commercial television, movies, fictional and nonfictional literature in print and on the Internet); various ways deaf people are constructed and presented for hearing audiences from the past 20 years. Taught in American Sign Language. Prerequisites: ASL:2002.

ASL:3600 American Sign Language Literature
Introduction to the world of ASL literature, as recorded on videotape or film and in live performance; traditional folklore, storytelling, poetry, drama, oratory, jokes, and nonfiction narrative; analysis of genres in their social and cultural contexts as expressions of deaf experience; how historical and current issues in deaf culture are represented in literary form. Taught in American Sign Language. Corequisites: ASL:2002, if not taken as a prerequisite.

ASL:3800 Independent Study
An American Sign Language/deaf studies topic; individual study.

ASL:4201 History of the American Deaf Community
Creation of a distinct language and culture of deaf people in America during the 19th and 20th centuries. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option — concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as HIST:4201.

ASLE:3905 Teaching Deaf and Hard of Hearing Students
Issues in deaf education; management techniques, communication strategies, teaching strategies, instructional materials, hands-on activities, assessments, parent involvement; use of technology, ethnic and cultural diversity, classroom management, pre-reading techniques, literacy development, educational program options. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option — concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as EDTL:3905.
American Studies

Chair
• Horace Porter

Undergraduate majors: American studies (B.A.); sport studies (B.A.)
Undergraduate minors: American studies; sport studies
Graduate degrees: M.A. in American studies; Ph.D. in American studies (optional sport studies subprogram)
Faculty: http://clas.uiowa.edu/american-studies/people
Web site: http://clas.uiowa.edu/american-studies/

The Department of American Studies provides an interdisciplinary introduction to American culture, past and present. It helps students acquire a broad familiarity with the dynamics of cultural experience and explore aspects of life in the United States, such as sport, popular and fine arts, institutions, values, gender and ethnic relations, artifacts, and the everyday life of a diverse citizenry.

The department offers undergraduate programs of study in American studies and in sport studies as well as graduate programs of study in American studies, with a sport studies subprogram available in the Ph.D.

The department also is the administrative home of the American Indian and Native Studies Program, which offers an undergraduate certificate and minor and a graduate certificate; see American Indian and Native Studies (p. 37) in the Catalog.

Undergraduate Programs of Study

• Major in American studies (Bachelor of Arts)
• Major in sport studies (Bachelor of Arts)
• Minor in American studies
• Minor in sport studies

Bachelor of Arts: American Studies

The Bachelor of Arts with a major in American Studies requires a minimum of 120 s.h., including 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). At least 24 s.h. for the major must be earned at the University of Iowa.

The major in American studies stresses broad training in cultural analysis and communication. The program provides preparation for careers in business, education, government, journalism, or social service; for advanced study in the humanities, the social sciences, theology, or business; or for professional study in law or medicine. American studies students may arrange internships through the University's Pomerantz Career Center.

A distinctive feature of the American studies major is the opportunity to develop broad training in cultural analysis as well as emphasis of particular interests within the study of American culture. With the help of their American studies advisors, students may elect to pursue one of five focus areas within American studies, or they may create an individual plan of study. Each focus area allows students to group courses in American studies and other departments around a specific interdisciplinary theme, topic, or set of social issues; see "American Studies Focus Areas" below.

Shortly after declaring the major, a student should meet with his or her faculty advisor to explore the range of course work available and to begin shaping an individual plan of study. By the student's second term in the major, the student and advisor should have agreed upon a plan of study and focus area for completing the requirements for the major.

The major in American studies usually requires the following 12 courses.

American Studies Focus Areas

Students should consult regularly with the Department of American Studies about courses offered by American studies and other departments that count toward each focus area. A maximum of two courses from a single department outside American studies may be counted toward a single focus area.

ETHNIC STUDIES, DIVERSITY, AND DIFFERENCES

Students choose this focus to develop interdisciplinary understanding of an individual ethnic and/or racial group (e.g., Latino/a studies, Jewish-American studies) or to examine broadly gender, race, sexuality, social class, region, national origins, and age in the United States. Emphasis is on the historic emergence of categories of social difference, especially as revealed in cultural practices and artifacts, geography and cityscapes, leisure, and popular expression.

AMERICAN ARTS, LITERATURE, AND POPULAR CULTURE

Students who choose this focus examine artistic creations to discover how they are shaped by cultural preconceptions, norms, and standards, and how in turn these expressive forms affect ongoing developments in cultural life. Emphasis is on skills in the formal analysis of artistic artifacts, historical inquiry, and cultural contextualization.

AMERICAN SOCIETY, POLITICS, AND EVERYDAY LIFE

Students who choose this focus consider the dynamics of social change, the emergence and fate of political movements, and the forms and practice of everyday life in America. The area encompasses the tradition of revolution in America, the effects of technological and
economic change, and the roles of the family, workplace, and community from the colonial era to the digital age.

**THE POLITICS OF NATURE: ENVIRONMENT, SUSTAINABILITY, AND LANDSCAPE**

Students who choose this focus explore how Americans from pre-Columbian times to the present have shaped and regarded the natural environment. Topics might include the perception of wilderness in early America; the relationship of Native American peoples to the land; the impact of industrialization and urban growth on the environment; the emergence of a culture of nature; the treatment and representation of animals; the mass production, distribution, and consumption of food; and the growing movement for sustainability in agriculture, architecture, urban planning, and individual lifestyles.

**SPORT AND POPULAR AMUSEMENTS**

Students who choose this focus examine the various sports, recreational activities, and popular amusements enjoyed in the United States from colonial and early America to the present. They examine the relationship between work and play, the role of technology and the media, the commercialization of sport, and the politics of gender, race, class, sexuality, and disability.

**INDIVIDUALLY DESIGNED FOCUS AREAS**

Individually designed focus areas may concentrate on an interdisciplinary topic, theme, group of people, or time period. Students who wish to design their own interdisciplinary focus area should consult with their American studies advisor for appropriate courses.

**Bachelor of Arts: Sport Studies**

The Bachelor of Arts with a major in sport studies requires a minimum of 120 s.h., including 45 s.h. of work for the major (30 s.h. in sport studies and 15 s.h. in an outside specialization area or a minor). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). At least 24 s.h. of credit for the major must be earned at the University of Iowa.

The sports studies major examines sport in its historical and contemporary cultural contexts. Course work provides students with the critical skills necessary to understand the cultural significance of sport as it relates to the media, the economy, the political system, and the educational system. A focus on the race, class, and gender differences in the sport experience is central to the major.

Many students use their experience in the program to prepare for graduate school. For others, the required second concentration area or minor serves as an introduction to careers in a number of fields, such as sport journalism, sport management, or coaching.

The major in sport studies requires the following course work.

**SPORT STUDIES FOUNDATION**

Students should complete the foundation courses as early as possible.

Both of these:

- AMST:1010 Understanding American Cultures 3 s.h.
- SPST:1074 Inequality in American Sport 3 s.h.

**SPORT STUDIES CORE**

Students must complete one course from each of the following four content areas (total of 12 s.h.).

Diversity in sport—one of these:

- SPST:2078 Women, Sport, and Culture 3 s.h.
- SPST:2079 Race and Ethnicity in Sport 3 s.h.

International dimensions—one of these:

- SPST:3176 Sport and Nationalism 3 s.h.
- SPST:3177 Sport in the Western World 3 s.h.

Contemporary sport in America—one of these:

- SPST:3175 Sport and the Media 3 s.h.
- SPST:3179 American Sport Since 1900 3 s.h.

History of sport and leisure in America—one of these:

- SPST:2050 The American Vacation 3 s.h.
- SPST:3178 American Sport to 1900 3 s.h.

**ELECTIVES**

Students must complete at least 12 s.h. of approved elective courses; the department suggests courses from the following list. Students also may include courses from the sport studies core (above) that they have not already taken.

- AMST:1065 Disney in America 3 s.h.
- AMST:2000 Approaches to American Studies 3 s.h.
- AMST:2052 Fairs and Amusement Parks 3 s.h.
- CLSA:1875 Ancient Sports and Leisure 3 s.h.
- ECON:3690 Sports Economics 3 s.h.
- ENTR:4450 Professional Sports Management 3 s.h.
- HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
- JMC:1200 Media History and Culture 3 s.h.
- JMC:3125 Media and Consumers 3 s.h.
- JMC:3160 Images and Society 3 s.h.
- SOC:2810 Social Inequality 3 s.h.
- SPST:2081 Theory and Ethics of Coaching 3 s.h.
- SPST:2084/AMST:2084 Sport and Film 3 s.h.
- SPST:3171 Baseball in America 3 s.h.
- SPST:3172 Football in America 3 s.h.
- SPST:3180 Classics of Sports Journalism: From Jack London to Grantland 3 s.h.
- SPST:3181 The Business of Sport Communication 3 s.h.
- SPST:3193 Independent Study arr.
- SPST:3198 New Media and the Future of Sport 3 s.h.
- SPST:4900 Topics in Sport Studies 1-3 s.h.
- SPST:4999 Honors Project 1-3 s.h.

**OUTSIDE CONCENTRATION AREA OR MINOR**

All sport studies students must complete 15 s.h. of course work in an allied field of concentration outside the major (e.g., American studies; journalism and mass communication; business; gender, women's, and sexuality studies). Work for the concentration must include 6 s.h. earned in courses numbered 3000 or above or in courses that are designated advanced by the department or program that offers them. Concentration area courses may not be taken pass/nonpass.
Students select their allied field of concentration in consultation with their advisor, and they must have their advisor’s written approval for the area.

Students also may satisfy the concentration requirement by earning a second major or a minor in another discipline. Students who satisfy the requirement in this way are held responsible for ensuring that they have fulfilled the requirements for the second major or the minor.

**B.A. with Coaching Authorization or Endorsement**

Students may prepare for coaching by completing additional course work that also qualifies them for a coaching authorization from the State of Iowa. The following courses are recommended.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ATEP:2030</td>
<td>Basic Athletic Training</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HHP:1100</td>
<td>Human Anatomy</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HHP:3300</td>
<td>Human Growth and Motor Development</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SPST:2081</td>
<td>Theory and Ethics of Coaching</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students who successfully complete the requirements for the coaching authorization must submit an application to the Iowa Board of Educational Examiners. For more information, visit Coaching Authorization FAQs on the board’s web site.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

### B.A.: American Studies

**Before the fifth semester begins:** declaration of the major and discussion of a plan of study with an American studies advisor

**Before the seventh semester begins:** at least six courses from the plan of study and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least nine courses from the plan of study

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### B.A.: Sport Studies

**Before the fifth semester begins:** declaration of the major

**Before the sixth semester begins:** area of specialization determined

**Before the seventh semester begins:** at least six sport studies courses and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least eight sport studies courses

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in American studies or sport studies have the opportunity to graduate with honors in the major and to pursue special interests through individual, in-depth research.

Honors students carry out a research project. Working under the guidance of an undergraduate advisor, each student defines a research project and then makes a project proposal, ideally by the end of the junior year. The student completes the project under the guidance of a supervising faculty member. American studies honors students register for up to 3 s.h. in AMST:4999 Honors Project. Sport studies honors students register for up to 6 s.h. in SPST:4999 Honors Project.

Contact the American studies honors advisor for more information about honors in either major.

Honors students in either major must be members of the University's honors program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University of Iowa Honors Program.

### Minor: American Studies

The minor in American studies requires a minimum of 15 s.h. in American studies courses, including 12 s.h. in courses considered advanced for the minor taken at the University of Iowa (courses numbered above AMST:1010 are considered advanced for the minor). Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students interested in earning the American studies minor should consult with one of the department's faculty members.

### Minor: Sport Studies

The minor in sport studies requires a minimum of 15 s.h. in University of Iowa sport studies courses (prefix SPST), including at least 6 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students select courses for the minor according to their interests and the recommendation of the undergraduate coordinator.

### Certificate in American Indian and Native Studies

The Department of American Studies administers the American Indian and Native Studies Program, which offers a certificate for undergraduate and graduate students and a minor for undergraduates; see American Indian and Native Studies (p. 37) in the Catalog.

### Graduate Programs of Study

- Master of Arts in American studies
- Doctor of Philosophy in American studies (optional sport studies subprogram)
Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Master of Arts**

The Master of Arts program in American studies requires a minimum of 36 s.h. of graduate credit. The degree generally is offered without thesis; students must petition the director of graduate studies for permission to pursue the thesis option.

Each M.A. student designs an interdisciplinary field of concentration in consultation with his or her American studies advisor.

The M.A. in American studies requires the following work.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST:5000 Interdisciplinary Research in American Studies (taken twice in consecutive years)</td>
<td>6 s.h.</td>
</tr>
<tr>
<td>Two graduate seminars in American studies</td>
<td>6 s.h.</td>
</tr>
<tr>
<td>Five courses in the interdisciplinary field of concentration</td>
<td>15 s.h.</td>
</tr>
<tr>
<td>Electives</td>
<td>9 s.h.</td>
</tr>
<tr>
<td>M.A. portfolio</td>
<td></td>
</tr>
</tbody>
</table>

Each student must complete an M.A. portfolio, which includes a research paper, faculty evaluations for all courses taken during the student's first full year of graduate study, and a self-evaluation essay.

The research paper is a graduate seminar paper that demonstrates the student's skills as a research scholar and writer and represents his or her strongest work. The paper should be 25-30 pages, including a bibliography.

The self-evaluation essay summarizes the American studies methods and materials that have shaped the student's interdisciplinary work in the field and states how the master's degree work in American studies has contributed to, challenged, or complicated the student's goals and ambitions beyond the degree.

Students assemble the M.A. portfolio under the guidance of their advisors and should submit it no later than December 1 of their third semester in residency. The portfolio is evaluated on a satisfactory/unsatisfactory (S/U) basis by a three-person American studies faculty committee. Students whose portfolio receives a U may resubmit the portfolio during their fourth semester of residency.

For students who wish to continue their education with doctoral study, the M.A. portfolio serves as the application for admission to the Ph.D. program in American studies. The department informs applicants whether they have been accepted into the Ph.D. program by the end of the fall semester in which they submit their M.A. portfolio; admission is contingent upon successful completion of the M.A. during the student's fourth semester of residency.

**Doctor of Philosophy**

The Doctor of Philosophy program in American studies requires a minimum of 72 s.h. of graduate credit. Students may focus in American studies or choose the sport studies subprogram.

Each student works with his or her faculty advisor to map out a coherent plan of study that reflects the student's particular interests. Students are permitted considerable flexibility in constructing their study plan, but they must meet certain basic requirements, which include foundation courses, area foundation courses, two interdisciplinary fields of concentration, a research skills course, elective course work, and a dissertation.

The two fields of concentration may be defined to correspond with the student's strongest intellectual interests, but they must be interdisciplinary in concept and multidisciplinary in scope. Each must include course work from more than one of the University's departments and programs. The two concentration areas may, and usually should, have an intellectual relationship with each other.

Students are expected to address the cultural diversity of American life in their course work and reading.

The Doctor of Philosophy requires the following work.

Some course requirements are different for American studies and sport studies.

**COURSE WORK**

**Required Foundation Courses**

All students complete the required foundation courses and should take them as early as possible.

<table>
<thead>
<tr>

</table>

**Research Skills**

American studies students:
Additional Requirements
American studies and sport studies students:

Dissertation work (AMST:7090 Ph.D. Thesis) 21 s.h.
and electives

ADMISSION TO PH.D. CANDIDACY
Admission to Ph.D. candidacy signifies that the department judges the doctoral student qualified to take the comprehensive examination. Doctoral students advance to Ph.D. candidacy based on a review conducted during their second year in the Ph.D. program (typically during fall semester); the review assesses a student's readiness to complete his or her studies through the comprehensive examination and the dissertation, which is an original work of scholarship. In addition to judging a student's readiness for Ph.D. candidacy, the review provides a progress report on the student's work and a tentative prognosis for future prospects in the field.

COMPREHENSIVE EXAMINATION
The comprehensive examination comprises three written exams and one oral exam.

The first exam is taken under the supervision of an American studies faculty member, who also chairs the comprehensive examination. The candidate takes a timed, take-home written exam of no less than four hours and no longer than two days; the exam details the candidate's approach to American studies (methods and models), including his or her position and critical engagement with models of American studies scholarship.

The remaining two written exams explore the candidate's major fields; these are at least four hours long and may be given on a take-home basis at the examiner's discretion.

The oral exam covers material from the written exams.

DISSERTATION
The final requirement for the Ph.D. in American studies is the dissertation, a substantive book-length manuscript that involves interdisciplinary research and analysis and that represents an original contribution to knowledge. All Ph.D. dissertations must be approved by a committee of five faculty members, including at least two from the Department of American Studies.

Internships
Qualified graduate students in American studies can arrange internships with a number of local agencies, including the State Historical Society of Iowa, the Division of Historic Preservation, the University of Iowa Museum of Art, the Iowa Humanities Board, Brucemore, the Herbert Hoover Presidential Library and Museum, and the Putnam Museum. With special permission, candidates conducting research during such on-the-job training may receive academic credit through AMST:7994 Independent Study. Other internships with social agencies, government, or business also may be arranged.

Courses
American Studies, Lower-Level Undergraduate

AMST:1010 Understanding American Cultures 3 s.h.
The United States in historical, contemporary, and transnational perspective; social and cultural diversity and conflict in American life; debates on concepts of America, the American Dream, national culture, citizenship. GE: Values, Society, and Diversity.

AMST:1030 Introduction to African American Culture 3 s.h.
Interdisciplinary look at Black culture in the United States through significant contributions of the humanities (music, art, literature, drama, philosophy) to development of Black culture. GE: Values, Society, and Diversity. Same as AFAM:1020.

AMST:1049 Introduction to American Indian and Native Studies 3 s.h.
Themes and methodologies in the study of American Indians and other indigenous peoples; approaches from anthropology, history, law, literature, other disciplines. Offered fall semesters. GE: Values, Society, and Diversity. Same as AINS:1049.

AMST:1050 American Issues 3 s.h.
Representative issues: radio and American culture; cultural history of the Civil War era; American history, literature, culture.

AMST:1060 Sex and Popular Culture in the Postwar U.S. 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values, Society, and Diversity. Same as GWSS:1060, ENGL:1410.

AMST:1065 Disney in America 3 s.h.
How Walt Disney Corporation has influenced American cultural values, ideals, and experiences through its evolution from an animation company in the 1920s, to a theme park company and television producer in the 1950s, to a media conglomerate today; the corporation's national importance, Hollywood's contributions to the Depression and World War II, postwar urban and community planning, America's changing leisure behavior, advertising and childhood, modern business history, and exportation of American culture. Same as CINE:1632.

AMST:1070 Drugs in American Popular Culture 3 s.h.
Cultural aspects of drug use and drug policy in American popular culture, particularly concerning recreational drugs; how ideas of race, gender, social class, and nation are connected to stories people tell about use of marijuana, cocaine, methamphetamine, heroin, and alcohol; sources include films, television, advertising, music, and cultural texts.
AMST:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Values, Society, and Diversity. Same as SPST:1074, GWSS:1074.

AMST:1075 American Popular Music 3 s.h.

AMST:1080 American Political Humor 3 s.h.
How political humor reflects and influences American attitudes regarding government institutions, elected officials, the democratic process; how humor works; examples from Revolutionary War present and from varied media, including cartoons, fiction, film, television, the Internet.

AMST:1154 Food in America 3 s.h.
Cultural significance of production, distribution, and consumption of food in the United States. GE: Values, Society, and Diversity.

AMST:1400 Introduction to American Popular Culture 3 s.h.
Introduction to popular culture studies; variety of cultural expressions including cyber communities, radio, humor, television, music, sport, and material culture; discussion of these popular genres and topics within larger context of gender, race, sexualities, class, consumerism, nation state and global capitalism; what popular culture is; difference between folk, high, mass, and popular culture; how to critically read and interpret popular cultural expressions; role(s) consumers of popular culture play in market economy; new information technologies to enhance learning experience.

AMST:1500 American Celebrity Culture 3 s.h.
Cultural history of meanings and implications of fame and celebrity in America; shift from 18th-century culture of "fame" (something bestowed posthumously on great statesmen) to 19th-century culture of "celebrity" that conferred instant stardom on actors, sportsmen, musicians, writers, and others; role of mass media and impresarios (e.g., Barnum and "Buffalo Bill") in promoting culture of celebrity; refinement of star system by Hollywood, television, and Internet; implications for political culture, consumer culture, and attitudes towards race, gender, class, and sexuality.

AMST:1630 U.S. History Through Objects 3 s.h.
Interpretation of U.S. history through stories embedded in material artifacts ranging from guns, farming tools, and religious relics to mechanical toys, office gadgets, and vehicles; invention, manufacture, and marketing of tools and objects; their use and adaptation by various groups of Americans (women, African Americans, immigrants); meanings and memories invested in them; preservation of objects in museums, attics, and time capsules.

AMST:1847 Hawkeye Nation: On Iowa and Sport 3 s.h.
Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, American Indian and native studies, literature, history. Same as SPST:1847.

AMST:2000 Approaches to American Studies 3 s.h.
Variety of historic and contemporary sources, such as literature, law, photography, painting, film, TV, music, fashions, environments, events of everyday life.

AMST:2025 Diversity and American Identities 3 s.h.
History and variety of American identities, examined through citizenship, culture, social stratification; conflict and commonalities among groups according to race, ethnicity, gender, class, sexuality; how art, literature, music, film, photography, and other cultural artifacts represent diversity of identities.

AMST:2050 The American Vacation 3 s.h.
Development of the idea of vacation from upper-class origins to acceptance as part of middle- and working-class life; Niagara Falls, Saratoga Springs, the Catskills, Atlantic City, Idlewild, Coney Island, national parks of the American West, Chicago World's Fair, Gettysburg, Disneyland; how vacation experiences and meanings are shaped by social class, race, gender, age; growth of leisure time, labor legislation, proper use of leisure time, tourism, vacations as social rituals, golden age of family vacations. Same as SPST:2050.

AMST:2052 Fairs and Amusement Parks 3 s.h.
Nineteenth- and twentieth-century international expositions, amusement parks, and theme parks as cultural events of U.S. self-definition.

AMST:2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as SPST:2084.

AMST:2085 Native American Material Culture 3 s.h.
Overview of American collectors and collections of Indian objects, prehistoric to contemporary. Same as AINS:2085.

AMST:2165 Native Peoples of North America 3 s.h.

AMST:2290 Food and Culture in Indian Country 3 s.h.
Native Americans as original farmers of 46% of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AINS:2290, HIST:2290.

AMST:2300 Native Americans in Film 3 s.h.
Representations of Native Americans in film from the western to science fiction and animation. Same as AINS:2300.

AMST:2500 U.S. Cinema and Culture 3 s.h.
Representation of race, ethnicity, class, gender, and sexuality in Hollywood movies. Same as CINE:2654.

American Studies, Upper-Level Undergraduate and Graduate

AMST:3045 Immigration and American Culture 3 s.h.
Immigrants and immigrant communities.

AMST:3047 American Disasters 3 s.h.
Fault lines of American society and culture as exposed during catastrophe; history of American disaster investigated through methods from cultural history, visual theory, sociology, and media studies; varied disasters 1800 to present, including those involving cities (Chicago fire, San Francisco earthquake, Chicago heat wave), transportation (Titanic, Challenger, Columbia), and environment (Union Carbide and Bhopal, Exxon Valdez); causes of catastrophes; how Americans react and are drawn to catastrophe (e.g., disaster films, jokes); related topics, including technology, urbanism, race, class, apocalyptic religion, journalism, popular culture.

AMST:3050 Topics in American Cultural Studies 3 s.h.
Special topics in American history, literature, culture.

AMST:3051 The Office: Business Life in America 3 s.h.
History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography.

AMST:3053 The Civil Rights Movement 3 s.h.
History of the American civil rights movement. Same as AFAM:3053.

AMST:3060 Metropolis: Cities in American Culture 3 s.h.
Impact of American cities (skyscrapers, entertainments, crowds, ethnic neighborhoods) on American culture; depiction of American urban environments by artists, writers, musicians, filmmakers; treatment of city life in popular culture (superhero comics and movies, sitcoms, hip-hop, and more); debates about post-industrial decline of cities; focus on New York, Chicago, Los Angeles.

AMST:3063 American Ruins 3 s.h.
Emergence and development of American fascination with ruins, from indigenous to urban-industrial remains; actual ruins and depiction of imagined ruins in art, literature, cinema.

AMST:3067 Reading and Writing the History of the Environment 3 s.h.
Culture and society bind human communities to the natural world that supports them; local landforms and waterways in Iowa have shaped, and been shaped by, human uses and meanings; the past inheres in present-day struggles over land and water use, see local landscapes historically; deploy skills of environmental history to understand the historical and cultural roots of present-day conflicts over land use and appreciate how beliefs, rituals, recreational practices, and technologies attach human beings to places in which they live.

AMST:3090 Seminar in American Cultural Studies 3 s.h.
Interdisciplinary perspectives on a single theme or period.

AMST:3130 Black American Cinema 3 s.h.
Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, Blaxploitation, the Black Renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip-hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media's effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AFAM:3130.

AMST:3135 The Social Construction of Whiteness 3 s.h.
Whiteness as a socially constructed racial category with material effects in everyday life; race as a category with salience in determining public policy, forming identities, and shaping people's actions; interdisciplinary approach using social history, philosophy, science, law, literature, autobiography, film, and the expressive arts.

AMST:3148 American Monuments 3 s.h.
How Americans enshrine certain memories in form of public monuments; why Americans began building large-scale monuments in 19th century (Bunker Hill, Washington Monument); subsequent monuments to wars, Indian massacres, the Confederacy, the civil rights movements; recent trends, including counter-monuments (9/11 memorial), spontaneous and temporary monuments, and online memorials; roles monuments play in American society, why they attract so much controversy, how some become sites for popular protests or for depositing artifacts, and how they compare with those in other countries (Holocaust memorials in Germany).
AMST:3171 Baseball in America 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as SPST:3171.

AMST:3178 American Sport to 1900 3 s.h.
Growth and institutionalization of sport from colonial times to 1900. Same as SPST:3178.

AMST:3179 American Sport Since 1900 3 s.h.
Historic development of sport in the United States since 1900; economic forces, professionalization, growth of media. Same as SPST:3179.

AMST:3195 American Cultures and American Photography 3 s.h.
Introduction to visual, cultural, and historical frameworks to view and interpret photographs as material artifacts.

AMST:3198 New Media and the Future of Sport 3 s.h.
Emergence and significance of Internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as SPST:3198, JMC:3135.

AMST:3400 Black Popular Music 3 s.h.
History and expressive culture of people of African descent living in America through popular music forms; historical time span between the 17th and 21st centuries; poetry, music, cultural analysis, film, and art as sources for the study of Black music; genres covered include spirituals and gospel, blues, jazz, rock, rhythm and blues, Afropunk, alternative and neo soul, and hip-hop. Recommendations: AFAM:1020 and AMST:1030 . Same as AFAM:3400.

AMST:3480 American Literature and History 3 s.h.
Examination of fictional histories (novels about history), their relationship to historical interpretation. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:3480.

AMST:3994 Independent Study arr.

AMST:4283 U.S. Women’s History as the History of Human Rights 3-4 s.h.
History of human rights in the United States traced through the perspective of women; aspects of women’s experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as HIST:4283, GWSS:4283, HRTS:4283.

AMST:4401 American Women Playwrights: 1776-Present 3 s.h.
How women in the United States have expressed themselves in theatre since 1776; diversity of voices in works by African American, Asian American, Latina, Native American, European American, lesbian playwrights; female-authored drama and production in relation to concurrent male-authored traditions and socioeconomic, political, cultural phenomena. Same as THTR:4401.

AMST:4999 Honors Project arr.
Independent interdisciplinary research, writing.

American Studies, Graduate

AMST:5000 Interdisciplinary Research in American Studies 3 s.h.
Research, theories, and methods in American studies; origins, evolution, and future of discipline; key figures, texts, and debates.

AMST:5002 Critical Theories for Sport 3 s.h.
Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as SPST:5002.

AMST:6030 Seminar: Performing Arts in American Culture 3 s.h.
American theater, dance, music, and performance.

AMST:6058 Seminar: Technology and American Culture 3 s.h.
American cultural history; urbanization, mass media, pluralism, assimilation.

AMST:6070 Seminar: Topics in Sport Studies 1-3 s.h.
Special topics on sport in historical or contemporary contexts. Same as SPST:6070.

AMST:6078 Seminar: Women in Sport 3 s.h.
Women’s sport involvement in historical and/or contemporary contexts; focus on social class, religion, race, ethnicity, sexuality, medical opinion, economic considerations, political events, and educational philosophies that have influenced women’s participation. Same as GWSS:6710, SPST:6078.

AMST:6080 American Film and American Culture 3 s.h.
Relationships between film and culture as developed in a particular approach, period, subject. Same as CINE:6080.

AMST:6099 American Studies Proseminar 1-2 s.h.
Intensive reading on American cultural analysis topics; may include screenings, field trips, guest speakers, special events.

Anthropology

Chair
• James Enloe

Undergraduate major: anthropology (B.A., B.S.)
Undergraduate minor: anthropology
Graduate degrees: M.A. in anthropology; Ph.D. in anthropology
Faculty: http://clas.uiowa.edu/anthropology/people/faculty
Web site: http://clas.uiowa.edu/anthropology/

Anthropology is the comparative study of peoples and cultures past and present. The discipline's four major subfields—cultural anthropology, biological anthropology, linguistic anthropology, and archaeology—have important connections to other social sciences, physical and biological sciences, and to the arts and humanities. Anthropology provides a framework for understanding the relation of human beings to their natural environment and to the social and cultural worlds they create and inhabit. The field provides insight into biological and sociocultural evolution and includes a focus on economic, social, and political organizations, symbolic systems, and social systems. Comparative studies of these and other aspects of past and present cultures yield information on regularities and differences.

In addition to offering undergraduate and graduate degree programs, the Department of Anthropology administers the University's Museum Studies (p. 470) Program, which offers an undergraduate certificate.

Undergraduate Programs of Study

• Major in anthropology (Bachelor of Arts, Bachelor of Science)
• Minor in anthropology

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations and expertise for jobs involving cross-cultural work, cultural resource management, and in responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, urban and regional planning, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in anthropology requires a minimum of 120 s.h., including 33 s.h. of work for the major. The Bachelor of Science with a major in anthropology requires a minimum of 120 s.h., including 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The B.A. is designed to offer a comprehensive overview of anthropology's four main subfields and the broadest possible cross-cultural background. The B.S. is appropriate for students with interests in any of anthropology's subfields; it offers enhanced opportunities to gain experience and develop skills in research methods and scientific reasoning.

B.A. and B.S. students may choose to complete one of four specialized tracks: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology. B.S. students also have the option of completing a track in anthropology for the health professions. See "Optional Undergraduate Tracks" below.

All undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 24 s.h. Students who have earned more than 24 s.h. are advised by the departmental undergraduate advisor.

The major in anthropology requires the following course work.

Common Requirements (B.A. and B.S.)

All students (B.A. and B.S.) must complete 11 courses from the lists below: five introductory courses, one course in archaeology or biological anthropology, one course in sociocultural or linguistic anthropology, one course in area studies, and three electives. Several courses are listed in more than one of these categories; students may not select the same course to fulfill requirements in more than one category.

Introductory courses—all of these:

One of these:

- advisers.
- who would like to use other courses should consult their
- following courses to fulfill the tool requirement. Students
- Reasoning requirement. The department accepts the
- the General Education Program's Quantitative and Formal
- or mathematics in addition to the course they take to fulfill
- (a minimum of 3 s.h.) in statistics, computing, logic, and/

Bachelor of Science students must complete one course

**REASONING TOOL (B.S.)**

**QUANTITATIVE, MATHEMATICAL, OR FORMAL REASONING TOOL (B.S.)**

Bachelor of Science students must complete one course
(a minimum of 3 s.h.) in statistics, computing, logic, and/
or mathematics in addition to the course they take to fulfill
the General Education Program’s Quantitative and Formal
Reasoning requirement. The department accepts the
following courses to fulfill the tool requirement. Students
who would like to use other courses should consult their
advisors.

One of these:

- ANTH:3258 Southwestern Archaeology 3 s.h.
- ANTH:3265 Archaeology of the Great Plains 3 s.h.
- ANTH:3275 The Archaeology of Ancient Egypt 3 s.h.
- ANTH:3276 Greek Archaeology and Ethnohistory 3 s.h.
- ANTH:3277 Roman Archaeology 3 s.h.
- ANTH:3306 The Neanderthal Enigma 3 s.h.
- ANTH:3330 Human Evolution in Africa and Eurasia 3 s.h.
- ANTH:4700 Latin American Studies Seminar 3 s.h.

**Electives:**

Three elective courses numbered 2000 or above

Anthropology electives offer many options, including
courses dealing with environment and culture, expressive
culture (art, verbal arts, literature, music, and dance),
gender and sexuality, human evolution, human osteology,
human prehistory, identity, language and culture,
medical anthropology, molecular genetics, primatology,
psychological anthropology, religion and ritual, and urban
anthropology. Department faculty members offer area
studies courses that focus on Latin America, Europe,
Japan, South Asia, and Native North America.

**Additional Bachelor of Arts Requirements**

Bachelor of Arts students are strongly encouraged to
take courses and participate in archaeological field and
laboratory research, biological anthropology laboratory
research, ethnographic research methods in sociocultural
anthropology, and multimedia research in linguistic
anthropology.

**Additional Bachelor of Science Requirements**

Bachelor of Science students must fulfill additional
requirements in the following three areas.

- Quantitative, mathematical, or formal reasoning tool
- Directed laboratory or field research

**QUANTITATIVE, MATHEMATICAL, OR FORMAL REASONING TOOL (B.S.)**

Bachelor of Science students must complete one course
(a minimum of 3 s.h.) in statistics, computing, logic, and/
or mathematics in addition to the course they take to fulfill
the General Education Program’s Quantitative and Formal
Reasoning requirement. The department accepts the
following courses to fulfill the tool requirement. Students
who would like to use other courses should consult their
advisors.

One of these:

- COMM:1117 Theory and Practice of Argument 4 s.h.
- CS:1110 Introduction to Computer Science 3 s.h.
- CS:1210 Computer Science I: Fundamentals 4 s.h.
- HONR:1650 Honors Seminar in Quantitative and Formal Reasoning 3 s.h.
- LING:1050 Language and Formal Reasoning 3 s.h.
- MATH:1440 Mathematics for the Biological Sciences 4 s.h.
- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1850 Calculus I 4 s.h.
- PHIL:1636 Principles of Reasoning: Argument and Debate 3 s.h.
- STAT:1010 Statistics and Society 3 s.h.
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3 s.h.
- STAT:2010 Statistical Methods and Computing 3 s.h.
- STAT:3510 Biostatistics 3 s.h.

**DIRECTED LABORATORY OR FIELD RESEARCH (B.S.)**

Bachelor of Science students complete an approved
directed research requirement (minimum of 3 s.h.)
consisting of one of the following.

- Laboratory research: a laboratory practicum in
  anthropology research labs or independent, faculty-
  guided, laboratory research, including use of the
  collections of the Office of the State Archaeologist.

- Field research project: faculty-advised projects
  involving the collection of primary archaeological,
  biological, ethnographic, and/or linguistic data in a
  fieldwork setting.

- All students majoring in anthropology have the option of
  adding a particular focus to their study plan by completing a
  specialized track. B.A. students may choose one of four
  options: gender and culture, cultural resource and heritage
  management, environmental anthropology, or medical
  anthropology. B.S. students may also choose any of these
  options, or an additional track in anthropology for the
  health professions.

**Optional Undergraduate Tracks (B.A. and B.S.)**

All students majoring in anthropology have the option of
adding a particular focus to their study plan by completing a
specialized track. B.A. students may choose one of four
options: gender and culture, cultural resource and heritage
management, environmental anthropology, or medical
anthropology. B.S. students may also choose any of these
four options, or an additional track in anthropology for the
health professions.

The optional tracks reflect broad issues bridging subfields in
and outside of anthropology. Completion of a track
indicates the acquisition of considerable expertise and is
noted on the student’s transcript.

The optional tracks each require 15 s.h. (five courses).

By selecting courses carefully, students majoring in
anthropology can complete a specialization or the track without adding to the semester hours required for graduation.

**GENDER AND CULTURE TRACK (B.A. AND B.S.)**

Anthropological research regarding gender and sexuality has grown dramatically in recent years, enhancing and drawing from other theoretical and methodological approaches in anthropology. This research contributes a cross-cultural perspective to discussion surrounding these fundamental aspects of human experience, both in academia and in public life.

The gender and culture track requires 15 s.h. (five courses) chosen from the following list. Each course provides an integrated overview of essential theoretical and topical issues in the field.

Five of these:

**CULTURAL RESOURCE AND HERITAGE MANAGEMENT TRACK (B.A. AND B.S.)**

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field and about how to address related ethical issues as well as technical and theoretical challenges.

The cultural resource and heritage management emphasis requires 15 s.h. (five courses): a fundamental overview course, two area electives, a technical/practical elective, and a field school course. Students may use some of these courses to satisfy requirements for the major, such as the course in archaeology and the electives.

Overview—this course:

<table>

An equivalent course from another university

**ENVIRONMENTAL ANTHROPOLOGY TRACK (B.A. AND B.S.)**

The interaction between humans and the environments they inhabit has long been a central issue in anthropology, and environmental degradation is a worldwide concern today. Pollution, loss of biodiversity, and global warming recognize no political boundaries, but attitudes and behaviors involving the natural environment vary widely from culture to culture. The understanding and incorporation of these varied perspectives are vital to the development and successful use of workable solutions.

The environmental anthropology track requires 15 s.h. (five courses): two theory courses, which deal primarily with human-environmental interactions; and three area or topical electives, which deal in part with environment, ecology, and subsistence technologies. The following are sample courses in each area (courses must be numbered 2000 or above).

Theory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH:2261</td>
<td>Human Impacts on the Environment</td>
<td>3 s.h.</td>
</tr>
<tr>

</table>
to produce experiences of health, sickness, and healing. The anthropology for the health professions track is rooted in anthropology’s holistic approach to understanding the human condition. It provides a comprehensive education in the biological and social bases for human health. Students develop understanding of cultural and biological variation in health and sickness. They also examine how and why particular therapeutic interventions may be more or less effective when translated into different cultural settings and disease ecologies.

This track enables students entering the health professions to distinguish themselves when they apply to graduate and professional programs. It also may help them prepare for the Medical College Admission Test (MCAT). Learn more by visiting Optional Undergraduate Tracks on the Department of Anthropology website.

The anthropology for the health professions track requires 15 s.h. (five courses), including a required overview course and four additional track courses chosen from the list below. Most courses in the list fulfill the anthropology major’s common requirements for courses in archaeology or biological anthropology, in sociocultural or linguistic anthropology, and electives; and ANTH:3111 Health in Mexico counts toward the major’s area studies requirement. By choosing courses carefully, students may complete this track without adding to the semester hours required for graduation.

Overview—this course:

ANTH:2164 Culture and Healing for Future Health Professionals 3 s.h.

Four of these (12 s.h.):

ANTH:2103 Introduction to Global Health Studies 3 s.h.
ANTH:2181 The Anthropology of Aging 3 s.h.
ANTH:2182 Africa: Health and Society 3 s.h.
ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3 s.h.
ANTH:3101 Anthropology of Sexuality 3 s.h.
ANTH:3102 Medical Anthropology 3 s.h.
ANTH:3109 Psychological Anthropology 3 s.h.
ANTH:3110 Health of Indigenous Peoples 3 s.h.
ANTH:3111 Health in Mexico 3 s.h.
ANTH:3118 Politics of Reproduction 3 s.h.
ANTH:3141 Women, Health, and Healing 3 s.h.
ANTH:3151 The Anthropology of the Beginnings and Ends of Life 3 s.h.
ANTH:3152 Anthropology of Caregiving and Health 3 s.h.
ANTH:3160 Global Health Seminar 3 s.h.
ANTH:3325 Human Evolutionary Genetics 3 s.h.
ANTH:3326 Infectious Disease and Human Evolution 3 s.h.
ANTH:4140 The Anthropology of Women's Health 3 s.h.
B.A. or B.S. with Teacher Licensure

Anthropology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Bachelor of Arts

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Science

Before the third semester begins: at least one anthropology course or other course in the major

Before the fifth semester begins: at least four anthropology courses or other courses in the major, one course in the topical field, and one course for the quantitative or formal reasoning tool requirement

Before the seventh semester begins: at least seven courses in the major, three courses in the topical field, the second quantitative or formal reasoning tool course, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses in the major, including the directed research requirement, and four courses in the topical field

During the eighth semester: enrollment in all remaining course work in the major (including the topical field), all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 in anthropology. To graduate with honors in the major, they must conduct an independent research project that culminates in a 30-50 page thesis. The project includes completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester. Honors students also must take one of their anthropology courses at the graduate level.

Students working toward a B.S. may count their directed research project or laboratory practicum toward the requirements for graduation with honors, but fulfilling the research requirement for the B.S. does not by itself fulfill the honors research requirement. Students must work with their honors thesis advisor to structure their research so that it meets the added requirements of honors work.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor

The minor in anthropology requires a minimum of 15 s.h. in anthropology courses, including 12 s.h. in University of Iowa Department of Anthropology courses numbered 2000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may create a focus for the minor by completing a specialization area; see "Optional Undergraduate Tracks" above.

Certificate in Museum Studies

The Department of Anthropology administers the University's Museum Studies Program, which offers an undergraduate certificate; see Museum Studies (p. 470) in the Catalog.

Graduate Programs of Study

- Master of Arts in anthropology
- Doctor of Philosophy in anthropology

Graduate study in anthropology is open to individuals with varied undergraduate majors and training backgrounds. Students normally are admitted directly to the Ph.D. program; once they complete requirements for the M.A., their committees recommend whether or not they should continue to work toward the Ph.D.

Graduate students become competent in the discipline's four major subfields: sociocultural anthropology, linguistic anthropology, archaeology, and biological anthropology. Ph.D. students develop professional specialization for independent research and teaching in one of the subfields and may elect to pursue a focus area in feminist anthropology or paleoanthropology. Students also may choose to earn a terminal M.A. with a focus on cultural resource management—archaeology (CRM), which prepares them for a professional career in that field.

Master of Arts

The Master of Arts program in anthropology requires 30-36 s.h. of graduate credit, depending on the student's previous anthropological training. Students may count a maximum of 9 s.h. earned in courses outside anthropology toward the M.A. in anthropology. It is expected that a full-
time student will complete all M.A. requirements by the end of the second year in the program.

Master's degree students who choose to focus on cultural resource management—archaeology (CRM) normally do not go on to earn a Ph.D. in anthropology.

By the end of their first semester, each student must select an M.A. committee, consisting of an advisor and two additional professors. Each year, a student compiles, in consultation with his or her advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography; their current curriculum vitae; and a three-page narrative to describe their intellectual trajectory in the M.A. program to date.

Each student must maintain an overall g.p.a. of at least 3.00.

Master's degree students who intend to earn a doctorate should consider taking ANTH:5110 Anthropological Data Analysis or another statistics course during their M.A. study.

**GENERAL COURSE WORK**

M.A. students not pursing the cultural resource management focus must complete core seminars in all four subfields (total of 12 s.h.).

All of these:

- ANTH:5101 Seminar Sociocultural Anthropology 3 s.h.
- ANTH:5201 Seminar: Archaeological Theory and Method 3 s.h.
- ANTH:5301 Seminar: Biological Anthropology 3 s.h.
- ANTH:5401 Seminar: Linguistic Anthropology 3 s.h.

**ELECTIVES**

In consultation with the advisor and committee members, a student selects a minimum of 18 s.h. of additional course work to complete the remaining semester hours required for the M.A. Elective work may include courses in other disciplines, directed study, and up to 6 s.h. of M.A. thesis credit for students who choose the thesis option.

**Cultural Resource Management Focus**

Most archaeological excavations and surveys are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who select this focus area learn about the field and how to address related ethical issues as well as technical and theoretical challenges.

Students must complete the archeological core graduate seminar. They also must complete a thesis or equivalent paper, which is an archaeological study with a substantive data analysis directed toward an explicit archaeological research problem, suitable to meet the section three requirement for the Registry of Professional Archaeologist application form.

The cultural resource management focus requires a total of 30 s.h., including 24 s.h. of course work and 6 s.h. of M.A. thesis credit.

**REQUIRED COURSE WORK**

Both of these:

- ANTH:3240 Cultural Resources Management
- ANTH:5201 Seminar: Archaeological Theory and Method

**AREA ELECTIVES**

Two of these:

- ANTH:2165 Native Peoples of North America 3 s.h.
- ANTH:3243 Midwestern Archaeology 3 s.h.
- ANTH:3257 North American Archaeology 3 s.h.
- ANTH:3258 Southwestern Archaeology 3 s.h.
- ANTH:3260 Pleistocene Peopling of the Americas 3 s.h.
- ANTH:3265 Archaeology of the Great Plains 3 s.h.

**TECHNICAL ELECTIVES**

Four of these:

- ANTH:2205 Archaeological Methods 3 s.h.
- ANTH:3207 Animal Bones in Archaeology 3 s.h.
- ANTH:3237 Politics of the Archaeological Past 3 s.h.
- ANTH:3241 Lithic Analysis in Archaeology 3 s.h.
- ANTH:3255 Introduction to Archaeological Ceramics 3 s.h.
- ANTH:3256 Household Archaeology and Anthropology 3 s.h.
- ANTH:3295 Field Research in Archaeology (or equivalent experience) 3 s.h.
- ANTH:3305 Human Osteology 3 s.h.
- ANTH:4620 Approaches to Geoarchaeology 3 s.h.

**Doctor of Philosophy**

The Doctor of Philosophy program in anthropology requires a minimum of 72 s.h. of graduate credit. The Ph.D. balances the general anthropological competence obtained at the M.A. level with professional specialization and competence for independent research and teaching in one of four subfields: sociocultural anthropology, linguistic anthropology, archaeology, and biological anthropology. Ph.D. students also may elect to pursue a focus in feminist anthropology or paleoanthropology; see “Graduate Focus Areas” below.

**REQUIRED COURSE WORK**

Students may count a maximum of 18 s.h. earned in non-anthropology courses toward the minimum of 72 s.h. required for the Ph.D., including the maximum of 9 s.h. that may be counted toward the master's degree. They may count a maximum of 9 s.h. of independent study courses beyond the master's degree toward the Ph.D.

All doctoral students are required to take ANTH:5110 Anthropological Data Analysis or another statistics course within the first three years of graduate study, preferably during the M.A. program (first two years). They should also complete ANTH:5005 Responsible Conduct of Research in Anthropology during their third year, if they have not already done so.

All doctoral candidates must demonstrate reading and/or speaking knowledge of one foreign language before beginning dissertation research.

Students must take at least one theory course beyond the course they took to fulfill the master's degree requirements.
requirements in their specialization subfield. This course should be chosen from one of the following lists.

**Sociocultural Anthropology**

ANTH:5101 Seminar Sociocultural Anthropology 3 s.h.
ANTH:6107 Seminar: Ritual and Performance 3 s.h.
ANTH:6410 Seminar: Semiotics 3 s.h.

Most graduate seminars offered in the feminist anthropology focus area also may be used to fulfill this requirement (see "Feminist Anthropology Focus" below).

**Linguistic Anthropology**

ANTH:5401 Seminar: Linguistic Anthropology 3 s.h.
ANTH:6410 Seminar: Semiotics 3 s.h.
ANTH:6415 Seminar: Language, Gender, and Sexuality 3 s.h.

**Archaeology**

ANTH:3206 Seminar: Taphonomy 3 s.h.
ANTH:3237 Politics of the Archaeological Past 3 s.h.
ANTH:5201 Seminar: Archaeological Theory and Method 3 s.h.
ANTH:6205 Hunter-Gatherer Ethnoarchaeology 3 s.h.
ANTH:6230 Seminar: Zooarchaeology 3 s.h.

**Biological Anthropology**

ANTH:3308 Human Variation 3 s.h.
ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys 3 s.h.
ANTH:3322 Primate Evolutionary Biology 3 s.h.
ANTH:3325 Human Evolutionary Genetics 3 s.h.
ANTH:3330 Human Evolution in Africa and Eurasia 3 s.h.
ANTH:4315 Human Evolutionary Anatomy 3 s.h.
ANTH:5301 Seminar: Biological Anthropology 3 s.h.
ANTH:6505 Seminar: Paleoanthropology 3 s.h.

**PH.D. COMPREHENSIVE PROCESS**

The comprehensive process consists of preparing and defending a research prospectus and writing comprehensive essays. According to individual needs and in consultation with his or her committee, each student selects the order of completing these two tasks. Successful completion of both tasks advances the student to Ph.D. candidacy.

To remain in good academic standing, students must complete the comprehensive process by the end of their third year in the program. Students who do not adhere to this timeline are placed on departmental probation.

Working closely with his or her committee, each student prepares a formal dissertation prospectus and defends that prospectus before the Ph.D. committee. The defense is open to students and faculty who wish to attend. A copy of the student's dissertation prospectus must be made available in the department office one week prior to the defense.

Each student must write two comprehensive essays, which must be of publishable quality. One essay must concern the student's geographical area of specialization; the other must deal with his or her primary topical area. In some fields (e.g., biological anthropology), a geographical area may not be relevant and the student focuses on two topical areas. The essays are responses to questions posed by the committee in consultation with the student.

Comprehensive essays should demonstrate analysis, evaluation, synthesis, and control of a body of information (knowledge and comprehension). They should critique a major problem or debate (application and analysis), and they should develop a position on an issue and provide an explanation or theoretical justification for the position (evaluation and synthesis).

Doctoral students who have completed the comprehensive examination process are encouraged to enroll in ANTH:7501 Dissertation Writing Seminar to enhance timely progress on their dissertations.

**DISSERTATION**

All Ph.D. candidates are required to carry out original anthropological research. Students typically conduct dissertation research after defending their research prospectus and writing comprehensive essays. Dissertations usually are based on ethnographic fieldwork, archaeological excavations, or laboratory analysis. Some are based on data from archival collections, laboratory analysis, or other source materials.

**Graduate Focus Areas**

In addition to their required course work in the four Ph.D. subfields, students may complete a focus area in feminist anthropology or paleoanthropology. Each focus area reflects broad issues bridging subfields in and outside of anthropology.

Completion of a focus area indicates substantial expertise. It is recognized as a department credential and may be added to a student's curriculum vitae.

**FEMINIST ANTHROPOLOGY FOCUS**

The feminist anthropology focus offers broad training in a growing specialization area that enhances and draws from other theoretical approaches in anthropology. Graduate students in anthropology and other disciplines may explore particular aspects of the field by taking feminist anthropology courses.

Course work in the focus area emphasizes feminist perspectives, theories, methods, and analytic techniques in anthropology. It improves students' academic job prospects in anthropology and other fields, especially women's studies and gender studies. It also helps students prepare for careers in applied or public anthropology.

Feminist anthropology students take 15 s.h. of course work in the focus area in addition to their regular core requirements. The 15 s.h. should be divided between graduate seminars and elective courses as noted below.

Focus area courses also may fulfill requirements for graduate electives in anthropology.

The following list of approved courses is subject to change; contact the Department of Anthropology for updates. Students may petition to count other courses in anthropology or other disciplines toward the focus area, if the courses or the students' work in them includes significant relevant content. Petitions are reviewed by the feminist anthropology faculty.

**Graduate Seminars**
Students complete at least two of these (minimum of 6 s.h.) and may count additional graduate seminar courses as elective credit.

- **ANTH:5120 Reading Transnational Feminist Theory** 3 s.h.
- **ANTH:6125 Seminar: Feminist Ethnography** 3 s.h.
- **ANTH:6310 Anthropology of Science, Technology, and Gender** 3 s.h.
- **ANTH:6415 Seminar: Language, Gender, and Sexuality** 3 s.h.

**Electives**

Students must earn a minimum of 9 s.h. in electives and may count extra credit earned in graduate seminars toward the elective requirement.

- **ANTH:3118 Politics of Reproduction** 3 s.h.
- **ANTH:3140 Feminist Anthropology** 3 s.h.
- **ANTH:3141 Women, Health, and Healing** 3 s.h.
- **ANTH:3300 Mothers and Motherhood** 3 s.h.
- **ANTH:4140 The Anthropology of Women's Health** 3 s.h.

**PALEOANTHROPOLOGY FOCUS**

The paleoanthropology focus offers broad training that combines archaeology and biological anthropology, two traditional subfields of anthropology important in understanding the biocultural factors that have been critical in human evolution. The focus area combines course work in both biological and archaeological anthropology, complementing the specialized training that students from either subfield receive in their own specialization. Paleoanthropology courses emphasize integration of biological and cultural factors in the evolution of hominin species up to and including modern humans. They encompass primate and human evolutionary anatomy, technology and subsistence in Paleolithic archaeology, and modern human hunter-gatherers.

Paleoanthropology students take 15 s.h. of course work in the focus area in addition to their regular core requirements. The 15 s.h. should be divided between graduate seminars and elective courses as noted below.

Students may choose core seminars to fulfill requirements for both the M.A. general course work and the paleoanthropology focus.

The following list of approved courses is subject to change; contact the Department of Anthropology for updates. Students may petition to count other courses in anthropology or other disciplines toward the focus area, if the courses or the students' work in them includes significant relevant content. Petitions are reviewed by the paleoanthropology faculty.

**Graduate Seminars**

All of these (9 s.h.):

- **ANTH:5201 Seminar: Archaeological Theory and Method** 3 s.h.
- **ANTH:5301 Seminar: Biological Anthropology** 3 s.h.
- **ANTH:6505 Seminar: Paleanthropology** 3 s.h.

**Electives**

At least two of these (6 s.h. minimum):

- **ANTH:3260 Pleistocene Peopling of the Americas** 3 s.h.
- **ANTH:3305 Human Osteology** 3 s.h.
- **ANTH:3322 Primate Evolutionary Biology** 3 s.h.
- **ANTH:3325 Human Evolutionary Genetics** 3 s.h.
- **ANTH:3330 Human Evolution in Africa and Eurasia** 3 s.h.
- **ANTH:4315 Human Evolutionary Anatomy** 3 s.h.
- **ANTH:6205 Hunter-Gatherer Ethnoarchaeology** 3 s.h.
- **ANTH:6230 Seminar: Zooarchaeology** 3 s.h.

**Admission**

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the Ph.D. degree, although the department does admit students seeking a terminal M.A. Students without an M.A. in anthropology devote the first two years fulfilling the M.A. requirements. After those requirements are completed, the student’s committee may award the M.A. with admittance to the Ph.D. program.

Students with an M.A. in anthropology from another institution may proceed directly into a Ph.D. program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;
- three letters of recommendation;
- a writing sample (preferably a research paper);
- a copy of the student’s master's thesis (if applying directly to the Ph.D. program);
- an application for graduate awards; and
- official Graduate Record Examination (GRE) General Test scores from the Educational Testing Service (University of Iowa institution code 6681).

International students must send their official Test of English as a Foreign Language (TOEFL) scores from the Educational Testing Service (University of Iowa institution code 6681). Once recommended for admission, international students must send a financial statement.
Financial Support
Financial assistance, usually in the form of teaching and research assistantships, may be offered to doctoral and potential doctoral students in good standing for up to four years. Students making satisfactory and timely progress through the graduate program are in good standing. Eligibility for financial aid is reduced after two years in the M.A. program, after two years in the Ph.D. program, or after one year of postdoctoral fieldwork or research enrollment. The amount and types of aid depend on departmental needs.

Students are notified in writing of a provisional financial award before the semester or summer session for which the award has been granted. Although awards are made before the end of the previous semester, each award is contingent upon satisfactory completion of that semester's work by the awardee.

Archaeological Field Research
Under the direction of University archaeologists, students acquire skills in data recovery and interpretive techniques. Opportunities are available for students to participate in archaeological field research in France, the Netherlands, Portugal, Sicily, the U.S. Southwest, or at various sites in the U.S. Midwest. Occasional fieldwork in East and Southeast Asia is available to graduate students in the paleoanthropology research program.

Resources, Facilities
The department has access to the Iowa Archaeological Collections through the Office of the State Archaeologist and maintains its own archaeological collections (midwestern prehistoric and historical and comparative faunal material).

The department maintains a documented human osteology teaching collection amassed by the University of Iowa Carver College of Medicine and the Department of Anatomy and Cell Biology, and it holds a substantial documented human osteology research collection originally from Stanford University’s medical school that is maintained jointly with the Office of the State Archaeologist.

Individual faculty members maintain field laboratories and conduct research outside the United States, maintaining ties with research institutions in foreign countries, including the Laboratoire d’Ethnologie Préhistorique at Pincevent, France; the Centre de Recherches Archéologiques at Verberie, France; Gobabeb Research and Training Center, Namibia; the National Museum of Ethnology, Japan; the Institute of Technology Bandung (ITB), Indonesia; the Gemeente Nijmegen, Bureau Archeologie, Nijmegen, the Netherlands; and the Deutsches Archäologisches Institut of Madrid, Spain.

The department also has well-equipped laboratories for the study of archaeology, biological anthropology, computational genetics, evolutionary anthropology, a state-of-the-art multimedia linguistic anthropology laboratory, and a GIS/quantitative analysis laboratory.

The University is a charter member of the Human Relations Area Files (HRAF), an extensively annotated set of source materials on the peoples of the world—their environments, behavioral patterns, social lives, and cultures. Through HRAF and other library resources, anthropology students have access to source materials on more than 400 different cultures.

The University's exchange programs for Iowa students provide opportunities and some scholarships for study abroad.

Faculty
Members of the anthropology faculty have studied and lived in Africa, Asia, the Caribbean, Europe, Mexico and Central America, Pacific Islands, South America, and the United States. Recent field research has been conducted in Belgium, Brazil, Cameroon, China, Czech Republic, Ecuador, Fiji, France, Greece, Honduras, India, Indonesia, Italy, Japan, Mexico, Myanmar (formerly Burma), Namibia, the Netherlands, New Zealand, Peru, Philippines, Portugal, Russia, the Gambia, Vietnam, and the United States.

Current faculty interests include patterns of political and economic development of emerging nations; the trade in Mexican folk art, material culture, human rights; indigenous movements; visual culture and indigenous media; gender and the cultural politics surrounding sobriety in native North America; the gendered social consequences of sexual health treatment and research in Mexico; lesbian and gay families in the United States; the cultural production of scientific knowledge about racial/ethnic infant mortality disparities in U.S. public health; power, memory, and social inequality in ancient Iberia; language and gender; expressive culture and performance in the Brazilian Amazon; language and social justice; colonial linguistics, cultural politics of language, religion, and ethnicity; spiritual tourism in India; community and conflict, ritualization, localized religion, and environmentalism in Japan and the Amazon region; ethnic minorities in Japan; paleoanthropological investigations of Pleistocene karst caves in China and northern Vietnam; geological and paleoanthropological field surveys of the Plio-Pleistocene Sangiran Dome in Java; Neanderthal craniofacial form, function, and evolutionary history; anatomical modernity and the origins of modern humans; historical archaeology of Iowa; primate evolutionary history; faunal and spatial analyses from Paleolithic sites in France, Middle and Later Stone Age adaptations in Namibia; regional interaction and migration in late-prehistoric North America; peopling of the Americas; human impacts on the environment in North America; and Late Woodland rockshelter occupation in Iowa.

Courses
General Anthropology, Lower-Level Undergraduate

**ANTH:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**ANTH:1001 Issues in Anthropology** 3 s.h.
In-depth exploration of methodological and theoretical issues in contemporary anthropology; emphasis on critical reading of primary texts.
ANTH:1003 Anthropology of Violence 3 s.h.
Sources and manifestations of violence; violence in varied contexts—war, genocide, colonialism, state violence, terrorism, domestic violence; anthropological perspective considering structural, economic, and symbolic violence.

ANTH:1005 The Evolution of Human Sex 3 s.h.
How evolution has shaped our sexual behavior; patterns of mate choice, parental behavior, social organization, cooperation, and conflict as responses to selection pressure; sexual selection, reproductive strategies, mate choice, sex roles and practices.

ANTH:1006 Anthropology, Science Fiction, and Fantasy 3 s.h.
Connections between anthropology and science fiction and fantasy; science fiction and fantasy films and literature surveyed and examined in light of scholarly essays on anthropological concepts such as human evolution, race, gender, the anthropological other.

ANTH:1007 The Anthropology of Virtual Worlds 3 s.h.
How virtual reality intertwines with social existence; anthropological exploration of virtual worlds, from checking e-mail to setting up bar crawls on Facebook; forms of virtual identity, how virtual life affects language.

ANTH:1008 Anthropology of Immigration 3 s.h.
 Anthropological study of movements of people, goods, ideas around the world, drawing upon recent theory and ethnographic examples; topics include citizenship, family/parenting, gender, labor, economy, religion.

ANTH:1009 Anthropology of Childhood: The Production of Human Beings in the Contemporary World 3 s.h.
Examination of biological, social, historic, economic, and political aspects of childhood in the contemporary world from an anthropological perspective. Recommendations: introductory anthropology course.

ANTH:1040 Language Rights 3 s.h.
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as LING:1040.

ANTH:1046 People and the Environment: Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as GWSS:1046, GEOG:1046.

ANTH:1061 Origins of Life in the Universe (Part 2) 4 s.h.
Fundamental questions (What is the nature of life? What is evolution and how has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (astronomy, physics, geoscience, biology, chemistry, anthropology); students work with faculty from several departments to investigate these questions; inquiry-based activities build success in critical thinking, teamwork, and effective written and oral communication; second of a two-part sequence. GE: Natural Sciences with Lab. Same as ASTR:1061, BIOL:1061, EES:1061.

ANTH:1101 Cultural Anthropology 3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values, Society, and Diversity. Same as IS:1101.

ANTH:1201 Introduction to Prehistory 3 s.h.
Data, theories of evolution of human cultures from end of Pleistocene to emergence of complex societies; emphasis on prehistoric cultural information from world areas from which relatively complete sequences are available. GE: Historical Perspectives.

ANTH:1301 Human Origins 3 s.h.
Processes, products of human evolution from perspectives of heredity and genetics, evolutionary theory, human biological characteristics, fossil record, artifactual evidence, biocultural behaviors. GE: Natural Sciences without Lab.

ANTH:1305 Forensic Anthropology and CSI 3 s.h.
Role and range of techniques used in forensic anthropology; how analysis of skeletal and nonskeletal remains is used in crime scene investigation; case studies.

ANTH:1310 Human Genetics in the Twenty-First Century 3 s.h.
Organization and inheritance of human genes and genomes; genetic basis of simple and complex traits; genetic aspects of cancer; paleogenomics and tracing human migrations with DNA. GE: Natural Sciences without Lab. Same as BIOL:1311.

ANTH:1401 Language, Culture, and Communication 3 s.h.
Human language in context of animal communication; development, acquisition of language; biological base; language as a linguistic system in cultural social context. GE: Social Sciences.

ANTH:2009 Individual Study 1-3 s.h.
Readings in area or subdivision of anthropology in which student has had basic course work.

ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.
Selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. GE: International and Global Issues; Social Sciences.

ANTH:2103 Introduction to Global Health Studies 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. Same as GHS:2000.

**ANTH:2164 Culture and Healing for Future Health Professionals**  
3 s.h.
Health professions increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as GHS:2164.

**ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution**  
3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as GHS:2320.

**General Anthropology, Upper-Level Undergraduate and Graduate**

**ANTH:3001 Introduction to Museum Studies**  
3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as EDTL:3001, SIED:3001, MUSM:3001.

**ANTH:3005 Special Topics in Anthropology**  
2-3 s.h.
Problems, concepts involved in comparing and contrasting behavior and ideas of different cultures.

**ANTH:3010 Special Topics in Anthropology**  
2-3 s.h.
Problems, concepts involved in comparing and contrasting behavior and ideas of different cultures.

**ANTH:3221 Beyond the Map: Introduction to Geographic Information Systems (GIS) in Anthropology**  
3 s.h.
Software environment for managing, visualizing, and analyzing spatial relationships in anthropology; mapmaking tool; spatial organization of material culture.

**General Anthropology, Graduate**

**ANTH:5005 Responsible Conduct of Research in Anthropology**  
1 s.h.
Up-to-date documents in all subfields of anthropology regarding ethical research; CITI certification (which also qualifies as part of IRB application); key debates and current problems faced by anthropology in area of ethical and responsible research.

**ANTH:5110 Anthropological Data Analysis**  
3 s.h.
Applied statistics for quantitative analysis of anthropological data, including field notes, library materials, and archaeological information; introduction to elementary statistics and computational methods; discussion of hypothesis testing and correlation; emphasis on proper use and interpretation of statistical methods in anthropological research.

**ANTH:7109 Research Design and Proposal Writing**  
3 s.h.
Anthropological research design; preparation of proposals for fieldwork or laboratory analysis.

**ANTH:7501 Dissertation Writing Seminar**  
2 s.h.
Organization of dissertation, setting and meeting deadlines, writing a chapter, and working with advisors; completion and revision of at least one dissertation chapter; for anthropology graduate students who are beginning, or about to begin, their dissertation writing process. Requirements: anthropology graduate student who passed comprehensive exams (prospectus and essays).

**Area Studies, Lower-Level Undergraduate**

**ANTH:2108 Gendering India**  
3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as GWSS:2108.

**ANTH:2110 Latin American Economy and Society**  
3 s.h.
Development, present structure of Latin American economy and society; emphasis on rural regions in context of national development; focus on area as a whole. GE: International and Global Issues.

**ANTH:2165 Native Peoples of North America**  
3 s.h.

**ANTH:2175 Japanese Society and Culture**  
3 s.h.
Cultural anthropology of Japan, including historical tradition, religious ethos, social organization, human ecology, educational and political institutions; emphasis on how these aspects relate to and influence one another. GE: Values, Society, and Diversity. Same as JPNS:2175.
ANTH:2182 Africa: Health and Society 3 s.h.
Cultural, political, and economic diversity of African societies from precolonial period to present day; relationship between lived experiences of African people and understanding of their societies from afar; why Africa, more than any other region, is associated with warfare, hunger, and disease; idea of "Africa" in the world today; shared misunderstanding of life on continent contrasted with everyday lives of people who are not so different from ourselves.

Area Studies, Upper-Level Undergraduate and Graduate

ANTH:3108 North Korea and Totalitarianism 3 s.h.
North Korea viewed as a human society, rather than a global security threat, through examination of the nation's culture and politics.

ANTH:3111 Health in Mexico 3 s.h.
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as GHS:3040.

ANTH:3121 Love and Kinship in South Asia 3 s.h.
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Prerequisites: ANTH:1101 or ANTH:2100 or GWSS:1001 or GWSS:1002. Same as GWSS:3121.

ANTH:3142 American Cultures 3 s.h.
How anthropology has understood the diversity of non-indigenous cultures in the United States; history of anthropological engagement with the United States; racial/ethnic formations, immigration, class variations, health, sexuality, and gender. Prerequisites: ANTH:1101.

ANTH:4700 Latin American Studies Seminar 3 s.h.

Area Studies, Graduate

ANTH:5150 Graduate Seminar in Native Peoples of North America 3 s.h.
Native American studies; key current themes, anthropology's role, working with tribal communities as an anthropologist, strategies for introductory undergraduate teaching; advanced readings. Same as AINS:5150.

Sociocultural Anthropology, Lower-Level Undergraduate

ANTH:2101 The Anthropology of Love 3 s.h.
The culturally diverse concept and practice of love as seen through cross-cultural and interdisciplinary texts on romantic and other forms of love.

ANTH:2102 Anthropology of Marriage and Family 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as GWSS:2102.

ANTH:2136 Urban Anthropology 3 s.h.
Cross-cultural approach to urban anthropology; urbanizing processes, migration and adaptation, aspects of class and ethnicity in urban settings, urban economic relations. GE: International and Global Issues; Social Sciences.

ANTH:2150 Transnational Feminism 3 s.h.
Introduction to feminist perspectives from U.S. and non-U.S. contexts; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions. Same as GWSS:2150.

ANTH:2181 The Anthropology of Aging 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ASP:2181, GHS:2181.

Sociocultural Anthropology, Upper-Level Undergraduate and Graduate

ANTH:3101 Anthropology of Sexuality 3 s.h.
Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally- and historically-specific ways of having and thinking about sex. Same as GWSS:3101.

ANTH:3102 Medical Anthropology 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100. Same as GHS:3102, CBH:3102.

ANTH:3103 Environment and Culture 3 s.h.
Individual and group responses to scarcities of natural resources such as land, water, food. Requirements: ANTH:1101 or ANTH:2100 or graduate standing.
ANTH:3107 Literature and Anthropology 3 s.h.
Topics vary. Same as ENGL:3107, CL:3107.

ANTH:3109 Psychological Anthropology 3 s.h.
Cultural diversity in constructions of self, mind, and emotion; religious experience, altered states of consciousness, behavioral disorders. Prerequisites: ANTH:1101.

ANTH:3110 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as AINS:3110, GHS:3110.

ANTH:3112 Environmentalisms 3 s.h.
Alternative ways of conceptualizing the environment drawn from the ethnographic record worldwide; culturally constructed images of nature and their expression through daily activity and communicative media; inspiration for environmental activism; why such movements emerge, techniques they employ, factors that contribute to their success or failure. Prerequisites: ANTH:1101.

ANTH:3113 Religion and Healing 3 s.h.

ANTH:3114 Anthropology of Religion 3 s.h.
Approaches; religious roles; shamanism, witchcraft, curing; mythology; place of religion in social and cultural change. Same as RELS:3714.

ANTH:3116 Fictionalized Ethnography in Literature and Film 3 s.h.
Evaluation of fictional narratives as sources of ethnographic information, instructive and revealing depictions of other societies and cultures; culturally specific themes through storylines, creative works as cultural artifacts in presentations of differing perspectives and concerns from the authors' personal experiences.

ANTH:3117 Using Ethnographic Methods 3 s.h.
Ethnography, holistic, qualitative research in cultural context for anthropological and related research and careers involving interpersonal interaction; multiple ethnographic methods and their rationales. Recommendations: desire to interact with others, and prior course work in fields that employ ethnographic or qualitative research (social sciences, social work, nursing, public health).

ANTH:3118 Politics of Reproduction 3 s.h.
Debates over women's reproductive experience, including its medicalization. Same as GWSS:3118.

ANTH:3123 Making a Living: Perspectives on Economic Anthropology 3 s.h.
How different cultures and societies have organized allocation of work and goods; critical reflection of ongoing integration of world’s societies into global market system; how it has become commonplace in the U.S. to believe that unemployment and debt are natural, inevitable aspects of human social organization during contemporary era; different approaches to division of work and resources among various groups of people in other societies; different approaches to dividing up society or world resources based on existing socioeconomic models.

ANTH:3127 Anthropology of Death 3 s.h.
How anthropologists and archaeologists study death, dying, mortuary rituals, and notions of the afterlife in contemporary North America and in different places and times. Requirements: ANTH:1101 or ANTH:1201 or graduate standing.

ANTH:3130 Cultural Politics 3 s.h.
Cultural politics involved in cultural representation; varied forms of cultural performance and display; social and power relationships between producers, consumers, represented subjects. Prerequisites: ANTH:1101 or ANTH:2100.

ANTH:3131 Anthropology and Human Rights 3 s.h.
Complex history and evolving relationship of anthropology and international human rights discourses; concept deployment of culture and rights in human rights ideas, practice, discourse, and as a form of global law. Prerequisites: ANTH:1101 or ANTH:1201 or ANTH:1301 or ANTH:1401.

ANTH:3133 Anthropology of Race 3 s.h.
Anthropological perspectives on race: history of race in anthropology; social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences.

ANTH:3135 Key Debates in Sociocultural Anthropology 3 s.h.
Historical overview of sociocultural anthropological theories, exploration of key moments of critical reflections, and e-assessment of discipline; highly recommended for anthropology majors with sociocultural emphasis. Prerequisites: ANTH:1101 or ANTH:2100. Recommendations: anthropology major.

ANTH:3140 Feminist Anthropology 3 s.h.
Development and evolution of feminist critiques in cultural anthropology; readings from early studies by women ethnographers, classic writings that sought to give women cross-cultural visibility, recent experimental texts. Same as GWSS:3140.

ANTH:3141 Women, Health, and Healing 3 s.h.
Women’s experience as recipients and providers of health care: intersection of race, class, cultural variation, and women’s health; reproductive and nonreproductive health concerns. Same as GWSS:3141.

ANTH:3151 The Anthropology of the Beginnings and Ends of Life 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ASP:3151, GHS:3151.

ANTH:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ASP:3152, GHS:3152.

ANTH:3160 Global Health Seminar 3 s.h.
Local and global dimensions of health and disease. Same as GHS:3720.

ANTH:3300 Mothers and Motherhood 3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as GWSS:3300.

ANTH:4130 Religion and Environmental Ethics 3 s.h.
How humans conceptualize the biophysical environment through religious beliefs and practices; how images of the environment influence people's activities, how they are used by grassroots environmental movements. Requirements: junior or senior standing. Same as RELS:4730.

ANTH:4140 The Anthropology of Women's Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as CBH:5140, GWSS:4140, GHS:4140.

Sociocultural Anthropology, Graduate

ANTH:5101 Seminar Sociocultural Anthropology 3 s.h.
Social institutions in the world's societies; problems in theory, method, interpretation. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including colonialism, globalization, the nation-state, religion, cultural traditions, and human rights, in global and U.S. domestic contexts; interdisciplinary readings with focus on anthropology, other social sciences. Same as GWSS:5120.

ANTH:5130 Food, Culture, and Social Theory 3 s.h.
Comparative and ethnographic approach to study of food and eating; intersections between social roles and meanings of food, political economies of food, and impact of food on bodies and well-being.

ANTH:6107 Seminar: Ritual and Performance 3 s.h.
Approaches to comparative study of ritual in religious and secular contexts.

ANTH:6115 Ethnographic Field Methods 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as CBH:6115.

ANTH:6125 Seminar: Feminist Ethnography 3 s.h.
Feminist critiques of traditional ethnographies; informed by contemporary feminisms. Same as GWSS:6125.

ANTH:6141 Medical Anthropology and Social Theory 3 s.h.
How medical anthropology has both responded and contributed to key theoretical developments in recent decades, such as discourse/narrative analysis, practice theory, feminist theory, postcolonial theory, science and technology studies.

ANTH:6310 Anthropology of Science, Technology, and Gender 3 s.h.
Science and technology done in particular social and structural contexts; theoretical approaches for understanding cultures of science and social uses of technology; focus on gender-related aspects of real world cases. Recommendations: graduate standing in any discipline with interest in understanding cultural context of scientific practice. Same as GWSS:6310.

ANTH:6632 Crossing Borders Proseminar arr.

ANTH:6635 Crossing Borders Seminar 2-3 s.h.

Archaeology, Lower-Level Undergraduate

ANTH:2205 Archaeological Methods 3 s.h.
Current theoretical approaches, methods used to investigate the past; site formation processes, taphonomy, sampling and research design, typology and seriation, subsistence-settlement reconstruction, cultural evolution. Prerequisites: ANTH:1201.

ANTH:2216 Foodways and Cuisine in the Past 3 s.h.
Anthropological and archaeological perspective on cuisine; present-day links between food and culture; past cuisines viewed through written documents and archaeological data; histories of different foods.

**ANTH:2220 Archaeology of Mesoamerica** 3 s.h.
Archaeological data related to the evolution of civilization in Mesoamerica; sequence from hunter-gatherers to A.D. 1519; emphasis on Central Mexico, Maya area, Oaxaca.

**ANTH:2261 Human Impacts on the Environment** 3 s.h.
Long-term patterns of human-environment interactions surveyed through archaeological case studies; varied scales of human impacts, including animal extinction, habitat destruction, agricultural practices, urban growth, state-level societies. GE: International and Global Issues; Social Sciences.

**ANTH:2290 Practicum in Archaeology** arr.
Intensive, hands-on examination of a wide range of materials recently recovered from archaeological sites; pottery, lithics (stone tools and related items), plant remains, animal bones; for students with strong archaeological interests or archaeological field experience.

**Archaeology, Upper-Level Undergraduate and Graduate**

**ANTH:3205 Prehistoric People of the Ice Age** 3 s.h.
Hominid occupation of Old World during Pleistocene; hominid fossils, artifacts, settlement patterns, climatic reconstruction, evolutionary processes; survey and evaluation. Prerequisites: ANTH:1201.

**ANTH:3206 Seminar: Taphonomy** 3 s.h.
Taphonomy (study of fossil record in paleontology and archaeology); processes for accumulation, modification, and deposition of remains in prehistory; instruction by archaeologist and paleontologist. Requirements: graduate standing. Same as EES:3206.

**ANTH:3207 Animal Bones in Archaeology** 3 s.h.
Use of faunal material in interpretation of archaeological remains, including skeletal anatomy, identification, taphonomy, determination of age and sex, seasonality, quantification, sampling, breakage and cutmarks, interpretations; laboratory sessions. Prerequisites: ANTH:1201.

**ANTH:3235 The Stuff of Lives: Archaeology of the Material World** 3 s.h.
Ways that archaeologists and anthropologists have approached their studies of the material world and the relationship between material culture and economics, social structure, and symbolism. Prerequisites: ANTH:1101 or ANTH:1201.

**ANTH:3237 Politics of the Archaeological Past** 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as MUSM:3237.

**ANTH:3238 Archaeology of the Iberian Peninsula** 3 s.h.
Introduction to archaeology of the Iberian Peninsula, from earliest human occupation through period of Romanization.

**ANTH:3239 Tribes and Chiefdoms of Ancient Europe** 3 s.h.
Archaeology of European societies between the Mesolithic and Iron Age; how ideas about Europe's prehistoric past have been used for political purposes. Prerequisites: ANTH:1201.

**ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities** 3 s.h.
Cultural Resources Management (CRM) archaeology as the largest sector of archaeological research in the United States in terms of employment, funding, and field- and lab-related activity; investigate the past, navigate the complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to the legal, procedural, and practical foundations of CRM archaeology; prepare students for employment by acquisition of skills from project planning through dissemination of results. Prerequisites: ANTH:1201. Recommendations: completion of other anthropology, geography, history, or Native American studies courses.

**ANTH:3241 Lithic Analysis in Archaeology** 3 s.h.
Archaeological issues examined and addressed with lithic data; use of lithic data to study the past, specific techniques applied. Prerequisites: ANTH:1201.

**ANTH:3242 Archaeology of the Middle East—Prehistory and Early History** 3 s.h.
Overview of prehistoric and early historic archaeology of the Middle East; questions that underpin archaeological narrative for the region from its initial peopling through city-states and imperial formations. Recommendations: introduction to archaeology.

**ANTH:3243 Midwestern Archaeology** 3 s.h.
Comparison of cultural adaptations utilizing regional archaeological data to develop an understanding of Midwestern lifeways through time; how prehistoric peoples relate to their modern descendants in the Midwest. Recommendations: introduction to prehistory.

**ANTH:3255 Introduction to Archaeological Ceramics** 3 s.h.
Basic analytical techniques for archaeological ceramics, applied primarily to ceramics from midwestern and western North America; raw materials, manufacture, decoration and style, craft specialization, use, and discard. Prerequisites: ANTH:1201.

**ANTH:3256 Household Archaeology and Anthropology** 3 s.h.
Structure and activities of households today and in the past; what households tell us about the larger culture; how intangible aspects of households are studied through material remains. Prerequisites: ANTH:1101 or ANTH:1201 or ANTH:1301 or ANTH:1401 or ANTH:2100.

**ANTH:3257 North American Archaeology** 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as AINS:3257.

**ANTH:3258 Southwestern Archaeology** 3 s.h.
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as AINS:3258.

**ANTH:3260 Pleistocene Peopling of the Americas** 3 s.h.
Major themes in earliest human settlement of the Americas, including human mobility, subsistence, technology, human impacts on the environment.

**ANTH:3261 Our Life With Dogs: The Anthropological Study of Animals in Human Societies** 3 s.h.
Intricate connections between dogs and our social, economic, political, and spiritual lives; human relationships with dogs that extend back at least 16,000 years; process of dog domestication; roles dogs play in human ideology and past economies; modern interactions with dogs.

**ANTH:3265 Archaeology of the Great Plains** 3 s.h.
Contrasting lifeways, diets, and technologies that humans used to survive on North America's Great Plains, from Ice Age hunter-gatherers to Euroamerican homesteaders.

**ANTH:3277 Roman Archaeology** 3 s.h.
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman empire in the West, A.D. 476. Prerequisites: ANTH:1201 or ANTH:1301. Same as CLSA:3240.

**ANTH:3278 Archaeology of Ancient Cities** 3 s.h.
Archaeological exploration of ancient world cities; physical plant, social institutions, regional context, cultural influence; major cities considered include Uruk, Luxor, Athens, Rome, Alexandria, Kyongju, Loyang, Teothihuacan, and Tenochtitlan. Requirements: ANTH:1201 or ANTH:2220 or ANTH:4205 or another prehistory course.

**ANTH:3282 Animals, Culture, and Food** 3 s.h.
The varied roles animals have played in human society through time; impact of humans on animal populations, ethical aspects of animals' roles in modern societies.

**ANTH:3283 Cultures in Collision** 3 s.h.
Survey of archaeological evidence for differences in human interactions between two or more cultural groups; issues such as ethnicity, war, economy, repression, multiethnic communities.

**ANTH:3290 Special Topics in Archaeology** 3 s.h.

**ANTH:3295 Field Research in Archaeology** arr.
Beginning skills in site surveying and excavation, lab work, record keeping at nearby prehistoric sites.

**ANTH:4205 Rise of Ancient Civilization** 3 s.h.
Cultural evolution in Old World, New World; emphasis on developments from pre-agricultural societies to appearance of urban civilizations; focus on Mesoamerica, Central Andes, Near East, Egypt, Indus Valley, China.

**ANTH:4620 Approaches to Geoarchaeology** 3 s.h.
Geoarchaeology as multidisciplinary contextual framework for human paleoecology; natural processes that create the archaeological record, approaches to reconstructing landscapes of the past as a context for archaeological deposits; weekend field trip. Prerequisites: EES:3360 or EES:4720 or ANTH:3205 or ANTH:4205. Same as EES:4620.

**Archaeology, Graduate**

**ANTH:5201 Seminar: Archaeological Theory and Method** 3 s.h.
Development, current status of theory, method in Americanist archaeology. Requirements: graduate standing or undergraduate anthropology honors standing.

**ANTH:6205 Hunter-Gatherer Ethnoarchaeology** 3 s.h.
Variability in adaptations of hunter-gatherers on a global scale; emphasis on subsistence, mobility, social organization; archaeological record of prehistoric hunter-gatherers interpreted through study of modern societies. Requirements: graduate standing.
ANTH:6230 Seminar: Zooarchaeology 3 s.h.
Interpretation of faunal material in archaeology; intensive survey of classic and recent literature on taphonomy, skeletal anatomy, population parameters, seasonality, quantification and sampling, butchering patterns, ethnoarchaeology, social and economic inferences. Prerequisites: ANTH:3207.

Biological Anthropology, Lower-Level Undergraduate

ANTH:2390 Laboratory Methods in Biological Anthropology
Specimen preparation, cataloging, moulding and casting, photography, computer analyses, library research.

Biological Anthropology, Upper-Level Undergraduate and Graduate

ANTH:3305 Human Osteology 3 s.h.
The human skeletal system; normal and pathologic variation; skeletal measurement and analysis with application to paleoanthropology, forensic, and archaeological investigations.

ANTH:3306 The Neanderthal Enigma 3 s.h.
Survey of Neanderthals as the most widely known, yet enigmatic, fossil human lineage; history of discoveries; current interpretations of Neanderthal's origins, anatomy and behavior, relationship to today's people, extinction.

ANTH:3307 Modern Human Origins 3 s.h.
Current data and theories regarding the emergence of Homo sapiens; how human anatomical modernity is defined and recognized in the fossil record; competing models for modern humans' emergence—multiregional evolution, out of Africa, the assimilation model; interpretation of recent developments and discoveries in the human fossil record; contemporary contributions from genetics, developmental biology, evolutionary ecology, paleodemography.

ANTH:3308 Human Variation 3 s.h.
Range and patterning of biological diversity in contemporary human populations; past and present attempts to organize and explain human genetic, morphological variation in light of recent data, theory.

ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys 3 s.h.
Behavior, mating systems, sexual selection, and systematics of living nonhuman primates; emphasis on sexual strategies and interactions of free-ranging primates as related to ecological constraints and conservation policies.

ANTH:3322 Primate Evolutionary Biology 3 s.h.
Principles of evolution, systematics, and biogeography; application to origin and diversification of primate order; emphasis on fossil evidence and biomolecular studies for phylogenetic interpretations.

ANTH:3325 Human Evolutionary Genetics 3 s.h.
Application of molecular methods and theory to biological anthropology; how recent advances in genetics have provided insight into the evolution of human and nonhuman primates. Prerequisites: ANTH:1301.

ANTH:3326 Infectious Disease and Human Evolution 3 s.h.
Infectious disease as a central and important role in evolution of modern humans; impact of important infectious diseases on human history through primary literature. Recommendations: evolutionary theory background or interest. Same as GHS:3326.

ANTH:3327 Genes, Culture, and Human Diversity 3 s.h.
New perspectives in evolutionary theory on the origin of human biology and cultural diversity; principles borrowed from evolutionary thinking that provide insight into how cultures change, basis of human institutions, and gene-culture coevolution.

ANTH:3328 Molecular Genetics of Human Disease 3 s.h.
Disease as an unfortunate, but unavoidable, aspect of human condition; genetic nature of disease that reveals origins of inherited disease; variation of disease across the globe. Recommendations: biology or genetics course to provide substantial background knowledge.

ANTH:3330 Human Evolution in Africa and Eurasia 3 s.h.
Examination of human evolutionary past from early fossil apes to origin and diversification of hominin family and appearance of modern humans; emphasis on human evolution in Africa and dispersal through Eurasia.

ANTH:4315 Human Evolutionary Anatomy 3 s.h.
Interpretation of skeletal remains as the basis for reconstructing forms, adaptations, lifestyles of prehistoric humans; body size, musculature, stance, activity patterns, brain size, and sexual dimorphism. Prerequisites: ANTH:3305.

Biological Anthropology, Graduate

ANTH:5301 Seminar: Biological Anthropology 3 s.h.
Physical anthropology, including heredity and genetics, evolutionary theory, human biological characteristics, primate and human fossil record, primate behavior and ecology, human adaptations. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:6505 Seminar: Paleoanthropology 3 s.h.
Current understandings of biocultural processes and events underlying Pleistocene human evolution; cross-disciplinary approach combining human paleontology and Paleolithic archaeology. Requirements: graduate standing or undergraduate honors standing or advanced undergraduate standing.
Linguistic Anthropology, Upper-Level Undergraduate and Graduate

ANTH:3415 Multimedia Ethnography 3 s.h.
Skills and tools for using multimedia technologies in ethnographic research and presentations; students conduct research projects using audio and video recording equipment and develop media-based presentations; ethnographic emphasis on contextually situated social interaction. Prerequisites: ANTH:1101 or ANTH:2100.

Linguistic Anthropology, Graduate

ANTH:5401 Seminar: Linguistic Anthropology 3 s.h.
Fundamental concepts and methods employed in the anthropological study of language; principal areas of current research. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:6410 Seminar: Semiotics 3 s.h.
Piercian semiotic and Saussurean semiological conceptual frameworks; focus on anthropological, linguistic issues.

ANTH:6415 Seminar: Language, Gender, and Sexuality 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as GWSS:6415, LING:6415.

Individual Reading and Research, Upper-Level Undergraduate and Graduate

ANTH:3015 Independent Study arr.

ANTH:4995 Honors Research Seminar 2-4 s.h.
Preparation for writing honors thesis, including project conception and research, proposal writing, oral and written presentations of student research. Corequisites: ANTH:4996, if not taken as a prerequisite. Requirements: honors standing in anthropology.

ANTH:4996 Honors Research 2-4 s.h.
Project chosen in consultation with honors advisor.

Individual Reading and Research, Graduate

ANTH:6005 Independent Study: Anthropology arr.

ANTH:6010 Research: Anthropology arr.

ANTH:6015 Thesis arr.
Art and Art History

Director
• John Beldon Scott

Undergraduate majors: art (B.A., B.F.A.); art history (B.A.)
Undergraduate minors: art; art history
Graduate degrees: M.A. in art; M.F.A. in art; M.A. in art history; Ph.D. in art history
Faculty: http://www.art.uiowa.edu/people/faculty
Web site: http://www.art.uiowa.edu/

The School of Art and Art History provides a creative, multidisciplinary environment for students of the studio arts and the history of art. Established in 1936, the school is firmly grounded in the College of Liberal Arts and Sciences. It encourages interaction among its diverse faculty as well as collaboration with related disciplines across campus.

Iowa’s art and art history graduates enjoy success as practicing professional artists, professors of art history, teachers, museum directors and curators, theater designers, commercial designers, and art administrators.

The University of Iowa is restoring and replacing School of Art and Art History facilities that were damaged or destroyed by Iowa River flooding during summer 2008. Art Building West has reopened and once again houses the school’s main office. Visit the School of Art and Art History web site and ISIS for information about studio, office, and classroom sites.

Studio Art

The studio art program is based on the idea that the philosophical issues of society that are questioned and interpreted by artists are the basis for an artist’s work. The diversity of concept and style among School of Art and Art History faculty members encourages students to seek and work toward a keen understanding of themselves as individuals capable of making their own personal statements as part of the philosophical continuum in art’s history.

Studying the broad contexts in which art is made, understood, and used by society prepares studio art students to continue work in an academic setting as well as in museums, galleries, and a multiplicity of other venues. Graduate students are especially encouraged to examine the contexts of visual and verbal issues central to their own work and that of their contemporaries.

Undergraduate and graduate students select their major and minor studio art disciplines from ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Art History

Art history, a broad intellectual discipline, is central to the humanities. Diverse approaches characterize the school’s art history faculty, who have interdisciplinary ties within and beyond the University. Their primary mission is to help students develop skills for exploring issues and problems central to the history of art as a whole as well as to its specialized areas. Because the major in art history stresses the development of critical visual thinking and analytical writing, it prepares students for graduate work in art history and for other professional fields as well.

Undergraduate Programs of Study

• Major in art (Bachelor of Arts, Bachelor of Fine Arts)
• Major in art history (Bachelor of Arts)
• Minor in art
• Minor in art history

Students interested in teaching art in elementary and/or secondary schools may apply to the Art Education Program; see "B.A. and B.F.A. with Teacher Licensure" below.

Students majoring in art begin their study as Bachelor of Arts students and may apply for admission to the B.F.A. program in a process called "clearance," usually during their third year; see "Bachelor of Arts: Art" and "Bachelor of Fine Arts: Art" below.

Bachelor of Arts: Art

The Bachelor of Arts with a major in art requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in art for the B.A. provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. Students take courses in the school’s studio art programs, including ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Bachelor of Arts students majoring in art may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art and a major in art history) or a major and a minor in the school (e.g., a major in art and a minor in art history) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

Students majoring in art begin their study in the Bachelor of Arts program. Those interested in pursuing concentrated work in a specific studio art discipline may apply for admission to the Bachelor of Fine Arts program through a process called "clearance," in which the faculty evaluates the student’s readiness for B.F.A. study. Clearance usually takes place during the third year, but it may be conducted earlier or later, depending on the student’s readiness.

The major in art for the Bachelor of Arts requires the following course work. Not all courses are offered every semester, including required courses. When planning their course work, students should consult their advisors and ISIS to determine when specific courses will be offered.

ART HISTORY

Two of these:
requirements of the art major for the Bachelor of Arts.

review and specific course work that satisfies the academic advisors for information about transfer portfolio Transfer students should contact the undergraduate Transfer Students

REQUIRED ELECTIVES

Sculpture I, and TDSN:2210 Problems in 3-D Design.
Introduction to Printmaking, SCLP:2810 Undergraduate
Digital Photography, PNTG:2410 Painting I, PRNT:2610

courses include ANIM:2125 Introduction to Animation,
in the discipline is considered upper-level. Introductory courses include ANIM:2125 Introduction to Animation,

STUDIO ART 2-D COURSES

Two of these:
ANIM:2125 Introduction to Animation 3 s.h.
DRAW:2310 Life Drawing I 3 s.h.
DSGN:2110 Graphic Design I 3 s.h.
PHTO:2510 Beginning Digital Photography 3 s.h.
PRNT:2610 Introduction to Printmaking 3 s.h.

STUDIO ART 3-D COURSES

Two of these:
CERM:2010 Exploring Forms in Clay I 3 s.h.
INTM:2710 Introduction to Intermedia 3 s.h.
MTLS:2910 Introduction to Jewelry and Metal Arts 3 s.h.
SCLP:2810 Undergraduate Sculpture I 3 s.h.
TDSN:2210 Problems in 3-D Design 3 s.h.

FOUNDATIONAL STUDIO ART

Both of these, taken before the 3-D and 2-D studio art courses:

ARTS:1510 Basic Drawing 3 s.h.
ARTS:1520 Design Fundamentals 3 s.h.

STUDIO ART 2-D COURSES

Two of these:
ARTH:2975
ARTH:1000
ARTH:1080
ARTH:2975

ARTH:1040 Arts of Africa 3 s.h.
ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
ARTH:1070 Asian Art and Culture 3 s.h.

Additional art history courses:
Two art history courses not in the list above, excluding ARTH:1000, ARTH:1080, and 6 s.h.

Students may count a maximum of 12 s.h. of approved transfer credit toward the B.A. major in art.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and must present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once he or she completes the course with a passing grade.

Bachelor of Fine Arts: Art

The Bachelor of Fine Arts with a major in art requires a minimum of 120 s.h., including 62 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in art for the B.F.A. provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. It also includes a concentration in studio art.

B.F.A. students select one studio art discipline, choosing from ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture. They may not select bookbinding, calligraphy, or papermaking as their studio art discipline. Although students may choose only one B.F.A. discipline, they gain exposure to other studio areas through the B.F.A. program of study.

Bachelor of Fine Arts students majoring in art may count a maximum of 62 s.h. earned in art and art history courses toward the degree; they must earn at least 58 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice. Students are admitted to the B.F.A. program through a process called “clearance,” which is conducted once each semester; they must be admitted to the B.F.A. program at least one semester before they graduate. Students who wish to enter the B.F.A. program should consult the faculty in their major studio art discipline for information about the required portfolio review.

In order to sit for B.F.A. clearance, students must have completed:

the two studio art foundation courses ARTS:1510 and ARTS:1520:

Transfer Students

Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific course work that satisfies the requirements of the art major for the Bachelor of Arts.
one introductory course in the B.F.A. studio art discipline; and
two upper-level courses in the B.F.A. studio art discipline (students may be enrolled in the two upper-level courses when they sit for clearance).

B.F.A. students complete all requirements for the B.A. major in art plus additional studio work. They also must present a show of their work through ARTS:4195 B.F.A. Exhibition before they graduate.

The art major for the Bachelor of Fine Arts requires the following work.

**REQUIRED COURSES FOR THE BACHELOR OF ARTS**

All course work required for the B.A. with a major in art; see "Bachelor of Arts: Art" above 

39 s.h.

**ADDITIONAL STUDIO ART FOR B.F.A. STUDENTS**

All of these:

- One introductory course and three upper-level courses in the student's studio art discipline
- One introductory course and one upper-level course in a second studio art discipline
- One introductory course and one upper-level course in a third studio art discipline

**EXHIBIT**

B.F.A. students must present a show of their work during the semester in which they graduate. Variations must be approved by the B.F.A. faculty advisor and academic advisors. The show must be advertised using flyers and other media. Students planning to graduate with honors in the art major may combine their honors project and their B.F.A. show. Students must meet with faculty and academic advisors to complete the required documentation before they present their show.

**Transfer Students**

Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific course work that satisfies the requirements of the art major for the Bachelor of Fine Arts. Students may count a maximum of 21 s.h. of approved transfer credit toward the B.F.A. major in art.

**Study Abroad**

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once he or she completes the course with a passing grade.

**Bachelor of Arts: Art History**

The Bachelor of Arts with a major in art history requires a minimum of 120 s.h., including 45 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

Art history engages in problems of historical analysis and in interpretation of culture. The major in art history provides students with a strong liberal arts background and prepares them for competitive placement in graduate schools across the country. As students progress through the major, they become familiar with historical relationships between art objects and society, learn techniques of formal analysis, study patterns of patronage, and absorb methods for interpreting the meaning of paintings, sculptures, and architecture. In the course of their studies, art history majors develop their research abilities and writing skills.

Bachelor of Arts students majoring in art history may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art history and a major in art) or a major and a minor in the school (e.g., a major in art history and a minor in art) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

The major in art history requires the following course work.

**ART HISTORY**

All of these, taken before enrollment in courses numbered ARTH:2975 and above:

ARTH:1060 From Cave Paintings to Cathedrals: Survey of Western Art I 

ARTH:1070 Asian Art and Culture 

ARTH:1080 Writing About the Visual Arts 

ARTH:1095 American Indian Art 

ARTH:1050 From Mona Lisa to Modernism: Survey of Western Art II 

ARTH:1080 Writing About the Visual Arts 

ARTH:1095 American Indian Art 

Any course in a second studio art discipline 

9 s.h.
Five upper-level courses chosen from those numbered ARTH:3000 through ARTH:4941

STUDIO ART
This course:

ARTS:1510 Basic Drawing 3 s.h.

One of these:

ARTS:1520 Design Fundamentals 3 s.h.
CERM:2010 Exploring Forms in Clay I 3 s.h.
DRAW:2310 Life Drawing I 3 s.h.
MTLS:2910 Introduction to Jewelry and Metal Arts 3 s.h.
PNTG:2410 Painting I 3 s.h.
PRNT:2610 Introduction to Printmaking 3 s.h.
SCLP:2810 Undergraduate Sculpture I 3 s.h.

Transfer Students
Transfer students planning to major in art history should meet with the undergraduate advisor to discuss the requirements they may fulfill with transfer courses. Art history transfer courses must be reviewed by the head of the art history area to determine the student's placement in or exemption from required art history courses. Students may count a maximum of 15 s.h. of approved transfer credit toward the major in art history.

Study Abroad
Students who wish to study abroad must consult with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Transfer students planning to major in art history abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once he or she completes the course with a passing grade.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work will satisfy a requirement for their major; the requirement is waived if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once he or she completes the course with a passing grade.

B.A. and B.F.A. with Teacher Licensure
Art and art history majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the art or art history major and all requirements for graduation with a B.A. or B.F.A. degree. The TEP requires several College of Education courses and student teaching.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Contact the Office of Education Services in the College of Education for details.

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

B.A.: Art

Before the fifth semester begins: at least four courses in the major

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major (total of 11)

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.F.A.: Art

The Four-Year Graduation Plan is not available for the B.F.A. major in art. Students should work with their advisors to develop individual graduation plans.

B.A.: Art History

Before the fifth semester begins: at least four courses in the major

Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major (total of 11)

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in art or in art history have the opportunity to graduate with honors in their major. Honors students in the School of Art and Art History must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They also must complete an application to graduate with honors in the major.

Honors in art: In order to graduate with honors in the major, students majoring in art must complete a studio art project during the semester in which they plan to graduate. They must find a studio art faculty member willing to supervise their honors project; must display the completed project in a show; and must complete a title page, abstract, and CD of images for their project. They earn credit for the project by enrolling in ARTS:4190 Honors in Studio Art.

Honors in art history: In order to graduate with honors in the major, students majoring in art history must complete an honors project that includes an honors thesis during the semester in which they plan to graduate.
Students have two options for completing the honors project.

**Option 1:** Students take two upper-division courses with an honors contract and complete an extra project, such as an annotated bibliography, a supplemental paper or presentation, or a comparable project endorsed by the professor. Students then enroll in a third upper-division course, with or without honors contract, appropriate to their honors paper topic and ARTH:3985 Honors Research in Art History for 1 s.h. credit with the same instructor. Through enrollment in ARTH:3985, students write an honors paper of 3000 to 5000 words.

**Option 2:** Students research and write an honors paper of 5000 to 7500 words under the direction of an art history professor and they enroll in ARTH:3985 Honors Research in Art History for 3 s.h. credit. All students must have honors advisor approval before beginning work on their honors paper.

Art history students must have approval from their honors thesis advisor before they begin work on their thesis project. The thesis should conform to the Graduate College format for theses; see the Manual of Rules and Regulations of the Graduate College.

**University honors:** In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

**Minor: Art**

The minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may not count course work for the minor in art toward requirements for the major in art history, except ARTS:1510 Basic Drawing.

Art courses that may be taken include ceramics, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, sculpture, and three-dimensional (3-D) design. Two courses with the prefix ARTS are required and one art history course with the prefix ARTH may be included in the 18 s.h. required for the minor.

The minor in art requires the following course work.

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTS:1510 Basic Drawing</td>
<td>3</td>
</tr>
<tr>
<td>ARTS:1520 Design Fundamentals</td>
<td>3</td>
</tr>
<tr>
<td>At least one introductory studio art 3-D course</td>
<td></td>
</tr>
<tr>
<td>At least one introductory studio art 2-D course, except DSGN:2110</td>
<td></td>
</tr>
</tbody>
</table>

Additional introductory studio art courses or upper-level courses in the same studio art discipline(s) as the introductory 3-D and/or 2-D courses required for the minor.

**Minor: Art History**

The minor in art history requires a minimum of 15 s.h. in art history courses, including 12 s.h. earned in advanced courses taken at the University of Iowa. Courses numbered ARTH:2000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students earning a major in art and a minor in art history may not count course work for the minor in art history toward requirements for the major in art. But they may count one art history course required for the art major toward the requirements for the art history minor; they must consult with their advisors.

The minor in art history must include one survey course chosen from these:

- ARTH:1040 Arts of Africa 3 s.h.
- ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
- ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
- ARTH:1070 Asian Art and Culture 3 s.h.
- ARTH:1095 American Indian Art 3 s.h.

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art and Art History for more information about how to meet the requirements for the minor.

**Graduate Programs of Study**

- Master of Arts in art
- Master of Fine Arts in art
- Master of Arts in art history
- Doctor of Philosophy in art history

The College of Education offers an M.A. program in art education; see Teaching and Learning (p. 793) in the Catalog.

**Master of Arts: Art**

The Master of Arts program in art requires a minimum of 38 s.h. of graduate credit. The degree is offered with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, and sculpture.

M.A. students must hold a B.A. or B.F.A. in art equivalent to that offered by the University of Iowa. Undergraduate deficiencies, if any, may be made up concurrently with graduate study but do not count toward the graduate degree requirements.

The 38 s.h. of credit required for the M.A. includes at least 16 s.h. in a primary studio art emphasis; 8 s.h. in a secondary studio art emphasis chosen from one of the studio art disciplines listed above; 3 s.h. in the history and theory of art, excluding readings and directed studies; and 3 s.h. in theory, history, criticism, or philosophy, earned in courses inside or outside of the school.

M.A. students undergo a division-wide review for M.A. candidacy by the faculty during their third semester in residence. All except painting and drawing students must submit a written artist's statement or M.A. thesis.

M.A. students in intermedia and video art, and 3-D design are required to write an M.A. thesis. They may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:6000 M.A. Written Thesis, with approval of
the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements. M.A. students in other studio art disciplines choose the M.A. thesis or nonthesis option in consultation with their discipline advisor.

**Master of Fine Arts: Art**

The Master of Fine Arts program in art requires a minimum of 60 s.h. of graduate credit. The degree is offered with thesis and with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture. Students must earn at least 24 s.h. of credit for the degree at the University of Iowa, including approved credit earned for the M.A. in art.

M.F.A. students must hold an M.A. in art equivalent to that offered by the University of Iowa. Transfer credit is decided by faculty review. Following completion of the M.A., students may be invited into the M.F.A. program.

**REQUIRED COURSES**

The 60 s.h. of credit required for the M.F.A. includes at least 24 s.h. in a primary studio art emphasis; at least 12 s.h. in a secondary studio art emphasis selected from those listed above; 3 s.h. in art history and theory of art (if not already taken); and 3 s.h. in theory, history, criticism, or philosophy (if not already taken). Students must earn 8 s.h. in their primary studio art emphasis and 4 s.h. in their secondary studio art emphasis after being granted an M.A. in art.

**M.F.A. COMMITTEE REVIEW**

Students must undergo an M.F.A. committee review. They also must complete a written thesis and possibly a studio thesis. Students are reviewed by their committees at the end of the semester prior to the semester they intend to graduate.

Students are responsible for identifying a degree chair by the semester prior to the semester they intend to graduate. M.F.A. committee members are selected in consultation with the degree chair by October 1 for spring or summer graduation and March 1 for fall graduation. The committee is comprised of the degree committee chair, four members of the graduate faculty at the assistant professor rank or above, two graduate faculty members from a student’s major discipline, one graduate faculty member from a student’s minor discipline, and an additional member. Adjunct faculty, lecturers, and visiting professors may serve on degree committees with approval of the degree committee chair and a Graduate College petition request (renewable every three years).

M.F.A. students sign up for review through the graduate program coordinator. They obtain a form to be signed by both the degree committee members and a faculty member in the second emphasis studio discipline. These forms must be returned to the office no later than the University’s official midterm day by 4:30 p.m.

**M.F.A. THESIS**

A thesis abstract is given to all degree committee members and is due by November 15 for May or August graduation and by April 15 for December graduation. The thesis chair is responsible for meeting with the student immediately thereafter to direct his or her thesis content and to coordinate meeting with the full committee.

A copy of the thesis is due to all committee members before the M.F.A. exhibition to be read in its final form prior to thesis defense. The thesis must be as complete as possible including photocopies (may be black and white) of approved figures that will be included in the final thesis. The graduate program coordinator will provide a student with complete thesis/artist statement procedures, including the Graduate College calendar.

A thesis defense of the M.F.A. work must be scheduled with the M.F.A. candidate’s committee during the final semester in residence. The M.F.A. exhibition is the final examination and where the degree committee signs the final examination report.

The complete thesis in final form must be deposited for its first check in the Graduate College approximately four weeks prior to the end of the semester in which the degree is to be conferred. Graduate College regulations covering the specific requirements of the written thesis are found in the Thesis Manual.

The thesis and the signed certificate of approval are submitted by the Graduate College deadline. The certificate of approval (a page of the written thesis) must be signed by all degree committee members. The student is responsible for obtaining committee members’ signatures on the certificate of approval. Any corrections to the thesis required by the graduate examiner or the degree committee should be completed prior to the final deposit.

M.F.A. students may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:7000 M.F.A. Written Thesis, with approval of the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements.

**Master of Arts: Art History**

The Master of Arts program in art history requires a minimum of 30 s.h. of graduate credit. M.A. students are expected to acquire a broad knowledge of art history and to become familiar with major periods and monuments of world art. They also become proficient scholars, receiving training in research methods and theory necessary for subsequent scholarship at the Ph.D. level.

M.A. students must maintain a g.p.a. of at least 3.50. Only one semester of academic probation is allowed. All M.A. candidates, including transfer students, must complete at least 24 s.h. in residence at the University of Iowa.

M.A. students in art history must earn a grade of B or higher in semester-long courses numbered 3000 or above in five of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. These courses must be taken after the B.A. is granted.

M.A. students must complete a qualifying paper that demonstrates their ability to conduct scholarly research and convey ideas in writing appropriately for the discipline and for the student’s specialization field.
REQUIRED COURSES
M.A. students in art history must satisfactorily complete ARTH:4999 History and Methods during their first fall semester of enrollment and must register for an art history seminar in their first, second, third, and fourth semesters of enrollment.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Courses outside the curriculum of the School of Art and Art History’s art history division do not carry art history credit. Cross-listed courses not taught by art history faculty members also do not carry art history credit.

DIRECTED STUDIES
Directed Studies [ARTH:6040] is designed for graduate students who already have taken one or more advanced courses in a specific art history field. It provides students with an opportunity to work one-to-one with a professor to continue specific research interests developed in lecture courses or seminars, or on topics that eventually may be the subject of a thesis or dissertation. Directed Studies cannot be substituted for a lecture course already offered in the program. Students must discuss their decision to take Directed Studies with the professor involved and obtain the professor’s approval. The Directed Studies topic must be within the professor’s range of expertise.

Students meet with their Directed Studies professor once a week. The hours of work and written assignments required for Directed Studies must be equal to a comparable regularly scheduled course. Directed Studies is not available through Guided Correspondence Study.

LANGUAGE REQUIREMENT
M.A. students must demonstrate proficiency in French or German by the end of their third semester. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

M.A. COMMITTEE
The M.A. committee consists of the student's M.A. advisor and two additional tenured or tenure-track faculty members in art history.

M.A. QUALIFYING PAPER
Prior to graduation, each M.A. candidate must complete a qualifying paper on a topic that stems from a term paper written for an art history graduate seminar or a 3000-level course. The paper should be between 5,000 and 7,500 words in length (20 to 30 pages exclusive of bibliography and illustrations). A student chooses an M.A. advisor who specializes in the student’s field of concentration. In cases where a student wants to focus on a topic that involves more than one field, the art history faculty strongly recommends that the student work closely with faculty members in both fields.

FINAL EXAMINATION
The final examination constitutes an oral defense of the qualifying paper. The final examination meeting with the M.A. committee normally takes place toward the end of the student’s last semester of course work.

Doctor of Philosophy: Art History
The Doctor of Philosophy program in art history requires a minimum of 72 s.h. of graduate credit. Ph.D. students are expected to acquire great breadth and depth of knowledge in the discipline of art history, achieve a high level of expertise in a specialized field, and demonstrate professional speaking and writing skills. The program provides them with scholarly challenges, research skills, and mentoring necessary for professional development and successful careers.

Ph.D. students must maintain a g.p.a. of at least 3.50. They may count a maximum of 38 s.h. of work completed for the M.A. toward the Ph.D., excluding credit earned in language courses. Students are allowed only one semester of academic probation.

To establish academic residency, doctoral students must be enrolled full-time (at least 9 s.h.) at the University of Iowa for two semesters beyond their first 24 s.h. of graduate study; or they must enroll for at least 6 s.h. in each of three semesters during which they hold an assistantship of one-quarter-time or more. The resident rates for tuition are assessed for assistantship semesters and adjacent summer sessions.

Ph.D. students major in one of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. Students also may minor in two fields. The first minor must be in an art history distribution field that is not contiguous with the major field; the second may be in any art history distribution field or in a relevant discipline outside of art history, subject to the faculty's approval.

Ph.D. students must complete a publishable dissertation that makes an original contribution to the art history discipline and demonstrates evidence of superior understanding of critical issues in the student’s chosen specialization field.

For more detailed information, consult the Art and Art History Graduate Bulletin.

REQUIRED COURSES
Ph.D. students must satisfactorily complete ARTH:4999 History and Methods, even if they have completed a similar course at another institution (students who have completed the course for a master's degree or other previous work at Iowa are exempt). They must register for an art history seminar in their first three semesters of Ph.D. course work (or in their fifth, sixth, and seventh semesters of graduate study), before the Ph.D. readings course and comprehensive exam.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Students may count up to 6 s.h. of credit earned for dissertation research toward the 72 s.h. required for the degree. Courses outside the curriculum of the School of
Art and Art History’s art history division do not carry art history credit.

DIRECTED STUDIES

Normally, a maximum of 6 s.h. earned in ARTH:6040 Directed Studies may be applied toward the semester-hour requirement for the Ph.D., although doctoral students may petition the art history faculty for permission to apply up to 9 s.h.

LANGUAGE REQUIREMENT

Students must demonstrate proficiency in French or German for admission to the Ph.D. program. They also must demonstrate proficiency in a second non-English language relevant to their research area by the end of their third semester of Ph.D. work or before their dissertation topic is approved. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

PH.D. COMMITTEE

The Ph.D. committee consists of the student’s dissertation advisor, who is responsible for the major field; two members responsible for the two minor fields; and at least two additional members. Of these five, four must be tenured or tenure-track faculty members from the art history division. One must be from outside the division and must be a member of the Graduate College faculty. When appropriate, committees may include additional members.

COMPREHENSIVE EXAMINATION

Upon completion of course requirements, the Ph.D. candidate takes three written comprehensive examinations. The major exam consists of six questions and lasts six hours; the two minor exams each consist of three questions and last three hours. The exams are taken on any three days within one week (Monday through Friday).

The scope of the comprehensive exams is determined in consultation with the candidate’s degree committee supervisor and the committee members responsible for the two minor fields.

ORAL COMPREHENSIVE EXAMINATION

Within approximately two weeks of completing the three written exams, the candidate meets with his or her degree committee for the oral comprehensive examination, which concentrates on questions that arise from the written comprehensive exams.

DISSERTATION PROPOSAL

As soon as possible after completing the comprehensive examinations, the candidate submits a dissertation proposal to his or her degree committee supervisor and subsequently to the degree committee. The committee meets as a group with the candidate to discuss the dissertation proposal and to offer comments and suggestions. (The proposal must be submitted to the committee at least two weeks before the approval meeting.) The proposal includes a 1-2 page abstract, a 10-15 page précis (including a review of the state of the field), and a bibliography.

After the proposal has been approved by the committee, the candidate circulates an abstract to the entire art history faculty. He or she must give a public presentation on the dissertation topic no later than the end of the semester following the degree committee’s approval. The presentation is scheduled with the head of art history.

FINAL EXAMINATION

Upon completing a dissertation, which constitutes an original scholarly contribution to the field, the candidate meets with the Ph.D. committee for an oral defense of the dissertation. The oral defense constitutes the final examination for the Ph.D. The successful completion of this examination normally marks the last stage in the candidate’s fulfillment of requirements for the degree.

Admission

Prospective graduate students must meet the School of Art and Art History’s admission requirements for the specific degree programs they plan to enter. Prospective students must submit application materials to the University’s Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

Deadline dates for submission of materials to the Office of Graduate Admissions are December 15 for art history programs and January 1 for studio art programs; all are for fall admission.

Application materials should be uploaded onto a student’s admissions profile (see instructions below under “Application Procedures”). All applicants must meet the admission requirements of the Graduate College (see the Graduate College section of the Catalog) and the School of Art and Art History requirements.

SCHOOL OF ART AND ART HISTORY REQUIREMENTS

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score as follows on the Test of English as a Foreign Language (TOEFL): for studio art applicants, 81 (Internet-based); for art history applicants, at least 100 (Internet-based). All applicants must have a minimum TOEFL IBT speaking score of 26 and a listening score of 25. An application will not be reviewed if scores are lower than the requirements specify.

Prospective graduate students must meet the School of Art and Art History’s admission requirements for the specific degree programs they plan to enter. They must submit application materials to the University’s Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Although exceptions may be made when other components of the application are strong, art history applicants should have a combined verbal and quantitative score of at least 300 and an analytical writing score of at least 5 on the Graduate Record Exam (GRE) General Test. Art history applicants must have a bachelor’s degree, preferably in art history or a related field, and have an undergraduate g.p.a. of at least 3.25.

Non-native speakers of English should note that most students are financially funded through teaching, and the Iowa Board of Regents mandates that all non-native speakers of English pass an oral English test in order to
teach; the equivalent of a TOEFL iBT speaking section score of 26 is required.

APPLICATION PROCEDURES

Prospective students may apply online through the Office of Admissions web site. After submitting an application, an applicant will receive e-mail instructions on how to access his or her admissions profile on ISIS (Iowa Student Information System). An applicant then uploads the required supplemental documents through a secure portal.

Required documents:

- transcripts from all colleges and universities an applicant has attended;
- contact information for three individuals (able to assess applicants’ potential for graduate study) designated to provide letters of recommendation;
- a statement of purpose;
- an application for graduate awards, if desired; and
- an application for graduate scholarships and fellowships, if desired.

Art history applicants should supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing his or her intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member’s area of expertise, or how the art history program is especially suited to the applicant’s interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History web site.

A student who completed an M.A. at the University of Iowa and who wishes to apply to the Ph.D. program in art history must make a formal application for change of status through the graduate program coordinator. Applications are evaluated in the context of the entire applicant pool.

Studio art applicants’ portfolio requirements are listed below. Images in the portfolio should be uploaded pdf files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 1 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with an inventory list that includes each image’s name, title, medium, size, and approximate date of work, as well as the student’s name and emphasis. Applicants may supply a link to their personal web site.

Portfolio contents and submission requirements are as follows.

Ceramics, three-dimensional (3-D) design, and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.

Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.

Intermedia and video art: documentation of 5 to 10 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.

Painting and drawing: eight images in the primary studio art discipline and two in a second discipline.

Photography: 20 images in photography and two or three images in a second discipline.

Printmaking: 10-20 images.

Sculpture: 20 images in sculpture, including details, and two or three images in a second discipline.

Extreme care is taken in handling all portfolios, but the School of Art and Art History cannot be responsible for reimbursement in the event of loss or damage.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

Presidential Graduate Fellowships

The Graduate College awards Presidential Graduate Fellowships on the basis of a University-wide competition among incoming Ph.D. students. For information about the fellowships, including nomination and selection criteria and stipends, see Presidential Graduate Research Fellowship on the Graduate College web site.

Dean's Graduate Fellowships

The Graduate College awards Dean's Graduate Fellowships on the basis of a University-wide competition among graduate students. Criteria for the fellowships are similar to those for the Presidential Graduate Fellowship but are designed to support incoming students who are underrepresented in graduate education. For more information, see Dean's Graduate Research Fellowship on the Graduate College web site.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowship on the Graduate College web site.

Teaching and Research Assistantships

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising
artists and scholars. These awards are made on the same basis as teaching and research assistantships. Information and application materials for graduate scholarships and fellowships are included in the admissions package. They also are available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (graduate students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year. Applications and all relevant materials should be on file by February 1.

Student Organizations

The undergraduate Art History Society and the graduate Art History Society sponsor activities for students. The Faculty/Graduate Student Art History Colloquium meets five times each semester to focus on professional development and issues of broad interest in art.

Resources and Facilities

Reference Collections

The art library contains 100,000 volumes, an outstanding periodical collection, and an extensive microfilm and microfiche archive.

The school's Office of Visual Materials contains a rapidly growing collection of 325,000 slides, 30,000 digital images, 350,000 35mm slides, 30,000 mounted photographs, and a video collection.

Museum of Art

The University of Iowa Museum of Art has a significant permanent collection that includes major holdings of 20th-century and contemporary art, African and pre-Columbian art, English and American silver, European and American prints, drawings and photographs, and Etruscan, Iranian, and contemporary American ceramics. As well as serving as a resource for research in a wide variety of art history areas, the museum offers a program of exhibitions, lectures, and recitals.

Due to the Iowa River flooding during summer 2008, the museum's collections are being displayed in its temporary facilities. Requirements: first- or second-semester standing.

Interdisciplinary Resources

Colloquia, visiting artists and lecturer programs, and graduate workshops bring visitors to the School of Art and Art History and provide open forums for discussion of issues in art and scholarship.

Among the school's major assets is the Project for the Advanced Study of Art and Life in Africa (PASALA), an interdisciplinary program that brings together faculty with international reputations in art history, anthropology, film, history, and literature to offer courses and independent study of art in West, Central, East, and South Africa. The result is a program of unusual breadth and depth of expertise. PASALA is among the most active of such programs in the country, organizing international symposia that discuss significant topical issues and publishing the proceedings in regular issues of Iowa Studies in African Art. PASALA offers scholarships and support for research in Africa and dissertation preparation to outstanding students. A major resource for PASALA is the UI Museum of Art's Stanley Collection of African Art. Visit Art & Life in Africa to learn more.

Art history participates in the University's Crossing Borders program, which offers major financial support to designated graduate student fellows whose dissertation topics involve multiple foreign language areas. Fellows take team-taught seminars in a range of disciplines, with focus on interactions across cultural, regional, or national divides. They help plan an annual convocation, at which they and invited lecturers present their research.

The School of Art and Art History affiliates with the Department of American Studies (p. 44), giving students opportunities to study not only the history of American art but a variety of interdisciplinary programs in American history, literature, and politics. The school also is linked to the Medieval Studies (p. 467) Program, which offers an undergraduate certificate and courses in the history, literature, and culture of the Middle Ages.

Art Buildings

The University of Iowa is restoring and replacing School of Art and Art History facilities that were damaged or destroyed by Iowa River flooding during summer 2008. The school's administrative center, Art Building West, has reopened and once again is home to the school's main office as well as the Office of Visual Materials, the Art Library, an auditorium, art history classrooms, a gallery, a café, and studios for graphic design, painting, animation, and digital photography. Designed by architect Steven Holl, Art Building West has won numerous awards for its innovative design, including the 2007 American Institute of Architects Honor Award for Architecture.

Studio classrooms are temporarily housed in the Studio Arts Building, on Iowa City's south side, and planning is under way for permanent facilities to be built close to Art Building West. Visit the School of Art and Art History web site and ISIS for information about studio, office, and classroom sites.

Courses

Art History, Lower-Level Undergraduate

**ARTH:1000 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
**ARTH:1010 Art and Visual Culture**  3 s.h.
Visual analysis, media and techniques, artistic subject matter and aesthetic issues; historical periods and movements from ancient times to present; provides strong orientation to visual aspects of humanities, background for other art history courses, and introduction to visual arts for personal enrichment; for students new to art history. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

**ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives**  3 s.h.
Masterpieces of Western art—how to look at, think about, and understand some of the world’s most exciting works of architecture, painting, and sculpture; their construction, hidden meanings, historical content, and their meanings today. GE: Literary, Visual, and Performing Arts.

**ARTH:1030 Themes in Global Art**  3 s.h.
Key themes in art from a global perspective; propaganda and power, social functions of art, word and image, ritual and body decoration, artistic exchange, religion. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

**ARTH:1040 Arts of Africa**  3 s.h.
Arts, artists, and cultures of Africa; sculpture, paintings, pottery, textiles, architecture, human adornment. GE: International and Global Issues; Literary, Visual, and Performing Arts.

**ARTH:1045 African American Art**  3 s.h.
Chronological development and critical themes of African American visual culture; material culture of slave artists, history of racist imagery in the U.S., most important African American fine artists; slave dwellings, quilts, paintings, sculpture, photography; W.E.B. Du Bois’ claim to Egyptian artistic patrimony, controversial work of Kara Walker, hip-hop aesthetic of Kehinde Wiley; previous art history experience not required. GE: Values, Society, and Diversity.

**ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I**  3 s.h.
Survey to foster development of critical skills in thinking and writing about visual culture, and to familiarize students with broad outlines of artistic development in the Western tradition, from prehistory through later Middle Ages; aesthetic qualities of artworks, relationship between style, function, and meaning. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

**ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II**  3 s.h.
Survey of the Western world’s visual arts from Renaissance (ca. 1400) to present; major movements and principal masters of Western Europe and the United States in their social and historical contexts; focus on stimulation of visual literacy and familiarity with outstanding cultural monuments. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

**ARTH:1070 Asian Art and Culture**  3 s.h.
Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as CHIN:1070.

**ARTH:1080 Writing About the Visual Arts**  3 s.h.
Opportunity to develop understanding of and skill in using visual-arts writing conventions and linguistic competencies that are necessary for academic and professional success; formats such as exhibition reviews, art criticism, research writing, artist’s statements; experience through exercises, formal essays, revision, workshops. Requirements: fulfillment of General Education rhetoric requirement.

**ARTH:1090 Earthly Paradises: A Global History of Gardens**  3 s.h.
Fundamental and universal question—what is the relationship between humanity and nature; how ornamental garden has functioned as a metaphor for paradise across time and among diverse cultures; basic tools to analyze any landscape design; how artful manipulation of nature has served to express various political, religious, and social ideals across the globe; comprehensive and chronological survey of garden design development. GE: Historical Perspectives.

**ARTH:1095 American Indian Art**  3 s.h.
Sculpture, painting, architecture, crafts, arts of personal adornment of native peoples of North America. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

**ARTH:2020 Introduction to Western Architecture**  3 s.h.
Overview of monuments, Neolithic period to present; aesthetic and structural principles, major styles, architects.

**ARTH:2030 Introduction to American Architecture**  3 s.h.
Characteristics of American public, domestic, and industrial architecture as evolved from Native American contact period to present; visual features of American-built environment and social, political, and economic factors that shaped development; design contributions of individual architects, impact of new technology, and growth of architectural profession.

**ARTH:2160 Introduction to Art and Life in Africa**  3 s.h.
Masks and sculpture; techniques used to create art (pottery, weaving, carving, brass casting, iron smelting and forging, architecture); videos of art used in performance and African artists creating art; readings of African novels, including Things Fall Apart by Nigerian novelist Chinua Achebe; daily life in Africa (farming, building houses, cooking, education, child rearing, funerals, religion) and other aspects of life that give context to art created by African artists.

**Art History, Upper-Level Undergraduate and Graduate**

An introductory course in the appropriate art history area or consent of instructor is prerequisite for some courses numbered above 3000. Courses titled "Themes in ..." consider topics of current interest in the field, organized thematically rather than chronologically.

**ARTH:3000 Digital Approaches to Art History I**

Digital approaches to study of art history; emphasis on cultural identity.

**ARTH:3020 Paris and the Art of Urban Life**

City of Paris examined in varied historical, artistic, cultural contexts; interdisciplinary. Same as FREN:3030.

**ARTH:3030 History of Prints**

Printmaking as important art form, influential carrier of styles and iconography from area to area; focus on Europe; history of prints from prehistoric times to present.

**ARTH:3056 Italian Baroque Visual Culture**

Visual culture of 17th-century Italy contextualized; major media (painting, sculpture, architecture) by leading artists (Bernini, Borromini, Caravaggio, Cortona); full range of material culture, including minor and decorative arts; use of imagery by individual and institutional patrons for the persuasive purpose of political and social advancement; ideological utility of art as a recurring theme, underscoring the Baroque antecedents of media manipulation of our own time.
ARTH:3070 Themes in Baroque-Era Art 3 s.h.
Topics and themes in baroque-era art.

ARTH:3080 Marketing, Promoting, Politicking Contemporary Public Art 3 s.h.
How public art projects are conceived, created, and paid for; projects sponsored and funded by federal, state, and local governments and private businesses 1960 to present; projects' operational structures, how artists are selected; Vietnam Veterans Memorial, Serra's Tilted Arc, recent projects. Same as MUSM:3080.

ARTH:3085 Principles of Historic Preservation of the Built Environment 3 s.h.
Overview of practical and theoretical principles of historic preservation of the built environment; hands-on fieldwork, archival research, and document preparation; evolution of historic preservation in America and its controversies.

ARTH:3090 Contemporary Architecture 3 s.h.
Quality of contemporary-built environments in America, Western Europe, Asia, and Middle East from 1970 to present; stylistic evolution of postmodern design, new urbanism, sustainable architecture; impact of literary and cultural theory on contemporary practitioners such as Daniel Libeskind, Steven Holl.

ARTH:3100 Themes in 18th- and 19th-Century European Art 3 s.h.
Themes and topics in 18th- and 19th-century European art.

ARTH:3103 Art of the Pacific Islands 3 s.h.
Visual arts of peoples of the Pacific islands (Polynesia, Micronesia, Melanesia); Hawaii, Tahiti, the Marquesas Islands, New Guinea, New Ireland, New Britain, Fiji, Tonga, and Marshall, Marianas, and Gilbert islands in Micronesia; focus on art in social context; history of human occupation on these islands dating back to 2500 B.C.; architecture, figurative sculpture, pottery, textiles, canoe building; results of encounters between Europeans and Pacific Islanders.

ARTH:3120 The Art of Ancient Mexico 3 s.h.
Art and architecture of Mexico and Peru before Cortéz.

ARTH:3150 Art of West Africa 3 s.h.
How art is used to solve problems and mark important passages in life.

ARTH:3160 Themes in African Art 3 s.h.
Survey of African architecture; structures throughout continent ranging from rock-cut churches of Ethiopia to elaborately painted Ndebele homes of South Africa; four areas of African architecture (ancient, traditional, Islamic, contemporary); function, materials, aesthetic choices of architecture and how they reflect social, religious, political, and economic situations of people who constructed it.

ARTH:3161 Themes in Ancient Art 3 s.h.
Themes and topics in ancient art.

ARTH:3170 The Art of Central Africa 3 s.h.
Artistic production and media in Central Africa categorized by geographies but examined from perspectives of innovation, power, gender, performance, ancestry, religious beliefs, technology, death, and the body; breadth of Central Africa's artistic production, art history, and terminology; 20th-century debates around African art.

ARTH:3197 Themes in Modern and Contemporary Art 3 s.h.
Topics and themes in modern and contemporary art.

ARTH:3220 Chinese Art and Culture 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Prerequisites: ARTH:1060 or ARTH:2220. Same as ASIA:3219.

ARTH:3230 Chinese Painting I: Pagodas and Palaces 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ASIA:3220.

ARTH:3240 Chinese Painting II 3 s.h.
History of painting in China during the Song Dynasty (960-1279 C.E.) and later; emphasis on art of later centuries to present time in its historical and cultural contexts.

ARTH:3260 Japanese Painting 3 s.h.
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Same as JPNS:3260.

ARTH:3270 Themes in Asian Art History 3 s.h.
Same as ASIA:3270.

ARTH:3310 Celtic and Viking Art 3 s.h.
Art and architecture of Celts and Vikings from prehistory to Middle Ages.

ARTH:3320 Egyptian Art 3 s.h.
Sculpture, painting, architecture, and luxury arts from Pyramid Age to Death of Cleopatra. Same as RELS:3704.

ARTH:3325 Kings, Gods, and Heroes: Art of the Ancient Near East 3 s.h.
Arts, kings, and cultures of Mesopotamia, Syria, and Iran; sculpture, seals, pottery, metalworking, architecture.

ARTH:3330 Classical Greek Art 3 s.h.
Art, sacred architecture from early Classical through late fourth century B.C.E.; Athens in the Golden Age. Same as CLSA:3227.

ARTH:3340 Greek Vase Painting 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E.

ARTH:3350 Art of Early Rome: Patrons and Politics 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as CLSA:3232.

**ARTH:3360 Art of the Ancient Roman Empire**
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as CLSA:3233.

**ARTH:3370 Art and Culture in Ancient Pompeii**
Art and architecture, as documents of ancient society and religion in towns destroyed by Mount Vesuvius in C.E. 79. Same as CLSA:3234.

**ARTH:3375 Birth of the Holy Land: Art and Architecture in the Ancient Middle East**
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as RELS:3375.

**ARTH:3380 City of Rome: Image and Ideology**
Myth of the city of Rome as seen in paintings, sculpture, architecture, urbanism, and cinema from early Renaissance to Mussolini; focus on urban topography and mythic origins; the divinely-ordained destiny of Rome in God's providential plan for humanity; raw imperialism of Italian fascism as manifested in the visual legacy of the city; ideological underpinnings of the city's major institutions (the papacy, municipal government, Italian monarchy) and the fascist state as supported through the appropriation of the myth of Rome.

**ARTH:3385 Baroque Rome: Caravaggio, Bernini, Borromini**
Rome and its institutions as reflected in the careers of its three most revolutionary artists.

**ARTH:3390 Early Medieval Art**
Complex artistic traditions that developed roughly between 300 and 1000 in territories once governed by the Roman Empire and in areas of northern Europe directly influenced by Western Christian tradition; period as not simply a "Dark Age," but a pivotal chapter in history of Western art and culture; group discussion, individual research topics.

**ARTH:3391 Themes in Medieval Art**
Themes and topics in medieval art.

**ARTH:3420 Gothic Architecture**
Gothic architecture and its history, from varied perspectives (e.g., formal structural, symbolic, geometric, socioeconomic).

**ARTH:3520 The Sculptural Origins of Michelangelo**
Visual and cultural origins of Michelangelo's sculpture, painting, and architectural designs; role that Michelangelo and his work played as a visual artist, poet, and religious reformer in culture of Florence and Rome in the 16th century; reasons for Michelangelo being a dynamic influence in all of the arts through the contemporary period.

**ARTH:3530 The World of Giotto and Dante**
Painting, sculpture, and architecture 1250-1400.

**ARTH:3550 Leonardo, Raphael, and Their Contemporaries**
The arts in Italy 1485-1550.

**ARTH:3630 Themes in Renaissance Art**
Themes and topics in Renaissance art.

**ARTH:3640 The Artist in the Studio: Allegory and Reality from Renaissance to Modern**
Changing needs of a growing modern secular leisure class, demonstrated in works of art that depict artists at work in their own environment and the popularity of artist's self-portraits; significance of subject category in understanding changes in perception of social, economic, and political roles of visual artists and visual arts traced from Leonardo, Michelangelo, and Raphael to Velasquez, Rubens, Rembrandt, Vermeer, Picasso, Matisse and others; literary, musical, and theatrical arts.

**ARTH:3650 Seventeenth-Century Dutch and Flemish Painting**
Painting in the age of Rubens, Rembrandt, Vermeer; rise of landscape, still life, genre.

**ARTH:3700 David to Delacroix: Art in the Age of Revolutions**
Developments in French art and culture in a period of artistic, cultural, and political upheavals from French Revolution through Napoleonic Empire to founding of Second Empire in mid-19th century; intersections of art with aesthetics, culture, and politics; role of psychology, biology, natural sciences in art; use of myth; rise of modernism; changes in patronage; new role of museums and galleries; innovations in printmaking, book illustration, caricature; artists include David, Girodet, Gros, Ingres, Gericault, and Delacroix, among others.

**ARTH:3720 The Romantic Revolution**
Transformations in European art and culture 1750-1850, an age of artistic, political, cultural, intellectual crisis and revolutions; major artists, including David, Ingres, Gericault, Delacroix, Goya, Freidrich, Constable, Turner.

**ARTH:3730 Realism, Impressionism, Post-Impressionism**
Naturalism, Realism, the Impressionist landscape, painting of modern life, new trends in subjectivity and exoticism mid- to late-19th-century European art and culture; Courbet, Manet, Degas, Monet, Renoir, Seurat, Cezanne, Van Gogh, Gauguin, Ensor, Munch.
ARTH:3740 Manet to Matisse 3 s.h.
Development of modernism and the avant-garde in late 19th- and early 20th-century Paris; intersection of innovation and tradition, literature and art; role of theory and criticism in works of Manet, Degas, Seurat, Cezanne, Gauguin, Rodin, Matisse, and Picasso.

ARTH:3820 Modern Art 3 s.h.
Development of modern art from early years of 20th century through 1960s; focus on painting, sculpture, architecture, photography; traces progress of Modernism; exploration of major movements including Fauvism, Cubism, Surrealism, Abstract Expressionism, Pop Art, Minimalism.

ARTH:3830 Late Modern Art 3 s.h.

ARTH:3840 Contemporary Art 3 s.h.
Painting, sculpture, architecture, and photography; developments during late 1960s to present; conceptual art, performance art, neo-abstraction, and picture/theory art with each approached from a global perspective.

ARTH:3850 Pop Art 3 s.h.
Survey of pop art in America, Britain, Europe; focus on developments in painting and sculpture 1950s to early 1960s; continuing influence of Pop Art.

ARTH:3860 Minimalism 3 s.h.
Survey of Minimalism; focus on developments in painting and sculpture during 1960s; continuing influence.

ARTH:3864 Nazi and Stalinist Art: Aesthetics of Power 3 s.h.
Manipulative power of art, architecture, urbanism, and film in 20th-century totalitarian regimes—Italy, Germany, and Stalinist Soviet Union as well as Madrid, Warsaw, Beijing, Pyongyang, Baghdad; dark side of art and its transnational character, particularly in architecture and urban planning; nature of propaganda and state-sponsored art, responses to modernism and industrialization, allure of militarism and empire, uses of historicism, role of public ritual and mass spectacle in totalitarianism; common currency of totalitarian art across national groups, cultures, ideologies; how aesthetics function as tools of modern autocracies, with lessons for ailing 21st-century democracies.

ARTH:3870 African American Art and Architecture 3 s.h.
Visual and material culture of African Americans, including painting, sculpture, decorative arts, and film, examined from aesthetic and ideological perspectives.

ARTH:3880 American Print Culture 3 s.h.
Exploration of a wide range of imagery printed and published in the United States during 19th century (1776-1900); fine art original prints, popular imagery in periodicals and illustrated books, scholarly literature, history of evolving technologies, variety of printed work; shifting reputation of printed art and its makers.

ARTH:3920 National Images: American Art to 1865 3 s.h.
Painting, sculpture, and architecture from colonial times to Civil War.

ARTH:3930 American Renaissance and the Gilded Age 3 s.h.
Architecture, painting, and sculpture, 1865-1913.

ARTH:3940 American Western Art 3 s.h.
Painting and sculpture of western United States, primarily from Euro-American perspective.

ARTH:3950 Modernism and Early Twentieth-Century American Art 3 s.h.
American responses to European Modernism in painting, sculpture, architecture, and photography.

ARTH:3960 Modern Architecture 3 s.h.
Survey of architectural developments from 1890 to 1977. Focus on intersections of new technology, artistic theory, and social practices on modern European and American architecture, 1890 to 1977.

ARTH:3970 African American Art and Architecture 3 s.h.
Visual and material culture of African Americans, including painting, sculpture, decorative arts, and film, examined from aesthetic and ideological perspectives.

ARTH:3980 American Print Culture 3 s.h.
Exploration of a wide range of imagery printed and published in the United States during 19th century (1776-1900); fine art original prints, popular imagery in periodicals and illustrated books, scholarly literature, history of evolving technologies, variety of printed work; shifting reputation of printed art and its makers.

ARTH:3990 Topics in Art History 3 s.h.
Varied topics.

ARTH:3995 Independent Study in Art History 3 s.h.
Advanced work in art history.

ARTH:4010 Critical Theory 3 s.h.
Influence of art theory on recent art practice; critics and philosophers whose ideas have been particularly important to the process of putting art and its histories into greater social and political context—Theodor Adorno, Walter Benjamin, Roland Barthes, Jacques Derrida, Michel Foucault, Jean-Francois Lyotard, Jurgen Habermas, Jean Baudrillard, Terry Eagleton, Michael Fried, T.J. Clark, Rosalind Krauss, and Homi Bhabha; general influence of feminism, poststructuralism, postcolonialism, and postmodernism.

ARTH:4040 Art, Law, and Ethics 3 s.h.
How law and ethics apply to individuals and institutions concerned with the visual arts. Same as LAW:8163.

ARTH:4081 The Art Museum: Theory and Practice 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Museum of Art collections. Same as MUSM:4081.
Architectural and urban development of Chicago; how changing visions of this most-American of cities has been influenced by aesthetic, social, political, economic factors; early settlement patterns, impact of the Great Fire of 1871, skyscraper technology, Daniel Burnham's 1909 Plan, Bungalow Belt, park system; larger history of American city in terms of its architectural, urban, and landscape development.

**ARTH:4941 American Landscape Art** 3 s.h.
Landscape from 1750 to present, emphasis on 19th century; land and its use fundamental to the history and culture of the United States as American art subjects, American art in the period of territorial expansion in 19th century; major movements of landscape aesthetics, artistic treatments, historiography.

**ARTH:4999 History and Methods** 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological issues. Offered fall semesters.

**Art History, Graduate**

**ARTH:6000 History and Methods** 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological paradigms and trends.

**ARTH:6020 Art History Colloquium** 1 s.h.
Current topics and research in art history. Requirements: art history graduate standing.

**ARTH:6040 Directed Studies** arr.

**ARTH:6080 M.A. Written Thesis** arr.

**ARTH:6085 Seminar: Problems in Architectural History** 3 s.h.
Key themes, architects, and literature that informs the history of the built environment in varied cultural contexts.

**ARTH:6110 Seminar: Problems in African Art** 2-3 s.h.

**ARTH:6300 Seminar: Problems in Ancient Art** 3 s.h.
Key themes and issues in ancient art. Same as CLSA:6200.

**ARTH:6440 Seminar: Problems in Medieval Art** 3 s.h.
Major issues, methodologies.

**ARTH:6640 Seminar: Problems in Baroque Art** 3 s.h.

**ARTH:6740 Graduate Seminar: Nineteenth-Century Art** 3 s.h.

**ARTH:6840 Seminar: Modern/Contemporary Art** 3 s.h.
Major issues, methodologies.

**ARTH:6940 Seminar: Problems in American Art** 3 s.h.

**ARTH:7010 Ph.D. Readings** arr.

**ARTH:7020 Ph.D. Thesis** arr.

**Studio Art**

Courses numbered below 3000 are primarily for undergraduates and may not be repeated unless noted on ISIS. Some courses numbered 2000-3000 are repeatable. Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all studio courses for art majors.

**Animation, Lower-Level Undergraduate and Graduate**

**ANIM:2125 Introduction to Animation** 3 s.h.
Introduction to animation and its role in contemporary creative practice; focus on historical and technical principles of traditional 2-D animation, 2-D digital animation, and 3-D computer animation; creative, conceptual, and technical facets of animation practice; conceptualize and execute animations using processes and methods currently integrated into contemporary time-based art practice. Prerequisites: ARTS:1510 and ARTS:1520.

**ANIM:3125 Animation I** 4 s.h.
Continuation of ANIM:2125; focus on technology of 3-D animation; 3-D modeling, texturing, animation, rendering and lighting; projects cover creative, conceptual, and technical facets of 3-D animation pipeline; conceptualize and execute projects using processes and methods currently integrated into 3-D animation industry through lectures, critiques, computer software, screenings, and labs. Prerequisites: ANIM:2125.

**ANIM:3130 Professional Practices in Animation and Gaming Studios** 2 s.h.
Experiential learning experience through immersion in professional animation and gaming studios that blend technology, art, and design; behind-the-scenes meetings with professionals, equipment, and processes involved in creating major animated and video game works; studio and museum visits to gain understanding of technology and art, professional studio culture, and innovative design; animation history, studio culture, entertainment artistry, art technology, and contemporary art. Prerequisites: ARTS:1510 and ARTS:1520.

**ANIM:3135 Animation II** 4 s.h.
Continuation of ANIM:3125; focus on technology of 3-D animation; 3-D modeling, texturing, animation, rendering and lighting; projects cover creative, conceptual, and technical facets of 3-D animation pipeline; students conceptualize and execute projects using processes and methods currently integrated into 3-D animation industry through lectures, critiques, computer software, screenings, and labs. Prerequisites: ANIM:3125.
General Art, Lower-Level Undergraduate

ARTS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTS:1001 CLAS Master Class 1-3 s.h.
Exploration of a single topic in a series lectures by faculty presenting divergent perspectives; illuminates intellectual adventure inherent in liberal arts and sciences; encourages discovery of majors and other areas of study within the College of Liberal Arts and Sciences. Same as CLAS:1001, RELS:1010, THTR:1001, CS:1001, CSD:1001, PHIL:1001, ENGL:1001, BIOC:1001.

ARTS:1010 Elements of Art 3 s.h.

ARTS:1020 Elements of 3-D Design 3 s.h.
Introduction to 3-D design using drafting, modeling, and virtual reality software; basic concepts of drafting, planning, and color theory; basic Auto CAD, 3ds Max Studio, Vizard, InDesign software; students design an object to be printed 2-D and 3-D and a conceptual space to be printed 2-D and experienced virtually; student journal and portfolio. Requirements: non-art major.

ARTS:1030 Elements of Jewelry and Metal Arts 3 s.h.
Fundamental 3-D design principles and appreciation of contemporary jewelry and metal art works; techniques and materials in jewelry and metal arts; experimentation with diverse media. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1040 Elements of Media Art 3 s.h.
Introduction to production, history, and aesthetics of video and moving-image art; demonstrations, workshops, screenings, critiques; shooting and editing two production projects. Requirements: non-art major.

ARTS:1050 Elements of Printmaking 3 s.h.
Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1055 Elements of Foil Imaging 3 s.h.
Printmaking experience using the Iowa Foil Printer; aesthetic and technical research, documentation in Foil Imaging...A New Art Form; hands-on opportunity to explore new dimensions of visual expression. Requirements: non-art major.

ARTS:1060 Elements of Digital Photography 3 s.h.
Introduction to history, aesthetics, and practice of photography as a fine art; includes demonstrations, workshops, critiques, final portfolio; photography time outside of class; digital camera required. Requirements: non-art major.

ARTS:1070 Elements of Graphic Design 3 s.h.
Introduction to concepts and principles of graphic design and contemporary approaches to effective visual communication; demonstrations, workshops, critiques, final portfolio.

ARTS:1080 Elements of Sculpture 3 s.h.

ARTS:1400 The Passport Project: Exploring Iowa and Iowa City 1 s.h.
Attendance and discussion at 12 events of student's choice, selected from the University and Iowa City's rich cultural offerings. Same as CSI:1400.

ARTS:1450 Exploring Iowa and Iowa City: Passport Project Colloquium 1-2 s.h.
Opportunities for peer mentors involved in ARTS:1400 and CSI:1400; activities including short readings and media screenings related to innovative and best practices in learning and teaching; emphasis on multi-modal writing online for peers; informal presentations and reflections; may include work with Passport Projects students, collaboration on development of guidelines and handouts for best practices in writing, and supplemental writing reflections. Same as CSI:1450.

ARTS:1500 Media, Social Practice, and Design Studio Foundations 3 s.h.
Introduction to key principles and skills in graphic design, photography, and video.

ARTS:1510 Basic Drawing 3 s.h.
Two-dimensional visual language, media; space, form; color. Requirements: art major or art minor.

ARTS:1520 Design Fundamentals 3 s.h.
Two- and three-dimensional concepts and their relations; working with basic drawing instruments; problems in visual arts; artists’ philosophies and techniques. Requirements: art major.

ARTS:1560 Art Student Ambassador Seminar 0-1 s.h.
Ambassadors provide information about the School of Art and Art History to incoming and visiting students, University community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and develop materials for incoming students. Requirements: art major.

ARTS:1570 Internship Experience: Undergraduate 1-3 s.h.
ARTS:2000 Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; integration of teamwork and opportunities for individual growth that allow for personal development; identification of ways for students to be more creative in their own lives and work. Same as ASP:2000, RHET:2000, EDTL:2000.

