The General Catalog provides information about academic programs at the University of Iowa, one of three universities governed by the Board of Regents, State of Iowa. The Catalog also provides links to supporting offices at the University, a list of administrative officers, an A-Z list of University of Iowa faculty members, a University calendar, and a link to the Code of Iowa for information regarding admission requirements and Iowa resident/nonresident standing.

The General Catalog is published for informational purposes and should not be construed as the basis of a contract between a student and the University of Iowa. Every effort is made to provide information that is accurate at the time of publication. However, information on courses, curricula, fees, policies, regulations, and other matters is subject to change any time during the period for which the Catalog is in effect.

For PDF versions of archived back editions, visit Archive on the Catalog website.

The General Catalog is produced by the Office of the Registrar. Your comments and suggestions are welcome. Questions concerning the Catalog may be directed to the Office of the Registrar at registrar-publications@uiowa.edu.

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information on nondiscrimination policies, contact the Director, Office of Equal Opportunity and Diversity, The University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316; 319-335-0705 (voice), 319-335-0697 (TDD), diversity@uiowa.edu.
Academics at Iowa

The University of Iowa offers academic degree and nondegree programs at the undergraduate and graduate levels. It also offers postdoctoral study and other opportunities for nondegree study and research. The General Catalog describes the University’s degree and nondegree programs at the undergraduate and graduate levels.

The following pages provide global information about undergraduate, graduate, and professional study across the University. They include all undergraduate and graduate majors, minors, and certificate programs with links to the relevant Catalog sections; descriptions of the University’s course numbering and grading systems; and contact information for supporting offices.

There are several options to search for information on programs of study by using the black bar above. The A-Z Directory lists information in alphabetical order. Catalog Contents allows a user to search by department or unit for the majors, minors or certificates offered, and for information about each University program. Find Your Program provides users the ability to search by undergraduate, graduate, and professional program options, as well as additional learning opportunities in college or pre-college programs by selecting choices with the Filter Options drop-down list. UI Courses lists all the University courses by academic unit.

Explore what the University of Iowa has to offer!

- Course Numbering [p. 12]
- Grading [p. 15]
- Supporting Offices [p. 16]
Course Numbering

Course numbers at the University of Iowa consist of an alphabetical prefix (up to four letters) showing the college, department, or program, followed by a colon and a four-digit numerical suffix for the individual course. For example, SOC:2810 identifies the course numbered 2810 in the Department of Sociology (SOC), titled Social Inequality.

Course suffix numbers 0000-0999 designate prelower-level courses; numbers 1000-2999 designate lower-level undergraduate courses; numbers 3000-4999 designate courses for upper-level undergraduate and graduate students (except in the College of Engineering, where numbers 3000-5999 designate courses for undergraduate and graduate students); numbers 5000-7999 designate graduate-level courses; and numbers 8000-9999 designate professional-level courses.

Grading

The University uses a letter grading system for individual courses, except for the College of Law, which uses a numeric system for course grading. In order to compute grade-point average, letter grades are converted according to the following numerical scale. Grade-point averages are displayed at the bottom of students' grade reports. All of the following marks appear on the permanent record.

**Grade points for each semester hour:**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>

Website: https://clas.uiowa.edu

The College of Liberal Arts and Sciences (CLAS) offers a rich liberal arts experience within a major research university.

In CLAS, undergraduate students can choose from 65 undergraduate majors, almost 70 minors, and almost 30 interdisciplinary certificates in departments spanning the arts; humanities; natural and mathematical sciences; social sciences; and communication disciplines. University of Iowa graduate students pursue degrees in almost 50 CLAS subject areas.

All University of Iowa undergraduates must complete CLAS’s General Education Program, which offers opportunities to explore a wide variety of subjects, while learning the core skills they will need to succeed in their majors. Many students enter CLAS as open majors, taking advantage of the college’s many academic offerings to discover their interests before declaring majors.

Students are encouraged to combine areas of study to create individualized academic portfolios. Many undergraduates enroll in the University of Iowa Honors Program, often conducting important research alongside faculty mentors. In addition, students have frequent opportunities to engage in community service through their classes.

The success of CLAS students is the college’s top priority. The university’s and college’s advisors help students make the right choices to fulfill their academic goals and graduate in a timely manner. The college offers innovative programs to help students enhance necessary skills, such as writing, speaking, math, scientific literacy, and world languages.

When CLAS students graduate, they have completed an academically rigorous educational experience. They are empowered to excel in the global, 21st-century world, and to create meaningful and fulfilling lives.

Office of Academic Programs & Student Development

Located in Schaeffer Hall, at the center of campus, the Office of Academic Programs & Student Development is an integral part of the College of Liberal Arts and Sciences. The office's staff, led by the associate dean for undergraduate programs and curriculum, welcomes students wishing to declare or change majors; file second-grade-only options; or petition to register late, add or drop a course late, or withdraw an entire registration after the established deadlines.

The office's staff members answer students’ questions concerning academic requirements and programs of study. They meet with students about General Education Program requirements, graduation requirements, collegiate policies that affect students, and a range of other issues, including academic probation and dismissal and strategies for the successful completion of a degree.

Students in the College of Liberal Arts and Sciences may petition for exceptions to CLAS rules and requirements in the Office of Academic Programs & Student Development. Students may discuss their questions and the petition process first with an associate director in the office.

The office works closely with students on academic probation and counsels them on strategies for success. It conducts semiannual reviews of students on academic probation, handles dismissals from the college, and considers requests for reinstatement.

The Office of Academic Programs & Student Development also oversees appropriate disciplinary action for academic misconduct, such as plagiarism.

General Education Program

All students entering the College of Liberal Arts and Sciences who wish to earn a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.) degree must complete the requirements of the CLAS General Education Program in addition to the requirements of their major and other requirements for graduation.

The General Education Program requires students to explore topics outside of their chosen major, helping students to acquire the knowledge and transferable skills necessary for becoming well-educated individuals. During this exploration of General Education topics and courses, many students also discover intriguing majors, minors, and certificates that challenge them to embrace personal transformation and related goals.

The General Education requirements must be completed before graduation; most students complete the majority of these requirements during the first two years at Iowa, especially since General Education courses stress the transferable skills of critical thinking, writing, and speaking that help students to be more successful in their studies.

For General Education requirements, related academic policies, and lists of approved courses, see General Education Program [p. 464] in the Catalog.
The College of Liberal Arts and Sciences has 39 departments and offers 65 undergraduate majors, about 70 minors, and almost 30 interdisciplinary certificate programs. In addition, CLAS students may declare a number of majors offered by other undergraduate colleges at the UI, with the College of Liberal Arts and Sciences granting the degree. The Tippie College of Business offers a major in economics (B.A. and B.S.), and with the College of Liberal Arts and Sciences, sponsors a major in enterprise leadership (B.A.). The Carver College of Medicine offers majors in biochemistry (B.A. and B.S.) and in microbiology (B.S.); and the College of Education offers a major in elementary education (B.A.) and in science education (B.S.). For descriptions of the above majors and their requirements, view those programs in the Catalog.

The College of Education offers a Teacher Education Program leading to licensure at the secondary level for students who have completed certain CLAS majors, such as art, English, mathematics, the sciences, and world languages, and who wish to work with students in middle school or high school. Students must apply for admission to the Teacher Education Program; contact the College of Education's Office of Student Services.

Students who begin their study in the College of Liberal Arts and Sciences may apply to degree programs in other colleges at the University of Iowa. If they are accepted, they may earn undergraduate degrees in business (B.B.A.) or nursing (B.S.N.); a B.S. with a major in medical laboratory science, nuclear medicine technology, or radiation sciences; or a professional degree in pharmacy (Pharm.D.). Use the Catalog's A-Z Directory to link to these programs.

Students who are interested in earning a professional or graduate degree in addition to a bachelor's degree may apply to early admission or joint degree programs offered through partnerships between CLAS and other UI colleges. Students admitted to these programs may count a limited amount of credit toward both degrees. CLAS has early admission programs with the College of Dentistry [p. 1069] (D.D.S.) and the College of Law [p. 1404] (J.D.). Joint bachelor's/graduate degree programs are available in several disciplines; see "Joint Programs" in the Graduate [p. 1330] College section of the Catalog for a complete list of graduate degrees offered by the University.

For information about specific CLAS graduate programs, consult the specific academic programs.

### Courses

Most College of Liberal Arts and Sciences courses are offered by the college's departments, programs, and schools. They are listed and described in the corresponding General Catalog sections.

The college also offers the following nondepartmental courses.

#### Liberal Arts and Sciences Nondepartmental Courses

##### CLAS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Requirements: first- or second-semester standing.

##### CLAS:1001 CLAS Master Class 1-3 s.h.

##### CLAS:1005 ESL Special Topics 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as ESL:1005.

##### CLAS:1600 Life Design: Building Your Future 1 s.h.
How interests and talents can be paired up to achieve a fulfilling life; what students are passionate about; address questions (i.e., How can you identify what you're good at? How can you build a life of purpose and meaning? How can you cultivate mentors? What is the relationship between ambition, drive, and success? What major might be the best fit and how can University resources help your academic and personal success?); portfolio of reflective exercises, activities, journal assignments.

### Programs

#### Undergraduate Majors, Minors, and Certificates

The College of Liberal Arts and Sciences offers a wide selection of undergraduate certificates and minors, including two certificates offered with other colleges: the Certificate in International Business (with the Tippie College of Business) and the Certificate in Wind Energy (with the College of Engineering). Find CLAS certificates and minors in the Catalog.

CLAS students also may earn undergraduate certificates and minors offered by other colleges. The Tippie College of Business offers certificate programs in entrepreneurial management and in risk management and insurance, and a minor in business administration. The College of Public Health offers an undergraduate public health certificate, and University College offers certificate programs in clinical and translational science, human rights, leadership studies, nonprofit management, and sustainability. The College of Education offers minors in educational psychology and in human relations. For lists of all undergraduate certificates and minors offered by the University, see Find Your Program and select those categories.

#### Graduate Degrees and Certificates

The College of Liberal Arts and Sciences offers graduate programs in most of its disciplines, with degrees conferred by the Graduate College. Students may earn degrees at the master's and doctoral levels; graduate certificates are available in some areas of study. See the Graduate [p. 1330] College section of the Catalog for a complete list of graduate degrees offered by the University.

For information about specific CLAS graduate programs, consult the specific academic programs.
CLAS:1700 Got CLAS? Blending College of Liberal Arts and Sciences Majors with Your Passions 1 s.h.
Process of choosing a major; focus on strengths, discover passions, and dream of possibilities while cultivating an active, complementary university experience; develop mentoring relationships with faculty, voice fears about choosing a major and career, take risks in revising and expanding life and career expectations; introduction to majors within the College of Liberal Arts and Sciences (CLAS); assessments to define strengths and interests, reflection of experiences. Recommendations: first-year undergraduate standing and College of Liberal Arts and Sciences open major.

CLAS:1800 The Art of Active Learning 1 s.h.
Case studies, individual assessments, video, class discussions, and short readings to encourage understanding of academic standards and active engagement in the learning process; examination of behaviors, study skills, habits, and attitudes that can affect success in the classroom and in life.

CLAS:2016 The Netherlands and Pella 1 s.h.
History and culture of the Netherlands; immigration pattern of the Dutch who came to Pella, Iowa. Duplicates IS:2016.

CLAS:3111 Reimagining Downtown 3 s.h.
Interdisciplinary perspective; assist upper-level undergraduates apply their education and creativity toward a specific initiative, the Downtown Project, located in the Fremont East and Arts District areas of Las Vegas, Nevada. Requirements: junior or senior standing and admission by application.

CLAS:3200 International Perspectives: Xicotepec 1-3 s.h.
Interdisciplinary service-learning course; Mexican culture and history through community-based service project, assigned readings, and discussion; includes a required spring break trip to Mexico. Same as SOC:3200.

CLAS:4100 Peer Assistant 1-2 s.h.
Opportunities to participate in classroom and course activities; work with students as an assistant to course instructor.

CLAS:4200 Undergraduate Internship arr.
Professional and/or creative experience for writing certificate students; students must arrange an on- or off-campus internship with faculty advisor approval. Requirements: undergraduate standing and a minimum of 24 s.h. of course work with at least 12 s.h. in University of Iowa courses.

CLAS:5100 Practicum: College Teaching and Professional Development for Teaching Assistants arr.
Guidance for teaching assistants seeking introduction to teaching at college level; focus on practical pedagogical concerns, including how to structure a course, devise learning outcomes, develop a syllabus and a calendar of assignments, evaluate student work, and create a student-centered classroom with collaborative learning experiences; pre-semester intensive training session, weekly meetings during first month of semester, periodic meetings to address midterm and late-semester issues; concurrent with TA teaching assistantships. Recommendations: interest in teacher training and preparation. Same as RHET:5100.
African American Studies

Chair

• Michael Hill

Undergraduate major: African American studies (B.A.)
Undergraduate minor: African American studies
Graduate degree: M.A. in African American world studies
Faculty: https://clas.uiowa.edu/afam/people/faculty
Website: https://clas.uiowa.edu/afam/

African American studies focuses on the study of people of African descent in the United States and the African diaspora. The African American Studies Program originated in 1969 through courses intended to foster awareness of African Americans' role in the development of the United States and the world. Because a thorough understanding of the African American experience cannot be achieved through study restricted to the perspective of a single discipline, all students are required to pursue courses in the humanities, social sciences, and performing arts.

The African American Studies Program draws upon faculty from American studies, including sport studies; communication studies; English; gender, women's, and sexuality studies; history; journalism and mass communication; religious studies; rhetoric; and sociology.

Cocurricular Activities

Afro-American Cultural Center

African American studies encourages students to use facilities of the Afro-American Cultural Center. The center serves as a museum and library of educational and cultural artifacts and exhibits of African American culture, providing cultural enrichment for the Iowa City community and promoting diversity among all members of the University community. It also provides a cultural meeting place for African American students.

African American Studies Student Association

The African American Studies Student Association aims to promote knowledge about people of African descent by sponsoring programs on various topics. Any University of Iowa student interested in African American studies is eligible to become a member.

Seminar and Lecture Series

The African American Studies Seminar Series and the Darwin Turner Lecture bring important scholars and creative artists to the University of Iowa campus. Guests of the lecture and seminar series have included Amiri Baraka, Michelle Wallace, and Valerie Smith.

The New Research in African American Studies lecture series, sponsored by the College of Liberal Arts and Sciences, focuses on research by faculty in the African American Studies Program.

Graduate Seminar

Graduate students from a range of disciplines in the College of Liberal Arts and Sciences are encouraged to participate in the program's interdisciplinary graduate seminar, which is dedicated to advanced readings, scholarly books, and articles in African American studies.

Graduate Student Mentoring and Advising

African American studies sponsors several intellectual and social gatherings for graduate students across disciplines. During these events, students connect with others interested in African American studies and receive advice about becoming faculty members and being productive members of the academic profession.

Graduate Program of Study

Major

• Master of Arts in African American World Studies

The African American Studies Program is not accepting graduate students at this time.

Courses

African American Studies Courses

AFAM:1000 First-Year Seminar 1 s.h.
Small discussion class; topics chosen by instructor. Requirements: first-year standing.

AFAM:1020 Introduction to African American Culture 3 s.h.
Interdisciplinary look at Black culture in the United States through significant contributions of the humanities (music, art, literature, drama, philosophy) to development of Black culture. GE: Values and Culture. Same as AMST:1030.

AFAM:1030 Introduction to African American Society 3 s.h.
Social and cultural history of African Americans through framework of general works in anthropology, sociology, history. GE: Social Sciences; Values and Culture.

AFAM:1240 The Art of Listening to Jazz 3 s.h.
What is jazz and its importance; guided introduction to jazz music, anatomy of jazz music, cultural context; development of skills to become an informed listener; process of performing jazz music, its connection with Black culture; focused listening/analysis of prominent jazz artists' work from past and present, including intersection between jazz and hip hop; formal music experience or training not required.

AFAM:1241 The Soundtrack of Black America 3 s.h.
Linkage of African American culture and music; Black musical innovations that shaped mainstream American musical tastes over the last century; exploration of relationship between Black music and culture; examples of blues, jazz, gospel, hip hop; artists including Bessie Smith (blues), Mahalia Jackson (gospel), Miles Davis (jazz), Nas and Talib Kweli (hip hop).
AFAM:1250 Introduction to African American Religions 3 s.h.
GE: Values and Culture. Same as RELS:1350.

AFAM:1820 Everybody is a Star: Black Celebrity Since 1968 3 s.h.
How shifts in social access after 1968 meant that renowned blacks no longer automatically saw themselves as freedom fighters; effects of change shown in Michael Jackson's career, Barack Obama's election, and fame of Beyoncé, Lil Wayne, and Oprah; analysis of black celebrity from 1968 to 2012 with focus on Muhammad Ali, Dianna Ross, Whitney Houston, Denzel Washington, Michael Jordon, Stevie Wonder, T.D. Jakes, Condoleezza Rice, Jay Z, LeBron James; black celebrity influence on post-civil rights understandings of gender, class, sexuality, politics; biographies, cultural criticism, music videos, movies, documents.

AFAM:1830 Music of the African American Diaspora 3 s.h.
History and characteristics of music styles emerging from African American culture from time of slavery to present; beginning with Negro spiritual, exploration of origins and musical anatomy of relevant music styles (blues, gospel, jazz, rhythm and blues, funk); ubiquitous role music plays in civil, cultural, and political unrest amongst African American community throughout 20th century.

AFAM:2014 Giants of Jazz: Miles, Trane, and Duke 3 s.h.
Miles Davis, John Coltrane and Duke Ellington as figureheads of the Jazz music style; how they changed the trajectory of modern music along with sidemen (B. Strayhorn and H. Hancock); Ellington's resolute defiance of stereotypical views of African Americans; Miles' brazen protests against civil injustices; how these icons are much more than mere musicians; cultural impact of landmark albums including "Kind of Blue," "A Love Supreme," and "The Birth of the Cool"; focus on their life, music and sociopolitical impact. Same as MUS:2014.

AFAM:2055 The Look of Blackness: African American Literature and Visual Art 3 s.h.
Examination of African American literature over a 200-year span; how preoccupation with blackness as a visual marker of difference impacts formation of written works; how black writers wield, emphasize, and manipulate visuality; blackness foregrounded as if literary texts operate in league with, or in defiance of, visual images circulating throughout African American culture, from late 18th-century poetry to mid 20th-century novels; primary texts placed alongside high art and popular visual forms of distinct historical moments to explore how black American writers deploy visual art forms in narrative conceptions of black identity. Same as ENGL:2462.

AFAM:2064 Racial Inequity and the Experiences of African American Families in the U.S. 3 s.h.
Racial inequity and experiences of African American families in the U.S. during 20th and 21st centuries; historical context for contemporary research on African American family; relative impact of structural and cultural factors on various aspects of African American family life, declining marriage rates, family formation patterns; intersections of race and class in family life; research methods used to examine dynamics of African American family life, including quantitative analysis, structured qualitative interviews, and ethnography. Same as SOC:2064.

AFAM:2070 Black TV Drama: The Wire 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; HBO's The Wire series—a social commentary, commercial, and aesthetic force—has pioneered new ways of thinking about the relationship between media and society at large while revolutionizing ways in which black urban life is portrayed in today's world; focus on complex intersections between urban poverty, education, and political system, crime, mediation in Western society. Same as COMM:2069.

AFAM:2076 Race, Ethnicity, and Media 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as COMM:2076.

AFAM:2079 Race and Ethnicity in Sport 3 s.h.
Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences; historical and contemporary issues, media representations. Same as SPST:2079.

AFAM:2265 Introduction to African American History 3 s.h.
GE: Values and Culture. Same as HIST:2265.

AFAM:2465 Selected African American Authors 3 s.h.
English majors may apply this course to the following area and/or period requirement: AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:2465.

AFAM:2500 Black Culture and Experience: Contemporary Issues 3 s.h.
Black culture and experience within a contemporary perspective; readings, interactive experiences, course assignments (interview, essays, final paper), and unit quizzes provide an opportunity to better understand Black culture in the 21st century; students explore a variety of important societal topics (e.g., education, religion, literature, theater, media, politics, sports, criminal justice, health, economics). GE: Diversity and Inclusion.

AFAM:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.
Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gags, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televised examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AMST:2700.

AFAM:2730 African American Islam 3 s.h.
Same as RELS:2730.
AFAM:2781 Black Literature and Politics: Controversies of National Allegiance 3 s.h.
Black literature born amid political controversy, from slave narratives to award-winning texts of late 20th century; evolving politics of African American writers; changing political landscape of this expansive period and representative literature; how African American writers shape U.S. political debate; surprising politics of many canonical African American writers. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3460.

AFAM:3460 African American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3460.

AFAM:3462 African American Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester. Same as ENGL:3462, THTR:3462.

AFAM:3465 African American Autobiography 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3465.

AFAM:3500 Malcolm X, King, and Human Rights 3 s.h.
Religion and politics of Malcolm X and Martin Luther King, Jr. in the context of U.S. civil rights and international human rights in West Africa and the Muslim world; emphasis on civil rights connections to Gandhi, the Nobel Peace prize, and other international experiences that have impacted Pan Africanists, such as Stokely Carmichael, who worked on human rights. Recommendations: international studies major or undergraduate standing. Same as RELS:3808.

AFAM:3550 African Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3550.

AFAM:3555 Topics in African Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3555.

AFAM:3710 African American Women Writers 3 s.h.
Introduction to major African American women authors of the 19th, 20th, and 21st centuries; major debates of black feminist literary scholarship; analyze African American literary representations by reading novels, poetry, short stories, plays, relevant historical and critical texts. Same as GWSS:3710.

AFAM:3840 Free-Style Writing: Poetry, Plays, and Performances 3 s.h.
Creative writing lab experience in reading, writing, and performing poetry and short plays; expansion of students' horizons of the self; arc of innovation in African American literature from Harlem Renaissance to present, with texts from Langston Hughes and Zora Neale Hurston to Saul Williams and Jill Scott; role of the artist in society and as outsider and insider; shifting perspectives on race, gender, class; musical influences and models, from blues to house music; sensuality, spirituality; artistic reflections on the cultural moment; effects of these on literary form and performance style; students create and perform a work for an audience. Same as THTR:3403.

AFAM:3900 Topics in African American Studies arr.
Different topic each semester.

AFAM:3925 African Americans and the Media 3 s.h.
Same as JMC:3165.

AFAM:3900 Topics in African American Studies arr.
**AFAM:4001 Television and African American Culture** 3 s.h.  

**AFAM:4195 African American History 1619-1865** 3 s.h.  
Race and African American history, from the rise of racial slavery to the Civil War; advanced course. Same as HIST:4295.

**AFAM:4298 African American History 1865-Present** 3 s.h.  
African American history since Reconstruction; survey of African American politics and society from Reconstruction to present. Same as HIST:4296.

**AFAM:4310 Pre-Colonial African History** 3 s.h.  
Africa to 1880; oral tradition, other sources; political development, ecological change, slavery and slave trade. Same as HIST:4710.

**AFAM:4710 Midwest African American Literature and Culture** 3 s.h.  
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:4410.

**AFAM:4715 African History Since 1880** 3 s.h.  
Africa in colonial, post-colonial period; economics, political structures of colonialism; social change, political life in the 20th century. Same as HIST:4715.

**AFAM:4910 Special Topics** 3 s.h.  
Selected topics, issues, and debates about various components of African American culture including literature, sociology, psychology, media, history, rhetoric, theater, sports, health, and education.

**AFAM:4980 Independent Study** arr.  
Topics vary.

**AFAM:4990 Honors Project** arr.  
Independent research and writing on interdisciplinary topic.

**AFAM:5900 Advanced Readings in African American Culture** arr.  
Textual, social, political analyses of works by Black authors.

**AFAM:6635 Crossing Borders Seminar** 2-3 s.h.  

**AFAM:7130 Readings on Twentieth-Century Black Internationalism** arr.  
Complex dynamics of black internationalism during 20th century, focusing on the global visions, transnational activities, and transracial political alliances of people of African descent worldwide; readings will reflect geographical breadth of the African Diaspora including Africa, the Americas, and Europe. Same as HIST:7130.

**AFAM:7205 Gender and Race in Nineteenth-Century U.S.** arr.  
Same as GWSS:7205, HIST:7205.

**AFAM:7214 Readings: African American Women's History** arr.  
Same as GWSS:7214, HIST:7214.

Interpretations and methods applied by historians in various world regions to different forms of oral history, from old oral traditions to contemporary autobiographical testimony. Same as HIST:7710.
African American Studies, B.A.

Requirements

The Bachelor of Arts with a major in African American studies requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Transfer credit is evaluated individually and is limited to a maximum of 9 s.h.

The B.A. with a major in African American studies requires the following course work.

Introduction to African American Culture (AFAM:1020) presents themes in African American cultural studies. It includes readings in literature, music, film studies, religious studies, and the visual and performing arts.

Introduction to African American Society (AFAM:1030) examines the construction of social and historical institutions in the United States and the African diaspora (e.g., Black church, Black family, gender, sexuality). The course may include readings in political science, religion, history, sociology, geography, anthropology, and other disciplines.

African American Studies Core

In addition to the two required introductory courses, all students must complete at least two courses from each of the three topical areas below (minimum of 18 s.h.). Additional courses may be approved for the topical areas; consult with an African American studies advisor.

History, Religion, and the Diaspora

Electives

Students also must take two elective courses (minimum of 6 s.h.) selected from the three topical areas listed above. With the approval of an African American studies advisor, students may substitute relevant courses offered by other departments for one or both electives; the substituted courses may not be cross-listed with African American studies. Students must gain the advisor's approval before enrolling in a substitute course.

Two electives selected from the three topical areas above, or approved substitutes  6

Language Requirement

The language requirement for the African American studies major is the same as the World Languages requirement of the College of Liberal Arts and Sciences General Education Program [p. 464]. Students are encouraged, but not required, to take African language courses (Swahili is currently offered) or Spanish language courses to fulfill the World Languages requirement.

Honors in the Major

Students majoring in African American studies have the opportunity to graduate with honors in the major. Honors in the major offers students the opportunity to pursue special interests and individual in-depth research.

Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and complete all required course work for the major (30 s.h.). Students should register for up to 6 s.h. of AFAM:4990 Honors Project. Work in this course enhances a student's ability to complete honors projects under the guidance of the supervising faculty member.

Students enroll in AFAM:4990 with the approval of their African American studies advisor, who typically supervises the course. They may count up to 6 s.h. earned in AFAM:4990 toward the 30 s.h. required for the major.

Under the guidance of the African American studies advisor, an honors student defines a research project (thesis) using primary, secondary, or archival sources. Students submit a project proposal by the end of their junior year. They also complete a thesis under the guidance of a supervising faculty member and present the results as a senior essay to a committee of two faculty members, including the supervising African American studies faculty member and one other African American studies faculty member, chosen in consultation with the supervisor. A student's committee may choose to hear an oral defense of the honors thesis, usually during the student's last semester.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the African American studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least three courses in the major, including AFAM:1020 Introduction to African American Culture and AFAM:1030 Introduction to African American Society

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
2. Students may use their elective courses to complete a double major, minors, or certificates.
3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

## Career Advancement

The African American studies major provides valuable background for careers in a diverse society, in areas such as community work, public school teaching, religion, government, political science, and law. Some graduates go on to advanced study, many preparing for work as teachers and administrators at colleges and universities.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
The minor in African American studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. At least two of the African American studies core courses must be taken at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Course work completed for another major or minor may not be counted toward the minor in African American studies.

The minor must include the following course work.

<table>

Aging and Longevity Studies

Chair, School of Social Work
- Sara Sanders

Coordinator, Aging and Longevity Studies
- Mercedes Bern-Klug

Undergraduate minor: aging and longevity studies
Undergraduate certificate: aging and longevity studies
Graduate certificate: aging and longevity studies
Faculty: https://clas.uiowa.edu/socialwork/undergraduate-program/aging-longevity-studies-program/faculty
Website: https://clas.uiowa.edu/socialwork/undergraduate-program/aging-longevity-studies-program/certificate

Aging and Longevity Studies offers undergraduate and graduate programs and a selection of courses open to students in all majors.

Undergraduate students in the College of Liberal Arts and Sciences who would like to focus on aging and longevity studies as their major or as a second major should consider the individualized plan of study track offered by the Interdepartmental Studies Program; see Interdepartmental Studies [p. 590] in the Catalog. Entry into the program requires approval of a plan of study. Students enrolled in this program also may meet the requirements for a Certificate in Aging and Longevity Studies.

Undergraduate students working on a Bachelor of Arts degree in the School of Social Work have the option to earn 12 s.h. in aging-related course work as an area of focus in their major. Graduate students earning a Master of Social Work degree can declare gerontology/aging as an area of focus by completing course work in aging. For more information, contact the School of Social Work.

Aging and Longevity Studies is administered by the School of Social Work [p. 876].

Career Advancement

The Aging and Longevity Studies Program minor or undergraduate or graduate certificate is an important asset for employment in any field. Working with an aging population and the issues affecting them will be increasingly important as the population of older adults also rises.

Areas of employment for individuals with specializations in aging and longevity studies include:

State and local government agencies: State Department on Aging; Area Agency on Aging; all departments will be affected by population aging, even if they do not specialize in working with older adults, such as transportation, energy, housing, human services, small business supports, veterans services, among others

Nonprofit organizations: senior centers; the American Association of Retired Persons (national, regional, and state offices); Exploritas/Elderhostels (travel options for older adults)

Social service organizations: Meals on Wheels, congregate meal sites, heating assistance programs, transportation

Private corporations: human resources departments

Courses

Aging and Longevity Studies Courses

ASP:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASP:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework: how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as CSD:1800, NURS:1800, SSW:1800, TR:1800.

ASP:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; integration of teamwork and opportunities for individual growth that allow for personal development; identification of ways for students to be more creative in their own lives and work. GE: Values and Culture. Same as ARTS:2000, EDTL:2000, RHET:2000.

ASP:2181 The Anthropology of Aging 3 s.h.
Comparative anthropological perspective on aging; ethnographies from diverse contexts used to examine intersections of kinship, religion, health, and medicine in later life. Same as ANTH:2181, GHS:2181.

Courses
**ASP:3135 Global Aging** 3 s.h.
Demographic factors that contribute to the world wide phenomena of population aging in context of WHO Active Aging and the United Nation’s Principles for Older Persons frameworks. Same as GHS:3050, SSW:3135.

**ASP:3150 Psychology of Aging** 3 s.h.
The later years of human life viewed from perspectives of developmental psychology, biology, sociology.

**ASP:3151 The Anthropology of the Beginnings and Ends of Life** 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life’s margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ANTH:3151, GHS:3151.

**ASP:3152 Anthropology of Caregiving and Health** 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ANTH:3152, GHS:3152.

**ASP:3160 Biology of Aging** 3 s.h.
Biogerontology; definition of aging and senescence, biological theories of aging, demographics, model systems foraging, premature aging syndromes, aging of organ systems in humans.

**ASP:3300 Mapping the Creative Legacy** 3 s.h.
Reviewing a lifetime of creative work offers a unique window into the influences and perspectives that shape an artist’s development over decades; understanding creativity throughout the lifespan; fieldwork with senior artists to document the evolution of their original output; generating oral histories, documenting a substantial number of artistic works, and helping to produce a creative legacy; course culminates with a gallery exhibition of senior artists’ work, curated by the students.

**ASP:3501 Introduction to Nursing Homes** 3 s.h.
Overview of nursing home roles in context of long-term care system, characteristics of nursing home residents. Same as SSW:3501.

**ASP:3519 Politics of Aging** 3 s.h.
Core concepts and methods related to aging and policies that address the needs of older persons; demographic measures of population health and aging, including incidence and distribution of specific conditions relevant in older age; theories of public policy and involvement of older persons in the political process; key historical and current policies, at both the federal and state/local levels, that influence service provision and the well-being of older persons in the United States. Same as POLI:3519.

**ASP:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice** 3 s.h.
Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: satisfactory completion of General Education rhetoric requirement. Same as GWSS:3610, RHET:3610.

**ASP:3740 End-of-Life Care for Adults and Families** 3 s.h.

**ASP:3786 Death/Dying: Issues Across the Life Span** 3-4 s.h.
Introduction to the field of end-of-life care; examination of student concerns about death, dying, and grieving process; historical, cultural, societal, and personal perspectives of death and dying in modern society. Same as SSW:3786.

**ASP:3900 Independent Study in Gerontology** arr.
Individual projects and/or research.

**ASP:3920 Service Learning in Aging Studies** 1-3 s.h.
Experiential learning in settings with older adults. Coerequisites: ASP:1800, if not taken as a prerequisite.

**ASP:4165 Communication Disorders and Aging** 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Offered spring semesters of even years. Same as CSD:4165.

**ASP:4190 Aging Studies Internship and Seminar** 3 s.h.
Opportunities for students in various disciplines to relate their areas of study to older adults and aging; interdisciplinary relationships, approaches to meeting needs of older adults; an online seminar that meets regularly is included in this experience. Same as SSW:4190.

**ASP:5219 Aging and the Family** 2-3 s.h.
Research related to aging and the family; intergenerational relations, marital status in later life, diversity of older families, caregiving, elder abuse, policy issues. Same as SSW:5219.

**ASP:5401 The Care of the Frail Elderly** 3 s.h.
Clinical management of the elderly; emphasis on economic considerations, principles of gerontological care, common syndromes, ethical issues; clinical application experience in a long-term care setting. Prerequisites: NURS:5035. Corequisites: NURS:6200 and NURS:6701. Same as NURS:5401.

**ASP:5750 Medicare and Medicaid Policy** 3 s.h.
Health policies most pertinent to Americans over age of 65. Same as HMP:5750.

**ASP:8355 Introduction to Geriatric Dentistry** 2 s.h.
Biological, psychological, and social aspects of aging; normal aging and disease processes associated with aging; pathological changes that affect oral health treatment of dental diseases and patient management. Requirements: D.D.S. enrollment or completion of dental hygiene program. Same as PCD:8355.
Aging and Longevity Studies, Minor

The undergraduate minor in aging and longevity studies requires a minimum of 15 s.h. in aging-related course work. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Courses for the minor must be approved by the Aging and Longevity Studies Program if they are not aging and longevity studies courses (prefix ASP) or are not cross-listed with aging and longevity studies courses. Students earning the minor may not enroll in ASP:4190 Aging Studies Internship and Seminar.

The minor may be earned by undergraduate students in the Colleges of Liberal Arts and Sciences, Education, Engineering, Nursing, and the Tippie College of Business.

Students may earn the minor or the undergraduate certificate in aging and longevity studies, but not both.

The minor in aging and longevity studies requires the following course work.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASP:1800/ CSD:1800/ NURS:1800/ SSW:1800</td>
<td>3</td>
</tr>
<tr>
<td>Aging Matters: Introduction to Gerontology</td>
<td></td>
</tr>
<tr>
<td>Aging and longevity studies courses (prefix ASP), except ASP:4190, or courses cross-listed with aging and longevity courses; at least 6 s.h. of these must be numbered 3000 or above and must be taken at the University of Iowa</td>
<td>12</td>
</tr>
</tbody>
</table>
Aging and Longevity Studies, Certificate

The undergraduate Certificate in Aging and Longevity Studies requires 18 s.h. of credit. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Undergraduate students may earn the undergraduate certificate or the minor in aging and longevity studies, but not both.

The Certificate in Aging and Longevity Studies takes a multidisciplinary approach to gerontology. Its course work has been coordinated and sequenced to provide a broad background in aging for students from varied disciplines. Students should speak with the aging and longevity studies coordinator about their intent to earn the certificate. They work with their academic advisors and the coordinator to develop an individual plan of study that complements their degree program and career interests.

The certificate’s required 18 s.h. of credit must be earned in aging and longevity studies courses (prefix ASP) and other courses approved for the program. With permission from the aging and longevity studies coordinator, students also may be able to use other aging-related courses for the certificate. Students must earn at least 12 s.h. of certificate credit in courses numbered 2000 or above, and they must earn at least 12 s.h. toward the certificate at the University of Iowa.

Certificate requirements include a core curriculum of five courses and an additional 3 s.h. of elective course work from the list of approved aging-related courses. Students may take core courses before or concurrently with other courses in the program, but they should complete the core courses before they enroll in the internship. Students who complete an aging-related internship or practicum in their major field may be able to count that experience as their aging and longevity studies internship; consult with the aging and longevity studies coordinator. Transfer credit requests are evaluated individually by the aging and longevity studies coordinator.

The Certificate in Aging and Longevity Studies requires the following course work.

Core Courses

All certificate students must complete the following five core courses.

<table>

Electives

Students must complete an additional 3 s.h. of electives selected from aging and longevity studies courses (prefix ASP) and/or from approved aging-related courses offered by other academic units. Practicum and/or research courses offered by other academic units may be accepted for elective credit if they focus on aging; students who wish to apply course work from other departments should consult the Aging and Longevity Studies Program.
Aging and Longevity Studies, Graduate Certificate

The graduate Certificate in Aging and Longevity Studies requires 18 s.h. of credit. The certificate program is open to University of Iowa graduate students with aging-related career interests and needs. Students must maintain a cumulative g.p.a. of at least 2.75 in work for the certificate.

The certificate's required 18 s.h. of credit must be earned in Aging and Longevity Studies Program courses (prefix ASP) and other courses approved for the program. With permission from the aging and longevity studies coordinator, students may be able to apply other aging-related courses to the certificate. All certificate courses must be numbered 3000 or above. Of the required 18 s.h., at least 15 s.h. must be earned at the University of Iowa.

Certificate requirements include a core curriculum of five courses, including ASP:3900 Independent Study in Gerontology (3 s.h.) and an additional 3 s.h. in electives numbered 3000 or above in the Aging and Longevity Studies Program (prefix ASP) or in approved aging-related course work in other departments. Students may take core courses before or concurrently with other courses in the program, but they should complete the core courses before they enroll in the internship. Students who complete an aging-related internship or practicum in their major field may be able to count that experience as their aging studies certificate internship; consult with the aging and longevity studies coordinator.

Transfer credit requests are evaluated individually by the aging and longevity studies coordinator.

The Certificate in Aging and Longevity Studies takes a multidisciplinary approach to gerontology. Its course work is coordinated and sequenced to provide a broad background in aging for students from varied disciplines. Students should speak with the aging and longevity studies coordinator about their intent to earn the certificate. They work with their academic advisors and the coordinator to develop an individual plan of study that complements their degree program and career interests.

The Certificate in Aging and Longevity Studies requires the following course work.

Core Courses

All certificate students must complete the following five core courses.

Electives

Students must complete an additional 3 s.h. of electives, numbered 3000 or above, selected from courses offered by the Aging and Longevity Studies Program (prefix ASP) and/or from approved aging-related courses offered by other academic units. Practicum and/or research courses offered by other academic units may be accepted for elective credit if they focus on aging; students who wish to apply course work from other departments should consult the Aging and Longevity Studies Program.
American Indian and Native Studies

Director
• Lauren Rabinovitz

Coordinators
• Tom Arne Midtrød, Jacki Rand

Undergraduate minor: American Indian and native studies
Undergraduate certificate: American Indian and native studies
Graduate certificate: American Indian and native studies
Faculty: https://clas.uiowa.edu/ainsp/people/faculty
Website: https://clas.uiowa.edu/ainsp/

The American Indian and Native Studies Program (AINSP) is an interdisciplinary program that focuses on the histories, cultures, literatures, and contemporary legal and political issues of Native North Americans and other indigenous peoples of the Americas.

Students taking AINSP courses begin to understand historical and contemporary social issues among indigenous peoples of the Americas, within the international and global context of settler colonialism and its legacies. Courses provide students with a better understanding of ethnic, social, and political diversity. The curriculum increasingly enables students to encounter innovative teaching methods that cross conventional disciplinary boundaries, that involve visiting and learning more about regional Native American communities in Iowa and the Midwest, and that focus on communicating knowledge to audiences both within and beyond the classroom. Students thereby gain expertise for employment in advocacy, social services, health care, education, and other areas that require cross-cultural understanding and communication with diverse public audiences. Students also gain a background for more specialized or advanced study in a variety of disciplines, including anthropology, economics, education, ethnic studies, geography, history, political science, psychology, and religious studies.

A certificate or minor in AINSP also complements preprofessional and professional training in areas such as health care, business, social work, and law.

The College of Liberal Arts and Sciences grants the undergraduate certificate and minor. The Graduate College confers the graduate certificate. The American Indian and Native Studies Program is administered by the Department of American Studies [p. 44].

Courses

American Indian and Native Studies Courses

AINS:1049 Introduction to American Indian and Native Studies 3 s.h.
Through film, art, music, and comedy, students will explore the past, present, and future of American Indians in the United States and beyond. GE: Values and Culture. Same as AMST:1049.

AINS:1355 Literatures of Native American Peoples 3 s.h.
Genres of Native American literature, including oral literature; focus on written literature (fiction, essays, poetry, drama). Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as ENGL:1355.

AINS:2165 Native Peoples of North America 3 s.h.

AINS:2290 Food and Culture in Indian Country 3 s.h.
Native Americans as original farmers of 46 percent of the world’s table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AMST:2290, GHS:2290, HIST:2290.

AINS:2300 Native Americans in Film 3 s.h.
Representations of Native Americans in film from the western to science fiction and animation. Same as AMST:2300.

AINS:2500 Indigenous Art, Land, and Social Justice 3 s.h.
Examples, readings, discussions, and special projects examine contemporary visual, performance, and multimedia art by Native North American and other indigenous artists as a component of broader indigenous activism for social justice and defense of land.

AINS:2700 Sacred World of Native Americans 3 s.h.
GE: Values and Culture. Same as RELS:2700.

AINS:3002 Introduction to American Indian History and Policy 3 s.h.
Survey of relationships among American Indian tribes, the United States government, and the American settler society; consequences of contact and colonialism through the study of an individual tribe, the impacts of U.S. federal policy and settler colonialism on tribal communities, and how tribes responded variously to these challenges. Same as HIST:3202.
AINS:3110 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as ANTH:3110, GHS:3110.

AINS:3211 Native North America I: Precontact-1789 3 s.h.
Same as HIST:3211.

AINS:3212 Native North America II: 1789-Present 3 s.h.
Same as HIST:3212.

AINS:3257 North American Archaeology 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.

AINS:3258 Southwestern Archaeology 3 s.h.
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as ANTH:3258.

AINS:3276 American Indian Environmentalism 3 s.h.
Clean water, plant diversity, animal health as worldwide issues; Native American relationships and responsibilities to the living things of their homelands—from the earth itself to the raindrops that fall from the sky—and how those relationships have been altered in the last 150 years; explore innovative Native American efforts to restore their relationships to plants, animals, and landscapes that have been damaged by resource development, manufacturing, population growth, and political interests. Same as RELS:3976.

AINS:3441 Native American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as ENGL:3441.

AINS:3554 Native Histories and Endurance in the Greater Midwest 3 s.h.
Indigenous histories in the Great Lakes region; colonization and decolonization as ongoing processes rather than historic events.

AINS:3555 Exploring American Icons: Cowboys, Indians, Bikers 3 s.h.
Cowboys, Indians, and bikers as cultural icons from historic to contemporary times; examination of ideologies that circulate within and through these three groups as part of expressions of American identities.

AINS:4270 Colonial North America, ca. 1600-1775 3 s.h.
Introduction to major themes in colonial American history prior to the American Revolution. Same as HIST:4270.

AINS:4272 Native Americans in the Age of Empires, ca. 1500-1815 3 s.h.
Overview of major issues in Native American history during the period of European Imperialism in North America. Recommendations: junior or senior standing. Same as HIST:4272.

AINS:4289 The Atlantic World c. 1450-1850 3 s.h.
Interactions between peoples of Europe, Africa, and the Americas between the 15th and mid-19th centuries, interconnected system of exchange that defied national and imperial boundaries; encounters between Native Americans, Africans, and Europeans in different parts of the Americas; forced and voluntary resettlement of Africans and Europeans overseas; development of plantation slave societies; biological consequences of transatlantic contact; circulation of people, goods, and ideas; development of creole societies; era of revolutions; abolition of slavery. Same as HIST:4289.

AINS:4502 History of Mexico 3 s.h.
Mexican history since the eve of the Spanish invasion, with focus on the national period; may include ethnic groups, conquest and demographic disaster, native survival, labor and migration, social protest and rebellions, nationhood, regional differences, religions, popular culture, economic growth and distribution, state building, international relations; survey. Same as HIST:4502, LAS:4502.

AINS:4990 Independent Study arr.
AINS:5099 American Indian and Native Studies Proseminar 1 s.h.
Intensive reading on designated topics with multidisciplinary relevance in American Indian and Native studies; may include screenings, field trips, guest speakers, special events.

AINS:6099 Independent Study Project arr.
Completion of a significant scholarly project that addresses the scope, goals, and ongoing development of American Indian and native studies as an academic field; findings presented on campus (e.g., AINSP steering committee or in association with an AINSP-sponsored event) or at an academic conference.

AINS:6620 Readings in Native American Literatures 3 s.h.
Same as ENGL:6620.
American Indian and Native Studies, Minor

The undergraduate minor in American Indian and Native Studies requires a minimum of 15 s.h., including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 6 s.h. of course work from a major toward the American Indian and Native Studies Program (AINSP) minor.

A student may earn the minor or the certificate in American Indian and Native Studies, but not both.

The minor in American Indian and Native Studies requires the following course work.

**Cultural Experience**

The program highly recommends that students have an in-depth American Indian cultural experience, usually through study or volunteer work, before they complete their undergraduate requirements. Consult AINSP faculty advisors about available options.
American Indian and Native Studies, Certificate

The undergraduate Certificate in American Indian and Native Studies requires a minimum of 21 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

A student may earn the certificate or the minor in American Indian and native studies, but not both.

Students plan their programs in close cooperation with American Indian and Native Studies Program (AINSP) faculty advisors. Students may count a maximum of 6 s.h. of course work from their major toward the AINSP undergraduate certificate. Courses applied toward the AINSP certificate also may be used to complete the General Education Program [p. 464] or the requirements for a major or a minor.

The Certificate in American Indian and Native Studies requires the following course work.

All of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

**Cultural Experience**

The program highly recommends that students have an in-depth American Indian cultural experience, usually through study or volunteer work, before they complete their undergraduate requirements. Consult AINSP faculty advisors about available options.
American Indian and Native Studies, Graduate Certificate

The graduate Certificate in American Indian and Native Studies requires a minimum of 20 s.h. in courses approved for the American Indian and Native Studies Program (AINSP) and numbered 3000 or above (see "Associated Courses" below and AINSP Courses [p. 34] in this section of the Catalog. Students must maintain a g.p.a. of at least 3.00 in work toward the certificate. They may count a maximum of 6 s.h. of course work from their major field of study toward the AINSP graduate certificate.

Graduate students must apply to the academic coordinator to be admitted to the AINSP graduate certificate program. Students who earned an undergraduate certificate in the program may not receive a graduate certificate.

The Certificate in American Indian and Native Studies requires the following course work.

American Sign Language

Director, Division of World Languages, Literatures, and Cultures
• Russell Ganim

Director, American Sign Language
• Russell Ganim

Coordinator, American Sign Language
• AmyRuth McGraw

Undergraduate minor: American Sign Language
Undergraduate certificate: American Sign Language and Deaf studies
Faculty: https://clas.uiowa.edu/dwllc/asl/people
Website: https://clas.uiowa.edu/dwllc/asl

The American Sign Language Program offers two undergraduate programs of study. It also offers a number of courses open to all students. They include a four-semester course sequence in American Sign Language (ASL), courses for teacher licensure (see “Hearing Impaired Endorsement for Teachers” below), and courses on fingerspelling, Deaf culture, ASL literature, ASL interpreting, and other topics. The four-course ASL sequence satisfies the World Languages requirement of the General Education Program [p. 464] (see “Language for General Education” below). Classroom instruction is supplemented by video materials and interactive software in the Language Media Center.

The American Sign Language Program is administered by the Division of World Languages, Literatures, and Cultures [p. 324].

Hearing Impaired Endorsement for Teachers

The American Sign Language Program offers courses that fulfill requirements for the Hearing Impaired Endorsement offered by the College of Education. The University of Iowa currently is the only institution in Iowa that offers this endorsement program. Holders of the endorsement are authorized to serve deaf and hard-of-hearing students from birth to age 21. The program is open to undergraduate and graduate students; applicants must hold or be in the process of completing requirements for an elementary or secondary teaching license. Contact the College of Education Office of Student Services to learn more.

Language for General Education

The following four-course sequence satisfies the World Languages requirement of the College of Liberal Arts and Sciences General Education Program [p. 464]. Students must demonstrate 75 percent proficiency in the expressive and receptive elements of each course in order to register for the next course in the sequence.

ASL:1001  American Sign Language I  4
ASL:1002  American Sign Language II  4
ASL:2001  American Sign Language III  4
ASL:2002  American Sign Language IV  4

Students taking more than one calendar year off from the American Sign Language (ASL) sequence are required to contact the ASL Program to schedule a placement test which will determine their placement in an American Sign Language I-IV course. Students are strongly advised to complete the ASL sequence without such a gap whenever possible. Students taking the placement test and not placing into the next course in the sequence may be retested before the class begins if they have undertaken a significant experience since the last placement test that might warrant retesting. All retesting is at the discretion of the ASL Program.

Undergraduate Programs of Study

Minor
• Minor in American Sign Language [p. 41]

Certificate
• Certificate in American Sign Language and Deaf Studies [p. 42]

Facilities

The Language Media Center (LMC) is an essential resource unit for faculty and students in the Division of World Languages, Literatures, and Cultures. The LMC offers facilities and services for traditional language laboratory work as well as for foreign language video and computer-based activities. LMC facilities and services include a 50-computer information technology center (Windows and Macintosh), two digital audio laboratories, a multimedia development studio, a One Button Studio for video recording with Open Broadcaster Software (OBS), 13 media viewing stations, and six small-group rooms. The LMC also circulates a collection of over 3,000 foreign language, English as a Second Language, and American Sign Language digital media materials.

Courses

American Sign Language Courses

ASL:1000 First-Year Seminar  1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASL:1001 American Sign Language I  4 s.h.
Conversational skills, basic grammar of ASL; introduction to the ASL cultural community through readings, videos. Taught in American Sign Language. First in a four-semester sequence. GE: World Languages First Level Proficiency.

ASL:1002 American Sign Language II  4 s.h.
Continuation of ASL:1001; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1001. GE: World Languages Second Level Proficiency.

ASL:1101 Fingerspelling and Numbers I  2 s.h.
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1001.
ASL:1102 Fingerspelling and Numbers II 1 s.h.
Development of expressive and receptive American Sign Language fingerspelling, loan sign, and number skills based on word, phrase, and number recognition. Taught in American Sign Language. Prerequisites: ASL:1101.

ASL:2001 American Sign Language III 4 s.h.
Continuation of ASL:1002; emphasis on ASL grammar and syntax; focus on culture through readings, videos. Taught in American Sign Language. Prerequisites: ASL:1002. GE: World Languages Second Level Proficiency.

ASL:2002 American Sign Language IV 4 s.h.

ASL:3100 American Sign Language Conversation 3 s.h.
Improvement of receptive and expressive conversational ASL skills through small group discussion, class presentations. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3200 Topics in Deaf Studies 3 s.h.
Current topics in Deaf studies; skill development in communicative fluency in ASL. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3300 American Deaf Culture 3 s.h.
Cultural practices, beliefs, and values of the American Deaf community. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3400 Issues in ASL and Deaf Studies 3 s.h.
Current issues in American Sign Language and the American Deaf community, such as linguistics, culture, and literacy. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3500 Deafness in the Media 3 s.h.
Exploration of the construct of Deafness through mainstream media (e.g., commercial television, movies, fictional and nonfictional literature in print and on the Internet); various ways Deaf people are constructed and presented for hearing audiences from the past 20 years. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3600 American Sign Language Literature 3 s.h.
Introduction to the world of ASL literature, as recorded on videotape or film and in live performance; traditional folklore, storytelling, poetry, drama, oratory, jokes, and nonfiction narrative; analysis of genres in their social and cultural contexts as expressions of Deaf experience; how historical and current issues in Deaf culture are represented in literary form. Taught in American Sign Language. Prerequisites: ASL:2002. Requirements: students who have not completed ASL:2002, but plan to take ASL:2002 concurrent to this course may enroll with consent of the instructor; please contact the ASL program for more information.

ASL:3800 Independent Study arr.
An American Sign Language/deaf studies topic; individual study.

ASL:4201 History of the American Deaf Community 3-4 s.h.
Creation of a distinct language and culture of Deaf people in America during the 19th and 20th centuries. Taught in English and/or American Sign Language. Requirements: concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as HIST:4201.

American Sign Language in English Courses

ASLE:2500 Introduction to Interpreting 3-4 s.h.
Introduction to interpreting; history and current nature of the field, available opportunities, certification, training, ethics. Taught in spoken English. Requirements: students should have some familiarity with a language not their own (spoken or signed); ASL:2002 is prerequisite for the ASL discussion section.

ASLE:3905 Teaching Deaf and Hard of Hearing Students 3-4 s.h.
Issues in d/Deaf education; management techniques, communication strategies, teaching strategies, instructional materials, hands-on activities, assessments, parent involvement; use of technology, ethnic and cultural diversity, classroom management, pre-reading techniques, literacy development, educational program options. Taught in English and/or American Sign Language. Requirements: for 4 s.h. option—concurrent enrollment in ASL:2002, if not taken as a prerequisite. Same as EDTL:3905.
American Sign Language, Minor

The undergraduate minor in American Sign Language (ASL) requires 15 s.h. of ASL course work, including 12 s.h. in advanced courses numbered 2500 or above taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor must include ASL:2002 American Sign Language IV or demonstrated equivalent proficiency. Only one American Sign Language in English course (prefix ASLE) may be applied to the minor in ASL; if students choose to apply an ASLE course toward the minor, it must be taken for 4 s.h.

Students may earn the minor in American Sign Language or the Certificate in American Sign Language and Deaf Studies, but not both.

The minor in American Sign Language requires the following course work:

<table>

American Sign Language and Deaf Studies, Certificate

The undergraduate Certificate in American Sign Language and Deaf Studies requires 34 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students may earn the Certificate in American Sign Language and Deaf Studies or the minor in American Sign Language, but not both.

The certificate program teaches students about the history, culture, and language of the American Deaf community. It is interdisciplinary, permitting students to link study in two or more disciplines into an organized investigation of a language and culture. Through their study of American Sign Language, students learn a language that is semantically and grammatically very different from their own and that operates in a different sensory channel. They also encounter a rich and complex culture, including a rapidly growing literature recorded on film and videotape since the early 20th century.

Certificate requirements include the four-course American Sign Language sequence (16 s.h.) or demonstration of equivalent proficiency; 6 s.h. of core courses; and 12 s.h. of focused electives in two or more disciplines.

Students may use each course required for the certificate to satisfy only one certificate requirement. But they may use a course to satisfy a certificate requirement as well as a requirement for a major or for a minor in another discipline.

A maximum of 6 s.h. of transfer credit may be accepted toward certificate requirements, with the approval of the American Sign Language and Deaf studies advisor.

The Certificate in American Sign Language and Deaf Studies requires the following course work.

| Language Sequence Courses (or equivalent) | 16 |
| Core Courses | 6 |
| Focused Electives | 12 |
| Total Hours | 34 |

**Language Sequence**

Certificate students must complete the following sequence or be able to demonstrate equivalent proficiency. Students must demonstrate 75 percent proficiency in the expressive and receptive elements of each course in order to register for the next course in the sequence.

American Studies

Chair
• Lauren Rabinovitz

Undergraduate majors: American studies (B.A.); sport studies (B.A.)
Undergraduate minors: American studies; sport studies
Graduate degrees: M.A. in American studies; Ph.D. in American studies
Faculty: https://clas.uiowa.edu/american-studies/people/faculty
Website: https://clas.uiowa.edu/american-studies/

The Department of American Studies provides an interdisciplinary introduction to American culture, past and present. It helps students acquire a broad familiarity with the dynamics of cultural experience and explore aspects of life in the United States, such as sport, popular and fine arts, institutions, values, gender and ethnic relations, artifacts, and the everyday life of a diverse citizenry.

The department offers undergraduate programs of study in American studies and in sport studies as well as graduate programs of study in American studies, with a sport studies subprogram available in the Ph.D.

The department also is the administrative home of the American Indian and Native Studies Program, which offers an undergraduate certificate and minor and a graduate certificate; see American Indian and Native Studies [p. 34] in the Catalog.

Programs

Undergraduate Programs of Study

Majors
• Major in American Studies (Bachelor of Arts) [p. 50]
• Major in Sport Studies (Bachelor of Arts) [p. 52]

Minors
• Minor in American Studies [p. 55]
• Minor in Sport Studies [p. 56]

Graduate Programs of Study

Majors
• Master of Arts in American Studies [p. 57]
• Doctor of Philosophy in American Studies [p. 58]

Courses

American Studies Courses

AMST:1030 Introduction to African American Culture 3 s.h.
Interdisciplinary look at Black culture in the United States through significant contributions of the humanities (music, art, literature, drama, philosophy) to development of Black culture. GE: Values and Culture. Same as AFAM:1020.

AMST:1049 Introduction to American Indian and Native Studies 3 s.h.
Through film, art, music, and comedy, students will explore the past, present, and future of American Indians in the United States and beyond. GE: Values and Culture. Same as AINS:1049.

AMST:1060 Sex and Popular Culture in the Postwar U.S. 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as ENGL:1410, GWSS:1060.

AMST:1065 Disney in America 3 s.h.
How Walt Disney Corporation has influenced American cultural values, ideals, and experiences through its evolution from an animation company in the 1920s, to a theme park company and television producer in the 1950s, to a media conglomerate today; the corporation's national importance, Hollywood's contributions to the Depression and World War II, postwar urban and community planning, America's changing leisure behavior, advertising and childhood, modern business history, and exportation of American culture.

AMST:1070 Drugs in American Popular Culture 3 s.h.
Cultural aspects of drug use and drug policy in American popular culture, particularly concerning recreational drugs; how ideas of race, gender, social class, and nation are connected to stories people tell about use of marijuana, cocaine, methamphetamine, heroin, and alcohol; sources include films, television, advertising, music, and cultural texts.

AMST:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Values and Culture. Same as GWSS:1074, SPST:1074.

AMST:1075 American Popular Music: Rock and Roll to 1980 3 s.h.
From the beginning, rock and roll subcultures have deliberately challenged and changed the values, attitudes, and behaviors of the mainstream (as well as the music itself); during the past 40 years, movements such as punk, hip hop, and electronica have confronted conventional notions of race, gender, sexual identity, social justice, and economic disparities in ways that reveal much about the underlying tensions of American life; using music as a lens, students examine these aspects of the nation's social history from 1980 to the present; materials are drawn from music, films, music videos, popular magazines, newspapers, and books.

AMST:1080 American Political Humor 3 s.h.
How political humor reflects and influences American attitudes regarding government institutions, elected officials, the democratic process; how humor works; examples from Revolutionary War present and from varied media, including cartoons, fiction, film, television, the Internet.
AMST:1154 Food in America 3 s.h. Cultural significance of production, distribution, and consumption of food in the United States. GE: Values and Culture.

AMST:1400 Introduction to American Popular Culture 3 s.h. Introduction to popular culture studies; variety of cultural expressions including cyber communities, radio, humor, television, music, sport, and material culture; discussion of these popular genres and topics within larger context of gender, race, sexualities, class, consumerism, nation state and global capitalism; what popular culture is; difference between folk, high, mass, and popular culture; how to critically read and interpret popular cultural expressions; role(s) consumers of popular culture play in market economy; new information technologies to enhance learning experience.

AMST:1500 American Celebrity Culture 3 s.h. Cultural history of meanings and implications of fame and celebrity in America; shift from 18th-century culture of “fame” (something bestowed posthumously on great statesmen) to 19th-century culture of “celebrity” that conferred instant stardom on actors, sportsmen, musicians, writers, and others; role of mass media and impresarios (e.g., Barnum and “Buffalo Bill”) in promoting culture of celebrity; refinement of star system by Hollywood, television, and Internet; implications for political culture, consumer culture, and attitudes towards race, gender, class, and sexuality.

AMST:1630 U.S. History Through Objects 3 s.h. Interpretation of U.S. history through stories embedded in material artifacts ranging from guns, farming tools, and religious relics to mechanical toys, office gadgets, and vehicles; invention, manufacture, and marketing of tools and objects; their use and adaptation by various groups of Americans (women, African Americans, immigrants); meanings and memories invested in them; preservation of objects in museums, attics, and time capsules.

AMST:1847 Hawkeye Nation: On Iowa and Sport 3 s.h. Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa’s image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers’ Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, American Indian and native studies, literature, history. Same as SPST:1847.

AMST:1900 Time in America: Clocks, Calendars, and Capsules 3 s.h. History of technologies for telling the time, from ancient water clocks to atomic clocks; changing methods of measuring, subdividing, and regulating time in 19th- and 20th-century America; implementation of (and resistance to) time discipline in factories, plantations, and offices; rituals for marking historical time (e.g., time capsules); fantasies of time travel in fiction and film; debates about the acceleration of time and emergence of a “slow movement.”

AMST:2000 Introduction to American Studies 3 s.h. Variety of historic and contemporary sources, such as literature, law, photography, painting, film, TV, music, fashions, environments, events of everyday life.

AMST:2025 Diversity in American Culture 3 s.h. History and variety of American identities, examined through citizenship, culture, social stratification; conflict and commonalities among groups according to race, ethnicity, gender, class, sexuality; how art, literature, music, film, photography, and other cultural artifacts represent diversity of identities.

AMST:2050 The American Vacation 3 s.h. Development of the idea of vacation from upper-class origins to acceptance as part of middle- and working-class life; Niagara Falls, Saratoga Springs, the Catskills, Atlantic City, Idlewild, Coney Island, national parks of the American West, Chicago World’s Fair, Gettysburg, Disneyland; how vacation experiences and meanings are shaped by social class, race, gender, age; growth of leisure time, labor legislation, proper use of leisure time, tourism, vacations as social rituals, golden age of family vacations. Same as SPST:2050.

AMST:2052 Fairs and Amusement Parks 3 s.h. Nineteenth- and twentieth-century international expositions, amusement parks, and theme parks as cultural events of U.S. self-definition.

AMST:2084 Sport and Film 3 s.h. Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as SPST:2084.

AMST:2290 Food and Culture in Indian Country 3 s.h. Native Americans as original farmers of 46 percent of the world’s table vegetables; examination of food as a cultural artifact (e.g., chocolate, tobacco); food as a primary way in which human beings express their identities; environmental, material, and linguistic differences that shape unique food cultures among Native peoples across the Western Hemisphere; close analysis of indigenous foods, rituals, and gender roles associated with them; how colonization transformed Native American, European, and African American cultures. Same as AINS:2290, GHS:2290, HIST:2290.

AMST:2300 Native Americans in Film 3 s.h. Representations of Native Americans in film from the western to science fiction and animation. Same as AINS:2300.

AMST:2400 The Guitar in American Culture 3 s.h. Cultural history of the guitar in America from 19th century to present; how the instrument evolved in America (e.g., with the introduction of steel strings, electric pick-ups, amplifiers, new body shapes); how the instrument contributed to musical styles from folk, blues, and jazz to pop, rock, heavy metal, and beyond; what impact it had on American culture and politics as a means of folk-cultural expression for black slaves and sharecroppers, an icon of youth rebellion and counter-cultural opposition, a signifier of hyper-masculinity (one that has been reclaimed by female guitarists), or even a ritual object to smash or burn on stage; the guitar’s future in an age of electronic music.

AMST:2500 U.S. Cinema and Culture 3 s.h. Representation of race, ethnicity, class, gender, and sexuality in Hollywood movies.
AMST:2700 The Black Image in Sequential Art: Comics, Graphic Novels, and Anime 3 s.h.
Provides a foundation to critically interpret the representation of people of African descent in sequential art; primary focus on serial comic strips, gag, comic books, graphic novels, video games, animation, anime, Manga, film, zines, and televisual examples of Blackness; emphasis of readings and viewing materials on gender, sexualities, economics, ethnicity, the transnational circulation and commodification of the Black image, fandom communities, independent and mainstream sequential art producers. Same as AFAM:2700.

AMST:2950 Animals and Performance in American Culture 3 s.h.
Role of animals in various forms of cultural expression in the U.S. from the 19th to the 21st centuries; along with visual and literary arts, special emphasis will be placed on live performance (e.g., circus and theatre) because of how it highlights embodied and affective modes of communication that inform our connections to animals; relationship of cultural forms involving animals (real and imagined) to the lived experience of animals in the wider historical and social context; how animals shape human ideas about race, ethnicity, class, gender, sexuality, and construct notions of "Americanness." Same as THTR:2450.

AMST:3045 Immigration and American Culture 3 s.h.
Immigrants and immigrant communities.

AMST:3047 American Disasters 3 s.h.
Fault lines of American society and culture as exposed during catastrophe; history of American disaster investigated through methods from cultural history, visual theory, sociology, and media studies; varied disasters 1800 to present, including those involving cities (Chicago fire, San Francisco earthquake, Chicago heat wave), transportation (Titanic, Challenger, Columbia), and environment (Union Carbide and Bhopal, Exxon Valdez); causes of catastrophes; how Americans react and are drawn to catastrophe (e.g., disaster films, jokes); related topics, including technology, urbanism, race, class, apocalyptic religion, journalism, popular culture.

AMST:3050 Topics in American Cultural Studies 3 s.h.
Special topics in American history, literature, culture.

AMST:3051 The Office: Business Life in America 3 s.h.
History of business life in America from birth of Wall Street to rise of Silicon Valley; modes of managing and regulating office workers; changing designs of office buildings, furniture, gadgets; corporate response to rise of class inequalities and growing gender and racial diversity in workforce; portrayal of businessperson in novels, movies, television, art, photography.

AMST:3053 The Civil Rights Movement 3 s.h.
History of the American civil rights movement. Same as AFAM:3053.

AMST:3060 Metropolis: Cities in American Culture 3 s.h.
Impact of American cities (skyscrapers, entertainments, crowds, ethnic neighborhoods) on American culture; depiction of American urban environments by artists, writers, musicians, filmmakers; treatment of city life in popular culture (superhero comics and movies, sitcoms, hip-hop, and more); debates about post-industrial decline of cities; focus on New York, Chicago, Los Angeles.

AMST:3063 American Ruins 3 s.h.
Emergence and development of American fascination with ruins, from indigenous to urban-industrial remains; actual ruins and depiction of imagined ruins in art, literature, cinema.

AMST:3130 Black American Cinema 3 s.h.
Major historical and cultural movements in Black cinema; independent and early Hollywood films, animation, Blaxploitation, the Black Renaissance, Black auteurs (e.g., Spike Lee, Julie Dash), hip-hop cinema, womanist films, 21st-century developments in film (e.g., theatre to film adaptations of Tyler Perry), new media’s effect on film and cinema; particular attention given to gender, sexualities, region, ethnicity, and class. Same as AFAM:3130.

AMST:3135 The Social Construction of Whiteness 3 s.h.
Whiteness as a socially constructed racial category with material effects in everyday life; race as a category with salience in determining public policy, forming identities, and shaping people’s actions; interdisciplinary approach using social history, philosophy, science, law, literature, autobiography, film, and the expressive arts.

AMST:3148 American Monuments 3 s.h.
How Americans enshrine certain memories in form of public monuments; why Americans began building large-scale monuments in 19th century (Bunker Hill, Washington Monument); subsequent monuments to wars, Indian massacres, the Confederacy, the civil rights movements; recent trends, including counter-monuments (9/11 memorial), spontaneous and temporary monuments, and online memorials; roles monuments play in American society, why they attract so much controversy, how some become sites for popular protests or for depositing artifacts, and how they compare with those in other countries (Holocaust memorials in Germany).

AMST:3171 Baseball in America 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as SPST:3171.

AMST:3178 American Sport to 1900 3 s.h.
Growth and institutionalization of sport from colonial times to 1900. Same as SPST:3178.

AMST:3179 Twentieth-Century American Sport 3 s.h.
Historic development of sport in the United States since 1900; economic forces, professionalization, growth of media. Same as SPST:3179.

AMST:3195 American Cultures and American Photography 3 s.h.
Introduction to visual, cultural, and historical frameworks to view and interpret photographs as material artifacts.

AMST:3198 New Media and the Future of Sport 3 s.h.
Emergence and significance of Internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as JMC:3135, SPST:3198.

AMST:3400 Black Popular Music 3 s.h.
History and expressive culture of people of African descent living in America through popular music forms; historical time span between the 17th and 21st centuries; poetry, music, cultural analysis, film, and art as sources for the study of Black music; genres covered include spirituals and gospel, blues, jazz, rock, rhythm and blues, Afropunk, alternative and neo soul, and hip-hop. Recommendations: AFAM:1020 and AMST:1030. Same as AFAM:3400.
AMST:3500 American Gothic: Film, Literature, and Popular Culture 3 s.h. Gothic eruptions of the uncanny in 19th- through 21st-century American literature, film, and mass culture; how ghosts, vampires, and visitants from the dark side call attention to fluid or liminal social space while communicating information and anxieties about repressed histories, economic change, and unstable intersections of gender, sexuality, race, religion, and class identities; special attention given to modernity and post-modernity of American gothic as an artifact of U.S. consumer culture and mass media.

AMST:3900 Seminar in American Cultural Studies 3 s.h. Interdisciplinary perspectives on a single theme or period.

AMST:3994 Independent Study arr. Independent interdisciplinary research, writing.

AMST:4283 U.S. Women's History as the History of Human Rights 3-4 s.h. History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as GWSS:4283, HIST:4283, HRTS:4283.

AMST:4999 Honors Project arr. Independent interdisciplinary research, writing.

AMST:5000 Interdisciplinary Research in American Studies 3 s.h. Research, theories, and methods in American studies; origins, evolution, and future of discipline; key figures, texts, and debates.

AMST:5002 Critical Theories for Sport 3 s.h. Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as SPST:5002.

AMST:6030 Seminar: Performing Arts in American Culture 3 s.h. American theater, dance, music, and performance.

AMST:6050 Seminar: Topics in American Studies 3 s.h. American cultural history; urbanization, mass media, pluralism, assimilation.

AMST:6058 Seminar: Technology and American Culture 3 s.h.

AMST:6070 Seminar: Topics in Sport Studies 1-3 s.h. Special topics on sport in historical or contemporary contexts. Same as SPST:6070.

AMST:6078 Seminar: Women in Sport 3 s.h. Women's sport involvement in historical and/or contemporary contexts; focus on social class, religion, race, ethnicity, sexuality, medical opinion, economic considerates, political events, and educational philosophies that have influenced women's participation. Same as GWSS:6710, SPST:6078.

AMST:6080 American Film and American Culture 3 s.h. Relationships between film and culture as developed in a particular approach, period, subject.

AMST:6099 American Studies Proseminar 1-2 s.h. Intensive reading on American cultural analysis topics; may include screenings, field trips, guest speakers, special events.

AMST:6140 Engaged Scholarship in the Humanities 0,3 s.h. Survey of literature on community-engaged scholarship (CES) in the humanities; exploration of the pioneering work of engaged scholars in Native American, Latino, and African American studies; students write a research prospectus that is consistent with CES methodologies. Same as HIST:6140.

AMST:6276 Sport in U.S. Culture 3 s.h. Sport as a significant cultural form in the United States; focus on role of sport in cultural reproduction; institutional relationships between sport and politics, economy, education, and media. Same as SPST:6276.

AMST:7077 Sport Studies Workshop 1 s.h. Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as SPST:7070.

AMST:7085 Dissertation Writing Workshop 1 s.h. Dissertation preparatory work with peer and faculty critiques, including preparation of a prospectus, research activities, and chapter writing. Requirements: American studies graduate standing with postcomprehensive examination status.

AMST:7994 Independent Study arr.

Sport Studies Courses

SPST:1000 First-Year Seminar 1-2 s.h. Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

SPST:1074 Inequality in American Sport 3 s.h. Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Values and Culture. Same as AMST:1074, GWSS:1074.

SPST:1847 Hawkeye Nation: On Iowa and Sport 3 s.h. Identity, community, and place explored within local frameworks: the University of Iowa, Iowa City, State of Iowa; how sport, literature, film, other cultural institutions forge connections to community and shape Iowa's image in the public imagination; identity and community as complex and contested issues; local rituals, sites of memorialization, acts of erasure, management and use of public and private space such as UI athletic complex, Field of Dreams, Iowa Writers' Workshop, Iowa Avenue Literary Walk, Blackhawk Park; interdisciplinary approaches grounded in American studies, sport studies, American Indian and native studies, literature, history. Same as AMST:1847.

SPST:2050 The American Vacation 3 s.h. Development of the idea of vacation from upper-class origins to acceptance as part of middle- and working-class life; Niagara Falls, Saratoga Springs, the Catskills, Atlantic City, Idlewild, Coney Island, national parks of the American West, Chicago World's Fair, Gettysburg, Disneyland; how vacation experiences and meanings are shaped by social class, race, gender, age; growth of leisure time, labor legislation, proper use of leisure time, tourism, vacations at social rituals, golden age of family vacations. Same as AMST:2050.
SPST: 2077 Sport and Religion in America 3 s.h.
Sport as a religion; religiosity in sports; examination of religion and sport as connected in important ways in American society. Same as RELS:2877.

SPST: 2078 Women, Sport, and Culture 3 s.h.
Feminist analysis of girls’ and women’s sports experiences, including reproduction of gender through sport, recent changes in women’s intercollegiate athletics, media representations of women’s sport, feminist critiques, alternatives to sport. Same as GWSS:2078.

SPST: 2079 Race and Ethnicity in Sport 3 s.h.
Structural and ideological barriers to racial and ethnic equality in sport, with focus on African American sport experiences, historical and contemporary issues, media representations. Same as AFAM:2079.

SPST: 2081 Theory and Ethics of Coaching 3 s.h.
Philosophical bases, ethical issues; theoretical, practical applications.

SPST: 2084 Sport and Film 3 s.h.
Sport films as means of exploring contemporary ideas about sport in the U.S.; focus on narrative structure, characterization, historical, and political contexts; formal aspects of film analysis (e.g., editing, lighting, cinematography). Same as AMST:2084.

SPST: 2500 Sport and Technology 3 s.h.
Connections between sport and technology; performance enhancement to paralympians, sex testing to scientific racism, Fitbits to e-sports, data analytics and journalism; cultural approaches to understanding how science, medicine, and technology impact active bodies, sporting industries, and infrastructure; debates regarding risks and responsibilities; exploration of various roles (e.g., athletes, administrators, architects, engineers, programmers, trainers) in creating and sustaining past, present, and future of sports.

SPST: 3170 Globalization and Sport 3 s.h.
Sport as both a global and local phenomenon; influence of global economic, political, and cultural forces on local sporting expressions, experiences, and identities; global sporting cultures from cricket to capoeira; global sporting spectacles from the Olympics and Paralympics to the FIFA World Cup; global sporting celebrities and athlete migrants from Maria Sharapova and Christiano Rinaldo to Yao Ming and Dominican Republic baseball; global sporting production, consumption, and development from global labor and environmental concerns to sport for development and peace.

SPST: 3171 Baseball in America 3 s.h.
Forces that influenced political, economic, and social development of professional baseball in the United States; rise of major league baseball, its relationship to the minor leagues, and development of organized baseball industry. Same as AMST:3171.

SPST: 3172 Football in America 3 s.h.
Forces that influenced political, economic, and cultural development of college and professional football in the United States; rise of the National Football League and its relationship to college football and commercial media interests.

SPST: 3175 Sport and the Media 3 s.h.
Examination of sport and media’s intimate relationship; aesthetic, cultural, political, economic, and industrial factors that shape it. Same as JMC:3183.

SPST: 3176 Sport and Nationalism 3 s.h.
Role of sport in the phenomenon of nationalism; selected theories; case studies on Ireland, Australia, British West Indies, Cold War U.S., fascist Europe.

SPST: 3177 Sport in the Western World 3 s.h.
Development of Western sport; relation to social, political, economic, intellectual factors.

SPST: 3178 American Sport to 1900 3 s.h.
Growth and institutionalization of sport from colonial times to 1900. Same as AMST:3178.

SPST: 3179 Twentieth-Century American Sport 3 s.h.
Historic development of sport in the United States since 1900; economic forces, professionalization, growth of media. Same as AMST:3179.

SPST: 3180 Classics of Sports Journalism: From Jack London to Grantland 3 s.h.
Historical examples of celebrated works of sports journalism; focus on long-form texts. Same as JMC:3190.

SPST: 3181 The Business of Sport Communication 3 s.h.
Critical and practical approach to understanding contemporary sports media and business practices that mark it; focus on sports media industries and institutions; branding, marketing, demographic, public relations, and promotional factors that shape content. Same as JMC:3181.

SPST: 3182 Sport, Scandal, and Strategic Communication in Media Culture 3 s.h.
Use of sport scandal to consider relationship between sport and media in American and global popular culture; broad range of case studies used to consider what constitutes a sport scandal, how this definition shifts in different circumstances; crucial roles media play in creating, communicating, and diffusing these crises; how phenomenon of sports scandal has intensified along with emergence of cable television, the Internet, and social media. Same as JMC:3182.

SPST: 3193 Independent Study arr.
Problem in a specific area.

SPST: 3198 New Media and the Future of Sport 3 s.h.
Emergence and significance of Internet blogs, social media, convergence journalism, video games, and fantasy sports; economic, regulatory, and cultural forces that shape new media sport journalism and entertainment. Same as AMST:3198, JMC:3135.

SPST: 3500 The Olympics 3 s.h.
Real-time analysis and evaluation of current Winter or Summer Olympic and Paralympic Games; cultural history of modern Olympic Games (1896 to present); economics and politics of mega-events (e.g., cancellations, boycotts, protests); amateurism, professionalism, and athlete migrants; commercialization, broadcasting rights, and branding; nationalism, internationalism, and (post)colonialism; social and cultural impacts and controversies (e.g., social and environmental sustainability); Olympic bids, committees, and hosts; sex, gender, and racial discrimination; doping; technology, television, and social media.

SPST: 3911 Sport Since 9/11 3 s.h.
Profound impact of events of September 11, 2001 in the United States and abroad; how sport has often played a role in constructing understandings of the United States and what it means to be a U.S. citizen; use of sport to interrogate U.S. nationalism and what it means to be a U.S. citizen in post-9/11 era; investigation of stories about the United States after 9/11 using responses from MLB and NFL, 2002 Olympics, and others; the future; how more critically nuanced understandings of sport’s role in the United States might lead us to become more reflective and active citizens.

SPST: 4900 Topics in Sport Studies 1-3 s.h.
Special topics on sport in historical or contemporary contexts.
SPST:4999 Honors Project 1-3 s.h.

SPST:5002 Critical Theories for Sport 3 s.h.
Exploration and application of critical theories to contemporary sport; feminism, Marxism, critical race theory, whiteness studies, queer theory, postcolonial theory, postmodernism, and poststructuralism. Same as AMST:5002.

SPST:6010 Nonprofit Organizational Effectiveness I 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as HMP:6360, LAW:8751, MGMT:9150, RELS:6070, SSW:6247, URP:6278.

SPST:6020 Nonprofit Organizational Effectiveness II 3 s.h.

SPST:6070 Seminar: Topics in Sport Studies 1-3 s.h.
Special topics on sport in historical or contemporary contexts. Same as AMST:6070.

SPST:6072 Seminar in Cultural Studies of Sport 3 s.h.
Current theoretical debates in sport studies; applications of critical cultural studies theories to critical analysis of sport.

SPST:6074 Seminar in Sport History 3 s.h.
Topics in sport history; theoretical and methodological issues.

SPST:6078 Seminar: Women in Sport 3 s.h.
Women's sport involvement in historical and/or contemporary contexts; focus on social class, religion, race, ethnicity, sexuality, medical opinion, economic considerations, political events, and educational philosophies that have influenced women's participation. Same as AMST:6078, GWSS:6710.

SPST:6276 Sport in U.S. Culture 3 s.h.
Sport as a significant cultural form in the United States; focus on role of sport in cultural reproduction; institutional relationships between sport and politics, economy, education, and media. Same as AMST:6276.

SPST:7070 Sport Studies Workshop 1 s.h.
Development of individual research projects for group discussion. Requirements: graduate standing in American studies or sport studies. Same as AMST:7077.

SPST:7940 Independent Study arr.
American Studies, B.A.

Requirements

The Bachelor of Arts with a major in American studies requires a minimum of 120 s.h., including 33 s.h. for work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. At least 24 s.h. for the major must be earned at the University of Iowa.

The major in American studies stresses broad training in cultural analysis and communication. American studies students may arrange internships (1-3 s.h.) for credit toward their major through the University’s Pomerantz Career Center.

A distinctive feature of the American studies major is the opportunity to develop broad training in cultural analysis as well as emphasis of particular interests within the study of American culture. Students are encouraged, but not required, to choose an emphasis area in American studies with guidance from their faculty advisor. Each emphasis area allows students to group courses in American studies around a specific interdisciplinary theme, topic, or set of social issues.

Shortly after declaring the major, students should meet with their faculty advisor to explore the range of course work available and to begin shaping a plan of study. By the second semester in the major, students and their advisor should have agreed upon a plan of study for completing the requirements for the major.

The B.A. with a major in American studies usually requires the following 11 courses.

Honors

Honors in the Major

Students majoring in American studies have the opportunity to graduate with honors in the major and to pursue special interests through individual, in-depth research.

Honors students carry out a research project. Working under the guidance of an undergraduate advisor, each student defines a research project and then makes a project proposal, ideally by the end of the junior year. A student then completes the project under the guidance of a supervising faculty member. American studies honors students register for up to 6 s.h. in AMST:4999 Honors Project.

Contact the American studies honors advisor for more information about honors in the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the American studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: declaration of the major and discussion of a plan of study with an American studies advisor

Before the seventh semester begins: at least six courses from the plan of study and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least nine courses from the plan of study

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

**Hours** 15

**Total Hours** 120-128

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 464]

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

American studies provides preparation for careers in business, public relations, marketing, advertising, diversity outreach, tourism, education, politics and government, social service, media and journalism, museums, and the arts. It also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business, or for professional study in law or medicine.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Sport Studies, B.A.

Requirements

The Bachelor of Arts with a major in sport studies requires a minimum of 120 s.h., including 45 s.h. of work for the major (30 s.h. in sport studies and 15 s.h. in an outside concentration area or a minor). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program. At least 24 s.h. of credit for the major must be earned at the University of Iowa.

The sport studies major examines sport in its historical and contemporary cultural contexts. Course work provides students with the critical skills necessary to understand the cultural significance of sport as it relates to the media, the economy, the political system, and the educational system. A focus on the race, class, and gender differences in the sport experience is central to the major.

Many students use their experience in the program to prepare for graduate school. For others, the required second concentration area or minor serves as an introduction to careers in a number of fields, such as sport journalism, sport management, or coaching.

The B.A. with a major in sport studies requires the following course work.

<table>
<thead>

</table>

Sport Studies Foundation

Students should complete the foundation courses as early as possible.

Both of these:

- AMST:1010 Understanding American Cultures 3
- SPST:1074/AMST:1074/GWSS:1074 Inequality in American Sport 3

Sport Studies Core

Students must complete one course from each of the following four content areas (total of 12 s.h.).

Diversity in Sport

One of these:

- SPST:2078/GWSS:2078 Women, Sport, and Culture 3
- SPST:2079/AFAM:2079 Race and Ethnicity in Sport 3

International Dimensions

One of these:

- SPST:3170 Globalization and Sport 3
- SPST:3176 Sport and Nationalism 3
- SPST:3177 Sport in the Western World 3
- SPST:3500 The Olympics 3

Contemporary Sport in America

One of these:

- SPST:3175/JMC:3183 Sport and the Media 3
- SPST:3179/AMST:3179 Twentieth-Century American Sport 3

History of Sport and Leisure in America

One of these:

- SPST:2050/AMST:2050 The American Vacation 3
- SPST:3178/AMST:3178 American Sport to 1900 3

Electives

Students must complete at least 12 s.h. of approved elective courses; the department suggests courses from the following list. Courses not used to satisfy the sport studies core can serve as electives; see "Sport Studies Core" above.

AMST:1065 Disney in America 3
AMST:1500 American Celebrity Culture 3
AMST:2000 Introduction to American Studies 3
AMST:2052 Fairs and Amusement Parks 3
SPST:1847/AMST:1847 Hawkeye Nation: On Iowa and Sport 3
SPST:2077/RELS:2877 Sport and Religion in America 3
SPST:2081 Theory and Ethics of Coaching 3
SPST:2084/AMST:2084 Sport and Film 3
SPST:2500 Sport and Technology 3
SPST:3171/AMST:3171 Baseball in America 3
SPST:3172 Football in America 3
SPST:3181/JMC:3181 The Business of Sport Communication 3
SPST:3182/JMC:3182 Sport, Scandal, and Strategic Communication in Media Culture 3
SPST:3193 Independent Study arr.
SPST:3198/JMC:3135/AMST:3198 New Media and the Future of Sport 3
SPST:3911 Sport Since 9/11 3
SPST:4900 Topics in Sport Studies 1-3
SPST:4999 Honors Project 1-3

Outside Concentration Area or Minor

All sport studies students must complete 15 s.h. of course work in an allied field of concentration outside the major (e.g., American studies; journalism and mass communication; business; gender, women’s, and sexuality studies). Work for the concentration must include 6 s.h. earned in courses numbered 3000 or above or in courses that are designated
advanced by the department or program that offers them. Concentration area courses may not be taken pass/nonpass. Students select their allied field of concentration in consultation with their advisor, and they must have their advisor's written approval for the area.

Students also may satisfy the concentration requirement by earning a second major or a minor in another discipline. Students who satisfy the requirement in this way are held responsible for ensuring that they have fulfilled the requirements for the second major or the minor.

Coaching Authorization or Endorsement

Students may prepare for coaching by completing additional course work that also qualifies them for a coaching authorization from the State of Iowa. The following courses are recommended.

- ATEP:2030 Basic Athletic Training 3
- HHP:1100 Human Anatomy 3
- HHP:3300 Human Growth and Motor Development 3
- SPST:2081 Theory and Ethics of Coaching 3

Students who successfully complete the requirements for the coaching authorization must submit an application to the Iowa Board of Educational Examiners. For more information, visit Coaching Authorization FAQs on the board's website.

Honors

Honors in the Major

Students majoring in sport studies have the opportunity to graduate with honors in the major and to pursue special interests through individual, in-depth research.

Honors students carry out a research project. Working under the guidance of an undergraduate advisor, each student defines a research project and then makes a project proposal, ideally by the end of the junior year. The student then completes the project under the guidance of a supervising faculty member. Sport studies honors students register for up to 3 s.h. in SPST:4999 Honors Project.

Contact the American studies honors advisor for more information about honors.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the sport studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: declaration of the major

Before the sixth semester begins: area of concentration determined

Before the seventh semester begins: at least six sport studies courses and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight sport studies courses

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Sport Studies (B.A.)

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 464]

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

---

### Career Advancement

Many sport studies students use their experience to prepare for graduate school. For others, the required second area of concentration or minor serves as an introduction to careers in a number of fields, such as sports journalism or sports information, sport management, and coaching.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
American Studies, Minor

The undergraduate minor in American studies requires a minimum of 15 s.h. in American studies courses, including 12 s.h. in courses considered advanced for the minor taken at the University of Iowa (courses numbered above AMST:1010 are considered advanced for the minor). Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students interested in earning the American studies minor should consult with one of the department's faculty members.
Sport Studies, Minor

The undergraduate minor in sport studies requires a minimum of 15 s.h. in University of Iowa sport studies courses (prefix SPST), including at least 6 s.h. in courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students select courses for the minor according to their interests and the recommendation of the undergraduate coordinator.
American Studies, M.A.

Requirements

The Master of Arts program in American studies requires a minimum of 36 s.h. of graduate credit. The degree generally is offered without thesis; students must petition the director of graduate studies for permission to pursue the thesis option.

Each M.A. student designs an interdisciplinary field of concentration in consultation with the student's American studies advisor.

The M.A. in American studies requires the following work.

<table>
<thead>
<tr>
<th>Course Code and Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST:5000 Interdisciplinary Research in American Studies (taken twice in consecutive years)</td>
<td>6</td>
</tr>
<tr>
<td>Two graduate seminars in American studies</td>
<td>6</td>
</tr>
<tr>
<td>Five courses in the interdisciplinary field of concentration</td>
<td>15</td>
</tr>
<tr>
<td>Electives</td>
<td>9</td>
</tr>
<tr>
<td>M.A. portfolio</td>
<td></td>
</tr>
</tbody>
</table>

Total Hours 36

Each student must complete an M.A. portfolio, which includes a research paper, faculty evaluations for all courses taken during the student's first full year of graduate study, and a self-evaluation essay.

The research paper is a graduate seminar paper that demonstrates a student's skills as a research scholar and writer and represents the student's strongest work. The paper should be 25-30 pages, including a bibliography.

The self-evaluation essay summarizes the American studies methods and materials that have shaped the student's interdisciplinary work in the field and states how the master's degree work in American studies has contributed to, challenged, or complicated the student's goals and ambitions beyond the degree.

Students assemble the M.A. portfolio under the guidance of their advisors and should submit it no later than December 1 of their third semester in residency. The portfolio is evaluated on a satisfactory/unsatisfactory (S/U) basis by a three-person American studies faculty committee. Students whose portfolio receives a U may resubmit the portfolio during their fourth semester of residency.

For students who wish to continue their education with doctoral study, the M.A. portfolio serves as the application for admission to the Ph.D. program in American studies. The department informs applicants whether they have been accepted into the Ph.D. program by the end of the fall semester in which they submit their M.A. portfolio; admission is contingent upon successful completion of the M.A. during a student's fourth semester of residency.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

American studies students’ career goals are as varied as the topics they study. Even though the major does not have an explicit vocational goal, graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, and social services.

The program also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.
American Studies, Ph.D.

Requirements

The Doctor of Philosophy program in American studies requires a minimum of 72 s.h. of graduate credit. Students may focus in American studies or choose the sport studies subprogram.

Students work with their faculty advisor to map out a coherent plan of study that reflects their particular interests. Students are permitted considerable flexibility in constructing their study plan, but they must meet certain basic requirements, which include foundation courses, area foundation courses, two interdisciplinary fields of concentration, a research skills course, elective course work, and a dissertation.

The two fields of concentration may be defined to correspond with a student's strongest intellectual interests, but they must be interdisciplinary in concept and multidisciplinary in scope. Each must include course work from more than one of the University's departments and programs. The two concentration areas may, and usually should, have an intellectual relationship with each other.

Students are expected to address the cultural diversity of American life in their course work and reading.

The Doctor of Philosophy requires the following work. Some course requirements are different for American studies and sports studies.

Course Work

Required Foundation Courses

All students complete the required foundation courses and should take them as early as possible.

Sport Studies Students

SPST:5002 Critical Theories for Sport 3

SPST:6074 Seminar in Sport History 3

First Field of Concentration

American Studies Students

Courses in an interdisciplinary field with a historical concentration designed with the advisor and approved by the department's Plan of Study Committee 18

Sport Studies Students

Courses on sport in cultural and historical contexts selected with the advisor and approved by the department's Plan of Study Committee 18

Second Field of Concentration

American Studies Students

Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee 18

Sport Studies Students

Courses in an interdisciplinary field designed with the advisor and approved by the department's Plan of Study Committee 18

Research Skills

American Studies Students

AMST:7085 Dissertation Writing Workshop (taken three times) 3

Sport Studies Students

SPST:7070 Sport Studies Workshop (may be repeated) 1

Additional Requirements

American Studies and Sport Studies Students

Dissertation work (AMST:7090) and electives 21

Admission to Ph.D. Candidacy

Admission to Ph.D. candidacy signifies that the department judges a doctoral student qualified to take the comprehensive examination. Doctoral students advance to Ph.D. candidacy based on a review conducted during their second year in the Ph.D. program (typically during fall semester); the review assesses a student's readiness to complete studies through the comprehensive examination and the dissertation, which is an original work of scholarship. In addition to judging a student's readiness for Ph.D. candidacy, the review provides a progress report on the student's work and a tentative prognosis for future prospects in the field.

Comprehensive Examination

The comprehensive examination comprises three written exams and one oral exam.

The first exam is taken under the supervision of an American studies faculty member, who also chairs the comprehensive examination. The candidate takes a timed, take-home written exam of no less than four hours and no longer than two days; the exam details the candidate's approach to American studies (methods and models), including the student's position and critical engagement with models of American studies scholarship.

The remaining two written exams explore the candidate's major fields; these are at least four hours long and may be given on a take-home basis at the examiner's discretion.

The oral exam covers material from the written exams.

Dissertation

The final requirement for the Ph.D. in American studies is the dissertation, a substantive book-length manuscript that involves interdisciplinary research and analysis and that represents an original contribution to knowledge. All dissertations must be approved by a committee of five faculty members, including at least two from the Department of American Studies.

Internships

Qualified graduate students in American studies can arrange internships with a number of local agencies, including the State Historical Society of Iowa, the Division of Historic
Preservation, the University of Iowa Museum of Art, the Iowa Humanities Board, Brucemore, the Herbert Hoover Presidential Library and Museum, and the Putnam Museum. With special permission, candidates conducting research during such on-the-job training may receive academic credit through AMST:7994 Independent Study. Other internships with social agencies, government, or business also may be arranged.

**Admission**

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Career Advancement**

American studies students’ career goals are as varied as the topics they study. Even though the major does not have an explicit vocational goal, graduates are well prepared for careers in a wide range of areas, such as business, education, arts and museum administration, government, journalism, and social services.

The program also provides a good foundation for graduate studies in the humanities, the social sciences, theology, and business as well as for professional studies in law or medicine.
Anthropology

Chair
• James G. Enloe

Director of Graduate Studies
• Erica Prussing

Director of Undergraduate Studies
• Margaret Beck

Undergraduate major: anthropology (B.A., B.S.)
Undergraduate minor: anthropology
Graduate degrees: M.A. in anthropology; Ph.D. in anthropology
Faculty: https://clas.uiowa.edu/anthropology/people/faculty
Website: https://clas.uiowa.edu/anthropology/

Anthropology is the comparative study of peoples and cultures past and present. The discipline's four major subfields—cultural anthropology, biological anthropology, linguistic anthropology, and archaeology—share a holistic, global perspective and commitment to field-based methodologies. Anthropological knowledge constructively contributes these perspectives and methods to work in other social sciences, physical and biological sciences, and the arts and humanities.

Anthropology provides a framework for understanding the relation of human beings to their natural environment and to the social and cultural worlds they create and inhabit. The field provides insight into biological and sociocultural evolution and examines how economic, social, and political processes, symbolic systems, and social structures interact to shape human experience. Fieldwork-based, comparative studies of past and present cultures yield information on regularities and differences, and special insight into the diversity of human creativity and cultural change.

Anthropological training provides skills useful in a variety of careers. As the American Anthropological Association points out, "careful record-keeping, attention to details, analytical reading, and clear thinking are taught by anthropological courses. Social ease in strange situations, critical thinking, and strong skills in oral and written expression are cultivated by anthropological training."

For undergraduates, the department offers five tracks within the major—anthropology for the health professions, culture and heritage management, environmental anthropology, gender and culture, and medical anthropology—for students with specialized interests in these areas.

The Department of Anthropology also offers numerous courses that undergraduate students in all majors may use to fulfill General Education Program requirements.

At the graduate level, the department grants both M.A. and Ph.D. degrees in anthropology. Most students enter the Ph.D. program, and are awarded an M.A. after fulfilling program requirements at the end of their second year. The department also offers a terminal M.A. degree with a focus on cultural resource management—archaeology (CRM), which provides academic preparation for a professional career in this field. Students work closely with faculty and staff from the Office of the State Archaeologist.

In addition to offering undergraduate and graduate degree programs, the Department of Anthropology administers the University's Museum Studies Program, which offers an undergraduate certificate.

Anthropology General Education Courses

The Department of Anthropology offers a number of courses that students may use to satisfy requirements of the College of Liberal Arts and Sciences General Education Program [p. 464]. The courses and the general education (GE) areas are listed below.

Natural, Quantitative, and Social Sciences

<table>

Faculty

Members of the anthropology faculty work within and across the discipline's four subfields, and conduct both localized and multi-sited field research at locations worldwide, including East, South, and Southeast Asia; Europe; southern Africa; North America (especially the U.S. and Mexico); South America; and the Pacific (especially Hawaii and New Zealand).

Current faculty interests include cultural evolution, cultural politics, environmental anthropology, European archaeology, feminist anthropology and sexuality studies, medical anthropology, paleoanthropology, science and technology
study, and Asian studies. For more detail, visit the Department of Anthropology Faculty web page.

Graduate Programs of Study

Majors

• Master of Arts in Anthropology [p. 83]
• Doctor of Philosophy in Anthropology [p. 85]

Facilities

Resources, Facilities

The department has well-equipped laboratories for the study of archaeology, biological anthropology, computational genetics, evolutionary anthropology, and a state-of-the-art multimedia linguistic anthropology laboratory. Resources include a GIS/quantitative analysis laboratory, ground penetrating radar, and x-ray fluorescence equipment.

Under the direction of University archaeologists, students acquire skills in data recovery and interpretive techniques. Opportunities are available for students to participate in archaeological field research in France, the Netherlands, Portugal, Sicily, the United States Southwest, or at various sites in the United States Midwest. Occasional fieldwork in East and Southeast Asia is available to graduate students in the paleoanthropology research program.

Individual faculty members maintain field laboratories and conduct research outside the United States, maintaining ties with research institutions in foreign countries, including the Laboratoire d’Ethnologie Préhistorique at Pincevent, France; the Centre de Recherches Archéologiques at Verberie, France; Gobabeb Research and Training Center, Namibia; the National Museum of Ethnology, Japan; the Institute of Technology Bandung (ITB), Indonesia; the Gemeente Nijmegen, Bureau Archeologie, Nijmegen, the Netherlands; the Deutsches Archäologisches Institut of Madrid, Spain; and the National University of Singapore, Singapore.

The department has access to the Iowa Archaeological Collections through the Office of the State Archaeologist and maintains its own archaeological collections (midwestern prehistoric and historical and comparative faunal material).

The department maintains a documented human osteology teaching collection amassed by the University of Iowa Carver College of Medicine and the Department of Anatomy and Cell Biology, and it holds a substantial documented human osteology research collection originally from Stanford University’s medical school that is maintained jointly with the Office of the State Archaeologist.

The University is a charter member of the Human Relations Area Files (HRAF), an extensively annotated set of source materials on the peoples of the world—their environments, behavioral patterns, social lives, and cultures. Through HRAF and other library resources, anthropology students have access to source materials on more than 400 different cultures.

The University’s exchange programs for Iowa students provide opportunities and some scholarships for study abroad.

Courses

Anthropology Courses

ANTH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g. films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ANTH:1001 Issues in Anthropology 3 s.h.
In-depth exploration of methodological and theoretical issues in contemporary anthropology; emphasis on critical reading of primary texts.

ANTH:1040 Language Rights 3 s.h.
Language minorities and linguistic human rights in the United States and worldwide; language and identity, culture, power; case studies of language rights deprivation. GE: International and Global Issues. Same as LING:1040.

ANTH:1046 Big Ideas: People and the Environment - Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as GEOG:1046, GWSS:1046.

ANTH:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe 4 s.h.
How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe? These fundamental questions revolve around understanding the origins of life from different perspectives—astronomy and physics, geoscience, biology, chemistry, and anthropology; students will work together with faculty from across four different departments to investigate these questions using inquiry-based activities to build success in critical thinking, teamwork, and effective written and oral communication; second half of the origins sequence (though either course also may be taken alone). GE: Natural Sciences with Lab. Same as ASTR:1061, BIOL:1061, EES:1061.

ANTH:1101 Cultural Anthropology 3 s.h.
Comparative study of culture, social organization. GE: Social Sciences; Values and Culture. Same as IS:1101.

ANTH:1201 World Archaeology 3 s.h.
Data, theories of evolution of human cultures from end of Pleistocene to emergence of complex societies; emphasis on prehistoric cultural information from world areas from which relatively complete sequences are available. GE: Historical Perspectives.

ANTH:1301 Human Origins 3 s.h.
Processes, products of human evolution from perspectives of heredity and genetics, evolutionary theory, human biological characteristics, fossil record, artifactual evidence, biocultural behaviors. GE: Natural Sciences without Lab.
- ANTH:1310 Human Genetics in the Twenty-First Century 3 s.h.  
  Organization and inheritance of human genes and genomes;  
  genetic basis of simple and complex traits; genetic aspects  
  of cancer; paleogenomics and tracing human migrations with  
  DNA. GE: Natural Sciences without Lab. Same as BIOL:1311.

- ANTH:1401 Language, Culture, and Communication 3 s.h.  
  Human language in context of animal communication;  
  development, acquisition of language; biological base;  
  language as a linguistic system in cultural social context. GE:  
  Social Sciences.

- ANTH:2009 Individual Study 1-3 s.h.  
  Readings in area or subdivision of anthropology in which  
  student has had basic course work.

- ANTH:2100 Anthropology and Contemporary World Problems 3 s.h.  
  Selected world problems from an anthropological perspective;  
  current dilemmas and those faced by diverse human groups in  
  recent times and distant past. GE: International and Global  
  Issues; Social Sciences.

- ANTH:2102 Anthropology of Marriage and Family 3 s.h.  
  Classic anthropological theories of kinship and marriage,  
  including topics such as cousin marriage and incest; recent  
  work on new reproductive technologies and transnational  
  marriage. Same as GWSS:2102.

- ANTH:2103 Introduction to Global Health Studies 3 s.h.  
  Global health as a study of the dynamic relationship between  
  human health and social, biological, and environmental  
  factors that drive the spread of disease; core areas of global  
  health research that may include health inequalities, maternal  
  and child health, infectious diseases, nutrition, environmental  
  health, and health interventions. Same as GHS:2000.

- ANTH:2108 Gendering India 3 s.h.  
  Aspects of Indian culture, including nation, family, sexuality,  
  work, and religion, through the lens of gender; Hindu India,  
  differences in region, caste, and class. Same as GWSS:2108.

- ANTH:2136 Urban Anthropology 3 s.h.  
  Cross-cultural approach to urban anthropology; urbanizing  
  processes, migration and adaptation, aspects of class and  
  ethnicity in urban settings, urban economic relations. GE:  
  International and Global Issues; Social Sciences.

- ANTH:2140 Food, Drink, and Culture 3 s.h.  
  Passion of food, eating, and drinking in our lives; students  
  are challenged to study eating and drinking in all its variety  
  and importance in different contemporary cultures of the  
  world; exploration of how and why food and drink hold the  
  power to bind people together or to set groups apart, how  
  national cuisines are made, and how people connect food  
  and drink to ritual and health care systems; these topics and  
  many more linked with the study of food and drink production  
  and consumption to examine societal processes, such as the  
  construction of identities and symbolic meanings attached to  
  eating and drinking.

- ANTH:2151 Global Migration in the Contemporary World 3 s.h.  
  Examination of social, economic, and cultural dimensions  
  of global migration in the contemporary world from a  
  transnational and anthropological perspective; primary  
  focus is on Asian migration to the United States, but in  
  comparison to other migration trajectories. Recommendations:  
  an introductory course in cultural anthropology is useful, but  
  not required. Same as GWSS:2151, IS:2151.

- ANTH:2164 Culture and Healing for Future Health Professionals 3 s.h.  
  Health professions increasingly focused on how to best  
  provide health care to culturally diverse populations;  
  introduction to key cultural and social influences on sickness  
  and healing; worldwide examples. Same as GHS:2164.

- ANTH:2165 Native Peoples of North America 3 s.h.  
  History, culture of American Indian peoples; emphasis  
  on North America. GE: Diversity and Inclusion. Same as  
  AINS:2165, AMST:2165.

- ANTH:2175 Japanese Society and Culture 3 s.h.  
  Cultural anthropology of Japan, including historical tradition,  
  religious ethos, social organization, human ecology,  
  educational and political institutions; emphasis on how these  
  aspects relate to and influence one another. GE: Values and  
  Culture. Same as JPNS:2175.

- ANTH:2181 The Anthropology of Aging 3 s.h.  
  Comparative anthropological perspective on aging;  
  ethnographies from diverse contexts used to examine  
  intersections of kinship, religion, health, and medicine in later  
  life. Same as ASP:2181, GHS:2181.

- ANTH:2216 Foodways and Cuisine in the Past 3 s.h.  
  Anthropological and archaeological perspective on cuisine;  
  histories of different foods.

- ANTH:2220 Archaeology of Mesoamerica 3 s.h.  
  Archaeological data related to the evolution of civilization in  
  Mesoamerica; sequence from hunter-gatherers to A.D. 1519;  
  emphasis on Central Mexico, Maya area, Oaxaca.

- ANTH:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.  
  Invention of writing as one of the most momentous events  
  in the history of human civilizations; how the use of written  
  sign systems, notations, maps, graphs, encryptions, and  
  most recently, computer programs have consequences  
  that reach deeply into all aspects of people's lives; how  
  writing fascinates and delights, fosters reflexive thinking  
  and facilitates development of complex societies, and gives  
  rise to institutions of social power and control; students  
  explore the invention of writing and its consequences in  
  broad international and interdisciplinary context. Same as  
  ASIA:2248, CL:2248, CSLA:2048, COMM:2248, HIST:2148,  
  IS:2248, LING:2248, WLLC:2248.

- ANTH:2261 Human Impacts on the Environment 3 s.h.  
  Long-term patterns of human-environment interactions  
  surveyed through archaeological case studies; varied scales  
  of human impacts, including animal extinction, habitat  
  destruction, agricultural practices, urban growth, state-level  
  societies. GE: International and Global Issues; Social Sciences.
ANTH:2265 Tools, Treasures, and Trash: Archaeology of the Material World 3 s.h.
Different ways that archaeologists study material culture to gain insights into human lifeways and beliefs; consideration of ways that people make objects and objects make people.

