How to become a participant in promoting health throughout the world; student peers and global health professionals share their experiences in global health; how professionals and volunteers work in a broad variety of settings; working with government-based programs, international organizations (e.g., UNICEF, World Vision), health care agencies, faith-based organizations, industry, and academic institutions; various ways to become engaged and be involved in global health.

GHS:3040 Health in Mexico 3 s.h.
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as ANTH:3111, LAS:3111.

GHS:3050 Global Aging 3 s.h.
Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, SSW:3135.

GHS:3060 Studies in Complementary and Alternative Medicine 3 s.h.
Topics vary; may include studies in mind-body medicine; complementary and alternative medicine (CAM); group of medical and health care systems, practices, and products that are not considered to be part of conventional medicine; treatments used instead of standard ones (alternative treatments); nonstandard treatments used together with standard ones (complementary medicine); examples of CAM therapies (acupuncture, chiropractic, herbal medicines); approaches widely used in other parts of the world that may represent an important component of health care in a country (e.g., ayurvedic medicine in India).

GHS:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GEOG:3070.

GHS:3102 Medical Anthropology 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3102, CBH:3102.

GHS:3110 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as ANTH:3110.

GHS:3111 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GEOG:3110.

GHS:3113 Religion and Healing 3 s.h.

GHS:3131 Health Care and Health Reforms in Russia 3 s.h.
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Same as SLAV:3131.

GHS:3141 Design With the Developing World 3 s.h.
Experience working on interdisciplinary teams to solve problems of the developing world; technologies for improving water and sanitation, energy, housing, and health; community building strategies, participatory methods, other techniques essential to good design; service-learning component. Recommendations: junior or higher standing. Same as CEE:3141.

GHS:3150 Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3150, JMC:3150.

GHS:3151 The Anthropology of the Beginnings and Ends of Life 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, ASP:3151.

GHS:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, ASP:3152.

GHS:3170 Visualizing Global Health Through Popular Fiction and Film 3 s.h.
Prominent global health issues visualized through the lens of popular film and fiction; books and film will be used to explore how the public understands various global health topics such as human trafficking, emerging infectious diseases, post-apocalyptic societies, and population control.

GHS:3192 Environment and Health in Modern India 3 s.h.
Examination of environmental issues in the context of modern India; focus on the relationship between health and environmental factors, including pollution, deforestation, and climate change. Same as ANN:3192, AAP:3192.

GHS:3193 Religion and Healing 3 s.h.

GHS:3194 Health Care and Health Reforms in Russia 3 s.h.
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Same as SLAV:3194.

GHS:3195 Design With the Developing World 3 s.h.
Experience working on interdisciplinary teams to solve problems of the developing world; technologies for improving water and sanitation, energy, housing, and health; community building strategies, participatory methods, other techniques essential to good design; service-learning component. Recommendations: junior or higher standing. Same as CEE:3195.

GHS:3196 Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as CBH:3196, JMC:3196.

GHS:3203 Global Aging 3 s.h.
Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3203, SSW:3203.

GHS:3206 Studies in Complementary and Alternative Medicine 3 s.h.
Topics vary; may include studies in mind-body medicine; complementary and alternative medicine (CAM); group of medical and health care systems, practices, and products that are not considered to be part of conventional medicine; treatments used instead of standard ones (alternative treatments); nonstandard treatments used together with standard ones (complementary medicine); examples of CAM therapies (acupuncture, chiropractic, herbal medicines); approaches widely used in other parts of the world that may represent an important component of health care in a country (e.g., ayurvedic medicine in India).

GHS:3210 Medical Anthropology 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3210, CBH:3210.

GHS:3211 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as ANTH:3211.

GHS:3212 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GEOG:3212.

GHS:3236 Infectious Disease and Human Evolution 3 s.h.
Infectious disease as a central and important role in evolution of modern humans; impact of important infectious diseases on human history through primary literature. Recommendations: evolutionary theory background or interest. Same as ANTH:3236.
GHS:3327 The Politics of Progress: NGOs, Development, and Sexuality 3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions’ arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GWSS:3326.

GHS:3500 Global Public Health 3 s.h.
Exploration of historical, current, and forecasted trends in global public health, the factors influencing health demographies in human populations, sources of health inequalities, and appropriate policy and intervention approaches for addressing global public health challenges. Same as CPH:3500.

GHS:3555 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as HIST:3755, IS:3555.

GHS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 1 s.h.
Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.

GHS:3700 Development in a Global Context II: Reflections on Real World Interventions 2 s.h.
Students produce a research paper analyzing their personal internship in an international development program.

GHS:3720 Global Health Seminar 3 s.h.
Local and global dimensions of health and disease. Same as ANTH:3160.

GHS:3760 Hazards and Society 3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GEOG:3760.

GHS:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GEOG:3780.

GHS:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Requirements: junior or senior standing, or certificate student. Same as HHP:3850.

GHS:4000 Global Health Studies Service Learning: Local Health is Global Health 4 s.h.
Service-learning projects with local community organizations; domestic opportunities which offer global health insights.

GHS:4001 Social Entrepreneurship in Global Health 3 s.h.
Fundamentals of social enterprise and innovative approaches to improving lives and communities combined with a Global Health Studies focus on social determinants of health; student teams apply their knowledge and skills to projects which support the global health mission of a community partner. Recommendations: one approved global health studies course.

GHS:4100 Topics in Global Health 1-3 s.h.

GHS:4126 International Perspectives: Xicotepec 2-3 s.h.
Introduction to providing service to a community in a less developed country; student projects intended to improve community life in Xicotepec. Requirements: P3 standing. Same as CEE:4788, PHAR:8788, THTR:4265.

GHS:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as ANTH:4140, CBH:4140, GWSS:4140.

GHS:4150 Health and Environment: GIS Applications 3 s.h.
Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GEOG:4150.

GHS:4160 History of Public Health 3 s.h.
State-endorsed measures to avert or control disease in society. Same as HIST:4160.

GHS:4162 History of Global Health 3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as HIST:4162.

GHS:4180 Climate Change and Health 3 s.h.
Addressing global health issues affected by climate change through an interdisciplinary lens, drawing from medicine, human psychology, law, history, business, religion, and environmental science; exploring health and disease risk patterns as they vary around the world; examining the major social, economic, political, and related factors contributing to our changing climate and health and security threats; introducing the basic public health and human rights concepts and policies necessary for reducing morbidity and mortality rates among at-risk populations; preparing students to work internationally or domestically to address threats of a changing climate.

GHS:4210 International Health 3 s.h.
Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as CBH:4210, EPID:4210, OEH:4210.

GHS:4220 U.S. and Global Environmental Health Policy 3 s.h.
Major concerns in environment and human health, legislation enacted to deal with these concerns; emphasis on contemporary issues. Offered fall semesters of odd years. Requirements: for OEH:4220 -- OEH:4240; for CEE:4220 -- CEE:2150. Same as CEE:4220, OEH:4220.

GHS:4220 U.S. and Global Environmental Health Policy
GHS:4230 Health Experience of Immigrants, Migrants, and Refugees 3 s.h.
Interdisciplinary exploration of the unique health concerns, challenges, and health care experiences of the diverse populations on the move around the world and new to this country; issues to be explored include four overlapping sections—broad overview (definitions, populations, and significant health challenges); health risks and needs of specific sub-populations; patterns of public and private resources and responses; and the local picture (Iowa and Midwest), programs, cases, and concerns.

GHS:4340 Global Health and Global Food 3 s.h.
Practices, patterns, and policies that contribute to the epidemics of obesity, diabetes, and heart disease in wealthy populations; environmental degradation, hunger, and malnutrition among impoverished populations; strategies to meet food and agricultural needs for the world; local/global aspects or perspectives on food/health concerns for Iowa and the international community. Same as HHP:4340.

GHS:4508 Medicine and Public Health in Latin America, 1820-2000 3 s.h.
Survey of major topics in modern Latin American history in relation to development of medicine and public health. Same as HIST:4508, LAS:4508.

GHS:4530 Global Road Safety 3 s.h.
Road safety problem, data sources, research methods used in field, and how intervention and prevention programs are developed and evaluated; lecture, hands-on approaches. Same as OEH:4530.

GHS:4600 Global Health and Human Rights 2-3 s.h.
Requirements: sophomore or higher standing.

GHS:4605 Disease, Politics, and Health in South Asia 2-4 s.h.
South Asia's long-term success lengthening lives and stopping disease, weighed against its continuing burden of infection, violence, pollution, and class-based suffering. Same as HIST:4605.

GHS:4900 Approaches to Global Health Studies 3 s.h.
Global health as a study of the dynamic relationship between human health and social, biological, and environmental factors that drive the spread of disease; core areas of global health research that may include health inequalities, maternal and child health, infectious diseases, nutrition, environmental health, and health interventions.

GHS:4990 Special Projects in Global Health arr.

GHS:4991 Honors Thesis in Global Health Studies 3 s.h.
Completion of honors thesis in consultation with a faculty mentor.

GHS:5000 Graduate Seminar in Global Health 2 s.h.
In-depth discussion and analysis of rotating topics pertinent to global health studies.

GHS:5455 Health Insurance and Managed Care 3 s.h.
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: HMP:5005. Corequisites: PHAR:6330 or HMP:5410. Same as HMP:5450.

GHS:6550 Epidemiology of Infectious Diseases 3 s.h.
Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: EPID:4400. Same as EPID:6550.
Global Health Studies, B.A.

The Global Health Studies Program is a unique interdisciplinary and experiential program of study for UI students that builds upon the humanities, social sciences, and health sciences to help students better understand the underlying forces, such as technology, economics, politics, religion, law, gender and sexuality, history, and culture that shape health and disease.

Requirements

The Bachelor of Arts with a major in global health studies requires a minimum of 120 s.h., including at least 37 s.h. of course work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major. A minimum of 18 s.h. of major course work must be earned at the University of Iowa. Students also must complete the College of Liberal Arts and Sciences General Education Program [p. 437] requirements.

A total of 9 s.h. may be double-counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy General Education Program requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in international studies as long as they select a track other than the global health track.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The B.A. with a major in global health studies requires the following course work.

| World Language and Culture Requirement | 6 |
| Foundation Courses | 10 |
| Global Health Perspectives and Practices Courses | 18 |
| Capstone Experience | 3 |
| **Total Hours** | **37** |

World Language and Culture Requirement

Students must choose option A or B below. Semester hours necessary to complete this requirement will vary.

**Option A:** Students may complete a minimum of two semesters of language study beyond that required by the General Education Program [p. 437]. This additional language requirement may be met either by completing at least two semesters of fifth-semester-level study or higher in the same language used to fulfill the General Education Program’s World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.

**Option B:** Students may complete this requirement by completing 6 s.h. from a list of courses approved for one of the following geographical tracks of the international studies major: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database web page for approved courses each semester.

Foundation Courses

Students complete all of the following.

<table>

<td>International Health</td>
</tr>
</tbody>
</table>

Global Health Perspectives and Practices Courses

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics which reflect the breadth of the field.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

Students choose a minimum of 18 s.h., with at least 12 s.h. numbered 3000 or above, from the following.

<table>
<thead>
<tr>
<th>Course Code</th>

Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom. The requirement may be satisfied by an approved study abroad program, a service-learning course, or a research course/project with an academic component.

Students choose a minimum of 3 s.h. from the following.

- **GHS:3010** Identifying and Developing a Global Health Project 3
- **GHS:4000** Global Health Studies Service Learning: Local Health is Global Health 4
- **GHS:4990** Special Projects in Global Health 3
- Global health studies-themed winterim in India course (consult global health studies program for preapproval) 3
- Global health studies-themed study abroad program (consult global health studies program for preapproval) 3
- Or both of these:
  - **GHS:3600** Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 1
  - **GHS:3700** Development in a Global Context II: Reflections on Real World Interventions 2

Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major;
- complete a minimum of 6 s.h. of honors or contract honors courses in their global health studies major course work;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- submit an acceptable honors thesis; and
- give an oral or poster presentation of research findings at a venue approved by the Global Health Studies Program.

Students are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

In addition to honors in their major, undergraduate students have a variety of opportunities for honors study and activities through membership in the University in the Honors Program; however, membership in the University's honors program is not required in order to complete honors in the major. Visit Honors at Iowa to learn about the University's honors program.

Sample Plan of Study

Global Health Studies (B.A.)

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins**: at least six courses in the major

**Before the seventh semester begins**: at least 12 courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: at least two additional courses in the major

**During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Elective courses 12

| Hours | 16 |

**Total Hours** 115-127

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program.

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consultants;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health graduates also have pursued graduate and professional programs in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, public administration, and international development.
Global Health Studies, B.S.

The Global Health Studies Program is a unique interdisciplinary and experiential program of study for UI students that builds upon the humanities, social sciences, and health sciences to help students better understand the underlying forces, such as technology, economics, politics, religion, law, gender and sexuality, history, and culture that shape health and disease.

The Bachelor of Science in global health studies is designed for students who desire to enter professional programs in the health sciences.

Requirements

The Bachelor of Science with a major in global health studies requires a minimum of 120 s.h., including at least 47 s.h. of course work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. A minimum of 18 s.h. of major course work must be earned at the University of Iowa. Students also must complete the College of Liberal Arts and Sciences General Education Program requirements.

A total of 9 s.h. may be double-counted from other majors, minors, or certificates toward the global health studies major, excluding courses taken to satisfy General Education Program requirements.

Students who earn the major in global health studies may not earn the certificate or the minor in global health studies.

Students who earn the major in global health studies may earn the major in international studies as long as they select a track other than the global health studies track.

Students who earn the major in global health studies may earn the major in interdepartmental studies as long as they select an emphasis other than the global health emphasis in the health science track.

The B.S. with a major in global health studies requires the following course work.

| World Language and Culture Requirement | 6 |
| Foundation Courses | 10 |
| Global Health Perspectives and Practices Courses | 18 |
| Natural Sciences Courses | 7-8 |
| Mathematics and Statistics Courses | 3-4 |
| Capstone Experience | 3 |
| Total Hours | 47-49 |

World Language and Culture Requirement

Students must choose option A or B below. Semester hours necessary to complete this requirement will vary.

**Option A:** Students may complete a minimum of two semesters of language study beyond that required by the General Education Program [p. 437]. This additional language requirement may be met either by completing at least two semesters of fifth-semester-level study or higher in the same language used to fulfill the General Education Program’s World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.

**Option B:** Students may complete this requirement by completing 6 s.h. from a list of courses approved for one of the following geographical tracks of the international studies major: African studies; Caribbean studies; East Asian studies; Islamic and Middle Eastern studies; Latin American studies; Russian, East European, and Eurasian studies; or South Asian studies. See the International Studies Course Database web page for approved courses each semester.

Foundation Courses

Students complete all of the following.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GHS:2000/ANTH:2103</td>
<td>Introduction to Global Health Studies</td>

<tr>
<td>GHS:4210/CHB:4210/Epid:4210/OEH:4210</td>
<td>International Health</td>
<td>3</td>
</tr>
</tbody>
</table>

Global Health Perspectives and Practices Courses

To provide an appreciation of the interdisciplinary nature of global health studies, students choose from a wide range of courses on topics which reflect the breadth of the field.

Courses taken to complete another area of the major cannot be used toward the global health perspectives and practices requirement.

Students choose a minimum of 18 s.h., with at least 12 s.h. numbered 3000 or above, and a minimum of 6 s.h. selected from the eight courses near the end of the list. Students select from the following.

<table>

Natural Sciences Courses

The natural sciences course requirement can be used to fulfill the General Education Program [p. 437] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Students must complete a minimum of one of the sequences, with at least one lab, from the following.

**Chemistry**
- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8

**Chemistry and Biology**
- CHEM:1070 & BIOL:1141 General Chemistry I - Introductory Animal Biology 7
- CHEM:1110 & BIOL:1141 Principles of Chemistry I - Introductory Animal Biology 8
- CHEM:1110 & BIOL:1411 Principles of Chemistry I - Foundations of Biology 8
- CHEM:1110 & BIOL:1412 Principles of Chemistry I - Diversity of Form and Function 8

**Chemistry and Physics**
- CHEM:1070 & PHYS:1400 General Chemistry I - Basic Physics 7
- CHEM:1110 & PHYS:1511 Principles of Chemistry I - College Physics I 8

**Physics**
- PHYS:1511-1512 College Physics I-II 8

Mathematics and Statistics Course

Students must complete at least one calculus or statistics course. In some cases, students also may need to complete a precalculus or statistics course, depending on their math placement.

The mathematics and statistics course requirement can be used to fulfill the General Education Program [p. 437] requirement. Students should consult with their advisor concerning specific courses that satisfy these requirements.

Students complete one of the following.

**Mathematics**
- MATH:1380 Calculus and Matrix Algebra for Business 4
- MATH:1460 Calculus for the Biological Sciences 4
- MATH:1550 Engineering Mathematics I: Single Variable Calculus 4
- MATH:1850 Calculus I 4
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3
- Any higher-level statistics course (consult advisor) 3-4

Capstone Experience

The capstone experience requirement provides an opportunity for students to apply the knowledge and skills they learned in the classroom.

Honors in the Major

Students majoring in global health studies have the opportunity to graduate with honors in the major. Students who choose to graduate with honors in the major must satisfy these requirements:

- maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major;
- complete a minimum of 6 s.h. of honors or contract honors courses in their global health studies major course work;
- complete GHS:3010 Identifying and Developing a Global Health Project followed by GHS:4991 Honors Thesis in Global Health Studies as their capstone experience;
- submit an acceptable honors thesis; and
- give an oral or poster presentation of research findings at a venue approved by the Global Health Studies Program.

Students are encouraged to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.

In addition to honors in their major, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; however, membership in the University's honors program is not required in order to complete honors in the major. Visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University's Four-Year Graduation Plan.

**Before the fifth semester begins:** at least six courses in the major

**Before the seventh semester begins:** at least 12 courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least two additional courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Elective courses** 12

| Hours | 15 |

**Total Hours** 113-126

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program.

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Students should choose from approved Global Health Studies B.S. course list.

**Career Advancement**

The Global Health Studies Program engages students and faculty in real-world health problems and challenges students to embark on global health careers which place a priority on improving health and achieving equity in health for people worldwide.

Graduates find opportunities in a range of global health job sectors such as:

- in-country field consultants;
- disaster relief organizations;
- immigrant/refugee health organizations;
- research and academic institutions;
- international agencies;
- other nongovernmental agencies (NGOs);
- lending agencies that do work in developing countries;
- multilateral agencies (such as the World Health Organization); and
- governmental agencies (United States Agency for International Development, Center for Disease Control, in-country ministries of health, etc.).

Global health graduates also have pursued graduate and professional programs in medicine, dentistry, pharmacy, nursing, public health, law, nonprofit management, urban and regional planning, public administration, and international development.
Global Health Studies, Minor

The minor in global health studies requires a minimum of 15 s.h., including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. A maximum of 6 s.h. of course work used to satisfy another major, minor, or certificate may be applied toward the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students may earn either the minor or the certificate in global health studies, but not both. Undergraduates who earn the minor in global health studies may not earn the major in global health studies.

The minor is interdisciplinary, designed for undergraduates who wish to study health issues in a global context. Each student’s plan of study for the minor is developed according to the student’s interests and in consultation with a program advisor. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 479] in this section of the Catalog); they should choose course work from at least two different disciplines. Students are strongly encouraged to include one of the core courses required for the Certificate in Global Health Studies in their plan of study for the minor. The program highly recommends that students complete a period of study abroad focused on global health issues.
Global Health Studies, Certificate

The College of Liberal Arts and Sciences offers a certificate in Global Health Studies to undergraduate students. The Global Health Studies certificate program is an interdisciplinary program requiring 18 s.h. of study, an international experience during which students address an important global health issue in a systematic way, and a report/presentation on the completed international experience. The program helps prepare students for advanced work or careers in global health.

Admission to the certificate program is competitive. Applicants must be in good academic standing and must be able to demonstrate interest in and understanding of the field of global health. For application forms and deadline information, contact the Global Health Studies Program advisor.

University of Iowa undergraduate students who are not enrolled in a graduate or professional degree program may apply for admission to the certificate program. Students in the College of Pharmacy are an exception; those who have earned the Pharm.D. degree also may earn an undergraduate global health studies certificate. Undergraduates may earn the certificate or the minor in global health studies, but not both. Undergraduates who earn the certificate in global health studies may not earn the major in global health studies.

Students must maintain a minimum g.p.a. of 2.00 or higher in the 18 s.h. of course work required for the certificate. Work for the certificate includes core courses, electives, an international experience that culminates in a public presentation and written report, and study of a world language. Students must earn at least 12 s.h. of credit used to satisfy another major, minor, or certificate may be applied toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 479] in this section of the Catalog).

Students may be granted credit toward the certificate for course work they completed up to two years before beginning the program.

The Certificate in Global Health Studies requires the following work.

Electives

Students complete 5 s.h. of approved electives chosen from the course lists under Courses [p. 479] in this section of the Catalog. They may petition to use other courses as electives if they can demonstrate that the courses include substantial material related to global health. Students may apply up to 3 s.h. of academic credit earned for research, internship, or study abroad experiences to the elective requirement. Contact the Global Health Studies Program for details.

International Experience

Students must complete an international experience in which they systematically address an important global health issue. The experience typically takes place in an international setting and lasts eight weeks. The international experience may be completed as part of a study abroad program, a service learning course, an internship, a volunteer experience, or an independent research project.

Projects require approval by the Global Health Studies Program steering committee and must be supervised by a faculty member. Students may apply for a Stanley Award; other financial support may be available for some projects. Visit International Experience on the program's website for more information.

Language Study

Students should complete four semesters of modern language study or course work that fulfills or is equivalent to the College of Liberal Arts and Sciences General Education Program [p. 437] World Languages requirement.

The Global Health Studies Program steering committee may require students to take additional language study in preparation for a research or internship program. Students interested in learning an infrequently taught language to facilitate their participation in an international experience should investigate the Autonomous Language Learning Network (ALLNET).

Public Presentation and Report

Certificate requirements culminate in a public presentation and report. Students present the results of their international experience in GHS:3010 Identifying and Developing a Global Health Project or in an equivalent public forum. They also must submit a 10-12 page report that summarizes their international experience.
Global Health Studies, Graduate Certificate

The College of Liberal Arts and Sciences in conjunction with the Graduate College offers a graduate Certificate in Global Health Studies. The certificate is open to University of Iowa graduate and professional students except for those in the College of Pharmacy who have earned the Pharm.D. degree; they are awarded the undergraduate certificate. Other students are awarded the graduate certificate by the Graduate College.

The global health studies graduate certificate program is an interdisciplinary program requiring 18 s.h. of study, an international experience during which students address an important global health issue in a systematic way, and a report/presentation on the completed international experience. The program helps prepare students for careers in global health.

Admission to the certificate program is competitive. Applicants must be in good academic standing and must be able to demonstrate interest in and understanding of the field of global health. For application forms and deadline information, contact the Global Health Studies Program advisor.

Work for the certificate includes core courses, electives, an international experience that culminates in a public presentation and written report, and study of a world language. Students must earn at least 12 s.h. of credit for the certificate in courses numbered 3000 or above taken at the University of Iowa. A maximum of 6 s.h. of course work used toward another academic program may be applied toward the certificate. Students may choose courses offered by the Global Health Studies Program (prefix GHS) or associated courses offered by other departments and programs (see "Associated Courses" under Courses [p. 479] in this section of the Catalog).

Graduate and professional students who would like to count credit from a degree program toward the global health studies certificate should consult their graduate/professional academic programs.

Health and Human Physiology

Chair
- Warren G. Darling

Undergraduate majors: health and human physiology (B.A.); human physiology (B.S.); athletic training (B.S.); sport and recreation management (B.S.); therapeutic recreation (B.S.)

Undergraduate minors: human physiology; physical activity and nutrition science; sport and recreation management

Undergraduate certificate: interscholastic athletic/activities administration

Graduate degrees: M.A. in leisure studies; M.S. in health and human physiology; Ph.D. in health and human physiology

Faculty: https://clas.uiowa.edu/hhp/people/faculty

Website: https://clas.uiowa.edu/hhp/

The Department of Health and Human Physiology offers undergraduate majors, minors, and a certificate; and graduate degree programs in health and human physiology and leisure studies. The department also administers the Certificate in Disability Studies, as well as coaching authorization courses. In addition, the department is home to the Health and Physical Activity Skills Program, which offers courses that provide instruction and practice in lifetime sports, fitness training, and wellness activities aimed at enhancing physical health and well-being. Additionally, the department collaborates with other departments to offer the Certificate in Event Planning.

Undergraduates in all majors may use several health and human physiology courses to fulfill requirements of the College of Liberal Arts and Sciences General Education Program [p. 437]. The department's First-Year Seminar is designed for entering undergraduate students.

Certificate in Disability Studies

The Department of Health and Human Physiology administers the undergraduate certificate program in disability studies; see Disability Studies [p. 306] in the Catalog.

Related Certificate: Event Planning

The Departments of Health and Human Physiology and Communication Studies, the School of Journalism and Mass Communication (College of Liberal Arts and Sciences), and the Department of Marketing (Tippie College of Business) collaborate to offer the undergraduate Certificate in Event Planning. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event planning and careers in the event planning industry. For information about the certificate, see Event Planning [p. 402] in the Catalog.

Programs

Undergraduate Programs of Study

Majors
- Major in Health and Human Physiology (Bachelor of Arts) [p. 507]
- Major in Athletic Training (Bachelor of Science) [p. 511]
- Major in Human Physiology (Bachelor of Science) [p. 513]
- Major in Sport and Recreation Management (Bachelor of Science) [p. 515]
- Major in Therapeutic Recreation (Bachelor of Science) [p. 520]

Minors
- Minor in Human Physiology [p. 523]
- Minor in Physical Activity and Nutrition Science [p. 524]
- Minor in Sport and Recreation Management [p. 525]

Certificate
- Certificate in Interscholastic Athletic/Activities Administration [p. 526]

Graduate Programs of Study

Majors
- Master of Arts in Leisure Studies [p. 527]
- Master of Science in Health and Human Physiology [p. 528]
- Doctor of Philosophy in Health and Human Physiology [p. 531]

Facilities

Classroom and research laboratories are located in the Field House and in other buildings on campus. They provide excellent facilities for instruction and research at both the undergraduate and graduate levels. Cooperative efforts with other units facilitate specialization by allowing Department of Health and Human Physiology students to use additional special facilities and research equipment in other departments on campus (e.g., biology, biochemistry, molecular physiology and biophysics, orthopaedic surgery, internal medicine, pharmacology, and the College of Engineering).

Courses

Health and Human Physiology Courses

HHP:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.
### HHP:1030 Introduction to Critical Thinking 3 s.h.
Concepts and skills required for critical thinking about what should and should not be taken as true; analysis and evaluation of a variety of complex extended arguments. GE: Quantitative or Formal Reasoning.

### HHP:1050 Exploring Exercise Science 1 s.h.
Introduction to field of exercise science; employment and observation opportunities, academic and professional development.

### HHP:1051 Making Choices: Interdisciplinary Perspectives 3 s.h.
Interdisciplinary consideration of what we know, value, hope, and should do; focus on case studies of private, professional, and social decision making. GE: Values, Society, and Diversity.

### HHP:1100 Human Anatomy 3 s.h.
General human anatomy covering most systems of the body. GE: Natural Sciences without Lab.

### HHP:1110 Human Anatomy Laboratory 1 s.h.
All major systems of the human body, understood through computer-generated images, models, histological slides, anatomical specimens. GE: Natural Sciences Lab only.

### HHP:1300 Fundamentals of Human Physiology 3 s.h.
Introduction to function and regulation of the human body. Recommendations: high school chemistry and basic biology. GE: Natural Sciences without Lab.

### HHP:1310 Human Physiology Laboratory 1 s.h.
Laboratory course illustrating principles of physiological principles through experimental measurements, practical assessments, and computer-based illustrations of human function. Recommendations: one semester of biology.

### HHP:2130 Human Development Through the Life Span 3 s.h.
Overview of human developmental theories across the life-span; aspects of cognitive, physical, and personality development from birth to death; the role of culture, environment, health, and economic factors over the developmental process and life continuum.

### HHP:2200 Physical Activity and Health 3 s.h.
Physical activity determinants in society; school, workplace, community-based health promotion interventions to improve activity levels. GE: Values, Society, and Diversity.

### HHP:2210 Principles of Exercise Leadership 3 s.h.
Exercise standards, guidelines for aerobic/exercise instructors; aerobic workout components, contraindicated exercises, injury prevention and treatment. Prerequisites: HHP:2200.

### HHP:2310 Nutrition and Health 3 s.h.
Physiology, biochemistry of human nutrition; appropriate food sources; qualitative and quantitative evaluation of diets using standard references. GE: Natural Sciences without Lab.

### HHP:2350 Biomechanics of Sport and Physical Activity 3 s.h.
Principles of biomechanics, kinesiology, and anatomy; quantitative aspects of sport and physical activity; emphasis on developing a qualitative grasp on mechanical principles of human movement within sports and physical activity; how to apply these principles in a sport/exercise environment. Prerequisites: HHP:1100.

### HHP:2500 Psychological Aspects of Sport and Physical Activity 3 s.h.
Psychological theory and research related to sport and physical activity; motivation, aggression, attribution, socialization, competitive anxiety, leadership.

### HHP:3000 Equity Issues in the Health Sciences 3 s.h.
Examination of equity issues in the health sciences, including a review of the historical challenges that led to Human Subjects Review Boards, FDA oversight of drug development and clinical trials, inclusion of women in research; effect of situational ethics in the workplace; potential danger of making assumptions about clients/patients; importance of developing an inclusive communication style; assessing the effectiveness of family-friendly employment policies in providing equitable opportunities for career advancement for both women and men. Recommendations: junior or senior standing. Same as INTD:3020.

### HHP:3020 Nutrition for Health, Fitness, and Sport 3 s.h.
Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as INTD:3027.

### HHP:3030 Coaching for Health and Wellness 3 s.h.
Opportunities to expand knowledge and develop skills to help individuals change behavior and meet health-related goals; general health and wellness principles; principles and techniques for change; experience providing health-coaching services to clients. Prerequisites: HHP:2200 and HHP:2310. Same as INTD:3030.

### HHP:3050 Obesity: Causes, Consequences, Prevention, and Treatment 3 s.h.
In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoint; causes of obesity, available treatments, and global impact that obesity epidemic presents to society. Prerequisites: HHP:2200 and HHP:2310.

### HHP:3060 Advanced Human Anatomy for Athletic Trainers 4 s.h.
Extremities and relevant body cavity anatomy; anatomical terminology, anatomical relationships of human body, 3-D view of anatomy, clinical relevance of anatomy; basic science lectures, radiologic imaging discussions, introduction to clinically relevant anatomy, dissection laboratories, small group learning and teaching, faculty interaction, and computer-assisted resources. Offered summer sessions. Prerequisites: HHP:1100.

### HHP:3105 Anatomy for Human Physiology 3 s.h.
All major systems of the body are covered with focus on the normal structure of the human body; appropriate for preprofessional students planning on careers in the various health professions. Recommendations: concurrent enrollment in HHP:1110.

### HHP:3110 Advanced Anatomy Laboratory 3 s.h.
Detailed gross anatomy of all major systems of the body; structure of the human body at organ, tissue, and cellular levels; examination of various human and other mammalian specimens. Prerequisites: HHP:1110.

### HHP:3148 Introduction to Personal Training 3 s.h.
Basics of personal training, including establishing a personal training business, screening, and assessing clients; current issues and certifications.

### HHP:3200 Health Behavior and Health Promotion 3 s.h.
Principles of epidemiology and health behavior theories applied to multilevel frameworks for health promotion. Prerequisites: HHP:2200 and HHP:2310.
HHP:3300 Human Growth and Motor Development 3 s.h.
Human growth and biological maturation; focus on motor development from birth through puberty. Offered fall semesters. Recommendations: prior course in anatomy, human physiology, or biology.

HHP:3400 Applied Exercise Physiology 3 s.h.
Effects of acute exercise and chronic exercise training on different physiological systems (energy, neuromuscular, circulatory, respiratory, endocrine); overview of physiological principles necessary for more advanced study of fitness evaluation and exercise prescription; preparation for ACSM certification. Prerequisites: HHP:1300 or HHP:3500.

HHP:3420 College Health Education 3 s.h.
Practical experience in planning, implementing, and evaluating health programs in the college health setting; how health issues apply to individuals and communities to which they belong; foundation of health behavior change in college setting. Prerequisites: HHP:2310 and HHP:2200.

HHP:3430 Health Management and Administration 3 s.h.
Management and organizational theories; assessment, planning, implementation, and evaluation of clinical and work-setting (targeted) health promotion programs. Prerequisites: HHP:2310 and HHP:2200.

HHP:3440 Physical Activity and Healthy Communities 3 s.h.
Development, implementation, evaluation of effective health communication interventions; identification of health education resources for targeted groups. Prerequisites: HHP:2310 and HHP:2200.

HHP:3450 Immunology in Health and Disease 3 s.h.
Overview of immunology, beginning at the molecular level and ending with the role of the immune system in disease; fundamental concepts of the immune system; innate and adaptive immunity, focusing on cell-mediated and humoral immune responses, in addition to effector mechanisms in both of these responses; concepts of immunologic tolerance; autoimmune disease; immunodeficiency syndromes; the inflammatory process in disease. Prerequisites: HHP:3500.

HHP:3500 Human Physiology 3 s.h.
Organ system approach to physiology in order to understand normal function of the human body from the submolecular and cellular levels to the whole organism; emphasis on the development of a mechanistic understanding of organ system function and integrated physiological function across systems to promote homeostatic regulation in the human body. Prerequisites: (HHP:1300 or BIOL:1141 or BIOL:1140 or BIOL:1411) and (CHEM:1070 or CHEM:1110).

HHP:3510 Advanced Human Physiology Laboratory 3 s.h.
Fundamental laboratory measurements; major physiological systems, experimental design, presentation of experimental data. Corequisites: HHP:3500, if not taken as a prerequisite.

HHP:3650 Applied Sport and Exercise Psychology 3 s.h.
Application of sport and exercise psychological theory; theoretical and practical experience using psychological skills training for sport and exercise.

HHP:3655 Emotional and Psychological Aspects of Health 3 s.h.
Interfaces among emotional, psychological, and physical aspects of health; examination of how individuals with healthy psychological profiles engage in health behaviors; health-related implications of negative emotional and psychological states; strategies for promoting healthy psychological patterns; designed for health promotion, health studies students, and others interested in health-related careers. Prerequisites: HHP:2200.

HHP:3850 Promoting Health Globally 3 s.h.
Major global health threats in the United States and abroad; impact of culture, history, economics on health disparities; approaches, programs, policies to remedy them. Requirements: junior or senior standing, or certificate student. Same as GHS:3850.

HHP:3860 Leadership Theory for Health and Fitness 3 s.h.
Theories and applications of current scholarship in group and individual leadership relevant for health, sport, fitness, and exercise leadership; areas of study include group dynamics, humanist leadership, leader-member exchange theory, transformational leadership, contingency/reinforcement leadership models, path-goal leadership, and multi-dimensional leadership models; approaches to leadership contextualized to build skills in cultural competence and ethics of leadership.

HHP:3870 Motivational Interviewing for Health Professions 3 s.h.
Theoretical foundations, empirical research support, and application of motivational interviewing; how people make changes with regard to health behaviors, how health professionals can support positive change, barriers to change process, empowerment and autonomy, intrinsic motivation, applications of motivational interviewing; theory and research; motivational interviewing for health behavior change; extensive applied practice of motivational interviewing techniques and group work to practice skills; discussion and application of techniques, research, and practical knowledge.

HHP:3900 Writing for Health and Human Physiology 3 s.h.
Effective written communication specific to health sciences; planning, drafting, revising, and peer-editing materials (e.g., personal statements, professional communications, general articles of interest, scientific papers); practicum experience.

HHP:4010 Behavioral and Clinical Health Assessment Laboratory 3 s.h.
Expected assessment skill set for health promotion professionals, including ability to assess and interpret blood pressure, lung function, blood lipids, and heart rate; health behavior measurement issues including how to use objective monitors, self report, interview, and web-based trackers to assess diet, physical activity, and sleep; general measurement and research concepts will be introduced and students will have laboratory practice in sphygmomanometry, spirometry, anthropometry, accelerometry, sleep tracking, computerized dietary assessments, and graded exercise testing. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.
HHP:4020 Health Communication and Coaching Strategies 3 s.h.
Science of health communication, including evidence-based development, strategic dissemination, and critical evaluation of relevant, accurate, accessible, and understandable health information communicated to individuals to advance their health; the art of health coaching including the processes that facilitate healthy, sustainable behavior change; health coaching strategies will include motivational interviewing, goal setting, and social support. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.

HHP:4030 Policy, Environmental, and Social Determinants of Health 3 s.h.
How health is determined by access to social and economic opportunities (e.g., quality of our schools, safety of neighborhoods, and quality of our social interactions); policy, environmental, and social factors that influence health; how collaboration among federal, state, and local-level partners can improve health; goals and objectives of Healthy People 2020 (U.S. Federal Health Promotion Planning Guide) will be used to frame course material. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.

HHP:4040 Health Services: Current Barriers and Innovative Solutions 3 s.h.
Barriers to quality health care access (e.g., lack of availability, high costs, lack of insurance coverage, health disparities); consequences of such barriers (e.g., unmet health needs, delays in care, lack of preventive services, preventable hospitalization); innovative solutions for improving access and quality of care (e.g., technologies and innovations, improving access to preventive health services, reducing costs); novel ways to improve access and quality of today's health care system. Prerequisites: HHP:2200 and HHP:2310 and HHP:1100 and HHP:1300.

HHP:4110 Advanced Human Anatomy Laboratory 3 s.h.
Regional dissection of the human body. Prerequisites: HHP:1110 and HHP:1100.

HHP:4130 Skeletal Muscle Physiology 3 s.h.
Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Offered spring semesters.

HHP:4150 Clinical Exercise Physiology 3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 and HHP:4410. Recommendations: HHP:4460.

HHP:4190 Scientific Basis of Training for Elite Performance 3 s.h.
Application of scientific principles to goal of improving strength, speed, endurance, and overall human function; general overview of structure and function of muscular, nervous, cardiovascular, and respiratory systems; bioenergetics of exercise; endocrine response to exercise; biomechanics of resistance exercise; adaptations to anaerobic and aerobic training programs; age and sex related considerations on training; nutrition and ergogenic aids. Prerequisites: HHP:3500 or HHP:1300.

HHP:4195 Exercise Programming for Special Populations 3 s.h.
Measurement of health-related fitness and exercise capacity in special populations (e.g., children, older adults, obesity, orthopedic problems, cerebral palsy, intellectual disabilities). Prerequisites: HHP:3400 and (HHP:4200 or HHP:4210).

HHP:4200 Metabolic Exercise Testing and Prescription 4 s.h.
Basic techniques in physical fitness assessment, prescription of exercise for healthy and unhealthy adults, promotion of physical activity within communities; provides knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500). Requirements: health promotion, exercise science, or human physiology major.

HHP:4210 Musculoskeletal Exercise Testing and Prescription 4 s.h.
Educational and practical experience for designing resistance training and flexibility programs; competencies for certification with National Strength and Conditioning Association. Prerequisites: HHP:2200 and (HHP:3400 or HHP:3500). Requirements: health promotion, exercise science, or human physiology major.

HHP:4220 Biomechanics of Human Motion 3 s.h.
Application of the principles of mechanics to investigation of human motion in two dimensions; system modeling, force system and equilibrium analysis, particle and rigid body kinematics, Newton's and Euler's equations of motion, work-energy and impulse-momentum integral principles. Offered spring semesters. Prerequisites: HHP:1100 and (PHYS:1400 or PHYS:1511 or PHYS:1611 or HHP:2350).

HHP:4230 Motor Learning: Theory and Application 3 s.h.
How skilled motor behavior is acquired; behavioral changes that occur during skill acquisition; structural and physiological changes that occur in central nervous system; principles of training and practice that yield efficient and effective motor learning; how this information is helpful to health professionals involved in motor rehabilitation, physical educators and coaches, music instructors and musicians, strength and conditioning professionals, fitness professionals, and athletes, among others. Prerequisites: HHP:1300. Recommendations: familiarity with basic neuroscience (neurons, synaptic transmission, basic anatomical organization of sensory and motor systems).

HHP:4250 Human Pathophysiology 3 s.h.
In-depth study of human pathological processes and their effects on homeostasis; etiology, symptoms, and risk factors of various diseases; emphasis on major diseases impacting worldwide disability and death; how pathological processes are manifested and progress in the body. Prerequisites: HHP:1100 and HHP:3500.

HHP:4260 Respiratory Pathophysiology 3 s.h.
Structure and function of human respiratory system; focus on didactic and case study-based learning; control of breathing, gas exchange, lung mechanics, regulation of pulmonary blood flow, respiratory responses to stress; application of these physiological concepts to case studies of human disease. Prerequisites: HHP:1100 and HHP:3500. Recommendations: PHYS:1511, and MATH:1460 or MATH:1850.
HHP:4300 Neural Control of Posture and Movement 3 s.h.
Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Offered spring semesters. Prerequisites: HHP:3500 or HHP:1100. Requirements: anatomy or human physiology course.

HHP:4310 Sport and Exercise Nutrition 3 s.h.
Relationship between nutrition, fitness and sport performance; basic nutrition, physiology, chemistry, psychology, food preparation. Prerequisites: HHP:2200 and HHP:2310.

HHP:4320 Nutrition Interventions 3 s.h.
Strategies that assist in assessment and evaluation of nutrition behaviors of individuals and groups; interventions to meet nutritional needs of individuals and groups with a variety of health issues. Prerequisites: HHP:2200 and HHP:2310.

HHP:4340 Global Health and Global Food 3 s.h.
Practices, patterns, and policies that contribute to the epidemics of obesity, diabetes, and heart disease in wealthy populations; environmental degradation, hunger, and malnutrition among impoverished populations; strategies to meet food and agricultural needs for the world; local/global aspects or perspectives on food/health concerns for Iowa and the international community. Same as GHS:4340.

HHP:4350 Health and Human Physiology Practicum 3 s.h.
Experience in planning and implementing programs in the areas of fitness, strength and conditioning, nutrition, clinical rehabilitation, or health promotion. Prerequisites: HHP:1100 and HHP:2200 and HHP:2310 and (HHP:1300 or HHP:3500).

HHP:4360 Practicum in Group Fitness Instruction 2 s.h.
Opportunity to observe group-fitness instructors in an applied setting; help organize and execute a group-fitness class. Prerequisites: (HHP:4410 or HHP:3400) and HHP:2310 and (HHP:3500 or HHP:1300) and HHP:1100. Requirements: CPR/AED or Group Fitness Instructor (ACSM, ACE, AFAA) or specific fitness (yoga, indoor cycling, crossfit) certification.

HHP:4370 Practicum in Strength and Conditioning 2 s.h.
Opportunity to observe strength and conditioning professionals in an applied setting; participation in process of helping athletes reach performance goals. Prerequisites: HHP:2310 and (HHP:3400 or HHP:4410) and HHP:1100 and (HHP:3500 or HHP:1300). Requirements: CPR/AED certification.

HHP:4390 Understanding Human Disease 3 s.h.
Introduction to process of human disease at cell, organ, and whole body level throughout the lifespan; pathophysiologic changes occurring with disease, including risk factors, disease development, and overall effects of disease on the body; cancer, diabetes, obesity, cardiovascular, neurodegenerative diseases, and aging. Prerequisites: HHP:1300 or HHP:3500.

HHP:4400 Health Promotion Clinical Practicum 1 s.h.
Experience in planning and implementing clinical health promotion programs focusing on nutrition, physical fitness, cardiac rehabilitation, and respiratory rehabilitation. Prerequisites: HHP:4200 and HHP:3200.

HHP:4405 Health Promotion Community and Worksite Practicum 1 s.h.
Planning and implementing community and worksite health promotion programs. Prerequisites: HHP:3200 and HHP:4200.

HHP:4410 Exercise Physiology 3 s.h.
Mechanisms responsible for the acute and chronic effects of exercise on the different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:3500.

HHP:4415 Exercise Science Practicum 1 s.h.
Experience in planning and implementing exercise programs related to physical fitness, including strength and conditioning in healthy and diseased/injured populations, and in elite athletes. Prerequisites: HHP:4200 and HHP:4210.

HHP:4420 Planning and Evaluating Health Interventions 3 s.h.
Assessment, planning, implementation, and evaluation of health promotion programs. Prerequisites: HHP:3200. Requirements: admission to health promotion program.

HHP:4440 Physiology of Nutrition 3 s.h.
Metabolic and biological aspects of human energy production, relationship to energy consumption; systems or integrative approach. Prerequisites: HHP:1300 or HHP:3500.

HHP:4450 Genetic Basis of Disease 3 s.h.
Changes in single molecules that lead to systemic physiological alterations in mammals; relationship of these changes to development, aging, exercise, and specific diseases; current methodologies for studying mammalian genetics and physiology. Prerequisites: HHP:3500.

HHP:4460 Cardiovascular Physiology 3 s.h.

HHP:4465 Environmental Exercise Physiology 3 s.h.
Study of physiological responses of the human organism to various forms of environmental stress at rest and during exercise; how physical performance is affected by environmental stressors such as heat, cold, altitude, microgravity, and hyperbaria. Prerequisites: HHP:3400 or HHP:4410.

HHP:4470 Physiology of Aging 3 s.h.
Aging's effects on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:1300 or HHP:3500.

HHP:4480 Introduction to Human Pharmacology 3 s.h.
General pharmacology (e.g., administration, distribution, and elimination of drugs, dose response curves, adverse effects, placebos, homeopathy); pharmacotherapy of selected human diseases, pathophysiologic aspects of the disease, how different classes of drugs modify pathophysiologic effects to restore health or reduce disease's impact; focus on mechanisms of drug actions in humans; adverse effects, pharmacokinetic considerations, drug interactions; how to write prescriptions. Prerequisites: HHP:3500.

HHP:4490 Diagnosing Diseases: Patient History and Physical Examination 3 s.h.
Different diseases studied by interacting with patients at Meenakshi Mission Hospital and Research Center in Madurai, India; formal lectures in mornings followed by bedside teaching in afternoons and grand rounds in evenings; for health professional students.

HHP:4500 Undergraduate Independent Study attr.
Library or laboratory research related to a specific topic in human physiology, normally culminating with a written manuscript; work directed by a faculty member.
HHP:4510 Energy Metabolism in Health and Disease 3 s.h.
Comprehensive and molecular-driven approach to energy metabolism during exercise and calorie restriction regimens in skeletal muscle, adipose tissue, liver, heart, brain; special emphasis on muscle metabolism and its interaction with other organ systems in treatment and prevention of metabolic diseases (e.g., obesity, diabetes, cardiovascular diseases, cancer). Prerequisites: HHP:3500. Recommendations: HHP:4410 and BIOL:2723.

HHP:4600 Senior Seminar in Creative Problem Solving 1 s.h.
Use of design thinking values and principles; collaborative work to uncover innovative solutions related to undergraduate health and human physiology experience and targeted health behaviors; interactive presentation of content, experimentation of ideas and processes, student-led projects. Requirements: senior standing, health and human physiology or human physiology major, and UI g.p.a. of 3.00 or higher.

HHP:4800 Honors Research I 2 s.h.
Research for honors thesis; selection of faculty mentor, preparation of research proposal, written and oral presentations of research proposal, literature review, participation in experiments designed to develop laboratory skills for research, work with an active research tenure-track faculty member in a laboratory; first of a two-semester sequence. Requirements: honors standing.

HHP:4900 Honors Research II 3 s.h.
Completion of honors research begun in HHP:4800; analysis of data, writing and oral presentation of honors thesis, work with an active research tenure-track faculty member in a laboratory; second of a two-semester sequence. Prerequisites: HHP:4800 with a minimum grade of B. Requirements: honors standing.

HHP:4920 Health and Human Physiology Preinternship Seminar 0 s.h.
Prepares students for internships in various settings; topics include searching for and selecting internship sites, developing cover letters, résumés, and interviewing skills, and intern and agency responsibilities. Prerequisites: HHP:2310 and (HHP:1300 or HHP:3500) and HHP:1100 and HHP:2200.

HHP:4930 Health and Human Physiology Internship 3-9 s.h.
Directed practical field experience involving program planning, implementation, evaluation, and administration; varied areas such as fitness, wellness, nutrition, clinical, and strength and conditioning.

HHP:4935 Clinical Exercise Physiology Internship 1-6 s.h.
Directed practical field experience; program planning, implementation, evaluation, and administrative procedures.

HHP:4940 Health Promotion Honors Readings 1-2 s.h.
First step to complete an honors thesis; work with health and human physiology faculty member; comprehensive readings in a specific area (e.g., obesity in children, disabilities and sport); readings include primarily research reviews, popular press, and editorials; production of an annotated bibliography summarizing readings and presentation to faculty member at end of semester; brief research proposal summarizing background, research questions, and methods of selected area.

HHP:4950 Health Promotion Honors Problems 3-4 s.h.
Continuation of HHP:4940; original research or creative project supervised by a faculty member.

HHP:5000 Problems arr.

HHP:5300 Advanced Human Physiology 3 s.h.
Provides an advanced study of human physiology for students entering health related fields; mechanisms of body function will be presented at various levels ranging from cellular and molecular, to tissue and organ system levels, with emphasis on integration of the various systems. Offered spring semesters. Prerequisites: HHP:1100 and HHP:3500.

HHP:6000 Research arr.

HHP:6010 Non-Thesis Seminar 2 s.h.
For candidates for the M.S. without thesis. Offered spring semesters.

HHP:6050 Advanced Topics in Obesity 3 s.h.
In-depth overview of biological, behavioral, and societal causes and consequences of obesity epidemic; potential solutions from primary and secondary prevention standpoints; causes of obesity, available treatments, and global impact that obesity epidemic presents to society.

HHP:6130 Advanced Skeletal Muscle Physiology 1-3 s.h.
Skeletal muscle structure, contractile mechanisms, production of movement, biomechanical properties; adaptation to increased use, disuse, injury. Offered spring semesters. Prerequisites: HHP:3500.

HHP:6150 Advanced Clinical Exercise Physiology 1-3 s.h.
Recent advances in exercise physiology for clinical populations; emphasis on acute and chronic responses to exercise in healthy aged adults and in patients with cardiac, vascular, pulmonary, and metabolic diseases; basic and intermediate electrocardiography (ECG), pathophysiology of disease process, clinical assessment of disease severity, diagnostic testing, acute exercise responses, and exercise rehabilitation. Prerequisites: HHP:3500 and HHP:4410. Recommendations: HHP:4460.

HHP:6200 Advanced Metabolic Exercise Testing and Prescription 1-3 s.h.
Basic techniques in physical fitness assessment; prescription of exercise for healthy and unhealthy adults; promotion of physical activity within communities; knowledge and skill competencies required for certification as American College of Sports Medicine health fitness instructor. Prerequisites: HHP:2200 and (HHP:1300 or HHP:3500).

HHP:6300 Seminar in Motor Control 1 s.h.
Current topics in neural control of movement, biomechanics, and rehabilitation sciences.

HHP:6400 Integrative Physiology Seminar 1 s.h.
Current topics in cardiovascular physiology, vascular biology, free radical biology.

HHP:6410 Advanced Exercise Physiology 1-3 s.h.
Mechanisms responsible for acute and chronic effects of exercise on different organ systems of the body. Offered fall semesters. Prerequisites: HHP:1300 or HHP:3500.

HHP:6460 Advanced Cardiovascular Physiology 1-3 s.h.
HHP:6470 Advanced Physiology of Aging 1-3 s.h.
Effects of aging on cells, tissues, and organs; how aging influences function of major body organ systems and the whole organism; physiological mechanisms that underlie age-related changes in body function and performance; integrative approach with focus on human aging. Prerequisites: HHP:1100 and HHP:3500.

HHP:6480 Advanced Human Pharmacology 1-3 s.h.
General pharmacology (administration, distribution, elimination of drugs, dose response curves, adverse effects, placebos, homeopathy); pharmacotherapy of selected human diseases, pathophysiological aspects of disease, how different classes of drugs modify pathophysiological effects to restore health or reduce impact of disease; focus on mechanisms of drug actions in humans; adverse effects, pharmacokinetic considerations, drug interactions; how to write prescriptions. Prerequisites: HHP:3500.

HHP:6500 Seminar in Health Promotion 1 s.h.
Peer and faculty response to graduate student work addressing health promotion, physical activity and health outcomes, clinical exercise physiology; review and critique current literature; presentation of published work or in-process projects; critical thinking, scientific writing, and oral communication skill development pertaining to health promotion.

HHP:6510 Advanced Energy Metabolism in Health & Disease 1-3 s.h.

HHP:7000 Practicum in College Teaching arr.

HHP:7290 Graduate Internship 3-9 s.h.
Requirements: recreational sports management emphasis.

HHP:7300 Advanced Neural Control of Posture and Movement 1-3 s.h.
Neuroanatomical and neurophysiological bases of human motor control; mechanisms for locomotion and posture, control of arm and hand movements, role of sensory information. Offered spring semesters. Prerequisites: HHP:3500 and (HHP:1100 or HHP:3500). Requirements: anatomy or human physiology course.

HHP:7500 Thesis: M.S. 0-4 s.h.

Athletic Training Program Courses

ATEP:1000 First Aid and CPR 2 s.h.
American Red Cross certification: basic first aid, CPR procedures.

ATEP:1010 Exploring Athletic Training arr.
Exploration of professional preparation for athletic trainers; application, career opportunities, professional organizations, awareness of basic athletic training principles.

ATEP:2010 Practicum in Athletic Training I 2 s.h.
Basic clinical skill instruction, evaluation, and integration for athletic trainers. Requirements: athletic training major.

ATEP:2020 Practicum in Athletic Training II 2 s.h.
Integration of basic physical skills and orientation to traditional settings; clinical experience for first-year students arranged through the athletic training program. Prerequisites: ATEP:2010 with a minimum grade of C.

ATEP:2030 Basic Athletic Training 3 s.h.
Basic pathology, epidemiology, materials biology for prevention and immediate care of athletic injuries.

ATEP:2040 Clinical Sciences I 2 s.h.
Theoretical knowledge base in therapeutic modalities. Offered spring semesters. Prerequisites: ATEP:2010 with a minimum grade of C.

ATEP:2060 Advanced Emergency Care for Athletic Trainers 1-2 s.h.
Coordinated initial professional emergency response certifications for athletic trainers; recertification for those holding valid certifications. Requirements: Red Cross First Aid and CPR certifications.

ATEP:3010 Clinical Sciences III 3 s.h.
Theoretical and practical skill development in the areas of musculoskeletal evaluation for ankle, knee, shoulder, and upper extremity. Offered fall semesters. Prerequisites: ATEP:2040. Requirements: athletic training major.

ATEP:3020 Clinical Sciences V: Rehabilitation 2 s.h.
Rehabilitation for athletic trainers based on the theory and principles of therapeutic exercise; application of current research concepts. Prerequisites: ATEP:2040. Corequisites: ATEP:3010. Requirements: athletic training major.

ATEP:3030 Practicum in Athletic Training III 3 s.h.
Advanced clinical skill instruction, evaluation, and integration for athletic trainers. Prerequisites: ATEP:2020 with a minimum grade of C.

ATEP:3040 Clinical Sciences IV 3 s.h.
Continuation of musculoskeletal evaluation, completion of EENT, chest, abdomen, and dermatologic evaluation; integration of rehabilitation programs. Offered spring semesters. Prerequisites: ATEP:3010 with a minimum grade of C.

ATEP:4010 Administration of Athletic Training Programs 2 s.h.
Health care supervision, professional athletic training responsibilities, philosophies in athletic health care. Offered fall semesters. Prerequisites: ATEP:2030.

ATEP:5010 Seminar in Athletic Training 1-4 s.h.
Educational issues faced by approved clinical instructors in athletic training education programs. Offered fall semesters.

Sport and Recreation Management Courses

SRM:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).

SRM:1045 Health for Living 3 s.h.
Personal health strategies; focus on disease prevention, wellness. GE: Values, Society, and Diversity.

SRM:1060 Contemporary Issues in Sports 3 s.h.
Basic philosophical, historical, scientific foundations and developments; function, settings of organized recreation.
SRM:1072 Leisure and the Liberal Arts 3 s.h.
Integration of the ideal of a liberal education with worthy, meaningful use of free time in contemporary society; classic writings in the humanities. GE: Values, Society, and Diversity.

SRM:1085 Introduction to Travel and Tourism 3 s.h.
Nature, scope, and significance of fields of travel and tourism; their histories, theories and philosophies, current trends, issues and challenges; critical analysis of current travel and tourism practices; green alternatives that are more sustainable and in keeping with values the field of leisure studies has long placed on active participation and local, community development.

SRM:2065 The Experience Economy 3 s.h.
Introduction to emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is now gaining ascendency as the last, best hope for future economic growth; critical analysis of experience economy with discussion of ways in which experience economy may offer green, moral, and humane alternatives to previous stages of economic development; new opportunities for travel and tourism, sports settings, recreation and wellness services, possible applications in education and helping professions.

SRM:3147 Sport Event Management 3 s.h.
Current status, challenges, and opportunities in sporting event industry; sporting event planning, budgeting, marketing, sponsorship, and evaluation; development of event timelines and event management skills; introduction to networking and interaction with sporting events. Recommendations: SRM:3154.

SRM:3148 Interscholastic Activities and Athletics Administration 3 s.h.
Survey of activities administration foundations including philosophy, leadership, professional programs and activities administration principles, strategies and methods; understanding of the techniques and theory of coaching concepts and strategies for interscholastic and concepts and strategies for interscholastic fundraising; basics of assessment and evaluation of interscholastic athletic programs and personnel, dealing with challenging personalities, and administration of professional growth programs for interscholastic personnel.

SRM:3149 Coaching Theory, Body Structure, and Human Development 3 s.h.
Comprehensive introduction to the coaching profession and obtaining a coaching license in the state of Iowa; ethics, licensing, and body development.

SRM:3150 Recreation Administration 3 s.h.
Personnel, finance, budgets, liability, marketing.

SRM:3151 Liability in Sport and Recreation 3 s.h.
Unintentional torts (negligence), civil liability, and criminal liability in recreation and sport settings; focus on community/commercial recreation and campus recreation settings. Requirements: must have 30 s.h. completed.

SRM:3152 Sport and Recreation Facility Management 3 s.h.
Facilities management, personnel assignment and evaluation, fee structures, maintenance, programming, compliance with regulations and standards. Requirements: must have 30 s.h. completed.

SRM:3153 Sport Business Practices 3 s.h.
Business of professional and intercollegiate athletics including league, team, and player-level issues; revenue generation and distribution; competitive balance issues; sport league structure strategies; business behind intercollegiate athletics and challenges facing NCAA structure; negotiation. Requirements: must have 30 s.h. completed.

SRM:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures.

SRM:3155 Prevention and Care of Athletic Injuries 3 s.h.
Comprehensive introduction to the sports world in relation to obtaining a coaching license in the state of Iowa in regards to first aid, injury prevention, and care. Prerequisites: SRM:3149.

SRM:3156 Design of Recreation Facilities 3 s.h.
Horticulture, floriculture, landscape design, agronomy, turf management; their relation to planning and design of recreation and park areas and facilities. Requirements: must have 30 s.h. completed.

SRM:3157 Managerial Operations in Sport and Recreation 3 s.h.
Introduction to the operation of a private or nonprofit sport-related business.

SRM:3158 Sport and Recreation Promotion 3 s.h.
Foundations and principles of recreation sport promotion and sales operation; application of foundations and principles to sport and recreation industries; historical aspects; current and future trends of sport and recreation management as it relates to sales and promotions; sales management, marketing, financial/economic, legal, and ethical principles related to sport management. Requirements: must have 30 s.h. completed.

SRM:3172 Finance in Sport and Recreation 3 s.h.
Capital funding and revenue acquisition for funding public and private sport and leisure service organizations; contemporary sport and leisure service; financial and economic issues. Requirements: 30 s.h. completed.

SRM:3173 Work and Leisure in American Culture 3 s.h.
Methods and insights of American studies and leisure studies applied to work/leisure relationship in American life; patterns and perceptions of work and leisure, leisure's share and potential; changing American values.

SRM:3175 Sales in Sport 3 s.h.
Fundamentals of business development and sales management; incentivizing sports consumers, direct and indirect sales strategies, brand communications, atmospherics, technology in sports sales, ticket sales, licensing products, negotiating sports sponsorships, and brand building. Recommendations: health and human physiology major.
SRM:3176 Sports Analytics for Coaches, Managers, and Other Decision Makers 3 s.h.
Data management, analytic models, and information systems; how sports analytics are used to make decisions for structuring athletic departments, develop in-game competitive strategies, and improve player performance; analytic examples applied to professional sports, college sports, high school sports, and fantasy sports; experience with statistics or computer science not required.

SRM:3178 Communications and Public Relations in Sports 3 s.h.
How public relations is used to promote service products, demonstrate social responsibility, and communicate with consumers and investors; campaigns, customer service, legal and ethical considerations in promoting service products, media events, information services, public relations in strategic management, atmospherics, critical service moment, social media. Recommendations: health and human physiology major.

SRM:3300 Writing for Sport and Recreation Managers 3 s.h.
Development of effective writing skills that apply to diverse professional situations; proper mechanics of effective writing, persuasive writing, informative writing, factual writing; writing styles applied to document formats (e.g., press releases, emails, memos, marketing messages, interviews, fundraising requests, digital newsletters); student-centered activities in a workshop format.

SRM:3700 Ethics in Sport 3 s.h.
Ethical development and decision making processes in the sport and recreation industry including personal development, educational focused programming, and other types of ethics-based program development.

SRM:3800 Sport Law for Interscholastic Athletic Directors 3 s.h.
Part of the Interscholastic Athletic Director certificate; content includes sport unintentional torts, intentional torts, constitution, legislation, and risk management.

SRM:4190 Preinternship 0-1 s.h.
Orientation to internship process. Requirements: sport and recreation management major.

SRM:4194 Honors Readings arr.

SRM:4195 Honors Problems arr.

SRM:4196 Internship 3-9 s.h.
Capstone course for recreation sport business track; 360 contact hours of practical experience with private or nonprofit recreation or sport-related enterprise; supervision by an agency mentor and a university representative.

SRM:4197 Sport and Recreation Field Experience arr.
Educational opportunity involving a small group of students in a unique sport business experience; students serve as consultants for a sport or recreation organization; in-class preparation prior to off-campus work with designated agency; sport or recreation enterprise vary according to faculty expertise and agency availability.

SRM:4198 NCAA Rules Compliance and Enforcement 3 s.h.
Rules that govern NCAA athletics, rules compliance function on campuses of member institutions, and enforcement of rules by NCAA; essential legislation in NCAA Manual, including bylaws covering recruiting, eligibility, and amateurism; history of NCAA as related to organization’s current structure and activities; summer session capstone experience includes attendance at NCAA Regional Rules Seminar in Indiana and participation in educational sessions conducted by NCAA staff.

SRM:5065 The Economy of Experience 3 s.h.
In-depth analysis of emerging experience economy; just as manufacturing sector of economy supersedes agriculture and service economy supersedes manufacturing, how experience economy is gaining ascendancy as the last, best hope for future economic growth; exploration of current research in positive psychology and sociologist findings on evolution of post-materialist values as related to experience economy; evaluation of current trends; critical analysis and theory development; case studies; original research and investigation of novel marketing possibilities and experience design.

SRM:5200 Historical and Philosophical Perspectives on Leisure 3 s.h.
Historical and philosophical origins of leisure studies; historical issues related to leisure ideas, such as shorter hours, share-the-work, utopian vision of a better society.

SRM:6251 Risk Management 3 s.h.
Legal knowledge necessary for effective management of sport, recreation, and physical activity programs, avoidance of legal problems; strategies for addressing issues such as right to participate, liability for injuries, risk management; legal statutes that govern sport, health, recreation organizations.

SRM:6252 Economics and Financing 3 s.h.
Economic issues for sport/leisure services in nonprofit, private/commercial, and public sectors; strategic financial analysis for the nonfinancial manager; principles, issues in financing sport/leisure organizations.

SRM:6253 Sport Administration 3 s.h.
Overview of various segments that constitutes the role and function of a sport administrator (i.e., planning, organizing, leading, controlling); focus on ways in which sport administrators and their subsequent organizations influence and are influenced by the link between sport and globalization; sport administration encompassing services provided within an organizational context; administration viewed as the coordination of production and distribution of those services.

SRM:6254 Marketing and Sport Promotion 3 s.h.
Overview of varied segments that constitutes sports business practice, including marketing, data-based marketing, sales, promotion, sponsorship; varied segments that make up the sport industry, including the mass media, infrastructure, stadium building, consumer behavior; readings and discussions consider the development and structure of each segment, interactions between segments, planning, policy implications; focus on the United States, professional team sports, comparisons to other sports.

Therapeutic Recreation Courses
TR:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, readings, visits to research facilities).
TR:1061 Recreation Leadership and Programming 3 s.h.
Leadership principles, techniques; programming techniques.

TR:1070 Perspectives on Leisure and Play 3 s.h.
Relationships between leisure and economics, sociology, other social sciences; effect of leisure on individual and group behavior; antecedents, motives, consequences of leisure behavior. GE: Social Sciences.

TR:1077 Introduction to Child Life 3 s.h.
Orientation to the field of child life services including services for hospitalized children and their families.

TR:1800 Basic Aspects of Aging 3 s.h.

TR:3160 Introduction to Therapeutic Recreation 3 s.h.
Lifestyles and barriers faced by persons with disabilities; basic aspects of the therapeutic recreation profession; skills used to establish therapeutic relationship; techniques used with patients; theoretical and conceptual bases for practice.

TR:3161 Assessment and Evaluation in Therapeutic Recreation 3 s.h.
Basic assessment psychometrics (e.g., reliability), standardized instrumentation and data collection (e.g., observation, self-report), construction of instruments, data reduction. Prerequisites: TR:3160.

TR:3162 Therapeutic Recreation: Clientele 3 s.h.
Developmental patterns of special populations; examination of specific interventions and research applied to specific cognitive, emotional, and physical impairments.

TR:3163 Concepts and Issues in Therapeutic Recreation: Advancement of the Profession 3 s.h.
Ethical, professional, and theoretical issues in delivery of therapeutic recreation services; impact of legislation, standards of practice, health care reform; application of research to practice and marketing services. Prerequisites: TR:3160.

TR:3164 Therapeutic Recreation: Rehabilitation 3 s.h.
In-depth review of therapeutic recreation techniques used in clinical and community rehabilitation; opportunities to use techniques with patients. Prerequisites: TR:3160.

TR:3170 Children and Health Care 3 s.h.
Broad overview of issues and systemic approaches to working with children in a health care setting; practical and clinically-based experiences for pediatric population; provision of health care services to patients and issues that affect them; models of intervention, ethical issues, case studies, and impact of cultural diversity on health care; for undergraduates who are interested in working with children in a health care setting.

TR:3171 Child Life Practical Application 3 s.h.
Overview of medical conditions and treatments commonly encountered by children and adolescents in health care settings; common pediatric sedation medications; sequence of medical procedures to understand how to provide procedural preparation and support; facilitate medical play with pediatric population.

TR:3174 Cultural Perspectives in Health Care 3 s.h.
Health care beliefs related to various cultures and religions; focus on illness, hospitalization, treatment, death.

TR:3261 Inclusive Recreation 3 s.h.
Laws pertaining to access to recreation and leisure opportunities for disabled persons in a community; evaluation of physical access to built environment; how social construction of disability can be a barrier to integrated leisure involvement; practical aspects of how to include disabled persons in community recreation and sport activities.

TR:3281 Special Projects in Child Life Practice 2 s.h.
Student directed and student led hospital camping experience for patients at the University of Iowa Children's Hospital; planning and preparing for a large function, planning and leading therapeutic activities, working directly with patients and their families, processing and discussion of experiences and concerns; practical and clinical-based experiences for students interested in working with pediatric population in health care setting. Requirements: hospital orientation, patient confidentiality (HIPAA) training, and health screening.

TR:4169 Spring Break Child Life Experience 1 s.h.
Practical experience with ill children, including a trip to the Give Kids the World village in Florida; documentation and engagement of course materials, experience working with ill children; students are assigned a specific diagnosis and present the diagnosis (appropriate statistics, effects of hospitalization, treatment, etc.) on child and family; coping strategies, appropriate methods of talking to and interacting with children and families, overview of child life in hospitals.

TR:4190 Preinternship Seminar 1 s.h.
Interviewing skills, résumés and cover letters, selection of internship site(s), application procedures for internship positions, and responsibilities of interns to the agency.

TR:4191 Therapeutic Recreation Internship arr.
Practical field experience; direct leadership, program planning, administrative procedures. Prerequisites: TR:4190 or LEIS:4190.

TR:4192 Child Life Internship 9-12 s.h.

TR:4193 Independent Study arr.
Problem in a specific area.

TR:4194 Honors Readings arr.
Independent reading or research project under faculty supervision usually leading to an honors paper. Requirements: admission to honors program.

TR:4195 Honors Problems arr.
Completion of a project over and above normal independent study as an honors project; major research effort involving close work with an advisor.

TR:5165 Child Life: Methods and Materials 3 s.h.
Interventions unique to child life practice (e.g., pain management, coping, preoperative play, terminal illness).

TR:5166 Child Life: Seminar 3 s.h.
Current issues and research in child life, expanding scope of service in child life.

TR:5167 Child Life Practicum 1-3 s.h.
Experience observing and assisting child life staff members providing services to hospitalized children, under Certified Child Life Specialist supervision.

TR:5205 Research Methods and Leisure Behavior 3 s.h.
The scientific process: research designs for experiments and surveys, questionnaire construction, sampling theory, basic data analysis.
and endurance, and flexibility.

HPAS:1010 Personal Fitness 1 s.h.
Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.

TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h.
Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:1077.

TR:5212 Child Life Research Problems arr.
Work one-to-one with a faculty member on a mentored research project pertaining to child life, play, and development, or an appropriate special topic agreed upon by student and faculty member. Prerequisites: TR:5205. Requirements: acceptance into the Master of Science program in Health and Human Physiology, Child Life.

TR:5260 Play and Childhood arr.
Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well-being and healthy lifestyles; practical- and theoretically-based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings.

TR:6262 Procedures in Therapeutic Recreation 3 s.h.
Current issues in the field; application of business and research principles to therapeutic recreation practice and program administration.

TR:7289 Graduate Practicum in Therapeutic Recreation 3 s.h.
Field placement with a therapeutic recreation service delivery agency; meets NCTRC certification standards. Prerequisites: TR:3160. Corequisites: TR:3163 and TR:3164.

Health and Physical Activity Skills Courses

HPAS:1001 Alcohol and Your College Experience 1 s.h.
Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

HPAS:1002 Tobacco and Your College Experience 1 s.h.
Current behavior change theories related to tobacco use, cessation; nicotine replacement therapies (NRT), non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, support systems; for smokers and non-smokers.

HPAS:1003 Resiliency and Your College Experience 1 s.h.
Resiliency and psychological hardness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional well-being.

HPAS:1004 Food and Your College Experience 1 s.h.
Sociocultural perspective on the forces that facilitate "junk" diets, particularly during young adulthood; basic components of nutrition; opportunity to develop skills in diet planning and healthy eating.

HPAS:1005 Indoor Group Cycling 1 s.h.
Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

HPAS:1010 Personal Fitness 1 s.h.
Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.

TR:5211 Professional Ethics and Practice in Pediatrics 3 s.h.
Examination of core issues in clinical pediatrics; beginning life critical care, end-of-life care, role of medical technology, public health research pertinent to children, and maintaining professional boundaries. Prerequisites: TR:1077.

TR:5212 Child Life Research Problems arr.
Work one-to-one with a faculty member on a mentored research project pertaining to child life, play, and development, or an appropriate special topic agreed upon by student and faculty member. Prerequisites: TR:5205. Requirements: acceptance into the Master of Science program in Health and Human Physiology, Child Life.

TR:5260 Play and Childhood arr.
Multiple levels of theories and current research on importance of play in child development; advocacy for importance and necessity of play in childhood that leads to well-being and healthy lifestyles; practical- and theoretically-based experiences; for students interested in working with children in health care, clinical, school, community, and family life settings.

TR:6262 Procedures in Therapeutic Recreation 3 s.h.
Current issues in the field; application of business and research principles to therapeutic recreation practice and program administration.

TR:7289 Graduate Practicum in Therapeutic Recreation 3 s.h.
Field placement with a therapeutic recreation service delivery agency; meets NCTRC certification standards. Prerequisites: TR:3160. Corequisites: TR:3163 and TR:3164.

Health and Physical Activity Skills Courses

HPAS:1001 Alcohol and Your College Experience 1 s.h.
Patterns of alcohol, drug use focused on college years; strategies for monitoring use, behavioral change plans for implementing lower-risk drinking practices; for drinkers and non-drinkers.

HPAS:1002 Tobacco and Your College Experience 1 s.h.
Current behavior change theories related to tobacco use, cessation; nicotine replacement therapies (NRT), non-NRT methods; triggers, relapse prevention, cognitive behavioral skills, support systems; for smokers and non-smokers.

HPAS:1003 Resiliency and Your College Experience 1 s.h.
Resiliency and psychological hardness theories relevant to college life; resiliency and ability to cope with challenges; components of psychological fitness; skills for personal growth and emotional well-being.

HPAS:1004 Food and Your College Experience 1 s.h.
Sociocultural perspective on the forces that facilitate "junk" diets, particularly during young adulthood; basic components of nutrition; opportunity to develop skills in diet planning and healthy eating.

HPAS:1005 Indoor Group Cycling 1 s.h.
Introduction to group cycling; bike setup, safety, proper technique, injury prevention, and utilization of interval training.

HPAS:1010 Personal Fitness 1 s.h.
Introduction to personal workout programming and design; includes sections on cardiovascular fitness, muscular strength and endurance, and flexibility.
HPAS:1210 Relaxation Techniques 1 s.h.
How to define the sources of underlying stress, learn to cope with everyday stressors, and become more proactive through life skill management.

HPAS:1220 Flexibility 1 s.h.
Help students move through full range of motion, work to correct imbalances, and ultimately move better through activities of daily living.

HPAS:1230 Hatha Yoga 1 s.h.
Introduction to the study and practice of yoga; geared towards beginners.

HPAS:1240 Power Yoga 1 s.h.
Build strength, flexibility, and balance while maintaining traditional yoga emphasis of breath and intention; breath and movement are linked as you flow in and out of a combination of vinyasas (yoga sequences) and balancing poses; topics include proper breathing techniques, sun salutations, arm balances, backbends, and inversions. Requirements: basic understanding and background in yoga; a 6-week yoga practice is recommended.

HPAS:1320 Lap Swimming I 1 s.h.
Introduction to swim stroke development utilizing swimming as a form of exercise; this is not a learn-to-swim class and a basic prerequisite swimming test will be performed prior to instruction.

HPAS:1325 Lap Swimming II 1 s.h.
Advanced technique refinement course geared towards students who have passed HPAS:1320 or can perform the prerequisite swim test. Prerequisites: HPAS:1320.

HPAS:1340 Water Workout 1 s.h.
Basic principles and benefits of aquatic exercise; guidelines for creating safe and effective aquatic exercise programs; topics include fitness and conditioning, anatomy, safety, deep-water workouts, goal setting, and nutrition.

HPAS:1410 Badminton 1 s.h.
Introduction to the game, rules, and skills involved in badminton.

HPAS:1430 Racquetball 1 s.h.
Introduction to the game, rules, and skills involved in racquetball.

HPAS:1440 Table Tennis 1 s.h.
Introduction to the game, rules, and skills involved in table tennis.

HPAS:1450 Tennis 1 s.h.
Introduction to the game, rules, and skills involved in tennis.

HPAS:1530 Volleyball I 1 s.h.
Introduction to the game, rules, and skills involved in volleyball.

HPAS:1535 Volleyball II 1 s.h.
Advanced skill refinement course geared towards students who have passed HPAS:1530 or are able to show mastery of the basic techniques. Prerequisites: HPAS:1530.

HPAS:1549 Sand Volleyball 1 s.h.
Introduction to the game, rules, and skills involved in sand volleyball.

HPAS:1550 Slow-Pitch Softball 1 s.h.
Introduction to the game, rules, and skills involved in softball; course will meet outside, weather permitting.

HPAS:1560 Ultimate Frisbee 1 s.h.
Introduction to the game, rules, and skills involved in ultimate frisbee; course will meet outside, weather permitting.

HPAS:1610 Self Defense 1 s.h.
Introduction to the practice of self-defense through upper and lower body strikes, joint manipulation, and other personal protection measures; this is a noncontact course.

HPAS:1620 Karate 1 s.h.

HPAS:1630 Kick Boxing 1 s.h.
Health and Human Physiology, B.A.

Requirements

The Bachelor of Arts with a major in health and human physiology requires a minimum of 120 s.h., including work for the major, which varies by track. The health promotion track requires a total of 46-48 s.h. of work for the major; the health studies track requires 43-45 s.h. of work for the major; and the exercise science track requires 51-53 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

The health promotion track is intended for students seeking careers that promote wellness in the community and the workplace. The health studies track is designed for students who want a more flexible health science curriculum. The exercise science track is intended for students seeking careers as professionals in fitness and in strength and conditioning.

Students may earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology, but not both.

Students who major in health and human physiology may not earn the minor in human physiology or the minor in physical activity and nutrition science.

Students in all tracks are required to complete the following science and math foundation (minimum of 10 s.h.) and the departmental core (12 s.h.), as well as additional courses required specifically for their track.

The B.A. with a major in health and human physiology requires the following course work.

| Science and Math Foundation Courses | 10 |
| Departmental Core Courses | 12 |
| Track Courses | 21-29 |
| Total Hours | 43-51 |

Science and Math Foundation Courses

All students complete three foundation courses (minimum of 10 s.h.): one each in chemistry, biology, and mathematics or statistics.

Chemistry—one of these:

CHEM:1080  General Chemistry II  3
CHEM:1120  Principles of Chemistry II  4

Biology—one of these:

BIOL:1140  Human Biology  4
BIOL:1141  Introductory Animal Biology  4
BIOL:1411  Foundations of Biology  4

Mathematics or statistics—one of these:

MATH:1020  Elementary Functions  4
MATH:1380  Calculus and Matrix Algebra for Business  4
MATH:1440  Mathematics for the Biological Sciences  4

MATH:1460  Calculus for the Biological Sciences  4
MATH:1850  Calculus I  4
PSQF:4143/STAT:4143  Introduction to Statistical Methods  3
STAT:1020  Elementary Statistics and Inference  3
STAT:1030  Statistics for Business  4
STAT:3510  Biostatistics  3

Departmental Core Courses

All students must complete the four-course departmental core (12 s.h.).

HHP:1100  Human Anatomy  3
HHP:1300  Fundamentals of Human Physiology  3
HHP:2200  Physical Activity and Health  3
HHP:2310  Nutrition and Health  3

Tracks

Health Promotion Track Requirements

The health promotion track prepares students to directly work with individuals and communities to improve health and quality of life. Students learn how to assess, plan, implement, evaluate, and oversee programs designed to improve health behaviors, create environments supportive of healthy lifestyles, and effectively communicate health issues to key stakeholders. The health promotion track prepares students to take the certification exam from the National Commission for Health Education Credentialing. The mix of natural and social sciences in this track also provides a foundation for professional or graduate study in allied health, health management, or public health.

In addition to completing the courses listed above under "Science and Math Foundation" and "Departmental Core," health promotion track students must complete the following health promotion core courses (15 s.h.) and major electives (9 s.h.).

Health Promotion Core

All of these:

HHP:3200  Health Behavior and Health Promotion  3
HHP:3430  Health Management and Administration  3
HHP:4010  Behavioral and Clinical Health Assessment Laboratory  3
HHP:4020  Health Communication and Coaching Strategies  3
HHP:4420  Planning and Evaluating Health Interventions  3

Health Promotion: Major Electives

Students must complete at least 9 s.h. selected from HHP numbered courses, except HHP:3020

Health Studies Track Requirements

The health studies track interconnects the systems, technologies, and policies driving the U.S. wellness and health care industries. It provides flexible opportunities to work with faculty in developing the knowledge and skills needed to
understand health determinants and anticipate continuing changes in preventive and clinical health delivery.

In addition to completing the courses listed above under "Science and Math Foundation" and "Departmental Core," health studies track students must complete the following health studies core courses (9 s.h.) and major electives (12 s.h.).

**Health Studies Core**

<table>
<thead>

<td>3</td>
</tr>
<tr>
<td>HHP:4390</td>
<td>Understanding Human Disease</td>
<td>3</td>
</tr>
</tbody>
</table>

**Health Studies: Major Electives**

Students must complete at least 12 s.h. selected from HHP numbered courses, except HHP:3020

**Exercise Science Track Requirements**

The Exercise Science track provides focused study in physical fitness, physical activity, sport nutrition, and sport conditioning as they pertain to health and performance outcomes. The curriculum has been approved by the American College of Sports Medicine (ACSM) as meeting the academic preparation for certification as an ACSM certified exercise physiologist and ACSM certified personal trainer. It also prepares students for certification by the National Strength and Conditioning Association as a certified strength and conditioning specialist and certified special population specialist. The strong physiological science-based curriculum can serve as preparation for professional or graduate study in rehabilitation sciences, performance sciences, or medical fields.

In addition to completing the courses listed above under "Science and Math Foundation" and "Departmental Core," exercise science track students must complete the following exercise science core courses (23 s.h.) and major electives (6 s.h.)

**Exercise Science Core**

</tbody>
</table>

**Exercise Science: Major Electives**

Students must complete at least 6 s.h. selected from HHP numbered courses, except HHP:3020

In order to graduate with honors in the major, students must successfully complete the honors research course sequence HHP:4800 Honors Research I and HHP:4900 Honors Research II; write an honors thesis that is deposited with the University of Iowa Honors Program and is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** one foundation course and at least six more courses in the major

**Before the seventh semester begins:** at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least two more courses in the major (total of 15)

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plans of Study**

1 Ten General Education courses are required (seven outside the major), not including world languages. If a world language is required, additional courses should be added to this plan of study.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Athletic Training, B.S.

Requirements

The Bachelor of Science with a major in athletic training requires a minimum of 120 s.h., including 53 s.h. of work for the major plus one prerequisite (1 s.h.) for application to the major and several prerequisites (34-36 s.h.) to course work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The major provides concentrated studies and clinical experiences that lead to national certification in athletic training. The Department of Health and Human Physiology collaborates with the Department of Orthopedics and Rehabilitation (Carver College of Medicine) to offer the major.

Athletic trainers work with active patients, including athletes, to help prevent injuries, offer advice about appropriate equipment, recognize and evaluate injuries, administer emergency treatment, and determine need for specialized medical care. Athletic trainers also work as members of health care teams involved in postinjury rehabilitation.

Admission to the major in athletic training is competitive; students must apply, meet technical standards, and comply with health and safety policies. They may be admitted as first-year students and begin clinical experience as sophomores. Applicants must have at least 11 s.h. of graded college credit (pass/fail credit does not count), including ATEP:1010 Exploring Athletic Training with a grade of C or higher; and they must have a g.p.a. of at least 2.50 on all undergraduate work for the major. Students must complete this course before they apply for admission to the athletic training major.

Admission Prerequisite

Students must complete this course before they apply for admission to the athletic training major.

ATEP:1010 Exploring Athletic Training 1

Prerequisites to Course Work for the Major

Students must complete the following courses (34-36 s.h.) as they begin course work for the major.

One of these:

- BIOL:1140 Human Biology 4
- BIOL:1141 Introductory Animal Biology 4
- BIOL:1411 Foundations of Biology 4

One of these sequences:

- CHEM:1070 & CHEM:1080 General Chemistry I-II 6
- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8

One of these:

- PHYS:1400 Basic Physics 4
- PHYS:1511 College Physics I 4

All of these:

- ATEP:1000 First Aid and CPR (or certification with adult, infant, AED) 2
- ATEP:2030 Basic Athletic Training 3
- HHP:1100 Human Anatomy 3
- SRM:1045 Health for Living 3
- PSQF:1075 Educational Psychology and Measurement 3
- PSY:1001 Elementary Psychology 3
- STAT:1020/PSQF:1020 Elementary Statistics and Inference (or equivalent) 3

Courses for the Major

Students must complete the following course work for the major (53 s.h.).

All of these:

- ATEP:2010 & ATEP:2020 Practicum in Athletic Training I-II 4
- ATEP:2040 Clinical Sciences I 2
- ATEP:2060 Advanced Emergency Care for Athletic Trainers 2
- ATEP:3010 Clinical Sciences III 3
- ATEP:3020 Clinical Sciences V: Rehabilitation 2
- ATEP:3030 Practicum in Athletic Training III (must be taken twice) 6
- ATEP:3040 Clinical Sciences IV 3
- ATEP:4010 Administration of Athletic Training Programs 2
- HHP:3060 Advanced Human Anatomy for Athletic Trainers 4
ORTH:4187 Practicum in Athletic Training IV (must be taken twice) 8
PCOL:2120 Drugs: Their Nature, Action, and Use 2

One of these:
HHP:1300 Fundamentals of Human Physiology 3
HHP:3500 Human Physiology 3

One of these:
HHP:2310 Nutrition and Health 3
HHP:4440 Physiology of Nutrition 3

One of these:
HHP:2350 Biomechanics of Sport and Physical Activity 3
HHP:4220 Biomechanics of Human Motion 3

One of these:
HHP:3400 Applied Exercise Physiology 3
HHP:4410 Exercise Physiology 3

One of these:
HHP:2500 Psychological Aspects of Sport and Physical Activity 3
RCE:4199 Counseling for Related Professions 3

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Students entering the major in athletic training must be admitted to the major on schedule in order to complete the Four-Year Graduation Plan.

Before the fifth semester begins: nine courses in the major
Before the seventh semester begins: at least 90 s.h. earned toward the degree
Before the eighth semester: three more courses in the major (total of 12)
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Employment opportunities for graduates include work as health care professionals for sports medicine clinics, patient care settings, preventive care settings, industrial settings, and hospitals. Graduates often work with secondary school athletic teams. Additional education usually is required for employment with professional, college, and university athletic teams and for specialized positions in corporations, industry, and other areas. Teacher certification is recommended but not required.

Iowa's athletic training program has an outstanding placement rate. About half of its graduates are admitted to graduate or professional schools, while others are employed in hospitals or clinics. Typically, 100 percent of graduates are awarded graduate assistantships or find employment.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
# Human Physiology, B.S.

## Requirements

The Bachelor of Science with a major in human physiology requires a minimum of 120 s.h., including 60 s.h. of work for the major (29 s.h. in health and human physiology and 31 s.h. in required cognate courses). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The major in human physiology is designed primarily for individuals who intend to continue their education beyond the B.S. in the health professions, including medicine, dentistry, optometry, physician assistant, physical therapy, and podiatry, and for those who intend to pursue graduate degrees in basic life sciences.

Students may earn a Bachelor of Science degree with a major in human physiology or a Bachelor of Arts degree with a major in health and human physiology, but not both.

Students who major in human physiology may not earn the minor in human physiology or the minor in physical activity and nutrition science.

The B.S. with a major in human physiology requires the following course work.

<table>
<thead>
<tr>
<th>Human Physiology Courses</th>
<th>29</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cognate Area Courses</td>
<td>31</td>
</tr>
<tr>

</tbody>
</table>

## Human Physiology Courses

All of these:

- **HHP:1110** Human Anatomy Laboratory 1
- **HHP:1310** Human Physiology Laboratory 1
- **HHP:2200** Physical Activity and Health 3
- **HHP:3105** Anatomy for Human Physiology 3
- **HHP:3500** Human Physiology 3

At least 18 s.h. from these:

- **HHP:3110** Advanced Anatomy Laboratory 3
- **HHP:3300** Human Growth and Motor Development 3
- **HHP:3450** Immunology in Health and Disease 3
- **HHP:3900** Writing for Health and Human Physiology 3
- **HHP:4130** Skeletal Muscle Physiology 3
- **HHP:4150** Clinical Exercise Physiology 3
- **HHP:4200** Metabolic Exercise Testing and Prescription 4
- **HHP:4210** Musculoskeletal Exercise Testing and Prescription 4
- **HHP:4220** Biomechanics of Human Motion 3
- **HHP:4250** Human Pathophysiology 3
- **HHP:4260** Respiratory Pathophysiology 3
- **HHP:4410** Exercise Physiology 3
- **HHP:4440** Physiology of Nutrition 3
- **HHP:4450** Genetic Basis of Disease 3
- **HHP:4460** Cardiovascular Physiology 3
- **HHP:4465** Environmental Exercise Physiology 3
- **HHP:4470** Physiology of Aging 3
- **HHP:4480** Introduction to Human Pharmacology 3
- **HHP:4500** Undergraduate Independent Study 3
- **HHP:4510** Energy Metabolism in Health and Disease 3
- **HHP:4900** Honors Research II 3
- **BIOC:3110** Biochemistry 3
- **BIOC:2154** Endocrinology 3
- **BIOC:2512** Fundamental Genetics 4
- **BIOC:2603** Mechanisms of Aging 3
- **BIOC:2723** Cell Biology 3
- **BIOC:2753** Introduction to Neurobiology 3
- **BIOC:3233** Introduction to Developmental Biology 3
- **MICR:2157** General Microbiology 5
- **MICR:3168** Viruses and Human Disease 3
- **SOC:3510** Medical Sociology 3

## Cognate Areas

Students must earn a minimum of 31 s.h. in cognate areas—subjects outside of human physiology—by completing courses from the following lists.

### Biology

This sequence:

- **BIOL:1411** - **BIOL:1412**
  - Foundations of Biology - Diversity of Form and Function 8

### Chemistry

This sequence:

- **CHEM:1110** & **CHEM:1120**
  - Principles of Chemistry I-II 8

### Mathematics

One of these:

- **MATH:1460**
  - Calculus for the Biological Sciences 4
- **MATH:1550**
  - Engineering Mathematics I: Single Variable Calculus 4
- **MATH:1850**
  - Calculus I 4

### Physics

This sequence:

- **PHYS:1511** - **PHYS:1512**
  - College Physics I-II 8

### Statistics

One of these:

- **STAT:2010**
  - Statistical Methods and Computing 3
- **STAT:3510**
  - Biostatistics 3
- **STAT:4143** / **PSQF:4143**
  - Introduction to Statistical Methods 3

## Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major.

In order to graduate with honors in the major, students must successfully complete the honors research course sequence.
HHP:4800 Honors Research I and HHP:4900 Honors Research II; write an honors thesis that is deposited with the University of Iowa Honors Program and is judged to be of honors quality; and make an oral or poster presentation of the honors thesis in an approved venue, such as a department research seminar or professional conference.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** calculus and at least six more courses in the major

**Before the seventh semester begins:** at least six more courses in the major (total of 13) and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least two more courses in the major (total of 15)

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

#### Sample Four-Year Plan

**Human Physiology (B.S.)**

1. Or another calculus option, including MATH:1850 Calculus I.
2. Ten General Education courses are required, not including world languages. If world languages is required, additional courses should be added to this plan of study.
3. Highly recommended; required for admission to some graduate and professional schools; the lab may be delayed if necessary.
4. Additional advanced biology is recommended for professional school admission exams and professional school preparation; see health and human physiology major requirements for courses.

#### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Sport and Recreation Management, B.S.

Requirements

The Bachelor of Science with a major in sport and recreation management requires a minimum of 120 s.h., including 48 s.h. of work for the major (27 s.h. in sport and recreation management, 12 s.h. in supporting course work from other disciplines, and 9 s.h. in field experience). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The sport and recreation management major prepares students for leadership in meeting the challenges of sport. Its comprehensive curriculum uses an integrative business approach and provides a collaborative environment for learning how to analyze and resolve challenges in the business and culture of sport locally, nationally, and internationally.

The major is appropriate for students who want to work with sport and club teams, intercollegiate and high school athletic programs, international sport organizations, national and international amateur sport organizations, community recreation, and firms specializing in sport marketing, sport sponsorship, and commercial fitness businesses.

Students interested in sport and recreation management learn skills for organizing, planning, and budgeting in a variety of settings. They prepare for work in positions such as activities director, community recreation specialist, campus recreation professional, and program coordinator in a park or recreation department.

The major also provides a foundation for graduate study in sport or recreation management and related graduate degree programs.

Students who major in sport and recreation management may not earn the minor in human physiology, or the minor in physical activity and nutrition science, or the minor in sport and recreation management.

Online B.S.

The Department of Health and Human Physiology offers an online B.S. degree in health and human physiology with a major in sport and recreation management. Concentration areas available for the online degree include business studies, coaching and sport instruction, entrepreneurship, and interscholastic athletic/activities administration. The online program enables students to complete their B.S. degree from anywhere in the world. For more information, contact the Department of Health and Human Physiology.

The B.S. with a major in sport and recreation management requires the following course work.

| Foundation Courses | 27 |
| Field Experience   | 9  |
| Concentration Area Courses | 12 |
| Total Hours        | 48 |

Foundation Courses

- SRM:1060 Contemporary Issues in Sports 3
- SRM:3157 Managerial Issues in Sport and Recreation 3
- SRM:3175 Sales in Sport 3
- SRM:3178 Communications and Public Relations in Sports 3

Students must have completed 30 s.h. before they enroll in the following courses:

- SRM:3151 Liability in Sport and Recreation 3
- SRM:3152 Sport and Recreation Facility Management 3
- SRM:3153 Sport Business Practices 3
- SRM:3158 Sport and Recreation Promotion 3
- SRM:3172 Finance in Sport and Recreation 3

Field Experience

Students are required to complete 9 s.h. of field experience (consult the Office of Field Experience).

Field experience includes both guided and independent options. Guided experience sections are led by faculty who set learning objectives and outcomes with partner organizations. Courses have regular meeting times and faculty oversee and evaluate student engagement, participation, and completion.

Independent experience is student initiated with an approved sport or recreation affiliated organization. In consultation with the faculty and organization, a student sets the learning objectives for the duration of the experience. Faculty communicates with the student and site supervisor to evaluate student engagement, participation, and completion of learning objectives.

Students who earn a Certificate in Interscholastic Athletic/Activities Administration may apply a maximum of 3 s.h. of credit from SRM:4197 Sport and Recreation Field Experience from that certificate to the 9 s.h. field experience requirement of the sport and recreation management major.

Both guided and independent field experience credit is based on 45 hours of field experience for each semester hour earned.

- SRM:4197 Sport and Recreation Field Experience 1-9

Concentration Areas

Students must complete 12 s.h. in one of the following concentration areas: business studies; coaching and sport instruction; communications public relations/journalism; entrepreneurship; event management; interscholastic athletic/activities administration; sport and diversity; or the student-designed concentration. Some of these courses below have prerequisites; students must complete all of a course’s prerequisites before they may register for the course.

Business Studies Concentration

Business studies concentration students should select 12 s.h. from these:

- SRM:1085 Introduction to Travel and Tourism 3
- SRM:2065 The Experience Economy 3
### Coaching and Sport Instruction Concentration

Coaching and sport instruction concentration students should select 12 s.h. from these:

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

### Interscholastic Athletic/Activities Administration Concentration

Students who choose not to fulfill the requirements for the interscholastic athletic/activities administration concentration can earn the Certificate in Interscholastic Athletic/Activities Administration.

Students who earn the major in sport and recreation management with the interscholastic athletic/activities administration concentration and the Certificate in Interscholastic Athletic/Activities Administration may count no more than 6 s.h. earned from that concentration area toward the certificate. These students should review the requirements for the Certificate in Interscholastic Athletic/Activities Administration [p. 526] in the Catalog.

### Coaching Certification Process

University of Iowa students who want to complete the coaching concentration and who want to obtain an Iowa license must take a minimum of 55 hours of instruction and course work.

Students must take the following courses.
Communications Public Relations/Journalism Concentration

Communications public relations/journalism concentration students should select 12 s.h. from these:

- SRM:3300 Writing for Sport and Recreation Managers 3
- SRM:4198 NCAA Rules Compliance and Enforcement 3
- JMC:1100 Media Uses and Effects 3
- JMC:1200 Media History and Culture 3
- JMC:1500 Social Media Today 3
- JMC:2200 Principles of Strategic Communication 3
- JMC:3135 New Media and the Future of Sport 3
- JMC:3181 The Business of Sport Communication 3
- JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3
- JMC:3190 Classics of Sports Journalism: From Jack London to Grantland 3
- JMC:3400 Specialized Reporting and Writing 4
- JMC:3412 Strategic Communication Writing 4
- RHET:2085 Speaking Skills 3

Entrepreneurship Concentration

Students who choose not to fulfill the requirements for the entrepreneurship concentration can earn the Certificate in Entrepreneurial Management [p. 953] offered through the Tippie College of Business.

Entrepreneurship concentration students should select 12 s.h. from these:

- SRM:1085 Introduction to Travel and Tourism 3
- ECON:3690 Sports Economics 3
- ENTR:1350 Foundations in Entrepreneurship 2
- ENTR:2000 Entrepreneurship and Innovation 3
- ENTR:3100 Entrepreneurial Finance 3
- ENTR:3200 Entrepreneurial Marketing 3
- ENTR:3300 Legal Aspects of Entrepreneurship 3
- ENTR:3400 Strategic Management of Technology and Innovation 3
- ENTR:3500 Social Entrepreneurship 3
- ENTR:3595 Nonprofit Organizational Effectiveness I 3
- ENTR:4400 Managing the Growth Business 3
- ENTR:4450 Professional Sports Management 3

Event Management Concentration

Students who choose not to fulfill the requirements for the event management concentration can earn the Certificate in Event Planning.

No more than 6 s.h. may be applied to this concentration if also used toward the completion of the Certificate in Event Planning [p. 403]. In order to avoid duplication of course work beyond the allowed 6 s.h., students should take additional course work.

Both of these:

- SRM:3147 Sport Event Management 3
- SRM:3154 Foundations of Event Management 3

At least 6 s.h. from these:

- SRM:1085 Introduction to Travel and Tourism 3
- SRM:2065 The Experience Economy 3
- SRM:3300 Writing for Sport and Recreation Managers 3
- BUS:3800 Business Writing 3
- COMM:1809 Social Marketing Campaigns 3
- COMM:1816 Business and Professional Communication 3
- COMM:1818 Communication Skills for Leadership 3
- COMM:1819 Organizational Leadership 2-3
- ENTR:1350 Foundations in Entrepreneurship 2
- ENTR:2000 Entrepreneurship and Innovation 3
- ENTR:3500 Social Entrepreneurship 3
- ENTR:3600 E-Commerce Strategies for Entrepreneurs 3
- ENTR:4450 Professional Sports Management 3
- JMC:1500 Social Media Today 3
- JMC:2200 Principles of Strategic Communication 3
- JMC:3100 Fundraising and Philanthropy Communication 3
- JMC:3181 The Business of Sport Communication 3
- MKTG:3000 Introduction to Marketing Strategy 3
- MKTG:4275 Social Media Marketing 3

Sport and Diversity Concentration

Sport and diversity concentration students should select 12 s.h. from these:

- SRM:1072 Leisure and the Liberal Arts 3
- SRM:1085 Introduction to Travel and Tourism 3
- SRM:3300 Writing for Sport and Recreation Managers 3
- HHP:2500 Psychological Aspects of Sport and Physical Activity 3
Student-Designed Concentration

Students may develop a concentration by consulting an advisor in the sport and recreation management program. They must submit a written proposal to a faculty committee for consideration. The proposal should provide a rationale for, and description of, the student-designed concentration. It must be submitted to the committee and approved before the start of the semester in which the student wishes to use the concentration for graduation.

The concentration requires at least 12 s.h. of course work. Self-designed concentrations may not include course work that was used to complete general education or field experience requirements.

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major.

In order to graduate with honors, students must successfully complete SRM:4194 Honors Readings and SRM:4195 Honors Problems, or TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project's results.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: four foundation courses, at least 3 s.h. in the concentration area, and 3 s.h. in SRM:4197 Sport and Recreation Field Experience

Before the seventh semester begins: two more foundation courses (total of six), an additional 6 s.h. in the concentration area, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two more foundation courses (total of eight), an additional 3 s.h. of SRM:4197 Sport and Recreation Field Experience, and one remaining concentration area course (3 s.h.)

During the eighth semester: enrollment in final 3 s.h. of SRM:4197 Sport and Recreation Field Experience, all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Total Hours** 119-123

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]
2. Students may use their elective courses to complete a double major, minors, or certificates.
3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

Sport and recreation management majors find employment in municipal recreation, campus recreation, college athletic administration, private clubs, non-profit organizations, armed forces recreation, professional sport organizations, commercial fitness businesses, and in firms specializing in sport marketing or sport sponsorship.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Therapeutic Recreation, B.S.

Requirements

The Bachelor of Science with a major in therapeutic recreation requires a minimum of 120 s.h., including 66-67 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The therapeutic recreation program prepares students for professional work with persons who have disabilities, impairments, and illnesses. The major's track emphasizes the use of a systematic process of assessment, planning, implementation, and evaluation in order to provide recreation, leisure, and play activities to individuals and populations.

Therapeutic recreation is a health-oriented field that involves providing recreation programs designed to improve or maintain the physical, emotional, mental, and social functioning of patients and consumers. Therapeutic services involve a continuum of care that uses recreational activities to improve functional abilities; leisure education to help individuals acquire skills, knowledge, and attitudes that facilitate an independent lifestyle; and other activities to enhance health, growth, development, and independence through intrinsically rewarding leisure behavior. Inclusive recreation provides opportunities for people with all abilities and disabilities to participate together in therapeutic recreation programs based on choice and common interests.

Professionals in the therapeutic recreation field are commonly employed in settings such as skilled nursing facilities, community recreation departments, state and community mental health institutions, general hospitals, physical rehabilitation centers, special recreation districts, correctional facilities, senior centers, facilities for persons with intellectual disabilities or mental illness, and substance-abuse programs.

Admission is selective; students must apply and be admitted. Before students who apply are admitted, they must complete 24 s.h. at the University of Iowa (or 12 s.h. for transfer students), including the courses listed under “Admission Prerequisites” below. Applicants must have a University of Iowa g.p.a. of at least 2.50 and a cumulative g.p.a. of at least 2.50; students with lower grade-point averages may apply for exceptional admission.

Applicants for admission should use the application form on the Department of Health and Human Physiology website. Completed applications must be submitted by October 15 for admission the following spring or by March 15 for admission the following fall.

Students who complete the curriculum, including the therapeutic recreation internship, are eligible to sit for the National Council for Therapeutic Recreation certification exam. Successful completion of the exam confers the Certified Therapeutic Recreation Specialist (CTRS) credential.

The B.S. with a major in therapeutic recreation requires the following course work.

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain an overall g.p.a. of at least 3.33 in work for their major.
In order to graduate with honors, students must successfully complete TR:4194 Honors Readings and TR:4195 Honors Problems, in which they conduct a reading or research project under the supervision of a faculty member in their major and write a paper summarizing the project’s results.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

**Joint B.S./M.S.**

The Department of Health and Human Physiology offers the joint Bachelor of Science with a major in therapeutic recreation/Master of Science in health and human physiology with a subprogram in child life. The program allows qualified students to begin work toward a master's degree while they complete their bachelor's degree. The joint program permits students to count certain courses toward both degrees, completing them in less time than they would need to complete each degree separately.

The program, which is completed in five years, is designed for students who wish to pursue a career providing services to children and their families, primarily in the health care field. Graduates are eligible to be credentialed professionals in both therapeutic recreation (certified therapeutic recreation specialist) and child life (certified child life specialist). They fill positions such as child life specialist, activity director, or administrative positions.

Students enroll in the College of Liberal Arts for their first three years in the program, enroll in the College of Liberal Arts and the Graduate College in their fourth year, and only in the Graduate College in their fifth year. They follow the standard curriculum of their B.S. degree with a major in therapeutic recreation program during the first two years and complete all the prerequisite courses for the M.S. degree in health and human physiology with a subprogram in child life during the third year. Successful students receive a B.S. at the end of the fourth year and an M.S. at the end of the fifth year.

Applicants to the joint program must:

- be enrolled as a B.S. student majoring in therapeutic recreation at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the joint program, with at least 30 s.h. earned at the University of Iowa;
- have completed all general education requirements, all prerequisites, all major therapeutic recreation requirements; and
- have a cumulative University of Iowa g.p.a. of at least 3.25.

Applicants must submit a letter of application to the program that includes a statement of purpose, a résumé to document a minimum of 100 hours of paid or volunteer experience in a child life and/or pediatric health care setting, and three letters of recommendation (with at least one from a certified child life specialist).

Each application is reviewed by the program and requires support from the applicant’s undergraduate advisor. Recommendations for approval will be sent to the Office of Graduate Admissions. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

For more information about applying to the joint program, contact the therapeutic recreation and child life programs in the Department of Health and Human Physiology.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins**: all core courses and at least one foundation course

**Before the seventh semester begins**: two more foundation courses (total of three), 3 s.h. of supporting course work, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins**: two more foundation courses (total of five) and the remaining supporting course work

**During the eighth semester**: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]
2 Students may use their elective courses to complete a double major, minors, or certificates.
3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Career Advancement
Therapeutic recreation graduates find jobs in a variety of settings. The majority of children’s hospitals and pediatric units in other health care facilities employ child life specialists to address cognitive, social, and psychological issues associated with child illness and hospitalization. Child life specialists also work in rehabilitation centers, private practice and consulting, school systems, special-purpose camps, and hospice.

Therapeutic recreation professionals are employed in settings such as skilled nursing facilities, community recreation centers, state and community mental health institutions, general medical hospitals, physical rehabilitation centers, special recreation districts, correctional facilities, senior centers, facilities for the mentally delayed or emotionally disturbed, and substance-abuse programs.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Human Physiology, Minor

The minor in human physiology requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including 12 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Transfer credit does not count toward the minor.

Students who earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology or athletic training may not earn the minor in human physiology.

Students choose courses for the minor from the following list. Enrollment in HHP:3510 Advanced Human Physiology Laboratory and HHP:4220 Biomechanics of Human Motion requires special permission. Some of these courses have prerequisites; students must complete all of a course’s prerequisites before they may register for the course.

Physical Activity and Nutrition Science, Minor

The minor in physical activity and nutrition science requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa in courses offered by the Department of Health and Human Physiology. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students who earn a Bachelor of Arts degree with a major in health and human physiology or a Bachelor of Science degree with a major in human physiology or athletic training may not earn the minor in physical activity and nutrition science.

The minor in physical activity and nutrition science is designed in conjunction with the Obesity Research and Education initiative. The minor provides a specialized group of courses that unify concepts underlying the causes, consequences, treatment, and prevention of obesity, with attention to physical activity, nutrition, physiology, psychology, and human disease. Students who earn the minor will be prepared to apply their knowledge in areas such as clinical health professions, public health policy, personal coaching and fitness, health psychology, and health promotion.

For the minor, students complete three core courses plus two elective courses that focus on various facets of obesity and on its treatment and prevention. One of the core courses and both of the elective courses are at the intermediate or advanced level. Students choose electives in consultation with an undergraduate advisor. Some courses for the minor have prerequisites; students must complete all of a course’s prerequisites before they may register for the course.

The minor in physical activity and nutrition science requires the following course work.

### Core Courses

Sport and Recreation Management, Minor

The minor in sport and recreation management requires a minimum of 15 s.h. in Department of Health and Human Physiology courses, including at least 12 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 3 s.h. of transfer credit may be accepted toward the minor with the approval of the sport and recreation management steering committee.

Students who earn a Bachelor of Science degree with a major in sport and recreation management may not earn the minor in sport and recreation management.

Students take 15 s.h., with at least 12 s.h. in course work numbered 3000 or above, from the following:

Interscholastic Athletic/Activities Administration, Certificate

The Certificate in Interscholastic Athletic/Activities Administration provides undergraduate students an opportunity to focus a segment of their studies on extracurricular activities at the interscholastic level. The program provides experiential learning and networking prospects along with academic course work.

The world of interscholastic athletics has become increasingly competitive and commercialized. The certificate will aid marketability for students as they enter the job market. Students will be prepared to enter a school district with preparation to succeed in athletic/activities administration roles.

Completion of the certificate encourages these student outcomes:

- the capability to summarize the history of the position and the development of interscholastic athletics;
- the ability to utilize management techniques to develop and maintain facilities, to plan and oversee financially sustainable events, to transfer practical experience into improved employment opportunities, to carry out effective and appropriate marketing, communication, and fundraising campaigns;
- the proficiency to recognize and establish liability protections in programming; and
- the facility to formulate effective program and coach assessment/evaluation.

The Certificate in Interscholastic Athletic/Activities Administration requires a minimum of 21 s.h. The certificate may be earned by any undergraduate student admitted to the University of Iowa and by all individuals who are not concurrently enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Some courses below have prerequisites; students must complete all of a course’s prerequisites before they may register for the course.

Students who earn the Certificate in Interscholastic Athletic/Activities Administration and the major in sport and recreation management with the interscholastic athletic/activities administration concentration may count no more than 6 s.h. earned from that concentration area toward the certificate.

The Certificate in Interscholastic Athletic/Activities Administration requires the following course work.

Leisure Studies, M.A.

Requirements

The Master of Arts program in leisure studies requires a minimum of 33 s.h. of graduate credit with thesis or 36 s.h. of graduate credit without thesis. Students choose one of two specialization areas—leisure and recreational sport management or therapeutic recreation—and must satisfy the prerequisites required for their areas. Work for each specialization area includes core requirements and area courses.

Leisure and Recreational Sport Management Specialization

The leisure and recreational sport management specialization prepares students for positions in public and private recreation and sport management. Students typically find employment in community or municipal recreation programs, campus recreation programs, or commercial recreation and sport operations.

The leisure and recreational sport management specialization requires the following course work.

<table>

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Application deadline is February 1 for admission the following fall semester.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
The Master of Science program in health and human physiology requires 30-36 s.h. of graduate credit. Required credit varies by track: the athletic training track requires a minimum of 30 s.h. and is offered without thesis; the child life track requires a minimum of 36 s.h. and is offered without thesis; the clinical exercise physiology track requires a minimum of 32 s.h. and is offered without thesis; the health and human physiology track requires a minimum of 30 s.h. and is offered with thesis.

Students interested in pursuing a Ph.D. after earning a master's degree should choose the M.S. health and human physiology track (with thesis).

**Athletic Training Track**

The athletic training track provides an advanced clinical education and research area of study for certified athletic trainers. It focuses on a health care team approach to sports medicine, medical care management, wellness, pediatric/adolescent health, and special health populations. The program emphasizes application of established research findings to the wide variety of problems encountered in everyday practice.

In order to be admitted to the program, athletic trainers must have completed the following prerequisite course work and must hold the following certifications:

- anatomy (3-4 s.h.);
- human physiology (3 s.h.);
- athletic training core—prevention (3 s.h.), evaluation and recognition (3 s.h.), modalities (3 s.h.), rehabilitation (3 s.h.), administrative (2 s.h.);
- exercise science core—exercise physiology (3 s.h.), biomechanics (3 s.h.);
- current emergency certification; and
- Board of Certification (BOC) certification and state license.

The Master of Science with the athletic training track requires the following course work.

**Statistics Core**

BIOS:4120 Introduction to Biostatistics 3
or STAT:4143 Introduction to Statistical Methods

**Exercise Science Core**

Three of these (9 s.h.):

- HHP:3110 Advanced Anatomy Laboratory 3
- HHP:4130 Skeletal Muscle Physiology 3
- HHP:4150 Clinical Exercise Physiology 3
- HHP:4220 Biomechanics of Human Motion 3
- HHP:4300 Neural Control of Posture and Movement 3
- HHP:4310 Sport and Exercise Nutrition 3
- HHP:4410 Exercise Physiology 3
- HHP:4440 Physiology of Nutrition 3
- HHP:4450 Genetic Basis of Disease 3
- HHP:4460 Cardiovascular Physiology 3
- HHP:4470 Physiology of Aging 3
- HHP:4480 Introduction to Human Pharmacology 3

**Clinical Research Tools**

One approved clinical tool course in computer science, counseling, epidemiology, health promotion, leisure studies, nursing, or pathology

**Athletic Training Core**

All of these:

- HHP:5000 Problems 2
- HHP:6010 Non-Thesis Seminar 2
- HHP:7000 Practicum in College Teaching 2-3

One of these:

- EPID:4400 Epidemiology I: Principles 3
- PATH:8133 Introduction to Human Pathology for Graduate Students 4

**Electives**

Students choose elective courses that enhance their concentration in medical care management, wellness, pediatric/adolescent health, or special health populations; course selection must be approved by the advisor.

**Child Life Track**

The child life track provides expertise in child development through services to support families and to promote children’s mastery of life experiences, particularly children’s health care events. Professionals in this area enhance effective coping skills through play, education, communication, and family-centered care. The program prepares students to meet credentialing requirements. For more information about the profession, visit the Child Life Council.

In order to be admitted to the program, students must:

- hold a B.S. or B.A. with a g.p.a. of at least 3.00;
- have completed one course each in human anatomy, medical terminology, and growth and development;
- have verification of 100 hours of paid or volunteer experience in child life or in a pediatric setting; and
- three letters of recommendation, with at least one from a credentialed child life specialist.

Students who have not completed an introductory course in child life must enroll in TR:1077 Introduction to Child Life during their first semester. For student applicants whose first language is not English, applications must be accompanied by Test of English as a Foreign Language (TOEFL) scores.
The Master of Science with the child life track requires the following course work.

### Core Courses
All of these:
- **EDTL:3114** Parent-Child Relationships 3
- **PSQF:4143** Introduction to Statistical Methods 3
- **SSW:3786** Death/Dying: Issues Across the Life Span 3
- **TR:5165** Child Life: Methods and Materials 3
- **TR:5166** Child Life: Seminar 3
- **TR:5167** Child Life Practicum 3
- **TR:5205** Research Methods and Leisure Behavior 3
- **TR:5211** Professional Ethics and Practice in Pediatrics 3
- **TR:5260** Play and Childhood 3

### Internship
The supervised internship requires 480-600 contact hours with a credentialed child life specialist:
- **TR:4192** Child Life Internship 9

---

### Clinical Exercise Physiology Track
The clinical exercise physiology track provides an advanced scientific and clinical education. It prepares students to be allied health professionals who work in the application of physical activity and behavioral interventions for clinical diseases and health conditions including cardiovascular, pulmonary, metabolic, orthopaedic, neuromuscular, immunologic, and hemoglobin diseases.

In order to be admitted to the program, students must:
- hold a B.S. or B.A. with a g.p.a. of at least 3.00; and
- have completed anatomy and physiology with laboratory (8 s.h.).

The Master of Science with the clinical exercise physiology track requires the following course work.

### Statistics Core
One of these (or equivalent):
- **STAT:3510** Biostatistics 3
- **BIOS:4120** Introduction to Biostatistics 3
- **STAT:4143** Introduction to Statistical Methods 3

### Advanced Statistics
One of these (or equivalent):
- **BIOS:5120** Regression Modeling and ANOVA in the Health Sciences 3
- **STAT:6513** Intermediate Statistical Methods 4

### Clinical Exercise Physiology Core
All of these:
- **HHP:6480** Advanced Human Pharmacology 3
- Two enrollments (1 s.h. each) chosen from these:
  - **HHP:6300** Seminar in Motor Control 1
  - **HHP:6400** Integrative Physiology Seminar 1
  - **HHP:6500** Seminar in Health Promotion 1

### Internship
Students complete an individually arranged internship, usually during their second year, earning 3 s.h. of credit

### Electives
Students choose elective courses that enhance their concentration in human and exercise physiology, clinical exercise physiology, prescriptive exercise and training for health and fitness, health maintenance, and understanding human disease; select at least two courses from the following, with advisor's approval:
- **HHP:4400** Health Promotion Clinical Practicum 1
- **HHP:4405** Health Promotion Community and Worksite Practicum 1
- **HHP:4420** Planning and Evaluating Health Interventions 3
- **HHP:6050** Advanced Topics in Obesity 3
- **HHP:6130** Advanced Skeletal Muscle Physiology 1-3
- **HHP:6470** Advanced Physiology of Aging 3
- **HHP:6510** Advanced Energy Metabolism in Health & Disease 1-3
- **HHP:7300** Advanced Neural Control of Posture and Movement 1-3
- **ACB:5203** Gross Human Anatomy for Graduate Students 5
- **BIOL:3743** Basic Biology of Human Disease 2
- **EPID:6350** Nutritional Epidemiology 2
- **EPID:6650** Cardiovascular Disease Epidemiology 3
- **EPID:6360** Nutrition Intervention in Clinical Trials Research 2
- **PSY:3010** Health Psychology 3
- **PSY:3340** Behavior Modification 3
- **PTRS:6224** Activity-Based Neural and Musculoskeletal Plasticity in Health Care 4
- **PTRS:7812** Biomedical Instrumentation and Measurement 3
- **PTRS:7875** Analysis of Activity-Based Neural and Musculoskeletal Plasticity 3

### Health and Human Physiology Track
The health and human physiology track requires a thesis. Students who intend to earn a Ph.D. after the master's degree should choose this track. In order to be admitted to the program, students must:
- hold a B.S. or B.A. with a g.p.a. of at least 3.00; and
- have completed courses in anatomy and physiology with laboratory (8 s.h.) and basic physics (3 s.h.).
The Master of Science with the health and human physiology track requires the following course work.

### Advanced Statistics
One of these:
- BIOS:5120 Regression Modeling and ANOVA in the Health Sciences 3
- EPID:5241 Statistical Methods in Epidemiology 4
- STAT:6513 Intermediate Statistical Methods 4

### Research Methods
One of these:
- TR:5205 Research Methods and Leisure Behavior 3
- EALL:5150 Introduction to Educational Research 3
- PSQF:6220 Quantitative Educational Research Methodologies 3

### Seminar Courses
Two enrollments (1 s.h. each) chosen from these:
- HHP:6300 Seminar in Motor Control 1
- HHP:6400 Integrative Physiology Seminar 1
- HHP:6500 Seminar in Health Promotion 1

### Electives
Students choose elective courses that broaden their knowledge in health and human physiology and related disciplines, and enhance their knowledge in their specific areas of interest, with guidance from their advisor/mentor; electives may include the following:
- HHP:5000 Problems arr.
- HHP:6000 Research arr.
- HHP:6050 Advanced Topics in Obesity 3
- HHP:6130 Advanced Skeletal Muscle Physiology 1-3
- HHP:6150 Advanced Clinical Exercise Physiology 1-3
- HHP:6200 Advanced Metabolic Exercise Testing and Prescription 3
- HHP:6410 Advanced Exercise Physiology 3
- HHP:6460 Advanced Cardiovascular Physiology 1-3
- HHP:6470 Advanced Physiology of Aging 3
- HHP:6480 Advanced Human Pharmacology 3
- HHP:6510 Advanced Energy Metabolism in Health & Disease 1-3
- HHP:7300 Advanced Neural Control of Posture and Movement 1-3
- ACB:5203 Gross Human Anatomy for Graduate Students 5
- BIOC:3110 Biochemistry 3
- EPID:4400 Epidemiology I: Principles 3
- EPID:6350 Nutritional Epidemiology 2
- EPID:6400 Epidemiology II: Advanced Methods 4
- EPID:6600 Epidemiology of Chronic Diseases 3
- MPB:5153 Graduate Physiology 4

### Thesis
This course:
- HHP:7500 Thesis: M.S. 4

### Admission
Admission to the department’s graduate programs is based on grade-point average and score on the Graduate Record Examination (GRE) General Test. Applicants to the M.S. program must have an undergraduate g.p.a. of at least 3.00.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Application deadline is February 1 for admission the following fall.

### Career Advancement
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

| PTRS:7812 | Biomedical Instrumentation and Measurement | 3 |
| PTRS:7875 | Analysis of Activity-Based Neural and Musculoskeletal Plasticity | 3 |
Health and Human Physiology, Ph.D.

Requirements

The Doctor of Philosophy program in health and human physiology requires a minimum of 72 s.h. of graduate credit.

Doctoral students should have a strong background in the natural sciences and/or health promotion, and a working knowledge of statistics and research methodology. Students may acquire additional knowledge of statistics and research methodology after entering the program.

All Ph.D. students complete a common core of courses, elective courses, and 10 s.h. of independent research in addition to the 12 s.h. dissertation requirement. They must complete a dissertation in their specialization area.

Some courses in the program are offered by other departments. Faculty members from those departments frequently serve on comprehensive examination committees and on dissertation committees for the initial presentation of a candidate’s prospectus. They also participate in the final examination.

The Doctor of Philosophy requires the following course work.

Common Core

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Admission

Admission to the graduate program is based on grade-point average and score on the Graduate Record Examination (GRE) General Test. Applicants to the Ph.D. program must have a
g.p.a. of at least 3.00 on undergraduate work and previous graduate work.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Application deadline is February 1 for admission the following fall.

**Career Advancement**

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
History

Chair
- Elizabeth Heineman

Director, Graduate Studies
- Michaela Hoenicke Moore

Director, Undergraduate Studies
- Jacki Rand

Undergraduate major: history (B.A.)
Undergraduate minor: history
Graduate degrees: M.A. in history; Ph.D. in history
Faculty: https://clas.uiowa.edu/history/people/
Website: https://clas.uiowa.edu/history/

The Department of History’s purpose is to increase knowledge of human experience and provide students with opportunities to gain information about and learn methods for understanding their world in light of its past. In addition to offering these essential elements of a liberal education, the department trains professional historians and teachers of history and serves those who require knowledge of a period or aspect of history as background for their own specialized interests in other fields.

Faculty and students in the department participate in many of the University's interdisciplinary departments and programs, including American studies, African American studies, American Indian and native studies, ancient civilizations, Asian studies, international studies, Latin American studies, Latina/o studies, and gender, women's, and sexuality studies.

In addition to the undergraduate and graduate programs offered by the Department of History, many history courses are approved for the General Education Program. Look for courses with prefix HIST under "Historical Perspectives," "International and Global Issues," and "Values, Society, and Diversity" in the General Education Program. History courses approved for General Education may not be taken pass/nonpass, even when they are taken as electives.

Facilities

University of Iowa Libraries has unusual strength in all aspects of U.S. history. The Main Library houses the Henry A. Wallace papers and related collections, the Iowa Women's Archives, and other unique materials. In European history, special strengths include the fine collections of French and English materials. Special Collections has a vast archive of both printed and digitized materials. The State Historical Society of Iowa in Iowa City and the Herbert Hoover Presidential Library and Museum in West Branch also hold valuable research materials.

Courses

History majors should take HIST:2151 Introduction to the History Major during their sophomore year or the first semester after they declare the major.

History Courses

HIST:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

HIST:1001 CLAS Master Class 1-3 s.h.

HIST:1002 Issues in Medieval Society 3 s.h.
GE: Historical Perspectives.

HIST:1004 Issues in Human History: Communities and Society in History 3 s.h.
GE: Historical Perspectives.

HIST:1006 Issues: Nature and Society in Historical Perspective 3 s.h.
GE: Historical Perspectives.

HIST:1008 Issues in European Politics and Society 3 s.h.
GE: Historical Perspectives.

HIST:1010 Issues in Human History: Gender in Historical Perspective 3 s.h.
GE: Historical Perspectives.

HIST:1012 Issues in Human History: Europe’s Expansion Overseas 3 s.h.
GE: Historical Perspectives.

HIST:1014 Issues: Twentieth-Century Crisis 3 s.h.
GE: Historical Perspectives.

HIST:1016 Issues in Human History: The Vietnam War in Historical Perspective 3 s.h.
GE: Historical Perspectives; International and Global Issues.

HIST:1040 Perspectives: Diversity in American History 3 s.h.
People, cultures, behaviors, and values that have shaped American society and its past. GE: Values, Society, and Diversity.
HIST:1101 The Modern World 3 s.h.
How did today's globalized world come to be? Which aspects of globalization are new and which are inherited from the past? Taking a long-term perspective, this course traces the development and acceleration of global interdependence since the 14th century; how far-flung parts of the globe have been linked to one another, how long-distance connections affected the societies involved, and how individuals have experienced and contributed to such global networks; students develop an understanding of globalization's long history leading up to the present and of their place in contemporary global networks.

HIST:1115 Big Ideas: The History and Science of Oil 3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, ENV5:1115, GEOG:1115.

HIST:1119 Big Ideas: Equality, Opportunity, and Public Policy in America 3 s.h.
Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as SOC:1119.

HIST:1130 Introduction to Islamic Civilization 3 s.h.
Major areas of Islamic religious tradition: Qur’an, traditions of the Prophet, development and character of Islamic law, theology. GE: International and Global Issues; Values, Society, and Diversity. Same as RELS:1130.

HIST:1219 Big Ideas: Equality, Opportunity, and Public Policy in America 3 s.h.
Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as SOC:1219.

HIST:1261 American History to 1877 3 s.h.
America before European colonization; encounters between Native Americans, Europeans, and Africans in North America; the rise and decline of European imperial powers; the independence and expansion of the American republic; economic, political, and social change from the American Revolutionary era through Civil War and Reconstruction. GE: Historical Perspectives.

HIST:1262 American History 1877-Present 3 s.h.
America since Civil War and Reconstruction; politics, society, and culture from the post-Civil War decades through the Progressive Era, the Great Depression, and two world wars; the "Cold War" with Soviet communism abroad and at home, social protest movements and their influence on electoral politics, and the evolving economic and political role of U.S. in the world. GE: Historical Perspectives.

HIST:1401 Western Civilization I 3-4 s.h.
Ancient history. GE: Historical Perspectives.

HIST:1402 Western Civilization II 3-4 s.h.
Medieval history. GE: Historical Perspectives.

HIST:1403 Western Civilization III 3-4 s.h.
Modern history. GE: Historical Perspectives; International and Global Issues.

HIST:1425 Medieval Religion and Culture 3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as RELS:1225.

HIST:1450 Modern Religion and Culture 3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as RELS:1250.

HIST:1602 Civilizations of Asia: China 3 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA:1602.

HIST:1604 Civilizations of Asia: Japan 3-4 s.h.
GE: Historical Perspectives; International and Global Issues. Same as ASIA:1604.

HIST:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as ASIA:1606.

HIST:1708 Civilizations of Africa 3 s.h.
Introduction to the study of Africa; brief survey of African history; aspects of modern African life, including political and social issues, economic and health problems (including HIV/AIDS); classroom discussion of selected African films and assigned African novels. GE: Values, Society, and Diversity.

HIST:2120 World History: Stone Age to Feudal Age 3 s.h.
World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as IS:2120.

HIST:2122 World History: Feudal Age to Nuclear Age 3 s.h.
World history from the late 1400s to 1945; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as IS:2122.

HIST:2151 Introduction to the History Major 3 s.h.
Requirements: history major.

HIST:2195 Digital History Workshop 3-4 s.h.
Introduction to use of new media in historical research and writing; web-based publishing and blogging; photo, text, and video editing; digital mapping; curation of digital resources; projects may include short documentary videos, web development, mapping projects, or collaborative curation (identifying, digitizing, annotating artifacts or documents from University collections) in collaboration with University of Iowa Libraries Digital Research & Publishing.
HIST:2265 Introduction to African American History 3 s.h.
GE: Values, Society, and Diversity. Same as AFAM:2265.

HIST:2266 Civil War and Reconstruction 3 s.h.

HIST:2280 Introduction to Latina/o Studies 3 s.h.
Introduction to field of Latina/o studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o populations (Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Same as LATS:2280, SPAN:2280.

HIST:2288 Introduction to Mexican American History 3 s.h.
Introduction to major themes in Mexican American history from the 18th century to the present; settlement of Mexico’s Far North by Spanish Mexican residents, their incorporation into the United States after a war of conquest, and the growth of Mexican Americans into the nation’s largest Latino group. GE: Values, Society, and Diversity.

HIST:2290 Food and Culture in Indian Country 3 s.h.
Native Americans as original farmers of 46 percent of the world's table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AINS:2290, AMST:2290, GHS:2290.

HIST:2420 Germany in the World 3-4 s.h.

HIST:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as CLSA:2461, RELS:2361.

HIST:2462 Middle East and Mediterranean: Saladin to Napoleon 3 s.h.
Complement to HIST:2461; Mediterranean world from the age of Saladin (12th century) to Napoleon (early 19th century); history and imaginations of the relationship between Europe and the Middle East.

HIST:2465 Europe Since 1945 3 s.h.
Europe since World War II: recovery, cold war, social and economic change, global perspectives.

HIST:2483 History of Britain: Fall of Rome to the Norman Conquest 3 s.h.
History of Britain from fall of Rome (after 410) and through Anglo-Saxon era, until Norman Conquest of 1066; Anglo-Saxon kings and kingdoms, church and society; poetry, historical writings, archaeology.

HIST:2607 Civilizations of Asia: Korea 3-4 s.h.
Introduction to Korean history and culture; how meanings of "Korea" and "Koreans" changed from ancient times to present; relevant issues of politics, society, and culture; events that shaped ancient Korean states—Koryo state (918-1392), the Choson dynasty (1392-1910), Japanese colonization (1910-1945), and the two Koreas (1945-present); how present perspectives on Korea have influenced understandings of its past. GE: Historical Perspectives; International and Global Issues.

HIST:2609 India Now! A Survey from Bollywood Films to Global Terror 3-4 s.h.
Experience of change on adaptations made by India to global conditions in the last 50 years, and on contemporary Indian contributions to global conditions and culture; India environmentalism, Bollywood films and world music, celebrity culture and Nobel prizes, Gandhian activism, economic performance, the explosion of cricket, the place of English language, social movements among women and Untouchables, the Indian diaspora abroad, internal dissent, and the Indian war on terror. GE: Values, Society, and Diversity.

HIST:2687 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as ASIA:2887.

HIST:3101 History Internship 3-6 s.h.
Internship involving historical work. Requirements: consent of director of undergraduate studies and Pomerantz Career Center.

HIST:3105 International Events in Historical Context 3 s.h.
Current world events in themselves and as they enter into 2012 U.S. elections; daily readings of The New York Times; selective utilization of other news media, including daily newspapers (Wall Street Journal, Washington Post), major foreign newspapers, periodicals (Foreign Affairs, Foreign Policy), and electronic news media, including network and cable television news programs; gain understanding of the historical background of world events and how these events shape U.S. party politics.

HIST:3125 Gender, Race, and Citizenship in North and South America 3 s.h.
Interaction between race, gender, and citizenship throughout the 18th, 19th, and 20th centuries in North and South America; comparative study of how men and women engaged in the practice of citizenship; analysis of primary sources and identification of similarities and differences in gender norms and race; how these factors influence the rights, duties, and obligations of citizenship across time and location. Same as GWSS:3525.