General Art, Upper-Level Undergraduate and Graduate

ARTS:3230 Scene Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3-D models, simple sketches, and drafting. Same as THTR:3230.

ARTS:3320 Introduction to Sequential Art: Comics/Graphic Novels 3 s.h.
Overview of contemporary American comic artists, history of comics and graphic novels in the United States; genres and structures in sequential art; students create works that combine design, images, texts, story. Requirements: satisfaction of rhetoric requirement.

ARTS:3400 Grant Writing in the Arts 3 s.h.

ARTS:4190 Honors in Studio Art 0-3 s.h.
Research, preparation, and exhibition of an honors project in studio art. Requirements: studio art major, Ul g.p.a. of at least 3.33, and art g.p.a. of at least 3.50.

ARTS:4195 B.F.A. Exhibition 0 s.h.
B.F.A. students present a show of their work in final semester; use of flyers and other media to advertise show; meetings with faculty and academic advisors to complete required documentation; students planning to graduate with honors in the art major may combine honors project and B.F.A. show; variations require approval by B.F.A. faculty advisor and academic advisors. Requirements: B.F.A. standing in final semester.

ARTS:4200 Topics in Studio Arts 1-3 s.h.

ARTS:4390 Book and Publication Design 3 s.h.
Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: UICB:4300 or DSGN:3120. Same as UICB:4390.

General Art, Graduate

ARTS:5330 Letterpress III: Imagemaking 3 s.h.
Builds on skills acquired in UICB:4300 and UICB:4380; advanced work in fine press book design and image-making processes for fine press printing. Prerequisites: UICB:4380. Same as UICB:5330.

ARTS:5340 Letterpress III: The Handprinted Book 3 s.h.
Exploration of problems in hand-printing books—choice of manuscript, editing, design, typesetting, proofreading, printing and binding; histories of printing and of the book, emphasis on 20th- and 21st-century book design and literature. Prerequisites: UICB:4380. Same as UICB:5340.

ARTS:6000 M.A. Written Thesis 1 s.h.

ARTS:6190 Graduate Independent Study arr.
Individual instruction by a faculty member.

ARTS:7000 M.F.A. Written Thesis 1 s.h.

Ceramics, Lower-Level Undergraduate

CERM:2010 Exploring Forms in Clay I 3 s.h.

CERM:2020 Exploring Thrown Forms in Clay II 3 s.h.
Basic wheel-throwing techniques; clay, glaze formulation and preparation in kiln firing. Prerequisites: CERM:2010.

Ceramics, Upper-Level Undergraduate and Graduate

CERM:3010 Advanced Clay Forming III 4 s.h.
Advanced throwing techniques; larger scale, more professional goals; projects may be more sculptural or one of a kind. Offered fall semesters. Prerequisites: CERM:2010 and CERM:2020.

CERM:4010 Advanced Clay Forming IV 4 s.h.
Advanced individual projects. Offered spring semesters. Prerequisites: CERM:2020 or CERM:3010.
### Art and Art History

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>CERM:4020 Ceramic Materials and Effects</strong></td>
<td>4 s.h.</td>
<td>Empirical, practical methods of glaze and body formulation; effects of various types of kilns and firing atmospheres on glaze materials, clay bodies; digital imaging used for testing and documenting results. Offered fall semesters of even years. Prerequisites: CERM:3010.</td>
</tr>
</tbody>
</table>

| **CERM:4030 Undergraduate Ceramics Workshop** | 3-4 s.h. | Advanced undergraduate studio; critiques of student work and electronic portfolio development, visiting artist participation; may include field trips. Prerequisites: CERM:4010. |

| **CERM:4040 Kiln Building** | 4 s.h. | Kiln theory, design, construction methods; may include participation in kiln construction. Offered fall semesters of odd years. Prerequisites: CERM:3010. |

| **CERM:4050 Concepts: Materials and Installation** | 4 s.h. | Exposure to contemporary methods of working in clay, develop critical thinking skills that move clay into the realm of conceptual work, develop a personal direction in the medium; conceptual development and material exploration; set clay side by side with other materials and mediums; demonstrate dedication to the work and to the development of mature ideas and forms of expression. Prerequisites: CERM:3010. |

| **CERM:4099 Undergraduate Individual Instruction** | 1-3 s.h. | Individual instruction in ceramics for advanced students. |

### Ceramics, Graduate

| **CERM:6075 Ceramics Workshop** | 3-4 s.h. | Advanced graduate studio; critique of student work; visiting artists, field trips. Prerequisites: CERM:4010. |

| **CERM:6099 Graduate Individual Instruction in Ceramics** | arr. | Requirements: knowledge of clay and glaze computation, and ability to fire kilns. |

### Design, Lower-Level Undergraduate

| **ARTS:1510 Basic Drawing** | 3 s.h. | Fundamentals are prerequisites for all design courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors. |

| **DSGN:2110 Graphic Design I** | 3 s.h. | Basic principles, techniques, and applications of graphic design, typography, composition, visual perception; creative, problem-solving aspects of graphic design. Prerequisites: ARTS:1510 and ARTS:1520. |

### Design, Upper-Level Undergraduate and Graduate

| **DSGN:3110 Graphic Design II** | 4 s.h. | In-depth study and exploration of graphic design as creative and problem solving tool of visual communication; translation of ideas and concepts into comprehensible visual language. Prerequisites: DSGN:2110 and DSGN:3120. |

| **DSGN:3120 Typography** | 4 s.h. | Introduction to letterform and typographic fundamentals; designing with type—attention to composition, hierarchy, historical practice. Corequisites: DSGN:2110, if not taken as a prerequisite. Same as UICB:3310. |

| **DSGN:3130 Web Site Design I** | 3 s.h. | Designing for the World Wide Web; composition, manipulation, organization of type and images; projects, demonstrations, discussions. Prerequisites: DSGN:2110 and DSGN:3120. |

| **DSGN:4110 Graphic Design III** | 4 s.h. | Continuation of DSGN:3110; graphic design knowledge and skills applied to complex design problems such as visual identity, packaging, information design. Prerequisites: DSGN:3110 and DSGN:3130. |

| **DSGN:4130 Web Site Design II** | 4 s.h. | Continuation of DSGN:3130; in-depth exploration and study of graphic design principles and their application in online and interactive media; further development of HTML, CSS, other related technologies. Prerequisites: DSGN:3110 and DSGN:3130. Corequisites: DSGN:4110 or DSGN:4140, if not taken as prerequisites. |

| **DSGN:4140 Problems in Graphic Design** | 4 s.h. | Design topics; content varies. Prerequisites: DSGN:2110 and DSGN:3110 and DSGN:3120. |

| **DSGN:4199 Undergraduate Individual Instruction** | 1-3 s.h. | Individual instruction in design for advanced students. |

### Design, Graduate

| **DSGN:6175 Graduate Graphic Design Workshop** | 4 s.h. | Complex problems in graphic design; planning, development, organization of integrated design programs. |

| **DSGN:6299 Individual Instruction in Design** | arr. | Three-Dimensional Design, Lower-Level Undergraduate

| **TDSN:2205 Art and Engineering** | 3 s.h. | Collaborative, interdisciplinary, cutting-edge opportunity to gain real world engineering experience while learning to think creatively and analytically to create engaging works of art; interdisciplinary collaboration and creative methodologies that enhance life-long creative practice of artists and engineers; basic electronics and Arduino prototyping platform to create programmable, sensor-driven, responsive circuits. Prerequisites: TDSN:2210 or CERM:2010 or MTLS:2910 or SCLP:2810. Same as ECE:2120. |

| **TDSN:2210 Problems in 3-D Design** | 3 s.h. | Materials, their formal and structural possibilities. Prerequisites: ARTS:1510 and ARTS:1520. |

| **TDSN:2230 Introduction to Portfolio Design** | 3 s.h. | |
Preparation of presentation boards and portfolio production for print and job application; for students in 3-D design and related areas. Prerequisites: ARTS:1510 and ARTS:1520.

**TDSN:2240 Digital Drafting with AutoCAD** 3 s.h.
Basic principles of 2-D and 3-D computer-aided drafting; use of AutoCAD software to draw plans, elevations, and sections for objects and interior spaces. Prerequisites: (ARTS:1510 and ARTS:1520) and (TDSN:2210 or CERM:2010 or MTLS:2910 or SCLP:2810). Same as CEE:2240.

**TDSN:2250 Computer Modeling with 3ds Max** 3 s.h.
Basic knowledge and practical technical skills using 3ds Max studio software; experience creating and manipulating basic forms and working with texture, background, light, and camera viewpoints; basic animation. Prerequisites: TDSN:2210 and ARTS:1510 and ARTS:1520.

**TDSN:2260 Introduction to Virtual Reality for 3-D Design** 3 s.h.
Introduction to Vizard software; design of virtual 3-D space; translation of environments created in 3ds Max software into Vizard software. Corequisites: TDSN:2250, if not taken as a prerequisite.

**TDSN:2270 Digital Forming** 3 s.h.
Introduction to process of design; work with 3-D virtual digital tools to create objects and forms printed with rapid prototyping technology; use of Leonar3Do software, 3-D glasses, and a bird device that functions as a mouse to create forms in space; virtual modeling techniques that allow creation and manipulation of shapes in the air; design development on Leonar3Do, improved with 3ds Max, and saved for 3-D printing. Prerequisites: ARTS:1510 and ARTS:1520 and (TDSN:2210 or CERM:2010 or MTLS:2910 or SCLP:2810).

**Three-Dimensional Design, Upper-Level Undergraduate and Graduate**

**TDSN:3200 Product Design** 4 s.h.
How objects are designed and structured; modeling, graphic skills necessary for basic project development. Prerequisites: TDSN:2210.

**TDSN:3201 Advanced Computer Modeling with 3ds Max** 3 s.h.
Creation of rendered and animated environments using advanced modeling techniques. Prerequisites: TDSN:2250.

**TDSN:3205 Advanced Robotics** 3 s.h.
Advanced peripheral integration and control, including stepper motors, solar power, audio playback, and live data manipulation through physical sensors; advanced fabrication (e.g., printed circuit boards and wiring harness design); for students with previous experience in robotics and electronics. Prerequisites: SCLP:3840.

**TDSN:3210 Furniture Design I** 4 s.h.
Human interaction with interior and exterior environment. Prerequisites: TDSN:2210. Same as THTR:3206.

**TDSN:3215 Furniture Design II** 4 s.h.
Continuation of TDSN:3210; design of virtual environments. Prerequisites: TDSN:3210.

**TDSN:3220 Interior Design** 4 s.h.
Relationship of interior space to its architecture, environment, human element; color, materials, furnishings, lighting; projects. Prerequisites: TDSN:2210.

**TDSN:3230 Color for Interior Design** 4 s.h.
Use of color for interior spaces; principles of color theory reviewed and applied to 3-D environments; color as a compositional element and psychological tool. Prerequisites: TDSN:2210.

**TDSN:3240 3-D Computer-Aided Design** arr.
Three-dimensional computer-aided drafting; use of AutoCAD software. Prerequisites: ARTS:1510 and ARTS:1520 and (TDSN:2210 or CERM:2010 or MTLS:2910 or SCLP:2810).

**TDSN:4210 Digital Animation and Visual Art** 3 s.h.
Assimilation of digital animation into realm of traditional fine art mediums; exploration of fundamental skills (storyboarding, rotoscoping, stop motion, motion graphics, 3-D animation); Adobe Photoshop, After Effects, and 3ds Max techniques and software that are industry standards in the careers of animators, storyboard artists, roto artists, digital compositors, and motion graphic artists; production of a show reel of student work for group showing and final critique. Prerequisites: ARTS:1510 and ARTS:1520.

**TDSN:4220 Interior Design II** 3 s.h.
Continuation of TDSN:3220. Offered fall semesters of even years. Prerequisites: TDSN:2240 and TDSN:3220.

**TDSN:4250 Fabrication and Design: Hand-Built Bicycle** 4 s.h.
Building a bicycle frame by hand; use of CAD modeling and development of fabrication skills to create a modern-day work of art. Prerequisites: TDSN:2240.

**TDSN:4255 Hand-Built Bicycles in the Rockies** 1 s.h.
Building a titanium hand-built bike; use of hand-built fabrication techniques and tools; translation of CAD design into first full-suspension titanium fat bike; aspects of metal technology, concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and TIG welding, jig setup and use, and mitering; travel to Fort Collins, Colorado to work for one week at Black Sheep Bikes (two-time winner of the North American Hand Built Bike Show). Prerequisites: ARTS:1510 and ARTS:1520.
TDSN:4260 3-D Computer Graphic Art 3 s.h.
Three-dimensional modeling; emphasis on movement in form and function; advanced modeling techniques in polygonal and NURBS modeling to generate fundamentally sound models used for rapid prototyping, visualization, and animation; Box modeling, NURBS modeling, rigging, materials, bump maps, normal maps, and rendering; fundamental skills of computer graphic artists working in the fields of animation, architectural visualization, video game modeling, industrial design, and engineering design. Prerequisites: TDSN:2250.

TDSN:4270 Problems in 3-D Design: Locative Art Practice 4 s.h.
How our relationship to Earth has changed with new forms of locating place in it; new forms of representation used to express exploration of that relationship; designing a locative research project; exploration of four major course concepts (geo-annotation, locative inscription, GPS drawing, alternative cartography) using portable, networked, and location-aware computing for mapping relationships. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:4299 Undergraduate Individual Instruction arr.
Individual instruction in 3-D design for advanced students.

Three-Dimensional Design, Graduate
TDSN:6295 Design for Production and Business 4 s.h.
Special issues and topics in design.

TDSN:6299 Individual Instruction in 3-D Design arr.
Individual instruction in 3-D design for advanced students.

Drawing, Lower-Level Undergraduate
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all drawing courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

DRAW:2310 Life Drawing I 3 s.h.
Observational drawing of form in its spatial contexts; drawing in varied media; figural as well as nonfigural content. Prerequisites: ARTS:1510 and ARTS:1520.

Drawing, Upper-Level Undergraduate and Graduate
DRAW:3310 Concepts in Drawing 3-4 s.h.
Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as THTR:3205.

DRAW:4310 Advanced Concepts in Drawing 3-4 s.h.
Advanced-level topics. Requirements: DRAW:3310 taken two times.

DRAW:4320 Seminar in Painting and Drawing 3-4 s.h.
Contemporary issues, practical and professional skills, interdisciplinary concerns, education and career goals. Offered fall semesters. Requirements: for undergraduate students — DRAW:3310; PNTG:2420 taken twice, or PNTG:2420 and PNTG:2430; and B.F.A. clearance.

DRAW:4399 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in drawing for advanced students.

Drawing, Graduate
DRAW:6310 Graduate Drawing 3-4 s.h.
Compositional and conceptual drawing as related to the student's major interest; varied media. Requirements: 6 s.h. of DRAW:3310.

DRAW:6399 Individual Instruction in Drawing arr.

Intermedia, Lower-Level Undergraduate
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all intermedia courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

INTM:2710 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869 — grade of C or higher in CINE:1834. Same as CINE:2869.

INTM:2720 Concepts in Contemporary Art Practice 3 s.h.
Interdisciplinary investigation of materials and concepts in relation to time-based media, performance, video, installation; individual and collaborative projects. Prerequisites: INTM:2710.

INTM:2730 Topics in Intermedia 3 s.h.
Continuation of study and practice in emerging media and new genres, including video, Internet art, installation, new media, and social practice. Requirements: ARTS:1510 and ARTS:1520 for majors; ARTS:1510 for nonmajors.

INTM:2864 Film/Video Production: Alternative Forms 3 s.h.
Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: CINE:1834 or INTM:2710. Requirements: for CINE:2864 — grade of C or higher in CINE:1834; for INTM:2864 — grade of C or higher in INTM:2710. Same as CINE:2864.
Intermedia, Upper-Level Undergraduate and Graduate

**INTM:3720 Media Art Lab** 4 s.h.
Study and production in the media arts—digital video, sound, installation/performance, Internet, new media art; conceptual development through readings, screenings; hands-on workshops using a range of media production equipment and platforms; in-class, short-term projects. Requirements: INTM:2710 or CINE:1834 or graduate standing. Recommendations: experience with media technologies.

**INTM:3730 Advanced Intermedia Topics** 3 s.h.
Areas of intermedia practice, including installation, video, Internet-based production, sound design, image and text, new media. Prerequisites: INTM:2710.

**INTM:3750 Art and Ecology** 4 s.h.
Collaborative, creative research group; artistic responses to environmental sustainability and related social issues; critical approaches rooted in humanities, other disciplines. Prerequisites: INTM:2710.

**INTM:3755 What is Storytelling For?** 4 s.h.

**INTM:3765 Social Practice, Social Issues, and the Arts** 3-4 s.h.
Student participation in internships at Iowa City and Johnson county nonprofit organizations; interdisciplinary seminar.

**INTM:3799 Undergraduate Individual Instruction** 1-3 s.h.
Individual instruction in intermedia for advanced students.

**INTM:4775 Intermedia Workshop** 3-4 s.h.
Visual practice/visual theory; projects, critiques, visiting artists and scholars. Requirements: INTM:2720 or graduate standing in intermedia.

**INTM:4780 Women's Lives in Alternative Texts** 3 s.h.
Work of contemporary comics creators; how they craft memoir-based texts that explore intersections of aging, sexuality, race, gender, and relationships. Same as GWSS:4180.

Intermedia, Graduate

**INTM:6780 Art, Engagement, and Activism** 4 s.h.
Role of artists in our communities; how to build a rewarding studio practice and influence social, political, and cultural decisions within the community; work of artists, designers, creative scholars, performers, and writers whose work is socially engaged, collaborative, labeled as radical or activist in nature; students produce a small body of written, visual, and performed work influenced by events and needs within their communities; examination and discussion of various theories of art, activism, performance, and engagement.

**INTM:6795 Intermedia Graduate Special Topics** 3-4 s.h.
Areas of intermedia practice, including installation, video, Internet-based production, sound design, image and text, new media.

**INTM:6799 Individual Instruction in Intermedia and Video Art** arr.

Jewelry and Metal Arts, Lower-Level Undergraduate

**MTLS:2910 Introduction to Jewelry and Metal Arts** 3 s.h.
Fabrication, hammer forming, hydraulic die forming, soldering, riveting, etching, texturing, anodization of aluminum and titanium, stone setting, and patination techniques; creation of jewelry, flatware, and other functional and nonfunctional sculptural objects using varied metals and other materials; emphasis on creativity, learning, and basic metalworking techniques. Prerequisites: ARTS:1510 and ARTS:1520.

Jewelry and Metal Arts, Upper-Level Undergraduate and Graduate

**MTLS:3910 Intermediate Jewelry and Metal Arts** 4 s.h.
Exploration of different applications with casting (mostly gold, silver, and bronze), enameling, and stone setting; combining all three processes to create art work; may include introduction to other processes (e.g., photo-etching, 3-D computer modeling); historical and current trends in craft. Prerequisites: MTLS:2910.

**MTLS:3920 Advanced Jewelry and Metal Arts** 4 s.h.
Electroforming; production of hollow copper structures through prolonged electroplating on a nonmetallic form (typically wax) with a conductive coating; metal-forming techniques (e.g., raising and fold forming); emphasis on development of personal aesthetics, learning, and refining technical skills in metalworking and jewelry techniques. Prerequisites: MTLS:2910.

**MTLS:4910 Mixed Media Workshop** 3-4 s.h.
Free exploration of all media and materials, including found objects; creation of conceptual and/or functional mixed media objects, jewelry, sculptures, installation pieces; pioneering use of new materials, development of new techniques, creation of diverse innovative art works. Prerequisites: MTLS:2910. Recommendations: MTLS:2910 and MTLS:3920.

**MTLS:4920 Mold Making** 4 s.h.
All aspects of mold making, including plaster, rubber, and silicone. Prerequisites: ARTS:1510 and ARTS:1520 and MTLS:2910 or CERM:2010 or SCLP:2810 or TDSN:2210.

**MTLS:4960 Form and Fabrication: The Hand-Built Bicycle Frame II** 4 s.h.
Building on TDSN:4250; advanced concepts of bicycle frame design and fabrication; concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and welding, including titanium-milling and how to build a frame jig; emphasis on applying fabrication skills while situating frame building project within context of a design problem. Prerequisites: TDSN:4250.

MTLS:4975 Graduate Workshop 4 s.h.
Independent studio work; personal aesthetics, conceptual and technical skills developed and refined; creation of work without boundaries of media; portfolios, exhibitions, professional goals. Prerequisites: MTLS:3910 and MTLS:3920 and MTLS:4910.

MTLS:4999 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in metalsmithing and jewelry for advanced students.

Jewelry and Metal Arts, Graduate
MTLS:6999 Individual Instruction in Metalsmithing and Jewelry arr.

Painting, Lower-Level Undergraduate
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all painting courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PNTG:2410 Painting I 3 s.h.
Emphasis on observational painting, theory and development of pictorial ideas and skills. Prerequisites: ARTS:1510 and ARTS:1520.

PNTG:2420 Painting II 4 s.h.
Materials, techniques, beginning of a personal painting language through observation and imagination. Prerequisites: PNTG:2410.

PNTG:2430 Painting III 4 s.h.
Painting, with contemporary issues overlying study in materials and techniques; language and direction of personal painting. Prerequisites: PNTG:2420.

PNTG:2440 Advanced Painting 4 s.h.
Individual projects as they aid the realization of a personal vision. Prerequisites: PNTG:2420. Requirements: PNTG:2420 taken two times.

Painting, Upper-Level Undergraduate and Graduate

PNTG:4499 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in painting for advanced students.

Painting, Graduate
PNTG:6475 Graduate Drawing and Painting Workshop 3-4 s.h.
Group and individual criticism, team-taught.

PNTG:6480 Graduate Drawing and Painting Forum 1 s.h.
Problems and issues of contemporary artists.

PNTG:6495 Graduate Painting: Topics 3-4 s.h.
Individual painting projects in desired medium; topics vary.

PNTG:6499 Individual Instruction in Painting arr.

Papermaking, Lower-Level Undergraduate

BKAT:2110 Introduction to Book Arts 3 s.h.
Topics related to artist books, hand bookbinding, letterpress printing, papermaking, and lettering arts. Same as UICB:2110.

Papermaking, Upper-Level Undergraduate and Graduate

BKAT:3100 Papermaking 3 s.h.
History, fundamental techniques of Western and Eastern hand papermaking; projects in traditional sheet forming, basic paper chemistry, paper coloring. Offered spring semesters. Same as UICB:3100.

BKAT:3280 Elements of Book Art 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. Same as UICB:3280.

BKAT:3380 Elements of Letterpress 3 s.h.
Introduction to letterpress printing; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques; for non-book art majors. Same as UICB:3380.

BKAT:3400 Calligraphy: Foundational Hands 3 s.h.
Fundamental calligraphic skills using Roman majuscule, Humanistic minuscule, Italic; basic layout and color theory incorporated into letter practice. Same as UICB:3400.

BKAT:4100 Paperworks 3 s.h.
Conceptual and methodological approaches to 2-D and 3-D paper works; creation of works that couple unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp, medium's relationship to larger art and craft contexts. Same as UICB:4100.

BKAT:4205 Bookbinding I: Materials and Techniques 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as UICB:4205.

BKAT:4210 Boxes and Enclosures 3 s.h.
Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: UICB:4205. Same as UICB:4210.
BKAT:4220 Moveable/Sculptural Books 3 s.h.
Varied formats for moveable and/or sculptural books; history; readings, hands-on model making. Same as UICB:4220.

BKAT:4230 Pop-Up Book Structures 3 s.h.
Hands-on exploration of varied aspects of paper engineering for bookmaking; historical and modern models studied and executed. Prerequisites: UICB:4205. Same as UICB:4230.

BKAT:4270 Bookbinding II 3 s.h.
Builds on skills acquired in UICB:4205; projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types; nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: UICB:4205. Same as UICB:4270.

BKAT:4280 Artists' Books 3 s.h.
 Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book's structure and design can enhance and integrate part of the work's meaning. Prerequisites: UICB:4205 or BKAT:4205. Same as UICB:4280.

BKAT:4400 History of Western Letterforms 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as UICB:4400.

BKAT:4490 Studies in Letter Arts 3 s.h.
Special topics and advanced projects in calligraphy and letter arts. Prerequisites: UICB:3400 or UICB:4400. Same as UICB:4490.

Papermaking, Graduate

BKAT:5110 Islamic/Asian Papermaking History and Technique 3 s.h.
History, technique, and aesthetics of traditional Islamic and Asian hand papermaking. Same as UICB:5110.

BKAT:5120 Western Papermaking History and Technique 3 s.h.
History and technique of traditional European hand papermaking and related aesthetics; students gain confidence in pursuing independent production of handmade papers or undertaking related research in their own particular areas of interest; fiber preparation, sheet forming, and drying/finishing methods; concurrent readings and discussions of related history and aesthetics; special projects selected by student with instructor approval. Same as UICB:5130.

BKAT:5170 Advanced Papermaking Production 3 s.h.
Independent Western- or Japanese-style projects undertaken at UICB Research and Production Paper Facility at Oakdale Campus under faculty guidance; plan, implement, and evaluate professional scale production runs using full-scale equipment. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5170.

BKAT:5180 Advanced Projects in Paper 3 s.h.
Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5180.

BKAT:5210 Bookbinding III 3 s.h.
 Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Requirements: for UICB:5210 — UICB:4205 and UICB:4270; for BKAT:5210 — BKAT:4205 or BKAT:4270 or UICB:4205 or UICB:4270. Same as UICB:5210.

BKAT:5260 Studies in Bookbinding 3 s.h.
Topics related to hand bookbinding. Same as UICB:5260.

Photography, Lower-Level Undergraduate

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all photography courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PHTO:2510 Beginning Digital Photography 3 s.h.
How to use digital technology to make high-quality color and black-and-white photographs from scanned film and digital files; basic photography skills, including exposure, bracketing, composition; how to use raw files to make large digital prints; color profiles for fine digital printing. Prerequisites: ARTS:1510 and ARTS:1520.

PHTO:2513 Digital Photographic Imaging 3 s.h.
Working knowledge of digital image-making techniques, including image capture, image building/editing, printing/output options, work with Photoshop on Macintosh computers.

Photography, Upper-Level Undergraduate and Graduate

PHTO:2510 Intermediate Darkroom 3-4 s.h.
Darkroom techniques, including film developing and printing; theory and practice of photography as fine art and cultural phenomenon; development of visual literacy, students’ critical awareness of their work. Requirements: PHTO:2510 for majors; PHTO:2510 or PHTO:2513 for nonmajors.

PHTO:3520 Intermediate Photography Digital 3-4 s.h.
Digital photography including landscape, portrait, collage, still life, manipulated images; black-and-white and color printing; computer technology; history of photography in political and social issues. Prerequisites: PHTO:2510.

PHTO:4510 Advanced Photography 3-4 s.h.
Individual projects; development of personal vision. Prerequisites: PHTO:3510 or PHTO:3520.

PHTO:4545 Materials and Techniques 4 s.h.
Concepts and techniques, from reading contemporary topics to understanding and applying nontraditional photographic processes and digital imaging. Prerequisites: PHTO:3510 or PHTO:3520.

PHTO:4555 Advanced Digital Imaging 4 s.h.
Varied image editing programs, with focus on Photoshop and the web. Prerequisites: PHTO:3510 or PHTO:3520.

PHTO:4599 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in photography for advanced students.

PHTO:4665 Introduction to 4x5 4 s.h.
Use of a 4x5 camera to correct perspective, depth of field; large format printing, negative processes. Prerequisites: PHTO:3510.

Photography, Graduate

PHTO:6575 Graduate Photography Workshop 4 s.h.
Projects; group critiques; readings.

PHTO:6599 Individual Instruction in Photography arr.

Printmaking, Lower-Level Undergraduate

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all printmaking courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PRNT:2610 Introduction to Printmaking 3 s.h.
Introduction to methods, materials, and concepts of printmaking. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: art major.

Printmaking, Upper-Level Undergraduate and Graduate

PRNT:3610 New Media for Printmaking 4 s.h.
New concepts and techniques for contemporary print media, including digital and less toxic applications in relief, intaglio, lithography, and screenprinting. Prerequisites: PRNT:2610.

PRNT:3620 Intaglio 4 s.h.
Concepts, techniques; traditional through contemporary ideas, methods; emphasis on metal plate printing, including etching, drypoint, engraving, softground, aquatint. Requirements: PRNT:2610 or B.F.A. candidacy in any area or graduate standing.

PRNT:3630 Relief 3-4 s.h.
Concepts and techniques of relief printmaking, including woodcut, linocut, relief etching, black-and-white and color printing methods; traditional and contemporary approaches. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:3640 Lithography 4 s.h.
Technical, aesthetic characteristics; basic direct drawing, processing, printing of stone and plate images in black and white. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:3660 Monoprint 3-4 s.h.
Concepts, techniques in use of traditional and alternative printmaking media to produce unique, matrix-generated prints.

PRNT:3670 Foil Imaging I 3 s.h.
Participation in development of a new art form involving creation of original prints and other works of art using hot stamped foil and Iowa Foil Printer. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:3675 Foil Workshop in Printmaking 2 s.h.
Hands-on experience creating foil prints; workshop format. One or two weeks. Offered summer session.

PRNT:3680 Silkscreen 4 s.h.
Photographic, nonphotographic stencil techniques for silkscreen printing. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1010 and ARTS:1050 for nonmajors; or B.F.A. candidacy in any area; or graduate standing.

PRNT:4610 Advanced Printmaking 4 s.h.
Print media (i.e., intaglio, lithography, relief, screenprint); emphasis on individual technical and conceptual growth and development of independent studio practices. Requirements: two courses chosen from PRNT:3620, PRNT:3630, PRNT:3640, and PRNT:3680.

PRNT:4640 Advanced Lithography 3-4 s.h.
Technical, aesthetic aspects; emphasis on color printing, indirect image-forming and photo-mechanical processes. Prerequisites: PRNT:2610 and PRNT:3640.

PRNT:4670 Foil Imaging II 4 s.h.
Advanced aesthetic and technical research for creation of original prints and other works of fine art using hot stamped foil and other printmaking techniques; individual instruction. Prerequisites: PRNT:3670.

Printmaking, Graduate

PRNT:6675 Graduate Print Workshop 3-4 s.h.
Contemporary issues in printmaking; emphasis on development of personal work and independent studio practice through group critiques; special research projects, work in all print media.
PRNT:6699 Individual Instruction in Printmaking

Sculture, Lower-Level Undergraduate Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all sculpture courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

SCLP:2810 Undergraduate Sculpture I 3 s.h. Basic sculptural concepts, processes, investigation of materials such as plaster, clay, wood; emphasis on developing formal language, acquiring basic skills; spatial, conceptual, technical issues. Prerequisites: ARTS:1510 and ARTS:1520. GE: Literary, Visual, and Performing Arts.

SCLP:2820 Undergraduate Sculpture II 3 s.h. Continuation of SCLP:2810; form, materials, processes, woodcarving, welding, concrete carving and direct application; expanding concept development; contemporary sculptural formats, collaborative process. Prerequisites: SCLP:2810.

Sculpture, Upper-Level Undergraduate and Graduate

SCLP:3840 Introduction to Robotic Art Studio 4 s.h. Exploration, design, and creation of interactive artworks, kinetic sculpture, robotic art, sound works, light art, and performance environments; application of basic electronics and mechanical techniques; use of programmable micro-controller Arduino. Prerequisites: ARTS:1510 and ARTS:1520 and (SCLP:2810 or CERM:2010 or MTLS:2910 or TDSN:2210).

SCLP:3895 Topics in Sculpture 4 s.h. Projects, reading; specialized conceptual forms and issues in contemporary sculpture, such as public art, installation. Prerequisites: SCLP:2810.

SCLP:4825 Casting in Hot Metal 4 s.h. Foundry work, wax working, mold making, and processes. Prerequisites: SCLP:2820 or MTLS:2910.

SCLP:4830 Motion and Mechanisms 4 s.h. Inherent properties of kinetic art and challenges of integrating motion into object and installation; artists who work with motion-based artwork; mechanical fabrication, basic electricity, switching, control, and various types of motors and mechanisms that can add motion to art-making process; projects engaging conceptual and technical aspects of kinetic sculpture, may include custom fabricated and recycled components. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4835 Electronic Objects and Spaces 4 s.h. Aesthetic use of electronics to sequence and control motion, light, and sound; introduction to basic electronics through hands-on workshops and discussions; demonstrations on how to build an Arduino, integrated circuits, power supplies, soldering, prototyping, motors, sensors; projects integrating electronics with objects and spaces; artist screenings and critiques. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4840 Air, Actuators, and Motors 4 s.h. Introduction to wide range of motors, actuators, and air devices available for integration in art projects; various forms of motor control and necessary means to power these devices; DC and AC motors, stepper motors, solenoids, electro magnets, relays, pneumatics, inflatables, and other air-driven devices; development of a project utilizing one or more systems; examples and media demonstrations to show how artists and scientists employ these systems. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4899 Undergraduate Individual Instruction 1-3 s.h. Individual instruction in sculpture for advanced students.

Sculture, Graduate

SCLP:6264 Graduate Sculpture Workshop 3-4 s.h. Critique seminar with readings for graduate sculptors and nonsculpture graduate students.

Art Education, Upper-Level Undergraduate and Graduate

ARTE:3143 Methods of Art Education in Elementary Schools 3-4 s.h. Application of studio methods to teaching children in Saturday Children's Art Class Program. Same as EDTL:3143.

Art Education, Graduate

ARTE:6267 Seminar: Current Issues in Art Education 3-4 s.h. Analysis of literature in art education and related disciplines. Same as EDTL:6267.
Asian and Slavic Languages and Literatures

Director, Division of World Languages, Literatures, and Cultures

• Russell Ganim

Chair, Department of Asian and Slavic Languages and Literatures

• Russell Ganim

Undergraduate majors: Asian languages and literature (B.A.); Russian (B.A.)

Undergraduate minors: Asian languages; Russian

Graduate degree: M.A. in Asian civilizations

Faculty: http://clas.uiowa.edu/dwllc/asll/people

Web site: http://clas.uiowa.edu/dwllc/asll

The Department of Asian and Slavic Languages and Literatures offers instruction in languages of Asia and eastern Europe as well as in the literatures, civilizations, and cultures of the regions. In addition to offering degree programs, the department welcomes undergraduate and graduate students from across the University to enroll in courses that complement their degree programs or satisfy their personal interests.

The department offers language study in Chinese, Czech, Hindi-Urdu, Japanese, Korean, Russian, and Sanskrit.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program (p. 313) with courses in Chinese, Czech, Hindi-Urdu, Japanese, Korean, Russian, or Sanskrit; see "Language for General Education" below. They also may get acquainted with Asia and Eastern Europe by taking any of the department's General Education Program courses on Asian humanities and and Russian and Slavic literature and culture, all taught in English. Entering students may take the department's First-Year Seminars, one on Asian culture and civilization, the other on Slavic culture and civilization.

The Department of Asian and Slavic Languages and Literatures is one of the academic units in the Division of World Languages, Literatures, and Cultures (p. 228).

Undergraduate Programs of Study

• Major in Asian languages and literature (Bachelor of Arts)
• Major in Russian (Bachelor of Arts)
• Minor in Asian languages
• Minor in Russian

The major in Asian languages and literature gives students the opportunity to develop advanced skills in an Asian language while they study the people, literatures, and cultures of Asia. Students choose one of four tracks: Chinese, Hindi, Japanese, or Sanskrit.

Students interested in Asian studies may add a second major in international studies with an emphasis in Asian studies; see International Studies (p. 415) in the Catalog. Many other disciplines work well as second majors for Asian languages and literature students, such as history, art history, political science, religion, sociology, journalism, business, and anthropology.

Graduates have found careers in education, government, communication, business, and other fields in the United States and abroad. The program also provides excellent background for advanced study in a variety of fields in the humanities and social sciences and for professional schools, such as law and business.

The Russian major trains students in both written and spoken Russian and in Russian literature, culture, and civilization. The department encourages students to pursue a second major (e.g., global health, history, linguistics, political science) and to develop their interests in related or complementary fields. Students interested in focusing on a broader interdisciplinary understanding of the region may earn a second major in International Studies (p. 415).

Training in Russian is often an important asset to careers in the natural and physical sciences, engineering, medicine, business, journalism, library and information science, and the social and military sciences. It also may be appropriate preparation for study of law or international relations as well as Slavic languages and literatures, comparative literature, and other humanistic disciplines.

Some governmental agencies are interested in job candidates who have advanced training in Russian; these agencies give preference to applicants who combine strong language proficiency with a well-rounded background in area studies. Students who develop an exceptional facility with the Russian language may pursue careers in literary and technical translation and interpretation.

Bachelor of Arts: Asian Languages and Literature

The Bachelor of Arts with a major in Asian languages and literature requires a minimum of 120 s.h., including 27-30 s.h. of work for the major. Students choose one of four tracks: Chinese, Hindi, Japanese, or Sanskrit. Credit required for the major depends on choice of track; requirements for each track are listed below. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The amount of approved transfer credit that may be applied to the major varies by track; students should consult their advisors about courses taken at other institutions, including study abroad.

The major in Asian languages and literature requires the following work.

Chinese Track

The Chinese track requires a minimum of 30 s.h. of work for the major. Students must complete the following courses.

CHINESE LANGUAGE

Students must successfully complete CHIN:2101 Second-Year Chinese: First Semester and CHIN:2102 Second-Year Chinese: Second Semester (total of 10 s.h.) at the University of Iowa with a grade of C or higher, or
the equivalent, before they may enroll in the following required courses.

All of these:

CHIN:4101 Classical Chinese: First Semester 3 s.h.

Advanced Chinese language—one of these:

CHIN:5101 Fifth-Year Chinese: First Semester 3 s.h.
CHIN:5102 Fifth-Year Chinese: Second Semester 3 s.h.
CHIN:5103 Readings in Chinese Literature 3 s.h.
CHIN:5106 Individual Chinese for Advanced Students arr.

CHINESE LITERATURE AND CINEMA

One of these:

CHIN:3202 Chinese Literature: Prose 3 s.h.
CHIN:3341 Chinese Literature: Poetry 3 s.h.

One of these:

CHIN:4203 Modern Chinese Writers 3 s.h.
CHIN:4206 Transnational Chinese Cinemas 3 s.h.

CHINESE LITERATURE AND CULTURE

The following courses support the study of literature and culture. Courses that pertain to Chinese culture (the arts, history, literature, politics, religion, and translation) and to the methodology of literary or cultural students, and are cross-listed with the Department of Asian and Slavic Languages and Literatures or are offered by other departments, may be counted toward this requirement. Course content may vary by semester or instructor; students should consult their advisors for approval.

Two of these:

ASIA:2602 Civilizations of Asia: China 3 s.h.
ASIA:4507 Topics in Asian Studies arr.
CHIN:1504 Asian Humanities: China 3 s.h.
CHIN:1702 Chinese Popular Culture 3 s.h.
CHIN:3201 Workshop in Chinese Literary Translation 3 s.h.
CHIN:4204 The Literature of Daoism 3 s.h.
CHIN:5201 Seminar in Chinese Fiction 3 s.h.
CHIN:5202 Seminar in Chinese Literature arr.

Hindi Track

The Hindi track requires a minimum of 30 s.h. of work for the major. Students must complete the following courses.

SOAS:4101-SOAS:4102 Third-Year Hindi-Urdu: First Semester - Third-Year Hindi-Urdu: Second Semester (students may substitute 6 s.h. of South Asian studies courses numbered 3000 or above, with the approval of their major advisors) 6 s.h.

Additional South Asian studies courses numbered 3000 or above, including 1-3 s.h. of independent study 16 s.h.

A list of advanced South Asian studies courses numbered 3000 or above is available from the department.

Hindi track students are urged to fulfill the General Education Program (p. 313) Historical Perspectives or International and Global Issues requirement (3 s.h.) by completing HIST:2606/ASIA:2606 Civilizations of Asia: South Asia.

Japanese Track

The Japanese track requires 30 s.h. of work for the major. Students may apply a maximum of 12 s.h. of approved transfer credit toward track requirements. Those who are planning to study abroad should consult with their Japanese track advisors in advance to determine whether their planned course work abroad will be accepted toward track requirements.

The following courses are prerequisite to the Japanese track; students may not count credit earned in these courses toward track requirements.

JPNS:1001 First-Year Japanese: First Semester 5 s.h.
JPNS:1002 First-Year Japanese: Second Semester 5 s.h.
JPNS:2001 Second-Year Japanese: First Semester 4-5 s.h.
JPNS:2002 Second-Year Japanese: Second Semester 4-5 s.h.

Work for the Japanese track includes third-year and fourth-year Japanese, literature and translation, linguistics and advanced language studies, and cultural studies. Students must complete the following courses.

THIRD- AND FOURTH-YEAR JAPANESE

Both of these sequences (12 s.h.):

JPNS:3001-JPNS:3002 Third-Year Japanese I-II 6 s.h.
JPNS:4001-JPNS:4002 Fourth-Year Japanese I-II 6 s.h.

LITERATURE AND TRANSLATION

Three of these (9 s.h.):

JPNS:3201 Workshop in Japanese Literary Translation 3 s.h.
JPNS:3202 Traditional Japanese Literature in Translation 3 s.h.
JPNS:3203 Modern Japanese Fiction in Translation 3 s.h.
JPNS:3204 Topics in Japanese Literature in Translation 3 s.h.
JPNS:3205 Major Authors in Modern Japanese Literature 3 s.h.
JPNS:3206 Warriors Dreams 3 s.h.
JPNS:3208 Japanese Film 3 s.h.
JPNS:3210 Japanese Theater 3 s.h.
JPNS:3601 Contemporary Japanese Culture 3 s.h.
JPNS:4201 The Tale of Genji 3 s.h.

LINGUISTICS AND ADVANCED LANGUAGE STUDIES

At least 6 s.h. from these:
JPNS:3107 Classical Japanese: First Semester 3 s.h.
JPNS:3128 Introduction to Japanese Linguistics 3 s.h.
JPNS:3401 Language in Japanese Society 3 s.h.
JPNS:3402 Japan: Culture and Communication 3 s.h.
JPNS:3501 Business Japanese II 3 s.h.
JPNS:4501-JPNS:4502 Fifth-Year Japanese I - Fifth Year Japanese II 6 s.h.

CULTURAL STUDIES
Students complete one course (3 s.h.) chosen from the following lists.

Asian and Slavic languages and literatures:
JPNS:1506 Asian Humanities: Japan  3 s.h.
JPNS:3135 Postmodern Aesthetics and Japanese Culture  3 s.h.

Anthropology:
JPNS:2175 Japanese Society and Culture  3 s.h.

Art history:
JPNS:2250 Introduction to the Art of Japan  3 s.h.
JPNS:3260 Japanese Painting  3 s.h.

History:
JPNS:4610 Japan—Age of the Samurai  3 s.h.
JPNS:4615 Modern Japan  3 s.h.
JPNS:4620 Japan-US Relations  3 s.h.

Religious studies:
JPNS:1115 Japanese Religions  3 s.h.
JPNS:3660 Japanese Religion and Thought  3 s.h.

World languages, literatures, and cultures:
JPNS:3700 Topics in Global Cinema  3 s.h.

Sanskrit Track
The Sanskrit track requires a minimum of 27 s.h. for the major. Students must complete the following courses.

SOAS:3901-SOAS:3902 Second-Year Sanskrit: Second Semester  6 s.h.
SOAS:4201-SOAS:4202 Third-Year Sanskrit: Second Semester (students may substitute 6 s.h. of South Asian studies courses numbered 3000 or above, with the approval of their major advisors)  6 s.h.

Additional South Asian studies courses numbered 3000 or above, including 1-3 s.h. of independent study  15 s.h.

A list of advanced South Asian studies courses numbered 3000 or above is available from the department.

Sanskrit track students are urged to fulfill the General Education Program (p. 313) Historical Perspectives or International and Global Issues requirement (3 s.h.) by completing HIST:2606/ASIA:2606 Civilizations of Asia: South Asia.

Bachelor of Arts: Russian
The Bachelor of Arts with a major in Russian requires a minimum of 120 s.h., including 32 s.h. of work for the major earned in Russian courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in Russian requires the following courses.

Language—one of these:
SLAV:3113 Beginning Composition and Conversation I  4 s.h.
SLAV:3114 Beginning Composition and Conversation II  4 s.h.

Language—both of these sequences:
SLAV:3111-SLAV:3112 Third-Year Russian I-II  8 s.h.
SLAV:4111-SLAV:4112 Fourth-Year Russian I-II  8 s.h.

Russian and East European culture—one of these:
SLAV:1131 Introduction to Russian Culture  3 s.h.
SLAV:1132 Russia Today  3 s.h.
SLAV:1450 Diversities of Eastern Europe: Culture, Art, and Politics  3 s.h.
SLAV:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture  3 s.h.
SLAV:1531 Slavic Folklore  3 s.h.
SLAV:1532 Religion and Culture of Slavs  3 s.h.
SLAV:2100 Secrets of Russian Mentality  3 s.h.
SLAV:2131 Women in Russian Society  3 s.h.
SLAV:2531 Topics in Russian, East European, and Eurasian Studies  arr.
SLAV:3082 Youth Subcultures After Socialism  3 s.h.
SLAV:3100 West and East: Women in the Slavic World  3 s.h.
SLAV:3122 Tolstoy and Dostoevsky  3 s.h.
SLAV:3131 Health Care and Health Reforms in Russia  3 s.h.
SLAV:3202 Russian Literature in Translation 1860-1917  3 s.h.
SLAV:3221 Twentieth-Century Czech Authors  3 s.h.

Students majoring in Russian are urged to choose elective courses in economics, geographical and sustainability studies, history, political science, global health, and international studies. Nearly every avenue of professional training and employment requires a solid background in Russian area studies. For example, criteria for U.S. government employment include substantive knowledge in history, economics, political science, sociological disciplines, scientific specialties, demography, military-related skills, and in some cases, cultural and religious background. In-depth knowledge of literature or linguistics without other substantive background may be of limited practical use in finding employment.
B.A. with Teacher Licensure

Students majoring in Asian languages and literature (Chinese or Japanese track) or in Russian who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Asian languages and literature majors must complete designated pedagogy and linguistics courses in the department in addition to the course work required for their major.

Students who plan to use their work toward a minor in Chinese, Japanese, or Russian as academic background for earning teacher licensure should contact the Office of Education Services about requirements.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

B.A.: Asian Languages and Literature

Before the third semester begins: for students in Chinese and Japanese tracks, language work begun (students in the Hindi and Sanskrit tracks may begin language work in their sophomore year)

Before the fifth semester begins: at least first-year language competency

Before the seventh semester begins: at least second-year language competency and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least third-year, first-semester language competency and one additional course in the major (for the Japanese track, two additional courses in the major)

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.A.: Russian

Before the third semester begins: competence in first-year Russian

Before the fifth semester begins: competence in second-year Russian

Before the seventh semester begins: competence in third-year Russian, an additional course in the major, and at least 90 s.h. earned toward the degree

Before the eighth semester: competence in fourth-year Russian and two more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in Asian languages and literature or in Russian have the opportunity to graduate with honors in the major.

Asian languages and literature students must have the consent of the department chair and a faculty sponsor (an Asian specialist from any department) for departmental honors work. In order to graduate with honors in the major, they must register for ASIA:4301 Honors Tutorial and ASIA:4506 Senior Honors Thesis and must complete an acceptable thesis based on original research.

Students majoring in Russian must have junior or senior standing, a g.p.a. of at least 3.33 in Russian, and a cumulative University of Iowa g.p.a. of at least 3.33 in order to enroll in the honors program in Russian.

Students may earn up to 9 s.h. of honors credit in Russian; they earn 3 s.h. for each set of extensive readings with discussions, regular reports, and a semester paper that they complete. Contact the department for more information about requirements for graduation with honors in the Russian major.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor: Asian Languages

The minor in Asian languages is offered with four emphases: Chinese, Hindi, Japanese, and Sanskrit. Credit for the minor varies by emphasis. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Requirements for each emphasis are listed below.

CHINESE EMPHASIS

The minor in Asian languages with Chinese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The minor must include the following course work. Some of these courses have prerequisites; students must complete all of a course’s prerequisites before they may register for that course.

Both of these sequences:

CHIN:3101-CHIN:3102 Third-Year Chinese: 6 s.h.

First Semester - Third Year Chinese: Second Semester

CHIN:4103-CHIN:4104 Fourth-Year Chinese: 6 s.h.

First Semester - Fourth-Year Chinese: Second Semester

One of these:

CHIN:3202 Chinese Literature: Prose 3 s.h.

CHIN:3341 Chinese Literature: Poetry 3 s.h.

CHIN:4203 Modern Chinese Writers 3 s.h.

CHIN:4206 Transnational Chinese Cinemas 3 s.h.
HINDI EMPHASIS
The minor in Asian languages with Hindi emphasis requires 14 s.h., including 11 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The courses SOAS:2101 First-Year Hindi-Urdu: First Semester and SOAS:2102 First-Year Hindi-Urdu: Second Semester do not count as advanced courses for the minor.

JAPANESE EMPHASIS
The minor in Asian languages with Japanese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa.

The following courses are prerequisite to the Japanese emphasis; they do not count toward the minor.

<table>
<thead>
<tr>
<th>Course</th>
<th>Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JPNS:1001 First-Year Japanese: First Semester</td>
<td>5 s.h.</td>
<td></td>
</tr>
<tr>
<td>JPNS:1002 First-Year Japanese: Second Semester</td>
<td>5 s.h.</td>
<td></td>
</tr>
<tr>
<td>JPNS:2001 Second-Year Japanese: First Semester</td>
<td>4-5 s.h.</td>
<td></td>
</tr>
<tr>
<td>JPNS:2002 Second-Year Japanese: Second Semester</td>
<td>4-5 s.h.</td>
<td></td>
</tr>
</tbody>
</table>

The minor with Japanese emphasis must include the following courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JPNS:3001-JPNS:3002 Third-Year Japanese I-II</td>
<td>6 s.h.</td>
</tr>
<tr>
<td>One course in literature and translation</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>One course in linguistics and advanced language studies</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>One course in literature and translation, or in linguistics and advanced language studies, or in cultural studies</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students select the courses in literature and translation, linguistics and advanced language studies, and cultural studies from those listed under "Bachelor of Arts: Asian Languages and Literature" / "Japanese Track" above.

SANSKRIT EMPHASIS
The minor in Asian languages with Sanskrit emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The advanced courses must be chosen from the following list.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOAS:2902 First-Year Sanskrit: Second Semester</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SOAS:3901 Second-Year Sanskrit: First Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SOAS:3902 Second-Year Sanskrit: Second Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SOAS:4201 Third-Year Sanskrit: First Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SOAS:4202 Third-Year Sanskrit: Second Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SOAS:5201 Individual Sanskrit for Advanced Students</td>
<td>arr.</td>
</tr>
</tbody>
</table>

The course SOAS:2901 First-Year Sanskrit: First Semester does not count as an advanced course for the minor.

Minor: Russian
The minor in Russian requires a minimum of 15 s.h. in Russian courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. taught in English toward the minor. The department recommends that students choose courses numbered 3000 or above for the minor, such as the following sequences.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLAV:3111-SLAV:3112 Third-Year Russian I-II</td>
<td>8 s.h.</td>
</tr>
<tr>
<td>SLAV:3113-SLAV:3114 Beginning Composition and Conversation I-II</td>
<td>8 s.h.</td>
</tr>
<tr>
<td>SLAV:4111-SLAV:4112 Fourth-Year Russian I-II</td>
<td>8 s.h.</td>
</tr>
</tbody>
</table>

Language for General Education
Undergraduate students in all majors may satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313) with course sequences in Chinese, Czech, Hindi-Urdu, Japanese, Korean, Russian, and Sanskrit.

Students who have had experience with Japanese or Russian should take the appropriate University of Iowa World Languages Placement Test, which helps determine the level at which they should begin study of the language. Students with backgrounds in Chinese, Czech, Hindi-Urdu, Korean, or Sanskrit may receive individual evaluations from the department.

CHINESE
The following sequence fulfills the General Education Program’s World Languages requirement and is appropriate for students without previous knowledge of Chinese.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN:1111 First-Year Chinese: First Semester</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>CHIN:1112 First-Year Chinese: Second Semester</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>CHIN:2101 Second-Year Chinese: First Semester</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>CHIN:2102 Second-Year Chinese: Second Semester</td>
<td>5 s.h.</td>
</tr>
</tbody>
</table>

Students who have participated in ABRD:3411 Iowa in Tianjin after completing CHIN:1111 First-Year Chinese: First Semester and CHIN:1112 First-Year Chinese: Second Semester, and students from Chinese-speaking families who perform exceptionally well in CHIN:1111 First-Year Chinese: First Semester and CHIN:1112 First-Year Chinese: Second Semester, may fulfill the World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN:1111 First-Year Chinese: First Semester</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>CHIN:1112 First-Year Chinese: Second Semester</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>CHIN:2103 Accelerated Second-Year Chinese: First Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>CHIN:2104 Accelerated Second-Year Chinese: Second Semester</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students who have taken CHIN:2103 and/or CHIN:2104 should not enroll in CHIN:2101 and/or CHIN:2102.

Additional course work is available, including advanced Chinese, classical Chinese, and business Chinese. Consult the department for appropriate placement in Chinese language courses.

CZECH
The following sequence fulfills the General Education Program’s World Languages requirement and is most
appropriate for students without previous knowledge of Czech.

SLAV:1211 Conversational Czech I 3 s.h.
SLAV:1212 Conversational Czech II 3 s.h.
SLAV:2211 Conversational Czech III 3 s.h.
SLAV:2212 Conversational Czech IV 3 s.h.

**HINDI-URDU**
The following sequence fulfills the General Education Program's World Languages requirement. Additional courses are available.

SOAS:2101 First-Year Hindi-Urdu: First Semester 5 s.h.
SOAS:2102 First-Year Hindi-Urdu: Second Semester 5 s.h.
SOAS:3101 Second-Year Hindi-Urdu: First Semester 4 s.h.
SOAS:3102 Second-Year Hindi-Urdu: Second Semester 4 s.h.

**JAPANESE**
The following sequence fulfills the General Education Program's World Languages requirement and is appropriate for students without previous knowledge of Japanese.

JPNS:1001 First-Year Japanese: First Semester 5 s.h.
JPNS:1002 First-Year Japanese: Second Semester 5 s.h.
JPNS:2001 Second-Year Japanese: First Semester 4-5 s.h.
JPNS:2002 Second-Year Japanese: Second Semester 4-5 s.h.

**KOREAN**
The following sequence fulfills the General Education Program's World Languages requirement and leads to elementary/intermediate proficiency in Korean.

ASIA:1101 First-Year Korean: First Semester 4 s.h.
ASIA:1102 First-Year Korean: Second Semester 4 s.h.
ASIA:2101 Second-Year Korean: First Semester 4 s.h.
ASIA:2102 Second-Year Korean: Second Semester 4 s.h.

Students interested in Korean language study beyond the General Education requirement may take third- and fourth-year Korean courses listed under "Courses" toward the end of this Catalog section.

**RUSSIAN**
The following sequence fulfills the General Education Program's World Languages requirement.

SLAV:1111 First-Year Russian I 5 s.h.
SLAV:1112 First-Year Russian II 5 s.h.
SLAV:2111 Second-Year Russian I 4 s.h.
SLAV:2112 Second-Year Russian II 4 s.h.

**SANSKRIT**
The following sequence fulfills the General Education Program's World Languages requirement.

SOAS:2901 First-Year Sanskrit: First Semester 4 s.h.
SOAS:2902 First-Year Sanskrit: Second Semester 4 s.h.
SOAS:3901 Second-Year Sanskrit: First Semester 3 s.h.
SOAS:3902 Second-Year Sanskrit: Second Semester 3 s.h.

Students interested in Sanskrit language study beyond the General Education requirement may take third-year Sanskrit courses listed under "Courses" toward the end of this Catalog section.

**Related Certificate: International Business**
The College of Liberal Arts and Sciences and the Tippie College of Business offer the Certificate in International Business. The program entails study of international business and economics; international relations and institutions; a language; and the art, literature, culture, and/or politics of a geographic area. Students of Chinese, Japanese, Hindi, or Russian are likely to satisfy the certificate's language requirement while completing the requirements for their major. For information about the certificate, see International Business (p. 408) in the Catalog.

**Graduate Programs of Study**

- Master of Arts in Asian civilizations
  The master's degree program in Asian civilizations prepares students for doctoral study in a variety of disciplines. It also may be a good choice for students planning nonacademic careers in which advanced knowledge of Asian civilizations could be useful. For example, students working toward professional degrees, such as an M.D. or J.D., may decide to earn the M.A. in Asian civilizations while completing the professional degree.

**Master of Arts**
The Master of Arts program in Asian Civilizations requires a minimum of 30 s.h. of graduate credit, including 24 s.h. earned in residence at the University of Iowa. All students must maintain a g.p.a. of 3.00 or higher. Detailed information on degree requirements is sent to all applicants.

M.A. students choose from several tracks: Hindi language and literature, Sanskrit language and literature, South Asian studies, Chinese literature and culture, Chinese linguistics, teaching Chinese as a foreign language, interdisciplinary Chinese studies, teaching Japanese as a foreign language, Japanese studies, and interdisciplinary Japanese studies.

By the end of the first semester in residence, students propose a study plan developed in consultation with their advisor and in accordance with guidelines for specializations within the program.

By the end of the final semester in residence, students are expected to demonstrate, either by departmental examination or the successful completion of courses at the appropriate level, advanced competence in Chinese, Japanese, Hindi-Urdu, or Sanskrit. Advanced competence is defined generally as fourth-year level course work in
Chinese or Japanese and third-year level in Hindi-Urdu and Sanskrit.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. The Department of Asian and Slavic Languages and Literatures requires a g.p.a. of at least 3.00 for regular admission and a g.p.a. of at least 2.75 for conditional admission.

Applicants must submit a statement of purpose, a research paper written in English, three letters of recommendation, and scores on the Graduate Record Exam (GRE) General Test. Applicants whose first language is not English must score at least 97 (internet-based) on the Test of English as a Foreign Language (TOEFL).

Both international and U.S. graduate applications requesting financial support for the following academic year are due February 1. All other applications are accepted until April 15 for fall admission and October 1 for spring admission.

Application materials are available from the department.

Study Abroad

The department strongly urges its students to seek opportunities for summer study abroad and study abroad to accelerate the language acquisition process. The University's memberships in the American Institute of Indian Studies and the China Cooperative Language and Study Programs consortium help facilitate students' access to quality international programs in India and China. The government of the People's Republic of China offers scholarships for two students to live and study in mainland China each year.

The UI-Nanzan Exchange allows Iowa students to pay Iowa tuition, room, and board while attending the Center for Japanese Studies at Nanzan University in Nagoya, Japan. There also is a cooperative agreement with the Landour Language School in the Himalayan foothills of India. The South Asian Studies Program has launched a new study abroad program in Mysore and Bangalore, India, where students have the opportunity to study a variety of aspects of traditional and modern Indian civilization.

Iowa students participate in summer, semester, or academic year programs in Russian under the auspices of the American Council of Teachers of Russian (ACTR). The association directs academic language training programs in the cities of Moscow, St. Petersburg, and Vladimir.

Many students participate in summer, semester-long, and year-long study abroad programs in India, China, and Japan offered through other U.S. universities. In many cases credit is transferable, and it is possible for a student to study abroad and still complete the Four-Year Graduation Plan. There are many resources available for funding research and study abroad. It also may be possible for students to apply University of Iowa financial aid to their study abroad programs.

Contact the Department of Asian and Slavic Languages and Literatures or International Programs Study Abroad for more information.

Summer Study, Internships

The department offers an intensive course of language study (second year) each summer in which students complete the equivalent of one academic year of study (the equivalent of one course for each of two semesters, totaling 8 s.h.). Scholarships are available for summer intensive Russian.

Students are encouraged to enrich their programs of study through internships designed to combine work experience in Asia or the United States with study or research projects. The University's Pomerantz Career Center maintains a list of internships.

Activities

Student Associations

Students have many opportunities to enrich their studies in Asian languages and literature while living in Iowa City. The University sponsors student associations for students from many Asian countries, including mainland China, Japan, Korea, India, Pakistan, and Taiwan. All University of Iowa students are welcome to join. Various international community groups sponsor cultural events and holiday celebrations throughout the year.

Residence in Living-Learning Community

The Global Mosaic Living-Learning Community welcomes American and international first-year and second-year students who wish to broaden their knowledge of international issues, languages, and cultures. Global Mosaic members live in Mayflower Residence Hall and enjoy a variety of programs on diverse cultures, the arts, fashion, cinema, dining and cuisine, study abroad, and more. Students must apply to live in the Global Mosaic Living-Learning Community; see the Living-Learning Communities web page.

Facilities

Language Media Center

The University's Language Media Center provides facilities for language learning, teaching, and research. Equipment in the center includes state-of-the-art computer, audio, and video facilities as well as standard and short-wave radios, tape and cassette recorders, record players, and soundproof recording rooms. An electronic classroom, a soundproof workroom, and a library of tape, disc, and cassette recordings also are available.

University of Iowa Libraries

Since 1960 University of Iowa Libraries has routinely acquired most American titles in Asian studies and selected overseas scholarly publications in English and other Western languages. The Main Library's Asian collection includes approximately 80,000 volumes in Asian languages and about 140,000 Western-language volumes on Asian subjects. The University has been a member of the Library of Congress Foreign Currency Exchange Program for Indian books and periodicals since 1975. The library's nonprint media collection includes a growing number of Asian feature films. A Chinese-Japanese-Korean computer terminal gives students and faculty access
to the growing Research Libraries Information Network database in Asian languages.

**Financial Support**

Undergraduate and graduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

**Cheng/Liu Scholarship:** Undergraduate and graduate students currently majoring in Chinese in the Department of Asian and Slavic Languages and Literatures at the University of Iowa may apply for the Cheng/Liu Scholarship. The award can be used for summer Chinese language study.

**Fairall Scholarship:** Undergraduate or graduate majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship. Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

**Foreign language and area studies fellowships:** Only U.S. citizens are eligible. Graduate students combining work in Asian languages at an advanced level with interdisciplinary or professional programs may apply. The award is offered by International Programs for academic year and summer language study.

**Graduate assistantships:** The department offers teaching assistantships for graduate students in the program. All applicants to graduate study in the program receive information on applying for an assistantship. Assistantships are awarded each spring for the following academic year.

**Graduate international research:** Opportunities for funding research abroad include Stanley Fellowships for Graduate Student Research Abroad, CIREH Research Scholarships in International Health, Fulbright Grants, and Foreign Language Area Scholarships.

**Summer language scholarships:** Currently enrolled undergraduate and graduate students may compete for a Stanley-University of Iowa Foundation Support Organization Summer Language Scholarship, to be used for intensive summer language study in Chinese, Hindi-Urdu, Japanese, or Sanskrit. Eight to ten awards of $2,000-$2,500 are made each summer. Applications are due March 1.

**Support for undergraduate study abroad:** Opportunities for undergraduates to study abroad include the Presidential Scholarships for Study Abroad and the Stanley Scholarships for International Research and Study.

**Courses**

**Language for Undergraduate and Graduate Students**

**Chinese, Lower-Level Undergraduate**

High school students and University of Iowa students who would like to learn Chinese but do not plan to use Chinese to satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program may wish to take the beginning Chinese courses CHIN:1115 and CHIN:1116 in sequence and may follow them with the second-year courses CHIN:2101 and CHIN:2102. See the course descriptions below.

**CHIN:1101 Conversational Chinese I** 1 s.h.
Introduction to modern Chinese, with focus on communication “survival” skills for discussing oneself, family, daily activities, interests, personal preferences, food, shopping, travel, lodging; situational activities and performance.

**CHIN:1102 Conversational Chinese II** 1 s.h.
Continuation of CHIN:1101, with focus on speaking and listening.

**CHIN:1111 First-Year Chinese: First Semester** 5 s.h.
Beginning Chinese; offered through UI Confucius Institute; first of a four-course sequence.

**CHIN:1112 First-Year Chinese: Second Semester** 5 s.h.
Continuation of CHIN:1111. Offered spring semesters. Prerequisites: CHIN:1111. Requirements: undergraduate standing. GE: World Languages First Level Proficiency.

**CHIN:1115 Beginning Chinese I** 3 s.h.
Beginning Chinese; offered through UI Confucius Institute; first of a four-course sequence.

**CHIN:1116 Beginning Chinese II** 3 s.h.
Continuation of CHIN:1115; offered through UI Confucius Institute; second of a four-course sequence. Requirements: CHIN:1115 or equivalent as demonstrated in written and oral exams.

**CHIN:2101 Second-Year Chinese: First Semester** 5 s.h.

**CHIN:2102 Second-Year Chinese: Second Semester** 5 s.h.

**CHIN:2103 Accelerated Second-Year Chinese: First Semester** 3 s.h.

**CHIN:2104 Accelerated Second-Year Chinese: Second Semester** 3 s.h.
Intermediate Chinese. Prerequisites: grade of C or higher in CHIN:2103. GE: World Languages Fourth Level Proficiency.

**Chinese, Upper-Level Undergraduate**

**CHIN:3101 Third-Year Chinese: First Semester** 3 s.h.
Reading of advanced modern Chinese texts; speaking, writing. Offered fall semesters. Prerequisites: CHIN:2102.

**CHIN:3102 Third Year Chinese: Second Semester** 3 s.h.
Continuation of CHIN:3101. Offered spring semesters. Prerequisites: CHIN:3101.

**CHIN:3103 Business Chinese I** 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; first of a two-course sequence. Prerequisites: CHIN:2102.

**CHIN:3104 Business Chinese II** 3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; second of a two-course sequence. Prerequisites: CHIN:3102 or CHIN:3103.

**CHIN:4101 Classical Chinese: First Semester** 3 s.h.
Late Zhou period; readings from *Zhanguoce*, *Mengzi*, *Zhuangzi*; focus on grammatical analysis, exact translation. Offered fall semesters. Prerequisites: CHIN:2102.

**CHIN:4102 Classical Chinese: Second Semester** 3 s.h.
Continuation of CHIN:4101. Offered spring semesters. Prerequisites: CHIN:4101.

**CHIN:4103 Fourth-Year Chinese: First Semester** 3 s.h.
Proficiency through oral and written discussions of modern texts. Offered fall semesters. Prerequisites: CHIN:3102.

**CHIN:4104 Fourth-Year Chinese: Second Semester** 3 s.h.
Offered spring semesters. Prerequisites: CHIN:4103.

**Chinese, Graduate**

**CHIN:5101 Fifth-Year Chinese: First Semester** 3 s.h.
Improvement of language skills in modern Chinese: listening, speaking, reading, writing; skill development in reading authentic texts related to topics of student interest. Prerequisites: CHIN:4104.

**CHIN:5102 Fifth-Year Chinese: Second Semester** 3 s.h.
Continuation of CHIN:5101. Prerequisites: CHIN:5101.

**CHIN:5103 Readings in Chinese Literature** 3 s.h.

**CHIN:5105 Literary Chinese I** 3 s.h.
Readings from literary and historical texts of Han and Wei-Jin periods. Prerequisites: CHIN:4102.

---

**Czech, Lower-Level Undergraduate**

**SLAV:1211 Conversational Czech I** 3 s.h.
Development of basic reading and writing skills, ability to understand and speak everyday Czech; history and culture of Czech-speaking countries through discussions, readings, and videos. GE: World Languages First Level Proficiency.

**SLAV:1212 Conversational Czech II** 3 s.h.
Continuation of SLAV:1211; development of basic reading and writing skills, ability to understand and speak everyday Czech; history and culture of Czech-speaking countries through discussions, readings, and videos. Prerequisites: SLAV:1211. GE: World Languages Second Level Proficiency.

**SLAV:2211 Conversational Czech III** 3 s.h.
Continuation of SLAV:1212; development of reading and writing skills, ability to understand and speak everyday Czech; history and culture of Czech-speaking countries through discussions, readings, and videos. Prerequisites: SLAV:1212. GE: World Languages Second Level Proficiency.

**SLAV:2212 Conversational Czech IV** 3 s.h.
Continuation of SLAV:2211; development of reading and writing skills, ability to understand and speak everyday Czech; history and culture of Czech-speaking countries through discussions, readings, and videos. Prerequisites: SLAV:2211. GE: World Languages Fourth Level Proficiency.

---

**Czech, Upper-Level Undergraduate and Graduate**

**SLAV:3145 Third-Year Czech I** 4 s.h.
Advanced knowledge of Czech grammar; reading, comprehension, conversation, and writing skills; varied techniques and activities for proficiency in Czech; conversation in small groups, presentation of oral reports, written compositions, group projects; articles from the press, contemporary Czech short stories, videos of contemporary Czech cultural scene. Prerequisites: SLAV:2212.

**SLAV:3146 Third-Year Czech II** 4 s.h.
Continuation of SLAV:3145; advanced knowledge of Czech grammar and basic syntax structures of Czech sentences; reading, aural comprehension, conversation, writing skills; short stories from Czech Literature, Internet press articles, short compositions; videos of contemporary Czech cultural scene. Prerequisites: SLAV:3145.

---

**Hindi-Urdu, Lower-Level Undergraduate**

**SOAS:2101 First-Year Hindi-Urdu: First Semester** 5 s.h.
Reading, writing, speaking. Offered fall semesters of odd years. GE: World Languages First Level Proficiency.

**SOAS:2102 First-Year Hindi-Urdu: Second Semester** 5 s.h.
Continuation of SOAS:2101. Offered spring semesters of even years. Prerequisites: SOAS:2101. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

**Hindi-Urdu, Upper-Level Undergraduate and Graduate**

SOAS:3101 Second-Year Hindi-Urdu: First Semester 4 s.h.
Conversation, reading of folktales and modern short stories. Offered fall semesters of even years. Prerequisites: SOAS:2102. GE: World Languages Second Level Proficiency.

SOAS:3102 Second-Year Hindi-Urdu: Second Semester 4 s.h.
Continuation of SOAS:3101. Offered spring semesters of odd years. Prerequisites: SOAS:3101. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency.

SOAS:4101 Third-Year Hindi-Urdu: First Semester 3 s.h.
Advanced level Hindi texts; speaking, writing. Offered fall semesters. Prerequisites: SOAS:3102.

SOAS:4102 Third-Year Hindi-Urdu: Second Semester 3 s.h.
Continuation of SOAS:4101. Offered spring semesters. Prerequisites: SOAS:4101.

**Japanese, Lower-Level Undergraduate**

JPNS:1001 First-Year Japanese: First Semester 5 s.h.

JPNS:1002 First-Year Japanese: Second Semester 5 s.h.
Continuation of JPNS:1001. Offered spring semesters. Prerequisites: JPNS:1001. GE: World Languages Second Level Proficiency.

JPNS:2001 Second-Year Japanese: First Semester 4-5 s.h.

JPNS:2002 Second-Year Japanese: Second Semester 4-5 s.h.

**Japanese, Upper-Level Undergraduate and Graduate**

JPNS:3001 Third-Year Japanese I 3 s.h.
Modern Japanese; focus on speaking, listening, reading, writing; materials related to everyday life and civilization in Japan. Offered fall semesters. Prerequisites: JPNS:2002.

**Japanese, Upper-Level Undergraduate and Graduate**

JPNS:3002 Third-Year Japanese II 3 s.h.
Continuation of JPNS:3001. Offered spring semesters. Prerequisites: JPNS:3001.

JPNS:3107 Classical Japanese: First Semester 3 s.h.
Grammar, readings in classical Japanese. Offered fall semesters. Prerequisites: JPNS:3002.

JPNS:4001 Fourth-Year Japanese I 3 s.h.
Modern Japanese; focus on reading, writing, speaking, listening. Offered fall semesters. Prerequisites: JPNS:3002.

JPNS:4002 Fourth-Year Japanese II 3 s.h.
Continuation of JPNS:4001. Offered spring semesters. Prerequisites: JPNS:4001.

JPNS:4501 Fifth-Year Japanese I 3 s.h.
Modern Japanese; emphasis on communication skills. Offered fall semesters. Prerequisites: JPNS:4001 and JPNS:4002.

JPNS:4502 Fifth Year Japanese II 3 s.h.
Continuation of JPNS:4501. Offered spring semesters. Prerequisites: JPNS:4501.

**Korean, Lower-Level Undergraduate**

ASIA:1051 Korean for Travel and Business 2 s.h.
Introduction to basic communication skills and Korean culture; Korean alphabet (Hangeul), survival Korean expressions, cultural etiquette and norms; speaking, comprehension, reading, and writing in basic Korean; Korean business culture; classroom activities and assignments based on authentic material.

ASIA:1101 First-Year Korean: First Semester 4 s.h.
Modern Korean; speaking, listening, reading, writing. Offered fall semesters. GE: World Languages First Level Proficiency.

ASIA:1102 First-Year Korean: Second Semester 4 s.h.
Continuation of ASIA:1101. Offered spring semesters. Prerequisites: ASIA:1101. GE: World Languages Second Level Proficiency.

ASIA:2101 Second-Year Korean: First Semester 4 s.h.
Continuation of ASIA:1102; conversation and readings in intermediate Korean language; Korean culture. Prerequisites: ASIA:1102. GE: World Languages Second Level Proficiency.

ASIA:2102 Second-Year Korean: Second Semester 4 s.h.
Continuation of ASIA:2101. Prerequisites: ASIA:2101. GE: World Languages Fourth Level Proficiency.

**Korean, Upper-Level Undergraduate and Graduate**

ASIA:3101 Third-Year Korean: First Semester 3 s.h.
Continuation of ASIA:2102; advanced intermediate Korean—conversation and grammar skills beyond basic intermediate level; vocabulary expansion with increasingly complex, abstract concepts; how to advance one's opinion and discuss thoughts, ideas. Prerequisites: ASIA:2102.

**ASIA:3102 Third-Year Korean: Second Semester**
Continuation of ASIA:3101; conversation and grammar skills beyond basic intermediate level; writing skills for formal occasions; advanced discussion skills—how to advance one's opinion and share thoughts and ideas; traditional and modern Korean culture. Prerequisites: ASIA:3101.

**ASIA:4000 Fourth Year Korean: First Semester**
Continuation of ASIA:3102; development of intermediate high to advanced-level Korean; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, listening to authentic Korean materials; Korean society and culture; content-based learning methodology. Prerequisites: ASIA:3102.

**ASIA:4001 Fourth Year Korean: Second Semester**
Continuation of ASIA:4000; development of intermediate high- to advanced-level Korean speaking ability; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, and listening to authentic Korean materials; Korean society and culture; materials provided to prepare for Korean standardized tests; content-based learning methodology. Prerequisites: ASIA:3102.

**Russian, Upper-Level Undergraduate and Graduate**

**SLAV:3111 Third-Year Russian I**
4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Prerequisites: SLAV:2112.

**SLAV:3112 Third-Year Russian II**
4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Prerequisites: SLAV:3111.

**SLAV:3113 Beginning Composition and Conversation I**
4 s.h.
Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, newspaper texts. Taught in Russian. Prerequisites: SLAV:2112.

**SLAV:3114 Beginning Composition and Conversation II**
4 s.h.
Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, conversation handbooks, current periodicals. Taught in Russian. Prerequisites: SLAV:2112.

**SLAV:3115 Russian for Heritage Learners**
3 s.h.
Linguistic problems (grammar and vocabulary), communicative problems (understanding of written and oral advanced Russian speech), cultural problems (similarities and differences between cultures); for Russian heritage speakers.

**SLAV:3116 Russian for Heritage Learners II**
3 s.h.
Continuation of SLAV:3115.

**SLAV:4111 Fourth-Year Russian I**
4 s.h.
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: SLAV:3112 or three years of college-level Russian.

**SLAV:4112 Fourth-Year Russian II**
4 s.h.
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: SLAV:4111 or three years of college-level Russian.

**Sanskrit, Lower-Level Undergraduate**

**SOAS:2901 First-Year Sanskrit: First Semester**
4 s.h.
Grammar, basic vocabulary; elementary readings. Offered fall semesters of even years. Requirements: undergraduate standing. GE: World Languages First Level Proficiency. Same as CLSA:2901.

**SOAS:2902 First-Year Sanskrit: Second Semester**
4 s.h.
Sanskrit, Upper-Level Undergraduate and Graduate

SOAS:3901 Second-Year Sanskrit: First Semester
Readings in epic and puranic texts. Offered fall semesters of odd years. Prerequisites: SOAS:2902. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as CLSA:3901.

SOAS:3902 Second-Year Sanskrit: Second Semester
The Bhagavadgita and related religious/philosophical texts. Offered spring semesters of even years. Prerequisites: SOAS:3901. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as CLSA:3902.

SOAS:4201 Third-Year Sanskrit: First Semester
Readings in philosophical and literary Sanskrit. Offered fall semesters. Prerequisites: SOAS:3902.

SOAS:4202 Third-Year Sanskrit: Second Semester
Continuation of SOAS:4201. Offered spring semesters. Prerequisites: SOAS:4201.

Lower-Level Undergraduate

Asian Culture and Civilization

ASIA:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASIA:1040 Living Religions of the East 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values, Society, and Diversity. Same as RELS:1404.

ASIA:1060 Introduction to Buddhism 3 s.h.
Basic tenets, religious paradigms, historical phases important in the development of Buddhism; from the Buddha's life to evolution of Mahāyāna Buddhism; readings from India, Tibet, China, Japan, Korea, Southeast Asia. GE: Values, Society, and Diversity. Same as RELS:1506.

ASIA:1110 Gods, Buddhas, and Ghostly Officials: The Past and Present of Chinese Religions 3 s.h.
History of religious beliefs and practices in China; role in modern-day Chinese society; specific case studies that illuminate current situation of religion in China and impact on Chinese society; focus on the still widespread worship of gods and ancestors, the Confucian, Buddhist and Daoist traditions, recent upsurge of Christianity in China, and emergence of new religions (e.g., the Falun gong). Same as RELS:1510.

ASIA:1135 Korean Language in Culture and Society 3 s.h.
Introduction to various sociolinguistic phenomena in Korean society; general linguistic characteristics of Korean; Confucianism and honorifics; language changes in North and South Korea; gender differences and generation differences; Korean contacts with English, Chinese, Japanese, others. Taught in English.

ASIA:1500 Asian Humanities: Korea 3 s.h.
Introduction to most representative cultural heritages in Korean humanities tradition throughout 4,500 years of Korean history; English translations of famous works in Korean traditional literature, performing and visual arts, philosophy; understanding the essence of traditional Korean culture through exposure to various aspects of Korean humanities; how Korean traditional culture is reflected in contemporary pop culture; readings and discussions taught in English, video materials with English subtitles.

ASIA:1704 The Languages of Asia in Cultural and Historical Perspective 3 s.h.
Chinese, Japanese, Korean, Sanskrit and Hindi; cultural and ethnic factors which have affected and are affected by each language; nontechnical introduction to the structure of the language, discussion of the script in which the language is written, and the history of the language, including a brief outline of the political and cultural history of each pertinent linguistic area and the ways linguistic history has been affected by these factors.

ASIA:1706 Understanding Korean Culture Wave 3 s.h.
Introduction to the Korean culture wave and characteristics of contemporary Korean popular culture; lectures with discussions of readings, various audio-visual references (i.e., films, television dramas, music videos, cartoon, Internet contents).

ASIA:1770 Asian Humanities: Middle East 3 s.h.
How the self has been constructed in literary texts from premodern and modern Islamic world.

ASIA:2231 Introduction to the Art of China 3 s.h.
Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ARTH:2220.

ASIA:2444 Envision India 3 s.h.
Introduction to world view and civilization of the South Asian subcontinent, not as a timeless and isolated culture, but as a dynamic and interactive part of evolving global cultural exchanges.

ASIA:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.
Ways in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semi-classical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India).
ASIA:2602 Civilizations of Asia: China 3 s.h.

ASIA:2604 Civilizations of Asia: Japan 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as HIST:2604.

ASIA:2606 Civilizations of Asia: South Asia 3-4 s.h.

ASIA:2887 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as HIST:2687.

CHIN:1070 Asian Art and Culture 3 s.h.
Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as ARTH:1070.

CHIN:1504 Asian Humanities: China 3 s.h.
Literary and philosophical texts of China in English translation. GE: Values, Society, and Diversity.

CHIN:1702 Chinese Popular Culture 3 s.h.
Introduction to popular culture from the People's Republic of China, Taiwan, Hong Kong, and the Chinese diaspora; shifting relationships among cultural production, media and technology, and political thought; influences of Japan, Korea, and the West; materials drawn from film, television shows, music, new media, popular literature, comics, magazines, advertising, fashion, art, and material culture; no previous knowledge of Chinese is required.

CHIN:1800 Chinese Character Writing and Calligraphy 1 s.h.
Introduction to Chinese script and Chinese character handwriting (including brush writing) techniques; historical development of Chinese writing styles; Chinese character formation, fundamentals of Chinese character writing (stroke sequence, character structure); basic techniques of using Chinese brush; appreciation of Chinese calligraphy as an art form; hands-on practice in writing Chinese characters using a hard pen and Chinese writing brush. Recommendations: enrollment in a Chinese language course.

SOAS:1502 Asian Humanities: India 3 s.h.
Introduction to four thousand years of South Asian civilization, through popular stories. GE: Values, Society, and Diversity. Same as RELS:1502.

SOAS:1550 Sex, Music, and Pop Culture in India 3 s.h.
Exploration of debates and conflicts around gender and sexuality in Indian and South Asian popular culture, particularly music; shifting representations of gender relations, sexuality, gender/sexual identities in Indian music; focus on postcolonial period; how folk music, film songs, and classical music (among other genres) have dealt with issues such as changing conceptions of womanhood or masculinity, "queer" or gender/sexually variant communities and identities; how popular culture has negotiated questions of gender and sexuality in relation to nationhood, globalization, and cultural identity.

Japanese Culture and Civilization

JPNS:1115 Japanese Religions 3 s.h.
Religions of Japan from ancient times to the present day; elite and popular Japanese interpretations of Chinese Buddhist and Daoist traditions; the parallel development of an indigenous kami tradition; contemporary new religious movements; focus on the codification of a variety of religious (and sometimes quasi-religious) paths, including the way of tea, the way of the brush, and the way of the samurai. Same as RELS:1610.

JPNS:1200 Special Topics in Japanese 3 s.h.
Topics vary.

JPNS:1506 Asian Humanities: Japan 3 s.h.
Introduction to premodern, modern, and contemporary Japanese images, myths, and literature in English translation. GE: Values, Society, and Diversity.

JPNS:2175 Japanese Society and Culture 3 s.h.
Cultural anthropology of Japan, including historical tradition, religious ethos, social organization, human ecology, educational and political institutions; emphasis on how these aspects relate to and influence one another. GE: Values, Society, and Diversity. Same as ANTH:2175.

JPNS:2250 Introduction to the Art of Japan 3 s.h.
Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Same as ARTH:2250.

Slavic Culture and Civilization

SLAV:1000 First-Year Seminar 1 s.h.
Cultural, literary, architectural, and historical beauty of Prague, the capital of the Czech Republic. Requirements: first- or second-semester standing.

SLAV:1050 Russian for Travelers and Business People 2 s.h.
How Russian culture continues to shape current geopolitical and sporting events (e.g., World Cup Soccer 2018); emphasis on learning basic survival Russian phrases, cultural etiquette and norms. Taught in English.

SLAV:1131 Introduction to Russian Culture 3 s.h.
Development of cultural history in Russia from middle ages to present; painting, music architecture, literature viewed against their political, historical, and social settings. Taught in English. GE: Values, Society, and Diversity.
SLAV:1132 Russia Today 3 s.h.
Contemporary Russia, with focus on prevailing social, political, economic, ethnic, environmental conditions; attention to historical evolution of problems, current factors; what these factors might portend for the future. Taught in English. GE: International and Global Issues; Values, Society, and Diversity.

SLAV:1450 Diversities of Eastern Europe: Culture, Art, and Politics 3 s.h.
Exploration of major cultural and social changes in Central Europe since the 1950s; very similar, yet different experiences of four nations with a communist takeover, including crushed attempts to reform and humanize socialism and their final reach for freedom and democracy in 1989; current cultural and social situations of each country as they took advantage of newly available opportunities.

SLAV:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture 3 s.h.
Cultural specificity of Ukraine as a large multicultural European country; vital background information for analysis of present-day political events; strategic location between East and West; centuries-long history and culture; all readings in English, no knowledge of Russian or Ukrainian required. Same as CL:1500.

SLAV:1531 Slavic Folklore 3 s.h.
Introduction to culture, history, and art of eastern European peoples; pagan, dualistic, and animistic beliefs and their coexistence with Christian faith in eastern Europe. GE: Historical Perspectives; Values, Society, and Diversity.

SLAV:1532 Religion and Culture of Slavs 3 s.h.
Early and medieval Slavic history, with focus on Russian and Czech art, literature, and religion from 10th through 17th century. GE: Historical Perspectives; Values, Society, and Diversity.

SLAV:2100 Secrets of Russian Mentality 3 s.h.
Deeper insight of Russian mentality through philosophical, historical, cultural, and practical developments that have shaped Russian behavior and thought.

SLAV:2122 Cult Films of the Last Soviet Generation 3 s.h.
Political and cultural circumstance of one of the world's most volatile and powerful regions; how life within what was considered an "Evil Empire" from 1960s to 1980s was far from primitive; how creative intelligentsia continued producing and enjoying excellent motion pictures despite multiple bans and regulations; implications for contemporary life; wider understanding of Russian aesthetics.

SLAV:2131 Women in Russian Society 3 s.h.
Historical developments that have shaped women's role in contemporary Russian society; readings in cultural history, political science, autobiographical and fictional literature, contemporary film. Taught in English.

SLAV:2232 Romani (Gypsy) Cultures of Eastern Europe 3 s.h.
Aspects of culture shared by most Roma (Gypsies) around the world; samples of folklore from Europe; impact of Roma on European literature, music, and culture; readings in English; no previous knowledge of Russian or Romani required. Same as CL:2700.

SLAV:2531 Topics in Russian, East European, and Eurasian Studies 3 s.h.
Same as CL:2531.

Upper-Level Undergraduate and Graduate

Asian Culture and Civilization

ASIA:3120 Autobiography in Islamic Literary Cultures 3 s.h.
How the self has been constructed in Islamic literary cultures from classical Islamic period to modernity.

ASIA:3219 Chinese Art and Culture 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Prerequisites: ARTH:1060 or ARTH:2220. Same as ARTH:3220.

ASIA:3220 Chinese Painting I: Pagodas and Palaces 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ARTH:3230.

ASIA:3270 Themes in Asian Art History 3 s.h.
Same as ARTH:3270.

ASIA:3414 Government and Politics of the Far East 3 s.h.
Functions, institutions of government in countries of Far East; focus on social, economic, historical environments. GE: International and Global Issues; Social Sciences. Same as POLI:3414.

ASIA:3550 Islam, Secularity, Modernity 3 s.h.
How religiosity and secularity are experienced in the Muslim world today.

ASIA:3560 Topics in Asian Religions 3 s.h.
Same as RELS:3560.

ASIA:3655 Zen Buddhism 3 s.h.
Prerequisites: RELS:1404 or RELS:1506 or RELS:1510. Same as RELS:3655.

ASIA:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as WLLC:3700, JPNS:3700.
For thousands of years, Krishna, the dark-skinned flute-player, has been central to the religious experience of many Hindus; his diverse roles as mischievous divine child, sensual teenage cowherd, and adult statesman, warrior, and philosopher celebrated in poetry and prose, painting and sculpture, music, dance, drama, film, and television; exploration of multiple facets of Krishna's character through literary and visual sources, performances; focus on Indian interpretations of erotic content prominent in his story and to the figure of Radha, Krishna's mistress and beloved. Same as RELS:3448.

SOAS:3500 Queerness in South Asian Literature and Cinema

Debates and conflicts around gender or sexual variance in South Asian cultural spheres; shifting representations of queerness—a broad label for non-normative gender/sexual practices or identities—in literature and films from India and neighboring regions; diverse constructions of gender/sexuality in precolonial India; focus on postcolonial period when regulation of deviant gender/sexuality became tied to colonial administration and emerging national identity; how cultural representations constructed normative or deviant genders/sexualities in relation to class, caste, and nationhood.

SOAS:3920 Enlightenment: Cross-Cultural Experiments in Religious Realization

Enlightenment as one of the most important ideas that feeds contemporary religious and spiritual imagination; exploration of this concept in contemporary religious and spiritual discourse. Same as RELS:3582.

ASIA:4657 Chinese History from 1600 to 1927

Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as HIST:4650.

ASIA:4660 Buddhist Poetry

Poetry across the Buddhist world as a favorite form of expression for talking about things that cannot be captured in words; content and style of some major works of Buddhist poetry; theories about relationships between words and meaning that inform poems; scandalous lives of poets; opportunity to explore Buddhist poetry analytically and creatively; no prior knowledge of Asian languages required. Same as RELS:4660.

ASIA:4802 South Asian Research Seminar

Faculty and student research.

CHIN:3202 Chinese Literature: Prose

Readings in Chinese prose, primarily fiction, from third century B.C. to 1900 A.D., in English translation.

CHIN:3260 Conversational Business Chinese

CHIN:3302 Introduction to Chinese Linguistics

Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as SLA:3302, LING:3302.
Japanese Culture and Civilization

JPNS:3128 Introduction to Japanese Linguistics
Phonology, morphology, syntax, semantics, pragmatics; basic structural features of Japanese language. 3 s.h.

JPNS:3135 Postmodern Aesthetics and Japanese Culture
Japanese postmodern trends (from Zen Buddhism to the habits of contemporary otaku consumers); examination of aesthetics including works of literature, film, visual art, and electronic media. 3 s.h.

JPNS:3201 Workshop in Japanese Literary Translation
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as TRNS:3201. 3 s.h.

JPNS:3202 Traditional Japanese Literature in Translation
From seventh century to early modern times. Same as CL:3204. 3 s.h.

JPNS:3203 Modern Japanese Fiction in Translation
Nineteenth century to present. Same as CL:3203. 3 s.h.

JPNS:3204 Topics in Japanese Literature in Translation
Topics vary. 3 s.h.

JPNS:3205 Major Authors in Modern Japanese Literature
Modern Japanese literary works in English translation. 3 s.h.

JPNS:3206 Warriors Dreams
Images of the warrior in traditional Japanese literature, from poetry of the eighth century to romances of the 19th century; readings in English. Same as CL:3206. 3 s.h.

JPNS:3208 Japanese Film
History of Japanese cinema with particular attention paid to Japanese conventions and innovations that differ from classical Hollywood or European paradigms (benshi silent-film narrators, jidaigeki period films, wartime propaganda, postwar melodrama, avant-garde Japanese New Wave, rise of Japanese documentary, anime); screenings may include works by world-famous directors (Mizoguchi, Ozu, Kurosawa) and later masters (Ishikawa Kon, Suzuki Seijun, Itami Juzo); knowledge of film or Japanese is not necessary; all readings in English, films screened with Japanese subtitles. 3 s.h.

JPNS:3210 Japanese Theater
Major forms of Japanese theater and performance including Nô and kyôgen, the bunraku puppet theater, kabuki, shingeki “Western” theater, benshi film narration, butoh modern dance, counterculture and street theater of the 1960s, and Japanese musicals; focus on textual analysis and performance practices; weekly screenings of theatrical performances and student-led staged readings of contemporary performances; all readings in English and screenings have subtitles or accompanying scripts; no knowledge of Japanese required. 3 s.h.

JPNS:3260 Japanese Painting
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Same as ARTH:3260. 3 s.h.

JPNS:3401 Language in Japanese Society
Aspects of the Japanese language that reflect culture, social structures of Japan; communication styles and strategies, cross-cultural communication, language in media, metaphors. 3 s.h.

JPNS:3402 Japan: Culture and Communication
3 s.h.

JPNS:3500 Business Japanese I
Introduction to essential linguistic skills and practical knowledge needed to effectively communicate in Japanese in various professional contexts in socially appropriate manners; business-related expressions, vocabulary, honorifics; development of skills utilizing them in verbal and written modes; sociocultural knowledge associated with Japanese business context, including manners and customs; readings, films, discussions. Corequisites: JPNS:3002, if not taken as a prerequisite. 3 s.h.

JPNS:3501 Business Japanese II
Continuation of JPNS:3500; advanced linguistic skills needed to become effective communicators in business or other professional settings; students conduct research, evaluate information, propose a new project, and complete a formal presentation in Japanese; for students who wish to work at Japan-related companies or become professionals in Japan in fields other than business. Prerequisites: JPNS:3500. 3 s.h.

JPNS:3601 Contemporary Japanese Culture
Cultural texts and practices in contemporary Japan: literature, film, television, manga. 3 s.h.
JPNS:3660 Japanese Religion and Thought 3 s.h.
Same as RELS:3660.

JPNS:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema’s relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as WLLC:3700, ASIA:3700.

JPNS:4201 The Tale of Genji 3 s.h.
Close reading in English of Murasaki Shikibu's Tale of Genji; tale's literary and social contexts, and later reception. Same as CL:4201.

JPNS:4610 Japan—Age of the Samurai 3 s.h.
Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Same as HIST:4610.

JPNS:4615 Modern Japan 3 s.h.
Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Same as HIST:4615.

JPNS:4620 Japan-US Relations 3 s.h.
Political, social, economic, and cultural developments in Japan mid-19th to late-20th century. Same as HIST:4620.

Korean Culture and Civilization

ASIA:4050 Two Koreas: Political Economy or Regional Rivalry 3 s.h.
Introduction to the Korean peninsula; focus on nature of North and South Korean regional rivalry and its global impacts; theoretical and historical explanations; various security issues including North Korean nuclear threat, military alliances, and reunification prospects; economic issues including differential growth paths, South Korea’s rapid growth, and recent economic woes in both Koreas. Same as POLI:4050.

ASIA:4151 Selected Readings in Korean I 3 s.h.
Korean literary works and various readings related to Korean history, culture, and society; expansion of Korean literacy and cultural knowledge through readings; advanced Korean texts. Prerequisites: ASIA:3102.

ASIA:4152 Selected Readings in Korean II 3 s.h.
Reading various genres of more advanced texts than those covered in ASIA:4150; short stories, poetry, and essays familiar with educated Korean people; texts related to history and current events (e.g., articles from newspapers or magazines); texts written in hangul (Korean characters) and hanja (Chinese characters); Korean literature, history, and culture. Prerequisites: ASIA:3102.

Slavic Culture and Civilization

SLAV:3082 Youth Subcultures After Socialism 3-4 s.h.
Examination of youth subculture (i.e., distinct style and identity, beliefs, value system, fashion and favorite music) on the territory of post-communist Europe and its relations with the mainstream culture; how young people of Russia express their individuality after years of dullness and monotony. GE: Values, Society, and Diversity.

SLAV:3100 West and East: Women in the Slavic World 3 s.h.
Roles of women in two Slavic countries—Islamic Republic of Dagestan in Russia, and the Czech Republic—using approaches from the social sciences and humanities; Christian/Catholic traditions in the western Slavic country (i.e., Czechoslovakia/Czech Republic) and Islamic influences in eastern parts of Russia; analysis of women’s egalitarian roles in socialist societies of 1980s, the impact of the major political, economic, and social transitions on women’s lives in 1990s.

SLAV:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy’s War and Peace and Anna Karenina; Dostoevsky’s Crime and Punishment, The Demons, and short stories. Taught in English. Same as CL:3122.

SLAV:3124 Invitation to Nabokov 3-4 s.h.
Nabokov’s works and his writings on Russian literature.

SLAV:3131 Health Care and Health Reforms in Russia 3 s.h.
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Same as GHS:3131.

SLAV:3202 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (Fathers and Sons), Tolstoy (Confession), Dostoevsky (The Idiot, The Brothers Karamazov), and Chekhov (plays). Same as CL:3302.

SLAV:3221 Twentieth-Century Czech Authors 3 s.h.
Twentieth-century prose literature of Czechoslovakia; philosophical works of Capek, Hrabal, Kundera, Klima, Havel. Taught in English. Same as CL:3221.

SLAV:3250 Readings in Russian Literature 3 s.h.
Readings of poetry and prose by Russian authors. Requirements: third-year Russian.

SLAV:3480 Literature and Translation 3 s.h.
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as TRNS:3480.

SLAV:3990 Special Readings arr.
Russian-language materials determined by student and instructor. Requirements: 16 s.h. of Russian language instruction.

SLAV:4990 Independent Research arr.
Directed study.
SLAV:4995 Honors
Requirements: consent of program coordinator.

Graduate
Asian Culture, Linguistics, Pedagogy, Individual Study
ASIA:5102 Individual Korean for Advanced Students
Korea's modern/traditional culture, history, and current social issues; reading, translating authentic articles. Prerequisites: ASIA:3102.

ASIA:6501 M.A. Thesis
Offered fall semesters.

ASIA:6502 M.A. Thesis
Offered spring semesters.

ASIA:6520 Seminar: South Asian Religion
Topics in South Asian religions. Same as RELS:6520.

ASIA:6901 Second Language Acquisition Research and Theory
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as FREN:6901, SLA:6901, SPAN:6901, JPNS:6901.

ASIA:6903 Second Language Acquisition Research and Theory II
Continuation of SLA:6901. Prerequisites: SLA:6901. Same as SLA:6902, SPAN:6902.

ASIA:6955 Topics in Second Language Acquisition: Listening
Theory, pedagogy, research, and assessment in second language listening. Same as SLA:6955.

ASIA:7606 Readings in Chinese History
Same as HIST:7606.

SOAS:5201 Individual Sanskrit for Advanced Students
Research, translation projects. Requirements: fourth-year proficiency.

Chinese Culture, Linguistics, Pedagogy, Individual Study
CHIN:5021 Seminar in Chinese Fiction
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Requirements: ability to read original texts. Same as CL:5201.

CHIN:5022 Seminar in Chinese Literature
Requirements: two years of modern Chinese and one year of classical Chinese. Same as CL:5202.

CHIN:6401 Teaching Chinese as a Second Language VI
Participation in Chinese second language material development projects under instructor's guidance.

CHIN:7401 Teaching Chinese as a Second Language I
Research, theory on acquisition of Chinese as a non-native language. Same as SLA:7406.

CHIN:7403 Teaching Chinese as a Second Language III
Development, application of technological teaching/learning materials; emphasis on designing computer-based materials that increase learner interaction in contextualized cultural environments.

CHIN:7404 Teaching Chinese as a Second Language IV
Overview of goals, concepts, principles, research, and issues in assessment and testing of Chinese as a second language. Same as SLA:7804.

CHIN:7405 Teaching Chinese as a Second Language V
Seminar on research design; for M.A. students planning to write a thesis or project, or graduate students seeking knowledge in designing qualitative or quantitative studies. Prerequisites: CHIN:7401 and PSQF:4143. Same as SLA:7405.

Japanese Culture, Linguistics, Pedagogy, Individual Study
JPNS:5301 Japanese Linguistics
Japanese language as linguistic system; basic linguistic terminology; sound systems, grammar, meanings, usages. Prerequisites: JPNS:4502.

JPNS:5401 Japanese as a Foreign Language: Practical Applications
Instructional methodology, curriculum, and material design; hands-on experience. Prerequisites: JPNS:4502. Same as SLA:5441.

JPNS:5901 Practicum in Teaching Japanese as a Foreign Language
Teaching apprenticeship guided and supervised by a faculty member skilled in University curriculum and instruction.

JPNS:5902 Individual Japanese for Advanced Students

JPNS:6403 Special Topics in Japanese Linguistics
3 s.h.
Topics in applied linguistics and language pedagogy related to Japanese language. Same as SLA:6403.

**JPNS:6901 Second Language Acquisition Research and Theory**
3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as FREN:6901, ASIA:6901, SLA:6901, SPAN:6901.

**JPNS:7101 Readings in Modern Japanese**
3 s.h.
Readings in modern Japanese.

**JPNS:7201 Seminar in Japanese Literature**
3 s.h.
Requirements: three years of Japanese.

**JPNS:7630 Readings: Japanese History**
arr.
Same as HIST:7630.

**Slavic Culture, Linguistics, Pedagogy, Individual Study**

**SLAV:5220 Seminar: Russian Linguistics**
3 s.h.
Topics may include Russian morphosyntax, colloquial Russian, Russian pragmatics, Slavic gender linguistics.
Biology

Chair
- Bernd Fritzsch

Undergraduate major: biology (B.A., B.S.)
Undergraduate minor: biology
Graduate degrees: M.S. in integrated biology; Ph.D. in integrated biology
Faculty: http://biology.uiowa.edu/people/faculty
Web site: http://www.biology.uiowa.edu

The Department of Biology offers undergraduate and graduate programs that prepare students for careers in a wide variety of fields such as health science or biological research, technology, and education. It also offers several courses that undergraduate students in all majors may use to satisfy the General Education Program Natural Sciences requirement and other courses on topics of general interest for undergraduate non-biology majors, including a First-Year Seminar course designed for entering students. The department also administers the interdisciplinary Biomedical Sciences major leading to a Bachelor of Science degree.

Undergraduate Programs of Study

- Major in biology (Bachelor of Arts, Bachelor of Sciences)
- Minor in biology

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

Students majoring in biology may earn a Bachelor of Science or a Bachelor of Arts degree. All students complete the chemistry/physics/mathematics foundation and the biology core. In addition, B.S. students choose one of six tracks, while B.A. students choose courses from several breadth menus and have a wider selection of elective courses.

The department acquaints undergraduate students with the nature of practicing scientists’ work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Investigations (requires membership in the Biology Honors Program). Students associate with one of the department’s research groups in experiments, discussion of current research, study of specialized topics, and attendance at research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory, in northwestern Iowa.

Bachelor of Science

The Bachelor of Science with a major in biology requires a minimum of 120 s.h., including at least 65-76 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

The major is divided into six tracks that emphasize the most dynamic and active areas in the biological sciences. Five of the tracks—cell and developmental biology, genetics and biotechnology, evolutionary biology, neurobiology, and plant biology—emphasize distinct areas. The sixth track—comprehensive biology—provides highly diverse content. Students working toward a B.S. must complete the chemistry/physics/mathematics foundation, the biology core, and one of the six tracks.

Students who wish to apply transfer credit toward graduation with a major in biology should consult their biology advisor.

CHEMISTRY/PHYSICS/MATHEMATICS FOUNDATION

All of these:
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.
CHEM:2210 Organic Chemistry I 3 s.h.

One of these sequences:
PHYS:1511-PHYS:1512 College Physics I-II 8 s.h.
PHYS:1611-PHYS:1612 Introductory Physics I-II 8 s.h.

One of these:
MATH:1460 Calculus for the Biological Sciences 4 s.h.
MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
MATH:1850 Calculus I 4 s.h.

One of these:
STAT:2010 Statistical Methods and Computing (preferred for evolution track) 3 s.h.
STAT:3510 Biostatistics 3 s.h.

BIOLOGY CORE

All of these:
BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.
BIOL:2512 Fundamental Genetics 4 s.h.
BIOL:3172 Evolution 4 s.h.

Tracks for the Bachelor of Science

Bachelor of Science students majoring in biology must select a single track. Each track includes seven or eight courses. The experiential elective requirement may be satisfied by taking an appropriate investigative lab for the track, or through several other options: students who use BIOL:4999 Honors Investigations to fulfill the experiential elective requirement must complete a minimum of 6 s.h. in that course; students who use BIOL:3994 Introduction to Research must complete a minimum of 5 s.h. in that course in combination with 1 s.h. in BIOL:4898 Communicating Research; and students who
use BIOL:4897 Advanced Teaching Internship in Biology must complete a minimum of 4 s.h. in that course.

**CELL AND DEVELOPMENTAL BIOLOGY TRACK**
The cell and developmental biology track provides education in the structure and function of cells and in the principles of development as they apply to animals and plants. This track is appropriate for students who wish to pursue graduate study in cellular and developmental biology, to prepare for professional study in medicine and other health-related fields, or to take positions in laboratories and companies engaged in cancer research and related fields.

**Group 1 (Biochemistry)**
One of these:
- BIOC:3110 Biochemistry 3 s.h.
- BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.

**Group 2 (Cell/Developmental Biology Core)**
This course:
- BIOL:2723 Cell Biology 3 s.h.
One of these:
- BIOL:3233 Introduction to Developmental Biology 3 s.h.
- BIOL:3363 Plant Developmental Biology 3 s.h.
One of these:
- BIOL:3626 Cell Biology Laboratory 4 s.h.
- BIOL:3736 Developmental Biology Lab 4 s.h.

**Group 3 (Experiential Elective)**
One of these:
- BIOL:3626 Cell Biology Laboratory (if not used for group 2 above) 4 s.h.
- BIOL:3656 Neurobiology Laboratory 4 s.h.
- BIOL:3676 Evolution Lab 4 s.h.
- BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
- BIOL:3736 Developmental Biology Lab (if not used for group 2 above) 4 s.h.
- BIOL:3994 & BIOL:4898 Introduction to Research - Communicating Research 6 s.h.
- BIOL:4897 Advanced Teaching Internship in Biology 4 s.h.
- BIOL:4999 Honors Investigations (in cell/developmental biology) 6 s.h.

**Group 4 (Electives)**
At least two of these, with a minimum of one course numbered 3000 or above:
- BIOL:2254 Endocrinology 3 s.h.
- BIOL:2603 Mechanisms of Aging 3 s.h.
- BIOL:2753 Introduction to Neurobiology 3 s.h.
- BIOL:3233 Introduction to Developmental Biology (if not used for group 2 above) 3 s.h.
- BIOL:3253 Neurobiology 4 s.h.
- BIOL:3314 Genomics 3 s.h.
- BIOL:3343 Animal Physiology 3 s.h.

**EVOLUTIONARY BIOLOGY TRACK**
The evolutionary biology track provides education in the principles of evolution as they apply to understanding diversity within and among species, from genomic, ecological, and historical perspectives. This track is appropriate for students who wish to pursue graduate study in evolutionary biology and related fields or to take positions in laboratories using population genetics or phylogenetic approaches such as forensics, fisheries, and human disease mapping.

**Group 1 (Biochemistry)**
One of these:
- BIOC:3110 Biochemistry 3 s.h.
- BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.

**Group 2 (Evolution Core)**
Both of these:
- BIOL:2673 Ecology 3 s.h.
- BIOL:3676 Evolution Lab 4 s.h.
One of these:
- BIOL:3314 Genomics 3 s.h.
- BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.
- BIOL:4373 Molecular Phylogenetics 3 s.h.

**Group 3 (Experiential Elective)**
One of these:
- BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
- BIOL:3994 & BIOL:4898 Introduction to Research - Communicating Research 6 s.h.
- BIOL:4897 Advanced Teaching Internship in Biology 4 s.h.
- BIOL:4999 Honors Investigations (in evolution) 6 s.h.
- ENVS:3095 Field Ecology 4 s.h.
- An approved Iowa Lakeside Laboratory course 4 s.h.

**Group 4 (Electives)**
At least two of these, with a minimum of one course numbered 3000 or above:
- BIOL:2346 Vertebrate Zoology 4 s.h.
- BIOL:2374 Biogeography 3 s.h.
- BIOL:3244 Animal Behavior 3-5 s.h.
- BIOL:3314 Genomics (if not used for group 2 above) 3 s.h.
- BIOL:3663 Plant Response to the Environment 3 s.h.
- BIOL:4213 Bioinformatics 4 s.h.
BIOL:4273 Population Genetics and Molecular Evolution (if not used for group 2 above) 3 s.h.
BIOL:4373 Molecular Phylogenetics (if not used for group 2 above) 3 s.h.
ANTH:3307 Modern Human Origins 3 s.h.
ANTH:3325 Human Evolutionary Genetics 3 s.h.
EES:3220 Evolution of the Vertebrates 3 s.h.
EES:4440 Phylogenetics and Biodiversity 3 s.h.
EES:4700 Evolution of Ecosystems 3 s.h.

**GENETICS AND BIOTECHNOLOGY TRACK**
The genetics and biotechnology track provides education in the key principles of transmission, maintenance, regulation, and manipulation of genes. This track is appropriate for students who wish to pursue graduate study in fields related to genetics or to enter the modern biotechnology industry. It also provides excellent preparation for professional study in medicine and other health-related fields.

**Group 1 (Biochemistry)**
One of these:
- BIOC:3110 Biochemistry 3 s.h.
- BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.

**Group 2 (Genetics Core)**
All of these:
- BIOC:3314 Genomics 3 s.h.
- BIOC:3713 Molecular Genetics 4 s.h.
- BIOC:3716 Genetics and Biotechnology Lab 4 s.h.

**Group 3 (Experiential Elective)**
One of these:
- BIOC:3626 Cell Biology Laboratory 4 s.h.
- BIOC:3676 Evolution Lab 4 s.h.
- BIOC:3736 Developmental Biology Lab 4 s.h.
- BIOC:3994 & BIOC:4898 Introduction to Research - Communicating Research 6 s.h.
- BIOC:4897 Advanced Teaching Internship in Biology 4 s.h.
- BIOC:4999 Honors Investigations (in neurobiology) 6 s.h.

**Group 4 (Electives)**
At least two of these, with a minimum of one course numbered 3000 or above:
- BIOC:2603 Mechanisms of Aging 3 s.h.
- BIOC:2723 Cell Biology 3 s.h.
- BIOC:3233 Introduction to Developmental Biology 3 s.h.
- BIOC:3363 Plant Developmental Biology 3 s.h.
- BIOC:3663 Plant Response to the Environment 3 s.h.
- BIOC:4213 Bioinformatics 4 s.h.
- BIOC:4273 Population Genetics and Molecular Evolution 3 s.h.
- BIOC:4333 Genes and Development 3 s.h.
- BIOC:4373 Molecular Phylogenetics 3 s.h.
- MICR:3170 Microbial Genetics 3 s.h.

**NEUROBIOLOGY TRACK**
The neurobiology track provides education in nervous system function at all levels, from molecular to systems biology. This track is appropriate for students who wish to pursue graduate study in neurobiology and related areas, including psychology and the social sciences; to enter laboratories that study the therapeutic basis of neurological disorders; or to work in pharmaceutical companies. It also provides good preparation for professional study in medicine and other health-related fields.

**Group 1 (Biochemistry)**
One of these:
- BIOC:3110 Biochemistry 3 s.h.
- BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.

**Group 2 (Neurobiology Core)**
All of these:
- BIOC:2753 Introduction to Neurobiology 3 s.h.
- BIOC:3244 Animal Behavior 5 s.h.
- BIOC:3253 Neurobiology 4 s.h.
- BIOC:3656 Neurobiology Laboratory 4 s.h.

**Group 3 (Experiential Elective)**
One of these:
- BIOC:3626 Cell Biology Laboratory 4 s.h.
- BIOC:3676 Evolution Lab 4 s.h.
- BIOC:3736 Developmental Biology Lab 4 s.h.
- BIOC:3994 & BIOC:4898 Introduction to Research - Communicating Research 6 s.h.
- BIOC:4897 Advanced Teaching Internship in Biology 4 s.h.
- BIOC:4999 Honors Investigations (in neurobiology) 6 s.h.

**Group 4 (Electives)**
At least two of these, with a minimum of one course numbered 3000 or above:
- BIOC:2254 Endocrinology 3 s.h.
- BIOC:2603 Mechanisms of Aging 3 s.h.
- BIOC:2723 Cell Biology 3 s.h.
- BIOC:3233 Introduction to Developmental Biology 3 s.h.
- BIOC:3343 Animal Physiology 3 s.h.
- BIOC:4353 Neurophysiology 3 s.h.
- BIOC:4753 Developmental Neurobiology 3 s.h.

**PLANT BIOLOGY TRACK**
The plant biology track provides education in how plants grow, how they have evolved, and how they interact with other organisms. This track is appropriate for students who wish to pursue graduate study in biology specializing in plants. It also is good preparation for positions in plant biotechnology companies that work in biofuels development, crop improvement, or carbon dioxide sequestration, or in agencies dedicated to the conservation of natural lands.
Group 1 (Biochemistry)
One of these:

BIOC:3110 Biochemistry 3 s.h.
BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.

Group 2 (Plant Biology Core)
Both of these:

BIOL:3363 Plant Developmental Biology 3 s.h.
BIOL:3663 Plant Response to the Environment 3 s.h.

One of these:

BIOL:3676 Evolution Lab 4 s.h.
BIOL:3716 Genetics and Biotechnology Lab 4 s.h.

Group 3 (Experiential Elective)
One of these:

BIOL:3626 Cell Biology Laboratory 4 s.h.
BIOL:3676 Evolution Lab (if not used for group 2 above) 4 s.h.
BIOL:3716 Genetics and Biotechnology Lab (if not used for group 2 above) 4 s.h.
BIOL:3736 Developmental Biology Lab 4 s.h.
BIOL:3994 & BIOC:4898 Introduction to Research - Communicating Research 6 s.h.
BIOL:4897 Advanced Teaching Internship in Biology 4 s.h.
BIOL:4999 Honors Investigations (in plant biology) 6 s.h.
ENVS:3095 Field Ecology 4 s.h.
An approved Iowa Lakeside Laboratory course on plant diversity or plant ecology 4 s.h.

Group 4 (Electives)
At least two of these, with a minimum of one course numbered 3000 or above:

BIOL:2374 Biogeography 3 s.h.
BIOL:2673 Ecology 3-4 s.h.
BIOL:2723 Cell Biology 3 s.h.
BIOL:3233 Introduction to Developmental Biology 3 s.h.
BIOL:3314 Genomics 3 s.h.
BIOL:3713 Molecular Genetics 4 s.h.
BIOL:4213 Bioinformatics 4 s.h.
BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.
EES:4700 Evolution of Ecosystems 3 s.h.

COMPREHENSIVE BIOLOGY TRACK
The comprehensive biology track offers a diverse, well-balanced introduction to the major fields of biology. This track prepares students for graduate study in the biological sciences and in science education and for work in laboratories that engage in research and applications in many fields of biology. It also provides broadly based preparation for professional study in medicine and other health-related fields.

Group 1 (Biochemistry and Molecular Biology)
One of these sequences:

BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6 s.h.
BIOC:3314 & BIOC:3110 Genomics - Biochemistry 6 s.h.
BIOC:3713 & BIOC:3110 Molecular Genetics - Biochemistry 7 s.h.

Group 2 (Cellular Biology)
One of these:

BIOL:2723 Cell Biology 3 s.h.
BIOL:2753 Introduction to Neurobiology 3 s.h.

Group 3 (Biological Systems)
One of these:

BIOL:2254 Endocrinology 3 s.h.
BIOL:3233 Introduction to Developmental Biology 3 s.h.
BIOL:3244 Animal Behavior 3-5 s.h.
BIOL:3343 Animal Physiology 3 s.h.
BIOL:3363 Plant Developmental Biology 3 s.h.
BIOL:3663 Plant Response to the Environment 3 s.h.

Group 4 (Population Biology)
One of these:

BIOL:2374 Biogeography 3 s.h.
BIOL:2673 Ecology 3 s.h.
BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.

Group 5 (Investigative Lab)
One of these:

BIOL:3626 Cell Biology Laboratory 4 s.h.
BIOL:3676 Evolution Lab 4 s.h.
BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
BIOL:3736 Developmental Biology Lab 4 s.h.

Group 6 (Experiential Elective)
At least one of these:

BIOL:3626 Cell Biology Laboratory (if not used for group 5 above) 4 s.h.
BIOL:3656 Neurobiology Laboratory 4 s.h.
BIOL:3676 Evolution Lab (if not used for group 5 above) 4 s.h.
BIOL:3716 Genetics and Biotechnology Lab (if not used for group 5 above) 4 s.h.
BIOL:3736 Developmental Biology Lab (if not used for group 5 above) 4 s.h.
BIOL:3994 & BIOL:4898 Introduction to Research - Communicating Research 6 s.h.
BIOL:4897 Advanced Teaching Internship in Biology 4 s.h.
BIOL:4999 Honors Investigations 6 s.h.
An approved Iowa Lakeside Laboratory course 4 s.h.
Suggested Schedule for First-Year Science Courses

The following first-year schedule of science courses is recommended for all biology majors (B.A. or B.S. students).

First-semester science courses:

- CHEM:1110 Principles of Chemistry I 4 s.h.
- Calculus or mathematics leading to calculus 5-10 s.h.

Second-semester science courses:

- BIOL:1411 Foundations of Biology 4 s.h.
- CHEM:1120 Principles of Chemistry II 4 s.h.
- Calculus (if not taken during the first semester) 5 s.h.

Bachelor of Arts

The Bachelor of Arts with a major in biology requires a minimum of 120 s.h., including at least 62-73 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

The major for the Bachelor of Arts prepares students for graduate study in the biological sciences and is especially appropriate for those interested in careers in biological science education at all levels. It also provides suitable preparation for professional positions in laboratory or field research or for professional study in medicine and other health-related fields.

The B.A. program is broadly based. It introduces students to key concepts in important areas of biology and, compared to the B.S. program, provides more flexibility in choosing elective courses. Students working toward a Bachelor of Arts must complete the chemistry/physics/math foundation; the biology core; one course from each of three breadth menus; one course with a laboratory; and three elective courses, which may include one course in the history or philosophy of science.

Students who wish to apply transfer credit toward graduation with a major in biology should consult their biology advisor.

CHEMISTRY/PHYSICS/MATHEMATICS FOUNDATION

All of these:

- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.
- CHEM:2210 Organic Chemistry I 3 s.h.

One of these:

- BIOL:3110 Biochemistry 3 s.h.
- CHEM:2220 Organic Chemistry II 3 s.h.

One of these sequences:

- PHYS:1511-PHYS:1512 College Physics I-II 8 s.h.
- PHYS:1611-PHYS:1612 Introductory Physics I-II 8 s.h.

One of these:

- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
- MATH:1850 Calculus I 4 s.h.

One of these:

- STAT:2010 Statistical Methods and Computing 3 s.h.
- STAT:3510 Biostatistics 3 s.h.

BIOLOGY CORE

All of these:

- BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.
- BIOL:2512 Fundamental Genetics 4 s.h.
- BIOL:3172 Evolution 4 s.h.

BREADTH MENUS

Students must complete at least one course from each of the following three breadth menus.

Molecular and Cellular Biology

- BIOL:2723 Cell Biology 3 s.h.
- BIOL:2753 Introduction to Neurobiology 3 s.h.
- BIOL:3314 Genomics 3 s.h.
- BIOL:3713 Molecular Genetics 4 s.h.

Developmental Biology and Physiology

- BIOL:2254 Endocrinology 3 s.h.
- BIOL:3233 Introduction to Developmental Biology 3 s.h.
- BIOL:3343 Animal Physiology 3 s.h.
- BIOL:3363 Plant Developmental Biology 3 s.h.
- BIOL:3663 Plant Response to the Environment 3 s.h.

Ecology and Evolutionary Biology

- BIOL:2374 Biogeography 3 s.h.
- BIOL:2673 Ecology 3 s.h.
- BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.

COURSE WITH A LABORATORY

One of these (must not have been used as a breadth menu course):

- BIOL:2346 Vertebrate Zoology 4 s.h.
- BIOL:3244 Animal Behavior 5 s.h.
- BIOL:3626 Cell Biology Laboratory 4 s.h.
- BIOL:3656 Neurobiology Laboratory 4 s.h.
- BIOL:3676 Evolution Lab 4 s.h.
- BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
- BIOL:3736 Developmental Biology Lab 4 s.h.
- BIOL:4999 Honors Investigations 6 s.h.
- BIOL:3140 Experimental Biochemistry 2 s.h.
- EES:3210 Principles of Paleontology 3 s.h.
- MICR:2157 General Microbiology 5 s.h.
- Iowa Lakeside Laboratory courses (students consult their advisors) 4-5 s.h.

ELECTIVES

Students complete at least three elective courses, which may include any course chosen from a breadth menu or from the list of courses with a laboratory that has not been used to satisfy those requirements, any other 2-4 s.h.
course numbered 2000 or above except for BIOL:2211 Genes, Genomes, and the Human Condition offered by the Department of Biology, any approved advanced biology course taught at Iowa Lakeside Laboratory (p. 1212) (students should consult their advisors), and/or any course(s) chosen from the following list.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH:3307 Modern Human Origins</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>ANTH:3322 Primate Evolutionary Biology</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>ANTH:3325 Human Evolutionary Genetics</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>ASP:3160 Biology of Aging</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>EES:3070 Marine Ecosystems and Conservation</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>EES:3220 Evolution of the Vertebrates</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>EES:4700 Evolution of Ecosystems</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HHP:4130 Skeletal Muscle Physiology</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>MICR:3147 Survey of Immunology</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

One of the electives may be chosen from these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:3110/GHS:4111 Geography of Health</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HIST:4160/GHS:4160 History of Public Health</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HIST:4162/GHS:4162 History of Global Health</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>HIST:4419 Ancient and Medieval Science</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>PHIL:3604 Introduction to Philosophy of Science</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

In addition, students who have passed CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, and BIOC:3110 Biochemistry may use BIOC:3110 Biochemistry as a biology elective. Students may count BIOL:3994 Introduction to Research (maximum of 3 s.h.) and BIOL:4897 Advanced Teaching Internship in Biology (maximum of 2 s.h.) only once toward the B.A. elective requirement.

### Suggested Schedule for First-Year Science Courses

The following first-year schedule of science courses is recommended for all biology majors (B.A. or B.S. students).

#### First-semester science courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM:1110 Principles of Chemistry I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>Calculus or mathematics leading to calculus</td>
<td>5-10 s.h</td>
</tr>
</tbody>
</table>

#### Second-semester science courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL:1411 Foundations of Biology</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>CHEM:1120 Principles of Chemistry II</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>Calculus (if not taken during the first semester)</td>
<td>5 s.h.</td>
</tr>
</tbody>
</table>

### B.A. or B.S. with Teacher Licensure

Biology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a major offered by the Science Education Program. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Science Education in the Catalog.

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

### Bachelor of Science

**Before the third semester begins:** MATH:1460 Calculus for the Biological Sciences or MATH:1850 Calculus I or MATH:1550 Engineering Mathematics I: Single Variable Calculus, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology

**Before the fifth semester begins:** BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and two other courses in the major

**Before the seventh semester begins:** BIOL:2512 Fundamental Genetics, BIOL:3172 Evolution, PHYS:1511 College Physics I and PHYS:1512 College Physics II or equivalents; five or six more courses in the major, including an investigative lab; and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two or three more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Bachelor of Arts

**Before the third semester begins:** MATH:1460 Calculus for the Biological Sciences or MATH:1850 Calculus I or MATH:1550 Engineering Mathematics I: Single Variable Calculus, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology

**Before the fifth semester begins:** BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and three other courses in the major

**Before the seventh semester begins:** BIOL:2512 Fundamental Genetics, BIOL:3172 Evolution, PHYS:1511 College Physics I and PHYS:1512 College Physics II or equivalents; five or six more courses in the major, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two or three more courses in the major
During the eighth semester: enrollment in all remaining coursework in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The Biology Honors Program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department's research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that the student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Honors Seminar in Biology (BIOL:4998), or an equivalent seminar, provides students with an ideal opportunity to improve their skills in seminar presentation and in writing scientific English. Throughout undergraduate residence, departmental honors students also may enroll in honors sections of courses offered by the Department of Biology and by other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology (either B.S. or B.A.) with a g.p.a. of at least 3.33 in all course work in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, physics, biochemistry, mathematics, and statistics);
- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Investigations;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give a brief oral presentation of their research findings to other biology honors students.

Students pursuing a B.S. in biology may apply 6 s.h. of BIOL:4999 Investigations toward the experiential elective requirement in an appropriate track. Students pursuing a B.A. in biology may apply 6 s.h. of BIOL:4999 toward the required course with a laboratory and count the 2 s.h. earned in BIOL:4998 Honors Seminar in Biology toward the elective requirement.

Students who satisfy the requirements for honors in the biology major will also satisfy the Level Two: Learning by Doing requirement of the University Honors Curriculum.

Biology majors interested in graduating with honors in the major should contact the biology honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

Joint B.A./M.A.T. with Science Education Subprogram

Bachelor of Arts students interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and an M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Joint B.A./M.A.T.: Science Education" in the Teaching and Learning (College of Education) section of the Catalog. Interested students should consult an advisor.

Joint B.A./Graduate Degrees in Epidemiology

Bachelor of Arts students majoring in biology who are interested in earning a Master of Science in epidemiology or a Master of Public Health with epidemiology subprogram may apply to the joint B.A./M.P.H. or joint B.A./M.S. program offered by the College of Liberal Arts and Sciences and the College of Public Health. The joint programs permit students to count 12 s.h. of credit toward the requirements of both degrees, enabling them to begin the study of public health before they complete the bachelor's degree. For information about the M.P.H., see "Epidemiology Subprogram" in the Master of Public Health section of the Catalog; for information about the M.S. program, see Epidemiology in the Catalog.

Minor

The minor in biology requires a minimum of 15 s.h. in biology courses, including 12 s.h. in courses numbered 2000 or above offered by the Department of Biology at the University of Iowa or in approved Iowa Lakeside Laboratory courses. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may not count transfer courses as courses numbered 2000 or above.

Graduate Programs of Study

- Master of Science in integrated biology
- Doctor of Philosophy in integrated biology

The Department of Biology's graduate programs in integrated biology emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. These programs prepare students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used. Research programs in the department cover many and diverse areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

When a new graduate student is admitted, he or she is assigned a temporary advisor. The student and advisor discuss the student's educational background and
formulate a first-semester study plan before the student registers for courses. The programs allow each student to tailor course work to his or her research interest. Students may be advised to take specific course work in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, and physics does not meet the department’s graduate entry requirements may need to remedy deficiencies by taking appropriate course work.

Minimum entry requirements are:
- two semesters of organic chemistry, or one semester of organic chemistry and one semester of biochemistry;
- one semester of calculus;
- two semesters of college physics; and
- 20 s.h. of course work in biology.

A student with a bachelor's degree outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

**Master of Science**

The Master of Science in integrated biology requires 30 s.h. of graduate credit with thesis or 34 s.h. of graduate credit without thesis. Entering students are admitted only to the thesis program; the nonthesis degree is an exit program.

All M.S. students take a seminar (2 s.h.) with a substantial writing and oral presentation requirement and two advanced lecture-based courses in biology (or courses approved by the Graduate Affairs Committee). Students receive academic credit for courses required for an M.S. or Ph.D. but not for courses taken to remedy undergraduate deficiencies.

Thesis students may count a maximum of 9 s.h. of research credit toward the 30 s.h. required for the master's degree with thesis. Remaining course work is tailored to the student's background and career goals and is selected in consultation with the student's advisory committee. The thesis is based on original research. After the thesis is accepted by the student's supervisor and advisory committee, the student must pass an oral examination based on the thesis research and on related subjects.

Nonthesis students must write a library research report for a maximum of 4 s.h. of credit. They may apply up to 8 s.h. of research credit toward the 34 s.h. required for the master's degree without thesis.

Visit Integrated Biology Graduate Program for more detailed information about the Master of Science program.

**Doctor of Philosophy**

The Doctor of Philosophy in integrated biology requires a minimum of 72 s.h. of graduate credit.

New Ph.D. students will do three laboratory rotations with different faculty during their first semester (August-December). Students consult with their temporary advisors and with prospective faculty research sponsors before identifying their preferences for research rotations. Based on their rotations, they choose a laboratory affiliation for their thesis. This is done late in the first semester.

During the first year (both semesters), students are required to enroll in BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar, which introduces them to multiple levels of biological analysis and provides them with significant opportunities to hone their skills in written and oral communication. At the end of the first year, students take a qualifying exam that consists of essay questions based on major themes in biology. Students must perform satisfactorily on this exam in order to continue in the program.

During the first two years, students must enroll in at least two advanced lecture courses (or courses approved by the Graduate Affairs Committee), one seminar course (2 s.h.) that has a significant writing component, and BIOL:6188 Seminar: Writing in Natural Sciences.

The comprehensive examination is taken in the summer of the second year in residence. Students prepare a National Institutes of Health/National Science Foundation-style grant application on their planned thesis work and orally defend this work in front of a review committee. Students must demonstrate knowledge of biology fundamentals and the analytic and synthetic skills necessary to become creative, independent scientists. Once they complete the course work and proficiency requirements and pass the comprehensive examination, students may be admitted to full candidacy for the Ph.D.

Ph.D. students must serve as teaching assistants for at least two semesters in order to develop and demonstrate teaching. The first teaching semester takes place during the spring of the student's first year and preceded by extensive departmental training in effective teaching skills.

The department also offers career seminars that explore types of employment outside of academic research, including teaching careers and other topics.

The program culminates in students' preparation of a dissertation based on original independent research. Students must pass a final examination that covers the thesis and its specialized field before the Ph.D. is awarded.

Visit Integrated Biology Graduate Program for more detailed information about the Doctor of Philosophy program.

**Admission**

Individuals who wish to pursue graduate study in integrated biology may apply to the Doctor of Philosophy program or the Master of Science with thesis program. The M.S. without thesis is an exit program; it does not admit entering graduate students.

Application materials for the graduate program must be uploaded to the University's Office of Admissions web site. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit Apply on the integrated biology graduate program web site.

Applicants must hold a valid B.A. or B.S. from an accredited institution. Applicants should supply official transcripts from each undergraduate and graduate institution they have attended along with scores from the Graduate Record Examination (GRE) General Test (verbal,
quantitative, and analytical writing). The GRE Subject Test in biology or biochemistry is optional but not required.

Applicants whose first language is not English must score at least 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL) and have their score sent to the Office of Admissions. International applicants who received their degrees (either bachelor’s or master’s) from a U.S. institution are exempt from this requirement. All international students whose first language is not English are required to take the on-campus English Proficiency Evaluation before they first enroll for classes.

Successful applicants for graduate admission typically have a g.p.a. of at least 3.00 (on a 4.00 scale) and a Graduate Record Examination (GRE) General Test score above 1200 (combined verbal and quantitative) on the old GRE or 308 (combined verbal and quantitative) on the revised GRE. The admissions committee also considers letters of recommendation, research experience, and other appropriate criteria.

Although most applicants have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, providing they have taken the required course work.

Students applying for admission to the M.S. with thesis program should have a bachelor’s degree in one of the biological sciences. Students with bachelor’s degrees in other areas may need to register as nondegree students and complete the equivalent of the department’s bachelor’s degree program prior to consideration for admission. Nondegree students must complete chemistry, physics, and calculus requirements in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department’s graduate program administrator before applying for admission.

Applications are due by January 1 (visit Integrated Biology Graduate Program for updated deadline information) and must include the applicant’s GRE test scores. In order to meet the deadline, applicants must take the GRE in October or earlier. Late applications are considered as placement and funding permit.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

All graduate students making satisfactory progress toward the Ph.D. receive stipend and tuition support from non-University of Iowa fellowships and from teaching assistantships or research assistantships available through individual research grants administered by faculty members or by the University. First-year Ph.D. students are supported by department fellowships during the research rotation period and by teaching assistantships during the spring semester. M.S. students generally are supported by available research or teaching assistantships. Offers of admission include information about offers of financial support.

Facilities

The department is housed in two contiguous buildings, with modern facilities and equipment for state-of-the-art research.

Facilities include the Keck Dynamic Image Analysis Facility, which couples sophisticated state-of-the-art microscopy and computerized motion analysis to permit three-dimensional real-time analysis of cell movement in vitro and in situ. The Roy J. Carver Center for Genomics houses the department’s DNA sequencing, oligo synthesis, quantitative PCR, functional genomics/microarray facilities, and informatics facilities. The Roy J. Carver Center for Imaging is a microscopy and imaging facility; its confocal microscope is available for teaching and research. A large greenhouse is used in plant research and education.

The department also houses animal-care facilities suitable for mice, rats, rabbits, *Xenopus laevis*, and zebra fish. These facilities are managed by the University’s animal care unit, which is accredited by the Association for Assessment and Accreditation of Laboratory Animal Care. A central University facility provides assistance in the preparation of transgenic mice.

The department is home to the Developmental Studies Hybridoma Bank, which is affiliated with the National Institutes of Health. The hybridoma bank collects and distributes monoclonal antibodies that originate in laboratories all over the world. Its collection now contains more than 3,500 monoclonal antibodies that are distributed to users internationally for a modest fee.

In addition to department facilities, the University offers a genomic sequencing service, a DNA oligonucleotide synthesis and enzyme lab, oligopeptide synthesis and sequencing equipment, and mass- and NMR spectroscopy facilities. The Center for Biocatalysis and Bioprocessing is available for growing large amounts of microorganisms (e.g., 100 liters) for use in protein isolation.

Iowa Lakeside Laboratory

The Iowa Lakeside Laboratory is a field station run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa. Located on West Lake Okoboji, in northwestern Iowa, the laboratory affords excellent conditions for summer study in field biology, limnology, phycology, aquatic ecology, pollination biology, and plant taxonomy. It offers a wide variety of summer courses at the undergraduate and graduate levels. Students should check with their advisors to determine whether specific courses may be counted toward requirements for graduation. See Iowa Lakeside Laboratory (University College) in the Catalog or visit the Lakeside Laboratory web site.

Courses

Many courses include laboratory, discussion, and/or field components.

Lower-Level Undergraduate

**BIOL:1411 Foundations of Biology** 4 s.h.

Unifying concepts of living systems; emphasis on common properties and processes; chemical and cellular basis of life, genetics, and evolution. Prerequisites: CHEM:1110. GE: Natural Sciences with Lab.
BIOL:1412 Diversity of Form and Function 4 s.h.
Underlying unifying concepts of life; emphasis on diversity of living systems; the tree of life, cellular evolution, prokaryotic and eukaryotic diversity, plant and animal form and function; interactions among diverse forms of life and their environment. Prerequisites: BIOL:1411. Requirements: grade of C- or higher in BIOL:1411. GE: Natural Sciences with Lab.

BIOL:1808 Ways of Knowing Science 1 s.h.
Science as a powerful way of knowing based on experimentation and observation of natural world; introduction to subdisciplines of scientific research; scope and methods of scientific research; questions that scientific research seek answers for; methods that scientists use to obtain answers to their questions; how science affects us personally and how it affects the rest of society; research seminars, discussion, and exploration.

BIOL:2254 Endocrinology 3 s.h.
Production and effect of hormonal chemical messengers of secretory glands; emphasis on cell signaling in vertebrate systems; actions of hormones in regulating growth, physiology, and reproduction; organ to molecular levels. Prerequisites: BIOL:1411 and BIOL:1412. Recommendations: CHEM:2210.

BIOL:2346 Vertebrate Zoology 4 s.h.
Vertebrate diversity, success in relation to evolutionary history, and adaptive radiation of fish, amphibians, reptiles, birds, mammals; physiological, morphological, behavioral, life history adaptations; vertebrate zoogeography, systematics, patterns of reproduction, social systems. Prerequisites: BIOL:1411 and BIOL:1412.

BIOL:2374 Biogeography 3 s.h.
Patterns of plant and animal distribution and their interpretation; historical geography including glaciation and plate tectonics; ecological geography, including physical factors (e.g., climate and geology); applications to conservation in diverse regions. Prerequisites: GEOG:1020 or BIOL:1141 or BIOL:1261 or BIOL:1370 or BIOL:1412. Same as GEOG:2374.

BIOL:2512 Fundamental Genetics 4 s.h.

BIOL:2603 Mechanisms of Aging 3 s.h.
Evolutionary theories of aging, cellular and genetic basis of aging and repair, disruption of homeostasis in aging; focus on studies of biological and environmental causes of age-related diseases. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500).

BIOL:2673 Ecology 3-4 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Prerequisites: BIOL:1411 and BIOL:1412 and (MATH:1460 or MATH:1550 or MATH:1850). Recommendations: a basic statistics course. Same as ENVS:2673.

BIOL:2723 Cell Biology 3 s.h.
Structures of cells and organelles in relation to their functions at molecular, cellular levels; emphasis on higher eukaryotic cells. Prerequisites: BIOL:1411 and BIOL:1412 and CHEM:1120.

BIOL:2753 Introduction to Neurobiology 3 s.h.
Techniques of molecular biology, genomics, neuropharmacology, and functional brain imaging applied to understanding how the brain works. Prerequisites: BIOL:1411 and BIOL:1412.

Elementary Topics of General Interest, Lower-Level Undergraduate

These courses are not open to graduate students and do not provide credit toward a biology major.

BIOL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

BIOL:1060 Origins of Life in the Universe 3 s.h. (Part 1)
Fundamental questions (How old is the universe? What is the nature of life? How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (i.e., astronomy, physics, geoscience, biology, chemistry, anthropology); work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, effective written and oral communication; origin of the universe, biochemistry of life, and origin of life on Earth; first of a two-part sequence. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, EES:1060.

BIOL:1061 Origins of Life in the Universe 4 s.h. (Part 2)
Fundamental questions (What is the nature of life? What is evolution and how has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (astronomy, physics, geoscience, biology, chemistry, anthropology); students work with faculty from several departments to investigate these questions; inquiry-based activities build success in critical thinking, teamwork, and effective written and oral communication; second of a two-part sequence. GE: Natural Sciences with Lab. Same as ASTR:1061, ANTH:1061, EES:1061.
BIOL:1140 Human Biology 4 s.h.
Molecular and cellular basis of human life; integration of humans and the biosphere through photosynthesis, respiration; structure, function of human tissues, organs, organ systems; reproduction, genetics, impact of molecular biology and genetic engineering; lecture, laboratory. GE: Natural Sciences with Lab.

BIOL:1141 Introductory Animal Biology 4 s.h.
Fundamental principles: cells and macromolecules, energy metabolism, organismic physiology, genetics, development, ecology, and evolution. Requirements: one year of high school chemistry. Recommendations: CHEM:1070. GE: Natural Sciences with Lab.

BIOL:1251 How the Brain Works (and Why it Doesn't) 3-4 s.h.
Introductory survey of neuroscience; structure and function of the brain; nature of consciousness; brain function in mental illness and degenerative disorders; genes and the mind; perception, sensation, memory, and emotions. Requirements: non-biology major. GE: Natural Sciences without Lab.

BIOL:1260 Plants and Human Affairs 2-3 s.h.
How plants are useful to people: food, clothing, shelter, medicines, psychoactive agents; plants' social, economic, ecological significance. GE: Natural Sciences without Lab.

BIOL:1261 Introduction to Botany 4 s.h.
Biology of plant life; emphasis on structure, function, reproduction, inheritance, diversity, evolution. Requirements: one year of high school chemistry. GE: Natural Sciences without Lab.

BIOL:1311 Human Genetics in the Twenty-First Century 3 s.h.
Organization and inheritance of human genes and genomes; genetic basis of simple and complex traits; genetic aspects of cancer; paleogenomics and tracing human migrations with DNA. GE: Natural Sciences without Lab. Same as ANTH:1310.

BIOL:1360 Spring Flora 3 s.h.
Recognition and identification of spring-flowering herbaceous plants, native woodland trees and shrubs, woody landscape plants; family characteristics, use of taxonomic key.

BIOL:1370 Understanding Evolution 3 s.h.
Evolution and diversity of living things, their patterns on Earth, their organization in ecological systems; dynamics of evolutionary processes. GE: Natural Sciences without Lab.

BIOL:2211 Genes, Genomes, and the Human Condition 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Prerequisites: BIOL:1411. Recommendations: BIOL:1412.

Upper-Level Undergraduate and Graduate

BIOL:3172 Evolution 4 s.h.
Nature, evidence, analysis, implications, molecular/genetic basis; historical record, phylogeny, speciation, adaptation, investigative methods. Prerequisites: BIOL:1411 and BIOL:1412 and BIOL:2512 and (MATH:1460 or MATH:1550 or MATH:1850 or STAT:2010 or STAT:3510). Requirements: grade of C- or higher in BIOL:2512.

BIOL:3233 Introduction to Developmental Biology 3 s.h.
Fundamental mechanisms in differentiation, organogenesis, morphogenesis; and pattern formation; mechanistic approach at molecular, cellular, tissue levels of organizations. Prerequisites: BIOL:1412 and CHEM:1120. Requirements: grade of C- or higher in BIOL:1412. Recommendations: BIOL:2512.

BIOL:3244 Animal Behavior 3,5 s.h.
Genetics, sensory physiology, migration, development of behavior, circadian rhythms, foraging strategies, aggression, sexual and parental behavior, group selection, social behavior. Prerequisites: BIOL:1411 and BIOL:1412.

BIOL:3253 Neurobiology 4 s.h.
Cellular neurobiology (cytoskeleton and transport, membrane physiology, synaptic transmission and plasticity, sensory transduction); systems neurobiology (peripheral and central sensory processing, autonomic and somatic motor systems); cognitive neurobiology (emotion, biological rhythms and sleep, memory, attention, language); developmental neurobiology. Prerequisites: BIOL:2753. Recommendations: BIOL:2723 and BIOC:3110.

BIOL:3314 Genomics 3 s.h.
Major areas of genomics, including DNA and protein sequence analysis, structural diversity of whole genomes, microarray applications, proteomics; computer workshop experience in applying bioinformatics tools. Prerequisites: BIOL:2512 or BIOC:3120.

BIOL:3343 Animal Physiology 3 s.h.
Principles of cellular and systems physiology; emphasis on experimental and quantitative aspects. Prerequisites: BIOL:1411 and BIOL:1412 and (PHYS:1511 or PHYS:1611). Corequisites: PHYS:1512 or PHYS:1612, if not taken as a prerequisite.

BIOL:3363 Plant Developmental Biology 3 s.h.
Developmental processes throughout life cycle of vascular plants; current knowledge of mechanisms, control; emphasis on molecular and genetic approaches to studying development. Prerequisites: BIOL:2512.

BIOL:3373 Human Population Genetics and Variation 3 s.h.
Principles of evolutionary change of genes and genomes applied to human populations and to comparisons between humans and their closest primate relatives; emphasis on consequences of mutation, natural selection, and demographic changes. Prerequisites: BIOL:2211 or BIOL:2512. Requirements: grade of C- or higher in BIOL:2211 or BIOL:2512, or graduate standing.
BIOL:3626 Cell Biology Laboratory 4 s.h.
Conceptual understanding and technical skills in fluorescence microscopy and digital imaging, mammalian cell culture, tissue fractionation, centrifugation, electrophoresis, and expression of recombinant proteins. Prerequisites: BIOL:1411 and BIOL:1412 and BIOL:2723.

BIOL:3656 Neurobiology Laboratory 4 s.h.
Principles and practice of neurobiology research, including microscopy and imaging, cellular and molecular neurobiology, and electrophysiology. Prerequisites: BIOL:2753.

BIOL:3663 Plant Response to the Environment 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:2512 or BIOL:3120.

BIOL:3676 Evolution Lab 4 s.h.
Methods of sampling and describing variation in natural populations; application of molecular genetic, bioinformatic, and computational techniques to describe genetic variation through sequence analysis; use of controlled laboratory experiments and computer simulations to illustrate evolutionary principles. Prerequisites: BIOL:2512. Corequisites: BIOL:3172, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:3172.

BIOL:3713 Molecular Genetics 4 s.h.
Mechanism, regulation of RNA, DNA, protein biosynthesis, with emphasis on methods of genetic analysis; application of modern recombinant DNA techniques to basic problems. Requirements: BIOL:2512 or BIOL:3120 or first-year graduate standing.

BIOL:3716 Genetics and Biotechnology Lab 4 s.h.

BIOL:3736 Developmental Biology Lab 4 s.h.
Experimental manipulation of embryos to examine mechanisms of early development, including gametogenesis and fertilization, cleavage, gastrulation, pattern formation and organogenesis; in vivo imaging of development, methods to visualize gene expression and independent research; model organisms including sea urchin, fish, frog, chick, mouse. Prerequisites: BIOL:2512 and BIOL:3233.

BIOL:3743 Basic Biology of Human Disease 2 s.h.
Basic problems of infectious disease; selected viral, bacterial, and fungal pathogens, with emphasis on fungal pathogenesis; DNA fingerprinting; epidemiological study of disease dynamics. Prerequisites: BIOL:2512.

BIOL:3898 Teaching Internship in Biology 2 s.h.
Training in teaching the laboratory component of a large General Education biology course; weekly session with instructor, shadowing and assisting a graduate teaching assistant in a lab section, leading laboratory exercises. Prerequisites: BIOL:1411 and BIOL:1412. Requirements: grades of B or higher in BIOL:1411 and BIOL:1412, and junior or senior standing.

BIOL:3994 Introduction to Research 2-3 s.h.
Conduct independent scientific research related to the field of biology.

BIOL:4213 Bioinformatics 4 s.h.
Overview of bioinformatics topics, including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics and protein structure analysis; emphasis on each topic includes biological motivation, computational approach (practical and theoretical), and interpretation of output. Prerequisites: BIOL:2512 or BIOL:3120. Recommendations: grade of B+ or higher in BIOL:2512 or BIOL:3120, or graduate standing. Same as GENE:6170.

BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.
Nucleotide sequences, genes, and mutation; rates and patterns of nucleotide substitution; selection at the molecular level and the neutral theory; population genetics theory; genome evolution. Requirements: grade of C- or higher in BIOL:2211 or BIOL:2512, or graduate standing. Recommendations: grade of C- or higher in BIOL:3172.

BIOL:4316 Summer Practicum in Genomics 2 s.h.
Major areas of genomics, including sequence similarity searching, whole genome comparisons, phylogenetic analysis, and regulatory informatics; computer workshop experience in application of bioinformatics tools. Prerequisites: BIOL:3314 or BIOL:4213 or GENE:6170.

BIOL:4333 Genes and Development 3 s.h.
Mechanisms by which genes control development of multicellular animals; methodology of scientific research applied to developmental genetics. Requirements: grade of B or higher in BIOL:2512. Recommendations: BIOL:3233.

BIOL:4353 Neurophysiology 3-4 s.h.
Physiological properties of nerve cells, nervous systems; axonal conduction, synaptic transmission, sensory transduction, integrative processes, higher functions. Prerequisites: (BIOL:2753 or BIOL:3253) and (MATH:1460 or MATH:1850) and (PHYS:1512 or PHYS:1612). Same as NSCI:4353.