ANTH:2290 Practicum in Archaeology arr.
Intensive, hands-on examination of a wide range of materials recently recovered from archaeological sites; pottery, lithics (stone tools and related items), plant remains, animal bones; for students with strong archaeological interests or archaeological field experience.

ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3 s.h.
Origin and evolution of important infectious diseases in human history; biological evolution of infectious agents and biocultural responses to emerging infectious diseases; primary focus on viruses and bacteria; selected world problems from an anthropological perspective; current dilemmas and those faced by diverse human groups in recent times and distant past. Same as GHS:2320.

ANTH:2390 Laboratory Methods in Biological Anthropology arr.
Specimen preparation, cataloging, moulding and casting, photography, computer analyses, library research.

ANTH:3001 Introduction to Museum Studies 3 s.h.
Overview of museum history, function, philosophy, collection, and curatorial practices; governance and funding issues; exhibition evaluation and audience studies; examples from Museum of Art, Museum of Natural History, Old Capitol Museum, and Medical Museum. GE: Social Sciences. Same as EDTL:3001, MUSM:3001, SIED:3001.

ANTH:3005 Special Topics in Anthropology 2-3 s.h.
Problems, concepts involved in comparing and contrasting behavior and ideas of different cultures.

ANTH:3010 Special Topics in Anthropology 2-3 s.h.
Problems, concepts involved in comparing and contrasting behavior and ideas of different cultures.

ANTH:3015 Independent Study arr.

ANTH:3101 Anthropology of Sexuality 3 s.h.
Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, sexuality, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people’s culturally- and historically-specific ways of having and thinking about sex. Same as GWSS:3101.

ANTH:3102 Medical Anthropology 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: ANTH:1101 or ANTH:2100. Same as CBH:3102, GHS:3102.

ANTH:3103 Environment and Culture 3 s.h.
Individual and group responses to scarcities of natural resources such as land, water, food.

ANTH:3107 Literature and Anthropology 3 s.h.
Topics vary. Same as CL:3107, ENGL:3107.

ANTH:3109 Culture, Mind, and Mental Health 3 s.h.
Cultural diversity in constructions of self, mind, and emotion; religious experience, altered states of consciousness, behavioral disorders. Prerequisites: ANTH:1101.

ANTH:3110 Health of Indigenous Peoples 3 s.h.
Health problems and services for indigenous populations worldwide, from perspective of Fourth World postcolonial politics. Prerequisites: ANTH:1101. Same as AINS:3110, GHS:3110.

ANTH:3111 Health in Mexico 3 s.h.
Use of anthropological perspectives to examine disease, healing systems, and ideas about health and the body in Mexico and its diaspora; relationships between structural conditions and historical and political transformations; ideas about gender and race; chronic and acute disease in Mexico; conquest and disease; racialized bodies; sexual health; biomedicine; shamanism; immigration and health; pollution and narcoviolence; readings in English. Same as GHS:3040, LAS:3111.

ANTH:3113 Religion and Healing 3 s.h.

ANTH:3114 Anthropology of Religion 3 s.h.
Approaches; religious roles; shamanism, witchcraft, curing; mythology; place of religion in social and cultural change. Same as RELS:3714.

ANTH:3116 Fictionalized Ethnography in Literature and Film 3 s.h.
Evaluation of fictional narratives as sources of ethnographic information, instructive and revealing depictions of other societies and cultures; culturally specific themes through storylines, creative works as cultural artifacts in presentations of differing perspectives and concerns from the authors’ personal experiences.

ANTH:3117 Using Ethnographic Methods 3 s.h.
Ethnography, holistic, qualitative research in cultural context for anthropological and related research and careers involving interpersonal interaction; multiple ethnographic methods and their rationales. Recommendations: desire to interact with others, and prior course work in fields that employ ethnographic or qualitative research (social sciences, social work, nursing, public health).

ANTH:3118 Politics of Reproduction 3 s.h.
Debates over women's reproductive experience, including its medicalization. Same as GWSS:3118.

ANTH:3121 Love, Marriage, and Family in India 3 s.h.
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as GWSS:3121.

ANTH:3123 Making a Living: Perspectives on Economic Anthropology 3 s.h.
How different cultures and societies have organized allocation of work and goods; critical reflection of ongoing integration of world’s societies into global market system; how it has become commonplace in the U.S. to believe that unemployment and debt are natural, inevitable aspects of human social organization during contemporary era; different approaches to division of work and resources among various groups of people in other societies; different approaches to dividing up society or world resources based on existing socioeconomic models.
ANTH:3125 Transnational Feminism 3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as GWSS:3350, IS:3350.

ANTH:3127 Anthropology of Death 3 s.h.
How anthropologists and archaeologists study death, dying, mortuary rituals, and notions of the afterlife in contemporary North America and in different places and times. Prerequisites: ANTH:1201 or ANTH:1101. Requirements: ANTH:1101 or ANTH:1201 or graduate standing.

ANTH:3131 Anthropology and Human Rights 3 s.h.
Complex history and evolving relationship of anthropology and international human rights discourses; concept deployment of culture and rights in human rights ideas, practice, discourse, and as a form of global law. Prerequisites: ANTH:1101 or ANTH:1301 or ANTH:1401 or ANTH:1201.

ANTH:3133 Anthropology of Race 3 s.h.
Anthropological perspectives on race: history of race in anthropological, social, cultural, and political dimensions of race; intersections with gender; biology of human diversity. Recommendations: introductory course in social sciences.

ANTH:3140 Feminist Anthropology 3 s.h.
Development and evolution of feminist critiques in cultural anthropology; readings from early studies by women ethnographers, classic writings that sought to give women cross-cultural visibility, recent experimental texts. Same as GWSS:3140.

ANTH:3142 American Cultures 3 s.h.
How anthropology has understood the diversity of non-indigenous cultures in the United States; history of anthropological engagement with the United States; racial/ethnic formations, immigration, class variations, health, sexuality, and gender. Prerequisites: ANTH:1101.

ANTH:3151 The Anthropology of the Beginnings and Ends of Life 3 s.h.
Examination of diverse understandings of birth and death, drawing on anthropological analysis of personhood, kinship, ritual, and medicine; how social inequality and new technologies shape human experience at life's margins. Prerequisites: ANTH:1101 or ANTH:2100. Same as ASP:3151. GHS:3151.

ANTH:3152 Anthropology of Caregiving and Health 3 s.h.
Diverse understandings and practices of care around the world; focus on relationships between caregiving practices and health across the life course. Same as ASP:3152. GHS:3152.

ANTH:3170 Peoples and Cultures of Southeast Asia 3 s.h.
Introduction to the study of the peoples and cultures of contemporary Southeast Asia, including Indonesia, Thailand, Malaysia, Singapore, Vietnam, the Philippines, Brunei, Cambodia, Laos, Burma/Myanmar, and East Timor.

ANTH:3171 Voices of Islam in Southeast Asia 3 s.h.
Islam and being Muslim in Southeast Asia; exploration of how different national cultures and sociopolitical trajectories in the region have produced different perceptions and practices of Islam.

ANTH:3207 Animal Bones in Archaeology 3 s.h.
Use of faunal material in interpretation of archaeological remains, including skeletal anatomy, identification, taphonomy, determination of age and sex, seasonality, quantification, sampling, breakage and cutmarks, interpretations; laboratory sessions. Prerequisites: ANTH:1201.

ANTH:3208 Archaeological Methods 3 s.h.
Current theoretical approaches, methods used to investigate the past; site formation processes, taphonomy, sampling and research design, typology and seriation, subsistence-settlement reconstruction, cultural evolution. Prerequisites: ANTH:1201.

ANTH:3237 Politics of the Archaeological Past 3 s.h.
How control over management of material remains of the ancient past, and representations of that past, intersect with the identity of diverse groups, including archaeologists, indigenous peoples, national governments, collectors, ethnic minorities and majorities, museum curators; struggles for control of the archaeological past at different scales (artifacts, skeletal remains, sites, imagery, narratives) and in different regions of the world. Same as MUSM:3237.

ANTH:3238 Archaeology of the Iberian Peninsula 3 s.h.
Introduction to archaeology of the Iberian Peninsula, from earliest human occupation through period of Romanization.

ANTH:3239 The Archaeology of the First Europeans 3 s.h.
Archaeology of European societies between the Mesolithic and Iron Age; how ideas about Europe's prehistoric past have been used for political purposes.

ANTH:3240 Cultural Resources Management: Practice and Practicalities 3 s.h.
Cultural Resources Management (CRM) archaeology as the largest sector of archaeological research in the United States in terms of employment, funding, and field- and lab-related activity; investigate the past, navigate the complexities of compliance requirements from federal, state, and local regulations concerning historic preservation; introduction to the legal, procedural, and practical foundations of CRM archaeology; prepare students for employment by acquisition of skills from project planning through dissemination of results. Prerequisites: ANTH:1201. Recommendations: completion of other anthropology, geography, history, or Native American studies courses.

ANTH:3241 Lithic Analysis in Archaeology 3 s.h.
Archaeological issues examined and addressed with lithic data; use of lithic data to study the past, specific techniques applied. Prerequisites: ANTH:1201.

ANTH:3243 Archaeology of the American Midcontinent 3 s.h.
Survey of the archaeology of the American midcontinent for students interested in the past beyond what historical documents reveal; exploration of Late Pleistocene and Archaic hunter-gatherer adaptations, Woodland and Late Prehistoric horticulturalists, Middle and Upper Mississippian emergent chiefdoms, and historic period first contact, fur trade, and fort sites; how archaeologists utilize regional archaeological data in addressing culture change issues to develop the essential grounding for understanding how people lived in different times and places in the past, and how prehistoric peoples relate to their modern descendants across the midcontinent. Recommendations: ANTH:1201.
ANTH:3255 Introduction to Archaeological Ceramics 3 s.h.
Basic analytical techniques for archaeological ceramics, applied primarily to ceramics from midwestern and western North America; raw materials, manufacture, decoration and style, craft specialization, use, and discard. Prerequisites: ANTH:1201.

ANTH:3256 Household Archaeology and Anthropology 3 s.h.
Structure and activities of households today and in the past; what households tell us about the larger culture; how intangible aspects of households are studied through material remains. Prerequisites: ANTH:2100 or ANTH:1301 or ANTH:1201 or ANTH:1101 or ANTH:1401.

ANTH:3257 North American Archaeology 3 s.h.
Prehistoric cultural development north of Mexico from initial occupation to European contact and conquest; emphasis on dynamics of culture change. Same as ANTH:3257.

ANTH:3258 Southwestern Archaeology 3 s.h.
Anthropological overview of prehistoric cultures of the American Southwest; emphasis on understanding archaeological arguments concerning major processes in the past. Same as ANTH:3258.

ANTH:3260 Pleistocene Peopling of the Americas 3 s.h.
Major themes in earliest human settlement of the Americas, including human mobility, subsistence, technology, human impacts on the environment.

ANTH:3261 Our Life With Dogs: The Anthropological Study of Animals in Human Societies 3 s.h.
Intricate connections between dogs and our social, economic, political, and spiritual lives; human relationships with dogs that extend back at least 16,000 years; process of dog domestication; roles dogs play in human ideology and past economies; modern interactions with dogs.

ANTH:3265 Archaeology of the Great Plains 3 s.h.
Contrasting lifeways, diets, and technologies that humans used to survive on North America’s Great Plains, from Ice Age hunter-gatherers to Euroamerican homesteaders.

ANTH:3275 The Archaeology of Ancient Egypt 3 s.h.
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as CLSA:3596.

ANTH:3276 Greek Archaeology and Ethnohistory 3 s.h.
Archaeology and ethnohistory of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as CLSA:3235.

ANTH:3277 Roman Archaeology 3 s.h.
Archaeology and ethnohistory of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman empire in the West, A.D. 476. Same as CLSA:3240.

ANTH:3278 Archaeology of Ancient Cities 3 s.h.
Archaeological exploration of ancient world cities; physical plant, social institutions, regional context, cultural influence; major cities considered include Uruk, Luxor, Athens, Rome, Alexandria, Kyongju, Loyang, Teotihuacan, and Tenochtitlan.

ANTH:3295 Field Research in Archaeology ar.
Beginning skills in site surveying and excavation, lab work, record keeping at nearby prehistoric sites.

ANTH:3300 Mothers and Motherhood 3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as GWS:3300.

ANTH:3305 Human Osteology 3 s.h.
The human skeletal system; normal and pathologic variation; skeletal measurement and analysis with application to paleoanthropology, forensic, and archaeological investigations.

ANTH:3306 The Neanderthal Enigma 3 s.h.
Survey of Neanderthals as the most widely known, yet enigmatic, fossil human lineage; history of discoveries; current interpretations of Neanderthal’s origins, anatomy and behavior, relationship to today’s people, extinction.

ANTH:3307 Modern Human Origins 3 s.h.
Current data and theories regarding the emergence of Homo sapiens; how human anatomical modernity is defined and recognized in the fossil record; competing models for modern humans’ emergence—multiregional evolution, out of Africa, the assimilation model; interpretation of recent developments and discoveries in the human fossil record; contemporary contributions from genetics, developmental biology, evolutionary ecology, paleodemography.

ANTH:3308 Human Variation 3 s.h.
Range and patterning of biological diversity in contemporary human populations; past and present attempts to organize and explain human genetic, morphological variation in light of recent data, theory.

ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys 3 s.h.
Behavior, mating systems, sexual selection, and systematics of living nonhuman primates; emphasis on sexual strategies and interactions of free-ranging primates as related to ecological constraints and conservation policies.

ANTH:3322 Primate Evolutionary Biology 3 s.h.
Principles of evolution, systematics, and biogeography; application to origin and diversification of primate order; emphasis on fossil evidence and molecular studies for phylogenetic interpretations.

ANTH:3325 Human Evolutionary Genetics 3 s.h.
Application of molecular methods and theory to biological anthropology; how recent advances in genetics have provided insight into the evolution of human and nonhuman primates. Prerequisites: ANTH:1301.

ANTH:3326 Infectious Disease and Human Evolution 3 s.h.
Infectious disease as a central and important role in evolution of modern humans; impact of important infectious diseases on human history through primary literature. Recommendations: evolutionary theory background or interest. Same as GHS:3326.

ANTH:3327 Genes, Culture, and Human Diversity 3 s.h.
New perspectives in evolutionary theory on the origin of human biology and cultural diversity; principles borrowed from evolutionary thinking that provide insight into how cultures change, basis of human institutions, and gene-culture coevolution.

ANTH:3328 Molecular Genetics of Human Disease 3 s.h.
Disease as an unfortunate, but unavoidable, aspect of human condition; genetic nature of disease that reveals origins of inherited disease; variation of disease across the globe. Recommendations: biology or genetics course to provide substantial background knowledge.
ANTH:4130 Religion and Environmental Ethics 3 s.h.
How humans conceptualize the biophysical environment through religious beliefs and practices; how images of the environment influence people's activities, how they are used by grassroots environmental movements. Requirements: junior or senior standing. Same as RELS:4730.

ANTH:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as CBH:4140, GHS:4140, GWSS:4140.

ANTH:4205 Rise of Ancient Civilization 3 s.h.
Cultural evolution in Old World, New World; emphasis on developments from pre-agricultural societies to appearance of urban civilizations; focus on Mesoamerica, Central Andes, Near East, Egypt, Indus Valley, China.

ANTH:4315 Human Evolutionary Anatomy 3 s.h.
Interpretation of skeletal remains as the basis for reconstructing forms, adaptations, lifestyles of prehistoric humans; body size, musculature, stance, activity patterns, brain size, and sexual dimorphism. Prerequisites: ANTH:3305.

ANTH:4620 Approaches to Geoarchaeology 3 s.h.
Geoarchaeology as multidisciplinary contextual framework for human paleoecology; natural processes that create the archaeological record, approaches to reconstructing landscapes of the past as a context for archaeological deposits; weekend field trip. Prerequisites: EES:3360 or EES:4720 or ANTH:4205. Same as EES:4620.

ANTH:4700 Latin American Studies Seminar 3 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as CL:4700, HIST:4504, LAS:4700, PORT:4700, SPAN:4900.

ANTH:4995 Honors Research Seminar 2-4 s.h.
Preparation for writing honors thesis, including project conception and research, proposal writing, oral and written presentations of student research. Corequisites: ANTH:4996, if not taken as a prerequisite. Requirements: honors standing in anthropology.

ANTH:4996 Honors Research 2-4 s.h.
Project chosen in consultation with honors advisor.

ANTH:5001 Graduate Teaching Proseminar 1 s.h.
Graduate student teaching skills: developing course guidelines, leading discussion, grading, review sessions, dealing with problem students and complaints; development of syllabi and teaching portfolios; mentoring of less-experienced teaching assistants.

ANTH:5005 Responsible Conduct of Research in Anthropology 1 s.h.
Up-to-date documents in all subfields of anthropology regarding ethical research; CITI certification (which also qualifies as part of IRB application); key debates and current problems faced by anthropology in area of ethical and responsible research.

ANTH:5101 Seminar Sociocultural Anthropology 3 s.h.
Social institutions in the world's societies; problems in theory, method, interpretation. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5110 Anthropological Data Analysis 3 s.h.
Applied statistics for quantitative analysis of anthropological data, including field notes, library materials, and archaeological information; introduction to elementary statistics and computational methods; discussion of hypothesis testing and correlation; emphasis on proper use and interpretation of statistical methods in anthropological research.

ANTH:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including colonialism, globalization, the nation-state, religion, cultural traditions, and human rights, in global and U.S. domestic contexts; interdisciplinary readings with focus on anthropology, other social sciences. Same as GWSS:5120.

ANTH:5130 Food, Culture, and Social Theory 3 s.h.
Comparative and ethnographic approach to study of food and eating; intersections between social roles and meanings of food, political economies of food, and impact of food on bodies and well-being.

ANTH:5135 Space, Place, and Identity 3 s.h.
Draws on insights from ethnographic inquiry to challenge accepted definitions of space, place, and identity to broaden our understanding of how we are shaping our world.

ANTH:5201 Seminar: Archaeological Theory and Method 3 s.h.
Development, current status of theory, method in Americanist archaeology. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5301 Seminar: Biological Anthropology 3 s.h.
Physical anthropology, including heredity and genetics, evolutionary theory, human biological characteristics, primate and human fossil record, primate behavior and ecology, human adaptations. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5401 Seminar: Linguistic Anthropology 3 s.h.
Fundamental concepts and methods employed in the anthropological study of language; principal areas of current research. Requirements: graduate standing or undergraduate anthropology honors standing.

ANTH:5405 Independent Study: Anthropology arr.

ANTH:6010 Research: Anthropology arr.

ANTH:6015 Thesis arr.

ANTH:6115 Ethnographic Field Methods 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as CBH:6115.

ANTH:6125 Seminar: Feminist Ethnography 3 s.h.
Feminist critiques of traditional ethnographies; informed by contemporary feminisms. Same as GWSS:6125.

ANTH:6141 Medical Anthropology and Social Theory 3 s.h.
How medical anthropology has both responded and contributed to key theoretical developments in recent decades, such as discourse/narrative analysis, practice theory, feminist theory, postcolonial theory, science and technology studies.

ANTH:6205 Hunter-Gatherer Ethnoarchaeology 3 s.h.
Variability in adaptations of hunter-gatherers on a global scale; emphasis on subsistence, mobility, social organization; archaeological record of prehistoric hunter-gatherers interpreted through study of modern societies. Requirements: graduate standing.
ANTH:6230 Seminar: Zooarchaeology 3 s.h.
Interpretation of faunal material in archaeology; intensive survey of classic and recent literature on taphonomy, skeletal anatomy, population parameters, seasonality, quantification and sampling, butchering patterns, ethnoarchaeology, social and economic inferences. Prerequisites: ANTH:3207.

ANTH:6310 Anthropology of Science, Technology, and Gender 3 s.h.
Science and technology done in particular social and structural contexts; theoretical approaches for understanding cultures of science and social uses of technology; focus on gender-related aspects of real world cases. Recommendations: graduate standing in any discipline with interest in understanding cultural context of scientific practice. Same as GWSS:6310.

ANTH:6410 Seminar: Semiotics 3 s.h.
Piercian semiotic and Saussurean semiological conceptual frameworks; focus on anthropological, linguistic issues.

ANTH:6415 Seminar: Language, Gender, and Sexuality 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as GWSS:6415, LING:6415.

ANTH:6505 Seminar: Paleoanthropology 3 s.h.
Current understandings of biocultural processes and events underlying Pleistocene human evolution; cross-disciplinary approach combining human paleontology and Paleolithic archaeology. Requirements: graduate standing or undergraduate honors standing or advanced undergraduate standing.

ANTH:6635 Crossing Borders Seminar 2-3 s.h.

ANTH:7501 Dissertation Writing Seminar 1 s.h.
Organization of dissertation, setting and meeting deadlines, writing a chapter, and workshopping drafts; seminar group work and consultation with advisors; completion and revision of at least one dissertation chapter; for anthropology graduate students who are beginning, or about to begin, their dissertation writing process. Requirements: anthropology graduate student who passed comprehensive exams (prospectus and essays).
Anthropology, B.A.

Requirements

The Bachelor of Arts with a major in anthropology requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Anthropology courses that fulfill General Education requirements are located under “Anthropology General Education Courses” in the Department of Anthropology [p. 60] section of the Catalog.

The B.A. is designed to offer a comprehensive overview of anthropology’s four main subfields and the broadest possible cross-cultural background.

Students may choose to complete one of four specialized tracks: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology. See “Optional Undergraduate Tracks” below.

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 24 s.h. Students who have earned more than 24 s.h. are advised by the departmental undergraduate advisor.

The B.A. with a major in anthropology requires the following course work.

| Common Requirements | 24 |
| Electives | 9 |
| Optional Track | 33 |

Common Requirements

Students must complete 11 courses from the lists below: five introductory courses, one course in archaeology or biological anthropology, one course in sociocultural or linguistic anthropology, one course in area studies, and a minimum of 9 s.h. in elective anthropology (prefix ANTH) courses numbered 2000 or above. Several courses are listed in more than one of these categories; students may not select the same course to fulfill requirements in more than one category.

Introductory Courses

All of these:

- ANTH:1001 Issues in Anthropology 3
- ANTH:1101 Cultural Anthropology 3
- ANTH:1201 World Archaeology 3
- ANTH:1301 Human Origins 3
- ANTH:1401 Language, Culture, and Communication 3

Archaeology or Biological Anthropology (Area or Topical)

One of these:

- ANTH:2216 Foodways and Cuisine in the Past 3
- ANTH:2220 Archaeology of Mesoamerica 3
- ANTH:2261 Human Impacts on the Environment 3
- ANTH:2265 Tools, Treasures, and Trash: Archaeology of the Material World 3
- ANTH:2290 Practicum in Archaeology arr.
- ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3
- ANTH:2390 Laboratory Methods in Biological Anthropology arr.
- ANTH:3207 Animal Bones in Archaeology 3
- ANTH:3208 Archaeological Methods 3
- ANTH:3237 Politics of the Archaeological Past 3
- ANTH:3238 Archaeology of the Iberian Peninsula 3
- ANTH:3239 The Archaeology of the First Europeans 3
- ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3
- ANTH:3241 Lithic Analysis in Archaeology 3
- ANTH:3243 Archaeology of the American Midcontinent 3
- ANTH:3255 Introduction to Archaeological Ceramics 3
- ANTH:3256 Household Archaeology and Anthropology 3
- ANTH:3257 North American Archaeology 3
- ANTH:3258 Southwestern Archaeology 3
- ANTH:3260 Pleistocene Peopling of the Americas 3
- ANTH:3265 Archaeology of the Great Plains 3
- ANTH:3275 The Archaeology of Ancient Egypt 3
- ANTH:3276 Greek Archaeology and Ethnohistory 3
- ANTH:3277 Roman Archaeology 3
- ANTH:3278 Archaeology of Ancient Cities 3
- ANTH:3295 Field Research in Archaeology arr.
- ANTH:3305 Human Osteology 3
- ANTH:3306 The Neanderthal Enigma 3
- ANTH:3307 Modern Human Origins 3
- ANTH:3308 Human Variation 3
- ANTH:3310 Primate Behavior: Sex Lives of Apes and Monkeys 3
- ANTH:3322 Primate Evolutionary Biology 3
ANTH: 3325  Human Evolutionary Genetics  3
ANTH: 3326  Infectious Disease and Human Evolution  3
ANTH: 3327  Genes, Culture, and Human Diversity  3
ANTH: 3328  Molecular Genetics of Human Disease  3
ANTH: 4205  Rise of Ancient Civilization  3
ANTH: 4315  Human Evolutionary Anatomy  3
ANTH: 4620  Approaches to Geoarchaeology  3

Sociocultural or Linguistic Anthropology

One of these:
ANTH: 2102  Anthropology of Marriage and Family  3
ANTH: 2103  Introduction to Global Health Studies  3
ANTH: 2108  Gendering India  3
ANTH: 2136  Urban Anthropology  3
ANTH: 2140  Food, Drink, and Culture  3
ANTH: 2151  Global Migration in the Contemporary World  3
ANTH: 2164  Culture and Healing for Future Health Professionals  3
ANTH: 2165  Native Peoples of North America  3
ANTH: 2175  Japanese Society and Culture  3
ANTH: 2181  The Anthropology of Aging  3
ANTH: 2182  Africa: Health and Society  3
ANTH: 3101  Anthropology of Sexuality  3
ANTH: 3102  Medical Anthropology  3
ANTH: 3103  Environment and Culture  3
ANTH: 3107  Literature and Anthropology  3
ANTH: 3109  Culture, Mind, and Mental Health  3
ANTH: 3110  Health of Indigenous Peoples  3
ANTH: 3111  Health in Mexico  3
ANTH: 3113  Religion and Healing  3
ANTH: 3114  Anthropology of Religion  3
ANTH: 3116  Fictionalized Ethnography in Literature and Film  3
ANTH: 3117  Using Ethnographic Methods  3
ANTH: 3118  Politics of Reproduction  3
ANTH: 3121  Love, Marriage, and Family in India  3
ANTH: 3123  Making a Living: Perspectives on Economic Anthropology  3
ANTH: 3125  Transnational Feminism  3
ANTH: 3127  Anthropology of Death  3
ANTH: 3131  Anthropology and Human Rights  3
ANTH: 3133  Anthropology of Race  3
ANTH: 3140  Feminist Anthropology  3
ANTH: 3142  American Cultures  3
ANTH: 3151  The Anthropology of the Beginnings and Ends of Life  3
ANTH: 3152  Anthropology of Caregiving and Health  3
ANTH: 3170  Peoples and Cultures of Southeast Asia  3
ANTH: 3171  Voices of Islam in Southeast Asia  3
ANTH: 3300  Mothers and Motherhood  3
ANTH: 4130  Religion and Environmental Ethics  3
ANTH: 4140  Feminist Activism and Global Health  3

Area Studies

One of these:
ANTH: 2108  Gendering India  3
ANTH: 2165  Native Peoples of North America  3
ANTH: 2175  Japanese Society and Culture  3
ANTH: 2182  Africa: Health and Society  3
ANTH: 2220  Archaeology of Mesoamerica  3
ANTH: 3111  Health in Mexico  3
ANTH: 3121  Love, Marriage, and Family in India  3
ANTH: 3142  American Cultures  3
ANTH: 3170  Peoples and Cultures of Southeast Asia  3
ANTH: 3171  Voices of Islam in Southeast Asia  3
ANTH: 3238  Archaeology of the Iberian Peninsula  3
ANTH: 3239  The Archaeology of the First Europeans  3
ANTH: 3243  Archaeology of the American Midcontinent  3
ANTH: 3257  North American Archaeology  3
ANTH: 3258  Southwestern Archaeology  3
ANTH: 3260  Pleistocene Peopling of the Americas  3
ANTH: 3265  Archaeology of the Great Plains  3
ANTH: 3275  The Archaeology of Ancient Egypt  3
ANTH: 3276  Greek Archaeology and Ethnohistory  3
ANTH: 3277  Roman Archaeology  3
ANTH: 3306  The Neanderthal Enigma  3
ANTH: 4700  Latin American Studies Seminar  3

Electives

Anthropology electives offer many options, including courses dealing with environment and culture, expressive culture (art, verbal arts, literature, music, and dance), gender and sexuality, human evolution, human osteology, human prehistory, identity, language and culture, medical anthropology, molecular genetics, primatology, psychological anthropology, religion and ritual, and urban anthropology.
Department faculty members offer area studies courses that focus on Latin America, Europe, Japan, South Asia, and Native North America.

A minimum of 9 s.h. in elective anthropology courses (prefix ANTH) numbered 2000 or above

**Additional Requirements**

Students are strongly encouraged to take courses and participate in archaeological field and laboratory research, biological anthropology laboratory research, ethnographic research methods in sociocultural anthropology, and multimedia research in linguistic anthropology.

**Optional Undergraduate Tracks**

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of four options: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology.

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student's transcript.

The optional tracks each require 15 s.h. (five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

**Gender and Culture Track**

Anthropological research regarding gender and sexuality has grown dramatically in recent years, enhancing and drawing from other theoretical and methodological approaches in anthropology. This research contributes a cross-cultural perspective to discussion surrounding these fundamental aspects of human experience, both in academia and in public life.

The gender and culture track requires 15 s.h. (five courses) chosen from the following list. Each course provides an integrated overview of essential theoretical and topical issues in the field.

Five of these:

<table>

</table>

**Cultural Resource and Heritage Management Track**

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field and about how to address related ethical issues as well as technical and theoretical challenges.

The cultural resource and heritage management track requires 15 s.h. (five courses): a fundamental overview course, two area electives, a technical/practical elective, and a field school course. Students may use some of these courses to satisfy requirements for the major, such as the course in archaeology and the electives.

**Overview**

**Field School**

One of these:
Environmental Anthropology Track

The interaction between humans and the environments they inhabit has long been a central issue in anthropology, and environmental degradation is a worldwide concern today. Pollution, loss of biodiversity, and global warming recognize no political boundaries, but attitudes and behaviors involving the natural environment vary widely from culture to culture. The understanding and incorporation of these varied perspectives are vital to the development and successful use of workable solutions.

The environmental anthropology track requires 15 s.h. (five courses): two theory courses, which deal primarily with human-environmental interactions; and three area or topical electives, which deal in part with environment, ecology, and subsistence technologies. The following are sample courses in each area (courses must be numbered 2000 or above).

**Theory Courses**

Two of these:
- ANTH:2261 Human Impacts on the Environment 3
- ANTH:3103 Environment and Culture 3
- ANTH:4130 Religion and Environmental Ethics 3

**Area or Topical Electives**

Three of these:
- ANTH:2140 Food, Drink, and Culture 3
- ANTH:2175 Japanese Society and Culture 3
- ANTH:2216 Foodways and Cuisine in the Past 3
- ANTH:2220 Archaeology of Mesoamerica 3
- ANTH:2261 Human Impacts on the Environment 3
- ANTH:3103 Environment and Culture 3
- ANTH:3123 Making a Living: Perspectives on Economic Anthropology 3
- ANTH:3207 Animal Bones in Archaeology 3
- ANTH:3238 Archaeology of the Iberian Peninsula 3
- ANTH:3239 The Archaeology of the First Europeans 3
- ANTH:3243 Archaeology of the American Midcontinent 3
- ANTH:3265 Archaeology of the Great Plains 3
- ANTH:3275 The Archaeology of Ancient Egypt 3
- ANTH:3277 Roman Archaeology 3
- ANTH:3278 Archaeology of Ancient Cities 3

Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political-economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Course work in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health.

The medical anthropology track requires 15 s.h. (five courses): one overview course and four electives that focus on particular topics.

**Overview**

This course:
- ANTH:3102 Medical Anthropology 3

**Electives**

Four of these:
- ANTH:2103 Introduction to Global Health Studies 3
- ANTH:2164 Culture and Healing for Future Health Professionals 3
- ANTH:2181 The Anthropology of Aging 3
- ANTH:2182 Africa: Health and Society 3
- ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3
- ANTH:3101 Anthropology of Sexuality 3
- ANTH:3109 Culture, Mind, and Mental Health 3
- ANTH:3110 Health of Indigenous Peoples 3
- ANTH:3111 Health in Mexico 3
- ANTH:3113 Religion and Healing 3
- ANTH:3118 Politics of Reproduction 3
- ANTH:3133 Anthropology of Race 3
- ANTH:3151 The Anthropology of the Beginnings and Ends of Life 3
- ANTH:3152 Anthropology of Caregiving and Health 3
- ANTH:3325 Human Evolutionary Genetics 3
- ANTH:3326 Infectious Disease and Human Evolution 3
- ANTH:3327 Genes, Culture, and Human Diversity 3
- ANTH:3328 Molecular Genetics of Human Disease 3
B.A. with Teacher Licensure

Anthropology majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Honors

Honors in the Major

Students majoring in anthropology have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 in anthropology course work. They must conduct an independent research project that culminates in a 30-50 page thesis. The project includes completion of 6 s.h. divided between ANTH:4995 Honors Research Seminar (offered only in fall semesters) and ANTH:4996 Honors Research, typically taken the next semester. Honors students also must take one of their anthropology courses at the graduate level.

Contact the department's director of undergraduate studies to learn more about honors in anthropology.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the anthropology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least seven courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least eight courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Please talk to an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Students have the option to choose one of four tracks in the major: medical anthropology; cultural resource and heritage management; gender and culture; or environmental anthropology. Courses must be numbered 2000 or above.

---

### Career Advancement

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations and expertise for jobs involving international or cross-cultural work, cultural resource management, and in responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, urban and regional planning, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Anthropology, B.S.

Requirements

The Bachelor of Science with a major in anthropology requires a minimum of 120 s.h., including a minimum of 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

Students also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Anthropology courses that fulfill General Education requirements are located under “Anthropology General Education Courses” in the Department of Anthropology [p. 60] section of the Catalog.

The B.S. is appropriate for students with interests in any of anthropology's subfields; it offers enhanced opportunities to gain experience and develop skills in research methods and scientific reasoning.

Students may choose to complete one of four specialized tracks: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology. Students also have the option of completing a track in anthropology for the health professions. See "Optional Undergraduate Tracks" below.

Undergraduates majoring in anthropology, including transfer students, must earn a minimum of 15 s.h. for the major at the University of Iowa. Students may apply credit earned at approved field schools offered by other institutions toward the major, with Department of Anthropology approval.

Students who declare anthropology as their major when they are admitted to the College of Liberal Arts and Sciences are advised at the Academic Advising Center until they have earned 24 s.h. Students who have earned more than 24 s.h. are advised by the departmental undergraduate advisor.

The B.S. with a major in anthropology requires the following course work.

**Common Requirements**

Students must complete 11 courses from the lists below: five introductory courses, one course in archaeology or biological anthropology, one course in sociocultural or linguistic anthropology, one course in area studies, and a minimum of 9 s.h. of elective anthropology courses (prefix ANTH) numbered 2000 or above. Several courses are listed in more than one of these categories; students may not select the same course to fulfill requirements in more than one category.

**Introductory Courses**

All of these:

| ANTH:1001 | Issues in Anthropology | 3 |
| ANTH:1101 | Cultural Anthropology | 3 |
| ANTH:1201 | World Archaeology | 3 |

**Archaeology or Biological Anthropology (Area or Topical)**

One of these:

<p>| ANTH:2216 | Foodways and Cuisine in the Past | 3 |
| ANTH:2220 | Archaeology of Mesoamerica | 3 |
| ANTH:2261 | Human Impacts on the Environment | 3 |
| ANTH:2265 | Tools, Treasures, and Trash: Archaeology of the Material World | 3 |
| ANTH:2290 | Practicum in Archaeology | arr. |
| ANTH:2320 | Anthropological Perspectives on Human Infectious Disease: Origins and Evolution | 3 |
| ANTH:2390 | Laboratory Methods in Biological Anthropology | arr. |
| ANTH:3207 | Animal Bones in Archaeology | 3 |
| ANTH:3208 | Archaeological Methods | 3 |
| ANTH:3237 | Politics of the Archaeological Past | 3 |
| ANTH:3238 | Archaeology of the Iberian Peninsula | 3 |
| ANTH:3239 | The Archaeology of the First Europeans | 3 |
| ANTH:3240 | Cultural Resources Management Archaeology: Practice and Practicalities | 3 |
| ANTH:3241 | Lithic Analysis in Archaeology | 3 |
| ANTH:3243 | Archaeology of the American Midcontinent | 3 |

Electives

Anthropology electives offer many options, including courses dealing with environment and culture, expressive culture (art, verbal arts, literature, music, and dance), gender and sexuality, human evolution, human osteology, human prehistory, identity, language and culture, medical anthropology, molecular genetics, primatology, psychological anthropology, religion and ritual, and urban anthropology. Department faculty members offer area studies courses that focus on Latin America, Europe, Japan, South Asia, and Native North America.

A minimum of 9 s.h. in elective anthropology courses (prefix ANTH) numbered 2000 or above

Additional Requirements

Students must fulfill additional requirements in the following three areas:

Quantitative, mathematical, or formal reasoning tool
Directed laboratory or field research
Allied topical course work

Quantitative, Mathematical, or Formal Reasoning Tool

Students must complete one course (a minimum of 3 s.h.) in statistics, computing, logic, and/or mathematics in addition to the course they take to fulfill the General Education Program’s Quantitative and Formal Reasoning requirement. The department accepts the following courses to fulfill the tool requirement. Students who would like to use other courses must consult their advisors.

One of these:

Directed Laboratory or Field Research

Students complete an approved directed research requirement (minimum of 3 s.h.) consisting of one of the following:

Laboratory research: a laboratory practicum in anthropology research labs or independent, faculty-guided, laboratory research, including use of the collections of the Office of the State Archaeologist.

Field research project: faculty-advised projects involving the collection of primary archaeological, biological, ethnographic, and/or linguistic data in a fieldwork setting.

A University of Iowa field archaeological school program or approved equivalent.

An approved internship: internships typically involve work in cultural resource management firms, museums, and public health research or education projects. To receive research credit for an internship, students must make a final report to their faculty advisor, summarizing the work accomplished or presenting materials that document the nature of the work.

Allied Topical Field

Students complete a topical concentration in one of the following allied fields: biology, chemistry, computer science, earth and environmental sciences, economics, geographical and sustainability sciences, global health studies, health and human physiology, linguistics, mathematics, psychology, science education, sport studies, or statistics and actuarial science. Minors (or at least five courses) in other fields, chosen in consultation with a student’s advisor, also may be applied toward this requirement.

Optional Undergraduate Tracks

Students have the option of adding a particular focus to their study plan by completing a specialized track. They may choose one of four options: gender and culture, cultural resource and heritage management, environmental anthropology, or medical anthropology; or an additional track in anthropology for the health professions.

The optional tracks reflect broad issues bridging subfields in and outside of anthropology. Completion of a track indicates the acquisition of considerable expertise and is noted on a student’s transcript.

The optional tracks each require 15 s.h. (five courses). By selecting courses carefully, students majoring in anthropology can complete a specialization track without adding to the semester hours required for graduation.

Gender and Culture Track

Anthropological research regarding gender and sexuality has grown dramatically in recent years, enhancing and drawing from other theoretical and methodological approaches in anthropology. This research contributes a cross-cultural perspective to discussion surrounding these fundamental aspects of human experience, both in academia and in public life.

The gender and culture track requires 15 s.h. (five courses) chosen from the following list. Each course provides an integrated overview of essential theoretical and topical issues in the field.

Five of these:

Cultural Resource and Heritage Management Track

In North America and throughout much of the rest of the world, modern land use continually threatens evidence of past land use. Most archaeological excavations are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who choose this emphasis learn about the field and about how to address related ethical issues as well as technical and theoretical challenges.

The cultural resource and heritage management emphasis requires 15 s.h. (five courses): a fundamental overview course, two area electives, a technical/practical elective, and a field school course. Students may use some of these courses to satisfy requirements for the major, such as the course in archaeology and the electives.

Overview

This course:
ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3

Area Electives

Two of these (or one of these and one other Department of Anthropology area course):
ANTH:2165 Native Peoples of North America 3
ANTH:3243 Archaeology of the American Midcontinent 3
ANTH:3257 North American Archaeology 3
ANTH:3258 Southwestern Archaeology 3
ANTH:3260 Pleistocene Peopling of the Americas 3
ANTH:3265 Archaeology of the Great Plains 3

Technical/Practical Elective

One of these:
ANTH:2265 Tools, Treasures, and Trash: Archaeology of the Material World 3
ANTH:2290 Practicum in Archaeology arr.
ANTH:3207 Animal Bones in Archaeology 3
ANTH:3208 Archaeological Methods 3

Field School

One of these:
ANTH:3295 Field Research in Archaeology arr.
An equivalent course from another university

Environmental Anthropology Track

The interaction between humans and the environments they inhabit has long been a central issue in anthropology, and environmental degradation is a worldwide concern today. Pollution, loss of biodiversity, and global warming recognize no political boundaries, but attitudes and behaviors involving the natural environment vary widely from culture to culture. The understanding and incorporation of these varied perspectives are vital to the development and successful use of workable solutions.

The environmental anthropology track requires 15 s.h. (five courses): two theory courses, which deal primarily with human-environmental interactions; and three area or topical electives, which deal in part with environment, ecology, and subsistence technologies. The following are sample courses in each area (courses must be numbered 2000 or above).

Theory Courses

Two of these:
ANTH:2261 Human Impacts on the Environment 3
ANTH:3103 Environment and Culture 3
ANTH:4130 Religion and Environmental Ethics 3

Area or Topical Electives

Three of these:
ANTH:2140 Food, Drink, and Culture 3
ANTH:2175 Japanese Society and Culture 3
ANTH:2216 Foodways and Cuisine in the Past 3
ANTH:2220 Archaeology of Mesoamerica 3
ANTH:2261 Human Impacts on the Environment 3
ANTH:3103 Environment and Culture 3
ANTH:3123 Making a Living: Perspectives on Economic Anthropology 3
ANTH:3207 Animal Bones in Archaeology 3
ANTH:3238 Archaeology of the Iberian Peninsula 3
Medical Anthropology Track

Human experiences of sickness and suffering are universal yet profoundly shaped by cultural and historical contexts. Medical anthropology explores cultural and biological diversity in sickness, health, and healing through approaches that include examining individual experiences of disrupted well-being, considering how biological and cultural factors interact to promote health or produce sickness, analyzing political-economic causes of health inequalities, and applying research to improve health research and services in an increasingly global world. Course work in medical anthropology helps students prepare for a range of health professions and social services careers and for work in diverse settings that increasingly include nongovernmental organizations devoted to improving health.

The medical anthropology track requires 15 s.h. (five courses): one overview course and four electives that focus on particular topics.

Overview

This course:
ANTH:3102 Medical Anthropology 3

Electives

Four of these:
ANTH:2103 Introduction to Global Health Studies 3
ANTH:2164 Culture and Healing for Future Health Professionals 3
ANTH:2181 The Anthropology of Aging 3
ANTH:2182 Africa: Health and Society 3
ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3
ANTH:3101 Anthropology of Sexuality 3
ANTH:3109 Culture, Mind, and Mental Health 3
ANTH:3110 Health of Indigenous Peoples 3
ANTH:3111 Health in Mexico 3
ANTH:3113 Religion and Healing 3
ANTH:3118 Politics of Reproduction 3

Anthropology for the Health Professions Track

Health professionals are increasingly called upon to recognize how sociocultural and biological factors intersect to produce experiences of health, sickness, and healing. The anthropology for the health professions track is rooted in anthropology’s holistic approach to understanding the human condition. It provides a comprehensive education in the biological and social bases for human health. Students develop understanding of cultural and biological variation in health and sickness. They also examine how and why particular therapeutic interventions may be more or less effective when translated into different cultural settings and disease ecologies.

This track enables students entering the health professions to distinguish themselves when they apply to graduate and professional programs. It also may help them prepare for the Medical College Admission Test (MCAT). Learn more by visiting Optional Undergraduate Tracks on the Department of Anthropology website.

The anthropology for the health professions track requires 15 s.h. (five courses), including a required overview course and four additional track courses chosen from the list below. Most courses in the list fulfill the anthropology major’s common requirements for courses in archaeology or biological anthropology, in sociocultural or linguistic anthropology, and electives; and ANTH:3111 Health in Mexico counts toward the major’s area studies requirement. By choosing courses carefully, students may complete this track without adding to the semester hours required for graduation.

Overview

This course:
ANTH:2164 Culture and Healing for Future Health Professionals 3

Electives

Four of these (12 s.h.):
ANTH:2103 Introduction to Global Health Studies 3
ANTH:2181 The Anthropology of Aging 3
ANTH:2182 Africa: Health and Society 3
ANTH:2320 Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3
ANTH:3101 Anthropology of Sexuality 3
### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the third semester begins:** at least one anthropology course or other course in the major

**Before the fifth semester begins:** at least four anthropology courses or other courses in the major, one course in the topical field, and one course for the quantitative or formal reasoning tool requirement

**Before the seventh semester begins:** at least seven courses in the major, three courses in the topical field, the second quantitative or formal reasoning tool course, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least nine courses in the major, including the directed research requirement, and four courses in the topical field

**During the eighth semester:** enrollment in all remaining course work in the major (including the topical field), all remaining General Education courses, and a sufficient number of semester hours to graduate

#### Sample Plans of Study

1. Health professions track course.
2. Enrollment in chemistry and math courses require completion of placement exams.
3. Topical specialization requires five chemistry courses.
4. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
5. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
6. Students may use their elective courses to complete a double major, minors, or certificates.

---

**Career Advancement**

The major in anthropology prepares individuals for advanced training or careers in anthropology, allied fields, and professional programs. Students who complete an anthropology major gain special understanding of human relations and expertise for jobs involving international or cross-cultural work, cultural resource management, and in responding to social and ethnic diversity, whether in the United States or globally.

Upon graduation, anthropology majors embark on careers in government, international affairs, conservation, economic development, public health, cultural resource management, urban and regional planning, social work, museum work, and education. Many go on to help resolve contemporary world problems by working with international or domestic organizations such as AmeriCorps, the Peace Corps, and Teach for America. Some pursue graduate study in anthropology or related social and natural sciences, while others earn degrees in business, law, or the health professions.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Anthropology, Minor

The undergraduate minor in anthropology requires a minimum of 15 s.h. in anthropology courses, including 12 s.h. in University of Iowa Department of Anthropology courses numbered 2000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Courses for the minor may not be taken pass/nonpass.

Students may create a focus for the minor by completing a specialization area; see "Optional Undergraduate Tracks" under the B.A. or B.S. anthropology requirements.
Anthropology, M.A.

Graduate study in anthropology is open to individuals with varied undergraduate majors and training backgrounds. Ph.D. students are typically awarded a master’s degree upon fulfilling program requirements at the end of their second year in the doctoral program. The M.A. portion of the Ph.D. program features course work across all four subfields of anthropology. Students also are strongly encouraged to conduct independent summer research, which is normally supported by departmental and other university-based funding sources.

The department also offers a terminal M.A. with a focus on cultural resource management—archaeology (CRM), which provides academic preparation for a professional career in that field.

For additional information, view the Graduate Program page and the current Graduate Student Guidebook on the Department of Anthropology website.

Requirements

The Master of Arts program in anthropology requires 30-36 s.h. of graduate credit, depending on a student's previous anthropological training. Students may count a maximum of 9 s.h. earned in courses outside anthropology toward the M.A. in anthropology. It is expected that a full-time student will complete all M.A. requirements by the end of the second year in the program.

Master's degree students who choose to focus on cultural resource management—archaeology (CRM) normally do not go on to earn a Ph.D. in anthropology.

By the end of their first semester, each student must select an M.A. committee, consisting of an advisor and two additional professors. Each year, students compile, in consultation with their advisor, the three strongest papers written for anthropology courses, conferences, or journals; an annotated bibliography; their current curriculum vitae; and a three-page narrative to describe their intellectual trajectory in the M.A. program to date.

Students must maintain an overall g.p.a. of at least 3.00.

Master's degree students who intend to earn a doctorate should consider taking ANTH:5110 Anthropological Data Analysis or another statistics course during their M.A. study.

General Course Work

M.A. students not pursing the cultural resource management—archaeology focus must complete core seminars in all four subfields (total of 12 s.h.).

Electives

In consultation with the advisor and committee members, a student selects a minimum of 18 s.h. of additional course work to complete the remaining semester hours required for the M.A. Elective work may include courses in other disciplines, directed study, and up to 6 s.h. of M.A. thesis credit for students who choose the thesis option.

Cultural Resource Management—Archaeology Focus

Most archaeological excavations and surveys are conducted as cultural resource management (CRM), so it is essential that all researchers who work with archaeological data and individuals committed to site preservation have a basic understanding of CRM. Students who select this focus area learn about the field and how to address related ethical issues as well as technical and theoretical challenges.

Students must complete the archaeological core graduate seminar. They also must complete a research paper, which is an archaeological study with a substantive data analysis directed toward an explicit archaeological research problem, suitable to meet the section three requirement for the Registry of Professional Archaeologist application form.

The cultural resource management—archaeology focus requires a total of 30 s.h., including 24 s.h. of course work and 6 s.h. of independent research or thesis credit.

Required Course Work

Both of these:

- ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3
- ANTH:5201 Seminar: Archaeological Theory and Method 3

Area Electives

Two of these:

- ANTH:3243 Archaeology of the American Midcontinent 3
- ANTH:3257 North American Archaeology 3
- ANTH:3258 Southwestern Archaeology 3
- ANTH:3260 Pleistocene Peopling of the Americas 3
- ANTH:3265 Archaeology of the Great Plains 3

Technical Electives

Four of these:

- ANTH:3207 Animal Bones in Archaeology 3
- ANTH:3208 Archaeological Methods 3
- ANTH:3237 Politics of the Archaeological Past 3
- ANTH:3241 Lithic Analysis in Archaeology 3
- ANTH:3255 Introduction to Archaeological Ceramics 3
- ANTH:3256 Household Archaeology and Anthropology 3
- ANTH:3295 Field Research in Archaeology 3

All of these:

- ANTH:5101 Seminar Sociocultural Anthropology 3
- ANTH:5201 Seminar: Archaeological Theory and Method 3
- ANTH:5301 Seminar: Biological Anthropology 3
- ANTH:5401 Seminar: Linguistic Anthropology 3

Admission

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the Ph.D. degree, although the department does admit students seeking a terminal M.A. Students without an M.A. in anthropology devote the first two years fulfilling the M.A. requirements. After those requirements are completed, the student’s committee may award the M.A. with admittance to the Ph.D. program.

Students with an M.A. in anthropology from another institution may proceed directly into a Ph.D. program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;
- three letters of recommendation;
- a writing sample (preferably a research paper);
- an application for graduate funding; and
- official Graduate Record Examination (GRE) General Test scores from the Educational Testing Service (University of Iowa institution code 6681).

International students must send their official Test of English as a Foreign Language (TOEFL) scores from the Educational Testing Service (University of Iowa institution code 6681). Once recommended for admission, international students must send a financial statement.

When completing Section B of the online Graduate College Application for Admission for Degree, applicants currently without a M.A. or M.S. in anthropology should enter "M.A." regardless of whether they intend to continue on to the doctoral program. Students at the M.A. level do not write a thesis, so "M.A. (thesis)" is not an option. This designation refers to the initial program students enter upon admission and in no way limits prospects for continuing on to the Ph.D. program. For questions about which degree option to choose, contact the Department of Anthropology.

Financial Support

Financial assistance, usually in the form of teaching and research assistantships, may be offered to doctoral and potential doctoral students in good standing for up to four years. Students making satisfactory and timely progress through the graduate program are in good standing. Eligibility for financial aid is reduced after two years in the M.A. program. The amount and types of aid depend on departmental needs.

Students are notified in writing of a provisional financial award before the semester or summer session for which the award has been granted. Although awards are made before the end of the previous semester, each award is contingent upon satisfactory completion of that semester's work by the awardee.

Career Advancement

Graduates find rewarding careers in government, international affairs, conservation, economic development, public health, urban and regional planning, social work, museum work, and education. They might work to help resolve contemporary world problems by joining the Peace Corps, the Americorps program, or an international or domestic nongovernmental organization.
Anthropology, Ph.D.

**Requirements**

The Ph.D. degree leads to the accomplishment of professional-level skills in conducting independent research, and normally features specialized training in one or two of the discipline’s subfields. Doctoral education is guided by a Ph.D. committee composed of members of the faculty competent in the particular areas and topics chosen by a student.

The doctoral program includes an integrated process of compiling annual portfolios that represent the development of knowledge, progressively developing and completing reading lists, developing and submitting research proposals to funding agencies, developing and defending a dissertation prospectus, and writing two comprehensive exam essays. Upon successful completion of the comprehensive examination and the dissertation prospectus, a student advances to candidacy for the Ph.D. To complete the Ph.D. degree, all doctoral candidates are required to conduct independent anthropological research, write a dissertation, and defend it.

For students who enter the doctoral program with an existing M.A. (in anthropology or a related field), the faculty develop an individualized program of study based on a student’s existing course work and goals.

Ph.D. students also may elect to pursue an optional concentration in either feminist anthropology or paleoanthropology.

For program requirements, refer to the current Graduate Student Guidebook on the Department of Anthropology website.

**Admission**

Applicants for admission to the graduate program in anthropology are considered regardless of their previous field of training. Students without previous training in anthropology are expected to perform additional work as necessary to achieve competence expected for their degree objective.

Students normally are admitted under the assumption that they intend to pursue the Ph.D. degree, although the department does admit students seeking a terminal M.A. Students without an M.A. in anthropology devote the first two years fulfilling the M.A. requirements. After those requirements are completed, the student’s committee may award the M.A. with admittance to the Ph.D. program.

Students with an M.A. in anthropology from another institution may proceed directly into a Ph.D. program organized around their special research interests. If they lack any of the requirements of the graduate program at the University of Iowa, they are informed of those requirements when admitted. Acceptance of credit hours from other institutions will follow UI regulations.

Applicants for admission to the graduate program must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Anthropology graduate program applicants are required to upload the following documentation to the University of Iowa Graduate Admissions online application:

- official academic records/transcripts;
- a brief statement of interest or intent regarding why graduate study in the Department of Anthropology is desired;

**Financial Support**

Financial assistance, usually in the form of teaching and research assistantships, may be offered to doctoral and potential doctoral students in good standing for up to four years. Students making satisfactory and timely progress through the graduate program are in good standing. Eligibility for financial aid is reduced after two years in the M.A. program, after two years in the Ph.D. program, or after one year of postdoctoral fieldwork or research enrollment. The amount and types of aid depend on departmental needs.

Students are notified in writing of a provisional financial award before the semester or summer session for which the award has been granted. Although awards are made before the end of the previous semester, each award is contingent upon satisfactory completion of that semester’s work by the awardee.

**Career Advancement**

Graduates find rewarding careers in government, international affairs, conservation, economic development, public health, urban and regional planning, social work, museum work, and education. They might work to help resolve contemporary world problems by joining the Peace Corps, the Americorps program, or an international or domestic nongovernmental organization.
Art and Art History

Interim Director
• Steve McGuire

Undergraduate majors: art (B.A., B.F.A.); art history (B.A.)
Undergraduate minors: art; art history
Graduate degrees: M.A. in art; M.F.A. in art; M.A. in art history; Ph.D. in art history
Faculty: https://art.uiowa.edu/people/faculty
Website: https://art.uiowa.edu/

The School of Art and Art History provides a creative, multidisciplinary environment for students of the studio arts and the history of art. Established in 1936, the school is firmly grounded in the College of Liberal Arts and Sciences. It encourages interaction among its diverse faculty as well as collaboration with related disciplines across campus.

Iowa’s art and art history graduates enjoy success as practicing professional artists, professors of art history, teachers, museum directors and curators, theater designers, commercial designers, and art administrators.

The School of Art and Art History has a new facility. The Visual Arts Building opened in fall 2016 and is identified by architectural publications as one of the best designed new buildings in the world. The Visual Arts Building is adjacent to the second School of Art and Art History building, Art Building West (2003). Visit the School of Art and Art History website and MyUI for information about studio, office, and classroom sites.

Studio Art

The School of Art and Art History is committed to students’ professional futures. The studio laboratories, some of the finest facilities nationally, are updated annually with leading edge production equipment. Students have the opportunity to develop the visual vocabulary and cross-media literacies required by the rapidly changing contemporary world. The visiting artist series introduces students to national and international leaders in the field, while a varied, diverse, and professionally active faculty ensures that the area is contemporary in its approach and pluralistic in its scope.

Undergraduate and graduate students select their major and minor studio art disciplines from ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Art History

Art history, a broad intellectual discipline, is central to the humanities. Diverse approaches characterize the school’s art history faculty, who have interdisciplinary ties within and beyond the University. Their primary mission is to help students develop skills for exploring issues and problems central to the history of art as a whole as well as to its specialized areas. Because the major in art history stresses the development of critical visual thinking and analytical writing, it prepares students for graduate work in art history and for other professional fields as well.

Student Organizations

The undergraduate Art History Society and the graduate Art History Society sponsor activities for students. The Faculty/Graduate Student Art History Colloquium meets five times each semester to focus on professional development and issues of broad interest in art.

Interdisciplinary Resources

Colloquia, visiting artists and lecturer programs, and graduate workshops bring visitors to the School of Art and Art History and provide open forums for discussion of issues in art and scholarship.

Among the school’s major assets is the Project for the Advanced Study of Art and Life in Africa (PASALA), an interdisciplinary program that brings together faculty with international reputations in art history, anthropology, film, history, and literature to offer courses and independent study of art in West, Central, East, and South Africa. The result is a program of unusual breadth and depth of expertise. PASALA offers scholarships and support for research in Africa and dissertation preparation to outstanding students. A major resource for PASALA is the UI Museum of Art’s Stanley Collection of African Art. Visit the Art & Life in Africa website to learn more.

The School of Art and Art History affiliates with the Department of American Studies [p. 44], giving students opportunities to study not only the history of American art but a variety of interdisciplinary programs in American history, literature, and politics. The school also is linked to the Medieval Studies [p. 723] Program, which offers an undergraduate certificate and courses in the history, literature, and culture of the Middle Ages.

Programs

Undergraduate Programs of Study

Majors
• Major in Art (Bachelor of Arts) [p. 101]
• Major in Art History (Bachelor of Arts) [p. 104]
• Major in Art (Bachelor of Fine Arts) [p. 107]

Minors
• Minor in Art [p. 110]
• Minor in Art History [p. 111]

Graduate Programs of Study

Majors
• Master of Arts in Art [p. 112]
• Master of Arts in Art History [p. 114]
• Master of Fine Arts in Art [p. 116]
• Doctor of Philosophy in Art History [p. 118]

Facilities

Reference Collections

The art library contains 100,000 volumes, an outstanding periodical collection, and an extensive microfilm and microfiche archive.

The school’s Office of Visual Materials contains a rapidly growing collection of 325,000 slides, 30,000 digital images, 350,000 35mm slides, 30,000 mounted photographs, and a video collection.
Museum of Art

The University of Iowa Museum of Art has a significant permanent collection that includes major holdings of 20th-century and contemporary art, African and pre-Columbian art, English and American silver, European and American prints, drawings and photographs, and Etruscan, Iranian, and contemporary American ceramics. As well as serving as a resource for research in a wide variety of art history areas, the museum offers a program of exhibitions, lectures, and recitals.

Due to the Iowa River flooding during summer 2008, the museum’s collections are being displayed and its events are being held in a variety of other facilities. Learn about current exhibitions and events, and their locations, by visiting the Museum of Art website.

Art Buildings

The University of Iowa has restored the School of Art and Art History facilities that were damaged or destroyed by Iowa River flooding during summer 2008. The school’s administrative center, Art Building West, is home to the school's main office as well as the Office of Visual Materials, the Art Library, an auditorium, art history classrooms, a gallery, a café, and studios for graphic design, painting, animation, and digital photography. Designed by architect Steven Holl, Art Building West has won numerous awards for its innovative design, including the 2007 American Institute of Architects Honor Award for Architecture.

The new Visual Arts Building, completed fall 2016, has been identified by a number of publications as one of the top new buildings in the world. It also was designed by architect Steven Holl and sits adjacent to Art Building West.

Courses

Art History Courses

An introductory course in the appropriate art history area or consent of instructor is prerequisite for some courses numbered above 3000. Courses titled “Themes in ...” consider topics of current interest in the field, organized thematically rather than chronologically.

ARTH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTH:1010 Art and Visual Culture 3 s.h.
Visual analysis, media and techniques, artistic subject matter and aesthetic issues; historical periods and movements from ancient times to present; provides strong orientation to visual aspects of humanities, background for other art history courses, and introduction to visual arts for personal enrichment; for students new to art history. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1020 Masterpieces: Art in Historical and Cultural Perspectives 3 s.h.
Masterpieces of Western art—how to look at, think about, and understand some of the worlds’ most exciting works of architecture, painting, and sculpture; their construction, hidden meanings, historical content, and their meanings today. GE: Literary, Visual, and Performing Arts.

ARTH:1030 Themes in Global Art 3 s.h.
Key themes in art from a global perspective; propaganda and power, social functions of art, word and image, ritual and body decoration, artistic exchange, religion. GE: Literary, Visual, and Performing Arts.

ARTH:1040 Arts of Africa 3 s.h.
Arts, artists, and cultures of Africa; sculpture, paintings, pottery, textiles, architecture, human adornment. GE: International and Global Issues; Literary, Visual, and Performing Arts.

ARTH:1045 Race and Art in America 3 s.h.
Chronological development and critical themes of African American visual culture; material culture of slave artists, history of racist imagery in the U.S., most important African American fine artists; slave dwellings, quilts, paintings, sculpture, photography; W.E.B. Du Bois’ claim to Egyptian artistic patrimony, controversial work of Kara Walker, hip-hop aesthetic of Kehinde Wiley; previous art history experience not required. GE: Values and Culture.

ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I 3 s.h.
Survey to foster development of critical skills in thinking and writing about visual culture, and to familiarize students with broad outlines of artistic development in the Western tradition, from prehistory through later Middle Ages; aesthetic qualities of artworks, relationship between style, function, and meaning. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II 3 s.h.
Survey of the Western world’s visual arts from Renaissance (ca. 1400) to present; major movements and principal masters of Western Europe and the United States in their social and historical contexts; focus on stimulation of visual literacy and familiarity with outstanding cultural monuments. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:1070 Asian Art and Culture 3 s.h.
Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as CHIN:1070.

ARTH:1080 Writing About the Visual Arts 3 s.h.
Opportunity to develop understanding of and skill in using visual-arts writing conventions and linguistic competencies that are necessary for academic and professional success; forms such as exhibition reviews, art criticism, research writing, artist’s statements; experience through exercises, formal essays, revision, workshops. Requirements: fulfillment of General Education rhetoric requirement.

Fundamental and universal question—what is the relationship between humanity and nature; how ornamental garden has functioned as a metaphor for paradise across time and among diverse cultures; basic tools to analyze any landscape design; how artful manipulation of nature has served to express various political, religious, and social ideals across the globe; comprehensive and chronological survey of garden design development. GE: Historical Perspectives.
ARTH:1095 American Indian Art 3 s.h.
Sculpture, painting, architecture, crafts, arts of personal adornment of native peoples of North America. GE: Literary, Visual, and Performing Arts; Values and Culture.

ARTH:2020 Introduction to Western Architecture 3 s.h.
Overview of monuments, Neolithic period to present; aesthetic and structural principles, major styles, architects.

ARTH:2030 Introduction to American Architecture 3 s.h.
Characteristics of American public, domestic, and industrial architecture as evolved from Native American contact period to present; visual features of American-built environment and social, political, and economic factors that shaped development; design contributions of individual architects, impact of new technology, and growth of architectural profession.

ARTH:2220 Introduction to the Art of China 3 s.h.
Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ASIA:2231.

ARTH:2250 Introduction to the Art of Japan 3 s.h.
Chronological survey of Japan’s visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Same as JPN:2250.

ARTH:2320 Introduction to Ancient Art 3 s.h.
Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as CLSA:2226.

ARTH:2330 Introduction to Egyptian and Ancient Near Eastern Art 3 s.h.
Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, religion. Same as CLSA:2330.

ARTH:2340 Introduction to Greek and Roman Art 3 s.h.
Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as CLSA:2340.

ARTH:2420 Introduction to Medieval Art 3 s.h.
Comprehensive survey of artistic traditions of Western Europe and Mediterranean Basin from roughly 300 to 1500; reign of Roman Emperor Constantine to lifetime of Christopher Columbus; complexity and diversity of cultural and artistic traditions that flourished in these so-called Middle Ages, where blending of Roman and northern legacies created European cultures from which we belong.

ARTH:2520 Introduction to Italian Renaissance Art 3 s.h.
Italian art, architecture from early Renaissance to 1600.

ARTH:2620 Introduction to Baroque Visual Culture 3 s.h.
Art, architecture in Europe from 1600 to 1700.

ARTH:2730 Introduction to Nineteenth-Century Art 3 s.h.
Major European artists, works, movements, aesthetic theories from late 18th century to 1900; works in their aesthetic, cultural, intellectual, political contexts; boundaries, definitions of movements (i.e., Neo-Classicism, Romanticism, Realism, Impressionism, Post-Impressionism, Symbolism).

ARTH:2740 Introduction to Northern Renaissance Art 3 s.h.
Northern European art between 1350 and 1600; the transition between the late Middle Ages and the Renaissance; artistic output of this period; development of critical thinking skills by exploring ways in which the Northern Renaissance has been defined with respect to Italian Renaissance and northern medieval traditions.

ARTH:2820 Introduction to Modern/Contemporary Art 3 s.h.
Modern European and American painting, sculpture, and architecture from 1880 to present; major art movements of modern art history.

ARTH:2920 Introduction to American Art 3 s.h.
Survey of painting, sculpture, architecture, and photography in the United States from colonial era to mid-20th century; how the new country grappled with creating a visual culture unique to its own character and development; portraits, landscape paintings, sculpture, and architecture in an array of styles and media; circumstances of their creation, aspirations and preconceptions of their makers, perspectives of their audiences. Recommendations: ARTH:1060. GE: Historical Perspectives; Literary, Visual, and Performing Arts.

ARTH:2975 Undergraduate Seminar in the History of Art 3 s.h.
Characteristic problems, methodological issues, critical thinking and writing. Offered fall semesters. Requirements: art history major.

ARTH:3000 Digital Approaches to the Study of Art 3 s.h.
Digital approaches to study of art history; emphasis on cultural identity.

ARTH:3010 Fakes, Frauds, and Forgeries: The Dark Side of Art History 3 s.h.
How fraudulent artworks have been accepted as genuine and incorporated into the art historical canon, from the famous gold and ivory Minoan snake goddess to paintings purportedly by Rembrandt; issues considered include the dangers frauds pose to our understanding of cultural heritage and the historical past, how fakes have impacted the art market, and the value of forgeries as indices of contemporary taste and preconceptions about art.

ARTH:3020 Paris and the Art of Urban Life 3 s.h.
City of Paris examined in varied historical, artistic, and cultural contexts; interdisciplinary. Taught in English. Same as FREN:3030.

ARTH:3030 History of Prints 3 s.h.
Printmaking as important art form, influential carrier of styles and iconography from area to area; focus on Europe; history of prints from prehistoric times to present.

ARTH:3040 History of Design 3 s.h.
History of modern design, beginning in early-modern period and forward as near as possible to present day; discussions focus on architecture, urban design, the decorative arts, industrial design, and graphic design; major currents of modern and contemporary design practice.
ARTh:3056 Italian Baroque Visual Culture 3 s.h.
Visual culture of 17th-century Italy contextualized; major media (painting, sculpture, architecture) by leading artists (Bernini, Borromini, Caravaggio, Cortona); full range of material culture, including minor and decorative arts; use of imagery by individual and institutional patrons for the persuasive purpose of political and social advancement; ideological utility of art as a recurring theme, underscoring the Baroque antecedents of media manipulation of our own time.

ARTh:3070 Themes in Baroque-Era Art 3 s.h.
Topics and themes in baroque-era art.

ARTh:3080 Marketing, Promoting, Politicking Contemporary Public Art 3 s.h.
How public art projects are conceived, created, and paid for; projects sponsored and funded by federal, state, and local governments and private businesses 1960 to present; projects' operational structures, how artists are selected; Vietnam Veterans Memorial, Serra's Tilted Arc, recent projects.

ARTh:3085 Principles of Historic Preservation of the Built Environment 3 s.h.
Overview of practical and theoretical principles of historic preservation of the built environment; hands-on fieldwork, archival research, and document preparation; evolution of historic preservation in America and its controversies.

ARTh:3090 Contemporary Architecture 3 s.h.
Quality of contemporary-built environments in America, Western Europe, Asia, and Middle East from 1970 to present; stylistic evolution of postmodern design, new urbanism, sustainable architecture; impact of literary and cultural theory on contemporary practitioners such as Daniel Libeskind, Steven Holl.

ARTh:3100 Themes in 18th- and 19th-Century European Art 3 s.h.
Themes and topics in 18th- and 19th-century European art.

ARTh:3103 Art of the Pacific Islands 3 s.h.
Visual arts of peoples of the Pacific islands (Polynesia, Micronesia, Melanesia); Hawaii, Tahiti, the Marquesas Islands, New Guinea, New Zealand, Fiji, Tonga, and Marshall, Marianas, and Gilbert islands in Micronesia; focus on art in social context; history of human occupation on these islands dating back to 2500 B.C.; architecture, figurative sculpture, pottery, textiles, canoe building; results of encounters between Europeans and Pacific Islanders.

ARTh:3120 The Art of Ancient Mexico 3 s.h.
Art and architecture of Mexico and Peru before Cortéz. Same as LAS:3120.

ARTh:3150 Art of West Africa 3 s.h.
How art is used to solve problems and mark important passages in life.

ARTh:3160 Themes in African Art 3 s.h.
Survey of African architecture; structures throughout continent ranging from rock-cut churches of Ethiopia to elaborately painted Ndebele homes of South Africa; four areas of African architecture (ancient, traditional, Islamic, contemporary); function, materials, aesthetic choices of architecture and how they reflect social, religious, political, and economic situations of people who constructed it.

ARTh:3161 Themes in Ancient Art 3 s.h.
Themes and topics in ancient art.

ARTh:3197 Themes in Modern and Contemporary Art 3 s.h.
Topics and themes in modern and contemporary art.

ARTh:3220 Chinese Art and Culture 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Prerequisites: ARTh:1060 or ARTh:2220. Same as ASIA:3219.

ARTh:3230 Chinese Painting I: Pagodas and Palaces 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ASIA:3220.

ARTh:3240 Chinese Painting II 3 s.h.
History of painting in China during the Song Dynasty (960-1279 C.E.) and later; emphasis on art of later centuries to present time in its historical and cultural contexts.

ARTh:3250 Brushwork in Chinese Art 3 s.h.
In-depth study of history, aesthetics, and techniques of brushwork on multiple forms of material culture; hands-on practical experience in Chinese brushwork; analysis of visual elements of brushwork in Chinese paintings, calligraphy, ceramics, and other artistic forms; synthesis of studio art experience and art historical analysis to provide a deeper practical and aesthetic understanding of Chinese fine art techniques.

ARTh:3260 Japanese Painting 3 s.h.
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Same as JPN:3260.

ARTh:3270 Themes in Asian Art History 3 s.h.
Same as ASIA:3270.

ARTh:3280 The Materialization of Sexuality in China and Beyond 3 s.h.
Human sexuality is expressed in art objects and approaches sexuality as stereotypes of and expectations for genders as well as dynamics between androgyny, femininity, and masculinity; how painting, calligraphy, illustrated novels, clothing, and art collections help to enact, modify, and conceal one's sexuality from traditional to contemporary China; examples from Asian and Euro-American traditions are considered to achieve a crosscultural understanding; topics include erotic art, representations of skin, and global fashion obsessions; students who read Chinese are encouraged to read scholarship in Chinese. Taught in English.

ARTh:3310 Celtic and Viking Art 3 s.h.
Art and architecture of Celts and Vikings from prehistory to Middle Ages.

ARTh:3320 Egyptian Art 3 s.h.
Sculpture, painting, architecture, and luxury arts from Pyramid Age to Death of Cleopatra. Same as RELS:3704.

ARTh:3325 Kings, Gods, and Heroes: Art of the Ancient Near East 3 s.h.
Arts, kings, and cultures of Mesopotamia, Syria, and Iran; sculpture, seals, pottery, metalworking, architecture.

ARTh:3330 Classical Greek Art 3 s.h.
Art, sacred architecture from early Classical through late fourth century B.C.E.; Athens in the Golden Age. Same as CLSA:3227.

ARTh:3340 Greek Vase Painting 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as CLSA:3250.
ARTH:3350 Art of Early Rome: Patrons and Politics 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as CLSA:3232.

ARTH:3360 Art of the Ancient Roman Empire 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as CLSA:3233.

ARTH:3370 Houses, Brothels, and Tombs: Life and Death in Ancient Pompeii 3 s.h.
Art and architecture, as documents of ancient society and religion in towns destroyed by Mount Vesuvius in C.E. 79. Same as CLSA:3234.

ARTH:3375 Birth of the Holy Land: Art and Architecture in the Ancient Middle East 3 s.h.
Major developments in architecture, sculpture, ceramics, and mosaics in Israel, Palestine, Syria, and Arabia from death of Alexander the Great to rise of Islam (4 B.C.E. to 8 C.E.); Greek and Roman influences versus local traditions; Roman Empire; growth of churches, synagogues, and mosques; identity and religion. Same as RELS:3375.

ARTH:3380 City of Rome: Image and Ideology 3 s.h.
Myth of the city of Rome as seen in paintings, sculpture, architecture, urbanism, and cinema from early Renaissance to Mussolini; focus on urban topography and mythic origins; the divinely-ordained destiny of Rome in God's providential plan for humanity; raw imperialism of Italian fascism as manifested in the visual legacy of the city; ideological underpinnings of the city's major institutions (the papacy, municipal government, Italian monarchy) and the fascist state as supported through the appropriation of the myth of Rome.

ARTH:3385 Baroque Rome: Caravaggio, Bernini, Borromini 3 s.h.
Rome and its institutions as reflected in the careers of its three most revolutionary artists.

ARTH:3390 Early Medieval Art 3 s.h.
Complex artistic traditions that developed roughly between 300 and 1000 in territories once governed by the Roman Empire and in areas of northern Europe directly influenced by Western Christian tradition; period as not simply a "Dark Age," but a pivotal chapter in history of Western art and culture; group discussion, individual research topics.

ARTH:3391 Themes in Medieval Art 3 s.h.
Themes and topics in medieval art.

ARTH:3400 Romanesque and Gothic Art 3 s.h.
Art and architecture produced in Western Europe from the year 1000 to the Renaissance, a period when works of boldly original character that continue to define the landscape of Europe were created; histories of Romanesque and Gothic styles; shift from monastic to episcopal, civic, and courtly patronage; intersection between art and devotional practice; flowering of medieval urbanism and building technology; intersection between artistic traditions of later Gothic and emerging Renaissance.

ARTH:3410 Who Killed Gothic Architecture? 3 s.h.
Demise of Gothic architecture around 1500, a dramatic stylistic pivot that has too often been misleadingly presented or taken for granted in art-historical literature; topics include development of late Gothic architecture, emergence of Renaissance mode, appropriation of that mode by powerful patrons for propagandistic purposes, impact of Protestant Reformation, and the way that the history of this period has subsequently been written by the winners, which has obscured the complexity and contingency of the historical forces causing this stylistic transition.

ARTH:3420 Gothic Architecture 3 s.h.
Gothic architecture and its history, from varied perspectives (e.g., formal structural, symbolic, geometric, socioeconomic).

ARTH:3520 The Sculptural Origins of Michelangelo3 s.h.
Visual and cultural origins of Michelangelo's sculpture, painting, and architectural designs; role that Michelangelo and his work played as a visual artist, poet, and religious reformer in culture of Florence and Rome in the 16th century; reasons for Michelangelo being a dynamic influence in all of the arts through the contemporary period.

ARTH:3550 Leonardo, Raphael, and Their Contemporaries 3 s.h.
The arts in Italy 1485-1550.

ARTH:3630 Themes in Renaissance Art 3 s.h.
Themes and topics in Renaissance art.

ARTH:3640 The Artist in the Studio: Allegory and Reality from Renaissance 3 s.h.
Changing needs of a growing modern secular leisure class, demonstrated in works of art that depict artists at work in their own environment and the popularity of artist's self-portraits; significance of subject category in understanding changes in perception of social, economic, and political roles of visual artists and visual arts traced from Leonardo, Michelangelo, and Raphael to Velasquez, Rubens, Rembrandt, Vermeer, Picasso, Matisse and others; literary, musical, and theatrical arts.

ARTH:3650 Painting in the Dutch Golden Age 3 s.h.
Painting in the age of Rubens, Rembrandt, Vermeer; rise of landscape, still life, genre.

ARTH:3700 David to Delacroix: Art in the Age of Revolutions 3 s.h.
Developments in French art and culture in a period of artistic, cultural, and political upheavals from French Revolution through Napoleonic Empire to founding of Second Empire in mid-19th century; intersections of art with aesthetics, culture, and politics; role of psychology, biology, natural sciences in art; use of myth; rise of modernism; changes in patronage; new role of museums and galleries; innovations in printmaking, book illustration, caricature; artists include David, Girodet, Gros, Ingres, Gericauld, and Delacroix, among others.

ARTH:3720 The Romantic Revolution 3 s.h.
Transformations in European art and culture 1750-1850, an age of artistic, political, cultural, intellectual crisis and revolutions; major artists, including David, Ingres, Gericauld, Delacroix, Goya, Frédéric, Constable, Turner.

ARTH:3730 Impressionism and the Visual Revolution 3 s.h.
Naturalism, Realism, the Impressionist landscape, painting of modern life, new trends in subjectivity and exoticism mid- to late-19th-century European art and culture; Courbet, Manet, Degas, Monet, Renoir, Seurat, Cezanne, Van Gogh, Gauguin, Ensor, Munch.
**ARTH:3740 Manet to Matisse** 3 s.h.
Development of modernism and the avant-garde in late 19th- and early 20th-century Paris; intersection of innovation and tradition, literature and art; role of theory and criticism in works of Manet, Degas, Seurat, Cezanne, Gauguin, Rodin, Matisse, and Picasso.

**ARTH:3750 Muses, Models, Artists, and Patrons: Women in the Visual Arts** 3 s.h.
Women in the visual arts from various perspectives: women as subject and inspiration, as patrons and as artists; role of women in the arts from the late 18th through the early 20th centuries, primarily in Europe, a period that witnessed significant female patronage of the arts, the first modern feminist movements that gave impetus to newly independent women artists, and the transformation of ways in which women were represented in art across genres, including history, myth, portraiture, orientalism, and images of contemporary life; impact of the role of women in art and culture will be critically examined.

**ARTH:3820 Modern Art** 3 s.h.
Development of modern art from early years of 20th century through 1960s; focus on painting, sculpture, architecture, photography; traces progress of Modernism; exploration of major movements including Fauvism, Cubism, Surrealism, Abstract Expressionism, Pop Art, Minimalism.

**ARTH:3830 Late Modern Art** 3 s.h.

**ARTH:3840 Contemporary Art** 3 s.h.
Painting, sculpture, architecture, and photography; developments during late 1960s to present; conceptual art, performance art, neo-abstraction, and picture/theory art with each approached from a global perspective.

**ARTH:3850 Pop Art** 3 s.h.
Survey of pop art in America, Britain, Europe; focus on developments in painting and sculpture 1950s to early 1960s; continuing influence of Pop Art.

**ARTH:3860 Minimalism** 3 s.h.
Survey of Minimalism; focus on developments in painting and sculpture during 1960s; continuing influence.

**ARTH:3864 Nazi and Stalinist Art: Aesthetics of Power** 3 s.h.
Manipulative power of art, architecture, urbanism, and film in 20th-century totalitarian regimes—Italy, Germany, and Stalinist Soviet Union as well as Madrid, Warsaw, Beijing, Pyongyang, Baghdad; dark side of art and its transnational character, particularly in architecture and urban planning; nature of propaganda and state-sponsored art, responses to modernism and industrialization, allure of militarism and empire, uses of historicism, role of public ritual and mass spectacle in totalitarianism; common currency of totalitarian art across national groups, cultures, ideologies; how aesthetics function as tools of modern autocracies, with lessons for ailing 21st-century democracies.

**ARTH:3870 History of Photography** 3 s.h.
Survey of photography 1839 to present.

**ARTH:3880 Modern Architecture** 3 s.h.
Impact of new technology, artistic theory, and social practices on modern European and American architecture, 1890 to 1977.

**ARTH:3900 Themes in Architectural History** 3 s.h.
Topics and themes in architectural history.

**ARTH:3910 The Architecture of Frank Lloyd Wright** 3 s.h.
Why is Frank Lloyd Wright arguably the most famous American architect? This course addresses that question by examining his architecture, life, and influence on the American and international built environment.

**ARTH:3920 National Images: American Art to 1865** 3 s.h.
Painting, sculpture, and architecture from colonial times to Civil War.

**ARTH:3930 American Renaissance and the Gilded Age** 3 s.h.
Architecture, painting, and sculpture, 1865-1913.

**ARTH:3940 American Western Art** 3 s.h.
Painting and sculpture of western United States, primarily from Euro-American perspective.

**ARTH:3950 Modernism and Early Twentieth-Century American Art** 3 s.h.
American responses to European Modernism in painting, sculpture, architecture, and photography.

**ARTH:3955 Art and American National Parks** 3 s.h.
Artistic history of American national parks; beginning with painter George Catlin's idea of a “nation's park” in the 1840s, art has played a major role in development of and attitudes toward these special places; includes magazine engravings, tourist guidebooks, government reports, monumental oil paintings, photographs, and recent photomontages; focus will be on Yellowstone, Niagara, Yosemite, and the Grand Canyon, but will also include less well-known sites such as Acadia National Park and the Pictured Rocks National Lakeshore.

**ARTH:3980 American Print Culture** 3 s.h.
Exploration of a wide range of imagery printed and published in the United States during 19th century (1776-1900); fine art original prints, popular imagery in periodicals and illustrated books, scholarly literature, history of evolving technologies, variety of printed work; shifting reputation of printed art and its makers.

**ARTH:3985 Honors Research in Art History** arr.

**ARTH:3990 Topics in Art History** 3 s.h.
Varied topics.

**ARTH:3995 Independent Study in Art History** arr.
Advanced work in art history.

**ARTH:4010 Critical Theory** 3 s.h.
Influence of art theory on recent art practice; critics and philosophers whose ideas have been particularly important to the process of putting art and its histories into greater social and political context—Theodor Adorno, Walter Benjamin, Roland Barthes, Jacques Derrida, Michel Foucault, Jean-Francois Lyotard, Jurgen Habermas, Jean Baudrillard, Terry Eagleton, Michael Fried, T.J. Clark, Rosalind Krauss, and Homi Bhabha; general influence of feminism, poststructuralism, postcolonialism, and postmodernism.

**ARTH:4040 Art, Law, and Ethics** 3 s.h.
How law and ethics apply to individuals and institutions concerned with the visual arts. Same as LAW:8163.
ARTH:4081 The Art Museum: Theory and Practice 3 s.h.
Introduction to different aspects of art museums; emphasis on roles of art historians, especially curatorial practice; current and historical theories and practices of art exhibitions; varying debates of the politics of display; art museum professions; the many facets of art exhibition preparation; the University of Iowa Museum of Art collections. Same as MUSM:4081.

ARTH:4891 Big-Shouldered City: Chicago Architecture 3 s.h.
Architectural and urban development of Chicago; how changing visions of this most-American of cities has been influenced by aesthetic, social, political, economic factors; early settlement patterns, impact of the Great Fire of 1871, skyscraper technology, Daniel Burnham's 1909 Plan, Bungalow Belt, park system; larger history of American city in terms of its architectural, urban, and landscape development.

ARTH:4900 Advanced Writing About the Visual Arts 3 s.h.
Skill in using visual arts writing conventions and linguistic competencies necessary for professional success; exhibition reviews, art criticism, and research writing; students compose an artist's statement or personal statement that can be used for future art exhibitions or applications for internships and scholarships; assignments are designed to be of interest to students in any field.

ARTH:4941 American Landscape Art 3 s.h.
Landscape from 1750 to present, emphasis on 19th century; land and its use fundamental to the history and culture of the United States as American art subjects, American art in the period of territorial expansion in 19th century; major movements of landscape aesthetics, artistic treatments, historiography.

ARTH:4999 History and Methods 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological issues. Offered fall semesters.

ARTH:6000 History and Methods 3 s.h.
Critical thinking and research; readings in historical development of the discipline, from Renaissance to present; methodological paradigms and trends.

ARTH:6020 Art History Colloquium 1 s.h.
Current topics and research in art history. Requirements: art history graduate standing.

ARTH:6040 Directed Studies arr.

ARTH:6080 M.A. Written Thesis arr.

ARTH:6085 Seminar: Problems in Architectural History 3 s.h.
Key themes, architects, and literature that informs the history of the built environment in varied cultural contexts.

ARTH:6110 Seminar: Problems in African Art 2-3 s.h.

ARTH:6300 Seminar: Problems in Ancient Art 3 s.h.
Key themes and issues in ancient art. Same as CLSA:6200.

ARTH:6440 Seminar: Problems in Medieval Art 3 s.h.
Major issues, methodologies.

ARTH:6640 Seminar: Problems in Baroque Art 3 s.h.

ARTH:6740 Graduate Seminar: Nineteenth-Century Art 3 s.h.

ARTH:6840 Seminar: Modern/Contemporary Art 3 s.h.
Major issues, methodologies.

ARTH:6940 Seminar: Problems in American Art 3 s.h.

ARTH:7010 Ph.D. Readings arr.

**Studio Art Courses**

Courses numbered below 3000 are primarily for undergraduates and may not be repeated unless noted on MyUI. Some courses numbered 3000-3000 are repeatable.

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all studio courses for art majors.

**Animation Courses**

ANIM:2125 Introduction to Animation 3 s.h.
Introduction to animation and its role in contemporary creative practice; focus on historical and technical principles of traditional 2-D animation, 2-D digital animation, and 3-D computer animation; creative, conceptual, and technical facets of animation practice; conceptualize and execute animations using processes and methods currently integrated into contemporary time-based art practice. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

ANIM:3125 Animation I 4 s.h.
Continuation of ANIM:2125; focus on technology of 3-D animation; 3-D modeling, texturing, animation, rendering and lighting; projects cover creative, conceptual, and technical facets of 3-D animation pipeline; conceptualize and execute projects using processes and methods currently integrated into 3-D animation industry through lectures, critiques, computer software, screenings, and labs. Prerequisites: ANIM:2125.

ANIM:3130 Professional Practices in Animation and Gaming Studios 2 s.h.
Experiential learning experience through immersion in professional animation and gaming studios that blend technology, art, and design; behind-the-scenes meetings with professionals, equipment, and processes involved in creating major animated and video game works; studio and museum visits to gain understanding of technology and art, professional studio culture, and innovative design; animation history, studio culture, entertainment artistry, art technology, and contemporary art. Prerequisites: ARTS:1520 and ARTS:1510.

ANIM:3135 Animation II 4 s.h.
Continuation of ANIM:3125; focus on technology of 3-D animation; 3-D modeling, texturing, animation, rendering and lighting; projects cover creative, conceptual, and technical facets of 3-D animation pipeline; students conceptualize and execute projects using processes and methods currently integrated into 3-D animation industry through lectures, critiques, computer software, screenings, and labs. Prerequisites: ANIM:3125.

**General Art Courses**

ARTS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ARTS:1001 CLAS Master Class 1-3 s.h.
ARTS:1010 Elements of Art 3 s.h.

ARTS:1020 Elements of 3-D Design 3 s.h.
Introduction to 3-D design using drafting, modeling, and virtual reality software; basic concepts of drafting, planning, and color theory; basic Auto CAD, 3ds Max Studio, Vizard, InDesign software; students design an object to be printed 2-D and 3-D and a conceptual space to be printed 2-D and experienced virtually; student journal and portfolio. Requirements: non-art major.

ARTS:1030 Elements of Jewelry and Metal Arts 3 s.h.
Fundamental 3-D design principles and appreciation of contemporary jewelry and metal art works; techniques and materials in jewelry and metal arts; experimentation with diverse media. Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1040 Elements of Media Art 3 s.h.
Introduction to production, history, and aesthetics of video and moving-image art; demonstrations, workshops, screenings, critiques; shooting and editing two production projects. Requirements: non-art major.

ARTS:1050 Elements of Printmaking 3 s.h.
Requirements: non-art major. GE: Literary, Visual, and Performing Arts.

ARTS:1055 Elements of Foil Imaging 3 s.h.
Printmaking experience using the Iowa Foil Printer; aesthetic and technical research, documentation in Foil Imaging...A New Art Form; hands-on opportunity to explore new dimensions of visual expression. Requirements: non-art major.

ARTS:1060 Elements of Digital Photography 3 s.h.
Introduction to history, aesthetics, and practice of photography as a fine art; includes demonstrations, workshops, critiques, final portfolio; photography time outside of class; digital camera required. Requirements: non-art major.

ARTS:1070 Elements of Graphic Design 3 s.h.
Introduction to concepts and principles of graphic design and contemporary approaches to effective visual communication; demonstrations, workshops, critiques, final portfolio.

ARTS:1080 Elements of Sculpture 3 s.h.

ARTS:1090 Elements of Animation 3 s.h.
Introduction to principles of two-dimensional digital animation; topics and projects will cover elements of conceptual, software, and technical facets of animation mechanics; application of skills to commercial purposes.

ARTS:1400 The Passport Project: Exploring Iowa and Iowa City 1 s.h.
Attendance and discussion at 12 events of student's choice, selected from the University and Iowa City's rich cultural offerings. Same as CSI:1400.

ARTS:1450 Exploring Iowa and Iowa City: Passport Project Colloquium 3 s.h.
Opportunities for peer mentors involved in ARTS:1400 and CSI:1400; activities including short readings and media screenings related to innovative and best practices in learning and teaching; emphasis on multi-modal writing online for peers; informal presentations and reflections; may include work with Passport Projects students, collaboration on development of guidelines and handouts for best practices in writing, and supplemental writing reflections. Same as CSI:1450.

ARTS:1500 Media, Social Practice, and Design Studio Foundations 3 s.h.
Introduction to key principles and skills in graphic design, photography, and video.

ARTS:1510 Basic Drawing 3 s.h.
Two-dimensional visual language, media; space, form; color. Requirements: art major or art minor. GE: Engineering Be Creative.

ARTS:1520 Design Fundamentals 3 s.h.
Two- and three-dimensional concepts and their relations; working with basic drawing instruments; problems in visual arts; artists' philosophies and techniques. Requirements: art major. GE: Engineering Be Creative.

ARTS:1560 Art Student Ambassador Seminar 0-1 s.h.
Ambassadors provide information about the School of Art and Art History to incoming and visiting students. University community, and broader community; conduct tours; meet with students and parents; review curriculum; provide information on opportunities; coordinate events; and develop materials for incoming students. Requirements: art major.

ARTS:2000 Big Ideas: Creativity for a Lifetime 3 s.h.
Exploration of what senior artists can teach about creativity and aging; interdisciplinary project-based collaborative learning opportunities that consider role of arts and creativity across a lifespan; essential skills necessary to be professionals in numerous careers including health, social work, education, humanities, and the arts; integration of teamwork and opportunities for individual growth that allow for personal development; identification of ways for students to be more creative in their own lives and work. GE: Values and Culture. Same as ASP:2000, EDTL:2000, RHET:2000.

ARTS:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as CINE:2800, CS:2800, DANC:2800, MUS:2800, THTR:2800.

ARTS:2900 Book Design for Publishing 3 s.h.
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ENGL:2900, UICB:2900, WRIT:2900.
ARTS:3230 Scene Design I 3 s.h.
Development of theatre scenery; how to research, conceptualize, and express ideas in 3-D models, simple sketches, and drafting. GE: Engineering Be Creative. Same as THTR:3230.

ARTS:3320 Introduction to Sequential Art: Comics/Graphic Novels 3 s.h.
Overview of contemporary American comic artists, history of comics and graphic novels in the United States; genres and structures in sequential art; students create works that combine design, images, texts, story. Requirements: satisfaction of rhetoric requirement.

ARTS:3400 Grant Writing in the Arts 3 s.h.

ARTS:4190 Honors in Studio Art 0-3 s.h.
Research, preparation, and exhibition of an honors project in studio art. Requirements: studio art major, UI g.p.a. of at least 3.33, and art g.p.a. of at least 3.50.

ARTS:4195 B.F.A. Exhibition 0 s.h.
B.F.A. students present a show of their work in final semester; use of flyers and other media to advertise show; meetings with faculty and academic advisors to complete required documentation; students planning to graduate with honors in the art major may combine honors project and B.F.A. show; variations require approval by B.F.A. faculty advisor and academic advisors. Requirements: B.F.A. standing in final semester.

ARTS:4200 Topics in Studio Arts 1-3 s.h.

ARTS:4300 Letterpress I 3 s.h.
Mechanics of letterpress printing, typography, and design as applied to hand set metal type and edition printing; printing on a Vandercook proof press; introduction to photopolymer plates and methods of illustration related to edition printing, historical aspects of printing technology, typecasting, type classification; role of letterpress in modern private press and contemporary artists books. Same as UICB:4300.

ARTS:4340 Digital Design for Artists' Books 3 s.h.
Introduction to concepts, techniques, and technologies used to design and produce artists' books with personal computers and graphic design software. Same as UICB:4340.

ARTS:4390 Book and Publication Design 3 s.h.
Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: DSGN:3120 or UICB:4300. Same as UICB:4390.

ARTS:4400 History of Western Letterforms 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as UICB:4400.

ARTS:4490 Advanced Studies in Letter Arts 3 s.h.
Special topics and advanced projects in calligraphy and letter arts. Prerequisites: UICB:4400 or UICB:4415 or UICB:4420. Same as UICB:4490.

ARTS:5330 Letterpress III: Imagemaking arr.
Advanced work in alternative and innovative letterpress technologies as they apply to imagemaking processes for fine press printing; topics include pressure printing, photopolymer from nondigital negatives, explorations of type-high surfaces, monoprints on the Vandercook, and applying hand work to editioned prints; students complete a series of print exercises for each process, a small printed book sketch, and a longer format editioned artist book. Prerequisites: UICB:4380. Same as UICB:5330.

ARTS:5340 Letterpress III: The Handprinted Book 3 s.h.
Advanced work in fine press book design; exploration of problems in hand-printing books, choice of manuscript, editing, design, typesetting, proofreading, printing and binding; histories of printing and of the book, emphasis on 20th- and 21st-century book design and literature; issues of book design and production related to letterpress printing. Prerequisites: UICB:4380. Same as UICB:5340.

ARTS:6000 M.A. Written Thesis 1 s.h.

ARTS:6190 Graduate Independent Study arr.
Individual instruction by a faculty member.

ARTS:7000 M.F.A. Written Thesis 1 s.h.

Ceramics Courses
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all ceramics courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

CERM:2010 Exploring Forms in Clay I 3 s.h.

CERM:2020 Exploring Thrown Forms in Clay II 3 s.h.
Basic wheel-throwing techniques; clay, glaze formulation and preparation in kiln firing. Prerequisites: CERM:2010.

CERM:3010 Advanced Clay Forming III 4 s.h.
Advanced throwing techniques; larger scale, more professional goals; projects may be more sculptural or one of a kind. Offered fall semesters. Prerequisites: CERM:2010 and CERM:2020.

CERM:4010 Advanced Clay Forming IV 4 s.h.
Advanced individual projects. Offered spring semesters. Prerequisites: CERM:2020 or CERM:3010.

CERM:4020 Ceramic Materials and Effects 4 s.h.
Empirical, practical methods of glaze and body formulation; effects of various types of kilns and firing atmospheres on glaze materials, clay bodies; digital imaging used for testing and documenting results. Offered fall semesters of even years. Prerequisites: CERM:3010.

CERM:4030 Undergraduate Ceramics Workshop 3-4 s.h.
Advanced undergraduate studio; critiques of student work and electronic portfolio development, visiting artist participation; may include field trips. Prerequisites: CERM:3010.

CERM:4040 Kiln Building 4 s.h.
Kiln theory, design, construction methods; may include participation in kiln construction. Offered fall semesters of odd years. Prerequisites: CERM:3010.
CERM:4050 Concepts: Materials and Installation 4 s.h.
Exposure to contemporary methods of working in clay, develop critical thinking skills that move clay into the realm of conceptual work; development of a personal direction in the medium; conceptual development and material exploration; set clay side by side with other materials and mediums; demonstrate dedication to the work and to the development of mature ideas and forms of expression. Prerequisites: CERM:3010.

CERM:4099 Undergraduate Individual Instruction 1-3 s.h.

CERM:6075 Ceramics Workshop 3-4 s.h.
Advanced graduate studio; critique of student work; visiting artists, field trips. Prerequisites: CERM:4010.

CERM:6099 Graduate Individual Instruction in Ceramics arr.
Requirements: knowledge of clay and glaze computation, and ability to fire kilns.

Design Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all design courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

DSGN:2500 Graphic Design I 3 s.h.
Basic concepts and principles that can be applied to all modes of contemporary visual communication. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2600. GE: Engineering Be Creative.

DSGN:2600 Graphic Design II 3 s.h.
Fundamentals of typography as a core element in visual communication; introduction to historical typographic practices as well as modern modes of designing with type. Prerequisites: ARTS:1510 and ARTS:1520. Corequisites: DSGN:2500. Same as UICB:2600.

DSGN:3500 Graphic Design III 4 s.h.
Skills class; focuses on browser-based user interfaces and user experiences; builds basic HTML and CSS knowledge base. Prerequisites: DSGN:2500 and DSGN:2600. Corequisites: DSGN:3600.

DSGN:3600 Graphic Design IV 4 s.h.
Implementing the fundamental knowledge and skills gained in previous design courses to explore the interaction of typography and visual image. Prerequisites: DSGN:2500 and DSGN:2600. Corequisites: DSGN:3500.

DSGN:4000 Graphic Design V 4 s.h.
Critical theory and professional practice of branding and identity design; topics range from icon development to packaging design and prototyping. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4700.

DSGN:4199 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in design for advanced students.

DSGN:4700 Graphic Design VI 4 s.h.
Advanced exploration of contemporary and experimental user interface and user experience design methodology; topics include design for mobile devices and wearables, as well as immersive environments. Prerequisites: DSGN:3500 and DSGN:3600. Corequisites: DSGN:4000.

DSGN:4800 Graphic Design VII 4 s.h.
Provides students with a concentrated semester-long opportunity to investigate a design project driven by their own personal research interests; projects are closely guided by faculty and are critiqued throughout the semester; critical theory readings and discussion. Prerequisites: DSGN:4000 or DSGN:4700.

DSGN:6175 Graphic Design VIII 4 s.h.
Introduction to complex problems in graphic design; planning, development, and organization of integrated design programs; activities include research and studio assignments, individual presentations, discussions, demonstrations, and critiques.

Three-Dimensional Design Courses

TDSN:2205 Art and Engineering 3 s.h.
Collaborative, interdisciplinary, cutting-edge opportunity to gain real world engineering experience while learning to think creatively and analytically to create engaging works of art; interdisciplinary collaboration and creative methodologies that enhance life-long creative practice of artists and engineers; basic electronics and Arduino prototyping platform to create programmable, sensor-driven, responsive circuits. Prerequisites: MTLS:2910 or CERM:2010 or SCLP:2810 or TDSN:2210. Same as ECE:2120.

TDSN:2210 Problems in 3-D Design 3 s.h.
Materials, their formal and structural possibilities. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:2230 Introduction to Portfolio Design 3 s.h.
Preparation of presentation boards and portfolio production for print and job application; for students in 3-D design and related areas. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:2240 Digital Drafting with AutoCAD 3 s.h.
Basic principles of 2-D and 3-D computer-aided drafting; use of AutoCAD software to draw plans, elevations, and sections for objects and interior spaces. Prerequisites: CERM:2010 or SCLP:2810 or TDSN:2210 or MTLS:2910. Same as CEE:2240.

TDSN:2250 Computer Modeling with 3ds Max 3 s.h.
Basic knowledge and practical technical skills using 3ds Max studio software; experience creating and manipulating basic forms and working with texture, background, light, and camera viewpoints; basic animation. Prerequisites: TDSN:2210.

TDSN:2260 Introduction to Virtual Reality for 3-D Design 3 s.h.
Introduction to Vizard software; design of virtual 3-D space; translation of environments created in 3ds Max software into Vizard software. Corequisites: TDSN:2250, if not taken as a prerequisite.

TDSN:2270 Digital Forming 3 s.h.
Introduction to process of design; work with 3-D virtual digital tools to create objects and forms printed with rapid prototyping technology; use of Leonar3Do software, 3-D glasses, and a bird device that functions as a mouse to create forms in space; virtual modeling techniques that allow creation and manipulation of shapes in the air; design development on Leonar3Do, improved with 3ds Max, and saved for 3-D printing. Prerequisites: CERM:2010 or SCLP:2810 or MTLS:2910 or TDSN:2210.

TDSN:3200 Product Design 4 s.h.
How objects are designed and structured; modeling, graphic skills necessary for basic project development. Prerequisites: TDSN:2250.
TDSN:3201 Advanced Computer Modeling with 3ds Max 3 s.h.
Creation of rendered and animated environments using advanced modeling techniques. Prerequisites: TDSN:2250.

TDSN:3205 Advanced Robotics 3 s.h.
Advanced peripheral integration and control, including stepper motors, solar power, audio playback, and live data manipulation through physical sensors; advanced fabrication (e.g., printed circuit boards and wiring harness design); for students with previous experience in robotics and electronics. Prerequisites: SCLP:3840.

TDSN:3210 Furniture Design I 4 s.h.
Human interaction with interior and exterior environment. Prerequisites: TDSN:3200.

TDSN:3215 Furniture Design II 4 s.h.
Continuation of TDSN:3210; design of virtual environments. Prerequisites: TDSN:3210.

TDSN:3220 Interior Design 4 s.h.
Relationship of interior space to its architecture, environment, human element; color, materials, furnishings, lighting; projects. Prerequisites: TDSN:2250.

TDSN:3230 Color for Interior Design 4 s.h.
Use of color for interior spaces; principles of color theory reviewed and applied to 3-D environments; color as a compositional element and psychological tool. Prerequisites: TDSN:2250.

Three-dimensional computer-aided drafting; use of AutoCAD software. Prerequisites: MTLS:2910 or SCLP:2810 or CERM:2010 or TDSN:2210.

TDSN:3250 Bicycle Design 4 s.h.
Drafting software, bicycle design, and history of bicycle from velocipede to mountain bikes; development of bicycle design as new materials, fabrication techniques, and ergonomics were applied; use of BikeCad, a parametric software, to design bicycles and bicycle components. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

TDSN:4210 Digital Animation and Visual Art 3 s.h.
Assimilation of digital animation into realm of traditional fine art mediums; exploration of fundamental skills (storyboarding, rotoscoping, stop motion, motion graphics, 3-D animation); Adobe Photoshop, After Effects, and 3ds Max techniques and software that are industry standards in the careers of animators, storyboard artists, roto artists, digital compositors, and motion graphic artists; production of a show reel of student work for group showing and final critique. Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:4220 Interior Design II 3 s.h.
Continuation of TDSN:3220. Offered fall semesters of even years. Prerequisites: TDSN:3220 and TDSN:2240.

TDSN:4250 Fabrication and Design: Hand-Built Bicycle 4 s.h.
Building a bicycle frame by hand; use of CAD modeling and development of fabrication skills to create a modern-day work of art. Prerequisites: TDSN:2240.

TDSN:4255 Hand-Built Bicycles in the Rockies 1 s.h.
Building a titanium hand-built bike; use of hand-built fabrication techniques and tools; translation of CAD design into first full-suspension titanium fat bike; aspects of metal technology, concept development, fabrication geometry and design, metal properties and selection, tool selection, brazing and TIG welding, jig setup and use, and mitering; travel to Fort Collins, Colorado to work for one week at Black Sheep Bikes (two-time winner of the North American Hand Built Bike Show). Prerequisites: ARTS:1510 and ARTS:1520.

TDSN:4260 3-D Computer Graphic Art 3 s.h.
Three-dimensional modeling; emphasis on movement in form and function; advanced modeling techniques in polygonal and NURBS modeling to generate fundamentally sound models used for rapid prototyping, visualization, and animation; Box modeling, NURBS modeling, rigging, materials, bump maps, normal maps, and rendering; fundamental skills of computer graphic artists working in the fields of animation, architectural visualization, video game modeling, industrial design, and engineering design. Prerequisites: TDSN:2250.

TDSN:4270 Problems in 3-D Design: Locative Art Practice 4 s.h.
How our relationship to Earth has changed with new forms of locating place in it; new forms of representation used to express exploration of that relationship; designing a locative research project; exploration of four major course concepts (geo-annotation, locative inscription, GPS drawing, alternative cartography) using portable, networked, and location-aware computing for mapping relationships. Prerequisites: ARTS:1520 and ARTS:1510.

TDSN:4299 Undergraduate Individual Instruction arr.
Individual instruction in 3-D design for advanced students.

TDSN:6295 Design for Production and Business 4 s.h.
Special issues and topics in design. Prerequisites: TDSN:3210.

TDSN:6299 Individual Instruction in 3-D Design arr.
Individual instruction in 3-D design for advanced students.

Drawing Courses
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all drawing courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

DRAW:2310 Life Drawing I 3 s.h.
Observational drawing of form in its spatial contexts; drawing in varied media; figural as well as nonfigural content. Prerequisites: ARTS:1510 and ARTS:1520.

DRAW:3310 Concepts in Drawing 3-4 s.h.
Intermediate-level topics; observation, theory, media, form, content; emphasis on personal direction. Prerequisites: DRAW:2310. Same as THTR:3205.

DRAW:4310 Advanced Concepts in Drawing 3-4 s.h.
Advanced-level topics. Prerequisites: DRAW:3310. Requirements: DRAW:3310 taken two times.