HIST:3126 History of Globalization 3 s.h.
Broad overview of globalization in modern world history; focus on evolution of international business, world economy, interstate system, and cultural interchange in 19th and 20th centuries; long-distance trade and exchange; global economy under British Empire; globalization after 1945 following a 30-year period of nationalism, war, and depression; global market integration in late 20th century under American supremacy.
HIST:3140 Cooperation in World History 3 s.h.
Origins and role of human cooperation in world history, from human evolution to present; basic evolutionary theory, origins of humans, character of human nature, emergence of human cooperation, human cooperation in comparative zoological perspective; evolution of cooperative institutions such as family, tribe, market, state, mass religion, science, Internet.

HIST:3143 International Politics: The History of the Present 3-4 s.h.
Historical approach to international relations; comprehensive overview of key developments and concepts in history of international politics.

HIST:3145 Europe and the U.S. in the Twentieth Century 3 s.h.
United States-European transatlantic relationship over 20th century in historical perspective; sense of common heritage transformed into program of political purpose; alliances in defense of a shared civilization (the West) challenged by nations and ideologies from Wilhelmine Empire to Nazi Germany and from U.S.S.R. to Islamist groups; reluctant American involvement in Europe, East European claims of inclusion, mutual frustrations and suspicions, differences in interpreting shared tradition; diverging concepts of security, legitimacy, sovereignty, and history lessons underscored by U.S. role as sole superpower and European Union experiment in integration.

HIST:3155 The World Since 1945 3 s.h.
HIST:3157 Gender, Sexuality, and Human Rights 3 s.h.
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as GWSS:3157.

HIST:3190 Medieval to Modern: The Birth of Protestantism 3 s.h.
Same as RELS:3190.

HIST:3191 Individual Study: Undergraduate arr.
HIST:3193 Undergraduate History Portfolio 0 s.h.
Submission of required history portfolio. Requirements: history major and senior standing.

HIST:3202 Introduction to American Indian History and Policy 3 s.h.
Survey of relationships among American Indian tribes, the United States government, and the American settler society; consequences of contact and colonialism through the study of an individual tribe, the impacts of U.S. federal policy and settler colonialism on tribal communities, and how tribes responded variously to these challenges. Same as AINS:3002.

HIST:3211 Native North America I: Precontact-1789 3 s.h.
Same as AINS:3211.

HIST:3212 Native North America II: 1789-Present 3 s.h.
Same as AINS:3212.

HIST:3230 American Environmental History 3 s.h.
Introduction to environmental change in American history; human-nature interactions from colonial period to recent past; food and agriculture, industrial technologies and transportation, energy production and consumption, urbanization and sprawl, public lands and public works, environmental politics and law, toxic pollution and health, natural disasters, climate change.

HIST:3232 History of American Inequality 3 s.h.
Survey of causes and consequences of inequality in modern American history.

HIST:3254 Sexuality in the United States 3 s.h.
Same as GWSS:3154.

HIST:3360 American Economic History 3 s.h.
Prerequisites: (ECON:1100 and ECON:1200) or (ECON:1100 and HIST:2261). Same as ECON:3250.

HIST:3409 Medieval Civilization I 3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as MDVL:3409.

HIST:3410 Medieval Civilization II 3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. GE: Historical Perspectives. Same as MDVL:3410.

HIST:3412 Medieval Philosophy 3 s.h.
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as PHIL:3112.

HIST:3436 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as CLSA:3836.

HIST:3451 Roman Law 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as CLSA:3151, LAW:8825.

HIST:3485 Early Modern Catholicism 3 s.h.
Same as RELS:3385.

HIST:3491 Roman Law 3 s.h.
In-depth introduction to the life, ideas, and ongoing impact of Mohandas Karamchand Gandhi (1869-1948); from his conservative upbringing to his early career as a lawyer, his transformative experiences, and self-transformation into a charismatic mahatma (“great soul”), the pursuit of political and social liberation through non-violent civil disobedience, the assertion of human rights, and the quest for sustainable lifestyles that uphold the common good and protect the natural environment; evolution of Gandhi’s thought and activism and his legacy. Same as RELS:3644.

HIST:3745 Islam in Africa 4 s.h.
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as IS:3745, RELS:3845.
HIST:3755 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, IS:3555.

HIST:3995 History Honors Research Seminar 0-3 s.h.

HIST:3996 Honors Thesis 3 s.h.
Individual research and writing under supervision of faculty member; occasional group sessions with other students in the course.

HIST:4100 Historical Background of Contemporary Issues arr.

HIST:4101 History of Human Rights 3 s.h.
Survey of human rights literature, authored by historian Kenneth Cmiel; examination of legal-philosophical origins and changing meanings of human rights; human rights activism and social justice movements; creation of international human rights organizations and law; study of historically significant and unremembered cases of human rights violations; consideration of the question posed by Cmiel, “What, if anything, has been accomplished in the name of universal rights?”

HIST:4105 World Events in Historical Context 3 s.h.
Examination of current international news stories and their historical background; daily reading of The New York Times international news section and online international news stories in U.S. and international news outlets; creating informed world citizens.

HIST:4107 World History I 3-4 s.h.
World history from antiquity to 16th century; political, economic, and environmental forces contributing to social transformations.

HIST:4109 World History II 3-4 s.h.
World history from 16th century to World War II; colonialism, imperialism capitalism, and industrialization as forces of global social and cultural transformation.

HIST:4115 Workshop for History Educators and Cultural Professionals 1-3 s.h.
Topics vary based on ongoing project work and instructors.

HIST:4125 War and Peace in the Twentieth Century 3 s.h.

HIST:4130 Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as MUSM:4130.

HIST:4131 Origins of Western Science 3 s.h.
Exploration of philosophical, cultural and religious factors behind birth and growth of natural philosophy (science) from prehistory to High Middle Ages. Recommendations: junior or senior standing.

HIST:4132 Science, Medicine, and Race 3 s.h.
Examination of social construction of race in scientific and medical thought; focus on Atlantic world (Europe, Africa, the Americas); construction of race in other parts of world.

HIST:4133 The Rise of Modern Science 3 s.h.
Natural philosophy and science from Italian Renaissance through Scientific Revolution and into modern era, up to and potentially including the 20th century; scientific ideas, cultural and institutional contexts of science. Recommendations: junior or senior standing, and HIST:2401 or HIST:2402 or HIST:2403.

HIST:4135 History of Medicine in Film 3 s.h.
Examination of how American films depicted physicians and health care from the 1930s to the present; attention to what popular films tell us about cultural images of physicians and medicine in American society. Requirements: honors standing.

HIST:4145 The Internet in Historical Context 3 s.h.
History of media technologies (e.g., speech, writing, print, A/V devices, the Internet) from the evolution of speech to the present; ways in which technologies molded social groups and guided beliefs; impact of the Internet on contemporary society and culture.

HIST:4146 The History of Warfare 3 s.h.
World military history from evolution of human kind to present; development of weapons, tactics, and strategies.

HIST:4148 Global History as Local History: European Immigration in Iowa 1-4 s.h.
Opportunity to use skills developed in other courses to pursue global history locally; waves of immigration that flowed across Iowa during 19th century; ways in which national and international shifts in economics and geopolitics affected this population and state from mid-19th century through World War II; research project based on a local community of student’s choice; capstone course. Recommendations: junior or senior standing.

HIST:4160 History of Public Health 3 s.h.
State-endorsed measures to avert or control disease in society. Same as GHS:4160.

HIST:4162 History of Global Health 3 s.h.
Foremost problems of health and disease in colonial and postcolonial societies; topical approach. Same as GHS:4162.

HIST:4176 Vietnam War on Film 3-4 s.h.
Creation of a distinct language and culture of deaf people in America during the 19th and 20th centuries. Taught in English and/or American Sign Language. Requirements: concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as ASL:4201.

HIST:4201 History of the American Deaf Community 3-4 s.h.

HIST:4202 Society and Health Care in American History 3 s.h.
Social and cultural history of health care in the United States from colonial period; social relationships between care providers and patients, disease theories and therapeutic procedures, historical understandings of ethics and health care frameworks.

HIST:4203 Disability in American History 3 s.h.

HIST:4205 American Cultural History 1820-1920 3 s.h.
Culture as contested terrain; creation of cultural hierarchy (high and popular culture); struggles over the cultural construction of meaning; competing stories of America; advent and significance of mass culture.
HIST:4216 Mexican American History 3 s.h. Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society's diverse nature, explored through class, ethnic, gender, and regional divisions. Same as LAS:4216.

HIST:4217 Latina/o Immigration 3 s.h. Immigration experiences of people arriving in the U.S. from other regions of the Americas (e.g., Mexico, Central America, the Caribbean, South America); what has fueled immigration—social, political, and economic developments in the U.S. and other nations; territorial conquest, colonialism, real and imagined borders, chain migration, formation of immigrant communities, acculturation, circular migration, social networks; how migration restructures gender relations; immigrant communities and pan-Latino identity in the U.S.

HIST:4220 The Frontier in American History to 1840 3 s.h.

HIST:4221 The Frontier in American History 1840-Present 3 s.h.

HIST:4228 Cold War America 3 s.h. Key historical developments of the Cold War; examination of how the war shaped ideological, political, economic, and cultural aspects of American society.

HIST:4229 The United States as Empire 3 s.h. The U.S. rise to world power; continental empire-building in the 19th century; industrial, military and colonial power in the early 20th century; global hegemony from the mid-20th century to the present; white settler colonialism; overseas rule of Philippines and Puerto Rico; cultural Americanization; Cold War interventionism; post-9/11 unilateralism; meanings of American exceptionalism, intersections of U.S. nationalism with race and gender, remaking of domestic U.S. society within a changing global and imperial context.

HIST:4230 The Political Culture of U.S. Foreign Policy 3 s.h. Political culture of U.S. foreign policy in historical perspective; connections and interactions between the domestic scene and international realities, from time of manifest destiny to national security state; domestic foundations of American power and its projection abroad, including constitutional framework, economic developments, rise of the state, role of media, public opinion, civilian-military relations; concepts of race, ethnic identifications, and religious and political beliefs have shaped understandings of patriotism, national interest, international responsibility; great debates in which American national identity and purpose are renegotiated.

HIST:4231 United States in World Affairs to 1900 3 s.h. Origins of modern diplomatic practices; security, territorial and commercial expansion; legal, constitutional problems.

HIST:4232 United States in World Affairs 3-4 s.h. America's emergence as leader in world affairs; imperialism, international collaboration, participation in world wars, the Cold War.

HIST:4234 Transnational America 1880-1939 arr. The United States as a society increasingly embedded in global history during the late 19th- and early 20th-centuries; approaches for thinking about history in transnational ways; intensification of European, Asian, and Latin American immigration; cross-national dimensions of American reform; emergence of diasporic social movements; international scale of the corporate state; politics of colonialism and world war.

HIST:4236 Major Topics in U.S. Foreign Policy 3 s.h. Continuation of HIST:4232; select themes in the history of U.S. foreign policy studied in greater detail; examination of major conflicts (i.e., World War Two, the Cold War or the Vietnam War, and recent engagements in the Middle East), drawing from a wide range of primary sources, film material, and secondary material.

HIST:4241 Varieties of American Religion 3 s.h. Examination of varied 20th- and 21st-century American religious individuals and groups; understand and analyze unique communities. Same as RELS:4741.

HIST:4245 The Social History of American Baseball 3 s.h. History of baseball in the United States from its beginnings as a working-class recreation through the present; history of the game and the people who have played it, how the history of American society is viewed through the lens of baseball, how the game has contributed to social change; social class, race, urbanization, crime and political corruption, public health, big business and professionalism, spectatorship, entertainment and mass culture, national mythology, the exercise of legitimate authority (umpires!).

HIST:4249 History of Iowa and the Midwest 3 s.h. People of Iowa and surrounding Midwestern states—a land where people work hard, are practical, down to earth, and honest; the idea of a place in the heartland as real or simply a myth; history of Midwestern states from Native American occupation to present; how reality, ideas, and images are portrayed.

HIST:4250 Work and Society in Industrializing America 3 s.h. Industrialization, formation of an American working class; changing patterns of labor organization, strike activity, politics; impact of ethnic, racial, gender divisions on working class communities, culture.

HIST:4252 American Labor in the Twentieth Century 3-4 s.h. Competing philosophies and organizational strategies of workers in a maturing industrial economy; impact of world wars and Great Depression on American workers and their unions; rise of service sector, deindustrialization.

HIST:4254 Immigrant America 1845-1925 3 s.h. Era of mass immigration in world context; formation, organization of immigrant communities; diverse processes of adaptation, assimilation; rural, urban contrasts; coercive Americanization, immigration restriction.

HIST:4255 The Gilded Age in America 3 s.h. Emergence of industrial, urban America, from Civil War through 1890s; emphasis on social, political developments.

HIST:4256 The Progressive Era in America 3 s.h. Protest and reform, imperialism, World War I, from 1890s to 1920.

HIST:4260 The Sixties in America 3 s.h. The 1960s as a moment in American politics and culture, pivotal and romanticized; major events and conflicts, including the election and assassination of President Kennedy, LBJ and the Great Society, civil rights movement and Black Power, counterculture and the urban crisis, sexual revolution and second wave feminism, anti-war protest and silent majority; changing conceptions of the sixties and development of a fresh interpretation.

HIST:4264 U.S.A. in a World at War 1931-1945 3 s.h. Significance of World War II to the United States.
HIST:4266 The New Deal: Political Response to Economic Crisis in the United States, 1920-1940 3 s.h. United States between the wars; emphasis on New Era system, impact of the Great Depression and response by the Hoover administration, the New Deal.

HIST:4268 The Contemporary U.S. 1940-Present 3 s.h. United States as a global power; emphasis on World War II and Cold War, recent patterns of social and economic change, politics of 1950s, 1960s.

HIST:4270 Colonial North America, ca. 1600-1775 3 s.h. Introduction to major themes in colonial American history prior to the American Revolution. Same as AINS:4270.

HIST:4271 American Revolutionary Period 1740-1789 3 s.h. Political, military history of colonies 1754-1776; imperial upheaval; building a new nation; creation of federal system.

HIST:4272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h. Overview of major issues in Native American history during the period of European Imperialism in North America. Recommendations: junior or senior standing. Same as AINS:4272.

HIST:4273 War and Violence in Early American Societies and Culture 3 s.h. Introduction to role of warfare and violence in shaping early American society.

HIST:4275 History of Slavery in the U.S.A. 3-4 s.h. Beginning, expansion, and ending of American slavery; how our national memory of slavery in popular culture (in high school history, in historical landmarks and museums) helps or hinders our understanding of history of slavery in the U.S. Same as AFAM:4275.

HIST:4280 Women and Power in U.S. History Through the Civil War 3 s.h. Exploration of how women, as political actors, shaped the outcome of familiar events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as GWSS:4280.

HIST:4282 Women and Power in U.S. History Since the Civil War 3 s.h. Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as GWSS:4282.

HIST:4283 U.S. Women's History as the History of Human Rights 3-4 s.h. History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights--right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as AMST:4283, GWSS:4283, HRTS:4283.

HIST:4285 Family, Gender, and Constitutional History 3 s.h. Same as LAW:8551.

HIST:4286 U.S. Legal History 3 s.h. History of the law in the United States, as it developed from era of the Revolution to present; interaction of courts and legislatures with social movements; readings on court decisions, social histories, fiction (film and prose).

HIST:4287 The American Legal Experience 3-4 s.h. Historical role of law in American society and its engagement with politics, social and biological science, economics. Same as LAW:8167.

HIST:4289 The Atlantic World c. 1450-1850 3 s.h. Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as AINS:4289.

HIST:4295 African American History 1619-1865 3 s.h. Race and African American history, from the rise of racial slavery to the Civil War; advanced course. Same as AFAM:4195.

HIST:4296 African American History 1865-Present 3 s.h. African American history since Reconstruction; survey of African American politics and society from Reconstruction to present. Same as AFAM:4298.

HIST:4334 Topics in American Borderlands History 3 s.h. Broad historical overview of the American Borderlands, a region that has been the site of conflict, cultural exchange, and economic interdependence.

HIST:4400 The Roman Empire 3 s.h. History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as CLSA:4400.

HIST:4401 Ancient Egypt and the Ancient Near East 3 s.h. Same as CLSA:4101.

HIST:4403 Alexander the Great 3 s.h. History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as CLSA:4403.

HIST:4404 The World of Ancient Greece 3 s.h.

</table>
HIST:4466 France and Algeria from Pirates to Terrorism 3 s.h.
Long, complex history of relationship between France and Algeria since 18th century; early modern conflicts over Barbary piracy, French invasion, and colonization of Algeria in 19th century; brutal Algerian War of Independence, postcolonial migration, and ongoing war of memory over shared Franco-Algerian history of colonization and decolonization. Taught in English. Same as FREN:4466.

HIST:4470 France from 1815-Present 3 s.h.

HIST:4473 German History 1648-1914 3 s.h.
History of German speaking lands 1648-1918.

HIST:4475 Germany Since 1914: Weimar, Hitler, and After 3-4 s.h.
Continuity, change in 20th-century German politics, society, culture; creation, collapse of Weimar Republic; Nazism and Third Reich; East and West Germany since 1945; unification and its discontents.

HIST:4477 Napoleon and His Afterlives 3 s.h.
Life and influence of Napoleon Bonaparte in France; Napoleon's personal background, his career during French Revolution, rise and fall of his European and global empire; examination of Emperor's global legacy, from post-Napoleonic diplomatic settlement to spread of Napoleonic administrative and legal codes; Napoleonic legend that arose after his final defeat in 1815; weekly readings and discussions, individual research project, and participation in events being planned across campus to mark the bicentennial of Napoleon's invasion of Russia.

HIST:4478 Holocaust in History and Memory 3 s.h.
Origins and implementation of Holocaust; perpetrators, victims, and bystanders; impact of Holocaust on post-World War II world.

HIST:4484 Modern Britain: The Eighteenth Century 3 s.h.
Great Britain from Glorious Revolution of 1688 to end of the Napoleonic Wars in 1815; post-revolution political settlement, political conflict; growth of British empire, religious dissent, evangelical revival, Industrial Revolution, American Revolution, British response to the French Revolution.

HIST:4485 Modern Britain: The Nineteenth Century 3-4 s.h.
Great Britain 1780-1914; evangelical revival, Industrial Revolution, growth of modern political parties, progress of political reform, scientific developments, influence of Darwin and Mill, growth of secularism, British Empire, Boer War, advent of World War I.

HIST:4486 Modern Britain: The Twentieth Century 3 s.h.
Great Britain from Boer War to Tony Blair's political triumph; liberal revival, World War I, rise of the Labour Party, the Depression, appeasement, World War II, Labour's triumph after the war, rise of consensus politics, 1960s cultural changes, Margaret Thatcher's political ascendancy, transformation of the Labour Party under Blair.

HIST:4493 Soviet Union 1917-1945 3-4 s.h.
Revolution, foundation of Soviet Union; Leninism; major political, social, ideological developments during Stalinist period—collectivization, industrialization, terror; nationalities, foreign policy; World War II; Cold War; socialist state system.

HIST:4499 First World War 3-4 s.h.
Social, economic, political, technological, military aspects of causes, conduct, consequences of war of 1914-1918; fiction, contemporary documents, historical works, films.

HIST:4501 Society and Revolution in Cuba 3 s.h.
Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as LAS:4501.

HIST:4502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as AINS:4502.

HIST:4504 Latin American Studies Seminar 3 s.h.

HIST:4505 Topics in Latin American History 3 s.h.
Survey of major topics in modern Latin American history in relation to development of medicine and public health. Same as GHS:4508, LAS:4508.

HIST:4510 Colonial Latin America 3 s.h.
Cultural, institutional continuity from 16th century to independence.

HIST:4515 Introduction to Modern Latin America 3 s.h.
Cultural, institutional continuity from independence to present. Same as LAS:4515.

HIST:4520 Latin America and the U.S.: The Historical Perspective 3 s.h.

HIST:4525 Latin American Revolution 3 s.h.

HIST:4526 Dictatorships of Latin America 3 s.h.
Dictatorships, truth commissions, politics of memory in modern Latin America; the political and socio-economic origins of authoritarian regimes as well as their forms of rule, sources of support, uses of violence, and eventual downfall; the experience of specific sectors of society under authoritarian regimes, forms of resistance to authoritarianism, memories of terror, efforts to forge peace and justice in the aftermath of horror; includes personal testimony, film, human rights, reports, historical studies.

HIST:4605 Disease, Politics, and Health in South Asia 2-4 s.h.
South Asia's long-term success lengthening lives and stopping disease, weighed against its continuing burden of infection, violence, pollution, and class-based suffering. Same as GHS:4605.

HIST:4610 Japan - Age of the Samurai 3 s.h.
Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Same as JPNS:4610.

HIST:4615 Modern Japan 3 s.h.
Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Same as JPNS:4615.
HIST:4616 Japanese History and Society: World War II to the Twenty-First Century 3 s.h.
Transformation of Japan from devastation and unconditional surrender in 1945 to peace and prosperity in late 20th century; defeat and occupation, 1945-1952; peace and high economic growth, mid-1950s to early 1990s; economic, social, and political challenges of 21st century; combination of historical analysis with discussion of contemporary political, cultural, social, economic, ecological, and geopolitical developments through reading of English-language media.

HIST:4617 History, Memory, and Pacific War 3 s.h.
Contemporary meanings of the Pacific War in collective memory of Americans and Japanese.

HIST:4620 Japan-US Relations 3 s.h.
Political, social, economic, and cultural developments in Japan mid-19th to late-20th century. Same as JPN:4620.

HIST:4640 Imperialism and Modern India 3 s.h.
Introduction to the political, economic, social, and cultural history of India from 1700 to present; historically India included the territories of present-day Pakistan and Bangladesh; at present India extends through diasporic Indian communities to East Africa, North America, Europe, and the Caribbean.

HIST:4650 Chinese History from 1600 to 1927 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as ASIA:4657.

HIST:4653 Law and Society in Late Imperial and Modern China 3 s.h.
Survey of legal system of China and Chinese society from 1400 to 1980s. Same as IS:4653.

HIST:4655 China Since 1927 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies, Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as ASIA:4655.

HIST:4666 Topics in Asian History 3 s.h.
Same as ASIA:4166.

HIST:4685 Modern Korean History 3 s.h.
Transformation of Choson Korea to North and South Koreas; local, regional, and global transformations in Korea from the late 19th century to present, including the severing of its historic ties with China; encounters with the West and Japan; new ideas of civilization and political community; the erasure of Choson as a country in 1910; the colonial experience; civil war; industrialization; creation of North Korea; democratic movement in South Korea and spread of diasporic communities abroad; Korean peninsula as a laboratory for analyzing compressed communist and capitalist modernities of the 20th century.

HIST:4710 Pre-Colonial African History 3 s.h.
Africa to 1880; oral tradition, other sources; political development, ecological change, slavery and slave trade. Same as AFAM:4310.

HIST:4715 African History Since 1880 3 s.h.
Africa in colonial, post-colonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as AFAM:4715.

HIST:4725 Women and Gender in African History 3 s.h.
Importance of female agency in African history; African women's history in historiographical framework of women's history, challenges historians face in exploring African women's past; varied sources (e.g., novels, films, court records) from sub-Saharan Africa, urban and rural settings; current literature on African women, African women's experiences in a comparative context. Same as GWSS:4725.

HIST:4728 Identity, Trade, and Diaspora 3 s.h.
Identity of Swahili people on East African coast; trade networks and diaspora in Arabia and Persian Gulf over the centuries; Swahili civilization marked by urbanity, literacy, Islam, and cosmopolitanism; how scholars' views have changed (scholars originally could not reconcile their conception of Africa, the Dark Continent, with characteristics of this sophisticated culture). Same as SWAH:4000.

HIST:4810 History of the Modern Middle East 3 s.h.

HIST:4815 Topics in the Modern Middle East 3 s.h.

HIST:4910 The Book in the Middle Ages 3 s.h.
Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as SLIS:4910, UICB:4910.

HIST:4920 The Transition from Manuscript to Print 3 s.h.
Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as SLIS:4920, UICB:4920.

HIST:6001 First-Year Graduate Colloquium 3 s.h.
Introduction to history graduate program.

HIST:6002 History Research Methods 3 s.h.
Introduction to historical research methods. Prerequisites: HIST:6001. Requirements: first-year history graduate standing.

HIST:6003 History Theory and Interpretation 3 s.h.
Introduction to basic theoretical approaches to historical research.

HIST:6110 Introduction to New Media in the Humanities and Social Sciences 3 s.h.
Use of New Media software in research, presentation, and instruction; includes HTML editors (Dreamweaver), wikis (Confluence), blogs (Wordpress), collaborative mark-up programs (CommentPress), graphics editors (Illustrator), map editors (MapPoint, ArcView), photographic editors (Photoshop), audio editors (Garage Band, Soundbooth, Audio Hijack Pro), video editors (iMovie, Premiere Pro, Photo-To-Movie), and animation editors (Flash); projects.

HIST:6120 Teaching Seminar: Graduate Instructors 2-3 s.h.
Issues and methods for effective history teaching at the college level.

HIST:6132 Crossing Borders Proseminar 3 s.h.

HIST:6135 Crossing Borders Seminar 2-3 s.h.

HIST:6158 Approaches to Teaching Global History 3 s.h.
Approaching history from a global or international perspective; introduction to issues; preparation for teaching courses at college level; historiographies and methodologies, problems of periodization and area divisions, syllabi on world and global history.
HIST:6203 History and Theories of Planning 3 s.h.
History of urban planning in America as a reflection of social and economic forces; alternative planning philosophies, roles, and ethical choices open to planners. Same as URP:6203.

HIST:6410 Teaching Proseminar 2-4 s.h.
Preparation for leading undergraduate discussion sections for HIST:1401, HIST:1402, and HIST:1403; specific subject matter preparation similar to that offered in graduate readings courses; for first-time graduate teaching assistants.

HIST:6475 Seminar: Reformation Culture arr.
Culture and thought of 16th-century Europe. Same as RELS:6475.

HIST:6610 Proseminar - Asian Civilization 1-2 s.h.
Preparation for leading undergraduate discussion sections for civilizations of Asia courses (Japan, China, Korea, South Asia, and India); specific subject matter preparation similar to that offered in graduate readings courses; for first-time and early-in-program graduate teaching assistants.

HIST:7101 Research Seminar
Research for students in all areas of history.

HIST:7120 Feminist Research Seminar arr.
Feminist research methodologies; how to conduct original research, write a research proposal and research paper, and read and criticize others' work. Same as GWSS:7020.

HIST:7126 Readings on the History of Human Rights arr.
Survey of recent literature on history of human rights; development of bibliographies; readings from individual areas of interest (e.g., transitional justice, migration, gender and sexuality, labor).

HIST:7130 Readings on Twentieth-Century Black Internationalism arr.
Complex dynamics of black internationalism during 20th century, focusing on the global visions, transnational activities, and transracial political alliances of people of African descent worldwide; readings will reflect geographical breadth of the African Diaspora including Africa, the Americas, and Europe. Same as AFAM:7130.

HIST:7150 Readings: Comparative Labor History arr.

HIST:7155 Theories of Diaspora, Immigration, and Migration arr.
Vexed notion of diaspora(s); challenge of understanding and writing histories of immigration and migration during modern era; exploration of central questions including difficulty of tracking things in motion--individuals, families, groups, and ever-elusive cultural traits as they flow through local, national, and international contexts that are themselves in flux.

HIST:7160 Global Medical History: Colonial South Asia, Latin America, and the Caribbean arr.
How relations of power between countries affect responses to disease, delivery of public health, and development of medical understanding; focus on South Asia, Latin America, and the Caribbean; global perspectives; medical colonial interactions, environmental issues and tropical medicine, indigenous systems of health; translation, co-option, and appropriation of medical knowledge; biomedicine and nationalism.

HIST:7175 Theories of World History arr.
Macrohistorical theories of world history; can a prominent theory or combination of theories explain the social evolution of humankind over hundreds of thousands of years; how to periodize world history; does history have a direction, and if so, what direction; the future of humankind.

HIST:7190 Individual Study: Graduate arr.

HIST:7192 Predissertation Seminar arr.
Preparing for dissertation work for students in all areas of history; thesis topic, relevant literature in the topic field, potential sources, primary research strategy, sources of research funding, research proposal; preparation for submitting applications for dissertation research fellowships and beginning of completing the thesis prospectus.

HIST:7193 Thesis arr.

HIST:7197 The Art and Craft of Historical Writing arr.
Focus on improving students' skills in historical writing; readings from exemplary texts, ancient to contemporary; all aspects of historical writing, from sentence composition and paragraph structure to evidence and narrative voice.

HIST:7199 History Workshop: Theory and Interpretation arr.

Same as AFAM:7205, GWSS:7205.

HIST:7208 The American Civil War in History and Memory arr.

HIST:7212 Seminar: Research in Race and Ethnicity arr.

HIST:7214 Readings: African American Women's History arr.
Same as AFAM:7214, GWSS:7214.

HIST:7219 Seminar: Gender in Nineteenth-Century United States arr.

History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as GWSS:7220.

HIST:7227 Readings in American Environmental History arr.
Introduction to historiography—classic texts and recent work—in American environmental history; topics from colonial period to recent past.

HIST:7236 Readings in Borderlands History arr.
Comparative borderlands; articles on diverse topics from borderland regions worldwide (main focus on U.S.-Mexico borderlands, with inclusion of European, Asian, African, and Latin American borderlands); analysis of each article for its thesis, research questions, methodology, primary sources, and weaknesses; seminar.

History and historiography of social welfare policy, chiefly in the United States; proceeds chronologically with analysis of private and public efforts to address problems including poverty, unemployment, sickness, homelessness, and family violence.

HIST:7246 United States in the World arr.
Historiographies that situate modern U.S. history in a global context; how historians study the American past beyond traditional, nation-centered frames; transnational histories of migration, nativism and exclusion; social movements; colonial empire-building; commercial and cultural Americanization; transfer of policy ideas; military occupations; decolonization; Cold War’s impact on social reform; post-9/11 moment.

HIST:7253 Seminar: American Social History arr.
HIST:7254 Readings in American Social History
HIST:7255 Readings: The Gilded Age and the Progressive Era
HIST:7256 Topics in 19th-Century American Legal History
Exploration of selected topics, may include developments in the law of the home and the law of the workplace (free labor, worker immigration, apprenticeship, indentured labor, slavery); women’s legal history; land issues and various Homestead Acts; Blackstone in America; Reconstruction of the Constitution after the Civil War; The National Archives—which houses American legal historical documents—displays the phrase, “What is past is prologue;” legal history that explains how we got to the legal present and to understand what is the law, you have to know how something got to be the law. Same as LAW:9656.
HIST:7260 Seminar: American Colonial History
HIST:7261 Readings: Early American History
HIST:7263 Readings: Contemporary United States
New work in American social, political, and economic history; readings tailored for students seeking background for research or preparing for comprehensive exams.
HIST:7265 Seminar: Contemporary United States
HIST:7271 Seminar: Research in Transnational U.S. History
Experience framing, organizing, and carrying out an original investigation on a theme in U.S. transnational history, followed by review and discussion of drafts; opportunity to explore transnational methodologies while developing professional skills of literature review, source interpretation, and collegial critique.
HIST:7275 Readings in the History of Women and Gender in the U.S.A.
Same as GWSS:7275.
HIST:7287 Seminar: History of Women and Gender
Opportunity to pursue research for a single paper, M.A. thesis, or doctoral dissertation in the history of women and gender in the United States; interdisciplinary and internationally comparative projects; meetings and evaluations with attention to the craft of writing.
HIST:7293 Graduate Readings in Public History
Overview of public history with attention to ways in which historians have engaged various publics; major theoretical constructs (memory, heritage, commemoration); public history methodologies (oral history, material culture, archival documentation); legal ethics; how history is communicated to the public; how public history sites contribute to public memory; how and why controversies emerge in public history settings; relationship between academic history and public history.
HIST:7410 Seminar: Medieval Social and Economic History
HIST:7411 Readings: Medieval Women
HIST:7412 Source Criticism for Medieval Studies
HIST:7415 Graduate Readings: Monastic History
History of Christian monasticism in the medieval west: the developing monastic and religious orders, nuns of those groups; tertiaries, beguines, other orthodox penitent movements from the development of Christianity to the Reformation.
HIST:7418 Seminar: Medieval Intellectual History
HIST:7419 Readings: Medieval Intellectual History
HIST:7420 Seminar: History of Science
HIST:7421 Readings: Medieval and Early Modern Universities
HIST:7422 Medieval Latin Paleography
HIST:7428 Seminar: Medieval Philosophy
Investigation of theories of knowledge developed by medieval philosophers including Augustine, Boethius, Duns Scotus, Ockham, and Auriol.
HIST:7435 Readings: Women, Men, and Gender in Modern Europe
Same as GWSS:7435.
HIST:7440 Readings in Modern German History
Major problems in modern German history; historiographic debates organized thematically and proceeds chronologically from the French Revolution to the present; oral presentations and comparative essays.
HIST:7445 Readings: Colonialism and Empire in European History
Engagement of Europeans in an immense outward expansion of people, goods, and ideas, as well as more than a few germs since 1492; exploration of some of the implications of this expansion by focusing on a selection of different colonial encounters and some legacies of European empires.
HIST:7455 Seminar: Modern Europe
HIST:7456 Readings: Modern European History
HIST:7458 Readings: War and Society in Modern Europe
Preparation, conduct, and aftermath of war; social-historical examination; conflicts on European territory, colonial wars, and wars of decolonization, from French Revolution through late 20th century.
HIST:7460 Readings in the History of Modern France
HIST:7505 Readings: Latin American History
Same as SPAN:7505.
HIST:7535 Readings in Latina/o History
Introduction to major works and recent scholarship in Latina/Latino history.
HIST:7551 Readings: Globalizing Latin American Science and Medicine
Recent trends in Latin American history of science and medicine.
HIST:7589 Readings: Gender in Latin American History
Same as GWSS:7589.
HIST:7606 Readings in Chinese History
Same as ASIA:7606.
HIST:7622 Readings in Modern Korean History
Introduction to English-language scholarly works on modern Korean history; focus on nationalist discourse, social and cultural history, and complex interactions among Koreans and Japanese within space of empire; major historiographical issues in Korean and East Asian history.
HIST:7630 Readings: Japanese History
Same as JPN:7630.
HIST:7660 Readings in Modern India

History, B.A.

Requirements

The Bachelor of Arts with a major in history requires a minimum of 120 s.h., including 36 s.h. of work for the major. History courses numbered 1000-1099 do not count toward the 36 s.h. for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

College Level Equivalency Program (CLEP) and Advanced Placement Program (APP) credit does not count toward the history major. Transfer work that is equivalent to University of Iowa course work may be accepted toward the major, but at least 18 s.h. of work for the major, including the introductory course, HIST:2151 Introduction to the History Major, must be taken at the University of Iowa. Courses that count toward the major may not be taken on a pass/nonpass basis.

Major requirements include an introductory course and a history portfolio in addition to a range of course work in history.

Undergraduate courses in history are divided into four areas: American history, European history, non-Western history, and courses that have no specific area designation.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 1200-1299, 2200-2299, 3200-3299, and 4200-4299) toward the major.

Students may count a maximum of 8 s.h. earned in the following courses toward the major. Courses on this list that are approved for General Education may be counted toward fulfillment of General Education Program requirements as well as toward requirements for the history major.

Major requirements include an introductory course and a history portfolio in addition to a range of course work in history.

Undergraduate courses in history are divided into four areas: American history, European history, non-Western history, and courses that have no specific area designation.

Students may count a maximum of 18 s.h. earned in American history courses (numbered 1200-1299, 2200-2299, 3200-3299, and 4200-4299) toward the major.

Students may count a maximum of 8 s.h. earned in the following courses toward the major. Courses on this list that are approved for General Education may be counted toward fulfillment of General Education Program requirements as well as toward requirements for the history major.

- **Introductory Course**
  - HIST:2151 Introduction to the History Major 3

- **American History Courses**
  - Two American history courses (numbered 1200-1299, 2200-2299, 3200-3299, or 4200-4299) including at least one numbered 3000 or above 6

- **European History Courses**
  - Two European history courses (numbered 1400-1499, 2400-2499, 3400-3499, or 4400-4499) including at least one numbered 3000 or above 6

- **Non-Western History Courses**
  - Two non-Western history courses (numbered 1500-1999, 2500-2899, 3500-3899, 4500-4999) including at least one numbered 3000 or above 6

- **Pre-1700 History Course**
  - One pre-1700 history course (select from the list below) 3

- **History Electives**
  - Additional history courses selected by student 12

- **Portfolio Course**
  - HIST:3193 Undergraduate History Portfolio 0

Total Hours 36

### Introductory Course

Students enroll in HIST:2151 Introduction to the History Major as soon as possible after declaring the major in history. Topics vary, but all sections of HIST:2151 instruct students in the skills they need to succeed in upper-level history courses. Students explore the diverse kinds of sources historians use, including both primary (original) sources and secondary (scholarly) sources. They learn how to frame a historical question, find and interpret relevant sources (online, in libraries, and archives), and then integrate them into a historical argument, expressed clearly and in accordance with appropriate scholarly conventions. By the end of the semester, students have produced a substantial research paper or project and have a clearer understanding of the historian’s craft. Students must include at least one graded paper from the course HIST:2151 in their history portfolio (see “Portfolio” below).

### History Courses

In addition to completing HIST:2151 Introduction to the History Major, students must earn a minimum of 33 s.h. in history courses, including geographical area and era courses (American, European, non-Western, and pre-1700 history). Students may count a maximum of 18 s.h. earned in American history courses toward the major.

Courses within the number range 1100-1199, 2100-2199 (including HIST:2151 Introduction to the History Major), 3100-3199, 3995-3996, or 4100-4199 do not fulfill a specific geographical area or era, but count toward degree requirements.
The portfolio does not affect the student’s g.p.a.; timely submission fulfills the requirement on a non-graded basis with an assignment of S (satisfactory).

Students should submit their portfolios on the University of Iowa ICON website for HIST:3193 early during the semester in which they plan to graduate.

**B.A. with Teacher Licensure**

History majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Students should contact the Office of Student Services for details, in addition to the list of required courses.

**Honors in the Major**

Students majoring in history have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. Students write an honors thesis, which is an extended research paper (30-40 pages). Research for the thesis is done under the supervision of a faculty member who specializes in the field that a student chooses for the research. Students register for 3 s.h. in HIST:3995 History Honors Research Seminar, usually during the spring of their junior year, and HIST:3996 Honors Thesis, usually during the fall of their senior year. The 6 s.h. of credit counts toward the semester hours required for the history major.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the fifth semester begins:** three courses in the major, including HIST:2151 Introduction to the History Major.

**Before the seventh semester begins:** four more courses in the major and at least 90 s.h. earned toward the degree.

**Before the eighth semester begins:** three more courses in the major.

**During the eighth semester:** submission of the portfolio of written work (three graded history papers) to the director of undergraduate studies through the HIST:3193 Undergraduate History Portfolio ICON website (a student must be enrolled in HIST:3193 in order to submit the portfolio), enrollment in all remaining course work in the major (two courses), all remaining General Education courses, and a sufficient number of semester hours to graduate.

**Pre-1700 History Courses**

A course taken to fulfill the pre-1700 history course requirement also may be counted toward the requirement in American, European, or non-Western history. These courses fulfill the pre-1700 history requirement.

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses.
2. Students may use their elective courses to complete a double major, minors, or certificates.
3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission, according to CLAS guidelines, to reduce the number of semester hours required for their degree. AP and CLEP credits do not, however, count toward the major. Students should consult their advisor about the three-year program.

### Career Advancement

Students of history develop an understanding of change that enables them to function as active, well-informed citizens. Because of the geographical breadth required for the degree, history students develop a global consciousness that helps them to understand developments worldwide.

University of Iowa’s history graduates win admission to the best graduate and professional schools in the country. Employers value history students’ ability to analyze human and social behavior, to research pressing problems, and to express themselves clearly. Graduates of the department occupy prominent positions in government, business, journalism, law, entertainment, education, the nonprofit sector, library science, social work, and philanthropy, among others. A recent study showed that history graduates with a B.A. earn more than graduates in any other humanities field.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
History, Minor

The minor in history requires a minimum of 15 s.h. in history courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. All Department of History courses numbered 2000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.
History, M.A.

The Department of History offers two program options for students interested in earning a master's degree in history—the terminal M.A. track and the M.A./Ph.D. track.

Students interested in graduate work may obtain a copy of the current Guide to Graduate Study from the Department of History website. The guide is revised every summer to include the latest faculty listings, research interests of faculty members, detailed regulations on study toward advanced degrees, and other information for students.

Requirements

The Master of Arts program in history requires a minimum of 30 s.h. of graduate credit and is offered with two options: one for students who plan to work toward the Ph.D., the other for students who do not. The two plans differ mainly in their concentration in fields: the Ph.D. track emphasizes development of research capabilities culminating in the essay; the non-Ph.D. track stresses breadth of learning.

The M.A. with Ph.D. track requires completion of a research essay. Students must earn at least 24 s.h. of the minimum of 30 s.h. required for the degree in Department of History courses numbered 3000 or above, including at least two seminars, or one seminar and one readings course numbered 6000 or above. One seminar or readings course must be taken in each of the first two semesters of residence. Students must earn 12 s.h. in the area of their essay topic and at least 6 s.h. in a second division, including either a seminar or a readings course numbered 6000 or above. Students in this track are required to take HIST:6001 First-Year Graduate Colloquium during their first semester in the program; HIST:6002 History Research Methods must be completed prior to earning the M.A. degree.

The essay in the major division must be based on original research and should be approximately 10,000 to 15,000 words long. It usually begins as a term paper for the seminar in the major division and is completed the following semester under the supervisor’s guidance. The finished product should emulate the character of articles in learned journals, just as the Ph.D. dissertation takes the form of a full-length scholarly monograph.

Requirements for the M.A. with non-Ph.D. track are similar to those for the Ph.D. track. Students must earn 24 s.h. of the minimum of 30 s.h. required for the degree in Department of History courses numbered 3000 or above. Students in this track are required to take HIST:6001 First-Year Graduate Colloquium during their first semester in the program. They earn 12 s.h. in one major division of history and must include at least one readings or seminar course numbered 6000 or above. Students earn an additional 12 s.h. in history by taking 6 s.h. in each of two other divisions of history, or by taking 6 s.h. in one other division of history plus 6 s.h. in a related department; the additional 12 s.h. in history must include at least one readings or seminar course numbered 6000 or above.

After completing these requirements, or during the semester in which they will complete them, M.A. students must take an oral and written comprehensive examination in their major division.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must submit academic transcripts and Graduate Record Examination (GRE) General Test scores. They also must submit examples of original writing to the history department, such as a term paper, a seminar paper, an honors thesis, or a master’s essay (applicants to the Ph.D. program); letters of recommendation from three persons familiar with the student’s past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. All application materials are due by January 15 for entry the following August.

Career Advancement

Graduate study in history prepares students for occupations such as high school or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service. With additional specialized training, students may become qualified for careers in historical site preparation and display, and archival, library, or museum work. Some choose to pursue the joint Master of Arts/Juris Doctor program, which leads to degrees in both law and history (see the College of Law [p. 1326] section of the Catalog for information about the J.D. degree).

The University of Iowa's history graduates who earn an M.A. experience remarkable job placement rates, depending on their area of study. Graduate & Postdoctoral Career Services offers multiple resources to assist students in locating opportunities and preparing for jobs upon completion of the program.
History, Ph.D.

The Department of History offers a doctoral program for students interested in earning a Ph.D. in history. Students interested in graduate work may obtain a copy of the current Guide to Graduate Study from the Department of History website. The guide is revised every summer to include the latest faculty listings, research interests of faculty members, detailed regulations on study toward advanced degrees, and other information for students.

Requirements

The Doctor of Philosophy program in history requires at least 72 s.h. of graduate credit, including credit for work completed for the master's degree.

Students who earn the M.A. with research essay at the University of Iowa may be admitted to the Ph.D. program on the favorable recommendation of the examining committee. Students who earn an M.A. at another university must meet the admission requirements of the Graduate College and the Department of History (see Admission [p. 552] in this section of the Catalog). They must submit a writing sample, such as a seminar paper or an M.A. thesis. They also must take a research seminar during their first two semesters in residence at Iowa.

Ph.D. students must complete at least seven graduate-level Department of History courses numbered 6000 or above, earning 3 or 4 s.h. of credit for each course. The courses must be research seminars (minimum of two) and graduate readings courses (minimum of five). At least five of the seven courses must be completed before a student takes the comprehensive examination. Courses taken at the M.A. level may be counted toward this requirement. Prior to completing the Ph.D., all students in the program must complete all three required courses: HIST:6001 First-Year Graduate Colloquium, HIST:6002 History Research Methods, and HIST:6003 History Theory and Interpretation. These courses develop an understanding of the philosophy of history, historiography, and methods of historical research.

The department has no general language requirement for the Ph.D., but the supervising faculty member may require a student to demonstrate a reading knowledge of one or more foreign languages and proficiency in the use of other study tools. Students may not complete the comprehensive examination until these requirements have been met.

The comprehensive written and oral examination covers three distinct fields. Two of the fields must be in a major division chosen from the following divisions:

- Africa
- East Asia
- South Asia
- Europe, early modern
- Europe, medieval
- Europe, modern
- Latin America
- The Middle East
- The United States
- World/Global

Students may construct another field, subject to approval by the comprehensive exam committee.

The third field must be a division outside a student's major division or a field from a related department outside history. The committee may define and delimit the individual fields for examination. It also may set, separately for each field, the character of the written portion of the comprehensive examination, which may take the form of a syllabus, a critical bibliography, a topical paper, a portfolio, or any other form or combination of forms that the committee deems suitable. The oral portion of the comprehensive examination focuses on issues and problems arising from the examination papers.

The candidate must submit to the dissertation committee a written prospectus for the dissertation no later than the semester following completion of the comprehensive exams. The committee consists of at least five members, including at least one member from outside the department. It considers the prospectus and may approve it, reject it, or require its revision. When the dissertation is completed in final form, the committee administers the final examination for the doctorate, a formal oral defense of the dissertation that usually lasts two hours.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must submit academic transcripts and Graduate Record Examination (GRE) General Test scores. They also must submit examples of original writing to the history department, such as a term paper, a seminar paper, an honors thesis, or a master's essay (applicants to the Ph.D. program); letters of recommendation from three persons familiar with the student's past academic work; and a one- or two-page personal statement of the applicant's purpose for doing graduate work. All application materials are due by January 15 for entry the following August.

Career Advancement

Graduate study in history prepares students for occupations such as secondary or college teaching, publishing, commercial research, foundations and nongovernmental organizations, and government or other public service. With additional specialized training, students may become qualified for careers in historical site preparation and display, or archival, library, or museum work.

The University of Iowa’s history graduates who earn a Ph.D. have an excellent history of job placement, depending on their area of study. Graduate & Postdoctoral Career Services offers multiple resources to assist students in preparing for job opportunities upon completion of the program.
Interdepartmental Studies

Director, Division of Interdisciplinary Programs

• Helena R. Dettmer

Coordinator, Interdepartmental Studies

• Andy Tinkham

Undergraduate major: interdepartmental studies (B.A.)

Faculty: https://clas.uiowa.edu/interdepartmental-studies/people

Website: https://clas.uiowa.edu/interdepartmental-studies/

The Interdepartmental Studies Program (ISP) provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes course work from a variety of departments.

Since the major in interdepartmental studies affords opportunities outside the traditional degree pattern, students must create or choose study programs that meet their individual educational and career objectives. Those who plan to seek employment immediately after graduation should familiarize themselves with the educational background and qualifications required by employers and should include appropriate courses in their study programs.

Students preparing for advanced study should become familiar with the admissions requirements of graduate or professional schools that interest them. The earlier students decide to pursue graduate or professional study, the easier it is to complete necessary prerequisites.

The Interdepartmental Studies Program is one of the academic units in the Division of Interdisciplinary Programs [p. 309].

Programs

Undergraduate Program of Study

Major

• Major in Interdepartmental Studies (Bachelor of Arts) [p. 555]

Courses

Interdepartmental Studies Courses

INTD:3005 Professional and Creative Business Communication 3 s.h.

Solid foundation for creative and professional communication in today’s modern work world; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as CW:3005.

INTD:3020 Equity Issues in the Health Sciences 3 s.h.

Examination of equity issues in the health sciences, including a review of the historical challenges that led to Human Subjects Review Boards, FDA oversight of drug development and clinical trials, inclusion of women in research; effect of situational ethics in the workplace; potential danger of making assumptions about clients/patients; importance of developing an inclusive communication style; assessing the effectiveness of family-friendly employment policies in providing equitable opportunities for career advancement for both women and men. Recommendations: junior or senior standing. Same as HHP:3000.

INTD:3027 Nutrition for Health, Fitness, and Sport 3 s.h.

Effects of exercise and nutrition on health- and sports-related fitness; for professionals in health and physical education. Same as HHP:3020.

INTD:3030 Coaching for Health and Wellness 3 s.h.

Opportunities to expand knowledge and develop skills to help individuals change behavior and meet health-related goals; general health and wellness principles; principles and techniques for change; experience providing health-coaching services to clients. Prerequisites: HHP:2200 and HHP:2310. Same as HHP:3030.

INTD:3107 Creative Writing for the Health Professions 3 s.h.

GE: Engineering Be Creative. Same as CW:3107.

INTD:3200 Creative Writing for New Media 3 s.h.

Prepares creative writers for evolving marketplace of electronic text, media; experience writing in varied media such as the Internet, e-books, video games, mobile devices, emergent social narratives. GE: Engineering Be Creative. Same as CW:3218.

INTD:3210 Creative Writing and the Natural World 3 s.h.

How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. GE: Engineering Be Creative. Same as CW:3210.

INTD:3300 Creative Writing and Popular Culture 3 s.h.

Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as CW:3215.
INTD:3510 Introduction to Arts Management  3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as DPA:3510, THTR:3510.

INTD:3520 New Ventures in the Arts  3 s.h.

INTD:4098 Independent Study  arr.
Individual study of issues or topics related to a specific interdepartmental focus chosen by the student.

INTD:4099 Interdepartmental Studies Practicum  arr.
Opportunity to relate a student’s chosen area of study to practical application. Requirements: interdepartmental studies student.

INTD:4510 Arts Leadership Seminar  3 s.h.
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000 or THTR:3520. Same as DPA:4510, ENTR:4510, THTR:4510.
Interdepartmental Studies, B.A.

Requirements

The Bachelor of Arts with a major in interdepartmental studies requires a minimum of 120 s.h., including at least 36-41 s.h. of work for the major (total semester hours required depends on the track). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students choose one of five tracks for the major: applied human services, business studies, engaged social innovation, health science, or an individualized plan of study. The engaged social innovation and the individualized plan of study tracks are selective; students must apply and be admitted to these tracks before they may declare them. The other three tracks are open; students may declare them without an application.

Students who choose the individualized plan of study track design their own major. Those admitted to the engaged social innovation track complete a common core, plan and complete an internship, and design their remaining course work to support the internship. Students who choose the applied human services track, business studies track, or health science track follow a preapproved study plan, which includes foundation course work (25-26 s.h.), the elective component (9 s.h.), and the internship (0 s.h.).

Students who choose the aging services emphasis must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

Applied Human Services Track

Students in the applied human services track may not earn a minor in human relations.

The applied human services track requires 37-38 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized psychology background with a choice of three emphasis areas: aging services, community-based services, and corrections services. Students who choose this track also have the option of proposing their own human services-related emphasis area to the faculty advisory committee.

Applied human services track students must complete foundation course work (25-26 s.h.) and one emphasis area (12 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises applied human services track students; contact the center for more information about requirements.

Foundation Courses

Psychology core—both of these:
PSY:1001 Elementary Psychology 3
PSY:2810 Research Methods in Psychology 4
or PSY:2811 Research Methods and Data Analysis in Psychology I 3

Human relations core—all of these:
CCCC:2220 Foundations of Critical Cultural Competence 3
or RCE:4197 Citizenship in a Multicultural Society 3
RCE:4195 Ethics in Human Relations and Counseling 3
RCE:4199 Counseling for Related Professions 3

Psychology electives—three of these:
PSY:2301 Introduction to Clinical Psychology 3
PSY:2401 Introduction to Developmental Science 3
PSY:2501 Introduction to Social Psychology 3
PSY:2601 Introduction to Cognitive Psychology 3
PSY:2701 Introduction to Behavioral Neuroscience 4

Aging Services Emphasis

Students who choose the aging services emphasis area may not earn the Certificate in Aging Studies.

Students must earn 12 s.h. in their chosen emphasis area. Students who choose the aging services emphasis must complete the foundation component (3 s.h.), the elective component (9 s.h.), and the internship (0 s.h.).

Foundation Component

Elective Component

Select 9 s.h. of electives from these:
ASP:2181 The Anthropology of Aging 3
ASP:3135/SSW:3135/GHS:3050
ASP:3150 Psychology of Aging 3
Interdepartmental Studies, B.A.

**Business Studies Track**  
Students in the business studies track may not earn a business administration minor.  
The business studies track requires a minimum of 37 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized business background with a choice of three emphasis areas: workplace practices and perspectives, values and ethics, and arts management. Students who choose this track also have the option of proposing their own business-related emphasis area to the faculty advisory committee.  

Business studies track students must complete foundation course work (at least 17 s.h.), business electives (at least 5 s.h.), and one emphasis area (15 s.h.). They must complete a minimum of 15 s.h. of work for the major at the University of Iowa. The Academic Advising Center advises business studies track students; contact the center for more information about requirements.  

**Foundation Courses**

Foundational accounting—one of these:  
ACCT:2100  Introduction to Financial Accounting  3  
ENTR:1350  Foundations in Entrepreneurship (if not used as business elective)  2  

**Business Electives**  
Students complete two electives from the following list.  
ACCT:2200  Managerial Accounting  3  
ECON:2800  Statistics for Strategy Problems  3  
FIN:3000  Introductory Financial Management  3  
MGMT:2000  Introduction to Law  3  
MGMT:2100  Introduction to Management  3  
MSCI:3000  Operations Management  3  
May include one of these:  
ENTR:1350  Foundations in Entrepreneurship (if not used for foundational accounting requirement)  2  
MKTG:3000  Introduction to Marketing Strategy  3  
May include one of these:
Workplace Practices and Perspective Emphasis

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the workplace practices and perspectives emphasis must complete at least one course from each of four components (speaking and writing, foundations and practices, cultural diversity, and entrepreneurship). The required 15 s.h. must include 9 s.h. earned in advanced courses. Advanced courses for each component are listed below.

Speaking and Writing Component

**Values and Ethics Emphasis**

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the values and ethics emphasis must complete at least two courses from each of the two components (values and theories, institutions and policies).

**Values and Theories Component**

At least two of these: 6
JMC:3300 Foundations of the First Amendment 3
PHIL:1033 The Meaning of Life 3
PHIL:1034 Liberty and the Pursuit of Happiness 3
PHIL:2402 Introduction to Ethics 3
PHIL:2435 Philosophy of Law 3
POLI:1200 Introduction to Political Behavior 3
POLI:1300 Introduction to Political Thought and Action 3
POLI:3400 Introduction to Political Economy 3
POLI:3700 Strategy in Politics 3
SOC:1420 Law and Society 3

**Institutions and Policies Component**

At least two of these: 6
CRIM:1410 Introduction to Criminology 3
CRIM:3450 Criminal Legal System 3
PHIL:1401 Matters of Life and Death 3
PHIL:2432 Introduction to Political Philosophy 3
POLI:3101 American Constitutional Law and Politics 3
POLI:3102 The U.S. Congress 3
POLI:3108 American Political Development 3
POLI:3111 American Public Policy 3
POLI:3116 The Presidency 3
POLI:3117 Administrative Politics and Policy 3
POLI:3120 The Criminal Justice System 3
POLI:3121 The Judicial Process 3
POLI:3202 Political Psychology 3
SOC:2810 Social Inequality 3
Arts Management Emphasis

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the arts management emphasis must complete two courses from the administration component, one course from the history component, 3 s.h. from the production component, 3 s.h. from the elective component, and the internship (0 s.h.).

Administrative Component

**Engaged Social Innovation Track**

The engaged social innovation track requires 37 s.h. of work for the major. The interdepartmental studies major with the engaged social innovation track is available only as a second major for qualified students. The track combines course work and experiential learning with a student-designed capstone internship. By focusing on course work with a strong hands-on component, the track encourages students to learn in multiple ways, both in and out of the classroom, and prepares them to bring social change and innovation to communities.

Admission to the engaged social innovation track is selective; students must apply and be admitted. Applicants must have a g.p.a. of 3.33 and must be members of the University of Iowa Honors Program when they apply to the track. They also must have declared a first major and must show evidence of commitment to community engagement and service. Their work for the engaged social innovation track constitutes a second major related to their other academic interests.

Engaged social innovation students complete core courses, upper-level course work, and a capstone internship preceded by a course or experience that prepares them for the internship.

**Upper-Level Course Work**

Students select upper-level courses numbered 3000 or above that reflect and support their internship project.
Internship

Students complete an internship (12 s.h.) preceded by a course or experience that prepares them for it.

One course or experience in preparation for the internship 3
INTD:4098 Independent Study 12

Health Science Track

The health science track requires 37 s.h. of work for the major. It provides a preapproved plan of study that combines a generalized health background with a varied choice of emphasis areas: multidisciplinary science, entrepreneurial, aging, global health, cultures of healing, and writing for the sciences. Students who choose this track also have the option of proposing their own health science-related emphasis area to the faculty advisory committee.

Health science track students must complete foundation course work (22 s.h.) and one emphasis area (15 s.h.). They must complete a minimum of 15 s.h. for the major at the University of Iowa. The Academic Advising Center advises health science track students; contact the center for more information about requirements.

Foundation Courses 22
Emphasis Area 15
Total Hours 37

Foundation Courses

Foundational chemistry:
CHEM:1070 General Chemistry I 3
or CHEM:1110 Principles of Chemistry I
CHEM:1080 General Chemistry II 3-4
or CHEM:1120 Principles of Chemistry II

Foundational biology—one of these:
BIOL:1140 Human Biology 4
BIOL:1141 Introductory Animal Biology 4
BIOL:1411 Foundations of Biology 4

Foundational math and statistics—one of these:
MATH:1020 Elementary Functions 4
MATH:1380 Calculus and Matrix Algebra for Business 4
MATH:1440 Mathematics for the Biological Sciences 4
MATH:1460 Calculus for the Biological Sciences 4
MATH:1850 Calculus I 4
STAT:1020/PSQF:1020 Elementary Statistics and Inference 3
STAT:1030 Statistics for Business 4
STAT:3510 Biostatistics 3
STAT:4143 Introduction to Statistical Methods 3

Foundational social science—one of these:
ANTH:1101 Cultural Anthropology 3
ANTH:2100 Anthropology and Contemporary World Problems 3
PSY:1001 Elementary Psychology 3
SOC:1010 Introduction to Sociology 3-4
SOC:1020 Social Problems 3-4

Foundational science elective—one of these:
ACB:3110 Principles of Human Anatomy 3
ACB:3113 Human Anatomy Online 4
BIOL:1412 Diversity of Form and Function 4
HHP:1100 Human Anatomy 3

Foundational elective—one of these:
HHP:1300 Fundamentals of Human Physiology 3
HHP:2310 Nutrition and Health 3
HHP:3000/INTD:3020 Sciences 3
HHP:3400 Applied Exercise Physiology 3
HHP:3500 Human Physiology 3
HHP:4440 Physiology of Nutrition 3
NURS:1030 Human Development and Behavior 3
PSY:2401 Introduction to Developmental Science 3
SRM:1045 Health for Living 3

Multidisciplinary Science Emphasis

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the multidisciplinary science emphasis must complete 15 s.h. from the following list.

BIOC:3110 Biochemistry 3
BIOC:3120 Biochemistry and Molecular Biology I 3
BIOC:3130 Biochemistry and Molecular Biology II 3
BIOL:2254 Endocrinology 3
BIOL:2512 Fundamental Genetics 4
BIOL:2723 Cell Biology 3
BIOL:2753 Introduction to Neurobiology 3
CW:3107/INTD:3107 Creative Writing for the Health Professions 3
HHP:3020/INTD:3027 Nutrition for Health, Fitness, and Sport 3
MICR:2157 General Microbiology 5

May include one of these:
INTD:4098 Independent Study arr.
INTD:4099 Interdepartmental Studies Practicum arr.

May include one of these:
CHEM:2210 Organic Chemistry I 3
CHEM:2230 Organic Chemistry I for Majors 3

May include one of these:
CHEM:2220 Organic Chemistry II 3
CHEM:2240 Organic Chemistry II for Majors 3

May include one of these:
CHEM:2410 Organic Chemistry Laboratory 3
CHEM:2420 Organic Chemistry Laboratory for Majors 3

May include one of these:
MICR:3112 Pharmacy Microbiology 4
MICR:3164 Nursing Microbiology 4

May include one of these:
HHP:2310 Nutrition and Health (if not used to fulfill foundation requirement) 3

INTD:4099 Interdepartmental Studies Practicum (only 3 s.h. may count toward major) 3

**Cultures of Healing Emphasis**

Students must earn 15 s.h. in their chosen emphasis area. Students who choose the cultures of healing emphasis must complete the foundation component (3 s.h.) and the elective component (12 s.h.). The elective component must include 6 s.h. earned in advanced courses.

**Foundation Component**

CLSA:1181/ GHS:1181 Ancient Medicine 3
or CLSA:4181 History of Western Medicine

**Elective Component**

Students complete 12 s.h. of electives from the following lists of lower level and advanced courses, with a minimum of 6 s.h. from the advanced courses list.

**Lower-level courses—maximum of 6 s.h. from these:**
- RELS:2700/ AINS:2700 Sacred World of Native Americans 3
- RELS:2771/ GWSS:2771 Sexual Ethics 3
- RELS:3976/ AINS:3276 American Indian Environmentalism 3

**Lower-level courses may include one of these:**
- ANTH:1101 Cultural Anthropology 3
- ANTH:2100 Anthropology and Contemporary World Problems 3

**Advanced courses—at least 6 s.h. from these:**
- INTD:3020/ HHP:3000 Equity Issues in the Health Sciences 3
- INTD:3107/ CW:3107 Creative Writing for the Health Professions 3
- ANTH:2261 Human Impacts on the Environment 3
- ANTH:3101/ GWSS:3101 Anthropology of Sexuality 3
- ANTH:3102/ GHS:3102/ CBH:3102 Medical Anthropology 3
- ANTH:3103 Environment and Culture 3
- ANTH:3110/ AINS:3110/ GHS:3110 Health of Indigenous Peoples 3
- ANTH:3111/ GHS:3040 Health in Mexico 3
- ANTH:3300/ GWSS:3300 Mothers and Motherhood 3
- ANTH:4140/ GWSS:4140/ CBH:4140 Feminist Activism and Global Health 3
- CLSA:3440/ RELS:3340 Recovering Eden: The Afterlife in Early Judaism and Christianity 3
- CLSA:3750 Medical and Technical Terminology 2

- CLSA:4181 History of Western Medicine (if not used to fulfill foundation requirement) 3
- HIST:4201/ ASL:4201 History of the American Deaf Community 3
- HIST:4203 Disability in American History 3
- HIST:4605 Disease, Politics, and Health in South Asia 3
- RELS:3580/ ANTH:3113 Religion and Healing 3
- RELS:3666 The History of a Religious and Spiritual Practice: Yoga in Asia and Beyond 3

**Writing for the Science Emphasis**

Students must complete 15 s.h. in their emphasis area. Students who choose the writing for the sciences emphasis must complete the foundation component (6 s.h.) and the elective component (9 s.h.).

**Foundation Component**

One of these:
- CLSA:1740 Writing Strategies: Word Origins and Word Choice 3
- CLSA:3742 Word Power: Building English Vocabulary 3

One of these:
- CNW:3632 Prose Style 3
- CW:4745 The Sentence: Strategies for Writing 3
- RHET:2095 Fundamental Strategies of Persuasion 3

**Elective Component**

Select 9 s.h. from these:
- CNW:2730 The Art and Craft of Science Writing 3
- CNW:3664 Writing About Science 3
- HHP:3900 Writing for Health and Human Physiology 3
- POLI:3107 Writing in Political Science: Writing for "Science" and for "Politics" arr.
- RHET:3140 Nature and Society: Controversies and Images 3
- RHET:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3
- RHET:3700 Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience 3

**Individualized Plan of Study Track**

The individualized plan of study track requires a minimum of 36 s.h. of work for the major, all taken at the University of Iowa. Students who choose this track build their own study plan, creating a unique major that speaks to interests across departments and that integrates varied approaches to a
particular topic (e.g., aging studies, international business, children’s studies, environmental issues, health issues).

Students must submit their study plan for approval. The plan must include an essay that provides a clear statement of the area of intellectual focus; the reasons for preferring the Interdepartmental Studies Program (ISP) to any departmental program; a concrete discussion of how the advanced courses relate to each other, to personal interests, and to the central focus of the study plan; a description of academic goals for the bachelor's degree; a list of advanced-level course work already completed; and a list of advanced-level course work planned for all remaining semesters.

Each study plan is approved by a faculty advisory committee. Reviews are held once a semester. Deadlines are posted on the Interdepartmental Studies Program website.

If the advisory committee does not grant approval, the study plan may be returned to a student for revisions and resubmission at the next committee meeting. In some cases, a student may be referred to an appropriate departmental major.

Once the study plan is approved, a student is required to follow the plan, taking the courses approved for it. A limited number of substitutions may be allowed, but only if they are clearly consistent with the area of intellectual focus in the approved study plan, and only if they are approved in advance by the ISP advisor. Unauthorized substitutions may be designated as elective course work.

Significant changes in the focus of a student’s study plan require the submission and approval of a revised study plan. A student’s academic advisor determines whether changes warrant a revised plan.

See the Interdepartmental Studies Program website for up-to-date information on the individualized plan of study track and rules for submission of study plans.

Students who choose the individualized plan of study track are advised by the ISP coordinator; they work closely with the Interdepartmental Studies Program office while designing the study plan. Students who intend to submit a study plan should contact the ISP coordinator as early as possible.

Honors in the Major

Students majoring in interdepartmental studies have the opportunity to graduate with honors in the major; they usually complete the honors requirements of a particular department or program appropriate to their area of study. Students should initiate inquiries about graduating with honors in the interdepartmental studies major by contacting the ISP coordinator; they should inquire early in their junior year to allow time for foundation course work. Students must submit an honors project approval form to the ISP coordinator.

Honors students in interdepartmental studies must be members of the University’s honors program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University of Iowa Honors Program.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is available only to Interdepartmental Studies Program (ISP) students in the individualized plan of study track. Students in the other ISP tracks work with their advisors to develop individual graduation plans.

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major.

Before the seventh semester begins: an approved individualized plan of study, at least six courses in the plan of study, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: a total of at least nine courses in the plan of study

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Graduates in the applied human services, business studies, engaged social innovation, health science, and writing for the sciences tracks have career options in a variety of settings, including retirement homes, hospitals, health clubs, government agencies, insurance companies, and performing arts companies.

Students who create individualized plans of study at the University of Iowa stand out when they apply for jobs because their major emphasizes a unique set of strengths and interests. In addition, employers often are impressed by their enthusiasm and self-directed nature.

Many interdepartmental studies majors go on to graduate school.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
International Business

Coordinators

• Jennifer E. Bertrand (College of Liberal Arts and Sciences), Matthew C. Edwards (Tippie College of Business)

Undergraduate certificate: international business
Website: https://tippie.uiowa.edu/current-students/undergraduates/academics/certificates/international-business-certificate

The Tippie College of Business and the College of Liberal Arts and Sciences offer the undergraduate Certificate in International Business. The program is designed for students who intend to pursue careers in international business as well as those interested in gaining a better understanding of the global economy and a broader awareness of the political, historical, and social environment in which international business operates.

Programs

Undergraduate Program of Study Certificate

• Certificate in International Business (p. 568)
International Business, Certificate

The Certificate in International Business requires a minimum of 29 s.h. and satisfaction of the certificate's world language or study abroad requirement (total credit depends on a student's choice of world language or study abroad experience). In addition to a world language or study abroad, the program includes study of international business and economics, international relations and institutions, and the contemporary art, literature, culture, and/or politics of one of several geographical regions (Asia, Europe, Latin America, Middle East/Africa, or Russia/Eastern Europe). The range of courses permits students to tailor areas of specialization suited to their individual interests and to complement majors in business and in liberal arts and sciences.

The certificate program is open to current University of Iowa undergraduate students and to all individuals who are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students should declare their intention to earn the certificate as early as possible and talk with an advisor about certificate requirements. They must submit an individual plan of study. Tippie College of Business students should talk with the advising staff at the college's Undergraduate Program Office; College of Liberal Arts and Sciences students should talk with a Certificate in International Business advisor at the Academic Advising Center. Individuals who hold a bachelor's degree from another institution should contact the University's Office of Admissions.

A minimum of 20 s.h. of certificate course work (other than language courses) must be completed at the University of Iowa or in approved study abroad programs. Students who plan to count study abroad credit toward the certificate should consult a Certificate in International Business advisor before leaving campus.

Certificate courses may not be taken pass/nonpass. A course may not be used to satisfy more than one certificate requirement.

The Certificate in International Business requires the following course work.

| International Business Courses | 17 |
| International Relations and Institutions Courses | 6 |
| One of these: | 0-20 |
| World Language (0-20 s.h.; depending on student's background) | |
| Study Abroad Experience (3 s.h.) | |
| Area Studies Courses | 6 |
| Total Hours | 29-49 |

International Business

These courses provide students with an essential understanding of economics, which is central to all business operation. They also help students develop knowledge of the functional areas of international business.

Both of these:

| ECON:1100 | Principles of Microeconomics | 4 |
| ECON:1200 | Principles of Macroeconomics | 4 |

Three of these (total of 9 s.h.):

| BUS:2450 | Business and Culture in China | 3 |
| ECON:3345 | Global Economics and Business | 3 |
| ECON:3620 | Economic Growth and Development | 3 |
| ECON:4110 | International Economics | 3 |
| ENTR:4460 | Entrepreneurship and Global Trade | 3 |
| FIN:4240 | International Finance | 3 |
| MKTG:4300 | International Marketing | 3 |
| LAW:8600 | International Business Transactions | 3 |
| LAW:8631 | International Trade Law: Basic Norms and Regulations | 3 |

One of these may be counted toward the 9 s.h. requirement above:

| CHIN:3103 | Business Chinese I | 3 |
| FREN:3410 | Business French | 3 |
| GRMN:3214 | Business German | 3 |
| JPN:3500 | Business Japanese I | 3 |
| PORT:3130 | Business Portuguese | 3 |
| SPAN:3040 | Business Spanish | 3 |

International Relations and Institutions

These courses familiarize students with comparative politics, social geography, foreign policy, and issues related to world population and the environment—topics relevant to decision making in the international business world.

Two of these (total of 6 s.h.):

<p>| ANTH:1040/ LING:1040 | Language Rights | 3 |
| ANTH:2100 | Anthropology and Contemporary World Problems | 3 |
| ANTH:2103/ GHS:2000 | Introduction to Global Health Studies | 3 |
| ANTH:2136 | Urban Anthropology | 3 |
| ANTH:3103 | Environment and Culture | 3 |
| ANTH:3130 | Cultural Politics | 3 |
| ANTH:3131 | Anthropology and Human Rights | 3 |
| ANTH:4130/ RELS:4730 | Religion and Environmental Ethics | 3 |
| CRIM:3415 | Global Criminology | 3 |

**World Language or Study Abroad Experience**

Certificate students gain insight into the culture of another world region and deepen their understanding of their own
language and culture by learning a world language or completing a study abroad experience.

Students who choose language study are required to develop intermediate-level competence in a language that is spoken in one of several geographic regions (Asia, Europe, Latin America, Middle East/Africa, or Russia/Eastern Europe) by completing one of the approved language sequences below.

Students who choose to complete a study abroad experience are expected to coordinate it with the course work they use to fulfill the certificate's area studies requirement (see "Area Studies" below). They must earn at least 3 s.h. of graded credit for the study abroad experience.

For questions about languages not listed or about study abroad course work, see a Certificate in International Business advisor.

<td></td>
</tr>
</tbody>
</table>
SLAV:2111- SLAV:2112: Second-Year Russian I-II
And:
One course for which SLAV:2112 is prerequisite

**Spanish**

One of these:
- SPAN:1001-SPAN:1002: Elementary Spanish I-II (both courses)
- SPAN:1003: Elementary Spanish Review

One of these:
- SPAN:1501-SPAN:1502: Intermediate Spanish I-II (both courses)
- SPAN:1503: Accelerated Intermediate Spanish

And:
One course for which SPAN:1502 or SPAN:1503 is prerequisite

**Swahili**

All of these:
- SWAH:3001-SWAY:3002: Elementary Swahili I-II
- SWAH:3003-SWAY:3004: Intermediate Swahili I-II

**Area Studies**

Area studies topics are critical to students’ understanding of how society and culture influence the people with whom they share the world—and with whom they may conduct business. The following courses help students learn about the culture, contemporary history, art, literature, and politics of a specific geographic region.

Students complete 6 s.h. from one geographic region. They should select a region that is related to their chosen world language or study abroad experience.

**Asia**

Appropriate for these languages: Chinese, Hindi-Urdu, Japanese, or Korean.
- ANTH:2108/GWSS:2108: Gendering India

International Studies

Director, Division of Interdisciplinary Programs
• Helena R. Dettmer

Director, International Studies
• Emily A. Wentzell (Anthropology)

Coordinator, International Studies
• Karmen Berger

Undergraduate major: international studies (B.A.)
Undergraduate minor: international studies
Facility: https://clas.uiowa.edu/international-studies/tracksfaculty
Website: https://clas.uiowa.edu/international-studies/

The International Studies major encourages students to integrate theoretical knowledge about broad global processes, and the methods used to study them, with in-depth examination of a particular geographical region or a major theme in international studies. The major affords students the opportunity to integrate the study of history, politics, economics, expressive arts, culture, beliefs, and social systems.

International Studies is one of the academic units in the Division of Interdisciplinary Programs [p. 309].

Programs

Undergraduate Programs of Study

Major
• Major in International Studies (Bachelor of Arts) [p. 579]

Minor
• Minor in International Studies [p. 599]

Courses

International Studies Courses

IS:1000 Designing Your International Studies Major 1 s.h.
Importance of interdisciplinarity, global perspectives, and world language study for 21st-century liberal education; intentional planning of courses and other out-of-class experiences to prepare students for life and career after college.

IS:1101 Cultural Anthropology 3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values, Society, and Diversity. Same as ANTH:1101.

IS:2000 Introduction to International Studies 3 s.h.
Introduction to the interdisciplinary field of international studies. GE: International and Global Issues.

IS:2009 World Travel: Cross-Cultural Skills for International Business, Education, and Service 1-3 s.h.
Cross-cultural skills and ethics for international business, education, and service.

IS:2012 Issues in International Studies 1 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

IS:2013 Issues in International Studies 1-3 s.h.
Modules focusing on varied topics, taught by international studies faculty members.

IS:2014 Germany and the Amanas 1 s.h.
Contemporary issues of Germany, patterns of immigration to Amana, Iowa.

IS:2015 Poland and the Czech Republic 1 s.h.
Contemporary issues of Poland, the Czech Republic, and Slovakia; immigration paths to the United States, and Iowa settlements.

IS:2016 The Netherlands and Pella 1 s.h.
History and culture of the Netherlands; immigration pattern of the Dutch who came to Pella, Iowa.

IS:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, SSW:2042.

IS:2111 Developed and Developing Places 3 s.h.
Geography and the world distribution of key cultural factors--population, religion, and per capita income; economic and demographic differences between developed and developing countries.

IS:2112 The European Union 3 s.h.
Brief history and rationale for the European Union; environmental, economic, social, and political aspects of this potential superpower.

IS:2115 Introduction to Human Rights 3 s.h.
Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as HRTS:2115.

IS:2120 World History: Stone Age to Feudal Age 3 s.h.
World history from human origins, through classical antiquity, to the 16th century; political, economic, and environmental forces contributing to social transformations. Same as HIST:2120.

IS:2122 World History: Feudal Age to Nuclear Age 3 s.h.
World history from the late 1400s to 1945; colonialism, imperialism, capitalism, and industrialization as forces of global social and cultural transformation. Same as HIST:2122.

IS:2500 Working Internationally 1 s.h.
Information on international job sectors; presentations by experts in the field; advice on what is required to work internationally.

IS:2600 Muslim Minorities in the West 3-4 s.h.
Introduction to lives of Muslim immigrants in the USA, France, Germany, and England; examination of various theories on multiculturalism. Taught in English. GE: Values, Society, and Diversity. Same as GRMN:2655.

IS:2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as COMM:2800, LAS:2700, PORT:2700, SPAN:2700.
IS:3009 International Perspectives: Xicotepec 2-3 s.h.
Introduction to provision of service to a community in a less-developed country; development of discipline-specific projects aimed at improving community life in Xicotepec, Mexico in collaboration with Rotary International; cultural and professional preparation for team work in an international environment; service-learning course requiring travel to Xicotepec, Mexico during spring break.

IS:3010 Creating a Proposal for International Research 2 s.h.
Major components of research process; development of intellectually challenging and personally engaging topics of international research. Requirements: junior or higher standing.

IS:3011 Library Strategies for International Research 1 s.h.
Skill development in international research; academic projects; work with research librarian; activity-based introduction to article, statistical, and governmental databases; research and popular materials; information discovery process (tools and search strategies); enhancement of critical thinking skills. Same as ULIB:3011.

IS:3020 Writing Projects in International Studies 1-3 s.h.
Writing project on a subject specified by supervising faculty member; available only in conjunction with a regularly offered course.

IS:3116 Communication-Based Approaches to International Development 3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as JMC:3116.

IS:3199 Global Environmental Politics 3 s.h.
Survey of major environmental crises and conflict between environmental groups and their detractors; climate change, global warming, loss of biodiversity, pollution, toxins, nuclear power, deforestation.

IS:3200 Political Economy of International Development 3 s.h.
Overview of development theory and debate; increasing role of China and other new players in development funding and projects; development-oriented projects, career paths.

IS:3333 Economics and Religion: Banking, Business, and Finance in Islamic and Modern Societies 3 s.h.
Origins, functions, and impact of Islamic and related religions' ideas and practices in the realms of economic development, financial services and products, business models, and matters of social justice. Same as RELS:3333.

IS:3550 Special Topics in International Studies 1-3 s.h.
Special topics related to international studies.

IS:3555 Understanding Health and Disease in Africa 3 s.h.
Cultural, historical, and political framework for the delivery of health care services in African nations. Recommendations: junior or higher standing. Same as GHS:3555, HIST:3755.

IS:3600 Development in a Global Context I: Preparing for an Internship in Health, Gender, and Environment 1 s.h.
Students work with a UI faculty mentor to articulate an international development project and apply to an international development organization for an internship; students are matched to an organization/project and begin preparation for their internship by communicating with onsite mentor/supervisor.

IS:3700 Development in a Global Context II: Reflections on Real World Interventions 2 s.h.
Students produce a research paper analyzing their personal internship in an international development program.

IS:3745 Islam in Africa 4 s.h.
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as HIST:3745, RELS:3845.

IS:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Same as JMC:3146, RELS:3834, WLLC:3834.

IS:3855 Human Rights and Islam 3 s.h.
Human rights in religious and secular discourse, seventh century to present; Islamic law, human rights law, religion, politics. GE: International and Global Issues. Same as RELS:3855.

IS:3900 Child Labor and International Human Rights 3 s.h.
Complexity of child labor in global, regional, national, and local contexts; international human rights system, current programs and strategies for reducing or eliminating abusive child labor. Same as HRTS:3900.

IS:3905 Topics in Human Rights 1-3 s.h.
Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as HRTS:3905.

IS:3910 Human Rights Advocacy 3 s.h.
Theoretical foundations and critical issues for international human rights advocacy and international humanitarian movements. Same as HRTS:3910.

IS:3990 Independent Study in International Studies arr.
Research on a topic of international significance. Requirements: international studies major.
IS:4131 Globalization and Culture 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships.

IS:4142 Advanced Intercultural Communication 3 s.h.
Defining culture as a historically-transmitted, socially-constructed system of meaning enacted in face-to-face interaction and mass media; focus on a specific topic within intercultural communication research and theory (i.e., cultural nature of personal relationships, built environment as culture, intersection of private with public cultural meaning); in-depth follow-up of general approach to intercultural communication covered in lower-level courses.

IS:4653 Law and Society in Late Imperial and Modern China 3 s.h.
Survey of legal system of China and Chinese society from 1400 to 1980s. Same as HIST:4653.

IS:4990 International Studies Senior Project 3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.

IS:4991 Honors Thesis in International Studies 3 s.h.
Prerequisites: IS:3010. Requirements: international studies major.
International Studies, B.A.

The international studies major is interdisciplinary. It is designed to help students learn to appreciate world cultures, focus on themes of global significance, and master varied disciplinary approaches used to study international issues. The program complements a wide range of academic degree programs and is an appropriate choice for many students who plan to pursue a double major.

Requirements

The Bachelor of Arts with a major in international studies requires a minimum of 120 s.h., including at least 42 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The major in international studies is flexible, drawing on courses across the humanities, social sciences, and the arts. Students work closely with an academic advisor to plan their program of study.

Work for the major includes two introductory courses, three foundation courses, language study beyond that required by the General Education Program, requirements for one of the major's three program options (A, B, or C), and required course work in one of the major's tracks.

International studies students must complete course work from at least four different departments and/or programs; they may count a maximum of 12 s.h. from any department or program toward the major. Students may apply up to 12 s.h. of course work from each additional major, minor, or certificate they earn toward the international studies major. Transfer credit approved by the International Studies Program may be applied to the major. Students must complete at least 15 s.h. of work for the major at the University of Iowa.

Students who earn the major in international studies and wish to earn a major in global health studies can do so as long as they select a track in international studies other than the global health studies track.

The B.A. with a major in international studies requires the following course work:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>

</tr>
</thead>
<tbody>
<tr>
<td>CL:1240</td>
<td>Major Texts of World Literature, Antiquity to 1700</td>
<td>3</td>
</tr>
<tr>
<td>CL:1241</td>
<td>Major Texts of World Literature, 1700 to the Present</td>
<td>3</td>
</tr>
</tbody>
</table>

Language Requirement

All students must complete a minimum of two semesters of language study beyond that required by the General Education Program. This additional language requirement may be met either by completing two semesters of upper-level study in the same language used to fulfill the General Education Program’s World Languages requirement or by completing two semesters, or the equivalent, of a second world language at any level.

In fulfilling the language requirement, most students are eligible to receive an additional 4 s.h. of ungraded credit under the Furthering Language Incentive Program (FLIP). This credit may be applied to the minimum 120 s.h. required for graduation, but it does not count toward requirements for the international studies major.

Tracks

Students complete their choice of one of the major’s tracks. Each track requires a minimum of 18 s.h. of course work, including at least 12 s.h. earned in courses numbered 3000 or above. Students may not count their foundation courses toward track requirements.

Students may petition the International Studies Program for permission to include a course that is not on the list of courses approved for their track; they must submit their petition by the semester’s specified deadline date.

With the International Studies Program’s approval, students may develop other tracks for which sufficient courses exist. Students interested in developing a unique track should
discuss their ideas with the international studies advisor as soon as possible.

International studies majors completing the Certificate in Global Health Studies, International Business, or Latin American Studies or the minor in global health studies or Latin American studies may not choose an international studies track that corresponds with those certificate(s) or minor(s). Tracks are listed under “Tracks and Approved Courses” below.

**Program Options**

International studies students complete all of the requirements for one of the major’s three program options: A, B, or C. Program option requirements are not interchangeable.

**Program Option A**

Students complete an additional 6 s.h. in courses numbered 3000 or above chosen from a second international studies track.

**Program Option B**

Students complete a senior project and must take the following two courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IS:3010</td>
<td>Creating a Proposal for International Research</td>
<td>2</td>
</tr>
<tr>
<td>IS:4990</td>
<td>International Studies Senior Project</td>
<td>3</td>
</tr>
</tbody>
</table>

Students prepare for the senior project by completing IS:3010 Creating a Proposal for International Research, in which they learn research methodologies and prepare a project proposal. During their last year of study, they enroll in IS:4990 International Studies Senior Project and complete a semester-long individual research project that culminates in a substantial written or creative work focusing on a topic related to course work in their track. They complete the course and project under the supervision of a faculty mentor.

**Program Option C**

Students complete an approved experiential learning activity (credit or noncredit), such as study abroad or related volunteer work, and complete two writing courses, one from each list below. They also submit an international studies essay during their last year. Students interested in choosing program option C should speak with the international studies advisor about procedures for the option.

**Honors in the Major**

Students majoring in international studies have the opportunity to graduate with honors in the major. International studies honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all course work for the major and in all course work that may be applied to the major.

To graduate with honors in the major, students must complete a minimum of 45 s.h. for the major (an additional 3 s.h.), including at least 15 s.h. in courses numbered 3000 or above and at least 6 s.h. in courses designated as honors courses. Students may meet this requirement in one of two ways. They may complete 21 s.h. in a single track, with at least 15 s.h. in courses numbered 3000 or above. Alternatively, students may select courses from two tracks, completing at least 12 s.h. in the first track, including 9 s.h. in courses numbered 3000 or above; and completing at least 9 s.h. in the second track, including 6 s.h. in courses numbered 3000 or above.

Honors students completing the Certificate in Global Health Studies, International Business, or Latin American Studies or the minor in global health studies or Latin American studies may not choose an international studies track that
corresponds with those certificate(s) or minor(s). Those who choose the two-track option may not choose a first track that corresponds with those certificate(s) or minor(s).

Honors students must choose program option B for the major. Instead of taking IS:4990 International Studies Senior Project, they take IS:4991 Honors Thesis in International Studies and present their research in a poster session.

In addition to pursuing honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Learn about the program by visiting Honors at Iowa.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete in order to stay on the University’s Four-Year Graduation Plan.

Note: Students who intend to study abroad during their junior year should schedule an appointment during their fourth semester to meet with an advisor from International Programs Study Abroad; those who intend to study abroad during their senior year should schedule an appointment during their sixth semester.

Before the fifth semester begins: at least the two introductory courses and one foundation course

Before the seventh semester begins: at least nine courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least 12 courses in the major, including the required research preparation course for program option B students or the first writing course for program option C students

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

</table>
General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program.

Students may use their elective courses to complete a double major, minors, or certificates.

Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

Career Advancement

The flexible structure of the international studies major allows students to tailor the degree to fit a wide range of academic interests and post-graduation goals. International studies also is an ideal complement to a variety of academic degree programs and many students combine the international studies major with another major such as world languages, business, journalism, health sciences, or the arts.
International studies graduates find employment in international career sectors such as education, translation and interpreting, nonprofits and nongovernmental organizations, business, and government.

International studies graduates indicate that employers hire them because of the transferable skills they gain by pursuing an international studies degree: cultural competence, ability to navigate bureaucracy, language skills, resourcefulness, research and writing skills, and other specific skills gained through international studies track course work.

Recent international studies graduates have found employment in the following organizations: International Visitor Leadership Program/U.S. Department of State (Washington, DC); Coyote Logistics (Chicago, Illinois); Peace Corps (Indonesia); International Center for Journalists (Washington, DC); English First/English Language Education (China); International Rescue Committee (Abilene, Texas); CET Study Abroad Programs (Greece); PYXERA Global (Washington, DC); Education for the Children (Guatemala); and the Fulbright English Teaching Assistant Program (Turkey, Brazil, Malaysia, Russia).

Other international studies alumni have gone on to graduate or professional programs in public health, international development, urban and regional planning, law, student affairs, and nonprofit management.
International Studies, Minor

The minor in international studies requires a minimum of 15 s.h. in courses approved for the international studies major (see Requirements [p. 579] for the Bachelor of Arts in International Studies), including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. The minor must include IS:2000 Introduction to International Studies or one of the courses listed under "Foundation Courses" below.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. To preserve the interdisciplinary nature of the minor, students may count a maximum of 6 s.h. from a single department or program, from the Tippie College of Business, or from a major, another minor, or a certificate toward the minor in international studies.

Journalism and Mass Communication

Director
• David M. Ryfe

Undergraduate major: journalism and mass communication (B.A., B.S.)
Undergraduate minor: mass communication
Graduate degrees: M.A. in journalism; M.A. in strategic communication; Ph.D. in mass communications
Faculty: https://clas.uiowa.edu/sjmc/people/faculty
Website: https://clas.uiowa.edu/sjmc/

The School of Journalism and Mass Communication offers an undergraduate major and minor as well as graduate degree programs. Undergraduate students in all majors may use approved journalism and mass communication courses to satisfy the Historical Perspectives, Social Sciences, and Values, Society, and Diversity requirements of the College of Liberal Arts and Sciences General Education Program [p. 437], and the school's First-Year Seminar is designed specifically for entering undergraduate students. The School of Journalism and Mass Communication also administers the three undergraduate certificates listed below.

The school is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Certificate in Event Planning
The School of Journalism and Mass Communication administers the undergraduate certificate program in event planning; see Event Planning [p. 402] in the Catalog.

Certificate in Fundraising and Philanthropy Communication
The School of Journalism and Mass Communication administers the undergraduate certificate program in fundraising and philanthropy communication; see Fundraising and Philanthropy Communication [p. 419] in the Catalog.

Certificate in Media Entrepreneurialism
The School of Journalism and Mass Communication administers the undergraduate certificate program in media entrepreneurialism; see Media Entrepreneurialism [p. 662] in the Catalog.

Professional Enrichment
Internships
The school encourages undergraduate majors to complete at least one internship. The school’s internship and assessment coordinator helps students find appropriate positions.

Undergraduate students may earn up to 4 s.h. of internship credit, registering with appropriate faculty sponsorship for JMC:2100 Journalism Internship (1-3 s.h.). Internships do not fulfill requirements for the major, but internship credit counts toward the total journalism and mass communication credit that students may apply toward a B.A. or B.S. degree (maximum of 48 s.h.). Students may take internships for no credit through CCP:1201 Academic Internship.

Students also are encouraged to pursue opportunities for journalism experience on campus through student-operated media, including The Daily Iowan, Daily Iowan TV, and KRUI-FM radio.

Activities
The school engages in a variety of activities for the enrichment of students, faculty, and the entire campus. Speakers visit campus each year under lectureships funded by the Li Chen Fund and the M. Holly McGranahan Lecture. In addition, guest speakers are funded through the Hearst Visiting Professionals Program. Campus organizations for students include Kappa Tau Alpha (KTA, a national society honoring scholarship in journalism), the National Association of Black Journalists (NABJ), the Public Relations Student Society of America (PRSSA), the Society of Professional Journalists (SPJ), and Ed on Campus (EOC).

Financial Support
More than $170,000 in scholarships and awards is disbursed to journalism and mass communication students each year. Scholarship information and applications are available each fall. Visit Scholarships and Awards on the School of Journalism and Mass Communication website or contact the school.

The school offers research and teaching assistantships for graduate students; preference is given to Ph.D. students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

Programs

Undergraduate Programs of Study
Majors
• Major in Journalism and Mass Communication (Bachelor of Arts) [p. 607]
• Major in Journalism and Mass Communication (Bachelor of Science) [p. 611]

Minor
• Minor in Mass Communication [p. 615]

Graduate Programs of Study
Majors
• Master of Arts in Journalism [p. 616]
• Master of Arts in Strategic Communication [p. 617]
• Doctor of Philosophy in Mass Communications [p. 618]

Facilities

Adler Journalism and Mass Communication Building
The School of Journalism and Mass Communication is housed in the Philip D. Adler Journalism and Mass Communication Building. The 65,000-square-foot building has computer laboratories for audio, video, design, writing and web publishing, a resource center, and the Moeller Media Research Lab. The building also is home to offices of the Iowa High
school Press Association; the Quill and Scroll Society, an international honor society for high school journalists; the University’s award-winning student newspaper, The Daily Iowan; Daily Iowan TV, a student-run newscast; and the Journal of Communication Inquiry.

Courses

Journalism and Mass Communication Courses

JMC:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

JMC:1100 Media Uses and Effects 3 s.h.
Introduction to mass communication theory as it relates to practical applications in the media industry and American society. GE: Social Sciences.

JMC:1200 Media History and Culture 3 s.h.
Historical development of journalism in the United States; cultural, historical content. GE: Historical Perspectives.

JMC:1500 Social Media Today 3 s.h.
Prehistory of social media and identification of ideas, events, and elements in ancient and historical times; earliest days of online posting and interacting; first instances of social engagement on the Web; how social media (journalism, politics, health care, romance and lifestyle, entertainment, war and terrorism, professions and jobs) affects individual areas of life, culture, and society; what's next and how social media changes lives in the future and affects the fate of humanity. GE: Values, Society, and Diversity.

JMC:1600 Writing Fundamentals 1 s.h.
The importance of grammar; recognition of common errors in the student's own writing, with a focus on fixing these problems.

JMC:2010 Journalistic Reporting and Writing 4 s.h.

JMC:2020 Introduction to Multimedia Storytelling 4 s.h.
Fundamental skills of multimedia storytelling, including visual and digital. Prerequisites: JMC:1200 with a minimum grade of C- and JMC:1100 with a minimum grade of C-. Corequisites: JMC:2010. Requirements: journalism major.

JMC:2100 Journalism Internship 1-3 s.h.
Faculty-supervised professional work experience in journalism and mass communication. Prerequisites: JMC:2020 and JMC:2010. Requirements: journalism major.

JMC:2110 Internship in Event Planning 3 s.h.
Internship for event planning certificate. Prerequisites: (EVNT:3154 or SRM:3154) and EVNT:3260. Same as EVNT:2110.

JMC:2200 Principles of Strategic Communication 3 s.h.
Theory and practice of public relations; cultural, social, organizational roles of public relations, opportunities, problems, and solutions.

JMC:2300 Principles of Journalism 3 s.h.
Understanding changes in American journalism; including factors driving this change, orientation to the contemporary landscape of journalism, and making educated guesses about the near-term future of journalism; reflection on distinctive public service mission of journalism and its adaptation to the digital age.

JMC:3100 Fundraising and Philanthropy Communication 3 s.h.
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members. Same as FPC:3185.

JMC:3101 Fundraising Fundamentals 3 s.h.
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization's goals. Same as FPC:3100.

JMC:3105 Classic and Contemporary Sports Writing 3 s.h.
Critical reading of sports reportage, including historical and current examples; social and cultural preoccupations and problems viewed through the prism of sports journalism.

JMC:3110 Visual Communication 3 s.h.
History of modern visual communication from a cultural perspective; visual form, composition, spatial representation, color and other topics; in-depth study of selected artists, designers, photographers.

JMC:3115 Audience Engagement: Marketing Research in the Digital Age 3 s.h.
Solutions to problems related to communication channels, content, users, and audiences sought daily by media and communication professionals to understand what the public thinks, feels, and does about ideas, events, and trends; learn about audience needs; ways to improve or change content; systematic and methodical ways to investigate problems and figure out how best to tackle communication problems related to media content, audiences, media practice, and media institutions.

JMC:3116 Communication-Based Approaches to International Development 3 s.h.
Communication as a vital component for any effort to create social change; necessary communication to reach out to target audiences—people and communities in need—from campaigns persuading communities to change knowledge, attitudes, and practices to aiding other development efforts in areas of health, education, rural development, or sustainable agricultural practices; importance of communication as an integral part to any effort aimed at creating large-scale social change. Same as IS:3116.

JMC:3121 Business of Media: Profits, People, and Power 3 s.h.
How U.S. media is managed; decision making in a current highly-charged, rapidly-changing media culture; how major company decision makers seek competitive advantage, and their consequent successes and failures in doing so.
JMC:3122 Popular Media Culture 3 s.h.
Internet's effect on the content of news media and the
work of reporters; open source journalism and convergence
culture, collision between old and new media, and mass
amateurization of professional communication.

JMC:3123 Advocacy Communication 3 s.h.
Explore how organizations, businesses, nonprofits, and
grassroots groups attempt to shape public policy through
use of traditional and new media, direct communication, and
lobbying.

JMC:3124 Entertainment Media 3 s.h.
Explore the technological revolution as it has profoundly
shaped entertainment media, analyzing the parallels and
differences among a variety of digitized media (movies,
music, television, books, even video games); everything has
changed, from the distribution to consumption to creation.

JMC:3125 Media and Consumers 3 s.h.
Communications media in historical, political, economic
contexts and their relationships with audiences; criteria
for evaluating media content in relation to nature and
consequences of news, entertainment, advertising.

JMC:3126 Social Media Marketing 3 s.h.
Social media marketing as an ever-changing area that seems
to only grow in importance for everyone from academic
institutions to nonprofits to businesses big and small; each of
these entities and more has an online brand and goals that
social media can help them meet.

JMC:3130 Comparative Communication Systems 3 s.h.
Culture and communication as central to examining media
in different social and political settings; emphasis on
contemporary problems.

JMC:3135 New Media and the Future of Sport 3 s.h.
Emergence and significance of Internet blogs, social media,
convergence journalism, video games, and fantasy sports;
economic, regulatory, and cultural forces that shape
new media sport journalism and entertainment. Same as
AMST:3198, SPST:3198.

JMC:3140 News-Editorial Problems 3 s.h.
Current issues in journalism, editing strategies; emphasis on
press performance and practical problems journalists confront
in their work.

JMC:3145 On the Campaign Trail: Elections and the
Media 3 s.h.
Relationship between political campaigns and mass media;
critical evaluation of nature, role, function of media political
coverage.

JMC:3146 Arab Spring in Context: Media, Religion, and
Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept
across North Africa and the Middle East transforming Arab
and Islamic societies in radically different ways; function of
social media, satellite television, communication technology;
influence of religious leaders and groups on some protest
outcomes; impact of wealth and geopolitics on social fabric of
Islamic societies within and outside Arab countries. Same as
IS:3834, RELS:3834, WLLC:3834.

JMC:3150 Media and Health 3 s.h.
Potential and limits of mass media's ability to educate the
public about health; research and theory on the influence of
information and entertainment media; theories, models,
assumptions of mass communication in relation to public
health issues. Same as CBH:3150, GHS:3150.

JMC:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and
conferences; development and planning, implementation of
events, management and evaluation of events; development
requirements of planning events, development strategies,
budgeting, staffing requirements, resource allocation, site
planning, basic risk management requirements, emergency
procedures; event implementation policy and procedures;
relationship to elements within development stages; event
management and evaluation procedures. Same as EVNT:3154.

JMC:3165 African Americans and the Media 3 s.h.
GE: Values, Society, and Diversity. Same as AFAM:3925.

JMC:3170 Communication Technology and Society 3 s.h.
Implications and effects of computer-based forms of
communication, especially the Internet, for journalists, the
media audience, and society at large.

JMC:3175 Gender and Mass Media 3 s.h.
Media images and representations of the body in terms of
gender; impact on people, society; media and body image,
sexuality, gender roles, gender and power, race, ethnicity,
class, age; critical analysis of mediated images.

JMC:3180 Media Ethics 3 s.h.
Application of ethical principles in journalistic decision making;
consideration of potentially conflicting values, loyalties, and
goals that force professional journalists to make difficult
choices.

JMC:3181 The Business of Sport Communication 3 s.h.
Critical and practical approach to understanding
contemporary sports media and business practices that mark
it; focus on sports media industries and institutions; branding,
marketing, demographic, public relations, and promotional
factors that shape content. Same as SPST:3181.

JMC:3182 Sport, Scandal, and Strategic Communication
in Media Culture 3 s.h.
Use of sport scandal to consider relationship between sport
and media in American and global popular culture; broad
range of case studies used to consider what constitutes
a sport scandal, how this definition shifts in different
circumstances; crucial roles media play in creating,
communicating, and diffusing these crises; how phenomenon
of sports scandal has intensified along with emergence of
cable television, the Internet, and social media. Same as
SPST:3182.

JMC:3183 Sport and the Media 3 s.h.
Examination of sport and media's intimate relationship;
aesthetic, cultural, political, economic, and industrial factors
that shape it. Same as SPST:3175.

JMC:3185 Topics in Mass Communication 2-3 s.h.
Focus on particular area, issue, approach, or body of
knowledge; may include international media, media criticism,
new technologies, history of documentary photography,
literary journalism, media management.

JMC:3190 Classics of Sports Journalism: From Jack
London to Grantland 3 s.h.
Historical examples of celebrated works of sports journalism;
focus on long-form texts. Same as SPST:3180.

JMC:3210 Workshop for Secondary School Journalism/
Communication Teachers 1-3 s.h.
Workshops on journalism/mass media curriculum, audio/video
production, photojournalism, publication design, journalistic
writing techniques, advising student publications. Same as
EDTL:3026.
JMC:3260 Event Planning Workshop 3 s.h.
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects. Same as EVNT:3260.

JMC:3270 Event Planning and the Arts 3 s.h.
Development, planning, and implementation of events with relation to the arts. Same as EVNT:3270.

JMC:3300 Foundations of the First Amendment 3 s.h.
Issues affecting the media: freedom of expression, libel, privacy, access to information, protection of news sources, free press/fair trial, copyright, government regulation of broadcasting.

JMC:3400 Specialized Reporting and Writing 3-4 s.h.
Topics may include public affairs, law, science, business, medicine, intercultural affairs, education, computer-assisted reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3405 Depth Reporting and Writing 3-4 s.h.
Enterprise reporting; emphasis on reporter as researcher, organizer, writer of complex stories in a variety of contexts. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3410 Magazine Reporting and Writing 3-4 s.h.
Finding ideas, researching, interviewing; problems of organization and style; identification of audiences and markets; development of writing skills. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3411 Radio and Television Storytelling 3-4 s.h.
Principles; gathering, writing, editing, reporting the news; techniques and concepts as a foundation for understanding, successfully writing, and delivering broadcast news. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Corequisites: JMC:3603. Requirements: journalism major.

JMC:3412 Strategic Communication Writing 3-4 s.h.
Principles and practices of persuasive writing; focus on public relations; may include editorials, op-ed pieces, magazine essays, reviews. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Corequisites: JMC:3603. Requirements: journalism major.

JMC:3413 Sports Writing 3-4 s.h.
Introduction to the history, culture, industry, and practice of sports writing. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3414 Basic Elements of Book Writing: Fiction and Nonfiction 3-4 s.h.
Basic elements involved in writing a novel or a nonfiction book; students will research, write, and workshop either a nonfiction book or novel proposal; they will complete a chapter outline and one chapter from their manuscript, and constructively edit and evaluate the work of fellow classmates through individual workshop sessions; course will culminate in an author's pavilion where students will select five minutes from their chapter to read to an audience. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3415 Writing Across Cultures 3-4 s.h.
Forms of travel writing and other types of crosscultural reporting; skills, knowledge, understandings vital to writing well about an increasingly multicultural and diverse world. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3420 Content Marketing 3-4 s.h.
Tools for creating great content, as well as tactics for getting that content in front of the right audiences with the right message at the right time. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:3450 Freelance Reporting and Writing 3-4 s.h.
Approaches to writing and marketing articles to magazines, newspapers, other publications; developing ideas, researching periodical markets, writing queries, writing and rewriting articles for publication. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major. Same as CWN:3450.

JMC:3460 Arts and Culture Reporting and Writing 3-4 s.h.
Writing about arts and culture in a range of formats (e.g., news, profiles, features, criticism, essays); emphasis on original reporting that draws on resources, issues, people, and events on campus and in the community, especially in visual and performing arts. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3470 Narrative Journalism 3-4 s.h.
Process of writing the true story; development of skills in researching, interviewing, information gathering, organization, story-telling techniques, writing final story; story publication in magazines, newspapers, journals, online. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3490 Feature Reporting and Writing 3-4 s.h.
Storytelling techniques for magazine, newspaper, website features; stylistic flair; human elements in stories; research, interviewing, and reporting. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3600 Topics in Media Production 3-4 s.h.
Analysis and solution of problems with communication strategies and/or media products; public relations, newsletter production, radio, media research, web basics, global media, interviewing, PR fund-raising. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3603 TV News Production 3-4 s.h.
Electronic news gathering (ENG); conceptualization, shooting, editing basic news packages. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Corequisites: JMC:3411. Requirements: journalism major.

JMC:3605 Editing the News 3-4 s.h.
Principles and process of editing content for publication; micro- and macroediting, headline writing, other aspects of editing. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.
JMC:3610 Graphic Design 3-4 s.h.
Problems of design, layout and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3611 Web Design Basics 3-4 s.h.
Web development from the ground up; students will choose topics and build personal sites for original pieces of journalism. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3615 Strategic Communication Campaigns 3-4 s.h.
Development and presentation of public relations campaigns for client organizations; communication theory and research techniques applied to analyzing and solving public relations problems through objective-based strategic planning. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3620 Applied Digital and Social Media 3-4 s.h.
Creation of original journalistic websites incorporating writing, design, and structure; contemporary online media issues. Prerequisites: JMC:2020 with a minimum grade of C- and JMC:2010 with a minimum grade of C-. Requirements: journalism major.

JMC:3625 Planning and Evaluation of Strategic Campaigns 3-4 s.h.
Undergraduate-level research methods used specifically for public relations and advertising; basic quantitative and qualitative methods as related to strategic communication; hands-on exercises. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3630 Photo Storytelling: Making Powerful Images 3-4 s.h.
Techniques; basic craft, location shooting, editing photographs; group critiques of assignments. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-.

JMC:3633 Philanthropy Communication in a Digital World 3-4 s.h.
World of philanthropy and nonprofit work that changes rapidly with and in response to developments in digital communications; campaigns and fundraisers driven by free agents on social networking sites as an example of how philanthropists and nonprofit workers operate in digital environment; overview of trends in areas of philanthropy and nonprofit work; practical skills to help communicate, create, and disseminate messages using multiple digital tools and social media; analysis of communication/media strategies; media production. Same as FPC:3633.

JMC:3635 Strategic Communication for Public Debate 3-4 s.h.
How strategic communication goals, objectives, strategies, and tactics can influence public debate on policy issues; students apply this knowledge for the benefit of a real-world client, producing a portfolio of work by the end of the semester. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism and mass communication major.

JMC:3640 Data Journalism 3-4 s.h.
How to find and tell stories using data; hands-on introduction to data visualization, data analysis and data literacy for journalists and communications professionals. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:3645 Digital Storytelling 3-4 s.h.
Builds on skills learned in JMC:2020 to develop compelling multipart digital stories; focus on a range of storytelling techniques and tools to create in-depth stories that incorporate visual, audio, text, and data; students strengthen their digital storytelling skills by producing various multimedia projects, such as podcasts and digital long-form stories; project-based with opportunities to produce individual and collaborative work. Prerequisites: JMC:2010 with a minimum grade of C- and JMC:2020 with a minimum grade of C-. Requirements: journalism major.

JMC:4100 Advanced Reporting and Writing 3-4 s.h.
Project journalism; extended magazine pieces, explanatory/investigative journalism, series for newspapers, or task-force projects by entire class on a major issue, with goal of publication. Prerequisites: JMC:3490 or JMC:3412 or JMC:3450 or JMC:3400 or JMC:3410 or JMC:3405 or JMC:3411 or JMC:3460 or JMC:3415 or JMC:3470 or JMC:3413 or JMC:3611. Requirements: journalism major.

JMC:4130 Advanced Public Relations Writing 3-4 s.h.
Case-based study of corporate public relations practice; globalization issues, branding and integrated communication, crisis management. Prerequisites: JMC:3412. Requirements: journalism major.

JMC:4300 Advanced Photo Storytelling 3-4 s.h.
Photojournalism skills; may include documentary photography, advanced photojournalism methods and techniques. Prerequisites: JMC:3630.

JMC:4310 Advanced Media Workshop 3-4 s.h.
Journalism and mass communication skills; may include editing, broadcasting, design, multimedia. Prerequisites: JMC:3600 or JMC:3610 or JMC:3605 or JMC:3415 or JMC:3412 or JMC:3405 or FPC:3633 or JMC:3625 or JMC:3630 or JMC:3450 or JMC:3490 or JMC:3410 or JMC:3400 or JMC:3411 or JMC:3603 or JMC:3460 or JMC:3620 or JMC:3615 or JMC:3413 or JMC:3611. Requirements: journalism major.

JMC:4320 Advanced Television News 3-4 s.h.
Advanced training and experience in producing, writing, and reporting television news packages and newscasts; emphasis on meeting professional standards. Prerequisites: JMC:3490 and JMC:3603. Requirements: journalism major.

JMC:4330 Visual Storytelling 3-4 s.h.
Experience with journalistic storytelling techniques, generating story ideas, researching, writing, producing, editing, and critiquing documentary features and other visual narratives; use of digital video and archival material to produce visual narrative pieces for broadcast and other media platforms. Prerequisites: JMC:3600 or JMC:3610 or JMC:3605 or JMC:3415 or JMC:3412 or JMC:3405 or FPC:3633 or JMC:3625 or JMC:3630 or JMC:3450 or JMC:3490 or JMC:3410 or JMC:3470 or JMC:3400 or JMC:3411 or JMC:3603 or JMC:3460 or JMC:3620 or JMC:3615 or JMC:3413 or JMC:3611. Requirements: journalism major.

JMC:4340 Convergence Journalism 3-4 s.h.
Use of multiple technologies for journalistic storytelling across media platforms, such as print, television, and Internet. Prerequisites: JMC:3620. Requirements: journalism major.
JMC:4350 Advanced Graphic Design  3-4 s.h.  
Advanced design, layout, and production; practical and aesthetic considerations; digital techniques; creative projects. Prerequisites: JMC:3610. Requirements: journalism major.

JMC:4360 Advanced Web Design  3-4 s.h.  
Course builds upon techniques learned in JMC:3611. Prerequisites: JMC:3611. Requirements: journalism major.

JMC:4900 Special Projects in Mass Communication  arr.  
Research and readings to fit needs, interests of students.

JMC:4910 Readings in Communication and Mass Communication  1-3 s.h.  
Focus on a problem or issue.

JMC:4950 Honors Readings  1-3 s.h.  
Topic in journalism or mass communication, chosen by student. Requirements: honors standing.

JMC:4955 Honors Project  3 s.h.  
Independent research or project for honors students. Requirements: honors standing.

JMC:5100 Masters Seminar  1 s.h.  
Theoretical or methodological problems in mass communication.

JMC:5200 Topics in Strategic Communication  3 s.h.  
Various topics relevant to strategic communication.

JMC:5235 Strategic Communications Research  3 s.h.  
Methodology of social science inquiry, the process and instruments of data gathering, evaluation of evidence, and the usefulness and appropriateness of various information sources in the service of strategic communication research; blends theory and practice.

JMC:5237 Financial and Budget Fundamentals for Communicators  3 s.h.  
How a company operates as a business; rapid changes in international economy; important SEC documents and other sources of information on public companies; a public company's financial statements; comparison of public companies financial conditions; analysis and informed conclusions about a public company's financial condition.

JMC:5238 Strategic Communication Campaigns  3 s.h.  
Practice of strategic communication through traditional and new media for purpose of benefiting nonprofit organizations or bringing about social change; examples and strategies from corporate, nonprofit, and social marketing campaigns; application of knowledge for benefit of real-world clients; principles and strategies applied to professional projects.

JMC:5239 Strategic Web Video Communication  3 s.h.  
Production of video content and releasing visual stories online; tools needed to capture compelling images and edit meaningful stories; strengths and weaknesses of video storytelling using portable video cameras and affordable editing software; for graduate students who are working professionals.

JMC:5240 Digital Strategic Communication  3 s.h.  
Exploration of information industry growth; creative processes involved in developing a blog and utilizing multimedia tools to enhance strategic messages; focus on characteristics and spread of new communication technologies and their social, economic, and political effects.

JMC:5243 Copywriting for Strategic Communication  3 s.h.  
Focusing copy to a targeted audience to move them to action; multiple platforms where copywriting can appear; learn how professional copywriters craft motivational, persuasive messages and continuously refine their skills; build copywriting skills through weekly exercises, peer reviews, and a final portfolio.

JMC:5248 Strategic Political Communication  3 s.h.  
Study of political communication; topics range from classic issues (agenda setting) to current debates and emerging topics associated with new media; readings address political communication in the United States.

JMC:5266 Risk Communication  3 s.h.  
Examination of risk as a central concept in communication process; risk as intrinsically an interdisciplinary concept; literature from a wide range of disciplines and perspectives (communication, psychology, sociology, formal risk analysis); case studies drawn from issues and cultural contexts (environmental, technological or health risks, food safety risks; international military crisis or threats of terrorism, natural disasters); emphasis on comparison of European and American contexts.

JMC:5270 Leadership Communication  3 s.h.  
Using communications skills effectively for leadership in the modern workplace; how technological, global, and demographic developments have combined to transform the field of strategic communications; skills necessary to be effective in an environment of collaboration, teamwork, and self-management across a variety of platforms.

JMC:5285 Strategic Communication Externship  3 s.h.  
Externship to allow connection between academic program and professional world; enhancement of skill and knowledge.

JMC:5300 Foundations of Strategic Communication  3 s.h.  
Introduction to the field of strategic communication.
JMC:5400 Strategic Communication Writing 3 s.h.
Writing workshop for M.A. strategic communication students.

JMC:5910 Masters Tutorial arr.
Topics in communication and mass communication inquiry.

JMC:5950 Capstone Project in Strategic Communication 3 s.h.
Workshop of capstone projects required for graduation; for students nearing completion of M.A. in strategic communication. Requirements: M.A. in strategic communication program enrollment.

JMC:5955 Masters Research arr.
Independent research for projects, theses.

JMC:6100 Ph.D. Seminar 1 s.h.
Forum on theoretical or methodological problems in mass communication.

JMC:6210 Media Theory 3 s.h.
Introduction to social science theory used by communication scholars to study media and communication; use of theory to explain media and communication phenomena.

JMC:6256 Gender and Mass Communication 3 s.h.
Approaches to the study of gender and communication; topics vary. Same as GWSS:6256.

JMC:6310 Media Methods 3 s.h.
Journalism and media communication research methods that involve collection and analysis of quantifiable data; surveys, content analyses, and experiments.

JMC:6330 Reading Group 1-3 s.h.
Analysis and discussion of important texts.

JMC:6333 Seminar in Media Communication 3 s.h.
Topics vary.

JMC:6700 Approaches to Media Communication 3 s.h.
Institutional and disciplinary issues that influence media communication.

JMC:6910 Ph.D. Tutorial arr.
Communication and mass communication inquiry.

JMC:6920 Ph.D. Research Practicum arr.
Conceptualization and execution of research projects.

JMC:6999 Dissertation arr.
Journalism and Mass Communication, B.A.

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take both professional and conceptual courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the school, consistent with the University's commitment to the liberal arts and sciences.

First-year students completing a major in journalism and mass communication are advised at the Academic Advising Center. Students who have earned 24 s.h. or more and have declared the journalism and mass communication major are advised in the School of Journalism and Mass Communication by the journalism and mass communication academic advisor.

Transfer Students

The School of Journalism and Mass Communication may accept transfer credit in journalism earned at institutions accredited by the Accrediting Council on Education in Journalism and Mass Communications. A maximum of 7 s.h. of approved transfer credit may be applied to the major in journalism and mass communication; a maximum of 3 s.h. of approved transfer credit may be applied to the minor in mass communication. Some journalism course work taken at other schools may be used to fulfill the major's elective and/or second area of concentration requirements.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

Requirements

The Bachelor of Arts with a major in journalism and mass communication requires a minimum of 120 s.h., including at least 38 s.h. in journalism and mass communication courses, plus a second major or a certificate from the school's list of approved certificates. Reasonable accommodations may be made for students who wish to develop their own secondary area of concentration, which must consist of a minimum of 24 s.h.; at least 15 s.h. of the 24 s.h. must be earned in advanced courses (numbered 3000 or above). By the time students have completed 60 s.h., they must obtain their advisor's approval of their choice of secondary area of concentration, and notify the undergraduate director of their choice.

Students must maintain a g.p.a. of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students may count a maximum of 48 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for a B.A. degree.

Each student works with an assigned faculty advisor and/or an educational advisor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

Journalism and mass communication majors may count up to 6 s.h. of course work used to satisfy their major toward the Certificate in Media Entrepreneurialism.

The B.A. with a major in journalism and mass communication requires the following course work.

Foundation Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JMC:1100</td>
<td>Media Uses and Effects</td>
<td>3</td>
</tr>
<tr>
<td>JMC:1200</td>
<td>Media History and Culture</td>
<td>3</td>
</tr>
</tbody>
</table>

And one of these (completed with a grade of C-minus or higher before enrollment in the professional skills courses):

</tr>
</tbody>
</table>

Grammar Requirement

Before enrollment in professional skills courses, JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling, students are required to complete one of the following:

- enroll in and successfully compete JMC:1600 Writing Fundamentals (1 s.h.), a five-week course covering grammar and usage rules; or
- take and successfully complete an online grammar and usage test prepared by the School of Journalism and Mass Communication. Successfully completing the test entails correctly answering 80 percent of questions on the test. The test is offered several times each semester. Students should contact the school's main office for more information concerning dates and how to enroll for the test. Students may take the grammar and usage test two times before being invited to enroll in JMC:1600.

Professional Skills Courses

Both of these (completed with a grade of C-minus or higher before enrollment in the reporting and writing and workshop courses):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>

JMC:3190 Classics of Sports Journalism: From Jack London to Grantland 3
JMC:3260 Event Planning Workshop 3
JMC:3270 Event Planning and the Arts 3

Optional Journalism Electives

Students may earn elective credit by completing additional journalism and mass communication course work (prefix JMC), but they may not exceed a maximum of 48 s.h. earned in the School of Journalism and Mass Communication toward the 120 s.h. required for the B.A. degree. Credit earned in JMC:4955 Honors Project counts toward the total journalism and mass communication course work that students may apply to the B.A. degree.

Second Major or Concentration Area

Every student majoring in journalism and mass communication must complete a second major or a concentration area outside the School of Journalism and Mass Communication. Study in the second major or concentration area enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another
discipline views the world, and/or develop a companion set of skills to those in journalism and mass communication.

The certificates in fundraising and philanthropy communication or in event planning do not satisfy the requirement for a second major or concentration area.

**Specific Requirements for the Second Major or Concentration Area**

Bachelor of Arts students must complete the requirements for the journalism and mass communication major (38-48 s.h.) and must satisfy the school's second major or concentration area requirement in one of two ways.

**Option 1:** complete a B.A. major in another department.

**Option 2:** complete an undergraduate certificate that is listed on the department’s list of approved certificates. Students can choose from one of the following certificates: aging studies, American Indian and native studies, American sign language and deaf studies, critical cultural competence, disability studies, entrepreneurial management, global health studies, human rights, international business, large data analytics, Latin American studies, leadership studies, medieval studies, museum studies, nonprofit management, performing arts entrepreneurship, risk management and insurance, social science analytics, sustainability, wind energy, or writing.

**Honors in the Major**

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a g.p.a. of at least 3.50 in work for the major. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year. Students are encouraged but not required to take JMC:4950 Honors Readings to prepare for the project.

Honors students in the school also must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

All majors with an overall g.p.a. of at least 3.33 are encouraged to take any journalism and mass communication course for honors credit and to make use of other honors opportunities in the school. Visit Journalism Honors Program on the school's website or contact the school's honors advisor for details.

**National Honor Society**

The school's chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their grade-point average places them in the top 10 percent of their class and they have completed at least five semesters of University work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school's Kappa Tau Alpha advisor for details.

---

### Academic Plans

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Students must declare the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The checkpoints below include the required work in journalism and mass communication plus a second concentration area, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.

- **Before the fifth semester begins:** JMC:1100 Media Uses and Effects, JMC:1200 Media History and Culture, JMC:2200 Principles of Strategic Communication or JMC:2300 Principles of Journalism, and at least one quarter of the semester hours required for graduation
- **Before the seventh semester begins:** JMC:2010 Journalistic Reporting and Writing, JMC:2020 Introduction to Multimedia Storytelling, JMC:3100 Fundraising and Philanthropy Communication, JMC:3180 Media Ethics, an additional course in the major, and at least one-half of the semester hours required for graduation
- **During the seventh semester:** one writing or workshop course, one conceptual course, and at least three-quarters of the semester hours required for graduation
- **During the eighth semester:** one writing or workshop course, one advanced workshop course, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

**Journalism and Mass Communication (B.A.)**

Iowa Degree in Three

University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

1 JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling are corequisites to be taken concurrently.

Career Advancement

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines, radio, television, online communications and social media, publication design, photojournalism, and media research.

The school's internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to journalism and mass communication students and graduates. It also cooperates with the University's Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.
Journalism and Mass Communication, B.S.

Media writing and visual storytelling form the core of the undergraduate major in journalism and mass communication. Students are required to take both professional and conceptual courses offered by the school; they develop professional skills while studying the historical, legal, cultural, and institutional roles of media in society. They also complete extensive academic work outside the school, consistent with the University's commitment to the liberal arts and sciences.

First-year students completing a major in journalism and mass communication are advised at the Academic Advising Center. Students who have earned 24 s.h. or more and have declared the journalism and mass communication major are advised in the School of Journalism and Mass Communication by the journalism and mass communication academic advisor.

Transfer Students

The School of Journalism and Mass Communication may accept transfer credit in journalism earned at institutions accredited by the Accrediting Council on Education in Journalism and Mass Communications. A maximum of 7 s.h. of approved transfer credit may be applied to the major in journalism and mass communication; a maximum of 3 s.h. of approved transfer credit may be applied to the minor in mass communication. Some journalism course work taken at other schools may be used to fulfill the major's elective and/or second area of concentration requirements.

Students who wish to apply transfer credit toward School of Journalism and Mass Communication requirements must discuss the proposed transfer credit with a journalism advisor and must have approval from the head of undergraduate studies.

Requirements

The Bachelor of Science with a major in journalism and mass communication requires a minimum of 120 s.h., including at least 38 s.h. in journalism and mass communication courses, plus a second major or a certificate from the department's list of approved certificates. Reasonable accommodations may be made for students who wish to develop their own secondary area of concentration, which must consist of a minimum of 24 s.h., at least 15 of the 24 s.h. must be earned in advanced courses (advanced courses are numbered 3000 or above). By the time students have completed 60 s.h., they must obtain their advisor's approval of their choice of secondary area of concentration, and notify the undergraduate director of their choice.

Students must maintain a g.p.a. of at least 2.00 in the major. All students must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students may count a maximum of 48 s.h. earned in School of Journalism and Mass Communication courses (prefix JMC) toward the 120 s.h. required for a B.S. degree.

Each student works with an assigned faculty advisor and/or an educational advisor to develop a study plan that meets the major's requirements. Requirements for the major are consistent with the program's accreditation requirements; the school cannot make exceptions.

Journalism and mass communication majors may count up to 6 s.h. of course work used to satisfy their major toward the Certificate in Media Entrepreneurialism.

The B.S. with a major in journalism and mass communication requires the following course work.

<table>

Grammar Requirement

Before enrollment in JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling, students are required to complete one of the following:

- enroll in and successfully complete JMC:1600 Writing Fundamentals (1 s.h.), a 5 week course covering grammar and usage rules; or
- take and successfully complete an online grammar and usage test prepared by the School of Journalism and Mass Communication. Successfully completing the test entails correctly answering 80% of questions on the test. The test is offered several times each semester. Students should contact the department's main office for more information concerning dates and how to enroll for the test. Students may take the grammar and usage test two times before being invited to enroll in JMC:1600.

Professional Skills Courses

Both of these (completed with a grade of C-minus or higher before enrollment in the reporting and writing and workshop courses):

<td>Visual Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

### Optional Journalism Electives

Students may earn elective credit by completing additional journalism and mass communication course work (prefix JMC), but they may not exceed a maximum of 48 s.h. earned in the School of Journalism and Mass Communication toward the 120 s.h. required for the B.S. degree. Credit earned in JMC:4955 Honors Project counts toward the total journalism and mass communication course work that students may apply to the B.S. degree.

### Second Major or Concentration Area

Every student majoring in journalism and mass communication must complete a second major or a concentration area outside the School of Journalism and Mass Communication. Study in the second major or concentration area enables students to acquire a substantial body of knowledge or expertise in a relevant area, learn how another
discipline views the world, and/or develop a companion set of skills to those in journalism and mass communication.

The certificates in fundraising and philanthropy communication or in event planning do not satisfy the requirement for a second major or concentration area.

**Specific Requirements for the Second Major or Concentration Area**

Bachelor of Science students must complete the requirements for the journalism and mass communication major (38-48 s.h.) and must satisfy the school's second major or concentration area requirement in one of two ways.

**Option 1:** complete a B.S. major in another department.

**Option 2:** complete an undergraduate certificate that is listed on the department's list of approved certificates. Students can choose from one of the following certificates: aging studies, American Indian and native studies, American sign language and deaf studies, critical cultural competence, disability studies, entrepreneurial management, global health studies, human rights, international business, large data analysis, Latin American studies, leadership studies, museum studies, nonprofit management, risk management and insurance, social science analytics, sustainability, or wind energy.

**Honors in the Major**

Students majoring in journalism and mass communication have the opportunity to graduate with honors in the major. Students in the school's honors program must have a g.p.a. of at least 3.50 in work for the major. To graduate with honors in the major, they complete JMC:4955 Honors Project, earning 3 s.h. of credit in work guided by a faculty member. The honors project may be a thesis or a professional project and typically is completed during the last semester of the senior year. Students are encouraged but not required to take JMC:4950 Honors Readings to prepare for the project.

Honors students in the school also must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

All majors with an overall g.p.a. of at least 3.33 are encouraged to take any journalism and mass communication course for honors credit and to make use of other honors opportunities in the school. Visit Journalism Honors Program on the school's website or contact the school's honors advisor for details.

**National Honor Society**

The school's chapter of Kappa Tau Alpha, the national society honoring scholarship in journalism and mass communication, was founded in 1936 and is named for former director Leslie G. Moeller. Students are considered for membership if their grade-point average places them in the top 10 percent of their class and they have completed at least five semesters of University work, including a minimum of 9 s.h. in journalism and mass communication skills courses. Contact the school's Kappa Tau Alpha advisor for details.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Students must declare the journalism and mass communication major by the first semester of their sophomore year in order to be eligible for the Four-Year Graduation Plan. The checkpoints below include the required work in journalism and mass communication plus a second concentration area, but they do not include the requirements of a second major, since the Four-Year Graduation Plan does not apply to second majors.

**Before the fifth semester begins:** JMC:1100 Media Uses and Effects, JMC:1200 Media History and Culture, JMC:2200 Principles of Strategic Communication or JMC:2300 Principles of Journalism, and at least one quarter of the semester hours required for graduation

**Before the seventh semester begins:** JMC:2010 Journalistic Reporting and Writing, JMC:2020 Introduction to Multimedia Storytelling, JMC:3100 Fundraising and Philanthropy Communication, JMC:3180 Media Ethics, an additional course in the major, and at least one-half of the semester hours required for graduation

**During the seventh semester:** one writing or workshop course, one conceptual course, and at least three-quarters of the semester hours required for graduation

**During the eighth semester:** one writing or workshop course, one advanced workshop course, and a sufficient number of semester hours to graduate

Career Advancement

The major prepares students for careers in the field. Graduates find employment in a variety of areas, such as public relations, advertising, marketing, political communication, health communication, philanthropy and fundraising communication, newspapers, magazines, radio, television, online communications and social media, publication design, photojournalism, and media research.

The school's internship and assessment coordinator helps students seeking career guidance and employment opportunities. The school compiles and publicizes notices of professional jobs open to journalism and mass communication students and graduates. It also cooperates with the University's Pomerantz Career Center in providing career guidance and placement services as well as workshops and programs on seeking jobs.
Mass Communication, Minor

The minor in mass communication requires a minimum of 15 s.h. in mass communication courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Conceptual courses numbered JMC:3100 Fundraising and Philanthropy Communication through JMC:3300 Foundations of the First Amendment are considered advanced for the minor. Students are encouraged to take JMC:1100 Media Uses and Effects, JMC:1200 Media History and Culture, or JMC:1500 Social Media Today as a lower-level course.

The minor introduces students to the field of mass communication; it does not prepare them for careers in media.
Journalism, M.A.

Requirements

The School of Journalism and Mass Communication offers a Master of Arts in journalism. The M.A. program requires 31 s.h. with thesis. Students who plan to continue on to doctoral studies in the school can complete the required course work for the master’s degree, plus one additional course, and successfully pass a qualifying examination; a thesis is not required.

Students in the M.A. program in journalism must complete the following course work. They are required to take at least two courses in the School of Journalism and Mass Communication selected from the methods, theory, or electives areas.

| JMC:6700 | Approaches to Media Communication | 3 |
| Methods Area Course | 3 |
| Theory Area Course | 3 |
| Outside Concentration Courses | 9 |
| Relevant Electives | 6 |
| Master’s Seminar | 4 |
| Master’s Thesis | 3 |
| Total Hours | 31 |

For a more detailed description of the M.A. program in journalism, contact the School of Journalism and Mass Communication.

Joint J.D./M.A.

The School of Journalism and Mass Communication and the College of Law offer a joint Juris Doctor/Master of Arts in journalism. The joint degree programs allow students to count a limited amount of credit toward both degrees. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Admission for the M.A. in journalism program is for fall entry.

For information about the J.D., see the College of Law section of the Catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Admission to the program is for fall entry.

Financial Support

The school offers research and teaching assistantships for graduate students; preference is given to Ph.D. students. Journalism and mass communication students have been successful in winning competitive fellowships open to all graduate students; applicants must be nominated by the graduate committee.

Career Advancement

This is an academically-oriented degree that prepares students for doctoral studies or a career in research.
Strategic Communication, M.A.

Requirements

The Master of Arts program in strategic communication requires a minimum of 30 s.h. of graduate credit. Courses for the program are offered online.

The curriculum consists of core courses, electives, and a capstone project in place of a thesis. In most courses, students are encouraged to introduce case studies and projects from their workplace.

The M.A. in strategic communication requires the following course work.

Core Courses

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JMC:5235</td>
<td>Strategic Communications Research</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5240</td>
<td>Digital Strategic Communication</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5300</td>
<td>Foundations of Strategic Communication</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5400</td>
<td>Strategic Communication Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Strategic communication students earn 15 s.h. in elective courses, which they choose in consultation with their advisors. Students choose electives from the list below. They also may choose other electives that are appropriate for their individual programs, drawing from courses offered by the School of Journalism and Mass Communication and by other University of Iowa departments and programs.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JMC:5200</td>
<td>Topics in Strategic Communication</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5237</td>
<td>Financial and Budget Fundamentals for Communicators</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5238</td>
<td>Strategic Communication Campaigns</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5239</td>

<tr>
<td>JMC:5270</td>
<td>Leadership Communication</td>
<td>3</td>
</tr>
<tr>
<td>JMC:5285</td>
<td>Strategic Communication Externship</td>
<td>3</td>
</tr>
</tbody>
</table>

Capstone Project

Strategic communication students complete the following capstone project in place of a thesis.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JMC:5950</td>
<td>Capstone Project in Strategic Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

For a more detailed description of the M.A. in strategic communication, contact the School of Journalism and Mass Communication.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applications for admission to the program are accepted all year.