BIOL:4373 Molecular Phylogenetics 3 s.h.
Theory underlying phylogenetic analysis with application of these methods to molecular data sets; analysis of multigene data, organellar, and nuclear genome sequences to reconstruct the history of cells. Requirements: grade of C- or higher in BIOL:3172 or graduate standing.
BIOL:4753 Developmental Neurobiology 3 s.h.
Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:2753. Corequisites: BIOL:3253. Requirements: grade of B- or higher in BIOL:2753 or graduate standing. Same as MPB:4753, NSCI:4753.

BIOL:4897 Advanced Teaching Internship arr.
Teaching the laboratory component of a large introductory-level biology course; weekly training session with instructor; shadowing and assisting a graduate teaching assistant in a weekly lab section. Prerequisites: BIOL:1411 and BIOL:1412. Requirements: grades of B- or higher in BIOL:1411 and BIOL:1412, junior or senior standing, and interview with instructor.

BIOL:4898 Communicating Research 1 s.h.
Independent, investigative research experience; research process and communication—establishing goals and expectations with a mentor, developing and framing a research hypothesis or question, communicating results in written and oral form to scientist and nonscientist audiences; supportive learning environment to share research experiences and develop identities as scientists, learn skills to become effective independent researchers and science communicators. Corequisites: BIOL:3994 or BIOL:4999.

BIOL:4998 Honors Seminar in Biology 2 s.h.
Requirements: honors standing.

BIOL:4999 Honors Investigations arr.
Conduct independent scientific research related to the field of biology. Requirements: honors standing in biology, UI g.p.a. of at least 3.33, and biology g.p.a. of at least 3.33.

Graduate

BIOL:5117 Topics in Molecular Genetics 1-2 s.h.
Requirements: grade of C+ or higher in BIOL:2512 or graduate standing.

BIOL:5127 Topics in Cell and Development 1-2 s.h.

BIOL:5157 Topics in Neurobiology 1-2 s.h.
Topics vary. Requirements: BIOL:3253 or graduate standing.

BIOL:5177 Topics in Evolution and Ecology 1-2 s.h.
Requirements: grades of B- or higher in BIOL:2512 and BIOL:3172, or graduate standing.

BIOL:5199 Critical Readings in Biology arr.

BIOL:5211 Genes, Genomes, and the Human Condition Graduate Lecture 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Recommendations: BIOL:1411 highly recommended.

BIOL:5218 Microscopy for Biomedical Research arr.
Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunocytochemistry and stereology techniques, individualized laboratory instruction. Prerequisites: BIOL:2723. Same as ACB:5218, MICR:5218.

BIOL:5220 Advanced Microscopy for Biomedical Research arr.
Technically advanced microscopy and instrumentation for research; individualized laboratory experience with opportunity to explore applications of microscopy methods. Requirements: for ACB:5220 — an introductory microscopy course; for BIOL:5220 — ACB:4156 or ACB:5218 or EEB:4156 or EES:4156 or MICR:5218; for MICR:5220 — an introductory EM course. Same as ACB:5220, MICR:5220.

BIOL:5270 Biosciences Critical Thinking and Communication 2 s.h.
Selected papers and oral and written presentations tied to students' research rotations; introductory seminar. Same as BISC:5265, MPB:5342.

BIOL:5289 Research Method and Theory 2 s.h.
Materials and methods of scientific investigation; lab techniques; library resources usage, NCBI data base training; lab safety; research ethics; reading, writing, presenting scientific papers. Requirements: new graduate standing in biology.

BIOL:5320 Computational Genomics 3 s.h.
Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Prerequisites: BME:5320 and CS:3110 and (BIOS:4120 or STAT:3510). Same as BME:5330, GENE:5173, ECE:5220.

BIOL:5412 Fundamental Genetics—Graduate Lecture 3 s.h.

BIOL:5512 Fundamental Genetics—Graduate Discussion 1 s.h.
Critical evaluation of classic genetics papers. Requirements: biology graduate standing.

BIOL:5653 Fundamental Neurobiology 4 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of neuron; membrane electrophysiology, synaptic transmission and plasticity, functional neuroanatomy, sensory systems from periphery to CNS, peripheral and central motor systems, autonomic systems emotion, memory, sleep, language, attention and cognition, development of nervous system; discussion of classic and recent journal articles. Same as PSY:5203, NSCI:5653.
BIOL:6188 Seminar: Writing in Natural Sciences 2 s.h.
Writing and critiquing skills in the natural sciences.

BIOL:6199 Research: Biology arr.

BIOL:6265 Neuroscience Seminar 0-1 s.h.
Research presentations. Offered fall and spring semesters. Same as PSY:6265, ACB:6265, MPB:6265, NSCI:6265.

Primary research on central biological questions utilizing full array of organisms and analytical approaches; opportunity to improve skills in public speaking, presentation, and scientific writing. Requirements: integrated biology graduate standing.

BIOL:6759 Molecular Neurobiology of Hearing Development, Function, and Disease 3 s.h.
Up-to-date overview of auditory system, function, and development; molecular basis for development, function, and disease; auditory system as basis for most human communication; prominent functional reduction during senescence; structure, function, development, and disease mechanisms that provide long-term solutions to cure or prevent beyond currently available treatment of hearing loss with a cochlear implant; series of lectures organized to provide an overview of various aspects of this system. Prerequisites: BIOL:3253.

BIOL:6899 Independent Study in Biology arr.
Biomedical Sciences

Chair, Department of Biology
• Bernd Fritzsch

Director, Biomedical Sciences
• Bryant F. McAllister

Undergraduate major: biomedical sciences (B.S.)
Biomedical sciences is an interdisciplinary major designed for students who plan to attend medical school or conduct biomedical research in graduate school and beyond. The curriculum stretches broadly across scientific and mathematical fields. The major is selective, with a limited number of students admitted, and the curriculum is challenging, requiring extreme dedication by its students, who are mentored by faculty members from the participating disciplines.

The Departments of Biochemistry, Biology, Chemistry, and Microbiology collaborate to present the major in biomedical sciences; the major is administered by the Department of Biology.

Undergraduate Program of Study
• Major in biomedical sciences (Bachelor of Science)

Bachelor of Science
The Bachelor of Science with a major in biomedical sciences requires a minimum of 120 s.h., including at least 79-81 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The interdisciplinary major provides an excellent foundation for medical training and for research and/or practice in the chemical, genetic, cellular, and physiological bases of human disease. The curriculum includes required and elective course work in biochemistry, biology, chemistry, health and human physiology, mathematics, microbiology, physics, psychology, sociology, and statistics. Students who wish to apply transfer credit toward the major should consult their departmental advisor.

The major in biomedical sciences requires the following course work.

REQUIRED COURSES
Students complete all of the following (62-63 s.h.).

Chemistry
All of these:

BIOC:3120 Biochemistry and Molecular Biology I 3 s.h.
BIOC:3130 Biochemistry and Molecular Biology II 3 s.h.
CHEM:1110 Principles of Chemistry I 4 s.h.
CHEM:1120 Principles of Chemistry II 4 s.h.
CHEM:2210 Organic Chemistry I 3 s.h.
CHEM:2220 Organic Chemistry II 3 s.h.

Life Sciences
All of these:

BIOC:1411 Foundations of Biology 4 s.h.
BIOC:2211 Genes, Genomes, and the Human Condition 3 s.h.
BIOC:3373 Human Population Genetics and Variation 3 s.h.
HHP:3500 Human Physiology 3 s.h.
MICR:2157 General Microbiology 5 s.h.

Mathematics/Statistics
Both of these:

MATH:1460 Calculus for the Biological Sciences 4 s.h.
STAT:3510 Biostatistics 3 s.h.

Physics
Both of these:

PHYS:1511 College Physics I 4 s.h.
PHYS:1512 College Physics II 4 s.h.

Social Sciences
All of these:

PSY:1001 Elementary Psychology 3 s.h.
PSY:2130 Advanced Psychology for Pre-Medical Track 3 s.h.
SOC:1010 Introduction to Sociology 3-4 s.h.

ELECTIVE COURSES
Students complete a total of 17-18 s.h. of elective course work chosen from the following lists.

Lecture courses—two of these:

BIOC:5241 Biophysical Chemistry I 3 s.h.
BIOC:2254 Endocrinology 3 s.h.
BIOC:2723 Cell Biology 3 s.h.
BIOC:2753 Introduction to Neurobiology 3 s.h.
BIOC:3233 Introduction to Developmental Biology 3 s.h.
BIOC:3343 Animal Physiology 3 s.h.
BIOC:4213 Bioinformatics 4 s.h.
MICR:3147 Survey of Immunology 3 s.h.

Chemistry lab—one of these:

BIOC:3130 Biochemistry and Molecular Biology II 3 s.h.
CHEM:2410 Organic Chemistry Laboratory 3 s.h.

Experiential learning—one of these:

Honors research course 4 s.h.
Additional lab course 4 s.h.

Investigative lab—one of these:

BIOC:3626 Cell Biology Laboratory 4 s.h.
BIOC:3656 Neurobiology Laboratory 4 s.h.
BIOC:3676 Evolution Lab 4 s.h.
MICR:3716 Genetics and Biotechnology Lab 4 s.h.
BIOC:3736 Developmental Biology Lab 4 s.h.
Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**Before the seventh semester begins:** BIOC:3120 Biochemistry and Molecular Biology I, BIOC:3130 Biochemistry and Molecular Biology II, BIOL:2211 Genes, Genomes, and the Human Condition, BIOL:3373 Human Population Genetics and Variation, STAT:3510 Biostatistics, and CHEM:2410 Organic Chemistry Laboratory or BIOC:3140 Experimental Biochemistry

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in biomedical sciences are encouraged to graduate with honors in the major. Honors students in the major may enroll in honors sections of courses offered by the Department of Biology and by other departments and programs. They also are advised to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

To graduate with honors in the biomedical sciences major, students must fulfill the following requirements:

- complete the requirements for a major in biomedical sciences with a g.p.a. of at least 3.33 in all University of Iowa course work in the major;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Investigations;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give an oral presentation of their research findings.

Honors students in biomedical sciences must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Biomedical sciences majors interested in graduating with honors in the major should contact the biomedical sciences honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Contact the Department of Biology to learn more about honors in the major.
Chemistry

Chair
• Sarah C. Larsen

Undergraduate major: chemistry (B.A., B.S.)
Undergraduate minor: chemistry
Graduate degrees: M.S. in chemistry; Ph.D. in chemistry
Faculty: http://www.chem.uiowa.edu/people
Web site: http://www.chem.uiowa.edu/

Undergraduate Programs of Study
• Major in chemistry (Bachelor of Arts, Bachelor of Science)
• Minor in chemistry

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in chemistry requires a minimum of 120 s.h., including 53-54 s.h. of work for the major (20 s.h. in foundation chemistry courses, 12 s.h. in advanced chemistry, and 21-22 s.h. in supporting course work). The Bachelor of Science with a major in chemistry requires a minimum of 120 s.h., including 69 s.h. of work for the major (20 s.h. in foundation chemistry courses, 27 s.h. in advanced chemistry, and 22 s.h. in supporting course work). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The chemistry major for the Bachelor of Arts provides a more general education than the B.S. program offers and may be the degree of choice for students who are interested in earning licensure to teach in secondary schools (see "B.A. or B.S. with Teacher Licensure" below). Advanced courses in chemistry, biology, mathematics, physics, or other science disciplines are recommended as electives for B.A. students. Those who choose appropriate electives may meet entrance requirements for graduate or professional programs such as chemistry, biochemistry, medicine, or dentistry. Graduates also may pursue careers and education in business, law, and other areas.

The chemistry major for the Bachelor of Science is certified by the American Chemical Society (ACS) when a biochemistry course is included. An ACS-approved program offers a broad-based and rigorous chemistry education that provides students with intellectual, experimental, and communication skills to become effective scientific professionals. Current and projected demand for Bachelor of Science graduates in chemistry is excellent in research and in control and process-development work. The program also provides all the prerequisites for graduate work in chemistry or biochemistry and in other biomedical areas with a molecular focus.

Bachelor of Arts and Bachelor of Science students take the same chemistry foundation courses, but their requirements in other areas are different. B.A. students must earn at least 11 s.h. in advanced chemistry courses at the University of Iowa; B.S. students must earn at least 20 s.h. in advanced chemistry courses at the University. Mathematics and preferred physics requirements also differ for the two degrees, and B.S. students may count undergraduate research toward the science electives requirement.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Basic Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

CHEMISTRY FOUNDATION COURSES (B.A. AND B.S.)

All students (Bachelor of Arts and Bachelor of Science) complete the following foundation courses.

All of these:
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.
CHEM:2021 Basic Measurements 3 s.h.

One of these sequences:
CHEM:2230 & CHEM:2240 Organic Chemistry I for Majors - Organic Chemistry II for Majors (preferred) 6 s.h.
CHEM:2210 & CHEM:2220 Organic Chemistry I-II 6 s.h.

One of these:
CHEM:2420 Organic Chemistry Laboratory for Majors (preferred) 3 s.h.
CHEM:2410 Organic Chemistry Laboratory 3 s.h.

ADVANCED CHEMISTRY (B.A.)

Bachelor of Arts students complete one of these:
CHEM:3120 Analytical Chemistry II (preferred) 3 s.h.
CHEM:3110 Analytical Chemistry I 3 s.h.

And all of these:
CHEM:3250 Inorganic Chemistry 3 s.h.
CHEM:4430 Principles of Physical Chemistry 3 s.h.
CHEM:4450 Synthesis and Measurement 3 s.h.

ADVANCED CHEMISTRY (B.S.)

Bachelor of Science students complete all of these:
CHEM:3110 & CHEM:3120 Analytical Chemistry I-II 6 s.h.
CHEM:3250 Inorganic Chemistry 3 s.h.
CHEM:3430 Analytical Measurements 3 s.h.
CHEM:3440 Physical Measurements 3 s.h.
CHEM:3530 Inorganic Chemistry Laboratory 3 s.h.
CHEM:4270 Advanced Inorganic Chemistry 3 s.h.
CHEM:4431-CHEM:4432 Physical Chemistry I-II 6 s.h.
MATHEMATICS (B.A.)
Bachelor of Arts students complete one of these:
MATH:1460 Calculus for the Biological Sciences (preferred) 4 s.h.
MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
MATH:1850 Calculus I 4 s.h.
And one of these:
MATH:1560 Engineering Mathematics II: Multivariable Calculus 4 s.h.
MATH:1860 Calculus II 4 s.h.
STAT:2010 Statistical Methods and Computing 3 s.h.
STAT:3510 Biostatistics (preferred) 3 s.h.

MATHEMATICS (B.S.)
Bachelor of Science students complete one of these sequences:
MATH:1850 & MATH:1860 Calculus I-II (preferred) 8 s.h.

INTRODUCTORY PHYSICS (B.A. AND B.S.)
All students complete one of these sequences:
PHYs:1511-PHYs:1512 College Physics I-II (preferred for B.A.) 8 s.h.
PHYs:1611-PHYs:1612 Introductory Physics I-II (preferred for B.S.) 8 s.h.

SCIENCE ELECTIVES (B.A.)
Bachelor of Arts students complete a total of 6 s.h. of elective courses chosen from the following list. Some of these courses may be used to fulfill other requirements for the major, as listed above; students who have used a course from this list to fulfill another requirement for the major may not use that course as an elective.
CHEM:3110 Analytical Chemistry I 3 s.h.
CHEM:3120 Analytical Chemistry II 3 s.h.
CHEM:3430 Analytical Measurements 3 s.h.
CHEM:3440 Physical Measurements 3 s.h.
CHEM:3530 Inorganic Chemistry Laboratory 3 s.h.
CHEM:4171 Advanced Analytical Chemistry 3 s.h.
CHEM:4270 Advanced Inorganic Chemistry 3 s.h.
CHEM:4372 Advanced Organic Chemistry 3 s.h.
CHEM:4431 Physical Chemistry I 3 s.h.
CHEM:4432 Physical Chemistry II 3 s.h.
CHEM:4480 Introduction to Molecular Modeling 3 s.h.
CHEM:4760 Radiochemistry: Energy, Medicine, and the Environment 3 s.h.
CHEM:4873 Atmospheric and Environmental Chemistry 3 s.h.
CHEM:4875 Introduction to Polymer Chemistry 2-3 s.h.
BIOC:3110 Biochemistry 3 s.h.
BIOC:3120 Biochemistry and Molecular Biology I 3 s.h.
BIOC:3130 Biochemistry and Molecular Biology II 3 s.h.

CEE:5152/CBE:5152 Environmental Chemistry 3 s.h.
EE:4490 Elements of Geochemistry 3 s.h.
EE:4520 Isotope Geochemistry 3 s.h.

Students should consult their advisors to gain approval for a course that is not on the list.

SCIENCE ELECTIVES AND RESEARCH (B.S.)
Bachelor of Science students complete a total of 6 s.h. chosen from these:
CHEM:3994 Undergraduate Research 1-4 s.h.
BIOC:3110 Biochemistry 3 s.h.
BIOC:3120 Biochemistry and Molecular Biology 3 s.h.

Advanced science elective courses

ACS CERTIFICATION REQUIREMENT (B.S.)
Bachelor of Science students who want an ACS certified degree complete one of these optional courses (also listed above under "Science Electives and Research (B.S.)"):
BIOC:3110 Biochemistry 3 s.h.
BIOC:3120 Biochemistry and Molecular Biology 3 s.h.

B.A. or B.S. with Teacher Licensure
Chemistry majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students who plan to use their work toward a minor in chemistry as academic background for earning teacher licensure should contact the Office of Education Services about requirements.

Students with a strong interest in science teaching may complete a major offered by the Science Education Program. Students choose one of five emphases—biology, chemistry, earth science, physics, and all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Science Education (p. 788) in the Catalog.

Joint B.A./M.A.T. with Science Education Subprogram
B.A. students majoring in chemistry who are interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and an M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see “Joint B.A./M.A.T.
Honors in the Major

Students majoring in chemistry have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. In addition, students must complete an undergraduate research project acceptable to their research advisor and must write an honors thesis based on their research. Students can register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum in order to earn credit for their research. They are encouraged, but not required, to present their research at local and regional meetings and to publish their results in professional journals.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor

The minor in chemistry requires a minimum of 15 s.h. in chemistry courses, including 12 s.h. in courses numbered 2210 or above taken in the Department of Chemistry at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The following courses do not count toward the minor.

CHEM:3560 Advanced Methods in Chemical Research: Special Topics 1-3 s.h.
CHEM:3994 Undergraduate Research 1-4 s.h.
CHEM:4261 Selected Topics in Chemistry 1-3 s.h.

Resources, Activities

The department offers undergraduate students majoring in chemistry and other students interested in chemistry a number of opportunities to enrich their classroom studies.

Undergraduate Chemistry Center

The Chemistry Center serves all students who take chemistry courses as well as the department's professors and teaching assistants. The center maintains waiting lists and offers other assistance with registration, returns examinations and homework assignments, schedules alternative exams, and provides information about all lower-level chemistry courses. Information about student organizations and departmental scholarships and awards is also available at the Chemistry Center.

Student Organizations

A number of organizations are open to undergraduate students for support and enrichment.

Students may join the University of Iowa undergraduate student chapter of the American Chemical Society (ACS). Chapter activities include dinner meetings with guest speakers; field trips to local industry; participation in local and national meetings of the ACS; and participation in chemistry outreach programs. Students in the ACS student chapter develop leadership, organization, and speaking skills valuable during their college experience and throughout their careers.
The department has a chapter of Alpha Chi Sigma, a co-ed chemistry fraternity. The Alpha Theta Chapter is open to students in chemistry, biochemistry, chemical engineering, and related fields. Alpha Chi Sigma sponsors many social and professional events throughout the year.

The department endorses the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE), which is committed to discovery, translational, and application of knowledge in science and engineering and to increasing the participation of underrepresented populations in these fields. NOBCChE sponsors diverse programs designed to foster professional development and to encourage students to pursue careers in science and technical fields.

The department also supports the activities of Women in Science and Engineering (WISE), whose aim is to increase women’s participation and advancement as students, faculty members, and professional staff; promote a supportive study and work environment for women; integrate women’s ideas, strengths, and approaches into research, teaching, and service; and inform the public of educational and career opportunities for women in scientific and technical fields. WISE sponsors a living-learning community in Stanley Hall (a University residence hall) for first-year female students majoring in science or engineering, the Student-to-Student Support in Science mentoring program, a service learning program, and the WISE Discourse and Dining series.

Scholarships and Awards
A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors also may apply for the Donald J. and Margaret Burton Scholarship, Ken Sando Scholarship, Shoemaker-Strickler Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

Graduate Programs of Study
- Master of Science in chemistry
- Doctor of Philosophy in chemistry

Master of Science
The Master of Science in chemistry requires a minimum of 30 s.h. of graduate credit. The degree is offered with or without thesis. M.S. students must demonstrate minimal proficiency in biochemistry, analytical, inorganic, organic, and physical chemistry by passing specific examinations or by enrolling in suitable core courses. This requirement must be completed by the end of the second year of enrollment. A g.p.a. of at least 3.00 is required for admission to the master’s examination.

Doctor of Philosophy
The Doctor of Philosophy in chemistry requires a minimum of 72 s.h. of graduate credit. A Ph.D. in chemistry includes minimal proficiency examinations, core courses as necessary, a minimum of 11 s.h. of advanced course work, and research.

Students who meet the course requirements with a cumulative g.p.a. of 3.00 or higher are admitted to the oral comprehensive examination upon presentation and preliminary approval of their written research proposal and research progress report; they must take the oral comprehensive examination no later than the end of their second year of enrollment.

Upon completing Ph.D. research, candidates prepare the dissertation. The final examination consists of an oral defense of the thesis, at which time the candidate presents at least one manuscript of the publishable portion of his or her thesis.

Admission
Applicants for graduate admission should have a bachelor’s degree with a major in chemistry or a related field, preferably with a g.p.a. of 3.00 or higher. Most admitted graduate students receive financial support. For application information, contact the Department of Chemistry or visit its web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Facilities
The Department of Chemistry’s main office, support facilities, and faculty offices are located in the Chemistry Building, as is laboratory and classroom space dedicated to teaching and research activities. Several faculty members have offices and laboratories in the Iowa Advanced Technology Laboratories, across the street from the Chemistry Building. See the Department of Chemistry web site for information about facilities and advanced instrumentation available for instruction and research.

Courses
Lower-Level Undergraduate
Students planning to take more than one year of chemistry should take CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II.

Students who require only one year of chemistry with no laboratory component may take CHEM:1070 General Chemistry I and CHEM:1080 General Chemistry II.

Students who have not had high school chemistry or do not have strong math and/or chemistry preparation should consider taking CHEM:1070 General Chemistry I before CHEM:1110 Principles of Chemistry I; academic advisors and the Chemistry Diagnostic Test can help students determine which of these courses to take first.

CHEM:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
CHEM:1050 Technology and Society 3 s.h.
Nonmathematical exploration of selected areas of technology; basic science background, current technological applications, implications for society; for nonscience majors. Recommendations: closed to students who have taken college chemistry courses. GE: Natural Sciences without Lab.

CHEM:1060 Technology and Society Laboratory 1 s.h.
Laboratory for CHEM:1050; demonstrations, student experiments. Corequisites: CHEM:1050 if not taken as a prerequisite. Requirements: closed to students who have earned more than 3 s.h. in chemistry courses. GE: Natural Sciences Lab only.

CHEM:1070 General Chemistry I 3 s.h.
Atomic structure, chemical bonds, mole relations, stoichiometry, states of matter, acids and bases, reaction rates, electrochemistry, nuclear chemistry. Requirements: elementary algebra. GE: Natural Sciences without Lab.

CHEM:1080 General Chemistry II 3 s.h.
Organic chemistry and biochemistry. Requirements: CHEM:1070 or high school chemistry. GE: Natural Sciences without Lab.

CHEM:1090 Supplemental Chemistry Lab 1 s.h.
Lab techniques, elementary synthesis, measurement, analysis, case-study lectures and experiments; safety glasses, appropriate dress, compliance with laboratory safety protocols required.

CHEM:1100 Chemistry in Industry and the Economy 3 s.h.
Atomic structure, chemical bonding, acid and bases, polymers, pharmaceutics, DNA, proteins, and basic economics. Requirements: non-science major. GE: Natural Sciences without Lab.

CHEM:1110 Principles of Chemistry I 4 s.h.
Chemical bonding and chemical reactions; atomic and molecular structure, chemical equations, stoichiometry, gases, liquids, thermodynamics of phase changes, solutions, equilibrium, acids, bases, pH, elementary organic chemistry; the solid state, including modern materials; lecture, discussion, laboratory. Requirements: MATH:1005 or ACT math subscore of 24 and ALEKS score above 65%. Recommendations: Chemistry Diagnostic Test score of 16. GE: Natural Sciences with Lab.

CHEM:1120 Principles of Chemistry II 4 s.h.
Continuation of CHEM:1110; colligative properties of solutions, chemical thermodynamics, electrochemistry, chemical kinetics, chemical bonding, aspects of industrial chemistry, nuclear chemistry; lecture, discussion, laboratory. Recommendations: CHEM:1110. GE: Natural Sciences with Lab.

CHEM:1160 Principles of Chemistry Lab 2 s.h.
Laboratory techniques. Requirements: grades of C or higher in CHEM:1180 and CHEM:1190. GE: Natural Sciences Lab only.

CHEM:1180 Chemical Science I 3 s.h.
GE: Natural Sciences without Lab.

CHEM:1190 Chemical Science II 3 s.h.
GE: Natural Sciences without Lab.

CHEM:1200 Chemical Science Laboratory 2 s.h.
GE: Natural Sciences Lab only.

CHEM:2021 Basic Measurements 3 s.h.
Continuation of CHEM:1120; techniques of data collection and processing, including titrimetric and instrumental techniques for data collection and computer techniques for data processing. Prerequisites: CHEM:1120. Requirements: chemistry major.

CHEM:2210 Organic Chemistry I 3 s.h.
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, alcohols, alkyl halides, aromatics. Recommendations: CHEM:1120.

CHEM:2220 Organic Chemistry II 3 s.h.
Continuation of CHEM:2210; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, ethers, amino acids, carbohydrates, nucleosides. Recommendations: CHEM:2210 or CHEM:2230.

CHEM:2230 Organic Chemistry I for Majors 3 s.h.
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, alcohols, alkyl halides, aromatics. Requirements: chemistry, biochemistry, or chemical engineering major. Recommendations: CHEM:1120 or CHEM:1190.

CHEM:2240 Organic Chemistry II for Majors 3 s.h.
Continuation of CHEM:2230; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, ethers, amino acids, carbohydrates, and nucleosides. Prerequisites: CHEM:2210 or CHEM:2230. Requirements: chemistry, biochemistry, or chemical engineering major.

CHEM:2410 Organic Chemistry Laboratory 3 s.h.
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Corequisites: CHEM:2220 or CHEM:2240. Recommendations: CHEM:1110 and CHEM:1120, or CHEM:1160 or CHEM:1200; and CHEM:2210 or CHEM:2230.

CHEM:2420 Organic Chemistry Laboratory for Majors 3 s.h.
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 and (CHEM:2210 or CHEM:2230). Corequisites: CHEM:2220 or CHEM:2240. Requirements: chemistry, biochemistry, or chemical engineering major.
Upper-Level Undergraduate and Graduate

CHEM:3110 Analytical Chemistry I 3 s.h.
Modern theory and practice; emphasis on chemical equilibria (acid-base chemistry, solubility, complexation) and electroanalytical chemistry (potentiometry, voltammetry, coulometry). Recommendations: CHEM:1120, and MATH:1460 or MATH:1850, and PHYS:1511 or PHYS:1611.

CHEM:3120 Analytical Chemistry II 3 s.h.
Modern theory and practice; emphasis on atomic and molecular spectroscopy, mass spectrometry, chemical separations. Recommendations: CHEM:1120, and MATH:1460 or MATH:1850, and PHYS:1511 or PHYS:1611.

CHEM:3250 Inorganic Chemistry 2-3 s.h.
Modern principles; emphasis on descriptive chemistry of the main group and transition elements, ionic and covalent chemical bonding theories, symmetry, inorganic stereochemistry. Recommendations: CHEM:1120, and CHEM:2220 or CHEM:2240.

CHEM:3430 Analytical Measurements 3 s.h.

CHEM:3440 Physical Measurements 3 s.h.
Laboratory experience using advanced instrumental and computational methods to generate and analyze data relevant to modern physical chemistry. Requirements: chemistry major. Recommendations: CHEM:2021, and CHEM:4431 or CHEM:4432, and CHEM:4431 or CHEM:4432.

CHEM:3530 Inorganic Chemistry Laboratory 3 s.h.
Preparation and characterization of a variety of inorganic, organometallic, and coordination compounds of the main group and transition elements; emphasis on synthetic techniques, methods for characterization of inorganic species. Prerequisites: (CHEM:2410 or CHEM:2420) and CHEM:3250.

CHEM:3560 Advanced Methods in Chemical Research: Special Topics 1-3 s.h.
Introduction to advanced research methods.

CHEM:3994 Undergraduate Research 1-4 s.h.

CHEM:4171 Advanced Analytical Chemistry 3 s.h.

CHEM:4261 Selected Topics in Chemistry 1-3 s.h.
Prerequisites: CHEM:2210 or CHEM:2230.

CHEM:4270 Advanced Inorganic Chemistry 3 s.h.
Modern principles, including crystal field/ligand field/molecular orbital theory, inorganic reaction mechanisms, coordination chemistry, bioinorganic chemistry, main group and transition metal organometallic chemistry, solid-state inorganic chemistry. Corequisites: CHEM:3530, if not taken as a prerequisite. Recommendations: CHEM:3250 and CHEM:4432.

CHEM:4372 Advanced Organic Chemistry 3 s.h.
Basic concepts from perspectives of structure, mechanism, synthesis, stereochemistry. Recommendations: CHEM:2220 or CHEM:2240.

CHEM:4430 Principles of Physical Chemistry 3 s.h.
Kinetics, transport properties, elementary thermodynamics, and selected topics in quantum mechanics and spectroscopy; emphasis on application of chemistry to areas of science including health and biosciences, environmental sciences, and related areas. Recommendations: CHEM:1120, and MATH:1460 or MATH:1850, and PHYS:1512 or PHYS:1612.

CHEM:4431 Physical Chemistry I 3 s.h.
Chemical thermodynamics and its application to chemical equilibrium, phase changes and chemical equilibria; ideal and real gases; kinetic theory; surface absorption and electrochemistry; thermodynamics. Recommendations: CHEM:1120, and MATH:1560 or MATH:1860, and PHYS:1512 or PHYS:1612.

CHEM:4432 Physical Chemistry II 3 s.h.
Quantum mechanics and its application to atomic and molecular structure; determination of structure and bonding by various spectroscopic methods; chemical kinetics. Recommendations: CHEM:1120, and MATH:1560 or MATH:1860, and PHYS:1512 or PHYS:1612.

CHEM:4450 Synthesis and Measurement 3 s.h.
Laboratory investigations integrating synthesis and measurement techniques from inorganic, analytical, and physical chemistry; emphasis on modern applications of chemistry in biology, medicine, environmental science, catalysis, and materials science. Recommendations: CHEM:2021, and CHEM:2410 or CHEM:2420, and CHEM:3110 or CHEM:3120, and CHEM:3250, and CHEM:4430 or CHEM:4431 or CHEM:4432.

CHEM:4480 Introduction to Molecular Modeling 3 s.h.
Theory and application of ab initio quantum mechanics, semiempirical molecular orbital theory, and molecular mechanics force fields to chemical research problems; underlying theory of these methods (with emphasis on ab initio theory) and their practical application to chemical problems; computational chemistry projects using modeling software. Corequisites: CHEM:4432, if not taken as a prerequisite.

CHEM:4760 Radiochemistry: Energy, Medicine, and the Environment 3 s.h.
CHEM:4873 Atmospheric and Environmental Chemistry 3 s.h.
Fundamental chemical processes of importance in the atmosphere, soil, and water, with emphasis on kinetics and photochemistry of homogeneous and heterogeneous reactions, atmospheric structure and dynamics, global geochemical cycling, chemistry-climate relationships, environmental remediation strategies; experimental methods in field and laboratory studies. Corequisites: CHEM:4431 or CHEM:4432, if not taken as a prerequisite.

CHEM:4875 Introduction to Polymer Chemistry 2-3 s.h.

Graduate

CHEM:5091 Graduate Chemistry Orientation 2 s.h.
Pedagogy, safety and research issues relevant to advanced chemistry careers. Requirements: senior standing.

CHEM:5092 Ethics in Chemical Sciences 1 s.h.
Scholarly integrity for being a responsible chemist on graduate-level research; introduction to infrastructure of scientific scholarship with emphasis on interacting with peers, funding agencies, industrial entities; responsible conduct in research in the context of creation of knowledge, dissemination of scientific findings, intellectual property, and conflict of interest; workshops to study cases in chemical research to illustrate the principles of scholarly integrity.

CHEM:5107 Electrochemistry 2-3 s.h.
Fundamental aspects, including mass transport and electron transfer, electrochemical methodology (e.g., voltammetry and potentiometry), determination of homogeneous and heterogeneous reaction mechanisms. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.

CHEM:5108 Spectroscopy 3 s.h.
Principles of atomic and molecular absorption and emission spectroscopy in ultraviolet, visible, and infrared regions of the spectrum, including fluorescence, phosphorescence, Raman spectroscopy; applications to analytical problems, with emphasis on modern instrumentation and methodology. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.

CHEM:5109 Separations 3 s.h.
Analytical separations; basic theory, practical applications, instrumentation, modern techniques (ex extractions, gas and liquid chromatography, capillary electrophoresis), and detection (mass spectrometry). Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.

CHEM:5110 Chemical Sensors 2 s.h.
Theory, practical limitations, analytical utility based on immobilized reagents with electrochemical, thermal, optical transduction mechanisms. Recommendations: CHEM:3110 and CHEM:3120, or CHEM:4171.

CHEM:5114 Chemical Systems Modeling 2 s.h.
Basic processes and techniques; these methods applied to systems relevant to students' own research. Recommendations: CHEM:3110 or CHEM:3120 or CHEM:4171.

CHEM:5115 Biophotonics 3 s.h.

CHEM:5118 Nanomaterials 3 s.h.
Basic principles associated with nanoscience and nanotechnology; fabrication and synthesis, size dependent properties, characterization, applications of materials at nanometer length scales, recent technological breakthroughs in the field. Requirements: graduate standing or advanced undergraduate standing in engineering and science. Recommendations: knowledge of basic chemistry.

CHEM:5120 Electrochemistry of Polymer Films 1 s.h.
Use of electrochemical methods to characterize polymer and thin films; transport through polymer films and composites, electrochemistry of polymer films. Requirements: physical chemistry course.

CHEM:5150 Chemometrics 3 s.h.

CHEM:5190 Seminar: Analytical Chemistry 0-1 s.h.

CHEM:5199 Special Topics in Analytical Chemistry arr.
Content varies.

CHEM:5202 Coordination Chemistry and Spectroscopy 1,3 s.h.

CHEM:5203 Organometallic Chemistry 3 s.h.

CHEM:5204 Physical Methods in Inorganic Chemistry 3 s.h.
Application of physical methods to problems; recent developments; emphasis on magnetic resonance spectroscopy. Recommendations: CHEM:4270.

CHEM:5205 Bioinorganic Chemistry 2-3 s.h.
The role of metal ions in biology from an inorganic chemical perspective; emphasis on structure and mechanism for transition metal-containing metallo-enzymes.
CHEM:5206 Solid-State and Materials Chemistry 3 s.h.
Introduction to the chemical concepts of solid-state chemistry; focus on synthesis and characterization of various inorganic materials; structure/property relationships, real-world examples. Recommendations: CHEM:4270.

CHEM:5290 Seminar: Inorganic Chemistry 0-1 s.h.

CHEM:5299 Special Topics in Inorganic Chemistry 1-3 s.h.
Recommendations: CHEM:4270.

CHEM:5321 Spectroscopic Methods in Organic Chemistry 3-4 s.h.

CHEM:5326 Organic Reactions 3 s.h.
Survey of organic reactions used in contemporary organic synthesis; emphasis on C-C bond forming reactions, functional group interconversions, oxidations and reductions; mechanistic details of reaction types; innovations in catalytic and asymmetric organic reactions. Recommendations: CHEM:4372.

CHEM:5328 Mechanisms of Organic Reactions 3 s.h.
Application of basic mechanistic concepts.

CHEM:5329 Advanced Organic Synthesis 3 s.h.

CHEM:5390 Seminar: Organic Chemistry 0-1 s.h.

CHEM:5399 Organic Chemistry Special Topics 1,3 s.h.
Recommendations: CHEM:4372.

CHEM:5431 Statistical Thermodynamics I 3 s.h.
Fundamentals of classical thermodynamics and equilibria; ensembles; noninteracting systems; theory of phase transitions; Monte-Carlo methods; classical fluids; nonequilibrium systems. Recommendations: CHEM:4431.

CHEM:5433 Quantum and Computational Chemistry 3 s.h.
Fundamental principles of quantum chemistry; angular momentum; approximation methods; theory of atomic and molecular electronic structure; applications of computational quantum mechanics to chemical systems. Corequisites: CHEM:4432, if not taken as a prerequisite.

CHEM:5434 Molecular Spectroscopy 3 s.h.
Quantum mechanical theory of molecular spectroscopy; time-dependent perturbation theory, selection rules, lineshapes; selected applications in microwave, vibrational (infrared and Raman), electronic, optical, and magnetic resonance spectroscopy. Recommendations: CHEM:5433.

CHEM:5435 Chemical Kinetics 3 s.h.
Potential energy surfaces, transition state theory, diffusion limited rates, linear free energy relationships, isotope effects, solvent effects, RRKM theory; connection between experiment and various theories in the gas and solution phases; emphasis on assignment of experimental error to derived quantities. Recommendations: CHEM:4432.

CHEM:5438 Surface Chemistry and Heterogeneous Processes 3 s.h.
Fundamental and applied aspects of surface chemical processes; theories of molecular adsorption/desorption and surface complexation; kinetics; surface analysis and instrumentation; applications of surface chemistry in heterogeneous catalysis, heterogeneous environmental/atmospheric processes, and materials chemistry. Recommendations: CHEM:4431.

CHEM:5490 Seminar: Physical and Environmental Chemistry 0-1 s.h.

CHEM:5499 Physical Chemistry Topics 1-3 s.h.
Advanced topics relevant to modern physical chemistry. Recommendations: CHEM:4432 and MATH:1860.

CHEM:5875 Perspectives in Biocatalysis 1-3 s.h.
Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as PHAR:5875, CBE:5875, CEE:5875, MICR:5875, BIOC:5875.

CHEM:5890 Research Frontiers in Chemistry 1 s.h.

CHEM:5990 Chemistry Colloquium 0-1 s.h.
Presentation and discussion of research by invited presenters.

CHEM:6990 Research Seminar 0-1 s.h.
Presentation and discussion of thesis research for advanced degrees.

CHEM:7604 Ethics in Chemical Sciences for Postdocs 0 s.h.
Introduction to infrastructure of scientific scholarship; emphasis on interacting with peers, funding agencies, industrial entities; scholarly integrity for being a responsible chemist on graduate-level research; responsible conduct in research in context of creation of knowledge, dissemination of scientific findings, intellectual property, conflict of interest; workshop cases in chemical research that illustrate principles of scholarly integrity.

CHEM:7999 Research in Chemistry arr.
Thesis work for advanced degrees.
Cinematic Arts

Interim chair
- Kathleen Newman

Undergraduate major: cinema (B.A.)
Undergraduate minor: cinema
Graduate degrees: M.F.A. in film and video production; M.A. in film studies; Ph.D. in film studies
Faculty: http://clas.uiowa.edu/ccl/people/faculty
Web site: http://clas.uiowa.edu/ccl/

The Department of Cinematic Arts provides students with opportunities to explore and gain insight into cinema as a subject of international and interdisciplinary study as well as creative practice. The curriculum emphasizes film and related media in their historical and cultural contexts as well as film and video production in a variety of modes. The department's faculty members offer expertise in film and video production; film history and theory, with emphasis on international film cultures; and the history, theory, and production of documentary media. Students conduct projects using state-of-the-art equipment and software that is updated regularly. Students and faculty members also have ready access to the extensive media holdings of University of Iowa Libraries and the Institute for Cinema and Culture.

The department offers undergraduate and graduate degree programs and an undergraduate minor. It also offers courses approved for the Literary, Visual, and Performing Arts area of the College of Liberal Arts and Sciences General Education Program (p. 313) and a First-Year Seminar designed for entering undergraduates.

Undergraduate Programs of Study
- Major in cinema (Bachelor of Arts)
- Minor in cinema

Bachelor of Arts

The Bachelor of Arts with a major in cinema requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in cinema is an individualized, interdisciplinary study of film and the production of creative work in film, video, and interactive multimedia. It is designed to promote cultural and artistic awareness, to increase speaking and writing skills, and to develop capacities for systematic reasoning and effective production in cinema arts.

All students are expected to gain a perspective on both the study and the production of film, video, or digital media while becoming acquainted with the historical, critical, and theoretical issues of the area. In conjunction with an appropriate overall curriculum, the major in cinema can offer effective preparation for continuing study or creative work in the humanities, arts, and cinema; provide a solid foundation for careers in film, video, television, and digital production; and lead to careers in arts administration, advertising, and business.

Of the 33 s.h. required for the major, students must earn 21 s.h. in University of Iowa courses. They may count a maximum of 6 s.h. of course work from another major, minor, or certificate toward the major in cinema.

The course CINE:1834 Modes of Film and Video Production is the only production course required for the major. Students may use more advanced production courses to complete the major, but admission to these courses is limited and depends on the student’s achievement in prerequisite production courses.

The major in cinema requires the following course work.

**CORE COURSES**

All of these:
- CINE:1601 Introduction to Film Analysis 3 s.h.
- CINE:1834 Modes of Film and Video Production 4 s.h.
- CINE:3195 Undergraduate Seminar 3 s.h.

One of these:
- CINE:1025 Introduction to Critical Reading and Viewing 3 s.h.
- CINE:1615 Introduction to Film Theory 3 s.h.

**ELECTIVE COURSES**

Additional cinematic arts course work (prefix CINE) 20 s.h.

From the 20 s.h. required in elective course work, students must select at least 6 s.h. in film studies courses from these:
- CINE:3135/ENGL:3135 Narrative and the Cinema 3 s.h.
- CINE:3185/GWSS:3185/WLLC:3185 Global Women's Cinema 3 s.h.
- CINE:3647/FREN:3540/GWSS:3540 Gender and Sexuality in French Cinema 3 s.h.
- CINE:3750 Topics in Cinema and Culture 3 s.h.
- CINE:4100/FREN:4100 French Cinema 3-4 s.h.
- CINE:4603 Topics in Contemporary Film 3 s.h.
- CINE:4604 Topics in European Film 3 s.h.
- CINE:4606/ASIA:4606 Topics in Asian Cinema 3 s.h.
- CINE:4608 History of Documentary Film 3 s.h.
- CINE:4616 Topics in National Cinema 3 s.h.
- CINE:4618 Topics in World Cinemas 3 s.h.
- CINE:4620 Issues in Film Theory 3 s.h.
- CINE:4674/CHIN:4206 Transnational Chinese Cinemas 3 s.h.
- CINE:4678/SPAN:4810 Topics in Latin American Cinema 3 s.h.
- CINE:4690/SPAN:4800 Chicano Cinema 3 s.h.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Note: Students must take CINE:1601 Introduction to Film Analysis before or with CINE:1834 Modes of Film and Video Production.
Before the fifth semester begins: at least two courses in the major, including CINE:1601 Introduction to Film Analysis and CINE:1834 Modes of Film and Video Production

Before the seventh semester begins: at least five more courses in the major (total of seven), including CINE:1025 Introduction to Critical Reading and Viewing or CINE:1615 Introduction to Film Theory, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in cinema have the opportunity to graduate with honors in the major, which requires that they complete an honors thesis. Once a student has earned 75 s.h., he or she submits a written proposal for the thesis. The proposal must be approved by the faculty member who heads the student's honors thesis committee; the committee must be composed of at least two faculty members from the Department of Cinematic Arts. The student must complete the honors thesis over the next two consecutive semesters. For specific honors thesis requirements in the cinema major, contact the Department of Cinematic Arts.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Minor

The minor in cinema requires 15 s.h. of University of Iowa cinema courses, including at least 12 s.h. earned in courses numbered CINE:1620 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Contact the Department of Cinematic Arts for a list of approved courses.

Graduate Programs of Study

- Master of Arts in film studies
- Master of Fine Arts in film and video production
- Doctor of Philosophy in film studies

Master of Arts: Film Studies

The Master of Arts program in film studies requires 36 s.h. of graduate credit. The program's focus is on film in an international context, with required distributions of course work in U.S. cinema, European cinema, world cinemas, and film production, documentary film, animation, or experimental film. Students meet formal degree requirements with course work and a written examination on two areas, which the student selects from one list focusing on film theory and another list focusing on film history. Exams are offered annually in January.

Master of Fine Arts: Film and Video Production

The Master of Fine Arts program in film and video production requires 54 s.h. of graduate credit. The curriculum consists of creative and scholarly course work aimed at producing a body of artistic work in film, digital media, multimedia installation, and/or animation. Degree requirements include advanced course work in film/ media theory or history, annual public presentations and critiques, the development of an artist statement, a thesis paper, and a creative thesis project.

Doctor of Philosophy: Film Studies

The Doctor of Philosophy program in film studies requires a minimum of 72 s.h. of graduate credit. The program's course work is concentrated in film history and film theory. With the consultation and guidance of a faculty committee, students formulate and pursue a plan of study proposing areas to be mastered before the dissertation, present a predissertation exam on these areas, and write a dissertation in the area of advanced research.

Admission

Applications to graduate programs in the Department of Cinematic Arts are evaluated by faculty members. Application materials may include undergraduate and/or graduate transcripts, personal statements, writing samples, letters of recommendation, samples of creative work, and test scores. Admission decisions are based on the full range of an applicant's accomplishments and evidence that he or she will thrive in the department's programs. The department welcomes applicants with diverse academic backgrounds; previous experience in the area of planned graduate study is desirable but not required. Contact the department or its director of graduate study for information about how to apply.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Resources

The Institute for Cinema and Culture promotes international film culture on the University of Iowa campus by supplementing the curriculum of the Department of Cinematic Arts with regular film screenings and public events, often in collaboration with other departments and programs. The institute helps departments, faculty members, and student groups present films and relevant speakers to an interdisciplinary audience. It is especially dedicated to providing Iowa students and faculty members the opportunity to view and study important films from nations and cultures otherwise underrepresented in course offerings and at local theaters.

Each semester the institute offers CINE:3627 Proseminar in Cinema and Culture, a course with public screenings devoted to a single national cinema or a focused topic in world film. It also regularly sponsors a range of campus film festivals and hosts the Cinematheque series, which showcases rare and unusual films each semester.
Courses

Lower-Level Undergraduate

CINE:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

CINE:1025 Introduction to Critical Reading and Viewing 3 s.h.
Critical approaches to literature and audiovisual media (film, video, interactive multimedia); selected texts, scholarly and critical responses to them. Requirements: completion of rhetoric requirement. Same as CL:1025.

CINE:1185 Internship arr.
Opportunity to apply skills; faculty supervision, on or off campus. Requirements: cinema and comparative literature major.

CINE:1601 Introduction to Film Analysis 3 s.h.
Formal analysis of film; narrative cinema and approaches to narrative structure; authorship and genre issues, other major topics.

CINE:1602 Introduction to Film Studies 3 s.h.
Film history, theory, criticism; issues of form, technologies, and cultural functions of cinema; screenings of narrative, documentary, experimental films from varied periods and nations. GE: Literary, Visual, and Performing Arts.

CINE:1610 Contemporary Cinema 3 s.h.
Current cinema; key genres, movements, filmmakers, technological changes; recent cultural contexts, industrial and economic factors, changes in the film viewing experience. GE: Literary, Visual, and Performing Arts.

CINE:1615 Introduction to Film Theory 3 s.h.
Classical film theory—formalist and realist theories, authorship, genre, contemporary film theory—semiotics, feminism, psychoanalysis, ideological criticism, postmodernism, queer theory.

CINE:1620 Film Criticism 3 s.h.
Evaluation and analysis of film, from journalistic reviews to academic scholarship; principles and theoretical positions.

CINE:1625 Gender and Film 3 s.h.
Representations of femininity, masculinity, sexual identity, how they relate to society, culture; examples from feminist, psychoanalytic, queer theory.

CINE:1630 Introduction to Film Sound 3 s.h.
Sound as an acoustic, technological, aesthetic, and historical issue; functions of voice, music, sound effects.

CINE:1632 Disney in America 3 s.h.
How Walt Disney Corporation has influenced American cultural values, ideals, and experiences through its evolution from an animation company in the 1920s, to a theme park company and television producer in the 1950s, to a media conglomerate today; the corporation's national importance, Hollywood's contributions to the Depression and World War II, postwar urban and community planning, America's changing leisure behavior, advertising and childhood, modern business history, and exportation of American culture. Same as AMST:1065.

CINE:1635 Styles and Genres 3 s.h.
Major film types (musicals, science fiction, westerns, film noir) and their cultural significance.

CINE:1640 Film Authors 3 s.h.
A major director or comparison of directors; director's role in industrial and collaborative contexts, relations between biography and criticism, function of individual styles.

CINE:1645 Film and Literature 3 s.h.
Relationships among films, novels, plays, adaptations; shared and distinct formal elements of cinematic and literary texts, their cultural functions.

CINE:1834 Modes of Film and Video Production 4 s.h.
Introduction to filmmaking; how to shoot and edit short works of cinematic art; exposure to various working methods including nonfiction, fiction, and experimental modes of video production. Corequisites: CINE:1601, if not taken as a prerequisite.

CINE:2195 Individual Study arr.

CINE:2198 Honors Tutorial arr.

CINE:2620 U.S. Film 3 s.h.
American film industry; social and artistic perspectives.

CINE:2621 Introduction to European Film 3 s.h.
Major works, movements, and recent developments in European cinema; German Expressionism, Soviet montage, Italian Neorealism, French New Wave; social, cultural, political contexts. GE: Literary, Visual, and Performing Arts.

CINE:2622 World Film 3 s.h.
Filmmaking and film culture outside the United States; key works from Asia, Africa, the Middle East, Latin America; social, cultural, political contexts.

CINE:2623 Documentary Film 3 s.h.
Key works and movements in international nonfiction film, from early cinema to present; formal, historical, philosophical issues in documentary practices.

CINE:2624 Introduction to Latin American Film 3 s.h.
Introduction to filmmaking and films in Latin America through an overview, emphasis on one or more Latin American countries, or a specific theme in Latin American cinema.
CINE:2625 Introduction to Asian Film 3 s.h.
Introduction to filmmaking and films in Asia through an overview, emphasis on one or more Asian countries, or a specific theme in Asian cinema.

CINE:2654 U.S. Cinema and Culture 3 s.h.
Representation of race, ethnicity, class, gender, and sexuality in Hollywood movies. Same as AMST:2500.

CINE:2861 Screenwriting: Short Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for short film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2863 Film/Video Production: Film Festival 3 s.h.
How to run a film festival; management and orchestration of annual Iowa City International Documentary Festival. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2864 Film/Video Production: Alternative Forms 3 s.h.
Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: CINE:1834 or INTM:2710. Requirements: for CINE:2864 — grade of C or higher in CINE:1834; for INTM:2864 — grade of C or higher in INTM:2710. Same as INTM:2864.

CINE:2865 Film/Video Production: Material of 16mm Filmmaking 3 s.h.
Individual and small-group work to create projects using 16mm filmmaking techniques including camera operation, editing, lighting, and sound production; intermediate production course. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2866 Film/Video Production: Nonfiction 3 s.h.
Individual and small group work to create video projects using nonfiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2867 Screenwriting: Long Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for longer form film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2868 Film/Video Production: Fiction 3 s.h.
Individual and small group work to create video projects using fiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834. Requirements: grade of C or higher in CINE:1834.

CINE:2869 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869 — grade of C or higher in CINE:1834. Same as INTM:2710.

Upper-Level Undergraduate and Graduate

CINE:3135 Narrative and the Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3135.

CINE:3185 Global Women's Cinema 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as GWSS:3185, WLLC:3185.

CINE:3195 Undergraduate Seminar 3 s.h.
Focus on a significant text or critical problem. Requirements: cinema major, and junior or senior standing.

CINE:3627 Proseminar in Cinema and Culture 1 s.h.
A national cinema or topic in international film.

CINE:3647 Gender and Sexuality in French Cinema 3 s.h.
Cultural, historical, semiotic approach to studying construction of gender identity and sexual codes in French cinema from 1920s to present. Taught in English. Prerequisites: FREN:3060 or CINE:1601 or CINE:1602 or GWSS:1001. Same as FREN:3540, GWSS:3540.

CINE:3750 Topics in Cinema and Culture 3 s.h.
One or more national cinemas in relation to social, historical, and cultural contexts. Prerequisites: CINE:1601.

CINE:3876 Video for Performance 4 s.h.
Introduction to making video for use in a performance; how video can unlock new artistic possibilities for performance in theater, dance, and performing arts in general; focus on acquiring basic skills necessary to shoot and edit video, and project it during a performance; practices of animation, found or archival footage work, and live performance. No previous knowledge of cameras or editing equipment required. Same as THTR:3876.

CINE:3877 Screenwriting: Short Form 4 s.h.
Developing, writing, and workshopping screenplays for short film/video projects including fiction, nonfiction, and experimental work; introduction to preproduction activities; exercises and journal assignments. Prerequisites: CINE:2865 or CINE:2866 or CINE:2867 or CINE:2868. Requirements: grade of C or higher in CINE:2865 or CINE:2866 or CINE:2867 or CINE:2868.

CINE:3878 Film and Media Practicum 1 s.h.
Research and production-oriented film and media practicum; individual and small-group work on a single film, video, or media production as determined by instructor; independent library and web-based research, group presentations, readings. Requirements: junior or senior standing.

CINE:3879 Introduction to Digital Filmmaking 3 s.h.
Introduction to digital filmmaking techniques and equipment; emphasis on production; includes practical experiences and opportunities. Same as THTR:3879.
**CINE:4100 French Cinema**  
3-4 s.h.  
Taught in English. GE: Literary, Visual, and Performing Arts. Same as FREN:4100.

**CINE:4603 Topics in Contemporary Film**  
3 s.h.  
Specific issues or periods in contemporary film.

**CINE:4604 Topics in European Film**  
3 s.h.  
Specific issues or periods in European film.

**CINE:4606 Topics in Asian Cinema**  
3 s.h.  
Issues or topics in East or South Asian cinemas. Same as ASIA:4606.

**CINE:4608 History of Documentary Film**  
3 s.h.  
A period, type, or concern of nonfiction filmmaking. Prerequisites: CINE:1601.

**CINE:4616 Topics in National Cinema**  
3 s.h.  
Cinema's intersection with the nation; questions of representation, culture, and identity in the national, subnational, and/or transnational context. Prerequisites: CINE:1601 and CINE:1602.

**CINE:4618 Topics in World Cinemas**  
3 s.h.  
Issues in international film history and film theory.

**CINE:4620 Issues in Film Theory**  
3 s.h.  
Key theorists, approaches, topics in film theory.

**CINE:4674 Transnational Chinese Cinemas**  
3 s.h.  
Films from Mainland China, Hong Kong, Taiwan, and Chinese diasporic communities, silent era to present; relationship of film to nation-state, cultural interflows, media technologies, ideologies. English subtitles. Same as CHIN:4206.

**CINE:4678 Topics in Latin American Cinema**  
3 s.h.  
Taught in English. Requirements: one Spanish literature or culture course numbered above SPAN:3200 or one film studies course. Same as SPAN:4810.

**CINE:4690 Chicano Cinema**  
3 s.h.  
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered CL:2100 or above. Same as SPAN:4800.

**CINE:4821 Film/Video Production: Selected Topics**  
4 s.h.  
Exploration of a particular genre, issue, or process; varied topics; individual work on several video projects. Prerequisites: CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:4821 or CINE:4843 or CINE:4841 or CINE:4862 or CINE:4845. Requirements: grade of C or higher in CINE:2864 or CINE:2865 or CINE:2866 or CINE:4841 or CINE:4843 or CINE:4845. Requirements: grade of C or higher in CINE:2864 or CINE:2865 or CINE:2866 or CINE:4841 or CINE:4843 or CINE:4845.

**CINE:4825 Digital Production: Animation**  
4 s.h.  
Intermediate 3-D modeling, motion graphics; student projects culminating in CDR or video presentation. Prerequisites: CINE:1834.

**CINE:4835 Issues in Film and Video Production**  
4 s.h.  
Proposal and grant writing, conceptualization, budgeting, and research on varied distribution models for independent films. Prerequisites: CINE:2863 or CINE:2864 or CINE:2865 or CINE:2866 or CINE:2867 or CINE:2868. Requirements: grade of C or higher in CINE:2863 or CINE:2864 or CINE:2866 or CINE:2867 or CINE:2868.

**CINE:4836 Advanced Screenwriting**  
4 s.h.  
Write a feature screenplay (105-115 pages) within the industry standard contract guidelines for independent and studio projects; completion of outline, beat sheet, treatment, first draft; one rewrite. Prerequisites: CINE:2867.

**CINE:4841 Film/Video Production: Sound Design**  
4 s.h.  
Exploration of sound design for film and video, from recording to editing and mixing; individual work on several audio and video projects. Prerequisites: CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:4821 or CINE:4841 or CINE:4843 or CINE:4845 or CINE:4862 or CINE:4864. Requirements: grade of C or higher in CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:4821 or CINE:4841 or CINE:4843 or CINE:4845 or CINE:4862 or CINE:4864.

**CINE:4843 Film/Video Production: Image Design**  
4 s.h.  
Lighting strategies and techniques, camera work, composition, and postproduction; individual work on several video projects. Prerequisites: CINE:2863 or CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876. Requirements: grade of C or higher in CINE:2863 or CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876.

**CINE:4845 Film/Video Production: Editing**  
4 s.h.  
Development of editing techniques and strategies; editing for impact, mood, story; individual work on several video projects. Prerequisites: CINE:2863 or CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876 or CINE:4841 or CINE:4843 or CINE:4845. Requirements: grade of C or higher in CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876 or CINE:4841 or CINE:4843 or CINE:4845 or CINE:4862.

**CINE:4862 Film/Video Production: Advanced Video**  
4 s.h.  
Expanded narrative or nonfiction/documentary topics; individual work on several video projects. Prerequisites: CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876 or CINE:4821 or CINE:4841 or CINE:4843 or CINE:4845. Requirements: grade of C or higher in CINE:2864 or CINE:2865 or CINE:2866 or CINE:2868 or CINE:3876 or CINE:4821 or CINE:4841 or CINE:4843 or CINE:4845.

**CINE:4864 Film Production: Advanced 16mm**  
4 s.h.  
Processes and approaches to short 16mm film; advanced cameras; sync-sound techniques; individual work on several projects. Prerequisites: CINE:2865 or CINE:4821 or CINE:4843.
CINE:4890 Media Production Workshop 4 s.h.
Development, production, and realization of a self-directed project; methods and projects may include film, video, screenwriting, or hybrid forms. Requirements: grade of B- or higher in one advanced production course numbered 3000 or above, and submission and acceptance of written proposal by deadline.

Graduate

CINE:5673 Advanced Film Theory 3 s.h.
A major figure, issue, or approach in film theory.

CINE:5675 Advanced Film History 3 s.h.
A major period or topic in film history; issues in film historiography, research.

CINE:5677 Studies in Sound and Image 3 s.h.
Theoretical and historical approaches to film sound, technology, style.

CINE:5890 Colloquium in Film and Video Production 4 s.h.
Projects and critical studies; focus on varied topics including process and theoretical issues; workshop, readings, production. Recommendations: previous experience with video production; prior cinema courses or filmmaking experience helpful, but not required.

CINE:6009 Special Projects arr.
Requirements: doctoral candidate.

CINE:6080 American Film and American Culture 3 s.h.
Relationships between film and culture as developed in a particular approach, period, subject. Same as AMST:6080.

CINE:6605 Special Topics in European Film 3 s.h.
Key issues, movements, periods, or figures in European film.

CINE:6632 Crossing Borders Proseminar arr.

CINE:6635 Crossing Borders Seminar 2-3 s.h.

CINE:6992 Individual Study arr.
Requirements: advanced B.A. enrollment with international and comparative literary projects, or M.A. enrollment in comparative literature.

CINE:7615 Seminar: Film Theory 3 s.h.
A major figure, issue, or approach in film theory.

CINE:7616 Seminar: Film History 3 s.h.
A major period or topic in film history; issues in film historiography, research.

CINE:7992 Thesis arr.
Chair

• John F. Finamore

Undergraduate majors: ancient civilization (B.A.); classical languages (B.A.)
Undergraduate minors: ancient civilization; classical languages; Greek; health and the human condition; Latin
Postbaccalaureate certificate: classics
Graduate degrees: M.A. in classics; M.A. in Greek; M.A. in Latin; Ph.D. in classics
Faculty: http://clas.uiowa.edu/classics/people/faculty
Web site: http://clas.uiowa.edu/classics/

Classics is the study of ancient languages, literatures, and cultures of the Mediterranean basin from approximately 2000 B.C.E. to 600 C.E. It embraces three civilizations—the Minoan-Mycenaean, Greek, and Roman; two languages—Greek and Latin; and a geographical area including Europe, North Africa, Egypt, and the Near East. The Department of Classics provides a basis for understanding and interpreting the contribution of the ancient world to life in the present and the future.

The department offers a substantial selection of courses taught in English at the undergraduate and graduate levels; several are approved for the College of Liberal Arts and Sciences General Education Program (p. 313). Undergraduates in all majors may satisfy the World Languages requirement of the General Education Program with courses in Greek, Latin, or Sanskrit; see “Language for General Education” below. The department’s First-Year Seminar introduces entering undergraduates to classics.

The Department of Classics also administers an interdisciplinary minor for undergraduates; see “Minor: Health and the Human Condition” below.

Undergraduate Programs of Study

• Major in ancient civilization (Bachelor of Arts)
• Major in classical languages (Bachelor of Arts)
• Minor in ancient civilization
• Minor in classical languages
• Minor in Greek
• Minor in Latin
• Minor in health and the human condition

The department’s undergraduate majors provide a solid foundation for graduate study in classics, European literature, law, history, art, philosophy, and religion. The major in classical languages offers concentrations in Greek and/or Latin. Bachelor of Arts graduates have gone on to become secondary school and university teachers, lawyers, doctors, librarians, museum curators, and bankers.

Bachelor of Arts: Ancient Civilization

The Bachelor of Arts with a major in ancient civilization requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the

College of Liberal Arts and Sciences General Education Program (p. 313).

The major concentrates on the ancient civilization of the Mediterranean world, draws on courses offered by various University departments, and allows students to create individual programs. It offers two optional tracks. The ancient Mediterranean religions track is for students with an interest in religions of the Mediterranean basin from the 10th century B.C. through the 8th century A.D. The Egypt and the ancient Near East track is for students with a particular interest in civilizations of the east Mediterranean from the earliest times through antiquity. See the “Ancient Mediterranean Religions Track” and the “Egypt and the Ancient Near East Track” below.

The major, including ancient Mediterranean religions track and Egypt and the ancient Near East track, is sponsored by the School of Art and Art History and the Departments of Classics, History, and Religious Studies.

Although the major is not preparation for graduate study in classics, it provides a sound basis for preparing individuals to teach at the secondary school and community college levels. It also provides a liberal arts and sciences foundation appropriate for further study in law, medicine, and other professions.

Students choose courses in consultation with their advisors. They must earn at least 15 s.h. of the credit required for the major in courses numbered 3000 or above, which may include classics in English courses numbered 3000 or above, the Greek language courses CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, and the Latin language courses CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry. Transfer credit is evaluated individually.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see “Major Portfolio” below.

The major in ancient civilization requires the following course work.

MATERIAL CULTURE

At least 6 s.h. from these:

ANTH:3275/CLSA:3596 The Archaeology of Ancient Egypt 3 s.h.
ANTH:3276/CLSA:3235 Greek Archaeology and Ethnohistory 3 s.h.

ADDITIONAL COURSE
A course in material culture, history, philosophy, religion, or linguistics chosen in consultation with the advisor 3 s.h.

MAJOR PORTFOLIO
To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of B.A. students completing one of the department's majors. Each student must maintain a portfolio that details the student's progress in attaining the objectives of his or her major. Students must register for and complete the following course.
CLSA:3982 Graduation Portfolio 0 s.h.

A student submits the portfolio to the undergraduate advisor by midterm of the semester in which he or she intends to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Ancient Mediterranean Religions Track
This track is intended for students who wish to study the ancient religions of the Mediterranean basin from the 10th century B.C. through the 8th century A.D. It offers an innovative curriculum for exploring and comparing the many religions of that region (Pagan, Jewish, Christian, Islamic) and their associated literatures, cultures, and languages.

The track is interdisciplinary; students select courses from archaeology, art, history, literature, and religion. The track provides a strong liberal arts foundation suitable for further study in law, medicine, and other professions. It also provides a sound basis for preparing individuals to teach ancient civilizations of the Mediterranean and the Near East, ancient history, and ancient art history at the secondary school and community college levels.

The Bachelor of Arts with a major in ancient civilization with the ancient Mediterranean religions track requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the
major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students also must earn at least 15 s.h. for the major in courses numbered 3000 or above, which may include classics in English courses numbered 3000 or above, the Greek language courses CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, and the Latin language courses CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry. Transfer credit is evaluated individually.

It also is possible to take other languages, such as Biblical Aramaic, Syriac, and Targumic Aramaic, or Coptic as independent study through the Department of Religious Studies. Contact the Department of Classics for more information.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

To satisfy the requirements for the major in ancient civilization with the track in ancient Mediterranean religions, 21 s.h. of the required 30 s.h. must be taken from the courses below. The remaining 9 s.h. may be taken from these lists or from the courses that count toward the ancient civilization major as listed above.

Egypt and the Ancient Near East Track

The Egypt and the ancient Near East track concentrates on the civilizations of the eastern Mediterranean, specifically Egypt and the cultures of Asia Minor, from the earliest times through late Antiquity.

The track is interdisciplinary; students select courses from archaeology, art, history, literature, and religion. The track provides a sound basis for preparing individuals to teach ancient civilizations of the Mediterranean and the Near East, ancient history, and ancient art history at the secondary school and community college levels. It also provides a strong liberal arts foundation suitable for further study in law, medicine, and other professions.

The Bachelor of Arts with a major in ancient civilization, Egypt and the ancient Near East track, requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students in the Egypt and the ancient Near East track choose courses in consultation with their advisors. They must earn at least 21 s.h. of the credit required for the ancient civilization major in courses listed under “Course Selection Requirements” below. They also must earn at least 15 s.h. for the major in courses numbered 3000 or above, which may include classics in English courses numbered 3000 or above, the Greek language courses CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, and the Latin language courses CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry. Transfer credit is evaluated individually.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see “Major Portfolio” below.

The major in ancient civilization with the Egypt and the ancient Near East track requires the following course work.

Each student must maintain a portfolio that details the student's progress in attaining the objectives of his or her major. Students must register for and complete the following course.

A student submits the portfolio to the undergraduate advisor by midterm of the semester in which he or she intends to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Bachelor of Arts: Classical Languages

The Bachelor of Arts with a major in classical languages requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Transfer credit is evaluated individually.

The major trains students to read the ancient Greek and/or Latin languages and acquaints them with the major works of Greek and/or Roman literature. Classical languages students learn about the history of ancient Greece of the eighth through the fourth centuries B.C.E., when most of the modern Western notions of political, artistic, and social life are rooted. They also develop an understanding of the Roman republic and empire, when Rome established its hegemony over the Mediterranean basin, laid the foundation of law for the Western World, and spread Greece's culture to the West.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

The major in classical languages requires the following course work.

REQUIRED COURSES

Intermediate or advanced Greek and/or Latin courses: CLSG:2001 through CLSG:4999, 18 s.h.

Greek or Latin prose composition: CLSL:4076 or CLSL:3176 3 s.h.

Additional classics courses at any level, including a maximum of 9 s.h. in classics in English courses (prefix CLSA) 15 s.h.

The following advanced undergraduate Greek courses are offered every other year and may be repeated or taken in any sequence. They cover a broad range of prose and poetry in historical context.

CLSL:3001 Archaic and Classical Periods I 3 s.h.

CLSL:3002 Archaic and Classical Periods II 3 s.h.

CLSL:3003 Classical and Hellenistic Periods I 3 s.h.

CLSL:3004 Classical and Hellenistic Periods II 3 s.h.

The following advanced undergraduate Latin courses are offered every other year and may be repeated or taken in any sequence. They cover a range of Latin prose and poetry in historical context from the mid-republic to the third century C.E.

CLSL:3001 Latin Literature of the Republic I 3 s.h.

CLSL:3002 Latin Literature of the Republic II 3 s.h.

CLSL:3003 Latin Literature of the Empire I 3 s.h.

CLSL:3004 Latin Literature of the Empire II 3 s.h.

MAJOR PORTFOLIO

To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of B.A. students completing one of the department's majors. Each student must maintain a portfolio that details the student's progress in attaining the objectives of his or her major. Students must register for and complete the following course.

A student submits the portfolio to the undergraduate advisor by midterm of the semester in which he or she
Intends to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

**B.A. with Teacher Licensure**

Students majoring in ancient civilization or classical languages who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

**B.A.: Ancient Civilization**

**Before the fifth semester begins**: at least two courses in the major

**Before the seventh semester begins**: at least six courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: at least eight courses in the major

**During the eighth semester**: enrollment in all remaining course work in the major, and at least 90 s.h. earned toward the degree

**B.A.: Classical Languages—Greek and Latin**

**Before the third semester begins**: CLSL:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II

**Before the fifth semester begins**: CLSL:2001 World of Cicero and CLSG:2002 Second-Year Greek I

**Before the seventh semester begins**: three or four more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: two or three more courses in the major

**During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**B.A.: Classical Languages—Latin Only**

**Before the third semester begins**: CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II

**Before the fifth semester begins**: CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry

**Before the seventh semester begins**: three or four more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: two or three more courses in the major

**During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in ancient civilization or classical languages have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.50 in their first three years of classics courses. To graduate with honors in the major, they must complete two courses in honors readings during their final year, one each semester of the year, earning 3 s.h. of credit for each course. The readings and discussions must be on an ancient author or a field in ancient history or literature chosen by a student and his or her instructor. At the end of the second semester, the student presents a substantial research project that has been approved by the department. The project is evaluated for honors by two members of the department. Students who write an honors thesis in classical languages must be enrolled at the same time in the appropriate advanced language courses.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

**Minor: Ancient Civilization**

The minor in ancient civilization requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for
another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Department of Classics courses in Greek numbered CLSG:2001 Second-Year Greek I or above and in Latin numbered CLSL:2001 World of Cicero or above are considered advanced for the minor in ancient civilization. Appropriate courses in art, religion, history, and philosophy may be counted toward the minor in ancient civilization, if approved by the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.

### Minor: Classical Languages

The minor in classical languages requires a minimum of 18 s.h., including 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequences CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor in classical languages. Students may satisfy the requirements for the minor by completing CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, plus two courses numbered 3000 or above, one of which may be a relevant course in Greek or Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.

### Minor: Greek

The minor in Greek requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequence CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor in Latin. Students may satisfy the advanced courses requirement for the minor by completing CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry plus two courses numbered 3000 or above, one of which may be a relevant course in Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Latin should consult the advisor.

### Minor: Latin

The minor in Latin requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The minor in health and the human condition requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The minor in health and the human condition is interdisciplinary. It is administered by the Department of Classics and draws on courses from several units in the College of Liberal Arts and Sciences. It requires the following course work.

Ethics and values—at least 3 s.h. from these:

- PHIL:1034 Liberty and the Pursuit of Happiness
- PHIL:1401 Matters of Life and Death
- PHIL:2402 Introduction to Ethics
- PHIL:2415 Bioethics
- RELS:2771/GWSS:2771 Sexual Ethics
- RELS:3320/CLSA:3420 In Search of the Good Life

Historical approaches—at least 3 s.h. from these:

- CLSA:1181/GHS:1181 Ancient Medicine
- CLSA:4181 History of Western Medicine
- HIST:4160/GHS:4160 History of Public Health
- HIST:4162/GHS:4162 History of Global Health
- HIST:4203 Disability in American History
- RELS:3580/ANTH:3113/GHS:3113 Religion and Healing

Diversity and global perspectives—at least 9 s.h. from these:
Classics

AMST:1070 Drugs in American Popular Culture 3 s.h.
ANTH:2164/GHS:2164 Culture and Healing for Future Health Professionals 3 s.h.
ANTH:2181/ASP:2181/GHS:2181 The Anthropology of Aging 3 s.h.
ANTH:3111/GHS:3135 Global Aging 3 s.h.
ANTH:3060 Studies in Complementary and Alternative Medicine 3 s.h.
ANTH:3181/ASP:3181/GHS:3181 The Anthropology of Aging 3 s.h.
ANTH:3000/INTD:3020 Equity Issues in the Health Sciences 3 s.h.
HIST:4605/GHS:4605 Disease, Politics, and Health in South Asia 2-4 s.h.
RELS:3431/GWSS:3131 Gender and Sexuality in Asia 3 s.h.
RHET:3610/ASP:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.
SSW:3786/ASP:3786 Death/Dying: Issues Across the Life Span 3 s.h.
WLLC:1100 Contraception Across Time and Cultures 3 s.h.

Language for General Education

The Department of Classics offers course sequences in Greek, Latin, and Sanskrit that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313).

Students who have had previous course work or other experience with Greek or Latin should take the appropriate language placement test, which helps determine the level at which a student should begin Greek or Latin language study at the University of Iowa. The tests are offered during summer orientation programs and monthly by Evaluation and Examination Service.

Students with previous knowledge of Sanskrit should consult the department about appropriate placement.

GREEK

Students who wish to fulfill the General Education Program's World Languages requirement with Greek should complete the following sequence.

CLSG:1001 Classical and New Testament Greek I 3-5 s.h.
CLSG:1002 Classical and New Testament Greek II 3-5 s.h.
CLSG:2001 Second-Year Greek I 3 s.h.
CLSG:2002 Second-Year Greek II 3 s.h.

LATIN

Students who wish to fulfill the General Education Program's World Languages requirement with Latin should complete the following sequence.

CLSL:1001 Elementary Latin I 3-5 s.h.
CLSL:1002 Elementary Latin II 3-5 s.h.
CLSL:2001 World of Cicero 3 s.h.
CLSL:2002 Golden Age of Roman Poetry 3 s.h.

SANSKRIT

Students who wish to fulfill the General Education Program's World Languages requirement with Sanskrit should complete the following sequence.

CLSA:2901 First-Year Sanskrit: First Semester 4 s.h.
CLSA:2902 First-Year Sanskrit: Second Semester 4 s.h.
CLSA:3901 Second-Year Sanskrit: First Semester 3 s.h.
CLSA:3902 Second-Year Sanskrit: Second Semester 3 s.h.

Postbaccalaureate Program of Study

- Certificate in Classics

Certificate

The Postbaccalaureate Certificate in Classics requires 18 s.h. in Department of Classics courses numbered 3000 or above (upper-level undergraduate and graduate courses). The program is designed for students who have a bachelor's degree and would like further study in Greek and Latin in order to be competitive for admission to a graduate program in classics. Entry to most graduate programs requires study of both Latin and Greek, normally a minimum of three years in one language and two years in the other.

The certificate is designed to be completed in two semesters by students who enter with two years of Latin and one to two years of Greek, or vice versa. It requires 18 s.h. in Department of Classics courses numbered 3000 or above (upper-level undergraduate and graduate courses). At least 12 s.h. of the required credit must be earned in Greek and Latin language courses; the remaining 6 s.h. may be earned in approved advanced courses taught in English (prefix CLSA). Transfer credit is not accepted toward the certificate. Students must maintain a g.p.a. of at least 3.00 to remain in good standing and complete the program.

A suggested plan of study for a student who enters the program with two years of Latin and one year of Greek is as follows.

Fall semester:

CLSA:4085 Postbaccalaureate Seminar 0 s.h.
CLSG:2001 Second-Year Greek I 3 s.h.
CLSL:3001 Latin Literature of the Republic I 3 s.h.
CLSL:3176 Elementary Latin Composition 3 s.h.

Spring semester:

CLSG:2002 Second-Year Greek II 3 s.h.
CLSL:3002 Latin Literature of the Republic II 3 s.h.
One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above 3 s.h.

A suggested plan of study for a student who enters the program with two years of Latin and two years of Greek is as follows.

Fall semester:

CLSA:4085 Postbaccalaureate Seminar 0 s.h.
CLSG:3001 Archaic and Classical Periods I 3 s.h.
REQUIRED COURSES

- CLSL:3001 Latin Literature of the Republic I 3 s.h.
- CLSL:3176 Elementary Latin Composition 3 s.h.

Spring semester:

- CLSG:3002 Archaic and Classical Periods II 3 s.h.
- CLSL:3002 Latin Literature of the Republic II 3 s.h.
- One elective with prefix CLSA, CLSG, or CLSL numbered 3000 or above 3 s.h.

Students who complete the program successfully receive a certificate from the College of Liberal Arts and Sciences and a letter from the Department of Classics.

Admission

Applicants must have a baccalaureate degree from an accredited college or university and a minimum of two years of language study (two years of Latin or two years of Greek, or one year of each). In unusual circumstances, students with less language preparation may be admitted.

Applicants who are not enrolled in a graduate or professional program may apply to the University of Iowa as undergraduate transfer students; they must state on their application that they are applying to the College of Liberal Arts and Sciences for admission to the classics postbaccalaureate certificate program. They must submit transcripts confirming preparation for certificate language study, a statement of purpose, scores on the Graduate Record Examination (GRE) General Test, a writing sample, and three letters of recommendation from faculty members at their baccalaureate institution.

Graduate Programs of Study

- Master of Arts and Doctor of Philosophy in classics
- Master of Arts in Greek
- Master of Arts in Latin

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Master of Arts

The Master of Arts program in classics, Greek, or Latin requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Students must pass a sight examination in the language(s) studied and an examination on literature and history.

Doctor of Philosophy

The Doctor of Philosophy program in classics requires a minimum of 72 s.h. of graduate credit, including the courses listed below (27 s.h.). Students may count no more than 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate do not count toward the degree.

Students also must take precomprehensive and comprehensive examinations and write a dissertation.

REQUIRED COURSES

- CLSG:4076 Greek Composition (or equivalent) 3 s.h.
- CLSG:5001 Archaic Greek Literature 3 s.h.
- CLSG:5002 Classical and Hellenistic Literature 3 s.h.
- CLSL:5001 Republican Literature 3 s.h.
- CLSL:5002 Imperial Literature 3 s.h.
- CLSL:6076 Advanced Latin Composition (or equivalent) 3 s.h.

Two graduate-level courses in cognate subjects such as anthropology, art history, linguistics, philosophy, or rhetoric 6 s.h.

Other interdisciplinary courses (with approval of the graduate advisor)

The remaining course work is made up of Department of Classics courses and other courses.

Ph.D. EXAMINATIONS

Ph.D. students must take precomprehensive exams in Latin sight reading and Greek sight reading and must attempt one sight reading exam by the end of their first year of graduate study. Competence in reading both German and French must be demonstrated by the end of the second year of study.

Students must take the second-year exam at the end of their second year. The remaining exams may be taken in any sequence. Students must file a request for the fourth-year comprehensive exam at least three weeks before the date of the exam.

Sight-reading exam:
- Latin—four hours, written
- Greek—four hours, written

Second-year exam:
- Literature and history—four hours, written
- Greek—four hours, written
- Latin—four hours, written

Fourth-year comprehensive exam:
- Greek and Roman history/material culture based on reading list—three hours, written
- Latin literature, based on reading list—three hours, written
- Greek literature, based on reading list—three hours, written

If a student performs unsatisfactorily on either or both of the Latin and Greek reading list exams, the director of graduate studies sets up an oral exam in order to review questions on which the student did not exhibit sufficient knowledge.

Oral exam:
- Special field or author (Greek)—four hours, written
- Special field or author (Latin)—four hours, written

Facilities

University of Iowa Libraries’ Main Library and the Art Library house extensive collections of classical texts and uninterrupted runs of classical periodicals from 1850 that facilitate research in the major areas of Greek and Roman civilization. The Department of Classics has a varied collection of slides on classical subjects and a small library of reference works, texts, and issues of classical and archaeological journals. The department’s classical museum contains a small collection of coins, vases, and facsimiles in bronze from Mycenae, Pompeii, and Herculaneum periods.

The University is a supporting institution of the American School of Classical Studies at Athens, the American Academy in Rome, and the Intercollegiate Center
for Classical Studies in Rome. Consult the director of undergraduate studies for more information.

The department offers students the opportunity to participate in an archaeological dig during the summer. Contact the Department of Classics in mid-February for details.

Courses

**Classics in English, Lower-Level Undergraduate**

All readings for these courses are in English; previous knowledge of Greek or Latin is not required.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLSA:1000</td>
<td>First-Year Seminar</td>
<td>1 s.h.</td>
<td>Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.</td>
</tr>
<tr>
<td>CLSA:1010</td>
<td>Hero, God, Mortal: Literature of Greece</td>
<td>3 s.h.</td>
<td>Ancient Greek literature and culture as it responded to Homer; may include genre (e.g., epic to tragedy), religion, changing concept of hero, interaction with Mediterranean cultures, myth versus history. GE: Literary, Visual, and Performing Arts.</td>
</tr>
<tr>
<td>CLSA:1035</td>
<td>Greek Tragedy, Comedy, and the Invention of Democracy</td>
<td>3 s.h.</td>
<td>What is a citizen? How shall women and men act as members of a greater society? Greek tragedy and comedy asked these questions, Greek playwrights used ancient myth to discuss their modern polis; major Greek tragedies and comedies by Aeschylus, Sophocles, Euripides and Aristophanes; production practices, political and social influences, interpretations by ancient and modern scholarship; select film versions of tragedies; readings in English. GE: Literary, Visual, and Performing Arts.</td>
</tr>
<tr>
<td>CLSA:1100</td>
<td>Contraception Across Time and Cultures</td>
<td>3 s.h.</td>
<td>Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as WLLC:1100, GHS:1100.</td>
</tr>
<tr>
<td>CLSA:1117</td>
<td>The First Caesars: Julius Caesar to Nero</td>
<td>3 s.h.</td>
<td>Introduction to history, politics, and personalities of the first Caesars, the Julio-Claudians (Julius Caesar, Augustus, Tiberius, Caligula, Claudius, and Nero); conditions of the Roman social and political system that led to the Caesars; character of each emperor; changes each brought about in that system; primary and secondary sources.</td>
</tr>
<tr>
<td>CLSA:1181</td>
<td>Ancient Medicine</td>
<td>3 s.h.</td>
<td>Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as GHS:1181.</td>
</tr>
<tr>
<td>CLSA:1323</td>
<td>Life in the Biblical World</td>
<td>3 s.h.</td>
<td>Examination of world depicted in Old and New Testaments of the Bible; archaeological evidence, ancient art, historical accounts, geography, and Bible text used to examine background of biblical text, shedding light on different aspects of daily life in antiquity from different points of view from Late Bronze Age through Roman period. Same as RELS:1323.</td>
</tr>
<tr>
<td>CLSA:1340</td>
<td>Magic in the Ancient World</td>
<td>3 s.h.</td>
<td>Ancient Greek and Roman writings on magic, including ancient spells and charms. GE: Values, Society, and Diversity.</td>
</tr>
<tr>
<td>CLSA:1740</td>
<td>Writing Strategies: Word Origins and Word Choice</td>
<td>3 s.h.</td>
<td>Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts.</td>
</tr>
<tr>
<td>CLSA:1805</td>
<td>Legends and Heroes of Ancient Rome</td>
<td>1 s.h.</td>
<td>Introduction to narratives of Roman heroes from Livy, Ovid, and Plutarch; background information for further study in classics.</td>
</tr>
<tr>
<td>CLSA:1809</td>
<td>Classics and Cinema</td>
<td>3 s.h.</td>
<td>Cinematic depictions of the classical world compared with scholarly views; selected films and primary ancient sources of the same period.</td>
</tr>
<tr>
<td>CLSA:1830</td>
<td>Greek Civilization</td>
<td>3 s.h.</td>
<td>History, literature, art, architecture, religion, social life ca. 3000 B.C.E. to second century B.C.E. GE: Historical Perspectives.</td>
</tr>
<tr>
<td>CLSA:1840</td>
<td>Roman Civilization</td>
<td>3 s.h.</td>
<td>History, literature, politics, religion, social structure from eighth century B.C.E. to second century C.E. GE: Historical Perspectives.</td>
</tr>
<tr>
<td>CLSA:1875</td>
<td>Ancient Sports and Leisure</td>
<td>3 s.h.</td>
<td>Sports, games, and hobbies in the ancient world, primarily Greece and Rome, 1500 B.C.E. to 500 C.E.; ancient Olympic games, Roman festival games; anthropology of sport. GE: Values, Society, and Diversity.</td>
</tr>
<tr>
<td>CLSA:1883</td>
<td>War</td>
<td>3 s.h.</td>
<td>Emotions soldiers have as they fight, what makes them continue voluntarily to face death, and how modern society memorializes these experiences; how literature and art transform the experience of war; human responses to war in Homer's <em>Iliad</em> and select Greek tragedies. GE: Values, Society, and Diversity. Same as HONR:1883.</td>
</tr>
</tbody>
</table>
CLSA:2016 Classical Mythology 3 s.h.
Ancient Greek and Roman myths, their interpretation by Western civilization; emphasis on flexibility of myth and its importance for art, literature, anthropological, psychological studies. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

CLSA:2018 Odysseus: The Image of a Trickster Hero in Literature and Film 3 s.h.
How the figure of Odysseus has long intrigued the West as glorified seeker of truth or damned treacherous deceiver; representations of hero by authors that include Greek tragedians, Virgil, Dante, Alfred Lord Tennyson, Margaret Atwood, and others with a point of departure from Homer's Odysseus; survey of Odysseus's depictions throughout the centuries to understand the fascination his character held, and continues to hold, over classical and modern writers; selected adaptations of Odysseus' adventures in art and contemporary cinema to understand the exuberance of the mythical hero.

CLSA:2178 De Cura Sui: Self-Discovery, Personal Development, and Civic Responsibility in Ancient Philosophy 3 s.h.
Practices of self-care from a variety of ancient Greco-Roman authors; practice of philosophy; opportunity to publicly engage with elementary students as mentors; readings and writing assignments focus on primary questions (What do ancient philosophers mean by "caring for yourself"? What are the purposes of philosophical self-care?); why it is more accurate to call ancient philosophy a way of life than a study; why Greek and Roman religious beliefs are inseparable from philosophy; what metaphors dominate and guide philosophical inquiry.

CLSA:2226 Introduction to Ancient Art 3 s.h.
Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as ARTH:2320.

CLSA:2330 Introduction to Egyptian and Ancient Near Eastern Art 3 s.h.
Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as ARTH:2330.

CLSA:2340 Introduction to Greek and Roman Art 3 s.h.
Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2340.

CLSA:2384 Killers, Crooks, and Deviants: Ancient Law and Society 3 s.h.
Transcripts of actual court cases from ancient Greece and Rome, from the seamy world of adultery and vigilant justice, insurance fraud, gang warfare, prostitution, and murder, to competitive spectacle of ancient courts where trained speakers used skills in rhetoric and facility with law to prosecute or defend crimes of presumed wrongdoers; ancient law, conceptions of justice, history, daily life, moral values, and role of public speaking in democratic Athens and Republican Rome.

CLSA:2420 Jesus and the Gospels 3 s.h.
How Jesus was depicted in the writings of the early church; reasons for the different portrayals. Same as RELS:2320.

CLSA:2425 Messianic and Apocalyptic Prophecy in the Bible 3 s.h.
Literary, historical, and theological analysis of biblical prophecies and their impact. Same as RELS:2225.

CLSA:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as HIST:2461, RELS:2361.

CLSA:2482 Ancient Mediterranean Religions 3 s.h.
Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values, Society, and Diversity. Same as RELS:2182.

CLSA:2489 Jerusalem: The Holy City 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths—Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as RELS:2289.

CLSA:2651 Gender and Sexuality in the Ancient World 3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of rhetoric requirement and sophomore standing. GE: Values, Society, and Diversity. Same as GWSS:2651.

Classics in English, Upper-Level Undergraduate and Graduate

CLSA:3008 Greek Drama in Translation 3 s.h.
Ancient Greek plays in relation to their original social and theatrical context; how Greek tragedy has been presented in modern film and theater.

CLSA:3020 Doctors and Patients: A Global History 3 s.h.

CLSA:3445 Mythology of Otherworldly Journeys 3 s.h.
Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as RELS:3245.

CLSA:3514 Roman Religion and Society 3 s.h.
Roman religion of the Republic, from ca. 753 B.C.E. to 44 B.C.E.; highly organized priesthood of politically powerful men and women in religious colleges in Rome who moderated and interpreted city-wide religious practice; how Romans worshipped their gods; Roman theology—what Romans thought about the divine world—and their religious response to crises; evidence from festival calendar, temple architecture, religious art, poetry, inscriptions, plays, and various other texts.

CLSA:3520 Dying for the Promised Land: Martyrdom and Warfare in the Western World 3 s.h.
How martyrdom evokes images of innocents who are killed for their faith and terrorists who commit suicide bombings; how these groups may appear distinct, but share a heritage that relates absolute obedience to God and (often human) sacrifice to conquest and possession of a Promised Land; development of martyrdom ideology and its uses in religious and political conflict in Western history; examination of the Crusades, Reformation, and modern religious and political conflicts beginning with works from the Bible, Greco-Roman culture, and early Jewish and Christian literature. Same as RELS:3520.

CLSA:3524 The Devil in Judaism and Christianity 3 s.h.
While known by many names, the Devil as a central figure in Western religious tradition; surprisingly, how he is not found in earliest texts in the Old Testament; the Devil as embodiment of evil that has its genesis in early Jewish and Christian sectarian conflicts; how he is used as a terrifying dragon or seductive stranger to demonize those perceived as threats to a group's existence; how the Devil is used to explain righteous suffering and create cultural boundaries throughout Western culture, from ancient texts and medieval witch trials to modern cinema and politics. Recommendations: some background in Judeo-Christian tradition. Same as RELS:3524.

CLSA:3596 The Archaeology of Ancient Egypt 3 s.h.
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as ANTH:3275.

CLSA:3742 Word Power: Building English Vocabulary 3 s.h.
Analysis of unfamiliar English words through knowledge of the history and meaning of word parts.

CLSA:3743 Word Power II: Building English Vocabulary—Advanced 3 s.h.
Continuation of CLSA:3742; vocabulary building through additional Latin and Greek bases; vocabulary recognition through analysis of Greek and Latin elements of English words; how words change over time. Prerequisites: CLSA:3742.

CLSA:3750 Medical and Technical Terminology 2 s.h.
Memorization of word stems and basic medical terms, practice on computer terminal; no formal classes.

CLSA:3836 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as HIST:3436.

CLSA:3849 Undergraduate Seminar in Philosophy 3 s.h.
Selected problems. Same as PHIL:3849.

CLSA:3913 Middle Egyptian I 3 s.h.
Introduction to the language (Middle Egyptian dialect, c. 2200-1350 B.C.E.), and script (hieroglyphic) of ancient Egypt; in-class readings from passages in the chrestomathie; Pennsylvania State University video conference.

CLSA:3914 Middle Egyptian II 3 s.h.
Continuation of CLSA:3913; introduction to the language (c. 2200-1350 B.C.E.) and script (hieroglyphics) of ancient Egypt. Prerequisites: CLSA:3913.

CLSA:3980 Teaching in the Classics 1.3 s.h.
Instructional approaches and issues in teaching ancient language and civilization at secondary and college levels. Prerequisites: CLSG:1002 or CLSL:1002.

CLSA:3982 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio required for classical languages and ancient civilization majors. Requirements: classical languages or ancient civilization major, and senior standing.

CLSA:4085 Postbaccalaureate Seminar 0 s.h.
Current work of postbaccalaureate students; preparation of writing sample and portfolio. Requirements: postbaccalaureate certificate enrollment.

CLSA:4090 Private Assignments arr.
Readings in classical literature in translation.

CLSA:4095 Honors Readings arr.
Discussion, readings, research for a paper on ancient civilization. Requirements: ancient civilization major.

CLSA:4101 Ancient Egypt and the Ancient Near East 3 s.h.
Same as HIST:4401.
CLSA:4106 Warfare in Ancient Mediterranean Society 3 s.h.
Same as HIST:4406.

CLSA:4131 Digital Archaeological Modeling 1-3 s.h.
Introduction to foundational theory, methodology, programming skills, and conceptual understanding necessary to model remains and reconstructions of archaeological sites in various three-dimensional digital modeling environments. Recommendations: background in archaeology. Same as RELS:4124.

CLSA:4181 History of Western Medicine 3 s.h.
Development and systematization of medical thought and practice in European Middle Ages from late antiquity to Renaissance; transmission of ancient Greek and Arabic medical thought into Latin; rise of hospitals; development of medical schools; influence of Christianity; special attention to university curricula (e.g., Articella, anatomy, semiotics, prognosis, therapeutics).

CLSA:4400 The Roman Empire 3 s.h.
History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as HIST:4400.

CLSA:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as HIST:4403.

CLSA:4452 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as RELS:4352.

CLSA:4501 Archaeological Methodology and Field Research 3 s.h.
Beginning skills in archaeological site surveying and excavation, lab work, record keeping, pottery identification and classification, data visualization; basic archaeological theory and field methods for excavation, record keeping, and pottery identification for students with no prior archaeological experience; advanced archaeological field methods for students with prior archaeological field experience.

CLSA:4502 Archaeology and History of Judea 3 s.h.
History of the ancient province of Judea (modern Israel) from Early Bronze Age to Greco-Roman period.

CLSA:6310 Classical Rhetoric 3 s.h.
Discourse in the ancient world. Same as COMM:6310.

CLSA:6585 Design, Visualization, and Mapping 3-D Environments 3 s.h.
Introduction to foundational modeling theory, methodology, and conceptual principles of design necessary to present information in visual formats; various software including data management solutions, database concepts, and simple programming skills that assist in visualizing and disseminating data through multiple digital and online media; basic graphing tools to map data; how to model physical properties and theoretical reconstructions of architectural elements in various 3-D digital modeling environments. Requirements: admission to public digital humanities certificate program. Same as SLIS:6585.

CLSA:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classics in translation, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in classics courses taught in English.

CLSA:6990 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Recommendations: additional graduate course work in linguistics. Same as LING:6190, SPAN:6190, SLA:6302.

Greek, Lower-Level Undergraduate

CLSG:1001 Classical and New Testament Greek I 3,5 s.h.
Introduction to ancient Greek; Greek readings from all periods, from Homer and classical Greek poetry and prose to Christian writings and beyond; focus on classical and New Testament works, Greek culture and thought; comprehension, vocabulary, structure of Greek words and sentences; first of two-semester sequence. GE: World Languages First Level Proficiency.

CLSG:1002 Classical and New Testament Greek II 3,5 s.h.
Continuation of CLSG:1001; focus on classical and New Testament works, Greek culture and thought, comprehension, vocabulary, structure of Greek words and sentences; increased emphasis on original texts. Prerequisites: CLSG:1001. GE: World Languages Second Level Proficiency.

CLSG:2001 Second-Year Greek I 3 s.h.
Focus on reading Greek prose authors, such as Xenophon and Plato. Prerequisites: CLSG:1002. GE: World Languages Second Level Proficiency.

CLSG:2002 Second-Year Greek II 3 s.h.
Greek, Upper-Level
Undergraduate and Graduate

CLSG:3001 Archaic and Classical Periods I 3 s.h.
Readings in major Greek authors of the Archaic and Classical periods. Prerequisites: CLSG:2002.

CLSG:3002 Archaic and Classical Periods II 3 s.h.
Continuation of CLSG:3001. Prerequisites: CLSG:2002.

CLSG:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as RELS:3003.

CLSG:3004 Classical and Hellenistic Periods II 3 s.h.
Continuation of CLSG:3003. Prerequisites: CLSG:2002.

CLSG:4076 Greek Composition 3 s.h.
Review of Greek morphology, syntax, sentence structure; composition of sentences, short passages in Greek.

CLSG:4090 Private Assignments 1-3 s.h.
Directed reading and study with faculty member.

CLSG:4095 Honors Readings arr.
Discussion, readings, research for a paper on Greek literature, history, or civilization. Requirements: classical languages major.

Greek, Graduate

Courses numbered CLSG:6011 Archaic Greece and CLSG:6013 Hellenistic Greece cover topics from the major genres and periods of Greek literature. They are offered on a four-year cycle.

Courses numbered CLSG:6011 Archaic Greece, CLSG:6013 Hellenistic Greece, and CLSG:6012 Classical Greece cover authors, genres, and topics of the major periods of Greek history. Specific topics are determined by the instructor’s expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of course work.

CLSG:6013 Hellenistic Greece arr.
Authors, genres, and topics from the death of Alexander to the accession of Augustus.

CLSG:6014 Roman Greece arr.
Greek authors of the Second Sophistic, including Plutarch, Lucian, and Philostratus; seminar.

CLSG:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in Greek.

CLSG:7080 Greek Thesis arr.
For Ph.D. students writing a dissertation. Requirements: Ph.D. candidacy.

CLSG:7090 Advanced Reading arr.
Requirements: classics graduate standing.

Latin, Lower-Level
Undergraduate

CLSL:1001 Elementary Latin I 3,5 s.h.
Focus on reading Latin and on Roman culture. GE: World Languages First Level Proficiency.

CLSL:1002 Elementary Latin II 3,5 s.h.

CLSL:2001 World of Cicero 3 s.h.
Focus on reading Latin prose authors, such as Caesar and Cicero. Prerequisites: CLSL:1002. GE: World Languages Second Level Proficiency.

CLSL:2002 Golden Age of Roman Poetry 3 s.h.
Focus on reading and interpretation of Roman poets, such as Vergil and Catullus. Prerequisites: CLSL:2001. GE: World Languages Second Level Proficiency.

Latin, Upper-Level
Undergraduate and Graduate Student

CLSL:3001 Latin Literature of the Republic I 3 s.h.
Prose or poetry by major authors of the republic. Prerequisites: CLSL:2002.

CLSL:3002 Latin Literature of the Republic II 3 s.h.
Continuation of CLSL:3001. Prerequisites: CLSL:2002.

CLSL:3003 Latin Literature of the Empire I 3 s.h.
Prose or poetry by major authors of the empire. Prerequisites: CLSL:2002.

CLSL:3004 Latin Literature of the Empire II 3 s.h.
Continuation of CLSL:3003. Prerequisites: CLSL:2002.
CLSL:3176 Elementary Latin Composition 3 s.h.

CLSL:4090 Private Assignments 1-3 s.h.
Directed reading and study with faculty member for advanced students.

CLSL:4095 Honors Readings 3 s.h.
Discussions, readings, research for a paper on Roman literature, history, or civilization. Requirements: classical languages major.

Latin, Graduate

Course CLSL:6012 Augustan Rome covers topics from the major genres and periods of Latin literature. It is offered on a four-year cycle.

Courses numbered CLSL:6011 Republican Rome, CLSL:6014 Later Empire, and CLSL:6013 Tiberius to Trajan cover authors, genres, and topics of the major periods of Roman history. Specific topics are determined by the instructor’s expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of course work.

CLSL:5001 Republican Literature 3 s.h.
Introductory survey of Latin literature and language from the early Republic to the end of the first century B.C.E.

CLSL:5002 Imperial Literature 3 s.h.
Introductory survey of Latin literature and language from the Augustan age through the second century C.E.

CLSL:6011 Republican Rome arr.
Authors and topics from the beginnings of Roman literature to the death of Julius Caesar.

CLSL:6012 Augustan Rome arr.
Authors and topics from the death of Caesar to the accession of Tiberius.

CLSL:6013 Tiberius to Trajan arr.
Authors and topics from the first and second centuries C.E. Same as RELS:6040.

CLSL:6014 Later Empire arr.
Authors and topics from the third through fifth centuries C.E.

CLSL:6076 Advanced Latin Composition arr.
Writing of extended prose passages in Latin.

CLSL:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: teaching assistant or instructor in Latin.

For Ph.D. students writing a dissertation. Requirements: Ph.D. candidacy.

CLSL:7090 Advanced Reading arr.
Requirements: classics graduate standing.

Sanskrit, Lower-Level

Undergraduate

CLSA:2901 First-Year Sanskrit: First Semester 4 s.h.
Grammar, basic vocabulary; elementary readings. Offered fall semesters of even years. Requirements: undergraduate standing. GE: World Languages First Level Proficiency. Same as SOAS:2901.

CLSA:2902 First-Year Sanskrit: Second Semester 4 s.h.

Sanskrit, Upper-Level

Undergraduate and Graduate

CLSA:3901 Second-Year Sanskrit: First Semester 3 s.h.

CLSA:3902 Second-Year Sanskrit: Second Semester 3 s.h.
The Bhagavadgita and related religious/philosophical texts. Offered spring semesters of even years. Prerequisites: SOAS:3901. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as SOAS:3902.
Communication Sciences and Disorders

Chair
- Ruth A. Bentler

Undergraduate major: speech and hearing science (B.A.)
Undergraduate minor: communication sciences and disorders
Graduate degrees: M.A. in speech pathology and audiology; Au.D.; Ph.D. in speech and hearing science
Faculty: http://clas.uiowa.edu/comsci/people
Web site: http://clas.uiowa.edu/comsci/

The courses and degree programs of the Department of Communication Sciences and Disorders are planned to meet the needs of students preparing for careers in clinical service, college and university teaching, and research concerned with speech, language, or hearing processes and disorders. The department also offers courses for students with vocational and professional goals in other fields—for example, engineering, psychology, education, speech, theatre arts, dentistry, and medicine—whose preparation may be enriched by the study of speech and hearing processes and their disorders.

Advanced degree holders in communication sciences and disorders provide clinical services for people with speech, hearing, or language problems in hospitals, community clinics, rehabilitation facilities, elementary and secondary schools, and private practice. They teach in colleges and universities and conduct research in laboratories concerned with communication processes and disorders.

The department's programs leading to the M.A. with professional emphasis and the Au.D. are accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA).

Undergraduate Programs of Study
- Major in speech and hearing science (Bachelor of Arts)
- Minor in communication sciences and disorders

Students who intend to pursue professional careers in communication sciences and disorders must complete a graduate program comparable to the department's Master of Arts in speech pathology and audiology or its Doctor of Audiology (Au.D.). The undergraduate major in speech and hearing science emphasizes the normal processes of speech, hearing, and language and does not qualify an individual to work professionally in the field. Instead, it is designed primarily to prepare students for graduate work. It also may be an appropriate major for students earning College of Liberal Arts and Sciences degrees who are not planning careers in speech pathology and audiology.

Bachelor of Arts

The Bachelor of Arts with a major in speech and hearing science requires a minimum of 120 s.h. including 63-64 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Requirements include 12 core courses offered by the department and eight cognate courses offered by other departments. Transfer students must complete a minimum of 15 s.h. toward the major at the University of Iowa.

The major in speech and hearing science requires the following course work.

**CORE COURSES**
All of these:
- CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2 s.h.
- CSD:2110 Phonetics: Theory and Applications 3 s.h.
- CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
- CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
- CSD:3113 Introduction to Hearing Science 4 s.h.
- CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
- CSD:3117 Psychology of Language 3 s.h.
- CSD:3118 Language Acquisition 3 s.h.
- CSD:3185 Hearing Loss and Audiometry 3 s.h.
- CSD:4145 Developmental Language Disorders 3 s.h.
- CSD:4148 Developmental Speech Disorders 3 s.h.
- CSD:4244 Rehabilitative Audiology 3 s.h.

**COGNATE COURSES**
Students may choose cognate courses that help fulfill the College of Liberal Arts and Sciences General Education Program (p. 313).

Both of these:
- LING:3001 Introduction to Linguistics 3 s.h.
- PSY:1001 Elementary Psychology 3 s.h.

One of these:
- PSQF:1020/STAT:1020 Elementary Statistics and Inference 3 s.h.
- PSQF:4143/STAT:4143 Introduction to Statistical Methods 3 s.h.
- STAT:2010 Statistical Methods and Computing 3 s.h.
- STAT:3510 Biostatistics 3 s.h.

One of these:
- CHEM:1070 General Chemistry I 3 s.h.
- CHEM:1110 Principles of Chemistry I 4 s.h.
- PHYS:1400 Basic Physics (preferably with lab) 4 s.h.
- PHYS:1511 College Physics I 4 s.h.

One of these:
- PSY:2301 Introduction to Clinical Psychology 3 s.h.
- PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
- SSW:1800 Basic Aspects of Aging 3 s.h.

One of these:
- PSQF:4106 Child Development 3 s.h.
- PSY:2401 Introduction to Developmental Science 3 s.h.
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Note: The major requires specific mathematics and science competencies that may be satisfied with courses approved for the General Education Program.

Before the fifth semester begins: three courses in the major
Before the seventh semester begins: nine courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: 12 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major
Students majoring in speech and hearing science who have a g.p.a. of at least 3.50 may enter the department's honors program upon recommendation of the departmental honors advisor. To graduate with honors in the major, students must complete at least 10 s.h. of course work for the major by the beginning of their junior year and must maintain a cumulative University of Iowa g.p.a. of at least 3.50. They must complete both CSD:3097 Honors Seminar and CSD:4098 Honors Thesis, registering for CSD:3097 in spring of their junior year and for CSD:4098 in both fall and spring of their senior year.

Students who intend to graduate with honors in the speech and hearing science major must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Minor
The minor in communication sciences and disorders requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students must begin the minor with CSD:1015 Introduction to Speech and Hearing Processes and Disorders, which provides a broad overview of all aspects of the normal communication process and of various disorders. Students complete the minor by choosing from the courses listed below, according to their individual interests.

This course:

CSD:1015 Introduction to Speech and Hearing Processes and Disorders (must be taken first) 2 s.h.

A minimum of 13 s.h. from these:

Graduate Programs of Study

- Master of Arts in speech pathology and audiology
- Doctor of Audiology
- Doctor of Philosophy in speech and hearing science

The Master of Arts program in speech pathology and audiology is offered with two emphases: research (general), and professional (speech-language pathology).

The M.A. with research emphasis and the Ph.D. are designed to train scholar-researchers; they do not provide preparation for professional work as speech-language pathologists or audiologists.

The M.A. with professional emphasis and the Au.D. provide training for individuals who wish to do clinical work in speech-language pathology or audiology. Graduates of the M.A. professional emphasis program meet all academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association (ASHA) and for licensure by the State of Iowa. The Au.D. is required for ASHA national certification in audiology. Students preparing for clinical positions in public schools must meet school licensure or certification requirements.
of the states in which they plan to work. See "M.A. with Professional Licensure" later in this section.

**Master of Arts: Research Emphasis**

The Master of Arts program in speech pathology and audiology with research emphasis (general emphasis) requires a minimum of 38 s.h. of graduate credit. The program is designed for students who intend to pursue a Ph.D. or who seek additional education but do not intend to work professionally in the United States as speech-language pathologists or audiologists. It typically includes a substantial portion of the courses in the M.A. with professional emphasis and Au.D. curricula.

Students in the M.A. research emphasis program are required to complete a thesis and defend their research successfully at a final oral examination.

The program typically requires two years to complete. Specific course work required depends on the student's background and interests.

**Master of Arts: Professional Emphasis**

The Master of Arts program in speech pathology and audiology with professional emphasis in speech-language pathology requires a minimum of 38 s.h. of graduate credit, although students typically earn 60-65 s.h. of credit by the time they complete the degree. The program prepares clinicians in speech-language pathology to be able to function independently in a variety of clinical settings. Graduates of the program meet all academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association and for licensure by the State of Iowa. The program is designed to ensure that upon graduation, the student will meet requirements for immediate professional employment.

M.A. students usually have a background of undergraduate courses in speech and hearing science, psychology of language, and human behavior that is equivalent to an undergraduate major in speech and hearing science at the University of Iowa.

Before registering in the program, entering M.A. students receive descriptive materials about basic science core courses considered to be required preparation for the M.A. program, and required M.A. clinical core courses for which the department may accept comparable courses taken at the undergraduate level. Decisions about incorporating background course work in these areas are made by the faculty advisor in consultation with the student and the instructors of the basic science or clinical core courses. Entering students must have completed the following courses or their equivalents.

All of these:

- CSD:2110 Phonetics: Theory and Applications 3 s.h.
- CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
- CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
- CSD:3113 Introduction to Hearing Science 4 s.h.
- CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
- CSD:3117 Psychology of Language 3 s.h.
- CSD:3118 Language Acquisition 1-3 s.h.
- CSD:3185 Hearing Loss and Audiometry 3 s.h.
- PSQF:1020 Elementary Statistics and Inference 3 s.h.
- Biology, physics, chemistry, or mathematics courses (must include at least one biology, physics, or chemistry course) 6 s.h.
- Behavioral science or social science courses (must include at least one psychology course) 6 s.h.

Students pursuing the M.A. with professional emphasis must complete at least 4 s.h. of work related to research. This may be accomplished by any combination of enrollment in seminars (2 s.h. each) and/or research hours. Completion of the research hours may consist of work toward a thesis or preparation of a paper involving one or a combination of the following: literature review, prospectus development, and presentation of data. A paper is required at the end of each semester's enrollment. An exception to this requirement can be made in the case of research hours leading to a thesis.

Candidates for an M.A. with professional emphasis in speech-language pathology are not required to complete a thesis, although all students demonstrating research aptitude and interest are encouraged to do so. Students who do not elect the thesis option are required to take final written comprehensive examinations.

A typical M.A. professional emphasis program usually takes two calendar years to complete but may take longer, depending on the student's background and personal interests.

**CORE REQUIREMENTS**

All students seeking an M.A. with professional emphasis in speech-language pathology must take the following.

- CSD:5135 Foundations of Clinical Practice I 1-3 s.h.
- CSD:5136 Foundations of Clinical Practice II 1 s.h.
- CSD:5137 Foundations of Clinical Practice III 1 s.h.

These courses must be taken during the first year of study.

- CSD:5510 Seminar: Introduction to Research in Speech and Hearing (taken fall semester of first year) 0-1 s.h.
- CSD:6515 Proseminar (taken fall and spring semesters of first year) 0 s.h.

In addition, they must take the following courses unless they completed equivalent courses as undergraduates.

- CSD:2140 Manual Communication 1 s.h.
- CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
- CSD:3185 Hearing Loss and Audiometry 3 s.h.
- CSD:4114 Introduction to Voice Disorders 2 s.h.
- CSD:4115 Structural Disorders 2 s.h.
- CSD:4145 Developmental Language Disorders 3 s.h.
- CSD:4146 Neurogenic Disorders of Language 3 s.h.
- CSD:4147 Neurogenic Disorders of Speech 2 s.h.
- CSD:4183 Introduction to Stuttering 2 s.h.
- CSD:4244 Rehabilitative Audiology 3 s.h.

Also required are additional semester hours of practicum registration sufficient to meet supervised, direct clinical experience requirements for the Certificate of Clinical
Competence of the American Speech-Language-Hearing Association and the Iowa license, and to provide broad, supervised practicum experience.

In addition to the core requirements listed above, all students preparing to be speech-language pathologists or audiologists must earn a minimum of 12 s.h. from the following.

- CSD:5201 Principles of Voice Production 3 s.h.
- CSD:5206 Language Disorders: Birth to Five Years 3 s.h.
- CSD:5213 Voice Habilitation 2-3 s.h.
- CSD:5222 Speech and Hearing Anatomy (dissection) 2 s.h.
- CSD:5233 Aphasia 2 s.h.
- CSD:5236 Swallowing Disorders 2 s.h.
- CSD:5237 Cleft Palate and Related Disorders 2 s.h.
- CSD:5260 Designing Assistive Devices 2 s.h.
- CSD:5282 Phonological Development and Disorders 2 s.h.
- CSD:5283 Clinical Problems 2 s.h.
- CSD:5350 Preceptorship in Augmentative Communication 1 s.h.
- EDTL:5104 Language Disorders in School-Aged Children 3 s.h.

Students also must earn a total of 4 s.h. in CSD:7590 Research or 4 s.h. in a combination of research and seminar courses.

**M.A. with Professional Licensure**

**M.A. with Licensure to Work Outside Public Schools**

A number of states, including Iowa, require a state license in speech-language pathology or audiology for persons who work in settings outside the public schools. Students who meet the requirements listed above for the M.A. in speech pathology and audiology with professional emphasis also meet the academic requirements for the license in Iowa as well as in most other states. National certification requires a clinical doctoral degree (Doctor of Audiology) or the equivalent. Students preparing for careers in audiology should consult their advisors.

**M.A. with Public School Licensure**

Students preparing for clinical positions in public schools typically must meet school licensure or certification requirements of the states in which they plan to work. The following criteria meet the requirements for endorsement as speech-language pathologists or audiologists in Iowa and most other states:

- a master's degree with professional emphasis in speech-language pathology or audiology or the equivalent;
- completion of an approved human relations component;
- completion of courses that cover the education of the disabled and the gifted and talented (e.g., exceptional persons, education of the gifted); and
- completion of the requirements in speech-language pathology or audiology and the 20 s.h. professional education sequence, including EDTL:5104 Language Disorders in School-Aged Children and EDTL:4192 Special Area Student Teaching as a speech-language pathologist or audiologist.

The professional education sequence requires course work in the following areas.

**Curriculum** (e.g., reading, methods, curriculum development)

**Foundations** (e.g., philosophy of education, foundations of education)

**Educational measurement** (e.g., tests and measurements, measures and evaluations of instruction)

**Educational psychology** (e.g., educational psychology, counseling theories and techniques)

**Special education** (e.g., introduction to special education, exceptional persons, learning disabilities)

**Child development** (e.g., human growth and development, principles and theories of child development, history and theories of early childhood education)

Note: General Education Program courses (e.g., introduction to psychology, sociology, history, literature, and humanities) do not meet the requirements of the professional education sequence.

**Doctor of Audiology**

The Doctor of Audiology (Au.D.) requires 95 s.h. of graduate credit. Individuals who wish to work as audiologists in the United States must hold a clinical doctoral degree or the equivalent.

The four-year Au.D. program is designed for students with an undergraduate degree in speech and hearing science. Au.D. students must complete the following courses. They may be excused from taking courses whose equivalents they completed successfully during undergraduate study.

All of these:

- CSD:4145 Developmental Language Disorders 3 s.h.
- CSD:4244 Rehabilitative Audiology 3 s.h.
- CSD:5135 Foundations of Clinical Practice I 1-3 s.h.
- CSD:5219 Fundamentals of Laboratory Instrumentation 3 s.h.
- CSD:5224 System and Signal Theory for Speech and Hearing Science 3 s.h.
- CSD:5240 Hearing Aids I 3 s.h.
- CSD:5246 Advanced Audiology 3 s.h.
- CSD:5255 Educational Audiology 2 s.h.
- CSD:5256 Anatomy and Physiology of Hearing 3-4 s.h.
- CSD:5311 Clinical Practice in Audiology 2-3 s.h.
- CSD:6230 Advanced Hearing Science 2 s.h.
- CSD:6242 Hearing Aids II 3 s.h.
- CSD:6245 Pediatric Audiology 3 s.h.
- CSD:6247 Medical Audiology 2 s.h.
- CSD:6249 Cochlear Implants 1-3 s.h.
- CSD:6290 Auditory Evoked Potentials 3 s.h.
- CSD:6291 Vestibular Assessment and Rehabilitation 3 s.h.
- CSD:6292 Advanced Rehabilitative Audiology 1 s.h.
- CSD:6317 Audiology Business Practice Management 1 s.h.
- CSD:6318 Hearing Loss Prevention 2 s.h.
are encouraged to write to the department. Research and selected publication citations of the faculty Ph.D. students. Students interested in specific areas of Communication Sciences and Disorders primarily for reading and research experiences.

The following courses are offered by the department, courses in other areas (e.g., physics, engineering, psychology, mathematics, statistics, computer science, and related areas).

The Ph.D. program reflects the broad interests of its multidisciplinary faculty, whose members have diverse backgrounds in speech, language, hearing, engineering, physiology, physics, psychology, linguistics, and bioengineering. Faculty members are committed to an interdisciplinary approach to questions at every level of the speech and language production/perception system.

The purpose of the doctoral program is to provide the integrated knowledge necessary for a productive career in speech-language pathology and audiology, communication science, and related areas.

The department encourages candidates with special interests, goals, or backgrounds to develop individualized programs of study. There is no standard curriculum for the Ph.D.; rather, a program of study is developed by each student in consultation with a faculty committee. The course of study is developed from courses offered by the department, courses in other areas (e.g., physics, engineering, psychology, mathematics, statistics, physiology, neurology, anatomy, and others), and special reading and research experiences.

The following courses are offered by the department of Communication Sciences and Disorders primarily for Ph.D. students. Students interested in specific areas of research and selected publication citations of the faculty are encouraged to write to the department.

In addition, seminars offered by the department cover a broad range of topics relevant to doctoral study.

Students in the Ph.D. program usually are expected to register for research credit (CSD:7590 Research) during each semester of residence and to register for and participate in CSD:6515 Proseminar.

Knowledge in each of the areas of hearing, speech, language, mathematics, statistics, computer science, and instrumentation is required of all students. Decisions regarding the extent of this knowledge and how it is obtained (e.g., course work or independent study) are made jointly by the student and the student's faculty committee.

Doctoral students who have not written a master's thesis must complete the equivalent of a master's thesis project as well as the comprehensive examination. They also must successfully complete and submit a dissertation based on original research.

Joint Au.D./Ph.D.

The Department of Communication Sciences and Disorders and the Graduate College offer the joint Doctor of Audiology/Doctor of Philosophy in speech and hearing science. The joint Au.D./Ph.D. program is especially appropriate for students who would like to practice audiology and hold a faculty position at a university. The program requires 137 s.h., permitting students to count 30 s.h. of the 95 s.h. required for the Au.D. degree toward the 72 s.h. required for the Ph.D. degree. Students complete all of the course work required for the Au.D.; the course of study for the Ph.D. is developed by each student in consultation with a faculty committee (see “Doctor of Philosophy” above). Consult the department to learn more about the joint degree program.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Each of the department's graduate programs requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the M.A. and Au.D. programs is competitive; applicants' credentials are considered in relation to those of others in the applicant pool, and a limited number of individuals are admitted to each program. Applicants whose undergraduate g.p.a. is below 3.00 or whose GRE General Test scores are lower than 450 in any area (verbal, quantitative, and analytic) rarely are admitted to either program. Admission is for fall; the application deadline is January 1. All applications to the M.A. and Au.D. programs must be submitted through CSDCAS (Central Application Service for Communication Science and Disorders).

Admission to the Ph.D. program is based on each individual's aptitudes and interests in research areas rather than on admitting a certain number of students. Applicants should be enrolled in a master's degree.
program or should have completed a master's degree or equivalent graduate work. They should have a g.p.a. of at least 3.00 and should have GRE General Test scores no lower than 500 in any area (verbal, quantitative, and analytic). For best consideration, applications should be received by January 1. All applications to the Ph.D. program must be submitted through the University of Iowa Biosciences Centralized Application System.

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Program on the department's web site.

**Financial Support**

The following information applies to all financial appointments administered by the department. For more detailed information, contact the Department of Communication Sciences and Disorders director of graduate studies.

Graduate appointments usually begin only in fall semester. Students beginning study spring semester or summer session are considered for appointments for the following fall semester.

Appointment applications must be received by January 15 to ensure consideration for an appointment beginning the following fall semester. Initial appointment offers generally are made between April 1 and June 1; however, the department continues to make offers after this time.

Scores on the Graduate Record Examination (GRE) General Test are required for consideration for financial assistance.

**Facilities**

**Clinical Facilities**

The clinical training program benefits greatly from Iowa City's standing as the most comprehensive health sciences center in Iowa and from the ready availability of health service facilities for clinical training of students in speech-language pathology and audiology.

The University of Iowa Affiliated Speech and Hearing Services include the Wendell Johnson Speech and Hearing Clinic; the division of speech and hearing in the University of Iowa Hospitals and Clinics (UIHC) Department of Otolaryngology—Head and Neck Surgery; UIHC Consolidated Speech and Swallowing Services, which provides services to the Departments of Neurology, Child Psychiatry, and Otolaryngology—Head and Neck Surgery; speech and hearing services in the Center for Disabilities and Development; Pediatrics Regional Child Health Specialty Clinics; and the audiology and speech pathology service in the Iowa City Veterans Affairs Medical Center. Directors of these programs form the Council on Speech Pathology and Audiology at the University of Iowa.

The Wendell Johnson Speech and Hearing Clinic serves the University and the general public. Included in its services are outpatient evaluation and rehabilitation programs for speech, hearing, and language problems; one-week intensive summer programs in stuttering, language development, reading, and aural rehabilitation; and a six-week summer preschool program for hearing-impaired children. These clinical programs give students supervised clinical experience with a wide variety of speech, hearing, and language disorders.

In addition to the clinical training in the Wendell Johnson Speech and Hearing Clinic, training also may be acquired in supervised clinical practice with elementary school children through various state area education agencies; and in supervised clinical practice in speech, language, and hearing services provided by the University of Iowa Hospitals and Clinics Consolidated Speech and Swallowing Services, the Regional Child Health Specialty Clinics, Center for Disabilities and Development, and the Veterans Affairs Iowa City Health Care System.

Public and private departments and programs in addition to those mentioned above often contribute to the cooperative professional training, research, and service programs.

**Research Facilities**

Facilities in the Wendell Johnson Speech and Hearing Center include audiometric testing suites, diagnostic and remediation suites, equipment for diagnosis and therapy, a closed-circuit television system, and laboratories and equipment for acoustic, physiologic, and perceptual studies of speech, and for audiologic, psychoacoustic, and neurophysiologic studies of hearing. Mechanical and electronic shops and trained technical personnel are available for assistance in research instrumentation.

Cooperation with departments in the Carver College of Medicine, the Department of Psychological and Brain Sciences (College of Liberal Arts and Sciences), and the University of Iowa DELTA Center makes additional laboratory facilities available for research on problems in speech and hearing. The participation and cooperation of specialists from varied fields, including psychology, child development, education, engineering, statistics, and medicine, further broaden the scope of research activities in speech and hearing.

**Courses**

**Lower-Level Undergraduate**

**CSD:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**CSD:1001 CLAS Master Class** 1-3 s.h.
Exploration of a single topic in a series of lectures by faculty presenting divergent perspectives; illuminates intellectual adventure inherent in liberal arts and sciences; encourages discovery of majors and other areas of study within the College of Liberal Arts and Sciences. Same as CLAS:1001, RELS:1010, THTR:1001, CS:1001, PHIL:1001, ENGL:1001, BIOL:1001, ARTS:1001.

**CSD:1015 Introduction to Speech and Hearing Processes and Disorders** 2 s.h.
Introduction to communication sciences and disorders field; clinical and research works; wide range of readings; survey course with less emphasis on specific disorders.
CSD:1800 Basic Aspects of Aging 3 s.h.

CSD:2110 Phonetics: Theory and Applications 3 s.h.
Basic concepts: articulatory and acoustic description of speech sound production, dialect variations, language differences; development of phonetic transcription skills with emphasis on English phonetics, clinical applications to developing and disordered speech. Offered fall semesters.

CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
Principles of sound, simple harmonic motion, sound pressure and intensity, decibels, complex waves, Fourier analysis, resonance and filters, distortion, transmission of sound. Requirements: completion of department math requirement.

CSD:2140 Manual Communication 1 s.h.
Training in use of sign systems in manual communication.

Upper-Level Undergraduate and Graduate

CSD:3097 Honors Seminar 2 s.h.
Research topics and procedures in speech and hearing sciences; ongoing faculty research, research opportunities, possible research projects. Requirements: honors standing with intent to complete an honors thesis.

CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
Normal anatomy, physiology of structures used to produce speech; principles, methods for instrumental study of speech production. Offered spring semesters. Prerequisites: CSD:2110.

CSD:3113 Introduction to Hearing Science 4 s.h.
Normal auditory process; anatomy and physiology of auditory system; subjective correlates of auditory stimuli. Offered fall semesters. Prerequisites: CSD:2111.

CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as LING:3116.

CSD:3117 Psychology of Language 3 s.h.
Theoretical, empirical investigations of linguistic behavior; behaviorist, rationalist models in context of formal linguistic structure and context of models of speech perception and production. Offered spring semesters. Prerequisites: LING:3001. GE: Social Sciences. Same as LING:3117.

CSD:3118 Language Acquisition 1-3 s.h.

CSD:3122 Speech Production: Anatomy and Physiology 4 s.h.
Anatomy and physiology of the respiratory, phonatory, and articulatory systems and the systems' roles during speech production; approaches to instrumental assessment of speech physiologic events.

CSD:3127 Introduction to Psycholinguistics 3 s.h.
Theoretical and empirical investigations of linguistic behavior in the context of formal linguistic structure, models of speech perception and production; readings of text and research papers; audio-visual demonstrations of classical speech perception and production phenomena.

CSD:3185 Hearing Loss and Audiometry 3 s.h.
Introduction to profession of audiology; overview of hearing disorders, evaluation, treatment; basic pure-tone and speech audiometry. Offered fall semesters. Prerequisites: CSD:3113.

CSD:3187 Early Literacy Instruction for Young Children 3 s.h.
Service-learning involving lecture, class discussion, and student participation in an early literacy program for preschoolers; concepts and skills necessary to conduct story time groups with young children that target development of print knowledge; application of learning by reading to small groups of preschool children. Corequisites: PSQF:4106 or PSY:2401.

CSD:3993 Research Practicum arr.
Individual or small group participation in faculty research projects.

CSD:4098 Honors Thesis 2 s.h.
Close work with a faculty mentor. Prerequisites: CSD:3097.

CSD:4114 Introduction to Voice Disorders 2 s.h.
Basic foundations for management of voice disorders. Offered spring semesters. Prerequisites: CSD:3112.

CSD:4115 Structural Disorders 2 s.h.
Therapy approaches used to treat speech production and swallowing disorders associated with disorders that affect structure and physiology of the speech and swallowing mechanism; basic knowledge necessary for clinical practice by clinicians who do not specialize in management of patients with head and neck cancer, cleft palate, or neurological disorders. Offered fall semesters. Prerequisites: CSD:2110 and CSD:3112.

CSD:4120 Clinical Observations in Communication Disorders 2 s.h.
Diagnosis and treatment of a wide range of speech, language, or hearing disorders in a variety of settings; basic understanding of the evaluation process, goal setting, behavior management, pacing of therapy, shaping of behavior, tracking performance/learning, and professional and ethical behavior through observation of clinical interactions; completion of 25 hours of observation as required by the American Speech-Language-Hearing Association for obtaining national certification. Recommendations: senior or graduate standing in communication sciences and disorders.

**CSD:4125 Clinical Spanish for Speech-Language Pathologists** 3 s.h.
Professional fluency in Spanish; focus on vocabulary and topics commonly encountered in speech and language pathology clinical setting; use of professional vocabulary to discuss research articles; administration of standardized assessments and therapy techniques in Spanish. Taught in Spanish. Prerequisites: CSD:1015 and CSD:2110 and CSD:3112. Requirements: completion or satisfaction of GE language requirement in Spanish through SPAN:1502, and at least one upper-level writing, speaking, or literature course in Spanish. Recommendations: advanced-level verbal and written competency in Spanish.

**CSD:4145 Developmental Language Disorders** 3 s.h.
Nature of developmental disorders; basic concepts including behavioral characteristics, developmental patterns, etiology theories; assessment and intervention principles in semantics, morphology, syntax. Offered fall semesters. Prerequisites: CSD:3118.

**CSD:4146 Neurogenic Disorders of Language** 3 s.h.
Overview of communication disorders secondary to acquired brain damage in adults; focus on aphasia, communication disorders arising from dementia, right-hemisphere stroke, traumatic brain injuries; general principles of diagnosis and intervention. Offered fall semesters. Prerequisites: CSD:1015 and (CSD:2110 or LING:3005) and CSD:3112 and CSD:3116.

**CSD:4147 Neurogenic Disorders of Speech** 2 s.h.
Speech disorders secondary to acquired brain damage in adults; clinical intervention issues. Offered spring semesters. Prerequisites: CSD:3116.

**CSD:4148 Developmental Speech Disorders** 3 s.h.
Review of typical phonological development in children; introduction to assessment and intervention practices for articulation and phonological disorders in children; may include apraxia, cerebral palsy, and cleft palate. Prerequisites: CSD:2110 and CSD:3118.

**CSD:4165 Communication Disorders and Aging** 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Offered spring semesters of even years. Same as ASP:4165.

**CSD:4183 Introduction to Stuttering** 2 s.h.
Theoretical perspectives on the nature of stuttering, including onset and development, basic phenomena, beginning treatment principles. Offered spring semesters. Prerequisites: CSD:3112.

**CSD:4186 Problems: Speech/Hearing Processes and Disorders** arr.

**CSD:4244 Rehabilitative Audiology** 3 s.h.
Theory, procedures for assessment, rehabilitation of speech, hearing, language deficits of people with hearing impairment. Offered spring semesters. Prerequisites: CSD:3185 and CSD:4145.

**Graduate**

**CSD:5104 Language Disorders in School-Aged Children** 3 s.h.
Emphasis on elementary grades; usually taken in conjunction with EDTL:4192, which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors. Same as EDTL:5104.

**CSD:5135 Foundations of Clinical Practice I** 1-3 s.h.
Basic concepts of clinical practice, including models of diagnosis, fundamentals of clinical data collection and measurement, treatment planning, professional writing. Offered fall semesters. Prerequisites: CSD:1015 and (CSD:2110 or LING:3005) and CSD:3112 and CSD:3118 and PSQF:1020. Corequisites: CSD:4145.

**CSD:5136 Foundations of Clinical Practice II** 1 s.h.
Advanced concepts of clinical practice, including principles of human behavior change, clinical decision making, generalization, transfer and maintenance, models of service delivery, ethical practice, advanced professional writing. Offered spring semesters. Prerequisites: CSD:5135.

**CSD:5137 Foundations of Clinical Practice III** 1 s.h.
Advanced principles of clinical practice, including risk management, public policy and models of third-party reimbursement, professional issues. Offered fall semesters. Prerequisites: CSD:5136.
CSD:5201 Principles of Voice Production 3 s.h.
Basic physical, physiological, pedagogical principles in understanding professional, nonprofessional, impaired voice production; vocal anatomy, voice classification; control of loudness, pitch, register, quality; efficient, inefficient use of voice; instrumentation for voice analysis, synthesis. Offered fall semesters of odd years. Same as MUS:5520.

CSD:5203 Counseling in Communication Disorders 1 s.h.
Collection and integration of case history information from clients/patients, family, caregivers, teachers, relevant others, other professionals; development of appropriate intervention plans that meet client/patient needs in collaboration with client/patient and relevant others; communicating effectively and recognizing needs, values, preferred mode of communication, and cultural linguistic background of client/patient, family, caregivers, relevant others; providing counseling to clients/patients, family, and caregivers regarding communication and swallowing disorders. Prerequisites: CSD:5135.

CSD:5206 Language Disorders: Birth to Five Years 3 s.h.
Disorders resulting from phonological, semantic, pragmatic, and morphosyntactic deficits; receptive, expressive problems; special assessment and intervention procedures. Offered fall semesters of even years. Prerequisites: CSD:4145.

CSD:5213 Voice Habilitation 2-3 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Prerequisites: CSD:4114 or CSD:5201. Same as MUS:5555.

CSD:5219 Fundamentals of Laboratory Instrumentation 3 s.h.
Electrical circuits, emphasis on application to instrumentation used in speech and hearing; laboratory focus on instrumentation. Offered spring semesters.

CSD:5222 Speech and Hearing Anatomy 2 s.h.
Laboratory course in anatomy of speech and hearing mechanisms; instruction in dissection techniques. Offered summer sessions. Prerequisites: CSD:3112.

CSD:5223 Pediatric Feeding and Swallowing Disorders 1 s.h.
Development of anatomy and physiology of feeding and swallowing in infants and children; assessment and treatment of pediatric feeding and swallowing disorders. Offered summer sessions. Prerequisites: CSD:3112 and CSD:3116 and CSD:4115.

CSD:5224 System and Signal Theory for Speech and Hearing Science 3 s.h.
Principles of linear-systems theory applied to speech and auditory research, including system functions, filter properties, convolution, Fourier Series, Fourier transform. Offered fall semesters. Requirements: introductory calculus.

CSD:5233 Aphasia 2 s.h.

CSD:5234 Acquired Cognitive-Communication Disorders 2 s.h.
Cognitive, neuropsychological, and social aspects of communication and the management of acquired cognitive-communication disorders associated with traumatic brain injury, right hemisphere damage, and neurodegenerative diseases. Prerequisites: CSD:3116 and CSD:4146.

CSD:5236 Swallowing Disorders 2 s.h.
Physiology of normal, abnormal swallowing; assessment, treatment of swallowing disorders in adults, children. Offered fall semesters. Prerequisites: CSD:3112 and CSD:4115 and CSD:3116.

CSD:5237 Cleft Palate and Related Disorders 2 s.h.

CSD:5240 Hearing Aids I 3 s.h.
Hearing aids, diagnostic procedures; laboratory emphasis on measurement procedures. Offered spring semesters. Prerequisites: CSD:3185.

CSD:5246 Advanced Audiology 3 s.h.
Theory, procedures for assessment of hearing loss in adult and pediatric populations; experience in test administration through supervised laboratory sessions. Offered fall semesters. Prerequisites: CSD:3185.

CSD:5253 Speech Perception in Listeners with Hearing Loss 1-2 s.h.
Introduction to study of speech perception in listeners with normal hearing and those with hearing loss; overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss.

CSD:5255 Educational Audiology 2 s.h.
Training in skills necessary for working with the school-age population; case management and aural rehabilitation, amplification and classroom hearing technology, identification and assessment practices, federal legislation that affects services. Offered fall semesters. Prerequisites: CSD:3185 and CSD:4244. Requirements: CSD:5240 for Au.D. students.

CSD:5256 Anatomy and Physiology of Hearing 3-4 s.h.
University of Iowa 2015-16 General Catalog 173
Anatomy of auditory system, cochlear mechanics, electrophysiology of peripheral and central auditory nervous system; laboratory emphasis on physiological techniques for study of ear. Offered spring semesters. Prerequisites: CSD:3113 and CSD:5224.

CSD:5257 Auditory Processing Disorders 1 s.h.
Central auditory processing disorder (C)APD as a disorder involving auditory processing and not showing as a hearing loss on routine screenings or an audiogram; theories of mechanisms and treatment.

CSD:5260 Designing Assistive Devices 2 s.h.
System design (hardware and software) useful in building augmentative and alternative communication devices for the profoundly impaired; opportunity to build systems for theoretical and/or applied purpose; interdisciplinary, clinical perspectives. Offered summer sessions.

CSD:5282 Phonological Development and Disorders 2 s.h.
Advanced topics in phonological development and disorders; current theoretical approaches to phonological analysis and typical phonological acquisition applied to assessment and intervention with children who have phonological disorders. Offered spring semesters. Prerequisites: (CSD:2110 or LING:3005) and CSD:3118 and CSD:4145 and CSD:5135.

CSD:5283 Clinical Problems 1-2 s.h.

CSD:5301 Practicum: Speech-Language Pathology arr.

CSD:5303 Evidence Based/Emerging Practices in Communication/Social Interaction for Individuals with Autism 1 s.h.
Evidence-based practices and emerging practices for promoting communication and social interaction skills in individuals with autism spectrum disorders; emphasis on intervention strategies specific to receptive and expressive language development, functional communication, social interaction, emotional regulation, play, structured learning environments, and opportunities.

CSD:5304 Speech Pathology Outplacement: School 0-4 s.h.
Supervised teaching and observation in speech-language pathology in an elementary school setting.

CSD:5305 Speech Pathology Outplacement: Non-School 0-4 s.h.
Supervised clinical work and observation in speech-language pathology in a non-school setting.

CSD:5310 Scientific Writing 3 s.h.
Principles of writing for scientific posters, journal articles, grant proposals; effective communication of concepts and data.

CSD:5311 Clinical Practice in Audiology arr.
Varied topics relevant to professional issues in audiology clinical practice; presentations by clinical faculty members and guest speakers. Requirements: M.A. professional emphasis or Au.D. enrollment.

CSD:5314 Audiology Student Teaching arr.
Supervised teaching and observation in an area of audiology in the elementary schools.

CSD:5315 Clinical Rotations in Audiology arr.

CSD:5350 Preceptorship in Augmentative Communication 1 s.h.
Approaches to development of alternate modes of communication for individuals with limited oral communication. Offered fall semesters.

CSD:5510 Seminar: Introduction to Research in Speech and Hearing 0-1 s.h.
Philosophy of science; basic principles of research; issues in conducting research; review of research opportunities in the department. Offered fall semesters.

CSD:5511 Introduction to Doctoral Research 1 s.h.
Topics related to development and execution of research; doctoral program, use of library, human and animal subject issues, philosophy of science, use of common research tools, reading and writing research papers, research grant preparation. Offered fall and spring semesters.

CSD:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as PSY:6101, LING:6101.

CSD:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as PSY:6102, LING:6102.

CSD:6202 Methods of Teaching Voice 3 s.h.
Attitude, musicianship, foreign language aptitude, physical and emotional characteristics; mental images used to modify respiratory, phonatory, articulatory behavior; vocal hygiene; performance anxiety; student-teacher relationships; administration in vocal schools, professional organizations. Offered spring semesters. Same as MUS:6520.
CSD:6204 Voice for Performers  2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as MUS:6525, THTR:6525.

CSD:6221 Instrumentation for Voice Analysis  2 s.h.
Glottographic, videostroboscopic, electromyographic, and acoustic analysis for assessment of vocal and respiratory function; using these techniques in conjunction with perceptual evaluation of voice; through the Vocolology Institute in Utah. Offered summer sessions of even years. Requirements: enrollment in Summer Vocolology Institute, Salt Lake City, Utah. Same as MUS:6556.

CSD:6230 Advanced Hearing Science  2 s.h.
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants). Prerequisites: CSD:3113 and CSD:5256.

CSD:6231 Speech Perception in Listeners with Hearing Loss  2 s.h.
Introduction to study of speech perception in listeners with normal hearing and those with hearing loss: overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss. Prerequisites: CSD:6230.

CSD:6242 Hearing Aids II  3 s.h.
Evaluation, verification procedures; emphasis on advanced technologies, strategies. Offered fall semesters. Prerequisites: CSD:5240.

CSD:6245 Pediatric Audiology  3 s.h.
Theory, procedures for assessment, rehabilitation of pediatric populations; laboratory emphasis on test administration. Offered spring semesters. Prerequisites: CSD:3185.

CSD:6247 Medical Audiology  2 s.h.
Genetic, acquired, traumatic pathologies that affect auditory systems; nature, etiology, principles of assessment, treatment. Offered spring semesters of odd years. Prerequisites: CSD:3185.

CSD:6249 Cochlear Implants  1-3 s.h.
Introduction to cochlear implantation; history of cochlear implantation, introduction to cochlear technology, basics of device programming and trouble shooting, candidacy issues, outcomes in children and adults, auditory rehabilitation specific to cochlear recipients, the auditory brainstem implant, future trends in cochlear implantation. Offered spring semesters. Prerequisites: CSD:3185 and CSD:4244.

CSD:6290 Auditory Evoked Potentials  3 s.h.
Introduction to evoked potentials for assessing audiologic function. Offered spring semesters. Prerequisites: CSD:5219.

CSD:6291 Vestibular Assessment and Rehabilitation  1-3 s.h.
Introduction to otoacoustic emissions, vestibular theory, and testing techniques. Offered fall semesters.

CSD:6292 Advanced Rehabilitative Audiology  1 s.h.
Current and developing procedures for assessment, habilitation of adults and children with hearing losses. Offered spring semesters.

CSD:6316 Advanced Externship in Audiology  arr.

CSD:6317 Audiology Business Practice Management  1 s.h.
Introduction to the development and management of an audiology practice; topics include short and long range business planning, general accounting, budgeting, establishing fees for service, coding and third party reimbursement, marketing, professional liability, certification and licensure; business and professional ethics. Requirements: 3.00 cumulative g.p.a. and Au.D. second-year or higher enrollment.

CSD:6318 Hearing Loss Prevention  2 s.h.
Incidence and prevalence of hearing loss; risk factors and assessment; noise exposure guidelines; hearing protection devices; education and motivation. Prerequisites: CSD:5219.

CSD:6515 Proseminar  0 s.h.
Presentation of research ideas, results by faculty, students.

CSD:6519 Seminar: Evidence-Based Practice  2 s.h.
Introduction to design and conduct of research and evidence-based clinical practice, observation and measurement, population sampling, group and single-subject research designs, treatment research, data organization and analysis, and presenting research results in graphic and written form; issues concerning research ethics and the protection of human subjects in research. Recommendations: clinical graduate standing in audiology or speech-language pathology.

CSD:6520 Seminar: M.A. Language  2 s.h.
Research literature related to language. Offered spring semesters of odd years.
CSD:6522 Clinical Speech Physiology 2 s.h.
Current approaches to the study of speech physiology and application in clinical practice; focus on providing hands-on experiences with common instrumental approaches to studying speech physiology, developing an appreciation of the factors and limitations that must be considered in applying and interpreting the findings of these approaches clinically, and developing abilities to critically evaluate the literature in this area.

CSD:6524 International Service in Communication Disorders 0-2 s.h.
International service in communication and related disorders; foundational knowledge and project-based learning; cultural diversity, international speech-language pathology and audiology practices, disability and poverty, advocacy for individuals with communication and related disorders, staff-caregiver-parent training; required course for students who applied and are accepted for international service projects through the Department of Communication Sciences and Disorders.

CSD:6538 Seminar: Hearing Science 2 s.h.
Selected topics. Offered fall semesters of even years.

CSD:7238 Capstone Requirement 1 s.h.
Individual work with a faculty member on audiology topics; final Au.D. project. Offered spring semesters.

CSD:7528 Seminar: Ph.D. Language 2 s.h.
Theoretical issues related to language. Offered spring semesters.

CSD:7590 Research arr.
Communication Studies

Chair
• Walid A. Afifi

Undergraduate major: communication studies (B.A.)
Undergraduate minor: communication studies
Graduate degrees: M.A. in communication studies; Ph.D. in communication studies
Faculty: http://clas.uiowa.edu/commstudies/people
Web site: http://clas.uiowa.edu/commstudies/

The Department of Communication Studies focuses on the study of human communication as a social practice. Scholarship and teaching in the department center on the role that human communication processes play in the construction, maintenance, reinforcement, and reformation of various aspects of social, professional, and institutional life.

The department provides a liberal-arts-based undergraduate education that prepares students to meet the complex communication challenges of the 21st century. It provides top-ranked doctoral education and is a national and international leader in research and knowledge dissemination.

The department has three areas of specialization. The rhetoric and discourse specialization focuses on how citizens use public argumentation and other rhetorical processes to bring about cultural, social, and political changes. The media studies specialization focuses on modern media in their cultural, economic, historical, political, and social contexts to understand how society and social relations shape and are shaped by media practices. The interpersonal communication and relationships specialization focuses on how the communicative practices of relating in everyday life construct, shape, sustain, and change who people are as individuals, as well as the quality of their lives.

The Department of Communication Studies encourages exploration of the practical, political, social, and aesthetic dimensions of symbolic exchange and awareness of the relationships among these dimensions. The department has produced many influential scholars and artists and has been a hub for the intersection of programs and projects of the University and other institutions.

Undergraduate Programs of Study
• Major in communication studies (Bachelor of Arts)
• Minor in communication studies

First-year students interested in completing a major in communication studies are advised at the Academic Advising Center. Students who have earned 24 s.h. or more and have declared the communication studies major are advised in the department by the communication studies academic advisor.

Bachelor of Arts

The Bachelor of Arts with a major in communication studies requires a minimum of 120 s.h., including 40 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). A cumulative g.p.a. of at least 2.30 is required for enrollment in most communication studies courses.

The curriculum is designed to encourage learning that progresses from foundation courses that teach the basics of communication to intermediate and advanced (capstone) courses. Students may choose to build creative combinations of course work that suit their individual learning and career goals.

Students may count up to 56 s.h. of Department of Communication Studies course work (prefix COMM) toward credit required for the Bachelor of Arts degree. Guided Independent Study and transfer courses may be applied toward the requirements of the major, with the department's approval. A maximum of 15 s.h. of transfer credit may be counted toward the major.

Students work with the communication studies academic advisor to develop study plans that meet the requirements of the major. Students may check their progress toward the degree on ISIS.

Students are encouraged to discuss their career goals and interests with faculty members.

The 40 s.h. required for the communications studies major consists of foundation courses (16 s.h.), intermediate courses (12 s.h.), a capstone course (3 s.h.), and an additional 9 s.h., which may be earned in courses listed under "Intermediate Courses," "Capstone Experience," and/or "Additional Courses," below. Students may not use a course to satisfy more than one requirement of the major.

FOUNDATIONS OF COMMUNICATION

Foundation courses cover introductory concepts in the field of communication. Students must complete five foundation courses (16 s.h.) and should take them early in their studies.

The following foundation courses are appropriate for first-year students. They do not require a minimum grade-point average for enrollment and do not have prerequisites, except COMM:1117, which requires fulfillment of the General Education Program's Rhetoric requirement for enrollment. Students complete the first three foundation courses as follows.

One of these:
COMM:1112 Interpersonal Communication 3 s.h.
COMM:1170 Communication Theory in Everyday Life 3 s.h.