DRAW:4320 Seminar in Painting and Drawing 3-4 s.h.

DRAW:4399 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in drawing for advanced students.
DRAW:6310 Graduate Drawing 3-4 s.h.
Compositional and conceptual drawing as related to the
student's major interest; varied media. Requirements: 6 s.h. of
DRAW:3310.

DRAW:6399 Individual Instruction in Drawing arr.

Intermedia Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design
Fundamentals are prerequisites for all intermedia courses
for art majors; ARTS:1510 Basic Drawing is prerequisite for
nonmajors.

INTM:2710 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation,
video, time-based media, performance art. Prerequisites:
ARTS:1510 and ARTS:1520 or CINE:1834. Requirements:
for CINE:2869—grade of C or higher in CINE:1834. Same as
CINE:2869.

INTM:2720 Concepts in Contemporary Art Practice 3 s.h.
Interdisciplinary investigation of materials and concepts in
relation to time-based media, performance, video, installation;
individual and collaborative projects. Prerequisites:
INTM:2710.

INTM:2864 Film/Video Production: Alternative Forms 3 s.h.
Alternative or innovative video/film practices and
technologies; varied topics. Prerequisites: INTM:2710 with a
minimum grade of C or CINE:1834 with a minimum grade of C.
Same as CINE:2864.

INTM:3050 Body/Image: Dance and Media in Discourse
and Practice 3 s.h.
Intersection of body, image, and sound in analog and digital
media; relationship to critical and practical texts; written and
performative assignments that address fundamental concepts of
corporeality in related fields including dance for camera,
stage and film performance, and artistic, documentary, and
publicity filmmaking and photography. Same as DANC:3050.

INTM:3720 Media Art Lab 4 s.h.
Study and production in the media arts—digital video,
sound, installation/performance, Internet, new media art;
conceptual development through readings, screenings;
hands-on workshops using a range of media production
equipment and platforms; in-class, short-term projects.
Requirements: INTM:2710 or CINE:1834 or graduate standing.
Recommendations: experience with media technologies.

INTM:3730 Advanced Intermedia Topics 3 s.h.
Areas of intermedia practice, including installation, video,
Internet-based production, sound design, image and text, new
media. Prerequisites: INTM:2710.

INTM:3750 Art and Ecology 4 s.h.
Collaborative, creative research group; artistic responses
to environmental sustainability and related social issues;
critical approaches rooted in humanities, other disciplines.
Prerequisites: INTM:2710.

INTM:3799 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in intermedia for advanced students.

INTM:4775 Intermedia Workshop 3-4 s.h.
Visual practice/visual theory; projects, critiques, visiting artists
and scholars. Requirements: INTM:2720 or graduate standing
in intermedia.

INTM:4780 Women's Lives in Alternative Texts 3 s.h.
Work of contemporary comics creators; how they craft
memoir-based texts that explore intersections of aging,
sexuality, race, gender, and relationships. Same as
GWSS:4180.

INTM:6780 Art, Engagement, and Activism 4 s.h.
Role of artists in our communities; how to build a rewarding
studio practice and influence social, political, and cultural
decisions within the community; work of artists, designers,
creative scholars, performers, and writers whose work is
socially engaged, collaborative, labeled as radical or activist in
nature; students produce a small body of written, visual, and
performed work influenced by events and needs within their
communities; examination and discussion of various theories
of art, activism, performance, and engagement.

Jewelry and Metal Arts Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design
Fundamentals are prerequisites for all jewelry and metal
arts courses for art majors; ARTS:1510 Basic Drawing is
prerequisite for nonmajors.

MTLS:2910 Introduction to Jewelry and Metal Arts 3 s.h.
Fabrication, hammer forming, hydraulic die forming, soldering,
rivetring, etching, texturing, anodization of aluminum and
titanium, stone setting, and patination techniques; creation
of jewelry, flatware, and other functional and nonfunctional
sculptural objects using varied metals and other materials;
emphasize on creativity, learning, and basic metalworking
techniques. Prerequisites: ARTS:1520 and ARTS:1510. GE:
Engineering Be Creative.

MTLS:3910 Intermediate Jewelry and Metal Arts 4 s.h.
Exploration of different applications with casting (mostly
gold, silver, and bronze), enameling, and stone setting;
combining all three processes to create art work; may include
introduction to other processes (e.g., photo-etching, 3-D
computer modeling); historical and current trends in craft.
Prerequisites: MTLS:2910.

MTLS:3920 Advanced Jewelry and Metal Arts 4 s.h.
Electroforming; production of hollow copper structures
through prolonged electroplating on a nonmetallic form
(typically wax) with a conductive coating; metal-forming
techniques (e.g., raising and fold forming); emphasis on
development of personal aesthetics, learning, and refining
technical skills in metalworking and jewelry techniques.
Prerequisites: MTLS:2910.

MTLS:4910 Mixed Media Workshop 3-4 s.h.
Free exploration of all media and materials, including found
objects; creation of conceptual and/or functional mixed media
objects, jewelry, sculptures, installation pieces; pioneering use
of new materials, development of new techniques, creation
of diverse innovative art works. Prerequisites: MTLS:2910.

MTLS:4920 Mold Making 4 s.h.
All aspects of mold making, including plaster, rubber,
and silicone. Prerequisites: CERM:2010 or TDSN:2210 or
MTLS:2910 or SCLP:2810.
MTLS:4960 Form and Fabrication: The Hand-Built Bicycle Frame II 4 s.h.
Building on TDSN:4250; advanced concepts of bicycle frame design and fabrication; concept development, fabrication, geometry and design, metal properties and selection, tool selection, brazing and welding, including titanium-milling and how to build a frame jig; emphasis on applying fabrication skills while situating frame building project within context of a design problem. Prerequisites: TDSN:4250.

MTLS:4975 Graduate Workshop 4 s.h.
Independent studio work; personal aesthetics, conceptual and technical skills developed and refined; creation of work without boundaries of media; portfolios, exhibitions, professional goals. Prerequisites: MTLS:3920 and MTLS:4910 and MTLS:3910.

MTLS:4999 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in metalsmithing and jewelry for advanced students.

MTLS:6999 Individual Instruction in Metalsmithing and Jewelry arr.

Painting Courses
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all painting courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PNTG:2410 Painting I 3 s.h.
Emphasis on observational painting, theory and development of pictorial ideas and skills. Prerequisites: ARTS:1510 and ARTS:1520. GE: Engineering Be Creative.

PNTG:2420 Painting II 4 s.h.
Materials, techniques, beginning of a personal painting language through observation and imagination. Prerequisites: PNTG:2410. 

PNTG:2430 Painting III 4 s.h.
Painting, with contemporary issues overlying study in materials and techniques; language and direction of personal painting. Prerequisites: PNTG:2420.

PNTG:4100 Advanced Painting 4 s.h.
Individual projects as they aid the realization of a personal vision. Prerequisites: PNTG:2420. Requirements: PNTG:2420 taken two times.

PNTG:4499 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in painting for advanced students.

PNTG:6475 Graduate Drawing and Painting Workshop 3-4 s.h.
Group and individual criticism, team-taught.

PNTG:6480 Graduate Drawing and Painting Forum 1 s.h.
Problems and issues of contemporary artists.

PNTG:6495 Graduate Painting: Topics 3-4 s.h.
Individual painting projects in desired medium; topics vary.

PNTG:6499 Individual Instruction in Painting arr.

Papermaking Courses
BKAT:2110 Introduction to Book Arts 3 s.h.
Topics related to artist books, hand bookbinding, letterpress printing, papermaking, and lettering arts. Same as UICB:2110.

BKAT:3280 Elements of Book Art 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. Same as UICB:3280.

BKAT:3380 Elements of Letterpress 3 s.h.
Introduction to letterpress printing; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques; for non-book art majors. Same as UICB:3380.

BKAT:3400 Calligraphy: Foundational Hands 3 s.h.
Fundamental calligraphic skills using Roman majuscule, Humanistic minuscule, Italic; basic layout and color theory incorporated into letter practice. Same as UICB:3400.

BKAT:4100 Paperworks 3 s.h.
Conceptual and methodological approaches to 2-D and 3-D paper works; creation of works that couple unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp, medium’s relationship to larger art and craft contexts. Same as UICB:4100.

BKAT:4205 Bookbinding I: Materials and Techniques 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as UICB:4205.

BKAT:4210 Boxes and Enclosures 3 s.h.
Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: UICB:4205. Same as UICB:4210.

BKAT:4270 Bookbinding II 3 s.h.
Builds on skills acquired in UICB:4205; projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types; nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: UICB:4205. Same as UICB:4270.

BKAT:4280 Artists’ Books 3 s.h.
Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book’s structure and design can enhance and integrate part of the work’s meaning. Prerequisites: UICB:4205 or UICB:4205. Same as UICB:4280.

BKAT:5110 Islamic/Asian Papermaking History and Technique 3 s.h.
History, technique, and aesthetics of traditional Islamic and Asian hand papermaking. Same as UICB:5110.

BKAT:5120 Western Papermaking History and Technique 3 s.h.
History and technique of traditional European hand papermaking and related aesthetics; students gain confidence in pursuing independent production of handmade papers or undertaking related research in their own particular areas of interest; fiber preparation, sheet forming, and drying/finishing methods; concurrent readings and discussions of related history and aesthetics; special projects selected by student with instructor approval. Same as UICB:5130.
BKAT:5170 Advanced Papermaking Production 3 s.h.
Independent Western- or Japanese-style projects undertaken at UICB Research and Production Paper Facility at Oakdale Campus under faculty guidance; plan, implement, and evaluate professional scale production runs using full-scale equipment. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5180.

BKAT:5180 Advanced Projects in Paper 3 s.h.
Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: UICB:5110 or UICB:5130 or BKAT:5110 or BKAT:5120. Same as UICB:5180.

BKAT:5210 Bookbinding III 3 s.h.
Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Prerequisites: (UICB:4205 or BKAT:4205) and (UICB:4270 or BKAT:4270). Requirements: for UICB:5210 —UICB:4205 and UICB:4270; for BKAT:5210—BKAT:4205 or BKAT:4270 or UICB:4205 or UICB:4270. Same as UICB:5210.

BKAT:5260 Studies in Bookbinding 3 s.h.
Topics related to hand bookbinding. Same as UICB:5260.

Photography Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all photography courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PHTO:2510 Beginning Digital Photography 3 s.h.
How to use digital technology to make high-quality color and black-and-white photographs from scanned film and digital files; basic photography skills, including exposure, bracketing, composition; how to use raw files to make large digital prints; color profiles for fine digital printing. Prerequisites: ARTS:1520 and ARTS:1510.

PHTO:3510 Black and White Darkroom 3-4 s.h.
Darkroom techniques, including film developing and printing; theory and practice of photography as fine art and cultural phenomenon; development of visual literacy, students' critical awareness of their work. Corequisites: PHTO:2510.

PHTO:3520 Intermediate Photography Digital 3-4 s.h.
Digital photography including landscape, portrait, collage, still life, manipulated images; black-and-white and color printing; computer technology; history of photography in political and social issues. Prerequisites: PHTO:2510.

PHTO:4510 Advanced Photography 3-4 s.h.
Individual projects; development of personal vision. Prerequisites: PHTO:3520 or PHTO:3510.

PHTO:4545 Materials and Techniques 4 s.h.
Concepts and techniques, from reading contemporary topics to understanding and applying nontraditional photographic processes and digital imaging. Prerequisites: PHTO:3520 or PHTO:3510.

PHTO:4599 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in photography for advanced students.

PHTO:4665 Introduction to 4x5 4 s.h.
Use of a 4x5 camera to correct perspective, depth of field; large format printing, negative processes. Prerequisites: PHTO:3510.

PHTO:6575 Graduate Photography Workshop 4 s.h.
Projects; group critiques; readings.

Printmaking Courses

Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all printmaking courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

PRNT:2610 Introduction to Printmaking 3 s.h.
Introduction to methods, materials, and concepts of printmaking. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: art major. GE: Engineering Be Creative.

PRNT:3610 New Media for Printmaking 4 s.h.
New concepts and techniques for contemporary print media, including digital and less toxic applications in relief, intaglio, lithography, and screenprinting. Prerequisites: PRNT:2610.

PRNT:3620 Intaglio 4 s.h.
Concepts, techniques; traditional through contemporary ideas, methods; emphasis on metal plate printing, including etching, drypoint, engraving, softground, aquatint. Prerequisites: PRNT:2610. Requirements: PRNT:2610 or B.F.A. candidacy in any area or graduate standing.

PRNT:3630 Relief 3-4 s.h.
Concepts and techniques of relief printmaking, including woodcut, linocut, relief etching, black-and-white and color printing methods; traditional and contemporary approaches. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area or graduate standing.

PRNT:3640 Lithography 4 s.h.
Technical, aesthetic characteristics; basic direct drawing, processing, printing of stone and plate images in black and white. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area or graduate standing.

PRNT:3660 Monoprint 3-4 s.h.
Concepts, techniques in use of traditional and alternative printmaking media to produce unique, matrix-generated prints. Prerequisites: PRNT:2610.

PRNT:3670 Foil Imaging I 3 s.h.
Participation in development of a new art form involving creation of original prints and other works of art using hot stamped foil and Iowa Foil Printer. Prerequisites: ARTS:1510 and ARTS:1520. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1510 for nonmajors; or B.F.A. candidacy in any area or graduate standing.

PRNT:3675 Foil Workshop in Printmaking 2 s.h.
Hands-on experience creating foil prints; workshop format. One or two weeks. Offered summer session.

PRNT:3680 Silkscreen 4 s.h.
Photographic, nonphotographic stencil techniques for silkscreen printing. Prerequisites: PRNT:2610. Requirements: ARTS:1510, ARTS:1520, and PRNT:2610 for art majors; ARTS:1010 and ARTS:1050 for nonmajors; or B.F.A. candidacy in any area or graduate standing.
PRNT:4610 Advanced Printmaking 4 s.h.
Print media (i.e., intaglio, lithography, relief, screenprint); emphasis on individual technical and conceptual growth and development of independent studio practices. Prerequisites: PRNT:2610 and (PRNT:3620 or PRNT:3630 or PRNT:3640 or PRNT:3680).

PRNT:4640 Advanced Lithography 3-4 s.h.
Technical, aesthetic aspects; emphasis on color printing, indirect image-forming and photo-mechanical processes. Prerequisites: PRNT:3640 and PRNT:2610.

PRNT:4670 Foil Imaging II 4 s.h.
Advanced aesthetic and technical research for creation of original prints and other works of fine art using hot stamped foil and other printing techniques; individual instruction. Prerequisites: PRNT:3670.

PRNT:6675 Graduate Print Workshop 3-4 s.h.
Contemporary issues in printmaking; emphasis on development of personal work and independent studio practice through group critiques, special research projects, work in all print media.

PRNT:6699 Individual Instruction in Printmaking arr.

Sculpture Courses
Courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals are prerequisites for all sculpture courses for art majors; ARTS:1510 Basic Drawing is prerequisite for nonmajors.

SCLP:2810 Undergraduate Sculpture I 3 s.h.
Basic sculptural concepts, processes, investigation of materials such as plaster, clay, wood; emphasis on developing formal language, acquiring basic skills; spatial, conceptual, technical issues. Prerequisites: ARTS:1520 and ARTS:1510. GE: Literary, Visual, and Performing Arts.

SCLP:2820 Undergraduate Sculpture II 3 s.h.
Continuation of SCLP:2810; form, materials, processes, woodcarving, welding, concrete carving and direct application; expanding concept development; contemporary sculptural formats, collaborative process. Prerequisites: SCLP:2810.

SCLP:3840 Robotic Art Studio 4 s.h.
Exploration, design, and creation of interactive artworks, kinetic sculpture, robotic art, sound works, light art, and performance environments; application of basic electronics and mechanical techniques; use of programmable microcontroller Arduino. Prerequisites: ARTS:1520 and ARTS:1510.

SCLP:3895 Topics in Sculpture 4 s.h.
Projects, reading; specialized conceptual forms and issues in contemporary sculpture, such as public art, installation. Prerequisites: SCLP:2810.

SCLP:4825 Casting in Hot Metal 4 s.h.
Foundry work, wax working, mold making, and processes. Prerequisites: SCLP:2820 or MTLS:2910.

SCLP:4830 Motion and Mechanisms 4 s.h.
Inherent properties of kinetic art and challenges of integrating motion into object and installation; artists who work with motion-based artwork; mechanical fabrication, basic electricity, switching, control, and various types of motors and mechanisms that can add motion to art-making process; projects engaging conceptual and technical aspects of kinetic sculpture, may include custom fabricated and recycled components. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4835 Electronic Objects and Spaces 4 s.h.
Aesthetic use of electronics to sequence and control motion, light, and sound; introduction to basic electronics through hands-on workshops and discussions; demonstrations on how to build an Arduino, integrated circuits, power supplies, soldering, prototyping, motors, sensors; projects integrating electronics with objects and spaces; artist screenings and critiques. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4840 Air, Actuators, and Motors 4 s.h.
Introduction to wide range of motors, actuators, and air devices available for integration in art projects; various forms of motor control and necessary means to power these devices; DC and AC motors, stepper motors, solenoids, electro magnets, relays, pneumatics, inflatables, and other air-driven devices; development of a project utilizing one or more systems; examples and media demonstrations to show how artists and scientists employ these systems. Prerequisites: ARTS:1510 and ARTS:1520.

SCLP:4899 Undergraduate Individual Instruction 1-3 s.h.
Individual instruction in sculpture for advanced students.

SCLP:6264 Graduate Sculpture Workshop 3-4 s.h.
Critique seminar with readings for graduate sculptors and nonsculpture graduate students.

SCLP:6899 Individual Instruction in Sculpture arr.

Art Education Courses
ARTE:3143 Methods of Elementary Art and Field Experiences 3-4 s.h.
Application of studio methods to teaching children in Saturday Children's Art Class Program. Same as EDTL:3143.

ARTE:6267 Seminar: Current Issues in Art Education 3-4 s.h.
Analysis of literature in art education and related disciplines. Same as EDTL:6267.
Art, B.A.

Requirements

The Bachelor of Arts with a major in art requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464).

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. Students take courses in the school's studio art programs, including animation, ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, and sculpture.

Students may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art and a major in art history) or a major and a minor in the school (e.g., a major in art and a minor in art history) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

Students majoring in art begin their study in the Bachelor of Arts program. Those interested in pursuing concentrated work in a specific studio art discipline may apply for admission to the Bachelor of Fine Arts program through a process called "clearance," in which the faculty evaluates a student's readiness for B.F.A. study. Clearance usually takes place during the third year, but it may be conducted earlier or later, depending on the student's readiness.

Students interested in teaching art in elementary and/or secondary schools may apply to the art education program; see "B.A. with Teacher Licensure" below.

Students who complete an elements course and decide to pursue either major or minor work in the area of studio art may elect to substitute the elements course for the corresponding discipline beginning or introductory studio arts course, such as ARTS:1080 Elements of Sculpture for SCLP:2810 Undergraduate Sculpture I.

The B.A. with a major in art requires the following course work. Not all courses are offered every semester, including required courses. When planning their course work, students should consult their advisors and MyUI to determine when specific courses will be offered.

Art History

Two of these:

| ARTH:1040 Arts of Africa | 3 |

Additional Art History Courses

Two art history courses not in the list above, excluding ARTH:1000, ARTH:1080, ARTH:2975, ARTH:3985, ARTH:3995, and ARTH:4999

Foundational Studio Art

Studio art majors are required to complete ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals by the end of their first academic year. Majors can enroll in one beginning or introductory studio arts course during the same semester they are enrolled in either ARTS:1510 or ARTS:1520.

Students may take introductory 3-D and 2-D courses while taking the foundational courses.

Both of these:

| ARTS:1510 Basic Drawing | 3 |
| ARTS:1520 Design Fundamentals | 3 |

Studio Art 3-D Courses

Two of these:

| CERM:2010 Exploring Forms in Clay I | 3 |
| INTM:2710 Introduction to Intermedia | 3 |
| MTLS:2910 Introduction to Jewelry and Metal Arts | 3 |
| SCLP:2810 Undergraduate Sculpture I | 3 |
| TDSN:2210 Problems in 3-D Design | 3 |

Studio Art 2-D Courses

Two of these:

| ANIM:2125 Introduction to Animation | 3 |
| DRAW:2310 Life Drawing I | 3 |
| DSGN:2500 Graphic Design I | 3 |
| PHOT:2510 Beginning Digital Photography | 3 |
| PRNT:2410 Painting I | 3 |
| PRNT:2610 Introduction to Printmaking | 3 |

Upper-Level Studio Art Courses

Students must take two upper-level studio art courses. They may take both upper-level courses in the same studio art discipline or one upper-level course in each of two disciplines. Any course beyond the introductory course in the discipline is considered upper level.

Introductory courses include the following and do not count toward the upper-level studio arts courses requirement.

| ANIM:2125 Introduction to Animation | 3 |
| CERM:2010 Exploring Forms in Clay I | 3 |
| DRAW:2310 Life Drawing I | 3 |
| DSGN:2500 Graphic Design I | 3 |
| INTM:2710 Introduction to Intermedia | 3 |
Required Electives
School of Art and Art History elective courses must bring the total credit for the major in art to a minimum of 39 s.h.

Transfer Students
Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific course work that satisfies the requirements for the major in art. Students may count a maximum of 12 s.h. of approved transfer credit toward the B.A. major in art.

Study Abroad
Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

B.A. with Teacher Licensure
Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the art major and all requirements for graduation with a B.A. degree. The TEP requires several College of Education courses and student teaching. Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Contact the Office of Student Services in the College of Education for details.

Honors
Honors in the Major
Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They also must complete an application to graduate with honors in the major.

Students must complete a studio art project during the semester in which they plan to graduate. They must select a studio art faculty member willing to supervise their honors project; must display the completed project in a show; and must complete a title page, abstract, and CD of images for their project. They earn credit for the project by enrolling in ARTS:4190 Honors in Studio Art.

University of Iowa Honors Program
In addition to honors in the major, students have a variety of opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Academic Plans
Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least four courses in the major
Before the seventh semester begins: at least four more courses in the major (total of eight) and at least 90 s.h. earned toward the degree
Before the eighth semester begins: at least three more courses in the major (total of 11)
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Total Hours 120-131

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4 Select art history survey course from ARTH:1040 Arts of Africa, ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I, ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II, ARTH:1070 Asian Art and Culture, and ARTH:1095 American Indian Art. Some introductory-level art history courses will fulfill GE requirements; students should consult with their advisor.

7 Does not include ARTH:1040 Arts of Africa, ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I, ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II, ARTH:1070 Asian Art and Culture, ARTH:1080 Writing About the Visual Arts, ARTH:1095 American Indian Art, and ARTH:4999 History and Methods.

8 Students may select an elective art course until they complete a maximum of 56 s.h. of art courses, or select a non-art elective course.

Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Art History, B.A.

Art history engages in problems of historical analysis and in interpretation of culture. The major in art history provides students with a strong liberal arts background and prepares them for competitive placement in graduate schools across the country. As students progress through the major, they become familiar with historical relationships between art objects and society, learn techniques of formal analysis, study patterns of patronage, and absorb methods for interpreting the meaning of paintings, sculptures, and architecture. In the course of their studies, art history majors develop their research abilities and writing skills.

Requirements

The Bachelor of Arts with a major in art history requires a minimum of 120 s.h., including 45 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

Students may count a maximum of 56 s.h. earned in art and art history courses toward the degree; they must earn at least 64 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

B.A. students with a double major in the school (e.g., a major in art history and a major in art) or a major and a minor in the school (e.g., a major in art history and a minor in art) must earn at least 56 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

Students interested in teaching art in elementary and/or secondary schools may apply to the art education program; see "B.A. with Teacher Licensure" below.

The B.A. with a major in art history requires the following course work.

Transfer Students

Transfer students planning to major in art history should meet with the undergraduate advisor to discuss the requirements they may fulfill with transfer courses. Art history transfer courses must be reviewed by the head of the art history area to determine a student's placement in or exemption from required art history courses. Students may count a maximum of 15 s.h. of approved transfer credit toward the major in art history.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work will satisfy a requirement for their major; the requirement is waived if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

B.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the art history major and all requirements for graduation with a B.A. degree. The TEP requires several College of Education courses and student teaching. Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Contact the Office of Student Services in the College of Education for details.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They also must complete an application to graduate with honors in the major.
Students must complete an honors project that includes an honors thesis during the semester in which they plan to graduate. Students have two options for completing the honors project.

Option 1: Students take two upper-division courses with an honors contract and complete an extra project, such as an annotated bibliography, a supplemental paper or presentation, or a comparable project endorsed by the professor. Students then enroll in a third upper-division course, with or without honors contract, appropriate to their honors paper topic and ARTH:3985 Honors Research in Art History for 1 s.h. credit with the same instructor. Through enrollment in ARTH:3985, students write an honors paper of 3,000 to 5,000 words.

Option 2: Students research and write an honors paper of 5,000 to 7,500 words under the direction of an art history professor, who agrees to act as their honors advisor. Students earn up to 3 s.h. credit in ARTH:3985 Honors Research in Art History. They must have the approval of their honors advisor before they begin work on their honors paper.

The honors paper should conform to the Graduate College format for theses; see the Manual of Rules and Regulations of the Graduate College.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the art history major.

Total Hours 120-128

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

**Career Advancement**

Many graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraisal, and restoration, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Art, B.F.A.

Requirements

The Bachelor of Fine Arts with a major in art requires a minimum of 120 s.h., including 62 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

Bachelor of Fine Arts students majoring in art may count a maximum of 62 s.h. earned in art and art history courses toward the degree; they must earn at least 58 s.h. of credit in courses outside the School of Art and Art History in order to graduate.

The major provides a foundation in art history as well as an understanding of the formal traditions and contemporary practices in studio art. It also includes a concentration in studio art.

Students select one studio art discipline, choosing from ceramics, graphic design, three-dimensional (3-D) design, drawing, intermediation, jewelry and metal arts, painting, photography, printmaking, and sculpture. They may not select bookbinding, calligraphy, or papermaking as their studio art discipline. Although students may choose only one B.F.A. discipline, they gain exposure to other studio areas through the B.F.A. program of study.

Students who complete an elements course and decide to pursue either major or minor work in the area of studio art may elect to substitute the elements course for the corresponding discipline beginning or introductory studio art courses, such as ARTS:1080 Elements of Sculpture for SCLP:2810 Undergraduate Sculpture I.

Students majoring in art begin their study in the Bachelor of Arts program. They may apply to the Bachelor of Fine Arts program after consulting with the faculty in the studio discipline of their choice. Students are admitted to the B.F.A. program through a process called “clearance,” which is conducted once each semester; they must be admitted to the B.F.A. program at least one semester before they graduate. Students who wish to enter the B.F.A. program should consult the faculty in their major studio art discipline for information about the required portfolio review.

In order to sit for B.F.A. clearance, students must have completed:

- the two studio art foundation courses ARTS:1510 Basic Drawing and ARTS:1520 Design Fundamentals;
- one introductory course in the B.F.A. studio art discipline; and
- two upper-level courses in the B.F.A. studio art discipline (students may be enrolled in the two upper-level courses when they sit for clearance).

B.F.A. students complete all requirements for the B.A. major in art (required courses) plus additional studio work. They also must present a show of their work through ARTS:4195 B.F.A. Exhibition before they graduate.

Students interested in teaching art in elementary and/or secondary schools may apply to the art education program; see “B.F.A. with Teacher Licensure” below.

The B.F.A. with a major in art requires the following work:

<table>
<thead>
<tr>
<th>Required Courses</th>
</tr>
</thead>

Required Electives

School of Art and Art History elective courses must bring the total credit for the major to a minimum of 62 s.h.
Additional Studio Art Courses

All of these:
- One introductory course and three upper-level courses in the student's studio art discipline
- One introductory course and one upper-level course in a second studio art discipline
- One introductory course and one upper-level course in a third studio art discipline

B.F.A. Exhibition

Students must present a show of their work in ARTS:4195 B.F.A. Exhibition during the semester in which they graduate. Variations must be approved by the B.F.A. faculty advisor and academic advisors. The show must be advertised using flyers and other media. Students planning to graduate with honors in the major may combine their honors project and their B.F.A. show. Students must meet with faculty and academic advisors to complete the required documentation before they present their show.

Transfer Students

Transfer students should contact the undergraduate academic advisors for information about transfer portfolio review and specific course work that satisfies the requirements for the major in art. Students may count a maximum of 21 s.h. of approved transfer credit toward the B.F.A. major in art.

Study Abroad

Students who wish to study abroad must meet with the undergraduate advisor before they depart in order to confirm approval of the courses they plan to take.

Students who take studio art courses abroad must bring their artwork back to campus and present it in a portfolio review, which determines whether the work satisfies a requirement for their major. The portfolio review is not required if the study abroad course was taught by a School of Art and Art History faculty member who gave the student a grade for the course.

Students who plan to take art history courses abroad must present the course syllabus to their advisor well in advance of their departure. The head of the art history program determines whether the study abroad course is equivalent to a course required for the major; if it is, the student is credited with fulfilling the requirement once the course is completed with a passing grade.

B.F.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the art or art history major and all requirements for graduation with a B.F.A. degree. The TEP requires several College of Education courses and student teaching. Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Contact the Office of Student Services in the College of Education for details.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in their major. They also must complete an application to graduate with honors in the major.

In order to graduate with honors in the major, students must complete a studio art project during the semester in which they plan to graduate. They must find a studio art faculty member willing to supervise their honors project; must display the completed project in a show; and must complete a title page, abstract, and CD of images for their project. They earn credit for the project by enrolling in ARTS:4190 Honors in Studio Art.

University of Iowa Honors Program

In addition to honors in the major, undergraduate students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the art major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the B.F.A. major in art. Students should work with their advisors to develop individual graduation plans.

Sample Plan of Study

Art (B.F.A.)

The major is open by selection; students should consult with their advisor.

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4. Select art history survey course from ARTH:1040 Arts of Africa, ARTH:1050 From Cave Paintings to Cathedrals: Survey of Western Art I, ARTH:1060 From Mona Lisa to Modernism: Survey of Western Art II, ARTH:1070 Asian Art and Culture, and ARTH:1095 American Indian Art. Some introductory-level art history courses will fulfill GE requirements; students should consult with their advisor.

8. Students may select an elective art course until they complete a maximum of 62 s.h. of art courses, or select a non-art elective course.

---

### Career Advancement

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, museum curator or administrator, art educator, public artist, or community art center coordinator or instructor. Others go on to graduate study in areas such as art history, art therapy, architecture, design, medical illustration, studio art, or disciplines outside of art.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Art, Minor

The undergraduate minor in art requires a minimum of 18 s.h. in art courses, including at least 15 s.h. earned in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may not count course work for the minor in art toward requirements for the major in art history, except ARTS:1510 Basic Drawing.

Art courses that may be taken include animation, ceramics, drawing, intermedia, jewelry and metal arts, painting, photography, printmaking, sculpture, and three-dimensional (3-D) design. Two courses with the prefix ARTS are required and one art history course with the prefix ARTH may be included in the 18 s.h. required for the minor.

The minor in art requires the following course work.

<table>

<tr>
<td>Additional introductory studio art courses or upper-level courses in the same studio art discipline(s) as the introductory 3-D and/or 2-D courses required for the minor</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Before registering for a course, students must complete all of the course’s prerequisites.

Contact an undergraduate advisor in the School of Art and Art History for more information about how to meet the requirements for the minor.
Art History, Minor

The undergraduate minor in art history requires a minimum of 15 s.h. in art history courses, including 12 s.h. earned in advanced courses taken at the University of Iowa. Courses numbered ARTH:2000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students earning a major in art and a minor in art history may not count course work or semester hours for the minor in art history toward requirements for the major in art. But they may count one art history course required for the art major toward the requirements for the art history minor; students must consult with their advisors.

The minor in art history must include one survey course chosen from these:

</tbody>
</table>

Before registering for a course, students must complete all of the course's prerequisites.

Contact an undergraduate advisor in the School of Art and Art History for more information about how to meet the requirements for the minor.
Art, M.A.

Requirements

The Master of Arts program in art requires a minimum of 38 s.h. of graduate credit. The degree is offered with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia and video art, jewelry and metal arts, painting, photography, printmaking, and sculpture.

M.A. students must hold a B.A. or B.F.A. in art equivalent to that offered by the University of Iowa. Undergraduate deficiencies, if any, may be made up concurrently with graduate study but do not count toward the graduate degree requirements.

The 38 s.h. of credit required for the M.A. includes at least 16 s.h. in a primary studio art emphasis; 8 s.h. in a secondary studio art emphasis chosen from one of the studio art disciplines listed above; 3 s.h. in the history and theory of art, excluding readings and directed studies; and 3 s.h. in theory, history, criticism, or philosophy, earned in courses inside or outside of the school.

M.A. students undergo a division-wide review for M.A. candidacy by the faculty during their third semester in residence. All those except painting and drawing students must submit a written artist’s statement or M.A. thesis.

M.A. students in intermedia and video art, and 3-D design are required to write an M.A. thesis. They may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:6000 M.A. Written Thesis, with approval of the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements. M.A. students in other studio art disciplines choose the M.A. thesis or nonthesis option in consultation with their discipline advisor.

The College of Education offers an M.A. program in art education; see M.A. in Teaching and Learning [p. 1191] in the Catalog.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is February 1 for studio art programs; admission is for fall.

Application materials should be uploaded onto a student’s admissions profile (see instructions below under “Application Procedures”). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score as follows on the Test of English as a Foreign Language (TOEFL): for studio art applicants, 81 (Internet-based). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application will not be reviewed if scores are lower than the requirements specify.

Prospective graduate students must meet the School of Art and Art History’s admission requirements for the specific degree program they plan to enter. They must submit application materials to the University’s Office of Graduate Admissions and to the University’s Office of the Graduate College; see the catalog of the Graduate College.

Non-native speakers of English should note that most students are financially funded through teaching, and the Iowa Board of Regents mandates that all non-native speakers of English pass an oral English test in order to teach.

Application Procedures

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents:

- transcripts from all colleges and universities an applicant has attended;
- contact information for three individuals (able to assess applicants’ potential for graduate study) designated to provide letters of recommendation; and
- a statement of purpose.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

Studio art applicants’ portfolio requirements are listed below. Images in the portfolio should be uploaded pdf files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 1 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with an inventory list that includes each image’s name, title, medium, size, and approximate date of work, as well as the student’s name and emphasis. Applicants may supply a link to their personal website.

Portfolio contents and submission requirements are as follows.

- Ceramics, three-dimensional (3-D) design, and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.
- Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.
- Intermedia and video art: documentation of 5 to 10 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.
- Painting and drawing: eight images in the primary studio art discipline and two in a second discipline.
- Photography: 20 images in photography and two or three images in a second discipline.
- Printmaking: 10 to 20 images.
Sculpture: 20 images in sculpture, including details, and
two or three images in a second discipline.

Extreme care is taken in handling all portfolios, but the
School of Art and Art History cannot be responsible for
reimbursement in the event of loss or damage.

The Office of Graduate Admissions notifies all applicants by
mail of admission decisions.

Financial Support

Fellowships, teaching assistantships, research assistantships,
and tuition scholarships are awarded to graduate students on
the basis of artistic and/or scholarly record.

Iowa Arts Fellowships

The Graduate College awards Iowa Arts Fellowships to two
incoming or first-year studio art graduate students each
year. For more information, see Iowa Arts Fellowships on the
Graduate College website.

Teaching and Research
Assistantships

Assistantships are awarded to graduate students on the
basis of academic record, promise as scholars or artists, and
demonstrated ability to do the job. Quality of performance
in one’s graduate program at Iowa is generally the major
criterion for awarding teaching assistantships. The number of
hours of work required depends on the amount of the award.

Scholarships and Fellowships

The School of Art and Art History offers a variety of
scholarships and fellowships made possible by contributions
from alumni who wish to support promising artists and
scholars. These awards are made on the same basis as
teaching and research assistantships and a separate
application is not necessary.

Information and application materials for graduate
scholarships and fellowships are included in the admissions
package. They also are available from the School of Art and
Art History main office.

Renewal or reappointment for fellowships and assistantships
depends on adequate progress toward the degree (graduate
students must accumulate at least 18 s.h. of graduate credit
each calendar year and maintain a grade-point average
above the required minimum) and satisfactory performance of
assistantship duties.

Decisions on assistantships and financial aid generally are
made during the latter part of the spring semester for the
following academic year.

Career Advancement

Many graduates pursue careers that match their degree
specializations, for example, commercial or graphic designer,
conservation or museum curator or administrator, art
educator, public artist, or community art center coordinator or
instructor.
Art History, M.A.

Requirements

The Master of Arts program in art history requires a minimum of 30 s.h. of graduate credit. M.A. students are expected to acquire a broad knowledge of art history and to become familiar with major periods and monuments of world art. They also become proficient scholars, receiving training in research methods and theory necessary for subsequent scholarship at the Ph.D. level.

Students must maintain a g.p.a. of at least 3.50. Only one semester of academic probation is allowed. All M.A. candidates, including transfer students, must complete at least 24 s.h. in residence at the University of Iowa.

Students must earn a grade of B or higher in semester-long courses numbered 3000 or above in five of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. These courses must be taken after the B.A. is granted.

M.A. students must complete a qualifying paper that demonstrates their ability to conduct scholarly research and convey ideas in writing appropriately for the discipline and for the student's specialization field.

The College of Education offers an M.A. program in art education; see Teaching and Learning [p. 1166] in the Catalog.

Required Courses

M.A. students in art history must satisfactorily complete ARTH:4999 History and Methods during their first fall semester of enrollment and must register for an art history seminar in their first, second, third, and fourth semesters of enrollment.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Courses outside the curriculum of the School of Art and Art History's art history division do not carry art history credit. Cross-listed courses not taught by art history faculty members also do not carry art history credit.

Directed Studies

Directed Studies (ARTH:6040) is designed for graduate students who already have taken one or more advanced courses in a specific art history field. It provides students with an opportunity to work one-to-one with a professor to continue specific research interests developed in lecture courses or seminars, or on topics that eventually may be the subject of a thesis or dissertation. Directed Studies cannot be substituted for a lecture course already offered in the program. Students must discuss their decision to take Directed Studies with the professor involved and obtain the professor's approval. The Directed Studies topic must be within the professor's range of expertise.

Students meet with their Directed Studies professor once a week. The hours of work and written assignments required for Directed Studies must be equal to a comparable regularly scheduled course. Directed Studies is not available through Guided Correspondence Study.

Language Requirement

M.A. students must demonstrate proficiency in French or German by the end of their third semester. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

M.A. Committee

The M.A. committee consists of a student's M.A. advisor and two additional tenured or tenure-track faculty members in art history.

M.A. Qualifying Paper

Prior to graduation, each M.A. candidate must complete a qualifying paper on a topic that stems from a term paper written for an art history graduate seminar or a 3000-level course. The paper should be between 5,000 and 7,500 words in length (20 to 30 pages exclusive of bibliography and illustrations). A student chooses an M.A. advisor who specializes in the student's field of concentration. In cases where a student wants to focus on a topic that involves more than one field, the art history faculty strongly recommends that the student work closely with faculty members in both fields.

Final Examination

The final examination constitutes an oral defense of the qualifying paper. The final examination meeting with the M.A. committee normally takes place toward the end of a student's last semester of course work.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is December 15 for the art history program; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score as follows on the Test of English as a Foreign Language (TOEFL): for art history applicants, at least 100 (Internet-based). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application will not be reviewed if scores are lower than the requirements specify.

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.
All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Although exceptions may be made when other components of the application are strong, art history applicants should have a combined verbal and quantitative score of at least 300 and an analytical writing score of at least 5 on the Graduate Record Exam (GRE) General Test. Art history applicants must have a bachelor's degree, preferably in art history or a related field, and have an undergraduate g.p.a. of at least 3.25.

Non-native speakers of English should note that most students are financially funded through teaching, and the Iowa Board of Regents mandates that all non-native speakers of English pass an oral English test in order to teach.

**Application Procedures**

Prospective students may apply online through the Office of Admissions website. After submitting their application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents:
- transcripts from all colleges and universities an applicant has attended;
- contact information for three individuals (able to assess applicants’ potential for graduate study) designated to provide letters of recommendation; and
- a statement of purpose.

Art history applicants should supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member’s area of expertise, or how the art history program is especially suited to the applicant’s interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

**Financial Support**

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

**Iowa Arts Fellowships**

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

**Teaching and Research Assistantships**

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one’s graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

**Scholarships and Fellowships**

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information and application materials for graduate scholarships and fellowships are included in the admissions package. They also are available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (graduate students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year. Applications and all relevant materials should be on file by January 15.

**Career Advancement**

Many art and art history graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraisal, and restoration, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Art, M.F.A.

Requirements

The Master of Fine Arts program in art requires a minimum of 60 s.h. of graduate credit. The degree is offered with thesis and with emphases in the following studio art disciplines: ceramics, graphic design, three-dimensional (3-D) design, drawing, intermedia, jewelry and metals arts, painting, photography, printmaking, and sculpture. Students must earn at least 24 s.h. of credit for the degree at the University of Iowa, including approved credit earned for the M.A. in art.

M.F.A. students must hold an M.A. in art equivalent to that offered by the University of Iowa. Transfer credit is decided by faculty review. Following completion of the M.A., students may be invited into the M.F.A. program.

Required Courses

The 60 s.h. of credit required for the M.F.A. includes at least 24 s.h. in a primary studio art emphasis; at least 12 s.h. in a secondary studio art emphasis selected from those listed above; 3 s.h. in art history and theory of art (if not already taken); and 3 s.h. in theory, history, criticism, or philosophy (if not already taken). Students must earn 8 s.h. in their primary studio art emphasis and 4 s.h. in their secondary studio art emphasis after being granted an M.A. in art.

M.F.A. Committee Review

Students must undergo an M.F.A. committee review. They also must complete a written thesis and possibly a studio thesis. Students are reviewed by their committees at the end of the semester prior to the semester they intend to graduate.

Students are responsible for identifying a degree chair by the semester prior to the semester they intend to graduate. M.F.A. committee members are selected in consultation with the degree chair by October 1 for spring or summer graduation and March 1 for fall graduation. The committee is comprised of the degree committee chair and three members of the graduate faculty at the assistant professor rank or above (two graduate faculty members from a student’s major discipline, one graduate faculty member from a student’s second studio discipline, and an additional member). Adjunct faculty, lecturers, and visiting professors may serve on degree committees with approval of the degree committee chair and a Graduate College petition request (renewable every three years).

M.F.A. students sign up for review through the graduate program coordinator. They obtain a form to be signed by both the degree committee members and a faculty member in the second emphasis studio discipline. These forms must be returned to the office no later than the University’s official midterm day by 4:30 p.m.

M.F.A. Thesis

A thesis abstract is given to all degree committee members and is due by November 15 for May or August graduation and by April 15 for December graduation. The thesis chair is responsible for meeting with the student immediately thereafter to direct thesis content and to coordinate meeting with the full committee.

A copy of the thesis is due to all committee members before the M.F.A. exhibition to be read in its final form prior to thesis defense. The thesis must be as complete as possible including photocopies (may be black and white) of approved figures that will be included in the final thesis. The graduate program coordinator will provide a student with complete thesis/artist statement procedures, including the Graduate College calendar.

A thesis defense of the M.F.A. work must be scheduled with the M.F.A. candidate's committee during the final semester in residence. The M.F.A. exhibition is the final examination and where the degree committee signs the final examination report.

The complete thesis in final form must be deposited for its first check in the Graduate College approximately six weeks prior to the end of the semester in which the degree is to be conferred. Graduate College regulations covering the specific requirements of the written thesis are found in the Thesis Manual.

The thesis and the signed certificate of approval are submitted by the Graduate College deadline. The certificate of approval (a page of the written thesis) must be signed by all degree committee members. The student is responsible for obtaining committee members’ signatures on the certificate of approval. Any corrections to the thesis required by the graduate examiner or the degree committee should be completed prior to the final deposit.

M.F.A. students may earn 1 s.h. for writing a technical or substantial thesis by registering for ARTS:7000 M.F.A. Written Thesis, with approval of the thesis supervisor. Thesis credit earned in an M.A. program is not applicable toward M.F.A. requirements.

Admission

Deadline date for submission of materials to the Office of Graduate Admissions is February 1 for studio art programs; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under “Application Procedures”). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

School of Art and Art History Requirements

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score as follows on the Test of English as a Foreign Language (TOEFL): for studio art applicants, 81 (Internet-based). All applicants must have a minimum TOEFL iBT speaking score of 26 and a listening score of 25. An application will not be reviewed if scores are lower than the requirements specify.

Prospective graduate students must meet the School of Art and Art History’s admission requirements for the specific degree program they plan to enter. They must submit application materials to the University’s Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Non-native speakers of English should note that most students are financially funded through teaching, and the Iowa Board of
Regents mandates that all non-native speakers of English pass an oral English test in order to teach.

**Application Procedures**

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

**Required documents:**
- transcripts from all colleges and universities an applicant has attended;
- contact information for three individuals (able to assess applicants’ potential for graduate study) designated to provide letters of recommendation; and
- a statement of purpose.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

Studio art applicants' portfolio requirements are listed below. Images in the portfolio should be uploaded pdf files no larger than 72 dpi and 1240 by 1240 pixels. File size must not exceed 1 MB. Images must be numbered according to the order they are to be presented to the admissions committee, beginning with an inventory list that includes each image's name, title, medium, size, and approximate date of work, as well as the student's name and emphasis. Applicants may supply a link to their personal website.

**Portfolio contents and submission requirements are as follows.**

- Ceramics, three-dimensional (3-D) design, and jewelry and metal arts: eight images in the primary studio art discipline and two in a second discipline.
- Graphic design: documentation of 15 to 20 projects. Applicant should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.
- Intermedia and video art: documentation of 5 to 10 projects. Applicants should include a brief description of each work, illustrated with embedded still images and supplemented by links to online media. The precise number of images varies according to the nature of the work. Contact the School of Art and Art History with any questions.
- Painting and drawing: eight images in the primary studio art discipline and two in a second discipline.
- Photography: 20 images in photography and two or three images in a second discipline.
- Printmaking: 10 to 20 images.
- Sculpture: 20 images in sculpture, including details, and two or three images in a second discipline.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

**Iowa Arts Fellowships**

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

**Teaching and Research Assistantships**

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

**Scholarships and Fellowships**

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information and application materials for graduate scholarships and fellowships are included in the admissions package. They also are available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (graduate students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year.

**Career Advancement**

Many graduates pursue careers that match their degree specializations, for example, commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, or community art center coordinator or instructor.
Art History, Ph.D.

Requirements

The Doctor of Philosophy program in art history requires a minimum of 72 s.h. of graduate credit. Of the 72 s.h., at least 39 s.h. must be earned while registered in the UI Graduate College, after formal program admission. For details, see Graduate College Manual Section XII C. Students must maintain a g.p.a. of at least 3.50. They may count a maximum of 38 s.h. of work completed for the M.A. toward the Ph.D., excluding credit earned in language courses. Students are allowed only one semester of academic probation.

They are expected to acquire great breadth and depth of knowledge in the discipline of art history, achieve a high level of expertise in a specialized field, and demonstrate professional speaking and writing skills. The program provides them with scholarly challenges, research skills, and mentoring necessary for professional development and successful careers.

Ph.D. students major in one of the following 10 distribution fields: African (including Oceanic), architecture, Asian, ancient (3000 B.C.E. to 300 C.E.), medieval, Renaissance, Baroque, 18th- and 19th-century European, American (including pre-Columbian, Native American, and African American), and modern/contemporary. Students also minor in two fields. The first minor must be in an art history distribution field that is not contiguous with the major field; the second may be in any art history distribution field or in a relevant discipline outside of art history, subject to the faculty's approval.

Students must complete a publishable dissertation that makes an original contribution to the art history discipline and demonstrates evidence of superior understanding of critical issues in the student's chosen specialization field.

For more detailed information, consult the Art History Graduate Bulletin.

Required Courses

Students must satisfactorily complete ARTH:4999 History and Methods, even if they have completed a similar course at another institution (students who have completed the course for a master's degree or other previous work at Iowa are exempt). They must register for an art history seminar in their first three semesters of Ph.D. course work (or in their fifth, sixth, and seventh semesters of graduate study), before the Ph.D. readings course and comprehensive exam.

They also must satisfactorily complete ARTH:6020 Art History Colloquium every semester that they are enrolled for 9 s.h. or more or are serving as teaching or research assistants. Students who are not employed as teaching or research assistants or are registered for less than 9 s.h. are strongly encouraged to attend the colloquium.

Students may count up to 6 s.h. of credit earned for dissertation research toward the 72 s.h. required for the degree. Courses outside the curriculum of the School of Art and Art History's art history division do not carry art history credit.

Directed Studies

Normally, a maximum of 6 s.h. earned in ARTH:6040 Directed Studies may be applied toward the semester-hour requirement for the Ph.D., although doctoral students may petition the art history faculty for permission to apply up to 9 s.h.

Language Requirement

Students must demonstrate proficiency in French or German for admission to the Ph.D. program. They also must demonstrate proficiency in a second non-English language relevant to their research area by the end of their third semester of Ph.D. work or before their dissertation topic is approved. Proficiency is determined by a translation exam administered under the direction of the art history division. Credit earned in language courses does not count toward the degree.

Ph.D. Committee

The Ph.D. committee consists of the student's dissertation advisor, who is responsible for the major field; two members responsible for the two minor fields; and at least two additional members. Of these five, four must be tenured or tenure-track faculty members from the art history division. One must be from outside the division and must be a member of the Graduate College faculty. When appropriate, committees may include additional members.

Comprehensive Examination

Upon completion of course requirements, the Ph.D. candidate takes three written comprehensive examinations. The major exam consists of six questions and lasts six hours; the two minor exams each consist of three questions and last three hours. The exams are taken on any three days within one week (Monday through Friday).

The scope of the comprehensive exams is determined in consultation with the candidate's degree committee supervisor and the committee members responsible for the two minor fields.

Oral Comprehensive Examination

Within approximately two weeks of completing the three written exams, the candidate meets with the degree committee for the oral comprehensive examination, which concentrates on questions that arise from the written comprehensive exams.

Dissertation Proposal

As soon as possible after completing the comprehensive examinations, the candidate submits a dissertation proposal to the degree committee supervisor and subsequently to the degree committee. The committee meets as a group with the candidate to discuss the dissertation proposal and to offer comments and suggestions. (The proposal must be submitted to the committee at least two weeks before the approval meeting.) The proposal includes a 1-2 page abstract, a 10-15 page précis (including a review of the state of the field), and a bibliography.

After the proposal has been approved by the committee, the candidate circulates an abstract to the entire art history faculty. The candidate must give a public presentation on the dissertation topic no later than the end of the semester following the degree committee's approval. The presentation is scheduled with the head of art history.

Final Examination

Upon completing a dissertation, the candidate meets with the Ph.D. committee for an oral defense of the dissertation. The
oral defense constitutes the final examination for the Ph.D. The successful completion of this examination normally marks the last stage in the candidate's fulfillment of requirements for the degree.

**Admission**

Deadline date for submission of materials to the Office of Graduate Admissions is December 15 for the art history program; admission is for fall.

Application materials should be uploaded onto a student's admissions profile (see instructions below under "Application Procedures"). All applicants must meet the admission requirements of the Graduate College and the School of Art and Art History requirements.

**School of Art and Art History Requirements**

Applicants whose first or official language is not English and whose previous academic degrees were not earned at an English-language institution must score as follows on the Test of English as a Foreign Language (TOEFL): for art history applicants, at least 100 (Internet-based). All applicants must have a minimum TOEFL IBT speaking score of 26 and a listening score of 25. An application will not be reviewed if scores are lower than the requirements specify.

Prospective graduate students must meet the School of Art and Art History's admission requirements for the specific degree program they plan to enter. They must submit application materials to the University's Office of Graduate Admissions and to the specific program they wish to enter. Program-specific application requirements and deadline dates are listed below.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Although exceptions may be made when other components of the application are strong, art history applicants should have a combined verbal and quantitative score of at least 300 and an analytical writing score of at least 5 on the Graduate Record Exam (GRE) General Test. Art history applicants must have a bachelor's degree, preferably in art history or a related field, and have an undergraduate g.p.a. of at least 3.25.

Non-native speakers of English should note that most students are financially funded through teaching, and the Iowa Board of Regents mandates that all non-native speakers of English pass an oral English test in order to teach.

**Application Procedures**

Prospective students may apply online through the Office of Admissions website. After submitting an application, applicants will receive email instructions on how to access their admissions profile on MyUI. Applicants then upload the required supplemental documents through a secure portal.

Required documents:

- transcripts from all colleges and universities an applicant has attended;
- contact information for three individuals (able to assess applicants' potential for graduate study) designated to provide letters of recommendation; and
- a statement of purpose.

Art history applicants should supply a research paper (preferably from an art history course) or thesis that demonstrates potential to undertake graduate-level research in art history, and a personal statement of 1,000 words describing their intellectual development, academic interests, and career goals. The statement must name the University of Iowa faculty member under whose guidance the applicant hopes to work and indicate how that faculty member's area of expertise, or how the art history program is especially suited to the applicant's interests and goals.

Applicants should consult the Art History Graduate Bulletin on the School of Art and Art History website.

A student who completed an M.A. at the University of Iowa and who wishes to apply to the Ph.D. program in art history must make a formal application for change of status through the graduate program coordinator. Applications are evaluated in the context of the entire applicant pool.

The Office of Graduate Admissions notifies all applicants by mail of admission decisions.

**Financial Support**

Fellowships, teaching assistantships, research assistantships, and tuition scholarships are awarded to graduate students on the basis of artistic and/or scholarly record.

**Iowa Arts Fellowships**

The Graduate College awards Iowa Arts Fellowships to two incoming or first-year studio art graduate students each year. For more information, see Iowa Arts Fellowships on the Graduate College website.

**Teaching and Research Assistantships**

Assistantships are awarded to graduate students on the basis of academic record, promise as scholars or artists, and demonstrated ability to do the job. Quality of performance in one's graduate program at Iowa is generally the major criterion for awarding teaching assistantships. The number of hours of work required depends on the amount of the award.

**Scholarships and Fellowships**

The School of Art and Art History offers a variety of scholarships and fellowships made possible by contributions from alumni who wish to support promising artists and scholars. These awards are made on the same basis as teaching and research assistantships.

Information and application materials for graduate scholarships and fellowships are included in the admissions package. They also are available from the School of Art and Art History main office.

Renewal or reappointment for fellowships and assistantships depends on adequate progress toward the degree (graduate students must accumulate at least 18 s.h. of graduate credit each calendar year and maintain a grade-point average above the required minimum) and satisfactory performance of assistantship duties.

Decisions on assistantships and financial aid generally are made during the latter part of the spring semester for the following academic year. Applications and all relevant materials should be on file by January 15.
Career Advancement

Many graduates pursue careers that match their degree specializations, such as commercial or graphic designer, conservation or museum curator or administrator, art educator, public artist, gallery and museum administration, art appraisal, and restoration, or community art center coordinator or instructor.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Arts Entrepreneurship

Director, Division of Performing Arts
• Alan MacVey

Coordinator, Arts Entrepreneurship
• David McGraw

Undergraduate certificate: arts entrepreneurship
Website: https://dpa.uiowa.edu/academic-programs/arts-entrepreneurship

The Division of Performing Arts, the School of Art and Art History, and the Department of Cinematic Arts, in partnership with the John Pappajohn Entrepreneurial Center in the Tippie College of Business, offers the undergraduate Certificate in Arts Entrepreneurship. The program gives students the opportunity to pursue professional studies in the arts and entertainment fields, in the framework of a liberal arts education, and to develop the skills required for creating market-based opportunities in the arts.

Living Learning Community

First- and second-year students studying arts entrepreneurship may apply to live in the Arts Living Learning Community, a coed floor in a University of Iowa east campus residence hall. The community includes students from art and art history, dance, film, music, and theatre arts.

Programs

Undergraduate Program of Study Certificate

• Certificate in Arts Entrepreneurship [p. 122]
Arts Entrepreneurship, Certificate

The undergraduate Certificate in Arts Entrepreneurship requires a minimum of 29 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The program is designed for students of art, art history, cinema, dance, music, and theatre arts who wish to learn about the business of the arts and entertainment fields and who want to develop the entrepreneurial skills necessary for promoting their artistic work.

Certificate students are strongly encouraged, but not required, to also pursue a major in one of the arts disciplines.

Work for the certificate includes entrepreneurship-related courses in accounting, financial management, and marketing as well as courses focused on arts management and leadership practices in both commercial and nonprofit organizations. Students also must complete course work in art, art history, cinema, dance, music, or theatre arts and an internship in an arts organization.

Students may not use a course to satisfy more than one certificate requirement (e.g., a business course required for the certificate that is cross-listed in dance, music, or theatre arts may not also be counted toward the arts course requirement).

The Certificate in Arts Entrepreneurship requires the following course work.

| Arts-Based Courses (Art and Art History, Cinematic Arts, Dance, Music, or Theatre Arts) | 9 |
| Business and Entrepreneurship Courses | 20 |
| Internship | 0 |
| Total Hours | 29 |

Arts-Based Courses

Certificate students earn 9 s.h. in courses numbered 2000 or above taken in any of the arts units: the School of Art and Art History, the Department of Cinematic Arts (courses numbered CINE:1834 and above), the Department of Dance, the School of Music, or the Department of Theatre Arts. Many of these courses have prerequisites; consult an advisor about course sequencing.

Business and Entrepreneurship

Students must complete ENTR:1350 Foundations in Entrepreneurship, an entrepreneurship prerequisite that is offered both on campus and online. They also must complete several courses that focus on entrepreneurial and arts financing; entrepreneurship, innovation, and new ventures in the arts; entrepreneurial marketing; e-commerce for entrepreneurs; arts management; and arts leadership.

Students complete the following.

| ARTS:3400 or ENTR:3100 | Grant Writing in the Arts |
| DPA:3510 | Introduction to Arts Management |
| DPA:3520 | New Ventures in the Arts |

Internship

Students may complete the required internship (0 s.h.) during any semester in the program. The Pomerantz Career Center coordinates a wide variety of internships; see Career Center Programs [p. 1688] (University College) in the Catalog. Students also may choose other internship opportunities. The Iowa Arts Council and the Iowa Cultural Corridor Alliance maintain lists of recommended host organizations.
Asian and Slavic Languages and Literatures

Director, Division of World Languages, Literatures, and Cultures
- Russell Ganim

Chair, Department of Asian and Slavic Languages and Literatures
- Frederick M. Smith

General Education Language Coordinators
- Irina Kostina (Russian), Yumiko Nishi (Japanese), Helen Shen (Chinese), Frederick M. Smith (Hindi-Urdu and Sanskrit), Sang-Seok Yoon (Korean)

Undergraduate majors: Asian languages and literature (B.A.); Russian (B.A.)
Undergraduate minors: Asian languages; Korean studies; Russian; Russian and Eastern European studies
Graduate degree: M.A. in Asian civilizations
Faculty: https://clas.uiowa.edu/dwllc/asll/people
Website: https://clas.uiowa.edu/dwllc/asll

The Department of Asian and Slavic Languages and Literatures offers instruction in languages of Asia and eastern Europe as well as in the literatures, civilizations, and cultures of the regions. In addition to offering degree programs, the department welcomes undergraduate and graduate students from across the University to enroll in courses that complement their degree programs or satisfy their personal interests.

The department offers language study in Chinese, Czech, Hindi-Urdu, Japanese, Korean, Russian, and Sanskrit.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program (p. 464) with courses in Chinese, Hindi-Urdu, Japanese, Korean, Russian, or Sanskrit; see "Language for General Education" below. They also may get acquainted with Asia and Eastern Europe by taking any of the department's General Education Program courses on Asian humanities and on Russian and Slavic literature and culture, all taught in English. Entering students may take the department's First-Year Seminars, one on Asian culture and civilization, the other on Slavic culture and civilization.

The Department of Asian and Slavic Languages and Literatures is one of the academic units in the Division of World Languages, Literatures, and Cultures (p. 324).

Language for General Education

Undergraduate students in all majors may satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program (p. 464) with course sequences in Chinese, Hindi-Urdu, Japanese, Korean, Russian, and Sanskrit.

Students who have had experience with Japanese or Russian should take the appropriate University of Iowa World Languages Placement Test, which helps determine the level at which they should begin study of the language. Students with backgrounds in Chinese, Hindi-Urdu, Korean, or Sanskrit should contact the general education coordinator to determine the level at which they should begin language study at the University of Iowa.

Chinese

The following sequence fulfills the General Education Program's World Languages requirement and is appropriate for students without previous knowledge of Chinese.

Facilities

Language Media Center

The Language Media Center (LMC) is an essential resource unit for faculty and students in the Division of World Languages, Literatures, and Cultures. The LMC offers facilities and services for traditional language laboratory work as well as for foreign language video and computer-based activities. LMC facilities and services include a 50-computer information technology center (Windows and Macintosh), two digital audio laboratories, a multimedia development studio, a One Button Studio for video recording with Open Broadcaster Software (OBS), 13 media viewing stations, and six small-group rooms. The LMC also circulates a collection of over 3,000 foreign language, English as a Second Language, and American Sign Language digital media materials.

University of Iowa Libraries

Since 1960 University of Iowa Libraries has routinely acquired most American titles in Asian studies and selected overseas scholarly publications in English and other Western languages. The Main Library’s Asian collection includes approximately 80,000 volumes in Asian languages and about 140,000 Western-language volumes on Asian subjects. The University has been a member of the Library of Congress Foreign Currency Exchange Program for Indian books and periodicals since 1975. The library’s nonprint media collection includes a growing number of Asian feature films. A Chinese-Japanese-Korean computer terminal gives students and faculty access to the growing Research Libraries Information Network database in Asian languages.

Courses

Asian Languages and Literatures Courses

ASIA:1000 First-Year Seminar 1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ASIA:1040 Living Religions of the East 3 s.h.
Religious beliefs, practices in India, China, Japan. GE: Values and Culture. Same as RELS:1404.

ASIA:1060 Introduction to Buddhism 3 s.h.
Basic tenets, religious paradigms, historical phases important in the development of Buddhism; from the Buddha’s life to evolution of Mahayana Buddhism; readings from India, Tibet, China, Japan, Korea, Southeast Asia. GE: Values and Culture. Same as RELS:1506.

ASIA:1110 Gods, Buddhas, and Ghostly Officials: The Past and Present of Chinese Religions 3 s.h.
History of religious beliefs and practices in China; role in modern-day Chinese society; specific case studies that illuminate current situation of religion in China and impact on Chinese society; focus on the still widespread worship of gods and ancestors, the Confucian, Buddhist and Daoist traditions, recent upsurge of Christianity in China, and emergence of new religions (e.g., the Falun gong). Same as RELS:1510.

ASIA:1510 Ghost Stories and Tales of the Weird in Pre-Modern Chinese Literature 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. GE: Interpretation of Literature. Same as CL:1510.

ASIA:1510 Civilizations of Asia: China 3 s.h.

ASIA:1604 Civilizations of Asia: Japan 3-4 s.h.

ASIA:1606 Civilizations of Asia: South Asia 3-4 s.h.
Civilization of a vast region that includes India, Pakistan, Bangladesh, Nepal, and Sri Lanka. GE: Historical Perspectives; International and Global Issues. Same as HIST:1606.

ASIA:1704 The Languages of Asia in Cultural and Historical Perspective 3 s.h.
Chinese, Japanese, Korean, Sanskrit and Hindi; cultural and ethnic factors which have affected and are affected by each language; nontechnical introduction to the structure of the language, discussion of the script in which the language is written, and the history of the language, including a brief outline of the political and cultural history of each pertinent linguistic area and the ways linguistic history has been affected by these factors.

ASIA:1770 Asian Humanities: Middle East 3 s.h.
How the self has been constructed in literary texts from premodern and modern Islamic world.
ASIA:2222 Women in Premodern East Asian Literature 3 s.h.
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. Same as CL:2222, GWSS:2222.

ASIA:2231 Introduction to the Art of China 3 s.h.
Visual arts of China and their history; emphasis on understanding in context of Chinese civilization, history. Same as ARTH:2220.

ASIA:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Same as ANTH:2248, CL:2248, CLSA:2248, COMM:2248, HIST:2148, IS:2248, LING:2248, WLLC:2248.

ASIA:2444 Envision India 3 s.h.
Introduction to world view and civilization of the South Asian subcontinent, not as a timeless and isolated culture, but as a dynamic and interactive part of evolving global cultural exchanges.

ASIA:2450 India Beat: The Aesthetics and Politics of India Today 3 s.h.
Ways in which music forms a crucial part of Indian public sphere, reflecting and shaping culture, society, and economy; wide range of genres commonly performed and heard across India and South Asia today (i.e., film music, several folk forms, classical, semi-classical, Indipop, rock) and locating each of them in their respective historical, cultural, and socioeconomic contexts; exploration of themes and questions (i.e., emergence and impact of technologies of mass production, distribution of music in colonial and post-independence India). GE: Values and Culture.

ASIA:2500 Cold War Cultures in Korea 3 s.h.
Analysis of Cold War (1945-1989) not only as an era in geopolitics, but also as a historical period marked by specific cultural and artistic forms; focus on Korean peninsula, looking closely at literary and film cultures of both South Korea and North Korea; how global conflict between United States and Soviet centered societies affected politics, culture, and geography of Korea between 1945 and 1989, treating division of Korea as an exemplary case extending from origins of Cold War to the present.

ASIA:2887 Perspectives on Korea 3 s.h.
History of Korea from earliest times to present; changing meanings of Korea and Koreans; relevant issues of politics, society, and culture; events that shaped ancient Korean kingdoms, the Choson dynasty (1392-1910), Japanese occupation, and divided Korean peninsula; how present perspectives on Korea have influenced understandings of its past; placement of Korea within a regional and global context to examine Korea's relationship with the world. Same as HIST:2687.

ASIA:3055 Death, Dying, and Beyond in Asian Religions 3 s.h.
Survey of cultural and religious approaches to the dying process, post-death rituals, and conceptions about the afterlife in different religions in Asia. Same as RELS:3055.

ASIA:3120 Autobiography in Islamic Literary Cultures 3 s.h.
How the self has been constructed in Islamic literary cultures from classical Islamic period to modernity.

ASIA:3219 Chinese Art and Culture 3 s.h.
Archaeological discoveries, sculpture, painting, architecture, calligraphy, other arts of Greater China area in historical and cultural contexts of past 5,000 years. Prerequisites: ARTH:1060 or ARTH:2220. Same as ARTH:3220.

ASIA:3220 Chinese Painting I: Pagodas and Palaces 3 s.h.
Early Chinese painting from fourth century B.C.E. through 14th century C.E.; figural style, religious art, emergence of landscape, other nonreligious subjects, interconnectedness of painting and calligraphy as fine arts. Same as ARTH:3230.

ASIA:3270 Themes in Asian Art History 3 s.h.
Same as ARTH:3270.

ASIA:3350 Islam, Secularity, Modernity 3 s.h.
How religiosity and secularity are experienced in the Muslim world today.

ASIA:3561 Religion and Healing 3 s.h.

ASIA:3655 Zen Buddhism 3 s.h.
Same as RELS:3655.

ASIA:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as JPNS:3700, TRNS:3700, WLLC:3700.

ASIA:3775 East Meets West: The Western Reception of Eastern Religion 3 s.h.
Introduction of religious ideas and forms from India, China, and Japan into Europe and America to late 20th century, from Greeks to New Age. Same as RELS:3575.

ASIA:3890 Comparative Ritual 3 s.h.
Practice and theory; rituals from religions, including Hinduism, Buddhism, Christianity, Indian religions; theories of interpretation. Same as RELS:3572.

ASIA:4166 Topics in Asian History 3 s.h.
Same as HIST:4666.

ASIA:4301 Honors Tutorial arr.
ASIA:4506 Senior Honors Thesis arr.
ASIA:4507 Topics in Asian Studies arr.
Topics vary.

ASIA:4508 Asian Studies arr.

ASIA:4606 Topics in Asian Cinema 3 s.h.
Issues or topics in East or South Asian cinemas. Prerequisites: CINE:1601. Same as CINE:4606.
ASIA:4655 China Since 1927 3 s.h.
Communist revolution from 1920s to founding of People's Republic of China in 1949; Mao Zedong's radical policies; Cultural Revolution; Deng Xiaoping's economic reforms; China today. Same as HIST:4655.

ASIA:4657 Chinese History from 1600 to 1927 3 s.h.
Chinese history from the 17th to early 20th century, history of the Qing dynasty (1644-1911); Qing's role in shaping aspects of today's politics in China and the mentality of Chinese people; foundation of Manchu state in early 17th century, Ming-Qing transition in 1644, politics and society during the high Qing era, decline of the empire under foreign invasion and inner rebellions in the 19th century, collapse of the dynasty in 1911. Same as HIST:4650.

ASIA:6483 Second Language Classroom Learning 3 s.h.
Synthesis of empirical findings on children's and adults' learning of a second or foreign language; emphasis on theoretical underpinnings of approaches, methods, techniques in language teaching. Same as EDTL:6483, SLA:6506.

ASIA:6501 M.A. Thesis 1-3 s.h.
Offered fall semesters.

ASIA:6502 M.A. Thesis 1-3 s.h.
Offered spring semesters.

ASIA:6520 Seminar: South Asian Religion 3 s.h.
Topics in South Asian religions. Same as RELS:6520.

ASIA:6901 Second Language Acquisition Research and Theory 3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as FREN:6901, JPN:6901, SLA:6901, SPAN:6901.

ASIA:6903 Second Language Acquisition Research and Theory II 3 s.h.
Continuation of SLA:6901. Prerequisites: SLA:6901. Same as SLA:6902, SPAN:6902.

ASIA:7606 Readings in Chinese History 3 s.h.
Same as HIST:7606.

Chinese Courses

High school students and University of Iowa students who would like to learn Chinese but do not plan to use Chinese to satisfy the World Languages requirement of the College of Liberal Arts and Sciences General Education Program may wish to take the beginning Chinese courses CHIN:1115 and CHIN:1116 in sequence and may follow them with the second-year courses CHIN:2101 and CHIN:2102. See the course descriptions below.

CHIN:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

CHIN:1070 Asian Art and Culture 3 s.h.
Art from India, China, and Japan in many media and forms, in their cultural and historical contexts; cultural distinctions of these Asian civilizations as seen through the visual arts; chronology used to highlight historical processes and provide perspectives on continuity and change. GE: Historical Perspectives; Literary, Visual, and Performing Arts. Same as ARTH:1070.

CHIN:1101 Conversational Chinese I 1 s.h.
Introduction to modern Chinese, with focus on communication "survival" skills for discussing oneself, family, daily activities, interests, personal preferences, food, shopping, travel, lodging; situational activities and performance.

CHIN:1102 Conversational Chinese II 1 s.h.
Continuation of CHIN:1101, with focus on speaking and listening.

CHIN:1111 First-Year Chinese: First Semester 5 s.h.
Sound system of Mandarin Chinese, basic sentence patterns; aural understanding, speaking, reading, writing. Offered fall semesters. Requirements: undergraduate standing. GE: World Languages First Level Proficiency.

CHIN:1112 First-Year Chinese: Second Semester 5 s.h.

CHIN:1115 Beginning Chinese I 3 s.h.
Beginning Chinese; offered through UI Confucius Institute; first of a four-course sequence.

CHIN:1116 Beginning Chinese II 3 s.h.
Continuation of CHIN:1115; offered through UI Confucius Institute; second of a four-course sequence. Requirements: CHIN:1115 or equivalent as demonstrated in written and oral exams.

CHIN:1121 Beginning Chinese III 3 s.h.
Continuation of CHIN:1116; provides instruction in all four language skills of listening, speaking, reading, and writing; students further develop their understanding of Chinese culture through language learning; offered through UI Confucius Institute; third of a four course sequence. Prerequisites: CHIN:1116.

CHIN:1504 Asian Humanities: China 3 s.h.
Literary and philosophical texts of China in English translation. GE: Values and Culture.

CHIN:1702 Chinese Popular Culture 3 s.h.
Introduction to popular culture from the People's Republic of China, Taiwan, Hong Kong, and the Chinese diaspora; shifting relationships among cultural production, media and technology, and political thought; influences of Japan, Korea, and the West; materials drawn from film, television shows, music, new media, popular literature, comics, magazines, advertising, fashion, art, and material culture; no previous knowledge of Chinese is required. GE: Literary, Visual, and Performing Arts.

CHIN:1800 Chinese Character Writing and Calligraphy 2 s.h.

CHIN:2101 Second-Year Chinese: First Semester 5 s.h.

CHIN:2102 Second-Year Chinese: Second Semester 5 s.h.
CHIN:2103 Accelerated Second-Year Chinese: First Semester  3 s.h.

CHIN:2104 Accelerated Second-Year Chinese: Second Semester  3 s.h.
Intermediate Chinese. Prerequisites: grade of C or higher in CHIN:2103. GE: World Languages Fourth Level Proficiency.

CHIN:3101 Third-Year Chinese: First Semester  3 s.h.
Reading of advanced modern Chinese texts; speaking, writing. Offered fall semesters. Prerequisites: CHIN:2102 or CHIN:2104.

CHIN:3102 Third Year Chinese: Second Semester  3 s.h.
Continuation of CHIN:3101. Offered spring semesters. Prerequisites: CHIN:3101.

CHIN:3103 Business Chinese I  3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; first of a two-course sequence. Prerequisites: CHIN:2102 or CHIN:2104.

CHIN:3104 Business Chinese II  3 s.h.
Skill development in communicating with Chinese counterparts on a number of domains in business translations; second of a two-course sequence. Prerequisites: CHIN:3102 or CHIN:3103.

CHIN:3201 Workshop in Chinese Literary Translation  3 s.h.
Translation from Chinese to English with emphasis on literary translation; issues in theory and practice of translation; special features of Chinese as a source language for translation. Prerequisites: CHIN:3102. Same as TRNS:3202.

CHIN:3202 Chinese Literature: Prose  3 s.h.
Readings in Chinese prose, primarily fiction, from third century B.C. to 1900 A.D., in English translation.

CHIN:3302 Introduction to Chinese Linguistics  3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as LING:3302, SLA:3302.

CHIN:3341 Chinese Literature: Poetry  3 s.h.
Readings in classical and modern Chinese poetry in English translation. Recommended: sophomore or higher standing. Same as CL:3341.

CHIN:4101 Classical Chinese: First Semester  3 s.h.
Introduction to basic knowledge of classical Chinese; appreciation of traditional Chinese culture through reading idiomatic phrases and ancient fables with vivid and interesting plots. Prerequisites: CHIN:2102 or CHIN:2104.

CHIN:4102 Classical Chinese: Second Semester  3 s.h.
Continuation of CHIN:4101. Prerequisites: CHIN:4101.

CHIN:4103 Fourth-Year Chinese: First Semester  3 s.h.
Proficiency through oral and written discussions of modern texts. Offered fall semesters. Prerequisites: CHIN:3102.

CHIN:4104 Fourth-Year Chinese: Second Semester  3 s.h.
Offered spring semesters. Prerequisites: CHIN:4103.

CHIN:4150 Advanced Readings in Chinese  3 s.h.
Essays in aspects of contemporary Chinese society to further understanding of Chinese society and to expand reading and writing skills. Taught in Chinese. Prerequisites: CHIN:4103.

CHIN:4203 Modern Chinese Writers  3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Recommendations: sophomore or higher standing. Same as CL:4203.

CHIN:4204 The Literature of Daoism  3 s.h.
Texts of philosophical, religious Daoism; Daoism in traditional Chinese political theory, literature, the arts, alchemy and medicine, sexual custom, combat. Taught in English. Recommendations: sophomore or higher standing. Same as RELS:4404.

CHIN:4206 Transnational Chinese Cinemas  3 s.h.
Films from Mainland China, Hong Kong, Taiwan, and Chinese diasporic communities, silent era to present; relationship of film to nation-state, cultural interflows, media technologies, ideologies. English subtitles. Recommendations: sophomore or higher standing.

CHIN:4300 Independent Study  arr.
Research, reading, writing, and translation projects for undergraduate students. Prerequisites: CHIN:3102.

CHIN:5024 Teaching Chinese as a Second Language VII: Pedagogical Grammar  3 s.h.
Introduction to Chinese grammar system from perspective of teaching Chinese as a foreign language; students teach a unit of Chinese grammar to demonstrate understanding of assigned grammar unit and pedagogical approach involved. Prerequisites: CHIN:4103.

CHIN:5101 Fifth-Year Chinese: First Semester  3 s.h.
Improvement of language skills in modern Chinese: listening, speaking, reading, writing; skill development in reading authentic texts related to topics of student interest. Prerequisites: CHIN:4104.

CHIN:5102 Fifth-Year Chinese: Second Semester  3 s.h.
Continuation of CHIN:5101. Prerequisites: CHIN:5101.

CHIN:5103 Readings in Chinese Society  3 s.h.
Academic texts relating to aspects of Chinese society to develop students' academic reading and writing skills. Requirements: CHIN:5102 for nonnative Chinese student.

CHIN:5105 Literary Chinese I  3 s.h.
Readings from literary and historical texts of Han and Wei-Jin periods. Prerequisites: CHIN:4102.

CHIN:5106 Individual Chinese for Advanced Students  arr.
Research, translation projects. Prerequisites: CHIN:4104.

CHIN:5107 Advanced Classical Chinese  3 s.h.
Readings from classical texts of early China period. Prerequisites: CHIN:4102.

CHIN:5201 Seminar in Chinese Fiction  3 s.h.
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Requirements: ability to read original texts. Same as CL:5201.

CHIN:5202 Seminar in Chinese Literature  arr.
Requirements: two years of modern Chinese and one year of classical Chinese. Same as CL:5202.

CHIN:6401 Teaching Chinese as a Second Language VI: Research and Pedagogical Projects  3 s.h.
Participation in Chinese second language research and material development projects under instructor's guidance.

CHIN:7401 Teaching Chinese as a Second Language I: Theories and Research  3 s.h.
Research, theory on acquisition of Chinese as a non-native language. Same as SLA:7406.

CHIN:7403 Teaching Chinese as a Second Language III: Instruction and Practicum  3 s.h.
Classroom instructional theories, methodologies, and techniques of teaching Chinese as a second language; teaching practicum.
CHIN:7404 Teaching Chinese as a Second Language IV: Testing and Assessment 3 s.h.
Overview of goals, concepts, principles, research, and issues in assessment and testing of Chinese as a second language. Same as SLA:7404.

CHIN:7405 Teaching Chinese as a Second Language V: Seminar in Research and Design 3 s.h.
Qualitative and quantitative research design theories and techniques. Prerequisites: CHIN:7401 and PSQF:4143. Same as SLA:7405.

Japanese Courses

JPNS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

JPNS:1001 First-Year Japanese: First Semester 5 s.h.

JPNS:1002 First-Year Japanese: Second Semester 5 s.h.

JPNS:1020 Intensive Kanji: Elementary 2 s.h.
Students learn elementary-level Kanji to strengthen their existing knowledge; recommended for students who have studied Japanese for at least one semester at the college level and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N4 or N5 level.

JPNS:1030 Japanese for Travelers 2 s.h.
Basic, practical language and social skills that travelers or visitors need in everyday situations, such as making self introductions, ordering food, asking for directions, and traveling by train; Japanese culture, manners and customs, major cities and tourist attractions; for students with no previous experience of Japanese who plan to travel in Japan or would like a practical introduction to the language and culture.

JPNS:1115 Japanese Religions 3 s.h.
Religions of Japan from ancient times to the present day; elite and popular Japanese interpretations of Chinese Buddhist and Daoist traditions; the parallel development of an indigenous kami tradition; contemporary new religious movements; focus on the codification of a variety of religious (and sometimes quasi-religious) paths, including the way of tea, the way of the brush, and the way of the samurai. Same as RELS:1610.

JPNS:1200 Special Topics in Japanese 3 s.h.
Topics vary.

JPNS:1506 Asian Humanities: Japan 3 s.h.
Introduction to premodern, modern, and contemporary Japanese culture; special attention given to the relationship of classical texts to contemporary novels, short stories, manga, anime, music, and film; students consider relationships of textual and visual cultures, high art and low art, moments of crisis and the everyday, the sacred and the profane, men and women. Taught in English. GE: Values and Culture.

JPNS:2001 Second-Year Japanese: First Semester 5 s.h.

JPNS:2020 Building Kanji Skills 1 s.h.
Designed as a supplement for students currently enrolled in or who have already taken second-year Japanese and who have no other background in languages that use Chinese characters; students develop strategies and skills to learn Kanji more effectively; recommended for students who would like additional instruction and practice with Kanji.

JPNS:2175 Japanese Society and Culture 3 s.h.
Cultural anthropology of Japan, including historical tradition, religious ethos, social organization, human ecology, educational and political institutions; emphasis on how these aspects relate to and influence one another. GE: Values and Culture. Same as ANTH:2175.

JPNS:2250 Introduction to the Art of Japan 3 s.h.
Chronological survey of Japan's visual arts in their historical and cultural contexts from Neolithic age to present; extensive use of slides, films, other visual materials. Same as ARTH:2250.

JPNS:3001 Third-Year Japanese I 3 s.h.
Modern Japanese; focus on speaking, listening, reading, writing; materials related to everyday life and civilization in Japan. Offered fall semesters. Prerequisites: JPNS:2002.

JPNS:3002 Third-Year Japanese II 3 s.h.
Continuation of JPNS:3001. Offered spring semesters. Prerequisites: JPNS:3001.

JPNS:3020 Intensive Kanji: Intermediate I 2 s.h.
Students learn and strengthen their existing knowledge of Kanji; particularly recommended for third-year Japanese students and those who plan to take the Japanese Language Proficiency Test (JLPT) at the N3 level.

JPNS:3021 Intensive Kanji: Intermediate II 2 s.h.
Students learn upper- to intermediate-level Kanji to strengthen their existing knowledge; particularly recommended for third- or fourth-year Japanese students, and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N2 level.

JPNS:3022 Intensive Kanji: Advanced 2 s.h.
Students learn advanced-level Kanji to strengthen their existing knowledge; particularly recommended for fourth-year Japanese students, and/or those who plan to take the Japanese Language Proficiency Test (JLPT) at the N1 level.

JPNS:3107 Classical Japanese: First Semester 3 s.h.
Introduction to vocabulary, grammar, and calligraphic scripts of classical Japanese through readings of primary literary and historic sources; instruction in English, readings in classical and modern Japanese. Prerequisites: JPNS:3002.

JPNS:3128 Introduction to Japanese Linguistics 3 s.h.
Basic structural features of the classical language; topics include typological and historical background, writing system, phonetics, phonology, syntax, semantics, pragmatics, and language variation; recommended for students who wish to have a deeper understanding of the Japanese language as well as non-Indo-European languages. Taught in English.
JPNS:3135 Postmodern Aesthetics and Japanese Culture 3 s.h.
Japanese postmodern trends (from Zen Buddhism to the habits of contemporary otaku consumers); examination of aesthetics including works of literature, film, visual art, and electronic media.

JPNS:3201 Workshop in Japanese Literary Translation 3 s.h.
Workshop in translation from Japanese to English, with emphasis on literary translation; issues in theory and practice of translation; special features of Japanese as a source language for translation. Corequisites: JPNS:3001, if not taken as a prerequisite. Same as TRNS:3201.

JPNS:3202 Traditional Japanese Literature in Translation 3 s.h.
Early Japanese literature from 7th to 19th centuries including prose, poetry, drama, and Buddhist texts; students bring traditional Japanese culture to life through practice with experiences ranging from calligraphy, letter folding, and layering kimono patterns to courtly contests and bookbinding. Taught in English. Same as CL:3204.

JPNS:3203 Modern Japanese Fiction in Translation 3 s.h.
Introduction to modern Japanese literature from 1868 to present; focus on representative short stories, novels, and manga; the twin advent of modern Japanese language and the modern novel; rise of autobiographical "I-novel"; Japanese bundan (literary establishment), high modernity, and ero guro nansensu (erotic grotesque nonsense); stories of the war and its endless postwar; the neo-traditional and the avant-garde; literature of economic collapse and internationalization. Taught in English. Same as CL:3203.

JPNS:3204 Topics in Japanese Literature in Translation 3 s.h.
Topics vary. Taught in English.

JPNS:3205 Major Authors in Modern Japanese Literature 3 s.h.
Modern Japanese literary works in English translation; topics vary. Taught in English.

JPNS:3206 Warriors' Dreams 3 s.h.
Images of the warrior in traditional Japanese literature from ancient legendary heroes, medieval warrior monks, and ninja to the unifying generals, masterless samurai, and women revolutionaries of early modern Japan; students discover what is truth and what is fiction when encountering the warrior in popular culture today. Taught in English. Same as CL:3206.

JPNS:3207 Japan Illuminated: Japanese Literature and Visual Culture 3 s.h.
How text and image have been used together to tell stories across 1,000 years of Japanese culture; students read and view illustrated handscrolls, calligraphy, maps, mandalas, early board games, woodblock prints, modern print media, manga and anime; emphasis on visual analysis and material culture. Taught in English.

JPNS:3208 Japanese Film 3 s.h.
History of Japanese cinema with particular attention paid to Japanese conventions and innovations that differ from classical Hollywood or European paradigms (benshi silent-film narrators, jidaigeki period films, wartime propaganda, postwar melodrama, avant-garde Japanese New Wave, rise of Japanese documentary, anime); screenings may include works by world famous directors (Mizoguchi, Ozu, Kurosawa) and recent masters (Nishikawa Miwa, Koreeda Hirokazu, Mitani Koki). Taught in English.

JPNS:3210 Japanese Theater 3 s.h.
Major forms of Japanese theater and performance including No and kyogen, the bunraku puppet theater, kabuki, shingeki "Western" theater, benshi film narration, butoh modern dance, counterculture and street theater of the 1960s, Japanese musicals; focus on textual analysis and performance practices; weekly screenings of theatrical performances and student-led staged readings of contemporary performances. Taught in English.

JPNS:3260 Japanese Painting 3 s.h.
Japanese painting in its historical, cultural contexts; focus on developments of successive eras—religious art; narrative, other literary connections; Zen; decorative traditions; popular arts; Japan and the modern world. Same as ARTH:3260.

JPNS:3401 Language in Japanese Society 3 s.h.
Aspects of the Japanese language that reflect culture, social structures of Japan; communication styles and strategies, cross-cultural communication, language in media, metaphors.

JPNS:3402 Japan: Culture and Communication 3 s.h.
How Japanese-speaking people communicate; what factors determine the way they speak; how they communicate nonverbally; how people convey messages and emotions in various social settings. Taught in English.

JPNS:3500 Japanese for Professional Purposes I 3 s.h.
Introduction to essential linguistic skills and practical knowledge needed to effectively communicate in Japanese in various professional contexts and in socially appropriate manners; recommended for anyone interested in working in Japan or using Japanese at work. Prerequisites: JPNS:3001 with a minimum grade of C.

JPNS:3501 Japanese for Professional Purposes II 3 s.h.
Continuation of JPNS:3500; advanced linguistic skills needed to become an effective communicator in various professional settings; develop a deeper understanding of Japanese business culture; improve intercultural communication and problem-solving skills; recommended for students interested in working in Japan or using Japanese at work. Prerequisites: JPNS:3500.

JPNS:3601 Contemporary Japanese Culture 3 s.h.
Forms of Japanese popular culture including fiction, manga, animation, film, television drama, video games, music, sports, and food from 17th to 21st centuries; aspects of Japanese society relating to urban culture and play, school and work, disaster, good and evil, beauty and ugliness, life and death. Taught in English.

JPNS:3660 Japanese Religion and Thought 3 s.h.
Same as RELS:3660.

JPNS:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema’s relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as ASIA:3700, TRNS:3700, WLLC:3700.

JPNS:4001 Fourth-Year Japanese I 3 s.h.
Modern Japanese; focus on reading, writing, speaking, listening. Offered fall semesters. Prerequisites: JPNS:3002.

JPNS:4002 Fourth-Year Japanese II 3 s.h.
Continuation of JPNS:4001. Offered spring semesters. Prerequisites: JPNS:4001.
JPNS:4201 The Tale of Genji 3 s.h.
Close reading of Murasaki Shikibu's classic Tale of Genji; students come to know the characters by exploring the social and cultural context of the tale and discover the art, literature, and film that the Tale of Genji has inspired while tracking its reception through the history of Japan and across the globe. Taught in English. Same as CL:4201.

JPNS:4501 Fifth-Year Japanese I 3 s.h.
Continuation of JPNS:4002; modern Japanese. Prerequisites: JPNS:4002.

JPNS:4502 Fifth Year Japanese II 3 s.h.
Continuation of JPNS:4501. Prerequisites: JPNS:4501.

JPNS:4610 Japan - Age of the Samurai 3 s.h.
Society, culture, and politics of feudal Japan; social class, gender, norms, and political and economic developments explored through cinema and literature. Same as HIST:4610.

JPNS:4615 Modern Japan 3 s.h.
Political, social, and cultural developments of Japanese feudalism; feature films, fiction. Same as HIST:4615.

JPNS:4620 Japan-U.S. Relations 3 s.h.
Political, social, economic, and cultural developments in Japan mid-19th to late-20th century. Same as HIST:4620.

JPNS:5301 Japanese Linguistics 3 s.h.
Japanese language as linguistic system; basic linguistic terminology; sound systems, grammar, meanings, usages.

JPNS:5401 Japanese as a Foreign Language: Practical Applications 3 s.h.
Instructional methodology, curriculum, and material design; hands-on experience. Same as SLA:5441.

JPNS:5901 Practicum in Teaching Japanese as a Foreign Language 1-3 s.h.
Teaching apprenticeship guided and supervised by a faculty member skilled in University curriculum and instruction.

JPNS:5902 Individual Japanese for Advanced Students arr.

JPNS:6403 Special Topics in Japanese Linguistics 3 s.h.
Topics in applied linguistics and language pedagogy related to Japanese language. Same as SLA:6403.

JPNS:6901 Second Language Acquisition Research and Theory 3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as ASIA:6901, FREN:6901, SLA:6901, SPAN:6901.

JPNS:7101 Readings in Modern Japanese 3 s.h.
Readings in modern Japanese.

JPNS:7201 Seminar in Japanese Literature 3 s.h.
Requirements: three years of Japanese.

JPNS:7630 Readings: Japanese History arr.
Same as HIST:7630.

Korean Courses

KORE:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

KORE:1051 Korean for Travel and Business 2 s.h.
Introduction to basic communication skills and Korean culture which are essential for communicating with Korean people while traveling or doing business; basic Korean expressions, cultural etiquette, and norms; speaking, comprehension, reading, and writing in basic Korean; Korean business culture; classroom activities and homework assignments based on authentic material.

KORE:1052 Korean for Travel and Business: Second Semester 2 s.h.
Continuation of KORE:1051; introduction to basic communication skills and Korean culture which are essential for communicating with Korean people while traveling or doing business; basic Korean expressions, cultural etiquette, and norms; speaking, comprehension, reading, and writing in basic Korean; Korean business culture; classroom activities and homework assignments based on authentic material. Requirements: some familiarity with Korean is needed, but completion of specific course work in Korean is not required.

KORE:1101 First-Year Korean: First Semester 4 s.h.
Modern Korean; speaking, listening, reading, writing. Offered fall semesters. GE: World Languages First Level Proficiency.

KORE:1102 First-Year Korean: Second Semester 4 s.h.
Continuation of KORE:1101. Offered spring semesters. Prerequisites: KORE:1101. GE: World Languages Second Level Proficiency.

KORE:1135 Korean Language in Culture and Society 3 s.h.
Introduction to various sociolinguistic phenomena in Korean society; general linguistic characteristics of Korean; Confucianism and honorifics; language changes in North and South Korea; gender differences and generation differences; Korean contacts with English, Chinese, Japanese, others. Taught in English.

KORE:1500 Asian Humanities: Korea 3 s.h.
Introduction to most representative cultural heritages in Korean humanities tradition throughout 4,500 years of Korean history; English translations of famous works in Korean traditional literature, performing and visual arts, philosophy; understanding the essence of traditional Korean culture through exposure to various aspects of Korean humanities; how Korean traditional culture is reflected in contemporary pop culture; readings and discussions taught in English, video materials with English subtitles.

KORE:2101 Second-Year Korean: First Semester 4 s.h.
Continuation of KORE:1102; conversation and readings in intermediate Korean language; Korean culture. Prerequisites: KORE:1102. GE: World Languages Second Level Proficiency.

KORE:2102 Second-Year Korean: Second Semester 4 s.h.
Continuation of KORE:2101. Prerequisites: KORE:2101. GE: World Languages Fourth Level Proficiency.

KORE:3050 Film Culture in Korea 3 s.h.
Survey of films produced during the last 100 years in South Korea; students examine representative films, directors, and genres from the inception of the industry in the colonial era through recent years in order to better understand the resurgence of Korean films in recent years and the critical acclaim that they received domestically and globally; students gain insights into the larger historical, social, and cultural contexts that informed and shaped production and consumption of films through screening and in-depth discussions of the films.
KORE:3060 Controversies in Contemporary Korea 3 s.h.
Examination of four contemporary controversies in Korea (South and North) in order to provide a broad understanding of the very recent history of the birthplace of the Korean Wave and the Miracle on the Han River—comfort women, Japanese history textbook controversy, Dokdo, and collaboration; globalization, economic growth, and the Korean Wave (Hallyu); North Korea and the Axis of Evil; and education fever in South Korea.

KORE:3101 Third-Year Korean: First Semester 3 s.h.
Continuation of KORE:2102; advanced intermediate Korean—conversation and grammar skills beyond basic intermediate level; vocabulary expansion with increasingly complex, abstract concepts; how to advance one’s opinion and discuss thoughts, ideas. Prerequisites: KORE:2102.

KORE:3102 Third-Year Korean: Second Semester 3 s.h.
Continuation of KORE:3101; conversation and grammar skills beyond basic intermediate level; writing skills for formal occasions; advanced discussion skills—how to advance one’s opinion and share thoughts and ideas; traditional and modern Korean culture. Prerequisites: KORE:3101.

KORE:4000 Fourth Year Korean: First Semester 3 s.h.
Continuation of KORE:3102; development of intermediate high to advanced-level Korean; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, listening to authentic Korean materials; Korean society and culture; content-based learning methodology. Prerequisites: KORE:3102.

KORE:4001 Fourth Year Korean: Second Semester 3 s.h.
Continuation of KORE:4000; development of intermediate high to advanced-level Korean speaking ability; enlarging vocabulary, exploring Korean sentence structures, reading various types of texts, and listening to authentic Korean materials; Korean society and culture; materials provided to prepare for Korean standardized tests; content-based learning methodology. Prerequisites: KORE:3102.

KORE:4050 Two Koreas: Political Economy of Regional Rivalry 3 s.h.
Introduction to the Korean peninsula; focus on nature of North and South Korean regional rivalry and its global impacts; theoretical and historical explanations; various security issues including North Korean nuclear threat, military alliances, and reunification prospects; economic issues including differential growth paths, South Korea’s rapid growth, and recent economic woes in both Koreas. Same as POLI:4050.

KORE:4151 Selected Readings in Korean I 3 s.h.
Korean literary works and various readings related to Korean history, culture, and society; expansion of Korean literacy and cultural knowledge through readings; advanced Korean texts.

KORE:4152 Selected Readings in Korean II 3 s.h.
Reading various genres of more advanced texts than those covered in KORE:4150; short stories, poetry, and essays familiar with educated Korean people; texts related to history and current events (e.g., articles from newspapers or magazines); texts written in hangeul (Korean characters) and hanja (Chinese characters); Korean literature, history, and culture. Prerequisites: KORE:3102.

KORE:5102 Individual Korean for Advanced Students arr.
Korea’s modern/traditional culture, history, and current social issues; reading, translating authentic articles. Prerequisites: KORE:3102.

---

**Russian Courses**

SLAV:1000 First-Year Seminar 1 s.h.
Cultural, literary, architectural, and historical beauty of Prague, the capital of the Czech Republic. Requirements: first- or second-semester standing.

SLAV:1030 Conversational Russian I 3 s.h.
Basic elements of Russian for travel and business; for adult learners.

SLAV:1031 Conversational Russian II 3 s.h.
Continuation of SLAV:1030; basic elements of Russian for travel or business; for adult learners.

SLAV:1050 Russian for Travelers and Business People 2 s.h.
How Russian culture continues to shape current geopolitical and sporting events (e.g., World Cup Soccer 2018); emphasis on learning basic survival Russian phrases, cultural etiquette and norms. Taught in English.

SLAV:1082 Youth Subcultures After Socialism 3 s.h.
Examination of youth subculture (i.e., distinct style and identity, beliefs, value system, fashion and favorite music) on the territory of post-communist Europe and its relations with the mainstream culture; how young people of Russia express their individuality after years of dullness and monotony. GE: Values and Culture.

SLAV:1111 First-Year Russian I 5 s.h.
Basic language skills of listening, speaking, reading, and writing Russian; fundamentals of Russian grammar. GE: World Languages First Level Proficiency.

SLAV:1112 First-Year Russian II 5 s.h.

SLAV:1131 Introduction to Russian Culture 3 s.h.
Development of cultural history in Russia from middle ages to present; painting, music architecture, literature viewed against their political, historical, and social settings. Taught in English. GE: Values and Culture.

SLAV:1132 Russia Today 3 s.h.
Contemporary Russia, with focus on prevailing social, political, economic, ethnic, environmental conditions; attention to historical evolution of problems, current factors; what these factors might portend for the future. Taught in English. GE: International and Global Issues; Values and Culture.

SLAV:1450 Diversities of Eastern Europe: Culture, Art, and Politics 3 s.h.
Exploration of major cultural and social changes in Central Europe since the 1950s; very similar, yet different experiences of four nations with a communist takeover, including crushed attempts to reform and humanize socialism and their final reach for freedom and democracy in 1989; current cultural and social situations of each country as they took advantage of newly available opportunities.

SLAV:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture 3 s.h.
Cultural specificity of Ukraine as a large multicultural European country; vital background information for analysis of present-day political events; strategic location between East and West; centuries-long history and culture; all readings in English, no knowledge of Russian or Ukrainian required. Same as CL:1500.
SLAV:1531 Slavic Folklore 3 s.h.
Introduction to culture, history, and art of eastern European peoples; pagan, dualistic, and animistic beliefs and their coexistence with Christian faith in eastern Europe. GE: Historical Perspectives; Values and Culture.

SLAV:1532 Religion and Culture of Slavs 3 s.h.
Early and medieval Slavic history, with focus on Russian and Czech art, literature, and religion from 10th through 17th century. GE: Historical Perspectives; Values and Culture.

SLAV:1600 The Cult of Power in Russian History 3 s.h.
Characteristic patterns in cultures associated with some of history's well known authoritarian figures: Ghengis Khan, Ivan the Terrible, Peter the Great, Lenin, Stalin, and, most recently, Putin; content divided chronologically into six sections—Russia's Tatar-Mongol sociocultural heritage, Ivan the Terrible and imperial expansion and special police, Peter the Great and forced Westernization, Lenin and the "dictatorship of the proletariat", Stalin's control of the arts and cinema, and state power and the age of information technology; readings in English.

SLAV:2100 Secrets of Russian Mentality 3 s.h.
Deeper insight of Russian mentality through philosophical, historical, cultural, and practical developments that have shaped Russian behavior and thought.

SLAV:2111 Second-Year Russian I 4 s.h.

SLAV:2112 Second-Year Russian II 4 s.h.

SLAV:2122 Cult Films of the Last Soviet Generation 3 s.h.
Political and cultural circumstance of one of the world's most volatile and powerful regions; how life within what was considered an "Evil Empire" from 1960s to 1980s was far from primitive; how creative intelligentsia continued producing and enjoying excellent motion pictures despite multiple bans and regulations; implications for contemporary life; wider understanding of Russian aesthetics.

SLAV:2131 Women in Russian Society 3 s.h.
Historical developments that have shaped women's role in society; readings in cultural history, political science, autobiographical and fictional literature, contemporary film. Taught in English.

SLAV:2232 Romani (Gypsy) Cultures of Eastern Europe 3 s.h.
Aspects of culture shared by most Roma (Gypsies) around the world; samples of folklore from Europe; impact of Roma on European literature, music, and culture; readings in English; no previous knowledge of Russian or Romani required. Same as CL:2700.

SLAV:2531 Topics in Russian, East European, and Eurasian Studies arr.
Same as CL:2531.

SLAV:2600 Issues in Russian Identity: Nationalism 3 s.h.
Development of the Russian national identity in the works of three 19th-century Russian authors: Alexander Pushkin, Leo Tolstoy and Fyodor Dostoevsky; how major historical events such as Russia's wars with Poland, Sweden, France, England, and Turkey are portrayed in Pushkin's Boris Godunov and Poltava, Tolstoy's War and Peace and Sevastopol Sketches; how Western Europe is viewed in Dostoevsky's Winter Notes on Summer Impressions, Notes From Underground, and The Idiot. Prerequisites: RHET:1030. Requirements: ENGL:1200. Same as CL:2600.

SLAV:3100 West and East: Women in the Slavic World 3 s.h.
Roles of women in two Slavic countries—Islamic Republic of Dagestan in Russia, and the Czech Republic—using approaches from the social sciences and humanities; Christian/Catholic traditions in the western Slavic country (i.e., Czechoslovakia/Czech Republic) and Islamic influences in eastern parts of Russia; analysis of women's egalitarian roles in socialist societies of 1980s, the impact of the major political, economic, and social transitions on women's lives in 1990s.

SLAV:3111 Third-Year Russian I 4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: SLAV:2112.

SLAV:3112 Third-Year Russian II 4 s.h.
Advanced Russian grammar, reading, conversation, and written skills through oral reports, compositions, conversation. Requirements: SLAV:3111.

SLAV:3113 Beginning Composition and Conversation I 4 s.h.
Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, newspaper texts. Taught in Russian. Requirements: SLAV:1112.

SLAV:3114 Beginning Composition and Conversation II 4 s.h.
Russian oral and aural skills developed through idiomatic usage, stylistics, phonetics, intonation, grammar review; supplemented by short stories, conversation handbooks, current periodicals. Taught in Russian. Requirements: SLAV:2112.

SLAV:3115 Russian for Heritage Learners 3 s.h.
Linguistic problems (grammar and vocabulary), communicative problems (understanding of written and oral advanced Russian speech), cultural problems (similarities and differences between cultures); for Russian heritage speakers.

SLAV:3116 Russian for Heritage Learners II 3 s.h.
Continuation of SLAV:3115.

SLAV:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky's Crime and Punishment, The Demons, and short stories. Taught in English. Same as CL:3122.

SLAV:3124 Invitation to Nabokov 3-4 s.h.
Nabokov's works and his writings on Russian literature. Same as CL:3124.

SLAV:3131 Health Care and Health Reforms in Russia 3 s.h.
Societal changes and their continuing effect on the Russian health care system since 1991; guest lectures from public health, nursing, medicine, cultural anthropology. Same as GHS:3131.
SOAS:3202 Russian Literature in Translation 1860-1917 3 s.h. 
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (Fathers and Sons), Tolstoy (Confession), Dostoevsky (The Idiot, The Brothers Karamazov), and Chekhov (plays). Same as CL:3302.

SLAV:3990 Special Readings arr. 
Russian-language materials determined by student and instructor. Requirements: 16 s.h. of Russian language instruction.

SLAV:4111 Fourth-Year Russian I 4 s.h. 
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: SLAV:3112 or three years of college-level Russian.

SLAV:4112 Fourth-Year Russian II 4 s.h. 
Perfecting spoken Russian and aural comprehension of native speech. Taught in Russian. Requirements: SLAV:4111 or three years of college-level Russian.

SLAV:4480 Literature and Translation 3 s.h. 
Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as TRNS:4480.

SLAV:4990 Independent Research arr. 
Directed study.

SLAV:4995 Honors arr. 
Requirements: consent of program coordinator.

SLAV:5220 Seminar: Russian Linguistics 3 s.h. 
Topics may include Russian morphosyntax, colloquial Russian, Russian pragmatics, Slavic gender linguistics.

South Asian Studies Courses

SOAS:1502 Asian Humanities: India 3 s.h. 
Introduction to four thousand years of South Asian civilization, through popular stories. GE: Values and Culture. Same as RELS:1502.

SOAS:1550 Sex, Music, and Pop Culture in India 3 s.h. 
Exploration of debates and conflicts around gender and sexuality in Indian and South Asian popular culture, particularly music; shifting representations of gender relations, sexuality, gender/sexual identities in Indian music; focus on postcolonial period; how folk music, film songs, and classical music (among other genres) have dealt with issues such as changing conceptions of womanhood or masculinity, “queer” or gender/sexually variant communities and identities; how popular culture has negotiated questions of gender and sexuality in relation to nationhood, globalization, and cultural identity.

SOAS:1620 Bhagavad Gita: Essential Teachings of Indian Religion 3 s.h. 
Students read the Bhagavad Gita and discuss its interpretations and use in classical and modern religious, literary, and political contexts; composed around 2000 years ago, it is the best known and most influential religious text in Indian history and concisely addresses war and peace, duty and righteousness, renunciation, devotion, and the nature of the universe; its been read, debated, and discussed by ancient philosophers, modern religious teachers, and political figures such as Mahatma Gandhi, the father of modern independent India. Same as RELS:1620.

SOAS:2101 First-Year Hindi-Urdu: First Semester 5 s.h. 
Reading, writing, speaking. Offered fall semesters of odd years. GE: World Languages First Level Proficiency.

SOAS:2102 First-Year Hindi-Urdu: Second Semester 5 s.h. 
Continuation of SOAS:2101. Offered spring semesters of even years. Prerequisites: SOAS:2101. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

SOAS:2901 Second-Year Hindi-Urdu: First Semester 4 s.h. 
Conversation, reading of folktale and modern short stories. Offered fall semesters of even years. Prerequisites: SOAS:2102. GE: World Languages Second Level Proficiency.