Career Advancement

The strategic communication program is designed for professionals in a wide variety of areas, such as corporate and organizational communication, public relations, integrated marketing communication, advertising, political and public affairs communication, health communication, event planning, risk communication, and professional writing. The program focuses on the skills, knowledge, and experience that working professionals need, including the ability to anticipate and meet the challenges of radical change in the media landscape.
Mass Communications, Ph.D.

Requirements

The Doctor of Philosophy program in mass communications requires 72 s.h. of graduate credit.

The Ph.D. program in the School of Journalism and Mass Communication provides training in research methods, communication theory, and teaching skills.

The Ph.D. program emphasizes interdisciplinary studies, with course work and research tailored to the student’s interests under the guidance of faculty members. The school offers several areas of strength to support graduate student research in both traditional and digital media:

• critical and cultural studies;
• sports and media;
• international/development studies;
• health and science communication;
• journalism studies; and
• history of media and media institutions.

Students in the Ph.D. program must complete the following curriculum and are required to take at least two courses in the School of Journalism and Mass Communication in addition to JMC:6700 Approaches to Media Communication. These courses can be from the methods, theory, or electives areas.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>JMC:6700</td>
<td>3</td>
</tr>
<tr>
<td>Methods Area Courses</td>
<td>6</td>
</tr>
<tr>

<td>8</td>
</tr>
<tr>
<td>JMC:6999 Dissertation</td>
<td>4</td>
</tr>
<tr>
<td>Credit from master’s degree and/or additional Ph.D. courses</td>
<td>30</td>
</tr>
<tr>
<td>Total Hours</td>
<td>72</td>
</tr>
</tbody>
</table>

For a more detailed description of the Ph.D. program, contact the School of Journalism and Mass Communication.

Joint J.D./Ph.D.

The School of Journalism and Mass Communication and the College of Law offer a joint Juris Doctor/Doctor of Philosophy in mass communications. The joint degree program allows students to count a limited amount of credit toward both degrees. Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Admission for the mass communications graduate program is for fall entry.

For information about the J.D., see the College of Law [p. 1326] section of the Catalog.
Large Data Analysis

Chair, Department of Computer Science
  • Alberto Segre

Coordinator, Large Data Analysis
  • Suely P. Oliveira (Computer Science)

Undergraduate certificate: large data analysis

The Certificate in Large Data Analysis addresses the need for people with the quantitative and computational skills to make sense of massive data. Expertise in this field involves computational and algorithmic skills to efficiently process large data sets, statistical analysis to understand if correlations seen in large data sets are significant, and mathematical skills to develop and understand the underlying algorithms for the data analysis.

The Certificate in Large Data Analysis is administered by the Department of Computer Science [p. 263].

Programs

Undergraduate Program of Study

Certificate
  • Certificate in Large Data Analysis [p. 620]
Large Data Analysis, Certificate

The Certificate in Large Data Analysis requires a minimum of 21 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students majoring in computer science, mathematics, or statistics may count a maximum of 6 s.h. of course work for their major toward the certificate. Students pursuing other majors should consult with their major advisors to ascertain whether they may count certificate course work toward their majors.

Most of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

Prerequisites (or their equivalents) for the certificate include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1210</td>
<td>Computer Science I: Fundamentals</td>
<td>4</td>
</tr>
<tr>
<td>MATH:1850</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MATH:1860</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>MATH:2700</td>
<td>Introduction to Linear Algebra</td>
<td>4</td>
</tr>
</tbody>
</table>

The following course work is required.

**Level I**

Both of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:3800</td>
<td>Elementary Numerical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>STAT:2010</td>
<td>Statistical Methods and Computing</td>
<td>3</td>
</tr>
</tbody>
</table>

**Level II**

This course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT:3200</td>
<td>Applied Linear Regression</td>
<td>3</td>
</tr>
</tbody>
</table>

Two of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:4700</td>
<td>High Performance and Parallel Computing</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4860</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CS:4980</td>
<td>Topics in Computer Science II (consult advisor for section approval)</td>
<td>3</td>
</tr>
<tr>
<td>CS:5430</td>
<td>Machine Learning</td>
<td>3</td>
</tr>
<tr>
<td>CS:5630</td>
<td>Cloud Computing Technology</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4820</td>
<td>Optimization Techniques</td>
<td>3</td>
</tr>
<tr>
<td>MSCS:3200</td>
<td>Database Management</td>
<td>3</td>
</tr>
<tr>
<td>STAT:5400</td>
<td>Computing in Statistics</td>
<td>3</td>
</tr>
<tr>
<td>STAT:5810/</td>
<td>Research Data Management (may be substituted for STAT:5400 with advisor approval)</td>
<td>3</td>
</tr>
<tr>
<td>BIOS:5310</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Level III**

Both of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:4740/</td>
<td>Large Data Analysis (capstone course)</td>
<td>3</td>
</tr>
<tr>
<td>STAT:4740/CS:4740</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MSCS:4480/CS:4480</td>
<td>Knowledge Discovery</td>
<td>3</td>
</tr>
</tbody>
</table>

Topic courses on Internet measurements and analytics or topological data analysis may be substituted for the requirements with the approval of the large data analysis advisory board.
Latham Science Engagement Initiative

Chair, Department of Biology
• Diane C. Slusarski

Program Director, Latham Science Engagement Initiative
• Lori Adams (Biology)

Faculty: https://latham.uiowa.edu/people/faculty
Website: https://latham.uiowa.edu/

The Latham Science Engagement Initiative provides the opportunity to engage highly talented undergraduate students across science disciplines to work collaboratively toward solutions to societal problems. The program enhances research opportunities for selected undergraduates with the goal to position students with scientific and creative ability for graduate work.

The program prepares students to communicate science in the public sphere, work in interdisciplinary settings, and demonstrate the broader impact of scientific research. Students experience the strength of interdisciplinary interactions through exposure to research in other disciplines and work with students in other science majors on group projects. In addition, they develop fluency in communicating to diverse audiences in the community.

Students must apply for this program of study. The requirements include first-year, sophomore, or junior standing in the College of Liberal Arts and Sciences; a g.p.a. of at least 3.30; a minimum of one semester of undergraduate research experience; and an interest in speaking about science in a public forum.

Students selected for the program complete two courses, design and implement an outreach project, and participate in an event that highlights their achievements.

For additional information, contact the Latham Science Engagement Initiative and Fellowship Program.

Courses

Latham Science Engagement Initiative Courses

LATH:3000 Latham Fellows: Science Communication Skill Building 1-2 s.h.
Provide Latham Fellows with various communication skills needed to explain scientific research to varied audiences.

LATH:3001 Latham Fellows: Science Outreach Project 2 s.h.
Guidance to Latham Fellows as they implement one individual and one group project proposed the previous fall. Prerequisites: LATH:3000. Requirements: Latham Fellow standing.

LATH:4990 Science Communication and Engagement 1-3 s.h.
Independent science outreach and engagement project through the Latham Science Engagement Initiative. Prerequisites: LATH:3000 and LATH:3001. Requirements: admission to the Latham Science Engagement Fellows Program.
Latin American Studies

**Director, Division of Interdisciplinary Programs**
- Helena R. Dettmer

**Director, Latin American Studies**
- Joy Hayes (Communication Studies)

**Coordinator, Latin American Studies**
- Karmen Berger

**Undergraduate minor:** Latin American studies  
**Undergraduate certificate:** Latin American studies  
**Faculty:** [https://clas.uiowa.edu/latin-american-studies/people/faculty](https://clas.uiowa.edu/latin-american-studies/people/faculty)  
**Website:** [https://clas.uiowa.edu/latin-american-studies/](https://clas.uiowa.edu/latin-american-studies/)

The Latin American Studies Program (LASP) is an interdisciplinary program focusing on the history, society, language, art, and culture of Latinos/as in Central and South America, Mexico, the Caribbean, the United States, and elsewhere. Faculty members from across the College of Liberal Arts and Sciences participate in the Latin American Studies Program as affiliated faculty members. Other University of Iowa faculty members occasionally offer courses and participate in the program's research, study, and interdisciplinary activities.

The Latin American Studies Program prepares students for graduate study or for Latin America-related careers in business, communications, government, bilingual/bicultural education, secondary teaching, community organizing, and international work.

In addition to its instructional activity, LASP organizes a wide variety of activities, brings scholars of Latin America to campus, and fosters institutional linkages.

Latin American Studies is one of the academic units in the Division of Interdisciplinary Programs [p. 309].

**Study Abroad**

The Latin American Studies Program highly recommends, but does not require, that students have an in-depth Latin American cultural experience, usually through study abroad, before completing their undergraduate requirements.

In cooperation with International Programs Study Abroad, LASP faculty members facilitate student participation in programs in many Latin American countries. University of Iowa students may enroll in programs in Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Honduras, Mexico, and Uruguay. Programs range from intensive language study to group programs with a special focus. The University of Iowa cosponsors these programs through various consortiums.

Study abroad courses may be counted toward requirements for the certificate and the minor with prior approval from a LASP director.

**Financial Support**

Students are encouraged to apply for a Stanley Undergraduate Award for International Research/Fieldwork through University of Iowa International Programs. The awards are given to outstanding University of Iowa undergraduates who, in close consultation with a faculty member, propose well-conceived, small-scale research or fieldwork projects that require travel abroad. Students may conduct projects while participating in a study abroad program and may combine the award with other awards and financial assistance. For information regarding other scholarships, contact LASP advisors, International Programs staff, and the LASP director.

**Activities**

In addition to its instructional activity, LASP organizes a range of public programming activities each semester, including film series, photography and art exhibits, conferences, roundtable discussions, and lectures. Recent events include public lectures on community media and violence in Mexico and Colombia and on the cultural legacies of the 1960s in Latin America, and the annual Charles A. Hale Lecture in Latin American Studies. In the past, LASP cosponsored an interdisciplinary symposium on the Latino Midwest and the International Conference of the American Portuguese Studies Association.

Rotating Topics
The focus of these courses changes from semester to semester. With prior approval, students may use these courses to satisfy requirements for the Latin American studies certificate or minor when the course focuses on Latin America.

- ANTH:3107 Literature and Anthropology 3 s.h.
- CINE:4618 Topics in World Cinemas 3 s.h.
- ENGL:4000 English Honors Seminar 3 s.h.
- HIST:2151 Introduction to the History Major 3 s.h.
- SPAN:3290 Topics in Cinema and Society 3 s.h.
- SPAN:3370 Topics in Literatures and Cultures 3 s.h.
- SPAN:4850 Topics in Cultural Studies 3 s.h.
- SPAN:4910 Topics in Literary Studies 3 s.h.
- SPAN:4920 Topics in Film Studies 3 s.h.

Latin American Studies Courses
All Latin American Studies Program courses are approved for the certificate and minor.

- LAS:1150 Brazilian Culture and Carnival 3 s.h.
  Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Values, Society, and Diversity. Same as DANC:1150.

- LAS:1765 U.S. Latino Religions 3 s.h.
  Beliefs and practices of U.S. Latinos and Latinas, ways that their beliefs and practices are unique and where they overlap with mainstream U.S. society; beliefs, symbols, and practices among U.S. Latinos and Latinas on national and local level; field visits to local churches and religious sites; class visitors share insights. Same as RELS:1765.

- LAS:1898 Introduction to Latina/o Communication and Culture 3 s.h.
  Introduction to fundamentals of communication by and about Latina/o in the U.S.; Latina/o as one of the fastest growing demographics; how Latina/o history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o social movement and protest (e.g., Chicana/o movements and the Young Lords Organization), institutional discourses (e.g., congressional, presidential, and legal discourses), and Latina/o in popular culture (film, TV, music, sports). Same as COMM:1898.

- LAS:2052 Latin American Media 3 s.h.
  Development of media institutions, texts, and audiences across a number of Latin American countries; focus on broadcast media (radio and television) and situates them within larger historical context of 20th- and 21st-century Latin America; readings, discussions, and assignments with particular attention to influence of U.S. corporate and state interests on Latin American media; debates over cultural dependency, globalization, and hybridity in region. Same as COMM:2052.

- LAS:2311 Music of Latin America and the Caribbean 3 s.h.
  Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity. Same as MUS:2311.

- LAS:2415 Latin American Politics 3 s.h.
  Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences. Same as POLI:2415.

- LAS:2700 Introduction to Latin American Studies 3 s.h.
  Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as COMM:2800, IS:2700, PORT:2700, SPAN:2700.

- LAS:3104 Immigration Politics 3 s.h.
  United States immigration policy and political consequences of Latino population growth; contrast of political experiences of Latinos with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as POLI:3104.

- LAS:3111 Health in Mexico 3 s.h.
  Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as ANTH:3111, GHS:3040.

- LAS:3120 The Art of Ancient Mexico 3 s.h.
  Art and architecture of Mexico and Peru before Cortéz. Same as ARTH:3120.

- LAS:3535 Inter-American Studies 3 s.h.
  English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3535.

- LAS:4216 Mexican American History 3 s.h.
  Survey of Chicana/o (Mexican American) history from 18th century to present; Mexican American society’s diverse nature, explored through class, ethnic, gender, and regional divisions. Same as HIST:4216.

- LAS:4501 Society and Revolution in Cuba 3 s.h.
  Cuban society and revolutionary movements since the late colonial period, including the years since 1959. Same as HIST:4501.

- LAS:4508 Medicine and Public Health in Latin America, 1820-2000 3 s.h.
  Survey of major topics in modern Latin American history in relation to development of medicine and public health. Same as GHS:4508, HIST:4508.

- LAS:4515 Introduction to Modern Latin America 3 s.h.
  Cultural, institutional continuity from independence to present. Same as HIST:4515.

- LAS:4678 Topics in Latin American Cinema 3 s.h.
  Taught in English. Prerequisites: CINE:1601. Requirements: one Spanish literature or culture course numbered above SPAN:3200 or one film studies course. Same as CINE:4678, SPAN:4810.

- LAS:4700 Latin American Studies Seminar 3 s.h.

- LAS:4990 Independent Study arr.
Latin American Studies, Minor

The minor in Latin American studies requires a minimum of 15 s.h. in Latin American Studies Program (LASP) approved courses (see "Associated Courses" and "Latin American Studies Courses" under Courses [p. 622] in this section of the Catalog), including at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

A student may earn the minor or the certificate in Latin American studies, but not both.

Students may count a total of 6 s.h. earned for majors, certificates, and other minors toward the Latin American studies minor. The minor is interdisciplinary, so it may include a maximum of 6 s.h. of credit from any single department or program.

Students are strongly encouraged to take either or both of these for the minor.

| LAS:2700 | Introduction to Latin American Studies | 3 |
| LAS:4700 | Latin American Studies Seminar | 3 |
Latin American Studies, Certificate

The Certificate in Latin American Studies requires a minimum of 18 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program (except those earning an undergraduate major in international studies [p. 576] with an emphasis in Latin American studies).

A student may earn the certificate or the minor in Latin American studies, but not both.

The 18 s.h. required for the certificate must be earned in LASP-approved courses (see “Associated Courses” and “Latin American Studies Courses” under Courses [p. 622] in this section of the Catalog) and must include at least 12 s.h. of credit earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in certificate courses.

All students develop an individual certificate plan of study in close cooperation with a LASP advisor. They may count a total of 6 s.h. of credit earned for majors, minors, and other certificates toward the Certificate in Latin American Studies. In some cases, students may be able to count certificate courses toward certain General Education Program [p. 437] requirements.

The Certificate in Latin American Studies requires the following course work.

Students who complete the required 6 s.h. of Spanish and Portuguese course work at the University of Iowa must choose courses from the "Associated Courses" list under Courses [p. 622] in this section of the Catalog. Students also may use 6 s.h. of Spanish or Portuguese language study at any level if those hours are earned through an approved study abroad program in Latin America. Contact the Latin American Studies Program for prior approval of a study abroad program.

The required 6 s.h. of additional courses also must be chosen from the "Associated Courses" and "Latin American Studies Courses" lists under Courses [p. 622] in this section of the Catalog. They may not include Spanish or Portuguese (prefix PORT or SPAN) courses.

Study Abroad

The program highly recommends study abroad in Latin America. Students must have prior approval to apply credit from a study abroad program toward the certificate requirements; contact the Latin American Studies Program.
Latina/o Studies

Director, Division of Interdisciplinary Programs
• Helena R. Dettmer

Director, Latina/o Studies
• Claire F. Fox (English/Spanish and Portuguese)

Coordinator, Latina/o Studies
• Karmen Berger

Undergraduate minor: Latina/o studies
Faculty: https://clas.uiowa.edu/latina-latino-studies/people
Website: https://clas.uiowa.edu/latina-latino-studies/

Latina/o studies offers an interdisciplinary perspective on the history, culture, politics, and experiences of the Latina/o population in the United States. This population is now the largest minority group in the United States, and by the year 2060, it is expected that approximately one third of the U.S. population will be Latina/o. Latina/o studies courses introduce the peoples who have had a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers.

The Latina/o studies minor helps to prepare undergraduates for careers in medicine, public health, social work, business, education, and the arts, and to respond to the changing demographics of the United States.

Latina/o studies is one of the academic units in the Division of Interdisciplinary Programs [p. 309].

Programs

Undergraduate Program of Study

Minor
• Minor in Latina/o Studies [p. 628]

Courses

Latina/o Studies Courses

LATS:2280 Introduction to Latina/o Studies 3 s.h.
Introduction to field of Latina/o studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o populations (Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Same as HIST:2280, SPAN:2280.
Latina/o Studies, Minor

The minor in Latina/o studies (Latina/Latino studies) requires a minimum of 15 s.h. Additionally, 12 s.h. of course work must be taken at the University of Iowa, with a maximum of 3 s.h. accepted as transfer credit from another institution. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate may be counted toward the minor.

The minor in Latina/o studies requires the following course work.

Linguistics

Director, Division of World Languages, Literatures, and Cultures
• Russell Ganim
Chair, Department of Linguistics
• William Davies

Undergraduate major: linguistics (B.A.)
Undergraduate minor: linguistics
Graduate degrees: M.A. in linguistics; Ph.D. in linguistics
Faculty: https://clas.uiowa.edu/linguistics/people/faculty
Website: https://clas.uiowa.edu/linguistics/

Linguistics is the scientific study of human languages, which are highly complex systems. Areas of study include word structure (morphology), speech sounds (phonetics) and their patterns of combination and contrast (phonology), sentence structure (syntax), and meaning relations (semantics).

Linguists study well-known and familiar languages, such as English, Spanish, Russian, and Chinese. They also study less well-known languages and even those languages about which little has been discovered. While human languages are different from one another in many ways, there are broad similarities among them, supporting the idea that the capacity for language is part of human cognitive functions.

The description of formal patterns of human language has a number of applications. Linguistics is connected to psychology and to speech and hearing, in studying how children learn language, how speakers process and interpret language, and how injuries and disorders affect both production and perception of speech. Linguistics also is linked with anthropology and other social sciences in studying how language use relates to culture, region, class, and gender. Linguists collaborate with computer scientists to construct computational representations of syntax and semantics for processing natural languages.

Linguistics has important ties with instruction in world languages and in English as a second language (ESL). Studies of how languages are learned are based on part on analysis of the languages in question. They also are grounded strongly in theories of second language acquisition, which in turn are related to theories of how linguistic knowledge is represented in the mind.

People with linguistic training teach ESL and help clinicians retrain people with linguistic disabilities. Some help design school programs for minority groups or intelligence and achievement tests. Linguists also work in occupations related to law, the computer industry, and world languages.

High scores on verbal, analytic, and quantitative aptitude tests are indicators of success in linguistics. Although few aspects of the field deal with numbers, students must be able to reason logically and explicitly and deal with formulas and abstract symbols.

The Department of Linguistics is one of the academic units in the Division of World Languages, Literatures, and Cultures [p. 312].

Related Certificate: Cognitive Science of Language

The Graduate College offers the Certificate in Cognitive Science of Language. Designed to complement doctoral study, the certificate program ensures that students have training in interdisciplinary approaches to the study of language along with strong theoretical grounding in their Ph.D. discipline. See Cognitive Science of Language (p. 1276) (Graduate College) in the Catalog for more information.

Programs

Undergraduate Programs of Study

Major
• Major in Linguistics (Bachelor of Arts) [p. 633]
Minor
• Minor in Linguistics [p. 635]

Graduate Programs of Study

Majors
• Master of Arts in Linguistics [p. 636]
• Doctor of Philosophy in Linguistics [p. 637]

Facilities

The Department of Linguistics has a laboratory equipped with 20 computer workstations for small group instruction, individual work, and student research in speech analysis, second language acquisition, computational linguistics, and other areas. The department also has a soundproof booth connected to a computer with software for speech analysis. Remote terminals and personal computers also are available to students.

The departmental reading room, which contains a modest library, provides a common meeting place for faculty and students.

Courses

Linguistics Courses

LING:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

LING:1003 English Grammar 3 s.h.
Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as WRIT:1003.

LING:1010 Language and Society 3 s.h.
Correlations between social and linguistic behavior; methods for discovering and describing socially significant language behavior; educational and political implications of findings. GE: Social Sciences.

LING:1020 Introduction to the Study of Language 3 s.h.
Nontechnical introduction: classification of languages, writing systems, language and the brain, acquisition of first and second languages, bilingualism, animal communication, language and computing.
LING:1030  English Words  3 s.h.  English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as WRIT:1030.

LING:1040  Language Rights  3 s.h.  Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as ANTH:1040.

LING:1050  Language and Formal Reasoning  3 s.h.  Semantics and sentence structure of English; word meanings, meaning connected to truth conditions, reasoning based on logical connectives and quantifiers, evaluation of valid and invalid arguments. GE: Quantitative or Formal Reasoning.

LING:1060  Languages of the World  3 s.h.  Overview of structural similarities and differences in human language; survey of the world's major language families; emphasis on sentence and word structure, sound systems, and modes of classification. GE: Values, Society, and Diversity.

LING:2010  Research Practicum  arr.  Individual participation in faculty research projects.

LING:2090  Special Project  arr.  Individual participation in faculty research projects.

LING:2900  Language, Gender, and Sexuality  3 s.h.  Gender-related language variation; current research on gender-specific linguistic forms and usage in the United States and other language communities; introduction to relevant principles of linguistic theory and analysis. GE: Values, Society, and Diversity.

LING:3001  Introduction to Linguistics  3 s.h.  Introduction to the study of human language: sounds and their contrasts and variation, words and meaningful subunits, sentence structure, historical change.

LING:3005  Articulatory and Acoustic Phonetics  3 s.h.  Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as SLA:3400.

LING:3010  Syntactic Analysis  3 s.h.  Introduction to sentence structures and basic abstract relations that characterize them, including word category, word order, hierarchical organization; problem sets from English and other languages as basis for discussion, analysis. Offered spring semesters. Prerequisites: LING:3001.

LING:3020  Phonological Analysis  3 s.h.  Introduction to analysis of sound systems; generative phonological theory; practice in phonological analysis using data from a variety of languages. Offered spring semesters. Prerequisites: LING:3001 and LING:3005.

LING:3030  Child Language-Linguistic Perspectives  3 s.h.  Linguistic theory as applied to first-language learning, including acquisition of sounds, syntax and word meaning, acquisition strategies, properties of input, theories of first-language acquisition. Prerequisites: LING:3001.

LING:3040  Topics in Linguistics  3 s.h.  Varied topics in linguistics; for undergraduates.

LING:3080  History of the English Language  3 s.h.  Development of phonological and grammatical structure of English, from Old to Modern English; dialectal differentiation in English. Same as WRIT:3080.

LING:3116  Basic Neuroscience for Speech and Hearing  3 s.h.  Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as CSD:3116.

LING:3117  Psychology of Language  3 s.h.  Theoretical, empirical investigations of linguistic behavior; behaviorist, rationalist models in context of formal linguistic structure and context of models of speech perception and production. Offered spring semesters. GE: Social Sciences. Same as CSD:3117.

LING:3302  Introduction to Chinese Linguistics  3 s.h.  Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, SLA:3302.

LING:3670  Language Processes  3 s.h.  Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: (PSY:2701 and PSY:2812 with a minimum grade of C-) or PSY:2810 with a minimum grade of C-) and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as PSY:3670.

LING:4010  Undergraduate Practicum in Teaching English as a Second Language  3 s.h.  Practicum experience for undergraduate linguistics majors with an emphasis in teaching English as a second language (TESL); readings and reflection on academic writing, international student writing, and providing feedback on written work; training in the policies and procedures of the Department of Rhetoric's Writing Center; mentored experience in working with international student writers. Prerequisites: LING:3005 and LING:4040. Corequisites: LING:4050. Requirements: undergraduate major in linguistics with TESL emphasis.

LING:4020  Morphology  3 s.h.  Lexicon and principles of word formation; principal processes of inflection, derivation, and compounding found in the world's languages; relation to phonology, syntax; practice in morphological analysis from a variety of languages. Prerequisites: LING:3001.

LING:4030  Introduction to Computational Linguistics  3 s.h.  Introduction to computational linguistics; focus on theory and practice of natural language processing and syntactic and semantic analysis. Same as CSD:4460.

LING:4040  The Structure of English  3 s.h.  Descriptive analysis of English, including word and sentence structure; focus on relevance to teaching English as a second language. Offered fall semesters. Prerequisites: LING:3001.
LING:4050 Methods of Teaching English as a Second Language 3 s.h.
Observations of ESL and intensive English classes at the University; design and presentation of short lessons, text evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: LING:3005 and LING:4040. Same as SLA:4401.

LING:4060 Introduction to Semantics 3 s.h.
Overview of meaning in natural language mapped onto lexical and syntactic structures; formal logical and set theory description; discussion of truth conditions, compositionality, presupposition, definiteness, quantification in natural language. Requirements: course in syntax.

LING:4070 Introduction to Pragmatics 3 s.h.
Introduction to study of meanings and language use in context; meaning outside the literal semantic interpretation of words used, including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Prerequisites: LING:3001. Same as FREN:4070.

LING:4080 Linguistic Theory and Second Language Acquisition 3 s.h.
Introduction of research results obtained by generative second language acquisition framework and their implications for classroom teaching methods; current views of language architecture; focus on inflectional morphology and linguistic interfaces, which have been proposed to be severe bottlenecks for acquisition; research findings on acquisition of syntax, phonology, semantics, linguistic pragmatics; pedagogical implications of these findings. Prerequisites: LING:3010 and LING:3020. Same as SLA:4080.

LING:4090 Practical Phonetics 3 s.h.
Contemporary articulatory and acoustic research, including second-language acquisition, elicitation and computer analysis of primary linguistic data. Prerequisites: LING:3005.

LING:4589 Philosophy of Language 3 s.h.
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performatives, rule following, reference, naming, propositional attitudes, metaphor. Same as PHIL:4589.

LING:5000 Proseminar: Morphosyntax 1 s.h.
Basic morphological analysis of languages other than English; morphological markers of syntactic relations (morphosyntax), such as case/agreement, possession, switch reference and other inflectional marking. Corequisites: LING:5010.

LING:5010 Introduction to Syntax 3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as SLA:5010.

LING:5020 Introduction to Phonology 3 s.h.
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: LING:3005. Same as SLA:5020.

LING:5030 First Language Acquisition 3 s.h.
Child language from a crosslinguistic perspective. Prerequisites: LING:3005 and (LING:4040 or LING:5010). Same as SLA:5401.

LING:5040 Linguistic Field Methods 3 s.h.
Collection and analysis of primary linguistic data from unfamiliar language; methods of elicitation, theory, practical problems; extensive practice in eliciting data from a consultant. Prerequisites: LING:3005 and LING:5010. Requirements: a course in syntax and a course in phonology.

LING:5070 Practicum in Teaching English as a Second Language 3 s.h.
Practical experience in TESL, observation and participation in intensive English classes; design and teaching of ESL classes under supervision. Offered summer sessions. Prerequisites: LING:4050.

LING:5090 Special Projects arr.
Theoretical and applied topics.

LING:6010 Syntactic Theory 3 s.h.
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: LING:5010. Same as SLA:6010.

LING:6020 Phonological Theory 3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as SLA:6011.

LING:6040 Linguistic Structures 3 s.h.
Grammatical and/or phonological structure of a selected language or language family.

LING:6050 Language Universals Linguistic Typology 3 s.h.
Proposed universal principles of linguistic structure; approaches to classification of languages on the basis of grammatical and phonological structure. Prerequisites: LING:5010.

LING:6080 Generative Second Language Acquisition 3 s.h.
Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners' linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Same as SLA:6452.

LING:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, PST:6101.

LING:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, PST:6102.

LING:6190 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Recommendations: additional graduate course work in linguistics. Same as SLA:6302, SPAN:6190.
LING:6415 Seminar: Language, Gender, and Sexuality 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, GWSS:6415.

LING:6900 Master's Thesis arr.
LING:7000 Seminar: Spanish Linguistics 3 s.h.
Same as SPAN:7000.

LING:7010 Advanced Syntactic Theory 2-3 s.h.
Recent developments in syntax; comparison of theories, argumentation, and uses of data. Prerequisites: LING:6010. Same as SLA:7401.

LING:7020 Advanced Phonological Theory 2-3 s.h.
Current issues. Prerequisites: LING:6020. Same as SLA:7402.

LING:7040 Topics in Linguistic Theory 2-3 s.h.
Varied topics in linguistic theory; for graduate students.

LING:7090 Seminar: Problems in Linguistics 2-3 s.h.
Intensive study of theoretical and practical problems. Same as SLA:7404.

LING:7100 Special Projects arr.
Linguistics, B.A.

Depending on their vocational goals, students planning to major in linguistics should consider pursuing their studies either through the M.A. in linguistics with a professional focus or through the Ph.D., or they should complete a second major. Appropriate companion fields include languages, anthropology, computer science, English, mathematics, philosophy, psychology, sociology, speech pathology, and elementary and secondary education.

Requirements

The Bachelor of Arts with a major in linguistics requires a minimum of 120 s.h., including 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

The major in linguistics prepares students to do basic language analysis in syntax-semantics (sentence patterns and their relation to meanings) and phonology (sound patterns). Elective courses in a variety of subspecialties enable students to tailor the program to their own interests.

The B.A. with a major in linguistics requires the following course work.

| Major Courses | 15 |
| Electives | 15 |
| **Total Hours** | 30 |

Major Courses

Students must complete no fewer than 15 s.h. of requirements for the major at the University of Iowa, including LING:3005 Articulatory and Acoustic Phonetics, LING:3010 Syntactic Analysis, and LING:3020 Phonological Analysis.

The course LING:1003 English Grammar does not count toward the linguistics major.

All of these:

- LING:3001 Introduction to Linguistics 3
- LING:3005 Articulatory and Acoustic Phonetics 3
- LING:3010 Syntactic Analysis 3
- LING:3020 Phonological Analysis 3

One of these:

- A course in language history, such as LING:3080 3
- A course in an old language (classical Greek, Latin, Old English, Sanskrit) 3

Electives

Electives chosen in consultation with a faculty advisor, bringing total credit in the major to 30 s.h.

TESL Emphasis

As part of the major in linguistics, students may complete an emphasis in Teaching English as a Second Language (TESL). The TESL emphasis can prepare students to teach English to nonnative speakers abroad. It also is excellent preparation for graduate work in second language acquisition. TESL emphasis students complete the requirements for the linguistics major listed above, using the following course work to partially satisfy the electives requirement.

Both of these:

- LING:4040 The Structure of English 3
- LING:4050 Methods of Teaching English as a Second Language 3

One of these:

- LING:3030 Child Language-Linguistic Perspectives 3
- LING:3670 Language Processes 3
- LING:4080 Linguistic Theory and Second Language Acquisition 3
- LING:4090 Practical Phonetics 3

Honors in the Major

Students majoring in linguistics have the opportunity to graduate with honors in the major. Departmental honors students must complete the required course work for the major and must prepare an honors thesis, working in consultation with their academic advisor.

Honors students in linguistics must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Joint B.A./M.A. with TESL Focus

Undergraduate linguistics majors who plan to earn a master's degree in linguistics with a Teaching English as a Second Language (TESL) focus have the opportunity to enroll in the joint Bachelor of Arts/Master of Arts degree program. Students in the joint B.A./M.A. program take selected graduate-level courses while they are still undergraduates and may count 12 s.h. of advanced course work toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the B.A., and they usually complete the M.A. one year later.

As part of the undergraduate major with TESL focus, B.A./M.A. students take LING:4040 The Structure of English, a course in language history, LING:3001 Introduction to Linguistics, and LING:3005 Articulatory and Acoustic Phonetics.

Students substitute some graduate-level course work for normal undergraduate requirements. Instead of taking LING:3010 Syntactic Analysis to fulfill the B.A. syntax requirement, they take LING:5010 Introduction to Syntax, the first course in the mandatory two-course syntax sequence for M.A. students. Instead of taking LING:3020 Phonological Analysis to fulfill the B.A. phonology requirement, they take LING:5020 Introduction to Phonology, the first in the graduate two-course phonology sequence.

In addition, LING:4050 Methods of Teaching English as a Second Language and LING:6010 Syntactic Theory count toward both degrees and typically are taken during the senior year.

To be admitted to the program, students must be working toward an undergraduate major in linguistics, must have completed at least 80 s.h. of undergraduate course work (typically by the end of their fifth semester), and must have a g.p.a. of at least 3.50.
Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** Introduction to Linguistics (LING:3001) and one additional linguistics course

**Before the seventh semester begins:** three more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Linguistics majors have found work teaching English as a second language overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

Some graduates choose to pursue advanced study in linguistics or other disciplines. Graduates with bachelor’s degrees in linguistics may be admitted to certain graduate programs without additional academic preparation, such as anthropology, English literature, world language specializations, law, library science, philosophy, psychology, and sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Linguistics, Minor

The minor in linguistics requires a minimum of 15 s.h. in linguistics courses, including at least 12 s.h. in University of Iowa courses. The minor must include the courses listed below. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor in linguistics requires the following course work.

Linguistics, M.A.

Department of Linguistics graduate programs emphasize theory and research. Students interested in non-university careers also may take courses in applied linguistics and other fields as an option in the M.A. program.

Iowa’s linguistics department has particular strengths in phonology, syntax, and second language acquisition (SLA). The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized course work on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.

The curriculum in second language acquisition includes courses that provide an overview and analysis of current SLA research conducted within the generative framework, with emphasis on explaining the linguistic competence of second language learners in terms of universal grammar (UG), the innate language acquisition device. Work focuses on experimental research investigating the influence of the first language, theories of UG access, and related topics.

Requirements

The Master of Arts in linguistics requires a minimum of 31-37 s.h. of graduate credit with thesis, or 37 s.h. without thesis. A student’s advisor must approve all courses that count toward the degree.

A student with a linguistics background may waive up to 6 s.h. of course work if the department determines that the student completed comparable work before enrolling in the program.

Comprehensive examinations cover phonology, syntax, and applied linguistics (for students who choose this option).

Core Courses

All M.A. students complete the following set of required core courses in phonology, syntax, and language acquisition (total of 22 s.h.).

All of these:

- LING:3005 Articulatory and Acoustic Phonetics 3
- LING:5000 Proseminar: Morphosyntax 1
- LING:5010 Introduction to Syntax 3
- LING:5020 Introduction to Phonology 3
- LING:6010 Syntactic Theory 3
- LING:6020 Phonological Theory 3
- LING:6080 Generative Second Language Acquisition 3

One of these:

- LING:5040 Linguistic Field Methods 3
- LING:6040 Linguistic Structures 3

Electives/Thesis

Thesis students also complete at least 9 s.h. of electives and may earn up to 6 s.h. for the thesis.

Nonthesis students also complete 15 s.h. of Department of Linguistics course work, which may include a 9 s.h. focus (e.g., teaching English as a second language).

Admission

Applicants to the graduate program in linguistics must complete an application form, submit GRE General Test scores, and have three letters of recommendation sent to the Department of Linguistics. Students whose first language is not English must submit Test of English as a Foreign Language (TOEFL) scores. Applications for admission should be submitted as early as possible for the following academic year.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Applications should be received by February 1 for the following academic year in order to have priority in consideration for financial aid. Applications received after February 1 are considered for remaining aid. Early submission of an application is strongly encouraged.

Applications for awards are considered only for students whose application for admission is complete.

Career Advancement

A master’s degree with TESL emphasis qualifies graduates to teach English as a second language in the United States or overseas. Unique teaching opportunities worth exploring include those with the Peace Corps and Teach For America.

A number of companies, such as Microsoft, Xerox, Apple, Hewlett-Packard, and other high-tech firms, regularly hire employees with linguistics degrees. Opportunities also exist for government work, for example, as a special agent linguist for the FBI.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Linguistics, Ph.D.

Department of Linguistics graduate programs emphasize theory and research. Students interested in non-university careers also may take courses in applied linguistics and other fields in connection with doctoral work.

Iowa’s linguistics department has particular strengths in phonology, syntax, and second language acquisition (SLA).

The phonology curriculum emphasizes current theoretical perspectives, including optimality theory, and the collection, description, and interpretation of novel phonological and phonetic data. Courses feature extensive work in data analysis and problem solving, focusing on construction and evaluation of phonological theories, particularly in light of new empirical data.

The syntax curriculum includes the dual emphases of empirical and theoretical perspectives. It offers a variety of foundational courses that build analytic and argumentation skills, as well as specialized coursework on current issues in syntactic theory. The courses consist of intensive work in problem solving. They combine discovery and description of new linguistic data with exploration of the implications of such facts in testing and constructing syntactic theories.

The curriculum in second language acquisition includes courses that provide an overview and analysis of current SLA research conducted within the generative framework, with emphasis on explaining the linguistic competence of second language learners in terms of universal grammar (UG), the innate language acquisition device. Work focuses on experimental research investigating the influence of the first language, theories of UG access, and related topics.

Requirements

The Doctor of Philosophy in linguistics requires a minimum of 72 s.h. of graduate credit, or 73 s.h. for graduates of the M.A. nonthesis program. The highly selective program provides students with a strong foundation in theoretical linguistics and helps them develop the skills they will need to explore the close relationship between linguistics and related disciplines.

The Ph.D. core includes the following coursework (total of 18 s.h.).

Two upper-level syntax courses numbered LING:7010 or above
Two upper-level phonology courses numbered LING:7020 or above
Two or more seminars

An approved specialty area of 18 s.h. also is required, and students must achieve proficiency in a world language, as specified by department regulations.

To pass the comprehensive examination for the Ph.D., a student must gain approval for two papers of publishable quality. One must be in phonology or syntax. The other should be in an area of the student’s choosing and must be distinct from the area of the first paper.

An oral defense of the dissertation and three years in residence at the University of Iowa are required. In addition, all candidates are required to gain supervised experience in teaching and research.

Admission

Applicants to the graduate program in linguistics must complete an application form, submit GRE General Test scores, and have three letters of recommendation sent to the Department of Linguistics. Students whose first language is not English must submit Test of English as a Foreign Language (TOEFL) scores. Applications for admission should be submitted as early as possible for the following academic year.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Applications should be received by February 1 for the following academic year in order to have priority in consideration for financial aid. Applications received after February 1 are considered for remaining aid. Early submission of an application is strongly encouraged.

Applications for awards are considered only for students whose application for admission is complete.

Career Advancement

Undergraduate certificate: writing
Faculty: https://magidcenter.uiowa.edu/certificate/instructors
Website: https://magidcenter.uiowa.edu/

The University of Iowa is known nationally and internationally for its writing programs, particularly for its top-ranked Master of Fine Arts programs in creative writing (p. 362) (Iowa Writers’ Workshop) and nonfiction writing (p. 363) (Department of English). It also offers a creative writing track for undergraduate English (p. 330) majors and numerous discipline-based programs that emphasize writing. Several of the University’s colleges have their own writing centers.

Precollege Program

Iowa Young Writers’ Studio
Website: http://iowayoungwritersstudio.org/

The Iowa Young Writers’ Studio is a residential creative writing program offered during summer at the University of Iowa. Students in the program build a community of peers while working with experienced writing teachers, primarily students and graduates of the University’s M.F.A. program in creative writing.

The studio offers three courses of study: poetry, fiction, and creative writing (a mix of poetry, fiction, and creative nonfiction). Each course consists of a seminar and a workshop. In seminars, students read literature by established writers. In workshops they share their own writing, get feedback from their classmates and teacher, and discuss issues of narrative and form.

The studio offers two two-week sessions: one in June and one in July.

Young writers who have completed grade 10, 11, or 12 are eligible to attend the studio. Application materials include an application, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation from an English teacher or another instructor familiar with the applicant’s writing. Application is done entirely online. For complete application information, contact the Iowa Young Writers’ Studio or visit its website.

Application deadline is early February for the following summer.

College Program

Certificate in Writing

The undergraduate Certificate in Writing enables students in all majors to benefit from the University’s wide-ranging writing programs and resources by pursuing a concentration in writing related to their majors, their career goals, or their personal interests.

The Frank N. Magid Center for Undergraduate Writing is one of the academic units in the Division of Interdisciplinary Programs [p. 309]. The Certificate in Writing and the Iowa Young Writers’ Studio are administered by the College of Liberal Arts and Sciences [p. 17].

Learn more about the University’s wealth of writing resources by visiting The Writing University website, and read about the University’s central role in Iowa City’s designation as a UNESCO City of Literature.

Programs

Precollege Program of Study

The Iowa Young Writers’ Studio is a residential creative writing program offered during the summer for high school students who have completed grade 10, 11, or 12. See Precollege Program earlier in this section of the Catalog.

Undergraduate Program of Study Certificate

• Certificate in Writing [p. 641]

Career Advancement

Recent Certificate in Writing graduates have gone on to work in various fields that are wide-ranging in scope and background. Graduates have found work as teachers, copywriters, editors and publishers, government administrators, free-lance journalists, magazine writers, and more. Additionally, graduates often go on to graduate and professional programs, such as M.F.A. programs and law, and Teach For America. Finally, many recent graduates have found internships during and after their time in the program with publishing companies and magazines across the country.

Courses

Iowa Young Writers' Studio Courses

IYWS:1001 Iowa Young Writers' Studio 0 s.h.
IYWS:1002 Iowa Young Writers’ Studio: Fiction Writing 0-1 s.h.
Introduction to fiction writing; for high school students.
Requirements: admission through Iowa Young Writers’ Studio application process.
IYWS:1003 Iowa Young Writers’ Studio: Poetry Writing 0-1 s.h.
Introduction to poetry writing; for high school students.
Requirements: admission through Iowa Young Writers’ Studio application process.
Magid Center for Undergraduate Writing Courses

WRIT:1003 English Grammar 3 s.h. Recognizing nouns, verbs, adverbs, adjectives, and other parts of speech; sentence analysis; subjects, objects; types of sentences; passives, relative clauses; for students with little or no background in English grammar study. Does not count toward the linguistics major. Same as LING:1003.

WRIT:1030 English Words 3 s.h. English word formation, basic units of English vocabulary; vocabulary skill expansion; word structure. Same as LING:1030.

WRIT:1500 Writing Commons: A Community of Writers 1-3 s.h. Varied topics focused on building community and enhancing writing skills through generative exercises, long-form essay and hybrid assignments, workshops, sharing work in public, reading and discussing works of published authors.

WRIT:1600 Fast Fixes: Improving Your Writing in Six Short Weeks 1 s.h. Varied topics focused on improving common writing problems or specific aspects of craft. Prerequisites: (RHET:1040 and RHET:1060) or RHET:1030.

WRIT:1740 Writing Strategies: Word Origins and Word Choice 3 s.h. Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as CLSA:1740.

WRIT:2600 Science Communication I: Fundamentals of Science Communication 2 s.h. Bringing science to varied audiences; focus on writing and presenting research story, analogies, connecting with audiences, collaborating with others from science and film/writing disciplines; first of a two-course sequence culminating in a group outreach project and print product.

WRIT:2601 Science Communication II: Science Outreach and Engagement 2 s.h. Bringing science to varied audiences; focus on writing and presenting research story, analogies, connecting with audiences, collaborating with others from science and film/writing disciplines; second of a two-course sequence culminating in a group outreach project and print product. Prerequisites: WRIT:2600.

WRIT:2900 Book Design for Publishing 3 s.h. Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, ENGL:2900, UICB:2900.

WRIT:2991 Publishing I: Introduction to Literary Publishing 3 s.h. Introduction to major aspects of book and literary publishing, including evaluating submissions, copy editing, production calendars, and planning marketing campaigns; discussion of industry trends. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as CNW:2991.

WRIT:2992 Publishing II: Advanced Literary Publication 3 s.h. Hands-on experience through the Iowa Chapbook Prize of the entire literary publishing process, including reading submissions, selecting texts, editing, layout and design, marketing and promotion, and book release. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CNW:2991. Same as CNW:2992.

WRIT:3080 History of the English Language 3 s.h. Development of phonological and grammatical structure of English, from Old to Modern English; dialectal differentiation in English. Same as LING:3080.

WRIT:3100 Writing with Purpose: Arts Outreach and Reflection with the Iowa Youth Writing Project arr. Service-learning course offered in coordination with Iowa Youth Writing Project (IYWP); students create lesson plans, lead creative writing workshops in area schools and after-school programs, and collaborate to publish a final chapbook of writing from their teaching sites; assigned readings on creative writing pedagogy, teaching life, community outreach, social justice; relationships between self and community enhance interdisciplinary perspectives; weekly written reflections on teaching experiences featured on IYWP blog.

WRIT:3101 Writers in the Community 1 s.h. Experiential, hands-on learning opportunities organized by the Iowa Youth Writing Project; introduction to the community at large; fun and meaningful activities with elementary and junior high school students; designing creative writing lessons, discussion of teaching tips and tricks, leading creative writing workshops for children in the Iowa City community, writing reflective essays about experiences; for those interested in education, creative writing, volunteerism, nonprofit work, or community engagement.

WRIT:3200 Writing for the Earth and Environmental Sciences 1-3 s.h. Practical methods of content creation across curriculum; effective communication to lay and academic audiences; methods of planning, drafting, revising, and editing everything from general articles of interest to scientific papers. Same as EES:3040.

WRIT:3632 Prose Style 3 s.h. Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as CNW:3632.

WRIT:3742 Word Power: Building English Vocabulary 3 s.h. Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as CLSA:3742.

WRIT:3900 Writing: Undergraduate Internship 1-3 s.h. Professional and/or creative experience; students arrange faculty-approved internship. Requirements: undergraduate standing and minimum of 24 s.h. of course work with at least 12 s.h. in University of Iowa courses.

WRIT:4000 Writing: Independent Project 1-3 s.h. Completion of writing capstone requirement for the Certificate in Writing. Requirements: junior or higher standing.

WRIT:4001 Independent Writing Project 1-3 s.h. Completion of writing capstone requirement for the online Certificate in Writing. Requirements: enrollment in online or distance education program.
WRIT:4100 Iowa Youth Writing Project Mentorship Practicum
1-3 s.h.
Mentor new volunteers on a weekly basis at Iowa Youth Writing Project (IYWP) program sites; work one-on-one with volunteers, write and review lesson plans, provide resources and feedback for volunteers, lead workshops for children. Requirements: WRIT:3100 or completion of Iowa Youth Writing Project internship.

WRIT:4745 The Sentence: Strategies for Writing 3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as CW:4745.

WRIT:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as CW:4760.
Writing, Certificate

Certificate in Writing students explore and develop their own writing skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program.

The Certificate in Writing requires a minimum of 21 s.h. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The Certificate in Writing also is available online for students unable to attend classes on campus, including professionals, distance education students, and international students. More information about the online Certificate in Writing is available at the Frank N. Magid Center for Undergraduate Writing website. Some courses below are available online; more online courses are added each year.

Students who complete the certificate develop:

- skills in planning and using strategies to begin writing, overcome obstacles, obtain feedback, revise their work, and present their writing in public venues;
- skills in the craft of writing, such as the ability to write clearly and concisely, control of mechanics and style, and the ability to communicate with particular audiences for specific purposes; and
- competence in discussing writing.

Course work for the certificate includes a minimum of 11 s.h. in core courses, a minimum of 9 s.h. in focused electives, and a minimum of 1 s.h. in a capstone independent study course that results in a project and/or portfolio of work. Students may count a maximum of 6 s.h. earned for a major, a minor, or another certificate toward the Certificate in Writing.

Certificate students have the opportunity to participate in the Iowa City writing community through activities such as attending readings and lectures; presenting their own work in public; working with professional journals, newspapers, or other publications; and volunteer work or an interning with the Iowa Youth Writing Project literacy outreach program.

See "Professional Track" below for information and requirements regarding the literary publishing track for the Certificate in Writing.

The Certificate in Writing requires the following work.

| Core Courses | 11 |
| Focused Electives | 9 |
| Capstone Course: Independent Writing Project | 1-3 |
| Total Hours | 21-23 |

### Core Courses

All students must complete this course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>S.h.</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRIT:1500</td>
<td>Writing Commons: A Community of Writers (online or on campus)</td>
<td>2</td>
</tr>
</tbody>
</table>

And 9 s.h. from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>S.h.</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRIT:1003/ LING:1003</td>
<td>English Grammar</td>
<td>3</td>
</tr>
</tbody>
</table>

### Focused Electives

The 9 s.h. may include one of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>S.h.</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRIT:1030/ LING:1030</td>
<td>English Words</td>
<td>3</td>
</tr>
<tr>
<td>WRIT:3742/ CLSA:3742</td>
<td>Word Power: Building English Vocabulary (online or on campus)</td>
<td>3</td>
</tr>
</tbody>
</table>

### Writing for the Professions

Students earn a total of at least 9 s.h. in focused electives, which they select from courses in at least two of the following categories (maximum of 6 s.h. from any one category).

- Writing for the professions
- Writing and the literary arts
- Writing and the media
- Writing in context
- Student-designated writing-intensive courses

Each focused elective course may be used to fulfill only one certificate requirement, even if the course is listed in more than one category below. Some of these courses have prerequisites and other requirements for registration; students must complete a course's prerequisites and meet its registration requirements before they may register for the course.

Students may petition to count a course not listed below toward their elective requirements. Petitions must be submitted online and receive prior approval from the Certificate in Writing advisor; visit Course Petition Form on the Frank N. Magid Center for Undergraduate Writing website.

Student-Designated Writing-Intensive Course

Students may request permission to count a maximum of 3 s.h. earned in a non-writing intensive course numbered 3000 or above as credit toward the focused elective requirement. For this option, students must propose a writing-related project that extends the writing focus of their chosen course. They must have the approval of the faculty member teaching the course and the writing certificate advisor.

Capstone: Independent Writing Project

Each student must earn at least 1 s.h. in an independent writing project course that serves as a capstone experience and results in a substantial project and/or portfolio of the student’s own writing. Students must have a faculty mentor for the independent writing project and must have their proposal approved in order to receive permission to register for the course. Visit the Frank N. Magid Center for Undergraduate Writing website for more information related to registering for the capstone course.

WRIT:4000 Writing: Independent Project (online or on campus) 1-3
WRIT:4001 Independent Writing Project (online) 1-3

Professional Track

Literary Publishing

Students considering a career in literary publishing can learn the ins and outs of the industry and gain a competitive edge by enrolling in the literary publishing track. This unique educational experience provides a substantial understanding of the editorial, design, and managerial work essential to this profession. Students who enroll in the track complete the certificate’s core courses (see “Core Courses” above) and fulfill the focused elective requirement by taking a series of three publishing-specific courses (see “Literary Publishing Track Focused Electives” below). Finally, they complete a capstone project (WRIT:4000 Writing: Independent Project) or an internship related to publishing.

The publishing track, interdisciplinary in scope, is a collaboration between the Frank N. Magid Center for Undergraduate Writing, the Nonfiction Writing Program [p. 363], the School of Art and Art History [p. 87], and the University of Iowa Center for the Book [p. 1270]. For
more information, contact the Frank N. Magid Center for Undergraduate Writing.

Mathematics

Chair
• Daniel D. Anderson

Undergraduate major: mathematics (B.A., B.S.)
Undergraduate minor: mathematics
Graduate degrees: M.S. in mathematics; Ph.D. in mathematics
Faculty: https://math.uiowa.edu/people/faculty
Website: https://math.uiowa.edu/

Mathematics is a basic tool for understanding modern society as well as a crucial requirement for many careers in science, engineering, business, and the professions. Research in this living, dynamic subject is at the highest level in history; CareerCast.com also ranked mathematician as the third best job to hold in 2015.

An undergraduate degree in mathematics prepares students for a variety of careers in government and business, for secondary teaching, for graduate study, and with proper planning, for a variety of professional programs. Graduate study is advisable for some business and governmental positions and for college and university teaching and research. The department also offers a minor and partners with the Departments of Computer Science and Statistics and Actuarial Science to offer the undergraduate Certificate in Large Data Analysis.

Related Certificate: Large Data Analysis

The Certificate in Large Data Analysis [p. 619] can be earned in addition to a B.A. or B.S. degree in mathematics. The certificate focuses on handling, processing, and extracting information from large data sets. As computers have become faster and smaller, more information can be gathered and used for a large range of applications, such as for weather forecasting: identifying people and trends utilizing Facebook or other social media; understanding the genome; and searching for disease causes and cures, as well as many other areas of study. The certificate is interdisciplinary, requiring courses from three areas of study—computer science, mathematics, and statistics. Computer science teaches students how to handle large amounts of data and how to implement the algorithms to process them while statistics helps students to understand what can and cannot be legitimately inferred from the data. Mathematics focuses on algorithms and methods for connecting these important areas of data collection.

Graduate Programs of Study

Majors
• Master of Science in Mathematics [p. 659]
• Doctor of Philosophy in Mathematics [p. 661]

Courses

Credit earned in MATH:0100 Basic Algebra I and MATH:0300 Basic Geometry does not count toward graduation.

The sequences MATH:1850 Calculus I and MATH:1860 Calculus II, and MATH:1550 Engineering Mathematics I: Single Variable Calculus and MATH:1560 Engineering Mathematics II: Multivariable Calculus are similar, but they cover the material in a different order and with different emphases. Students who have taken the first semester of one sequence must consult with their advisor before taking the second semester of the other sequence; they also must take a math placement test.

Students who consider taking MATH:1860 Calculus II after MATH:1380 Calculus and Matrix Algebra for Business or MATH:1460 Calculus for the Biological Sciences must consult with their advisor.

Graduate students may not earn graduate credit in courses numbered below 3000.

Graduate students in mathematics must have departmental approval to earn credit for any of the courses listed below numbered 3000 or above except MATH:3995 Topics in Mathematics. Graduate students in mathematics may not earn credit for MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. Graduate students in other disciplines may earn credit for any course numbered 3000 or above.

Mathematics Courses

MATH:0100 Basic Algebra I 3 s.h.
Percents, ratio and proportion, algebraic expressions and operations, simple products, linear and quadratic equations, simultaneous equations, exponents and radicals; emphasis on verbal problems. GE: Algebra I - Developmental.

MATH:0300 Basic Geometry 3 s.h.
Angles, triangles, polygons, areas, Pythagorean theorem, similar triangles, circles, loci, related topics. Offered spring semesters. Recommendations: It is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Geometry - Developmental.

MATH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

MATH:1005 College Algebra 4 s.h.
Algebraic techniques, equations and inequalities, functions and graphs, exponential and logarithmic functions, systems of equations and inequalities. Prerequisites: MATH:0100 with a minimum grade of C- or ALEKS score of 30 or higher. Recommendations: It is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

Programs

Undergraduate Programs of Study

Majors
• Major in Mathematics (Bachelor of Arts) [p. 652]
• Major in Mathematics (Bachelor of Science) [p. 655]

Minor
• Minor in Mathematics [p. 658]
MATH:1010 Trigonometry 3 s.h.
Trigonometric functions, solutions of right and oblique triangles, complex numbers. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or ALEKS score of 55 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1020 Elementary Functions 4 s.h.
Functions, relations, coordinate systems; properties and graphs of algebraic, trigonometric, logarithmic, exponential functions; inverse trigonometric functions; properties of lines, conic sections. Prerequisites: MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 60 or higher or MATH:1340 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1120 Logic of Arithmetic 4 s.h.
Mathematical and conceptual foundations of the natural numbers used in elementary school arithmetic teaching; multiple algorithmic approaches to arithmetic and its mathematical and contextual relationships, extensions to integers, rational and irrational numbers, multiple representations. Prerequisites: ALEKS score of 30 or higher or MATH:1460 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1550 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1020 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or ALEKS score of 65 or higher or MATH:1440 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or ALEKS score of 55 or higher or MATH:1010 with a minimum grade of C- and ALEKS score of 55 or higher or MATH:1860 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1140 Mathematical Basis of Elementary Geometry 3 s.h.
Points, lines, planes; measurement, two- and three-dimensional coordinate geometry, transformational geometry and vectors; application of geometry to solve real-world problems. Prerequisites: MPT Level 3 score of 9 or higher or MATH:1850 with a minimum grade of C- or ALEKS score of 30 or higher or MATH:1010 with a minimum grade of C- or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or MATH:0100 with a minimum grade of C- or MATH:1440 with a minimum grade of C- or MATH:1460 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MATH:1860 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or ALEKS score of 55 or higher or MATH:1010 with a minimum grade of C- and ALEKS score of 55 or higher or MATH:1860 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1240 Finite Mathematics 4 s.h.
Introduction to logic, set theory, linear equations and inequalities, linear programming, matrix algebra, combinatorial probability. Prerequisites: MPT Level 3 score of 9 or higher or ALEKS score of 55 or higher or MATH:1005 with a minimum grade of C- or MATH:1380 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 45 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1340 Mathematics for Business 4 s.h.
Algebraic techniques, functions and functional models, exponential and logarithmic functions and models, linear programming, informal introduction to calculus; examples and applications from management, economic sciences, related areas. Prerequisites: MATH:1005 with a minimum grade of C- or MPT Level 3 score of 9 or higher or ALEKS score of 45 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:1380 Calculus and Matrix Algebra for Business 4 s.h.
Quantitative methods for treating problems arising in management, economic sciences, related areas; introduction to differential and integral calculus, systems of linear equations and matrix operations. Prerequisites: MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1020 with a minimum grade of C- or ALEKS score of 65 or higher or MATH:1440 with a minimum grade of C- or MATH:1005 with a minimum grade of C-. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.
MATH:1440 Mathematics for the Biological Sciences 4 s.h.
Relations, functions, coordinate systems, graphing, polynomials, trigonometric functions, logarithmic and exponential functions; discrete mathematics, probability; examples and applications from biological sciences. Prerequisites: MATH:1005 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or ALEKS score of 55 or higher or MATH:1010 with a minimum grade of C- or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1460 Calculus for the Biological Sciences 4 s.h.
One-semester survey of calculus for students in biological or life sciences; non-theoretical treatment of differential and integral calculus; brief introduction to differential equations and probability with calculus, with applications to the life sciences. Prerequisites: MATH:1440 with a minimum grade of C- or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or ALEKS score of 70 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or MPT Level 3 score of 9 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1550 Engineering Mathematics I: Single Variable Calculus 4 s.h.
Limits, derivatives, max/min, other applications, mean-value theorem, approximating functions, concavity, curve sketching, exponential models; Riemann sums, fundamental theorem; integration techniques, improper integrals, approximations. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1005 with a minimum grade of C-) or (MATH:1020 with a minimum grade of C- or (MATH:1380 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MATH:1850 or MATH:1860 or MATH:1560 or MATH:1020 with a minimum grade of C- or MATH:1010 with a minimum grade of C- or MATH:1340 with a minimum grade of C- or MPT Level 3 score of 9 or higher or MATH:1550 or MATH:1860 or MATH:1560 or MATH:1020 with a minimum grade of C- or MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1850 Calculus I 4 s.h.
Fundamental concepts, limits, methods, and techniques of differential calculus of a single variable; definite and indefinite integrals, substitution rule, fundamental theorem of calculus; applications including graphing, extreme values, areas, and volumes. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1380 with a minimum grade of C-) or MATH:1460 with a minimum grade of C- or ALEKS score of 75 or higher or MPT Level 3 score of 9 or higher or (ALEKS score of 55 or higher and MATH:1010 with a minimum grade of C-) or MATH:1020 with a minimum grade of C- or (MATH:1340 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-). Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course. GE: Quantitative or Formal Reasoning.

MATH:1860 Calculus II 4 s.h.
Techniques of integration including by-parts, trigonometric integrals, trigonometric substitutions, partial fractions, improper integrals; applications (i.e., arc length), area surfaces of revolutions, application to physics; introduction to differential equations; parametric equations and polar coordinates; infinite sequences and series, convergence tests, power series, Taylor polynomials and series. Prerequisites: MATH:1550 with a minimum grade of C- or MATH:1850 with a minimum grade of C- or MPT Level 3 score of 15 or higher. Recommendations: it is strongly recommended that students whose math placement score is older than one year retake the math placement test for accurate placement and success in the course.

MATH:2150 Foundations of Geometry 3 s.h.
Axiomatic development of common foundation for Euclidean, non-Euclidean geometry; constructions of non-Euclidean models, independence of parallel postulate. Prerequisites: MATH:1860 or MATH:1560.

MATH:2550 Engineering Mathematics III: Matrix Algebra 2 s.h.
Applications, computers for matrix calculations; matrix, vector arithmetic; linear independence, basis, subspace (in R2, R3); systems of equations, matrix reduction; rank, dimension; determinants, applications, eigenvalues, eigenvectors; diagonalization, principal axis theorem. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.

MATH:2560 Engineering Mathematics IV: Differential Equations 3 s.h.
Ordinary differential equations and applications; first-order equations; higher order linear equations; systems of linear equations, Laplace transforms; introduction to nonlinear equations and systems, phase plane, stability. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2700 or MATH:2550).

MATH:2700 Introduction to Linear Algebra 4 s.h.
Vector algebra and geometry of three-dimensional Euclidean space and extensions to n-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Prerequisites: MATH:1850 or MATH:1550 or MATH:1860 or MATH:1560 or MPT Level 3 score of 15 or higher.
MATH:2850 Calculus III 4 s.h.
Multivariable calculus; vector functions, line integrals, total differentials, gradient, implicit functions, coordinate systems, Taylor’s expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, Green’s, Stokes’ and divergence theorems. Prerequisites: MATH:1860 with a minimum grade of C- or MATH:1560 with a minimum grade of C.

MATH:2995 Introduction to Research Opportunities 1 s.h.
Modern mathematics research areas and activities; seminar. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860).

MATH:3550 Engineering Mathematics V: Vector Calculus 3 s.h.
Partial derivatives, max-min problems, integrals along curves, surfaces and solids, vector fields and conservation of energy; curl, divergence, Stokes’ theorem and the divergence theorem; the classical partial differential equations and qualitative behavior of their solutions. Prerequisites: MATH:1560 and (MATH:2550 or MATH:2700). Corequisites: MATH:2560.

MATH:3600 Introduction to Ordinary Differential Equations 2-3 s.h.
First-order ordinary differential equations; second-order linear differential equations; series solutions; higher-order linear and matrix differential equations; existence and uniqueness theorems. Prerequisites: (MATH:1560 or MATH:1860) and (MATH:2550 or MATH:2700). Corequisites: MATH:2850.

MATH:3700 Introduction to Matrix Theory 3 s.h.
Vector algebra and geometry of three-dimensional Euclidean space and extensions to n-space and vector spaces; lines and planes, matrices, linear transformations, systems of linear equations, reduction to row-echelon form, dimension, rank, determinants, eigenvalues and eigenvectors, diagonalization, Principal Axis Theorem. Requirements: graduate standing.

MATH:3720 Introduction to Abstract Algebra I 4 s.h.
Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures--division algorithm, unique factorization theorems; groups, subgroups, quotient groups, homomorphisms. Prerequisites: MATH:2700 or MATH:2550.

MATH:3750 Classical Analysis 3 s.h.
Multivariable calculus; vector functions, line integrals, total differentials, gradient, implicit functions, coordinate systems, Taylor’s expansion, extrema, multiple integrals, vector fields, line integrals, surface integrals, Green’s, Stokes’ and divergence theorems. Requirements: graduate standing and one year of calculus.

MATH:3770 Fundamental Properties of Spaces and Functions I 4 s.h.
Elementary topological and analytic properties of real numbers; emphasis on ability to handle definitions, theorems, proofs. Prerequisites: MATH:1560 or MATH:1860. Corequisites: MATH:2700. Requirements: second-semester calculus.

MATH:3800 Elementary Numerical Analysis 3 s.h.
Computer arithmetic, root finding, polynomial approximation, numerical integration, systems of linear equations, ordinary differential equations; use of higher-level computer language such as Matlab, Maple, Mathematica. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as CS:3700.

MATH:3900 Introduction to Mathematics Research 3 s.h.
Research experience; students study an elementary topic of active research, then work in groups under faculty supervision. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1860 or MATH:1560).

MATH:3995 Topics in Mathematics 3 s.h.
Varied topics. Recommendations: junior, senior, or graduate standing in mathematics, classics, or related fields.

MATH:3996 Individual Study and Honors in Mathematics arr.

MATH:3997 Readings in Mathematics arr.

MATH:4010 Basic Analysis 3 s.h.
Elementary topological and analytical properties of real numbers; emphasis on ability to handle definitions, theorems, proofs; same material as MATH:3770 for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

MATH:4020 Basic Abstract Algebra 3 s.h.
Basic logic, proof methods, sets, functions, relations, mathematical induction; gradual transition from familiar number systems to abstract structures (division algorithm, unique factorization theorems); groups, subgroups, quotient groups, homomorphisms; same material as MATH:3720; for non-mathematics graduate students. Requirements: graduate standing, one year of calculus, and one semester of linear algebra.

MATH:4040 Matrix Theory 3 s.h.
Vector spaces, linear transformations, matrices, equivalence of matrices, eigenvalues and eigenvectors, canonical forms, similarity, orthogonal transformations, bilinear and quadratic forms. Prerequisites: MATH:2700 or MATH:3700.

MATH:4050 Introduction to Discrete Mathematics 3 s.h.
Basic methods of enumerative combinatorics, inclusion-exclusion and generating functions, applications of group theory (Pólya-Burnside theorem). Offered fall semesters. Prerequisites: (MATH:1860 or MATH:1560) and (MATH:2550 or MATH:2700).

MATH:4060 Discrete Mathematical Models 3 s.h.
Basic combinatorics and graph theory, their applications (which may include scheduling, matching, optimization); Eulerian and Hamiltonian paths, spanning trees. Offered spring semesters. Prerequisites: MATH:2700 or MATH:2550.

MATH:4080 Elementary Theory of Numbers 3 s.h.
Factorization, congruence, Diophantine equations, laws of quadratic reciprocity. Prerequisites: MATH:1860 and MATH:2700.

MATH:4090 A Rigorous Introduction to Abstract Algebra 4 s.h.
Rigorous review of groups including homomorphisms and quotient groups; group actions; Sylow’s theorems; rigorous review of rings; ideals, ring homomorphisms, quotient rings; polynomial rings; vector spaces and linear transformations; basic field theory; serves as a bridge between MATH:3720 and MATH:5000. Prerequisites: MATH:3720. Requirements: MATH:3720 or graduate standing.

MATH:4120 History of Mathematics 3 s.h.
May include numerical systems; Babylonian, Egyptian, and Greek mathematics; mathematics of other cultures; calculus; 19th- and 20th-century mathematics. Prerequisites: (MATH:2700 or MATH:2550) and (MATH:1560 or MATH:1860). Requirements: two semesters of calculus and one semester of linear algebra.
MATH:4200 Complex Variables  3 s.h.
Geometry of complex plane, analytic functions; Cauchy-Goursat theorem, applications; Laurent series, residues, elementary conformal mapping. Prerequisites: MATH:2850 or MATH:1350 or MATH:3750.

MATH:4210 Foundations of Analysis  4 s.h.
Introduction to fundamental ideas of analysis; emphasis on understanding and constructing definitions, theorems, and proofs; real and complex numbers, set theory in metric spaces, compactness and connectedness, sequences, Cauchy sequences, series, and continuity; elements of differential and integral calculus; sequences and series of functions; modes of convergence; equicontinuity; serves as a bridge between MATH:3770 and MATH:5200. Prerequisites: MATH:3770. Requirements: MATH:3770 or graduate standing.

MATH:4250 Introduction to Financial Mathematics 3 s.h.
Financial mathematics; option pricing and portfolio optimization, stochastic integration, methods due to Ito and Feynman-Kac, Monte-Carlo simulation. Prerequisites: MATH:2850 or STAT:2010 or STAT:2020. Same as CS:4740.

MATH:4500 Introduction to Differential Geometry I  3 s.h.
Space curves, Frenet frames, intrinsic and extrinsic geometry of surfaces, first and second fundamental forms, isometries, Gauss map, Gaussian curvature, Theorema Egregium, geodesics, covariant differentiation; may include global theory of curves and Gauss-bonnet theorem. Prerequisites: MATH:3550 or MATH:2850) and (MATH:2700 or MATH:2550).

MATH:4510 Introduction to Differential Geometry II  3 s.h.
Continuation of MATH:4500; geometry of surfaces in Euclidean space, Gauss-Bonnet theorem and its applications, minimal surfaces, abstract surfaces; may include Riemannian manifolds, connections, elementary Lie groups, applications of differential geometry to other disciplines (physics, engineering). Prerequisites: MATH:4500.

MATH:4610 Continuous Mathematical Models  3 s.h.
Building and analyzing mathematical models involving differential equations for specific problems from engineering and the sciences; modeling project. Prerequisites: MATH:2560 or MATH:3600.

MATH:4740 Large Data Analysis  3 s.h.
Current areas that deal with problem of Big Data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 or ENGR:2730) and (MATH:2700 or MATH:2550) and (STAT:2010 or STAT:2020). Same as CS:4740, STAT:4740.

MATH:4820 Optimization Techniques  3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as CS:4720.

MATH:4860 High Performance and Parallel Computing  3 s.h.
Parallel scientific computing methods such as parallel algorithms for dense and sparse matrices; implementation using libraries such as MPI; current topics such as grid computing. Prerequisites: MATH:2700 and (ECE:3350 or CS:2630). Same as CS:4700.

MATH:5000 Abstract Algebra I  4 s.h.
Groups and homomorphisms, Sylow Theorems, rings, finitely generated modules over a PID, Galois theory, vector spaces, linear transformations and matrices, canonical forms. Prerequisites: MATH:3720 or MATH:4090.

MATH:5010 Abstract Algebra II  4 s.h.
Continuation of MATH:5000. Prerequisites: MATH:5000.

MATH:5200 Introduction to Analysis I  4 s.h.
Real numbers, fundamentals of limits and continuity in the context of metric spaces; Lebesque theory of functions of one real variable. Prerequisites: MATH:3770 or MATH:4210. Requirements: MATH:3770 or graduate standing.

MATH:5210 Introduction to Analysis II  4 s.h.
Local theory of analytic functions of one complex variable, power series, classical transcendental functions; spaces of functions. Prerequisites: MATH:5200.

MATH:5400 General Topology  4 s.h.
Basic concepts of general topological spaces and continuous functions; countability of sets, topological space, comparing topologies; subspace, order, and product topologies; closed sets and limit points, continuous functions, metric topology, quotient topology (including projective spaces and gluing cells), connectedness in the real line and in general spaces, components and local connectedness, compactness in Euclidean and general spaces, limit point compactness, local compactness, countability axioms, separation axioms, normal spaces and Urysohn's Lemma, complete metric spaces, convergence in function spaces. Prerequisites: MATH:3770 or MATH:4210.

MATH:5410 Introduction to Smooth Manifolds  4 s.h.
Calculus on smooth manifolds; smooth functions, mean value theorem, chain rule, smooth manifolds, tangent vectors, tangent spaces, inverse and implicit functions theorems, submersions and immersions, vector fields, flows, multilinear algebra, differential forms, Stokes theorem. Prerequisites: MATH:2700 and MATH:2850 and MATH:5400.

MATH:5600 Nonlinear Dynamics with Numerical Methods  4 s.h.
Nonlinear differential equations, one- and two-dimensional flows, stability, phase plane analysis, limit cycles, bifurcations, chaos, fractals; Euler's, multistep, and Runge-Kutta numerical methods. Prerequisites: MATH:3600 and (MATH:3770 or MATH:4210).

MATH:5700 Partial Differential Equations with Numerical Methods  4 s.h.
Conservation laws, weak solutions, diffusion equation, Laplace's equation, finite difference methods, variational methods, finite element method. Prerequisites: MATH:2850 and MATH:3600 and (MATH:3770 or MATH:4210).

MATH:5800 Numerical Analysis: Nonlinear Equations and Approximation Theory  4 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as CS:5710.
MATH:5810 Numerical Analysis: Differential Equations and Linear Algebra 4 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as CS:5720.

MATH:5900 First-Year Graduate Seminar 1 s.h.
Introduction to mathematics graduate program. Requirements: first-year graduate standing in mathematics.

MATH:5950 Qualifying Exam Preparation Seminars 0 s.h.
Exam preparation in pure and applied mathematics.

MATH:6000 Introduction to Algebra I 3 s.h.
Abstract algebra: semigroups, groups, rings, integral domains, polynomial rings, division rings, fields, vector spaces, matrices, modules over rings, lattices, categories. Prerequisites: MATH:5010.

MATH:6010 Introduction to Algebra II 3 s.h.
Continuation of MATH:6000. Prerequisites: MATH:6000.

MATH:6200 Analysis I 3 s.h.
Lebesque measure and integral, fundamental theorem of calculus, abstract measures and integration, Fubini's theorem, Radon-Nikodym theorem, Riesz representation theorem, L-p spaces. Prerequisites: MATH:5210.

MATH:6210 Analysis II 3 s.h.
Hilbert space, Banach space techniques; Hahn-Banach theorem, open mapping theorem, principle of uniform boundedness; reflexivity, H-p spaces, Paley-Wiener theorem, space of functions analytic on the open unit disk. Prerequisites: MATH:6200.

MATH:6400 Introduction to Algebraic Topology 3 s.h.
Homotopy, fundamental group and covering spaces, CW and simplicial complexes, simplicial homology, Euler characteristic. Prerequisites: MATH:5400.

MATH:6410 Introduction to Differential Topology 3 s.h.
Manifolds, functions; tangent bundle, Morse-Sard theorem, transversality, submanifolds, tubular neighborhoods, normal bundles, vector fields, degree and intersection theory, fixed-point theory, Morse theory. Prerequisites: MATH:5410.

MATH:6500 Differential Geometry I 3 s.h.
Differentiable manifolds, forms, tensors, Riemannian metrics, isometries, connections, geodesics, curvature, related topics. Prerequisites: MATH:5410.

MATH:6510 Differential Geometry II 3 s.h.
Continuation of MATH:6500; varied topics, may include study of existence and uniqueness of solutions to differential equations and systems related to geometry, indefinite metrics, Lie groups, attributes of manifolds with particular curvature properties, global Riemannian geometry, Kahler geometry, applications of differential geometry to other disciplines. Prerequisites: MATH:6500.

MATH:6600 Ordinary Differential Equations I 3 s.h.
Existence, uniqueness, continuous dependence of solutions to initial value problems, variational calculus, Lagrangian and Hamiltonian systems, differential inequalities, perturbation theory, normal forms, invariant manifolds, KAM theory, bifurcation theory, boundary value problems. Prerequisites: MATH:5210.

MATH:6610 Ordinary Differential Equations II 3 s.h.
Continuation of MATH:6600. Prerequisites: MATH:6600.

MATH:6700 Partial Differential Equations I 3 s.h.
Elliptic equations; potential theory, maximum principle, a priori estimate, Dirichlet problem; initial value problem for parabolic equations; hyperbolic equations; Duhamel's principle, Cauchy problem; nonlinear equations, characteristics, canonical form, first-order systems. Prerequisites: MATH:5210.

MATH:6710 Partial Differential Equations II 3 s.h.
Continuation of MATH:6700. Prerequisites: MATH:6700.

MATH:6850 Theoretical Numerical Analysis I 3 s.h.
Theoretical foundations of numerical analysis, within framework of functional analysis; application areas including approximation theory, numerical methods for partial differential equations, integral equations; introduction to functional analysis. Prerequisites: MATH:5200 and MATH:5210 and MATH:5800 and MATH:5810.

MATH:6860 Theoretical Numerical Analysis II 3 s.h.
Continuation of MATH:6850. Prerequisites: MATH:6850.

MATH:7000 Homological Algebra 2-3 s.h.
Modules, tensor products, groups of homomorphisms, categories, functors, homology functors, projective and injective modules, derived functors, torsion and extension functors, homological dimension. Prerequisites: MATH:6010.

MATH:7030 Topics in Algebra 2-3 s.h.
May include algebraic number theory, groups, representation theory, algebras, ideal theory, lattice theory. Prerequisites: MATH:6010.

MATH:7070 Seminar: Algebra arr.

MATH:7080 Seminar: Commutative Ring Theory arr.

MATH:7090 Seminar: Representation Theory arr.

MATH:7200 Functional Analysis I 2-3 s.h.
Locally convex topological vector spaces, duality, tensor products and nuclear spaces; Krein-Millman theorem, Choquet's theory; geometry of Banach spaces, nonlinear functional analysis; operators on Hilbert spaces, spectral theorem, algebras of operators. Prerequisites: MATH:6210.

MATH:7210 Functional Analysis II 2-3 s.h.
Continuation of MATH:7200. Prerequisites: MATH:7200.

MATH:7250 Topics in Analysis 2-3 s.h.
Measure theory, integration, general topology. 

MATH:7400 Topology of Manifolds 3 s.h.
Embedding, knotting, immersions; isotopy, homotopy, regular neighborhoods, engulfing, surgery, cobordism; three-, four-, and higher dimensional manifolds. Prerequisites: MATH:6400 and MATH:6410.

MATH:7450 Topics in Topology 2-3 s.h.
May include homotopy theory, topology of 3-manifolds, 4-manifolds, or higher-dimensional manifolds, knotting and embedding problems, fiber bundles and characteristic classes, K-theory, PL manifolds, infinite-dimensional manifolds.

MATH:7470 Seminar: Topology arr.

MATH:7580 Seminar: Mathematical Physics arr.

MATH:7630 Topics in Mathematical Biology 2-3 s.h.
Application of mathematics to biology.

MATH:7660 Seminar: Nonlinear Dynamics and Differential Equations arr.

MATH:7670 Seminar: Mathematical Biology arr.

MATH:7800 Seminar: Seminar arr.
MATH:7730 Topics in Partial Differential Equations  
2-3 s.h.
Regularity theory, nonlinear analysis in partial differential equations, fluid dynamics, harmonic analysis, conservation laws, other topics.

MATH:7770 Seminar: Partial Differential Equations  
arr.

MATH:7830 Topics in Applied Mathematics  
arr.
Application of mathematics to other disciplines.

MATH:7870 Seminar: Numerical Analysis  
arr.

MATH:7990 Reading Research  
arr.
Mathematics, B.A.

Bachelor of Arts students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; program B is for students who seek secondary school teaching licensure; and program C is for those seeking specialization in a math-related area, such as actuarial science, biomathematics, business, computer science, economics, physics, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a math-related job after earning a bachelor’s degree, rather than going on to graduate study.

B.A. with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines. They must satisfy all requirements of program A, program B, or program C in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

Transfer from Engineering to Mathematics

Requirements

The Bachelor of Arts with a major in mathematics requires a minimum of 120 s.h., including at least 39-41 s.h. (11-12 courses) of work for the major. Total credit for the major depends on a student’s choice of program A, B, or C. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for program A, B, or C.

For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Current Students on the College of Liberal Arts and Sciences website. For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics.

The department’s Handbook for Undergraduate Majors provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the University of Iowa and Department of Mathematics websites.

The B.A. with a major in mathematics (program A, B, or C) requires the following course work.

Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa; students may not count transfer courses or credit by exam toward this requirement. At least 12 s.h. of the required 15 s.h. in post-calculus courses must be earned in Department of Mathematics courses (prefix MATH) or in courses cross-listed with the department.

Post-calculus courses in the Department of Mathematics are numbered 2000 and above, excluding these:

- MATH:3700 Introduction to Matrix Theory 3
- MATH:3750 Classical Analysis 3
- MATH:3995 Topics in Mathematics 3
- MATH:3996 Individual Study and Honors in Mathematics
- MATH:3997 Readings in Mathematics
- MATH:4010 Basic Analysis 3
- MATH:4020 Basic Abstract Algebra 3

Post-calculus courses offered by the Department of Computer Science, and the Department of Statistics and Actuarial Science must have a calculus prerequisite.

Upper-Level Mathematics Requirement

Mathematics majors must take at least one upper-level mathematics course for the B.A. degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

- MATH:4010 Basic Analysis 3
- MATH:4020 Basic Abstract Algebra 3
- MATH:4120 History of Mathematics 3

No courses from other departments can be counted as upper-level mathematics courses, unless they are cross-listed with an upper-level mathematics course (prefix MATH).

Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

Program A: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program is accepted for all or part of the calculus requirement.

Students complete the following core courses.

- MATH:1850 & MATH:1860 Calculus I-II 8
- MATH:2700 Introduction to Linear Algebra 4
- MATH:2850 Calculus III 4
- MATH:3600 Introduction to Ordinary Differential Equations 3
Program A: Electives

Students complete four electives (12-16 s.h.), including at least one upper-level mathematics course.

Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Elementary Numerical Analysis or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:2111 Programming Practice, CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

Statistics and Actuarial Science

Among the courses listed above, only one of the following three courses, STAT:2020, STAT:3100, or STAT:3120 can be counted; although none of these courses can be counted if taken after STAT:4100.

Students may choose actuarial science courses numbered ACTS:3080 Mathematics of Finance I, ACTS:3085 Introduction to Mathematics of Finance, and ACTS:4130 through ACTS:4380 Consult the department's Handbook for Undergraduate Majors for a complete list of electives in computer science, and statistics and actuarial science.

Program B

Program B is intended for students seeking secondary school teaching licensure. Students who complete the core courses and the electives for Program B may earn a B.A. in mathematics. Students who wish to earn teaching licensure in addition to earning a Bachelor of Arts with a major in mathematics must complete the Teacher Education Program (TEP); see "B.A. with Teacher Licensure" below.

Program B: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program is accepted for part or all of the calculus requirement. Students complete the following core courses.

<table>
<thead>
<tr>
<th>MATH:1850 &amp; MATH:1860</th>
<th>Calculus I-II</th>
<th>8</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:2150</td>
<td>Foundations of Geometry</td>
<td>3</td>

<tr>
<td>MATH:2700</td>
<td>Introduction to Linear Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH:2850</td>
<td>Calculus III</td>
<td>4</td>
</tr>
</tbody>
</table>

More advanced courses may be substituted for the core courses, with Department of Mathematics approval.

Program B: Electives

Students in Program B must take at least one additional Department of Mathematics post-calculus course (3-4 s.h.). The post-calculus courses must be chosen avoiding duplication and regression with the core mathematics courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Handbook for Undergraduate Majors offers advice on course selection.

B.A. with Teacher Licensure

Mathematics majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students majoring in mathematics who wish to earn teacher licensure should choose program B in the mathematics major; see "Program B" above.

Program C

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of making optimal business decisions, risk management and insurance, economics, finance, physics, chemistry, biostatistics, biomathematics, computer science, statistics and actuarial science, or all departments within the College of Engineering. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailored to their interests and academic or career goals. The proposed study plan must be approved by the Department of Mathematics undergraduate committee.

Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available at the Department of Mathematics office or the department website. The Handbook for Undergraduate Majors has templates for choosing electives in several areas; students may use these or propose other plans.

Program C: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program is accepted for part or all of the calculus requirement. Students complete the following core mathematics courses.

<table>
<thead>
<tr>
<th>MATH:3720</th>
<th>Introduction to Abstract Algebra I</th>
<th>4</th>
</tr>
</thead>
<tbody>
<tr>

<td>4</td>
</tr>
</tbody>
</table>

More advanced courses may be substituted for the core courses, with Department of Mathematics approval.
course sequence, with a B average for the four courses. Option 1: complete four of the courses below, including a two-ONE additional "proofs" course such as MATH:3720 or MATH:3770. Some subtracks require additional core courses from other departments; consult the Handbook for Undergraduate Majors. Additional core courses count toward electives (see "Program C: Electives" below). Students who specialize in engineering should consult the Department of Mathematics. More advanced courses may be substituted for the core courses, with Department of Mathematics approval.

Program C: Electives

Students choose six or seven electives, depending on their subtrack. All electives must be offered for 3-4 s.h. of credit. At least three of the electives must be offered by the Departments of Computer Science, Mathematics, and Statistics and Actuarial Science (prefixes CS, MATH, and STAT or ACTS). At least two of the three electives must be post-calculus mathematics courses (prefix MATH). All B.A. mathematics majors must take 15 s.h. of post-calculus mathematics courses and at least one upper-level mathematics course; see "Post-Calculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.

Some subtracks require additional core courses from other departments (see "Program C: Core Courses" above); the additional core courses count toward electives. For a list of suggested subtracks and restrictions on electives in each subtrack, consult the Handbook for Undergraduate Majors.

Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Departmental honors students must complete all requirements for the major and must maintain a g.p.a. of at least 3.40 in the major and overall. To graduate with honors in the major, they must complete one of the options below.

Option 1: complete four of the courses below, including a two-course sequence, with a B average for the four courses.

| MATH:1850 & MATH:1860 | Calculus I-II | 8 |
| MATH:2700          | Introduction to Linear Algebra | 4 |
| MATH:2850          | Calculus III | 4 |
| One additional "proofs" course such as MATH:3720 or MATH:3770 | 4 |

Mathematics courses (prefix MATH) numbered 6000 or above, to be approved by the mathematics honors advisor in advance.

Option 2: complete an honors project comparable to taking several of the courses above, approved by the mathematics honors advisor and the thesis supervisor. Students who choose this option typically register for MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. or more. They must find a faculty member willing to supervise their project; contact the department for help finding a project supervisor. Contact the Department of Mathematics honors advisor for more information.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Note: Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The mathematics major typically requires 11 or 12 courses for Bachelor of Arts students. Students must choose program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

Before the third semester begins: course work in the major through second-semester calculus

Before the fifth semester begins: two or three more courses in the major

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Mathematics, B.S.

Bachelor of Science students majoring in mathematics enroll in one of three programs: Program A is for students who plan to work in business or government or pursue graduate study in mathematics; program B is for students who seek secondary school teaching licensure; and program C is for those seeking specialization in a mathematics-related area, such as actuarial science, biomathematics, business, computer science, economics, physics, statistics, and so forth. Program C may be especially appropriate for students who plan to seek a mathematics-related job after earning a bachelor's degree, rather than going on to graduate study.

B.S. with Second Major

Students majoring in mathematics may choose to earn a second major in computer science, statistics, actuarial science, or other disciplines. They must satisfy all requirements of program A, program B, or program C in mathematics as well as all requirements for the second major. For more information, consult an advisor and see Declaring or Changing a Major on the College of Liberal Arts and Sciences website.

Transfer from Engineering to Mathematics

Requirements

The Bachelor of Science with a major in mathematics requires a minimum of 120 s.h., including at least 45-47 s.h. (13-14 courses) of work for the major. Total credit for the major depends on a student's choice of program A, B, or C. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

All students complete the post-calculus mathematics requirement, the upper-level mathematics requirement, and the requirements for program A, B, or C.

For policies concerning transfer credit, correspondence credit, credit by examination, cumulative grade-point average, general rules relating to regression and duplication, and so forth, see For Current Students on the College of Liberal Arts and Sciences website. For information about duplication, regression, and use of the second-grade-only option for mathematics courses, contact the Department of Mathematics.

The department's Handbook for Undergraduate Majors provides details about schedule planning and career options for mathematics students. For more information on admission, financial support, employment opportunities, the faculty, facilities, and other topics, visit the University of Iowa and Department of Mathematics websites.

Post-Calculus Mathematics Requirement

Students majoring in mathematics must earn at least 15 s.h. in post-calculus mathematical sciences courses offered by the University of Iowa; students may not count transfer courses or credit by exam toward this requirement. At least 12 s.h. of the required 15 s.h. in post-calculus courses must be earned in Department of Mathematics courses (prefix MATH) or in courses cross-listed with the department.

Post-calculus courses in the Department of Mathematics are numbered 2000 and above, excluding these:

- MATH:3700 Introduction to Matrix Theory 3
- MATH:3750 Classical Analysis 3
- MATH:3995 Topics in Mathematics 3
- MATH:3996 Individual Study and Honors in Mathematics arr.
- MATH:3997 Readings in Mathematics arr.
- MATH:4010 Basic Analysis 3
- MATH:4020 Basic Abstract Algebra 3

No courses from other departments can be counted as upper-level mathematics courses, unless they are cross-listed with an upper-level mathematics course (prefix MATH).

Upper-Level Mathematics Requirement

Mathematics majors must take at least two upper-level mathematics courses for the B.S. degree. Upper-level mathematics courses include MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding these:

- MATH:4010 Basic Analysis 3
- MATH:4020 Basic Abstract Algebra 3
- MATH:4120 History of Mathematics 3

Program A

Program A is primarily for students who plan to work in business or government or to pursue graduate study in mathematics.

Program A: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit granted through the Mathematics Incentive Program is accepted for all or part of the calculus requirement.

Students complete the following core courses.

- MATH:1850 & MATH:1860 Calculus I-II 8
- MATH:2700 Introduction to Linear Algebra 4
- MATH:2850 Calculus III 4
- MATH:3600 Introduction to Ordinary Differential Equations 3
Program A: Electives

Students complete six electives (18-24 s.h.), including at least three upper-level mathematics courses.

Mathematics

Students may choose from mathematics courses numbered MATH:2150 Foundations of Geometry, MATH:3800 Elementary Numerical Analysis or courses above MATH:3800, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra.

Computer Science

Students may choose computer science courses numbered CS:1210 through CS:4740, excluding CS:2111 Programming Practice, CS:3210 Programming Languages and Tools, CS:3910 Informatics Project, CS:3980 Topics in Computer Science I, and CS:3990 Honors in Computer Science or Informatics.

Statistics and Actuarial Science

Among the courses listed above, only one of the following three courses, STAT:2020, STAT:3100, or STAT:3120 can be counted; although none of these courses can be counted if taken after STAT:4100.

Consult the department's Handbook for Undergraduate Majors for a complete list of electives in computer science, and statistics and actuarial science.

Program B

Program B is intended for students seeking secondary school teaching licensure. Students who complete the core courses and the electives for Program B may earn a B.S. in mathematics. Students who wish to earn teaching licensure in addition to earning a Bachelor of Science with a major in mathematics must complete the Teacher Education Program (TEP); see "B.S. with Teacher Licensure" below.

Program B: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program is accepted for part or all of the calculus requirement. Students complete the following core courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:1850 &amp;</td>
<td>Calculus I-II</td>
<td>8</td>
</tr>
<tr>
<td>MATH:1860</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MATH:2150</td>
<td>Foundations of Geometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH:2700</td>
<td>Introduction to Linear Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH:2850</td>
<td>Calculus III</td>
<td>4</td>
</tr>
</tbody>
</table>

More advanced courses may be substituted for the core courses, with Department of Mathematics approval.

Program B: Electives

Students in Program B must take at least three additional Department of Mathematics post-calculus courses (9-12 s.h.), including two chosen from MATH:3900 Introduction to Mathematics Research and courses numbered 4000 or above, excluding MATH:4010 Basic Analysis and MATH:4020 Basic Abstract Algebra. The post-calculus courses must be chosen avoiding duplication and regression with the core math courses, particularly when engineering mathematics courses are considered. With the department's approval, capable students are encouraged to substitute more advanced courses in the same subject area for any of the electives. The Handbook for Undergraduate Majors offers advice on course selection.

B.S. with Teacher Licensure

Mathematics majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students majoring in mathematics who wish to earn teacher licensure should choose Program B in the mathematics major; see “Program B” above.

Program C

Program C enables students to specialize in a mathematics-related subtrack, such as the mathematics of making optimal business decisions, risk management and insurance, economics, finance, physics, chemistry, biostatistics, biomathematics, computer science, statistics and actuarial science, or all departments within the College of Engineering. In consultation with the faculty advisor, students build on the Program C core to prepare a subtrack plan of study tailored to their interests and academic or career goals. The proposed study plan must be approved by the Department of Mathematics undergraduate committee.

Students must file their subtrack plan of study before they begin their senior year; they use the Program C Plan of Study form, available at the Department of Mathematics office or the department website. The Handbook for Undergraduate Majors has templates for choosing electives in several areas; students may use these or propose other plans.
Program C: Core Courses

Students must complete a two-semester sequence of calculus I-II. Advanced placement credit, CLEP credit, and credit earned through the Mathematics Incentive Program is accepted for part or all of the calculus requirement. Students complete the following core math courses.

- MATH:1850 & MATH:1860: Calculus I-II 8
- MATH:2700: Introduction to Linear Algebra 4
- MATH:2850: Calculus III 4
- One additional "proofs" course such as MATH:3720 or MATH:3770 4

Some subtracks require additional core courses from other departments; consult the Handbook for Undergraduate Majors. Additional core courses count toward electives (see "Program C: Electives" below). Students who specialize in engineering should consult the Department of Mathematics.

More advanced courses may be substituted for the core courses, with Department of Mathematics approval.

Program C: Electives

Students choose eight or nine approved electives. All electives must be offered for 3-4 s.h. of credit. At least three of the electives must be post-calculus mathematics courses (prefix MATH). All B.S. mathematics majors must take 15 s.h. of post-calculus mathematics courses and at least two upper-level mathematics courses; see "Post-Calculus Mathematics Requirement" and "Upper-Level Mathematics Requirement" above.

Some subtracks require additional core courses from other departments (see "Program C: Core Courses" above); the additional core courses count toward electives. For a list of suggested subtracks and restrictions on electives in each subtrack, consult the Handbook for Undergraduate Majors.

Honors in the Major

Students majoring in mathematics have the opportunity to graduate with honors in the major. Departmental honors students must complete all requirements for the major and maintain a g.p.a. of at least 3.40 in the major and overall. To graduate with honors in the major, they must complete one of the options below.

Option 1: complete four of the courses below, including a two-course sequence, with a B average for the four courses.

- MATH:4090: A Rigorous Introduction to Abstract Algebra 4
- MATH:4210: Foundations of Analysis 4
- MATH:5000 & MATH:5010: Abstract Algebra I-II 8
- MATH:5200 & MATH:5210: Introduction to Analysis I-II 8
- MATH:5400 & MATH:5410: General Topology - Introduction to Smooth Manifolds 8

Option 2: complete an honors project comparable to taking several of the courses above, approved by the mathematics honors advisor and the thesis supervisor. Students who choose this option typically register for MATH:3996 Individual Study and Honors in Mathematics for 3 s.h. or more. They must find a faculty member willing to supervise their project; contact the department for help finding a project supervisor. Contact the Department of Mathematics honors advisor for more information.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Note: Many mathematics courses must be taken in sequence, so students must begin major requirements as early as possible, and individual plans of study must be constructed carefully. The mathematics major typically requires 13 or 14 courses for Bachelor of Science students. Students must choose program A, B, or C by the end of the third semester and must remain in their chosen program until they graduate in order to stay on track for the four-year graduation plan.

Before the third semester begins: course work in the major through second-semester calculus

Before the fifth semester begins: two or three more courses in the major

Before the seventh semester begins: three or four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Mathematics, Minor

The minor in mathematics requires a minimum of 15 s.h. of credit earned in mathematics courses. At least 12 of the 15 s.h. must be equivalent to post-calculus math courses (prefix MATH) offered by the Department of Mathematics; credit by examination does not count toward the 12 s.h. requirement. At least 9 of the 12 s.h. in post-calculus math courses must be taken at the University of Iowa. No more than one transfer course can be counted toward the post-calculus requirement.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Courses numbered 2000 or above are considered post-calculus, excluding these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:3700</td>
<td>Introduction to Matrix Theory</td>
<td>3</td>
</tr>
<tr>
<td>MATH:3750</td>
<td>Classical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH:3995</td>
<td>Topics in Mathematics</td>

<tr>
<td>MATH:3997</td>
<td>Readings in Mathematics</td>
<td>arr.</td>
</tr>
<tr>
<td>MATH:4010</td>
<td>Basic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4020</td>
<td>Basic Abstract Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

Post-calculus courses must be chosen to avoid duplication and regression with the core mathematics courses, particularly when the engineering mathematics courses are considered.

Special Rules for Engineering

Students who have taken the engineering math courses—MATH:1560 Engineering Mathematics II: Multivariable Calculus, MATH:2550 Engineering Mathematics III: Matrix Algebra, MATH:2560 Engineering Mathematics IV: Differential Equations, and MATH:3550 Engineering Mathematics V: Vector Calculus—may satisfy the post-calculus requirement by taking an additional 3 s.h. course from the list below.

At least four of the following courses must be taken at the University of Iowa: MATH:1560, MATH:2550, MATH:2560, MATH:3550, or the additional 3 s.h. post-calculus math course; no more than one transfer course will count.

Students can choose the additional 3 s.h. course from MATH:2150 or from courses numbered MATH:3720 or above, excluding these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:3750</td>
<td>Classical Analysis</td>
<td>3</td>

<tr>
<td>MATH:3997</td>
<td>Readings in Mathematics</td>
<td>arr.</td>
</tr>
<tr>
<td>MATH:4010</td>
<td>Basic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4020</td>
<td>Basic Abstract Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

For more information, see the department’s Handbook for Undergraduate Majors.
Mathematics, M.S.

Requirements

The Master of Science in mathematics requires a minimum of 30 s.h. of graduate credit. Students earn the degree through courses and comprehensive examinations. There is no M.S. thesis. Requirements (courses and comprehensive examination areas) may be modified with the department's consent.

Four different programs (I, II, III, and IV) lead to the M.S. in mathematics.

Program I

Program I prepares students for further study of pure and applied mathematics and for employment in government and business. M.S. students in program I take several courses and pass two comprehensive examinations. Students must earn a grade of B-minus or higher in six of the courses and maintain a g.p.a. of at least 2.75 in all mathematics courses taken for the degree.

Program I requires the following courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:5000 &amp; MATH:5010</td>
<td>Abstract Algebra I-II</td>
<td>8</td>
</tr>
<tr>
<td>MATH:5200 &amp; MATH:5210</td>
<td>Introduction to Analysis I-II</td>
<td>8</td>
</tr>
<tr>
<td>MATH:5400</td>
<td>General Topology</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5410</td>
<td>Introduction to Smooth Manifolds</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5600</td>
<td>Nonlinear Dynamics with Numerical Methods</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5700</td>
<td>Partial Differential Equations with Numerical Methods</td>
<td>4</td>
</tr>
</tbody>
</table>

The two comprehensive examinations are chosen from algebra, analysis, differential equations with numerical methods, and topology.

Program II

Program II is designed for secondary school teachers. Program II requirements are similar to those for programs I and III, but program II students complete two mathematics education courses and a minimum of 24 s.h. in Department of Mathematics courses. The following courses may be used to satisfy the program II mathematics course requirements.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:3600</td>
<td>Introduction to Ordinary Differential Equations</td>
<td>2-3</td>
</tr>
</tbody>
</table>

Mathematics courses (prefix MATH) numbered 4000 or above

Students are encouraged to consult with the mathematics education faculty when planning their course of study.

Program III

Program III focuses on applied mathematics. Students in program III take several courses and pass two comprehensive examinations. Students must earn a grade of B-minus or higher in six of the courses and maintain a g.p.a. of at least 2.75 in all mathematics courses taken for the M.S.

Program III requires the following courses.

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:5200 &amp; MATH:5210</td>
<td>Introduction to Analysis I-II</td>
<td>8</td>
</tr>
<tr>
<td>MATH:5600</td>
<td>Nonlinear Dynamics with Numerical Methods</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5700</td>
<td>Partial Differential Equations with Numerical Methods</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5800</td>
<td>Numerical Analysis: Nonlinear Equations and Approximation Theory</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5810</td>
<td>Numerical Analysis: Differential Equations and Linear Algebra</td>
<td>4</td>
</tr>
</tbody>
</table>

Both courses in group A, or two courses from group B:

Group A

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:5400</td>
<td>General Topology</td>
<td>4</td>
</tr>
<tr>
<td>MATH:5410</td>
<td>Introduction to Smooth Manifolds</td>
<td>4</td>
</tr>
</tbody>
</table>

Group B

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:4060</td>
<td>Discrete Mathematical Models</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4610</td>
<td>Continuous Mathematical Models</td>
<td>3</td>
</tr>
<tr>
<td>MATH:4820</td>
<td>Optimization Techniques</td>
<td>3</td>
</tr>
</tbody>
</table>

The two comprehensive examinations are chosen from analysis, differential equations with numerical methods, numerical analysis, and topology.

Program IV

Program IV is designed for nondepartmental students working toward a Ph.D. in areas of study that require mathematical knowledge. The program has no specific required courses.

Students in program IV are considered to have passed the comprehensive examination for the master's degree in mathematics if they have maintained a g.p.a. of at least 3.00 in all mathematics courses taken for the M.S. in mathematics and have successfully completed the Ph.D. comprehensive examination in their area of study.

Students in program IV are assigned a mathematics advisor, who works with them and their major advisor to plan an appropriate curriculum for the M.S. in mathematics. A suitable program of study should be approved by a mathematics advisor before the student takes the Ph.D. comprehensive examination, and a member of the mathematics faculty should serve on the Ph.D. comprehensive examination committee.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Applicants to the Ph.D. program have preference for admission and funding.

Admission to M.S. programs I, II, and III is competitive and based on a combination of undergraduate course work and grades, letters of recommendation, and test scores. Numerical standards change every year or so; exceptions may be made to the following guidelines.

Applicants must have completed work in an undergraduate program equivalent to the major in mathematics offered by the University of Iowa Department of Mathematics, with an undergraduate g.p.a. of at least 3.20. Relevance and difficulty of courses are considered when evaluating grades; grades of C or lower in mathematics courses must be balanced by
grades of A. Individuals whose preparation does not meet this requirement may be admitted conditionally and are asked to take specific courses that cover deficiencies.

Applicants must score at least 155 on the quantitative section of the revised Graduate Record Examination (GRE) General Test (700 on the old GRE). Applicants whose first language is not English are required to demonstrate their competence in English, normally by scoring at least 105 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants must submit three letters of recommendation.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Mathematics, Ph.D.

Requirements

The Doctor of Philosophy in mathematics requires a minimum of 72 s.h. of graduate credit. The program places strong emphasis on preparation for research and teaching. The department maintains no division between pure and applied mathematics. It cooperates in interdisciplinary doctoral programs with the College of Education (see Teaching and Learning [p. 1101] in the Catalog) and the Program in Applied Mathematical and Computational Sciences [p. 1267].

Ph.D. students in mathematics must satisfy the following requirements for course work (credits and breadth), examinations, foreign language, and the Ph.D. thesis.

Students must spend at least three years in residence at a graduate college, including at least one year at the University of Iowa. They also should enroll in specific courses designated as preparatory for the Ph.D. examinations (consult the Department of Mathematics graduate studies director).

To further encourage mathematical breadth, students must earn at least 33 s.h. of graduate credit in regular courses equivalent to or more advanced than Ph.D. comprehensive examination preparatory courses. For a list of accepted Department of Mathematics courses and rules to ensure proper distribution, contact the department.

The Ph.D. examinations consist of a qualifying exam and a comprehensive exam. Students choose three areas from the department’s list of qualifying examination areas: algebra, analysis, differential equations with numerical methods, and topology. For each qualifying area, there is a two-semester course sequence numbered 5000 or above that is designated as preparatory, although exams may differ from course content. The three parts of the qualifying exam are taken over a two-week period. An exam committee gives one grade (pass, fail, conditional pass) on the entire three-part qualifying examination (the committee has at least six faculty members, with at least two from each exam area). If the grade is fail, the committee has the option to consider each part of the exam separately, offering the student the option of pass in one or two of the areas and fail in the other(s).

The Ph.D. comprehensive exam tests students on research-related topics.

Candidates also take an oral final examination on their dissertation material.

Ph.D. students are required to demonstrate reading proficiency in French, German, or Russian by passing a reading test administered by the appropriate language department, earning a grade of B or higher in the second semester of a sequence offered by the appropriate language department, or passing a special examination approved by the Department of Mathematics graduate committee. Courses that do not carry graduate credit may be used to satisfy this requirement, but they do not count toward the required 72 s.h. of graduate credit. Students must demonstrate language competence after enrolling in graduate school.

The most distinctive aspect of a Ph.D. is the thesis. The department expects the thesis to be an original mathematical work comparable in content and writing quality to that found in standard published research journals. The thesis is written under the supervision of a mathematics department faculty member and must be approved by the Ph.D. defense committee.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Applicants to the Ph.D. program have preference for admission and funding.

Admission to the Ph.D. program is competitive and based on a combination of undergraduate or graduate course work and grades, letters of recommendation, and test scores. Required scores on the Graduate Record Examination (GRE) quantitative section and Test of English as a Foreign Language (TOEFL) are the same as those for admission to the M.S. program, but applicants to the Ph.D. program must have an undergraduate or graduate g.p.a. of at least 3.40.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Media Entrepreneurialism

Director, School of Journalism and Mass Communication
• David M. Ryfe

Coordinator, Media Entrepreneurialism
• Charles Munro (Journalism and Mass Communication)

Undergraduate certificate: media entrepreneurialism

The Certificate in Media Entrepreneurialism prepares students to succeed in the fast changing world of mass communication. Opportunities exist for students to invent new revenue streams or business models for media companies, to create new media products, to work as part of an innovation team for an established media company, or possibly build a new business.

Completion of the certificate encourages these student outcomes:
• an understanding of the principles of innovation and entrepreneurialism;
• an ability to apply principles of innovation and entrepreneurialism to the business of media and digital media; and
• a facility toward innovating new forms of media content and distributing that content across different media platforms.

The Tippie College of Business and the School of Journalism and Mass Communication collaborate to offer the Certificate in Media Entrepreneurialism. The certificate is administered by the School of Journalism and Mass Communication [p. 600].

Programs

Undergraduate Program of Study
Certificate
• Certificate in Media Entrepreneurialism [p. 663]
Media 
Entrepreneurialism, 
Certificate

The Certificate in Media Entrepreneurialism requires a minimum of 27 s.h. of course work. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Certificate courses may not be taken pass/nonpass.

Students majoring in journalism and mass communication or communication studies may earn the certificate but may not count it as their second area of concentration. Students may not double count more than 6 s.h. of the certificate toward other programs of study.

The Certificate in Media Entrepreneurialism requires the following course work.

Foundation Courses
These courses must be taken before any other certificate course work.

Both of these:
ENTR:2000 Entrepreneurship and Innovation 3
JMC:3121 Business of Media: Profits, People, and Power 3

Required Courses
All of these:
ENTR:3100 Entrepreneurial Finance 3
ENTR:3200 Entrepreneurial Marketing 3
JMC:3115 Audience Engagement: Marketing Research in the Digital Age 3

Electives
Students select one elective course from each of the three areas (9 s.h.). Course selection depends on a student’s interests; consult the media entrepreneurialism advisor for more information.

Media Production
One of these:
COMM:2077 Writing and Producing Television 3
JMC:3400 Specialized Reporting and Writing 3-4
JMC:3600 Topics in Media Production 3-4

Advanced Entrepreneurialism
One of these:
ENTR:3000 Practicum in Entrepreneurship 1-3
ENTR:3500 Social Entrepreneurship 3
ENTR:3600 E-Commerce Strategies for Entrepreneurs 3
ENTR:4200 Entrepreneurship: Business Consulting 3

ENTR:4400 Managing the Growth Business 3
ENTR:4450 Professional Sports Management 3

Diversity and Globalization
One of these:
COMM:2075 Gender, Sexuality, and Media 3
COMM:2076 Race, Ethnicity, and Media 3
COMM:2079 Digital Media and Religion 3
COMM:2085 Media Industries and Organizations 3
COMM:2086 Global Media Studies 3
COMM:4131 Globalization and Culture 3
COMM:4172 Television and African American Culture 3
JMC:3125 Media and Consumers 3
JMC:3165 African Americans and the Media 3
JMC:3175 Gender and Mass Media 3
JMC:3180 Media Ethics 3

Capstone Course
Students must complete the following.

A media innovation case studies course (consult advisor) 3
Medieval Studies

Chair
• John Finamore (Classics)

Coordinator
• Michael E. Moore (History)

Undergraduate certificate: medieval studies
Website: https://clas.uiowa.edu/classics/undergraduate-program/medieval-studies-program

The Medieval Studies Program offers an undergraduate program of study and a selection of courses open to students in all majors.

Programs

Undergraduate Program of Study

Certificate
• Certificate in Medieval Studies [p. 665]

Courses

Medieval Studies Courses

MDVL:3226 Literature and Culture of the Middle Ages 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3226.

MDVL:3409 Medieval Civilization I 3 s.h.
Europe from the decline of Roman empire to the eleventh century; cultural, political, economic, artistic and architectural foundations of Western civilization. Same as HIST:3409.

MDVL:3410 Medieval Civilization II 3 s.h.
Europe from the eleventh century to the Italian Renaissance; cultural, political, economic, artistic, and architectural foundations of Western civilization. GE: Historical Perspectives. Same as HIST:3410.

MDVL:4408 The Twelfth-Century Renaissance 3 s.h.
Social, economic, intellectual, and cultural rebirth of Europe in the 12th century; Latin learning and education; developments in vernacular literature, art, architecture, new religious orders and institutions, pilgrimage and Crusade. Same as HIST:4408.

MDVL:4411 Economic and Social History of Medieval Europe 3 s.h.
Changes in western Europe from 300 to 1500 A.D.; feudalism, manorialism, revival of towns, heresy, women, monasticism, agricultural and commercial revolutions, Black Death. Same as HIST:4411.

MDVL:4412 History of the Medieval Church 3 s.h.
Development of Christianity to end of great schism; rise of Roman primacy, development of monasticism, orthodox and heterodox groups. Same as HIST:4412.

MDVL:4417 Medieval Intellectual History 300-1150 3 s.h.
Philosophy, art, literature, religious culture of Europe from waning of classical intellectual modes of culture in late antiquity, to their recovery in 12th century. Same as HIST:4417.

MDVL:4418 Medieval Intellectual History 1150-1500 3 s.h.
European philosophy, religion, literature, art from 12th-century rise of scholasticism; their transformation in period of Copernicus, Luther. Same as HIST:4418.

MDVL:4419 Ancient and Medieval Science 3 s.h.
Greeks’ initiation of scientific inquiry; developments in astronomy, cosmology, optics, mathematics, physics, medicine, psychology in ancient and medieval societies of Middle East, Europe. Same as HIST:4419.

MDVL:4421 The Middle Ages in Film 3 s.h.
How films that represent medieval events and literature may be analyzed to reveal the culture and times in which the films were made; Middle Ages and European nationalistic mythmaking as represented in film. Same as HIST:4421.

MDVL:4423 Ireland in the Early Middle Ages 3 s.h.
Ireland and the northern British islands 400-1000 C.E., a region of small kingdoms and thin population, lacking natural resources, far from Rome and ancient centers of Mediterranean culture; development of civilization, including monastic, legal, theological, and scholarly traditions that had a major impact on continental Europe; early medieval Irish history; introduction to the world of historical scholarship. Same as HIST:4423.

MDVL:4426 Women, Power, and Society in Medieval Europe 3 s.h.
Same as HIST:4426.
Medieval Studies, Certificate

The Certificate in Medieval Studies requires a minimum of 21 s.h. in medieval studies course work. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The program enables students to combine study in three or more disciplines into an organized investigation of the Middle Ages, a rich historical period that continues to influence today's culture. Students may earn the Certificate in Medieval Studies as a distinct interest or combine it with focused study in areas such as art history; classics; comparative literature; gender, women's, and sexuality studies; languages (e.g., French, German, Italian, Portuguese, Spanish); music; philosophy; religion; and theater.

Students must include courses from at least three different departments in their work for the certificate; they may count a maximum of 10 s.h. from a single department or program. Courses used to fulfill General Education Program requirements or the requirements of a major or minor may be counted toward the certificate in most cases. Up to 6 s.h. of transfer credit may be counted toward certificate requirements, with the Certificate in Medieval Studies coordinating committee's approval; contact the certificate program's coordinator.

Core Course
All certificate students must complete one of the following two courses and should do so early in their program of study:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>MDVL:3409</td>
<td>Medieval Civilization I</td>
<td>3</td>
</tr>
<tr>
<td>or MDVL:3410</td>
<td>Medieval Civilization II</td>
<td></td>
</tr>
</tbody>
</table>

Additional Courses
Remaining course work (as indicated below) 18
Total Hours 21

Additional Courses
Remaining courses may be chosen from the "Associated Courses" below or from medieval studies courses (prefix MDVL) under Courses in this section of the Catalog. Students should consult regularly with a medieval studies advisor while planning and completing their program of study.

Associated Courses
The following courses are approved for the medieval studies certificate. Other courses may be approved for satisfaction of certificate requirements; students who wish to have a course approved should make a request to the Certificate in Medieval Studies coordinating committee. The coordinating committee revises the list of approved courses as necessary.

Language Courses
The Medieval Studies Program strongly encourages students to complete course work in a language relevant to the medieval period. Latin is recommended for anyone intending to pursue graduate study in the field. Many language courses have prerequisites, and some are offered irregularly, so students should complete their language course work as early as possible. The following language courses are approved for the medieval studies certificate.
ENGL:3256  Elementary Old English  3
RELS:4001-RELS:4002  Biblical Hebrew I-II  8

Sample Study Plans
Both of these sample study plans fulfill the certificate’s requirements.

Sample plan for students planning graduate work in medieval studies:
MDVL:3226/ENGL:3226  Literature and Culture of the Middle Ages  3
MDVL:3410/HIST:3410  Medieval Civilization II  3
ARTH:2420  Introduction to Medieval Art  3
CLSL:2001  World of Cicero  3

SPAN:3700  Sex in the Cid  3
Museum Studies

Chair, Department of Anthropology
- James Enloe (Anthropology)

Coordinator, Museum Studies
- Russell Ciochon (Anthropology/Pediatric Dentistry)

Undergraduate certificate: museum studies
Faculty: https://uiowa.edu/museumstudies/contact-us
Website: https://uiowa.edu/museumstudies/

Museum studies has a long history at the University of Iowa, with courses offered continuously since 1910. Iowa's museum studies students have become directors, curators, educators, and exhibit specialists in museums throughout the country.

Museums embrace every aspect of human experience. Iowa's Museum Studies Program reflects this multiplicity, and includes students from many fields, including American studies, anthropology and archaeology, art, biology, business, communication studies, earth and environmental sciences, elementary and secondary education, English, world languages, history, and library and information science.

Instructors for museum studies courses reflect the program's interdisciplinary nature. They include faculty members from anthropology, art and art history, business, history, library and information science, and other related fields.

The University archivist for University of Iowa Libraries is an affiliated faculty member of the Museum Studies Program, as are the collections management specialists for the University's Museum of Art, Museum of Natural History, and Old Capitol Museum.

The Museum Studies Program is administered by the Department of Anthropology [p. 59].

Undergraduate Program of Study Certificate
- Certificate in Museum Studies (p. 669)

Facilities

Museum studies students have access to a wide variety of museums and related resources, including the following University of Iowa museums: the Museum of Natural History, the Museum of Art, the Old Capitol Museum, the Medical Museum, and the Karro Athletic Hall of Fame.

The Museum Studies Program maintains close connections with a number of local, community-based museums and organizations, including the State Historical Society of Iowa, the Herbert Hoover Presidential Library and Museum, the African American Museum of Iowa, the Iowa Children's Museum, and the Johnson County Historical Society.

The University of Iowa Collections Coalition, consisting of 19 collections and collection-support organizations, is an essential resource for the Museum Studies Program. It provides museum studies internships, directed study projects, opportunities for site visits, and volunteer experiences for students as well as guest speakers.

Museum Studies Courses

MUSM:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as ANTH:3001, EDTL:3001, SIED:3001.

MUSM:3003 Natural History Research Collections 3 s.h.
Techniques, methods, and issues specific to natural history research collections; practice in preparing and cleaning specimens; role of natural history specimens in modern scientific research. Recommendations: basic understanding of the diversity of plants and animals and natural history museum collections, MUSM:3001 or MUSM:3200, and BIOL:1411 or BIOL:1412; or other experience.

MUSM:3004 Exhibition Planning 3 s.h.
Preliminary work for and process of developing museum exhibitions; history of exhibit design, evaluation, budgets, teams and team member roles, working with community and special interest groups, methods of production and display; students research a topic, choose artifacts and images, and create a narrative and exhibit script. Prerequisites: MUSM:3001.

MUSM:3090 Topics in Museum Studies 1 s.h.
Systematic and analytic methods used for research in physical collections; tutorials in collection building, curation, and preservation; designed by members of the University of Iowa Collections Coalition. Same as EES:3090.

MUSM:3100 Historic House Management and Preservation 3 s.h.
Management, preservation, interpretation, and basic operations of historic structures and the museums they serve.

MUSM:3105 Engaging Museum Audiences 3 s.h.
Effective audience engagement requires museums to meet visitors halfway; employing learning theories, knowledge of audience, and innovative examples from the field; students investigate a variety of approaches that are visitor-centered, interdisciplinary, and locally-focused. Prerequisites: MUSM:3001.

MUSM:3120 Museum Origins 3 s.h.
History of museums; origin, character, and evolution into content specific institutions; anecdotes and personalities; how museums influenced society and their continuing relevance to a technological world.

MUSM:3125 Museums in a Digital World 3 s.h.
Digital technologies streamline internal museum processes while exponentially increasing the capacity of individuals to engage with museum collections; explores the digitized strategies and systems that democratize access and enhance museum visitor experiences.

MUSM:3130 Museums and Social Justice 3 s.h.
Through case studies and dialogue, this course explores museums as institutions that frame social justice, promote equity of access through social bridging, and at times address and challenge social ills directly through exhibits and programs.
MUSM:3200 Collection Care and Management 3 s.h.
How a museum’s management policy relates to its administrative, legal, and ethical obligations to its collections; acquisitions, deaccessions, collection use, data standards, storage environment, health, safety, documentation. Same as EES:3200.

MUSM:3237 Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as ANTH:3237.

MUSM:3500 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, NURS:3595, RELS:3700, SSW:3500.

MUSM:4050 Directed Studies and Projects arr.
Advanced readings in historical development, educational philosophy, programs, operations of museums; individual projects coordinated with programs, exhibits, or collections of campus and area museums. Prerequisites: MUSM:3200 or MUSM:3004 or MUSM:3001.

MUSM:4080 Museum Internship arr.
Working experience in functions, departments, programs of the sponsoring museum; relation to museum’s overall mission and museum field in general.

MUSM:4081 The Art Museum: Theory and Practice 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Museum of Art collections. Same as ARTH:4081.

MUSM:4130 Museum Literacy and Historical Memory 3 s.h.
Concepts and methods for understanding the role of museums in shaping knowledge and collective memory of history; institutionally based exhibits and collections, historical markers and public monuments, public holidays and events, media and artistic works that interpret the past; how events, people, and civic ambitions are memorialized and how memories of them are shaped; appearance of museums and related practices in the non-Western world after 1850. Same as HIST:4130.

MUSM:4150 Introduction to Grant Writing 3 s.h.
Comprehensive training in grant proposal writing; basics of project development and management; core principles for writing small and large proposals to public and private funding sources; finer points of grant writing to increase competitiveness of future proposals and applications; for students with limited grant writing experience. Same as EALL:4130.
Museum Studies, Certificate

College of Liberal Arts and Sciences students who are interested in museum studies may earn the certificate, or they may use the individualized plan of study track in the interdepartmental studies major to create a museum studies concentration relevant to their academic and professional interests.

The Certificate in Museum Studies requires 18 s.h. The program provides a broad foundation of knowledge increasingly valued in the museum field.

The certificate is open to current University of Iowa undergraduate students and to all individuals who are not enrolled in a graduate or professional degree program.

Museum studies courses introduce students to the spectrum of museum endeavors, from organization and mission planning to institutional histories and current developments in the field. Most courses developed by the program offer hands-on experience in exhibition planning and design, collection management, educational programming, community development, and administration.

A major in one of the natural sciences (e.g., biology, geoscience), anthropology, science education, art history, American studies, or history is recommended for students preparing for museum careers.

Students may count a maximum of 6 s.h. completed for a major, a minor, or another certificate offered by the College of Liberal Arts and Sciences toward the Certificate in Museum Studies.

Work for the certificate consists of an introductory course, a minimum of four courses on specific museum studies topics, and an internship. Students must request permission from the coordinator of the museum studies certificate to use courses that are not included in the program, and the proposed course content and requirements must fit into one of the program’s defined areas.

Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The Certificate in Museum Studies requires the following course work.

### Introductory Course

Students should begin the certificate with MUSM:3001 Introduction to Museum Studies, which is prerequisite to some of the program’s more advanced courses and is approved for the Social Sciences area of the General Education Program [p. 437]. The course provides a historical overview of museum development and function while introducing students to issues such as museum governance and financing, ethics and law, collection management, exhibition and educational programming, interpretation, and audience research.

• David Gier

Director of Planning
• Kristin Theander

Associate Directors
• Benjamin Coelho, Christine Getz, Dan Moore

Undergraduate major: music (B.A., B.M.)
Undergraduate minor: music
Graduate degrees: M.A. in music; M.F.A. in music; Ph.D. in music; D.M.A.
Graduate minor: theory pedagogy
Graduate certificate: sacred music
Faculty: https://music.uiowa.edu/people
Website: https://music.uiowa.edu/

The University of Iowa School of Music is prominent in a fine arts community of international repute. It has long been recognized as one of the excellent university-based music schools in the United States.

The school's on-campus enrollment of approximately 470 music majors is large enough to sustain strong programs in all areas of specialization, yet small enough to ensure the individual attention essential to each student's development.

The faculty consists of highly trained artist-teachers in each specialization area and scholars of international distinction. Private lessons with faculty members are offered in all band and orchestra instruments, and in voice, piano, and organ.

The school's undergraduate programs offer all qualified students, whether music majors or nonmajors, the opportunity for further study of music. In addition to its comprehensive course offerings for majors, the school provides a substantial selection of courses especially recommended for nonmajors and several approved for the General Education Program (p. 437) (see "Courses for Nonmajors" below).

Graduate programs in music are designed primarily to prepare students for teaching in secondary schools, colleges, and universities and for careers in performance and music therapy.

The School of Music is a charter member of the National Association of Schools of Music. The requirements for entrance and for graduation are in accordance with the association's published standards.

The department is one of three academic units in the Division of Performing Arts (p. 310). It participates in offering the division's Certificate in Arts Entrepreneurship (p. 123).

National Honor Society
The School of Music sponsors a chapter of Pi Kappa Lambda, the national music honor society. Students of exceptional ability are recommended for membership by faculty members. For more information, consult the School of Music honors advisor.

Courses for Nonmajors
The School of Music offers a wide range of courses that are appropriate for non-music majors. Courses about jazz, music and culture, music history, music software, and other topics are available as well as individual instruction on a number of instruments and voice; see School of Music Courses (p. 675) in this section of the Catalog.

Several School of Music courses are approved for General Education; look for courses with the prefix MUS under "Literary, Visual, and Performing Arts" in the General Education Program (p. 437) section of the Catalog.

For course content descriptions, see School of Music Courses (p. 675) in this section of the Catalog.

Participation in School of Music ensembles is open to all University of Iowa students with the ensemble director's approval. Major ensembles are as follows.

MUS:1176 Women's Chorale
MUS:1180 All-University String Orchestra
MUS:3160 Symphony Band/Concert Band
MUS:3170 Kantorei
MUS:3172 Camerata Singers
MUS:3174 University Choir
MUS:3180 Orchestra

Other courses particularly recommended for music nonmajors include the following.

MUS:1000 First-Year Seminar
MUS:1001 Group Piano I: Non-Music Majors
MUS:1002 Group Piano II: Non-Music Majors
MUS:1007 Garage Band: The Basics
MUS:1009 Jazz Cultures in America and Abroad
MUS:1010 Recital Attendance for Non-Majors
MUS:1012 Creativity in Music
MUS:1020 Performance Instruction for Nonmajors (interested students should consult with the instructor of their instrument)
MUS:1066 Introduction to Film Music
MUS:1100 Fundamentals of Music for Non-Music Majors
MUS:1301 Concepts and Contexts of Western Music
MUS:1302 Great Musicians
MUS:1310 World Music
MUS:1720 History of Jazz
MUS:2301 History of Music I
MUS:2302 History of Music II
MUS:2311 Music of Latin America and the Caribbean
MUS:3004 World of the Beatles
MUS:3006 Popular Music in the United States
MUS:3154 Introduction to Afro-Cuban Drumming
Music Courses: Topical Areas

The courses listed under "General Music Courses" below are especially appropriate for non-music majors, as are several listed under "Music History" below. For others, see "Courses for Nonmajors" above.

Non-music majors may participate in most School of Music ensembles; see "Ensembles" below.

General Music Courses

The following courses are especially appropriate for non-music majors.

Instruction in MUS:1020 Performance Instruction for Nonmajors consists of a half-hour lesson per week. The course is offered on a fee-per-course basis, in addition to tuition. Students register under separate section numbers for different instruments.

MUS:1000 First-Year Seminar 1
MUS:1001 Group Piano I: Non-Music Majors 1
MUS:1002 Group Piano II: Non-Music Majors 1
MUS:1007 Garage Band: The Basics 2
MUS:1008 Jazz Masters 3
MUS:1010 Recital Attendance for Non-Majors 1
MUS:1012 Creativity in Music 3
MUS:1020 Performance Instruction for Nonmajors 1
MUS:1066 Introduction to Film Music 3
MUS:1100 Fundamentals of Music for Non-Music Majors 3
MUS:1210 Recital Attendance 1
MUS:1301 Concepts and Contexts of Western Music 3
MUS:1302 Great Musicians 3
MUS:1310 World Music 3
MUS:2106 Improvisation for Classical Musicians 3
MUS:2160 Drumline Techniques 1
MUS:2311 Music of Latin America and the Caribbean 3
MUS:3004 World of the Beatles 3
MUS:3006 Popular Music in the United States 3
MUS:3154 Introduction to Afro-Cuban Drumming 1
MUS:3800 Reed Class 1
MUS:3850 Introduction to Laban Movement Studies 2-3
MUS:3851 Introduction to the Alexander Technique 3

Applied Music

Instruction in applied music consists of individual and/or class lessons, at the instructor's option, for a minimum of one hour per week (students register for 2 s.h.), or one half-hour per week (students register for 1 s.h.). Music majors are required to attend weekly performance and pedagogy seminars in applied music. Courses are offered on a fee-per-course basis, in addition to tuition, and may be repeated.

Guitar instruction is offered only at the lower level. Enrollment in MUS:2038 Lower Level Jazz Guitar is limited to three Bachelor of Arts students. Students may not enroll in the Bachelor of Music program with guitar as their major instrument.

MUS:2020 Lower Level Voice arr.
MUS:2021 Lower Level Piano arr.
MUS:2022 Lower Level Organ arr.
MUS:2023 Lower Level Violin arr.
MUS:2024 Lower Level Viola arr.
MUS:2025 Lower Level Cello arr.
MUS:2026 Lower Level String Bass arr.
MUS:2027 Lower Level Flute arr.
MUS:2028 Lower Level Oboe arr.
MUS:2029 Lower Level Clarinet arr.
MUS:2030 Lower Level Bassoon arr.
MUS:2031 Lower Level Saxophone arr.
MUS:2032 Lower Level Horn arr.
MUS:2033 Lower Level Trumpet arr.
MUS:2034 Lower Level Trombone arr.
MUS:2035 Lower Level Euphonium arr.
MUS:2036 Lower Level Tuba arr.
MUS:2037 Lower Level Percussion arr.
MUS:2038 Lower Level Jazz Guitar 1
MUS:3020 Upper Level Voice arr.
MUS:3021 Upper Level Piano arr.
MUS:3022 Upper Level Organ arr.
MUS:3023 Upper Level Violin arr.
MUS:3024 Upper Level Viola arr.
MUS:3025 Upper Level Cello arr.
MUS:3026 Upper Level String Bass arr.
MUS:3027 Upper Level Flute arr.
MUS:3028 Upper Level Oboe arr.

Music Education

The College of Education offers additional music education courses; see Teaching and Learning [p. 1101] in the Catalog for listings and descriptions. Some courses are cross-listed with both departments, one for the School of Music and the other for the College of Education. Students preparing for music teacher licensure should register under the education number.

Also see MUS:3760 Jazz Band Techniques under "Jazz Studies" above.

Music History

MUS:6326 Renaissance Music Notations and MUS:6350 Music 1945-Present deal with periods and special topics in music history. They are offered about every two years. All of them have as prerequisites MUS:5301 Advanced History and Literature of Music I and MUS:5302 Advanced History and Literature of Music II, or the equivalents, or consent of instructor.

Several courses in music history are appropriate for non-music majors. Other music history courses appropriate for nonmajors are listed under "General Music Courses" above.

MUS:2301 History of Music I 3
MUS:2302 History of Music II 3
MUS:3486 Bach Performance Seminar 1
MUS:5300 Introduction to Graduate Study in Music 2
MUS:5301 Advanced History and Literature of Music I 3

The new Voxman Music Building, expected to be completed in 2016, is currently under construction. The building will include classrooms, teaching studios, library, faculty and administrative offices, recital spaces, and the replacement of a 700-seat recital and organ hall.

Center for New Music

The Center for New Music is a vital component of the School of Music’s composition program. Since its founding in 1966, the center has been both laboratory and showcase for late-20th and 21st-century music. It presents at least four concerts of contemporary works each academic season. It also provides a forum for visiting composers and other creative artists, bringing new music to a variety of outreach venues. Audition, rehearsal, and programming information is available on the Center for New Music website.

Rita Benton Music Library

The Rita Benton Music Library is located on the first floor of the Voxman Music Building. The Music Library holds more than 90,000 volumes, including chamber music sets; 60,000 books, including bound journals; 3,500 microforms, chiefly manuscripts and early printed books; and 44,000 media items in all formats. It maintains subscriptions to about 300 journals. The Arthur and Miriam Canter Rare Book Room holds over 3,000 rare books and scores and has particular strengths in 18th- and 19th-century music theory treatises and instrumental methods, and an outstanding collection of keyboard and chamber music of Ignaz Pleyel. Additional music collections of note are housed in Special Collections & University Archives, including the Goldman Band Collection; the University of Iowa’s Center for New Music papers; and papers of composers Philip Greeley Clapp, William Hibbard, and Donald Martin Jenni.

The Library’s online subscriptions include research tools such as Grove Music Online, RILM, RIPM, RISM, Music Index, IIMP, and the Oxford Music Bibliographies. Streaming media resources include Naxos Music Jazz and Video Libraries, Met Opera on Demand for Students, Classical Music Library, Opera in Video, Smithsonian Global Sound, and DRAM.

Materials circulate to University of Iowa faculty and students and to institutions that have reciprocal agreements with the University. Individuals not affiliated with the University may qualify for borrower’s permits.