One of these:
COMM:1117 Theory and Practice of Argument 4 s.h.
COMM:1130 The Art of Persuading Others 3 s.h.

And one of these:
COMM:1168 Media, Music, and Culture 3 s.h.
COMM:1174 Media and Society 3 s.h.

The fourth and fifth foundation courses are appropriate for second-year students. Enrollment in these courses requires completion of 30 s.h. and a g.p.a. of at least 2.30 for University of Iowa and transfer course work.

Both of these:

Faculty:

Graduate degrees:
M.A. in communication studies; Ph.D.

Undergraduate minor:
in communication studies

Undergraduate major:
communication studies (B.A.)

Guided Independent Study and transfer courses may be applied toward credit required for the Bachelor of Arts degree.
COMM:1301 Core Concepts in Communication Studies 3 s.h.
COMM:1305 Studying Communication: Methods and Critiques 4 s.h.

INTERMEDIATE COURSES
Intermediate courses (those numbered 2000-2799) cover detailed aspects of the study of communication. Students must complete four intermediate courses (12 s.h.), usually during their third and fourth years of study. They must have completed four of five foundation courses listed above and must have a cumulative g.p.a. of at least 2.30 in order to enroll in intermediate courses.

Intermediate course—at least four of these (12 s.h.):
COMM:2000 Feminist Critical Practice 3 s.h.
COMM:2011 Group Communication 3 s.h.
COMM:2040 Communication and Conflict 3 s.h.
COMM:2041 Gender Roles and Communication 3 s.h.
COMM:2042 Intercultural Communication 3 s.h.
COMM:2043 Rhetoric, Science, and Technology 3 s.h.
COMM:2044 Political Communication 3 s.h.
COMM:2048 Transforming Media: From Telegraph to Internet 3 s.h.
COMM:2051 Politics of Popular Culture 3 s.h.
COMM:2053 Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships 3 s.h.
COMM:2054 Movements, Protest, Resistance 3 s.h.
COMM:2057 Introduction to Computer-Mediated Communication 3 s.h.
COMM:2058 Rhetoric and Past Public Controversy: The Sixties 3 s.h.
COMM:2061 Persuasion in Society 3 s.h.
COMM:2064 Media, Advertising, and Society 3 s.h.
COMM:2065 Television Criticism 3 s.h.
COMM:2069 Black TV Drama: The Wire 3 s.h.
COMM:2071 Communication and Critical/Cultural Studies 3 s.h.
COMM:2075 Gender, Sexuality, and Media 3 s.h.
COMM:2076 Race, Ethnicity, and Media 3 s.h.
COMM:2077 Writing and Producing Television 3 s.h.
COMM:2079 Digital Media and Religion 3 s.h.
COMM:2080 Public Life in the U.S.: Religion and Media 3 s.h.
COMM:2085 Media Industries and Organizations 3 s.h.
COMM:2086 Global Media Studies 3 s.h.
COMM:2087 Copyright Controversies 3 s.h.
COMM:2088 Media and Democracy 3 s.h.
COMM:2089 Nonverbal Communication 3 s.h.
COMM:2090 Topics in Communication Studies 3 s.h.
COMM:2091 Organizational Communication 3 s.h.

CAPSTONE EXPERIENCE
Capstone courses (those numbered 3000-4999) provide a faculty-led experience in which students participate directly in producing knowledge, research, or creative work about communication. The capstone experience gives students a chance to synthesize what they have learned about the study of communication. Students must complete one capstone course (3 s.h.).

In order to enroll in a capstone course, students must have completed at least two of the required intermediate courses and must have a cumulative g.p.a. of at least 2.30. Most students take the capstone course during their senior year.

Capstone course—one of these (3 s.h.):
COMM:3100 LGBTQ/Queer Studies 3 s.h.
COMM:3600 Issues in Rhetoric and Culture: Crafting Electronic Identities 3 s.h.
COMM:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
COMM:4100 Developing Leadership 3 s.h.
COMM:4131 Globalization and Culture 3 s.h.
COMM:4135 Media, Culture, and Relationships 3 s.h.
COMM:4140 Communication and Relationships 3 s.h.
COMM:4142 Advanced Intercultural Communication 3 s.h.
COMM:4143 Classical Rhetoric and Greek Culture 3 s.h.
COMM:4145 Argument and Law 3 s.h.
COMM:4147 Family Communication 3 s.h.
COMM:4150 Cultural History of Advertising 3 s.h.
COMM:4151 Cultural History of Television 3 s.h.
COMM:4152 Latin American Media 3 s.h.
COMM:4153 Magic Machines: Technology and Social Change 3 s.h.
COMM:4156 Feminist Visual Rhetoric 3 s.h.
COMM:4157 Advanced Topics in Communication Studies 3 s.h.
COMM:4160 The Talk of Everyday Life 3 s.h.
COMM:4163 The Dark Side of Interpersonal Communication 3 s.h.
COMM:4164 Life Happens. Don't Worry About It: The Communication of Social Support 3 s.h.
COMM:4165 Criticism and Public Culture 3 s.h.
COMM:4166 Life-Span Communication 3 s.h.
COMM:4167 Communication, Cognition, and Emotion 3 s.h.
COMM:4168 Rhetoric of the Body 3 s.h.
COMM:4169 Feminist Rhetorics 3 s.h.
COMM:4170 Theories of Persuasion 3 s.h.
COMM:4172 Television and African American Culture 3 s.h.
COMM:4173 Social Media, Culture, and Politics 3 s.h.
COMM:4174 Communication, Technology, and National Security 3 s.h.
COMM:4176 Advanced Relational Theory 3 s.h.
COMM:4181 Legal Communication and Culture 3 s.h.
COMM:4183 Networking America: The Cultural History of Broadcasting 3 s.h.

ADDITIONAL COURSES
Students earn an additional 9 s.h. to complete the 40 s.h. in communication studies courses required for the major. They may choose from the courses listed below and/or from the lists of intermediate and capstone courses above. However, students may not use one course to fulfill more than one requirement for the major, so in selecting the
additional 9 s.h. of course work, they may not choose a course they already used to fulfill the intermediate or capstone course requirement.

The following courses are open to all students; they do not have prerequisites or require a minimum grade-point average requirement for enrollment.

<table>
<thead>

</table>

**Internships**

Internships enable students to supplement their course work with professional experiences relevant to careers in communication-related fields. The department's internship program is open only to communication studies majors.

To earn academic credit for internships, students must obtain approval for their internship experience and site before they register for COMM:2828 Communication Studies Internship. Internship academic credit is awarded for an analytical paper and daily log submitted at the end of the internship and for the number of hours worked. Internships can be completed during fall semester, spring semester, or summer session.

Visit the department's web site for information on communication studies internships.

<table>

</tr>
</tbody>
</table>

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Students should consult the department for details.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Iowa Degree in Three**

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

**Honors in the Major**

Students majoring in communication studies have the opportunity to graduate with honors in the major. Students begin work toward graduation with honors by choosing a faculty member to supervise their honors project and act as their honors advisor. They must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and complete the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM:2898 Honors Workshop</td>
<td>1 s.h.</td>
</tr>
<tr>
<td>COMM:2899 Honors Thesis</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

In special cases, an independent study course may be substituted for COMM:2898, with the honors advisor's permission. The advisor may require additional course work. Honors students also may take courses offered through the University of Iowa Honors Program and may add an honors designation to a departmental course by completing an agreement with the course instructor.

Departmental honors students must be members of the University's honors program, which requires students to have a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University of Iowa Honors Program.

Learn more about graduating with honors in the major; visit Honors on the department's web site.

**Minor**

The minor in communication studies requires a minimum of 18 s.h. in communication studies courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. In addition, enrollment in some courses for the minor requires a cumulative g.p.a. of at least 2.30. Course work in the minor may not be taken pass/nonpass. The minor must include the five courses listed under "Foundations of Communication" above and one course listed under "Intermediate Courses" above.
Forensics/Debate

Students in the forensics/debate program have the opportunity to participate in on-campus debates, in developmental programs designed to improve speech activities in the state, and as members of competitive intercollegiate debate teams. Forensics scholarships are available. Students interested in debate should enroll in COMM:2813 Practicum in Debate or COMM:1814 Elements of Debate.

Graduate Programs of Study

- Master of Arts in communication studies
- Doctor of Philosophy in communication studies

The Doctor of Philosophy program in communication studies includes specializations in interpersonal communication and relationships, media studies, and rhetoric and discourse.

Graduate education in communication studies focuses on the Ph.D., but doctoral students may choose to earn a Master of Arts on their way toward the Ph.D. A terminal master’s degree may be an option for some students already admitted to the doctoral program.

Master of Arts

The Master of Arts program in communication studies requires a minimum of 30 s.h. of graduate credit. It may be granted to students working toward the Ph.D.; it also may be granted as a terminal degree for doctoral students who decide not to complete the Ph.D. All master’s students take COMM:5200 Introduction to Research and Teaching (1 s.h.) and at least two courses numbered 5000 or above. They also prepare a graduate seminar paper that involves significant original research.

Doctor of Philosophy

The Doctor of Philosophy program in communication studies requires a minimum of 82 s.h. of graduate credit, including dissertation credit. All students take COMM:5200 Introduction to Research and Teaching and earn at least 10 s.h. of dissertation credit in COMM:6399 Ph.D. Dissertation.

Ph.D. students must take a 3 s.h. course in each of the program’s three areas of specialization; successfully complete a qualifying examination during their second or third semester and a comprehensive (predisertation) examination in their major research area during their fifth or sixth semester; and write a substantial scholarly dissertation. Students must maintain a cumulative g.p.a. of at least 3.00 throughout the graduate program.

Admission usually is for fall semester entry. Applicants whose materials are received at the department by December 15 receive preference for admission and financial support. Admission decisions are based on undergraduate achievement, letters of reference, Graduate Record Examination (GRE) General Test scores, the statement of purpose, and samples of scholarly work.

Interpersonal Communication and Relationships

The communication and relationships program is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationship and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate to studying and building theoretical explanations of communication.

Graduate students typically enter the program to earn a Ph.D. Advisors and committee members work closely with individual students to select courses from communication studies and other University departments and plan teaching and research experiences that will prepare students well for the employment they seek after graduation.

Media Studies

The graduate program in media studies focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, television, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as sites for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students must be granted as a terminal degree for doctoral students. If the student does not complete the Ph.D., the Master of Arts program in communication studies as well as media studies may be found in interpersonal communication and relationship studies as well as media studies.

Rhetoric and Public Advocacy

The program in rhetoric and public advocacy is built on foundation courses in classical and 20th-century rhetorical theory and in an overview of 20th-century rhetorical criticism. Courses from a rhetorical perspective include rhetorical theory, rhetorical criticism, visual rhetoric and politics, public address and public culture, studies in argumentation and freedom of speech, work in science and technology as well as academic inquiry, and historical methods. Cognate work of interest to rhetoricians also can be found in interpersonal communication and relationship studies as well as media studies.

The Ph.D. in rhetoric and public advocacy is designed to give students a mature grasp of the specialties and perspectives embraced by the field and to develop research competence essential to a life of productive scholarship.

Work in related disciplines—political science, history, sociology, English, cinematic arts, anthropology, American studies, and journalism—complements rhetorical studies course offerings. Faculty from the Departments of American Studies, Political Science, and Rhetoric cross-reference their courses on rhetorical topics in this program.

Admission

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate
College; see the Manual of Rules and Regulations of the Graduate College.

Facilities

The Samuel L. Becker Communication Studies Building is designed to meet the department's research and technological needs.

Courses

Courses numbered below 5000 are intended primarily for undergraduates; those numbered 5000 and above are for graduate students. Graduate students may take courses numbered 3000-4999 for credit, with their committee's approval. Not all courses are offered each semester.

Lower-Level Undergraduate

To register for most undergraduate communication studies courses, students must have earned 30 s.h. and have a cumulative g.p.a. of at least 2.30. However, registration for the following General Education courses is open to all undergraduates, regardless of their grade-point average.

**COMM:1117 Theory and Practice of Argument** 4 s.h.
**COMM:1170 Communication Theory in Everyday Life** 3 s.h.
**COMM:1174 Media and Society** 3 s.h.

Registration in **COMM:1000 First-Year Seminar** is open to first- and second-semester students regardless of grade-point average.

**COMM:1112 Interpersonal Communication** 3 s.h.
Introduction to face-to-face communication in social and personal relationships; maximizing communicative effectiveness in relationships with knowledge about how communication functions; analysis of one's own and others' communication practices and experiences.

**COMM:1117 Theory and Practice of Argument** 4 s.h.
Public arguments as practiced in law, politics, science, and other public arenas; improvement of skills in researching, constructing, organizing, and presenting arguments on disputed subjects; analyzing and refuting arguments of others; developing a better understanding of how scholars apply tools of formal and informal logic in a variety of disciplines to improve quality of academic argument. Requirements: completion of General Education Program rhetoric component. GE: Quantitative or Formal Reasoning.

**COMM:1130 The Art of Persuading Others** 3 s.h.
Basic theoretical concepts of effective public communication; employ knowledge of concepts in analyzing texts; definition and influence of rhetorical situation, different elements of persuasion (message logic, appeal to feelings, character of speaker), ability of speakers to invent arguments; issues of judgment, public discourse, identity, and agency.

**COMM:1168 Media, Music, and Culture** 3 s.h.
What makes popular music important for people; music's power to change culture; production, distribution, reception of popular music in cultural and historical contexts.

**COMM:1170 Communication Theory in Everyday Life** 3 s.h.
General overview of everyday life communication, theories and research techniques used to understand it; sheer depth and complexity of processes in communication that occur in everyday lives and which appear to be trivial; how to observe conversations and identify what is really happening in them; ways in which scholars explain everyday communication and how it works; applications of theoretical thinking to explain processes of everyday communication. GE: Social Sciences.

**COMM:1174 Media and Society** 3 s.h.
Processes and effects of mass communication; how mass media operate in the United States; how mass communication scholars develop knowledge. GE: Social Sciences; Values, Society, and Diversity.

**COMM:1301 Core Concepts in Communication Studies** 3 s.h.
Introduction to communication topics; face-to-face interaction, public speaking, globally-distributed film, music, and television; ways of thinking, vocabulary, and overview of concepts used in other communication studies courses. Requirements: g.p.a. of at least 2.30 and 30 s.h. of credit.

**COMM:1305 Studying Communication: Methods and Critiques** 4 s.h.
Social scientific methods used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research; epistemological perspectives, research procedures, and data analysis; readings and hands-on activities. Requirements: g.p.a. of at least 2.30 and 30 s.h. of credit.

**COMM:1809 Social Marketing Campaigns** 3 s.h.
Introduction to theory, development, and practice of social marketing campaigns; public service announcements, political action to change smoking laws, community-led initiatives to increase availability of local foods; communication-centric format including research in public health, nursing, marketing, and other fields; group work to identify issues of local concern and develop a theoretically justified and practically realistic social marketing campaign with potential to positively impact communities.
COMM:1814 Elements of Debate 3 s.h.
Debates that occur everyday in a wide variety of situations and settings; how to recognize when a debate is occurring and different procedures by which people conduct debates; emphasis on development of personal advocacy skills and how one goes about teaching those same skills to others by example and practice; examination of role of debate in achieving collective economic and political purposes in contemporary societies.

COMM:1816 Business and Professional Communication 3 s.h.
Introduction to business and professional communication at individual and corporate levels; individual-level topics cover organizational communication, business vocabulary, speaking and writing, professionalism and interviewing; corporate-level topics focus on marketing, advertising, public relations, corporate communications, crisis communication management, business and communication plans, proposals; guest speakers from for-profit and not-for-profit organizations.

COMM:1818 Leadership and Organizational Procedures 2 s.h.
Use of organizational procedures to facilitate discussion, from by-laws to full parliamentary procedure; how knowledge of effective organizational procedures enhances ability to participate in meetings and organizational business to run more smoothly; benefit to instructors of speech communication with inclusion of parliamentary procedure/debate units. Offered only through Guided Independent Study.

COMM:1819 Organizational Leadership 2-3 s.h.
Introduction to nature of leadership, styles of leadership that are most effective, and ways in which obstacles may be overcome in groups or organizations; different approaches to qualities of leadership, role of visions and motivation, interpersonal and decision-making skills, meeting preparation and evaluation, and related communication skills. Offered only through Guided Independent Study.

COMM:1830 Solving Public Problems: Dialogue and Deliberation for Democracy 3 s.h.
Communication at the heart of public problems and solutions; critical 21st-century skills (writing for a general audience, facilitating dialogue); valuable community service experiences as an introduction to the interdisciplinary field of dialogue and deliberation; focus on a complex local issue, such as affordable housing, flood planning, or excessive drinking; partnering with local organizations to research a local problem, plan community-based solutions, and study the art of facilitating public discussions; topics include issue analysis, deliberative inquiry, convening meetings, and community organizing.

COMM:1898 Introduction to Latina/o Communication and Culture 3 s.h.
Introduction to fundamentals of communication by and about Latina/o in the U.S.; Latina/o as one of the fastest growing demographics; how Latina/o history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o social movement and protest (e.g., Chicana/o movements and the Young Lords Organization), institutional discourses (e.g., congressional, presidential, and legal discourses), and Latina/o in popular culture (film, TV, music, sports).

COMM:2000 Feminist Critical Practice 3 s.h.
Feminist approaches to communicative practices. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four or five Foundations of Communication courses.

COMM:2011 Group Communication 3 s.h.
Study of relevant theory, research, and application to increase understanding of communication in small groups; critical thinking and communication skills; individual roles in groups, creativity, leadership, decision making, problem solving, and conflict resolution. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four or five Foundations of Communication courses.

COMM:2040 Communication and Conflict 3 s.h.
Conflict and its management as critical issues that pervade people's personal and professional lives; complexities of conflict; forces that make conflict challenging; skills for thinking about and managing conflict more effectively; central features that define conflict; behaviors, attributions, and emotions that are manifest during conflict; formal models of conflict management and their corresponding recommendations for handling conflict. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2041 Gender Roles and Communication 3 s.h.
Interactive relationships between gender and communication in contemporary U.S. society; multiple ways families, schools, and media perpetuate, negotiate, and contest gender roles; how we are part of those processes by looking at how we enact socially-created gender differences in public and private settings. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as GWSS:2041.
COMM:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as SSW:2042, IS:2042.

COMM:2043 Rhetoric, Science, and Technology 3 s.h.
How science and technology shape culture; media representations of technology; role of rhetoric in science and technology, especially in the physical and biological sciences; cultural implications of the information revolution. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2044 Political Communication 3 s.h.
Relationship between media, cultural politics, and the American political system; focus on advertising, campaigns, and new media outlets; ways politicians, the press, and intermediaries create and disseminate messages into mainstream culture; how people generate their own discourses of political identity and dissent, creating a robust democratic practice that is both empowering and central to the contemporary political landscape. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2048 Transforming Media: From Telegraph to Internet 3 s.h.
Communication media as global phenomena in which U.S. corporate and government interests play a major part; from electronic telegraph to broadcasting and cable, an investigation of historical contexts in which these media emerged; tracing ways in which they have been shaped by political, economic, and social relations of power. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2051 Politics of Popular Culture 3 s.h.
How culture is political and how politics is cultural; overview of theories of culture and critical-cultural approaches to study of popular culture, past and present; specific topics of analysis vary, may include television, celebrity culture, music, film, games, and sports. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2053 Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships 3 s.h.
How individuals manage private information with regard to their interpersonal relationships; multiple theories of privacy management; how aspects of information, individual, and target of disclosure all contribute to decisions to reveal or conceal private information to friends and family. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2054 Movements, Protest, Resistance 3 s.h.
Historical and contemporary study of social movements from a symbolic perspective (e.g., speeches, protests, propaganda, media events); social movements as interpersonal and group communication; relationships between media and social change: efficacy of individual and larger-scale forms of resistance. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2057 Introduction to Computer-Mediated Communication 3 s.h.
Theoretical and practical introduction to concepts and research in computer-mediated communication; emphasis on study of social effects of communication and information technology; factors that distinguish mediated from face-to-face interaction, theories of mediated communication, self-presentation online; Internet-based relationships, online supportive communication, online communities; how the Internet influences communication and how to use computer-mediated communication for self-presentation. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2058 Rhetoric and Past Public Controversy: The Sixties 3 s.h.
Role of rhetoric in public controversy in particular historical time periods; focus on various perspectives, diverse voices, and multiple arguments informing particular movements/issues. Requirements: for COMM:2079 — communication studies major, g.p.a. of at least 2.30, and completion of four Foundation of Communication courses chosen from COMM:1112 or COMM:1170, COMM:1117 or COMM:1130, COMM:1168 or COMM:1174, COMM:1301, and COMM:1305. Same as RHET:2410.
COMM:2061 Persuasion in Society 3 s.h.
Introduction to concepts, theories, and methods designed to build critical understanding of mass persuasion processes; persuasion theory and research; theories that account for processes of social acculturation, maintenance, and change; specific mass persuasion processes (i.e., advertising, corporate advocacy or public relations, film and television programming, sociopolitical rituals, and social protest and change). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2064 Media, Advertising, and Society 3 s.h.
Introduction to the critical study of advertising in the United States; advertising contextualized as an industry and as a key part of media and culture; advertising as an institution and as a series of symbols, ideas, and fantasies; how advertising works, role and function of advertising in culture and society. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2065 Television Criticism 3 s.h.
Introduction to scholarly study of television as a social institution; nature of television form and content; role of industry in creation, selection, and presentation of television programs; production conventions and textual conventions in defining the medium; application of genre and narrative theory, semiotics, political economy of media industries, and audience reception study. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2069 Black TV Drama: The Wire 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; HBO's The Wire series—a social commentary, commercial, and aesthetic force—has pioneered new ways of thinking about the relationship between media and society at large while revolutionizing ways in which black urban life is portrayed in today’s world; focus on complex intersections between urban poverty, education, and political system, crime, mediation in Western society. Same as AFAM:2070.

COMM:2071 Communication and Critical/Cultural Studies 3 s.h.
Engagement of cutting-edge rhetorical and social theories; ways in which rhetorical and social theories play out in daily life, especially in decision-making activities; weekly readings, class discussions. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2075 Gender, Sexuality, and Media 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as GWSS:2075.

COMM:2076 Race, Ethnicity, and Media 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as AFAM:2076.

COMM:2077 Writing and Producing Television 3 s.h.
Introduction to basics of scripting and producing a conventional, three-camera television series; hands-on experience with production equipment and workshopping television scripts; students create one or more episodes of an original television series. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2079 Digital Media and Religion 3 s.h.
Influences of digital media on religion and spirituality today. Requirements: for COMM:2079 — communication studies major, g.p.a. of at least 2.30, and completion of four Foundation of Communication courses chosen from COMM:1301, COMM:1305, COMM:1112 or COMM:1170, COMM:1117 or COMM:1130, and COMM:1168 or COMM:1174. Same as RELS:2930.

COMM:2080 Public Life in the U.S.: Religion and Media 3 s.h.

Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion; role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, and completion of four of five Foundations of Communication courses. Same as RELS:2080.

COMM:2085 Media Industries and Organizations 3 s.h.
Trends in media industries as reflected in changes of ownership, different work conditions, media convergence, and globalization generally; focus on local, network, and cable television; examination of industry structures, business practices, economic fundamentals, and theoretical explanations of media industries in society. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2086 Global Media Studies 3 s.h.
Key developments in contemporary international communication; impact of deregulation and privatization on ownership and control of global communication infrastructure; spread of American television abroad in terms of production, texts, and reception; cultural concerns surrounding the phenomenon. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2087 Copyright Controversies 3 s.h.
How digital technologies have dramatically changed media and popular culture landscapes; advent of relatively cheap editing programs that allow anyone to collage media on their home computers and enable people to become cultural producers; technologies that allow more people to break law in the eyes of copyright industries; historical look at collage practices from pre-digital era to present; ethical and legal questions surrounding use and reuse of copyrighted materials; notion of free speech in a media age. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2088 Media and Democracy 3 s.h.
Exploration of relationship between democracy and mass communication; why controversies regarding mass communication are also controversies about democracy; logical relationship between democracy and mass media; roots and history of ideas of democracy, contemporary obstacles to realization of these ideas, and varied issues of present; latest developments in world of politics and media. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2089 Nonverbal Communication 3 s.h.
Introduction to theoretical study of nonverbal communication; focus on major principles and research trends; examination of role of nonverbal communication in communication as a whole; perception and interpretation of nonverbal communication (i.e., posture, eye movements, tone of voice); nonverbal behaviors (i.e., facial expression, eye movement) as used to persuade, impress, or deceive someone. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2090 Topics in Communication Studies 3 s.h.
Topics vary. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2091 Organizational Communication 3 s.h.
Theories and concepts of organizational communication; focus on issues of good communication at a number of levels—people within organization must be able to work with one another and communicate in effective ways; people, and especially leaders, need to be able to persuade one another effectively; organizations must be able to persuade outsiders, whether persuading them to buy organization's products, or in more complex circumstances, persuade outside world to accept apologies or statements of regret when the company does something wrong. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses.

COMM:2802 Workshop in Debate and Forensics 3 s.h.
Public argument on questions of value and policy; opportunities for demonstration and practice in discussion and debate. Requirements: concurrent enrollment in the National Summer Institute in Forensics.
COMM:2813 Practicum in Debate 1 s.h.
Practice of skills in research, reasoning, argument development, and argumentative performance in debate undertaken by members of the A. Craig Baird Debate Forum in preparation for and participation in intercollegiate debate competition. Requirements: participation in A. Craig Baird Debate Forum.

COMM:2821 Oral Interpretation 3 s.h.
Weekly performances to develop and define communication skills for professional careers in teaching and business; poetry, prose, monologue, storytelling, duo interpretation, reader's theatre, and demonstration speeches. Requirements: for COMM:2821 — g.p.a. of at least 2.30 and minimum 30 s.h. of credit. Same as EDTL:2821.

COMM:2828 Communication Studies Internship 1-3 s.h.
Communication skills, knowledge in work assignments related to students' academic and career interests; full- or part-time, on or off campus. Requirements: g.p.a. of at least 2.30, communication studies major, and minimum of 12 s.h. of communication studies course work.

COMM:2896 Workshop in Teaching Communication and Forensics arr.
Methods, materials, progression, evaluation in teaching and supervising students in courses and class activities; opportunities for observation, demonstration, practice in teaching theater, discussion and debate, individual speech, dramatic and forensic events. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:2897 Independent Study arr.
Creative or research project under faculty supervision.

COMM:2898 Honors Workshop 1 s.h.
Preparation for honors thesis prospectus; coordination of student's individual thesis work, introduction to issues in research design, methods. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:2899 Honors Thesis 3 s.h.
Individual research, writing, or creative production under faculty supervision. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

Upper-Level Undergraduate and Graduate

COMM:3100 LGBTQ/Queer Studies 3 s.h.
Overview of queer theory and queer studies; development of critical thinking skills in relation to cultural constructions of gender, sexuality, race, and other identity categories. Requirements: for COMM:3100 or communication studies majors — (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305 and g.p.a. of at least 2.30 and completion of Foundations of Communication requirement and 6 s.h. of intermediate-level course work. Same as GWSS:3100.

COMM:3600 Issues in Rhetoric and Culture: Crafting Electronic Identities 3 s.h.
Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Requirements: for COMM:3600 — communication studies major, g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as RHET:3600.

COMM:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Requirements: for COMM:3834 — g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as RELS:3834, IS:3834, WLLC:3834, JMC:3146.

COMM:4100 Developing Leadership 3 s.h.
Exploration of communicative dimensions of leadership and work of organizational communication scholars who have studied this topic; builds on leadership in organizational communication, business, and professional communication or other courses that introduce leadership from a communication perspective; readings and discussions of scholarly articles and selections from contemporary books/articles about leadership geared toward popular or professional audiences; team work, hands-on projects with emphasis on use of leadership skills. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.
COMM:4131 Globalization and Culture 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as IS:4131.

COMM:4135 Media, Culture, and Relationships 3 s.h.
Intersections of interpersonal communication and media; often studied as separate phenomena, approached as integrated systems, and integration as a central issue of our times; application of theories of interpersonal communication, media, and culture to a project that identifies a communication problem involving interpersonal and media issues, and proposes a solution to a potential client or audience; students draw on skills central to communication studies major (critical thinking, identifying and solving problems, effective oral and written communication). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4140 Communication and Relationships 3 s.h.
Communication process in personal relationships; how communication functions to initiate, sustain, and dissolve a variety of relationships including friendships, romantic couples, marital pairs, and family relationships. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4142 Advanced Intercultural Communication 3 s.h.
Defining culture as a historically-transmitted, socially-constructed system of meaning enacted in face-to-face interaction and mass media; focus on a specific topic within intercultural communication research and theory (i.e., cultural nature of personal relationships, built environment as culture, intersection of private with public cultural meaning); in-depth follow-up of general approach to intercultural communication covered in lower-level courses. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: for COMM:4142 — COMM:1112 or COMM:1170, COMM:1301, COMM:1305, COMM:1117 or COMM:1130, COMM:1168 or COMM:1174, g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as IS:4142.

COMM:4143 Classical Rhetoric and Greek Culture 3 s.h.
Origins and development of the art of rhetoric from Sophists to Aristotle; significance to Greek culture from fifth to fourth century B.C. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4145 Argument and Law 3 s.h.
Practices of argumentation that have special legal significance; court practices in legal argumentation (constructing legal arguments and briefs, trial and appellate oral advocacy); structure of argumentation that creates categories and limits of freedom of expression. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4147 Family Communication 3 s.h.
Family relationships and various ways they develop and change, how they affect those who participate in them; theory and research on family communication; family conceived as a group of persons who share their lives over an extended period of time bound by ties of marriage, blood, or commitment. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.
COMM:4150 Cultural History of Advertising 3 s.h.
Cultural, historical, and critical approach to creating, maintaining, repairing, and transforming a consumption culture in the United States; material and ideological character of life in the United States as it evolved from a culture of production in Gilded Age (late 19th century) to a culture of consumption through first half of 20th century, culminating in a collective fantasy of the American Dream as articulated and celebrated in 1950s; emergence of corporate capitalism and its crucial ideological voice, national brand advertising. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4151 Cultural History of Television 3 s.h.
Cultural history of television in the United States; focus on rise of network television, relationship between networks and advertisers, imagery surrounding introduction of television into the home, and larger historical context; postwar era (1950s) and rise of genres that are still with us, especially sitcom (situation comedy); questions about desire, gender, family, nation, and the body. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4152 Latin American Media 3 s.h.
Development of media institutions, texts, and audiences across a number of Latin American countries; focus on broadcast media (radio and television) and situates them within larger historical context of 20th- and 21st-century Latin America; readings, discussions, and assignments with particular attention to influence of U.S. corporate and state interests on Latin American media; debates over cultural dependency, globalization, and hybridity in region. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4153 Magic Machines: Technology and Social Change 3 s.h.
How media has altered culture, society, and human consciousness throughout history with focus on last two centuries (or modernity); how communication has been shaped by a variety of media (i.e., gesture, language, writing, printing, calendars, clocks, photography, telegraph, telephone, phonograph, film, radio, television, computers); 21st-century questions concerning technology and how few communicate today without aid of some kind of machine or technique. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4156 Feminist Visual Rhetoric 3 s.h.
Exploration of connections among feminist rhetoric, visual rhetoric, and visual culture; critical analysis of scholarship on visual rhetoric; feminist theoretical and conceptual frameworks about the body; fields of visual culture and visual rhetoric; critiques of several feminist body artists' artworks as a means to concretize theories. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1130) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4157 Advanced Topics in Communication Studies 3 s.h.
Issues or problems in particular communication contexts. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4160 The Talk of Everyday Life 3 s.h.
In-depth study of various genres of talk that organize everyday communicative life; mundane interaction rituals (i.e., as small talk, gossip, face-saving talk, compliance-gaining, asking for and giving advice and support, and telling stories); formalized interaction rituals (i.e., rites of passage); functions of talk in constructing identities, building relationships, and sustaining social order more generally across all genres. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4163 The Dark Side of Interpersonal Communication 3 s.h.
Review of advanced communication theories and research; focus on dark side of interpersonal communication and close relationships; negative or difficult elements of developing and maintaining relationships; expression of difficult emotions; mundane communication that can function in destructive or negative ways. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4164 Life Happens. Don't Worry About It: The Communication of Social Support 3 s.h.
Advanced look at communication of social support as a research tradition in interpersonal communication scholarship; in-depth overview of theories, concepts, types, processes, and methods that constitute different forms of comforting behaviors; emphasis on factors that change people's abilities, motivations, or perceptions of success during experiences of social support; Internet influences on social support by online support groups, Internet-based intervention programs, how process of communicating comfort is altered by conveying these messages online. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4165 Criticism and Public Culture 3 s.h.
How people formulate attitudes, beliefs, and values about an array of arenas in public culture; critical perspectives (i.e., feminism, Marxism, psychoanalysis, queer theory); sporting rituals, television programs, political speeches, museums, sacred cultural documents; practice of critical reading to engage various cultural texts (i.e., films, national memorials, social movement rhetoric). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4166 Life-Span Communication 3 s.h.
How communication processes (i.e., social support, language skills, interpersonal relationship management) change across the course of one's existence; normative and unexpected demographic and health events mapped out across a life span; how our communication processes influence and are influenced by social experiences; underlying premise of life-span perspective that our potential for human growth extends throughout our life course. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4167 Communication, Cognition, and Emotion 3 s.h.
Understanding how communication, cognition, and emotion are tied together; different theories of emotion and types of emotions (i.e., love, anger, jealousy, happiness, embarrassment, hurt). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4168 Rhetoric of the Body 3 s.h.
Survey of a range of theories about the body and application to specific case studies; implications of how bodies are endowed with and convey meaning; theories of pollution, pain, ability, and normativity; diverse case studies that are seemingly disparate, but all preoccupy themselves with public conceptions of bodily meaning (i.e., beauty pageants, freak shows, plastic surgery, the wannabe movement, tattoos, the FDR Presidential Memorial, Deaf culture, fat bodies, illness, and torture). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4169 Feminist Rhetorics 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifesto/as that shaped women's movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women's lives and broader U.S. American culture. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as GWSS:4169.

COMM:4170 Theories of Persuasion 3 s.h.
Theoretical examination of historical, psychological, social, and cultural perspectives on persuasion; analysis of persuasive attempts; questions of cultural persuadables and current problems in U.S. American culture (i.e., obesity, drunk driving, date rape). Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4172 Television and African American Culture 3 s.h.
Role of television in African American culture; examination of debates, stereotyping, authenticity, effects of programming, aesthetics, and television's relationship to other forms of cultural expression. Requirements: for COMM:4172 or communication studies major — COMM:1112, COMM:1170, COMM:1301, or COMM:1305, COMM:1117 or COMM:1130, COMM:1168 or COMM:1174, g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as AFAM:4001.

COMM:4173 Social Media, Culture, and Politics 3 s.h.
Introduction to theoretical issues raised by social media for communication; particular emphasis on cultural and political implications; how social media is understood, forms of digital communication, individual and collective identity formations via social media, online communities, and intersection of social media and existing culture and politics. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4174 Communication, Technology, and National Security 3 s.h.

Relationship between communication technologies and national security via three main themes—use of communications infrastructure in previous and future wars for the purpose of securing and maintaining U.S. leadership in world system, uses of propaganda for domestic and foreign consumption, and representation of national security issues in popular media; historical and contemporary components. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4176 Advanced Relational Theory 3 s.h.

Relationships and how they significantly shape our experiences of the world, sense of identity, outlook on life, and way in which we think about experiences and life in general; premise that relationships are more than emotional attachments or bonds; relationships as happy, emotionally satisfying elements of life; demonstrations of a variety of communicative situations that establish, reconstitute, and demonstrate importance of membership of communities and relationships. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4181 Legal Communication and Culture 3 s.h.

Law and legal system as communicative networks of meaning-making; law viewed as a symbolic system, from courtroom arguments to judicial opinions to legal reporting to circulation of law in everyday life, in contrast with legal courses concerned with learning blackletter law; law from a rhetorical perspective that allows us to think in new and different ways about cultural implications of legal argument. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:4183 Networking America: The Cultural History of Broadcasting 3 s.h.

Exposure to different interpretations of cultural impact and legacy of U.S. broadcasting in 20th century; institutional practices, program genres, and audience formations of 1920s through the 1970s radio and television network eras; how historical contexts shape, and are shaped by, production and reception of broadcasting texts. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

Graduate

Graduate students also may take courses numbered 3000-4999 for credit, with approval of their committee.

COMM:5200 Introduction to Research and Teaching 1 s.h.

Introduction to communication studies as a field of scholarship; selection of research problems, major lines of research represented in the department, bibliographical tools for scholarship in the field; issues, practical tasks, and concerns relevant to effective college or university classroom teaching.

COMM:5223 Deliberation, Advocacy, and Civic Engagement 3 s.h.

Practices of public deliberation in governance and civil society; counterpublic sphere discourses.

COMM:5230 Introduction to Rhetoric and Discourse 3 s.h.

Introduction to major theories, principles, and practices of rhetorical theory, rhetorical criticism, and discourse analysis.

COMM:5241 Theories of Mass Communication 3 s.h.

Major concepts, theories, schools of thought in media studies, mass communication.

COMM:5299 Graduate Independent Study arr.

COMM:6210 Health Communication 3 s.h.

Theories, concepts, research associated with health communication; interpersonal and mass communication approaches. Same as CBH:6210.

COMM:6220 Health Communication Campaigns 3 s.h.

Intervention design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Same as CBH:6220.

COMM:6310 Classical Rhetoric 3 s.h.

Discourse in the ancient world. Same as CLSA:6310.

COMM:6319 Practical Criticism 3 s.h.

Basics of rhetorical criticism; rhetoric as practice or technique; how to read rhetorically; fundamentals (i.e., figuration and tropes, form and genre, voice, style, topos) and art of rhetorical critique.
COMM:6323 Rhetoric, Protest, and Social Movements 3 s.h.
Introductory study of relationships between rhetoric, protest, and social movements; theoretical and methodological debates framing and shaping how we understand protest and social movements rhetorically.

COMM:6335 Proseminar: Contemporary Rhetorical Studies 2-4 s.h.
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies.

COMM:6400 Current Issues in Rhetoric 3 s.h.
Ethical, social, or cultural issues; rhetoric's role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as RHET:6400.

COMM:6635 Crossing Borders Seminar 2-3 s.h.

COMM:6336 Seminar in Rhetorical Theory 1-4 s.h.
Topics in history and development of rhetorical theory; theory construction and application to critical practice.

COMM:6339 Seminar: Rhetoric and Culture 1-4 s.h.
Cultural theories, their utility in accounting for communication practices.

COMM:6340 Media and Modernity 3 s.h.
Survey of classic and contemporary theoretical texts on cultural, social, political, and human consequences of 19th- and 20th-century media.

COMM:6341 Topics in Mass Communication Scholarship 1-3 s.h.
Theory and research on problems in mass communication.

COMM:6342 Critical Television Studies 3 s.h.
Introduction to canonical and contemporary readings in critical television studies; primary questions and theories associated with textual, industrial, ethnographic, and integrated approaches to studying television; how technological, economic, and cultural changes have altered television and how it is studied.

COMM:6346 The Public Sphere 3 s.h.
Theories, intellectual history, critics, contemporary issues of the public sphere.

COMM:6350 Seminar: Mass Communication Scholarship 1-4 s.h.
Topics vary.

COMM:6351 Global Media Seminar 3 s.h.
Theories and processes of globalization and the cultural implications of media globalization; local responses to globalization processes with reference to questions of modernity and national/transnational identity.

COMM:6352 Seminar: Media Theory 3 s.h.
Topics vary.

COMM:6354 Media and Social Change in Latin America 3 s.h.
Cultural history and political economy of Latin American media; focus on U.S. influence and globalizing processes; media theory in Latin context; national and transnational audience formations.

COMM:6355 Cultural History of Radio 3 s.h.
Cultural history, sound aesthetics, political economy, and audience studies of U.S. radio broadcasting; radio as a contested medium of local, regional, and national culture.

COMM:6365 The Communication of Social Support 3 s.h.
Substantial knowledge base developed by scholars about types, processes, and mechanisms of social support used by humans to comfort one another; in-depth examination of theory and empirical research related to communication of social support; emphasis on types of support, verbal person-centered messages, and various strategies for social support; gender differences and social skills related to comforting; online supportive communication; development of detailed knowledge of this topic, critical assessment of extant research, and synthesis of class readings in written format.

COMM:6370 Quantitative Research Methods 3 s.h.
Primary methods for conducting quantitative research on interpersonal and group communication.

COMM:6371 Communication Theory 3 s.h.
Survey of primary theories of interpersonal, cultural, group, and organizational communication.

COMM:6372 Ethnographic Methods 3 s.h.
Qualitative methods used by ethnographers and interpretive researchers, including participant observation, field interviewing.

COMM:6373 Persuasion Theory and Research 3 s.h.
Traditional social scientific approaches to research and theory; development of a cultural perspective on persuasion.

COMM:6374 Relational Communication Theory and Research 3 s.h.
Communication in initiation, development, maintenance, breakdown, and repair of social and personal relationships.
COMM:6375 Theories of Culture 3 s.h.
Research and theory on face-to-face communication, from ethnography of communication perspective.

COMM:6376 Family Communication 3 s.h.
Theory and research on communication among and between family members (parents, children, marital partners, siblings); quantitative and qualitative research.

COMM:6380 Seminar: Dialogic Communication 3 s.h.
Dialogic approaches to communication, including Bakhtin and Buber.

COMM:6381 Seminar: Topics in Communication Research 3 s.h.
Topics vary.

COMM:6383 Seminar: Constructs, Communication, and Identity 3 s.h.
Concepts of identity and sociality in George Kelly's Personal Construct Theory; their connection to theories of rhetoric, especially Burke, and social community, especially Mead.

COMM:6387 Communication, Cognition, and Emotion 3 s.h.
Theoretical and empirical work that integrates communication, cognition, emotion; role of social cognition in communication, theories of emotion, types of emotional experiences; approaches to understanding emotion from perspectives in psychology, social cognition, communication; emotion-related issues such as influence of gender, effects of mood.

COMM:6399 Ph.D. Dissertation arr.

COMM:6660 Critical Ethnography 3 s.h.
How power relations constitute the work of ethnographic research; ethnography as a rhetorical form—how ethnographic inscription renders self, other, culture, and the world intelligible in ways that reinscribe and/or challenge dominant social relations; axes of power such as race, class, gender, sexuality, and nation within postcolonial, feminist, and antiracist approaches to ethnographic/autoethnographic theory and praxis; negotiating researcher privilege and epistemic violence; crisis of representation. Same as GWSS:6660.
Comparative Literature

Director, Division of World Languages, Literatures, and Cultures
  • Russell Ganim
Coordinator, Comparative Literature Program
  • Brian Gollnick

Undergraduate major: comparative literature (B.A.)
Undergraduate minor: comparative literature
Graduate degree: Ph.D. in comparative literature
Faculty: http://clas.uiowa.edu/dwllc/people
Web site: http://clas.uiowa.edu/dwllc/comparative-literature/ba-comparative-literature

The Comparative Literature Program addresses culture across regions and languages in relation to literature, social theory and philosophy, history, and other disciplines. Students draw resources from several University of Iowa arts and humanities units, including the Department of Cinematic Arts; the International Writing Program; the Department of English; and the Division of World Languages, Literatures, and Cultures. Study of comparative literature prepares students to engage with critical concepts of tradition, identity, and expression in an interdisciplinary and multilingual environment.

In addition to degree programs and an undergraduate minor, the Comparative Literature Program offers courses approved for the Literary, Visual, and Performing Arts areas of the College of Liberal Arts and Sciences General Education Program (p. 313).

The Comparative Literature Program is administered by the Division of World Languages, Literatures, and Cultures (p. 228).

Undergraduate Programs of Study
  • Major in comparative literature (Bachelor of Arts)
  • Minor in comparative literature

Bachelor of Arts

The Bachelor of Arts with a major in comparative literature requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in comparative literature is designed to promote cultural awareness, to increase speaking and writing skills, and to develop capacities for systematic reasoning about literature. The program offers two tracks: world languages and literature, and literature and arts. Students work with faculty advisors close to their track to develop coherent, individualized programs of study that reflect their interests and developing skills.

Students share a common set of basic courses in the literatures of widely divergent cultures and historical periods, in translation, and in interaction among the arts. All students are expected to gain an international perspective on literature and the arts and to become acquainted with interdisciplinary approaches to cultural study.

The successful pursuit of comparative literature requires study of at least one foreign cultural tradition, with appropriate emphasis on language, literature, and the arts in historical context. Familiarity with the literatures and cultures of other nations goes hand-in-hand with theoretical inquiry and reflection on basic issues, such as the nature and value of storytelling in literature and other arts—for instance, film, song, and painting. Translation between languages and among different arts represents another basic center of theory and practice. Individual courses of study may extend into other disciplines, including history, philosophy, linguistics, anthropology, law, and psychology.

In conjunction with an appropriate overall curriculum, the major in comparative literature can offer effective preparation for professional studies in fields such as law and business, or for employment in fields that value critical thinking and international understanding. It also offers excellent preparation for graduate work in the humanities.

Of the 33 s.h. required for the major, students must earn 21 s.h. in University of Iowa courses. They may count a maximum of 6 s.h. of course work from another major, minor, or certificate toward the major in comparative literature. Students majoring in comparative literature with a second major in cinema may count a maximum of 12 s.h. of credit toward both majors.

The major in comparative literature requires the following course work.

COMMON COURSES

All students take these (total of 18 s.h.):

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL:1025 Introduction to Critical Reading and Viewing</td>
<td>3 s.h.</td>
</tr>
<tr>

<td>3 s.h.</td>
</tr>
<tr>
<td>Comparative literature elective(s)</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Tracks

Students complete 15 s.h. of work in one of the following tracks.

LITERATURE AND ARTS TRACK

To complete this track, students take 12 s.h. of upper-level course work (courses numbered 3000 or above) in a single fine arts area. They may include one upper-level course in performance, practice, or production, with consent of the director of undergraduate studies.

Course work for the track also must include one 3 s.h. course that focuses explicitly on arts and literature in comparative perspective.

WORLD LANGUAGES AND LITERATURE TRACK

To complete this track, students take 9 s.h. of courses in one foreign literature, read in the original language. They may include one course in composition and conversation.
Language courses taken to complete the General Education Program do not count toward the major.

Students take an additional 6 s.h. of course work in comparative literature or a related area (e.g., English and American literature, film, linguistics, anthropology, philosophy, history) or in a second foreign literature.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Note: When requirements for the major in comparative literature include advanced work in a language, the student may need to acquire competence in the language by completing course work early in his or her plan of study. Such course work is not reflected in the following checkpoints.

**Before the fifth semester begins:** at least two courses in the major

**Before the seventh semester begins:** at least four more courses in the major (total of six) and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least three more courses in the major (total of nine)

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in comparative literature have the opportunity to graduate with honors in the major, which requires that they complete an honors thesis. Once a student has earned 75 s.h., he or she submits a written proposal for the thesis. The proposal must be approved by the faculty member who heads a student's honors thesis committee; the committee must be composed of at least two faculty members from the Comparative Literature Program. A student must complete the honors thesis over the next two consecutive semesters. For specific honors thesis requirements in the comparative literature major, contact the Comparative Literature Program office.

Honors students in comparative literature must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

**Minor**

The minor in comparative literature requires 15 s.h. of University of Iowa comparative literature courses, including at least 12 s.h. earned in courses numbered CL:1240 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Contact the Comparative Literature Program office for a list of approved courses.

**Graduate Program of Study**

- Doctor of Philosophy in comparative literature

Admission to the Doctor of Philosophy program in comparative literature is suspended; for degree requirements, see the 2010-11 General Catalog. For information about the Master of Fine Arts in comparative literature—translation, see Translation (p. 635) in the Catalog.

**Courses**

**Lower-Level Undergraduate**

**CL:1000 First-Year Seminar**

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

1 s.h.

**CL:1019 Media Matters**

Development of basic creative and critical skills in the arts and humanities by examining transformations across literature, poetry, photography, and video; media of expression; telling a story in words or images; the difference between looking at a painting, watching a movie, or reading a book; how the soundtrack of a film affects the story; how looking at a musical score differs from performing it; key to producing exciting creative work; full engagement with any given medium.

3 s.h.

**CL:1025 Introduction to Critical Reading and Viewing**

Critical approaches to literature and audiovisual media (film, video, interactive multimedia); selected texts, scholarly and critical responses to them. Requirements: completion of rhetoric General Education requirement. Same as CINE:1025.

3 s.h.

**CL:1205 Introduction to World Literature**

Ways of reading world literature; varied emphases (i.e., thematic, geographical; may include poetry, short fiction, drama, novels, and critical works on importance of translation. Requirements: completion of rhetoric General Education requirement.

3 s.h.

**CL:1240 Major Texts of World Literature, Antiquity to 1700**

Reading, analysis of major literary texts from writing's origins to 1700 in the Mediterranean, Asia, Africa; interrelationship of literature and history. GE: Literary, Visual, and Performing Arts.

3 s.h.

**CL:1241 Major Texts of World Literature, 1700 to the Present**

Reading and analysis of major literary texts from 18th century to present in chronological sequence; emphasis on interrelationship of literature and history. Requirements: completion of rhetoric requirement. GE: Literary, Visual, and Performing Arts.

3 s.h.

**CL:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar**

On Ukrainian History and Culture

3 s.h.
Cultural specificity of Ukraine as a large multicultural European country; vital background information for analysis of present-day political events; strategic location between East and West; centuries-long history and culture; all readings in English, no knowledge of Russian or Ukrainian required. Same as SLAV:1500.

**CL:1510** Ghost Stories and Tales of the Weird in Premodern Chinese Literature 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from 1st millennium B.C.E. through 19th century; readings analyzed against changing historical and religious contexts. Taught in English.

**CL:2100** Introduction to Criticism and Theory 3 s.h.
Critical approaches to the phenomenon of literature. Requirements: senior standing.

**CL:2531** Topics in Russian, East European, and Eurasian Studies 3 s.h.
Same as SLAV:2531.

**CL:2618** The Third Reich and Literature 3 s.h.
Nazi literature, literature of the Holocaust and the Opposition, exile literature, in English translation. Taught in English. GE: Values, Society, and Diversity. Same as GRMN:2618.

**CL:2660** Magic Mirrors, Self-Discovery, and Murder: Gender Trouble in German Literature 3-4 s.h.
German literature since Romantic era as an intensifying battle of wits over language in which gender has played a central role; a stark rift open where literary space offers much less hospitable conditions to women writers than to men; exploration of gendered fault line that runs through literary space; how women writers respond to and rewrite language that confronts them; readings from German literary texts (in English translation) from 1800 to present; emphasis on writings of women supplemented with key texts by major authors to which they respond and reread; knowledge of German not required. Same as GRMN:2660.

**CL:2700** Romani (Gypsy) Cultures of Eastern Europe 3 s.h.
Aspects of culture shared by most Roma (Gypsies) around the world; samples of folklore from Europe; impact of Roma on European literature, music, and culture; readings in English; no previous knowledge of Russian or Romani required. Same as SLAV:2232.

**Upper-Level Undergraduate and Graduate**

**CL:3101** The Iowa Review Reading Group in Contemporary Fiction 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

**CL:3102** The Iowa Review Reading Group in Contemporary Poetry 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

**CL:3103** The Iowa Review Reading Group in Contemporary Nonfiction 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

**CL:3104** Topics in International Literature and Culture 3 s.h.
Focus on significant texts or critical problems related to international literature and culture. Requirements: junior or senior standing. Recommendations: two or more courses in literary study.

**CL:3107** Literature and Anthropology 3 s.h.
Topics vary. Same as ENGL:3107, ANTH:3107.

**CL:3122** Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky's Crime and Punishment, The Demons, and short stories. Taught in English. Same as SLAV:3122.

**CL:3152** America in Other Words 1-3 s.h.
Current idea of America in its imaginary form: post-1989 world fiction, poetry, and film in original language, in translation, and via online translation resources. Same as IWP:3152.

**CL:3203** Modern Japanese Fiction in Translation 3 s.h.
Nineteenth century to present. Same as JPN:3203.

**CL:3204** Traditional Japanese Literature in Translation 3 s.h.
From seventh century to early modern times. Same as JPN:3202.

**CL:3206** Warriors Dreams 3 s.h.
Images of the warrior in traditional Japanese literature, from poetry of the eighth century to romances of the 19th century; readings in English. Same as JPN:3206.

**CL:3210** Comparative Arts 3 s.h.
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Same as IWP:3210.

**CL:3221** Twentieth-Century Czech Authors 3 s.h.
Twentieth-century prose literature of Czechoslovakia; philosophical works of Capek, Hrabal, Kundera, Klima, Havel. Taught in English. Same as SLAV:3221.
CL:3222 City as Text/Text as City 3 s.h.
Ways of reading cities: how built environments are shaped by history; how European cities differ from American or postcolonial cities; how to map, inhabit, remember, touch, smell, and experience a city; what is a global city; what is a sustainable city; how city spaces are felt in terms of gender, class, race, and ethnicity; models that architects, planners, politicians, and designers use to create habitable spaces; how to think of texts as cities (i.e., as spaces where people congregate, meet, live); research paper that combines class readings with independent research on a city of students’ choice.

CL:3223 Reading European Poetry 3 s.h.
Development of literary reading skills and critical imagination; increase awareness of the complexity of poetry translation, introduction to works of major canonical poets from several European traditions and languages.

CL:3262 Pan-Caribbean Literary Currents 3 s.h.
Twenty-first-century fiction, film, and cultural practices in the Hispanic, Francophone, and Anglophone Caribbean; cultural essays to complement literary readings; pan-Caribbean cultural practices—music and carnival celebrations. Taught in English. Requirements: for CL:3262 — junior or senior standing; for SPAN:3270 — two literature courses. Same as SPAN:3270.

Evolving practices explored through genre, period, movement, or topic, in conjunction with relevant models of analysis; readings in English. Requirements: rhetoric.

CL:3277 Literature and Art 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:3155.

CL:3302 Russian Literature in Translation 3 s.h.
1860-1917
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (Fathers and Sons), Tolstoy (Confession), Dostoevsky (The Idiot, The Brothers Karamazov), and Chekhov (plays). Same as SLAV:3202.

CL:3341 Chinese Literature: Poetry 3 s.h.
Readings in classical and modern Chinese poetry in English translation. Same as CHIN:3341.

CL:3379 Literature and Society 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3152.

CL:3396 Cuban American Literature and Culture 3 s.h.
Experiences of Cuban exiles in the United States; emergence of a literature and culture based on sense of dispossession, marginality, and memory of island past. Taught in English. Prerequisites: ENGL:1200. GE: Values, Society, and Diversity. Same as SPAN:3420.

CL:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3570.

CL:4100 Approaches to Critical Theory 3 s.h.
Introduction to major critical approaches in literary and cultural theory from a variety of traditions; studying existing models, students learn to think theoretically about language and society, and to orient themselves among existing theoretical discourses, interrogating the latter critically in terms of their own perspectives and theoretical needs; selections from influential works, shared class discussion, and presentations; no prior knowledge in the area of critical theory is presumed. Same as TRNS:4100.

CL:4201 The Tale of Genji 3 s.h.
Close reading in English of Murasaki Shikibu’s Tale of Genji; tale’s literary and social contexts, and later reception. Same as JPN:4201.

CL:4203 Modern Chinese Writers 3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Same as CHIN:4203.

CL:4204 Modern Chinese Writers 3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Same as CHIN:4203.

CL:4266 Topics in Literature and Theory 3 s.h.

CL:4368 Post-Colonial Literature in France 3 s.h.
Literatures and cultures of Arabo-French (Beur) and Afro-French immigrations. Prerequisites: FREN:3060 and FREN:3300. Same as FREN:4080.

CL:4648 Issues in Gender and Sexuality 3 s.h.
Significance of gender and/or sexuality to cinema, in general or in a period, genre, film type, or national cinema; theoretical approaches, including feminist and queer theory.

CL:4700 Latin American Studies Seminar 3 s.h.

CL:4900 Independent Study arr.

Graduate

CL:5201 Seminar in Chinese Fiction 3 s.h.
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Requirements: ability to read original texts. Same as CHIN:5201.

Requirements: two years of modern Chinese and one year of classical Chinese. Same as CHIN:5202.
CL:5219 The Iowa Review Teacher's Workshop: Contemporary Literature 1 s.h.
Collaboration with The Iowa Review on adapting materials for classroom use; participants help select poetry, fiction, and literary nonfiction from pages of recent issues and develop curricular materials for use in 9th-12th grade language arts courses on the basis of selected materials; teaching portfolio of selected curricular materials; intended for working teachers in secondary school language arts courses.

CL:5510 Comparative Stylistics 3 s.h.
Translation from English to French, including literary texts. Same as FREN:5020.

CL:6105 Introduction to Contemporary Literary Theory 3 s.h.
How major theories construct literary text; structuralist, semiotic, psychoanalytic, Marxist, reader response, Derridian criticism. Taught in English. Same as SPAN:6905.

CL:6323 Romantic Literature 3 s.h.
Same as ENGL:6400.

CL:7000 Thesis arr.

CL:7054 Seminar: Postcolonial Studies 3 s.h.
Same as ENGL:7800.

CL:7272 Seminar in Comparative Literature 3 s.h.
In-depth study of a comparative topic or a current theoretical debate in the discipline.

CL:7302 Seminar: Medieval Literature and Culture arr.
Same as ENGL:7100.

Same as ENGL:7200.

CL:7500 Independent Study arr.
Computer Science

Chair
• Alberto Segre

Undergraduate majors: computer science (B.A., B.S.); informatics (B.A., B.S.)
Undergraduate minors: computer science; informatics
Graduate degrees: M.C.S.; M.S. in computer science; Ph.D. in computer science
Faculty: https://www.cs.uiowa.edu/people
Web site: http://www.cs.uiowa.edu/

The Department of Computer Science offers undergraduate programs in computer science and in informatics as well as graduate degree programs in computer science. It also offers courses that students in all majors may use to satisfy the General Education Program (p. 313)’s Quantitative or Formal Reasoning requirement and a First-Year Seminar designed for entering undergraduate students.

Undergraduate Programs of Study

• Major in computer science (Bachelor of Arts, Bachelor of Science)
• Major in informatics (Bachelor of Arts, Bachelor of Science)
• Minor in computer science
• Minor in informatics

The majors in computer science and informatics provide students with the necessary training for employment in careers such as software development and information management. Both majors provide good preparation for graduate study in a variety of disciplines. The minor in each discipline helps students acquire fundamental knowledge of the use and applications of computers.

The department encourages students majoring in computer science or informatics to consider earning a second major, certificate, or minor.

Students may declare a major in computer science or in informatics when they are admitted to the University or afterward. All students begin the majors as Bachelor of Arts students but may switch to the Bachelor of Science programs at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate areas from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Informatics students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, others are available only with the Bachelor of Science. So a student's choice of cognate determines whether he or she will earn a B.A. or a B.S.

Both computer science and informatics majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with a computer science or informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science or informatics grade-point average.

Students should consult the Department of Computer Science web site or visit the department’s office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University’s chapter of the Association for Computing Machinery (ACM) and Women in Informatics and Computer Science (WICS).

ADVANCED PLACEMENT

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See the Advanced Placement link under Undergraduate Programs on the Department of Computer Science web site.

JOINT BACHELOR’S/MASTER’S DEGREE PROGRAMS

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the joint Bachelor of Arts/Master of Computer Science program or the joint Bachelor of Science/Master of Computer Science program. The joint programs allow students to earn both degrees in five years. See “Joint B.A./M.C.S. and B.S./M.C.S.” later in this section.

EARLY ADMISSION TO THE GRADUATE COLLEGE

Undergraduate computer science or informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

B.A. and B.S.: Computer Science

The Bachelor of Arts with a major in computer science requires a minimum of 120 s.h., including at least 41 s.h. of work for the major. The Bachelor of Science with a major in computer science requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). A cumulative g.p.a. of at least 2.00 is required for graduation.

The computer science major for the Bachelor of Arts is designed for students who would like to gain considerable knowledge in computer science and have flexibility in choosing electives. Students preparing for careers in the computing field are encouraged to supplement the base requirements with additional computer science courses. The program’s flexibility makes it suitable for combination with other majors.

The computer science major for the Bachelor of Science is more rigorous than the B.A. major; it is designed to
provide in-depth training for students who would like to acquire strength in math and science in order to enhance their skills and job prospects. It also is appropriate for those who plan to pursue graduate work in computer science, although it is not required for graduate study at most universities.

Course work for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Science students and Bachelor of Arts students considering a switch to the B.S. program should choose their General Education Program’s Natural Sciences courses carefully, since they may be able to use the same courses to satisfy the Bachelor of Science major’s natural science requirement; see “Natural Science Sequences (B.S.)” under “Additional Bachelor of Science Requirements” below.

The major in computer science (B.A. and B.S.) requires the following work.

**Common Requirements (B.A. and B.S.)**

**COMPUTER SCIENCE CORE**

All of these:

- CS:1210 Computer Science I: Fundamentals 4 s.h.
- CS:2210 Discrete Structures 3 s.h.
- CS:2230 Computer Science II: Data Structures 4 s.h.
- CS:2820 Object-Oriented Software Development
- CS:3330 Algorithms 3 s.h.
- CS:3820 Programming Language Concepts 3 s.h.

One of these:

- CS:2630 Computer Organization 3 s.h.
- ECE:3350 Computer Architecture and Organization 3 s.h.

One of these:

- CS:3620 Operating Systems 3 s.h.
- CS:3640 Introduction to Networks and Their Applications 3 s.h.
- CS:4640 Computer Security 3 s.h.

**MATHEMATICS CORE**

Calculus I—one of these:

- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
- MATH:1850 Calculus I 4 s.h.

Calculus II—one of these:

- MATH:1560 Engineering Mathematics II: Multivariable Calculus 4 s.h.
- MATH:1860 Calculus II 4 s.h.

**Additional Bachelor of Arts Requirements**

**MATHEMATICS CORE (B.A.)**

Linear algebra/probability and statistics—one of these:

- MATH:2700 Introduction to Linear Algebra 4 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3120 Probability and Statistics 4 s.h.

Students who take MATH:2550 Engineering Mathematics III: Matrix Algebra and MATH:2560 Engineering Mathematics IV: Differential Equations can use the courses to satisfy the linear algebra requirement.

**ADVANCED COMPUTER SCIENCE ELECTIVES (B.A.)**

Bachelor of Arts students must earn at least 3 s.h. in advanced computer science electives chosen from these.

A computer science course (prefix CS) numbered 3620-5899, except CS:3910 and CS:3980

A computer science course (prefix CS) numbered 5900 or above, with department approval

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement.

**Additional Bachelor of Science Requirements**

**MATHEMATICS CORE (B.S.)**

Linear algebra:

- MATH:2700 Introduction to Linear Algebra 4 s.h.

Students who take MATH:2550 Engineering Mathematics III: Matrix Algebra and MATH:2560 Engineering Mathematics IV: Differential Equations can use the courses to satisfy the linear algebra requirement.

Probability and statistics—one of these:

- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3120 Probability and Statistics 4 s.h.

Other probability and statistics courses (prefix STAT) with a calculus prerequisite may be approved by the department.

**COMPUTATION THEORY (B.S.)**

One of these:

- CS:4330 Theory of Computation 3 s.h.
- CS:4340 Limits of Computation 3 s.h.
- CS:4350 Logic in Computer Science 3 s.h.

**ADVANCED TECHNICAL ELECTIVES (B.S.)**

Bachelor of Science students must earn at least 12 s.h. (four courses) in advanced technical electives, as follows. At least 6 s.h. from these:

A computer science course (prefix CS) numbered 3620-5899, except CS:3910 and CS:3980

A computer science course (prefix CS) numbered 5900 or above, with department approval

And:
Advanced technical electives in computer science (prefix CS), or in other disciplines with department approval, to complete the required 12 s.h.

An approved list of courses in other departments that satisfy this requirement can be found on the Computer Science web site under Major Requirements of the Undergraduate Programs.

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced technical elective requirement.

**NATURAL SCIENCE SEQUENCES (B.S.)**

Bachelor of Science students take two or more courses in a sequence (totaling at least 6 s.h.) in a cognate area of natural science. The natural science sequence is intended to enhance the student’s perspective by providing a deeper understanding of the scientific method. Typically, it consists of a sequence of courses taken in the same science department. Students often choose courses that also fulfill the General Education Program (p. 313) Natural Sciences requirement. Some possible choices are listed below; the department chair may approve others.

CLEP/APP credit may be used to satisfy part or all of the natural science requirement only if the appropriate science department at the University of Iowa accepts the credit as equivalent to one or more of the specific courses listed below.

Astronomy:
- ASTR:1771 General Astronomy I 4 s.h.
- ASTR:1772 General Astronomy II 4 s.h.

Biology:
- BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.

Chemistry:
- CHEM:1110 Principles of Chemistry I 4 s.h.
- CHEM:1120 Principles of Chemistry II 4 s.h.

Earth and environmental sciences—this course:
- EES:1080 Introduction to Environmental Science 3-4 s.h.

And one of these:
- EES:1030 Introduction to Earth Science 3-4 s.h.
- EES:1050 Introduction to Geology 4 s.h.

Geographical and sustainability sciences:
- GEOG:1020 The Global Environment 3 s.h.
- GEOG:1050 Foundations of GIS 3 s.h.

Physics—one of these sequences:
- PHYS:1611-PHYS:1612 Introductory Physics I-II (recommended) 8 s.h.
- PHYS:1701-PHYS:1702 Physics I-II 8 s.h.

**INFORMATICS ELECTIVES**

**B.A. and B.S.: Informatics**

The Bachelor of Arts with a major in informatics requires a minimum of 120 s.h., including at least 43-50 s.h. of work for the major. The Bachelor of Science with a major in informatics requires a minimum of 120 s.h., including at least 55-59 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). A cumulative g.p.a. of at least 2.00 in required for graduation.

Required credit for the major depends on the choice of cognate area. Work for the major may not be taken pass/nonpass.

Both programs (B.A. and B.S.) combine foundational informatics course work with course work in a cognate discipline. The Bachelor of Arts major in informatics offers the cognate areas of art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, music, social informatics, and individualized cognates. The Bachelor of Science major in informatics offers the cognate areas of bioinformatics, medical informatics, and individualized cognates.

Course work for the major includes the informatics core, one (B.A.) or two (B.S.) electives, a statistics course, and a set of courses in their chosen cognate area. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

The informatics major (B.A. and B.S.) requires the following course work.

**INFORMATICS CORE**

The informatics core consists of six required computing courses (at least 19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

This course:
- CS:2110 Programming for Informatics 4 s.h.

One of these:
- CS:2420 Databases for Informatics 3 s.h.
- MSCI:3200 Database Management 3 s.h.

All of these:
- CS:1110 Introduction to Computer Science 3 s.h.
- CS:2520 Human-Computer Interaction 3 s.h.
- CS:2620 Networking and Security for Informatics 3 s.h.
- CS:3910 Informatics Project 3 s.h.

**B.A. and B.S.: Informatics**

The Bachelor of Arts with a major in informatics requires a minimum of 120 s.h., including at least 43-50 s.h. of work for the major. The Bachelor of Science with a major in informatics requires a minimum of 120 s.h., including at least 55-59 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). A cumulative g.p.a. of at least 2.00 in required for graduation.

Required credit for the major depends on the choice of cognate area. Work for the major may not be taken pass/nonpass.

Both programs (B.A. and B.S.) combine foundational informatics course work with course work in a cognate discipline. The Bachelor of Arts major in informatics offers the cognate areas of art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, music, social informatics, and individualized cognates. The Bachelor of Science major in informatics offers the cognate areas of bioinformatics, medical informatics, and individualized cognates.

Course work for the major includes the informatics core, one (B.A.) or two (B.S.) electives, a statistics course, and a set of courses in their chosen cognate area. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

The informatics major (B.A. and B.S.) requires the following course work.

**INFORMATICS CORE**

The informatics core consists of six required computing courses (at least 19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

This course:
- CS:2110 Programming for Informatics 4 s.h.

One of these:
- CS:2420 Databases for Informatics 3 s.h.
- MSCI:3200 Database Management 3 s.h.

All of these:
- CS:1110 Introduction to Computer Science 3 s.h.
- CS:2520 Human-Computer Interaction 3 s.h.
- CS:2620 Networking and Security for Informatics 3 s.h.
- CS:3910 Informatics Project 3 s.h.

**INFORMATICS ELECTIVES**

B.A. students must complete at least one course (3 s.h.) and B.S. students must complete at least two (6 s.h.) from a list of approved computing informatics electives. Course selection must be approved by an informatics advisor. In addition to the courses listed below, students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Management Sciences; consult an informatics faculty advisor for additional choices.

- MSCI:4220 Database Management and Web Services 3 s.h.

A computer science course (prefix CS) numbered 3000-4990, except CS:3910...
**STATISTICS COURSE**

B.A. and B.S. students must complete one introductory statistics course. Some cognates require a specific statistic course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area.

One of these:

- SOC:2160 Applied Statistics for Social Scientists 3 s.h.
- STAT:1020 Elementary Statistics and Inference 3 s.h.
- STAT:1030 Statistics for Business 4 s.h.
- STAT:2010 Statistical Methods and Computing 3 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3120 Probability and Statistics 4 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4143 Introduction to Statistical Methods 3 s.h.

**Bachelor of Arts Cognates**

Students must complete all requirements listed under one of the cognate areas below: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, music, social informatics, or an individualized cognate.

**ART**

The informatics major with the art cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses. Students learn about the design and maintenance of web services, applications of modern computerized artistic tools, and benefits and limitations of computers as a digital medium. They also gain insight into computerized tool design that is guided by knowledge of an artist's requirements. The art cognate may lead to careers in web development, technology coordination for artistic productions, development of digital artistic tools, and artistic or technical development for entertainment companies. Cognate courses are primarily in art history, design, elements of art, and photography.

Some courses listed below are open only to students majoring in art, so they are appropriate choices only for students with a double major in art and informatics. Non-art majors should work with an informatics faculty advisor to develop an individual set of art cognate courses.

All of these:

- ARTS:1510 Basic Drawing 3 s.h.
- ARTS:1520 Design Fundamentals 3 s.h.
- DSGN:2110 Graphic Design I 3 s.h.
- DSGN:3120 Typography 4 s.h.

One of these:

- ARTH:1010 Art and Visual Culture 3 s.h.
- ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives 3 s.h.
- ARTH:1030 Themes in Global Art 3 s.h.
- ARTH:1040 Arts of Africa 3 s.h.
- ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
- ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.

**ECONOMICS**

The informatics major with the economics cognate requires a minimum of 49 s.h. of work for the major, including 24 s.h. in cognate courses, which are primarily from economics. The economics cognate is intended for students interested in working with economic, financial, or demographic data. It may lead to careers in administration, business, or government or to graduate study in management or policy areas.

All of these:

- ECON:1100 Principles of Microeconomics 4 s.h.
- ECON:1200 Principles of Macroeconomics 4 s.h.
- ECON:3100 Intermediate Microeconomics 3 s.h.
- ECON:3150 Intermediate Macroeconomics 3 s.h.
- MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.

At least two of these, to complete 24 s.h. for the cognate:

- ECON:3250 American Economic History 3 s.h.
- ECON:3325 Personnel Economics 3 s.h.
- ECON:3335 Money, Banking, and Financial Markets 3 s.h.
- ECON:3345 Global Economics and Business 3 s.h.
- ECON:3350 Industry Analysis 3 s.h.
- ECON:3370 Household Finance 3 s.h.
- ECON:3620 Economic Growth and Development 3 s.h.
- ECON:3625 Environmental and Natural Resource Economics 3 s.h.
- ECON:3640 Regional and Urban Economics 3 s.h.
- ECON:3650 Policy Analysis 3 s.h.
- ECON:3690 Sports Economics 3 s.h.
ECON:3750 Transportation Economics 3 s.h.
ECON:3760 Health Economics 3 s.h.
ECON:3790 Antitrust Economics 3 s.h.
ECON:3800 Law and Economics 3 s.h.
ECON:3875 Topics in Policy Economics arr.
ECON:4090 Natural Resource Economics 3 s.h.
ECON:4110 International Economics 3 s.h.
ECON:4140 Labor Economics 3 s.h.
ECON:4160 Public Sector Economics 3 s.h.
ECON:4170 Monetary Economics 3 s.h.
ECON:4180 Industrial Organization 3 s.h.
ECON:4190 Mathematical Economics 3 s.h.
ECON:4700 Topics in Analytical Economics arr.
ECON:4800 Introduction to Econometrics 3 s.h.

GEOINFORMATICS
The informatics major with the geoinformatics cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses, which are primarily from geographical and sustainability sciences. The geoinformatics cognate is intended for students interested in geographic information systems (GIS) and spatial aspects of data. It may lead to careers in business, government, or public health or to graduate study in geography, public health, or policy areas.

All of these:
GEOG:1020 The Global Environment 3 s.h.
GEOG:1021 The Global Environment Lab 1 s.h.
GEOG:1050 Foundations of GIS 3 s.h.

Two of these:
GEOG:1010 Introduction to Human Geography 3 s.h.
GEOG:1070 Contemporary Environmental Issues 3 s.h.
GEOG:2110 Population Geography: Societies in Flux 3 s.h.
GEOG:2130 World Cities 3 s.h.
GEOG:2910 The Global Economy 3 s.h.

One of these:
GEOG:3520 GIS for Environmental Studies 3 s.h.
GEOG:3530 Mapping American Cities and Regions 3 s.h.
GEOG:4010 Field Methods in Physical Geography 3 s.h.
GEOG:4020 Field Methods: Mapping and Mobile Computing 3 s.h.

Two of these:
GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.
GEOG:3520 GIS for Environmental Studies 3 s.h.
GEOG:3530 Mapping American Cities and Regions 3 s.h.
GEOG:3920 Planning Livable Cities 3 s.h.
GEOG:4150 Health and Environment: GIS Applications 3 s.h.
GEOG:4500 Applications in Environmental Remote Sensing 4 s.h.
GEOG:4520 GIS for Environmental Studies: Applications 3 s.h.
GEOG:4570 Spatial Analysis and Location Models 3 s.h.
GEOG:4750 Environmental Impact Analysis 4 s.h.

HEALTH INFORMATICS
The informatics major with the health informatics cognate requires a minimum of 46 s.h. of work for the major, including 21 s.h. in cognate courses. The health informatics cognate is intended for students interested in applications of computing to health care, especially in public health. It may lead to careers in medical or health-related areas or to graduate and professional degree programs in public health, health informatics, and medical informatics. Cognate courses are selected primarily from public health, geography, and global health studies.

Once students complete the required courses in each of the four sets below, they must select additional courses from the sets to complete 21 s.h. of credit for the cognate.

One of these:
GHS:3720 Global Health Seminar 3 s.h.
MPH:2099 Fundamentals of Public Health 3 s.h.

At least two of these:
GEOG:3520 GIS for Environmental Studies 3 s.h.
GEOG:3530 Mapping American Cities and Regions 3 s.h.
GEOG:4150 Health and Environment: GIS Applications 3 s.h.
GEOG:4150 Health and Environment: GIS Applications 3 s.h.

At least two of these:
GHS:3850 Promoting Health Globally 3 s.h.
GHS:4160 History of Public Health 3 s.h.
GHS:4162 History of Global Health 3 s.h.
GHS:4340 Global Health and Global Food 3 s.h.
GHS:4600 Global Health and Human Rights 2-3 s.h.
INTD:3020 Equity Issues in the Health Sciences 3 s.h.
RHET:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.

One of these:
EPID:4400 Epidemiology I: Principles 3 s.h.
HMP:4000 Introduction to the U.S. Health Care System 3 s.h.

HUMAN-COMPUTER INTERACTION
The informatics major with the human-computer interaction cognate requires a minimum of 43 s.h. of work for the major, including at least 18 s.h. in cognate courses. The human-computer interaction cognate is intended for students interested in designing useful and usable technologies. It can lead to careers in interaction design, web design, implementation of user interfaces, and evaluation of human-computer interactions as well as provide valuable skills for graduate study in human-computer interaction.

The cognate's courses are drawn largely from psychology, sociology, and industrial engineering. Four required
courses include foundational aspects of psychology or sociology, an examination of basic human abilities and performance relevant to information technology use, and an introduction to research topics in human-computer interaction.

This course:

CS:4500 Research Methods in Human-Computer Interaction 3 s.h.

Either these three psychology courses:

PSY:1001 Elementary Psychology 3 s.h.
PSY:2601 Introduction to Cognitive Psychology 3 s.h.
PSY:2810 Research Methods in Psychology 4 s.h.

Or these three sociology courses:

SOC:1010 Introduction to Sociology 3-4 s.h.
SOC:2130 Sociological Theory 3 s.h.
SOC:2170 Research Methods 3 s.h.

At least two of these for the cognate:

IE:3400 Human Factors 3 s.h.
IE:3450 Ergonomics 3 s.h.
PSY:2401 Introduction to Developmental Science 3 s.h.
PSY:2501 Introduction to Social Psychology 3 s.h.
PSY:2701 Biological Psychology 4 s.h.
PSY:3040 Psychology of Learning 3 s.h.
PSY:3060 Visual Perception and Cognition 3 s.h.
SOC:2220 Principles of Social Psychology 3-4 s.h.
SOC:4210 Small Group Analysis 3 s.h.

Most courses in this list have prerequisites, which students must complete before they may register for the course. The psychology courses (prefix PSY) require PSY:1001 Elementary Psychology and/or PSY:2701 Biological Psychology as prerequisite(s); the sociology course SOC:4210 requires SOC:1010 Introduction to Sociology or SOC:1020 Social Problems as a prerequisite. Students should choose courses from this list carefully.

LINGUISTICS

The informatics major with the linguistics cognate requires a minimum of 46 s.h. of work for the major, including at least 21 s.h. in cognate courses. Linguistics, the scientific study of human languages, is directly related to psychology, anthropology, and computer science as well as to more applied fields such as second language acquisition or speech and hearing science. The cognate focuses on computational representations of syntax and semantics for processing natural language. Cognate courses are drawn primarily from linguistics.

All of these:

LING:3001 Introduction to Linguistics 3 s.h.
LING:3005 Articulatory and Acoustic Phonetics 3 s.h.
LING:3010 Syntactic Analysis 3 s.h.
LING:3020 Phonological Analysis 3 s.h.
LING:3080 History of the English Language 3 s.h.

One of these:

MUS:1200 Fundamentals of Music for Majors 3 s.h.
MUS:1201 Musicianship and Theory I 4 s.h.
MUS:1202 Musicianship and Theory II 4 s.h.
MUS:1211 Group Instruction in Piano I 1 s.h.
MUS:1212 Group Instruction in Piano II 1 s.h.
MUS:3780 Audio Recording I 3 s.h.
MUS:3781 Audio Recording II 3 s.h.

Students who plan to take MUS:1201 Musicianship and Theory I or MUS:1202 Musicianship and Theory II must take the music theory diagnostic examination, which is administered online during summer, before fall semester begins. See Musicianship and Theory Placement on the School of Music web site for more information. Advanced placement in School of Music courses does not reduce the number of semester hours required for the cognate.

One of these:

MUS:1310 World Music 3 s.h.
MUS:1720 History of Jazz 3 s.h.
MUS:2301 History of Music I 3 s.h.
MUS:2302 History of Music II 3 s.h.
MUS:2311 Music of Latin America and the Caribbean 3 s.h.

At least one of these, to complete 23 s.h. for the cognate:
CINE:1630 Introduction to Film Sound 3 s.h.
CINE:4841 Film/Video Production: Sound Design 4 s.h.
MUS:1007 Garage Band: The Basics 2 s.h.
MUS:1010 Recital Attendance for Non-Majors 1 s.h.
THTR:3260 Sound Design for the Theatre 3 s.h.

SOCIAL INFORMATICS

The informatics major with the social informatics cognate requires a minimum of 45 s.h. of work for the major, including 20 s.h. in cognate courses, all from sociology.

All of these:
SOC:1010 Introduction to Sociology 3-4 s.h.
SOC:2130 Sociological Theory 3 s.h.
SOC:2170 Research Methods 3 s.h.

At least 11 s.h. from these:
SOC:1020 Social Problems 3-4 s.h.
SOC:1310 Gender and Society 3-4 s.h.
SOC:1410 Introduction to Criminology 3 s.h.
SOC:2220 Principles of Social Psychology 3-4 s.h.
SOC:2222 Introduction to Social Work 4 s.h.
SOC:2426 Deviance and Control 3 s.h.
SOC:2810 Social Inequality 3 s.h.
SOC:3220 Sociology of Mental Illness 3 s.h.
SOC:3420 Juvenile Delinquency 3 s.h.
SOC:3450 Criminal Legal System 3 s.h.
SOC:3520 Political Sociology 3 s.h.
SOC:3525 Public Opinion 3 s.h.
SOC:3610 Organizations and Modern Society 3 s.h.
SOC:3710 The American Family 3 s.h.
SOC:3830 Race and Ethnicity 3 s.h.
SOC:3840 Community and Urban Sociology 3 s.h.
SOC:3850 Economy and Society 3 s.h.
SOC:4210 Small Group Analysis 3 s.h.
SOC:4400 Internship in Criminal Justice and Corrections 1-5 s.h.
SOC:4420 Criminal Punishment 3 s.h.
SOC:4460 Sociology of Law 3 s.h.
SOC:4540 Political Sociology and Social Movements 3 s.h.
SOC:4820 Sociology of Sexuality 3 s.h.
SOC:4900 Selected Topics in Sociology 3 s.h.
SOC:4910 Capstone Course in Sociology 3 s.h.
SOC:4920 Social Services Organization Internship arr.
SOC:4997 Honors Seminar 2 s.h.
SOC:4998 Honors Research arr.

INDIVIDUALIZED COGNATES

Students interested in developing individualized cognates may work with an informatics faculty advisor. Individualized cognates may be drawn primarily from one department or an appropriate mix of departments. For the Bachelor of Arts, individualized cognates require an approved set of cognate courses totaling 18-25 s.h.

Bachelor of Science Cognates

Students must complete all requirements listed under one of the cognate areas below: bioinformatics, medical informatics, or an individualized cognate.

BIOINFORMATICS

The informatics major with the bioinformatics cognate requires a minimum of 58 s.h. of work for the major, including at least 30 s.h. in cognate courses. The bioinformatics cognate is intended for students interested in applications of computing to the biological sciences. It may lead to careers in laboratory research, biotechnology, data management, and other related areas. It also may prepare students for graduate programs in bioinformatics or genetics. The cognate offers a choice of two areas: genome bioinformatics, or phylogenics and evolution. Cognate courses are drawn primarily from biology and chemistry.

All of these:
BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.
CHEM:2210 Organic Chemistry I 3 s.h.

Students also must complete required courses in one of the following two areas—genome bioinformatics or phylogenetics and evolution.

**Genome Bioinformatics Area**

Both of these:
BIOL:2512 Fundamental Genetics 4 s.h.
BIOL:3172 Evolution 4 s.h.

One of these:
BIOL:3314 Genomics 3 s.h.
BIOL:4213 Bioinformatics 4 s.h.
BIOL:5320 Computational Genomics 3 s.h.

**Phylogenetics and Evolution Area**

Both of these:
BIOL:2512 Fundamental Genetics 4 s.h.
BIOL:3172 Evolution 4 s.h.

One of these:
BIOL:2673 Ecology 4 s.h.
BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.
BIOL:4373 Molecular Phylogenetics 3 s.h.

MEDICAL INFORMATICS

The informatics major with the medical informatics cognate requires a minimum of 56 s.h. of work for the major, including at least 28 s.h. in cognate courses. The medical informatics cognate is intended for students interested in applications of computing to health care, especially in a clinical setting. It may lead to careers in medical or hospital settings, graduate programs in medical informatics, or professional degree programs in medicine, dentistry, nursing, or other allied health professions.
Cognate courses are drawn from biology, chemistry, health and human physiology, and public health.

Students who choose the medical informatics cognate must satisfy the major's statistics requirement with STAT:3510 Biostatistics.

All of these:

<table>

</tr>
</tbody>
</table>

INDIVIDUALIZED COGNATES

Individualized cognates may be drawn primarily from one department or an approved mix of departments. For the Bachelor of Science, individualized cognates require an approved set of cognate courses totaling 27-31 s.h. Students interested in developing individualized cognates should contact the Department of Computer Science for the name of an informatics faculty advisor.

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in computer science or informatics. Students work with their advisors on individual graduation plans.

Honors in the Major

Students majoring in computer science or informatics have the opportunity to graduate with honors in the major. To graduate with honors in either major, students must complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics and submit an acceptable honors thesis. Students are responsible for finding a faculty member willing to supervise their honors project. The faculty member must approve the proposed project and a timetable for the work. Students register for CS:3990 Honors in Computer Science or Informatics with the thesis supervisor's instructor number. See Honors on the department's web site for details.

Honors students majoring in computer science may count a maximum of 3 s.h. of CS:3990 Honors in Computer Science or Informatics toward the major's advanced computer science elective requirement (B.A.) or advanced technical elective requirement (B.S.). Students in the joint B.A./M.C.S. or B.S./M.C.S. program may register for 4-6 s.h. of CS:5990 Individualized Research or Programming Project instead of CS:3990; this will allow them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Minor: Computer Science

The minor in computer science requires a minimum of 17 s.h. in computer science, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students excused from courses required for the minor may substitute other computer science electives. The minor requires the following courses.

All of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1210</td>
<td>Computer Science I: Fundamentals</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>CS:2210</td>
<td>Discrete Structures</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>CS:2230</td>
<td>Computer Science II: Data Structures</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

At least one of these:

<table>
<thead>
<tr>

<tr>
<td>CS:2820</td>
<td>Object-Oriented Software Development</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>CS:3330</td>
<td>Algorithms</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students choose one additional computer science course (prefix CS) numbered 3200-5890, except CS:3910 Informatics Project and CS:3980 Topics in Computer Science I, to complete the 17 s.h. required for the minor.

Students who have completed ENGR:1300 Engineering Problem Solving II and ENGR:2730 Computers in Engineering are considered to have satisfied the minor's requirement for CS:1210 Computer Science I: Fundamentals.

Students who have completed ENGR:2730 Computers in Engineering and ECE:3330 Introduction to Software Design are considered to have satisfied the minor's requirement for CS:2820 Object-Oriented Software Development.

Students may declare the computer science minor on ISIS, and they may request an audit for the minor through ISIS.

Minor: Informatics

The minor in informatics requires a minimum of 16 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students earning a major in computer science or in management information systems (Tippie College of Business) may not earn the minor in informatics.

The informatics minor requires the following course work.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1110</td>
<td>Introduction to Computer Science</td>

</tbody>
</table>

One of these:
Applicants must submit an application for admission to the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination scores are not required. For more detailed information, see Prospective Students on the Department of Computer Science web site.

**Related Certificate: Large Data Analysis**

The Certificate in Large Data Analysis (p. 445) can be earned in addition to a B.A. or B.S. degree in computer science. The certificate focuses on handling, processing, and extracting information from large data sets. As computers have become faster and smaller, more applications, such as for weather forecasting; identifying people and trends utilizing Facebook or other social media; understanding the genome; and searching for disease causes and cures, as well as many other areas of study. The certificate is interdisciplinary, requiring courses from three areas of study—computer science, mathematics and statistics. Computer science teaches students how to handle large amounts of data and how to implement the algorithms to process them while statistics helps students to understand what can and cannot be legitimately inferred from the data. Mathematics focuses on algorithms and methods for connecting these important areas of data collection.

**Graduate Programs of Study**

- Master of Computer Science
- Master of Science in computer science
- Doctor of Philosophy in computer science

The Master of Computer Science (M.C.S.) is a course-based, nonresearch program for students who wish to enhance their careers with advanced knowledge of computer science. The Doctor of Philosophy program emphasizes preparation for research and teaching in academic settings or for research in private, industrial, or government laboratories. The Master of Science is granted only to students working toward the Ph.D. in computer science.

Admission decisions are based on prior academic performance, letters of reference, the applicant's statement about background and purpose, and for Ph.D. applicants, scores on the Graduate Record Examination (GRE) General Test. Students need not have a master's degree to begin the Ph.D. program or to be granted the doctoral degree. A student admitted without a master's degree may choose to be granted an M.S. or the M.C.S. while working toward the doctorate.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its web site. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements. For general information about the department, faculty, and research activities, contact the Department of Computer Science or visit its web site.

**Master of Computer Science**

The Master of Computer Science (M.C.S.) requires a minimum of 32 s.h. of graduate credit, including at least
24 s.h. earned at the University of Iowa. Basic M.C.S. requirements are as follows. Consult the Computer Science Graduate Handbook for detailed information about M.C.S. requirements and graduate study policies.

**FOUNDATIONS**
One of these:
- CS:4330 Theory of Computation 3 s.h.
- CS:4340 Limits of Computation 3 s.h.
- CS:5350 Design and Analysis of Algorithms 3 s.h.

**SYSTEMS**
One of these:
- CS:5610 High Performance Computer Architecture 3 s.h.
- CS:5620 Distributed Systems and Algorithms 3 s.h.
- CS:5810 Formal Methods in Software Engineering 3 s.h.
- CS:5850 Programming Language Foundations 3 s.h.

**COLLOQUIUM**
M.C.S. students must earn at least 2 s.h. in the following.
- CS:6000 Research Seminar: Colloquium Series (must enroll at least twice for 1 s.h. each) 2 s.h.

**ELECTIVES**
M.C.S. students complete the remaining 24 s.h. with a combination of computer science graduate courses, reading and project courses, and non-computer science graduate courses approved by their advisor. They must complete at least six computer science graduate courses (18 s.h.) numbered 4000 or above, which may not include the following courses:
- CS:5990 Individualized Research or Programming Project
- CS:6000 Research Seminar: Colloquium Series
- CS:6990 Readings for Research, and

The remaining 6 s.h. of electives may include technical or quantitative graduate courses outside of computer science, with the advisor’s approval. Students also may include up to 3 s.h. earned in independent study courses (CS:5990 Individualized Research or Programming Project or CS:6990 Readings for Research).

**Master of Science**
The Master of Science in computer science is offered only to students working toward the Ph.D. in computer science. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the M.C.S. program.

**Doctor of Philosophy**
The Doctor of Philosophy program in computer science requires a minimum of 72 s.h. of graduate credit, three examinations (qualifying, comprehensive, and final), and a written dissertation. Basic Ph.D. requirements are as follows. Consult the Computer Science Graduate Handbook for detailed information about Ph.D. requirements and graduate study policies.

**CORE REQUIREMENT**
Both of these:
- CS:4330 Theory of Computation 3 s.h.
- CS:5350 Design and Analysis of Algorithms 3 s.h.

**BREADTH**
Ph.D. students must complete at least three of the following courses, with at least one course selected from each area (9 s.h.).

Systems and software:
- CS:4640 Computer Security 3 s.h.
- CS:4980 Topics in Computer Science II (section approved by advisor) 3 s.h.
- CS:5610 High Performance Computer Architecture 3 s.h.

Networks and distributed systems:
- CS:4980 Topics in Computer Science II (section approved by advisor) 3 s.h.
- CS:5620 Distributed Systems and Algorithms 3 s.h.

Programming languages and compilers:
- CS:4980 Topics in Computer Science II (section approved by advisor) 3 s.h.
- CS:5810 Formal Methods in Software Engineering 3 s.h.
- CS:5850 Programming Language Foundations 3 s.h.

**PRACTICE**
Ph.D. students must complete at least one course (3 s.h.) with significant practical or implementation-oriented content. Each semester the department designates courses that satisfy this requirement. The following are typical selections.
- CS:4400 Database Systems 3 s.h.
- CS:4420 Artificial Intelligence 3 s.h.
- CS:4440 Web Mining 3 s.h.
- CS:4460 Introduction to Computational Linguistics 3 s.h.
- CS:4520 Computer Graphics 3 s.h.
- CS:4700 High Performance and Parallel Computing 3 s.h.
- CS:4720 Optimization Techniques 3 s.h.
- CS:4980 Topics in Computer Science II (section approved by advisor) 3 s.h.
- CS:5520 Advanced Computer Graphics 3 s.h.
- CS:5800 Fundamentals of Software Engineering 3 s.h.
- CS:5990 Individualized Research or Programming Project 3 s.h.

**COGNATE AREA**
Ph.D. students are required to select, in consultation with their advisor, graduate course work totaling 9 s.h. that constitutes coherent coverage of an external cognate area; the courses need not be offered by the same department. Choices include, but are not limited to, mathematics, statistics, genetics, biology, and engineering disciplines.
COLLOQUIUM
Ph.D. students must earn at least 4 s.h. in the following.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:6000 Research Seminar: Colloquium Series</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

(must enroll at least four times for 1 s.h. each)

ELECTIVES
Ph.D. students fill their remaining semester hours with a selection of computer science graduate courses numbered 4000 or above and graduate courses outside of computer science, approved by their advisor.

QUALIFYING EXAM
Ph.D. students are required to pass a qualifying examination by the end of their second year of graduate study. Once students select a topic in consultation with their advisor, they are assigned a three-member faculty examination panel by the department. Then they prepare a written prospectus for review by the committee, followed by an oral presentation.

COMPREHENSIVE EXAM
The comprehensive examination is an evaluation of a student's mastery of a research area near completion of formal course work, and before preparation of the dissertation. The exam may be written, oral, or both, at the department's discretion, and is administered by a faculty committee. The comprehensive exam typically should be completed by the end of a student's third year and no later than the end of the fourth year in the Ph.D. program.

DISSERTATION
Each Ph.D. student must write a dissertation, a significant, original contribution to the field of computer science. Once students obtain some preliminary results and can identify and describe the boundaries of their dissertation, they prepare a written proposal for their committee's review. The dissertation must be prepared in accordance with the format specified in the Graduate College Thesis Manual.

FINAL ORAL EXAMINATION
Once the dissertation is complete and has been reviewed by the student's committee, a final oral examination is administered on campus. This examination must take place no sooner than the semester following successful completion of the comprehensive examination and no later than five years after completion of the comprehensive exam.

Courses
Lower-Level Undergraduate

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1000 First-Year Seminar</td>
<td>1 s.h.</td>
</tr>
</tbody>
</table>

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1001 CLAS Master Class</td>
<td>1-3 s.h.</td>
</tr>
</tbody>
</table>

Exploration of a single topic in a series of lectures by faculty presenting divergent perspectives; illuminates intellectual adventure inherent in liberal arts and sciences; encourages discovery of majors and other areas of study within the College of Liberal Arts and Sciences. Same as CLAS:1001, RELS:1010, THTR:1001, CSD:1001, PHIL:1001, ENGL:1001, BIOC:1001, ARTS:1001.

<table>
<thead>
<tr>

Mathematical methods used in computer science, including logic, proof techniques (with induction), functions, relations, algorithm analysis, recurrence relations, counting methods, combinatorics, graphs, trees. Corequisites: CS:1210, if not taken as a prerequisite. Recommendations: calculus I.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:2230 Computer Science II: Data Structures</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>
Design, implementation, and application of data structures (e.g., linked lists, stacks, queues, hash tables, trees); complexity analysis; recursion; introduction to object-oriented programming concepts; abstract data types and their realization using generic interfaces and classes; software design patterns (e.g., iterators, comparators). Prerequisites: CS:1210 or ENGR:2730. Corequisites: CS:2210, if not taken as a prerequisite.

**CS:2420 Databases for Informatics** 3 s.h.
Design and implementation of relational database systems: introduction to the relational model, database design, database normalization, use of database query and manipulation languages such as SQL. Prerequisites: CS:2110.

**CS:2520 Human-Computer Interaction** 3 s.h.
Basic theories, principles, and guidelines for design and evaluation of human-computer interactions; design methodologies (e.g., participatory design, low- and high-fidelity prototyping), user interface technologies (e.g., input and output devices, interaction styles), quantitative and qualitative evaluation of user interfaces (e.g., expert reviews, usability testing). Corequisites: CS:2110, if not taken as a prerequisite.

**CS:2620 Networking and Security for Informatics** 3 s.h.
Introduction to computer networking, overview of network organization and management; basic understanding of encryption and network security; practical experience in network programming. Prerequisites: CS:2110.

**CS:2630 Computer Organization** 3 s.h.
Computer building blocks: representing data, computer arithmetic, instruction sets, assembly language, digital logic, control units, ALU design, register operations, memory organization, IO. Prerequisites: CS:2230.

**CS:2820 Object-Oriented Software Development** 4 s.h.
Object-oriented design and software development methodology; team programming projects; GUIs, event handling, network programming, concurrency, data representation, IO programming. Prerequisites: CS:2230.

**Upper-Level Undergraduate and Graduate**

**CS:3110 Introduction to Informatics** 3 s.h.
Fundamentals of computer science: algorithms, complexity, relational databases, systems concepts, programming in Python. Requirements: CS:1110 or graduate standing. Same as IGPI:3110.

**CS:3210 Programming Languages and Tools** arr.
Varied programming languages and tools. Prerequisites: CS:1210 or CS:2110 or CS:3110.

**CS:3330 Algorithms** 3 s.h.
Algorithm design techniques (e.g., greedy algorithms, divide-and-conquer, dynamic programming, randomization); fundamental algorithms (e.g., basic graph algorithms); techniques for efficiency analysis; computational intractability and NP-completeness. Prerequisites: CS:2230 and (MATH:1550 or MATH:1850).

**CS:3620 Operating Systems** 3 s.h.
Introduction to modern operating systems, including device control, memory management and addressing, process scheduling, interprocess communication, interrupts, synchronization, security. Prerequisites: CS:2630.

**CS:3640 Introduction to Networks and Their Applications** 3 s.h.
Introduction to networks and the development of network applications; basic concepts of network communication common to applications such as simulation and web services. Prerequisites: CS:2630.

**CS:3700 Elementary Numerical Analysis** 3 s.h.
Computer arithmetic, root finding, polynomial approximation, numerical integration, systems of linear equations, ordinary differential equations; use of higher-level computer language such as Matlab, Maple, Mathematica. Prerequisites: MATH:1560 or MATH:1860. Same as MATH:3800.

**CS:3820 Programming Language Concepts** 3 s.h.
Imperative, functional, and logical programming languages, and differences between them; syntax specification, types, control structures, recursion, data abstraction. Prerequisites: CS:2230 and (CS:2630 or CS:2820 or ECE:3330).

**CS:3910 Informatics Project** 3 s.h.
Experience designing, implementing, documenting, and testing a system using appropriate software tools (e.g., a project working with an information management tool consisting of a database system with a Web-based front end); typically done in small groups; capstone project for informatics majors. Prerequisites: CS:2420 and CS:2520 and CS:2620.

**CS:3980 Topics in Computer Science I** 3 s.h.
Complement to material in other courses. Prerequisites: CS:1210 or CS:2110 or CS:3110.

**CS:3990 Honors in Computer Science or Informatics** arr.
Individual projects. Requirements: computer science or informatics major, and honors standing.

**CS:4330 Theory of Computation** 3 s.h.
Finite automata; regular sets and expressions; context-free and context-sensitive grammars, their properties; push-down automata; standard, universal, and linear-bounded Turing machines; relationships between formal languages and automata; undecidability and its consequences. Prerequisites: CS:3330.
CS:4340 Limits of Computation 3 s.h.
Turing machines, undecidability and complexity; reductions, Cook’s theorem and NP-completeness, approximation algorithms and randomized algorithms. Prerequisites: CS:3330.

CS:4350 Logic in Computer Science 3 s.h.
Applications of symbolic logic in computer science; symbolic logic as a powerful tool for modeling computation and computational devices and reasoning formally about them; introduction to several logics (i.e., propositional, predicate, temporal, modal) differing in their expressive power and focus, their uses in computer science; how to represent knowledge in these logics, what represents a valid argument, and how to prove or disprove, possibly automatically, the validity of a logical statement. Prerequisites: CS:2210. Recommendations: computer science, math, or engineering major.

CS:4400 Database Systems 3 s.h.
Introduction to database systems including querying using SQL, design using ER diagrams, developing relational databases, programming web applications using PHP or JDBC. Prerequisites: CS:2230 and CS:3330.

CS:4420 Artificial Intelligence 3 s.h.
Introduction to artificial intelligence covering problem-solving methods, heuristic search, knowledge representation, automated reasoning, planning, game playing, machine learning, and neural networks. Prerequisites: CS:3330.

CS:4440 Web Mining 3 s.h.
Core methods underlying development of applications on the Web; examples of relevant applications, including those pertaining to information retrieval, summarization of Web documents, and identifying social networks. Prerequisites: CS:2230 and CS:2820. Recommendations: CS:4400 strongly recommended.

CS:4460 Introduction to Computational Linguistics 3 s.h.
Introduction to computational linguistics; focus on theory and practice of natural language processing and syntactic and semantic analysis. Same as LING:4030.

CS:4500 Research Methods in Human-Computer Interaction 3 s.h.
Survey of recent research in the field of human-computer interaction; research methods and current readings. Prerequisites: CS:2520.

CS:4520 Computer Graphics 3 s.h.
Introduction to computer graphics algorithms and techniques, with emphasis on interactive 3-D graphics; coordinate systems and frames, modeling and viewing transformations, rendering, shading, lighting, texture, bump, environment mapping, animation, ray tracing, radiosity. Prerequisites: CS:3330 and MATH:2700.

CS:4640 Computer Security 3 s.h.
Mechanism versus policy; authentication, access control, security domains; perimeter security, defense in depth; cryptographic protocols; key management and distribution; security assessment. Prerequisites: CS:2630.

CS:4700 High Performance and Parallel Computing 3 s.h.
Parallel scientific computing methods such as parallel algorithms for dense and sparse matrices; implementation using libraries such as MPI; current topics such as grid computing. Prerequisites: CS:2630 and MATH:2700. Same as MATH:4860.

CS:4720 Optimization Techniques 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: MATH:2700 and MATH:2850 and MATH:3800. Same as MATH:4820.

CS:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of Big Data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: CS:1210 and MATH:2700 and (STAT:2010 or STAT:2020). Same as MATH:4740, STAT:4740.

CS:4980 Topics in Computer Science II 3 s.h.
Complements material in other courses. Prerequisites: CS:2110 or CS:2230 or CS:2820 or CS:3110.

Graduate

Competence and exposure to computer science are not only useful, they often are prerequisite to advanced study and research in many disciplines. For most graduate students from other disciplines, an appropriate first course is CS:3110 Introduction to Informatics.

CS:5350 Design and Analysis of Algorithms 3 s.h.
Review of design and analysis techniques; advanced data structures (binomial and Fibonacci heaps, disjoint sets); graph algorithms (network flows, matching, min-cut); NP-completeness, randomization and approximation algorithms; special topics (string matching, computational geometry, number theoretic algorithms). Prerequisites: CS:3330 or CS:4340.

CS:5520 Advanced Computer Graphics 3 s.h.
Topics such as global illumination and rendering; volume rendering; animation; curves and surfaces, advanced modeling and mapping techniques; graphics hardware; real-time graphics for virtual environments. Prerequisites: CS:4520.

CS:5610 High Performance Computer Architecture 3 s.h.
Problems involved in designing and analyzing current machine architectures using hardware description language (HDL) simulation and analysis, hierarchical memory design, pipeline processing, vector machines, numerical applications, multiprocessor architectures and parallel algorithm design techniques; evaluation methods to determine relationship between computer design and design goals. Prerequisites: CS:3620 or ECE:3350. Same as ECE:5320.
CS:5620 Distributed Systems and Algorithms
3 s.h.
Models of distributed systems, program correctness—safety and liveness properties, causality, logical and vector clocks, mutual exclusion, distributed snapshot, leader election, distributed algorithms for graph-theoretic problems, fault-tolerance—masking versus nonmasking types, checkpointing, stabilization, consensus—byzantine generals problem, fault-tolerant broadcast and multicast, management of replicated data. Prerequisites: CS:3330 and CS:3620. Requirements: some interest in networking.

CS:5710 Numerical Analysis: Nonlinear Equations and Approximation Theory
4 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: (MATH:2700 and MATH:2850) or MATH:3550. Requirements: knowledge of computer programming. Same as MATH:5800.

CS:5720 Numerical Analysis: Differential Equations and Linear Algebra
4 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: ((MATH:2700 and MATH:2850) or (MATH:3550)) and MATH:3600. Requirements: knowledge of computer programming. Same as MATH:5810.

CS:5800 Fundamentals of Software Engineering
3 s.h.
Problem analysis, requirements definition, specification, design, implementation, testing/maintenance, integration, project management; human factors; management, technical communication; design methodologies; software validation, verification; group project experience. Prerequisites: CS:2820 or ECE:3330. Same as ECE:5800.

CS:5810 Formal Methods in Software Engineering
3 s.h.
Models, methods, and their application in all phases of software engineering process; specification methods; verification of consistency, completeness of specifications; verification using tools. Prerequisites: CS:2820 or ECE:3330. Recommendations: CS:4350. Same as ECE:5810.

CS:5820 Software Engineering Languages and Tools
3 s.h.
Modern agile software development practices for cloud and web-based applications, using state-of-the-art software engineering languages, tools, and technologies; agile software development practices, software-as-a-service (SAAS), and the Ruby on Rails Development Framework. Requirements: ECE:5800 or CS:5800; or graduate standing with solid understanding of object-oriented design and programming, and facility with at least one object-oriented programming language. Same as ECE:5820.

CS:5830 Software Engineering Project
3 s.h.
Team software development project using concepts and methodologies learned in earlier software engineering classes; practical aspects of large-scale software development. Prerequisites: ECE:5800 and ECE:5820. Same as ECE:5830.

CS:5850 Programming Language Foundations
3 s.h.
Introduction to formal foundations of programming languages using a variety of models, including attribute grammars, operational, axiomatic, denotational, and algebraic techniques; proofs of program equivalence, correctness, termination. Prerequisites: CS:3330 and CS:3820.

CS:5980 Topics in Computer Science III
arr.
Complements material in other courses.

CS:5990 Individualized Research or Programming Project
arr.
Individualized research and/or programming projects in computer science, guided by a faculty member.

CS:6000 Research Seminar: Colloquium Series
1 s.h.
Graduate colloquium. Requirements: graduate standing in computer science.

CS:6421 Knowledge Discovery
3 s.h.
Knowledge discovery process, including data reduction, cleansing, transformation; advanced modeling techniques from classification, prediction, clustering, association; evaluation and integration. Same as MSCI:6421.

CS:6990 Readings for Research
arr.
Requirements: Ph.D. standing in research.

CS:7990 Research for Dissertation
arr.
Requirements: Ph.D. candidacy (postcomprehensive exam) in computer science.
Creative Writing (Iowa Writers' Workshop)

**Director**
- Lan Samantha Chang

**Graduate degree:** M.F.A. in English  
**Faculty:** http://writersworkshop.uiowa.edu/people  
**Web site:** http://writersworkshop.uiowa.edu/

The Creative Writing Program (Iowa Writers' Workshop) is a world-renowned graduate program for fiction writers and poets. It was the first creative writing program in the United States to offer a degree, and it became a model for many contemporary writing programs. In addition to its Master of Fine Arts program, it also offers writing courses for undergraduates.

Creative writing classes at the University of Iowa began in the 1890s, and in 1922 the University became the nation's first institution of higher education to accept creative work as theses for advanced degrees. The Iowa Writers' Workshop began in 1936, drawing distinguished fiction writers and poets who would lecture and stay to discuss students' work; some came for a full year of teaching.

Today the program's faculty and alumni include nationally and internationally prominent poets, novelists, and short story writers; many have won Pulitzer Prizes, National Book Awards, and other major literary honors. In 2003 the Iowa Writers' Workshop received a National Humanities Medal from the National Endowment for the Humanities—the first awarded to a university and only the second given to an institution rather than an individual.

To learn more about the Creative Writing Program's history and faculty, visit the Iowa Writers' Workshop web site.

**Graduate Program of Study**
- Master of Fine Arts in English

The Program in Creative Writing offers a master's degree program. However, unusually well-qualified Ph.D. students in the Department of English may obtain permission to submit a creative dissertation for the doctoral degree; the Program in Creative Writing assumes responsibility for granting permission for the option of the creative dissertation and for approving the dissertation once it is completed. Contact the director of graduate studies in the Department of English for more information.

**Master of Fine Arts**

The Master of Fine Arts degree in English (creative writing) requires 48 s.h. of graduate credit taken over four semesters in residence at the University of Iowa. Students specialize in fiction or poetry.

The program is flexible and individualized. Approximately half of the credit required for the degree is earned in writing courses; the rest may be earned in other graduate courses. Up to 18 s.h. of graduate transfer credit may be counted toward the degree, but transfer credit does not change the residency requirement.

Students must enroll in CW:7870 Fiction Workshop or CW:7875 Poetry Workshop during each semester of residence in the program. In each course, groups of 10-15 students read and critique each other's work.

The program's seminars provide students with a thorough knowledge of their chosen literary form and related aspects of craft. Seminars include CW:7810 Form of Fiction, CW:7820 Form of Poetry, CW:7830 Seminar: Problems in Modern Fiction, and CW:7840 Seminar: Problems in Modern Poetry. Each focuses on a single aspect of modern poetry or fiction, such as a single writer's work or a body of work with a common theme or purpose.

In addition to taking Creative Writing Program courses, many M.F.A. students choose courses offered by other University of Iowa departments and programs, such as the interdisciplinary Center for the Book (p. 929) (Graduate College), the Department of Theatre Arts (p. 625), the Comparative Literature (p. 193) Program, and the Department of English (p. 244).

During the second year of the program, each student must take the M.F.A. examination, an essay exam that may be written outside of the classroom. Students submit their graduate thesis during the last semester, CW:7895 M.F.A. Thesis; the thesis is a fiction or poetry manuscript of substantial length.

**Admission**

Applicants to the Creative Writing Program (Iowa Writers' Workshop) must meet the program's admission requirements as well as those of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

A creative writing manuscript is the most important element of the application for admission to the workshop.

Submissions for poetry should include 10-12 poems. Submissions for fiction should include two or three short stories or a section of a novel, or both, usually 30-80 double-spaced pages (may not exceed 100 double-spaced pages).

Other application materials include a personal statement, official transcripts from all universities and colleges attended, the graduate application form, three letters of recommendation, an application for graduate awards, and an application to the Graduate College. Graduate Record Exam (GRE) General Test scores are optional, but they may make applicants more competitive for a wider range of financial assistance.

For detailed information on application materials and procedures, see How to Apply on the Iowa Writers' Workshop web site.

**Financial Support**

Financial assistance is available to Creative Writing Program students in the form of teaching assistantships, research assistants, and fellowships. See Financial Aid on the Iowa Writers' Workshop web site.

**Creative Writing Courses**

The Creative Writing Program offers courses for undergraduates as well as graduate students. Enrollment in some graduate-level courses requires admission to the M.F.A. program. See "Courses" in the Department of English (p. 244) section of the Catalog for course descriptions and prerequisites to enrollment.

Critical Cultural Competence

Chair, School of Social Work
• Sara Sanders

Coordinator, Critical Cultural Competence
• Motier Haskins

Undergraduate certificate: critical cultural competence
Web site: http://clas.uiowa.edu/socialwork/undergraduate-program/certificate-critical-cultural-competence

The Certificate in Critical Cultural Competence is administered by the School of Social Work (p. 572).

Undergraduate Program of Study

• Certificate in Critical Cultural Competence

The certificate program helps students develop an appreciation for their own cultural identities. It also helps them become critically self-reflective in their orientation to differences in other people’s cultural identities as defined by matters such as race, ethnicity, gender, class, and sexual orientation.

Certificate

The Certificate in Critical Cultural Competence requires 18 s.h. of course work. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Ideally, students begin the certificate during their second year of undergraduate study.

Certificate students build the knowledge, skills, and attitudes they will need in order to increase their effectiveness in relating to others across cultural differences and in domestic and international environments that are increasingly diverse.

Students who complete the certificate program develop:
• greater appreciation of cultural differences;
• increased ability to interact with individuals of diverse backgrounds;
• a philosophy of treating people fairly, equitably, and thoughtfully;
• critical self-reflection and awareness of their own culture;
• ability to assess and understand culture-related privilege and disprivilege; and
• concern with issues of power and privilege, and social justice.

The Certificate in Critical Cultural Competence requires the following course work.

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

Students begin the certificate with CCCC:2220 Foundations of Critical Cultural Competence, which is offered spring semesters and is prerequisite to the course work that follows. Students complete the certificate’s requirements with the capstone course, CCCC:4490 Integrative Seminar in Critical Cultural Competence, which is offered spring semesters.

In collaboration with the certificate program's coordinator, students establish study plans while completing the foundation course. The coordinator works with the academic advisor in the student's major to ensure that the study plan complements the student’s academic program and career interests. The program coordinator approves the final study plan, recommends the sequence in which course work should be taken, schedules required courses, and keeps a record of each student's approved program and progress.

For more information, contact the School of Social Work.

Capstone course; application of knowledge to one’s areas of study; community settings where cultural competence is required; challenges and benefits of behaving in culturally competent ways in varied contexts; review and critique of educational experiences in the certificate program; development of skills in community education related to cultural competence; group project to benefit the University and/or community; development of a plan to integrate critical cultural competence into careers. Requirements: completion of other required certificate courses.
Dance

Director, Division of Performing Arts
• Alan MacVey

Chair, Department of Dance
• George de la Peña

Undergraduate major: dance (B.A., B.F.A.)
Undergraduate minor: dance
Graduate degree: M.F.A. in dance
Faculty: http://dance.uiowa.edu/people
Web site: http://dance.uiowa.edu/

The Department of Dance offers degree programs for undergraduates and graduate students. The undergraduate major in dance provides a liberal arts and sciences education and thorough preparation for careers in professional dance, choreography, and education as well as preparation for graduate studies.

The department offers as many as 14 concerts every year, providing dance students with numerous opportunities for performance and choreography. Each year the University of Iowa Dance Company performs Dance Gala on campus, and since 1986, the department’s touring company, Dancers in Company, has given students an opportunity to perform in Iowa and surrounding states.

Dance faculty members regularly present their choreography in national and international venues, giving University student performers the opportunity to further develop their performance skills. Periodic master classes with noted guest teachers, choreographers, and touring companies add diversity to the dance experience.

The department is one of three academic units in the Division of Performing Arts (p. 227). Students have the opportunity to earn a major in dance and a second major in one of the other units within the division—music or theatre arts. It also participates in offering the division’s Certificate in Performing Arts Entrepreneurship (p. 498).

Undergraduate Programs of Study

• Major in dance (Bachelor of Arts, Bachelor of Fine Arts)
• Minor in dance

Students must audition on campus in order to be admitted to a degree program or the minor in dance, as well as for placement in advanced dance classes.

Bachelor of Arts

The Bachelor of Arts with a major in dance requires a minimum of 120 s.h., including 56 s.h. of work for the major (50 s.h. in dance and 3 s.h. in a required anatomy course). No more than 61 s.h. in Department of Dance courses may be counted toward the 120 s.h. required for the B.A. At least half of all semester hours in the major must be earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The B.A. program is designed for students who want to acquire a strong liberal arts and sciences background while pursuing a comprehensive undergraduate dance education. The dance major for the Bachelor of Arts stresses performance and choreography as well as dance theory courses, including dance history, dance kinesiology, and dance production.

Students must audition on campus, during the semester before they enter the University, in order to be admitted to a degree program in dance. They must audition for placement in dance classes before they register for classes. Nonmajors may register only for beginning and continuing levels of ballet and modern dance, but they may register for all levels of jazz and Afro-Cuban dance. Contact the Department of Dance, its undergraduate program coordinator, or the University’s Office of Admissions for additional information.

All B.A. students must complete HHP:1100 Human Anatomy (3 s.h.). The required 50 s.h. in Department of Dance courses must include two semesters of DANC:3530 Major Ballet II or DANC:3540 Major Modern Dance II with a grade of B-minus or higher. Two semesters of DANC:4040 Major Modern Dance III, DANC:4030 Major Ballet III, or DANC:4540 Major Modern Dance IV also satisfy this requirement.

The Bachelor of Arts major in dance requires the following course work.

CORE COURSES

B.A. students should register for cross-listed core courses under the Department of Dance course number (prefix DANC) in order for those courses to count toward the 50 s.h. in Department of Dance courses required for the major.

All of these:
DANC:1060 Introduction to Dance Studies 1 s.h.
DANC:1080 Music Essentials for Dance 2 s.h.
DANC:1090 Dance Production 3 s.h.
DANC:2060/DPA:2060 Dance and Society in Global Contexts 3 s.h.
DANC:2220 Production Run Crew (2 s.h. required) 2 s.h.
DANC:3060 Dance History 3 s.h.
DANC:3070/THTR:3070 Dance Kinesiology 3 s.h.
HHP:1100 Human Anatomy 3 s.h.

STUDIO COURSES

All of these:
DANC:2050 Improvisation I 2 s.h.
DANC:3150 Choreography I 2 s.h.
DANC:3250 Choreography II 2 s.h.

PERFORMANCE COURSES

A total of 2 s.h. from these:
DANC:3885 Repertory Dance Company 0-4 s.h.
DANC:4880 Dance Performance 0-3 s.h.
Consult advisor for other courses that count toward this requirement

DANCE TECHNIQUE COURSES

Students must complete 20 s.h. from the following courses. They must include 6 s.h. of ballet, 6 s.h. of modern dance, and two semesters of one of these:
DANC:3530, DANC:3540, DANC:4030, DANC:4040, or DANC:4540. All courses may be repeated.

- DANC:2020 Intermediate Jazz: 2 s.h.
- DANC:2030 Intermediate Ballet: 2 s.h.
- DANC:2040 Intermediate Modern: 2 s.h.
- DANC:3030 Major Ballet I: 1-3 s.h.
- DANC:3040 Major Modern Dance I: 1-3 s.h.
- DANC:3085 Introduction to Afro-Cuban Dance: 1 s.h.
- DANC:3530 Major Ballet II: 1-3 s.h.
- DANC:3540 Major Modern Dance II: 1-3 s.h.
- DANC:4030 Major Ballet III: 1-3 s.h.
- DANC:4035 Ballet Pointe II: 1 s.h.
- DANC:4040 Major Modern Dance III: 1-3 s.h.
- DANC:4540 Major Modern Dance IV: 1-2 s.h.

**DANCE ELECTIVES**

Credit earned in Department of Dance courses (prefix DANC) that is not used to satisfy core, studio, or dance technique degree requirements is counted toward the dance elective requirement. Dance electives complete the 50 s.h. of dance courses required for the Bachelor of Arts.

The required number of semester hours in dance electives varies depending on whether the student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

**Bachelor of Fine Arts**

The Bachelor of Fine Arts with a major in dance requires a minimum of 120 s.h., including 78 s.h. of work for the major (75 s.h. in dance and 3 s.h. in a required anatomy course). No more than 82 s.h. in Department of Dance courses may be counted toward the 120 s.h. required for the B.F.A. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). B.F.A. students are required to maintain a cumulative g.p.a. of at least 3.50 in dance department courses.

In contrast to the B.A. program, the dance major for the B.F.A. emphasizes choreography and performance. It requires an additional 25 s.h. of choreography, performance, and technique. Students may be admitted to the B.F.A. program after they have completed a minimum of 30 s.h. at the University of Iowa. Students who have achieved the equivalent of major II technique and who show academic and professional promise are selected by department faculty for admission to the program.

All B.F.A. students must complete HHP:1100 Human Anatomy (3 s.h.). The required 75 s.h. in Department of Dance courses must include three semesters of DANC:4030 Major Ballet III or DANC:4540 Major Modern Dance IV with a grade of B-minus or higher. B.F.A. students must earn at least half of the semester hours in the major at the University of Iowa. No more than 82 s.h. in Department of Dance courses may be counted toward the 120 s.h. required for the B.F.A.

The Bachelor of Fine Arts major in dance requires the following course work.

**CORE COURSES**

B.F.A. students should register for cross-listed core courses under the Department of Dance course number (prefix DANC) in order for those courses to count toward the

75 s.h. in Department of Dance courses required for the major.

DANC:1060 Introduction to Dance Studies: 1 s.h.
DANC:1080 Music Essentials for Dance: 2 s.h.
DANC:1090 Dance Production: 3 s.h.
DANC:2060/DPA:2060 Dance and Society in Global Contexts: 3 s.h.
DANC:2220 Production Run Crew (2 s.h. required): 2 s.h.
DANC:3060 Dance History: 3 s.h.
DANC:3070/THTR:3070 Dance Kinesiology: 3 s.h.
HHP:1100 Human Anatomy: 3 s.h.

**STUDIO COURSES**

DANC:2050 Improvisation I: 2 s.h.
DANC:3150 Choreography I: 2 s.h.
DANC:3250 Choreography II: 2 s.h.
DANC:4350 Choreography III: 2 s.h.

**PERFORMANCE COURSES**

A total of 6 s.h. from these (no more than 3 s.h. of DANC:3885 Repertory Dance Company will count toward the performance requirement).

DANC:3885 Repertory Dance Company: 0-4 s.h.
DANC:4880 Dance Performance: 0-3 s.h.
Consult advisor for other courses that count toward this requirement.

**DANCE TECHNIQUE COURSES**

Students must complete 32 s.h. from the following courses. They must include 14 s.h. of ballet, 14 s.h. of modern dance, and three semesters of either DANC:4030 or DANC:4540. All courses may be repeated.

DANC:1150 Brazilian Culture and Carnival: 3 s.h.
DANC:3030 Major Ballet I: 1-3 s.h.
DANC:3040 Major Modern Dance I: 1-3 s.h.
DANC:3085 Introduction to Afro-Cuban Dance: 1 s.h.
DANC:3530 Major Ballet II: 1-3 s.h.
DANC:3540 Major Modern Dance II: 1-3 s.h.
DANC:4030 Major Ballet III: 1-3 s.h.
DANC:4035 Ballet Pointe II: 1 s.h.
DANC:4040 Major Modern Dance III: 1-3 s.h.
DANC:4540 Major Modern Dance IV: 1-2 s.h.

**DANCE ELECTIVES**

B.F.A. students choose advanced-level elective course work by selecting one of the following three options.

Option 1, pedagogy—one of these:
DANC:4535 Elementary Ballet Pedagogy: 3 s.h.
DANC:4545 Teaching of Modern Dance: 3 s.h.

Option 2, advanced history or theory—one of these:
DANC:4060 The Contemporary Dance Scene: 3 s.h.
DANC:5060 Approaches to Dance and the Body: 3 s.h.

Option 3, choreography—both of these:
DANC:4991 Independent Choreography: 2 s.h.
DANC:4450 Choreography IV: 1 s.h.
Credit earned in Department of Dance courses (prefix DANC) that is not used to satisfy core, studio, or dance technique degree requirements is counted toward the dance elective requirement. Dance electives complete the 75 s.h. of dance courses required for the Bachelor of Fine Arts.

The required number of semester hours in dance electives varies depending on whether the student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

**SENIOR PROJECT**

B.F.A. students culminate their experience with senior projects in choreography or performance. Students may earn honors credit for this project by enrolling in DANC:4999 Honors Project in Dance (enrollment requires membership in the University of Iowa Honors Program or special permission from the instructor). Other students must complete DANC:4998 BFA Senior Project in Dance.

One of these:
- DANC:4998 BFA Senior Project in Dance arr.
- DANC:4999 Honors Project in Dance arr.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Department of Dance course work beyond 50 s.h. for B.A. students and 75 s.h. for B.F.A. students does not apply toward semester hours required for graduation.

**Bachelor of Arts**

**Before the third semester begins:** 12 s.h. of course work in the major

**Before the fifth semester begins:** 24-32 s.h. of course work in the major

**Before the seventh semester begins:** 36-48 s.h. of course work in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 42-50 s.h. of course work in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Bachelor of Fine Arts**

**Before the third semester begins:** 16 s.h. of course work in the major

**Before the fifth semester begins:** 25-40 s.h. of course work in the major

**Before the seventh semester begins:** 45-60 s.h. of course work in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 57-75 s.h. of course work in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in dance have the opportunity to graduate with honors in the major. The honors program in dance serves and recognizes outstanding students in choreography, performance, and special projects. Departmental honors students must have a g.p.a. of at least 3.50 in UI dance department courses. To graduate with honors in the major, students must complete 8-10 s.h. of honors work, taking two courses for honors credit and completing an honors project. All honors projects must be approved by the dance department faculty.

Honors students in dance must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

**Minor**

The minor in dance requires a minimum of 15 s.h. in University of Iowa Department of Dance courses. Students must maintain a g.p.a. of at least 3.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students must audition on campus in order to be admitted to the minor and for placement in dance classes. Auditions are held four times each year. Contact the Department of Dance for more information.

The minor requires the following course work.

This course:
- DANC:2060 Dance and Society in Global Contexts 3 s.h.

At least one of these:
- DANC:1150 Brazilian Culture and Carnival 3 s.h.
- DANC:2050 Improvisation I 2 s.h.
- DANC:3050 Body/Image: Dance Discourse and Practice 2 s.h.

Students may choose their remaining dance courses from these:
- DANC:3010 Topics in Global Dance Techniques 2 s.h.
- DANC:3030 Major Ballet I 1-3 s.h.
- DANC:3039 Partnering Class 1 s.h.
- DANC:3040 Major Modern Dance I 1-3 s.h.
- DANC:3060 Dance History 3 s.h.
- DANC:3070 Dance Kinesiology 3 s.h.
- DANC:3085 Introduction to Afro-Cuban Dance 1 s.h.
- DANC:3086 Afro-Cuban Drum and Dance Performance 1 s.h.
- DANC:3150 Choreography I 2 s.h.
- DANC:3521 Acting for Singers and for Dancers 2 s.h.
- DANC:3530 Major Ballet II 1-3 s.h.
- DANC:3540 Major Modern Dance II 1-3 s.h.
- DANC:3850 Introduction to Laban Movement Studies 2-3 s.h.
- DANC:4030 Major Ballet III 1-3 s.h.
- DANC:4035 Ballet Pointe II 1-2 s.h.
Graduate Program of Study

- Master of Fine Arts in dance

The Master of Fine Arts is offered with a choice of choreography emphasis or performance emphasis. Students must audition on campus in order to be admitted to the M.F.A. program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Master of Fine Arts

The Master of Fine Arts program in dance requires a minimum of 60 s.h. of graduate credit. The program is designed to be completed in four to six semesters in residence. Students who demonstrate accomplishment in dance performance and/or choreography may apply for admission to the M.F.A. program. Applicants select the choreography or the performance emphasis before they are admitted.

Admission is based on a review of recorded choreographic and performance work; letters of recommendation; application materials; and an on-campus audition, in which applicants perform a solo dance, teach one or more classes, and take advanced classes in ballet and modern technique to determine class placement level.

Advanced technique (ballet and/or modern) and demonstrated accomplishment in performance or choreography are prerequisites for admission to the M.F.A. program.

The M.F.A. requires the following course work.

DANCE CORE

A total of 19 s.h. of core course work is required for both the performance emphasis and the choreography emphasis.

One of these:

- DANC:4535 Elementary Ballet Pedagogy 3 s.h.
- DANC:4545 Teaching of Modern Dance 3 s.h.

One of these:

- DANC:5050 Graduate Improvisation I 1-2 s.h.
- DANC:6050 Graduate Improvisation II 2 s.h.

All of these:

- DANC:5060 Theories of Dance and the Body 3 s.h.
- DANC:6060 Graduate Seminar in Dance 2 s.h.
- DANC:6080 Graduate Production Practicum 1 s.h.
- DANC:7990 Thesis (8 s.h. required) 8 s.h.

DANCE TECHNIQUE

The performance emphasis requires 18 s.h. from the following, and the choreography emphasis requires 11 s.h. All of these courses may be repeated.

- DANC:3030 Major Ballet I 1-3 s.h.
- DANC:3040 Major Modern Dance I 1-3 s.h.
- DANC:5530 Graduate Majors Ballet II 1-3 s.h.

- DANC:5540 Graduate Majors Modern II 1-3 s.h.
- DANC:6030 Graduate Majors Ballet III 1-3 s.h.
- DANC:6040 Graduate Majors Modern III 1-3 s.h.
- DANC:6540 Graduate Major Modern IV 1-2 s.h.
- DANC:7550 Graduate Modern Dance Technique Practicum
- DANC:7560 Graduate Ballet Technique Practicum

EMPHASIS COURSES

A total of 14 s.h. is required for both the choreography emphasis and the performance emphasis.

Choreography Emphasis

A total of 2 s.h from these:

- DANC:3885 Repertory Dance Company (up to 0-4 s.h. per year)
- DANC:6880 Graduate Dance Performance 2 s.h.

Consult advisor for other courses that count toward this requirement

All of these:

- DANC:5550 Collaborative Performance 4 s.h.
- DANC:6350 Graduate Choreography III 2 s.h.
- DANC:6450 Graduate Choreography IV 3 s.h.
- DANC:6990 Graduate Independent Choreography (2 s.h. for each project)

Performance Emphasis

This course:

- DANC:6992 Graduate Independent Performance Project (minimum of 2 s.h.; taken twice)

At least 12 s.h. from these:

- DANC:3885 Repertory Dance Company (up to 0-8 s.h. per year)
- DANC:6880 Graduate Dance Performance 0-4 s.h.

Consult advisor for other courses that count toward this requirement

One of these:

- DANC:6990 Graduate Independent Choreography (1 s.h. each project)
- A course from the choreography sequence 2 s.h.

ELECTIVES

This course:

- Elective non-dance department courses numbered 3000 or above 6 s.h.

And one of these:

- DANC:3060 Dance History 3 s.h.
- DANC:3070 Dance Kinesiology 3 s.h.
- DANC:4060 The Contemporary Dance Scene 3 s.h.

Facilities

The Department of Dance houses six technique studios, a movement training lab, a media classroom and library, a
media laboratory, an audio recording laboratory, and its own theater for dance concerts.

Courses

Lower-Level Undergraduate

DANC:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

DANC:1010 Beginning Tap 1-2 s.h.
Elementary techniques, steps, and performance skills for rhythm and show tap styles; enhancement of rhythmic ability through exercises, improvisation, creative activities; may include history of tap. Tap shoes required. GE: Literary, Visual, and Performing Arts.

DANC:1020 Beginning Jazz 1-2 s.h.
Basic movement fundamentals, terminology, performance skills of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.

DANC:1030 Beginning Ballet 1-2 s.h.
Basic movement fundamentals, terminology, performance skills of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; may include history of ballet. GE: Literary, Visual, and Performing Arts.

DANC:1040 Beginning Modern Dance 1-2 s.h.
Basic movement fundamentals, terminology, performance skills of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.

DANC:1050 Beginning/Contact Improvisation 1-2 s.h.
Concepts of dance improvisation and contact improvisation; cultivation of creative freedom through the use and invention of movement; range of expression broadened through personal movement capacity, spontaneity and imagination, ability to make and commit to movement choices; new approaches to moving and movement elements such as time, space, motion, qualities, dynamics; shared weight, support, counter-balancing, elementary partnering; studio course.

DANC:1060 Introduction to Dance Studies 1-2 s.h.
Introduction to dance studies in the liberal arts; breadth and diversity of contemporary scholarship on dance: dance history, criticism, ethnography, theory, conditioning and injury prevention, improvisation, choreography, technology.

DANC:1070 Topics in Body Conditioning 2 s.h.
Somatic training techniques that address conditioning needs of dancers—yoga for dancers, pilates, release techniques; other somatic studies related to injury prevention, concentration, flexibility, efficient movement, strength training.

DANC:1080 Music Essentials for Dance 2 s.h.
Evolution of music and dance from prehistoric times to the present; rhythmic analysis and fundamental music theory for dance students.

DANC:1090 Dance Production 3 s.h.
Scenic design, costing, lighting, audio/video, publicity; visits by professional guest lecturers, field trips to creative shops; projects.

DANC:1110 Continuing Tap 1-2 s.h.
Continuation of DANC:1010. GE: Literary, Visual, and Performing Arts.

DANC:1120 Continuing Jazz 1-2 s.h.
Continuation of DANC:1020; skills for technique and performance of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.

DANC:1130 Continuing Ballet 1-2 s.h.
Continuation of DANC:1030; skills necessary for technique and performance of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; may include history of ballet. GE: Literary, Visual, and Performing Arts.

DANC:1140 Continuing Modern Dance 1-2 s.h.
Continuation of DANC:1040; skills necessary for the technique and performance of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.

DANC:1150 Brazilian Culture and Carnival 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Values, Society, and Diversity.

DANC:1412 The Arts in Performance 3 s.h.

DANC:2020 Intermediate Jazz 1-2 s.h.
Low intermediate technique and performance training in jazz dance; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry, including mobility, musicality, style; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.
DANC:2030 Intermediate Ballet
Low intermediate technique and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry, including more difficult steps, musicality, mobility, balance; basic ballet terminology, including steps, head, body, arm positions; variations in timing, changes of facing. GE: Literary, Visual, and Performing Arts.

DANC:2040 Intermediate Modern
Low intermediate technique and performance training in modern dance; flexibility, strength, body alignment, and breath as foundation for more advanced dance artistry, including musicality, mobility, balance, improvisation; variations in timing, changes of facing. GE: Literary, Visual, and Performing Arts.

DANC:2050 Improvisation I
Introduction to movement as research; experimental process as vehicle for invention, creative freedom, aesthetic range; development of kinesthetic imagination, awareness, creative problem solving; introduction to issues of artistic originality and authenticity; practical integration of improvisation and composition through spontaneous manipulation of time, space, and energy; knowledge of creative process supported by reading and individual research.

DANC:2060 Dance and Society in Global Contexts
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. Same as DPA:2060.

DANC:2070 Ethnic Dance in a Global Society
Investigation of why humans dance; dance, like language, as an expression of the human condition, joys, sorrows, love, fighting spirit, and joyous celebrations we all experience; diverse ways of expressing life through dance from one society to another due to varying histories; how individual's culture and geographic area affect ways of moving; discovering what we have in common with our dancing neighbors; when we understand the dance, we understand more about the person/country; recognizing a common link through the language of dance.

DANC:2080 Dance and Social Action
Exploration of dance as a means for civic engagement; readings that support theory and practice of dance as social action; practicum experience of facilitating a workshop to girls at the Iowa Juvenile Home.

DANC:2220 Production Run Crew
Hands-on experience in production work for live dance performance. Prerequisites: DANC:1090.

Upper-Level Undergraduate and Graduate

DANC:3010 Topics in Global Dance Techniques
Beginning, continuing, or advanced technique of global and non-Western dance practices; topics vary, may include Asia, Latin America, Africa, Pacific Islands, or other regions in historical and cultural context, and classical, folk, traditional, or contemporary forms.

DANC:3030 Major Ballet I
Builds on DANC:2030; intermediate technical and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for introduction of more advanced aspects of dance artistry, including steps, musicality, mobility, balance; terminology related to barre and center vocabulary, including steps, head, body, and arm positions; practice of steps and combinations, variations in timing, changes of facing.

DANC:3034 Acting for Dancers
Beginning acting for dancers; spontaneity and expression, sources of action and reaction through theater games; emotional journey in effective drama and comedy; drama, comic structure, and tension through character and script analysis.

DANC:3039 Partnering Class
The art of partnering in dance, from salsa to Swan Lake; power sharing on the dance floor, including supported poses, balance, musical and physical timing, unity of movement, eloquence of gesture; for advanced dancers with strong coordination skills.

DANC:3040 Major Modern Dance I
Builds on DANC:2040; intermediate technical and performance training in modern dance; physical and mental skills for transition to more advanced dance—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; assimilation of new movement material; center of gravity and its role in body mobilization and control; personal movement choices, and expressive range.

DANC:3050 Body/Image: Dance Discourse and Practice
Intersection of body, image, and sound in analog and digital media; relationship to critical and practical texts; written and performative assignments that address fundamental concepts of corporeality in related fields including dance for camera, stage and film performance, and artistic, documentary, and publicity filmmaking and photography.

DANC:3060 Dance History
Dance history in the 19th and 20th centuries; changes in dance training and technique, theory, composition, performance practices in context of broader social, political, and cultural trends; how dance and choreographic practices have changed over time, relationships between social ideas about embodiment and production of dance forms, precedents for contemporary dance practices in past forms. Prerequisites: DANC:2060.
**DANC:3070 Dance Kinesiology**  
3 s.h.  
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: HHP:1100. Same as THTR:3070.

**DANC:3075 Yoga Teacher Training**  
3 s.h.  
Expansion of yoga and/or teaching knowledge; in-depth physical practice of yoga postures; basic yoga philosophy and texts; personal practice of meditation; yoga for various populations; anatomy of yoga postures; practice teaching within class structure. Corequisites: DANC:3070. Requirements: dance major and sophomore or higher standing. Recommendations: previous experience taking yoga classes.

**DANC:3085 Introduction to Afro-Cuban Dance**  
1 s.h.  
Introduction to the dance, drumming, and songs of the Afro-Cuban folkloric traditions; emphasis on dance. May participate in UI Afro-Cuban Drum and Dance ensemble. Same as DPA:3085.

**DANC:3086 Afro-Cuban Drum and Dance Performance**  
1 s.h.  
Dance repertory for the UI Afro-Cuban Drum and Dance Ensemble. Performance pieces based on dance, drumming, songs of the Afro-Cuban folkloric traditions. May participate in UI Afro-Cuban Drum and Dance Ensemble. Same as DPA:3086.

**DANC:3150 Choreography I**  
2 s.h.  
Introduction to theories and practices of creating choreography; locating varied sources for movement; elementary considerations of choreographic form; development of ideas, impulses, and initial inspirations into short works; fundamentals of giving and receiving critical feedback; articulation of thoughts and experience as composers and watchers of choreography; exposure to choreographic concerns supported by video and reading.

**DANC:3190 Lighting for Dance and Entertainment**  
3 s.h.  
How to research, conceptualize, and express ideas through light plots; design paperwork; dance lighting design projects.

**DANC:3250 Choreography II**  
2 s.h.  
Continuation of DANC:3150; development of intermediate choreographic skills; emphasis on cultivation of individual choreographic voice through expansion of vocabulary, discovery of complex ways to form and arrange, and use of widening range of methods and types of resources.

**DANC:3521 Acting for Singers and for Dancers**  
2 s.h.  
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as MUS:3521, THTR:3521.

**DANC:3530 Major Ballet II**  
1-3 s.h.  
High intermediate training in ballet technique and performance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

**DANC:3540 Major Modern Dance II**  
1-3 s.h.  
High intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

**DANC:3850 Introduction to Laban Movement Studies**  
2-3 s.h.  
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as MUS:3850, THTR:3850, DPA:3850.

**DANC:3851 Introduction to the Alexander Technique**  
3 s.h.  
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DPA:3851, MUS:3851, THTR:3851.

**DANC:3885 Repertory Dance Company**  
0-4 s.h.  
Advanced repertory studies; learning and performing multiple works by professional guest artists, faculty, and invited graduate students; collaborative creation and performing in community outreach lecture-demonstration throughout Iowa and the region. Requirements: audition.

**DANC:4030 Major Ballet III**  
1-3 s.h.  
Advanced training in ballet technique and performance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.
DANC:4035 Ballet Pointe II  
1-2 s.h.
Intermediate/advanced techniques and training for ballet pointe work; repetition and analysis of steps and combinations, assimilation of new material; barre and center exercises, pirouettes and turns commonly performed en pointe, learning and performing variations drawn from repertory.

DANC:4040 Major Modern Dance III  
1-3 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range; may include partnering exercises for investigation of weight exchange, timing, expressivity.

DANC:4050 Improvisation II  
2 s.h.
Advanced concepts in compositional improvisation; in-depth individual exploration, spontaneous ensemble composition; increasing authenticity, depth, and range; integrity in relating to the whole ensemble; connecting creative process to other bodies of knowledge; making contact with emerging premise; reading and discussion as integration of conceptual and experiential; speaking and writing as improvisational process. Prerequisites: DANC:2050.

DANC:4060 The Contemporary Dance Scene  
3 s.h.
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analytic and synthesis of previous research. Same as DPA:4060.

DANC:4350 Choreography III  
2 s.h.
Continuation of DANC:3250; increased emphasis on invention, clarity, sophistication, and development of complete works; creation of sharply defined mature movement worlds; increasingly thorough consideration of sources and methods, responsibility for applying course work to self-defined artistic concerns and emerging individual aesthetic; advanced theories and methods through video, reading, choreographic research.

DANC:4450 Choreography IV  
2 s.h.
Continuation of DANC:4350; advanced theories and practices of choreography; complex concepts, methods, applications; analytical and creative connections with bodies of knowledge across the liberal arts and sciences; complete development of multiple works; advanced practice in critical feedback and articulation of ideas about process and product; development through reading, video, extensive creative research.

DANC:4535 Elementary Ballet Pedagogy  
3 s.h.
Methods, materials, concepts for teaching ballet techniques.

DANC:4540 Major Modern Dance IV  
1-2 s.h.
Professional technique and performance training in modern dance.

DANC:4545 Teaching of Modern Dance  
3 s.h.
Practices of teaching modern dance; information and experience for developing an individualized approach to teaching; educational methodology for defining essential elements of a modern class, approaches for planning and structuring classes.

DANC:4880 Dance Performance  
0-3 s.h.
Credit for rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication. GE: Literary, Visual, and Performing Arts.

DANC:4990 Independent Study  
arr.
Credit for an individual student-designed project coordinated with a faculty advisor. Requirements: sophomore or higher standing.

DANC:4991 Independent Choreography  
arr.
Credit for creation of independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.

DANC:4995 Honors Studies in Dance  
arr.
Choreography, performance, production, Labanotation, dance history, or pedagogy. Requirements: g.p.a. of 3.33 or higher.

DANC:4998 BFA Senior Project in Dance  
arr.
Senior year choreographic/performance capstone to complete B.F.A. in dance under supervision of faculty advisor; culminates in public showing or produced concert. Requirements: admitted to B.F.A. program in dance and senior standing.

DANC:4999 Honors Project in Dance  
arr.
Research, choreographic, reconstruction, or performance project under guidance of a faculty advisor. Requirements: senior standing.

DANC:5050 Graduate Improvisation I  
1-2 s.h.
Dance improvisation.

DANC:5060 Theories of Dance and the Body  
3 s.h.
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Same as DPA:5060.

DANC:5530 Graduate Majors Ballet II  
1-3 s.h.
High intermediate technique and performance training; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.
DANC:5540 Graduate Majors Modern II 1-3 s.h.
High intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

DANC:5550 Collaborative Performance 1-4 s.h.
Collaborative experience with advanced artists from varied disciplines that culminates in a final performance; emphasis on sharing and investigating ideas, artistic intent, personal vision, and creating collaborative projects. Same as THTR:5610, DPA:5550.

DANC:6030 Graduate Majors Ballet III 1-3 s.h.
Advanced ballet technique and performance training for proficient dancers; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

DANC:6040 Graduate Majors Modern III 1-3 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

DANC:6050 Graduate Improvisation II 2 s.h.
Advanced improvisation.

DANC:6060 Graduate Seminar in Dance 2 s.h.
Research, careers, administrative, educational, professional, artistic topics.

DANC:6080 Graduate Production Practicum 1 s.h.
Scenery and costume design, lighting, audio/video, publicity.

DANC:6350 Graduate Choreography III 2 s.h.
Advanced choreographic concepts, methods, and applications with focus on the creative mind and choreographic process; concepts and experiences that support development of advanced choreographic skills and innovative dances.

DANC:6450 Graduate Choreography IV 3 s.h.
Advanced choreography concepts, methods, applications.

DANC:6540 Graduate Major Modern IV 1-2 s.h.
Professional technique and performance training in modern dance.

DANC:6880 Graduate Dance Performance 0-3 s.h.
Credit for rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.

DANC:6990 Graduate Independent Choreography arr.
Credit for creation of an independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.

DANC:6991 Graduate Independent Study arr.
Credit for individually designed project coordinated with a faculty advisor.

DANC:6992 Graduate Independent Performance Project arr.
Credit for creative participation as a performer in a choreography project, developed under guidance of a faculty advisor, that results in the performance of a dance work.

DANC:7550 Graduate Modern Dance Technique Practicum arr.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; class taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of MFA program and good standing.

DANC:7560 Graduate Ballet Technique Practicum arr.
Advanced, in-depth understanding of teaching dance technique at the college level; emphasis on studio practice of technique through active participation in technique class; individualized research on technical and pedagogical approaches to dance; class taken with a faculty member during student's teaching rotation to gain understanding of the teacher's pedagogical approach across three levels of the majors-level technique curriculum. Requirements: completion of one semester of MFA program and good standing.

DANC:7990 Thesis arr.
Disability Studies

Coordinator

• Kenneth E. Mobily

Undergraduate certificate: disability studies
Web site: http://clas.uiowa.edu/hhp/undergraduate/disability-studies-certificate

Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary and multidisciplinary field that draws on scholarship from diverse disciplines, including anthropology, architecture, the arts, communication and media studies, cultural studies, economics, gender studies, geography, global studies, history, law, literature, medicine, nursing, philosophy, policy studies, political science, religious studies, social work, and sociology.

Its multidisciplinary nature makes disability studies a good complement to a broad range of undergraduate majors.

The certificate program in disability studies is administered by the Department of Health and Human Physiology (p. 349).

Undergraduate Program of Study

• Certificate in Disability Studies

Certificate

The Certificate in Disability Studies requires a minimum of 19 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in public life. Students who complete the certificate develop:

• understanding of the history of disabilities in America;
• awareness of how culture and society define disability;
• the ability to interact with individuals from diverse backgrounds;
• a personal philosophy of treating people fairly, equitably, and thoughtfully; and
• greater understanding of and concern with public policy issues and active citizenship.

The Certificate in Disability Studies requires the following course work.

CORE COURSES

Students earn 11 s.h. by taking the following four core courses.