SOAS:2902 Second-Year Hindi-Urdu: Second Semester 4 s.h. 
Continuation of SOAS:2901. Offered spring semesters of odd years. Prerequisites: SOAS:2901. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency.

SOAS:3101 Second-Year Hindi-Urdu: First Semester 4 s.h. 
Constitution in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as TRNS:3101.

SOAS:3102 Second-Year Hindi-Urdu: Second Semester 4 s.h. 
Continuation of SOAS:3101. Offered spring semesters of odd years. Prerequisites: SOAS:3101. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency.

SOAS:3448 The Allure of Krishna: Sacred Sexuality in Indian Culture 3 s.h. 
For thousands of years, Krishna, the dark-skinned flute-player, has been central to the religious experience of many Hindus; his diverse roles as mischievous divine child, sensual teenage cowherd, and adult statesman, warrior, and philosopher celebrated in poetry and prose, painting and sculpture, music, dance, drama, film, and television; exploration of multiple facets of Krishna’s character through literary and visual sources, performances; focus on Indian interpretations of erotic content prominent in his story and to the figure of Radha, Krishna’s mistress and beloved. Same as RELS:3448.

SOAS:3500 Queerness in South Asian Literature and Cinema 3 s.h. 
Debates and conflicts around gender or sexual variance in South Asian cultural spheres; shifting representations of queerness—a broad label for non-normative gender/sexual practices or identities—in literature and films from India and neighboring regions; diverse constructions of gender/sexuality in precolonial India; focus on postcolonial period when regulation of deviant gender/sexuality became tied to colonial administration and emerging national identity; how cultural representations constructed normative or deviant genders/sexualities in relation to class, caste, and nationhood.
SOAS:3644 Gandhi and His Legacy 3 s.h.
In-depth introduction to the life, ideas, and ongoing impact of Mohandas Karamchand Gandhi (1869-1948); from his conservative upbringing to his early career as a lawyer, his transformative experiences, and self-transformation into a charismatic mahatma ("great soul"), the pursuit of political and social liberation through non-violent civil disobedience, the assertion of human rights, and the quest for sustainable lifestyles that uphold the common good and protect the natural environment; evolution of Gandhi's thought and activism and his legacy. Same as HIST:3644, RELS:3644.

SOAS:3901 Second-Year Sanskrit: First Semester 3 s.h.
Readings in epic and puranic texts. Offered fall semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as CLSA:3901.

SOAS:3902 Second-Year Sanskrit: Second Semester 3 s.h.
The Bhagavad Gita and related religious/philosophical texts. Offered spring semesters of even years. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as CLSA:3902.

SOAS:3920 Enlightenment: Cross-Cultural Experiments in Religious Realization 3 s.h.
Enlightenment as one of the most important ideas that feeds contemporary religious and spiritual imagination; exploration of this concept in contemporary religious and spiritual discourse. Same as RELS:3582.

SOAS:4101 Third-Year Hindi-Urdu: First Semester 3 s.h.
Advanced level Hindi texts; speaking, writing. Offered fall semesters. Prerequisites: SOAS:3102.

SOAS:4102 Third-Year Hindi-Urdu: Second Semester 3 s.h.
Continuation of SOAS:4101. Offered spring semesters. Prerequisites: SOAS:4101.

SOAS:4103 Individual Hindi for Advanced Students arr.
Readings in medieval and modern Hindi.

SOAS:4201 Third-Year Sanskrit: First Semester 3 s.h.
Readings in philosophical and literary Sanskrit. Offered fall semesters.

SOAS:4202 Third-Year Sanskrit: Second Semester 3 s.h.
Continuation of SOAS:4201. Offered spring semesters.

SOAS:4802 South Asian Research Seminar arr.
Faculty and student research.

SOAS:5201 Individual Sanskrit for Advanced Students arr.
Research, translation projects. Requirements: fourth-year proficiency.
Asian Languages and Literature, B.A.

The B.A. program in Asian languages and literature gives students the opportunity to develop advanced skills in an Asian language while they study the people, literatures, and cultures of Asia. Students choose one of four tracks: Chinese, Hindi, Japanese, or Sanskrit.

Students interested in Asian studies may add a second major in international studies with an emphasis in Asian studies; see B.A. in International Studies [p. 630] in the Catalog. Many other disciplines work well as second majors for Asian languages and literature students, such as history, art history, political science, religion, sociology, journalism, business, and anthropology.

Requirements

The Bachelor of Arts with a major in Asian languages and literature requires a minimum of 120 s.h., including 27-30 s.h. of work for the major. Students choose one of four tracks: Chinese, Hindi, Japanese, or Sanskrit. Credit required for the major depends on choice of track; requirements for each track are listed below. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The amount of approved transfer credit that may be applied to the major varies by track; students should consult their advisors about courses taken at other institutions, including study abroad.

The B.A. with a major in Asian languages and literature requires the following work.

Tracks

Chinese Track

Students in the Chinese track must complete the following course work.

Prerequisite Chinese Language Courses
Chinese Language Courses 15
Chinese Literature and Cinema Courses 6
Chinese Culture and Society Courses 9
Total Hours 30

Prerequisite Chinese Language

Students must successfully complete the prerequisite courses below, or the equivalent, before they enroll in required courses. These courses do not count as credit earned toward track requirements.

This sequence:

Chinese Language

All of these:

CHIN:4101  Classical Chinese: First Semester 3

Chinese Literature and Cinema

Two of these:

CHIN:3202  Chinese Literature: Prose 3
CHIN:3341  Chinese Literature: Poetry 3
CHIN:4203  Modern Chinese Writers 3
CHIN:4206  Transnational Chinese Cinemas 3

Chinese Culture and Society

Courses in this area include those in art, history, literature, religion, and translation.

A minimum of 9 s.h. from these:

ASIA:1060/RELS:1506  Introduction to Buddhism 3
ASIA:1510/CL:1510  Ghost Stories and Tales of the Weird in Pre-Modern Chinese Literature 3
ASIA:1602  Civilizations of Asia: China 3
ASIA:3220/ARTH:3230  Chinese Painting I: Pagodas and Palaces 3
CHIN:1504  Asian Humanities: China 3
CHIN:1702  Chinese Popular Culture 3
CHIN:1800  Chinese Character Writing and Calligraphy 2
CHIN:3201  Workshop in Chinese Literary Translation 3
CHIN:4150  Advanced Readings in Chinese 3
HIST:4650  Chinese History from 1600 to 1927 3
HIST:4655  China Since 1927 3

Electives

Courses and requirements listed above represent the minimum hours required to complete the Chinese track. Students also may choose additional Chinese elective courses (prefix CHIN), but may not exceed a total of 56 s.h. that will apply to the minimum 120 s.h. required to graduate. Elective Chinese courses will not count toward Chinese requirements for the major. Independent studies and arranged hours may be used as elective hours but are not counted toward requirements for the major.

Hindi Track

Students in the Hindi track must complete the following course work.

All of these:

SOAS:3101-SOAS:3102  Second-Year Hindi-Urdu: First Semester - Second-Year Hindi-Urdu: Second Semester 8
SOAS:4101-4102 Third-Year Hindi-Urdu: First Semester - Third-Year Hindi-Urdu: Second Semester (students may substitute 6 s.h. of South Asian studies courses numbered 3000 or above, with the approval of their major advisors)

Additional South Asian studies courses numbered 3000 or above, including 1-3 s.h. of independent study

Total Hours 30

A list of advanced South Asian studies courses numbered 3000 or above is available from the department.

Hindi track students are urged to fulfill the General Education Program [p. 464] Historical Perspectives or International and Global Issues requirement (3 s.h.) by completing HIST:1606/ASIA:1606 Civilizations of Asia: South Asia.

Japanese Track
Students in the Japanese track must complete the following course work.

Prerequisite Japanese Language Courses
Third- and Fourth-Year Japanese 12
Literature and Translation Courses 9
Linguistics and Advanced Language Studies Courses 6
Cultural Studies Course 3

Total Hours 30

Students may apply a maximum of 12 s.h. of approved transfer credit toward track requirements. Those who are planning to study abroad should consult with their Japanese track advisors in advance to determine whether their planned course work abroad will be accepted toward track requirements.

Prerequisite Japanese Language Courses
Students must successfully complete the prerequisite courses below, or the equivalent, before they enroll in required courses. These courses do not count as credit earned toward track requirements.

All of these:
- JPN:1001 First-Year Japanese: First Semester 5
- JPN:1002 First-Year Japanese: Second Semester 5

Third- and Fourth-Year Japanese
Both of these sequences:
- JPN:3001-3002 Third-Year Japanese I-II 6
- JPN:4001-4002 Fourth-Year Japanese I-II 6

Literature and Translation
Three of these:
- JPN:3201 Workshop in Japanese Literary Translation 3
- JPN:3202 Traditional Japanese Literature in Translation 3
- JPN:3203 Modern Japanese Fiction in Translation 3
- JPN:3204 Topics in Japanese Literature in Translation 3
- JPN:3205 Major Authors in Modern Japanese Literature 3
- JPN:3206 Warriors’ Dreams 3
- JPN:3207 Japan Illuminated: Japanese Literature and Visual Culture 3
- JPN:3208 Japanese Film 3
- JPN:3210 Japanese Theater 3
- JPN:3601 Contemporary Japanese Culture 3
- JPN:4201 The Tale of Genji 3

Linguistics and Advanced Language Studies
At least 6 s.h. from these:
- JPN:3107 Classical Japanese: First Semester 3
- JPN:3128 Introduction to Japanese Linguistics 3
- JPN:3401 Language in Japanese Society 3
- JPN:3402 Japan: Culture and Communication 3
- JPN:3501 Japanese for Professional Purposes II 3
- JPN:4501 Fifth-Year Japanese I 3
- JPN:4502 Fifth Year Japanese II 3

Cultural Studies
Students complete one course chosen from the following lists:

Asian and Slavic Languages and Literatures
- JPN:1506 Asian Humanities: Japan 3
- JPN:3135 Postmodern Aesthetics and Japanese Culture 3

Anthropology
- JPN:2175 Japanese Society and Culture 3

Art History
- JPN:2250 Introduction to the Art of Japan 3
- JPN:3260 Japanese Painting 3

History
- JPN:4610 Japan - Age of the Samurai 3
- JPN:4615 Modern Japan 3
- JPN:4620 Japan-U.S. Relations 3

Religious Studies
- JPN:1115 Japanese Religions 3
- JPN:3660 Japanese Religion and Thought 3

World Languages, Literatures, and Cultures
- JPN:3700 Topics in Global Cinema 3
**Sanskrit Track**

Students in the Sanskrit track must complete the following course work.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOAS:4201-SOAS:4202</td>
<td>Third-Year Sanskrit: First Semester - Third-Year Sanskrit: Second Semester (students may substitute 6 s.h. of South Asian studies courses numbered 3000 or above, with the approval of their major advisor)</td>
<td>6</td>
</tr>
</tbody>
</table>

Additional South Asian studies courses numbered 3000 or above, including 1-3 s.h. of independent study: 15

Total Hours: 27

A list of advanced South Asian studies courses numbered 3000 or above is available from the department.

Sanskrit track students are urged to fulfill the General Education Program [p. 464] Historical Perspectives or International and Global Issues requirement (3 s.h.) by completing HIST:1606/ASIA:1606 Civilizations of Asia: South Asia.

**B.A. with Teacher Licensure**

Students majoring in Asian languages and literature (Chinese or Japanese track) who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Asian languages and literature majors must complete designated pedagogy and linguistics courses in the department in addition to the course work required for their major.

Students who plan to use their work toward a minor in Chinese, Japanese, or Russian as academic background for earning teacher licensure should contact the Office of Student Services about requirements.

**Honors in the Major**

Students have the opportunity to graduate with honors in the major. They must have the consent of the department chair and a faculty sponsor (an Asian specialist from any department) for departmental honors work. Students must register for ASIA:4301 Honors Tutorial and ASIA:4506 Senior Honors Thesis, and must complete an acceptable thesis based on original research.

**University of Iowa Honors Program**

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the Asian languages and literature major.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the third semester begins:** for students in Chinese and Japanese tracks, language work begun (students in the Hindi and Sanskrit tracks may begin language work in their sophomore year)

**Before the fifth semester begins:** at least first-year language competency

**Before the seventh semester begins:** at least second-year language competency and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least third-year, first-semester language competency and one additional course in the major (for the Japanese track, two additional courses in the major)

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plans of Study**

### Total Hours

120

---

1. Assumes student placement begins with CHIN:2101 First-Year Chinese: First Semester; students should begin with an appropriate placement, which may be a lower-level course. CHIN:1111 First-Year Chinese: First Semester or CHIN:1112 First-Year Chinese: Second Semester do not count toward the major.

2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course. For more information, view the General Education Program [p. 464].

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Students can begin to take this course after completion of CHIN:3101 Third-Year Chinese: First Semester.

1. SOAS:2901 First-Year Sanskrit: First Semester and SOAS:2902 First-Year Sanskrit: Second Semester do not count as semester hours toward the major.
2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
3. Students may use their elective courses to complete a double major, minors, or certificates.
Financial Support

Undergraduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

**Cheng/Liu Scholarship:** Students currently majoring in Chinese in the Department of Asian and Slavic Languages and Literatures at the University of Iowa may apply for the Cheng/Liu Scholarship. The award can be used for summer Chinese language study.

**Confucius Institute Scholarship:** The Confucius Institute at the University of Iowa provides scholarships for students to study Chinese language and culture or conduct research related to their academic disciplines in China.

**Fairall Scholarship:** Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship. Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

**Summer language scholarships:** Currently enrolled students may compete for a Stanley-University of Iowa Foundation Support Organization Summer Language Scholarship to be used for intensive summer language study in Chinese, Hindi-Urdu, Japanese, or Sanskrit. Eight to ten awards of $2,000-$2,500 are made each summer. Applications are due March 1.

**Support for undergraduate study abroad:** Opportunities for undergraduates to study abroad include the Presidential Scholarships for Study Abroad and the Stanley Scholarships for International Research and Study.

Career Advancement

Asian languages and literature graduates pursue careers in education, government, communication, business, and other fields in the United States and beyond. The programs also provide an excellent background for advanced study in the humanities and social sciences and in professional schools, such as law and business. The number of Americans who can speak Asian languages is relatively small, so many career opportunities exist for individuals trained in these areas.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Russian, B.A.

The Russian major leading to the B.A. degree trains students in both written and spoken Russian and in Russian literature, culture, and civilization. The department encourages students to pursue a second major (e.g., global health, history, linguistics, political science) and to develop their interests in related or complementary fields. Students interested in focusing on a broader interdisciplinary understanding of the region may earn a second major in International Studies; see B.A. in International Studies [p. 630] in the Catalog.

Requirements

The Bachelor of Arts with a major in Russian requires a minimum of 120 s.h., including 32 s.h. of work for the major earned in Russian courses. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The B.A. with a major in Russian requires the following course work.

<table>

SLAV:3202 | Russian Literature in Translation 1860-1917       | 3    |

Students are urged to choose elective courses in economics, geographical and sustainability sciences, history, political science, global health, and international studies. Nearly every avenue of professional training and employment requires a solid background in Russian area studies. For example, criteria for U.S. government employment include substantive knowledge in history, economics, political science, sociological disciplines, scientific specialties, demography, military-related skills, and in some cases, cultural and religious background. In-depth knowledge of literature or linguistics without other substantive background may be of limited practical use in finding employment.

B.A. with Teacher Licensure

Students who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Majors must complete designated pedagogy and linguistics courses in the department in addition to the course work required for their major.

Students who plan to use their work toward a minor in Chinese, Japanese, or Russian as academic background for earning teacher licensure should contact the Office of Student Services about requirements.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. They must have junior or senior standing, a g.p.a. of at least 3.33 in Russian, and a cumulative University of Iowa g.p.a. of at least 3.33 in order to enroll in the honors program in Russian.

Honors students must register for SLAV:4995 Honors. They must complete an honors project (e.g., thesis, translation, cultural studies, or research) in Russian. Students must present their work to a faculty committee as determined by their honors thesis adviser. Contact the department for more information about requirements for graduation with honors in the Russian major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the
University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the Russian major.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

- **Before the third semester begins:** competence in first-year Russian
- **Before the fifth semester begins:** competence in second-year Russian
- **Before the seventh semester begins:** competence in third-year Russian, an additional course in the major, and at least 90 s.h. earned toward the degree
- **Before the eighth semester:** competence in fourth-year Russian and two more courses in the major
- **During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

3. Students may use their elective courses to complete a double major, minors, or certificates.

**Financial Support**

Undergraduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.
Fairall Scholarship: Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship. Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

Support for undergraduate study abroad: Opportunities for undergraduates to study abroad include the Presidential Scholarships for Study Abroad and the Stanley Scholarships for International Research and Study.

Career Advancement

Training in Russian is often an important asset to careers in the natural and physical sciences, engineering, medicine, business, journalism, library and information science, and the social and military sciences. It also may be appropriate preparation for study of law or international relations as well as Slavic languages and literatures, comparative literature, and other humanistic disciplines.

Some governmental agencies are interested in job candidates who have advanced training in Russian; these agencies give preference to applicants who combine strong language proficiency with a well-rounded background in area studies. Students who develop an exceptional facility with the Russian language may pursue careers in literary and technical translation and interpretation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Asian Languages, Minor

The undergraduate minor in Asian languages is offered with four emphases: Chinese, Hindi, Japanese, and Sanskrit. The minor requires 14-15 s.h.; credit required for the minor depends on the emphasis area selected. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor requirements for each emphasis are listed below.

**Chinese Emphasis**
The minor in Asian languages with Chinese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The minor must include the following course work. Some of these courses have prerequisites; students must complete all of a course’s prerequisites before they may register for that course.

Both of these sequences:

One of these:
- CHIN:3202 Chinese Literature: Prose 3
- CHIN:3341 Chinese Literature: Poetry 3
- CHIN:4203 Modern Chinese Writers 3
- CHIN:4206 Transnational Chinese Cinemas 3

**Hindi Emphasis**
The minor in Asian languages with Hindi emphasis requires 14 s.h., including 11 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. The courses SOAS:2101 First-Year Hindi-Urdu: First Semester and SOAS:2102 First-Year Hindi-Urdu: Second Semester do not count as advanced courses for the minor.

**Japanese Emphasis**
The minor in Asian languages with Japanese emphasis requires 15 s.h., including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Furthering Language Incentive Program (FLIP) credit may not be counted toward the Japanese emphasis.

The following courses are prerequisite to the Japanese emphasis; they do not count toward the minor.

<table>

Korean Studies, Minor

The undergraduate minor in Korean studies requires a minimum of 15 s.h., with a minimum of 9 s.h. completed at the University of Iowa. A maximum of 6 s.h. in transfer course work may be selected from Ewha Womans University, the University of Seoul, Kyung Hee University, or other universities in South Korea. Prior approval of transfer course work by the Korean program coordinator is required. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Required Courses

One of these:
KORE:1135 Korean Language in Culture and Society 3
KORE:1500 Asian Humanities: Korea 3

Two of these:
KORE:3101 Third-Year Korean: First Semester 3
KORE:3102 Third-Year Korean: Second Semester 3
KORE:4000 Fourth Year Korean: First Semester 3
KORE:4001 Fourth Year Korean: Second Semester 3

Electives

Students proficient through upper-level Korean language courses (more advanced than third-year Korean or with a Test of Proficiency in Korean (TOPIK) level of 3 or higher) and who have an approved waiver from the Korean program coordinator may substitute 6 s.h. of other course work from the list below instead of completing the Korean language requirement.

Students who do not have a waiver must complete a minimum of 3 s.h. in a related area elective. They can select a course from the list below or consult with the Korean program coordinator for approval to take a different elective course.

Students select 6 s.h. from the following (consult Korean program coordinator for options involving study abroad or waivers).

KORE:1135 Korean Language in Culture and Society (if not already taken) 3
KORE:1500 Asian Humanities: Korea (if not already taken) 3
KORE:3050 Film Culture in Korea 3
KORE:3060 Controversies in Contemporary Korea 3
KORE:4050 Two Koreas: Political Economy of Regional Rivalry 3
KORE:5102 Individual Korean for Advanced Students (with consent of instructor) arr.
HIST:1607 Civilizations of Asia: Korea 3-4
HIST:2687 Perspectives on Korea 3
HIST:4685 Modern Korean History 3

Related elective (approval required) 3

One or two Big Ten Academic Alliance (BTAA) Korean e-school courses (delivered through video conferencing from other Big Ten institutions) Study abroad options (see “Study Abroad” below) arr.

Study Abroad

Students may select a maximum of 6 s.h. (one or two courses per year) from courses offered by Ewha Womans University, the University of Seoul, Kyung Hee University, or other universities in South Korea eligible for credit transfer. Consult the Korean program coordinator before undertaking study abroad work.
Russian, Minor

The undergraduate minor in Russian requires a minimum of 15 s.h. in Russian courses, including 12 s.h. earned in courses considered advanced for the minor taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. taught in English toward the minor. Either SLAV:3113 Beginning Composition and Conversation I or SLAV:3114 Beginning Composition and Conversation II may be applied toward the minor, but not both.Furthering Language Incentive Program (FLIP) credit can be applied toward the minor.

The department recommends that students choose courses numbered 3000 or above for the minor, such as the following.

<table>

### Russian and Eastern European Studies, Minor

The undergraduate minor in Russian and Eastern European Studies requires a minimum of 15 s.h., including 12 s.h. earned in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The minor does not require knowledge of the Russian language.

Students select courses from the following.

<table>

Asian Civilizations, M.A.

Requirements

The Master of Arts program in Asian Civilizations requires a minimum of 30 s.h. of graduate credit, including 24 s.h. earned in residence at the University of Iowa. All students must maintain a g.p.a. of 3.00 or higher. Detailed information on degree requirements is sent to all applicants.

By the end of the first semester in residence, students propose a study plan developed in consultation with their advisor and in accordance with guidelines for specializations within the program.

M.A. students choose from two tracks: teaching Chinese as a foreign language and interdisciplinary Chinese studies. Currently, the department is not accepting applicants for Hindi, Sanskrit, or Japanese tracks.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. The Department of Asian and Slavic Languages and Literatures requires a g.p.a. of at least 3.00 for regular admission and a g.p.a. of at least 2.75 for conditional admission.

A B.A. in Chinese language and literature, teaching Chinese as a second language, or the equivalent is required for study in the M.A. in teaching Chinese as a second language track. Chinese language proficiency equivalent to third-year Chinese, as determined by examination, is required for the M.A. in Chinese studies track.

All international applicants must submit TOEFL TWE (Test of Written English) and the TOEFL TSE (Test of Spoken English) score and an essay in response to specific questions indicated in the application instructions. Applicants whose first language is not English must score at least 98 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants must submit a statement of purpose, a research paper written in English, three letters of recommendation, and scores on the Graduate Record Exam (GRE) General Test.

Both international and U.S. graduate applications requesting financial support for the following academic year are due February 1. All other applications are accepted until April 15 for fall admission and October 1 for spring admission.

Application materials are available from the department.

Financial Support

Graduate students have access to the following financial aid and scholarship resources. Contact the Department of Asian and Slavic Languages and Literatures for application information.

Cheng/Liu Scholarship: Students currently majoring in Chinese in the Department of Asian and Slavic Languages and Literatures at the University of Iowa may apply for the Cheng/Liu Scholarship. The award can be used for summer Chinese language study.

Fairall Scholarship: Majors who have attended and/or graduated from Iowa elementary or secondary schools may be nominated by the department to receive a Fairall Scholarship.

Preference is given to Japanese studies students. Applications are available late spring, with scholarships to be awarded the following fall semester.

Foreign language and area studies fellowships: Only U.S. citizens are eligible. Graduate students combining work in Asian languages at an advanced level with interdisciplinary or professional programs may apply. The award is offered by International Programs for academic year and summer language study.

Graduate assistantships: The department offers teaching assistantships for graduate students in the program. All applicants to graduate study in the program receive information on applying for an assistantship. Assistantships are awarded each spring for the following academic year.

Graduate international research: Opportunities for funding research abroad include Stanley Fellowships for Graduate Student Research Abroad, CIREH Research Scholarships in International Health, Fulbright Grants, and Foreign Language Area Scholarships.

Summer language scholarships: Currently enrolled students may compete for a Stanley-University of Iowa Foundation Support Organization Summer Language Scholarship to be used for intensive summer language study in Chinese, Hindi-Urdu, Japanese, or Sanskrit. Eight to ten awards of $2,000-$2,500 are made each summer. Applications are due March 1.

Career Advancement

The master’s degree program in Asian civilizations prepares students for doctoral study in a variety of disciplines. It also may be a good choice for students planning nonacademic careers in which advanced knowledge of Asian civilizations could be useful. For example, students working toward professional degrees, such as an M.D. or J.D., may decide to earn the M.A. in Asian civilizations while completing the professional degree. The program also provides an excellent background for advanced study in the humanities.

The number of Americans who can speak Asian languages is relatively small, so many career opportunities exist for individuals trained in these areas.

The Pomerantz Career Center is a great resource for students researching internships and careers.
Biology

Chair
• Diane C. Slusarski

Undergraduate major: biology (B.A., B.S.)
Undergraduate minor: biology
Graduate degrees: M.S. in integrated biology; Ph.D. in integrated biology
Faculty: https://biology.uiowa.edu/people/faculty
Website: https://biology.uiowa.edu/

The Department of Biology offers undergraduate and graduate programs that prepare students for careers in a wide variety of fields such as health science or biological research, technology, and education. It also offers several courses that undergraduate students in all majors may use to satisfy the General Education Program [p. 464] Natural Sciences requirement and other courses on topics of general interest for undergraduate non-biology majors, including a First-Year Seminar course, BIOL:1000 First-Year Seminar, designed for entering students. The department also administers the interdisciplinary Biomedical Sciences [p. 176] major and the Neuroscience [p. 764] major, both leading to a Bachelor of Science degree.

Programs

Undergraduate Programs of Study

Majors
• Major in Biology (Bachelor of Arts) [p. 157]
• Major in Biology (Bachelor of Science) [p. 161]

Minor
• Minor in Biology [p. 171]

Graduate Programs of Study

Majors
• Master of Science in Integrated Biology [p. 172]
• Doctor of Philosophy in Integrated Biology [p. 174]

Facilities

The department is housed in two contiguous buildings, with modern facilities and equipment for state-of-the-art research.

Facilities include the Keck Dynamic Image Analysis Facility, which couples sophisticated state-of-the-art microscopy and computerized motion analysis to permit three-dimensional real-time analysis of cell movement in vitro and in situ. The Roy J. Carver Center for Genomics houses the department’s DNA sequencing, oligo synthesis, quantitative PCR, functional genomics/microarray facilities, and informatics facilities. The Roy J. Carver Center for Imaging is a microscopy and imaging facility; its confocal microscope is available for teaching and research.

A large greenhouse is used in plant research and education. The department also houses animal-care facilities suitable for mice, rats, rabbits, *Xenopus laevis*, and zebra fish. These facilities are managed by the University’s animal care unit, which is accredited by the Association for Assessment and Accreditation of Laboratory Care. A central University facility provides assistance in the preparation of transgenic mice.

The department is home to the Developmental Studies Hybridoma Bank, which is affiliated with the National Institutes of Health. The hybridoma bank collects and distributes monoclonal antibodies that originate in laboratories all over the world. Its collection now contains more than 3,500 monoclonal antibodies that are distributed to users internationally for a modest fee.

In addition to department facilities, the University offers a genomic sequencing service, a DNA oligonucleotide synthesis and enzyme lab, oligopeptide synthesis and sequencing equipment, and mass- and NMR spectroscopy facilities. The Center for Biocatalysis and Bioprocessing is available for growing large amounts of microorganisms (e.g., 100 liters) for use in protein isolation.

Iowa Lakeside Laboratory

The Iowa Lakeside Laboratory is a field station run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa. Located on West Lake Okoboji, in northwestern Iowa, the laboratory affords excellent conditions for summer study in field biology, limnology, phycology, aquatic ecology, pollination biology, and plant taxonomy. It offers a wide variety of summer courses at the undergraduate and graduate levels. Students should check with their advisors to determine whether specific courses may be counted toward requirements for graduation. See Iowa Lakeside Laboratory [p. 1701] (University College) in the Catalog or visit the Lakeside Laboratory website.

Courses

Many courses include laboratory, discussion, and/or field components.

Biology Courses

BIOL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.
BIOL:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Fundamental questions (How old is the universe? What is the nature of life? How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives—astronomy and physics, geoscience, biology, chemistry, anthropology; work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, effective written and oral communication; origin of the universe, biochemistry of life, and origin of life on Earth; first of a two-part sequence. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, EES:1060.

BIOL:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe 4 s.h.
How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe? These fundamental questions revolve around understanding the origins of life from different perspectives—astronomy and physics, geoscience, biology, chemistry, and anthropology; students will work together with faculty from across four different departments to investigate these questions using inquiry-based activities to build success in critical thinking, teamwork, and effective written and oral communication; second half of the origins sequence (though either course also may be taken alone). GE: Natural Sciences with Lab. Same as ANTH:1061, ASTR:1061, EES:1061.

BIOL:1140 Human Biology 4 s.h.
Molecular and cellular basis of human life; integration of humans and the biosphere through photosynthesis, respiration; structure, function of human tissues, organs, organ systems; reproduction, genetics, impact of molecular biology and genetic engineering; lecture, laboratory. GE: Natural Sciences with Lab.

BIOL:1141 Introductory Animal Biology 4 s.h.
Fundamental principles: cells and macromolecules, energy metabolism, organismic physiology, genetics, development, ecology, and evolution. Requirements: one year of high school chemistry. Recommendations: CHEM:1070. GE: Natural Sciences with Lab.

BIOL:1251 How the Brain Works (and Why it Doesn’t) 3-4 s.h.
Introductory survey of neuroscience: structure and function of the brain; nature of consciousness; brain function in mental illness and degenerative disorders; genes and the mind; perception, sensation, memory, and emotions. Requirements: non-biology major. GE: Natural Sciences without Lab.

BIOL:1260 Plants and Human Affairs 2-3 s.h.
How plants are useful to people: food, clothing, shelter, medicines, psychoactive agents; plants' social, economic, ecological significance. GE: Natural Sciences without Lab.

BIOL:1261 Introduction to Botany 4 s.h.
Biology of plant life: emphasis on structure, function, reproduction, inheritance, diversity, evolution. Requirements: one year of high school chemistry. GE: Natural Sciences with Lab.

BIOL:1311 Human Genetics in the Twenty-First Century 3 s.h.
Organization and inheritance of human genes and genomes; genetic basis of simple and complex traits; genetic aspects of cancer; paleogenomics and tracing human migrations with DNA. GE: Natural Sciences without Lab. Same as ANTH:1310.

BIOL:1360 Spring Flora 3 s.h.
Recognition and identification of spring-flowering herbaceous plants, native woodland trees and shrubs, woody landscape plants; family characteristics, use of taxonomic key.

BIOL:1370 Understanding Evolution 3 s.h.
Evolution and diversity of living things, their patterns on Earth, their organization in ecological systems; dynamics of evolutionary processes. GE: Natural Sciences without Lab.

BIOL:1411 Foundations of Biology 4 s.h.
Unifying concepts of living systems; emphasis on common properties and processes; chemical and cellular basis of life, genetics, and evolution. Prerequisites: CHEM:1110 with a minimum grade of C- or CHEM:1070 with a minimum grade of A-. GE: Natural Sciences with Lab.

BIOL:1412 Diversity of Form and Function 4 s.h.
Underlying unifying concepts of life; emphasis on diversity of living systems; the tree of life, cellular evolution, procaryotic and eukaryotic diversity, plant and animal form and function; interactions among diverse forms of life and their environment. Prerequisites: BIOL:1411 with a minimum grade of C-. GE: Natural Sciences with Lab.

BIOL:1808 Ways of Knowing Science 1 s.h.
Science as a powerful way of knowing based on experimentation and observation of natural world; introduction to subdisciplines of scientific research; scope and methods of scientific research; questions that scientific research seek answers for; methods that scientists use to obtain answers to their questions; how science affects us personally and how it affects the rest of society; research seminars, discussion, and exploration.

BIOL:2120 Good Genes Gone Bad: Genetic Disorders of Notable Celebrities 3 s.h.
Introduction to a wide range of genetic disorders affecting notable celebrities; relevant genetic pathways in easy-to-understand language; exploration of mechanisms of disease and treatments.

BIOL:2211 Genes, Genomes, and the Human Condition 3 s.h.
Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Prerequisites: BIOL:1411. Recommendations: BIOL:1412.

BIOL:2254 Endocrinology 3 s.h.
Production and effect of hormonal chemical messengers of secretory glands; emphasis on cell signaling in vertebrate systems; actions of hormones in regulating growth, physiology, and reproduction; organ to molecular levels. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701). Recommendations: CHEM:2210.

BIOL:2346 Vertebrate Zoology 4 s.h.
Vertebrate diversity, success in relation to evolutionary history, and adaptive radiation of fish, amphibians, reptiles, birds, mammals; physiological, morphological, behavioral, life history adaptations; vertebrate zoogeography, systematics, patterns of reproduction, social systems. Prerequisites: BIOL:1411 and BIOL:1412.

BIOL:2374 Biogeography 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: BIOL:1141 or BIOL:1370 or BIOL:1261 or GEOG:1020 or BIOL:1412. Same as GEOG:2374.
BIOL:2512 Fundamental Genetics 4 s.h.
Nature, function of genetic material: classical, molecular, developmental aspects. Prerequisites: BIOL:1411 with a minimum grade of C- and (BIOL:1412 with a minimum grade of C- or PSY:2701 with a minimum grade of C-) and CHEM:1120. Corequisites: CHEM:2210, if not taken as a prerequisite.

BIOL:2603 Mechanisms of Aging 3 s.h.
Evolutionary theories of aging, cellular and genetic basis of aging and repair, disruption of homeostasis in aging; focus on studies of biological and environmental causes of age-related diseases. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701).

BIOL:2673 Ecology 3 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Prerequisites: BIOL:1411 and BIOL:1412 and (MATH:1460 or MATH:1850 or MATH:1550). Recommendations: a basic statistics course. Same as ENVS:2673.

BIOL:2723 Cell Biology 3 s.h.
Structures of cells and organelles in relation to their functions at molecular, cellular levels; emphasis on higher eukaryotic cells. Prerequisites: BIOL:1411 and (BIOL:1412 or HHP:3500 or PSY:2701) and CHEM:1120.

BIOL:2753 Introduction to Neurobiology 3 s.h.
Techniques of molecular biology, genomics, neuropharmacology, and functional brain imaging applied to understanding how the brain works. Prerequisites: (BIOL:1412 or HHP:3500) and BIOL:1411.

BIOL:3172 Evolution 4 s.h.
Nature, evidence, analysis, implications, molecular/genetic basis; historical record, phylogeny, speciation, adaptation, investigative methods. Prerequisites: BIOL:2512 with a minimum grade of C- and (STAT:2010 or STAT:3510 or MATH:1550 or MATH:1850 or MATH:1460).

BIOL:3233 Introduction to Developmental Biology 3 s.h.
Fundamental mechanisms in differentiation, organogenesis, morphogenesis; and pattern formation; mechanistic approach at molecular, cellular, tissue levels of organizations. Prerequisites: BIOL:1411 and CHEM:1120 and (BIOL:1412 with a minimum grade of C- or HHP:3500 with a minimum grade of C-). Recommendations: BIOL:2512.

BIOL:3244 Animal Behavior 3.5 s.h.
Genetics, sensory physiology, migration, development of behavior, circadian rhythms, foraging strategies, aggression, sexual and parental behavior, group selection, social behavior. Prerequisites: BIOL:1411 and (BIOL:1412 or PSY:2701).

BIOL:3253 Neurobiology 4 s.h.
Cellular neurobiology (cytoskeleton and transport, membrane physiology, synaptic transmission and plasticity, sensory transduction); systems neurobiology (peripheral and central sensory processing, autonomic and somatic motor systems); cognitive neurobiology (emotion, biological rhythms and sleep, memory, attention, language); developmental neurobiology. Prerequisites: BIOL:2753 or PSY:2701.

Recommendations: BIOL:2723 and BIOL:3110.

BIOL:3314 Genomics 3 s.h.
Major areas of genomics, including DNA and protein sequence analysis, structural diversity of whole genomes, microarray applications, proteomics; computer workshop experience in applying bioinformatics tools. Prerequisites: BIOL:2512 or BIOL:3253.

BIOL:3343 Animal Physiology 3 s.h.
Principles of cellular and systems physiology; emphasis on quantitative and experimental aspects. Prerequisites: BIOL:1411 and CHEM:1120 and (MATH:1380 or MATH:1460 or MATH:1550 or MATH:1850). Recommendations: (PHYS:1511 and PHYS:1512) or (PHYS:1611 and PHYS:1612).

BIOL:3363 Plant Developmental Biology 3 s.h.
Developmental processes throughout life cycle of vascular plants; current knowledge of mechanisms, control; emphasis on molecular and genetic approaches to studying development. Prerequisites: BIOL:2512.

BIOL:3373 Human Population Genetics and Variation 3 s.h.
Principles of evolutionary change of genes and genomes applied to human populations and to comparisons between humans and their closest primate relatives; emphasis on consequences of mutation, natural selection, and demographic changes. Prerequisites: BIOL:2512 with a minimum grade of C- or BIOL:2211 with a minimum grade of C-.

BIOL:3383 Introduction to Systems Biology 3 s.h.
Concepts and skills used to develop computer models that provide insight into the operation of cellular processes like metabolic pathways and genetic circuits. Prerequisites: BIOL:1412 and (MATH:1460 or MATH:1550 or MATH:1850).

BIOL:3626 Cell Biology Laboratory 4 s.h.
Conceptual understanding and technical skills in fluorescence microscopy and digital imaging, mammalian cell culture, tissue fractionation, centrifugation, electrophoresis, and expression of recombinant proteins. Prerequisites: BIOL:2723.

BIOL:3656 Neurobiology Laboratory 4 s.h.
Principles and practice of neurobiology research, including microscopy and imaging, cellular and molecular neurobiology, and electrophysiology. Prerequisites: BIOL:2753 or PSY:2701.

BIOL:3663 Plant Response to the Environment 3 s.h.
Mechanisms of plant responses to environmental factors (biotic and abiotic) at organismal and molecular levels. Prerequisites: BIOL:2512 or BIOL:3120.

BIOL:3676 Evolution Lab 4 s.h.
Methods of sampling and describing variation in natural populations; application of molecular genetic, bioinformatic, and computational techniques to describe genetic variation through sequence analysis; use of controlled laboratory experiments and computer simulations to illustrate evolutionary principles. Prerequisites: BIOL:2512 or BIOL:2211. Corequisites: BIOL:3172 or BIOL:3373, if not taken as a prerequisite. Recommendations: grade of C or higher in BIOL:3172.

BIOL:3713 Molecular Genetics 4 s.h.
Mechanism, regulation of RNA, DNA, protein biosynthesis, with emphasis on methods of genetic analysis; application of modern recombinant DNA techniques to basic problems. Prerequisites: BIOL:2512 or BIOL:3120.

BIOL:3716 Genetics and Biotechnology Lab 4 s.h.
BIOL:3736 Developmental Biology Lab 4 s.h.  
Experimental manipulation of embryos to examine mechanisms of early development, including gametogenesis and fertilization, cleavage, gastrulation, pattern formation and organogenesis; in vivo imaging of development, methods to visualize gene expression and independent research; model organisms including sea urchin, fish, frog, chick, mouse. Prerequisites: BIOL:3233.

BIOL:3743 Basic Biology of Human Disease 2 s.h.  
Basic problems of infectious disease; selected viral, bacterial, and fungal pathogens, with emphasis on fungal pathogenesis; DNA fingerprinting; epidemiological study of disease dynamics. Prerequisites: BIOL:2512.

BIOL:3753 Developmental Neurobiology 3 s.h.  
Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:2753 with a minimum grade of C- or BIOL:3253 with a minimum grade of C-. Corequisites: BIOL:3253, if not taken as a prerequisite.

BIOL:3898 Teaching Internship in Biology 2 s.h.  
Training in teaching the laboratory component of a large General Education biology course; weekly session with instructor, shadowing and assisting a graduate teaching assistant in a lab section, leading laboratory exercises. Prerequisites: BIOL:1411 with a minimum grade of B and BIOL:1412 with a minimum grade of B. Requirements: junior or senior standing.

BIOL:3994 Introduction to Research 2-3 s.h.  
Conduct independent scientific research related to the field of biology.

BIOL:4213 Bioinformatics 4 s.h.  
Overview of bioinformatics topics, including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics and protein structure analysis; emphasis on each topic includes biological motivation, computational approach (practical and theoretical), and interpretation of output. Prerequisites: BIOL:3120 or MICR:3170 or BIOL:2512. Recommendations: grade of B+ or higher in BIOL:2512 or BIOL:3210, or graduate standing. Same as GENE:4213, IGPI:4213.

BIOL:4273 Population Genetics and Molecular Evolution 3 s.h.  
Nucleotide sequences, genes, and mutation; rates and patterns of nucleotide substitution; selection at the molecular level and the neutral theory; population genetics theory; genome evolution. Prerequisites: BIOL:2512 with a minimum grade of C- or BIOL:2211 with a minimum grade of C-. Requirements: grade of C- or higher in BIOL:2211 or BIOL:2512, or graduate standing. Recommendations: grade of C- or higher in BIOL:3172. Same as GENE:4273.

BIOL:4316 Summer Practicum in Genomics 2 s.h.  
Major areas of genomics, including sequence similarity searching, whole genome comparisons, phylogenetic analysis, and regulatory informatics; computer workshop experience in application of bioinformatics tools. Prerequisites: BIOL:4213 or BIOL:3314.

BIOL:4333 Genes and Development 3 s.h.  
Mechanisms by which genes control development of multicellular animals; methodology of scientific research applied to developmental genetics. Prerequisites: BIOL:2512 with a minimum grade of C-. Recommendations: BIOL:3233.

BIOL:4353 Neurophysiology: Cells and Systems 3-4 s.h.  
Physiological properties of nerve cells, nervous systems; axonal conduction, synaptic transmission, sensory transduction, integrative processes, higher functions. Prerequisites: (BIOL:2753 or BIOL:3253) and (MATH:1460 or MATH:1380 or MATH:1550 or MATH:1850) and ((PHYS:1511 and PHYS:1512) or (PHYS:1611 and PHYS:1612)). Same as NSCI:4353.

BIOL:4373 Molecular Evolution: Genes, Genomes, and Organisms 3 s.h.  
Theory underlying phylogenetic analysis with application of these methods to molecular data sets; analysis of multigene data, organellar, and nuclear genome sequences to reconstruct the history of cells. Prerequisites: BIOL:3172 with a minimum grade of C-. Same as IGPI:4373.

BIOL:4753 Developmental Neurobiology 3 s.h.  
Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:2753 with a minimum grade of C- or BIOL:3253 with a minimum grade of C-. Corequisites: BIOL:3253, if not taken as a prerequisite. Same as MPB:4753, NSCI:4753.

BIOL:4897 Teaching Internship in Biology 2-3 s.h.  
Training and practical experiences in the teaching of biology; includes a weekly training session with a Ph.D. instructor or course supervisor, active assistance of the primary instructor in one or more class meetings each week, and/or providing constructive written feedback on laboratory or classroom exercises; additional experiences may include leading a training session, co-teaching or lead-teaching one or more lab or classroom exercises, and assisting with the development of classroom activities or resources; specific experiences will vary depending on the course and supervisor needs. Prerequisites: BIOL:1411 with a minimum grade of B and BIOL:1412 with a minimum grade of B. Requirements: third- or fourth-year standing and interview with instructor.

BIOL:4898 Communicating Research 1 s.h.  
Independent, investigative research experience; research process and communication—establishing goals and expectations with a mentor, developing and framing a research hypothesis or question, communicating results in written and oral form to scientist and nonscientist audiences; supportive learning environment to share research experiences and develop identities as scientists, learn skills to become effective independent researchers and science communicators. Corequisites: BIOL:3994 or BIOL:4999.

BIOL:4995 Honors Research in Neuroscience arr.  
Students conduct independent scientific research related to the field of neuroscience. Requirements: honors standing in neuroscience, UI g.p.a. of at least 3.33, and neuroscience g.p.a. of at least 3.33. Same as PSY:4995.

BIOL:4998 Honors Seminar in Biology 2 s.h.  
Requirements: honors standing.
BIOL:4999 Honors Research in Biology arr. Students conduct independent scientific research related to the field of biology. Requirements: honors standing in biology, UI g.p.a. of at least 3.33, and biology g.p.a. of at least 3.33.

BIOL:5117 Topics in Molecular Genetics 1-2 s.h. Prerequisites: BIOL:2512 with a minimum grade of B-.

BIOL:5127 Topics in Cell and Development 1-2 s.h. Prerequisites: BIOL:2723 with a grade of B- or higher and (BIOL:3233 with a grade of B- or higher or BIOL:3363 with a grade of B- or higher).

BIOL:5157 Topics in Neurobiology 1-2 s.h. Topics vary. Prerequisites: BIOL:3253 with a minimum grade of B-.

BIOL:5177 Topics in Evolution and Ecology 1-2 s.h. Prerequisites: BIOL:3172 with a minimum grade of B-. Requirements: grades of B- or higher in BIOL:2512 and BIOL:3172, or graduate standing.

BIOL:5199 Critical Readings in Biology arr.

BIOL:5211 Genes, Genomes, and the Human Condition Graduate Lecture 3 s.h. Organization, expression, and evolution of genes in context of genomes; focus on human genome; distribution and transmission of variation in human population. Recommendations: BIOL:1411 highly recommended. Same as IGPI:5211.

BIOL:5218 Microscopy for Biomedical Research arr. Basic microscopy methods for research including optics, preparation, and analysis of biomedical specimens; light, fluorescence, confocal, transmitting electron, scanning electron, atomic force microscopes, elemental analysis; immunochrometry and stereology techniques; individualized laboratory instruction. Prerequisites: BIOL:2723. Same as ACB:5218, MICR:5218.

BIOL:5220 Advanced Microscopy for Biomedical Research arr. Technically advanced microscopy and instrumentation for research; individualized laboratory experience with opportunity to explore applications of microscopy methods. Requirements: for ACB:5220—an introductory microscopy course; for BIOL:5220—ACB:4156 or ACB:5218 or CBE:4156 or EES:4156 or MICR:5218; for MICR:5220—an introductory EM course. Same as ACB:5220, MICR:5220.

BIOL:5286 Monoclonal Antibody Technologies 2 s.h. Provides knowledge of screening and characterization methods for monoclonal antibodies, a powerful tool in molecular cytology, immunohistochemistry, and studies of gene regulation; methods include screening for monoclonal antibodies (mAbs), fluorescence-activated cell sorting (FACS) analysis, enzyme-linked immunosorbent assay (ELISA), Southern blot hybridization, cytochemistry, histochemistry, and induced polarization (IP).

BIOL:5320 Computational Genomics 3 s.h. Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Prerequisites: (BIOS:4120 or STAT:3510) and BME:5320 and (CS:5110 or ENGR:1300). Same as BME:5330, ECE:5220, GENE:5173, IGPI:5330.

BIOL:5512 Fundamental Genetics - Graduate Discussion 1 s.h. Critical evaluation of classic genetics papers. Requirements: biology graduate standing.

BIOL:553 Fundamental Neurobiology 4 s.h. Neurobiology from molecular/cellular to systems levels, including cell biology of neuron; membrane electrophysiology, synaptic transmission and plasticity, functional neuroanatomy, sensory systems from periphery to CNS, peripheral and central motor systems, autonomic systems emotion, memory, sleep, language, attention and cognition, development of nervous system; discussion of classic and recent journal articles. Same as NSCI:5653, PSY:5203.

BIOL:5753 Developmental Neuroscience 1 s.h. Neural induction and nervous system patterning; neurogenesis, axon, and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Prerequisites: BIOL:5653. Same as NSCI:5753.

BIOL:6188 Seminar: Writing in Natural Sciences 2 s.h. Writing and critiquing skills in the natural sciences.

BIOL:6199 Research: Biology arr.

BIOL:6265 Neuroscience Seminar 0-1 s.h. Research presentations. Offered fall and spring semesters. Same as ACB:6265, MPB:6265, NSCI:6265, PSY:6265.

BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar 1-2 s.h. Analysis and presentation of primary research on central biological questions utilizing a full array of model and non-model organisms and analytical approaches; development of effective skills in public speaking, presentation, and scientific writing.

BIOL:6899 Independent Study in Biology arr.

BIOL:7090 Principles of Scholarly Integrity 1 s.h. Training in responsible conduct of research; student/mentor responsibilities; authorship and reviewing; plagiarism/false publication/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: enrollment in graduate psychology or biology program. Same as PSY:7090.

BIOL:7604 Principles of Scholarly Integrity 0 s.h. Training in responsible conduct of research and scholarly activities; student/mentor responsibilities; authorship; plagiarism/false publication/fabrication of data; intellectual property; conflict of interest; fiscal, institutional, societal; treatment of human and animal subjects; data handling. Requirements: postdoctoral standing in psychology or biology. Same as PSY:7604.
Biology, B.A.

All biology majors complete the chemistry/physics/mathematics foundation and the biology core. In addition, B.A. students choose courses from several breadth menus and have a wider selection of elective courses, while B.S. students choose one of six tracks.

The department acquaints undergraduate students with the nature of practicing scientists’ work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4898 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department's research groups in experiments, discussion of current research, study of specialized topics, and attendance at research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 1701].

Requirements

The Bachelor of Arts with a major in biology requires a minimum of 120 s.h., including at least 64-74 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The major for the Bachelor of Arts prepares students for graduate study in the biological sciences and is especially appropriate for those interested in careers in biological science education at all levels. It also provides suitable preparation for professional positions in laboratory or field research or for professional study in medicine and other health-related fields.

The B.A. program is broadly based. It introduces students to key concepts in important areas of biology and, compared to the B.S. program, provides more flexibility in choosing elective courses. Students working toward a Bachelor of Arts degree must complete the chemistry/physics/math foundation; the biology core; one course from each of three breadth menus; one course with a laboratory; and three elective courses, which may include one course in the history or philosophy of science.

Students who wish to apply transfer credit toward graduation should consult their biology advisor.

The B.A. with a major in biology requires the following course work.

| Chemistry/Physics/Mathematics Foundation | 29 courses |
| Biology Core Courses | 16 |
| Breadth Menus | 9-11 |
| Course with a Laboratory | 4-6 |
| Electives | 6-12 |
| Total Hours | 64-74 |

Chemistry/Physics/Mathematics Foundation

All of these:

CHEM:1110 & CHEM:1120  
Principles of Chemistry I-II  8

CHEM:2210  
Organic Chemistry I  3

One of these:

BIOC:3110  
Biochemistry  3

CHEM:2220  
Organic Chemistry II  3

One of these sequences:

PHYS:1511-  
PHYS:1512  
College Physics I-II  8

PHYS:1611-  
PHYS:1612  
Introductory Physics I-II  8

One of these:

MATH:1460  
Calculus for the Biological Sciences  4

MATH:1550  
Engineering Mathematics I: Single Variable Calculus  4

MATH:1850  
Calculus I  4

One of these:

STAT:2010  
Statistical Methods and Computing  3

STAT:3510  
Biostatistics  3

Biology Core

All of these:

BIOL:1411-  
BIOL:1412  
Foundations of Biology - Diversity of Form and Function  8

BIOL:2512  
Fundamental Genetics  4

BIOL:3172  
Evolution  4

Breadth Menus

Students must complete at least one course from each of the following three breadth menus.

Molecular and Cellular Biology

BIOL:2723  
Cell Biology  3

BIOL:2753  
Introduction to Neurobiology  3

BIOL:3314  
Genomics  3

BIOL:3713  
Molecular Genetics  4

Developmental Biology and Physiology

BIOL:2254  
Endocrinology  3

BIOL:3233  
Introduction to Developmental Biology  3

BIOL:3343  
Animal Physiology  3

BIOL:3363  
Plant Developmental Biology  3

BIOL:3663  
Plant Response to the Environment  3

Ecology and Evolutionary Biology

BIOL:2374  
Biogeography  3

BIOL:2673  
Ecology  3-4

BIOL:3373  
Human Population Genetics and Variation  3

BIOL:4273  
Population Genetics and Molecular Evolution  3

Course with a Laboratory

One of these (must not have been used as a breadth menu course):

BIOL:2346  
Vertebrate Zoology  4
the B.A. elective requirement.

Internship in Biology (maximum of 2 s.h.) or Honors Research in Biology (maximum of 3 s.h.) and BIOL:4897 Teaching Internship in Biology (maximum of 2 s.h.) only once toward each elective. Students may count BIOL:3994 Introduction to Biochemistry as a biology elective. Students may use BIOC:3110 Biochemistry as a biology elective. In addition, students who have passed CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, and BIOC:3110 Biochemistry may use BIOC:3110 Biochemistry as a biology elective. Students may count BIOL:3994 Introduction to Research (maximum of 3 s.h.) and BIOL:4897 Teaching Internship in Biology (maximum of 2 s.h.) only once toward the B.A. elective requirement.

### Electives

Students complete at least three elective courses, which may include any course chosen from a breadth menu or from the list of courses with a laboratory that has not been used to satisfy those requirements, any other 2-4 s.h. course numbered 2000 or above except for BIOL:2211 Genes, Genomes, and the Human Condition offered by the Department of Biology, any approved advanced biology course taught at Iowa Lakeside Laboratory (both courses must be taken in the same semester) Iowa Lakeside Laboratory courses (consult advisor) 4-5

### Suggested Schedule for First-Year Science Courses

The following first-year schedule of science courses is recommended for all biology majors.

#### First-Semester Science Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM:1110</td>
<td>Principles of Chemistry I</td>
<td>4</td>

</tbody>
</table>

### B.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

### Joint B.A./M.A.T. with Science Education Subprogram

Bachelor of Arts students interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/ Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see "Joint B.A./M.A.T. with Science Education Subprogram" under Science Education (p. 1199) in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

### Joint B.A./Graduate Degrees in Epidemiology

Bachelor of Arts students majoring in biology who are interested in earning a Master of Science in epidemiology or a Master of Public Health with epidemiology subprogram may apply to the joint B.A./M.P.H. or joint B.A./M.S. program offered by the College of Liberal Arts and Sciences and the College of Public Health. The joint programs permit students to count 12 s.h. of credit toward the requirements of both degrees, enabling them to begin the study of public health before they complete the bachelor's degree. For information about the M.P.H., see "Epidemiology Subprogram" under Requirements (p. 1617) in the Master of Public Health section of the Catalog; for information about the M.S. program, see Master of Science in Epidemiology (p. 1048) in the Catalog.

### Iowa Lakeside Laboratory courses (consult advisor)

<tr>
<td>PHIL:3604</td>
<td>Introduction to Philosophy of Science</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students who have passed CHEM:2210 Organic Chemistry I, CHEM:2220 Organic Chemistry II, and BIOL:3110 Biochemistry may use BIOC:3110 Biochemistry as a biology elective. Students may count BIOL:3994 Introduction to Research (maximum of 3 s.h.) and BIOL:4897 Teaching Internship in Biology (maximum of 2 s.h.) only once toward the B.A. elective requirement.
Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The Biology Honors Program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department’s research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that a student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Honors Seminar in Biology (BIOL:4998), or an equivalent seminar, provides students with an ideal opportunity to improve their skills in seminar presentation and in writing scientific English. Throughout undergraduate residence, departmental honors students also may enroll in honors sections of courses offered by the Department of Biology and by other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology with a g.p.a. of at least 3.33 in all course work in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, physics, biochemistry, mathematics, and statistics);
- complete 1 s.h. in BIOL:4898 Communicating Research;
- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give a brief oral presentation of their research findings to other biology honors students.

Students may apply 6 s.h. of BIOL:4999 Honors Research in Biology toward the required course with a laboratory and count the 2 s.h. earned in BIOL:4898 Honors Seminar in Biology toward the elective requirement.

Biology majors interested in graduating with honors in the major should contact the biology honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Students who satisfy the requirements for honors in the biology major also satisfy the Level Two: Learning by Doing requirement of the University Honors Curriculum.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and three other courses in the major

Before the seventh semester begins: BIOL:2512 Fundamental Genetics, BIOL:3172 Evolution, PHYS:1511 College Physics I and PHYS:1512 College Physics II or equivalents, five or six more courses in the major, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

---

1. Enrollment in chemistry and math courses require completion of placement exams.
2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
4. Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Biology, B.S.

All biology majors complete the chemistry/physics/mathematics foundation and the biology core. In addition, B.S. students choose one of six tracks, while B.A. students choose courses from several breadth menus and have a wider selection of elective courses.

The department acquaints undergraduate students with the nature of practicing scientists’ work by offering BIOL:3994 Introduction to Research (requires a Department of Biology faculty sponsor), BIOL:4998 Communicating Research (a course supporting students involved in research), and BIOL:4999 Honors Research in Biology (requires membership in the Biology Honors Program). Students associate with one of the department’s research groups in experiments, discussion of current research, study of specialized topics, and attendance at research seminars.

Students interested in field biology, zoology, or botany may take varied courses in those subjects offered during the summer at Iowa Lakeside Laboratory [p. 1701].

Requirements

The Bachelor of Science with a major in biology requires a minimum of 120 s.h., including at least 65-76 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The major is divided into six tracks that emphasize the most dynamic and active areas in the biological sciences. Five of the tracks—cell and developmental biology, genetics and biotechnology, evolutionary biology, neurobiology, and plant biology—emphasize distinct areas. The sixth track—comprehensive biology—provides highly diverse content. Students working toward a Bachelor of Science degree must complete the chemistry/physics/mathematics foundation, the biology core, and one of the six tracks.

Students who wish to apply transfer credit toward graduation with a major in biology should consult their biology advisor.

The B.S. with a major in biology requires the following course work.

Chemistry/Physics/Mathematics/Physics Foundation Courses

<table>

Tracks for the Bachelor of Science

Bachelor of Science students majoring in biology must select a single track. Each track includes seven or eight courses. The experiential elective requirement may be satisfied by taking an appropriate investigative lab for the track, or through several other options: students who use BIOL:4999 Honors Research in Biology to fulfill the experiential elective requirement must complete a minimum of 6 s.h. in that course; students who use BIOL:3994 Introduction to Research must complete a minimum of 5 s.h. in that course in combination with 1 s.h. in BIOL:4898 Communicating Research; and students who use BIOL:4897 Teaching Internship in Biology must complete a minimum of 4 s.h. in that course.

Cell and Developmental Biology Track

The cell and developmental biology track provides education in the structure and function of cells and in the principles of development as they apply to animals and plants. This track is appropriate for students who wish to pursue graduate study in cellular and developmental biology, to prepare for professional study in medicine and other health-related fields, or to take positions in laboratories and companies engaged in cancer research and related fields.

**Evolutionary Biology Track**

The evolutionary biology track provides education in the principles of evolution as they apply to understanding diversity within and among species, from genomic, ecological, and historical perspectives. This track is appropriate for students who wish to pursue graduate study in evolutionary biology and related fields or to take positions in laboratories using population genetics or phylogenetic approaches such as forensics, fisheries, and human disease mapping.

### Genetics and Biotechnology Track

The genetics and biotechnology track provides education in the key principles of transmission, maintenance, regulation, and manipulation of genes. This track is appropriate for students who wish to pursue graduate study in fields related to genetics or to enter the modern biotechnology industry. It also provides excellent preparation for professional study in medicine and other health-related fields.

**Group 1 (Biochemistry)**

One of these:
- **BIOC:3110** Biochemistry 3
- **BIOC:3120 & BIOC:3130** Biochemistry and Molecular Biology I-II

**Group 2 (Genetics Core)**

All of these:
- **BIOL:3314** Genomics 3
- **BIOL:3713** Molecular Genetics 4
- **BIOL:3716** Genetics and Biotechnology Lab 4

**Group 3 (Experiential Elective)**

One of these:
- **BIOL:3626** Cell Biology Laboratory 4
- **BIOL:3676** Evolution Lab 4
- **BIOL:3716** Genetics and Biotechnology Lab 4
- **BIOL:3736** Developmental Biology Lab 4
- **BIOL:3994 & BIOL:4898** Introduction to Research - Communicating Research (BIOL:3994 must be taken for a total of 5 s.h.)
- **BIOL:4897** Teaching Internship in Biology (must be taken two different semesters for a total of 4 s.h.)
- **BIOL:4999** Honors Research in Biology (in neurobiology) 6

**Group 4 (Electives)**

At least two of these, with a minimum of one course numbered 3000 or above:
- **BIOL:2603** Mechanisms of Aging 3
- **BIOL:2723** Cell Biology 3
- **BIOL:3233** Introduction to Developmental Biology 3
- **BIOL:3363** Plant Developmental Biology 3
- **BIOL:3663** Plant Response to the Environment 3
- **BIOL:4213** Bioinformatics 4
- **BIOL:4273** Population Genetics and Molecular Evolution 3
- **BIOL:4333** Genes and Development 3
- **BIOL:4373** Molecular Evolution: Genes, Genomes, and Organisms 3
- **ANTH:2320** Anthropological Perspectives on Human Infectious Disease: Origins and Evolution 3
- **MICR:3170** Microbial Genetics 3

### Neurobiology Track

The neurobiology track provides education in nervous system function at all levels, from molecular to systems biology. This track is appropriate for students who wish to pursue graduate study in neurobiology and related areas, including psychology and the social sciences; to enter laboratories that study the therapeutic basis of neurological disorders; or to work in pharmaceutical companies. It also provides good preparation for professional study in medicine and other health-related fields.

**Group 1 (Biochemistry)**

One of these:
- **BIOC:3110** Biochemistry 3
- **BIOC:3120 & BIOC:3130** Biochemistry and Molecular Biology I-II

**Group 2 (Neurobiology Core)**

All of these:
- **BIOL:2753** Introduction to Neurobiology 3
- **BIOL:3244** Animal Behavior 5
- **BIOL:3253** Neurobiology 4
- **BIOL:3656** Neurobiology Laboratory 4

**Group 3 (Experiential Elective)**

One of these:
- **BIOL:3626** Cell Biology Laboratory 4
- **BIOL:3676** Evolution Lab 4
- **BIOL:3716** Genetics and Biotechnology Lab 4
- **BIOL:3736** Developmental Biology Lab 4
- **BIOL:3994 & BIOL:4898** Introduction to Research - Communicating Research (BIOL:3994 must be taken for a total of 5 s.h.)
- **BIOL:4897** Teaching Internship in Biology (must be taken two different semesters for a total of 4 s.h.)
- **BIOL:4999** Honors Research in Biology (in neurobiology) 6

**Group 4 (Electives)**

At least two of these, with a minimum of one course numbered 3000 or above:
- **BIOL:2254** Endocrinology 3
- **BIOL:2603** Mechanisms of Aging 3
- **BIOL:2723** Cell Biology 3
- **BIOL:3233** Introduction to Developmental Biology 3
- **BIOL:3343** Animal Physiology 3
- **BIOL:4333** Genes and Development 3
- **BIOL:4353** Neurophysiology: Cells and Systems 3
- **BIOL:4753** Developmental Neurobiology 3

### Plant Biology Track

The plant biology track provides education in how plants grow, how they have evolved, and how they interact with other organisms. This track is appropriate for students who wish to pursue graduate study in biology specializing in plants. It also is good preparation for positions in plant biotechnology companies that work in biofuels development, crop improvement, or carbon dioxide sequestration, or in agencies dedicated to the conservation of natural lands.

**Group 1 (Biochemistry)**

One of these:
- **BIOC:3110** Biochemistry 3
**Group 2 (Plant Biology Core)**

Both of these:
- BIOL:3363 Plant Developmental Biology 3
- BIOL:3663 Plant Response to the Environment 3

One of these:
- BIOL:3676 Evolution Lab 4
- BIOL:3716 Genetics and Biotechnology Lab (if not used for group 2 above) 4

**Group 3 (Experiential Elective)**

One of these:
- BIOL:3626 Cell Biology Laboratory 4
- BIOL:3676 Evolution Lab (if not used for group 2 above) 4
- BIOL:3716 Genetics and Biotechnology Lab (if not used for group 2 above) 4
- BIOL:3736 Developmental Biology Lab 4
- BIOL:3994 & BIOL:4898 Introduction to Research - Communicating Research (BIOL:3994 must be taken for a total of 5 s.h.) 6
- BIOL:4897 Teaching Internship in Biology (must be taken two different semesters for a total of 4 s.h.) 4
- BIOL:4999 Honors Research in Biology (in plant biology) 6

An approved Iowa Lakeside Laboratory course on plant diversity or plant ecology 4

**Group 4 (Electives)**

At least two of these, with a minimum of one course numbered 3000 or above:
- BIOL:2374 Biogeography 3
- BIOL:2673 Ecology 3-4
- BIOL:2723 Cell Biology 3
- BIOL:3233 Introduction to Developmental Biology 3
- BIOL:3314 Genomics 3
- BIOL:3373 Human Population Genetics and Variation 3
- BIOL:3473 Population Genetics and Molecular Evolution 3
- EES:4700 Evolution of Ecosystems 3

**Comprehensive Biology Track**

The comprehensive biology track offers a diverse, well-balanced introduction to the major fields of biology. This track prepares students for graduate study in the biological sciences and in science education and for work in laboratories that engage in research and applications in many fields of biology. It also provides broadly based preparation for professional study in medicine and other health-related fields.

**Group 1 (Biochemistry and Molecular Biology)**

One of these sequences:
- BIOC:3120 & BIOC:3130 Biochemistry and Molecular Biology I-II 6
- BIOC:3110 Genomics - Biochemistry 6
- BIOC:3110 Molecular Genetics - Biochemistry 7

**Group 2 (Cellular Biology)**

One of these:
- BIOL:2723 Cell Biology 3
- BIOL:2753 Introduction to Neurobiology 3

**Group 3 (Biological Systems)**

One of these:
- BIOL:2254 Endocrinology 3
- BIOL:3233 Introduction to Developmental Biology 3
- BIOL:3244 Animal Behavior 3,5
- BIOL:3343 Animal Physiology 3
- BIOL:3363 Plant Developmental Biology 3
- BIOL:3663 Plant Response to the Environment 3

**Group 4 (Population Biology)**

One of these:
- BIOL:2374 Biogeography 3
- BIOL:2673 Ecology 3
- BIOL:3373 Human Population Genetics and Variation 3
- BIOL:4273 Population Genetics and Molecular Evolution 3

**Group 5 (Investigative Lab)**

One of these:
- BIOL:3626 Cell Biology Laboratory 4
- BIOL:3656 Neurobiology Laboratory 4
- BIOL:3676 Evolution Lab 4
- BIOL:3716 Genetics and Biotechnology Lab 4
- BIOL:3736 Developmental Biology Lab 4

**Group 6 (Experiential Elective)**

At least one of these:
- BIOL:3626 Cell Biology Laboratory (if not used for group 5 above) 4
- BIOL:3656 Neurobiology Laboratory (if not used for group 5 above) 4
- BIOL:3676 Evolution Lab (if not used for group 5 above) 4
- BIOL:3716 Genetics and Biotechnology Lab (if not used for group 5 above) 4
- BIOL:3736 Developmental Biology Lab (if not used for group 5 above) 4
- BIOL:3999 Honors Research in Biology 6

An approved Iowa Lakeside Laboratory course 4
Suggested Schedule for First-Year Science Courses
The following first-year schedule of science courses is recommended for all biology majors.

First-Semester Science Courses
- CHEM:1110  Principles of Chemistry I  4
- Calculus or mathematics leading to calculus  3-4

Second-Semester Science Courses
- BIOL:1411  Foundations of Biology  4
- CHEM:1120  Principles of Chemistry II  4
- Calculus (if not taken during the first semester)  4

B.S. with Teacher Licensure

majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See B.S. in Science Education (p. 1186) in the Teaching and Learning section of the Catalog.

Honors

Honors in the Major

Students majoring in biology have the opportunity to graduate with honors in the major. The Biology Honors Program introduces students to the pursuits of practicing scientists. Honors students associate with one of the department’s research groups and participate in an independent research project guided by a faculty member (the research supervisor).

Biology honors students write a thesis based on an interesting biological problem, which is usually identified by the research supervisor. The thesis should clearly document that the student has acquired the necessary experimental skills to address specific questions and test specific hypotheses related to the research problem. Honors Seminar in Biology (BIOL:4998), or an equivalent seminar, provides students with an ideal opportunity to improve their skills in seminar presentation and in writing scientific English. Throughout undergraduate residence, departmental honors students also may enroll in honors sections of courses offered by the Department of Biology and by other departments and programs.

To graduate with honors in the biology major, students must fulfill the following requirements:

- complete the requirements for a major in biology with a g.p.a. of at least 3.33 in all course work in the major taken at the University of Iowa (including all biology courses and cognates in chemistry, physics, biochemistry, mathematics, and statistics);
- complete 1 s.h. in BIOL:4899 Honors Research in Biology;
- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give a brief oral presentation of their research findings to other biology honors students.

Students may apply 6 s.h. of BIOL:4999 Honors Research in Biology toward the experiential elective requirement in an appropriate track.

Biology majors interested in graduating with honors in the major should contact the biology honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Visit Biology Honors Program to learn more about honors study in the department.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Students who satisfy the requirements for honors in the biology major also satisfy Level Two: Learning by Doing of the University Honors Requirements.

Membership in the UI Honors Program is not required to earn honors in the biology major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: MATH:1460 Calculus for the Biological Sciences or MATH:1850 Calculus I or MATH:1550 Engineering Mathematics I; Single Variable Calculus, CHEM:1110 Principles of Chemistry I, CHEM:1120 Principles of Chemistry II, and BIOL:1411 Foundations of Biology

Before the fifth semester begins: BIOL:1412 Diversity of Form and Function, CHEM:2210 Organic Chemistry I, STAT:2010 Statistical Methods and Computing or STAT:3510 Biostatistics, and two other courses in the major

Before the seventh semester begins: BIOL:2512 Fundamental Genetics; BIOL:3172 Evolution; PHYS:1511 College Physics I and PHYS:1512 College Physics II or equivalents; five or six more courses in the major, including an investigative lab; and at least 90 s.h. earned toward the degree

Before the eighth semester begins: two or three more courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

| Elective course | | 3     |
|          | Hours                                                                 | 15-16 |

Total Hours 121-132

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4 Enrollment in chemistry and math courses require completion of placement exams.

5 Biochemistry option can be one semester of BIOC:3110 Biochemistry or two semesters of BIOC:3120 Biochemistry and Molecular Biology I and BIOC:3130 Biochemistry and Molecular Biology II.

| Career Advancement |

The major in biology prepares students to enter research or service careers associated with private industry or government programs and for primary and secondary school teaching. It also prepares them to enter advanced degree programs leading to careers in higher education and to independent research in a variety of biological fields, or for practice in health professions such as medicine, dentistry, pharmacy, nursing, veterinary medicine, medical technology, and physical therapy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Biology, Minor

The undergraduate minor in biology requires a minimum of 15 s.h. in biology courses, including 12 s.h. in courses numbered 2000 or above offered by the Department of Biology at the University of Iowa or in approved Iowa Lakeside Laboratory courses. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may not count transfer courses as courses numbered 2000 or above.
Integrated Biology, M.S.

The Department of Biology's graduate programs in integrated biology emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

When new graduate students are admitted, they are assigned a temporary advisor. Each student and the advisor discuss the student's educational background and formulate a first-semester study plan before the student registers for courses. The programs allow each student to tailor course work to the research interest of the student. Students may be advised to take specific course work in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, and physics does not meet the department's graduate entry requirements may need to remedy deficiencies by taking appropriate course work. Minimum entry requirements are:

- two semesters of organic chemistry, or one semester of organic chemistry and one semester of biochemistry;
- one semester of calculus;
- two semesters of college physics; and
- 20 s.h. of course work in biology.

A student with a bachelor's degree outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Requirements

The Master of Science program in integrated biology requires 30 s.h. of graduate credit with thesis or 34 s.h. of graduate credit without thesis. Entering students are admitted only to the thesis program; however, students who decide not to continue their studies may opt for the nonthesis program.

M.S. students must enroll in at least two advanced lecture courses (or courses approved by the Graduate Affairs Committee). They also take one seminar course (2 s.h.), that has a significant writing and oral presentation component, as well as BIOL:6188 Seminar: Writing in Natural Sciences. At the end of the first year, students take a qualifying exam that consists of essay questions based on major themes in biology. Students must perform satisfactorily on this exam to continue in the program.

Thesis students may count a maximum of 9 s.h. of research credit toward the 30 s.h. required for the master's degree with thesis. Remaining course work is tailored to a student's background and career goals and is selected in consultation with the student's advisory committee. The thesis is based on original research. After the thesis is accepted by the student's supervisor and advisory committee, the student must pass an oral examination based on the thesis research and on related subjects.

Nonthesis students must write a library research report for a maximum of 4 s.h. of credit. They may apply up to 8 s.h. of research credit toward the 34 s.h. required for the master's degree without thesis.

Visit Integrated Biology Graduate Program for more detailed information about the Master of Science program.

Admission

Individuals who wish to pursue graduate study in integrated biology may apply to the Master of Science with thesis program. The M.S. without thesis is an exit program and does not admit entering graduate students.

Application materials for the graduate program must be uploaded to the University's Office of Admissions website. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit iBio Application on the integrated biology graduate program website.

Applicants must hold a valid B.A. or B.S. from an accredited institution. Applicants should supply official transcripts from each undergraduate and graduate institution they have attended along with scores from the Graduate Record Examination (GRE) General Test (verbal, quantitative, and analytical writing). The GRE Subject Test in biology or biochemistry is optional but not required.

Applicants whose first language is not English must score at least 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL) and have their score sent to the Office of Admissions. International applicants who received their degrees (either bachelor's or master's) from a U.S. institution are exempt from this requirement. All international students whose first language is not English are required to take the on-campus English Proficiency Evaluation before they first enroll for classes.

Successful applicants for graduate admission typically have a g.p.a. of at least 3.00 (on a 4.00 scale) and a Graduate Record Examination (GRE) General Test score above 1200 (combined verbal and quantitative) on the older GRE test or 308 (combined verbal and quantitative) on the revised GRE. The admissions committee also considers letters of recommendation, research experience, and other appropriate criteria.

Although most applicants have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, provided they have taken the required course work.

Students applying for admission to the M.S. with thesis program should have a bachelor's degree in one of the biological sciences. Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students must complete chemistry, physics, and calculus requirements in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying for admission.

Applications are due by January 1 (visit Integrated Biology Graduate Program for updated deadline information) and must include the applicant's GRE test scores. In order to meet the deadline, applicants must take the GRE in October or earlier. Late applications are considered as placement and funding permit.
Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Financial Support**

M.S. students generally are supported by available research or teaching assistantships. Offers of admission include information about offers of financial support.

**Career Advancement**

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Integrated Biology, Ph.D.

The Department of Biology's graduate programs in integrated biology emphasize original research and developing the skills essential for publishing and communicating research findings to the scientific community. Research programs in the department cover many areas of the biological sciences: cell biology, developmental biology, ecology, evolution, genetics, and neurobiology. Graduate study in the department provides students with a broad understanding of these basic areas.

When new graduate students are admitted, they are assigned a temporary advisor. Each student and the advisor discuss the student's educational background and formulate a first-semester study plan before the student registers for courses. The programs allow each student to tailor course work to the research interest of the student. Students may be advised to take specific course work in order to enhance their background in certain areas.

During the first year, students whose preparation in chemistry, genetics, mathematics, and physics does not meet the department's graduate entry requirements may need to remedy deficiencies by taking appropriate course work.

Minimum entry requirements are:
- two semesters of organic chemistry, or one semester of organic chemistry and one semester of biochemistry;
- one semester of calculus;
- two semesters of college physics; and
- 20 s.h. of course work in biology.

A student with a bachelor's degree outside the biological sciences may request modification of certain area requirements. The Graduate Affairs Committee decides whether portions of the requirements may be waived.

Requirements

The Doctor of Philosophy program in integrated biology requires a minimum of 72 s.h. of graduate credit.

New Ph.D. students will go through three laboratory rotations with different faculty during their first semester (August-December). Students consult with their temporary advisors and with prospective faculty research sponsors before identifying their preferences for research rotations. Based on their rotations, they choose a laboratory affiliation for their thesis. This is done late in the first semester.

During the first year (both semesters), students are required to enroll in BIOL:6298 Concepts, Models, and Systems in Biology (COSMOS) Seminar, which introduces them to multiple levels of biological analysis and provides them with significant opportunities to hone their skills in written and oral communication. At the end of the first year, students take a qualifying exam that consists of essay questions based on major themes in biology. Students must perform satisfactorily on this exam in order to continue in the program.

During the first two years, students must enroll in at least two advanced lecture courses (or courses approved by the Graduate Affairs Committee), one approved data informatics or statistics course, and one free elective (either another advanced lecture or informatics course). Prior to the comprehensive examination, students also take a seminar course (2 s.h.), that has a significant writing and oral presentation component, and BIOL:6188 Seminar: Writing in Natural Sciences.

The comprehensive examination is taken in the summer of the second year in residence. Students prepare a National Institutes of Health/National Science Foundation-style grant application on their planned thesis work and orally defend this work in front of a review committee. Students must demonstrate knowledge of biology fundamentals and the analytic and synthetic skills necessary to become creative, independent scientists. Once they complete the course work and proficiency requirements and pass the comprehensive examination, students may be admitted to full candidacy for the Ph.D.

Following comprehensive examinations, Ph.D. students must take at least two additional seminar courses (2 s.h. each). Seminar courses from other departments may be approved by the Graduate Affairs Committee in consultation with the faculty advisor to satisfy the requirement.

Ph.D. students must serve as teaching assistants for at least two semesters in order to develop and demonstrate teaching. The first teaching semester takes place during the spring of the student's first year and is preceded by extensive departmental training in effective teaching skills.

The department also offers career seminars that explore types of employment outside of academic research, including teaching careers and other topics.

The program culminates in students' preparation of a dissertation based on original independent research. Students must pass a final examination that covers the thesis and its specialized field before the Ph.D. is awarded.

Visit Integrated Biology Graduate Program for more detailed information about the Doctor of Philosophy program.

Admission

Application materials for the graduate program must be uploaded to the University's Office of Admissions website. These are reviewed by the Department of Biology Graduate Recruitment and Admissions Committee. For detailed instructions, visit iBio Application on the integrated biology graduate program website.

Applicants must hold a valid B.A. or B.S. from an accredited institution. Applicants should supply official transcripts from each undergraduate and graduate institution they have attended along with scores from the Graduate Record Examination (GRE) General Test (verbal, quantitative, and analytical writing). The GRE Subject Test in biology or biochemistry is optional but not required.

Applicants whose first language is not English must score at least 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL) and have their score sent to the Office of Admissions. International applicants who received their degrees (either bachelor's or master's) from a U.S. institution are exempt from this requirement. All international students whose first language is not English are required to take the on-campus English Proficiency Evaluation before they first enroll for classes.

Successful applicants for graduate admission typically have a g.p.a. of at least 3.00 (on a 4.00 scale) and a Graduate Record Examination (GRE) General Test score above 1200 (combined verbal and quantitative) on the older GRE test or 308 (combined verbal and quantitative) on the revised GRE. The admissions committee also considers letters of
recommendation, research experience, and other appropriate criteria.

Although most applicants have completed undergraduate programs in biology, the department also considers applicants with backgrounds in related sciences, providing they have taken the required course work.

Students with bachelor's degrees in other areas may need to register as nondegree students and complete the equivalent of the department's bachelor's degree program prior to consideration for admission. Nondegree students must complete chemistry, physics, and calculus requirements in addition to the biology courses listed in the undergraduate program. Nondegree students should consult the department's graduate program administrator before applying for admission.

Applications are due by January 1 (visit Integrated Biology Graduate Program for updated deadline information) and must include the applicant's GRE test scores. In order to meet the deadline, applicants must take the GRE in October or earlier. Late applications are considered as placement and funding permit.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

All graduate students making satisfactory progress toward the Ph.D. receive stipend and tuition support from non-University of Iowa fellowships and from teaching assistantships or research assistantships available through individual research grants administered by faculty members or by the University. First-year Ph.D. students are supported by department fellowships during the research rotation period and by teaching assistantships during the spring semester. Offers of admission include information about offers of financial support.

Career Advancement

The graduate program in integrated biology prepares students for careers in academic research, science education, industry, government, and a variety of other careers in which their scientific expertise can be used.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Biomedical Sciences

Chair, Department of Biology
• Diane C. Slusarski

Director, Biomedical Sciences
• Bryant F. McAllister

Undergraduate major: biomedical sciences (B.S.)

Biomedical sciences is an interdisciplinary major designed for students who plan to attend medical school or conduct biomedical research in graduate school and beyond. The curriculum stretches broadly across scientific and mathematical fields. The major is selective, with a limited number of students admitted, and the curriculum is challenging, requiring dedication by its students, who are mentored by faculty members from the participating disciplines.

The Departments of Biochemistry, Biology, Chemistry, and Microbiology and Immunology collaborate to present the major in biomedical sciences; the major is administered by the Department of Biology [p. 152].

Programs

Undergraduate Program of Study

Major
• Major in Biomedical Sciences (Bachelor of Science) [p. 177]
Biomedical Sciences, B.S.

Requirements

The Bachelor of Science with a major in biomedical sciences requires a minimum of 120 s.h., including at least 78-83 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The interdisciplinary major provides an excellent foundation for medical training and for research and/or practice in the chemical, genetic, cellular, and physiological bases of human disease. The curriculum includes required and elective course work in biochemistry, biology, chemistry, health and human physiology, mathematics, microbiology and immunology, physics, psychology, sociology, and statistics. Students who wish to apply transfer credit toward the major should consult their departmental advisor.

The B.S. with a major in biomedical sciences requires the following course work.

Honors

Honors in the Major

Students majoring in biomedical sciences are encouraged to graduate with honors in the major. Honors students in the major may enroll in honors sections of courses offered by the Department of Biology and by other departments and programs. They also are advised to participate in the Iowa Center for Research by Undergraduates (ICRU) and to apply for research scholarships.
To graduate with honors, students must fulfill the following requirements:

- complete the requirements for a major in biomedical sciences with a g.p.a. of at least 3.33 in all University of Iowa course work in the major;
- complete 1 s.h. in BIOL:4898 Communicating Research;
- complete 2 s.h. in either BIOL:4998 Honors Seminar in Biology or an advanced biology seminar course;
- complete a minimum of 6 s.h. (taken over two or more semesters) of BIOL:4999 Honors Research in Biology;
- write a brief research proposal summarizing the background and goals of their proposed honors research;
- upon completion of their research, submit an acceptable honors thesis; and
- give an oral presentation of their research findings.

Biomedical sciences majors interested in graduating with honors in the major should contact the biomedical sciences honors advisor as early as possible, preferably during their sophomore or junior year, so that they may be matched with an appropriate lab. Contact the Department of Biology to learn more about honors in the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the biomedical sciences major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Before the seventh semester begins:** BIOC:3120 Biochemistry and Molecular Biology I, BIOC:3140 Experimental Biochemistry, BIOL:2211 Genes, Genomes, and the Human Condition, BIOL:3373 Human Population Genetics and Variation, STAT:3510 Biostatistics, and CHEM:2410 Organic Chemistry Laboratory or BIOC:3140 Experimental Biochemistry

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Major: investigative lab or elective course  3-4
GE: Values and Culture [p. 473]  3

Hours  15-17

Total Hours  123-137

1 Enrollment in chemistry and math courses require completion of placement exams.
2 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
4 Students may use their elective courses to complete a double major, minors, or certificates.

Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Chemistry

Chair

• James B. Gloer

Undergraduate major: chemistry (B.A., B.S.)
Undergraduate minor: chemistry
Graduate degrees: M.S. in chemistry; Ph.D. in chemistry
Faculty: https://chem.uiowa.edu/people
Website: https://chem.uiowa.edu/

The Department of Chemistry is committed to providing its undergraduate students with the skills needed to comprehend and confront the scientific challenges of the new century. The department's strong and vibrant undergraduate chemistry program is an environment where students can develop and ultimately find success in their chosen career paths.

The graduate programs in chemistry train scholars to lead efforts in chemistry research and teaching. One of the primary goals is to train students to become independent scientists. The department offers course work to provide the foundational knowledge that enhances student efforts in the laboratory.

Student Organizations

A number of organizations are open to undergraduate students for support and enrichment.

Students may join the University of Iowa undergraduate student chapter of the American Chemical Society (ACS). Chapter activities include dinner meetings with guest speakers, field trips to local industry, participation in local and national meetings of the ACS, and participation in chemistry outreach programs. Students in the ACS student chapter develop leadership, organization, and speaking skills valuable during their college experience and throughout their careers.

The department has a chapter of Alpha Chi Sigma, a coed chemistry fraternity. The Alpha Theta Chapter is open to students in chemistry, biochemistry, chemical engineering, and related fields. Alpha Chi Sigma sponsors many social and professional events throughout the year.

The department endorses the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE), which is committed to discovery, transmittal, and application of knowledge in science and engineering and to increasing the participation of underrepresented populations in these fields. NOBCChE sponsors diverse programs designed to foster professional development and to encourage students to pursue careers in science and technical fields.

The department also supports the activities of Women in Science and Engineering (WISE), whose aim is to increase women's participation and advancement as students, faculty members, and professional staff; promote a supportive study and work environment for women; integrate women's ideas, strengths, and approaches into research, teaching, and service; and inform the public of educational and career opportunities for women in scientific and technical fields. WISE sponsors a living-learning community in a University residence hall for first-year female students majoring in science or engineering, the Student-to-Student Support in Science mentoring program, a service learning program, and the WISE Discourse and Dining series.

Facilities

The Department of Chemistry's main office, support facilities, and faculty offices are located in the Chemistry Building, as is laboratory and classroom space dedicated to teaching and research activities. Several faculty members have offices and laboratories in the Iowa Advanced Technology Laboratories across the street from the Chemistry Building. Extensive resources are readily accessible such as NMR, mass spectrometry, and X-ray analysis facilities, advanced computational resources, and complete machine, electronics, and glass shops. See the Department of Chemistry website for information about facilities and advanced instrumentation available for instruction and research.

The Chemistry Center serves all students who take chemistry courses as well as the department's professors and teaching assistants. The center maintains wait lists and offers other assistance with registration, returns examinations and homework assignments, schedules alternative exams, and provides information about all lower-level chemistry courses. Information about student organizations and departmental scholarships and awards also is available at the Chemistry Center.

Courses

Students planning to take more than one year of chemistry should take CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II.

Students who require only one year of chemistry with no laboratory component may take CHEM:1070 General Chemistry I and CHEM:1080 General Chemistry II.

Students who have not had high school chemistry or do not have strong math and/or chemistry preparation should consider taking CHEM:1070 General Chemistry I before CHEM:1110 Principles of Chemistry I; academic advisors and the Chemistry Diagnostic Test can help students determine which of these courses to take first.
### Chemistry Courses

**CHEM:1000 First-Year Seminar** 1-2 s.h. 
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**CHEM:1050 Technology and Society** 3 s.h. 
Nonmathematical exploration of selected areas of technology; basic science background, current technological applications, implications for society; for nonscience majors. Recommendations: closed to students who have taken college chemistry courses. GE: Natural Sciences without Lab.

**CHEM:1060 Technology and Society Laboratory** 1 s.h. 
Laboratory for CHEM:1050; demonstrations, student experiments. Corequisites: CHEM:1050 if not taken as a prerequisite. Requirements: closed to students who have earned more than 3 s.h. in chemistry courses. GE: Natural Sciences Lab only.

**CHEM:1070 General Chemistry I** 3 s.h. 
Atomic structure, chemical bonds, mole relations, stoichiometry, states of matter, acids and bases, reaction rates, electrochemistry, nuclear chemistry. Requirements: elementary algebra. GE: Natural Sciences without Lab.

**CHEM:1080 General Chemistry II** 3 s.h. 
Organic chemistry and biochemistry. Requirements: CHEM:1070 or high school chemistry. GE: Natural Sciences without Lab.

**CHEM:1090 Supplemental Chemistry Lab** 1 s.h. 
Lab techniques, elementary synthesis, measurement, analysis, case-study lectures and experiments; safety glasses, appropriate dress, compliance with laboratory safety protocols required.

**CHEM:1100 Chemistry in Industry and the Economy** 3 s.h. 
Atomic structure, chemical bonding, acid and bases, polymers, pharmaceutics, DNA, proteins, and basic economics. Requirements: non-science major. GE: Natural Sciences without Lab.

**CHEM:1110 Principles of Chemistry I** 4 s.h. 
Chemical bonding and chemical reactions; atomic and molecular structure, chemical equations, stoichiometry, gases, liquids, thermodynamics of phase changes, solutions, equilibrium, acids, bases, pH, elementary organic chemistry; the solid state, including modern materials; lecture, discussion, laboratory. Requirements: MATH:1005 with a minimum grade of C-, or ACT math subscore of 24, or ALEKS score above 60%. Recommendations: Chemistry Diagnostic Test score of 16. GE: Natural Sciences with Lab.

**CHEM:1120 Principles of Chemistry II** 4 s.h. 
Continuation of CHEM:1110; colligative properties of solutions, chemical thermodynamics, electrochemistry, chemical kinetics, chemical bonding, aspects of industrial chemistry, nuclear chemistry; lecture, discussion, laboratory. Requirements: CHEM:1110. GE: Natural Sciences with Lab.

**CHEM:1160 Principles of Chemistry Lab** 2 s.h. 
Laboratory techniques. Requirements: grades of C or higher in CHEM:1180 and CHEM:1190. GE: Natural Sciences Lab only.

**CHEM:1180 Chemical Science I** 3 s.h. 
GE: Natural Sciences without Lab.

**CHEM:1190 Chemical Science II** 3 s.h. 
GE: Natural Sciences without Lab.

**CHEM:1200 Chemical Science Laboratory** 2 s.h. 
GE: Natural Sciences Lab only.

**CHEM:2021 Fundamentals of Chemical Measurements** 3 s.h. 
Continuation of CHEM:1120; laboratory introducing experimental and data analysis techniques used in performing quantitative chemical measurements; topics include titrations, spectrophotometry, potentiometry, chromatography, and statistical techniques for use in data processing and interpretation. Prerequisites: CHEM:1120. Requirements: chemistry major.

**CHEM:2210 Organic Chemistry I** 3 s.h. 
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, ethers, alcohols, and alkyl halides. Prerequisites: CHEM:1120.

**CHEM:2220 Organic Chemistry II** 3 s.h. 
Continuation of CHEM:2210; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, aromatics, amino acids, carbohydrates, nucleosides. Prerequisites: CHEM:2210 or CHEM:2230.

**CHEM:2230 Organic Chemistry I for Majors** 3 s.h. 
Carbon-containing compounds; structure, stereochemistry, physical properties, reactivity, reaction mechanisms, synthesis; emphasis on alkanes, alkenes, alkynes, alcohols, alkyl halides, aromatics. Prerequisites: CHEM:1120 or CHEM:1190. Requirements: chemistry, biochemistry, or chemical engineering major.

**CHEM:2240 Organic Chemistry II for Majors** 3 s.h. 
Continuation of CHEM:2230; use of spectroscopic techniques to determine chemical structures; chemistry of carbonyl compounds, amines, ethers, amino acids, carbohydrates, and nucleosides. Prerequisites: CHEM:2210 or CHEM:2230. Requirements: chemistry, biochemistry, or chemical engineering major.

**CHEM:2410 Organic Chemistry Laboratory** 3 s.h. 
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: CHEM:1120 and (CHEM:2210 or CHEM:2230). Corequisites: CHEM:2220 or CHEM:2240.

**CHEM:2420 Organic Chemistry Laboratory for Majors** 3 s.h. 
Preparation, purification, identification, analysis of chemical compounds, principally organic compounds. Prerequisites: (CHEM:2210 or CHEM:2230) and CHEM:1120. Corequisites: CHEM:2220 or CHEM:2240. Requirements: chemistry, biochemistry, or chemical engineering major.

**CHEM:3110 Analytical Chemistry I** 3 s.h. 
Modern theory and practice; emphasis on chemical equilibria (acid-base chemistry, solubility, complexion) and electroanalytical chemistry (potentiometry, voltammetry, coulometry). Requirements: CHEM:1120 and (MATH:1460 or MATH:1850) and (PHYS:1511 or PHYS:1611).

**CHEM:3120 Analytical Chemistry II** 3 s.h. 
Modern theory and practice; emphasis on atomic and molecular spectroscopy, mass spectrometry, chemical separations. Requirements: CHEM:1120, and MATH:1460 or MATH:1850, and PHYS:1511 or PHYS:1611.

**CHEM:3250 Inorganic Chemistry** 3 s.h. 
CHEM:3430 Analytical Measurements 3 s.h.  

CHEM:3440 Physical Measurements 3 s.h.  
Laboratory experience using advanced instrumental and computational methods to generate and analyze data relevant to modern physical chemistry. Requirements: chemistry major, CHEM:2021 and (CHEM:4431 or CHEM:4432).

CHEM:3530 Inorganic Chemistry Laboratory 3 s.h.  
Preparation and characterization of a variety of inorganic, organometallic, and coordination compounds of the main group and transition elements; emphasis on synthetic techniques, methods for characterization of inorganic species. Requirements: CHEM:2021 and (CHEM:2410 or CHEM:2420) and CHEM:3250.

CHEM:3560 Advanced Methods in Chemical Research: Special Topics 1-3 s.h.  
Introduction to advanced research methods.

CHEM:3994 Undergraduate Research 1-4 s.h.

CHEM:4171 Advanced Analytical Chemistry 3 s.h.  

CHEM:4261 Selected Topics in Chemistry 1-3 s.h.

CHEM:4270 Advanced Inorganic Chemistry 3 s.h.  
Modern principles, including crystal field/ligand field/molecular orbital theory, inorganic reaction mechanisms, coordination chemistry, bioinorganic chemistry, main group and transition metal organometallic chemistry, solid-state inorganic chemistry. Requirements: CHEM:3250 and CHEM:4432.

CHEM:4372 Advanced Organic Chemistry 3 s.h.  
Basic concepts from perspectives of structure, mechanism, synthesis, stereochemistry. Recommendations: CHEM:2220 or CHEM:2240.

CHEM:4430 Principles of Physical Chemistry 3 s.h.  
Kinetics, transport properties, elementary thermodynamics, and selected topics in quantum mechanics and spectroscopy; emphasis on application of chemistry to areas of science including health and biosciences, environmental sciences, and related areas. Requirements: CHEM:1120 and (MATH:1460 or MATH:1850) and (PHYS:1512 or PHYS:1612).

CHEM:4431 Physical Chemistry I 3 s.h.  
Chemical thermodynamics and its application to chemical equilibrium, phase changes and chemical equilibria: ideal and real gases; kinetic theory; surface absorption and electrochemistry; thermodynamics. Requirements: CHEM:1120 and (MATH:1560 or MATH:1860) and (PHYS:1512 or PHYS:1612).

CHEM:4432 Physical Chemistry II 3 s.h.  
Quantum mechanics and its application to atomic and molecular structure; determination of structure and bonding by various spectroscopic methods; chemical kinetics. Requirements: CHEM:1120 and (MATH:1560 or MATH:1860) and (PHYS:1512 or PHYS:1612).

CHEM:4450 Synthesis and Measurement 3 s.h.  
Laboratory investigations integrating synthesis and measurement techniques from inorganic, analytical, and physical chemistry; emphasis on modern applications of chemistry in biology, medicine, environmental science, catalysis, and materials science. Prerequisites: (CHEM:4432 or CHEM:4430 or CHEM:4431) and (CHEM:2420 or CHEM:2410) and (CHEM:3120 or CHEM:3110) and CHEM:3250 and CHEM:2021.

CHEM:4480 Introduction to Molecular Modeling 3 s.h.  
Theory and application of ab initio quantum mechanics, semiempirical molecular orbital theory, and molecular mechanics force fields to chemical research problems; underlying theory of these methods (with emphasis on ab initio theory) and their practical application to chemical problems; computational chemistry projects using modeling software. Corequisites: CHEM:4432, if not taken as a prerequisite.

CHEM:4760 Radiochemistry: Energy, Medicine, and the Environment 3 s.h.  
Fundamental theoretical concepts of radiochemistry and their application in energy, medicine, and environmental sectors. Recommendations: CHEM:1120 and (CHEM:2220 or CHEM:2230).

CHEM:4850 Upstream Biotechnology Processes 2 s.h.  
Introduction to fermentation, fermenter preparation, cell growth and medium requirements, inoculation, sampling, process termination, separation of cells, fermentation case study, enzyme activity, and biocatalysis.

CHEM:4873 Atmospheric and Environmental Chemistry 3 s.h.  
Fundamental chemical processes of importance in the atmosphere, soil, and water, with emphasis on kinetics and photochemistry of homogeneous and heterogeneous reactions, atmospheric structure and dynamics, global geochemical cycling, chemistry-climate relationships, environmental remediation strategies; experimental methods in field and laboratory studies. Corequisites: CHEM:4431 or CHEM:4432, if not taken as a prerequisite.

CHEM:4875 Introduction to Polymer Chemistry 2-3 s.h.  

CHEM:5091 Graduate Chemistry Orientation 2-3 s.h.  
Pedagogy, safety, and research issues relevant to advanced chemistry careers.

CHEM:5092 Ethics in Chemical Sciences 1 s.h.  
Scholarly integrity for being a responsible chemist on graduate-level research; introduction to infrastructure of scientific scholarship with emphasis on interacting with peers, funding agencies, industrial entities; responsible conduct in research in the context of creation of knowledge, dissemination of scientific findings, intellectual property, and conflict of interest; workshops to study cases in chemical research to illustrate the principles of scholarly integrity.

CHEM:5107 Electrochemistry 2-3 s.h.  
Fundamental aspects, including mass transport and electron transfer, electrochemical methodology (e.g., voltammetry and potentiometry), determination of homogeneous and heterogeneous reaction mechanisms. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.
CHEM:5108 Spectroscopy  3 s.h.
Principles of atomic and molecular absorption and emission spectroscopy in ultraviolet, visible, and infrared regions of the spectrum, including fluorescence, phosphorescence, Raman spectroscopy; applications to analytical problems, with emphasis on modern instrumentation and methodology. Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.

CHEM:5109 Separations  3 s.h.
Analytical separations; basic theory, practical applications, instrumentation, modern techniques (extraction, gas and liquid chromatography, capillary electrophoresis), and detection (mass spectrometry). Recommendations: CHEM:3110, CHEM:3120, and CHEM:4171.

CHEM:5110 Chemical Sensors  2 s.h.
Theory, practical limitations, analytical utility based on immobilized reagents with electrochemical, thermal, optical transduction mechanisms. Recommendations: CHEM:3110 and CHEM:3120, or CHEM:4171.

CHEM:5114 Chemical Systems Modeling  2 s.h.
Basic processes and techniques; these methods applied to systems relevant to students' own research. Recommendations: CHEM:3110 or CHEM:3120 or CHEM:4171.

CHEM:5115 Biophotonics  3 s.h.

CHEM:5118 Nanomaterials  3 s.h.
Basic principles associated with nanoscience and nanotechnology; fabrication and synthesis, size dependent properties, characterization, applications of materials at nanometer length scales, recent technological breakthroughs in the field. Requirements: graduate standing or advanced undergraduate standing in engineering and science. Recommendations: knowledge of basic chemistry.

CHEM:5120 Electrochemistry of Polymer Films  1 s.h.
Use of electrochemical methods to characterize polymer and thin films; transport through polymer films and composites, electrochemistry of polymer films. Requirements: physical chemistry course.

CHEM:5150 Chemometrics  3 s.h.

CHEM:5190 Seminar: Analytical Chemistry  0-1 s.h.
CHEM:5199 Special Topics in Analytical Chemistry  arr.
Content varies.

CHEM:5202 Coordination Chemistry and Spectroscopy  1,3 s.h.

CHEM:5203 Organometallic Chemistry  3 s.h.

CHEM:5204 Physical Methods in Inorganic Chemistry  2 s.h.
Application of physical methods to problems; recent developments; emphasis on magnetic resonance spectroscopy. Recommendations: CHEM:4270.

CHEM:5205 Bioinorganic Chemistry  2-3 s.h.
The role of metal ions in biology from an inorganic chemical perspective; emphasis on structure and mechanism for transition metal-containing metallo-enzymes.

CHEM:5206 Solid-State and Materials Chemistry  3 s.h.
Introduction to the chemical concepts of solid-state chemistry; focus on synthesis and characterization of various inorganic materials; structure/property relationships, real-world examples. Recommendations: CHEM:4270.

CHEM:5212 Mass Spectrometry  3 s.h.
Examination of mass spectrometry in terms of basic theory, instrumentation, qualitative and quantitative analysis, and its application to the environmental and biological sciences. Recommendations: CHEM:3110 or CHEM:3120.

CHEM:5290 Seminar: Inorganic Chemistry  0-1 s.h.
CHEM:5299 Special Topics in Inorganic Chemistry  1-3 s.h.
Recommendations: CHEM:4270.

CHEM:5314 Spectroscopic Methods in Organic Chemistry  3-4 s.h.

CHEM:5326 Organic Reactions  3 s.h.
Survey of organic reactions used in contemporary organic synthesis; emphasis on C-C bond forming reactions, functional group interconversions, oxidations and reductions; mechanistic details of reaction types; innovations in catalytic and asymmetric organic reactions. Recommendations: CHEM:4372.

CHEM:5328 Mechanisms of Organic Reactions  3 s.h.
Application of basic mechanistic concepts.

CHEM:5329 Advanced Organic Synthesis  1-3 s.h.

CHEM:5390 Seminar: Organic Chemistry  0-1 s.h.
CHEM:5399 Organic Chemistry Special Topics  1,3 s.h.
Recommendations: CHEM:4372.

CHEM:5431 Statistical Thermodynamics I  3 s.h.
Fundamentals of classical thermodynamics and equilibria; ensembles; noninteracting systems; theory of phase transitions; Monte-Carlo methods; classical fluids; nonequilibrium systems. Recommendations: CHEM:4431.

CHEM:5433 Quantum and Computational Chemistry  3 s.h.
Fundamental principles of quantum chemistry; angular momentum; approximation methods; theory of atomic and molecular electronic structure; applications of computational quantum mechanics to chemical systems. Corequisites: CHEM:4432, if not taken as a prerequisite.

CHEM:5434 Molecular Spectroscopy  3 s.h.
Quantum mechanical theory of molecular spectroscopy; time-dependent perturbation theory, selection rules, lineshapes; selected applications in microwave, vibrational (infrared and Raman), electronic, optical, and magnetic resonance spectroscopy. Recommendations: CHEM:5433.

CHEM:5435 Chemical Kinetics  3 s.h.
Potential energy surfaces, transition state theory, diffusion limited rates, linear free energy relationships, isotope effects, solvent effects, RRKM theory; connection between experiment and various theories in the gas and solution phases; emphasis on assignment of experimental error to derived quantities. Recommendations: CHEM:4432.
CHEM:5436 Electronic Structure and Informatics in Chemistry 3 s.h.
Basic principles of molecular electronic structure theory; molecular structure and reactivity; molecular orbital theory; density functional theory; introduction to informatics and data science; how calculations can be used to enhance experimental research projects. Prerequisites: CHEM:4432.

CHEM:5438 Surface Chemistry and Heterogeneous Processes 3 s.h.
Fundamental and applied aspects of surface chemical processes; theories of molecular adsorption/desorption and surface complexation; kinetics; surface analysis and instrumentation; applications of surface chemistry in heterogeneous catalysis, heterogeneous environmental/atmospheric processes, and materials chemistry. Recommendations: CHEM:4431.

CHEM:5490 Seminar: Physical and Environmental Chemistry 0-1 s.h.

CHEM:5499 Physical Chemistry Topics 1-3 s.h.
Advanced topics relevant to modern physical chemistry. Recommendations: CHEM:4432 and MATH:1860.

CHEM:5599 Special Topics in Chemistry Education 3 s.h.
Special topics related to chemistry education; topics vary.

CHEM:5875 Perspectives in Biocatalysis 1-3 s.h.
Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as BIOC:5875, CBE:5875, CEE:5875, MICR:5875, PHAR:5875.

CHEM:5890 Research Frontiers in Chemistry 1 s.h.

CHEM:5990 Chemistry Colloquium 0-1 s.h.
Presentation and discussion of research by invited presenters.

CHEM:6990 Research Seminar 0-1 s.h.
Presentation and discussion of thesis research for advanced degrees.

CHEM:7604 Ethics in Chemical Sciences for Postdocs 0 s.h.
Introduction to infrastructure of scientific scholarship; emphasis on interacting with peers, funding agencies, industrial entities; scholarly integrity for being a responsible chemist on graduate-level research; responsible conduct in research in context of creation of knowledge, dissemination of scientific findings, intellectual property, conflict of interest; workshop cases in chemical research that illustrate principles of scholarly integrity.

CHEM:7999 Research in Chemistry arr.
Thesis work for advanced degrees.
Chemistry, B.A.

Requirements

The Bachelor of Arts with a major in chemistry requires a minimum of 120 s.h., including 53-54 s.h. of work for the major (20 s.h. in foundation chemistry courses, 12 s.h. in advanced chemistry, and 21-22 s.h. in supporting course work). B.A. students must earn at least 11 s.h. in advanced chemistry courses at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The B.A. degree is a good choice for students interested in medical or other professional schools, or those interested in a teaching career (see "B.A. with Teacher Licensure" below). The program provides students with the flexibility to earn a degree in chemistry while they also complete related courses required for medical school, such as biology and biochemistry. Compared to the B.S. degree, the B.A. has modified mathematics requirements that include a one-semester physical chemistry course, an analytical chemistry course, and a single, integrated capstone laboratory that incorporates analytical, inorganic, and physical chemistry experiments.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The B.A. with a major in chemistry requires the following course work.

Chemistry Foundation Courses
Advanced Chemistry Courses
Mathematics Courses
Introductory Physics Courses
Science Electives
Total Hours

53-54

Chemistry Foundation Courses

Students complete the following foundation courses.