Music Courses

**MUS:1000 First-Year Seminar** 1 s.h.
An aspect of performance, creativity, musical literature, or scholarship; seminar format with classroom participation, papers, projects, other assignments; may require attendance at lectures, rehearsals, or performances. Requirements: first- or second-semester standing.

**MUS:1001 Group Piano I: Non-Music Majors** 1 s.h.
Reading, technical study, chording, playing by ear, improvisation; for beginners. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

**MUS:1002 Group Piano II: Non-Music Majors** 1 s.h.
Continuation of MUS:1001. Requirements: non-music major.

**MUS:1007 Garage Band: The Basics** 2 s.h.
Application of GarageBand software (Mac platform) using midi keyboards; composition and music theory for projects using drag-and-drop looping, multitrack recording, sound effects, mixing, importing music for composition. GE: Engineering Be Creative.

**MUS:1008 Jazz Masters** 3 s.h.
Major 20th-century jazz leaders of varied styles and recordings; developments between 1917 and present.

**MUS:1009 Jazz Cultures in America and Abroad** 3 s.h.
How to listen to jazz and recognize a variety of processes that are taking place in performances and recordings; historical, social, and political issues, including race and gender; the unique blend of jazz of a particular region; attendance at live performances, meet and interview musicians, critics, and educators. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

**MUS:1010 Recital Attendance for Non-Majors** 1 s.h.
Musical experience through student, faculty recitals.
MUS:1012 Creativity in Music 3 s.h.
Where does music come from? When, why, and how did people first start making music? How do music creators turn raw inspiration into finished pieces? How do improvisers create music on the spot? Can anyone create music or is that something only for composers? Development of music creation from long ago to present day; presentations by guest composers and performers who will demonstrate how they compose or improvise their music. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

MUS:1020 Performance Instruction for Nonmajors 1 s.h.
Bassoon, cello, clarinet, euphonium, flute, horn, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, or voice. Requirements: non-music major. GE: Literary, Visual, and Performing Arts.

MUS:1066 Introduction to Film Music 3 s.h.
Major styles and composers of film music from early 20th century to the present; focus on case studies to understand different roles music can play in cinema; opportunities to employ critical thinking and listening skills to analyze particular films or key scenes. GE: Literary, Visual, and Performing Arts.

MUS:1100 Fundamentals of Music for Non-Music Majors 3 s.h.
Notation of pitch and rhythm, intervals, scales, key signatures, triads, and seventh chords. Requirements: non-music major.

MUS:1120 Undergraduate Secondary Performance - Voice 1 s.h.
Requirements: music major.

MUS:1121 Undergraduate Secondary Performance - Piano 1 s.h.
Requirements: music major.

MUS:1122 Undergraduate Secondary Performance - Organ 1 s.h.
Seminar and lessons arranged. Requirements: music major.

MUS:1123 Secondary Performance - Violin 1 s.h.

MUS:1124 Secondary Performance - Viola 1 s.h.

MUS:1125 Secondary Performance - Cello 1 s.h.

MUS:1126 Secondary Performance - String Bass 1 s.h.

MUS:1127 Secondary Performance - Flute 1 s.h.

MUS:1128 Secondary Performance - Oboe 1 s.h.

MUS:1129 Secondary Performance - Clarinet 1 s.h.

MUS:1130 Secondary Performance - Bassoon 1 s.h.

MUS:1131 Secondary Performance - Saxophone 1 s.h.

MUS:1132 Secondary Performance - Horn 1 s.h.

MUS:1133 Secondary Performance - Trumpet 1 s.h.

MUS:1134 Secondary Performance - Trombone 1 s.h.

MUS:1135 Secondary Performance - Euphonium 1 s.h.

MUS:1136 Secondary Performance - Tuba 1 s.h.

MUS:1137 Secondary Performance - Percussion 1 s.h.

MUS:1139 Secondary Performance - Composition 1 s.h.

MUS:1160 University Band 1 s.h.
Participation in University Band.

MUS:1165 Hawkeye Marching Band 1 s.h.
Offered fall semesters.

MUS:1166 Large Pep Band 1 s.h.
Performing ensemble for basketball games and wrestling meets. Requirements: membership by audition.

MUS:1176 Women's Chorale 1 s.h.

MUS:1180 All-University String Orchestra 1 s.h.
Repertoire, rehearsal pacing, and performance expectation geared to general students. Open to all UI students with no audition.

MUS:1200 Fundamentals of Music for Majors 3 s.h.
Rudiments of music—notation of pitch and rhythm, meter, scales, keys, intervals, triads; first of a five-semester sequence.

MUS:1201 Musicianship and Theory I 4 s.h.
Principles of harmony; emphasis on aural skills, theoretical concepts, notation. Offered fall semesters. Requirements: MUS:1200 or successful completion of music theory diagnostic exam, and concurrent enrollment in MUS:1211 or successful completion of piano proficiency exam.

MUS:1202 Musicianship and Theory II 4 s.h.
Continuation of MUS:1201. Offered spring semesters. Prerequisites: MUS:1201. Requirements: MUS:1212 or successful completion of piano proficiency exam.

MUS:1210 Recital Attendance 1 s.h.
Requirements: music major.

MUS:1211 Group Instruction in Piano I 1 s.h.
Beginning instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; skill development in sight reading, technique, harmonization, transposition, improvisation, simple literature. Corequisites: MUS:1201. Requirements: music major.

MUS:1212 Group Instruction in Piano II 1 s.h.
Elementary to early intermediate instruction for music majors whose principal performing medium is voice or an orchestral or band instrument; continued skill development begun in MUS:1211; introduction of easy solo and ensemble literature. Corequisites: MUS:1201. Requirements: music major.

MUS:1301 Concepts and Contexts of Western Music 3 s.h.

MUS:1302 Great Musicians 3 s.h.

MUS:1303 Roots, Rock, and Rap: A History of Popular Music 3 s.h.
Historical narrative of popular music; focus on understanding and analyzing music of past and present in relation to major issues central to popular culture and society; production, dissemination, and reception of popular music; interpretation of ways in which music forms individual and collective identities and how contemporary musical experiences are shaped by historical processes. GE: Historical Perspectives.

MUS:1310 World Music 3 s.h.
Varied perspectives on the relationship of music and culture, drawing from musical cultures around the world. GE: Literary, Visual, and Performing Arts.
MUS:1510 Diction for Singers I
2 s.h.
Italian and German pronunciation for singing; basics of international phonetic alphabet; no previous background required.

MUS:1687 Orientation to Music Therapy
2 s.h.
Theory, practice; typical clients and places of employment in music therapy.

MUS:1711 Jazz Rhythms and Interpretation
1 s.h.
Methods for sight-reading and interpreting jazz notation. Requirements: music major or audition.

MUS:1720 History of Jazz
3 s.h.
Major 20th-century styles, artists, seminal works, and recordings; developments between 1917 and 1972. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

3 s.h.
History of popular female musicians and the influence of their lyrics, music, and performances on American and British cultures; how women's musical careers have been influenced by civil rights, the British invasion (Beatles, Rolling Stones), second-wave feminism, postfeminism, Vietnam, counterculture, social injustice, music education, rock festivals, charity concerts. GE: Literary, Visual, and Performing Arts.

MUS:2014 Giants of Jazz: Miles, Trane, and Duke
3 s.h.
Miles Davis, John Coltrane and Duke Ellington as figureheads of the Jazz music style; how they changed the trajectory of modern music along with sidemen (B. Strayhorn and H. Hancock); Ellington's resolute defiance of stereotypical views of African Americans; Miles' brazen protests against civil injustices; how these icons are much more than mere musicians; cultural impact of landmark albums including "Kind of Blue," "A Love Supreme," and "The Birth of the Cool"; focus on their life, music and sociopolitical impact. Same as AFAM:2014.

MUS:2020 Lower Level Voice
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2021 Lower Level Piano
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval of the area following a successful audition.

MUS:2022 Lower Level Organ
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2023 Lower Level Violin
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2024 Lower Level Viola
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2025 Lower Level Cello
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2026 Lower Level String Bass
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2027 Lower Level Flute
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2028 Lower Level Oboe
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2029 Lower Level Clarinet
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2030 Lower Level Bassoon
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2031 Lower Level Saxophone
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2032 Lower Level Horn
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2033 Lower Level Trumpet
arr.
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:2034 Lower Level Trombone  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2035 Lower Level Euphonium  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2036 Lower Level Tuba  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2037 Lower Level Percussion  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:2038 Lower Level Jazz Guitar  
1 s.h.  
Requirements: audition required.

MUS:2106 Improvisation for Classical Musicians  
3 s.h.  
Theory and practice in beginning nonjazz improvisation; development of aural and rhythmic skills, creation of rhythms and melodies, use of timbres and extended techniques in expression, development of instrumental technique for improvisation, practical understanding of harmony and form, experience in solo and accompaniment roles, creation of short pieces as vehicles for improvisation. Requirements: one year of music theory.

MUS:2160 Drumline Techniques  
1 s.h.  
Training and experience in contemporary marching percussion and rudimental drumming techniques.

MUS:2203 Musicianship and Theory III  
4 s.h.  
Continuation of MUS:1201 and MUS:1202; focus on common-practice repertory. Offered fall semesters. Prerequisites: MUS:1202.

MUS:2204 Musicianship and Theory IV  
4 s.h.  
Continuation of MUS:1201, MUS:1202, and MUS:2203; focus on late 19th- and early 20th-century repertoires. Offered spring semesters. Prerequisites: MUS:2203.

MUS:2206 Form and Analysis  
3 s.h.  
Analysis of musical forms and procedures, including 18th- and 19th-century tonal repertoires. Prerequisites: MUS:2204. Requirements: undergraduate standing.

MUS:2213 Group Instruction in Piano III  
1 s.h.  
Varies by semester: skills for the music therapy profession, sight-reading, harmonization, transposition, reading from a fake book, and improvisation (fall); skills for the music education profession, sight-reading, harmonization, transcription, score, and hymn reading (spring). Requirements: music therapy, music education, or piano major.

MUS:2220 Composition  
arr.  

MUS:2301 History of Music I  
3 s.h.  

MUS:2302 History of Music II  
3 s.h.  

MUS:2311 Music of Latin America and the Caribbean  
3 s.h.  
Folk and popular musical traditions and their social contexts in Latin America, the Caribbean; listening skills; video/film screenings. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity. Same as LAS:2311.

MUS:2510 Diction for Singers II  
2 s.h.  
French and English pronunciation for singing. Prerequisites: MUS:1510.

MUS:2671 Music Foundations in Therapy I  
2 s.h.  
Skill development on social instruments such as guitar, autoharp, piano; percussion, song-leading skills, and repertoire development for use in clinical music therapy sessions. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:2672 Music Foundations in Therapy II  
1-2 s.h.  
Advanced skill development on guitar for use in clinical music therapy sessions; percussion techniques, and related skills used in therapeutic settings. Prerequisites: MUS:2671. Requirements: music therapy major.

MUS:2800 Digital Arts: An Introduction  
3 s.h.  
Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, THTR:2800.

MUS:3001 Introduction to Improvisation  
3 s.h.  
Introduction to the practice of improvisation through performance of repertoire and the development of practicing strategies; exercises in melody, harmony, rhythm and transcription that together form an integrated approach to developing improvisations. Prerequisites: MUS:1201. Requirements: audition.

MUS:3004 World of the Beatles  
3 s.h.  
How the Beatles’ music was influenced by American pop music, the drug culture, and the Avant Garde, nonwestern instruments and philosophy, anti-war sentiments, and world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. Same as DPA:3004.

MUS:3006 Popular Music in the United States  
3 s.h.  
Popular music and culture in the United States from early 20th century to present; basic musical style and performance analysis, social meaning and use.

MUS:3020 Upper Level Voice  
arr.  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.
MUS:3021 Upper Level Piano  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance. Requirements: piano major or approval following a successful audition.

MUS:3022 Upper Level Organ  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3023 Upper Level Violin  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3024 Upper Level Viola  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3025 Upper Level Cello  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3026 Upper Level String Bass  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3027 Upper Level Flute  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3028 Upper Level Oboe  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3029 Upper Level Clarinet  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3030 Upper Level Bassoon  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3031 Upper Level Saxophone  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3032 Upper Level Horn  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3033 Upper Level Trumpet  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3034 Upper Level Trombone  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3035 Upper Level Euphonium  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3036 Upper Level Tuba  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3037 Upper Level Percussion  
Applied lessons and guided instruction in performance, technique, musicality, pedagogy (teaching); weekly lessons; weekly performance/pedagogy seminar conducted in a master class format; student participation as performers, critics, and practice teachers with instructor guidance.

MUS:3140 Audition Repertoire  
1 s.h.  
Practicum on passages frequently requested at professional auditions.

MUS:3150 Percussion Ensemble/Steel Band  
arr.  
Range of styles and idioms, primarily written during the 20th and 21st centuries; historical or cultural aspects such as ancient rudimental drumming styles, ragtime, jazz, popular music, and music from Africa, the Caribbean, Brazil, Cuba, China.

MUS:3151 Percussion Chamber Ensemble  
1 s.h.  
Advanced percussion ensemble experience to complement work in larger format percussion ensemble; preparation and performance of most important repertoire for percussion ensemble; new works brought to light in a small chamber group setting. Requirements: upper-level undergraduate or graduate percussion major.

MUS:3154 Introduction to Afro-Cuban Drumming  
1 s.h.  
Drumming, dance, songs from folkloric and ceremonial Afro-Cuban forms; emphasis on drumming; may include participation in Afro-Cuban drum and dance ensemble. Same as DPA:3154.
MUS:3160 Symphony Band/Concert Band 1 s.h.
Participation in Symphony Band or Concert Band.
Requirements: (for concert band) membership by audition.

MUS:3162 All University Steel Band 1-3 s.h.
Musical and cultural introduction to steel band music of Trinidad and other Caribbean musical styles, including calypso, soca, ska, and reggae.

MUS:3163 Intermediate Steel Band 1 s.h.
Small group steel band experience for more advanced players with experience playing steel pans.

MUS:3170 Kantorei 1 s.h.

MUS:3172 Camerata Singers 1 s.h.

MUS:3174 University Choir 1 s.h.

MUS:3180 Orchestra 1 s.h.

MUS:3182 Chamber Orchestra 1 s.h.
Requirements: upper-level undergraduate standing.

MUS:3190 Center for New Music Ensemble 0-1 s.h.
Participation in the Center for New Music; focus on contemporary composition and performance, 20th- and 21st-century repertoire and styles.

MUS:3230 Composition Seminar 0-1 s.h.

MUS:3240 Advanced Compositional Concepts and Techniques 1-2 s.h.
Acquisition, development, and application of advanced techniques and concepts in composition; topics will vary, depending on faculty and student interests; topics may include algorithmic methods, interactive performance systems, sound diffusion/spatialization, tuning systems, mathematical group theory, signal processing, advanced coding, and study and compositional application of new digital technologies and software, as well as analog systems from the past 50 years. Prerequisites: MUS:2220 or MUS:5220.

MUS:3280 Spectral Nature of Sound: Acoustics, Analysis, and Resynthesis 3 s.h.
Fourier, fast Fourier transform (FFT), and inverse FFT, including spectral analysis and processing in Max; for composers, performers, and music theorists interested in the nature of sounds and their manipulation.

MUS:3400 Methods of Teaching Piano 2 s.h.
Methods, materials, and teaching techniques for preschool students, precollege students, and adult learners. Requirements: keyboard major.

MUS:3410 Fundamentals of Piano Technology 1 s.h.
Offered spring semesters. Requirements: music major.

MUS:3480 Piano Accompaniment arr.
Collaborative arts techniques, methods, and history.

MUS:3481 Piano Chamber Music arr.
Requirements: music major.

MUS:3482 String Chamber Music arr.

MUS:3483 Baroque Seminar for Strings 1 s.h.
Introduction to Baroque performance practices and techniques on period string instruments; ensembles. Requirements: enrollment in upper-level or graduate-level applied studies.

MUS:3485 Wind Chamber Music arr.
Preparation, performance of representative literature; sections for woodwinds, brass, flute, clarinet, horn, saxophone, double reed, trumpet, trombone, brass choir, tuba/euphonium ensemble.

MUS:3486 Bach Performance Seminar 1 s.h.
Performance practice and interpretation of J.S. Bach's music and late German Baroque period using modern instruments; differences between Baroque performance on period and modern instruments; concept of historically informed practice (HIP) and its application in performing Bach's masterpieces; master-class format culminating in a public recital of repertoire studied during semester.

MUS:3500 Opera Workshop 2 s.h.
Opera performing techniques, including acting, aria interpretation, scene work. Requirements: vocal major or audition.

MUS:3501 Opera Theater Chorus 1 s.h.
Requirements: audition.

MUS:3502 Opera Production 2-4 s.h.
Preparation and rehearsals leading up to performance of full production; may include one-act opera, chamber opera, musical theater production, or full-length opera. Corequisites: MUS:3503. Requirements: audition.

MUS:3503 Vocal/Operatic Coaching 1 s.h.

MUS:3510 Interpretation of German Art Song 1 s.h.
Schubert, Schumann, Brahms, Wolf, Strauss, Mahler; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.

MUS:3511 Interpretation of Non-German Art Song 1 s.h.
Art songs in English, French, Italian, Spanish; appropriate diction, style. Prerequisites: MUS:1510 and MUS:2510.

MUS:3520 Singing for Actors and Dancers 2 s.h.
Skill development for healthy, effective singing in the musical theatre style; techniques of vocal production through breath management, resonance, articulation, flexibility; song interpretation and repertoire. Recommendations: for MUS:3520 -- concurrent registration in MUS:1020. Same as DANC:3130, THTR:3130.

MUS:3521 Acting for Singers and for Dancers 2 s.h.
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as DANC:3521, THTR:3521.

MUS:3600 Undergraduate Music Education Workshop 1 s.h.
Topics vary; for inservice music teachers.

MUS:3601 Undergraduate Music Education Workshop II 1 s.h.
Topics vary; for inservice music teachers.

MUS:3605 Instrumental Techniques 2 s.h.
Same as EDTL:3605.

MUS:3625 Techniques of Conducting 2 s.h.
Basic elements, score analysis.

MUS:3635 Instrumental Conducting 3 s.h.
Advanced skills for instrumental conducting, score analysis, rehearsal techniques, literature selection. Prerequisites: MUS:3625. Same as EDTL:3635.

MUS:3640 Choral Methods 3 s.h.
Organization, implementation of effective choral music programs for all ages. Same as EDTL:3640.
MUS:3645 Choral Conducting and Literature 3 s.h. Advanced skills appropriate to choral conducting, analysis, literature selection studied and implemented to develop a secure approach to choral art; students preparing to teach in the elementary or secondary schools must register under EDTL:3645. Prerequisites: EDTL:3640 and MUS:3625. Same as EDTL:3645.

MUS:3650 Instrumental Methods and Materials 3 s.h. Elementary and secondary instrumental music methods course required for K-12 music teacher certification. Same as EDTL:3650.

MUS:3659 Class Strings 1 s.h. String playing and basic principles of string pedagogy; for band and string students. Offered fall semesters for band; offered fall and spring semesters for string. Requirements: teacher education student in music.

MUS:3664 Introduction to Wind and Percussion Instruments 2 s.h. Survey of wind and percussion instruments; for music education string majors.

MUS:3665 Arranging for Band 2-3 s.h. Scoring and arranging techniques for concert, marching bands.

MUS:3666 Marching Band Techniques 1 s.h. Administration, show design. Offered fall semesters.

MUS:3675 Music Therapy Practicum 1-2 s.h. Supervised clinical training with adult clients and children in variety of health care and educational settings. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:3676 Percussion Experience for Teachers and Therapists 2-3 s.h. Hands-on learning experiences in percussion techniques used by music teachers, special education teachers, music therapists, or social workers; basics of hand drumming centering on West African djembe and Trinidadian steel band; skills necessary for interacting with students and clients in educational and clinical settings.

MUS:3680 Music in Special Education 2-3 s.h. Music methods and materials appropriate for students with disabilities in special educational settings; overview of individualized educational planning for students with disabilities. Requirements: music therapy or music education major.

MUS:3690 Music Therapy with Adults 3 s.h. Techniques, procedures for work with adult clients with disabilities. Prerequisites: MUS:1687. Requirements: music therapy major.

MUS:3710 Intermediate Jazz Improvisation 2 s.h. Improvisation in the jazz repertoire of standards, bebop, and major composers such as Thelonious Monk, Wayne Shorter; memorization and use of melodies, knowledge of chords to the thirteenth, chromatic harmony, development of rhythmic motifs/alteration, strategies for multiple chorus improvisations; separate section for drummers. Prerequisites: MUS:3750 and MUS:3001. Requirements: audition.

MUS:3730 Jazz Band 1 s.h. Jazz performance ensembles, rehearsals, and concerts on and off campus.

MUS:3740 Small Jazz Ensembles 1 s.h. Development of repertoire from standard jazz literature, arrangements and compositions by ensemble members; rehearsals (three hours per week) and performances on and off campus. Requirements: audition.

MUS:3750 Jazz Theory 3 s.h. Development of skills for interpreting melodies and chord symbols in mainstream practice of jazz harmony at the piano; application of scales, development of voice leading for jazz harmonies, reharmonization, and analysis. Requirements: MUS:1201 or audition.

MUS:3760 Jazz Band Techniques 1 s.h. Development of skills for sight-reading and interpreting notated jazz. Prerequisites: MUS:1711.

MUS:3780 Audio Recording I 3 s.h. Introduction to audio fundamentals, including basic acoustics and audio systems; survey of important equipment and practices, use of microphones and mixers; introduction to AVID’s Pro Tools digital audio workstation; students with no background in audio production brought up to an operational proficiency level with basic recording systems; related technical topics develop an understanding of common equipment and conventional application in modern recording studio setting; recording techniques used in MUS:3781.

MUS:3781 Audio Recording II 3 s.h. Survey of Pro Tools; fundamental digital audio concepts applied to hands-on music recording and postproduction projects on digital audio workstations; Pro Tools 101 content with supplementary readings and recording sessions; operational knowledge of Pro Tools software and hardware configurations; basic processes of software-based digital audio recording through recording sessions and sample projects; development of functional understanding of postproduction concepts. Prerequisites: MUS:3780.

MUS:3800 Reed Class 1 s.h. Development of reed-making skills; focus on steps to complete reeds from tube cane to a finished reed; different ways of reed making; practical, pedagogical, and historical approaches; producing various reed styles. Requirements: music major.

MUS:3850 Introduction to Laban Movement Studies 2-3 s.h. Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DANC:3850, DPA:3850, THTR:3850.

MUS:3851 Introduction to the Alexander Technique 2-3 s.h. The Alexander Technique and “self-use”—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851, DPA:3851, THTR:3851.

MUS:3990 Special Studies arr.
MUS:4200 Counterpoint Before 1600 3 s.h.
Two- and three-part counterpoint; Renaissance polyphony.
Requirements: MUS:2203 for undergraduates; MUS:5200 for graduate students or exemption by Graduate Advisory Exam.

MUS:4201 Counterpoint After 1600 3 s.h.
Two- and three-part writing in the style of J.S. Bach; fugue.
Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption by Graduate Advisory Exam for graduate students.

MUS:4210 Keyboard Harmony 1-2 s.h.
Melody harmonization and figured-bass realization at the keyboard. Requirements: MUS:2204 for undergraduates; MUS:5200 or exemption by Graduate Advisory Exam for graduate students; and keyboard proficiency for all students.

MUS:4220 Orchestration 2 s.h.
Instrumental capabilities and combinations in solo, chamber, and large ensemble literature; application in composition.

MUS:4250 Composition: Electronic Media I 3 s.h.
Composition using analog, digital technology. Offered fall semesters.

MUS:4251 Composition: Electronic Media II 3 s.h.
Advanced interactive techniques in composition in association with analog, digital technologies. Offered spring semesters.

MUS:4450 Organ Literature Survey 2 s.h.
Fifteenth century to present. Requirements: advanced undergraduate or graduate standing.

MUS:4452 Liturgics 2 s.h.
History of liturgies and survey of liturgical music from Judaism to present.

MUS:4454 Service Playing and Improvisation 2 s.h.
Hymn playing, accompanying, basic improvisation techniques. Requirements: organ major.

MUS:4630 Psychology of Music 2-3 s.h.
Cognition of music, affective response, aesthetic response, musical ability. Same as EDTL:4630.

MUS:4670 Internship in Music Therapy arr.
Clinical training under direction of board certified music therapist. Requirements: core music therapy requirements.

MUS:4675 Senior Project in Music Therapy 1 s.h.

MUS:4685 Music Therapy with Children 3 s.h.

MUS:4710 Advanced Jazz Improvisation 2 s.h.
Builds on the skills learned in MUS:3710; contemporary techniques and styles used by current practitioners of improvisation; free improvisation, bitonal harmonies, through-composed forms, collective improvisation, nonwestern approaches. Prerequisites: MUS:3710 and MUS:3750. Requirements: audition.

MUS:4750 Transcription 2 s.h.
Individual projects to transcribe improvisations, small ensemble arrangements, large ensemble arrangements, or nonwestern techniques; use of computer notation programs and mid-realizations. Prerequisites: MUS:3750 and MUS:3710.

MUS:4760 Jazz Composition and Arranging 2 s.h.
Experience writing and arranging original jazz material for small and large ensembles, and presenting scores in computer notation; individual lessons. Prerequisites: MUS:3750.

MUS:4900 Senior Recital 1 s.h.
MUS:4910 Bachelor's Thesis 0-1 s.h.

MUS:4995 Honors in Music 1-4 s.h.
Requirements: honors standing.

MUS:5020 Graduate Secondary Performance - Voice 1 s.h.
Study of an instrument (or voice) in area other than major performance area; opportunity to continue performance skill development on secondary instruments.

MUS:5021 Graduate Secondary Performance - Piano 1 s.h.
Study of an instrument (or voice) other than major performance area; opportunity to continue development of performance skills on secondary instruments. Requirements: graduate standing in music.

MUS:5101 Advanced Woodwind Pedagogy and Literature I 2 s.h.
Saxophone and clarinet solo and study literature; integration of pedagogical topics.

MUS:5102 Advanced Woodwind Pedagogy and Literature II 3 s.h.
Oboe, bassoon, and flute solo and study literature; integration of pedagogical topics.

MUS:5111 Advanced Brass Pedagogy and Literature I 2 s.h.
Tuba, euphonium, and trombone literature; pedagogical topics.

MUS:5112 Advanced Brass Pedagogy and Literature II 2 s.h.
Trumpet and horn literature; pedagogical topics.

MUS:5115 Advanced Brass Ensemble Literature 2 s.h.
Brass chamber music literature, including mixed and like-instrument ensembles.

MUS:5121 Advanced String Methods and Literature I 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

MUS:5122 Advanced String Methods and Literature II 2 s.h.
Violin, viola, cello, and double bass solo and chamber music repertoire, pedagogical methods.

MUS:5130 Advanced Percussion Pedagogy and Literature 2 s.h.
Percussion literature, styles, notation, performance techniques, composition; survey.

MUS:5200 Basic Analytical Techniques 3 s.h.
Theories and strategies of analysis applied to tonal and post-tonal music.

MUS:5220 Advanced Composition arr.
Corequisites: MUS:3230.

MUS:5235 Tonal Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam.

MUS:5236 Post-Tonal Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Examination.

MUS:5240 Special Topics in Theory and Analysis 3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam for graduate students.
MUS:5300 Introduction to Graduate Study in Music 2 s.h.
Music library; reference materials; bibliography; research problems, methods; writing research papers. Offered fall and spring semesters.

MUS:5301 Advanced History and Literature of Music I 3 s.h.
History and style of Medieval, Renaissance, and Baroque music (750-1750). Offered fall semesters.

MUS:5302 Advanced History and Literature of Music II 3 s.h.
History and style of Classical, 19th-, 20th-, and 21st-century music (1750-present). Offered spring semesters.

MUS:5310 Introduction to Musicology 1-3 s.h.
Methods, materials of research in historical musicology; field of musicology. Requirements: for 1 s.h. -- MUS:5300; for 3 s.h. -- concurrent enrollment in MUS:5300.

MUS:5400 Piano Pedagogy I 2 s.h.
In-depth study of techniques and materials needed to teach intermediate and advanced piano students; judging competitions; conducting master classes; writing curriculum vitae and cover letters in preparation for academic job searches.

MUS:5401 Piano Pedagogy II 2 s.h.
History of the piano and its technique and pedagogy; national schools of piano playing; relationship of technological changes in piano construction to piano technique, pedagogy, and composition; major methods and treatises, historical recordings and video clips; research leading to understanding of students' individual piano lineage.

MUS:5410 Piano Literature I 2 s.h.
Baroque era to Mozart or Chopin through 1900.

MUS:5411 Piano Literature II 2 s.h.
Beethoven through Schumann or 20th century.

MUS:5450 History of Organ Building and Design 2-3 s.h.
Development of organ design from Middle Ages to present; basic concepts of construction, maintenance.

MUS:5452 Organ Pedagogy 2 s.h.
History, theory, practice from Renaissance to present; methods, literature appropriate for various levels.

MUS:5465 Hymnology 1-2 s.h.
Survey of historic hymnody: ancient odes, Latin hymns, Reformation hymns and psalms; current developments in hymnody and hymnals; may be special topic study.

MUS:5475 Organ Literature Special Topics 2 s.h.
Specialized study in selected areas of organ literature.

MUS:5500 Principles of Voice Production 3 s.h.
Basic physical, physiological, pedagogical principles in understanding professional, nonprofessional, impaired voice production; vocal anatomy, voice classification; control of loudness, pitch, register, quality; efficient, inefficient use of voice; instrumentation for voice analysis, synthesis. Offered fall semesters of odd years. Same as CSD:5201.

MUS:5555 Voice Habilitation 2-3 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Same as CSD:5213.

MUS:5600 Graduate Music Education Workshop 1 s.h.
For inservice music teachers; topics vary. Same as EDTL:5600.

MUS:5601 Graduate Music Education Workshop II 1 s.h.
Varied topics; for inservice music teachers. Same as EDTL:5601.

MUS:6020 Major Voice arr.
MUS:6021 Major Piano arr.
MUS:6022 Major Organ arr.
MUS:6023 Major Violin arr.
MUS:6024 Major Viola arr.
MUS:6025 Major Cello arr.
MUS:6026 Major String Bass arr.
MUS:6027 Major Flute arr.
MUS:6028 Major Oboe arr.
MUS:6029 Major Clarinet arr.
MUS:6030 Major Bassoon arr.
MUS:6031 Major Saxophone arr.
MUS:6032 Major Horn arr.
MUS:6033 Major Trumpet arr.
MUS:6034 Major Trombone arr.
MUS:6035 Major Euphonium arr.
MUS:6036 Major Tuba arr.
MUS:6037 Major Percussion arr.

MUS:6120 Graduate Secondary Performance - Voice 1 s.h.
MUS:6121 Graduate Secondary Performance - Piano 1 s.h.
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6122 Graduate Secondary Performance - Organ 1 s.h.
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6123 Graduate Secondary Performance - Violin 1 s.h.
MUS:6124 Graduate Secondary Performance - Viola 1 s.h.
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6125 Graduate Secondary Performance - Cello 1 s.h.
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6126 Graduate Secondary Performance - String Bass 1 s.h.
Required seminar and lessons to be arranged. Requirements: music majors only.
MUS:6127 Graduate Secondary Performance - Flute
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6128 Graduate Secondary Performance - Oboe
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6129 Graduate Secondary Performance - Clarinet
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6130 Graduate Secondary Performance - Bassoon
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6131 Graduate Secondary Performance - Saxophone
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6132 Graduate Secondary Performance - Horn
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6133 Graduate Secondary Performance - Trumpet
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6134 Graduate Secondary Performance - Trombone
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6135 Graduate Secondary Performance - Euphonium
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6136 Graduate Secondary Performance - Tuba
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6137 Graduate Secondary Performance - Percussion
Required seminar and lessons to be arranged. Requirements: music majors only.

MUS:6150 Seminar in Performance and Pedagogy Research
Research in the student's area; selection of a research topic. Offered spring semesters.

MUS:6200 Music Theory Colloquium
0 s.h.

MUS:6210 History of Music Theory I
3 s.h.
Requirements: MUS:5200 or exemption on Graduate Advisory Exam.

MUS:6211 History of Music Theory II
3 s.h.
Requirements: MUS:5200 or exemption by Graduate Advisory Exam.

MUS:6215 Music Theory Pedagogy
3 s.h.
Methods and techniques of teaching college-level music theory, including harmony, sight singing, ear training. Corequisites: MUS:6200. Requirements: MUS:5200 or exemption by Graduate Advisory Exam.

MUS:6250 Advanced Tonal Theory and Analysis
3 s.h.
Prerequisites: MUS:5235.

MUS:6251 Advanced Post-Tonal Theory and Analysis
3 s.h.
Prerequisites: MUS:5236.

MUS:6300 Musicology Colloquium
0 s.h.

MUS:6310 Seminar in Musicology
3 s.h.
One or more selected areas of music history.

MUS:6314 Topics in Ethnomusicology
3 s.h.
Perspectives on analysis and representation of selected musical cultures from around the world.

MUS:6315 Foundations of Ethnomusicology
3 s.h.
Ethnomusicology in relation to domains of musical, humanistic, social science scholarship on expressive culture and artistic processes. Requirements: senior standing.

MUS:6325 Renaissance Music
3 s.h.
Requirements: MUS:5301 or exemption by Graduate Advisory Exam.

MUS:6326 Renaissance Music Notations
3 s.h.
Renaissance white notation, keyboard tablatures, musical paleography; transcription of early vocal, instrumental notations; editorial problems. Requirements: MUS:5301 or exemption by Graduate Advisory Exam.

MUS:6330 Seventeenth-Century Music
3 s.h.
Requirements: MUS:5301 or exemption by Graduate Advisory Exam.

MUS:6335 Eighteenth-Century Music
3 s.h.
Requirements: MUS:5302 or exemption by Graduate Advisory Exam.

MUS:6340 Nineteenth-Century Music
3 s.h.
Requirements: MUS:5302 or exemption by Graduate Advisory Exam.

MUS:6345 Music 1900-1945
3 s.h.
Requirements: MUS:5302 or exemption by Graduate Advisory Exam.

MUS:6350 Music 1945-Present
3 s.h.
Requirements: MUS:5302 or exemption by Graduate Advisory Exam.

MUS:6355 American Music
3 s.h.
Requirements: MUS:5302 or exemption by Graduate Advisory Exam.

MUS:6375 Music Editing
3 s.h.
Principles and methods of music editing; use of primary source materials, establishment of music text, preparation of critical apparatus; project to prepare a critical edition of music for publication. Requirements: MUS:5300 or appropriate transfer credit.

MUS:6520 Methods of Teaching Voice
3 s.h.
Attitude, musicianship, foreign language aptitude, physical and emotional characteristics; mental images used to modify respiratory, phonatory, articulatory behavior; vocal hygiene; performance anxiety; student-teacher relationships; administration in vocal schools, professional organizations. Offered spring semesters. Same as CSD:6202.

MUS:6525 Voice for Performers
2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as CSD:6204, THTR:6525.

MUS:6530 Topics in Vocal Performance
2 s.h.
Selected areas of vocal performance.
MUS:6535 Opera Theater Directing Seminar arr. Exploration, discussion, and experience using techniques unique to directing opera. Score and libretto analysis, fundamentals of stagewear, casting and management skills.

MUS:6540 Survey of Operatic Literature 3 s.h. Important operatic scores examined from standpoint of performers, directors; production problems.

MUS:6541 Survey of Song Literature I 3 s.h. German language lieder from 18th century to present; French mélodie from Meyerbeer to present. Offered fall semesters of odd years.

MUS:6542 Survey of Song Literature II 3 s.h. British, American, Italian, Spanish, Latin American, Scandinavian, and Russian art song from 18th century to present. Offered Fall semesters of even years.

MUS:6556 Instrumentation for Voice Analysis 2 s.h. Glottographic, videostroboscopic, electromyographic, and acoustic analysis for assessment of vocal and respiratory function; using these techniques in conjunction with perceptual evaluation of voice; through the Vocoloid Institute in Utah. Offered summer sessions of even years. Requirements: enrollment in Summer Vocoloid Institute, Salt Lake City, Utah. Same as CSD:6221.

MUS:6579 Orchestral Conducting Lab 2 s.h. Introduce, improve, and refine gestural skills, emphasizing score analysis; class discussions and laboratory orchestra experiences.

MUS:6580 Advanced Orchestral Conducting 2 s.h.

MUS:6585 Score Reading 1 s.h.

MUS:6586 Orchestral Literature 2 s.h.

MUS:6589 Advanced Wind Conducting 1 s.h. Advanced conducting technique, score study, and literature as related to symphonic band and chamber wind ensembles.

MUS:6590 Seminar in Advanced Band Literature and Band History 1-2 s.h. Band literature; history.

MUS:6670 Graduate Music Therapy Practicum arr. Seminar, clinical field work. Requirements: undergraduate music therapy practicum.

MUS:6675 Research in Music Therapy - Graduate 1 s.h. Research methodology; foundation for subsequent semesters of research on capstone project in music therapy.

MUS:6680 College Teaching and Clinic Supervision in Music Therapy 1-2 s.h. Principles of college teaching, curriculum development, clinical supervision in music therapy.

MUS:6685 Theory and Research in Music Therapy 1 s.h. Historical background, current principles and practices associated with theories of music therapy, common uses with specific populations; research methodologies associated with testing; theories and clinical practices, assigned research publications; information covered over several semesters with each semester covering three to four common theories; seminar includes strengths and limitations of each theory and its place within clinical practice. Requirements: undergraduate core courses in music therapy.

MUS:6690 Special Studies in Music Therapy 1-3 s.h. Seminar. Requirements: music therapy or music education graduate standing.

MUS:6900 M.A. Recital arr.

MUS:6920 M.A. Performance Project arr.

MUS:6950 M.A. Thesis arr.

MUS:7132 Seminar in Performance and Pedagogy Research II 1 s.h. Continuation of MUS:6150; thesis proposal preparation; survey of related literature. Offered spring semesters.

MUS:7280 Readings in Music Theory 0-1 s.h.

MUS:7380 Readings in Music History arr.

MUS:7400 Special Studies Piano Literature arr. Individual research in special aspects of piano literature; primarily for D.M.A. students.

MUS:7900 D.M.A. Recital arr.

Music, B.A.

The Bachelor of Arts with a major in music is designed for students who have strong abilities and interest in music but are not planning on careers as musicians, or for those who wish to pursue a double major or earn more than one bachelor’s degree. Students must audition and be accepted into a performance area. They develop musicianship, performance skills, and select from a wide variety of music electives.

Students in many areas, from engineering and physics to history, art, and English, find that a B.A. in music is a good addition to their studies. Other students choose the B.A. in music to complement course work in business (especially the minor in business administration), foreign language and literature, or interdisciplinary fields such as American studies. Some students combine a B.A. in music with undergraduate preparation to study law or medicine.

Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. All music majors with scholarships must enroll in a major ensemble and studio lessons each semester. For information, contact the School of Music.

Requirements

The Bachelor of Arts with a major in music requires a minimum of 120 s.h., including 42-47 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. B.A. students majoring in music may count a maximum of 56 s.h. earned in music courses toward their degree and they must earn at least 64 s.h. in course work outside of the School of Music in order to graduate. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. Students must satisfy all requirements for graduation with a bachelor’s degree; contact the School of Music and the Academic Advising Center to learn more.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through audition either in person or by recording before they register. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicianship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicianship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

All music majors with scholarships must participate in a major ensemble and studio lessons each semester.

The major in music (Bachelor of Arts) requires the following course work.

**All of these:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS:1200</td>
<td>Fundamentals of Music for Majors (or successful completion of MUS:1201 online theory diagnostic examination)</td>

**All of these:**

Performance electives (lower- or upper-level applied music, ensembles, or improvisation) 6

**Music electives** 6
Honors in the Major

Students majoring in music have the opportunity to graduate with honors in the major. Members of the School of Music honors program must have a g.p.a. of at least 3.80 in music.

To graduate with honors in the music major, students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.

Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school's honors advisor.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the third semester begins: 15-18 s.h. of course work in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II

Before the fifth semester begins: at least 23-32 s.h. of course work in the major

Before the seventh semester begins: at least 33-41 s.h. of course work in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least 40-46 s.h. of course work in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Music, B.M.

The Bachelor of Music program offers concentrations in composition, music education, music therapy, and performance; a second emphasis in jazz studies may be added to the performance concentration. Professional certification in music education and music therapy are available only through the B.M. program.

All undergraduate enrollments require School of Music approval. Entering first-year and transfer students who plan to major in music must be accepted into a performance area through audition either in person or by recording before they register. Students who plan to major in composition also must submit examples of creative work; for details, see "Composition Concentration" under Requirements [p. 688] in this section of the Catalog. All entering students must complete the online theory diagnostic examination for MUS:1201 Musicanship and Theory I and a piano proficiency exam to determine appropriate placement in related courses.

Transfer students admitted to the School of Music must complete a minimum of one year of applied music (lower or upper level) and one year of major ensemble at the University of Iowa in order to earn a degree in music. Transfer students who have not completed the equivalent of the four-semester sequence of Musicanship and Theory I-IV (MUS:1201, MUS:1202, MUS:2203, and MUS:2204) must complete a theory diagnostic exam to determine appropriate placement in the musicianship and theory sequence. Transfer students who have not completed the equivalent of two semesters of class piano or a piano proficiency exam must meet piano proficiency requirements at the University of Iowa.

Financial Support

A number of music performance-based merit scholarships are available to qualified undergraduate music majors. All music majors with scholarships must enroll in a major ensemble and studio lessons each semester. For information, contact the School of Music.

Requirements

The Bachelor of Music requires a minimum of 120 s.h. of credit. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The program offers concentrations in composition, music therapy, and performance; a second emphasis in jazz studies may be added to the performance concentration. Bachelor of Music students may not choose guitar as their major instrument, and Bachelor of Arts students may not transfer to the B.M. program with guitar as their major instrument. Students seeking licensure/certification in music education or music therapy should enroll in the B.M. program.

Many students earn more than 120 s.h. in fulfilling the requirements for their majors—for instance, those who choose the music therapy concentration or seek teacher certification. The College of Liberal Arts and Sciences maximum hours rule does not apply to the Bachelor of Music, so B.M. students may count more than 56 s.h. of course work in music toward the degree.

The Bachelor of Music requires the following School of Music course work.

General Course Requirements

To register for MUS:1201 Musicanship and Theory I, students also must register for MUS:1211 Group Instruction in Piano I or already have completed that course or have been exempted from it by proficiency exam. To register for MUS:1202 Musicanship and Theory II, students also must register for MUS:1212 Group Instruction in Piano II or already have completed that course or have been exempted from it by proficiency exam. Transfer students should complete the group piano requirement during their first year in residence unless they are exempted by proficiency exam.

Six semesters of MUS:1210 Recital Attendance are required for all B.M. students, except music therapy students, who are required to take four semesters. Transfer students should plan to enroll in this course each of their remaining semesters, or until the requirement is met.

To complete the senior recital, students must have achieved upper-level applied status or be enrolled in upper-level applied music courses (see "Applied Music" below). Music therapy students may complete a senior recital or a senior research project. Composition students substitute MUS:4910 Bachelor’s Thesis for the senior recital. The senior recital, research project, or thesis must be completed at the University of Iowa.

One of these:
- MUS:1009 Jazz Cultures in America and Abroad | 3
- MUS:1310 World Music | 3
- MUS:1720 History of Jazz | 3
- MUS:2311 Music of Latin America and the Caribbean | 3

At least 3 s.h. from these:
- MUS:2206 Form and Analysis | 3
- MUS:3001 Introduction to Improvisation | 3
- MUS:3665 Arranging for Band | 2
Major ensembles are as follows.

Students must complete four years of applied music. Instruction is provided on two levels, lower and upper. Students must achieve upper-level status before they may present the senior recital. Readiness for upper-level applied music is determined by a jury examination in the area. The eighth semester of applied music may be waived for students who have successfully completed a senior recital, are enrolled in the Teacher Education Program, and are student teaching. Students are allowed a maximum of six semesters (not including summer) in lower-level applied instruction. Those who want to continue lessons beyond the maximum allowable lower-level registration must do so under the nonmajor category.

Composition students are required to take 6 s.h. of lower-level applied music and 2 s.h. of secondary piano.

Music therapy students who complete a senior research project rather than a senior recital are required to take three years of lower-level applied music.

**Ensemble Participation**

Students must complete eight semesters of major ensemble participation. They normally enroll in a major ensemble during consecutive semesters, beginning early in their degree work, to ensure timely completion of the requirement. Ensemble assignments are made at the discretion of the major teacher and ensemble director. String students participate in University Orchestra and Chamber Orchestra. Wind and percussion students participate in Symphony Band, Concert Band, and University Band. Voice students participate in Camerata Singers, University Choir, Kantorei, and Women’s Chorale. Keyboard students may substitute accompaniment for major ensemble participation for two semesters during their junior and/or senior years, with their major applied-music teacher’s consent. Composition students may, with their advisor’s consent, substitute two semesters of other ensembles during their junior and/or senior year.

Music therapy students who complete a senior research project rather than a senior recital are required to complete 6 s.h. of major ensemble participation.

Any student who wants to request adjustment of the major ensemble requirement must submit a request in writing to a review committee consisting of the ensemble director(s) involved, the studio instructor, and the associate director for undergraduate studies.

Major ensembles are as follows.

**Electives**

Students may take advanced electives in performance (including chamber music and piano accompaniment), theory, composition, music education, music therapy, music history, diverse music cultures, music literature, conducting, and orchestration.

**Performance Concentrations**

A performance concentration is available in each of the orchestral areas—strings, brass, woodwinds, and percussion—and in voice, piano, and organ. Students must take at least an additional 17 s.h. beyond the School of Music general course requirements. This course work includes required courses and electives unique to each performance area. Course listings for each of the respective areas are available from the School of Music office.

**Jazz Studies Emphasis**

Students with a performance concentration may add a second emphasis in jazz studies. To be admitted to the jazz studies emphasis, students must audition after they complete their first year. Students admitted to the emphasis are assigned to the jazz studies advisor in addition to their regular faculty advisor.

Senior recital and recital attendance requirements are the same as those for the Bachelor of Music. In addition to satisfying all course requirements for the B.M., jazz studies emphasis students must complete 21 s.h. of jazz course work. Many jazz studies courses fulfill other B.M. course requirements, including music electives.

**Music Therapy Concentration**

Admission to the music therapy concentration is based on successful completion (grade of C-plus or higher) of MUS:1687 Orientation to Music Therapy. Students must earn a B-minus or higher in all remaining music therapy core courses. In addition to the core courses in music therapy listed below, specific courses are required in biology, anatomy, psychology, and music.

A six-month, full time internship in an American Music Therapy Association (AMTA) approved off-campus clinical facility is required for completion of the degree. There are a limited number of approved music therapy internships in the Iowa City area, and many internship placements require relocation to a different city. Students are eligible to begin applying for their internship one year prior to the start of the internship. Securing an internship typically involves completing application materials, interviewing on site or via electronic platform, and demonstrating musical competencies. Students are not automatically placed in internships, but must work with the clinical advisor to select and apply for appropriate programs. Following successful completion of the internship, students are eligible to take the board certification examination in music therapy. This exam is offered through the Certification Board for Music Therapists. This leads to national board certification as a music therapist, with the credential music therapist-board certified (MT-BC).

Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student’s ability to continue in the music therapy program and/or gain placement at an internship site. For more
The music therapy concentration requires the following course work.

All of these:
- MUS:1687 Orientation to Music Therapy 2
- MUS:3675 Music Therapy Practicum (section 1 taken twice for 2 s.h. and section 2 taken once for 1 s.h.) 5
- MUS:3680 Music in Special Education 2-3
- MUS:3690 Music Therapy with Adults 3
- MUS:4670 Internship in Music Therapy arr.
- MUS:4685 Music Therapy with Children 3
- EDTL:4630 Psychology of Music 2-3
- EDTL:4640 Introduction to Music Research 2-3

At least two of these (total of 4 s.h.):
- MUS:2671 Music Foundations in Therapy I 2
- MUS:2672 Music Foundations in Therapy II 1-2
- MUS:3676 Percussion Experience for Teachers and Therapists 1

All of these:
- MUS:1120 Undergraduate Secondary Performance - Voice (two semesters required) 2
- MUS:1210 Recital Attendance (four semesters required) 4
- MUS:1211 Group Instruction in Piano I 1
- MUS:1212 Group Instruction in Piano II 1
- MUS:2213 Group Instruction in Piano III 1

One of these:
- MUS:3891 Introduction to the Alexander Technique 3
- DANC:1085 Introduction to Afro-Caribbean Dance Techniques 1

One of these:
- MUS:1007 Garage Band: The Basics 2
- MUS:3665 Arranging for Band 2

One of these:
- MUS:1121 Undergraduate Secondary Performance - Piano 1
- MUS:3001 Introduction to Improvisation 3

One of these:
- PSY:2930 Abnormal Psychology: Health Professions 3
- PSY:3320 Abnormal Psychology 3

One of these:
- ANTH:1101 Cultural Anthropology 3
- PSY:2301 Introduction to Clinical Psychology 3
- PSY:2601 Introduction to Cognitive Psychology 3
- PSY:2701 Introduction to Behavioral Neuroscience 4

One of these:
- PSQF:4106 Child Development 3
- PSY:2401 Introduction to Developmental Science 3

One of these:
- CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2
- CSD:2140 Manual Communication 1
- PSQF:1075 Educational Psychology and Measurement 3
- RCE:4178 Microcounseling 1-3
- RCE:4199 Counseling for Related Professions 3
- SSW:1800 Basic Aspects of Aging 3

One of these:
- MUS:4675 Senior Project in Music Therapy 1
- MUS:4900 Senior Recital 1

Music therapy students who elect the senior recital/performance option must take four years of applied music and attain upper-level status; they also must take 8 s.h. of major ensemble participation. Vocal majors choosing this option also must take MUS:1510 Diction for Singers I and MUS:2510 Diction for Singers II.

Music therapy students who elect the senior project/clinical option must take three years of applied music and 6 s.h. of major ensemble. They also must take an additional 4 s.h. of music performance courses in areas such as MUS:1120 Undergraduate Secondary Performance - Voice, MUS:1121 Undergraduate Secondary Performance - Piano, MUS:1137 Secondary Performance - Percussion, MUS:3154 Introduction to Afro-Cuban Drumming, MUS:3163 Intermediate Steel Band, or other courses approved by the advisor.

In order to satisfy national certification requirements, all music therapy students must fulfill certain CLAS General Education Program requirements with specific courses. Students should consult their music therapy advisor before selecting General Education courses.

**Composition Concentration**

The composition concentration is open to students who have been admitted to a performance area in the School of Music. Before admission to the concentration, students normally must complete the following four-semester sequence.

- MUS:1201 Musicianship and Theory I 4
- MUS:1202 Musicianship and Theory II 4
- MUS:2203 Musicianship and Theory III 4
- MUS:2204 Musicianship and Theory IV 4

The last course in the sequence, MUS:2204, is a prerequisite for MUS:2220 Composition (undergraduate composition lessons).

Applicants to the composition concentration must submit a portfolio of creative work to the composition faculty for evaluation and acceptance into the program. Students who wish to prepare a portfolio may register for MUS:1139 Lessons). Students who wish to prepare a portfolio may register for MUS:1139

Composition students must satisfy the degree requirements stated under "Bachelor of Music." The composition concentration requires additional course work in composition and music theory; contact the School of Music office.
The course MUS:4910 Bachelor's Thesis replaces the recital required of applied music students. It consists of one or more compositions, approved by a committee of three faculty members and performed in regularly scheduled School of Music recitals.

**B.M. with Teacher Licensure**

Music majors who intend to earn licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the Bachelor of Music major and all requirements for graduation.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Undergraduate students seeking teacher licensure/certification must be enrolled in a Bachelor of Music program in performance and must complete the appropriate licensure program (e.g., band, choral, string). Students must be admitted to the Teacher Education Program before they may take required professional education courses. See "Admission to the Teacher Education Program" below.

All students must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. In addition to the B.M. requirements in music, TEP students must take General Education courses that fulfill licensure requirements. The certification program requires courses in music methods and techniques, professional education courses, and student teaching.

The following courses are required for all music TEP students.

</table>
the fall semester, any student who has been directly admitted to the Teacher Education Program. By the last day (Friday) of finals week in the School of Music, are directly admitted into the Teacher Education Program in music.

First-year students interested in seeking music licensure, who earned a high school g.p.a. of 3.20 and who are accepted into the Secondary Teacher Education Program are October 1 for entry the following spring and March 1 for entry the following summer or fall. The Teacher Education Program in music accepts a limited number of applicants; meeting the minimum requirements (stated below) does not guarantee admission.

Minimum requirements for admission to the music TEP are:
- admission to the School of Music;
- a University of Iowa g.p.a. and a cumulative g.p.a. of at least 3.00 at the time of admission to the program;
- a g.p.a. of at least 3.00 on all music course work;
- successful completion of MUS:1201 Musicianship and Theory I and MUS:1202 Musicianship and Theory II;
- completion of at least 30 s.h. of college credit;
- completion of a 10-hour volunteer practicum in a K-12 school setting (volunteer verification form on the Teacher Education Program application website);
- a completed application form;
- two recommendations (with original signatures, forms on the Teacher Education Program application website);
- transcript(s) of all college courses;
- an essay, typewritten on a separate sheet, of no more than 500 words on the topic of a contemporary teaching challenge faced by teachers nationally and how you would address it;
- a résumé, typewritten on a separate sheet, of paid or volunteer work experience, including jobs, employers, and dates of employment; and
- an acceptable score on either the Praxis I exam (Pre-Professional Skills Tests, combined test, test code 5750) with a cumulative score of at least 522 and no score below 170 on the reading, writing, and mathematics tests, or Praxis Core (combined test, test code 5751) for reading (156), writing (162), and mathematics (150).

First-year students interested in seeking music licensure, who earned a high school g.p.a. of 3.20 and who are accepted into the School of Music, are directly admitted into the Teacher Education Program. By the last day (Friday) of finals week in the fall semester, any student who has been directly admitted through early admission must also complete the following:
- achieve passing scores on a standardized test, either Praxis I (PPST or CPPST) with a cumulative score of at least 522, and no score below 170 on reading, writing, and mathematics tests, or Praxis Core for reading (156), writing (162), and mathematics (150);
- at least 10 hours of volunteer work (if not done prior to admission) and submission of the verification form; and
- a criminal background check.

Honors in the Major

Students majoring in music have the opportunity to graduate with honors in the major. Members of the School of Music honors program must have a g.p.a. of at least 3.80 in music.

To graduate with honors in the music major, students must complete at least 6 s.h. of honors work in music, normally in their junior and senior years. They must earn a minimum of 3 s.h. of the required honors work in MUS:4995 Honors in Music by completing one or more honors projects, such as solo or ensemble recitals; compositions, transcriptions, orchestrations, or arrangements; and essays, research papers, editions, or translations. Honors projects must be in addition to the projects normally required for graduation with a major in music.

Students also may earn honors credit in other honors courses (normally upper-level undergraduate courses) or in approved graduate courses (music history and music theory are particularly recommended).

For complete details about requirements for graduation with honors in the music major, visit Honors in Music on the School of Music website and consult the school’s honors advisor.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

In addition to the requirements listed under the checkpoints, all students must complete 2 s.h. in applied music and 1 s.h. in a major ensemble each semester.

The Four-Year Graduation Plan is not available for music therapy and music education.

Students may apply more than 56 s.h. earned in School of Music courses toward the minimum 120 s.h. required for the B.M.

Before the third semester begins: 18 s.h. of course work in the major, including MUS:1201 Musicianship and Theory I, MUS:1202 Musicianship and Theory II, MUS:1211 Group Instruction in Piano I, and MUS:1212 Group Instruction in Piano II

Before the fifth semester begins: at least 34 s.h. of course work in the major, including MUS:2203 Musicianship and Theory III and MUS:2204 Musicianship and Theory IV

Before the seventh semester begins: at least 50 s.h. of course work in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least 56 s.h. of course work in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education
courses, and a sufficient number of semester hours to
graduate

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Music, Minor

The minor in music requires a minimum of 15 s.h. in music courses, including 12 s.h. earned in courses considered upper level for the minor (music courses numbered 3000 or above) and 8 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all music minor and UI courses. Course work for the minor may not be taken pass/nonpass.

Work for the minor must include one music theory course, one music history course, and 3 s.h. of performance courses (applied instruction or ensembles). Auditions with the instructor are required for admission to the lower-level applied instruction courses; admission to the theory courses is determined by results on the theory placement exam or completion of MUS:1200 Fundamentals of Music for Majors.

The following courses are also considered advanced for the minor.

All lower-level applied instruction courses for majors MUS:2020 through MUS:2038

Students may count a maximum of 7 s.h. of transfer credit toward the music theory, music history, and elective requirements. No transfer credit may be counted toward music performance requirements.
Music, M.A.

Advisory Examinations
Before they register, entering graduate students must take two School of Music advisory examinations: one in music theory and one in music history and literature. M.A. students in music therapy are not required to take the advisory examination in music theory or music history. These examinations are given at the beginning of the fall semester on the two days (except Sunday) immediately preceding the opening of classes, and at the beginning of the spring and summer sessions by appointment. A leaflet describing the general content of these tests is available from the School of Music academic office.

Preliminary Procedures for Music Therapy Graduate Students
Since music therapists work with vulnerable populations, the School of Music is required to run a criminal background check on all students when they begin their clinical experiences. Criminal convictions could negatively impact a student’s ability to continue in the music therapy program and/or gain placement at an internship site. For more information, contact the director of the music therapy program.

Ensemble Participation
Graduate students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students normally enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

MUS:1176  Women’s Chorale  1
MUS:3160  Symphony Band/Concert Band  1
MUS:3170  Kantorei  1
MUS:3172  Camerata Singers  1
MUS:3174  University Choir  1
MUS:3180  Orchestra  1

Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher’s discretion. Jazz studies majors substitute MUS:3730 Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement. The M.A. in musicology requires one semester of any ensemble.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music associate director for graduate studies.

Requirements
The Master of Arts program in music requires a minimum of 30-37 s.h. of graduate credit. The M.A. concentrations in performance, conducting, jazz studies, composition, music theory, musicology, music therapy, and music education requires a recital, capstone project, or thesis. Performance majors present a public recital in place of a written thesis. Music therapy majors complete a capstone research project. Jazz studies majors present a public recital and a separate performance project. The Master of Arts in music education is offered with thesis and nonthesis options.

All M.A. programs—except music therapy and music education—require the following course work.

Introductory Course

MUS:5300  Introduction to Graduate Study in Music  2

Music Theory
Students must earn 6 s.h.

This course:

MUS:5200  Basic Analytical Techniques (unless exempt by advisory exam)  3

Students exempted from MUS:5200 through the advisory examination in music theory must substitute an additional theory elective chosen from the following:

MUS:4200  Counterpoint Before 1600  3
MUS:4201  Counterpoint After 1600  3
MUS:5235  Tonal Analysis  3
MUS:5236  Post-Tonal Analysis  3
MUS:5240  Special Topics in Theory and Analysis  3

Students also must choose one elective from these:

MUS:4200  Counterpoint Before 1600  3
MUS:4201  Counterpoint After 1600  3
MUS:5235  Tonal Analysis  3
MUS:5236  Post-Tonal Analysis  3
MUS:5240  Special Topics in Theory and Analysis  3
MUS:6210  History of Music Theory I  3
MUS:6211  History of Music Theory II  3
MUS:6250  Advanced Tonal Theory and Analysis  3
MUS:6251  Advanced Post-Tonal Theory and Analysis  3

Music History
Students must earn 6 s.h.

Both of these:

MUS:5301  Advanced History and Literature of Music I  3
MUS:5302  Advanced History and Literature of Music II  3

Students exempted from MUS:5301 and/or MUS:5302 through the advisory examination in music history must substitute a music history course from the following list for each of the exemptions:

MUS:6310  Seminar in Musicology  3
MUS:6314  Topics in Ethnomusicology  3
MUS:6315  Foundations of Ethnomusicology  3
Admission

Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available from the school's academic office or on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Qualified graduate students are invited to apply for teaching and research assistantships. Inquiries should be directed to the School of Music office.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Music, M.F.A.

Advisory Examinations
Before they register, entering graduate students must take two School of Music advisory examinations: one in music theory and one in music history and literature. These examinations are given at the beginning of the fall semester on the two days (except Sunday) immediately preceding the opening of classes, and at the beginning of the spring and summer sessions by appointment. Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher's discretion. Jazz studies majors substitute MUS:3730 Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music associate director for graduate studies.

Requirements
The Master of Fine Arts program in music requires a minimum of 60 s.h. of graduate credit. It is designed for students of superior ability in instrumental or vocal performance. M.F.A. students present at least two full-length recitals or programs and must write a thesis, which is a research paper of moderate length, in MUS:6910 M.F.A. Thesis. The thesis may relate to some or all of the repertoire included on the recitals.

Students may earn a Master of Arts while working toward the Master of Fine Arts, but they must take two separate final examinations.

Admission
Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available from the school's academic office or on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations of the Graduate College.

Financial Support
Qualified graduate students are invited to apply for teaching and research assistantships. Inquiries should be directed to the School of Music office.

Career Advancement

Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher's discretion. Jazz studies majors substitute MUS:3730 Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music associate director for graduate studies.

Requirements

The Doctor of Philosophy program in music requires a minimum of 72 s.h. of graduate credit. Ph.D. concentration areas include composition, musicology, music education, music theory, and vocal pedagogy and literature. The vocal pedagogy and literature program is designed for students who already have achieved a professional level of musical performance; they are required to audition in their major performance area.

Information about specific admission and curricular requirements for each area is available from the School of Music office.

Ph.D. students in composition, musicology, music theory, and vocal pedagogy and literature must complete the courses required for the M.A. (see Master of Arts in Music [p. 695] in the Catalog). They also must complete the following course work:

- One or more additional music theory course(s) listed in the M.A. requirements
- One of these:

Proficiency in one or more foreign languages is required for Ph.D. students in composition, musicology, music theory, and music literature. Ph.D. students in music education should contact the School of Music for requirements.

Admission

Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available from the school's academic office or on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations of the Graduate College.

Qualified graduate students are invited to apply for teaching and research assistantships. Inquiries should be directed to the School of Music office.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Doctor of Musical Arts, D.M.A.

Advisory Examinations
Before they register, entering graduate students must take two School of Music advisory examinations: one in music theory and one in music history and literature. These examinations are given at the beginning of the fall semester on the two days (except Sunday) immediately preceding the opening of classes, and at the beginning of the spring and summer sessions by appointment. A leaflet describing the general content of these tests is available from the School of Music academic office.

Ensemble Participation
Graduate students in the performance and pedagogy tracks of all graduate programs are required to complete four semesters of major ensemble participation. Students normally enroll in major ensemble participation during consecutive semesters beginning early in their degree work, to ensure completion of the major ensemble requirements in a timely manner. Ensemble assignments are made at the discretion of the major teacher and ensemble director.

Major ensembles are as follows.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS:1176</td>
<td>Women’s Chorale</td>
<td>1</td>
</tr>
<tr>
<td>MUS:3160</td>
<td>Symphony Band/Concert Band</td>
<td>1</td>
</tr>
<tr>
<td>MUS:3170</td>

</tr>
</tbody>
</table>

Keyboard majors may substitute piano accompaniment for major ensemble participation, at their major applied teacher's discretion. Jazz studies majors substitute MUS:3730 Jazz Band for major ensemble participation. Theory, composition, music education, and music therapy majors have no major ensemble requirement.

Any student who wants to request adjustment of this requirement must submit a request in writing to a review committee consisting of the major ensemble director(s) involved, the major teacher, and the School of Music associate director for graduate studies.

Requirements
The Doctor of Musical Arts is offered with two concentrations: conducting, and performance and pedagogy. Requirements for the D.M.A. are the same as for the Ph.D. (see Doctor of Philosophy in Music [p. 698] in the Catalog), except that the D.M.A. requires three recitals or programs (MUS:7900 D.M.A. Recital and MUS:7970 D.M.A. Essay) instead of the Ph.D. thesis. At the performance area's discretion, a concerto performance with orchestra or other appropriate ensemble from the School of Music may be substituted for one of the recitals. Some performance areas allow one or more lecture recitals, with faculty approval. Singers may substitute one major opera role or one major solo contribution to an orchestra performance for one of their recitals. See the school's associate director for graduate programs for specific area requirements.

Admission
Individuals applying to graduate programs in music must audition and/or submit supporting materials in their area of concentration in order to be considered for admission. Information about Graduate College admission and curriculum requirements for each area in the School of Music is available from the school’s academic office or on the School of Music website.

For detailed information about Graduate College admission and policies, see the Manual of Rules and Regulations of the Graduate College.

Financial Support
Qualified graduate students are invited to apply for teaching and research assistantships. Inquiries should be directed to the School of Music office.

Career Advancement
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
# Theory Pedagogy, Graduate Minor

The graduate minor in theory pedagogy requires 18 s.h. of credit. The program is open to students who have been admitted to a graduate degree program in the School of Music.

The minor requires the following courses.

<table>

Sacred Music, Graduate Certificate

The Certificate in Sacred Music requires 25 s.h. It is an interdisciplinary program with courses in sacred music, choral conducting and literature, keyboard, voice, religion, and art and art history. Students may earn the certificate while working toward a graduate degree. Individuals not enrolled in a graduate program also may complete the certificate, but they must be admitted to the Graduate College and have the consent of a faculty advisor.

The certificate requires the following course work.

<table>

Optical Science and Technology Center

Director

- Michael E. Flatte (Physics and Astronomy)

Faculty: https://ostc.uiowa.edu/members
Website: https://ostc.uiowa.edu/

The Optical Science and Technology Center consists of faculty members from the Departments of Chemical and Biochemical Engineering, Civil and Environmental Engineering, and Electrical and Computer Engineering (College of Engineering), and the Departments of Biology, Chemistry and Physics and Astronomy (College of Liberal Arts and Sciences). Among the faculty are distinguished scientists who have developed international reputations for innovative research on the frontiers of optical science and engineering. Funding to support research in the Center comes from a variety of federal, state, and private sources, including the National Science Foundation (NSF), the National Aeronautics and Space Administration (NASA), the Office of Naval Research (ONR), the National Institutes of Health (NIH) and the ACS Petroleum Research Fund.

Current research areas include laser spectroscopy and photochemistry, photonics and optoelectronics, ultrafast laser development, condensed matter physics, materials growth techniques, device physics/engineering, surface chemistry, chemical sensors, environmental chemistry, polymer science, plasma physics, and nonlinear optics.

Much of the research is housed in the modern Iowa Advanced Technology Laboratories. The laboratories in this environmentally-controlled building are devoted primarily to research in areas of optical science and technology. These world-class research laboratories offer state-of-the-art equipment including a variety of novel laser systems (such as widely tunable, ultrafast lasers), materials growth and characterization facilities, optoelectronics device fabrication and characterization, UHV surface science laboratories, and supersonic molecular beam time-of-flight mass spectrometer systems. Scientists also have access to University and department diagnostic support facilities, including nuclear magnetic resonance, mass spectrometry, Fourier transform infrared spectroscopy, X-ray diffraction, and electron microscopy.

Courses

Optical Science and Technology Center Courses

OSTC:3750 Fundamentals of Micro and Nanofabrication 3 s.h.
Fundamentals of micro- and nano-fabrication processes; physical principles of photo and electron beam lithography, alternative nano-lithography techniques, thin film deposition, molecular beam epitaxy, atomic layer deposition, self-assembly; metrology methods; physical and chemical processes of wet and plasma etching; cleanroom science, operations, safety protocols; sequential micro- and nano-fabrication processes involved in manufacture of semiconductor, photonic, nanoscale devices; imaging and characterization of micro- and nano-structures; scientific and technological applications of emerging micro- and nano-devices and systems. Prerequisites: BIOL:1141 or CHEM:1120 or PHYS:1612 or CHEM:1110 or CHEM:1060 or PHYS:1702 or PHYS:1611. Requirements: undergraduate lab course in chemistry, biology, physics, or engineering. Same as PHYS:3750.
Philosophy

Chair

• David Cunning

Undergraduate major: philosophy (B.A.)
Undergraduate minor: philosophy
Graduate degrees: M.A. in philosophy; Ph.D. in philosophy
Faculty: https://clas.uiowa.edu/philosophy/people/faculty
Website: https://clas.uiowa.edu/philosophy/

The Department of Philosophy offers programs of study for undergraduate and graduate students. It also administers the interdisciplinary undergraduate major in ethics and public policy, which it offers jointly with the Departments of Economics and Sociology; see Ethics and Public Policy [p. 397] in the Catalog.

Programs

Undergraduate Programs of Study

Major

• Major in Philosophy (Bachelor of Arts) [p. 707]

Minor

• Minor in Philosophy [p. 709]

Graduate Programs of Study

Majors

• Master of Arts in Philosophy [p. 710]
• Doctor of Philosophy in Philosophy [p. 711]

Courses

For more detailed descriptions of undergraduate and graduate courses offered during a given semester or summer session, visit the University's MyUI website before early registration.

Philosophy Courses

PHIL:1001 CLAS Master Class 1-3 s.h.

PHIL:1010 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

PHIL:1033 The Meaning of Life 3 s.h.
Philosophical investigation of the nature of human life and of what makes human life valuable and/or meaningful. GE: Historical Perspectives.

PHIL:1034 Liberty and the Pursuit of Happiness 3 s.h.
Examination of conflict between state power and individual liberty; philosophical and historical examination of theories from Plato through today. GE: Historical Perspectives.

PHIL:1401 Matters of Life and Death 3 s.h.
Contemporary ethical controversies with life and death implications; topics may include famine, brain death, animal ethics, abortion, torture, terrorism, capital punishment. GE: Values, Society, and Diversity.

PHIL:1636 Principles of Reasoning: Argument and Debate 3 s.h.
Critical thinking and its application to arguments and debates. GE: Quantitative or Formal Reasoning.

PHIL:1861 Introduction to Philosophy 3 s.h.
Varied topics; may include personal identity, existence of God, philosophical skepticism, nature of mind and reality, time travel, and the good life; readings, films. GE: Values, Society, and Diversity.

PHIL:1920 Philosophy in Public 1-3 s.h.
Engagement and service-learning; philosophical concepts are applied to and extracted from internship work in the community and beyond.

PHIL:1950 Philosophy in Current Events, Text, and Film 1-3 s.h.
Relevant philosophical debates as they are exhibited in current events, text, and film; participation through discussions and film screenings.

PHIL:2111 Ancient Philosophy 3 s.h.
Ancient Greek philosophy from Thales to Aristotle; pre-Socratic cosmologists, Socrates, ancient medicine and religion, rivalry between sophists and philosophers; primary focus on reaction of Plato and Aristotle to this intellectual inheritance culminating in their greatest achievement, the invention of systematic philosophy.

PHIL:2214 Seventeenth-Century Philosophy 3 s.h.
Varied topics; may include free will, the mind-body problem, existence of God, relationship between God and creatures, science and religion, stoicism, early feminism; Francis Bacon, Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke.

PHIL:2215 Modern Philosophy 3 s.h.
Varied topics; may include free will, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life; Rene Descartes, Margaret Cavendish, Baruch Spinoza, Anne Conway, G.W. Leibniz, Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

PHIL:2216 Eighteenth-Century Philosophy 3 s.h.
Varied topics; may include appearance versus reality, empiricism and science, the mind-body problem, existence of God, creation versus evolution, subjectivity of perception, limits of cognition, the good life, early feminism; Mary Astell, John Locke, George Berkeley, David Hume, Immanuel Kant.

PHIL:2341 Philosophy in Public Service 3 s.h.
Majors and minors in philosophy who have completed a Philosophy in Public Service course may apply for approval of an internship position. Some philosophy courses are applied to and extracted from internship work in the community and beyond.

PHIL:2343 Philosophy East and West 3 s.h.
A comparative study of Eastern and Western theories and arguments concerning the nature and existence of the self.

PHIL:2402 Introduction to Ethics 3 s.h.
Analytical and historical introduction to ethical theories; issues such as the nature of the goodness, distinction between right and wrong. GE: Values, Society, and Diversity.

PHIL:2415 Bioethics 3 s.h.
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia.

PHIL:2415 Bioethics 3 s.h.
Recent developments in biotechnology and medicine; designer babies and cloning, genetic screening for disease, distributive justice in health care, animal experimentation, physician-assisted suicide, and euthanasia.
PHIL:2429 War, Terrorism, and Torture 3 s.h.
Examination of some of the most compelling ethical and legal questions surrounding the topic of war: Can a war ever be just? If so, under which conditions is one justified in waging war? Are there limitations on permissible ways to fight a war? How are acts of terrorism different from acts of war? Is torture ever justified?

PHIL:2432 Introduction to Political Philosophy 3 s.h.
Survey of central problems in political philosophy; focus on liberty, equality, justice, and purpose of the state; core philosophers may include John Locke, Jean‑Jacques Rousseau, Thomas Hobbes, John Stuart Mill, and John Rawls.

PHIL:2435 Philosophy of Law 3 s.h.
Examination of jurisprudential theories and their answers to the question, “What is law?”; intersection between law and morality, legal punishment, political obligation, constitutional interpretation.

PHIL:2436 The Nature of Evil 3 s.h.
The nature of evil explored through philosophical texts, videos and films, case studies of individuals.

PHIL:2437 Introduction to Metaphysics 3 s.h.
Questions about the ultimate nature of reality and our place in it: What is the nature of space and time? Is time travel possible? What is the self and how does it persist through time and change? What is the nature of causation? Do we have free will?

PHIL:2442 Knowledge and the Threat of Skepticism 3 s.h.
Skeptical doubt and distinction between appearance and reality; nature of knowledge and what, if anything, can we know.

PHIL:2480 Language and Its Social Roles 3 s.h.
Introduction to basic concepts in philosophy of language and speech act theory; social and political uses of language including nature of speech, silencing, oppressive and hate speech, propaganda and dehumanizing language, lying and misleading with language.

PHIL:2534 Philosophy of Religion 3 s.h.
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as RELS:2834.

PHIL:2538 Minds and Machines 3 s.h.
Questions concerning artificial intelligence: What is a mind? What is the relationship between minds and machines? What distinguishes real minds from artificial minds? Could computers or robots think or have feelings? If we create something whose intelligence surpasses that of humans, do we have a right to control it? Are your smart electronic devices parts of your mind? How has the Internet changed our lives? Do we survive, perhaps immortally, if we upload contents of our minds to the Internet or Cloud?

PHIL:2542 Minds and Brains 3 s.h.
Nature of mind in the age of the brain; exploration of questions (How is the mind related to the brain? What do brain scans show? How does the brain process information? What is conscious experience? Is free will threatened by neuroscience? How are intuitive conceptions of memory, emotion, and other mental capacities changing?).

PHIL:2603 Introduction to Symbolic Logic 3 s.h.
Main ideas and techniques of modern natural deduction with quantifiers (all, some, most, exactly one); relations and identity; topics in philosophy of logic including nature of logic, nature of functions, logical necessity, identity as a relation, and how we know logic.

PHIL:3002 Ancient Skepticism 3 s.h.
Introduction to skeptical philosophy of Greek philosopher and physician, Sextus Empiricus (c. 160-210 A.D.); skepticism as a way of life and a form of philosophical therapy, skeptic’s avoidance of dogmatism by suspension of belief, attaining suspension through discovery of opposing arguments on either side of any philosophical problem, skeptic’s attack on ancient theories of ethics and logic, search for a criterion of truth, relation of skepticism to rival contemporary schools of medicine (Empiricists, Rationalists, Methodists); influence of the rediscovery of Sextus’ writings on 17th century thinkers.

PHIL:3112 Medieval Philosophy 3 s.h.
Introduction to St. Thomas Aquinas, William of Ockham, and Duns Scotus, three of the most brilliant philosophers of the high middle ages (11th through 13th centuries); their writing as Christians in (fascinated) reaction to philosophical systems of their pagan predecessors; how medieval philosophers wrestled with problems concerning possibility of free will and responsibility in face of divine omniscience and foreknowledge; existence of abstract universals in a world that is nonabstract and particular; nature and existence of God; skepticism and limits of human knowledge; nature of good and evil. Same as HIST:3412.

PHIL:3143 Existentialism and Freedom 3 s.h.
Main ideas of existentialism, including free will, authenticity, power, nihilism; emphasis on Jean Paul Sartre, Simone de Beauvoir, Friedrich Nietzsche, Martin Heidegger, Soren Kierkegaard, Albert Camus.

PHIL:3318 Twentieth-Century Philosophy 3 s.h.
Exploration of fundamental issues that shaped philosophy in the past century; impact of the theory of evolution on philosophy; whether philosophy is a science; nature of truth and meaning; nature of necessity; nature of space, time, and being; John Dewey, Bertrand Russell, Gottlob Fregé, Ludwig Wittgenstein, W.V.O. Quine, Saul Kripke, David Lewis.

PHIL:3342 Multiculturalism and Toleration 3 s.h.
Evaluation of multiculturalism as a political policy and as a personal attitude of respect; individual and collective identity, gender justice, autonomy, toleration, multiculturalism and education; contested practices.

PHIL:3430 Philosophy of Human Rights 3 s.h.
Examination of the concept of human rights; sources of human rights; how we justify calling some, while not other rights, “human rights”; applied issues in women’s, children’s, and anti-poverty rights.

PHIL:3431 Aesthetics 3 s.h.
Issues regarding art, aesthetic judgment, and role of art in society; investigation of questions: What is art and what is good art? What is conceptual art? Are aesthetic judgments just a matter of taste, or are some opinions about art better than others? What features of artworks matter for making such judgments, and which don’t? Issues pertaining to various arts including painting and sculpture, music, fiction and poetry, performance arts; introduction to artworks and artists.
PHIL:3510 Neuroethics 3 s.h.
Issues that arise from advances in knowledge of brain-mind relations: cognitive neuroenhancement, neuroimaging-based lie detection and privacy, changing standards of moral and legal responsibility, justification of punishment, admissibility of neuroimaging in legal contexts.

PHIL:3604 Introduction to Philosophy of Science 3 s.h.
Examination of basic questions regarding nature of science and scientific knowledge: When is a field of inquiry a science? What counts as evidence in a science, and why? In what sense, if any, is science objective? What are scientific laws, theories, and explanations? If scientific theories are never proven with certainty, are we justified in believing them to be true? Recommendations: background in science (psychology, biology, chemistry, physics).

PHIL:3633 Philosophy of History 3 s.h.
Major problems: objectivity, historiographic methods and theory of interpretation, nature of historical explanations, historical laws and free will, reducibility of group phenomena to individual actions.

PHIL:3845 Buddhist Philosophy 3 s.h.
Theories and arguments concerning the Buddhist path to enlightenment. Same as RELS:3645.

PHIL:3847 Philosophical Issues 3-4 s.h.
A philosophical topic or controversy.

PHIL:3849 Undergraduate Seminar in Philosophy 3 s.h.
Selected problems.

PHIL:3950 Readings in Philosophy arr.
Requirements: honors standing and sophomore or higher standing.

PHIL:4050 Topics in Buddhist Philosophy 3 s.h.
Buddhist theories and arguments concerning nature and existence of the self.

PHIL:4152 Plato 3 s.h.
Introduction to metaphysics, epistemology, and moral theory of Plato; topics may include the philosophy of Socrates, Plato's theory of Forms, the tripartite soul, nature of virtue and moral education; Plato's cosmology and assimilation of human nature to the divine; close reading and interpretation of specific texts.

PHIL:4153 Aristotle 3 s.h.
Introduction to metaphysics, epistemology, and moral theory of Aristotle; topics may include Aristotle's theories of matter and form, causation, motion, change, space, void, time; Aristotle's philosophy of biology and theory of the soul; unity of virtue, nature of action and choice; the syllogism; combines survey with close reading and interpretation of specific texts.

PHIL:4258 Descartes 3 s.h.
Descartes' systematic philosophy and impact on current debates; topics may include skepticism, the confusion of everyday experience, the mind-body problem, innate ideas and empiricism, free will, nature and existence of God, science and religion, problem of evil, stoicism.

PHIL:4260 Spinoza and Leibniz 3 s.h.
Comparative and critical examination of metaphysical and epistemological views of 17th-century rationalists, Baruch Spinoza and G.W. Leibniz; topics may include monism, panpsychism, space and time, free will and necessity, the confusion of everyday experience, incomplete versus complete ideas, nature and existence of God, stoicism, passions and emotions as objects of detached scientific investigation.

PHIL:4263 Berkeley and Hume 3 s.h.
Comparative and critical examination of metaphysical and epistemological views of 18th-century empiricists, George Berkeley and David Hume; topics may include the theory of ideas, perception, skepticism, limits of knowledge, the mind-body problem, scientific and philosophical method, role of God in Berkeley's and Hume's philosophical systems.

PHIL:4266 Kant 3 s.h.
Main ideas and major texts of Kant's metaphysics and epistemology; particular attention given to Critique of Pure Reason.

PHIL:4346 Frege and Russell 3 s.h.
Major issues concerning Frege's revolution in logic, Cantor's taming of the infinite, and Russellian synthesis of these revolutions to form Logicist thesis that all of pure mathematics (including geometry) is a branch of the science of logic; central issues in the philosophy of language and analysis of logical form; Russell's theory of definite descriptions and his logicism as a paradigm for a philosophical solution to mysteries of existence, number, infinite, motion, and Zeno paradoxes.

PHIL:4373 Heidegger 3 s.h.
Main ideas and major texts of Martin Heidegger; early and later periods; particular attention given to Being and Time; focus on Heidegger's analyses of Being and being-in-the-world.

PHIL:4375 Rawls's Political Philosophy 3 s.h.
Major works by John Rawls, selected secondary readings; contractarianism, concept of justice, justice as fairness as an alternative to utilitarianism, Kantian foundations, comprehensive and political liberalism.

PHIL:4377 Wittgenstein 3 s.h.
Main ideas and major texts of Ludwig Wittgenstein; early and later periods; particular attention given to Tractatus, Philosophical Investigations, and development of Wittgenstein's thought.

PHIL:4379 Quine 3 s.h.
Evaluation of Quine's attempt to restructure philosophy so that ontological questions are questions of "what there is" and methods for answering such questions are methods of natural (empirical) sciences; central issues pertaining to Quine's thesis that this naturalization program also applies to physics, mathematics, logic; comparison of Dewey's pragmatist and evolutionary reconstruction in philosophy to that of Quine and others (e.g., Carnap, Russell, Wittgenstein); major themes involving Quine on set theory, modal logic, the a priori; and the thesis that meaning is translation and translation is indeterminate.

PHIL:4480 Analytic Ethics 3 s.h.
Exploration of central meta-ethical questions: Are there objective values, and if there are, can we gain knowledge of what has such value? Should we always act so as to bring about the best consequences? If not, why not? Can we derive moral conclusions from scientifically established facts about the world? If not, does this undermine the idea that we can offer sensible arguments for ethical conclusions?

PHIL:4481 Issues in Philosophy of Law 3 s.h.
Nature of law and legal interpretation; natural law theory and positivism; critical legal theories.
PHIL:4482 History of Ethics 3 s.h.
Thomas Hobbes' 1651 publication, *Leviathan*, set British moral philosophy on a new course, rejecting most of the presuppositions of theistic natural law theory, shocked and outraged many of his contemporaries, and set in motion a debate about the nature of morality that continues today in philosophical ethics; focus on debate between sentimentalists (Francis Hutcheson, David Hume, Adam Smith) who regarded morality as a matter of human attitudes and emotions, and rationalists (Samuel Clarke, Ralph Cudworth, Richard Price) who regarded morality as analogous to mathematics.

PHIL:4485 Political Philosophy 3 s.h.
Political philosophy topics; may include obligation to obey the law, secession, nature of rights, limits of state power, just distribution of property, feminist criticisms.

PHIL:4586 Topics in Metaphysics 3 s.h.
In-depth exploration of metaphysical problems: material constitution, persistence of objects and persons through time, problem of universals, mind-body problem, free will and determinism.

PHIL:4587 Epistemology 3 s.h.
Theories of nature, structure, and extent of knowledge and rational belief; investigation of questions: Do we really know as much as we are inclined to think we do? Can we rule out the possibility that we are dreaming or being systematically deceived right now? And if we can't, what reason do we have for thinking that things are as they seem to us to be?

PHIL:4588 Philosophy of Mind 3 s.h.
Foundational questions about the mind: What is the mind, and how is it related to the brain? What makes minds so special? How do we know if other animals, or even other people, have minds? Can things without brains, such as aliens or computers, think? What is consciousness? Are we mere machines, lacking free will, if neuroscientists can explain the mind?; recent research in related sciences including neuroscience, psychology, cognitive ethology (animal cognition).

PHIL:4589 Philosophy of Language 3 s.h.
Main issues in contemporary philosophy of language; topics may include theories of meaning, truth, belief, interpretation, translation, speech acts, performative rules, following, reference, naming, propositional attitudes, metaphor. Same as LING:4589.

PHIL:4590 Foundations of Cognitive Science 3 s.h.
Cognitive science defined as the study of individual agency; its nature, mechanisms, and patterns; development of cognitive science from historical roots in psychology, computer science, neuroscience, philosophy, linguistics; key issues; motivations for and varieties of cognitive explanations; models of cognitive architecture; nature of information processing; relation between cognitive processes and experimental tasks; relation between cognitive and neural theories, models, explanations.

PHIL:4692 Modal Logic 3 s.h.
Presentation of systems of logic designed to capture concepts of necessity and possibility; different axiom systems, semantics, nonexistent objects; topics include nonclassical systems, nature of possible worlds, relevant entailment, transworld identity, and counterparts inhabiting parallel worlds.

PHIL:4694 Philosophy of Science 3 s.h.
Issues in the nature of science and scientific knowledge considered in greater depth; nature of causation, kinds of relations that might hold between sciences and scientific theories, and varieties of explanation. Requirements: prior course work in philosophy.

PHIL:4696 Philosophy of the Human Sciences 3 s.h.
Explanation and understanding, theorizing about human nature, reducibility of collective facts to facts about individuals, values and ideology, freedom and causality.

PHIL:4798 Topics in Philosophy 3 s.h.
A single philosopher or philosophical problem.

PHIL:6100 Seminar: Ancient Philosophy 3 s.h.

PHIL:6200 Seminar: Modern Philosophy 3 s.h.

PHIL:6300 Seminar: Philosophical Analysis 3 s.h.

PHIL:6400 Seminar: Ethics 3 s.h.

PHIL:6510 Seminar: Metaphysics 3 s.h.

PHIL:6520 Seminar: Epistemology 3 s.h.

PHIL:6540 Seminar: Philosophy of Language 3 s.h.

PHIL:6620 Seminar: Philosophy of Science 3 s.h.

PHIL:6800 Seminar: Philosophy of Religion 3 s.h.

PHIL:6920 Philosophy Colloquium 3 s.h.
Attendance and participation at departmental colloquia and precolloquium meetings; lunch with visiting speakers; weekly meetings to discuss background to topic and larger issues of professionalization.

PHIL:7200 Research: History of Philosophy arr.

PHIL:7400 Research: Value Theory arr.

PHIL:7500 Research: Metaphysics and Epistemology arr.

PHIL:7600 Research: Logic and Philosophy of Science arr.

PHIL:7900 Thesis arr.
Philosophy, B.A.

Undergraduate courses in philosophy are designed to impart knowledge of fundamental issues and main developments in philosophy while strengthening logical and analytic skills. A major in philosophy develops abilities useful for work in many fields and for any situation requiring clear, systematic thinking.

The department sponsors an active Philosophy Club that hosts informal discussion meetings, movie nights, outreach events, a 1 s.h. course, PHIL:1950 Philosophy in Current Events, Text, and Film, and other activities.

Requirements

The Bachelor of Arts with a major in philosophy requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. A minimum of 15 s.h. for the major must be earned at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students should discuss the requirements for the major with an advisor as soon as possible. The advisor can suggest the most effective order for taking courses, based on each student’s interests and on the relation of the course topics to each other.

The major requires 30 s.h. of philosophy courses (prefix PHIL), of which at least two courses must be numbered 4000 or above.

The B.A. with a major in philosophy requires the following course work.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>PHIL:2603</td>
<td>Introduction to Symbolic Logic</td>
<td>3</td>
</tr>
</tbody>
</table>

### Honors in the Major

Students majoring in philosophy have the opportunity to graduate with honors in the major. In order to be admitted to the departmental honors program, a student must have taken and passed three courses required for the philosophy major. To graduate with honors in the major, students must complete the requirements for the major with a g.p.a. of at least 3.40 in philosophy course work and must write an acceptable honors thesis on a significant topic in philosophy of interest to them. Contact the department’s honors advisor for more information.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the fifth semester begins:** at least one course in the major

**Before the seventh semester begins:** at least five courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least six courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Career Advancement

Philosophy graduates have a variety of career options. Many continue their education by studying law or doing graduate work in philosophy or other disciplines. Philosophy graduates also enter into such fields as business, medicine, scientific research, government, consulting, journalism, and K-12 education, among others. Students who intend to teach philosophy in a college setting must earn a graduate degree.

Philosophy majors earn among the very highest scores on the Law School Admission Test (LSAT), the Graduate Management Admission Test (GMAT), the Medical College Admission Test (MCAT), and the Graduate College Record Exam (GRE) General Test.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Philosophy, Minor

The minor in philosophy requires a minimum of 15 s.h. in philosophy courses, including at least 9 s.h. in courses numbered 2000 or above. At least 12 s.h. for the minor must be taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Contact the undergraduate studies director for more information.
Philosophy, M.A.

The Department of Philosophy grants admission only for the Ph.D. program.

Requirements

The Master of Arts in philosophy requires a minimum of 30 s.h. of graduate credit and is offered without thesis. The M.A. is not offered as a terminal degree; it is awarded to students as they work successfully toward the Ph.D.

Requirements include courses in metaphysics, epistemology, history of philosophy, ethics, logic, philosophy of science, and value theory. There is no foreign language requirement. Students must take an oral final examination. Contact the graduate studies director for more information.

Joint M.A./J.D.

The Department of Philosophy and the College of Law offer a joint Juris Doctor/Master of Arts degree program. M.A./J.D. students may count 12 s.h. earned in the joint program toward both degrees. They must earn 18 of the 30 s.h. required for the M.A. in graduate-level philosophy courses (the usual requirement is 24 s.h.). They also must earn a minimum of 36 s.h. in undergraduate and graduate philosophy courses, combined (the usual requirement is 42 s.h.).

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

See "Juris Doctor" and "Joint J.D./Graduate Degrees" in the College of Law [p. 1326] section of the Catalog.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

The graduate program is designed to train teachers and scholars in philosophy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Philosophy, Ph.D.

The Department of Philosophy grants admission only for the Ph.D. program. The M.A. is awarded to students as they work successfully toward the Ph.D.; it is not offered as a terminal degree.

The main areas of study in the graduate curriculum are metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory.

Requirements

The Ph.D. requires a minimum of 72 s.h. of graduate credit. Candidacy for the doctoral program is determined by a formal vote of the entire Department of Philosophy faculty, usually after the student has completed three semesters of graduate study in residence.

Requirements include courses in metaphysics, epistemology, history of philosophy, logic, philosophy of science, and value theory. Students are required to take a comprehensive examination that covers their area of specialization and includes both written and oral components. Upon successfully completing the exam, they begin work on a prospectus for their dissertation. There is no foreign language requirement. Contact the graduate studies director for more information.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

The graduate program is designed to train teachers and scholars in philosophy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Physics and Astronomy

Chair
  • Frederick N. Skiff

Associate Chair
  • Craig E. Pryor

Undergraduate majors: physics (B.A., B.S.); applied physics (B.S.); astronomy (B.A., B.S.)
Undergraduate minors: physics; astronomy
Graduate degrees: M.S. in physics; M.S. in astronomy; Ph.D. in physics (optional subprogram in astronomy)
Faculty: https://physics.uiowa.edu/people
Website: https://physics.uiowa.edu/

The Department of Physics and Astronomy provides comprehensive and rigorous instruction in all basic aspects of its subjects. It also provides research facilities and guidance in selected specialties for advanced individual scholarly work.

In addition to its undergraduate and graduate programs of study, the department offers several courses that undergraduate students in all majors may use to satisfy the General Education Program Natural Sciences requirement. Look for courses with prefixes ASTR and PHYS under "Natural Sciences" in the General Education Program [p. 437] section of the Catalog. The department also offers a First-Year Seminar designed for entering undergraduates.

The department also participates in an interdisciplinary doctoral program, the Program in Applied Mathematical and Computational Sciences [p. 1267] (Graduate College).

All of the department's courses and advanced laboratories are taught by faculty members. Faculty members also supervise associated laboratories taught by graduate students.

Enrollment in courses beyond the elementary level is typically 15 to 20 students; there is ample opportunity for individual work. Special introductory courses are offered for students majoring in physics and astronomy and for others with a special interest in these subjects.

Total enrollment in physics and astronomy courses is approximately 2,200 each semester of the academic year and 150 during the summer session. The department has around 120 undergraduate majors, half of whom are honors students, and 75 graduate students.

Programs

Undergraduate Programs of Study

Majors
  • Major in Physics (Bachelor of Arts) [p. 718]
  • Major in Astronomy (Bachelor of Arts) [p. 721]
  • Major in Physics (Bachelor of Science) [p. 723]
  • Major in Applied Physics (Bachelor of Science) [p. 726]
  • Major in Astronomy (Bachelor of Science) [p. 728]

Minors
  • Minor in Physics [p. 730]
  • Minor in Astronomy [p. 731]

Graduate Programs of Study

Majors
  • Master of Science in Physics [p. 732]
  • Master of Science in Astronomy [p. 733]
  • Doctor of Philosophy in Physics [p. 734] (with optional subprogram in astronomy)

Facilities

The department has a number of well-equipped laboratories and observatories. Faculty, students, and staff access national supercomputers via the Internet, and have access to high performance computing clusters on campus. The central machine shop is fully equipped and staffed by skilled instrument makers and machinists, and there are electronics and machine shops for use by advanced students and research staff.

Experimental research is conducted in astronomy (optical, radio, and X-ray), atomic and molecular physics, condensed matter physics, elementary particle physics, laser physics, medical physics, plasma physics, and space physics. Extensive facilities are available for construction of specialized research equipment and for data processing and analysis.

State-of-the-art semiconductor materials and devices are grown in two molecular beam epitaxy machines. Ultrafast laser techniques are developed and used to probe electron transport, energy relaxation, recombination, and spin dynamics in the novel nanostructures grown in these machines. Experiments also are conducted on laser-induced coherent phenomena and coherent control of charge carriers in semiconductor nanostructures. The experimental condensed matter program is closely coordinated with the condensed matter theory group.

Plasma physics is an active area of experimental and theoretical research. Laboratory experiments studying plasma processes of importance in various space and astrophysical plasmas are performed in a Q machine, including experiments on waves and instabilities in dusty plasmas. Additional laboratory and microgravity experiments with dusty plasmas include studies of Coulomb crystals, shocks, and complex fluids. Glow discharges for plasma processing applications are studied using laser diagnostics and numerical simulations. Wave propagation and plasma particle dynamics also are studied in collisionless plasmas through laboratory experiments. Laser techniques are developed for measuring plasma flow and following particle orbits. Plasma theory efforts include analytical and numerical investigations of magnetic reconnection and turbulence in space and astrophysical plasmas; collaboration with laboratory and space plasma experimental groups in strongly coupled dusty plasmas, waves, and instabilities; and free electron lasers and hydrodynamic turbulence.

State-of-the-art laser systems are available for high-resolution spectroscopic measurement and ultrafast studies of molecular structure, for collisional relaxation and nonlinear optical effects in atomic and molecular systems, and for plasma diagnostics.

Experimental research in elementary particle physics is carried out at Fermi National Accelerator Laboratory, Stanford Linear Accelerator Center, CERN in Switzerland, and other international laboratories. The present generation of high-
energy experiments has been designed to probe both the strong nuclear force and the weak interactions.

The department is well-equipped for research and instruction in observational astronomy. The primary optical instrument is a fully automated 15-inch telescope at a dark-sky site in Arizona. The telescope is equipped with CCD cameras and a variety of filters. There are 3-meter and 4.5-meter radio telescopes on the roof of Van Allen Hall, which are used for instruction and student research projects.

Research programs in galactic and extragalactic radio astronomy are carried out using the facilities of the National Radio Astronomy Observatory, including the Very Large Array and the Very Long Baseline Array, one element of which is 10 miles north of campus. Current long-term research activities include studies of the center of the Milky Way galaxy; investigations of extragalactic radio sources; the formation of powerful winds in young, luminous stars; radio-wave scattering in the interstellar and interplanetary media; and interacting binary stars. A research program in X-ray astronomy has been established, and there is a laboratory for instrument development. Research topics in X-ray astronomy concentrate on observations of X-ray emission from black holes and supernova remnants, using existing spacecraft.

Active theoretical research is carried on in astrophysics; atomic, molecular, and optical physics; condensed matter physics; elementary particle physics; laser physics; mathematical physics; nuclear physics; plasma physics; and space physics. An active mathematical physics seminar fosters the exchange of ideas between mathematics and physics.

The primary emphasis of Iowa's program in experimental and theoretical space physics is on studies of cosmic and heliospheric physics, magnetospheric physics, and magnetosphere-ionosphere interactions. Facilities are available for designing and constructing spacecraft instruments. Investigators in the department have flown instruments for studying plasmas, energetic charged particles, auroral images, plasma waves, and radio emissions on a wide variety of terrestrial and planetary spacecraft, including Pioneer 10 and 11, Dynamics Explorer, Voyager 1 and 2, Galileo, Polar, Cassini, and Mars Express.

**Physics Courses**

**PHYS:1000 First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**PHYS:1100 From Quarks to Quasars** 3-4 s.h.
Conceptual explanation of the latest discoveries in physics--from the smallest objects, such as quarks and atoms, to the largest, such as galaxies, black holes, and quasars. Requirements: nonscience major. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1200 Physics of Everyday Experience** 3 s.h.
Principles of physics for nonscience majors; basic motion, behavior of fluids, waves, temperature and heat, gravity and planetary motion, electricity and magnetism, optics, nuclear energy, radioactivity, and medical imaging technology; examples from everyday experience. GE: Natural Sciences without Lab.

**PHYS:1300 Nanoscience** 3 s.h.
Properties of very small materials and structures; unique properties emerging at a length scale of one billionth of a meter, or one nanometer. GE: Natural Sciences without Lab.

**PHYS:1400 Basic Physics** 3-4 s.h.
Quantitative treatment of mechanics, electricity, heat, liquids, gases, and atomic, nuclear, and elementary particle physics. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1410 Physics of Sound** 3-4 s.h.
Acoustical foundations of music; production of sound by vibrating objects, properties of sound waves, vocal acoustics, hearing, room acoustics, principles of electroacoustics. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1511 College Physics I** 4 s.h.
Mechanics, waves, thermodynamics, special relativity. Requirements: must have completed high school trigonometry or achieved a minimum ALEKS score of 75%. GE: Natural Sciences with Lab.

**PHYS:1512 College Physics II** 4 s.h.
Continuation of PHYS:1511; electricity, magnetism, light, modern physics. Prerequisites: PHYS:1611 or PHYS:1511. GE: Natural Sciences with Lab.

**PHYS:1611 Introductory Physics I** 4 s.h.

**PHYS:1612 Introductory Physics II** 3-4 s.h.
Continuation of PHYS:1611; electricity, magnetism, light. Prerequisites: PHYS:1611. Corequisites: MATH:1560 or MATH:1860. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**PHYS:1619 Introductory Physics II Lab** 1 s.h.
Laboratory for PHYS:1612. Requirements: 3 s.h. in PHYS:1612. GE: Natural Sciences Lab only.

**PHYS:1701 Physics I** 4 s.h.
Newtonian mechanics for point particles and rigid bodies; conservation laws. Offered fall semesters. Corequisites: MATH:1850. Requirements: physics or astronomy major. GE: Natural Sciences with Lab.

**PHYS:1702 Physics II** 4 s.h.

**PHYS:1999 Undergraduate Seminar** arr.
Selected topics in physics and astronomy; discussion, presentations.

**PHYS:2703 Physics III** 4 s.h.
Continuation of PHYS:1702; electromagnetic waves, optics; mechanical and sound waves; thermal physics. Offered fall semesters. Prerequisites: PHYS:1702.

**PHYS:2704 Physics IV** 3-4 s.h.
Introduction to quantum mechanics and other topics in modern physics, including special relativity, atomic and solid state physics. Offered spring semesters. Prerequisites: PHYS:1612 or PHYS:2703) and (MATH:1860 or MATH:1550). Requirements: for 3 s.h. option -- nonmajor.

**PHYS:2990 Reading in Physics** arr.
Selected topics in physics.
**PHYS:3710 Intermediate Mechanics** 3 s.h.
Newtonian mechanics; noninertial reference systems; central forces, celestial mechanics; rigid body motion; Lagrangian, Hamiltonian equations of motion; small oscillations.
Prerequisites: (PHYS:1611 or PHYS:1511 or PHYS:1701) and (MATH:1860 or MATH:1560).

**PHYS:3730 Statistical Physics** 3 s.h.
Integrated introduction to subjects of thermodynamics, statistical mechanics, kinetic theory; emphasis on applications.
Prerequisites: PHYS:2704.

**PHYS:3741 Introduction to Quantum Mechanics I** 3 s.h.
Superposition principle, Stern-Gerlach experiment, linear operators, measurement theory, time evolution, angular momentum, wave mechanics in one dimension, one-dimensional harmonic oscillator, two-body problems with central forces, the hydrogen atom.
Prerequisites: MATH:2850 and PHYS:2704 and MATH:2700.

**PHYS:3742 Introduction to Quantum Mechanics II** 3 s.h.
Perturbation theory, variational methods, WKB approximation, scattering, Helium atom, periodic table, atomic spectroscopy, transition rates, other selected applications.
Prerequisites: PHYS:3741.

**PHYS:3750 Fundamentals of Micro and Nanofabrication** 3 s.h.
Fundamentals of micro- and nano-fabrication processes; physical principles of photo and electron beam lithography, alternative nano-lithography techniques, thin film deposition, molecular beam epitaxy, atomic layer deposition, self-assembly; metrology methods; physical and chemical processes of wet and plasma etching; cleanroom science, operations, safety protocols; sequential micro- and nano-fabrication processes involved in manufacture of semiconductor, photonic, nanoscale devices; imaging and characterization of micro- and nano-structures; scientific and technological applications of emerging micro- and nano-devices and systems.
Prerequisites: BIOL:1141 or CHEM:1120 or PHYS:1612 or CHEM:1110 or CHEM:1060 or PHYS:1702 or PHYS:1611. Requirements: undergraduate lab course in chemistry, biology, physics, or engineering. Same as OSTC:3750.

**PHYS:3756 Intermediate Laboratory** 3 s.h.
Electricity; electronics; magnetism; optics; atomic, nuclear, solid state physics; techniques in data analysis, including error analysis.
Corequisites: PHYS:3811.

**PHYS:3811 Electricity and Magnetism I** 3 s.h.
Electrostatics, magnetic fields, introduction to Maxwell's equations. Prerequisites: (MATH:3550 or MATH:2850) and (PHYS:1612 or PHYS:1702 or PHYS:1512).

**PHYS:3812 Electricity and Magnetism II** 3 s.h.
Continuation of PHYS:3811; magnetism, electromagnetic waves, A.C. circuits, applications of Maxwell's equations to wave guides, antennas, optics, plasma physics, other topics.
Prerequisites: PHYS:3811.

**PHYS:3850 Electronics** 4 s.h.
Design and construction of small circuits; use of measurement instruments--oscilloscope, multimeter, function generator; circuits, including transistors, operational amplifiers, digital, analog-to-digital conversion. Prerequisites: PHYS:1512 or PHYS:1612 or PHYS:1702. Requirements: physics or astronomy major.

**PHYS:4720 Introductory Optics** 3 s.h.
Geometrical and physical optics; interference; diffraction; polarization; microscopic origins of macroscopic optical properties of matter; optical activity; electro-optical, magneto-optical, acousto-optical phenomena; spontaneous Brillouin, Raman, Rayleigh scattering.
Prerequisites: (PHYS:1512 or PHYS:2703 or PHYS:1612) and (MATH:1560 or MATH:1860). Same as ECE:4720.

**PHYS:4726 Electro Optics** 3 s.h.
Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise: application to communication systems.

**PHYS:4728 Introductory Solid State Physics** 3 s.h.
Phenomena associated with solid state: classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids.
Prerequisites: PHYS:3741. Same as ECE:4728.

**PHYS:4731 Plasma Physics I** 3 s.h.
Physics of ionized gases, including orbit theory, guiding center motion, adiabatic invariants, ionization balance description of plasmas by fluid variables and distribution functions; linearized wave motions, instabilities; magnetohydrodynamics.
Prerequisites: PHYS:3812.

**PHYS:4740 Elementary Particles and Nuclear Physics** 3 s.h.
Accelerators, particle detectors, passage of radiation through matter; nuclear structure, nuclear reactions; quark model of hadrons; strong, electromagnetic, weak interactions of elementary particles; gauge theories, intermediate vector bosons; unification of electromagnetic and weak interactions.
Prerequisites: PHYS:3741.

**PHYS:4750 Advanced Laboratory** 3 s.h.
Topics in electricity; electronics; magnetism; atomic, nuclear, plasma, solid state physics; techniques in data analysis, including error analysis.

**PHYS:4761 Mathematical Methods of Physics I** 3 s.h.
Functions of complex variables, integration methods, linear vector spaces, tensors, matrix algebra.
Prerequisites: MATH:2850.

**PHYS:4762 Mathematical Methods of Physics II** 3 s.h.
Continuation of PHYS:4761; Hilbert space, special functions, Fourier transform and expansions in orthogonal polynomials, differential equations, Green's functions.
Prerequisites: PHYS:4761.

**PHYS:4820 Optical Signal Processing** 3 s.h.
Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing.

**PHYS:4860 Computational Physics** 3 s.h.
Introduction to contemporary use of computers by physicists; topics such as numerical solutions of ordinary differential equations in classical mechanics, boundary value problems in electricity and magnetism, eigenvalue problems in quantum mechanics, Monte Carlo simulations in statistical mechanics, methods of data analysis.
Prerequisites: PHYS:3741 and PHYS:3811 and PHYS:3710.
PHYS:4905 Special Topics in Physics arr.

PHYS:4990 Reading in Physics arr.
Selected topics in physics.

PHYS:4999 Undergraduate Research arr.
Supervised research leading to written report or oral presentation.

PHYS:5000 Workshops and Special Training in Physics arr.
Workshops and special training opportunities for postbaccalaureate students; may include collaborations with other departments, institutions, or externally funded research organizations.

PHYS:5710 Classical Mechanics 3 s.h.
Dynamics of mass points; Lagrange multipliers, small oscillations, Hamilton's equations; canonical transformations, Hamilton-Jacobi theory; chaos. Prerequisites: PHYS:3710.

PHYS:5729 Fluid Mechanics 3 s.h.
Basic equations of fluid mechanics and solutions of these equations for various cases of special interest; compressible and incompressible flows in two- and three-dimensions, rotational and irrotational flows, self-similar solutions, instabilities, turbulence; relate solutions to application of general interest to physicist and engineers; subsonic and supersonic flows around wings and bodies, gravity waves in oceans and atmospheres, transition to supersonic flow in a rocket nozzle, supersonic outflow of gas from the Sun and other stars, and physics of high energy explosions. Prerequisites: PHYS:3710. Requirements: knowledge of vector calculus at level used in PHYS:3811 and PHYS:3812.

PHYS:5730 Statistical Mechanics I 3 s.h.
Probability concepts; kinetic equations; classical and quantum equilibrium statistical mechanics with applications, including ideal and imperfect gases and phase transitions, irreversible processes, fluctuation-dissipation theorems. Prerequisites: PHYS:3730 and PHYS:3740.

PHYS:5741 Quantum Mechanics I 3 s.h.
Nonrelativistic quantum mechanics, Schrödinger wave mechanics, Hilbert space methods, perturbation theory, scattering, spin and angular momentum, identical particles, selected applications, introduction to relativistic theory. Prerequisites: PHYS:3741 and PHYS:3742.

PHYS:5742 Quantum Mechanics II 3 s.h.
Continuation of PHYS:5741. Prerequisites: PHYS:5741.

PHYS:5811 Classical Electrodynamics I 3 s.h.
Advanced electromagnetostatics, boundary value problems, Green's functions, Maxwell's equations, radiation theory, physical optics, multipole expansion of radiation field.

PHYS:5812 Classical Electrodynamics II 3 s.h.
Special relativity, motion of charges in fields, theories of radiation reaction, special topics. Prerequisites: PHYS:5811.

PHYS:6710 Nonlinear Dynamics 3 s.h.
Deterministic approach of turbulence and chaotic dynamical systems; qualitative theory of ordinary differential equations, perturbation in classical mechanics, ergodicity, bifurcation, universal properties of discrete maps, intermittency, fractals, quantitative characterizations of chaos.

PHYS:6720 Nonlinear Optics 3 s.h.

PHYS:6726 Laser Principles 3 s.h.

PHYS:6822 Topics in Quantum Electronics arr.
Quantum optics, optical properties of matter, laser science, photonics.

PHYS:7270 Ethics in Physics for Graduate Students arr.
Responsible conduct and ethics training.

PHYS:7279 Plasma Physics II 3 s.h.
Continuation of PHYS:7471; cold plasma waves, MHD stability, kinetic theory of plasmas, including Landau damping and velocity space instabilities; nonlinear evolution. Prerequisites: PHYS:4731.

PHYS:7730 Advanced Plasma Physics I 3 s.h.
Microscopic plasma behavior: statistical mechanics of plasmas; Liouville equation; BBGKY hierarchy; Fokker-Planck equation and relaxation processes; Balescu-Lenard equation; Vlasov equation and linearized wave motion; shocks, nonlinear plasma motions, and instabilities; fluctuations and radiation processes; topics from recent literature. Prerequisites: PHYS:4731.

PHYS:7740 Introduction to Quantum Field Theory 3 s.h.
Quantization of relativistic and nonrelativistic field theories, covariant perturbation theory, theory of renormalization, dimensional regularization, renormalization group theory, introduction to gauge theories and anomalies. Prerequisites: PHYS:5742.

PHYS:7745 Special Topics in Quantum Mechanics arr.
Current topics in quantum mechanics, such as string theory, relativistic quantum mechanics, quantum gravity, axiomatic quantum field theory.

PHYS:7746 Particle Physics 3 s.h.
Elementary particle properties and phenomenology, quark-parton models, quantum chromodynamics, unified theory of weak and electromagnetic interactions.

PHYS:7760 General Relativity and Cosmology 2-3 s.h.
Einstein's theory of gravitation; applications to astrophysics and cosmology.

PHYS:7820 Theoretical Solid State Physics I 3 s.h.
Central principles of the quantum theory of solids; lattice dynamics, electronic structure, optical properties, superconductivity, magnetism; emphasis on viewpoint of elementary excitations. Prerequisites: PHYS:4728 and PHYS:5742.
Astronomy Courses

ASTR:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ASTR:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Fundamental questions (How old is the universe? What is the nature of life? How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (i.e., astronomy, physics, geoscience, biology, chemistry, anthropology); work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, effective written and oral communication; origin of the universe, biochemistry of life, and origin of life on Earth; first of a two-part sequence. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as BIOL:1060, EES:1060.

ASTR:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe 4 s.h.
How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe? These fundamental questions revolve around understanding the origins of life from different perspectives—astronomy and physics, geoscience, biology, chemistry, and anthropology; students will work together with faculty from across four different departments to investigate these questions using inquiry-based activities to build success in critical thinking, teamwork, and effective written and oral communication; second half of the origins sequence (though either course also may be taken alone). GE: Natural Sciences with Lab. Same as ANTH:1061, BIOL:1061, EES:1061.

ASTR:1070 Stars, Galaxies, and the Universe 3-4 s.h.
Survey of stars, galaxies, and the universe; life cycles of stars, including black holes and pulsars; diversity of galaxies, including the Milky Way and distant quasars; cosmology—the history, structure, and fate of the universe; current results from recent astronomical observations; night sky observation. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences with Lab; Natural Sciences without Lab.

ASTR:1079 Introductory Astronomy Laboratory 1 s.h.
Laboratory for ASTR:1070 or ASTR:1080. GE: Natural Sciences Lab only.

ASTR:1080 Exploration of the Solar System 3-4 s.h.
Survey of the solar system; physical properties of the planets, comets, and asteroids; origin of the solar system; search for extrasolar planetary systems; search for life in the universe; current results of recent planetary space missions; night sky observation. Recommendations: closed to physics and astronomy majors. GE: Natural Sciences without Lab.

ASTR:1090 Life in the Universe 3 s.h.
Are we alone? Scientific foundations of this question, technology behind searches for extraterrestrial life in the solar system and on extrasolar planets; evolution of life on Earth, likelihood that such conditions exist elsewhere in the universe; cultural consequences of discovering extraterrestrial life. GE: Natural Sciences without Lab.

ASTR:1771 General Astronomy I 4 s.h.
Qualitative and quantitative introduction to the development of astronomy, celestial mechanics, time, electromagnetic radiation, telescopes and astronomical instrumentation, planets, smaller solar system objects; laboratory emphasis on observation with telescopes. Requirements: four years of high school math. GE: Natural Sciences with Lab.

ASTR:1772 General Astronomy II 4 s.h.
Continuation of ASTR:1771; qualitative and quantitative introduction to properties and evolution of sun, stars, interstellar matter, galaxies; cosmology; laboratory emphasis on observation with telescopes. Requirements: four years of high school math. GE: Natural Sciences with Lab.

ASTR:2991 Reading in Astronomy 1 s.h.
Selected topics in astronomy.

ASTR:3771 Introduction to Astrophysics I 3 s.h.
Fundamentals of astrophysical processes in solar system objects, stars, nebulae, interstellar medium, galaxies, cosmology; topics include stellar spectra, binary stars, interstellar gas and dust, stellar and galactic kinematics, stellar evolution, HI regions, radiation processes in galaxies and quasars, mathematical descriptions of the universe. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771 and (MATH:2850 or MATH:3550) and (MATH:2700 or MATH:2550). Recommendations: computer programming experience.

ASTR:3772 Introduction to Astrophysics II 3 s.h.
Continuation of ASTR:3771. Prerequisites: ASTR:3771.

ASTR:4770 Radio Astronomy 3 s.h.
Survey of radio astronomy, emphasizing technical aspects; radiation, antennas, receivers, radio spectroscopy, interferometer arrays and aperture synthesis; emission mechanisms, pulsars, supernova remnants, radio galaxies.

ASTR:4850 Astronomical Laboratory 3 s.h.
Techniques and instrumentation in optical and radio astronomy. Prerequisites: PHYS:2704 and ASTR:1772 and ASTR:1771.

ASTR:4906 Special Topics in Astronomy arr.
ASTR:4996 Reading in Astronomy arr.

ASTR:6781 Galactic Astronomy 3 s.h.
Structure of the Milky Way galaxy; distance indicators, orbits in the galaxy, spiral structure; evidence for dark matter in the Milky Way, the galactic center; comparison of Milky Way with nearby galaxies.

ASTR:6782 Extragalactic Astronomy 3 s.h.
Normal and active galaxies, large scale structure, the early Universe, cosmology.

ASTR:6785 The Interstellar Medium 3 s.h.
The interstellar medium: optical properties of small interstellar grains, radiative processes in interstellar gas, structure of HII regions, interstellar shock waves, supernova remnants, modification of interstellar medium by luminous stars, molecular clouds.

ASTR:6790 Stellar Astrophysics 3 s.h.
Stellar interiors, nuclear astrophysics; advanced topics.

ASTR:6870 Radiative Processes in Astrophysics 3 s.h.
Physical mechanisms for generation of electromagnetic radiation in astrophysics; continuum mechanisms (bremsstrahlung, Compton scattering, synchrotron radiation); spectral line radiation from atoms, molecules, and nuclei, including fine structure effects; fundamental physics of processes; application to astronomical observations.

ASTR:6880 High Energy Astrophysics 3 s.h.
Detection of X-rays and gamma-rays, analysis of X-ray data, black holes and neutron stars, accretion onto compact objects, pulsars, supernova remnants, cosmic rays, gamma-ray bursts.

ASTR:7775 Special Topics in Astrophysics 1-3 s.h.
Advanced lectures.

ASTR:7830 Space and Astrophysical Plasma Physics 3 s.h.
Dynamics and evolution of space and astrophysical plasmas; heliosphere, planetary magnetospheres, accretion disks; plasma waves, shock waves, turbulence.

ASTR:7970 Seminar: Astrophysics arr.
Current research.

ASTR:7991 Research: Astronomy arr.
Original research in observational, theoretical astronomy.
Physics, B.A.

Requirements

The Bachelor of Arts with a major in physics requires a minimum of 120 s.h., including at least 45 s.h. of work for the major (minimum of 24 s.h. in physics plus 20 s.h. in supporting course work). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437). The major is designed for students who wish to build a foundation of knowledge in physics but do not plan a research-oriented career in the discipline. It also is good preparation for students interested in secondary school science teaching; see "B.A. with Teacher Licensure" below.

The B.A. program requires fewer physics courses than the B.S. program does, giving students a wider choice of electives. Bachelor of Arts students take calculus in addition to physics courses, which include a laboratory. They also take science courses in a thematic area or the physics course work required for teacher licensure, and the department encourages them to do additional work.

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see "B.A.: Double Major in Physics and Astronomy" below. Bachelor of Arts students majoring in physics who are interested in science teaching and in earning a graduate degree may enroll in a joint degree program offered by the College of Liberal Arts and Sciences and the College of Education; see "Joint B.A./M.A.T. with Science Education Subprogram" below.

The B.A. with a major in physics requires the following courses or their equivalents; many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

Physics Courses

One of these sequences:

| PHYS:1611-1612 | Introductory Physics I-II | 8 |
| PHYS:1701 & PHYS:1702 & PHYS:2703 | Physics I-II - Physics III (strongly preferred) | 12 |
| All of these: | | |
| PHYS:2704 | Physics IV | 4 |
| PHYS:3756 | Intermediate Laboratory | 3 |
| Three additional physics courses numbered 3000-4999 approved by the advisor, excluding PHYS:4761, PHYS:4762, PHYS:4905, and PHYS:4990 | 9-10 |

Supporting Course Work

This sequence:

| MATH:1850 & MATH:1860 | Calculus I-II | 8 |
| One of these: | | |

Additional science courses in a thematic area, approved by the advisor

Course work required for teacher licensure

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

B.A.: Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See "Requirements for a Bachelor's Degree" in the College of Liberal Arts and Sciences Academic Policies Handbook.

B.A. with Teacher Licensure

Physics majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Bachelor of Science in Science Education (p. 1121) in the Teaching and Learning section of the Catalog.

Joint B.A./M.A.T. with Science Education Subprogram

Bachelor of Arts students in physics who are interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Joint B.A./M.A.T.: Science Education" in the Master of Arts in Teaching [p. 1130] (College of Education)
Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: calculus II and physics II

Before the fifth semester begins: physics III-IV and up to four more courses in the major

Before the seventh semester begins: two to four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2 Students may use their elective courses to complete a double major, minors, or certificates.
Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

**Career Advancement**

Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The B.A. degree leads to careers in medicine, law, science-related administration, business, or technical writing. It also is good preparation for students interested in secondary school science teaching.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Astronomy, B.A.

Requirements

The Bachelor of Arts with a major in astronomy requires a minimum of 120 s.h., including at least 49 s.h. of work for the major. The B.A. program requires fewer physics and mathematics courses than the B.S. program does, giving students a wider choice of electives.

The program is designed for students who wish to build considerable knowledge in astronomy but do not plan a research-oriented career in the field. It is appropriate for students planning careers in secondary school science teaching or science-related administration; see Science Education in the Department of Teaching and Learning (p. 1101) (College of Education) in the Catalog. It also is appropriate for those planning to earn professional degrees.

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see "B.A.: Double Major in Physics and Astronomy" below.

Bachelor of Arts students take calculus in addition to physics and astronomy courses, which include laboratories. Students also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The B.A. with a major in astronomy requires the following courses or their equivalents.

One of these sequences:

PHYS:1611-1612 Introductory Physics I-II 8
PHYS:1701 & PHYS:1702 & PHYS:2703 Physics I-II - Physics III (strongly preferred) 12

All of these:

ASTR:1771-1772 General Astronomy I-II 8
ASTR:3771-3772 Introduction to Astrophysics I-II 6
ASTR:4850 Astronomical Laboratory 3
PHYS:2704 Physics IV 4
PHYS:3710 Intermediate Mechanics 3
PHYS:3756 Intermediate Laboratory 3
MATH:1850 & MATH:1860 Calculus I-II 8

One of these:

PHYS:3730 Statistical Physics 3
PHYS:4720 Introductory Optics 3

One of these:

PHYS:3811 Electricity and Magnetism I (requires MATH:2850 as prerequisite) 3
PHYS:3850 Electronics 4

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

B.A.: Double Major in Physics and Astronomy

Students working toward a Bachelor of Arts with a double major in physics and astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See "Requirements for a Bachelor's Degree" in the College of Liberal Arts and Sciences Academic Policies Handbook.

Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: math through calculus I-II and physics I-II

Before the fifth semester begins: physics III-IV and at least one more course in the major

Before the seventh semester begins: three more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: nine courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting. Some graduates plan for careers in secondary
school science teaching or science-related administration or plan to earn professional degrees. About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country. The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Physics, B.S.

Requirements

The Bachelor of Science with a major in physics requires a minimum of 120 s.h., including at least 58 s.h. of work for the major (minimum of 42 s.h. in physics plus 16 s.h. in supporting course work). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

Students take calculus and linear algebra in addition to physics courses, which include laboratories, and the department encourages them to do additional work.

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see "B.S.: Double Major in Physics and Astronomy" below.

The B.S. with a major in physics requires the following courses or their equivalents. Many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

<table>
<thead>
<tr>
<th>Mathematics Courses</th>
<th>16</th>

</thead>
<tbody>
<tr>
<td>Laboratories</td>
<td>6-7</td>
</tr>
<tr>
<td>Other Required Courses</td>
<td>36-41</td>
</tr>
<tr>
<td>Total Hours</td>
<td>58-64</td>
</tr>
</tbody>
</table>

Mathematics

All of these:
- MATH:1850 & Calculus I-II 8
- MATH:1860
- MATH:2700 Introduction to Linear Algebra 4
- MATH:2850 Calculus III 4

Laboratories

Students who choose PHYS:3850 Electronics as one of their two required laboratory courses are advised to take it before they take PHYS:3756 Intermediate Laboratory.

This course:
- PHYS:3756 Intermediate Laboratory 3

One of these:
- PHYS:3850 Electronics 4
- PHYS:4750 Advanced Laboratory 3
- ASTR:4850 Astronomical Laboratory 3

Other Required Courses

One of these sequences:
- PHYS:1611 Introductory Physics I-II 8
- PHYS:1612
- PHYS:1701 & Physics I-II - Physics III (strongly preferred) 12
- PHYS:1702 &
- PHYS:2703
- PHYS:2704 Physics IV 4
- PHYS:3710 Intermediate Mechanics 3
- PHYS:3730 Statistical Physics 3
- PHYS:3741 Introduction to Quantum Mechanics I-II 6

Two of these:
- PHYS:3811-3812 Electricity and Magnetism I-II 6
- PHYS:3850 Electronics (may not be repeated) 4
- PHYS:4720 Introductory Optics 3
- PHYS:4726 Electro Optics 3
- PHYS:4728 Introductory Solid State Physics 3
- PHYS:4731 Plasma Physics I 3
- PHYS:4740 Elementary Particles and Nuclear Physics 3
- PHYS:4750 Advanced Laboratory 3
- PHYS:4761 Mathematical Methods of Physics I 3
- PHYS:4762 Mathematical Methods of Physics II 3
- PHYS:4820 Optical Signal Processing 3
- PHYS:4860 Computational Physics 3
- ASTR:3771 Introduction to Astrophysics I 3
- ASTR:3772 Introduction to Astrophysics II 3
- ASTR:4770 Radio Astronomy 3
- ASTR:4850 Astronomical Laboratory 3

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, including further work in mathematics. In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students earning a B.S. with a double major in physics and astronomy may count more than 56 s.h. earned in the Department of Physics and Astronomy to the 120 s.h. required for graduation, but they must earn at least 56 s.h. in course work outside the department in order to graduate.

B.S. with Teacher Licensure

Physics majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See Bachelor of Science in Science Education (p. 1121) in the Teaching and Learning section of the Catalog.
B.S.: Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See “Requirements for a Bachelor's Degree” in the College of Liberal Arts and Sciences Academic Policies Handbook.

Honors in the Major

Students majoring in physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.3. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research. During their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

Academic Plans

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 437].

2. Enrollment in chemistry and math courses require completion of placement exams.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

The B.S. with a major in physics provides preparation for careers in industry, employment in research laboratories, and graduate study in physics and related sciences. About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Applied Physics, B.S.

Requirements

The Bachelor of Science with a major in applied physics requires a minimum of 120 s.h., including at least 59-83 s.h. of work for the major. Total credit required for the major depends on the student’s choice of concentration. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

The major in applied physics is intended primarily for students interested in a broad program of study in physics combined with a significant concentration of courses in a field that has immediate application to industry. The degree provides a foundation for a wide range of employment opportunities in high-technology industries, including research and development, product design and testing, sales, and quality control. It also is designed to include exposure to physics sufficient to allow students to continue with graduate studies in either physics or astronomy.

The major offers four areas of concentration: optics, solid-state electronics, computer science, and medical physics. Students also may design customized concentration areas in close consultation with their advisors and with departmental approval.

An essential component of each concentration is successful completion of a related one-semester internship or practicum experience in a research laboratory (an applied physics thesis is required for the latter option). Well-prepared students will be able to complete the degree in four years. Students should work closely with their advisors on a graduation plan.

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see “B.S.: Double Major in Physics and Astronomy” below.

All applied physics students complete a common set of courses that includes calculus, linear algebra, physics, and an experiential learning course. They also complete the courses required for their chosen concentration. The department encourages them to take additional course work; advisors can suggest electives that will enrich programs and help students prepare for graduate work.

The B.S. with a major in applied physics requires the following courses. Many upper-level physics courses have prerequisites; students should consult their advisors when choosing courses numbered 3000 or above.

<table>
<thead>
<tr>
<th>Common Requirements</th>
<th>37-41</th>

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: calculus II and physics II
Before the fifth semester begins: physics III-IV, introduction to linear algebra, calculus III, one more course in the major, and up to four courses in another science or engineering department
Before the seventh semester begins: two to four more courses in the major, up to three other science or engineering courses, and at least 90 s.h. earned toward the degree
Before the eighth semester begins: two or three more courses in the major or other science or engineering courses and all or part of an academic year research experience or a summer research experience or internship as approved by the applied physics coordinator
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

Honors in the Major

Students majoring in applied physics have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written report of their research (honors thesis) and describe their research results at a departmental seminar.
Astronomy, B.S.

Requirements

The Bachelor of Science with a major in astronomy requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. The program provides balanced and integrated course work in astronomy, mathematics, and physics that prepares students for advanced study in astronomy or astrophysics. It also serves as an interesting choice of major for a liberal arts education.

Students who wish to earn a double major in physics and astronomy must choose their course work carefully; see “B.S.: Double Major in Physics and Astronomy” below.

Bachelor of Science students take calculus and linear algebra in addition to physics and astronomy courses, which include laboratories. Students also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The B.S. with a major in astronomy requires the following courses or their equivalents. Required courses ASTR:3771 Introduction to Astrophysics I, ASTR:3772 Introduction to Astrophysics II, and ASTR:4850 Astronomical Laboratory are offered every other year; students are responsible for registering for them when they are offered.

| Mathematics Courses | 16 |
| Laboratories | 6-7 |
| Other Required Courses | 41-45 |
| Total Hours | 63-68 |

Mathematics

All of these:

- MATH:1850 & MATH:1860 Calculus I-II 8
- MATH:2700 Introduction to Linear Algebra 4
- MATH:2850 Calculus III 4

Laboratories

This course:

- ASTR:4850 Astronomical Laboratory (offered every other year) 3

And one of these:

- PHYS:3756 Intermediate Laboratory 3
- PHYS:3850 Electronics 4

Other Required Courses

One of these sequences:

- PHYS:1611-1612 Introductory Physics I-II 7-8
- PHYS:1701 & PHYS:1702 & PHYS:2703 Physics I-II - Physics III (strongly preferred) 12

All of these:

- ASTR:1771-1772 General Astronomy I-II 8
- ASTR:3771-3772 Introduction to Astrophysics I-II (offered every other year) 6
- PHYS:2704 Physics IV 3-4
- PHYS:3710 Intermediate Mechanics 3

Additional Course Work

Undergraduate majors who plan to pursue graduate study are advised to go as far as they can beyond the minimum requirements listed above, by taking one or more of the courses listed below.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tbody>
</table>

In planning this work, they should be guided by the College of Liberal Arts and Sciences maximum hours rule: Students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students earning a B.S. with a double major in physics and astronomy may count more than 56 s.h. earned in the Department of Physics and Astronomy to the 120 s.h. required for graduation, but they must earn at least 56 s.h. in course work outside the department in order to graduate.

B.S.: Double Major in Physics and Astronomy

Students working toward a Bachelor of Science with a double major in physics and astronomy must complete all requirements for both majors and must earn a minimum of 56 s.h. outside the Department of Physics and Astronomy in order to graduate. Students interested in earning a double major should consult with their advisors. See “Requirements for a Bachelor’s Degree” in the College of Liberal Arts and Sciences Academic Policies Handbook.

Honors in the Major

Students majoring in astronomy have the opportunity to graduate with honors in their major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33. To graduate with honors in the major, they must earn 6-8 s.h. in PHYS:4999 Undergraduate Research during their junior and senior years and conduct an investigation under the guidance of a faculty member. They must present a written
report of their research (honors thesis) and describe their research results at a departmental seminar.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University’s honors program.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** calculus I-II and physics II

**Before the fifth semester begins:** all of the remaining required math courses, physics III-IV, and two other courses in the major

**Before the seventh semester begins:** four more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** three more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Career Advancement

Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in research, engineering, software development, teaching, finance, biomedical research, or consulting.

About 70 percent of physics and astronomy graduates go on to graduate school. With help from the department’s in-house recruiting office, they win acceptance to some of the best graduate programs in the country.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Physics, Minor

The minor in physics requires a minimum of 15 s.h. in physics, including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The 12 s.h. taken at the University of Iowa must be chosen from these:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS:2703</td>
<td>Physics III</td>
<td>4</td>
</tr>
<tr>
<td>PHYS:2704</td>
<td>Physics IV</td>
<td>3-4</td>
</tr>
</tbody>
</table>

Physics courses numbered 3000 or above

Both PHYS:2703 and PHYS:2704 have prerequisites, as do most physics courses numbered 3000 or above. Students must complete a course's prerequisites before they may enroll in the course.
Astronomy, Minor

The minor in astronomy requires a minimum of 15 s.h. in astronomy and physics courses, including 12 s.h. of course work numbered 3000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nongraded.