All of these:

DST:3101 Introduction to Disability Studies 3 s.h.
EDTL:4967 Integrated Disability Studies 2 s.h. Practicum
HIST:4203 Disability in American History 3 s.h.

And one of these:

EDTL:4940 Characteristics of Disabilities 3 s.h.
TR:3162 Therapeutic Recreation: Clientele 3 s.h.

FOCUSED ELECTIVES

Students earn a minimum of 8 s.h. in focused electives, which they select from courses in at least two of the following lists (maximum of 6 s.h. from any one list). They may count a maximum of 3 s.h. earned in courses numbered below 3000 toward this requirement.

Aging Studies

ASP:3135 Global Aging 3 s.h.
ASP:3150 Psychology of Aging 3 s.h.
ASP:4165 Communication Disorders and Aging 2 s.h.

American Sign Language

ASL:3200 Topics in Deaf Studies 3 s.h.
ASL:3300 American Deaf Culture 3 s.h.
ASL:3400 Issues in ASL and Deaf Studies 3 s.h.
ASL:3500 Deafness in the Media 3 s.h.
ASL:3600 American Sign Language Literature 3 s.h.
ASL:4201 History of the American Deaf Community 3-4 s.h.

Aging Studies

ASL:3200 Topics in Deaf Studies 3 s.h.
ASL:3300 American Deaf Culture 3 s.h.
ASL:3400 Issues in ASL and Deaf Studies 3 s.h.
ASL:3500 Deafness in the Media 3 s.h.
ASL:3600 American Sign Language Literature 3 s.h.
ASL:4201 History of the American Deaf Community 3-4 s.h.

American Studies

AM:2025 Diversity and American Identities 3 s.h.

Anthropology

ANTH:3102 Medical Anthropology 3 s.h.

Communication Sciences and Disorders

CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2 s.h.
CSD:3185 Hearing Loss and Audiometry 3 s.h.
CSD:4145 Developmental Language Disorders 3 s.h.
CSD:4147 Neurogenic Disorders of Speech 2 s.h.
CSD:4165 Communication Disorders and Aging 2 s.h.
CSD:5206 Language Disorders: Birth to Five Years 3 s.h.
CSD:5233 Aphasia 2 s.h.
CSD:5234 Acquired Cognitive-Communication Disorders arr.
CSD:5303 Evidence Based/Emerging Practices in Communication/Social Interaction for Individuals with Autism 1 s.h.
EDTL:7948 Contemporary Research in Behavioral Disorders 3 s.h.

Disability Studies

DST:3102 Culture and Community in Human Services 3 s.h.

Education

EDTL:3130 Adaptive Physical Education for the Elementary Classroom Teacher 2 s.h.
EDTL:4900 Foundations of Special Education 3 s.h.
EDTL:4921 Transition and Related Issues 3 s.h.
EDTL:4950 Behavioral and Social Interventions 3 s.h.
EDTL:4990 Interdisciplinary Issues in Disabilities 1-3 s.h.
EPLS:4180 Human Relations for the Classroom Teacher 3 s.h.
RCE:4195 Ethics in Human Relations and Counseling 3 s.h.
RCE:4197 Citizenship in a Multicultural Society 3 s.h.

**Geography**
GEOG:3110 Geography of Health 3 s.h.

**Health and Human Physiology**
HHP:2200 Physical Activity and Health 3 s.h.

**History**
HIST:4201 History of the American Deaf Community 3-4 s.h.

**Music**
MUS:1687 Orientation to Music Therapy 2 s.h.
MUS:3680 Music in Special Education 2-3 s.h.

**Nursing**
NURS:1030 Human Development and Behavior 3 s.h.
NURS:3712 Human Sexuality, Diversity, and Society 1-3 s.h.

**Psychological and Brain Sciences**
PSY:2301 Introduction to Clinical Psychology 3 s.h.
PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
PSY:3320 Abnormal Psychology 3 s.h.

**Rehabilitation and Counselor Education**
RCE:5249 Psychiatric Disorders and Interventions 3 s.h.

**Social Work**
SSW:3847 Discrimination, Oppression, and Diversity 3 s.h.

**Therapeutic Recreation**
TR:3160 Introduction to Therapeutic Recreation 3 s.h.

**Courses**

**DST:3101 Introduction to Disability Studies** 3 s.h.
Introduction and overview of important topics and discussions that pertain to the experience of being disabled; contrast between medical and social construction models of disability; focus on how disability has been constructed historically, socially, and politically in an effort to distinguish myth and stigma from reality; perspective that disability is part of human experience and touches everyone; interdisciplinary with many academic areas that offer narratives about experience of disability.

**DST:3102 Culture and Community in Human Services** 2-3 s.h.

Influence of social issues (e.g., diversity, equity) on human services; values, beliefs, lifestyles, and attitudes of individuals and diverse groups found in a pluralistic society; recognition of dehumanizing biases and their impact on interpersonal relations; translation of knowledge of culture into attitudes, skills, and techniques that result in favorable experiences for human services consumers; recognition of ways in which dehumanizing biases may be reflected in everyday encounters and understanding how these interactions may influence populations served by human service practitioners.
Division of Interdisciplinary Programs

**Director**
- Helena R. Dettmer

The Division of Interdisciplinary Programs includes six academic units: Enterprise Leadership, Global Health Studies, Interdepartmental Studies, International Studies, Latin American Studies, and Writing.

Of all the academic units within the division, three offer B.A. degrees, three offer a minor, and three offer a certificate.

Enterprise Leadership (p. 273) provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, and leadership.

The Global Health Studies (p. 343) Program examines the processes influencing health and disease around the world. It considers not only the manifestations of significant diseases and public health and health care systems, but also the underlying forces and institutions—such as technology, politics, culture, legal structure, history, and economics—that collectively influence patterns of health and disease. This program offers a minor and an undergraduate and graduate certificate.

Interdepartmental Studies (p. 396) provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes course work from a variety of departments. Interdepartmental Studies offers a B.A. degree.

International Studies (p. 415) is designed to help students learn to appreciate world cultures, focus on themes of global significance, and master varied disciplinary approaches used to study international issues. The program complements a wide range of academic degree programs and is an appropriate choice for many students who plan to pursue a double major. International Studies offers a B.A. degree and an undergraduate minor.

The Latin American Studies (p. 446) Program focuses on the history, politics, social organization, economy, geography, music, religion, art, and literature of Central and South America, Mexico, and the Caribbean; and draws on faculty expertise in a range of academic areas. This program offers a minor and an undergraduate certificate.

The Writing (p. 638) Program certificate allows students to explore writing and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests. The Writing Program offers an undergraduate certificate.
Division of Performing Arts

Director

- Alan MacVey

Undergraduate certificate: performing arts entrepreneurship
Web site: http://dpa.uiowa.edu/

The Division of Performing Arts includes the Department of Dance (p. 215), the School of Music (p. 473), and the Department of Theatre Arts (p. 625). The division fosters interdisciplinary collaboration among these units, coordinates artistic and academic activities, and sponsors a full array of performances and symposia. Performances are supported by professional staff in the division’s Performing Arts Production Unit.

Each of the division’s individual academic units offers undergraduate and graduate courses and degree programs in creative, performance, scholarly, and theoretical areas. Together they present an extensive schedule of dance productions, faculty and student recitals, ensemble concerts, and mainstage and gallery theater productions.

The division offers the undergraduate Certificate in Performing Arts Entrepreneurship in partnership with the John Pappajohn Entrepreneurial Center (Tippie College of Business). The certificate program combines courses in accounting, marketing, and financial management with those focused on arts management and leadership practices in commercial as well as nonprofit arts organizations. See Performing Arts Entrepreneurship (p. 498) in the Catalog.

The division also is home to an arts outreach program, Arts Share.

For information about the division and its programs and events, visit the Division of Performing Arts web site.
Division of World Languages, Literatures, and Cultures

Director

- Russell Ganim

Faculty: http://clas.uiowa.edu/dwllc/people
Web site: http://clas.uiowa.edu/dwllc/

The Division of World Languages, Literatures, and Cultures includes several academic units: the Departments of Asian and Slavic Languages and Literatures, French and Italian, German, and Spanish and Portuguese, and the programs in American Sign Language, Comparative Literature, Second Language Acquisition, and Translation. A new minor also is available—translation for global literacy. In addition to providing administrative leadership for all of its units, the division fosters interdisciplinary scholarship in languages, literatures, and cultures. It encourages synergy and collaboration among its faculty members and enhances opportunities for cross-cultural course development and research.

Undergraduate and graduate programs in the division serve students with varied interests and career aspirations, educating them to become global citizens who understand and are understood by diverse populations. Students are trained to be critical thinkers and problem solvers, capable scholars, lucid writers, and proficient speakers.

The division offers instruction in a wide array of languages and in the cultures associated with them:

- American Sign Language (p. 41) Program: American Sign Language and deaf studies
- Department of Asian and Slavic Languages and Literatures (p. 100): Chinese, Czech, Hindi-Urbu, Japanese, Korean, Russian, Sanskrit
- Department of French and Italian (p. 291): Arabic, French, Italian, Swahili
- Department of German (p. 336): German
- Department of Spanish and Portuguese (p. 596): Portuguese, Spanish

In addition to providing language instruction, the division focuses on theoretical and applied linguistics; non-Anglophone literatures and cultures, including those of bilingual, deaf, postcolonial, and heritage communities; and aesthetics, cultural theory, and creative writing in languages other than English.

The division’s Second Language Acquisition (p. 565) Program brings multidisciplinary resources together to examine the processes that underlie non-native-language learning. The Translation (p. 635) Program explores the literary, cultural, and historical contexts of work and their linguistic, aesthetic, and ideological dimensions while it builds skills for translating works from one language to another. The Comparative Literature (p. 193) Program addresses culture across regions and languages in relation to literature, social theory and philosophy, history, and other disciplines. The minor in translation for global literacy (p. 637) introduces undergraduate students to the exploration of translation both as a practical application and as a tool for global literacy.

The division also administers the Language Media Center, which provides facilities for traditional language laboratory work as well as for language video and computer-based activities. The center sponsors a multimedia development studio, where faculty members and graduate students produce and test media-based materials for language instruction.

Courses

World Languages, Literatures, and Cultures, Lower-Level Undergraduate

WLLC:1100 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as GHS:1100, CLSA:1100.

WLLC:1355 Approaches to Global Cultural Studies 3 s.h.
Framework for thinking about global perspectives on culture; examination of themes within a transnational context; analysis of cultural expression from national and linguistic contexts.

WLLC:2550 Mardi Gras and More: Cultures of Carnival 3-4 s.h.
Literature and customs associated with carnival from antiquity through present day; readings on theories of carnivalesque (Mikhail Bakhtin, Peter Burke, and others); materials from three distinct carnival cultures—Renaissance Europe (Francois Rabelais, German carnival plays), 19th-century New Orleans, and present day Rio de Janeiro. GE: Values, Society, and Diversity. Same as GRMN:2550.

World Languages, Literatures, and Cultures, Upper-Level Undergraduate and Graduate

WLLC:3185 Global Women’s Cinema 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as GWSS:3185, CINE:3185.

WLLC:3191 International Literature Today 1,3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3595, IWP:3191.

WLLC:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as JPNS:3700, ASIA:3700.
WLLC:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Requirements: for COMM:3834 — g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as RELS:3834, IS:3834, JMC:3146, COMM:3834.

WLLC:4512 Topics in Global and Transnational Culture 3-4 s.h.
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Recommendations: completion of an international and global issues GE course. Same as GRMN:4512, ARAB:4512.

TRNS:1017 Workshop in Literary Magazine Publishing 2 s.h.
Hands-on introduction to literary magazine publishing; major differences between print and digital publishing, the processes of design, layout, soliciting work, editing copy, proofing, promotion, and distribution; University of Iowa and Iowa City community resources; editors and writers share their expertise through a series of informal question-and-answer sessions and task-based assignments.

TRNS:1018 Workshop in Literary Review Writing 2 s.h.
Hands-on introduction to literary review; process of selecting books (poetry, fiction, creative nonfiction) for review; writing, revising, and submission of work; University of Iowa and Iowa City community resources; editors and writers share their expertise through a series of informal question-and-answer sessions and task-based assignments.

TRNS:1019 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Requirements: working knowledge of a language other than English. Same as ENGL:2810.

TRNS:2499 Undergraduate Translation Seminar 3 s.h.
Translation studies for undergraduates; topics related to practice of literary translation.

Translation, Upper-Level Undergraduate and Graduate

TRNS:3201 Workshop in Japanese Literary Translation 3 s.h.
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as JPNS:3201.

TRNS:3202 Workshop in Chinese Literary Translation 3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as CHIN:3201.

TRNS:3480 Literature and Translation 3 s.h.
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as SLAV:3480.
TRNS:4100 Approaches to Critical Theory 3 s.h.
Introduction to major critical approaches in literary and cultural theory from a variety of traditions; studying existing models, students learn to think theoretically about language and society, and to orient themselves among existing theoretical discourses, interrogating the latter critically in terms of their own perspectives and theoretical needs; selections from influential works, shared class discussion, and presentations; no prior knowledge in the area of critical theory is presumed. Same as CL:4100.

TRNS:4481 Introduction to Computer-Assisted Translation 1 s.h.
Translation memory, terminology management, multimodal translation, and project management to increase proficiency in a range of technological skills; evolving translation technologies emphasize learning skills required to employ tools of today and effectively learn to use those of tomorrow; use of translation technology in freelance and agency settings from document receipt through delivery. Requirements: completion of General Education Program rhetoric and interpretation of literature requirements.

TRNS:4497 Techniques of Translation 3 s.h.
Prerequisites: FREN:3300. Same as FREN:4890.

Translation, Graduate

TRNS:5205 International Translation Workshop 1-3 s.h.
International writers pair with University of Iowa translators to write new works of poetry and fiction in English; second-language fluency not required for international writers. Same as IWP:5205.

TRNS:5491 Translation Internship arr.

TRNS:5500 Advanced Translation Practice 1-3 s.h.
Substantial translation project guided by a faculty advisor; readings and assignments designed to help translator with particular tasks and challenges presented by the project; translation and critical/reflective writing. Prerequisites: TRNS:6459 and TRNS:7460. Requirements: advanced-level translator in literary translation M.F.A. program.

TRNS:6050 Independent Study arr.

TRNS:6400 Thesis arr.
Translation thesis with critical introduction.

TRNS:6459 Issues in Translation 3 s.h.
Contemporary and historical theories.

TRNS:7460 Translation Workshop 4 s.h.
Requirements: at least one foreign language. Same as IWP:7460.
Earth and Environmental Sciences

Chair

- Charles “Tom” Foster Jr.

Undergraduate major: geoscience (B.A., B.S.)
Undergraduate minor: geoscience
Graduate degrees: M.S. in geoscience; Ph.D. in geoscience
Faculty: http://clas.uiowa.edu/ees/people
Web site: http://clas.uiowa.edu/ees/

Faculty and students in the Department of Earth and Environmental Sciences study the physical, chemical, and biological systems of Earth. Using modern observational, analytical, and computational methods, they examine how the planet’s interior, surface, hydrosphere, biosphere, and atmosphere have evolved since Earth was born in the solar system 4.6 billion years ago. Topics commonly studied in the department include how plate movements cause earthquakes, volcanoes, and mountain building; global climate change and how climate change and catastrophic events cause changes in biodiversity; mass extinctions and patterns of evolution through Earth history; how and where economic resources are generated on Earth; and how these resources are located and used in modern society.

The earth and environmental sciences curriculum provides students with hands-on experience analyzing rocks, minerals, fossils, soils, and waters, generally in a small classroom setting. Much of this experience is obtained in laboratory and field courses. Field courses include travel to other states or countries to view Earth’s materials and fossils in the context of their natural surroundings.

The master’s degree in geoscience is regarded by most hiring agencies as the working degree, but an undergraduate degree is fully satisfactory in certain teaching, government, and industry situations. The doctoral degree is required for college and university faculty positions and for some research positions in industry.

Many of the University of Iowa’s geoscience graduates find employment with resource companies, environmental corporations, and educational institutions. Others continue in graduate school or take jobs with government or conservation agencies. Some intend to enter law, business, or fields such as urban planning, environmental studies, engineering, archaeology, science education, or oceanography as advanced areas. Geoscience provides skills useful for all of these fields.

The department offers a variety of courses appropriate for nonmajors, including several approved for the Natural Sciences requirement of the General Education Program (p. 313); see “Courses for Nonmajors" below.

Many of the department’s faculty members are involved in the interdisciplinary Environmental Sciences (p. 278) Program, and a number of the department’s courses satisfy requirements of the Certificate in Sustainability (p. 1248).

Undergraduate Programs of Study

- Major in geoscience (Bachelor of Arts, Bachelor of Science)
- Minor in geoscience

Students majoring in geoscience take at least an academic year's work in three allied scientific areas—physics, chemistry, and mathematics—and a semester of biology in addition to a course in each major area of geology.

Geoscience students may elect to pursue an additional major or a minor in a related discipline, usually chemistry, physics, biology, engineering, environmental sciences, or anthropology. See Majors, Minors, and Certificates under Current Students on the College of Liberal Arts and Sciences web site.

Bachelor of Science

The Bachelor of Science with a major in geoscience requires a minimum of 120 s.h., including at least 70 s.h. (19 courses) of work for the major (39 s.h. in earth and environmental sciences courses and at least 31 s.h. in supporting disciplines). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Transfer students must complete a minimum of 15 s.h. of course work in the Department of Earth and Environmental Sciences.

The geoscience major for the B.S. is designed to prepare students for immediate employment after graduation or to enter a graduate program in geology.

The department recommends that students fulfill the General Education Program's World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved course work in economics, geography, or anthropology.

The geoscience major for the Bachelor of Science requires the following course work.

EARTH AND ENVIRONMENTAL SCIENCES

One of these:
EES:1030 Introduction to Earth Science 4 s.h.
EES:1050 Introduction to Geology (preferred) 4 s.h.

All of these:
EES:1040 Evolution and the History of Life 4 s.h.
EES:2410 Mineralogy 4 s.h.
EES:2831 Geologic Field Methods 3 s.h.
EES:3300 Sedimentary Geology 4 s.h.
EES:3500 Igneous and Metamorphic Petrology 4 s.h.
EES:3840 Structural Geology 4 s.h.
EES:4832 Geologic Field Analysis 3 s.h.
At least two geoscience electives (see "Recommended Electives" below) 6-7 s.h.

One of these:
EES:3210 Principles of Paleontology 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4630 Hydrogeology 3 s.h.
EES:4790 Engineering Geology 3 s.h.
EES:4800 Solid Earth Geophysics 3 s.h.

**MATHEMATICS**
At least 8 s.h. of calculus, including one of these:

MATH:1560 Engineering Mathematics II: Multivariable Calculus 4 s.h.
MATH:1860 Calculus II 4 s.h.

And:

An additional course in mathematics, computer science, or statistics numbered MATH:2000 or above, or CS:1110 or above, or STAT:2010 or above

**CHEMISTRY**
B.S. students must complete at least 8 s.h. of college-level chemistry, including the following sequence or equivalent courses or more advanced courses. Chemistry courses numbered below CHEM:1110 Principles of Chemistry I do not count toward this requirement.

CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.

**PHYSICS**
B.S. students must complete at least 8 s.h. of college-level physics, as follows. Physics courses numbered below PHYS:1511 College Physics I do not count toward this requirement.

One of these sequences:

PHYS:1511-PHYS:1512 College Physics I-II 8 s.h.
PHYS:1611-PHYS:1612 Introductory Physics I-II 8 s.h.

**BIOLOGY**
B.S. students must complete at least one biology course that includes a laboratory (4 s.h.). Students with an interest in paleontology are encouraged to take BIOL:1411 Foundations of Biology and BIOL:1412 Diversity of Form and Function.

**RECOMMENDED ELECTIVES**
All B.S. students should take elective courses from the following groups in order to broaden their undergraduate experience and prepare themselves for graduate study or professional employment. Students who have clear career goals are advised to take three or more elective courses from the group that fits their needs most closely. Students also may seek a broad education in geoscience by choosing elective courses from a number of groups.

**Quaternary Geology**
EES:3020 Earth Surface Processes 3 s.h.
EES:3100 Introduction to Applied Remote Sensing 4 s.h.
EES:3360 Soil Genesis and Geomorphology 3 s.h.
EES:3380 Fluvial Geomorphology 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4620 Approaches to Geoarchaeology 3 s.h.
EES:4630 Hydrogeology 3 s.h.
EES:4720 Glacial and Pleistocene Geology 3 s.h.

EES:4790 Engineering Geology 3 s.h.
EES:4870 Applied Geostatistics 3 s.h.

**Environmental Geology**
EES:1400 Natural Disasters 3 s.h.
EES:3070 Marine Ecosystems and Conservation 3 s.h.
EES:3080 Introduction to Oceanography 2 s.h.
EES:3100 Introduction to Applied Remote Sensing 4 s.h.
EES:3380 Fluvial Geomorphology 3 s.h.
EES:3390 Integrated Watershed Analysis 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4630 Hydrogeology 3 s.h.
EES:4680 Field Methods in Hydrologic Science 3 s.h.
EES:4790 Engineering Geology 3 s.h.
EES:4800 Solid Earth Geophysics 3 s.h.
EES:4870 Applied Geostatistics 3 s.h.

**Geochemistry**
EES:3410 Analytical Methods 2 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4630 Hydrogeology 3 s.h.
EES:4870 Applied Geostatistics 3 s.h.
EES:5820 Tectonics 3 s.h.

**Tectonics/Petrology**
EES:1400 Natural Disasters 3 s.h.
EES:3410 Analytical Methods 2 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4750 Mineral and Petroleum Exploration Geology 3 s.h.
EES:4800 Solid Earth Geophysics 3 s.h.
EES:5820 Tectonics 3 s.h.

**Sedimentary Geology**
EES:3080 Introduction to Oceanography 2 s.h.
EES:3300 Sedimentary Geology 4 s.h.
EES:3380 Fluvial Geomorphology 3 s.h.
EES:3770 Global Stratigraphy 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4750 Mineral and Petroleum Exploration Geology 3 s.h.
EES:5820 Tectonics 3 s.h.

**Paleobiology**
EES:3070 Marine Ecosystems and Conservation 3 s.h.
EES:3080 Introduction to Oceanography 2 s.h.
EES:3210 Principles of Paleontology 3 s.h.
EES:3220 Evolution of the Vertebrates 3 s.h.
EES:3300 Sedimentary Geology 4 s.h.
EES:3770 Global Stratigraphy 3 s.h.
EES:4420 Vertebrate Osteology and Phylogeny 3 s.h.
EES:4440 Phylogenetics and Biodiversity 3 s.h.
EES:4450 Morphometrics 1-3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4700 Evolution of Ecosystems 3 s.h.
EES:4710 Evolution of Plants 3 s.h.
EES:5820 Tectonics 3 s.h.

INDEPENDENT RESEARCH OPTION FOR GEOSCIENCE MAJORS

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project in EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

Bachelor of Arts

The Bachelor of Arts with a major in geoscience requires a minimum of 120 s.h., including at least 51 s.h. of work for the major (at least 35 s.h. in earth and environmental sciences courses and at least 16 s.h. in supporting disciplines). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Transfer students must complete a minimum of 15 s.h. of course work in the Department of Earth and Environmental Sciences.

The geoscience major for the B.A. is designed to provide students with a varied background in geology and a broader choice of electives than is practical in the Bachelor of Science program. The major for the Bachelor of Arts is intended for students who are interested in the fundamentals of geology or earth science teaching (see "B.A. or B.S. with Teacher Licensure" below).

Completin the minimum requirements for this degree may not adequately prepare a student for an entry-level professional job in geology.

The department recommends that students fulfill the General Education Program's World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved course work in economics, geography, or anthropology.

The geoscience major for the Bachelor of Arts requires the following course work.

EARTH AND ENVIRONMENTAL SCIENCES

This course:
EES:2410 Mineralogy 4 s.h.
One of these:
EES:1030 Introduction to Earth Science 4 s.h.
EES:1050 Introduction to Geology 4 s.h.
One or both of these:
EES:1040 Evolution and the History of Life 4 s.h.
EES:3210 Principles of Paleontology 3 s.h.
At least three of these:
EES:3300 Sedimentary Geology 4 s.h.
EES:3360 Soil Genesis and Geomorphology 3 s.h.
EES:3380 Fluvial Geomorphology 3 s.h.
EES:3500 Igneous and Metamorphic Petrology 4 s.h.
EES:3840 Structural Geology 4 s.h.
EES:4630 Hydrogeology 3 s.h.

And:
Geoscience electives 12 s.h.

MATHEMATICS

B.A. students must complete the following course work in mathematics.

College-level mathematics (may include computer science and statistics) 10 s.h.

CHEMISTRY

B.A. students must complete at least two college-level chemistry courses, as follows. Chemistry courses numbered below CHEM:1070 General Chemistry I do not count toward this requirement.

One of these sequences:
CHEM:1070 & CHEM:1080 General Chemistry I-II 6 s.h.
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.

FIELD REQUIREMENT

To complete the major, B.A. students must have field experience. They may take two semesters of EES:1180 Geology Field Trip: Selected National Parks, or two semesters of EES:3160 Field Trip, or one semester of each of the two courses. Or they may take one semester of EES:2831 Geologic Field Methods or the Iowa Lakeside Laboratory (p. 1212) session.

EES:1180 Geology Field Trip: Selected National Parks 2 s.h.
EES:2831 Geologic Field Methods 3 s.h.
EES:3160 Field Trip 2 s.h.
One natural science session at Iowa Lakeside Laboratory for a minimum of 3 s.h.

INDEPENDENT RESEARCH OPTION FOR GEOSCIENCE MAJORS

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project in EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

B.A. or B.S. with Teacher Licensure

Geoscience majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several...
College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a major offered by the Science Education Program. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Science Education (p. 788) in the Catalog.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Note: These checkpoints show the range of required course work; the major for the Bachelor of Arts requires a minimum of 17 courses; the major for the Bachelor of Science requires 19.

The geoscience major requires field trip experiences, many of which take place during breaks in or between semesters or during the summer session. These checkpoints do not include the field trip requirements.

**Before the third semester begins:** competence in math through trigonometry and the first required chemistry course

**Before the fifth semester begins:** three to five courses in the major, including the remainder of the chemistry requirement and continuation of the mathematics requirement

**Before the seventh semester begins:** 7-11 courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 10-14 courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in geoscience have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all University of Iowa course work and in all geoscience courses. To graduate with honors in geoscience, students must complete a senior thesis, registering in EES:4999 Honors Thesis in Geoscience. They must obtain approval of their honors thesis contract from their advisor and the department's undergraduate committee, and they must earn a grade of B or higher in EES:4999.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Minor

The minor in geoscience requires a minimum of 15 s.h. in geoscience courses, including 12 s.h. in courses considered advanced for the minor offered by the Department of Earth and Environmental Sciences at the University of Iowa. Mineralogy [EES:2410], Geologic Field Methods [EES:2831], and all earth and environmental sciences courses numbered 3000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

College-level courses in mathematics, physics, chemistry, and biology usually are required as collateral work for geoscience students. Those seeking a minor in geoscience should be sufficiently prepared in the areas of supporting sciences before they take advanced courses in geoscience.

Recommended advanced courses in geoscience that deal with important areas of earth materials and earth processes are as follows.

<table>

Courses for Nonmajors

Each year more than 1,800 students enroll in Department of Earth and Environmental Sciences introductory courses that are approved for General Education; look for courses with the prefix EES under "Natural Sciences" in the General Education Program (p. 313) section of the Catalog.

The department also offers the following upper-level courses with few or no prerequisites.

National Honor Society

The department sponsors a chapter of Sigma Gamma Epsilon National Honor Society for the Earth Sciences. Students with an overall g.p.a. of at least 2.80 and at least
3.20 in geoscience courses are considered for membership after they have completed a minimum of 16 s.h. of course work in geoscience. Consult the departmental honors advisor for more information.

Graduate Programs of Study

- Master of Science in geoscience
- Doctor of Philosophy in geoscience

The Master of Science program in geoscience prepares students for employment in industry or for doctoral study. The Doctor of Philosophy program is designed to prepare students for future employment in higher education or research and to bring them to the forefront of a specialized area of geoscience.

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College (particularly sections IX, X, and XII). They also should acquaint themselves with the University calendar, for deadline dates and so forth.

All entering graduate students are required to enroll in EES:5070 Geologic Orientation during the fall semester of their first year in the graduate program.

The department provides detailed information about current graduate degree requirements and timelines for making satisfactory progress toward a degree in the document "The University of Iowa Guidelines for Graduate Study in Earth and Environmental Sciences"; see Graduate Student Guidelines under Graduate Program on the Department of Earth and Environmental Sciences web site.

Throughout their graduate study, all M.S. and Ph.D. students must maintain a g.p.a. of at least 3.00 in all course work required for their degree and in all graduate-level geoscience course work. Students whose grade-point average drops below 3.00 are placed on academic probation.

Geoscience graduate students are encouraged to present their research at local, regional, national, or international meetings. The department provides partial funding for travel to such meetings.

Master of Science

The Master of Science degree in geoscience requires a minimum of 30 s.h. of graduate credit. The program is designed primarily to prepare students for employment in industry or for study toward a Ph.D. degree. M.S. students may count up to 8 s.h. of research credit toward the 30 s.h. required for the degree. They must earn at least 24 s.h. toward the degree in University of Iowa courses taken after they enroll in the program. M.S. students also must complete EES:5010 Geoscience Seminar Series each semester until they defend their thesis.

During the second semester of study, each M.S. student should propose an advisory committee of at least three faculty members to the department chair for approval. M.S. thesis students are responsible for obtaining their advisory committee's approval of a suitable program of course work and for satisfactory development of research plans as outlined in a thesis proposal, which should be completed and approved by the department chair before the end of the second semester of full-time study. The thesis typically has depth and breadth similar to those of a published research paper. Thesis students must deliver a half-hour public presentation of their thesis, followed by an oral defense. They also are required to present their research at a local, regional, national, or international meeting approved by the department chair before they may graduate.

Doctor of Philosophy

The Doctor of Philosophy degree in geoscience requires a minimum of 72 s.h. of graduate credit. The program is designed to prepare students for future employment in higher education or research and to bring them to the forefront of a specialized area of geoscience.

The Ph.D. requires a dissertation, which has the approximate research content of three published papers.

Ph.D. students usually enter the program with established fields of interest and a research advisor already selected. Under exceptional circumstances, a student may be admitted to the Ph.D. program without an established field of interest.

Entering Ph.D. students must consult with a research advisor or the department's director of graduate study before they enroll in courses. By the first month of their second semester of doctoral study, all Ph.D. students must select an advisor. Each student also must select a thesis topic and forward it to the department chair for approval by the end of the first month of the second semester of doctoral study.

Within broad limits, Ph.D. students should select courses that reflect their individual needs, interests, and talents; their advisor and advisory committee must approve their course selections.

During the second semester of doctoral study, each Ph.D. student should propose an advisory committee of at least five faculty members to the department chair for approval. Before the end of the second semester of doctoral study, each student must obtain his or her committee's approval of a suitable plan of study to be submitted to the department chair for approval. In consultation with the advisor and other faculty members, each doctoral candidate prepares a formal dissertation proposal approved by their committee and submitted to the department chair for approval by the end of the candidate's third semester of doctoral study.

Students are required to include in their plan of study at least 18 s.h. of regular course work taught by tenured or tenure-track faculty members of the Department of Earth and Environmental Sciences. Students must earn the 18 s.h. after being admitted to and enrolling in the Ph.D. program. Directed study and research credit do not count toward the required 18 s.h.

Ph.D. students must enroll in EES:5010 Geoscience Seminar Series each semester they are registered until they successfully defend their dissertation, or for two consecutive semesters after the semester in which they pass their comprehensive examination, whichever comes first.

After earning their first 24 s.h. of graduate credit, Ph.D. students must be enrolled at least two consecutive semesters in full-time study (at least 9 s.h. per semester) at the University of Iowa; or they must be enrolled three consecutive semesters for at least 6 s.h. per semester at the University, during which time they hold at least
a one-quarter-time assistantship that is certified by the department as contributing to their doctoral program.

Students should complete most of their course work before taking the comprehensive examination, which consists of both written and oral portions and which must be passed before the end of the fourth semester of doctoral study.

Once Ph.D. candidates have passed the comprehensive examination, they are required to register each semester until they receive the degree. Candidates who have completed their plan of study may register for GRAD:6002 Doctoral Continuous Registration or GRAD:6003 Doctoral Final Registration.

Students must submit their written dissertation to the committee at least two weeks before the final examination. All Ph.D. candidates must deliver a one-hour public presentation associated with the dissertation defense. They also are required to submit a manuscript presenting the results of their graduate research to a refereed journal or other publication approved by the department chair before they may defend their dissertation.

Facilities

Resources and equipment available for research in the Department of Earth and Environmental Sciences include the following.

Computer facilities: three teaching classrooms with 10-12 networked PC workstations; a computing classroom with 20 PCs and 10 Mac workstations with GIS, GMS, remote sensing, image analysis, and specialized computational software packages; a student computer room with six PCs and two Macs; and a number of multiprocessor workstations in research laboratories.

Electron microprobe: JOEL JXA-8230 electron probe microanalyzer with five wavelength-dispersive spectrometers capable of quantitatively analyzing a full spectrum of elements in solid materials to a spot size as small as one micron.

Environmental and Hydrogeology Laboratory: permeameters and tensiometers; pumping and slug/bail test units with transducers and data-loggers; water-quality analysis facility; advanced groundwater modeling and geostatistics software; advanced data logging systems for field research; 3-D sensor arrays (wind and water systems); and facilities for field instrumentation design and construction.

Environmental Instrumentation Laboratories: storage, testing, and teaching facility focusing on field instrumentation; assembly, housing, and testing of climatic, meteorological, fluvial, water quality and associated environmental instrumentation data recording systems and sampling systems.

Geomorphic Computing Laboratory: high-end visualization, digitizing, remote sensing and GIS systems; and high-end multiprocessor workstations.

Morphometric laboratories: reflex microscope and microscribe for capturing 3-D data; high-resolution digital cameras and microscopes for 2-D image analysis; and laboratories for micro- and macro-fossil preparation.

Paleontological Repository: more than a million specimens, including some 25,000 type and referred specimens, with 6,000-7,000 primary types; invertebrate, vertebrate, and plant fossils of all geologic ages, and more than 90 percent Paleozoic invertebrates; the fifth-largest university collection in North America (CONARIP 1977).

Petrology and geochemistry laboratories: laser-ablation inductively coupled plasma mass spectrometer (LA-ICPMS); clean laboratory for preparation of samples for elemental and isotopic analysis; alpha- and gamma-spectrometry laboratories; image analysis; petrographic microscopes; photo microscopy; wet-chemistry facilities; rock preparation and mineral separation; UNIX, Windows, and Mac workstations for data analysis and modeling; and one atm gas-mixing furnace for melt inclusion homogenization.

Quaternary Materials Laboratory: pipette grain-size analysis apparatus; chitick apparatus; Sedigraph 5100 X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; wet-chemistry facilities; C-H-N element analyzer; a Flotech flotation system; and a Giddings drill rig.

Scanning Electron Microscope: Hitachi S-3400N, a variable-pressure scanning electron microscope (SEM) equipped with a motorized stage, large chamber, and digital image capture; capable of imaging specimens with no metal coating, or specimens that are slightly hydrated or porous, as well as conventionally processed specimens; equipped with a Bruker AXS Quantax 400 X-ray microanalysis system; XFlash silicon drift detector with excellent energy resolution and light element detection, providing ultra-fast acquisition of line scans and elemental maps.

Sedimentary geology laboratories: water ion chromatograph; image analysis; Sedigraph X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; and a soil/sediment characterization laboratory.

Thin-section and rock preparation laboratory: diamond saws and specialized grinding equipment used to prepare ultrathin slices (30 microns thick) of rocks and fossils for microscopic and electron microprobe analysis.

Cooperative Activities

The department does collaborative work with the Iowa Geological Survey and the Office of the State Archaeologist of Iowa. Earth and environmental sciences students sometimes work on projects for the survey.

The Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences share services, expertise, joint instruction, and equipment. The Department of Earth and Environmental Sciences is an important participant in the Iowa Quaternary Studies group, an interdisciplinary program that promotes projects combining work in anthropology, biology, geography, geology, and statistics. Course work, degree programs, and facilities are shared among departments. The Department of Earth and Environmental Sciences and its faculty also support and actively participate in the Interdisciplinary Environmental Sciences (p. 278) Program, which offers an undergraduate major and minor, and a number of the department's courses satisfy requirements of the undergraduate Certificate in Sustainability (p. 1248).
Field Trips

Field trips are integral parts of several courses in earth and environmental sciences. The geology of the Iowa City region is characterized by Quaternary glacial sediments on a largely Paleozoic sedimentary section a few hundred meters thick, overlaying a Precambrian crystalline basement. Marine and terrestrial fossil assemblages, extensive reefs, and unique geode sites are located within a few hours’ drive. Numerous Pleistocene glaciations are represented in Iowa, and field studies of landforms, exposures, and cores continue to yield information on sedimentology, stratigraphy, soil formation, paleopedology, and fossil biotas from both glacial and interglacial deposits.

Spring break and summer provide time for longer trips, which are open to all earth and environmental sciences students. In recent years, students have traveled to the southern Appalachians, Arizona, China, Death Valley, Dominican Republic, the Florida Keys, Hawaii, New Mexico, the Ozarks, Puerto Rico, and Texas. Advanced classes have visited California, Colorado, Kansas, Montana, Oklahoma, Wisconsin, and Ontario, Canada.

Courses

Not all courses are offered every year.

Lower-Level Undergraduate

**EES:1000 First-Year Seminar**  1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**EES:1020 Loess Hills Service Learning Trip**  1 s.h.
Special topics, directed research.

**EES:1021 Spring Break Service Learning Trip**  1 s.h.
Special topics, directed research.

**EES:1030 Introduction to Earth Science**  3-4 s.h.
Relationships between plate tectonics, geologic time, and the rock cycle with volcanoes and igneous, sedimentary, metamorphic rocks; fossils; radioactive isotopes; landscape evolution; mountain building; natural resources; their impacts on civilization. GE: Natural Sciences without Lab; Natural Sciences with Lab. Same as CEE:1030.

**EES:1040 Evolution and the History of Life**  3-4 s.h.
Fossils over the past 3.5 billion years, origin and evolution of life, evolutionary radiations and mass extinctions, the invasion of land, dinosaurs, the age of mammals, relationship between biological systems and environmental change in earth history. Offered spring semesters. GE: Natural Sciences without Lab; Natural Sciences with Lab.

**EES:1050 Introduction to Geology**  4 s.h.
Minerals, rocks, and rock-forming processes (including volcanoes and sedimentary environments); surface processes (rivers, groundwater, glaciers, deserts, ocean shorelines), major earth processes (continental drift, plate tectonics, earthquakes, mountain building); impact on civilization. Offered fall semesters. GE: Natural Sciences with Lab.

**EES:1060 Origins of Life in the Universe (Part 1)**  3 s.h.
Fundamental questions (How old is the universe? What is the nature of life? How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (i.e., astronomy, physics, geoscience, biology, chemistry, anthropology); work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, effective written and oral communication; origin of the universe, biochemistry of life, and origin of life on Earth; first of a two-part sequence. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, BIOL:1060.

**EES:1061 Origins of Life in the Universe (Part 2)**  4 s.h.
Fundamental questions (What is the nature of life? What is evolution and how has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (astronomy, physics, geoscience, biology, chemistry, anthropology); students work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, and effective written and oral communication; second of a two-part sequence. GE: Natural Sciences with Lab. Same as ASTR:1061, BIOL:1061, ANTH:1061.

**EES:1070 Age of Dinosaurs**  4 s.h.
Origin and evolutionary history of dinosaurs; diversity of dinosaurian groups, their geographic distributions and paleoecology; origins of flight among dinosaurs; environmental context, including other animals and plants that lived alongside dinosaurs; the so-called extinction of dinosaurs and radiation of modern forms; the role dinosaurs play in the interaction between science and the popular media. Offered fall semesters. GE: Natural Sciences with Lab.

**EES:1080 Introduction to Environmental Science**  3-4 s.h.
Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Natural Sciences without Lab; Natural Sciences with Lab. Same as ENVS:1080.

**EES:1090 Introduction to Environmental Sciences Laboratory**  1 s.h.
Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENV:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as ENV:1090.

**EES:1115 Energy and Society: History and Science of Oil**
History, politics, and science of oil and oil industry. GE: Historical Perspectives. Same as ENVS:1115, GEOG:1115, HIST:1115.

**EES:1170 Geology of the U.S. National Parks**
Geologic features, geologic history, important biological and archaeological characteristics, with emphasis on features that caused certain areas to be included in national park system. Offered spring semesters.

**EES:1180 Geology Field Trip: Selected National Parks**
Observation, interpretation of prominent geologic, geomorphic, biological features; semester-break or semester-end visits to different parks or groups of parks each year. Offered spring semesters.

**EES:1290 Energy and the Environment**
Scientific concepts related to potentially significant energy sources of the 21st century; environmental impacts, positive and negative, of each energy source as well as geologic and geographical distributions and applications. GE: Natural Sciences without Lab.

**EES:1400 Natural Disasters**
How earth-atmosphere-hydrosphere-space systems produce events catastrophic to humans on the scale of individual lives to civilizations; root causes of earthquakes, landslides, volcanic eruptions, floods, hurricanes, tsunami, tornadoes, and asteroid impact, and their local, national, and global impact; spatial and temporal occurrences of these hazards; methods and processes for hazard preparedness, response, and recovery; social, economic, and policy aspects that affect and compound the magnitude of disasters associated with natural phenomena; case studies drawn from contemporary and ancient societies. GE: Natural Sciences without Lab.

**EES:2190 Directed Study**
Special topics, independent research.

**EES:2310 Introduction to Climatology**
Introduction to fundamental physical science principles that govern climatic processes and patterns; emphasis on scientific thinking and practice through lecture, discussion, exercises; opportunities to explore real-world climatology applications and questions (What is climate change? How fast is the climate actually warming? What are the contributions from us and how much is natural variability? How is climate change going to affect our weather?). Recommendations: GEOG:1020 or similar earth systems science course. Same as GEOG:2310.

**EES:2410 Mineralogy**
Physical, chemical, and optical properties of minerals; phase relations; structures; associations; diagnostic features for identification. Offered fall semesters. Prerequisites: (EES:1030 or EES:1050) and (CHEM:1070 or CHEM:1110) and (MATH:0100 or MATH:0300 or MATH:1010).

**EES:2831 Geologic Field Methods**
Introduction to basic methods of geologic field work in southwest Montana using topographic maps and GPS to locate oneself, identifying geologic map units (including superficial deposits), recognizing geologic contacts, constructing stratigraphic sections, measuring planar structures, and making geologic maps complete with a legend and cross-section. Offered summer session. Prerequisites: EES:1030 or EES:1050 or EES:1080 or EES:1400.

**Upper-Level Undergraduate and Graduate**

**EES:3000 Geologic Training Assignment**
Practical experience. Requirements: grade of C or higher in EES:3500 and geology g.p.a. of at least 3.00.

**EES:3020 Earth Surface Processes**
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENV:1080 or GEOG:1020. Same as ENVS:3020, GEOG:3020.

**EES:3040 Writing for the Earth and Environmental Sciences**
Practical methods of content creation across curriculum; effective communication to lay and academic audiences; methods of planning, drafting, revising, and editing everything from general articles of interest to scientific papers. Same as WRIT:3200.

**EES:3050 Geology of Iowa**
Investigation of geologic history responsible for landscape, soil, rocks, fossils, and geologic resources of Iowa. Recommendations: previous geology course.

**EES:3070 Marine Ecosystems and Conservation**
Introduction to ocean ecosystems, including coral reefs, mangroves, estuaries and salt marshes, sandy and rocky shores, seagrass and kelp beds, the deep sea, plankton; biodiversity of each ecosystem; interrelationship of biota and physical/chemical environment; interactions among organisms, including food webs and symbiosis; local and global threats such as overfishing, pollution, ocean acidification, global warming, sea level change; ongoing biodiversity crisis, solutions for conservation problems.

**EES:3080 Introduction to Oceanography**
Descriptive, chemical, physical, biological, geological aspects of oceans; impact on weather, climate, shorelines, food supply, other aspects of civilization. Offered spring semesters. Recommendations: knowledge of basic chemistry, biology, physics, earth science.
EES:3090 Topics in Museum Studies 1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation; designed by members of the University of Iowa Collections Coalition. Same as MUSM:3090.

EES:3100 Introduction to Applied Remote Sensing 4 s.h.
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080. Same as ENVS:3100.

EES:3110 Chemical Evolution of the Oceans 3 s.h.
Investigation of various physico-chemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as ENVS:3110.

EES:3150 Sustainability Project arr.
Individual or collective project related to sustainability under the direction and supervision of a faculty member; involves regularly scheduled meetings, data collection and interpretation, and a final project report.

EES:3160 Field Trip 2 s.h.
Field trip to an area of geologic interest, such as carbonate area of Florida, Grand Canyon (Arizona), Rio Grande Rift (New Mexico), Death Valley (California, Nevada), Appalachian Mountains (Virginia); preceded by weekly discussions of destination's geology. Offered spring semester.

EES:3190 Directed Study arr.
Special topics, independent research.

EES:3200 Collection Care and Management 3 s.h.
How a museum's management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as MUSM:3200.

EES:3206 Seminar: Taphonomy 3 s.h.
Taphonomy (study of fossil record in paleontology and archaeology); processes for accumulation, modification, and deposition of remains in prehistory; instruction by archaeologist and paleontologist. Requirements: graduate standing. Same as ANTH:3206.

EES:3210 Principles of Paleontology 3 s.h.
Patterns of evolution in fossil record; species and analysis of their evolutionary relationships; paleoecology, paleocommunity evolution; evolutionary radiation and mass extinctions; large-scale relationships between biodiversity and climatic change. Offered fall semesters.

EES:3220 Evolution of the Vertebrates 3 s.h.
Evolutionary history of vertebrates revealed by fossils and information from living animals; biogeographic, stratigraphic, paleoecological aspects of selected groups, especially mammals and dinosaurs; transitions from aquatic to terrestrial life, origins of flight, major events in vertebrate history (including mass extinctions and explosive radiations). Requirements: introductory course in geoscience or bioscience.

EES:3260 Wetlands: Function, Geography, and Management 3 s.h.
Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2374 or EES:2310. Same as GEOG:3320.

EES:3300 Sedimentary Geology 4 s.h.
Basic concepts of sedimentology, stratigraphy, depositional environments, sedimentary petrology; hands-on analyses of sediments and sedimentary rocks, including thin-section petrography; lecture/laboratory. Offered fall semesters. Prerequisites: EES:1030 or EES:1050.

EES:3360 Soil Genesis and Geomorphology 3 s.h.
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as GEOG:3360.

EES:3380 Fluvial Geomorphology 3 s.h.
Hydrologic principles, stream channel processes, and fluvial geomorphology within drainage basin systems; spatial and temporal variations in water distribution, analysis of hydrological data, flow mechanisms, sediment transport, forecasting procedures, hydrograph construction, modeling. Requirements: EES:3020 or another 3000-level geology or hydraulics course. Same as CEE:3328.

EES:3390 Integrated Watershed Analysis 3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment; basin management issues related to forestry, agriculture, urbanization, floods, droughts.
EES:3410 Analytical Methods  2 s.h.
Theory and practice of analyzing the chemical, isotopic, and mineralogical compositions of rocks, organic materials, and waters; use of modern analytical instruments. Offered spring semesters. Prerequisites: EES:3500 and CHEM:1070 and (PHYS:1512 or PHYS:1702).

EES:3500 Igneous and Metamorphic Petrology  4 s.h.
Nature, origin, and petrography of igneous and metamorphic rocks in hand specimen and thin-section. Offered spring semesters. Prerequisites: (EES:1030 or EES:1050) and EES:2410 and (CHEM:1070 or CHEM:1110) and (MATH:0100 or MATH:0300 or MATH:1010).

EES:3770 Global Stratigraphy  3 s.h.
Types of stratigraphy (e.g., biostratigraphy, lithostratigraphy, sequence stratigraphy, chemostratigraphy, magnetostratigraphy, cyclostratigraphy, chronostratigraphy) that share a number of procedures and practices and how differences cloud understanding of Earth history; central role of stratigraphy in modern geoscience pursuits; issue of time in stratigraphic record as an organizing theme for investigation of comparative stratigraphy.

EES:3840 Structural Geology  4 s.h.
Rock deformation; description, classification of geologic structures such as faults and folds; processes that generate geologic structures; solution of structural problems; interpretation of geologic maps. Prerequisites: EES:1030 or EES:1050.

Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as CBE:4156, ACB:4156.

EES:4200 Advanced Collection Care and Management  3 s.h.
Builds on MUSM:3200; types and materials of museum objects and their care; storage and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; collections project and hands-on practice in preservation techniques, enclosures, and supports; for students planning museum careers or professions that require care of collections. Prerequisites: MUSM:3200 or EES:3200. Same as MUSM:4200.

EES:4230 Special Topics  1-3 s.h.
Contemporary issues in earth sciences.

EES:4420 Vertebrate Osteology and Phylogeny  3 s.h.
Anatomy of the vertebrate skeleton from developmental, functional, and phylogenetic perspectives; relationship between skeletal, muscular, and nervous systems; history of the skeleton through modern forms; lecture and laboratory. Prerequisites: EES:3220 or ANTH:3305.

EES:4440 Phylogenetics and Biodiversity  3 s.h.
Methods available for reconstructing evolutionary history and measuring biodiversity, including distance, parsimony, likelihood, and taxic approaches; applications to molecular and morphological systematics, historical biogeography, study of diversity through time. Prerequisites: (EES:1040 or EES:3210) or (BIOL:1411 and BIOL:1412).

EES:4450 Morphometrics  1-3 s.h.
Quantitative methods for collection and analysis of morphologic data, including 2-D and 3-D geometric morphometrics and use of multivariate statistical methods to study of size and shape; applications of morphometric techniques to study development, adaptation, variation within and among species, related topics in paleontology and evolutionary biology. Offered alternate years. Prerequisites: EES:1040 or EES:3210.

EES:4490 Elements of Geochemistry  3 s.h.
Introduction to application of chemical principles to solution of geologic problems concerning earth and environmental processes; origin of elements, chemical differentiation of Earth and the solar system, geochronology, application of radiogenic and stable isotopes, chemical equilibrium, elementary thermodynamics and kinetics, carbonate and silicate stability relationships, chemical weathering, adsorption, trace element behavior, oxidation-reduction reactions, characterization of surface and ground waters, and ocean chemistry. Prerequisites: EES:1050 and CHEM:1080.

EES:4520 Isotope Geochemistry  3 s.h.
Radiogenic and stable isotope systematics, applications to geological, cosmochemical, and environmental problems.

EES:4620 Approaches to Geoarchaeology  3 s.h.
Geoarchaeology as multidisciplinary contextual framework for human paleoecology; natural processes that create the archaeological record, approaches to reconstructing landscapes of the past as a context for archaeological deposits; weekend field trip. Prerequisites: EES:3360 or EES:4720 or ANTH:3205 or ANTH:4205. Same as ANTH:4620.

EES:4630 Hydrogeology  3 s.h.
Role of groundwater in water cycle, subsurface water profile, aquifers and aquitards, basic principles and laws of physical and chemical processes of groundwater flow and contaminant transport in geological formations for sustainable development and protection of groundwater resources; groundwater geology and hydrology, regional aquifer systems, well hydraulics, slug/bail and pumping test and their analyses, groundwater contamination and remediation, management and sustainability of groundwater resources.

EES:4660 Groundwater Modeling  3 s.h.
Groundwater flow and contaminant transport modeling; numerical methods, applications of groundwater modeling to water supply, groundwater resources evaluation, remediation design using software: GMS (MODFLOW, MODPATH, and MT3D). Prerequisites: (EES:4630 or CEE:4103) and MATH:1860. Same as CEE:4104.

EES:4680 Field Methods in Hydrologic Science  3 s.h.
Collection and interpretation of physical hydrology and hydraulics field measurements; basic data quality assurance and quality control; hands-on experience with field equipment and data collection. Prerequisites: EES:2831 or EES:3020 or EES:3360 or EES:3380 or EES:4630 or EES:4720 or EES:4790 or EES:4800 or CEE:3371 or ENGR:2510 or ENVS:3020.

EES:4700 Evolution of Ecosystems 3 s.h.
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as ENVS:4700.

EES:4710 Evolution of Plants 3 s.h.
Evolutionary history of plants over geologic time: relationships, morphology, and fossil record of major plant lineages; patterns and processes in evolution of plant morphology and diversity; ecological innovations and evolution of terrestrial ecosystems; relationships between biotic and environmental change; paleobotanical tools in stratigraphy, paleoclimatology, sedimentology; practical aspects of paleobotanical data collection, statistical analysis, modeling; field trip. Requirements: two courses in geoscience, anthropology, biology, environmental science, or geography.

EES:4720 Glacial and Pleistocene Geology 3 s.h.
Introduction to glaciers and glacial and interglacial Earth systems; linkages among glacial, oceanic, and atmospheric systems and their effects on landscapes and biota over the past two million years; how oceans, atmosphere, and glaciers interact and landscape effects of past glacial and interglacial cycles. Requirements: physical geology or physical geography or anthropology.

EES:4750 Mineral and Petroleum Exploration Geology 3 s.h.
Fundamentals of resource exploration philosophy and methods, with project-based presentation of techniques and strategies for mineral exploration and petroleum exploration; integration and evaluation of geological, geochemical, and geophysical techniques for mineral exploration; hydrocarbon systems and seismic interpretation for petroleum exploration. Corequisites: EES:3500 and EES:3840.

EES:4790 Engineering Geology 3 s.h.
Application of geology, water, and earth processes to civil and environmental engineering practice; physical properties of rock and soil, geologic mapping and surveying, groundwater supplies and wells, stream engineering, watershed management, site investigations for environmental assessment, and geologic hazards. Prerequisites: EES:1030 or EES:1050 or EES:1080.

EES:4800 Solid Earth Geophysics 3 s.h.
Geophysical methods used to address geological and engineering problems (e.g., finding petroleum and mineral deposits, studying groundwater resources, tracing contaminant plumes, evaluating archaeological sites); methods including gravity, magnetics, radiometrics, refraction and reflection seismography, geophysical well logging, and geoelectrical methods (direct current, frequency- and time-domain electromagnetics, induced polarization, magnetic resonance surveying, ground-penetrating radar); capabilities, drawbacks, costs; planning and budgeting surveys, processing the resulting digital data. Requirements: introductory geology or physics.

EES:4832 Geologic Field Analysis 3 s.h.
Structural, stratigraphic, and regional analysis of geology in the Rocky Mountains of Montana; emphasis on making reasonable geologic interpretations from field relationships; mapping projects in vicinity of Dillon, Montana that build on experience gained in EES:2831; capstone experience dedicated to synthesizing the geology of a fold-and-thrust belt near Glacier National Park. Offered summer session. Prerequisites: EES:2831 and EES:3840.

EES:4870 Applied Geostatistics 3 s.h.
Applications of geostatistical methods to geology, geography, hydrology, environmental sciences, and engineering; variogram, Kriging, analysis of spatial-varied data with varied computer software in participants' specialties. Same as GEOG:4870.

EES:4990 Senior Thesis in Geoscience 1-2 s.h.
Independent research resulting in a senior thesis. Requirements: senior standing.

EES:4999 Honors Thesis in Geoscience 1-2 s.h.
Independent research resulting in an honors thesis. Requirements: honors standing.

Graduate

EES:5010 Geoscience Seminar Series 1 s.h.
Scholarly work and research in geoscience.

EES:5015 American Association of Petroleum Geologists Fall Field Trip 1 s.h.
Resource-related topics in mineral and hydrocarbon exploration; joint field trip with Iowa State University. Requirements: AAPG student chapter member or graduate standing, and basic understanding of mineralogy, petrology, and structural geology.

EES:5070 Geologic Orientation 1 s.h.
Department degree requirements, programs; field survey of local geology; tips for TAs; introduction to specialized facilities; for new graduate students.

EES:5120 Global Change Seminar 1-2 s.h.
Current global change issues, including climate change, ecosystem changes and conservation, energy; seminar format with student presentations.

EES:5250 Environmental Seminar 1 s.h.
Environmental topics selected by student and instructor.

| EES:5330    | Carbonate Petrology                  | 2              | Identification of constituents and interpretation of genesis, structures, environments of formation, and patterns and processes of diagenesis in limestones; laboratory-based. Requirements: familiarity with optical microscope and sedimentation principles.  
EES:5350    | Depositional Environments            | 3-4            | Modern patterns of sedimentation; emphasis on interpreting depositional environments of ancient sedimentary rocks and deciphering resulting stratigraphic patterns. Requirements: knowledge of basic sedimentary geology and paleontology.  
EES:5380    | Process Geomorphology Seminar       | 1-3            | Topics in process geomorphology ranging from fluvial dynamics to mass movement to sediment transport and related environmental processes.  
EES:5530    | Geochronology                        | 3              | How to evaluate published ages, and assumptions/errors involved; how to select and sample suitable materials for dating, and choose a suitable dating method and analytical technique; opportunity to develop skills for research and professional careers. Prerequisites: EES:4490 or EES:4520.  
EES:5550    | Metamorphic Petrology                | 3              | Interpretation of metamorphic rocks using hand specimens, thin sections, field relationships, mineralogical composition, texture, geochronology, isotope geochemistry, thermodynamics, kinetics, and tectonic setting; phase equilibria in pelitic, mafic, and carbonate rocks; thermobarometry, petrogenetic grids, P-T-X relationships, and pseudosections; kinetic models of metamorphic textures, heat-flow modeling, P-T-t paths, and tectonic evolution of metamorphic rocks. Prerequisites: EES:3500.  
EES:5820    | Tectonics                            | 3              | Dynamic processes responsible for crustal genesis, plate movements, mountain building; plate boundary zones; sedimentologic, structural, petrologic, geophysical characteristics of major tectonic settings; multidisciplinary approach; week-long field trip. Prerequisites: EES:3840.  
EES:6390    | Advanced Watershed Analysis Seminar  | 1-3            | Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment, and basin management issues related to forestry, agriculture, urbanization, floods, droughts.  
EES:6570    | Tectonics and Petrology Seminar      | 1-2            | Topics in tectonics, structural geology, petrology.  
EES:6920    | Advanced Structural Geology          | 3              | Kinematic and dynamic analysis of deformed rocks; microstructural analysis; strain analysis, field investigations of highly deformed rocks. Prerequisites: EES:3840.  
EES:7990    | Research: Geoscience                 | arr            | Independent research related to theses or dissertations in geoscience.  

Elementary Education

**Undergraduate major:** elementary education (B.A., B.S.)
**Web site:** http://www.education.uiowa.edu/teach

**Undergraduate Program of Study**

- Major in elementary education (Bachelor of Arts, Bachelor of Science)

**Bachelor of Arts, Bachelor of Science**

The College of Education offers the major in elementary education. The major is available with a Bachelor of Arts or a Bachelor of Science; both degrees are awarded by the College of Liberal Arts and Sciences. The College of Education also offers endorsement for instruction of middle school students (secondary education).

Students interested in pursuing a degree in elementary education must first be admitted to the College of Liberal Arts and Sciences and then must apply to the College of Education. Admission to the College of Education’s elementary education program is not guaranteed. In order to be considered for admission to the elementary education program, undergraduates must complete a minimum of 30 s.h. of course work and must have a University of Iowa and a cumulative g.p.a. of at least 3.00. All students must submit PRAXIS I or PRAXIS Core test scores with their application to the Teacher Education Program (TEP). Students should visit with an advisor or speak with Teacher Education Program staff about complete admission requirements.

The elementary education major prepares students to teach kindergarten through sixth grade. Students complete course work in the foundations and methods of teaching. They also may complete requirements for an endorsement, choosing from reading, English/language arts, science, social science, and other areas. Contact the College of Education’s Office of Education Services for information about endorsement requirements.

Students must maintain a g.p.a. of at least 2.70 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313) and must satisfy all other requirements for graduation with a bachelor’s degree from the College of Liberal Arts and Sciences.

For information about elementary and secondary education curriculum requirements, student teaching, and teacher licensure, see “TEP: Elementary Education (Undergraduate)” and “TEP: Secondary Education (Undergraduate and Graduate)” in the Teaching and Learning (p. 793) (College of Education) section of the Catalog and contact the Office of Education Services.
English

Chair

• Jonathan Wilcox

Undergraduate major: English (B.A.)
Undergraduate minor: English
Graduate degrees: M.A. in English; M.F.A. in English (creative writing, nonfiction writing); Ph.D. in English
Faculty: http://english.uiowa.edu/people
Web site: http://english.uiowa.edu/

The Department of English offers courses in literature, cultural studies, language, and writing. In these courses, students read poetry, fiction, essays, criticism, and theory to acquire methods for understanding literature and culture. In addition to providing these essential elements of a liberal arts and sciences education, the department's courses can augment students' specialized interests in other fields.

Many undergraduate and graduate students enroll in the department's degree programs. Most Ph.D. students in English are preparing for careers as teachers and scholars, and many M.F.A. students in the creative writing program and the nonfiction writing program are preparing for lives as storytellers, essayists, and poets. The B.A. and M.A. programs provide valuable training for careers in a variety of fields. Students who have earned English degrees from the University of Iowa write for advertising firms, newspapers, the entertainment industry and book publishers; teach in primary and secondary schools; practice law and medicine; work in business, industry, and nonprofits; and participate in state and federal government. As far as possible, a student's course of study is arranged to meet his or her individual needs and objectives.

The Department of English participates in several of the University's interdisciplinary units: the Departments of American Studies, Cinematic Arts, and Gender, Women's, and Sexuality Studies; the African American Studies Program; the American Indian and Native Studies Program; the Comparative Literature Program; and the Center for the Book.

WRITING PROGRAMS

For the past 75 years, the University of Iowa has been a national leader in all areas of creative writing. The University offers graduate degrees in creative writing, with specializations in fiction, nonfiction, and poetry. Undergraduate students majoring in English have the opportunity to enter the major's creative writing track, and all qualified undergraduates in other majors may enroll in creative writing courses offered by the Department of English.

Find creative writing courses (prefixes CW and CNW) under "Courses" toward the end of this Catalog section. See which ones are offered in certain semesters by searching for course subjects CW and CNW on the ISIS Courses page.

Undergraduate Programs of Study

• Major in English (Bachelor of Arts)
• Minor in English

The Department of English offers undergraduate courses in literature, film, digital media, critical theory, cultural studies, language, and writing. In these courses, students acquire methods for understanding the history and significance of texts in the cultures from which they emerge.

The department challenges students to strive for excellence as writers. It provides instruction in and opportunities for writing in all of its classes and offers students the option of building individual concentrations in creative or nonfiction writing. It also offers an honors program and a creative writing track, both of which have selective admission.

The Department of English is home to Alpha Tau Iota, the University of Iowa chapter of Sigma Tau Delta International English Honor Society. Membership is by invitation to high achieving students.

Students who plan to teach English in secondary schools should consult with an advisor in the College of Education as early as possible; contact the Office of Education Services. The education endorsement requires that students choose particular courses in the English major in order to meet state requirements. See "B.A. with Teacher Licensure" below.

Students interested in an English major should consult the academic advisor in the English undergraduate advising office. Visit the Department of English web site to learn about the faculty, courses, and upcoming events.

Bachelor of Arts

The Bachelor of Arts with a major in English requires a minimum of 120 s.h., including at least 36 s.h. (12 courses) of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students must earn at least 21 s.h. of credit for the major at the University of Iowa. Transfer students may count a maximum of 15 s.h. of approved transfer credit toward the major.

Students majoring in English should not use ENGL:1200 The Interpretation of Literature to fulfill the General Education Program's Interpretation of Literature requirement. They may substitute a course from the Literary, Visual, and Performing Arts area of General Education, excluding these:

DANC:1010 through DANC:2040;
DANC:4880 Dance Performance; and
MUS:1020 Performance Instruction for Nonmajors.

The following courses do not count toward the English major:

ENGL:1410 Sex and Popular Culture in the Postwar U.S.;
ENGL:1420 Technologies and Literatures of the Future;
CNW:1620 Introduction to Creative Nonfiction;
CW:1800 Creative Writing Studio Workshop;
courses with the prefix ENNM; and
courses numbered ENGL:1200 through ENGL:1355.

Students may count up to 6 s.h. earned in courses with prefix CW toward the English major.
All English majors must complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures.

Other course work for the major is divided into six areas and three historical periods. Students must complete a total of eight area courses (see “Areas” below) and six historical period courses (see “Historical Periods” below). Most courses (except those in the creative writing and nonfiction writing list) satisfy both an area and a historical period requirement, so many students complete the historical period requirements as they complete the area requirements. This allows them to choose additional elective course work to complete the major.

Each course’s area and period designations are included in its course description, which is provided in the comprehensive list of Department of English courses; see “Courses” at the end of this Catalog section. A course’s area and/or period designation may vary by semester; consult ISIS for semester-specific course information. Additional information about courses is available on the Department of English web site and from the academic advisor.

The major in English requires the following course work.

**INTRODUCTORY COURSE**

All English majors must complete this course and are encouraged to enroll in it as soon as they declare the major.

<table>

CW:3870 Advanced Fiction Writing 3 s.h.
CW:3875 Advanced Poetry Writing 3 s.h.
CW:4870 Undergraduate Writers' Workshop: Fiction 3 s.h.
CW:4875 Undergraduate Writers' Workshop: Poetry 3 s.h.
CW:4880 Undergraduate Writers' Seminar 3 s.h.
CW:4894 Undergraduate Project in Creative Writing 3 s.h.

Area Determined by Course Content

The following course's area is designated either as literary theory and interdisciplinary studies or as modern British literature and culture, depending on course context, which varies by semester. Consult ISIS for the semester-specific area designation.

ENGL:3010 Children's Literature 3 s.h.

HISTORICAL PERIODS

Students must take at least two courses from each of the following three historical periods.

Early Literatures Through the 17th Century

ENGL:2206 Classical and Biblical Literature 3 s.h.
ENGL:2216 Selected Works of the Middle Ages 3 s.h.
ENGL:2236 Selected Early Authors 3 s.h.
ENGL:3216 Topics in Medieval and Renaissance Literature 3 s.h.
ENGL:3226 Literature and Culture of the Middle Ages 3 s.h.
ENGL:3228 Literature and Culture of the Restoration 3 s.h.
ENGL:3236 Literature and the Culture of the Renaissance 3 s.h.
ENGL:3237 Literature and Culture of Seventeenth-Century England 3 s.h.
ENGL:3246 16th- and 17th-Century Poetry 3 s.h.
ENGL:3256 Elementary Old English 3 s.h.
ENGL:3257 Old English Beowulf 3 s.h.
ENGL:3266 Medieval Celtic Literature 3 s.h.
ENGL:3267 Medieval Norse Literature 3 s.h.
ENGL:3276 Medieval Drama 3 s.h.
ENGL:3277 English Renaissance Drama 3 s.h.
ENGL:3286 Chaucer 3 s.h.
ENGL:3287 Shakespeare 3 s.h.
ENGL:3296 Milton 3 s.h.

Literature of the 18th/19th Century

ENGL:2309 Selected British Authors Before 1900 3 s.h.
ENGL:2329 Topics in Modern British Literature Before 1900 3 s.h.
ENGL:2338 Eighteenth-Century British Literature 3 s.h.
ENGL:2348 British Romanticism 3 s.h.
ENGL:2359 Victorian Literature 3 s.h.
ENGL:2409 Selected American Authors Before 1900 3 s.h.
ENGL:2438 American Novel Before 1900 3 s.h.
ENGL:3329 Literature and Culture of Eighteenth-Century Britain 3 s.h.
ENGL:3338 Literature and Culture of the Romantic Period 3 s.h.
ENGL:3339 Literature and Culture of Nineteenth-Century Britain 3 s.h.
ENGL:3348 Literature and Culture of Nineteenth-Century Scotland 3 s.h.
ENGL:3418 Literature and Culture of America Before 1800 3 s.h.
ENGL:3419 Literature and Culture of Nineteenth-Century America 3 s.h.
ENGL:3429 Topics in American Literature Before 1900 3 s.h.
ENGL:3439 American Drama Before 1900 3 s.h.
ENGL:3459 African American Literature Before 1900 3 s.h.

Literature of the 20th/21st Century

ENGL:2100 Introduction to Criticism and Theory 3 s.h.
ENGL:2105 Disability in Literature and Cultural Theory 3 s.h.

Creative Writing Track

Students majoring in English may be eligible to enter the creative writing track. The track maintains the English major’s emphasis on training artful and intelligent readers while providing a focus on creativity and excellence in writing.

ADMISSION TO THE TRACK

Admission to the creative writing track is selective; students must apply and be admitted. Students who apply must have junior or senior standing (at least 60 s.h. earned) at the beginning of the semester in which they intend to start the track; a g.p.a. of at least 3.33 in English (based on all English courses taken, including creative writing courses); at least 9 s.h. earned in University of Iowa English literature courses, excluding those with prefixes CNW and CW; and two completed prerequisites for admission to the track (see list below).

For more information and online application forms, visit the creative writing track web page.

PREREQUISITES FOR ADMISSION TO THE TRACK

Applicants must have completed two prerequisites for admission to the creative writing track (6 s.h.), chosen from the following list of introductory writing courses.

- CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.
- CNW:2690 The Art and Craft of Writing About Business 3 s.h.
- CNW:2700 The Art and Craft of Personal Writing 3 s.h.
- CNW:2710 The Art and Craft of Food Writing 3 s.h.
- CNW:2720 The Art and Craft of Writing About Culture 3 s.h.
- CNW:2730 The Art and Craft of Science Writing 3 s.h.
- CNW:2740 The Art and Craft of Writing about the Environment 3 s.h.
- CNW:2760 The Art and Craft of Writing for Social Change 3 s.h.
- CNW:2770 The Art and Craft of Writing for New Media 3 s.h.
- CNW:2780 The Art and Craft of Writing About Sports 3 s.h.
- CNW:2790 The Art and Craft of Humor Writing 3 s.h.
- CNW:2800 The Art and Craft of Writing Across Genres 3 s.h.
- CNW:2810 The Art and Craft of Writing with Emotion 3 s.h.
- CNW:2820 The Art and Craft of the Literary Essay 3 s.h.
- CNW:2830 The Art and Craft of Immersion Journalism 3 s.h.
- CNW:2840 The Art and Craft of Travel Writing 3 s.h.
- CNW:2850 The Art and Craft of Writing About Politics 3 s.h.
- CNW:2900 The Essay Prize 3 s.h.
- CW:2100 Creative Writing 3 s.h.
- CW:2870 Fiction Writing 3 s.h.
- CW:2875 Poetry Writing 3 s.h.
- THTR:2301 Playwriting I 3 s.h.
- THTR:3301 Playwriting II 3 s.h.

CREATIVE WRITING TRACK REQUIREMENTS

The creative writing track requires 13 s.h. of credit. Students earn 4 s.h. in genre-based writing seminars, 3 s.h. in a special topics course, and 6 s.h. in approved upper-level creative writing courses.

The creative writing track requires the following course work.

Genre-based writing seminars—two of these (4 s.h.):

- ENGL:3721 Writers’ Seminar: Fiction 2 s.h.
- ENGL:3722 Writers’ Seminar: Poetry 2 s.h.
- ENGL:3723 Writers’ Seminar: Nonfiction 2 s.h.
- ENGL:3724 Writers’ Seminar: Literary Translation 2 s.h.
- ENGL:3725 Writers’ Seminar: Playwriting 2 s.h.

Special topics course (3 s.h.):

- ENGL:4720 Creative Writing Track: Special Topics 3 s.h.

Upper-level creative writing—two of these (6 s.h.):

- ENGL:4020 Honors Thesis Workshop 3 s.h.
- ENGL:4720 Creative Writing Track: Special Topics 3 s.h.
- CW:4870 Undergraduate Writers’ Workshop: Fiction 3 s.h.
- CW:4875 Undergraduate Writers’ Workshop: Poetry 3 s.h.
- CNW:3630 Advanced Nonfiction Writing 3 s.h.
- CNW:3632 Prose Style 3 s.h.
- CNW:3633 Personal Writing 3 s.h.
- CNW:3660 Multimedia Writing 3 s.h.
- CNW:3663 Radio and Writing 3 s.h.
- CNW:3664 Writing About Science 3 s.h.
- CNW:4631 Undergraduate Essay Workshop 3 s.h.
- THTR:3300 Advanced Playwriting 3 s.h.
- THTR:3310 Undergraduate Playwriting Workshop 1-3 s.h.
- THTR:3320 Writing for Film 3 s.h.

In order to take ENGL:4020 Honors Thesis Workshop (an honors thesis in creative writing), students must be in the creative writing track and must be members of the English Honors Program. They must fulfill all requirements for registration in the course; see “Honors in the Major” below.

B.A. with Teacher Licensure

English majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the College of Education’s Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.
Students interested in earning elementary school licensure should contact the Office of Education Services for information about requirements.

The following courses are required for students earning secondary school licensure.

**ENGLISH COURSES**

Students complete these courses as part of the English major.

- **ENGL:3190/EDTL:3382 Language and Learning** (area: literary theory and interdisciplinary studies) 2-3 s.h.
- **ENGL:3191/EDTL:3393 Reading and Teaching Adolescent Literature** (area: literary theory and interdisciplinary studies) 3 s.h.
- **CNW:4355/EDTL:4355 Approaches to Teaching Writing** (area: nonfiction and creative writing) 3 s.h.

**EDUCATION COURSES**

These College of Education courses are required for teacher education.

- **EDTL:3002 Technology in the Classroom** 2 s.h.
- **EDTL:3090 Orientation to Secondary Education** 1 s.h.
- **EDTL:4087 Seminar: Curriculum and Student Teaching** 1-3 s.h.
- **EDTL:4091 Observation and Laboratory Practice in the Secondary School (student teaching)** 6 s.h.
- **EDTL:4092 Observation and Laboratory Practice in the Secondary School (student teaching)** 6 s.h.
- **EDTL:4314 Introduction and Practicum: Secondary English** 3 s.h.
- **EDTL:4315 Methods: Secondary English** 3 s.h.
- **EDTL:4394 Methods: Secondary Reading** 2-3 s.h.
- **EPLS:3000 Foundations of Education** 3 s.h.
- **EPLS:4180 Human Relations for the Classroom Teacher** 3 s.h.
- **PSQF:1075 Educational Psychology and Measurement** 3 s.h.

**ADMISSION**

Applicants to the Teacher Education Program in English must complete a minimum of 30 s.h., including ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures and an additional 12 s.h. in English courses, before they are admitted to the program. The following courses do not count toward the additional 12 s.h.:

- **ENGL:1200 through ENGL:1355**
- **ENGL:3190 Language and Learning**
- **ENGL:3191 Reading and Teaching Adolescent Literature**

Admission to the Teacher Education Program is selective; contact the College of Education's Office of Education Services for information.

**Minor Licensure in English**

Students who seek licensure for secondary teaching in fields other than English may seek minor licensure in English. First-year courses in rhetoric, speech, or writing do not count toward this requirement.

The English minor licensure program includes the following course work.

- **ENGL:3190/EDTL:3382 Language and Learning** 2-3 s.h.
- **ENGL:3191/EDTL:3393 Reading and Teaching Adolescent Literature** 3 s.h.
- **CNW:4355/EDTL:4355 Approaches to Teaching Writing** 3 s.h.
- **EDTL:4315 Methods: Secondary English** 3 s.h.
- **EDTL:4394 Methods: Secondary Reading** 2-3 s.h.

While this program meets minimum requirements for licensure, the department recommends that students who want to teach English have considerably more training in the field.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** at least two courses in the major

**Before the seventh semester begins:** at least four more courses (total of six) in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least two more courses (total of eight) in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Iowa Degree in Three**

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours.
hours required for their degree. They should consult their advisor about the program.

**Honors in the Major**

Students majoring in English have the opportunity to graduate with honors in the major and to enhance their course of study through honors seminars and thesis writing. All students interested in taking honors course work are encouraged to join the English Honors Program as soon as they qualify. Students may join online; visit English Honors Program.

Students who wish to graduate with honors in the English major must take two honors seminars, complete a two-semester thesis project, and maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in English.

Each year the department offers four honors seminars covering a wide range of subject areas and historical periods. Honors seminars are limited to 18 students, carry 3 s.h. of credit, and meet three hours each week. These courses require substantial reading and research and culminate in a 15-20 page essay. Students register for ENGL:4000 English Honors Seminar.

To register for a seminar, students are encouraged to have a University of Iowa g.p.a. of at least 3.33 and must have completed three English courses (not including introductory courses in nonfiction or creative writing) with a g.p.a. of at least 3.33 in English. The department also recommends that students complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures before taking an honors seminar.

The two-semester thesis project requires ENGL:4020 Honors Thesis Workshop (fall) and ENGL:4040 Undergraduate Honors Project (independent study), for a total of 6 s.h. To enroll in ENGL:4020, students must have completed one honors seminar with a grade of A-minus or higher and must have a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in English.

The English Honors Program has established careful guidelines for each of the six types of honors theses accepted by the department: literary and cultural studies, nonfiction writing, electronic writing and multimedia production, English education, creative writing, and the interdisciplinary thesis for double honors, which allows a student to earn honors in two majors with one longer project. Information on thesis guidelines is available on the English Honors Program web site.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

**Minor**

The minor in English requires a minimum of 15 s.h. in English courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of approved transfer credit toward the minor. Before taking courses for the minor, students must complete the General Education Program requirement ENGL:1200 The Interpretation of Literature.

The minor must include at least 6 s.h. in literature courses numbered ENGL:2100 through ENGL:4810; the remaining 9 s.h. may be selected from additional courses in literature and from most courses in writing (prefixes CNW and CW), with a maximum of 6 s.h. earned in courses with the prefix CW. The following courses do not count toward the minor:

- ENGL:1410 Sex and Popular Culture in the Postwar U.S.;
- ENGL:1420 Technologies and Literatures of the Future;
- CNW:1620 Introduction to Creative Nonfiction;
- CW:1800 Creative Writing Studio Workshop;
- courses with the prefix ENNM; and
- courses numbered ENGL:1200 through ENGL:1355.

Students may declare the English minor on ISIS. In order for the minor to be recorded, students must indicate completion of the minor on their Application for Degree.

Students who would like help declaring the minor or in planning how to meet its requirements may stop by the Department of English advising office or schedule an appointment with an advisor by contacting the undergraduate English secretary.

**Graduate Programs of Study**

- Master of Arts in English
- Master of Fine Arts in English (creative writing or nonfiction writing)
- Doctor of Philosophy in English

The Master of Arts program in English introduces students to the professional study of literature; the Doctor of Philosophy program prepares them to serve as faculty members at colleges and universities.

The Master of Fine Arts program in creative writing features advanced courses in writing fiction and poetry. Students in creative writing study at the Iowa Writers' Workshop, renowned as a pioneer in teaching writers since its founding in 1936. The Master of Fine Arts program in nonfiction writing is one of the few programs in the nation that offer a full range of graduate courses in literary nonfiction.

The M.A. is appropriate for students who would like graduate training in English and who may have an undergraduate major in a different field or who may intend to earn a Ph.D. at another institution. Students interested in careers in any area of book studies (professional writing, editing, web design, or publishing) may wish to earn the M.A. as a terminal degree, as may teachers seeking to enhance their credentials or students pursuing intellectual growth unrelated to a specific career.

M.A. and Ph.D. students in English mix freely in graduate courses, share the same access to faculty, and meet the same standards of quality in their work.

**EXAM FOR THE MASTER OF ARTS IN TEACHING**

The department administers the English component of the exam for the Master of Arts in Teaching (M.A.T.) in coordination with the College of Education. M.A.T. students should contact the Department of Teaching and Learning for information.
Master of Arts

The Master of Arts program in English requires a minimum of 30 s.h. of graduate credit. The program's focus is on literary studies. The required 30 s.h. includes 24 s.h. earned in residence at the University of Iowa with a g.p.a. of at least 3.25. Students who wish to transfer to Iowa's Ph.D. program must complete two semesters or 15 s.h. of course work in literature (whichever they complete first) before applying for admission to the doctoral program.

COURSE WORK

Each student must take the following five courses numbered 5000 or above. Applicable transfer courses must be approved by the director of graduate study in English.

One course in criticism and theory numbered 5000 or above
Four courses numbered 5000 or above, chosen from the following five eras of British or American literature and culture: pre-1500; 1500-1660; 1660-1800; 1800-1900; 20th and 21st centuries

Elective courses constitute half of the total credit for the degree and may be chosen from graduate courses both in and outside the English department. Students may wish to explore opportunities for interdisciplinary study, language study, experience in theory and practice of writing, or specialization in a field of literary scholarship.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

Completion of the M.A. requires either a thesis or a portfolio. Students submit a written description of their choice to the director of the program before the semester in which they plan to graduate.

M.A. THESIS

Students who choose to write an M.A. thesis must submit a brief prospectus approved by a thesis director before they register for thesis credit and at least one semester before they submit the thesis. The thesis committee consists of the thesis director, the director of the M.A. program, and one other faculty member. The thesis is evaluated by the committee as either satisfactory or unsatisfactory.

A copy of the thesis must be presented to the Graduate College for approval. For detailed information about Graduate College deadlines and policies, see the Manual of Rules and Regulations of the Graduate College.

PORTFOLIO

Near the end of their course work, students who do not choose the thesis option must submit a portfolio of work to the M.A. examination committee, which consists of the director of the M.A. program and two other English faculty members. All three read the full portfolio. To pass, the candidate must win a majority vote of the committee members.

Students take the first step toward preparing to submit a portfolio by meeting with the director of the M.A. program to discuss the portfolio, early during the semester in which they plan to graduate. After fulfilling all distribution and eligibility requirements and clearing all incomplete grades, students present the director with a draft of the portfolio's introductory statement. Students planning to graduate at the end of fall semester should present the statement by the first week of October; those who plan to graduate at the end of spring semester should present the statement by the first week of March. Once the director approves the statement, the student must submit three copies of the full portfolio; the submission deadline is November 1 for students planning to graduate at the end of fall semester and April 1 for those who will graduate at the end of spring semester.

The work in the portfolio should demonstrate the student's knowledge of literature as a broad historical and theoretical inquiry. Students submit approximately 50 pages (12,500 words) of their best work, along with a self-reflective introductory statement of five to seven pages. The body of the portfolio should contain papers originally produced for classes, revised for a broader audience unfamiliar with the original classes. The introduction should detail the student's trajectory in the program and the literary-critical or methodological skills he or she has gained. It also should explain the contents of the portfolio; contextualize each paper; and give a brief overview of the writing. Students are expected to describe the research methods used in assembling their portfolios and the critical practices that ground their work.

Master of Fine Arts: Creative Writing

The Master of Fine Arts program in creative writing requires a minimum of 48 s.h. of graduate credit. The degree is offered through the Creative Writing Program (Iowa Writers' Workshop), a two-year residency program that culminates in a creative thesis, such as a novel, a collection of stories, or a book of poetry. Throughout the program, workshop students craft their manuscripts and engage in an exchange of ideas about writing and reading with each other and with the renowned teacher-authors who make up the workshop's faculty. Admission to the program is competitive.

For details about the M.F.A. in creative writing and about the Iowa Writers' Workshop, see Creative Writing (Iowa Writers' Workshop) (p. 212) in the Catalog.

Master of Fine Arts: Nonfiction Writing

The Master of Fine Arts program in nonfiction writing requires 48 s.h. of graduate credit. It is designed for accomplished students and writers of literary nonfiction; most complete it in three years. The program culminates in a thesis of at least 75 pages. M.F.A. students must complete 32 s.h. in residence at the University of Iowa, in courses specified by the program. They may choose electives widely, from courses offered by the English department and by all other University of Iowa departments.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

In addition to completing course work, students are required to enroll for at least 2 s.h. and no more than 8 s.h. of thesis credit. The thesis may be a single extended piece of nonfiction, a collection of shorter nonfiction
pieces, or a collection of essays. Whatever the project, the thesis is expected to be of publishable quality.

For more information, consult the director of the Nonfiction Writing Program.

**Doctor of Philosophy**

The Doctor of Philosophy program in English requires a minimum of 72 s.h. of graduate credit. The program is designed as preparation for the teaching, publishing, and administrative service required of college and university faculty members. Concentrations are offered in areas such as literary history and critical theory, as well as interdisciplinary areas such as cultural studies and transnational studies.

Of the minimum 72 s.h. required for the degree, at least 30 s.h. must be earned in residence at the University of Iowa with a g.p.a. of at least 3.50.

Students must gain formal admission to Ph.D. candidacy by a vote of the Graduate Steering Committee, usually during the third semester of doctoral study.

Students complete course work in literature and culture of any four of these historical periods, as expressed in texts of the English-speaking and -writing world (usually but not always British or American): pre-1500; 1500-1660; 1660-1800; 1800-1900; 20th and 21st centuries. They also complete three seminars in the University of Iowa Department of English.

Students also must fulfill the program's language requirement, usually by completing an advanced undergraduate course numbered 3000 or above in a language other than English.

The comprehensive examination consists of the following: a portfolio of five scholarly questions based on a period of literary history (usually British or American); a review essay and annotated bibliography in a special area of interest; two course syllabi; an article to be submitted for publication; and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam.

A dissertation is required. Students present their prospectus formally to a faculty committee and must undergo a final exam defending the dissertation. All doctoral candidates are required to gain some teaching experience, preferably in the College of Liberal Arts and Sciences Department of Rhetoric and in General Education Program (p. 313) literature courses.

For application forms and a complete description of the Ph.D. program, contact the department’s graduate program academic coordinator.

**Admission**

Applications for admission must be postmarked by the following deadlines.

- M.A. and Ph.D.: postmark by January 3
- M.F.A. (creative writing): postmark by January 3
- M.F.A. (nonfiction writing): postmark by December 15

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Financial Support**

Graduate scholarships, fellowships, and teaching and research assistantship are awarded on a competitive basis. The department strives to provide five years of support for students who enter with an M.A. and six years of support for students who enter with a B.A. Students must be in good standing, which requires a University of Iowa g.p.a. of at least 3.50 and full-time enrollment.

Financial aid applications are considered only from students who have applied or been admitted to a degree program in the Graduate College. Applications and all necessary supporting material must be submitted by the end of January for the following academic year. Forms are available from the Department of English and the University’s Office of Admissions.

**Facilities and Resources**

The University of Iowa Libraries collection is strong in all areas of English and American literature. Partly because of the influence of the Iowa Writers’ Workshop, University Libraries has particular strengths in 20th-century fiction and poetry, including manuscript collections of 20th-century authors.

Several periodicals are published under the department's aegis. The Iowa Review, Walt Whitman Quarterly Review, and Philological Quarterly offer opportunities for especially qualified graduate students to work as research assistants or editorial associates. The Iowa Journal of Cultural Studies, edited by English department graduate students, features creative and scholarly work by students in English and related areas.

The Department of English and the Iowa Writers’ Workshop sponsor a rich and extensive series of readings and lectures by poets, fiction writers, and scholars, all open to students in the department.

The Association of Graduate Students in English sponsors social and intellectual events during the year and provides a forum for student opinion. All graduate students in the department are members.

**Courses**

Individual descriptions for most English courses are not included because content and emphasis may vary considerably from one semester to the next. For detailed descriptions of each semester’s courses, visit the University's ISIS web site.

**Courses for Non-English Majors**

**Lower-Level Undergraduate**

- **ENNM:2100 Nonfiction Writing for Non-English Majors** 3 s.h.
- **ENNM:2455 American Short Story for Non-English Majors** 3 s.h.

**Upper-Level Undergraduate and Graduate**

- **ENNM:3105 Popular Literature for Non-English Majors** 3 s.h.
ENNM:3120 Prose by Women Writers for Non-English Majors 3 s.h.

ENNM:3170 Forms of the Essay for Non-English Majors 3 s.h.

ENNM:3320 British Novel: Scott to Conrad for Non-English Majors 3 s.h.

ENNM:3420 Literature and Culture of 20th-Century America for Non-English Majors 3 s.h.

ENNM:3633 Personal Writing for Non-English Majors 3 s.h.

ENNM:3640 Writing for Business and Industry for Non-English Majors 3 s.h.

General Education, Lower-Level Undergraduate

Note: CW:1800 Creative Writing Studio Workshop and CNW:1620 Introduction to Creative Nonfiction do not count toward the English major or minor.

CNW:1620 Introduction to Creative Nonfiction 3 s.h.
Exploration of creative nonfiction genres through readings, discussion, and writing exercises; introduction to workshop environment. Requirements: English nonmajor. GE: Literary, Visual, and Performing Arts.

CW:1800 Creative Writing Studio Workshop 3 s.h.
Experience reading and writing fiction, poetry, and personal narrative in a workshop setting; study of published work and critical discussion from a writer's standpoint; critique of class members' work. GE: Literary, Visual, and Performing Arts.

Literature, General Education

All students earning a degree from the College of Liberal Arts and Sciences, except English majors, must take ENGL:1200 The Interpretation of Literature as part of the General Education Program (p. 313). English majors should substitute a course from the Literary, Visual, and Performing Arts area of General Education, excluding MUS:1020 Performance Instruction for Nonmajors, DANC:1010 Beginning Tap through DANC:2040 Intermediate Modern, and DANC:4880 Dance Performance.

Course ENGL:1200 The Interpretation of Literature (or its equivalent by examination or transfer) is a prerequisite for courses ENGL:1320 Heroes and Villains through ENGL:1355 Literatures of Native American Peoples. The pass/nonpass option is available only for students in the Colleges of Nursing and Engineering with consent of the student's advisor and the instructor.

Lower-Level Undergraduate

ENGL:1200 The Interpretation of Literature 3 s.h.
Ways of reading; focus on reader, text, contexts; poetry, short fiction, drama, novels. Prerequisites: RHET:1030. Requirements: successful completion of the rhetoric requirement. GE: Interpretation of Literature.

ENGL:1320 Heroes and Villains 3 s.h.
Heroes, heroines, and villains as products of the imagination; literary representations of heroes, heroines, and villains in varied social and historical situations; how their representation shapes our understanding of heroism and of villainy. Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. Recommendations: closed to students who have taken ENGL:1325. GE: Literary, Visual, and Performing Arts.

ENGL:1325 Comic and Tragic Literature 3 s.h.
Interrelations of comic and tragic literature, including film and other popular media, and their connection with human experience; comic and tragic forms and their uses in different social and historical situations. Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. Recommendations: closed to students who have taken ENGL:1320. GE: Literary, Visual, and Performing Arts.

ENGL:1330 The Art of Storytelling 3 s.h.
Selected masterpieces and recent developments in the art of storytelling in poetry and prose. Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1345 American Lives 3 s.h.

ENGL:1350 Literature and Sexualities 3 s.h.
Works from various genres, time periods, cultures that reflect and construct a wide range of sexual identities. Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1355 Literatures of Native American Peoples 3 s.h.
Genres of Native American literature, including oral literature; focus on written literature (fiction, essays, poetry, drama). Prerequisites: ENGL:1200 and RHET:1030. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity. Same as AINS:1355.

Literature

English department courses are open to all undergraduates who have satisfied the rhetoric requirement. Undergraduates are encouraged to complete the required course ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures as soon as they declare the English major. Students also are encouraged to take one or more introductory departmental courses, ENGL:2120 Introduction to Cultural Studies through ENGL:2170 Introduction to the Essay, before attempting courses numbered 3000 or above.

Courses ENGL:4000 English Honors Seminar, ENGL:4040 Undergraduate Honors Project, and ENGL:4010 Special Project for Undergraduates may be repeated. Most courses
with the prefix ENGL may not be repeated. Occasionally, 
with written consent from the department's Undergraduate 
Advising Office, a student may repeat a course if the 
course's subject matter is different from that of a course 
the student already has taken.

**Lower-Level Undergraduate**

**ENGL:1100 City of Literature**  
3 s.h.  
Literary history of Iowa City from the founding of Writers' 
Workshop to its designation as a UNESCO City of 
Literature.

**ENGL:1410 Sex and Popular Culture in the 
Postwar U.S.**  
3 s.h.  
Critical and historical introduction to representation of 
human sexuality in American popular culture from World 
War II to the present. GE: Values, Society, and Diversity. 
Same as AMST:1060, GWSS:1060.

**ENGL:1420 Technologies and Literatures of 
the Future**  
3 s.h.  
Introduction to discourses of futurology; dramatic 
advances in machine intelligence, promise of 
nanotechnology, and future of biological research that 
have blurred long-held distinctions between science and 
science fiction; issues and controversies prominent in this 
futurological discourse. GE: Values, Society, and Diversity.

**ENGL:2010 Foundation of the English 
Major: Histories, Literatures, Pleasures**  
3 s.h.  
History and practice of English as a discipline; four central 
aspects of literary study.

**ENGL:2030 Literary Readings Attendance**  
1 s.h.  
Attendance at diverse literary readings and scholarly 
presentations on the University of Iowa campus and in 
Iowa City, featuring visiting, local, and University of Iowa 
writers and scholars.

**ENGL:2040 English at Work**  
1 s.h.  
What can be done with an English degree; knowledge and 
skills gained as an English major that are in high demand 
among a wide variety of employers; important steps taken 
as a student that translate unique career dreams into 
reality; work with Pomerantz Career Center staff.

**ENGL:2080 English Winter Practicum**  
2 s.h.

**ENGL:2100 Introduction to Criticism and 
Theory**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2105 Disability in Literature and 
Cultural Theory**  
3 s.h.  
Introduction to disability studies; examination of disability 
in cultural and literary contexts; core course for the 
Certificate in Disability Studies. English majors may 
apply this course to the following area and/or period 
requirement. AREA: Literary Theory and Interdisciplinary 

**ENGL:2120 Introduction to Cultural Studies**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2130 Introduction to the Novel**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 18th/19th-Century 
Literature, or 20th/21st-Century Literature.

**ENGL:2140 Introduction to Poetry**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 18th/19th-Century 
Literature, or 20th/21st-Century Literature.

**ENGL:2150 Introduction to the Short Story**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2160 Introduction to Drama**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2170 Introduction to the Essay**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2191 Modern Fiction**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2192 Postmodern Fiction**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2193 Literature, Culture, and Women**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 18th/19th-Century 
Literature, or 20th/21st-Century Literature. Same as GWSS:2193.

**ENGL:2194 Lyric Structures**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Literary Theory 
and Interdisciplinary Studies. PERIOD: 20th/21st-Century 
Literature.

**ENGL:2206 Classical and Biblical Literature**  
3 s.h.  
English majors may apply this course to the following 
area and/or period requirement. AREA: Medieval and Early 
Modern Literature and Culture. PERIOD: Early Literatures 
Through 17th Century.

**ENGL:2216 Selected Works of the Middle 
Ages**  
3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:2236 Selected Early Authors 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:2309 Selected British Authors Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2310 Selected British Authors After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2329 Topics in Modern British Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2330 Topics in Modern British Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2338 Eighteenth-Century British Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2348 British Romanticism 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2359 Victorian Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2360 Twentieth-Century British Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2361 Twenty-first-Century British Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2369 Topics in British Culture and Identity 3 s.h.
How culture and identity of British society are created and reflected through literature and other discursive systems; focus on a specific topic and area. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:2409 Selected American Authors Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2410 Selected American Authors After 1900 2-3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2420 American Literary Classics 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:2425 American Poetry 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:2438 American Novel Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:2440 American Novel After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2450 American Short Story 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2460 Black Literature and Politics: Controversies of National Allegiance 3 s.h.
Black literature born amid political controversy, from slave narratives to award-winning texts of late 20th century; evolving politics of African American writers; changing political landscape of this expansive period and representative literature; how African American writers shape U.S. political debate; surprising politics of many canonical African American writers. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as AFAM:2781, POLI:2107.

ENGL:2462 The Look of Blackness: African American Literature and Visual Art 3 s.h.
Examination of African American literature over a 200-year span; how preoccupation with blackness as a visual marker of difference impacts formation of written works; how black writers wield, emphasize, and manipulate visuality; blackness foregrounded as if literary texts operate in league with, or in defiance of, visual images circulating throughout American culture, from late 18th-century poetry to mid 20th-century novels; primary texts placed alongside high art and popular visual forms of distinct historical moments to explore how black American writers deploy visual art forms in narrative conceptions of black identity. Same as AFAM:2055.

ENGL:2463 Topics in African American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2465 Selected African American Authors 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:2465.

ENGL:2475 Topics in Asian American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2505 Introduction to Postcolonial Studies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2510 Selected Transnational Authors 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2560 Topics in Culture and Identity 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as UICB:3142.

Upper-Level Undergraduate and Graduate

ENGL:3100 Topics in Criticism and Theory 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3102 Topics in Poetry and Poetics 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3105 Topics in Popular Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3107 Literature and Anthropology 3 s.h.
Topics vary. Same as ANTH:3107, CL:3107.

ENGL:3109 Children's Literature 3 s.h.
Classic children's literature and contemporary critical approaches to the genre. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies, or Modern British Literature. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3120 Prose by Women Writers 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as GWSS:3120.

ENGL:3130 Topics in Film and Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3135 Narrative and the Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as CINE:3135.

ENGL:3140 Literature and the Book 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures through 17th-Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as UICB:3140.

ENGL:3142 Topics in Book History 3 s.h.
Authorship, publishing, and so forth within specific historical and cultural contexts. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as UICB:3142.
ENGL:3150 Literature and Philosophic Thought 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3152 Literature and Society 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as CL:3379.

ENGL:3155 Literature and Art 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as CL:3277.

ENGL:3156 Slavic and East European Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3157 Popular Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3158 Digital Media and Poetics 3 s.h.
Theory and practice of one or more varieties of digital composition; digital art analyzed and created in specific forms—radio drama, interactive fiction, procedural and constructivist poetics. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:3180.

ENGL:3160 Literary Genres and Modes 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3165 African and Diasporic Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3170 Latin Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3171 Career Development 3 s.h.

ENGL:3173 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as GWSS:3173.

ENGL:3180 Topics in Digital Media 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:3180.

ENGL:3181 Digital Media and Poetics 3 s.h.
Theory and practice of one or more varieties of digital composition; digital art analyzed and created in specific forms—radio drama, interactive fiction, procedural and constructivist poetics. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3182 Digital Cultures and Literacies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3186 Science Fiction 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3216 Topics in Medieval and Renaissance Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3226 Literature and Culture of the Middle Ages 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as MDVL:3226.

ENGL:3228 Literature and Culture of the Restoration 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3236 Literature and the Culture of the Renaissance 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3237 Literature and Culture of Seventeenth-Century England 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3246 16th- and 17th-Century Poetry 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3256 Elementary Old English 3 s.h.
Reading knowledge of Old English; introduction to Anglo-Saxon literature and culture. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3257 Old English Beowulf 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3266 Medieval Celtic Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3267 Medieval Norse Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.
ENGL:3276 Medieval Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as THTR:3276.

ENGL:3277 English Renaissance Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as THTR:3277.

ENGL:3286 Chaucer 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3287 Shakespeare 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as THTR:3287.

ENGL:3296 Milton 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3320 Modern British Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3329 Literature and Culture of Eighteenth-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3338 Literature and Culture of the Romantic Period 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3339 Literature and Culture of Nineteenth-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3348 Literature and Culture of Nineteenth-Century Scotland 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3350 Literature and Culture of 20th- and 21st-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3355 British Poetry 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3360 British Fiction 3 s.h.
British fiction written since 1700. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3418 Literature and Culture of America Before 1800 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3419 Literature and Culture of Nineteenth-Century America 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3420 Literature and the Culture of Twentieth-Century America 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3429 Topics in American Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3430 Topics in American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3431 American Novel Since 1945 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3439 American Drama Before 1900 3 s.h.
American playwrights and plays before 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3440 American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as THTR:3440.
ENGL:3441 Native American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AINS:3441.

ENGL:3444 Literatures of the American Peoples 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3450 American Regional Literatures 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature.

ENGL:3455 Jewish American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3459 African American Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. Same as AFAM:3459.

ENGL:3460 African American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:3460.

ENGL:3462 African American Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as THTR:3462, AFAM:3462.

ENGL:3465 African American Autobiography 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:3465.

ENGL:3480 American Literature and History 3 s.h.
Examination of fictional histories (novels about history), their relationship to historical interpretation. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as AMST:3480.

ENGL:3489 Contemporary American Women Writers 3 s.h.
Interdisciplinary study of contemporary American women writers whose works depict the shaping force of race, class, gender, and sexuality on individuals, families, and communities.

ENGL:3510 Topics in Transnational Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3515 Topics in Postcolonial Studies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3519 Literature and Culture of Empire 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 18th/19th-Century Literature or 20th/21st-Century Literature.

ENGL:3520 Literature and Culture of the 20th and 21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3525 Literature and Culture of the Americas 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3530 Caribbean Literature and Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3532 Modernist Women Writers 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3535 Inter-American Studies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3540 Literature of the Indian Subcontinent 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.
ENGL:3550 African Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as AFAM:3550.

ENGL:3555 Topics in African Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as AFAM:3555.

ENGL:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as CL:3570.

ENGL:3580 Identity and Social Issues 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 18th/19th-Century Literature or 20th/21st-Century Literature.

ENGL:3590 People on the Move 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3595 International Literature Today 1,3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as IWP:3191, WLLC:3191.

ENGL:4150 Introduction to Book Studies 3 s.h.
Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as physical artifact. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, or 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as UICB:4150, SLIS:4150.

ENGL:4172 London Performance Study 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:4630.

ENGL:4195 Interdisciplinary Studies 3 s.h.
Exploration of how readings of theory can be evaluated through discussions and readings in literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:4410 Midwest African American Literature and Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:4710.

Nonfiction and Creative Writing

Many courses may be repeated.

Other courses listed below may be repeated with consent of the instructor.

Courses CW:1800 Creative Writing Studio Workshop and CNW:1620 Introduction to Creative Nonfiction do not count toward the English major or minor.

Course CNW:3630 Advanced Nonfiction Writing has a prerequisite.

Course CNW:4631 Undergraduate Essay Workshop requires consent of instructor (see course description on ISIS).

Creative Nonfiction Writing, Lower-Level Undergraduate

CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.
How we tell stories—every time people talk about themselves, someone they know, places visited or events experienced; creation of a story with intention to entertain and inform a particular audience; how to create compelling, thought-provoking, and resonant texts from raw material of daily life; exploration of three fundamentals of great storytelling—taking emotional and intellectual risks, being imaginatively rigorous, and revising, revising, revising. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2690 The Art and Craft of Writing About Business 3 s.h.
Preparation for real world writing situations; techniques for revision; creation of texts that are clear, persuasive, and coherent; practice techniques by revising many kinds of transactional documents, from letters and memos to procedures and reports; examples from actual business transactions; enhancement of writing, editing, job search, and managerial skills. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2700 The Art and Craft of Personal Writing 3 s.h.
Moments of wonder, confusion, and blips in memory that can reveal deep and complicated truths in life; different kinds of personal writing with focus on strategies that writers employ to create rich and compelling stories; character, scene, voice, point of view, suspense, and timing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2710 The Art and Craft of Food Writing 3 s.h.
Vivid prose that evokes memories, moods, places, and events; creating a visceral bond with readers as powerful as in any other art form; basics of food writing; how to heighten awareness of physical world through exercises that focus on sensory details. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2720 The Art and Craft of Writing About Culture** 3 s.h.
Writing about the culture surrounding us—literature, songs, movies, magazines, television, food, concerts, theater, commercials, billboards, comic books, the Internet, museums, sports, architecture; readings, field trips, and multiple approaches to writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2730 The Art and Craft of Science Writing** 3 s.h.
Introduction to science writing; development of a clear and engaging prose style through readings and workshops. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2740 The Art and Craft of Writing about the Environment** 3 s.h.
Tradition of nature writing and how it has inspired writers, artists, and activists to find more complicated and daring interpretations of what constitutes an environment; reading and writing that challenges assumptions and pushes boundaries of environmental writing and nonfiction. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2760 The Art and Craft of Writing for Social Change** 3 s.h.
How nonfiction writers have responded to tumultuous social, political, and cultural topics of their day through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2770 The Art and Craft of Writing for New Media** 3 s.h.
Fundamental elements of new media; readings that celebrate and challenge today's newest experiments in podcasts, video games, the Internet, Twitter feeds, and Tumblr narratives; crafting and critiquing texts in these media. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2780 The Art and Craft of Writing About Sports** 3 s.h.
Introduction to sports writing through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2790 The Art and Craft of Humor Writing** 3 s.h.
How comedy functions as one of many tools a writer has at his or her disposal through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2800 The Art and Craft of Writing Across Genres** 3 s.h.
Hybrid texts that defy classification—graphic books, stand-up comedy, lists, letters, poems, freestyle rap—engaged through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2810 The Art and Craft of Writing with Emotion** 3 s.h.
Role of emotion in creative writing through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2820 The Art and Craft of the Literary Essay** 3 s.h.
Different forms of the essay—reviews, memoirs, profiles, travelogues, journalism, cultural criticism—through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2830 The Art and Craft of Immersion Journalism** 3 s.h.
Immersion in field work, leading to nonfiction writing; writer-in-residence for a particular place, institution, or organization; observation and exploration of everything that happens within those boundaries. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2840 The Art and Craft of Travel Writing** 3 s.h.
How to capture a journey's details and sensations through explorations of character, scene, point of view, and timing; why a person does not need to be a world traveler to become a compelling "writer about place"; readings, field trips, multiple approaches to workshopping. AREA: Nonfiction and Creative Writing.

**CNW:2850 The Art and Craft of Writing About Politics** 3 s.h.
How to observe and reveal complex personalities, relationships, beliefs, and histories that underlie political events and races; strong emphasis on how to gather field research and shape it into compelling literary prose; Iowa's unique role in political theater. AREA: Nonfiction and Creative Writing.

**CNW:2900 The Essay Prize** 3 s.h.
Discussion and evaluation of a variety of essays nominated by an independent committee of writers, editors, filmmakers, sound designers, performance artists, and readers for the Essay Prize; selection of winner. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:2910 Writing for Applications and Awards** 3 s.h.
Practical exploration of how to prepare applications for fellowships, awards, grants, and graduate schools; emphasis on composing and revising personal statements, project narratives, funding proposals; fundamentals of how to clearly, concisely, and compellingly present ideas to specialized and general audiences. AREA: Nonfiction and Creative Writing.

Creative Writing, Lower-Level Undergraduate

**CW:2100 Creative Writing** 3 s.h.
Guidance in the process of writing fiction and poetry; writing as exploration; development of students' critical skills as readers; application of new knowledge and skills to students' own writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CW:2870 Fiction Writing** 3 s.h.
Analysis of works of accomplished fiction writers; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CW:2875 Poetry Writing** 3 s.h.
Careful writing of poems, reading of poetry by class members as well as established poets; supportive workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

Creative Nonfiction Writing, Upper-Level Undergraduate and Graduate

**CNW:3450 Freelance Reporting and Writing** 4 s.h.
Approaches to writing and marketing articles to magazines, newspapers, other publications; developing ideas, researching periodical markets, writing queries, writing and rewriting articles for publication. Prerequisites: JMC:2010 with a grade of C- or higher and JMC:2020 with a grade of C- or higher. Requirements: journalism major. Same as JMC:3450.

**CNW:3600 Issues in Creative Nonfiction** 3 s.h.
Exploration and discussion of a single topic in creative nonfiction through a variety of reading assignments and creative writing exercises. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: RHET:1030.

**CNW:3630 Advanced Nonfiction Writing** 3 s.h.
Essay writing; focus on workshop environment. Prerequisites: CNW:2680. Requirements: undergraduate standing.

**CNW:3632 Prose Style** 3 s.h.
Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options.

**CNW:3633 Personal Writing** 3 s.h.

**CNW:3640 Writing for Business and Industry** 3 s.h.

**CNW:3644 Dublin Writing Workshop** 3 s.h.
Intensive writing workshops for aspiring creative writers; study abroad in Dublin, Ireland. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

**CNW:3660 Multimedia Writing** 3 s.h.
Multidisciplinary sessions mixing media production, creative nonfiction, and literary theory; topics ranging from hypertext authoring and electronic magazine publishing to sound art and digital video; principles and practices of writing for alternative media, theoretical understanding of how various media frame the situation; radio essay, video essay, interactive animation, web authoring, electronic magazine publishing.

**CNW:3661 Film and Writing** 3 s.h.
Writers’ introduction to digital video; compelling forms of nonfiction filmmaking from the film essay to the environmental documentary; how to convert texts into film, conduct interviews, and shoot and edit digital video; emphasis on careful analysis and making of whityle films.

**CNW:3662 Graphic Writing** 3 s.h.
The photo essay and the graphic memoir, two modes of nonfiction that have steadily increased in prominence and popularity; key texts in both genres (i.e., Dorothea Lange’s American Exodus, Marjane Satrapi’s Persepolis, or Art Spiegelman’s Maus); writing and producing photo essays and short graphic memoirs.

**CNW:3663 Radio and Writing** 3 s.h.
Writing with sound; introduction to radio essays and documentaries with focus on digital audio; analyze key radio works and essayists; produce voiceovers, record interviews, mix music, edit sound and spoken texts in making radio art.

**CNW:3664 Writing About Science** 3 s.h.
Writing about science and technology from neurobiology to astrophysics; exploration of classic literary nonfiction on the sciences; focus on various stylistic practices for making complex topics compelling for a general audience and developing a clear and readable prose style.

**CNW:4355 Approaches to Teaching Writing** 3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as EDTL:4355.

**CNW:4631 Undergraduate Essay Workshop** 3 s.h.
Experience working on new nonfiction projects, drafting and preparing one piece throughout a semester; individualized work to promote understanding of and creation in genres of nonfiction writing. Requirements: undergraduate standing, successful completion of two CNW courses, and submission of manuscript.

**CNW:4642 Team Writing for Business** 3 s.h.
Creative Writing, Upper-Level
Undergraduate and Graduate

**CW:3003 Writing and Reading Science Fiction**
3 s.h.
Science fiction literature as an ongoing conversation about the possible; exploration of world boundaries we have by imagining worlds that we don't (yet); alien encounters that consider ways we react to beings we see as unlike ourselves; alternate histories to illuminate what might have been; transhumanist fiction to explore what we may become; issues of composition and craft that underlie all effective fiction; students write and revise works of science fiction and engage in constructive discussion of each other's work.

**CW:3005 Professional and Creative Business Communication**
3 s.h.
Solid foundation for creative and professional communication in today’s modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. Same as INTD:3005.

**CW:3107 Creative Writing for the Health Professions**
3 s.h.
Same as INTD:3107.

**CW:3210 Creative Writing and the Natural World**
3 s.h.
How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. Same as INTD:3210.

**CW:3215 Creative Writing and Popular Culture**
3 s.h.
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. Same as INTD:3300.

**CW:3217 Writing and Reading Young Adult Fiction**
3 s.h.
Early to contemporary young adult fiction; how the genre addresses issues that are relevant to young people through its wide-ranging subject matter; issues facing the genre, including the debate over what constitutes it; readings and experience writing young adult fiction.

**CW:3218 Creative Writing for New Media**
3 s.h.
Prepares creative writers for evolving marketplace of electronic text, media; experience writing in varied media such as the Internet, e-books, video games, mobile devices, emergent social narratives. Same as INTD:3200.

**CW:3870 Advanced Fiction Writing**
3 s.h.
Analysis of accomplished fiction writers’ work; critique of class members’ short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2870.

**CW:3875 Advanced Poetry Writing**
3 s.h.
Writing poems, reading poetry by class members and established poets; workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2875.

**CW:4745 The Sentence: Strategies for Writing**
3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation.

**CW:4747 Creative Writing for the Socially Aware**
3 s.h.
Reading short stories, essays, poems, and plays to examine seven subject areas (education; gender and sex roles; relationship and family dynamics; criminal behavior; race, ethnicity, and identity; terrorism and war; death and dying); varied writing assignments, including message boards posts, reading responses, critiques, arguments, research papers, creative writing, and public relations material; analyzing the effectiveness of an argument; supporting claims made in persuasive writing.

**CW:4750 Writing and Activism**
3 s.h.
Exploration of writing as a political act; examination of texts that focus on activism (e.g., environment, social inequality, racism, war); best practices for literary advocacy and social/political persuasion/instruction; improving dexterity with written persuasion; argumentation, and personal statements; application of study of writing to broader world.

**CW:4751 Creative Writing for the Musician**
3 s.h.
Better writing by focused appreciation of classical and popular music; musical forms and storytelling; music as a source of inspiration, performance of free-form writing exercises set to different soundtracks; what music can teach about language; scansion; methods for applying musical techniques in word form; how punctuation and grammar create rhythm; tone and diction used to create and modify dynamics of prose; multimedia project incorporating written, visual, and audio storytelling techniques.

**CW:4760 The Art of Revision: Rewriting Prose for Clarity and Impact**
3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices.

**CW:4870 Undergraduate Writers' Workshop: Fiction**

English majors may apply this course to the following area and/or period requirement. **AREA:** Nonfiction and Creative Writing.

**CW:4875 Undergraduate Writers' Workshop: Poetry**

English majors may apply this course to the following area and/or period requirement. **AREA:** Nonfiction and Creative Writing.

**CW:4880 Undergraduate Writers' Seminar** 3 s.h.

Exploration of literature to develop substance and craft; class sessions designed around topic chosen by instructor; modeled after Writers' Workshop graduate reading seminars. English majors may apply this course (except for EX sections) to the following area and/or period requirement. **AREA:** Nonfiction and Creative Writing. Requirements: completion of rhetoric requirement.

**CW:4894 Undergraduate Project in Creative Writing**

English majors may apply this course to the following area and/or period requirement. **AREA:** Nonfiction and Creative Writing.

**CW:4897 Novel Writing** 3 s.h.

Introduction to the process of writing a novel through focused lessons on character, perspective, plot, scene, and dialogue; organizing a longer work; creating notes and sections of a novel with progression towards completing a draft. Requirements: creative writing or fiction writing course.

**Special Topics, Upper-Level Undergraduate and Graduate**

This course does not fulfill area or period requirements for the English major. It may be used to earn elective credit in the major.

**ENGL:3723 Writers' Seminar: Nonfiction** 2 s.h.

Rigorous exploration and analysis of a range of nonfiction creative works. Requirements: English major and admission to Undergraduate Creative Writing track.

**ENGL:3724 Writers' Seminar: Literary Translation** 2 s.h.

Rigorous exploration and analysis of a range of creative works in literary translation. Requirements: English major and admission to Undergraduate Creative Writing track.

**ENGL:3725 Writers' Seminar: Playwriting** 2 s.h.

Rigorous exploration and analysis of a range of creative works in drama. Corequisites: ENGL:3720. Requirements: admission to Undergraduate Creative Writing track.

**ENGL:4720 Creative Writing Track: Special Topics** 3 s.h.

Advanced writing and reading for undergraduate creative writing track; topics vary. Requirements: admission to Undergraduate Creative Writing track.

**Special Topics, Lower-Level Undergraduate**

This course does not fulfill area or period requirements for the English major. It may be used to earn elective credit in the major.

**ENGL:1000 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**ENGL:1001 CLAS Master Class** 1-3 s.h.

Exploration of a single topic in a series of lectures by faculty presenting divergent perspectives; illuminates intellectual adventure inherent in liberal arts and sciences; encourages discovery of majors and other areas of study within the College of Liberal Arts and Sciences. Same as CLAS:1001, RELS:1010, THTR:1001, CS:1001, CSD:1001, PHIL:1001, BIOC:1001, ARTS:1001.

**Special Topics, Upper-Level Undergraduate and Graduate**

This course does not fulfill area or period requirements for the English major. It may be used to earn elective credit in the major.

**ENGL:4010 Special Project for Undergraduates**

Honors, Upper-Level Undergraduate and Graduate

**ENGL:4000 English Honors Seminar** 3 s.h.

English majors may apply this course to varied area and/or period requirements. Requirements: undergraduate standing and English major g.p.a. of 3.33.

**ENGL:4020 Honors Thesis Workshop** 3 s.h.

Prerequisites: ENGL:4000. Requirements: English major g.p.a. of 3.33.
ENGL:4040 Undergraduate Honors Project  1-3 s.h.
Requirements: admission to English honors program.

Literature, Graduate
Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

Introductory Courses
ENGL:5000 Introduction to Graduate Study  1 s.h.
ENGL:5050 Placement Practicum  1 s.h.
Navigation of academic job market and exploration of career opportunities; writing cover letters, curriculum vitae, dissertation abstracts, and teaching statements; application strategies for various jobs in research, liberal arts, community colleges, and outside academia; opportunity to practice interviews and other hands-on coaching; for advanced English department Ph.D., M.A., and M.F.A. students.
ENGL:6950 Colloquium: Teaching Foundations of the English Major  1 s.h.
ENGL:6960 Colloquium: Teaching Literature  2 s.h.
Professional development program for new ENGL:1200 teachers, including three-day pre-semester workshop.

Reading Courses
ENGL:6000 Introduction to Contemporary Theory  3 s.h.
ENGL:6020 Literature as Letters  3 s.h.
ENGL:6060 Modes of Critical Analysis  3 s.h.
ENGL:6075 Studies in Sentimentalism and Affect Theory  3 s.h.
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psychosocial phenomenon; focus on attendant theories of affect; integration of literature and culture with work on politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, gender and sexuality studies. Same as RHET:6071.
ENGL:6080 New Media Poetics  3 s.h.
ENGL:6090 Topics in Interdisciplinary Studies  3 s.h.
Interdisciplinary approaches to literature and culture.
ENGL:6100 Readings in Medieval Literature and Culture  3 s.h.
ENGL:6110 Medieval Authors  3 s.h.
ENGL:6200 Sixteenth- and Seventeenth-Century Authors  3 s.h.
ENGL:6210 Readings in Sixteenth- and Seventeenth-Century Genres  3 s.h.
ENGL:6220 Shakespeare  3 s.h.
Same as THTR:6403.
ENGL:6300 Restoration and Eighteenth-Century Literature  3 s.h.
ENGL:6400 Romantic Literature  3 s.h.
Same as CL:6323.
ENGL:6500 Victorian Literature  3 s.h.
ENGL:6510 Late Victorian and Edwardian Literature  3 s.h.
ENGL:6601 Readings in American Literature  3 s.h.
American literature of the 18th century.
ENGL:6602 Readings in American Literature II  3 s.h.
Nineteenth-century American literature.
ENGL:6603 Readings in American Literature III  3 s.h.
Twentieth- and twenty-first-century American literature.
ENGL:6610 Studies in African American Literature  3 s.h.
ENGL:6620 Readings in Native American Literatures  3 s.h.
Same as AINS:6620.
ENGL:6630 Readings in Latina/o Literary and Cultural Studies  3 s.h.
Survey of Latina/o literature and criticism to prepare for comprehensive exam; organized by thematic units that stress canonical and emerging research areas in Latina/o literary and cultural studies.
ENGL:6640 Readings in American Literary Genres  3 s.h.
ENGL:6635 Crossing Borders Seminar  2-3 s.h.
ENGL:6670 American Literary Magazines  3 s.h.
Aspects of American literary magazines, from city journals to monthly periodicals, historical moment to marketplace demand.
ENGL:6720 Twentieth-Century Literatures  3 s.h.
Literatures of 20th century; varied topics (e.g., transnational approach, focus on particular theme, genre, or critical perspective).
ENGL:6730 Modernist Studies  3 s.h.
ENGL:6760 Topics in Contemporary Literature  3 s.h.
ENGL:6770 Writing and Revolution 3 s.h.
ENGL:6765 Literature, Culture, and Environment 3 s.h.
Introduction to theories and practices articulating relationship among literature, other cultural production, and environmental issues.
ENGL:6800 Readings in Postcolonial Literature and Theory 3 s.h.
Introduction to central concerns and questions of postcolonial theory; impact of imperial ideologies on formation of racial and ethnic identities; nationalist and pan-nationalist challenges to colonialism; postcolonial revisions of Western history; representations of gender and sexuality; diasporic and transnational cultural production; alternative versions of modernity; relationship between past and contemporary forms of globalization.
ENGL:6900 Doctoral Workshop in English Seminars 2 s.h.
Advanced work in literary history, criticism, and theory; concentration varies by semester.
ENGL:7000 Seminar: Cultural Studies arr.
ENGL:7010 Seminar: Literary Criticism and Theory 3 s.h.
Analysis of issues in current literary criticism and theory and of texts from related fields, such as aesthetics, cultural studies, political science, psychology, and philosophy.
ENGL:7050 Seminar: Performance Theory and Practice 3 s.h.
Foundational and recent work in interdisciplinary field of performance studies; focus on intersections of performance theory and theater and drama studies; production and reception of visual and participatory art, dance, music, and various forms of embodied activity.
ENGL:7100 Seminar: Medieval Literature and Culture arr.
Same as CL:7302.
ENGL:7200 Seminar: Early Modern Literature and Culture arr.
Same as CL:7307.
ENGL:7300 Seminar: Restoration and Eighteenth-Century Literature arr.
ENGL:7400 Seminar: Romantic Literatures arr.
ENGL:7500 Seminar: Victorian Literature arr.
ENGL:7560 Seminar: Walt Whitman 3 s.h.
Walt Whitman's writings and career.
ENGL:7600 Seminar: American Literature and Culture arr.
ENGL:7800 Seminar: Postcolonial Studies 3 s.h.
Same as CL:7054.
Independent Study
ENGL:5990 M.A. Portfolio in Literary Studies arr.
ENGL:5999 M.A. Thesis in Literary Studies arr.
ENGL:7900 Advanced Studies in an Author arr.
ENGL:7910 Advanced Studies in a Literary Period arr.
ENGL:7920 Advanced Studies in a Literary Form arr.
ENGL:7930 Advanced Studies in a Literary Genre arr.
ENGL:7940 Advanced Studies in a Literary Mode arr.
ENGL:7950 Advanced Studies in a Literary Movement arr.
ENGL:7960 Advanced Studies in a Literary Theme arr.
ENGL:7970 Advanced Studies in Literary Criticism arr.
ENGL:7980 Advanced Studies in an Interdisciplinary Subject arr.
ENGL:7990 Special Project for Graduate Students arr.
Professional Training
The following courses offer theoretical and practical training for those who plan to teach.

Upper-Level Undergraduate and Graduate
ENGL:3190 Language and Learning 2-3 s.h.
How language reflects and constructs learners' identities and cultures; readings related to oral and written language, native and second language development, linguistic diversity; discussion of the relationship of language theory to schools of language instruction. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as EDTL:3382.
ENGL:3191 Reading and Teaching Adolescent Literature 3 s.h.
Reading and evaluation of literature suitable for junior and senior high school students. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as EDTL:3393.
ENGL:4810 Methods: Secondary English 3 s.h.
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: EDTL:4314. Same as EDTL:4315.

Graduate

ENGL:6104 Literature for Children II 3 s.h.
Current theory, research, and practice in reading and responding to children's literature; genre and topic vary. Same as EDTL:6104.

ENGL:6315 M.A. Seminar: English Education arr.
Significant developments in English education; primary and collateral readings. Same as EDTL:6315.

Nonfiction Writing
Courses CNW:6654 Forms of the Essay, CNW:6650 Readings in Nonfiction, CNW:6610 Essay Writing Workshop, and CNW:6620 Nonfiction Writing Workshop may be repeated. Others may be repeated with consent of the instructor and the director of graduate studies.

Practice in Writing, Graduate
These courses give intensive attention to composition and exposition and to formal and thematic problems, both in the meditative essay and in extended works of nonfiction.

CNW:6610 Essay Writing Workshop 4 s.h.

CNW:6620 Nonfiction Writing Workshop arr.

CNW:6630 Graduate Thesis Workshop 4 s.h.
Thesis work in supportive workshop environment. Prerequisites: CNW:6610 and CNW:6620.

CNW:6654 Forms of the Essay arr.

Theory and Practice of Writing, Graduate
These courses combine theory and analysis of nonfiction writing with practical experimentation in writing. They are intended for people who want to practice, criticize, and/or teach nonfiction writing.

CNW:5375 Teaching in a Writing Center 3 s.h.
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as RHET:5375.

CNW:6600 Teaching Nonfiction 3 s.h.
Theories and practices of teaching nonfiction writing; writing workshop approaches, strategies to encourage response and revision, connections between reading and writing, diversity of form, language, and assessment.

CNW:6650 Readings in Nonfiction 3 s.h.

CNW:6656 Approaches to Nonfiction 3 s.h.
Investigation into forms of nonfiction writing.

CNW:6660 Twenty-first-Century Nonfiction arr.

CNW:6670 Overseas Writing Workshop arr.

Independent Study, Graduate
CNW:7900 Special Project in Nonfiction Writing

CNW:7950 Thesis in Nonfiction Writing arr.

Creative Writing
All may be repeated.

Workshops and Seminars, Graduate
Open only to Iowa Writers’ Workshop students or to others with consent of instructor.

CW:5870 Graduate Fiction Writing 3 s.h.
Reading and discussion of published stories and those written by class members, with the aim of improving writing through careful reading and reflection, spirited discussion, and written comments.

CW:5875 Graduate Poetry Writing 3 s.h.
Careful writing and reading of poems by students as well as by established poets; thorough discussion in a supportive context.

CW:7810 Form of Fiction 3 s.h.

CW:7820 Form of Poetry 3 s.h.

CW:7830 Seminar: Problems in Modern Fiction arr.

CW:7870 Fiction Workshop arr.

CW:7875 Poetry Workshop arr.

Independent Study, Graduate
CW:7890 Graduate Project in Creative Writing arr.

Translation Studies, Lower-Level Undergraduate
This course does not fulfill area or period requirements for the English major but may be used to earn elective credit for the major.

ENGL:2810 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Requirements: working knowledge of a language other than English. Same as TRNS:2179.
English as a Second Language

**Director**
- Maureen Burke

**Assistant directors**
- Jeffrey Knowling, Melissa Meisterheim

**Faculty:** http://clas.uiowa.edu/esl/people

**Web site:** http://clas.uiowa.edu/esl/

The University of Iowa offers English as a Second Language (ESL) instruction in three distinct, but related, programs: ESL credit classes, the Iowa Intensive English Program (IIEP), and the Teaching Assistant Preparation in English program (TAPE).

These programs meet the needs of students whose first language is not English. ESL credit classes help students raise their English proficiency so they can complete a degree successfully. IIEP provides intensive instruction for students who must raise their English proficiency to gain admission to a university or college. TAPE helps students improve their oral competence in English so they may assume classroom teaching responsibilities.

**Programs**

**ESL Credit Program**

English as a Second Language credit classes bridge the gap between full-time language instruction and full-time academic work, serving students who score a minimum of 80-100 (Internet-based) with no subscore below 17 on the Test of English as a Foreign Language (TOEFL). ESL courses are offered to help students increase their proficiency in four skill areas: reading, writing, speaking, and listening. A course in grammar also is available. Each course offers 3 s.h. of credit, which undergraduates may count as elective credit toward graduation. Courses are taught by ESL lecturers and by teaching assistants pursuing advanced degrees in linguistics.

Acceptable TOEFL scores may change. Check with the Office of Admissions for more information.

Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement must be completed with a grade of C or higher. If a student earns a grade of C-minus or lower in an ESL course, the course must be retaken in order for the student to fulfill the ESL course requirement. An ESL course must be taken for a letter grade and may not be taken pass/nonpass or satisfactory/unsatisfactory. Students are not allowed to drop ESL courses once the semester begins. A student held for ESL courses may not enroll in a rhetoric course until the ESL requirement is completed.

Visit the ESL Credit Program web site for more information.

**Iowa Intensive English Program (IIEP)**

The Iowa Intensive English Program (IIEP) primarily serves students on conditional admission and persons who have not yet been admitted to the University and who score below 80 (Internet-based) on the Test of English as a Foreign Language (TOEFL). The program welcomes international students preparing to enter universities and colleges as well as other adults who want to improve their English skills.

IIEP offers intensive English instruction and a cultural, social, and academic orientation to the United States. Instruction emphasizes proficiency in spoken and written English, which is crucial to college and university work. Grammar and the basic language skills of writing, reading, listening comprehension, and speaking are taught each day at all levels, from beginning through advanced. Instruction is by full-time professional ESL instructors.

Each IIEP student receives 20 hours of classroom instruction each week plus individual work in the language laboratory. IIEP students have full access to all University facilities. Field trips and cultural and social experiences are integral parts of the program.

International students admitted to the IIEP receive a certificate of eligibility (Form I-20), which enables them to apply for a student visa at the nearest U.S. consulate or embassy. Application materials are available from the ESL Programs Office and on the Iowa Intensive English Program web site.

**Teaching Assistant Preparation in English (TAPE)**

The Teaching Assistant Preparation in English program (TAPE) is designed for graduate students whose first language is not English, who need additional work on English communication, and who will hold teaching assistantships while enrolled at the University of Iowa. Only students who need the program and who have sufficient competence in English to profit from it are eligible. TAPE courses are open to graduate students who have been evaluated for TA certification and to others if space is available. Students are taught by full-time professional ESL instructors.

**Courses**

**ESL Credit Program**

The following courses are for students whose first language is not English. Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement may not be taken pass/nonpass. English as a Second Language (ESL) courses may not be taken as satisfactory/unsatisfactory. In order to enroll in ESL courses, undergraduates must score 80 (Internet-based) or higher on the Test of English as a Foreign Language (TOEFL), or the equivalent; graduate students must score 81 (Internet-based) or higher on TOEFL, or the equivalent. Consent of ESL director is required for all courses.

**ESL:1000 First-Year Seminar** 1 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

**ESL:1050 Understanding U.S. Dialects** 1 s.h.

Introduction and overview of American English sound system; survey of major U.S. dialects; analysis of social and political issues related to dialects. Same as CLAS:1050.
ESL:1100 Vocabulary for Academic Success 1 s.h.
English word formation; expansion of academic vocabulary for students whose first language is not English; skill development using dictionaries and corpora; word samples drawn from actual use.

ESL:1150 Introduction to the U.S. Constitution 1 s.h.
Origin and analysis of the U.S. Constitution; current constitutional questions and related issues. Same as CLAS:1150.

ESL:1200 Exploring Cultural Values Through the Arts 1 s.h.
Survey of major world cultures; analysis of artistic works; relationship between art and culture and its significance. Same as CLAS:1220.

ESL:1250 Presentation Skills for Academic Success 1 s.h.
Organization and coherence of materials; intelligibility of speech and clarity of expression; active participation and practice in recorded presentations; for students whose first language is not English. Same as CLAS:1250.

ESL:1300 Exploring the Civil Rights Movement Through the Arts 1 s.h.
How art reflects or influences society; history of Civil Rights Movement in mid-20th century and the many ways it has been documented; focus of authors, poets, and musicians on inequality in first half of century; playwrights and filmmakers contribution to change and continued documentation of era after legislation was passed in 1960s; examination of various media, discussions, presentations, writing. Same as CLAS:1350.

ESL:1950 Basic Acting for Language Learners 3 s.h.
Development of theatrical creativity to enhance English language skills through acting games, monologues, and scene work; exercises in concentration, relaxation, communication, imagination, observation, sensory awareness. Same as THTR:1120.

ESL:4100 English as a Second Language: Academic Oral Skills 3 s.h.
Speaking skills for the U.S. academic setting and society; pronunciation, grammar, vocabulary; structured opportunity to develop fluency.

ESL:4130 English as a Second Language: Academic Listening Skills 3 s.h.
Development of listening skills for students whose first language is not English; focus on listening skills necessary for success in a U.S. academic setting; academic lectures, note-taking skills, fast-paced classroom discussions. Requirements: placement test.

ESL:4160 English as a Second Language Grammar 3 s.h.
English structure; troublesome grammar patterns.

ESL:4190 English as a Second Language: Academic Writing 3 s.h.
Complex grammatical constructions, discourse considerations, formal vocabulary use expected of university students; organization styles, types of argumentation, analytic methods used in academic writing. Requirements: undergraduate standing.

ESL:4200 English as a Second Language: Academic Reading Skills 3 s.h.
Increasing reading speed and comprehension of university-level writing and vocabulary; exercises, discussion, and note-taking assignments to develop critical analysis skills.

ESL:6000 English as a Second Language: Writing Skills for Graduate Students 3 s.h.
Discourse considerations; styles of organization, types of argumentation, methods of analysis expected of graduate students. Requirements: TOEFL score of at least 550 (paper-based) or 213 (computer-based) or 81 (Internet-based), and graduate standing.

Iowa Intensive English Program (IIEP)

These courses are for students whose first language is not English. The Iowa Intensive English Program primarily serves students on conditional admission, those who have not yet been admitted to the University, and those who score below 80 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

IIEP:0001 Iowa Intensive English Program Orientation 0 s.h.
Acquaint new intensive English students with Iowa City, the University, and the intensive English program; policies and procedures, classroom expectations, and cultural differences. Requirements: enrollment in intensive English program.

IIEP:0115 Iowa Intensive English Communication Skills: Beginning 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0135 Iowa Intensive English Reading: Beginning 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0145 Iowa Intensive English Grammar: Beginning 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0155 Iowa Intensive English Writing: Beginning 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other’s writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0170 Iowa Intensive English: Communication Skills for Professionals
Listening and speaking skills for international professionals; conversational fluency, language for professional interactions (e.g., discussions and presentations).

IIEP:0215 Iowa Intensive English Communication Skills: Low Intermediate
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0235 Iowa Intensive English Reading: Low Intermediate
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0245 Iowa Intensive English Grammar: Low Intermediate
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0255 Iowa Intensive English Writing: Low Intermediate
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other’s writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0315 Iowa Intensive English Communication Skills: Intermediate
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0335 Iowa Intensive English Reading: Intermediate
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0345 Iowa Intensive English Grammar: Intermediate
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0355 Iowa Intensive English Writing: Intermediate
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other’s writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0415 Iowa Intensive English Communication Skills: High Intermediate
Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0435 Iowa Intensive English Reading: High Intermediate
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0445 Iowa Intensive English Grammar: High Intermediate
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0455 Iowa Intensive English Writing: High Intermediate
Personal and formal writing; varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other’s writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0465 IIE Listening Skills: High Intermediate
Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.
IIEP:0515 Iowa Intensive English Communication Skills: Advanced 0 s.h.
Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0535 Iowa Intensive English Reading: Advanced 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0545 Iowa Intensive English Grammar: Advanced 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0555 Iowa Intensive English Writing: Advanced 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0565 IIE Listening Skills: Advanced 0 s.h.
Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

TAPE:5300 TA Preparation in English: Presentation Skills 0 s.h.
Intelligibility of speech and clarity of expression in presenting and responding; practice in videotaped lectures.

TAPE:5330 TA Preparation in English: Orientation 0 s.h.
Student expectations, typical teacher/student relationships, basic classroom management at the University.

Teaching Assistant Preparation in English (TAPE)
The TAPE program is designed for prospective teaching assistants whose first language is not English and who need additional work on English communication skills. Entry to the program is determined by a test.

TAPE:5100 Pronunciation, Fluency Building, and Culture 0 s.h.
Attain greater fluency for teaching by making short presentations and participating in natural interactions about U.S. culture; intensive work on pronunciation to help future teaching assistants attain maximum intelligibility.

TAPE:5200 TA Preparation in English: Fluency Building 0 s.h.
Pronunciation, fluency building, knowledge of the University of Iowa classroom.

TAPE:5220 TA Preparation in English: Pronunciation 0 s.h.
Intensive work toward maximum intelligibility; emphasis on stress, timing, intonation.
Enterprise Leadership

**Director, Division of Interdisciplinary Programs**
- Helena R. Dettmer

**Director, Enterprise Leadership**
- David K. Hensley

**Undergraduate major: enterprise leadership (B.A.)**
The enterprise leadership major provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, and leadership.

Enterprise Leadership is one of the academic units in the Division of Interdisciplinary Programs (p. 226).

The major in enterprise leadership is offered jointly by the College of Liberal Arts and Sciences and the John Pappajohn Entrepreneurial Center in the Tippie College of Business. The degree is awarded by the College of Liberal Arts and Sciences.

**Undergraduate Program of Study**
- Major in enterprise leadership (Bachelor of Arts)

**Bachelor of Arts**
The Bachelor of Arts with a major in enterprise leadership requires a minimum of 120 s.h., including a minimum of 44-47 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students may earn the B.A. in enterprise leadership or the Certificate in Entrepreneurial Management, but not both.

The enterprise leadership major requires the following course work.

**FOUNDATION**
Foundation courses introduce students to the basic skills, tools, and concepts they will need for the major.

**Mathematics**
Students can elect to take both courses from Option 1 or one course from Option 2.

**Option 1**
Both of these:
- MATH:1005 College Algebra 4 s.h.
- MATH:1010 Trigonometry 3 s.h.

**Option 2**
Or one of these:
- MATH:1020 Elementary Functions 4 s.h.
- MATH:1340 Mathematics for Business 4 s.h.
- MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.
- MATH:1440 Mathematics for the Biological Sciences 4 s.h.
- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
- MATH:1850 Calculus I 4 s.h.

**Economics**
One of these:
- ECON:1100 Principles of Microeconomics 4 s.h.
- ECON:1200 Principles of Macroeconomics 4 s.h.

**Statistics**
One of these:
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3 s.h.
- STAT:1030 Statistics for Business 4 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4143/PSQF:4143 Introduction to Statistical Methods 3 s.h.

**Sociology**
This course:
- SOC:1010 Introduction to Sociology 3-4 s.h.

**ENTREPRENEURSHIP and BUSINESS CORE**
The entrepreneurship and business core supports students' understanding of the essence and operation of entrepreneurial enterprises.

Students must earn at least 14-18 s.h. in the following courses.

This course:
- ENTR:1350 Foundations in Entrepreneurship 2 s.h.

Or both of these:
- ACCT:2100 Introduction to Financial Accounting 3 s.h.
- MKTG:3000 Introduction to Marketing Strategy 3 s.h.

All of these:
- ENTR:2000 Entrepreneurship and Innovation 3 s.h.
- ENTR:3100 Entrepreneurial Finance 3 s.h.
- ENTR:3200 Entrepreneurial Marketing 3 s.h.

One of these:
- ENTR:4400 Managing the Growth Business 3 s.h.
- MGMT:2100 Introduction to Management 3 s.h.

**LEADERSHIP**

**Personal Leadership**
These courses help students reflect on the importance of leadership while developing their own leadership style and skills. Students may not apply a course taken for the Social Context of Leadership requirement to the Personal
Leadership requirement; students must take a second course.

At least 3 s.h. from these:
- LS:1020 Introduction to Leadership 3 s.h.
- LS:1024 Alternative Break Service Learning 1-3 s.h.
- LS:2002 Career Leadership Academy Part 1 3 s.h.
- LS:3004 Perspectives on Leadership: Principles and Practices 3 s.h.
- LS:3010 Global Leadership Initiative 1 s.h.

Social Context of Leadership
Courses introduce students to the impact of social constructs on leadership and organizational effectiveness, such as economic class and cultural and social differences. Students may not apply a course taken for the Personal Leadership requirement to the Social Context of Leadership requirement; students must take a second course.

One of these:
- LS:3002 Career Leadership Academy Part 2 3 s.h.
- SOC:3610 Organizations and Modern Society 3 s.h.
- SOC:3880 Introduction to Network Science 3 s.h.
- SOC:4210 Small Group Analysis 3 s.h.
- SOC:4225 The Social Psychology of Leadership 3 s.h.
- SOC:4230 Sociology of Self-Improvement 3 s.h.

U.S. CULTURAL DIVERSITY
The following courses provide an overview of the complexity of diversity in the United States, and a comprehensive introduction to related issues.

One of these:
- AFAM:1020/AMST:1030 Introduction to African American Culture 3 s.h.
- AFAM:1030 Introduction to African American Society 3 s.h.
- AFAM:2079 Race and Ethnicity in Sport 3 s.h.
- AFAM:2265/HIST:2265 Introduction to African American History 3 s.h.
- AFAM:3500/RELS:3808 Malcolm X, King, and Human Rights 3 s.h.
- AMST:2025 Diversity and American Identities 3 s.h.
- ANTH:2165/AINS:2165/AMST:2165 Native Peoples of North America 3 s.h.
- GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies 3 s.h.
- GWSS:1002 Diversity and Power in the U.S. 3 s.h.
- HIST:1010 Issues in Human History: Gender in Historical Perspective 3 s.h.
- HIST:1040 Perspectives: Diversity in American History 3 s.h.
- SOC:2810 Social Inequality 3 s.h.
- SPST:1074/AMST:1074/GWSS:1074 Inequality in American Sport 3 s.h.

COMMUNICATION
The following courses help students develop an understanding of contemporary communication theory and how it is applied.

Communication Theory

At least 3 s.h. from these:
- COMM:1112 Interpersonal Communication 3 s.h.
- COMM:1117 Theory and Practice of Argument 4 s.h.
- COMM:1130 The Art of Persuading Others 3 s.h.
- COMM:1170 Communication Theory in Everyday Life 3 s.h.
- COMM:1174 Media and Society 3 s.h.
- JMC:1100 Media Uses and Effects 3 s.h.
- JMC:1200 Media History and Culture 3 s.h.
- JMC:1500 Social Media Today 3 s.h.
- JMC:3110 Visual Communication 3 s.h.
- JMC:3155 Law, Media, and Current Issues 3 s.h.

Applied Communication
At least 3 s.h. from these:
- BUS:3800 Business Writing 3 s.h.
- CNW:3640 Writing for Business and Industry 3 s.h.
- CNW:4642 Team Writing for Business 3 s.h.
- CW:3218/INTD:3200 Creative Writing for New Media 3 s.h.
- RHET:2055 Persuasion and Advocacy: Developing Women's Voices 3 s.h.
- RHET:2065 Persuading Different Audiences 3 s.h.
- RHET:2085 Speaking Skills 3 s.h.
- RHET:2990 The Art of Marketing Ideas Online 3 s.h.
- THTR:2610 Acting for Success 3 s.h.

CAPSTONE EXPERIENCE
Students engage in an entrepreneurial experience and apply their knowledge and skills by planning a business, working for a business, or consulting with a business. Students also may choose an approved experiential learning course from a College of Liberal Arts and Sciences major, such as an internship in another major area, with approval.

One of these:
- ENTR:3000 Practicum in Entrepreneurship 3 s.h.
- ENTR:4200 Entrepreneurship: Business Consulting 3 s.h.
- ENTR:4300 Entrepreneurship: Advanced Business Planning 3 s.h.
- ENTR:4900 Academic Internship 3 s.h.

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: six courses in the major
Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: four more courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate
Environmental Policy and Planning

Chair, Department of Geographical and Sustainability Sciences
- David A. Bennett

Coordinator, Environmental Policy and Planning
- Richard Tyler Priest (History)

Undergraduate major: environmental policy and planning (B.A., B.S.)
Undergraduate minor: environmental policy and planning

Faculty: http://clas.uiowa.edu/geography/people/faculty

The undergraduate programs of study in environmental policy and planning are administered by the Department of Geographical and Sustainability Sciences.

Undergraduate Programs of Study
- Major in environmental policy and planning (Bachelor of Arts, Bachelor of Science)
- Minor in environmental policy and planning

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 40-43 s.h. of work for the major. The Bachelor of Science with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 47-49 s.h. of work for the major. Credit required for the major depends on the student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Transfer students must complete at least 21 s.h. of work for the major in residence at the University of Iowa.

The major in environmental policy and planning concentrates on the social science and policy dimensions of environmental problems, which often are caused by people and may have significant economic effects. Environmental issues are embedded in a complex mesh of economics, politics, culture, and behavior. Planners and policy makers must understand the human dimensions of these factors in order to solve environmental problems.

The environmental policy and planning major is interdisciplinary; it draws courses from geographical and sustainability sciences, anthropology, economics, political science, and other disciplines. Work for the major includes introductory courses, methods courses, intermediate courses, and one of two tracks: the planning track or the policy track.

Students who earn a second major in anthropology, geography, or political science must complete a minimum of 12 s.h. of course work in the second major that they do not also count toward the major in environmental policy and planning. The 12 s.h. of courses must be offered by the second major's administrative home: anthropology (prefix ANTH), geographical and sustainability sciences (prefix GEOG), or political science (prefix POLI). This requirement applies whether students earn the same degree (B.A. or B.S.) with both majors or earn a B.A. with one major and a B.S. with the other. Exception: honors students in environmental policy and planning may count their honors thesis credit toward this 12 s.h. requirement.

Students may not use a course to satisfy more than one requirement of the major.

The major in environmental policy and planning requires the following course work.

Common Requirements (B.A. and B.S.)

INTRODUCTORY COURSES (B.A. AND B.S.)
Both of these:
- ECON:1100 Principles of Microeconomics 4 s.h.
- GEOG:1070 Contemporary Environmental Issues 3 s.h.

One of these:
- ANTH:2261 Human Impacts on the Environment 3 s.h.

One of these:
- EES:1080/ENVS:1080 Introduction to Environmental Science 3-4 s.h.
- GEOG:1020 The Global Environment 3 s.h.

INTERMEDIATE COURSES (B.A. AND B.S.)
This course:

One of these:
- ANTH:3103 Environment and Culture 3 s.h.
- ANTH:3112 Environmentalisms 3 s.h.
- ANTH:4130/RELS:4730 Religion and Environmental Ethics 3 s.h.

One of these:
- POLI:1400 Introduction to Comparative Politics 3 s.h.
- POLI:3111 American Public Policy 3 s.h.
- POLI:3126 Environmental Policy 3 s.h.

METHODS COURSES (B.A.)
This course:
- GEOG:1050 Foundations of GIS 3 s.h.

One of these:
- GEOG:1065 Introduction to Spatial Analysis: Patterns and Processes 3 s.h.
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3 s.h.
Environmental Policy and Planning

STAT:1030 Statistics for Business 4 s.h.
STAT:2010 Statistical Methods and Computing 3 s.h.
STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
STAT:3510 Biostatistics 3 s.h.
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3 s.h.