All of these:
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8
CHEM:2021 Fundamentals of Chemical Measurements 3

One of these sequences:
CHEM:2210 & CHEM:2220 Organic Chemistry I-II 6
CHEM:2230 & CHEM:2240 Organic Chemistry I for Majors - Organic Chemistry II for Majors (preferred) 6

One of these:
CHEM:2410 Organic Chemistry Laboratory 3

CHEM:2420 Organic Chemistry Laboratory for Majors (preferred) 3

Advanced Chemistry

One of these:
CHEM:3110 Analytical Chemistry I 3
CHEM:3120 Analytical Chemistry II (preferred) 3

All of these:
CHEM:3250 Inorganic Chemistry 3
CHEM:4430 Principles of Physical Chemistry 3
CHEM:4450 Synthesis and Measurement 3

Mathematics

One of these:
MATH:1460 Calculus for the Biological Sciences (preferred) 4
MATH:1550 Engineering Mathematics I: Single Variable Calculus 4
MATH:1850 Calculus I 4

One of these:
MATH:1560 Engineering Mathematics II: Multivariable Calculus 4
MATH:1860 Calculus II 4
STAT:2010 Statistical Methods and Computing 3
STAT:3510 Biostatistics (preferred) 3

Introductory Physics

All students complete one of these sequences.

PHYS:1511- PHYS:1512 College Physics I-II (preferred) 8
PHYS:1611- PHYS:1612 Introductory Physics I-II 8

Science Electives

Some of these courses may be used to fulfill other requirements for the major, as listed above; students who have used a course from this list to fulfill another requirement for the major may not use that course as an elective. Students should consult their advisor to gain approval for a course that is not on the list. Undergraduate Research (CHEM:3994) may not be used to satisfy the science elective requirement.

A total of 6 s.h. from these:
CHEM:3110 Analytical Chemistry I 3
CHEM:3120 Analytical Chemistry II 3
CHEM:3430 Analytical Measurements 3
CHEM:3440 Physical Measurements 3
CHEM:3530 Inorganic Chemistry Laboratory 3
CHEM:4171 Advanced Analytical Chemistry 3
CHEM:4270 Advanced Inorganic Chemistry 3
CHEM:4372 Advanced Organic Chemistry 3
CHEM:4431 Physical Chemistry I 3
Practicum to earn credit for their research. They are
Undergraduate Research or HONR:3994 Honors Research
on their research. Students should register for CHEM:3994
research advisor and must write an honors thesis based

g.p.a. of at least 3.33. In addition, they must complete
 Students must maintain a cumulative University of Iowa
Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa
g.p.a. of at least 3.33. In addition, they must complete
an undergraduate research project acceptable to their research advisor and must write an honors thesis based
on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are
encouraged but not required to present their research at

B.A. with Teacher Licensure
Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Majors who plan to use their work toward a minor in chemistry as academic background for earning teacher licensure should consult the Office of Student Services about requirements.

Joint B.A./M.A.T. with Science Education Subprogram
Students who are interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see “Joint B.A./ M.A.T. with Science Education Subprogram” under Science Education [p. 1199] in the Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

Honors in the Major
Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. In addition, they must complete an undergraduate research project acceptable to their research advisor and must write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at

University of Iowa Honors Program
In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through MATH:1460 Calculus for the Biological Sciences or calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent coursework

Before the fifth semester begins: basic measurements; organic chemistry I, II, and lab; and biostatistics or calculus II

Before the seventh semester begins: two more courses in the major; physics I and II; and at least 90 s.h. earned toward the degree

Before the eighth semester begins: principles of physical chemistry and one more course in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
3 Students may use their elective courses to complete a double major, minors, or certificates.

Financial Support

Scholarships and Awards
A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Pady’s PLLP Award.

Chemistry majors also may apply for the Donald J. and Margaret Burton Scholarship, Ken Sando Scholarship, Shoemaker-Strickler Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

Visit Undergraduate Scholarships & Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Chemistry, B.S.

Requirements

The Bachelor of Science with a major in chemistry requires a minimum of 120 s.h., including 69 s.h. of work for the major (20 s.h. in foundation chemistry courses, 27 s.h. in advanced chemistry, and 22 s.h. in supporting course work). B.S. students must earn at least 20 s.h. in advanced chemistry courses at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464).

The B.S. degree with a major in chemistry is certified by the American Chemical Society (ACS) when a biochemistry course is included. An ACS-approved program offers a broad-based and rigorous chemistry education that provides students with the intellectual, experimental, and communication skills to become effective scientific professionals in chemical and other related fields. The program also provides all the prerequisites for graduate work in chemistry or biochemistry and in other biomedical areas with a molecular focus.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Advanced chemistry courses are built on the chemistry foundation courses. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year.

Students may not use a course to fulfill more than one requirement.

The B.S. with a major in chemistry requires the following course work.

Chemistry Foundation Courses 20
Advanced Chemistry Courses 27
Mathematics Courses 8
Introductory Physics Courses 8
Science Electives and Research Courses 6
Total Hours 69

Chemistry Foundation Courses

Students complete the following foundation courses.

All of these:
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8
CHEM:2021 Fundamentals of Chemical Measurements 3
One of these sequences:
CHEM:2210 & CHEM:2220 Organic Chemistry I-II 6
CHEM:2230 & CHEM:2240 Organic Chemistry I for Majors - Organic Chemistry II for Majors (preferred) 6
One of these:
CHEM:2410 Organic Chemistry Laboratory 3

Advanced Chemistry

All of these:
CHEM:3110 & CHEM:3120 Analytical Chemistry I-II 6
CHEM:3250 Inorganic Chemistry 3
CHEM:3430 Analytical Measurements 3
CHEM:3440 Physical Measurements 3
CHEM:3530 Inorganic Chemistry Laboratory 3
CHEM:4270 Advanced Inorganic Chemistry 3
CHEM:4431- CHEM:4432 Physical Chemistry I-II 6

Mathematics

One of these sequences:
MATH:1850 & MATH:1860 Calculus I-II (preferred) 8

Introductory Physics

One of these sequences:
PHYS:1511- PHYS:1512 College Physics I-II 8
PHYS:1611- PHYS:1612 Introductory Physics I-II (preferred) 8

Science Electives and Research

A total of 6 s.h. from these:
CHEM:3994 Undergraduate Research 1-4
BIOC:3110 Biochemistry 3
BIOC:3120 Biochemistry and Molecular Biology I 3

Advanced science elective courses

ACS Certification Requirement

Students who want an ACS certified degree complete one of these optional courses (also listed above under "Science Electives and Research").

BIOC:3110 Biochemistry 3
BIOC:3120 Biochemistry and Molecular Biology I 3

B.S. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.
Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Majors who plan to use their work toward a minor in chemistry as academic background for earning teacher licensure should contact the Office of Student Services about requirements. Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, and all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See B.S. in Science Education [p. 1186] in the Teaching and Learning section of the Catalog.

Honors
Honors in the Major
Majors are able to graduate with departmental honors. Students must maintain a cumulative University of Iowa g.p.a. of at least 3.33. In addition, they must complete an undergraduate research project acceptable to their research advisor and must write an honors thesis based on their research. Students should register for CHEM:3994 Undergraduate Research or HONR:3994 Honors Research Practicum to earn credit for their research. They are encouraged but not required to present their research at local and regional meetings and to publish their results in professional journals.

University of Iowa Honors Program
In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the chemistry major.

Academic Plans
Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Courses in the chemistry major have prerequisites, so they must be taken in the correct order. Most advanced courses are taught only once a year. Students should consult their academic advisors and plan their course schedules carefully. They should take CHEM:2021 Fundamentals of Chemical Measurements during the first semester of the second year. Typical chemistry course schedules and a regression list are available at Undergraduate Program in Chemistry on the Department of Chemistry website.

Before the third semester begins: math through calculus I; CHEM:1110 Principles of Chemistry I and CHEM:1120 Principles of Chemistry II, or equivalent course work
Before the fifth semester begins: basic measurements; inorganic chemistry; organic chemistry I, II, and lab; calculus II; and physics I and II

Total Hours  126-136

1 Enrollment in chemistry and math courses require completion of placement exams.
2 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world language courses requires a placement exam, unless enrolling in a first-semester-level course.
4 Students who want an ACS certified degree must complete one of these optional courses: BIOC:3110 Biochemistry or BIOC:3120 Biochemistry and Molecular Biology I.
5 Students may use their elective courses to complete a double major, minors, or certificates.

Financial Support

Scholarships and Awards
A number of awards and scholarships are available to chemistry majors, including the American Institute of Chemists Award, the Undergraduate Award in Analytical Chemistry, the Chemistry Alumni Awards (one each for a sophomore, a junior, and a senior), the Merck Index Award, and the Viksnins, Harris & Padys PLLP Award.

Chemistry majors also may apply for the Donald J. and Margaret Burton Scholarship, Ken Sando Scholarship, Shoemaker-Strickler Scholarship, E. David Cater Scholarship, and Russell K. Simms Scholarship.

Visit Undergraduate Scholarships & Awards on the Department of Chemistry website.

Career Advancement

The undergraduate major in chemistry provides a strong foundation for success in graduate and professional study and for positions in academic or industrial chemistry.

Students with a chemistry degree can pursue careers or graduate study in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Chemistry, Minor

The undergraduate minor in chemistry requires a minimum of 15 s.h. in chemistry courses (prefix CHEM), including 12 s.h. in courses numbered 2210 or above taken in the Department of Chemistry at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The following courses do not count toward the minor.

Chemistry, M.S.

Requirements
The Master of Science program in chemistry requires a minimum of 30 s.h. of graduate credit. The degree is offered with or without thesis. M.S. requirements include proficiency examinations and core courses as necessary in biochemistry; analytical, inorganic, organic, and/or physical chemistry; and additional advanced course work. Students must have a cumulative g.p.a. of at least 2.75 or higher to complete the M.S. degree.

Admission
Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a g.p.a. of 3.00 or higher. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement
Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Chemistry, Ph.D.

Requirements

The Doctor of Philosophy program in chemistry requires a minimum of 72 s.h. of graduate credit. A Ph.D. in chemistry includes proficiency examinations and core courses as necessary, a minimum of 11 s.h. of advanced course work, and research.

Students who meet the course requirements with a cumulative g.p.a. of 3.00 or higher are admitted to the oral comprehensive examination upon presentation and preliminary approval of their written research proposal and research progress report; they must take the oral comprehensive examination no later than the end of their second year of enrollment.

Upon completing Ph.D. research, candidates prepare the dissertation. The final examination consists of an oral defense of the thesis, at which time the candidates present at least one published or accepted paper in a peer-reviewed journal based on the publishable portion of the thesis.

Admission

Applicants for graduate admission should have a bachelor's degree with a major in chemistry or a related field, preferably with a g.p.a. of 3.00 or higher. Most admitted graduate students receive financial support. For application information, contact the Department of Chemistry or visit its website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

Students with a chemistry degree can pursue careers in a wide range of fields. Learn more about career options for chemistry majors on the American Chemical Society website.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Cinematic Arts

Chair
- Paula T. Amad

Undergraduate major: cinema (B.A.)
Undergraduate minor: cinema
Graduate degrees: M.F.A. in film and video production; M.A. in film studies; Ph.D. in film studies
Faculty: https://clas.uiowa.edu(cinematic-arts/people/faculty
Website: https://clas.uiowa.edu/cinematic-arts/

The Department of Cinematic Arts provides students with opportunities to explore and gain insight into cinema as a subject of international and interdisciplinary study as well as creative practice. The curriculum emphasizes film and related media in their historical and cultural contexts as well as film and video production in a variety of modes.

The department's faculty offer expertise in film and video production; film history and theory, with emphasis on international film cultures; and the history, theory, and production of documentary media. Students conduct projects using state-of-the-art equipment and software that is updated regularly.

The department offers an undergraduate degree (B.A.), an undergraduate minor, and three graduate degree programs (M.A., M.F.A., and Ph.D.). It also offers courses for all interested students under the Literary, Visual, and Performing Arts area of the College of Liberal Arts and Sciences General Education Program [p. 464].

Resources

The Department of Cinematic Arts maintains up-to-date film and video equipment and facilities that allow students to acquire professional skills in a range of technical and creative areas, including cinematography, editing, sound design, screenwriting, and animation. The program also draws upon the extensive media holdings, and scholarly and archival resources relevant to the study of cinema held by the University of Iowa Libraries. The department regularly sponsors events, including film screenings, festivals, symposia, and presentations by notable visiting scholars and artists, that extend the study of film beyond the classroom and regular curriculum. Collaborations with Iowa City's independent cinema, FilmScene, and the Bijou, the University of Iowa's long-running student film society, also enhance local opportunities for students to view films outside of the classroom and mainstream venues.

Programs

Undergraduate Programs of Study

Major
- Major in Cinema (Bachelor of Arts) [p. 198]

Minor
- Minor in Cinema [p. 201]

Graduate Programs of Study

Majors
- Master of Arts in Film Studies [p. 202]
- Master of Fine Arts in Film and Video Production [p. 203]
- Doctor of Philosophy in Film Studies [p. 204]

Courses

CIN:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

CIN:1100 The Art of Smartphone Filmmaking 3 s.h.
Introduction to filmmaking principles; how to shoot and edit short videos utilizing smartphone technology; methods to produce high-quality work without professional equipment.

CIN:1185 Internship arr.
Opportunity to apply skills; faculty supervision, on or off campus. Requirements: cinema major.

CIN:1200 Screenwriting Fundamentals 3 s.h.
Introduction to basic storytelling strategies and principles; writing film treatments; adapting prose to professional screenplay format; story structure for features and short films; workshop original screenplays and critique student work; analyze professional screenplays.

CIN:1601 Introduction to Film Analysis 3 s.h.
Formal analysis of film; narrative cinema and approaches to narrative structure; authorship and genre issues, other major topics.

CIN:1602 Introduction to Film Studies 3 s.h.
Film history, theory, criticism; issues of form, technologies, and cultural functions of cinema; screenings of narrative, documentary, experimental films from varied periods and nations. GE: Literary, Visual, and Performing Arts.

CIN:1610 Contemporary Cinema 3 s.h.
Current cinema; key genres, movements, filmmakers, technological changes; recent cultural contexts, industrial and economic factors, changes in the film viewing experience. GE: Literary, Visual, and Performing Arts.

CIN:1615 Introduction to Film Theory 3 s.h.
Classical film theory—formalist and realist theories, authorship, genre; contemporary film theory—semiotics, feminism, psychoanalysis, ideological criticism, postmodernism, queer theory.

CIN:1620 Writing Film Reviews and Criticism 3 s.h.
Evaluation and analysis of film, from journalistic reviews to academic scholarship; principles and theoretical positions.

CIN:1625 Gender and Film 3 s.h.
Representations of femininity, masculinity, sexual identity, how they relate to society, culture; examples from feminist, psychoanalytic, queer theory.

CIN:1630 Introduction to Film Sound 3 s.h.
Sound as an acoustic, technological, aesthetic, and historical issue; functions of voice, music, sound effects.

CIN:1635 Styles and Genres 3 s.h.
Major film types (musicals, science fiction, westerns, film noir) and their cultural significance.
CINE:1640 Film Authors 3 s.h.
A major director or comparison of directors; director's role in industrial and collaborative contexts, relations between biography and criticism, function of individual styles.

CINE:1645 Film and Literature 3 s.h.
Relationships among films, novels, plays, adaptations; shared and distinct formal elements of cinematic and literary texts, their cultural functions.

CINE:1834 Modes of Film and Video Production 4 s.h.
Introduction to filmmaking; how to shoot and edit short works of cinematic art; exposure to various working methods including nonfiction, fiction, and experimental modes of video production. Corequisites: for CINE:1834—CINE:1601, if not taken as a prerequisite. GE: Engineering Be Creative. Same as THTR:1834.

CINE:2195 Individual Study arr.

CINE:2198 Honors Tutorial arr.

CINE:2200 Film/Video Production: The Business of Filmmaking 3 s.h.
Introduction to business-related arts production techniques and strategies; budgeting and basic accounting skills, grant writing, project conceptualization and planning, film producing and location scouting, distribution models, film festival submission, project summation.

CINE:2620 U.S. Film 3 s.h.
American film industry; social and artistic perspectives.

CINE:2622 World Film 3 s.h.
Filmmaking and film culture outside the United States; key works from Asia, Africa, the Middle East, Latin America; social, cultural, political contexts.

CINE:2623 Introduction to Documentary Film 3 s.h.
Key works and movements in international nonfiction film, from early cinema to present; formal, historical, philosophical issues in documentary practices.

CINE:2624 Introduction to Latin American Film 3 s.h.
Introduction to filmmaking and films in Latin America through an overview, emphasis on one or more Latin American countries, or a specific theme in Latin American cinema.

CINE:2625 Introduction to Asian Film 3 s.h.
Introduction to filmmaking and films in Asia through an overview, emphasis on one or more Asian countries, or a specific theme in Asian cinema.

CINE:2627 Film Club 1 s.h.
Theme-based film program comprising a weekly film screening followed by a guided group discussion intended to inspire debate and film literacy.

CINE:2800 Digital Arts: An Introduction 3 s.h.
Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CS:2800, DANC:2800, MUS:2800, THTR:2800.

CINE:2861 Screenwriting: Short Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for short film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2863 Film/Video Production: Film Festival 3 s.h.
How to run a film festival; management and orchestration of annual Iowa City International Documentary Festival. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2864 Film/Video Production: Alternative Forms 3 s.h.
Alternative or innovative video/film practices and technologies; varied topics. Prerequisites: INTM:2710 with a minimum grade of C or CINE:1834 with a minimum grade of C. Same as INTM:2864.

CINE:2865 Film/Video Production: Material of 16mm Filmmaking 3 s.h.
Individual and small-group work to create projects using 16mm filmmaking techniques including camera operation, editing, lighting, and sound production; intermediate production course. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2866 Film/Video Production: Nonfiction 3 s.h.
Individual and small group work to create video projects using nonfiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2867 Screenwriting: Long Form 3 s.h.
Introduction to basic principles of screenwriting; develop, write, and workshop screenplays for longer form film/video projects including fiction, nonfiction, and experimental work. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2868 Film/Video Production: Fiction 3 s.h.
Individual and small group work to create video projects using fiction filmmaking techniques, from camera and lighting to postproduction. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:2869 Introduction to Intermedia 3 s.h.
Interdisciplinary focus; emphasis on conceptual, installation, video, time-based media, performance art. Prerequisites: (ARTS:1510 and ARTS:1520) or CINE:1834. Requirements: for CINE:2869—grade of C or higher in CINE:1834. Same as INTM:2710.

CINE:3195 Undergraduate Seminar 3 s.h.
Focus on a significant text or critical problem. Requirements: cinema major, and junior or senior standing.

CINE:3750 Topics in Cinema and Culture 3 s.h.
One or more national cinemas in relation to social, historical, and cultural contexts. Prerequisites: CINE:1601.

CINE:3876 Video for Performance 3 s.h.
Introduction to aesthetics and practical applications of digital media and video design for live performance including content creation, system design, and content optimization for media servers; students create digital video and animations and integrate them into live performance and entertainment events via projections, media servers, and digital displays using QLab Media Server and Adobe Creative Cloud (e.g., Illustrator, Photoshop, Premiere Pro, Audition, After Effects); for those with an interest in designing, creating, and displaying digital media for theatre, dance, concerts, corporate events, gallery installations, VJ sets, and architectural projections. Same as THTR:3876.
CINE:3877 Screenwriting: Short Form 4 s.h.
Developing, writing, and workshop screenplays for short film/video projects including fiction, nonfiction, and experimental work; introduction to preproduction activities; exercises and journal assignments. Prerequisites: CINE:2861 with a minimum grade of C or CINE:2865 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2867 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:2869 with a minimum grade of C.

CINE:3878 Film and Media Practicum 1 s.h.
Research and production-oriented film and media practicum; individual and small-group work on a single film, video, or media production as determined by instructor; independent library and web-based research, group presentations, readings. Requirements: junior or senior standing.

CINE:4603 Topics in Contemporary Film 3 s.h.
Specific issues or periods in contemporary film. Prerequisites: CINE:1601.

CINE:4604 Topics in European Film 3 s.h.
Specific issues or periods in European film. Prerequisites: CINE:1601.

CINE:4606 Topics in Asian Cinema 3 s.h.
Issues or topics in East or South Asian cinemas. Prerequisites: CINE:1601. Same as ASIA:4606.

CINE:4608 History of Documentary Film 3 s.h.
A period, type, or concern of nonfiction filmmaking. Prerequisites: CINE:1601.

CINE:4616 Topics in National Cinema 3 s.h.
Cinema's intersection with the nation; questions of representation, culture, and identity in the national, subnational, and/or transnational context. Prerequisites: CINE:1601.

CINE:4618 Topics in World Cinemas 3 s.h.
Issues in international film history and film theory. Prerequisites: CINE:1601.

CINE:4620 Issues in Film Theory 3 s.h.
Key theorists, approaches, topics in film theory. Prerequisites: CINE:1601.

CINE:4678 Topics in Latin American Cinema 3 s.h.
Taught in English. Prerequisites: CINE:1601. Requirements: one Spanish literature or culture course numbered above SPAN:3200 or one film studies course. Same as LAS:4678, SPAN:4810.

CINE:4821 Film/Video Production: Selected Topics 4 s.h.
Exploration of a particular genre, issue, or process; varied topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2865 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:4848 with a minimum grade of C.

CINE:4825 Digital Production: Animation 4 s.h.
Intermediate 3-D modeling, motion graphics; student projects culminating in CDR or video presentation. Prerequisites: CINE:1834 with a minimum grade of C.

CINE:4836 Advanced Screenwriting 4 s.h.
Write a feature screenplay (105-115 pages) within the industry standard contract guidelines for independent and studio projects; completion of outline, beat sheet, treatment, first draft; one rewrite. Prerequisites: CINE:2861 with a minimum grade of C or CINE:2867 with a minimum grade of C.

CINE:4841 Film/Video Production: Sound Design 4 s.h.
Exploration of sound design for film and video, from recording to editing and mixing; individual work on several audio and video projects. Prerequisites: CINE:4821 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:2864 with a minimum grade of C or CINE:4862 with a minimum grade of C or CINE:4864 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:4845 with a minimum grade of C or CINE:2865 with a minimum grade of C.

CINE:4843 Film/Video Production: Image Design 4 s.h.
Lighting strategies and techniques, camera work, composition, and postproduction; individual work on several video projects. Prerequisites: CINE:2863 with a minimum grade of C or CINE:2864 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:2869 with a minimum grade of C or CINE:3876 with a minimum grade of C.

CINE:4845 Film/Video Production: Editing 4 s.h.
Development of editing techniques and strategies; editing for impact, mood, story; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2865 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:2868 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C.

CINE:4862 Film/Video Production: Advanced Video 4 s.h.
Expanded narrative or nonfiction/documentary topics; individual work on several video projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2865 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C.

CINE:4864 Film Production: Advanced 16mm 4 s.h.
Processes and approaches to short 16mm film; advanced cameras; sync-sound techniques; individual work on several projects. Prerequisites: CINE:2864 with a minimum grade of C or CINE:2865 with a minimum grade of C or CINE:2866 with a minimum grade of C or CINE:3876 with a minimum grade of C or CINE:4821 with a minimum grade of C or CINE:4841 with a minimum grade of C or CINE:4843 with a minimum grade of C or CINE:4845 with a minimum grade of C.

CINE:4890 Media Production Workshop 4 s.h.
Development, production, and realization of a self-directed project; methods and projects may include film, video, screenwriting, or hybrid forms. Prerequisites: CINE:3876 with a minimum grade of B- or CINE:4821 with a minimum grade of B- or CINE:4843 with a minimum grade of B- or CINE:4845 with a minimum grade of B- or CINE:4862 with a minimum grade of B- or CINE:4864 with a minimum grade of B-. Requirements: submission and acceptance of written proposal by deadline.

CINE:5673 Advanced Film Theory 3 s.h.
A major figure, issue, or approach in film theory.

CINE:5675 Advanced Film History 3 s.h.
A major period or topic in film history; issues in film historiography, research.
CINE:5677 Studies in Sound and Image 3 s.h.
Theoretical and historical approaches to film sound, technology, style.

CINE:5890 Colloquium in Film and Video Production 4 s.h.
Projects and critical studies; focus on varied topics including process and theoretical issues; workshop, readings, production. Recommendations: previous experience with video production; prior cinema courses or filmmaking experience helpful, but not required.

CINE:6605 Special Topics in European Film 3 s.h.
Key issues, movements, periods, or figures in European film.

CINE:6635 Crossing Borders Seminar 2-3 s.h.

CINE:6992 Individual Study arr.

CINE:7615 Seminar: Film Theory 3 s.h.
A major figure, issue, or approach in film theory.

CINE:7616 Seminar: Film History 3 s.h.
A major period or topic in film history; issues in film historiography, research.

CINE:7992 Thesis arr.
Cinema, B.A.

Requirements

The Bachelor of Arts with a major in cinema requires a minimum of 120 s.h., including 33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. A maximum of 9 s.h. of transfer credit may be counted toward the cinema major. Students may count a maximum of 6 s.h. of course work from another major, minor, or certificate toward the major in cinema.

The major in cinema is an individualized, interdisciplinary study of film and the production of creative work in film, video, and interactive multimedia. It is designed to promote cultural and artistic awareness, to increase speaking and writing skills, and to develop capacities for systematic reasoning and effective production in cinema arts.

All students are expected to gain a perspective on the study and the production of film, video, or digital media while becoming acquainted with the historical, critical, and theoretical issues of the area. In conjunction with an appropriate overall curriculum, the major in cinema can offer effective preparation for continuing study or creative work in the humanities, arts, and cinema; provide a solid foundation for careers in film, video, television, and digital production; and lead to careers in arts administration, advertising, and business. The course CINE:1834 Modes of Film and Video Production is the only production course required for the major. Students may use more advanced production courses to complete the major, but admission to these courses is limited and depends on the student's achievement in prerequisite production courses.

The B.A. with a major in cinema requires the following course work.

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Elective Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>13 s.h.</td>
<td>20 s.h.</td>
</tr>
<tr>
<td>Total Hours</td>
<td>33 s.h.</td>
</tr>
</tbody>
</table>

Core Courses

All of these:
- CINE:1601 Introduction to Film Analysis 3
- CINE:1615 Introduction to Film Theory 3
- CINE:1834 Modes of Film and Video Production 4
- CINE:3195 Undergraduate Seminar 3

Elective Courses

An additional 20 s.h. in elective cinematic arts (prefix CINE) course work is required. From the 20 s.h., students must select at least 6 s.h. in advanced film studies courses. Courses CINE:1100 The Art of Smartphone Filmmaking and CINE:1200 Screenwriting Fundamentals will not count toward the 20 s.h. of required elective credit.

Advanced Film Studies Courses

Advanced film studies courses may be selected from the following.

At least 6 s.h. from these:
- CINE:3750 Topics in Cinema and Culture 3
- CINE:4603 Topics in Contemporary Film 3
- CINE:4604 Topics in European Film 3
- CINE:4606 Topics in Asian Cinema 3
- CINE:4608 History of Documentary Film 3
- CINE:4616 Topics in National Cinema 3
- CINE:4618 Topics in World Cinemas 3
- CINE:4620 Issues in Film Theory 3
- CINE:4678 Topics in Latin American Cinema 3

Additional Elective Courses

Additional elective courses may be selected from the following.

- CINE:1000 First-Year Seminar 1
- CINE:1185 Internship arr.
- CINE:1602 Introduction to Film Studies 3
- CINE:1610 Contemporary Cinema 3
- CINE:1620 Writing Film Reviews and Criticism 3
- CINE:1625 Gender and Film 3
- CINE:1630 Introduction to Film Sound 3
- CINE:1635 Styles and Genres 3
- CINE:1640 Film Authors 3
- CINE:1645 Film and Literature 3
- CINE:2195 Individual Study arr.
- CINE:2198 Honors Tutorial arr.
- CINE:2200 Film/Video Production: The Business of Filmmaking 3
- CINE:2620 U.S. Film 3
- CINE:2622 World Film 3
- CINE:2623 Introduction to Documentary Film 3
- CINE:2624 Introduction to Latin American Film 3
- CINE:2625 Introduction to Asian Film 3
- CINE:2627 Film Club 1
- CINE:2800 Digital Arts: An Introduction 3
- CINE:2861 Screenwriting: Short Form 3
- CINE:2863 Film/Video Production: Film Festival 3
- CINE:2864 Film/Video Production: Alternative Forms 3
- CINE:2865 Film/Video Production: Material of 16mm Filmmaking 3
- CINE:2866 Film/Video Production: Nonfiction 3
- CINE:2867 Screenwriting: Long Form 3
- CINE:2868 Film/Video Production: Fiction 3
- CINE:2869 Introduction to Intermedia 3
- CINE:3750 Topics in Cinema and Culture 3
- CINE:3876 Video for Performance 3
CINE:3877  Screenwriting: Short Form  4
CINE:3878  Film and Media Practicum  1
CINE:4603  Topics in Contemporary Film  3
CINE:4604  Topics in European Film  3
CINE:4606  Topics in Asian Cinema  3
CINE:4608  History of Documentary Film  3
CINE:4616  Topics in National Cinema  3
CINE:4618  Topics in World Cinemas  3
CINE:4620  Issues in Film Theory  3
CINE:4678  Topics in Latin American Cinema  3
CINE:4821  Film/Video Production: Selected Topics  4
CINE:4825  Digital Production: Animation  4
CINE:4836  Advanced Screenwriting  4
CINE:4841  Film/Video Production: Sound Design  4
CINE:4843  Film/Video Production: Image Design  4
CINE:4845  Film/Video Production: Editing  4
CINE:4862  Film/Video Production: Advanced Video  4
CINE:4864  Film Production: Advanced 16mm  4
CINE:4890  Media Production Workshop  4

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of 3.33 in their cinema major course work. Once a student has earned 75 s.h., a student submits a written proposal for a honors thesis or production project. The proposal must be approved by the faculty member who heads the student’s honors thesis/project committee; the committee must be composed of at least two faculty members from the Department of Cinematic Arts. For more specific honors thesis/project requirements in the cinema major, contact the Department of Cinematic Arts.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the cinema major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Students must take CINE:1601 Introduction to Film Analysis before or with CINE:1834 Modes of Film and Video Production.

Before the fifth semester begins: at least two courses in the major, including CINE:1601 Introduction to Film Analysis and CINE:1834 Modes of Film and Video Production

Before the seventh semester begins: at least five more courses in the major (total of seven), including CINE:1615 Introduction to Film Theory, and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least three more courses in the major preferably including CINE:3195 Undergraduate Seminar

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

### Career Advancement

Because the film and television industries include a wide array of jobs, the cinema degree is not a direct track to any one specific career, but it does provide a solid foundation for entry into this field.

University of Iowa graduates have found work on sets in Hollywood and New York as location managers, editors, camera assistants, writers, producer’s assistants, location managers, casting agents, and more. Graduates also have found work in San Francisco, Chicago, Milwaukee, Seattle and many other cities, with jobs in distribution, programming, documentary research, and education, among others.
Cinema, Minor

The undergraduate minor in cinema requires 15 s.h. of University of Iowa cinema courses, including at least 12 s.h. earned in courses numbered CINE:1620 or above. Transfer credit is not accepted toward the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.
Film Studies, M.A.

Requirements

The Master of Arts program in film studies requires 36 s.h. of graduate credit, typically earned with 12 graduate-level courses spanning two years. The program’s focus is on advanced film theory and film history in an international context, with required distributions of course work in U.S. cinema, European cinema, world cinemas, and at least one of the following areas: film production, documentary film, animation, or experimental film. Students meet formal degree requirements through course work and a written examination in their second year on key areas within film theory and film history, followed by an oral examination.

More information on the program is available on the Department of Cinematic Arts website.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the M.A. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, test scores, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant’s accomplishments and evidence that the applicant will fit the elements of the program and will thrive in the department. Previous experience in the area of film studies is desirable but not required.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The Master of Arts degree typically prepares students for continued, advanced graduate work in film studies at the University of Iowa or elsewhere. However, students also have used their M.A. training in film theory and history to seek careers in other areas, including film criticism or positions at film archives or film festivals, or within various facets of the film industry.

The Graduate College also is prepared to help graduates explore careers related to or that build upon their training. In conjunction with the Graduate College, the Department of Cinematic Arts also is committed to helping graduate students explore a range of alternative careers that take advantage of their specific training. In addition, the Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Film and Video Production, M.F.A.

Requirements
The Master of Fine Arts program in film and video production requires 54 s.h. of graduate credit, typically acquired through advanced production courses, graduate colloquia, and advising-centered thesis courses taken over three years. With a focus on expanded documentary, experimental, hybrid, and narrative media forms, the curriculum combines creative and scholarly course work with the aim of producing a body of innovative, artistic work in film, digital media, multimedia installation, and/or animation. Degree requirements include advanced course work in film/media theory or history, annual public presentations and critiques, the development of an artist statement, a thesis paper, and a creative thesis project.

Admission
A faculty committee chaired by the head of film and video production evaluates applications to the M.F.A. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, three letters of recommendation, samples of creative work, test scores, and writing samples when relevant. Admission decisions are based on the full range of an applicant's accomplishments and evidence that the applicant will thrive in the department's program. Previous academic experience in moving image production is desirable but not required.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement
The film and video production program has a remarkable job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Through their creative work and published research, graduates are visible and productive contributors to film and video production and related disciplines.

Within the program, faculty mentor students toward professional careers by supervising their development as both innovative moving-image makers and scholars. Regular one-on-one advising sessions, group critiques, workshops on topics such as film festival submissions, job interviews, and related topics prepare students for academic and artistic careers. Students also are regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Film Studies, Ph.D.

Requirements

The Doctor of Philosophy program in film studies requires a minimum of 72 s.h. of graduate credit, earned through course work, and eventually work focused on the completion of a dissertation. The program’s course work is broadly concentrated in film history and film theory, with specific courses offered on a wide range of topics. With the regular consultation and guidance of a faculty advisor and committee, students formulate and pursue a plan of study during their first year in the program, prepare and conduct a written and oral comprehensive examination typically in their second or third year, write and present a dissertation prospectus to a carefully selected committee, and complete a dissertation in an area of advanced, original research that is defended orally in a meeting with the student’s committee prior to final deposit. A detailed summary of the requirements for the Ph.D. in film studies is available on the Department of Cinematic Arts website.

Admission

A faculty committee chaired by the head of film studies evaluates applications to the Ph.D. program. Application materials should include undergraduate and/or graduate transcripts, a personal statement, a writing sample, three letters of recommendation, test scores, and samples of creative work when relevant. Admission decisions are based on the full range of an applicant’s accomplishments and evidence that the applicant will fit the elements of the program and thrive in the department. Previous experience in the area of film studies is desirable but not required.

All applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. Information about the application process is available on the Department of Cinematic Arts website and the Graduate Admissions website.

Career Advancement

The Ph.D. program in film studies has an impressive job placement record, with graduates located in faculty positions at major research universities and prestigious liberal arts colleges throughout the world. Graduates are, through their published research, visible and productive contributors to film studies and related disciplines, and many have served in leadership positions within professional organizations such as the Society for Cinema and Media Studies.

Within the program, faculty mentor students toward professional careers by supervising their development as both effective teachers and scholars. Regular workshops offered on topics such as journal and conference submissions, job interviews, and related topics help prepare students for careers within and beyond academia. Students also are regularly advised on applying for grants and awards to facilitate their advanced research, whether conducted in Iowa or elsewhere.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Classics

Chair

• John F. Finamore

Undergraduate majors: ancient civilization (B.A.); classical languages (B.A.)

Undergraduate minors: ancient civilization; classical languages; Greek; health and the human condition; Latin

Postbaccalaureate certificate: classics

Graduate degrees: M.A. in classics; M.A. in Greek; M.A. in Latin; Ph.D. in classics

Faculty: https://clas.uiowa.edu/classics/people/faculty

Website: https://clas.uiowa.edu/classics/

Classics is the study of ancient languages, literatures, and cultures of the Mediterranean basin from approximately 2000 B.C.E. to 800 C.E. It embraces three civilizations—the Minoan-Mycenaean, Greek, and Roman; two languages—Greek and Latin; and a geographical area including Europe, North Africa, Egypt, and the Near East. The Department of Classics provides a basis for understanding and interpreting the contribution of the ancient world to life in the present and the future.

The department offers a substantial selection of courses taught in English at the undergraduate and graduate levels; several are approved for the College of Liberal Arts and Sciences General Education Program [p. 464]. Undergraduates in all majors may satisfy the World Languages requirement of the General Education Program with courses in Greek, Latin, or Sanskrit; see "Language for General Education" below. The department's First-Year Seminar introduces entering undergraduates to classics.

The Department of Classics also administers the interdisciplinary minor in health and the human condition for undergraduates.

Language for General Education

The Department of Classics offers course sequences in Greek, Latin, and Sanskrit that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences General Education Program [p. 464]. Students who have had previous course work or other experience with Greek or Latin should take the appropriate language placement test, which helps determine the level at which a student should begin Greek or Latin language study at the University of Iowa.

Students with previous knowledge of Sanskrit should consult the department about appropriate placement.

Greek

Students who wish to fulfill the General Education Program's World Languages requirement with Greek should complete the following sequence.

<table>
<thead>
<tr>

• Doctor of Philosophy in Classics [p. 231]

Facilities

University of Iowa Libraries' Main Library and the Art Library house extensive collections of classical texts and uninterrupted runs of classical periodicals from 1850 that facilitate research in the major areas of Greek and Roman civilization. The Department of Classics has a varied collection...
of slides on classical subjects and a small library of reference works, texts, and issues of classical and archaeological journals. The department’s classical museum contains a small collection of coins, vases, and facsimiles in bronze from Mycenae, Pompeii, and Herculaneum periods.

The University is a supporting institution of the American School of Classical Studies at Athens, the American Academy in Rome, and the Intercollegiate Center for Classical Studies in Rome. Consult the director of undergraduate studies for more information.

The department offers students the opportunity to participate in an archaeological dig during the summer. Contact the Department of Classics in mid-February for details.

**Courses**

**Classics in English Courses**

All readings for these courses are in English; previous knowledge of Greek or Latin is not required.

**CLSA:1000 First-Year Seminar**  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**CLSA:1010 Hero, God, Mortal: Literature of Greece**  
Ancient Greek literature and culture as it responded to Homer; may include genre (e.g., epic to tragedy), religion, changing concept of hero, interaction with Mediterranean cultures, myth versus history. GE: Literary, Visual, and Performing Arts.

**CLSA:1020 Love and Glory: The Literature of Rome**  
Main themes and works of ancient Roman literature; works reflecting conflict of personal desire and public self in Rome. GE: Literary, Visual, and Performing Arts.

**CLSA:1040 Major Texts of World Literature, Antiquity to 1700**  
Reading and analysis of major literary texts from writing’s origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. GE: Literary, Visual, and Performing Arts. Same as CL:1240.

**CLSA:1045 Classics and Young Adult Fantasy Fiction**  
Survey of young adult fantasy fiction influenced by classical (Greek and Roman) stories, plots, characters, names, events, and places.

**CLSA:1100 Contraception Across Time and Cultures**  
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as GHS:1100, GRMN:1100, GWSS:1100, WLLC:1100.

**CLSA:1117 Intrigue and Command in Ancient Rome: From Julius Caesar to Nero**  
Introduction to history, politics, and personalities of the first Caesars, the Julio-Claudians (Julius Caesar, Augustus, Tiberius, Caligula, Claudius, Nero); conditions of Roman social and political system that led to the Caesars; character of each emperor and changes each brought about in that system; primary and secondary sources.

**CLSA:1181 Ancient Medicine**  
Thematic examination of theories and practices of Greco-Roman physicians, which in turn became the medical tradition of medieval Islamic world and European medicine until mid-19th century; historical medical terms, theories, and practices. GE: Historical Perspectives. Same as GHS:1181.

**CLSA:1323 Life in the Biblical World**  
Examination of world depicted in Old and New Testaments of the Bible; archaeological evidence, ancient art, historical accounts, geography, and Bible text used to examine background of biblical text, shedding light on different aspects of daily life in antiquity from different points of view from Late Bronze Age through Roman period. Same as RELS:1323.

**CLSA:1340 Magic in the Ancient World**  
Ancient Greek and Roman writings on magic, including ancient spells and charms. GE: Values and Culture.

**CLSA:1740 Writing Strategies: Word Origins and Word Choice**  
Study of words, their meanings, and their origins combined with writing; words and word histories; role of English language in the world. GE: Literary, Visual, and Performing Arts. Same as WRIT:1740.

**CLSA:1805 Legends and Heroes of Ancient Rome**  
Introduction to narratives of Roman heroes from Livy, Ovid, and Plutarch; background information for further study in classics.

**CLSA:1809 Classics and Cinema**  
Cinematic depictions of the classical world compared with scholarly views; selected films and primary ancient sources of the same period.

**CLSA:1830 Greek Civilization**  
History, literature, art, architecture, religion, social life ca. 3000 B.C.E. to second century B.C.E. GE: Historical Perspectives.

**CLSA:1840 Roman Civilization**  
History, literature, politics, religion, social structure from eighth century B.C.E. to second century C.E. GE: Historical Perspectives.

**CLSA:1875 Ancient Sports and Leisure**  
Sports, games, and hobbies in the ancient world, primarily Greece and Rome, 1500 B.C.E. to 500 C.E.; ancient Olympic games, Roman festival games; anthropological theory of sport. GE: Values and Culture.

**CLSA:1883 War**  
Emotions soldiers have as they fight, what makes them continue voluntarily to face death, and how modern society memorializes these experiences; how literature and art transform the experience of war; human responses to war in Homer’s *Iliad* and select Greek tragedies. GE: Values and Culture. Same as HONR:1883.

**CLSA:2016 Classical Mythology**  
Ancient Greek and Roman myths, their interpretation by Western civilization; emphasis on flexibility of myth and its importance for art, literature, anthropological, psychological studies. GE: Literary, Visual, and Performing Arts; Values and Culture.
CLSA:2018 Odysseus: The Image of a Trickster Hero in Literature and Film 3 s.h.
How the figure of Odysseus has long intrigued the West as glorified seeker of truth or damned treacherous deceiver; representations of hero by authors that include Greek tragedians, Virgil, Dante, Alfred Lord Tennyson, Margaret Atwood, and others with a point of departure from Homer's Odysseus; survey of Odysseus's depictions throughout the centuries to understand the fascination his character held, and continues to hold, over classical and modern writers; selected adaptations of Odysseus' adventures in art and contemporary cinema to understand the exuberance of the mythical hero.

CLSA:2048 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Same as ANTH:2248, ASIA:2248, CL:2248, COMM:2248, HIST:2148, IS:2248, LING:2248, WLLC:2248.

CLSA:2151 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Same as HIST:2431.

CLSA:2178 Training the Citizen: Philosophy as a Civic Virtue 3 s.h.
Practices of self-care from a variety of ancient Greco-Roman authors; practice of philosophy; opportunity to publicly engage with elementary students as mentors; readings and writing assignments focus on primary questions (What do ancient philosophers mean by “caring for yourself”? What are the purposes of philosophical self-care?); why it is more accurate to call ancient philosophy a way of life than a study; why Greek and Roman religious beliefs are inseparable from philosophy; what metaphors dominate and guide philosophical inquiry.

CLSA:2226 Introduction to Ancient Art 3 s.h.
Art and architecture of the Mediterranean world (ca. 3500 B.C.E.) to death of Constantine (337 C.E.); Egyptian, Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2320.

CLSA:2330 Introduction to Egyptian and Ancient Near Eastern Art 3 s.h.
Art and architecture of Egypt and the Near East (ca. 3500 B.C.E.) to advent of Islam; Egyptian, Sumerian, Assyrian, Babylonian, and Persian cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2330.

CLSA:2340 Introduction to Greek and Roman Art 3 s.h.
Art and architecture of Greece and Rome (ca. 3000 B.C.E.) to death of Constantine (337 C.E.); Cycladic, Minoan, Mycenaean, Greek, Etruscan, and Roman cultures; artistic responses to life and death; impact of breakthroughs in technology and engineering on visual culture; role of art in empire building; interrelationships of art, politics, and religion. Same as ARTH:2340.

CLSA:2420 Jesus and the Gospels 3 s.h.
How Jesus was depicted in the writings of the early church; reasons for the different portrayals. Same as RELS:2320.

CLSA:2425 Messianic and Apocalyptic Prophecy in the Bible 3 s.h.
Literal, historical, and theological analysis of biblical prophecies and their impact. Same as RELS:2225.

CLSA:2461 Middle East and Mediterranean: Alexander to Suleiman 3 s.h.
GE: Historical Perspectives. Same as HIST:2461, RELS:2361.

CLSA:2482 Ancient Mediterranean Religions 3 s.h.
Introduction to major religious traditions of ancient Mediterranean world; Mesopotamia, the Levant (Hebrew Bible), Egypt, Greece, and Rome; central aspects of mythology, ritual, and archaeology, individually and in comparative perspective; ancient Judaism and Christianity considered in their various cultural contexts; basic concepts for understanding cultural exchange; fundamental theories in the study of religion. GE: Values and Culture. Same as RELS:2182.

CLSA:2489 Jerusalem: The Holy City 3 s.h.
Religious, political, and cultural history of Jerusalem over three millennia as a symbolic focus of three faiths—Judaism, Christianity, and Islam; integration of several digital learning technologies, including digital reconstructions and Google Earth tours of Jerusalem. Same as RELS:2289.

CLSA:2552 Atheism, Agnosticism, and Religion 3 s.h.
History and analysis of religious skepticism in Western culture from the classical period through modern times. Same as RELS:2552.

CLSA:2651 Gender and Sexuality in the Ancient World 3 s.h.
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of rhetoric requirement and sophomore standing. GE: Values and Culture. Same as GWSS:2651.

CLSA:2901 First-Year Sanskrit: First Semester 4 s.h.
Grammar, basic vocabulary; elementary readings. Offered fall semesters of even years. Requirements: undergraduate standing. GE: World Languages First Level Proficiency. Same as SOAS:2901.

CLSA:2902 First-Year Sanskrit: Second Semester 4 s.h.
Readings in epic and story literature. Offered spring semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as SOAS:2902.

CLSA:2913 Leadership in Greco-Roman Antiquity 3 s.h.
Introduction to ancient Greek and Roman approaches to leadership, specifically political, military, and household; identification of Greek and Roman theories and practices of leadership to strengthen understanding of leadership; examination of self-leadership through reflection on Greco-Roman ideals of self-control, justice, and ethics; aspects of group leadership, such as the balance between social hierarchy and teamwork as well as group decision making.
CLSA:3020 Doctors and Patients: A Global History 3 s.h.
How medicine increasingly requires that physicians consider subjective experience of patients inside health care system; what it means to be the object of medical treatment; explanation of global historical experience of diseased body within health care systems from antiquity to modern world using texts from doctors and patients; interaction between roles of doctor and patient—two individuals at center of health care literature. Requirements: completion of GE Rhetoric requirement.

CLSA:3227 Classical Greek Art 3 s.h.
Art, sacred architecture from early Classical through late fourth century B.C.E.; Athens in the Golden Age. Same as ARTH:3330.

CLSA:3232 Art of Early Rome: Patrons and Politics 3 s.h.
Examination of architecture, sculpture, and painting in central Italy from c. 800 B.C. to the end of the Roman Republic in 27 B.C.; art in the service of social ideology and political propaganda; funerary art and its relationship to the living; artistic interactions between Etruria, Greece, and Rome. Same as ARTH:3350.

CLSA:3233 Art of the Ancient Roman Empire 3 s.h.
Major developments in architecture, sculpture, and painting from the ascension of Augustus to sole ruler in 31 B.C. to the death of Constantine in A.D. 337; influence of individual emperors on the development of artistic forms; relationship between public and private art; interdependency of Rome and the provinces. Same as ARTH:3360.

CLSA:3234 Houses, Brothels, and Tombs: Life and Death in Ancient Pompeii 3 s.h.
Art and architecture, as documents of ancient society and religion in towns destroyed by Mount Vesuvius in C.E. 79. Same as ARTH:3370.

CLSA:3235 Greek Archaeology and Ethnohistory 3 s.h.
Archaeology and ethnology of the Greek world, from end of Bronze Age to late Roman Empire; sociocultural processes that influence development and persistence of Greek civilization. Same as ANTH:3276.

CLSA:3240 Roman Archaeology 3 s.h.
Archaeology and ethnology of Roman civilization from Iron Age eighth-century occupation of the Palatine Hill to the end of the Roman empire in the West, A.D. 476. Same as ANTH:3277.

CLSA:3247 Banned from the Bible: Pseudepigrapha and Apocrypha 3 s.h.
Introduction to biblical Pseudepigrapha and Apocrypha; writings dating from third century B.C.E. to third century C.E. fictionally attributed to characters in the Hebrew Bible and New Testament, or written as though they originated in the First or Second Temple periods, not included in Jewish or major Christian canons of scripture; English translations of documents from this period; key themes and interpretative techniques common throughout biblical texts that provide tremendous insight into the worlds that produced the Hebrew Bible and New Testament. Same as RELS:3247.

CLSA:3250 Greek Vase Painting 3 s.h.
Greek ceramics as documents of religious beliefs, mythology, and daily life 1000-300 B.C.E. Same as ARTH:3340.

CLSA:3288 Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage 3 s.h.
arr.
London was a distant outpost of the Roman empire, but the Romans had an outsized influence on Shakespeare's plays and poems; students explore those works and their sources in classical authors, including Ovid and Plutarch. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as ENGL:3288.

CLSA:3340 Recovering Eden: The Afterlife in Early Judaism and Christianity 3 s.h.
Development of afterlife ideology in Jewish and Christian traditions; ideas that influenced this development, particularly as related to problem of suffering. Same as RELS:3340.

CLSA:3344 Pagans and Christians: The Church from Jesus to Muhammad 3 s.h.
Introduction to history of early Christianity, from time of Jesus to rise of Islam; focus on major movements, intellectuals, institutions in this period; growth of Christianity in different geographical areas including the Middle East, Greece, Western Europe, Africa; Christian relations with Jews, pagans, Muslims; conversion; orthodoxy, heresy, making of biblical canon; martyrdom; women and gender roles; asceticism, monasticism, sexuality; church and state; theological controversy and schisms; cult of saints; the Holy Land and pilgrimage. Same as RELS:3343.

CLSA:3345 Mythology of Otherworldly Journeys 3 s.h.
Examination of mythology of otherworldly journeys from earliest religions to Hellenistic period; historical context; comparison for common themes in their evolution over time; directed readings of mythological texts dealing with otherworldly journeys; ways in which past cultures confronted larger mysteries of life and death. Same as RELS:3345.

CLSA:3354 Roman Religion and Society 3 s.h.
Roman religion of the Republic, from ca. 753 B.C.E. to 44 B.C.E.; highly organized priesthood of politically powerful men and women in religious colleges in Rome who moderated and interpreted city-wide religious practice; how Romans worshipped their gods; Roman theology—what Romans thought about the divine world—and their religious response to crises; evidence from festival calendar, temple architecture, religious art, poetry, inscriptions, plays, and various other texts.
CLSA:3520 Dying for the Promised Land: Martyrdom and Warfare in the Western World 3 s.h.
How martyrdom evokes images of innocents who are killed for their faith and terrorists who commit suicide bombings; how these groups may appear distinct, but share a heritage that relates absolute obedience to God and (often human) sacrifice to conquest and possession of a Promised Land; development of martyrdom ideology and its uses in religious and political conflict in Western history; examination of the Crusades, Reformation, and modern religious and political conflicts beginning with works from the Bible, Greco-Roman culture, and early Jewish and Christian literature. Same as RELS:3520.

CLSA:3524 The Devil in Judaism and Christianity 3 s.h.
While known by many names, the Devil as a central figure in Western religious tradition; surprisingly, how he is not found in earliest texts in the Old Testament; the Devil as embodiment of evil that has his genesis in early Jewish and Christian sectarian conflicts; how he is used as a terrifying dragon or seductive stranger to demonize those perceived as threats to a group's existence; how the Devil is used to explain righteous suffering and create cultural boundaries throughout Western culture, from ancient texts and medieval witch trials to modern cinema and politics. Recommendations: some background in Judeo-Christian tradition. Same as RELS:3524.

CLSA:3596 The Archaeology of Ancient Egypt 3 s.h.
Introduction to the archaeology of ancient Egypt from predynastic times to Roman Egypt, including monumental architecture; patterns of everyday life; social, economic, and demographic considerations; history of archaeology in Egypt. Same as ANTH:3275.

CLSA:3742 Word Power: Building English Vocabulary 3 s.h.
Analysis of unfamiliar English words through knowledge of the history and meaning of word parts. Same as WRIT:3742.

CLSA:3743 Word Power II: Building English Vocabulary#Advanced 3 s.h.
Continuation of CLSA:3742; vocabulary building through additional Latin and Greek bases; vocabulary recognition through analysis of Greek and Latin elements of English words; how words change over time. Prerequisites: CLSA:3742.

CLSA:3750 Medical and Technical Terminology 2 s.h.
Memorization of word stems and basic medical terms, practice on computer terminal; no formal classes.

CLSA:3836 Food in Ancient Mediterranean Society 3 s.h.
Practices and values influenced by consumption and production of food in ancient Mediterranean societies; varied topics, including methods of food production and distribution, hierarchies of status as associated with food, food and ethnic identity, food and health, food and religion; focus on classical Greek and Roman society, Egypt, the ancient Near East, and Persia. Recommendations: familiarity with Greek and Roman civilization and history. Same as HIST:3436.

CLSA:3901 Second-Year Sanskrit: First Semester 3 s.h.
Readings in epic and puranic texts. Offered fall semesters of odd years. Requirements: undergraduate standing. GE: World Languages Second Level Proficiency. Same as SOAS:3901.

CLSA:3902 Second-Year Sanskrit: Second Semester 3 s.h.
The Bhagavad Gita and related religious/philosophical texts. Offered spring semesters of even years. Requirements: undergraduate standing. GE: World Languages Fourth Level Proficiency. Same as SOAS:3902.

CLSA:3979 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CL:3179, ENGL:3850, TRNS:3179.

CLSA:3980 Teaching in the Classics 1,3 s.h.
Instructional approaches and issues in teaching ancient language and civilization at secondary and college levels. Prerequisites: CLSG:1002 or CLSL:1002.

CLSA:3982 Graduation Portfolio 0 s.h.
Submission of final graduation portfolio required for classical languages and ancient civilization majors. Requirements: classical languages or ancient civilization major, and senior standing.

CLSA:4085 Postbaccalaureate Seminar 0 s.h.
Current work of postbaccalaureate students; preparation of writing sample and portfolio. Requirements: postbaccalaureate certificate enrollment.

CLSA:4090 Private Assignments arr.
Readings in classical literature in translation.

CLSA:4095 Honors Readings arr.
Discussion, readings, research for a paper on ancient civilization. Requirements: ancient civilization major.

CLSA:4101 Ancient Egypt and the Ancient Near East 3 s.h.
Same as HIST:4401.

CLSA:4106 Warfare in Ancient Mediterranean Society 3 s.h.
Same as HIST:4406.

CLSA:4131 Digital Archaeological Modeling 1-3 s.h.
Introduction to foundational theory, methodology, programming skills, and conceptual understanding necessary to model remains and reconstructions of archaeological sites in various three-dimensional digital modeling environments. Recommendations: background in archaeology. Same as RELS:4124.

CLSA:4181 History of Western Medicine 3 s.h.
Development and systematization of medical thought and practice in European Middle Ages from late antiquity to Renaissance; transmission of ancient Greek and Arabic medieval thought into Latin; rise of hospitals; development of medical schools; influence of Christianity; special attention to university curricula (e.g., Articella, anatomy, semiotics, prognosis, therapeutics).

CLSA:4400 The Roman Empire 3 s.h.
History of Roman empire from assassination of Julius Caesar through 5th century A.D.; political, economic, cultural, and social developments from the transition to imperial power to the shift of power from west to east. Same as HIST:4400.

CLSA:4403 Alexander the Great 3 s.h.
History of Alexander the Great and the generals who succeeded him in ruling the lands he conquered; military, political, and social history. Same as HIST:4403.

CLSA:4452 The Dead Sea Scrolls 3 s.h.
Introduction to the Dead Sea Scrolls; reading of the scrolls in English translation; examination of Qumran site archaeology; survey of broader sociopolitical context of Second Temple Judaism (586 B.C.E. to 135 C.E.) out of which the scrolls emerged. Same as RELS:4352.
CLSA:4501 Archaeological Methodology and Field Research 3 s.h.
Beginning skills in archaeological site surveying and excavation, lab work, record keeping, pottery identification and classification, data visualization; basic archaeological theory and field methods for excavation, record keeping, and pottery identification for students with no prior archaeological experience; advanced archaeological field methods for students with prior archaeological field experience.

CLSA:4502 Archaeology and History of Judea 3 s.h.
History of the ancient province of Judea (modern Israel) from Early Bronze Age to Greco-Roman period.

CLSA:5010 Proseminar in Classics 1 s.h.
Texts, techniques, and trends in classical scholarship; areas and subtopics of classical scholarship.

CLSA:5151 Roman Law, Order, and Crime 3 s.h.
Case-based introduction to Roman law; principles of Roman law ranging from standards of evidence to trial procedures to various topics in civil and criminal law, including family law and the law of delict. Recommendations: some background in Roman history. Same as LAW:8825.

CLSA:6200 Seminar: Problems in Ancient Art 3 s.h.
Key themes and issues in ancient art. Same as ARTH:6300.

CLSA:6585 Design, Visualization, and Mapping 3-D Environments 3 s.h.
Introduction to foundational modeling theory, methodology, and conceptual principles of design necessary to present information in visual formats; various software including data management solutions, database concepts, and simple programming skills that assist in visualizing and disseminating data through multiple digital and online media; basic graphing tools to map data; how to model physical properties and theoretical reconstructions of architectural elements in various 3-D digital modeling environments. Requirements: admission to public digital humanities certificate program. Same as SIS:6585.

CLSA:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classics in translation, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in classics courses taught in English.

Greek Courses

Archaic Greece (CLSG:6011) and Hellenistic Greece (CLSG:6013) cover topics from the major genres and periods of Greek literature. They are offered on a four-year cycle.

Archaic Greece (CLSG:6011), Hellenistic Greece (CLSG:6013), and Classical Greece (CLSG:6012) cover authors, genres, and topics of the major periods of Greek history. Specific topics are determined by the instructor's expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of course work.

CLSG:1001 Classical and New Testament Greek 13,5 s.h.
Introduction to ancient Greek; Greek readings from all periods, from Homer and classical Greek poetry and prose to Christian writings and beyond; focus on classical and New Testament works, Greek culture and thought; comprehension, vocabulary, structure of Greek words and sentences, first of two-semester sequence. GE: World Languages First Level Proficiency.

CLSG:1002 Classical and New Testament Greek II 3,5 s.h.
Continuation of CLSG:1001; focus on classical and New Testament works, Greek culture and thought, comprehension, vocabulary, structure of Greek words and sentences; increased emphasis on original texts. Prerequisites: CLSG:1001. GE: World Languages Second Level Proficiency.

CLSG:2001 Second-Year Greek I 3 s.h.
Focus on reading Greek prose authors, such as Xenophon and Plato. Prerequisites: CLSG:1002. GE: World Languages Second Level Proficiency.

CLSG:2002 Second-Year Greek II 3 s.h.

CLSG:3001 Archaic and Classical Periods I 3 s.h.
Readings in major Greek authors of the Archaic and Classical periods. Prerequisites: CLSG:2002.

CLSG:3002 Archaic and Classical Periods II 3 s.h.
Continuation of CLSG:3001. Prerequisites: CLSG:2002.

CLSG:3003 Classical and Hellenistic Periods I 3 s.h.
Readings in Greek literature of the Classical and Hellenistic periods. Prerequisites: CLSG:2002. Same as RELS:3003.

CLSG:3004 Classical and Hellenistic Periods II 3 s.h.
Continuation of CLSG:3003. Prerequisites: CLSG:2002.

CLSG:4076 Greek Composition 3 s.h.
Review of Greek morphology, syntax, sentence structure; composition of sentences, short passages in Greek.

CLSG:4090 Private Assignments 1-3 s.h.
Directed reading and study with faculty member.

CLSG:4095 Honors Readings arr.
Discussion, readings, research for a paper on Greek literature, history, or civilization. Requirements: classical languages major.

CLSG:5001 Archaic Greek Literature 3 s.h.
Introductory survey of Greek literature and language from Homer to end of the fifth century.

CLSG:5002 Classical and Hellenistic Literature 3 s.h.
Introductory survey of Greek literature and language in and after the fourth century B.C.E.

CLSG:6011 Archaic Greece arr.
Topics chosen from Homer, Hesiod, Homeric hymns or lyric poetry.

CLSG:6012 Classical Greece arr.
Authors, genres, and topics from the fourth and fifth centuries B.C.E.

CLSG:6013 Hellenistic Greece arr.
Authors, genres, and topics from the death of Alexander to the accession of Augustus.

CLSG:6014 Roman Greece arr.
Greek authors of the Second Sophistic, including Plutarch, Lucian, and Philostratus; seminar.

CLSG:6910 Graduate Pedagogy 1 s.h.
Pedagogical theories on teaching classical languages, practical application of those theories; classroom management, grading, syllabus development; university, college, and department regulations. Requirements: graduate standing, and teaching assistant or instructor in Greek.

CLSG:7080 Greek Thesis arr.
For Ph.D. students writing a dissertation. Requirements: Ph.D. candidacy.
CLSG:7090 Advanced Reading  
Requirements: classics graduate standing.

Latin Courses

Augustan Rome (CLSL:6012) covers topics from the major genres and periods of Latin literature. It is offered on a four-year cycle.

Republican Rome (CLSL:6011), Later Empire (CLSL:6014), and Tiberius to Trajan (CLSL:6013) cover authors, genres, and topics of the major periods of Roman history. Specific topics are determined by the instructor’s expertise and research interests. Ph.D. students are exposed to topics in all major periods at least once in four years of course work.

CLSL:1001 Elementary Latin I  3,5 s.h.  
Focus on reading Latin and on Roman culture. GE: World Languages First Level Proficiency.

CLSL:1002 Elementary Latin II  3,5 s.h.  

CLSL:2001 World of Cicero  3 s.h.  
Focus on reading Latin prose authors, such as Caesar and Cicero. Prerequisites: CLSL:1002. GE: World Languages Second Level Proficiency.

CLSL:2002 Golden Age of Roman Poetry  3 s.h.  
Focus on reading and interpretation of Roman poets, such as Vergil and Catullus. Prerequisites: CLSL:2001. GE: World Languages Second Level Proficiency.

CLSL:3001 Latin Literature of the Republic I  3 s.h.  
Prose or poetry by major authors of the republic. Prerequisites: CLSL:2002.

CLSL:3002 Latin Literature of the Republic II  3 s.h.  
Continuation of CLSL:3001. Prerequisites: CLSL:2002.

CLSL:3003 Latin Literature of the Empire I  3 s.h.  
Prose or poetry by major authors of the empire. Prerequisites: CLSL:2002.

CLSL:3004 Latin Literature of the Empire II  3 s.h.  
Continuation of CLSL:3003. Prerequisites: CLSL:2002.

CLSL:3010 Later Latin Literature  3 s.h.  
Rigorous study of cultural and historical context during late antiquity and medieval period through the lens of texts written in medieval Latin.

CLSL:3176 Elementary Latin Composition  3 s.h.  

CLSL:4090 Private Assignments  1-3 s.h.  
Directed reading and study with faculty member for advanced students.

CLSL:4095 Honors Readings  3 s.h.  
Discussions, readings, research for a paper on Roman literature, history, or civilization. Requirements: classical languages major.

CLSL:5001 Republican Literature  3 s.h.  
Introductory survey of Latin literature and language from the early Republic to the end of the first century B.C.E.

CLSL:5002 Imperial Literature  3 s.h.  
Introductory survey of Latin literature and language from the Augustan age through the second century C.E.
Ancient Civilization, B.A.

Requirements

The Bachelor of Arts with a major in ancient civilization requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all University courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464).

The major concentrates on the ancient civilization of the Mediterranean world, draws on courses offered by various University departments, and allows students to create individual programs. It offers two optional tracks. The ancient Mediterranean religions track is for students with an interest in religions of the Mediterranean basin from the 10th century B.C. through the 8th century A.D. The Egypt and the ancient Near East track is for students with a particular interest in civilizations of the east Mediterranean from the earliest times through antiquity. See the "Ancient Mediterranean Religions Track" and the "Egypt and the Ancient Near East Track" below.

The major, including ancient Mediterranean religions track and Egypt and the ancient Near East track, is sponsored by the School of Art and Art History and the Departments of Classics, History, and Religious Studies.

Students choose courses in consultation with their advisors. They must earn at least 15 s.h. of the credit required for the major in courses numbered 3000 or above, which may include classics in English courses numbered 3000 or above, the Greek language courses numbered 2000 or above, and the Latin language courses numbered 2000 and above. Transfer credit is evaluated individually.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

The B.A. with a major in ancient civilization requires the following course work.

Material Culture Courses 6
Ancient History Courses 6
Ancient Philosophy and Religious Studies Courses 6
Classics in English and Language Courses 9
Additional Course 3
Major Portfolio
Total Hours 30

Material Culture

At least 6 s.h. from these:
ANTH:3275/CLSA:3596 The Archaeology of Ancient Egypt 3
ANTH:3276/CLSA:3235 Greek Archaeology and Ethnohistory 3
ANTH:3277/CLSA:3240 Roman Archaeology 3
ARTH:2320/CLSA:2226 Introduction to Ancient Art 3
ARTH:3161 Themes in Ancient Art 3
ARTH:3320/CLSA:3704 Egyptian Art 3

Ancient History

At least 6 s.h. from these:
CLSA:1117 Intrigue and Command in Ancient Rome: From Julius Caesar to Nero 3
CLSA:1830 Greek Civilization 3
CLSA:1840 Roman Civilization 3
HIST:2431/CLSA:2151 Roman Law, Order, and Crime 3
HIST:3436/CLSA:3836 Food in Ancient Mediterranean Society 3
HIST:4400/CLSA:4400 The Roman Empire 3
HIST:4401/CLSA:4101 Ancient Egypt and the Ancient Near East 3
HIST:4403/CLSA:4403 Alexander the Great 3
HIST:4404 The World of Ancient Greece 3
HIST:4406/CLSA:4106 Warfare in Ancient Mediterranean Society 3
HIST:4407 The Hellenistic World and Rome 3

Ancient Philosophy and Religious Studies

At least 6 s.h. from these:
CLSA:1340 Magic in the Ancient World 3
CLSA:2461/CLSA:2461 Middle East and Mediterranean: Alexander to Suleiman 3
CLSA:3416/CLSA:3716 Greek Religion and Society 3
PHIL:2111 Ancient Philosophy 3
PHIL:4152 Plato 3
PHIL:4153 Aristotle 3
RELS:1001 Judaism, Christianity, and Islam 3
RELS:1070 Introduction to the Hebrew Bible/Old Testament 3
RELS:1080 Introduction to the New Testament 3
RELS:2182/CLSA:2482 Ancient Mediterranean Religions 3
RELS:2320/CLSA:2420 Jesus and the Gospels 3

**Major Portfolio**

To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of B.A. students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

**Additional Course**

A course in material culture, history, philosophy, religion, or linguistics chosen in consultation with the advisor

**Material Culture**

Up to 6 s.h. from these:

- **CLSA:4501** Archaeological Methodology and Field Research
- **CLSA:4502** Archaeology and History of Judea
- **ARTH:3325** Kings, Gods, and Heroes: Art of the Ancient Near East
- **ARTH:3375/RELS:3375** Birth of the Holy Land: Art and Architecture in the Ancient Middle East
Ancient History

A course in art, history, philosophy, religion, or linguistics chosen in consultation with advisor 3

Major Portfolio
To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of B.A. students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

CLSA:3982 Graduation Portfolio 0

Students submit the portfolio to the undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

Egypt and the Ancient Near East Track
The Egypt and the ancient Near East track concentrates on the civilizations of the east Mediterranean, specifically Egypt and the cultures of Asia Minor, from the earliest times through late Antiquity.

The track is interdisciplinary; students select courses from archaeology, art, history, literature, and religion. The track provides a sound basis for preparing individuals to teach ancient civilizations of the Mediterranean and the Near East, ancient history, and ancient art history at the secondary school and community college levels. It also provides a strong liberal arts foundation suitable for further study in law, medicine, and other professions.

The Bachelor of Arts with a major in ancient civilization with the Egypt and the ancient Near East track requires a minimum of 120 s.h., including at least 30 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464).

Students in the Egypt and the ancient Near East track choose courses in consultation with their advisors. They must earn at least 21 s.h. of the credit required for the ancient civilization major in courses listed under "Course Selection Requirements" below. They also must earn at least 15 s.h. for the major in courses numbered 3000 or above, which may include classics in English courses numbered 3000 or above, the Greek language courses CLSG:2001 Second-Year Greek I and

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see “Major Portfolio” below.

The major in ancient civilization with the Egypt and the ancient Near East track requires the following course work.

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.50 in their first three years of classics courses. To graduate with honors in the major, they must complete two courses in honors readings during their final year, one each semester of the year, earning 3 s.h. of credit for each course. The readings and discussions must be on an ancient author or a field in ancient history, literature, or culture chosen by a student and the instructor. At the end of the second semester, the student presents a substantial research project that has been approved by the department. The project is evaluated for honors by two members of the department. Students who write an honors thesis in classical languages must be enrolled at the same time in the appropriate advanced language courses.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the ancient civilization major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the fifth semester begins: at least two courses in the major
Before the seventh semester begins: at least six courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: at least eight courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

### Career Advancement

Although the major is not preparation for graduate study in classics, it provides a sound basis for preparing individuals to teach at the secondary school and community college levels. It also provides a liberal arts and sciences foundation appropriate for further study in law and medicine. Others go on to complete advanced work in library and information science, museum studies, archaeology, or business. A large proportion of its students pursue advanced degrees.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
Classical Languages, B.A.

Requirements

The Bachelor of Arts with a major in classical languages requires a minimum of 120 s.h., including at least 36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464). Transfer credit is evaluated individually.

The major trains students to read the ancient Greek and/or Latin languages and acquaints them with the major works of Greek and/or Roman literature. Classical languages students learn about the history of ancient Greece of the eighth through the fourth centuries B.C.E., where most of the modern Western notions of political, artistic, and social life are rooted. They also develop an understanding of the Roman Republic and Empire (3 B.C.E. through 5 C.E.), when Rome established its hegemony over the Mediterranean basin, laid the foundation of law for the Western World, and spread Greece's culture to the West, and of the fall of the Empire and the rise of Medieval civilization from the sixth through the ninth centuries C.E.

In addition to completing required course work, students maintain a required portfolio detailing their progress toward the major, which they must complete before graduation; see "Major Portfolio" below.

The B.A. with a major in classical languages requires the following course work.

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>36</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major Portfolio</td>
<td>36</td>
</tr>
</tbody>
</table>

Required Courses

All of these:

| Intermediate or advanced Greek and/or Latin courses numbered CLSG:2001 through CLSG:4999, CLSL:2001 through CLSL:4999 | 18 |
| Greek or Latin prose composition (CLSG:4076 or CLSL:3176) | 3 |
| Additional classics courses at any level, including a maximum of 9 s.h. in classics in English courses (prefix CLSA) | 15 |

The following advanced undergraduate Greek courses are offered every other year and may be repeated or taken in any sequence. They cover a range of prose and poetry in historical context from the mid-republic to the third century C.E.

<table>
<thead>
<tr>

Major Portfolio

To comply with the Board of Regents, State of Iowa, policy on student outcomes assessment, the Department of Classics has established a method to assess the achievement level of B.A. students completing one of the department's majors. Students must maintain a portfolio that details their progress in attaining the objectives of their major. Students must register for and complete the following course.

| CLSL:3982 Graduation Portfolio | 0 |

Students submit the portfolio to the undergraduate advisor by midterm of the semester in which they intend to graduate. Formal approval of the portfolio is required for graduation. Consult the undergraduate advisor for details.

B.A. with Teacher Licensure

Students who are interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a g.p.a. of at least 3.50 in their first three years of classics courses. To graduate with honors in the major, they must complete two courses in honors readings during their final year, one each semester of the year, earning 3 s.h. of credit for each course. The readings and discussions must be on an ancient author or a field in ancient history or literature chosen by a student and the instructor. At the end of the second semester, the student presents a substantial research project that has been approved by the department. The project is evaluated for honors by two members of the department. Students who write an honors thesis in classical languages must be enrolled at the same time in the appropriate advanced language courses.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the
University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the classical languages major.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

**Classical Languages—Greek and Latin**

**Before the third semester begins:** CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II, or CLSG:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II

**Before the seventh semester begins:** sixth semester of Latin and fourth semester of Greek, or sixth semester of Greek and fourth semester of Latin; two more courses in the major; and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least two or three more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Classical Languages—Greek Only**

**Before the third semester begins:** CLSG:1001 Classical and New Testament Greek I and CLSG:1002 Classical and New Testament Greek II

**Before the fifth semester begins:** CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II

**Before the seventh semester begins:** three or four more courses in the major

**Before the eighth semester begins:** two or three more courses in the major and at least 90 s.h. earned toward the degree

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Classical Languages—Latin Only**

**Before the third semester begins:** CLSL:1001 Elementary Latin I and CLSL:1002 Elementary Latin II

**Before the fifth semester begins:** CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry

**Before the seventh semester begins:** three or four more courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** two or three more courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

---

1. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program (p. 464).

3. Students may use their elective courses to complete a double major, minors, or certificates.
Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

The University of Iowa’s classics program is recognized for the excellent preparation it offers for graduate study in classics. A large proportion of its students pursue advanced degrees. They are admitted to the finest public and private university programs in the country, many with full financial support.

Students who major in classical languages and complete the College of Education’s Teacher Education Program may be able to find secondary school teaching positions quickly, due to a nationwide shortage of Latin teachers.

Bachelor of Arts graduates have gone on to become secondary or university teachers, librarians, museum curators, and bankers. The study of Latin and Greek also prepares students for study of law and medicine; classics graduates regularly enter these fields. Others go on to complete advanced work in library and information science, museum studies, religious studies, history, archaeology, or business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Ancient Civilization, Minor

The undergraduate minor in ancient civilization requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

Department of Classics courses with the prefix CLSA, CLSG, and CLSL count toward the minor. Courses considered advanced for the minor are: Greek courses numbered CLSG:2001 Second-Year Greek I or above, Latin courses numbered CLSL:2001 World of Cicero or above, and Classics courses numbered CLSA:3000 or above. Appropriate courses in art, religion, history, and philosophy may be counted toward the minor in ancient civilization, if approved by the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.
Classical Languages, Minor

The undergraduate minor in classical languages requires a minimum of 18 s.h., including 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequences CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor in classical languages. Students may satisfy the requirements for the minor by completing CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, plus two courses numbered 3000 or above, one of which may be a relevant course in Greek or Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Greek or Latin should consult the advisor.
Greek, Minor

The undergraduate minor in Greek requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequence CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II, and Department of Classics courses numbered 3000 or above are considered advanced for the minor in Greek. Students may satisfy the advanced courses requirement for the minor by completing CLSG:2001 Second-Year Greek I and CLSG:2002 Second-Year Greek II plus two courses numbered 3000 or above, one of which may be a relevant course in Greek history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Greek should consult the advisor.
Health and the Human Condition, Minor

The undergraduate minor in health and the human condition requires a minimum of 15 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor in health and the human condition is interdisciplinary. It is administered by the Department of Classics and draws on courses from several units in the College of Liberal Arts and Sciences. It requires the following course work.

Ethics and Values

Latin, Minor

The undergraduate minor in Latin requires a minimum of 15 s.h., including at least 12 s.h. in advanced courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count one relevant classics department course taught in English (prefix CLSA) toward the minor. A maximum of 6 s.h. of work for another University of Iowa major, minor, or certificate and up to 3 s.h. of lower-level transfer credit may be counted toward the minor.

The sequence CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry, and Department of Classics courses numbered 3000 or above are considered advanced for the minor in Latin. Students may satisfy the advanced courses requirement for the minor by completing CLSL:2001 World of Cicero and CLSL:2002 Golden Age of Roman Poetry plus two courses numbered 3000 or above, one of which may be a relevant course in Roman history, culture, or literature (prefix CLSA). For a list of relevant courses, contact the undergraduate advisor. Students who have taken high school Latin should consult the advisor.
Classics,
Postbaccalaureate Certificate

The Postbaccalaureate Certificate in Classics requires 18 s.h. in Department of Classics courses numbered 3000 or above (upper-level undergraduate and graduate courses). The program is designed for students who have a bachelor's degree and would like further study in Greek and Latin in order to be competitive for admission to a graduate program in classics. Entry to most graduate programs requires study of both Latin and Greek, normally a minimum of three years in one language and two years in the other. The certificate is designed to be completed in two semesters by students who enter with two years of Latin and one to two years of Greek, or vice versa.

At least 12 s.h. of the required credit must be earned in Greek and Latin language courses; the remaining 6 s.h. may be earned in approved advanced courses taught in English (prefix CLSA). Transfer credit is not accepted toward the certificate. Students must maintain a g.p.a. of at least 3.00 to remain in good standing and complete the program.

A suggested plan of study for a student who enters the program with two years of Latin and one year of Greek is as follows.

<table>
<thead>
<tr>

Students who complete the program successfully receive a certificate from the College of Liberal Arts and Sciences and a letter from the Department of Classics.

Admission

Applicants must have a baccalaureate degree from an accredited college or university and a minimum of two years of language study (two years of Latin or two years of Greek, or one year of each). In unusual circumstances, students with less language preparation may be admitted.

Applicants who are not enrolled in a graduate or professional program may apply to the University of Iowa as undergraduate transfer students; they must state on their application that they are applying to the College of Liberal Arts and Sciences for admission to the classics postbaccalaureate certificate program. They must submit transcripts confirming preparation for certificate language study, a statement of purpose, scores on the Graduate Record Examination (GRE) General Test, a writing sample, and three letters of recommendation from faculty members at their baccalaureate institution.
Classics, M.A.

Requirements

The Master of Arts program in classics requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Students must pass a sight examination in the language(s) studied and an examination on literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.
Greek, M.A.

Requirements

The Master of Arts program in Greek requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Students must pass a sight examination in Greek and an examination on Greek literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.
Latin, M.A.

Requirements

The Master of Arts program in Latin requires a minimum of 30 s.h. in courses numbered 3000 or above. Students may count a maximum of 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to compete the Postbaccalaureate Certificate in Classics do not count toward the degree.

Students must pass a sight examination in Latin and an examination on Roman literature and history.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.
Classics, Ph.D.

Requirements

The Doctor of Philosophy program in classics requires a minimum of 72 s.h. of graduate credit, including the courses listed below (18 s.h.). Students may count no more than 12 s.h. earned in courses numbered 3000-4999 toward the degree. Courses taken to complete the Postbaccalaureate Certificate in Classics do not count toward the degree. Students also must take precomprehensive and comprehensive examinations and write a dissertation.

Required Courses

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLSG:4076</td>
<td>Greek Composition (or equivalent)</td>
<td>3</td>

<tr>
<td>CLSG:5001</td>
<td>Archaic Greek Literature</td>
<td>3</td>
</tr>
<tr>
<td>CLSG:5002</td>
<td>Classical and Hellenistic Literature</td>
<td>3</td>
</tr>
<tr>
<td>CLSL:5001</td>
<td>Republican Literature</td>
<td>3</td>
</tr>
<tr>
<td>CLSL:5002</td>
<td>Imperial Literature</td>
<td>3</td>
</tr>
<tr>
<td>CLSL:6076</td>
<td>Advanced Latin Composition (or equivalent)</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining course work is made up of Department of Classics courses and other courses with approval of the graduate advisor.

Ph.D. Examinations

Ph.D. students must take precomprehensive exams in Latin sight reading and Greek sight reading and must attempt one sight reading exam by the end of their first year of graduate study. Competence in reading both German and French must be demonstrated by the end of the second year of study.

Students must take the second-year exam at the end of their second year. The remaining exams may be taken in any sequence. Students must file a request for the fourth-year comprehensive exam at least three weeks before the date of the exam.

Sight-reading exam:
Latin—four hours, written
Greek—four hours, written

Second-year exam:
Literature and history—four hours, written

Fourth-year comprehensive exam:
Greek and Roman history/material culture, based on reading list—three hours, written
Latin literature, based on reading list—three hours, written
Greek literature, based on reading list—three hours, written

If a student performs unsatisfactorily on either or both of the Latin and Greek reading list exams, the director of graduate studies sets up an oral exam in order to review questions on which the student did not exhibit sufficient knowledge.

Oral exam:
Special field or author (Greek)—four hours, written
Special field or author (Latin)—four hours, written

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

The University of Iowa’s classics program is recognized for the excellent program it offers for graduate study in classics. A large proportion of its students pursue advanced degrees and most go on to teach at the college level.
Communication Sciences and Disorders

Chair  
• Jerald B. Moon

**Undergraduate major:** speech and hearing science (B.A.)  
**Undergraduate minor:** communication sciences and disorders

**Graduate degrees:** M.A. in speech pathology and audiology; Au.D.; Ph.D. in speech and hearing science  
**Faculty:** [https://clas.uiowa.edu/comsci/people](https://clas.uiowa.edu/comsci/people)  
**Website:** [https://clas.uiowa.edu/comsci/](https://clas.uiowa.edu/comsci/)

The courses and degree programs of the Department of Communication Sciences and Disorders are planned to meet the needs of students preparing for careers in clinical service, college and university teaching, and research concerned with speech, language, or hearing processes and disorders. The department also offers courses for students with vocational and professional goals in other fields—for example, engineering, psychology, education, speech, theatre arts, dentistry, and medicine—whose preparation may be enriched by the study of speech and hearing processes and their disorders.

Advanced degree holders in communication sciences and disorders provide clinical services for people with speech, hearing, or language problems in hospitals, community clinics, rehabilitation facilities, elementary and secondary schools, and private practice. They teach in colleges and universities and conduct research in laboratories concerned with communication processes and disorders.

The department’s programs leading to the M.A. with professional emphasis and the Au.D. are accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA).

### Programs

#### Undergraduate Programs of Study

**Major**  
• Major in Speech and Hearing Science (Bachelor of Arts)  
[p. 238]

**Minor**  
• Minor in Communication Sciences and Disorders [p. 241]

#### Graduate Programs of Study

**Majors**  
• Master of Arts in Speech Pathology and Audiology  
[p. 242]  
• Doctor of Audiology [p. 244]  
• Doctor of Philosophy in Speech and Hearing Science  
[p. 245]

### Facilities

#### Clinical Facilities

The clinical training program benefits greatly from Iowa City's standing as the most comprehensive health sciences center in Iowa and from the ready availability of health service facilities for clinical training of students in speech-language pathology and audiology.

The University of Iowa Affiliated Speech and Hearing Services include the Wendell Johnson Speech and Hearing Clinic; the division of speech and hearing in University of Iowa Hospitals and Clinics (UIHC) Department of Otolaryngology—Head and Neck Surgery; UIHC Consolidated Speech and Swallowing Services, which provides services to the Departments of Neurology, Child Psychiatry, and Otolaryngology—Head and Neck Surgery; speech and hearing services in the Center for Disabilities and Development; and the audiology and speech pathology service in the Iowa City VA Health Care System.

The Wendell Johnson Speech and Hearing Clinic serves the University and the general public. Included in its services are outpatient evaluation and rehabilitation programs for speech, voice, swallowing, hearing, and language problems; intensive summer camps in stuttering, a six-week summer preschool program for hearing-impaired children, and group therapy for children working on speech sounds. These clinical programs give students supervised clinical experience with a wide variety of speech, hearing, and language disorders.

In addition to the clinical training in the Wendell Johnson Speech and Hearing Clinic, training also may be acquired in supervised clinical practice with elementary school children through various state area education agencies; and in supervised clinical practice in speech, language, and hearing services provided by University of Iowa Hospitals and Clinics Consolidated Speech and Swallowing Services, the Regional Child Health Specialty Clinics, Center for Disabilities and Development, and the Iowa City VA Health Care System.

Public and private departments and programs in addition to those mentioned above often contribute to the cooperative professional training, research, and service programs.

#### Research Facilities

Facilities in the Wendell Johnson Speech and Hearing Center include audiometric testing suites, diagnostic and remediation suites, equipment for diagnosis and therapy, a classroom video recording system, and laboratories and equipment for acoustic, physiologic, and perceptual studies of speech, and for audiologic, psychoacoustic, and neurophysiologic studies of hearing.

Cooperation with departments in the Carver College of Medicine, the Department of Psychological and Brain Sciences, and the University of Iowa DeLTA Center makes additional laboratory facilities available for research on problems in speech and hearing. The participation and cooperation of specialists from varied fields, including psychology, child development, education, engineering, statistics, and medicine, further broaden the scope of research activities in speech and hearing.
Communication Sciences and Disorders Courses

CSD:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CSD:1001 CLAS Master Class 1-3 s.h.

CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2 s.h.
Introduction to communication sciences and disorders field; clinical and research works; wide range of readings; survey course with less emphasis on specific disorders.

CSD:1200 Intellectual and Developmental Disabilities 3 s.h.
Introduction and overview of issues pertaining to children and adults with intellectual or developmental disabilities (IDD); focus on their communication needs, relationship with the broader community, and careers which serve this population; interaction with individuals with IDD, their family members, professionals; lifespan and health issues, genetics, diagnosis, literacy, historical perspectives, adaptive arts and theater, disabilities in the media, social life and sexuality, issues specifically relevant to aging, and controversial topics.

CSD:1800 Aging Matters: Introduction to Gerontology 3 s.h.
Overview of the field of gerontology from a bio-psycho-social framework; how the human body and brain age, effects of these biological changes on physical and cognitive functions, and interaction of these individual factors with societal contexts; broad perspective to give students a foundation in gerontology, paving the way for more advanced courses in biology of aging, psychology of aging, and global aging; for students from a wide range of disciplines and levels, no prior knowledge of aging required. GE: Social Sciences. Same as ASP:1800, NURS:1800, SSW:1800, TR:1800.

CSD:2110 Phonetics: Theory and Applications 3 s.h.
Basic concepts: articulatory and acoustic description of speech sound production, dialect variations, language differences; development of phonetic transcription skills with emphasis on English phonetics, clinical applications to developing and disordered speech. Offered fall semesters.

CSD:2111 Basic Acoustics for Speech and Hearing 3 s.h.
Principles of sound, simple harmonic motion, sound pressure and intensity, decibels, complex waves, Fourier analysis, resonance and filters, distortion, transmission of sound. Requirements: completion of department math requirement.

CSD:2140 Manual Communication 1 s.h.
Training in use of sign systems in manual communication.

CSD:3097 Honors Seminar 2 s.h.
Research topics and procedures in speech and hearing sciences; ongoing faculty research, research opportunities, possible research projects. Requirements: honors standing with intent to complete an honors thesis.

CSD:3102 Basics of Hearing for the Non-Major 3 s.h.
Hearing is fundamental to successful functioning in life, yet few people understand the fundamentals of hearing, or the typical causes of hearing loss, such as excessive exposure to loud music; overview of mechanisms, breakdowns, and different rehabilitation options; beneficial for classroom teachers or healthcare professionals who work with hearing loss populations.

CSD:3112 Anatomy and Physiology of Speech Production 4 s.h.
Normal anatomy, physiology of structures used to produce speech; principles, methods for instrumental study of speech production. Offered spring semesters.

CSD:3113 Introduction to Hearing Science 4 s.h.
Normal auditory process; anatomy and physiology of auditory system; subjective correlates of auditory stimuli. Offered spring semesters.

CSD:3116 Basic Neuroscience for Speech and Hearing 3 s.h.
Basic anatomy, physiology of central nervous system; emphasis on neural systems involved in normal and disordered communication. Offered fall semesters. Requirements: biology, zoology, or physiology course. Same as LING:3116.

CSD:3117 Psychology of Language 3 s.h.
Theoretical, empirical investigations of linguistic behavior; behaviorist, rationalist models in context of formal linguistic structure and context of models of speech perception and production. Offered spring semesters. GE: Social Sciences. Same as LING:3117.

CSD:3118 Language Acquisition 1-3 s.h.

CSD:3122 Speech Production: Anatomy and Physiology 4 s.h.
Anatomy and physiology of respiratory, phonatory, and articulatory systems; systems' roles during speech production; approaches to instrumental assessment of speech physiologic events. Requirements: non-major.

CSD:3127 Introduction to Psycholinguistics 3 s.h.
Theoretical and empirical investigations of linguistic behavior in the context of formal linguistic structure, models of speech perception and production; readings of text and research papers; audio-visual demonstrations of classical speech perception and production phenomena.

CSD:3185 Hearing Loss and Audiology 3 s.h.
Introduction to profession of audiology; overview of hearing disorders, evaluation, treatment; basic pure-tone and speech audiometry. Offered fall semesters.
CSD:3187 Early Literacy Instruction for Young Children 3 s.h.
Service-learning involving lecture, class discussion, and student participation in an early literacy program for preschoolers: concepts and skills necessary to conduct story time groups with young children that target development of print knowledge; application of learning by reading to small groups of preschool children. Recommendations: CSD:3118.

CSD:3993 Research Practicum arr.
Individual or small group participation in faculty research projects.

CSD:4098 Honors Thesis 2 s.h.
Close work with a faculty mentor.

CSD:4114 Introduction to Voice Disorders 2 s.h.
Basic foundations for management of voice disorders. Offered spring semesters.

CSD:4115 Structural Disorders 2 s.h.
Therapy approaches used to treat speech production and swallowing disorders associated with disorders that affect structure and physiology of the speech and swallowing mechanism; basic knowledge necessary for clinical practice by clinicians who do not specialize in management of patients with head and neck cancer, laryngeal, or neurogenic disorders. Offered fall semesters.

CSD:4120 Clinical Observations in Communication Disorders 2 s.h.
Diagnosis and treatment of a wide range of speech, language, or hearing disorders in a variety of settings; basic understanding of the evaluation process, goal setting, behavior management, pacing of therapy, shaping of behavior, tracking performance/learning, and professional and ethical behavior through observation of clinical interactions; completion of 25 hours of observation as required by the American Speech-Language-Hearing Association for obtaining national certification. Recommendations: senior or graduate standing in communication sciences and disorders.

CSD:4125 Clinical Spanish for Speech-Language Pathologists 3 s.h.
Professional fluency in Spanish; focus on vocabulary and topics commonly encountered in speech and language pathology clinical setting; use of professional vocabulary to discuss research articles; administration of standardized assessments and therapy techniques in Spanish. Taught in Spanish. Requirements: completion or satisfaction of GE language requirement in Spanish through SPAN:1502, and at least one upper-level writing, speaking, or literature course in Spanish. Recommendations: advanced-level verbal and written competency in Spanish.

CSD:4145 Developmental Language Disorders 3 s.h.
Nature of developmental disorders; basic concepts including behavioral characteristics, developmental patterns, etiology theories; assessment and intervention principles in semantics, morphology, syntax. Offered fall semesters.

CSD:4146 Neurogenic Disorders of Language 3 s.h.
Overview of communication disorders secondary to acquired brain damage in adults; focus on aphasia, communication disorders arising from dementia, right-hemisphere stroke, traumatic brain injuries; general principles of diagnosis and intervention. Offered fall semesters.

CSD:4147 Neurogenic Disorders of Speech 2 s.h.
Speech disorders secondary to acquired brain damage in adults; clinical intervention issues. Offered spring semesters.

CSD:4148 Developmental Speech Disorders 3 s.h.
Review of typical phonological development in children; introduction to assessment and intervention practices for articulation and phonological disorders in children; may include apraxia, cerebral palsy, and cleft palate.

CSD:4165 Communication Disorders and Aging 2 s.h.
Introduction to speech, language, and hearing processes and disorders among older adults; survey of characteristics of communication and communication breakdown, remediation, and strategies for improving communication with older adults with communication disorders; primarily for nonmajors and service providers other than speech-language pathologists and audiologists. Offered spring semesters of even years. Same as ASP:4165.

CSD:4183 Introduction to Stuttering 2 s.h.
Theoretical perspectives on the nature of stuttering, including onset and development, basic phenomena, beginning treatment principles. Offered spring semesters.

CSD:4186 Problems: Speech/Hearing Processes and Disorders arr.

CSD:4244 Rehabilitative Audiology 3 s.h.
Theory, procedures for assessment, rehabilitation of speech, hearing, language deficits of people with hearing impairment. Offered spring semesters.

CSD:5104 Language Disorders in School-Aged Children 3 s.h.
Emphasis on elementary grades; usually taken in conjunction with EDTL:4192, which provides approximately 70 hours of supervised clinical practice in elementary schools. Recommendations: primarily for communication sciences and disorders majors. Same as EDTL:5104.

CSD:5135 Foundations of Clinical Practice I 2 s.h.
Basic concepts of clinical practice, including models of diagnosis, fundamentals of clinical data collection and measurement, treatment planning, professional writing. Offered fall semesters. Corequisites: CSD:4145.

CSD:5136 Foundations of Clinical Practice II 1 s.h.
Advanced concepts of clinical practice, including principles of human behavior change, clinical decision making, generalization, transfer and maintenance, models of service delivery, ethical practice, advanced professional writing. Offered spring semesters.

CSD:5137 Foundations of Clinical Practice III 1 s.h.
Advanced principles of clinical practice, including risk management, public policy and models of third-party reimbursement, professional issues. Offered fall semesters.

CSD:5201 Principles of Voice Production 3 s.h.
Basic physical, physiological, pedagogical principles in understanding professional, nonprofessional, impaired voice production; vocal anatomy, voice classification; control of loudness, pitch, register, quality; efficient, inefficient use of voice; instrumentation for voice analysis, synthesis. Offered fall semesters of odd years. Same as MUS:5520.

CSD:5203 Counseling in Communication Disorders 1 s.h.
Development of appropriate intervention plans that meet client/patient needs in collaboration with client/patient and relevant others; communicating effectively and recognizing needs, values, preferred mode of communication, and cultural linguistic background of client/patient, family, caregivers, relevant others; providing counseling to clients/patients, family, and caregivers regarding communication and swallowing disorders.
CSD:5206 Language Disorders: Birth to Five Years 3 s.h.
Disorders resulting from phonological, semantic, pragmatic, and morphosyntactic deficits; receptive, expressive problems; special assessment and intervention procedures. Offered fall semesters of even years.

CSD:5213 Voice Habilitation 2 s.h.
Application of methods of intervention in development, training, rehabilitation of vocal behavior; motor learning, efficacy of treatment strategies, factors affecting compliance with recommended therapy. Offered fall semesters. Same as MUS:5555.

CSD:5219 Fundamentals of Laboratory Instrumentation 3 s.h.
Electrical circuits, emphasis on application to instrumentation used in speech and hearing; laboratory focus on instrumentation. Offered spring semesters.

CSD:5222 Speech and Hearing Anatomy 2 s.h.
Laboratory course in anatomy of speech and hearing mechanisms; instruction in dissection techniques. Offered summer sessions.

CSD:5223 Pediatric Feeding and Swallowing Disorders 1 s.h.
Development of anatomy and physiology of feeding and swallowing in infants and children; assessment and treatment of pediatric feeding and swallowing disorders. Offered summer sessions. Prerequisites: CSD:4115.

CSD:5224 System and Signal Theory for Speech and Hearing Science 2-3 s.h.
Principles of linear-systems theory applied to speech and auditory research, including system functions, filter properties, convolution, Fourier Series, Fourier transform. Offered fall semesters. Corequisites: CSD:4115.

CSD:5233 Aphasia 2 s.h.
Assessment, diagnosis, and treatment of aphasia and other acquired language and cognition-based communication disorders. Offered spring semesters. Corequisites: CSD:5136.

CSD:5234 Acquired Cognitive-Communication Disorders arr.
Cognitive, neuropsychological, and social aspects of communication and the management of acquired cognitive-communication disorders associated with traumatic brain injury, right hemisphere damage, and neurodegenerative diseases.

CSD:5236 Swallowing Disorders 2 s.h.
Physiology of normal, abnormal swallowing; assessment, treatment of swallowing disorders in adults, children. Offered spring semesters.

CSD:5237 Cleft Palate and Related Disorders 2 s.h.
Nature, etiologies, principles of treatment of common disorders associated with cleft lip and palate, associated disorders. Offered fall semesters.

CSD:5240 Hearing Aids I 3 s.h.
Hearing aids, diagnostic procedures; laboratory emphasis on measurement procedures. Offered spring semesters.

CSD:5246 Advanced Audiology 3 s.h.
Theory, procedures for assessment of hearing loss in adult and pediatric populations; experience in test administration through supervised laboratory sessions. Offered fall semesters.

CSD:5253 Speech Perception in Listeners with Hearing Loss 1-2 s.h.
Introduction to study of speech perception in listeners with normal hearing and those with hearing loss; overview of speech acoustics; theories of speech perception; contributions of auditory, visual, and indexical (talker-specific) information in speech signal; assessment techniques; benefits of hearing aid and/or cochlear implant use; factors influencing speech perception by children and adults with hearing loss.

CSD:5255 Educational Audiology 2 s.h.
Training in skills necessary for working with the school-age population; case management and aural rehabilitation, amplification and classroom hearing technology, identification and assessment practices, federal legislation that affects services. Offered fall semesters. Requirements: CSD:5240 for Au.D. students.

CSD:5256 Anatomy and Physiology of Hearing 3-4 s.h.
Anatomy of auditory system, cochlear mechanics, electrophysiology of peripheral and central auditory nervous system; laboratory emphasis on physiological techniques for study of ear. Offered spring semesters.

CSD:5257 Auditory Processing Disorders 1-3 s.h.
Central auditory processing disorder (C)APD as a disorder involving auditory processing and not showing as a hearing loss on routine screenings or an audiogram; theories of mechanisms and treatment.

CSD:5260 Designing Assistive Devices 1 s.h.
System design (hardware and software) useful in building augmentative and alternative communication devices for the profoundly impaired; opportunity to build systems for theoretical and/or applied purpose; interdisciplinary, clinical perspectives. Offered summer sessions.

CSD:5282 Phonological Development and Disorders 2 s.h.
Advanced topics in phonological development and disorders; current theoretical approaches to phonological analysis and typical phonological acquisition applied to assessment and intervention with children who have phonological disorders. Offered spring semesters.

CSD:5283 Clinical Problems 1-2 s.h.
Issues, approaches to treatment of children, adults. Offered summer sessions.

CSD:5301 Practicum: Speech-Language Pathology arr.

CSD:5303 Communication/Social Interaction for Individuals with Autism 1 s.h.
Evidence-based practices and emerging practices for promoting communication and social interaction skills in individuals with autism spectrum disorders; emphasis on intervention strategies specific to receptive and expressive language development, functional communication, social interaction, emotional regulation, play, structured learning environments, and opportunities.

CSD:5304 Speech Pathology Outplacement: School 0-4 s.h.
Supervised teaching and observation in speech-language pathology in an elementary school setting.

CSD:5305 Speech Pathology Outplacement: Non-School 0-4 s.h.
Supervised clinical work and observation in speech-language pathology in a non-school setting.
CSD:5310 Scientific Writing 3 s.h.
Principles of writing for scientific posters, journal articles, grant proposals; effective communication of concepts and data.

CSD:5311 Clinical Practice in Audiology arr.
Varied topics relevant to professional issues in audiology clinical practice; presentations by clinical faculty members and guest speakers. Requirements: M.A. professional emphasis or Au.D. enrollment.

CSD:5314 Audiology Student Teaching arr.
Supervised teaching and observation in an area of audiology in the elementary schools.

CSD:5315 Clinical Rotations in Audiology arr.

CSD:5350 Preceptorship in Augmentative Communication 1-2 s.h.
Approaches to development of alternate modes of communication for individuals with limited oral communication. Offered fall semesters.

CSD:5511 Introduction to Doctoral Research 1 s.h.
Topics related to development and execution of research; doctoral program, use of library, human and animal subject issues, philosophy of science, use of common research tools, reading and writing research papers, research grant preparation. Offered fall and spring semesters.

CSD:6101 Cognitive Science of Language Proseminar I 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6101, PST:6101.

CSD:6102 Cognitive Science of Language Proseminar II 3 s.h.
Survey of five major disciplines within language sciences: formal linguistic, communication disorders, psychological, neuroscience, and computational approaches. Requirements: graduate standing in communication sciences and disorders, linguistics, psychology, or neuroscience. Same as LING:6102, PST:6102.

CSD:6202 Methods of Teaching Voice 3 s.h.
Attitude, musicianship, foreign language aptitude, physical and emotional characteristics; mental images used to modify respiratory, phonatory, articulatory behavior; vocal hygiene; performance anxiety; student-teacher relationships; administration in vocal schools, professional organizations. Offered spring semesters. Same as MUS:6520.

CSD:6204 Voice for Performers 2 s.h.
Comparison of Kinesthetic techniques for singing and acting voice; relaxation, posture, breathing, tone quality, diction, interpretation. Same as MUS:6525, THTR:6525.

CSD:6221 Instrumentation for Voice Analysis 2 s.h.
Glottographic, videostroboscopic, electromyographic, and acoustic analysis for assessment of vocal and respiratory function; using these techniques in conjunction with perceptual evaluation of voice; through the Vocology Institute in Utah. Offered summer sessions of even years. Requirements: enrollment in Summer Vocology Institute, Salt Lake City, Utah. Same as MUS:6556.

CSD:6230 Advanced Hearing Science 2 s.h.
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants).

CSD:6242 Hearing Aids II 3 s.h.
Evaluation, verification procedures; emphasis on advanced technologies, strategies. Offered fall semesters.

CSD:6245 Pediatric Audiology 3 s.h.
Theory, procedures for assessment, rehabilitation of pediatric populations; laboratory emphasis on test administration. Offered spring semesters.

CSD:6247 Medical Audiology 2 s.h.
Genetic, acquired, traumatic pathologies that affect auditory systems; nature, etiology, principles of assessment, treatment. Offered spring semesters of odd years.

CSD:6249 Cochlear Implants 1-3 s.h.
Introduction to cochlear implantation; history of cochlear implantation, introduction to cochlear technology, basics of device programming and troubleshooting, candidacy issues, outcomes in children and adults, auditory rehabilitation specific to cochlear recipients, the auditory brainstem implant, future trends in cochlear implantation. Offered spring semesters.

CSD:6250 Advanced Hearing Science 2 s.h.
Basic properties of auditory perception or psychoacoustics from material covered in CSD:5256; perception of loudness, masking frequency selectivity, temporal processing, and spatial perception; basic perceptual properties, methods of measurement, and physiological basis for performance; properties of perception in normal ears, hearing impairment, and auditory prostheses (e.g., cochlear implants).

CSD:6290 Auditory Evoked Potentials 3 s.h.
Introduction to evoked potentials for assessing audiologic function. Offered spring semesters.

CSD:6291 Vestibular Assessment and Rehabilitation 1-3 s.h.
Introduction to otoacoustic emissions, vestibular theory, and testing techniques. Offered fall semesters.

CSD:6292 Advanced Rehabilitative Audiology 1 s.h.
Current and developing procedures for assessment and habilitation of adults and children with hearing losses. Offered spring semesters.

CSD:6316 Advanced Externship in Audiology arr.

CSD:6317 Audiology Business Practice Management 1 s.h.
Introduction to the development and management of an audiology practice; topics include short and long range business planning, general accounting, budgeting, establishing fees for service, coding and third party reimbursement, marketing, professional liability, certification and licensure; business and professional ethics. Requirements: 3.00 cumulative g.p.a. and Au.D. second-year or higher enrollment.

CSD:6318 Hearing Loss Prevention 2 s.h.
Incidence and prevalence of hearing loss; risk factors and assessment; noise exposure guidelines; hearing protection devices; education and motivation.

CSD:6515 Proseminar 0 s.h.
Presentation of research ideas, results by faculty, students.
CSD:6519 Seminar: Evidence-Based Practice  1-2 s.h.
Introduction to design and conduct of research and evidence-based clinical practice, observation and measurement, population sampling, group and single-subject research designs, treatment research, data organization and analysis, and presenting research results in graphic and written form; issues concerning research ethics and the protection of human subjects in research. Recommendations: clinical graduate standing in audiology or speech-language pathology.

CSD:6520 Seminar: M.A. Language  2 s.h.
Research literature related to language. Offered spring semesters of odd years.

CSD:6522 Clinical Speech Physiology  2 s.h.
Current approaches to the study of speech physiology and application in clinical practice; focus on providing hands-on experiences with common instrumental approaches to studying speech physiology, developing an appreciation of the factors and limitations that must be considered in applying and interpreting the findings of these approaches clinically, and developing abilities to critically evaluate the literature in this area.

CSD:6524 International Service in Communication Disorders  0-2 s.h.
International service in communication and related disorders; foundational knowledge and project-based learning; cultural diversity, international speech-language pathology and audiology practices, disability and poverty, advocacy for individuals with communication and related disorders, staff-caregiver-parent training; required course for students who applied and are accepted for international service projects through the Department of Communication Sciences and Disorders.

CSD:6530 Seminar Language Acquisition on Multiple Time Scales  3 s.h.
Understanding native language acquisition by considering change over shorter (minutes, hours, days, weeks) and longer (months, years, decades) time spans; use of evidence concerning the language acquisition of individuals with childhood language impairments (specific language impairment and language learning disabilities) as these conditions allow a sort of natural experiment wherein learning and development across domains and across time can be "pulled apart." Requirements: Ph.D. enrollment.

CSD:6538 Seminar: Hearing Science  1 s.h.
Selected topics.

CSD:7238 Capstone Requirement  1 s.h.
Individual work with a faculty member on audiology topics; final Au.D. project. Offered spring semesters.

CSD:7590 Research  arr.
Speech and Hearing Science, B.A.