Course work numbered 3000 or above must include 6 s.h. chosen from these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR:3771</td>
<td>Introduction to Astrophysics I</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:3772</td>
<td>Introduction to Astrophysics II</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:4850</td>
<td>Astronomical Laboratory</td>
<td>3</td>
</tr>
</tbody>
</table>

Remaining work may be chosen from any astronomy or physics courses numbered 3000 or above.

Most University of Iowa courses for the minor have prerequisites; students must complete a course's prerequisites before they may enroll in the course.
Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress. All graduate students who intend to pursue a Ph.D. in physics must pass the qualifying exam (see Doctor of Philosophy in Physics [p. 734]).

Requirements

The Master of Science program in physics requires a minimum of 30 s.h. of graduate credit. It is offered with thesis or critical essay. The M.S. with thesis requires a thesis based on an original experimental or theoretical investigation by the student. The M.S. with critical essay requires a critical essay on the literature of a particular area of physics.

The M.S. may be a terminal degree or a step toward a Ph.D. In either case, the final examination is oral, conducted by a committee of three faculty members.

Each student's plan of study should provide for as much advanced work as aptitude and previous preparation permit. Up to one-third of the program of study may be taken in related scientific fields other than physics (e.g., mathematics, chemistry, astronomy, geology, engineering).

All master's degree students in physics must earn the required 30 s.h. of graduate credit in courses numbered 4000 or above, with at least 15 s.h. in courses numbered 5000 or above. They must maintain a g.p.a. of at least 3.00.

Students who choose the thesis option must write a thesis based on an original experimental or theoretical investigation that they have conducted. Students may earn a maximum of 6 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

Students who choose the critical essay option must conduct an independent study of the literature on a chosen topic and write a critical essay on that topic. Students may earn a maximum of 4 s.h. in PHYS:7990 Research: Physics or PHYS:7992 Individual Critical Study.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Astronomy, M.S.

Graduate study in physics and astronomy is highly individualized. Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress. All graduate students who intend to pursue a Ph.D. in physics must pass the qualifying exam (see Doctor of Philosophy in Physics [p. 734] in the Catalog).

Requirements

The Master of Science program in astronomy requires a minimum of 30 s.h. of graduate credit. It is offered either with or without thesis. The M.S. may be a terminal degree or a step toward a Ph.D. in physics with specialization and a dissertation in astronomy or astrophysics. In either case the final examination is oral, conducted by a committee of three faculty members.

Up to one-third of the program of study may be taken in related scientific fields (e.g., meteorology, geology, electrical engineering); selection of such courses is encouraged.

All M.S. students in astronomy must maintain a g.p.a. of at least 3.00. Seminars do not count toward the minimum of 30 s.h. required for the degree.

Students in the thesis program earn the required 30 s.h. in courses numbered 4000 or above, with at least 15 s.h. in courses numbered 5000 or above. Thesis students must earn at least 6 s.h. in the following courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR:6785</td>
<td>The Interstellar Medium</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6790</td>
<td>Stellar Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:7775</td>
<td>Special Topics in Astrophysics</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Thesis students may earn a maximum of 6 s.h. in PHYS:7992 Individual Critical Study and ASTR:7991 Research: Astronomy.

Students in the nonthesis program must maintain a g.p.a. of at least 3.00 in core graduate courses. They must earn 18 s.h. in the following core graduate courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR:6785</td>
<td>The Interstellar Medium</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6790</td>
<td>Stellar Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:7775</td>
<td>Special Topics in Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5710</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5811</td>
<td>Classical Electrodynamics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5812</td>
<td>Classical Electrodynamics II</td>
<td>3</td>
</tr>
</tbody>
</table>

Nonthesis students may earn a maximum of 4 s.h. in PHYS:7992 Individual Critical Study and ASTR:7991 Research: Astronomy.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Physics, Ph.D.

Graduate study in physics and astronomy is highly individualized. The department does not offer a Ph.D. in astronomy, but students may pursue a Ph.D. in physics with a subprogram and dissertation in astronomy.

Each entering graduate student is assigned a faculty advisor, who assists in preparing a plan of study and in guiding the student's progress. All graduate students who intend to pursue a Ph.D. in physics must pass the qualifying exam (see Requirements [p. 734] in this section of the Catalog).

Requirements

The Doctor of Philosophy program in physics requires a minimum of 72 s.h. of graduate credit. For students interested in doing doctoral work in astronomy, the department offers an optional astronomy subprogram, including dissertation, within the Ph.D. program in physics.

Graduate students who wish to pursue a Ph.D. in physics must pass a qualifying examination in all principal areas of physics at the level of advanced undergraduate work. The examination, which may be repeated only once, is given each year before the beginning of the spring semester. Students must pass the qualifying examination before the beginning of their fourth semester of graduate work at the University of Iowa. Students with high scores on the Graduate Record Exam (GRE) subject test in physics may be exempt from this requirement.

All Ph.D. students must take comprehensive examinations; participate in advanced seminars; do original research in experimental physics, theoretical physics, or astrophysics; and prepare and defend a written dissertation based on this work.

The program of study for the Ph.D. in physics includes thorough course work in both classical and quantum physics for all students, whether their specialized research is in an experimental or a theoretical area.

All Ph.D. students in physics must earn at least 24 s.h. in departmental courses numbered 5000 or above. They may not count credit earned in PHYS:7990 Research: Physics, PHYS:7992 Individual Critical Study, ASTR:7991 Research: Astronomy, or seminars.

Ph.D. students in physics without the astronomy subtrack must complete the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS:4761-</td>
<td>Mathematical Methods of Physics I-II (students</td>
<td>6</td>
</tr>
<tr>
<td>PHYS:4762</td>
<td>who pass a written examination are exempt from</td>
<td></td>
</tr>
<tr>
<td></td>
<td>this requirement)</td>
<td></td>
</tr>
<tr>
<td>PHYS:5710</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5730</td>
<td>Statistical Mechanics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5741-</td>
<td>Quantum Mechanics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS:5742</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS:5811-</td>
<td>Classical Electrodynamics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS:5812</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

These courses freely use advanced mathematics (e.g., complex variables, tensor analysis). An introduction is provided in PHYS:4761 Mathematical Methods of Physics I and PHYS:4762 Mathematical Methods of Physics II. The selection of less advanced course work depends on the adequacy of a student's preparation for graduate work; students' choice of more advanced and specialized courses depends on the direction in which their interests develop.

Ph.D. students in physics with the optional subprogram in astronomy must complete a total of six courses from the following two lists.

Four of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR:6781</td>
<td>Galactic Astronomy</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6782</td>
<td>Extragalactic Astronomy</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6785</td>
<td>The Interstellar Medium</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6790</td>
<td>Stellar Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6870</td>
<td>Radiative Processes in Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:6880</td>
<td>High Energy Astrophysics</td>
<td>3</td>
</tr>
<tr>
<td>ASTR:7830</td>
<td>Space and Astrophysical Plasma Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:7760</td>
<td>General Relativity and Cosmology</td>
<td>3</td>
</tr>
</tbody>
</table>

Two of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS:5710</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5730</td>
<td>Statistical Mechanics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS:5741-</td>
<td>Quantum Mechanics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS:5742</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS:5811-</td>
<td>Classical Electrodynamics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS:5812</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

After a Ph.D. student has chosen a research specialty, the student must submit a formal thesis proposal and defend the proposal in an oral comprehensive exam. The appropriate thesis advisor then becomes the candidate's general advisor and the chair of the comprehensive and final examination committee. The comprehensive exam must be taken before the beginning of the fourth year of graduate study.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Students qualified for graduate study are encouraged to apply for fellowships and assistantships. Contact the Department of Physics and Astronomy chair.

Career Advancement

Graduates have opportunities for employment in universities, colleges, and research laboratories in government and industry. Physics and astronomy graduates have mastered skills that are readily transferable to a number of fields. They might choose to work in engineering, software development, finance, or consulting.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Political Science

Chair

• Wenfang Tang

Undergraduate majors: political science (B.A., B.S.); international relations (B.A., B.S.)

Undergraduate minors: political science; international relations

Graduate degrees: M.A. in political science; Ph.D. in political science

Faculty: https://clas.uiowa.edu/polisci/people/faculty

Website: https://clas.uiowa.edu/polisci/

The Department of Political Science offers two undergraduate majors and minors as well as graduate degree programs. It collaborates with other departments to offer the Certificate in Social Science Analytics. In addition, it offers several courses that undergraduate students in all majors may use to fulfill General Education Program [p. 437] requirements and a First-Year Seminar designed for entering undergraduate students.

Certificate in Social Science Analytics

The Department of Political Science collaborates with the Departments of Geographical and Sustainability Sciences, Sociology, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 812] in the Catalog. The Department of Political Science administers the certificate.

National Honor Society

The department sponsors a chapter of Pi Sigma Alpha. Students who have a cumulative g.p.a. of at least 3.30, have attained junior standing, and have completed 15 s.h. of course work in political science are considered for membership. Contact the Department of Political Science honors advisor for more information.

Programs

Undergraduate Programs of Study

Majors

• Major in Political Science (Bachelor of Arts) [p. 743]
• Major in International Relations (Bachelor of Arts) [p. 746]
• Major in Political Science (Bachelor of Science) [p. 751]
• Major in International Relations (Bachelor of Science) [p. 754]

Minors

• Minor in Political Science [p. 760]
• Minor in International Relations [p. 761]

Graduate Programs of Study

Majors

• Master of Arts in Political Science [p. 762]
• Doctor of Philosophy in Political Science [p. 763]

Courses

Courses numbered below 2000 are introductory undergraduate courses. Course POLI:1000 First-Year Seminar does not count toward the major or the minor in political science.

Courses numbered 2000-4999 are considered advanced for undergraduates. Course POLI:4900 Government and Politics Internship and course POLI:3124 Political Science Des Moines Internship Program do not count toward the major or the minor in political science; they are offered only satisfactory/fail.

Courses numbered 5000-6000 are graduate core courses; those numbered 7000 or above are advanced graduate courses.

Political Science Courses

POLI:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

POLI:1001 Introduction to Politics 3 s.h.
Introduction to selected processes, institutions, or behaviors central to the study of politics.

POLI:1002 Lawyers in the American Political System 3 s.h.
Training and careers of lawyers; various roles they play in the American political system. Requirements: no prior enrollment in POLI:3150 with subtitle Lawyers in the American Political System.

POLI:1100 Introduction to American Politics 3 s.h.
Structure and processes of American national government; how the United States manages political conflict; impact of the U.S. Constitution; effect of public opinion, interest groups, and media on government; role and evolution of Congress, presidency, bureaucracy, and Supreme Court. GE: Social Sciences.

POLI:1200 Introduction to Political Behavior 3 s.h.
Patterns and basis of political behavior of American electorate; trends in voter turnout; vote choice; ideology, partisanship, and public opinion. GE: Social Sciences.

POLI:1300 Introduction to Political Thought and Action 3 s.h.
Common problems, literature, analytic techniques. GE: Social Sciences; Values, Society, and Diversity.

POLI:1400 Introduction to Comparative Politics 3 s.h.
Politics worldwide, including all regions and levels of development; wide-ranging themes, including regime types, political change, political culture, public opinion, government structures, state-society relationship, electoral systems, public policy issues. GE: International and Global Issues; Social Sciences.

POLI:1401 Introduction to the Politics of Russia and Eurasia 3 s.h.
Political dynamics in postcommunist countries of east-central Europe and Eurasia; imperial legacies, ideology and practice of communist politics, patterns of democracy and authoritarianism. GE: International and Global Issues; Social Sciences.
POLI:1403 Introduction to Politics in the Muslim World 3 s.h.
Processes of politics and government in pivotal countries of the Muslim world; foundations of Islam, legacies of Western imperialism, regime types, regional conflicts, oppositional organizations; domestic and foreign policy; selected countries include Syria, Iran, Iraq, Egypt, Turkey, Saudi Arabia, Palestine, and Israel. GE: International and Global Issues; Social Sciences.

POLI:1445 Introduction to Asian Politics: China 3 s.h.
How sociopolitical life in China is shaped by political structure, economic modernization, and traditional political culture; topics include historical, political, economic, and social conditions in contemporary China; course objectives are to broaden student's horizons in global affairs by learning about a foreign country that seems completely different and to sharpen student's analytical and communication skills. GE: International and Global Issues; Social Sciences.

POLI:1449 Introduction to European Politics 3 s.h.
Political institutions, processes of selected European countries. GE: International and Global Issues; Social Sciences.

POLI:1500 Introduction to International Relations 3 s.h.
Survey of key issues in international relations, including causes of wars, different types of theories of international relations, international organizations, and global environmental problems. GE: International and Global Issues; Social Sciences.

POLI:1501 Introduction to American Foreign Policy 3 s.h.
Foreign policies: goals, basic themes and general patterns, problems encountered by policy makers, means employed in dealing with other nations and international organizations, processes by which policies are formulated, factors that influence structure of policies. GE: International and Global Issues; Social Sciences.

POLI:1600 Introduction to Political Communication 3 s.h.
Institutions, dynamics, issues of political communities considered as networks of communication; representative topics include political actors, ads, films, media, myths, news, publics, regulations, rhetorics, symbols. GE: Social Sciences.

POLI:1601 Introduction to Social Media and Politics 3 s.h.
Politics in news, culture, commerce, campaigns, and government with attention to current media (e.g., cinema, internet, print, television).

POLI:1700 Introduction to Political Analysis 3 s.h.
Tools necessary to analyze and solve puzzles in politics (i.e., Why do countries go to war rather than negotiate? Why do lifelong enemies become allies? Why do majorities act irrationally?); questions approached from a quantitative perspective (unlike most political analyses), in particular, game theory—a branch of mathematics that investigates how rational players act in situations (like those in politics) of strategic interaction. GE: Quantitative or Formal Reasoning.

POLI:2107 Black Literature and Politics: Controversies of National Allegiance 3 s.h.
Black literature born amid political controversy, from slave narratives to award-winning texts of late 20th century; evolving politics of African American writers; changing political landscape of this expansive period and representative literature; how African American writers shape U.S. political debate; surprising politics of many canonical African American writers. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as AFAM:2781, ENGL:2460.

POLI:2415 Latin American Politics 3 s.h.
Governmental institutions, major interest groups; focus on area as a whole. GE: International and Global Issues; Social Sciences. Same as LAS:2415.

POLI:2416 Revolutions and Political Violence 3 s.h.
Analysis of protest, insurgency, and rebellion for political change; studies the drivers of participation, group organization, government responses, and outcomes of these movements (including both failed and successful revolutions); how and why does the use of political violence vary, and what are the political consequences of the use of violence; explores theoretical material and case studies from across the world.

POLI:2417 Comparative Environmental Policy 3 s.h.
Analysis of environmental policy and governance outcomes across and within countries and contexts; causes and consequences of environmental policy differences; effects of government structure, society, and natural resource conditions on policy development, implementation, and environmental outcomes.

POLI:2700 Business, Government, and Society 3 s.h.
How business, governments, and societies interact and fail to interact; exploration of questions that are empirical (i.e., how does the relationship between business and government impact society?) and normative (i.e., how should the relationship between business and government impact upon society?); where one sits on business-government-society (BGS) triangle often shapes how normative questions are answered; how such an approach helps to better understand these relationships and how they lead to specific corporate, government, and societal outcomes.

POLI:3000 Understanding Political Research 3 s.h.
Creating knowledgeable evaluators of current research in political science; interpretation of different quantitative techniques with examples from current political science research.

POLI:3001 Hawkeye Poll 3 s.h.
Basics of survey design, sampling, question wording, interpreting responses, and writing press releases; students work together to help design questions as part of the Hawkeye Poll, a collaborative teaching and research enterprise in the Department of Political Science.

POLI:3050 Problems in Methods arr.
Problems in political science research methods; data collection, interpretation, analysis.

POLI:3100 American State Politics 3 s.h.
Approaches to analysis of political behavior in American state governments; emphasis on cultures, parties, actors, processes, issues.
POLI:3101 American Constitutional Law and Politics 3 s.h.
Role of U.S. Supreme Court in American political system; emphasis on analysis of Supreme Court cases.

POLI:3102 The U.S. Congress 3 s.h.
History of Congress, how congressional elections shape what legislators do, how laws are made in Congress, rules and maneuvers that shape these laws, and the future of Congress as one of the major institutions of American government; gain an understanding of Congress and why Americans continue to be confused and fascinated by this complicated branch and its politics.

POLI:3104 Immigration Politics 3 s.h.
United States immigration policy and political consequences of Latino population growth; contrast of political experiences of Latinos with groups and ideals of democratic political systems; analyses of past immigration policies; studies of public opinion, voter turnout, and campaign tactics. Same as LAS:3104.

POLI:3106 Racism and Politics in the U.S. 3 s.h.
Evolution of white racial attitudes over time; political experiences of African Americans contrasted with other groups and the ideals of democratic political systems; effect of race on political participation, partisan affiliation, vote choice, and policy preferences.

POLI:3107 Writing in Political Science: Writing for "Science" and for "Politics" 3 s.h.
Writing for "science" and "politics" of political science; science writing emphasis on clear explanation to produce understanding; political writing emphasis on advocacy, which can highlight, obscure, and "spin" to motivate readers; evaluation of examples of each writing form; principles that help clear or obfuscate, explain or persuade, depending on their purpose; students compose examples of each writing form.

POLI:3108 American Political Development 3 s.h.
Transformations in American political behavior and institutions over time.

POLI:3109 Fixing America's Electoral System 3 s.h.
What's wrong with American politics and what can be done to fix it; overview of major problems facing American democracy from polarized political parties and money in politics, to low voter turnout and trust in government, to growing gap between super rich and middle class; focus on problem solving, including movement towards digital politics and new media, participatory democracy, reform of congressional elections and non-partisan redistricting, presidential elections (Electoral College), presidential nomination process, campaign finance, voter registration and voting, proportional representation. Requirements: no prior enrollment in POLI:3150 with subtitle Election Reform.

POLI:3110 Local Politics 3 s.h.
Models of city government, relation to state and federal governments; rights, liabilities of municipalities; city elections, campaigns, issues; role of pressure groups.

POLI:3111 American Public Policy 3 s.h.
Functions and policies of national government; emphasis on domestic policy making, impact of public policy.

POLI:3113 Research in Judicial Politics 3 s.h.
Applied research training in courts and judicial politics. Prerequisites: POLI:3121 or POLI:3120 or POLI:3101.

POLI:3114 Women and Politics in the United States 3 s.h.
Involvement of women in the U.S. political system; topics include political theories about women's involvement in politics and government, women and constitutional law, public policies that affect women, women's participation in politics at the mass and elite levels.

POLI:3116 The Presidency 3 s.h.
Constitutional foundations, subsequent development, current status of the office of the presidency; evolution of presidential selection process; powers, structures, functions of the office; role of president as legislative, executive, and public leader.

POLI:3117 Administrative Politics and Policy 3 s.h.
Aspects of public administration and bureaucratic politics; topics range from theoretical (e.g., organization theory) to practical (e.g., budgeting).

POLI:3118 Interest Groups 3 s.h.
Theory, organization, and structure of interest groups; how they influence Congress, executive branch, courts, elections.

POLI:3120 The Criminal Justice System 3 s.h.
Role of actors, institutions that constitute and participate in the American criminal justice system.

POLI:3121 The Judicial Process 3 s.h.
Role of courts, lawyers, judges, interest groups in the American political system.

POLI:3122 Public Choice 3 s.h.
Introduction to some of the most important topics in public choice (i.e., How do we explain what the public "wants"? Can we determine group preferences and group choices even if individual incentives run contrary to society's needs?); study of public choice theory problems in political science--how we determine society's preference among candidates, public policies, or even types of government.

POLI:3123 State Politics in Iowa 3 s.h.
Introduction to Iowa government and politics; emphasis on Iowa Constitution, founding and history, political institutions, voting, political parties, mass movements and interest groups; evangelical movement in Iowa, immigration, and Iowa's role in national politics given the state's first-in-the-nation caucus.

POLI:3124 Political Science Des Moines Internship Program 1-6 s.h.
Supervised professional work experience in government and nongovernment organizations, as well as private industry. Requirements: sophomore or higher standing.

POLI:3125 Perspectives on Contemporary Iowa 3 s.h.
In-depth examination of the state of Iowa; culture, politics, and contemporary issues facing the state and Midwest region in which it resides; historical and political development of Iowa as a state; policy implications of development on contemporary Iowa; how history, culture, and politics impact citizenry of the state; designed to enrich internship program in Des Moines, IA.

POLI:3126 Environmental Policy 3 s.h.
Analysis of environmental problems through an interdisciplinary approach drawing from economics, environmental economics, political economy, and political science; how environmental resources differ from other goods that economists study (usually there is no market for them); government policies that are needed to maintain and improve environmental quality; how governments are influenced by voters' policy preferences and by policy preferences of special interest groups; three main areas of political economy as it relates to environmental policy.
POLI:3127 Legislative Policy Seminar  
Policy research for the Iowa Legislature.

POLI:3150 Problems in American Politics 1-3 s.h.  
Problems in studying American system; structures, functions, behavior.

POLI:3201 Political Campaigning 3 s.h.  
Current state of political campaigning at all levels of government; history of campaigning, role of money and campaign finance reform, television and negative advertising, Internet campaigning.

POLI:3202 Political Psychology 3 s.h.  
Political phenomena from psychological perspective; political behaviors of individuals, including decision making by elites and masses, evaluations of political candidates, mass mobilization, response to mass media; psychological concepts including stereotyping, social cognition, attitude, group identification.

POLI:3203 Campaigns, Elections, and Voting Behavior 3 s.h.  
Determinants of voting behavior; correlates of political participation, political apathy; political socialization processes; nature and functions of elections.

POLI:3204 Public Opinion 3 s.h.  
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research.  
Same as SOC:3525.

POLI:3300 Postmodern Political Theory 3 s.h.  
Major writers and intellectual trends, from 19th century to World War II.

POLI:3302 Current Political Theory 3 s.h.  
Thinkers or schools of thought, from World War II to present.

POLI:3303 Political Issues 3 s.h.  
Representative topics include democracy, revolution, justice, obligation, technology, authority.

POLI:3305 Modern Political Theory 3 s.h.  
Major writers and intellectual trends in political thought from Renaissance and Reformation to 19th century.

POLI:3306 Problems of Democracy 3 s.h.  
Theory and practice of democracy; democratic ideals and the institutions and practices necessary for those ideals to work in everyday politics--power, equality, majority rule, participation, trust, representation.

POLI:3400 Introduction to Political Economy 3 s.h.  
Economic reasoning applied to political issues, including evolution of institutions, voting, leadership, interest groups, bargaining tactics, federalism, bureaucracy, fairness and compensation for wrongs, legitimacy of democracy, electoral cycles in economic policy, revolutions.

POLI:3401 European Union 3 s.h.  
Politics of the European Union; institutional characteristics and major political issues of the European Union, including popular and national responses to European integration.

POLI:3403 Parties and Elections Around the World 3 s.h.  
Comparative approach and exploration of political parties and elections around the world; party formation and development, identification and voter behavior, competition and strategies; election outcomes; electoral systems and their consequences.  
Recommendations: POLI:1400 is strongly recommended.

POLI:3405 Authoritarian Politics 3 s.h.  
Political dynamics in countries with authoritarian governing regimes; how those dynamics differ from their counterparts in democracies; how decisions are reached and get enforced; forms political struggles take; how interest groups pursue influence; ways individuals deal with the government; tension between regime control and societal progress.

POLI:3408 Chinese Politics and Society 3 s.h.  
Comprehensive introduction to modern Chinese history; current Chinese political system and political culture; public policy issues.

POLI:3410 Russian Foreign Policy 3 s.h.  
Russia's behavior as a major economic, military, and diplomatic power in the world and what shapes that behavior; Russians' perceptions of other countries; Russian national interests; capabilities and domestic political dynamics; implications for foreign policy of the United States and other countries.

POLI:3411 Democracy: Global Trends and Struggles 3 s.h.  
Diverse contemporary understandings and practices of democracy; worldwide democratization trends; what political, economic, cultural and transnational factors shape those trends; how elites and citizens struggle to promote or retard democracy; the news full of people around the world taking action to demand democracy and what this term, so highly prized, really means; what is known about when democracy will replace authoritarianism; how can democracies more fully live up to their promise.

POLI:3413 Russian Politics 3 s.h.  
Institutions and processes of governing this large world power; Russian political dynamics, including struggles to unify or diversify power; political responses to major economic, technical, and social challenges.  

POLI:3418 Governance in the Middle East 3 s.h.  
Institutions and social systems that are affected by political behavior; ways in which Islam, oil production, and international forces shape political evolution in the region; comparative political inquiry of the operation of government institutions in the context of specific historical legacies, economic structures, and population characteristics in Iran, Iraq, Egypt, Turkey, Saudi Arabia.

POLI:3419 War in the Muslim World 3 s.h.  
Foundations, evolutions, and outcomes of recent wars in the Middle East; primary focus on insurgencies in Syria, Afghanistan, Pakistan, and Iraq, together with Arab-Israel conflict; Sunni-Shiite, Jewish-Arab, Arab-Kurd cleavages; military activities of international forces; rise of insurgent forces (i.e., the Taliban); Al Qaeda alliance; shadow governments; institutions of governance; strategies and ideologies of oppositional organizations.  
Requirements: no prior enrollment in POLI:3450 with subtitle War in the Muslim World.

POLI:3420 Southeast Asia: Democracy, Identity, and Development arr.  
Eleven states of Southeast Asia; governance, development strategies, domestic politics, approach to democracy and national identity; regional politics and important transnational issues; role of ASEAN, terrorism, trans-Pacific trade and investment issues, China's looming presence, impact of ongoing and historic conflicts; briefings, discussions, presentations.
POLI:3421 Southern Africa: Development and Governance 3 s.h.
Comparative approach to politics of ten countries in the Southern Africa region; mineral riches, substantial agricultural resources, millions of hard working and talented people; poverty, underdevelopment, and inequality; varied paths toward development; mosaic of ethnic, religious, and regional groups that impact domestic and regional politics; politics analyzed at regional, state, and sub-state level.

POLI:3422 Transnational Issues and the Horn of Africa arr.
Eight states in the Horn of Africa region; important transnational and regional issues; governance, development strategies, domestic politics, social and civic dynamics of countries in the region; wildlife trafficking, piracy, fight against HIV/AIDS, imprint of colonialism, secession, ethnic and national identities, democratization, role of women in society, impact of ongoing and historic conflicts; briefings, discussions, presentations.

POLI:3423 The Middle East: Policy and Diplomacy 3 s.h.
Nineteen states and entities of North Africa and the Middle East; issues of governance, development strategies, domestic politics, and approach to democracy and national identity; regional politics and important transnational issues; role of political Islam; impacts of the Arab Spring, terrorism, oil, role of women in society, ongoing and historic conflicts; briefings, discussions, presentations.

POLI:3450 Problems in Comparative Politics 3 s.h.
Structures, functions, behaviors of different political systems.

POLI:3500 American Foreign Policies 3 s.h.
Ends pursued, problems encountered, means employed by the United States in relations with other states and international organizations.

POLI:3501 International Organization and World Order 3 s.h.
Different conceptualizations of world order; multiple sources of world order including force, power, norms, international institutions; International order and main sources; question peace being the same as world order.

POLI:3502 Politics and the Multinational Enterprise 3 s.h.
Operations of multinational business enterprises; relationship between business and politics; focus on corporations interacting with sovereign states, other companies, interest groups, international governmental organizations (IGOs), and non-governmental organizations (NGOs).

POLI:3503 Politics of Terrorism 3 s.h.
Strategies of terrorists, insurgents, guerrillas, and other non-state actors; terrorists' use of the media; suicide attacks; al Qaeda and the U.S.-led War on Terrorism; counterinsurgency and counter-terrorism; self-starters and transnational terrorist networks; drone strikes and data-mining operations as counter-terrorism tools and the associated political controversies.

POLI:3504 Globalization 3 s.h.
Introduction to multidisciplinary literature on political economy and culture of globalization; major topics of debate on globalization.

POLI:3505 Civil Wars 3 s.h.
Causes, duration, management, and consequences of civil war; factors that create more frequent, longer civil wars (e.g., greed, grievance, ethnic conflict, state capacity); conflict management strategies for ending civil wars and minimizing long-term negative consequences.

POLI:3506 Consequences of War 3 s.h.
War's enduring effects: war's impact on individuals, including combatants and noncombatants; war's impact on states, including states' development, economic, political, and social effects; war's effects on the international system.

POLI:3507 Women and Politics in Global Perspective 3 s.h.
Women and politics in Europe and the global South; women's participation in political parties and social movements, women in the bureaucracy, women and the politics of intersectionality, feminism and the state, emergence of female gender identities.

POLI:3509 International Courts: The Intersection of Law and Politics 3 s.h.
Introduction to important international courts including (Permanent) International Court of Justice, European Court of Justice, International Criminal Tribunal for Yugoslavia, International Criminal Tribunal for Rwanda, and International Criminal Court; the formation, design, and expansion of international courts from political and legal perspectives; states' capabilities, regime type, and war; intersection of domestic and international law, emphasizing the major legal systems in the world (civil law, common law, Islamic law).

POLI:3511 International Law 3 s.h.
Introduction to field of international law from a political and legal perspective; history and contemporary status of international law in several areas: human rights, humanitarian (law of war), environmental law, trade; structure and areas of international law; ask if international law is or can it be an effective tool of international cooperation from a political science perspective; structure of the basic documents of international law and organizations, key cases in the field from a legal perspective. Requirements: no prior enrollment in POLI:3550 with subtitle International Law.

POLI:3512 International Conflict 3 s.h.
International conflict as the primary ingredient of international politics; sources, causes, and effects of conflict, alliance structures, power distribution, geography, arms races, deterrence.

POLI:3513 Politics of International Human Rights Law 3 s.h.
Interaction between politics and international human rights law; international law and organizations, human rights, ratification of human rights treaties; theories of international law and cooperation, exposure to tools of international relations (diplomacy, trade, aid, shaming, sanctions), the role that international and domestic civil society groups play in advocating for states to commit to human rights laws.

POLI:3514 Regional Peace and Security 3 s.h.
Analysis of the causes of peace and conflict between countries in various regions of the world; theories of zones of peace, security communities, regional security complexes.

POLI:3515 Global Communication and Politics 3 s.h.
How distance and language barriers in communication have fallen since 2000; how politics and the world are affected when such barriers to communication disappear.

POLI:3516 The Politics of International Economics 3 s.h.
Politics of international trade and financial systems, including rise of free trade in 19th century and breakdown between the two world wars, postwar trading system framed around the World Trade Organization, different types of international monetary systems, relations between rich countries and poor countries, and global environmental politics.
POLI:3517 Global Justice 3 s.h.
Introduction to normative issues in international politics (i.e., Under what conditions are wars just? When is intervention justified? Do wealthier nations owe anything to those elsewhere who are in need?); theoretical works on global justice by Rawls, Kant, Pogge, Walzer, and others; normative theories analyzed against background of empirical examples, such as recent humanitarian interventions, contemporary wars, current trade regime, global environmental problems; seminar. Requirements: no prior enrollment in POLI:3550 with subtitle Global Justice.

POLI:3518 Water Wars: Conflict and Cooperation 3 s.h.
How climate change may aggravate shortage of freshwater in water-stressed regions, producing warnings of conflict over international river basins or “water wars”; recent U.S. intelligence assessment notes that water may be used as a weapon between or within states, or to further terrorist aims in the future; management of international water resources including conflicts over cross-border rivers and maritime areas; common property resources, piracy, maritime security, peaceful and militarized conflict management of water-based conflicts, climate issues, natural disasters, United Nations Law of the Sea Convention.

POLI:3519 Politics of Aging 3 s.h.
Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as ASP:3519.

POLI:3520 National Security Policy 3 s.h.
Nuclear weapons and deterrence, credible commitments, value of emphasizing sea power or land power, strategic differences between symmetric and asymmetric conflict, information and intelligence, domestic politics and use of force abroad, United Nations Security Council and international law, role of private military contractors, and integration of armed forces by race, gender, and sexual orientation.

POLI:3521 Twenty-first-Century Technology and Warfare 3 s.h.
Interplay between technological change and military strategy; changes in warfare brought about by information revolution; cyber weapons and other features of war in computer age; unmanned systems including aerial drones and ground-based robots; moral considerations associated with military robotics; anti-missile systems; predicting future changes in technology and military strategy.

POLI:3522 Ending Wars and Keeping Peace 3 s.h.
When are international and civil wars ripe for resolution? What determines intervention strategies for third parties, and why do attempts at conflict resolution so frequently fail? Students will investigate these questions and consider the process by which conflicts reach cease-fires and peace agreements, why some agreements last when others do not, and what can be done to make peace more durable; considering post-conflict societies and the lingering problems they face; topics include peacekeeping, mediation, the role of regional and international organizations, and post-conflict justice.

POLI:3523 Non-State Violent Actors arr.
Emergence, organization, behavior, and demise of violent non-state actors, including rebel groups, terrorist organizations, and drug cartels; focus on recent academic research on non-state violent actors, as well as current events.

POLI:3550 Problems of International Politics 3 s.h.
Problems in studying international system, structures, functions, behavior.

POLI:3600 Multimedia Politics 3 s.h.
How increasingly universal access to communication affects political campaigning and advocacy; the use of blogging, video, and developing communication media by citizens and candidates to talk politics.

POLI:3601 Politics of Film 3 s.h.
Issues in the popular politics of aesthetics, communication, culture, and myth, explored through analysis of films.

POLI:3602 New Media and Politics 3 s.h.
Blogging, microblogging, and video production as tools of new media (anyone can twitter and reach a large audience); how these technologies work, how they are being used in current politics, what they portend for the future, and what tools are next. Requirements: no prior enrollment in POLI:3303 with subtitle New Media and Politics.

POLI:3603 War and Film arr.
Exploration of one of the most significant political phenomena, war, as it is represented and understood through film; various film genres including classic war films, historical and historical fiction, documentary (e.g., Battle of Algiers, Triumph of the Will, Invisible War), comedy-drama (e.g., Life is Beautiful), and dark comedy or satire (e.g., The Mouse that Roared, Tropic Thunder); scholarly writings on international conflict; students discover and investigate themes related to nature of war, its underlying causes, and its consequences.

POLI:3604 New Media and Public Opinion 3 s.h.
How do citizens give voice to their interest in and concerns about governing? New media and public opinion, measured by surveys, supplement each other, each with strengths and weaknesses; parallel moves of the two in elections and when important political decisions are being made.

POLI:3700 Strategy in Politics 3 s.h.
How to isolate the most important elements in strategic political behavior, build models to understand them, recognize common scenarios, devise institutional resolutions to the Prisoners' Dilemma and coordination problems.

POLI:3701 Special Topics in Politics 1-2 s.h.
Presentations by distinguished lecturers on topics in the study of politics not covered in other courses. One or two weeks.

POLI:4000 Honors Seminar on the Study of Politics 3 s.h.
Selected topics in philosophy, theory, and methods for the systematic study of politics; foundations of scientific inquiry, including processes of theory building, concept formation, and hypotheses testing; political research; challenges faced when conducting good political science; questions of research design, measurement accuracy, and sample selection; application of multivariate research process. Requirements: honors standing in political science.
POLI:4050 Two Koreas: Political Economy or Regional Rivalry 3 s.h.
Introduction to the Korean peninsula; focus on nature of North and South Korean regional rivalry and its global impacts; theoretical and historical explanations; various security issues including North Korean nuclear threat, military alliances, and reunification prospects; economic issues including differential growth paths, South Korea’s rapid growth, and recent economic woes in both Koreas. Same as KORE:4050.

POLI:4100 Honors Seminar on American Politics 3 s.h.
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

POLI:4300 Honors Seminar on Political Theory 3 s.h.
Intensive study of ideas, issues, methods in an area of political theory. Requirements: junior or senior honors standing in political science.

POLI:4400 Honors Seminar on Comparative Politics 3 s.h.
Exploration of a selected topic in comparative politics, its cross-national patterns, strategies used to study it, and major debates among scholars; study of politics by comparing two or more countries or other political units; new light on how societies are divided on major issues (whether state regulation of economy or role of religion in society), how people behave politically (from voting to demonstrations to revolution), role played by political institutions (e.g., legislatures, courts, political parties). Requirements: junior or senior honors standing in political science.

POLI:4500 Honors Seminar on International Politics 3 s.h.
Ideas, issues, methods in selected area. Requirements: junior or senior honors standing in political science.

POLI:4600 Honors Research Project 3 s.h.
Special research assistance to political science faculty. Requirements: junior or senior honors standing in political science.

POLI:4601 Honors Senior Thesis 3 s.h.
Supervised research and writing. Requirements: honors standing in political science and more than one semester before graduation.

POLI:4700 Independent Study arr.
Supervised special projects.

POLI:4701 Undergraduate Research Tutorial 3 s.h.
Individual training in applied research.

POLI:4702 Senior Research Project/Paper 3 s.h.
Supervised research and writing. Requirements: political science major and more than one semester before graduation.

POLI:4800 Senior Seminar in International Relations 3 s.h.
Completion of final research project as a culmination of student's work in the major; research supervised by a faculty member; required for international relations major. Recommendations: taken during one of student's final two semesters at the University of Iowa.

POLI:4900 Government and Politics Internship 1-3 s.h.
Undergraduate internships in state or national legislative office, executive agency, or with election campaign official.

POLI:5000 Introduction to Political Analysis 4 s.h.
Conceptual problems of political analysis; empirical research strategies, philosophy of science. Requirements: M.A. or Ph.D. standing in political science.

POLI:5001 Introductory Methodology 3-4 s.h.
Introduction to quantitative techniques in political science; set theory, probability distributions, estimation, testing; emphasis on acquiring mathematical skills for more advanced quantitative work in political science. Requirements: M.A. or Ph.D. standing in political science. Same as IGPI:5001.

POLI:5003 Intermediate Methodology 4 s.h.
Techniques of data analysis; statistical models and their relationship to hypotheses tested. Requirements: doctoral standing in political science and one semester of intermediate statistics.

POLI:5100 American Politics 4 s.h.
Major literature of American politics, emphasis on comparative, systemic, behavioral studies. Requirements: M.A. or Ph.D. standing in political science.

POLI:5300 Political Theory 4 s.h.
Methods of political theory, epistemological and moral foundations of political inquiry; terms of political discourse (e.g., power, legitimacy, equality, ideological foundations of politics); schools of thought and current controversies in political theory. Requirements: M.A. or Ph.D. standing in political science.

POLI:5400 Comparative Politics 4 s.h.
Conceptual, theoretical, and methodological issues in comparative study of politics; developments in comparative politics subfield. Requirements: M.A. or Ph.D. standing in political science.

POLI:5500 International Politics 4 s.h.
Approaches to study of international politics. Requirements: M.A. or Ph.D. standing in political science.

POLI:5700 Introduction to Formal Models in Political Science 4 s.h.
Use of formal mathematical models; current modeling techniques, applications in American politics, comparative politics, international politics. Requirements: M.A. or Ph.D. standing in political science.

POLI:6632 Crossing Borders Proseminar arr.

POLI:6635 Crossing Borders Seminar 2-3 s.h.

POLI:7000 Writing Political Science 4 s.h.
Practice in planning and completing political inquiries, with emphasis on writing for scholarly publication; experience refining one's prior research projects for submission to disciplinary journals, and drafting dissertation proposals. Requirements: doctoral standing in political science.

POLI:7001 Experimental Methods 4 s.h.
Methods, techniques used in political science experiments.

POLI:7002 Topics Methodology 4 s.h.
Application of advanced statistical techniques in political science; limited dependent variable regression techniques, simulation methods, missing data techniques, history/rare event analysis and maximum likelihood, and topics tailored to students' research; focus on learning how and when to apply these techniques.
POLI:7003 Advanced Methodology  4 s.h.
Introduction to regression techniques for limited dependent
and qualitative variables in political science; logit, probit,
multinomial logit and probit, ordered logit and probit,
event history models, event count models; emphasis on
understanding how and when to apply these models.

POLI:7004 Qualitative Methods  4 s.h.
Introduction to qualitative methods in political science
research; interviewing, ethnographic research, process
tracing, comparative historical analysis, content and discourse
analysis, fuzzy set theory.

POLI:7100 Modeling American Politics  4 s.h.
Exploration of how well formal models explain the real world
and how the fit between models and world can be improved.

POLI:7102 The Presidency  4 s.h.
American chief executive: history, recruitment, behavior,
roles, responsibilities, powers, relationships with other
institutions.

POLI:7150 Problems in American Politics  4 s.h.
Problems in study of American political system; structures,
functions, behavior.

POLI:7201 Political Psychology  4 s.h.
Political phenomena from a psychological perspective;
decision making by elites and masses, evaluations of political
candidates, mass mobilization, response to mass media;
psychological theories used to explain these behaviors,
including stereotyping, social cognition, attitude, group
identification, attribution.

POLI:7202 Public Opinion and Electoral Behavior  4 s.h.
Political attitudes and beliefs in mass publics; voting behavior;
how electoral systems function.

POLI:7350 Problems in Political Theory  4 s.h.
Prescriptive and explanatory political theory.

POLI:7409 Democratization and Authoritarianism  4 s.h.
Rival understandings and practices of democracy and
authoritarianism, including challenges of quantifying them
for comparative analyses; major theoretical and empirical
approaches to studying democratization and other forms
of regime change.

POLI:7423 Comparative Parties and Elections  4 s.h.
Introduction to important questions and puzzles in the study
of political parties; party formation and development, the role
of parties in society, how parties are organized, party systems,
electoral systems, party strategy and behavior, development
of new parties, whether parties are still relevant, regeneration
of communist parties in post-communist regimes, ethnic
parties, failure of party consolidation.

POLI:7450 Problems of Comparative Politics  4 s.h.
Problems in study of comparative political systems; structures,
functions, behavior.

POLI:7500 Foreign Policy  4 s.h.
Foreign policy making and international behavior in relation to
theories, findings from selected countries.

POLI:7502 International Systems and Global
Governance  4 s.h.
Literature of international systems and international
organization; major schools of thought in international
relations theory, their utility in explaining evolution of the
international system and recent developments in international
organization and global governance.

POLI:7503 International Conflict and Cooperation  4 s.h.
Recent theoretical and empirical debates in international
relations literature; emphasis on formal and quantitative
research.

POLI:7504 Theories of International Political
Economy  1-4 s.h.
Theories focusing on international system, the state,
bureaucracies, interest groups, international organizations,
bargaining processes, distributive norms.

POLI:7550 Problems in International Politics  4 s.h.
Issues of international politics, emphasis on problems of
theoretical analysis.

POLI:7701 Dynamic Models of International
Politics  2-4 s.h.
Overview of several dynamic modeling techniques used to
study international relations; modeling assumptions, the kinds
of information models can provide, evaluation of models.

POLI:7900 Readings Tutorial arr.
Independent study.

POLI:7901 Research Tutorial arr.
Individual training in applied research.

Political Science, B.A.

Most of the political science course work required for the major is the same for B.A. and B.S. students, but the major for the B.S. includes a political science research component. The major for the B.S. also requires a set of mathematics/statistics courses, while the major for the B.A. does not.

The B.A. degree with a major in political science offers an option for an on campus or an online program of study. See Requirements [p. 743] in this section of the Catalog.

Requirements

The Bachelor of Arts with a major in political science requires a minimum of 120 s.h., including 36 s.h. of work for the major (all in political science courses). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. In addition, they must maintain a g.p.a. of at least 2.00 in all political science courses taken at the University of Iowa, and in all political science courses taken at other institutions and at the University combined. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students must earn at least 18 s.h. of the political science credit required for the major (36 s.h.) at the University of Iowa. Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Political Science Des Moines Internship Program, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning course work, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major; students who earn more than 56 s.h. from one department to the minimum 120 s.h. required for graduation.

The B.A. with a major in political science requires the following course work.

| Political Science Introductory Courses | 15 |
| Additional Political Science Courses | 21 |
| **Total Hours** | **36** |

Political Science Introductory Courses

This course:

| POLI:1100 | Introduction to American Politics | 3 |

And four of these:

| POLI:1001 | Introduction to Politics | 3 |
| POLI:1002 | Lawyers in the American Political System | 3 |
| POLI:1200 | Introduction to Political Behavior | 3 |
| POLI:1300 | Introduction to Political Thought and Action | 3 |

Additional Political Science Courses

| POLI:1400 | Introduction to Comparative Politics | 3 |
| POLI:1401 | Introduction to the Politics of Russia and Eurasia | 3 |
| POLI:1403 | Introduction to Politics in the Muslim World | 3 |
| POLI:1445 | Introduction to Asian Politics: China | 3 |
| POLI:1500 | Introduction to International Relations | 3 |
| POLI:1501 | Introduction to American Foreign Policy | 3 |
| POLI:1600 | Introduction to Political Communication | 3 |
| POLI:1601 | Introduction to Social Media and Politics | 3 |
| POLI:1700 | Introduction to Political Analysis | 3 |

Emphases in Political Science

Students may elect to complete one or two emphases while fulfilling the requirements for the major. The emphasis is indicated on the transcript at graduation if a student completes the emphasis and requests recognition from the department.

Each emphasis consists of four courses. Emphases are available in American institutions, international relations, identity politics, political communication, political behavior, political economy, political theory, and politics of foreign countries. For lists of courses approved in each area, contact the Department of Political Science.

Online B.A.

The Department of Political Science offers an online B.A. degree with a major in political science intended for students who are not able to attend courses that meet on campus.

The online program enables students to complete their B.A. degree from anywhere in the world. For more information, see Online Political Science B.A. on the Department of Political Science website.

B.A. with Teacher Licensure

Political science majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.
Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

The Department of Political Science course POLI:1100 Introduction to American Politics is approved for teacher education requirements.

**Honors in the Major**

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI g.p.a. and major g.p.a. of at least 3.50. In addition to maintaining the minimum grade-point average requirements in order to graduate with departmental honors, students must complete 9 s.h. in specific departmental honors courses with a grade of B or higher in each course. They also are encouraged to enroll in honors sections of introductory courses whenever available.

The required honors courses are included in the minimum 36 s.h. for the major. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn departmental honors. Visit Honors at Iowa to learn more about the University’s honors program.

Students earning departmental honors must include the following courses in their major course work.

**This course:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4000</td>
<td>Honors Seminar on the Study of Politics (preferably taken during the second year)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Additional Honors Seminar**

At least one honors seminar from these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4100</td>
<td>Honors Seminar on American Politics</td>
<td>3</td>
</tr>
<tr>
<td>POLI:4300</td>
<td>Honors Seminar on Political Theory</td>
<td>3</td>
</tr>
<tr>
<td>POLI:4400</td>
<td>Honors Seminar on Political Theory</td>
<td>3</td>
</tr>
<tr>
<td>POLI:4500</td>
<td>Honors Seminar on International Politics</td>
<td>3</td>
</tr>
</tbody>
</table>

One course numbered 5000 or above, with the instructor’s consent

**Final Honors Project**

One of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4600</td>
<td>Honors Research Project</td>
<td>3</td>
</tr>
<tr>
<td>POLI:4601</td>
<td>Honors Senior Thesis</td>
<td>3</td>
</tr>
</tbody>
</table>

For more information about honors in the political science major, contact the Department of Political Science honors advisor.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to the following checkpoints, B.A. honors students must complete POLI:4000 Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the fifth semester begins:** two courses in the major

**Before the seventh semester begins:** six courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** eight courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

**Political Science (B.A.)**

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]
2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
3 Students may use their elective courses to complete a double major, minors, or certificates.
4 For the political science major, upper-level is defined as those courses numbered 2000 or above.

Career Advancement
A recent surveyed showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences excluding economics, and the University of Iowa’s political science department organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
International Relations, B.A.

The major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students in the major are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for B.A. and B.S. students, except that the major for the B.S. requires a set of mathematics/statistics courses, while the major for the B.A. does not.

**Requirements**

The Bachelor of Arts with a major in international relations requires a minimum of 120 s.h., including at least 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

Students must complete a minimum of 18 s.h. of work for the major at the University of Iowa. A maximum of 15 s.h. of approved transfer credit may be applied toward the major. No more than 12 s.h. of course work used to satisfy the requirements of any other major, minor, or certificate program may be used toward the minimum required course work for the international relations major.

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The B.A. with a major in international relations requires the following course work.

**International Relations Core**

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

**Tracks**

International relations students complete one of the following five tracks, each of which requires 15 s.h. of course work. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

**Conflict and Foreign Policy Track**

The conflict and foreign policy track requires the following course work (minimum of 15 s.h.).

This course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:1501</td>
<td>Introduction to American Foreign Policy</td>
<td>3</td>

**Self-Defined Track**

Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 15 s.h. of course work, which must include 3 s.h. of credit earned in courses from each of three departments.

**Honors in the Major**

Students majoring in international relations have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI and major g.p.a. of at least 3.50. They must complete POLI:4500 Honors...
Seminar on International Politics or POLI:4400 Honors Seminar on Comparative Politics in addition to the minimum major requirements. Honors students complete an honors thesis through their enrollment in POLI:4800 Senior Seminar in International Relations.

Honors students in international relations are encouraged, though not required, to be members of the University's honors program. Visit Honors at Iowa to learn more.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** POLI:1500 Introduction to International Relations

**Before the fifth semester begins:** all core courses and the methods course

**Before the seventh semester begins:** at least 12 s.h. in the track and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** all track requirements

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

**International Relations (B.A.)**

**International Business and Economics Relations Track**

Notes:
1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]
Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as the J.D., M.A., or Ph.D.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Political Science, B.S.

Most of the political science course work required for the major is the same for B.S. and B.A. students, but the major for the B.S. includes a political science research component. The major for the B.S. also requires a set of mathematics/statistics courses, while the major for the B.A. does not.

Requirements

The Bachelor of Science with a major in political science requires a minimum of 120 s.h., including 50 s.h. of work for the major (39 s.h. in political science courses and 11 s.h. of approved mathematics/statistics courses). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. In addition, they must maintain a g.p.a. of at least 2.00 in all political science courses taken at the University of Iowa, and in all political science courses taken at other institutions and at the University combined. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students must earn at least 18 s.h. of the political science credit required for the major (39 s.h.) at the University of Iowa. Credit earned in POLI:1000 First-Year Seminar, POLI:3124 Political Science Des Moines Internship Program, and POLI:4900 Government and Politics Internship does not count toward the major, but grades in these courses become part of a student's grade-point average.

In planning course work, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.S. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

The B.S. with a major in political science requires the following course work.

| Political Science Introductory Courses | 15 |
| Additional Political Science Courses | 24 |
| Mathematics/Statistics Courses | 11 |
| **Total Hours** | **50** |

**Political Science Introductory Courses**

This course:

| POLI:1100 | Introduction to American Politics | 3 |

And four of these:

| POLI:1001 | Introduction to Politics | 3 |
| POLI:1002 | Lawyers in the American Political System | 3 |
| POLI:1200 | Introduction to Political Behavior | 3 |
| POLI:1300 | Introduction to Political Thought and Action | 3 |

**Additional Political Science Courses**

POLI:3124 Political Science Des Moines Internship Program and POLI:4900 Government and Politics Internship do not count toward the 18 s.h. of advanced courses.

Advanced courses:

Political science courses numbered 2000 or above, excluding POLI:3124 and POLI:4900 | 18 |

This course:

| POLI:3000 | Understanding Political Research | 3 |

One of these:

| POLI:4600 | Honors Research Project | 3 |
| POLI:4701 | Undergraduate Research Tutorial | 3 |

Recommended but not required:

| POLI:4702 | Senior Research Project/Paper | 3 |

**Mathematics/Statistics Courses**

Students complete one of the following sets of mathematics/statistics courses (11 s.h.) with a g.p.a. of at least 2.00. Other sets of courses may be used with written approval of the B.S. program advisor.

**Set 1**

| MATH:1380 | Calculus and Matrix Algebra for Business or Engineering Mathematics I: Single Variable Calculus | 4 |
| MATH:1550 | Engineering Mathematics I: Single Variable Calculus or MATH:1850 | 4 |
| STAT:4143/PSQF:4143 | Introduction to Statistical Methods | 3 |
| STAT:6513 | Intermediate Statistical Methods | 4 |

**Set 2**

| ECON:2800 | Statistics for Strategy Problems | 3 |
| MATH:1380 | Calculus and Matrix Algebra for Business | 4 |
| STAT:1030 | Statistics for Business | 4 |

**Set 3**

| MATH:1850 | Calculus I | 4 |
or MATH:1550  Engineering Mathematics I: Single Variable Calculus
MATH:1860  Calculus II
or MATH:1560  Engineering Mathematics II: Multivariable Calculus
STAT:4143/PSQF:4143  Introduction to Statistical Methods

### Emphases in Political Science

Students may elect to complete one or two emphases while fulfilling the requirements for the major. The emphasis is indicated on the transcript at graduation if the student completes the emphasis and requests recognition from the department.

Each emphasis consists of four courses. Emphases are available in American institutions, international relations, identity politics, political communication, political behavior, political economy, political theory, and politics of foreign countries. For lists of courses approved in each area, contact the Department of Political Science.

### B.S. with Teacher Licensure

Political science majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

The Department of Political Science course POLI:1100 Introduction to American Politics is approved for teacher education requirements.

### Honors in the Major

Students majoring in political science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI g.p.a. and major g.p.a. of at least 3.50. In addition to maintaining the minimum grade-point average requirements in order to graduate with departmental honors, students must complete 9 s.h. in specific departmental honors courses with a grade of B or higher in each course. They also are encouraged to take honors sections of introductory courses whenever available. The required honors courses are included in the minimum 36 s.h. for the major. Membership in the University of Iowa Honors Program is encouraged, though not required, to earn departmental honors. Visit Honors at Iowa to learn more about the University’s honors program.

Students earning departmental honors must include the following courses in their major course work.

<table>
<thead>
<tr>
<th>This course:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4000</td>
<td>3</td>
</tr>
<tr>
<td>Honors Seminar on the Study of Politics (preferably taken during the second year)</td>
<td></td>
</tr>
</tbody>
</table>

**Additional Honors Seminar**

At least one honors seminar from these:

<table>
<thead>
<tr>
<th>POLI:4100</th>
<th>Honors Seminar on American Politics</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4300</td>
<td>Honors Seminar on Political Theory</td>
</tr>
<tr>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

One course numbered 5000 or above, with the instructor’s consent

**Final Honors Project**

One of these:

<table>
<thead>
<tr>
<th>POLI:4600</th>
<th>Honors Research Project</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI:4601</td>
<td>Honors Senior Thesis</td>
</tr>
<tr>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

For more information about honors in the political science major, contact the Department of Political Science honors advisor.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to the following checkpoints, B.S. honors students must complete POLI:4000 Honors Seminar on the Study of Politics and one additional honors seminar before the seventh semester begins.

**Before the fifth semester begins:** two courses in the major

**Before the seventh semester:** eight courses in the major, including two of the three required mathematics/statistics courses and POLI:3000 Understanding Political Research; and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 11 courses in the major, including POLI:4701 Undergraduate Research Tutorial

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Sample Plan of Study

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Upper-level courses for the political science major are defined as those courses numbered 2000 or above.

**Career Advancement**

A recent surveyed showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences excluding economics, and the University of Iowa’s political science department organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields. The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
International Relations, B.S.

The major in international relations focuses on economic relations between states, a crucial area of study in today's globalized world. Students in the major are introduced to the politics of foreign countries. They develop an understanding of how countries interact and acquire a deep appreciation for the root causes of problems that transcend national boundaries.

Requirements for the major are the same for B.S. and B.A. students, except that the major for the B.S. requires a set of mathematics/statistics courses, while the major for the B.A. does not.

Requirements

The Bachelor of Science with a major in international relations requires a minimum of 120 s.h., including at least 44 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students must complete a minimum of 18 s.h. of work for the major at the University of Iowa. A maximum of 15 s.h. of approved transfer credit may be applied toward the major. No more than 12 s.h. of course work used to satisfy the requirements of any other major, minor, or certificate program may be used toward the minimum required course work for the international relations major.

Students choose one of five tracks: conflict and foreign policy, international business and economic relations, regional politics and relationships, transnational issues, or a self-defined track.

The B.S. with a major in international relations requires the following course work.

International Relations Core 12-13
Methods Course 3
Senior Seminar 3
Mathematics/Statistics Courses 11
Track Courses 15
Total Hours 44-45

International Relations Core

All of these:
POLI:1500 Introduction to International Relations 3
POLI:3512 International Conflict 3
POLI:3516 The Politics of International Economics 3
One of these:
HIST:1403 Western Civilization III 3-4
HIST:3143 International Politics: The History of the Present 3-4
HIST:3155 The World Since 1945 3

Methods Course

POLI:3000 Understanding Political Research 3

Senior Seminar

POLI:4800 Senior Seminar in International Relations 3

Mathematics/Statistics Courses

Students must complete one of the following approved sets of mathematics/statistics courses (11 s.h.) with a g.p.a. of at least 2.00. Substitutions must be approved by the director of undergraduate studies.

Set 1
MATH:1380 Calculus and Matrix Algebra for Business (or equivalent or higher level calculus course) 4
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3
STAT:6513 Intermediate Statistical Methods 4

Set 2
ECON:2800 Statistics for Strategy Problems 3
MATH:1380 Calculus and Matrix Algebra for Business (or equivalent or higher level calculus course) 4
STAT:1030 Statistics for Business 4

Set 3
MATH:1850 Calculus I 4
MATH:1860 Calculus II 4
STAT:4143/PSQF:4143 Introduction to Statistical Methods 3

Tracks

International relations students complete one of the following five tracks, each of which requires 15 s.h. of course work. Students who would like to declare the major in international relations before deciding on a track may declare the open track for advising purposes. They should talk with an advisor and decide on a track as soon as possible.

Conflict and Foreign Policy Track

The conflict and foreign policy track requires the following course work (minimum of 15 s.h.).

This course:
POLI:1501 Introduction to American Foreign Policy 3

Four of these, including at least 6 s.h. of course work offered by each of two departments:
POLI:2416 Revolutions and Political Violence 3
POLI:2417 Comparative Environmental Policy 3
POLI:3126 Environmental Policy 3
POLI:3405 Authoritarian Politics 3
POLI:3410 Russian Foreign Policy 3
POLI:3419 War in the Muslim World 3
POLI:3420 Southeast Asia: Democracy, Identity, and Development arr.
POLI:3421 Southern Africa: Development and Governance 3
POLI:3422 Transnational Issues and the Horn of Africa arr.

### International Business and Economic Relations Track

The international business and economic relations track requires the following course work (minimum of 15 s.h.).

Two of these:
- **ECON:1100** Principles of Microeconomics 4
- **ECON:1200** Principles of Macroeconomics 4
- **GEOG:2910** The Global Economy 3

Three of these, including courses from at least two different departments:
- **POLI:3126** Environmental Policy 3
- **POLI:3400** Introduction to Political Economy 3
- **POLI:3502** Politics and the Multinational Enterprise 3
- **POLI:3504** Globalization 3
- **POLI:4500** Honors Seminar on International Politics 3
- **ECON:3345** Global Economics and Business 3
- **ECON:3620** Economic Growth and Development 3
- **ECON:3625** Environmental and Natural Resource Economics 3
- **ECON:3750** Transportation Economics 3
- **ECON:4110** International Economics 3
- **ENTR:4460** Entrepreneurship and Global Trade 3
- **FIN:4240** International Finance (prerequisite required) 3
- **GEOG:2410** Environment and Development 3
- **GEOG:3070** Hungry Planet: Global Geographies of Food 3
- **HIST:3126** History of Globalization 3
- **IS:3200** Political Economy of International Development 3
- **IS:3333** Economics and Religion: Banking, Business, and Finance in Islamic and Modern Societies 3
- **MGMT:3450** International Business Environment 3
- **MKTG:4300** International Marketing (prerequisite required) 3

### Regional Politics and Relationships Track

The regional politics and relationships track requires the following course work (minimum of 15 s.h.).

This course:
- **POLI:1400** Introduction to Comparative Politics 3

Four of these, including at least 6 s.h. of courses from each of two departments:
- **POLI:1401** Introduction to the Politics of Russia and Eurasia 3
- **POLI:1403** Introduction to Politics in the Muslim World 3
- **POLI:1445** Introduction to Asian Politics: China 3
- **POLI:1449** Introduction to European Politics 3
- **POLI:2415** Latin American Politics 3
- **POLI:3401** European Union 3
- **POLI:3403** Parties and Elections Around the World 3
- **POLI:3405** Authoritarian Politics 3
- **POLI:3408** Chinese Politics and Society 3
- **POLI:3410** Russian Foreign Policy 3
- **POLI:3413** Russian Politics 3
- **POLI:3419** War in the Muslim World 3
- **POLI:3420** Southeast Asia: Democracy, Identity, and Development 3
- **POLI:3421** Southern Africa: Development and Governance 3
- **POLI:3422** Transnational Issues and the Horn of Africa 3
- **POLI:3423** The Middle East: Policy and Diplomacy 3
- **POLI:3450** Problems in Comparative Politics 3
POLI:3514 Regional Peace and Security 3
POLI:4400 Honors Seminar on Comparative Politics 3
HIST:1008 Issues in European Politics and Society 3
HIST:1602 Civilizations of Asia: China 3
HIST:1604 Civilizations of Asia: Japan 3-4
HIST:1606 Civilizations of Asia: South Asia 3-4
HIST:1708 Civilizations of Africa 3
HIST:2607 Civilizations of Asia: Korea 3-4
HIST:3145 Europe and the U.S. in the Twentieth Century 3
HIST:4289 The Atlantic World c. 1450-1850 3
HIST:4438 Modern European Imperialism 3
HIST:4460 Twentieth-Century Europe: The Nazi Era 3
HIST:4461 Twentieth-Century Europe: The Cold War and After 3
HIST:4464 Modern France 1789-1871 3
HIST:4465 Modern France 1870-Present 3
HIST:4475 Germany Since 1914: Weimar, Hitler, and After 3-4
HIST:4486 Modern Britain: The Twentieth Century 3
HIST:4493 Soviet Union 1917-1945 3-4
HIST:4501 Society and Revolution in Cuba 3
HIST:4502 History of Mexico 3
HIST:4515 Introduction to Modern Latin America 3
HIST:4525 Latin American Revolution 3
HIST:4615 Modern Japan 3
HIST:4616 Japanese History and Society: World War II to the Twenty-First Century 3
HIST:4640 Imperialism and Modern India 3
HIST:4655 China Since 1927 3
HIST:4666 Topics in Asian History 3
HIST:4685 Modern Korean History 3
HIST:4715 African History Since 1880 3
HIST:4810 History of the Modern Middle East 3
HIST:4815 Topics in the Modern Middle East 3

Transnational Issues Track

The transnational issues track requires the following course work (minimum of 15 s.h.).

At least five of these, including 3 s.h. of credit in courses from each of three departments:

<table>

Self-Defined Track
Students may create their own track with permission from the director of undergraduate studies. A self-defined track may not duplicate an existing track or another academic program of study at the University of Iowa. It must consist of at least 15 s.h. of course work, which must include 3 s.h. of credit earned in courses from each of three departments.

Honors in the Major
Students majoring in international relations have the opportunity to graduate with honors in the major. Departmental honors students must maintain a UI and major g.p.a. of at least 3.50. They must complete POLI:4500 Honors Seminar on International Politics or POLI:4400 Honors Seminar on Comparative Politics in addition to the minimum major requirements. Honors students complete an honors thesis through their enrollment in POLI:4800 Senior Seminar in International Relations.

Honors students in international relations are encouraged, though not required, to be members of the University’s honors program. Visit Honors at Iowa to learn more.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: POLI:1500 Introduction to International Relations
Before the fifth semester begins: all core courses and the methods course
Before the seventh semester begins: at least two of the mathematics/statistics courses, at least 12 s.h. in the track, and at least 90 s.h. earned toward the degree
Before the eighth semester begins: all core courses, the methods course, the remaining mathematics/statistics course, and all track requirements
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

Because international relations and the international community are so important, a major in international relations is an excellent choice for any student considering a career in either the public or private sector, including the diplomatic service, intelligence organizations, multinational corporations, nongovernmental organizations, international organizations, think tanks, public health agencies, the media, and numerous other professions. The international relations major also prepares students to pursue postbaccalaureate degrees such as the J.D., M.A., or Ph.D.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Political Science, Minor

The minor in political science requires a minimum of 15 s.h. in political science courses, including 12 s.h. in courses numbered 2000 or above and 12 s.h. taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Credit from POLI:1000 First-Year Seminar, POLI:3124 Political Science Des Moines Internship Program, and POLI:4900 Government and Politics Internship does not count toward the minor. Credit earned through a University of Iowa Regents program is considered credit earned at the University of Iowa.

Students may complete an emphasis area (see "Emphases in Political Science" under Bachelor of Arts in Political Science [p. 743] or Bachelor of Science in Political Science [p. 751]). Emphasis areas in the minor are not recorded on a student's transcript; however a student may request a letter from the Department of Political Science noting the completion of an emphasis area in the minor.
International Relations, Minor

The minor in international relations requires a minimum of 15 s.h. in course work approved for the international relations major, including at least 9 s.h. in courses numbered 3000 or above and at least 12 s.h. taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 9 s.h. earned in course work from one department toward the minor. To view the selection of courses available, see Bachelor of Arts in International Relations [p. 746] or Bachelor of Science in International Relations [p. 754].

Courses for the minor must include the following.

Political Science, M.A.

The department usually offers the master's degree only as a preliminary step toward the Ph.D.

Requirements

The Master of Arts program in political science requires a minimum of 30 s.h. of graduate credit, with a g.p.a. of at least 3.25. No thesis is required. Each student's record is reviewed by a final examination committee, which may waive the final oral examination.

A first-year evaluation committee convenes at the end of a student's first year of courses; if the committee finds that the student's work provides sufficient evidence of the research and writing skills ordinarily demonstrated in a master's thesis, it may recommend that the student be allowed to proceed with a doctoral program. When the first-year evaluation committee finds the quality of a student's work inadequate for recommending continuation toward the Ph.D., the committee may recommend that the student be permitted to seek the nonthesis M.A. as a terminal degree.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

A recent surveyed showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences excluding economics, and the University of Iowa's political science department organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Political Science, Ph.D.

Graduate study in political science emphasizes the Doctor of Philosophy program. The department usually offers the master's degree only as a preliminary step toward the Ph.D.

Requirements

The Doctor of Philosophy program in political science requires a minimum of 72 s.h. of graduate credit. The program is designed to prepare students for research, teaching, and scholarly endeavor in academic settings and private or governmental institutions. It produces graduates who are deeply committed to the study of politics, familiar with fundamental knowledge about political processes, well trained in methods and techniques for careful investigation of basic and applied research questions, and determined to make contributions to the discipline of political science and to society.

Six fields of study are available: American politics, comparative politics, international relations, political theory, formal theory, and for those who wish to go beyond the basic methodology training, research methods. Each student chooses three fields of study for qualifying examinations.

The department usually admits seven to ten Ph.D. students each year, so students work closely with faculty members, often collaborating on research and publication. Graduate students know one another and enjoy supportive, congenial working conditions.

Doctoral study usually lasts four to five years. The first-year curriculum for all students consists of core courses equally divided between substance and methodology. Emphasis is on basic research methods, including quantitative methods, that political scientists must understand thoroughly. Special attention is given to research design, collection of observations, and data analysis and interpretation.

The second and third years of study are spent in small seminars with focused, substantive topics. Papers written for these seminars might be submitted to journals or read at professional meetings. Students must take their qualifying examinations by the end of the third year. They take their comprehensive examination (oral defense of the dissertation proposal) by the middle of the first semester of their fourth year.

The fourth and fifth years are spent on dissertation research and writing. Students who do basic research and gather data abroad often require an additional year to complete the dissertation.

The Guide to Doctoral Study in Political Science, available from the Department of Political Science and on its website, provides a comprehensive statement of departmental requirements.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

The Ph.D. program is designed for students planning an academic career. A recent surveyed showed that graduates with political science degrees have higher average salaries than graduates in all other social sciences excluding economics, and the University of Iowa’s political science department organizes career workshops for its students throughout the year. The workshops are led by former political science students who have achieved distinction in business, law, campaign operations, local government, elected office, or other fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Psychological and Brain Sciences

Chair
• Jodie M. Plumert

Undergraduate major: psychology (B.A., B.S.)
Undergraduate minor: psychology
Graduate degrees: M.A. in psychology; Ph.D. in psychology
Faculty: https://psychology.uiowa.edu/people/faculty
Website: https://psychology.uiowa.edu

The Department of Psychological and Brain Sciences offers an undergraduate major and minor as well as graduate degree programs. It also offers courses that undergraduate students in all majors may use to satisfy the General Education Program [p. 437] Social Sciences requirement and a First-Year Seminar designed for entering undergraduate students.

Faculty

Faculty members of the Department of Psychological and Brain Sciences are nationally and internationally renowned leaders in a variety of subdisciplines. Their research is funded by numerous federal and private research grants, their findings are documented in many publications, and their accomplishments have won many awards.

• Doctor of Philosophy in Psychology [p. 781]

Facilities

The department's facilities for graduate training and research are among the finest in the country. The Kenneth W. Spence Laboratories of Psychology, adjoining space in Seashore Hall, and the newly renovated Stuit Hall provide a variety of laboratories for human and animal studies. Facilities include animal housing areas; a histology laboratory; observation suites with remote audiovisual control and recording equipment; soundproof chambers; electrophysiological recording rooms; conditioning laboratories; the Seashore Clinic; and well-equipped electronic, mechanical, and woodworking shops. Computers are widely available. Office space for graduate students and faculty members is provided in Seashore Hall.

The research and teaching activities of the department benefit greatly from the facilities and staff of other University and local agencies, including University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Health Care System, the University Counseling Service, the Center for Disabilities and Development, the Wendell Johnson Speech and Hearing Clinic, the Center for Health Policy and Research, and the School of Social Work.

Courses

The following courses are open to first-year students who have satisfactorily completed an introductory psychology course (PSY:1001 Elementary Psychology or equivalent). Other courses numbered from PSY:1000-PSY:2999 are considered lower-level undergraduate courses.

PSY:2301 Introduction to Clinical Psychology
PSY:2401 Introduction to Developmental Science
PSY:2501 Introduction to Social Psychology
PSY:2601 Introduction to Cognitive Psychology
PSY:2701 Introduction to Behavioral Neuroscience
PSY:2910 Industrial/Organizational Psychology

Before enrolling in any upper-level undergraduate courses, students must complete all specified lower-level prerequisites or obtain consent of the instructor. Courses numbered PSY:3000-PSY:4999 are considered upper-level undergraduate courses. Those numbered PSY:5000-PSY:7610 are considered graduate-level courses.

Psychological and Brain Sciences Courses

PSY:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

PSY:1001 Elementary Psychology 3 s.h.
Psychology as a behavioral science. GE: Social Sciences.

PSY:2130 Advanced Psychology for Pre-Medical Track 3 s.h.
Psychology as a behavioral science; elementary psychology in more depth, advanced topics. Prerequisites: PSY:1001. Requirements: non-psychology major.

PSY:2301 Introduction to Clinical Psychology 3 s.h.
Introduction to abnormal psychology; scientist-practitioner model, training, ethics, research methods in clinical psychology; current approaches to intellectual, personality, behavioral assessment; theories, research on treatment of psychological disorders. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2401 Introduction to Developmental Science 3 s.h.
Current research in developmental science; prenatal development, brain development, motor and physical development, perceptual development, language development, cognitive development, aspects of socio-emotional development; emphasis on modern theoretical approaches. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2501 Introduction to Social Psychology 3 s.h.
Research and theories on people's thoughts, feelings, and behaviors in social situations; attitudes, attributions, person perception, aggression, stereotypes and prejudice, attraction, relationships, social influence, group processes, altruism. Prerequisites: PSY:1001.
PSY:2601 Introduction to Cognitive Psychology 3 s.h.
Individual human cognition; perception, attention, memory, language, learning, problem solving, decision making, thought considered from viewpoint of information processing. Prerequisites: PSY:1001. GE: Social Sciences.

PSY:2701 Introduction to Behavioral Neuroscience4 s.h.
Biological mechanisms of behavior; comparative study of behavior, behavioral organization, animal intelligence, social behavior, communication; behavioral neuroscience, how brain systems control sensation, movement, homeostasis, emotion, learning. Prerequisites: PSY:1001.

PSY:2810 Research Methods in Psychology 4 s.h.
Logic of experimental and nonexperimental methods, application of methods to analysis of behavioral phenomena; skills for critical evaluation of professional and public literature dealing with scientific study of behavior; philosophy of scientific psychology, principles of research design and control, psychological testing, applications in several research areas. Prerequisites: STAT:1020 or STAT:1020 or PSQF:4143 or SOC:2160 or STAT:1030 or PSQF:4143 or STAT:3510.

PSY:2811 Research Methods and Data Analysis in Psychology I 3 s.h.
Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as they are applied in psychological research; study of descriptive statistics, measurement, survey design, correlational analyses, and regression analysis; first in a sequence of two courses. Prerequisites: PSY:1001.

PSY:2812 Research Methods and Data Analysis in Psychology II 3 s.h.
Foundational knowledge in psychological research methods and corresponding statistical concepts; basic concepts of statistics, statistical inference, and research design as they are applied in psychological research; study of experimental control, experimental design, and hypothesis testing; second in a sequence of two courses. Prerequisites: PSY:2811 with a minimum grade of C-.

PSY:2910 Industrial/Organizational Psychology 3 s.h.
Applications of psychology to problems in world of work; emphasis on personnel selection, training, attitudes, motivation, measurement of job performance. Prerequisites: PSY:1001.

PSY:2920 Fundamentals of Human Neuropsychology 3 s.h.
Basic understanding of relationship between brain and behavior through examination of behavioral and cognitive consequences of brain damage from disease or trauma; foundations of neuropsychology, structure of the nervous system, functional specialization of the brain, cognitive functions, and assessments of brain disorders. Prerequisites: PSY:1001. Requirements: non-psychology major.

PSY:2930 Abnormal Psychology: Health Professions 3 s.h.
Introduction to psychological disorders; description of psychopathology; general issues in etiology and treatment; for non-psychology students in allied health professions. Prerequisites: PSY:1001. Requirements: non-psychology major.

PSY:3010 Health Psychology 3 s.h.
Psychological contributions to understanding etiology, prevention, treatment of physical illness; basic and clinical research that addresses reciprocal effects of behavior and physical health. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).

PSY:3015 Psychology of Interpersonal Relations 3 s.h.
Theories, empirical findings, speculation from social psychology and related disciplines regarding how people form, maintain, and alter close, interpersonal relationships. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2301 with a minimum grade of C-).

PSY:3020 Mind and Behavior 3 s.h.
Theories of what it is to act and know, of what intelligence might be in animals, humans, machines; perspectives from philosophy, psychology. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-). Requirements: junior or senior standing.

PSY:3030 Social and Personality Development 3 s.h.
Emotional, social, and personality development from infancy to adolescence; major theories and empirical research; child temperament, parent-child relationship, and social context as contributors to individual differences. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2401 with a minimum grade of C-).

PSY:3040 Psychology of Learning 3 s.h.
Psychological science of acquired behavior; interests in experimental study of Pavlovian conditioning, operant conditioning, cognition in humans and nonhuman animals, relevance to behavioral adaptation. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3060 Visual Perception and Cognition 3 s.h.
Psychological and neurophysiological examination of vision. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3065 The Aging Mind and Brain 3 s.h.
Current theories and research on biological, cognitive, and emotional changes that occur during aging; methodologies for studying cognitive and brain aging. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2701 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3071 Cognition and the Brain 3 s.h.
Analysis of brain systems and neuroanatomy that underlie cognitive tasks such as vision, hearing, emotion, attention, language, decision making, learning, and memory. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2701 with a minimum grade of C-).
PSY:3085 Language Development 3 s.h.
Introduction to first language acquisition, with focus on infancy through five years; sound discrimination abilities, word learning, babbling and speech production, acquisition of grammar; perspectives from psychology, linguistics, speech pathology. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2401 with a minimum grade of C- or PSY:2601 with a minimum grade of C-). Same as SLA:3401.

PSY:3090 Psychology of Workplace Behaviors 3 s.h.
Introduction to theory and research of workplace and work-related behaviors; focus on industrial and organizational psychology. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2501 with a minimum grade of C- or PSY:2601 with a minimum grade of C-).

PSY:3095 Psychology of Relationship Violence 3 s.h.
Introduction to psychological theory and research on violence in relationships; topics will include intimate partner violence, sexual assault and rape, sexual harassment, and stalking; includes a service learning component. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C-).

PSY:3220 Behavioral Neuroscience 3 s.h.
Basic concepts and techniques in neurosciences, their application to analysis of sensory processes, arousal mechanisms, motivation, learning. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3230 Psychopharmacology 3 s.h.
How drugs act to influence behavior; general principles of drug action on the nervous system; licit and illicit drugs, use/abuse, historical perspective on drug use. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3240 Motivation, Addiction, and the Brain 3 s.h.
Analysis of motivated behaviors (e.g., behaviors to obtain specific goals, such as food) and the brain processes that guide such behavior; exploration of brain processes underlying addiction. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3250 Neuroscience of Learning and Memory 3 s.h.
Major topics in the neuroscience of learning and memory; focus on anatomical, cellular, molecular bases of various learning and memory processes. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3270 Neurobiology of Stress 3 s.h.
Introduction to concept of stress and physiological systems involved; factors modulating stress vulnerability versus resilience; stress interactions with other systems with health relevance; emphasis on current research on brain mechanisms. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3280 Introduction to Health Biopsychology 3 s.h.
Physiological basis of behavior and cognition; interaction between brain and body in normal and pathological states. Prerequisites: PSY:2701 with a minimum grade of C- and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:3320 Abnormal Psychology 3 s.h.
Etiology, phenomenology, and treatment of child and adult DSM-IV psychological disorders (e.g., mood disorders, psychotic disorders, anxiety disorders, personality disorders). Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.

PSY:3330 Childhood Psychopathology 3 s.h.
Major forms of childhood psychopathology; current theoretical approaches and methodological issues in diagnosis, conceptualization, treatment of developmental psychopathology. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.

PSY:3340 Behavior Modification 3 s.h.
Basic approaches to modification of clinically distressing behavior; learning theory principles underlying techniques, translation into procedures, experimental evaluation of effectiveness. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.

PSY:3350 Psychotherapies 3 s.h.
Current theories and research on frequently used psychotherapeutic approaches; focus on methodology in psychotherapy research, specific types of therapy, and empirically supported therapies. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2301 with a minimum grade of C-.

PSY:3420 Cognitive Development of Children 3 s.h.
Developmental research, theory concerning children's concepts, thinking, problem solving, memory, communication. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2401 with a minimum grade of C-.

PSY:3451 Infant Development 3 s.h.
Physical, motor, perceptual, cognitive, and social development during first two years of life; focus on early mechanisms of change; locomotion, perceptual abilities, precursors of cognition, early language acquisition, social interaction. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2401 with a minimum grade of C-.

PSY:3460 Language and Communication Development 3 s.h.
Vocal and social development from prelinguistic communication through early language; precursors of language development; social cognitive aspects of language development; comparative perspectives of communication development. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2401 with a minimum grade of C-.
PSY:3530 Personality 3 s.h.
Classic theoretical models and contemporary empirical research in personality, including influence of heredity and environment, consistency and stability of behavior. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2301 with a minimum grade of C- or PSY:2501 with a minimum grade of C-).

PSY:3540 Attitude Change 3 s.h.
Current theoretical approaches; laboratory and field methods of research; basic processes of change considered within broader framework of psychology. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3560 Psychology of Gender 3 s.h.
Origins of gender roles, gender socialization in childhood, gender differences across lifespan; research on gender differences in cognition, emotions, behavior, physical and mental disorders, communication. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3570 Social Cognition 3 s.h.
Research and theory on cognitive structures and processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, schemas, person perception, stereotypes, attitudes. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3580 Judgment and Decision Making 3 s.h.
Processes and biases that shape judgments and decisions of various types (e.g., about other people, the future, competitions, products, medical treatments, health risks, crime suspects). Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3590 Stigma and Prejudice 3 s.h.
Research and theory on prejudice, stigmatization, stereotyping and discrimination, focusing on nature, origins, and impact of prejudice and stigma. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3595 Psychology of Negotiation 3 s.h.
Distributive and integrative bargaining; cognitive, motivational, and emotional processes that inhibit or facilitate effectiveness in negotiating; team and multiparty negotiations; agency and ethics; complex disputes; and cross-cultural issues. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2501 with a minimum grade of C-.

PSY:3620 Human Memory 3 s.h.
Contemporary psychological theory and research on short-term and long-term memory, acquisition processes, related topics in cognition. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2601 with a minimum grade of C-.

PSY:3660 Human Information Processing 3 s.h.
Early through contemporary theory and research on human information processing; focus on human-machine interaction and ergonomics. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2601 with a minimum grade of C- or PSY:2501 with a minimum grade of C-).

PSY:3670 Language Processes 3 s.h.
Psychological processes involved in using languages, including speech perception and production, the meaning of words, understanding and producing sentences, and basics of discourse and pragmatics; developmental and neural bases of language processes. Prerequisites: (PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and PSY:2601 with a minimum grade of C-) or CSD:1015 or LING:3001. Same as LING:3670.

PSY:3994 Research Practicum in Psychology arr.
Small-group participation in faculty research projects; literature review, study planning, data collection, analysis, interpretation, write-up.

PSY:3995 Advanced Research Practicum 1-3 s.h.
Individual participation in faculty research projects; significant reading and writing. Requirements: two semesters of PSY:3994 or HONR:3994.

PSY:3996 External Practicum in Psychology 1-3 s.h.
Student participation in career-related professional activities in community and University of Iowa agencies.

PSY:3997 Teaching/Advising Practicum in Psychology 1-3 s.h.
Participation in faculty teaching as undergraduate teaching assistant or the Psychology Peer Advisor Program.

PSY:3998 Individual Readings and Projects 1-3 s.h.
Requirements: psychology major and undergraduate standing.

PSY:4020 Laboratory in Psychology 4 s.h.
Laboratory study of an aspect of behavior; topics in a particular area (e.g., learning and memory, perception, social behavior, operant behavior, physiological processes). Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-).

PSY:4090 Psychology Seminar 3 s.h.
Readings from original sources, presentations, papers, student participation. Prerequisites: PSY:2701 and (PSY:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-). Requirements: psychology B.S. enrollment and senior standing.

PSY:4990 Honors Thesis Research 1-3 s.h.
Supervised original project; leads to written thesis, oral defense. Requirements: honors standing.

PSY:5050 Quantitative Methods in Psychology 4 s.h.
Overview of statistical methods based on the general linear model, including ANOVA, ANCOVA, and multiple regression; how to conduct these analyses using SPSS. Requirements: first-year graduate standing in psychology.

PSY:5055 Mixed-Effects Modeling in Psychology 4 s.h.
Introduction to mixed-effects analysis of hierarchically structured and cross-classified psychological data using R. Prerequisites: PSY:5050.
PSY:5203 Fundamental Neurobiology 4 s.h.
Neurobiology from molecular/cellular to systems levels, including cell biology of neuron; membrane electrophysiology, synaptic transmission and plasticity, functional neuroanatomy, sensory systems from periphery to CNS, peripheral and central motor systems, autonomic systems emotion, memory, sleep, language, attention and cognition, development of nervous system; discussion of classic and recent journal articles. Same as BIOL:5653, NSCI:5653.

PSY:5210 Fundamentals of Behavioral Neuroscience 3-4 s.h.
Concepts, methods, and findings in behavioral and cognitive neurosciences; emphasis on principles of neuroscience, sensation, motivation, emotion. Same as NSCI:5210.

PSY:5212 Foundations in Behavioral and Cognitive Neuroscience 4 s.h.
Concepts, methods, and findings in behavioral and cognitive neurosciences. Prerequisites: BIOL:3253 or PSY:5210 or NSCI:5210. Same as NSCI:5212.

PSY:5320 Descriptive Psychopathology 3 s.h.
Psychiatric syndromes, including description, etiology, experimental and clinical research; development, function of classification systems.

PSY:5330 Principles of Psychological Assessment 4 s.h.
Assessment theory and basic psychometric principles in test construction, evaluation, application; ethical, social, psychological, psychometric issues and controversies in assessment.

PSY:5365 Seminar: Neuropsychology and Neuroscience arr.
Clinical neuropsychology and cognitive neuroscience; cutting-edge research from scientific journals, case presentations in clinical neuropsychology, and current research. Same as NEUR:5365, NSCI:5365.

PSY:5410 Proseminar in Developmental Science 3 s.h.
Introduction to developmental process and developmental science; topics organized around mechanisms of development, with cross-disciplinary focus.

PSY:5610 Proseminar in Cognition and Perception 3 s.h.
Broad overview of study of cognition, including cognitive psychology, computer science and artificial intelligence, linguistics, neuroscience, philosophy of mind.

PSY:5710 Introduction to Health and Behavioral Science 3 s.h.
Evolution of health psychology; survey of major physiological systems in which pathology is affected by behavioral processes; review of theoretical approaches, experimental paradigms from behavioral science as they may apply to assessment of health problems; prevention, intervention, psychological adaptation to physical disease.

PSY:6050 Clinical Behavioral Medicine 3 s.h.
Biopsychosocial framework applied to study, treatment of chronic and acute physical conditions; clinical concepts, procedures.

PSY:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6101, LING:6101.

PSY:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as CSD:6102, LING:6102.

PSY:6210 Behavioral Pharmacology 3 s.h.
Behavioral analysis of drug action; emphasis on physiological and biological mechanisms underlying behavioral processes in experimental animals, humans.

PSY:6230 Foundations of Learning, Memory, and Cognition 3 s.h.
Determinants of adaptive behavior in humans and animals; emphasis on behavioral analysis of learning, memory and cognition; relevance of laboratory research to real-life activities.

PSY:6250 Neurobiology of Drug Addiction and Stress 3 s.h.
Neurobiology of drug addiction and stress from molecular/cellular to systems level; discussion of classic and recent journal articles.

PSY:6265 Neuroscience Seminar 0-1 s.h.
Research presentations. Offered fall and spring semesters. Same as ACB:6265, BIOL:6265, MPB:6265, NSCI:6265.

PSY:6270 Fundamentals of Health Biopsychology 3 s.h.
Biological basis of behavior and cognition in relation to disordered regulation of body-brain systems in pathological states.

PSY:6280 Structural and Functional MRI Methods and Application 3 s.h.
Introduction to basic principles of magnetic resonance imaging and its application to psychology; imaging of brain structure; focus on functional MRI. Requirements: graduate-level introductory statistics.

PSY:6340 Psychological Therapies 3 s.h.
Historical development and current status of empirically based therapies for psychological disorders, including anxiety, depression, schizophrenia, childhood disorders; emphasis on critical evaluation of therapy techniques.

PSY:6350 Ethics and Professional Concerns arr.
Major ethical and legal issues relevant to clinical psychologists' varied roles; understanding of legal and ethical issues encountered by psychologists in varied settings, development of personal working model for resolving ethical and professional concerns.

PSY:6370 Principles of Neuropsychology 3 s.h.
Principles of human neuropsychology, including foundations (history, methods, approaches), major functional systems (vision, memory, language, spatial processing), executive functions (emotional processing and personality), and applications (experimental, clinical). Recommendations: prior course work in psychological assessment, psychopathology, and neuroanatomy.

PSY:6440 Developmental Cognitive Neuroscience 3 s.h.
Overview of current developmental cognitive neuroscience theory, research, and methods (PET, fMRI, optical imaging, EEG, ERPs); neural development, computational neuroscience, and methods.
PSY:6450 Processes of Language Acquisition 3 s.h.
Theoretical and computational approaches to the study of first language acquisition from infancy to five years, including prelinguistic sound discrimination, babbling, semantic development, categorization abilities, syntactic and grammatical development.

PSY:6460 Translating Developmental Science to Applied Problems 3 s.h.
Relationship between basic and applied research in development; individual differences work and how applied work informs theory.

PSY:6480 Computational Approaches to Development 3 s.h.
Use of computational models to understand development; model development, specific approaches, model evaluation, and hands-on model work.

PSY:6490 Dynamic Systems and Development 3 s.h.
Dynamical systems theory, its application to basic problems in developmental psychology; development of motor control, cognition, language; comparisons with other theoretical approaches in developmental psychology.

PSY:6510 Advanced Social-Personality Psychology 3 s.h.
Classic and contemporary theory, research, methodological issues in social-personality psychology.

PSY:6520 Attitudes and Persuasion 3 s.h.
Classic and current theories and findings on persuasion, the formation and measurement of attitudes.

PSY:6530 Advanced Social Cognition 3 s.h.
Research and theory on cognitive processes that underlie judgment, decision, belief, and behavior in social situations; attribution, heuristics, counterfactual thinking, schemas, person perception, stereotypes, attitudes.

PSY:6550 Advanced Social and Personality Development 3 s.h.
Theory and research on social and personality development; overview of development and individual differences in emotions, temperament, attachment, self, social cognition, conscience; influence of biological factors, social relationships, and broader ecology on adaptive and maladaptive developmental pathways.

PSY:6560 Stereotyping, Prejudice, and Discrimination 3 s.h.
Theory and research on origins and mechanisms of stereotyping, prejudice, and discrimination; implications for perceivers, targets, and interpersonal interactions.

PSY:6580 Moral Psychology 3 s.h.
Research and theory on cognitive and affective processes that underpin moral judgment and moral behavior; neuroscience approaches to moral judgment; political differences in moral judgment; development, evolution, and clinical variation in morality.

PSY:6590 Judgment and Decision Making 3 s.h.
Theory and research on how people gather, perceive, and use information when making judgments and decisions; includes risky and uncertain contexts; social and nonsocial contexts.

PSY:6620 Computational Modeling of Cognition 3 s.h.
Introduction to computational modeling as a methodology for studying cognition; computational models' role and use as a framework for thinking about cognition; emphasis on hands-on simulation exercises.

PSY:6640 Visual Perception 3 s.h.
Theoretical and empirical analyses of low- and high-level visual functions, including edge detection, surface representation, object identification.

PSY:6650 Attention 3 s.h.
Theory and research on attention, from viewpoints of cognitive psychology and cognitive neuroscience, including historical perspectives, recent approaches.

PSY:6740 Drug Addiction 3 s.h.
Analysis of factors involved in drug addiction; social, clinical, and biological processes.

PSY:7020 Seminar: Cognitive Neuroscience 0-2 s.h.
Neurological and behavioral investigations of attention, perception, learning, memory, decision making, planning; contemporary models, theories.

PSY:7030 Seminar: Health Psychology 0-3 s.h.
Theoretical and methodological issues; focus on specific topics (i.e., chronic disease, psychoneuroimmunology).

PSY:7070 Seminar: Behavioral Biomedical Interface 1 s.h.
Ongoing seminar; discussion of research at behavioral-biomedical interface. Requirements: acceptance to Behavioral Biomedical Interface Training Program.

PSY:7090 Principles of Scholarly Integrity 1 s.h.
Training in responsible conduct of research; student/mentor responsibilities; authorship and reviewing; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: enrollment in graduate psychology or biology program. Same as BIOL:7090.

PSY:7110 Research Projects arr.

PSY:7120 M.A. Thesis Research arr.

PSY:7150 Current Topics in Psychology 3 s.h.

PSY:7160 Problems in Psychology arr.
Individual study.

PSY:7170 Teaching Practicum arr.
Supervised practice in teaching.

PSY:7210 Seminar: Advanced Topics in Behavioral and Cognitive Neuroscience 3 s.h.
Prerequisites: PSY:5210.

PSY:7310 Seminar: Orientation to Clinical Research 0-1 s.h.
Issues in clinical research, including use of databases, advisor/advisee relationships, preparation of IRB proposals, paper presentation and publication, common early career problems, funding resources.

PSY:7350 Introductory Practicum arr.
Orientation to Department of Psychology clinic, including instruction in interviewing, observation of clinic procedures, attendance at clinic rounds under supervision of clinical psychology faculty members.

PSY:7355 Assessment Practicum arr.
Supervised practice in psychological assessment techniques.

PSY:7360 Therapy Practicum arr.
Supervised practice and clinical experience in application and evaluation of psychological therapies.
PSY:7365 External Practicum          arr.
Supervised practice and clinical experience in field setting; psychological assessment techniques and/or application, evaluation of psychological therapies.

PSY:7370 Supervision and Consultation Practicum arr.
Supervision and training of less advanced students; consultation to other programs and agencies.

PSY:7430 Seminar: Cognitive Development 0-3 s.h.
Theoretical, methodological issues focused on cognitive and perceptual development.

PSY:7510 Seminar: Social Psychology 1 s.h.
Professional issues, current topics relevant to social psychologists.

PSY:7604 Principles of Scholarly Integrity 0 s.h.
Training in responsible conduct of research and scholarly activities; student/mentor responsibilities; authorship; plagiarism/falsification/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: postdoctoral standing in psychology or biology. Same as BIOL:7604.

PSY:7610 Seminar: Cognitive Psychology 2 s.h.

PSY:7620 Seminar: Human Perception and Performance 1 s.h.
Professional issues and current topics relevant to psychologists studying human perception and performance.
Psychology, B.A.

The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as areas such as business, law, communication, medicine, and the allied health sciences. Students who intend to enter the job market immediately after completing an undergraduate degree should complement their psychology major with substantial preparation in another program more closely tied to the world of work (e.g., education, social work, business, journalism, nursing). Almost all vocational opportunities in psychology require advanced degrees.

The psychology major for the Bachelor of Arts has fewer specific requirements and puts less emphasis on methodology than the Bachelor of Science major. The program leaves time for students to supplement the psychology major with another program of study.

Students who change to a psychology major after two years of undergraduate work may find they do not have sufficient background for the B.S. program. They may wish to enrich the B.A. program with courses in experimental psychology and other advanced electives if they intend to pursue graduate work in psychology or a related field.

Students begin with a general introductory course, followed by a behavioral neuroscience course, methodology and data analysis courses, and introductory courses in several broad areas: developmental science, clinical psychology, cognitive psychology, and social psychology. These courses are followed by upper-level psychology course work selected by each student.

The department maintains excellent facilities to support teaching and research on human and animal behavior. All faculty members are directly engaged in research, and they bring to their undergraduate teaching the excitement that such activity generates. Many opportunities exist for interested and capable students to participate in current research projects in the department.

The department has an active undergraduate organization, the Iowa Students Psychology Association, which is open to all interested students. The group sponsors speakers, films, career days, and student symposia.

Admission to the Major

Admission to the psychology major for the Bachelor of Arts is open; any University of Iowa undergraduate student may enter the B.A. program.

Entering first-year and transfer students who have completed less than 30 s.h. of course work and are interested in entering the B.S. program are admitted to the B.A. program until they satisfy the admission requirements for the B.S. program. New transfer students who meet the admission requirements for the B.S. program may choose to enter the B.S. or the B.A. program.

Students in the B.A. program may switch to the B.S. program if they meet admission requirements at the time of the request. Students may switch from the B.S. to the B.A. program at any time.

Requirements

The Bachelor of Arts with a major in psychology requires a minimum of 120 s.h., including 46-47 s.h. of work for the major, with at least 34 s.h. in psychology courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. Transfer credits must be approved by the department, and transfer students must complete at least 18 s.h. of psychology courses at the University of Iowa.

The major for the B.A. is designed for students who wish to gain considerable knowledge in psychology but do not necessarily plan a professional career in the discipline. It is appropriate for students preparing for careers in law, business, counseling, social work, or secondary school teaching (see “B.A. with Teacher Licensure” below). It can be combined with a second major more easily than can the Bachelor of Science program.

Choice of a degree program should be dictated by a student's personal career goals. B.A. students interested in pursuing graduate study in psychology or other social sciences may enrich their program by taking courses in mathematics, statistics, research methods, and the natural sciences.

B.A. and B.S. students complete the same psychology core and psychology electives. The major for the B.A. also requires an additional statistics or computer science course plus a second concentration area.

The Department of Psychological and Brain Sciences enforces a strict regression policy. This rule applies to PSY:1001 Elementary Psychology. Students who have not previously taken PSY:1001 but have completed a course in psychology with a higher number may not take PSY:1001 for credit.

This rule also applies to students who want a second-grade-only option for the course. Students must retake PSY:1001 for a new grade before enrolling in or completing any other psychology course with a higher number. Students may not later retake the first introductory psychology course for a second grade after completing a more advanced course.

The B.A. with a major in psychology requires the following courses or their equivalents.

</table>
Lower-Level Psychology Requirements

Students take all of the following courses after completing PSY:1001 Elementary Psychology.

- PSY:2301 Introduction to Clinical Psychology 3
- PSY:2401 Introduction to Developmental Science 3
- PSY:2501 Introduction to Social Psychology 3
- PSY:2601 Introduction to Cognitive Psychology 3

Upper-Level Psychology Electives

Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. Psychology courses (prefix PSY) numbered 3000 or above may be used to fulfill this requirement, except those in the following list.

- PSY:3994 Research Practicum in Psychology arr.
- PSY:3995 Advanced Research Practicum 1-3
- PSY:3996 External Practicum in Psychology 1-3
- PSY:3997 Teaching/Advising Practicum in Psychology 1-3
- PSY:3998 Individual Readings and Projects 1-3
- PSY:4020 Laboratory in Psychology 4
- PSY:4090 Psychology Seminar 3
- PSY:4990 Honors Thesis Research 1-3

Additional Requirements

Cognate Requirement

Students complete one of the following upper-level statistics or computer science courses.

Statistics
- BIOS:4120 Introduction to Biostatistics 3
- STAT:1020/PSQF:1020 Elementary Statistics and Inference 3
- STAT:1030 Statistics for Business 4
- STAT:3510 Biostatistics 3
- STAT:4143/PSQF:4143 Introduction to Statistical Methods 3

Computer Science
- CS:1020 Principles of Computing 3
- CS:1110 Introduction to Computer Science 3
- CS:1210 Computer Science I: Fundamentals 4

Second Concentration Area

Students complete 9 s.h. of graded course work in a single department other than the Department of Psychological and Brain Sciences. Courses used to fulfill this requirement must be taken at the University of Iowa and may not be used to fulfill General Education Program [p. 437] requirements.

A second major or a minor may be used to fulfill the requirement.

B.A. with Teacher Licensure

Psychology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Honors in the Major

Students majoring in psychology have the opportunity to graduate with honors in the major. Departmental honors students must complete PSY:4090 Psychology Seminar and write an honors thesis, which is based on an approved original honors research project that a student has conducted under the guidance of a faculty member. Interested students should contact the department’s honors advisor.

Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33.

National Honor Society

The department sponsors a chapter of Psi Chi, the national honor society in psychology and affiliate of the American Psychological Association. Students who have a g.p.a. of at least 3.00 overall and in psychology course work and who have completed 9 s.h. of psychology courses may request a membership application form. Consult the department’s academic coordinator for more information.

Joint B.A./M.P.H. with Community and Behavioral Health Subprogram

Bachelor of Arts students majoring in psychology who are interested in earning a Master of Public Health degree with a community and behavioral health subprogram may apply to the joint B.A./M.P.H. program offered by the College of Liberal Arts and Sciences and the College of Public Health. The program permits students to count 12 s.h. of credit toward the requirements for both degrees, enabling them to begin the study of public health before they complete the bachelor’s degree. For information about the public health program, see "Community and Behavioral Health Subprogram" in the Master of Public Health Program [p. 1583] section of the Catalog.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

In addition to courses in psychology, the B.A. requires three graded courses in a second concentration area.

Before the third semester begins: PSY:1001 Elementary Psychology
Before the fifth semester begins: PSY:2701 Introduction to Behavioral Neuroscience and one or more lower-level psychology requirements

Before the seventh semester begins: four courses in the major (including PSY:2811 Research Methods and Data Analysis in Psychology I and PSY:2812 Research Methods and Data Analysis in Psychology II), one course in the second concentration area, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two additional courses in the major and an additional course in the second concentration area

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 437].

2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3 Students may use their elective courses to complete a double major, minors, or certificates.

Career Advancement

Undergraduate psychology students who don’t intend to enroll in graduate school right after earning their bachelor’s degree frequently earn a second major in a discipline that has broad opportunities for employment, such as education, social work, business, journalism, or nursing.

Learn more about careers in psychology at the American Psychological Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Psychology, B.S.

The major in psychology is designed to contribute to students' general liberal arts and sciences education and to provide a foundation for postbaccalaureate training in psychology and closely related disciplines as well as areas such as business, law, communication, medicine, and the allied health sciences. Students who intend to enter the job market immediately after completing an undergraduate degree should complement their psychology major with substantial preparation in another program more closely tied to the world of work (e.g., education, social work, business, journalism, nursing). Almost all vocational opportunities in psychology require advanced degrees.

The psychology major for the Bachelor of Science is intended for students who plan to pursue advanced work in psychology or in a related discipline. It requires a specific grade-point average for admission and certain courses in experimental psychology, mathematics, and natural science. The program leaves time for students to supplement the psychology major with another program of study.

Students who change to a psychology major after two years of undergraduate work may find they do not have sufficient background for the B.S. program.

Students begin with a general introductory course, followed by a behavioral neuroscience course, methodology and data analysis courses, and introductory courses in several broad areas: developmental science, clinical psychology, cognitive psychology, and social psychology. These courses are followed by upper-level psychology course work selected by each student.

The department maintains excellent facilities to support teaching and research on human and animal behavior. All faculty members are directly engaged in research, and they bring to their undergraduate teaching the excitement that such activity generates. Many opportunities exist for interested and capable students to participate in current research projects in the department.

The department has an active undergraduate organization, the Iowa Students Psychology Association, which is open to all interested students. The group sponsors speakers, films, career days, and student symposia.

Admission to the Major

Admission to the major for the Bachelor of Science is selective. To be eligible for admission to the B.S. program, students must have completed 30 s.h. of college course work (excluding any credit by exam) and must have a cumulative g.p.a. of 2.67 or higher. There is no limit on the number of qualified students admitted to the B.S. program. Students who do not meet the minimum admission requirements may petition the department in writing, presenting additional evidence of their qualifications.

Entering first-year and transfer students who have completed less than 30 s.h. of course work and are interested in entering the B.S. program are admitted to the B.A. program until they satisfy the admission requirements for the B.S. program. New transfer students who meet the admission requirements for the B.S. program may choose to enter the B.S. or the B.A. program.

Students in the B.A. program may switch to the B.S. program if they meet admission requirements at the time of the request. Students may switch from the B.S. to the B.A. program at any time.

Requirements

The Bachelor of Science with a major in psychology requires a minimum of 120 s.h., including 55-57 s.h. of work for the major, with at least 41 s.h. in psychology courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437). Transfer credits must be approved by the department, and transfer students must complete at least 18 s.h. of psychology courses at the University of Iowa.

The major for the B.S. emphasizes research methodology, so the B.S. may be the degree of choice for students who plan to do graduate work in psychology and related research fields. However, a Bachelor of Science is not required for graduate study in psychology. Choice of a degree program should be dictated by a student's personal career goals.

B.A. and B.S. students complete the same psychology core and psychology electives. The major for the B.S. also requires a pair of natural science courses, one semester of calculus, and an additional mathematics course.

The Department of Psychological and Brain Sciences enforces a strict regression policy. This rule applies to PSY:1001 Elementary Psychology. Students who have not previously taken PSY:1001 but have completed a course in psychology with a higher number may not take PSY:1001 for credit.

This rule also applies to students who want a second-grade-only option for the course. Students must retake PSY:1001 for a new grade before enrolling in or completing any other psychology course with a higher number. Students may not later retake the first introductory psychology course for a second grade after completing a more advanced course.

The B.S. with a major in psychology requires the following courses or their equivalents.

Psychology Core 13
Lower-Level Psychology Requirements 12
Upper-Level Psychology Electives 9
Psychology Topics Courses 7
Natural Science Courses 7-8
Calculus and Additional Mathematics Courses 7-8
Total Hours 55-57

Psychology Core

All majors complete the following course work for the psychology core.

PSY:1001 Elementary Psychology 3
PSY:2701 Introduction to Behavioral Neuroscience 4
PSY:2811 Research Methods and Data Analysis in Psychology I 3
PSY:2812 Research Methods and Data Analysis in Psychology II 3

Lower-Level Psychology Requirements

Students take all of the following courses after completing PSY:1001 Elementary Psychology.
PSY:2301  Introduction to Clinical Psychology  3
PSY:2401  Introduction to Developmental Science  3
PSY:2501  Introduction to Social Psychology  3
PSY:2601  Introduction to Cognitive Psychology  3

**Upper-Level Psychology Electives**

Students take three advanced psychology courses (total of 9 s.h.) after satisfactorily completing the psychology core and other specified prerequisites. Psychology courses (prefix PSY) numbered 3000 or above may be used to fulfill this requirement, except those in the following list.

<table>
<thead>
<tr>
<th>Course</th>

<td>Laboratory in Psychology</td>
<td>4</td>
</tr>
<tr>
<td>PSY:4090</td>
<td>Psychology Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

**Natural Science Courses**

Students are required to complete one of the following pairs of specified natural science courses (7-8 s.h.). All of these combinations can be used to fulfill the General Education Program [p. 437] natural sciences requirement. Students should consult with their advisors concerning specific courses that satisfy these requirements.

**One of these pairs (one semester each of chemistry and biology):**

<table>
<thead>
<tr>
<th>Course Pair</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM:1070 &amp; BIOL:1114</td>
<td>General Chemistry I - Introductory Animal Biology</td>

</tbody>
</table>

**B.S. with Teacher Licensure**

Psychology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

**Honors in the Major**

Students majoring in psychology have the opportunity to graduate with honors in the major. Departmental honors students must complete PSY:4090 Psychology Seminar and write an honors thesis, which is based on an approved original honors research project that a student has conducted under the guidance of a faculty member. Interested students should contact the department’s honors advisor.
Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33.

**National Honor Society**

The department sponsors a chapter of Psi Chi, the national honor society in psychology and affiliate of the American Psychological Association. Students who have a g.p.a. of at least 3.00 overall and in psychology course work and who have completed 9 s.h. of psychology courses may request a membership application form. Consult the department’s academic coordinator for more information.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The psychology major for the B.S. is open only to students who have earned 30 s.h. and have a g.p.a. of at least 2.67. Students must complete a natural science sequence, either as part of the General Education Program or in addition to it. Students also must complete a semester of calculus and an advanced math, statistics, or computer science course, which may require some preliminary work.

**Before the third semester begins:** PSY:1001 Elementary Psychology and PSY:2701 Introduction to Behavioral Neuroscience

**Before the fifth semester begins:** calculus and three additional courses in the major (including PSY:2811 Research Methods and Data Analysis in Psychology I and PSY:2812 Research Methods and Data Analysis in Psychology II)

**Before the seventh semester begins:** two more courses in the major, one course for the major’s natural science requirement, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** the advanced mathematics/statistics/computer science course and two more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

Undergraduate psychology students who don’t intend to enroll in graduate school right after earning their bachelor’s degree frequently earn a second major in a discipline that has broad opportunities for employment, such as education, social work, business, journalism, or nursing.

Learn more about careers in psychology at the American Psychological Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Psychology, Minor

The minor in psychology requires a minimum of 15 s.h., including 12 s.h. in psychology courses (prefix PSY) taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and all UI courses for the minor. Course work in the minor may not be taken pass/nonpass or satisfactory/fail. Before registering for a psychology course, students must complete the course’s prerequisites.

A minor in psychology complements majors in a variety of disciplines. Department advisors can help students identify courses for the minor that are especially appropriate for their major.
Psychology, M.A.

Graduate study in psychology is designed for students seeking the Ph.D.; students enrolled in the doctoral program may elect to receive a Master of Arts when they have completed the M.A. requirements.

Requirements

The Master of Arts program in psychology requires 30 s.h. of graduate credit with thesis, and 37 s.h. of graduate credit without thesis. The department ordinarily offers the M.A. only to students enrolled in the Ph.D. program.

Thesis students must earn 24 of the required 30 s.h. at the University of Iowa. Course work for the thesis program must include a statistics course and at least an additional 8 s.h. earned in the Department of Psychological and Brain Sciences courses and seminars. Thesis students also must complete an acceptable scholarly thesis and perform successfully in an oral defense of their thesis.

Nonthesis students must earn 30 of the required 37 s.h. at the University of Iowa. Course work for the nonthesis program must include a statistics course and at least an additional 15 s.h. earned in the Department of Psychological and Brain Sciences courses and seminars. Nonthesis students also must perform successfully on an examination covering their area of specialization.

Graduate Training Areas

Behavioral and Cognitive Neuroscience

The program in behavioral and cognitive neuroscience focuses on the analysis of learning, memory, attention, motivation, aging, sensory processing, and sleep, in both human and nonhuman subjects, through the application of behavioral and biological principles. Special faculty strengths are in classical and operant conditioning, motivation and emotion, developmental psychobiology, neurobiology of learning, comparative psychology, cognitive neuroscience, neopharmacology, neuromodulation, and neuroanatomy. Students in this program have the opportunity to learn state-of-the-art techniques in computer-controlled experimentation and electronic instrumentation as well as advanced analytic and laboratory methods in neurophysiology, nonhuman neurosurgery, histology, neuroimaging, and assays of biochemical activity.

Faculty members in the behavioral and cognitive neuroscience area interact extensively with colleagues from other divisions in the psychology department and from several basic science and clinical departments in the Carver College of Medicine, including anatomy, anesthesia, pharmacology, internal medicine, pediatrics, and neurology. These collaborative activities provide excellent research and training opportunities for students interested in emerging interdisciplinary fields such as behavioral medicine.

Clinical Psychology

The clinical training program emphasizes a scientific approach to the understanding of psychological disorders and the influence of psychological factors on human relationships and health. The program is accredited by the Psychological Clinical Science Accreditation System (PCSAS), has been continuously accredited by the Commission on Accreditation of the American Psychological Association since 1948, and is a charter member of the Academy for Psychological Clinical Science.

The program is designed for students who are interested primarily in helping to advance scientific understanding of clinical phenomena and in acquiring the research skills necessary to do so. Faculty members and students have active research collaborations with colleagues from many departments in the University's Carver College of Medicine and College of Public Health and at the Iowa City Veterans Affairs Health Care System. Many of the program's faculty members conduct externally funded research programs that use cutting-edge behavioral science to develop improved understanding of mechanisms, processes, and interventions for mental disorders. Faculty members have strong training records, and the program's graduates have gone on to top-tier research, teaching, and clinical service positions.

The clinical psychology program provides the first-hand clinical experience and opportunities to develop clinical competence that are integral to clinical research. It closely integrates practicum experience in the Seashore Clinic with course work and supervised research experience. Advanced students have opportunities to gain additional clinical experience through placement in the Benton Neuropsychology Clinic, Women's Wellness and Counseling Service, adult and child psychiatry clinics, the Iowa City Veterans Affairs Health Care System, and other venues.

Cognition and Perception

The cognition and perception training area is guided by the philosophy that understanding a specific cognitive process requires an understanding of how it interacts with other cognitive processes. The area pursues empirical rigor and theoretical development, so its research is theory driven and data tested.

Research programs of the area's laboratories overlap with each other, and most content areas are studied by multiple laboratories and with multiple methodologies. Areas of strength include categorization, computational modeling, cognitive control, language and language learning, learning and memory, visual cognition, attention, and working memory. Students in perception and cognition take basic courses and seminars in specialty areas, but they devote most of their time to research activities. Students work closely with a faculty mentor at first and then become progressively independent as they gain knowledge and skills. The program encourages students to work with more than one faculty member, both in the program and across the department and the University. Students often combine basic work on cognition with work in areas such as neuroscience, neuropsychology, psychiatry, developmental psychology, and human factors engineering.

Developmental Science

The developmental science program focuses on understanding the processes that underlie change as each individual follows a unique developmental pathway. Students examine influences on development ranging from the level neurons to neighborhoods, and they work to understand the step-by-step accumulation of effects across these levels and over time. Students are taught a broad range of developmental theory and acquire expertise in multiple research paradigms, such as observational research, experimentation, computational methods, and neuroimaging. They also have the opportunity to study and collaborate with faculty members whose research cuts across domains such as...
as perception, cognition, action, social processes, and basic biological mechanisms. Faculty members collaborate with their colleagues across the University, including those in the Carver College of Medicine. These collaborations provide students with a unique breadth of training.

Students take courses in many areas of developmental science as well as in other areas of psychological and brain sciences. They also have research opportunities in early communication and social development, cognitive development in infancy and childhood, neuroimaging in toddlers and adults, and developmental psychobiology. The developmental research group meets regularly in conjunction with other members of the University of Iowa’s DeLaTa Center, providing students and faculty members the opportunity to present and discuss their own research as well as to gain exposure to other developmental work being conducted in the department and at the University.

Health Psychology

The health psychology program is a research-based doctoral program concerned with application of psychological theory, methods, and treatment to understanding of physical health and illness as well as understanding biobehavioral factors that contribute to disease onset and progression. The program’s perspective is based on the biopsychosocial model, which posits that biological, psychological, and social processes are integrally and interactively involved in physical health and illness.

Graduate training in health psychology emphasizes the integration of knowledge about biological, psychological, and social factors. Students are involved in research whose content and methods reflect the biopsychosocial perspective. Training in health psychology is facilitated by the faculty’s longstanding collaborations with medical practitioners and researchers at the University’s Carver College of Medicine and University of Iowa Hospitals and Clinics. Availability of medical populations and state-of-the-art medical technologies afford a unique opportunity for doctoral students in health psychology.

Research areas of the health psychology program include stress and illness, psychoneuroimmunology, patient adherence, animal models of hypertension and heart failure, postpartum depression, women’s health issues, and psychoncology.

Students who are interested in clinical training with a focus on health psychology should apply directly to the clinical program and indicate an interest in clinical health psychology.

Social Psychology

The social psychology program offers a variety of perspectives on interpersonal and intrapersonal processes. Examples of research foci of faculty and students are social-cognitive processes, attitudes, stereotyping and prejudice, social comparison, judgment and decision making, compassion and altruism, moral judgment, emotion, social motivation, parent-child relationships, temperament and individual differences in childhood, and social and emotional development.

Graduate training in the social psychology program is designed primarily to prepare students for careers in psychology research and teaching. In addition to their experiences and course work in the program and in the Department of Psychological and Brain Sciences, students can benefit from opportunities in related academic units at the University, such as the Departments of Sociology, Communication Studies, and Statistics and Actuarial Science, and the Tippie College of Business. Such experience can broaden a student’s training, research opportunities, and employment prospects.

Admission

Since the graduate program in psychology is designed primarily for students seeking the Ph.D., all applicants are considered on that basis. Occasionally, a qualified applicant who is in good standing in another UI graduate program and is interested in advanced work in psychology only through the M.A. level may be admitted to pursue a joint graduate program. Students interested in such a program should contact the department chair before filing an application.

The application deadline is December 1. For all materials to be on file by that date, applicants should take the Graduate Record Examination (GRE) General Test in October, and no later than November. The subject test in psychology is not required. Applications may be submitted any time but are considered only once each year—between December 1 and February 1—for admission the following fall. Admission decisions are based on a composite consideration of prior academic and research performance; letters of reference; scores on the verbal, quantitative, and analytic writing sections of the GRE General Test; and the applicant’s statement about background and purpose. Admission materials are reviewed initially by faculty members in the applicant’s primary training area.

An undergraduate major in psychology—including a laboratory course in experimental psychology, a course in statistics, and additional work in the natural sciences and in mathematics—is desirable but not required. Students who have not had such a background but are strongly qualified on other grounds may be admitted. They are expected to remedy deficiencies through special course work or independent study before embarking on the regular graduate program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

Students who pursue a master’s degree in psychology have many opportunities to teach psychology in community colleges or high schools or to find employment in a business, school, or hospital.

Learn more about careers in psychology at the American Psychological Association website.
Psychology, Ph.D.

Graduate study in psychology is designed for students seeking the Ph.D.; students enrolled in the doctoral program may elect to receive a Master of Arts when they have completed the M.A. requirements.

Requirements

The Doctor of Philosophy program in psychology requires a minimum of 72 s.h. of graduate credit. Students entering without previous graduate work usually require at least four years to complete the program; those entering with previous graduate training usually require three to five additional years in the department, depending on the nature of the earlier preparation.

The Ph.D. program places strong emphasis on preparation for research, teaching, and scholarly endeavor, whether in academic settings or in industrial, governmental, or medical institutions. The intent is to produce graduates who are deeply committed to the study of psychology, familiar with fundamental knowledge about psychological processes, well-trained in the methods and techniques for careful investigation of basic and applied problems, and determined to make contributions to the discipline of psychology and to society.

Graduate training is organized in six broad areas: behavioral and cognitive neuroscience, clinical psychology, cognition and perception, developmental science, health psychology, and social psychology (see "Graduate Training Areas" below). Entering students are expected to identify one of these as their primary area and to follow a program that develops thorough understanding of the substantive material and methods of investigation central to that subdiscipline. While pursuing specialty training, all students must meet course requirements in statistics and research methods and in content areas other than their primary one.

The training area programs are sufficiently flexible to permit students to develop substantial competence in a second training area. Individually tailored programs are possible.

The 72 s.h. required for the Ph.D. includes at least 33 s.h. in Department of Psychological and Brain Sciences courses. All students must satisfy, through one of several options, requirements in statistics and research methods. They also must take course work outside the primary training area to develop a background in the discipline of psychology as a whole.

During each of the first two semesters, graduate students ordinarily take three courses—for example, a statistics course, a course or two in the primary training area, and/or an outside area elective. Students also begin their research under the supervision of their advisor and with the guidance of their research advisory committee.

Near the end of the fall semester of the second year, students submit a report describing their research to date. At the beginning of the following semester, they present their research at the annual graduate research symposium.

During subsequent years, students continue selected course work in their training and interest areas and continue to develop their research programs. In addition, they develop a prospectus for the dissertation research and take the comprehensive examination, which covers material in the specialty area. The final year is devoted primarily to conducting the Ph.D. study and preparing the dissertation. In the Ph.D. final examination, students present an oral defense of their dissertation and are expected to relate the dissertation work to broader issues in the discipline of psychology.

Graduate Training Areas

Behavioral and Cognitive Neuroscience

The program in behavioral and cognitive neuroscience focuses on the analysis of learning, memory, attention, motivation, aging, sensory processing, and sleep, in both human and nonhuman subjects, through the application of behavioral and biological principles. Special faculty strengths are in classical and operant conditioning, motivation and emotion, developmental psychobiology, neurobiology of learning, comparative psychology, cognitive neuroscience, neuropharmacology, neuroendocrinology, and neuroanatomy. Students in this program have the opportunity to learn state-of-the-art techniques in computer-controlled experimentation and electronic instrumentation as well as advanced analytic and laboratory methods in neurophysiology, nonhuman neurosurgery, histology, neuroimaging, and assays of biochemical activity.

Faculty members in the behavioral and cognitive neuroscience area interact extensively with colleagues from other divisions in the psychology department and from several basic science and clinical departments in the Carver College of Medicine, including anatomy, anesthesia, pharmacology, internal medicine, pediatrics, and neurology. These collaborative activities provide excellent research and training opportunities for students interested in emerging interdisciplinary fields such as behavioral medicine.

Clinical Psychology

The clinical training program emphasizes a scientific approach to the understanding of psychological disorders and the influence of psychological factors on human relationships and health. The program is accredited by the Psychological Clinical Science Accreditation System (PCSAS), has been continuously accredited by the Commission on Accreditation of the American Psychological Association since 1948, and is a charter member of the Academy for Psychological Clinical Science.

The program is designed for students who are interested primarily in helping to advance scientific understanding of clinical phenomena and in acquiring the research skills necessary to do so. Faculty members and students have active research collaborations with colleagues from many departments in the University’s Carver College of Medicine and College of Public Health and at the Iowa City Veterans Affairs Health Care System. Many of the program’s faculty members conduct externally funded research programs that use cutting-edge behavioral science to develop improved understanding of mechanisms, processes, and interventions for mental disorders. Faculty members have strong training records, and the program’s graduates have gone on to top-tier research, teaching, and clinical service positions.

The clinical psychology program provides the first-hand clinical experience and opportunities to develop clinical competence that are integral to clinical research. It closely integrates practicum experience in the Seashore Clinic with course work and supervised research experience. Advanced students have opportunities to gain additional clinical experience through placement in the Benton Neuropsychology Clinic, Women’s Wellness and Counseling Service, adult and
child psychiatry clinics, the Iowa City Veterans Affairs Health Care System, and other venues. After five to six years of on-campus work, including completion of all course work and most of the dissertation, students serve a one-year internship at an approved site.

**Cognition and Perception**

The cognition and perception training area is guided by the philosophy that understanding a specific cognitive process requires an understanding of how it interacts with other cognitive processes. The area pursues empirical rigor and theoretical development, so its research is theory driven and data tested.

Research programs of the area’s laboratories overlap with each other, and most content areas are studied by multiple laboratories and with multiple methodologies. Areas of strength include categorization, computational modeling, cognitive control, language and language learning, learning and memory, visual cognition, attention, and working memory.

Students in perception and cognition take basic courses and seminars in specialty areas, but they devote most of their time to research activities. Students work closely with a faculty mentor at first and then become progressively independent as they gain knowledge and skills. The program encourages students to work with more than one faculty member, both in the program and across the department and the University. Students often combine basic work on cognition with work in areas such as neuroscience, neuropsychology, psychiatry, developmental psychology, and human factors engineering.

**Developmental Science**

The developmental science program focuses on understanding the processes that underlie change as each individual follows a unique developmental pathway. Students examine influences on development ranging from the level neurons to neighborhoods, and they work to understand the step-by-step accumulation of effects across these levels and over time. Students are taught a broad range of developmental theory and acquire expertise in multiple research paradigms, such as observational research, experimentation, computational methods, and neuroimaging. They also have the opportunity to study and collaborate with faculty members whose research cuts across domains such as perception, cognition, action, social processes, and basic biological mechanisms. Faculty members collaborate with their colleagues across the University, including those in the Carver College of Medicine. These collaborations provide students with a unique breadth of training.

Students take courses in many areas of developmental science as well as in other areas of psychological and brain sciences. They also have research opportunities in early communication and social development, cognitive development in infancy and childhood, neuroimaging in toddlers and adults, and developmental psychobiology. The developmental research group meets regularly in conjunction with other members of the University of Iowa’s DelTA Center, providing students and faculty members the opportunity to present and discuss their own research as well as to gain exposure to other developmental work being conducted in the department and at the University.

**Health Psychology**

The health psychology program is a research-based doctoral program concerned with application of psychological theory, methods, and treatment to understanding of physical health and illness as well as understanding biobehavioral factors that contribute to disease onset and progression. The program’s perspective is based on the biopsychosocial model, which posits that biological, psychological, and social processes are integrally and interactively involved in physical health and illness.

Graduate training in health psychology emphasizes the integration of knowledge about biological, psychological, and social factors. Students are involved in research whose content and methods reflect the biopsychosocial perspective. Training in health psychology is facilitated by the faculty’s longstanding collaborations with medical practitioners and researchers at the University’s Carver College of Medicine and University of Iowa Hospitals and Clinics. Availability of medical populations and state-of-the-art medical technologies afford a unique opportunity for doctoral students in health psychology.

Research areas of the health psychology program include stress and illness, psychoneuroimmunology, patient adherence, animal models of hypertension and heart failure, postpartum depression, women’s health issues, and psycho-oncology.

Students who are interested in clinical training with a focus on health psychology should apply directly to the clinical program and indicate an interest in clinical health psychology.

**Social Psychology**

The social psychology program offers a variety of perspectives on interpersonal and intrapersonal processes. Examples of research foci of faculty and students are social-cognitive processes, attitudes, stereotyping and prejudice, social comparison, judgment and decision making, compassion and altruism, moral judgment, emotion, social motivation, parent-child relationships, temperament and individual differences in childhood, and social and emotional development.

Graduate training in the social psychology program is designed primarily to prepare students for careers in psychology research and teaching. In addition to their experiences and course work in the program and in the Department of Psychological and Brain Sciences, students can benefit from opportunities in related academic units at the University, such as the Departments of Sociology, Communication Studies, and Statistics and Actuarial Science, and the Tippie College of Business. Such experience can broaden a student’s training, research opportunities, and employment prospects.

**Admission**

Since the graduate program in psychology is designed primarily for students seeking the Ph.D., all applicants are considered on that basis.

The application deadline is December 1. For all materials to be on file by that date, applicants should take the Graduate Record Examination (GRE) General Test in October, and no later than November. The subject test in psychology is not required. Applications may be submitted any time but are considered only once each year—between December 1 and February 1—for admission the following fall. Admission decisions are based on a composite consideration of prior academic and research performance; letters of reference; scores on the verbal, quantitative, and analytic writing sections of the GRE General Test; and the applicant’s statement about background and purpose. Admission
materials are reviewed initially by faculty members in the applicant’s primary training area.

An undergraduate major in psychology—including a laboratory course in experimental psychology, a course in statistics, and additional work in the natural sciences and in mathematics—is desirable but not required. Students who have not had such a background but are strongly qualified on other grounds may be admitted. They are expected to remedy deficiencies through special course work or independent study before embarking on the regular graduate program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

All students admitted to the Ph.D. program in psychology are guaranteed five years of financial support, as long as they make satisfactory progress and remain in good academic standing. Financial support is provided through fellowships, teaching assistantships, research assistantships, and traineeships, depending on merit and availability. No separate application for financial aid is required.

Career Advancement

Religious Studies

Chair
• Diana Cates

Undergraduate major: religious studies (B.A.)
Undergraduate minors: religion and media; religious studies
Graduate degrees: M.A. in religious studies; Ph.D. in religious studies
Faculty: https://clas.uiowa.edu/religion/people/faculty
Website: https://clas.uiowa.edu/religion/

The Department of Religious Studies encourages multidisciplinary inquiry into religious ideas, experiences, philosophies, cultural expressions, and social movements. It studies a rich array of traditions and paths, including South and Southeast Asian religions, ancient Judaism and early Christianity, African diaspora religions, modern European Christianity, various Islamic sects, North American religions, including Native American traditions, and new forms of religion that many people may not yet recognize as religions.

The study of religion helps students to think critically and creatively about the many forms that religion takes and the subtle ways in which it operates. Students learn how people from around the world have responded to age-old questions about life, love, suffering, and death. They learn about religion's impact on global events, including its influences on the construction of personal and communal identities, and its roles in shaping processes of social change, both historically and in the contemporary, digital era.

Courses

Religious Studies Courses

RELS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

RELS:1001 Judaism, Christianity, and Islam 3 s.h.
Introduction to the sacred literature, beliefs, and rituals of Judaism, Christianity, and Islam, focusing on key aspects of their millennia-old traditions; historical connections of these three religions, as well as their contemporary relationship. GE: Historical Perspectives.

RELS:1010 CLAS Master Class 1-3 s.h.

RELS:1015 Religions in a Global Context: The Critical Role of Religion in International Affairs 3 s.h.
Essentials of world’s religions; focus on religion’s role in national and international events, fundamentalism, millenarianism, protest movements, religion and youth culture, religion and popular culture, contact between religious communities past and present.

RELS:1021 Judaism: The Sacred and the Secular 3 s.h.
Ways in which the sacred face of Judaism (Hebrew Bible and rabbinic additions) have transformed and been transformed by historical frameworks in which Jews and Judaism have existed; special attention given to the Holocaust, modern nation-state of Israel, and experiences of Jews in modern secular nation-states. GE: Values, Society, and Diversity.

RELS:1070 Introduction to the Hebrew Bible/Old Testament 3 s.h.
History, religion, and thought of ancient Jews as recorded in their scripture. GE: Values, Society, and Diversity.

RELS:1080 Introduction to the New Testament 3 s.h.

RELS:1113 Gateway to the Bible 3 s.h.
Disagreement of Jews, Catholics, Protestants, and Eastern Orthodox Christians about the Bible, one of the most influential works in Western culture, on how it should be interpreted, what books should be included, and what versions of those books should be authoritative; introduction to issues involved in creating and interpreting the Bible; how academic study of religion seeks to provide answers.

RELS:1130 Introduction to Islamic Civilization 3 s.h.
Major areas of Islamic religious tradition: Qur’an, traditions of the Prophet, development and character of Islamic law, theology. GE: International and Global Issues; Values, Society, and Diversity. Same as HIST:1130.

RELS:1225 Medieval Religion and Culture 3 s.h.
Religion in Europe from classical antiquity to dawn of the Reformation; the religious element in traditions such as art, architecture, literature. GE: Historical Perspectives. Same as HIST:1425.

RELS:1250 Modern Religion and Culture 3 s.h.
European and American religious life from Renaissance to 21st century; focus on specific themes, such as secularism, regionalism, pluralism. GE: Historical Perspectives. Same as HIST:1450.
RELS:1323 Life in the Biblical World 3 s.h.
Examination of world depicted in Old and New Testaments of the Bible; archaeological evidence, ancient art, historical accounts, geography, and Bible text used to examine background of biblical text, shedding light on different aspects of daily life in antiquity from different points of view from Late Bronze Age through Roman period. Same as CLSA:1323.

RELS:1350 Introduction to African American Religions 3 s.h.
GE: Values, Society, and Diversity. Same as AFAM:1250.

RELS:1404 Living Religions of the East 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values, Society, and Diversity. Same as ASIA:1040.

RELS:1410 Introduction to Indian Religions 3 s.h.
Religions with origins in the South Asian geographic region (e.g., Vedas in mid-second millennium BCE, Jainism and Buddhism from sixth to fourth centuries BCE, Sikhism in 15th century, Indian Christianity, Islam); focus on Hinduism and Buddhism; rise of varied literary forms, ritual, rise of devotional religion, Tantra, how religious practices affect indigenous medical traditions, how these traditions developed in different South Asian regions; broad changes in South Asian religion in 20th and early 21st centuries, current politicization of religion.

RELS:1430 The Bible: Frequently Asked Questions 3 s.h.
Curious about what the Bible is or how it was created, the biblical character that your friends keep referencing, where ideas like Satan and the apocalypse come from, or how the Bible influences our world today? Introduction to the Bible and its influences on Western culture; course format organized by question types to allow flexibility in learning.

RELS:1502 Asian Humanities: India 3 s.h.
Introduction to four thousand years of South Asian civilization, through popular stories. GE: Values, Society, and Diversity. Same as SOAS:1502.

RELS:1506 Introduction to Buddhism 3 s.h.
Basic tenets, religious paradigms, historical phases important in the development of Buddhism; from the Buddha's life to evolution of Mahāyāna Buddhism; readings from India, Tibet, China, Japan, Korea, Southeast Asia. GE: Values, Society, and Diversity. Same as ASIA:1060.