METHODS COURSES (B.S.)
All of these:
GEOG:1050 Foundations of GIS 3 s.h.
GEOG:3520 GIS for Environmental Studies 3 s.h.
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3 s.h.
STAT:6513/PSQF:6243 Intermediate Statistical Methods 4 s.h.

Tracks (B.A. and B.S.)
Students choose either the planning track or the policy track and complete their track's required course work.

PLANNING TRACK
The planning track requires 12 s.h.; all students complete ECON:3625 and choose three additional courses from the list below. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course or seek permission of the instructor.

This course:
ECON:3625/URP:3135 Environmental and Natural Resource Economics 3 s.h.

Three of these:
ECON:3640/URP:3134 Regional and Urban Economics 3 s.h.
GEOG:2410 Environment and Development 3 s.h.
GEOG:2930 Water Resources 3 s.h.
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
GEOG:3350 Urban Ecology 3 s.h.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
GEOG:3760/GHS:3760 Hazards and Society 3 s.h.
GEOG:4770 Environmental Justice 3 s.h.
URP:3001/GEOG:3920 Planning Livable Cities 3 s.h.
URP:3350/ECON:3750/GEOG:3940 Transportation Economics 3 s.h.

POLICY TRACK
The policy track requires 13 s.h.; all students complete GEOG:4750 and choose three additional courses from the list below. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

This course:
GEOG:4750/URP:4750 Environmental Impact Analysis 4 s.h.

Three of these:

ANTH:3237/MUSM:3237 Politics of the Archaeological Past 3 s.h.
ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3 s.h.
GEOG:2331 Human Dimensions of Climate 3 s.h.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
HIST:3230 American Environmental History 3 s.h.
OEH:3210/GEOG:3210 Health, Work, and the Environment 3 s.h.
POLL:2700 Business, Government, and Society (section EXW) 3 s.h.
POLL:3100 American State Politics 3 s.h.
POLL:3102 The U.S. Congress 3 s.h.
POLL:3110 Local Politics 3 s.h.
POLL:3111 American Public Policy 3 s.h.
POLL:3117 Public Administration and Bureaucratic Politics 3 s.h.
POLL:3118 Interest Groups 3 s.h.
POLL:3122 Public Choice 3 s.h.
POLL:3123 State Politics in Iowa (section EXW) 3 s.h.
POLL:3126 Environmental Policy 3 s.h.
POLL:3204/SOC:3525 Public Opinion 3 s.h.
POLL:3404 Public Policy Around the World 3 s.h.
POLL:3408 Chinese Politics and Society 3 s.h.

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Bachelor of Arts
Before the third semester begins: one introductory course in the major
Before the fifth semester begins: four courses in the major
Before the seventh semester begins: eight courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: 11 courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Science
Before the third semester begins: one introductory course in the major
Before the fifth semester begins: five courses in the major
Before the seventh semester begins: eight courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: 12 courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in environmental policy and planning have the opportunity to graduate with honors in the major. Honors students in the program must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the major's honors program by the first semester of their senior year or earlier.

Honors students in environmental policy and planning pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Students earn credit for the thesis by registering for GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis, or ANTH:4995 Honors Research Seminar and ANTH:4996 Honors Research.

In addition to honors in the major, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor

The minor in environmental policy and planning requires a minimum of 18 s.h., including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. For help in selecting courses, students should contact the department secretary to request an advisor for the minor.

Students may apply a maximum of 6 s.h. toward both the minor in environmental policy and planning and any major or minor in the Departments of Anthropology (p. 55), Geographical and Sustainability Sciences (p. 323), or Political Science (p. 520).

The minor in environmental policy and planning requires three core courses plus three courses from the student's choice of track: the planning track or the policy track. Students may not use a course to satisfy more than one requirement of the minor.

All students complete three core courses.

This course:

GEOG:1070 Contemporary Environmental Issues 3 s.h.

One of these:

ANTH:2261 Human Impacts on the Environment 3 s.h.
ANTH:3103 Environment and Culture 3 s.h.
ANTH:3112 Environmentalisms 3 s.h.
ANTH:4130/RELS:4730 Religion and Environmental Ethics 3 s.h.

One of these:

POLI:1400 Introduction to Comparative Politics 3 s.h.
POLI:3111 American Public Policy 3 s.h.

Students also complete course work in a single track, choosing three courses from either the planning track list or the policy track list below.

Planning track:

GEOG:2410 Environment and Development 3 s.h.
GEOG:2930 Water Resources 3 s.h.
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
GEOG:3350 Urban Ecology 3 s.h.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
GEOG:3760 Hazards and Society 3 s.h.
GEOG:4770 Environmental Justice 3 s.h.
URP:3001/GEOG:3920 Planning Livable Cities 3 s.h.
URP:3134/ECON:3640 Regional and Urban Economics 3 s.h.
URP:3135/ECON:3625 Environmental and Natural Resource Economics 3 s.h.
URP:3350/ECON:3750/GEOG:3940 Transportation Economics 3 s.h.

Policy track:

ANTH:3237/MUSM:3237 Politics of the Archaeological Past 3 s.h.
ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3 s.h.
GEOG:2331 Human Dimensions of Climate 3 s.h.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
GEOG:3760/GHS:3760 Hazards and Society 3 s.h.
GEOG:4750/URP:4750 Environmental Impact Analysis 4 s.h.
HIST:3230 American Environmental History 3 s.h.
OEH:3210/GEOG:3210 Health, Work, and the Environment 3 s.h.
POLI:2700 Business, Government, and Society 3 s.h.
POLI:3100 American State Politics 3 s.h.
POLI:3102 The U.S. Congress 3 s.h.
POLI:3110 Local Politics 3 s.h.
POLI:3111 American Public Policy 3 s.h.
POLI:3117 Public Administration and Bureaucratic Politics 3 s.h.
POLI:3118 Interest Groups 3 s.h.
POLI:3122 Public Choice 3 s.h.
POLI:3123 State Politics in Iowa 3 s.h.
POLI:3204/SOC:3525 Public Opinion 3 s.h.
POLI:3404 Public Policy Around the World 3 s.h.
POLI:3408 Chinese Politics and Society 3 s.h.
Environmental Sciences

Chair, Department of Earth and Environmental Sciences
• Charles "Tom" Foster Jr.

Coordinators, Environmental Sciences
• E. Arthur Bettis III, Andrew A. Forbes

Undergraduate major: environmental sciences (B.A., B.S.)
Undergraduate minor: environmental sciences
Faculty: http://clas.uiowa.edu/envsci/people
Web site: http://clas.uiowa.edu/envsci/

The Environmental Sciences Program provides rigorous interdisciplinary training in the scientific study of the environment. It promotes an understanding of the earth as a complex network of interacting organic and inorganic systems. The program's undergraduate curricula reflect the diversity in the broad field of environmental sciences and draw upon the College of Liberal Arts and Sciences' disciplinary strengths, giving students the opportunity to develop particular areas of expertise.

Hands-on field experience is a crucial component of the program. Students are strongly encouraged to engage in research and study abroad.

The Department of Earth and Environmental Sciences (p. 231) is the administrative home for the Environmental Sciences Program.

Undergraduate Programs of Study
• Major in environmental sciences (Bachelor of Arts, Bachelor of Science)
• Minor in environmental sciences

Bachelor of Science

The Bachelor of Science with a major in environmental sciences requires a minimum of 120 s.h., including 81-85 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313); some courses required for the major in environmental sciences may be used to satisfy General Education Program requirements.

Bachelor of Science students majoring in environmental sciences must complete requirements in three areas: the science and mathematics foundation, the environmental sciences foundation, and one of four environmental sciences tracks. Each student is assigned an advisor who specializes in his or her track.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on remote sensing techniques, design and use of geographic information technologies, the geomorphic and environmental processes that shape the earth's surface, and ecological factors that influence the distribution and abundance of organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:
- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

The tracks aim to prepare scientists who can tackle problems that require particular areas of expertise, and to help students develop the skills needed for future employment or graduate study.

The environmental sciences major for the Bachelor of Science requires the following course work.

SCIENCE AND MATHEMATICS FOUNDATION

Students must complete at least 31 s.h. of course work for the science and mathematics foundation, as follows.

All of these:
- BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.
- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.
- EES:1050 Introduction to Geology 4 s.h.
- MATH:1850 & MATH:1860 Calculus I-II 8 s.h.

One of these:
- CHEM:2021 Basic Measurements 3 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4200 Statistical Methods and Computing 3 s.h.

ENVIRONMENTAL SCIENCES FOUNDATION

Students must complete at least 18-19 s.h. of course work for the environmental sciences foundation, as follows.

All of these:
- ENVS:1080 Introduction to Environmental Science 4 s.h.
- ENVS:2673 Ecology 3 s.h.
- ENVS:3000 Environmental Sciences Seminar (taken twice) 2 s.h.
- ENVS:3020 Earth Surface Processes 3 s.h.
- GEOG:1050 Foundations of GIS 3 s.h.

One of these:
- ENVS:3100 Introduction to Applied Remote Sensing 4 s.h.
- GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.

Tracks for the Bachelor of Science

Bachelor of Science students majoring in environmental sciences must choose one of the following four tracks. Each track includes required general sciences courses,
track foundation courses, field study courses, and elective courses.

**BIOSCIENCES (GREEN) TRACK**

The environmental biosciences track provides the essential skills for entry-level positions that require a good knowledge of biotic systems and the ability to inventory biologic resources. The track's aim is to produce scientists who are capable of tackling environmental problems in which links and interactions with life sciences are crucial and in which a substantial knowledge of biological/ecological sciences is required. The track also provides a strong foundation for graduate or professional training in disciplines such as ecology, wildlife management, and natural resource management.

Students must complete at least 32 s.h. of environmental biosciences track course work, including one field study course.

**Biosciences Track: General Sciences**

This course:

**CHEM:2210 Organic Chemistry I**
3 s.h.

Students are encouraged to take at least one semester of physics.

**Biosciences Track: Foundation**

Both of these:

**BIOL:2512 Fundamental Genetics**
4 s.h.

**BIOL:3172 Evolution**
4 s.h.

At least 7 s.h. from these:

**BIOL:2346 Vertebrate Zoology**
4 s.h.

**EES:3070 Marine Ecosystems and Conservation**
3 s.h.

**EES:3220 Evolution of the Vertebrates**
3 s.h.

**EES:4440 Phylogenetics and Biodiversity**
3 s.h.

**EES:4700 Evolution of Ecosystems**
3 s.h.

**GEOG:2374 Biogeography**
3 s.h.

**GEOG:2950 Environmental Conservation**
3 s.h.

**IALL:3105 Plant Taxonomy**
4 s.h.

**IALL:3117 Ecology and Systematics of Diatoms**
4 s.h.

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor.

**Biosciences Track: Field Study**

One of these:

**IALL:3103 Aquatic Ecology**
4 s.h.

**IALL:3105 Plant Taxonomy**
4 s.h.

**IALL:3109 Ecology and Systematics of Algae**
4 s.h.

**IALL:3115 Field Mycology**
4 s.h.

**IALL:3117 Ecology and Systematics of Diatoms**
4 s.h.

**IALL:3122 Prairie Ecology**
4 s.h.

**IALL:3126 Ornithology**
4 s.h.

**IALL:3160 Restoration Ecology**
4 s.h.

**IALL:3163 Conservation Biology**
4 s.h.

**Biosciences Track: Electives**

Biosciences track students must complete at least 10 s.h. of elective course work, with at least 6 s.h. from the following lists. They may include an additional field study course to satisfy 4 s.h. of the elective requirement (see "Biosciences Track: Field Study" above).

**CHEMICAL SCIENCES (YELLOW) TRACK**

The environmental chemical sciences track provides the essential skills for entry-level positions that require a basic understanding of chemical principles and a working knowledge of basic chemical concepts as applied in the environment. The track's aim is to produce scientists who are capable of tackling environmental problems in which chemical and molecular processes play an important role. The track also provides a strong foundation for graduate or professional training in environmental chemistry.

Students must complete at least 35 s.h. of environmental chemical sciences track course work.

**Chemical Sciences Track: General Sciences**

One of these sequences:

**Chemical Sciences Track: Foundation**

This sequence:
CHEM:3110 & CHEM:3120 Analytical Chemistry I-II 6 s.h.

One of these sequences:
CHEM:2210 & CHEM:2220 Organic Chemistry I-II 6 s.h.
CHEM:2230 & CHEM:2240 Organic Chemistry I for Majors - Organic Chemistry II for Majors 6 s.h.

One of these:
CHEM:4431 Physical Chemistry I 3 s.h.
CHEM:4432 Physical Chemistry II 3 s.h.

**Chemical Sciences Track: Lab and Field Study**
Both of these:
CHEM:2410 Organic Chemistry Laboratory 3 s.h.
CHEM:3430 Analytical Measurements 3 s.h.

**Chemical Sciences Track: Electives**
Chemical sciences track students must complete at least 6 s.h. of elective courses chosen from the following lists. Students may petition the chemistry department’s environmental sciences advisor to use appropriate Department of Chemistry courses numbered 3000 and above as electives.

BIOC:3110 Biochemistry 3 s.h.
CEE:4153 Environmental Chemistry Laboratory 3 s.h.
CEE:4158 Solid and Hazardous Wastes 3 s.h.
CEE:5152 Environmental Chemistry I 3 s.h.
CHEM:3250 Inorganic Chemistry 2 s.h.
CHEM:3994 Undergraduate Research 1-4 s.h.
CHEM:4873 Atmospheric and Environmental Chemistry 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
ENVS:3110 Chemical Evolution of the Oceans 3 s.h.
GEOG:2310 Introduction to Climatology 3 s.h.
GEOG:2950 Environmental Conservation 3 s.h.

May include one of these:
CHEM:4431 Physical Chemistry I (if not taken as a foundation course) 3 s.h.
CHEM:4432 Physical Chemistry II (if not taken as a foundation course) 3 s.h.

May include one of these policy courses:
ECON:3625 Environmental and Natural Resource Economics 3 s.h.
EES:1115 Energy and Society: History and Science of Oil 3 s.h.
GEOG:1070 Contemporary Environmental Issues 3 s.h.
GEOG:2930 Water Resources 3 s.h.
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.
GEOG:4750 Environmental Impact Analysis 4 s.h.

**GEOSCIENCES (BROWN) TRACK**
The environmental geosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of basic geologic concepts applied in the environmental industry. The track’s aim is to produce scientists who are capable of tackling environmental problems in which earth materials and surficial geologic processes are of primary importance. The track also lays a strong foundation for graduate study in environmental geology, engineering geology, and natural hazards assessment.

Students must complete at least 35 s.h. of environmental geosciences track course work.

**Geosciences Track: General Sciences**
This course:
PHYS:1400 Basic Physics 4 s.h.

Students are strongly encouraged to take additional course work in physics.

**Geosciences Track: Foundation**
All of these:
EES:2410 Mineralogy 4 s.h.
EES:3300 Sedimentary Geology 4 s.h.
EES:3360 Soil Genesis and Geomorphology 3 s.h.
EES:3500 Igneous and Metamorphic Petrology 4 s.h.
EES:3840 Structural Geology 4 s.h.
EES:4790 Engineering Geology 3 s.h.

**Geosciences Track: Field Study**
One of these:
CEE:4103 Water Quality 3 s.h.
EES:2831 Geologic Field Methods 3 s.h.
EES:4680 Field Methods in Hydrologic Science 3 s.h.
GEOG:4010 Field Methods in Physical Geography 3 s.h.

**Geosciences Track: Electives**
Geosciences track students must complete at least 6 s.h. of elective courses chosen from the following lists.

CEE:2150 Natural Environmental Systems 3 s.h.
CEE:4158 Solid and Hazardous Wastes 3 s.h.
EES:1290 Energy and the Environment 3 s.h.
EES:1400 Natural Disasters 3 s.h.
EES:3080 Introduction to Oceanography 2 s.h.
EES:3190 Directed Study 3 s.h.
EES:3300 Sedimentary Geology 4 s.h.
EES:3380 Fluvial Geomorphology 3 s.h.
EES:3390 Integrated Watershed Analysis 3 s.h.
EES:3770 Global Stratigraphy 3 s.h.
EES:3860 Material Flow Analysis 3 s.h.
EES:4490 Elements of Geochemistry 3 s.h.
EES:4520 Isotope Geochemistry 3 s.h.
EES:4630 Hydrogeology 3 s.h.
EES:4720 Glacial and Pleistocene Geology 3 s.h.
EES:4800 Solid Earth Geophysics 3 s.h.
EES:4870 Applied Geostatistics 3 s.h.
EES:5380 Process Geomorphology Seminar 1-3 s.h.
EES:5820 Tectonics 3 s.h.
ENVS:3110 Chemical Evolution of the Oceans 3 s.h.
GEOG:2310 Introduction to Climatology 3 s.h.
GEOG:2950 Environmental Conservation 3 s.h.

May include one of these policy courses:
ENVS:1115 Energy and Society: History and Science of Oil 3 s.h.
ECON:3625 Environmental and Natural Resource Economics 3 s.h.
GEOG:1070 Contemporary Environmental Issues 3 s.h.
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
GEOG:3760 Hazards and Society 3 s.h.
GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.
GEOG:4750 Environmental Impact Analysis 4 s.h.

HYDROSCIENCES (BLUE) TRACK

The environmental hydrosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of hydrogeology and hydrogeochemistry. The track's aim is to produce scientists who are capable of tackling environmental problems that emphasize hydrogeologic systems and for which substantial knowledge of hydrogeology and water chemistry are essential. The track also lays a strong foundation for graduate education in hydrogeology, hydrology, geochemistry, and aqueous chemistry.

Students must complete at least 34 s.h. of environmental hydrosciences track course work.

Hydrosciences Track: General Sciences
This sequence:
PHYS:1511-PHYS:1512 College Physics I-II 8 s.h.

Hydrosciences Track: Foundation
Both of these:
EES:4630 Hydrogeology 3 s.h.
EES:4790 Engineering Geology 3 s.h.
One of these:
EES:3380 Fluvial Geomorphology 3 s.h.
EES:3390 Integrated Watershed Analysis 3 s.h.
One of these:
CEE:5152 Environmental Chemistry I 3 s.h.
CEE:4490 Elements of Geochemistry 3 s.h.

Hydrosciences Track: Field Study
This course:
EES:4680 Field Methods in Hydrologic Science 3 s.h.

Hydrosciences Track: Electives
Hydrosciences track students must complete at least 11 s.h. of elective courses chosen from the following lists.

CEE:2150 Natural Environmental Systems 3 s.h.
CEE:3371 Principles of Hydraulics and Hydrology 3 s.h.
CEE:4103 Water Quality 3 s.h.
CEE:4153 Environmental Chemistry Laboratory 3 s.h.
CEE:4378 Hydrometeorology 3 s.h.
CEE:5152 Environmental Chemistry I 3 s.h.
CEE:5154 Environmental Microbiology 3 s.h.
EES:3080 Introduction to Oceanography 2 s.h.
EES:3190 Directed Study arr.
EES:3300 Sedimentary Geology 4 s.h.
EES:4660 Groundwater Modeling 3 s.h.
EES:4800 Solid Earth Geophysics 3 s.h.
EES:4870 Applied Geostatistics 3 s.h.
ENVS:3110 Chemical Evolution of the Oceans 3 s.h.
GEOG:2310 Introduction to Climatology 3 s.h.
GEOG:2950 Environmental Conservation 3 s.h.
GEOG:3320 Wetlands: Function, Geography, and Management 3 s.h.

Bachelor of Arts
The Bachelor of Arts with a major in environmental sciences requires a minimum of 120 s.h., including a minimum of 60 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313); some courses required for the major in environmental sciences may be used to satisfy General Education Program requirements.

Bachelor of Arts students majoring in environmental sciences complete requirements in four areas: the science and mathematics foundation, the environmental sciences foundation, environmental sciences field study, and environmental sciences track courses.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on the geomorphic and environmental processes that shape the Earth’s surface, the ecological factors that influence the distribution and abundance of organisms, and a choice of one course that
deals with remote sensing techniques or with the use of geographic information technologies. The environmental sciences field study gives students hands-on experience with methods of analysis and interpretation of natural systems/organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

Students select one course from each of three of the four tracks in order to develop breadth of understanding and skill in these areas.

The environmental sciences major for the Bachelor of Arts requires the following course work.

**SCIENCE AND MATHEMATICS FOUNDATION**

Students must complete at least 31 s.h. of course work for the sciences and mathematics foundation, as follows.

All of these:

- BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function 8 s.h.
- CHEM:1110 Principles of Chemistry I 4 s.h.
- CHEM:1120 Principles of Chemistry II 4 s.h.
- EES:1050 Introduction to Geology 4 s.h.

First semester math and calculus—one of these:

- MATH:1440 Mathematics for the Biological Sciences 4 s.h.
- MATH:1850 Calculus I 4 s.h.

Second semester math and calculus—one of these:

- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1860 Calculus II 4 s.h.

One semester of statistics—one of these:

- CHEM:2021 Basic Measurements 3 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4200 Statistical Methods and Computing 3 s.h.

**ENVIRONMENTAL SCIENCES FOUNDATION**

Students must complete at least 17-19 s.h. of course work for the environmental sciences foundation, as follows.

All of these:

- ENVS:3100 Introduction to Applied Remote Sensing 4 s.h.
- GEOG:1050 Foundations of GIS 3 s.h.
- GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.

One of these:

- ENVS:1115 Energy and Society: History and Science of Oil 3 s.h.
- ANTH:4130 Religion and Environmental Ethics 3 s.h.
- ECON:3625 Environmental and Natural Resource Economics 3 s.h.
- GEOG:1070 Contemporary Environmental Issues 3 s.h.
- GEOG:2910 The Global Economy 3 s.h.
- GEOG:2930 Water Resources 3 s.h.
- GEOG:2950 Environmental Quality: Science, Technology, and Policy 3 s.h.
- GEOG:3760 Hazards and Society 3 s.h.
- GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.
- GEOG:3910 Geographic Perspectives on Development 3 s.h.
- GEOG:4750 Environmental Impact Analysis 4 s.h.
- GEOG:4770 Environmental Justice 3 s.h.

**ENVIRONMENTAL SCIENCES FIELD STUDY**

Students must complete at least one field study course (at least 3 s.h.) from the following list.

- CEE:4103 Water Quality 3 s.h.
- EES:2831 Geologic Field Methods 3 s.h.
- EES:4680 Field Methods in Hydrologic Science 3 s.h.
- GEOG:4010 Field Methods in Physical Geography 3 s.h.
- IALL:3103 Aquatic Ecology 4 s.h.
- IALL:3105 Plant Taxonomy 4 s.h.
- IALL:3117 Ecology and Systematics of Diatoms 4 s.h.
- IALL:3126 Ornithology 4 s.h.
- IALL:3163 Conservation Biology 4 s.h.

**ENVIRONMENTAL SCIENCES TRACK COURSES**

Students must complete 9-12 s.h. (three courses), choosing one course from each of three of the following four lists of environmental sciences track courses.

**Biosciences (Green) Track**

- BIOL:2346 Vertebrate Zoology 4 s.h.
- EES:3070 Marine Ecosystems and Conservation 3 s.h.
- EES:3220 Evolution of the Vertebrates 3 s.h.
- EES:4700 Evolution of Ecosystems 3 s.h.
- EES:4710 Evolution of Plants 3 s.h.
- GEOG:2374 Biogeography 3 s.h.
- IALL:3105 Plant Taxonomy 4 s.h.
- IALL:3117 Ecology and Systematics of Diatoms 4 s.h.

B.A. or B.S. with Teacher Licensure

Environmental sciences majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a major offered by the Science Education Program. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Science Education (p. 788) in the Catalog.

Joint B.A./M.A.T. with Science Education Subprogram

B.A. students majoring in environmental sciences who are interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and an M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Joint B.A./M.A.T. Science Education" in the Teaching and Learning (p. 793) (College of Education) section of the Catalog. Interested students should consult an advisor.

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

Honors in the Major

Students majoring in environmental sciences have the opportunity to graduate with honors in the major. Honors study in environmental sciences provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program; the program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

Environmental sciences honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

To graduate with honors in environmental sciences, students must fulfill the following requirements:

- complete a B.S. or B.A. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Investigations, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction,
methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences must choose a cosponsor who does have a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor's supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Undergraduate Program/Honors Projects on the Environmental Sciences Program web site.

Minor
The minor in environmental sciences requires a minimum of 16 s.h. in University of Iowa environmental sciences course work. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The following courses are required.

ENVS:1080/EEIS:1080 Introduction to Environmental Science 4 s.h.
ENVS:1090 Introduction to Environmental Sciences Laboratory 1 s.h.
ENVS:1115 Energy and Society: History and Science of Oil 3 s.h.
ENVS:2673/BIOI:2673 Ecology 3 s.h.
ENVS:3020/EEIS:3020 Earth Surface Processes 3 s.h.
ENVS:3100/EEIS:3100 Introduction to Applied Remote Sensing 4 s.h.
GEOG:1050 Foundations of GIS 3 s.h.
GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.

And:
Courses in one of the four environmental sciences tracks, listed under "Bachelor of Science/"Tracks" early in this Catalog section 8-9 s.h.

Track courses must include one track foundation course (3-4 s.h.) and one track field study course (2-4 s.h.). The tracks are environmental biosciences, environmental chemical sciences, environmental geosciences, and environmental hydrosciences.

Facilities
Depending on their choice of track and/or courses, students majoring in environmental sciences may have the opportunity to take courses at Iowa Lakeside Laboratory, a field station located on West Lake Okoboji, in northwestern Iowa. Run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, the laboratory offers courses at the undergraduate and graduate levels and provides excellent conditions for summer study in several disciplines. See Iowa Lakeside Laboratory (p. 1212) (University College) in the Catalog or visit the Lakeside Laboratory web site.

Courses
Lower-Level Undergraduate
ENVS:1080 Introduction to Environmental Science 3-4 s.h.
ENVS:1090 Introduction to Environmental Sciences Laboratory 1 s.h.
ENVS:1115 Energy and Society: History and Science of Oil 3 s.h.
ENVS:2673 Ecology 3-4 s.h.

Upper-Level Undergraduate and Graduate
ENVS:3000 Environmental Sciences Seminar 0-1 s.h.

Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: environmental sciences major.
**ENVS:3020 Earth Surface Processes**  
3 s.h.
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Prerequisites: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020. Same as GEOG:3020, EES:3020.

**ENVS:3095 Field Ecology**  
4 s.h.
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; field-oriented course. Prerequisites: BIOL:1411. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.

**ENVS:3100 Introduction to Applied Remote Sensing**  
4 s.h.
Remote sensing of the earth's surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1030 or EES:1050 or EES:1080. Same as EES:3100.

**ENVS:3110 Chemical Evolution of the Oceans**  
3 s.h.
Investigation of various physico-chemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as EES:3110.

**ENVS:4700 Evolution of Ecosystems**  
3 s.h.
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as EES:4700.
Ethics and Public Policy

Chair, Department of Philosophy
• David Cunning

Codirectors, Ethics and Public Policy
• Richard Fumerton, Diane Jeske

Undergraduate major: ethics and public policy (B.A.)
Faculty: http://clas.uiowa.edu/ethics/steering-committee
Web site: http://clas.uiowa.edu/ethics/

Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict; most people agree that what society should do depends in part on the actual or potential consequences of its actions; and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one’s plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

The major in ethics and public policy provides an ideal background for law school. The study of reasoning, an important component of the major, is useful in preparing for the LSAT, GMAT, and MCAT. The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major’s specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The Departments of Economics, Philosophy, Political Science, and Sociology collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy.

Undergraduate Program of Study

• Major in ethics and public policy (Bachelor of Arts)

Bachelor of Arts

The Bachelor of Arts in ethics and public policy requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

The curriculum includes foundation courses and the work for one field of specialization.

The major in ethics and public policy requires the following course work.

FOUNDATION COURSES
Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

Philosophy Foundation
Reasoning—one of these:
- PHIL:1636 Principles of Reasoning: Argument and Debate 3 s.h.
- PHIL:2603 Introduction to Symbolic Logic 3 s.h.
Value theory—one of these:
- PHIL:1034 Liberty and the Pursuit of Happiness 3 s.h.
- PHIL:1401 Matters of Life and Death 3 s.h.
- PHIL:2402 Introduction to Ethics 3 s.h.
- PHIL:2432 Introduction to Political Philosophy 3 s.h.
- PHIL:2435 Philosophy of Law 3 s.h.
- PHIL:2436 The Nature of Evil 3 s.h.

Economics Foundation
This course:
- ECON:1100 Principles of Microeconomics 4 s.h.
One of these:
- ECON:3650 Policy Analysis 3 s.h.
- ECON:3800 Law and Economics 3 s.h.

Political Science Foundation
Foundation—one of these:
- POLI:1001 Introduction to Politics 3 s.h.
- POLI:1100 Introduction to American Politics 3 s.h.
- POLI:1400 Introduction to Comparative Politics 3 s.h.
- POLI:3000 Understanding Political Research 3 s.h.
Policy course—one of these:
- POLI:1501 Introduction to American Foreign Policy 3 s.h.
- POLI:3111 American Public Policy 3 s.h.

Sociology Foundation
Theory—one of these:
- SOC:1010 Introduction to Sociology 3-4 s.h.
- SOC:1020 Social Problems 3-4 s.h.
Law and sociology—one of these:
- SOC:1119 Policy Matters: Perspectives on Contemporary Problems 3 s.h.
- SOC:1410 Introduction to Criminology 3 s.h.
SOC:1420 Law and Society 3 s.h.
SOC:1810 Poverty, Inequality, and Public Policy 3 s.h.
SOC:2325 Women, Crime, and Justice 3 s.h.
SOC:2426 Deviance and Control 3 s.h.
SOC:2430 Comparative Criminal Justice Systems 3 s.h.
SOC:2810 Social Inequality 3 s.h.
SOC:3510 Medical Sociology 3 s.h.

FIELDS OF SPECIALIZATION
Students select one of the following fields of specialization: philosophy, economics, political science, or sociology. Students must complete four courses in their field, selected from the appropriate list below.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

Philosophy
PHIL:2402 Introduction to Ethics 3 s.h.
PHIL:2432 Introduction to Political Philosophy 3 s.h.
PHIL:2435 Philosophy of Law 3 s.h.
PHIL:2436 The Nature of Evil 3 s.h.
PHIL:3342 Multiculturalism and Toleration 3 s.h.
PHIL:3430 Philosophy of Human Rights 3 s.h.
PHIL:3604 Introduction to Philosophy of Science 3 s.h.
PHIL:3633 Philosophy of History 3 s.h.
PHIL:4480 Analytic Ethics 3 s.h.
PHIL:4481 Issues in Philosophy of Law 3 s.h.
PHIL:4482 History of Ethics 3 s.h.
PHIL:4485 Political Philosophy 3 s.h.
PHIL:4696 Philosophy of the Human Sciences 3 s.h.

Economics
ECON:3100 Intermediate Microeconomics 3 s.h.
ECON:3345 Global Economics and Business 3 s.h.
ECON:3610 Development of Local and Regional Economies 3 s.h.
ECON:3620 Economic Growth and Development 3 s.h.
ECON:3625 Environmental and Natural Resource Economics 3 s.h.
ECON:3640 Regional and Urban Economics 3 s.h.
ECON:3650 Policy Analysis 3 s.h.
ECON:3760 Health Economics 3 s.h.
ECON:3790 Antitrust Economics 3 s.h.
ECON:3800 Law and Economics 3 s.h.
ECON:4160 Public Sector Economics 3 s.h.

Political Science
POLI:3101 American Constitutional Law and Politics 3 s.h.
POLI:3102 The U.S. Congress 3 s.h.
POLI:3104 Immigration Politics 3 s.h.
POLI:3105 Minority Representation in American Politics 3 s.h.
POLI:3111 American Public Policy 3 s.h.

POLI:3114 Women and Politics in the United States 3 s.h.
POLI:3116 The Presidency 3 s.h.
POLI:3118 Interest Groups 3 s.h.
POLI:3120 The Criminal Justice System 3 s.h.
POLI:3121 The Judicial Process 3 s.h.
POLI:3122 Public Choice 3 s.h.
POLI:3204 Public Opinion 3 s.h.
POLI:3400 Introduction to Political Economy 3 s.h.
POLI:3401 European Union 3 s.h.
POLI:3404 Public Policy Around the World 3 s.h.
POLI:3406 Ethnic and Religious Conflict in the Muslim World 3 s.h.
POLI:3410 Russian Foreign Policy 3 s.h.
POLI:3501 International Organization and World Order 3 s.h.
POLI:3503 Politics of Terrorism 3 s.h.
POLI:3504 Globalization 3 s.h.
POLI:3505 Causes, Consequences, and Management of Civil War 3 s.h.
POLI:3506 Consequences of War 3 s.h.
POLI:3507 Women and Politics in Global Perspective 3 s.h.
POLI:3508 Race in World Politics 3 s.h.
POLI:3509 International Courts: The Intersection of Law and Politics 3 s.h.
POLI:3510 State Failure in the Developing World 3 s.h.
POLI:3511 International Law 3 s.h.
POLI:3512 International Conflict 3 s.h.
POLI:3513 Politics of International Human Rights Law 3 s.h.
POLI:3516 The Politics of International Economics 3 s.h.
POLI:3517 Global Justice 3 s.h.
POLI:3520 National Security Policy 3 s.h.

Sociology
SOC:3171 Drugs and Society 3 s.h.
SOC:3415 Global Criminology 3 s.h.
SOC:3416 Race, Crime, and Justice 3 s.h.
SOC:3420 Juvenile Delinquency 3 s.h.
SOC:3437 American Crime 3 s.h.
SOC:3450 Criminal Legal System 3 s.h.
SOC:3520 Political Sociology 3 s.h.
SOC:3525 Public Opinion 3 s.h.
SOC:3650 Education, Schools, and Society 3 s.h.
SOC:3840 Community and Urban Sociology 3 s.h.
SOC:3850 Economy and Society 3 s.h.
SOC:4400 Internship in Criminal Justice and Corrections 3 s.h.
SOC:4420 Criminal Punishment 3 s.h.
SOC:4440 Sociology of White-Collar Crime 3 s.h.
SOC:4450 Juvenile Justice: A Sociolegal Perspective 3 s.h.
SOC:4460 Sociology of Law 3 s.h.
SOC:4540 Political Sociology and Social Movements 3 s.h.
**Student-Designed Field**

In rare circumstances, a student may be given permission to design his or her own specialization field. The student specifies four courses numbered 3000 and above or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.

Students interested in designing their own specialization field should speak with an advisor as early as possible. They must obtain approval from their advisor and from the steering committee of the major in ethics and public policy as soon as possible after they declare the major and before they complete the designated course work.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major.)

- **Before the third semester begins**: at least one course in the major
- **Before the fifth semester begins**: at least three courses in the major
- **Before the seventh semester begins**: at least seven courses in the major and at least 90 s.h. earned toward the degree
- **Before the eighth semester begins**: at least nine courses in the major
- **During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in ethics and public policy have the opportunity to graduate with honors in the major. Honors students must maintain a g.p.a. of at least 3.50 in work for the major and a cumulative University of Iowa g.p.a. of at least 3.50. In order to graduate with honors in the major, they must complete all work for the major and write an acceptable honors thesis on a significant topic related to the major. Students who write their honors thesis in philosophy should consider preparing for the thesis by taking PHIL:3950 Readings in Philosophy; students who write in economics should consider taking ECON:3999 Honors Seminar; students who write in political science should take POLI:4000 Honors Seminar on the Study of Politics; and students who write in sociology should consider taking SOC:4997 Honors Seminar. Contact the coordinator of the Ethics and Public Policy Program for more information.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.
Event Planning

Director, School of Journalism and Mass Communication
• David M. Ryfe

Coordinator, Event Planning
• Heather Spangler (Journalism and Mass Communication)

Undergraduate certificate: event planning
Web site: http://clas.uiowa.edu/sjmc/undergraduate-programs/event-planning-certificate

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Planning is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic course work, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.

The Departments of Communication Studies (p. 177), Health and Human Physiology (p. 349) (College of Liberal Arts and Sciences), the School of Journalism and Mass Communication (p. 433) (College of Liberal Arts and Sciences) and the Department of Marketing (p. 692) (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Planning is administered by the School of Journalism and Mass Communication.

Undergraduate Program of Study
• Certificate in Event Planning
Completion of the certificate program will encourage the following student outcomes:
• An understanding of the history and composition of event planning as a professional field;
• A facility with skills necessary to become a professional event planner; and
• An understanding of the relationship between event planning and the wider fields of strategic communication and marketing.

Certificate
The Certificate in Event Planning requires a minimum of 21 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Planning requires the following course work.

French and Italian

Director, Division of World Languages, Literatures, and Cultures
• Russell Ganim

Chair, Department of French and Italian
• Cinzia Blum

General Education language coordinators
• Deborah Contrada (Italian), Roxanna Curto (French), Emilie Destruel-Johnson (French), Dénes Gazsi (Arabic)

Undergraduate majors: French (B.A.); Italian (B.A.)
Undergraduate minors: Arabic language; French; Italian
Graduate degrees: M.A. in French and Francophone world studies; Ph.D. in French and Francophone world studies
Faculty: http://clas.uiowa.edu/dwllc/french-italian/people
Website: http://clas.uiowa.edu/dwllc/french-italian

The Department of French and Italian introduces students to the cultures of France, the Francophone world, Italy, and parts of the Middle East and Africa, providing an understanding of those countries' historical and contemporary importance. It also facilitates development of proficiency in the French, Italian, Arabic, and Swahili languages and fosters critical appreciation of French, Francophone, Italian, and Arabic literatures and cultures.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program (p. 313) with courses in Arabic, French, Italian, or Swahili; see "Language for General Education" below. The department offers other General Education courses, and entering students may take the department’s First-Year Seminars, one on France, the other on Italy.

The Department of French and Italian is one of the academic units in the Division of World Languages, Literatures, and Cultures (p. 228).

Undergraduate Programs of Study
• Major in French (Bachelor of Arts)
• Major in Italian (Bachelor of Arts)
• Minor in Arabic Language
• Minor in French
• Minor in Italian

Students majoring in French or Italian may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as French, Italian, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Or they may combine other skills and studies with their major in French or Italian to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

Bachelor of Arts: French

The Bachelor of Arts with a major in French requires a minimum of 120 s.h., including 31-35 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

The major in French requires the following course work.

FOUNDATION COURSES

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN:3020</td>
<td>Oral Expression in French II</td>
<td>2 s.h.</td>
</tr>
<tr>
<td>FREN:3060</td>
<td>Introduction to Reading and Writing in Literature</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>FREN:3300</td>
<td>French Grammar</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>FREN:4020</td>
<td>Oral Expression in French III</td>
<td>2 s.h.</td>
</tr>
</tbody>
</table>

Students must maintain a g.p.a. of at least 2.00 in all course work for the major, including all University of Iowa course work. Majors must maintain portfolios documenting their progress toward attaining the objectives of the French major.

A maximum of one course taught in English may be counted toward the major; courses taught in English with an additional semester hour in French are exempt from this rule. Students should consult with their advisors before registering.

Transfer credit may be accepted, and students are encouraged to participate in study abroad, but the last two courses in the major ordinarily must be completed at the University of Iowa. Transfer credit is evaluated on an individual basis by the faculty in charge of study abroad.

Students choose an emphasis in one of the following four tracks when they declare the major (or later, but before their fourth year).

French and Arabic Track

The French and Arabic track is designed for students interested in combining study of the French and Arabic languages with history, politics, and religions of Middle Eastern cultures and with a major in another area, such as comparative literature, political science, geography, or history.

Requirements for the French and Arabic track include the following seven or eight courses (25 s.h.) in addition to the 10 s.h. of foundation course work in French.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three courses in French language, or literature and culture, taught in French, with at least one numbered above 4000</td>
<td>9 s.h.</td>
<td></td>
</tr>
<tr>
<td>Two or three courses in Arabic language beyond first year</td>
<td>10 s.h.</td>
<td></td>
</tr>
<tr>
<td>Two courses on Middle Eastern cultures (prefix FREN), taught in French or English, or approved courses from other departments</td>
<td>6 s.h.</td>
<td></td>
</tr>
</tbody>
</table>

Language Track

The language track is designed for students with an interest in language and translation, as well as literature
and culture. Students work in specific areas such as international business, comparative stylistics, and translation.

Requirements for the language track include the following seven courses (21 s.h.) in addition to the 10 s.h. of foundation course work in French.

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN:3410 Business French</td>
<td>3</td>
</tr>
<tr>
<td>FREN:4890 Techniques of Translation</td>
<td>3</td>
</tr>
</tbody>
</table>

Five courses in French language, or literature and culture

All language track students take FREN:3410 and FREN:4890. Of the remaining five courses, only one may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. Students must complete at least two courses numbered above 4000, including the required course FREN:4890.

Courses in French stylistics and textual analysis, another language, economics, political science, and/or business are recommended as adjunct electives.

**Literature and Culture Track**

The literature and culture track is designed for students who are interested in combining study of French and Francophone literatures and cultures with a major in another area, such as cinema, communication studies, comparative literature, history, international studies, political science, or journalism.

Requirements for the literature and culture track include the following seven courses (21 s.h.) in addition to the 10 s.h. of foundation course work in French.

<table>
<thead>
<tr>

</table>

**B.A. with Teacher Licensure**

French or Italian majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements of their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

French majors who want to earn teacher licensure should choose the French teaching track. See "Teaching Track" under "Bachelor of Arts: French" above.

Italian majors who want to earn teacher licensure should include an additional 2 s.h. in their work for the major, in either ITAL:2013 Everyday Italian I or ITAL:2014 Everyday Italian II.

Students who plan to use their work toward a minor in either French or Italian as academic background for earning teacher licensure should contact the Office of Education Services about requirements.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Bachelor of Arts: Italian**

The Bachelor of Arts with a major in Italian requires a minimum of 120 s.h., including 31-32 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students may count a maximum of 9 s.h. (three courses) of approved upper-level transfer or study abroad credit toward the major in Italian, but they must take either ITAL:3305 Advanced Italian or ITAL:3306 Advanced Italian II at the University of Iowa.

The major in Italian requires the following course work.

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL:2203 Intermediate Italian</td>
<td>4</td>

</tbody>
</table>

French and Italian
B.A.: French
Before the third semester begins: competence in first-year French
Before the fifth semester begins: second-year French (FREN:2002 Intermediate French II)
Before the seventh semester begins: FREN:3020 Oral Expression in French II, two semesters of third-year French, FREN:3060 Introduction to Reading and Writing in Literature, FREN:3300 French Grammar, one or two other courses in the major, and at least 90 s.h. earned toward the degree
Before the eighth semester begins: FREN:4020 Oral Expression in French III and three more courses in the major; for the French language track, FREN:3410 Business French and FREN:4890 Techniques of Translation
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.A.: Italian
Before the third semester begins: competence in first-year Italian
Before the fifth semester begins: competence in second-year Italian (ITAL:2204 Intermediate Italian II)
Before the seventh semester begins: four courses in the major numbered above ITAL:3002 and at least 90 s.h. earned toward the degree
Before the eighth semester begins: a total of at least five courses in the major numbered above ITAL:3002
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major
Students majoring in French or Italian have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 for work undertaken in the department.

To graduate with honors in the major, departmental honors students must register for FREN:4995 Honors Research and Thesis (French majors) or ITAL:4998 Honors Research and Thesis (Italian majors) and one honors-designated course numbered above 4000 (French) or 3002 (Italian). They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in French or Italian and must present their work to a faculty committee.

Honors students in French or Italian must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

Minor: Arabic Language
The minor in Arabic language requires a minimum of 15 s.h. earned in Arabic language courses considered intermediate (2000 level) or advanced (3000 level) for the minor, including 12 s.h. taken at the University of Iowa (prefix ARAB). Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in Arabic. Credit from the University of Iowa Regents Summer Program in Fez, Morocco, earned in courses with prefix ARAB counts as University of Iowa credit for the minor.

Minor: French
The minor in French requires a minimum of 15 s.h., including 12 s.h. earned in courses considered advanced for the minor; 9 s.h. of the 12 s.h. in advanced courses must be taken at the University of Iowa in courses numbered 3000 or above (prefix FREN). Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in French. Credit from the University Studies Abroad Consortium (USAC) program in Pau, France, and the Study in Montpellier program in France counts as University of Iowa credit for the minor; 6 s.h. earned in other study abroad programs may be counted toward the minor.

Minor: Italian
The minor in Italian requires a minimum of 15 s.h., including 12 s.h. earned in Italian courses (prefix ITAL) numbered above 3002 taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in Italian. Students who wish to count ITAL:2550 Images of Modern Italy toward the minor must enroll in the 4 s.h. section, which includes discussion in Italian.

Language for General Education
The Department of French and Italian provides course sequences in four languages—Arabic, French, Italian, and Swahili—that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313). It also offers a variety of language courses that nonmajors may take to satisfy their own educational goals and interests.

ARABIC
The department is the administrative home for Arabic language and culture courses. It offers elementary, intermediate, and advanced Arabic as well as conversational Arabic, for which ARAB:1002 Elementary Modern Standard Arabic II is prerequisite. See “Courses” toward the end of this Catalog section. Students without background in Arabic should begin with ARAB:1001 Elementary Modern Standard Arabic I.

Students who wish to fulfill the General Education Program’s World Languages requirement with Arabic should complete the following course sequence.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARAB:1001</td>
<td>Elementary Modern Standard Arabic I</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>ARAB:1002</td>
<td>Elementary Modern Standard Arabic II</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>ARAB:2001</td>
<td>Intermediate Modern Standard Arabic I</td>
<td>5 s.h.</td>
</tr>
</tbody>
</table>
ARAB:2002 Intermediate Modern Standard Arabic II  5 s.h.

**FRENCH**

Students who have a background in French should take the online World Languages Placement Test, which helps determine the level at which a student should begin French language study at the University of Iowa. Students without background in French should begin with FREN:1001 Elementary French I.

Students who wish to fulfill the General Education Program’s World Languages requirement with French should complete the following sequence.

- FREN:1001 Elementary French I  5 s.h.
- FREN:1002 Elementary French II  5 s.h.
- FREN:2001 Intermediate French I  4 s.h.
- FREN:2002 Intermediate French II  4 s.h.

Those with previous knowledge of French may be able to fulfill the World Languages requirement with this sequence.

- FREN:1010 First-Year French Review  5 s.h.
- FREN:2001 Intermediate French I  4 s.h.
- FREN:2002 Intermediate French II  4 s.h.

**ITALIAN**

Students who have a background in Italian should consult with the department before classes begin to determine the level at which they should begin Italian language study at the University of Iowa. Students without background in Italian should begin with ITAL:1101 Elementary Italian.

Students who wish to fulfill the General Education Program’s World Languages requirement with Italian should complete the following course sequence.

- ITAL:1101 Elementary Italian  5 s.h.
- ITAL:1102 Elementary Italian II  5 s.h.
- ITAL:2203 Intermediate Italian  4 s.h.
- ITAL:2204 Intermediate Italian II  4 s.h.

Those with strong language-learning abilities or background in another Romance language may be able to substitute ITAL:3002 Intensive Elementary Italian for ITAL:1101 Elementary Italian and ITAL:1102 Elementary Italian II and fulfill the World Languages requirement with this sequence.

- ITAL:3002 Intensive Elementary Italian  4, 6 s.h.
- ITAL:2203 Intermediate Italian  4 s.h.
- ITAL:2204 Intermediate Italian II  4 s.h.

**SWAHIILI**

The department is the administrative home for Swahili courses. Students may fulfill the General Education Program's World Languages requirement by taking the following four-semester sequence.

- SWAH:3001 Elementary Swahili I  4 s.h.
- SWAH:3002 Elementary Swahili II  4 s.h.
- SWAH:3003 Intermediate Swahili I  4 s.h.
- SWAH:3004 Intermediate Swahili II  4 s.h.

**Study Abroad**

The department participates in several study abroad programs. Some of them are the University Study Abroad Consortium (USAC) French Studies in Pau; University of Minnesota/Paul Valery University Study Abroad in Montpellier; and the Committee on Institutional Cooperation (CIC) Summer French Program in Quebec at the Université de Laval. For information about these and other programs abroad, contact International Programs/Study Abroad and use its Programs by Language search; or see Study Abroad (p. 1233) (University College) in the Catalog.

**Graduate Programs of Study**

- Master of Arts in French and Francophone world studies
- Doctor of Philosophy in French and Francophone world studies

The Master of Arts is offered with an optional French education emphasis.

Faculty expertise enables the department to offer courses in the traditionally recognized historical periods of French literature, various literary genres, and critical theories as well as the Francophone literatures of Canada, North and sub-Saharan Africa, the Caribbean, and the Indian Ocean. The department has particular strengths in interdisciplinary studies, notably in the areas of comparative arts, film studies, history, and second language acquisition.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian or visit its web site. The department also publishes the Guide for Graduate Students and Assistants.

**Master of Arts**

The Master of Arts program in French and Francophone world studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis.

Thesis students may apply up to 6 s.h. of thesis credit toward the 30 s.h. required for the degree. They must take a written and oral examination on their areas of study and must defend their thesis at the time of the comprehensive examination. The thesis prospectus must be accepted one year before a student defends the thesis.

Nonthesis students must pass a written and oral examination. With permission of the director of graduate studies and the department chair, nonthesis students may earn up to 6 s.h. of the required 30 s.h. outside the department or transfer up to 6 s.h. of course work completed at another institution.

All M.A. students must complete the following course work. All of these:

- FREN:5001 Introduction to Graduate Study  2 s.h.
  At least four graduate-level literature or culture courses numbered 5000 or above

One of these:

- FREN:5020 Comparative Stylistics  3 s.h.
- FREN:5030 Topics in French Linguistics  3 s.h.
M.A. with French Education Emphasis

The Master of Arts program with French education emphasis requires a minimum of 38 s.h. of graduate credit in French. The program is intended primarily for prospective secondary school and community college teachers. Candidates must pass a final written and oral examination.

All French education emphasis students must complete the following course work.

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN:5001 Introduction to Graduate Study</td>
<td>2 s.h.</td>
</tr>
<tr>
<td>Courses in French literature numbered 5000</td>
<td>9 s.h.</td>
</tr>
<tr>
<td>or above (minimum requirement)</td>
<td></td>
</tr>
</tbody>
</table>

One of these:

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>FREN:5020 Comparative Stylistics</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>FREN:5030 Topics in French Linguistics</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Doctor of Philosophy

The Doctor of Philosophy program in French and Francophone world studies requires a minimum of 72 s.h. of graduate credit, including credit earned for the M.A. The program is designed to prepare students for research, teaching, and professional service normally required of college and university faculty members.

The Ph.D. takes at least three years of graduate study, including at least one year spent in residence at the University of Iowa. Students must pass a comprehensive examination and make a successful oral defense of their dissertation.

Requirements for the Ph.D. include the following.

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN:5001 Introduction to Graduate Study</td>
<td>2 s.h.</td>
</tr>
<tr>
<td>FREN:6140 Critical Theory and Practice</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>FREN:7000 Thesis (6 s.h. minimum)</td>
<td>6 s.h.</td>
</tr>
<tr>
<td>Three graduate courses in a related field, such as another in literature, history, or philosophy (9 s.h. minimum)</td>
<td>8 s.h.</td>
</tr>
</tbody>
</table>

Ph.D. students must possess fifth-semester or equivalent proficiency in a foreign language other than French.

Students working toward the Ph.D. are required to spend at least one year teaching as graduate assistants in the department.

Admission

Applicants to the M.A. program in French and Francophone world studies must have completed the equivalent of the University of Iowa undergraduate major in French. An M.A. in French is prerequisite to admission to the Ph.D. program in French and Francophone world studies. However, successful completion of an M.A. in French does not necessarily qualify a student for doctoral study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants for fall semester whose application materials are received in the department by January 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, Graduate Record Examination (GRE) General Test results, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

Financial Support

Teaching assistantships are offered through the department, and University fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Teaching assistants in the department must take FREN:5030 Topics in French Linguistics.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these Universities in France for graduate students.

Courses

The department offers courses in French, Italian, Arabic, and Swahili. For a detailed description of courses offered each semester, contact the Department of French and Italian. French courses are conducted in French, and Italian courses are conducted in Italian, unless otherwise indicated. Students may not receive credit for a course that is prerequisite to, or whose equivalent is prerequisite to, a higher-level course they have already completed.

French courses numbered 4000-4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

Undergraduates may count a maximum of one course taught in English toward requirements for the major in French. This restriction does not apply to courses taught in English with an additional semester hour in French. Students should consult with their advisors before registering.

Students who have had significant experience with French through living or studying abroad should consult with the department before enrolling in any French course.

French, Lower-Level Undergraduate

FREN:1000 First-Year Seminar 1-2 s.h.

Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

FREN:1001 Elementary French I 4-5 s.h.

Introduction to reading, writing, listening, and speaking; for students who have no knowledge of French. GE: World Languages First Level Proficiency.

FREN:1002 Elementary French II 4-5 s.h.

Continuation of FREN:1001; introduction to reading, writing, listening, and speaking. Prerequisites: FREN:1001. GE: World Languages Second Level Proficiency.
**FREN:1005 Texts and Contexts: French-Speaking World**  
3 s.h.  
Development of skills in reading, understanding, and critically engaging with literary texts, and of research skills for informed inquiry; sense of oneself as a situated reader; range of texts reflecting diversity of French and Francophone writers. Taught in English. GE: Interpretation of Literature.

**FREN:1077 Nature/Ecology French Philosophy and Fiction**  
3 s.h.  
Representations of the natural world in literary works from 16th to 20th centuries and in film; readings in English translation. Taught in English. GE: Interpretation of Literature.

**FREN:1010 First-Year French Review**  
4-5 s.h.  
FREN:1001 and FREN:1002 combined in one intensive course. GE: World Languages Second Level Proficiency.

**FREN:1040 French for Travelers**  
2 s.h.  
Basic language skills for tourists; for students with no previous French.

**FREN:1510 Cultural Misunderstandings: France and U.S.A.**  
3 s.h.  
Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.

**FREN:2001 Intermediate French I**  
4 s.h.  
Prerequisites: FREN:1002 or FREN:1010. GE: World Languages Second Level Proficiency.

**FREN:2002 Intermediate French II**  
4 s.h.  

**FREN:2007 French Phonetics**  
3 s.h.  
Introduction to French phonetics; sounds of French in isolation and in context to improve pronunciation; audio exercises that emphasize sounds (nasal vowels, [u]-[y] contrast) and prosodic features (intonation, syllabification, liaison); written materials in French. Prerequisites: FREN:1001 and (FREN:1002 or FREN:1010).

**FREN:2020 Oral Expression in French I**  
2 s.h.  
Prerequisites: FREN:1002 or FREN:1010.

**French, Upper-Level Undergraduate and Graduate**

**FREN:3000 Third-Year French**  
3 s.h.  
Development of reading skills in French; composition and review of basic grammar structures. Prerequisites: FREN:2002.

**FREN:3020 Oral Expression in French II**  
2 s.h.  

**FREN:3030 Paris and the Art of Urban Life**  
3 s.h.  
City of Paris examined in varied historical, artistic, cultural contexts; interdisciplinary. Same as ARTH:3020.

**FREN:3060 Introduction to Reading and Writing in Literature**  
3 s.h.  
Development of analytical, organizational skills for interpretation of literature; readings in prose, poetry, drama, criticism; emphasis on reading and essay writing. Prerequisites: FREN:2002.

**FREN:3110 French Civilization**  
3 s.h.  
Institutions and events from the beginning of French civilization to the Renaissance. Prerequisites: FREN:3060. GE: Historical Perspectives.

**FREN:3120 French Civilization**  
3 s.h.  
From Renaissance to Revolution. Prerequisites: FREN:3060. GE: Historical Perspectives.

**FREN:3130 French-Speaking Cultures**  
3 s.h.  
Features of cultures in which French is spoken; North Africa, Subsaharan Africa, the Indian Ocean, Indochina, the Caribbean, Canada, Europe; cinema, music, literature, the arts, the media. Prerequisites: FREN:3060.

**FREN:3160 Study Abroad: Culture**  
3 s.h.  
Geography, history, architecture, painting, music of France; readings, slides, video and audio cassettes, visits to sites of cultural significance. Prerequisites: FREN:2002.

**FREN:3190 Psycholinguistic Aspects of Bilingualism**  
3-4 s.h.  
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Requirements: linguistics or language acquisition course. Same as SPAN:3190.

**FREN:3215 Studies in Medieval and Early Modern France**  
3 s.h.  
Introduction to the study of Medieval and Early Modern France (Middle Ages to the Revolution of 1789); focus on aspects of history, literature, politics, and culture of the period; emphasis on interdisciplinary investigation of diverse cultural forms. Prerequisites: FREN:3060.

**FREN:3225 Studies in Modern France**  
3 s.h.  
Introduction to the study of Modern France (1815-present); history, literature, politics, and culture of the period; emphasis on interdisciplinary investigation of diverse cultural forms. Prerequisites: FREN:3060.

**FREN:3250 Topics in French Studies I**  
3 s.h.  
Prerequisites: FREN:3060.

**FREN:3300 French Grammar**  
3 s.h.  
Study of word forms, sentence patterns for more accurate use of French. Prerequisites: FREN:2002.

**FREN:3360 Study Abroad: Language**  
3 s.h.  
Written and spoken French; listening, speaking, reading, writing in cultural contexts. Prerequisites: FREN:2002.

**FREN:3410 Business French**  
3 s.h.  
Language of economics and business; practice in business correspondence and communication, active use of business vocabulary. Offered fall semesters. Prerequisites: FREN:3300.

**Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Same as HIST:4433.**

**Long, complex history of relationship between France and Algeria since 18th century; early modern conflicts over Barbary piracy, French invasion, and colonization of Algeria in 19th century; brutal Algerian War of Independence, postcolonial migration, and ongoing war of memory over shared Franco-Algerian history of colonization and decolonization. Taught in English. Same as HIST:4466.**

**Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Prerequisites: FREN:3060.**

**French and/or Francophone literature or culture. Prerequisites: FREN:3060 and FREN:3300.**

**Survey of 20th-century French women writers with emphasis on Simone de Beauvoir; broad range of literary works by writers including de Beauvoir, Colette, Marguerite Yourcenar, Nathalie Sarraute, Marguerite Duras, Sarah Kofman, Annie Ernaux, Christiane Racheft; French feminist theorists who followed in de Beauvoir’s footsteps, including Helene Cixous, Julia Kristeva, Luce Irigaray. Prerequisites: FREN:3060 or GWSS:1001. Same as GWSS:4026.**

**Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Prerequisites: FREN:3060.**

**Survey of 20th-century French women writers with emphasis on Simone de Beauvoir; broad range of literary works by writers including de Beauvoir, Colette, Marguerite Yourcenar, Nathalie Sarraute, Marguerite Duras, Sarah Kofman, Annie Ernaux, Christiane Racheft; French feminist theorists who followed in de Beauvoir’s footsteps, including Helene Cixous, Julia Kristeva, Luce Irigaray. Prerequisites: FREN:3060 or GWSS:1001. Same as GWSS:4026.**

**Introduction to Francophone literature and culture of Canada; 19th- and 20th-century novels and other cultural practices (e.g., theater, chansons, films). Prerequisites: FREN:3060 and FREN:3300.**
FREN:5030 Topics in French Linguistics 3 s.h.
Basics of French language; main areas of linguistics—phonetics and phonology, morphology, semantics, pragmatics, and syntax; introduction to sociolinguistics and language variation; concepts and basic tools needed for linguistic analysis of language; brief historical overview; "standard" variety of French and its role in linguistic study of language; exploration of subdisciplines with practical exercises that implement principles presented in class and readings.

FREN:6010 The Renaissance in France 3 s.h.

FREN:6020 Studies in the Seventeenth Century 3 s.h.

FREN:6050 Realism and Naturalism 3 s.h.
Representative novels of Realist and Naturalist movements, in historical, literary, and theoretical context.

FREN:6080 Modern French Novel 3 s.h.

FREN:6090 French History in and Cinema 3 s.h.
French cinema's role in constructing 20th-century discourse on national and cultural identity and in shaping modern France's historical imagination.

FREN:6120 Literature of Immigration in France 3 s.h.
Contemporary literature written by non-European immigrants in France; issues of identity, institutional power, exclusion, displacement; rhetorical strategies used in these decentered texts to open a discursive/subversive space in canonical literary discourse.

FREN:6130 Studies in Francophone Literatures 3 s.h.
Historical, anthropological, comparative approach to Francophone literatures and cultures; Afro/Indo-Caribbean religions in literatures, theoretical and critical discourses, women's literature and cinema. Same as GWSS:6130.

FREN:6140 Critical Theory and Practice 3 s.h.

FREN:6142 Crossing Borders Seminar 2-3 s.h.

FREN:6150 Topics in French Studies 3 s.h.

FREN:6175 French Literature of the 20th/21st Centuries 3 s.h.
Advanced survey of French Literature 1900-present in areas of novel, theater, poetry, and essay.

FREN:6901 Second Language Acquisition Research and Theory 3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as ASIA:6901, SLA:6901, SPAN:6901, JPNS:6901.

FREN:6920 Multimedia and Second Language Acquisition 3 s.h.
Foreign language multimedia in context of current second language acquisition theories and research; readings on interactivity, interface design, feedback, learner control; acquisition of vocabulary, grammar, and culture. Requirements: foreign language teaching methodology course. Same as SLA:6920, GRMN:6920, SPAN:6920.

FREN:6950 Topics in Second Language Acquisition: Speaking 3 s.h.
Theory, pedagogy, research, and assessment in second language speaking. Same as SLA:6950, SPAN:6950.

FREN:7000 Thesis arr.

FREN:7990 Independent Study arr.

Italian, Lower-Level Undergraduate

ITAL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ITAL:1030 Italian for Travelers 2 s.h.
Basic language skills for tourists; for students with no previous Italian.

ITAL:1050 Italy Live 3 s.h.
Introduction to Italian language and culture designed for students whose first contact with the language is in Italy; offered through Consortium of Universities for International Studies study abroad program (CUIS/CIMBA) in Paderno del Grappa, Italy.

ITAL:1101 Elementary Italian 5 s.h.
For students who have no knowledge of Italian. Offered fall semesters. GE: World Languages First Level Proficiency.

ITAL:1102 Elementary Italian II 5 s.h.
Offered spring semesters. Prerequisites: ITAL:1101. GE: World Languages Second Level Proficiency.

ITAL:1540 Topics in Italian 2 s.h.
Topics in Italian language, culture, and literature; may include Italian cinema, studies of specific Italian cities, thematic approaches to Italian studies.

ITAL:2013 Everyday Italian I 2 s.h.
Offered fall semesters. Prerequisites: ITAL:1102 or ITAL:3002.

ITAL:2014 Everyday Italian II 2 s.h.
Offered spring semesters. Prerequisites: ITAL:1102 or ITAL:3002.

ITAL:2203 Intermediate Italian 4 s.h.
Offered fall semesters. Prerequisites: ITAL:1102. GE: World Languages Second Level Proficiency.
ITAL:2204 Intermediate Italian II 4 s.h.
Offered spring semesters. Prerequisites: ITAL:2203. GE: World Languages Fourth Level Proficiency.

ITAL:2550 Images of Modern Italy 3-4 s.h.
Survey of Italy's history since Unification; diverse aspects of modern Italian culture and society through visual and textual materials. Requirements: for students earning 4 s.h. — ITAL:2204. GE: Historical Perspectives; Values, Society, and Diversity.

ITAL:2990 Independent Study arr.

Italian, Upper-Level Undergraduate and Graduate
ITAL:3002 Intensive Elementary Italian 4,6 s.h.
Offered spring semesters. Requirements: two years of another foreign language. GE: World Languages Second Level Proficiency.

ITAL:3305 Advanced Italian 3-4 s.h.
Offered fall semesters. Prerequisites: ITAL:2204.

ITAL:3306 Advanced Italian II 3-4 s.h.
Offered spring semesters. Prerequisites: ITAL:3305.

ITAL:4350 Studies in Italian Language 3 s.h.
Prerequisites: ITAL:3306.

ITAL:4633 Medieval Italian Literature 3 s.h.
Prerequisites: ITAL:2204.

ITAL:4634 Medieval and Renaissance Italian Literature
Prerequisites: ITAL:2204.

ITAL:4667 Modern Italian Fiction 3 s.h.
Prerequisites: ITAL:2204.

ITAL:4668 Modern Italian Poetry and Drama 3 s.h.
Continuation of ITAL:4667, but may be taken as independent unit. Prerequisites: ITAL:2204.

ITAL:4990 Independent Study arr.

ITAL:4998 Honors Research and Thesis 3 s.h.

Arabic, Upper-Level Undergraduate and Graduate
ARAB:1001 Elementary Modern Standard Arabic I 5 s.h.
Speaking, listening, reading, and writing skills. GE: World Languages First Level Proficiency.

ARAB:1002 Elementary Modern Standard Arabic II

ARAB:1020 Study Abroad: Language (Elementary) 5 s.h.
Modern Standard Arabic (MSA); speaking, reading, listening and writing skills. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement.

ARAB:1050 Topics in Middle East/Muslim World Studies I 3 s.h.
Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

ARAB:2001 Intermediate Modern Standard Arabic I 5 s.h.
Communication in speaking and writing; cultural topics. Prerequisites: ARAB:1002. GE: World Languages Second Level Proficiency.

ARAB:2002 Intermediate Modern Standard Arabic II 5 s.h.

ARAB:2020 Study Abroad: Language (Intermediate) 6 s.h.
Modern Standard Arabic (MSA); speaking, reading, listening and writing. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement. Recommendations: one year of Arabic study.

ARAB:2025 Study Abroad: Culture and Society 1 s.h.
Introduction to Moroccan culture and society through direct observation and interaction; intensive orientation, cultural exchange activities, learning excursions outside Fez, homestay with a Moroccan family.

ARAB:2030 Formal Spoken Arabic 2 s.h.
Conversational practice with a native speaker; for students who have completed fourth-semester Arabic. Prerequisites: ARAB:1002 or ARAB:2002. Requirements: non-native or non-heritage speaker of Arabic.

ARAB:2050 Topics in Middle East/Muslim World Studies II 3 s.h.
Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

Arabic, Upper-Level Undergraduate and Graduate
ARAB:3005 Culture and Resistance: The Modern Middle East 3-4 s.h.
Introduction to literature, cinema, and music of the Modern Middle East; how artists from Arab world, Turkey, and Iran explore their political terrain; how they depict issues of gender and sexuality; impact of the Arab Spring; exploration of art as expression and resistance; intersection between cultural and political; short stories, graphic novels, film, music, and visual arts. Taught in English.

ARAB:3011 Advanced Modern Standard Arabic I 3 s.h.
Advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Prerequisites: ARAB:2002.

**ARAB:3012 Advanced Modern Standard Arabic II**

Continuation of ARAB:3011; advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Prerequisites: ARAB:3011.

**ARAB:3020 Study Abroad: Language (Advanced)**

Modern Standard Arabic (MSA); speaking, reading, listening, and writing. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement. Recommendations: two or more years of Arabic language.

**ARAB:3050 Arab Culture Through Dialects**

Communication in dialectal Arabic, Arabic dialectology, cultural topics, music and film in dialectal Arabic. Prerequisites: ARAB:1001. Requirements: non-native or non-heritage speaker of Arabic.

**ARAB:4512 Topics in Global and Transnational Culture**

In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Recommendations: completion of an international and global issues GE course. Same as WLLC:4512, GRMN:4512.

**ARAB:4990 Independent Study**

Material not covered in regularly offered courses; independent study guided by an instructor.

### Swahili, Upper-Level Undergraduate and Graduate

**SWAH:3001 Elementary Swahili I**

GE: World Languages First Level Proficiency.

**SWAH:3002 Elementary Swahili II**

Prerequisites: SWAH:3001. GE: World Languages Second Level Proficiency.

**SWAH:3003 Intermediate Swahili I**

GE: World Languages Second Level Proficiency.

**SWAH:3004 Intermediate Swahili II**

GE: World Languages Fourth Level Proficiency.

**SWAH:3006 Conversational Swahili**

Extensive practice in production and comprehension of spoken Swahili. Corequisites: SWAH:3002 or SWAH:3004.

**SWAH:4000 Identity, Trade, and Diaspora**

Identity of Swahili people on East African coast; trade networks and diaspora in Arabia and Persian Gulf over the centuries; Swahili civilization marked by urbanity, literacy, Islam, and cosmopolitanism; how scholars' views have changed (scholars originally could not reconcile their conception of Africa, the Dark Continent, with characteristics of this sophisticated culture). Same as HIST:4728.
Fundraising and Philanthropy Communication

Director, School of Journalism and Mass Communication
• David M. Ryfe

Coordinator, Fundraising and Philanthropy Communication
• Ann Haugland

Undergraduate certificate: fundraising and philanthropy communication
Web site: http://clas.uiowa.edu/sjmc/philanthropy-certificate

The Certificate in Fundraising and Philanthropy Communication is administered by the School of Journalism and Mass Communication (p. 433).

Undergraduate Program of Study
• Certificate in Fundraising and Philanthropy Communication

The certificate program prepares students for careers in the growing field of development, institutional advancement, fundraising, donor relations, and public relations for nonprofit organizations.

Certificate

The Certificate in Fundraising and Philanthropy Communication requires a minimum of 18 s.h. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The certificate consists of core courses that provide a foundation in fundraising, writing, media production, and management of nonprofit organizations. Students also choose electives from a range of courses to support their interests in a particular area of nonprofit work. Most students will complete all four core courses. Some students may choose to take three core courses plus an additional elective.

Students majoring in journalism and mass communication may count toward the certificate a maximum of 7 s.h. of journalism credit (prefix JMC) that they earn for the major. The certificate cannot be used to satisfy the major's concentration area requirement. Students in other majors should consult with their advisors to learn whether they may count certificate course work toward their majors.

When certificate students register for fundraising and philanthropy communication courses (prefix FPC) that are cross-listed with journalism and mass communication (prefix JMC), they should register for the FPC course number.

The Certificate in Fundraising and Philanthropy Communication requires the following course work.

<table>
<thead>
<tr>
<th>CORE COURSES</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Students earn a minimum of 9 s.h. in core courses, selecting from the following two sets of courses.</td>
<td></td>
</tr>
<tr>
<td>FPC:3100 Fundraising Fundamentals</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>MGMT:3500 Nonprofit Organizational Effectiveness I</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Must include at least one of these courses, with both recommended.

| FPC:3185 Fundraising and Philanthropy Communication | 3 s.h. |
| FPC:3633 Philanthropy Communication in a Digital World | 4 s.h. |

ELECTIVES AND OPTIONAL INTERNSHIP

Students complete a minimum of 5 s.h. in approved elective courses chosen from those listed below. Credit earned for the optional internship counts as elective credit.

The certificate program coordinator may add special topics courses that fulfill certificate requirements to this list.

Some of these courses have prerequisites, which students must complete before they register for the course. Some require special permission.

Electives

| ARTH:1080 Writing About the Visual Arts | 3 s.h. |
| ARTH:3080 Marketing, Promoting, Politicking Contemporary Public Art | 3 s.h. |
| ARTS:3400 Grant Writing in the Arts | 3 s.h. |
| COMM:1130 The Art of Persuading Others | 3 s.h. |
| DPA:3510 Introduction to Arts Management | 3 s.h. |
| EALL:4130 Introduction to Grant Writing | 3 s.h. |
| ENTR:3500 Social Entrepreneurship | 3 s.h. |
| GEOG:1070 Contemporary Environmental Issues | 3 s.h. |
| GEOG:1090 Globalization and Geographic Diversity | 3 s.h. |
| HHP:3850 Promoting Health Globally | 3 s.h. |
| JMC:2200 Communication and Public Relations | 3 s.h. |
| JMC:3150 Media and Health | 3 s.h. |
| MGMT:3600 Nonprofit Organizational Effectiveness II | 3 s.h. |
| MUSM:3001 Introduction to Museum Studies | 3 s.h. |
| POLI:1600 Introduction to Political Communication | 3 s.h. |
| POLI:3119 Policy Matters: Perspective on Contemporary Problems | 3 s.h. |
| SSW:2222 Introduction to Social Work | 4 s.h. |

Internship

| FPC:2100 Internship in Fundraising and Philanthropy Communication | 1-3 s.h. |

Courses

Lower-Level Undergraduate

| FPC:2100 Internship in Fundraising and Philanthropy Communication | 1-3 s.h. |
Faculty-supervised professional work experience in fundraising and philanthropy communication.

**FPC:2200 Communication and Public Relations**
3 s.h.
Theory and practice of public relations; cultural, social, and organizational roles of public relations, opportunities, problems, and solutions.

**Upper-Level Undergraduate and Graduate**

**FPC:3100 Fundraising Fundamentals**
3 s.h.
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals.

**FPC:3185 Fundraising and Philanthropy Communication**
3 s.h.
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members. Same as JMC:3100.

**FPC:3633 Philanthropy Communication in a Digital World**
4 s.h.
World of philanthropy and nonprofit work that changes rapidly with and in response to developments in digital communications; campaigns and fundraisers driven by free agents on social networking sites as an example of how philanthropists and nonprofit workers operate in digital environment; overview of trends in areas of philanthropy and nonprofit work; practical skills to help communicate, create, and disseminate messages using multiple digital tools and social media; analysis of communication/media strategies; media production. Same as JMC:3633.
Gender, Women's, and Sexuality Studies

Chair

Undergraduate major: gender, women's, and sexuality studies (B.A.)
Undergraduate minor: gender, women's, and sexuality studies
Graduate certificate: gender, women's, and sexuality studies
Faculty: http://clas.uiowa.edu/gwss/people
Web site: http://clas.uiowa.edu/gwss/

Gender, women's, and sexuality studies (GWSS) is an interdisciplinary field that promotes social justice and full citizenship by asking when and how gender intersects with sexuality, class, race, ethnicity, nationality, globalization, and physical ability in ways that can exclude and oppress but that also can enrich cultures and expand opportunities. GWSS trains students to investigate how gender and sexuality shape challenges people face in areas such as the environment, culture and the media, education, health, violence, and the economy. Critical thinking and analysis and development of expertise in writing, research, and presentation provide the program’s graduates with the professional skills they will need to pursue careers or graduate study in a wide variety of fields or academic disciplines.

Undergraduate Programs of Study

• Major in gender, women's, and sexuality studies (Bachelor of Arts)
• Minor in gender, women's, and sexuality studies

Bachelor of Arts

The Bachelor of Arts with a major in gender, women's, and sexuality studies (GWSS) requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in gender, women's, and sexuality studies emphasizes breadth, depth, and interdisciplinary study. Students acquire knowledge of the field's history, gender and sexuality issues outside the United States and Western Europe, major feminist ideas and debates, and other areas of scholarly concern. They apply this knowledge to an individual research project during their senior year.

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 24 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 12 s.h. of transfer credit may be counted toward the degree. Students earning more than one major may count a maximum of three courses completed for the other major toward the GWSS major.

Work for the major consists of the undergraduate core, distribution requirements, and electives. The undergraduate core includes a practicum and culminates in a research seminar.

The major in gender, women's, and sexuality studies requires the following course work.

UNDERGRADUATE CORE

The undergraduate core consists of four courses (minimum of 12 s.h.). Two introductory courses, GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and GWSS:1002 Diversity and Power in the U.S., orient students to the major conceptual areas that constitute GWSS as an interdisciplinary field: GWSS:1001 introduces the study of cultural and social beliefs about sex, gender, race, class, and sexuality; GWSS:1002 examines issues of race, class, and gender in the United States and the consequences of inequity for communities and individuals.

GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies

GWSS:1002 Diversity and Power in the U.S.

GWSS:3005 Gender, Women's, and Sexuality Studies Practicum

One of these:

GWSS:4090 Senior Research Seminar

GWSS:4095 Honors Senior Thesis (open only to honors students)

DISTRIBUTION REQUIREMENTS

The distribution requirements (total of at least 12 s.h.) are chosen from the following lists. They include one GWSS theory course, one transnational theory course, one GWSS course with comparative/non-U.S. focus, and one GWSS or other course with a race/ethnicity focus. Students may request permission from the director of undergraduate studies to use courses not on these lists; ideally, these courses should be offered by GWSS (prefix GWSS). At least half of the material in comparative/non-U.S. topics courses must have a non-U.S. context.

Theory—one of these:

GWSS:3100 LGBTQ/Queer Studies

GWSS:3200 Feminist Debates and Social Movements

Transnational theory—one of these:
Students choose elective courses from the list below, in consultation with their advisor. They must complete at least four electives (minimum of 12 s.h.), earning at least 6 s.h. in courses numbered 3000 or above. With the instructor's permission, honors students may count a graduate-level course numbered 5000 or above toward the GWSS major a maximum of three courses they have taken several courses in one focus area to take additional electives in another focus area.

In choosing electives, students are encouraged to pursue a course of study that emphasizes both breadth and depth. Students should choose three or four courses in a focus area in which they would like to gain deeper knowledge. The area may be within a specific discipline, such as literature, anthropology, or history. This is especially useful for students pursuing double majors, since they may count toward the GWSS major a maximum of three courses they complete for the other major.

The focus area need not be limited to a traditional discipline. Students may seek more specialized education in fields such as sexuality studies or international issues. Breadth also is important; advisors direct students who have taken several courses in one focus area to take additional electives in another focus area.

Students may request permission to use upper-level courses not listed below. At least half of the course's content and requirements must focus on gender and/or sexuality. For information on requesting permission to use a course not listed here, contact the GWSS undergraduate advisor.

At least four of these (minimum of 12 s.h.), with at least 6 s.h. in courses numbered 3000 or above.

GWSS:2150 Transnational Feminism 3 s.h.
GWSS:3010 Transnational Sexualities 3 s.h.

Comparative/non-U.S. focus—one of these:
GWSS:2052 Women in Islam and the Middle East 3 s.h.
GWSS:2108 Gendering India 3 s.h.
GWSS:3121 Love and Kinship in South Asia 3 s.h.
GWSS:3131 Gender and Sexuality in Asia 3 s.h.
GWSS:3157 Gender, Sexuality, and Human Rights 3 s.h.
GWSS:3185 Global Women's Cinema 3 s.h.
GWSS:3360 Latin American Women Writers 3 s.h.
GWSS:4026 French Women Writers 3 s.h.
GWSS:4725 Women and Gender in African History 3 s.h.

Race/ethnicity—one of these:
GWSS:2172 The History of African American Women from Slavery to Freedom 3 s.h.
GWSS:4560 Native American Women and Religious Change 3 s.h.
AFAM:3710 African American Women Writers 3 s.h.
AFAM:3925 African Americans and the Media 3 s.h.
HIST:4216 Mexican American History 3 s.h.
HIST:4217 Latina/o Immigration 3 s.h.
HIST:4275 History of Slavery in the U.S.A. 3 s.h.
SPST:2079 Race and Ethnicity in Sport 3 s.h.
THTR:3415 Cultural Diversity and Identity 3 s.h.

Any African American studies course (prefix AFAM) numbered 3000 or above
Any American Indian and native studies course (prefix AINS) numbered 3000 or above

**ELECTIVES**

Students choose elective courses from the list below, in consultation with their advisor. They must complete at least four electives (minimum of 12 s.h.), earning at least 6 s.h. in courses numbered 3000 or above. With the instructor's permission, honors students may count a graduate-level course numbered 5000 or above toward the electives requirement.

In choosing electives, students are encouraged to pursue a course of study that emphasizes both breadth and depth. Students should choose three or four courses in a focus area in which they would like to gain deeper knowledge. The area may be within a specific discipline, such as literature, anthropology, or history. This is especially useful for students pursuing double majors, since they may count toward the GWSS major a maximum of three courses they complete for the other major.

The focus area need not be limited to a traditional discipline. Students may seek more specialized education in fields such as sexuality studies or international issues. Breadth also is important; advisors direct students who have taken several courses in one focus area to take additional electives in another focus area.

Students may request permission to use upper-level courses not listed below. At least half of the course’s content and requirements must focus on gender and/or sexuality. For information on requesting permission to use a course not listed here, contact the GWSS undergraduate advisor.

At least four of these (minimum of 12 s.h.), with at least 6 s.h. in courses numbered 3000 or above.

GWSS:1000 First-Year Seminar 1 s.h.
GWSS:1060/AMST:1060 Sex and Popular Culture in the Postwar U.S. 3 s.h.
GWSS:1310/SOC:1310 Gender and Society 3 s.h.
GWSS:2000 Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect 3 s.h.
GWSS:2041/COMM:2041 Gender Roles and Communication 3 s.h.
GWSS:2052/RELS:2852 Women in Islam and the Middle East 3 s.h.
GWSS:2078/SPST:2078 Women, Sport, and Culture 3 s.h.
GWSS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
GWSS:2193/ENGL:2193 Literature, Culture, and Women 3 s.h.
GWSS:2325 Women, Crime, and Justice 3 s.h.
GWSS:2651/CLSA:2651 Gender and Sexuality in the Ancient World 3 s.h.
GWSS:3050 Topics in Gender, Women's, and Sexuality Studies 1, 3 s.h.
GWSS:3101 Anthropology of Sexuality 3 s.h.
GWSS:3118/ANTH:3118 Politics of Reproduction 3 s.h.
GWSS:3120/ENGL:3120 Prose by Women Writers 3 s.h.
GWSS:3121/ANTH:3121 Love and Kinship in South Asia 3 s.h.
GWSS:3141/ANTH:3141 Women, Health, and Healing 3 s.h.
GWSS:3154/HIST:3254 Sexuality in the United States 3 s.h.
GWSS:3185/CINE:3185 Global Women's Cinema 3 s.h.
GWSS:3266 Women and Nonfiction 3 s.h.
GWSS:3300/ANTH:3300 Mothers and Motherhood 3 s.h.
GWSS:3360/SPAN:3360 Latin American Women Writers 3 s.h.
GWSS:3450 Writing About Girls 3 s.h.
GWSS:3540/FREN:3540/CINE:3647 Gender and Sexuality in French Cinema 3 s.h.
GWSS:4140/ANTH:4140/CBH:5140 The Anthropology of Women's Health 3 s.h.
GWSS:4280/HIST:4280 Women and Power in U.S. History Through the Civil War 3 s.h.
GWSS:4560/RELS:4920/AINS:4560 Native American Women and Religious Change 3 s.h.
RELS:2771/GWSS:2771 Sexual Ethics 3 s.h.
RELS:2986 Religion and Women 3 s.h.
SOC:4820/GWSS:4820 Sociology of Sexuality 3 s.h.
THTR:3420/GWSS:3420 Sex and Gender in Performance 3 s.h.
Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the third semester begins:** GWSS:1001 Introduction to Gender, Women’s, and Sexuality Studies

**Before the fifth semester begins:** GWSS:1002 Diversity and Power in the U.S. and two GWSS electives

**Before the seventh semester begins:** one GWSS distribution course (theory or comparative/non-U.S. focus) and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** GWSS:3005 Gender, Women’s, and Sexuality Studies Practicum, one more GWSS distribution course (theory or comparative/non-U.S. focus), and at least one more GWSS elective

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in gender, women’s, and sexuality studies have the opportunity to graduate with honors in the major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in the major. To graduate with honors in the major, students must write an honors thesis, which requires two semesters of work during the senior year: fall (thesis research) and spring (thesis writing).

Students who intend to graduate with honors in the major should notify the GWSS director of undergraduate study by the end of their junior year. Before their senior year, they must find a faculty member to serve as their honors thesis supervisor; the department recommends that students consider faculty members from whom they have taken courses.

Students have three options for conducting the fall semester honors research: enroll in GWSS:3990 Independent Readings and Research in Gender, Women’s, and Sexuality Studies for 3 s.h.; or create an honors contract for a GWSS course numbered 3000 or above taught by the student’s honors thesis supervisor and fulfill the requirements of the contract; or complete a graduate readings course or seminar. Each option involves working closely with the student’s honors thesis supervisor.

Students write the honors thesis during spring semester of the senior year, enrolling in GWSS:4095 Honors Senior Thesis. They share their research and writing with their classmates and receive aid in writing their thesis from the instructor of GWSS:4090 Senior Research Seminar.

A student earning more than one major may be able to graduate with honors in both majors. GWSS faculty members work with the student and the other major’s honors advisor to plan a single thesis that satisfies the honors requirements of both majors. GWSS students writing a thesis for double honors must complete their GWSS thesis work during their senior year, according to the usual timeline: research completed in fall semester, thesis writing completed in spring semester.

In addition to honors in the major, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Minor

The minor in gender, women’s, and sexuality studies requires a minimum of 15 s.h. in course work, including at least 12 s.h. completed at the University of Iowa. Students must take GWSS:1001 Introduction to Gender, Women’s, and Sexuality Studies and 12 s.h. in courses numbered 2000 or above. Students may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of work in courses focused on gender and/or sexuality for another University of Iowa major, minor, or certificate toward the GWSS minor.

Graduate Program of Study

- Certificate in Gender, Women’s, and Sexuality Studies

  The certificate program is open to University of Iowa graduate students working toward a degree; interested students should contact the GWSS director of graduate studies.

Certificate

The Certificate in Gender, Women’s, and Sexuality Studies requires 16 s.h., including a two-course core, several elective courses, and a capstone course (1 s.h.), for which students attend a GWSS conference and present their own research there. Students receive certificate advising from the GWSS director of graduate studies.

The certificate requires the following coursework. Students may not use one course to satisfy more than one certificate requirement.

**CERTIFICATE CORE**

- GWSS:5000 Foundations for Feminist Inquiry I 3 s.h.
- One approved course on theory of gender, women, or sexuality

**ELECTIVES**

- Elective courses, at least one of which must be numbered 5000 or above 9 s.h.

One of the electives must have a transnational or international focus and one must focus on diversity in the United States. Students may count up to 6 s.h. of elective credit earned in GWSS courses that are cross-listed with their major department. Courses that are not cross-listed may be counted with permission of the director of graduate studies.

**CAPSTONE**

Students must present their own research at a GWSS conference, earning credit for the presentation by registering for the following course.

- GWSS:7400 Graduate Research Conference 1 s.h.

Presentation
Courses

Lower-Level Undergraduate

GWSS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

GWSS:1001 Introduction to Gender, Women’s, and Sexuality Studies 3 s.h.
Introduction to feminist interdisciplinary study of women's lives, with emphasis on race, class, sexual orientation; work, family, culture, political and social change. GE: Values, Society, and Diversity.

GWSS:1002 Diversity and Power in the U.S. 3 s.h.
How the intersection of gender, race, class affects individual experience, national ideology, social institutions; interdisciplinary perspective. GE: Values, Society, and Diversity.

GWSS:1005 Topics in Gender, Women’s, and Sexuality Studies 3 s.h.

GWSS:1046 People and the Environment: Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046.

GWSS:1060 Sex and Popular Culture in the Postwar U.S. 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values, Society, and Diversity. Same as AMST:1060, ENGL:1410.

GWSS:1070 Asian American Women Writers 3 s.h.
Introduction to major Asian American women writers of 20th and 21st centuries; construction of gender within Asian American communities and diverse experiences of Asians in America; novels, short stories, memoirs, films, and historical and critical texts. GE: Values, Society, and Diversity.

GWSS:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Values, Society, and Diversity. Same as SPST:1074, AMST:1074.

GWSS:1310 Gender and Society 3-4 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values, Society, and Diversity. Same as SOC:1310.

GWSS:2000 Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect 3 s.h.
Exploration of desire, sex, consent, and sexual violence in practical and theoretical dimensions; recent demands by students to change the way sexual violence is addressed; theory and sources from popular media; lectures by scholars, activists, and professionals; sexual violence, rape culture, and sexuality-based oppression confronted with academic/therapeutic/political knowledge; real world strategies to help better understand and combat sexual violence, theories. Prerequisites: RHET:1030. Same as RHET:2031.

GWSS:2041 Gender Roles and Communication 3 s.h.
Interactive relationships between gender and communication in contemporary U.S. society; multiple ways families, schools, and media perpetuate, negotiate, and contest gender roles; how we are part of those processes by looking at how we enact socially-created gender differences in public and private settings. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as COMM:2041.

GWSS:2045 Working for Social Justice 1 s.h.
Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world.

GWSS:2052 Women in Islam and the Middle East 3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur’an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values, Society, and Diversity. Same as RELS:2852.
GWSS:2075 Gender, Sexuality, and Media  3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as COMM:2075.

GWSS:2078 Women, Sport, and Culture  3 s.h.
Feminist analysis of girls' and women's sports experiences, including reproduction of gender through sport, recent changes in women's intercollegiate athletics, media representations of women's sport, feminist critiques, alternatives to sport. Same as SPST:2078.

GWSS:2080 The Cultural Politics of HIV-AIDS  3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of Rhetoric or at least one social sciences course. Same as GHS:2080.

GWSS:2102 Anthropology of Marriage and Family  3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as ANTH:2102.

GWSS:2108 Gendering India  3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as ANTH:2108.

GWSS:2150 Transnational Feminism  3 s.h.
Introduction to feminist perspectives from U.S. and non-U.S. contexts; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions. Same as ANTH:2150.

GWSS:2172 The History of African American Women from Slavery to Freedom  3 s.h.
Survey of African American women's history from its beginnings through emancipation and Reconstruction; expansion of slavery in the South and its gendered implications, ways black women influenced antebellum slave culture, female modes of resistance; abolition of slavery in the North, and ways Northern emancipation shaped black women's experiences in the region; development of a free black community and black women's roles in these new social configurations; African American female body under slavery; impact of war and revolution on African American women's lives; black women's experiences during Reconstruction.

GWSS:2193 Literature, Culture, and Women  3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:2193.

GWSS:2325 Women, Crime, and Justice  3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as SOC:2325.

GWSS:2600 Men, Masculinity, Identity, and Health  3 s.h.
Impact of male gender roles, masculine identity, and biology on men's health throughout the life course; focus on description, causes, and possible solutions for health related disparities for men in general and for men of color; concepts including machismo, caballerismo, John Henryism, Man Points, hegemonic, and other gender roles related to promoting and reducing quality of health and well-being of U.S. males.

GWSS:2651 Gender and Sexuality in the Ancient World  3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of rhetoric requirement and sophomore standing. GE: Values, Society, and Diversity. Same as CLSA:2651.

GWSS:2700 Transgender People, Politics, and Cultures  3 s.h.
How people live across and beyond social differentiation of sex and gender; how practices of identity building and political resistance transform or negotiate with social structures of gender, race, and class; burgeoning field of transgender studies which pushes to interrogate some fundamental aspects of human societies and question how supposedly "natural" categories of sex and gender are constructed and transformed; exploration of lives, politics, and subcultures of people who differ from gender norms in the United States and across the world; how transgender cultures and politics negotiate with structures of race and class. Recommendations: background in gender studies or social sciences.
GWSS:2750 Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children, comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as SOC:2750.

GWSS:2771 Sexual Ethics 3 s.h.
Introduction to religion and ethics; diverse secular, Jewish, and Christian perspectives on human sexuality and sexual activity; religious views underlying divergent attitudes toward same-gender sexuality and abortion. Same as RELS:2771.

GWSS:2778 American Indian Women: Myth, Ritual, and Sacred Power 3 s.h.
Participation of women and girls in native religious traditions; obstacles to knowing and understanding native women's religious roles and experiences. Same as AINS:2078, RELS:2778.

Upper-Level Undergraduate and Graduate

GWSS:3005 Gender, Women's, and Sexuality Studies Practicum 3-4 s.h.
Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001.

GWSS:3010 Transnational Sexualities 3 s.h.
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GHS:3015.

GWSS:3020 Lesbian, Gay, Bisexual, and Transgender Identities 3 s.h.
Historical and contemporary experiences of sexual minorities; identity, community, culture, art, politics, representation, diversity, assimilation.

GWSS:3050 Topics in Gender, Women's, and Sexuality Studies 1,3 s.h.
Representative topics: American Indian/First Nations Women; population and the environment; feminism and the family; women, health, and healing; women of color.

GWSS:3100 LGBTQ/Queer Studies 3 s.h.
Overview of queer theory and queer studies; development of critical thinking skills in relation to cultural constructions of gender, sexuality, race, and other identity categories. Requirements: for COMM:3100 or communication studies majors — (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305 and g.p.a. of at least 2.30 and completion of Foundations of Communication requirement and 6 s.h. of intermediate-level course work. Same as COMM:3100.

GWSS:3101 Anthropology of Sexuality 3 s.h.
Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally- and historically-specific ways of having and thinking about sex. Same as ANTH:3101.

GWSS:3118 Politics of Reproduction 3 s.h.
Debates over women's reproductive experience, including its medicalization. Same as ANTH:3118.

GWSS:3120 Prose by Women Writers 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as ENGL:3120.

GWSS:3121 Love and Kinship in South Asia 3 s.h.
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Prerequisites: ANTH:1101 or ANTH:2100 or GWSS:1001 or GWSS:1002. Same as ANTH:3121.

GWSS:3131 Gender and Sexuality in Asia 3 s.h.
Conceptions of sex, gender, and sexuality in the religions of China, Korea, and Japan; asceticism and celibacy; sexual alchemy; the difference between male and female bodies and souls; intersexed persons; female saints and immortals; transgressive sexuality; gender and sexuality in colonial Asia; East Asian religions and postcolonial feminism. Same as RELS:3431.

GWSS:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; how language, imagery, popular culture, and history affect perceptions of gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate.
GWSS:3140 Feminist Anthropology  
3 s.h.
Development and evolution of feminist critiques in cultural anthropology; readings from early studies by women ethnographers, classic writings that sought to give women cross-cultural visibility, recent experimental texts. Same as ANTH:3140.

GWSS:3141 Women, Health, and Healing  
3 s.h.
Women's experience as recipients and providers of health care; intersection of race, class, cultural variation, and women's health; reproductive and nonreproductive health concerns. Same as ANTH:3141.

GWSS:3154 Sexuality in the United States  
3 s.h.
Same as HIST:3254.

GWSS:3157 Gender, Sexuality, and Human Rights  
3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as HIST:3157.

GWSS:3173 Gender, Sexuality, and Literature  
3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3173.

GWSS:3177 Women and Their Bodies in Health and Illness  
3 s.h.
Basic facts about structure and functioning of female body; particular attention to adjustments the body makes during normal physiological events (menstruation, sexuality, reproduction, menopause) and during illness processes; women's mental and physical health issues in relation to women's lives and roles in society; relationship of women as consumers, practitioners, and activists to health system; achievements and limitations of women's health movements; anti-oppression, intersectionalities, and cross-cultural perspectives. Same as NURS:3739.

GWSS:3185 Global Women's Cinema  
3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as WLLC:3185, CINE:3185.

GWSS:3200 Feminist Debates and Social Movements  
3 s.h.
Historical and contemporary feminist analyses of women's position in culture and society; variety of theoretical approaches, political perspectives; contemporary issues, controversies.

GWSS:3266 Women and Nonfiction  
3 s.h.
Issues of representation and self-representation by and about women through the study of documentary film and personal essay; focus on paired texts in literature and cinema for analysis and critical reflection; development along historical and transnational lines of inquiry to explore literary and cinematic depictions of racial and cultural identity; motherhood, friendship, and the family; women during wartime, violence against women, domestic and industrial women's work. Requirements: junior or senior standing.

GWSS:3300 Mothers and Motherhood  
3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as ANTH:3300.

GWSS:3326 The Politics of Progress: NGOs, Development, and Sexuality  
3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GHS:3327.

GWSS:3360 Latin American Women Writers  
3 s.h.
Focus on 20th century; how Latin American women subjects view themselves through literature; textual practice specific to women; psychoanalytic approaches, contemporary feminist criticism. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3360.

GWSS:3400 GWSS Advocacy and Engagement Colloquium  
1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault, health care for women, youth, and LGBTQ populations; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings.

GWSS:3415 Cultural Diversity and Identity  
3 s.h.
Nature of personal and cultural identity within a pluralistic society; race, ethnicity, national identity, class, sexuality, and gender as categories of cultural difference. Same as THTR:3415.

GWSS:3420 Sex and Gender in Performance  
3 s.h.
Relationship between sex and gender in the performing body across a range of public venues, including stage, film, athletic events, and social spaces; articles, texts, plays, films, television, and videos; attendance at live performances of theatre, sports, and other events scheduled in the University and local community; discussion format. Same as THTR:3420.

**GWSS:3421 Performing Autobiography** 3 s.h.
Write and perform original pieces stemming from personal experiences and interests; readings and videos; genre of contemporary autobiographical performance as established artists have developed it; improvisational performance and writing exercises to foster deeper reflection on personal experiences; final staging of students’ original work. Same as THTR:3421.

**GWSS:3450 Writing About Girls** 3 s.h.
Examination of a wide range of critical and creative works by contemporary women writers on girlhood; common use of the word “girls” to describe adult women; representations of girls in film and television; role of media in sexualization of girls; impact of gender, race, and class in girls’ lives; nature of girls’ relationships with one another; ways in which girlhood traumas can continue into adult life; contemporary issues of body image and sexuality (e.g., pressures to be thin, disparagement of sexually active girl as “slut”); poverty, hunger, and homelessness; resistance and rebellion.

**GWSS:3540 Gender and Sexuality in French Cinema** 3 s.h.
Cultural, historical, semiotic approach to studying construction of gender identity and sexual codes in French cinema from 1920s to present. Taught in English. Prerequisites: FREN:3060 or CINE:1601 or CINE:1602 or GWSS:1001. Same as FREN:3540, CINE:3647.

**GWSS:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice** 3 s.h.
Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Requirements: satisfactory completion of General Education rhetoric requirement. Same as RHET:3610, ASP:3610.

**GWSS:3710 African American Women Writers** 3 s.h.
Introduction to major African American women authors of the 19th, 20th, and 21st centuries; major debates of black feminist literary scholarship; analyze African American literary representations by reading novels, poetry, short stories, plays, relevant historical and critical texts. GE: Values, Society, and Diversity. Same as AFAM:3710.

**GWSS:3990 Independent Readings and Research in Gender, Women’s, and Sexuality Studies** arr.

**GWSS:4000 Sex/Text:: Engendering the Essay** 3 s.h.
Analyze and discuss significant essays that have engaged and articulated sexuality and gender in contemporary societies, in the U.S. as well as other cultures; students write and workshop on these topics: bodies are battlegrounds, gender is convoluted, sex is serious; gender and sexuality are emotionally charged, politically volatile, and socially complex issues. Recommendations: major or minor in writing-intensive disciplines, or previous writing classes.

**GWSS:4026 French Women Writers** 3-4 s.h.
Survey of 20th-century French women writers with emphasis on Simone de Beauvoir; broad range of literary works by writers including de Beauvoir, Colette, Marguerite Yourcenar, Nathalie Sarraute, Marguerite Duras, Sarah Kofman, Annie Ernaux, Christiane Rachefort; French feminist theorists who followed in de Beauvoir’s footsteps, including Helene Cixous, Julia Kristeva, Luce Irigaray. Prerequisites: FREN:3060 or GWSS:1001. Same as FREN:4026.

**GWSS:4090 Senior Research Seminar** 3 s.h.
Design and development of individual creative or scholarly projects in the field of gender, women’s and sexuality studies; emphasis on strengthening students’ research and writing skills; synthesizing and extending work already completed in the major. Prerequisites: GWSS:1001. Requirements: two women's studies courses numbered above GWSS:1001.

**GWSS:4095 Honors Senior Thesis** arr.
Supervised research, writing. Requirements: honors standing and completion of course work for minor in women’s studies.

**GWSS:4140 The Anthropology of Women’s Health** 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as ANTH:4140, CBH:5140, GHS:4140.

**GWSS:4169 Feminist Rhetorics** 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifesto/as that shaped women’s movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women’s lives and broader U.S. American culture. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as COMM:4169.

**GWSS:4180 Women's Lives in Alternative Texts** 3 s.h.
Work of contemporary comics creators; how they craft memoir-based texts that explore intersections of aging, sexuality, race, gender, and relationships. Same as INTM:4780.
GWSS:4280 Women and Power in U.S. History Through the Civil War 3 s.h.
Exploration of how women, as political actors, shaped the outcome of familiar events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as HIST:4280.

GWSS:4282 Women and Power in U.S. History Since the Civil War 3 s.h.
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as HIST:4282.

GWSS:4283 U.S. Women's History as the History of Human Rights 3-4 s.h.
History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as HIST:4283, AMST:4283, HRTS:4283.

GWSS:4427 Society and Gender in Europe 1200-1789 3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as HIST:4427.

GWSS:4461 Gender and Violence 3 s.h.
Extent and nature of gendered violence, interpretation of patterns using feminist theory and perspectives on masculinities and heterosexism; examination of interpersonal violence, including criminal violence committed by women and men, violence against women and men (victimization), spousal/intimate partner abuse, youth gangs, bullying in schools, sexual violence, femicide, and genocide. Same as SOC:4461.

GWSS:4560 Native American Women and Religious Change 3 s.h.
Native women's diverse experiences and their roles in native societies, examined through contact experiences between native and nonnative peoples; changes in women's roles in context of interactions between native people, missionaries, European colonists, and Americans; approaches to re-imaging women's early contact roles presented in cultural narratives, archaeology, history, ethnography, and missionary records. Same as AINS:4560, RELS:4920.

GWSS:4725 Women and Gender in African History 3 s.h.
Importance of female agency in African history; African women's history in historiographical framework of women's history, challenges historians face in exploring African women's past; varied sources (e.g., novels, films, court records) from sub-Saharan Africa, urban and rural settings; current literature on African women, African women's experiences in a comparative context. Same as HIST:4725.

GWSS:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1020. Same as SOC:4820.

Graduate

GWSS:5000 Foundations for Feminist Inquiry I 3 s.h.
Theory, critique, methodology, practice.

GWSS:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including colonialism, globalization, the nation-state, religion, cultural traditions, and human rights, in global and U.S. domestic contexts; interdisciplinary readings with focus on anthropology, other social sciences. Same as ANTH:5120.

GWSS:6050 Topics in Gender, Women's, and Sexuality Studies 3 s.h.
Special topics in women's studies.

GWSS:6125 Seminar: Feminist Ethnography 3 s.h.
Feminist critiques of traditional ethnographies; informed by contemporary feminisms. Same as ANTH:6125.

GWSS:6130 Studies in Francophone Literatures 3 s.h.
Historical, anthropological, comparative approach to Francophone literatures and cultures; Afro/Indo-Caribbean religions in literatures, theoretical and critical discourses, women's literature and cinema. Same as FREN:6130.

GWSS:6225 Feminist Critical Theory 3 s.h.
Questions of difference, the body, agency, identity politics, gender performativity, power as both productive and oppressive; perspectives from texts in poststructuralist and feminist philosophy.

GWSS:6238 Gender and Education in Historical Perspective 3 s.h.
Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women’s arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as EPLS:6238.

GWSS:6256 Gender and Mass Communication
3 s.h.
Approaches to the study of gender and communication; topics vary. Same as JMC:6256.

GWSS:6310 Anthropology of Science, Technology, and Gender
3 s.h.
Science and technology done in particular social and structural contexts; theoretical approaches for understanding cultures of science and social uses of technology; focus on gender-related aspects of real world cases. Recommendations: graduate standing in any discipline with interest in understanding cultural context of scientific practice. Same as ANTH:6310.

GWSS:6350 Gender and Religion
3 s.h.
What contemporary religious and spiritual groups and their members believe about sex, sexuality, and gender; how they define and redefine what it means to be a “man” and a “woman”; exploration of contemporary “conservative” and “progressive” cosmologies and theologies; underlying beliefs that construct these perspectives and the impact on individual and group practices; broader implications of individual and group beliefs and practices on national and global policies. Same as RELS:6350.

GWSS:6415 Seminar: Language, Gender, and Sexuality
3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, LING:6415.

GWSS:6660 Critical Ethnography
3 s.h.
How power relations constitute the work of ethnographic research; ethnography as a rhetorical form—how ethnographic inscription renders self, other, culture, and the world intelligible in ways that reinscribe and/or challenge dominant social relations; axes of power such as race, class, gender, sexuality, and nation within postcolonial, feminist, and antiracist approaches to ethnographic/autoethnographic theory and praxis; negotiating researcher privilege and epistemic violence; crisis of representation. Same as COMM:6660.

GWSS:6710 Seminar: Women in Sport
3 s.h.
Women’s sport involvement in historical and/or contemporary contexts; focus on social class, religion, race, ethnicity, sexuality, medical opinion, economic considerations, political events, and educational philosophies that have influenced women’s participation. Same as SPST:6078, AMST:6078.

GWSS:6990 Independent Study
arr.

GWSS:7020 Feminist Research Seminar
arr.
Feminist research methodologies; how to conduct original research, write a research proposal and research paper, and read and criticize others’ work. Same as HIST:7120.

GWSS:7205 Gender and Race in Nineteenth-Century U.S.
arr.

GWSS:7207 French Theory and the Politics of Gender
3 s.h.
Introduction to structuralist, poststructuralist, and deconstructionist theory; influence of post-WWII French thought on the development of French and gender theory.

GWSS:7214 Readings: African American Women’s History
arr.

GWSS:7220 Readings: History of Sexuality
arr.
History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as HIST:7220.

GWSS:7275 Readings in the History of Women and Gender in the U.S.A.
arr.

GWSS:7289 Readings: Gender in Latin American History
arr.

GWSS:7400 Graduate Research Conference Presentation
1 s.h.
Presentation of conference paper based on current research activities; for students pursuing the Certificate in Gender, Women’s, and Sexuality Studies. Requirements: gender, women’s, and sexuality studies graduate certificate standing.

GWSS:7435 Readings: Women, Men, and Gender in Modern Europe
arr.

GWSS:7500 Ph.D. Thesis
arr.

GWSS:7920 Innovative Methods in Pedagogy: Radical Feminist Pedagogy
3 s.h.
Readings in history, theory, and practice of pedagogical innovations appropriate to composition instruction and other interdisciplinary teaching; project-based assignments that produce materials appropriate for classroom use. Same as RHET:7920.
General Education Program

Web site: http://clas.uiowa.edu/students/general-education-program-requirements

The College of Liberal Arts and Sciences General Education Program provides students with a broad foundation of knowledge and a focused practice of transferable skills necessary for a lifetime of learning.

General Education courses are particularly valuable for students making the transition into the University of Iowa. They help students understand the expectations of the College of Liberal Arts and Sciences while providing the tools needed for more advanced academic work in the major.

All students in the College of Liberal Arts and Sciences who wish to earn an undergraduate degree—Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.)—must complete the requirements of the CLAS General Education Program.

General Education Areas and Requirements

The General Education Program has 10 required areas, grouped into three categories. Students must fulfill the requirements in each General Education area.

Communication and literacy:
- Rhetoric: a minimum of 4 s.h.
- World Languages: required credit varies by language (see “World Languages” below)
- Interpretation of Literature: a minimum of 3 s.h.

Natural, quantitative, and social sciences:
- Natural Sciences: a minimum of 7 s.h.; must include one lab
- Quantitative or Formal Reasoning: a minimum of 3 s.h.
- Social Sciences: a minimum of 3 s.h.

Culture, society, and the arts:
- Historical Perspectives: a minimum of 3 s.h.
- International and Global Issues: a minimum of 3 s.h.
- Literary, Visual, and Performing Arts: a minimum of 3 s.h.
- Values, Society, and Diversity: a minimum of 3 s.h.

Students may count transfer credit and/or credit by exam toward some General Education Program requirements. See General Education Policies for details regarding use of transfer credit, credit by exam, and other policies for how General Education requirements may be fulfilled.

Communication and Literacy

Rhetoric

Rhetoric courses develop speaking, writing, listening, and critical reading skills and build competence in research, analysis, and argumentation.

All entering first-year students are required to complete RHET:1030 Rhetoric (4-5 s.h.). Because rhetorical skills lay the foundation for further study at the University, most students register for RHET:1030 during their first year at Iowa. Students in some majors, such as English or journalism and mass communication, enroll in RHET:1030 during their first semester.

Students who must enroll in English as a Second Language (ESL) courses as determined by their English proficiency evaluation must complete all ESL courses before they may register for RHET:1030 Rhetoric.

Students who have transfer credit in composition, speech, and argumentation but have not been granted an A.A. degree must complete the equivalent of RHET:1030 Rhetoric and often must take RHET:1040 Writing and Reading or RHET:1060 Speaking and Reading in addition to their transfer courses in composition and/or speech.

Each entering student’s degree audit shows the course(s) he or she must complete in order to fulfill the Rhetoric requirement.

The following courses are approved for the Rhetoric area.

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>RHET:1030 Rhetoric</td>
<td>4</td>
</tr>
<tr>
<td>RHET:1040 Writing and Reading</td>
<td>3</td>
</tr>
<tr>
<td>RHET:1060 Speaking and Reading</td>
<td>3</td>
</tr>
</tbody>
</table>

TRANSFER OF CREDIT FOR RHETORIC

Transfer students who have been granted an Associate of Arts (A.A.) degree from an Iowa community college, Waldorf College in Iowa, or Black Hawk College in Illinois have satisfied the Rhetoric requirement.

Transfer credit for students without an A.A. degree is evaluated as follows:

- transfer students who have completed composition I, composition II, and speech at another institution have satisfied the General Education Program’s Rhetoric requirement of RHET:1030 Rhetoric;
- transfer students who have completed only composition I must complete RHET:1030 Rhetoric at the University of Iowa;
- transfer students who have completed composition I and speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed composition I and only speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed composition I and II or only composition II must complete RHET:1060 Speaking and Reading at the University of Iowa;
- for transfer students who have completed any other course at another institution that may be equivalent to RHET:1030 Rhetoric, the University of Iowa Office of Admissions examines the content of the course and decides on equivalency based on the content of that course, conferring with the Department of Rhetoric on the correct equivalency, if necessary.

Interpretation of Literature

Courses in the Interpretation of Literature area focus on the major genres of literature (short and long fiction, nonfiction, poetry, and drama), improving students’ abilities to read and analyze a variety of texts. Small group discussions in these courses challenge students to think critically, to share insights, and to listen thoughtfully to the arguments of others.
All students must complete at least 3 s.h. of course work in the Interpretation of Literature area. The following courses are approved for the area.

ENGL:1200 The Interpretation of Literature 3 s.h.
FREN:1005 Texts and Contexts: French-Speaking World 3 s.h.
FREN:1007 Nature/Ecology French Philosophy and Fiction 3 s.h.
HONR:1885 Reading the Ancient City 3 s.h.

World Languages

Courses in the World Languages area provide students with speaking, listening, reading, and writing skills in a second language as well as knowledge of the culture in which the language is spoken. To fulfill the World Languages requirement, students must:

- complete the fourth year in a world language in high school; or
- complete four semesters* in an approved General Education world language course sequence at the University of Iowa (note the exception for Latin) or the equivalent courses at another college or university or during study abroad; or
- pass a written and oral achievement test measuring proficiency in a world language taught at the University of Iowa, equivalent to that usually attained after four semesters of college study; or
- achieve a passing score on Advanced Placement, International Baccalaureate, or other approved college-level world languages examination program.

*A student may be required to complete fewer than four semesters based on his or her language placement test results.

For information about proficiency examinations and guidelines for taking them, see the World Languages web page. The page also provides information about how students whose first language is not English may fulfill the World Languages requirement.

Once students have completed the World Languages requirement, they may earn up to 8 s.h. of additional credit in language study; see the Furthering Language Incentive Program (FLIP) web page.

Students may use the following language course sequences to fulfill the World Languages requirement. To avoid duplication or regression, consult the appropriate language department before registering for courses.

AMERICAN SIGN LANGUAGE

Courses in American Sign Language (ASL) are offered by the American Sign Language (p. 41) Program. The following sequence fulfills the General Education Program's World Languages requirement.

ASL:1001 American Sign Language I 4 s.h.
ASL:1002 American Sign Language II 4 s.h.
ASL:2001 American Sign Language III 4 s.h.
ASL:2002 American Sign Language IV 4 s.h.

Students with previous knowledge of American Sign Language should consult the ASL program for placement.

ARABIC

Courses in Arabic are offered by the Department of French and Italian (p. 291). The following sequence fulfills the General Education Program's World Languages requirement.

ARAB:1001 Elementary Modern Standard Arabic I 5 s.h.
ARAB:1002 Elementary Modern Standard Arabic II 5 s.h.
ARAB:2001 Intermediate Modern Standard Arabic I 5 s.h.
ARAB:2002 Intermediate Modern Standard Arabic II 5 s.h.

Students with previous knowledge of Arabic should consult the department for appropriate placement.

CHINESE

Courses in Chinese are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). For students without previous knowledge of Chinese, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.

CHIN:1111 First-Year Chinese: First Semester 5 s.h.
CHIN:1112 First-Year Chinese: Second Semester 5 s.h.
CHIN:2101 Second-Year Chinese: First Semester 5 s.h.
CHIN:2102 Second-Year Chinese: Second Semester 5 s.h.

Students may use varied combinations of Chinese language courses approved for General Education to fulfill the World Languages requirement. Heritage learners and students who have studied Chinese abroad may be able to fulfill the requirement by substituting CHIN:2103 Accelerated Second-Year Chinese: First Semester and CHIN:2104 Accelerated Second-Year Chinese: Second Semester for CHIN:2101 and CHIN:2102. Consult the department for more information.

CZECH

Courses in Czech are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). The following sequence fulfills the General Education Program's World Languages requirement.

SLAV:1211 Conversational Czech I 3 s.h.
SLAV:1212 Conversational Czech II 3 s.h.
SLAV:2211 Conversational Czech III 3 s.h.
SLAV:2212 Conversational Czech IV 3 s.h.

Students with previous knowledge of Czech should consult the department for proper placement.

FRENCH

Courses in French are offered by the Department of French and Italian (p. 291). For students without previous knowledge of French, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.

FREN:1001 Elementary French I 5 s.h.
FREN:1002 Elementary French II 5 s.h.
Courses in Hindi-Urdu are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). Students without previous knowledge of Hindi-Urdu should be used to fulfill the General Education World Languages requirement. The intensive courses may be combined with nonintensive courses to create other sequences that may be used to complete the requirement by substituting ITAL:3002 Intensive Elementary Italian for ITAL:1101 and ITAL:1102 in the sequence above. Consult the department for appropriate placement.

Students with previous knowledge of Indonesian should consult the department for appropriate placement.

KOREAN
Courses in Korean are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). For students without previous knowledge of Korean, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement. Each of these courses is open to entering first-year students.

Students with previous knowledge of Korean should consult the department for appropriate placement.

University of Iowa 2015-16 General Catalog
Students with previous knowledge of Korean should consult the department for appropriate placement.

**LATIN**

Courses in Latin are offered by the Department of Classics (p. 149). Students without previous knowledge of Latin should fulfill the General Education Program's World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLSL:1001</td>
<td>Elementary Latin I</td>
<td>3-5 s.h.</td>
</tr>
<tr>
<td>CLSL:1002</td>
<td>Elementary Latin II</td>
<td>3-5 s.h.</td>
</tr>
<tr>
<td>CLSL:2001</td>
<td>World of Cicero</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>CLSL:2002</td>
<td>Golden Age of Roman Poetry</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Latin should consult the department for appropriate placement.

**PORTUGUESE**

Courses in Portuguese are offered by the Department of Spanish and Portuguese (p. 596). Only one sequence in Portuguese is approved to fulfill the General Education Program's World Languages requirement. Both courses in the sequence are open to entering first-year students.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT:2000</td>
<td>Accelerated Elementary Portuguese</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>PORT:2500</td>
<td>Accelerated Intermediate Portuguese</td>
<td>5 s.h.</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Portuguese should consult the department for appropriate placement.

**RUSSIAN**

Courses in Russian are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). Students without previous knowledge of Russian should fulfill the General Education Program's World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLAV:1111</td>
<td>First-Year Russian I</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>SLAV:1112</td>
<td>First-Year Russian II</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>SLAV:2111</td>
<td>Second-Year Russian I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SLAV:2112</td>
<td>Second-Year Russian II</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Russian should consult the department for appropriate placement.

**SANSKRIT**

Courses in Sanskrit are offered by the Department of Asian and Slavic Languages and Literatures (p. 100). Students without previous knowledge of Sanskrit should fulfill the General Education Program's World Languages requirement with the following sequence. Each of these courses is open to entering first-year students.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOAS:2901</td>
<td>First-Year Sanskrit: First Semester</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SOAS:2902</td>
<td>First-Year Sanskrit: Second Semester</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SOAS:3901</td>
<td>Second-Year Sanskrit: First Semester</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>SOAS:3902</td>
<td>Second-Year Sanskrit: Second Semester</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Sanskrit should consult the department for appropriate placement.

**SPANISH**

Courses in Spanish are offered by the Department of Spanish and Portuguese (p. 596). For students without previous knowledge of Spanish, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN:1001</td>
<td>Elementary Spanish I</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>SPAN:1002</td>
<td>Elementary Spanish II</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>SPAN:1501</td>
<td>Intermediate Spanish I</td>
<td>5 s.h.</td>
</tr>
<tr>
<td>SPAN:1502</td>
<td>Intermediate Spanish II</td>
<td>5 s.h.</td>
</tr>
</tbody>
</table>

Students may use varied combinations of Spanish language courses approved for General Education to fulfill the General Education World Languages requirement. Those with previous knowledge of Spanish may be able to fulfill the requirement by substituting SPAN:1003 Elementary Spanish Review for SPAN:1001 and SPAN:1002 in the sequence above.

The accelerated course SPAN:1503 Accelerated Intermediate Spanish, which combines SPAN:1501 and SPAN:1502, may be appropriate for some students.

Students may substitute SPAN:1504 Spanish for Healthcare Providers in place of SPAN:1502 as the last course to fulfill the General Education Program's World Languages requirement.

Students with previous knowledge of Spanish should take the language placement test in Spanish to help determine proper placement.

**SWAHILI**

Courses in Swahili are offered by the Department of French and Italian (p. 291). The following sequence fulfills the General Education Program's World Languages requirement. Each of these courses is open to entering first-year students.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SWAH:3001</td>
<td>Elementary Swahili I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SWAH:3002</td>
<td>Elementary Swahili II</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SWAH:3003</td>
<td>Intermediate Swahili I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>SWAH:3004</td>
<td>Intermediate Swahili II</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Swahili should consult the department for appropriate placement.

**OTHER COURSE SEQUENCES**

A student who successfully completes a four-semester world language sequence that has not been approved for General Education may have the sequence substituted for a proficiency test to fulfill the General Education requirement.

Students who complete a world language sequence this way should notify the department that offers the sequence; the department will contact Graduation Analysis in the Office of the Registrar, which will update a student's degree audit to show fulfillment of the World Languages requirement.

**Natural, Quantitative, and Social Sciences**

**Natural Sciences**

Courses in the Natural Sciences area explore the scope and major concepts of a scientific discipline. Students
learn the attitudes and practices of scientific investigators: logic, precision, experimentation, tentativeness, and objectivity. In courses with a laboratory component, students gain experience in the methods of scientific inquiry.

All students must complete at least 7 s.h. of course work in the Natural Sciences area, including at least one natural science lab component. The following courses are approved for the area; courses with a lab component are noted "(lab)."

### Quantitative or Formal Reasoning

Courses in the Quantitative or Formal Reasoning area help develop analytical skills through the practice of quantitative or formal symbolic reasoning. Courses focus on presentation and evaluation of evidence and argument; understanding the use and misuse of data; and organization of information in quantitative or other formal symbolic systems, including those used in computer science, linguistics, mathematics, philosophy, and statistics.

All students must complete at least 3 s.h. of course work in the Quantitative or Formal Reasoning area. Students may fulfill this requirement of the General Education Program by completing a course that lists an approved course as a prerequisite. The following courses are approved for the area.

<table>

Approved for the area.

All students must complete at least 3 s.h. of course work in the Social Sciences area. The following courses are approved for the area.

### Social Sciences

Courses in the Social Sciences area focus on human behavior and the institutions and social systems that shape and are shaped by that behavior. Courses provide an overview of one or more social science disciplines, their theories, and their methods.

All students must complete at least 3 s.h. of course work in the Social Sciences area. The following courses are approved for the area.

- AFAM:1030 Introduction to African American Society 3 s.h.
- ANTH:1101/IS:1101 Cultural Anthropology 3 s.h.

### Culture, Society, and the Arts

#### Historical Perspectives

Courses in the Historical Perspectives area help students comprehend the historical processes of change and continuity; develop the ability to generalize, explain, and interpret historical change; and understand the past in its own terms.

All students must complete at least 3 s.h. of course work in the Historical Perspectives area. The following courses are approved for the area.

- ANTH:1201 Introduction to Prehistory 3 s.h.
- ARTH:1010 Art and Visual Culture 3 s.h.
- ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
- ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
- ARTH:1070/CHIN:1070 Asian Art and Culture 3 s.h.
- ARTH:2920 Introduction to American Art 3 s.h.
- CLSA:1181/GHS:1181 Ancient Medicine 3 s.h.
- CLSA:1830 Greek Civilization 3 s.h.
- CLSA:1840 Roman Civilization 3 s.h.

## International and Global Issues

Courses in the International and Global Issues area focus predominantly on countries or issues outside the United States, encouraging students to understand contemporary issues from an international perspective. Students develop knowledge of one or more contemporary global or international issues, gain a greater awareness of varied international perspectives, and improve their skills of analysis and critical inquiry.

All students must complete at least 3 s.h. of course work in the International and Global Issues area. The following courses are approved for the area.

Geographical and Sustainability Sciences

Chair
• David A. Bennett

Director, undergraduate studies
• Marc Linderman

Director, graduate studies
• Eric Tate

Undergraduate major: geography (B.A., B.S.)
Undergraduate minors: geographic information science; geography
Graduate degrees: M.A. in geography; Ph.D. in geography
Faculty: http://clas.uiowa.edu/geography/people/faculty
Web site: http://clas.uiowa.edu/geography/

Geographical and sustainability sciences are concerned with place, environment, and the ongoing processes of change within and between social and physical systems. Geographical and sustainability sciences' importance to scholarly inquiry is rooted in the complexity of social and environmental problems. Three concepts at the core of the disciplines—space, place, and scale—provide theoretical constructs and methodological tools for sciences that investigate the complex character of social and environmental phenomena.

Geographical and sustainability scientists examine issues such as distribution and consumption of natural resources, air and water quality, climate changes and ecosystem dynamics, growth and development of urban areas, population dynamics, politics and practice of international development, and social justice. They view society and the environment as a physical/social/cultural system. They apply uniquely geographical and sustainability perspectives and tools, as well as knowledge from other social and scientific disciplines, to analyze the emergent properties of these systems.

Department of Geographical and Sustainability Sciences graduates find employment opportunities in government, nongovernmental organizations, and business. For example, many geographical and sustainability scientists are employed in resource management, urban and regional development, public health, and market area analysis. They analyze problems in the distribution and interactions among physical, ecological, social, and political systems.

Geographical and sustainability sciences students acquire skills in computer-based cartography and geographic information systems (GIS) software used to investigate and solve many environmental and social problems. Opportunities for graduates with GIS training are growing rapidly in both private and governmental organizations.

The geographical and sustainability sciences faculty has developed an undergraduate instructional program that serves students majoring or minoring in geography as well as students in other disciplines. Courses in geography are commonly required for students preparing to teach at the elementary and secondary school levels and for those who want to pursue careers in urban and regional planning. They also provide a background for many related professions, including law, health care, environmental or transportation engineering, and international business.

Geographical and sustainability sciences students use the University's Geographical Information Systems Instructional Lab (GISIL) for GIS instruction and research. The lab is located in the department; see "Facilities and Resources" later in this Catalog section.

The Department of Geographical and Sustainability Sciences participates in a number of University of Iowa interdisciplinary programs that have international, area studies, urban, or environmental components, including an interdisciplinary undergraduate major, which it administers; see Environmental Policy and Planning (p. 275) in the Catalog. The Department of Geographical and Sustainability collaborates with other departments to offer the Certificates in Social Science Analytics (p. 571) and in Wind Energy (p. 915). It also participates in the University's internship program for students; see "Internships" later in this Catalog section.

Undergraduate Programs of Study
• Major in geography (Bachelor of Arts, Bachelor of Science)
• Minor in geographic information science
• Minor in geography

Bachelor of Arts, Bachelor of Science

The Bachelor of Arts with a major in geography requires a minimum of 120 s.h., including at least 38-43 s.h. of work for the major. The Bachelor of Science with a major in geography requires a minimum of 120 s.h., including at least 44-50 s.h. of work for the major. Credit required for the major depends on the student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Transfer students majoring in geography must earn a minimum of 15 s.h. for the major in residence at the University of Iowa.

Students majoring in geography may not earn the minor in geographic information science.

The major in geography (either B.A. or B.S.) is appropriate preparation for advanced training or careers in geographical and sustainability sciences. Students with strong interest in quantitative analysis and model building should pursue the Bachelor of Science and are encouraged to master an appropriate computer programming language.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in geography complete a common set of foundation courses in addition to the requirements for their choice of track. Bachelor of Science students take additional mathematics course work.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.
The major in geography requires the following work.

**Common Requirements (B.A. and B.S.)**
All geography majors must complete the following courses. Students may not use a course to fulfill more than one major requirement.

One of these:
- GEOG:1010 Introduction to Human Geography [3 s.h.]
- GEOG:1090 Globalization and Geographic Diversity [3 s.h.]

All of these:
- GEOG:1020 The Global Environment [3 s.h.]
- GEOG:1021 The Global Environment Lab [1 s.h.]
- GEOG:1050 Foundations of GIS [3 s.h.]

One of these, in addition to any course required to fulfill a track requirement:
- GEOG:1060 Geography of Asia: From Japan to Pakistan [3 s.h.]
- GEOG:1070 Contemporary Environmental Issues [3 s.h.]
- GEOG:1090 Globalization and Geographic Diversity (if not chosen above) [3 s.h.]
- GEOG:2110 Population Geography: Societies in Flux [3 s.h.]
- GEOG:2130 World Cities [3 s.h.]
- GEOG:2910 The Global Economy [3 s.h.]
- GEOG:2950 Environmental Conservation [3 s.h.]

One of these (not required for GISci track students):
- GEOG:1060 Geography of Asia: From Japan to Pakistan [3 s.h.]
- GEOG:1070 Contemporary Environmental Issues [3 s.h.]
- GEOG:1090 Globalization and Geographic Diversity (if not chosen above) [3 s.h.]
- GEOG:2110 Population Geography: Societies in Flux [3 s.h.]
- GEOG:2910 The Global Economy [3 s.h.]
- GEOG:2950 Environmental Conservation [3 s.h.]

One of these (at least 1 s.h. required):
- GEOG:3400 Iowa Environmental Policy in Practice [3 s.h.]
- GEOG:3992 Undergraduate Research (including through ICIGO or independent research) [arr.]
- CCP:1201 Academic Internship [1-3 s.h.]

The Department of Geographical and Sustainability Sciences is a participant in the University's internship program, which provides opportunities for both undergraduate and graduate students to participate in paid and unpaid activities related to their academic programs. The Pomerantz Career Center works with students to develop appropriate internships.

**STATISTICS COURSES (B.A.)**
Bachelor of Arts students must earn a minimum of 3 s.h. in statistics by completing one of the following courses or a statistics course equivalent to or numbered above one of these.

- GEOG:1065 Introduction to Spatial Analysis: Patterns and Processes [3 s.h.]
- PSQF:4143/STAT:4143 Introduction to Statistical Methods [3 s.h.]
- STAT:1020/PSQF:1020 Elementary Statistics and Inference [3 s.h.]
- STAT:1020/PSQF:1020 Elementary Statistics and Inference [3 s.h.]
- STAT:2010 Statistical Methods and Computing [3 s.h.]
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences [3 s.h.]
- STAT:3510 Biostatistics [3 s.h.]

**STATISTICS/MATHEMATICS COURSES (B.S.)**
Bachelor of Science students must earn a minimum of 9 s.h. in statistics/mathematics by completing one of the following options or courses equivalent to or numbered above these.

**Option 1**
This sequence:
- PSQF:4143/STAT:4143 Introduction to Statistical Methods [3 s.h.]
- PSQF:6243/STAT:6513 Intermediate Statistical Methods [4 s.h.]

Or this sequence:
- BIOS:5110 Introduction to Biostatistics [3 s.h.]
- BIOS:5120 Design and Analysis of Biomedical Studies [3 s.h.]

Or this sequence:
- STAT:2010 Statistical Methods and Computing [3 s.h.]
- STAT:3200 Applied Linear Regression [3 s.h.]

And one of these:
- EES:4870 Applied Geostatistics [3 s.h.]
- MATH:1380 Calculus and Matrix Algebra for Business [4 s.h.]
- MATH:1460 Calculus for the Biological Sciences [4 s.h.]
MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
MATH:1850 Calculus I 4 s.h.

Option 2
One of these:
PSQF:4143/STAT:4143 Introduction to Statistical Methods 3 s.h.
STAT:2010 Statistical Methods and Computing 3 s.h.

And one of these sequences:
MATH:1440 & MATH:1460 Mathematics for the Biological Sciences - Calculus for the Biological Sciences 8 s.h.
MATH:1850 & MATH:1860 Calculus I-II 8 s.h.

Tracks (B.A. and B.S.)
All geography majors must complete one of the three tracks described below: environmental studies, geographic information science (GISci), or health and society. Students should pay close attention to prerequisites for the upper-level courses in each track in order to develop a study plan that allows them to complete their major in a timely way.

Students in the environmental studies or health and society track who wish to gain additional experience in theory and application of GIS systems should take GIS-based courses offered by the Department of Geographical and Sustainability Sciences, as described for each track below.

Students may use GEOG:3001 Special Topics to fulfill a track requirement if the course content is applicable.

ENVIRONMENTAL STUDIES TRACK
The environmental studies track requires a minimum of 15 s.h. It is designed for students interested in the interrelationships among social and natural processes that affect the environment. The track prepares students for careers or pursuit of personal interests in resource management, landscape ecology, water resources, environmental policy or law, global environmental change, sustainable development, or other complex environmental issues. Graduates may find employment in an environmental profession such as conservation, environmental planning and regulation; or environmental law, policy, and politics.

The environmental studies track offers training in field observation, remote sensing, geographical information systems, quantitative analysis/computing, and cartographic representation. It also provides a sound foundation for graduate or professional-level studies in the natural or social aspects of the environment.

In addition to satisfying the common requirements for all geography majors, students in the environmental studies track complete a common track course (3 s.h.) and at least 12 s.h. of upper-level geographical and sustainability sciences courses.

Common course—all environmental studies track students take this:

GEOG:1070 Contemporary Environmental Issues 3 s.h.

Students choose a total of four upper-level courses (at least 12 s.h.) from the following lists, in consultation with their advisors. Those who wish to gain additional experience in theory and application of GIS systems should take GEOG:3520 GIS for Environmental Studies and GEOG:4520 GIS for Environmental Studies: Applications, or they should earn 6 s.h. in other GIS-based geographical and sustainability sciences courses.

At least one of these:
GEOG:2310 Introduction to Climatology 3 s.h.
GEOG:2374 Biogeography 3 s.h.
GEOG:2410 Environment and Development 3 s.h.
GEOG:2930 Water Resources 3 s.h.
GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.
GEOG:3520 GIS for Environmental Studies 3 s.h.

At least one of these:
GEOG:3210 Health, Work, and the Environment 3 s.h.
GEOG:3310 Landscape Ecology 3 s.h.
GEOG:3320 Wetlands: Function, Geography, and Management 3 s.h.
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
GEOG:3350 Urban Ecology 3 s.h.
GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
GEOG:3560 Spatial Analyses of Wind Energy 3 s.h.
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
GEOG:3760 Hazards and Society 3 s.h.
GEOG:3920 Planning Livable Cities 3 s.h.
GEOG:4010 Field Methods in Physical Geography 3 s.h.
GEOG:4500 Applications in Environmental Remote Sensing 4 s.h.
GEOG:4520 GIS for Environmental Studies: Applications 3 s.h.
GEOG:4650 Simulation in Environmental Geography 3 s.h.
GEOG:4750 Environmental Impact Analysis 4 s.h.
GEOG:4770 Environmental Justice 3 s.h.

GEOS:3210 Health, Work, and the Environment 3 s.h.

GEOGRAPHIC INFORMATION SCIENCE TRACK
The geographic information science track (GISci) requires a minimum of 18-19 s.h. It is designed for students preparing for positions in government agencies, nongovernment organizations, international development agencies, and business. It also provides preparation for graduate study in geography, planning, and other disciplines. The track focuses on the design, implementation, and use of geographic information systems. Courses address how geographic data are acquired, stored, accessed, displayed, managed, and analyzed.

Students in the geographic information science track learn to address problems involved in modeling environmental systems, identifying the best locations for service facilities,
assessing environmental impacts, and forecasting the populations of small areas. They use the department’s Geographical Information Systems Instructional Lab (GISIL) extensively to develop expertise in using GIS software.

Course work in the track covers methods of spatial analysis and geographical modeling and involves database management and computer programming.

In addition to the common requirements for all geography majors, students in the geographic information science track complete a common track course (3-4 s.h.) and at least 15 s.h. of upper-level geographical and sustainability sciences courses.

Common course—all GISci track students take one of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1110</td>
<td>Introduction to Computer Science</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>CS:1210</td>
<td>Computer Science I: Fundamentals</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>CS:2110</td>
<td>Programming for Informatics</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

Students choose a total of five upper-level courses (at least 15 s.h.) from the following lists in consultation with their advisors (at least one course from each list). GISci track students are encouraged to add breadth to their degree by taking additional upper-level courses in the department. Students interested in the application of GIS to environmental issues should select additional courses from the department’s environmental studies area; those interested in health or other socioeconomic issues should select additional courses from the department’s health and society area.

At least one of these:

<table>
<thead>
<tr>
<th>Course Code</th>

</table>

HEALTH AND SOCIETY TRACK

The health and society track requires a minimum of 15 s.h. It is designed for students interested in understanding the causes and consequences of social inequalities, the long-term effects that changing human/environmental interactions have on human health, and emerging transnational challenges to the sustainability of livelihoods. The track provides students with foundational knowledge and skills to support postgraduate employment in governmental or nongovernmental positions, graduate study in public health or in health-related fields, and service experiences such as the Peace Corps and AmeriCorps.

Students in the health and society track gain understanding of the factors and processes that determine geographic patterns of health. They explore the effects of the social, built, and natural environments on the physical, social, and mental health of populations. Course work in the track examines patterns and causes of infectious and chronic diseases; hazards, vulnerability, and environmental justice; and the spatial methods used to understand such issues.

Thematic content from courses is complemented by quantitative spatial and statistical analysis course work, enabling students to analyze and understand geographic patterns of health. Students have opportunities to work on applied problems, such as assessing patterns of disease, identifying the underlying population and environmental drivers of good or poor health, and evaluating the social dimensions of environmental impacts.

In addition to satisfying the common requirements for all geography majors, students in the health and society track complete three common track courses (9 s.h.) and at least two upper-level geographical and sustainability sciences courses (6 s.h.).

Common courses—all health and society track students take these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:2110</td>
<td>Population Geography: Societies in Flux</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GEOG:3110</td>
<td>Geography of Health</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GEOG:4150</td>
<td>Health and Environment: GIS Applications</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students choose two upper-level courses (at least 6 s.h.) from the following list, in consultation with their advisors. Those who wish to gain additional experience in theory and application of GIS systems should also take an additional 6 s.h. in GIS-based geographical and sustainability sciences courses.

At least two of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:3070</td>
<td>Hungry Planet: Global Geographies of Food</td>

</tr>
<tr>
<td>GEOG:3920</td>
<td>Planning Livable Cities</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GEOG:4770</td>
<td>Environmental Justice</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

B.A. or B.S. with Teacher Licensure

Geography majors interested in earning licensure to teach in elementary and/or secondary schools must complete
the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Bachelor of Arts

Before the third semester begins: one introductory course in the major

Before the fifth semester begins: five courses in the major

Before the seventh semester begins: 11 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 14 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Science

Before the third semester begins: two introductory courses in the major

Before the fifth semester begins: six courses in the major

Before the seventh semester begins: 12 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 15 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in geography have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the department's honors program by the first semester of their senior year or earlier.

Honors students in geography pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Departmental honors students earn credit for their thesis by registering for GEOG:4995 Honors Thesis. They may substitute GEOG:4030 Senior Project Seminar for GEOG:4995, as long as they continue to work on the thesis under the direction of a faculty member.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor: Geographic Information Science

The minor in geographic information science requires a minimum of 15 s.h. in geographical and sustainability sciences courses, including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students majoring in geography may not earn the minor in geographic information science.

Geographic Information Science is the study of geography using digital technology. The field uses geographic information systems (computer-based technologies designed to facilitate the capture, organization, analysis, and display of geographic data), remote sensing (primarily interpretation of satellite imagery), and spatial modeling (viewing, analyzing, and mapping spatial data) to study geographic patterns and processes and to examine research on the nature, development, and use of these tools.

The minor in geographic information science requires one core course, three mid-level specialization courses, and an advanced course that builds on one of the three mid-level courses. Students should contact the department secretary to request an advisor for help in selecting the advanced course.

Core course—one of these:
GEOG:1050 Foundations of GIS 3 s.h.
GEOG:3010 Geographic Information Systems and Science 3 s.h.

Mid-level specialization courses—all of these:
GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.
GEOG:3520 GIS for Environmental Studies 3 s.h.
GEOG:3540 Introduction to Geographic Visualization 3 s.h.

Advanced course—one of these:
GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3 s.h.
GEOG:4020 Field Methods: Mapping and Mobile Computing 3 s.h.
GEOG:4150 Health and Environment: GIS Applications 3 s.h.
GEOG:4500 Applications in Environmental Remote Sensing 4 s.h.
GEOG:4520 GIS for Environmental Studies: Applications 3 s.h.
GEOG:4570 Spatial Analysis and Location Models 3 s.h.
GEOG:4580 Introduction to Geographic Databases 3 s.h.
GEOG:4650 Simulation in Environmental Geography 3 s.h.

Minor: Geography
The minor in geography requires a minimum of 15 s.h. in geographical and sustainability sciences courses, including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students are encouraged to concentrate their course work in tracks—environmental studies, geographic information science, or health and society (see "Bachelor of Arts, Bachelor of Science" above). For help in selecting courses, students should contact the department secretary to request an advisor for the minor.

Courses for General Education
The Department of Geographical and Sustainability Sciences offers a number of courses that students in other majors may use to satisfy requirements of College of Liberal Arts and Sciences General Education Program. Look for courses with the prefix GEOG under "Natural Sciences," "Social Sciences," and "International and Global Issues" in the General Education Program (p. 313) section of the Catalog.

Nonmajors also may choose geographical and sustainability sciences courses as electives.

Certificate in Social Science Analytics
The Department of Geographical and Sustainability Sciences collaborates with the Departments of Political Science (p. 520), Sociology (p. 585), and Statistics and Actuarial Science (p. 613) to offer the undergraduate program in social science analytics; see Social Science Analytics (p. 571) in the Catalog.

Certificate in Wind Energy
The Department of Geographical and Sustainability Sciences (College of Liberal Arts and Sciences) and the Department of Mechanical and Industrial Engineering (College of Engineering) administer the undergraduate certificate program in wind energy; see Wind Energy (p. 915) (College of Engineering) in the Catalog.

Graduate Programs of Study
- Master of Arts in geography
- Doctor of Philosophy in geography

In addition to offering graduate degree programs, the department administers the geoinformatics subprogram of the graduate Certificate in Informatics; see Informatics (p. 942) (Graduate College) in the Catalog.

Department of Geographical and Sustainability Sciences graduate programs focus on investigating the environmental consequences of human decisions on local, regional, and global scales. Central to the department's studies are geographic information science and the theories and models of environmental and social sciences. Within this broad domain, the department is developing strengths in environmental justice, environmental modeling, GIScience and GIS, land use and its environmental consequences, and health geography.

The Master of Arts and Doctor of Philosophy programs prepare students to carry on creative and productive research in selected areas of geography. University of Iowa graduates hold positions on college and university faculties, in private research organizations, and in business and government.

The department provides opportunities for graduate students to gain practical teaching experience through service as departmental teaching assistants or graduate instructors.

Graduate students present research papers at conferences and regularly win awards. Students are involved in faculty research that leads to coauthored publications; they also publish their own papers. Graduate students compete successfully for intramural and extramural funding for graduate education and research.

Master of Arts
The Master of Arts program in geography requires a minimum of 30 s.h. of graduate credit with thesis and 32 s.h. of graduate credit without thesis. The program is designed to be completed in four semesters.

Thesis students must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above; they may count 6 s.h. of thesis credit and 2 s.h. earned in GEOG:7000 Geography Colloquium toward the degree. Students who earn more than 30 s.h. may use the additional work to increase their breadth of knowledge in geography and to tailor their study programs to their individual interests.

Nonthesis students build skills across a range of topics in geographical and sustainability sciences during their first year and develop skills in particular application areas during their second year. Nonthesis students must earn 15 s.h. of credit in Department of Geographical and Sustainability Sciences courses numbered 5000 or above.

M.A. students demonstrate competence by completing appropriate course work; completing and defending an M.A. thesis (for thesis students) or completing a portfolio of finished work and having it reviewed (nonthesis students).

More detailed information about M.A. requirements is provided in the department’s Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

Doctor of Philosophy
The Doctor of Philosophy program in geography requires 72 s.h. of graduate credit and is designed to be completed in four or five years. The degree prepares students for college and university teaching and for advanced research. It provides study programs that lead to broad knowledge of a field of geography and its literature and to special expertise in a subfield.

Students may enter the Ph.D. program upon completing an undergraduate degree or with advanced standing corresponding to previous graduate education.
All Ph.D. students take the following courses. They take GEOG:7000 Geography Colloquium (1 s.h.) each semester they are in residence.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:5010 Fundamentals of Geography</td>

</tr>
<tr>
<td>GEOG:5050 Research and Writing in Geography</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GEOG:7000 Geography Colloquium (taken each semester)</td>
<td>1 s.h.</td>
</tr>
<tr>
<td>Two courses in geography numbered above GEOG:5001</td>
<td>6 s.h.</td>
</tr>
<tr>
<td>Two research seminars chosen from GEOG:4500 through GEOG:6900; each course for 3 s.h.</td>
<td>6 s.h.</td>
</tr>
</tbody>
</table>

Doctoral students complete a set of research milestones, including a research paper, an area of concentration bibliography, and a written qualifying examination in the discipline. With the approval of his or her dissertation advisor, each student submits a dissertation proposal to the dissertation committee for critical comments, oral questioning, and approval. Once the dissertation is completed, an oral defense of the dissertation is held.

More detailed information about Ph.D. requirements is provided in the department’s Manual for Graduate Degree Requirements; contact the Department of Geographical and Sustainability Sciences.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

A bachelor's degree with a major in geography is not required, but applicants must have an undergraduate background relevant to the field. Strength in social science, environmental science, or geographic information science and interest in exploring the spatial perspectives that characterize modern geography are important in admission decisions. Depending on their prior training, graduate students may be required to take courses that are prerequisites for course work in their chosen area of graduate study; credit earned in prerequisites does not count toward the graduate degree.

Application materials include an undergraduate transcript with grade-point average, scores on the Graduate Record Examination (GRE) General Test, three letters of recommendation, and an essay in which the applicant states his or her reasons for wanting to study geography at the University of Iowa.

Applicants whose first language is not English must take the Test of English as a Foreign Language (TOEFL). Their scores must be provided to the University's Office of Admissions.

New graduate students whose first language is not English are required to take a speaking proficiency test when they arrive at the University; eventually they take the English Language Performance Test (ELPT). Students must be fully certified by the ELPT before they begin their fourth semester in order to be considered for funding in succeeding semesters. Students who do not pass the tests are required to take Teaching Assistant Preparation in English (TAPE) courses until they have achieved proficiency in spoken English.

**Financial Support**

A number of graduate teaching and research assistantships are available. In addition, outstanding applicants and underrepresented minorities are eligible for several fellowships. Awards are based on merit. In making awards, the department pays particular attention to grade-point average, especially for the junior and senior years; score on the Graduate Record Examination (GRE) General Test; letters of recommendation; and fit of the student's objectives with department specializations. Applications for graduate appointments must be received by February 1. Applications for fellowships are due by January 15.

**Facilities and Resources**

The department houses three geographic information computational laboratories. They support a variety of GIS software packages, including the latest software from ESRI (ArcGIS) and Erdas (Imagine) as well as a suite of other commercial and open-source software. All lab computers are regularly updated to ensure that they are capable of running the latest software at peak performance.

The Geographical Information Systems Instructional Lab (GISIL) is the department's center for GIS teaching as well as a place where students conduct geographic and GIS-related projects. It is equipped with 27 networked student workstations, instructional support technology (e.g., CRT projection), and a suite of peripherals, including a LiDAR 3-D scanner, high-end global positioning system (GPS) units, and a large-format printer.

Environmental modeling and GIS research laboratories contain state-of-the-art machines (Windows and Linux platforms), geoprocessing and statistical software, and an array of software development tools. Projects requiring massive storage or high-performance computing have access to additional resources managed by the University's Information Technology Services research support group. The University of Iowa is a charter member of Internet2, with a high-performance network link to the Department of Geographical and Sustainability Sciences. The University also is a member of the University Consortium on Geographic Information Science.

To aid studies of water resources and physical geography, the department has a laboratory for the analysis of vegetation, soil, and water quality. The laboratory has a variety of field equipment, including soil probes, portable meteorological stations, GPS, ground-based 3-D LiDAR, anemometers, spectrometers, light sensors, and data loggers.

Faculty and graduate students participate in multidisciplinary working groups through the University's Program in Applied Mathematical and Computational Sciences (p. 925), the Center for Global and Regional Environmental Research, the Center for Health Effects of Environmental Contamination, International Programs, the Institute for Rural and Environmental Health, the Iowa Quaternary Studies Group, and the Public Policy Center. Participation in multidisciplinary working groups also is available through interdisciplinary research grants with investigators from other UI academic units, for example, the College of Engineering, the Carver College of Medicine, and the College of Public Health.