The undergraduate major in speech and hearing science emphasizes the normal processes of speech, hearing, and language and does not qualify an individual to work professionally in the field. Instead, it is designed primarily to prepare students for graduate work. It also may be an appropriate major for students earning College of Liberal Arts and Sciences degrees who are not planning careers in speech pathology and audiology. Students who intend to pursue professional careers in communication sciences and disorders must complete a graduate program comparable to the department's Master of Arts in speech pathology and audiology or its Doctor of Audiology (Au.D.).

Requirements

The Bachelor of Arts with a major in speech and hearing science requires a minimum of 120 s.h., including 63-64 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

Requirements include 12 core courses offered by the department and eight cognate courses offered by other departments. Transfer students must complete a minimum of 15 s.h. toward the major at the University of Iowa.

The B.A. with a major in speech and hearing science requires the following course work.

Core Courses 37
Cognate Courses 26-27
Clinical Observation
Total Hours 63-64

Core Courses

All of these:
- CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2
- CSD:2110 Phonetics: Theory and Applications 3
- CSD:2111 Basic Acoustics for Speech and Hearing 3
- CSD:3112 Anatomy and Physiology of Speech Production 4
- CSD:3113 Introduction to Hearing Science 4
- CSD:3116 Basic Neuroscience for Speech and Hearing 3
- CSD:3117 Psychology of Language 3
- CSD:3118 Language Acquisition 3
- CSD:3185 Hearing Loss and Audiology 3
- CSD:4145 Developmental Language Disorders 3
- CSD:4148 Developmental Speech Disorders 3
- CSD:4244 Rehabilitative Audiology 3

Cognate Courses

Students may choose cognate courses that help fulfill the College of Liberal Arts and Sciences General Education Program.

Both of these:
- LING:3001 Introduction to Linguistics 3
- PSY:1001 Elementary Psychology 3
One of these:
- PSQF:1020/STAT:1020 Elementary Statistics and Inference 3
- PSQF:4143/STAT:4143 Introduction to Statistical Methods 3
- STAT:2010 Statistical Methods and Computing 3
- STAT:3510 Biostatistics 3
One of these:
- CHEM:1070 General Chemistry I 3
- CHEM:1110 Principles of Chemistry I 4
- PHYS:1400 Basic Physics (preferably with lab) 4
- PHYS:1511 College Physics I 4
One of these:
- ASP:3150 Psychology of Aging 3
- PSY:2301 Introduction to Clinical Psychology 3
- PSY:2930 Abnormal Psychology: Health Professions 3
- SSW:1800 Aging Matters: Introduction to Gerontology 3
One of these:
- PSQF:4106/STAT:4143 Introduction to Statistical Methods 3
- MATH:1440 Mathematics for the Biological Sciences 4
- MATH:1460 Calculus for the Biological Sciences 4
- MATH:1850 Calculus I 4
- BIOL:1141 Introductory Animal Biology (with lab) 4
- BIOL:1411 Foundations of Biology (with lab) 4
- MATH:1440 Mathematics for the Biological Sciences 4
- MATH:1460 Calculus for the Biological Sciences 4
- MATH:1850 Calculus I 4

The cognate requirement in mathematics may be fulfilled through an acceptable score on the Advanced Placement AB or BC Calculus exam; see Credit by Exam Options on the Office of Admissions website. Students without AP credit are encouraged to take MATH:1440 Mathematics for the Biological Sciences (speech interest) or MATH:1460 Calculus for the Biological Sciences (audiology interest) to satisfy this requirement.

Clinical Observation

Students have the opportunity and are encouraged to obtain 25 hours of supervised clinical observation, a prerequisite for participation in clinical practicums at the graduate level. This requirement is satisfied by completion of independent
observations or by registering for CSD:4120 Clinical Observations in Communication Disorders.

Honors

Honors in the Major

Students with junior standing majoring in speech and hearing science who have a g.p.a. of at least 3.50 may enter the department’s honors program upon recommendation of the departmental honors advisor. To graduate with honors in the major, students must complete at least 10 s.h. of course work for the major by the beginning of their junior year and must maintain a cumulative University of Iowa g.p.a. of at least 3.50. They must complete both CSD:3097 Honors Seminar and CSD:4098 Honors Thesis, registering for CSD:3097 in spring of their junior year and for CSD:4098 in both fall and spring of their senior year.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the speech and hearing science major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

The major requires specific mathematics and science competencies that may be satisfied with courses approved for the General Education Program.

**Before the fifth semester begins:** three courses in the major

**Before the seventh semester begins:** nine courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 12 courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Total Hours** 121-129

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].
2. Enrollment in chemistry and math courses require completion of placement exams.
3. Students may use their elective courses to complete a double major, minors, or certificates.
4. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

The speech and hearing science program provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in “best job” surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Communication Sciences and Disorders, Minor

The undergraduate minor in communication sciences and disorders requires a minimum of 15 s.h., including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students must begin the minor with CSD:1015 Introduction to Speech and Hearing Processes and Disorders, which provides a broad overview of all aspects of the normal communication process and of various disorders. Students complete the minor by choosing from the courses listed below, according to their interests.

The minor in communication sciences and disorders requires the following course work.

Speech Pathology and Audiology, M.A.

The Master of Arts program in speech pathology and audiology provides training for individuals who wish to do clinical work in speech-language pathology or audiology. Graduates of the M.A. program meet all academic and practicum requirements for clinical certification by the American Speech-Language-Hearing Association (ASHA) and for licensure by the State of Iowa. Students preparing for clinical positions in public schools must meet school licensure or certification requirements of the states in which they plan to work.

Requirements

The Master of Arts program in speech pathology and audiology requires a minimum of 38 s.h. of graduate credit, although students typically earn 53-57 s.h. of credit by the time they complete the degree. The program prepares clinicians to be able to function independently in a variety of clinical settings. The program is designed to ensure that upon graduation, a student will meet requirements for immediate professional employment.

M.A. students usually have a background of undergraduate courses in speech and hearing science, psychology of language, and human behavior that is equivalent to an undergraduate major in speech and hearing science at the University of Iowa.

Before registering in the program, entering M.A. students receive descriptive materials about basic science core courses considered to be required preparation for the M.A. program, and required M.A. clinical core courses for which the department may accept comparable courses taken at the undergraduate level. Decisions about incorporating background course work in these areas are made by the faculty advisor in consultation with the student and the instructors of the basic science or clinical core courses. Entering students must have completed the following courses or their equivalents.

- A biological science course (human or animal biology) 3
- A physical science course (physics or chemistry) 3
- A social/behavioral science course 3
- CSD:2110 Phonetics: Theory and Applications 3
- CSD:3112 Anatomy and Physiology of Speech Production 4
- CSD:3113 Introduction to Hearing Science 4
- CSD:3116 Basic Neuroscience for Speech and Hearing 3
- CSD:3118 Language Acquisition 3
- CSD:3185 Hearing Loss and Audiology 3
- CSD:4145 Developmental Language Disorders 3
- CSD:4148 Developmental Speech Disorders 3
- CSD:4244 Rehabilitative Audiology 3

In addition, they must take the following courses unless they completed equivalent courses as undergraduates.

- CSD:5135 Foundations of Clinical Practice I 2
- CSD:5136 Foundations of Clinical Practice II 1
- CSD:5137 Foundations of Clinical Practice III 1
- CSD:6515 Proseminar (taken fall and spring semesters of first year) 0

Also required are additional semester hours of practicum registration sufficient to meet supervised, direct clinical experience requirements for the Certificate of Clinical Competence of the American Speech-Language-Hearing Association and the Iowa license, and to provide broad, supervised practicum experience.

In addition to the core requirements listed above, all non-thesis students preparing to be speech-language pathologists must earn a minimum of 12 s.h. from the following; thesis students must earn a minimum of 8 s.h. from the following. Thesis students also must enroll in 4 s.h. of research.

- CSD:3117 Psychology of Language 3
- CSD:5201 Principles of Voice Production 3
- CSD:5213 Voice Habilitation 2

25 hours of observation documented by a practitioner with ASHA certification

Candidates for an M.A. with a professional emphasis in speech-language pathology are not required to complete a thesis, although all students demonstrating research aptitude and interest are encouraged to do so.

A typical M.A. program usually takes two calendar years to complete but may take longer, depending on a student's background and personal interests.

Core Requirements

All students seeking an M.A. in speech pathology and audiology with professional emphasis in speech-language pathology must take the following.

- PSQF:1020 Elementary Statistics and Inference 3
- CSD:6519 Seminar: Evidence-Based Practice 1-2
M.A. with Professional Licensure

M.A. with Licensure to Work Outside Public Schools
A number of states, including Iowa, require a state license in speech-language pathology or audiology for persons who work in settings outside the public schools. Students who meet the requirements listed above for the M.A. in speech pathology and audiology also meet the academic requirements for the license in Iowa as well as in most other states.

M.A. with Public School Licensure
Students preparing for clinical positions in public schools typically must meet school licensure or certification requirements of the states in which they plan to work. The following criteria meet the requirements for endorsement as speech-language pathologists in Iowa and most other states:

- a master's degree with professional emphasis in speech-language pathology or the equivalent;
- completion of an approved human relations component;
- completion of courses that cover the education of the disabled and the gifted and talented (e.g., exceptional persons, education of the gifted); and
- completion of the requirements in speech-language pathology and the 20 s.h. professional education sequence, including CSD:5104 Language Disorders in School-Aged Children and CSD:5304 Speech Pathology Outplacement: School as a speech-language pathologist.

The professional education sequence requires course work in the following areas.

Curriculum (e.g., reading, methods, curriculum development)
Foundations (e.g., philosophy of education, foundations of education)
Educational measurement (e.g., tests and measurements, measures and evaluations of instruction)
Educational psychology (e.g., educational psychology, counseling theories and techniques)
Special education (e.g., introduction to special education, exceptional persons, learning disabilities)

Child development (e.g., human growth and development, principles and theories of child development, history and theories of early childhood education)

Note: General Education Program courses (e.g., introduction to psychology, sociology, history, literature, and humanities) do not meet the requirements of the professional education sequence.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

The department requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the M.A. program is competitive; applicants' credentials are considered in relation to those of others in the applicant pool, and a limited number of individuals are admitted to each program. Applicants whose undergraduate g.p.a. is below 3.30 or whose GRE General Test scores are lower than the 40th percentile in any area (verbal, quantitative, and analytic) rarely are admitted to either program.

Admission is for fall; the application deadline is January 1. All applications to the M.A. program must be submitted through CSDCAS (Central Application Service for Communication Science and Disorders).

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Program on the department's website.

Financial Support

Financial support is based on merit and dependent on availability of funds. For more detailed information, contact the Department of Communication Sciences and Disorders director of graduate studies.

Career Advancement

The speech pathology and audiology program provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in "best job" surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.
Doctor of Audiology, Au.D.

Requirements

The Doctor of Audiology (Au.D.) requires 95 s.h. of graduate credit. Individuals who wish to work as audiologists in the United States must hold a clinical doctoral degree or the equivalent.

The four-year Au.D. program is designed for students with an undergraduate degree in speech and hearing science. Au.D. students must complete the following courses. They may be excused from taking courses whose equivalents they completed successfully during undergraduate study.

All of these:

Joint Au.D./Ph.D.

The Department of Communication Sciences and Disorders offers the joint Doctor of Audiology/Doctor of Philosophy in speech and hearing science. The joint Au.D./Ph.D. program is especially appropriate for students who would like to practice audiology and hold a faculty position at a university. The program requires 137 s.h., permitting students to count 30 s.h. of the 95 s.h. required for the Au.D. degree toward the 72 s.h. required for the Ph.D. degree. Students complete all of the course work required for the Au.D.; the course of study for the Ph.D. is developed by each student in consultation with a faculty committee (see Ph.D. in Speech and Hearing Science [p. 245] in the Catalog). Consult the department to learn more about the joint degree program.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

The department requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the Au.D. program is competitive; applicants' credentials are considered in relation to those of others in the applicant pool, and a limited number of students are admitted to each program. Applicants whose undergraduate g.p.a. is below 3.00 or whose GRE General Test scores are lower than the 40th percentile in any area (verbal, quantitative, and analytic) rarely are admitted to either program.

Admission is for fall; the application deadline is January 1. All applications to the Au.D. program must be submitted through CSDCAS (Central Application Service for Communication Science and Disorders).

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Program on the department’s website.

Financial Support

Financial support is based on merit and dependent on availability of funds. For more detailed information, contact the Department of Communication Sciences and Disorders director of graduate studies.

Career Advancement

The Au.D. program at the University of Iowa provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in “best job” surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.
Speech and Hearing Science, Ph.D.

Requirements

The Doctor of Philosophy program in speech and hearing science requires a minimum of 72 s.h. of graduate credit. The program provides flexible, comprehensive training for scholar-researchers interested in communication processes and their disorders. Students with diverse backgrounds in the natural and behavioral sciences are encouraged to apply and develop their skills in an atmosphere of interdisciplinary research.

The Ph.D. program reflects the broad interests of its multidisciplinary faculty, whose members have diverse backgrounds in speech, language, hearing, engineering, physiology, physics, psychology, linguistics, and bioengineering. Faculty members are committed to an interdisciplinary approach to questions at every level of the speech and language production/perception system.

The purpose of the doctoral program is to provide the integrated knowledge necessary for a productive career in speech-language pathology and audiology, communication science, and related areas.

The department encourages candidates with special interests, goals, or backgrounds to develop individualized programs of study. There is no standard curriculum for the Ph.D.; rather, a program of study is developed by each student in consultation with a faculty committee. The course of study is developed from courses offered by the department, courses in other areas (e.g., physics, engineering, psychology, mathematics, statistics, physiology, neurology, anatomy, and others), and special reading and research experiences.

The following courses are offered by the department of Communication Sciences and Disorders primarily for Ph.D. students. Students interested in specific areas of research and selected publication citations of the faculty are encouraged to write to the department.

In addition, seminars offered by the department cover a broad range of topics relevant to doctoral study.

Students in the Ph.D. program usually are expected to register for research credit (CSD:7590 Research) during each semester of residence and to register for and participate in CSD:6515 Proseminar.

Knowledge in each of the areas of hearing, speech, language, mathematics, statistics, computer science, and instrumentation is required of all students. Decisions regarding the extent of this knowledge and how it is obtained (e.g., course work or independent study) are made jointly by each student and the student’s faculty committee.

Doctoral students who have not written a master’s thesis must complete the equivalent of a master’s thesis project as well as the comprehensive examination. They also must successfully complete and submit a dissertation based on original research.

Joint Au.D./Ph.D.

The Department of Communication Sciences and Disorders offers the joint Doctor of Audiology/Doctor of Philosophy in speech and hearing science. The joint Au.D./Ph.D. program is especially appropriate for students who would like to practice audiology and hold a faculty position at a university. The program requires 137 s.h., permitting students to count 30 s.h. of the 95 s.h. required for the Au.D. degree toward the 72 s.h. required for the Ph.D. degree. Students complete all of the course work required for the Au.D.; the course of study for the Ph.D. is developed by each student in consultation with a faculty committee. Consult the department to learn more about the joint degree program.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

The department requires that applicants take the Graduate Record Examination (GRE) General Test before they apply for admission.

Admission to the Ph.D. program is based on a student’s aptitudes and interests in research areas rather than on admitting a certain number of students. Students should have a g.p.a. of at least 3.00 and should have GRE General Test scores no lower than the 40th percentile in any area (verbal, quantitative, and analytic) to be considered. For best consideration, applications should be received by January 1. All applications to the Ph.D. program must be submitted through the Office of Graduate Admissions.

For detailed information regarding evaluation of applicants, applications materials and requirements, and other matters, see Graduate Program on the department’s website.

Financial Support

Financial support is merit-based and dependent on availability of funds. For more detailed information, contact the Department of Communication Sciences and Disorders director of graduate studies.

Career Advancement

The speech and hearing science program at the University of Iowa provides excellent preparation for a career as a speech-language pathologist or audiologist. There continues to be a strong demand for professionals in these fields, and both speech pathology and audiology are consistently ranked highly in “best job” surveys.

Advanced degree holders may work as a teacher, clinician, and/or researcher in the field of communication sciences and disorders.
Communication Studies

Chair
• Timothy J. Havens

Undergraduate major: communication studies (B.A.)
Undergraduate minor: communication studies
Graduate degrees: M.A. in communication studies; Ph.D. in communication studies
Faculty: https://clas.uiowa.edu/commstudies/people
Website: https://clas.uiowa.edu/commstudies/

The Department of Communication Studies focuses on the study of human communication as a social practice. Scholarship and teaching in the department center on the role that human communication processes play in the construction, maintenance, reinforcement, and reformation of various aspects of social, professional, and institutional life.

The department provides a liberal-arts-based undergraduate education that prepares students to meet the complex communication challenges of the 21st century. It provides top-ranked doctoral education and is a national and international leader in research and knowledge dissemination.

The department has three areas of specialization. The rhetoric and public advocacy specialization focuses on how citizens use public argumentation and other rhetorical processes to bring about cultural, social, and political changes. The media studies specialization focuses on modern media in their cultural, economic, historical, political, and social contexts to understand how society and social relations shape and are shaped by media practices. The interpersonal communication and relationships specialization focuses on how the communicative practices of relating in everyday life construct, shape, sustain, and change who people are as individuals, as well as the quality of their lives.

The Department of Communication Studies encourages exploration of the practical, political, social, and aesthetic dimensions of symbolic exchange and awareness of the relationships among these dimensions. The department has produced many influential scholars and artists and has been a hub for the intersection of programs and projects of the University and other institutions.

Forensics/Debate

Students in the forensics/debate program have the opportunity to participate in on-campus debates, in developmental programs designed to improve speech activities in the state, and as members of competitive intercollegiate debate teams. Forensics scholarships are available. Students interested in debate should enroll in COMM:2813 Practicum in Debate or COMM:1814 Elements of Debate.

Related Certificate: Event Planning

The Departments of Communication Studies, Health and Human Physiology, and Marketing, and the School of Journalism and Mass Communication collaborate to offer the undergraduate Certificate in Event Planning. Students who earn the certificate will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event planning and careers in the event planning industry.

For information about the certificate, see Event Planning [p. 417] in the Catalog.

Programs

Undergraduate Programs of Study

Major
• Major in Communication Studies (Bachelor of Arts) [p. 256]

Minor
• Minor in Communication Studies [p. 261]

Graduate Programs of Study

Majors
• Master of Arts in Communication Studies [p. 262]
• Doctor of Philosophy in Communication Studies [p. 263]

Facilities

The Samuel L. Becker Communication Studies Building is designed to meet the department’s research and technological needs.

Courses

Courses numbered below 5000 are intended primarily for undergraduates; those numbered 5000 and above are for graduate students. Graduate students may take courses numbered 3000-4999 for credit, with their committee’s approval.

Not all courses are offered each semester.

Registration in COMM:1000 First-Year Seminar is open to first- and second-semester students regardless of grade-point average.

Communication Studies Courses

COMM:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

COMM:1112 Interpersonal Communication 3 s.h.
Introduction to face-to-face communication in social and personal relationships; maximizing communicative effectiveness in relationships with knowledge about how communication functions; analysis of one’s own and others’ communication practices and experiences.

COMM:1117 Theory and Practice of Argument 4 s.h.
Public arguments as practiced in law, politics, science, and other public arenas; improvement of skills in researching, constructing, organizing, and presenting arguments on disputed subjects; analyzing and refuting arguments of others; developing a better understanding of how scholars apply tools of formal and informal logic in a variety of disciplines to improve quality of academic argument. GE: Quantitative or Formal Reasoning.
COMM:1130 The Art of Persuading Others 3 s.h.
Basic theoretical concepts of effective public communication; employ knowledge of concepts in analyzing texts; definition and influence of rhetorical situation, different elements of persuasion (message logic, appeal to feelings, character of speaker), ability of speakers to invent arguments; issues of judgment, public discourse, identity, and agency.

COMM:1168 Media, Music, and Culture 3 s.h.
What makes popular music important for people; music's power to change culture; production, distribution, reception of popular music in cultural and historical contexts.

COMM:1170 Communication Theory in Everyday Life 3 s.h.
General overview of everyday life communication, theories and research techniques used to understand it; sheer depth and complexity of processes in communication that occur in everyday lives and which appear to be trivial; how to observe conversations and identify what is really happening in them; ways in which scholars explain everyday communication and how it works; applications of theoretical thinking to explain processes of everyday communication. GE: Social Sciences.

COMM:1174 Media and Society 3 s.h.
Processes and effects of mass communication; how mass media operate in the United States; how mass communication scholars develop knowledge. GE: Social Sciences; Values and Culture.

COMM:1301 Core Concepts in Communication Studies 3 s.h.
Introduction to communication topics; face-to-face interaction, public speaking, globally-distributed film, music, and television; ways of thinking, vocabulary, and overview of concepts used in other communication studies courses.

COMM:1305 Studying Communication: Methods and Critiques 4 s.h.
Social scientific methods used to generate knowledge about communication processes; basic tools necessary to conduct and evaluate communication research; epistemological perspectives, research procedures, and data analysis; readings and hands-on activities. Requirements: 30 s.h. of credit.

COMM:1809 Social Marketing Campaigns 3 s.h.
Introduction to theory, development, and practice of social marketing campaigns; public service announcements, political action to change smoking laws, community-led initiatives to increase availability of local foods; communication-centric format including research in public health, nursing, marketing, and other fields; group work to identify issues of local concern and develop a theoretically justified and practically realistic social marketing campaign with potential to positively impact communities.

COMM:1814 Elements of Debate 3 s.h.
Debates that occur everyday in a wide variety of situations and settings; how to recognize when a debate is occurring and different procedures by which people conduct debates; emphasis on development of personal advocacy skills and how one goes about teaching those same skills to others by example and practice; examination of role of debate in achieving collective economic and political purposes in contemporary societies.

COMM:1816 Business and Professional Communication 3 s.h.
Introduction to business and professional communication at individual and corporate levels; individual-level topics cover organizational communication, business vocabulary, speaking and writing, professionalism and interviewing; corporate-level topics focus on marketing, advertising, public relations, corporate communications, crisis communication management, business and communication plans, proposals; guest speakers from for-profit and not-for-profit organizations.

COMM:1818 Communication Skills for Leadership 3 s.h.
Practice and understanding of essential communication skills for leadership; skills-based curriculum promoting application of knowledge; topics include relationship skills, collaboration skills, presentation skills, and writing skills; emphasis on leadership throughout each section of the course.

COMM:1819 Organizational Leadership 2-3 s.h.
Introduction to nature of leadership, styles of leadership that are most effective, and ways in which obstacles may be overcome in groups or organizations; different approaches to qualities of leadership, role of visions and motivation, interpersonal and decision-making skills, meeting preparation and evaluation, and related communication skills.

COMM:1830 Solving Public Problems: Dialogue and Deliberation for Democracy 3 s.h.
Communication at the heart of public problems and solutions; critical 21st-century skills (writing for a general audience, facilitating dialogue); valuable community service experiences as an introduction to the interdisciplinary field of dialogue and deliberation; focus on a complex local issue, such as affordable housing, flood planning, or excessive drinking; partnering with local organizations to research a local problem, plan community-based solutions, and study the art of facilitating public discussions; topics include issue analysis, deliberative inquiry, convening meetings, and community organizing.

COMM:1840 Television Studio Production 3 s.h.
Basics of digital television studio production on industry-quality technology; studio lighting, high-definition camera operation, audio recording and editing, digital switcher operation, nonlinear editing, and more; introduction to questions surrounding the impact of studio production on artistic expression, audiences, and society.

COMM:1898 Introduction to Latina/o Communication and Culture 3 s.h.
Introduction to fundamentals of communication by and about Latina/o in the U.S.; Latina/o as one of the fastest growing demographics; how Latina/o history, politics, and culture remain little understood despite a longstanding and growing presence in Iowa and across the nation; historical orientation; Latina/o social movement and protest (e.g., Chicana/o movements and the Young Lords Organization), institutional discourses (e.g., congressional, presidential, and legal discourses), and Latina/o in popular culture (film, TV, music, sports). Same as LAS:1898.
COMM:2010 Communication and Organizational Culture 3 s.h.
Introduction to nature, construction, and deconstruction of organizational culture from a communication perspective; examination of different approaches for understanding and analyzing organizational culture, including the lens of symbolic performance, narrative reproduction, textual reproduction, management, power and politics, technology, and globalization; prepares students to be change agents in organizations as they learn how to conduct an organizational cultural audit and how to create and implement successful change.

COMM:2011 Group Communication 3 s.h.
Study of relevant theory, research, and application to increase understanding of communication in small groups; critical thinking and communication skills; individual roles in groups, creativity, leadership, decision making, problem solving, and conflict resolution.

COMM:2040 Communication and Conflict 3 s.h.
Conflict and its management as critical issues that pervade people's personal and professional lives; complexities of conflict; forces that make conflict challenging; skills for thinking about and managing conflict more effectively; central features that define conflict; behaviors, attributions, and emotions that are manifest during conflict; formal models of conflict management and their corresponding recommendations for handling conflict.

COMM:2041 Gender, Communication, and Culture 3 s.h.
Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as GWSS:2041.

COMM:2042 Intercultural Communication 3 s.h.
Culture defined as a system of taken-for-granted assumptions about the world that influence how people think and act; cultural differences that produce challenges and opportunities for understanding and communication; those differences from several theoretical perspectives; opportunities to examine culture and cultural differences in practical, experience-driven ways. Same as IS:2042, SW:2042.

COMM:2044 Political Communication 3 s.h.
Relationship between media, cultural politics, and the American political system; focus on advertising, campaigns, and new media outlets; ways politicians, the press, and intermediaries create and disseminate messages into mainstream culture; how people generate their own discourses of political identity and dissent, creating a robust democratic practice that is both empowering and central to the contemporary political landscape.

COMM:2045 Gender, Sexuality, and Space 3 s.h.
Introduction to feminist and queer theories of social space; material and symbolic construction of gender and sexuality; communicating gender and sexuality in different social spaces and scales in historical and contemporary contexts.

COMM:2048 Transforming Media: From Telegraph to Internet 3 s.h.
Communication media as global phenomena in which U.S. corporate and government interests play a major part; from electronic telegraph to broadcasting and cable, an investigation of historical contexts in which these media emerged; tracing ways in which they have been shaped by political, economic, and social relations of power.

COMM:2051 Politics of Popular Culture 3 s.h.
How culture is political and how politics is cultural; overview of theories of culture and critical-cultural approaches to study of popular culture, past and present; specific topics of analysis vary, may include television, celebrity culture, music, film, games, and sports.

COMM:2052 Latin American Media 3 s.h.
Development of media institutions, texts, and audiences across a number of Latin American countries; focus on broadcast media (radio and television) and situates them within larger historical context of 20th- and 21st-century Latin America; readings, discussions, and assignments with particular attention to influence of U.S. corporate and state interests on Latin American media; debates over cultural dependency, globalization, and hybridity in region. Same as LAS:2052.

COMM:2053 Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships 3 s.h.
How individuals manage private information with regard to their interpersonal relationships; multiple theories of privacy management; how aspects of information, individual, and target of disclosure all contribute to decisions to reveal or conceal private information to friends and family.

COMM:2054 Movements, Protest, Resistance 3 s.h.
Historical and contemporary study of social movements from a symbolic perspective (e.g., speeches, protests, propaganda, media events); social movements as interpersonal and group communication; relationships between media and social change: efficacy of individual and larger-scale forms of resistance.

COMM:2057 Introduction to Computer-Mediated Communication 3 s.h.
Theory and practical introduction to concepts and research in computer-mediated communication; emphasis on study of social effects of communication and information technology; factors that distinguish mediated from face-to-face interaction, theories of mediated communication, self-presentation online; Internet-based relationships, online supportive communication, online communities; how the Internet influences communication and how to use computer-mediated communication for self-presentation.

COMM:2058 Rhetoric and Past Public Controversy: The Sixties 3 s.h.
Role of rhetoric in public controversy in particular historical time periods; focus on various perspectives, diverse voices, and multiple arguments informing particular movements/issues. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: communication studies majors must register for COMM:2058 to receive credit in the communication studies major. Same as RHET:2410.

COMM:2064 Media, Advertising, and Society 3 s.h.
Introduction to the critical study of advertising in the United States; advertising contextualized as an industry and as a key part of media and culture; advertising as an institution and as a series of symbols, ideas, and fantasies; how advertising works, role and function of advertising in culture and society.

COMM:2065 Television Criticism 3 s.h.
Introduction to scholarly study of television as a social institution; nature of television form and content; role of industry in creation, selection, and presentation of television programs; production conventions and textual conventions in defining the medium; application of genre and narrative theory, semiotics, political economy of media industries, and audience reception study.
COMM:2069 Black TV Drama: The Wire 3 s.h.
Social and political impact of television dramas featuring people of African descent in the West; HBO’s The Wire series—a social commentary, commercial, and aesthetic force—has pioneered new ways of thinking about the relationship between media and society at large while revolutionizing ways in which black urban life is portrayed in today’s world; focus on complex intersections between urban poverty, education, and political system, crime, mediation in Western society. Same as AFAM:2070.

COMM:2075 Gender, Sexuality, and Media 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as GWSS:2075.

COMM:2076 Race, Ethnicity, and Media 3 s.h.
Introduction to debates about media portrayals of race and ethnicity; focus primarily on entertainment media; use of general analytic perspectives (stereotype analysis, aesthetic analysis, history) applied to real-world examples; address one or more racial/ethnic groups in the United States. Same as AFAM:2076.

COMM:2077 Writing and Producing Television 3 s.h.
Introduction to basics of scripting and producing a conventional, three-camera television series; hands-on experience with production equipment and workshop television scripts; students create one or more episodes of an original television series.

COMM:2079 Digital Media and Religion 3 s.h.
Influences of digital media on religion and spirituality today. Same as RELS:2930.

COMM:2080 Public Life in the U.S.: Religion and Media 3 s.h.
Examination of how the U.S. came into being through specific communication practices, how religion has helped and hindered that process; religious roots of the idea of the U.S., intertwined histories of print media and religion, role of religion and secularism in public discourse; U.S. pride as a nation in which diversity thrives in public discourse; communicative acts that created and sustained this country and also mark sites of discord, conflict, and confusion from the very beginnings of the U.S. to today; how religion has been a source of national identity and national division. Same as RELS:2080.

COMM:2085 Media Industries and Organizations 3 s.h.
Trends in media industries as reflected in changes of ownership, different work conditions, media convergence, and globalization generally; focus on local, network, and cable television; examination of industry structures, business practices, economic fundamentals, and theoretical explanations of media industries in society.

COMM:2086 Global Media Studies 3 s.h.
Key developments in contemporary international communication; impact of deregulation and privatization on ownership and control of global communication infrastructure; spread of American television abroad in terms of production, texts, and reception; cultural concerns surrounding the phenomenon.

COMM:2087 Copyright Controversies 3 s.h.
How digital technologies have dramatically changed media and popular culture landscapes; advent of relatively cheap editing programs that allow anyone to collage media on their home computers and enable people to become cultural producers; technologies that allow more people to break law in the eyes of copyright industries; historical look at collage practices from pre-digital era to present; ethical and legal questions surrounding use and reuse of copyrighted materials; notion of free speech in a media age.

COMM:2088 Media and Democracy 3 s.h.
Exploration of relationship between democracy and mass communication; why controversies regarding mass communication are also controversies about democracy; logical relationship between democracy and mass media; roots and history of ideas of democracy, contemporary obstacles to realization of these ideas, and varied issues of present; latest developments in world of politics and media.

COMM:2089 Nonverbal Communication 3 s.h.
Introduction to theoretical study of nonverbal communication; focus on major principles and research trends; examination of role of nonverbal communication in communication as a whole; perception and interpretation of nonverbal communication (i.e., posture, eye movements, tone of voice); nonverbal behaviors (i.e., facial expression, eye movement) used to persuade, impress, or deceive someone.

COMM:2090 Topics in Communication Studies 3 s.h.
Topics vary.

COMM:2091 Organizational Communication 3 s.h.
Explores nature and function of communication in organizations; theories of organizational communication and scholarly research related to communicating effectively in organizational settings; course will strengthen critical thinking and research skills, deepen understanding of topics related to organizing, and improve ability to communicate successfully as members and leaders of organizations.

COMM:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people’s lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, HIST:2148, IS:2248, LING:2248, WLCC:2248.

COMM:2800 Introduction to Latin American Studies 3 s.h.
Cultures of Latin American countries with emphasis on cultural history and cultural production; interdisciplinary survey. Same as IS:2700, LAS:2700, PORT:2700, SPAN:2700.

COMM:2802 Workshop in Debate and Forensics 3 s.h.
Public argument on questions of value and policy; opportunities for demonstration and practice in discussion and debate. Requirements: concurrent enrollment in the National Summer Institute in Forensics.
COMM:2813 Practicum in Debate 1 s.h.
Practice of skills in research, reasoning, argument development, and argumentative performance in debate undertaken by members of the A. Craig Baird Debate Forum in preparation for and participation in intercollegiate debate competition. Requirements: participation in A. Craig Baird Debate Forum.

COMM:2821 Oral Interpretation 3 s.h.
Weekly performances to develop and define communication skills for professional careers in teaching and business; poetry, prose, monologue, storytelling, duo interpretation, reader's theatre, and demonstration speeches. Same as EDTL:2821.

COMM:2828 Experiential Learning in Communication Studies 1-3 s.h.
Structured course work while student completes a semester-long professional work experience (paid or unpaid, part- or full-time, on- or off-campus); professionalization and application of classroom learning to real-world contexts; requires professional supervision and evaluation by a manager in the organization. Requirements: g.p.a. of at least 2.00, communication studies major, and minimum of 12 s.h. of communication studies course work.

COMM:2896 Workshop in Teaching Communication and Forensics arr.
Methods, materials, progression, evaluation in teaching and supervising students in courses and class activities; opportunities for observation, demonstration, practice in teaching theater, discussion and debate, individual speech, dramatic and forensic events. Requirements: 6 s.h. of intermediate-level course work.

COMM:2897 Independent Study arr.
Creative or research project under faculty supervision.

COMM:2898 Honors Workshop 1 s.h.
Preparation for honors thesis prospectus; coordination of student's individual thesis work, introduction to issues in research design, methods. Requirements: g.p.a. of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:2899 Honors Thesis 3 s.h.
Individual research, writing, or creative production under faculty supervision. Requirements: g.p.a. of at least 3.33, honors standing, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work.

COMM:3100 LGBTQ/Queer Studies 3 s.h.

COMM:3360 Religion Beyond Reason: Emotion and Communication 3 s.h.

COMM:3600 Issues in Rhetoric and Culture: Crafting Electronic Identities 3 s.h.

COMM:4100 Developing Leadership 3 s.h.
Exploration of communicative dimensions of leadership and work of organizational communication scholars who have studied this topic; builds on leadership in organizational communication, business, and professional communication or other courses that introduce leadership from a communication perspective; readings and discussions of scholarly articles and selections from contemporary books/articles about leadership geared toward popular or professional audiences; team work, hands-on projects with emphasis on use of leadership skills. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).
COMM:4131 Globalization and Culture 3 s.h.
How context for everyday experience has increasingly become globally determined (e.g., ever-increasing transnational migration of people, spread of American culture, growth of international corporations and trade, rise of international conflict and transnational activism); range of theoretical and critical readings on globalization; various phenomena and perspectives regarding topic; themes directly relevant to lives of modern youth; how globalization affects opportunities and risks, identities and relationships. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091). Same as IS:4131.

COMM:4135 Media, Culture, and Relationships 3 s.h.
Intersections of interpersonal communication and media; often studied as separate phenomena, approached as integrated systems, and integration as a central issue of our times; application of theories of interpersonal communication, media, and culture to a project that identifies a communication problem involving interpersonal and media issues, and proposes a solution to a potential client or audience; students draw on skills central to communication studies major (critical thinking, identifying and solving problems, effective oral and written communication). Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4140 Communication and Relationships 3 s.h.

COMM:4142 Advanced Intercultural Communication 3 s.h.

COMM:4145 Argument and Law 3 s.h.

COMM:4147 Family Communication 3 s.h.
COMM:4153 Magic Machines: Technology and Social Change 3 s.h.
How media has altered culture, society, and human consciousness throughout history with focus on last two centuries (or modernity); how communication has been shaped by a variety of media (i.e., gesture, language, writing, printing, calendars, clocks, photography, telegraph, telephone, phonograph, film, radio, television, computers); 21st-century questions concerning technology and how few communicate today without aid of some kind of machine or technique. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091). Same as RELS:4153.

COMM:4157 Advanced Topics in Communication Studies 3 s.h.

COMM:4163 The Dark Side of Interpersonal Communication 3 s.h.
Review of advanced communication theories and research; focus on dark side of interpersonal communication and close relationships; negative or difficult elements of developing and maintaining relationships; expression of difficult emotions; mundane communication that can function in destructive or negative ways. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4164 Life Happens. Don't Worry About It: The Communication of Social Support 3 s.h.
Advanced look at communication of social support as a research tradition in interpersonal communication scholarship; in-depth overview of theories, concepts, types, processes, and mechanisms that constitute different forms of comforting behaviors; emphasis on factors that change people's abilities, motivations, or perceptions of success during experiences of social support; Internet influences on social support by online support groups, Internet-based intervention programs, how process of communicating comfort is altered by conveying these messages online. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4165 Criticism and Public Culture 3 s.h.

COMM:4166 Life-Span Communication 3 s.h.
COMM:4168 Rhetoric of the Body 3 s.h.
Survey of a range of theories about the body and application to specific case studies; implications of how bodies are endowed with and convey meaning; theories of pollution, pain, ability, and normativity; diverse case studies that are seemingly disparate, but all preoccupy themselves with public conceptions of bodily meaning (i.e., beauty pageants, freak shows, plastic surgery, the wannabe movement, tattoos, the FDR Presidential Memorial, Deaf culture, fat bodies, illness, and torture). Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4169 Feminist Rhetorics 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifestos that shaped women’s movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women’s lives and broader U.S. American culture. Prerequisites: (4 of the following are required: (COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4170 Theories of Persuasion 3 s.h.

COMM:4172 Television and African American Culture 3 s.h.

COMM:4173 Social Media, Culture, and Politics 3 s.h.

COMM:4174 Communication, Technology, and National Security 3 s.h.
COMM:4176 Advanced Relational Theory 3 s.h.
Relationships and how they significantly shape our experiences of the world, sense of identity, outlook on life, and way in which we think about experiences and life in general; premise that relationships are more than emotional attachments or bonds; relationships as happy, emotionally satisfying elements of life; demonstrations of a variety of communicative situations that establish, reconstitute, and demonstrate importance of membership of communities and relationships. Prerequisites: (4 of the following are required: COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091).

COMM:4181 Legal Communication and Culture 3 s.h.

COMM:4183 Networking America: The Cultural History of Broadcasting 3 s.h.

COMM:5200 Introduction to Research and Teaching 2 s.h.
Introduction to communication studies as a field of scholarship; selection of research problems, major lines of research represented in the department, bibliographical tools for scholarship in the field; issues, practical tasks, and concerns relevant to effective college or university classroom teaching.

COMM:5205 Proseminar in Communication Studies 1 s.h.
Research presentations in the field given by graduate students, faculty, and visiting scholars.

COMM:5230 Introduction to Rhetoric and Discourse 3 s.h.
Introduction to major theories, principles, and practices of rhetorical theory, rhetorical criticism, and discourse analysis.

COMM:5241 Theories of Mass Communication 3 s.h.
Major concepts, theories, schools of thought in media studies, mass communication.

COMM:5299 Graduate Independent Study arr.

COMM:6120 Health Communication 3 s.h.
Theories, concepts, research associated with health communication; interpersonal and mass communication approaches. Same as CBH:6210.

COMM:6220 Health Communication Campaigns 3 s.h.
Intervention design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Same as CBH:6220.

COMM:6319 Criticism and Public Culture 3 s.h.
Fundamentals of criticism; practice of critical reading to engage various cultural texts (i.e., pop culture, national memorials, social movements, visual rhetoric); contemporary theories/debates that inform the art of critique (i.e., feminist theory, queer theory, critical theory).

COMM:6323 Rhetoric, Protest, and Social Movements 3 s.h.
Introductory study of relationships between rhetoric, protest, and social movements; theoretical and methodological debates framing and shaping how we understand protest and social movements rhetorically.

COMM:6335 Proseminar: Contemporary Rhetorical Studies 2-4 s.h.
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies.

COMM:6336 Seminar in Rhetorical Theory 1-4 s.h.
Topics in history and development of rhetorical theory; theory construction and application to critical practice.

COMM:6339 Seminar: Rhetoric and Culture 1-4 s.h.
Cultural theories, their utility in accounting for communication practices.

COMM:6340 Media and Modernity 3 s.h.
Survey of classic and contemporary theoretical texts on cultural, social, political, and human consequences of 19th- and 20th-century media.

COMM:6341 Topics in Mass Communication Scholarship 1-3 s.h.
Theory and research on problems in mass communication.

COMM:6342 Critical Television Studies 3 s.h.
Introduction to canonical and contemporary readings in critical television studies; primary questions and theories associated with textual, industrial, ethnographic, and integrated approaches to studying television; how technological, economic, and cultural changes have altered television and how it is studied.
COMM:6345 New Materialisms 3 s.h.
Exploration of new strategies for rupturing persistent dichotomies of subject/object, representation/real, culture/nature, and active humans/passive things offered by theories of the vitality and agency of matter; introduction to origins of and developments in new materialisms; oriented to interdisciplinary inquiry and application to research in the humanities, broadly conceived; particular attention to actor-network theory, feminism, queer theory, infrastructuralism, and materialist theories of media.

COMM:6346 The Public Sphere 3 s.h.
Theories, intellectual history, critics, contemporary issues of the public sphere.

COMM:6350 Seminar: Mass Communication 1-4 s.h.
Topics vary.

COMM:6351 Global Media Seminar 3 s.h.
Theories and processes of globalization and the cultural implications of media globalization; local responses to globalizing processes with reference to questions of modernity and national/transnational identity.

COMM:6352 Seminar: Media Theory 3 s.h.
Topics vary.

COMM:6354 Media and Social Change in Latin America 3 s.h.
Cultural history and political economy of Latin American media; focus on U.S. influence and globalizing processes; media theory in Latin context; national and transnational audience formations.

COMM:6355 Cultural History of Radio 3 s.h.
Cultural history, sound aesthetics, political economy, and audience studies of U.S. radio broadcasting; radio as a contested medium of local, regional, and national culture.

COMM:6365 The Communication of Social Support 3 s.h.
Substantial knowledge base developed by scholars about types, processes, and mechanisms of social support used by humans to comfort one another; in-depth examination of theory and empirical research related to communication of social support; emphasis on types of support, verbal person-centered messages, and various strategies for social support; gender differences and social skills related to comforting; online supportive communication; development of detailed knowledge of this topic, critical assessment of extant research, and synthesis of class readings in written format.

COMM:6367 Computer-Mediated Communication 3 s.h.
In-depth analysis of theory and research related to computer-mediated communication; factors that distinguish mediated from face-to-face interaction, theories of mediated interpersonal communication, self-presentation online, Internet-based relationships, and online supportive communication; how the Internet influences communication; online supportive communication, problematic Internet use, preference for online social interaction, the digital divide, mediated social networks, deception, and interventions on the Internet.

COMM:6370 Quantitative Research Methods 3 s.h.
Primary methods for conducting quantitative research on interpersonal and group communication.

COMM:6371 Communication Theory 3 s.h.
Survey of primary theories of interpersonal, cultural, group, and organizational communication.

COMM:6376 Family Communication 3 s.h.
Theory and research on communication among and between family members (parents, children, marital partners, siblings); quantitative and qualitative research.

COMM:6381 Seminar: Topics in Communication Research 3 s.h.
Topics vary.

COMM:6387 Communication, Cognition, and Emotion 3 s.h.
Theoretical and empirical work that integrates communication, cognition, emotion; role of social cognition in communication, theories of emotion, types of emotional experiences; approaches to understanding emotion from perspectives in psychology, social cognition, communication; emotion-related issues such as influence of gender, effects of mood.

COMM:6399 Ph.D. Dissertation arr.

COMM:6400 Current Issues in Rhetoric 3 s.h.
Ethical, social, or cultural issues; rhetoric’s role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as RHET:6400.

COMM:6635 Crossing Borders Seminar 2-3 s.h.
Communication Studies, B.A.

Requirements

The Bachelor of Arts with a major in communication studies requires a minimum of 120 s.h., including 40 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The curriculum is designed to encourage learning that progresses from foundation courses to intermediate and advanced (capstone) courses. Students may choose to build creative combinations of course work that suit their individual learning and career goals.

Students may count up to 56 s.h. of Department of Communication Studies course work (prefix COMM) toward credit required for the Bachelor of Arts degree. Transfer courses may be applied toward the requirements of the major, with the department's approval. A maximum of 15 s.h. of transfer credit may be counted toward the major.

Students work with the communication studies academic advisor to develop study plans that meet the requirements of the major. Students may check their progress toward the degree on MyUI. First-year students interested in completing a major in communication studies are advised at the Academic Advising Center. Students who have earned 24 s.h. or more and have declared the communication studies major are advised in the department by the communication studies academic advisor.

Students are encouraged to discuss their career goals and interests with faculty members. Communication studies majors may count up to 6 s.h. of course work used to satisfy their major toward the Certificate in Media Entrepreneurialism.

The 40 s.h. required for the communications studies major consists of foundation courses, intermediate courses, a capstone course, and additional course work which may be earned in courses listed under "Intermediate Courses," "Capstone Experience," and/or "Additional Courses," below. Communication studies majors are advised in the department by the communication studies academic advisor.

Students are encouraged to discuss their career goals and interests with faculty members.

Communication studies majors may count up to 6 s.h. of course work used to satisfy their major toward the Certificate in Media Entrepreneurialism.

The fourth and fifth foundation courses are appropriate for first- or second-year students. Enrollment in COMM:1305 Studying Communication: Methods and Critiques requires completion of 30 s.h.

Total 目的 Hours: 40

Foundations of Communication Courses: 16
- COMM:1112 Interpersonal Communication (3)
- COMM:1117 Theory and Practice of Argument (3-4)
- COMM:1130 The Art of Persuading Others (3)
- COMM:1168 Media, Music, and Culture (3)
- COMM:1174 Media and Society (3)

Intermediate Courses

Intermediate courses (those numbered 2000-2799) cover detailed aspects of the study of communication. Students must complete four intermediate courses (12 s.h.), usually during their third and fourth years of study.

At least four of these:
- COMM:2010 Communication and Organizational Culture (3)
- COMM:2011 Group Communication (3)
- COMM:2040 Communication and Conflict (3)
- COMM:2041 Gender, Communication, and Culture (3)
- COMM:2042 Intercultural Communication (3)
- COMM:2044 Political Communication (3)
- COMM:2048 Transforming Media: From Telegraph to Internet (3)
- COMM:2051 Politics of Popular Culture (3)
- COMM:2052 Latin American Media (3)
- COMM:2053 Secrets, Confidences, and Lies: Privacy Management in Interpersonal Relationships (3)
- COMM:2054 Movements, Protest, Resistance (3)
- COMM:2057 Introduction to Computer-Mediated Communication (3)
- COMM:2058 Rhetoric and Past Public Controversy: The Sixties (3)
- COMM:2064 Media, Advertising, and Society (3)
- COMM:2065 Television Criticism (3)
- COMM:2069 Black TV Drama: The Wire (3)
- COMM:2075 Gender, Sexuality, and Media (3)
- COMM:2076 Race, Ethnicity, and Media (3)
- COMM:2077 Writing and Producing Television (3)
- COMM:2079 Digital Media and Religion (3)
- COMM:2080 Public Life in the U.S.: Religion and Media (3)

Foundations of Communication

Foundation courses cover introductory concepts in the field of communication. Students must complete five foundation courses (16 s.h.) and should take them early in their studies. The following foundation courses are appropriate for first- or second-year students. They do not require a minimum grade-point average for enrollment and most do not have prerequisites. Students complete the first three foundation courses as follows.

- COMM:1112 Interpersonal Communication (3)
- COMM:1170 Communication Theory in Everyday Life (3)
- COMM:1174 Media and Society (3)
In order to enroll in a capstone course, students must have completed at least four of the five foundation courses and at least two intermediate courses.

In order to enroll in a capstone course, students must have completed at least four of the five foundation courses and at least two intermediate courses.

**Capstone Experience**

Capstone courses (those numbered 3000-4999) provide a faculty-led experience in which students participate directly in producing knowledge, research, or creative work about communication. The capstone experience gives students a chance to synthesize what they have learned about the study of communication. Students must complete one capstone course (3 s.h.).

In order to enroll in a capstone course, students must have completed at least four of the five foundation courses and at least two intermediate courses.

**Additional Courses**

Students earn an additional 9 s.h. to complete the 40 s.h. in communication studies courses required for the major. They may choose from the courses listed below and/or from the lists of intermediate and capstone experience courses above. However, students may not use one course to fulfill more than one requirement for the major, so in selecting the additional 9 s.h. of course work, they may not choose a course they already used to fulfill the intermediate or capstone experience course requirement.

**Internships**

Internships enable students to supplement their course work with professional experiences relevant to careers in communication-related fields. The department’s internship program is open only to communication studies majors.

To earn academic credit for internships, students must obtain approval for their internship experience and site before they register for COMM:2828 Experiential Learning in Communication Studies. Internship academic credit is awarded for an analytical paper and daily log submitted at the end of the internship and for the number of hours worked. Internships can be completed during fall semester, spring semester, or summer session.
Visit the department's website for information on communication studies internships.

**COMM:2828 Experiential Learning in Communication Studies 1-3**

### Honors

#### Honors in the Major

Students majoring in communication studies have the opportunity to graduate with honors in the major. Students begin work toward graduation with honors by choosing a faculty member to supervise their honors project and act as their honors advisor. They must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and must complete the following courses.

- **COMM:2898 Honors Workshop 1**
- **COMM:2899 Honors Thesis 3**

In special cases, an independent study course may be substituted for COMM:2898 Honors Workshop, with the honors advisor's permission. The advisor may require additional course work.

Honors students may add an honors designation to a departmental course by completing an agreement with the course instructor.

Learn more about graduating with honors in the major; visit Honors on the department's website.

#### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University of Iowa Honors Program.

Membership in the UI Honors Program is not required to earn honors in the communication studies major.

### Academic Plans

#### Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Students should consult the department for details.

- **Before the fifth semester begins:** at least two courses in the major
- **Before the seventh semester begins:** at least six courses in the major and at least 90 s.h. earned toward the degree
- **Before the eighth semester begins:** at least eight courses in the major
- **During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

---

**Iowa Degree in Three**
University of Iowa majors who are strongly motivated can graduate with a degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan. Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

**Academic Plan**
Students entering the University of Iowa with additional credit hours may be able to reduce their semester and summer session course load. Students may be able to study abroad with proper planning and in some cases could earn credit for a General Education requirement.

Total Hours 120

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 464]

2. Students may use their elective courses to complete requirements for the major.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Career Advancement

Communication studies graduates have numerous career options. The major provides solid preparation for employment in almost any job that requires effective critical thinking and communication skills. Graduates find work in fields such as the arts, entertainment, and media industries; consulting; sales and marketing; human resources; and public advocacy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Communication Studies, Minor

The undergraduate minor in communication studies requires a minimum of 19 s.h. in communication studies courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. The minor must include the five courses listed under "Foundations of Communication" and one course listed under "Intermediate Courses" below.

**Foundations of Communication**

Communication Studies, M.A.

Requirements

The Master of Arts program in communication studies requires a minimum of 30 s.h. of graduate credit. It may be granted to students working toward the Doctor of Philosophy; it also may be granted as a terminal degree for doctoral students who decide not to complete the Ph.D. Graduate education in communication studies focuses on Ph.D. study.

All master’s students take COMM:5200 Introduction to Research and Teaching (2 s.h.) and at least two courses numbered 5000 or above. They also prepare a graduate seminar paper that involves significant original research.

Admission

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Career Advancement

Communication studies graduates have numerous career options. The major provides solid preparation for employment in almost any job that requires effective critical thinking and communication skills. Graduates find work in fields such as the arts, entertainment, and media industries; consulting; sales and marketing; human resources; and public advocacy.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Communication Studies, Ph.D.

Requirements

The Doctor of Philosophy program in communication studies requires a minimum of 72 s.h. of graduate credit, including dissertation credit. All students take COMM:5200 Introduction to Research and Teaching and earn up to 6 s.h. of dissertation credit in COMM:6399 Ph.D. Dissertation.

The Doctor of Philosophy program in communication studies includes specializations in interpersonal communication and relationships, media studies, and rhetoric and public advocacy. Graduate education in communication studies focuses on the Ph.D., but doctoral students may choose to earn a Master of Arts on their way toward the Ph.D. A terminal master's degree may be an option for some students already admitted to the doctoral program.

Ph.D. students also must take a 3 s.h. course in their area of specialization, COMM:5205 Proseminar in Communication Studies (2 s.h.), an additional 12 s.h. of graduate course work in communication studies; pass a comprehensive (pre-dissertation) examination in their major research area during their fifth or sixth semester; and write a substantial scholarly dissertation. Students must maintain a cumulative g.p.a. of at least 3.00 throughout the graduate program.

Interpersonal Communication and Relationships

The communication and relationships program is centered on theory complemented by strength in quantitative and qualitative research methods. It focuses on scholarly issues that arise from face-to-face, everyday communication practices. It emphasizes personal relationship and family processes, identity construction, persuasion, and culture.

The goal of the program is to produce scholars who possess sophisticated knowledge of theory and methodology, who are careful consumers of theories and methods, and who can develop their own approaches to communication phenomena. The program emphasizes systematic analysis of the forms, functions, and meanings of messages within various contexts. Its broad social-scientific orientation springs from the belief that many methodological approaches are appropriate to studying and building theoretical explanations of communication.

Graduate students typically enter the program to earn a Ph.D. Advisors and committee members work closely with individual students to select courses from communication studies and other University departments and plan teaching and research experiences that will prepare students well for the employment they seek after graduation.

Media Studies

The graduate program in media studies focuses on the interplay of institutions, texts, and audiences in mediated communication systems. Its central aim is to examine modern media—radio, television, advertising, music, new media, and a wide range of other popular cultural expressions—within their historical, social, political, economic, and cultural contexts. It also uses the mass media as sites for asking basic questions about culture, society, politics, and modernity.

Like the department's other graduate programs, media studies has a strong interdisciplinary flavor. Students draw not only on allied areas in the Department of Communication Studies but on fields across the University.

Rhetoric and Public Advocacy

The program in rhetoric and public advocacy is built on foundation courses in classical and 20th-century rhetorical theory and in an overview of 20th-century rhetorical criticism. Courses from a rhetorical perspective include rhetorical theory, rhetorical criticism, visual rhetoric and politics, public address and public culture, studies in argumentation and freedom of speech, work in science and technology as well as academic inquiry, and historical methods. Cognate work of interest to rhetoricians also can be found in interpersonal communication and relationship studies as well as media studies.

The Ph.D. in rhetoric and public advocacy is designed to give students a mature grasp of the specialties and perspectives embraced by the field and to develop research competence essential to a life of productive scholarship.

Work in related disciplines—political science, history, sociology, English, cinematic arts, anthropology, American studies, and journalism—complements rhetorical studies course offerings. Faculty from the Departments of American Studies, Political Science, and Rhetoric cross-list their courses on rhetorical topics in this program.

Admission

Admission decisions are based on undergraduate achievement for a B.A. applicant and graduate achievement for an M.A. applicant, letters of reference, Graduate Record Examination (GRE) General Test scores, the statement of purpose, and samples of scholarly work.

Applicants to graduate programs in communication studies must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College. For information about applying to the doctoral program in communication studies, visit Prospective Graduate Students on the Department of Communication Studies website.

Admission is for fall semester entry. Applicants whose materials are received by the application deadline of January 1 will be considered for admission and financial support.

Career Advancement

Communication studies Ph.D. graduates pursue academic and alternate academic careers. Nearly three-fourths of recent graduates teach in tenure-track academic positions. Others pursue careers in the private sector, at nonprofit organizations, and as instructional faculty at postsecondary institutions.

The department is deeply engaged in university- and discipline-wide efforts to train students in both traditional and nontraditional career paths.
Comparative Literature

Director, Division of World Languages, Literatures, and Cultures
  • Russell Ganim

Director, Comparative Literature Program
  • Sabine I. Götz (German)

Undergraduate major: comparative literature (B.A.)
Undergraduate minor: comparative literature
Faculty: https://clas.uiowa.edu/dwllc/people
Website: https://clas.uiowa.edu/dwllc/comparative-literature/ba-comparative-literature

Students in the comparative literature field study literatures, arts, and cultures from diverse national traditions in an interdisciplinary manner. Students design individualized programs of study that may draw upon texts, visual and performing arts, translation, film, and other cultural technologies. At the University of Iowa, students enjoy easy access to the resources of the Translation Workshop, International Writing Program, and the programs and departments in the Division of World Languages, Literatures, and Cultures.

Comparative literature students also frequently extend their studies to other disciplines across the university, such as history, philosophy, linguistics, anthropology, music, art and art history, and law, among others. Students are encouraged to develop critical and creative thinking skills that effectively prepare them for professional studies in fields such as law, writing, publishing, journalism, the foreign service, international business, and many other fields. A degree in comparative literature also offers excellent preparation for graduate work in the humanities.

In addition to an undergraduate major and minor, the Comparative Literature Program offers courses approved for the Literary, Visual, and Performing Arts areas of the College of Liberal Arts and Sciences General Education Program [p. 464].

The Comparative Literature Program is administered by the Division of World Languages, Literatures, and Cultures [p. 324].

Courses

Comparative Literature Courses

Cl:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

Cl:1240 Major Texts of World Literature, Antiquity to 1700 3 s.h.
Reading and analysis of major literary texts from writing’s origins to 1700 in the Mediterranean, Asia, and Africa; interrelationship of literature and history. GE: Literary, Visual, and Performing Arts. Same as CLSA:1040.

Cl:1241 Major Texts of World Literature, 1700 to the Present 3 s.h.
Reading and analysis of major literary texts from 18th century to present in chronological sequence; emphasis on interrelationship of literature and history. Requirements: completion of General Education rhetoric requirement. GE: Literary, Visual, and Performing Arts.

Cl:1500 Ukraine, a Country at the Crossroads: An Interdisciplinary Seminar on Ukrainian History and Culture 3 s.h.
Cultural specificity of Ukraine as a large multicultural European country; vital background information for analysis of present-day political events; strategic location between East and West; centuries-long history and culture; all readings in English, no knowledge of Russian or Ukrainian required. Same as SLAV:1500.

Cl:1510 Ghost Stories and Tales of the Weird in Pre-Modern Chinese Literature 3 s.h.
Reading of Chinese literature concerning ghosts, marvels, and supernatural from the first millennium B.C.E. through the 1800s; readings analyzed against changing historical and religious contexts. Taught in English. GE: Interpretation of Literature. Same as ASIA:1510.

Cl:1600 Wonder Woman Unleashed: A Hero for Our Times 3 s.h.
Development of the woman warrior archetype in mythology (Athena/Minerva and Artemis/Diana), literature (Camilla from The Aeneid by Virgil), and history (Artemisia and Joan of Arc); focus on the development of Amazon narratives in Metamorphoses by Ovid, The Book of the City of Ladies by Christine de Pizan, and On Famous Women by Boccaccio; students read Wonder Woman Chronicles and one or two critical studies on the subject, which may include The Secret History of Wonder Woman by Jill Lepore. Requirements: ENGL:1200. Same as GWSS:1600.

Facilities

The Language Media Center (LMC) is an essential resource unit for faculty and students in the Division of World Languages, Literatures, and Cultures. The LMC offers facilities and services for traditional language laboratory work as well as for foreign language video and computer-based activities. LMC facilities and services include a 50-computer information technology center (Windows and Macintosh), two digital audio laboratories, a multimedia development studio, a One Button Studio for video recording with Open Broadcaster Software (OBS), 13 media viewing stations, and six small-group rooms. The LMC also circulates a collection of over 3,000 foreign language, English as a Second Language, and American Sign Language digital media materials.
CL:2222 Women in Premodern East Asian Literature 3 s.h.
Reading of East Asian literature portraying women from the first millennia B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. Same as ASIA:2222, GWSS:2222.

CL:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people’s lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Same as ANTH:2248, ASIA:2248, CLSA:2048, COMM:2248, HIST:2148, IS:2248, LING:2248, WLLC:2248.

CL:2531 Topics in Russian, East European, and Eurasian Studies arr.
Same as SLAV:2531.

CL:2600 Issues in Russian Identity: Nationalism 3 s.h.
Development of the Russian national identity in the works of three 19th-century Russian authors: Alexander Pushkin, Leo Tolstoy and Fyodor Dostoevsky; how major historical events such as Russia’s wars with Poland, Sweden, France, England, and Turkey are portrayed in Pushkin’s Boris Godunov and Poltava, Tolstoy’s War and Peace and Sevastopol Sketches; how Western Europe is viewed in Dostoevsky's Winter Notes on Summer Impressions, Notes From Underground, and The Idiot. Prerequisites: RHET:1030. Requirements: ENGL:1200. Same as SLAV:2600.

CL:2618 The Third Reich and Literature 3-4 s.h.
Nazi literature, literature of the Holocaust and the Opposition, and exile literature in English translation. Taught in English. GE: Values and Culture. Same as GRMN:2618.

CL:2660 Magic Mirrors, Self-Discovery, and Murder: Gender Trouble in German Literature 3-4 s.h.
German literature since Romantic era as an intensifying battle of wits over language in which gender has played a central role; a stark rift open where literary space offers much less hospitable conditions to women writers than to men; exploration of gendered fault line that runs through literary space; how women writers respond to and rewrite language that confronts them; readings from German literary texts (in English translation) from 1800 to present; emphasis on writings of women supplemented with key texts by major authors to which they respond and reread; knowledge of German not required. Same as GRMN:2660.

CL:2666 Pact with the Devil 3-4 s.h.
Since early modern times, the pact with the devil has served as a metaphor for humankind’s desire to surpass the limits of knowledge and power; students explore a variety of works from German, British, and Russian literature and culture from early modern time to the present, and critique different twists that fascination with the forbidden takes in regard to women. Taught in English. Requirements: RHET:1030 or completion of General Education rhetoric requirement. GE: Literary, Visual, and Performing Arts. Same as GRMN:2666.

CL:2700 Romani (Gypsy) Cultures of Eastern Europe 3 s.h.
Aspects of culture shared by most Roma (Gypsies) around the world; samples of folklore from Europe; impact of Roma on European literature, music, and culture; readings in English; no previous knowledge of Russian or Romani required. Same as SLAV:2232.

CL:3101 The Iowa Review Reading Group in Contemporary Fiction 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

CL:3102 The Iowa Review Reading Group in Contemporary Poetry 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

CL:3103 The Iowa Review Reading Group in Contemporary Nonfiction 0-3 s.h.
Reading and discussion of unsolicited submissions to The Iowa Review of fiction, poetry, and nonfiction; reading groups formed under supervision of editors; preparation of a portfolio that documents student's work, with a short commentary reflecting on the process and their role in it.

CL:3104 Topics in International Literature and Culture 3 s.h.
Focus on significant texts or critical problems related to international literature and culture. Requirements: junior or senior standing. Recommendations: two or more courses in literary study.

CL:3107 Literature and Anthropology 3 s.h.
Topics vary. Same as ANTH:3107, ENGL:3107.

CL:3122 Tolstoy and Dostoevsky 3-4 s.h.
Tolstoy's War and Peace and Anna Karenina; Dostoevsky’s Crime and Punishment, The Demons, and short stories. Taught in English. Same as SLAV:3122.

CL:3124 Invitation to Nabokov 3-4 s.h.
Nabokov’s works and his writings on Russian literature. Same as SLAV:3124.

CL:3179 Undergraduate Translation Workshop 3 s.h.
Translation exercises, discussion of translation works in progress; alternative strategies for translation projects. Same as CLSA:3979, ENGL:3850, TRNS:3179.

CL:3203 Modern Japanese Fiction in Translation 3 s.h.
Introduction to modern Japanese literature from 1868 to present; focus on representative short stories, novels, and manga; the twin advent of modern Japanese language and the modern novel; rise of autobiographical “I-novel”; Japanese bundan (literary establishment), high modernity, and ero guro nansensu (erotic grotesque nonsense); stories of the war and its endless postwar; the neo-traditional and the avant-garde; literature of economic collapse and internationalization. Taught in English. Same as JPN:3203.
CL:3204 Traditional Japanese Literature in Translation 3 s.h.
Early Japanese literature from 7th to 19th centuries including prose, poetry, drama, and Buddhist texts; students bring traditional Japanese culture to life through practice with experiences ranging from calligraphy, letter folding, and layering kimono patterns to courtly contests and bookbinding. Taught in English. Same as JPN:3202.

CL:3206 Warriors’ Dreams 3 s.h.
Images of the warrior in traditional Japanese literature from ancient legendary heroes, medieval warrior monks, and ninja to the unifying generals, masterless samurai, and women revolutionaries of early modern Japan; students discover what is truth and what is fiction when encountering the warrior in popular culture today. Taught in English. Same as JPN:3206.

CL:3210 Comparative Arts 3 s.h.
Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Same as IWP:3210.

CL:3222 City as Text/Text as City 3 s.h.
Ways of reading cities: how built environments are shaped by history; how European cities differ from American or postcolonial cities; how to map, inhabit, remember, touch, smell, and experience a city; what is a global city; what is a sustainable city; how city spaces are felt in terms of gender, class, race, and ethnicity; models that architects, planners, politicians, and designers use to create habitable spaces; how to think of texts as cities (i.e., as spaces where people congregate, meet, live); research paper that combines class readings with independent research on a city of students’ choice.

CL:3223 Reading European Poetry 3 s.h.
Development of literary reading skills and critical imagination; increase awareness of the complexity of poetry translation, introduction to works of major canonical poets from several European traditions and languages.

CL:3262 Pan-Caribbean Literary Currents 3 s.h.
Twentieth-century fiction, film, and cultural practices in the Hispanic, Francophone, and Anglophone Caribbean; cultural essays to complement literary readings; pan-Caribbean cultural practices—music and carnival celebrations. Taught in English. Requirements: for CL:3262—junior or senior standing; for SPAN:3270—two literature courses. Same as SPAN:3270.

Evolving practices explored through genre, period, movement, or topic, in conjunction with relevant models of analysis; readings in English. Requirements: rhetoric.

CL:3277 Literature and Art 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:3155.

CL:3302 Russian Literature in Translation 1860-1917 3 s.h.
Survey of major works, figures, and trends of 19th- and early 20th-century Russian literature; age of the Russian novel; works of Turgenev (Fathers and Sons), Tolstoy (Confession), Dostoevsky (The Idiot, The Brothers Karamazov), and Chekhov (plays). Same as SLAV:3202.

CL:3341 Chinese Literature: Poetry 3 s.h.
Readings in classical and modern Chinese poetry in English translation. Recommendations: sophomore or higher standing. Same as CHIN:3341.

CL:3379 Literature and Society 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3152.

CL:3396 Cuban American Literature and Culture 3 s.h.
Experiences of Cuban exiles in the United States; emergence of a literature and culture based on sense of dispossession, marginality, and memory of island past. Taught in English. Prerequisites: ENGL:1200. Same as SPAN:3420.

CL:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3570, GWSS:3570.

CL:4100 Approaches to Critical Theory 3 s.h.
Introduction to major critical approaches in literary and cultural theory from a variety of traditions; studying existing models, students learn to think theoretically about language and society, and to orient themselves among existing theoretical discourses, interrogating the latter critically in terms of their own perspectives and theoretical needs; selections from influential works, shared class discussion, and presentations; no prior knowledge in the area of critical theory is presumed. Same as TRNS:4100.

CL:4201 The Tale of Genji 3 s.h.
Close reading of Murasaki Shikibu’s classic Tale of Genji; students come to know the characters by exploring the social and cultural context of the tale and discover while art, literature, and film that the Tale of Genji has inspired while tracking its reception through the history of Japan and across the globe. Taught in English. Same as JPN:4201.

CL:4203 Modern Chinese Writers 3 s.h.
Readings in modern and contemporary Chinese fiction; in English translation. Recommendations: sophomore or higher standing. Same as CHIN:4203.

CL:4266 Topics in Literature and Theory 3 s.h.

CL:4368 Post-Colonial Literature in France 3 s.h.
Littératures et cultures of Arabo-French (Beur) and Afro-French immigrations. Prerequisites: FREN:3300 and FREN:3060. Same as FREN:4080.

CL:4648 Issues in Gender and Sexuality 3 s.h.
Significance of gender and/or sexuality to cinema, in general or in a period, genre, film type, or national cinema; theoretical approaches, including feminist and queer theory.

CL:4700 Latin American Studies Seminar 3 s.h.
Examination of past, present, and future of Latin America; interdisciplinary. Taught in English. Same as ANTH:4700, HIST:4504, LAS:4700, PORT:4700, SPAN:4900.

CL:4800 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Same as TRNS:4800, WLLC:4801.

CL:4900 Independent Study arr.
CL:5201 Seminar in Chinese Fiction 3 s.h.
Novels, novelettes; 16th to 18th centuries (Ming and Qing periods). Requirements: ability to read original texts. Same as CHIN:5201.

Requirements: two years of modern Chinese and one year of classical Chinese. Same as CHIN:5202.

CL:5300 The Humboldt Current: Travel, Science, and the Spatial Imagination in Latin America 3 s.h.
Travel writings of environmental studies pioneer and Prussian explorer, Alexander von Humboldt, who led a five-year expedition to South America, Mexico, and Cuba in the late 18th century; his writing ushered in an idea of nature central to the Latin American imagination; topics include "Humbolditian science", the scientific traveler's persona, and rhetoric of travel: Humboldt's mapping of the Orinoco, Mexico, and the Caribbean, negotiating the tradition of European cartography with indigenous spatial practices; contribution of Humboldt's travels to a spatial imagination in Latin America; students develop an original research project. Recommendations: one graduate-level course in colonial, 19th-century Latin American literature, and/or ecocriticism and theory (this last course could be taken in related departments, such as English). Same as FREN:5300, SPAN:5300, WLLC:5300.

CL:5510 Comparative Stylistics 3 s.h.
Translation from English to French, including literary texts. Same as FREN:5020.

CL:6105 Introduction to Contemporary Literary Theory 3 s.h.
How major theories construct literary text; structuralist, semiotic, psychoanalytic, Marxist, reader response, Derridian criticism. Taught in English. Same as SPAN:6905.

CL:6323 Romantic Literature 3 s.h.
Same as ENGL:6400.

CL:7000 Thesis arr.

CL:7054 Seminar: Postcolonial Studies 3 s.h.
Same as ENGL:7800.

CL:7272 Seminar in Comparative Literature 3 s.h.
In-depth study of a comparative topic or a current theoretical debate in the discipline.

CL:7302 Seminar: Medieval Literature and Culture arr.
Same as ENGL:7100.

Same as ENGL:7200.

CL:7500 Independent Study arr.
Comparative Literature, B.A.

Requirements

The Bachelor of Arts with a major in comparative literature requires a minimum of 120 s.h., including 33 s.h. of work for the major. Of the 33 s.h. required for the major, students must earn 21 s.h. in University of Iowa courses. They may count a maximum of 6 s.h. of course work from another major, minor, or certificate toward the major in comparative literature. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464).

Students complete 12 s.h. in one track—world languages and literature, or literature and arts. Students work closely with faculty advisors to develop coherent, individualized programs of study that reflect their interests and developing skills.

The B.A. with a major in comparative literature requires the following course work.

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Common Courses</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Electives</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Total Hours</td>
<td>33</td>
<td></td>
</tr>
</tbody>
</table>

Common Courses

All of these:
- CL:1240/CLSA:1040 Major Texts of World Literature, Antiquity to 1700 3 s.h.
- CL:1241 Major Texts of World Literature, 1700 to the Present 3 s.h.
- CL:4100/TRNS:4100 Approaches to Critical Theory 3 s.h.
- CL:4800/TRNS:4800/WLLC:4801 Seminar in Comparative Literature 3 s.h.

Comparative Literature Electives

Both of these:
- One comparative literature course (prefix CL) numbered 3000 or above 3 s.h.
- One comparative literature course (prefix CL) at any level 3 s.h.

Tracks

Students complete 12 s.h. of work in one of the following tracks. Students can apply up to 6 s.h. in course work numbered 3000 or above from another major toward the track options.

World Languages and Literature Track

Students must complete 9 s.h. of course work in one foreign literature, read in the original language; one may be a course in composition and conversation. Language courses taken to complete the General Education Program do not count toward the major.

Students complete an additional 3 s.h. of course work, approved by the advisor, in comparative literature or a related area (e.g., American literature, American Sign Language, anthropology, Asian and Slavic languages and literatures, cinema, classics, French and Italian, German, history, linguistics, philosophy, Spanish and Portuguese) or in a second foreign language.

Literature and Arts Track

Students must complete 9 s.h. of upper-level course work (courses numbered 3000 or above) in a single fine arts area chosen in consultation with the comparative literature advisor. They may include one upper-level course in performance, practice, or production, with permission from the director of undergraduate studies.

Course work for the track also must include one 3 s.h. course that focuses explicitly on arts and literature in comparative perspective.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major, which requires that they complete an honors thesis. Once students have earned 75 s.h., they submit a written proposal for the thesis. The proposal must be approved by the faculty member who heads a student's honors thesis committee; the committee must be composed of at least two faculty members from the Comparative Literature Program. Students must complete the honors thesis over the next two consecutive semesters. For specific honors thesis requirements in the comparative literature major, contact the Comparative Literature Program office.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the comparative literature major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

When requirements for the major in comparative literature include advanced work in a language, students may need to acquire competence in the language by completing course
work early in their plan of study. Such course work is not reflected in the following checkpoints.

**Before the fifth semester begins:** at least two courses in the major

**Before the seventh semester begins:** at least four more courses in the major (total of six) and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** at least three more courses in the major (total of nine)

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

</tbody>
</table>

In conjunction with an appropriate overall curriculum, the major in comparative literature can offer effective preparation for professional studies in fields such as law and business, or for employment in fields that value critical thinking and international understanding. It also offers excellent preparation for graduate work in the humanities.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Comparative Literature, Minor

The undergraduate minor in comparative literature requires 15 s.h. of comparative literature courses. At least 12 s.h. of the 15 s.h. must be taken at the University of Iowa; students may count a maximum of 3 s.h. of approved transfer credit toward the minor. They must maintain a g.p.a. of at least 2.00 in all course work for the minor. Course work in the minor may not be taken pass/nonpass. Contact the Comparative Literature Program office for a list of approved courses.

Students must select a minimum of 6 s.h. from the following.

The remaining 9 s.h. of course work should be chosen in consultation with the director of the Comparative Literature Program.
Computer Science

Chair
• Alberto Segre

Undergraduate majors: computer science (B.A., B.S.); informatics (B.A., B.S.)
Undergraduate minors: computer science; informatics
Graduate degrees: M.C.S.; M.S. in computer science; Ph.D. in computer science
Faculty: https://cs.uiowa.edu/people
Website: https://cs.uiowa.edu/

The Department of Computer Science offers undergraduate programs in computer science and in informatics as well as graduate degree programs in computer science. It offers courses that students in all majors may use to satisfy the General Education Program [p. 464] Quantitative or Formal Reasoning requirement and a First-Year Seminar designed for entering undergraduate students. For general information about the department, faculty, and research activities, visit the Department of Computer Science website or the department’s office.

Related Program: Computer Science and Engineering

The Computer Science and Engineering major combines the technical content of a computer science degree and a computer engineering degree into a single program that leads to the Bachelor of Science in Engineering (B.S.E.) degree. The curriculum is jointly offered by the Department of Computer Science and the Department of Electrical and Computer Engineering (College of Engineering). The program provides students with a strong theoretical and conceptual understanding of the principles underlying computer software and hardware along with the engineering analysis, design, and multidisciplinary team work skills needed to develop large and complex systems containing both software and hardware components. See B.S.E. in Computer Science and Engineering [p. 1291] in the Catalog.

Related Certificate: Large Data Analysis

The Certificate in Large Data Analysis can be earned in addition to a B.A. or B.S. degree in computer science. The certificate focuses on handling, processing, and extracting information from large data sets. As computers have become faster and smaller, more information can be gathered and used for a large range of applications, such as for weather forecasting; identifying people and trends utilizing Facebook or other social media; understanding the genome; and searching for disease causes and cures, as well as many other areas of study. The certificate is interdisciplinary, requiring courses from three areas of study—computer science, mathematics, and statistics. Computer science teaches students how to handle large amounts of data and how to implement the algorithms to process them, while statistics helps students to understand what can and cannot be legitimately inferred from the data. Mathematics focuses on algorithms and methods for connecting these important areas of data collection.

Programs

Undergraduate Programs of Study

Majors
• Major in Computer Science (Bachelor of Arts) [p. 276]
• Major in Informatics (Bachelor of Arts) [p. 279]
• Major in Computer Science (Bachelor of Science) [p. 284]
• Major in Informatics (Bachelor of Science) [p. 288]

Minors
• Minor in Computer Science [p. 291]
• Minor in Informatics [p. 292]

Graduate Programs of Study

Majors
• Master of Computer Science [p. 293]
• Master of Science in Computer Science [p. 294]
• Doctor of Philosophy in Computer Science [p. 295]

Courses

Competence and exposure to computer science are not only useful, they often are prerequisite to advanced study and research in many disciplines. For most graduate students from other disciplines, an appropriate first course is CS:5110 Introduction to Informatics.

Computer Science Courses

CS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

CS:1001 CLAS Master Class 1-3 s.h.

CS:1020 Principles of Computing 3 s.h.
Introduction to computing; broad overview of discipline; necessary skills and concepts for effective application of computing resources in student’s profession. Recommendations: no credit for students who have completed a higher-numbered CS course. GE: Quantitative or Formal Reasoning.

CS:1110 Introduction to Computer Science 3 s.h.
Introduction to computer science and the study of algorithms; foundational ideas, computer organization, software concepts (e.g., networking, databases, security); programming concepts using Python. GE: Quantitative or Formal Reasoning.
CS:1210 Computer Science I: Fundamentals 4 s.h. Introduction to programming using Python; programming constructs, data types, problem-solving strategies, data structures, object-oriented programming. Prerequisites: (MATH:1010 with a minimum grade of C- and MATH:1340 with a minimum grade of C-) or (ALEKS score of 45 or higher and MATH:1010 with a minimum grade of C-) or ALEKS score of 75 or higher or MATH:1020 with a minimum grade of C- or (MATH:1005 with a minimum grade of C- and MATH:1010 with a minimum grade of C-) or MPT Level 3 score of 9 or higher or MATH:1460 with a minimum grade of C-. GE: Quantitative or Formal Reasoning.

CS:2110 Programming for Informatics 4 s.h. Computing fundamentals for informatics students, including practical programming skills (e.g., in Perl, other scripting languages) and introduction to algorithms, data structures, databases. Prerequisites: CS:1110.

CS:2111 Programming Practice 2 s.h. Review of introductory Python programming concepts taught in CS:1210 and CS:2110; enhance mastery of introductory programming. Prerequisites: CS:2110 or CS:1210.

CS:2210 Discrete Structures 3 s.h. Mathematical methods used in computer science, including logic, proof techniques (with induction), functions, relations, algorithm analysis, recurrence relations, counting methods, combinatorics, graphs, trees. Recommendations: calculus I.

CS:2230 Computer Science II: Data Structures 4 s.h. Design, implementation, and application of data structures (e.g., linked lists, stacks, queues, hash tables, trees); complexity analysis; recursion; introduction to object-oriented programming concepts; abstract data types and their realization using generic interfaces and classes; software design patterns (e.g., iterators, comparators). Prerequisites: CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.

CS:2420 Databases for Informatics 3 s.h. Design and implementation of relational database systems: introduction to the relational model, database design, database normalization, use of database query and manipulation languages such as SQL. Prerequisites: CS:2110 with a minimum grade of C-.

CS:2520 Human-Computer Interaction 3 s.h. Basic theories, principles, and guidelines for design and evaluation of human-computer interactions; design methodologies (e.g., participatory design, low- and high-fidelity prototyping), user interface technologies (e.g., input and output devices, interaction styles), quantitative and qualitative evaluation of user interfaces (e.g., expert reviews, usability testing). Prerequisites: CS:1110.

CS:2620 Networking and Security for Informatics 3 s.h. Introduction to computer networking, overview of network organization and management; basic understanding of encryption and network security; practical experience in network programming. Prerequisites: CS:2110 with a minimum grade of C-.

CS:2630 Computer Organization 3 s.h. Computer building blocks: representing data, computer arithmetic, instruction sets, assembly language, digital logic, control units, ALU design, register operations, memory organization, IO. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C-.

CS:2800 Digital Arts: An Introduction 3 s.h. Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, DANC:2800, MUS:2800, THTR:2800.

CS:2820 Object-Oriented Software Development 4 s.h. Object-oriented design and software development methodology; team programming projects; GUIs, event handling, network programming, concurrency, data representation, IO programming. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:3210 Programming Languages and Tools arr. Varied programming languages and tools. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or CS:2230 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.

CS:3330 Algorithms 3 s.h. Algorithm design techniques (e.g., greedy algorithms, divide-and-conquer, dynamic programming, randomization); fundamental algorithms (e.g., basic graph algorithms); techniques for efficiency analysis; computational intractability and NP-completeness. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (MATH:1850 or MATH:1550).

CS:3620 Operating Systems 3 s.h. Introduction to modern operating systems, including device control, memory management and addressing, process scheduling, interprocess communication, interrupts, synchronization, security. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).

CS:3640 Introduction to Networks and Their Applications 3 s.h. Introduction to networks and the development of network applications; basic concepts of network communication common to applications such as simulation and web services. Prerequisites: CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-.

CS:3700 Elementary Numerical Analysis 3 s.h. Computer arithmetic, root finding, polynomial approximation, numerical integration, systems of linear equations, ordinary differential equations; use of higher-level computer language such as Matlab, Maple, Math, Mathematica. Prerequisites: (MATH:2550 or MATH:2700) and (MATH:1560 or MATH:1860). Same as MATH:3800.

CS:3820 Programming Language Concepts 3 s.h. Imperative, functional, and logical programming languages, and differences between them; syntax specification, types, control structures, recursion, data abstraction. Prerequisites: CS:2230 with a minimum grade of C- and CS:2210 with a minimum grade of C- and (CS:2630 with a minimum grade of C- or ECE:3330 with a minimum grade of C- or CS:2820 with a minimum grade of C- or ECE:3350 with a minimum grade of C-).
CS:3910 Informatics Project 3 s.h.
Experience designing, implementing, documenting, and testing a system using appropriate software tools (e.g., a project working with an information management tool consisting of a database system with a Web-based front end); typically done in small groups; capstone project for informatics majors. Prerequisites: CS:2110 with a minimum grade of C- and CS:2520 with a minimum grade of C- and (CS:2420 with a minimum grade of C- or CS:2620 with a minimum grade of C- or MSCI:3200 with a minimum grade of C-).

CS:3980 Topics in Computer Science I 3 s.h.
Complement to material in other courses. Prerequisites: CS:1210 with a minimum grade of C- or CS:2110 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-.

CS:3990 Honors in Computer Science or Informatics arr.
Individual projects. Requirements: computer science or informatics major, and honors standing.

CS:4330 Theory of Computation 3 s.h.
Finite automata; regular sets and expressions; context-free and context-sensitive grammars, their properties; push-down automata; standard, universal, and linear-bounded Turing machines; relationships between formal languages and automata; undecidability and its consequences. Prerequisites: CS:3330 with a minimum grade of C-.

CS:4350 Logic in Computer Science 3 s.h.
Applications of symbolic logic in computer science; symbolic logic as a powerful tool for modeling computation and computational devices and reasoning formally about them; introduction to several logics (i.e., propositional, predicate, temporal, modal) differing in their expressive power and focus, their uses in computer science; how to represent knowledge in these logics, what represents a valid argument, and how to prove or disprove, possibly automatically, the validity of a logical statement. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: computer science, math, or engineering major.

CS:4400 Database Systems 3 s.h.
Introduction to database systems including querying using SQL, design using ER diagrams, developing relational databases, programming web applications using PHP or JDBC. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and CS:3330 with a minimum grade of C-.

CS:4420 Artificial Intelligence 3 s.h.
Introduction to artificial intelligence covering problem-solving methods, heuristic search, knowledge representation, automated reasoning, planning, game playing, machine learning, and neural networks. Prerequisites: CS:3330 with a minimum grade of C-.

CS:4440 Web Mining 3 s.h.
Core methods underlying development of applications on the Web; examples of relevant applications, including those pertaining to information retrieval, summarization of Web documents, and identifying social networks. Prerequisites: CS:3330 with a minimum grade of C-. Recommendations: CS:4400 strongly recommended.

CS:4470 Health Data Analytics 3 s.h.
Analysis of different kinds of health care data, such as patient electronic medical records, public health data, biomedical publications, social media pertaining to health, and ontologies in health care; students will read papers exploring different kinds of research and application development involving such data; course will run in distinct modules with each focused on a dataset type and related research; students must be comfortable with programming (e.g., Java, Python, Perl). Prerequisites: CS:3330 with a minimum grade of C-.

CS:4480 Knowledge Discovery 3 s.h.
Knowledge discovery process, including data reduction, cleansing, transformation; advanced modeling techniques from classification, prediction, clustering, association; evaluation and integration. Same as ECE:4480, MSCI:4480.

CS:4500 Research Methods in Human-Computer Interaction 3 s.h.
Survey of recent research in the field of human-computer interaction; research methods and current readings. Prerequisites: CS:2520 with a minimum grade of C-.

CS:4630 Mobile Computing 3 s.h.
Building mobile sensing systems requires addressing issues in sensor acquisition, wireless communication, and middleware development; hands-on projects using embedded computers and sensors; includes significant writing and presentation components; a conference-quality research paper on a novel research project in mobile computing is expected; knowledge of Java is assumed. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C- and CS:2820 with a minimum grade of C-.

CS:4640 Computer Security 3 s.h.
Mechanism versus policy; authentication, access control, security domains; perimeter security, defense in depth; cryptographic protocols; key management and distribution; security assessment. Prerequisites: CS:2630 with a minimum grade of C- or ECE:3350 with a minimum grade of C-.

CS:4700 High Performance and Parallel Computing 3 s.h.
Parallel algorithms presented and implemented with different approaches and libraries (e.g., OpenMP, MPI); various platforms including Message Passing Clusters, Multicore and GPUs, MapReduce (Hadoop), and related current topics; scientific computing and large data analysis projects. Prerequisites: (CS:2210 with a minimum grade of C- or MATH:4050) and CS:2230 with a minimum grade of C-.

CS:4720 Optimization Techniques 3 s.h.
Basic theory of optimization, use of numerical algorithms in solution of optimization problems; linear and nonlinear programming, sensitivity analysis, convexity, optimal control theory, dynamic programming, calculus of variations. Prerequisites: (MATH:2700 or MATH:2550) and (ME:4111 or MATH:3800 or CS:3700) and (MATH:1560 or MATH:2850). Same as MATH:4860.

CS:4740 Large Data Analysis 3 s.h.
Current areas that deal with problem of Big Data; techniques from computer science, mathematics, statistics; high performance and parallel computing, matrix techniques, cluster analysis, visualization; variety of applications including Google PageRank, seismology, Netflix-type problems, weather forecasting; fusion of data with simulation; projects. Prerequisites: (CS:1210 with a minimum grade of C- or ENGR:2730 with a minimum grade of C-) and (MATH:2700 or MATH:2550) and (STAT:2010 or STAT:2020 or STAT:4200). Same as IGPI:4740, MATH:4740, STAT:4740.
CS:4980 Topics in Computer Science II 3 s.h.
Complements material in other courses. Prerequisites: CS:2210 with a minimum grade of C- and CS:2230 with a minimum grade of C-.

CS:5110 Introduction to Informatics 3 s.h.
Fundamentals of computer science: algorithms, complexity, relational databases, systems concepts, programming in Python. Same as IGPI:5110.

CS:5340 Limits of Computation 3 s.h.
Turing machines, undecidability and complexity: reductions, Cook's theorem and NP-completeness, approximation algorithms and randomized algorithms. Prerequisites: CS:3330.

CS:5350 Design and Analysis of Algorithms 3 s.h.
Review of design and analysis techniques; advanced data structures (binary and Fibonacci heaps, disjoint sets); graph algorithms (network flows, matching, min-cut); NP-completeness, randomization and approximation algorithms; special topics (string matching, computational geometry, number theoretic algorithms). Prerequisites: CS:3330 or CS:5340.

CS:5360 Randomized Algorithms 3 s.h.
Use of randomization in the design of algorithms; focus on various fundamental principles in the design of randomized algorithms, such as first and second moment method, random sampling, hashing, probability amplification; tools for analysis, such as the tail bounds of Markov, Chebyshev, Chernoff, and Hoeffding, the Lovasz Local Lemma, Martingale tail bounds, randomized rounding of linear and semi-definite programs; applications to network routing, combinatorial optimization, random walks, social networks, data streaming, and more. Prerequisites: CS:3330.

CS:5370 Computational Geometry 3 s.h.
Study of data structures for geometric problems such as point location, range searching, finding nearest neighbors, and algorithms for convex hulls, Voronoi diagrams, triangulations, and quad-trees along with their uses; other topics will be determined by student interest; focus on algorithm design and an understanding of the implementation of geometric algorithms; assumes a sound understanding of the material in an undergraduate algorithms course. Prerequisites: CS:3330.

CS:5430 Machine Learning 3 s.h.
Fundamental machine learning techniques as well as hands-on experience applying these techniques and developing new techniques for solving problems from the real world; topics include regression (least square regression, lasso), classification (naive Bayes, nearest neighbor, support vector machines, logistic regression), kernel methods, unsupervised methods (k-means clustering, spectral clustering, dimensionality reduction), stochastic optimization, deep learning, and recent advances in big data analytics. Prerequisites: MATH:1850 and MATH:2700 and STAT:2020 and (CS:2230 or CS:2110).

CS:5610 High Performance Computer Architecture 3 s.h.
Problems involved in designing and analyzing current machine architectures using hardware description language (HDL) simulation and analysis, hierarchical memory design, pipeline processing, vector machines, numerical applications, multiprocessor architectures and parallel algorithm design techniques; evaluation methods to determine relationship between computer design and design goals. Prerequisites: ECE:3350 or CS:3620. Same as ECE:5320.

CS:5620 Distributed Systems and Algorithms 3 s.h.
Models of distributed systems, program correctness—safety and liveness properties, causality, logical and vector clocks, mutual exclusion, distributed snapshot, leader election, distributed algorithms for graph-theoretic problems, fault-tolerance—masking versus nonmasking types, checkpointing, stabilization, consensus—byzantine generals problem, fault-tolerant broadcast and multicast, management of replicated data. Prerequisites: CS:3330 and CS:3620. Requirements: some interest in networking.

CS:5630 Cloud Computing Technology 3 s.h.
Explores infrastructure and programming paradigms of scalable systems and databases; provides experience with popular cluster frameworks (MapReduce, Hadoop, Spark, Flink, or similar) through programming exercises, projects, and experiments; assigned readings and case studies explore themes such as replication, data sharding, looser types of consistency, virtualization, consensus, and barrier synchronization; cloud system stacks developed by Google, Amazon, Facebook, and Microsoft. Prerequisites: CS:2820 and (CS:3620 or CS:3640).

CS:5710 Numerical Analysis: Nonlinear Equations and Approximation Theory 4 s.h.
Root finding for nonlinear equations; polynomial interpolation; polynomial approximation of functions; numerical integration. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550). Requirements: knowledge of computer programming. Same as MATH:5800.

CS:5720 Numerical Analysis: Differential Equations and Linear Algebra 4 s.h.
Numerical methods for initial value problems for ordinary differential equations; direct and iterative methods for linear systems of equations; eigenvalue problems for matrices. Prerequisites: MATH:2700 and (MATH:2850 or MATH:3550) and (MATH:3600 or MATH:2560). Requirements: knowledge of computer programming. Same as MATH:5810.

CS:5800 Fundamentals of Software Engineering 3 s.h.
Problem analysis, requirements definition, specification, design, implementation, testing/maintenance, integration, project management; human factors; management, technical communication; design methodologies; software validation, verification; group project experience. Prerequisites: CS:2820 or ECE:3330. Same as ECE:5800.

CS:5810 Formal Methods in Software Engineering 3 s.h.
Models, methods, and their application in all phases of software engineering process; specification methods; verification of consistency, completeness of specifications; verification using tools. Prerequisites: ECE:3330 or CS:2820. Recommendations: CS:4350. Same as ECE:5810.

CS:5820 Software Engineering Languages and Tools 3 s.h.
Modern agile software development practices for cloud and web-based applications, using state-of-the-art software engineering languages, tools, and technologies; agile software development practices, software-as-a-service (SAAS), and the Ruby on Rails Development Framework. Requirements: ECE:5800 or CS:5800; or graduate standing with solid understanding of object-oriented design and programming, and facility with at least one object-oriented programming language. Same as ECE:5820.

CS:5830 Software Engineering Project 3 s.h.
Team software development project using concepts and methodologies learned in earlier software engineering classes; practical aspects of large-scale software development. Prerequisites: ECE:5820 and CS:5800. Same as ECE:5830.
CS:5850 Programming Language Foundations 3 s.h.
Introduction to formal foundations of programming languages using a variety of models, including attribute grammars, operational, axiomatic, denotational, and algebraic techniques; proofs of program equivalence, correctness, termination. Prerequisites: CS:3330 and CS:3820.

CS:5860 Lambda Calculus and Applications 3 s.h.
Covers both typed and untyped versions of the lambda calculus in depth, including essential theoretical results like confluence for untyped lambda calculus and normalization for typed lambda calculi, as well as applications in computer science, logic, and linguistics; course work includes both theoretical exercises and practical problems using software for manipulating lambda-calculus expressions, students devise their own final projects; no prior experience with lambda calculus, programming, logic, or linguistics is required, although ability to grasp definitions of new concepts and to follow detailed arguments is needed. Prerequisites: CS:3820.

CS:5980 Topics in Computer Science III arr.
Complements material in other courses.

CS:5990 Individualized Research or Programming Project arr.
Individualized research and/or programming projects in computer science, guided by a faculty member.

CS:6000 Research Seminar: Colloquium Series 1 s.h.
Graduate colloquium. Requirements: graduate standing in computer science.

CS:6990 Readings for Research arr.
Requirements: Ph.D. standing in computer science.

CS:7990 Research for Dissertation arr.
Individualized instruction for Ph.D. candidates in computer science towards thesis requirements. Requirements: Ph.D. candidacy (postcomprehensive exam) in computer science.
## Computer Science, B.A.

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

The department encourages students majoring in computer science to consider earning a second major, certificate, or minor.

Students may declare a major in computer science when they are admitted to the University or afterward. All students begin as Bachelor of Arts majors but may switch to the Bachelor of Science program at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Informatics and Computer Science (WICS).

### Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See "Advanced Placement" under Undergraduate Programs on the Department of Computer Science website.

### Requirements

The Bachelor of Arts with a major in computer science requires a minimum of 120 s.h., including at least 41 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464). A cumulative g.p.a. of at least 2.00 is required for graduation.

The computer science major for the Bachelor of Arts is designed for students who would like to gain considerable knowledge in computer science and have flexibility in choosing electives. Students preparing for careers in the computing field are encouraged to supplement the base requirements with additional computer science courses. The program's flexibility makes it suitable for combination with other majors.

Course work for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Arts students considering a switch to the Bachelor of Science program should choose their General Education natural sciences courses carefully since students may be able to use the same courses to satisfy the natural science sequences requirement for the B.S. degree. See "Natural Science Sequences" under Requirements (p. 284) in the B.S. in Computer Science section of the Catalog.

Students who earn a B.A. in computer science must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Object-Oriented Software Development, CS:3330 Algorithms, or any other computer science course numbered CS:3620-CS:5890, but excluding CS:3910 and CS:3980.

The B.A. with a major in computer science requires the following course work.

Applicants to the joint program must:

- have a cumulative University of Iowa g.p.a. of at least 3.25 and a g.p.a. of at least 3.25 in the computer science major (computed on math prerequisites and core computer science course work taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Students submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Prospective Students on the Department of Computer Science website.

### Honors

#### Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics which requires the submission of an acceptable honors thesis.

Students are responsible for finding a faculty member willing to supervise their honors project. They can register for CS:3990 with the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. For more details, see Honors on the Department of Computer Science website.

Honors students may count a maximum of 3 s.h. of CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement.

Students majoring in computer science have the opportunity for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

In addition to honors in the major, students have opportunities for membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning course work.

#### University of Iowa Honors Program

<table>

<td>Probability and Statistics</td>
<td>4</td>
</tr>
</tbody>
</table>

Students who take MATH:2550 Engineering Mathematics III: Matrix Algebra and MATH:2560 Engineering Mathematics IV: Differential Equations can use these courses together to satisfy the linear algebra requirement.

### Advanced Computer Science Electives

At least 3 s.h. from these:

A computer science course (prefix CS) numbered 3620-5890, except CS:3910 and CS:3980
A computer science course (prefix CS) numbered 5900 or above, with department approval

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced computer science elective requirement.

### Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

### Joint B.A./M.C.S.

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the joint Bachelor of Arts/Master of Computer Science program. The joint B.A./M.C.S. program allows students to earn both degrees in five years. The program requires a total of 140 s.h., which is 12 s.h. less than the total number of s.h. required for both degrees earned separately.

Students in the joint program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the joint program, and must satisfy degree requirements of both the B.A. and the M.C.S.

When students withdraw from the joint program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

Students are granted a B.A. when they complete all requirements for the undergraduate degree.

Students apply for admission to the joint program during their third year as undergraduates and enter the program at the beginning of their fourth year. They usually complete the joint program comfortably in one year after completing the B.A. requirements.

Applicants to the joint program must:

- be enrolled as a B.A. student majoring in computer science at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the joint program, with at least 30 s.h. earned at the University of Iowa; and
- have a cumulative University of Iowa g.p.a. of at least 3.25 and a g.p.a. of at least 3.25 in the computer science major (computed on math prerequisites and core computer science course work taken at the University of Iowa).

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Students are granted a B.A. when they complete all requirements for the undergraduate degree.

### Joint B.A./M.C.S.

Students in the joint B.A./M.C.S. program may register for 4-6 s.h. of CS:5990 Individualized Research or Programming Project instead of CS:3990; this will allow them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

### University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning course work.

### Academic Plans

#### Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in computer science. Students work with their advisors on individual graduation plans.

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

4. Possible course is CS:3640 Introduction to Networks and Their Applications or CS:4640 Computer Security for systems requirement, or CS:3820 Programming Language Concepts.

5. Possible course is CS:3620 Operating Systems for systems requirement or CS:3820 Programming Language Concepts.

### Career Advancement

Computer science graduates work primarily in two market sectors. One includes the software and computer industry, from small start-ups to giants such as Amazon, Google, Intel, Yahoo, and Microsoft. These offer job opportunities in software design, including UI/UX, mobile, and web development. Another sector is made up of organizations whose primary business is not computing, such as banks, insurance, and other financial groups; health care organizations; consulting, media, and legal firms; entertainment companies; and the military.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa’s five-year B.A./M.C.S. program, or in other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97 percent of computer science graduates were placed or no longer seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Informatics, B.A.

The major in informatics provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

The department encourages students majoring in informatics to consider earning a second major, certificate, or minor.

Students may declare a major in informatics when they are admitted to the University or afterward. All students begin the major as Bachelor of Arts students but may switch to the Bachelor of Science programs at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate areas from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, others are available only with the Bachelor of Science. So a student's choice of cognate determines whether the student will earn a B.A. or a B.S.

Informatics majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average.

Students should consult the Department of Computer Science website or visit the department's office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University's chapter of the Association for Computing Machinery (ACM) and Women in Informatics and Computer Science (WICS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See "Advanced Placement" under Undergraduate Programs on the Department of Computer Science website.

Requirements

The Bachelor of Arts with a major in informatics requires a minimum of 120 s.h., including at least 43-51 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. A cumulative g.p.a. of at least 2.00 is required for graduation.

Required credit for the major depends on the choice of cognate area. Work for the major may not be taken pass/nonpass.

The program combines foundational informatics course work with course work in a cognate discipline. The major offers the cognate areas of art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, and individualized cognates.

Course work for the major includes the informatics core, one elective, a statistics course, and a set of courses in a chosen cognate area. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Students must complete at least four courses (minimum of 12 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and three additional courses numbered CS:2500-CS:4990 or MSCI:4220 Advanced Database Management and Big Data.

The B.A. with a major in informatics requires the following course work.

| Informatics Core Courses | 19 |
| Informatics Electives | 3 |
| Statistics Course | 3-4 |
| Cognate Courses | 18-25 |
| Total Hours | 43-51 |

Informatics Core

The informatics core consists of six required computing courses (at least 19 s.h.) that emphasize data manipulation, databases, and networking. It provides more applications-oriented content than the traditional computer science curriculum yet is designed to offer students a sound basis in underlying computer science themes and techniques.

This course:

| CS:2110 | Programming for Informatics | 4 |
| One of these: | | |
| CS:2420 | Program Analysis | 3 |
| MSCI:3200 | Database Management | 3 |
| All of these: | | |
| CS:1110 | Introduction to Computer Science | 3 |
| CS:2520 | Human-Computer Interaction | 3 |
| CS:2620 | Networking and Security for Informatics | 3 |
| CS:3910 | Informatics Project | 3 |

Informatics Electives

Students must complete at least one course (3 s.h.) from a list of approved computing informatics electives. Course selection must be approved by an informatics advisor. In addition to the courses listed below, students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Management Sciences; consult an informatics faculty advisor for additional choices.

MSCI:4220 Advanced Database Management and Big Data | 3 |

A computer science course (prefix CS) numbered 3000-4990, except CS:3910

Statistics Course

Students must complete one introductory statistics course. Some cognates require a specific statistic course. Students should consult with their advisors to choose a statistics course appropriate for their cognate area. Those who choose the psychology courses option of the human-computer interaction cognate must satisfy the statistics' requirement with PSY:2811 Research Methods and Data Analysis in Psychology I.

Cognates

Students must complete all requirements listed under one of the cognate areas below: art, economics, geoinformatics, health informatics, human-computer interaction, linguistics, media, music, social informatics, or an individualized cognate.

Art

The informatics major with the art cognate requires a minimum of 48 s.h. of work for the major, including 22 s.h. in cognate courses. Students learn about the design and maintenance of web services, applications of modern computerized artistic tools, and benefits and limitations of computers as a digital medium. They also gain insight into computerized tool design that is guided by knowledge of an artist's requirements. The art cognate may lead to careers in web development, technology coordination for artistic productions, development of digital artistic tools, and artistic or technical development for entertainment companies. Cognate courses are primarily in art history, design, elements of art, and photography.

Some courses listed below are open only to students majoring in art, so they are appropriate choices only for students with a double major in art and informatics. Non-art majors should work with an informatics faculty advisor to develop an individual set of art cognate courses.

All of these:
- ARTS:1510 Basic Drawing 3
- ARTS:1520 Design Fundamentals 3
- DSGN:2500 Graphic Design I 3
- DSGN:2600 Graphic Design II 3
- DSGN:3500 Graphic Design III 4

Any art history course (prefix ARTH) numbered at the 1000 or 2000 level

One of these, to complete 22 s.h. for the art cognate:
- CS:2800 Digital Arts: An Introduction 3
- DSGN:3600 Graphic Design IV 4
- MUSM:3125 Museums in a Digital World 3
- SCLP:3840 Robotic Art Studio 4
- SCLP:4830 Motion and Mechanisms 4

Economics

The informatics major with the economics cognate requires a minimum of 49 s.h. of work for the major, including 24 s.h. in cognate courses, which are primarily from economics. The economics cognate is intended for students interested in working with economic, financial, or demographic data. It may lead to careers in administration, business, or government or to graduate study in management or policy areas.

All of these:
- ECON:1100 Principles of Microeconomics 4
- ECON:1200 Principles of Macroeconomics 4
- ECON:3100 Intermediate Microeconomics 3
- ECON:3150 Intermediate Macroeconomics 3
- MATH:1380 Calculus and Matrix Algebra for Business 4

Additional 6 s.h. in economics courses (prefix ECON) numbered 3000 or above

Geoinformatics

The informatics major with the geoinformatics cognate requires a minimum of 47 s.h. of work for the major, including 22 s.h. in cognate courses, which are primarily from geographical and sustainability sciences. The geoinformatics cognate is intended for students interested in geographic information systems (GIS) and spatial aspects of data. It may lead to careers in business, government, or public health or to graduate study in geography, public health, or policy areas.

All of these:
- GEOG:1020 The Global Environment 3
- GEOG:1021 The Global Environment Lab 1
- GEOG:1050 Foundations of GIS 3

Two of these:
- GEOG:1070 Contemporary Environmental Issues 3
- GEOG:2110 Seven Billion and Counting: Introduction to Population Dynamics 3
- GEOG:2910 The Global Economy 3

One of these:
- GEOG:3520 GIS for Environmental Studies 3
- GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3

Two geographical and sustainability sciences courses (prefix GEOG) numbered 3500 or above (at least 6 s.h.)

Health Informatics

The informatics major with the health informatics cognate requires a minimum of 46 s.h. of work for the major, including 21 s.h. in cognate courses. The health informatics cognate is intended for students interested in applications of computing to health care, especially in public health. It may lead to careers in medical or health-related areas or to graduate...
and professional degree programs in public health, health informatics, and medical informatics. Cognate courses are selected primarily from public health, geography, and global health studies.

Once students complete the required courses in each of the four sets below, they must select additional courses from the sets to complete 21 s.h. of credit for the cognate.