RELS:1510 Gods, Buddhas, and Ghostly Officials: The Past and Present of Chinese Religions 3 s.h.
History of religious beliefs and practices in China; role in modern-day Chinese society; specific case studies that illuminate current situation of religion in China and impact on Chinese society; focus on the still widespread worship of gods and ancestors, the Confucian, Buddhist and Daoist traditions, recent upsurge of Christianity in China, and emergence of new religions (e.g., the Falun gong). Same as ASIA:1100.

RELS:1610 Japanese Religions 3 s.h.
Religions of Japan from ancient times to the present day: elite and popular Japanese interpretations of Chinese Buddhist and Daoist traditions; the parallel development of an indigenous kami tradition; contemporary new religious movements; focus on the codification of a variety of religious (and sometimes quasi-religious) paths, including the way of tea, the way of the brush, and the way of the samurai. Same as JPNS:1115.

RELS:1702 Religion in America Today 3 s.h.
How American men, women, and children practice their beliefs in today's society. GE: Values, Society, and Diversity.

RELS:1765 U.S. Latino Religions 3 s.h.
Beliefs and practices of U.S. Latinos and Latinas, ways that their beliefs and practices are unique and where they overlap with mainstream U.S. society; beliefs, symbols, and practices among U.S. Latinos and Latinas on national and local level; field visits to local churches and religious sites; class visitors share insights. Same as LAS:1765.

RELS:1810 Longing for Freedom 3 s.h.
Religious backgrounds and unique spiritualities of Maya Angelou (an African-American Christian), Black Elk (a Lakota Sioux medicine man), and the Dalai Lama (a Tibetan Buddhist monk); forms of oppression that humans can experience as obstacles to happiness, and forms of liberation that are possible (social, political, economic, mental, emotional, spiritual). GE: Values, Society, and Diversity.

RELS:1903 Quest for Human Destiny 3 s.h.
Quests for destiny in terms of perceived options/goals and ability to recognize, pursue, achieve them. GE: Values, Society, and Diversity.

RELS:1997 Harry Potter: The Mystery and Magic of Life 3 s.h.
Exploration of Harry Potter novels and films that offer millions of people an entrée into a world of wizards, witches, and muggles; this engaging world created by J.K. Rowling invites readers and viewers to explore the power of human imagination, creates a space for asking questions of personal significance (What defines me as a person? What sort of person am I in the process of becoming? What are the most significant factors that are shaping my identity and destiny?); students read selections and view film segments while exploring these essential questions.

RELS:2064 Tricksters, Fools, and Creators: Mythical Agents of Change 3 s.h.
Trickster figures found all around the world in many forms, including coyote, br’er rabbit, spider, raven, and gods; how they are often depicted as bungling fools or dupes, but also as creators, transformers, or culture heroes; how they get into trouble and solve human problems; how storytellers have long entertained and educated their listeners with tales of trickster exploits; trickster figures that have been recast in comic books and on movie screens (e.g., Loki); examination of historical and contemporary trickster figures to understand how they are experienced by different cultures and how they shape and inform human behavior.

RELS:2068 Jews in Popular Culture 3 s.h.
Exploration of a wide variety of ways in which Jewish people represent themselves through production of cultural media.

RELS:2080 Public Life in the U.S.: Religion and Media 3 s.h.
Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion, role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Same as COMM:2080.
RELS:2087 Narnia and Beyond: The Writings of C.S. Lewis 3 s.h.
Exploration of C.S. Lewis's use of fantasy to describe the indescribable, his efforts to empathize with human suffering while hoping in possibility of miracles, and his jargon-free narration of Christian beliefs for a war-weary country; Lewis's works that continue to attract attention, ranging from children's literature to science fiction to autobiography and nonfiction; as a professor of medieval and renaissance literature, Lewis's unique perspective on Christianity that led him to make use of imagery, metaphors, and narratives previously neglected by Christian thinkers.

RELS:2090 Issues in American Catholicism 3 s.h.
Major issues that have faced Catholics in America; special attention to issues of gender, racial, and ethnic identities.

RELS:2182 Ancient Mediterranean Religions 3 s.h.
Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values, Society, and Diversity. Same as CLSA:2482.

RELS:2225 Messianic and Apocalyptic Prophecy in the Bible 3 s.h.
Literary, historical, and theological analysis of biblical prophecies and their impact. Same as CLSA:2425.

RELS:2260 Hard Cases in Healthcare 3 s.h.
Exploration of ethical impact that advances in biotechnology, including genetic, reproductive, and neonatal technology, are having in the medical arena and on our humanity; consideration of the powerful influence that religion and spirituality have on most people's thinking about life and death. Same as GHS:2260.

RELS:2272 Religion and Film 3 s.h.
Religious ideas that are often explored and debated in movies; movies that retell a particular story (Noah or Kundun) or rework ancient themes (Little Buddha or The Matrix); movies that go beyond mere entertainment to try to persuade audiences to change their view of the world and how movie watchers do not realize that this process is taking place; analysis of movies that use ancient or religious material to try to shape people's minds and imaginations today. Recommendations: some background in religious studies helpful.

RELS:2289 Jerusalem: The Holy City 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths--Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as CLSA:2489.

RELS:2320 Jesus and the Gospels 3 s.h.
How Jesus was depicted in the writings of the early church; reasons for the different portrayals. Same as CLSA:2420.

RELS:2353 Love: Journey of an Idea Through Time 3 s.h.
Idea of love from influential texts of the past to various aspects of contemporary culture and experience (e.g., romantic love, mystical experience, digitally-mediated friendships, family relationships); idea of universal human rights; cybersex.

RELS:2361 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as CLSA:2461, HIST:2461.

RELS:2486 Religious Coexistence and Conflict in the Middle East 3 s.h.
Examination of coexistence and conflict in the region that includes Iraq, Israel/Palestine, Lebanon, Syria and Yemen; relationship between religion and politics in the Middle East; how the region's diverse ethnic and religious communities coexisted in the past and what now seems like a remarkably tolerant environment; investigation of questions (Did Muslims, Christians, and Jews really live together in peace? If so, how and why has that changed?); history of communal relations in the Middle East; use of this background to analyze how religion and ethnicity function in contemporary politics.

RELS:2510 Fed Up with Organized Religion 3 s.h.
Explores the rise of discontent with organized religion in America and the flourishing of alternative means for understanding the meaning and purpose of life and the universe.

RELS:2552 Atheism, Agnosticism, and Religion 3 s.h.
History and analysis of religious skepticism in Western culture from the classical period through modern times. Same as CLSA:2552.

RELS:2674 You Are What You Eat: Food, Belief, and Identity 3 s.h.
Introduction to study of food and identity in a global context.

RELS:2700 Sacred World of Native Americans 3 s.h.
GE: Values, Society, and Diversity. Same as AINS:2700.

RELS:2730 African American Islam 3 s.h.
Same as AFAM:2730.

RELS:2771 Sexual Ethics 3 s.h.
Introduction to religion and ethics; diverse secular, Jewish, and Christian perspectives on human sexuality and sexual activity; religious views underlying divergent attitudes toward same-gender sexuality and abortion. Same as GWS:2771.

RELS:2775 The Bible and the Holocaust 3 s.h.
Religious and philosophic implications of the Holocaust viewed through survivors' writings.

RELS:2791 Religion and Social Life 3 s.h.
Religion as a dimension of experience that can find diverse forms of expression, especially in social life and production of culture, not simply a social institution that is defined by a set of beliefs and practices.

RELS:2834 Philosophy of Religion 3 s.h.
Historical to contemporary treatments of central issues; nature of faith, existence and nature of God, science and religion, ethics and religion, miracles, religious experience, interpretation of religious texts. Requirements: sophomore or higher standing. Same as PHIL:2534.

RELS:2852 Women in Islam and the Middle East 3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values, Society, and Diversity. Same as GWS:2052.

RELS:2877 Sport and Religion in America 3 s.h.
Sport as a religion; religiosity in sports; examination of religion and sport as connected in important ways in American society. Same as SPST:2077.
RELS:2883 Science and Christianity: Conflicts and Conversations 3 s.h.
Science, technology, and religion as some of the most powerful forces in the world and their dramatic interactions; various conflicts and conversations between science and Christianity in modern Western culture beginning with Galileo; evolution, intelligent design, Big Bang, "God Particle," Human Genome Project, and spiritual implications of neuroscience. Recommendations: nontechnical knowledge of physics, biology, and psychology.

RELS:2912 The Bible in Film: Hollywood and Moses 3 s.h.
How Hollywood has interpreted the Biblical stories of Adam and Eve, Moses, and David the King.

RELS:2930 Digital Media and Religion 3 s.h.
Influences of digital media on religion and spirituality today. Same as COMM:2079.

RELS:2947 Quest II: Sex, Love, and Death 3 s.h.
Readings from the Hebrew Bible, Sophocles' Antigone, Melville's Billy Budd, Hemingway's The Sun Also Rises, Salinger's A Perfect Day for Banana Fish, the film From Here to Eternity.

RELS:2962 Islam in the Public Sphere: Arts, Literature, Culture, and Politics 3 s.h.
Religion as exerting undeniable influence in public sphere in communities around the world; examination of ways in which religion manifests itself in public sphere; religion in the arts, politics, science, literature, sports, communication, business, education, and many other domains of public sphere.

RELS:2980 Religion and Contemporary Popular Culture 3 s.h.
Representation and appropriation of world religions in contemporary popular culture (film, television, music, new media); new religious movements arising within popular culture; religion in the digital age; commodification and globalization; focusing on cultural production in North America and Asia.

RELS:2986 Religion and Women 3 s.h.
Sexism and its disavowal in biblical narrative, law, wisdom texts, Gospels, epistles; contemporary impact. GE: Values, Society, and Diversity.

RELS:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as CLSG:3003.

RELS:3020 Religion and Politics 3 s.h.
Major trends in Islamic religious thought since the colonial period, focusing on encounters between Islamic and the modern world; Ibn Khaldun; renewal movements; varieties of religious reform and accommodation; nationalism, socialism, and so forth. Recommendations: prior course work in content topic.

RELS:3055 Death, Dying, and Beyond in Asian Religions 3 s.h.
Survey of cultural and religious approaches to the dying process, post-death rituals, and conceptions about the afterlife in different religions in Asia. Same as ASIA:3055.

RELS:3103 Biblical Archaeology 1-3 s.h.
Contributions of Syro-Palestinian archaeological research to understanding historical, cultural backgrounds of biblical period.

RELS:3105 The World of the Old Testament 3 s.h.
Historical, intellectual background; focus on patterns of thought, religion in Near East, relation to Israelite religion.

RELS:3129 Native American Prophets and Prophecy 3 s.h.
Religious movements, effects of prophecies on followers of religious movements, and resulting tensions with Americans; powerful visions described as messages from a spirit being experienced by several 19th-century Native Americans after waking from coma-like states—wonderful prophecies of the restoration of Native American world to what it once was before American colonization, prophecies leading to religious movements that called for return to traditional practices, rejection of many elements of white American culture, and warnings of an impending destruction of the world.

RELS:3190 Medieval to Modern: The Birth of Protestantism 3 s.h.
Same as HIST:3190.

RELS:3243 Pagans and Christians: The Church from Jesus to Muhammad 3 s.h.
Introduction to history of early Christianity, from time of Jesus to rise of Islam; focus on major movements, intellectuals, institutions in this period; growth of Christianity in different geographical areas including the Middle East, Greece, Western Europe, Africa; Christian relations with Jews, pagans, Muslims; conversion; orthodoxy, heresy, making of biblical canon; martyrdom; women and gender roles; asceticism, monasticism, sexuality; church and state; theological controversy and schisms; cult of saints; the Holy Land and pilgrimage. Same as CLSA:3443.

RELS:3245 Mythology of Otherworldly Journeys 3 s.h.
Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as CLSA:3445.

RELS:3247 Banned from the Bible: Pseudepigrapha and Apocrypha 3 s.h.
Introduction to biblical Pseudepigrapha and Apocrypha; writings dating from third century B.C.E. to third century C.E. fictionally attributed to characters in the Hebrew Bible and New Testament, or written as though they originated in the First or Second Temple periods, not included in Jewish or major Christian canons of scripture; English translations of documents from this period; key themes and interpretative techniques common throughout biblical texts that provide tremendous insight into the worlds that produced the Hebrew Bible and New Testament. Same as CLSA:3247.

RELS:3320 In Search of the Good Life 3 s.h.
Works from Greco-Roman, Jewish, and Christian cultures to analyze various beliefs on how humans can live the good life and examine how these solutions are intimately connected to the specific conceptions of the divine world. Same as CLSA:3420.

RELS:3333 Economics and Religion: Banking, Business, and Finance in Islamic and Modern Societies 3 s.h.
Origins, functions, and impact of Islamic and related religions’ ideas and practices in the realms of economic development, financial services and products, business models, and matters of social justice. Same as IS:3333.

RELS:3340 Recovering Eden: The Afterlife in Early Judaism and Christianity 3 s.h.
Development of afterlife ideology in Jewish and Christian traditions; ideas that influenced this development, particularly as related to problem of suffering. Same as CLSA:3440.
RELS:3360 Religion Beyond Reason: Emotion and Communication 3 s.h.

RELS:3375 Birth of the Holy Land: Art and Architecture in the Ancient Middle East 3 s.h.
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as ARTH:3375.

RELS:3385 Early Modern Catholicism 3 s.h.
Same as HIST:3485.

RELS:3431 Gender and Sexuality in Asia 3 s.h.
Conceptions of sex, gender, and sexuality in the religions of China, Korea, and Japan; asceticism and celibacy; sexual alchemy; the difference between male and female bodies and souls; intersexed persons; female saints and immortals; transgressive sexuality; gender and sexuality in colonial Asia; East Asian religions and postcolonial feminism. Same as GWSS:3131.

RELS:3448 The Allure of Krishna: Sacred Sexuality in Indian Culture 3 s.h.
For thousands of years, Krishna, the dark-skinned flute-player, has been central to the religious experience of many Hindus; his diverse roles as mischievous divine child, sensual teenage cowherd, and adult statesman, warrior, and philosopher celebrated in poetry and prose, painting and sculpture, music, dance, drama, film, and television; exploration of multiple facets of Krishna's character through literary and visual sources, performances; focus on Indian interpretations of erotic content prominent in his story and to the figure of Radha, Krishna's mistress and beloved. Same as SOAS:3448.

RELS:3520 Dying for the Promised Land: Martyrdom and Warfare in the Western World 3 s.h.
How martyrdom evokes images of innocents who are killed for their faith and terrorists who commit suicide bombings; how these groups may appear distinct, but share a heritage that relates absolute obedience to God and (often human) sacrifice to conquest and possession of a Promised Land; development of martyrdom ideology and its uses in religious and political conflict in Western history; examination of the Crusades, Reformation, and modern religious and political conflicts beginning with works from the Bible, Greco-Roman culture, and early Jewish and Christian literature. Same as CLSA:3520.

RELS:3524 The Devil in Judaism and Christianity 3 s.h.
While known by many names, the Devil as a central figure in Western religious tradition; surprisingly, how he is not found in earliest texts in the Old Testament; the Devil as embodiment of evil that has his genesis in early Jewish and Christian sectarian conflicts; how he is used as a terrifying dragon or seductive stranger to demonize those perceived as threats to a group's existence; how the Devil is used to explain righteous suffering and create cultural boundaries throughout Western culture, from ancient texts and medieval witch trials to modern cinema and politics. Recommendations: some background in Judeo-Christian tradition. Same as CLSA:3524.

RELS:3572 Comparative Ritual 3 s.h.
Practice and theory; rituals from religions, including Hinduism, Buddhism, Christianity, Indian religions; theories of interpretation. Same as ASIA:3890.

RELS:3575 East Meets West: The Western Reception of Eastern Religion 3 s.h.
Introduction of religious ideas and forms from India, China, and Japan into Europe and America to late 20th century, from Greeks to New Age. Same as ASIA:3775.

RELS:3580 Religion and Healing 3 s.h.

RELS:3582 Enlightenment: Cross-Cultural Experiments in Religious Realization 3 s.h.
Enlightenment as one of the most important ideas that feeds contemporary religious and spiritual imagination; exploration of this concept in contemporary religious and spiritual discourse. Same as ASIA:3920.

RELS:3644 Gandhi and His Legacy 3 s.h.
In-depth introduction to the life, ideas, and ongoing impact of Mohandas Karamchand Gandhi (1869-1948); from his conservative upbringing to his early career as a lawyer, his transformative experiences, and self-transformation into a charismatic mahatma ("great soul"), the pursuit of political and social liberation through non-violent civil disobedience, the assertion of human rights, and the quest for sustainable lifestyles that uphold the common good and protect the natural environment; evolution of Gandhi's thought and activism and his legacy. Same as HIST:3644.

RELS:3645 Buddhist Philosophy 3 s.h.
Theories and arguments concerning the Buddhist path to enlightenment. Same as PHIL:3845.

RELS:3655 Zen Buddhism 3 s.h.
Same as ASIA:3655.

RELS:3660 Japanese Religion and Thought 3 s.h.
Same as JPNS:3660.

RELS:3666 The History of a Religious and Spiritual Practice: Yoga in Asia and Beyond 3 s.h.
Historical, textual, and anthropological readings; visual material, yoga demonstrations, discussions of yoga practices; theory underlies readings, including ritual theory and practice theory; psychology and inquiries into the nature of religious adaptation and syncretism.

RELS:3700 Nonprofit Organizational Effectiveness 3 s.h.
Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management; including finance, budget, income generation, fund-raising. Same as ENTR:3595, MGMT:3500, MUSM:3500, NURS:3595, SSW:3500.
RELS:3701 Nonprofit Organizational Effectiveness II 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as MGMT:3600, NURS:3600, SSW:3600.

RELS:3704 Egyptian Art 3 s.h.
Sculpture, painting, architecture, and luxury arts from Pyramidal Age to Death of Cleopatra. Same as ARTH:3320.

RELS:3714 Anthropology of Religion 3 s.h.
Approaches; religious roles; shamanism, witchcraft, curing; mythology; place of religion in social and cultural change. Same as ANTH:3114.

RELS:3716 Greek Religion and Society 3 s.h.
From Bronze Age to the Hellenistic period, in context of Mediterranean culture; evidence such as choral hymn, inscribed prayers, magical curses inscribed on lead, architecture, sculpted offerings to the gods. GE: Values, Society, and Diversity. Same as CLSA:3416.

RELS:3745 Twentieth-Century African American Religion: Civil Rights to Hip-Hop 3 s.h.
Twentieth-century African American religious history; major political and cultural movements, such as civil rights, black power, black feminism/womanism, hip-hop. Same as AFAM:3245.

RELS:3808 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as AFAM:3500.

RELS:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Same as IS:3834, JMC:3146, WLLC:3834.

RELS:3845 Islam in Africa 4 s.h.
African Islamic history beginning with earliest Muslim migrants from Arabia to Ethiopia in early 7th century C.E. to dawn of 21st century; focus on historical development of Islam on African continent, specific regions, and particular themes; part of Islamic Studies Virtual Curriculum and Committee on Institutional Cooperation (CIC) CourseShare Program. Same as HIST:3745, IS:3745.

RELS:3855 Human Rights and Islam 3 s.h.
Human rights in religious and secular discourse, seventh century to present; Islamic law, human rights law, religion, politics. GE: International and Global Issues. Same as IS:3855.

RELS:3976 American Indian Environmentalism 3 s.h.
Clean water, plant diversity, animal health as worldwide issues; Native American relationships and responsibilities to the living things of their homelands—from the earth itself to the raindrops that fall from the sky—and how those relationships have been altered in the last 150 years; explore innovative Native American efforts to restore their relationships to plants, animals, and landscapes that have been damaged by resource development, manufacturing, population growth, and political interests. Same as AINS:3276.

RELS:4001 Biblical Hebrew I 4 s.h.

RELS:4002 Biblical Hebrew II 4 s.h.

RELS:4124 Digital Archaeological Modeling 1-3 s.h.
Introduction to foundational theory, methodology, programming skills, and conceptual understanding necessary to model remains and reconstructions of archaeological sites in various three-dimensional digital modeling environments. Recommendations: background in archaeology.Same as CLSA:4131.

RELS:4133 Special Topics: Islamic and Middle Eastern Societies 3 s.h.
Recent events in Islamic world and Middle East; varied topics.

RELS:4153 Magic Machines: Technology and Social Change 3 s.h.
How media has altered culture, society, and human consciousness throughout history with focus on last two centuries (or modernity); how communication has been shaped by a variety of media (i.e., gesture, language, writing, printing, calendars, clocks, photography, telegraph, telephone, phonograph, film, radio, television, computers); 21st-century questions concerning technology and how few communicate today without aid of some kind of machine or technique. Prerequisites: (4 of the following are required: COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2000, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2043, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2061, COMM:2064, COMM:2065, COMM:2069, COMM:2071, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091). Same as COMM:4153.

RELS:4155 Religious Conflict: Early-Modern Period 3 s.h.
Reformation of 16th century—Lutheran, Calvinist, Radical, English; readings from major representatives of each. Same as HIST:4455.

RELS:4181 Special Topics in Western Religion 3 s.h.
Examination of a specific topic of interest related to Western religious traditions. Recommendations: some background in Judaism, Christianity, or classics.

RELS:4352 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as CLSA:4452.

RELS:4404 The Literature of Daoism 3 s.h.
Texts of philosophical, religious Daoism; Daoism in traditional Chinese political theory, literature, the arts, alchemy and medicine, sexual custom, combat. Taught in English. Same as CHIN:4204.
RELS:4730 Religion and Environmental Ethics 3 s.h.
How humans conceptualize the biophysical environment through religious beliefs and practices; how images of the environment influence people's activities, how they are used by grassroots environmental movements. Requirements: junior or senior standing. Same as ANTH:4130.

RELS:4741 Varieties of American Religion 3 s.h.
Examination of varied 20th- and 21st-century American religious individuals and groups; understand and analyze unique communities. Same as HIST:4241.

RELS:4748 Religious Rhetoric: God and U.S. Politics 3 s.h.
Use of religious language by American presidents, presidential hopefuls, and their religious supporters; begins with early presidents, then majority of focus is on last 65 years. Recommendations: previous course in religious studies.

RELS:4768 Islamic Sects 3 s.h.
Nexus between key texts (i.e., the Qur'an, Hadith, Tafsir, usul, kalam, and other literatures) and the rise and development of Islamic sects and groupings, including Kharajites, Shiites, Ibadis, Salafis, and Sufis.

RELS:4870 Islamic Cultural Presence in Spain 3 s.h.
Islamic history and culture in the Iberian Peninsula from Middle Ages to present. Taught in Spanish. Requirements: one literature or culture course taught in Spanish numbered SPAN:3200 or above. Same as SPAN:4870.

RELS:4893 Classical Arabic: Vocabulary, Syntax, and Grammar 1-3 s.h.

RELS:4920 Native American Women and Religious Change 3 s.h.
Native women's diverse experiences and their roles in native societies, examined through contact experiences between native and nonnative peoples; changes in women's roles in context of interactions between native people, missionaries, European colonists, and Americans; approaches to re-imaging women's early contact roles presented in cultural narratives, archaeology, history, ethnography, and missionary records. Same as AINS:4560, GWSS:4560.

RELS:4939 Controversial Religions in U.S. History 3 s.h.
Movements in North American history marked by violence (i.e., Peoples Temple, Lakota Ghost Dance, Branch Davidians, Shawnee Movement); the role of violence in expressing and shaping some religious movements.

RELS:4950 Senior Majors Seminar 3 s.h.
Issues central to academic study of religion.

RELS:4970 Honors Tutorial 2-3 s.h.

RELS:4975 Honors Essay 2-4 s.h.

RELS:5067 Readings in Islamic Studies arr.
Current scholarship in the field of Islamic studies; major works in areas such as modern Islamic thought, Islamic legal and philosophical traditions, religion and politics.

RELS:5100 Teaching and Public Engagement 2-3 s.h.
Critical importance of educating people about religion within increasingly globalized and digitized contexts; preparation to excel as classroom teachers and facilitators of cross-religious dialogue in public sphere.

RELS:5200 Varieties of Religion in the Contemporary World 3 s.h.
Limited content of multiple religious traditions from different parts of the contemporary world; conversing knowledgeably about global religious diversity; preparation to design and teach a world religions course.

RELS:5300 Genealogies of Religion 3 s.h.
Genealogies of the idea of religion, academic study of religion, and comparative study of religions; intellectual and ideological foundations of discipline; preparation to work skillfully across traditions.

RELS:5400 Methods and Theories in the Study of Religion 3 s.h.
Principal methods, theories in academic study of religion.

RELS:6040 Tiberius to Trajan arr.
Authors and topics from the first and second centuries C.E. Same as CLSL:6013.

RELS:6070 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, LAW:8751, MGMT:9150, SPST:6010, SSW:6247, URP:6279.

RELS:6075 Nonprofit Organizational Effectiveness II 3 s.h.

RELS:6150 Seminar: Religion in America 3 s.h.
Religious experience in America; topics.

RELS:6200 Seminar: Religious Ethics 3 s.h.

RELS:6350 Gender and Religion 3 s.h.
What contemporary religious and spiritual groups and their members believe about sex, sexuality, and gender; how they define and redefine what it means to be a "man" and a "woman"; exploration of contemporary "conservative" and "progressive" cosmologies and theologies; underlying beliefs that construct these perspectives and the impact on individual and group practices; broader implications of individual and group beliefs and practices on national and global policies. Same as GWSS:6350.

RELS:6475 Seminar: Reformation Culture arr.
Culture and thought of 16th-century Europe. Same as HIST:6475.

RELS:6520 Seminar: South Asian Religion 3 s.h.
Topics in South Asian religions. Same as ASIA:6520.

RELS:6580 Seminar: Religion and Society 3 s.h.

RELS:6723 Seminar on Islamic Law and Government 3 s.h.
Islamic legal and political legacy from formative period until modern time; critical analysis of logic and context of development; development of jurisprudential, legal, and political literature; overview of theories and practices of governance in Islam beginning with Caliphate system and ending with modern nation-state models. Same as LAW:9723.

RELS:7100 Readings in American Religions arr.

RELS:7200 Readings in Religious Ethics arr.
RELS:7260 French Paleography  1-3 s.h.
Independent study of original French writings.

RELS:7300 Critical Theories of Religion  1-4 s.h.
Exploration of theories that pertain to religion with an emphasis on contemporary critical theory.

RELS:7400 Readings in Theology and Religious Thought  arr.

RELS:7450 Readings in History of Christianity  arr.

RELS:7500 Readings in Asian Religions  arr.

RELS:7600 Readings in Islamic and Middle Eastern Studies  1-3 s.h.
Advanced works and/or texts in primary languages (Arabic, Persian, etc.) in the broad field of Islamic and Middle Eastern studies. Requirements: proficiency in Modern Standard Arabic.

RELS:7650 Readings in Ancient Near Eastern Religions  arr.
Ancient Near Eastern religious texts; focus on their place in ancient Near Eastern history and religious thought.

RELS:7900 Individual Study: Graduates  arr.

RELS:7950 Thesis  arr.
Religious Studies, B.A.

The major in religious studies helps students gain strengths they will need in an increasingly globalized world: curiosity, open-mindedness, critical thinking, the ability to communicate effectively about controversial issues, global cultural competency, knowledge of diverse religions and their influences, and the ability to use intelligence and creativity in addressing humanitarian concerns.

Because religious ideas inform every aspect of life, many students who major in religious studies choose to earn a second major in another discipline, such as anthropology, biology, classics, English, history, journalism and mass communication, philosophy, political science, or psychology.

Requirements

The Bachelor of Arts with a major in religious studies requires a minimum of 120 s.h., including 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437). A maximum of 15 s.h. of transfer credit may be counted toward the major; transfer credit is evaluated individually.

Course work for the major includes core courses and electives. Courses for the major may not be taken pass/nonpass. Students may count a maximum of three religious studies courses toward General Education Program requirements.

The B.A. with a major in religious studies requires the following course work.

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Electives from Religious Traditions and/or Critical Issues</th>
<th>Total Hours</th>

<tr>
<td>The course RCLS:1015 Religions in a Global Context: The Critical Role of Religion in International Affairs provides an introduction to the study of the world’s religions; students should take it as early as possible.</td>
<td>The capstone course RCLS:4950 Senior Majors Seminar is offered each spring semester. Ideally, students take it during their senior year, but they may take it during their junior year.</td>
<td></td>
</tr>
</tbody>
</table>

Electives

Students complete 24 s.h. of elective course work (at least eight courses) chosen from either or both of two categories: religious traditions and critical issues (listed below) as follows.

At least two foundation courses numbered 1000-1999 | 6
At least three advanced courses numbered 2000-4999 | 9
At least three courses at any level | 9

The department advises students to choose electives that will enable them to examine a variety of traditions and issues.

Religious Traditions

Courses in this category generally focus on religious traditions or movements in historical perspective, within particular geographical areas, or across regions. They may address foundational stories of creation and cosmic order, archaeological findings, the compilation and interpretation of revered texts, religious doctrines, social norms, rituals and practices, or conflicts and schisms.

Critical Issues

Critical issues courses generally focus on ideas, arguments, or problems, often with reference to influential texts or oral traditions. They may explore religious perspectives on the nature of reality or the meaning of human existence, and they may focus on issues of gender, sexuality, race, ethnicity, class, globalization, human rights, or law and politics.

Honors in the Major

Students majoring in religious studies have the opportunity to graduate with honors in the major. Departmental honors students must complete all requirements for the major plus an additional 3 s.h. of advanced course work, earning at least 33 s.h. for the major. They may apply 3 s.h. of RELS:4960 Individual Study: Undergraduates or RELS:4970 Honors Tutorial toward the 33 s.h. of credit required for the honors major. Honors students must take RELS:4975 Honors Essay under the supervision of a faculty advisor; copies of the completed and approved essay are submitted to the Department of Religious Studies and to the University of Iowa Honors Program.

Departmental honors students must be members of the University of Iowa Honors Program, which requires students to maintain a cumulative University of Iowa g.p.a. of at least 3.33 and to fulfill other requirements; visit Honors at Iowa to learn about the University's honors program.
Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the fifth semester begins: one or two courses in the major

Before the seventh semester begins: three to six courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: five to seven courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Religious Studies (B.A.)

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4. Course selection may satisfy the GE: Historical Perspectives, GE: International and Global Issues, or GE: Values, Society, and Diversity requirement.

Career Advancement

Many employers and graduate/professional schools are keen to attract students who have engaged in the academic study of religion, especially in public university settings such as the University of Iowa. This is because individuals who study religion tend to be intellectually curious, concerned about the future of humanity, reflective and duly self-critical, and sensitive to cultural and religious diversity. Also, they are capable of thinking critically about people's ideas and practices without being judgmental, appreciative of the value of historical perspective, effective communicators...
about things that really matter to people, and eager to cooperate with others in finding solutions to big social problems.

Students who major in religious studies often go on to graduate school, law school, medical school, dental school, or careers in nursing, public health, social work, counseling, human rights advocacy, non-governmental organizations, government, media and communications, or human resource management. The study of human religiosity or spirituality is critical for people who wish to understand and manage human diversity. For many students, the best reason to study religion is to open their minds, stimulate their imaginations, and prepare to engage a complex, dynamic world.
Religion and Media, Minor

The minor in religion and media is designed to focus on the intersection of religion and media and to build critical skills in cultural and media literacy. Students are educated on the vital role that religion and media play, historically and in contemporary society, by introducing interdisciplinary perspectives.

The Departments of Religious Studies and Communication Studies [p. 239] collaborate to offer the minor in religion and media. The minor is administered by the Department of Religious Studies [p. 784].

The minor requires a minimum of 18 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass.

Students completing a communication studies major or a religious studies major also may complete this minor. Students may double-count up to 6 s.h. of course work for the religion and media minor with other programs of study. Courses with General Education (GE) status are excluded from this double-counting policy.

The minor in religion and media requires the following course work. Students must complete at least 6 s.h. in communication studies course work (prefix COMM) and at least 6 s.h. in religious studies course work (prefix RELS).

### Methods and Approaches in Media Studies

These courses convey major methodological approaches to the study of media.

Religious Studies, Minor

The minor in religious studies requires a minimum of 15 s.h. in religious studies courses, including 12 s.h. completed at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass. With the recommendation of the department’s undergraduate committee and approval of the faculty, students may count a maximum of 3 s.h. of transfer credit toward the minor.

Students are encouraged to include RELS:1015 Religions in a Global Context: The Critical Role of Religion in International Affairs and RELS:4950 Senior Majors Seminar in the minor.

The minor in religious studies requires the following course work.

Religious Studies, M.A.

Graduate study in the department addresses the idea of religion and the ways in which religious traditions originate, develop, and interact over time. Students learn to identify and use multiple methods for the study of religion, including historical, philosophical, ethical, literary, linguistic, psychological, ethnographic, and digital approaches.

Graduate study is flexible. Students create individualized programs of study in consultation with their advisors and core committee members, in light of faculty expertise within the department and around the University. Programs often are developed in relation to one of the following four areas of concentration:

- religions in the Middle East, Ancient Near East, and Mediterranean;
- religions in Asia;
- religions in the Americas and Europe; or
- religion, ethics, and society.

Programs also are developed across these areas or thematically in relation to the department's central focus which is religion and public life, most notably religion's impact on the construction of individual and group identities and the dynamics of social change. Included in this focus is religion's relationship to gender, race, ethnicity, and other markers of identity, and the practice and study of religion in a digital age.

Graduate study in religion can prepare a student to become a professor of religious studies. It also can provide the ability to integrate a deep and theoretically-sophisticated understanding of religion and its influences into other professions, such as medicine, nursing, law, political leadership, policy making, journalism, or counseling.

For more information about graduate study and the faculty, see Graduate Program and People on the department's website.

Requirements

The Master of Arts program in religious studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis. The program is designed for students who wish to advance their understanding of a particular area of religious studies or explore a variety of traditions and topics. It also is intended to prepare students to educate the public about religion and its influences, within a variety of life and career contexts.

Students must complete 24 s.h. of the credit required for the degree at the University of Iowa and must maintain a cumulative g.p.a. of at least 3.20. Requirements for languages and other research tools vary according to the student's study focus. M.A. students are supervised by a three-person committee consisting of an advisor and two additional faculty members.

All M.A. students complete the following five courses.

<table>

One graduate seminar

Students select remaining course work depending on their interest area and in consultation with their core committee.

In the M.A. thesis, students demonstrate and refine their research and writing skills. They may count a maximum of 6 s.h. of thesis credit toward the degree. Students must defend their M.A. thesis. Students who do not write a thesis must pass an M.A. examination that tests their competence in completed course work.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants to the M.A. program ordinarily must have a verbal reasoning score of at least 153 and a quantitative reasoning score of at least 147 on the revised Graduate Record Examination (GRE) General Test (verbal reasoning score of at least 500 and quantitative reasoning score of at least 580 on the old GRE General Test) and a g.p.a. of at least 3.00.

Application materials must include an application form; a transcript of all undergraduate and graduate work (one copy must be sent to the University’s Office of Admissions and a second copy must be sent to the Department of Religious Studies); an application or waiver of consideration form for graduate assistantships; three confidential letters of recommendation; and a writing sample that demonstrates the applicant’s ability to engage in critical analysis. Applicants also must submit a brief personal essay that explains their objectives for graduate study and states which area of graduate study in religion will suit their objectives best. Students may indicate one of the four areas of concentration below or an area that crosses the concentrations and is well supported by faculty expertise. For details, see Graduate Admission and Financial Aid on the department's website.

Areas of concentration include:

- religions in the Middle East, Ancient Near East, and Mediterranean;
- religions in Asia;
- religions in the Americas and Europe; and
- religion, ethics, and society.

All application materials must be received by January 15 to receive full consideration for fall admission.

Career Advancement

Graduate students in religious studies acquire a wide range of competencies that are useful for almost any career they pursue. Students gain research skills; they master the craft of writing; they learn to plan, manage, and complete large projects; they gain teaching skills that are useful both inside and outside the academy; they learn how to write and mediate differences in religious perspectives and values; they acquire highly-valued language skills; they gain expertise in the use of digital technologies for research and teaching; and so on.

Students who earn an M.A. often gain admission to excellent Ph.D. programs in religious studies and in other areas of study, such as journalism and mass communication.
Others have gone on to divinity school, law school, and into careers within media and communication, church leadership, government, and public service.
Religious Studies, Ph.D.

Graduate study in the department addresses the idea of religion and the ways in which religious traditions originate, develop, and interact over time. Students learn to identify and use multiple methods for the study of religion, including historical, philosophical, ethical, literary, linguistic, psychological, ethnographic, and digital approaches.

Graduate study is flexible. Students create individualized programs of study in consultation with their advisors and core committee members, in light of faculty expertise within the department and around the University. Programs often are developed in relation to one of the following four areas of concentration:

- religions in the Middle East, Ancient Near East, and Mediterranean;
- religions in Asia;
- religions in the Americas and Europe; or
- religion, ethics, and society.

Programs also are developed across these areas or thematically in relation to the department's central focus which is religion and public life, most notably religion’s impact on the construction of individual and group identities and the dynamics of social change. Included in this focus is religion's relationship to gender, race, ethnicity, and other markers of identity, and the practice and study of religion in a digital age.

Graduate study in religion can prepare a student to become a professor of religious studies. It also can provide the ability to integrate a deep and theoretically-sophisticated understanding of religion and its influences into other professions, such as medicine, nursing, law, political leadership, policy making, journalism, or counseling.

For more detailed information on graduate programs in religious studies, contact the Department of Religious Studies or visit Graduate Program on the department’s website.

Requirements

The Doctor of Philosophy program in religious studies requires a minimum of 72 s.h. of graduate credit. Students may transfer up to 24 s.h. of credit from another accredited graduate school.

Course requirements for the Ph.D. vary according to concentration area. However, all students must complete the following eight required courses.

<table>

</table>

Four graduate seminars, including at least two in religious studies.

During their fourth semester in residence, students must submit a departmental program of study, which must be approved by the religious studies faculty. To gain approval to continue in the Ph.D. program, students must complete three of the required Ph.D. courses listed above and two of the graduate seminars; show satisfactory progress toward the language and course requirements of their individual programs; demonstrate the ability to write scholarly papers at a level satisfactory for the Ph.D., as assessed by the advisor and core committee members (at least two papers must be submitted to the committee); and have a cumulative University of Iowa g.p.a. of at least 3.40 (language courses that do not count toward the Ph.D. are excluded).

Students must pass a comprehensive examination based on a bibliography that covers their main focus area within religious studies (the history, influential figures, perennial debates, and/or theoretical approaches); a secondary chosen area of focus, distinct from the dissertation topic; and an area of specialization or dissertation topic. The comprehensive exam includes an oral defense. Students also must write a dissertation prospectus and a dissertation based on original research, both of which are defended orally. They may count a maximum of 12 s.h. of dissertation credit toward the degree.

Students working toward a Ph.D. may receive an M.A. upon completing at least 30 s.h. of course work and successfully passing the comprehensive examination.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants to the Ph.D. program ordinarily must have a verbal reasoning score of at least 158 and a quantitative reasoning score of at least 147 on the revised GRE General Test (verbal reasoning score of at least 580 and quantitative reasoning score of at least 580 on the old GRE General Test) and a g.p.a. of at least 3.40.

Application materials must include an application form; a transcript of all undergraduate and graduate work (one copy must be sent to the University’s Office of Admissions and a second copy must be sent to the Department of Religious Studies); an application or waiver of consideration form for graduate assistantships; three confidential letters of recommendation; and a writing sample that demonstrates the applicant’s ability to engage in critical analysis. Applicants also must submit a brief personal essay that explains their objectives for graduate study and states which area of graduate study in religion will suit their objectives best. Students may indicate one of the four areas of concentration listed below, or choose an area that crosses the concentrations and is well supported by faculty expertise. For details, see Graduate Admission and Financial Aid on the department’s website.

Areas of concentration include:

- religions in the Middle East, Ancient Near East, and Mediterranean;
- religions in Asia;
- religions in the Americas and Europe; and
- religion, ethics, and society.

All application materials must be received by January 15 to receive full consideration for fall admission.

Financial Support

All Ph.D. students in religious studies receive funding. The department offers financial support for graduate students in the form of teaching assistantships.

The Gilmore Scholarship, for doctoral students who study the intersection of religion, the visual arts, and humanistic values,
pays up to full tuition for one year. It is awarded every few years.

**Career Advancement**

Graduate students in religious studies acquire a wide range of competencies that are useful for almost any career they pursue. Students gain research skills; they master the craft of writing; they learn to plan, manage, and complete large projects; they gain teaching skills that are useful both inside and outside the academy; they learn to argue persuasively; they gain the ability to communicate with others about controversial issues; they learn how to understand and mediate differences in religious perspectives and values; they acquire rare language skills; they gain expertise in the use of digital technologies for research and teaching; and so on.

Students who earn a Ph.D. in religious studies often go on to become scholars and teachers in university or college settings. Other degree recipients have become professional ethicists, leaders of non-governmental organizations, school or church administrators, non-academic educators, digital media specialists, and government employees in the area of foreign affairs.
Rhetoric

Chair

• Steve Duck

Undergraduate minor: rhetoric and persuasion
Faculty: https://clas.uiowa.edu/rhetoric/people
Website: https://clas.uiowa.edu/rhetoric/

The Department of Rhetoric offers undergraduate courses that fulfill the Rhetoric requirement of the different colleges at the University; see General Education Program [p. 437] in the Catalog. It also provides individual instruction in its Writing Center and Speaking Center and offers other undergraduate courses, graduate seminars, and an undergraduate minor.

Rhetoric for General Education

Rhetoric courses help students to develop skills in speaking, writing, listening, and critical reading. They also build competence in research and inquiry as well as in analysis and persuasion, starting with public controversies in their social contexts and generalizing to all forms of idea presentation, whether academic readings, everyday debates, media messages, or student papers. Writing and speaking skills are emphasized and developed.

All rhetoric classes follow specific department goals, but each instructor uses a unique set of texts and contexts to teach rhetorical concepts. Rhetoric courses are sometimes organized around a special topic, such as the STEM fields (science, technology, engineering, and mathematics), nursing, or law, but the primary emphasis is always on responsible inquiry and analysis. Some course sections involve special activities, such as service-learning components, but the workload across all sections is comparable, with a fixed number of major assignments and a department-approved library of readings.

During their first year at the University, students enroll in the rhetoric course indicated on their degree audit unless they are required to complete one or more prerequisite courses in English as a Second Language (ESL) as a result of their English proficiency evaluation. Students required to enroll in English as a Second Language (ESL) courses must complete all of their required ESL courses before they may register for any rhetoric course or use the services of the Department of Rhetoric Writing Center or Speaking Center.

Students planning to transfer to the University of Iowa should discuss rhetoric course equivalencies as soon as possible with the University of Iowa Office of Admissions. To learn more about General Education’s Rhetoric requirement, see General Education Program [p. 437] in the Catalog.

Students who undergo formal evaluation by Student Disability Services and are found to be learning disabled in reading, writing, or speaking should request reasonable accommodations in order to complete rhetoric. Accommodations may be arranged by Student Disability Services in consultation with the Department of Rhetoric and individual instructors.

Programs

Undergraduate Program of Study

Minor

• Minor in Rhetoric and Persuasion [p. 806]

Courses

Rhetoric Courses

RHET:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

RHET:1010 Writing for Academic Success 0 s.h.
Individualized instruction in the Writing Center; in conjunction with General Education rhetoric courses.

RHET:1030 Rhetoric 4-5 s.h.
Analysis and critique to discover, question, explain, and justify positions and claims made in writing and speaking; reading and listening to comprehend and assess arguments; employment of rhetorical concepts (e.g., purpose, audience); understanding research as responsible inquiry for speaking and writing; special topics, activities. Requirements: completion of any required ESL courses. GE: Rhetoric.

RHET:1040 Writing and Reading 3 s.h.
Introductory course in writing required of students who have completed a college-level public speaking course, but have not otherwise satisfied the rhetoric requirement. Requirements: completion of GE speaking requirement and any required ESL courses. GE: Rhetoric - Writing.

RHET:1060 Speaking and Reading 3 s.h.
Introductory course in speaking required of students who have completed 6 s.h. of college writing instruction, but have not completed a 3 s.h. college-level speaking course; intended to improve speaking, listening, critical, analytical, and advocacy skills. Requirements: completion of GE writing requirement and any required ESL courses. GE: Rhetoric - Speech.

RHET:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; integration of teamwork and opportunities for individual growth that allow for personal development; identification of ways for students to be more creative in their own lives and work. GE: Values, Society, and Diversity. Same as ARTS:2000, ASP:2000, EDTL:2000.

RHET:2031 Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect 3 s.h.
Exploration of desire, sex, consent, and sexual violence in practical and theoretical dimensions; recent demands by students to change the way sexual violence is addressed; theory and sources from popular media; lectures by scholars, activists, and professionals; sexual violence, rape culture, and sexuality-based oppression confronted with academic/therapeutic/political knowledge; real world strategies to help better understand and combat sexual violence. Theories. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:2000.
History of women’s rhetoric in the West and ways in which these approaches can be adapted to modern demands; strategies of prominent women rhetors analyzed from antiquity to present; how our own historical moment constrains, shapes, and enables women’s public speaking and writing today; projects that take advantage of multimodal presentation platforms and apply insights from class to causes of interest to UI students; enables students from all disciplinary and professional backgrounds to improve persuasive skills relevant to their careers. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:2055.

Examination of ways people sway one another in different contexts; best means to impel a specific audience in a particular moment, recognizing that audiences and contexts are multiplied by technology; students critique current presentational techniques with special attention to how each succeeds or fails in its approach to relevant audiences; creation of multimodal projects for real world purposes (e.g., personal websites, persuasive video or audio essays, promotional project for local advocacy group, public performance); formal presentations on results of inquiry-guided research. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

Production of a persuasive self in social media; issues of identity and performance in electronic forms. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

This course helps students become confident and effective speakers; assignments include formal presentations and shorter, informal speaking activities; peer and instructor feedback helps students to improve the impression they create as speakers; strengths developed include earning credibility, capturing and maintaining audience interest, and coming across as personable, professional, and confident. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

Intercultural conversation with international students in small groups or pairs; readings, classroom discussions, and in-class training develop cultural competence and related skills. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

Strategies of approaching persuasion in a variety of personal, professional, and communal contexts; fundamentals of persuasion including audience adaptation, creating reasoned and passionate appeals, conveying character, and enabling identification taught from perspective of production. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: completion of General Education rhetoric requirement.

Reconsidering views on the city; how infrastructural, social, and digital networks influence daily lives; array of social and spatial theories that view the city as a constantly evolving landscape of needs and desires; how space is used, how spaces variably influence people; modes of social control and resistance; opportunities and problems that tend to be missed when daily life and its design is looked at as a foregone conclusion.
RHET:3130 Rhetorics of Animal Advocacy 3 s.h.
Explore the range of social, ethical, and environmental problems that motivate animal advocacy past and present, and analyze several advocacy campaign responses to those problems (e.g., People for the Ethical Treatment of Animals, Farm Sanctuary, The American Society for the Prevention of Cruelty to Animals, The National Humane Alliance); students will examine self-selected animal-related problems and design animal advocacy campaigns of their own choosing. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; how language, imagery, popular culture, and history affect perceptions of gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:3138.

RHET:3140 Nature and Society: Controversies and Images 3 s.h.
Theoretical perspectives that explain and/or interpret environmental change and human environmental interactions; conceptual tools to understand complex relationship between nature and society at multiple scales; ways in which individuals and communities have overcome economic and environmental limitations in economically developed countries and economically developing countries; critical thinking through exposure to contentious viewpoints and assessment of their strengths and weaknesses. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: completion of General Education rhetoric requirement.

RHET:3150 Narratives of Gender and Masculinity 3 s.h.
Engaging with and deconstructing the stories men and women tell about what it means to be a man in the 21st century; topics may include cultural differences in the construction of gender and masculinity, queer masculinity, masculinity and social justice movements (especially feminism), history of the present moment in masculinity, masculinity from a non-binary perspective, literary representations of masculinity, and masculinity in mass culture. Requirements: completion of rhetoric requirement. Same as GWSS:3700.

RHET:3360 Classical Techniques in Modern Speaking 3 s.h.
Examination of public speaking in context of ancient Greece, when the shift from aristocracy to democracy made public speaking the only way to rise to a position of power; excerpts from ancient texts that demonstrate link between public speaking and democracy; strategies ancients used in public, celebratory, political, and judicial settings to make the best case for themselves; application of these strategies in modern settings for public speaking. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:3600 Issues in Rhetoric and Culture: Crafting Electronic Identities 3 s.h.
Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Prerequisites: RHET:1030 or (RHET:1060 and RHET:1040). Same as COMM:3600.

RHET:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.
Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: satisfactory completion of General Education rhetoric requirement. Same as ASP:3610, GWSS:3610.

RHET:3620 Exploring Travel Adventure Tales: Following in their Footsteps 3 s.h.
Works by contemporary travelers who followed in the footsteps of previous travelers and used the first voyagers; accounts in their own narratives; works include Chasing Che: A Motorcycle Journey in Search of the Guevara Legend; The Cruelest Journey: Six Hundred Miles to Timbuktu; In the Footsteps of Marco Polo; and Voyage of Rediscovery: Exploring the New West in the Footsteps of Lewis and Clark; optional camping/hiking trip in the spring following in the footsteps of Lewis and Clark along the Missouri River. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:3630 Apology and the Art of Verbal Self-Defense 3 s.h.
Apology as defense of actions, opinions, or personal character; how the quality of an apology can have profound effects on whether you go to jail, lose your lover, raise your grade, or get fired or promoted; different types of apologies across personal and professional life, from showing up late to an interview to making a corporate apology for an airline disaster; identifying and practicing skills of effective apologies in the interpersonal and public spheres. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: satisfactory completion of General Education rhetoric requirement.

RHET:3700 Advocacy and Sustainability: Crafting Stories of People, Place, and Resilience 3 s.h.
How sustainable approaches to meeting critical social needs (food, water, shelter, air, work) have influenced food systems, policies on development, environmental problems, social justice, and policy both local and global in scope; readings and field research activities leading to creation of work of multimodal advocacy. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: fulfillment of rhetoric requirement.

RHET:4980 Special Projects for Undergraduates arr.
Prerequisites: RHET:1030 or RHET:1040 or RHET:1060.

RHET:5100 Practicum: College Teaching and Professional Development for Teaching Assistants arr.
Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborative learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation. Same as CLAS:5100.
RHET:5330 Directing a Writing Center  
Supervised tutoring in Writing Center involving graduate and undergraduate tutors and fellows across disciplines; providing instruction on recruitment and development of writing support teams; helping a variety of persons on campus (undergraduate, graduate, faculty) to improve their writing skills in many different areas, ranging from class or conference papers to publicity materials. Requirements: professional development program and rhetoric teaching.

RHET:5335 Directing a Speaking Center  
Supervised tutoring in Speaking Center involving graduate and undergraduate tutors and fellows across disciplines; providing instruction on recruitment and development of writing support teams; helping a variety of persons on campus (undergraduate, graduate, faculty) to improve their speaking skills in many different areas, ranging from class or conference papers to publicity materials. Requirements: professional development program and rhetoric teaching.

RHET:5350 Colloquium: Teaching Rhetoric  
Professional development program for new rhetoric teachers; includes three-day workshop.

RHET:5352 Seminar: Topics in Teaching and Professional Development  
Professional development and advanced study of pedagogical theories and practices; focus on teaching as a rhetorical act; readings on pedagogy, composition theories, and learning process; academic and alt-ac career options; teaching philosophy statement, teaching portfolio, peer classroom observations, and research project; for experienced rhetoric instructors and others teaching writing-intensive, process-oriented courses. Recommendations: previous or current teaching experience in composition-intensive courses.

RHET:5375 Teaching in a Writing Center  
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as CNW:5375.

RHET:5385 Teaching in a Speaking Center  
Preparation to teach in University of Iowa Speaking Center or similar settings; seminar component on speaking and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in speaking center.

RHET:6071 Sentimentalism and Affect Theory  
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psychosocial phenomenon; focus on attendant theories of affect; integration of literature and culture with work on politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, gender and sexuality studies. Same as ENGL:6075.

RHET:6330 Writing for Learned Journals  
Seminar that supports graduate students in bringing written work to publishable form; analysis of target journals' audiences, interests, and citation politics; submission and the publication process; response to reader reports and criticism; best writing and research practices; discussion of knowledge cultures and discourses in disciplines and the contemporary academy. Same as GRAD:6300.

RHET:6400 Current Issues in Rhetoric  
Ethical, social, or cultural issues; rhetoric's role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as COMM:6400.

RHET:6965 Topics in Second Language Acquisition: Writing  
Theory, pedagogy, research, and assessment in second language writing. Taught in English. Same as SLA:6965, SPAN:6965.

RHET:7500 Science Communication in the Digital Age  
Preparation for communicating scientific discoveries and importance of scientific endeavors in digital media; focus on adaptable and transferable skills; relevant preparation for digital communication in academic and nonacademic career paths; develop aptitude with speaking and performance skills relevant to video presentation; develop familiarity with video composition and editing processes.

RHET:7900 Special Project for Graduate Students  
arr.

RHET:7920 Innovative Methods in Pedagogy: Radical Feminist Pedagogy  
Readings in history, theory, and practice of pedagogical innovations appropriate to composition instruction and other interdisciplinary teaching; project-based assignments that produce materials appropriate for classroom use. Same as GWSS:7920.

RHET:7930 Writing in the Disciplines  
arr.

RHET:7940 Public Speaking for Academics  
Prepares graduate students for the public speaking occasions germane in their home disciplines and in their future professions; students gain experience moving between different rhetorical registers in public speaking through engaging in cross-disciplinary conversations about performance and speaking practices while refining discipline-specific speaking strategies; honing the ability to communicate the same information in different forms and styles (along with understanding the corresponding advantages and limitations of such) will contribute to students' teaching and scholarly work sets.

RHET:7950 Science Communication in the Digital Age  
Prepares graduate students for the public speaking occasions germane in their home disciplines and in their future professions; students gain experience moving between different rhetorical registers in public speaking through engaging in cross-disciplinary conversations about performance and speaking practices while refining discipline-specific speaking strategies; honing the ability to communicate the same information in different forms and styles (along with understanding the corresponding advantages and limitations of such) will contribute to students' teaching and scholarly work sets.

RHET:7970 Special Project for Graduate Students  
arr.

RHET:7980 Special Topics in Rhetoric  
arr.

RHET:7990 Special Project for Graduate Students  
arr.
Rhetoric and Persuasion, Minor

The minor in rhetoric and persuasion requires a minimum of 15 s.h., including 12 s.h. earned in courses taken at the University of Iowa and at least 12 s.h. earned in Department of Rhetoric courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor in rhetoric and persuasion educates students in responsible, credible, and effective methods to take active leadership roles in engaging social issues in personal, professional, and communal settings. The program empowers students to look at the world as a place open to change and receptive to influence and to view themselves as agents capable of improving the world and their place in it. The minor aims to professionalize students—whether in their capacity as individual citizens, members of the community, or leaders in the workplace—by guiding them to understand audiences and situations, to use language responsibly and strategically, and to develop the integrity and authority of their own voice.

The minor requires the following course work.

Second Language Acquisition

Director, Division of World Languages, Literatures, and Cultures
- Russell Gamlin

Director, Second Language Acquisition
- Paula M. Kempchinsky

Graduate degree: Ph.D. in second language acquisition
Faculty: https://clas.uiowa.edu/dwllc/flare-affiliated-faculty
Website: https://clas.uiowa.edu/dwllc/flare/second-language-acquisition-phd-program

Second language acquisition (SLA) is a multidisciplinary field whose goal is to understand the processes that underlie non-native language learning. The Second Language Acquisition Program draws from varied academic disciplines, among them linguistics, psychology, psycholinguistics, sociology, sociolinguistics, discourse analysis, conversation analysis, and education.

The Ph.D. in second language acquisition, as an interdisciplinary field, is sponsored by the Foreign Language Acquisition Research and Education (FLARE) program; the administrative home of second language acquisition is the Division of World Languages, Literatures, and Cultures [p. 312]. FLARE faculty are drawn from various departments in the College of Liberal Arts and Sciences and in the College of Education.

Programs

Graduate Program of Study

Major
- Doctor of Philosophy in Second Language Acquisition
  [p. 810]

Courses

Second Language Acquisition Courses

SLA:3302 Introduction to Chinese Linguistics 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as CHIN:3302, LING:3302.

SLA:3400 Articulatory and Acoustic Phonetics 3 s.h.
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as LING:3005.

SLA:3401 Language Development 3 s.h.
Introduction to first language acquisition, with focus on infancy through five years; sound discrimination abilities, word learning, babbling and speech production, acquisition of grammar; perspectives from psychology, audiology, linguistics, speech pathology. Prerequisites: PST:2701 and (PST:2812 with a minimum grade of C- or PSY:2810 with a minimum grade of C-) and (PSY:2401 with a minimum grade of C- or PSY:2601 with a minimum grade of C-). Same as PSY:3085.

SLA:4080 Linguistic Theory and Second Language Acquisition 3 s.h.
Introduction of research results obtained by generative second language acquisition framework and their implications for classroom teaching methods; current views of language architecture; focus on inflectional morphology and linguistic interfaces, which have been proposed to be severe bottlenecks for acquisition; research findings on acquisition of syntax, phonology, semantics, linguistic pragmatics; pedagogical implications of these findings. Prerequisites: LING:3010 and LING:3020. Same as LING:4080.

SLA:4300 Introduction to Spanish Syntax 3 s.h.
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Prerequisites: SPAN:3100. Same as SPAN:4150.

SLA:4301 Introduction to Spanish Phonology 3 s.h.
Sound patterns of Spanish; how various theoretical approaches solve basic problems in Spanish phonology; identification of linguistic universals, how they are manifested in the sound structure of Spanish. Prerequisites: SPAN:3110. Same as SPAN:4100.

SLA:4401 Methods of Teaching English as a Second Language 3 s.h.
Observations of ESL and intensive English classes at the University; design and presentation of short lessons, test evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: LING:3005 and LING:4040. Same as LING:4050.

SLA:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Same as FREN:5000, GRMN:5001, SPAN:5000, WLLC:5000.

SLA:5010 Introduction to Syntax 3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: LING:5000. Same as LING:5010.

SLA:5020 Introduction to Phonology 3 s.h.
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: LING:3005. Same as LING:5020.

SLA:5401 First Language Acquisition 3 s.h.
Child language from a crosslinguistic perspective. Prerequisites: LING:3005 and (LING:4040 or LING:5010). Same as LING:5030.

SLA:5441 Japanese as a Foreign Language: Practical Applications 3 s.h.
Instructional methodology, curriculum, and material design; hands-on experience. Same as JPN:5401.

SLA:5973 Grammar in Second Language Teaching/Learning 3 s.h.
Grammar, second language acquisition, and teaching. Taught in English, projects in varied languages. Same as GRMN:3540.

SLA:6010 Syntactic Theory 3 s.h.
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: LING:5010. Same as LING:6010.
SLA:6011 Phonological Theory  3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: LING:5020. Same as LING:6020.

SLA:6300 Foreign Language Teaching Methods  3 s.h.
Readings in pedagogical theory and practice and second language acquisition; experience designing activities for teaching and assessment, with critiques based on current theories and approaches; development of reflective practices toward one’s own language teaching. Same as SPAN:6000.

SLA:6301 Topics in Spanish Language Acquisition  3 s.h.
Theoretical linguistic approaches to monolingual, bilingual, and second language acquisition of Spanish and Portuguese; varied topics. Requirements: at least one course in linguistics (e.g., general introduction to linguistics). Same as SPAN:6150.

SLA:6302 Topics in Comparative Romance Linguistics  3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Recommendations: additional graduate course work in linguistics. Same as LING:6190, SPAN:6190.

SLA:6303 Spanish Phonology  3 s.h.
Modern approaches to synchronic phonology as applied to Spanish; focus on traditional descriptive problems, recent generative analyses. Requirements: phonology or linguistics course. Same as SPAN:6110.

SLA:6304 Spanish Syntax  3 s.h.
Spanish syntactic constructions examined in framework of selected syntactic theory; emphasis on development of syntactic argumentation. Requirements: one course in syntax. Same as SPAN:6120.

SLA:6403 Special Topics in Japanese Linguistics  3 s.h.
Topics in applied linguistics and language pedagogy related to Japanese language. Same as JPN:6403.

SLA:6452 Generative Second Language Acquisition  3 s.h.
Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners’ linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: (LING:3010 or LING:5010) and (LING:3020 or LING:5020). Same as LING:6080.

SLA:6500 Issues in Foreign Language Education  3 s.h.
Theoretical perspectives of pivotal research issues at the forefront of foreign language education; systems available to foreign language professionals for disseminating research. Same as EDTL:6480.

SLA:6501 Reading in a Second Language  3 s.h.
Current theory, research, practice in second language reading field; role of textual features and the reader in reading comprehension. Same as EDTL:6484.

SLA:6502 Principles of Course Design for Second Language Instruction  3 s.h.
Contemporary views of second language curriculum design; guidelines necessary for the creation of prototypical curriculum units to be transposed into classroom-ready forms; for individuals interested in foreign language materials development. Same as EDTL:6497.

SLA:6503 Fundamentals of Second Language Assessment  3 s.h.
How to write language tests; discussion of fundamental issues in development of new tests or selection of existing tests. Same as EDTL:6400.

SLA:6504 Second Language Program Management  3 s.h.
Preparation for supervising, administering foreign language programs at all levels; for precollegiate language teachers and graduate students. Same as EDTL:6402.

SLA:6506 Second Language Classroom Learning  3 s.h.
Synthesis of empirical findings on children’s and adults’ learning of a second or foreign language; emphasis on theoretical underpinnings of approaches, methods, techniques in language teaching. Same as ASIA:6483, EDTL:6483.

SLA:6901 Second Language Acquisition Research and Theory  3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as ASIA:6901, FREN:6901, JPN:6901, SPAN:6901.

SLA:6902 Second Language Acquisition Research and Theory II  3 s.h.
Continuation of SLA:6901. Prerequisites: SLA:6901. Same as ASIA:6903, SPAN:6902.

SLA:6920 Multimedia and Second Language Acquisition  3 s.h.
Foreign language multimedia in context of current second language acquisition theories and research; readings on interactivity, interface design, feedback, learner control; acquisition of vocabulary, grammar, and culture. Requirements: foreign language teaching methodology course. Same as FREN:6920, GRMN:6920, SPAN:6920.

SLA:6950 Topics in Second Language Acquisition: Speaking  3 s.h.
Theory, pedagogy, research, and assessment in second language speaking. Same as FREN:6950, SPAN:6950.

SLA:6965 Topics in Second Language Acquisition: Writing  3 s.h.
Theory, pedagogy, research, and assessment in second language writing. Taught in English. Same as RHET:6965, SPAN:6965.

SLA:6970 Cultural Curriculum  3 s.h.
Culture’s role in foreign/second language teaching; definition, pedagogy, assessment, and materials that allow culture to be taught and learned. Same as EDTL:6409.

SLA:7020 Readings in Second Language Acquisition arr.

SLA:7025 Special Projects in Second Language Acquisition arr.

SLA:7401 Advanced Syntactic Theory  2-3 s.h.
Recent developments in syntax; comparison of theories, argumentation, and uses of data. Prerequisites: LING:6010. Same as LING:7010.

SLA:7402 Advanced Phonological Theory  2-3 s.h.
Current issues. Prerequisites: LING:6020. Same as LING:7020.

SLA:7404 Seminar: Problems in Linguistics  2-3 s.h.
Intensive study of theoretical and practical problems. Same as LING:7090.
**SLA:7405 Teaching Chinese as a Second Language V**  
3 s.h.  
Qualitative and quantitative research design theories and techniques. Prerequisites: CHIN:7401 and PSQF:4143. Same as CHIN:7405.

**SLA:7406 Teaching Chinese as a Second Language I**  
3 s.h.  
Research, theory on acquisition of Chinese as a non-native language. Same as CHIN:7401.

**SLA:7804 Teaching Chinese as a Second Language IV**  
3 s.h.  
Overview of goals, concepts, principles, research, and issues in assessment and testing of Chinese as a second language. Same as CHIN:7404.
Second Language Acquisition, Ph.D.

Requirements

The Doctor of Philosophy program in second language acquisition is a research-oriented degree which requires 72 s.h., including a maximum of 33 s.h. earned in work toward a master's degree. The program is interdisciplinary and focuses on languages other than English. Students interested in pursuing the Ph.D. must hold a master's degree in an appropriate field (e.g., linguistics, foreign language education, English as a second language) or have equivalent academic experience.

Doctoral students may specialize in one of two broad areas: language learning and post-secondary education, with possible focus on technology in language learning and teaching; or linguistic and/or psycholinguistic approaches to second language acquisition, with possible focus on phonetics/phonology or syntax (generally also focusing on a specific language).

There are 14 courses required for the major, although students may extend their interdisciplinary interests and take relevant elective course work offered by the Departments of Communication Sciences and Disorders, French and Italian, German, Linguistics, Psychological and Brain Sciences, Rhetoric, Spanish and Portuguese, and Asian and Slavic Languages, Literatures, and Cultures in the College of Liberal Arts and Sciences (p. 17); and the Departments of Psychological and Quantitative Foundations, and Teaching and Learning in the College of Education (p. 1039). In addition, the Ph.D. requires successful completion and defense of a dissertation representing original research in second language acquisition.

A course may be used to fulfill only one requirement. All courses taken to fulfill program requirements must be taken on a graded basis; no graduate credit is awarded for a grade lower than C-minus. To remain in good standing, Ph.D. students must maintain a cumulative g.p.a. of at least 3.00.

The program in second language acquisition requires the following course work.

Foundation Courses

Both of these:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Linguistics

For students whose language of research is Spanish, it is recommended that the courses be chosen from Spanish, whenever possible.

Two of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING:3005</td>
<td>Articulatory and Acoustic Phonetics</td>
<td>3</td>
</tr>
<tr>
<td>LING:5010</td>
<td>Introduction to Syntax</td>
<td>3</td>
</tr>
<tr>
<td>LING:5020</td>
<td>Introduction to Phonology</td>
<td>3</td>
</tr>
<tr>
<td>LING:6010</td>
<td>Syntactic Theory</td>
<td>3</td>
</tr>
<tr>
<td>SPAN:4100</td>
<td>Introduction to Spanish Phonology</td>
<td>3</td>
</tr>
<tr>
<td>SPAN:4150</td>
<td>Introduction to Spanish Syntax</td>
<td>3</td>
</tr>
<tr>
<td>SPAN:6110</td>
<td>Spanish Phonology</td>
<td>3</td>
</tr>
<tr>
<td>SPAN:6120</td>
<td>Spanish Syntax</td>
<td>3</td>
</tr>
</tbody>
</table>

Or the two-course requirement can be met either by taking one introductory-level course in phonetics/phonology and syntax, or by taking a two-course sequence in one of those areas.

Specialization Courses

Each student selects one of two specialization areas—linguistic/psycholinguistic approaches to second language acquisition or language learning and post-secondary education—and takes five courses (total of 15 s.h.) in one area, not including courses taken above to satisfy requirements. Courses that could be used in these areas are listed below. Each student’s specific specialization area and set of courses will be determined in consultation with the advisor.

Linguistic/Psycholinguistic Approaches to Second Language Acquisition

</table>
SPAN:3190  Psycholinguistic Aspects of Bilingualism  3-4
SPAN:4170  Linguistic Aspects of Second Language Acquisition  3
SPAN:6150  Topics in Spanish Language Acquisition  3

Other courses (chosen in consultation with advisor)

**Language Learning and Post-Secondary Education**

CHIN:5024  Teaching Chinese as a Second Language VII: Pedagogical Grammar  3
CHIN:7401  Teaching Chinese as a Second Language I  3
CHIN:7403  Teaching Chinese as a Second Language III  3
CHIN:7404  Teaching Chinese as a Second Language IV  3
PSQF:6205  Design of Instruction  3
PSQF:6208  Designing Educational Multimedia  3
PSQF:6215  Web-Based Learning  3
PSQF:6265  Program Evaluation  3
EDTL:6402  Second Language Program Management  3
EDTL:6403  Language Policy and Planning  3
EDTL:6480  Issues in Foreign Language Education  3
EDTL:7015  Ph.D. Seminar in Language, Literacy, and Culture  arr.

Other courses (chosen in consultation with advisor)

**Elective Courses**

Students also may take elective course work relevant to their research interests, including the following independent project courses.

SLA:7020  Readings in Second Language Acquisition  arr.
SLA:7025  Special Projects in Second Language Acquisition  arr.

**Thesis**

Students must complete a thesis (maximum of 15 s.h., with a minimum of 2 s.h.)

**Admission**

Admission is for fall semester; students are admitted only for full-time study. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Strong applicants hold a master's degree in a related area, have a cumulative g.p.a. of at least 3.50 in master's degree work, and speak and write English and another language at a professional level. Applicants must submit a writing sample that demonstrates their ability to synthesize and analyze information using standard academic English.

### Financial Support

Teaching assistantships are available through the Foreign Language Acquisition Research and Education Program (FLARE). Assistantships usually involve teaching elementary or intermediate language courses. Visit the FLARE website for details.
Social Science Analytics

Chair, Department of Political Science
• Wenfang Tang

Coordinator, Social Science Analytics
• Frederick J. Boehmke (Political Science)

Undergraduate certificate: social science analytics
Website: https://clas.uiowa.edu/polisci/undergraduate/social-science-analytics-certificate

The growth of big data and informatics calls for a new set of skills for social science students and an increased understanding of the logic of data collection and analysis. The certificate focuses on the application side of data analysis and allows focus to be on the specific research methods and quantitative skills using data-driven methods effective for more understanding in an increasingly complicated social-political world. The certificate offers an opportunity for interdisciplinary training on how data can be used to address important questions in the social sciences.

The certificate will ensure students are more competitive for careers and opportunities with political campaigns, policy analysis, public opinion firms, consulting and government agencies, and local communities.

The Certificate in Social Science Analytics is interdisciplinary and a number of departments collaborate to leverage distinct strengths and offer courses applicable to the certificate, including the Departments of Geographical and Sustainability Sciences, Political Science, Sociology, and Statistics and Actuarial Science. The certificate is administered by the Department of Political Science (College of Liberal Arts and Sciences).

Programs

Undergraduate Program of Study

Certificate
• Certificate in Social Science Analytics [p. 813]
Social Science Analytics, Certificate

The Certificate in Social Science Analytics requires a minimum of 19 s.h. Students complete courses from four required content areas: core statistics; social science research design and data analysis; building skills and data science; and the applied research experience.

The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students majoring in computer science, geographical and sustainability sciences, political science, sociology, and statistics and actuarial science may count a maximum of 6 s.h. of course work for their major toward the certificate. Students pursuing other majors should consult with their major advisors to ascertain whether they may count certificate course work toward their majors.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

Social Work

Director
• Sara Sanders

Director, Bachelor of Arts Program
• Motier Haskins

Director, Master of Social Work Program
• Julia Kleinschmit

Undergraduate major: social work (B.A.)
Undergraduate minor: social work
Graduate degrees: M.S.W.; Ph.D. in social work
Faculty: https://clas.uiowa.edu/socialwork/people/faculty
Website: https://clas.uiowa.edu/socialwork/

The School of Social Work’s mission is to develop, disseminate, and integrate excellent and compelling research-based knowledge, practice, and policy, particularly that related to children, families, and older adults. The school operates from strengths-based perspectives and systems perspectives. It educates its graduates to be culturally competent scholars and practitioners who are committed to social justice and social work values and ethics, and who are prepared to serve in and have a positive impact on a broad range of family-centered and community-based practice settings throughout the State of Iowa and beyond.

The school provides a program of professional training accredited by the Council on Social Work Education at the baccalaureate and master’s degree levels, aimed at developing effective intervention in multiple systems and using professional social work values and ethics. It also offers a Ph.D. program, which prepares students to conduct research that contributes to the knowledge base of social work, to be leaders in setting policy and practice, and to teach in colleges and universities. In addition, the School of Social Work administers the programs listed below.

Certificate and Minor in Aging Studies
The School of Social Work administers the Aging Studies Program, which offers a certificate for undergraduate and graduate students and a minor for undergraduates; see Aging Studies [p. 29] in the Catalog.

Certificate in Critical Cultural Competence
The School of Social Work administers the undergraduate certificate program in critical cultural competence; see Critical Cultural Competence [p. 290] in the Catalog.

Projects, Seminars
Students may become involved in special projects such as the National Resource Center for Family-Centered Practice and the School of Social Work’s programs in gerontology and in end-of-life care.

The school also offers students the opportunity to participate in travel/study seminars.

Continuing Education
Nondegree students may enroll in selected courses. Students who complete continuing education work and later enroll in a degree program may be able to apply a limited amount of their continuing education work toward their degree requirements; applicable credit is determined by the School of Social Work.

Courses

Social Work Courses
SSW:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SSW:1022 Social Justice and Social Welfare in the United States 3 s.h.
Historical development of social welfare and social justice in the United States; individual values and ethics; role and responsibilities of enhancing society; contemporary practice to address social injustices including poverty, discrimination, various forms of violence; small group discussions and debates of various issues to allow for an exchange of diverse views and perspectives; volunteer work. GE: Values, Society, and Diversity. Same as SOC:1022.

SSW:1800 Basic Aspects of Aging 3 s.h.

SSW:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as COMM:2042, IS:2042.

SSW:2222 Introduction to Social Work 4 s.h.
Social welfare as a social institution; settings, methodologies of social work, practice; profession of social work; historical development of American social welfare, social work; a minimum of 45 hours volunteer work. Requirements: sophomore or higher standing.

</table>

Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation's Principles for Older Persons frameworks. Same as ASP:3135, GHS:3050.

Project related to student interest carried out under direction of faculty member. Requirements: individual study contract.

Overview of nursing home roles in context of long-term care system, characteristics of nursing home residents. Same as ASP:3501.

Opportunity for cross-cultural learning through U.S. or international travel; focus on social welfare issues. Prerequisites: SSW:4843.

Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as MGMT:3600, NURS:3600, RELS:3701.

Physiological, psychological aspects; parameters defined by students, instructor. Same as NURS:3712.

Chemical dependency for helping professions; etiological, physiological, psychological, legal, sociological aspects; treatment methods.

Major gerontological programs and services, practitioners' need for basic aging-practice competence; aging network; income, employment, health maintenance programs; continuum of care (preventive and well-elderly services, in-home services, community-based services, institutional care); assessment; major elder health issues, informal care; end-of-life care. Same as ASP:3753.

Public social policies, their affect on well-being of elderly, including women and minorities; U.S. and other nations' policies. Requirements: an introductory course on aging and junior or higher standing. Same as ASP:3785.

Introduction to death and dying; historical, cultural, societal, personal perspectives. Same as ASP:3786.

Child abuse and neglect, domestic violence, elder abuse; causes, policy aspects, identification, reporting, treatment, prevention.

Public and private child welfare practice and organizations in the United States; historical and legal aspects, co-occurring issues, foster care, adoption, family preservation.

Human behavior, practice, social welfare policy.

Behavior and development in context of social, ecological systems and human diversity; overview of biopsychosocial dimensions, individual behavior, and development throughout lifespan; contexts of diverse family, group, community, organization, and cultural systems.

Professional practice: functions, roles, skills, conceptual frameworks, values, ethics; focus on integrated approach to practice, including assessment, intervention, evaluation of interventions, termination with individuals, families, groups; emphasis on empirically based practice. Corequisites: SSW:3840, if not taken as a prerequisite. Requirements: admission to social work B.A. program.

Practice of interpersonal skills required in the helping relationship. Corequisites: SSW:3841, if not taken as a prerequisite. Requirements: admission to social work B.A. program.

Scientific approach to knowledge building, with emphasis on critical use of research; quantitative and qualitative methods, evaluation of practice, computerized data analysis, ethics and diversity in social work research. Requirements: admission to social work B.A. program.

Context of practice examined to understand structural factors that affect clients and communities; culturally competent practice using empowerment perspective. Corequisites: SSW:3840, if not taken as a prerequisite. Requirements: admission to social work B.A. program.

Theoretical and historical perspectives on racism, sexism, other forms of discrimination; applications to social work, culturally competent practice, change strategies. Requirements: admission to social work B.A. or M.S.W. program.

Effects of organizational structures/processes on individual performance; models of management, communication patterns, leadership styles; skill in technical writing, decision making, personnel and financial management, applied professional ethics. Requirements: completion of foundation courses.

How social work practice intersects with different aspects of the criminal justice system; focus on integrating social work values into criminal justice field; social work's responsibility to address social justice problems (e.g., mental illness, racial disparity, gender, human rights) within criminal justice system; critical examination of past and present practices in criminal justice and implications for social work practice and policy when working with individuals in criminal justice system.
SSW:4130 Family Development Specialist Model  3 s.h.
Use of family development specialist model of family-centered practice to facilitate improved family functioning, economic independence; relationship building, systems theory, family-centered case management, conflict management, empowerment strategies. Requirements: completion of family development specialist certification course.

SSW:4155 Treatment of Substance Use and Co-Occurring Disorders  3 s.h.
Treatment of individuals presenting substance related issues (abuse, dependency, co-occurring disorders): etiological, physiological, psychological, legal, and sociological aspects; evaluation of current research and direct application of contemporary treatment modalities to client situations encountered as helping professionals. Recommendations: introductory course in substance abuse.

SSW:4188 Continuing Education: Honors  arr.
Supervised individual research. Requirements: honors standing.

SSW:4189 Field Experience Seminar  1 s.h.
Opportunity for students to recount their experiences from generalist practice in agencies; application of knowledge, skills, and values of culturally competent social work. Corequisites: SSW:4193. Requirements: completion of course work in the major.

SSW:4190 Aging Studies Internship  3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults. Same as ASP:4190.

SSW:4192 Honors in Social Work  arr.
Supervised individual research. Requirements: honors standing.

SSW:4193 Field Experience  arr.
Supervised experience in selected social welfare organizations; application of knowledge and skill common to generalist practice in an agency setting. Corequisites: SSW:4189. Requirements: completion of course work in the major and social work senior standing.

SSW:4216 Group Facilitation in Human Sexuality  0-3 s.h.
Principles of group dynamics, group process; leadership skills for small, task-oriented discussion groups on human sexuality. Prerequisites: SSW:3712. Same as NURS:4216.

SSW:4700 Motivational Interviewing in Diverse Application  3 s.h.
Application of motivational interviewing (MI) skills, as a collaborative process and communication style, while working with individuals presenting with ambivalence to change; MI skills are used to guide across the change process ("Stages of Change") by evoking the intrinsic motivation for change; includes application to diverse populations (e.g., cultural groups, veterans, adolescents) and psychological issues individuals may exhibit.

SSW:4843 Social Welfare Policy and Practice  3 s.h.
Basic social welfare policies and programs; economic, social, ideological, and political conditions that have influenced formation and implementation of social policy, current structure of major social welfare policies.

SSW:5194 Social Work Practice in Health Care Settings  2 s.h.
Introduction to organization, provision of social work services in health care settings; practice issues such as models of intervention, ethical questions, impact of cultural diversity on health care.

SSW:5200 Grief Work with Individuals and Families  2-3 s.h.
Complexity of grief and its multifaceted impact on family systems; utilizing grief theories, including Worden’s Tasks of Mourning, ambiguous loss theory, several family systems models; examination of multi-generational dynamics that affect how we learn to grieve, how we experience grief, and how we live after a loss; acknowledged and unacknowledged grief and loss; generational family dynamics; difficulties and strengths passed from one generation to the next; assessing grief at individual, family, group, and community levels; how loss can affect personal well-being and professional practice, particularly when working with an interdisciplinary team. Requirements: social work graduate standing.

SSW:5219 Aging and the Family  2-3 s.h.
Research related to aging and the family; intergenerational relations, marital status in later life, diversity of older families, caregiving, elder abuse, policy issues. Same as ASP:5219.

SSW:5240 Trauma Informed Family Practice  3 s.h.
Theory, knowledge, and skills informing evidence-based assessment and intervention for traumatized children and adolescents in child welfare system, including those exposed to abuse, neglect, witnessing interpersonal crime (e.g., domestic violence, community violence); family events within their ecological context, various family forms, cultural patterns; controversial issues in child welfare, conclusions based on scholarly research, presentation of conclusions in professional oral and written form.

SSW:5254 Introductory Seminar: End-Of-Life Services in Rural Communities  2-3 s.h.
Basic principles of hospice and palliative care, rural service delivery, community assessment.

SSW:6145 Organization and Community Practice  3 s.h.
Models that underlie theories of organization, community practice; principles of macro social work and skill development in relationship building, needs assessment, decision making, planning, implementing, ethics, program and self-evaluation. Requirements: admission to M.S.W. program.

SSW:6146 Computer Laboratory  1 s.h.
Use of microcomputers in social work practice; user skill, software for a variety of applications in social service settings. Requirements: admission to M.S.W. program.

SSW:6148 Research Practice I  3 s.h.
Knowledge and skills for evaluating practice and carrying out social work research; formulation of research questions; research design and methodology; sampling techniques; protection of human subjects; descriptive statistics; computerized data analysis. Requirements: admission to M.S.W. program.
SSW:6150 Social Work Practice with Individuals, Families, and Groups 3 s.h.
Models and underlying theories of empirically based direct social work practice; emphasis on an ecosystem strengths perspective; phases of helping relationship, strengths-based assessment, change process in interpersonal helping relationships. Prerequisites: SSW:3840. Requirements: admission to M.S.W. program; for students who have completed 60 s.h., concurrent enrollment in SSW:6151, SSW:6290, and SSW:6291.

SSW:6151 Social Work Practice Skills Laboratory 2 s.h.
Interpersonal skills practice in the helping relationship; small-group format. Corequisites: SSW:6150 and SSW:6290 and SSW:6291, if not taken as prerequisites. Requirements: admission to M.S.W. program.

SSW:6220 Family Law 3 s.h.
Legal systems, rights, processes related to families; marriage, divorce, custody, protective services, reproductive rights, adoption, commitment, delinquency, education, poverty, discrimination; roles of lawyers, social workers in legal system. Prerequisites: SSW:4843.

SSW:6224 Spirituality and Ethics in Social Work 2-3 s.h.
Knowledge, values, and skills that provide a framework for spiritually sensitive social work practice; preparation for responding competently and ethically to diverse spiritual perspectives, for recognizing and reflecting on one's own spiritual beliefs, and for identifying appropriate ways to apply personal beliefs to practice with varied populations while safeguarding client autonomy and self-determination.

SSW:6228 Theories of Personality and Psychopathology 2 s.h.
Theories and their relevance to social work practice with diverse populations. Prerequisites: SSW:3840. Requirements: social work graduate standing.

SSW:6229 Working with Groups 2 s.h.
Theory and practice of group work, group process, leadership styles and skills; fundamental theory, skills necessary to form and facilitate a small group. Requirements: completion of foundation courses.

SSW:6232 Therapy with Couples 2 s.h.
Married and other couples as social systems; theories of functional, dysfunctional systems; techniques of intervention. Requirements: completion of foundation courses.

SSW:6233 School Social Work Practice 2 s.h.
School as a social institution; activities of school social worker; theoretical, practice issues; current issues in field.

SSW:6234 Social Work Practice and Use of the Diagnostic and Statistical Manual of Mental Disorders 3 s.h.
Major categories of psychopathology and the DSM-5 system of classification; the use of the DSM-5 approach to diagnosis allows one to consider all aspects of an individual's behavior and presentation of symptoms; included in the the DSM is information about effects of culture, developmental stage, and gender on the presentation of mental disorders.

SSW:6236 Interventions with Individuals 2 s.h.
Comparison of two or more intervention theories and approaches used in social work practice with individuals; attention to diverse populations and across life span. Requirements: completion of foundation courses.

SSW:6237 Social Work Practice with Children, Youth, and Families 2 s.h.
Preparation for practice in child welfare, family service agencies; family life cycle, child development, child maltreatment, problems of adolescence, social services for families and children, legal issues. Requirements: completion of foundation courses.

SSW:6238 Introduction to Play Therapy 2 s.h.
Major theories and techniques of play therapy, relevance to social work practice.

SSW:6247 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, LAW:8751, MGMT:9150, RELS:6070, SPST:6010, URP:6278.

SSW:6248 Nonprofit Organizational Effectiveness II 3 s.h.

Topics not covered in another course; diversity, social justice and ethics issues related to a social work practice area.

SSW:6282 Grant Writing 1-2 s.h.
Same as URP:6282.

SSW:6290 Foundation Practicum in Social Work 3 s.h.
Generalist practice experience with individuals, families, small groups, organizations, communities; communication skills, change process, professional values and ethics applied at multiple system levels; students evaluate their own practice using a learning contract in an agency setting. Corequisites: SSW:3840, SSW:3847, SSW:4843, SSW:6145, SSW:6146, SSW:6150, SSW:6151, and SSW:6291; if not taken as prerequisites. Requirements: admission to M.S.W. program.

SSW:6291 Foundation Practicum Seminar 1 s.h.

SSW:7000 Seminar for Accelerated Advanced Standing Program 3 s.h.
Preparation for advanced micro and macro SSW course work; builds on foundation knowledge students obtained about working with individuals, group, families, communities, and organizations at the undergraduate level by introducing them to advanced theory and practice models seen in graduate level courses and practice situations. Requirements: admission to accelerated advanced standing M.S.W. program.

SSW:7250 Family-Centered Theory and Practice I 3 s.h.
Theoretical bases for family-centered practice; comparison and analysis; skill development in analyzing problem situations, implementing change strategies. Requirements: completion of M.S.W. foundation courses.
SSW:7251 Family-Centered Theory and Practice II 3 s.h.
Techniques for assessment, intervention in family-centered practice; evaluation of practice; theoretical and clinical bases for intervention. Prerequisites: SSW:7250.

SSW:7252 Advanced Social Policy for Family Practice 3 s.h.
Systematic basis for examining social, economic, and political factors that influence formation of social policies; social policy implementation, impact of social policies on vulnerable individuals and families. Requirements: completion of M.S.W. foundation courses.

SSW:7255 Integrative Seminar in End-of-Life Care 1 s.h.
Integration of students' knowledge, skills, and values for practice in end-of-life care and bereavement; application to case studies and advanced practicum setting. Corequisites: SSW:7292 or SSW:7295. Requirements: admission to end-of-life care area.

SSW:7260 Integrated Social Work Theory and Practice I 3 s.h.
Theories, skill development, evaluation, ethical issues in integrated social work practice; intermediate group work for culturally competent intervention; small task groups. Requirements: completion of foundation courses.

SSW:7261 Integrated Social Work Theory and Practice II 3 s.h.
Continuation of SSW:7260; theories, skills evaluation, ethical issues; advanced group work for culturally competent intervention; case management, program development, funding evaluation, large task groups.

SSW:7262 Advanced Social Policy for Integrated Practice 3 s.h.
Systematic basis for critical examination of social, economic, and political factors that influence formation of social policies; social policy implementation, impact of social policies on vulnerable populations, service providers, communities. Requirements: completion of M.S.W. foundation courses.

SSW:7268 Continuing Education: Individual Study arr.
Project related to student interest; directed by faculty member. Requirements: completion of course contract.

Thesis research project.

SSW:7270 Research Practice II 2-3 s.h.
Research project relevant to social work practice that builds on knowledge and skills developed in SSW:6148; data analysis, report of results; ethical principles applied to research. Prerequisites: SSW:6148. Requirements: admission to M.S.W. program.

SSW:7271 Individual Study arr.
Project related to student interest; directed by faculty member.

SSW:7272 Thesis arr.

SSW:7292 Advanced Practicum in Family-Centered Practice I and II arr.
Family-centered practice theory and skills implemented in interventions with individuals, families; two semester field course. Corequisites: SSW:7250, SSW:7251, SSW:7252, and SSW:7270; if not taken as prerequisites. Requirements: completion of M.S.W. foundation courses, and concurrent enrollment in SSW:7293 or SSW:7294.

SSW:7293 Advanced Practicum Seminar in Family-Centered Practice I 1 s.h.
Two-semester field course; family-centered practice theory and skills implemented in interventions with individuals, families. Corequisites: SSW:7292. Requirements: completion of M.S.W. foundation courses.

SSW:7294 Advanced Practicum Seminar in Family-Centered Practice II 1 s.h.
Continuation of SSW:7293. Prerequisites: SSW:7293.

SSW:7295 Advanced Practicum in Integrated Practice arr.
Integrated social work theories and interventions implemented in work with individuals, families, organizations, formal and informal networks; two semester field course. Corequisites: SSW:7260, SSW:7261, SSW:7262, and SSW:7270; if not taken as prerequisites. Requirements: completion of M.S.W. foundation courses; for fall semester -- concurrent enrollment in SSW:7297 or SSW:7298.

Field course; social work theories and interventions implemented in schools. Corequisites: SSW:7250 or SSW:7260, SSW:7251 or SSW:7261, and SSW:7252 or SSW:7262; if not taken as prerequisites. Requirements: completion of M.S.W. foundation courses.

SSW:7297 Advanced Practicum Seminar in Integrated Practice I 1 s.h.
Two-semester course; social work knowledge, skills, values, and professional identity integrated in context of advanced practice and direct multisystemic interventions. Corequisites: SSW:7295 or SSW:7296.

SSW:7298 Advanced Practicum Seminar in Integrated Practice II 1 s.h.
Continuation of SSW:7297. Prerequisites: SSW:7297.

SSW:7800 Social Work Proseminar 1 s.h.
Orientation for new Ph.D. students to program and degree requirements; how to formulate research questions; introduction to faculty research and interests. Requirements: admission to social work doctoral program.

SSW:7801 Knowledge Building in Social Work Practice 3 s.h.
Epistemology of social work practice theories, importance for knowledge building; practice theories of personal and interpersonal change, family life cycle development, empowerment.

SSW:7803 Social Work Research Practicum 1-4 s.h.
Student work with faculty on various phases of research process including research design, measurement, sampling, data collection, data analysis, human subjects review, and writing for publication. Requirements: admission to social work doctoral program.

SSW:7804 Thesis Writing Seminar 2-3 s.h.
Writing a thesis and an argument; synthesizing literature and justifying methods; development of scientific communication skills; defending ideas at proposal hearing and thesis defense.
SSW:7806 Teaching Practicum  1-2 s.h.
Development of knowledge, skills, and values needed to become effective, culturally competent social work educators through an applied teaching experience; faculty mentors provide ongoing instruction on how to teach and assess student learning. Requirements: admission to social work doctoral program, and concurrent enrollment in or completion of teaching seminar.

SSW:7807 Introduction to College Teaching for Social Workers  1 s.h.
Development of knowledge and skills needed to become effective, culturally competent educators; topics may include theories of adult learning, course design, creating a learning culture that is inclusive, instructional strategies, accreditation processes, and writing a teaching philosophy.

SSW:7815 Seminar: Human Service Organizations  3 s.h.
Theories of organizations and applying theory to research within and about human services organizations; range of theories and their application to problems of conducting organizational research from Weber’s “bureaucracy” to contemporary “learning organization” popularized by Senge; organizational culture and climate, interorganizational networks, supervision and turnover, gender and diversity in relation to organizational research; students lead sessions and facilitate discussion of critical concepts and readings.

SSW:7816 Psychological Trauma, Trauma-Informed Practice, and Trauma Research  3 s.h.
Theory related to psychological trauma, trauma-informed practice, and trauma research; origins of psychological trauma; history and development of trauma theories; trauma-related mental health disorders; trauma-sensitive/trauma-informed practice; challenges associated with applying and testing theory in direct practice and research.

SSW:7830 Ph.D. Dissertation  arr.
Social Work, B.A.

The undergraduate program in social work has been accredited continuously by the Council on Social Work Education (CSWE) since 1974 and is designed to be consistent with the council’s 2015 Educational Policy Statement competencies. The program’s goals are to:

- prepare students for culturally competent generalist social work practice with individuals, families, small groups, organizations, and communities;
- provide students with a base for continuing graduate education in social work and for lifelong learning; and
- prepare students for active engagement with issues of social justice, oppression, and social welfare in local, state, regional, national, and global goals.

The program draws on a liberal arts perspective; social and behavioral science theory; social research; social policy development, analysis, and implementation; culturally competent intervention and prevention approaches in working with individuals, families, small groups, organizations, and communities; social integration; multiple systems assessment and evaluation; and knowledge pertaining to diversity.

Consistent with CSWE standards, the program views dimensions of diversity as intersections of multiple factors, including age, class, color, culture, disability, ethnicity, gender, gender-identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Students learn that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

Knowledge and practice in social work values and ethics is also an integral part of students’ education. Knowledge and skill related to the evaluation of practice are integrated throughout the curriculum, beginning in SSW:1022 Social Justice and Social Welfare in the United States, continuing through practice and research courses, and culminating in the field experience and field seminar.

Admission to the Major

The School of Social Work endeavors to maintain a heterogeneous student body by enrolling students who represent diverse backgrounds and cultural perspectives.

A limited number of students are admitted to the major each year. The application deadline is February 15. Admission to the undergraduate program in social work requires:

- completion of SSW:1022 Social Justice and Social Welfare in the United States with a grade of C or higher during the sophomore year;
- a cumulative g.p.a. of at least 2.50 (exceptions may be made for persons who do not meet the grade-point average requirement if they are strong candidates on the basis of other criteria); and
- completion of application forms and statement.

Students should complete SSW:1022 in their first year or in fall of their sophomore year and apply to the major during their sophomore year. Students who apply during their junior year and are admitted must expect to complete an additional summer session, or more, in order to fulfill the requirements of the major.

All of the items above are required for transfer students, except that substitution of SSW:1022 is permitted with a grade of C or above in a course approved by the department, such as introduction to social work or introduction to human services. Students who have completed the equivalent of introduction to social work at another institution also must submit a completed recommendation form and transcripts. Recommendations and letters of reference will otherwise not be accepted.

The School of Social Work criteria for selective admission for a B.A. in social work is detailed in the “B.A. Social Work Admissions Policy Statement and Guidelines for Application” on the school’s Admission web page.

Meeting the admission requirements above does not guarantee admission. Admission often is limited by available instructional resources and opportunities for field placement. The school does not grant academic credit for life experience or previous work experience.

For more information about admission policies, contact the program administrator at the School of Social Work.

Social Work Interest

Students who are interested in applying to the social work major may declare a social work interest at any time after they enroll at the University and before they earn more than 72 s.h. of credit, and preferably while they still will have time to enter and complete the major in a total of four years of study. Students may not declare a social work interest after they have earned 72 s.h., even if they already have declared another major.

Declaration of a social work interest qualifies students with at least sophomore standing to be advised by a senior academic advisor assigned to social work interest students. Declaration allows students to participate in the Social Work Student Association and other social work activities, but does not allow them to register for required courses in the major. They may take electives in the social work department prior to formal admission to the major.

Students may continue their social work interest standing until they are admitted to the major or until they have earned more than 72 s.h. of credit.

Social Work Courses in Des Moines

In addition to its on-campus undergraduate program in Iowa City, the School of Social Work offers social work courses for the Bachelor of Arts through its program in Des Moines. Students in the Des Moines program take courses in sequence, completing the social work courses required for the degree in a minimum of two years. Courses are offered in a classroom setting. Students may complete other requirements for the B.A. in online and/or classroom course work. The Des Moines program is approved by the Council on Social Work Education. For more information about the social work program in Des Moines, contact the University of Iowa School of Social Work program administrator.

Requirements

The Bachelor of Arts with a major in social work requires a minimum of 120 s.h., including at least 60-64 s.h. of work for the major (a minimum of 35-38 s.h. in social work courses, 13-14 s.h. in cognate areas, 6 s.h. in one other department or in social work courses, and 6 s.h. in social work electives). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also
must complete the College of Liberal Arts and Sciences General Education Program (p. 437). Courses used to fulfill General Education Program requirements may not be used to satisfy the social work electives requirement.

Students must complete SSW:1022 Social Justice and Social Welfare in the United States (3 s.h.) to be admitted to the major and before enrolling in the remaining social work courses required for the major; this course also fulfills the General Education Program’s Values, Society, and Diversity requirement. A transfer student may be given approval by the department to substitute this requirement if they have completed an introduction to social work or introduction to human services course at another institution, or if they complete SSW:2222 Introduction to Social Work (Guided Independent Study section EXZ), in place of SSW:1022 to be admitted to the major; SSW:2222 would not fulfill the General Education requirement. If transferring the course from another institution, a student may be able to reduce the social work credit required for the major by 3 s.h.

Many students use the major’s required course BIOL:1140 Human Biology as partial fulfillment of the General Education Program’s Natural Sciences requirement.

The B.A. with a major in social work requires the following course work:

| Social Work Courses | 35-38 |
| Required Electives  | 12    |
| Cognate Areas       | 13-14 |
| **Total Hours**     | **60-64** |

**Social Work Courses**

All of these:

- SSW:1022 Social Justice and Social Welfare in the United States 3 s.h.
- SSW:3840 Human Behavior in the Social Environment 4 s.h.
- SSW:3841 Fundamentals of Social Work Practice 3 s.h.
- SSW:3842 Interpersonal Skills Laboratory 2 s.h.
- SSW:3844 Introduction to Social Work Research 4 s.h.
- SSW:3845 Social Work Processes 4 s.h.
- SSW:3847 Discrimination, Oppression, and Diversity 3 s.h.
- SSW:4189 Field Experience Seminar 1 s.h.
- SSW:4193 Field Experience 8-11 s.h.
- SSW:4843 Social Welfare Policy and Practice 3 s.h.

**Required Electives**

Students must complete a minimum of 6 s.h. of social work electives and 6 s.h. of courses in one other discipline or they can select additional course work in social work. If they opt to complete 6 s.h. from another discipline, students typically select courses in areas closely related to social work, such as African American studies (prefix AFAM), aging studies (prefix ASP), American studies (prefix AMST), anthropology (prefix ANTH), communication studies (prefix COMM), economics (prefix ECON), entrepreneurial management (prefix ENTR), health and human physiology (prefix HHP), journalism and mass communication (prefix JMC), management and organizations (prefix MGMT), political science (prefix POLI), psychological and brain sciences (prefix PSY), religious studies (prefix RELS), sociology (prefix SOC), Spanish (prefix SPAN), sport studies (prefix SPST), Tippie College of Business nondepartmental courses (prefix BUS), and gender, women’s and sexuality studies (prefix GWSS).

Courses used to fulfill General Education Program requirements may not be applied to the elective requirements.

Students who are working on a minor or a certificate may apply up to 6 s.h. toward this requirement.

Students must complete the following.

- Social work electives 6 s.h.
- Electives in another discipline related to social work 6 s.h.
- Or this:
  - Social work electives 12 s.h.

**Cognate Areas**

Students must complete the following.

**Natural and Social Sciences**

All of these:

- BIOL:1140 Human Biology 4 s.h.
- POLI:1100 Introduction to American Politics 3 s.h.
- PSY:1001 Elementary Psychology 3 s.h.
- SOC:1010 Introduction to Sociology 3-4 s.h.

**Recommended Course Sequence**

The school recommends that students complete required course work in the following sequence. Most social work courses are offered only once each year.

**First and Second Years**

- SSW:1022 Social Justice and Social Welfare in the United States 3 s.h.
- BIOL:1140 Human Biology 4 s.h.
- POLI:1100 Introduction to American Politics 3 s.h.
- PSY:1001 Elementary Psychology 3 s.h.
- SOC:1010 Introduction to Sociology 3-4 s.h.

One social work elective or an elective from another area

**Third Year**

- SSW:3840 Human Behavior in the Social Environment 4 s.h.
- SSW:3844 Introduction to Social Work Research 4 s.h.
- SSW:3845 Social Work Processes 4 s.h.
- SSW:3847 Discrimination, Oppression, and Diversity 3 s.h.

One social work elective or an elective from another area

**Fourth Year**

- SSW:3841 Fundamentals of Social Work Practice 3 s.h.
- SSW:3842 Interpersonal Skills Laboratory 2 s.h.
- SSW:4189 Field Experience Seminar 1 s.h.
Two social work electives or electives from another area

**Honors in the Major**

Students majoring in social work have the opportunity to graduate with honors in the major. Honors students complete in-depth study in areas that interest them. They must maintain a cumulative University of Iowa g.p.a. of at least 3.33 to participate in the program. Consult the School of Social Work for more information about graduating with honors in the major.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

**Academic Plans**

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the fifth semester begins:** four courses in the major and admission to the major

**Before the seventh semester begins:** five more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** five more courses in the major and finalized field placement

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Sample Plan of Study

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Students must take a minimum of two electives (6 s.h.) in social work. They also take two courses (6 s.h.) in a related discipline (i.e., psychology, sociology, political science, anthropology, or gender, women's, and sexuality studies) or an additional 6 s.h. of social work electives.

Career Advancement

The social work major prepares students for employment in social service areas such as public welfare, child welfare, mental health, elderly services, group services, and corrections. Many graduates continue with advanced study in social work or related physical and mental health professions.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Social Work, Minor

A minor in social work requires a minimum of 15 s.h. in social work courses, including 12 s.h. in courses numbered 3000 or above taken at the University of Iowa. Students complete one required course and 12 s.h. of elective course work. They must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass.

Social work courses required for the major are not available to students who are not admitted to the social work program.

The minor requires the following course work.

**Required Course**

One of these:

<table>
<thead>
<tr>

Master of Social Work, M.S.W.

The M.S.W. program prepares social workers for leadership in the profession and for advanced social work practice in a wide range of settings. The program's general focus is on family systems and social change, both domestic and international. Primary program goals are met through a set of professional foundation requirements and advanced courses which enable students to understand the dynamics of human development and change; to understand the links between society's structures and families; to acquire skills for working with individuals, families, small groups, and communities; and to learn how to enhance the responsiveness of human service organizations.

The program has been continually accredited by the Council on Social Work Education (CSWE) since 1951. See the CSWE Assessment of Student Learning Outcomes for the M.S.W. program.

Explore how social workers help individuals, groups, and families across their lifespans at the National Association of Social Workers website.

Master in Social Work Program Options

Three options are available to complete the M.S.W. in Iowa City and Des Moines, Iowa, depending upon an applicant’s prior preparation. Applicants to the three-year programs in the Quad Cities (located in the Davenport/Bettendorf area on Iowa’s eastern border) or in Sioux City, Iowa, may choose from the first two options. Applicants to any of the options, at any of the centers, complete the same application.

60 s.h. option (regular standing): Designed for individuals who have completed a degree in a discipline other than a CSWE-accredited social work degree program. Applicants apply for fall admission; the deadline is February 1.

48 s.h. option (advanced standing): Designed for individuals who have completed the B.A. in social work or the B.S.W. from a CSWE-accredited social work degree program. Applicants apply for fall admission; the deadline is February 1.

41 s.h. option (accelerated advanced standing): Designed for individuals who have completed the B.A. in social work or the B.S.W. from a CSWE-accredited social work degree program and who meet additional criteria. Additional forms and written requirements are part of the application. Applicants apply for summer admission; the deadline is January 4.

Requirements

The Master of Social Work requires 60 s.h. of graduate credit; the requirement is 48 s.h. for students who hold an undergraduate degree in social work from a program accredited by the Council on Social Work Education (CSWE). Students who have earned an undergraduate degree in social work from a program accredited by the CSWE and who meet other entrance criteria, can satisfy M.S.W. requirements with a 41 s.h. option. For further details, contact the School of Social Work.

The degree is offered with or without thesis. While students are not required to declare a field of practice, opportunities to specialize are available in fields such as aging, end-of-life care, school social work, child-welfare, trauma informed practice, social work in health and mental health settings, and many others.

The goals of the M.S.W. program are to:

- prepare students to shape the profession’s future by providing education in family-based, community-based, and culturally competent practice approaches using the person-in-environment framework; and
- prepare competent professionals for autonomous practice and leadership within the professional community; autonomous practice and leadership include advanced interventions at multiple system levels, supervision, program development, program administration, training, evaluation of practice, dissemination of new models of practice, and policy development.

The school offers the M.S.W. program on the University’s Iowa City campus and at three off-campus sites: Des Moines and Sioux City, Iowa, and the Quad Cities area of Iowa and Illinois (see “M.S.W. Off Campus” below). Each site provides the required structured sequence of courses and includes opportunities for students to individualize their plans of study. All sites give students access to the resources of an RU/VH Research University.

Requirements for the M.S.W. include 27 s.h. in foundation-level courses and 33 s.h. in advanced courses. All students must earn a minimum of 36 s.h. after admission to the M.S.W. program. Credit toward the M.S.W. may be applied from previous graduate course work if specific criteria are met.

All M.S.W. students follow a structured sequence of courses. They must obtain permission to revise their plan, and they must complete the degree within a maximum of four years. Students must maintain a cumulative g.p.a. of at least 3.00 and they must be in compliance with the school's student advancement policy.

The full-time M.S.W. program is completed in five semesters, beginning in fall and including a summer session. Full-time students complete the degree in the spring semester of their second year. Students whose degree requirement is 48 s.h. may enroll full-time or part-time their first year, following the sequenced plan.

Full-time study and a four-year part-time program are available in Iowa City and Des Moines. A three-year sequence of courses is available at all sites, although the Sioux City and Quad Cities sites admit new entering classes only on a three-year cycle.

Following is an outline of the full-time 60 s.h. program. For information about the three-year and four-year part-time sequences, contact the School of Social Work.

Concentrations

In the advanced year of the master’s program, students choose one of two concentrations: family-centered practice or integrated practice. These advanced specialized curricula build on the school’s liberal arts perspective and on the professional foundation. Both are based on a comprehensive eco-systemic theoretical perspective, and both apply the principles that are part of the school’s mission statement, with a focus on culturally competent family-centered and community-based approaches.

**Family-Centered Practice**

The family-centered practice concentration teaches knowledge and skills necessary for advanced social work practice with individuals and families. These include clinical practice methods that mobilize and develop clients’ coping skills, empowering them to manage difficult situations, and culturally sensitive methods for collaborating with clients, their families, and other professionals in planning interventions. Students also learn about advocating for clients, facilitating client self-advocacy, coordinating services to meet multiple needs, and influencing social policy on behalf of clients.

The concentration prepares students to work with individuals and families at appropriate levels of intensity, mobilize existing strengths, and enhance coping skills. Using principles of family-centered practice, students learn to take community and larger systems into account while working in partnership with individuals and families in all aspects of assessment and intervention planning. The concentration emphasizes sensitivity to a variety of family forms and to cultural diversity within family forms. “Family” is broadly defined to include step families, single-parent families, same-sex-couple families, grandparent-as-parent families, adult parent-adult child families, and traditional forms of families.

**Integrated Practice**

The integrated practice concentration teaches methods of advanced practice that empower organizational and community change at multiple system levels. Students learn skills for assessment, planning, and direct intervention in larger systems such as neighborhoods, social support networks, and service delivery systems, and for policy making. They develop skills for a broad range of interventions, including direct practice, case management, community education, community development and practice, management and administration, organizational and interorganizational planning and program development, team building, organization and program evaluation, and social policy advocacy. They also learn culturally sensitive methods to collaborate with families and communities; identify strengths, assets, and challenges; and develop services and programs that will meet clients’ needs.

Building on strengths and assets of organizations and communities, students learn how to mobilize community members in advocacy and change efforts—skills useful for case managers, service coordinators, supervisors, program planners and developers, and administrators. Students also learn how to apply advanced skills to advocacy, community assessment, planning and mobilizing resources, and influencing social policy.

The concentration prepares students for practice in varied settings, including hospitals and community health programs, schools, mental health centers, neighborhood and family resource centers, community- and family-based community service agencies, correctional facilities, and programs that serve the elderly, both in the community and in care facilities. In many of these settings, social workers work as interdisciplinary team members and team leaders within organizations. They also collaborate with community organizations, community residents, and service providers.
Many social workers are involved in staff supervision, program development, and agency administration. Content areas include grant writing; intervention in multiple systems, including team and network building; policy practice; and design of evaluation methods for client assessment and program evaluation.

**M.S.W. Off Campus**

The School of Social Work delivers the M.S.W. curriculum to three off-campus sites: Des Moines and Sioux City, Iowa, and the Quad Cities area of Iowa and Illinois. Each site is administered by the School of Social Work in cooperation with the Division of Continuing Education. Social work faculty members teach required courses at each center and are available for student advising. The off-campus programs have been evaluated by the Council on Social Work Education and the University of Iowa Graduate Council as providing a program comparable to that available on the Iowa City campus.

Courses at each off-campus site are taught in classrooms by tenure-track, clinical, visiting, and adjunct faculty members. Instructional connections between sites are maintained through varied technologies, including computer-based instruction.

For program entry and application dates, contact the School of Social Work.

**Des Moines Center**

Located in Des Moines, in central Iowa, this center offers courses sequenced to accommodate both part-time and full-time study. Students may complete the entire degree program at the Des Moines center, although they may choose to travel to Iowa City for selected elective courses offered during the summer.

**Quad Cities Center**

Students in the Quad Cities part-time program can complete their degree entirely off campus and online with the exception of some electives, which they can take during summer sessions in Iowa City. The School offers this part-time program to a cohort admitted once every three years. In addition to the part-time cohort students, there are some full- or part-time students from Iowa City in practicum in the Quad Cities. The Quad Cities program is located in the Davenport/Bettendorf area on Iowa's eastern border.

**Sioux City Center**

The Sioux City part-time program is nearly identical to the Quad Cities part-time program. Most courses are offered in classroom space at Briar Cliff University in Sioux City, Iowa.

**Joint M.S.W./Ph.D. in Social Work**

The school offers a joint Master of Social Work/Doctor of Philosophy in social work for students who have completed course work in research and statistics and have postbaccalaureate experience related to social work practice. The joint program permits students to apply a limited amount of credit toward both graduate degrees, reducing the time required to graduate. Individuals interested in the joint program must apply to the M.S.W. program and the Ph.D. program; applications are reviewed by the admissions panels of both programs. For more information, contact the School of Social Work.

**Joint M.S.W./Degrees in Other Disciplines**

The School of Social Work collaborates with the College of Law to offer the joint Juris Doctor/Master of Social Work. It also collaborates with the School of Urban and Regional Planning to offer the joint Master of Social Work/Master of Arts or Master of Science in urban and regional planning. Each program permits students to apply up to 12 s.h. of graduate credit toward both degrees, reducing the time required to graduate. Applicants must apply to each program separately and be admitted to each one before they may be admitted to the joint degree program. For information about the law and planning programs, see Juris Doctor [p. 1341] (College of Law) and Urban and Regional Planning [p. 1316] (Graduate College) in the Catalog.

**M.S.W. Professional Association**

Students and graduates of the social work program are eligible for membership in the National Association of Social Workers (NASW); the largest membership organization of professional social workers in the world, with 132,000 members. NASW works to enhance the professional growth and development of its members, to create and maintain professional standards, and to advance sound social policies. The NASW Code of Ethics is intended to serve as a guide to the everyday professional conduct of social workers.

Graduates of accredited M.S.W. programs may be eligible for membership in many specialized areas of practice, for example, associate membership in the American Association for Marriage and Family Therapy (AAMFT) upon fulfilling certain curriculum requirements at the graduate level. Courses are not automatically accepted; graduates need to demonstrate that specific courses meet the AAMFT's requirements, usually by sending course outlines.

**Admission**

The School of Social Work seeks to maintain a heterogeneous student body by enrolling students who represent diverse backgrounds and cultural perspectives. Previous experience in human services and cross-cultural experiences is desirable. The school does not grant academic credit for life experience or previous work experience.

Admission to the M.S.W. 60 s.h. program requires a bachelor's degree from an accredited college or university, with a reasonable distribution of courses in the liberal arts and sciences (the humanities and the social, behavioral, and biological sciences). Admission to the M.S.W. 48 s.h. program requires a bachelor's degree in social work from a CSWE-accredited college or university. Applicants must have an undergraduate g.p.a. of 3.00 or higher, or a g.p.a. of 3.00 or higher on 12 s.h. of letter-graded graduate course work; consult the University's Office of Admissions for help in calculating grade-point average. Competence on personal computers and spreadsheet applications is required. Admission to the 41 s.h. program requires a bachelor's degree in social work from a CSWE-accredited program, earned within the previous five years, with a cumulative g.p.a. of at least 3.20 and a major g.p.a. of at least 3.50.

Applicants whose first language is not English must score at least 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants must submit three letters of recommendation, including one regarding academic abilities and one from the
applicant's most recent employer (if the employment was social work-related); and a personal statement addressing criteria specified by the School of Social Work. Applicants to the 41 s.h. program must provide additional materials.

Applications for the 48 s.h. and 60 s.h. programs are accepted beginning September 1 and must be completed by February 1 to be considered for the next academic year. Applications for the 41 s.h. program are due January 4.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

For a complete statement of graduate admission policies, contact the School of Social Work.

Financial Support

Students seeking financial assistance should apply for aid through the University of Iowa Office of Student Financial Aid. Students may apply for a limited number of research and teaching assistantships available from the School of Social Work. Application materials for research or teaching assistantships are available from the school each spring, or as positions become available. Aid received through the Office of Student Financial Aid does not preclude students from consideration for aid through the School of Social Work.

Career Advancement

Professional social workers are found in every facet of community life—in schools, hospitals, mental health clinics, senior centers, elected office, private practices, prisons, military, corporations, and in numerous public and private agencies that serve individuals and families in need. Many also serve as social and community service directors.

According to the Substance Abuse and Mental Health Services Administration (SAMHSA), professional social workers are the nation’s largest group of mental health services providers. There are more clinically trained social workers—over 200,000—than psychiatrists, psychologists, and psychiatric nurses combined. Federal law and the National Institutes of Health recognize social work as one of five core mental health professions.

The U.S. Department of Veterans Affairs employs more than 10,000 professional social workers. It is one of the largest employers of M.S.W. individuals in the United States. More than 40 percent of all disaster mental health volunteers trained by the American Red Cross are professional social workers. There are hundreds of social workers in national, state and local elected office.

Today, almost 50 special interest organizations contribute to the vitality and influence of the social work profession. There are social work groups for educators and researchers, as well as organizations for practitioners in health care leadership, nephrology, oncology, child welfare, schools, prisons, courts, and many other settings.
Social Work, Ph.D.

Requirements

The Ph.D. in social work prepares students to conduct research that contributes to the knowledge base of social work, to become leaders in the profession, and to teach social work in postsecondary educational institutions.

Individualized and Interdisciplinary Curriculum

The program allows students to develop a coherent program of study with opportunities to pursue their own scholarly interests. These interests are pursued through a core social work curriculum, a concentration (sociology, psychology, education or public health) and a social work focal area (e.g., family violence). Students may take focal area courses in any college or department at the University of Iowa. The median time to degree is four years.

The School of Social Work provides a supportive environment with substantial opportunities for mentoring and interaction with faculty members. Throughout Ph.D. studies at the University of Iowa, the school assists students in developing a program of study based on their unique educational and career goals. There are many opportunities to work closely with faculty members in a mentoring environment. In the first year, students complete a mentored research practicum with a faculty member and a mentored in-class teaching experience. During the second year, students choose a faculty member to guide them through the comprehensive examination and dissertation process.

Students complete required course work, research, and teaching practicums; pass a comprehensive exam; write a dissertation; and defend it in an oral exam. Their work includes courses in one of four outside disciplines—sociology, psychology, public health, or education—to assist them in preparation for the comprehensive examination and dissertation defense.

Students who enter the program with a M.S.W. are granted 30 s.h. credit; they must complete an additional 52 s.h. for the degree. Individuals with master’s degrees in related disciplines (for example, psychology or sociology) may choose to earn a Ph.D. in social work without first earning the M.S.W. Credit from a related master’s degree may be applied to the Ph.D. degree program, as determined by the School of Social Work.

Admission

To ensure that all doctoral students receive mentoring, the School of Social Work typically admits three or four students annually; approximately 35 percent of applicants are admitted.

Admission Requirements

Students are required to have a bachelor’s degree from an accredited college or university, and a minimum undergraduate g.p.a. of 3.00 (on a 4.00 scale).

For applicants who took the Graduate Record Exam (GRE) prior to August 1, 2011, a score of at least 575 for the verbal and quantitative sections or a composite score of at least 1,150 is preferred. For applicants who took the revised GRE after July 2011, a score of 155 for the verbal and quantitative sections or a composite score of at least 310 is preferred.

Students should have completed an introductory statistics course (including graphing techniques for presenting data, descriptive statistics, correlation, introduction to regression, prediction, logic of statistical inference, elementary probability models, estimation and tests of significance) with a grade of B or higher. Research methods courses taken in a M.S.W. program typically do not meet the criteria for an introductory statistics course. Applicants who have not taken an introductory statistics course must complete one before beginning the combined M.S.W./Ph.D. or Ph.D. program. Under unusual circumstances, a highly qualified applicant may be conditionally admitted into the program without a statistics course, if they have a high score on the quantitative section of the GRE or if they have taken other mathematics courses. Regardless, applicants still must successfully complete an introductory statistics course the spring or summer semester prior to beginning the M.S.W./Ph.D. or Ph.D. program.

International applicants must score at least 100 on the Test of English as a Foreign Language (TOEFL) iBT total score or at least 7.0 on the International English Language Testing System (IELTS) overall band score, with no IELTS subscore less than 6.0. A score of 26 on the speaking portion of the TOEFL is preferred. Automatic waivers of the TOEFL or IELTS requirement are granted for applicants who have at least completed a bachelor’s degree at an accredited university in the United States, United Kingdom, Canada (excluding French Quebec), Africa (English speaking), Australia, or New Zealand.

Applicants applying only to the Ph.D. program are required to have a M.S.W. or a master’s degree in a related field, such as public policy, public health, sociology, psychology, political science, economics, education, nursing, or anthropology.

Admission and Selection Process

Applications are accepted beginning September 1 for the following academic year; applications are due February 1. Admission decisions are made in February. Typically, all applications are evaluated on the same day. Applicants are notified, in writing, of the decision by April 1. In some years, there may be a waiting list. If applicants are placed on the waiting list, they are notified of this decision by April 1.

The school evaluates applicants based on their potential to independently conduct and disseminate scholarship that contributes to policy or practice and on their potential to prepare students to educate future social workers. Occasionally, an applicant who has been declined is encouraged to reapply in a subsequent year.

Financial Support

The School of Social Work provides full-time students with a competitive, multi-year financial package (full tuition, a graduate assistantship, a health and dental insurance allowance). It also provides fellowships, travel awards and dissertation awards.

In addition to funding provided by the School of Social Work, applicants may be eligible for financial assistance through the Graduate College, other departments at the University of Iowa, and organizations outside the University. The director of the Ph.D. program works with students to identify sources of funding, and the Division of Sponsored Programs as well as a student’s mentor helps the student apply for external funding.

The Graduate College awards fellowships to incoming students, dissertation-year fellowships, summer fellowships,
and travel awards. The School of Social Work applies to the Graduate College to secure these awards at the time applicants are selected into the program. The Graduate College website contains a complete list of awards.

**Career Advancement**

According to the National Association of Social Workers, there is no better time to consider furthering one’s education and obtaining a doctorate. Increasingly, there are more openings for social work faculty than there are graduates of Ph.D. programs. To learn more about the academic job market, see the Council on Social Work Education (CSWE) career center. The CSWE posts jobs year round, although most new ads for teaching and research positions are posted between August and November.

Graduates become leaders in education, research, and government. All of the Ph.D. graduates from the University of Iowa’s School of Social Work program have obtained employment within one year of graduation. Of these, about 75 percent of graduates obtain teaching or research positions, and about 25 percent obtain policy, administrative, or practice positions.
Sociology

Chair
- Karen Heimer

Director, Graduate Studies
- Steve Hitlin

Director, Undergraduate Studies
- Mary Noonan

Undergraduate majors: criminology, law and justice (B.A., B.S.); sociology (B.A., B.S.)

Undergraduate minors: criminology, law and justice; sociology

Graduate degrees: M.A. in sociology; Ph.D. in sociology

Faculty: https://clas.uiowa.edu/sociology/people
Website: https://clas.uiowa.edu/sociology/

The Department of Sociology offers undergraduate majors and minors as well as graduate degree programs. The department partners with the Departments of Economics, Philosophy, and Political Science to offer the undergraduate major in ethics and public policy, an interdisciplinary program administered by the Department of Philosophy; see Ethics and Public Policy [p. 397] in the Catalog. In addition, it offers courses that undergraduate students in all majors may use to fulfill General Education Program [p. 437] requirements and a First-Year Seminar designed for entering undergraduate students.

Certificate in Social Science Analytics

The Department of Sociology collaborates with the Departments of Geographical and Sustainability Sciences, Political Science, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 812] in the Catalog.

Programs

Undergraduate Programs of Study

Majors
- Major in Sociology (Bachelor of Arts) [p. 837]
- Major in Criminology, Law and Justice (Bachelor of Arts) [p. 841]
- Major in Sociology (Bachelor of Science) [p. 843]
- Major in Criminology, Law and Justice (Bachelor of Science) [p. 847]

Minors
- Minor in Sociology [p. 849]
- Minor in Criminology, Law and Justice [p. 850]

Graduate Programs of Study

Majors
- Master of Arts in Sociology [p. 851]
- Doctor of Philosophy in Sociology [p. 852]

Facilities

Center for Asian and Pacific Studies

The Center for Asian and Pacific Studies provides excellent opportunities for studying Asia from a social science perspective. It supports related Asia studies and offers a monthly seminar that features lively discussions by scholars from many different disciplines.

Center for Criminology and Sociolegal Studies

The Center for Criminology and Sociolegal Studies is an interdisciplinary research and teaching program for the study of crime, law, deviance, social control, and mental health. It sponsors a colloquium series in crime, law, and social control, in which affiliates, graduate students, and outside speakers present their ongoing research, and a working-paper series in which members disseminate research papers to the academic community. The center also provides research support and a research infrastructure for faculty and graduate students and offers graduate research assistantships for interested students. Internship in Criminal Justice and Corrections (CRIM:4400) is administered through the center.

Center for the Study of Group Processes

The Center for the Study of Group Processes (CSGP) has an 18-room small-group laboratory with eight computer-controlled subject rooms that provide audiovisual and psychophysiological recording capabilities, two large-group rooms with an adjoining observation room, an audiovisual control room, a sociophysiological instrumentation lab, a virtual social environment lab, and other flexible research office spaces.

Courses

Prerequisites for courses are listed in the course descriptions.

Sociology Courses

SOC:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SOC:1010 Introduction to Sociology 3-4 s.h.
How individuals are organized into social groups, ranging from intimate groups to bureaucracies, and how these influence individual behavior; nature and interrelationships of basic social institutions (family, education, religion, economy). GE: Social Sciences.

SOC:1020 Social Problems 3-4 s.h.
Emergence and distribution of selected social problems; alternative solutions; may include population, inequality, female-male relationships, racism, crime. GE: Social Sciences.
SOC:1022 Social Justice and Social Welfare in the United States 3 s.h.
Historical development of social welfare and social justice in the United States; individual values and ethics; role and responsibilities of enhancing society; contemporary practice to address social injustices including poverty, discrimination, various forms of violence; small group discussions and debates of various issues to allow for an exchange of diverse views and perspectives; volunteer work. GE: Values, Society, and Diversity. Same as SSW:1022.

SOC:1119 Big Ideas: Equality, Opportunity, and Public Policy in America 3 s.h.
Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as SSW:1119.

SOC:1219 Big Ideas: Equality, Opportunity, and Public Policy in America 3 s.h.
Examination of major social issues and challenges faced by nation, state, and communities; what government's role is in a democratic society; how we decide when, where, and how government acts in ways consistent with social goals and values; focus on pressing social issues (i.e., education, inequality, labor standards, health care); historical development of the problem or policy; ways we address social issues; effectiveness of current policies and alternative policies; ways in which social science contributes to policy design and assessment. GE: Social Sciences. Same as HIST:1219.

SOC:1220 Principles of Social Psychology 3-4 s.h.
Introduction to a range of theories that seek to explain behavior of people within their groups, and dynamics between groups, at various levels of society. GE: Social Sciences.

SOC:1310 Gender and Society 3-4 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values, Society, and Diversity. Same as GWSS:1310.

SOC:1420 Law and Society 3 s.h.
Exploration of how society shapes the law and how law shapes the society; definitions and conceptualizations of law; social origins of law; roots of compliance with or deviance from law; legal consciousness and uses of law in everyday life; effect of law on social inequality and distribution of power; law as a venue and a tool for social change.

SOC:1670 Popular Culture and Society 3 s.h.
Explore trends in popular culture through a sociological lens; use examples from popular culture to discuss broader social issues, including interaction between members of different social groups and patterns of social inequality; topics include definitions of popular culture, advertising and branding, rise of reality television, fashion, museums and the consumption of “high culture” clubs and nightlife, social significance of hip hop music, and the impact of social media on everyday life; guest speakers, visits to local cultural venues, and screenings of television shows and films.

SOC:1810 Poverty, Inequality, and Public Policy 3 s.h.
Introduction to public policymaking; historical context of current public policy responses to poverty and inequality in the United States; measurement of poverty and inequality; various experiences of poverty and inequality; efficacy of policies addressing contemporary poverty and inequality.

SOC:2064 Racial Inequality and the Experiences of African American Families in the U.S. 3 s.h.
Racial inequality and experiences of African American families in the U.S. during 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. Same as AFAM:2064.

SOC:2130 Sociological Theory 3 s.h.
Theoretical perspectives in sociology; construction, evaluation of sociological explanations. Prerequisites: SOC:1010.

SOC:2160 Applied Statistics for Social Scientists 3 s.h.
Applied statistics for sociology majors: frequency distributions, graphic presentation, measures of central tendency, measures of variability, elementary probability, populations and samples, sampling distributions, estimation and confidence intervals, hypothesis testing, chi-square test, regression and correlation, analysis of variance; computer software used in data analysis; emphasis on appropriate use and interpretation of statistics in the study of sociological topics. Recommendations: sociology major.

SOC:2170 Research Methods 3 s.h.
Basic scientific concepts; emphasis on theoretical thinking, statement of reachable propositions, logic and meaning of proof operant in the research process; general issues in designing social research, including problems of sampling and measurement, analysis, presenting research data, interpreting research findings. Prerequisites: SOC:1010 and (ECON:2800 or PSQF:4143 or STAT:1020 or STAT:2100 or SOC:2160 or STAT:3510 or STAT:1030). Requirements: sociology major.

SOC:2190 Doing Sociological Research 3 s.h.
Students gain practical experience as research assistants for ongoing research projects and also learn to design independent research projects of their own; especially valuable for honors students planning their thesis and for students planning to attend graduate, law, or medical school.

SOC:2410 Introduction to Corrections 3 s.h.
Introduction to the correctional system in the United States; function and operation of jails, prisons, probation, parole, and other community alternatives; occupations in corrections; contemporary problems in corrections.

SOC:2426 Deviance and Control 3 s.h.
Behaviors considered deviant or counter-normative by groups and societies; actions of those groups and societies to try to control such behaviors; behaviors that often do not violate laws, but are viewed and treated as wrong or immoral by others, including others in positions of power or authority; importance of recognizing what is viewed as deviant changes over time and varies across groups; explanations of deviance, society's informal and formal responses (i.e., labeling and medicalization of deviance perspectives).
SOC:2450 Gangs in the United States 3 s.h.
Explanations of gang formation, structure, culture, and influence on individual behavior; history of gangs in the United States; the role of violence in gang identity; theories of gang formation; ethnographic and statistical profiles of gangs and gang behavior; sources of gang dissolution; programming, policy, and law enforcement responses to gangs.

SOC:2710 The American Family 3 s.h.
Structure and process; change over the life cycle; interrelations with other institutions; historical changes; variations by social class and ethnic group. GE: Values, Society, and Diversity.

SOC:2810 Social Inequality 3 s.h.
Major theoretical perspectives for understanding inequality in economics, power, prestige; the magnitude of social inequality in the United States; sex and race inequality; trends in and causes of social mobility; selected consequences of social inequality. GE: Values, Society, and Diversity.

SOC:3171 Drugs and Society 3 s.h.
How people use drugs for recreation, performance enhancement, and medical treatment; implications for drug control, treatment, and public policy.

SOC:3200 International Perspectives: Xicotepec 1-3 s.h.
Interdisciplinary service-learning course; Mexican culture and history through community-based service project, assigned readings, and discussion; includes a required spring break trip to Mexico. Same as CLAS:3200.

SOC:3220 Sociology of Mental Illness 3 s.h.
The socially constructed nature of mental illness; theoretical perspectives and research on social antecedents and social consequences of mental health. Prerequisites: SOC:1010 or SOC:1220 or SOC:1020.

SOC:3418 Prevention and Treatment of Juvenile Delinquency 3 s.h.
Overview of the treatment and prevention efforts directed towards juvenile delinquency; examination of the relationship between social conditions and the use of various intervention and program forms; review of historical and contemporary research to examine effectiveness of intervention and treatment efforts; survey the nature of work in the field of juvenile intervention, treatment, and supervision.

SOC:3510 Medical Sociology 3 s.h.
Theoretical perspectives and research on social precursors and consequences of physical and mental health ailments; focus on contemporary U.S. with crosscultural comparisons; stereotypes and diagnosis, gender and racial/ethnic differences, health inequalities related to socioeconomic status.

SOC:3525 Public Opinion 3 s.h.
Role in making public policy; formation, change of political attitudes and opinions; political ideology; measurement of public opinion; how opinion polls are conducted; experience with interviewing and conducting public opinion research. Same as POLI:3204.

SOC:3610 Organizations and Modern Society 3 s.h.
Approaches to the sociological study of economic and noneconomic organizations; the role of power and authority within the organization, and between the organization and its environment. Prerequisites: SOC:1220 or SOC:1010.

SOC:3650 Education, Schools, and Society 3 s.h.
Overview of sociology of education; historical and current sociological perspectives on education; race, class, and gender inequality in schooling; higher education; contemporary debates in education (e.g., affirmative action, school choice). Prerequisites: SOC:1010 or SOC:1020.

SOC:3750 Born in the USA: Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbirth in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as GWSS:3750.

SOC:3830 Race and Ethnicity 3 s.h.
Multidisciplinary study of intergroup relations, with emphasis on historical, sociological, and social psychological issues in the study of American minority groups. GE: Values, Society, and Diversity.

SOC:3841 Community and Urban Sociology 3 s.h.
Impact of urbanization on social life, social networks; how social forces shape patterns of urban growth; racial segregation, gentrification; consequences of the growth of suburbs; urban crises, including concentrated poverty and crime. Prerequisites: SOC:1010 or SOC:1020.

SOC:3850 Economy and Society 3 s.h.
Economic debates that faced advanced market economies in the 20th century with extensions to the developing world; development and maintenance of investment elites and labor markets, development and extension of state activity.