Geographic researchers have access to other University of Iowa resources, as well, such as the University's Main Library, whose collections include more than 115,500...
maps; 3,600 atlases and reference works; and around 100,000 aerial photographs, primarily of Iowa.

Courses

Lower-Level Undergraduate

GEOG:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

GEOG:1010 Introduction to Human Geography 3 s.h.
Geographic examination of how people occupy and shape physical space; examination of global population distribution and migration, language and religion, urban and economic spaces; application of geographic principles to contemporary global issues including social and political conflicts, globalization, and economic development. GE: Social Sciences.

GEOG:1020 The Global Environment 3 s.h.
Climate change and interactions between atmosphere and geological, hydrological, and biological systems; response of these systems to climate change and how such responses affect atmospheric processes through feedbacks (e.g., flows of energy, cycles of carbon and water); how geographic differences in such interactions create ecological patterns around the world (e.g., rainforests, prairies). GE: Natural Sciences without Lab.

GEOG:1021 The Global Environment Lab 1 s.h.
Laboratory complement to GEOG:1020. Corequisites: GEOG:1020, if not taken as a prerequisite. GE: Natural Sciences Lab only.

GEOG:1030 Our Digital Earth 3 s.h.
New technologies that have revolutionized how people navigate in unfamiliar places, locate friends and colleagues, manage cities, and confront environmental problems during the past decade; fundamental concepts related to how geographic information is used to better understand and manage the world and our everyday lives.

GEOG:1046 People and the Environment: Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GWSS:1046.

GEOG:1050 Foundations of GIS 3 s.h.
Cartography, map analysis, and geographic information systems; map projections and scale; data collection, remote sensing, and GPS; data structures and organization; cartometry; symbolization and visualization.

GEOG:1060 Geography of Asia: From Japan to Pakistan 3 s.h.
Varied cultures and environments of Asia; exploration of physical and cultural landscapes of region; processes of development in context of globalization and regionalism; population growth; rise of megacities and urban agglomerations; ethnic, religious and political diversity and tensions; colonial legacies and emerging economies; food and water scarcity; climate change and biodiversity; natural hazards; migration and double burden of disease. GE: International and Global Issues.

GEOG:1065 Introduction to Spatial Analysis: Patterns and Processes 3 s.h.
How patterns of disease are described across a community; how clusters of crime in a community are identified; how we make inferences about processes that shape spatial patterns in society and environment; examples drawn from spatial sciences to introduce fundamental aspects of spatial analysis and develop powerful ways to think about spatial problems; emphasis on applications and interpretation, application of techniques using programs such as Matlab and SPSS; programming experience not required.

GEOG:1070 Contemporary Environmental Issues 3 s.h.
Political, economic, cultural, technologic, ecological, and geographic issues associated with natural resource and environmental problems, including population, global climate change, food production, tropical deforestation, waste management. GE: International and Global Issues; Social Sciences.

GEOG:1090 Globalization and Geographic Diversity 3 s.h.
Examination of contemporary global society; focus on world regions including physical environment, culture, economy, politics of each region, and relationships between regions; analysis of current conflicts within and between regions including social, religious, political, and economic issues. GE: International and Global Issues; Social Sciences.

GEOG:1115 Energy and Society: History and Science of Oil 3 s.h.
History, politics, and science of oil and oil industry. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, HIST:1115.

GEOG:2110 Population Geography: Societies in Flux 3 s.h.
Ten million people populated the earth 5,000 years ago, and today there are nearly 20 cities with populations over 10 million and global population over 7 billion—why and where this population growth occurred, consequences of this rapid growth; trends in population processes (e.g., migration, social networks, household structure); population processes crucial to understanding changes to global systems related to energy use, human health, and sustainability; GE: Social Sciences.
GEOG:2130 World Cities 3 s.h.
Exploration of important urban centers, past and present; focus on why cities exist, how they are organized; key social, economic, and cultural roles played in human societies; examination of different historical eras, including ancient, medieval, and modern; analysis of urban physical structures and spatial organization, how they reflect societies that created them; case study cities include Ancient Rome, medieval Vienna, baroque Versailles, mercantile Amsterdam and London, major contemporary industrial and financial centers.

GEOG:2310 Introduction to Climatology 3 s.h.
Introduction to fundamental science principles that govern climatic processes and patterns; emphasis on scientific thinking and practice through lecture, discussion, exercises; opportunities to explore real-world climatology applications and questions (What is climate change? How fast is the climate actually warming? What are the contributions from us and how much is natural variability? How is climate change going to affect our weather?). Recommendations: GEOG:1020 or similar earth systems science course. Same as EES:2310.

GEOG:2331 Human Dimensions of Climate 3 s.h.
How climate shapes human societies; focus on how climate and climate variability affects food production, water use, energy use, and human disease systems (e.g., influenza, malaria, air pollution, diarrheal disease); climate change impacts (e.g., sea level rise, droughts, wildfires, famine); societal impact, adaptation and vulnerability, mitigation strategies; policy.

GEOG:2374 Biogeography 3 s.h.
Patterns of plant and animal distribution and their interpretation; historical geography including glaciation and plate tectonics; ecological geography, including physical factors (e.g., climate and geology); applications to conservation in diverse regions. Prerequisites: GEOG:1020 or BIOL:1141 or BIOL:1261 or BIOL:1370 or BIOL:1412. Same as BIOL:2374.

GEOG:2404 African Development 3 s.h.
Problems of economic, political, spatial integration in Africa; patterns and processes of economic development and nation building. GE: International and Global Issues; Social Sciences.

GEOG:2410 Environment and Development 3 s.h.
Environmental impacts of industrial and rural development explored through Third World case studies (Latin America, Africa, South and East Asia); environmental degradation from perspectives of political economy and ecology; class, gender, and indigenous peoples’ issues; industry-agriculture linkages.

GEOG:2910 The Global Economy 3 s.h.
Examination of contemporary economic geography; types of national economies, uneven development, role of government in shaping economy, multinational corporations; foundation for understanding national economies and economic statistics; contemporary issues including economic globalization, commodification of nature, de-industrialization. GE: International and Global Issues; Social Sciences.

GEOG:2930 Water Resources 3 s.h.
Introduction to science and policy issues affecting water resources management in the United States; how intersection of people, climate, technology, and geography affects quality, availability, and demand for freshwater resources; basic hydrological processes; water needs of people and ecosystems; influence of regulations and management on water quality, availability, and hazards; historical and contemporary developments in management of water, including international conflicts.

GEOG:2950 Environmental Conservation 3 s.h.
Scientific foundations of biological conservation; strategies used to better connect conservation practice with needs of a growing human population. Prerequisites: (GEOG:1020 or ENVS:1080) and GEOG:1070.

GEOG:2990 Readings for Undergraduates arr.
Supervised readings in geography.

Upper-Level Undergraduate and Graduate

GEOG:3001 Special Topics arr.
Contemporary fields of inquiry, such as political economy, regional/African development, biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation.

GEOG:3010 Geographic Information Systems and Science 3 s.h.
Solid foundation and introduction to GIS and digital map making; what GIS is and how GIS can contribute to research, careers, and everyday life; fundamentals that underlie GIS, including methods for GIS data collection and georeferencing, spatial modeling, spatial data analysis, and visualization; GIS trends including mobile GIS and the Web.

GEOG:3020 Earth Surface Processes 3 s.h.
Basic geomorphic and environmental processes that shape the earth’s surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Prerequisites: EES:1050 or EES:1080 or ENVS:1080 or GEOG:1020. Same as ENVS:3020, EES:3020.

GEOG:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GHS:3070.
GEOG:3110 Geography of Health
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GHS:4111.

GEOG:3210 Health, Work, and the Environment
Current topics in occupational and environmental health; how the United States protects workers, protects people from environmental agents, and reduces environmental harm. Same as OEH:3210.

GEOG:3310 Landscape Ecology
Effects of spatial pattern on spatial processes in ecology; characteristics of matrix, patch, corridor; fragmentation, deforestation, habitat loss; spatial flows of energy, matter, genetic information; relationship to human impact, global climate change. Requirements: GEOG:2374 or ecology course numbered 1000-4999.

GEOG:3320 Wetlands: Function, Geography, and Management
Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2374 or EES:2310. Same as EES:3260.

GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems
Ecosystem services—valuable goods and services produced by ecosystems (e.g., flood control, food production, water purification)—from an interdisciplinary perspective centering on geographic techniques used to measure, map, and model ecosystem services; methods used to incorporate ecosystem services into decision and policy making; how human activities alter these services. Prerequisites: GEOG:1050 and (GEOG:1020 or GEOG:1070 or GEOG:2374 or GEOG:3310 or BIOL:1370 or BIOL:2673 or EES:1080 or ENVS:1080 or ENVS:2673).

GEOG:3350 Urban Ecology
Main theories and concepts of urban ecology; examination of urban ecosystems from an interdisciplinary perspective; how cities function as sociocultural systems in their own right and how urban areas function as parts of larger regional and global ecosystems; how urban form and dynamics influence ecological functioning; urban species and nature conservation; urban ecological planning and design. Requirements: GEOG:2374 or ENVS:2673 or introductory course in ecology, and junior standing.

GEOG:3360 Soil Genesis and Geomorphology
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as EES:3360.

GEOG:3400 Iowa Environmental Policy in Practice
How Iowa government addresses environmental policy development and implementation; policy process and current environmental issues; meetings with Iowa state legislators and relevant agency personnel in Des Moines, attendance at legislative sessions and hearings, and observation of how policies move into practice in agency offices; small group work to prepare a presentation on a policy or planning issue. Requirements: GEOG:3780 or ANTH:3102 or ANTH:3112 or POLI:3111 or mid-level or higher course in environmental policy and planning curriculum; and junior or higher standing.

GEOG:3500 Introduction to Environmental Remote Sensing
Basic concepts and principles of remote sensing; sources of data; georegistration; digital processing and classification of remotely sensed images for extraction of environmental information; linkage of remote sensing techniques with GIS analysis.

GEOG:3505 Foundations of GIS
Cartography, map analysis, and geographic information systems; map projections and scale; data collection, remote sensing, GPS; data structures and organization; cartometry; symbolization and visualization.

GEOG:3520 GIS for Environmental Studies
Methods of managing and processing geographic information for environmental analysis; basic concepts, structures, theories of geographic information system (GIS), basic analytical techniques, and hands-on experience in GIS operations. Prerequisites: GEOG:1050.

GEOG:3530 Mapping American Cities and Regions
Foundation concepts for GIS-based analysis of urban, social, and economic data for the United States; geo-referenced sources of U.S. national and state data; application to contemporary social issues. Prerequisites: GEOG:1050.

GEOG:3540 Introduction to Geographic Visualization
Basic concepts and techniques that underlie cartographic representation and the broader field of geographic visualization; digital cartographic practices; how scientific visualization, information visualization, and user interface design contribute to geographic visualization; map symbolization, scale and generalization, animation and dynamic map design, multimedia, virtual and mixed environments, interfaces for GIS; experience applying cartographic and visualization techniques. Prerequisites: GEOG:1050.
GEOG:3550 Integrating Time into GIS 3 s.h.
Fundamental concepts for integrating temporal elements into geographic information systems (GIS); conceptual and formal models of time, models of change, event-based modeling, modeling of moving entities; topics related to fundamentals of spatiotemporal databases and query languages. Prerequisites: GEOG:1050.

GEOG:3560 Spatial Analyses of Wind Energy 3 s.h.
Introduction to underlying processes, measurement methods, and spatial analyses related to wind energy; siting criteria, techniques for data collection and analysis, GIS-based approaches to renewable energy siting.

GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3 s.h.
Basic principles and applications of Light Detection and Ranging (LiDAR); LiDAR as an essential technology for mapping and analysis of a vast range of surfaces; application examples include floodplain mapping, forestry management, transportation planning, vegetation analysis, urban planning, and 3-D modeling; theoretical understanding and practical experience using different software. Recommendations: GEOG:3500 or EES:3100.

GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
Geographical perspectives in the study and interpretation of chemicals in the environment; environmental standards under existing laws; local, regional, national, international case studies in environment and health; socioeconomic and institutional considerations in designing environmental protection strategies. Prerequisites: STAT:1020.

GEOG:3760 Hazards and Society 3 s.h.
Introduction to social science perspectives on societal responses to natural and technological hazards; risk perception and communication, disaster management, social vulnerability, and risk assessment; case studies of recent major disasters (e.g., Haiti earthquake, Tohoku earthquake/tsunami/nuclear accident, Hurricane Katrina); current directions in hazards research, policy, and practice. Same as GHS:3760.

GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Prerequisites: (GEOG:1020 or EES:1080) and GEOG:1070. Same as GHS:3780.

GEOG:3910 Geographic Perspectives on Development 3 s.h.
Theoretical and empirical studies of the regional development process, with emphasis on developing countries; alternative regional development theories and changes in development theories in the literature of geography, related disciplines.

GEOG:3920 Planning Livable Cities 3 s.h.
Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as URP:3001.

GEOG:3940 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as URP:3350, ECON:3750.

GEOG:3992 Undergraduate Research arr.
Supervised research in geography.

GEOG:4010 Field Methods in Physical Geography 3 s.h.
Project design and sampling methods of climate, vegetation, soil, landforms, water; projects in areas including field meteorology, soil surveying, vegetation sampling, water quality sampling, use of global positioning systems; introduction to research design.

GEOG:4020 Field Methods: Mapping and Mobile Computing 3 s.h.
Development and application of mobile geographic information technologies; key issues associated with global positioning systems (GPS), wireless technologies, field-based data collection and analysis, ubiquitous computing, and location-based services; experience using GPS, advanced mobile computing technologies, mobile GIS software to construct geographic datasets, and data sampling techniques.

GEOG:4030 Senior Project Seminar 3 s.h.
Development of a research project and preparation of a research report. Offered spring semesters.

GEOG:4150 Health and Environment: GIS Applications 3 s.h.
Applications of GIS and spatial analysis for studying health outcomes and exposure to environmental contaminants at different geographical scales. Same as GHS:4150.

GEOG:4500 Applications in Environmental Remote Sensing 4 s.h.
Theory and practice of remote sensing and digital image processing; practical applications to human-environment interactions. Recommendations: GEOG:3500 or EES:3110 or ENVS:3110.

GEOG:4520 GIS for Environmental Studies: Applications 3 s.h.
Applications of geographic information system (GIS) techniques in environmental change analysis (especially land use/cover change), environmental assessment, hazard/risk analysis, environmental decision making. Prerequisites: GEOG:3520.

GEOG:4570 Spatial Analysis and Location Models 3 s.h.
Application of location models within GIS environments to support decision making; small area demographic forecasting, location-allocation models, regionalization problems, shortest path models, other spatial analysis methods used to support spatial decisions. Prerequisites: GEOG:1050.

GEOG:4580 Introduction to Geographic Databases 3 s.h.
Introduction to key aspects of database design for GIS applications; major database models that support spatial data; formal models for key spatial relationships that underlie many different GIS applications; basics of SQL for making queries on datasets; design and construction of ArcGIS geodatabases; ArcGIS tools for geoprocessing. Prerequisites: GEOG:1050.

GEOG:4650 Simulation in Environmental Geography 3 s.h.
How computer simulations are used in environmental studies, with focus on landscape ecology (spatial patterns of organisms and ecosystems); basics of performing simulations; principles and applications of simulation through readings and performing simulations; frontiers of simulation use in the field; hands-on experience writing computer simulations that capture environmental processes (e.g., changing climate, predator-prey relations, nutrient flux), and analyzing the outcomes. Requirements: advanced courses in environmental geography or environmental science and senior standing.

GEOG:4750 Environmental Impact Analysis 4 s.h.
Environmental impact assessment methodologies; emphasis on cost-benefit-risk, cost-effectiveness and incremental analysis; and overlay and graphic techniques; optimal resource use, system simulation; field trips to local environmental control facilities. Prerequisites: GEOG:1070. Same as URP:4750.

GEOG:4770 Environmental Justice 3 s.h.
Review of theoretical positions for examining environmental justice, application of those theories to environmental controversies around the globe.

GEOG:4870 Applied Geostatistics 3 s.h.
Applications of geostatistical methods to geology, geography, hydrology, environmental sciences, and engineering; variogram, Kriging, analysis of spatial-varied data with varied computer software in participants' specialties. Same as EES:4870.

GEOG:4930 Urban Geography 3 s.h.
Central ideas of modern urban geography, their links to social theory; focus on interrelation between social change, urban environment; evolution of urban systems, emergence of the capitalist city, urban social and residential differentiation, local politics of uneven development.

GEOG:4960 The Middle East 3 s.h.
Middle East cultures, political economy, conflict; significance of the Middle East in world affairs, vice versa.

GEOG:4990 Senior Thesis 3 s.h.
Original research. Requirements: senior standing.

GEOG:4995 Honors Thesis arr.
Original research. Requirements: honors standing.

Graduate

GEOG:5001 Readings arr.
Supervised readings by graduate students in topics of their choice.

GEOG:5010 Fundamentals of Geography 3 s.h.
Geography as an academic discipline; history, advances, epistemology, common themes.

GEOG:5050 Research and Writing in Geography 3 s.h.
Identification of research areas; research questions and hypotheses; responsible conduct of research; methodological decisions; research proposal and paper writing.

GEOG:5070 Special Topics arr.
Contemporary fields of inquiry, such as political economy, regional/African development, biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation.

GEOG:5129 Information Systems for Resource Management 3 s.h.
Understanding and managing natural and engineered resources requiring data-reach foundation; management of data; complex data-driven technologies integrated into data and information systems (DIS); hands-on opportunity to develop or use capabilities of DIS for study or research area of interest (science, engineering, industrial operation); wind power generation, an emerging field in Iowa, used as a case study for illustrating key DIS components, links, and functionalities. Same as IE:5129, ME:5129, CEE:5129, ECE:5129.

GEOG:5550 Modeling Space and Time 3 s.h.
How to generate time-space-resolved estimates of sociophysical environmental contexts with the aid of modern geo-spatial technologies; how to model social, behavioral, and health outcomes with reference to multilevel time-space-resolved sociophysical environmental contexts; environmental contexts from air pollution and pesticide concentration to neighborhood diversity; statistical modeling of varied social, behavioral, and health outcomes such as dropping out of college, smoking, excessive weight, asthma, mental and physical disability. Requirements: a course in statistics and good understanding of correlation and regression.

GEOG:5650 Simulations in Landscape Ecology 3 s.h.
Dynamics of land use and land cover change explored through advanced use of computer simulations in landscape ecology; how simulation is used in the field; simulations based on landscape ecology questions, with analysis of results using typical landscape ecology metrics. Prerequisites: GEOG:4650.

GEOG:6100 Seminar in Health and Environment 3 s.h.
Research on health and environment.

GEOG:6264 Planning Sustainable Transportation 2-4 s.h.
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as URP:6265.
GEOG:6300 Seminar in Environment, Conservation, and Land Use  3 s.h.
Research on land use, water resources, conservation.

GEOG:6500 Seminar in Spatial Analysis and Modeling  1-3 s.h.
Research themes in spatial analysis, GIScience, simulation, remote sensing.

GEOG:6632 Crossing Borders Proseminar  arr.

GEOG:6635 Crossing Borders Seminar  2-3 s.h.

GEOG:6900 Seminar in International Development  3 s.h.
Research on GIScience and development.

GEOG:7000 Geography Colloquium  arr.

GEOG:7150 Research in Health and Environment  1-3 s.h.
Directed research in health and environment.

GEOG:7350 Seminar: Environment, Conservation, and Land Use  1-3 s.h.
Directed research in land use, water resources, conservation.

GEOG:7550 Research in Spatial Analysis and Modeling  1-3 s.h.
Directed research in spatial analysis, GIScience, simulation.

GEOG:7750 Research in Environmental Policy  1-3 s.h.
Directed research in environmental justice and policy.

GEOG:7950 Research in International Development  1-3 s.h.
Directed research in international development.

GEOG:7999 Thesis  arr.
German

Director, Division of World Languages, Literatures, and Cultures
  • Russell Ganim
Chair, Department of German
  • Russell Ganim
General Education language coordinator
  • Bruce Nottingham-Spencer

Undergraduate major: German (B.A.)
Undergraduate minor: German
Faculty: http://clas.uiowa.edu/dwllc/german/people
Web site: http://clas.uiowa.edu/dwllc/german

The Department of German provides education in the language, literature, and culture traditionally designated as German, as expressed in the language and cultural heritage of Germany, Austria, and Switzerland. Its faculty members conduct research and teach on topics in German language, literature, and culture from disciplinary and interdisciplinary perspectives.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program with courses in German; see "Language for General Education" below. They may satisfy other General Education requirements with courses on German literature and culture that are taught in English; look for courses with the prefix GRMN in the area lists under "Culture, Society, and the Arts" in the General Education Program (p. 313) section of the Catalog. General Education courses on German literature and culture also are listed with departmental courses taught in English under "Courses" at the end of this Catalog section.

University graduates with degrees in German frequently enter the teaching profession. They also find positions in government, foreign service, and commercial enterprise.

The Department of German is one of the academic units in the Division of World Languages, Literatures, and Cultures (p. 228).

Undergraduate Programs of Study
  • Major in German (Bachelor of Arts)
  • Minor in German

Bachelor of Arts

The Bachelor of Arts with a major in German requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313). Students who plan to earn licensure to teach in elementary and/or secondary schools should see "B.A. with Teacher Licensure" below.

Students who begin a German major with no previous German language experience must complete the following courses or their equivalents.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GRMN:1001 Elementary German I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>GRMN:1002 Elementary German II</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>GRMN:2001 Intermediate German I</td>
<td>4 s.h.</td>
</tr>
<tr>
<td>GRMN:2002 Intermediate German II</td>
<td>4 s.h.</td>
</tr>
</tbody>
</table>

This requirement also may be satisfied by various combinations of GRMN:1020 Intensive Elementary German, GRMN:1010 First-Year German Review, and GRMN:2020 Intensive Intermediate German.

The 30 s.h. required for the major must include at least five German courses numbered 3000 or above taken at the University of Iowa. Note: GRMN:3501 Introduction to German Literature (or equivalent) is prerequisite for some other German literature courses.

The major in German requires the following course work.

Core courses—all of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GRMN:3103 Composition and Conversation I</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GRMN:3104 Composition and Conversation II</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GRMN:3501 Introduction to German Literature</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Linguistics—one of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GRMN:3807 Introduction to German Linguistics</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GRMN:3855 The Sounds of German</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GRMN:3865 History of the German Language</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Culture—one of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GRMN:3405 German Cultural History</td>
<td>3 s.h.</td>
</tr>
<tr>
<td>GRMN:4315 Contemporary German Civilization</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Capstone course:

<table>
<thead>
<tr>

Electives:

Four electives chosen from Department of German courses (prefix GRMN), with at least two numbered 3000-4999 | 12 s.h. |

Students may count a maximum of two Department of German courses taught in English and numbered 2500-2999 toward the major by registering for 4 s.h. of credit for each course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component. See "German in Translation" under "Courses"/"Lower-Level Undergraduate" toward the end of this Catalog section. Courses taught in English that are taken for 3 s.h. do not count toward the major in German.

With the approval of the departmental director of undergraduate studies, students also may apply one course from the University of Iowa Honors Program to the requirements of the German major or minor when that course concerns German culture or language. Honors courses are subject to the same limits on courses taught in English as are Department of German courses.

German majors, both undergraduate and graduate, are urged to supplement their degree programs with relevant courses in areas such as German history, philosophy, and business.
B.A. with Teacher Licensure

German majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students who plan to use their work toward a German minor as academic background for earning teacher licensure should contact the Office of Education Services about requirements.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

**Before the third semester begins:** language competency equal to first-year German

**Before the fifth semester begins:** language competency equal to second-year German

**Before the seventh semester begins:** four courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester:** two or three additional courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Exceptional students majoring in German have the opportunity to pursue honors study in the major and to graduate with honors in the major. To participate in the department's honors program, students must have completed three years of college-level German, or the equivalent, with a g.p.a. of at least 3.50 in upper-level German courses.

Students working toward graduation with honors in the German major must register for GRMN:4990 Honors Program in German and must meet regularly with their faculty director of studies. They are expected to engage in readings and discussions in German linguistics, literature, or culture and to write essays in German and English. They also must complete honors research and write an honors thesis, registering for GRMN:4991 Honors Research and Thesis. They complete their honors requirements by presenting their honors thesis to a faculty committee of at least three members.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Minor

The minor in German requires a minimum of 15 s.h. in college-level German courses, including at least 12 s.h. in courses taken at the University of Iowa. All Department of German courses numbered 3000 or above count toward the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor must include 9 s.h. in Department of German courses (prefix GRMN) numbered 3000 or above. It also may include a maximum of 3 s.h. in Department of German courses numbered 2002-2100.

Students may count one Department of German course taught in English and numbered 2500-2999 toward the minor by registering for 4 s.h. of credit for the course instead of 3 s.h.; the additional 1 s.h. of credit reflects an added research component. See "German in Translation" under "Courses"/"Lower-Level Undergraduate" toward the end of this Catalog section. Courses taught in English that are taken for 3 s.h. do not count toward the minor in German.

With the approval of the director of undergraduate studies, students may count up to 6 s.h. earned in study abroad at a university in a German-speaking country toward the minor.

Language for General Education

The department offers several sequences of German language courses that students in all majors may use to satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 313). Students who have had experience with German should take the online World Languages Placement Test, which helps determine the level at which a student should begin German language study at the University of Iowa. Students with no background in German should begin their study with GRMN:1001 Elementary German I.

The following sequences satisfy the World Languages Requirement of the General Education Program. Students using German to satisfy the World Languages requirement should talk with departmental advisors to determine which sequence is best for them.

Joint B.A./M.A.

The joint Bachelor of Arts/Master of Arts program in German permits students to count 12 s.h. of approved course work toward both degrees and to take graduate-level German courses while they are still undergraduates. Students may complete both degrees in five years. They receive the B.A. when they have satisfied all requirements for the bachelor's degree, and they receive the M.A. when they have completed all master's degree requirements.

The joint B.A./M.A. is appropriate for students who enter the University from high school with advanced German language preparation. It is attractive to highly motivated students who plan to study abroad and who plan to pursue a Ph.D. in German or second language acquisition. It may serve as preparation for other programs, such as those related to international studies, library science, business with an international focus, or international relations. Students seeking careers in teaching or other fields may pursue the joint degree as a credential.

Joint program students must fulfill all requirements for the B.A. They ordinarily spend two semesters in their junior year enrolled in the study abroad program at the University of Freiburg, in Germany (see "Study Abroad" below), unless they have satisfied this requirement another way (e.g., a year abroad during high school or another study abroad program with similar content).

During the last two semesters of their senior year, they may take up to 12 s.h. of graduate-level courses that count toward both degrees (for the B.A., 6 s.h. toward required courses and 6 s.h. toward electives). Once they complete all B.A. requirements, they complete the remaining M.A. requirements.

Students must maintain an undergraduate German g.p.a. of at least 3.50; if they fail to meet this standard for more than one semester, they may be required to leave the program. They must have an overall undergraduate g.p.a. of at least 3.00 when they achieve graduate standing.

Applicants must be admitted to the joint program before the beginning of their seventh semester (senior year). They must be University of Iowa undergraduate students; must have completed 80 s.h. or be in the process of completing 90 s.h. of undergraduate work; and must have completed or be in the process of completing at least 21 s.h. of courses in the German major numbered 3000 or above. They must have completed or be in the process of completing a study abroad program in a German-speaking country or have satisfied this requirement another way. They also must have a g.p.a. of at least 3.50 in German when they apply to the program or a letter from a Department of German faculty member recommending an exception.

Students pay undergraduate tuition and fees during their first semester in the joint program (normally their seventh semester): beginning with their second semester in the program (normally their eighth semester), they begin paying graduate tuition and fees. Students may hold a graduate appointment beginning with their second semester in the joint program.

Study Abroad

The Department of German participates in an academic year abroad program for undergraduates at the Albert Ludwig University of Freiburg, in Germany. The Freiburg program is offered by a consortium made up of the University of Iowa, Michigan State University, the University of Michigan, and the University of Wisconsin-Madison.

Students arrive during the first week of September and participate in a four-week intensive language program. Then they take a blend of special program classes and regular German university courses. Organized field trips are designed to give students a broader perspective on German culture. Vacation periods permit extensive travel throughout Europe, and students are encouraged to use weekends for shorter trips in the region.

To apply, students must have reached at least sophomore standing by the beginning of the program, must have completed at least the first four semesters of college German or the equivalent with a g.p.a. of at least 3.00 in German, and must be in good academic standing at a U.S. college or university.

Students earn resident credit in all courses successfully completed in the program. They may count up to 21 s.h. earned at Freiburg toward the major in German. Credit also counts toward the minor in German. Students in other majors should consult with their advisor or their department's undergraduate director.

Contact the Department of German or International Programs Study Abroad for more information.

Graduate Program of Study

- Master of Arts in German

Advanced undergraduate students majoring in German may begin working toward a master's degree in German while completing their bachelor's degree; see "Joint B.A./M.A." above.

Master of Arts

The Master of Arts program in German requires a minimum of 33 s.h. of graduate credit. It is offered with or without thesis.

M.A. students choose one of two concentrations: German literature or Germanic linguistics. The German literature concentration requires seven literature courses (21 s.h.) and four linguistics courses (12 s.h.). The Germanic linguistics concentration requires seven linguistics courses (21 s.h.) and four literature courses (12 s.h.).

M.A. students are expected to complete at least 24 s.h. in the Department of German. All M.A. course work taken outside the department requires the graduate advisor's approval.

Before taking the M.A. exam, students must demonstrate reading knowledge of a foreign language other than German, at a level equivalent to two years of college study or four years of high school study. Students may demonstrate competence by submitting proof that they have taken the required course work with a g.p.a. of at least 3.00 or by passing an exam at the fourth-semester college level, as determined by the appropriate language department.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.
Financial Support
Teaching assistantships, research assistantships, and partial tuition scholarships are available for qualified graduate students. The department awards the Wilson and the Funke prizes to students of distinction.

Facilities and Resources
Students have the opportunity to improve their comprehension and command of German by working with recorded materials in the Language Media Center. They also may benefit from the multimedia courseware and digital video recordings from German television.

An extensive collection of works and periodicals at University of Iowa Libraries facilitates research in all major areas of German literature and Germanic linguistics and at all levels of study.

The Global Mosaic and Spoken Here Living-Learning Communities are two on-campus housing options of special interest to undergraduate world languages students.

Courses

Lower-Level Undergraduate

**GRMN:1001 Elementary German I** 4 s.h.
Understanding and speaking "everyday German"; reading and writing skills; acquaintance with the German-speaking world through discussion, readings, videos. GE: World Languages First Level Proficiency.

**GRMN:1002 Elementary German II** 4 s.h.

**GRMN:1005 German Conversation and Culture I** 1 s.h.
Conversational practice and exposure to German culture; development of listening and speaking skills, expansion of vocabulary, and exposure to contemporary culture of German-speaking countries; conversation practice, games, and introduction to cultural topics through short texts, videos, and songs. Corequisites: GRMN:1001 or GRMN:1020.

**GRMN:1006 German Conversation and Culture II** 1 s.h.
Conversational practice and exposure to German culture; development of listening and speaking skills, expansion of vocabulary, and exposure to contemporary culture of German-speaking countries; conversation practice, games, and introduction to cultural topics through short texts, videos, and songs. Prerequisites: GRMN:1001. Corequisites: GRMN:1002 or GRMN:1010.

**GRMN:1010 First-Year German Review** 5 s.h.
Accelerated course in preparation for third-semester German. Requirements: at least two years of high-school German. GE: World Languages Second Level Proficiency.

**GRMN:1020 Intensive Elementary German** 4.6 s.h.
Elementary German I and II combined in one intensive course. GE: World Languages Second Level Proficiency.

**GRMN:1040 German for Travelers** 2 s.h.
Basic German skills for tourists; for students with no previous knowledge of German.

**GRMN:2001 Intermediate German I** 4 s.h.
Proficiency in spoken and written German; German-speaking cultures of central Europe, their historical background; emphasis on refinement of reading skills. Prerequisites: GRMN:1002 or GRMN:1010. GE: World Languages Second Level Proficiency.

**GRMN:2002 Intermediate German II** 4 s.h.

**GRMN:2005 German Conversation and Culture III** 1 s.h.
Conversational practice and exposure to German culture; development of listening and speaking skills, vocabulary expansion, and exposure to contemporary culture of German-speaking countries; conversation practice, games, and introduction to cultural topics in the form of short texts, videos, and songs. Prerequisites: GRMN:1002. Corequisites: GRMN:2001 or GRMN:2020.

**GRMN:2006 German Conversation and Culture IV** 1 s.h.
Conversational practice and exposure to German culture; development of listening and speaking skills, vocabulary expansion, and exposure to contemporary culture of German-speaking countries; conversation practice, games, and introduction to cultural topics through short texts, videos, and songs. Prerequisites: GRMN:2001. Corequisites: GRMN:2002 or GRMN:2020.

**GRMN:2020 Intensive Intermediate German** 4-6 s.h.
Intermediate German I and II combined in one intensive course. Prerequisites: GRMN:1002 or GRMN:1010 or GRMN:1020. GE: World Languages Fourth Level Proficiency.

German in Translation

**GRMN:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first or second semester standing.

**GRMN:2550 Mardi Gras and More: Cultures of Carnival** 3-4 s.h.
Literature and customs associated with carnival from antiquity through present day; readings on theories of carnivalesque (Mikhail Bakhtin, Peter Burke, and others); materials from three distinct carnival cultures—Renaissance Europe (Francois Rabelais, German carnival plays), 19th-century New Orleans, and present day Rio de Janeiro. GE: Values, Society, and Diversity. Same as WLLC:2550.
GRMN:2618 The Third Reich and Literature 3 s.h.
Nazi literature, literature of the Holocaust and the
Opposition, exile literature, in English translation. Taught
in English. GE: Values, Society, and Diversity. Same as
CL:2618.

GRMN:2620 Anne Frank and Her Story 3 s.h.
Analysis of the Diary of Anne Frank, its media adaptations,
and related materials (e.g., fictionalizations, additional
first-hand accounts); examination of Holocaust in the
Netherlands, Belgium, and other countries outside
Germany; anti-Semitism, discrimination, tolerance,
resistance, identity formation, human aspiration and
belief.

GRMN:2630 German Cinema: Greatest Hits 3-4 s.h.
Overview of German cinema; expressionist film of the
Weimar Republic; Nazi cinema; post-war cinema; East
German film; New German Cinema; post-unification and
contemporary cinema. Taught in English. GE: Literary,
Visual, and Performing Arts.

GRMN:2650 German Nationalism After WWII 3-4 s.h.
Introduction to contemporary nationalism and national
identity in context of modern Germany; examination of
various theories on nationalism. Taught in English. GE:
Values, Society, and Diversity.

GRMN:2655 Muslim Minorities in the West 3-4 s.h.
Introduction to lives of Muslim immigrants in the USA,
France, Germany, and England; examination of various
theories on multiculturalism. Taught in English. Same as
IS:2600.

GRMN:2660 Magic Mirrors, Self-Discovery, and Murder: Gender Trouble in German Literature 3-4 s.h.
German literature since Romantic era as an intensifying
battle of words over language in which gender has played
a central role; a stark rift open where literary space offers
much less hospitable conditions to women writers than to
men; exploration of gendered fault line that runs through
literary space; how women writers respond to and rewrite
language that confronts them; readings from German
literary texts (in English translation) from 1800 to present;
emphasis on writings of women supplemented with key
texts by major authors to which they respond and reread;
knowledge of German not required. Same as CL:2660.

GRMN:2666 Pact with the Devil 3-4 s.h.
Pact with the devil—a metaphor for humankind's desire
to surpass the limits of knowledge and power—in German
literature and culture from early modern time to early
20th century; Goethe's Faust, Klaus Mann's Mephisto,
Thomas Mann's Doctor Faustus, Weber opera; fascination
with the forbidden in regard to women, such as in
Meinhof's Amber Witch; the pact in other cultures and
in contemporary American literature and culture. Taught
in English. Requirements: RHET:1030 or completion of
General Education rhetoric requirement. GE: Literary,
Visual, and Performing Arts.

GRMN:2675 The Politics of Memory: Holocaust, Genocide, and 9/11 3-4 s.h.
How contested legacies of genocide, global violent
conflict, and 9/11 continue to pose an urgent and
generationally mediated challenge for critical politics
of memory; various approaches to effective or failed
coming-to-terms with injurious and difficult past (e.g.,
Holocaust, Armenian genocide); analysis of museums,
sites of memory, and art work. Taught in English.

GRMN:2720 Germany in the World 3-4 s.h.
The Federal Republic of Germany's increasing prominence
in post-Cold War international affairs, against backdrop of
20th-century history. Taught in English. GE: International
and Global Issues. Same as HIST:2420.

GRMN:2770 Norse Mythology: Gods, Heroes, and Monsters of Northern Europe 3-4 s.h.
Introduction to Norse mythology and related West
Germanic mythologies; readings from primary sources
in translation (Prose Edda, Poetic Edda, Icelandic sagas);
social, historical, and geographic context in northern
Europe; reception of Norse mythology in 19th and 20th
centuries; incorporation of figures and themes from Norse
mythology in works ranging from opera to fantasy fiction
and comic books. Taught in English.

GRMN:2775 Scandinavian Crime Fiction 3 s.h.
Contemporary Scandinavian crime novel in its literary,
historical, geographic, cultural, and social context. Taught
in English. GE: Literary, Visual, and Performing Arts.

GRMN:2780 King Arthur Through the Ages 3-4 s.h.
Representation and function of King Arthur in European
literature and film, from Geoffrey of Monmouth's History of
the Kings of Britain (ca. 1136) to present. Taught in
English. GE: Literary, Visual, and Performing Arts; Values,
Society, and Diversity.

GRMN:2785 The Fantastic and Supernatural in German Fiction and Film 3-4 s.h.
Themes of the fantastic and supernatural in German
literature; works by well-known authors from 18th century
to present (Goethe to Kafka, the Romantics, Magic Flute
to latest science fiction or fantasy) in historical context;
writers' struggle to define and maintain themselves
through tumultuous social and personal changes. GE:
Literary, Visual, and Performing Arts.

Upper-Level Undergraduate and Graduate

GRMN:3010 Stories in German 3 s.h.
Stories and other relatively short prose by representative
authors; discussion and response; varied topics. Taught in
German. Prerequisites: GRMN:3501.

GRMN:3103 Composition and Conversation I 3 s.h.
Active command of German in reading, speaking, writing.
Taught in German. Prerequisites: GRMN:2002.

GRMN:3104 Composition and Conversation II 3 s.h.
Taught in German. Prerequisites: GRMN:2002.

GRMN:3199 German Readings and Research 1 s.h.
Research and readings in German language, literature, and culture. Prerequisites: GRMN:2002. Requirements: (German major or minor) and concurrent registration in one German course numbered 2500-2999.

**GRMN:3214 Business German** 3 s.h.
World of German business, role of German-speaking countries in world trade; emphasis on German business protocol, correspondence. Taught in German. Prerequisites: GRMN:2002 or GRMN:2020.

**GRMN:3236 German Film** 3 s.h.
Overview 1925-1987; examples of avant-garde films of the Weimar Republic, propagandist filmmaking from the Third Reich, filmmaking traditions of the German Democratic Republic (GDR) and the Federal Republic of Germany (FRG). Prerequisites: GRMN:2002.

**GRMN:3250 Brief Texts About Big Events** 3 s.h.
Twentieth-century German literature in context of major historical events. Taught in German. Prerequisites: GRMN:2002.

**GRMN:3405 German Cultural History** 3 s.h.
Emphasis on mythical historical persons and places. Taught in German. Prerequisites: GRMN:3103 or GRMN:3104 or GRMN:3501.

**GRMN:3501 Introduction to German Literature** 3 s.h.
Literary works from various genres. Taught in German. Prerequisites: GRMN:2002.

**GRMN:3540 Grammar in Second Language Teaching/Learning** 3 s.h.
Grammar, second language acquisition, and teaching. Taught in English, projects in varied languages. Same as SLA:5973.

**GRMN:3550 The Politics of Remembrance in German Multicultural Literature and Film** 3 s.h.
Exploration of contemporary literary texts and films by multicultural German authors and filmmakers who deal critically with German collective memory and the politics of remembrance. Prerequisites: GRMN:2002 or GRMN:2020.

**GRMN:3555 Image of America in German Literature and Film** 3 s.h.
Examination of real and imagined cultural stereotypes; representations of the United States in German literature, film, and media. Prerequisites: GRMN:3103 or GRMN:3104 or GRMN:3501.

**GRMN:3807 Introduction to German Linguistics** 3 s.h.
Phonology, morphology, syntax, semantics, historical development. Taught in German. Offered spring semesters of even years. Prerequisites: GRMN:3103 or GRMN:3104 or GRMN:3501.

**GRMN:3845 The Structure of German** 3 s.h.
Structure analysis of German words and sentences; emphasis on vocabulary expansion and writing with increased grammatical accuracy and complexity; can be taken concurrently with other German courses numbered above GRMN:2002. Taught in German. Prerequisites: GRMN:2002.

**GRMN:3855 The Sounds of German** 3 s.h.
Analysis of sounds and sound system of German; practice in listening and speaking. Prerequisites: GRMN:2002.

**GRMN:3865 History of the German Language** 3 s.h.
History of the German language; its Indo-European roots, important characteristics of the language's major periods. Prerequisites: GRMN:3103 or GRMN:3104 or GRMN:3501.

**GRMN:4315 Contemporary German Civilization** 3 s.h.
Government and political structure, economy, mass media, education, social and cultural life of Germany, Austria, Switzerland from the end of World War II to present. Taught in German. Offered spring semesters of odd years. Prerequisites: GRMN:3103 or GRMN:3104 or GRMN:3501. GE: International and Global Issues.

**GRMN:4540 Literature in Film** 3 s.h.
Representative texts of German literature with film adaptations as specific readings. Taught in German. Requirements: GRMN:3501 or one upper-level literature/culture course taught in German.

**GRMN:4589 Tyrants and Terror** 3 s.h.
Introduction to literature and adaptations in film from 1750 to the present; artists' and writers' views of appalling events and historical figures; application of creative role playing to better understand structural and psychological components and describing and generating emotions; readings range from Schiller's classical dramatization of the Wilhelm Tell myth to recent Nobel-prize winner Herta Mueller writing about communist Romania. Prerequisites: GRMN:2002 and GRMN:3501. Requirements: two years of German language.

**GRMN:4643 Witch Trials: Fact and Fiction** 3 s.h.
Historical construction and fictional representation of women and men persecuted as witches and witchmasters in German-speaking countries. Prerequisites: GRMN:3501.

**GRMN:4730 Beautiful Souls and Scandalous Writing** 3 s.h.
Varied works of and about the 18th century; fairy tales, plays, short novels, poems, and other texts by authors such as Lichtenberg, Goethe, Naubert, Schiller, Schlegel, Sueskind; gender roles ascribed to women and men. Prerequisites: GRMN:2002.

**GRMN:4850 Senior Seminar** arr.
Capstone course for majors in their last year; online graduation portfolio. Prerequisites: GRMN:3103 and GRMN:3104. Requirements: German major and undergraduate standing.

**GRMN:4900 Individual German** arr.
Requirements: German major or minor.
GRMN:4990 Honors Program in German 3 s.h.
Individual work in literature, linguistics, and culture. Requirements: three years of college-level German and g.p.a. of at least 3.50 in German.

GRMN:4991 Honors Research and Thesis 3 s.h.
Prerequisites: GRMN:4990. Requirements: honors standing.

German in Translation
GRMN:4512 Topics in Global and Transnational Culture 3-4 s.h.
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Recommendations: completion of an international and global issues GE course. Same as WLLC:4512, ARAB:4512.

Graduate
Graduate Nonmajors
Graduate students not pursuing a degree in German also may take GRMN:1020 Intensive Elementary German and GRMN:2020 Intensive Intermediate German; see "Lower-Level Undergraduate" above.

GRMN:5000 German Reading for Graduate Students 3 s.h.
Grammar review, vocabulary building, extensive reading of sophisticated texts. Offered spring semesters. Prerequisites: GRMN:1002 or GRMN:1010 or GRMN:1020. Requirements: non-German graduate standing.

Graduate Students in German
GRMN:5001 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Same as WLLC:5000, SLA:5000, FREN:5000, SPAN:5000.

GRMN:6632 Crossing Borders Proseminar arr.

GRMN:6635 Crossing Borders Seminar 2-3 s.h.

GRMN:6920 Multimedia and Second Language Acquisition 3 s.h.
Foreign language multimedia in context of current second language acquisition theories and research; readings on interactivity, interface design, feedback, learner control; acquisition of vocabulary, grammar, and culture. Requirements: foreign language teaching methodology course. Same as SLA:6920, FREN:6920, SPAN:6920.

GRMN:7000 Advanced Studies arr.
Special problems in German literature and linguistics. Requirements: German graduate standing.

GRMN:7300 Master's Thesis arr.
GRMN:7400 Ph.D. Dissertation arr.
Global Health Studies

Director, Division of Interdisciplinary Programs
- Helena R. Dettmer

Director, Global Health Studies
- Christopher A. Squier

Undergraduate minor: global health studies
Undergraduate certificate: global health studies
Graduate certificate: global health studies
Faculty: http://clas.uiowa.edu/global-health-studies/faculty
Web site: http://clas.uiowa.edu/global-health-studies

Education, research, and practice in global health places a priority on improving health and achieving equity for all people worldwide. Issues in the field include social determinants of health, health care disparities, infectious and noncommunicable diseases, environmental challenges, and human rights as well as economic development, health policy, and health systems.

The University of Iowa’s Global Health Studies Program examines the complex processes influencing health and disease around the world. It considers not only the manifestations of significant diseases and public health and health care systems, but also the underlying forces and institutions—such as technology, politics, culture, legal structure, history, and economics—that collectively influence patterns of health and disease.

The Global Health Studies Program equips its students to:

- identify the nature, magnitude, and distribution of factors that contribute to excess morbidity and mortality, including disparities in health status by gender, race, ethnicity, rural or urban location, and economic status;
- understand how commerce, labor, food supply and sustainability, the environment, climate change and natural disasters, pharmaceuticals, international aid, human rights, and conflict may contribute to health status; and
- be aware of and able to assess the appropriateness of intervention strategies to promote health and to address major health problems, particularly in low-resource settings, and be able to evaluate the effectiveness and sustainability of such interventions.

The Global Health Studies Program attracts undergraduate, graduate, and professional students from a wide range of disciplines, including international studies, anthropology, public health, health and pre-health sciences, health economics, nursing, environmental engineering, history, law, business, journalism, social work, and education.

The Global Health Studies Program is one of the academic units in the Division of Interdisciplinary Programs (p. 226).

Undergraduate and Graduate Programs of Study

- Certificate in Global Health Studies (undergraduate and graduate)
- Minor in global health studies (undergraduate)

The College of Liberal Arts and Sciences grants the undergraduate certificate and minor; the Graduate College confers the graduate certificate.

Certificate

The Certificate in Global Health Studies requires 18 s.h. of credit. Students must maintain a g.p.a. of at least 3.00 in work for the certificate.

The undergraduate certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree, but are not enrolled in a graduate or professional degree program. Undergraduates may earn the certificate or the minor in global health studies, but not both. Students in the College of Pharmacy who have earned the Pharm.D. degree may earn an undergraduate global health studies certificate.

The graduate certificate is open to University of Iowa graduate and professional students except for those in the College of Pharmacy who have earned the Pharm.D. degree; they are awarded the undergraduate certificate. Admission to the certificate program is competitive. Applicants must be in good academic standing and must be able to demonstrate interest in and understanding of the field of global health. For application forms and deadline information, contact the Global Health Studies Program advisor.

Work for the certificate includes core courses, electives, an international experience that culminates in a public presentation and written report, and study of a world language. Students must earn at least 15 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. They may choose courses offered by the Global Health Studies Program (see "Courses" below) and those offered by other departments and programs (see "Associated Courses" below).

Students may be granted credit toward the certificate for course work they completed up to two years before beginning the program. Graduate and professional students who would like to count credit from a degree program toward the global health studies certificate should consult their major academic programs.

The Certificate in Global Health Studies requires the following work.

Core Courses

All of these:

GHS:3010 Identifying and Developing a Global Health Project (may be repeated for elective credit) 3 s.h.
GHS:3020 Proseminar in Global Health 1 s.h.
GHS:3030 Global Health Conference (may be repeated for elective credit) 1 s.h.
GHS:3720 Global Health Seminar 3 s.h.
GHS:4210/EPID:4210/OEH:4210 International Health 3 s.h.

ELECTIVES
Students complete 7 s.h. of approved electives chosen from the lists under "Associated Courses" and "Courses" below. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Students may apply up to 3 s.h. of academic credit earned for research, internship, or study abroad experiences to the elective requirement. Contact the Global Health Studies Program for details.

INTERNATIONAL EXPERIENCE
Students must complete an international experience in which they systematically address an important global health issue. The experience typically takes place in an international setting and lasts eight weeks. The international experience may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program steering committee and must be supervised by a faculty member. Students may apply for an international travel scholarship ($1,000); other financial support may be available for some projects. Visit International Experience on the program's web site for more information.

Language Study
Students should complete four semesters of modern language study or course work that fulfills or is equivalent to the College of Liberal Arts and Sciences General Education Program (p. 313) World Languages requirement.

The Global Health Studies Program steering committee may require students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in an international experience should investigate the Autonomous Language Learning Network (ALLNET).

Public Presentation and Report
Certificate requirements culminate in a public presentation and report. Each student presents the results of his or her international experience in GHS:3010 Identifying and Developing a Global Health Project or in an equivalent public forum. Students also must submit a 10-12 page report that summarizes their international experience.

Minor
The minor in global health studies requires a minimum of 15 s.h., including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may earn either the certificate or the minor in global health studies, but not both.

The minor is interdisciplinary, designed for undergraduates who wish to study health issues in a global context. Each student’s plan of study for the minor is developed according to the student’s interests and in consultation with a program advisor. Students may choose courses from those offered by the Global Health Studies Program (see "Courses" below) or by other departments and programs (see "Associated Courses" below); they should choose course work from at least two different disciplines. Students are strongly encouraged to include one of the core courses required for the Certificate in Global Health Studies in their plan of study for the minor. The program highly recommends that students complete a period of study abroad focused on global health issues.

Activities and Resources
University of Iowa global health studies faculty members conduct research at a variety of sites worldwide, including South India, Haiti, South Africa, and Romania. Students in the program are eligible to participate in experiential learning activities at those locations, as well as at other sites. A variety of funding resources are available, including the Stanley Award for undergraduate and graduate research. Contact the Global Health Studies Program for details.

Associated Courses
In addition to courses offered by the Global Health Studies Program (see “Courses” below), students may use the following courses to complete requirements for the certificate or minor.

AGING STUDIES
ASP:1800 Basic Aspects of Aging 3 s.h.

COMMUNITY AND BEHAVIORAL HEALTH
CBH:5205 Social Determinants of Health 3 s.h.
CBH:5220 Health Behavior and Health Education 3 s.h.

ECONOMICS
ECON:3760 Health Economics 3 s.h.

EDUCATION
EPLS:5195 Research in Cross-Cultural Settings 3 s.h.

OCCUPATIONAL AND ENVIRONMENTAL HEALTH
OEH:4240 Global Environmental Health 3 s.h.

PUBLIC HEALTH
MPH:4101 Introduction to Public Health 3 s.h.

Courses
Lower-Level Undergraduate
GHS:1029 First-Year Seminar 1 s.h.
Introduction to intellectual life of the University; opportunity to work closely with a faculty member or senior administrator; active participation to ease transition to college-level learning.

GHS:1100 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as WLLC:1100, CLSA:1100.
GHS:1181 Ancient Medicine  3 s.h.
Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as CLSA:1181.

GHS:2000 Introduction to Global Health Studies  3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions. Same as ANTH:2103.

GHS:2080 The Cultural Politics of HIV-AIDS  3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of Rhetoric or at least one social sciences course. Same as GWSS:2080.

GHS:2150 Natural Environmental Systems  3-4 s.h.
Environmental chemistry and biology of air, water, and soil quality, air and water pollution, limnology, global atmospheric change, fate and transport of pollutants; hazardous substances, risk analysis, standard setting. Prerequisites: CHEM:1110. Same as CEE:2150.

GHS:2164 Culture and Healing for Future Health Professionals  3 s.h.
Health professions increasingly focused on how to best provide health care to culturally diverse populations; introduction to key cultural and social influences on sickness and healing; worldwide examples. Same as ANTH:2164.

GHS:2181 The Anthropology of Aging  3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, ASP:2181.

GHS:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution  3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as ANTH:2320.

Upper-Level Undergraduate and Graduate

GHS:3010 Identifying and Developing a Global Health Project  2-3 s.h.
Preparation for an international experience (study abroad, service learning, volunteering, internship, or independent research project); addressing a global health issue in a systematic way.

GHS:3015 Transnational Sexualities  3 s.h.
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GWSS:3010.

GHS:3020 Proseminar in Global Health  1 s.h.
Important health problems and issues of a global and interrelated nature that affect the developed and developing world.

GHS:3030 Global Health Conference  1 s.h.
Annual research conference on major global health issues.

GHS:3035 Engaging in Global Health  1 s.h.
How to become a participant in promoting health throughout the world; student peers and global health professionals share their experiences in global health; how professionals and volunteers work in a broad variety of settings; working with government-based programs, international organizations (e.g., UNICEF, World Vision), health care agencies, faith-based organizations, industry, and academic institutions; various ways to become engaged and be involved in global health.

GHS:3040 Health in Mexico  3 s.h.
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as ANTH:3111.

GHS:3050 Global Aging  3 s.h.
Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as SSW:3135, ASP:3135.

GHS:3060 Studies in Complementary and Alternative Medicine  3 s.h.
Topics vary; may include studies in mind-body medicine; complementary and alternative medicine (CAM); group of medical and health care systems, practices, and products that are not considered to be part of conventional medicine; treatments used instead of standard ones (alternative treatments); nonstandard treatments used together with standard ones (complementary medicine); examples of CAM therapies (acupuncture, chiropractic, herbal medicines); approaches widely used in other parts of the world that may represent an important component of health care in a country (e.g., ayurvedic medicine in India).

**GHS:3070 Hungry Planet: Global Geographies of Food** 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GEOG:3070.

**GHS:3102 Medical Anthropology** 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3102, CBH:3102.

**GHS:3110 Health of Indigenous Peoples** 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as ANTH:3110, AINS:3110.

**GHS:3113 Religion and Healing** 3 s.h.

**GHS:3131 Health Care and Health Reforms in Russia** 3 s.h.
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Same as SLAV:3131.

**GHS:3141 Design With the Developing World** 3 s.h.
Experience working on interdisciplinary teams to solve problems of the developing world; technologies for improving water and sanitation, energy, housing, and health; community building strategies, participatory methods, other techniques essential to good design; service-learning component. Recommendations: junior or higher standing. Same as CEE:3141.

**GHS:3150 Media and Health** 3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as JMC:3150, CBH:3150.

**GHS:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, ASP:3151.

**GHS:3152 Anthropology of Caregiving and Health** 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, ASP:3152.

**GHS:3191 Sustainable Development: India and the Global Context** 3 s.h.
Introduction to development in India; critical examination of current discourses on domestic sociological, economic, and ecological environmental effects of the current model of development; taught in Mysore, India.

**GHS:3192 Environment and Health in Modern India** 3 s.h.
Introduction to India's environmental and health traditions; major contemporary scenarios; taught in Mysore, India.

**GHS:3326 Infectious Disease and Human Evolution** 3 s.h.
Infectious disease as a central and important role in evolution of modern humans; impact of important infectious diseases on human history through primary literature. Recommendations: evolutionary theory background or interest. Same as ANTH:3326.

**GHS:3327 The Politics of Progress: NGOs, Development, and Sexuality** 3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GWSS:3326.

**GHS:3555 Understanding Health and Disease in Africa** 3 s.h.
Applications of GIS and spatial analysis for studying health outcomes and exposure to environmental contaminants at different geographical scales. Same as GEOG:4150.

GHS:4160 History of Public Health 3 s.h.
State-endorsed measures to avert or control disease in society. Same as HIST:4160.

GHS:4162 History of Global Health 3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as HIST:4162.

GHS:4210 International Health 3 s.h.
Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as EPID:4210, OEH:4210.

GHS:4220 U.S. and Global Environmental Health Policy 3 s.h.
Major concerns in environment and human health, legislation enacted to deal with these concerns; emphasis on contemporary issues. Offered fall semesters of odd years. Requirements: for OEH:4220 — OEH:4240; for CEE:4220 — CEE:2150. Same as CEE:4220, OEH:4220.

GHS:4230 Health Experience of Immigrants, Migrants, and Refugees 3 s.h.

GHS:4275 Research Methods in Disaster Studies 3 s.h.
Epidemiologic study of disasters and their health consequences; research to identify and reduce health effects, research in context of response and preparedness. Same as EPID:4520, OEH:4520.

GHS:4340 Global Health and Global Food 3 s.h.
Practices, patterns, and policies that contribute to the epidemics of obesity, diabetes, and heart disease in wealthy populations; environmental degradation, hunger, and malnutrition among impoverished populations; strategies to meet food and agricultural needs for the world; local/global aspects or perspectives on food/health concerns for Iowa and the international community. Same as HPH:4340.

GHS:4508 Medicine and Public Health in Latin America, 1820-2000 3 s.h.
Survey of major topics in modern Latin American history in relation to development of medicine and public health. Same as HIST:4508.

GHS:4600 Global Health and Human Rights 2-3 s.h.
Requirements: sophomore or higher standing.

GHS:4605 Disease, Politics, and Health in South Asia 2-4 s.h.
South Asia's long-term success lengthening lives and stopping disease, weighed against its continuing burden of infection, violence, pollution, and class-based suffering. Same as HIST:4605.

GHS:4990 Special Projects in Global Health arr.
GHS:4991 Honors Thesis in Global Health Studies 3 s.h.
Completion of honors thesis in consultation with a faculty mentor.

Graduate

GHS:5000 Graduate Seminar in Global Health 2 s.h.
In-depth discussion and analysis of rotating topics pertinent to global health studies.

GHS:5455 Health Insurance and Managed Care 3 s.h.
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: HMP:5005. Corequisites: PHAR:6330 or HMP:5410. Same as HMP:5450.

GHS:6550 Epidemiology of Infectious Diseases 3 s.h.
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: EPID:4400. Same as EPID:6550.
Health and Human Physiology

Chair
• Kelly J. Cole

Undergraduate majors: health and human physiology (B.A.); human physiology (B.S.); athletic training (B.S.); sport and recreation management (B.S.); therapeutic recreation (B.S.)

Undergraduate minors: human physiology; physical activity and nutrition science; sport and recreation management

Graduate degrees: M.A. in leisure studies; M.S. in health and human physiology; Ph.D. in health and human physiology

Faculty: http://clas.uiowa.edu/hhp/people/faculty

Web site: http://clas.uiowa.edu/hhp/

The Department of Health and Human Physiology offers undergraduate majors and minors and graduate degree programs in health and human physiology and related areas. The department also administers the Certificate in Disability Studies (p. 224). In addition, the Department of Health and Human Physiology is home to the Health and Physical Activity Skills Program, which offers courses that provide instruction and practice in lifetime sports, fitness training, and wellness activities aimed at enhancing physical health and well-being. Undergraduates in all majors may use several health and human physiology courses to fulfill requirements of the College of Liberal Arts and Sciences General Education Program (p. 313). The department’s First-Year Seminar is designed for entering undergraduate students.

Undergraduate Programs of Study

• Major in health and human physiology (Bachelor of Arts)
• Major in human physiology (Bachelor of Science)
• Major in athletic training (Bachelor of Science)
• Major in sport and recreation management (Bachelor of Science)
• Major in therapeutic recreation (Bachelor of Science)
• Minor in human physiology
• Minor in physical activity and nutrition science
• Minor in sport and recreation management

Students may complete a major in health and human physiology (B.A.) or a major in human physiology (B.S.), but not both.

Students majoring in health and human physiology (B.A.) or human physiology (B.S.) or athletic training (B.S.) may not earn the minor in human physiology or the minor in physical activity and nutrition science.

Students majoring in sport and recreation management (B.S.) may not earn the minor in sport and recreation management.

Bachelor of Arts: Health and Human Physiology

The Bachelor of Arts with a major in health and human physiology requires a minimum of 120 s.h., including work for the major, which varies by track. The health promotion track requires a total of 49-51 s.h. of work for the major; the health studies track requires 40-42 s.h. of work for the major; and the exercise science track requires 51-53 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The health promotion track is intended for students seeking careers that promote wellness in the community and the workplace. The health studies track is designed for students who want a more flexible health science curriculum. The exercise science track is intended for students seeking careers as professionals in fitness and in strength and conditioning.

Students majoring in health and human physiology (B.A.) may not earn a second degree in human physiology (B.S.).

Students in all tracks are required to complete a set of common requirements as well as additional courses required specifically for their track.

The major in health and human physiology requires the following course work.

Common Requirements

Each track requires the following science and math foundation (minimum of 10 s.h.) and the departmental core (15 s.h.).

SCIENCE AND MATH FOUNDATION

All students complete three foundation courses (minimum of 10 s.h.): one each in chemistry, biology, and mathematics or statistics.

Chemistry—one of these:
CHEM:1080 General Chemistry II 3 s.h.
CHEM:1120 Principles of Chemistry II 4 s.h.

Biology—one of these:
BIOL:1140 Human Biology 4 s.h.
BIOL:1141 Introductory Animal Biology 4 s.h.
BIOL:1411 Foundations of Biology 4 s.h.

Mathematics or statistics—one of these:
MATH:1020 Elementary Functions 4 s.h.
MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.
MATH:1440 Mathematics for the Biological Sciences 4 s.h.
MATH:1460 Calculus for the Biological Sciences 4 s.h.
MATH:1850 Calculus I 4 s.h.
PSQF:4143/STAT:4143 Introduction to Statistical Methods 3 s.h.
STAT:1020 Elementary Statistics and Inference 3 s.h.
DEPARTMENTAL CORE

All students must complete the five-course departmental core (15 s.h.).

All of these:

- HHP:1100 Human Anatomy 3 s.h.
- HHP:1300 Fundamentals of Human Physiology 3 s.h.
- HHP:2200 Physical Activity and Health 3 s.h.
- HHP:2310 Nutrition and Health 3 s.h.
- HHP:3400 Applied Exercise Physiology 3 s.h.

Health Promotion Track Requirements

Health promotion track students also complete the following health promotion core courses (15 s.h.) and guided electives (9 s.h.) in addition to the courses listed under "Common Requirements" above (math and science foundation and departmental core).

HEALTH PROMOTION: CORE

All of these:

- HHP:3200 Health Behavior and Health Promotion 3 s.h.
- HHP:3430 Community and Worksite Health Promotion 3 s.h.
- HHP:4200 Metabolic Exercise Testing and Prescription 3 s.h.
- HHP:4320 Nutrition Interventions 3 s.h.
- HHP:4420 Planning and Evaluating Health Interventions 3 s.h.

HEALTH PROMOTION: GUIDED ELECTIVES

Students must complete at least 9 s.h. selected from the courses below, including at least 6 s.h. in courses numbered 3000 or above.

- HHP:2130 Human Development Through the Life Span 3 s.h.
- HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment 3 s.h.
- HHP:3100 Health Literacy 3 s.h.
- HHP:3420 College Health Education 3 s.h.
- HHP:3440 Physical Activity and Healthy Communities 3 s.h.
- HHP:3655 Emotional and Psychological Aspects of Health 3 s.h.
- HHP:4195 Exercise Programming for Special Populations 3 s.h.
- HHP:4220 Biomechanics of Human Motion 3 s.h.
- HHP:4230 Motor Learning: Theory and Application 3 s.h.
- HHP:4390 Understanding Human Disease 3 s.h.
- HHP:4440 Physiology of Nutrition 3 s.h.
- HHP:4500 Undergraduate Independent Study arr.
- ASP:1800 Basic Aspects of Aging 3 s.h.
- JMC:3150 Media and Health 3 s.h.
- RCE:4175 Motivational Interviewing 3 s.h.
- RCE:4185 Introduction to Substance Abuse 3 s.h.

Exercise Science Track Requirements

Exercise science track students complete the following exercise science core courses (18 s.h.) and guided electives (8 s.h.) in addition to the courses listed under "Common Requirements" above (math and science foundation and the departmental core).

EXERCISE SCIENCE: CORE

All of these:

- HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
- HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
- HHP:4200 Metabolic Exercise Testing and Prescription 3 s.h.
- HHP:4210 Musculoskeletal Exercise Testing and Prescription 3 s.h.
- HHP:4310 Sport and Exercise Nutrition 3 s.h.
- HHP:4390 Understanding Human Disease 3 s.h.

EXERCISE SCIENCE: GUIDED ELECTIVES

Students must complete at least 8 s.h. from the courses below, including at least 6 s.h. in courses numbered 3000 or above.

- HHP:3850 Promoting Health Globally 3 s.h.
- HHP:4195 Exercise Programming for Special Populations 3 s.h.
- HHP:4210 Musculoskeletal Exercise Testing and Prescription 3 s.h.
- HHP:4390 Understanding Human Disease 3 s.h.
- HHP:4440 Health Promotion Clinical Practicum (may be taken twice) 1 s.h.
- HHP:4405 Health Promotion Community and Worksite Practicum (may be taken twice) 1 s.h.
- HHP:4440 Physiology of Nutrition 3 s.h.
- HHP:4500 Undergraduate Independent Study arr.
- HHP:4940 Health Promotion Honors Readings 1-2 s.h.
- HHP:4950 Health Promotion Honors Problems 3-4 s.h.
- ACCT:2100 Introduction to Financial Accounting 3 s.h.
ATEP:2030 Basic Athletic Training  3 s.h.
HHP:1110 Human Anatomy Laboratory  1 s.h.
HHP:1310 Human Physiology Laboratory  1 s.h.
HHP:2210 Principles of Exercise Leadership  3 s.h.
HHP:3030 Coaching for Health and Wellness  3 s.h.
HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment  3 s.h.
HHP:3148 Introduction to Personal Training  3 s.h.
HHP:3300 Human Growth and Motor Development  3 s.h.
HHP:3650 Advanced Sport and Exercise Psychology  3 s.h.
HHP:3860 Leadership Theory for Health and Fitness  3 s.h.
HHP:4150 Clinical Exercise Physiology  3 s.h.
HHP:4190 Scientific Basis of Training for Elite Performance  3 s.h.
HHP:4195 Exercise Programming for Special Populations  3 s.h.
HHP:4230 Motor Learning: Theory and Application  3 s.h.
HHP:4350 Practicum in Personal Training  2 s.h.
HHP:4360 Practicum in Group Fitness Instruction  2 s.h.
HHP:4370 Practicum in Strength and Conditioning  2 s.h.
SRM:3151 Liability in Sport and Recreation  3 s.h.
SPST:2081 Theory and Ethics of Coaching  3 s.h.

The department recommends that exercise science students also complete the following two courses.

ATEP:1000 First Aid and CPR  2 s.h.
PSY:1001 Elementary Psychology  3 s.h.

Bachelor of Science: Human Physiology

The Bachelor of Science with a major in human physiology requires a minimum of 120 s.h., including 57 s.h. of work for the major (26 s.h. in health and human physiology and 31 s.h. in required cognate courses). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in human physiology is designed primarily for individuals who intend to continue their education beyond the B.S. in the health professions, including medicine, dentistry, optometry, physician assistant, physical therapy, and podiatry, and for those who intend to pursue graduate degrees in basic life sciences.

Students majoring in human physiology (B.S.) may not earn a second degree in health and human physiology (B.A.).

In addition to course work required for the major, students are encouraged to include specific electives to complete the credit required for graduation; see “Recommended Electives” below. The department recommends that students fulfill the General Education Program’s Natural Sciences requirement by taking CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology. It also recommends that they fulfill the Social Sciences requirement with PSY:1001 Elementary Psychology.

The major in human physiology requires the following course work.

HUMAN PHYSIOLOGY

All of these:

HHP:1100 Human Anatomy  3 s.h.
HHP:1110 Human Anatomy Laboratory  1 s.h.
HHP:1310 Human Physiology Laboratory  1 s.h.
HHP:3500 Human Physiology  3 s.h.

At least 18 s.h. from these:

HHP:3110 Advanced Anatomy Laboratory  3 s.h.
HHP:3300 Human Growth and Motor Development  3 s.h.
HHP:3450 Immunology in Health and Disease  3 s.h.
HHP:3510 Advanced Human Physiology Laboratory  3 s.h.
HHP:3900 Writing for Health and Human Physiology  3 s.h.
HHP:4130 Skeletal Muscle Physiology  3 s.h.
HHP:4150 Clinical Exercise Physiology  3 s.h.
HHP:4200 Metabolic Exercise Testing and Prescription  3 s.h.
HHP:4210 Musculoskeletal Exercise Testing and Prescription  3 s.h.
HHP:4220 Biomechanics of Human Motion  3 s.h.
HHP:4230 Motor Learning: Theory and Application  3 s.h.
HHP:4250 Human Pathophysiology  3 s.h.
HHP:4300 Neural Control of Posture and Movement  3 s.h.
HHP:4410 Exercise Physiology  3 s.h.
HHP:4440 Physiology of Nutrition  3 s.h.
HHP:4450 Genetic Basis of Disease  3 s.h.
HHP:4460 Cardiovascular Physiology  3 s.h.
HHP:4470 Physiology of Aging  3 s.h.
HHP:4480 Introduction to Human Pharmacology  3 s.h.
HHP:4500 Undergraduate Independent Study  arr.
HHP:4510 Energy Metabolism in Health and Disease  3 s.h.
HHP:4900 Honors Research II  3 s.h.
BIOC:3110 Biochemistry  3 s.h.
BIOL:2254 Endocrinology  3 s.h.
BIOL:2512 Fundamental Genetics  4 s.h.
BIOL:2603 Mechanisms of Aging  3 s.h.
BIOL:2723 Cell Biology  3 s.h.
BIOL:2753 Introduction to Neurobiology  3 s.h.
BIOL:3233 Introduction to Developmental Biology  3 s.h.
MICR:2157 General Microbiology  5 s.h.

COGNATE AREAS

Students must earn a minimum of 31 s.h. in cognate areas—subjects outside of human physiology—by completing courses from the following lists.
**Biology**
This sequence:

- BIOL:1411-BIOL:1412 Foundations of Biology - Diversity of Form and Function

**Chemistry**
Students must complete CHEM:1110 before they may register for CHEM:1120.
Both of these:

- CHEM:1110 Principles of Chemistry I 4 s.h.
- CHEM:1120 Principles of Chemistry II 4 s.h.

These additional chemistry courses are highly recommended.

- CHEM:2210 Organic Chemistry I 3 s.h.
- CHEM:2220 Organic Chemistry II 3 s.h.
- CHEM:2410 Organic Chemistry Laboratory 3 s.h.

**Mathematics**
One of these:

- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
- MATH:1850 Calculus I (or a mathematics course numbered above 1850) 4 s.h.

**Physics**
This sequence:

- PHYS:1511-PHYS:1512 College Physics I-II 8 s.h.

**Statistics**
At least 3 s.h. from these:

- BIOS:4120 Introduction to Biostatistics 3 s.h.
- STAT:2010 Statistical Methods and Computing 3 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4143/PSQF:4143 Introduction to Statistical Methods 3 s.h.

**Recommended Electives**
The department recommends that students choose from the following electives in order to complete the minimum of 120 s.h. required for a Bachelor of Science. Additional recommended courses in biology and chemistry are listed under "Courses for the Major: Cognates" above.

**Anthropology**
- ANTH:3305 Human Osteology 3 s.h.

**Biochemistry**

- BIOC:3110 Biochemistry 3 s.h.
- BIOC:3120 Biochemistry and Molecular Biology I 3 s.h.
- BIOC:3130 Biochemistry and Molecular Biology II 3 s.h.
- BIOC:3140 Experimental Biochemistry 2 s.h.

**Biology**

- BIOL:2254 Endocrinology 3 s.h.
- BIOL:2346 Vertebrate Zoology 4 s.h.
- BIOL:2512 Fundamental Genetics 4 s.h.
- BIOL:2723 Cell Biology 3 s.h.
- BIOL:2753 Introduction to Neurobiology 3 s.h.
- BIOL:3244 Animal Behavior 3 s.h.
- BIOL:3253 Neurobiology 4 s.h.
- BIOL:3343 Animal Physiology 3 s.h.
- BIOL:4353 Neurophysiology 3 s.h.

**Chemistry**

- CHEM:2210 Organic Chemistry I 3 s.h.
- CHEM:2220 Organic Chemistry II 3 s.h.
- CHEM:2410 Organic Chemistry Laboratory 3 s.h.
- CHEM:3110 Analytical Chemistry I 3 s.h.
- CHEM:3120 Analytical Chemistry II 3 s.h.
- CHEM:4431 Physical Chemistry I 3 s.h.

**Classics**

- CLSA:3750 Medical and Technical Terminology 2 s.h.

**Communication Sciences and Disorders**

- CSD:2140 Manual Communication 1 s.h.
- CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.

**Computer Science**

- CS:1020 Principles of Computing 3 s.h.
- CS:1110 Introduction to Computer Science 3 s.h.
- CS:1210 Computer Science I: Fundamentals 4 s.h.
- ENGR:2730 Computers in Engineering 3 s.h.

**Education**

- RCE:4185 Introduction to Substance Abuse 3 s.h.

**Engineering**

- ENGR:2110 Engineering Fundamentals I: Statics 2 s.h.
- ENGR:2110 Engineering Fundamentals II: Dynamics 3 s.h.
- ENGR:2750 Mechanics of Deformable Bodies 3 s.h.

**English**

- CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.

**Free Radical and Radiation Biology**

- FRRB:5000 Radiation Biology 4 s.h.

**Microbiology**

- MICR:2157 General Microbiology 5 s.h.
- MICR:3112 Pharmacy Microbiology 4 s.h.
- MICR:3147 Survey of Immunology 3 s.h.
- MICR:3164 Nursing Microbiology 4 s.h.

**Pharmacology**

- PCOL:2120 Drugs: Their Nature, Action, and Use 2 s.h.
- PCOL:4130 Drug Mechanisms and Actions 3 s.h.

**Psychological and Brain Sciences**

- PSY:1001 Elementary Psychology 3 s.h.
- PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
required to comply with entrance and periodic health

All students admitted to the major in athletic training are semester. admission to the major may reapply in a subsequent fall study and practice of athletic training. Students denied selects candidates who appear to be best qualified for the admission to the athletic training major. The program Fulfillment of admission requirements does not ensure interviews. The athletic training program contacts applicants about care experience. A personal interview may be required; writing skills, and varied athletic training and health is given to applicants with high scholastic standing, strong at least 2.50 on all undergraduate course work. Preference with a grade of C or higher; and they must have a g.p.a. of 1 s.h. of graded college credit (pass/fail credit does not count), including ATEP:1010 Exploring Athletic Training experience as sophomores. Applicants must have at least 11 s.h. of graded college credit (pass/fail credit does not count), including ATEP:1010 Exploring Athletic Training with a grade of C or higher; and they must have a g.p.a. of at least 2.50 on all undergraduate course work. Preference is given to applicants with high scholastic standing, strong writing skills, and varied athletic training and health care experience. A personal interview may be required; the athletic training program contacts applicants about interviews.

Fulfillment of admission requirements does not ensure admission to the athletic training major. The program selects candidates who appear to be best qualified for the study and practice of athletic training. Students denied admission to the major may reapply in a subsequent fall semester.

All students admitted to the major in athletic training are required to comply with entrance and periodic health screening history and immunization, which is coordinated through the program's clinical coordinator. Students who have not formally contacted the athletic training program director before enrolling at the University of Iowa should talk to an athletic training advisor or their academic advisor upon entering the University. Early advising for course selection is vital to ensure that students take prerequisites and sequenced skill development courses in the right order. Students should begin taking prerequisites for required major courses during their first year and should complete their final prerequisites after admission to the athletic training major. For current information on rules, procedures, and curriculum, contact the athletic training program director. The major in athletic training requires the following course work.

ADMISSION PREREQUISITE
Students must complete this course before they apply for admission to the athletic training major.

ATEP:1010 Exploring Athletic Training 1 s.h.

PREREQUISITES TO COURSE WORK FOR THE MAJOR
Students must complete the following courses (34-36 s.h.) as they begin course work for the major.

One of these:
- BIOL:1140 Human Biology 4 s.h.
- BIOL:1141 Introductory Animal Biology 4 s.h.
- BIOL:1411 Foundations of Biology 4 s.h.

One of these sequences:
- CHEM:1070 & CHEM:1080 General Chemistry I-II 6 s.h.
- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8 s.h.

One of these:
- PHYS:1400 Basic Physics 4 s.h.
- PHYS:1511 College Physics I 4 s.h.

All of these:
- ATEP:1000 First Aid and CPR (or certification with adult, infant, AED) 2 s.h.
- ATEP:2030 Basic Athletic Training 3 s.h.
- HHP:1100 Human Anatomy 3 s.h.
- SRM:1045 Health for Living 3 s.h.
- PSQF:1075 Educational Psychology and Measurement 3 s.h.
- PSY:1001 Elementary Psychology 3 s.h.
- STAT:1020/PSQF:1020 Elementary Statistics and Inference (or equivalent) 3 s.h.

COURSES FOR THE MAJOR
Students must complete the following course work for the major (53 s.h.).

All of these:
- ATEP:2040 Clinical Sciences I 2 s.h.
ATEP:2060 Advanced Emergency Care for Athletic Trainers 2 s.h.
ATEP:3010 Clinical Sciences III 3 s.h.
ATEP:3020 Clinical Sciences V: Rehabilitation 2 s.h.
ATEP:3030 Practicum in Athletic Training III (must be taken twice) 6 s.h.
ATEP:3040 Clinical Sciences IV 3 s.h.
ATEP:4010 Administration of Athletic Training Programs 2 s.h.
HHP:3060 Advanced Human Anatomy for Athletic Trainers 4 s.h.
ORTH:4187 Practicum in Athletic Training IV (must be taken twice) 8 s.h.
PCOL:2120 Drugs: Their Nature, Action, and Use 2 s.h.

One of these:
HHP:1300 Fundamentals of Human Physiology 3 s.h.
HHP:3500 Human Physiology 3 s.h.
One of these:
HHP:2310 Nutrition and Health 3 s.h.
HHP:4440 Physiology of Nutrition 3 s.h.
One of these:
HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
HHP:4220 Biomechanics of Human Motion 3 s.h.
One of these:
HHP:3400 Applied Exercise Physiology 3 s.h.
HHP:4410 Exercise Physiology 3 s.h.
One of these:
HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
RCE:4199 Counseling for Related Professions 3 s.h.

**Bachelor of Science: Sport and Recreation Management**

The Bachelor of Science with a major in sport and recreation management requires a minimum of 120 s.h., including 48 s.h. of work for the major (27 s.h. in sport and recreation management, 12 s.h. in supporting course work from other disciplines, and 9 s.h. in field experience). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The sport and recreation management major prepares students for leadership in meeting the challenges of sport. Its comprehensive curriculum uses an integrative business approach and provides a collaborative environment for learning how to analyze and resolve challenges in the business and culture of sport locally, nationally, and internationally.

The major is appropriate for students who want to work with sport and club teams, intercollegiate and high school athletic programs, international sport organizations, national and international amateur sport organizations, community recreation, and firms specializing in sport marketing, sport sponsorship, and commercial fitness businesses.

Students interested in sport and recreation management learn skills for organizing, planning, and budgeting in a variety of settings. They prepare for work in positions such as activities director, community recreation specialist, campus recreation professional, and program coordinator in a park or recreation department.

The major also provides a foundation for graduate study in sport or recreation management and related graduate degree programs.

The sport and recreation management major requires the following course work.

**FOUNDATION COURSES**

All of these:

<table>
<thead>
<tr>
<th>Course code</th>
<th>Course name</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>SRM:1060</td>
<td>Contemporary Issues in Sports</td>
<td>3</td>
</tr>
<tr>
<td>SRM:3157</td>
<td>Managerial Operations in Sport and Recreation</td>
<td>3</td>
</tr>
<tr>
<td>SRM:3175</td>
<td>Sales in Sport</td>
<td>3</td>
</tr>
<tr>
<td>SRM:3178</td>
<td>Communications and Public Relations in Sports</td>
<td>3</td>
</tr>
</tbody>
</table>

Students must have completed 30 s.h. before they enroll in the following courses.

All of these:

<table>
<thead>
<tr>
<th>Course code</th>
<th>Course name</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>SRM:3151</td>
<td>Liability in Sport and Recreation</td>
<td>3</td>
</tr>
<tr>

ACCT:2100 Introduction to Financial Accounting 3 s.h.
ACCT:2200 Managerial Accounting 3 s.h.
CNW:3640 Writing for Business and Industry 3 s.h.
ECON:1100 Principles of Microeconomics 4 s.h.
ECON:1200 Principles of Macroeconomics 4 s.h.
ECON:3690 Sports Economics 3 s.h.
FIN:3000 Introductory Financial Management 3 s.h.
MGMT:2000 Introduction to Law 3 s.h.
MGMT:2100 Introduction to Management 3 s.h.
MSCI:1500 Business Computing Essentials 2 s.h.
RHET:2085 Speaking Skills 3 s.h.

Coaching and Sport Instruction Concentration
SRM:3149 Coaching Interscholastic Athletics 3 s.h.
SRM:3176 Sports Analytics for Coaches, Managers, and Other Decision Makers 3 s.h.
SRM:3300 Writing for Sport and Recreation Managers 3 s.h.
SRM:4198 NCAA Rules Compliance and Enforcement 3 s.h.
ATEP:1000 First Aid and CPR 2 s.h.
ATEP:2030 Basic Athletic Training 3 s.h.
HHP:1100 Human Anatomy 3 s.h.
HHP:2130 Human Development Through the Life Span 3 s.h.
HHP:2200 Physical Activity and Health 3 s.h.
HHP:3020 Nutrition for Health, Fitness, and Sport 3 s.h.
HHP:3300 Human Growth and Motor Development 3 s.h.
HHP:3400 Applied Exercise Physiology 3 s.h.
EDTL:3114 Parent-Child Relationships 3 s.h.
EDTL:3131 Movement Education 2 s.h.
RHET:2085 Speaking Skills 3 s.h.

Coaching Certification Process
University of Iowa students who want to complete the coaching concentration and who want to obtain an Iowa license must take a minimum of 55 hours of instruction and course work. These courses available at the UI are eligible for consideration: ATEP:2030 Basic Athletic Training, HHP:1100 Human Anatomy, HHP:3300 Human Growth and Motor Development, and SRM:3149 Coaching Interscholastic Athletics. Each of these courses are 3 s.h. each or 45 hours each, so to meet the minimum requirement, students must complete two of the four courses. If a student has taken SRM:3149, another 2 s.h. course entitled Prevention and Care of Athletic Injuries can be taken online or at a community college. Students obtain the necessary documents for application; all materials should be submitted to the Iowa Board of Education. Contact an advisor for more information.

Communications Public Relations/Journalism Concentration
JMC:1100 Media Uses and Effects 3 s.h.
JMC:1200 Media History and Culture 3 s.h.
JMC:1500 Social Media Today 3 s.h.
JMC:2200 Communication and Public Relations 3 s.h.
JMC:3135 New Media and the Future of Sport 3 s.h.
JMC:3181 The Business of Sport Communication 3 s.h.
JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
JMC:3190 Classics of Sports Journalism: From Jack London to Grantland 3 s.h.
JMC:3400 Specialized Reporting and Writing 4 s.h.
JMC:3412 Strategic Communication Writing 4 s.h.
RHET:2085 Speaking Skills 3 s.h.
SRM:3300 Writing for Sport and Recreation Managers 3 s.h.

Entrepreneurship Concentration

ECON:3690 Sports Economics 3 s.h.
ENTR:1350 Foundations in Entrepreneurship 2 s.h.
ENTR:2000 Entrepreneurship and Innovation 3 s.h.
ENTR:3100 Entrepreneurial Finance 3 s.h.
ENTR:3200 Entrepreneurial Marketing 3 s.h.
ENTR:3300 Legal Aspects of Entrepreneurship 3 s.h.
ENTR:3400 Strategic Management of Technology and Innovation 3 s.h.
ENTR:3500 Social Entrepreneurship 3 s.h.
ENTR:3595 Nonprofit Organizational Effectiveness I 3 s.h.
ENTR:3600 E-Commerce Strategies for Entrepreneurs 3 s.h.
ENTR:4400 Managing the Growth Business 3 s.h.
ENTR:4450 Professional Sports Management 3 s.h.

Event Management Concentration
Students complete the requirements as designated below. No more than 6 s.h. may be applied to this concentration if also used toward the completion of the Certificate in Event Planning (p. 289). In order to avoid duplication of course work beyond the allowed 6 s.h., students should take additional course work.

Both of these:
SRM:3147 Sport Event Management 3 s.h.
SRM:3154 Foundations of Event Management 3 s.h.
And, they must complete at least 6 s.h. from these.
SRM:2065 The Experience Economy 3 s.h.
SRM:3300 Writing for Sport and Recreation Managers 3 s.h.
BUS:3800 Business Writing 3 s.h.
ENTR:1350 Foundations in Entrepreneurship 2 s.h.
ENTR:2000 Entrepreneurship and Innovation 3 s.h.
ENTR:3500 Social Entrepreneurship 3 s.h.
ENTR:3600 E-Commerce Strategies for Entrepreneurs 3 s.h.
ENTR:4450 Professional Sports Management 3 s.h.
JMC:1500 Social Media Today 3 s.h.
RHET:2085 Speaking Skills 3 s.h.
Sport and Diversity Concentration

SRM:1040 The Good Society 3 s.h.
SRM:1072 Leisure and the Liberal Arts 3 s.h.
SRM:3300 Writing for Sport and Recreation 3 s.h.
AFAM:1030 Introduction to African American Society 3 s.h.
AFAM:3925 African Americans and the Media 3 s.h.
ANTH:1401 Language, Culture, and Communication 3 s.h.
CLSA:1875 Ancient Sports and Leisure 3 s.h.
COMM:1174 Media and Society 3 s.h.
COMM:4143 Classical Rhetoric and Greek Culture 3 s.h.
HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
HIST:1040 Perspectives: Diversity in American History 3 s.h.
JMC:1200 Media History and Culture 3 s.h.
JMC:3125 Media and Consumers 3 s.h.
RELS:2700 Sacred World of Native Americans 3 s.h.
RHET:2085 Speaking Skills 3 s.h.
SPAN:2700 Introduction to Latin American Studies 3 s.h.
SPST:1074/AMST:1074/GWSS:1074 Inequality in American Sport 3 s.h.
TR:1070 Perspectives on Leisure and Play 3 s.h.

Student-Designed Concentration

Students may develop a concentration in consultation with an academic advisor. They must submit a two-page proposal to the recreation and sport business committee. The proposal should provide a rationale for the student-designed concentration and a description of the student-designed concentration. The concentration requires at least 12 s.h. of course work.

Bachelor of Science: Therapeutic Recreation

The Bachelor of Science with a major in therapeutic recreation requires a minimum of 120 s.h., including 63-64 s.h. of work for the major (total credit depends on the track). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The therapeutic recreation program prepares students for professional work with persons who have disabilities, impairments, and illnesses. Both of the major’s tracks emphasize the use of a systematic process of assessment, planning, implementation, and evaluation in order to provide recreation, leisure, and play activities to individuals and populations.

Admission to both tracks is selective; students must apply and be admitted.

The major in therapeutic recreation (child life track and inclusive recreation track) requires the following course work.

Child Life Track

The child life track requires 63 s.h. of work for the major (12 s.h. in admission prerequisites plus a total of 51 s.h. in additional courses, supporting course work from other departments, and the required internship). Students must apply and be admitted to the child life track, and they must complete the admission prerequisites before they may enter the track.

Child life specialists are professionals with expertise in child development who advance effective coping through play activities, preparation for medical procedures and operations, patient and family education, and self-expressive activities. Child life specialists provide services to support families and to promote children’s mastery of varied experiences, particularly children’s health care events. They provide care to children’s families by assisting in accurate information processing and helping family members and other caregivers. Child life specialists also help educate other medical staff and community members regarding issues and developmental needs of children involved in health care events or other stressful experiences. For more information about the profession, visit Child Life Council.

Before students who apply to the child life track may be admitted, they must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students), including the courses listed under "Child Life: Admission Prerequisites" below. Applicants must have a University of Iowa g.p.a. of at least 3.00 and a cumulative g.p.a. of at least 3.00; students with lower grade-point averages may apply for exceptional admission.

Applicants for admission to the track should use the child life track application form on the Department of Health and Human Physiology web site. Completed applications must be submitted by March 15 for admission the following fall semester (students may enter the child life track only in fall).

Students who complete the child life track curriculum, including the child life internship, are eligible to sit for the Child Life Professional Certification Examination administered by the Child Life Council. Successful completion of the exam confers the Certified Child Life Specialist (CCLS) credential.

The major in therapeutic recreation with the child life track requires the following course work.

CHILD LIFE: ADMISSION PREREQUISITES

All of these:

HHP:1100 Human Anatomy 3 s.h.
TR:1070 Perspectives on Leisure and Play 3 s.h.
PSY:1001 Elementary Psychology 3 s.h.

One of these:

PSY:2501 Introduction to Social Psychology 3 s.h.
SOC:1010 Introduction to Sociology 3-4 s.h.
SOC:2220 Principles of Social Psychology 3-4 s.h.

CHILD LIFE: COMMON CORE

All of these:

TR:1061 Recreation Leadership and Programming 3 s.h.
TR:1077 Introduction to Child Life 3 s.h.
Inclusive Recreation Track

The inclusive recreation track requires 64 s.h. of work for the major (12 s.h. in admission prerequisites plus a total of 52 s.h. in additional courses, supporting course work from other departments, and the required internship). Students must apply and be admitted to the inclusive recreation track, and they must complete the admission prerequisites before they may enter the track.

Therapeutic recreation (inclusive recreation) is a health-oriented field that involves providing recreation programs designed to improve or maintain the physical, emotional, mental, and social functioning of patients and consumers. Therapeutic services involve a continuum of care that uses recreational activities to improve functional abilities; leisure education to help individuals acquire skills, knowledge, and attitudes that facilitate an independent lifestyle; and other activities to enhance health, growth, development, and independence through intrinsically rewarding leisure behavior. Inclusive recreation provides opportunities for people with all abilities and disabilities to participate together in therapeutic recreation programs based on choice and common interests.

Professionals in the therapeutic recreation (inclusive recreation) field are commonly employed in settings such as skilled nursing facilities, community recreation departments, state and community mental health institutions, general hospitals, physical rehabilitation centers, special recreation districts, correctional facilities, senior centers, facilities for persons with intellectual disabilities or mental illness, and substance-abuse programs.

Before students who apply to the inclusive recreation track may be admitted, they must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students), including the courses listed under “Inclusive Recreation: Admission Prerequisites” below. Applicants must have a University of Iowa g.p.a. of at least 2.50 and a cumulative g.p.a. of at least 2.50; students with lower grade-point averages may apply for exceptional admission.

Applicants for admission to the track should use the inclusive recreation track application form on the Department of Health and Human Physiology web site. Completed applications must be submitted by October 15 for admission the following spring semester or by March 15 for admission the following fall semester.

Students who complete the inclusive recreation curriculum, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation Certification Exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

The major in therapeutic recreation with the inclusive recreation track requires the following course work.

**INCLUSIVE RECREATION: ADMISSION PREREQUISITES**

All of these:

- HHP:1100 Human Anatomy 3 s.h.
- TR:1070 Perspectives on Leisure and Play 3 s.h.
- PSY:1001 Elementary Psychology 3 s.h.

One of these:

- PSY:2501 Introduction to Social Psychology 3 s.h.
- SOC:1010 Introduction to Sociology 3-4 s.h.
- SOC:2220 Principles of Social Psychology 3-4 s.h.
B.S.: Human Physiology

Before the fifth semester begins: calculus and at least six more courses in the major

Before the seventh semester begins: at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two more courses in the major (total of 15)

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.S.: Athletic Training

Students entering the major in athletic training must be admitted to the major on schedule in order to complete the Four-Year Graduation Plan.

Before the fifth semester begins: nine courses in the major

Before the seventh semester begins: at least 90 s.h. earned toward the degree

Before the eighth semester: three more courses in the major (total of 12)

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.S.: Sport and Recreation Management

Students who choose the internship option, SRM:4196 Internship, should work with their advisor to develop individual graduation plans.

Before the fifth semester begins: four foundation courses, at least 3 s.h. in the concentration area, and 3 s.h. in SRM:4197 Sport and Recreation Business Practicum

Before the seventh semester begins: two more foundation courses (total of six), an additional 6 s.h. in the concentration area, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two more foundation courses (total of eight), an additional 3 s.h. of SRM:4197, and one remaining concentration area course (3 s.h.)

During the eighth semester: enrollment in final 3 s.h. of SRM:4197, all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

B.S.: Therapeutic Recreation

Before the fifth semester begins: all core courses and at least one foundation course

Before the seventh semester begins: two more foundation courses (total of three), 3 s.h. of supporting course work, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two more foundation courses (total of five) and the remaining supporting course work
**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in health and human physiology, human physiology, athletic training, sport and recreation management, or therapeutic recreation have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major.

Exercise science, health promotion, health studies, or human physiology track: in order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Honors Research I and HHP:4900 Honors Research II; write an honors thesis that is deposited with the University of Iowa Honors Program and is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

Sport and recreation management, or therapeutic recreation: in order to graduate with honors in either major, students must successfully complete SRM:4194 Honors Readings and SRM:4195 Honors Problems, or TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project's results.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

**Minor: Human Physiology**

The minor in human physiology requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including 12 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students majoring in health and human physiology (B.A.), human physiology (B.S.), or athletic training (B.S.) may not earn the minor in human physiology.

Students choose courses for the minor from the following list. Enrollment in HHP:3510 Advanced Human Physiology Laboratory and HHP:4220 Biomechanics of Human Motion requires special permission. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

**Minor: Physical Activity and Nutrition Science**

The minor in physical activity and nutrition science requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including at least 9 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students majoring in health and human physiology (B.A.), human physiology (B.S.), or athletic training (B.S.) may not earn the minor in physical activity and nutrition science.

The minor in physical activity and nutrition science is designed in conjunction with the Obesity Research and Education initiative. The minor provides a specialized group of courses that unify concepts underlying the causes, consequences, treatment, and prevention of obesity, with attention to physical activity, nutrition, physiology, psychology, and human disease. Students who earn the minor will be prepared to apply their knowledge in areas such as clinical health professions, public health policy, personal coaching and fitness, health psychology, and health promotion.

For the minor, students complete three core courses plus two elective courses that focus on various facets of obesity and on its treatment and prevention. One of the core courses and both of the elective courses are at the intermediate or advanced level. Students choose electives in consultation with an undergraduate advisor. Some courses for the minor have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

The minor in physical activity and nutrition science requires the following course work:

**Core courses—all of these:**
HHP:2200 Physical Activity and Health  3 s.h.
HHP:2310 Nutrition and Health  3 s.h.
HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment  3 s.h.

Electives—two courses from the following lists:

HHP:3000 Equity Issues in the Health Sciences  3 s.h.
HHP:3030 Coaching for Health and Wellness  3 s.h.
HHP:3440 Physical Activity and Healthy Communities  3 s.h.
HHP:3500 Human Physiology  3 s.h.
HHP:3650 Advanced Sport and Exercise Psychology  3 s.h.
HHP:3655 Emotional and Psychological Aspects of Health  3 s.h.
HHP:4230 Motor Learning: Theory and Application  3 s.h.
HHP:4310 Sport and Exercise Nutrition  3 s.h.
HHP:4320 Nutrition Interventions  3 s.h.
HHP:4340 Global Health and Global Food  3 s.h.
HHP:4390 Understanding Human Disease  3 s.h.
HHP:4440 Physiology of Nutrition  3 s.h.

Electives may include one of these:

HHP:3400 Applied Exercise Physiology  3 s.h.
HHP:4410 Exercise Physiology  3 s.h.

Minor: Sport and Recreation Management

The minor in sport and recreation management requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including at least 12 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 3 s.h. of transfer credit may be accepted toward the minor with the approval of the sport and recreation management steering committee.

Students majoring in sport and recreation management (B.S.) may not earn the minor in sport and recreation management.

Students take 15 s.h., with at least 12 s.h. in course work numbered 3000 or above, from the following:

SRM:1060 Contemporary Issues in Sports  3 s.h.
SRM:2065 The Experience Economy  3 s.h.
SRM:3147 Sport Event Management  3 s.h.
SRM:3150 Recreation Administration  3 s.h.
SRM:3151 Liability in Sport and Recreation Management  3 s.h.
SRM:3152 Sport and Recreation Facility Management  3 s.h.
SRM:3153 Sport Business Practices  3 s.h.
SRM:3154 Foundations of Event Management  3 s.h.
SRM:3156 Design of Recreation Facilities  3 s.h.
SRM:3157 Managerial Operations in Sport and Recreation  3 s.h.
SRM:3158 Sport and Recreation Promotion  3 s.h.
SRM:3172 Finance in Sport and Recreation  3 s.h.
SRM:3175 Sales in Sport  3 s.h.
SRM:3176 Sports Analytics for Coaches, Managers, and Other Decision Makers  3 s.h.
SRM:3178 Communications and Public Relations in Sports  3 s.h.
SRM:4197 Sport and Recreation Business Practicum  1-3 s.h.
SRM:4198 NCAA Rules Compliance and Enforcement  3 s.h.

Certificate in Disability Studies

The Department of Health and Human Physiology administers the undergraduate certificate program in disability studies; see Disability Studies (p. 224) in the Catalog.

Graduate Programs of Study

- Master of Arts in leisure studies
- Master of Science in health and human physiology
- Doctor of Philosophy in health and human physiology

Master of Arts

The Master of Arts program in leisure studies requires a minimum of 33 s.h. of graduate credit with thesis or 36 s.h. of graduate credit without thesis. Students choose one of two specialization areas—leisure and recreational sport management or therapeutic recreation—and must satisfy the prerequisites required for their areas. Work for each specialization area includes core requirements and area courses.

LEISURE AND RECREATIONAL SPORT MANAGEMENT: CORE

All of these:

SRM:5065 The Economy of Experience  3 s.h.
TR:5200 Historical and Philosophical Perspectives on Leisure  3 s.h.
PSQF:4143 Introduction to Statistical Methods  3 s.h.

LEISURE AND RECREATIONAL SPORT MANAGEMENT: AREA COURSES

All of these:

SRM:6251 Risk Management  3 s.h.
SRM:6252 Economics and Financing  3 s.h.
SRM:6253 Sport Administration  3 s.h.
SRM:6254 Marketing and Sport Promotion  3 s.h.
Cognate area courses (sport and athletic administration, business, communications, or cultural studies)  6-9 s.h.

Students take an additional 6 s.h. of electives.
Therapeutic Recreation Specialization
The therapeutic recreation specialization prepares students to meet the challenges of inpatient- and community-based health care service delivery. The program stresses research and practical skills that enable graduates to find the best jobs in the field.

Therapeutic recreation specialists are increasingly called upon to deliver preventive outpatient services, such as programs designed to prevent secondary impairments in persons with disabilities (e.g., arthritis exercise to manage pain, fall prevention for older adults); education for individuals with negative lifestyle habits (e.g., smoking, substance abuse); programs designed to restore meaning and purpose to life following traumatic events (e.g., following a spinal cord injury); and initiatives to help communities make services accessible to persons with disabilities.

Iowa’s therapeutic recreation program emphasizes skills for delivery of services in clinical or community settings. The program includes related cognate areas, such as child life, aging, developmental disabilities, or counseling.

Students acquire research skills that they may apply directly to therapeutic recreation practice, for example, to assess the effectiveness of specific interventions or the demand for varied services in a specific setting.

The therapeutic recreation specialization requires the following course work.

**THERAPEUTIC RECREATION: CORE**
All of these:
- TR:5200 Historical and Philosophical Perspectives on Leisure 3 s.h.
- TR:5205 Research Methods and Leisure Behavior 3 s.h.
- PSQF:4143 Introduction to Statistical Methods 3 s.h.

**THERAPEUTIC RECREATION: AREA COURSES**
All of these:
- TR:3160 Introduction to Therapeutic Recreation 3 s.h.
- TR:3161 Assessment and Evaluation in Therapeutic Recreation 3 s.h.
- TR:3162 Therapeutic Recreation: Clientele 3 s.h.
- TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession 3 s.h.
- TR:3164 Therapeutic Recreation: Rehabilitation 3 s.h.
- Cognate area courses (aging studies, child life, counseling, disability studies) 9-12 s.h.

Thesis students complete an additional 6 s.h. of credit.

Therapeutic recreation students must complete a practicum, HHP:7290 Graduate Internship, in order to sit for a national certification examination.

**Master of Science**
The Master of Science program in health and human physiology requires 30-32 s.h. of graduate credit. Required credit varies by track: the athletic training track requires a minimum of 30 s.h. and is offered without thesis; the child life track requires a minimum of 36 s.h. and is offered without thesis; the clinical exercise physiology track requires a minimum of 32 s.h. and is offered without thesis; the health and human physiology track requires a minimum of 30 s.h. and is offered with thesis.

Students interested in pursuing a Ph.D. after earning a master’s degree should choose the M.S. health and human physiology track (with thesis).

**Athletic Training Track**
The athletic training track provides an advanced clinical education and research area of study for certified athletic trainers. It focuses on a health care team approach to sports medicine, medical care management, wellness, pediatric/adolescent health, and special health populations. The program emphasizes application of established research findings to the wide variety of problems encountered in everyday practice.

In order to be admitted to the program, athletic trainers must have completed the following prerequisite course work and must hold the following certifications:

- anatomy (3-4 s.h.);
- human physiology (3 s.h.);
- athletic training core—prevention (3 s.h.), evaluation and recognition (3 s.h.), modalities (3 s.h.), rehabilitation (3 s.h.), administrative (2 s.h.);
- exercise science core—exercise physiology (3 s.h.), biomechanics (3 s.h.);
- current emergency certification; and
- Board of Certification (BOC) certification and state license.

The Master of Science with the athletic training track requires the following course work.

**STATISTICS CORE**
One of these:
- BIOS:5110 Introduction to Biostatistics 3 s.h.
- STAT:4143 Introduction to Statistical Methods 3 s.h.

**EXERCISE SCIENCE CORE**
Three of these:
- HHP:3110 Advanced Anatomy Laboratory 3 s.h.
- HHP:4130 Skeletal Muscle Physiology 3 s.h.
- HHP:4150 Clinical Exercise Physiology 3 s.h.
- HHP:4220 Biomechanics of Human Motion 3 s.h.
- HHP:4300 Neural Control of Posture and Movement 3 s.h.
- HHP:4310 Sport and Exercise Nutrition 3 s.h.
- HHP:4410 Exercise Physiology 3 s.h.
- HHP:4440 Physiology of Nutrition 3 s.h.
- HHP:4450 Genetic Basis of Disease 3 s.h.
- HHP:4460 Cardiovascular Physiology 3 s.h.
- HHP:4470 Physiology of Aging 3 s.h.
- HHP:4480 Introduction to Human Pharmacology 3 s.h.
- HHP:6130 Advanced Anatomy Laboratory 1-3 s.h.
- HHP:6150 Advanced Clinical Exercise Physiology 1-3 s.h.
- HHP:6210 Epidemiology of Physical Activity 3 s.h.
- HHP:6410 Advanced Exercise Physiology 3 s.h.
HHP:6460 Advanced Cardiovascular Physiology 1-3 s.h.
HHP:6480 Advanced Human Pharmacology 3 s.h.
HHP:7300 Advanced Neural Control of Posture and Movement 1-3 s.h.

CLINICAL RESEARCH TOOLS
One approved clinical tool course (2-4 s.h.) in computer science, counseling, epidemiology, health promotion, leisure studies, nursing, or pathology.

ATHLETIC TRAINING CORE
All of these:
HHP:5000 Problems 2 s.h.
HHP:6010 Non-Thesis Seminar 2 s.h.
HHP:7000 Practicum in College Teaching 2-3 s.h.
One of these:
EPID:4400 Epidemiology I: Principles 3 s.h.
PATH:8133 Introduction to Human Pathology for Graduate Students 4 s.h.
PSQF:6205 Design of Instruction 3 s.h.

ELECTIVES
Students choose elective courses that enhance their concentration in medical care management, wellness, pediatric/adolescent health, or special health populations. Course selection must be approved by the advisor.

Child Life Track
The child life track provides expertise in child development through services to support families and to promote children's mastery of life experiences, particularly children's health care events. Professionals in this area enhance effective coping skills through play, education, communication, and family-centered care. The program prepares students to meet credentialing requirements. For more information about the profession, visit the Child Life Council.

In order to be admitted to the program, students must:
- hold a B.S. or B.A. with a g.p.a. of at least 3.00;
- have completed one course each in human anatomy, medical terminology, and growth and development;
- have verification of 100 hours of paid or volunteer experience in child life or in a pediatric setting; and
- three letters of recommendation, with at least one from a credentialed child life specialist.

Students who have not completed an introductory course in child life must enroll in TR:1077 Introduction to Child Life during their first semester. For student applicants whose first language is not English, applications must be accompanied by Test of English as a Foreign Language (TOEFL) scores.

The Master of Science with the child life track requires the following course work.

CORE COURSES
All of these:
EDTL:3114 Parent-Child Relationships 3 s.h.
PSQF:4143 Introduction to Statistical Methods 3 s.h.

SSW:3786 Death/Dying: Issues Across the Life Span 3 s.h.
TR:3165 Child Life: Methods and Materials 3 s.h.
TR:3166 Child Life: Seminar 3 s.h.
TR:3260 Play and Childhood 3 s.h.
TR:4167 Child Life Practicum 3 s.h.
TR:5205 Research Methods and Leisure Behavior 3 s.h.
TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h.

INTERNSHIP
The supervised internship requires 480-600 contact hours with a credentialed child life specialist.

This course:
TR:4192 Child Life Internship 9 s.h.

Clinical Exercise Physiology Track
The clinical exercise physiology track provides an advanced scientific and clinical education. It prepares students to be allied health professionals who work in the application of physical activity and behavioral interventions for clinical diseases and health conditions including cardiovascular, pulmonary, metabolic, orthopaedic, neuromuscular, immunologic, and hematologic diseases.

In order to be admitted to the program, students must:
- hold a B.S. or B.A. with a g.p.a. of at least 3.00; and
- have completed anatomy and physiology with laboratories (8 s.h.).

The Master of Science with the clinical exercise physiology track requires the following course work.

STATISTICS CORE
One of these (or equivalent):
BIOS:5110 Introduction to Biostatistics 3 s.h.
STAT:3510 Biostatistics 3 s.h.
STAT:4143 Introduction to Statistical Methods 3 s.h.

ADVANCED STATISTICS
One of these (or equivalent):
BIOS:5120 Design and Analysis of Biomedical Studies 3 s.h.
STAT:6513 Intermediate Statistical Methods 4 s.h.

CLINICAL EXERCISE PHYSIOLOGY CORE
All of these:
HHP:6150 Advanced Clinical Exercise Physiology 1-3 s.h.
HHP:6200 Advanced Metabolic Exercise Testing and Prescription 3 s.h.
HHP:6410 Advanced Exercise Physiology 3 s.h.
HHP:6460 Advanced Cardiovascular Physiology 1-3 s.h.
HHP:6480 Advanced Human Pharmacology 3 s.h.

Two enrollments (1 s.h. each) chosen from these:
HHP:6300 Seminar in Motor Control 1 s.h.
HHP:6400 Integrative Physiology Seminar 1 s.h.
HHP:6500 Seminar in Health Promotion 1 s.h.

**INTERNSHIP**
Students complete an individually arranged internship, usually during their second year, earning 3 s.h. of credit.

**ELECTIVES**
Students choose elective courses that enhance their concentration in human and exercise physiology, clinical exercise physiology, prescriptive exercise and training for health and fitness, health maintenance, and understanding human disease. Students complete a minimum of two courses from the following list, with their advisor's approval.

- HHP:4400 Health Promotion Clinical Practicum 1 s.h.
- HHP:4405 Health Promotion Community and Worksite Practicum 1 s.h.
- HHP:4420 Planning and Evaluating Health Interventions 3 s.h.
- HHP:6050 Advanced Topics in Obesity 3 s.h.
- HHP:6130 Advanced Skeletal Muscle Physiology 1-3 s.h.
- HHP:6210 Epidemiology of Physical Activity 3 s.h.
- HHP:6470 Advanced Physiology of Aging 3 s.h.
- HHP:7300 Advanced Neural Control of Posture and Movement 1-3 s.h.
- ACB:5203 Gross Human Anatomy for Graduate Students 5 s.h.
- BIOL:3743 Basic Biology of Human Disease 2 s.h.
- EPID:6350 Nutritional Epidemiology 2 s.h.
- EPID:6650 Cardiovascular Disease Epidemiology 3 s.h.
- EPID:6360 Nutrition Intervention in Clinical Trials Research 2 s.h.
- PSY:3010 Health Psychology 3 s.h.
- PSY:3340 Behavior Modification 3 s.h.
- PTRS:6224 Activity-Based Neural and Musculoskeletal Plasticity in Health Care 4 s.h.
- PTRS:7812 Biomedical Instrumentation and Measurement 3 s.h.
- PTRS:7875 Analysis of Activity-Based Neural and Musculoskeletal Plasticity 3 s.h.

**Health and Human Physiology Track**
The health and human physiology track requires a thesis. Students who intend to earn a Ph.D. after the master’s degree should choose this track. In order to be admitted to the program, students must:

- hold a B.S. or B.A. with a g.p.a. of at least 3.00; and
- have completed courses in anatomy and physiology with laboratory (8 s.h.) and basic physics (3 s.h.).

The Master of Science with the health and human physiology track requires the following course work.

**ADVANCED STATISTICS**
One of these:

- BIOS:5120 Design and Analysis of Biomedical Studies 3 s.h.
- EPID:5241 Statistical Methods in Epidemiology 4 s.h.
- STAT:6513 Intermediate Statistical Methods 4 s.h.

**RESEARCH METHODS**
One of these:

- TR:5205 Research Methods and Leisure Behavior 3 s.h.
- EALL:5150 Introduction to Educational Research 3 s.h.
- PSQF:6220 Quantitative Educational Research Methodologies 3 s.h.

**SEMINAR COURSES**
Two enrollments (1 s.h. each) chosen from these:

- HHP:6300 Seminar in Motor Control 1 s.h.
- HHP:6400 Integrative Physiology Seminar 1 s.h.
- HHP:6500 Seminar in Health Promotion 1 s.h.

**ELECTIVES**
Students choose elective courses that broaden their knowledge in health and human physiology and related disciplines and that enhance their knowledge in their specific areas of interest. Students choose electives with guidance from their advisor/mentor. Electives may include the following.

- HHP:5000 Problems arr.
- HHP:6000 Research arr.
- HHP:6050 Advanced Topics in Obesity 3 s.h.
- HHP:6130 Advanced Skeletal Muscle Physiology 1-3 s.h.
- HHP:6150 Advanced Clinical Exercise Physiology 1-3 s.h.
- HHP:6200 Advanced Metabolic Exercise Testing and Prescription 3 s.h.
- HHP:6210 Epidemiology of Physical Activity 3 s.h.
- HHP:6410 Advanced Exercise Physiology 3 s.h.
- HHP:6460 Advanced Cardiovascular Physiology 1-3 s.h.
- HHP:6470 Advanced Physiology of Aging 3 s.h.
- HHP:6480 Advanced Human Pharmacology 3 s.h.
- HHP:7300 Advanced Neural Control of Posture and Movement 1-3 s.h.
- ACB:5203 Gross Human Anatomy for Graduate Students 5 s.h.
- BIOL:3110 Biochemistry 3 s.h.
- EPID:4400 Epidemiology I: Principles 3 s.h.
- EPID:6350 Nutritional Epidemiology 2 s.h.
- EPID:6400 Epidemiology II: Advanced Methods 4 s.h.
- EPID:6600 Epidemiology of Chronic Diseases 3 s.h.
- MPB:5153 Graduate Physiology 4 s.h.
- PTRS:7812 Biomedical Instrumentation and Measurement 3 s.h.
- PTRS:7875 Analysis of Activity-Based Neural and Musculoskeletal Plasticity 3 s.h.

**THESIS**
Both of these:
### Doctor of Philosophy

The Doctor of Philosophy program in health and human physiology requires a minimum of 72 s.h. of graduate credit.

Doctoral students should have a strong background in the natural sciences and/or health promotion, and a working knowledge of statistics and research methodology. Students may acquire additional knowledge of statistics and research methodology after entering the program.

All Ph.D. students complete a common core of courses, elective courses, and 10 s.h. of independent research in addition to the 12 s.h. dissertation requirement. They must complete a dissertation in their specialization area.

Some courses in the program are offered by other departments. Faculty members from those departments frequently serve on comprehensive examination committees and on dissertation committees for the initial presentation of a candidate's prospectus. They also participate in the final examination.

The Doctor of Philosophy requires the following course work.

#### COMMON CORE

### Admission

Admission to the department's graduate programs is based on grade-point average and score on the Graduate Record Examination (GRE) General Test. Applicants to the M.S. program must have an undergraduate g.p.a. of at least 3.00. Applicants to the Ph.D. program must have a g.p.a. of at least 3.00 on undergraduate work and previous graduate work.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Application deadline is February 1 for admission the following fall semester.

### Facilities

Classroom and research laboratories are located in the Field House and in other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels.

Cooperative efforts with other units facilitate specialization by allowing health and human physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry, molecular physiology and biophysics, orthopaedic surgery,
Courses

Lower-Level Undergraduate Athletic Training Program

ATEP:1000 First Aid and CPR 2 s.h.
American Red Cross certification: basic first aid, CPR procedures.

ATEP:1010 Exploring Athletic Training arr.
Exploration of professional preparation for athletic trainers; application, career opportunities, professional organizations, awareness of basic athletic training principles.

ATEP:2010 Practicum in Athletic Training I 2 s.h.
Basic clinical skill instruction, evaluation, and integration for athletic trainers. Requirements: athletic training major.

ATEP:2020 Practicum in Athletic Training II 2 s.h.
Integration of basic physical skills and orientation to traditional settings; clinical experience for first-year students arranged through the athletic training program. Requirements: grade of C or higher in ATEP:2010.

ATEP:2030 Basic Athletic Training 3 s.h.
Basic pathology, epidemiology, materials biology for prevention and immediate care of athletic injuries.

ATEP:2040 Clinical Sciences I 2 s.h.
Theoretical knowledge base in therapeutic modalities. Offered spring semesters. Requirements: grade of C or higher in ATEP:2010.

ATEP:2060 Advanced Emergency Care for Athletic Trainers 1-2 s.h.
Coordinated initial professional emergency response certifications for athletic trainers; recertification for those holding valid certifications. Requirements: Red Cross First Aid and CPR certifications.

Health and Human Physiology

HHP:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

HHP:1030 Introduction to Critical Thinking 3 s.h.
Concepts and skills required for critical thinking about what should and should not be taken as true; analysis and evaluation of a variety of complex extended arguments. GE: Quantitative or Formal Reasoning.

HHP:1050 Exploring Exercise Science 1 s.h.
Introduction to field of exercise science; employment and observation opportunities, academic and professional development.

HHP:1051 Making Choices: Interdisciplinary Perspectives 3 s.h.
Interdisciplinary consideration of what we know, value, hope, and should do; focus on case studies of private, professional, and social decision making. GE: Values, Society, and Diversity.

HHP:1100 Human Anatomy 3 s.h.
General human anatomy covering most systems of the body. GE: Natural Sciences without Lab.

HHP:1110 Human Anatomy Laboratory 1 s.h.
All major systems of the human body, understood through computer-generated images, models, histological slides, anatomical specimens. GE: Natural Sciences Lab only.

HHP:1300 Fundamentals of Human Physiology
Introduction to function and regulation of the human body. Recommendations: high school chemistry and basic biology. GE: Natural Sciences without Lab.

HHP:1310 Human Physiology Laboratory 1 s.h.
Introductory laboratory course illustrating principles of human physiology through fundamental experimental measurements and computer simulation. Recommendations: one semester of biology.

HHP:2130 Human Development Through the Life Span 3 s.h.
Overview of human developmental theories across the life-span; aspects of cognitive, physical, and personality development from birth to death; the role of culture, environment, health, and economic factors over the developmental process and life continuum.

HHP:2200 Physical Activity and Health 3 s.h.
Physical activity determinants in society; school, workplace, community-based health promotion interventions to improve activity levels. GE: Values, Society, and Diversity.

HHP:2210 Principles of Exercise Leadership 3 s.h.
Exercise standards, guidelines for aerobic/exercise instructors; aerobic workout components, contraindicated exercises, injury prevention and treatment. Prerequisites: HHP:2200.

HHP:2310 Nutrition and Health 3 s.h.
Physiology, biochemistry of human nutrition; appropriate food sources; qualitative and quantitative evaluation of diets using standard references. GE: Natural Sciences without Lab.

HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
Principles of biomechanics, kinesiology, and anatomy; quantitative aspects of sport and physical activity; emphasis on developing a qualitative grasp on mechanical principles of human movement within sports and physical activity; how to apply these principles in a sport/exercise environment. Prerequisites: HHP:1100.

HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
Psychological theory and research related to sport and physical activity; motivation, aggression, attribution, socialization, competitive anxiety, leadership.

**Sport and Recreation Management**

**SRM:1000 First-Year Seminar**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

**SRM:1040 The Good Society**  
Critiques of the existing social order, articulation of models of a good society with associated conceptions of the good life. GE: Values, Society, and Diversity.

**SRM:1045 Health for Living**  
Personal health strategies; focus on disease prevention, wellness. GE: Values, Society, and Diversity.

**SRM:1060 Contemporary Issues in Sports**  
Basic philosophical, historical, scientific foundations and developments; function, settings of organized recreation.

**SRM:1072 Leisure and the Liberal Arts**  
Integration of the ideal of a liberal education with worthy, meaningful use of free time in contemporary society; classic writings in the humanities. GE: Values, Society, and Diversity.

**SRM:2065 The Experience Economy**  
Introduction to emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is now gaining ascendancy as the last, best hope for future economic growth; critical analysis of experience economy with discussion of ways in which experience economy may offer green, moral, and humane alternatives to previous stages of economic development; new opportunities for travel and tourism, sports settings, recreation and wellness services, possible applications in education and helping professions.

**Therapeutic Recreation**

**TR:1000 First-Year Seminar**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

**TR:1061 Recreation Leadership and Programming**  
Leadership principles, techniques; programming techniques.

**TR:1070 Perspectives on Leisure and Play**  
Relationships between leisure and economics, sociology, other social sciences; effect of leisure on individual and group behavior; antecedents, motives, consequences of leisure behavior. GE: Social Sciences.

**TR:1077 Introduction to Child Life**  
Orientation to the field of child life services including services for hospitalized children and their families.

**TR:1800 Basic Aspects of Aging**  

**Upper-Level Undergraduate and Graduate**

**Athletic Training Program**

**ATEP:3010 Clinical Sciences III**  
Theoretical and practical skill development in the areas of musculoskeletal evaluation for ankle, knee, shoulder, and upper extremity. Offered fall semesters. Prerequisites: ATEP:2040. Requirements: athletic training major.

**ATEP:3020 Clinical Sciences V: Rehabilitation**  
Rehabilitation for athletic trainers based on the theory and principles of therapeutic exercise; application of current research concepts. Prerequisites: ATEP:2040. Corequisites: ATEP:3010. Requirements: athletic training major.

**ATEP:3030 Practicum in Athletic Training III**  

**ATEP:3040 Clinical Sciences IV**  
Continuation of musculoskeletal evaluation, completion of EENT, chest, abdomen, and dermatologic evaluation; integration of rehabilitation programs. Offered spring semesters. Requirements: grade of C or higher in ATEP:3010.

**ATEP:4010 Administration of Athletic Training Programs**  
Health care supervision, professional athletic training responsibilities, philosophies in athletic health care. Offered fall semesters. Prerequisites: ATEP:2030.

**Health and Human Physiology**

**HHP:3000 Equity Issues in the Health Sciences**  
Examination of equity issues in the health sciences, including a review of the historical challenges that led to Human Subjects Review Boards, FDA oversight of drug development and clinical trials, inclusion of women in research; effect of situational ethics in the workplace; potential danger of making assumptions about clients/patients; importance of developing an inclusive communication style; assessing the effectiveness of family-friendly employment policies in providing equitable opportunities for career advancement for both women and men. Recommendations: junior or senior standing. Same as INTD:3020.

**HHP:3020 Nutrition for Health, Fitness, and Sport**  
Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as INTD:3027.
HHP:3030 Coaching for Health and Wellness
Opportunities to expand knowledge and develop skills to help individuals change behavior and meet health-related goals; general health and wellness principles; principles and techniques for change; experience providing health-coaching services to clients. Prerequisites: HHP:2200 and HHP:2310. Same as INTD:3030.

HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment
In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society. Prerequisites: HHP:2200 and HHP:2310.

HHP:3060 Advanced Human Anatomy for Athletic Trainers
Extremities and relevant body cavity anatomy; anatomical terminology, anatomical relationships of human body, 3-D view of anatomy, clinical relevance of anatomy; basic science lectures, radiologic imaging discussions, introduction to clinically relevant anatomy, dissection laboratories, small group learning and teaching, faculty interaction, and computer-assisted resources. Offered summer sessions. Prerequisites: HHP:1100.

HHP:3100 Health Literacy
Community and clinical issues related to health literacy; focus on understanding individual and systemic factors that influence health literacy, including education, context, culture, and health care systems. Prerequisites: HHP:2200 and HHP:2310.

HHP:3110 Advanced Anatomy Laboratory
Detailed gross anatomy of all major systems of the body; structure of the human body at organ, tissue, and cellular levels; examination of various human and other mammalian specimens. Prerequisites: HHP:1100 and HHP:1110.

HHP:3148 Introduction to Personal Training
Basics of personal training, including establishing a personal training business, screening, and assessing clients; current issues and certifications.

HHP:3200 Health Behavior and Health Promotion
Principles of epidemiology and health behavior theories applied to multilevel frameworks for health promotion. Prerequisites: HHP:2200 and HHP:2310.

HHP:3300 Human Growth and Motor Development
Human growth and biological maturation; focus on motor development from birth through puberty. Offered fall semesters. Recommendations: prior course in anatomy, human physiology, or biology.

HHP:3400 Applied Exercise Physiology
Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles necessary for more advanced study of fitness evaluation and exercise prescription; preparation for ACSM certification. Prerequisites: HHP:1300 or HHP:3500. Recommendations: at least one prior human physiology course.

HHP:3420 College Health Education
Practical experience in planning, implementing, and evaluating health programs in the college health setting; how health issues apply to individuals and communities to which they belong; foundation of health behavior change in college setting. Prerequisites: HHP:2200 and HHP:2310.

HHP:3430 Community and Worksite Health Promotion
Management and organizational theories; assessment, planning, implementation, and evaluation of clinical and work-setting (targeted) health promotion programs. Prerequisites: HHP:2200 and HHP:2310.

HHP:3440 Physical Activity and Healthy Communities
Development, implementation, evaluation of effective health communication interventions; identification of health education resources for targeted groups. Prerequisites: HHP:2200 and HHP:2310.

HHP:3450 Immunology in Health and Disease
Overview of immunology, beginning at the molecular level and ending with the role of the immune system in disease; fundamental concepts of the immune system; innate and adaptive immunity, focusing on cell-mediated and humoral immune responses, in addition to effector mechanisms in both of these responses; concepts of immunologic tolerance; autoimmune disease; immunodeficiency syndromes; the inflammatory process in disease. Prerequisites: HHP:3500.

HHP:3500 Human Physiology
Organ system approach to physiology; focus on normal function of human body; information on all levels of integration from submolecular to whole organism; emphasis on how intact organism functions. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110).

HHP:3510 Advanced Human Physiology Laboratory
Fundamental laboratory measurements; major physiological systems, experimental design, presentation of experimental data. Corequisites: HHP:3500, if not taken as a prerequisite.

HHP:3650 Advanced Sport and Exercise Psychology
Application of sport and exercise psychological theory; theoretical and practical experience using psychological skills training for sport and exercise. Prerequisites: HHP:2500.

HHP:3655 Emotional and Psychological Aspects of Health
Interfaces among emotional, psychological, and physical aspects of health; examination of how individuals with healthy psychological profiles engage in health behaviors; health-related implications of negative emotional and psychological states; strategies for promoting healthy psychological patterns; designed for health promotion, health studies students, and others interested in health-related careers. Prerequisites: HHP:2200.

HHP:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Requirements: junior or senior standing, or certificate student. Same as GHS:3850.

HHP:3860 Leadership Theory for Health and Fitness 3 s.h.
Theories and applications of current scholarship in group and individual leadership relevant for health, sport, fitness, and exercise leadership; areas of study include group dynamics, humanist leadership, leader-member exchange theory, transformational leadership, contingency/reinforcement leadership models, path-goal leadership, and multi-dimensional leadership models; approaches to leadership contextualized to build skills in cultural competence and ethics of leadership.

HHP:3870 Motivational Interviewing for Health Professions 3 s.h.
Theoretical foundations, empirical research support, and application of motivational interviewing; how people make changes with regard to health behaviors, how health professionals can support positive change, barriers to change process, empowerment and autonomy, intrinsic motivation, applications of motivational interviewing; theory and research; motivational interviewing for health behavior change; extensive applied practice of motivational interviewing techniques and group work to practice skills; discussion and application of techniques, research, and practical knowledge.

HHP:3900 Writing for Health and Human Physiology 3 s.h.
Effective written communication specific to health sciences; planning, drafting, revising, and peer-editing materials (e.g., personal statements, professional communications, general articles of interest, scientific papers); practicum experience. Requirements: HHP:3500.

HHP:4130 Skeletal Muscle Physiology 3 s.h.
Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Offered spring semesters.

HHP:4150 Clinical Exercise Physiology 3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 and HHP:4410. Recommendations: HHP:4460.

HHP:4190 Scientific Basis of Training for Elite Performance 3 s.h.
Application of scientific principles to goal of improving strength, speed, endurance, and overall human function; general overview of structure and function of muscular, nervous, cardiovascular, and respiratory systems; bioenergetics of exercise; endocrine response to exercise; biomechanics of resistance exercise; adaptations to anaerobic and aerobic training programs; age and sex related considerations on training; nutrition and ergogenic aids. Prerequisites: HHP:1100 and (HHP:1300 or HHP:3500).

HHP:4195 Exercise Programming for Special Populations 3 s.h.
Measurement of health-related fitness and exercise capacity in special populations (e.g., children, older adults, obesity, orthopedic problems, cerebral palsy, intellectual disabilities). Prerequisites: HHP:2200.

HHP:4200 Metabolic Exercise Testing and Prescription 3 s.h.
Basic techniques in physical fitness assessment, prescription of exercise for healthy and unhealthy adults, promotion of physical activity within communities; provides knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200. Corequisites: HHP:3400 or HHP:4410. Requirements: health promotion, exercise science, or human physiology major.

HHP:4210 Musculoskeletal Exercise Testing and Prescription 3 s.h.
Educational and practical experience for designing resistance training and flexibility programs; competencies for certification with National Strength and Conditioning Association. Prerequisites: HHP:2200. Corequisites: HHP:3400 or HHP:4410 if not taken as a prerequisite. Requirements: health promotion, exercise science, or human physiology major.

HHP:4220 Biomechanics of Human Motion 3 s.h.
Application of the principles of mechanics to investigation of human motion in two dimensions; system modeling, force system and equilibrium analysis, particle and rigid body kinematics, Newton's and Euler's equations of motion, work-energy and impulse-momentum integral principles. Offered spring semesters.

HHP:4230 Motor Learning: Theory and Application 3 s.h.
How skilled motor behavior is acquired; behavioral changes that occur during skill acquisition; structural and physiological changes that occur in central nervous system; principles of training and practice that yield efficient and effective motor learning; how this information is helpful to health professionals involved in motor rehabilitation, physical educators and coaches, music instructors and musicians, strength and conditioning professionals, fitness professionals, and athletes, among others. Prerequisites: HHP:1300. Recommendations: familiarity with basic neuroscience (neurons, synaptic transmission, basic anatomical organization of sensory and motor systems).
HHP:4250 Human Pathophysiology 3 s.h.
In-depth study of human pathological processes and their effects on homeostasis; etiology, symptoms, and risk factors of various diseases; emphasis on major diseases impacting worldwide disability and death; how pathological processes are manifested and progress in the body. Prerequisites: HHP:1100 and HHP:3500.

HHP:4260 Respiratory Pathophysiology 3 s.h.
Structure and function of human respiratory system; focus on didactic and case study‑based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:1100 and HHP:3500. Recommendations: PHYS:1511, and MATH:1460 or MATH:1850.

HHP:4300 Neural Control of Posture and Movement 3 s.h.
Neuroanatomical and neuropathological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Offered spring semesters. Requirements: anatomy or human physiology course.

HHP:4310 Sport and Exercise Nutrition 3 s.h.
Relationship between nutrition, fitness and sport performance; basic nutrition, physiology, chemistry, psychology, food preparation. Prerequisites: HHP:2200 and HHP:2310.

HHP:4320 Nutrition Interventions 3 s.h.
Strategies that assist in assessment and evaluation of nutrition behaviors of individuals and groups; interventions to meet nutritional needs of individuals and groups with a variety of health issues. Prerequisites: HHP:2200 and HHP:2310. Requirements: admission to health promotion track.

HHP:4340 Global Health and Global Food 3 s.h.
Practices, patterns, and policies that contribute to the epidemics of obesity, diabetes, and heart disease in wealthy populations; environmental degradation, hunger, and malnutrition among impoverished populations; strategies to meet food and agricultural needs for the world; local/global aspects or perspectives on food/health concerns for Iowa and the international community. Same as GHS:4340.

HHP:4350 Practicum in Personal Training 2 s.h.
Opportunity to observe personal trainers in a fitness setting; participation in process of helping clients achieve health/fitness goals. Prerequisites: HHP:1100 and (HHP:1300 or HHP:3500) and HHP:2310 and (HHP:3400 or HHP:4410). Requirements: CPR/AED or Group Fitness Instructor (ACSM, ACE, AFAA) certification.

HHP:4360 Practicum in Group Fitness Instruction 2 s.h.
Opportunity to observe group‑fitness instructors in an applied setting; help organize and execute a group‑fitness class. Prerequisites: HHP:1100 and (HHP:1300 or HHP:3500) and HHP:2310 and (HHP:3400 or HHP:4410). Requirements: CPR/AED or Group Fitness Instructor (ACSM, ACE, AFAA) or specific fitness (yoga, indoor cycling, crossfit) certification.

HHP:4370 Practicum in Strength and Conditioning 2 s.h.
Opportunity to observe strength and conditioning professionals in an applied setting; participation in process of helping athletes reach performance goals. Prerequisites: HHP:1100 and (HHP:1300 or HHP:3500) and HHP:2310 and (HHP:3400 or HHP:4410). Requirements: CPR/AED certification.

HHP:4390 Understanding Human Disease 3 s.h.
Introduction to process of human disease at cell, organ, and whole body level throughout the lifespan; pathophysiological changes occurring with disease, including risk factors, disease development, and overall effects of disease on the body; cancer, diabetes, obesity, cardiovascular, neurodegenerative diseases, and aging. Prerequisites: HHP:1300 or HHP:3500.

HHP:4400 Health Promotion Clinical Practicum 1 s.h.
Experience in planning and implementing clinical health promotion programs focusing on nutrition, physical fitness, cardiac rehabilitation, and respiratory rehabilitation. Prerequisites: HHP:3200 and HHP:4200.

HHP:4405 Health Promotion Community and Worksite Practicum 1 s.h.
Planning and implementing community and worksite health promotion programs. Prerequisites: HHP:3200 and HHP:4200.

HHP:4410 Exercise Physiology 3 s.h.
Mechanisms responsible for the acute and chronic effects of exercise on the different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:3500.

HHP:4415 Exercise Science Practicum 1 s.h.
Experience in planning and implementing exercise programs related to physical fitness, including strengthening and conditioning in healthy and diseased/injured populations, and in elite athletes.

HHP:4420 Planning and Evaluating Health Interventions 3 s.h.
Assessment, planning, implementation, and evaluation of health promotion programs. Prerequisites: HHP:3200. Requirements: admission to health promotion program.

HHP:4440 Physiology of Nutrition 3 s.h.
Metabolic and biological aspects of human energy production, relationship to energy consumption; systems or integrative approach.

Preparation for internship experience.
Directed practical field experience; program planning, implementation, evaluation, administrative procedures.
Directed practical field experience; program planning, implementation, evaluation, and administrative procedures.
First step to complete an honors thesis; work with health and human physiology faculty member; comprehensive readings in a specific area (e.g., obesity in children, disabilities and sport); readings include primarily research reviews, popular press, and editorials; production of an annotated bibliography summarizing readings and presentation to faculty member at end of semester; brief research proposal summarizing background, research questions, and methods of selected area.
Continuation of HHP:4940; original research or creative project supervised by a faculty member.
Sport and Recreation Management

SRM:3147 Sport Event Management 3 s.h.
Current status, challenges, and opportunities in sporting event industry; sporting event planning, budgeting, marketing, sponsorship, and evaluation; development of event timelines and event management skills; introduction to networking and interaction with sporting events. Recommendations: SRM:3154.

SRM:3149 Coaching Interscholastic Athletics 3 s.h.
Techniques and theories of coaching interscholastic athletes; ethics and legal responsibilities of coaching; coaching youth sports; leadership principles and techniques, organizational theories, assessment and implementation of coaching styles; trends, foundations, and principles related to basic philosophies of organized coaching; capstone course for certification of youth sports programs; credit and documentation for advanced coaching certification.

SRM:3150 Recreation Administration 3 s.h.
Personnel, finance, budgets, liability, marketing.

SRM:3151 Liability in Sport and Recreation 3 s.h.
Unintentional torts (negligence), civil liability, and criminal liability in recreation and sport settings; focus on community/commercial recreation and campus recreation settings. Requirements: must have 30 s.h. completed.

SRM:3152 Sport and Recreation Facility Management 3 s.h.
Facilities management, personnel assignment and evaluation, fee structures, maintenance, programming, compliance with regulations and standards. Requirements: must have 30 s.h. completed.

SRM:3153 Sport Business Practices 3 s.h.
Business of professional and intercollegiate athletics including league, team, and player-level issues; revenue generation and distribution; competitive balance issues; sport league structure strategies: business behind intercollegiate athletics and challenges facing NCAA structure; negotiation. Requirements: must have 30 s.h. completed.

SRM:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures. Same as EVNT:3250, JMC:3250.

SRM:3156 Design of Recreation Facilities 3 s.h.
Horticulture, floriculture, landscape design, agronomy, turf management; their relation to planning and design of recreation and park areas and facilities. Requirements: must have 30 s.h. completed.

SRM:3157 Managerial Operations in Sport and Recreation 3 s.h.
Introduction to the operation of a private or nonprofit sport-related business.

SRM:3158 Sport and Recreation Promotion 3 s.h.
Foundations and principles of recreation sport promotion and sales operation; application of foundations and principles to sport and recreation industries; historical aspects; current and future trends of sport and recreation management as it relates to sales and promotions; sales management, marketing, financial/economic, legal, and ethical principles related to sport management. Requirements: must have 30 s.h. completed.

SRM:3172 Finance in Sport and Recreation 3 s.h.
Capital funding and revenue acquisition for funding public and private sport and leisure service organizations; contemporary sport and leisure service; financial and economic issues. Requirements: 30 s.h. completed.

SRM:3175 Sales in Sport 3 s.h.
Fundamentals of business development and sales management; incentivizing sports consumers, direct and indirect sales strategies, brand communications, atmospherics, technology in sports sales, ticket sales, licensing products, negotiating sports sponsorships, and brand building. Recommendations: health and human physiology major.

SRM:3176 Sports Analytics for Coaches, Managers, and Other Decision Makers 3 s.h.
Data management, analytic models, and information systems; how sports analytics are used to make decisions for structuring athletic departments, develop in-game competitive strategies, and improve player performance; analytic examples applied to professional sports, college sports, high school sports, and fantasy sports; experience with statistics or computer science not required.

SRM:3177 Communications and Public Relations in Sports 3 s.h.
How public relations is used to promote service products, demonstrate social responsibility, and communicate with consumers and investors; campaigns, customer service, legal and ethical considerations in promoting service products, media events, information services, public relations in strategic management, atmospherics, critical service moment, social media. Recommendations: health and human physiology major.

SRM:3300 Writing for Sport and Recreation Managers 3 s.h.
Development of effective writing skills that apply to diverse professional situations; proper mechanics of effective writing, persuasive writing, informative writing, factual writing; writing styles applied to document formats (e.g., press releases, emails, memos, marketing messages, interviews, fundraising requests, digital newsletters); student-centered activities in a workshop format.

**SRM:4190 Preinternship**
Orientation to internship process. Requirements: sport and recreation management major.

**SRM:4194 Honors Readings**
arr.

**SRM:4195 Honors Problems**
arr.

**SRM:4196 Internship**
Capstone course for recreation sport business track; 360 contact hours of practical experience with private or nonprofit recreation or sport-related enterprise; supervision by an agency mentor and a university representative. Prerequisites: SRM:1060 and (SRM:3150 or SRM:3157) and SRM:3151 and SRM:3152 and SRM:3153 and SRM:3156 and SRM:3158 and SRM:3172 and SRM:4190. Requirements: completion of all recreation sport business core courses, foundation courses, and elective concentration courses.

**SRM:4197 Sport and Recreation Business Practicum**
1-3 s.h.
Educational opportunity involving a small group of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation prior to off-campus work with designated agency; sport or recreation enterprise vary according to faculty expertise and agency availability.

**SRM:4198 NCAA Rules Compliance and Enforcement**
3 s.h.
Rules that govern NCAA athletics, rules compliance function on campuses of member institutions, and enforcement of rules by NCAA; essential legislation in NCAA Manual, including bylaws covering recruiting, eligibility, and amateurism; history of NCAA as related to organization's current structure and activities; summer session capstone experience includes attendance at NCAA Regional Rules Seminar in Indiana and participation in educational sessions conducted by NCAA staff.

**Therapeutic Recreation**

**TR:3160 Introduction to Therapeutic Recreation**
3 s.h.
Lifestyles and barriers faced by persons with disabilities; basic aspects of the therapeutic recreation profession; skills used to establish therapeutic relationship; techniques used with patients; theoretical and conceptual bases for practice.

**TR:3161 Assessment and Evaluation in Therapeutic Recreation**
3 s.h.
Basic assessment psychometrics (e.g., reliability), standardized instrumentation and data collection (e.g., observation, self-report), construction of instruments, data reduction. Prerequisites: TR:3160.

**TR:3162 Therapeutic Recreation: Clientele**
3 s.h.
Developmental patterns of special populations; examination of specific interventions and research applied to specific cognitive, emotional, and physical impairments.

**TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession**
Ethical, professional, and theoretical issues in delivery of therapeutic recreation services; impact of legislation, standards of practice, health care reform; application of research to practice and marketing services. Prerequisites: TR:3160.

**TR:3164 Therapeutic Recreation: Rehabilitation**
In-depth review of therapeutic recreation techniques used in clinical and community rehabilitation; opportunities to use techniques with patients. Prerequisites: TR:3160.

**TR:3165 Child Life: Methods and Materials**
3 s.h.
Interventions unique to child life practice (e.g., pain management, coping, preoperative play, terminal illness). Prerequisites: TR:1077.

**TR:3166 Child Life: Seminar**
3 s.h.

**TR:3170 Children and Health Care**
3 s.h.
Broad overview of issues and systemic approaches to working with children in a health care setting; practical and clinically-based experiences for pediatric population; provision of health care services to patients and issues that affect them; models of intervention, ethical issues, case studies, and impact of cultural diversity on health care; for undergraduates who are interested in working with children in a health care setting.

**TR:3171 Child Life Practical Application**
3 s.h.
Overview of medical conditions and treatments commonly encountered by children and adolescents in health care settings; common pediatric sedation medications; sequence of medical procedures to understand how to provide procedural preparation and support; facilitate medical play with pediatric population.

**TR:3174 Cultural Perspectives in Health Care**
3 s.h.
Health care beliefs related to various cultures and religions; focus on illness, hospitalization, treatment, death.

**TR:3260 Play and Childhood**
arr.
Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well being and healthy lifestyles; practical- and theoretically-based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings. Prerequisites: TR:1077.
TR:3261 Inclusive Recreation 3 s.h.  
Laws pertaining to access to recreation and leisure opportunities for disabled persons in a community; evaluation of physical access to built environment; how social construction of disability can be a barrier to integrated leisure involvement; practical aspects of how to include disabled persons in community recreation and sport activities.

TR:3281 Special Projects in Child Life Practice 2 s.h.  
Student directed and student led hospital camping experience for patients at the University of Iowa Children’s Hospital; planning and preparing for a large function, planning and leading therapeutic activities, working directly with patients and their families, processing and discussion of experiences and concerns; practical and clinical-based experiences for students interested in working with pediatric population in health care setting. Requirements: hospital orientation, patient confidentiality (HIPAA) training, and health screening.

TR:4167 Child Life Practicum 1-3 s.h.  
Experience observing and assisting child life staff members providing services to hospitalized children, under Certified Child Life Specialist supervision.

TR:4169 Spring Break Child Life Experience 1 s.h.  
Practical experience with ill children, including a trip to the Give Kids the World village in Florida; documentation and engagement of course materials, experience working with ill children; students are assigned a specific diagnosis and present the diagnosis (appropriate statistics, effects of hospitalization, treatment, etc.) on child and family; coping strategies, appropriate methods of talking to and interacting with children and families, overview of child life in hospitals.

TR:4190 Preinternship Seminar 1 s.h.  
Interviewing skills, résumés and cover letters, selection of internship site(s), application procedures for internship positions, and responsibilities of interns to the agency.

TR:4191 Therapeutic Recreation Internship arr.  
Practical field experience; direct leadership, program planning, administrative procedures. Prerequisites: TR:4190.

TR:4192 Child Life Internship 9,12 s.h.  

TR:4193 Independent Study arr.  
Problem in a specific area.

TR:4194 Honors Readings arr.  
Independent reading or research project under faculty supervision usually leading to an honors paper. Requirements: admission to honors program.

TR:4195 Honors Problems arr.  
Completion of a project over and above normal independent study as an honors project; major research effort involving close work with an advisor.

Graduate

Athletic Training Program

ATEP:5010 Seminar in Athletic Training 1-4 s.h.  
Educational issues faced by approved clinical instructors in athletic training education programs. Offered fall semesters.

Health and Human Physiology

HHP:5000 Problems arr.  

HHP:6000 Research arr.  

HHP:6010 Non-Thesis Seminar 2 s.h.  
For candidates for the M.S. without thesis. Offered spring semesters.

HHP:6050 Advanced Topics in Obesity 3 s.h.  
In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society.

HHP:6130 Advanced Skeletal Muscle Physiology 1,3 s.h.  
Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Offered spring semesters. Prerequisites: HHP:3500.

HHP:6150 Advanced Clinical Exercise Physiology 1,3 s.h.  
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 and HHP:4410. Recommendations: HHP:4460.

HHP:6200 Advanced Metabolic Exercise Testing and Prescription 1,3 s.h.  
Basic techniques in physical fitness assessment; prescription of exercise for healthy and unhealthy adults; promotion of physical activity within communities; knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:1300 or HHP:3500).

HHP:6210 Epidemiology of Physical Activity 3 s.h.  
Physical activity/disease relationships examined through application of epidemiologic methods, including research design, interpretation of studies, selection of measures to fit research questions. Same as EPID:6245.
HHP:6300 Seminar in Motor Control 1 s.h.
Current topics in neural control of movement, biomechanics, and rehabilitation sciences.

HHP:6400 Integrative Physiology Seminar 1 s.h.
Current topics in cardiovascular physiology, vascular biology, free radical biology.

HHP:6410 Advanced Exercise Physiology 1.3 s.h.
Mechanisms responsible for acute and chronic effects of exercise on different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:3500.

HHP:6460 Advanced Cardiovascular Physiology 1.3 s.h.

HHP:6470 Advanced Physiology of Aging 1.3 s.h.
Effects of aging on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:1100 and HHP:3500.

HHP:6480 Advanced Human Pharmacology 1.3 s.h.
General pharmacology (administration, distribution, elimination of drugs, dose response curves, adverse effects, placebos, homeopathy); pharmacotherapy of selected human diseases, pathophysiologic aspects of disease, how different classes of drugs modify pathophysiologic effects to restore health or reduce impact of disease; focus on mechanisms of drug actions in humans; adverse effects, pharmacokinetic considerations, drug interactions; how to write prescriptions. Prerequisites: HHP:3500.

HHP:6500 Seminar in Health Promotion 1 s.h.
Peer and faculty response to graduate student work addressing health promotion, physical activity and health outcomes, clinical exercise physiology; review and critique current literature; presentation of published work or in-process projects; critical thinking, scientific writing, and oral communication skill development pertaining to health promotion.

HHP:6510 Advanced Energy Metabolism in Health & Disease 1.3 s.h.

HHP:7000 Practicum in College Teaching arr.

HHP:7290 Graduate Internship 3-9 s.h.
Requirements: recreational sports management emphasis.

HHP:7300 Advanced Neural Control of Posture and Movement 1.3 s.h.
Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Offered spring semesters. Prerequisites: HHP:3500. Requirements: anatomy or human physiology course.

HHP:7500 Thesis: M.S. 0-4 s.h.