One of these:

- CPH:1400 Fundamentals of Public Health 3
- GHS:3720 Contemporary Issues in Global Health 3

At least two of these:

- GEOG:1050 Foundations of GIS 3
- GEOG:4150 Health and Environment: GIS Applications 3

Any geographical and sustainability sciences course (prefix GEOG) numbered 3500 or above

At least two of these:

- GHS:3850 Promoting Health Globally 3
- GHS:4100 Topics in Global Health 1-3
- JMC:3150 Media and Health 3

One of these:

- EPID:4400 Epidemiology I: Principles 3
- HMP:4000 Introduction to the U.S. Health Care System 3

### Human-Computer Interaction

The informatics major with the human-computer interaction cognate requires a minimum of 46 s.h. of work for the major, including at least 21 s.h. in cognate courses. The human-computer interaction cognate is intended for students interested in designing useful and usable technologies. It can lead to careers in interaction design, web design, implementation of user interfaces, and evaluation of human-computer interactions as well as provide valuable skills for the implementation of user interfaces, and evaluation of human-computer interaction cognate.

The cognate’s courses are drawn largely from psychology, sociology, and industrial engineering. Four required courses include foundational aspects of psychology or sociology, an examination of basic human abilities and performance relevant to information technology use, and an introduction to research topics in human-computer interaction.

This course:

- CS:4500 Research Methods in Human-Computer Interaction 3

Either both psychology courses or both sociology courses:

- PSY:1001 & PSY:2601 Elementary Psychology - Introduction to Cognitive Psychology 6
- SOC:1010 & SOC:2130 Introduction to Sociology - Sociological Theory 6-7

One art course from these:

- ARTS:1020 Elements of 3-D Design 3
- ARTS:1070 Elements of Graphic Design (recommended) 3
- ARTS:1090 Elements of Animation 3

One of these:

- IE:3400 Human Factors 3

### Linguistics

The informatics major with the linguistics cognate requires a minimum of 47 s.h. of work for the major, including at least 22 s.h. in cognate courses. Linguistics, the scientific study of human languages, is directly related to psychology, anthropology, and computer science as well as to more applied fields such as second language acquisition or speech and hearing science. The cognate focuses on computational representations of syntax and semantics for processing natural language. Cognate courses are drawn primarily from linguistics.

All of these:

- CSD:3112 Anatomy and Physiology of Speech Production 4
- CSD:3116 Basic Neuroscience for Speech and Hearing 3
- LING:3001 Introduction to Linguistics 3
- LING:3005 Articulatory and Acoustic Phonetics 3
- LING:3010 Syntactic Analysis 3
- LING:3020 Phonological Analysis 3
- LING:3080 History of the English Language 3

### Media

The informatics major with the media cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses. This cognate is intended for students interested in working in media industries. Data-specific occupations in these industries include, but are not limited to, data/communication analyst, data mining expert, strategic analyst, data journalist, web developer, information graphics specialist, app developer, and multimedia journalist.

JMC:2010 Journalistic Reporting and Writing and JMC:2020 Introduction to Multimedia Storytelling are corequisites and must be taken during the same semester. Students are responsible for completing the prerequisites for JMC:2010.

Both of these:

- JMC:2010 Journalistic Reporting and Writing 4
- JMC:2020 Introduction to Multimedia Storytelling 4

One of these:

- JMC:2200 Principles of Strategic Communication 3
Informatics, B.A.

JMC:2300  Principles of Journalism  3

One of these:
JMC:3610  Graphic Design  3-4
JMC:3640  Data Journalism  3-4

At least three journalism and mass communication courses (prefix JMC) numbered 3400 or above to complete 23 s.h. for the media cognate.

Music

The informatics major with the music cognate requires a minimum of 48 s.h. of work for the major, including 23 s.h. in cognate courses. The music cognate is intended for students interested in audio recording, manipulation of sound, and digital media. It may help students prepare for careers in the entertainment industry. Cognate courses are primarily from music, with some from cinematic arts and theatre arts. Entering students must possess basic musicianship skills; an audition may be required for admission.

Students who plan to take MUS:1201 Musicianship and Theory I or MUS:1202 Musicianship and Theory II must take the music theory diagnostic examination, which is administered online during summer, before fall semester begins. See Musicianship and Theory Placement on the School of Music website for more information. Advanced placement in School of Music courses does not reduce the number of semester hours required for the cognate.

All of these:
MUS:1200  Fundamentals of Music for Majors  3
MUS:1201  Musicianship and Theory I  4
MUS:1202  Musicianship and Theory II  4
MUS:1211  Group Instruction in Piano I  1
MUS:1212  Group Instruction in Piano II  1
MUS:3780  Audio Recording I  3
MUS:3781  Audio Recording II  3

One of these:
MUS:1310  World Music  3
MUS:1720  History of Jazz  3
MUS:2301  History of Music I  3
MUS:2302  History of Music II  3
MUS:2311  Music of Latin America and the Caribbean  3

At least one of these, to complete 23 s.h. for the music cognate:
CS:2800  Digital Arts: An Introduction  3
CINE:4841  Film/Video Production: Sound Design  4
MUS:1007  Garage Band: The Basics  2
MUS:1010  Recital Attendance for Non-Majors  1
THTR:3260  Sound Design for the Theatre  3

SOC:1010  Introduction to Sociology  3-4
SOC:2130  Sociological Theory  3
SOC:2170  Research Methods  3

At least 11 s.h. from these:
CRIM:1410  Introduction to Criminology  3
CRIM:3420  Juvenile Delinquency  3
CRIM:3450  Criminal Legal System  3
CRIM:4400  Internship in Criminal Justice and Corrections  3

Any sociology course (prefix SOC) numbered 1020 or above

Individualized Cognates

Students interested in developing individualized cognates may work with an informatics faculty advisor. Individualized cognates may be drawn primarily from one department or an appropriate mix of departments; they require an approved set of cognate courses totaling 18-25 s.h.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor’s degrees.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics which requires the submission of an acceptable honors thesis. Students are responsible for finding a faculty member willing to supervise their honors project. They can register for CS:3990 with the project supervisor’s name once the faculty member approves the proposed project and a timetable for the work. For more details, see Honors on the Department of Computer Science website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the informatics major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning course work.

Social Informatics

The informatics major with the social informatics cognate requires a minimum of 45 s.h. of work for the major, including 20 s.h. in cognate courses, all from the Department of Sociology.

All of these:
### Four-Year Graduation Plan
The Four-Year Graduation Plan is not available to students majoring in informatics. Students work with their advisors on individual graduation plans.

### Sample Plan of Study

</table>

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Enrollment in chemistry and math courses require completion of placement exams.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4. The B.A. requires 18-25 s.h. in one cognate field. This sample plan of study includes 24 s.h. of cognate elective courses.

5. Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement
Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Some graduates pursue software development opportunities or careers as database and/or web administrators; others enter the IT job market as software support personnel or in a managerial role. Other graduates pursue careers in their cognate field, where their computing skills are at a premium.

A recent job placement survey indicates that more than 90 percent of University of Iowa informatics graduates were placed or no longer seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Computer Science, B.S.

The major in computer science provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

The department encourages students majoring in computer science to consider earning a second major, certificate, or minor.

Students may declare a major in computer science when they are admitted to the University or afterward. All students begin as Bachelor of Arts majors but may switch to the Bachelor of Science programs at any time.

Undergraduates majoring in computer science develop competence in programming principles and methodologies, problem-solving techniques, mathematics, and computer systems. Computer science training is critical for many careers in science, engineering, business, and health care.

Computer science majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with a computer science faculty advisor.

Transfer students who have taken a course approved as equivalent to a required computer science or informatics course are exempt from that course. Transfer course grades are included in the computer science grade-point average.

Students should consult the Department of Computer Science website or visit the department’s office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University’s chapter of the Association for Computing Machinery (ACM) and Women in Informatics and Computer Science (WICS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See "Advanced Placement" under Undergraduate Programs on the Department of Computer Science website.

Requirements

The Bachelor of Science with a major in computer science requires a minimum of 120 s.h., including at least 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. A cumulative g.p.a. of at least 2.00 is required for graduation.

The Bachelor of Science program is more rigorous than that of the Bachelor of Arts program; it is designed to provide in-depth training for students who would like to acquire strength in math and science in order to enhance their skills and job prospects. It also is appropriate for those who plan to pursue graduate work in computer science, although it is not required for graduate study at most universities.

Course work for the major includes computer science courses as well as courses in mathematics, statistics, and other supporting disciplines. Work for the major may not be taken pass/nonpass.

Bachelor of Science students with a computer science major should choose their General Education Program's Natural Sciences courses carefully, since they may be able to use the same courses to satisfy the natural science sequences requirement; see "Natural Science Sequences" below.

Students who earn a B.S. in computer science must complete at least seven courses (minimum of 21 s.h.) at the University of Iowa from the following: CS:2630 Computer Organization or ECE:3350 Computer Architecture and Organization, CS:2820 Object-Oriented Software Development, CS:3330 Algorithms, or any other computer science course numbered CS:3620-CS:5890, but excluding CS:3910 and CS:3980.

The B.S. with a major in computer science requires the following course work.

Advanced Technical Electives

Students must earn at least 12 s.h. (four courses) in advanced technical electives, as follows.

At least 6 s.h. from these:
- A computer science course (prefix CS) numbered 3620-5890, except CS:3910 and CS:3980
- A computer science course (prefix CS) numbered 5900 or above, with department approval

And:
- Advanced technical elective courses in computer science (prefix CS), or in other disciplines with department approval, to complete the required 12 s.h.

An approved list of courses in other departments that satisfy this requirement can be found on the Department of Computer Science website; see "Major Requirements" on the Undergraduate Programs page.

Students may count a maximum of 3 s.h. earned in CS:3990 Honors in Computer Science or Informatics toward the advanced technical elective requirement.

Natural Science Sequences

Students take two or more courses in a sequence (totaling at least 6 s.h.) in a cognate area of natural science. The natural science sequence is intended to enhance a student's perspective by providing a deeper understanding of the scientific method. Typically, it consists of a sequence of courses taken in the same science department. Students often choose courses that also fulfill the General Education Program [p. 464] Natural Sciences requirement. Some possible choices are listed below; the department chair may approve others.

CLEP/APP credit may be used to satisfy part or all of the natural science requirement only if the appropriate science department at the University of Iowa accepts the credit as equivalent to one or more of the specific courses listed below.

Early Admission to the Graduate College

Undergraduate computer science students who have 6 s.h. or less to earn toward graduation may apply for early admission to the Graduate College. Early admission allows students in their final undergraduate semester to take courses for graduate credit in addition to the courses they need to complete their bachelor's degrees.

Joint B.S./M.C.S.

Qualified computer science undergraduate students who plan to earn the Master of Computer Science degree may apply for the joint Bachelor of Science/Master of Computer Science program. The joint B.S./M.C.S. program allows students to earn both degrees in five years. The program requires a total of 140 s.h., which is 12 s.h. less than the total number of s.h. required for both degrees earned separately.

Students in the joint program must complete all requirements for each degree, but may count a maximum of 12 s.h. (four courses) toward both degrees. The four courses must be taken during the fourth year of undergraduate study, after admission to the joint program, and must satisfy degree requirements of both the B.S. and the M.C.S.

When students withdraw from the joint program before completing their bachelor's degree, credit earned in the four courses is counted only toward the undergraduate degree.

Students are granted a B.S. when they complete all requirements for the undergraduate degree.

Students apply for admission to the joint program during their third year as undergraduates and enter the program at the beginning of their fourth year. They usually complete the joint program comfortably in one year after completing the B.S. requirements.

Applicants to the joint program must:

- be enrolled as a B.S. student majoring in computer science at the University of Iowa;
- have completed a minimum of 80 s.h. at the time of admission to the joint program, with at least 30 s.h. earned at the University of Iowa; and
- have a cumulative University of Iowa g.p.a. of at least 3.25 and a g.p.a. of at least 3.25 in the computer

science major (computed on math prerequisites and core computer science course work taken at the University of Iowa).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants must submit an application for admission to the program, a statement of purpose, three letters of recommendation, and transcripts from all colleges attended; they also must apply to the Graduate College. Graduate Record Examination (GRE) scores are not required. For more detailed information, see Prospective Students on the Department of Computer Science website.

Honors

Honors in the Major

Students majoring in computer science have the opportunity to graduate with honors in the major. They must maintain a minimum UI cumulative g.p.a. of 3.33 and complete 4-6 s.h. of CS:3990 Honors in Computer Science or Informatics which requires the submission of an acceptable honors thesis. Students are responsible for finding a faculty member willing to supervise their honors project. They can register for CS:3990 with the project supervisor's name once the faculty member approves the proposed project and a timetable for the work. For more details, see Honors on the Department of Computer Science website.

Honors students may count a maximum of 3 s.h. of CS:3990 Honors in Computer Science or Informatics toward the B.S. degree's advanced technical elective requirement. Students in the joint B.S./M.C.S. program may register for 4-6 s.h. of CS:5990 Individualized Research or Programming Project instead of CS:3990; this will allow them to receive graduate credit for the course while satisfying the course requirements to graduate with honors.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the computer science major. However, the semester hours earned in CS:3990 Honors in Computer Science or Informatics or CS:5990 Individualized Research or Programming Project can be used to partially satisfy the UI Honors requirement of 12 s.h. of experiential learning course work.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in computer science. Students work with their advisors on individual graduation plans.

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3 Students may use their elective courses to complete a double major, minors, or certificates.

4 Possible course is CS:3640 Introduction to Networks and Their Applications or CS:4640 Computer Security for systems requirement, or CS:3820 Programming Language Concepts.

5 Possible course is CS:3620 Operating Systems for systems requirement or CS:3820 Programming Language Concepts.

6 Choose from MATH:2700 Introduction to Linear Algebra, or STAT:2020 Probability and Statistics for the Engineering and Physical Sciences or STAT:3120 Probability and Statistics.

Career Advancement

Computer science graduates work primarily in two market sectors. One includes the software and computer industry, from small start-ups to giants such as Amazon, Google, Intel, Yahoo, and Microsoft. These offer job opportunities in software design, including UI/UX, mobile, and web development. Another sector is made up of organizations whose primary business is not computing, such as banks, insurance, and other financial groups; health care organizations; consulting, media and legal firms; entertainment companies; and the military.

As many as one-third of computer science graduates go into research or elect to pursue graduate studies in computer science, including the University of Iowa B.S./M.C.S. program, or other areas where computer science provides a strong foundation.

A recent job placement survey indicates that more than 97 percent of computer science graduates were placed or no longer seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Informatics, B.S.

The major in informatics provides students with the necessary training for employment in careers such as software development and information management. It provides good preparation for graduate study in a variety of disciplines.

The department encourages students majoring in informatics to consider earning a second major, certificate, or minor. Students may declare a major in informatics when they are admitted to the University or afterward. All students begin the majors as Bachelor of Arts students but may switch to the Bachelor of Science program at any time.

The informatics major combines fundamental and practical computing knowledge with a choice of cognate areas from the liberal arts and sciences, providing students with the necessary background and specialized skills to work at the interface of computing and another discipline. Students may begin the major without a chosen cognate area; they may declare a cognate at any time. Some cognates are available only with the Bachelor of Arts, others are available only with the Bachelor of Science. So a student’s choice of cognate determines whether the student will earn a B.A. or a B.S.

Both computer science and informatics majors are advised at the Academic Advising Center until they have completed 24 s.h., at which point they are assigned a departmental advisor. Students being advised at the Academic Advising Center also can consult with an informatics faculty advisor.

Transfer students who have taken a course approved as equivalent to a required informatics or computer science course are exempt from that course. Transfer course grades are included in the informatics grade-point average. Students should consult the Department of Computer Science website or visit the department’s office for information about general policies, elective areas, and internships, scholarships, and student groups, such as the University’s chapter of the Association for Computing Machinery (ACM) and Women in Informatics and Computer Science (WICS).

Advanced Placement

The Computer Science Advanced Placement Program test may be used to satisfy requirements. See "Advanced Placement" under Undergraduate Programs on the Department of Computer Science website.

Requirements

The Bachelor of Science with a major in informatics requires a minimum of 120 s.h., including at least 55-60 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464). A cumulative g.p.a. of at least 2.00 is required for graduation.

Required credit for the major depends on the choice of cognate area. Work for the major may not be taken pass/nonpass.

The program combines foundational informatics course work with course work in a cognate discipline. The major in informatics offers the cognate areas of bioinformatics, medical informatics, and individualized cognates.

Course work for the major includes the informatics core, two electives, a statistics course, and a set of courses in the chosen cognate area. Students are expected to have taken MATH:1005 College Algebra or the equivalent.

Students must complete at least five courses (minimum of 15 s.h.) at the University of Iowa from the following: CS:3910 Informatics Project and four additional courses numbered CS:2500-CS:4990 or MSCI:4220 Advanced Database Management and Big Data.

The B.S. with a major in informatics requires the following course work.

| Informatics Core Courses          | 19 |
| Statistics Course                | 3-4 |
| Cognate Courses                  | 27-31 |
| Total Hours                      | 55-60 |

Informatics Electives

Students must complete at least two courses (6 s.h.) from a list of approved computing informatics electives. Course selection must be approved by an informatics advisor. In addition to the courses listed below, students may have additional choices from the Department of Electrical and Computer Engineering and the Department of Management Sciences; consult an informatics faculty advisor for additional choices.

health professions. Cognate courses are drawn from biology,

programs in medicine, dentistry, nursing, or other allied

programs in medical informatics, or professional degree

may lead to careers in medical or hospital settings, graduate

computing to health care, especially in a clinical setting. It

cognate is intended for students interested in applications of

at least 28 s.h. in cognate courses. The medical informatics

requires a minimum of 56 s.h. of work for the major, including

The informatics major with the medical informatics cognate:

At least two of these, to complete 28 s.h. for the

medical informatics cognate:

BIOL:1411- Foundations of Biology
BIOL:1412 - Diversity of Form and Function
CHEM:1110 & CHEM:1120 Principles of Chemistry I-II
CHEM:2210 & CHEM:2220 Organic Chemistry I-II

Individualized Cognates

Individualized cognates may be drawn primarily from one
department or an appropriate mix of departments; they
require an approved set of cognate courses totaling 27-31
s.h. Students interested in developing individualized cognates
should contact the Department of Computer Science for the
name of an informatics faculty advisor.

Early Admission to the Graduate College

Undergraduate informatics students who have 6 s.h. or less
to earn toward graduation may apply for early admission to
the Graduate College. Early admission allows students in their
final undergraduate semester to take courses for graduate
credit in addition to the courses they need to complete their
bachelor's degrees.

Honors

Honors in the Major

Students majoring in informatics have the opportunity to
graduate with honors in the major. They must maintain a
minimum UI cumulative g.p.a. of 3.33 and complete 4-6
s.h. of CS:3990 Honors in Computer Science or Informatics
which requires the submission of an acceptable honors
thesis. Students are responsible for finding a faculty member
willing to supervise their honors project. They can register
for CS:3990 with the project supervisor’s name once the
faculty member approves the proposed project and a
timetable for the work. For more details, see Honors on the
Department of Computer Science website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities
for honors study and activities through membership in the
University of Iowa Honors Program. Visit Honors at Iowa to
learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn
honors in the informatics major. However, the semester hours
earned in CS:3990 Honors in Computer Science or Informatics
can be used to partially satisfy the UI Honors requirement of
12 s.h. of experiential learning course work.
Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available to students majoring in informatics. Students work with their advisors on individual graduation plans.

Career Advancement

Informatics graduates work in a broad range of market sectors, reflecting the interdisciplinary nature of the program and the large number of available cognates. Some graduates pursue software development opportunities or careers as database and/or web administrators; others enter the IT job market as software support personnel or in a managerial role. Other graduates pursue careers in their cognate field, where their computing skills are at a premium.

A recent job placement survey indicates that more than 90 percent of University of Iowa informatics graduates were placed or no longer seeking employment within six months of graduation.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Computer Science, Minor

The undergraduate minor in computer science requires a minimum of 17 s.h. in computer science, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students excused from courses required for the minor may substitute other computer science electives.

The minor in computer science requires the following course work.

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS:1210</td>
<td>Computer Science I: Fundamentals</td>

And:

One additional computer science course (prefix CS) numbered 3200-5890, except CS:3910 and CS:3980, to complete the 17 s.h. required for the minor

Students who have completed ENGR:1300 Introduction to Engineering Computing and ENGR:2730 Computers in Engineering are considered to have satisfied the minor's requirement for CS:1210 Computer Science I: Fundamentals.

Students who have completed ENGR:2730 Computers in Engineering and ECE:3330 Introduction to Software Design are considered to have satisfied the minor's requirement for CS:2820 Object-Oriented Software Development.

Students may declare the computer science minor on MyUI, and they may request an audit for the minor through MyUI.
Informatics, Minor

The minor in informatics requires a minimum of 16 s.h., including at least 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

Students earning a major in computer science or in business analytics and information systems in the Department of Management Sciences (Tippie College of Business) may not earn the minor in informatics.

The minor in informatics requires the following course work.

Students may declare the informatics minor on MyUI, and they may request an audit for the minor through MyUI.
**Master of Computer Science, M.C.S.**

The Master of Computer Science (M.C.S.) is a course-based, nonresearch program for students who wish to enhance their careers with advanced knowledge of computer science.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

**Requirements**

The Master of Computer Science (M.C.S.) requires a minimum of 32 s.h. of graduate credit, including at least 24 s.h. earned at the University of Iowa. Basic M.C.S. requirements are as follows. Consult the Computer Science Graduate Handbook for detailed information about M.C.S. requirements and graduate study policies.

**Foundations**

One of these:
- CS:4330 Theory of Computation 3
- CS:5340 Limits of Computation 3
- CS:5350 Design and Analysis of Algorithms 3

**Systems**

One of these:
- CS:5610 High Performance Computer Architecture 3
- CS:5620 Distributed Systems and Algorithms 3
- CS:5810 Formal Methods in Software Engineering 3
- CS:5850 Programming Language Foundations 3

**Colloquium**

Students must earn at least 2 s.h. in this course:
- CS:6000 Research Seminar: Colloquium Series (must enroll at least twice for 1 s.h. each) 2

**Electives**

Computer science, reading and project, and non-computer science courses approved by advisor 24

**Electives**

Students complete eight additional courses, totaling at least 24 s.h., composed of computer science graduate courses, reading and project courses, and non-computer science graduate courses approved by their advisor. Of those eight courses, at least six must be computer science graduate courses (18 s.h.) numbered 4000 or above, which may not include CS:5990 Individualized Research or Programming Project, CS:6000 Research Seminar: Colloquium Series, CS:6990 Readings for Research, and CS:7990 Research for Dissertation.

The remaining two elective courses (at least 6 s.h.) may include technical or quantitative graduate courses outside of computer science, with the advisor's approval. Students also may include up to 3 s.h. earned in independent study courses (CS:5990 Individualized Research or Programming Project or CS:6990 Readings for Research).

**Software Engineering Subprogram**

The Department of Computer Science, with the Department of Electrical and Computer Engineering, offers a M.C.S. subprogram in software engineering. Students receive a software engineering subprogram designation on their transcript after they complete CS:5800 Fundamentals of Software Engineering, CS:5810 Formal Methods in Software Engineering, CS:5820 Software Engineering Languages and Tools, and CS:5830 Software Engineering Project, and earn their M.C.S. degree. Students should meet with the academic services coordinator to file the appropriate paperwork when they apply for degree, if they did not originally declare their intent to complete the software engineering subprogram.

**Admission**

Admission decisions are based on prior academic performance, letters of reference, and the applicant's statement about background and purpose. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Career Advancement**

M.C.S. students pursue software design and development careers in the technology sector, including UIX, mobile, and web development. Recent graduates hold positions at technology giants such as Microsoft, Google, Yahoo, or Intel, while others have taken positions in internationally established organizations whose primary business lies in the consulting, financial, health care, insurance, or media/entertainment sectors. A few M.C.S. students enter the start-up market or pursue additional graduate education leading to the Ph.D. at the University of Iowa or elsewhere.
Computer Science, M.S.

The Master of Science in computer science is offered only to students working toward the Ph.D. in computer science. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science (M.C.S.) program.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Requirements

Students should view the requirements for the Ph.D. in Computer Science program since the M.S. is offered only to students working toward the Ph.D. in computer science.

Admission

The Department of Computer Science does not admit students to the Master of Science degree program; only to the Master of Computer Science (M.C.S.) or Doctor of Philosophy (Ph.D.) degree programs. Students who are interested primarily in a master's degree and who do not intend to pursue a more advanced degree should apply to the Master of Computer Science (M.C.S.) program.
Computer Science, Ph.D.

The Doctor of Philosophy program in computer science emphasizes preparation for research and teaching in academic settings or for research in private, industrial, or government laboratories.

Current and prospective graduate students should consult the Computer Science Graduate Handbook, available from the department's office and its website. The handbook provides detailed information about specific degree requirements, such as required courses, examinations, and dissertation requirements.

Requirements

The Doctor of Philosophy program in computer science requires a minimum of 72 s.h. of graduate credit, three examinations (qualifying, comprehensive, and final), and a written dissertation. Consult the Computer Science Graduate Handbook for detailed information about Ph.D. requirements and graduate study policies.

Basic Ph.D. requirements are as follows.

Core Requirement

This course:
CS:5350 Design and Analysis of Algorithms 3
And one of these:
CS:4330 Theory of Computation 3
CS:5340 Limits of Computation 3

Breadth

Students must complete at least three of the following courses, with at least one course selected from each area (9 s.h.).

Systems and Software
CS:4640 Computer Security 3
CS:4980 Topics in Computer Science II (section approved by advisor) 3
CS:5610 High Performance Computer Architecture 3

Networks and Distributed Systems
CS:4980 Topics in Computer Science II (section approved by advisor) 3
CS:5620 Distributed Systems and Algorithms 3

Programming Languages and Compilers
CS:4980 Topics in Computer Science II (section approved by advisor) 3
CS:5810 Formal Methods in Software Engineering 3
CS:5850 Programming Language Foundations 3

Practice

Students must complete at least one course (3 s.h.) with significant practical or implementation-oriented content. Each semester the department designates courses that satisfy this requirement. The following are typical selections.

CS:4400 Database Systems 3
CS:4420 Artificial Intelligence 3
CS:4440 Web Mining 3
CS:4700 High Performance and Parallel Computing 3
CS:4720 Optimization Techniques 3
CS:4980 Topics in Computer Science II (section approved by advisor) 3
CS:5800 Fundamentals of Software Engineering 3
CS:5990 Individualized Research or Programming Project 3

Cognate Area

In consultation with their advisor, students are required to select three courses, totaling 9 s.h. or more, that constitutes coherent coverage of an external cognate area; the courses need not be offered by the same department. Choices include, but are not limited to, mathematics, statistics, genetics, biology, and engineering disciplines.

Colloquium

Students must earn at least 4 s.h. in the following.
CS:6000 Research Seminar: Colloquium Series (must enroll at least four times for 1 s.h. each) 4

Electives

Students fill their remaining semester hours with a selection of computer science graduate courses numbered 4000 or above and graduate courses outside of the Department of Computer Science, approved by their advisor.

Qualifying Exam

Students are required to pass a qualifying examination by the end of their second year of graduate study. Once students select a topic in consultation with their advisor, they are assigned a three-member faculty examination panel by the department. Then they prepare a written prospectus for review by the committee, followed by an oral presentation.

Comprehensive Exam

The comprehensive examination is an evaluation of a student’s mastery of a research area near completion of formal course work, and before preparation of the dissertation. The exam may be written, oral, or both, at the department’s discretion, and is administered by a faculty committee. The comprehensive exam typically should be completed by the end of a student's third year and no later than the end of the fourth year in the Ph.D. program.

Dissertation

Each student must write a dissertation, a significant, original contribution to the field of computer science. Once students obtain some preliminary results and can identify and describe the boundaries of their dissertation, they prepare a written proposal for their committee's review. The dissertation must
be prepared in accordance with the format specified in the Graduate College Thesis Manual.

**Final Oral Examination**

Once the dissertation is complete and has been reviewed by the student’s committee, a final oral examination is administered on campus. This examination must take place no sooner than the semester following successful completion of the comprehensive examination and no later than five years after completion of the comprehensive exam.

**Admission**

Admission decisions are based on prior academic performance, letters of reference, the applicant’s statement about background and purpose, and scores on the Graduate Record Examination (GRE) General Test. Students need not have a master’s degree to begin the Ph.D. program or to be granted the doctoral degree. A student admitted without a master’s degree may choose to be granted an M.S. or the M.C.S. while working toward the doctorate.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Career Advancement**

Many computer science Ph.D. graduates obtain positions in industry research laboratories, such as Amazon, Disney, Google, Samsung, and Yahoo, or in government research laboratories. Others pursue research and teaching careers in higher education, with some starting their careers in postdoctoral positions at universities before seeking employment in tenure-track positions, and some are employed as faculty with more teaching-oriented positions. A few recent Ph.D. graduates have founded or joined start-up companies.
Creative Writing (Iowa Writers' Workshop)

Director
• Lan Samantha Chang

Graduate degree: M.F.A. in English
Faculty: https://writersworkshop.uiowa.edu/people
Website: https://writersworkshop.uiowa.edu/

The Creative Writing Program (Iowa Writers' Workshop) is a world-renowned graduate program for fiction writers and poets. It was the first creative writing program in the United States to offer a degree, and it became a model for many contemporary writing programs. In addition to its Master of Fine Arts program, it also offers writing courses for undergraduates.

The Iowa Writers' Workshop, founded in 1936, has been home to thousands of remarkable writers, including Flannery O'Connor, Raymond Carver, Rita Dove, John Irving, James Alan McPherson, Philip Levine, Jane Smiley, Michael Cunningham, Sandra Cisneros, Denis Johnson, Jorie Graham, Ann Patchett, D.A. Powell, Nathan Englander, Yiyun Li, Eleanor Catton, Angela Flournoy, Garth Greenwell, and Yaa Gyasi. The program's faculty and alumni include winners of virtually every major literary award, including seventeen winners of the Pulitzer Prize (most recently Paul Harding in 2010), six recent U.S. Poets Laureate, and numerous winners of the National Book Award, MacArthur Foundation Fellowships, and other major honors. In 2003, the Iowa Writers' Workshop received a National Humanities Medal from the National Endowment for the Humanities—the first awarded to a university and only the second given to an institution rather than an individual.

The Creative Writing Program also offers courses for students from other programs; summer courses are open to undergraduate and graduate students.

To learn more about the Creative Writing Program's history and faculty, visit the Iowa Writers' Workshop website.

English, M.F.A.

The Program in Creative Writing offers a M.F.A. degree program.

Unusually well-qualified Ph.D. students in the Department of English may obtain permission to submit a creative dissertation for the doctoral degree; the Program in Creative Writing assumes responsibility for granting permission for the option of the creative dissertation and for approving the dissertation once it is completed. Contact the director of graduate studies in the Department of English for more information.

Requirements

The Master of Fine Arts degree in English (creative writing) requires 48 s.h. of graduate credit taken over four semesters in residence at the University of Iowa. Students specialize in fiction or poetry.

The program is flexible and individualized. Approximately half of the credit required for the degree is earned in writing courses; the rest may be earned in other graduate courses. Up to 18 s.h. of graduate transfer credit may be counted toward the degree; however, students must satisfy the residency requirement.

Students must enroll in CW:7870 Fiction Workshop or CW:7875 Poetry Workshop during each semester of residence in the program. In each course, groups of 10-15 students read and critique each other's work.

The program's seminars provide students with a thorough knowledge of their chosen literary form and related aspects of craft. Seminars include CW:7810 Form of Fiction, CW:7820 Form of Poetry, CW:7830 Seminar: Problems in Modern Fiction, and CW:7840 Seminar: Problems in Modern Poetry. Each focuses on a single aspect of modern poetry or fiction, such as a single writer's work or a body of work with a common theme or purpose.

In addition to taking Creative Writing Program courses, many M.F.A. students choose courses offered by other University of Iowa departments and programs, such as the Interdisciplinary Center for the Book [p. 1349] (Graduate College), the Department of Theatre Arts [p. 958], the Comparative Literature [p. 264] Program, and the Department of English [p. 343].

During the second year of the program, each student must take the M.F.A. examination, an essay exam that may be written outside of the classroom. Students enroll in CW:7895 M.F.A. Thesis and submit their graduate thesis during the last semester; the thesis is a fiction or poetry manuscript of substantial length.

Admission

Applicants to the Creative Writing Program (Iowa Writers' Workshop) must meet the program's admission requirements as well as those of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

A creative writing manuscript is the most important element of the application for admission to the workshop. Submissions for poetry should include 10-12 poems. Submissions for fiction should include two or three short stories or a section of a novel, or both, usually 30-80 double-spaced pages (may not exceed 100 double-spaced pages).

Financial Support

Financial assistance is available to Creative Writing Program students in the form of teaching assistantships, research assistants, and fellowships. See Financial Aid on the Iowa Writers' Workshop website.
Critical Cultural Competence

Chair, School of Social Work
• Sara Sanders

Interim Coordinator
• Kathleen Kemp

Undergraduate certificate: critical cultural competence
Website: https://clas.uiowa.edu/socialwork/undergraduate-program/certificate-critical-cultural-competence

The certificate program helps students develop an appreciation for their own cultural identities. It also helps them become critically self-reflective in their orientation to differences in other people’s cultural identities as defined by matters such as race, ethnicity, gender, class, abilities, age, and sexual orientation.

Certificate students develop the knowledge, skills, and attitudes they will need in order to increase their effectiveness in relating to others across cultural differences and in domestic and international environments that are increasingly diverse.

Students who complete the certificate program develop:
• a greater appreciation of cultural differences;
• increased ability to interact with individuals of diverse backgrounds;
• a philosophy of treating people fairly, equitably, and thoughtfully;
• critical self-reflection and awareness of their own culture;
• ability to assess and understand culture-related privilege and disprivilege; and
• concern with issues of power and privilege, and social justice.

The Certificate in Critical Cultural Competence is administered by the School of Social Work [p. 876].

Programs

Undergraduate Program of Study
Certificate
• Certificate in Critical Cultural Competence [p. 300]

Courses

Critical Cultural Competence Courses

CCCC:2220 Foundations of Critical Cultural Competence
3 s.h.
Experiential and theoretical foundation; cultural competence as a concept and practice; conceptual frameworks and models for understanding cultural differences and similarities within, among, and between groups of people with whom others interact in their professional, personal, public, and private lives; appreciating differences while learning to be self-reflective; adjustment of perceptions, behaviors, styles for effective interaction with people from different ethnic, racial, sexual, gender, age, ability, and class groups. GE: Diversity and Inclusion.

CCCC:4490 Integrative Seminar in Critical Cultural Competence
3 s.h.
Capstone course; application of knowledge to one’s areas of study; community settings where cultural competence is required; challenges and benefits of behaving in culturally competent ways in varied contexts; review and critique of educational experiences in the certificate program; development of skills in community education related to cultural competence; group project to benefit the University and/or community; development of a plan to integrate critical cultural competence into careers. Requirements: completion of other required certificate courses.
Critical Cultural Competence, Certificate

The undergraduate Certificate in Critical Cultural Competence requires 18 s.h. of course work. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Ideally, students begin the certificate during their second year of undergraduate study.

The Certificate in Critical Cultural Competence requires the following course work.

Total Hours 18

Students begin the certificate with CCCC:2220 Foundations of Critical Cultural Competence, which is offered spring semesters and is prerequisite to the course work that follows. Students complete the certificate's requirements with the capstone course, CCCC:4490 Integrative Seminar in Critical Cultural Competence, which is offered spring semesters.

In collaboration with the certificate program's coordinator, students establish study plans while completing the foundation course. The coordinator works with the academic advisor in the student's major to ensure that the study plan complements the student's academic program and career interests. The program coordinator approves the final study plan, recommends the sequence in which course work should be taken, schedules required courses, and keeps a record of each student's approved program and progress.

For more information, contact the School of Social Work.
Dance

**Director, Division of Performing Arts**  
• Alan MacVey

**Chair, Department of Dance**  
• Rebekah J. Kowal

**Undergraduate major:** dance (B.A., B.F.A.)  
**Undergraduate minor:** dance  
**Graduate degree:** M.F.A. in dance  
**Faculty:** https://dance.uiowa.edu/people  
**Website:** https://dance.uiowa.edu/

The Department of Dance provides comprehensive training in dance technique, performance, choreography, and theoretical studies at the Bachelor of Arts, Bachelor of Fine Arts, and Master of Fine Arts levels. Integrating dance studies with the liberal arts and sciences, the dance degree programs promote creative and intellectual growth in an environment that develops young artists and advances the art of dance.

The undergraduate major prepares students for careers as performers, choreographers, and educators as well as for graduate studies in dance and related fields. The M.F.A. curriculum broadens and deepens the knowledge and experience of returning professionals seeking to reenter the field or to secure positions in higher education.

The department offers up to 10 concerts each year, providing dance students with numerous opportunities to perform and/or to present their choreography; visit the Performance Opportunities web page. The department’s annual Dance Gala on campus, performed by dance students, presents original faculty choreography as well as work by a special distinguished guest artist. Dancers in Company, the department’s student repertory company, performs across Iowa and surrounding states.

All dance faculty members regularly present and/or publish their choreography or scholarship nationally and internationally. Students have ample opportunities to work with faculty on their creative and/or scholarly research. Periodic master classes with noted guest teachers, choreographers, and touring companies introduce students to contemporary artists and provide opportunities for professionalization and networking.

Students have the opportunity to earn a major in dance and a second major in another of the University’s colleges, or in one of the other units within the division—music or theatre arts. The dance faculty supports students pursuing a second major with the understanding that supplemental studies, in addition to a degree in dance, is preparation for a wide range of professional careers in fields such as arts administration and production, education, the health sciences, law, and engineering.

The Department of Dance also participates in offering the division’s Certificate in Arts Entrepreneurship [p. 122]. The department is one of the academic units in the Division of Performing Arts [p. 322].

**Programs**

**Undergraduate Programs of Study**

**Majors**  
• Major in Dance (Bachelor of Arts) [p. 308]  
• Major in Dance (Bachelor of Fine Arts) [p. 311]

**Minor**  
• Minor in Dance [p. 315]

**Graduate Program of Study**

**Major**  
• Master of Fine Arts in Dance [p. 316]

**Facilities**

The Department of Dance houses six technique studios, a movement training lab, a media classroom and library, a media laboratory, an audio recording laboratory, and its own 240-seat theater for dance concerts, which also are streamed live to off campus audiences.

**Courses**

**Dance Courses**

**DANC:1000 First-Year Seminar**  
1 s.h.  
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**DANC:1010 Beginning Tap**  
2 s.h.  
Elementary techniques, steps, and performance skills for rhythm and show tap styles; enhancement of rhythmic ability through exercises, improvisation, creative activities; may include history of tap. Tap shoes required. GE: Literary, Visual, and Performing Arts.

**DANC:1020 Beginning Jazz**  
2 s.h.  
Basic movement fundamentals, terminology, performance skills of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.

**DANC:1040 Beginning Modern Dance**  
2 s.h.  
Basic movement fundamentals, terminology, performance skills of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.
DANC:1050 Beginning/Contact Improvisation 2 s.h.
Concepts of dance improvisation and contact improvisation; cultivation of creative freedom through the use and invention of movement; range of expression broadened through personal movement capacity, spontaneity and imagination, ability to make and commit to movement choices; new approaches to moving and movement elements such as time, space, motion, qualities, dynamics; shared weight, support, counter-balancing, elementary partnering; studio course.

DANC:1055 Creativity in Motion 3 s.h.
Using foundational principles and components of movement, dance, and contact improvisation to explore questions and processes of creativity—What inspires you? How do you uniquely engage with the world? Students use readings and theories of creativity and the rigors of play and imagination to ground explorations, engage in an ongoing process of reflection and response that culminates in a final creative project, and get to know a local community partner in creative ways that are unique to individual participants. GE: Engineering Be Creative.

DANC:1060 Introduction to Dance Studies 1 s.h.
Introduction to dance studies in the liberal arts; breadth and diversity of contemporary scholarship on dance; dance history, criticism, ethnography, theory, choreography, and technology.

DANC:1070 Topics in Body Conditioning 2 s.h.
Somatic training techniques that address conditioning needs of dancers, other performing artists, athletes, and students at large—yoga, Pilates, release techniques; other somatic studies related to injury prevention, concentration, flexibility, efficient movement, strength training.

DANC:1080 Music Essentials for Dance 2 s.h.
Evolution of music and dance forms from early history times to the present; rhythmic analysis and fundamental music theory for dance students.

DANC:1085 Introduction to Afro-Caribbean Dance Techniques 2 s.h.
Exploration of African traditional dance form evolution through movement; movement vocabulary of principle dances and their musical structures; dance and cultural histories; class sessions include warm up, progressions across the floor, and execution of traditional Caribbean dances (e.g., Yavanlovu from Haiti, Orisha dance from Cuba, Brazil and Soca social dance from Trinidad). Same as DPA:1085.

DANC:1090 Dance Production 3 s.h.
Scenic design, costuming, lighting, audio/video, publicity; visits by professional guest lecturers, field trips to creative shops; projects.

DANC:1100 Continuing Tap 1-2 s.h.
Continuation of DANC:1010. GE: Literary, Visual, and Performing Arts.

DANC:1120 Continuing Jazz 2 s.h.
Continuation of DANC:1020; skills for technique and performance of jazz dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.

DANC:1130 Continuing Ballet 2 s.h.
Continuation of DANC:1030; skills necessary for technique and performance of ballet; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; barre and center combinations; terminology; may include history of ballet. GE: Literary, Visual, and Performing Arts.

DANC:1140 Continuing Modern Dance 2 s.h.
Continuation of DANC:1040; skills necessary for the technique and performance of modern dance; enhancement of flexibility, strength, body alignment, coordination, balance, kinesthetic awareness, personal range of motion, and musicality; warm-up, locomotion, center combinations; may include history of modern dance. GE: Literary, Visual, and Performing Arts.

DANC:1150 Brazilian Culture and Carnival 3 s.h.
Dance, music, historical, and social contents of Brazilian Carnival production, critical theories of performance, religious backgrounds, and theatre making in carnival parades. GE: Engineering Be Creative; Values and Culture. Same as LAS:1150.

DANC:1412 The Arts in Performance 3 s.h.

DANC:2020 Intermediate Jazz 2 s.h.
Low intermediate technique and performance training in jazz dance; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry, including mobility, musicality, style; warm-up, locomotion, center combinations; may include history of jazz dance. GE: Literary, Visual, and Performing Arts.

DANC:2030 Intermediate Ballet 2 s.h.
Low intermediate technique and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for more advanced dance artistry, including more difficult steps, musicality, mobility, balance; basic ballet terminology, including steps, head, body, arm positions; variations in timing, changes of facing. GE: Literary, Visual, and Performing Arts.

DANC:2040 Intermediate Modern 2 s.h.
Low intermediate technique and performance training in modern dance; flexibility, strength, body alignment, and breath as foundation for more advanced dance artistry, including musicality, mobility, balance, improvisation; variations in timing, changes of facing. GE: Literary, Visual, and Performing Arts.

DANC:2050 Improvisation I 2 s.h.
Introduction to movement as research; experimental process as vehicle for invention, creative freedom, aesthetic range; development of kinesthetic imagination, awareness, creative problem solving; introduction to issues of artistic originality and authenticity; practical integration of improvisation and composition through spontaneous manipulation of time, space, and energy; knowledge of creative process supported by reading and individual research.
DANC:2060 Dance and Society in Global Contexts  3 s.h.
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. GE: Engineering Be Creative; Literary, Visual, and Performing Arts. Same as DPA:2060.

DANC:2065 Performing Crisis: Dances of Identity, Witness, and Resistance  3 s.h.
What is the relationship between dance and crisis, and how can performances made at this intersection broaden understanding of diverse identities, address social inequality, or influence social change? Students examine contemporary issues of diversity and inclusion in dance and the intersection of dance and crisis in multiple social and historical contexts; engage in conversations based on viewings, readings, presentations, and other material; and complete written, multimedia and/or performance assignments based in archival, theoretical, and interpersonal research. GE: Diversity and Inclusion.

DANC:2080 Dance and Social Action  3 s.h.
Exploration of dance as a means for civic engagement; readings that support theory and practice of dance as social action; practicum experience of facilitating a workshop to girls at the Iowa Juvenile Home.

DANC:2220 Production Run Crew  1-2 s.h.
Hands-on experience in production work for live dance performance. Prerequisites: DANC:1090.

DANC:2800 Digital Arts: An Introduction  3 s.h.
Introduction to potential of integrating art with technology, providing a foundation of skills and concepts through hands-on experimentation; lectures and demonstrations will introduce key concepts and ideas as well as the history of digital arts; in labs, students will develop skills that will form a foundation for future investigation; work may include using an Arduino, programming, and developing an interface to control a software project; the final project will be shared with the public in some way; critical discourse, in the form of writing assignments, will allow for reflection and evaluation. GE: Engineering Be Creative. Same as ARTS:2800, CINE:2800, CS:2800, MUS:2800, THTR:2800.

DANC:3010 Topics in Global Dance Techniques  2 s.h.
Beginning, continuing, or advanced technique of global and non-Western dance practices; topics vary, may include Asia, Latin America, Africa, Pacific Islands, or other regions in historical and cultural context, and classical, folk, traditional, or contemporary forms.

DANC:3030 Major Ballet I  3 s.h.
Builds on DANC:2030; intermediate technical and performance training in ballet; flexibility, strength, body alignment, and coordination as foundation for introduction of more advanced aspects of dance artistry, including steps, musicality, mobility, balance; terminology related to barre and center vocabulary, including steps, head, body, and arm positions; practice of steps and combinations, variations in timing, changes of facing. Requirements: audition or promotion.

DANC:3034 Acting for Dancers  3 s.h.
Beginning acting for dancers; spontaneity and expression, sources of action and reaction through theater games; emotional journey in effective drama and comedy; drama, comic structure, and tension through character and script analysis.

DANC:3039 Partnering Class  1 s.h.
The art of partnering in dance, from salsa to Swan Lake; power sharing on the dance floor, including supported poses, balance, musical and physical timing, unity of movement, eloquence of gesture; for advanced dancers with strong coordination skills.

DANC:3040 Major Modern Dance I  3 s.h.
Builds on DANC:2040; intermediate technical and performance training in modern dance; physical and mental skills for transition to more advanced dance—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing; basic physical concepts underlying clear and efficient movement; assimilation of new movement material; center of gravity and its role in body mobilization and control; personal movement choices, and expressive range. Requirements: audition or promotion.

DANC:3050 Body/Image: Dance and Media in Discourse and Practice  3 s.h.
Intersection of body, image, and sound in analog and digital media; relationship to critical and practical texts; written and performative assignments that address fundamental concepts of corporeality in related fields including dance for camera, stage and film performance, and artistic, documentary, and publicity filmmaking and photography. Same as INTM:3050.

DANC:3060 Dance History  3 s.h.
Dance history in the 19th and 20th centuries; changes in dance training and technique, theory, composition, performance practices in context of broader social, political, and cultural trends; how dance and choreographic practices have changed over time, relationships between social ideas about embodiment and production of dance forms, precedents for contemporary dance practices in past forms. Prerequisites: DANC:2060.

DANC:3070 Dance Kinesiology  3 s.h.
Body science related to demands of dance; structural and muscular analysis for efficient, effective dance training and prevention of injuries; investigation of skeletal and ligamentous structure for working knowledge of how the body produces movement; joint actions and restrictions, common injuries to those sites; attachments of the voluntary muscles, pathways and potential actions; neuromuscular analysis of an action; functional skeletal alignment; how individual differences may affect movement performance. Prerequisites: HHP:1100.

DANC:3075 Yoga Teacher Training  3 s.h.
Expansion of yoga and/or teaching knowledge; in-depth physical practice of yoga postures; basic yoga philosophy and texts; personal practice of meditation; yoga for various populations; anatomy of yoga postures; practice teaching within class structure. Corequisites: DANC:3070. Requirements: dance major and sophomore or higher standing. Recommendations: previous experience taking yoga classes. Same as DPA:3075.
DANC:3130 Singing for Actors and Dancers 2 s.h.
Skill development for healthy, effective singing in the musical theatre style; techniques of vocal production through breath management, resonance, articulation, flexibility; vocal interpretation and repertoire. Recommendations: for MUS:3520—concurrent registration in MUS:1020. Same as MUS:3520, THTR:3130.

DANC:3150 Choreography I 2 s.h.
Introduction to theories and practices of creating choreography; locating varied sources for movement; elementary considerations of choreographic form; development of ideas, impulses, and initial inspirations into short works; fundamentals of giving and receiving critical feedback; articulation of thoughts and experience as composers and watchers of choreography; exposure to choreographic concerns supported by video and reading. Prerequisites: DANC:2050.

DANC:3190 Lighting for Dance and Entertainment 3 s.h.
How to research, conceptualize, and express ideas through light plots; design paperwork; dance lighting design projects.

DANC:3250 Choreography II 2 s.h.
Continuation of DANC:3150; development of intermediate choreographic skills; emphasis on cultivation of individual choreographic voice through expansion of vocabulary, discovery of complex ways to form and arrange, and use of widening range of methods and types of resources. Prerequisites: DANC:2050 and DANC:3150.

DANC:3251 Choreography II Rehearsal Lab 1-4 s.h.
Participation in rehearsals, showings, adjudication, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in creative research conducted by students enrolled in DANC:3250. Requirements: audition and selection by a student choreographer.

DANC:3521 Acting for Singers and for Dancers 2 s.h.
Fundamentals of acting technique, with attention to demands on performers in opera, musical theater, and dance. Same as MUS:3521, THTR:3521.

DANC:3530 Major Ballet II 1-2 s.h.
High intermediate training in ballet technique and performance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.

DANC:3540 Major Modern Dance II 1-2 s.h.
High intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range. Requirements: audition or promotion to determine placement.

DANC:3850 Introduction to Laban Movement Studies 2 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DPA:3850, MUS:3850.

DANC:3851 Introduction to the Alexander Technique 3 s.h.
The Alexander Technique and “self-use”—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DPA:3851, MUS:3851.

DANC:3852 Awareness Through Movement 2 s.h.
Introduction to the Feldenkrais Method of Awareness Through Movement; refinement of physical organization and coordination applied toward ordinary actions and functions, as well as athletics and performing arts; non-repetitive lessons on the floor, sitting in a chair, and standing; lessons communicated via auditory cues, no demonstration and imitation of idealized positions; improving awareness toward uncovering postural habits; expanding options for new and more efficient movement; exploring developmental patterns, joint, muscle and postural relationships; cultivating multiple possibilities for achieving the same action; conscious integration of sensing, feeling, thinking, and action.

DANC:3875 Topics in Digital Performing Arts 2 s.h.
Introduction to digital documentation and editing for dance performance; from a digital reel of student's work, including performance and teaching, to creative strategies for using digital imagery in performance; digital arts literacy as an invaluable tool in today's dance field. Same as THTR:3875.

DANC:3880 Installations and Interactive Performance 3 s.h.
Introduction to aesthetics, techniques, and practical possibilities of fusing together theatre, dance, music/sound, art, design, cinema, gaming, human computer interaction, and engineering; foundations of creating interactive experiences that use digital photos, video, text, real-world objects, sensor data, live bodies moving in space, Kinect 2 sensors, cameras, and multiple video outputs (e.g., projectors, LED displays); use of Isadora, an interactive, node-based programming software, to create immersive mediated performances, interactive installations, embodied user-based experiences, and user-manipulated virtual environments. GE: Engineering Be Creative. Same as THTR:3880.

DANC:3885 Repertory Dance Company 0-4 s.h.
Advanced repertory studies; learning and performing multiple works by professional guest artists, faculty, and invited graduate students; collaborative creation and performing in community outreach lecture-demonstration throughout Iowa and the region. Requirements: audition.
DANC:3890 Producing and Directing Digital Video 3 s.h.
Introduction to the basic concepts, theories, and practical applications of digital video production for multiple distribution streams, with a focus on aesthetic and technical principles; focus on developing proficiency in contemporary approaches to digital media production by understanding the production pipeline, from ideation to preproduction, production, postproduction, and through to distribution. GE: Engineering Be Creative. Same as THTR:3890.

DANC:3895 Performing with New Technologies 3 s.h.
Survey of major technological innovations that have deeply impacted society and live performance in the late 20th and early 21st century, and the future of the rapidly evolving technological world; students examine theoretical texts and performances that address the impact of technology on the human condition, as well as create original applied live performances and installations; a variety of technologies are explored and adapted for live performance as they relate to the following five categories of original human experience—telepresence, liveness, artificial intelligence, augmented and virtual reality, and transhumanism. Same as THTR:3895.

DANC:4030 Major Ballet III 1-2 s.h.
Advanced training in ballet technique and performance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body. Requirements: audition or promotion to determine placement.

DANC:4034 Ballet Pointe I 1 s.h.
Intermediate/advanced techniques and training for ballet pointe work; barre and center exercises to strengthen feet/legs/back and ensure proper alignment; review of basic ballet vocabulary; pirouettes and turns commonly performed en pointe; learning and performing variations drawn from repertory. Requirements: significant ballet experience.

DANC:4035 Ballet Pointe II 1-2 s.h.
Intermediate/advanced techniques and training for ballet pointe work; repetition and analysis of steps and combinations, assimilation of new material; barre and center exercises, pirouettes and turns commonly performed en pointe, learning and performing variations drawn from repertory.

DANC:4040 Major Modern Dance III 1-2 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range; may include partnering exercises for investigation of weight exchange, timing, expressivity. Requirements: audition or promotion to determine placement.

DANC:4060 The Contemporary Dance Scene 3 s.h.
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research. Same as DPA:4060.

DANC:4350 Choreography III 2 s.h.
Continuation of DANC:3250; increased emphasis on invention, clarity, sophistication, and development of complete works; creation of sharply defined mature movement worlds; increasingly thorough consideration of sources and methods, responsibility for applying course work to self-defined artistic concerns and emerging individual aesthetic; advanced theories and methods through video, reading, choreographic research. Prerequisites: DANC:2050 and DANC:3250.

DANC:4451 Choreography IV Rehearsal Lab 1-4 s.h.
Participation in rehearsals, showings, and concert rehearsals and performances; for undergraduate dancers who have been selected through audition for roles in creative research. Requirements: audition and selection by a student choreographer.

Participation in rehearsals, showings, adjudication, concert rehearsals and performances; for undergraduate dancers who have been selected through audition for graduate independent projects conducted by graduate students enrolled in DANC:6990. Requirements: audition and selection by a M.F.A. student creating a piece for adjudication, showing, and/or performances.

Participation in rehearsals, showings, adjudication, and concert rehearsals and performances; for graduate dancers who have selected through audition for graduate M.F.A. thesis concerts conducted by graduate students. Requirements: audition and selection by M.F.A. student creating a piece for thesis concert.

DANC:4535 Elementary Ballet Pedagogy 3 s.h.
Methods, materials, concepts for teaching ballet techniques.

DANC:4540 Major Contemporary Dance IV 1 s.h.
Professional technique and performance training in contemporary dance.

DANC:4545 Teaching of Modern Dance 3 s.h.
Practices of teaching modern dance; information and experience for developing an individualized approach to teaching; educational methodology for defining essential elements of a modern class, approaches for planning and structuring classes.

DANC:4880 Dance Gala Performance 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concerts. Requirements: audition and/or concert adjudication.

DANC:4881 Collaborative Dance Performance 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4882 Graduate/Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4883 Faculty/Graduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4884 Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.
DANC:4885 M.F.A. Thesis Concert 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4886 B.F.A. Event 0-4 s.h.
Rehearsal hours and performance of dance works in produced dance concert. Requirements: audition and/or concert adjudication.

DANC:4980 Senior Seminar in Dance 2 s.h.
Designed to foster current and future pursuits and helps students make the transition from college to careers in the professional dance world; résumé building and personal marketing; how to make the most of auditions, internships, and company intensives; artist portfolios, grant writing skills, arts administration strategies; opportunities for graduate study; instructors mentor independent projects in students' areas of specialization; for advanced B.A. and B.F.A. students who are interested in professional dance careers as artists/educators.

DANC:4990 Independent Study arr.
Credit for an individual student-designed project coordinated with a faculty advisor. Requirements: sophomore or higher standing.

DANC:4991 Independent Choreography arr.
Credit for creation of independent choreographic project, developed under guidance of faculty advisor, that results in production of a dance work.

DANC:4995 Honors Studies in Dance arr.
Choreography, performance, production, Labanotation, dance history, or pedagogy. Prerequisites: a minimum g.p.a. of 3.33. Requirements: g.p.a. of 3.33 or higher.

DANC:4998 B.F.A. Senior Project in Dance arr.
Senior year choreographic/performance capstone to complete B.F.A. in dance under supervision of faculty advisor; culminates in public showing or produced concert. Requirements: admitted to B.F.A. program in dance and senior standing.

DANC:4999 Honors Project in Dance arr.
Research, choreographic, reconstruction, or performance project under guidance of a faculty advisor. Requirements: senior standing.

DANC:5050 Graduate Improvisation I 1-2 s.h.
Dance improvisation.

DANC:5060 Theories of Dance and the Body 3 s.h.
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Same as DPA:5060.

DANC:5540 Graduate Majors Modern II 1-3 s.h.
High intermediate technical and performance training in modern dance; physical and mental skills necessary for more advanced work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

DANC:5550 Collaborative Performance 3-4 s.h.
Collaborative process with advanced dance artists and creative, design, and technical practitioners from varied disciplines that culminates in a devised performance for the general public; emphasis on sharing and investigating ideas, artistic intent, personal vision, and practical application. Same as DPA:5550, THTR:5610.

DANC:6030 Graduate Majors Ballet III 1-3 s.h.
Advanced ballet technique and performance training for proficient dancers; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body.

DANC:6040 Graduate Majors Modern III 1-3 s.h.
Advanced technical and performance training in modern dance; physical and mental skills necessary for professional work—physical stamina, strength, flexibility, articulation, coordination, musicality, phrasing, understanding of basic physical concepts underlying clear and efficient movement, capacity to assimilate new movement material, awareness of the center of gravity and its role in mobilization and control of the body, consciousness of personal movement choices and expressive range.

DANC:6050 Graduate Improvisation II 2 s.h.
Advanced improvisation.

DANC:6060 Graduate Seminar in Dance 2 s.h.
Introduction to areas of study in dance to encourage rigorous research; preparation for artistic, academic, administrative, and socially engaged careers; topics address role of dance in society and higher education, issues of dance administration, and areas of concern to dance artists, educators, and audiences; investigation of cultural, economic, political, and historical role of dance and dance artists in Western and other social contexts; brief history of dance in higher education; current issues and trends of dance programs in higher education.

DANC:6080 Graduate Production Practicum 1 s.h.
Scenery and costume design, lighting, audio/video, publicity.

DANC:6350 Graduate Choreography III 2 s.h.
Advanced choreographic concepts, methods, and applications with focus on the creative mind and choreographic process; concepts and experiences that support development of advanced choreographic skills and innovative dances.

DANC:6450 Graduate Choreography IV 3 s.h.
Advanced choreography concepts, methods, applications.

DANC:6540 Graduate Contemporary IV 1 s.h.
Professional technique and performance training in modern dance.
DANC:6880 Dance Gala Performance 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concerts. Requirements: audition and/or concert
adjudication.

DANC:6881 Collaborative Dance Performance 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concert. Requirements: audition and/or concert
adjudication.

DANC:6882 Graduate/Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concert. Requirements: audition and/or concert
adjudication.

DANC:6883 Faculty/Graduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concert. Requirements: audition and/or concert
adjudication.

DANC:6884 Undergraduate Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concert. Requirements: audition and/or concert
adjudication.

DANC:6885 M.F.A. Thesis Concert 1-4 s.h.
Rehearsal hours and performance of dance works in produced
dance concert.

DANC:6990 Graduate Independent Choreography arr.
Credit for creation of an independent choreographic project,
developed under guidance of faculty advisor, that results in
production of a dance work.

DANC:6991 Graduate Independent Study arr.
Credit for individually designed project coordinated with a
faculty advisor.

DANC:6992 Graduate Independent Performance
Project arr.
Credit for creative participation as a performer in a
chorography project, developed under guidance of a faculty
advisor, that results in the performance of a dance work.

DANC:7550 Graduate Modern Dance Technique
Practicum 2-3 s.h.
Advanced, in-depth understanding of teaching dance
technique at the college level; emphasis on studio practice
of technique through active participation in technique
class; individualized research on technical and pedagogical
approaches to dance; taken with a faculty member during
student's teaching rotation to gain understanding of the
teacher's pedagogical approach across three levels of the
majors-level technique curriculum. Requirements: completion
of one semester of M.F.A. program and good standing.

DANC:7560 Graduate Ballet Technique
Practicum 2-3 s.h.
Advanced, in-depth understanding of teaching dance
technique at the college level; emphasis on studio practice
of technique through active participation in technique
class; individualized research on technical and pedagogical
approaches to dance; taken with a faculty member during
student's teaching rotation to gain understanding of the
teacher's pedagogical approach across three levels of the
majors-level technique curriculum. Requirements: completion
of one semester of M.F.A. program and good standing.

DANC:7990 Thesis arr.
Dance, B.A.

The Bachelor of Arts program in dance is designed for students who want to acquire a strong liberal arts and sciences background while pursuing a comprehensive undergraduate dance education. The dance major stresses performance and choreography as well as dance theory, dance history, dance kinesiology, and dance production.

Auditions for B.A. Admission

An audition is required to be considered for the B.A. program, as well as for placement in dance classes. An online application is required in order to audition; see "Application" under Undergraduate Auditions on the Department of Dance website. Contact the Department of Dance for more information or questions about auditions.

Requirements

The Bachelor of Arts with a major in dance requires a minimum of 120 s.h., including 56 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program.

In planning course work, especially electives, students may apply a maximum of 61 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the B.A. degree. At least 28 s.h. in major course work must be earned at the University of Iowa. Any grades earned for course work are calculated in the grade-point average.

The B.A. with a major in dance requires the following course work.

### Core Courses

### Distribution Areas

Students must complete at least one course from each of the following two areas. These courses may satisfy multiple requirements for the major.

### Dance Technique Courses

Students must complete at least two semesters of one of these: DANC:3530 Major Ballet II, DANC:3540 Major Modern Dance II, DANC:4030 Major Ballet III, DANC:4040 Major Modern Dance III, or DANC:4540 Major Contemporary Dance IV with grades of B-minus or higher.

### Distribution Areas

Students must complete at least one course from each of the following two areas. These courses may satisfy multiple requirements for the major.
**Global Dance Studies**

One of these:

- DANC:1085/ DPA:1085 Introduction to Afro-Caribbean Dance Techniques 2
- DANC:1150/ LAS:1150 Brazilian Culture and Carnival 3
- DANC:2065 Performing Crisis: Dances of Identity, Witness, and Resistance 3
- DANC:3010 Topics in Global Dance Techniques 2

**Digital Performing Arts**

One of these:

- DANC:3050/ INTM:3050 Body/Image: Dance and Media in Discourse and Practice 3
- DANC:3875/ THTR:3875 Topics in Digital Performing Arts 2
- DANC:3880/ THTR:3880 Installations and Interactive Performance 3
- DANC:3890/ THTR:3890 Producing and Directing Digital Video 3
- THTR:3876/ CINE:3876 Video for Performance 3

**Dance Electives**

The required number of semester hours in dance electives varies depending on whether a student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

**Honors**

**Honors in the Major**

Students have the opportunity to graduate with honors in the major. The honors program in dance serves and recognizes outstanding students in choreography, performance, and special projects. Honors students must have a g.p.a. of at least 3.50 in University of Iowa Department of Dance courses.

Students must complete 8-10 s.h. of honors work by taking two courses for honors credit and completing an honors project. Honors projects must be approved by Department of Dance faculty.

**University of Iowa Honors Program**

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

**Academic Plans**

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Department of Dance course work beyond 61 s.h. for B.A. students does not apply toward semester hours required for graduation.

**Before the third semester begins:** 12 s.h. of course work in the major

**Before the fifth semester begins:** 24-32 s.h. of course work in the major

**Before the seventh semester begins:** 36-48 s.h. of course work in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 42-50 s.h. of course work in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Sample Plan of Study**

**Dance (B.A.)**

---

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

Careers for dance majors include professional work as performers, choreographers, dance educators, and involvement in related areas such as arts management, technical theater, dance scholarship, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field, such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Dance, B.F.A.

The B.F.A. program in dance is designed to provide a comprehensive dance education that integrates rigorous technical practice, creative research in choreography, performance and production, and theoretical and historical inquiry. As in-depth dance study converges with other academic disciplines, students acquire the knowledge and skills to further the arts in society, and to flourish as participants in diverse dance fields.

Auditions for B.F.A. Admission

An audition is required to be considered for the B.F.A. program, as well as for placement in advanced dance classes.

Audition materials required include a B.F.A. audition application, two letters of recommendation (one academic, one dance), and current transcripts; see "Application" under Undergraduate Auditions on the Department of Dance website. Students who audition will be required to perform a two minute solo on audition day; it may be self-choreographed or be choreographed by someone else, usually a teacher or mentor.

Contact the Department of Dance for more information or questions about auditions.

Requirements

The Bachelor of Fine Arts with a major in dance requires a minimum of 120 s.h., including 81 s.h. of work for the major (78 s.h. in dance course work and a 3 s.h. anatomy course). Students must maintain a g.p.a. of at least 3.50 in all courses for the major and in all UI courses for the major. Students must earn at least half of their semester hours in the major at the University of Iowa. They also must complete the College of Liberal Arts and Sciences General Education Program.

In planning course work, especially electives, students may apply a maximum of 82 s.h. in Department of Dance courses (prefix DANC) toward the minimum 120 s.h. required for the B.F.A. degree. Any grades earned for course work are calculated in the grade-point average.

In contrast to the B.A. in dance, the B.F.A. program emphasizes choreography and performance. It requires an additional 22 s.h. of choreography, performance, and technique. Students who did not audition for the B.F.A. program prior to entrance to the University of Iowa may subsequently apply for admission to the program. The strongest candidates are those who have achieved the equivalent of major II technique and show academic and professional promise.

The B.F.A. with a major in dance requires the following course work.

</tbody>
</table>

Core Courses

All of these:

- DANC:1060 Introduction to Dance Studies 1
- DANC:1080 Music Essentials for Dance 2
- DANC:1090 Dance Production 3
- DANC:2060/DPA:2060 Dance and Society in Global Contexts 3
- DANC:2220 Production Run Crew (2 s.h. required) 2
- DANC:3060 Dance History 3
- DANC:3070 Dance Kinesiology 3
- DANC:4980 Senior Seminar in Dance 2
- HHP:1100 Human Anatomy 3

Studio Courses

All of these:

- DANC:2050 Improvisation I 2
- DANC:3150 Choreography I 2
- DANC:3250 Choreography II 2
- DANC:4350 Choreography III 2

Performance and Creative Research Courses

6 s.h. from these (no more than 3 s.h. of DANC:3885 will count toward the requirement):

- DANC:3251 Choreography II Rehearsal Lab 1-4
- DANC:3885 Repertory Dance Company 1-4
- DANC:4451 Choreography IV Rehearsal Lab 1-4
- DANC:4880 Dance Gala Performance 1-4
- DANC:4881 Collaborative Dance Performance 1-4
- DANC:4882 Graduate/Undergraduate Concert 1-4
- DANC:4883 Faculty/Graduate Concert 1-4
- DANC:4884 Undergraduate Concert 1-4
- DANC:4885 M.F.A. Thesis Concert 1-4
- DANC:4886 B.F.A. Event 1-4

Dance Technique Courses

32 s.h. from these, including three semesters of either DANC:4030 or DANC:4540 with a grade of B-minus or higher, 14 s.h. of ballet, and 14 s.h. of modern dance:

- DANC:1085/DPA:1085 Introduction to Afro-Caribbean Dance Techniques 2
- DANC:3030 Major Ballet I 3
- DANC:3040 Major Modern Dance I 3
- DANC:3530 Major Ballet II 1-2
- DANC:3540 Major Modern Dance II 1-2
- DANC:3850/DPA:3850/MUS:3850 Introduction to Laban Movement Studies 2
DANC:3851/ DPA:3851/ MUS:3851
Introduction to the Alexander Technique 3

DANC:3852
Awareness Through Movement 2

DANC:4030
Major Ballet III 1-2

DANC:4035
Ballet Pointe II 1

DANC:4040
Major Modern Dance III 1-2

DANC:4540
Major Contemporary Dance IV 1

Distribution Areas
Students must complete at least one course from each of the following two areas. These courses may satisfy other requirements for the major.

Global Dance Studies
One of these:
DANC:1085/ DPA:1085
Introduction to Afro-Caribbean Dance Techniques 2

DANC:1150/ LAS:1150
Brazilian Culture and Carnival 3

DANC:2065
Performing Crisis: Dances of Identity, Witness, and Resistance 3

DANC:3010
Topics in Global Dance Techniques 2

Digital Performing Arts
One of these:
Digital Arts: An Introduction 3

DANC:3050/ INTM:3050
Body/Image: Dance and Media in Discourse and Practice 3

DANC:3875/ THTR:3875
Topics in Digital Performing Arts 2

DANC:3880/ THTR:3880
 Installations and Interactive Performance 3

DANC:3890/ THTR:3890
Producing and Directing Digital Video 3

DANC:3895/ THTR:3895
Performing with New Technologies 3

THTR:3876/ CINE:3876
Video for Performance 3

Dance Specialization Areas
Students choose advanced-level elective course work by selecting one of the following three options.

Option 1—Pedagogy
One of these:
DANC:4535
Elementary Ballet Pedagogy 3

DANC:4545
Teaching of Modern Dance 3

Option 2—Advanced History or Theory
One of these:
DANC:4060/ DPA:4060
The Contemporary Dance Scene 3

DANC:5060/ DPA:5060
Theories of Dance and the Body 3

Option 3—Choreography
Both of these:
DANC:4991
Independent Choreography 1

DANC:6450
Graduate Choreography IV 3

Dance Electives
The required number of semester hours in dance electives varies depending on whether a student completes the core with dance courses or with cross-listed courses from another department, or has a core requirement waived.

Senior Project
Students culminate their experience with senior projects in choreography or performance. They may earn honors credit for this project by enrolling in DANC:4999 Honors Project in Dance (enrollment requires membership in the University of Iowa Honors Program or special permission from the instructor). Other students must complete DANC:4998 B.F.A. Senior Project in Dance.

One of these:
DANC:4998
B.F.A. Senior Project in Dance arr.

DANC:4999
Honors Project in Dance arr.

Honors in the Major
Students have the opportunity to graduate with honors in the major. The honors program in dance serves and recognizes outstanding students in choreography, performance, and special projects. Departmental honors students must have a g.p.a. of at least 3.50 in University of Iowa Department of Dance courses.

Students must complete 8-10 s.h. of honors work by taking two courses for honors credit and completing an honors project. Honors projects must be approved by Department of Dance faculty.

University of Iowa Honors Program
In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the dance major.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.
Before the third semester begins: 16 s.h. of course work in the major

Before the fifth semester begins: 25-40 s.h. of course work in the major

Before the seventh semester begins: 45-60 s.h. of course work in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 57-75 s.h. of course work in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Total Hours 125-142

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.
Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Career Advancement

Careers for dance majors include professional work in performing, choreography, education, private teaching, and related areas such as arts management, technical theater, or dance and physical therapy. Many graduates from the UI dance program are currently working in arts organizations throughout the United States.

The discipline and creative challenges of dance training transfer well to other careers. Students have combined dance with a second major in another field, such as business or communication.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Dance, Minor

The undergraduate minor in dance requires a minimum of 15 s.h. in University of Iowa Department of Dance courses. Students must maintain a cumulative g.p.a. of 3.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/non pass.

Auditions for Admission to the Minor

An audition is required to be considered for the minor in dance, as well as for placement in dance classes. An online application is required in order to audition; see “Application” under Undergraduate Auditions on the Department of Dance website. Contact the Department of Dance for more information or questions about auditions.

The minor in dance requires the following course work. Students must complete all prerequisites for the courses they choose for the minor.

Dance, M.F.A.

The Master of Fine Arts program in dance is offered with a choice of choreography or performance emphasis. Students must audition on campus in order to be admitted to the M.F.A. program.

Requirements

The Master of Fine Arts program in dance requires a minimum of 60 s.h. of graduate credit. The program is designed to be completed in four to six semesters in residence.

Students who demonstrate accomplishment in dance performance and/or choreography may apply for admission to the M.F.A. program. Applicants select the choreography or the performance emphasis before they are admitted.

The M.F.A. with a major in dance requires the following course work.

Dance Core

A total of 19 s.h. of core course work is required for both the choreography and the performance emphasis.

One of these:
DANC:4535 Elementary Ballet Pedagogy 3
DANC:4545 Teaching of Modern Dance 3
All of these:
DANC:5060/DPA:5060 Theories of Dance and the Body 3
DANC:6050 Graduate Improvisation II 2
DANC:6060 Graduate Seminar in Dance 2
DANC:6080 Graduate Production Practicum 1
DANC:7990 Thesis (8 s.h. required) 8

Dance Technique

Choreography emphasis students select 9 s.h. from the following; performance emphasis students select 18 s.h.

DANC:3030 Major Ballet I 3
DANC:3040 Major Modern Dance I 3
DANC:5530 Graduate Majors Ballet II 1-3
DANC:5540 Graduate Majors Modern II 1-3
DANC:6030 Graduate Majors Ballet III 1-3
DANC:6040 Graduate Majors Modern III 1-3
DANC:6540 Graduate Contemporary IV 1
DANC:7550 Graduate Modern Dance Technique Practicum 2-3
DANC:7560 Graduate Ballet Technique Practicum 2-3

Emphasis Courses

Choreography emphasis students select 17 s.h. from the following, as indicated below; performance emphasis students select 14 s.h. from the following, as indicated below.

Choreography Emphasis
2 s.h. from these (1 s.h. for each performance):
DANC:6880 Dance Gala Performance 1-3
DANC:6881 Collaborative Dance Performance 1

Electives

Choreography emphasis students select 15 s.h. of electives, including one course each from the dance academic and digital performing arts area; performance students select 9 s.h., including one course each from the dance academic and digital performing arts area. All dance elective courses must be numbered at the 3000-level or above and subject to graduate advisor approval.

Dance Academic Courses
One of these:
DANC:3060 Dance History 3
DANC:3070 Dance Kinesiology 3
DANC:4060/DPA:4060 The Contemporary Dance Scene 3

Digital Performing Arts
One of these:
DANC:3050/INTM:3050 Body/Image: Dance and Media in Discourse and Practice 3
DANC:3875/THTR:3875 Topics in Digital Performing Arts 2
DANC:3880/THTR:3880  Installations and Interactive Performance  3
DANC:3890/THTR:3890  Producing and Directing Digital Video  3
THTR:3876/CINE:3876  Video for Performance  3

**Additional Electives**
Dance courses numbered 3000 or above; consult advisor

**Admission**
Admission is based on a review of recorded choreographic and performance work, letters of recommendation, application materials, and an on-campus audition in which applicants perform a solo dance, teach one or more classes, and take advanced classes in ballet and modern technique to determine class placement level.

Advanced technique (ballet and/or modern) and demonstrated accomplishment in performance or choreography are prerequisites for admission to the M.F.A. program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

**Career Advancement**
Graduates of the M.F.A. program are successful in pursuing professional careers in performance, choreography, and teaching in secondary and/or higher education.
Disability Studies

Chair, Department of Health and Human Physiology
• Warren G. Darling
Coordinator, Disability Studies
• Kenneth E. Mobily

Undergraduate certificate: disability studies
Website: https://clas.uiowa.edu/hhp/undergraduate/disability-studies-certificate

Disability studies examines disability as a social, cultural, historical, and political phenomenon rather than focusing on its clinical, medical, or therapeutic aspects. It is an interdisciplinary and multidisciplinary field that draws on scholarship from diverse disciplines, including anthropology, architecture, the arts, communication and media studies, cultural studies, economics, gender studies, geography, global studies, history, law, literature, medicine, nursing, philosophy, policy studies, political science, religious studies, social work, and sociology.

The certificate program helps students expand their knowledge and awareness of disability issues and prepare for careers in public life. Students who complete the certificate develop:

• understanding of the history of disabilities in America;
• awareness of how culture and society define disability;
• the ability to interact with individuals from diverse backgrounds;
• a personal philosophy of treating people fairly, equitably, and thoughtfully; and
• greater understanding of and concern with public policy issues and active citizenship.

Its multidisciplinary nature makes disability studies a good complement to a broad range of undergraduate majors.

The certificate program in disability studies is administered by the Department of Health and Human Physiology [p. 528].

Programs

Undergraduate Program of Study
Certificate
• Certificate in Disability Studies [p. 319]

Courses

Disability Studies Courses

DST:3102 Culture and Community in Human Services 2-3 s.h.
Influence of social issues (e.g., diversity, equity) on human services; values, beliefs, lifestyles, and attitudes of individuals and diverse groups found in a pluralistic society; recognition of dehumanizing biases and their impact on interpersonal relations; translation of knowledge of culture into attitudes, skills, and techniques that result in favorable experiences for human services consumers; recognition of ways in which dehumanizing biases may be reflected in everyday encounters and understanding how these interactions may influence populations served by human service practitioners.

DST:1101 Introduction to Disability Studies 3 s.h.
Introduction and overview of important topics and discussions that pertain to the experience of being disabled; contrast between medical and social construction models of disability; focus on how disability has been constructed historically, socially, and politically in an effort to distinguish myth and stigma from reality; perspective that disability is part of human experience and touches everyone; interdisciplinary with many academic areas that offer narratives about experience of disability. GE: Diversity and Inclusion.
Disability Studies, Certificate

The undergraduate Certificate in Disability Studies requires a minimum of 19 s.h. of credit. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

The Certificate in Disability Studies requires the following course work:

Core Courses

Students earn 11 s.h. by taking the following four core courses.

All of these:
- DST:1101 Introduction to Disability Studies 3
- EDTL:4967 Integrated Disability Studies Practicum 2
- HIST:4203 Disability in American History 3

And one of these:
- EDTL:4940 Characteristics of Disabilities 3
- TR:3162 Therapeutic Recreation: Clientele 3

Focused Electives

Students earn a minimum of 8 s.h. in focused electives, which they select from courses in at least two of the following lists (maximum of 6 s.h. from any one list). They may count a maximum of 3 s.h. earned in courses numbered below 3000 toward this requirement.

Aging and Longevity Studies
- ASP:3135/ GHS:3050/ SSW:3135 Global Aging 3
- ASP:3150 Psychology of Aging 3

American Sign Language
- ASL:3200 Topics in Deaf Studies 3
- ASL:3300 American Deaf Culture 3
- ASL:3400 Issues in ASL and Deaf Studies 3
- ASL:3500 Deafness in the Media 3
- ASL:3600 American Sign Language Literature 3
- ASLE:3905/ EDTL:3905 Teaching Deaf and Hard of Hearing Students 3-4

American Studies
- AMST:2025 Diversity in American Culture 3

Anthropology
- ANTH:3102/ CBH:3102/ GHS:3102 Medical Anthropology 3

Communication Sciences and Disorders
- CSD:1015 Introduction to Speech and Hearing Processes and Disorders 2
- CSD:1200 Intellectual and Developmental Disabilities 3
- CSD:3185 Hearing Loss and Audiology 3
- CSD:4145 Developmental Language Disorders 3
- CSD:4147 Neurogenic Disorders of Speech 2
- CSD:4165/ASP:4165 Communication Disorders and Aging 2
- CSD:5206 Language Disorders: Birth to Five Years 3
- CSD:5233 Aphasia 2
- CSD:5234 Acquired Cognitive-Communication Disorders arr.
- CSD:5303 Communication/Social Interaction for Individuals with Autism 1

Computer Science
- CS:4980 Topics in Computer Science II (when topic is research and development of accessible computing technologies) 3

Disability Studies
- DST:3102 Culture and Community in Human Services 2-3

Education
- EDTL:3130 Adaptive Physical Education for the Elementary Classroom Teacher 2
- EDTL:4900 Foundations of Special Education 3
- EDTL:4921 Transition and Related Issues 3
- EDTL:4950 Behavioral and Social Interventions 3
- EDTL:4990 Interdisciplinary Issues in Disabilities 1-3
- EDTL:7948 Contemporary Research in Behavioral Disorders 3
- EPLS:4180 Human Relations for the Classroom Teacher 3
- RCE:4195 Ethics in Human Relations and Counseling 3
- RCE:4197 Citizenship in a Multicultural Society 3

Geography
- GEOG:3110/ GHS:3111 Geography of Health 3

Health and Human Physiology
- HHP:2200 Physical Activity and Health 3

History
- HIST:4201/ASL:4201 History of the American Deaf Community 3-4

Music
- MUS:1687 Orientation to Music Therapy 2
- MUS:3680 Music in Special Education 2-3

Division of Interdisciplinary Programs

Director
• Helena R. Dettmer

Website: https://clas.uiowa.edu/interdisciplinary-programs/

The Division of Interdisciplinary Programs includes seven academic units: Enterprise Leadership, Global Health Studies, Interdepartmental Studies, International Studies, Latin American Studies, Latina/o Studies, and the Magid Center for Undergraduate Writing.

Of all the academic units within the division, four offer B.A. degrees, one offers a B.S. degree, four offer a minor, and three offer a certificate.

Enterprise Leadership [p. 383] provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. It is designed to prepare students for career success—whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business one day. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership. Enterprise Leadership offers a B.A. degree.

The Global Health Studies [p. 511] Program examines the processes influencing health and disease around the world. It considers not only the manifestations of significant diseases and public health and health care systems, but also the underlying forces and institutions—such as technology, politics, culture, legal structure, history, and economics—that collectively influence patterns of health and disease. This program offers a B.A. degree, a B.S. degree, a minor, and an undergraduate and graduate certificate.

Interdepartmental Studies [p. 590] provides an alternative to traditional undergraduate majors. It gives students the opportunity to design an individualized plan of study or to choose a preapproved plan in applied human services, business studies, or health science. Each track includes course work from a variety of departments. Interdepartmental Studies offers a B.A. degree.

International Studies [p. 627] is designed to help students learn to appreciate world cultures, focus on themes of global significance, and master varied disciplinary approaches used to study international issues. The program complements a wide range of academic degree programs and is an appropriate choice for many students who plan to pursue a double major. International Studies offers a B.A. degree and an undergraduate minor.

The Latin American Studies [p. 674] Program focuses on the history, politics, social organization, economy, geography, music, religion, art, and literature of Central and South America, Mexico, the Caribbean, and the United States, drawing on faculty expertise in a range of academic areas. This program offers a minor and an undergraduate certificate.

Latina/o Studies [p. 680] offers an interdisciplinary perspective on the history, culture, politics, and experiences of Latina/o populations in the United States. Latina/o Studies introduces the peoples that have a long-term presence in the United States and in the Midwest and who are increasingly neighbors, classmates, and coworkers. This program offers an undergraduate minor.

The Magid Center for Undergraduate Writing [p. 695] offers the undergraduate Certificate in Writing. The certificate program allows students to explore writing and develop their skills in a wide range of genres and for varied purposes, including creative writing (fiction, nonfiction, poetry); writing for the professions, such as the arts, business, journalism, or science; writing for organizations; and writing related to personal interests.
Division of Performing Arts

Director

- Alan MacVey

Website: https://dpa.uiowa.edu/

The Division of Performing Arts includes the Department of Dance [p. 301], the School of Music [p. 729], the Department of Theatre Arts [p. 958], and the Certificate in Arts Entrepreneurship [p. 121]. The division fosters interdisciplinary collaboration among these units, coordinates artistic and academic activities, and sponsors a full array of performances and symposia. Performances are supported by professional staff in the division's Performing Arts Production Unit.

Each of the division's individual academic units offers undergraduate and graduate courses and degree programs in creative, performance, scholarly, and theoretical areas. Together they present an extensive schedule of dance productions, faculty and student recitals, ensemble concerts, and mainstage and gallery theater productions. The division also collaborates with the arts outreach program, Arts Share.

For information about the division and its programs and events, visit the Division of Performing Arts website.

Courses

Division of Performing Arts Courses

DPA:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

DPA:1085 Introduction to Afro-Caribbean Dance Techniques 2 s.h.
Exploration of African traditional dance form evolution through movement; movement vocabulary of principle dances and their musical structures; dance and cultural histories; class sessions include warm up, progressions across the floor, and execution of traditional Caribbean dances (e.g., Yanzalou from Haiti, Orisha dance from Cuba, Brazil and Soca social dance from Trinidad). Same as DANC:1085.

DPA:1412 The Arts in Performance 3 s.h.

DPA:1800 World of the Beatles 3 s.h.
How the Beatles' music was influenced by American pop music, the drug culture, and the avant-garde, nonwestern instruments and philosophy, anti-war sentiments, world politics, and so forth; Beatlemania's impact on British and American cultures and its role in opening Eastern Europe to the West. GE: Literary, Visual, and Performing Arts. Same as MUS:1800.

DPA:2060 Dance and Society in Global Contexts 3 s.h.
Dance and other physical endeavors as embodied forms of knowledge and culture; U.S. dance practices; European and African dance cultures; aesthetic and political issues raised by concert dance (i.e., performance, choreography, spectatorship, criticism); ethnographic methods to examine the function of dance in cultural formation (i.e., spiritual, celebratory, social, political contexts); lecture, discussion, viewing, movement workshops, formal and informal writing, field research, and BLOG construction. GE: Engineering Be Creative; Literary, Visual, and Performing Arts. Same as DANC:2060.

DPA:3075 Yoga Teacher Training 3 s.h.
Expansion of yoga and/or teaching knowledge; in-depth physical practice of yoga postures; basic yoga philosophy and texts; personal practice of meditation; yoga for various populations; anatomy of yoga postures; practice teaching within class structure. Corequisites: DANC:3070. Requirements: dance major and sophomore or higher standing. Recommendations: previous experience taking yoga classes. Same as DANC:3075.

DPA:3154 Introduction to Afro-Cuban Drumming 1 s.h.
Drumming, dance, songs from folkloric and ceremonial Afro-Cuban forms; emphasis on drumming; may include participation in Afro-Cuban drum and dance ensemble. Same as MUS:3154.

DPA:3210 Makeup Design for the Stage 3 s.h.
GE: Engineering Be Creative. Same as THTR:3210.

DPA:3221 Technology for the Entertainment Industry 3 s.h.
Introduction to technology skills that are at the center of the entertainment industry; programming and operating digital lighting and sound consoles, intelligent lighting systems, projection hardware and software; outdoor event rigging, metal construction, and fabrication. Same as THTR:3221.

DPA:3510 Introduction to Arts Management 3 s.h.
Nonprofit performing arts management and administrative principles; practical applications, trends in the field; focus on arts organizations and their key administrative positions. Same as INTD:3510, THTR:3510.

DPA:3520 New Ventures in the Arts 3 s.h.

DPA:3850 Introduction to Laban Movement Studies 2 s.h.
Introduction to Bartenieff Fundamentals (BF) and Laban Movement Analysis (LMA) as methods of organizing and integrating movement to support artistic goals and expanding expressive range; BF teaches body awareness, breath support, developmental patterns, ergonomically-efficient alignment, balancing of muscular strength and stretch, and coordination; LMA teaches vocabulary of expressive movement and nonverbal communication, including effort (use of energy/dynamics for expression, stamina, stress relief) and shape (how posture and gesture communicate); quality of movement that supports individual goals in artistic expression, sound production, and wellness. Same as DANC:3850, MUS:3850.
**DPA:3851 Introduction to the Alexander Technique**  
3 s.h.  
The Alexander Technique and "self-use"—how movement choices affect results achieved; improvement of physical skills and presence; principles in support of performing arts (e.g., speaking, singing, playing an instrument, dancing, acting); application to skills in daily life, addressing underpinnings of movement; physical participation (e.g., lying down, rolling, sitting, standing, locomotion). Same as DANC:3851, MUS:3851.

**DPA:4060 The Contemporary Dance Scene**  
3 s.h.  
Historical, theoretical, and practical elements of contemporary dance; the term "postmodern" and its associations with dance, performing arts, contemporary culture; relationships between process and product, identity and subjectivity, artistic intent and authorship, meaning and intertextuality; possibility of art as a form of dissent; theory and practice placed in a dialectic; analysis and synthesis of previous research. Same as DANC:4060.

**DPA:4510 Arts Leadership Seminar**  
3 s.h.  
Performing arts management and administrative principles, practical applications, trends in arts leadership and advocacy. Prerequisites: THTR:3510 or ENTR:2000 or THTR:3520. Same as ENTR:4510, INTD:4510, THTR:4510.

**DPA:5060 Theories of Dance and the Body**  
3 s.h.  
Theoretical trends in studies of dance and physical bodies; performative and choreographic aspects of being. Same as DANC:5060.

**DPA:5550 Collaborative Performance**  
3-4 s.h.  
Collaborative process with advanced dance artists and creative, design, and technical practitioners from varied disciplines that culminates in a devised performance for the general public; emphasis on sharing and investigating ideas, artistic intent, personal vision, and practical application. Same as DANC:5550, THTR:5610.
Division of World Languages, Literatures, and Cultures

Director
- Russell Ganim

Faculty: https://clas.uiowa.edu/dwllc/people
Website: https://clas.uiowa.edu/dwllc/

The Division of World Languages, Literatures, and Cultures includes several academic units: the Departments of Asian and Slavic Languages and Literatures, French and Italian, German, Linguistics, and Spanish and Portuguese, and the programs in American Sign Language, Comparative Literature, Second Language Acquisition, and Translation. An undergraduate minor is offered in translation for global literacy and a graduate certificate in literary translation. In addition to providing administrative leadership for all of its units, the division fosters interdisciplinary scholarship in languages, literatures, and cultures. It encourages synergy and collaboration among its faculty and enhances opportunities for cross-cultural course development and research.

Undergraduate and graduate programs in the division serve students with varied interests and career aspirations. Students are educated to become global citizens who understand and are understood by diverse populations. They are trained to be critical thinkers and problem solvers who are also capable scholars, lucid writers, and proficient speakers.

The division offers instruction in numerous fields related to language, literature, and culture.
- American Sign Language [p. 39] Program: American Sign Language and Deaf Studies
- Department of Asian and Slavic Languages and Literatures [p. 123]: Chinese, Hindi, Japanese, Korean, Russian, Sanskrit
- Department of French and Italian [p. 420]: Arabic, French, Italian, Swahili
- Department of Linguistics [p. 683]: linguistics
- Department of German [p. 501]: German
- Department of Spanish and Portuguese [p. 915]: Portuguese, Spanish

The Division of World Languages, Literatures, and Cultures also serves as the administrative home for Comparative Literature [p. 264], Literary Translation [p. 693], Second Language Acquisition [p. 869], and Translation [p. 971].

The Department of Linguistics [p. 683] provides scientific study of familiar languages, as well as less well-known languages. The division's Second Language Acquisition [p. 869] Program brings multidisciplinary resources together to examine the processes that underlie non-native-language learning. The Translation [p. 971] Program explores the literary, cultural, and historical contexts of work and their linguistic, aesthetic, and ideological dimensions while it builds skills for translating works from one language to another. The Comparative Literature [p. 264] Program addresses culture across regions and languages in relation to literature, social theory and philosophy, history, and other disciplines. The minor in Translation for Global Literacy [p. 975] introduces undergraduate students to the exploration of translation both as a practical application and as a tool for global literacy. The graduate Certificate in Literary Translation [p. 693] offers students the opportunity to develop stronger competencies in translation as a method of scholarly inquiry and pedagogy, and the advantage of the ongoing synergy between creative writing and literary translation.

Facilities

The Language Media Center (LMC) is an essential resource unit for faculty and students in the Division of World Languages, Literatures, and Cultures. The LMC offers facilities and services for traditional language laboratory work as well as for foreign language video and computer-based activities. LMC facilities and services include a 50-computer information technology center (Windows and Macintosh), two digital audio laboratories, a multimedia development studio, a One Button Studio for video recording with Open Broadcaster Software (OBS), 13 media viewing stations, and six small-group rooms. The LMC also circulates a collection of over 3,000 foreign language, English as a Second Language, and American Sign Language digital media materials.

Courses

World Languages, Literatures, and Cultures Courses

WLLC:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first-semester standing.

WLLC:1100 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:1100, GHS:1100, GRMN:1100, GWSS:1100.

WLLC:1355 Approaches to Global Cultural Studies 3 s.h.
Framework for thinking about global perspectives on culture; examination of themes within a transnational context; analysis of cultural expression from national and linguistic contexts.

WLLC:2248 The Invention of Writing: From Cuneiform to Computers 3 s.h.
Invention of writing as one of the most momentous events in the history of human civilizations; how the use of written sign systems, notations, maps, graphs, encryptions, and most recently, computer programs have consequences that reach deeply into all aspects of people's lives; how writing fascinates and delights, fosters reflexive thinking and facilitates development of complex societies, and gives rise to institutions of social power and control; students explore the invention of writing and its consequences in broad international and interdisciplinary context. Same as ANTH:2248, ASIA:2248, CL:2248, CLSA:2048, COMM:2248, HIST:2148, IS:2248, LING:2248.
WLLC:2550 Mardi Gras and More: Cultures of Carnival 3-4 s.h.
Literature and customs associated with carnival from antiquity through present day; readings on theories of carnivalesque (Mikhail Bakhtin, Peter Burke, and others); materials from three distinct carnival cultures—Renaissance Europe (Francois Rabelais, German carnival plays), 19th-century New Orleans, and present day Rio de Janeiro. GE: Values and Culture. Same as GRMN:2550.

WLLC:3185 Global Women's Cinema 3 s.h.
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as GWSS:3185.

WLLC:3191 International Literature Today 1,3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3595, IWP:3191.

WLLC:3700 Topics in Global Cinema 3 s.h.
Identification of new models and methods to investigate cinema's relationship to current global issues beyond traditional scholarly focus in Western Europe and the United States; exploration of an emerging field, moving away from the paradigm of national cinema and bringing together shared theoretical frameworks while acknowledging different historical and cultural contexts. Same as ASIA:3700, JPN:3700, TRNS:3700.

WLLC:3834 Arab Spring in Context: Media, Religion, and Geopolitics 3 s.h.
Protest movements that started in Tunisia in 2011 and swept across North Africa and the Middle East transforming Arab and Islamic societies in radically different ways; function of social media, satellite television, communication technology; influence of religious leaders and groups on some protest outcomes; impact of wealth and geopolitics on social fabric of Islamic societies within and outside Arab countries. Same as IS:3834, JMC:3146, RELS:3834.

WLLC:4512 Topics in Global and Transnational Culture 3-4 s.h.
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Recommendations: completion of an international and global issues GE course. Same as ARAB:4512, GRMN:4512.

WLLC:4800 Topics in Global and Transnational Culture arr.
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; material from literature, visual arts, music, mass media, and more; general process through which cultures are formed in mutual and uneven relationships; original research project. Requirements: a general education course in international and global issues.

WLLC:4801 Seminar in Comparative Literature 3 s.h.
Focus on comparative, interdisciplinary, theoretical, and/or inter-arts topic; topics vary; required for comparative literature major. Same as CL:4800, TRNS:4800.

WLLC:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one’s language teaching. Same as FREN:5000, GRMN:5001, SLA:5000, SPAN:5000.

WLLC:5300 The Humboldt Current: Travel, Science, and the Spatial Imagination in Latin America 3 s.h.
Travel writings of environmental studies pioneer and Prussian explorer, Alexander von Humboldt, who led a five-year expedition to South America, Mexico, and Cuba in the late 18th century; his writing ushered in an idea of nature central to the Latin American imagination; topics include "Humboldtian science", the scientific traveler's persona, and rhetoric of travel; Humboldt's mapping of the Orinoco, Mexico, and the Caribbean, negotiating the tradition of European cartography with indigenous spatial practices; contribution of Humboldt's travels to a spatial imagination in Latin America; students develop an original research project. Recommendations: one graduate-level course in colonial, 19th-century Latin American literature, and/or ecocriticism and theory (this last course could be taken in related departments, such as English). Same as CL:5300, FREN:5300, SPAN:5300.

WLLC:6320 Topics in Contemporary Critical Theory 3 s.h.
Focused discussion of critical discourses and paradigms that have contributed to development of contemporary literary and cultural theory.
Earth and Environmental Sciences

Chair

- Charles "Tom" Foster Jr.

Undergraduate major: geoscience (B.A., B.S.)
Undergraduate minor: geoscience
Graduate degrees: M.S. in geoscience; Ph.D. in geoscience
Faculty: https://clas.uiowa.edu/ees/people
Website: https://clas.uiowa.edu/ees/

Faculty and students in the Department of Earth and Environmental Sciences study the physical, chemical, and biological systems of Earth. Using modern observational, analytical, and computational methods, they examine how the planet's interior, surface, hydrosphere, biosphere, and atmosphere have evolved since Earth was born in the solar system 4.6 billion years ago. Topics commonly studied in the department include how plate movements cause earthquakes, volcanoes, and mountain building; global climate change and how climate change and catastrophic events cause changes in biodiversity; mass extinctions and patterns of evolution through Earth history; how and where economic resources are generated on Earth; and how these resources are located and used in modern society.

The earth and environmental sciences curriculum provides students with hands-on experience analyzing rocks, minerals, fossils, soils, and waters, generally in a small classroom setting. Much of this experience is obtained in laboratory and field courses. Field courses include travel to other states or countries to view Earth's materials and fossils in the context of their natural surroundings.

The department offers a variety of courses appropriate for nonmajors, including several approved for the Natural Sciences requirement of the General Education Program [p. 464]; see “Courses for Nonmajors” below.

Courses for Nonmajors

Each year more than 1,800 students enroll in Department of Earth and Environmental Sciences introductory courses that are approved for General Education; look for courses with the prefix EES under "Natural Sciences" in the General Education Program [p. 464] section of the Catalog.

The department also offers the following upper-level courses with few or no prerequisites.

- EES:3020 Earth Surface Processes 3
- EES:3070 Marine Ecosystems and Conservation 3
- EES:3080 Introduction to Oceanography 2
- EES:3100 Introduction to Applied Remote Sensing 4
- EES:3210 Principles of Paleontology 3

Cooperative Activities

The department does collaborative work with the Iowa Geological Survey and the Office of the State Archaeologist of Iowa. Earth and environmental sciences students sometimes work on projects for the survey.

The Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences share services, expertise, joint instruction, and equipment. The Department of Earth and Environmental Sciences is an important participant in the Iowa Quaternary Studies group, an interdisciplinary program that promotes projects combining work in anthropology, biology, geography, geology, and statistics. Course work, degree programs, and facilities are shared among departments. The Department of Earth and Environmental Sciences and its faculty also support and actively participate in the interdisciplinary Environmental Sciences [p. 396] Program, which offers an undergraduate major and minor, and a number of the department's courses satisfy requirements of the undergraduate Certificate in Sustainability [p. 1738].

Field Trips

Field trips are integral parts of several courses in earth and environmental sciences. The geology of the Iowa City region is characterized by Quaternary glacial sediments on a largely Paleozoic sedimentary section a few hundred meters thick, overlying a Precambrian crystalline basement. Marine and terrestrial fossil assemblages, extensive reefs, and unique geode sites are located within a few hours' drive. Numerous Pleistocene glaciations are represented in Iowa, and field studies of landforms, exposures, and cores continue to yield information on sedimentology, stratigraphy, soil formation, paleopedology, and fossil biotas from both glacial and interglacial deposits.

Spring break and summer provide time for longer trips, which are open to all earth and environmental sciences students. In recent years, students have traveled to the southern Appalachians, Arizona, China, Death Valley, Dominican Republic, the Florida Keys, Hawaii, New Mexico, the Ozarks, Puerto Rico, and Texas. Advanced classes have visited California, Colorado, Kansas, Montana, Oklahoma, Wisconsin, and Ontario, Canada.

Programs

Undergraduate Programs of Study

Majors

- Major in Geoscience (Bachelor of Arts) [p. 333]
- Major in Geoscience (Bachelor of Science) [p. 336]

Minor

- Minor in Geoscience [p. 340]

Graduate Programs of Study

Majors

- Master of Science in Geoscience [p. 341]
- Doctor of Philosophy in Geoscience [p. 342]

Facilities

Resources and equipment available for research in the Department of Earth and Environmental Sciences include the following.

Computer facilities: three teaching classrooms with 10-12 networked PC workstations; a computing classroom with
20 PCs and 10 Mac workstations with GIS, GMS, remote sensing, image analysis, and specialized computational software packages; a student computer room with six PCs and two Macs; and a number of multiprocessor workstations in research laboratories.

**Electron microprobe:** JOEL JXA-8230 electron probe microanalyzer with five wavelength-dispersive spectrometers capable of quantitatively analyzing a full spectrum of elements in solid materials to a spot size as small as one micron.

**Environmental and Hydrogeology Laboratory:** permeameters and tensionometers; pumping and slug/bail test units with transducers and data-loggers; water-quality analysis facility; advanced groundwater modeling and geostatistics software; advanced data logging systems for field research; 3-D sensor arrays (wind and water systems); and facilities for field instrumentation design and construction.

**Environmental instrumentation laboratories:** storage, testing, and teaching facility focusing on field instrumentation; assembly, housing, and testing of climatic, meteorological, fluvial, water quality and associated environmental instrumentation data recording systems and sampling systems.

**Geomorphic Computing Laboratory:** high-end visualization, digitizing, remote sensing and GIS systems; and high-end multiprocessor workstations.

**Mineral Separation and Geochronology Preparation Facility:** jaw crushers, disk pulverizer, shaker table, electromagnetic separators and heavy liquid separation equipment for mineral separation; core drill apparatus and saws for removing grains from thin sections and slabs; microscopes and digital imaging for grain selection and characterization; polishing equipment for slabs, thin section stubs, and grain mounts; natural standards for co-mounting with unknowns prior to analysis at a variety of geochronology facilities.

**Morphometric laboratories:** reflex microscope and microscribe for capturing 3-D data; high-resolution digital cameras and microscopes for 2-D image analysis; and laboratories for micro- and macro-fossil preparation.

**Paleontological Repository:** more than a million specimens, including some 25,000 type and referred specimens, with 6,000-7,000 primary types; invertebrate, vertebrate, and plant fossils of all geologic ages, and more than 90 percent Paleozoic invertebrates; one of the largest university collections in North America.

**Petrology and geochemistry laboratories:** laser-ablation inductively coupled plasma mass spectrometer (LA-ICPMS); clean laboratory for preparation of samples for elemental and isotopic analysis; alpha- and gamma-spectrometry laboratories; image analysis; petrographic microscopes; photo microscopy; wet-chemistry facilities; rock preparation and mineral separation; UNIX, Windows, and Mac workstations for data analysis and modeling; and one atm gas-mixing furnace for melt inclusion homogenization.

**Quaternary Materials Laboratory:** pipette grain-size analysis apparatus; chittick apparatus; Sedigraph 5100 X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; wet-chemistry facilities; C-H-N element analyzer; a Flotech flotation system; and a Giddings drill rig.

**Scanning electron microscope:** Hitachi S-3400N, a variable-pressure scanning electron microscope (SEM) equipped with a motorized stage, large chamber, and digital image capture; capable of imaging specimens with no metal coating, or specimens that are slightly hydrated or porous, as well as conventionally processed specimens; equipped with a Bruker AXS Quantax 400 X-ray microanalysis system; XFlash silicon drift detector with excellent energy resolution and light element detection, providing ultra-fast acquisition of line scans and elemental maps; and a Gatan ChromaCL cathodoluminescence detector system for imaging grain textures.

**Sedimentary geology laboratories:** water ion chromatograph; image analysis; Sedigraph X-ray particle-size analyzer; Horiba Camsizer L digital image particle analyzer; and a soil/sediment characterization laboratory.

**Thin-Section and Rock Preparation Laboratory:** diamond saws and specialized grinding equipment used to prepare ultrathin slices (30 microns thick) of rocks and fossils for microscopic and electron microprobe analysis.

### Courses

Not all courses are offered every year.

#### Earth and Environmental Sciences Courses

**EES:1000 First-Year Seminar**
1-2 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

**EES:1021 Spring Break Service Learning Trip**
1 s.h.
Special topics, directed research.

**EES:1030 Introduction to Earth Science**
3-4 s.h.
Relationships between plate tectonics, geologic time, and the rock cycle with volcanoes and igneous, sedimentary, metamorphic rocks; fossils; radioactive isotopes; landscape evolution; mountain building; natural resources; their impacts on civilization. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as CEE:1030.

**EES:1031 Introduction to Earth Science Laboratory**
1 s.h.
Laboratory component of EES:1030. Requirements: completion of 3 s.h. in EES:1030 or CEE:1030. Same as CEE:1031.

**EES:1040 Evolution and the History of Life**
3-4 s.h.
Fossils over the past 3.5 billion years, origin and evolution of life, evolutionary radiations and mass extinctions, the invasion of land, dinosaurs, the age of mammals, relationship between biological systems and environmental change in earth history. Offered spring semesters. GE: Natural Sciences with Lab; Natural Sciences without Lab.

**EES:1050 Introduction to Geology**
4 s.h.
Minerals, rocks, and rock-forming processes (including volcanoes and sedimentary environments); surface processes (rivers, groundwater, glaciers, deserts, ocean shorelines), major earth processes (continental drift, plate tectonics, earthquakes, mountain building); impact on civilization. Offered fall semesters. GE: Natural Sciences with Lab.
EES:1060 Big Ideas: Origins of the Universe, Earth, and Life 3 s.h.
Fundamental questions (How old is the universe? What is the nature of life? How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe?) that revolve around understanding origins from different perspectives (i.e., astronomy, physics, geoscience, biology, chemistry, anthropology); work with faculty from several departments to investigate these questions; inquiry-based activities to build success in critical thinking, teamwork, effective written and oral communication; origin of the universe, biochemistry of life, and origin of life on Earth; first of a two-part sequence. Recommendations: first-year or sophomore standing. GE: Natural Sciences without Lab. Same as ASTR:1060, BIOL:1060.