SOC:3880 The Sociology of Networks 3 s.h.
Introduction to the basic properties of network structure (e.g., density, mutuality, cliques); substantive insights regarding the role and consequences of networks in social life; the role of networks in job searching/hiring processes; how innovations diffuse through networks; and relationships as social resources. Prerequisites: SOC:1020 or SOC:1010.

SOC:4200 Sociology of Religion 3 s.h.
Introduction to the study of religion from a sociological perspective; religions exist in social contexts, are shaped by contexts in which they are embedded, and then often change those social contexts; to understand the relation between religions and other social systems, we must examine the sociological as well as the historical, anthropological, social psychological, and political impacts; students will study religious organizations critically and objectively, exploring and debating classical sociological theories pertaining to religions, as well as contemporary theories that predict religious behavior; social scientific perspective will be presented.

SOC:4210 Social Psychology of Small Groups 3 s.h.
Internal processes governing small groups (e.g., friendship cliques, families, the president’s cabinet, committees); how small groups relate to the larger social environment; groups’ impact on their members. Prerequisites: SOC:1020 or SOC:1010.
SOC:4220 Sociology of Religion 3 s.h.
Introduction to the study of religion from a sociological perspective; how religions exist in social contexts, are shaped by the contexts in which they are embedded, and change those social contexts; understanding the complex relation between religions and other social systems by examining sociological, historical, anthropological, social psychological, and political impacts of religion on social behavior; tools to study religious organizations critically and objectively.

SOC:4225 The Social Psychology of Leadership 3 s.h.
Techniques, proven by research, that enhance students' ability to know, work with, and lead people; recent research in social psychology, how it applies to practical leadership problems.

SOC:4230 Sociology of Self-Improvement 3 s.h.
How self-improvement as a cultural goal shaped development of political, business, educational, and religious institutions in the United States; history of self-improvement movement and industry; selected readings that show how much self-improvement is possible and which techniques are more useful than others.

SOC:4540 Political Sociology and Social Movements 3 s.h.
Social unrest; crowd behavior; social movements treated as a form of social change. Prerequisites: SOC:1010 or SOC:1020.

SOC:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1020. Same as GWSS:4820.

SOC:4900 Selected Topics in Sociology 3 s.h.
Topics vary.

SOC:4902 Selected Topics in Family, Health, and Well-Being 3 s.h.
Varied topics in family structures and practices; social institutions and forces that shape or are shaped by families.

SOC:4903 Selected Topics in Organizations, Networks, and Careers 3 s.h.
Varied topics in macro- and micro-level processes affecting ability to understand and manage organizations, including the groups and individuals that compose them.

SOC:4909 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio first assembled in capstone course required for sociology major. Corequisites: SOC:4910.

SOC:4910 Capstone Course in Sociology 3 s.h.
Senior project illustrating student's accomplishments during his or her undergraduate career; prepared in collaboration with sociology faculty member or other experts in the student's area of sociological interest; record for student's own reflection, information for potential employers and graduate programs. Prerequisites: SOC:2130 and SOC:2170. Requirements: major g.p.a. of 2.00.

SOC:4920 Social Services Organization Internship 3 s.h.
Student volunteer work with social services organizations. Prerequisites: SOC:1010 with a minimum grade of C or SOC:1020 with a minimum grade of C or SOC:1310 with a minimum grade of C or SOC:2810 with a minimum grade of C. Requirements: sociology major or minor, and junior standing.

SOC:4930 Teaching Internship 3 s.h.
Experience providing supervised support for instructors teaching basic courses in sociology. Requirements: appointment as sociology undergraduate teaching aide.

SOC:4990 Directed Individual Study 3 s.h.
SOC:4997 Honors Seminar 1-2 s.h.
Topic development for senior honors projects. Offered spring semesters. Requirements: sociology honors standing.

SOC:4998 Honors Research 3 s.h.
Research projects under faculty supervision.

SOC:5000 Scholarly Professionalism and Integrity 2 s.h.
General introduction to department and discipline for entering graduate students; departmental and graduate college requirements, program and career planning, interaction with faculty members, consideration of student interests and concerns. Two semesters beginning in fall. Requirements: sociology graduate standing.

SOC:5110 History of Sociological Theory 3 s.h.
Ideas of major 19th- and 20th-century social thinkers (e.g., Marx, Weber, Durkheim, Simmel, Mead).

SOC:5130 Sociology of Education 3 s.h.
Effects of school and school organization on educational outcomes; course-taking patterns and tracking, desegregation, differences in school sector; focus on entire span of student's academic career; examination of school and organizational effects at the primary, secondary, and postsecondary levels of education. Same as EPLS:5130.

SOC:5160 Research Design and Methods 3 s.h.
Research designs; sampling designs and techniques; questionnaire construction, interviewing techniques; participant and nonparticipant observation; coding and preparation of data for analysis; measurement techniques, reliability, and validity. Requirements: SOC:6170 or graduate standing.

SOC:5165 Race, Class, and Gender Inequalities in Education 3 s.h.
Role of ascribed characteristics (e.g., race, class, gender) on educational opportunities and outcomes; achievement gaps, school desegregation, social and cultural capital, peer influence, family attributes, neighborhood influence, influence of significant others, course-taking patterns, and educational destinations. Same as EPLS:5131.

SOC:5310 Gender Theory 3 s.h.
Introduction to sociological analysis of gender; multiple ways that gender patterns the social world in which we live; predominant theoretical stances related to study of gender; how gender structures everyday social interaction; how social institutions (e.g., work, family) give rise to and recreate gendered meanings, expectations, structures; possibilities for interventions and change to gender system.

SOC:5680 Sociology of Higher Education 3 s.h.
Sociological approach to study of higher education; issues of inequality and stratification in higher education; focus on relationship between higher education and larger economic and demographic processes; college access, college destinations, attainment, and returns to a college degree. Same as EPLS:5142.

SOC:5810 Education and Social Change 2-3 s.h.
Role of educational institutions, in connection with political and economic structures, in the process of social change; illumination of theories of social change through case studies of educational systems in both less-developed and industrialized nations. Same as EPLS:5210.

SOC:6080 Master's Thesis 3 s.h.
Contemporary theoretical issues and nature of theory, theory's place in research, strategies of theory construction. Requirements: sociology graduate standing.
SOC:6140 Seminar: Selected Topics in Sociological Theory  3 s.h.
SOC:6170 Introduction to Sociological Data Analysis  3 s.h.
Statistical measures for descriptive methods and association; logic of statistical inference, hypothesis testing; background essential to understanding linear models, models for categorical data analysis. Requirements: introductory statistics.
SOC:6175 Qualitative Methods  3 s.h.
Logic of qualitative research; basic skills necessary for a qualitative research project. Requirements: sociology graduate standing.
SOC:6180 Linear Models in Sociological Research  3 s.h.
Statistical techniques associated with general linear model; emphasis on multiple regression, its generalizations; corresponding computer programs. Requirements: SOC:6170 or graduate standing.
SOC:6210 Contemporary Approaches to Social Psychology  3 s.h.
Review and critical analysis of current theoretical approaches and systems of social psychological analysis. Recommendations: sociology graduate standing.
SOC:6220 Seminar: Selected Topics in Social Psychology  3 s.h.
Selected theoretical and methodological issues.
SOC:6264 Post-Industrial Cities  3 s.h.
Aspects of urban inequality in post-industrial cities; racial inequality, urban poverty, neighborhood inequality, and municipal bankruptcy.
SOC:6310 Gender Stratification Seminar  3 s.h.
Occupational gender segregation; gender gap in pay; role of family caregiving in women's lower pay; evaluation of caregiving work; comparable work.
SOC:6410 Seminar: Criminological Theories  3 s.h.
Theories of crime causation and their relationships to the cultures in which they have functioned.
SOC:6420 Seminar: Selected Topics in Deviance and Control  3 s.h.
Critical analysis of current research; emphasis on theoretical contributions and methodological foundations.
SOC:6520 Political Sociology, Social Policy, and Inequality  3 s.h.
Students explore the interplay of the state, citizenship, welfare states, social policy, poverty governance, and inequality; drawing on theoretical and empirical works, the course is designed around three core agendas— it provides an overview of attempts to theorize the state in relation to other social institutions; it examines the inclusion and exclusion of groups as citizens, the role of citizenship, and the relation to social provision and the welfare state; and provides an opportunity to investigate the complex ways that welfare states, social policies, poverty governance, and social inequalities shape one another.
SOC:6610 Complex Organizations  3 s.h.
SOC:6810 Social Stratification  3 s.h.
Classical and contemporary theories; current research on the causes and magnitude of inequality in economics, power, and prestige; social mobility; critical issues in stratification.
SOC:6850 Seminar: Sociology of Labor Markets  3 s.h.
Sociological and economic theories and research concerning area/regional/local labor markets, industrial sectors and the dual labor market, occupational/internal labor markets; other structural explanations of inequality.
SOC:7010 Teaching Sociology  2-3 s.h.
Supervised preparation for teaching sociology courses; literature on teaching; course objectives, alternative teaching techniques; preparation of course syllabus, lectures, discussions, exams. Requirements: advanced sociology graduate standing.
SOC:7030 Readings and Research Tutorial  arr.
SOC:7090 Ph.D. Dissertation  arr.
SOC:7170 Advanced Statistical Modeling of Data  3 s.h.
Models for analysis of categorical data, including loglinear, logit, related discrete data models. Requirements: advanced graduate standing.
SOC:7180 Structural Equation Modeling  3 s.h.
Overview of structural equation models (SEMs), also known as LISREL models, covariance structure models; specific types of SEMs, such as simultaneous equations and confirmatory factor analysis; intermediate topics.
SOC:7410 Communities and Crime  3 s.h.
Distribution of crime as rooted in community-level conditions such as concentrated affluence or poverty, racial residential segregation, unemployment, family disruption, and immigration. Requirements: sociology graduate standing.
SOC:7460 Sociology of Law Seminar  3 s.h.
Relationship between law and society explored through writings and research of classical and contemporary sociologists and legal scholars. Requirements: sociology graduate standing.
SOC:7500 Seminar: Topics in Political Sociology  3 s.h.
Overview of current research in political sociology; topics related to inequality, citizenship, social change, institutions, social movements, political regimes, and globalization; survey of multiple methodological and theoretical approaches.
SOC:7620 Social Network Analysis  3 s.h.
Relational, data-oriented approach to representing linkages or relationships among social units, and to examine the relevance of these social structures in social processes. Requirements: basic multiple regression.
SOC:7820 Seminar: Selected Topics in Social Stratification  3 s.h.
Requirements: social science graduate standing.
SOC:7860 Seminar: Economy and Society  3 s.h.
Relationships between social classes and nation-states in capitalist societies; historical experience of the United States; comparative perspective, especially regarding Western Europe.

Criminology, Law and Justice Courses
CRIM:1410 Introduction to Criminology  3 s.h.
Nature and causes of crime; the criminal justice process, correctional treatment, crime prevention. GE: Social Sciences.
CRIM:1447 Introduction to the Criminal Justice System 3 s.h.
Organization and function of criminal justice system in the United States; history, organization, and current practices of policing, criminal courts, and correctional system; sociological and criminological research on major subsystems comprising criminal justice systems.

CRIM:2430 Comparative Criminal Justice Systems 3 s.h.
Criminal justice systems around the world; similarities and differences in how justice is defined and operationalized in contemporary legal traditions in terms of police, courts, and corrections examined in light of cultural norms and values; emphasis on link between societal characteristics and legal traditions; differences in defendant rights guaranteed under various legal traditions.

CRIM:2460 Policing in Modern Society 3 s.h.
History, theory, and practice of policing; exploring the link between officer decision making and department expectations; policing subculture; ethical considerations; officers face; policing administration; policing/community interaction; legal issues affecting policing practice; contemporary developments in policing emergent crime types.

CRIM:2470 Research Methods in Criminology and Criminal Justice 3 s.h.
Introduction to social science research methods in the fields of criminology and criminal justice; techniques necessary for systematic analysis of research questions and program effectiveness; critical evaluation of existing empirical research and sources of criminal justice data; assessment of data quality. Prerequisites: (STAT:1020 or STAT:1030 or ECON:2800 or SOC:2160 or STAT:2010 or STAT:3510 or PSQF:4143) and SOC:1010. Requirements: sociology major.

CRIM:2901 Special Topics in Criminology, Law, and Justice 3 s.h.
Varied topics in criminology, criminal legal system, gender and violence, global criminology.

CRIM:3415 Global Criminology 3 s.h.
Crime and the control of crime at the transnational and sub-national levels of analysis; focus on non-U.S. societies; consequences of economic, political, and cultural globalization.

CRIM:3416 Race, Crime, and Justice 3 s.h.
Extent and nature of racial disparities in offending and victimization; interpretation of patterns using various theoretical approaches; examination of race inequalities across many stages of criminal justice process.

CRIM:3417 Community Corrections 3 s.h.
Community corrections; probation, parole, intermediate sanctions (boot camps, intensive supervision, electronic monitoring); contemporary issues in community supervision of offenders.

CRIM:3420 Juvenile Delinquency 3 s.h.
Theories of juvenile delinquency; individual, neighborhood, and societal explanations of delinquency; research on families, schools, peers, neighborhoods, gangs, and delinquency.

CRIM:3425 Women, Crime, and Justice 3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as GWSS:3425.

CRIM:3437 American Crime 3 s.h.
Prevailing issues in criminology; extent and nature of disparities in offending and victimization, interpretation of patterns using various theoretical approaches; evaluation of crime-control policies.

CRIM:3450 Criminal Legal System 3 s.h.
Discretionary decision making in U.S. criminal courts from arrest through sentencing; legal and sociological issues relevant to each stage of felony adjudication; sociological and social-psychological theories of decision making in adjudication, empirical research testing these theories.

CRIM:4400 Internship in Criminal Justice and Corrections 1-5 s.h.
Supervised field work in a criminal justice or correctional agency. Prerequisites: SOC:4430 or SOC:4450 or SOC:3450 or SOC:3420 or SOC:1410 or SOC:4420 or SOC:4460. Requirements: sociology major and junior standing.

CRIM:4420 Criminal Punishment 3 s.h.
Sociological theories and research on criminal punishment; classical and contemporary theories; research on imprisonment and capital punishment.

CRIM:4430 Interpersonal Violence in Society 3 s.h.
Extent and nature of interpersonal violence in societies, in general and for specific population subgroups; theoretical explanations for the phenomenon; alternative ways of defining and responding to violence across various social contexts; application of scientific method; relevant literatures from multiple disciplines including sociology, anthropology, criminology, psychology, and behavioral economics; types of violence defined as illegal and those which are deviant but not illegal. Prerequisites: SOC:1410. Recommendations: SOC:2170 strongly recommended before enrollment in SOC:1410.

CRIM:4440 Sociology of White-Collar Crime 3 s.h.
Critical perspectives on causes and consequences of white-collar crime; definitions and types; criminological, social-psychological, and rational-choice theories; political and economic causes of white-collar crime under capitalism and socialism; rates and patterns of white-collar criminality across different social groups (defined by racial, ethnic, class, and gender attributes); control, prevention, and criminal justice response.

CRIM:4450 Juvenile Justice: A Sociolegal Perspective 3 s.h.
Examination of social, historical, and legal foundations of juvenile justice system in the United States; adjudication processes in juvenile justice, transfer of juveniles to criminal court, contemporary juvenile court, community-based corrections programs, legalities of juvenile system; current and future directions in juvenile justice.

CRIM:4460 Sociology of Law 3 s.h.
Conceptual, historical, and theoretical issues of law and operation of the criminal justice system; theory and research on law and the criminal justice system.

CRIM:4901 Advanced Topics in Criminology, Law, and Justice 3 s.h.
Varied advanced topics in criminology, criminal legal system, gender and violence, global criminology.
Sociology, B.A.

A bachelor's degree with a major in sociology provides a liberal arts and sciences education. Sociology provides a broad foundation for a number of careers that require a deep understanding of human interactions and behaviors. Though broad in scope, sociology can be broken down into many marketable specializations including these at the University of Iowa: family, health, and well-being; organizations, networks, and careers; social psychology; and social and political organization.

The major provides background for employment in fields such as human services, criminal justice, corrections, sales, public relations, advertising, personnel, applied social research, community organization, and teaching social science in secondary schools. It also provides a foundation for graduate or professional study in social work, urban planning, law, criminal justice, social policy, and similar areas. Finally, the major prepares students to work toward advanced degrees in sociology, which qualify them for college or university teaching and work in academic, private, and governmental research.

The department has an active undergraduate organization, The Sociology Club, which is open to all interested students. The student-run group sponsors speakers, films, and career days; conducts study groups; and facilitates group volunteerism.

Requirements

The Bachelor of Arts with a major in sociology requires a minimum of 120 s.h., including at least 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. Transfer students must earn at least 12 s.h. in sociology course work at the University of Iowa; transfer courses must be approved by a sociology advisor.

The major offers two optional tracks for students with an interest in one of the following concentrations: family, health, and well-being; or organizations, networks, and careers.

Requirements for the major are similar for the Bachelor of Arts and the Bachelor of Science, except B.A. students take 3 s.h. of statistics and two theory and methods courses, while B.S. students take 8 s.h. of introductory calculus and four theory and methods courses.

Choice of a degree program should be dictated by a student's personal career goals. Though not required, students interested in pursuing a graduate program may find the additional math and methods courses helpful.

Students who earn the major in sociology can earn the major in criminology, law and justice. No more than 9 s.h. of major course work can double count for each of the majors. Students who earn both majors may not complete a minor in either area.

Students who earn the major in sociology may earn a minor in criminology, law and justice. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in sociology may not earn the sociology minor.

In planning to complete the major, students must take courses in the proper sequence. Introduction to Sociology (SOC:1010) is a prerequisite for all required core theory and methods courses. Statistics is prerequisite for the more advanced methods course. These introductory courses lay the foundation for all other work in the major. The recommended sequence for the major's core requirements is SOC:1010, SOC:2130 Sociological Theory, the statistics requirement, and SOC:2170 Research Methods. See "Four-Year Graduation Plan" under Academic Plans [p. 839] in this section of the Catalog.

The B.A. with a major in sociology requires the following work.

<table>

<tbody>
<tr>
<td>SOC:2130 Sociological Theory</td>
<td>3</td>
</tr>
<tr>
<td>SOC:2170 Research Methods</td>
<td>3</td>
</tr>
</tbody>
</table>

**Electives**

Students complete 18 s.h. of elective course work in sociology (prefix SOC). Four of the required electives can be taken during any session with at least one course numbered 3000-4899. Two of the required electives must be taken after (and not concurrent with) the completion of SOC:2130 Sociological Theory, an approved course from the "Introductory Statistics" list above, and SOC:2170 Research Methods. These two electives must be chosen from sociology courses numbered 3000-4899, SOC:4920 Social Services Organization Internship, or SOC:4998 Honors Research. With permission, students may use graduate courses in sociology (numbered 5000 or above) to satisfy the electives requirement.

The following courses do not count toward the major and may not be used as electives.

SOC:4930  Teaching Internship  3  
SOC:4990  Directed Individual Study  arr.

### Capstone Course

All students complete the capstone course, which illustrates their accomplishments and includes assembling a portfolio. Students may take it as early as spring of their junior year, as long as they have completed SOC:2130 Sociological Theory, SOC:2170 Research Methods, and the statistics requirement. Students must maintain a g.p.a. of at least 2.00 in work for the major.

SOC:4910  Capstone Course in Sociology  3

### Graduation Portfolio

During their last semester, all students enroll in the following course, in which they submit the portfolio they assembled in the capstone course.

SOC:4909  Graduation Portfolio  0

### Tracks

#### Family, Health, and Well-Being Track

The family, health, and well-being track requires a minimum of 15 s.h. of credit, including 12 s.h. of course work taken at the University of Iowa. It is open to sociology majors who are interested in understanding family structures and practices, differences between and within families, and those social institutions and forces that shape families or are shaped by them. Additionally, the track cultivates students’ understanding of the social context of health, illness, and health care. It is especially well suited for students who are interested in pursuing careers in the fields of social service and health.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The family, health, and well-being track requires the following course work.

**Required Courses**

6 s.h. from these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC:1310</td>
<td>Gender and Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC:2710</td>
<td>The American Family</td>
<td>3</td>
</tr>
<tr>
<td>SOC:3510</td>
<td>Medical Sociology</td>
<td>3</td>
</tr>
</tbody>
</table>

**Electives**

9 s.h. from these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC:2064</td>
<td>Racial Inequity and the Experiences of African Americans in the U.S.</td>
<td>3</td>
</tr>
<tr>
<td>SOC:2810</td>
<td>Social Inequality</td>
<td>3</td>
</tr>
<tr>
<td>SOC:3220</td>
<td>Sociology of Mental Illness</td>
<td>3</td>
</tr>
<tr>
<td>SOC:3750</td>
<td>Born in the USA: Fertility and Reproduction</td>
<td>3</td>
</tr>
<tr>
<td>SOC:4230</td>
<td>Sociology of Self-Improvement</td>
<td>3</td>
</tr>
<tr>
<td>SOC:4902</td>
<td>Selected Topics in Family, Health, and Well-Being</td>
<td>3</td>
</tr>
<tr>
<td>CRIM:3420</td>
<td>Juvenile Delinquency</td>
<td>3</td>
</tr>
<tr>
<td>CRIM:4430</td>
<td>Interpersonal Violence in Society</td>
<td>3</td>
</tr>
</tbody>
</table>

Or select electives from the following graduate courses, with approval of instructor:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC:6220</td>
<td>Seminar: Selected Topics in Social Psychology (when topic is life course)</td>
<td>3</td>
</tr>
<tr>
<td>SOC:6310</td>
<td>Gender Stratification Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

Students also may choose the remaining required course as an elective.

#### Organizations, Networks, and Careers Track

The organizations, networks, and careers track requires a minimum of 15 s.h. of credit, including 12 s.h. of course work taken at the University of Iowa. It is open to sociology majors who are interested in understanding the macro- and micro-level processes that affect the ability to understand and manage organizations, as well as the groups and individuals that compose them. The track provides intensive training in both theoretical and empirical approaches to organizations, and combines micro-level insights into work groups with macro-level perspectives on the influence of organizations’ environments. It is especially well suited for students who are interested in pursuing careers in various services-providing sectors such as business services, educational services, social assistance, or government.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The organizations, networks, and careers track requires the following course work.

**Required Courses**

6 s.h. from these:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>
Emphasis Areas
The following elective courses are grouped by emphasis for students who may want to cluster their electives according to one of the following areas of interest. The emphasis area courses are not tracks. See Courses [p. 831] in this section of the Catalog for a complete listing of sociology courses.

Social Psychology
SOC:1220 Principles of Social Psychology 3
SOC:3220 Sociology of Mental Illness 3
SOC:4210 Social Psychology of Small Groups 3
SOC:4225 The Social Psychology of Leadership 3
SOC:4230 Sociology of Self-Improvement 3

Social and Political Organization
SOC:1810 Poverty, Inequality, and Public Policy 3
SOC:2810 Social Inequality 3
SOC:3610 Organizations and Modern Society 3
SOC:3650 Education, Schools, and Society 3
SOC:3830 Race and Ethnicity 3
SOC:3850 Economy and Society 3
SOC:3880 The Sociology of Networks 3
SOC:4820 Sociology of Sexuality 3

B.A. with Teacher Licensure
Sociology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Honors in the Major
Students majoring in sociology have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.33 in all University of Iowa courses and in all sociology courses. In order to graduate with honors in sociology, the following course work must be completed.

SOC:4997 Honors Seminar 1
SOC:4998 Honors Research (honors thesis) 2-3

The honors thesis is prepared under faculty supervision. It gives students the opportunity to conduct sociological research in close consultation with a faculty member of the student's choice.

Honors students also must take at least one sociology course numbered 3000 or above with honors designation, including graduate courses (honors designation requires instructor approval). Learn more about honors in the major and honors courses on the University of Iowa Honors Program website. In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

National Honor Society
The department sponsors a chapter of Alpha Kappa Delta International Sociology Honor Society. Students who have a cumulative g.p.a. of 3.30, a sociology g.p.a. of at least 3.00 (with four courses in sociology), and have attained junior or higher standing are considered for membership. Consult the Alpha Kappa Delta faculty advisor for details.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Sequencing of course work is important in meeting the four-year plan.

Before the fifth semester begins: SOC:1010 Introduction to Sociology or equivalent, and one sociology elective

Before the seventh semester begins: SOC:2130 Sociological Theory, a required statistics course, one more sociology elective, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: SOC:2170 Research Methods and one more sociology elective

During the eighth semester: enrollment in all remaining course work in the major, including SOC:4910 Capstone Course in Sociology, SOC:4909 Graduation Portfolio, and the last two sociology electives; all remaining General Education courses; and a sufficient number of semester hours to graduate

Total Hours 120

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3 Students have the option to choose one of three tracks in the major: criminology; occupations, networks, and careers; or family, health and well-being.

4 Students may use their elective courses to complete a double major, minors, or certificates.

5 Upper-level sociology courses are numbered SOC:3000 or above.

Career Advancement

In addition to preparing students for careers in social service and other areas, this major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials. The degree also prepares students for graduate or professional study in areas such as social work, urban and regional planning, law, criminal justice, and social policy. Teaching positions in colleges or universities and research positions in academic, private, and governmental organizations often require advanced degrees in sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Criminology, Law and Justice, B.A.

The criminology, law and justice major examines issues related to race and ethnic diversity, and gender and poverty, heightening awareness of these important topics. Students learn about sociological explanations for crime and criminal justice; the operation of law and the criminal justice system, including their complex interplay with other institutions, such as the economy and politics; and important data sources on crime in the United States and internationally.

The criminology, law and justice course work required for the major is the same for B.A. and B.S. students, but the major for the B.S. includes additional semester hours in calculus and theory and methods courses.

Requirements

The Bachelor of Arts with a major in criminology, law and justice requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437). Transfer students must earn at least 24 s.h. in criminology, law and justice course work at the University of Iowa; transfer courses must be approved by a sociology advisor.

Requirements for the major are similar for the Bachelor of Arts and the Bachelor of Science. B.A. students take a minimum of 39 s.h. of course work for the major, while B.S. students take a minimum of 51 s.h. which includes additional calculus and theory and methods courses.

Students who earn the major in criminology, law and justice can earn the major in sociology. No more than 9 s.h. of major course work can double count for each of the majors. Students who earn both majors may not complete a minor in either area.

Students who earn the major in criminology, law and justice may earn a minor in sociology. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in criminology, law and justice may not earn the criminology, law and justice minor.

The B.A. with a major in criminology, law and justice requires the following course work.

<table>

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Sequencing of course work is important in meeting the four-year plan.

Before the fifth semester begins: two introductory courses and a statistics course

Before the seventh semester begins: both theory and methods courses, three additional introductory courses, two electives, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: SOC:4910 Capstone Course in Sociology and two additional electives

During the eighth semester: enrollment in all remaining course work in the major, including SOC:4909 Graduation Portfolio; all remaining General Education courses; and a sufficient number of semester hours to graduate

Career Advancement

The major in criminology, law and justice provides a foundation for graduate or professional study in criminology, criminal justice, sociology, psychology, law, social work, urban planning, education, social policy, and similar areas. The major pairs well with majors in other disciplines, such as psychology and social work, and affords students a competitive edge when applying to graduate school in forensic psychology or social work with a corrections emphasis.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Sociology, B.S.

A bachelor's degree with a major in sociology provides a liberal arts and sciences education. Sociology provides a broad foundation for a number of careers that require a deep understanding of human interactions and behaviors. Though broad in scope, sociology can be broken down into many marketable specializations including those at the University of Iowa: family, health, and well-being; organizations, networks, and careers; social psychology; and social and political organization.

The major provides background for employment in fields such as human services, criminal justice, corrections, sales, public relations, advertising, personnel, applied social research, community organization, and teaching social science in secondary schools. It also provides a foundation for graduate or professional study in social work, urban planning, law, criminal justice, social policy, and similar areas. Finally, the major prepares students to work toward advanced degrees in sociology, which qualify them for college or university teaching and work in academic, private, and governmental research.

The department has an active undergraduate organization, The Sociology Club, which is open to all interested students. The student-run group sponsors speakers, films, and career days; conducts study groups; and facilitates group volunteerism.

**Requirements**

The Bachelor of Science with a major in sociology requires a minimum of 120 s.h., including at least 45 s.h. of work for the major, with a minimum of 30 s.h. in sociology course work. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. Transfer students must earn at least 12 s.h. in sociology course work at the University of Iowa; transfer courses must be approved by a sociology advisor.

The major offers two optional tracks for students with an interest in one of the following concentrations: family, health, and well-being; or organizations, networks, and careers.

Requirements for the major are similar for the Bachelor of Arts and the Bachelor of Science, except B.S. students take 8 s.h. of introductory calculus and four theory and methods courses, while B.A. students take 3 s.h. of statistics and two theory and methods courses.

Choice of a degree program should be dictated by a student's personal career goals. Though not required, students interested in pursuing a graduate program may find the additional math and methods courses helpful.

Students who earn the major in sociology can earn the major in criminology, law and justice. No more than 9 s.h. of major course work can double count for each of the majors. Students who earn both majors may not complete a minor in either area.

Students who earn the major in sociology may earn a minor in criminology, law and justice. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in sociology may not earn the sociology minor.

In planning to complete the major, students must take courses in the proper sequence. Introduction to Sociology (SOC:1010) is a prerequisite for all required core theory and methods courses. Calculus and statistics are also required. These introductory courses lay the foundation for all other work in the major. The recommended sequence for the major's core requirements is SOC:1010, SOC:2130 Sociological Theory, and SOC:2170 Research Methods. See the "Four-Year Graduation Plan" under Academic Plans [p. 831] in this section of the Catalog.

The B.S. with a major in sociology requires the following work.

- **Introductory Sociology Course** 3-4
- **Introductory Calculus Courses** 8
- **Theory and Methods Courses** 13
- **Electives** 18
- **Capstone Course** 3
- **Graduation Portfolio** 0
- **Total Hours** 45-46

### Introductory Sociology

This course:

- **SOC:1010** Introduction to Sociology 3-4

### Introductory Calculus

Students complete one of these sequences:

- **MATH:1850 & MATH:1860** Calculus I-II 8

### Theory and Methods

Students should complete the following as soon as possible.

- **All of these:**
  - **SOC:2130** Sociological Theory 3
  - **SOC:2170** Research Methods 3
  - **STAT:3120** Probability and Statistics 4

- **One of these:**
  - **PHIL:2603** Introduction to Symbolic Logic 3
  - **PHIL:3604** Introduction to Philosophy of Science 3

### Electives

Students complete 18 s.h. of elective course work in sociology (prefix SOC). Four of the required electives can be taken during any session with at least one course numbered 3000-4899. Two of the required electives must be taken after (and not concurrent with) the completion of SOC:2130 Sociological Theory, SOC:2170 Research Methods. These two electives must be chosen from sociology courses numbered 3000-4899, SOC:4920 Social Services Organization Internship, or SOC:4988 Honors Research. With permission, students may use graduate courses in sociology (numbered 5000 or above) to satisfy the electives requirement.

The following courses do not count toward the major and may not be used as electives.

- **SOC:1000** First-Year Seminar 1-2
- **SOC:4930** Teaching Internship 3
SOC:4990 Directed Individual Study arr.

**Capstone Course**

All students complete the capstone course, which illustrates their accomplishments and includes assembling a portfolio. Students may take it as early as spring of their junior year, as long as they have completed SOC:2130 Sociological Theory, SOC:2170 Research Methods, and one of the approved statistics courses. Students must maintain a g.p.a. of at least 2.00 in work for the major.

SOC:4910 Capstone Course in Sociology 3

**Graduation Portfolio**

During their last semester, all students enroll in the following course, in which they submit the portfolio they assembled in the capstone course.

SOC:4909 Graduation Portfolio 0

**Tracks**

**Family, Health, and Well-Being Track**

The family, health, and well-being track requires a minimum of 15 s.h. of credit, including 12 s.h. of course work taken at the University of Iowa. It is open to sociology majors who are interested in understanding family structures and practices, differences between and within families, and those social institutions and forces that shape families or are shaped by them. Additionally, the track cultivates students’ understanding of the social context of health, illness, and health care. It is especially well suited for students who are interested in pursuing careers in the fields of social service and health.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The family, health, and well-being track requires the following course work.

**Required Courses**

6 s.h. from these:

- SOC:1310 Gender and Society 3-4
- SOC:2710 The American Family 3
- SOC:3510 Medical Sociology 3

**Electives**

9 s.h. from these:

- SOC:2064 Racial Inequality and the Experiences of African American Families in the U.S. 3
- SOC:2810 Social Inequality 3
- SOC:3220 Sociology of Mental Illness 3
- SOC:3750 Born in the USA: Fertility and Reproduction 3
- SOC:4230 Sociology of Self-Improvement 3
- SOC:4902 Selected Topics in Family, Health, and Well-Being 3
- CRIM:3420 Juvenile Delinquency 3
- CRIM:4430 Interpersonal Violence in Society 3

Or select electives from the following graduate courses, with approval of instructor:

- SOC:6220 Seminar: Selected Topics in Social Psychology (when topic is life course) 3
- SOC:6310 Gender Stratification Seminar 3

Students also may choose the remaining required course as an elective.

**Organizations, Networks, and Careers Track**

The organizations, networks, and careers track requires a minimum of 15 s.h. of credit, including 12 s.h. of course work taken at the University of Iowa. It is open to sociology majors who are interested in understanding the macro- and micro-level processes that affect the ability to understand and manage organizations, as well as the groups and individuals that compose them. The track provides intensive training in both theoretical and empirical approaches to organizations, and combines micro-level insights into work groups with macro-level perspectives on the influence of organizations’ environments. It is especially well suited for students who are interested in pursuing careers in various service-providing sectors such as business services, educational services, social assistance, or government.

Students must satisfy all requirements for the sociology major. They may count courses taken for the track as sociology electives for the major.

The organizations, networks, and careers track requires the following course work.

**Required Courses**

6 s.h. from these:

- SOC:3610 Organizations and Modern Society 3
- SOC:3880 The Sociology of Networks 3
- SOC:4225 The Social Psychology of Leadership 3

**Electives**

9 s.h. from these:

- SOC:2810 Social Inequality 3
- SOC:3200 International Perspectives: Xicotepec 1-3
- SOC:3650 Education, Schools, and Society 3
- SOC:4210 Social Psychology of Small Groups 3
- SOC:4230 Sociology of Self-Improvement 3
- SOC:4540 Political Sociology and Social Movements 3
- SOC:4903 Selected Topics in Organizations, Networks, and Careers 3
- CRIM:4440 Sociology of White-Collar Crime 3

Or select electives from these graduate courses, with approval of instructor:

- SOC:6610 Complex Organizations 3
- SOC:7620 Social Network Analysis 3
- SOC:7820 Seminar: Selected Topics in Social Stratification (when topic is social capital) 3
- SOC:7860 Seminar: Economy and Society 3
Emphasis Areas

The following elective courses are grouped by emphasis for students who may want to cluster their electives according to one of the following areas of interest. The emphasis area courses are not tracks. See Courses (p. 831) in this section of the Catalog for a complete listing of sociology courses.

Social Psychology

SOC:1220 Principles of Social Psychology 3-4
SOC:3220 Sociology of Mental Illness 3
SOC:4210 Social Psychology of Small Groups 3
SOC:4225 The Social Psychology of Leadership 3
SOC:4230 Sociology of Self-Improvement 3

Social and Political Organization

SOC:1810 Poverty, Inequality, and Public Policy 3
SOC:2810 Social Inequality 3
SOC:3610 Organizations and Modern Society 3
SOC:3650 Education, Schools, and Society 3
SOC:3830 Race and Ethnicity 3
SOC:3850 Economy and Society 3
SOC:3880 The Sociology of Networks 3
SOC:4820 Sociology of Sexuality 3

B.S. with Teacher Licensure

Sociology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Honors in the Major

Students majoring in sociology have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.33 in all University of Iowa courses and in all sociology courses. In order to graduate with honors in sociology, the following course work must be completed.

SOC:4997 Honors Seminar 1
SOC:4998 Honors Research (honors thesis) 2-3

The honors thesis is prepared under faculty supervision. It gives students the opportunity to conduct sociological research in close consultation with a faculty member of the student’s choice.

Honors students also must take at least one sociology course numbered 3000 or above with honors designation, including graduate courses (honors designation requires instructor approval). Learn more about honors in the major and honors courses on the University of Iowa Honors Program website. In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

National Honor Society

The department sponsors a chapter of Alpha Kappa Delta International Sociology Honor Society. Students who have a cumulative g.p.a. of 3.30, a sociology g.p.a. of at least 3.00 (with four courses in sociology), and have attained junior or higher standing are considered for membership. Consult the Alpha Kappa Delta faculty advisor for details.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

During the first semester:

ENGL:1200 Introduction to Literature (GE: Interpretation of Literature [p. 437])

3

During the second semester:

SOC:1010 Introduction to Sociology (also GE: Social Sciences [p. 442])

SOC:1220 Principles of Social Psychology 3-4

During the third semester:

SOC:1010 Introduction to Sociology (also GE: Social Sciences [p. 442])

3

During the fourth semester:

SCI:1600 Success at Iowa 2

Elective course 3

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]
2. Enrollment in math courses requires completion of a placement exam.
3. Students may use their elective courses to complete a double major, minors, or certificates.
4. Students have the option to choose one of three tracks in the major: criminology; occupations, networks, and careers; or family, health and well-being.
5. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
6. Upper-level sociology courses are numbered SOC:3000 or above.

**Career Advancement**

In addition to preparing students for careers in social service, criminal justice, and other areas, this major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials. The degree also prepares students for graduate or professional study in areas such as social work, urban and regional planning, law, criminal justice, and social policy. Teaching positions in colleges or universities and research positions in academic, private, and governmental organizations often require advanced degrees in sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Criminology, Law and Justice, B.S.

The criminology, law and justice major examines issues related to race and ethnic diversity, and gender and poverty, heightening awareness of these important topics. Students learn about sociological explanations for crime and criminal justice; the operation of law and the criminal justice system, including their complex interplay with other institutions, such as the economy and politics; and important data sources on crime in the United States and internationally.

The criminology, law and justice course work required for the major is the same for B.S. and B.A. students, but the major for the B.S. includes additional semester hours in calculus and theory and methods courses.

Requirements

The Bachelor of Science with a major in criminology, law and justice requires a minimum of 120 s.h., including at least 51 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437]. Transfer students must earn at least 24 s.h. in criminology, law and justice course work at the University of Iowa; transfer courses must be approved by a sociology advisor.

Requirements for the major are similar for the Bachelor of Science and the Bachelor of Arts. B.A. students take a minimum of 39 s.h. of course work for the major, while B.S. students take a minimum of 51 s.h. which includes additional calculus and theory and methods courses.

Students who earn the major in criminology, law and justice can earn the major in sociology. No more than 9 s.h. of major course work can double count for each of the majors. Students who earn both majors may not complete a minor in either area.

Students who earn the major in criminology, law and justice may earn a minor in sociology. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in criminology, law and justice may not earn the criminology, law and justice minor.

The B.S. with a major in criminology, law and justice requires the following course work.

Introductory Courses 9-10
Theory and Methods Courses 13
Introductory Calculus Courses 8

</table>
Electives

Students choose 15 s.h. from the following.

CRIM:2430 Comparative Criminal Justice Systems 3
CRIM:2460 Policing in Modern Society 3
CRIM:2901 Special Topics in Criminology, Law, and Justice 3
CRIM:3415 Global Criminology 3
CRIM:3416 Race, Crime, and Justice 3
CRIM:3417 Community Corrections 3
CRIM:3420 Juvenile Delinquency 3
CRIM:3425/GWSS:3425 Women, Crime, and Justice 3
CRIM:3437 American Crime 3
CRIM:3450 Criminal Legal System 3
CRIM:4400 Internship in Criminal Justice and Corrections 1-5
CRIM:4420 Criminal Punishment 3
CRIM:4430 Interpersonal Violence in Society 3
CRIM:4440 Sociology of White-Collar Crime 3
CRIM:4450 Juvenile Justice: A Sociolegal Perspective 3
CRIM:4460 Sociology of Law 3
CRIM:4901 Advanced Topics in Criminology, Law, and Justice 3

Capstone Course

All students complete the capstone course, which illustrates their accomplishments and includes assembling a portfolio. Students generally take the course during their last two semesters of course work for the major, as long as they have completed the statistics requirement; SOC:2170 Research Methods; one of the introductory courses in criminology, law and justice; and at least 6 s.h. of electives. Students must maintain a g.p.a. of at least 2.00 in work for the major.

SOC:4910 Capstone Course in Sociology 3

Graduation Portfolio

During their last semester, all students enroll in the following course, in which they submit the portfolio they assembled in the capstone course.

SOC:4909 Graduation Portfolio 0

Honors in the Major

Students majoring in criminology, law and justice have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.33 in all University of Iowa courses and in all sociology and criminology, law, and justice courses. In order to graduate with honors, the following course work must be completed.

SOC:4997 Honors Seminar 1
SOC:4998 Honors Research 2-3

The honors thesis is prepared under faculty supervision. It gives students the opportunity to conduct research in close consultation with a faculty member of the student's choice.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University honors program. Membership in the UI honors program is encouraged but not required for honors in the criminology, law and justice major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: two introductory courses plus calculus

Before the seventh semester begins: theory and methods courses, three additional introductory courses, two electives, statistics, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: SOC:4910 Capstone Course in Sociology and two more electives

During the eighth semester: enrollment in all remaining course work in the major, including SOC:4909 Graduation Portfolio; all remaining General Education courses; and a sufficient number of semester hours to graduate.

Career Advancement

The major in criminology, law and justice provides a foundation for graduate or professional study in criminology, criminal justice, sociology, psychology, law, social work, urban planning, education, social policy, and similar areas. The major pairs well with majors in other disciplines, such as psychology and social work, and affords students a competitive edge when applying to graduate school in forensic psychology or social work with a corrections emphasis.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Sociology, Minor

The minor in sociology requires a minimum of 15 s.h. in sociology courses, including 12 s.h. in courses taken at the University of Iowa. The minor must include SOC:2130 Sociological Theory and a minimum of 9 s.h. in courses numbered 3000 or above. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students who earn the major in criminology, law and justice may earn a minor in sociology. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in sociology may not earn the sociology minor.

A minor in sociology is a good complement to a number of majors, particularly other social sciences, business, elementary education, or health professions.
Criminology, Law and Justice, Minor

The minor in criminology, law and justice requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students who earn the major in sociology may earn a minor in criminal, law and justice. No more than 3 s.h. can double count for the major and minor.

Students who earn the major in criminal, law and justice may not earn the criminal, law and justice minor.

The minor in criminology, law and justice requires the following course work.

Sociology, M.A.

Graduate study in sociology focuses on the Doctor of Philosophy. Students are awarded the M.A. as they fulfill requirements for the Ph.D.

Requirements

The Master of Arts program in sociology requires 30 s.h. of graduate credit with thesis or research paper and 38 s.h. of graduate credit without. The program without thesis is intended for students seeking a terminal degree and for whom a wider range of course content in sociology is appropriate.

All M.A. students must complete the following courses with grades of B-minus or higher.

<table>
<thead>
<tr>

Teaching Assistantship Training

All new graduate teaching assistants (TAs) are expected to attend a three-day orientation before classes begin. In addition, SOC:7010 Teaching Sociology is required for students who wish to teach their own courses.

Admission

Admission to graduate study in sociology usually requires an undergraduate g.p.a. of at least 3.25 and a score of 300 or higher (total for quantitative and verbal) on the Graduate Record Examination (GRE) General Test. Students whose first language is not English should submit scores on the Test of English as a Foreign Language (TOEFL).

Applicants also must complete the Graduate College application form, the supplemental sociology department application, and use the department's personal reference forms to obtain three letters of recommendation.

All application materials for fall admission must be received by January 1. The deadline for applying for departmental financial support is January 1. Evaluation of applications begins in early January.

Admission decisions are based on consideration of prior academic performance, personal reference letters, scores on the GRE General Test, and the applicant's statement of reasons for pursuing advanced work in sociology at the University of Iowa. The department has no specific undergraduate course requirements for admission, but a background in the social sciences with some mathematical training is useful. A foreign language is not required for admission, and there is no foreign language requirement for a graduate degree in sociology. To inquire about admission, consult the chair of the admissions committee, Department of Sociology.

Financial Support

The Department of Sociology offers teaching assistantships and research assistantships for graduate students. Students who receive one-half-time teaching or research assistantships work 20 hours each week for faculty members on either teaching or research assignments. Out-of-state students who hold assistantships are assessed tuition at the resident rate. Graduate students also may be eligible for fellowships offered by the Graduate College.

Career Advancement

In addition to preparing students for careers in social service, criminal justice, and other areas, this major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials. The degree also prepares students for graduate or professional study in areas such as social work, urban and regional planning, law, criminal justice, and social policy. Teaching positions in colleges or universities and research positions in academic, private, and governmental organizations often require advanced degrees in sociology.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Sociology, Ph.D.

Graduate study in sociology focuses on the Doctor of Philosophy. Students are awarded the M.A. as they fulfill requirements for the Ph.D.

The Doctor of Philosophy emphasizes research. Opportunities for research using survey, experimental, and observational methods are readily available in the department.

Requirements

The Doctor of Philosophy program in sociology requires a minimum of 72 s.h. of graduate credit. Most courses for the Ph.D. are taken in a student's two areas of interest, but all doctoral students must complete the following courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC:6170</td>
<td>Introduction to Sociological Data Analysis (required for the M.A.)</td>
<td>3</td>
</tr>
<tr>
<td>SOC:6180</td>
<td>Linear Models in Sociological Research (required for the M.A.)</td>
<td>3</td>
</tr>
</tbody>
</table>

Two elective courses in methods/statistics numbered 5000 or above

One advanced theory course such as SOC:6110

Students also must pass two area examinations, write and defend a dissertation prospectus, and write and successfully defend a dissertation.

Doctoral students take two area exams—one from list A, the other from list A or B. List A has five standing committees: crime, law, and deviance; family; political sociology; social psychology; and stratification. For the list B exam, a student may propose any area that is not covered under list A and for which there is adequate faculty support.

For a detailed statement of graduate study regulations, contact the Department of Sociology. Prospective doctoral students should examine this document carefully.

Joint Ph.D./J.D.

The Department of Sociology and the College of Law offer the joint Juris Doctor/Doctor of Philosophy. The program is highly individualized, allowing students to explore varied aspects of the relationship between law and society. Joint Ph.D./J.D. students may count up to 12 s.h. of graduate credit toward both degrees, with approval from the Department of Sociology and the College of Law.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the J.D., see the College of Law (p. 1326) section of the Catalog.

Teaching Assistantship Training

All new graduate teaching assistants (TAs) are expected to attend a three-day orientation before classes begin. In addition, SOC:7010 Teaching Sociology is required for students who wish to teach their own courses.

Admission

Admission to graduate study in sociology usually requires an undergraduate g.p.a. of at least 3.25 and a score of 300 or higher (total for quantitative and verbal) on the Graduate Record Examination (GRE) General Test. Students whose first language is not English should submit scores on the Test of English as a Foreign Language (TOEFL).

Applicants also must complete the Graduate College application form, the supplemental sociology department application, and use the department's personal reference forms to obtain three letters of recommendation.

All application materials for fall admission must be received by January 1. The deadline for applying for departmental financial support is January 1. Evaluation of applications begins in early January.

Admission decisions are based on consideration of prior academic performance, personal reference letters, scores on the GRE General Test, and the applicant's statement of reasons for pursuing advanced work in sociology at the University of Iowa. The department has no specific undergraduate course requirements for admission, but a background in the social sciences with some mathematical training is useful. A foreign language is not required for admission, and there is no foreign language requirement for a graduate degree in sociology. To inquire about admission, consult the chair of the admissions committee, Department of Sociology.

Financial Support

The Department of Sociology offers teaching assistantships and research assistantships for graduate students. Students who receive one-half-time teaching or research assistantships work 20 hours each week for faculty members on either teaching or research assignments. Out-of-state students who hold assistantships are assessed tuition at the resident rate. Graduate students also may be eligible for fellowships offered by the Graduate College.

Career Advancement

The program of study for the Ph.D. primarily aims to prepare sociologists for academic positions in colleges and universities or for research positions in academic, private, and government institutions.

In addition to preparing students for careers in social service, criminal justice, and other areas, this major offers an integrated package of courses, research training, writing enhancement, international perspective, and internships to provide graduates with impressive credentials. The degree also prepares students for graduate or professional study in areas such as social work, urban and regional planning, law, criminal justice, and social policy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Spanish and Portuguese

Director, Division of World Languages, Literatures, and Cultures

- Russell Ganim

Interim Chair, Department of Spanish and Portuguese

- Kristine L. Munoz

Undergraduate majors: Spanish (B.A.); Portuguese (B.A.)
Undergraduate minors: Spanish; Portuguese
Graduate degrees: M.A. in Spanish; M.F.A. in Spanish creative writing; Ph.D. in Spanish
Faculty: https://clas.uiowa.edu/dwllc/spanish-portuguese/people/faculty
Website: https://clas.uiowa.edu/dwllc/spanish-portuguese

The Department of Spanish and Portuguese offers undergraduate majors and minors, graduate degree programs, and course work for students in other disciplines. The department provides a wide selection of courses in Spanish and Portuguese, languages that are spoken in many cultures around the world and are important in the study of literature, art, film, and many other areas. Spanish and Portuguese language courses are open to any student who has satisfied the course prerequisites.

In addition to language courses, the department offers general interest courses on literature, film, and culture that are taught in English. It also participates in several study abroad programs.

Undergraduate students in all majors may satisfy the World Language requirement of the General Education Program [p. 437] with courses in Spanish or Portuguese; see “Language for General Education” below. The department also offers other courses that are approved for General Education and are taught in English and a First-Year Seminar designed for entering undergraduates.

Elementary and intermediate courses in Spanish language interrelate five performance goals—listening, reading, speaking, writing, and cultural knowledge—in a staged progression whose overall goal is to develop proficiency. The curriculum emphasizes acquisition of Spanish language skills in communicative contexts, enrichment of vocabulary through an introduction to Hispanic culture, and development of grammatical accuracy in speaking and writing.

The beginning course in Portuguese is for students without previous study or experience with the language. There also is a special Portuguese course for students who already know Spanish. Portuguese classes provide a great deal of individual attention in an informal language-learning environment. Courses emphasize speaking, comprehending, reading, and writing Brazilian Portuguese. They incorporate cultural material in the form of videos and music.

The Department of Spanish and Portuguese is one of the academic units in the Division of World Languages, Literatures, and Cultures [p. 312].

Related Certificates and Minors

International Business

The College of Liberal Arts and Sciences and the Tippie College of Business offer the Certificate in International Business. The program entails study of international business and economics; international relations and institutions; a language; and the art, literature, culture, and/or politics of a geographic area. For detailed information about the certificate see International Business [p. 567] in the Catalog.

Latin American Studies

The department plays an important role in the Latin American Studies Program, which focuses on the history, politics, social organization, economy, art, music, religion, and literature of Latin America. See Latin American Studies [p. 622] in the Catalog for detailed information about the program's undergraduate certificate and minor.

Translation for Global Literacy

The minor in translation for global literacy encourages undergraduate students to explore translation as a crucial dimension of global literacy and communication. The Department of Spanish and Portuguese offers several courses that count toward the minor. See Translation for Global Literacy [p. 911] in the Catalog for detailed information about the minor.

Language for General Education

The Department of Spanish and Portuguese offers course sequences that students in all majors may use to satisfy the World Language requirement of the College of Liberal Arts and Sciences General Education Program [p. 437].

Students who have previous course work or other experience with Spanish should take the online Placement Test, which helps determine the level at which a student should begin Spanish language study at the University of Iowa. Students should take the test before they register for their first University of Iowa Spanish course. Students with experience in Portuguese may receive individual evaluations from the department.

Spanish

The following course sequences in Spanish satisfy the General Education Program's World Language requirement. For students without previous knowledge of Spanish, the department recommends the following sequence.

SPAN:1001 Elementary Spanish I 5
SPAN:1002 Elementary Spanish II 5
SPAN:1501 Intermediate Spanish I 5
SPAN:1502 Intermediate Spanish II 5

Those with previous knowledge of Spanish may be able to fulfill the World Languages requirement with the following sequence.

SPAN:1003 Elementary Spanish Review 5
SPAN:1501 Intermediate Spanish I 5
SPAN:1502 Intermediate Spanish II 5

Students should consult a departmental advisor to determine which sequence is best for them.

Portuguese

The following course sequences in Portuguese fulfill the General Education Program's World Language requirement. The first option consists of two intensive courses that combine two semesters into one, so that the sequence is completed in a total of two semesters rather than four. Both courses are open to entering first-year students.
The second option requires three courses taken in the following sequence to complete the World Languages requirement.

Programs

Undergraduate Programs of Study

Majors

• Major in Spanish (Bachelor of Arts) [p. 863]
• Major in Portuguese (Bachelor of Arts) [p. 867]

Minors

• Minor in Spanish [p. 868]
• Minor in Portuguese [p. 869]

Graduate Programs of Study

Majors

• Master of Arts in Spanish [p. 870]
• Master of Fine Arts in Spanish Creative Writing [p. 871]
• Doctor of Philosophy in Spanish [p. 872]

Facilities

The Language Media Center (LMC) provides students and faculty with a broad range of services and facilities that include a state-of-the-art audio language laboratory, individual audio recording carrels, video viewing rooms for small groups, video viewing stations for individuals, and networked microcomputer and interactive multimedia workstations. The LMC maintains a number of instructional technology classrooms that have special video, audio, and computer equipment for in-class presentations. The center's extensive collection of international media resources on audio tape, videotape, computer disc, videodisc, and CD-ROM serves learners at many levels and in many disciplines.

Courses

Spanish and Portuguese language courses are open to all students who have satisfied the specified course prerequisites.

Basic Spanish courses are included in the number range SPAN:1000-SPAN:1900. Students must have permission from the chair of the Department of Spanish and Portuguese to take an elementary course for credit after having completed a higher-level course for which the elementary course or its equivalent is a prerequisite.

Spanish Level 1 courses are included in the number range SPAN:2000-SPAN:2999. Students should take these courses at the start of the Spanish major.

Spanish Level 2 courses are included in the number range SPAN:3000-SPAN:3999. Students should have at least one Spanish Level 1 course before starting these courses. Some courses have additional prerequisites.

Spanish Level 3 courses are included in the number range SPAN:4000-SPAN:4999. Undergraduates should take these courses during their last semesters of enrollment. These courses also are open to M.A. students. All of these courses require a research paper. Prerequisites vary.

Spanish Graduate courses are included in the number range SPAN:5000-SPAN:7600.

Spanish Courses

SPAN:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

SPAN:1001 Elementary Spanish I 5 s.h.

SPAN:1002 Elementary Spanish II 5 s.h.

SPAN:1003 Intermediate Spanish I 5 s.h.

SPAN:1004 Spanish for Healthcare Providers 4-5 s.h.
Intermediate Spanish with emphasis on oral communication for health care providers. Requirements: SPAN:1501. GE: World Languages Fourth Level Proficiency.
SPAN:1610 Hispanic Cultural Activities
Attendance 1 s.h.
Attendance at Spanish literary readings, scholarly presentations, and Hispanic cultural events on the University of Iowa campus and in Iowa City; features visiting, local, and University of Iowa writers, filmmakers, artists, and scholars.

SPAN:1700 Latino/a Literature in the U.S. 3 s.h.
Introduction to growing cultural production of varied Latino communities (e.g., Chicano, Puerto Rican American/Nuyorican, Cuban American) that have a strong presence in the United States; recent cultural production from borderland transcultural spaces with physical, cultural, economic, political, and mythical elements; visions of the United States from contemporary Latin American writers who recently have become U.S. residents. Taught in English. GE: Literary, Visual, and Performing Arts; Values, Society, and Diversity.

SPAN:1800 Contemporary Spanish American Narrative 3 s.h.
Themes and narrative techniques in major texts, 1960-present; overview of cultural, sociopolitical aspects. Taught in English, readings in English. GE: Literary, Visual, and Performing Arts.

SPAN:1900 Diversity and Cultures in Spain 3 s.h.
Introduction to diversity of cultures within Spain; political, social, and economic background, cultural movements. Taught in English. GE: Values, Society, and Diversity.

SPAN:2000 Spanish Language Skills: Writing 4 s.h.
Bridge from second-year Spanish to more advanced courses in Spanish language, linguistics, and literature; emphasis on skill development in writing, critical reading in Spanish, and oral communication. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2005 Writing Global Spanish 3 s.h.
Spanish in the digital age; linguistic varieties of Spanish spoken globally; emphasis on skill development in writing, critical reading in Spanish, and oral communication. Taught in Spanish. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2010 Spanish Language Skills: Speaking 3 s.h.
Development of conversational proficiency and cultural competence through action learning; strategic role playing and creative language use based on everyday situations in Hispanic cultures; composition skills and grammar review. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2020 Hispanic Institute: Language 3 s.h.

SPAN:2030 Study of Language: Myths and Concepts 3 s.h.
How linguists look at language; basic concepts of linguistics and grammar. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2040 Spanish for Heritage Speakers 3 s.h.
Development of reading and writing skills for bilingual students who have acquired listening and speaking skills in Spanish; review of grammar and registers of use.

SPAN:2050 Spanish in the U.S. 3 s.h.
Issues related to Spanish in the United States; aspects of linguistics and sociolinguistics inherent to the existence and proliferation of Spanish in the United States. Taught in English.

SPAN:2060 Spanish Pronunciation 3 s.h.
Pronunciation as a key element of communication in a second language; self evaluation of pronunciation in Spanish; how sounds differ between English and Spanish; analysis of pronunciation; production exercises. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2090 Medical Spanish in Contemporary Society 3 s.h.
Vocabulary related to medical field; grammatical concepts; health-related cultural competence; discussion of health issues concerning Hispanic communities in the U.S. and abroad. Requirements: SPAN:1502 or SPAN:1503 or SPAN:1504.

SPAN:2095 Activities Attendance for Spanish Majors 1 s.h.
Attendance at Spanish literary readings, scholarly presentations, and Hispanic cultural events on the University of Iowa campus and in Iowa City, featuring visiting, local, and University of Iowa writers, filmmakers, artists, scholars, and community members. Taught in Spanish. Requirements: SPAN:2000 or SPAN:2005 or SPAN:3000 or SPAN:3020 or SPAN:3060.

SPAN:2200 Introduction to Spanish American Cultures 3 s.h.
Introduction to study of cultural history of Spanish America; topics range from precolombian times to present; for students who are just starting work on the Spanish major or minor. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2280 Introduction to Latina/o Studies 3 s.h.
Introduction to field of Latina/o studies through interdisciplinary readings from literature, history, sociology, political science, urban studies, and anthropology; commonalities and differences among long-standing Latina/o populations (Mexican Americans, Puerto Ricans, Cuban Americans); challenges faced by newer arrivals (Dominican Americans, Salvadoran Americans, Guatemalan Americans, Central and South American immigrants). Same as HIST:2280, LATS:2280.

SPAN:2300 Introduction to Reading Literature 3 s.h.
Close readings of literary texts from Spain and Spanish America; basic concepts of genre (narrative, poetry, theater, essay); writing about literature. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2400 Readings in Spanish Literature 3 s.h.
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on literature of Spain. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2500 Readings in Spanish American Literature 3 s.h.
Tools for improving reading skills; basic concepts for textual understanding; historical overview of literary works, with focus on Spanish American literature. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2700 Introduction to Latin American Studies3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as COMM:2800, IS:2700, LAS:2700, PORT:2700.

SPAN:2800 Screening Latin America 3 s.h.
SPAN:2900 Music of the Hispanic World 3 s.h.
Introduction to music of Spain and Latin America, including the United States; listening skills, music appreciation, continuing development of Spanish language skills. Requirements: SPAN:1502 or SPAN:1503.

SPAN:2910 Hispanic Institute: Study/Life in Spain 1 s.h.

SPAN:3000 Writing Skills for Heritage Speakers 3 s.h.
Development of writing skills in Spanish, focus on expository writing for academic purposes. Requirements: at least two courses taught in Spanish at the 2000 level or above.

SPAN:3005 Study Abroad in the Hispanic World: Return and Reflect 3 s.h.
Students integrate culture and language learning achieved in a foreign country into their Spanish studies at the University of Iowa through extensive writing exercises and oral presentations; for students returning from study abroad. Requirements: completion of study abroad program.

SPAN:3010 Advanced Spanish Speaking and Writing 3 s.h.
Development of oral proficiency; secondary emphasis on continuing development of writing skills; cultural knowledge of several Spanish-speaking countries. Requirements: two courses taught in Spanish at the 2000 level or above.

SPAN:3015 Fast Fixes: Improved Spanish in Six Weeks 1 s.h.
Varied topics focused on improving common problems with Spanish grammar; emphasis on written and oral expression. Requirements: SPAN:2000 or SPAN:2005 or SPAN:3000 or SPAN:3020 or SPAN:3060 or SPAN:3070.

SPAN:3020 Journalistic Writing in Spanish 3 s.h.
Spanish writing skills; introduction to style and practice of journalistic reporting and writing. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3030 Translation Workshop: English to Spanish 3 s.h.
Introduction to translation theory and effective translation processes; examination of potential translation problems in specific areas of English to Spanish translation; primary focus on nonfiction. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3040 Business Spanish 3 s.h.
Clear, concise business writing; emphasis on linguistic and cultural proficiency. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3050 Translation Workshop: Spanish to English 3 s.h.
Spanish to English literary translation; meaning, form and equivalence, authenticity; questions of untranslatability. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3060 Introductory Workshop on Creative Writing in Spanish 3 s.h.

SPAN:3070 Introductory Workshop Writing Scripts 3 s.h.
Development of writing skills in Spanish through writing scripts. Taught in Spanish. Requirements: at least one course numbered SPAN:2000 or above.

SPAN:3080 Advanced Business Spanish 3 s.h.
Tools for effective business communication, building on concepts learned in SPAN:3040; linguistic, sociolinguistic, practical skills for effective oral and written communication developed through discussion of business case studies, presentations, meetings; selected Spanish and Latin American companies examined through varied media, including news and Internet; role of transaction intermediaries in international trade. Requirements: SPAN:3040.

SPAN:3090 Spanish at Work 1 s.h.
Uses for a Spanish degree; knowledge and skills gained as a Spanish major that are in high demand among a wide variety of employers; important steps taken as a student that translate unique career dreams into reality; includes work with Pomerantz Career Center staff. Requirements: at least two courses numbered SPAN:2000 or above.

SPAN:3095 Spanish Composition and Grammar 3 s.h.
Development of three types of compositions; selected readings and comprehension activities; vocabulary expansion; grammar review with exercises. Requirements: proficiency in written and oral Spanish, based on several university Spanish classes (about half the course work towards a Spanish major), plus study-abroad experience in a Hispanic country.

SPAN:3100 Structures of Spanish: Words and Sentences 3 s.h.
Basic concepts and methods for analysis of linguistics as applied to Spanish word formation (morphology), sentence patterns (syntax), and semantic interpretation. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3110 Spanish Sound Structure 3 s.h.
Articulation of Spanish sounds–description and practice; how Spanish sounds are organized into classes, relations among the different classes, how they are implemented in context, patterns they exhibit. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3120 Foundations in Sociolinguistics 3 s.h.
Dialects, speech communities, variation, choosing a code, solidarity and politeness, language and gender, language planning. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3130 Introduction to Bilingualism 3 s.h.
Psycholinguistic and sociolinguistic aspects of bilingualism; language usage, maintenance, attitudes, shift, transfer, loss; code-switching. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3140 Introduction to Spanish Language Acquisition 3 s.h.
Basic principles of language acquisition theory applied to learning Spanish as a first or second language. Requirements: at least one course taught in Spanish at the 2000 level or above. Recommendations: completion of SPAN:3100.
SPAN:3190 Psycholinguistic Aspects of Bilingualism 3-4 s.h.
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Requirements: linguistics or language acquisition course. Same as FREN:3190.

SPAN:3195 Spanish Linguistics Lab I 1 s.h.
Hands-on research experience collecting and analyzing linguistic data.

SPAN:3200 Latin American Cultural Studies 3 s.h.
Interdisciplinary, multiregional approach to Latin American history, society, politics, economics, and culture. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3210 Cultural Storytelling 3 s.h.
Examination of memoir, short story, and journalism from Latin America to distinguish truth from accuracy and individual choices within cultural norms; course will enrich students' Spanish language fluency and writing as well as their knowledge of Latin American cultures. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3215 Medellin 3 s.h.
Medellin, Colombia has been transformed from one of the most violent places on Earth to an award-winning city of innovation in only 20 years; introduction to the city and its people through literature, music, and a digital map project. Requirements: at least one course numbered SPAN:2000 or above.

SPAN:3220 Visual Culture: Colonial Spanish America 3 s.h.
Intersection between written word and visual culture in colonial Spanish America; imperialism, native culture, violence and race in codices, paintings, maps and illustrations. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3230 Modern Mexico 3 s.h.
Twentieth-century Mexican cultural history, including nationalism, gender relations, indigenous cultures, border issues, and popular culture; materials range from journalistic and literary writing to film, music, images, and television. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3240 Mexico City 3 s.h.
Broad historical survey of Mexico City as center of cultural life in Mexico and Latin America and city of global importance; conquest and contemporary narratives, visual culture, music, and film. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3270 Pan-Caribbean Literary Currents 3 s.h.
Twentieth-century fiction, film, and cultural practices in the Hispanic, Francophone, and Anglophone Caribbean; cultural essays to complement literary readings; pan-Caribbean cultural practices--music and carnival celebrations. Taught in English. Requirements: for CL:3262 -- junior or senior standing; for SPAN:3270 -- two literature courses. Same as CL:3262.

SPAN:3290 Topics in Cinema and Society 3 s.h.
Concept of national cultures examined through film history in one Latin American nation. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3300 Contemporary Spanish American Fiction 3 s.h.
Major 20th-century short-story writers and novelists (Borges, Cortázar, Fuentes, García-Márquez, Rulfo, etc.) through representative works. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3310 Spanish American Short Story 3 s.h.
Works by 19th- and 20th-century Spanish American writers; emphasis on reading strategies and historical, cultural, literary backgrounds. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3320 Spanish American Poetry 3 s.h.
Poetry as a literary genre, short history of its development, early forms in Spanish America, poets from Modernism to present; readings from writers including Rubén Darío, Pablo Neruda, César Vallejo, Octavio Paz, J.L. Borges. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3350 Contemporary Spanish American Literature 3 s.h.
Comprehensive view of 20th-century literature from Spanish-speaking countries in the Americas, including narrative and poetry; examination of issues related to texts and contexts through written and oral analysis. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3360 Latin American Women Writers 3 s.h.
Focus on 20th century; how Latin American women subjects view themselves through literature; textual practice specific to women; psychoanalytic approaches, contemporary feminist criticism. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as GWSS:3360.

SPAN:3370 Topics in Literatures and Cultures 3 s.h.
Literature and culture of specific regions, countries, or cities of Latin America. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3400 Chicano Literature and Culture 3 s.h.
Recent fiction and poetry by Chicano and Chicana writers; readings in Spanish and English. Taught in English. Requirements: satisfaction of GE Interpretation of Literature, or LATS:2280 or SPAN:2280 or HIST:2280.

SPAN:3420 Cuban American Literature and Culture 3 s.h.
Experiences of Cuban exiles in the United States; emergence of a literature and culture based on sense of dispossession, marginality, and memory of island past. Taught in English. Prerequisites: ENGL:1200. GE: Values, Society, and Diversity. Same as CL:3396.

SPAN:3440 Topics in Latino/a Literature and Culture 3 s.h.
Examination of special topics in interdisciplinary field of Latina/o studies. Taught in Spanish or English. Requirements: one course taught in Spanish at the 2000 level or above, or LATS:2280 or SPAN:2280 or HIST:2280.

SPAN:3500 Topics in Culture of the Hispanic World 3 s.h.
Specific topics; culture of different parts of Spanish-speaking world, or cross-regional or cross-national cultural phenomenon. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3520 Introduction to Film Studies 3 s.h.
Introduction to film analysis and theory; focus on Latin American and Spanish cinemas in context of international film history. Requirements: at least one course taught in Spanish at the 2000 level or above.
SPAN:3550 Doing Business in Latin America and Spain 3 s.h.
Introduction to cultural, social, economic, political, and historical contexts of Latin American countries and Spain and their interdependence with the United States; fundamental economic and political concepts necessary to understand the current socioeconomic and political reality of Spanish-speaking countries; students develop the ability to conduct business in Spanish, gaining a working knowledge of business vocabulary, and applying this knowledge in interactive ways. Requirements: at least one course numbered SPAN:2000 or above.

SPAN:3600 Cultures of Spain 3 s.h.
Political, religious, social, economic background; important cultural, literary movements. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3610 Hispanic Institute: Culture 3 s.h.
Overview of geography, history (political, economic, social), architecture, painting, music of Spain; readings, slides, video and audio cassettes, visits to local sites of cultural significance. Requirements: SPAN:1502 or SPAN:1503.

SPAN:3620 Madrid 3 s.h.
Contemporary Madrid as one of the premier capital cities of the European Union; history and present day reality of the city; examination of paintings, descriptions, movies, fashion, and customs from several historical periods. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3630 Spanish Youth Culture 3 s.h.
Literary texts, films, and music produced by young people in Spain from 1939 to present; gender issues and relationships between market, popular culture, and high culture. Requirements: one course taught in Spanish at the 2000 level or above.

SPAN:3690 Iowa Global Internship in Madrid 3 s.h.
Intensive language and eight-week internship in Madrid through the Tippie College of Business Madrid Internship Program; writing an extensive report in Spanish. Requirements: at least two courses taught in Spanish at the 2000 level or above.

SPAN:3700 Sex in the Cid 3 s.h.
Rodrigo Diaz de Vivar, the Cid, and his beloved Ximena Gomez as icons of Spanish masculinity and femininity, from the Middle Ages to Franco's Spain. Requirements: one literature course taught in Spanish at the 2000 level or above.

SPAN:3750 Literature in the Time of Cervantes 3 s.h.
Introduction to literary questions of 15th to 17th centuries in Spain; understanding of literary Spanish and cultural issues of the period--end of the feudal mind, beginning of individualism, poetry, emergence of theater, crisis of empire. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3790 Hispanic Institute: Literature 3 s.h.
Introduction to poetry, narrative, and theater in Spanish literature; textual commentary and critical interpretations of major representative works of selected historical periods. Requirements: SPAN:1502 or SPAN:1503.

SPAN:3820 Modern and Contemporary Spanish Literature 3 s.h.
Works of the last 30 years of the 19th century, up to the outbreak of the Spanish Civil War; Realism, Naturalism, generation of 1898, generation of 1913, generation of 1927. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:3840 Contemporary Spanish Short Story 3 s.h.
Contemporary short stories from 20th- and 21st-century Spain; emphasis on reading strategies and interpretation skills; focus on historical and social contexts. Requirements: at least one course taught in Spanish at the 2000 level or above.

SPAN:4095 Advanced Spanish Grammar 3 s.h.
Deep and broad high-level grammar review featuring textbook analysis and examples, instructor's commentary, and relevant written exercises on problematic areas of vocabulary and grammar in written international standard Spanish. Requirements: high communicative proficiency in using the Spanish language, both written and oral, based on extensive experience in the classroom and in the real world (e.g., finishing up a university Spanish major, prior study, or residence abroad in Hispanic countries).

SPAN:4100 Introduction to Spanish Phonology 3 s.h.
Sound patterns of Spanish; how various theoretical approaches solve basic problems in Spanish phonology; identification of linguistic universals, how they are manifested in the sound structure of Spanish. Prerequisites: SPAN:3110. Same as SLA:4301.

SPAN:4140 History of the Spanish Language 3 s.h.
Development of phonetic, morphological, syntactical properties of the Spanish language from its Latin roots; emphasis on internal history and process of expansion from a minor dialect (Castilian) to a significant world language. Prerequisites: SPAN:3110 or SPAN:3100.

SPAN:4150 Introduction to Spanish Syntax 3 s.h.
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Prerequisites: SPAN:3100. Same as SLA:4300.

SPAN:4170 Linguistic Aspects of Second Language Acquisition 3 s.h.
Theoretical linguistic approaches to acquisition of Spanish as a second language. Prerequisites: SPAN:3100 or SPAN:3170 or SPAN:3110.

SPAN:4190 Topics in Hispanic Linguistics 3 s.h.
Prerequisites: SPAN:3100 or SPAN:3110 or SPAN:3120 or SPAN:3130. Requirements: completion of at least one Hispanic linguistics course.

SPAN:4195 Spanish Linguistics Lab II 3 s.h.
Hands-on research experience collecting and analyzing linguistic data. Requirements: at least one linguistics course.

SPAN:4310 Cultural Identity in Caribbean Literature 3 s.h.
Main currents in Caribbean literature; primary focus on Hispanic Caribbean; may include americanismo literario, poesia negra, testimonial narrative; Caribbean cultural context in music, humor, Afro-Caribbean rituals. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4330 Colonial Spanish American Literature 3 s.h.
Readings from the formative period of Spanish American culture; may include discovery and conquest, ethnicity and gender, dissent and popular resistance. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4350 Twentieth-Century Spanish American Theater and Performance 3 s.h.
Introduction to 20th-century Spanish American theater; study of five major playwrights; readings of plays with analysis of performances. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.
SPAN:4360 The Orient in Contemporary Latin American Literature and Culture 3 s.h.
Orientalism, cultural hybridity, racial and gender construction in contemporary Latin American literature and culture; Latin American identity in era of globalization. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4370 Literature and Mass Culture in Latin America 3 s.h.
Examination of literature in relation to other media in Latin America in the 20th century; close readings of novels, short stories, and essays analyzed in combination with film clips, photographs, music, and blogs. Requirements: two literature courses taught in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4380 Narratives of Underdevelopment 3 s.h.
Works of Spanish American narrative and essay that illuminate questions of geo-political inequality and national consolidation; readings examined in relationship to Latin American social theory in a historical context. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4390 Topics in Spanish American Literature 3 s.h.
Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4620 Spanish Golden Age Fiction 3 s.h.
Literature and society in first centuries of Spanish Modernity, Renaissance and Baroque periods, love and the self, alienation, utopias, the body and morals, cultural dimensions of genres. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4630 Society and Poetry: Spanish Lyric 3 s.h.
Twentieth-century Spanish lyric poetry in its sociocultural context. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4650 Don Quijote 3 s.h.
Exploration of Cervantes' Don Quijote; sociohistorical context, questions of human existence, literary tradition, metafiction, influence of Don Quijote on novelists and filmmakers, critical reception of the text. Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4690 Topics in Spanish Literature 3 s.h.
Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4800 Chicano Cinema 3 s.h.
History of Chicano independent and industry film and television production since the Chicano political and cultural movement began in the 1960s. Taught in English. Requirements: one Spanish literature or culture course numbered SPAN:3200 or above, or one film studies course numbered CINE:2100 or above.

SPAN:4810 Topics in Latin American Cinema 3 s.h.
Taught in English. Prerequisites: CINE:1601. Requirements: one Spanish literature or culture course numbered SPAN:3200 or one film studies course. Same as CINE:4678, LAS:4678.

SPAN:4820 Latino/a Popular Culture 3 s.h.
Role of Latino/a popular culture as a site of contemporary social practice and cultural politics in both local and global contexts; specific attention to notions of citizenship, identity, and culture. Taught in English. Requirements: either one literature or culture course taught in Spanish numbered SPAN:3200 or above, or LATS:2280 or SPAN:2280 or HIST:2280.

SPAN:4830 The Hispanic World in the Digital Era 3 s.h.
Global digital space and construction of culture in Hispanic world; how digital data creates knowledge and ways it represents and impacts societies; power of computer technology to disseminate critical thinking, social outreach, and creative expressions; how digital realities and tools of constant communication promote change. Requirements: two literature or culture courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4840 Visual Culture in Modern and Contemporary Spain 3 s.h.
How to analyze different types of images in connection to the social and political developments of modern and postmodern Spain; special attention given to the role that images played in the periods of political turmoil that defined modern Spanish history. Requirements: two courses taught in Spanish and at least one numbered SPAN:3000 or above.

SPAN:4850 Topics in Cultural Studies 3 s.h.
Requirements: one literature or culture course taught in Spanish numbered SPAN:3200 or above.

SPAN:4870 Islamic Cultural Presence in Spain 3 s.h.
Islamic history and culture in the Iberian Peninsula from Middle Ages to present. Taught in Spanish. Requirements: one literature or culture course taught in Spanish numbered SPAN:3200 or above. Same as RELS:4870.

SPAN:4880 Comic Books and Graphic Novels in the Hispanic World 3 s.h.
Analysis of comics and graphic novels from Hispanic world; diverse Hispanic representational perspectives on creativity, humor, storytelling, culture, politics, nationality, and ethnicity; opportunity for students to express their own creativity with comics. Recommendations: two literature or culture courses taught in Spanish, at least one of which must be numbered SPAN:3200 or above.

SPAN:4900 Latin American Studies Seminar 3 s.h.

SPAN:4910 Topics in Literary Studies 3 s.h.
Requirements: two literature courses in Spanish, at least one of which must be numbered SPAN:3300 or above.

SPAN:4920 Topics in Film Studies 3 s.h.
Requirements: one literature or culture course taught in Spanish numbered SPAN:3200 or above.

SPAN:4950 Advanced Workshop on Creative Writing in Spanish 3 s.h.
In-depth consideration of characters, dialog, conflict, setting, point of view, other fundamentals of fiction; experience writing short stories and other pieces, with class discussion; fictional texts by renowned writers, authors' essays on their own creative process; narrative strategies of short stories, songs, painting, films. Requirements: one creative writing course in Spanish and one literature course in Spanish numbered SPAN:3300 or above, or two literature courses in Spanish numbered SPAN:3300 or above.
SPAN:4980 Advanced Translation: Spanish to English 3 s.h.
Examination of translation through practical exercises and readings related to the problem of working with literature between languages; questions related to style and form as well as historical and cultural distance will be examined. Requirements: SPAN:3030 or SPAN:3050 and one literature course taught in Spanish.

SPAN:4998 Honors: Research and Thesis 2-3 s.h.
Requirements: honors standing.

SPAN:4999 Special Work 1-3 s.h.

SPAN:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Same as FREN:5000, GRMN:5001, SLA:5000, WLLC:5000.

SPAN:5001 Introduction to Graduate Study 2 s.h.
Expectations, resources, and opportunities of graduate study; introduction to course work, development of preprofessional competencies. Same as FREN:5001.

SPAN:5300 The Humboldt Current: Travel, Science, and the Spatial Imagination in Latin America 3 s.h.
Travel writings of environmental studies pioneer and Prussian explorer, Alexander von Humboldt, who led a five-year expedition to South America, Mexico, and Cuba in the late 18th century; his writing ushered in an idea of nature central to the Latin American imagination; topics include "Humboldtian science", the scientific traveler's persona, and rhetoric of travel; Humboldt's mapping of the Orinoco, Mexico, and the Caribbean, negotiating the tradition of European cartography with indigenous spatial practices; contribution of Humboldt's travels to a spatial imagination in Latin America; students develop an original research project. Recommendations: one graduate-level course in colonial, 19th-century Latin American literature, and/or ecocriticism and theory (this last course could be taken in related departments, such as English). Same as CL:5300, FREN:5300, WLLC:5300.

SPAN:6000 Foreign Language Teaching Methods 3 s.h.
Readings in pedagogical theory and practice and second language acquisition; experience designing activities for teaching and assessment, with critiques based on current theories and approaches; development of reflective practices toward one's own language teaching. Same as SLA:6300.

SPAN:6110 Spanish Phonology 3 s.h.
Modern approaches to synchronic phonology as applied to Spanish; focus on traditional descriptive problems, recent generative analyses. Requirements: phonology or linguistics course. Same as SLA:6303.

SPAN:6120 Spanish Syntax 3 s.h.
Spanish syntactic constructions examined in framework of selected syntactic theory; emphasis on development of syntactic argumentation. Requirements: one course in syntax. Same as SLA:6304.

SPAN:6150 Topics in Spanish Language Acquisition 3 s.h.
Theoretical linguistic approaches to monolingual, bilingual, and second language acquisition of Spanish and Portuguese; varied topics. Requirements: at least one course in linguistics (e.g., general introduction to linguistics). Same as SLA:6301.

SPAN:6180 Topics in Hispanic Linguistics 3 s.h.
Taught in Spanish or English.

SPAN:6190 Topics in Comparative Romance Linguistics 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Recommendations: additional graduate course work in linguistics. Same as LING:6190, SLA:6302.

SPAN:6195 Undergraduate Lab Research Supervision 1 s.h.
Hands-on experience supervising undergraduate students in a research context. Requirements: enrollment in Ph.D. or M.A. program in Spanish linguistics or Ph.D. program in linguistics.

SPAN:6210 Fiction Workshop 3 s.h.
Craft of writing short stories; underlying principles examined through lectures, readings, craft analysis, discussions, exercises, and workshops; activities linked with International Writing Program. Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6220 Poetry Workshop 3 s.h.
Construction and recognition of poetic voice through readings, analysis, and exercises from different poets and by students; poetic voice in three spaces (diary of poetic prose, collection of poems, object poem). Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6235 Film Script/Theater Workshop 3 s.h.
Basic steps to developing plays; different styles and ways to develop plays and characters; reading main authors and their plays; student work on a possible play. Requirements: admission to M.F.A. in Spanish Creative Writing program.

SPAN:6241 Creative Project Development 3 s.h.
Development of creative project. Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6251 Workshop on Editing a Literary e-Journal 3 s.h.
Plan, produce, write, and edit a literary digital magazine; manage and write for Iowa Literaria. Requirements: admission to M.F.A. in Spanish Creative Writing program.

SPAN:6260 Detective Narrative Workshop 3 s.h.
Basic elements of narrative used by authors of detective novels; acclaimed short stories, novels, and theoretical essays related to the genre; write three short stories of detective fiction; written critique of classmates' work. Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6280 Nonfiction Workshop 3 s.h.
Practice of self narrative and construction of the self in literature; readings of self-narrated texts in different literary forms and cultural traditions (from autobiography to testimonial narratives); various ways in which the narrating self is formed and deformed by literary conventions that define him/her; readings as springboards for thinking on ways to write the self; series of autobiographical sketches. Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6295 Practicum Editing a Literary e-Journal arr.
Practice in planning, producing, and editing Iowa Literaria. Recommendations: SPAN:6251.

SPAN:6299 Thesis: Creative Writing 3 s.h.
Continuation of work on student manuscript. Requirements: admission to M.F.A. Spanish Creative Writing program.

SPAN:6300 Colonial Spanish American Literature 3 s.h.
Chronicles of the conquest: close reading with focus on role of writing and operations of "othering"; balance between critical secondary sources and primary sources.
SPAN:6310 Spanish American Narrative: Nineteenth Century 3 s.h. Review of narrative, with emphasis on Romanticism.
SPAN:6320 Contemporary Spanish American Narrative 3 s.h. Narrative from mid-20th century to present; emphasis on the Boom, post-Boom.
SPAN:6330 Spanish American Narrative: Modern and Regional 3 s.h.
SPAN:6390 Topics in Spanish American Literature 3 s.h.
SPAN:6600 Medieval Spanish Literature 3 s.h. Critical reading of canonical medieval texts in their cultural context; application of modern theory to medieval texts; works such as El Poema del Cid, El Romancero Viejo, Milagros de Nuestra Señora, El Conde Lucanor, El Libro de Buen Amor.
SPAN:6620 Spanish Renaissance and Baroque Literature 3 s.h. Critical analysis of social, moral, political function of literature in early modern Spain; Renaissance and Baroque poetry; La Celestina; pastoral literature; Don Quijote; narratives of the court; modern subjectivity; the question of genre.
SPAN:6660 Contemporary Spanish Fiction 3 s.h. The post-Franco novel in Spain; literary "postmodernism" and relationships between Spanish literature, politics, and society since 1975; representative significant works.
SPAN:6670 Contemporary Spanish Poetry 3 s.h. Poetry on the Spanish literary scene circa 1968; authors' reactions to predecessors, their connections with foreign traditions, metapoetry, the aesthetics of culturalism.
SPAN:6680 Contemporary Non-Castilian Narrative Spain 3 s.h. Readings in Spanish of novels and short stories written in another language of the Spanish state or by a member of one of Spain's non-Castilian historic nationalities.
SPAN:6690 Topics in Spanish Literature 3 s.h.
SPAN:6850 Topics in Literary Studies 3 s.h.
SPAN:6860 Topics in Cultural Studies 3 s.h.
SPAN:6901 Second Language Acquisition Research and Theory II 3 s.h. Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as ASIA:6901, FREN:6901, JPN:6901, SLA:6901.
SPAN:6902 Second Language Acquisition Research and Theory II 3 s.h. Continuation of SLA:6901. Prerequisites: SLA:6901. Same as ASIA:6903, SLA:6902.
SPAN:6905 Introduction to Contemporary Literary Theory 3 s.h. How major theories construct literary text; structuralist, semiotic, psychoanalytic, Marxist, reader response, Derridian criticism. Taught in English. Same as CL:6105.
SPAN:6920 Multimedia and Second Language Acquisition 3 s.h. Foreign language multimedia in context of current second language acquisition theories and research; readings on interactivity, interface design, feedback, learner control; acquisition of vocabulary, grammar, and culture. Requirements: foreign language teaching methodology course. Same as FREN:6920, GRMN:6920, SLA:6920.
SPAN:6998 Special Work arr.
SPAN:6999 Thesis arr.
SPAN:7000 Seminar: Spanish Linguistics 3 s.h. Same as LING:7000.
SPAN:7200 Seminar: Literary Studies 3 s.h.
SPAN:7300 Seminar: Cultural Studies 3 s.h. Specific topics on aspects of Spanish and/or Spanish American literature.

Portuguese Courses
PORT:1800 Contemporary Brazilian Narrative 3 s.h. Novels, short stories, other narrative forms, beginning with neorealists of 1930s; cultural background of different periods, innovative literary approaches of writers through films, other media. Prerequisites: ENGL:1200. GE: Literary, Visual, and Performing Arts.
PORT:2000 Accelerated Elementary Portuguese 5 s.h. First-year course in one semester; comprehending, speaking, reading, writing modern Portuguese; emphasis on speaking. GE: World Languages Second Level Proficiency.
PORT: 2700 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as COMM: 2800, IS: 2700, LAS: 2700, SPAN: 2700.

PORT: 2800 Topics in Cultural Studies 3 s.h.
Specific topics; interdisciplinary approaches; cultural relations of different parts of Portuguese-speaking world, cross-regional or cross-national discourses. Taught in English.

PORT: 3050 Portuguese for Spanish Speakers 3 s.h.
Systematic differences and similarities between Spanish and Portuguese; emphasis on reading, writing. Requirements: nine courses numbered SPAN: 2000 or above.

PORT: 3100 Composition and Conversation 3 s.h.
Speaking, writing skills through discussion and oral presentations, grammar and vocabulary review, composition; materials from current Brazilian newspapers, magazines, short fiction, telenovelas and films. Requirements: PORT: 2500 or PORT: 3050.

PORT: 3130 Business Portuguese 3 s.h.
Clear, concise business writing; emphasis on linguistic and cultural proficiency. Requirements: PORT: 2500 or PORT: 3050.

PORT: 3150 Topics in Portuguese Language 3 s.h.
Various aspects of Portuguese language use. Prerequisites: PORT: 2500 or PORT: 3050.

PORT: 3200 Introduction to Literary Analysis 3 s.h.
Basic concepts of genre, literary periods, narrative and literary analysis; close reading of literary texts in Portuguese; tools for improving reading and writing skills. Taught in Portuguese. Prerequisites: PORT: 2500 or PORT: 3050.

PORT: 3350 Brazilian Literature Before 1900 3 s.h.
Beginnings through end of 19th century; representative readings from all periods and genres; focus on works of major Brazilian authors such as Gonzaga, Alencar, Castro Alves, Machado de Assis, Cruz e Sousa. Taught in Portuguese. Prerequisites: PORT: 3050 or PORT: 2500.

PORT: 3400 Brazilian Literature After 1900 3 s.h.
Twentieth-century poetry, novels, short stories; modernism, regionalism, generation of 1945, concrete; works of principal figures behind these movements; focus on major writers of modern period, such as Lima Barreto, Mário de Andrade, Drummond, Jorge Amado, Cabral de Melo Neto, Guimarães Rosa, Lispector, and contemporary writers. Taught in Portuguese. Requirements: PORT: 3050 or PORT: 2500.

PORT: 3500 Introduction to Portuguese Literature 3 s.h.
Representative readings including Portuguese lyric and epic poetry, Renaissance theater, romantic and realist novels, 20th-century symbolist verse, neorealist prose. Taught in Portuguese. Prerequisites: PORT: 3050 or PORT: 2500.

PORT: 3800 Mapping Portuguese Cultures: Portugal and Africa 3 s.h.
Study of contemporary Portuguese society and its relations with Lusophone Africa through fictional and historiographical readings. Prerequisites: PORT: 2500.

PORT: 4000 Topics in Luso-Brazilian Literature 3 s.h.
Genres, themes, movements. Taught in Portuguese. Prerequisites: PORT: 2500 or PORT: 3050. Requirements: one Portuguese or Brazilian literature course.

PORT: 4100 Topics in Luso-Brazilian Culture 3 s.h.
Comparative analysis of Brazil and Portuguese-speaking countries in Africa; colonization, independence, religion, music, language. Taught in Portuguese. Prerequisites: PORT: 3050 or PORT: 2500.

PORT: 4700 Latin American Studies Seminar 3 s.h.

PORT: 4998 Special Work 1-3 s.h.
PORT: 4999 Honors Research and Thesis 2-3 s.h.
Requirements: honors standing.

PORT: 6998 Special Work arr.
Spanish, B.A.

Requirements

The Bachelor of Arts with a major in Spanish requires a minimum of 120 s.h., including 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

The major is built on course work in Spanish peninsular and Spanish American literature, Hispanic cultures, Hispanic linguistics, and advanced language skills. The goal of the major is twofold: to study content areas related to the Spanish language, such as literature, culture, and linguistics; and to develop proficiency in the Spanish language in all four skills—speaking, listening, reading, and writing.

Course work for the major includes a core, which consists of one course from each of the four principal academic areas of the department plus a course in writing (see "Required Core" below), and seven electives, which may focus on one or more of the four principal areas or may include a broad range of courses (see "Electives" below).

All courses taken for the Spanish major must be numbered SPAN:2000 or above. A minimum of one and a maximum of four courses for the major must be numbered 2000-2999. Students may count a maximum of 6 s.h. earned in courses offered by other University of Iowa departments toward the Spanish major; see "Electives" below for guidelines. A maximum of 15 s.h. of approved transfer credit may be counted toward the major.

Advanced undergraduates preparing to earn a B.A. with honors may enroll in graduate courses with the permission of their advisor and the department chair. Ordinarily, permission is granted only to students who have completed a minimum of 30 s.h. of work for the major and whose g.p.a. in the major is 3.75 or higher.

The B.A. with a major in Spanish requires the following course work.

Hispanic Linguistics Course 3
Spanish Peninsular Literature Course 3
Spanish American Literature Course 3
Culture (Peninsular or Spanish American) Course 3
Writing Course 3
Electives 21
Total Hours 36

Required Core

Hispanic Linguistics

One of these:
SPAN:3100 Structures of Spanish: Words and Sentences 3
SPAN:3110 Spanish Sound Structure 3
SPAN:3120 Foundations in Sociolinguistics 3
SPAN:3130 Introduction to Bilingualism 3
SPAN:3150 Spanish Applied Linguistics 3
SPAN:3170 Introduction to Spanish Language Acquisition 3

Spanish Peninsular Literature

One of these:
SPAN:2400 Readings in Spanish Literature 3
SPAN:3700 Sex in the Cid 3
SPAN:3750 Literature in the Time of Cervantes 3
SPAN:3790 Hispanic Institute: Literature 3
SPAN:3820 Modern and Contemporary Spanish Literature 3
SPAN:3840 Contemporary Spanish Short Story 3
SPAN:4620 Spanish Golden Age Fiction 3
SPAN:4630 Society and Poetry: Spanish Lyric 3
SPAN:4650 Don Quijote 3
SPAN:4690 Topics in Spanish Literature 3

Spanish American Literature

One of these:
SPAN:2500 Readings in Spanish American Literature 3
SPAN:3300 Contemporary Spanish American Fiction 3
SPAN:3310 Spanish American Short Story 3
SPAN:3320 Spanish American Poetry 3
SPAN:3350 Contemporary Spanish American Literature 3
SPAN:3360 Latin American Women Writers 3
SPAN:3370 Topics in Literatures and Cultures 3
SPAN:3400 Chicano Literature and Culture 3
SPAN:4310 Cultural Identity in Caribbean Literature 3
SPAN:4330 Colonial Spanish American Literature 3
SPAN:4350 Twentieth-Century Spanish American Theater and Performance 3
SPAN:4360 The Orient in Contemporary Latin American Literature and Culture 3
SPAN:4370 Literature and Mass Culture in Latin America 3
SPAN:4380 Narratives of Underdevelopment 3
SPAN:4390 Topics in Spanish American Literature 3

Culture (Peninsular or Spanish American)

One of these:
Related courses must be approved by the director of comparative literature, international studies, or linguistics departments and programs, such as history, anthropology, at the appropriate level offered by other University of Iowa courses numbered PORT:2500 or above. Electives may include a maximum of 6 s.h. earned in Portuguese specialized language functions and purposes. They also include more advanced language courses that focus on specialized language functions and purposes. Electives may include course work in Spanish language skills as well as more advanced language courses that focus on specialized language functions and purposes. They also have a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major in order to enter the departmental honors program.

**Electives**

Seven elective courses in Spanish numbered SPAN:2000 or above

Students choose elective course work according to the following guidelines. Electives may include course work in Spanish language skills as well as more advanced language courses that focus on specialized language functions and purposes. They also include a maximum of 6 s.h. earned in Portuguese courses numbered PORT:2500 or above or in related courses at the appropriate level offered by other University of Iowa departments and programs, such as history, anthropology, comparative literature, international studies, or linguistics. Related courses must be approved by the departmental honors program.

**Writing**

One of these:

- **SPAN:2000** Spanish Language Skills: Writing
- **SPAN:2005** Writing Global Spanish
- **SPAN:3000** Writing Skills for Heritage Speakers
- **SPAN:3020** Journalistic Writing in Spanish
- **SPAN:3005** Study Abroad in the Hispanic World: Return and Reflect
- **SPAN:3060** Introductory Workshop on Creative Writing in Spanish

**B.A. with Teacher Licensure**

Spanish majors interested in earning licensure to teach at the elementary and/or secondary level must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

**Honors in the Major**

Students majoring in Spanish have the opportunity to graduate with honors in their major. Students must have a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major in order to enter the departmental honors program.
Students must request honors designation for one course they take for the major (3 s.h.), in consultation with the department honors advisor. They also must register for 3 s.h. in SPAN:4998 Honors: Research and Thesis. To complete SPAN:4998 successfully, students must submit an honors thesis they have written in Spanish and must present it orally to a faculty committee in a meeting conducted in Spanish.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

## Academic Plans

### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** Intermediate Spanish I (or equivalent second-year, first-semester competence in Spanish)

**Before the fifth semester begins:** two courses in Spanish beyond Intermediate Spanish II (or equivalent second-year, second-semester competence)

**Before the seventh semester begins:** four more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** nine courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. For more information, view the General Education Program.

Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement

Spanish majors may go on to graduate study in areas such as Spanish and Spanish American literature, Hispanic linguistics, or comparative literature. They also may combine their Spanish studies with other areas to prepare for career opportunities in international business, government, travel, journalism, or communication, where knowledge of another language and other cultures is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Portuguese, B.A.

Requirements

The Bachelor of Arts with a major in Portuguese requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

Portuguese is spoken in Portugal, Brazil, Angola, Mozambique, Cape Verde, and Guinea-Bissau. There are more speakers of Portuguese in South America than there are of Spanish. Knowledge of Portuguese and of Luso-Brazilian culture is extremely helpful for students interested in career opportunities in international business, government, or related fields.

All courses for the major in Portuguese must be numbered PORT:3100 or above. Students must complete the courses listed under "Prerequisites" below, or their equivalents, before they may begin fulfilling requirements for the major.

Prerequisites

These four courses do not count toward the 30 s.h. of work for the major.

<table>

</table>

Major Course Work

The B.A. with a major in Portuguese requires the following courses or their equivalents.

Required Courses

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT:3100</td>
<td>Composition and Conversation</td>
<td>3</td>
</tr>

<td>Introduction to Portuguese Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Portuguese courses numbered above PORT:3050; a maximum of 6 s.h. may be taken in approved courses in related areas (e.g., art, anthropology, comparative literature, geography, history, Latin American studies, linguistics, sociology, Spanish) 15

Total Hours 30

Study Abroad

The department offers a seven-week program in Salvador, Bahia, Brazil that includes courses in Portuguese language, culture, and literature. Contact International Programs Study Abroad for details.

Interested students should contact the department’s study abroad advisor. Credit earned in study abroad programs other than those listed above counts as transfer credit and is subject to the 15 s.h. maximum allowed for the major.

B.A. with Teacher Licensure

Students who plan to use a major in Portuguese as academic background for earning teacher licensure should contact the Office of Student Services about requirements.

Honors in the Major

Students majoring in Portuguese have the opportunity to graduate with honors in their major. Students must have a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major in order to enter the departmental honors program.

Students must earn 3 s.h. in PORT:4999 Honors Research and Thesis plus 3 s.h. in a course chosen in consultation with the department honors advisor. Both courses (6 s.h.) count toward the total 30 s.h. required for the major in Portuguese. Students also must write an honors thesis and present it orally to a committee of three faculty members.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University's honors program.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: competence in first-year Portuguese

Before the fifth semester begins: competence in intermediate Portuguese

Before the seventh semester begins: three or four additional courses for the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: seven courses in the major

During the eighth semester: enrollment in remaining major course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Career Advancement

Portuguese majors can pursue career opportunities in international business, government, or related fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Spanish, Minor

The minor in Spanish requires a minimum of 18 s.h. in Spanish courses, including at least 15 s.h. in Department of Spanish and Portuguese courses at the University of Iowa numbered SPAN:2000-SPAN:4998. At least 6 s.h. must be numbered SPAN:3000-SPAN:4998. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students can count course work toward the minor in study abroad programs that earn University of Iowa resident credit. At least one course for the minor must be a literature, culture, or Hispanic linguistics course.

Students also may choose to count 3 s.h. toward their Spanish minor from:

- one University of Iowa course taught in English (see “Spanish Courses Taught in English”) below, but all other courses for the minor must be taught in Spanish, including study abroad courses; or
- course work in Spanish at the University of Iowa below the major-level (such as SPAN:1502 Intermediate Spanish II); or
- transfer credit approved by the department (including credit from study abroad programs sponsored by other universities); or
- incentive credit earned from the Furthering Language Incentive Program (FLIP).

Students also may select their remaining 3 s.h. of course work for the minor from University of Iowa courses in the Department of Spanish and Portuguese numbered SPAN:2000-SPAN:4998.

Students may not count SPAN:3095 Spanish Composition and Grammar (if taken after spring 2010) or SPAN:4095 Advanced Spanish Grammar toward the Spanish minor.

Study Abroad

The department participates in study abroad programs in Spain and Latin America; most of these programs offer both summer and semester or yearlong programs. The programs in Spain include the Board of Regents Hispanic Institute program in Valladolid (summer only); USAC (University Studies Abroad Consortium) programs in Alicante, Bilbao, Madrid, and San Sebastián; and CIEE programs in Alcalá de Henares, Alicante, Barcelona, Madrid, Palma de Mallorca, and Seville.

The programs in Latin America include USAC programs in Chile (Santiago) and Costa Rica (Heredia, Puntarenas, and San Ramón); CIEE programs in Argentina (Buenos Aires), Chile (Santiago and Valparaíso), Dominican Republic (Santiago), Mexico (Guanajuato), and Peru (Lima). They also include the CIC Latin America Health, Nutrition, and Environmental Issues Program in Santiago, Dominican Republic. For information about other international study programs in Spanish, contact International Programs Study Abroad.

Participation in a number of different programs allows the department to offer study abroad opportunities that take into account a variety of student interests and needs. Credit earned in these or other study abroad programs may be applied toward the requirements for the Spanish major or minor. The amount of credit that may be accepted varies according to the program.

Interested students should contact the department’s study abroad advisor. Credit earned in study abroad programs other than those listed above counts as transfer credit and is subject to the 3 s.h. maximum allowed for the minor.

Teacher Licensure

Students who plan to use their work toward a minor in Spanish as academic background for earning teacher licensure should contact the Office of Student Services about requirements.
Portuguese, Minor

The minor in Portuguese requires a minimum of 15 s.h. in Portuguese courses, including 12 s.h. in University of Iowa courses numbered PORT:3100 or above; credit earned in a University of Iowa study abroad program also may be counted toward the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Study Abroad

The department offers a seven-week program in Salvador, Bahia, Brazil that includes courses in Portuguese language, culture, and literature. Contact International Programs Study Abroad for details.

Interested students should contact the department's study abroad advisor. Credit earned in study abroad programs other than those listed above counts as transfer credit and is subject to the 3 s.h. maximum allowed for the minor.

Teacher Licensure

Students who plan to use their work toward a minor in Portuguese as academic background for earning teacher licensure should contact the Office of Student Services about requirements.
Spanish, M.A.

Requirements

The Master of Arts program in Spanish requires 30 s.h. of graduate credit. Students choose one of two emphases: literature, which provides training in literary analysis and broad knowledge of representative works in principal areas of Hispanic literature; or linguistics, which provides training in linguistic analysis and argumentation and broad knowledge of the principal subfields of Hispanic linguistics. Applicants to the M.A. program should have completed the equivalent of the undergraduate Spanish major with a g.p.a. of at least 3.00 in course work for the major.

At least six of the ten linguistics emphasis courses must be taken in Department of Spanish and Portuguese courses numbered 5000 or above. The remaining four may be taken in Department of Spanish and Portuguese courses numbered 4000 or above or in Department of Linguistics courses.

Language Tool Requirement

M.A. students must complete the equivalent of one year of college-level study of any approved second foreign language; Portuguese is highly recommended. They may satisfy this requirement either by examination or through courses taken at the University of Iowa or another accredited university; such course work does not count toward the 30 s.h. required for the M.A.

Examinations

The M.A. comprehensive examination includes written and oral components. The written portion consists of a two-hour examination in each of three areas; an oral examination follows, usually lasting 90 minutes. The examining committee is composed of four departmental faculty members.

Students in the literature emphasis may choose to be examined in three literature areas or in two literature areas and one linguistics area. At least one literature area must be in Spanish literature and at least one must be in Spanish American literature. If three literature areas are chosen, at least one must represent literature written before 1700 (peninsular or Spanish American).

Students in the linguistics emphasis may choose to be examined in three linguistics areas or in two linguistics areas and one literature area. At least one of the linguistics areas must be in syntax or phonology. For students in both emphases, the third examination area may be a film area.

For reading lists, contact the Department of Spanish and Portuguese.

Graduate Study Loads

Maximum course registration for all graduate students is 15 s.h. of graduate-level course work in fall or spring semesters and 12 s.h. of graduate-level work in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 2 s.h. for all graduate students. Students who fail to register for 36 months must apply for readmission to the Graduate College.

Financial Support

Teaching and research assistantships are available to qualified graduate students. Usually, two years of support are available for completion of the M.A. Applications for financial support should be made directly to the Department of Spanish and Portuguese.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Spanish Creative Writing, M.F.A.

Requirements
The Master of Fine Arts in Spanish creative writing requires 48 s.h. of graduate credit earned over four semesters in residence at the University of Iowa. Students complete courses in writing, including several workshops, and other relevant course work. They also are required to participate in several outreach workshops in the community and to do a final public reading in the spring semester of their second year. Work toward the degree culminates in a creative thesis.

Students must enroll in SPAN:6210 Fiction Workshop, SPAN:6220 Poetry Workshop, and SPAN:6241 Creative Project Development during each year of residence in the program. Groups of 8-12 students read and critique each other’s work in these courses.

The M.F.A. in Spanish requires the following course work.

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN:6210</td>
<td>Fiction Workshop (taken two times)</td>
<td>3</td>

<td></td>
<td></td>
</tr>
<tr>
<td>SPAN:6299</td>
<td>Thesis: Creative Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

Thesis
Students submit their graduate thesis, a manuscript of substantial length, during their last semester, and must enroll in SPAN:6299 Thesis: Creative Writing. The thesis committee is composed of at least three members: two faculty members in the Spanish creative writing program and a third Department of Spanish and Portuguese faculty member who is not part of the creative writing program, or a faculty member from one of the related units—Center for the Book, the Creative Writing Program (Iowa Writers’ Workshop), the Comparative Literature Program, or the International Writing Program.

Graduate Study Loads
Maximum course registration for all graduate students is 15 s.h. of graduate-level course work in fall or spring semesters and 12 s.h. of graduate-level work in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 2 s.h. for all graduate students. Students who fail to register for 36 months must apply for readmission to the Graduate College.

Financial Support
Teaching and research assistantships are available to qualified graduate students. Applications for financial support should be made directly to the Department of Spanish and Portuguese.

Career Advancement
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Spanish, Ph.D.

Requirements

The Doctor of Philosophy program in Spanish requires a total of at least 72 s.h. of graduate credit. Ph.D. students choose from two programs; one is dedicated to Hispanic literatures, the other to Hispanic linguistics. The literature program trains students in textual analysis and literary history, criticism, and theory. The linguistics program provides training in linguistic analysis and theory.

The literature program requires a minimum of 66 s.h. of course work (22 courses), of which 30 s.h. may have been earned for an M.A. in Spanish at the University of Iowa or at another institution, as approved by the director of graduate studies.

The linguistics program requires a minimum of 57 s.h. of course work (19 courses), of which 30 s.h. may have been earned for an M.A. in Spanish at the University of Iowa or at another institution, as approved by the director of graduate studies.

Both programs also require 6 s.h. earned in SPAN:6999 Thesis, to complete the 72 s.h. required for the Ph.D.

Course requirements for each program are as follows.

**Literature Track**

**Courses**

Students must complete at least 36 s.h. (12 courses) beyond the master's degree (or 22 courses beyond the bachelor's degree). The following courses are required; courses taken for the M.A. may be used to meet part of this requirement.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two courses in literary theory</td>
<td>6</td>
</tr>
<tr>
<td>Three courses in Spanish literature, at least one of which must be pre-1700 literature</td>
<td>9</td>
</tr>
<tr>
<td>Three courses in Spanish American literature</td>
<td>9</td>
</tr>
<tr>
<td>One course in cinema</td>
<td>3</td>
</tr>
<tr>
<td>Two 7000-level seminars in literary studies</td>
<td>6</td>
</tr>
<tr>
<td>One literature course in another Romance language (see &quot;Language and Literature Tool Requirement&quot;)</td>
<td>3</td>
</tr>
<tr>
<td>SPAN:6999 Thesis</td>
<td>6</td>
</tr>
</tbody>
</table>

Each student's plan of study is tailored to the chosen area of emphasis and must be approved by the student's advisory committee. Ph.D. course work in Spanish (taken after the M.A.) must be numbered 6000 or above, except the Romance literature course taken for the language tool requirement.

**Language and Literature Tool Requirement**

Before the comprehensive examination, students must complete the equivalent of three years of college-level study in another Romance language and become well acquainted with its literature in limited areas of specialization; the study of Luso-Brazilian literature is highly recommended. This requirement may be satisfied only through course work at the University of Iowa or another accredited university.

Students also must complete the equivalent of one year of college-level study of another approved foreign language. Students who do not fulfill the Romance language requirement with Portuguese must use it to satisfy this requirement. Students who will write dissertations on topics in Spanish or Portuguese literature before 1700 are strongly encouraged to select Latin, Arabic, or an Amerindian language to satisfy this requirement; students should consult specialists in their field to determine which language is most appropriate. Students may take more than two languages, earning more than the 72 s.h. required for the degree, if their literary course work permits.

Students may satisfy the language tool requirement by examination or by course work at the University of Iowa or at another accredited university; language tool course work does not count toward the 72 s.h. required for the degree. Courses taken to fulfill the language tool requirements may be taken pass/nonpass. If the language tool requirements are satisfied by examination, the exam results must be documented in the student's file. Courses taken to fulfill the second Romance literature requirement must be taken on a graded basis and may be counted toward the degree.

**Linguistics Track**

**Courses**

Students must earn at least 27 s.h. (9 courses) beyond the master's degree (or 19 courses beyond the bachelor's degree). The following courses are required; courses taken for the M.A. may be used to meet part of this requirement.

<table>
<thead>
<tr>

<td>3</td>
<td></td>
</tr>
</tbody>
</table>

The additional course in the dissertation research area (phonology, syntax, language acquisition, language variation) must be offered by the Department of Spanish and Portuguese or the Department of Linguistics.

Each student's plan of study is tailored to the chosen area of emphasis and must be approved by the student's advisory committee. Ph.D. course work in Spanish (taken after the M.A.) must be numbered 6000 or above, except for some courses offered by the Department of Linguistics and the required third-year-level course in Portuguese (see "Linguistics Track: Language Tool and Additional Requirements" below).

**Language Tool and Additional Requirements**

Students in the linguistics track must complete the equivalent of three years of college-level study of Portuguese, and
the equivalent of one year of college-level study of each of two other languages. For students specializing in historical linguistics, one of those two languages must be Latin.

Students may satisfy the language tool requirement by examination or by course work at the University of Iowa or at another accredited university. Courses taken to fulfill the language tool requirements may be taken pass/nonpass. If the language tool requirements are satisfied by examination, the exam results must be documented in the student’s file. The language tool course work does not count toward the 57 s.h. of pre-thesis course work required for the degree, except the third-year-level course work in Portuguese, which may be counted with the faculty advisor’s approval if the student took it for a grade.

Students in the linguistics track also must write two extended research papers and give two colloquium presentations based on these papers. The first paper must be in an area distinct from the intended dissertation research; it must be approved by the student’s advisory committee by the end of fall semester of the second year of Ph.D. course work in order for the student to continue in the program. The second paper must be in the dissertation research area, must be of publishable quality, and must be approved by the student’s advisory committee no later than the beginning of the semester in which the student takes the comprehensive exam.

**Comprehensive Examination**

The purpose of the Ph.D. comprehensive examination is to determine whether the student has gained sufficient breadth and depth of research knowledge in Hispanic literatures or linguistics to enter the profession as a teacher-scholar. The examining committee is composed of five departmental faculty members or four departmental faculty members and a fifth faculty member from a related department.

**Literature Track**

The literature track's comprehensive exam has written and oral components.

The written component includes four elements: two broad areas, one specialized area, and one article. Each element is supervised by a different committee member.

The two broad areas comprise lists of approximately 40 readings, with each list covering an established historical period that is tied to the student's Ph.D. course work (one Peninsular, the other Spanish American). The lists must be approved by the supervisor before distribution to the rest of the committee. Each area is evaluated with a three-hour written exam, which is discussed during the student’s oral exam.

The specialized area’s reading list includes 25-40 secondary works that define the area and are related to the dissertation. The area is examined via a 15-20 page position paper, which is a critical synthesis of the secondary readings and normally becomes part of the dissertation introduction. The list and the paper must be written in consultation with a faculty supervisor and must be approved by the supervisor at least one month before the oral exam.

The article is a 20-25 page research essay, usually a revised version of a paper written for one of the two required seminars numbered 7000 or above. The article should be written in consultation with the professor who taught the seminar and with a faculty supervisor; if the professor who taught the course also supervises the area, the student must consult with at least one more professor. The article must be approved by the supervisor at least one month before the oral exam.

The oral exam lasts two hours, with approximately half devoted to the two broad areas and half to the article and the position paper.

**Linguistics Track**

The comprehensive exam for the linguistics track includes written and oral components. The written component comprises two weekend take-home exams consisting of linguistic analysis in two subdisciplines distinct from the subdiscipline of the intended dissertation research. The two-hour oral exam consists of one hour devoted to discussion of the second research paper and the other hour devoted to follow-up questions on the written exams.

**Dissertation**

After the Ph.D. comprehensive examination is completed, the candidate submits a dissertation prospectus for the dissertation committee’s approval. The dissertation committee is composed of five faculty members; at least four committee members must be from the Department of Spanish and Portuguese.

All doctoral dissertations must be submitted to the Graduate College in electronic format.

The dissertation, complete and in final form, must be submitted in the required electronic format at the Graduate College office by the first-deposit deadline date of the session in which the degree is to be conferred. The final deposit of the approved dissertation in electronic format must be deposited at the office by the appropriate deadline in the student’s graduation semester.

Students must adhere to the Graduate College regulations regarding preparation of the dissertation copy; consult the Graduate College. For information on the dissertation and final examinations, see the Manual of Rules and Regulations of the Graduate College.

**Graduate Study Loads**

Maximum course registration for all graduate students is 15 s.h. of graduate-level course work in fall or spring semesters and 12 s.h. of graduate-level work in summer sessions. Students with one-quarter-time and one-third-time teaching assistantships are permitted to register for the maximum study loads. Students who hold one-half-time assistantships are permitted to register for a maximum of 12 s.h. in fall and spring semesters and 6 s.h. in summer sessions. Students must have approval from the Graduate College to register for additional semester hours.

The minimum course registration is 2 s.h. for all graduate students. Doctoral students who have passed the comprehensive examinations typically register for 2 s.h. of thesis work to satisfy the minimum registration requirement. Students who fail to register for 36 months must apply for readmission to the Graduate College.

**Financial Support**

Teaching and research assistantships are available to qualified graduate students. Usually, four years of support are available beyond the receipt of the M.A. for the Ph.D. Applications for
financial support should be made directly to the Department of Spanish and Portuguese.

**Career Advancement**

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Statistics and Actuarial Science

Chair
• Joseph B. Lang

Director of Graduate Studies
• Dale Zimmerman

Director of Undergraduate Studies: Actuarial Science
• Elias Shiu

Director of Undergraduate Studies: Statistics
• R.P. Russo

Undergraduate majors: B.S. in actuarial science; B.S. in statistics

Undergraduate minor: statistics

Graduate degrees: M.S. in actuarial science; M.S. in statistics; Ph.D. in statistics

Faculty: https://stat.uiowa.edu/people
Website: https://stat.uiowa.edu/

The Department of Statistics and Actuarial Science offers undergraduate majors, an undergraduate minor, and graduate degree programs. The department partners with the Departments of Computer Science and Mathematics to offer the undergraduate Certificate in Large Data Analysis [p. 619] and with the Departments of Geographical and Sustainability Sciences, Political Science, and Sociology to offer the Certificate in Social Science Analytics [p. 812]. It offers courses that undergraduate students in all majors may use to satisfy the General Education Program [p. 437] Quantitative or Formal Reasoning requirement.

Probability and statistics are important scientific disciplines essential to all fields of study that rely on information obtained from data. In a world bombarded with numerical information, informed decisions rely on the ability to separate fact from fiction by applying valid statistical analyses and visualizations. Statisticians can provide crucial guidance in determining what information is reliable and which predictions may be trusted. They often help search for clues to the solution of a scientific mystery and sometimes keep investigators from being misled by false impressions.

The work of a statistician may range from the theoretical (developing new methodologies and statistical theory) to the applied (working with scientists and decision makers to collect, analyze, and interpret data). Regardless of the areas in which they work, statisticians need strong mathematical, computational, and communication skills. Because uncertainty and data arise in many settings, statisticians have the opportunity to work on a variety of projects in industry, education, government, and research. Thousands of statisticians work in medicine, law, agriculture, public policy, marketing, manufacturing, engineering, and other fields in the social and natural sciences. The diversity of applications is an exciting aspect of the field and is one reason why the demand for well-trained statisticians continues to be strong.

An actuary is a business executive, professionally trained in the mathematical sciences. Actuaries specialize in the evaluation of financial risk—most often in the context of life, health, and casualty insurance, where they design, analyze, and refine varied programs to meet the insurance needs of society. Many actuaries are employed by insurance companies, where they have responsibilities for all phases of the development and maintenance of their company’s products. They have considerable influence on the financial soundness of their company through work in pricing insurance policies and in compiling data for financial statements.

Many actuaries are employed as consultants. Their actuarial services are used by smaller insurance companies and by individual employers who need actuarial guidance in establishing insurance and retirement programs for their employees. A growing number of actuaries work in the areas of asset/liability management and risk management. Some of these actuaries are employed by investment and consulting firms; others are employed by insurance companies.

Actuaries have been called financial architects and social mathematicians, because their combined analytical and business skills help solve a growing variety of financial and social problems. The actuarial profession is a demanding yet rewarding career choice.

Graduates of the Department of Statistics and Actuarial Science have enjoyed great success in finding employment in professional fields at all levels.

Related Certificate: Large Data Analysis

The Certificate in Large Data Analysis [p. 619] can be earned in addition to a B.S. degree in statistics. The certificate focuses on handling, processing, and extracting information from large data sets. As computers have become faster and smaller, more information can be gathered and used for a large range of applications, such as for weather forecasting, identifying people and trends utilizing Facebook or other social media, understanding the genome, and searching for disease causes and cures, as well as many other areas of study. The certificate is interdisciplinary, requiring courses from three areas of study—computer science, mathematics, and statistics. Computer science teaches students how to handle large amounts of data and how to implement the algorithms to process them, while statistics helps students to understand what can and cannot be legitimately inferred from the data. Mathematics focuses on algorithms and methods for connecting these important areas of data collection.

Related Certificate: Social Science Analytics

The Department of Statistics and Actuarial Science collaborates with the Departments of Geographical and Sustainability Sciences, Political Science, and Sociology to offer the undergraduate program in social science analytics; see Social Science Analytics [p. 812] in the Catalog.

Programs

Undergraduate Programs of Study

 Majors
• Major in Statistics (Bachelor of Science) [p. 881]
• Major in Actuarial Science (Bachelor of Science) [p. 886]
Minor
• Minor in Statistics [p. 888]

Graduate Programs of Study
Majors
• Master of Science in Statistics [p. 889]
• Master of Science in Actuarial Science [p. 891]
• Doctor of Philosophy in Statistics [p. 892]

Facilities
The Department of Statistics and Actuarial Science is housed in Schaeffer Hall, adjacent to Old Capitol, a National Historic Landmark and the center of campus. The department operates two computer labs in Schaeffer Hall. One, which also is used as an electronic classroom, contains 28 Windows PCs. The second houses 18 high-end UNIX workstations. Students use these labs for class work and research.

Courses
Undergraduate Duplication and Regression Policy
Undergraduate students should be aware of the duplication and regression policies concerning the following courses.

Students may earn credit for only two of these:

STAT:1010 Statistics and Society,
STAT:1020 Elementary Statistics and Inference (same as PSQF:1020),
STAT:1030 Statistics for Business, and

Credit for STAT:1010 Statistics and Society may be earned only if the course is taken before any of these:

STAT:1020 Elementary Statistics and Inference (same as PSQF:1020),
STAT:1030 Statistics for Business, and

Students may receive credit for only one course from each of these pairs:

STAT:2010 Statistical Methods and Computing and
STAT:4200 Statistical Methods and Computing,
STAT:3100 Introduction to Mathematical Statistics I and
STAT:3120 Probability and Statistics, and
STAT:3510 Biostatistics and STAT:4143 Introduction to Statistical Methods.

Students may not take STAT:3101 Introduction to Mathematical Statistics II and STAT:4101 Mathematical Statistics II at the same time and get credit for both (nor go back to STAT:3101 after taking STAT:4101).

Statistics Courses
STAT:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

STAT:1010 Statistics and Society 3 s.h.
Statistical ideas and their relevance to public policy, business, and the social, health, and physical sciences; focus on critical approach to statistical evidence. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning.

STAT:1020 Elementary Statistics and Inference 3 s.h.
Graphing techniques for presenting data, descriptive statistics, correlation, regression, prediction; logic of statistical inference, elementary probability models, estimation and tests of significance. Requirements: one year of high school algebra or MATH:0100. GE: Quantitative or Formal Reasoning. Same as PSQF:1020.

STAT:1030 Statistics for Business 4 s.h.
Descriptive statistics, graphical presentation, elementary probability, estimation and testing, regression, correlation; statistical computer packages. GE: Quantitative or Formal Reasoning.

STAT:2010 Statistical Methods and Computing 3 s.h.
Methods of data description and analysis using SAS; descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Recommendations: undergraduate standing. GE: Quantitative or Formal Reasoning.

STAT:2020 Probability and Statistics for the Engineering and Physical Sciences 3 s.h.
Probability, random variables, important discrete and continuous distributions, joint distributions, transformations of random variables, descriptive statistics, point and interval estimation, tests of hypotheses, regression. Prerequisites: MATH:1560 or MATH:1860.

STAT:3100 Introduction to Mathematical Statistics I 3 s.h.
Descriptive statistics, probability, discrete and continuous distributions, sampling, sampling distributions. Prerequisites: MATH:1860 or MATH:1560. Same as IGPI:3100.

STAT:3101 Introduction to Mathematical Statistics II 3 s.h.
Estimation, testing statistical hypotheses, linear models, multivariate distributions, nonparametric methods. Prerequisites: STAT:3100. Same as IGPI:3101.

STAT:3120 Probability and Statistics 4 s.h.
Models, discrete and continuous random variables and their distributions, estimation of parameters, testing statistical hypotheses. Prerequisites: MATH:1560 or MATH:1860. Same as IGPI:3120.

STAT:3200 Applied Linear Regression 3 s.h.
Regression analysis with focus on applications; model formulation, checking, selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; hands-on data analysis with computer software. Prerequisites: STAT:2020 or STAT:2010. Same as IE:3760, IGPI:3200.

STAT:3210 Experimental Design and Analysis 3 s.h.
Single- and multifactor experiments; analysis of variance; multiple comparisons; contrasts; diagnostics; fixed, random, and mixed effects models; designs with blocking and/or nesting; two-level factorials and fractions thereof; use of statistical computing packages. Prerequisites: STAT:3200.
STAT:3510 Biostatistics 3 s.h.
Statistical concepts and methods for the biological sciences; descriptive statistics, elementary probability, sampling distributions, confidence intervals, parametric and nonparametric methods, one-way ANOVA, correlation and regression, categorical data. Requirements: MATH:0100 or MATH:1005 or ALEKS score of 30 or higher. Same as IGPI:3510.

STAT:3620 Quality Control 3 s.h.
Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and industrial experimentation; modern management aspects of quality assurance systems. Offered fall semesters. Prerequisites: STAT:2020. Same as CEE:3142, IE:3600.

STAT:4100 Mathematical Statistics I 3 s.h.
Probability, conditional probability, random variables, distribution and density functions, joint and conditional distributions, various families of discrete and continuous distributions, mgf technique for sums, convergence in distribution, convergence in probability, central limit theorem. Prerequisites: MATH:2850 and MATH:2700. Same as IGPI:4100.

STAT:4101 Mathematical Statistics II 3 s.h.
Transformations, order statistics, point estimation, sufficient statistics, Rao-Blackwell Theorem, delta method, confidence intervals, likelihood ratio tests, applications. Prerequisites: STAT:4100. Same as IGPI:4101.

STAT:4143 Introduction to Statistical Methods 3 s.h.
Analysis, interpretation of research data; descriptive statistics; introduction to probability, sampling theory, statistical inference (binomial, normal distribution, t-distribution models); linear correlation, regression. Same as PSQF:4143.

STAT:4200 Statistical Methods and Computing 3 s.h.
Methods of data description and analysis using SAS; descriptive statistics, graphical presentation, estimation, hypothesis testing, sample size, power; emphasis on learning statistical methods and concepts through hands-on experience with real data. Recommendations: graduate standing in non-statistics or less quantitative major. Same as IGPI:4200.

STAT:4510 Regression, Time Series, and Forecasting 3 s.h.
Regression analysis, forecasting, time series methods; use of statistical computing packages. Prerequisites: STAT:4101 or STAT:5101.

STAT:4520 Bayesian Statistics 3 s.h.
Bayesian statistical analysis, with focus on applications; Bayesian and frequentist methods compared; Bayesian model specification, choice of priors, computational methods; hands-on Bayesian data analysis using appropriate software; interpretation and presentation of analysis results. Prerequisites: STAT:3200 and (STAT:3101 or STAT:4101 or STAT:3120). Same as IGPI:4522, PSQF:4520.

STAT:4540 Statistical Learning 3 s.h.
Introduction to supervised and unsupervised statistical learning, with a focus on regression, classification, and clustering; methods will be applied to real data using appropriate software; supervised learning topics include linear and nonlinear (e.g., logistic) regression, linear discriminant analysis, cross-validation, bootstrapping, model selection, and regularization methods (e.g., ridge and lasso); generalized additive and spline models, tree-based methods, random forests and boosting, and support-vector machines; unsupervised learning topics include principal components and clustering. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to programming and/or software, such as R, SAS, and Matlab. Same as IGPI:4540.

STAT:4580 Data Visualization and Data Technologies 3 s.h.
Introduction to common techniques for visualizing univariate and multivariate data, data summaries, and modeling results; students learn to create and interpret these visualizations, and assess effectiveness of different visualizations based on an understanding of human perception and statistical thinking; data technologies for obtaining and preparing data for visualization and further analysis. Requirements: an introductory statistics course and a regression course. Recommendations: prior exposure to basic use of statistical programming software (e.g., R or SAS), as obtained from a regression course, strongly recommended. Same as IGPI:4580.

STAT:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of Big Data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 or ENGR:2730) and (MATH:2700 or MATH:2550) and (STAT:2010 or STAT:2020). Same as CS:4740, MATH:4740.

STAT:5090 ALPHA Seminar 1 s.h.
Resources available to students, program requirements, tips for academic success, professional statistical organizations, library and career center resources, statistical computing, scientific document preparation, history of statistics. Requirements: graduate standing in statistics.

STAT:5100 Statistical Inference I 3 s.h.
Review of probability, distribution theory (multiple random variables, moment-generating functions, transformations, conditional distributions), sampling distributions, order statistics, convergence concepts, generating random samples. Prerequisites: MATH:2850 and STAT:3101.

STAT:5101 Statistical Inference II 3 s.h.
Continuation of STAT:5100; principles of data reduction, point estimation theory (MLE, Bayes, UMVU), hypothesis testing, interval estimation, decision theory, asymptotic evaluations. Prerequisites: STAT:5100.

STAT:5120 Mathematical Methods for Statistics 3 s.h.
Real numbers, point set theory, limit points, limits, metric spaces, continuity, sequences and series, Taylor series (multivariate), uniform convergence, Riemann-Stieltjes integrals. Requirements: statistics graduate standing.
STAT:5200 Applied Statistics I  4 s.h.
Introduction to computing statistics and statistical packages, descriptive statistics, basic inferential methods (confidence intervals, chi-square tests); linear models (regression and ANOVA models—specification and assumptions, fitting, diagnostics, selection, testing, interpretation). Prerequisites: STAT:3101. Corequisites: STAT:4100 or STAT:5100. Requirements: facility with matrix algebra. Same as IGPI:6511.

STAT:5201 Applied Statistics II  3 s.h.
Design of experiments and analysis of designed experiments; models for fixed and random effects; mixed models; design and analysis of complex plans; sample-size methods. Prerequisites: STAT:5200. Recommendations: prior exposure to SAS software.

STAT:5400 Computing in Statistics  3 s.h.
R; database management; graphical techniques; importing graphics into word-processing documents (e.g., LaTeX); creating reports in LaTeX; SAS; simulation methods (Monte Carlo studies, bootstrap, etc.). Prerequisites: CS:1210 and STAT:3200 and (STAT:3120 or STAT:3101 or STAT:4101). Corequisites: STAT:5100 and STAT:5200 if not already completed. Same as IGPI:5400.

STAT:5610 Regression Modeling and ANOVA in the Health Sciences  3 s.h.
Continuation of BIOS:4120; correlation, simple and multiple linear regression, confounding, interactions, model selection, single and multiple factor ANOVA (analysis of variance) models, contrasts, multiple comparisons, nested and block designs, and an introduction to mixed models; designed for non-biostatistics majors. Offered spring semesters and summer sessions. Prerequisites: BIOS:4120. Same as BIOS:5120.

STAT:5810 Research Data Management  3 s.h.
Introduction to data management techniques and problems encountered in gathering and processing data from biomedical investigations; introduction to SAS, techniques taught in SAS; designed for non-biostatistics majors. Offered fall and spring semesters. Recommendations: prior programming experience with C, C++, Python, Java, or other. Same as BIOS:5310.

STAT:6220 Statistical Consulting  3 s.h.
Realistic supervised data analysis experiences, including statistical packages, statistical graphics, writing statistical reports, dealing with complex or messy data. Offered spring semesters. Prerequisites: (STAT:3200 and STAT:3210) or (STAT:5201 and STAT:5200). Requirements: for undergraduate majors — major g.p.a. of 3.00 or above, and grades of B or higher in STAT:3200 and STAT:3210.

STAT:6300 Probability and Stochastic Processes I  3 s.h.
Conditional expectations; Markov chains, including random walks and gambler’s ruin; classification of states; stationary distributions; branching processes; Poisson processes; Brownian motion. Prerequisites: STAT:4100.

STAT:6301 Probability and Stochastic Processes II  3 s.h.
Markov chains with continuous state space, Martingales, random walks, Brownian motion and other continuous-time Markov chains, simulation methods. Prerequisites: STAT:6300.

STAT:6510 Applied Generalized Regression  3 s.h.
Applications of semiparametric models, generalized linear models, nonlinear normal errors models, correlated response models; use of statistical packages, especially SAS. Requirements: introductory statistics and applied linear models. Same as IGPI:6511.

STAT:6513 Intermediate Statistical Methods  4 s.h.
Foundation for more advanced applied courses; logic of statistical inference, chi-square, and other tests of statistical hypotheses; small sample error theory, interval estimates, introduction to analysis of variance, selected nonparametric methods. Requirements: for PSQF:6243 -- PSQF:4143; for STAT:6513 -- STAT:4143. Same as PSQF:6243.

STAT:6514 Correlation and Regression  4 s.h.
Correlation techniques; selected bivariate procedures, multiple, partial, curvilinear correlation; multiple linear regression; sampling theory applied to regression analysis and correlation coefficients; simple causal models. Requirements: for PSQF:6244 -- PSQF:6243; for STAT:6514 -- STAT:6513. Same as PSQF:6244.

STAT:6516 Design of Experiments  4 s.h.

STAT:6530 Environmental and Spatial Statistics  3 s.h.
Methods for sampling environmental populations, sampling design, trend detection and estimation, geostatistics, kriging, variogram estimation, lattice data analysis, analysis of spatial point patterns. Prerequisites: STAT:4101 and STAT:3200. Same as IGPI:6530.

STAT:6540 Applied Multivariate Analysis  3 s.h.

STAT:6547 Nonparametric Statistical Methods  3 s.h.
Selected nonparametric methods; one- and two-sample location tests and estimation methods, measures of association, analyses of variance; emphasis on relationships to classical parametric procedures. Same as PSQF:6247.