Sport and Recreation Management

SRM:5065 The Economy of Experience 3 s.h.
In-depth analysis of emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is gaining ascendancy as the last, best hope for future economic growth; exploration of current research in positive psychology and sociologist findings on evolution of post-materialist values as related to experience economy; evaluation of current trends; critical analysis and theory development; case studies; original research and investigation of novel marketing possibilities and experience design.

SRM:6251 Risk Management 3 s.h.
Legal knowledge necessary for effective management of sport, recreation, and physical activity programs, avoidance of legal problems; strategies for addressing issues such as right to participate, liability for injuries, risk management; legal statutes that govern sport, health, recreation organizations.

SRM:6252 Economics and Financing 3 s.h.
Economic issues for sport/leisure services in nonprofit, private/commercial, and public sectors; strategic financial analysis for the nonfinancial manager; principles, issues in financing sport/leisure organizations.

SRM:6253 Sport Administration 3 s.h.
Overview of various segments that constitutes the role and function of a sport administrator (i.e., planning, organizing, leading, controlling); focus on ways in which sport administrators and their subsequent organizations influence and are influenced by the link between sport and globalization; sport administration encompassing services provided within an organizational context; administration viewed as the coordination of production and distribution of those services.

SRM:6254 Marketing and Sport Promotion 3 s.h.
Overview of varied segments that constitutes sports business practice, including marketing, data-based marketing, sales, promotion, sponsorship; varied segments that make up the sport industry, including the mass media, infrastructure, stadium building, consumer behavior; readings and discussions consider the development and structure of each segment, interactions between segments, planning, policy implications; focus on the United States, professional team sports, comparisons to other sports.

Therapeutic Recreation

TR:5200 Historical and Philosophical Perspectives on Leisure 3 s.h.
Historical and philosophical origins of leisure studies; historical issues related to leisure ideas, such as shorter hours, share-the-work, utopian vision of a better society.

TR:5205 Research Methods and Leisure 3 s.h.
Behavior
The scientific process: research designs for experiments and surveys, questionnaire construction, sampling theory, basic data analysis.

TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h.
Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:1077.

TR:6262 Procedures in Therapeutic Recreation 3 s.h.
Current issues in the field; application of business and research principles to therapeutic recreation practice and program administration.

TR:7289 Graduate Practicum in Therapeutic Recreation 3 s.h.
Field placement with a therapeutic recreation service delivery agency; meets NCTRC certification standards. Prerequisites: TR:3160. Corequisites: TR:3163 and TR:3164.

Health and Physical Activity Skills

HPAS:1001 Alcohol and Your College Experience 1 s.h.
Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

HPAS:1002 Tobacco and Your College Experience 1 s.h.
Current behavior change theories related to tobacco use, cessation; nicotine replacement therapies (NRT), non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, support systems; for smokers and non-smokers.

HPAS:1003 Resiliency and Your College Experience 1 s.h.
Resiliency and psychological hardiness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional well-being.

HPAS:1004 Food and Your College Experience 1 s.h.
Sociocultural perspective on the forces that facilitate "junk" diets, particularly during young adulthood; basic components of nutrition; opportunity to develop skills in diet planning and healthy eating.

HPAS:1005 Indoor Group Cycling 1 s.h.
Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

HPAS:1010 Personal Fitness 1 s.h.

HPAS:1020 Core Strengthening 1 s.h.

HPAS:1030 Aerobics 1 s.h.

HPAS:1040 Pilates 1 s.h.

HPAS:1060 Resistance Training 1 s.h.

HPAS:1070 Hawkeye Pump I 1 s.h.
Introduction to basic principles of weight training using barbells and dumbbells as resistance; muscular anatomy, principles of weight training, muscular strength, muscular endurance, weight room safety, motivation and goal setting, personal program development; no prior weight training experience required.

HPAS:1075 Hawkeye Pump II 1 s.h.
Builds on skills and concepts acquired in HPAS:1070; advanced weight training programs aimed at developing muscular strength and endurance. Prerequisites: HPAS:1070. Recommendations: knowledge of basic anatomy, ability to demonstrate proper lifting techniques, and understanding of weight training principles.

HPAS:1080 Olympic Weightlifting 1 s.h.
Introduction to Olympic weightlifting exercises including snatch, clean and jerk, power snatch, and power clean. Prerequisites: HPAS:1070.

HPAS:1110 Fitness Walking 1 s.h.

HPAS:1130 Jogging I: Beginners 1 s.h.

HPAS:1135 Jogging II 1 s.h.

HPAS:1210 Relaxation Techniques 1 s.h.

HPAS:1220 Flexibility 1 s.h.

HPAS:1230 Hatha Yoga 1 s.h.

HPAS:1320 Lap Swimming I 1 s.h.

HPAS:1325 Lap Swimming II 1 s.h.
Prerequisites: HPAS:1320.

HPAS:1410 Badminton 1 s.h.

HPAS:1430 Racquetball 1 s.h.

HPAS:1440 Table Tennis 1 s.h.

HPAS:1450 Tennis 1 s.h.

HPAS:1530 Volleyball I 1 s.h.

HPAS:1535 Volleyball II 1 s.h.
Prerequisites: HPAS:1530.

History

Chair
• Elizabeth Heineman

Undergraduate major: history (B.A.)
Undergraduate minors: history; Latina/o studies
Graduate degrees: M.A. in history; Ph.D. in history
Faculty: http://clas.uiowa.edu/history/people/faculty
Web site: http://clas.uiowa.edu/history/

The Department of History’s purpose is to increase knowledge of human experience and provide students with opportunities to gain information about and learn methods for understanding their world in light of its past. In addition to offering these essential elements of a liberal education, the department trains professional historians and teachers of history and serves those who require knowledge of a period or aspect of history as background for their own specialized interests in other fields.

Faculty and students in the department participate in many of the University’s interdisciplinary departments and programs, including American studies, African American studies, ancient civilizations, Asian studies, international studies, Latin American studies, and gender, women’s, and sexuality studies.

Undergraduate Programs of Study

• Major in history (Bachelor of Arts)
• Minor in history
• Minor in Latina/o studies

Students who major in history work in a variety of positions in business, education, public service, advertising, and journalism after graduation. Many go on to graduate study in history, law, religion, library and information science, or social work.

History majors are encouraged to take courses in other fields that illuminate and expand the meaning of history courses and that introduce information and a variety of approaches to understanding how societies and cultures work.

For example, students majoring in history are encouraged to complete the College of Liberal Arts and Sciences General Education Program (p. 313) foreign language requirement by choosing a language that fits their interests in history. The department’s faculty members particularly encourage study abroad programs that complement students’ foreign area interests. Majors also are encouraged to improve their writing and speaking skills.

Bachelor of Arts

The Bachelor of Arts with a major in history requires a minimum of 120 s.h., including 36 s.h. of work for the major. History courses numbered 1000-1999 do not count toward the 36 s.h. for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

College Level Equivalency Program (CLEP) and Advanced Placement Program (APP) credit does not count toward the history major. Transfer work that is equivalent to University of Iowa course work may be accepted toward the major, but at least 18 s.h. of work for the major, including the introductory course, must be taken at the University of Iowa.

The major is designed for students with a general interest in history. Requirements include an introductory course and a history portfolio in addition to a range of course work in history.

Undergraduate courses in history are divided into four areas: American history, European history, non-Western world history, and courses that have no specific area designation.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 2200-2299, 3200-3299, and 4200-4299) toward the major.

Students also may count a maximum of 8 s.h. earned in the following courses toward the major. Courses on this list that are approved for General Education may be counted toward fulfillment of General Education Program requirements as well as toward requirements for the history major.

HIST:2401 Western Civilization I 3-4 s.h.
HIST:2402 Western Civilization II 3-4 s.h.
HIST:2403 Western Civilization III 3-4 s.h.
HIST:2602 Civilizations of Asia: China 3 s.h.
HIST:2604 Civilizations of Asia: Japan 3-4 s.h.
HIST:2606 Civilizations of Asia: South Asia 3-4 s.h.
HIST:2607 Civilizations of Asia: Korea 3-4 s.h.
HIST:2609 India Now! A Survey from Bollywood Films to Global Terror 3-4 s.h.
HIST:2708 Civilizations of Africa 3 s.h.

The major in history requires the following course work.

INTRODUCTORY COURSE

Students enroll in the following course as soon as possible after declaring the major in history. Each section of the course covers a different area of history, as indicated by the section subtitle. The course includes assigned papers; students must include at least one of the papers in their history portfolio (see "Portfolio" below).

HIST:2151 Introduction to the History Major 3 s.h.

HISTORY COURSES

In addition to completing HIST:2151, students must earn a minimum of 33 s.h. in history courses, including geographical area and era courses (American, European, non-Western world, and pre-1700 history). Students may count a maximum of 18 s.h. earned in American history courses toward the major.

Work for the major must include the following geographical area and era courses.

Two American history courses (numbered 2200-2299, 3200-3299, or 4200-4299) including at least one numbered 3000 or above 6 s.h.
Two European history courses (numbered 2400-2499, 3400-3499, or 4400-4499) including at least one numbered 3000 or above 6 s.h.

Two non-Western world history courses (numbered 2500-2899, 3500-3899, 4500-4999) including at least one numbered 3000 or above 6 s.h.

One pre-1700 history course (see the following list) 3 s.h.

A course within the number range 2100-2199, 3100-3199, 3995-3996, or 4100-4199 does not fulfill a specific geographical area or era, but will count toward degree requirements.

A course taken to fulfill the pre-1700 history course requirement also may be counted toward the requirement in American, European, or non-Western world history.

These courses fulfill the pre-1700 history course requirement:

- HIST:2401 Western Civilization I 3-4 s.h.
- HIST:2402 Western Civilization II 3-4 s.h.
- HIST:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
- HIST:2602 Civilizations of Asia: China 3 s.h.
- HIST:2604 Civilizations of Asia: Japan 3-4 s.h.
- HIST:2606 Civilizations of Asia: South Asia 3-4 s.h.
- HIST:3211 Native North America I: Precontact-1789 3 s.h.
- HIST:3405 Engineering and Technology in the Ancient Mediterranean 3 s.h.
- HIST:3409 Medieval Civilization I 3 s.h.
- HIST:3410 Medieval Civilization II 3 s.h.
- HIST:4220 The Frontier in American History to 1840 3 s.h.
- HIST:4270 Colonial North America, ca. 1600-1775 3 s.h.
- HIST:4289 The Atlantic World c. 1450-1850 3 s.h.
- HIST:4400 The Roman Empire 3 s.h.
- HIST:4401 Ancient Egypt and the Ancient Near East 3 s.h.
- HIST:4404 The World of Ancient Greece 3 s.h.
- HIST:4406 Warfare in Ancient Mediterranean Society 3 s.h.
- HIST:4407 The Hellenistic World and Rome 3 s.h.
- HIST:4411 Economic and Social History of Medieval Europe 3 s.h.
- HIST:4412 History of the Medieval Church 3 s.h.
- HIST:4417 Medieval Intellectual History 3 s.h.
- HIST:4418 Medieval Intellectual History 3 s.h.
- HIST:4419 Ancient and Medieval Science 3 s.h.
- HIST:4423 Ireland in the Early Middle Ages 3 s.h.
- HIST:4426 Women, Power, and Society in Medieval Europe 3 s.h.
- HIST:4427 Society and Gender in Europe 1200-1789 3 s.h.
- HIST:4431 Early Modern England 3 s.h.
- HIST:4510 Colonial Latin America 3 s.h.
- HIST:4610 Japan—Age of the Samurai 3 s.h.
- HIST:4710 Pre-Colonial African History 3 s.h.
- HIST:4724 Crossing the Indian Ocean 3 s.h.
- HIST:4910 The Book in the Middle Ages 3 s.h.
- HIST:4920 The Transition from Manuscript to Print 3 s.h.

PORTFOLIO

All history majors must complete a portfolio, enrolling in the following course during their final semester or summer session.

- HIST:3193 Undergraduate History Portfolio 0 s.h.

The portfolio must include at least three graded papers written for history courses a student has completed; one of the papers should be from HIST:2151 Introduction to the History Major. The papers in the portfolio should show the development of the student’s skills.

Students should submit their portfolios on the University of Iowa ICON page for HIST:3193 early during the semester in which they plan to graduate.

B.A. with Teacher Licensure

History majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Course work required for licensure to teach social studies in secondary schools includes a minimum of 15 s.h. in American history (numbered 2200-2299, 3200-3299, and 4200-4299); a minimum of 15 s.h. in non-U.S. history (numbered 2100-2199, 2400-2899, 3100-3199, 3400-3899, 4100-4199, and 4400-4999); and 15 s.h. in a related area outside of history chosen from economics, geography, anthropology, psychology, sociology, or American government. Courses taken as part of the history major, including HIST:2151 Introduction to the History Major, may be counted toward the 15 s.h. in American history and 15 s.h. in non-U.S. history required for certification.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the fifth semester begins: three courses in the major, including HIST:2151 Introduction to the History Major

Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: three more courses in the major and submission of the portfolio of written work (three graded history papers) to the director of undergraduate studies through the HIST:3193 Undergraduate History Portfolio ICON site (a student must
be enrolled in HIST:3193 in order to submit his or her portfolio)

**During the eighth semester:** enrollment in all remaining course work in the major (two courses), all remaining General Education courses, and a sufficient number of semester hours to graduate

### Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

### Honors in the Major

Students majoring in history have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. Students write an honors thesis, which is an extended research paper (30-40 pages). They usually complete the thesis during the spring semester of their junior year or fall semester of their senior year. Research for the thesis is done under the supervision of a faculty member who specializes in the field that a student chooses for his or her research. Students register for 3 s.h. of HIST:3995 History Honors Research Seminar and HIST:3996 Theses in each of two semesters. The 6 s.h. of credit counts toward the credit required for the history major.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

### Minor: History

The minor in history requires a minimum of 15 s.h. in history courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in Latina/o studies requires the following course work.

**Foundational course:**

### Graduate Programs of Study

- Master of Arts in history
- Doctor of Philosophy in history

Graduate study in history prepares students for occupations such as high school or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service. With additional specialized training, students may become qualified for careers in archival, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service.
work, library work, museum work, or historical site preparation and display. Some choose to pursue the joint Master of Arts/Juris Doctor program, which leads to degrees in both law and history (see the College of Law (p. 969) section of the Catalog for information about the J.D. degree).

Students interested in graduate work may obtain a copy of the current Guide to Graduate Study at the University of Iowa from the Department of History web site. The guide is revised every summer to include the latest faculty listing, research interests of faculty members, detailed regulations on study toward advanced degrees, and other information for students.

Master of Arts

The Master of Arts program in history requires a minimum of 30 s.h. of graduate credit and is offered with two options: one for students who plan to work toward the Ph.D., the other for students who do not. The two plans differ mainly in their concentration in fields: the Ph.D. track emphasizes development of research capabilities culminating in the essay; the non-Ph.D. track stresses breadth of learning.

The M.A. with Ph.D. track requires completion of a research essay. Students must earn at least 24 s.h. of the minimum of 30 s.h. required for the degree in Department of History courses numbered 3000 or above, including at least two seminars, or one seminar and one readings course numbered 6000 or above. One seminar or readings course must be taken in each of the first two semesters of residence. Students must earn 12 s.h. in the area of their essay topic and at least 6 s.h. in a second division, including either a seminar or a readings course numbered 6000 or above. Students in this track are required to take HIST:6001 First-Year Graduate Colloquium during their first semester in the program. History Research Methods [HIST:6002] must be completed prior to earning the M.A. degree.

The essay in the major division must be based on original research and should be approximately 10,000 to 15,000 words long. It usually begins as a term paper for the seminar in the major division and is completed the following semester under the supervisor's guidance. The finished product should emulate the character of articles in learned journals, just as the Ph.D. dissertation takes the form of a full-length scholarly monograph.

Requirements for the M.A. with non-Ph.D. track are similar to those for the Ph.D. track. Students must earn 24 s.h. of the minimum of 30 s.h. required for the degree in Department of History courses numbered 3000 or above. Students in this track are required to take HIST:6001 First-Year Graduate Colloquium during their first semester in the program. They earn 12 s.h. in one major division of history and must include at least one readings or seminar course numbered 6000 or above. Students earn an additional 12 s.h. in history by taking 6 s.h. in each of two other divisions of history, or by taking 6 s.h. in one other division of history plus 6 s.h. in a related department; the additional 12 s.h. in history must include at least one readings or seminar course numbered 6000 or above.

After completing these requirements, or during the semester in which they will complete them, M.A. students must take an oral and written comprehensive examination in their major division.

Doctor of Philosophy

The Doctor of Philosophy program in history requires at least 72 s.h. of graduate credit, including credit for work done for the master's degree.

Students who earn the M.A. with research essay at the University of Iowa may be admitted to the Ph.D. program on the favorable recommendation of the examining committee. Students who earn an M.A. at another university must meet the admission requirements of the Graduate College and the Department of History (see "Admission" below). They must submit a writing sample, such as a seminar paper or an M.A. thesis. They also must take a research seminar during their first two semesters in residence at Iowa.

Ph.D. students must complete at least eight graduate-level Department of History courses numbered 6000 or above, earning 3 or 4 s.h. of credit for each course. The courses must be research seminars (minimum of three) and graduate readings courses (minimum of five). At least five of the eight courses must be completed before a student takes the comprehensive examination. Courses taken at the M.A. level may be counted toward this requirement. Prior to completing the Ph.D., all students in the program must complete all three required courses: HIST:6001 First-Year Graduate Colloquium, HIST:6002 History Research Methods, and HIST:6003 History Theory and Interpretation. These courses develop an understanding of the philosophy of history, historiography, and methods of historical research.

The department has no general language requirement for the Ph.D., but the supervising faculty member may require a student to demonstrate a reading knowledge of one or more foreign languages and proficiency in the use of other study tools. Students may not complete the comprehensive examination until these requirements have been met.

The comprehensive written and oral examination covers three distinct fields. Two of the fields must be in a major division chosen from the following divisions.

- Africa
- China
- East Asia
- Europe, early modern
- Europe, modern
- Europe, medieval
- India
- Japan
- Korea
- Latin America
- The ancient world
- The Middle East
- The United States

Students may construct another field, subject to approval by the comprehensive exam committee.

The third field must be a division outside the student's major division or a field from a related department outside history. The committee may define and delimit the individual fields for examination. It also may set, separately for each field, the character of the written portion of the comprehensive examination, which may take the form of a syllabus, a critical bibliography, a topical paper, a portfolio, or any other form or combination of forms that the committee deems suitable. The oral portion
of the comprehensive examination focuses on issues and problems arising from the examination papers.

The candidate must submit to the dissertation committee a written prospectus for the dissertation no later than the semester following completion of the comprehensive exams. The committee consists of at least five members, including at least one member from outside the department. It considers the prospectus and may approve it, reject it, or require its revision. When the dissertation is completed in final form, the committee administers the final examination for the doctorate, a formal oral defense of the dissertation that usually lasts two hours.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must submit academic transcripts and Graduate Record Examination (GRE) General Test scores. They also must submit examples of original writing to the history department, such as a term paper, a seminar paper, an honors thesis, or a master's essay (applicants to the Ph.D. program); letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. All application materials are due by January 15 for entry the following August.

Facilities

University of Iowa Libraries has unusual strength in all aspects of U.S. history. The Main Library houses the Henry A. Wallace papers and related collections, the Iowa Women's Archives, and other unique materials. In European history, special strengths include the fine collections of French and English materials. The State Historical Society of Iowa in Iowa City and the Herbert Hoover Presidential Library and Museum in West Branch also hold valuable research materials.

Courses

Many Department of History courses are approved for the CLAS General Education Program. Look for courses with prefix HIST under “Historical Perspectives,” “International and Global Issues,” and “Values, Society, and Diversity” in the General Education Program (p. 313) section of the Catalog. History courses approved for General Education may not be taken pass/nonpass, even when they are taken as electives.

History majors should take HIST:2151 Introduction to the History Major during their sophomore year or the first semester after they declare the major.

Department of History courses numbered below 6000 are open to first-year students who already have fulfilled the General Education Program Historical Perspectives requirement.

Courses numbered 6000 or above are offered as occasion demands.

Lower-Level Undergraduate

HIST:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

HIST:1002 Issues in Medieval Society 3 s.h.
GE: Historical Perspectives.

HIST:1004 Issues in Human History: Communities and Society in History 3 s.h.
GE: Historical Perspectives.

HIST:1006 Issues: Nature and Society in Historical Perspective 3 s.h.
GE: Historical Perspectives.

HIST:1008 Issues in European Politics and Society 3 s.h.
GE: Historical Perspectives.

HIST:1010 Issues in Human History: Gender in Historical Perspective 3 s.h.
GE: Historical Perspectives.

HIST:1012 Issues in Human History: Europe's Expansion Overseas 3 s.h.
GE: Historical Perspectives.

HIST:1014 Issues: Twentieth-Century Crisis 3 s.h.
GE: Historical Perspectives.

HIST:1016 Issues in Human History: The Vietnam War in Historical Perspective 3 s.h.
GE: Historical Perspectives; International and Global Issues.

HIST:1040 Perspectives: Diversity in American History 3 s.h.
People, cultures, behaviors, and values that have shaped American society and its past. GE: Values, Society, and Diversity.

HIST:1115 Energy and Society: History and Science of Oil 3 s.h.
History, politics, and science of oil and oil industry. GE: Historical Perspectives. Same as EES:1115, ENVS:1115, GEOG:1115.

HIST:1119 Policy Matters: Perspectives on Contemporary Problems 3 s.h.
Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as SOC:1119.
HIST: 1130 Introduction to Islamic Civilization 3 s.h.
Major areas of Islamic religious tradition: Qur'an, traditions of the Prophet, development and character of Islamic law, theology. GE: International and Global Issues; Values, Society, and Diversity. Same as RELS: 1130.

HIST: 1425 Medieval Religion and Culture 3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as RELS: 1225.

HIST: 1450 Modern Religion and Culture 3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as RELS: 1250.

HIST: 2151 Introduction to the History Major 3 s.h.
Requirements: history major.

HIST: 2195 Digital History Workshop 4 s.h.
Introduction to use of new media in historical research and writing; web-based publishing and blogging; photo, text, and video editing; digital mapping; curation of digital resources; projects may include short documentary videos, web development, mapping projects, or collaborative curation (identifying, digitizing, annotating artifacts or documents from University collections) in collaboration with University of Iowa Libraries Digital Research & Publishing.

HIST: 2280 Introduction to Latina/o Studies 3 s.h.
Introduction to field of Latina/o studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o populations (Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Same as SPAN: 2280.

HIST: 2401 Western Civilization I 3-4 s.h.
Ancient and medieval. GE: Historical Perspectives.

HIST: 2402 Western Civilization II 3-4 s.h.
Early modern world. GE: Historical Perspectives.

HIST: 2403 Western Civilization III 3-4 s.h.
The modern world. GE: Historical Perspectives; International and Global Issues.

HIST: 2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as CLSA: 2461, RELS: 2361.

HIST: 2462 Middle East and Mediterranean: Saladin to Napoleon 3 s.h.
Complement to HIST: 2461; Mediterranean world from the age of Saladin (12th century) to Napoleon (early 19th century); history and imaginaries of the relationship between Europe and the Middle East.

HIST: 2602 Civilizations of Asia: China 3 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA: 2602.

HIST: 2604 Civilizations of Asia: Japan 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA: 2604.

HIST: 2606 Civilizations of Asia: South Asia 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA: 2606.

HIST: 2607 Civilizations of Asia: Korea 3-4 s.h.
Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryó state (918-1392), the Chosón dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues.

HIST: 2609 India Now! A Survey from Bollywood Films to Global Terror 3-4 s.h.
Experience of change on adaptations made by India to global conditions in the last 50 years, and on contemporary Indian contributions to global conditions and culture; India environmentalism, Bollywood films and world music, celebrity culture and Nobel prizes, Gandhian activism, economic performance, the explosion of cricket, the place of English language, social movements among women and Untouchables, the Indian diaspora abroad, internal dissent, and the Indian war on terror. GE: Values, Society, and Diversity.

HIST: 2687 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as ASIA: 2887.

HIST: 2708 Civilizations of Africa: India Now! A Survey from Bollywood Films to Global Terror 3 s.h.
Introduction to the study of Africa; brief survey of African history; aspects of modern African life, including political and social issues, economic and health problems (including HIV-AIDS); classroom discussion of selected African films shown in class and selected African novels included in course reading. GE: Values, Society, and Diversity.

Upper-Level Undergraduate and Graduate

HIST: 3101 History Internship 3-6 s.h.
Internship involving historical work. Requirements: consent of director of undergraduate studies and Pomerantz Career Center.
HIST:3155 The World Since 1945  3 s.h.
GE: International and Global Issues.

HIST:3191 Individual Study: Undergraduate  arr.

HIST:3193 Undergraduate History Portfolio  0 s.h.
Submission of required history portfolio. Requirements: history major and senior standing.

HIST:3485 Early Modern Catholicism  3 s.h.
Same as RELS:3385.

HIST:3995 History Honors Research Seminar  0-3 s.h.

HIST:3996 Honors Thesis  3 s.h.
Individual research and writing under supervision of faculty member; occasional group sessions with other students in the course.

HIST:4148 Global History as Local History: European Immigration in Iowa  3-4 s.h.
Opportunity to use skills developed in other courses to pursue global history locally; waves of immigration that flowed across Iowa during 19th century; ways in which national and international shifts in economics and geopolitics affected this population and state from mid-19th century through World War II; research project based on a local community of student’s choice; capstone course. Recommendations: junior or senior standing.

HIST:4430 Topics in Material Analysis  3 s.h.
Analysis and description of physical book artifacts and their component parts (parchment, paper, bookbinding) and allied specialties (the lettering arts, printing and illustration techniques); reading, writing, presentations. Same as UICB:4930.

World and General History, Upper-Level Undergraduate and Graduate

HIST:3115 Policy Matters: Perspective on Contemporary Problems  3 s.h.
Public policy issues in scholarly perspective; UI experts provide background introduction to weekly issues; presentations of new policy initiatives, roundtable on policy options; panels representing local, state, and national options and experience involving policy practitioners, legislators, and advocates. Same as POLI:3119.

HIST:3126 History of Globalization  3 s.h.
Broad overview of globalization in modern world history; focus on evolution of international business, world economy, interstate system, and cultural interchange in 19th and 20th centuries; long-distance trade and exchange; global economy under British Empire; globalization after 1945 following a 30-year period of nationalism, war, and depression; global market integration in late 20th century under American supremacy.

HIST:3140 Cooperation in World History  3 s.h.
Origins and role of human cooperation in world history, from human evolution to present; basic evolutionary theory, origins of humans, character of human nature, emergence of human cooperation, human cooperation in comparative zoological perspective; evolution of cooperative institutions such as family, tribe, market, state, mass religion, science, Internet.

HIST:3143 International Politics: The History of the Present  3-4 s.h.
Historical approach to international relations; comprehensive overview of key developments and concepts in history of international politics.

HIST:3145 Europe and the U.S. in the Twentieth Century  3 s.h.
United States-European transatlantic relationship over 20th century in historical perspective; sense of common heritage transformed into program of political purpose; alliances in defense of a shared civilization (the West) challenged by nations and ideologies from Wilhelmine Empire to Nazi Germany and from U.S.S.R. to Islamist groups; reluctant American involvement in Europe, East European claims of inclusion, mutual frustrations and suspicions, differences in interpreting shared tradition; diverging concepts of security, legitimacy, sovereignty, and history lessons underscored by U.S. role as sole superpower and European Union experiment in integration.

HIST:3157 Gender, Sexuality, and Human Rights  3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as GWSS:3157.

HIST:3190 Traditions of Religious Reform  3 s.h.
Same as RELS:3190.

HIST:3745 Islam in Africa  4 s.h.
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as IS:3745, RELS:3845.

HIST:3755 Understanding Health and Disease in Africa  3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as IS:3555, GHS:3555.
### HIST:4100 Historical Background of Contemporary Issues

Arranged.

### HIST:4101 History of Human Rights

3 s.h.
Survey of human rights literature, authored by historian Kenneth Cmiel; examination of legal-philosophical origins and changing meanings of human rights, human rights activism and social justice movements, creation of international human rights organizations and law; study of historically significant and unremembered cases of human rights violations; consideration of the question posed by Professor Cmiel: What, if anything, has been accomplished in the name of universal rights?

### HIST:4105 World Events in Historical Context

3 s.h.
Examination of current international news stories and their historical background; daily reading of The New York Times international news section and online international news stories in U.S. and international news outlets; creating informed world citizens.

### HIST:4107 World History I

3-4 s.h.
World history from antiquity to 16th century; political, economic, and environmental forces contributing to social transformations.

### HIST:4109 World History II

3-4 s.h.
World history from 16th century to World War II; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation.

### HIST:4125 War and Peace in the Twentieth Century

3 s.h.

### HIST:4130 Museum Literacy and Historical Memory

3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as MUSM:4130.

### HIST:4131 Origins of Western Science

3 s.h.
Exploration of philosophical, cultural and religious factors behind birth and growth of natural philosophy (science) from prehistory to High Middle Ages. Prerequisites: HIST:2401 or HIST:2402 or HIST:2403. Recommendations: junior or senior standing.

### HIST:4132 Science, Medicine, and Race

3 s.h.
Examination of social construction of race in scientific and medical thought; focus on Atlantic world (Europe, Africa, the Americas); construction of race in other parts of world.

### HIST:4133 The Rise of Modern Science

3 s.h.
Natural philosophy and science from Italian Renaissance through Scientific Revolution and into modern era, up to and potentially including the 20th century; scientific ideas, cultural and institutional contexts of science. Recommendations: junior or senior standing, and HIST:2401 or HIST:2402 or HIST:2403.

### HIST:4135 History of Medicine in Film

3 s.h.
Examination of how American films depicted physicians and health care from the 1930s to the present; attention to what popular films tell us about cultural images of physicians and medicine in American society. Requirements: honors standing.

### HIST:4145 The Internet in Historical Context

3 s.h.
History of media technologies (e.g., speech, writing, print, A/V devices, the Internet) from the evolution of speech to the present; ways in which technologies molded social groups and guided beliefs; impact of the Internet on contemporary society and culture.

### HIST:4146 The History of Warfare

3 s.h.
World military history from evolution of human kind to present; development of weapons, tactics, and strategies.

### HIST:4160 History of Public Health

3 s.h.
State-endorsed measures to avert or control disease in society. Same as GHS:4160.

### HIST:4162 History of Global Health

3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as GHS:4162.

### HIST:4176 Vietnam War on Film

3-4 s.h.

### HIST:4289 The Atlantic World c. 1450-1850

3 s.h.
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as AINS:4289.

### HIST:4334 Topics in American Borderlands History

3 s.h.
Broad historical overview of the American Borderlands, a region that has been the site of conflict, cultural exchange, and economic interdependence.

### HIST:4501 Society and Revolution in Cuba

3 s.h.
Cuban society and revolutionary movements since the late colonial period, including the years since 1959.

### HIST:4502 History of Mexico

3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as AINS:4502.
HIST:4504 Latin American Studies Seminar 3 s.h.
Interdisciplinary approach. Taught in English.

HIST:4505 Topics in Latin American History 3 s.h.

HIST:4508 Medicine and Public Health in Latin America, 1820-2000 3 s.h.
Survey of major topics in modern Latin American history in relation to development of medicine and public health. Same as GHS:4508.

HIST:4510 Colonial Latin America 3 s.h.
Cultural, institutional continuity from 16th century to independence.

HIST:4515 Introduction to Modern Latin America 3 s.h.
Cultural, institutional continuity from independence to present.

HIST:4520 Latin America and the U.S.: The Historical Perspective 3 s.h.

HIST:4525 Latin American Revolution 3 s.h.

HIST:4526 Dictatorships of Latin America 3 s.h.
Dictatorships, truth commissions, politics of memory in modern Latin America; the political and socio-economic origins of authoritarian regimes as well as their forms of rule, sources of support, uses of violence, and eventual downfall; the experience of specific sectors of society under authoritarian regimes, forms of resistance to authoritarianism, memories of terror, efforts to forge peace and justice in the aftermath of horror; includes personal testimony, film, human rights, reports, historical studies.

HIST:4605 Disease, Politics, and Health in South Asia 2-4 s.h.
South Asia's long-term success lengthening lives and stopping disease, weighed against its continuing burden of infection, violence, pollution, and class-based suffering. Same as GHS:4605.

HIST:4610 Japan—Age of the Samurai 3 s.h.
Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Same as JPN:4610.

HIST:4615 Modern Japan 3 s.h.
Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Same as JPN:4615.

HIST:4617 History, Memory, and Pacific War 3 s.h.
Contemporary meanings of the Pacific War in collective memory of Americans and Japanese.

HIST:4620 Japan-US Relations 3 s.h.
Political, social, economic, and cultural developments in Japan mid-19th to late-20th century. Same as JPN:4620.

HIST:4640 Imperialism and Modern India 3 s.h.
Introduction to the political, economic, social, and cultural history of India from 1700 to present; historically India included the territories of present-day Pakistan and Bangladesh; at present India extends through diasporic Indian communities to East Africa, North America, Europe, and the Caribbean.

HIST:4650 Chinese History from 1600 to 1927 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and internal rebellions in the 19th century, collapse of the dynasty in 1911. Same as ASIA:4657.

HIST:4653 Law and Society in Late Imperial and Modern China 3 s.h.
Survey of legal system of China and Chinese society from 1400 to 1980s. Same as IS:4653.

HIST:4655 China Since 1927 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as ASIA:4655.

HIST:4666 Topics in Asian History 3 s.h.
Same as ASIA:4166.

HIST:4685 Modern Korean History 3 s.h.
Transformation of Choson Korea to North and South Korea; local, regional, and global transformations in Korea from the late 19th century to present, including the severing of its historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; the erasure of Choson as a country in 1910; the colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century.

HIST:4710 Pre-Colonial African History 3 s.h.
Africa to 1880; oral tradition, other sources; political development, ecological change, slavery and slave trade. GE: Historical Perspectives. Same as AFAM:4310.

HIST:4715 African History Since 1880 3 s.h.
Africa in colonial, post-colonial period; economics, political structures of colonialism; social change, political life in the 20th century. GE: International and Global Issues. Same as AFAM:4715.

HIST:4723 Slavery, Gender, and Identity in East Africa 3 s.h.
Forms of slavery in East African societies; focus on 18th to 20th centuries; primary source readings (i.e., life histories of former slaves); slavery outside the United States; women as important historical actors; processes of enslavement; integration of slaves into East African societies; and perpetuation of social and economic ties between former masters and slaves into the present.

HIST:4724 Crossing the Indian Ocean 2-3 s.h.
Transnational history of Western Indian Ocean; explore cultural and economic networks in the Indian Ocean World; how Islam and colonization are common experiences of peoples in this region; Indian Ocean World historical diversity; analytical concepts such as migration, Islam, globalization.

HIST:4725 Women and Gender in African History 3 s.h.
Importance of female agency in African history; African women’s history in historiographical framework of women’s history, challenges historians face in exploring African women’s past; varied sources (e.g., novels, films, court records) from sub-Saharan Africa, urban and rural settings; current literature on African women, African women’s experiences in a comparative context. Same as GWSS:4725.

HIST:4728 Identity, Trade, and Diaspora 3 s.h.
Identity of Swahili people on East African coast; trade networks and diaspora in Arabia and Persian Gulf over the centuries; Swahili civilization marked by urbaniy, literacy, Islam, and cosmopolitanism; how scholars’ views have changed (scholars originally could not reconcile their conception of Africa, the Dark Continent, with characteristics of this sophisticated culture). Same as SWAH:4000.

HIST:4730 Slavery, Jihads, and Saints in Islamic Africa 3 s.h.
Islamization of sub-Saharan Africa; source material on Islam in sub-Saharan Africa; jihad; slavery; colonial rule; Muslim women; Muslim minorities.

HIST:4810 History of the Modern Middle East 3 s.h.

HIST:4815 Topics in the Modern Middle East 3 s.h.

American History, Lower-Level Undergraduate

HIST:2261 American History 1492-1877 3 s.h.
Discovery through Civil War, Reconstruction; emphasis on social history of colonial era and social, economic, political developments of Revolutionary, antebellum periods.

HIST:2262 American History 1877-Present 3 s.h.
Emphasis on social, political developments of Gilded Age, Progressive Era, Great Depression; the United States as a world power.

HIST:2265 Introduction to African American History 3 s.h.
GE: Values, Society, and Diversity. Same as AFAM:2265.

HIST:2266 Civil War and Reconstruction 3 s.h.

HIST:2288 Introduction to Mexican American History 3 s.h.
Introduction to major themes in Mexican American history from the 18th century to the present; settlement of Mexico’s Far North by Spanish Mexican residents, their incorporation into the United States after a war of conquest, and the growth of Mexican Americans into the nation’s largest Latino group. GE: Values, Society, and Diversity.

HIST:2290 Food and Culture in Indian Country 3 s.h.
Native Americans as original farmers of 46% of the world’s table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AINS:2290, AMST:2290.

American History, Upper-Level Undergraduate and Graduate

HIST:3105 International Events in Historical Context 3 s.h.
Current world events in themselves and as they enter into 2012 U.S. elections; daily readings of the New York Times; selective utilization of other news media, including daily newspapers (Wall Street Journal, Washington Post), major foreign newspapers, periodicals (Foreign Affairs, Foreign Policy), and electronic news media, including network and cable television news programs; gain understanding of the historical background of world events and how these events shape U.S. party politics.

HIST:3202 Introduction to American Indian History and Policy 3 s.h.
Same as AINS:3002.

HIST:3211 Native North America I: Precontact-1789 3 s.h.
Same as AINS:3211.

HIST:3212 Native North America II: 1789-Present 3 s.h.
Same as AINS:3212.

HIST:3219 Indian Wars: History and Poetics of Violence in the United States 3 s.h.
Cultural role of frontier violence, real and imagined, in settler society formations; use of historical accounts, art, literature, museum exhibitions, film, captivity tales, and discursive modes; historical and contemporary portrayals of Indian and settler violence, how these representations functioned, and how imagined violence compared to actual incidents of violence; exploration of violence involving other subalterns that speak to perceptions of the U.S. as a violent nation, often portrayed as a nation of laws; whether these competing legacies can be reconciled.
HIST:3230 American Environmental History 3 s.h.
Introduction to environmental change in American history; human-nature interactions from colonial period to recent past; food and agriculture, industrial technologies and transportation, energy production and consumption, urbanization and sprawl, public lands and public works, environmental politics and law, toxic pollution and health, natural disasters, climate change.

HIST:3232 History of American Inequality 3 s.h.
Survey of causes and consequences of inequality in modern American history.

HIST:3234 Sexuality in the United States 3 s.h.
Same as GWSS:3154.

HIST:3254 American Economic History 3 s.h.

HIST:4201 History of the American Deaf Community 3-4 s.h.
Creation of a distinct language and culture of deaf people in America during the 19th and 20th centuries. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option — concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as ASL:4201.

HIST:4202 Society and Health Care in American History 3 s.h.
Social and cultural history of health care in the United States from colonial period; social relationships between care providers and patients, disease theories and therapeutic procedures, historical understandings of ethics and health care frameworks.

HIST:4203 Disability in American History 3 s.h.

HIST:4205 American Cultural History 1820-1920 3 s.h.
Culture as contested terrain; creation of cultural hierarchy (high and popular culture); struggles over the cultural construction of meaning; competing stories of America; advent and significance of mass culture.

HIST:4209 U.S. Indian Policy in the American Indian Family 3 s.h.

HIST:4216 Mexican American History 3 s.h.
Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society’s diverse nature, explored through class, ethnic, gender, and regional divisions.

HIST:4217 Latina/o Immigration 3 s.h.
Immigration experiences of people arriving in the United States from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the United States and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latino identity in the United States.

HIST:4220 The Frontier in American History to 1840 3 s.h.

HIST:4221 The Frontier in American History 1840-Present 3 s.h.

HIST:4228 Cold War America 3 s.h.
Key historical developments of the Cold War; examination of how the war shaped ideological, political, economic, and cultural aspects of American society.

HIST:4229 The United States as Empire 3 s.h.
The U.S. rise to world power; continental empire-building in the 19th century; industrial, military and colonial power in the early 20th century; global hegemony from the mid-20th century to the present; white settler colonialism; overseas rule of Philippines and Puerto Rico; cultural Americanization; Cold War interventionism; post-9/11 unilateralism; meanings of American exceptionalism, intersections of U.S. nationalism with race and gender, remaking of domestic U.S. society within a changing global and imperial context.

HIST:4230 The Political Culture of U.S. Foreign Policy 3 s.h.
Political culture of U.S. foreign policy in historical perspective; connections and interactions between the domestic scene and international realities, from time of manifest destiny to national security state; domestic foundations of American power and its projection abroad, including constitutional framework, economic developments, rise of the state, role of media, public opinion, civilian-military relations; concepts of race, ethnic identifications, and religious and political beliefs have shaped understandings of patriotism, national interest, international responsibility; great debates in which American national identity and purpose are renegotiated.

HIST:4231 United States in World Affairs to 1900 3 s.h.
Origins of modern diplomatic practices; security, territorial and commercial expansion; legal, constitutional problems.

HIST:4232 United States in World Affairs 3-4 s.h.
America’s emergence as leader in world affairs; imperialism, international collaboration, participation in world wars, the Cold War.

HIST:4234 Transnational America 1880-1939 arr.
The United States as a society increasingly embedded in global history during the late 19th- and early 20th-centuries; approaches for thinking about history in transnational ways; intensification of European, Asian, and Latin American immigration; cross-national dimensions of American reform; emergence of diasporic social movements; international scale of the corporate state; politics of colonialism and world war.

HIST:4236 Major Topics in U.S. Foreign Policy 3 s.h.
Continuation of HIST:4232; select themes in the history of U.S. foreign policy studied in greater detail; examination of major conflicts (i.e., World War Two, the Cold War or the Vietnam War, and recent engagements in the Middle East), drawing from a wide range of primary sources, film material, and secondary material.

HIST:4241 Varieties of American Religion 3 s.h.
Examination of varied 20th- and 21st-century American religious individuals and groups; understand and analyze unique communities. Same as RELS:4741.

HIST:4245 The Social History of American Baseball 3 s.h.
History of baseball in the United States from its beginnings as a working-class recreation through the present; history of the game and the people who have played it, how the history of American society is viewed through the lens of baseball, how the game has contributed to social change; social class, race, urbanization, crime and political corruption, public health, big business and professionalism, spectatorship, entertainment and mass culture, national mythology, the exercise of legitimate authority (umpires!).

HIST:4249 History of Iowa and the Midwest 3 s.h.
People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed.

HIST:4250 Work and Society in Industrializing America 3 s.h.
Industrialization, formation of an American working class; changing patterns of labor organization, strike activity, politics; impact of ethnic, racial, gender divisions on working class communities, culture.

HIST:4252 American Labor in the Twentieth Century 3-4 s.h.
Competing philosophies and organizational strategies of workers in a maturing industrial economy; impact of world wars and Great Depression on American workers and their unions; rise of service sector, deindustrialization.

HIST:4254 Immigrant America 1845-1925 3 s.h.
Era of mass immigration in world context; formation, organization of immigrant communities; diverse processes of adaptation, assimilation; rural, urban contrasts; coercive Americanization, immigration restriction.

HIST:4255 The Gilded Age in America 3 s.h.
Emergence of industrial, urban America, from Civil War through 1890s; emphasis on social, political developments.

HIST:4256 The Progressive Era in America 3 s.h.
Protest and reform, imperialism, World War I, from 1890s to 1920.

HIST:4260 The Sixties in America 3 s.h.
The 1960s as a moment in American politics and culture, pivotal and romanticized; major events and conflicts, including the election and assassination of President Kennedy, LBJ and the Great Society, civil rights movement and Black Power, counterculture and the urban crisis, sexual revolution and second wave feminism, anti-war protest and silent majority; changing conceptions of the sixties and development of a fresh interpretation.

HIST:4264 U.S.A. in a World at War 1931-1945 3 s.h.
Significance of World War II to the United States.

HIST:4266 The New Deal: Political Response to Economic Crisis in the United States, 1920-1940 3 s.h.
United States between the wars; emphasis on New Era system, Impact of the Great Depression and response by the Hoover administration, the New Deal.

HIST:4268 The Contemporary U.S. 1940-Present 3 s.h.
United States as a global power; emphasis on World War II and Cold War, recent patterns of social and economic change, politics of 1950s, 1960s.

HIST:4270 Colonial North America, ca. 1600-1775 3 s.h.
Introduction to major themes in colonial American history prior to the American Revolution. Same as AINS:4270.

HIST:4271 American Revolutionary Period 1740-1789 3 s.h.
Political, military history of colonies 1754-1776; imperial upheaval; building a new nation; creation of federal system.

HIST:4272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h.
Overview of major issues in Native American history during the period of European Imperialism in North America. Recommendations: junior or senior standing. Same as AINS:4272.

HIST:4273 War and Violence in Early American Societies and Culture 3 s.h.
Introduction to role of warfare and violence in shaping early American society.

HIST:4275 History of Slavery in the U.S.A. 3-4 s.h.
Beginning, expansion, and ending of American slavery; how our national memory of slavery in popular culture (in high school history, in historical landmarks and museums) helps or hinders our understanding of history of slavery in the U.S. Same as AFAM:4275.
HIST:4280 Women and Power in U.S. History Through the Civil War 3 s.h.
Exploration of how women, as political actors, shaped the outcome of major events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as GWSS:4280.

HIST:4282 Women and Power in U.S. History Since the Civil War 3 s.h.
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideas of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as GWSS:4282.

HIST:4283 U.S. Women's History as the History of Human Rights 3-4 s.h.
History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as AMST:4283, GWSS:4283, HRTS:4283.

HIST:4285 Family, Gender, and Constitutional History 3 s.h.
Same as LAW:8551.

HIST:4286 U.S. Legal History 3 s.h.
History of the law in the United States, as it developed from era of the Revolution to present; interaction of courts and legislatures with social movements; readings on court decisions, social histories, fiction (film and prose).

HIST:4287 The American Legal Experience 3-4 s.h.
Historical role of law in American society and its engagement with politics, social and scientific economics. Same as LAW:8167.

HIST:4295 African American History 1619-1865 3 s.h.
Race and African American history, from the rise of racial slavery to the Civil War; advanced course. Same as AFAM:4195.

HIST:4296 African American History 1865-Present 3 s.h.
African American history since Reconstruction; survey of African American politics and society from Reconstruction to present. Same as AFAM:4298.

European History, Lower-Level Undergraduate

HIST:2420 Germany in the World 3-4 s.h.

HIST:2465 Europe Since 1945 3 s.h.
Europe since World War II: recovery, cold war, social and economic change, global perspectives.

HIST:2483 History of Britain: Fall of Rome to the Norman Conquest 3 s.h.
History of Britain from fall of Rome (after 410) and through Anglo-Saxon era, until Norman Conquest of 1066; Anglo-Saxon kings and kingdoms, church and society; poetry, historical writings, archaeology.

European History, Upper-Level Undergraduate and Graduate

HIST:3112 Medieval Philosophy 3 s.h.
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as PHIL:3112.

HIST:3405 Engineering and Technology in the Ancient Mediterranean 3 s.h.
Technologies developed and used in the ancient Mediterranean—primarily in Greece and Rome, also in Egypt and the Ancient Near East; agriculture and food preparation; construction and architecture; technologies related to warfare. Same as CLSA:3144.

HIST:3409 Medieval Civilization I 3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as MDVL:3409.

HIST:3410 Medieval Civilization II 3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. GE: Historical Perspectives. Same as MDVL:3410.

HIST:3436 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as CLSA:3836.

HIST:3451 Roman Law 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as CLSA:3151, LAW:8825.

HIST:4400 The Roman Empire 3 s.h.
History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as CLSA:4400.

HIST:4401 Ancient Egypt and the Ancient Near East 3 s.h.
Same as CLSA:4101.

HIST:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as CLSA:4403.

HIST:4404 The World of Ancient Greece 3 s.h.

HIST:4406 Warfare in Ancient Mediterranean Society 3 s.h.
Same as CLSA:4106.

HIST:4407 The Hellenistic World and Rome 3 s.h.
Social, economic, political, intellectual history of Graeco-Roman world, from fourth century B.C.E. to Justinian's reign.

HIST:4408 The Twelfth-Century Renaissance 3 s.h.
Social, economic, intellectual, and cultural rebirth of Europe in the 12th century; Latin learning and education; developments in vernacular literature, art, architecture, new religious orders and institutions, pilgrimage and Crusade. Same as MDVL:4408.

HIST:4411 Economic and Social History of Medieval Europe 3 s.h.
Changes in western Europe from 300 to 1500 A.D.; feudalism, manorialism, revival of towns, heresy, women, monasticism, agricultural and commercial revolutions, Black Death. GE: Historical Perspectives. Same as MDVL:4411.

HIST:4412 History of the Medieval Church 3 s.h.
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. GE: Historical Perspectives. Same as MDVL:4412.

HIST:4414 Christianity and Empire (35-450 AD) 2-3 s.h.
Introduction to major topics in history of Europe and the church; relationship between Christian message and political power as evidenced in Christian writings from Paul to St. Augustine; examination of key historical moments.

HIST:4417 Medieval Intellectual History 300-1150 3 s.h.
Philosophy, art, literature, religious culture of Europe from waning of classical intellectual modes of culture in late antiquity, to their recovery in 12th century. Same as MDVL:4417.

HIST:4418 Medieval Intellectual History 1150-1500 3 s.h.
European philosophy, religion, literature, art from 12th-century rise of scholasticism; their transformation in period of Copernicus, Luther. Same as MDVL:4418.

HIST:4419 Ancient and Medieval Science 3 s.h.
Greeks’ initiation of scientific inquiry; developments in astronomy, cosmology, optics, mathematics, physics, medicine, psychology in ancient and medieval societies of Middle East, Europe. Same as MDVL:4419.

HIST:4421 The Middle Ages in Film 3 s.h.
How films that represent medieval events and literature may be analyzed to reveal the culture and times in which the films were made; Middle Ages and European nationalistic mythmaking as represented in film. Same as MDVL:4421.

HIST:4423 Ireland in the Early Middle Ages 3 s.h.
Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as MDVL:4423.

HIST:4426 Women, Power, and Society in Medieval Europe 3 s.h.
Same as MDVL:4426.

HIST:4427 Society and Gender in Europe 1200-1789 3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as GWSS:4427.

HIST:4428 Nineteenth-Century Europe 3 s.h.
Political, social, economic, and cultural factors.
HIST:4431 Early Modern England 3 s.h.
History of England from the Wars of the Roses in the 15th century to the beginning of the 18th century; religious changes of the 16th and 17th centuries, evolution of the monarchy and other political institutions during the Tudor and Stuart dynasties and the English civil war, and the transformation of England into one of the wealthiest and most powerful nations in the world.

HIST:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Same as FREN:4433.

HIST:4435 War and Society in Modern Europe 3 s.h.
Impact of war on European societies since the French Revolution.

HIST:4438 Modern European Imperialism 3 s.h.
Introduction to the history of European imperialism since the 18th century; major shifts in the nature of European empire examined through the Haitian Revolution, India, Australia, Congo, Algeria.

HIST:4440 Artists, Intellectuals, and Politics in 20th-Century Europe 3 s.h.
Political engagement of European artists and intellectuals from 1870 to present; cultural and intellectual history, rise of social science, artistic avant-gardes, fascist and socialist aesthetics, world war, Cold War, existentialism, feminism, anti-colonialism.

HIST:4441 Special Topics in European History arr.
European history topics of current interest (i.e., food, environment, climate, water use). Recommendations: advanced history major or beginning graduate student.

HIST:4445 Religious Conflict: Early-Modern Period 3 s.h.
Reformation of 16th century—Lutheran, Calvinist, Radical, English; readings from major representatives of each. Same as RELS:4155.

HIST:4460 Twentieth-Century Europe: The Nazi Era 3 s.h.

HIST:4461 Twentieth-Century Europe: The Cold War and After 3 s.h.

HIST:4464 Modern France 1789-1871 3 s.h.

HIST:4465 Modern France 1870-Present 3 s.h.

HIST:4466 France and Algeria from Pirates to Terrorism 3 s.h.
Long, complex history of relationship between France and Algeria since 18th century; early modern conflicts over Barbary piracy, French invasion, and colonization of Algeria in 19th century; brutal Algerian War of Independence, postcolonial migration, and ongoing war of memory over shared Franco-Algerian history of colonization and decolonization. Taught in English. Same as FREN:4466.

HIST:4470 France from 1815-Present 3 s.h.

HIST:4473 German History 1648-1914 3 s.h.
History of German speaking lands 1648-1918.

HIST:4475 Germany Since 1914: Weimar, Hitler, and After 3-4 s.h.
Continuity, change in 20th-century German politics, society, culture; creation, collapse of Weimar Republic; Nazism and Third Reich; East and West Germany since 1945; unification and its contents.

HIST:4477 Napoleon and His Afterlives 3 s.h.
Life and influence of Napoleon Bonaparte in France; Napoleon's personal background, his career during French Revolution, rise and fall of his European and global empire; examination of Emperor's global legacy, from post-Napoleonic diplomatic settlement to spread of Napoleonic administrative and legal codes; Napoleonic legend that arose after his final defeat in 1815; weekly readings and discussions, individual research project, and participation in events being planned across campus to mark the bicentennial of Napoleon's invasion of Russia.

HIST:4478 Holocaust in History and Memory 3 s.h.
Origins and implementation of Holocaust; perpetrators, victims, and bystanders; impact of Holocaust on post-World War II world.

HIST:4484 Modern Britain: The Eighteenth Century 3 s.h.
Great Britain from Glorious Revolution of 1688 to end of the Napoleonic Wars in 1815; post-revolution political settlement, political conflict, growth of British empire, religious dissent, evangelical revival, Industrial Revolution, American Revolution, British response to the French Revolution.

HIST:4485 Modern Britain: The Nineteenth Century 3-4 s.h.
Great Britain 1780-1914; evangelical revival, Industrial Revolution, growth of modern political parties, progress of political reform, scientific developments, influence of Darwin and Mill, growth of secularism, British Empire, Boer War, advent of World War I.

HIST:4486 Modern Britain: The Twentieth Century 3 s.h.
Great Britain from Boer War to Tony Blair’s political triumph; liberal revival, World War I, rise of the Labour Party, the Depression, appeasement, World War II, Labour’s triumph after the war, rise of consensus politics, 1960s cultural changes, Margaret Thatcher’s political ascendency, transformation of the Labour Party under Blair.
HIST:4493 Soviet Union 1917-1945 3-4 s.h.
Revolution, foundation of Soviet Union; Leninism; major political, social, ideological developments during Stalinist period—collectivization, industrialization, terror; nationalities, foreign policy; World War II; Cold War; socialist state system.

HIST:4499 First World War 3-4 s.h.
Social, economic, political, technological, military aspects of causes, conduct, consequences of war of 1914-1918; fiction, contemporary documents, historical works, films.

HIST:4910 The Book in the Middle Ages 3 s.h.
Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as UICB:4910, SLIS:4910.

HIST:4920 The Transition from Manuscript to Print 3 s.h.
Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as UICB:4920, SLIS:4920.

Graduate

HIST:6001 First-Year Graduate Colloquium 3 s.h.
Introduction to history graduate program.

HIST:6002 History Research Methods 3 s.h.
Introduction to historical research methods. Prerequisites: HIST:6001. Requirements: first-year history graduate standing.

HIST:6003 History Theory and Interpretation 3 s.h.
Introduction to basic theoretical approaches to historical research.

HIST:6110 Introduction to New Media in the Humanities and Social Sciences arr.
Use of New Media software in research, presentation, and instruction; includes HTML editors (Dreamweaver), wikis (Confluence), blogs (WordPress), collaborative mark-up programs (CommentPress), graphics editors (Illustrator), map editors (MapPoint, ArcView), photographic editors (Photoshop), audio editors (Garage Band, Soundbooth, Audio Hijack Pro), video editors (iMovie, Premiere Pro, Photo-To-Movie), and animation editors (Flash); projects.

HIST:6120 Teaching Seminar: Graduate Instructors 2-3 s.h.
Issues and methods for effective history teaching at the college level.

HIST:6135 Crossing Borders Proseminar arr.

HIST:6158 Approaches to Teaching Global History arr.
Approaching history from a global or international perspective; introduction to issues; preparation for teaching courses at college level; historiographies and methodologies, problems of periodization and area divisions, syllabi on world and global history.

HIST:6203 History and Theories of Planning 3 s.h.
History of urban planning in America as a reflection of social and economic forces; alternative planning philosophies, roles, and ethical choices open to planners. Same as URP:6203.

HIST:6410 Teaching Proseminar 2-4 s.h.
Preparation for leading undergraduate discussion sections for HIST:2401 - HIST:2403 Western Civilization I-III; specific subject matter preparation similar to that offered in graduate readings courses; for first-time graduate teaching assistants.

HIST:6475 Seminar: Reformation Culture and Theology arr.
Culture and theology of 16th-century Europe. Same as RELS:6475.

HIST:7101 Research Seminar arr.
Research for students in all areas of history.

HIST:7120 Feminist Research Seminar arr.
Feminist research methodologies; how to conduct original research, write a research proposal and research paper, and read and criticize others' work. Same as GWSS:7020.

HIST:7126 Readings on the History of Human Rights arr.
Survey of recent literature on history of human rights; development of bibliographies; readings from individual areas of interest (e.g., transitional justice, migration, gender and sexuality, labor).

HIST:7150 Readings: Comparative Labor History arr.

HIST:7155 Theories of Diaspora, Immigration, and Migration arr.
Vexed notion of diaspora(s); challenge of understanding and writing histories of immigration and migration during modern era; exploration of central questions including difficulty of tracking things in motion—individuals, families, groups, and ever-elusive cultural traits as they flow through local, national, and international contexts that are themselves in flux.

HIST:7160 Global Medical History: Colonial South Asia, Latin America, and the Caribbean arr.
How relations of power between countries affect responses to disease, delivery of public health, and development of medical understanding; focus on South Asia, Latin America, and the Caribbean; global perspectives; medical colonial interactions, environmental issues and tropical medicine, indigenous systems of health; translation, co-optation, and appropriation of medical knowledge; biomedicine and nationalism.
HIST:7175 Theories of World History
d. arr.
Macrohistorical theories of world history; can a prominent theory or combination of theories explain the social evolution of humankind over hundreds of thousands of years; how to periodize world history; does history have a direction, and if so, what direction; the future of humankind.

HIST:7190 Individual Study: Graduate
d. arr.

HIST:7192 Predissertation Seminar
d. arr.
Preparing for dissertation work for students in all areas of history: thesis topic, relevant literature in the topic field, potential sources, primary research strategy, sources of research funding, research proposal; preparation for submitting applications for dissertation research fellowships and beginning of completing the thesis prospectus.

HIST:7193 Thesis
d. arr.

HIST:7197 The Art and Craft of Historical Writing
d. arr.
Focus on improving students' skills in historical writing; readings from exemplary texts, ancient to contemporary; all aspects of historical writing, from sentence composition and paragraph structure to evidence and narrative voice.

HIST:7199 History Workshop: Theory and Interpretation
d. arr.

HIST:7205 Gender and Race in Nineteenth-Century U.S.
d. arr.
Same as AFAM:7205, GWSS:7205.

HIST:7208 The American Civil War in History and Memory
d. arr.

HIST:7212 Seminar: Research in Race and Ethnicity
d. arr.

HIST:7214 Readings: African American Women's History
d. arr.
Same as AFAM:7214, GWSS:7214.

HIST:7215 Seminar: History of Disability
d. arr.

HIST:7219 Seminar: Gender in Nineteenth-Century United States
d. arr.

HIST:7220 Readings: History of Sexuality
d. arr.
History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as GWSS:7220.

HIST:7227 Readings in American Environmental History
d. arr.
Introduction to historiography—classic texts and recent work—in American environmental history; topics from colonial period to recent past.

HIST:7236 Readings in Borderlands History
d. arr.
Comparative borderlands; articles on diverse topics from borderland regions worldwide (main focus on U.S.-Mexico borderlands, with inclusion of European, Asian, African, and Latin American borderlands); analysis of each article for its thesis, research questions, methodology, primary sources, and weaknesses; seminar.

HIST:7241 Readings in U.S. Social Policy
d. arr.
History and historiography of social welfare policy, chiefly in the United States; proceeds chronologically with analysis of private and public efforts to address problems including poverty, unemployment, sickness, homelessness, and family violence.

HIST:7246 United States in the World
d. arr.
Historiographies that situate modern U.S. history in a global context; how historians study the American past beyond traditional, nation-centered frames; transnational histories of migration, nativism and exclusion; social movements; colonial empire-building; commercial and cultural Americanization; transfer of policy ideas; military occupations; decolonization; Cold War's impact on social reform; post-9/11 moment.

HIST:7251 Seminar: Social History of the American Working Class
d. arr.

HIST:7253 Seminar: American Social History
d. arr.

HIST:7254 Readings in American Social History
d. arr.

HIST:7255 Readings: The Gilded Age and the Progressive Era
d. arr.

HIST:7256 Topics in 19th-Century American Legal History
d. arr.
Exploration of selected focus topics, may include developments in the law of the home and the law of the workplace (free labor, worker immigration, apprenticeship, indentured labor, slavery); women's legal history; land issues and various Homestead Acts; Blackstone in America; Reconstruction of the Constitution after the Civil War; The National Archives—which houses American legal historical documents—displays the phrase, "What is past is prologue;" legal history that explains how we got to the legal present and to understand what is the law, you have to know how something got to be the law. Same as LAW:9656.

HIST:7260 Seminar: American Colonial History
d. arr.

HIST:7261 Readings: Early American History
d. arr.

HIST:7263 Readings: Contemporary United States
d. arr.
New work in American social, political, and economic history; readings tailored for students seeking background for research or preparing for comprehensive exams.

HIST:7265 Seminar: Contemporary United States
d. arr.
HIST:7271 Seminar: Research in Transnational U.S. History
Experience framing, organizing, and carrying out an original investigation on a theme in U.S. transnational history, followed by review and discussion of drafts; opportunity to explore transnational methodologies while developing professional skills of literature review, source interpretation, and collegial critique.

HIST:7275 Readings in the History of Women and Gender in the U.S.A.
Same as GWSS:7275.

HIST:7287 Seminar: History of Women and Gender
Opportunity to pursue research for a single paper, M.A. thesis, or doctoral dissertation in the history of women and gender in the United States; interdisciplinary and internationally comparative projects; meetings and evaluations with attention to the craft of writing.

HIST:7293 Graduate Readings in Public History
Overview of public history with attention to ways in which historians have engaged various publics; major theoretical constructs (memory, heritage, commemoration); public history methodologies (oral history, material culture, archival documentation); legal ethics; how history is communicated to the public; how public history sites contribute to public memory; how and why controversies emerge in public history settings; relationship between academic history and public history.

HIST:7410 Seminar: Medieval Social and Economic History

HIST:7411 Readings: Medieval Women

HIST:7412 Source Criticism for Medieval Studies

HIST:7415 Graduate Readings: Monastic History
History of Christian monasticism in the medieval west; the developing monastic and religious orders, nuns of those groups; tertiaries, beguines, other orthodox penitent movements from the development of Christianity to the Reformation.

HIST:7418 Seminar: Medieval Intellectual History

HIST:7419 Readings: Medieval Intellectual History

HIST:7420 Seminar: History of Science

HIST:7421 Readings: Medieval and Early Modern Universities

HIST:7422 Medieval Latin Paleography

HIST:7428 Seminar: Medieval Philosophy
Investigation of theories of knowledge developed by medieval philosophers including Augustine, Boethius, Duns Scotus, Ockham, and Auriol.

HIST:7435 Readings: Women, Men, and Gender in Modern Europe
Same as GWSS:7435.

HIST:7440 Readings in Modern German History
Major problems in modern German history; historiographic debates organized thematically and proceeds chronologically from the French Revolution to the present; oral presentations and comparative essays.

HIST:7445 Readings: Colonialism and Empire in European History
Engagement of Europeans in an immense outward expansion of people, goods, and ideas, as well as more than a few germs since 1492; exploration of some of the implications of this expansion by focusing on a selection of different colonial encounters and some legacies of European empires.

HIST:7455 Seminar: Modern Europe

HIST:7456 Readings: Modern European History

HIST:7458 Readings: War and Society in Modern Europe
Preparation, conduct, and aftermath of war; social-historical examination; conflicts on European territory, colonial wars, and wars of decolonization, from French Revolution through late 20th century.

HIST:7460 Readings in the History of Modern France

HIST:7470 Readings in the History of Modern France

HIST:7505 Readings: Latin American History
Same as SPAN:7505.

HIST:7535 Readings in Latina/o History
Introduction to major works and recent scholarship in Latina/Latino history.

HIST:7551 Readings: Globalizing Latin American Science and Medicine
Recent trends in Latin American history of science and medicine.

HIST:7589 Readings: Gender in Latin American History
Same as GWSS:7289.

HIST:7606 Readings in Chinese History
Same as ASIA:7606.

HIST:7622 Readings in Modern Korean History
Introduction to English-language scholarly works on modern Korean history; focus on nationalist discourse, social and cultural history, and complex interactions among Koreans and Japanese within space of empire; major historiographical issues in Korean and East Asian history.

HIST:7630 Readings: Japanese History
Same as JPNS:7630.
HIST:7660 Readings in Modern India

HIST:7691 Topics in East Asian History
Introduction to major works and recent scholarship on border-crossing topics in East Asian history, including transnational/regional exchange, empire, frontiers/borderlands, migration, ethnicity, and historiography.

HIST:7705 Seminar: African History
Themes in African precolonial and modern history.

HIST:7706 Readings in African History

HIST:7710 Seminar: Interpreting Oral Histories
Interpretations and methods applied by historians in various world regions to different forms of oral history, from old oral traditions to contemporary autobiographical testimony. Same as AFAM:7710.

HIST:7805 Readings in Middle East History
The Bachelor of Arts with a major in interdepartmental studies requires a minimum of 120 s.h., including at least 36–41 s.h. of work for the major (total semester hours required depends on the track). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

Students choose one of five tracks for the major: applied human services, business studies, engaged social innovation, health science, or an individualized plan of study. The engaged social innovation and the social innovation, health science, or an individualized plan of study tracks are selective; students must apply and be admitted to these tracks before they can enroll. Those admitted to the engaged social innovation track complete a common core, plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes course work from a variety of departments.

Since the major in interdepartmental studies affords opportunities outside the traditional degree pattern, students must create or choose study programs that meet their individual educational and career objectives. Those who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs (p. 226).

Undergraduate Program of Study

• Major in interdepartmental studies (Bachelor of Arts)

Bachelor of Arts

The Interdepartmental Studies Program (ISP) provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes course work from a variety of departments.

Since the major in interdepartmental studies affords opportunities outside the traditional degree pattern, students must create or choose study programs that meet their individual educational and career objectives. Those who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs (p. 226).

Applied Human Services Track

The applied human services track requires 40–41 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized psychology background with a choice of three emphasis areas: aging services, community-based services, and corrections services. Students who choose this track also have the option of proposing their own human services-related emphasis area to the faculty advisory committee.

Applied human services track students must complete foundation course work (28–29 s.h.) and one emphasis area (12 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

FOUNDATION COURSES

Psychology core—both of these:

PSY:1001 Elementary Psychology 3 s.h.
PSY:2810 Research Methods in Psychology 4 s.h.

Statistics core—this course:

STAT:1020 Elementary Statistics and Inference 3 s.h.

Human relations core—both of these:

RCE:4195 Ethics in Human Relations and Counseling 3 s.h.
RCE:4199 Counseling for Related Professions 3 s.h.

Human relations core—one of these:

CCCC:2220 Foundations of Critical Cultural Competence 3 s.h.
RCE:4197 Citizenship in a Multicultural Society 3 s.h.

Psychology electives—three of these:
PSY:2301 Introduction to Clinical Psychology 3 s.h.
PSY:2401 Introduction to Developmental Science 3 s.h.
PSY:2501 Introduction to Social Psychology 3 s.h.
PSY:2601 Introduction to Cognitive Psychology 3 s.h.
PSY:2701 Biological Psychology 4 s.h.

AGING SERVICES EMPHASIS
Students must earn 12 s.h. in their chosen emphasis area. Students who choose the aging services emphasis must complete the foundation component (3 s.h.), the elective component (9 s.h.), and the internship (0 s.h.).

Foundation Component
Basic Aspects of Aging 3 s.h.

Elective Component
Students complete 9 s.h. of electives from the following.
ASP:2181 The Anthropology of Aging 3 s.h.
ASP:3135/SSW:3135/GHS:3050 Global Aging 3 s.h.
ASP:3150 Psychology of Aging 3 s.h.
ASP:3151 The Anthropology of the Beginnings and Ends of Life 3 s.h.
ASP:3152 Anthropology of Caregiving and Health 3 s.h.
ASP:3160 Biology of Aging 3 s.h.
ASP:3501/SSW:3501 Introduction to Nursing Homes 3 s.h.
ASP:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.
ASP:3740 End-of-Life Care for Adults and Families 2-4 s.h.
ASP:3753/SSW:3753 Programs and Services for Aging Adults 3 s.h.
ASP:3785 Social Policy and the Elderly 3 s.h.
ASP:3786/SSW:3786 Death/Dying: Issues Across the Life Span 3 s.h.
ASP:4165 Communication Disorders and Aging 2 s.h.
CW:3107/INTD:3107 Creative Writing for the Health Professions 3 s.h.
HHP:4470 Physiology of Aging 3 s.h.
INTD:4098 Independent Study arr.
PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
RHET:3610/ASP:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.

Internship
One of these:
CCP:1005 Internship in Liberal Arts and Sciences 0 s.h.
CCP:1145 Internship in Interdepartmental Studies 0 s.h.
INTD:4099 Interdepartmental Studies Practicum arr.

COMMUNITY-BASED SERVICES EMPHASIS
Students must earn 12 s.h. in their chosen emphasis area. Students who choose the community-based services emphasis complete the elective component (12 s.h.) and the internship (0 s.h.).

Elective Component
Students complete 12 s.h. of electives from the following.
INTD:4098 Independent Study arr.
PSQF:1027 Mindfulness Foundations in the Helping Professions 3 s.h.
PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
RCE:4130 Human Sexuality 3 s.h.
RCE:4132 Introduction to Addictions and Impulse Control Disorders 3 s.h.
RCE:4140 Foundations of Leadership for Community Agencies 3 s.h.
RCE:4145 Marriage and Family Interaction 3 s.h.
RCE:4162 Introduction to Couple and Family Therapy 3 s.h.
RCE:4173 Trauma Across the Lifespan 3 s.h.
RCE:4174 Positive Psychology 3 s.h.
RCE:4175 Motivational Interviewing 3 s.h.
RCE:4177 Life After Service: Veterans in College 3 s.h.
RCE:4178 Microcounseling 1-3 s.h.
RCE:4179 Sexuality Within the Helping Professions 3 s.h.
RCE:4187/EDTL:4987 Introduction to Assistive Technology 3 s.h.
RCE:4190 Group Processes for Related Professions 3 s.h.
RCE:4191 Advocacy: Awareness, Assertiveness, and Activism arr.
RCE:4192 Group Leadership in Human Sexuality 0-3 s.h.
RCE:4193 Individual Instruction—Undergraduate arr.
RCE:4194 Interpersonal Effectiveness 3 s.h.
SSW:3712 Human Sexuality, Diversity, and Society 1-3 s.h.
SSW:3729 Substance Use and Abuse 3 s.h.

Internship
One of these:
CCP:1005 Internship in Liberal Arts and Sciences 0 s.h.
CCP:1145 Internship in Interdepartmental Studies 0 s.h.
INTD:4099 Interdepartmental Studies Practicum arr.

CORRECTIONS SERVICES EMPHASIS
Students must earn 12 s.h. from their chosen emphasis area. Students who chose the corrections services emphasis must complete the foundation component (3-4 s.h.), the elective component (9 s.h.), and the internship (0 s.h.). The elective component must include 6 s.h. earned in courses numbered 3000 or above.

Foundation Component
One of these:
SOC:1010 Introduction to Sociology 3-4 s.h.
SOC:1020 Social Problems 3-4 s.h.

**Elective Component**
Students complete 9 s.h. of electives from the following lists of lower-level and advanced courses, with a minimum of 6 s.h. from the advanced courses list.

Lower-level courses—maximum of 3 s.h. from these:
- ANTH:1003 Anthropology of Violence 3 s.h.
- ANTH:1101 Cultural Anthropology 3 s.h.
- ANTH:1305 Forensic Anthropology and CSI 3 s.h.
- ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.
- MGMT:2000 Introduction to Law 3 s.h.
- PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
- SOC:1410 Introduction to Criminology 3 s.h.
- SOC:1420 Law and Society 3 s.h.
- SOC:2325 Women, Crime, and Justice 3 s.h.
- SOC:2426 Deviance and Control Systems 3 s.h.
- SOC:2430 Comparative Criminal Justice Systems 3 s.h.
- SOC:2810 Social Inequality 3 s.h.

Advanced courses—at least 6 s.h. from these:
- ANTH:3101/GWSS:3101 Anthropology of Sexuality 3 s.h.
- GWSS:3005 Gender, Women's, and Sexuality Studies Practicum 3-4 s.h.
- INTD:4098 Independent Study arr.
- RCE:4176 Child Abuse: Assessment, Intervention, and Advocacy 3 s.h.
- SOC:3220 Sociology of Mental Illness 3 s.h.
- SOC:3420 Juvenile Delinquency 3 s.h.
- SOC:3437 American Crime 3 s.h.
- SOC:3450 Criminal Legal System 3 s.h.
- SOC:4400 Internship in Criminal Justice and Corrections 1-5 s.h.
- SOC:4420 Criminal Punishment 3 s.h.
- SOC:4430 Interpersonal Violence in Society 3 s.h.
- SOC:4440 Sociology of White-Collar Crime 3 s.h.
- SOC:4450 Juvenile Justice: A Societal Perspective 3 s.h.
- SOC:4460 Sociology of Law 3 s.h.
- SOC:4461/GWSS:4461 Gender and Violence 3 s.h.
- SSW:3796 Family Violence 2-3 s.h.

**Internship**
One of these:
- CCP:1005 Internship in Liberal Arts and Sciences 0 s.h.
- CCP:1145 Internship in Interdepartmental Studies 0 s.h.
- INTD:4099 Interdepartmental Studies Practicum arr.

**Business Studies Track**
The business studies track requires a minimum of 37 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized business background with a choice of three emphasis areas: workplace practices and perspectives, values and ethics, and arts management. Students who choose this track also have the option of proposing their own business-related emphasis area to the faculty advisory committee.

Business studies track students must complete foundation course work (at least 17 s.h.), business electives (at least 5 s.h.), and one emphasis area (15 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises business studies track students; contact the center for more information about requirements.

**FOUNDATION COURSES**
Foundational math—one of these:
- MATH:1020 Elementary Functions 4 s.h.
- MATH:1340 Mathematics for Business 4 s.h.
- MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.
- MATH:1440 Mathematics for the Biological Sciences 4 s.h.
- MATH:1460 Calculus for the Biological Sciences 4 s.h.
- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
- MATH:1850 Calculus I 4 s.h.

Foundational statistics—one of these:
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3 s.h.
- STAT:1030 Statistics for Business 4 s.h.
- STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
- STAT:3510 Biostatistics 3 s.h.
- STAT:4143 Introduction to Statistical Methods 3 s.h.

Foundational economics—both of these:
- ECON:1100 Principles of Microeconomics 4 s.h.
- ECON:1200 Principles of Macroeconomics 4 s.h.

Foundational accounting—one of these:
- ACCT:2100 Introduction to Financial Accounting 3 s.h.
- ENTR:1350 Foundations in Entrepreneurship (if not used as business elective) 2 s.h.

**BUSINESS ELECTIVES**
Students complete two electives from the following lists.
- ACCT:2200 Managerial Accounting 3 s.h.
- ECON:2800 Statistics for Strategy Problems 3 s.h.
- FIN:3000 Introductory Financial Management 3 s.h.
- MGMT:2000 Introduction to Law 3 s.h.
- MGMT:2100 Introduction to Management 3 s.h.
- MSCI:3000 Operations Management 3 s.h.

May include one of these:
- ENTR:1350 Foundations in Entrepreneurship (if not used for foundational accounting requirement) 2 s.h.
- MKTG:3000 Introduction to Marketing Strategy 3 s.h.

May include one of these:
CS:1020 Principles of Computing 3 s.h.
MSCI:1500 Business Computing Essentials 2 s.h.

WORKPLACE PRACTICES AND PERSPECTIVES EMPHASIS

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the workplace practices and perspectives emphasis must complete at least one course from each of four components (speaking and writing, foundations and practices, cultural diversity, and entrepreneurship). The required 15 s.h. must include 9 s.h. earned in advanced courses. Advanced courses for each component are listed below.

Speaking and Writing Component

At least one course from these or from the advanced courses:

| CNW:1620 Introduction to Creative Nonfiction 3 s.h. |
| CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h. |
| COMM:1112 Interpersonal Communication 3 s.h. |
| COMM:1117 Theory and Practice of Argument 4 s.h. |
| COMM:1130 The Art of Persuading Others 3 s.h. |
| COMM:1814 Elements of Debate 3 s.h. |
| COMM:1816 Business and Professional Communication 3 s.h. |
| COMM:2821 Oral Interpretation 3 s.h. |
| CW:1800 Creative Writing Studio Workshop 3 s.h. |
| CW:2100 Creative Writing 3 s.h. |
| CW:2870 Fiction Writing 3 s.h. |
| LING:1030 English Words 3 s.h. |
| RHET:2065 Persuading Different Audiences 3 s.h. |
| RHET:2085 Speaking Skills 3 s.h. |

Advanced courses:

| INTD:3005 Professional and Creative Business Communication 3 s.h. |
| BUS:3800 Business Writing 3 s.h. |
| CLSA:3742 Word Power: Building English Vocabulary 3 s.h. |
| CNW:3600 Issues in Creative Nonfiction 3 s.h. |
| CNW:3632 Prose Style 3 s.h. |
| CNW:3630 Advanced Nonfiction Writing 3 s.h. |
| CNW:3633 Personal Writing 3 s.h. |
| CNW:3640 Writing for Business and Industry 3 s.h. |
| CNW:4642 Team Writing for Business 3 s.h. |
| CW:3210/INTD:3210 Creative Writing and the Natural World 3 s.h. |
| CW:3215/INTD:3300 Creative Writing and Popular Culture 3 s.h. |
| CW:4745 The Sentence: Strategies for Writing 3 s.h. |
| CW:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h. |
| CW:3218/INTD:3200 Creative Writing for New Media 3 s.h. |
| ENNM:3633 Personal Writing for Non-English Majors 3 s.h. |
| GWSS:3138 Writing to Change the World 3 s.h. |
| ENNM:3640 Writing for Business and Industry for Non-English Majors 3 s.h. |
| INTM:3755 What is Storytelling For? 4 s.h. |
| LING:3001 Introduction to Linguistics 3 s.h. |
| RHET:3085 Advanced Speaking Skills 3 s.h. |

Foundations and Practices Component

At least one course from these or from the advanced courses:

| ANTH:1401 Language, Culture, and Communication 3 s.h. |
| COMM:1301 Core Concepts in Communication Studies 3 s.h. |
| COMM:1818 Leadership and Organizational Procedures 2 s.h. |
| COMM:1819 Organizational Leadership 2-3 s.h. |
| JMC:1100 Media Uses and Effects 3 s.h. |
| JMC:1200 Media History and Culture 3 s.h. |
| JMC:1500 Social Media Today 3 s.h. |
| JMC:2200 Communication and Public Relations 3 s.h. |

Advanced courses:

| COMM:1170 Communication Theory in Everyday Life 3 s.h. |
| COMM:1174 Media and Society 3 s.h. |
| ENGL:3182 Digital Cultures and Literacies 3 s.h. |
| JMC:3125 Media and Consumers 3 s.h. |

Cultural Diversity Component

At least one course from these or from the advanced courses:

| AFAM:1020/AMST:1030 Introduction to African American Culture 3 s.h. |
| AFAM:1030 Introduction to African American Society 3 s.h. |
| AFAM:1250/RELS:1350 Introduction to African American Religions 3 s.h. |
| AFAM:2070 Black TV Drama: The Wire 3 s.h. |
| AINS:1049/AMST:1049 Introduction to American Indian and Native Studies 3 s.h. |
| AMST:1010 Understanding American Cultures 3 s.h. |
| ANTH:2165/AINS:2165/AMST:2165 Native Peoples of North America 3 s.h. |
| ENGL:1350 Literature and Sexualities 3 s.h. |
| ENGL:1355/AINS:1355 Literatures of Native American Peoples 3 s.h. |
| ENGL:2460 Black Literature and Politics: Controversies of National Allegiance 3 s.h. |
| GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies 3 s.h. |
| GWSS:1002 Diversity and Power in the U.S. 3 s.h. |

JMC:3165 African Americans and the Media 3 s.h.
RELS:3745 Twentieth-Century African American Religion: Civil Rights to Hip-Hop 3 s.h.
SOC:3830 Race and Ethnicity 3 s.h.
SSW:3712/NURS:3712 Human Sexuality, Diversity, and Society 1-3 s.h.

**Entrepreneurship Component**

At least one of these (all are advanced courses):

INTD:4098 Independent Study  arr.
INTD:4099 Interdepartmental Studies  arr.
ECON:3650 Policy Analysis 3 s.h.
ENTR:2000 Entrepreneurship and Innovation 3 s.h.
ENTR:3100 Entrepreneurial Finance 3 s.h.
ENTR:3200 Entrepreneurial Marketing 3 s.h.
ENTR:3300 Legal Aspects of Entrepreneurship 3 s.h.
ENTR:3400 Strategic Management of Technology and Innovation 3 s.h.
ENTR:3500 Social Entrepreneurship 3 s.h.
ENTR:3600 E-Commerce Strategies for Entrepreneurs 3 s.h.
ENTR:4000 Seminar in Entrepreneurship 2-3 s.h.
ENTR:4200 Entrepreneurship: Business Consulting 3 s.h.
ENTR:4300 Entrepreneurship: Advanced Business Planning 3 s.h.
ENTR:4400 Managing the Growth Business 3 s.h.
ENTR:4450 Professional Sports Management 3 s.h.
ENTR:4460 Entrepreneurship and Global Trade 3 s.h.
MGMT:3600/RELS:3701/SSW:3600/NURS:3600 Nonprofit Organizational Effectiveness II 3 s.h.

**VALUES AND ETHICS EMPHASIS**

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the values and ethics emphasis must complete at least two courses from each of the two components (values and theories, institutions and policies).

**Values and Theories Component**

At least two of these:

JMC:3155 Law, Media, and Current Issues 3 s.h.
JMC:3300 Media Law and Communication 3 s.h.
PHIL:1033 The Meaning of Life 3 s.h.
PHIL:1034 Liberty and the Pursuit of Happiness 3 s.h.
PHIL:2402 Introduction to Ethics 3 s.h.
PHIL:2435 Philosophy of Law 3 s.h.
POLI:1200 Introduction to Political Behavior 3 s.h.
POLI:1300 Introduction to Political Thought and Action 3 s.h.
POLI:3400 Introduction to Political Economy 3 s.h.
POLI:3417 Political Leadership 3 s.h.
POLI:3700 Strategy in Politics 3 s.h.
SOC:1420 Law and Society 3 s.h.
SOC:3520 Political Sociology 3 s.h.

**Institutions and Policies Component**

At least two of these:

PHIL:1401 Matters of Life and Death 3 s.h.
PHIL:2432 Introduction to Political Philosophy 3 s.h.
POLI:3101 American Constitutional Law and Politics 3 s.h.
POLI:3102 The U.S. Congress 3 s.h.
POLI:3108 American Political Development 3 s.h.
POLI:3111 American Public Policy 3 s.h.
POLI:3116 The Presidency 3 s.h.
POLI:3117 Public Administration and Bureaucratic Politics 3 s.h.
POLI:3120 The Criminal Justice System 3 s.h.
POLI:3121 The Judicial Process 3 s.h.
POLI:3202 Political Psychology 3 s.h.
SOC:1410 Introduction to Criminology 3 s.h.
SOC:2810 Social Inequality 3 s.h.
SOC:3450 Criminal Legal System 3 s.h.
SOC:3840 Community and Urban Sociology 3 s.h.

**ARTS MANAGEMENT EMPHASIS**

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the arts management emphasis must complete two courses from the administration component, one course from the history component, 3 s.h. from the production component, 3 s.h. from the elective component, and the internship (0 s.h.).

**Administration Component**

Students complete two courses from the following lists.

THTR:3510/INTD:3510/DPA:3510 Introduction to Arts Management 3 s.h.

May include one of these:

ENTR:2000 Entrepreneurship and Innovation 3 s.h.
THTR:3520/ENTR:3520/INTD:3520/DPA:3520 New Ventures in the Arts 3 s.h.
History Component
Students complete one of these:

AMST:1075 American Popular Music 3 s.h.
ARTH:1010 Art and Visual Culture 3 s.h.
ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives 3 s.h.
ARTH:1030 Themes in Global Art 3 s.h.
ARTH:1040 Arts of Africa 3 s.h.
ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
ARTH:1070/CHIN:1070 Asian Art and Culture 3 s.h.
ARTH:1095 American Indian Art 3 s.h.
DANC:2060/DPA:2060 Dance and Society in Global Contexts 3 s.h.
DANC:3030 Major Ballet I 1-3 s.h.
DANC:3040 Major Modern Dance I 1-3 s.h.
DANC:3530 Major Ballet II 1-3 s.h.
DANC:3540 Major Modern Dance II 1-3 s.h.
DANC:3085/DPA:3085 Introduction to Afro-Cuban Dance 1 s.h.
DANC:3086 Afro-Cuban Drum and Dance Performance 1 s.h.
MUS:1001 Group Piano I: Non-Music Majors 1 s.h.
MUS:1020 Performance Instruction for Nonmajors 1 s.h.
MUS:1160 University Band 1 s.h.
MUS:1165 Hawkeye Marching Band 1 s.h.
MUS:1166 Large Pep Band 1 s.h.
MUS:1176 Women's Chorale 1 s.h.
MUS:1180 All-University String Orchestra 1 s.h.
MUS:2020 Lower Level Voice arr.
MUS:2021 Lower Level Piano arr.
MUS:2022 Lower Level Organ arr.
MUS:2023 Lower Level Violin arr.
MUS:2024 Lower Level Viola arr.
MUS:2025 Lower Level Cello arr.
MUS:2026 Lower Level String Bass arr.
MUS:2027 Lower Level Flute arr.
MUS:2028 Lower Level Oboe arr.
MUS:2029 Lower Level Clarinet arr.
MUS:2030 Lower Level Bassoon arr.
MUS:2031 Lower Level Saxophone arr.
MUS:2032 Lower Level Horn arr.
MUS:2033 Lower Level Trumpet arr.
MUS:2034 Lower Level Trombone arr.
MUS:2035 Lower Level Euphonium arr.
MUS:2036 Lower Level Tuba arr.
MUS:2037 Lower Level Percussion arr.
MUS:2038 Lower Level Jazz Guitar 1 s.h.
MUS:3154/DPA:3154 Introduction to Afro-Cuban Drumming 1 s.h.
MUS:3160 Symphonic Band/Concert Band 1 s.h.
MUS:3163 Steel Band 1 s.h.
MUS:3170 Kantorei 1 s.h.
MUS:3172 Camerata Singers 1 s.h.
MUS:3174 University Choir 1 s.h.
MUS:3180 Orchestra 1 s.h.
MUS:3182 Chamber Orchestra 1 s.h.
MUS:3730 Jazz Band 1 s.h.

Production Component
Students complete 3 s.h. from the following list.

INTD:4098 Independent Study arr.
INTD:4099 Interdepartmental Studies arr.
ARTS:1010 Elements of Art 3 s.h.
ARTS:1020 Elements of 3-D Design 3 s.h.
ARTS:1030 Elements of Jewelry and Metal Arts 3 s.h.
ARTS:1050 Elements of Printmaking 3 s.h.
ARTS:1060 Elements of Digital Photography 3 s.h.
ARTS:1080 Elements of Sculpture 3 s.h.
ARTS:1510 Basic Drawing 3 s.h.
ARTS:1520 Design Fundamentals 3 s.h.
DANC:1010 Beginning Tap 1-2 s.h.
MUSM:3004 Exhibition Planning 3 s.h.
THTR:1010 Art of the Theatre 3 s.h.
THTR:1140 Basic Acting 3 s.h.
THTR:2200 Elements of Design 3 s.h.
THTR:2215 Theatre Technology 3 s.h.
THTR:3221 Technology for the Entertainment Industry 3 s.h.

Elective Component
Students complete one of these:

ARTH:3080 Marketing, Promoting, Politicking Contemporary Public Art 3 s.h.
ARTH:4081 The Art Museum: Theory and Practice 3 s.h.
ARTS:3400 Grant Writing in the Arts 3 s.h.
ENTR:3100 Entrepreneurial Finance 3 s.h.
ENTR:3200 Entrepreneurial Marketing 3 s.h.
INTD:3005 Professional and Creative Business Communication 3 s.h.
JMC:3300 Media Law and Communication 3 s.h.
MGMT:2100 Introduction to Management (if not already used to fulfill foundation course work requirement) 3 s.h.
MGMT:3600/RELS:3701/NURS:3600/SSW:3600 Nonprofit Organizational Effectiveness II 3 s.h.
MUSM:3001 Introduction to Museum Studies 3 s.h.
MUSM:3200 Collection Care and Management 3 s.h.

Internship
One of these:
CCP:1145 Internship in Interdepartmental Studies 0 s.h.
INTD:4099 Interdepartmental Studies Practicum arr.

Engaged Social Innovation Track
The engaged social innovation track requires 37 s.h. of work for the major. The interdepartmental studies major with the engaged social innovation track is available only as a second major for qualified students. The track combines course work and experiential learning with a student-designed capstone internship. By focusing on course work with a strong hands-on component, the track encourages students to learn in multiple ways, both in and out of the classroom, and prepares them to bring social change and innovation to communities.

Admission to the engaged social innovation track is selective; students must apply and be admitted. Applicants must have a g.p.a. of 3.33 and must be members of the University of Iowa Honors Program when they apply to the track. They also must have declared a first major and must show evidence of commitment to community engagement and service. Their work for the engaged social innovation track constitutes a second major related to their other academic interests.

Engaged social innovation students complete core courses, upper-level course work, and a capstone internship preceded by a course or experience that prepares them for the internship.

CORE COURSES
All of these:
ENTR:2000 Entrepreneurship and Innovation 3 s.h.
ENTR:3500 Social Entrepreneurship 3 s.h.
RHET:3153 Networks, Strategies, and Tactics 3 s.h.

UPPER-LEVEL COURSE WORK
Students select upper-level course work that reflects and supports their internship project.

Upper-level courses (numbered 3000 or above) selected by each student

INTERNSHIP
Students complete an internship (12 s.h.) preceded by a course or experience that prepares them for it.

One course or experience in preparation for the internship 2 s.h.
INTD:4098 Independent Study 12 s.h.

Health Science Track
The health science track requires 37 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized health background with a varied choice of emphasis areas: multidisciplinary science, entrepreneurial, aging, global health, cultures of healing, and writing for the sciences. Students who choose this track also have the option of proposing their own health science-related emphasis area to the faculty advisory committee.

Health science track students must complete foundation course work (22 s.h.) and one emphasis area (15 s.h.). They must complete a minimum of 15 s.h. for the major at the University of Iowa. The Academic Advising Center advises health science track students; contact the center for more information about requirements.

FOUNDATION COURSES
Foundational chemistry—one of these:
CHEM:1070 General Chemistry I 3 s.h.
CHEM:1110 Principles of Chemistry I 4 s.h.
Foundational chemistry—and one of these:
CHEM:1080 General Chemistry II 3 s.h.
CHEM:1120 Principles of Chemistry II 4 s.h.
Foundational biology—one of these:
BIOL:1140 Human Biology 4 s.h.
BIOL:1141 Introductory Animal Biology 4 s.h.
BIOL:1411 Foundations of Biology 4 s.h.
Foundational math and statistics—one of these:
BIOS:5110 Introduction to Biostatistics 3 s.h.
MATH:1020 Elementary Functions 4 s.h.
MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.
MATH:1440 Mathematics for the Biological Sciences 4 s.h.
MATH:1460 Calculus for the Biological Sciences 4 s.h.
MATH:1850 Calculus I 4 s.h.
STAT:1020/PSQF:1020 Elementary Statistics and Inference 3 s.h.
STAT:1030 Statistics for Business 4 s.h.
STAT:3510 Biostatistics 3 s.h.
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3 s.h.

Foundational social science—one of these:
ANTH:1101 Cultural Anthropology 3 s.h.
ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.
PSY:1001 Elementary Psychology 3 s.h.
SOC:1010 Introduction to Sociology 3-4 s.h.
SOC:1020 Social Problems 3-4 s.h.

Foundational science elective—one of these:
ACB:3110 Principles of Human Anatomy 3 s.h.
ACB:3113 Human Anatomy Online 4 s.h.
BIOL:1412 Diversity of Form and Function 4 s.h.
HHP:1100 Human Anatomy 3 s.h.

Foundational elective—one of these:
HHP:1300 Fundamentals of Human Physiology 3 s.h.
HHP:2310 Nutrition and Health 3 s.h.
HHP:3000/INTD:3020 Equity Issues in the Health Sciences 3 s.h.
HHP:3400 Applied Exercise Physiology 3 s.h.
HHP:3500 Human Physiology 3 s.h.
HHP:4440 Physiology of Nutrition 3 s.h.
NURS:1030 Human Development and Behavior 3 s.h.
PSY:2401 Introduction to Developmental Science 3 s.h.
SRM:1045 Health for Living 3 s.h.

MULTIDISCIPLINARY SCIENCE EMPHASIS
Students must earn 15 s.h. in their chosen emphasis area. Students who choose the multidisciplinary science emphasis must complete 15 s.h. from the following lists.

BIOC:3110 Biochemistry 3 s.h.
BIOC:3120 Biochemistry and Molecular Biology I 3 s.h.
BIOC:3130 Biochemistry and Molecular Biology II 3 s.h.
BIOL:2254 Endocrinology 3 s.h.
BIOL:2512 Fundamental Genetics 4 s.h.
BIOL:2723 Cell Biology 3 s.h.
BIOL:2753 Introduction to Neurobiology 3 s.h.
CW:3107/INTD:3107 Creative Writing for the Health Professions 3 s.h.
HHP:3020/INTD:3027 Nutrition for Health, Fitness, and Sport 3 s.h.
MICR:2157 General Microbiology 5 s.h.

May include one of these:
INTD:4098 Independent Study arr.
INTD:4099 Interdepartmental Studies Practicum arr.
CHEM:2210 Organic Chemistry I 3 s.h.
CHEM:2230 Organic Chemistry I for Majors 3 s.h.
CHEM:2220 Organic Chemistry II 3 s.h.
CHEM:2240 Organic Chemistry II for Majors 3 s.h.
CHEM:2410 Organic Chemistry Laboratory 3 s.h.
CHEM:2420 Organic Chemistry Laboratory for Majors 3 s.h.

PHYS:1511 College Physics I 4 s.h.
PHYS:1512 College Physics II 4 s.h.
PHYS:1611 Introductory Physics I 4 s.h.
PHYS:1612 Introductory Physics II 3-4 s.h.

ENTREPRENEURIAL EMPHASIS
Students must earn 15 s.h. in their chosen emphasis area. Students who choose the entrepreneurial emphasis must complete 15 s.h. from the following lists.

ACCT:2100 Introduction to Financial Accounting 3 s.h.
BUS:3800 Business Writing 3 s.h.
CNW:3640 Writing for Business and Industry 3 s.h.
ECON:3650 Policy Analysis 3 s.h.
ECON:3760 Health Economics 3 s.h.
ENTR:1350 Foundations in Entrepreneurship 2 s.h.
ENTR:2000 Entrepreneurship and Innovation 3 s.h.
ENTR:3100 Entrepreneurial Finance 3 s.h.
ENTR:3200 Entrepreneurial Marketing 3 s.h.
ENTR:3300 Legal Aspects of Entrepreneurship 3 s.h.
ENTR:3400 Strategic Management of Technology and Innovation 3 s.h.
ENTR:3500 Social Entrepreneurship 3 s.h.
ENTR:3520 New Ventures in the Arts 3 s.h.
ENTR:3600 E-Commerce Strategies for Entrepreneurs 3 s.h.
ENTR:4000 Seminar in Entrepreneurship 2-3 s.h.
ENTR:4200 Entrepreneurship: Business Consulting 3 s.h.
ENTR:4300 Entrepreneurship: Advanced Business Planning 3 s.h.
ENTR:4400 Managing the Growth Business 3 s.h.
ENTR:4450 Professional Sports Management 3 s.h.
ENTR:4460 Entrepreneurship and Global Trade 3 s.h.

HHP:3020/INTD:3027 Nutrition for Health, Fitness, and Sport 3 s.h.

May include one of these:
INTD:4098 Independent Study (only 3 s.h. may count toward major) 3 s.h.
INTD:4099 Interdepartmental Studies Practicum (only 3 s.h. may count toward major) 3 s.h.

CULTURES OF HEALING EMPHASIS

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the cultures of healing emphasis must complete the foundation component (3 s.h.) and the elective component (12 s.h.). The elective component must include 6 s.h. earned in advanced courses.

Foundation Component

One of these:
CLSA:1181/GHS:1181 Ancient Medicine 3 s.h.
CLSA:4181 History of Western Medicine 3 s.h.

Elective Component

Students complete 12 s.h. of electives from the following lists of lower-level and advanced courses, with a minimum of 6 s.h. from the advanced courses list.

Lower-level courses—maximum of 6 s.h. from these:
RELS:2700/AINS:2700 Sacred World of Native Americans 3 s.h.
RELS:2771/GWSS:2771 Sexual Ethics 3 s.h.
RELS:2778/AINS:2078 American Indian Women: Myth, Ritual, and Sacred Power 3 s.h.
RELS:3976/AINS:3276 American Indian Environmentalism 3 s.h.

Lower-level courses may include one of these:
ANTH:1101 Cultural Anthropology 3 s.h.
ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.

Advanced courses—at least 6 s.h. from these:
INTD:3020/HHP:3000 Equity Issues in the Health Sciences 3 s.h.
INTD:3107/CW:3107 Creative Writing for the Health Professions 3 s.h.
ANTH:2261 Human Impacts on the Environment 3 s.h.
ANTH:3101/GWSS:3101 Anthropology of Sexuality 3 s.h.
ANTH:3102/GHS:3102/CBH:3102 Medical Anthropology 3 s.h.
ANTH:3103 Environment and Culture 3 s.h.
ANTH:3110/AINS:3110/GHS:3110 Health of Indigenous Peoples 3 s.h.
ANTH:3111/GHS:3040 Health in Mexico 3 s.h.
ANTH:3141/GWSS:3141 Women, Health, and Healing 3 s.h.
ANTH:3282 Animals, Culture, and Food 3 s.h.
ANTH:3300/GWSS:3300 Mothers and Motherhood 3 s.h.
ANTH:4140/GWSS:4140/CBH:5140 The Anthropology of Women's Health 3 s.h.

CLSA:3440/RELS:3340 Recovering Eden: The Afterlife in Early Judaism and Christianity 3 s.h.
CLSA:3750 Medical and Technical Terminology 2 s.h.
CLSA:4181 History of Western Medicine (if not used to fulfill foundation requirement) 3 s.h.
HIST:4201/ASL:4201 History of the American Deaf Community 3-4 s.h.
HIST:4203 Disability in American History 3 s.h.
HIST:4605 Disease, Politics, and Health in South Asia 3 s.h.
RELS:3580/ANTH:3113 Religion and Healing 3 s.h.
RELS:3666 The History of a Religious and Spiritual Practice: Yoga in Asia and Beyond 3 s.h.

Advanced courses may include one of these:
INTD:4098 Independent Study arr.
INTD:4099 Interdepartmental Studies Practicum arr.

WRITING FOR THE SCIENCES EMPHASIS

Students must complete 15 s.h. in their emphasis area. Students who choose the writing for the sciences emphasis must complete the foundation component (6 s.h.) and the elective component (9 s.h.).

Foundation Component

One of these:
CLSA:1740 Writing Strategies: Word Origins and Word Choice 3 s.h.
CLSA:3742 Word Power: Building English Vocabulary 3 s.h.

And one of these:
CNW:3632 Prose Style 3 s.h.
CW:4745 The Sentence: Strategies for Writing 3 s.h.
RHET:2095 Fundamental Strategies of Persuasion 3 s.h.

Elective Component

Students complete 9 s.h. from these:
CNW:2730 The Art and Craft of Science Writing 3 s.h.
CNW:3664 Writing About Science 3 s.h.
POLI:3107 Writing in Political Science: Writing for "Science" and for "Politics" arr.
RHET:3140 Nature and Society: Controversies and Images 3 s.h.
RHET:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.
RHET:3700 Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience 3 s.h.
WRIT:3200 Writing for the Earth and Environmental Sciences 3 s.h.

Individualized Plan of Study Track

The individualized plan of study track requires a minimum of 36 s.h. of work for the major, all taken at the University of Iowa. Students who choose this track build their own study plan, creating a unique major that speaks to interests across departments and that integrates varied approaches to a particular topic (e.g., aging studies,
international business, children's studies, environmental issues, health issues).

Students must submit their study plan for approval. The plan must include an essay that provides a clear statement of the area of intellectual focus; the reasons for preferring the Interdepartmental Studies Program (ISP) to any departmental program; a concrete discussion of how the advanced courses relate to each other, to personal interests, and to the central focus of the study plan; a description of academic goals for the bachelor's degree; a list of advanced-level course work already completed; and a list of advanced-level course work planned for all remaining semesters.

Each study plan is approved by a faculty advisory committee. Reviews are held once a semester. Deadlines are posted on the Interdepartmental Studies Program web site.

If the advisory committee does not grant approval, the study plan may be returned to a student for revisions and resubmission at the next committee meeting. In some cases, a student may be referred to an appropriate departmental major.

Once the study plan is approved, a student is required to follow the plan, taking the courses approved for it. A limited number of substitutions may be allowed, but only if they are clearly consistent with the area of intellectual focus in the approved study plan, and only if they are approved in advance by the ISP advisor. Unauthorized substitutions may be designated as elective course work.

Significant changes in the focus of a student's study plan require the submission and approval of a revised study plan. A student's academic advisor determines whether changes warrant a revised plan.

See the Interdepartmental Studies Program web site for up-to-date information on the individualized plan of study track and rules for submission of study plans.

Students who choose the individualized plan of study track are advised by the ISP coordinator; they work closely with the Interdepartmental Studies Program office while designing the study plan. Students who intend to submit a study plan should contact the ISP coordinator as early as possible.

Four-Year Graduation Plan

The Four-Year Graduation Plan is available only to ISP students in the individualized plan of study track. Students in the other ISP tracks work with their advisors to develop individual graduation plans.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major.)

Before the seventh semester begins: an approved individualized plan of study, at least six courses in the plan of study, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: a total of at least nine courses in the plan of study

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors in the Major

Students majoring in interdepartmental studies have the opportunity to graduate with honors in the major; they usually complete the honors requirements of a particular department or program appropriate to their area of study. Students should initiate inquiries about graduating with honors in the interdepartmental studies major by contacting the ISP coordinator; they should inquire early in their junior year to allow time for foundation course work. Students must submit an honors project approval form to the ISP coordinator.

Honors students in interdepartmental studies must be members of the University's honors program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University of Iowa Honors Program.

Courses

INTD:3005 Professional and Creative Business Communication 3 s.h.

Solid foundation for creative and professional communication in today's modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. Same as CW:3005.

INTD:3020 Equity Issues in the Health Sciences 3 s.h.

Examination of equity issues in the health sciences, including a review of the historical challenges that led to Human Subjects Review Boards, FDA oversight of drug development and clinical trials, inclusion of women in research; effect of situational ethics in the workplace; potential danger of making assumptions about clients/patients; importance of developing an inclusive communication style; assessing the effectiveness of family-friendly employment policies in providing equitable opportunities for career advancement for both women and men. Recommendations: junior or senior standing. Same as HHP:3000.

INTD:3027 Nutrition for Health, Fitness, and Sport 3 s.h.

Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as HHP:3020.

INTD:3030 Coaching for Health and Wellness 3 s.h.
Opportunities to expand knowledge and develop skills to help individuals change behavior and meet health-related goals; general health and wellness principles; principles and techniques for change; experience providing health-coaching services to clients. Prerequisites: HHP:2200 and HHP:2310. Same as HHP:3030.

INTD:3107 Creative Writing for the Health Professions 3 s.h. Same as CW:3107.

INTD:3200 Creative Writing for New Media 3 s.h. Prepares creative writers for evolving marketplace of electronic text, media; experience writing in varied media such as the Internet, e-books, video games, mobile devices, emergent social narratives. Same as CW:3218.

INTD:3210 Creative Writing and the Natural World 3 s.h. How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. Same as CW:3210.

INTD:3300 Creative Writing and Popular Culture 3 s.h. Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. Same as CW:3215.

INTD:3510 Introduction to Arts Management 3 s.h. Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as THTR:3510, DPA:3510.

INTD:4098 Independent Study arr. Individual study of issues or topics related to a specific interdepartmental focus chosen by the student.

INTD:4099 Interdepartmental Studies Practicum arr. Opportunity to relate a student’s chosen area of study to practical application. Requirements: interdepartmental studies student.

INTD:4510 Arts Leadership Seminar 3 s.h. Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or THTR:3520 or ENTR:2000. Same as ENTR:4510, THTR:4510, DPA:4510.
International Business

Coordinators

- Matthew C. Edwards (Tippie College of Business),
- Patricia Mason-Browne (College of Liberal Arts and Sciences)

Undergraduate certificate: international business
Web site: http://tippie.uiowa.edu/undergraduate/programs/cib.cfm

Undergraduate Program of Study

- Certificate in International Business

The Tippie College of Business and the College of Liberal Arts and Sciences offer the undergraduate Certificate in International Business. The program is designed for students who intend to pursue careers in international business as well as those interested in gaining a better understanding of the global economy and a broader awareness of the political, historical, and social environment in which international business operates.

Certificate

The Certificate in International Business requires 29 s.h. and satisfaction of the certificate’s world language or study abroad requirement (total credit depends on the student’s choice of world language or study abroad experience). In addition to a world language or study abroad, the program includes study of international business and economics, international relations and institutions, and the contemporary art, literature, culture, and/or politics of one of several geographical regions (Asia, Europe, Latin America, Middle East/Africa, or Russia/Eastern Europe). The range of courses permits students to tailor areas of specialization suited to their individual interests and to complement majors in business and in liberal arts and sciences.

The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor’s degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students should declare their intention to earn the certificate as early as possible and talk with an advisor about certificate requirements. They must submit an individual plan of study. Tippie College of Business students should talk with the advising staff at the college’s Undergraduate Program Office; College of Liberal Arts and Sciences students should talk with a Certificate in International Business advisor at the Academic Advising Center. Individuals who hold a bachelor's degree from another institution should contact the University’s Office of Admissions.

A minimum of 20 s.h. of certificate course work (other than language courses) must be completed at the University of Iowa or in approved study abroad programs. Students who plan to count study abroad credit toward the certificate should consult a Certificate in International Business advisor before leaving campus. University of Iowa Guided Independent Study Courses are accepted toward the certificate.

Certificate courses may not be taken pass/nonpass. A course may not be used to satisfy more than one certificate requirement.

The Certificate in International Business requires the following course work.

INTERNATIONAL BUSINESS

These courses provide students with an essential understanding of economics, which is central to all business operation. They also help students develop knowledge of the functional areas of international business.

Both of these:

- ECON:1100 Principles of Microeconomics 4 s.h.
- ECON:1200 Principles of Macroeconomics 4 s.h.

Three of these (total of 9 s.h.):

- BUS:2450 Business and Culture in China 3 s.h.
- ECON:3345 Global Economics and Business 3 s.h.
- ECON:3620 Economic Growth and Development 3 s.h.
- ECON:4110 International Economics 3 s.h.
- ENTR:4460 Entrepreneurship and Global Trade 3 s.h.
- FIN:4240 International Finance 3 s.h.
- MGMT:3450 International Business Environment 3 s.h.
- MKTG:4300 International Marketing 3 s.h.
- LAW:8600 International Business Transactions 3 s.h.
- LAW:8631 International Trade Law: Basic Norms and Regulations 3 s.h.

One of these may be counted toward the 9 s.h. requirement above:

- CHIN:3103 Business Chinese I 3 s.h.
- FREN:3410 Business French 3 s.h.
- GRMN:3214 Business German 3 s.h.
- JPN:3500 Business Japanese I 3 s.h.
- PORT:3130 Business Portuguese 3 s.h.
- SPAN:3040 Business Spanish 3 s.h.

INTERNATIONAL RELATIONS AND INSTITUTIONS

These courses familiarize students with comparative politics, social geography, foreign policy, and issues related to world population and the environment—topics relevant to decision making in the international business world.

Two of these (total of 6 s.h.):

- ANTH:1003 Anthropology of Violence 3 s.h.
- ANTH:1008 Anthropology of Immigration 3 s.h.
- ANTH:1040/LING:1040 Language Rights 3 s.h.
- ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.
- ANTH:2103/GHSS:2000 Introduction to Global Health Studies 3 s.h.
- ANTH:2136 Urban Anthropology 3 s.h.
- ANTH:3103 Environment and Culture 3 s.h.

**WORLD LANGUAGE OR STUDY ABROAD EXPERIENCE**

Certificate students gain insight into the culture of another world region and deepen their understanding of their own language and culture by learning a world language or completing a study abroad experience.
Students who choose language study are required to develop intermediate-level competence in a language that is spoken in one of several geographic regions (Asia, Europe, Latin America, Middle East/Africa, or Russia/Eastern Europe) by completing one of the approved language sequences below.

Students who choose to complete a study abroad experience are expected to coordinate it with the course work they use to fulfill the certificate's area studies requirement (see "Area Studies" below). They must earn at least 3 s.h. of graded credit for the study abroad experience.

For questions about languages not listed or about study abroad course work, see a Certificate in International Business advisor.

**Arabic**

All of these:
- ARAB:1001-ARAB:1002 Elementary Modern Standard Arabic I-II 10 s.h.

**Chinese**

All of these:

**Czech**

All of these:
- SLAV:1211-SLAV:1212 Conversational Czech I-II 6 s.h.
- SLAV:2211-SLAV:2212 Conversational Czech III-IV 6 s.h.

**French**

One of these:
- FREN:1001-FREN:1002 Elementary French I-II (both courses) 10 s.h.
- FREN:1010 First-Year French Review 5 s.h.

All of these:
- FREN:2001-FREN:2002 Intermediate French I-II (both courses) 8 s.h.
One course for which FREN:2002 is prerequisite (may include Iowa Regents Program credit)

**German**

One of these:
- GRMN:1001-GRMN:1002 Elementary German I-II (both courses) 8 s.h.
- GRMN:1010 First-Year German Review 5 s.h.

All of these:
- GRMN:2001-GRMN:2002 Intermediate German I-II 8 s.h.

One course for which GRMN:2002 is prerequisite

**Hindi-Urdu**

All of these:
- SOAS:2101-SOAS:2102 First-Year Hindi-Urdu: First Semester - First-Year Hindi-Urdu: Second Semester 10 s.h.

**Italian**

One of these:
- ITAL:1101-ITAL:1102 Elementary Italian-II (both courses) 10 s.h.
- ITAL:3002 Intensive Elementary Italian 6 s.h.

All of these:
- ITAL:2203-ITAL:2204 Intermediate Italian-II (both of these) 8 s.h.
One course for which ITAL:2204 is prerequisite

**Japanese**

All of these:

**Korean**

All of these:

**Portuguese**

One of these:
- PORT:3050 Portuguese for Spanish Speakers 3 s.h.
And:
One course for which PORT:2500 or PORT:3050 is prerequisite

**Russian**

All of these:
- SLAV:1111-SLAV:1112 First-Year Russian I-II 10 s.h.
- SLAV:2111-SLAV:2112 Second-Year Russian I-II 8 s.h.
And:
One course for which SLAV:2112 is prerequisite
### Spanish

Both of these:

</tr>
</tbody>
</table>

### AREA STUDIES

Area studies topics are critical to students' understanding of how society and culture influence the people with whom they share the world—and with whom they may conduct business. The following courses help students learn about the culture, contemporary history, art, literature, and politics of a specific geographic region.

Students complete 6 s.h. from one geographic region. They should select a region that is related to their chosen world language or study abroad experience.

### Asia

Appropriate for these languages: Chinese, Hindi-Urdu, Japanese, or Korean

International Studies

**Director, Division of Interdisciplinary Programs**
- Helena R. Dettmer

**Chair, International Studies**
- Helena R. Dettmer (Classics)

**Undergraduate major:** international studies (B.A.)  
**Undergraduate minor:** international studies  
**Faculty:** [http://intprog.its.uiowa.edu/international-studies/students/mentor-directory.asp?All=ShowAllMentor#results](http://intprog.its.uiowa.edu/international-studies/students/mentor-directory.asp?All=ShowAllMentor#results)  
**Web site:** [http://clas.uiowa.edu/international-studies](http://clas.uiowa.edu/international-studies)

The International Studies major encourages students to integrate theoretical knowledge about broad global processes, and the methods used to study them, with in-depth examination of a particular geographical region or a major theme in international studies. The major affords students the opportunity to integrate the study of history, politics, economics, expressive arts, culture, beliefs, and social systems.

International Studies is one of the academic units in the Division of Interdisciplinary Programs (p. 226).

**Undergraduate Programs of Study**
- Major in international studies (Bachelor of Arts)  
- Minor in international studies

The international studies major is interdisciplinary. It is designed to help students learn to appreciate world cultures, focus on themes of global significance, and master varied disciplinary approaches used to study international issues. The program complements a wide range of academic degree programs and is an appropriate choice for many students who plan to pursue a double major.

The major prepares students for careers in business, government, international development agencies, nongovernmental organizations, philanthropic agencies, and the arts. It is excellent preparation for graduate training in the social sciences, the arts, law, business, journalism, international affairs, area studies, and public health.

**Bachelor of Arts**

The Bachelor of Arts with a major in international studies requires a minimum of 120 s.h., including at least 42 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 313).

The major in international studies is flexible, drawing on courses across the humanities and social sciences. Students work closely with an academic advisor to plan their program of study.

Work for the major includes two introductory courses, three foundation courses, language study beyond that required by the General Education Program, requirements for one of the major's three program options (A, B, or C), and required course work in one of the major's tracks.

International studies students must complete course work from at least four different departments and/or programs; they may count a maximum of 12 s.h. from any department or program toward the major.

Students may apply up to 12 s.h. of course work from each additional major, minor, or certificate they earn toward the international studies major. Transfer credit approved by the International Studies Program may be applied to the major. Students must complete at least 15 s.h. of work for the major at the University of Iowa.

The major in international studies requires the following course work.

**INTRODUCTORY COURSES**
Both of these:
- IS:1000 Designing Your International Studies Major  
- IS:2000 Introduction to International Studies  

**FOUNDATION COURSES**
Students earn a minimum of 9 s.h. in foundation courses chosen from the following lists. Foundation courses provide an overview of global issues and introduce a disciplinary approach to global topics, laying the groundwork for continuing study.

- ANTH:1101 Cultural Anthropology 3 s.h.
- ARTH:1030 Themes in Global Art 3 s.h.
- ASIA:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.
- DANC:2060 Dance and Society in Global Contexts 3 s.h.
- POLI:1400 Introduction to Comparative Politics 3 s.h.
- RELS:1015 Religions in a Global Context: The Critical Role of Religion in International Affairs 3 s.h.

May include one of these:
- HIST:2403 Western Civilization III 3-4 s.h.
- HIST:3155 The World Since 1945 3 s.h.

May include one of these:
- GEOG:1090 Globalization and Geographic Diversity 3 s.h.
- GEOG:2910 The Global Economy 3 s.h.

May include one of these:
- CL:1240 Major Texts of World Literature, Antiquity to 1700 3 s.h.
- CL:1241 Major Texts of World Literature, 1700 to the Present 3 s.h.

**LANGUAGE REQUIREMENT**
All students must complete a minimum of two semesters of language study beyond that required by the General Education Program (p. 313). This additional language requirement may be met either by completing two semesters of upper-level study in the same language used to fulfill the General Education Program's World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.

In fulfilling the language requirement, most students are eligible to receive an additional 4 s.h. of ungraded
credit under the Furthering Language Incentive Program (FLIP). This credit may be applied to the minimum 120 s.h. required for graduation, but it does not count toward requirements for the international studies major.

**TRACKS**

Students complete their choice of one of the major’s tracks. Each track requires a minimum of 18 s.h. of course work, including at least 12 s.h. earned in courses numbered 3000 or above. Students may not count their foundation courses toward track requirements.

Students may petition the International Studies Program for permission to include a course that is not on the list of courses approved for their track; they must submit their petition by the semester’s specified deadline date.

With the International Studies Program’s approval, students may develop other tracks for which sufficient courses exist. Students interested in developing a unique track should discuss their ideas with the international studies advisor as soon as possible.

International studies majors completing the Certificate in Global Health Studies, International Business, or Latin American Studies or the minor in global health studies or Latin American studies may not choose an international studies track that corresponds with those certificate(s) or minor(s).

Tracks are listed under “Tracks and Approved Courses” below.

**PROGRAM OPTIONS**

International studies students complete all of the requirements for one of the major’s three program options: A, B, or C. Program option requirements are not interchangeable.

**Program option A:** Students complete an additional 6 s.h. in courses numbered 3000 or above chosen from a second international studies track.

**Program option B:** Students complete a senior project and must take the following two courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>IS:3010 Creating a Proposal for International Research</td>
<td>2 s.h.</td>
</tr>
<tr>
<td>IS:4990 International Studies Senior Project</td>
<td>3 s.h.</td>
</tr>
</tbody>
</table>

Students prepare for the senior project by completing IS:3010 Creating a Proposal for International Research, in which they learn research methodologies and prepare a project proposal. During their last year of study, they enroll in IS:4990 International Studies Senior Project and complete a semester-long individual research project that culminates in a substantial written or creative work focusing on a topic related to course work in their track. They complete the course and project under the supervision of a faculty mentor.

**Program option C:** Students complete an experiential learning activity (credit or noncredit), such as study abroad or related volunteer work, and complete two writing courses, one from each list below. They also submit an international studies essay during their last year. Students interested in choosing program option C should speak with the international studies advisor about procedures for the option.

One of these:

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

Note: Students who intend to study abroad during their junior year should schedule an appointment during their fourth semester to meet with an advisor from Study Abroad; those who intend to study abroad during their senior year should schedule an appointment during their sixth semester.

**Before the fifth semester begins**: at least the two introductory courses and one foundation course

**Before the seventh semester begins**: at least nine courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: at least 12 courses in the major, including the required research preparation course for program option B students or the first writing course for program option C students

**During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Iowa Degree in Three**

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

**Honors in the Major**

Students majoring in international studies have the opportunity to graduate with honors in the major. International studies honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all course work for the major and in all course work that may be applied to the major.

To graduate with honors in the major, students must complete a minimum of 45 s.h. for the major (an additional 3 s.h.), including at least 15 s.h. in courses numbered 3000 or above and at least 6 s.h. in courses designated as honors courses. Students may meet this requirement in one of two ways. They may complete 21 s.h. in a single track, with at least 15 s.h. in courses numbered 3000 or above. Alternatively, students may select courses from two tracks, completing at least 12 s.h. in the first track, including 9 s.h. in courses numbered 3000 or above; and completing at least 9 s.h. in the second track, including 6 s.h. in courses numbered 3000 or above.

Honors students completing the Certificate in Global Health Studies, International Business, or Latin American Studies or the minor in global health studies or Latin American studies may not choose an international studies track that corresponds with those certificate(s) or minor(s). Those who choose the two-track option may not choose a first track that corresponds with those certificate(s) or minor(s).

Honors students must choose program option B for the major. Instead of taking IS:4990 International Studies Senior Project, they take IS:4991 Honors Thesis in...
International Studies and present their research in a poster session.

In addition to pursuing honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Learn about the program by visiting Honors at Iowa.

Minor

The minor in international studies requires a minimum of 15 s.h. in courses approved for the international studies major, including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. The minor must include IS:2000 Introduction to International Studies or one of the major's foundation courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. To preserve the interdisciplinary nature of the minor, students may count a maximum of 6 s.h. from a single department or program, from the Tippie College of Business, or from a major, another minor, or a certificate toward the minor in international studies.

Courses

Lower-Level Undergraduate

IS:1000 Designing Your International Studies Major
1 s.h.
Importance of interdisciplinarity, global perspectives, and world language study for 21st-century liberal education; intentional planning of courses and other out-of-class experiences to prepare students for life and career after college.

IS:1101 Cultural Anthropology
3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values, Society, and Diversity. Same as ANTH:1101.

IS:2000 Introduction to International Studies
3 s.h.
Introduction to the interdisciplinary field of international studies. GE: International and Global Issues.

1-3 s.h.
Cross-cultural skills and ethics for international business, education, and service.

IS:2012 Issues in International Studies
1 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

IS:2013 Issues in International Studies
1-3 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

IS:2014 Germany and the Amanas
1 s.h.
Contemporary issues of Germany, patterns of immigration to Amana, Iowa.

IS:2015 Poland and the Czech Republic
1 s.h.
Contemporary issues of Poland, the Czech Republic, and Slovakia; immigration paths to the United States, and Iowa settlements.

IS:2016 The Netherlands and Pella
1 s.h.
History and culture of the Netherlands; immigration pattern of the Dutch who came to Pella, Iowa.

IS:2042 Intercultural Communication
3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30 and completion of four of five Foundations of Communication courses. Same as SSW:2042, COMM:2042.

IS:2111 Developed and Developing Places
3 s.h.
Geography and the world distribution of key cultural factors—population, religion, and per capita income; economic and demographic differences between developed and developing countries.

IS:2112 The European Union
3 s.h.
Brief history and rationale for the European Union; environmental, economic, social, and political aspects of this potential superpower.

IS:2115 Introduction to Human Rights
3 s.h.
Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as HRTS:2115.

IS:2600 Muslim Minorities in the West
3-4 s.h.
Introduction to lives of Muslim immigrants in the USA, France, Germany, and England; examination of various theories on multiculturalism. Taught in English. Same as GRMN:2655.

IS:2700 Introduction to Latin American Studies
3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as SPAN:2700, PORT:2700, LAS:2700.

Upper-Level Undergraduate and Graduate

IS:3009 International Perspectives:
Xicotepec
2-3 s.h.
Introduction to provision of service to a community in a less-developed country; development of discipline-specific projects aimed at improving community life in Xicotepec, Mexico in collaboration with Rotary International; cultural and professional preparation for team work in an international environment; service-learning course requiring travel to Xicotepec, Mexico during spring break.

IS:3010 Creating a Proposal for International Research
2 s.h.
Major components of research process; development of intellectually challenging and personally engaging topics of international research. Requirements: junior or higher standing.

**IS:3011 Library Strategies for International Research**
1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as ULIB:3011.

**IS:3020 Writing Projects in International Studies**
1-3 s.h.
Writing project on a subject specified by supervising faculty member; available only in conjunction with a regularly offered course.

**IS:3116 Communication-Based Approaches to International Development**
3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as JMC:3116.

**IS:3199 Global Environmental Politics**
3 s.h.
Survey of major environmental crises and conflict between environmental groups and their detractors; climate change, global warming, loss of biodiversity, pollution, toxins, nuclear power, deforestation.

**IS:3200 Political Economy of International Development**
3 s.h.
Overview of development theory and debate; increasing role of China and other new players in development funding and projects; development-oriented projects, career paths.

**IS:3400 International Studies Internship**
1-3 s.h.
Professional work experience in internationally-focused positions; faculty supervised. Requirements: junior or senior standing in international studies.

**IS:3550 Special Topics in International Studies**
1-3 s.h.
Special topics related to international studies.

**IS:3555 Understanding Health and Disease in Africa**
3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, HIST:3755.

**IS:3745 Islam in Africa**
4 s.h.
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as HIST:3745, RELS:3845.

**IS:3834 Arab Spring in Context: Media, Religion, and Geopolitics**
3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Requirements: for COMM:3834 — g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as RELS:3834, WLLC:3834, JMC:3146, COMM:3834.

**IS:3855 Human Rights and Islam**
3 s.h.
Human rights in religious and secular discourse, seventh century to present; Islamic law, human rights law, religion, politics. GE: International and Global Issues. Same as RELS:3855.

**IS:3900 Child Labor and International Human Rights**
3 s.h.
Complexity of child labor in global, regional, national, and local contexts; international human rights system, current programs and strategies for reducing or eliminating abusive child labor. Same as HRTS:3900.

**IS:3905 Topics in Human Rights**
1-3 s.h.
Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:3905.

**IS:3910 Human Rights Advocacy**
3 s.h.
Theoretical foundations and critical issues for international human rights advocacy and international humanitarian movements. Same as HRTS:3910.

**IS:3990 Independent Study in International Studies**
arr.
Research on a topic of international significance. Requirements: international studies major.
**IS:4131 Globalization and Culture** 3 s.h.

How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: g.p.a. of at least 2.30, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as COMM:4131.

**IS:4142 Advanced Intercultural Communication** 3 s.h.

Defining culture as a historically-transmitted, socially-constructed system of meaning enacted in face-to-face interaction and mass media; focus on a specific topic within intercultural communication research and theory (i.e., cultural nature of personal relationships, built environment as culture, intersection of private with public cultural meaning); in-depth follow-up of general approach to intercultural communication covered in lower-level courses. Prerequisites: (COMM:1112 or COMM:1170) and (COMM:1117 or COMM:1130) and (COMM:1168 or COMM:1174) and COMM:1301 and COMM:1305. Requirements: for COMM:4142 — COMM:1112 or COMM:1170, COMM:1301, COMM:1305, COMM:1117 or COMM:1130, COMM:1168 or COMM:1174, g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as COMM:4142.

**IS:4653 Law and Society in Late Imperial and Modern China** 3 s.h.

Survey of legal system of China and Chinese society from 1400 to 1980s. Same as HIST:4653.

**IS:4990 International Studies Senior Project** 3 s.h.

Prerequisites: IS:3010. Requirements: international studies major.

**IS:4991 Honors Thesis in International Studies** 3 s.h.

Prerequisites: IS:3010. Requirements: international studies major.
Journalism and Mass Communication

**Director**
- David M. Ryfe

**Undergraduate major:** journalism and mass communication (B.A., B.S.)
**Undergraduate minor:** mass communication

**Graduate degrees:** M.A. in journalism; M.A. in strategic communication; Ph.D. in mass communications

**Faculty:** [Website](http://clas.uiowa.edu/sjmc/people/faculty)
**Web site:** [http://clas.uiowa.edu/sjmc/](http://clas.uiowa.edu/sjmc/)

The School of Journalism and Mass Communication offers an undergraduate major and minor as well as graduate degree programs. Undergraduate students in all majors may use approved journalism and mass communication courses to satisfy the General Education Program (p. 313)'s Historical Perspectives, Social Sciences, and Values, Society, and Diversity requirements, and the school's First-Year Seminar is designed specifically for entering undergraduate students. The School of Journalism and Mass Communication also administers the undergraduate Certificates in Event Planning (p. 289) and Fundraising and Philanthropy Communication (p. 301).

**Undergraduate Programs of Study**
- Major in journalism and mass communication (Bachelor of Arts, Bachelor of Science)
- Minor in mass communication

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take both professional and conceptual courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the school, consistent with the University's commitment to the liberal arts and sciences.

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines, radio, television, online communications and social media, publication design, photojournalism, and media research.

The school is accredited by the Accrediting Council on Education in Journalism and Mass Communications. A maximum of 7 s.h. of approved transfer credit may be applied to the major in journalism and mass communication; a maximum of 3 s.h. of approved transfer credit may be applied to the minor in mass communication. Some journalism course work taken at other schools may be used to fulfill the major's elective and/or second area of concentration requirements.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

**Bachelor of Arts, Bachelor of Science**

The Bachelor of Arts and the Bachelor of Science with a major in journalism and mass communication require a minimum of 120 s.h., including at least 36 s.h. in journalism and mass communication courses, plus a second major or 24 s.h. in a second concentration area. Students must maintain a g.p.a. of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences General Education Program.

Students may count a maximum of 48 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for a B.A. or B.S. degree.

Each student works with an assigned faculty advisor and/or an educational advisor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

Students are encouraged, but not required, to use the University's ifolio system to collect and edit their preprofessional work. They will find the portfolio useful as they interact with faculty members in preparation for entering the job market and for presentation in job interviews.

The journalism major (B.A. and B.S.) requires the following course work.

**FOUNDATION**
Both of these (completed with a grade of C-minus or higher before enrollment in the professional skills courses):
- JMC:1100 Media Uses and Effects 3 s.h.
- JMC:1200 Media History and Culture 3 s.h.

**PROFESSIONAL SKILLS COURSES**
Both of these (completed with a grade of C-minus or higher before enrollment in the intermediate/advanced reporting and writing, and workshop courses):
- JMC:2010 Journalistic Reporting and Writing 4 s.h.
- JMC:2020 Introduction to Multimedia Storytelling 4 s.h.

Intermediate/advanced reporting and writing—two of these:
- JMC:3400 Specialized Reporting and Writing 4 s.h.
- JMC:3405 Depth Reporting and Writing 4 s.h.
- JMC:3410 Magazine Reporting and Writing 4 s.h.
- JMC:3411 Radio and Television Storytelling 4 s.h.
JMC:3412 Strategic Communication Writing 4 s.h.
JMC:3415 Writing Across Cultures 4 s.h.
JMC:3450 Freelance Reporting and Writing 4 s.h.
JMC:3460 Arts and Culture Reporting and Writing 4 s.h.
JMC:3470 Narrative Journalism 4 s.h.
JMC:3490 Feature Reporting and Writing 4 s.h.
JMC:4100 Advanced Reporting and Writing 4 s.h.

Workshop—one of these:
JMC:3600 Topics in Media Production 4 s.h.
JMC:3603 TV News Production 4 s.h.
JMC:3605 Editing the News 4 s.h.
JMC:3610 Graphic Design 4 s.h.
JMC:3615 Strategic Communication Campaigns 4 s.h.
JMC:3620 Applied Digital and Social Media 4 s.h.
JMC:3625 Planning and Evaluation of Strategic Campaigns 4 s.h.
JMC:3630 Photo Storytelling: Making Powerful Images 4 s.h.
JMC:3633 Philanthropy Communication in a Digital World 4 s.h.
JMC:4120 Iowa Journalist 4 s.h.
JMC:4130 Advanced Public Relations Writing 4 s.h.
JMC:4300 Advanced Photo Storytelling 4 s.h.
JMC:4310 Advanced Media Workshop 4 s.h.
JMC:4320 Advanced Television News 4 s.h.
JMC:4330 Visual Storytelling 4 s.h.
JMC:4340 Convergence Journalism 4 s.h.

And:

A third reporting and writing course or a second workshop chosen from courses not taken in the lists above 4 s.h.

CONCEPTUAL COURSES

This course:
JMC:3300 Media Law and Communication 3 s.h.

And one of these:
JMC:3100 Fundraising and Philanthropy Communication 3 s.h.
JMC:3105 Classic and Contemporary Sports Writing 3 s.h.
JMC:3110 Visual Communication 3 s.h.
JMC:3115 Solving Communication Problems 3 s.h.
JMC:3116 Communication-Based Approaches to International Development 3 s.h.
JMC:3120 History of Mass Communication in the U.S. 3 s.h.
JMC:3125 Media and Consumers 3 s.h.
JMC:3130 Comparative Communication Systems 3 s.h.
JMC:3131 Sex, Speech, and Digital Media Regulation 3 s.h.
JMC:3135 New Media and the Future of Sport 3 s.h.
JMC:3140 News-Editorial Problems 3 s.h.
JMC:3145 On the Campaign Trail: Elections and the Media 3 s.h.

JMC:3146 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
JMC:3150 Media and Health 3 s.h.
JMC:3155 Law, Media, and Current Issues 3 s.h.
JMC:3160 Images and Society 3 s.h.
JMC:3165 African Americans and the Media 3 s.h.
JMC:3170 Communication Technology and Society 3 s.h.
JMC:3175 Gender and Mass Media 3 s.h.
JMC:3180 Journalism Ethics 3 s.h.
JMC:3181 The Business of Sport Communication 3 s.h.
JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
JMC:3183 Sport and the Media 3 s.h.
JMC:3185 Topics in Mass Communication 3 s.h.
JMC:3190 Classics of Sports Journalism: From Jack London to Grantland 3 s.h.

OPTIONAL JOURNALISM ELECTIVES

Students may earn elective credit by completing additional journalism and mass communication course work (prefix JMC), but they may not exceed a maximum of 48 s.h. earned in the School of Journalism and Mass Communication toward the 120 s.h. required for the B.A. or B.S. degree. Credit earned in JMC:2100 Journalism Internship counts toward the total journalism and mass communication course work that students may apply to the B.A. or B.S. degree.

SECOND MAJOR OR CONCENTRATION AREA

Every student majoring in journalism and mass communication must complete a second major or a concentration area outside the School of Journalism and Mass Communication. Study in the second major or concentration area enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another discipline views the world, and/ or develop a companion set of skills to those in journalism and mass communication.

Students who satisfy the requirement by completing a concentration area must choose 24 s.h. of related course work in one or more departments; at least 15 of the 24 s.h. must be earned in advanced courses; in most departments, advanced courses are numbered 3000 or above. Course work in the concentration area must be arranged in consultation with the student's advisor; each student must have the advisor's written endorsement of the second major or concentration area before graduation.

The certificates in fundraising and philanthropy communication or in event planning do not satisfy the requirement for a second major or concentration area.

Second Major or Concentration Area for the B.A.

Bachelor of Arts students must complete the requirements for the journalism and mass communication major (36 s.h.) and must satisfy the school's second major or concentration area requirement in one of two ways.

Option 1: complete a B.A. major in another department.

Option 2: complete a 24 s.h. concentration of related courses in one or more departments that offer B.A.
degrees; at least 15 s.h. of the required 24 s.h. must be earned in advanced courses.

**Second Major or Concentration Area for the B.S.**

Bachelor of Science students must complete the requirements for the journalism and mass communication major (36 s.h.) and must satisfy the school's second major or concentration area requirement in one of two ways.

**Option 1:** complete a B.S. major in a natural, mathematical, or social science.

**Option 2:** complete a 24 s.h. concentration of related courses in the social sciences (economics, geography, political science, psychology, or sociology) and/or the natural and mathematical sciences, earning at least 15 s.h. of the required 24 s.h. in advanced courses; and complete all the special math, research methods, statistics, computer science, and/or cognate science requirements required for the B.S. in the department in which the majority of concentration area courses are taken.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Students must be admitted to the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The checkpoints below include the required work in journalism and mass communication plus a second concentration area, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.

**Before the third semester begins:** JMC:1100 Media Uses and Effects and/or JMC:1200 Media History and Culture

**Before the fifth semester begins:** JMC:2020 Introduction to Multimedia Storytelling, one more course in the major, and at least one course in the second major or concentration area

**Before the seventh semester begins:** two required professional skills courses; one advanced, conceptual, or elective course in the major; three more courses in the second major or concentration area; and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two more required professional skills courses; one advanced, conceptual, or elective course in the major; and two more courses in the second major or concentration area

**During the eighth semester:** enrollment in all remaining course work in the major (including the second major or concentration area), all remaining General Education courses, and a sufficient number of semester hours to graduate

**Honors in the Major**

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a g.p.a. of at least 3.50 in work for the major. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year. Students are encouraged but not required to take JMC:4950 Honors Readings or JMC:4993 Honors Workshop to prepare for the project.

Honors students in the school also must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

All majors with an overall g.p.a. of at least 3.33 are encouraged to take any journalism and mass communication course for honors credit and to make use of other honors opportunities in the school. Visit Journalism Honors Program on the school’s web site or contact the school's honors advisor for details.

**Minor**

The minor in mass communication requires a minimum of 15 s.h. in mass communication courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Conceptual courses numbered JMC:3100 Fundraising and Philanthropy Communication through JMC:3190 Classics of Sports Journalism: From Jack London to Grantland are considered advanced for the minor. Students are encouraged to take JMC:1100 Media Uses and Effects or JMC:1200 Media History and Culture as a lower-level course.

The minor introduces students to the field of mass communication; it does not prepare them for careers in media.

**National Honor Society**

The school’s chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their grade-point average places them in the top 10 percent of their class and they have completed at least five semesters of University work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school’s Kappa Tau Alpha advisor for details.

**Certificate in Fundraising and Philanthropy Communication**

The School of Journalism and Mass Communication administers the undergraduate certificate program in fundraising and philanthropy communication; see Fundraising and Philanthropy Communication (p. 301) in the Catalog.

**Certificate in Event Planning**

The School of Journalism and Mass Communication administers the undergraduate certificate program in event planning; see Event Planning (p. 289) in the Catalog.
Graduate Programs of Study

- Master of Arts in journalism
- Master of Arts in strategic communication
- Doctor of Philosophy in mass communications

**Master of Arts: Journalism**

The Master of Arts program in journalism requires 33 s.h. of graduate credit. Students must complete a creative thesis. The program admits students for fall entry.

The M.A. program in journalism focuses on communication. Its approach is academic and theoretical, balanced with substantial development of professional skills, to prepare students for careers in media education. The program is designed for individuals who hold a bachelor's degree in journalism and/or mass communication and wish to continue their education in the field; for experienced journalists or communicators who wish to prepare to teach by earning an M.A. and then a Ph.D.; and for persons who hold a bachelor's degree in another discipline and would like to enter journalism by earning an M.A.

Students in the M.A. program in journalism who wish to enter the school's Ph.D. program in mass communications must complete all M.A. requirements, including the creative thesis, before they may be considered for admission to the Ph.D. program. Professional course work from the M.A. program cannot be applied to the requirements of the Ph.D. program.

M.A. students gain grounding in concepts, theories, and research methods while they pursue a curriculum that emphasizes technology, innovation and media, creative and collaborative multimedia, design for media, cross-media studies, transformed social interactions, and visual communication. They also hone technical skills in reporting, writing, visual and graphic storytelling, design, and digital imaging.

Students choose courses in consultation with their advisors. All M.A. students must complete the following course work.

- JMC:5240 Social Media and Online Communication 3 s.h.
- JMC:5400 Master's Advanced Writing and Editing 3 s.h.
- JMC:6255 Problems in International Communication 3 s.h.
- JMC:6800 Mass Communication Seminar 3 s.h.
- Courses outside journalism and mass communication 6 s.h.

Students who have not taken a recent U.S. media law class must enroll in JMC:3300 Media Law and Communication or an alternative media law course approved by the advisor. They must have the instructor's consent.

All students must complete a thesis—an original, in-depth, theory-based work that combines scholarship and creative production. The thesis must be done in an appropriate and reproducible medium. Students may write conventional theses or produce creative, multimedia, and cross-media theses grounded in digital humanistic and social science traditions. Theses may include original scholarly research, creative visual storytelling, visual ethnography, digital animation, digital documentary productions, digital literatures, and so forth.

For a more detailed description of the M.A. program in journalism, contact the School of Journalism and Mass Communication.

**Master of Arts: Strategic Communication**

The Master of Arts program in strategic communication requires a minimum of 30 s.h. of graduate credit. Courses for the program are offered online.

The strategic communication program is designed for professionals in a wide variety of areas, such as corporate and organizational communication, public relations, integrated marketing communication, advertising, political and public affairs communication, health communication, event planning, risk communication, and professional writing. The program focuses on the skills, knowledge, and experience that working professionals need, including the ability to anticipate and meet the challenges of radical change in the media landscape.

The M.A. program offers three specializations: health and medicine, political communication, and public affairs communication. It also permits students to design a specialization that fits their interests and needs.

The curriculum consists of core courses, electives, and a capstone project in place of a thesis. In most courses, students are encouraged to introduce case studies and projects from their workplace.

The M.A. in strategic communication requires the following course work.

**CORE COURSES**

All of these:

- JMC:5300 Media Principles, Problems, and Challenges 3 s.h.
- JMC:5400 Master's Advanced Writing and Editing 3 s.h.
- JMC:6800 Mass Communication Seminar 3 s.h.
- JMC:5300 provides a conceptual foundation for strategic communication; JMC:5400 sharpens students' professional skills; and JMC:6800 focuses on best practices of leadership communication both in and outside of corporations and other organizations.

And one or both of these:

- JMC:5237 Financial and Budget Fundamentals for Communicators 3 s.h.
- JMC:5240 Social Media and Online Communication 3 s.h.

The program recommends that students complete both JMC:5237 and JMC:5240; students who complete both may count the second course as an elective.

**ELECTIVES**

Strategic communication students earn 15 s.h. in elective courses, which they choose in consultation with their advisors. Students choose electives from the list below. They also may choose other electives that are appropriate for their individual programs, drawing from courses offered...
The Doctor of Philosophy in mass communications requires course work.

Professional master's degrees must take additional Ph.D. professional skills courses. Students who have earned the Graduate College does not accept transfer credit for credit toward the 80 s.h. required for the Ph.D., with the approval of the student's advisor. Each student draws on courses offered in the School of Journalism and Mass Communication as well as other academic units to develop a course of study that reflects his or her academic background, experience, professional goals, and intellectual interests.

Students may count up to 30 s.h. of master's degree credit toward both degrees. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Admission for journalism and mass communication graduate programs is for fall entry.

For a more detailed description of the Ph.D. program, contact the School of Journalism and Mass Communication.

Doctor of Philosophy

The Doctor of Philosophy program in mass communications requires 80 s.h. of graduate credit. The program admits students for fall entry. It is designed for students who have completed an M.A. thesis.

The program emphasizes interdisciplinary inquiry into media communication phenomena from sociocultural, historical, and social science perspectives. It is defined by the scholarly interests of its faculty, which include ethnographic, scientific, historical, legal, critical, cultural, social, feminist, and international aspects of media communication, both verbal and visual; comparative communication; convergence; new and emerging media; health communication; popular culture; and globalization. Faculty members use qualitative or quantitative methods in their research and teaching.

The program is highly individualized. In consultation with his or her advisor, each student draws on courses offered by the School of Journalism and Mass Communication as well as other academic units to develop a course of study that reflects his or her academic background, experience, professional goals, and intellectual interests.

Students may count up to 30 s.h. of master's degree credit toward the 80 s.h. required for the Ph.D., with the graduate committee's approval, as long as the credit was earned in courses relevant to the Ph.D. study plan. The Graduate College does not accept transfer credit for professional skills courses. Students who have earned professional master's degrees must take additional Ph.D. course work.

The Doctor of Philosophy in mass communications requires the following course work.

For a more detailed description of the M.A. in strategic communication, contact the School of Journalism and Mass Communication.

Joint J.D./M.A. and J.D./Ph.D.

The School of Journalism and Mass Communication and the College of Law offer a joint Juris Doctor/Master of Arts in journalism and a joint Juris Doctor/Doctor of Philosophy in mass communications. The joint degree programs allow students to count a limited amount of credit toward both degrees. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Admission for journalism and mass communication graduate programs is for fall entry.

For information about the J.D., see the College of Law (p. 969) section of the Catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Facilities and Resources

Adler Journalism and Mass Communication Building

The School of Journalism and Mass Communication is housed in the Philip D. Adler Journalism and Mass Communication Building. The 65,000-square-foot building has computer laboratories for audio, video, design, writing and web publishing, and a resource center. A photography laboratory is located nearby. The building also is home to offices of the Iowa High School Press Association; the Quill and Scroll Society, an international honor society for high school journalists; the University’s award-winning student newspaper, The Daily Iowan; and Daily Iowan TV, a student-run newscast.

Iowa Center for Communication Study

The Iowa Center for Communication Study encourages and facilitates student and faculty research in communication. It also sponsors publications and provides editorial oversight for the Journal of Communication Inquiry.

Financial Support

More than $170,000 in scholarships and awards is disbursed to journalism and mass communication students each year. Scholarship information and applications are available each fall. Visit Scholarships on the School of
Journalism and Mass Communication web site or contact the school.

The school offers research and teaching assistantships for graduate students; preference is given to Ph.D. students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

The school has a program of modest financial support for undergraduate and graduate student research projects.

Professional Enrichment

Internships

The school encourages undergraduate majors and Master of Science professional journalism emphasis students to complete at least one internship. The school’s internship and assessment coordinator helps students find appropriate positions.

Undergraduate students may earn up to 4 s.h. of internship credit, registering with appropriate faculty sponsorship for JMC:2100 Journalism Internship (1-4 s.h.). Internships do not fulfill requirements for the major, but internship credit counts toward the total journalism and mass communication credit that students may apply toward a B.A. or B.S. degree (maximum of 48 s.h.). Students may take internships for no credit through CCP:1019 Internship in Journalism.

Students also are encouraged to pursue opportunities for journalism experience on campus through student-operated media, including The Daily Iowan, Daily Iowan TV, and KRUI-FM radio.

Job Placement

The school’s internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to JMC students and graduates. It also cooperates with the University’s Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.

Activities

The school engages in a variety of activities for the enrichment of students, faculty, and the entire campus. Speakers visit campus each year under lectureships funded by the John F. Murray and Leslie G. Moeller Fund, and the M. Holly McGranahan Lecture. In addition, guest speakers are funded through the Hearst Visiting Professionals Program and the Hageboeck Daily Iowan Visiting Professionals Program. Campus organizations for students include Kappa Tau Alpha (KTA, a national society honoring scholarship in journalism), the National Association of Black Journalists (NABJ), the Public Relations Student Society of America (PRSSA), the Society of Professional Journalists (SPJ), and Ed on Campus (EOC).

Courses

Lower-Level Undergraduate