STAT:6550 Introductory Longitudinal Data Analysis  3 s.h.
Introduction to statistical models and estimation methods for outcome variables (normal and non-normal) clustered or measured repeatedly in time or space; focus on applications and computer software methods for ANOVA based methods, hierarchical linear models, linear mixed models, correlated regression models, generalized estimating equations, and generalized linear mixed models. Offered fall semesters. Prerequisites: BIOS:5120 or STAT:3200. Same as BIOS:6310.

STAT:6560 Applied Time Series Analysis  3 s.h.
General stationary, nonstationary models, autocovariance autocorrelation functions; stationary, nonstationary autoregressive integrated moving average models; identification, estimation, forecasting in linear models; use of statistical computer packages. Offered spring semesters. Prerequisites: (STAT:5200 or STAT:3200) and STAT:3101.

STAT:6970 Topics in Statistics  3 s.h.

STAT:7100 Advanced Inference I  3 s.h.
Concepts of convergence, asymptotic methods including the delta method, sufficiency, asymptotic efficiency, Fisher information and information bounds for estimation, maximum likelihood estimation, the EM-algorithm, Bayes estimation, decision theory. Prerequisites: STAT:5101 and STAT:5120.
STAT:7101 Advanced Inference II 3 s.h.
Hypothesis testing, asymptotics of the likelihood ratio test, asymptotic efficiency, statistical functionals, robustness, bootstrap and jackknife, estimation with dependent data. Prerequisites: STAT:7100.

STAT:7200 Linear Models 4 s.h.
Linear spaces and selected topics in matrix algebra, multivariate normal distribution and distributions of quadratic forms, full-rank and non-full-rank linear models, estimability, least squares and best linear unbiased estimator, interval estimation, hypothesis testing, and mixed models, best linear unbiased prediction, variance component estimation. Prerequisites: STAT:5101 and STAT:5200 and STAT:5201.

STAT:7300 Foundations of Probability I 3 s.h.
Probability theory, with emphasis on constructing rigorous proofs; measure spaces, measurable functions, random variables and induced measures, distribution functions, Lebesgue integral, product measure and independence, Borel Cantelli lemma, modes of convergence. Prerequisites: STAT:5120.

STAT:7301 Foundations of Probability II 3 s.h.
Laws of large numbers, characteristic functions and properties, central limit theorem, Radon-Nikodym derivatives, conditional expected value and martingales. Prerequisites: STAT:7300.

STAT:7390 Seminar: Probability arr.

STAT:7400 Computer Intensive Statistics 3 s.h.
Computer arithmetic; random variate generation; numerical optimization; numerical linear algebra; smoothing techniques; bootstrap methods; cross-validation; MCMC; EM and related algorithms; other topics per student/instructor interests. Prerequisites: (BIOS:5710 or STAT:5200) and STAT:3101. Requirements: proficiency in Fortran or C or C++ or Java. Same as IGPI:7400.

STAT:7510 Analysis of Categorical Data 3 s.h.
Models for discrete data, distribution theory, maximum likelihood and weighted least squares estimation for categorical data, tests of fit, models selection. Offered spring semesters. Prerequisites: (BIOS:5720 or STAT:5200) and (STAT:5101 or STAT:4101). Same as BIOS:7510. Requirements: proficiency in Fortran or C or C++ or Java. Same as IGPI:7400.

STAT:7520 Bayesian Analysis 3 s.h.

STAT:7560 Time Series Analysis 3 s.h.
Stationary time series, ARIMA models, spectral representation, linear prediction inference for the spectrum, multivariate time series, state space models and processes, nonlinear time series. Prerequisites: STAT:4101 and STAT:6560.

ACTS:1001 Introductory Seminar on Actuarial Science 1 s.h.
Introduction to actuarial science; U.S. actuarial organizations and actuarial qualification process; program requirements and tips for academic success; career center, actuarial club, and internships; actuarial career; ethics; communication; introduction to actuarial computing. Requirements: actuarial science interest major and first-year standing.

ACTS:3080 Mathematics of Finance I 3 s.h.
Mathematics of compound interest, annuities certain, amortization schedules, yield rates, sinking funds, and bonds. Prerequisites: STAT:3100 with a minimum grade of B-. Requirements: meet the prerequisite or have graduate standing.

ACTS:3085 Introduction to Mathematics of Finance 4 s.h.
Mathematics of compound interest, including annuities certain, amortization schedules, yield rates, sinking funds, bonds, introduction to financial derivatives. Offered spring semesters. Prerequisites: STAT:3100 with a minimum grade of B-.

ACTS:3110 Actuarial Exam P Preparation 1 s.h.
Preparation for the Society of Actuaries exam P.

ACTS:3210 Actuarial Exam FM Preparation 1 s.h.
Preparation for the Society of Actuaries exam FM. Corequisites: ACTS:3080, if not taken as a prerequisite.

ACTS:4110 Actuarial Exam MLC Preparation 1 s.h.

ACTS:4130 Quantitative Methods for Actuaries 3 s.h.

ACTS:4160 Topics in Actuarial Science 1 s.h.
Selected topics in actuarial science, financial mathematics, and quantitative risk management not covered in other courses. Corequisites: ACTS:3080.

ACTS:4180 Life Contingencies I 3 s.h.
Life annuities, net and gross premiums, net and gross premium reserves, modified reserve methods, universal life insurance, and Markov chains. Offered fall semesters. Prerequisites: (ACTS:3085 or ACTS:3080) and (STAT:5100 or STAT:4100) and ACTS:4130.

ACTS:4280 Life Contingencies II 3 s.h.
Multi-life models, multiple-decrement models, continuous-time Markov chain models, yield curves, profit testing, and profit measures. Offered fall semesters. Prerequisites: ACTS:4180 with a minimum grade of C+.
ACTS:4380 Mathematics of Finance II 3 s.h.
Derivatives markets, options on stocks and interest rates, and financial applications. Prerequisites: ACTS:4130 with a minimum grade of C+ and (ACTS:3080 with a minimum grade of C+ or ACTS:3085 with a minimum grade of C+) and (STAT:4100 with a minimum grade of C+ or STAT:5100 with a minimum grade of C+).

ACTS:4990 Readings in Actuarial Science arr.

ACTS:6160 Topics in Actuarial Science arr.
Selected topics in actuarial science, financial mathematics, and quantitative risk management not covered in other courses; a required course for all final-year M.S. students in actuarial science. Prerequisites: ACTS:4180 with a minimum grade of C+ and ACTS:4380 with a minimum grade of C+.

ACTS:6480 Loss Distributions 3 s.h.
Severity, frequency, and aggregate models and their modifications; risk measures; construction of empirical models. Offered spring semesters. Prerequisites: STAT:5101 or STAT:4101. Corequisites: ACTS:6580.

ACTS:6580 Credibility and Survival Analysis 3 s.h.

ACTS:6990 Readings in Actuarial Science arr.
Supervised reading and research in actuarial science, financial mathematics, or quantitative risk management.

Selected topics in actuarial science, financial mathematics, and quantitative risk management not covered in other courses.
Statistics, B.S.

**Requirements**

The Bachelor of Science with a major in statistics requires a minimum of 120 s.h., including at least 47 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

Students complete 10 core courses that provide essential instruction in statistical methods, applications, and theory. In addition, they concentrate on an area of interest by completing four or five courses in one of the major's three emphasis tracks: statistics in business, industry, government, and research; statistical computing and data science; or mathematical statistics.

The B.S. with a major in statistics requires the following course work.

**Core Courses**

All students complete the following 10 core courses. The department recommends that well-prepared students who elect the mathematical statistics track take STAT:4100 Mathematical Statistics I and STAT:4101 Mathematical Statistics II in place of STAT:3100 Introduction to Mathematical Statistics I and STAT:3101 Introduction to Mathematical Statistics II to satisfy the core requirement in statistics.

**Computer Science**

This course:

- CS:1210 Computer Science I: Fundamentals 4

**Mathematics**

All of these:

- MATH:1850 & MATH:1860 Calculus I-II 8
- MATH:2700 Introduction to Linear Algebra 4
- MATH:2850 Calculus III 4

**Statistics**

All of these:

- STAT:2010 Statistical Methods and Computing 3
- STAT:3100-3101 Introduction to Mathematical Statistics I-II 6
- STAT:3200 Applied Linear Regression 3
- STAT:3210 Experimental Design and Analysis 3

**Emphasis Tracks**

Students choose one of the following tracks and must complete four or five courses in that track.

**Statistics in Business, Industry, Government and Research Track**

The statistics in business, industry, government, and research track emphasizes statistical applications and data analysis. It is appropriate for students interested in careers as applied statisticians.

**Statistical Computing and Data Science Track**

The statistical computing and data science track emphasizes statistical applications and requires additional course work in computing. It prepares students for statistical work that requires computing expertise for data management, analysis, and reporting.

All of these:

**Mathematical Statistics Track**

The mathematical statistics track provides a solid foundation in statistical theory and applications. It requires additional course work in mathematics and is good preparation for graduate study in statistics.
Students who use STAT:4100 Mathematical Statistics I and STAT:4101 Mathematical Statistics II to satisfy the core requirements may not use those courses to satisfy the track requirement.

**Honors in the Major**

Students majoring in statistics have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.40 in their major and a cumulative University of Iowa g.p.a. of at least 3.33.

To graduate with honors in the statistics major, students must complete an honors project or a suitable alternative. Statistics honors students should consult with the statistics honors advisor.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

**Joint B.S./M.S. in Statistics**

The joint Bachelor of Science/Master of Science in statistics is for eligible students who seek to complete both the B.S. and the M.S. at the University of Iowa in five years. Students in the joint program must complete all requirements for each degree. A traditional M.S. in statistics requires completion of 32 s.h. of graduate-level course work. The B.S./M.S. program permits students to count 12 s.h. of credit (four courses) toward the requirements for both degrees. To complete the M.S., an additional 20 s.h. of course work is required. The four courses that count toward both degrees must be taken during the fourth year of undergraduate study, after admission to the joint program, and must satisfy degree requirements of both the B.S. and the M.S. in statistics.

**Joint B.S./M.P.H. with Quantitative Methods Subprogram**

Bachelor of Science students majoring in statistics who are interested in earning a Master of Public Health degree with quantitative methods (biostatistics) subprogram may apply to the joint B.S./M.P.H. program offered by the College of Liberal Arts and Sciences and the College of Public Health. The program permits students to count 12 s.h. of credit toward the requirements for both degrees, enabling them to begin the study of public health before they complete the bachelor’s degree. For information about the public health program, see “Quantitative Methods Subprogram” in the Master of Public Health [p. 444] section of the Catalog.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Much of the course work in statistics is sequential, so students must begin requirements for the major as soon as possible. Individual study plans must be made carefully. Students who first enroll for a spring semester must consult their advisor to confirm a four-year plan.

Courses must be taken in sequence, so students must begin work early.

**Before the fifth semester begins:** at least four courses in the major, including MATH:1850 Calculus I, MATH:1860 Calculus II, and STAT:2010 Statistical Methods and Computing

**Before the seventh semester begins:** seven or eight courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** nine or ten courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Sample Plans of Study

| Hours | 15 |

| Total Hours | 119-122 |

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. (p. 437)

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Elective course 3
Hours 15
Total Hours 121-123

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 437]

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Career Advancement

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

When students graduate, they will be prepared to fill entry-level positions as statisticians or go on to graduate school. An advisor assists students in locating internship opportunities as well as the best-fitting graduate programs.

To learn more about job opportunities, see Careers in Statistics on the American Statistical Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Actuarial Science, B.S.

Due to the demanding nature of the actuarial science major and the difficulty of the professional examinations, the department maintains a selective admission program for actuarial science. Students must apply and be admitted to the major.

Students interested in becoming actuaries should declare an interest in actuarial science as their major when they enter the University of Iowa. Ordinarily, students apply for admission to the actuarial science major in the fall semester of their sophomore year, after they have taken MATH:3770 Fundamental Properties of Spaces and Functions I or MATH:2850 Calculus III, and STAT:3100 Introduction to Mathematical Statistics I. Students should apply no later than the end of the spring semester of their junior year.

Students admitted to the actuarial science major usually have completed at least 40 s.h. at the University or at another postsecondary institution, including a three- or four-course calculus sequence, a course in linear algebra, and a calculus-based course in probability and statistics. The admission decision is based on a student's performance in these courses and other courses relevant to success in the major. The student's grades from semester to semester also are considered. ACT or SAT scores are considered in evaluating transfer students. Factors such as work ethic, enthusiasm, and commitment also may be considered. Students who do well in the prerequisite math courses tend to be the most successful in actuarial science.

For application forms and more information about selective admission, contact the Department of Statistics and Actuarial Science.

Requirements

The Bachelor of Science with a major in actuarial science requires a minimum of 120 s.h., including 59 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 437).

The program prepares students for careers as actuaries. It also helps them learn material that is included in professional examinations administered by professional organizations such as the Society of Actuaries and the Casualty Actuarial Society.

Students take a variety of actuarial science courses. They prepare for business aspects of the actuarial profession by studying accounting, law, finance, insurance, and economics. They also complete courses that enhance important communication skills, such as writing and speaking, as part of their General Education Program requirements.

Courses Required for the Major

The B.S. with a major in actuarial science requires the following course work. Permission to substitute course work taken at another institution for required courses at the University of Iowa is decided case by case; students should contact the department.

Computer Science

</tr>
<tr>
<td>STAT:4100-STAT:4101</td>
<td>Mathematical Statistics I-II</td>
<td>6</td>
</tr>
</tbody>
</table>

In exceptional cases, the advisor may grant permission to waive STAT:3100 Introduction to Mathematical Statistics I and/ or STAT:3101 Introduction to Mathematical Statistics II.

Students may choose to complete ACTS:6480 Loss Distributions and ACTS:6580 Credibility and Survival Analysis (both courses) instead of ACTS:4280 Life Contingencies II, except honors students, who must complete all three courses.

Honors in the Major

Students majoring in actuarial science have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.40 in their major and a cumulative University of Iowa g.p.a. of at least 3.33.

To graduate with honors in the actuarial science major, students must complete the following five courses in addition to all courses required for the major.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTS:6480</td>
<td>Loss Distributions</td>
<td>3</td>
</tr>
<tr>
<td>ACTS:6580</td>
<td>Credibility and Survival Analysis</td>
<td>3</td>
</tr>
<tr>
<td>STAT:4510</td>
<td>Regression, Time Series, and Forecasting (or STAT:3200 and STAT:6560)</td>
<td>3</td>
</tr>
<tr>
<td>MATH:3600</td>
<td>Introduction to Ordinary Differential Equations</td>
<td>3</td>
</tr>
<tr>
<td>FIN:3300</td>
<td>Corporate Finance</td>
<td>3</td>
</tr>
</tbody>
</table>

Actuarial science honors students may not elect to complete ACTS:6480 Loss Distributions and ACTS:6580 Credibility and Survival Analysis instead of ACTS:4280 Life Contingencies II in fulfilling requirements for the actuarial science major. They must complete ACTS:4280 as part of the major, and they must complete ACTS:6480 and ACTS:6580 for honors credit.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors
Program; visit Honors at Iowa to learn about the University's honors program.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Much of the course work is sequential, so students must begin requirements for the major as soon as possible. Individual study plans must be made carefully. Students who first enroll for a spring semester must consult their advisor to confirm a four-year plan.

**Before the third semester begins:** MATH:1860 Calculus II and MATH:2700 Introduction to Linear Algebra

**Before the seventh semester begins:** STAT:4101 Mathematical Statistics II, ACTS:4130 Quantitative Methods for Actuaries, ACTS:4180 Life Contingencies I, ACTS:4380 Mathematics of Finance II, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** ACTS:4280 Life Contingencies II

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

#### Career Advancement

Most actuaries are employed by insurance companies or employee benefits consulting firms. They have responsibilities related to all phases of product development and maintenance for their companies. Individual employers who need guidance in establishing employee insurance and retirement programs also hire actuarial science graduates. A growing number of actuaries work in asset/liability management, some in investment firms, and others in insurance companies.

Actuaries are in high demand and earn good salaries. Most Iowa graduates find work as actuaries, but some become financial managers and teachers. They take positions in locations all across the country, often in large metropolitan areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Statistics, Minor

The minor in statistics requires a minimum of 15 s.h. in statistics courses taken at the University of Iowa. At least 12 s.h. must be taken in courses numbered 3000 or above (selected from the lists below). Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor requires the following course work.

Statistics, M.S.

Requirements

The Master of Science in statistics requires 32 s.h. of graduate credit. The program prepares students for careers as professional statisticians or for entry into a Ph.D. program. It includes a solid foundation in statistical computing, statistical modeling, experimental design, and mathematical statistics plus electives in statistical methods and/or theory. Students have the opportunity to concentrate on theory or applications or a combination of the two.

In addition to required course work, students must pass a two-part graduate final examination and complete the M.S. creative component.

M.S. students in statistics must maintain a g.p.a. of at least 3.00 in all work toward the degree and in additional relevant course work. Students must take a computer programming proficiency test during the first semester of study; those who display inadequate programming skills are assigned activities to build their proficiency.

The Master of Science program in statistics requires the following work.

Statistics Courses

All of these:
- STAT:5090 ALPHA Seminar 1
- STAT:5100-5101 Statistical Inference I-II 6
- STAT:5200-5201 Applied Statistics I-II 7
- STAT:5400 Computing in Statistics 3
- STAT:6220 Statistical Consulting 3
- STAT:6300 Probability and Stochastic Processes I 3
- STAT:6990 Readings in Statistics (two consecutive enrollments) 2

At least 7 s.h. from these:
- STAT:4520 Bayesian Statistics 3
- STAT:5120 Mathematical Methods for Statistics 3
- STAT:6301 Probability and Stochastic Processes II 3
- STAT:6510 Applied Generalized Regression 3
- STAT:6530 Environmental and Spatial Statistics 3
- STAT:6540 Applied Multivariate Analysis 3
- STAT:6547 Nonparametric Statistical Methods 3
- STAT:6560 Applied Time Series Analysis 3
- STAT:6970 Topics in Statistics 3
- A Ph.D.-level course numbered 7000 or above, including seminar courses 1-3

M.S. students planning to enter the doctoral program may wish to include STAT:5120 Mathematical Methods for Statistics in their course selections, since it is part of the required Ph.D. core.

Master of Science Final Examination

Final examinations are offered the week before classes begin in August and in January. Study guides are available in the department office. Students who do not succeed the first time they take the exam may repeat it once.

Students must complete all requirements and be granted the Master of Science degree within one calendar year of passing the M.S. final examination; those who do not meet this deadline are required to take the exam again.

Students entering the Ph.D. program, who will choose either biostatistics, probability/mathematical statistics, or statistical modeling and computing as their concentration area, and who already have taken the equivalent of the first-year courses, may take the M.S. final examination in statistics before beginning further studies.

Creative Component

Students must also complete a creative component that is related to their application and career interests. Students wishing to qualify for the Ph.D. program are encouraged to write a research-oriented creative component. The creative component entails writing an 8-15 page report on a suitable topic, under an advisor's supervision (with two consecutive 1 s.h. enrollments in STAT:6990 Readings in Statistics, normally during the fall and spring semesters of the second year). A draft of the paper should be completed by the end of the first enrollment in STAT:6990, and polished by early- to mid-semester in the second enrollment. The paper is then presented orally in a public seminar. A faculty committee, in consultation with the creative component advisor, evaluates the work and the presentation, and assigns a grade of satisfactory or unsatisfactory.

For students wishing to qualify for the Ph.D. program, the creative component represents one piece of the body of work used to determine Ph.D. qualification. The creative component must be satisfactorily completed within one calendar year of passing the M.S. final examination; failure to meet this deadline requires reexamination of the student.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

To learn more about job opportunities, see Careers in Statistics on the American Statistical Association website.
The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Actuarial Science, M.S.

Requirements

The Master of Science program in actuarial science requires 36 s.h. of graduate credit. The program prepares students for actuarial careers by emphasizing the theory that underlies risk processes and the application of this theory to practical problems of insurance pricing and management. It also helps them learn material that is included in professional examinations administered by professional organizations such as the Society of Actuaries and the Casualty Actuarial Society.

Students complete required courses and a M.S. final examination.

The M.S. in actuarial science requires the following course work.

One of these sequences:

A course approved by the advisor 3

Master of Science Final Examination

The M.S. final examination is offered the weekend before classes begin in January. The exam covers the material presented in ACTS:6160 Topics in Actuarial Science, ACTS:4180 Life Contingencies I, ACTS:4280 Life Contingencies II, and ACTS:4380 Mathematics of Finance II. Students who do not succeed the first time they take the exam may repeat it once.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

Most actuaries are employed by insurance companies or employee benefits consulting firms. They have responsibilities related to all phases of product development and maintenance for their companies. Individual employers who need guidance in establishing employee insurance and retirement programs also hire actuarial science graduates. A growing number of actuaries work in asset/liability management, some in investment firms, and others in insurance companies.

Actuaries are in high demand and earn good salaries. Most Iowa graduates find work as actuaries, but some become financial managers and teachers. They take positions in locations all across the country, often in large metropolitan areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Statistics, Ph.D.

Requirements

The Doctor of Philosophy program in statistics requires a minimum of 76 s.h. of graduate credit, including work completed for the M.S. degree.

The Graduate College requires a minimum g.p.a. of 3.00 to graduate with a Ph.D. degree; however, the Department of Statistics and Actuarial Science requires a higher g.p.a. of at least 3.40 to earn the Ph.D. in statistics. This includes all courses used to meet degree requirements plus additional courses that are relevant to a student’s program.

Ph.D. students complete required course work, including four courses in one of four concentration areas: biostatistics, probability/mathematical statistics, statistical computing, or actuarial science/financial mathematics (see “Concentration Areas” below for area descriptions and course lists). They may take course work or seminars in other departments to relate an area of specialization to other fields of knowledge, to acquire the ability to use electronic digital computing equipment, or to learn non-English language skills necessary for reading scientific journals and communicating with scholars in other languages.

Ph.D. Qualifying Procedure

Students enter the Ph.D. program in one of two tracks:

- **Statistics**—After successfully passing both the M.S. final examination in statistics and the creative component (in exceptional cases, a student may petition to go through the Ph.D. qualifying procedure early), a student who will choose either biostatistics, probability/mathematical statistics, or statistical computing as the selected concentration area, can request, by notifying the director of graduate studies, to go through the Ph.D. qualifying procedure. Upon this request, the faculty evaluates the student's body of work and assesses the student's potential for research. The body of work will include the M.S. final examination in statistics, the creative component, and course work. This evaluation and assessment results in one of three decisions—the student is officially admitted into the Ph.D. program; the student must reapply to go through the Ph.D. qualifying procedure after accumulating a larger body of work for evaluation; or the student is not admitted into the Ph.D. program.

- **Actuarial Science**—After successfully passing the M.S. final examination in actuarial science (in exceptional cases, a student may petition to go through the Ph.D. qualifying procedure early), a student who will choose actuarial science/financial mathematics as the selected concentration area, can request, by notifying the director of graduate studies, to go through the Ph.D. qualifying procedure. Upon this request, the faculty evaluates the student's body of work and assesses the student's potential for research. The body of work will include the M.S. final examination in actuarial science, professional examinations passed, and course work. This evaluation and assessment results in one of two decisions—the student is officially admitted into the Ph.D. program in the actuarial science/financial mathematics concentration area, or the student is not admitted into the Ph.D. program.

Students complete the program by passing the Ph.D. final (comprehensive) examination and writing and defending a dissertation. Students usually complete the program three years after earning the M.S. degree.

A program that does not conform to the requirements described below but is of high quality may be approved by the department chair.

Each semester a Ph.D. student in statistics registers for at least 6 s.h., that student must include at least one 2 s.h. course offered by the department, excluding STAT:6990 Readings in Statistics and STAT:7990 Reading Research.

The Doctor of Philosophy in statistics requires the following work.

Statistics Courses

Biostatistics, Probability/Mathematical Statistics, or Statistical Computing Concentration Area

Students in the biostatistics, probability/mathematical statistics, or statistical computing concentration area must complete the following core courses from the M.S. in statistics program.

<table>

A course approved by the advisor 3
All Concentration Area Courses

Additional Ph.D. core course work, regardless of concentration area.

All of these:
- STAT:5120 Mathematical Methods for Statistics 3
- STAT:7100-STAT:7101 Advanced Inference I-II 6
- STAT:7200 Linear Models 4
- STAT:7300 Foundations of Probability I 3
- STAT:7400 Computer Intensive Statistics 3
- STAT:7990 Reading Research 18

Seminars, chosen from STAT:7190 or STAT:7290 or STAT:7390

Concentration Areas

Students take at least four courses in one of the following concentration areas; at least one of the four courses must be at the Ph.D. level (numbered 7000 or above).

Statistical Computing

Statistical computing emphasizes the theory and application of a broad array of statistical models, such as linear, generalized linear, nonlinear, categorical, spatial, correlated response, and nonparametric regression models. This concentration area prepares students to specify and choose appropriate models; fit the models using available statistical software; and make sound statistical conclusions and interpretive statements. It is excellent preparation for students interested in academic, industrial, or government positions that involve data modeling and analysis.

- STAT:6510 Applied Generalized Regression 3
- STAT:6530 Environmental and Spatial Statistics 3
- STAT:6540 Applied Multivariate Analysis 3
- STAT:6560 Applied Time Series Analysis 3
- STAT:6970 Topics in Statistics 3
- STAT:7510 Analysis of Categorical Data 3
- STAT:7520 Bayesian Analysis 3
- STAT:7560 Time Series Analysis 3

Probability/Mathematical Statistics

Probability/mathematical statistics emphasizes a broad, solid foundation in techniques and underpinnings of mathematical statistics. Its focus on breadth and depth is intended to produce well-rounded, knowledgeable scholars. It is excellent preparation for academic positions in mathematical statistics and industrial or government positions that require broadly trained statisticians with a strong understanding of statistical theory.

- STAT:6301 Probability and Stochastic Processes II 3
- STAT:7301 Foundations of Probability II 3
- STAT:7520 Bayesian Analysis 3
- STAT:7560 Time Series Analysis 3

Biostatistics

Biostatistics emphasizes exposure to various biostatistical methods, such as survival analysis, categorical data analysis, and longitudinal data analysis. It prepares students for consulting and other positions in industry.

- STAT:6530 Environmental and Spatial Statistics 3
- STAT:6540 Applied Multivariate Analysis 3
- STAT:7510 Analysis of Categorical Data 3
- STAT:7570 Survival Data Analysis 3
- BIOS:7310 Longitudinal Data Analysis 3

Actuarial Science/Financial Mathematics

Actuarial science/financial mathematics emphasizes the theory of actuarial science, finance, and risk management. It is excellent preparation for academic positions in universities that offer actuarial science programs and for positions in the insurance, pension, and financial industries. Most students who choose this concentration area are admitted after earning an M.S. in actuarial science at the University of Iowa.

- STAT:6301 Probability and Stochastic Processes II 3
- STAT:7301 Foundations of Probability II 3
- STAT:7560 Time Series Analysis 3
- FIN:7110 Finance Theory I 3
- FIN:7130 Finance Theory II 3

Ph.D. Final Examination

Students typically take the Ph.D. final (comprehensive) examination at the beginning of the third year of graduate study, during the week before fall classes begin. Students who do not succeed the first time they take the exam may repeat it once.

The comprehensive examination consists of a written core examination and an oral examination in two of the following four areas:

- statistical inference (topics in STAT:5100 Statistical Inference I, STAT:5101 Statistical Inference II, and STAT:7100 Advanced Inference I);
- linear models (topics in STAT:7200 Linear Models);
- probability (topics in STAT:6300 Probability and Stochastic Processes I and STAT:7300 Foundations of Probability I); and

Ph.D. students in the actuarial science/financial mathematics concentration area have the option of taking only one of the four examinations listed above and an actuarial science/financial mathematics examination designed by their advisor and approved by the director of graduate studies.

Ph.D. Committee

Upon passing the Ph.D. final examination, the candidate chooses a committee of at least five members, which is approved by the advisor. At least four of the faculty members must be University of Iowa tenure-track faculty members. At least two of the faculty members must be from the major
department (defined as faculty members who hold any appointment in the major department), and University of Iowa tenure-track faculty members.

The department may request the Graduate College dean's permission to replace one of the five committee members by a recognized scholar of professorial rank from another academic institution.

**Prospectus**

Within 12 months of passing the Ph.D. final exam, the candidate presents a written and oral prospectus to the committee. The prospectus describes the problems the student is considering for the thesis, relevant background material, ideas for solving the problems, and any preliminary results.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Financial Support**

Funds are available to help support outstanding Ph.D. applicants. Fellowships, teaching assistantships, and research assistantships provide an attractive stipend plus resident tuition status and tuition scholarships for students who are appointed at least one-quarter time. In most cases, full tuition waivers are granted.

Students who wish to be considered for financial assistance for their third year in the program should request to go through the Ph.D. qualifying process no later than the spring semester of their second year.

**Career Advancement**

Statistics and probability are vital to many fields, so the demand for well-trained statisticians is strong. Statisticians work in medicine, engineering, law, public policy making, marketing, manufacturing, engineering, agriculture, varied social and natural sciences, and numerous other areas.

The program prepares students for careers in research, applications, and teaching. To learn more about job opportunities, see Careers in Statistics on the American Statistical Association website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Theatre Arts

**Director, Division of Performing Arts**
- Alan MacVey

**Chair, Department of Theatre Arts**
- Alan MacVey

**Undergraduate major**: theatre arts (B.A.)
**Undergraduate minor**: theatre arts
**Graduate degree**: M.F.A. in theatre arts
**Faculty**: https://theatre.uiowa.edu/people
**Website**: https://theatre.uiowa.edu/

The Department of Theatre Arts presents around 25-30 public productions each year. These include a subscription series of five plays, a festival of new works by students, and other productions, many of them new plays.

The department is one of three academic units in the Division of Performing Arts [p. 310]. Students have the opportunity to earn a major in theatre arts and a second major in one of the other units within the division—dance or music. It also participates in offering the division’s Certificate in Arts Entrepreneurship [p. 123].

The department also educates students who plan to enter other fields in which understanding of the arts and experience with theatre skills are useful. Some earn a major in theatre arts, occasionally with a second major in another discipline. Others earn a minor or take theatre classes as nonmajors. For information, view the minor in Theatre Arts [p. 906] in the Catalog or see "Courses for Nonmajors" below.

Several of the department’s courses are approved for General Education; look for courses with the prefix THTR in the list under “Culture, Society, and the Arts” in the General Education Program [p. 437] section of the Catalog.

**Courses for Nonmajors**

Most theatre arts courses are open to all students, regardless of their majors, and are appropriate for nonmajors interested in theatre. The following courses are designed specifically for nonmajors.

<table>
<thead>
<tr>

</table>

**Productions and Auditions**

The Department of Theatre Arts presents around 25-30 public productions each year. These include a subscription series of five plays, a festival of new works by students, and other productions, many of them new plays.

Special attention is given to the process of developing new works and to the collaborative process that involves writers, directors, designers, dramaturgs, stage managers, and actors. Graduate and undergraduate students, faculty, and visiting guest artists work together on large and small projects throughout the year.

**Auditions for Theatre Arts Productions**

Auditions for theatre arts productions are open to everyone, including all University of Iowa students and members of the local community. Theatre arts students are given first priority for roles, but many roles are available throughout the year, so many students in other majors and nonstudent actors are cast each season. Occasionally, professional actors are employed.

General auditions are held at the beginning of the fall semester, and callback lists are posted during the semester. Additional general auditions usually are scheduled in early November and in March. Information about auditions is available from the Department of Theatre Arts office in August. Notices of auditions are posted on the department’s call board.

**Programs**

**Undergraduate Programs of Study**

**Major**
- Major in Theatre Arts (Bachelor of Arts) [p. 902]

**Minor**
- Minor in Theatre Arts [p. 906]

**Graduate Program of Study**

**Major**
- Master of Fine Arts in Theatre Arts [p. 907]

**Facilities**

The University of Iowa has one of the finest educational theatre complexes in the country. The Theatre Building offers four theatres and up-to-date facilities for classroom, laboratory, shop, and performance work.

The E.C. Mabie Theatre, a continental-style, 457-seat proscenium playhouse, is one of the finest theatres of its type in the United States. The David Thayer Theatre is a “black box” production space; its flexible seating units accommodate from 140 to 225 people and allow modification of space and audience relationships. Theatre B, which seats 144, is an open-stage theatre dedicated primarily to the production of new and experimental works. The flexible studio theatre seats 50.

In addition to classrooms for acting and directing, several spaces are designed for teaching particular aspects of dramatic studies. The Cosmo Catalano Acting Studio is for study of movement and motion by acting students. The Arnie Gillette Design Studio serves as classroom and studio workshop for design students.

To support its production schedule and to provide students with an appropriate range of experience, the department maintains shops for building, painting, maintaining, and storing scenery, costumes, and properties. Using these shops, students learn to work in metal, plastics, canvas, and wood.
## Theatre Arts Courses

**THTR:1000 First-Year Seminar**  1 s.h.  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**THTR:1001 CLAS Master Class**  1-3 s.h.  

**THTR:1010 Art of the Theatre**  3 s.h.  

**THTR:1120 Basic Acting for Language Learners**  3 s.h.  
Development of theatrical creativity to enhance English language skills through acting games, monologues, and scene work; exercises in concentration, relaxation, communication, imagination, observation, sensory awareness.

**THTR:1140 Basic Acting**  3 s.h.  
Concentration, relaxation, imagination, observation, communication, sensory awareness; development of theatrical creativity through objectives, obstacles, action, conflict, spontaneity; development of a scene from scripts. Requirements: non-theatre arts major. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

**THTR:1141 Basic Acting II**  3 s.h.  
Continuation of THTR:1140; emphasis on development of scenes. Prerequisites: THTR:1140. Requirements: non-theatre arts major.

**THTR:1400 Theatre and Society: Ancients and Moderns**  3 s.h.  
Representative plays as performed in social contexts of ancient Egypt; classical Greece, Rome, India, and Japan; and medieval and early modern Europe. Duplicates THTR:2410. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

**THTR:1401 Theatre and Society: Romantics and Rebels**  3 s.h.  
Representative plays as performed in social contexts of revolutionary and modern Europe and postwar United States. Duplicates THTR:2411. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

**THTR:1410 Musical Theatre History**  3 s.h.  
American musical theatre's form, function, evolution; major composers (Berlin, Gershwin, Rodgers and Hammerstein, Sondheim), lesser-known and contemporary writers; roots of the rock musical, future of musical theatre, how musicals reflect their own eras and cultural attitudes of their times; readings, recordings, videos. Ability to read music not required.

**THTR:1411 Comedy and Society**  3 s.h.  
How comedy reflects, comments upon, and intersects with western culture, society, and identity; roots of western comedy, satire, censorship; stand-up comedians, improv and sketch troupes, satirists; race, gender and sexuality, class perception; how portrayals of African Americans in popular culture evolved from 19th century to present; videos, readings, live performances. GE: Values, Society, and Diversity.

**THTR:1412 The Arts in Performance**  3 s.h.  

**THTR:2120 Movement: Special Topics**  2-3 s.h.  
Specialized study in movement techniques and movement styles for body conditioning; development of yoga techniques; varied topics.

**THTR:2140 Acting I**  3 s.h.  
Development of creativity, imagination, and openness through exercises to engage mind, body, and voice in theatrical play and scene work. Requirements: theatre arts major, or theatre arts minor and THTR:1140. GE: Engineering Be Creative.

**THTR:2170 Acting for Musical Theatre**  3 s.h.  
Focus on acting technique for musical theatre; within the framework of song, this course will teach students to work truthfully with a partner, find the action of the piece, mine a piece of music for acting clues from the composer, and connect authentically while being larger than life. Prerequisites: THTR:1140 or THTR:2140 or THTR:3521 or THTR:3130. Requirements: any one of the courses listed as prerequisites, or one semester of applied lessons in vocal performance.

**THTR:2200 Elements of Design**  3 s.h.  
Development of visual literacy; manipulation of line, shape, color, value, texture, form; development of designs for theatre through techniques explored in class. GE: Engineering Be Creative.

**THTR:2215 Theatre Technology**  3 s.h.  
Theatrical production; technology and backstage operations including sound, projections, lighting, scenery, costumes, stage management. GE: Engineering Be Creative.

**THTR:2220 Production Lab**  1-3 s.h.  
Practical experience in physical construction and operation of live theatre; theatre department productions provide lab experiences for applied learning in technical theatre and run crew opportunities in scenery, costumes, lighting, sound, and stage management. GE: Engineering Be Creative.

**THTR:2301 Playwriting I**  3 s.h.  
Elements of playwriting; emphasis on analysis and discussion of original student writing. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

**THTR:2402 Script Analysis**  3 s.h.  
Basic skills in critical reading and close analysis of dramatic texts, with focus on dramatic structure, challenges of putting texts into production.

**THTR:2405 Staging Americans: U.S. Cultures Through Theatre and Performance**  arr.  
Role of American theatre as a complex tapestry of race, gender, sexuality, and disability; examination of plays and performance outside primarily white-male canon; contemporary social practice and cultural politics in local and national contexts. GE: Values, Society, and Diversity.
THTR:2410 History of Theatre and Drama I 3 s.h.
Major developments in Anglo-European, Indian, Asian, and African theatre and drama, 3000 B.C.E. to C.E. 1700; sociopolitical, economic, and cultural circumstances of original productions. Offered fall semesters. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:2411 History of Theatre and Drama II 3 s.h.
Continuation of THTR:2410; 1700 to 1960; revolutionary and modern European theatre and culturally diverse postwar U.S. theatre. Offered fall semesters. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

THTR:2450 Animals and Performance in American Culture 3 s.h.
Role of animals in various forms of cultural expression in the U.S. from the 19th to the 21st centuries; along with visual and literary arts, special emphasis will be placed on live performance (e.g., circus and theatre) because of how it highlights embodied and affective modes of communication that inform our connections to animals; relationship of cultural forms involving animals (real and imagined) to the lived experience of animals in the wider historical and social context; how animals shape human ideas about race, ethnicity, class, gender, sexuality, and construct notions of "Americanness." Same as AMST:2950.

THTR:2610 Acting for Success 3 s.h.
How skills learned by actors in the theatre world can be applied to presentations and interactions in business, education, and beyond; business world reliance on technology for communication; ability to connect and communicate on a personal level with others as the x-factor to stand out as a team player and a leader; acting techniques traditionally used in theatre to open up communication in office and interviews; presentations and elevator pitches (armed with techniques to avoid stage fright); how to connect and bring authentic self to everything you do. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. GE: Engineering Be Creative. Same as RHET:2610.

THTR:2620 Improvisation for Engineers, Scientists, and the Curious 3 s.h.
Use of theatrical exercises and improvisation techniques to help students develop their imaginations, stimulate creativity, and approach practical projects from a fresh point of view; emphasis on working in teams and using improvisational techniques to solve problems. GE: Engineering Be Creative.

THTR:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, DANC:2800, MUS:2800.

THTR:3070 Dance Kinesiology 3 s.h.
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: HHP:1100. Same as DANC:3070.

THTR:3110 Voice for the Actor 3 s.h.
Progressive development of voice and speech for theatre; physical awareness, relaxation, breathing, freeing the sound channel, resonance, articulation; application of voice work through prose, poetry, text.

THTR:3120 Theatre Movement 3 s.h.
The body as a tool for dramatic expression; basic principles and practices of stage movement; approaches to physical technique. Requirements: theatre arts major.

THTR:3130 Singing for Actors and Dancers 2 s.h.

THTR:3140 Acting II 3 s.h.
Extension of work begun in THTR:2140; scene study, with focus on contemporary realism and development of collaborative dynamic. Prerequisites: THTR:1141 or THTR:2140.

THTR:3150 Public Speaking 3 s.h.
How to be an effective and confident communicator; exercises designed to develop and improve vocal sound, vocal strength, clarity of speech; appropriate interpretation of text.

THTR:3151 Accents and Dialects 3 s.h.
Varied topics on a rotational basis, may include vocal study of classical text including Shakespeare, dialects, and voice in classical and contemporary comedy. Prerequisites: THTR:3110.

THTR:3160 Movement Styles 3 s.h.
Intensive study of a selected movement style (e.g., mask, clown, commedia dell’arte). Prerequisites: THTR:3120.

THTR:3162 Movement: Special Topics II 3 s.h.
Specialized study in movement techniques and movement styles for body conditioning; intermediate development of yoga techniques; varied topics. Prerequisites: THTR:2120.

THTR:3165 Stage Combat 3 s.h.
Fundamental principles of unarmed combat; rapier and dagger techniques.

THTR:3180 Topics in Digital Media 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3180.

THTR:3202 Graphic Design and Identity 3 s.h.
Series of projects focusing on creating strong graphic design and graphic identity using Abode Creative Suite. GE: Engineering Be Creative.

THTR:3203 Computer Visualization 3 s.h.
Creation of virtual design using Adobe Photoshop and Google SketchUp.
THTR:3205 Concepts in Drawing 3-4 s.h.
Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as DRAW:3310.

THTR:3206 Furniture Design I 4 s.h.
Human interaction with interior and exterior environment. Prerequisites: TDSN:3200. Same as TDSN:3210.

THTR:3208 Mask and Puppet Crafts 3 s.h.
Mask and puppet design; paper mache, plaster gauze, theatrical plastics, and soft sculpture techniques. GE: Engineering Be Creative.

THTR:3210 Makeup Design for the Stage 3 s.h.
GE: Engineering Be Creative. Same as DPA:3210.

THTR:3211 Period Styles 3 s.h.
Survey of design and motifs spanning history of western civilization through development of interior and exterior architecture, furniture, decorative themes, fashion, and fine art.

THTR:3221 Technology for the Entertainment Industry 3 s.h.
Introduction to technology skills that are at the center of the entertainment industry; programming and operating digital lighting and sound consoles, intelligent lighting systems, projection hardware and software; outdoor event rigging, metal construction, and fabrication. Same as DPA:3221.

THTR:3223 Introduction to Lighting Technology 3 s.h.
Training for a career as a touring or resident stage electrician in the entertainment industry; plot organization/shop orders, digital fixtures, power distribution, personal management, console configuration/control, and electrical troubleshooting/maintenance.

THTR:3225 Makeup Design: Body Art 3 s.h.
Advanced techniques in stage makeup design and application through analysis of forms, research, and hands-on projects.

THTR:3230 Scene Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3-D models, simple sketches, and drafting. GE: Engineering Be Creative. Same as ARTS:3230.

THTR:3240 Costume Design I 3 s.h.
Introduction to theatre costumes; how to conceptualize and express ideas through rendering and 3-D mannequin projects. May be taken after THTR:4240. GE: Engineering Be Creative.

THTR:3250 Lighting Design I 3 s.h.
How to research, conceptualize, and express ideas through light plots, other design paperwork, and theatre lighting design projects. GE: Engineering Be Creative.

THTR:3260 Sound Design for the Theatre 3 s.h.
Introduction to digital sound recording and live sound reinforcement techniques for a variety of entertainment venues (theatre, dance, concerts, and industrial projects); creation of soundscapes using Pro Tools software; implementation of designs through the use of SFX/QLab playback systems; documentation of sound design for theoretical or realized production. Offered every other year. GE: Engineering Be Creative.

THTR:3270 Entertainment Design 3 s.h.
Introduction to entertainment design and technology; primary focus on contemporary approaches to design and delivery of content in entertainment industry; assignment of practical projects using media servers, projection, LED arrays, video editing software, and moving light technologies. GE: Engineering Be Creative.

THTR:3276 Medieval Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3276.

THTR:3277 English Renaissance Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3277.

THTR:3287 Shakespeare 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3287.

THTR:3300 Advanced Playwriting 3 s.h.
Continuation of THTR:3301; original student writing, extensive rewriting; may focus on specific style, genre, or approach. Prerequisites: THTR:3301.

THTR:3301 Playwriting II 3 s.h.
Application of fundamental skills learned in THTR:2301 to more advanced study of dramatic structure and style; reading of plays, weekly writing assignments; focus on writing one-act play. Prerequisites: THTR:2301.

THTR:3310 Undergraduate Playwriting Workshop 1-3 s.h.
Workshop discussion of original full-length plays, collaborative creation of new plays, work with guest artists. Prerequisites: THTR:2301 and THTR:3301. Requirements: submission of writing sample.

THTR:3315 Standup Comedy Practicum 3 s.h.
Writing and performing standup comedy; emphasis less on creating a comic persona and more on pulling from and articulating personal truth; analysis of contemporary comedians and joke structure; performing original work for multiple audiences in classroom and out in community. Prerequisites: THTR:1140 or THTR:2140 or THTR:2301.

THTR:3320 Writing for Film 3 s.h.
Rigorous writing for film; focus on feature-length screenplay; for students with experience in dramatic writing, fiction, or screenwriting. Requirements: completion of at least 60 s.h. or graduate standing.

THTR:3401 Topics in Dramatic Literature 3 s.h.
Topics in dramatic literature, including specific authors, periods, and movements; sample topics include Ibsen and Strindberg, Chekov, Brecht and the Brechtian, and avant-garde theatre.

THTR:3402 Shakespeare the Dramatist 3 s.h.
Exploration of a number of Shakespeare’s greatest works; close textual analysis supplemented with historical, theoretical, theatrical, and philosophical considerations; special attention given to Shakespeare’s dramatic method and relation of his dramaturgy to profession of theater-making.
THTR:3403 Free-Style Writing: Poetry, Plays, and Performances 3 s.h.
Creative writing lab experience in reading, writing, and performing poetry and short plays; expansion of students' horizons of the self; arc of innovation in African American literature from Harlem Renaissance to present, with texts from Langston Hughes and Zora Neale Hurston to Saul Williams and Jill Scott; role of the artist in society and as outsider and insider; shifting perspectives on race, gender, class; musical influences and models, from blues to house music; sensuality, spirituality; artistic reflections on the cultural moment; effects of these on literary form and performance style; students create and perform a work for an audience. Same as AFAM:3840.

THTR:3410 African American Theatre I 3 s.h.
Works by African American playwrights and relevant historical documents, Africa through Black Renaissance; themes, history, sociopolitical context; artists forging theatrical paths under oppressive conditions; exploration through discussion, performance; literature-based course, workshop approach. Same as AFAM:3811.

THTR:3411 African American Theatre II 3 s.h.
Works by African American playwrights and relevant historical documents, Black Renaissance to present; themes, history, sociopolitical context; artists forging theatrical paths under oppressive conditions; exploration through discussion, performance; literature-based course, workshop approach. Same as AFAM:3811.

THTR:3415 Cultural Diversity and Identity 3 s.h.
Nature of personal and cultural identity within a pluralistic society; race, ethnicity, national identity, class, sexuality, and gender as categories of cultural difference. Same as GWSS:3415.

THTR:3421 Performing Autobiography 3 s.h.
Write and perform original pieces stemming from personal experiences and interests; readings and videos; genre of contemporary autobiographical performance as established artists have developed it; improvisational performance and writing exercises to foster deeper reflection on personal experiences; final staging of students' original work. Recommendations: RHET:1030. Same as GWSS:3421.

THTR:3440 American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3440.

THTR:3462 African American Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as AFAM:3462, ENGL:3462.

THTR:3501 Stage Management I 3 s.h.
Duties and procedures of stage management; focus on development of production from preparatory work through performance; role of stage manager in collaboration.

THTR:3510 Introduction to Arts Management 3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as DPA:3510, INTD:3510.

THTR:3520 New Ventures in the Arts 3 s.h.

THTR:3521 Acting for Singers and for Dancers 2 s.h.
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as DANC:3521, MUS:3521.

THTR:3550 Stage Management II 3 s.h.
Duties and procedures of stage management; focus on development and understanding of leadership role of stage manager; examination of stage manager's role in a professional theatre; topics may include equity contracts and stage managing for opera. Prerequisites: THTR:3501.

THTR:3601 Theatre for Social Outreach 2-3 arr.
Use of improvisation, storytelling, readers' theatre to explore complex social issues; participation in Darwin Turner Action Theatre; experience creating works that examine social issues, especially those related to cultural diversity; performances in Iowa schools and communities.

THTR:3605 Inclusive Theatre 3 s.h.
Introduction to implementation of performance opportunities for special populations (defined as those with cognitive or physical disability) and underrepresented populations. Same as EDTL:3963.

THTR:3610 Drama in the Classroom 3 s.h.
Theories of community, culture, identity in relation to language arts teaching and learning; emphasis on incorporating multiple literacies, both oral and print, into language arts curricula; action research involving oral literacy. Same as EDTL:3180.

THTR:3850 Introduction to Laban Movement Studies 2-3 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DANC:3850, DPA:3850, MUS:3850.

THTR:3851 Introduction to the Alexander Technique 2-3 s.h.
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851, DPA:3851, MUS:3851.
THTR:3875 Topics in Digital Performing Arts 2-3 s.h.
Introduction to digital documentation and editing for dance performance; from a digital reel of student’s work, including performance and teaching, to creative strategies for using digital imagery in performance; digital arts literacy as an invaluable tool in today’s dance field. Same as DANC:3875.

THTR:3876 Video for Performance 4 s.h.
Introduction to making video for use in a performance; how video can unlock new artistic possibilities for performance in theater, dance, and performing arts in general; focus on acquiring basic skills necessary to shoot and edit video, and project it during a performance; practices of animation, found or archival footage work, and live performance. No previous knowledge of cameras or editing equipment required. Same as CINE:3876.

THTR:3880 Digital Media for Theatre and Dance 3 s.h.
Introduction to digital media capture and editing, specifically designed for students in performing arts; focus on developing proficiency in contemporary approaches to digital video recording, editing, and multi-camera techniques; working in groups, students will be assigned practical projects using professional grade media software and hardware. GE: Engineering Be Creative. Same as DANC:3880.

THTR:3890 Producing and Directing Digital Video 3 s.h.
Introduction to the basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with a focus on aesthetic and technical principles; focus on developing proficiency in contemporary approaches to digital media production by understanding the production pipeline, from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as DANC:3890.

THTR:4144 Acting: Special Topics 3 s.h.
Specialized study in a specific aspect or theory of acting.

THTR:4180 Directing I 3 s.h.
Basic elements of stage direction; exercises in composition, emphasis, movement, rhythm, directorial analysis; director’s role in production process; short scenes, projects, papers. Prerequisites: THTR:2140 and (THTR:2402 or CINE:1601).

THTR:4230 Scene Design II 3 s.h.
Design and execution of increasingly complex projects in a variety of formats, including perspective sketching, detailed drafting, and color models. Prerequisites: THTR:3230.

THTR:4240 Costume Design II 3 s.h.
Conceptual and analysis skills in costuming; fashion history and dress related to individual, cultural, and artistic expression. May be taken before THTR:3240.

THTR:4250 Lighting Design II 3 s.h.
Production styles and venues; skills developed through increasingly complex light plots, more precise paperwork. Prerequisites: THTR:3250.

THTR:4265 International Perspectives: Xicotepec 2-3 s.h.
Introduction to providing service to a community in a less developed country; student projects intended to improve community life in Xicotepec. Requirements: P3 standing. Same as CEE:4788, GHS:4126, PHAR:8788.

THTR:4270 Scenic Art 3 s.h.
Techniques in scenic art for the theatre; classical trompe l’oeil scene painting, sculpting with nontraditional materials, finishing. Offered every other year. GE: Engineering Be Creative.

THTR:4401 American Women Playwrights: 1776-Present 3 s.h.
How women in the United States have expressed themselves in theatre since 1776; diversity of voices in works by African American, Asian American, Latina, Native American, European American, lesbian playwrights; female-authored drama and production in relation to concurrent male-authored traditions and socioeconomic, political, cultural phenomena. Same as AMST:4401.

THTR:4402 Dramas of the Spirit 3 s.h.
Western and nonwestern dramatic texts that enact or describe journeys of the human spirit; textual analysis, investigation of the notion of spirit and its relation to dramatic form. Prerequisites: THTR:2411 and THTR:2410 and THTR:2402.

THTR:4403 Studies in Drama 3 s.h.
Exploration of a specific period of dramatic literature, or the work of specific authors, or dramatic principles central to playwrighting.

THTR:4420 Dramatic Theory 3 s.h.
Theoretical questions of interest to dramatists and philosophers in western and nonwestern traditions; metaphysics of play; theories of character, psyche, self; narrative and nonnarrative dramatic forms. Prerequisites: THTR:2402 and THTR:2410 and THTR:2411.

THTR:4510 Arts Leadership Seminar 3 s.h.
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000 or THTR:3520. Same as DPA:4510, ENTR:4510, INTD:4510.

THTR:4630 London Performance Study 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:4172.

THTR:4690 Senior Seminar 3 s.h.
Theatre arts capstone seminar; how personal aesthetic relates one’s work to great theatrical visionaries of the past and present-day practitioners; research culminating in a collaborative theatre piece. Requirements: senior standing and theatre arts major.

THTR:4691 Projects in Theatre arr.

THTR:4692 Honors Theatre Arts arr.

THTR:4693 Independent Study arr.

THTR:4694 Design: Special Topics 1-3 s.h.
Specialized study in a specific aspect or theory of theatrical design.

THTR:4695 Performance Practicum 1-2 s.h.
Perform as an actor or serve as an assistant stage manager in a production of at least an hour’s length, rehearsed for at least four weeks, directed by a faculty member or guest artist or graduate student, and produced by the Department of Theatre Arts.

THTR:5200 Graduate Design Seminar arr.
Graduate design in set, lighting, and costume design; teamwork; meetings with design faculty in specific disciplines; short-term projects in the theatre department; long-term projects, including summer design work, internships, and other professional opportunities during the three-year program and beyond. Prerequisites: THTR:4230 or THTR:4240 or THTR:4250.
THTR:5230 Scene Design III 3 s.h.
Complex assignments; documentation skills, scenic design preparation. Prerequisites: THTR:3230 and THTR:4230.

THTR:5240 Costume Design III 3 s.h.
Advanced projects in costume design and portfolio development. Prerequisites: THTR:4240.

THTR:5250 Lighting Design III 3 s.h.
Advanced projects in venues such as dance, opera, industrials; preparation of lighting designs for production. Prerequisites: THTR:4250.

THTR:5300 The Collaborative Process 3 s.h.
Development of new plays, collaboratively created works.

THTR:5420 Dramaturgy Practicum arr.
Exploration of theoretical, creative, and practical issues that arise in working dramaturgically on both established and new plays, and in a variety of collaborative processes; practical dramaturgical exercises in script reporting, dramaturgical research, educational programming, season planning, production documentation, and writing of critical and dramaturgical essays for a general audience. Requirements: admission to M.F.A. dramaturgy program.

THTR:5500 Stage Management: Special Topics 3 s.h.
Topics in stage management, arts production, and their professional practice. Requirements: admission to M.F.A. stage management program.

THTR:5510 Production Management 3 s.h.
Organization and supervision of theatre productions; resources, procedures for successfully mounting a theatre production or season; personnel, equipment, facility and budget management, scheduling, communication. Requirements: stage management M.F.A. enrollment.

THTR:5600 Orientation to Graduate Studies 1-2 s.h.
Requirements: theatre arts M.F.A. enrollment.

THTR:5605 Career Preparation 1-3 s.h.
Business aspects of the actor's career; entrepreneurial tools for the professional world; topics include agents, managers, taxes, fees, résumés, head shots, unions, the similarities and differences between the three major markets (New York, Chicago, and Los Angeles), and the particular needs for television, film, and theatre.

THTR:5610 Collaborative Performance 1-4 s.h.
Collaborative experience with advanced artists from varied disciplines that culminates in a final performance; emphasis on sharing and investigating ideas, artistic intent, personal vision, and creating collaborative projects. Same as DANC:5550, DPA:5550.

THTR:6140 Advanced Acting 3 s.h.
Preprofessional training; may include psychophysical training in impulse, openness and the "mask," individual and group dynamics, improvisation, repetition, characterization and scene work, Shakespeare and style, on-camera, development of professional work habits and skills, audition and interview. Requirements: admission to M.F.A. program.

THTR:6150 Vocal Technique 3 s.h.
Skills training; voice and speech for the actor, phonetics, dialects, sound exploration, contemporary and classical text analysis. Requirements: admission to M.F.A. program.

THTR:6160 Movement Technique 3 s.h.
Fundamental principles and practices required for physical acting technique; basic stage movement, stage combat, mime technique, Lecoq-based improvisation; a new works project. Requirements: admission to M.F.A. program.

THTR:6170 Graduate Acting: Special Topics 3 s.h.
Specialized study in one aspect or theory of acting. Requirements: admission to M.F.A. program.

THTR:6180 Director's Seminar 1-3 s.h.
Preprofessional training in stage direction; the art and craft of directing; research, practical experience; development of new pieces; approaches to a variety of theatrical materials through concept, type, style. Requirements: admission to M.F.A. program.

THTR:6300 Guest Seminar arr.

THTR:6310 Special Topics in Playwriting 3 s.h.

THTR:6400 Classical to Romantic Theatre 3 s.h.
Representative plays from the Classical to the Romantic periods---in historical context of their original productions, contemporary production potential. Requirements: theatre arts M.F.A. enrollment.

THTR:6401 Modern Drama 3 s.h.
Questions of dramatic form and content examined in-depth through close readings of modern plays.

THTR:6402 Postmodern Theatre 3 s.h.
Diverse postmodern traditions; emphasis on questions of relation of text.

THTR:6403 Shakespeare 3 s.h.
Same as ENGL:6220.

THTR:6500 Stage Management Seminar 1-2 s.h.
Practice and techniques of stage management. Requirements: graduate stage management major.

THTR:6525 Voice for Performers 2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as CSD:6204, MUS:6525.

THTR:6691 Projects in Theatre Advanced arr.
Create a special project under the mentorship of a faculty member; projects may include performing in a main stage production, writing, directing, or designing a play performed in the department, developing a research project that intersects production.

THTR:7300 Playwrights Workshop 3 s.h.
Development of works by Iowa Playwrights Workshop members. Requirements: playwriting or dramaturgy M.F.A. enrollment.

THTR:7601 M.F.A. Thesis 0-3 s.h.
Work related to M.F.A. thesis projects in theatre arts.
The undergraduate program in theatre arts is based on the philosophy that the best way to develop future artists is to expose them to rigorous professional practice within the framework of a liberal arts and sciences education.

Department of Theatre Arts students take workshop courses in acting, directing, design, technical theatre, stage management, and playwriting and complement them with classes in dramatic literature, history, and criticism. Students also are encouraged to explore a range of courses throughout the University. Around 25 public productions are staged each year, providing additional opportunities to learn the theatre craft and to develop a personal artistic vision.

Student Auditions for Theatre Arts Productions

Theatre arts majors are encouraged to audition for the department's productions in general auditions at the beginning of the fall semester. Students normally present a three-minute audition consisting of two contrasting pieces. From this audition, callback lists are posted for major productions offered during the first semester. Additional general auditions normally are scheduled in early November and in March.

Students in other majors are welcome to audition for the department's productions, as are community members (see "Productions and Auditions" in the departmental [p. 895] section of the Catalog). For academic considerations, theatre arts majors are given first consideration for roles.

Materials and information about the general auditions are available from the Department of Theatre Arts office in August. Notices of auditions for all subsequent productions are posted on the department's Online Callboard.

Requirements

The Bachelor of Arts with a major in theatre arts requires a minimum of 120 s.h., including 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 437].

The curriculum for the theatre arts major listed below constitutes the basic experience for all undergraduate theatre arts students. Registration in some courses for the major requires special permission. Contact the Department of Theatre Arts for details.

Students who transfer to the University from other accredited two- or four-year institutions must demonstrate that they have successfully completed course work equivalent to the basic requirements of the Department of Theatre Arts and the University of Iowa before they may take advanced-level electives. If a student completes the courses listed for the approved 2 Plus 2 theatre arts program at Kirkwood Community College, Iowa Central Community College, or Indian Hills Community College in Iowa, those courses are automatically counted toward requirements for the theatre arts major at the University of Iowa. Consult the department's director of undergraduate studies for more information.

In planning course work, especially electives, students should be guided by the College of Liberal Arts and Sciences maximum hours rule: students earning a B.A. may apply a maximum of 56 s.h. earned in one department to the minimum 120 s.h. required for graduation, whether or not the course work is accepted toward requirements for the major; students who earn more than 56 s.h. from one department may use the additional semester hours to satisfy requirements for the major (if the department accepts them), and the grades they earn become part of their grade-point average; but they cannot apply the additional semester hours to the minimum 120 s.h. required for graduation.

Students majoring in theatre arts may count a maximum of 20 s.h. earned in Department of Theatre Arts elective courses (prefix THTR) toward the Bachelor of Arts. Theatre arts elective credit beyond 20 s.h. is listed on their transcript but does not count toward the 120 s.h. required for graduation.

Students must complete a course's prerequisites before registering for the course. They normally complete the following required courses within their first four semesters in the major.

Students who complete THTR:1400 Theatre and Society: Ancients and Moderns or THTR:1401 Theatre and Society: Romantics and Rebels before declaring a major in theatre arts must consult the undergraduate director before they may register for THTR:2410 History of Theatre and Drama I or THTR:2411 History of Theatre and Drama II.

The B.A. with a major in theatre arts requires the following course work.

Theatre Foundation Courses 15
Elective Theatre Arts Courses 9
Design Course 3
Dramatic Literature Course 3
Production Lab 3
Capstone Course 3
Total Hours 36

Theatre Foundation and Elective Theatre Arts Courses

**Dramatic Literature**

One of these:

- THTR:1410 Musical Theatre History 3
- THTR:2450 Animals and Performance in American Culture 3
- THTR:3401 Topics in Dramatic Literature 3
- THTR:3402 Shakespeare the Dramatist 3
- THTR:3415 Cultural Diversity and Identity 3
- THTR:3421 Performing Autobiography 3
- THTR:4401 American Women Playwrights: 1776-Present 3
- THTR:4402 Dramas of the Spirit 3
- THTR:4420 Dramatic Theory 3
- THTR:4630 London Performance Study 3

**Production Courses**

Students must earn a total of 3 s.h. in THTR:2220 Production Lab. The course requires students to work backstage on a department production. All students must serve as a crew member on at least one production (normally earning 1 s.h. per production). They have options to earn 2 s.h. for serving as a crew chief or taking on other advanced responsibilities.

With the instructor’s approval, students who enroll in one of these two elective production courses (THTR:3501 Stage Management I or THTR:3221 Technology for the Entertainment Industry) also may enroll in the required production course THTR:2220 during the same semester or session and may complete an additional project, earning 1 s.h. for THTR:2220 in addition to the credit they earn for the elective course. Students may earn a maximum of 1 s.h. of required production course credit for THTR:2220 this way.

**Required Production Lab**

This course:

THTR:2220 Production Lab 3

**Elective Production Courses**

THTR:3221 Technology for the Entertainment Industry 3
THTR:3501 Stage Management I 3

**Capstone Course**

One of these:

THTR:4180 Directing I 3
THTR:4690 Senior Seminar 3

**Honors in the Major**

Students majoring in theatre arts have the opportunity to graduate with honors in the major. Students who wish to graduate with honors should declare their intention to the department’s honors advisor. To graduate with honors in the major, students must maintain a g.p.a. of at least 3.33 in the major; complete at least 12 s.h. of work in Department of Theatre Arts honors courses, which must include THTR:4692 Honors Theatre Arts; and give a creative presentation or performance or write an honors thesis.

Students who elect to give a creative presentation or performance must have senior standing and must complete at least one honors course before their proposed project may be approved. They must apply to the director of theatre for approval of their project by April 1 of the year before the project is to be scheduled (projects are not guaranteed a production slot). They also must enroll in THTR:4692 Honors Theatre Arts during the semester in which they complete their presentation or performance.

For more information about theatre arts honors requirements, contact the Department of Theatre Arts office.

In addition to honors in their majors, undergraduate students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the fifth semester begins:** three courses in the major chosen from THTR:2140 Acting I, THTR:2402 Script Analysis, THTR:2410 History of Theatre and Drama I, and THTR:2411 History of Theatre and Drama II

**Before the seventh semester begins:** three more courses in the major, two semesters of production credit, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two more courses in the major and one more semester of production credit

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

**Career Advancement**

The National Association of Colleges and Employers recently listed the top skills employers look for in college graduates. They include communication skills, strong work ethic, teamwork skills, initiative, interpersonal skills, problem solving skills, analytical skills, and flexibility/adaptability. Theatre is an excellent way to learn these skills. As a theatre major, students learn to think critically, read carefully, write well, and present themselves in front of others—skills vital for many careers.

Theatre graduates find work as actors, directors, designers, critics, stage managers, writers, producers, and agents. Some work in film and television, some decide to teach, and some combine scholarship with production or performance with teaching. Others go into business or law.

After graduating, many students move to a metropolitan area to find work. In theatre, there are no guarantees. Success takes talent, patience, hard work, and a bit of luck, yet most graduates who want to work in this exciting profession find a way to do so.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Theatre Arts, Minor

The minor in theatre arts requires a minimum of 15 s.h. in theatre arts courses, including 12 s.h. in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students must complete all prerequisites for the courses they choose for the minor.

All theatre courses are open to students minoring in theatre arts except THTR:2140 Acting I, which is normally reserved for students earning the theatre arts major. Theatre arts minors who are interested in acting usually take THTR:1140 Basic Acting and THTR:1141 Basic Acting II. Then they may request permission to enroll in THTR:3140 Acting II. When enrollment allows, they also may request permission to take THTR:2140 Acting I.

The following courses are considered advanced for the minor.

</table>

Courses numbered 3000 or above, excluding THTR:3287 (some courses require special permission)

Contact the Department of Theatre Arts for more information about how to meet the requirements for the minor.
Theatre Arts, M.F.A.

Requirements

The Master of Fine Arts program in theatre arts requires 61-82 s.h. of graduate credit, depending on the student's specialty area. Students normally must complete six semesters in residence (internships may be substituted).

The graduate program is dedicated to creative development of theatre artists. Graduates have a solid background in major performance theories, dramatic literature, and practices of the past and present as well as in the craft of their chosen specialties.

Special attention is given to understanding the role and importance of live theatre in society. Interactions among the various theatre disciplines are emphasized, both in classes and through the department's extensive production program. Particular emphasis is placed on the development of new works for the theatre.

Students must make normal progress toward completion of the degree requirements to remain in the program: they must maintain a g.p.a. of at least 3.00 overall and in all course work within the primary area of concentration, and they must build a record of substantial creative work of high quality. Students who fail to make normal progress are placed on academic probation and given one additional semester to demonstrate their qualifications for earning the degree.

Contact the Department of Theatre Arts for specific information on any of the M.F.A. specialty areas.

Admission

Students who demonstrate exceptional ability in acting, directing, dramaturgy, playwriting, design, or stage management may apply for admission to the program of study and production leading to the M.F.A. Admission is based on an interview, audition, and/or a portfolio of relevant work, the undergraduate record or other proof of artistic accomplishment, and letters of recommendation.

Submission of playscripts is the most important element in gaining admission to the Playwrights Workshop.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

A graduate program in theatre develops not only talent but discipline, self-confidence, and personal vision. Through their work in courses and productions, through teaching and production assistantships, and through the intensive, individual mentoring they receive from faculty, graduate students prepare themselves to contribute to the nation's culture. They can then enter the profession, joining hundreds of other University of Iowa graduates who have made their mark in theatre, film, television, and the entertainment industry.
Translation

Director, Division of World Languages, Literatures, and Cultures
• Russell Ganim

Director, Translation Program
• Aron Aji (Asian and Slavic Languages and Literatures)

Graduate degree: M.F.A. in comparative literature—translation
Faculty: https://clas.uiowa.edu/dwllc/mfa-literary-translation/faculty
Website: https://clas.uiowa.edu/dwllc/mfa-literary-translation/home

Beginning with the country’s first translation workshop 50 years ago, literary translation has long been an integral part of the conversation about writing at the University of Iowa. The M.F.A. program in comparative literature—translation combines creative practice, international literature in-the-making, with training in world languages, literatures, and theory. The focus of the program is on creating translations into English that convey both the distinctness of the original and the immediacy of contemporary language.

The Translation Program enjoys close relationships with the University’s program in comparative literature; M.F.A. programs in creative writing (fiction, poetry, and Spanish creative writing), nonfiction writing, and playwriting; and the International Writing Program. Faculty members from departments in the Division of World Languages, Literatures, and Cultures provide resources for the Translation Program and often serve as language mentors and committee members for M.F.A. students in translation.

The Translation Program is administered by the Division of World Languages, Literatures, and Cultures (p. 312).

Resources

Student translators in the M.F.A. program publish Exchanges, a journal of literary translation. A vibrant source of international writing in translation, the journal provides hands-on editing and online publishing experience as well as an occasional venue for the editors’ own works. The M.F.A. program regularly hosts and cohosts conferences, invites speakers from around the world for readings and short-term residences, and is a constituent unit of the Virtual Writing University.

Programs

Graduate Program of Study
• Master of Fine Arts in Comparative Literature—Translation

Courses

Translation Courses

TRNS:2000 Translation and Global Society 3 s.h.
Contexts and functions of translation in the age of globalization; how translations are produced, received, and utilized in various contexts; effects of globalization on ethics, aesthetics, and politics of translation; how we understand cultures when they are received or transmitted through translation; effects of these exchanges on the English language.

TRNS:2007 Workshop in Literary Magazine
Publishing 2 s.h.
Hands-on introduction to literary magazine publishing; major differences between print and digital publishing, the processes of design, layout, soliciting work, editing copy, proofing, promotion, and distribution; University of Iowa and Iowa City community resources; editors and writers share their expertise through a series of informal question-and-answer sessions and task-based assignments.

TRNS:2017 Workshop in Literary Review Writing 2 s.h.
Hands-on introduction to literary review; process of selecting books (poetry, fiction, creative nonfiction) for review; writing, revising, and submission of work; University of Iowa and Iowa City community resources; editors and writers share their expertise through a series of informal question-and-answer sessions and task-based assignments.

TRNS:3179 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as ENGL:3850.

TRNS:3189 Undergraduate Translation Workshop II 3 s.h.
Continued training through translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Prerequisites: TRNS:2179.

TRNS:3201 Workshop in Japanese Literary Translation 3 s.h.
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as JPNS:3201.

TRNS:3202 Workshop in Chinese Literary Translation 3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as CHIN:3201.

TRNS:3481 Introduction to Computer-Assisted Translation 1 s.h.
Translation memory, terminology management, multimodal translation, and project management to increase proficiency in a range of technological skills; evolving translation technologies emphasize learning skills required to employ tools of today and effectively learn to use those of tomorrow; use of translation technology in freelance and agency settings from document receipt through delivery. Requirements: completion of General Education Program rhetoric and interpretation of literature requirements.

TRNS:3491 Translation Internship 1-3 s.h.
Translation internship. Requirements: permission of the program coordinator of the undergraduate minor in Translation for Global Literacy in consultation with the student’s advisor.

TRNS:3499 Undergraduate Translation Seminar 3 s.h.
Translation studies for undergraduates; topics related to practice of literary translation.
TRNS:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as ASIA:3700, JPN:3700, WLLC:3700.

TRNS:4050 Independent Study 1-3 s.h.
Focused study on topic of student's choosing under direction of faculty member. Requirements: permission of the student's academic advisor or the program coordinator of the undergraduate minor in Translation for Global Literacy.

TRNS:4100 Approaches to Critical Theory 3 s.h.
Introduction to major critical approaches in literary and cultural theory from a variety of traditions; studying existing models, students learn to think theoretically about language and society, and to orient themselves among existing theoretical discourses, interrogating the latter critically in terms of their own perspectives and theoretical needs; selections from influential works, shared class discussion, and presentations; no prior knowledge in the area of critical theory is presumed. Same as CL:4100.

TRNS:4480 Literature and Translation 3 s.h.
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as SLAV:4480.

TRNS:4497 Techniques of Translation 3 s.h.
Prerequisites: FREN:3300. Same as FREN:4890.

TRNS:4500 Undergraduate Capstone Project 0-3 s.h.
Culmination of undergraduate minor in Translation for Global Literacy; translation manuscript or a scholarly/research thesis on topics relevant to scope of minor. Requirements: approval of the program coordinator of the undergraduate minor in Translation for Global Literacy; consent of a faculty member willing to serve as director of the capstone project.

TRNS:5205 International Translation Workshop 1-3 s.h.
International writers pair with University of Iowa translators to write new works of poetry and fiction in English; second-language fluency not required for international writers. Same as IWP:5205.

TRNS:5491 Translation Internship arr.

TRNS:5500 Advanced Translation Practice 1-3 s.h.
Substantial translation project guided by a faculty advisor; readings and assignments designed to help translator with particular tasks and challenges presented by the project; translation and critical/reflective writing. Prerequisites: TRNS:6459 and TRNS:7460. Requirements: advanced-level translator in literary translation M.F.A. program.

TRNS:6050 Independent Study arr.

TRNS:6400 Thesis arr.
Translation thesis with critical introduction.

TRNS:6459 Issues in Translation 3 s.h.
Contemporary and historical theories.

TRNS:7460 Translation Workshop 4 s.h.
Requirements: at least one foreign language. Same as IWP:7460.
Comparative Literature—Translation, M.F.A.

Requirements

The Master of Fine Arts program in comparative literature—translation requires 48 s.h. of graduate credit, including a thesis. Students typically complete the program and graduate in two to three years.

Translators in the program focus on creating works that can convey the timelessness of the classics or the immediacy of new poetry, fiction, and drama. Students consider ideas of literariness, style, cultural politics, authority, and how these come into play in the relationships between authors and their texts, authors and translators, translations and readers, and in the media landscapes in which these all circulate.

The core of the M.F.A. program is TRNS:7460 Translation Workshop, which every student must take at least three times (minimum of 12 s.h. of credit). Depth in the literature and culture of the source language, creative writing (translation is considered a writing art), translation theory and history, and contemporary literary theory are basic curricular requirements, supplemented with elective courses in which students may develop an area of special interest in consultation with their advisors.

During the first year, each student has an advisory committee of two faculty members: one from the translation program, who is the student’s primary advisor; and one from a department in the Division of World Languages, Literatures, and Cultures or from one of the M.F.A. writing programs. A third member joins the committee during the second year, when a student submits the thesis proposal. At least one member of the committee should be competent in the student’s source language.

The M.F.A. in comparative literature—translation requires the following work.

Required Courses

All of these (36 s.h.):

TRNS:6459 Issues in Translation 3
TRNS:7460 Translation Workshop (taken at least three times) 12

Courses in literature and culture of the source language 9

Courses in creative writing (chosen in consultation with advisor) 6

Additional courses in theory or literature and culture (chosen in consultation with advisor) 6

Electives

Students earn 9 s.h. in electives of their choice, or from additional course work in translation:

TRNS:4480 Literature and Translation 3
TRNS:4497 Techniques of Translation 3
TRNS:5205 International Translation Workshop 1-3
TRNS:5500 Advanced Translation Practice 1-3
TRNS:5491 Translation Internship 1-2

Thesis and Examination

TRNS:6400 Thesis 3

Students earn 3 s.h. for the thesis, which is a translated collection of poems, literary essays, short stories, a short novel, or a drama with an introduction that sets the work in appropriate context. The introduction should include a critical discussion of issues and problems related to the translation; it should present a rationale for the translator’s approach and strategies, based on interpretation, analysis of the leading features, structure, style, or authorial objectives of the source text. The source text should be a work that has not been translated previously or, at the discretion of the advisory committee, a work whose previous translation is judged to be outdated or inadequate in some respect. An oral defense of the thesis examines the student’s translation and the introductory essay in detail.

Admission

Applicants to the M.F.A. program are evaluated mainly on a writing portfolio. The portfolio should include translations, including source texts, and an original critical literary essay or literary writing in English; a statement of purpose; and three letters of recommendation. Applicants should provide evidence of advanced competence in their source language—normally at least three years of college-level work or the equivalent—and substantial preparation in English literature. Availability of faculty expertise in the applicant’s source language and culture is considered in admission decisions.

All applicants must submit their scores on the Graduate Record Examination (GRE) General Test and transcripts from previous college-level study. Individuals whose first language is not English should provide scores on the Test of English as a Foreign Language (TOEFL).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

The program nominates up to two newly admitted, qualified students for the Iowa Arts Fellowship, a full-support fellowship awarded by the Graduate College each year. In addition, qualified students may receive teaching assistantships or part-time graduate assistantships. Students must apply for assistantships and other support; contact the Translation Program and the Office of Student Financial Aid for information.

Career Advancement

Graduates of the program have gone on to work in the world of professional publishing as editors and reviewers or as freelance translators; to become university professors after earning a Ph.D.; and to pursue other careers involving cross-cultural and artistic exchange. In recent years, publishers of works by Translation Program alumni have included Greywolf, Seven Stories, Autumn Hill Books, Melville House, Word Without Borders, The Iowa Review, 91st Meridian, TWO LINES Online, Circumference, The Literary Review, Passport, Absinthe, and others.
Translation for Global Literacy

Director, Division of World Languages, Literatures, and Cultures
• Russell Gamin

Coordinator, Translation for Global Literacy
• Aron Aji (Asian and Slavic Languages and Literatures)

Undergraduate minor: translation for global literacy
Website: https://clas.uiowa.edu/dwllc/translation-global-literacy

Literally every form of global exchange—from material goods and natural resources to knowledge, values, ideologies, and cultures—depends on translation across languages. Aided by the range of human migration, globalization has led to rich syntheses between and among cultures, languages, and sensibilities. Borders between countries have become tenuous in relation to transnational, multicultural, and multilingual realities.

The minor in translation for global literacy introduces undergraduate students to translation as a field and provides some basic course work and practice in translation from a world language to English. It encourages students to explore the topic and practice of translation as a crucial dimension of global literacy.

The minor in translation for global literacy is administered by the Division of World Languages, Literatures, and Cultures (p. 312).

Programs

Undergraduate Program of Study

Minor
• Minor in Translation for Global Literacy (p. 912)
Translation for Global Literacy, Minor

The minor in translation for global literacy requires a minimum of 18 s.h., including a minimum of 12 s.h. in courses taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. At least 12 s.h. of course work must be taken in courses numbered 2000 or above.

Students are encouraged to declare the minor after satisfying the General Education Program [p. 437] World Languages requirement or during more advanced language study. Most students who successfully complete the minor will need at least 6 s.h. of additional course work beyond the General Education requirement in language study. Students may count a maximum of 6 s.h. of course work taken for another major, minor, or certificate program toward the requirements for the minor.

All students can tailor their plan of study to their experience and objectives. Students interested in the minor should meet with a faculty member associated with the minor program as soon as possible to develop an individualized plan of study.

Courses listed in two or more categories may only be used toward one requirement.

The minor in translation for global literacy requires the following course work.

Graduate certificate: business analytics
Website: https://tippie.uiowa.edu/

The Henry B. Tippie College of Business is composed of six academic departments: accounting, economics, finance, management and organizations, management sciences, and marketing.

The college’s undergraduate and graduate programs are accredited by AACSB International—the Association to Advance Collegiate Schools of Business.

Research, executive development, and education activities are supported by these centers and institutes: Emmett J. Vaughan Institute of Risk Management and Insurance, Entrepreneurial Management Institute, Hawkinson Institute of Business Finance, Institute for International Business, Iowa Electronic Markets Institute, John Pappajohn Entrepreneurial Center, Judith R. Frank Business Communication Center, Marketing Institute, RSM Institute of Accounting Education and Research, Pomerantz Career Center, Small Business Development Center, and Tippie Business Solutions Center.

Integrity and honesty are essential to success in all facets of life. The purpose of the Tippie College Undergraduate Honor Code and the Tippie MBA Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code.

Facilities and Resources

The Henry B. Tippie College of Business is located in the John Pappajohn Business Building, at the heart of the campus. The Pappajohn Business Building contains seminar and conference rooms, a computer laboratory, two auditoriums, two computer classrooms, a behavioral laboratory, a restaurant (Pat's Diner), the Marvin A. Pomerantz Business Library, and a variety of classroom facilities.

The computer laboratory in the John Pappajohn Business Building serves the instructional programs of the college, and the staff maintains a current library of computational programs to accommodate users' needs. Business students also have access to the full range of services offered by the University’s Information Technology Services and the extensive research materials and other resources of the University of Iowa Libraries.

Alumni Relations

The Tippie College of Business alumni network numbers more than 47,000 graduates worldwide. Alumni have access to the college’s wide array of resources, including the in-house Office of Alumni Relations. The college’s assistant director of alumni relations and staff in the Undergraduate Program Office and the Tippie School of Management maintain relationships with alumni. Tippie Magazine is mailed to alumni who support the college.

The alumni office hosts individual visits, receptions, speakers, and other events on campus and in cities nationwide and around the world. Members of the Business Student Ambassadors, an undergraduate student organization, often serve as hosts and guides for alumni who visit the college, and the Young Alumni Board works to strengthen ties between the college and younger alumni.

Learn more about staying in touch, see About Tippie Alumni on the college’s website.

Programs

Undergraduate Programs of Study

The Tippie College of Business offers the Bachelor of Business Administration (B.B.A.) with majors in accounting, business analytics and information systems, economics, finance, management (including a distance education option), and marketing, and it collaborates with the College of Liberal Arts and Sciences to offer an undergraduate major in economics for Bachelor of Arts and Bachelor of Science students in economics. See Bachelor of Business Administration for information about B.B.A. requirements common to all of the majors as well as admission and academic rules and procedures for the B.B.A.; see the Tippie College of Business department sections in the Catalog for information about the individual majors. The college also offers joint undergraduate degrees with the College of Engineering and the College of Liberal Arts and Sciences; see “Joint Degrees” under Requirements [p. 931] in the Bachelor of Business Administration section of the Catalog. The John Pappajohn Entrepreneurial Center also collaborates with the College of Liberal Arts and Sciences to offer the Bachelor of Arts in Enterprise Leadership.

The college offers the undergraduate Certificate in Entrepreneurial Management and Certificate in Risk Management and Insurance. It collaborates with the College of Engineering to offer the Certificate in Technological Entrepreneurship and with the College of Liberal Arts and Sciences to offer the Certificate in International Business. The John Pappajohn Entrepreneurial Center collaborates with the College of Liberal Arts and Sciences to offer the Certificate in Arts Entrepreneurship.

The college also offers a minor in business administration [p. 936] for non-business students.
Graduate Programs of Study
The Tippie College of Business offers five graduate degree programs: the Master of Accountancy (M.Ac.), the Master of Business Administration (M.B.A.), the Master of Science in business analytics, the Doctor of Philosophy (Ph.D.) in business administration, and the Doctor of Philosophy in economics. For information about the M.Ac. and the Ph.D. in economics, see Accounting [p. 918] and Economics [p. 940] in the Catalog.

The college offers the graduate Certificate in Business Analytics. [p. 979] The certificate is administered by the Department of Management Sciences; the Graduate College awards the certificate.

The M.B.A. program is offered by the Tippie School of Management; see Master of Business Administration Program [p. 987] in the Catalog.

For a description of the Ph.D. in business administration, see Doctor of Philosophy [p. 938] in the Catalog. The Ph.D. is an interdepartmental degree; programs leading to the degree are offered by the Departments of Accounting [p. 918], Finance [p. 957], Management and Organizations [p. 964], Management Sciences [p. 971], and Marketing [p. 980].

CIMBA Italy
CIMBA Italy offers semester and summer study abroad programs for undergraduate and graduate students in Paderno del Grappa, Italy, northwest of Venice. Students who attend the programs come from a variety of public and private universities worldwide.

At CIMBA, students immerse themselves in a wide range of rigorous courses, including innovative leadership and development programming, while living amidst the Venetian countryside in one of the most popular travel and study destinations in the world. Business and cultural immersions begin for students the minute they arrive on campus. All courses are taught by English-speaking professors from top universities throughout the United States and Europe. For more information, see the CIMBA Italy website.

Entrepreneurial Management Institute
The Entrepreneurial Management Institute works with top entrepreneurship students in the B.B.A. in management (entrepreneurial management track); the B.A. in enterprise leadership; and those earning Certificates in Entrepreneurial Management, Technological Entrepreneurship, and Arts Entrepreneurship. Experienced business professionals and entrepreneurial leaders work with students to complete advanced strategic business planning projects for entrepreneurial firms. Students network with successful Iowa CEOs and business leaders, and have opportunities to enhance their professional project management, presentation, and business communication skills. Students also receive support for obtaining internships, career planning, and job placement.

Hawkinson Institute of Business Finance
The Hawkinson Institute of Business Finance facilitates career opportunities in investment banking and related fields for students in the Tippie College of Business. The institute sponsors the Hawkinson Scholars Program, which prepares high-achieving undergraduates for internships, and full-time jobs in the financial services industry. Criteria for admission to the institute include a strong academic record, involvement in campus and community activities, high motivation, good interpersonal skills, and demonstrated interest in business, markets, and corporate finance.

Hawkinson scholars participate in a course taught by former investment bankers and features guest speakers from leading banks, private equity firms, and hedge funds. Hawkinson scholars also receive intensive education in equity valuation, financial market dynamics, and more. An extensive network of dedicated Hawkinson alumni serve as mentors.

The Institute has worked to broaden entry-level employment opportunities for Iowa graduates, who land jobs at prestigious firms such as Goldman Sachs, Credit Suisse, Barclays, Bank of America, JP Morgan, and UBS. Graduating Hawkinson scholars enjoy a placement rate of 100 percent.

Institute for International Business
The Institute for International Business (IIB) is dedicated to advancing knowledge and skills in international business and education through research, education, and consultation. Using students as consultants, IIB works in partnership with the Entrepreneurial Management Institute to provide international business consulting services to small- and medium-sized Iowa companies who wish to pursue business opportunities globally.

Iowa Electronic Markets Institute
The Iowa Electronic Markets Institute supports scholarship in prediction markets and experimental economics. It operates the Iowa Electronic Markets (IEM), online futures markets where contract payoffs are based on real-world events such as political outcomes, companies’ earnings per share, and stock price returns. Known internationally as the genesis of modern prediction markets, the Iowa Electronic Markets are used as tools for research and teaching.
John Pappajohn Entrepreneurial Center

The John Pappajohn Entrepreneurial Center (JPEC) has developed a comprehensive, interdisciplinary program that combines advanced course work with experiential learning for University of Iowa students. The program prepares students to launch new ventures, manage growing companies, and apply entrepreneurship concepts in their careers. It is designed to empower students to accelerate their careers and pursue their dreams.

B.A. students in the Tippie College of Business who are majoring in management [p. 964] may complete the major’s entrepreneurship management track, and University of Iowa students working toward a bachelor’s degree may earn the Certificate in Entrepreneurial Management [p. 953]. Both programs are offered on campus at the business college as well as online through the Division of Continuing Education. Graduate and professional students across the University may enroll in advanced entrepreneurship courses; see Master of Business Administration Program [p. 987] in the Catalog.

Students in the College of Liberal Arts and Sciences may earn a Bachelor of Arts degree with a major in enterprise leadership. [p. 369] This program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, and leadership. The major in enterprise leadership is offered jointly by the John Pappajohn Entrepreneurial Center and the College of Liberal Arts and Sciences. The degree is awarded by the College of Liberal Arts and Sciences.

College of Liberal Arts and Sciences students may earn the Certificate in Entrepreneurial Management [p. 953] in addition to their undergraduate degree. Students earning a B.A. in enterprise leadership may not earn the Certificate in Entrepreneurial Management, Both programs are offered on campus and online. College of Engineering students may earn the Certificate in Technological Entrepreneurship [p. 1254] in addition to their undergraduate degree. Performing arts students may earn the Certificate in Arts Entrepreneurship [p. 123] in addition to their undergraduate degree.

JPEC also offers students many opportunities to develop their professional skills and network with entrepreneurial leaders and industry experts through the sponsorship of workshops and seminars, coordinating company visits and job crawls, supporting student participation at regional and national conferences, and fostering global awareness through international trips and consulting. JPEC also sponsors several student organizations designed to support students’ professional and career development.

For students who may want to pursue the creation of a new company and/or develop a new product or software application while at the University of Iowa, JPEC offers several programs and services to student entrepreneurs. The Founders Club is a student incubation program that combines training, mentoring, seed capital, and office facilities (Bedell Entrepreneurship Learning Laboratory) to support student businesses. The Summer Student Accelerator (Venture School) program and Startup Games are programs designed to help student teams identify new business opportunities and work on their plans to launch a business. Several campus, statewide, and national funding competitions also are available to support student startups.

JPEC offers programs and services to community members to enhance the region and state’s entrepreneurial ecosystem. These include Venture School (intensive entrepreneurial training program), faculty student consulting services through the Entrepreneurial Management Institute, the Institute for International Business and JPEC’s business consulting class, mentoring through the Small Business Development Center, and numerous workshops and networking events. JPEC partners with entrepreneurial service organizations, economic development organizations and private sector businesses to advance entrepreneurship and economic development across Iowa. The Jacobson Institute for Youth Entrepreneurship provides training to high school teachers and specialized entrepreneurship and Science, Technology, Engineering, and Math (STEM) curriculum to foster the development of innovation and entrepreneurship skills in youth.

Judith R. Frank Business Communication Center

The Judith R. Frank Business Communication Center provides one-on-one tutoring to Tippie College of Business undergraduates and M.B.A. students for writing assignments, projects, and case studies. The Frank Business Communication Center also provides summer writing support and instruction to Tippie Ph.D. students and oversees the Department of Accounting writing program. The center’s staff includes graduate students with expertise in writing and undergraduate peer tutors who have completed a semester-long peer tutor training course. Communication consultants are available on staff to help students with speech presentations or other oral communication assignments.

The Center’s course-dedicated consulting program helps faculty and students plan and prepare for required writing projects. Center staff members work closely with faculty members to study assignment requirements, develop handouts and assessment rubrics, and deliver class or workshop presentations to students on how to meet the expectations of the assignment. They also provide ongoing training and mentoring to the center’s undergraduate peer tutors.

The Frank Business Communication Center serves as a resource for the college’s international students. It offers targeted programming that promotes fluency in written and spoken English. It also provides programming to support cross-cultural sensitivity and communication, including English Language Discussion Circles and sessions for staff and faculty on how to pronounce Chinese names.

The Frank Business Communication Center oversees the B.B.A. core course BUS:3000 Business Communication and Protocol; the peer tutor training courses BUS:3900 Business Communication Internship I and BUS:3910 Business Communication Internship II; and the electives BUS:3200 Advanced Business Presentation Workshop; Strategy and Implementation and BUS:3800 Business Writing. In addition, the center’s staff adjudicates the annual Mary Thomas Prappas Business Ethics Essay Competition and helps prepare Tippie College of Business undergraduates for national case competitions.

Marketing Institute

The Marketing Institute prepares students for today’s diverse and competitive job market in many areas of marketing, including market research, brand management, marketing communication, advertising, and sales. The Marketing Institute is a three-semester program; classes meet during
the day and students earn 6 elective s.h. Students also earn credit toward the Tippie College of Business experiential learning requirement, RISE. Undergraduate students apply in the fall; 16 are selected to join. Admission criteria includes academic performance, leadership, interpersonal skills, and executive potential. Field immersion projects are a major component of the institute’s program. In the field projects, students work as consultants for a variety of clients, including multi-million or billion-dollar businesses, gaining hands-on experience in identifying and solving marketing-related issues and problems. In addition, students are advised and mentored by an advisory board of top executives from companies that include Kraft, Hormel, Mead Johnson, Kimberly Clark, Principal Financial Group, Neiman Marcus, John Deere, and Amperage Advertising & Marketing. The Marketing Institute and its advisory board work together to foster internship opportunities and provide career guidance that helps students use their skills and talents to develop rewarding careers.

Pomerantz Career Center

Career development and on-campus recruiting services are provided by the Marvin A. and Rose Lee Pomerantz Career Center. Professional career advisors and online resources provide University undergraduate students with assistance on résumés, cover letters, internship and job searches, employer research, interviewing skills, negotiation of job offers, as well as walk-in sessions with trained student career peer advisors. The center's Find Your Focus program helps students choose a major and identify careers related to specific majors. The center also presents multiple fall and spring semester career fairs. Campus recruitment is facilitated through HireaHawk. Students may participate in mock interviews and on-campus interviews for full-time positions and internships during the academic year. Students also can search and apply for student employment positions. Additionally, the center offers career-related and professional development courses such as LS:2002 Career Leadership Academy Part 1, LS:3002 Career Leadership Academy Part 2, CCP:1300 Career Exploration, and CCP:1303 Successful Teamwork for the Workplace. For more information, contact the Pomerantz Career Center.

RSM Institute of Accounting Education and Research

The RSM Institute of Accounting Education and Research fosters educational excellence in accounting at the University of Iowa, encourages high-quality research by Iowa accounting faculty members, and fosters the development of doctoral students in accounting. The institute sponsors varied educational initiatives and activities, including an annual national speaker series, the biennial Sidney Winter Lecture Series, and the PricewaterhouseCoopers Accounting Research Workshop.

Small Business Development Center

Since 1981, the University of Iowa Small Business Development Center has played an important role in helping enterprising Iowans manage or start their own successful businesses. The center provides support for small business owners and entrepreneurs. Its personnel are trained to meet the varied needs of small business management, including marketing, financing, human resource planning, cash flow analysis, product commercialization, market research and analysis, strategic planning, international trade, and advertising.

**Tippie Business Solutions Center**

The Tippie Business Solutions Center provides full-time M.B.A. students with opportunities to engage in strategic consulting projects with companies ranging from mid-sized firms to Fortune 500 companies in Iowa and around the world. The center organizes high potential, cross-functional work teams possessing the right mix of skills and knowledge to assist business clients in advancing critical initiatives. Each project team applies rigorous analytical business tools and techniques to research circumstances. Students meet with representatives from the client company, analyze the situation, and provide actionable recommendations and implementation plans for the client to pursue.

**Courses**

Most Tippie College of Business courses are offered by the college’s departments and programs. They are listed and described in the corresponding Catalog sections.

The college also offers the following nondepartmental courses for undergraduate students.

**Tippie College of Business Courses**

**BUS:1200 Tippie College Direct Admit Seminar** 1 s.h.
Facilitates a more seamless transition to the University of Iowa and Tippie College of Business; weekly lectures from notable faculty and business executives, small group discussions; weekly topics include leadership, civic engagement, major and career exploration, and building a personal brand. Requirements: admitted to the direct admission program.

**BUS:1999 Introduction to Research in Business** 1 s.h.
Introduction to research in business, including scope and methods of business research, questions for which business research seeks answers, and impact of business research on society; weekly seminars include discussion and exploration and serve as preparation for engaging in mentored research. Same as ECON:1999.

**BUS:2013 Introduction to Sustainability** arr.
Introduction to sustainability knowledge, skills, and habits as a means to shape one’s vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). Same as GEOG:2013, URP:2013.

**BUS:2150 Tippie College Admission Writing Workshop** 0 s.h.
Development and refinement of macro-level writing skills; focus on thesis statement and topic sentence construction, paragraph organization, and precision in language choices. Requirements: application to Tippie College of Business and eligible to enroll in workshop.

**BUS:2300 Searching for Business Information** 1 s.h.
Search concepts and sources specific to business information; subscription and government online research sites.
BUS:2450 Business and Culture in China 3 s.h.
Business and cultural environment of China; lectures, readings, case studies, company visits, and immersion in cultural experiences; Chinese history, politics, business, economics, and culture; topics may include Chinese business culture and relationships, local companies going global, business strategies of multinational companies in Chinese market; United States-China trade relations, entrepreneurship, Chinese consumer, sustainability and social responsibility; two-week study program in China. Prerequisites: a minimum g.p.a. of 2.75 and ECON:1100 and ECON:1200. Requirements: UI and cumulative g.p.a. of 2.75.

BUS:2500 International Perspectives Program I 0 s.h.
First in a two-course sequence; orientation to International Perspectives Program (IPP) community; introduction to the concept of an academic study map; development of an individual strategy towards academic study maps; begin foundational introduction to materials covered in BUS:2510, including an introduction to concepts of identity and culture from macro and micro perspectives; required seminar for all first-year IPP students. Requirements: admission to the International Perspectives Program.

BUS:2510 International Perspectives Program II 1 s.h.
Continuation BUS:2500; exploration of concepts of identity and culture from both a macro and micro perspective; how culture and background impact how students think about and understand the world; exploration of having built-in assumptions about the world and why in some circumstances the ability to challenge those assumptions can be useful; study of cross-cultural communication. Requirements: admission to the International Perspectives Program.

BUS:2520 IPP Capstone Project 2 s.h.
Enhancement of foreign language studies and study abroad experiences; students select a topic of interest to explore an aspect of a study abroad country and culture in greater depth; creation of real-world interactions with people in host communities to utilize and develop language skills. Requirements: admission to the International Perspectives Program.

BUS:3000 Business Communication and Protocol 3 s.h.
Foundation in business communication and protocol; composing business messages, organizing and reporting workplace data, developing business presentation and team-building skills, exploring issues pertaining to professional behavior. Prerequisites: RHET:1030 or (RHET:1040 and RHET:1060). Requirements: admission to Tippie College of Business and 30 s.h. earned.

BUS:3050 Business, Culture, and Society 3 s.h.
International business environment and interpersonal traits and skills expected of successful international businessperson; interdisciplinary overview of issues related to business in Western Europe; important cultural differences, the code of business and professional etiquette, business protocol, Italian business history, cultural appreciation, and executive legal/ethical concerns in the workplace; series of lectures, workshops, speakers, plant tours, and cultural events.

BUS:3100 Academic Internship or Cooperative Education 0 s.h.
Participation in an internship or cooperative education; fulfills Tippie College of Business experiential learning requirement.

BUS:3200 Advanced Business Presentation Workshop: Strategy and Implementation 2 s.h.
Advanced oral business presentation skills for solo, paired, and team presentations; suitable for students considering participating in case competitions; emphasis on articulating a particular strategy for an oral presentation and three areas of implementation—content structuring, visual design of PowerPoint slides, and vocal and physical delivery; how to integrate presentation technologies effectively, evaluate other speakers, speak clearly, use gestures appropriately, and engage the audience during the presentation and in question-and-answer sessions. Prerequisites: BUS:3000 with a minimum grade of B.

BUS:3400 Business Student Ambassador Seminar 1 s.h.
Experiences as a Business Student Ambassador providing tours of the John Pappajohn Building, acting as hosts at college functions, providing information and assistance to visiting groups, assisting student recruitment activities. Requirements: admission to Tippie College of Business and acceptance as a Business Student Ambassador.

BUS:3500 Tippie Senate 1 s.h.
For elected student representatives on the Tippie Senate.

BUS:3600 Mentored Research arr.
Business research conducted by undergraduate students under faculty supervision.

BUS:3800 Business Writing 3 s.h.
Series of practical projects; development of effective and persuasive business communication and analytical skills in public relations context.

BUS:3900 Business Communication Internship I 3 s.h.
Opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center.

BUS:3910 Business Communication Internship II 1-3 s.h.
Continuation of BUS:3900; opportunity for students to earn academic credit for serving as a peer tutor, an orientation and training assistant, or an administrative intern in the Judith R. Frank Business Communications Center. Prerequisites: BUS:3900.

BUS:3999 Honors Seminar 1-3 s.h.

BUS:4900 Academic Internship arr.
Professional internship experience with associated academic credit; fulfills Tippie College of Business experiential learning requirement.
Accounting

Chair
- Daniel W. Collins

Director, Undergraduate Program
- Kevin Den Adel

Director, Master of Accountancy
- Thomas J. Carroll

Director, Ph.D. Program
- Paul Hribar

Director, RSM Institute of Accounting Education and Research
- Ramji Balakrishnan

Undergraduate major: accounting (B.B.A.)
Graduate degrees: M.Ac.; accounting subprogram for the Ph.D. in business administration
Faculty: https://tippie.uiowa.edu/people?departments=Accounting&category=75
Website: https://tippie.uiowa.edu/accounting

The Department of Accounting offers a broad education that prepares undergraduate and graduate students for careers in public accounting, private industry, government, nonprofit organizations, and academia.

The department also collaborates with the College of Law to offer the joint M.Ac./J.D. program; see “Joint M.Ac./J.D.” under Master of Accountancy Requirements [p. 923] in this section of the Catalog. It also participates in the M.B.A. program, which is offered by the Tippie School of Management; see Master of Business Administration Program [p. 927] in the Catalog.

Professional Program in Accounting

The Professional Program in Accounting draws on curricula that provide a strong base of traditional technical subject matter and the skills needed for solving complex business problems. This framework of study enables students to continue professional growth over the entire span of their careers. The program emphasizes communication skills and provides the academic background required for leadership positions in business, government, and public accounting. It also qualifies students to take the Certified Public Accountant (CPA) examination.

The Professional Program in Accounting leads to a Bachelor of Business Administration with a major in accounting, which requires 120 s.h. of credit and the Master of Accountancy, which requires 30 s.h. of graduate credit. Students are granted the B.B.A. upon successful completion of the third and fourth years of the Professional Program in Accounting; they are granted the M.Ac. after successful completion of 30 s.h. beyond the B.B.A.

Faculty

The department’s faculty members stay current in their discipline by producing and disseminating accounting-related knowledge. They keep abreast of the latest developments in the field of education and the profession by participating in educational conferences and seminars and publishing in leading academic journals.

Courses

Accounting Courses

ACCT:1300 First-Year Seminar 1 s.h.
Small discussion class taught by faculty member; topics chosen by instructor; may include outside activities (e.g., films, readings, visits to research facilities).

ACCT:2100 Introduction to Financial Accounting 3 s.h.
Accounting and financial reporting procedures used by business and not-for-profit entities; emphasis on accounting concepts and use of accounting information in making economic decisions. Requirements: sophomore or higher standing.

ACCT:2200 Managerial Accounting 3 s.h.
Basic topics in cost behavior, measurement, accumulation; use of cost data for relevant analysis, budgeting, performance evaluation. Prerequisites: ECON:1100 and ACCT:2100 and (MATH:1850 or MATH:1550 or MATH:1460 or MATH:1860 or MATH:1380).

ACCT:3020 Financial Accounting and Reporting 3 s.h.
External financial reporting practices in context of decisions by management, current and potential stockholders, financial analysts; emphasis on interpretation, use of financial statements. Prerequisites: ACCT:2200. Requirements: non-accounting major.

ACCT:3100 Professional Accounting Seminar 1 s.h.
Seminar topics, including accounting careers, curriculum, M.Ac. program, internships, CPA examination and other professional certificates, Beta Alpha Psi, ethics, and global standards. Offered fall semesters. Corequisites: ACCT:2200 or ACCT:3200.

ACCT:3200 Income Measurement and Asset Valuation 3 s.h.
Accounting rules that determine how economic events and transactions are described in published financial reports; emphasis on revenue and expense recognition, asset valuation, accrual accounting model. Corequisites: ACCT:3400. Requirements: admission to Professional Program in Accounting.

ACCT:3300 Valuation of Financial Claims 3 s.h.
ACCT:3400 Introduction to Taxation 3 s.h.  
Federal income taxation of individuals and businesses, including corporations, partnerships, and sole proprietorships; emphasis on developing a broad perspective on structure, administration, and rationale of federal income tax system. Prerequisites: ACCT:3200. Requirements: admission to Professional Program in Accounting.

ACCT:3450 Tax Practicum (VITA) I 1-2 s.h.  
Transformative opportunity to work on real world tax problems with real clients; application of skills learned in classroom to real world problems; development of crucial accounting career soft skills including communication (explaining complicated ideas in simple language), moving out of one's comfort zone, working as a team, and having an appreciation for the importance of community service. Corequisites: ACCT:3400. Requirements: acceptance to undergraduate accounting program.

ACCT:3451 Tax Practicum (VITA) II 2 s.h.  
Transformative opportunity to work on real world tax problems with real clients; application of skills learned in classroom to real world problems; development of crucial accounting career soft skills including communication (explaining complicated ideas in simple language), moving out of one's comfort zone, working as a team, and having an appreciation for importance of community service. Prerequisites: ACCT:3450.

ACCT:3500 Advanced Tax Topics 3 s.h.  
Taxation of corporations and partnerships from organization through liquidation; relative merits of conducting business as C corporation, partnership, S corporation; the alternative minimum tax; introduction to tax research. Prerequisites: ACCT:3400. Requirements: senior standing.

ACCT:3550 Financial Statement Analysis 3 s.h.  
How to analyze published financial statements; practical experience using financial statement information to assess accounting quality, historical performance, forecasted performance, credit risk, firm value. Prerequisites: ACCT:3020.

ACCT:3600 Accounting Information Systems 3 s.h.  
Application of computer technology to accounting and transaction processing systems; information systems infrastructure and trends; problem solving with microcomputer spreadsheets, databases; accounting cycle operations. Prerequisites: (MSCI:3005 or CS:2110) and ACCT:2200 and ACCT:2100. Same as MSCI:3100.

ACCT:4000 Special Topics in Accounting 1-3 s.h.  
Independent study topics determined by faculty member.

ACCT:4001 Continuing Education: Special Topics in Accounting arr.  
Individual guided readings in accounting topics. Requirements: admission to Professional Program in Accounting.

ACCT:4100 Auditing 3 s.h.  
General framework underlying auditing, role of audit standards in planning and conduct of audits, effect of regulation, ethics, liability on audit practices. Prerequisites: ACCT:3300 and (ECON:2800 or ECON:4800 or STAT:2020 with a minimum grade of B or STAT:4101) and MSCI:3100 and ACCT:3100. Requirements: senior standing.

ACCT:4200 Accounting for Management Analysis and Control 3 s.h.  
Advanced topics in cost estimation, measurement, accumulation; use of cost data for decision making, performance evaluation in multi-unit organizations. Prerequisites: (STAT:2020 with a minimum grade of B or ECON:4800 or STAT:4101 or ECON:2800) and (CS:2110 or MSCI:3005). Requirements: admission to Professional Program in Accounting.

ACCT:4300 Business Law 3 s.h.  
Legal issues involving contracts, sale of goods, agency and partnership law, business structures including corporations and limited liability companies, employment law, and an overview of accountant's legal liability and securities regulation. Prerequisites: MGMT:2000. Requirements: senior standing.

ACCT:4400 Advanced Financial Accounting 3 s.h.  
Accounting and reporting standards for business combinations, including mergers, consolidations, and multinational enterprises; accounting for partnerships, business segments, transactions denominated in foreign currency, including hedges using foreign currency derivative instruments; reporting standards for interim financial statements and fund accounting applied to government and nonprofit entities. Prerequisites: ACCT:3300. Requirements: senior standing.

ACCT:4500 Accounting Measurement: Research and Analysis 3 s.h.  
How uncertainty and risk influence accounting judgments, estimates, and forecasts that underlie reported financial statement amounts; applications drawn from familiar accounting measurement challenges and those unique to industries (e.g., airline transportation, healthcare, insurance, gaming, oil and gas exploration). Prerequisites: ACCT:3300. Corequisites: ACCT:4100.

ACCT:4900 Academic Internship 1 s.h.  
Professional internship experience.

ACCT:4999 Honors Thesis in Accounting 3 s.h.  
Independent student project directed by faculty or staff advisor; culminates in thesis that conforms to University Honors Program guidelines; may include empirical research, library research, applied projects. Requirements: admission to the Tippie College of Business honors program.

ACCT:7850 Seminar in Accounting Research arr.  
Forum on current research in accounting, related disciplines; faculty, student, guest papers, Ph.D. dissertation proposals. Requirements: Ph.D. enrollment.

ACCT:7900 Seminar in Selected Accounting Topics arr.  
Individual study, research paper preparation. Requirements: Ph.D. enrollment.

Requirements: Ph.D. enrollment.

ACCT:9020 Strategic Cost Analysis 2-3 s.h.  
Introduction to cost accumulation, reporting, cost management systems, managerial and divisional performance evaluation; appropriate use of cost data for short- and long-run decisions; product costing in manufacturing and service industries. Prerequisites: MBA:8140.
ACCT:9030 Financial Accounting Standards and Analysis 2-3 s.h.
Accounting model, underlying measurement concepts, valuation rules for assets, liabilities, related issues of income determination; emphasis on economic substance of transactions, evaluation and interpretation of financial data. Prerequisites: MBA:8140.

ACCT:9040 Financial Information and Capital Markets 3 s.h.
Use of corporate financial statements for investment and lending decisions; emphasis on financial analysis techniques, valuation, business analysis, cash flow projections, credit scoring, related research evidence. Prerequisites: MBA:8180 and ((ACCT:3200 and ACCT:3300) or MBA:8140).

ACCT:9050 Taxes and Business Strategy 2-3 s.h.
Effect of taxes on business decisions, including investment strategies, capital structure decisions, compensation policies, international business, mergers and acquisitions, and financial reporting. Prerequisites: ACCT:3500 or MBA:8140 or LAW:8194. Requirements: graduate standing in business.

ACCT:9120 Design and Use of Cost Management Systems 3 s.h.
Development of cost accumulation and reporting systems that complement a firm's strategy and structure; how activity-based cost management systems increase competitiveness by helping a firm manage its costs, processes, people. Prerequisites: ACCT:4200 or ACCT:9020.

ACCT:9130 Financial Reporting: Theory and Practice 3 s.h.

ACCT:9140 Advanced Auditing 3 s.h.
Advanced issues such as ethics, internal control audits, forensic auditing, and fair value auditing. Prerequisites: ACCT:4100. Requirements: graduate standing in business.

ACCT:9150 Tax Research 3 s.h.
Understanding the validity and use of various tax law sources; performing tax research using printed and electronic tax materials; evaluation of tax law provisions and application to specific facts and circumstances; preparing tax memorandums. Prerequisites: ACCT:3500. Requirements: admission to M.Ac. program.
Accounting, B.B.A.

Students who wish to earn the Bachelor of Business Administration with a major in accounting must be admitted to the Professional Program in Accounting. Undergraduate accounting majors are subject to the probation and dismissal rules described in the Bachelor of Business Administration [p. 927] section of the Catalog and are governed by the Tippie College Undergraduate Honor Code.

The B.B.A. is not sufficient preparation for CPA licensure in states that have passed a 150-hour law, including Iowa.

Requirements

The Bachelor of Business Administration with a major in accounting requires a minimum of 120 s.h., including at least 25 s.h. of work for the major. Students must be admitted to the Professional Program in Accounting in order to major in accounting. Course work in the program provides concentrated coverage of professional accounting subjects and closely related topics in commercial law, business, and information systems.

To enter the Professional Program in Accounting, undergraduates must be admitted to the Tippie College of Business. They must have a University of Iowa g.p.a. of at least 3.00 and a cumulative g.p.a. of at least 3.00; a g.p.a. of at least 2.67 (B-minus average) in ACCT:2100 Introduction to Financial Accounting and ACCT:2200 Managerial Accounting; and a passing score on the Department of Accounting writing assessment. Students who wish to declare accounting as a major but do not satisfy the automatic admission requirements may still apply to the professional program; applications are reviewed case-by-case.

Students usually spend the first and second year taking prerequisites and other course work required for all B.B.A. students. To view B.B.A. common requirements, see Bachelor of Business Administration [p. 931] in the Catalog.

Accounting Major

The major in accounting requires the following work during the third and fourth years.

Third Year

The business core requirements (FIN:3000 Introductory Financial Management, MGMT:2000 Introduction to Law, MGMT:2100 Introduction to Management, MSCI:3000 Operations Management, and MKTG:3000 Introduction to Marketing Strategy) may be taken in any sequence, preferably before the fourth year; MGMT:2000 Introduction to Law is a prerequisite to ACCT:4300 Business Law, so it should be taken before spring semester of the fourth year. Students must complete BUS:3000 Business Communication and Protocol during their first year after admission to the Tippie College of Business.

Due to overlap in course content, accounting majors may not count ACCT:3020 Financial Accounting and Reporting toward the B.B.A. degree.

Fall Semester

ACCT:3100 Professional Accounting Seminar (must be taken by the second semester in the professional program) 1

ACCT:3200 Income Measurement and Asset Valuation 3

ACCT:3400 Introduction to Taxation 3

BUS:3000 Business Communication and Protocol (taken first year after admission to the college) 3

One business core requirement 3

Elective 3

Spring Semester

ACCT:3300 Valuation of Financial Claims 3

ACCT:3600 Accounting Information Systems 3

Two business core requirements 6

Elective 3

Summer: GMAT and Admission to the M.Ac.

Students who intend to continue in the Professional Program in Accounting after receiving the B.B.A. should take the Graduate Management Admission Test (GMAT) during the summer before their senior year, as preparation for applying to the Master of Accountancy program.

Fourth Year

Fall Semester

ACCT:4100 Auditing 3

One accounting elective 3

One business core requirement 3

Two electives 6

Spring Semester

ACCT:4200 Accounting for Management Analysis and Control 3

ACCT:4300 Business Law 3

One accounting elective (if not taken fall semester) 3

Two or three electives 6-9

Students must choose one of the following accounting electives during their fourth year.

ACCT:3500 Advanced Tax Topics (offered fall only) 3

ACCT:4400 Advanced Financial Accounting (offered spring only) 3

Optional Accounting Elective

All undergraduates, whether admitted to the M.Ac. program or not, may take ACCT:4900 Academic Internship for 1 s.h. in fall, spring, or summer. Department consent is required.

1. BUS:3000 Business Communication and Protocol must be taken in the first semester after admission to the Tippie College of Business. Direct admits take BUS:3000 their second year.

---

**Career Advancement**

Over 90 percent of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit What Can I Do with a Major in Accounting on the Pomerantz Career Center website.
Master of Accountancy, M.Ac.

The M.Ac. is a nonthesis program. Course work focuses on the conceptual and economic foundations of accounting with applications to current and emerging problems of professional practice. M.Ac. students also have the opportunity to acquire expertise in one of four specialization areas: financial accounting/auditing, business analytics, taxation, and managerial accounting.

Graduate students in accounting are subject to the probation and dismissal rules of the Graduate College and are governed by the full-time M.B.A. honor code.

Requirements

The Master of Accountancy requires 30 s.h. beyond the B.B.A. The program permits students to specialize in accounting areas according to their interests and objectives. It builds on the technical skills acquired in the undergraduate program, broadens students’ perspectives on the role of accounting in organizations and decision making, and further develops written and oral communication skills.

Students from a variety of academic backgrounds enter the M.Ac. program. Those who enter with an undergraduate degree in accounting can expect to complete the degree in 12 months. Those who enter with a non-accounting undergraduate degree typically require four semesters to complete the M.Ac. Study plans are adjusted to reflect each student’s particular academic background; see "Students Without Undergraduate Accounting Degrees" below.

The 30 s.h. required for the M.Ac. must include at least 12 s.h. in graduate-level accounting courses and at least 21 s.h. in courses numbered 5000 or above. Some work for the specialization areas is cross-disciplinary, with courses from other departments as well as accounting.

The M.Ac. requires the following course work. Students complete the requirements for their chosen specialization or for the core program.

Specialization in Financial Accounting/Auditing

**Accounting Courses**
Total of 12 s.h.

All of these:
- ACCT:9040 Financial Information and Capital Markets 3
- ACCT:9140 Advanced Auditing 3

One of these:
- ACCT:9050 Taxes and Business Strategy 3
- ACCT:9120 Design and Use of Cost Management Systems 3

**Business Analytics Courses**
Total of 6 s.h.

- MSCI:9210 Introduction to Modeling with VBA 3
- MSCI:9230 Database Systems 3

Specialization in Taxation

**Accounting Courses**
Total of 9 s.h.

Two of these:
- ACCT:9120 Design and Use of Cost Management Systems 3
- ACCT:9140 Advanced Auditing 3

One of these (not already taken):
- ACCT:9040 Financial Information and Capital Markets 3
- ACCT:9120 Design and Use of Cost Management Systems 3

**Taxation Courses**
Total of 12 s.h.

- ACCT:9050 Taxes and Business Strategy 3

**Finance Courses**
Total of 6 s.h.

- MBA:8180 Managerial Finance (requires consent of M.B.A. office) 3
- One additional finance course numbered above 5000 3

**General Electives**
Total of 6 s.h.

**Specialization in Business Analytics**

**Accounting Courses**
Total of 12 s.h.

- ACCT:9120 Design and Use of Cost Management Systems 3

Two of these:
- ACCT:9050 Taxes and Business Strategy 3
- ACCT:9140 Advanced Auditing 3

One of these (not already taken):
- ACCT:9040 Financial Information and Capital Markets 3
- ACCT:9050 Taxes and Business Strategy 3

**Business Analytics Courses**
Total of 12 s.h.

- MSCI:9210 Introduction to Modeling with VBA 3

Three business analytics courses (prefix CS or MSCI) numbered above 5000 9

**General Electives**
Total of 6 s.h.

6

### Students Without Undergraduate Accounting Degrees

Course work for students who enter the program with a non-accounting bachelor's degree is determined by each student's background and interest area. In addition to meeting the core program requirements for the M.Ac., students typically take a combination of undergraduate and M.B.A. courses to remove academic deficiencies in quantitative methods, business, and accounting. Students with a bachelor's degree in another area of business typically are required to take 45-51 s.h. in order to complete the M.Ac. program. Those with degrees outside of business and with no accounting courses typically are required to take 57-60 s.h.

### CPA Examination and the Iowa Accountancy Act

The Iowa Accountancy Act requires individuals who wish to take the CPA examination to have a bachelor's degree, 24 s.h. of business course work, and 24 s.h. of accounting course work beyond ACCT:2100 Introduction to Financial Accounting.

### Joint M.Ac./J.D.

The Department of Accounting and the College of Law offer the joint Master of Accountancy/Juris Doctor program. The joint M.Ac./J.D. requires a minimum of 18 s.h. of graduate course work in accounting. Students in the program may count up to 12 s.h. of College of Law courses as electives for the M.Ac. and up to 12 s.h. of graduate accounting courses as electives for the J.D. Separate application to each degree program is required; applicants must be admitted to each program before they may be admitted to the joint program.

For information about the J.D. degree, see the College of Law [p. 1326] section of the Catalog.

### Admission

Admission to the M.Ac. program is competitive. The admissions committee reviews applications individually, considering quantitative aspects (grade-point average and GMAT scores) and qualitative aspects of each applicant’s background and professional experience (if applicable) to assess an applicant's potential for academic success and professional growth.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Application materials must include the following: the Application for Graduate Admission; official transcripts of all undergraduate and graduate course work submitted by each institution an applicant has attended; official scores
on the Graduate Management Admission Test (GMAT); a supplemental application form with essay responses; a résumé and cover letter; and at least three letters of reference from former instructors or employers. (B.B.A. accounting students at the University of Iowa are not required to provide letters of reference.)

Applicants whose first language is not English must score at least 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

University of Iowa undergraduate accounting students are encouraged to take the Graduate Management Admission Test (GMAT) the summer before their senior year. They may apply to the M.Ac. after December 1 of their fourth year. See “Application Deadlines” below.

For complete information about application procedures, contact the Department of Accounting.

**Application Deadlines**

The Department of Accounting admissions committee reviews completed M.Ac. application files (which must include official GMAT scores) on five dates: March 1, April 15, July 15, October 1, and December 1. Applications are reviewed on these dates regardless of whether the applicant plans to begin the M.Ac. program in the fall semester (August), spring semester (January), or summer session (June). Final Graduate College application deadlines are as follows.

- **Fall semester entry:** July 15 (April 15 for international students)
- **Spring semester entry:** December 1 (October 1 for international students)
- **Summer session entry:** April 15 (March 1 for international students)

Students who wish to apply for a teaching assistantship must apply to the M.Ac. program no later than March 1.

**Career Advancement**

Over 90 percent of students reported that they found permanent employment, were accepted to graduate school, or were not seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs; for more information about careers, visit What Can I Do with a Major in Accounting on the Pomerantz Career Center website.
Doctor of Philosophy

Graduate students in accounting may earn a Doctor of Philosophy in business administration. For a description of the Ph.D. program and requirements, see Doctor of Philosophy [p. 939] (Tippie College of Business) in the Catalog and visit the Department of Accounting website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Application materials must include the applicant’s score on the Graduate Management Admission Test (GMAT).
Bachelor of Business Administration

Undergraduate major: B.B.A.  
Website: https://tippie.uiowa.edu/

The Bachelor of Business Administration is offered with majors in accounting, business analytics and information systems, economics, finance, management, and marketing. The major in management with the entrepreneurial management track includes a distance education option.

This Catalog section provides information about requirements that all B.B.A. students must fulfill, regardless of their major, as well as admission information and academic rules and procedures for the B.B.A. For information about the individual majors, see Accounting [p. 918], Economics [p. 940], Finance [p. 957], Management and Organizations [p. 964], Management Sciences [p. 971], and Marketing [p. 980] in the Catalog.

Students may earn double majors in the B.B.A.; they also may earn joint degrees in the College of Engineering or the College of Liberal Arts and Sciences. See “Double Majors in Business” and “Joint Degrees” in the Bachelor of Business Administration Requirements [p. 931] section. Many business students earn one or more certificates and minors offered in disciplines across the University; see “Minors” and “Certificates” below.

The Tippie College of Business’s undergraduate and graduate programs are accredited by AACSB International—the Association to Advance Collegiate Schools of Business.

Undergraduate Advising

All business students are advised at the business college's Undergraduate Program Office. Pre-business students are advised at the University’s Academic Advising Center or the college’s Undergraduate Program Office. Assignment to the Undergraduate Program Office for advising depends on a student’s grade-point average and completion of calculus and statistics. Drop-in hours and scheduled appointments are available at both offices. For more information on advising, contact the college’s Undergraduate Program Office or the University’s Academic Advising Center.

Honor Code

Integrity and honesty are essential to success in all facets of life. The purpose of the Tippie College Undergraduate Honor Code is to promote honorable and ethical behavior. Students admitted to the college or enrolled in courses offered by the college are required to uphold the honor code.

Minors

Bachelor of Business Administration students may earn minors in a number of disciplines. For example, students interested in international business might choose to earn a minor in a second language. For a list of minors and links to the departments and programs that offer them, see Find Your Program and select undergraduate minors.

Students may declare a minor on MyUI. To have the minor recorded on their transcripts, they must complete the "minor" section on their Application for Degree they submit through MyUI before the session they intend to graduate.

Certificates

Bachelor of Business Administration students may earn certificates offered by the Tippie College of Business as well as by other colleges at the University. The business college offers the Certificates in Entrepreneurial Management [p. 953] and in Risk Management and Insurance [p. 1001]. In addition, it partners with the College of Engineering to offer the Certificate in Technological Entrepreneurship [p. 1254] and with the College of Liberal Arts and Sciences to offer the Certificates in International Business [p. 567] and in Arts Entrepreneurship [p. 123].

The College of Liberal Arts and Sciences, the College of Public Health, and University College offer a wide range of certificates open to all undergraduates. Many pair exceptionally well with a business major. See Find Your Program and select undergraduate certificates for a complete list of certificates and links to their Catalog sections.

Tippie RISE

RISE is an acronym for hands-on experiential learning in the form of Research, Internship, Study Abroad, and Experiential Course. By completing at least one Tippie RISE experience as part of the undergraduate degree, Tippie College of Business students will bridge the classroom with the real world and gain a competitive edge in the job market and in admission to graduate school.

All Tippie College of Business students must successfully complete at least one of the following Tippie RISE experiences to graduate. See Tippie RISE in the Bachelor of Business Administration Requirements [p. 931] section for qualifying courses.

Research

Students can enhance their critical thinking skills, learn techniques to collect and analyze data, and apply the findings to business practices by conducting academic research under the close guidance of a faculty mentor.

Internship

Students gain significant work experience and valuable professional connections, can explore their career options, and hone job-related skills by completing an internship in a chosen field.

Study Abroad

By taking advantage of short-term, summer, semester, or academic year programs, students can expand their world view and learn alternative business and cultural practices outside of the United States. The college offers study abroad programs, including London Winter, Business and Culture in China, and global internships in over 10 cities around the world; exchange programs; and the CIMBA Italy program. See Global Experiences on the Tippie College of Business website for college programs and Study Abroad [p. 1641] (University College) in the Catalog for a list of the programs in over 40 countries.

Experiential Course

Students can magnify their understanding of academic concepts by using them in a class project that helps a local organization. In whatever experiential course chosen, students have support from both classmates and their instructor.

Academic Rules and Procedures

Academic Recognition

Dean’s List
Undergraduate students in the Tippie College of Business who achieve a g.p.a. of 3.50 or higher on 12 s.h. or more of University of Iowa graded course work during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean’s List for that semester.

President’s List
Undergraduate students in the Tippie College of Business who achieve a g.p.a. of 4.00 on 12 s.h. or more of University of Iowa graded course work and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President’s List.

Graduation with Honors in Business
Graduation with honors in business recognizes high scholastic achievement based on grades and on completion of academic work beyond the requirements of the student’s major. To graduate with honors in business, students must maintain a cumulative, University of Iowa, business, and UI business g.p.a. of at least 3.50 and must successfully complete an honors project under the supervision of a faculty member. To learn more, see Honors at Tippie on the Tippie College of Business website.

Graduation with Distinction
Graduation with distinction recognizes high scholastic achievement based on grades. The Office of the Registrar certifies to the Tippie College of Business associate dean the names of students eligible to graduate with distinction. The college awards degrees “with highest distinction” to students in the highest two percent of the graduating class, “with high distinction” to students in the next highest three percent, and “with distinction” to the next highest five percent. Ranking is based on students’ grade-point averages for all college-level study undertaken before their final registration.

To be eligible to be considered for graduation with distinction, a student must complete 60 s.h. in residence as an undergraduate at the University of Iowa; 45 s.h. of that must be completed before the final registration.

Credit and Grading

Credit by Examination
Students may earn up to 30 s.h. of credit by examination by taking selected tests from the College-Level Examination Program (CLEP) and the Advanced Placement (AP) program of the College Board or the International Baccalaureate Program (IB). For information about when and how to take the CLEP and AP examinations, contact the University’s Evaluation and Exam Service. The Tippie College of Business Undergraduate Program Office has information on scores, credit, and course duplicates for all CLEP, Advanced Placement, and IB tests accepted by the college.

Maximum Schedule
Students may register for a maximum of 18 s.h. Course schedules of more than 18 s.h. for a fall or spring semester, or more than 12 s.h. for the summer session, require approval from the Undergraduate Program Office.

Adding and Dropping Courses
Students may add or drop courses, except College of Law courses, any time before the deadline published in the University’s academic deadline calendar. Deadlines are different for regular and off-cycle courses. See Academic Calendar for the University of Iowa on the Office of the Registrar website. See Course Deadlines for course-specific deadlines.

Students must obtain approval from the college that offers the course in order to request permission to add or drop a course after these deadlines.

Prerequisites
Undergraduate students must complete a course’s prerequisites. When a student registers, the system reads a student’s record, and if there is no evidence that a prerequisite has been completed or is in progress, enrollment for the course will be blocked. See Tippie College of Business Prerequisites web page for more information about prerequisite policies and procedures.

Administrative Drops for Nonattendance
Instructors have the option to drop a student who has missed the first two class periods of a course, unless the student has offered an acceptable reason for beginning the course late. Administrative drops must be processed by the first eight calendar days of the semester or the first two calendar days of the winter session, each summer session, or the start of an off-cycle course. Administrative drops are made without assignment of a W (withdrawn). Students who are dropped from a course are notified. Students should not assume that they have been dropped from a course because they have not attended.

Pass/Nonpass
Up to 15 s.h. of course work required for the B.B.A. may be taken pass/nonpass with the consent of an advisor and the instructor. Students must be in good academic standing to be eligible for the pass/nonpass option. A maximum of two pass/nonpass courses may be taken in one semester or session. Courses taken pass/nonpass may not be used to satisfy general education, prerequisite, core, or major business requirements; major business requirements include any course that fulfills a major course requirement or is offered by the major department. Pass/nonpass registration must be completed during the first 10 days of a fall or spring semester or the first one-and-one-half weeks of a summer session, and it requires the approval of the advisor and the instructor. For courses taken pass/nonpass, an earned grade of C-minus or higher is recorded as a P; an earned grade of D-plus or lower is recorded as an N. Pass/nonpass credit is not included in grade-point-average calculations.
Satisfactory/Fail, Satisfactory/ Unsatisfactory

Certain courses are offered satisfactory/fail (S/F) or satisfactory/unsatisfactory (S/U). All students registered for these courses receive one of these marks.

Special forms are not necessary to register for S/F or S/ U courses, since all students enrolled in such courses automatically receive an S, an F, or a U.

Semester hours of S or U graded course work are not used in computing grade-point averages, but hours of F graded course work are used.

Semester hours of S graded course work are counted as semester hours earned toward graduation; semester hours of F or U graded course work do not count as semester hours earned toward graduation.

A maximum of 15 s.h. of S credit from the University of Iowa is accepted toward a bachelor’s degree.

Second-Grade-Only Option for Pre-Business Students

Pre-business students must follow the rules established by the College of Liberal Arts and Sciences (CLAS). Contact the CLAS Academic Programs & Student Development office or consult the CLAS Academic Policies Handbook for more information.

Second-Grade-Only Option for Students Admitted to Business

Students admitted to the Tippie College of Business may use the second-grade-only option on any course except business courses numbered above 3005 with the prefix ACCT, BUS, ECON, FIN, MSCI, MGMT, MKTG, or ENTR.

Policies:

• Students may apply the second-grade-only option to a maximum of three different courses while they are enrolled at the University of Iowa; any second-grade-only options used before entry to the Tippie College of Business counts toward the maximum of three second-grade-only options allowed.

• Students in joint degree programs are allowed a combined maximum of three second-grade-only options.

• The second-grade-only option may be used only once per course. Once placed on the record, the option may not be retracted.

• A course taken at another college or university may not be repeated at the University of Iowa under the second-grade-only option.

• A University of Iowa course may not be repeated at another institution under the UI second-grade-only option.

• If the course was taken for a grade the first time, it must be taken for a grade the second time.

• If the course was taken pass/nonpass the first time, a student may choose to take the course for a grade or as pass/nonpass the second time.

• Any University of Iowa course taken in any mode of delivery—during a regular semester, a summer session, an intensive session, or through distance learning and the Division of Continuing Education—may be repeated in the same mode of delivery or in any other mode of delivery.

• Students who have been awarded a degree from the University of Iowa may not use the second-grade-only option on a course taken before the degree was awarded.

• Graduate or professional colleges may recalculate grade-point averages using all grades visible on the permanent record.

Procedure:

• Students must register as usual for the course that is to be repeated.

• After the session in which the course is being repeated has begun, students must request the second-grade-only option by completing the Request a Second-Grade-Only Option form.

• The permanent record is adjusted by placing a pound symbol (#) next to the first grade to indicate that it is no longer being included in the grade-point-average calculation, and only the semester hours from the second registration have been counted as semester hours earned.

Incomplete Grades

Instructors may report a mark of I (incomplete) only if the unfinished part of a student’s work in a course other than research, thesis, or independent study is small; if the work is unfinished for reasons acceptable to the instructor; and if a student’s standing in the course is satisfactory.