EES:1061 Big Ideas: Evolution of Life on Earth and the Search for Life in the Universe 4 s.h.
How has life evolved on Earth? What are our human origins? Are there other habitable planets in the universe? These fundamental questions revolve around understanding the origins of life from different perspectives—astronomy and physics, geoscience, biology, chemistry, and anthropology; students will work together with faculty from across four different departments to investigate these questions using inquiry-based activities to build success in critical thinking, teamwork, and effective written and oral communication; second half of the origins sequence (though either course also may be taken alone). GE: Natural Sciences with Lab. Same as ANTH:1061, ASTR:1061, BIOL:1061.

EES:1070 Age of Dinosaurs 4 s.h.
Origin and evolutionary history of dinosaurs; diversity of dinosaurian groups, their geographic distributions and paleoecology; origins of flight among dinosaurs; environmental context, including other animals and plants that lived alongside dinosaurs; the so-called extinction of dinosaurs and radiation of modern forms; the role dinosaurs play in the interaction between science and the popular media. Offered fall semesters. GE: Natural Sciences with Lab.

EES:1080 Introduction to Environmental Science3-4 s.h.
Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as ENVS:1080.

EES:1085 Fundamentals of Environmental Science 4 s.h.
Interdisciplinary study of how Earth's natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Natural Sciences with Lab. Same as ENVS:1085.

EES:1090 Introduction to Environmental Sciences Laboratory 1 s.h.
Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENVS:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as ENVS:1090.

EES:1115 Big Ideas: The History and Science of Oil 3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as ENVS:1115, GEOG:1115, HIST:1115.

EES:1170 Geology of the U.S. National Parks 2 s.h.
Geologic features, geologic history, important biological and archaeological characteristics, with emphasis on features that caused certain areas to be included in national park system.

EES:1180 Geology Field Trip: Selected National Parks 2 s.h.
Observation, interpretation of prominent geologic, geomorphic, biological features; semester-break or semester-end visits to different parks or groups of parks each year. Offered spring semesters.

EES:1290 Energy and the Environment 3 s.h.
Scientific concepts related to potentially significant energy sources of the 21st century; environmental impacts, positive and negative, of each energy source as well as geologic and geographical distributions and applications. GE: Natural Sciences without Lab.

EES:1400 Natural Disasters 3 s.h.
How earth-atmosphere-hydrosphere-space systems produce events catastrophic to humans on the scale of individual lives to civilizations; root causes of earthquakes, landslides, volcanic eruptions, floods, hurricanes, tsunami, tornadoes, and asteroid impact, and their local, national, and global impact; spatial and temporal occurrences of these hazards; methods and processes for hazard preparedness, response, and recovery; social, economic, and policy aspects that affect and compound the magnitude of disasters associated with natural phenomena; case studies drawn from contemporary and ancient societies. GE: Natural Sciences without Lab.

EES:2001 Second-Year Field Trip for Earth and Environmental Sciences 1 s.h.
Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Requirements: geoscience or environmental sciences major. Same as ENVS:2001.

EES:2190 Directed Study arr.
Special topics, independent research.

EES:2200 Historical Geology 4 s.h.
Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Same as ENVS:2200.

EES:2310 Introduction to Climatology 3 s.h.
Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: GEOG:1020 or similar earth systems science course. Same as GEOG:2310.
EES:2410 Mineralogy 4 s.h.
Physical, chemical, and optical properties of minerals; phase
relations; structures; associations; diagnostic features
for identification. Offered fall semesters. Prerequisites:
(CHEM:1110 or CHEM:1070) and (EES:1050 or EES:1030).

EES:2831 Geologic Field Methods 3 s.h.
Introduction to basic methods of geologic field work in
southwest Montana using topographic maps and GPS to locate
oneself, identifying geologic map units (including superficial
deposits), recognizing geologic contacts, constructing
stratigraphic sections, measuring planar structures, and
making geologic maps complete with a legend and cross-
section. Offered summer session. Prerequisites: EES:1400 or
EES:1080 or EES:1030 or EES:1050.

EES:3000 Geologic Training Assignment 1-3 s.h.
Practical experience.

EES:3001 Third-Year Field Trip for Earth and
Environmental Sciences 1 s.h.
Opportunity for students to apply their major course work
to real-world problems; field trip to visit parks, mines, and/or
or quarries in Missouri and Arkansas that illustrate many of
the lessons learned in EES:2410 and EES:3500. Prerequisites:
EES:1030 or EES:1050 or EES:1080 or ENV:1080 or
EES:2410. Requirements: geoscience or environmental
sciences major, and junior standing. Same as ENV:3001.

EES:3020 Earth Surface Processes 3 s.h.
Basic geomorphic and environmental processes that shape
the earth's surface; emphasis on erosion, transport, deposition
by land mass movement (creep, landslides, earth flow),
fluid agents (wind, water, ice); methods used to study these
processes. Prerequisites: EES:1080 or EES:1050 or EES:1080
or EGS:1020. Same as ENV:3020, GEOG:3020.

EES:3040 Writing for the Earth and Environmental
Sciences 1-3 s.h.
Practical methods of content creation across curriculum;
effective communication to lay and academic audiences;
methods of planning, drafting, revising, and editing everything
from general articles of interest to scientific papers. Same as
WRIT:3200.

EES:3050 Geology of Iowa 2 s.h.
Exploration of the geologic history responsible for landscape,
soil, rocks, fossils, water, and natural resources of Iowa;
background of Iowa's natural history; preparation for K-12
educators to deliver earth and environmental science content
in their own classrooms utilizing natural landscapes in Iowa.

EES:3051 Geology of Iowa Field Trip 1 s.h.
Exploration of the geologic history responsible for landscape,
soil, rocks, fossils, water, and natural resources of Iowa; field-
based examples of Iowa's natural history; preparation for K-12
educators to deliver earth and environmental science content
in their own classrooms utilizing the natural landscapes in Iowa.

EES:3070 Marine Ecosystems and Conservation 3 s.h.
Introduction to ocean ecosystems, including coral reefs,
mangroves, estuaries and salt marshes, sandy and rocky
shores, seagrass and kelp beds, the deep sea, plankton;
biodiversity of each ecosystem; interrelationship of biota and
biological/chemical environment; interactions among
organisms, including food webs and symbiosis; local
and global threats such as overfishing, pollution, ocean
acidification, global warming, sea level change; ongoing
biodiversity crisis, solutions for conservation problems.

EES:3080 Introduction to Oceanography 2 s.h.
Descriptive, chemical, physical, biological, geological aspects
of oceans; impact on weather, climate, shorelines, food
supply, other aspects of civilization. Offered spring semesters.
Recommendations: knowledge of basic chemistry, biology,
physics, earth science.

EES:3090 Topics in Museum Studies 1 s.h.
Systematic and analytic methods used for research in physical
collections; tutorials in collection building, curation, and
preservation; designed by members of the University of Iowa
Collections Coalition. Same as MUSM:3090.

EES:3100 Introduction to Applied Remote Sensing 4 s.h.
Remote sensing of the earth's surface from aircraft, satellites;
aerial photograph interpretation; remote sensing systems,
methods, data analysis using electromagnetic spectrum and
digital processing techniques, including visible, infrared,
microwave radiation; remote sensing applied to geologic and
environmental problems. Prerequisites: EES:1050 or EES:1080
or EES:1030. Same as ENVS:3100.

EES:3110 Chemical Evolution of the Oceans 3 s.h.
Investigation of various physiochemical states oceans
have assumed over the past four billion years of Earth
history; use of isotope geochemistry as a proxy for ancient
ocean conditions; focus on integrated Earth system science,
paleoceanographic and paleoclimate modeling, role of
chemical stratigraphy in deciphering past climate states of
ocean-atmosphere system; relationship between chemical
changes in ocean/atmosphere and biological systems of the
Earth. Same as ENV:3110.

EES:3130 Career Path Planning for Earth and
Environmental Sciences 1 s.h.
Opportunity to cultivate a sense of what employers deem as
important skills beyond the technical requirements, develop a
set of polished application materials and practice interviewing
skills, and investigate a wide variety of potential career paths
through interaction with department alumni.

EES:3150 Sustainability Project arr.
Individual or collective project related to sustainability
under the direction and supervision of a faculty member;
involves regularly scheduled meetings, data collection and
interpretation, and a final project report.

EES:3160 Field Trip 1-3 s.h.
Field trip to an area of geologic interest, such as localities in
the Midwest, Hawaii, Grand Canyon (Arizona), Rio Grande Rift
(New Mexico), Death Valley (California, Nevada), Appalachian
Mountains (Virginia), as well as international destinations such
as the Caribbean and China; preceded by weekly discussions
of destination's geology.

EES:3190 Directed Study arr.
Special topics, independent research.

EES:3200 Collection Care and Management 3 s.h.
How a museum's management policy relates to its
administrative, legal, and ethical obligations to its collections;
acquisitions, deaccessions, collection use, data standards,
storage environment, health, safety, documentation. Same as
MUSM:3200.

EES:3210 Principles of Paleontology 3 s.h.
Patterns of evolution in fossil record; species and
analysis of their evolutionary relationships; paleoecology,
paleocommunity evolution; evolutionary radiation and mass
extinctions; large-scale relationships between biodiversity and
climatic change. Offered fall semesters.
EES:3220 Evolution of the Vertebrates 3 s.h.
Evolutionary history of vertebrates revealed by fossils and information from living animals; biogeographic, stratigraphic, paleoecological aspects of selected groups, especially mammals and dinosaurs; transitions from aquatic to terrestrial life, origins of flight, major events in vertebrate history (including mass extinctions and explosive radiations). Requirements: introductory course in geoscience or biocience.

EES:3260 Wetlands: Function, Geography, and Management 3 s.h.
Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2310 or GEOG:2374. Same as GEOG:3320.

EES:3300 Sedimentary Geology 4 s.h.
Basic concepts of sedimentology, stratigraphy, depositional environments, sedimentary petrology; hands-on analyses of sediments and sedimentary rocks, including thin-section petrography; lecture/laboratory. Offered fall semesters.

EES:3360 Soil Genesis and Geomorphology 3 s.h.
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as GEOG:3360.

EES:3380 Fluvial Geomorphology 3 s.h.
Hydrologic principles, stream channel processes, and fluvial geomorphology within drainage basin systems; spatial and temporal variations in water distribution, analysis of hydrological data, flow mechanisms, sediment transport, forecasting procedures, hydrograph construction, modeling. Requirements: EES:3020 or another 3000-level geology or hydraulics course. Same as CEE:3328.

EES:3390 Integrated Watershed Analysis 3 s.h.
Integration of existing knowledge of physical, hydrological, and environmental processes with management issues and challenges in water resources and environmental management; aspects of water quantity and quality, water use and treatment; basin management issues related to forestry, agriculture, urbanization, floods, droughts.

EES:3410 Analytical Methods 2-3 s.h.
Theory and practice of analyzing chemical, isotopic, and mineralogical compositions of rocks, organic materials, and waters; use of modern analytical instruments. Offered spring semesters. Prerequisites: EES:3500 and (PHYS:1512 or PHYS:1702) and CHEM:1070.

EES:3500 Igneous and Metamorphic Petrology 4 s.h.
Nature, origin, and petrography of igneous and metamorphic rocks in hand specimen and thin-section. Offered spring semesters. Prerequisites: (MATH:1010 or MATH:0300 or MATH:0100) and (EES:1050 or EES:1030) and (CHEM:1110 or CHEM:1070) and EES:2410.

EES:3770 Global Stratigraphy 3 s.h.
Types of stratigraphy (e.g., biostratigraphy, lithostratigraphy, sequence stratigraphy, chemostratigraphy, magnetostratigraphy, cyclostratigraphy, chronostratigraphy) that share a number of procedures and practices and how differences cloud understanding of Earth history; central role of stratigraphy in modern geoscience pursuits; issue of time in stratigraphic record as an organizing theme for investigation of comparative stratigraphy.

EES:3840 Structural Geology 4 s.h.
Rock deformation; description, classification of geologic structures such as faults and folds; processes that generate geologic structures; solution of structural problems; interpretation of geologic maps. Prerequisites: EES:1030 or EES:1050.

EES:4001 Fourth-Year Field Trip for Earth and Environmental Sciences 2 s.h.
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of Earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as ENV:4001.

Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as ACB:4156, CBE:4156.

EES:4200 Advanced Collection Care 3 s.h.
Builds on MUSM:3200; types and materials of museum objects and their care; storage and preservation of paper, books, photographs, works of art, electronic media, textiles, furniture, archaeological artifacts, and natural history specimens; collections project and hands-on practice in preservation techniques, enclosures, and supports; for students planning museum careers or professions that require care of collections. Same as MUSM:4200.

EES:4230 Special Topics 1-3 s.h.
Contemporary issues in earth sciences.

EES:4420 Vertebrate Osteology and Phylogeny 3 s.h.
Anatomy of the vertebrate skeleton from developmental, functional, and phylogenetic perspectives; relationship between skeletal, muscular, and nervous systems; history of the skeleton through modern forms; lecture and laboratory. Prerequisites: EES:3220 or ANTH:3305.

EES:4440 Phylogenetics and Biodiversity 3 s.h.
Methods available for reconstructing evolutionary history and measuring biodiversity, including distance, parsimony, likelihood, and taxic approaches; applications to molecular and morphological systematics, historical biogeography, study of diversity through time. Prerequisites: EES:1040 or (BIOL:1411 and BIOL:1412) or EES:3210.
**EES:4450 Morphometrics** 1-3 s.h.
Quantitative methods for collection and analysis of morphometric data, including 2-D and 3-D geometric morphometrics and use of multivariate statistical methods to study size and shape; applications of morphometric techniques to study development, adaptation, variation within and among species, related topics in paleontology and evolutionary biology. Offered alternate years.

**EES:4490 Elements of Geochemistry** 3 s.h.
Introduction to application of chemical principles to solution of geologic problems concerning Earth and environmental processes; origin of elements, chemical differentiation of Earth and the solar system, geochemistry, application of radiogenic and stable isotopes, chemical equilibrium, elementary thermodynamics and kinetics, carbonate and silicate stability relationships, chemical weathering, adsorption, trace element behavior, oxidation-reduction reactions, characterization of surface and ground waters, and ocean chemistry. Prerequisites: (EES:1030 or EES:1050) and (CHEM:1070 or CHEM:1110).

**EES:4520 Isotope Geochemistry** 3 s.h.
Radiogenic and stable isotope systematics, applications to geological, cosmological, and environmental problems.

**EES:4620 Approaches to Geochaeology** 3 s.h.
Geochaeology as multidisciplinary contextual framework for human paleoecology; natural processes that create the archaeological record, approaches to reconstructing landscapes of the past as a context for archaeological deposits; weekend field trip. Prerequisites: EES:3360 or EES:4720 or ANTH:4205. Same as ANTH:4620.

**EES:4630 Hydrogeology** 3 s.h.
Role of groundwater in water cycle, subsurface water profile, aquifers and aquitards, basic principles and laws of physical and chemical processes of groundwater flow and contaminant transport in geological formations for sustainable development and protection of groundwater resources; groundwater geology and hydrology, regional aquifer systems, well hydraulics, slug/bail and pumping test and their analyses, groundwater contamination and remediation, management and sustainability of groundwater resources.

**EES:4660 Groundwater Modeling** 3 s.h.
Groundwater flow and contaminant transport modeling; numerical methods, applications of groundwater modeling to water supply, groundwater resources evaluation, remediation design using software; GMS (MODFLOW, MODPATH, and MT3D). Prerequisites: MATH:1860 and (EES:4630 or CEE:4103). Same as CEE:4104.

**EES:4680 Field Methods in Hydrologic Science** 3 s.h.
Collection and interpretation of physical hydrology and hydraulics field measurements; basic data quality assurance and quality control; hands-on experience with field equipment and data collection. Prerequisites: EES:4720 or EES:2831 or EES:3020 or EES:3360 or EES:3300 or EES:3380 or ENGR:2510 or EES:4800 or EES:4630 or CEE:3371 or EES:4790 or EES:3390 or EES:3020.

**EES:4700 Evolution of Ecosystems** 3 s.h.
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as ENVS:4700.

**EES:4710 Evolution of Plants** 3 s.h.
Evolutionary history of plants over geologic time: relationships, morphology, and fossil record of major plant lineages; patterns and processes in evolution of plant morphology and diversity; ecological innovations and evolution of terrestrial ecosystems; relationships between biotic and environmental change; paleobotanical tools in stratigraphy, paleoclimatology, sedimentology; practical aspects of paleobotanical data collection, statistical analysis, modeling; field trip. Requirements: two courses in geoscience, anthropology, biology, environmental science, or geography.

**EES:4720 Glacial and Pleistocene Geology** 3 s.h.
Introduction to glaciers and glacial and interglacial Earth systems; linkages among glacial, oceanic, and atmospheric systems and their effects on landscapes and biota over the past two million years; how oceans, atmosphere, and glaciers interact and landscape effects of past glacial and interglacial cycles. Requirements: physical geology or physical geography or anthropology.

**EES:4750 Mineral and Petroleum Exploration Geology** 3 s.h.
Fundamentals of resource exploration philosophy and methods, with project-based presentation of techniques and strategies for mineral exploration and petroleum exploration; integration and evaluation of geological, geochemical, and geophysical techniques for mineral exploration; hydrocarbon systems and seismic interpretation for petroleum exploration. Corequisites: EES:3500 and EES:3840.

**EES:4790 Engineering Geology** 3 s.h.
Application of geology, water, and earth processes to civil and environmental engineering practice; physical properties of rock and soil, geologic mapping and surveying, groundwater supplies and wells, stream engineering, watershed management, site investigations for environmental assessment, and geologic hazards. Prerequisites: EES:1030 or EES:1080 or EES:1090.

**EES:4800 Solid Earth Geophysics** 3 s.h.
Geophysics is the broad geoscience field interested in discovering the unseen characteristics of the Earth and other planets, including the internal structure of the Earth, the current motions of tectonic plates, the sources and causes of geological disasters, and the locations of economic resources; methods to accomplish these goals include seismology, gravity and magnetic studies, geodesy, and measurements of heat; course offers a broad introduction to these topics that is rooted in current and growing fields of active research. Requirements: introductory geology or physics.

**EES:4832 Geologic Field Analysis** 3 s.h.
Structural, stratigraphic, and regional analysis of geology in the Rocky Mountains of Montana; emphasis on making reasonable geologic interpretations from field relationships; mapping projects in vicinity of Dillon, Montana that build on experience gained in EES:2831; capstone experience dedicated to synthesizing the geology of a fold-and-thrust belt near Glacier National Park. Offered summer session. Prerequisites: EES:2831 and EES:3840.

**EES:4870 Applied Geostatistics** 3 s.h.
Applications of geostatistical methods to geology, geography, hydrology, environmental sciences, and engineering; variogram, Kriging, analysis of spatial-varied data with varied computer software in participants' specialties. Same as GEOG:4870.

**EES:4990 Senior Thesis in Geoscience** arr.
Independent research resulting in a senior thesis. Requirements: senior standing.
EES:4999 Honors Thesis in Geoscience  
Independent research resulting in an honors thesis.  
Requirements: honors standing.

EES:5010 Geoscience Seminar Series  1 s.h.  
Scholarly work and research in geoscience.

EES:5015 American Association of Petroleum  
Geologists Fall Field Trip  1 s.h.  
Resource-related topics in mineral and hydrocarbon  
exploration; joint field trip with Iowa State University.  
Requirements: AAPG student chapter member or graduate  
standing, and basic understanding of mineralogy, petrology,  
and structural geology.

EES:5070 Geologic Orientation  
Department degree requirements, programs; field survey of  
local geology; tips for TAs; introduction to specialized facilities;  
for new graduate students.

EES:5120 Global Change Seminar  1-2 s.h.  
Current global change issues, including climate change,  
ecosystem changes and conservation, energy; seminar format  
with student presentations.

EES:5250 Environmental Seminar  1 s.h.  
Environmental topics selected by student and instructor.

EES:5330 Carbonate Petrology  2 s.h.  
Identification of constituents and interpretation of genesis,  
structures, environments of formation, and patterns and  
processes of diagenesis in limestones; laboratory-based.  
Requirements: familiarity with optical microscope and  
sedimentation principles.

EES:5350 Depositional Environments  3-4 s.h.  
Modern patterns of sedimentation; emphasis on interpreting  
depositional environments of ancient sedimentary rocks and  
deciphering resulting stratigraphic patterns. Requirements:  
knowledge of basic sedimentary geology and paleontology.

EES:5380 Process Geomorphology Seminar  1-3 s.h.  
Topics in process geomorphology ranging from fluvial  
dynamics to mass movement to sediment transport and  
related environmental processes.

EES:5530 Geochronology  3 s.h.  
How to evaluate published ages, and assumptions/errors  
involved; how to select and sample suitable materials for  
dating, and choose a suitable dating method and analytical  
technique; opportunity to develop skills for research and  
professional careers. Prerequisites: EES:4490 or EES:4520.

EES:5550 Metamorphic Petrology  3 s.h.  
Interpretation of metamorphic rocks using hand  
specimens, thin sections, field relationships, mineralogical  
composition, texture, geochronology, isotope geochemistry,  
thermodynamics, kinetics, and tectonic setting;  
phase equilibria in pelitic, mafic, and carbonate rocks;  
thermobarometry, petrogenetic grids, P-T-X relationships, and  
psedosections; kinetic models of metamorphic textures,  
heat-flow modeling, P-T-t paths, and tectonic evolution of  
metamorphic rocks. Prerequisites: EES:3500.

EES:5820 Tectonics  3 s.h.  
Dynamic processes responsible for crustal genesis,  
plate movements, mountain building; plate boundary  
zones; sedimentologic, structural, petrologic, geophysical  
characteristics of major tectonic settings; multidisciplinary  
approach; week-long field trip. Prerequisites: EES:3840.

EES:6250 Paleontology Seminar  1-3 s.h.  
Current controversial issues in paleontology.  
Recommendations: EES:3210.

EES:6390 Advanced Watershed Analysis  
Seminar  1-3 s.h.  
Integration of existing knowledge of physical, hydrological,  
and environmental processes with management issues  
and challenges in water resources and environmental  
management: aspects of water quantity and quality, water  
use and treatment, and basin management issues related to  
forestry, agriculture, urbanization, floods, droughts.

EES:6570 Tectonics and Petrology Seminar  1-2 s.h.  
Topics in tectonics, structural geology, petrology.

EES:6920 Advanced Structural Geology  3 s.h.  
Kinematic and dynamic analysis of deformed rocks;  
macrostructural analysis; strain analysis, field investigations of  
highly deformed rocks. Prerequisites: EES:3840.

EES:7604 Principles of Scholarly Integrity  0 s.h.  
Training in responsible conduct of research and scholarly  
avtivities; student/mentor responsibilities, authorship,  
plagiarism/falsification/fabrication of data, intellectual  
property, conflict of interest; fiscal, institutional, and societal;  
data handling. Requirements: postdoctoral standing in  
geoscience.

EES:7990 Research: Geoscience  
arr.  
Independent research related to theses or dissertations in  
geoscience.
Geoscience, B.A.

Students majoring in geoscience take at least an academic year's work in three allied scientific areas—physics, chemistry, and mathematics—and a semester of biology in addition to a course in each major area of geology.

Geoscience students may elect to pursue an additional major or a minor in a related discipline, usually chemistry, physics, biology, engineering, environmental sciences, or anthropology. See "Majors, Minors, and Certificates" under For Current Students on the College of Liberal Arts and Sciences website.

Requirements

The Bachelor of Arts with a major in geoscience requires a minimum of 120 s.h., including at least 51 s.h. of work for the major (at least 35 s.h. in earth and environmental sciences courses and at least 16 s.h. in supporting disciplines). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Transfer students must complete a minimum of 15 s.h. of course work in the Department of Earth and Environmental Sciences.

The geoscience major for the B.A. is designed to provide students with a varied background in geology and a broader choice of electives than is practical in the Bachelor of Science program. The major for the Bachelor of Arts is intended for students who are interested in the fundamentals of geology or earth science teaching (see "B.A. with Teacher Licensure" below). Completing the minimum requirements for this degree may not adequately prepare a student for an entry-level professional job in geology.

The department recommends that students fulfill the General Education Program's World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved course work in economics, geography, or anthropology.

The B.A. with a major in geoscience requires the following course work:

Earth and Environmental Sciences Required Courses

- Earth and Environmental Sciences Required Courses: 20-24
- Earth and Environmental Sciences Electives: 12
- Mathematics Courses: 10
- Chemistry Courses: 6-8
- Field Requirement: 3-4
- Total Hours: 51-58

Earth and Environmental Sciences Required Courses

This course:
- EES:2410 Mineralogy 4

One of these:
- EES:1030 Introduction to Earth Science 4
- EES:1050 Introduction to Geology 4

One or both of these:
- EES:1040 Evolution and the History of Life 4
- EES:3210 Principles of Paleontology 3

At least three of these:
- EES:3300 Sedimentary Geology 4
- EES:3360 Soil Genesis and Geomorphology 3
- EES:3380 Fluvial Geomorphology 3
- EES:3500 Igneous and Metamorphic Petrology 4
- EES:3840 Structural Geology 4
- EES:4630 Hydrogeology 3

And:
- Earth and environmental sciences electives 12

Mathematics

Students must complete the following course work in mathematics.

- College-level mathematics (may include computer science and statistics) 10

Chemistry

Students must complete at least two college-level chemistry courses as a sequence, as follows. Chemistry courses numbered below CHEM:1070 General Chemistry I do not count toward this requirement.

One of these sequences:
- CHEM:1070 & CHEM:1080 General Chemistry I-II 6
- CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8

Field Requirement

To complete the major, students must have field experience. They may take at least 4 s.h. of EES:1180 Geology Field Trip: Selected National Parks and/or EES:3160 Field Trip to satisfy this requirement. Either course may be repeated and/or combined to fulfill the necessary semester hours. Or they may take one semester of EES:2831 Geologic Field Methods or the Iowa Lakeside Laboratory [p. 1701] session.

- EES:1180 Geology Field Trip: Selected National Parks 2
- EES:2831 Geologic Field Methods 3
- EES:3160 Field Trip 2

One natural science session at Iowa Lakeside Laboratory for a minimum of 3 s.h.

Independent Research Option for Geoscience Majors

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project in EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

B.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of
Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See B.S. in Science Education [p. 1186] in the Teaching and Learning section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all University of Iowa course work and in all geoscience courses. Students must complete a senior thesis, registering in EES:4999 Honors Thesis in Geoscience. They must obtain approval of their honors thesis contract from their advisor and the department’s undergraduate committee, and they must earn a grade of B or higher in EES:4999.

National Honor Society

The department sponsors a chapter of Sigma Gamma Epsilon National Honor Society for the Earth Sciences. Students with an overall g.p.a. of at least 2.80 and at least 3.20 in geoscience courses are considered for membership after they have completed a minimum of 16 s.h. of course work in geoscience. Consult the departmental honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the geoscience major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

These checkpoints show the range of required course work; the Bachelor of Arts requires a minimum of 17 courses.

The major requires field trip experiences, many of which take place during breaks in or between semesters or during the summer session. These checkpoints do not include the field trip requirements.

Before the third semester begins: competence in math through trigonometry and the first required chemistry course

Before the fifth semester begins: three to five courses in the major, including the remainder of the chemistry requirement and continuation of the mathematics requirement

Before the seventh semester begins: 7-11 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 10-14 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

**Career Advancement**

Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations. Companies such as ExxonMobil routinely recruit Iowa graduates on campus.

An undergraduate degree in geoscience provides solid preparation for graduate study in law, business, environmental studies, engineering, archaeology, science education, and oceanography. Geoscience provides useful skills for all of these fields.
Geoscience, B.S.

Students majoring in geoscience take at least an academic year's work in three allied scientific areas—physics, chemistry, and mathematics—and a semester of biology in addition to a course in each major area of geology.

Geoscience students may elect to pursue an additional major or a minor in a related discipline, usually chemistry, physics, biology, engineering, environmental sciences, or anthropology. See "Majors, Minors, and Certificates" under For Current Students on the College of Liberal Arts and Sciences website.

Requirements

The Bachelor of Science with a major in geoscience requires a minimum of 120 s.h., including at least 70 s.h. of work for the major (39 s.h. in earth and environmental sciences courses and at least 31 s.h. in supporting disciplines). Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Transfer students must complete a minimum of 15 s.h. of course work in the Department of Earth and Environmental Sciences.

The department recommends that students fulfill the General Education Program's World Languages requirement with French, German, Russian, or Spanish and the Social Sciences requirement with approved course work in economics, geography, or anthropology.

The B.S. with a major in geoscience requires the following course work.

Earth and Environmental Sciences Courses 39-40
Mathematics Courses 11-12
Chemistry Courses 8
Physics Courses 8
Biology Course 4
Independent Research Option

Total Hours 70-72

Earth and Environmental Sciences

One of these:
EES:1030 Introduction to Earth Science 4
EES:1050 Introduction to Geology (preferred) 4

All of these:
EES:1040 Evolution and the History of Life 4
EES:2410 Mineralogy 4
EES:2831 Geologic Field Methods 3
EES:3300 Sedimentary Geology 4
EES:3500 Igneous and Metamorphic Petrology 4
EES:3840 Structural Geology 4
EES:4832 Geologic Field Analysis 3

One of these:
EES:3210 Principles of Paleontology 3
EES:4490 Elements of Geochemistry 3

EES:4630 Hydrogeology 3
EES:4790 Engineering Geology 3
EES:4800 Solid Earth Geophysics 3

And:
At least two geoscience electives; see "Recommended Electives" below 6-7

Mathematics

One of these:
MATH:1550 Engineering Mathematics I: Single Variable Calculus 4
MATH:1850 Calculus I 4

One of these:
MATH:1560 Engineering Mathematics II: Multivariable Calculus 4
MATH:1860 Calculus II 4

And:
An additional mathematics course numbered MATH:2000 or above, or a computer science course numbered CS:1110 or above, or a statistics course numbered STAT:2010 or above 3-4

Chemistry

Students must complete at least 8 s.h. of college-level chemistry, including the following sequence or equivalent courses or more advanced courses. Chemistry courses numbered below CHEM:1110 Principles of Chemistry I do not count toward this requirement.

CHEM:1110 & CHEM:1120 Principles of Chemistry I-II 8

Physics

Students must complete at least 8 s.h. of college-level physics, as follows. Physics courses numbered below PHYS:1511 College Physics I do not count toward this requirement.

PHYS:1511- PHYS:1512 College Physics I-II 8

PHYS:1611- PHYS:1612 Introductory Physics I-II 8

Biology

Students must complete at least one biology course that includes a laboratory (4 s.h.). Students with an interest in paleontology are encouraged to take BIOL:1411 Foundations of Biology and BIOL:1412 Diversity of Form and Function.

One biology course (includes a lab) 4

Recommended Electives

All students should take elective courses from the following groups in order to broaden their undergraduate experience and prepare themselves for graduate study or professional employment. Students who have clear career goals are advised to take three or more elective courses from the group that fits their needs most closely. Students also may seek a broad education in geoscience by choosing elective courses from a number of groups.

### Independent Research Option

A junior or senior who is ready to pursue independent research for credit in geoscience may assist a faculty member or graduate student with a current research project EES:2190 Directed Study or may initiate a small-scale project involving a combination of field, laboratory, and library investigation in EES:3190 Directed Study. Independent study is encouraged and may lead to an honors thesis in EES:4999 Honors Thesis in Geoscience or a senior thesis in EES:4990 Senior Thesis in Geoscience that may be published subsequently.

### B.S. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science. They may apply for admission to the Teacher Education Program. See B.S. in Science Education [p. 1186] in the Teaching and Learning section of the Catalog.

### Honors

#### Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative g.p.a. of at least 3.33 in all University of Iowa course work and in all geoscience courses. Students
must complete a senior thesis, registering in EES:4999 Honors Thesis in Geoscience. They must obtain approval of their honors thesis contract from their advisor and the department’s undergraduate committee, and they must earn a grade of B or higher in EES:4999.

National Honor Society

The department sponsors a chapter of Sigma Gamma Epsilon National Honor Society for the Earth Sciences. Students with an overall g.p.a. of at least 2.80 and at least 3.20 in geoscience courses are considered for membership after they have completed a minimum of 16 s.h. of course work in geoscience. Consult the departmental honors advisor for more information.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the geoscience major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

These checkpoints show the range of required course work; the Bachelor of Science requires a minimum of 19 courses.

The major requires field trip experiences, many of which take place during breaks in or between semesters or during the summer session. These checkpoints do not include the field trip requirements.

Before the third semester begins: competence in math through trigonometry and the first required chemistry course

Before the fifth semester begins: three to five courses in the major, including the remainder of the chemistry requirement and continuation of the mathematics requirement

Before the seventh semester begins: 7-11 courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 10-14 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

| Total Hours | 129-142 |

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement

The major is designed to prepare students for immediate employment after graduation or to enter a graduate program in geology. Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations. Companies such as ExxonMobil routinely recruit Iowa graduates on campus.

An undergraduate degree in geoscience provides solid preparation for graduate study in law, business, environmental studies, engineering, archaeology, science education, and oceanography. Geoscience provides useful skills for all of these fields.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Geoscience, Minor

The undergraduate minor in geoscience requires a minimum of 15 s.h. in earth and environmental sciences courses, including 12 s.h. in courses considered advanced for the minor offered by the Department of Earth and Environmental Sciences at the University of Iowa. EES:2410 Mineralogy, EES:2831 Geologic Field Methods, and all earth and environmental sciences courses numbered 3000 or above are considered advanced for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

College-level courses in mathematics, physics, chemistry, and biology usually are required as collateral work for geoscience students. Those seeking a minor in geoscience should be sufficiently prepared in the areas of supporting sciences before they take advanced courses in geoscience.

Recommended advanced courses in earth and environmental sciences that deal with important areas of earth materials and earth processes are as follows.

Geoscience, M.S.

The M.S. degree in geoscience is regarded by most hiring agencies as the working degree. The master’s program in geoscience prepares students for employment in industry or for doctoral study.

Requirements

The Master of Science program in geoscience requires a minimum of 30 s.h. of graduate credit. Students may count up to 8 s.h. of research credit toward the 30 s.h. required for the degree. They must earn at least 24 s.h. toward the degree in University of Iowa courses taken after they enroll in the program. All entering students are required to enroll in EES:5070 Geologic Orientation during the fall semester of their first year in the graduate program. Students also must complete EES:5010 Geoscience Seminar Series each semester until they defend their thesis.

Throughout their graduate study, students must maintain a g.p.a. of at least 3.00 in all course work required for their degree and in all graduate-level geoscience course work. Students whose grade-point average drops below 3.00 are placed on academic probation.

During the second semester of study, each student should propose an advisory committee of at least three faculty members to the department chair for approval. Thesis students are responsible for obtaining their advisory committee's approval of a suitable program of course work and for satisfactory development of research plans as outlined in a thesis proposal, which should be completed and approved by the department chair before the end of the second semester of full-time study. The thesis typically has depth and breadth similar to those of a published research paper. Thesis students must deliver a half-hour public presentation of their thesis, followed by an oral defense. They also are required to present their research at a local, regional, national, or international meeting approved by the department chair before they may graduate.

Students are encouraged to present their research at local, regional, national, or international meetings. The department provides partial funding for travel to such meetings.

Detailed information about graduate degree requirements and timelines for making satisfactory progress toward a degree is available under "Graduate Student Guidelines" on the Graduate Programs web page of the Department of Earth and Environmental Sciences website.

Admission

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College (particularly sections IX, X, and XII). They also should acquaint themselves with the University calendar, for deadline dates and so forth.

Career Advancement

Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations. Companies such as ExxonMobil routinely recruit Iowa graduates on campus.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Geoscience, Ph.D.

A Doctor of Philosophy degree in geoscience is designed to bring students to the forefront of a specialized area of geoscience for future employment in higher education or in industry or government research.

Requirements

The Doctor of Philosophy program in geoscience requires a minimum of 72 s.h. of graduate credit. The Ph.D. requires a dissertation, which has the approximate research content of three published papers.

Throughout their graduate study, Ph.D. students must maintain a g.p.a. of at least 3.00 in all course work required for their degree and in all graduate-level geoscience course work. Students whose grade-point average drops below 3.00 are placed on academic probation.

Students usually enter the program with established fields of interest and a research advisor already selected. Under exceptional circumstances, a student may be admitted to the Ph.D. program without an established field of interest.

Entering students must consult with a research advisor or the department’s director of graduate study before they enroll in courses. By the first month of their second semester of doctoral study, all students must select an advisor. Each student also must select a thesis topic and forward it to the department chair for approval by the end of the first month of the second semester of doctoral study.

Within broad limits, students should select courses that reflect their individual needs, interests, and talents; their advisor and advisory committee must approve their course selections.

During the second semester of doctoral study, each student should propose an advisory committee of at least five faculty members to the department chair for approval. In consultation with the advisor and other faculty members, each doctoral candidate prepares a formal dissertation proposal approved by their committee and submitted to the department chair for approval by the end of the candidate's third semester of doctoral study.

Students are required to include in their plan of study at least 18 s.h. of regular course work taught by tenured or tenure-track faculty members of the Department of Earth and Environmental Sciences. Students must earn the 18 s.h. after being admitted to and enrolling in the Ph.D. program. Directed study and research credit do not count toward the required 18 s.h.

All entering students are required to enroll in EES:5070 Geologic Orientation during the fall semester of their first year in the graduate program. Students must enroll in EES:5010 Geoscience Seminar Series each semester they are registered until they successfully defend their dissertation, or for two consecutive semesters after the semester in which they pass their comprehensive examination, whichever comes first.

After earning their first 24 s.h. of graduate credit, students must be enrolled at least two consecutive semesters in full-time study (at least 9 s.h. per semester) at the University of Iowa; or they must be enrolled three consecutive semesters for at least 6 s.h. per semester at the University, during which time they hold at least a one-quarter-time assistantship that is certified by the department as contributing to their doctoral program.

Students should complete most of their course work before taking the comprehensive examination, which consists of both written and oral portions and which must be passed before the end of the fourth semester of doctoral study.

Once Ph.D. candidates have passed the comprehensive examination, they are required to register each semester until they receive the degree. Candidates who have completed their plan of study may register for GRAD:6002 Doctoral Continuous Registration or GRAD:6003 Doctoral Final Registration.

Students must submit their written dissertation to the committee at least two weeks before the final examination. All Ph.D. candidates must deliver a one-hour public presentation associated with the dissertation defense. They also are required to submit a manuscript presenting the results of their graduate research to a refereed journal or other publication approved by the department chair before they may defend their dissertation.

Students are encouraged to present their research at local, regional, national, or international meetings. The department provides partial funding for travel to such meetings.

Detailed information about graduate degree requirements and timelines for making satisfactory progress toward a degree is available under "Graduate Student Guidelines" on the Graduate Programs web page of the Department of Earth and Environmental Sciences website.

Admission

All geoscience graduate students must meet the admission and degree requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College (particularly sections IX, X, and XII). They also should acquaint themselves with the University calendar, for deadline dates and so forth.

Career Advancement

The doctoral degree is required for college and university faculty positions and for some research positions in industry.

Career opportunities are readily available for geoscience graduates. Professional geologists work in resource companies, environmental corporations, educational institutions, conservation agencies, urban planning, state and federal geological surveys, and government resource and research organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
English

Chair
• Claire Fox

Undergraduate majors: English (B.A.); English and creative writing (B.A.)
Undergraduate minor: English
Graduate degrees: M.A. in English; M.F.A. in English (creative writing, nonfiction writing); Ph.D. in English
Faculty: https://english.uiowa.edu/people
Website: https://english.uiowa.edu

The Department of English offers courses in literature, cultural studies, language, and writing. In these courses, students read poetry, fiction, essays, criticism, and theory to acquire methods for understanding literature and culture. In addition to providing these essential elements of a liberal arts and sciences education, the department's courses can augment students' specialized interests in other fields. Visit the Department of English website to learn more about courses and upcoming events.

Many undergraduate and graduate students enroll in the department's degree programs. Most Ph.D. students in English are preparing for careers as teachers and scholars, and many M.F.A. students in the creative writing program and the nonfiction writing program are preparing for lives as storytellers, essayists, and poets. The B.A. and M.A. programs provide valuable training for careers in a variety of fields. Students who have earned English degrees from the University of Iowa write for advertising firms, newspapers, the entertainment industry and book publishers; teach in primary and secondary schools; practice law and medicine; work in business, industry, and nonprofits; and participate in state and federal government. As far as possible, each student's course of study is arranged to meet individual needs and objectives.

The Department of English participates in several of the University's interdisciplinary units: the Departments of American Studies, Cinematic Arts, and Gender, Women's, and Sexuality Studies; the African American Studies Program; the American Indian and Native Studies Program; the Comparative Literature Program; and the Center for the Book.

Writing Programs

For the past 75 years, the University of Iowa has been a national leader in all areas of creative writing. The University offers graduate degrees in creative writing, with specializations in fiction, nonfiction, and poetry. Undergraduate students may major in English with a writing specialization or may declare a major in English and creative writing. All qualified undergraduates in other majors may enroll in many of the creative writing courses offered by the Department of English.

View creative writing courses (prefixes CW, CNW, and ENGL) under Courses [p. 344] in this section of the Catalog. See which ones are offered in certain semesters by searching for course subjects CW, CNW, and ENGL on the MyUI Courses page.

General Education

All students earning a degree from the College of Liberal Arts and Sciences, except English majors, must take ENGL:1200 The Interpretation of Literature in the General Education Program [p. 464]. English majors should substitute a course from the Literary, Visual, and Performing Arts area of General Education, excluding MUS:1020 Performance Instruction for Nonmajors, DANC:1010 Beginning Tap through DANC:2040 Intermediate Modern, and DANC:4880 Dance Gala Performance.

The Interpretation of Literature (ENGL:1200), or its equivalent by examination or as a transfer course, is prerequisite for courses ENGL:1320 Heroes and Villains through ENGL:1355 Literatures of Native American Peoples. The pass/nonpass option is available only for students in the Colleges of Nursing and Engineering with consent of a student's advisor and the instructor.

Department of English Opportunities

Several periodicals are published under the department's aegis. The Iowa Review, Walt Whitman Quarterly Review, and Philological Quarterly offer opportunities for especially qualified graduate students to work as research assistants or editorial associates, and pursue some undergraduate volunteer opportunities.

The Department of English and the Iowa Writers' Workshop sponsor a rich and extensive series of readings and lectures by poets, fiction writers, and scholars, all open to students in the department.

The English Society, a student organization for those interested in English literature, creative writing, and related areas, is open to all students and organizes events of interest throughout the year. The Department of English also collaborates with Alpha Tau Iota, the University of Iowa chapter of Sigma Tau Delta, the International English Honors Society. Sigma Tau Delta's central purpose is to confer distinction for high achievement in English language, literature, and writing.

The Association of Graduate Students in English sponsors social and intellectual events during the year and provides a forum for student opinion. All graduate students in the department are members.

Programs

Undergraduate Programs of Study

Majors
• Major in English (Bachelor of Arts) [p. 358]
• Major in English and Creative Writing (Bachelor of Arts) [p. 369]

Minor
• Minor in English [p. 373]

Graduate Programs of Study

Majors
• Master of Arts in English [p. 374]
• Master of Fine Arts in English (creative writing) [p. 376]
• Master of Fine Arts in English (nonfiction writing) [p. 377]
• Doctor of Philosophy in English [p. 378]
Facilities

The University of Iowa Libraries collection is strong in all areas of English and American literature. Partly because of the influence of the Iowa Writers' Workshop, University Libraries has particular strengths in 20th-century fiction and poetry, including manuscript collections of 20th-century authors.

Courses

Individual descriptions for most English courses are not included because content and emphasis may vary considerably from one semester to the next. For detailed descriptions of each semester's courses, visit the University's MyUI website.

English department courses are open to all undergraduates who have satisfied the rhetoric requirement. Undergraduates are encouraged to complete the required course ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures as soon as they declare the English major. Students also are encouraged to take a required course in reading and writing about a genre (ENGL:2012-ENGL:2016) at an early stage in their studies.

Courses ENGL:4000 English Honors Seminar, ENGL:4040 Undergraduate Honors Project, and ENGL:4010 Special Project for Undergraduates may be repeated. Most courses with the prefix ENGL may not be repeated. Occasionally, with written consent from the department's Undergraduate Advising Office, a student may repeat a course if the course's subject matter is different from that of a course the student already has taken.

English Courses

ENGL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

ENGL:1001 CLAS Master Class 1-3 s.h.

ENGL:1100 City of Literature 3 s.h.
Literary history of Iowa City from the founding of Writers' Workshop to its designation as a UNESCO City of Literature.

ENGL:1150 Flashwrite: Young Writers, No Borders 1 s.h.
Opportunity for aspiring writers to engage in the study and practice of poetry and prose under the guidance of University of Iowa faculty.

ENGL:1200 The Interpretation of Literature 3 s.h.
Ways of reading; focus on reader, text, contexts; poetry, short fiction, drama, novels. GE: Interpretation of Literature.

ENGL:1320 Heroes and Villains 3 s.h.
Heroes, heroines, and villains as products of the imagination; literary representations of heroes, heroines, and villains in varied social and historical situations; how their representation shapes our understanding of heroism and of villainy. Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. Recommendations: closed to students who have taken ENGL:1325. GE: Literary, Visual, and Performing Arts.

ENGL:1325 Comic and Tragic Literature 3 s.h.
Interrelations of comic and tragic literature, including film and other popular media, and their connection with human experience; comic and tragic forms and their uses in different social and historical situations. Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. Recommendations: closed to students who have taken ENGL:1320. GE: Literary, Visual, and Performing Arts.

ENGL:1330 The Art of Storytelling 3 s.h.
Selected masterpieces and recent developments in the art of storytelling in poetry and prose. Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1345 American Lives 3 s.h.
Major works of American literature. Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1350 Literature and Sexualities 3 s.h.
Works from various genres, time periods, cultures that reflect and construct a wide range of sexual identities. Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts.

ENGL:1355 Literatures of Native American Peoples 3 s.h.
Genres of Native American literature, including oral literature; focus on written literature (fiction, essays, poetry, drama). Prerequisites: ENGL:1200. Requirements: successful completion of the rhetoric requirement and then ENGL:1200. GE: Literary, Visual, and Performing Arts; Values and Culture. Same as AINS:1355.

ENGL:1410 Sex and Popular Culture in the Postwar U.S. 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as AMST:1060, GWSS:1060.

ENGL:1420 Technologies and Literatures of the Future 3 s.h.
Introduction to discourses of futurology; dramatic advances in machine intelligence, promise of nanotechnology, and future of biological research that have blurred long-held distinctions between science and science fiction; issues and controversies prominent in this futurological discourse. GE: Values and Culture.

ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures 3 s.h.
History and practice of English as a discipline; four central aspects of literary study.
ENGL:2012 Reading and Writing About the Novel 3 s.h. Introduction to literary genre that teaches close reading, analytical writing, and literary criticism. English majors may apply this course to the Reading and Writing About a Genre requirement.

ENGL:2013 Reading and Writing About Poetry 3 s.h. Introduction to literary genre that teaches close reading, analytical writing, and literary criticism. English majors may apply this course to the Reading and Writing About a Genre requirement.

ENGL:2014 Reading and Writing About the Short Story 3 s.h. Introduction to literary genre that teaches close reading, analytical writing, and literary criticism. English majors may apply this course to the Reading and Writing About a Genre requirement.

ENGL:2015 Reading and Writing About Drama 3 s.h. Introduction to literary genre that teaches close reading, analytical writing, and literary criticism. English majors may apply this course to the Reading and Writing About a Genre requirement.

ENGL:2016 Reading and Writing About the Essay 3 s.h. Introduction to literary genre that teaches close reading, analytical writing, and literary criticism. English majors may apply this course to the Reading and Writing About a Genre requirement.

ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure 3 s.h. Introduction to discipline of creative writing: fiction, poetry, and creative nonfiction.

ENGL:2030 Literary Readings Attendance 1 s.h. Attendance at diverse literary readings and scholarly presentations on the University of Iowa campus and in Iowa City, featuring visiting, local, and University of Iowa writers and scholars.

ENGL:2040 English at Work 1 s.h. What can be done with an English degree; knowledge and skills gained as an English major that are in high demand among a wide variety of employers; important steps taken as a student that translate unique career dreams into reality; work with Pomerantz Career Center staff.

ENGL:2080 English Winter Practicum 2 s.h.

ENGL:2100 Introduction to Criticism and Theory 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2105 Disability in Literature and Cultural Theory 3 s.h. Introduction to disability studies; examination of disability in cultural and literary contexts; core course for the Certificate in Disability Studies. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2120 Introduction to Cultural Studies 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2130 Introduction to the Novel 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:2140 Introduction to Poetry 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:2150 Introduction to the Short Story 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2160 Introduction to Drama 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2170 Introduction to the Essay 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2191 Modern Fiction 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2192 Postmodern Fiction 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2193 Literature, Culture, and Women 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as GWSS:2193.

ENGL:2194 Lyric Structures 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2206 Classical and Biblical Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:2216 Selected Works of the Middle Ages 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:2236 Selected Early Authors 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:2309 Selected British Authors Before 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.
ENGL:2310 Selected British Authors After 1900 3 s.h. English majors may apply the following course to the area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2329 Topics in Modern British Literature Before 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2330 Topics in Modern British Literature After 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2338 Eighteenth-Century British Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2348 British Romanticism 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2359 Victorian Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2360 Twentieth-Century British Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2361 Twenty-first-Century British Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2369 Topics in British Culture and Identity 3 s.h. How culture and identity of British society are created and reflected through literature and other discursive systems; focus on a specific topic and area. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: Varies by semester.

ENGL:2409 Selected American Authors Before 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2410 Selected American Authors After 1900 2-3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2420 American Literary Classics 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester.

ENGL:2425 American Poetry 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester.

ENGL:2438 American Novel Before 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:2440 American Novel After 1900 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2450 American Short Story 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester.

ENGL:2460 Black Literature and Politics: Controversies of National Allegiance 3 s.h. Black literature born amid political controversy, from slave narratives to award-winning texts of late 20th century; evolving politics of African American writers; changing political landscape of this expansive period and representative literature; how African American writers shape U.S. political debate; surprising politics of many canonical African American writers; English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester. Same as AFAM:2781, POLI:2107.

ENGL:2462 The Look of Blackness: African American Literature and Visual Art 3 s.h. Examination of African American literature over a 200-year span; how preoccupation with blackness as a visual marker of difference impacts formation of written works; how black writers wield, emphasize, and manipulate visuality; blaxness foregrounded as if literary texts operate in league with, or in defiance of, visual images circulating throughout American culture, from late 18th-century poetry to mid 20th-century novels; primary texts placed alongside high art and popular visual forms of distinct historical moments to explore how black American writers deploy visual art forms in narrative conceptions of black identity. Same as AFAM:2055.

ENGL:2463 Topics in African American Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: African American Literature. PERIOD: 20th/21st-Century Literature.

ENGL:2465 Selected African American Authors 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: African American Literature. PERIOD: 20th/21st-Century Literature. Same as AFAM:2465.

ENGL:2475 Topics in Asian American Literature 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:2505 Introduction to Postcolonial Studies 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2510 Selected Transnational Authors 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:2560 Topics in Culture and Identity 3 s.h. English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: Varies by semester.
ENGL:2570 Love, War, Activism: Stories About Women from Across the World 3 s.h.
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as GWSS:2500, SJUS:2500.

ENGL:2900 Book Design for Publishing 3 s.h.
Introduction to the major aspects of book design, including typography, layout, standard industry software, discussion of trends in the field. Same as ARTS:2900, UICB:2900, WRIT:2900.

ENGL:3010 Children's Literature 3 s.h.
Classic children's literature and contemporary critical approaches to the genre. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies, or Modern British Literature. PERIOD: Varies by semester.

ENGL:3100 Topics in Criticism and Theory 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3102 Topics in Poetry and Poetics 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3105 Topics in Popular Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3107 Literature and Anthropology 3 s.h.
Topics vary. Same as ANTH:3107, CL:3107.

ENGL:3120 Prose by Women Writers 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as GWSS:3120.

ENGL:3130 Topics in Film and Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3135 Narrative and the Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3140 Literature and the Book 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as UICB:3140.

ENGL:3142 Topics in Book History 3 s.h.
Authorship, publishing, and so forth within specific historical and cultural contexts. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as UICB:3142.

ENGL:3145 The Contemporary Literary Magazine and Editorial Practice 3 s.h.
Focus on literary magazines of the current era, including engagement with editorial practice. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3150 Literature and Philosophic Thought 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3152 Literature and Society 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3155 Literature and Art 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3160 Literary Genres and Modes 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3165 Literature and the Environment 3 s.h.
Literary studies within the contexts of environmental history and ecological concerns. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3173 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester.

ENGL:3180 Topics in Digital Media 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:3180.

ENGL:3181 Digital Media and Poetics 3 s.h.
Theory and practice of one or more varieties of digital composition; digital art analyzed and created in specific forms—radio drama, interactive fiction, procedural and constructivist poetics. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3182 Digital Cultures and Literacies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.
ENGL:3186 Science Fiction 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3190 Language and Learning 2-3 s.h.
How language reflects and constructs learners' identities and cultures; readings related to oral and written language, native and second language development, linguistic diversity; discussion of the relationship of language theory to schools of language instruction. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as EDTL:3382.

ENGL:3191 Reading and Teaching Adolescent Literature 3 s.h.
Reading and evaluation of literature suitable for junior and senior high school students. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. Same as EDTL:3393.

ENGL:3216 Topics in Medieval and Renaissance Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3226 Literature and Culture of the Middle Ages 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as MEDV:3226.

ENGL:3228 Literature and Culture of the Restoration 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3236 Literature and the Culture of the Renaissance 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3237 Literature and Culture of Seventeenth-Century England 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3246 16th- and 17th-Century Poetry 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3247 The English Bible 3 s.h.

ENGL:3256 Elementary Old English 3 s.h.
Reading knowledge of Old English; introduction to Anglo-Saxon literature and culture. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3257 Old English Beowulf 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3266 Medieval Celtic Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3267 Medieval Norse Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3276 Medieval Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as THTR:3276.

ENGL:3277 English Renaissance Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as THTR:3277.

ENGL:3286 Chaucer 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3287 Shakespeare 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3288 Shakespeare's Romans: The Ancient World Meets the Elizabethan Stage 3 s.h.
London was a distant outpost of the Roman empire, but the Romans had an outsized influence on Shakespeare's plays and poems; students explore those works and their sources in classical authors, including Ovid and Plutarch. English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Same as CLSA:3288.

ENGL:3296 Milton 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century.

ENGL:3320 Modern British Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: Varies by semester.
ENGL:3329 Literature and Culture of Eighteenth-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3338 Literature and Culture of the Romantic Period 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3339 Literature and Culture of Nineteenth-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3348 Literature and Culture of Nineteenth-Century Scotland 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3350 Literature and Culture of 20th- and 21st-Century Britain 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3355 British Poetry 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: Varies by semester.

ENGL:3360 British Fiction 3 s.h.
British fiction written since 1700. English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: Varies by semester.

ENGL:3418 Literature and Culture of America Before 1800 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3419 Literature and Culture of Nineteenth-Century America 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3420 Literature and the Culture of Twentieth-Century America 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3429 Topics in American Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3430 Topics in American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3431 American Novel Since 1945 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3439 American Drama Before 1900 3 s.h.
American playwrights and plays before 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature.

ENGL:3440 American Drama Since 1900 3 s.h.
American playwrights and plays after 1900. English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as THTR:3440.

ENGL:3441 Native American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AINS:3441.

ENGL:3444 Literatures of the American Peoples 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester.

ENGL:3450 American Regional Literatures 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester.

ENGL:3455 Jewish American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3459 African American Literature Before 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. Same as AFAM:3459.

ENGL:3460 African American Literature After 1900 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:3460.

ENGL:3462 African American Drama 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: Varies by semester. Same as AFAM:3462, THTR:3462.

ENGL:3465 African American Autobiography 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:3465.

ENGL:3470 Gender, Sexuality, and American Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3489 Contemporary American Women Writers 3 s.h.
Interdisciplinary study of contemporary American women writers whose works depict the shaping force of race, class, gender, and sexuality on individuals, families, and communities.
ENGL:3510 Topics in Transnational Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3515 Topics in Postcolonial Studies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3519 Literature and Culture of Empire 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: Varies by semester.

ENGL:3520 Literature and Culture of the 20th and 21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3525 Literature and Culture of the Americas 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3530 Caribbean Literature and Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature.

ENGL:3532 Modernist Women Writers 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3535 Inter-American Studies 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as LAS:3535.

ENGL:3540 Literature of the Indian Subcontinent 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3550 African Literature 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3555 Topics in African Cinema 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as AFAM:3555.

ENGL:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as CL:3570, GWSS:3570.

ENGL:3580 Identity and Social Issues 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: Varies by semester.

ENGL:3590 People on the Move 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature.

ENGL:3595 International Literature Today 1,3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as IWP:3191, WLLC:3191.

ENGL:3721 Writers’ Seminar: Fiction 3 s.h.
In-depth exploration and analysis of creative works in fiction. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3722 Writers’ Seminar: Poetry 3 s.h.
In-depth exploration and analysis of creative works in poetry. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3723 Writers’ Seminar: Nonfiction 3 s.h.
Rigorous exploration and analysis of a range of nonfiction creative works. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3724 Writers’ Seminar: Literary Translation 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3725 Writers’ Seminar: Playwriting 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:3820 Writing About Girls 3 s.h.
Examination of a wide range of critical and creative works by contemporary women writers on girlhood; common use of the word “girls” to describe adult women; representations of girls in film and television; role of media in sexualization of girls; impact of gender, race, and class in girls’ lives; nature of girls’ relationships with one another; ways in which girlhood traumas can continue into adult life; contemporary issues of body image and sexuality (e.g., pressures to be thin, disparagement of sexually active girl as “slut”); poverty, hunger, and homelessness; resistance and rebellion. Same as GWSS:3450.

ENGL:3850 Undergraduate Translation Workshop 3 s.h.

ENGL:4000 English Honors Seminar 3 s.h.
English majors may apply this course to varied area and/or period requirements. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4001 Honors Seminar: American Literature, 20th/21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4002 Honors Seminar: British Literature, 20th/21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.
ENGL:4003 Honors Seminar: Literary Theory and Interdisciplinary Studies, 20th/21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4004 Honors Seminar: Transnational and Postcolonial Literature, 20th/21st Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4005 Honors Seminar: American Literature, 18th/19th Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4006 Honors Seminar: British Literature, 18th/19th Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Modern British Literature and Culture. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4007 Honors Seminar: Literary Theory and Interdisciplinary Studies, 18th/19th Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4008 Honors Seminar: Transnational and Postcolonial Literature, 18th/19th Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 18th/19th-Century Literature. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4009 Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Medieval and Early Modern Literature and Culture. PERIOD: Early Literatures Through 17th Century. Requirements: undergraduate standing and English major g.p.a. of 3.33.

ENGL:4010 Special Project for Undergraduates arr.

ENGL:4020 Honors Thesis Workshop 3 s.h.
Requirements: English major g.p.a. of 3.33.

ENGL:4040 Undergraduate Honors Project 1-3 s.h.
Requirements: admission to English honors program.

ENGL:4150 Introduction to Book Studies 3 s.h.
Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as physical artifact. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as SLIS:4150, UICB:4150.

ENGL:4172 London Performance Study 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as THTR:4630.

ENGL:4195 Interdisciplinary Studies 3 s.h.
Exploration of how readings of theory can be evaluated through discussions and readings in literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature.

ENGL:4410 Midwest African American Literature and Culture 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: American Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as AFAM:4710.

ENGL:4720 Advanced Creative Writing: Special Topics 3 s.h.
Advanced writing and reading for undergraduate creative writing track; topics vary. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4721 Advanced Writers# Seminar: Fiction 3 s.h.
In-depth exploration and analysis of creative works in fiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4722 Advanced Writers# Seminar: Poetry 3 s.h.
In-depth exploration and analysis of creative works in poetry. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4723 Advanced Writers# Seminar: Nonfiction 3 s.h.
In-depth exploration and analysis of creative works in nonfiction. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4724 Advanced Writers’ Seminar: Literary Translation 3 s.h.
Rigorous exploration and analysis of a range of creative works in literary translation. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4725 Advanced Writers’ Seminar: Playwriting 3 s.h.
Rigorous exploration and analysis of a range of creative works in drama. Prerequisites: ENGL:2010 and ENGL:2020. Requirements: English major, admission to Undergraduate Creative Writing track, or English and Creative Writing major.

ENGL:4810 Learning to Teach Secondary English/Language Arts and Field Experience 3 s.h.
Organizational techniques, methods, materials for teaching high school English; experience in simulated teaching situations during laboratory sessions, integrated with lectures and discussions. Prerequisites: EDTL:4314. Same as EDTL:4315.

ENGL:5000 Introduction to Graduate Study 1 s.h.
ENGL:5050 Professional Development Practicum 1 s.h.
Navigation of academic job market and exploration of professional development and career planning; writing cover letters, curriculum vitae, dissertation abstracts, and teaching statements; application strategies for various jobs in research, liberal arts, community colleges, and outside academia; opportunity to practice interviews and other hands-on coaching; for advanced English department Ph.D., M.A., and M.F.A. students.
ENGL:5990 M.A. Portfolio in Literary Studies arr.
ENGL:5999 M.A. Thesis in Literary Studies arr.
ENGL:6000 Introduction to Contemporary Theory 3 s.h.
ENGL:6020 Literature as Letters 3 s.h.
ENGL:6030 Gender, Sexuality, and Literature 3 s.h.
Representations of gender, class, race, and sexuality in British, American, or Anglophonic/world literatures; role of gender in its intersection with class, race, and sexuality in authorship, text, print cultures, reading, aesthetics, criticism, theory, and the literary marketplace.
ENGL:6060 Modes of Critical Analysis 3 s.h.
Critical practice applicable to English language and literature.
ENGL:6075 Sentimentalism and Affect Theory 3 s.h.
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psychosocial phenomenon; focus on attendant theories of affect; integration of literature and culture with work on politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, gender and sexuality studies. Same as EDTL:6071.
ENGL:6080 New Media Poetics 3 s.h.
ENGL:6090 Topics in Interdisciplinary Studies 3 s.h.
Interdisciplinary approaches to literature and culture.
ENGL:6100 Readings in Medieval Literature and Culture 3 s.h.
ENGL:6104 Literature for Children II 3 s.h.
Current theory, research, and practice in reading and responding to children's literature; genre and topic vary. Same as EDTL:6104.
ENGL:6110 Medieval Authors 3 s.h.
ENGL:6200 Sixteenth- and Seventeenth-Century Authors 3 s.h.
ENGL:6210 Readings in Sixteenth- and Seventeenth-Century Genres 3 s.h.
ENGL:6220 Shakespeare 3 s.h.
ENGL:6300 Restoration and Eighteenth-Century Literature 3 s.h.
ENGL:6315 M.A. Seminar: English Education arr.
Significant developments in English education; primary and collateral readings. Same as EDTL:6315.
ENGL:6400 Romantic Literature 3 s.h.
Same as CL:6323.
ENGL:6500 Victorian Literature 3 s.h.
ENGL:6510 Late Victorian and Edwardian Literature 3 s.h.
ENGL:6601 Readings in American Literature 3 s.h.
American literature of the 18th century.
ENGL:6602 Readings in American Literature II 3 s.h.
Nineteenth-century American literature.
ENGL:6603 Readings in American Literature III 3 s.h.
Twentieth- and twenty-first-century American literature.
ENGL:6610 Studies in African American Literature 3 s.h.
ENGL:6620 Readings in Native American Literatures 3 s.h.
Same as AINS:6620.
ENGL:6630 Readings in Latina/o Literary and Cultural Studies 3 s.h.
Survey of Latina/o literature and criticism to prepare for comprehensive exam; organized by thematic units that stress canonical and emerging research areas in Latina/o literary and cultural studies.
ENGL:6635 Crossing Borders Seminar 2-3 s.h.
ENGL:6640 Readings in American Literary Genres 3 s.h.
ENGL:6670 American Literary Magazines 3 s.h.
Aspects of American literary magazines, from city journals to monthly periodicals, historical moment to marketplace demand.
ENGL:6670 American Literary Magazines 3 s.h.
ENGL:6670 American Literary Magazines 3 s.h.
ENGL:6690 Topics in Contemporary Literature 3 s.h.
ENGL:6760 Literature, Culture, and Environment 3 s.h.
Introduction to theories and practices articulating relationship among literature, other cultural production, and environmental issues.
ENGL:6770 Writing and Revolution 3 s.h.
ENGL:6800 Readings in Postcolonial Literature and Theory 3 s.h.
Introduction to central concerns and questions of postcolonial theory; impact of imperial ideologies on formation of racial and ethnic identities; nationalist and pan-nationalist challenges to colonialism; postcolonial revisions of Western history; representations of gender and sexuality; diasporic and transnational cultural production; alternative versions of modernity; relationship between past and contemporary forms of globalization.
ENGL:6850 Topics in Creative Writing 3 s.h.
Engagement with different topics in creative writing.
ENGL:6900 Doctoral Workshop in English 1-2 s.h.
ENGL:6950 Colloquium: Teaching Foundations of the English Major 1 s.h.
ENGL:6960 Colloquium: Teaching Literature 2 s.h.
Professional development program for new ENGL:1200 teachers, including three-day pre-semester workshop.
ENGL:7000 Seminar: Cultural Studies arr.
ENGL:7010 Seminar: Literary Criticism and Theory 3 s.h.
Analysis of issues in current literary criticism and theory and of texts from related fields, such as aesthetics, cultural studies, political science, psychology, and philosophy.
ENGL:7050 Seminar: Performance Theory and Practice 3 s.h.
Foundational and recent work in interdisciplinary field of performance studies; focus on intersections of performance theory and theater and drama studies; production and reception of visual and participatory art, dance, music, and various forms of embodied activity.

ENGL:7100 Seminar: Medieval Literature and Culture arr.
Same as CL:7302.

ENGL:7200 Seminar: Early Modern Literature and Culture arr.
Same as CL:7307.

ENGL:7300 Seminar: Restoration and Eighteenth-Century Literature arr.

ENGL:7400 Seminar: Romantic Literatures arr.

ENGL:7500 Seminar: Victorian Literature arr.

ENGL:7560 Seminar: Walt Whitman 3 s.h.
Walt Whitman’s writings and career.

ENGL:7600 Seminar: American Literature and Culture arr.

ENGL:7800 Seminar: Postcolonial Studies 3 s.h.
Same as CL:7054.

ENGL:7900 Advanced Studies in an Author arr.

ENGL:7910 Advanced Studies in a Literary Period arr.

ENGL:7920 Advanced Studies in a Literary Form arr.

ENGL:7930 Advanced Studies in a Literary Genre arr.

ENGL:7940 Advanced Studies in a Literary Mode arr.

ENGL:7950 Advanced Studies in a Literary Movement arr.

ENGL:7960 Advanced Studies in a Literary Theme arr.

ENGL:7970 Advanced Studies in Literary Criticism arr.

ENGL:7980 Advanced Studies in an Interdisciplinary Subject arr.

ENGL:7990 Special Project for Graduate Students arr.

Creative Nonfiction Writing Courses

Courses CNW:6650 Forms of the Essay, CNW:6650 Readings in Nonfiction, CNW:6610 Essay Writing Workshop, and CNW:6620 Nonfiction Writing Workshop may be repeated. Others may be repeated with consent of the instructor and the director of graduate studies.

Course CNW:1620 Introduction to Creative Nonfiction does not count toward the English major or minor.

Course CNW:3630 Advanced Nonfiction Writing has a prerequisite.

Course CNW:4631 Advanced Essay Workshop requires consent of instructor (see course description on MyUI).

CNW:1620 Introduction to Creative Nonfiction 3 s.h.
Exploration of creative nonfiction genres through readings, discussion, and writing exercises; introduction to workshop environment. GE: Engineering Be Creative; Literary, Visual, and Performing Arts.

CNW:2680 The Art and Craft of Creative Nonfiction 3 s.h.
How we tell stories—every time people talk about themselves, someone they know, places visited or events experienced; creation of a story with intention to entertain and inform a particular audience; how to create compelling, thought-provoking, and resonant texts from raw material of daily life; exploration of three fundamentals of great storytelling—taking emotional and intellectual risks, being imaginatively rigorous, and revising, revising, revising. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2690 The Art and Craft of Writing About Business 3 s.h.
Preparation for real world writing situations; techniques for revision; creation of texts that are clear, persuasive, and coherent; practice techniques by revising many kinds of transactional documents, from letters and memos to procedures and reports; examples from actual business transactions; enhancement of writing, editing, job search, and managerial skills. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2700 The Art and Craft of Personal Writing 3 s.h.
Moments of wonder, confusion, and blips in memory that can reveal deep and complicated truths in life; different kinds of personal writing with focus on strategies that writers employ to create rich and compelling stories; character, scene, voice, point of view, suspense, and timing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2710 The Art and Craft of Food Writing 3 s.h.
Vivid prose that evokes memories, moods, places, and events; creating a visceral bond with readers as powerful as in any other art form; basics of food writing; how to heighten awareness of physical world through exercises that focus on sensory details. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2720 The Art and Craft of Writing About Culture 3 s.h.
Writing about the culture surrounding us—literature, songs, movies, magazines, television, food, concerts, theater, commercials, billboards, comic books, the Internet, museums, sports, architecture; readings, field trips, and multiple approaches to writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2730 The Art and Craft of Science Writing 3 s.h.
Introduction to science writing; development of a clear and engaging prose style through readings and workshops. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.
CNW:2740 The Art and Craft of Writing about the Environment 3 s.h.
Tradition of nature writing and how it has inspired writers, artists, and activists to find more complicated and daring interpretations of what constitutes an environment; reading and writing that challenges assumptions and pushes boundaries of environmental writing and nonfiction. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2760 The Art and Craft of Writing for Social Change 3 s.h.
How nonfiction writers have responded to tumultuous social, political, and cultural topics of their day through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2770 The Art and Craft of Writing for New Media 3 s.h.
Fundamental elements of new media; readings that celebrate and challenge today's newest experiments in podcasts, video games, the Internet, Twitter feeds, and Tumblr narratives; crafting and critiquing texts in these media. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2780 The Art and Craft of Writing About Sports 3 s.h.
Introduction to sports writing through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2790 The Art and Craft of Humor Writing 3 s.h.
How comedy functions as one of many tools writers have at their disposal through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2800 The Art and Craft of Writing Across Genres 3 s.h.
Hybrid texts that defy classification—graphic books, stand-up comedy, lists, letters, poems, freestyle rap—engaged through reading and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2810 The Art and Craft of Writing with Emotion 3 s.h.
Role of emotion in creative writing through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2820 The Art and Craft of the Literary Essay 3 s.h.
Different forms of the essay—reviews, memoirs, profiles, travelogues, journalism, cultural criticism—through readings and writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2830 The Art and Craft of Immersion Journalism 3 s.h.
Immersion in field work, leading to nonfiction writing; writer-in-residence for a particular place, institution, or organization; observation and exploration of everything that happens within those boundaries. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2840 The Art and Craft of Travel Writing 3 s.h.
How to capture a journey's details and sensations through explorations of character, scene, point of view, and timing; why a person does not need to be a world traveler to become a compelling "writer about place"; readings, field trips, multiple approaches to workshopping. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2850 The Art and Craft of Writing About Politics 3 s.h.
How to observe and reveal complex personalities, relationships, beliefs, and histories that underlie political events and races; strong emphasis on how to gather field research and shape it into compelling literary prose; Iowa's unique role in political theater. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2900 The Essay Prize 3 s.h.
Discussion and evaluation of a variety of essays nominated by an independent committee of writers, editors, filmmakers, sound designers, performance artists, and readers for the Essay Prize; selection of winner. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:2910 Writing for Applications and Awards 3 s.h.
Practical exploration of how to prepare applications for fellowships, awards, grants, and graduate schools; emphasis on composing and revising personal statements, project narratives, funding proposals; fundamentals of how to clearly, concisely, and compellingly present ideas to specialized and general audiences. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CNW:2991 Publishing I: Introduction to Literary Publishing 3 s.h.
Introduction to major aspects of book and literary publishing, including evaluating submissions, copy editing, production calendars, and planning marketing campaigns; discussion of industry trends. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Same as WRIT:2991.

CNW:2992 Publishing II: Advanced Literary Publication 3 s.h.
Hands-on experience through the Iowa Chapbook Prize of the entire literary publishing process, including reading submissions, selecting texts, editing, layout and design, marketing and promotion, and book release. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CNW:2991. Same as WRIT:2992.

CNW:3600 Issues in Creative Nonfiction 3 s.h.
Exploration and discussion of a single topic in creative nonfiction through a variety of reading assignments and creative writing exercises. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.
CNW:3630 Advanced Nonfiction Writing 3 s.h.
Essay writing; focus on workshop environment. Prerequisites: CNW:2830 or CNW:2720 or CNW:2840 or CNW:2710 or CNW:2700 or CNW:2900 or CNW:2760 or CNW:2800 or CNW:2910 or CNW:2810 or CNW:2780 or CNW:2850 or CNW:2730 or CNW:2740 or CNW:2770 or CNW:2820 or CNW:2680 or CNW:2790 or CNW:2690. Requirements: undergraduate standing.

CNW:3632 Prose Style 3 s.h.
Sentences: how they work, what they do; how sentences can help writing, expand understanding of prose style, stretch options. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as WRIT:3632.

CNW:3633 Personal Writing 3 s.h.

CNW:3640 Writing for Business and Industry 3 s.h.

CNW:3644 Dublin Writing Workshop 3 s.h.
Intensive writing workshops for aspiring creative writers; study abroad in Dublin, Ireland. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CNW:3660 Multimedia Writing 3 s.h.
Multidisciplinary sessions mixing media production, creative nonfiction, and literary theory; topics ranging from hypertext authoring and electronic magazine publishing to sound art and digital video; principles and practices of writing for alternative media, theoretical understanding of how various media frame the situation; radio essay, video essay, interactive animation, web authoring, electronic magazine publishing.

CNW:3661 Film and Writing 3 s.h.
Writers' introduction to digital video; compelling forms of nonfiction filmmaking from the film essay to the environmental documentary; how to convert texts into film, conduct interviews, and shoot and edit digital video; emphasis on careful analysis and making of whitely films.

CNW:3662 Graphic Writing 3 s.h.
The photo essay and the graphic memoir, two modes of nonfiction that have steadily increased in prominence and popularity; key texts in both genres (i.e., Dorothea Lange’s American Exodus, Marjane Satrapi’s Persepolis, or Art Spiegelman’s Maus); writing and producing photo essays and short graphic memoirs.

CNW:3663 Radio and Writing 3 s.h.
Writing with sound; introduction to radio essays and documentaries with focus on digital audio; analyze key radio works and essayists; produce voiceovers, record interviews, mix music, edit sound and spoken texts in making radio art.

CNW:3664 Writing About Science 3 s.h.
Writing about science and technology from neurobiology to astrophysics; exploration of classic literary nonfiction on the sciences; focus on various stylistic practices for making complex topics compelling for a general audience and developing a clear and readable prose style.

CNW:4355 Approaches to Teaching Writing 3 s.h.
Theories, practices, strategies, and history of writing and teaching writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative. Same as EDTL:4355.

CNW:4631 Advanced Essay Workshop 3 s.h.
Experience working on new nonfiction projects, drafting and preparing one piece throughout a semester; individualized work to promote understanding of and creation in genres of nonfiction writing. Requirements: undergraduate standing and successful completion of one CNW course.

CNW:4635 Advanced Creative Nonfiction Writing 3 s.h.
Close work with faculty and peers on advanced creative nonfiction writing projects. Requirements: one 2000- or 3000-level CNW course.

CNW:4642 Team Writing for Business 3 s.h.

CNW:4690 Undergraduate Project in Nonfiction Writing arr.

CNW:5375 Teaching in a Writing Center 3 s.h.
Seminar/practicum to prepare graduate students to teach in the University of Iowa Writing Center or similar settings; seminar component on writing and reading processes, tutoring strategies, English-as-a-second-language issues; practicum experience tutoring in the Writing Center. Same as RHT:5375.

CNW:6600 Teaching Nonfiction 3 s.h.
Theories and practices of teaching nonfiction writing; writing workshop approaches, strategies to encourage response and revision, connections between reading and writing, diversity of form, language, and assessment.

CNW:6610 Essay Writing Workshop 4 s.h.

CNW:6620 Nonfiction Writing Workshop arr.

CNW:6625 Approaches to Nonfiction 3 s.h.
Investigation into forms of nonfiction writing.

CNW:6630 Graduate Thesis Workshop 4 s.h.
Thesis work in supportive workshop environment. Prerequisites: CNW:6610 and CNW:6620.

CNW:6650 Readings in Nonfiction 3 s.h.

CNW:6654 Forms of the Essay arr.

CNW:6656 Approaches to Nonfiction 3 s.h.

CNW:6660 Twenty-first-Century Nonfiction arr.

CNW:6666 Performance and Profession 3 s.h.
Making and maintaining a writing career, with lessons on navigating the writer’s job market; developing cover letters and curriculum vitae, interviewing, finding an agent, negotiating with publishers, handling social media, and delivering a reading.

CNW:6670 Overseas Writing Workshop arr.

CNW:7900 Special Project in Nonfiction Writing arr.

CNW:7950 Thesis in Nonfiction Writing arr.

Creative Writing—Writers' Workshop Courses

Course CW:1800 Creative Writing Studio Workshop does not count toward the English major or minor.
CW:1200 Creative Writing for Non-Native English Speakers 3 s.h.
Designed to help non-native English speakers who would like to learn more about creative writing; guided readings and creative writing exercises in fiction, poetry, and creative nonfiction, with special emphasis on the interests of writers from diverse backgrounds; creative writing as a means of self-expression, while improving writing and speaking skills in a friendly, supportive environment.

CW:1800 Creative Writing Studio Workshop 3 s.h.
Experience reading and writing fiction, poetry, and personal narrative in a workshop setting; study of published work and critical discussion from a writer's standpoint; critique of class members' work. GE: Literary, Visual, and Performing Arts.

CW:2100 Creative Writing 3 s.h.
Guidance in the process of writing fiction and poetry; writing as exploration; development of students' critical skills as readers; application of new knowledge and skills to students' own writing. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CW:2870 Fiction Writing 3 s.h.
Analysis of works of accomplished fiction writers; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CW:2875 Poetry Writing 3 s.h.
Careful writing of poems, reading of poetry by class members as well as established poets; supportive workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. GE: Engineering Be Creative.

CW:3003 Writing and Reading Science Fiction 3 s.h.
Science fiction literature as an ongoing conversation about the possible; exploration of world boundaries we have by imagining worlds that we don't (yet); alien encounters that consider ways we react to beings we see as unlike ourselves; alternate histories to illuminate what might have been; transhumanist fiction to explore what we may become; issues of composition and craft that underlie all effective fiction; students write and revise works of science fiction and engage in constructive discussion of each other's work. GE: Engineering Be Creative.

CW:3005 Professional and Creative Business Communication 3 s.h.
Solid foundation for creative and professional communication in today's modern workplace; exploration of techniques, strategies, and craft of writing résumés, letters of interest, email and its related etiquette, and organization of ideas into presentable form; semester-long creative project that builds a bridge between office and the world using modern technology and social media; readings and discussions of literature to better understand issues of ethics, leadership, conflict, moral judgment, decision making, and human nature; how to navigate and succeed in business or any professional field. GE: Engineering Be Creative. Same as INTD:3005.

CW:3107 Creative Writing for the Health Professions 3 s.h.
GE: Engineering Be Creative. Same as INTD:3107.

CW:3210 Creative Writing and the Natural World 3 s.h.
How humans tether to their environment through stories; students write stories and through writing explore if there is a new tie to sustainable history. GE: Engineering Be Creative. Same as INTD:3210.

CW:3215 Creative Writing and Popular Culture 3 s.h.
Creative writing through the lens of popular culture; topics include television, film writing, adaptations, commercials, advertising, magazines, newspapers, comic books, song lyrics, billboards, and backs of cereal boxes. GE: Engineering Be Creative. Same as INTD:3300.

CW:3217 Writing and Reading Young Adult Fiction 3 s.h.
Early to contemporary young adult fiction; how the genre addresses issues that are relevant to young people through its wide-ranging subject matter; issues facing the genre, including the debate over what constitutes it; readings and experience writing young adult fiction.

CW:3218 Creative Writing for New Media 3 s.h.
Prepares creative writers for evolving marketplace of electronic text, media; experience writing in varied media such as the Internet, e-books, video games, mobile devices, emergent social narratives. GE: Engineering Be Creative. Same as INTD:3300.

CW:3870 Advanced Fiction Writing 3 s.h.
Analysis of accomplished fiction writers' work; critique of class members' short stories, in writing and in class; discussion of how class members use language, characterization, point of view, other elements of fiction in their work. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2870.

CW:3875 Advanced Poetry Writing 3 s.h.
Writing poems, reading poetry by class members and established poets; workshop context. English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing. Prerequisites: CW:2875.

CW:4745 The Sentence: Strategies for Writing 3 s.h.
Writing dynamic, cogent, and grammatically correct sentences; effectively communicating ideas; writing with clarity and confidence; review of grammar and various types of sentences; building complexity by adding adverbial, subordinate, and connective clauses to simple sentences; how rhythm, syntax, and word order expand the meaning of a sentence; application and appreciation. GE: Engineering Be Creative. Same as WRIT:4745.

CW:4750 Writing and Activism 3 s.h.
Exploration of writing as a political act; examination of texts that focus on activism (e.g., environment, social inequality, racism, war); best practices for literary advocacy and social/political persuasion/instruction; improving dexterity with written persuasion; argumentation, and personal statements; application of study of writing to broader world.

CW:4751 Creative Writing for the Musician 3 s.h.
Better writing by focused appreciation of classical and popular music; musical forms and storytelling; music as a source of inspiration, performance of free-form writing exercises set to different soundtracks; what music can teach about language; scansion; methods for applying musical techniques in word form; how punctuation and grammar create rhythm; tone and diction used to create and modify dynamics of prose; multimedia project incorporating written, visual, and audio storytelling techniques. GE: Engineering Be Creative.
CW:4760 The Art of Revision: Rewriting Prose for Clarity and Impact 3 s.h.
Writing and rewriting of short stories and essays; specific choices to help writing reach its full potential; examination of first drafts and making strategic or radical decisions on what needs to happen in subsequent drafts in order for writing to better match original intentions; students gain insight from peers on where first drafts are succeeding or falling short, and write second and third drafts of short stories and personal narratives; structural and aesthetic choices. GE: Engineering Be Creative. Same as WRIT:4760.

CW:4870 Undergraduate Writers' Workshop: Fiction arr.
English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4875 Undergraduate Writers' Workshop: Poetry arr.
English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4894 Undergraduate Project in Creative Writing arr.
English majors may apply this course to the following area and/or period requirement. AREA: Nonfiction and Creative Writing.

CW:4897 Novel Writing 3 s.h.
Introduction to the process of writing a novel through focused lessons on character, perspective, plot, scene, and dialogue; organizing a longer work; creating notes and sections of a novel with progression towards completing a draft.
Requirements: creative writing or fiction writing course.

CW:5870 Graduate Fiction Writing 3 s.h.
Reading and discussion of published stories and those written by class members, with the aim of improving writing through careful reading and reflection, spirited discussion, and written comments.

CW:5875 Graduate Poetry Writing 3 s.h.
Careful writing and reading of poems by students as well as by established poets; thorough discussion in a supportive context.

CW:7810 Form of Fiction 3 s.h.
CW:7820 Form of Poetry 3 s.h.
CW:7830 Seminar: Problems in Modern Fiction arr.
CW:7870 Fiction Workshop arr.
CW:7875 Poetry Workshop arr.
CW:7890 Graduate Project in Creative Writing arr.

English Department Non-Major Course Work
ENNM:2100 Nonfiction Writing for Non-English Majors 3 s.h.
ENNM:2455 American Short Story for Non-English Majors 3 s.h.
ENNM:3105 Popular Literature for Non-English Majors 3 s.h.
ENNM:3170 Forms of the Essay for Non-English Majors 3 s.h.
ENNM:3633 Personal Writing for Non-English Majors 3 s.h.
ENNM:3640 Writing for Business and Industry for Non-English Majors 3 s.h.
**English, B.A.**

The Department of English challenges students to strive for excellence as writers. It provides instruction in and opportunities for writing in all of its classes. Students in the English major pursue a concentration in one of six areas, which may include a historical period, a theoretical focus, or creative and nonfiction writing. The department also offers an honors program in which students work closely with a faculty member to complete a major critical or creative project. See Honors [p. 365] in this section of the Catalog.

Students who plan to teach English in secondary schools should consult with an advisor in the College of Education as early as possible; contact the Office of Student Services. The education endorsement requires that students choose particular courses in the English major in order to meet state requirements. See "B.A. with Teacher Licensure" under Requirements [p. 358] in this section of the Catalog.

Students interested in an English major should consult the academic advisor in the English undergraduate advising office.

### Requirements

The Bachelor of Arts with a major in English requires a minimum of 120 s.h., including at least 36 s.h. (usually 12 courses) of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

Students must earn at least 21 s.h. of credit for the major at the University of Iowa. Transfer students may count a maximum of 15 s.h. of approved transfer credit toward the major.

Students majoring in English should not use ENGL:1200 The Interpretation of Literature to fulfill the General Education Program's Interpretation of Literature requirement. They may substitute a course from the Literary, Visual, and Performing Arts area of General Education, excluding these: DANC:1010 through DANC:2040, DANC:4880 Dance Gala Performance, and MUS:1020 Performance Instruction for Nonmajors.

Only courses numbered above 2000 count toward the English major. The following courses do not count toward the English major:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CNW:1620</td>
<td>Introduction to Creative Nonfiction</td>
<td>3</td>
</tr>
<tr>
<td>CW:1800</td>
<td>Creative Writing Studio Workshop</td>
<td>3</td>
</tr>
</tbody>
</table>

Courses numbered ENGL:1000 through ENGL:1999

Courses with the prefix ENNM

Students may count up to 6 s.h. earned in courses with prefix CW toward the English major.

All English majors must complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures, as well as one course in reading and writing about a genre (ENGL:2012-ENGL:2016).

Other course work for the major is divided into six areas and three historical periods. Students must complete a total of eight area courses (see “Areas” below) and six historical period courses (see "Historical Periods" below). Most courses (except those in the creative writing and nonfiction writing list) satisfy both an area and a historical period requirement, so students generally fulfill the historical period requirements as they complete the area requirements. This allows them to choose additional elective course work to complete the major.

Each course's area and period designations are included in its course description, which is provided in the comprehensive list of Department of English courses; see Courses [p. 344] in this section of the Catalog. A course's area and/or period designation may vary by semester; consult MyUI for semester-specific course information. Additional information about courses is available on the Department of English website and from the academic advisor.

Students pursuing the B.A. in English can choose to complete requirements for the publishing track; see "Publishing Track" below for information.

The B.A. with a major in English requires the following course work.

| Area/Period Courses | 24 |
| Electives           | 6  |
| Total Hours         | 36 |

### Introductory Courses

All English majors must complete two introductory courses and are encouraged to enroll in them as soon as they declare the major. Students must take ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures as well as one reading and writing about a genre course (ENGL:2012-ENGL:2016).

This course:

</tbody>
</table>

### Areas

Students must complete at least one course (3 s.h.) from each of the following six areas. Each student also must choose one of the six areas as a concentration area and take an additional two courses in that area, for a total of three courses (9 s.h.) in one area, and eight area courses in all.

The historical period of each of the following courses is designated as early literatures through the 17th century, or 18th/19th-century literature, or 20th/21st-century literature, depending on course content, which varies by semester. Consult MyUI for semester-specific period designations.

ENGL:3140 Literature and the Book 3
ENGL:3142 Topics in Book History 3
ENGL:3165 Literature and the Environment 3
ENGL:4000 English Honors Seminar 3
ENGL:4150 Introduction to Book Studies 3

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing
Both of these (6 s.h.):

ENGL:2130 Introduction to the Novel 3
ENGL:2140 Introduction to Poetry 3
ENGL:2193 Literature, Culture, and Women 3
ENGL:2369 Topics in British Culture and Identity 3
ENGL:2420 American Literary Classics 3
ENGL:2425 American Poetry 3
ENGL:2450 American Short Story 3

CNW:2991 Publishing I: Introduction to Literary Publishing 3
CNW:2992 Publishing II: Advanced Literary Publication 3

Editing, Book Design, or Revision
One of these (3 s.h.):

ENGL:2900 Book Design for Publishing 3
ENGL:3145 The Contemporary Literary Magazine and Editorial Practice 3

CNW:3632 Prose Style 3

Historical Period Determined by Course Content

The historical period of each of the following courses is designated as 18th/19th-century literature or 20th/21st-century literature, depending on course content, which varies by semester. Consult MyUI for semester-specific period designations.
History of the Book and the Publishing Industry
One of these (3 s.h.):
ENGL:3140 Literature and the Book 3
ENGL:3142 Topics in Book History 3
ENGL:3180 Topics in Digital Media 3
ENGL:3181 Digital Media and Poetics 3
ENGL:3182 Digital Cultures and Literacies 3
ENGL:4150 Introduction to Book Studies 3

Career Preparation
One of these (1-3 s.h.):
ENGL:2040 English at Work 1
ENGL:4010 Special Project for Undergraduates arr.
CCP:1201 Academic Internship 1-3

Students should consult the department's advisor for information about completing the English major with the publishing track.

B.A. with Teacher Licensure
Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the College of Education's Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Majors interested in earning elementary school licensure should contact the Office of Student Services for information about requirements.

The following courses are required for students earning secondary school licensure.

English Courses
Students complete these courses as part of the English major.

ENGL:3190/EDTL:3382 Language and Learning 2-3
(area: literary theory and interdisciplinary studies)
ENGL:3191/EDTL:3393 Reading and Teaching Adolescent Literature 3
(area: literary theory and interdisciplinary studies)
CNW:4355/EDTL:4355 Approaches to Teaching Writing (area: nonfiction and creative writing) 3
A Shakespeare course
Three American literature courses
A British literature course
One nonfiction or creative writing course in addition to CNW:4355

Education Courses
These College of Education courses are required for teacher education.

EDTL:3002 Technology in the Classroom 2
EDTL:3090 Orientation to Secondary Education 1
EDTL:4087 Seminar: Curriculum and Student Teaching 1-3
EDTL:4091 Observation and Laboratory Practice in the Secondary School (student teaching) 6
EDTL:4092 Observation and Laboratory Practice in the Secondary School (student teaching) 6
EDTL:4314 Introduction and Practicum: Secondary English 3
EDTL:4315 Learning to Teach Secondary English-Language Arts and Field Experience 3
EDTL:4394 Methods: Secondary Reading 2-3
EDTL:4900 Foundations of Special Education 3
EPLS:3000 Foundations of Education 3
EPLS:4180 Human Relations for the Classroom Teacher 3
PSQF:1075 Educational Psychology and Measurement 3

One college-level mathematics or statistics course

Admission
Applicants to the Teacher Education Program in English must complete a minimum of 30 s.h., including ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures and an additional 12 s.h. in English courses, before they are admitted to the program. The following courses do not count toward the additional 12 s.h.: ENGL:1200 through ENGL:1355, ENGL:3190 Language and Learning, ENGL:3191 Reading and Teaching Adolescent Literature, and CNW:4355 Approaches to Teaching Writing.

Admission to the Teacher Education Program is selective; contact the College of Education's Office of Student Services for information.

Minor Licensure in English
Students who seek licensure for secondary teaching in fields other than English may seek minor licensure in English. First-year courses in rhetoric, speech, or writing do not count toward this requirement.

The English minor licensure program includes the following course work.

ENGL:3190/EDTL:3382 Language and Learning 2-3
ENGL:3191/EDTL:3393 Reading and Teaching Adolescent Literature 3
CNW:4355/EDTL:4355 Approaches to Teaching Writing 3
EDTL:4315 Learning to Teach Secondary English-Language Arts and Field Experience 3
EDTL:4394 Methods: Secondary Reading 2-3
An American literature course
A British literature course
A course in creative or nonfiction writing
An additional English course

While this program meets minimum requirements for licensure, the department recommends that students who want to teach English have considerably more training in the field.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major and to enhance their course of study through honors seminars and thesis writing. All students interested in taking honors course work are encouraged to join the English Honors Program as soon as they qualify. Students may join online; visit English Honors Program on the Department of English website.

Students must take two honors seminars, complete a two-semester thesis project, and maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in English.

Each year the department offers four honors seminars covering a wide range of subject areas and historical periods. Honors seminars are limited to 18 students, carry 3 s.h. of credit, and meet three hours each week. These courses require substantial reading and research and culminate in a 15-20 page essay. Students register for ENGL:4001-ENGL:4009; the honors seminars cover different areas and historical periods.

To register for a seminar, students are encouraged to have a University of Iowa g.p.a. of at least 3.33 and must have completed three English courses (not including introductory courses in nonfiction or creative writing) with a g.p.a. of at least 3.33 in English. The department also recommends that students complete ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures before taking an honors seminar.

The two-semester thesis project requires ENGL:4020 Honors Thesis Workshop (fall) and ENGL:4040 Undergraduate Honors Project (independent study), for a total of 6 s.h. To enroll in ENGL:4020, students must have completed one honors seminar with a grade of A-minus or higher and must have a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in English. The English Honors Program has established careful guidelines for each of the six types of honors theses accepted by the department: literary and cultural studies, nonfiction writing, electronic writing and multimedia production, English education, creative writing, and the interdisciplinary thesis for double honors, which allows a student to earn honors in two majors with one longer project. Information on thesis guidelines is available on the English Honors Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the English major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the fifth semester begins: at least two courses in the major

Before the seventh semester begins: at least four more courses (total of six) in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two more courses (total of eight) in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

GE: Literary, Visual, and Performing Arts or elective course [p. 472] 3
Elective course 3

**Hours** 15

**Total Hours** 120-128

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4. Students who have completed two GE: Literary, Visual, and Performing Arts courses may substitute an elective course.

5. Major courses can be taken in any order as long as ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures is taken before any 3000-level course.

**English with Certification for Secondary Education (B.A.)**

The English B.A. with certification for secondary education includes 12 courses for the major, 12 courses for General Education (out of a possible 14), and 12 electives (can be used for double major, minor, or other).

---

1 Students should check their degree audit to determine which Rhetoric course is appropriate.

### Iowa Degree in Three

University of Iowa majors who are strongly motivated can complete the degree in three years under the Iowa Degree in Three. The program is available to students who can complete more semester hours each term than they would on the Four-Year Graduation Plan.

Students sign an agreement during their first semester of enrollment; meet with an advisor at least once a semester to review their plans and progress; take courses during summer sessions, if necessary; meet specific course checkpoints; and maintain the grade-point average required for the major.

Students are allowed to bring Advanced Placement (AP), College Level Examination Program (CLEP), or transfer credit upon admission to reduce the number of semester hours required for their degree. They should consult their advisor about the program.

### Academic Plan

Students entering the University of Iowa with additional credit hours may be able to reduce their semester and summer session course load. Students may be able to study abroad...
GE: Values and Culture [p. 473] 3
Elective course 3
Elective course 2

Hours 18

Spring
Major: English course 3
Major: English course 3
Elective course 3
Elective course 3

Hours 18

Total Hours 120-128

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3 Students may use their elective courses to complete requirements for the major.

Career Advancement

The English major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in the private and nonprofit sector where writing, organization, research, and communication is highly valued. Within a year of graduation, over 92 percent of Department of English students are employed or in graduate programs.

The department’s advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Career Planning for English Majors on the Department of English website or enroll in the 1 s.h. course, ENGL:2040 English at Work.
English and Creative Writing, B.A.

The English and creative writing major enables students to learn the historical and traditional aspects of English literature and its relation to the craft of writing. The major provides the transferable skills important for a liberal arts major, including the ability to think strategically, read complex texts with comprehension, and master writing and speaking skills at an advanced level.

The English and creative writing major introduces students to the wealth of resources associated with the University of Iowa and the Iowa City writing communities. For the past 75 years, the Department of English and the University of Iowa Writers’ Workshop have been leaders in the area of writing. The M.F.A. offered by the Nonfiction Writing Program and administered by the Department of English has been voted the top M.F.A. program in creative nonfiction in the United States. Likewise, the M.F.A. program in the Writers’ Workshop is annually noted as the top graduate program in the country.

The international reputation of writing at Iowa is boosted by synergy across colleges, with the International Writing Program hosting published writers each fall from countries around the world and each spring traveling to other countries, taking Iowa writing on the road. This synergy helps the University and Iowa City draw writers of all ages and nationalities to its writing community. The community is bolstered by the strong readings series offered by the Nonfiction Writing Program, the Writers’ Workshop, and Prairie Lights Books, with hundreds of readings archived by the Iowa Digital Library, creating a resource for future writers and scholars.

The status of Iowa City as a UNESCO City of Literature also has enriched the writing community, with people from across the Midwest visiting the city during the annual Book Festival. The new Massive Open Online Courses (MOOCs) offered by the Department of English, “Every Atom: Walt Whitman’s Song of Myself,” and by the International Writing Program’s series called “How Writers Write” have enrolled thousands of students and adult learners, enhancing the reputation of the University of Iowa as the “Writing University.” The Summer Writing Festival, Iowa Young Writers Studio, the Certificate in Writing, the Center for the Book, the Iowa Playwrights Workshop, and the Iowa Youth Writing Project all help to turn Iowa City into a destination for young writers, who are drawn to the city for its heritage and for its current community of writers.

Requirements

The Bachelor of Arts in English and creative writing requires a minimum of 120 s.h., including at least 42 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major.

Transfer students must earn at least 30 s.h. work for the major at the University of Iowa.

Students earning a major in English and creative writing may not earn a major in English.

Students pursuing the B.A. in English and creative writing can choose to complete requirements for the publishing track; see “Publishing Track” below for information.

Only courses numbered above 2000 count toward the English and creative writing major. The following courses do not count toward the major.

<table>
<thead>

<td>3</td>
</tr>
</tbody>
</table>

Literature Core Courses

Core courses help students to learn and practice critical reading and analysis, to understand the relation of literature to history and culture, and introduce students to the context and tradition of literature written in English.

The area and historical periods for English courses are identified under English Courses [p. 344] in this section of the Catalog and in the MyUI Courses descriptions. Since most courses satisfy both an area requirement and a historical period requirement, most students complete these requirements with the same courses.

Area Requirement

A minimum of 3 s.h. must be completed from each of the following five areas of English literary study for a minimum total of 15 s.h. of course work.

- American literature and culture
- Literary theory and interdisciplinary studies
- Medieval and early modern literature and culture
- Modern British literature and culture
- Transnational literature and postcolonial studies

Historical Period Requirement

A minimum of 3 s.h. from each of the following three historical periods in English literary study (total of 9 s.h.) must be completed.

- Early literature through the 17th century
- 18th/19th-century literature
- 20th/21st-century literature
Diversity Requirement

Multiethnic American Literature and Culture

Students must complete one multiethnic American literature and culture course (at least 3 s.h.) from the following.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL:2460</td>
<td>Black Literature and Politics: Controversies of National Allegiance</td>

</tr>
</tbody>
</table>

Creative Writing Core Courses

The creative writing core provides courses in a range of literary genres. Students choose a minimum of 9 s.h. in electives and a minimum of 9 s.h. in advanced courses, as listed below.

Creative Writing Electives

The creative writing electives give students flexible choices to focus on fiction, nonfiction, poetry, or other genres of writing, and allow students to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Many of the courses are repeatable, enabling students to further develop in a particular writing form. Some of these courses have prerequisites.

Students must select a minimum of 9 s.h. from the following.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CINE:2861</td>
<td>Screenwriting: Short Form</td>
<td>3</td>
</tr>
<tr>
<td>CINE:2867</td>
<td>Screenwriting: Long Form</td>
<td>3</td>
</tr>
<tr>
<td>Courses numbered CNW:2680-4999</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Courses numbered CW:2000-4999</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Advanced Requirements

Students must first complete the two introductory courses, ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures and ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure before they enroll in advanced courses. Advanced courses give students flexible choices so they can focus on fiction, nonfiction, poetry, or other genres of writing, and provide the opportunity to experiment across genres. Courses focus on the particulars of craft, tradition, and innovation. Most of the advanced courses are repeatable and most have prerequisites.

Students must select a minimum of 9 s.h. in advanced creative writing courses from the following.

<table>
<thead>
<tr>

Publishing Track

The world of publishing includes many different careers: editors, designers, agents, even sales representatives. Students who are interested in these careers may wish to pursue the publishing track. By selecting courses carefully, students may complete the track without adding additional semester hours to their total credit required for graduation.

Courses range across print and digital media, exposing students to the history and practice of literary publishing while developing their skills in editing, proofreading, and writing with clarity and purpose. Internships and hands-on class learning offer students the opportunity to produce their own publications and gain practical experience.

Students in the publishing track must complete the following.

Literary Publishing
Both of these (6 s.h.):
- CNW:2991 Publishing I: Introduction to Literary Publishing 3
- CNW:2992 Publishing II: Advanced Literary Publication 3

Editing, Book Design, or Revision
One of these (3 s.h.):
- ENGL:2900 Book Design for Publishing 3
- ENGL:3145 The Contemporary Literary Magazine and Editorial Practice 3
- CNW:3632 Prose Style 3

History of the Book and the Publishing Industry
One of these (3 s.h.):
- ENGL:3140 Literature and the Book 3
- ENGL:3142 Topics in Book History 3
- ENGL:3180 Topics in Digital Media 3
- ENGL:3181 Digital Media and Poetics 3
- ENGL:3182 Digital Cultures and Literacies 3
- ENGL:4150 Introduction to Book Studies 3

Career Preparation
One of these (1-3 s.h.):
- ENGL:2040 English at Work 1
- ENGL:4010 Special Project for Undergraduates arr.
- CCP:1201 Academic Internship 1-3

Students should consult the department’s advisor for information about completing the English and creative writing major with the publishing track.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. They must complete these requirements:

- maintain a University of Iowa g.p.a. of at least 3.33 and an English and creative writing major g.p.a. of at least 3.50;
- complete 6 s.h. of course work in Department of English honors seminars, ENGL:4000 English Honors Seminar-ENGL:4009 Honors Seminar: Medieval and Early Modern Literature, Early Literature/17th Century (3 s.h. each), with a grade of at least A-minus in one enrollment;
- complete a 3 s.h. enrollment in ENGL:4020 Honors Thesis Workshop; and
- successfully complete a thesis in accordance with existing requirements in the English Honors Program. Information on thesis guidelines is available on the English Honors Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program. Membership in the UI Honors Program is not required to earn honors in the English and creative writing major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the fifth semester begins: at least six courses in the major, including ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures, ENGL:2020 Foundations of Creative Writing: Craft, Practice, Pleasure, and an approved introduction to creative writing course (consult advisor)

Before the seventh semester begins: at least four more courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: at least two more courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students who have completed two GE: Literary, Visual, and Performing Arts courses may substitute an elective course.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

4 Major courses can be taken in any order as long as ENGL:2010 Foundation of the English Major: Histories, Literatures, Pleasures is taken before any 3000-level course.

**Career Advancement**

The English and creative writing major prepares students for a wide variety of career paths including teaching, medicine, law, graduate school, and jobs in the private and nonprofit sector where writing, organization, research, and communication is highly valued. Within a year of graduation, over 92 percent of Department of English students are employed or in graduate programs.

The department's advisor helps guide students in their career path. The Department of English partners with the Pomerantz Career Center to introduce career development strategies and offer resources to help students find internships and jobs. For more information, students are encouraged to explore Career Planning for English Majors on the Department of English website, or enroll in the 1 s.h. course, ENGL:2040 English at Work.
English, Minor

The undergraduate minor in English requires a minimum of 15 s.h. in English courses, including 12 s.h. in courses taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of approved transfer credit toward the minor. Before taking courses for the minor, students must complete the General Education Program [p. 464] requirement, ENGL:1200 The Interpretation of Literature.

The minor must include at least 6 s.h. in literature courses numbered ENGL:2100 through ENGL:4810; the remaining 9 s.h. may be selected from additional courses in literature and from most courses in writing (prefixes CNW and CW), with a maximum of 6 s.h. earned in courses with the prefix CW.

Only courses numbered above 2000 count toward the English minor. The following courses do not count toward the English minor.

<table>

</table>

Courses numbered ENGL:1000 through ENGL:1645

Courses with the prefix ENNM

Students may declare the English minor on MyUI. In order for the minor to be recorded, students must indicate completion of the minor on their degree application.

Students who would like help declaring the minor or in planning how to meet its requirements may stop by the Department of English advising office or schedule an appointment with an advisor by contacting the English department's front desk administrator.
English, Master of Arts

The Master of Arts program in English introduces students to the professional study of literature.

The M.A. is appropriate for students who would like graduate training in English and who may have an undergraduate major in a different field or who may intend to earn a Ph.D. at another institution. Students interested in careers in any area of book studies (professional writing, editing, web design, or publishing) may wish to earn the M.A. as a terminal degree, as may teachers seeking to enhance their credentials or students pursuing intellectual growth unrelated to a specific career.

M.A. and Ph.D. students in English mix freely in graduate courses, share the same access to faculty, and meet the same standards of quality in their work.

Exam for the Master of Arts in Teaching

The department administers the English component of the exam for the Master of Arts in Teaching (M.A.T.) in coordination with the College of Education. M.A.T. students should contact the Department of Teaching and Learning for information.

Requirements

The Master of Arts program in English requires a minimum of 30 s.h. of graduate credit. The program's focus is literary studies. Students may receive credit for up to 6 s.h. of transfer courses toward the M.A. degree. They must maintain a g.p.a. of at least 3.00 at the University of Iowa. Students who wish to transfer to Iowa's Ph.D. program must complete two semesters or 15 s.h. of course work in literature (whichever is completed first) before applying for admission to the doctoral program.

Course Work

Each student must take five courses numbered 5000 or above as indicated below. Applicable transfer courses must be approved by the director of graduate study in English.

One course in criticism and theory numbered 5000 or above

Four courses numbered 5000 or above, chosen from the following five eras of British, American, and/or Anglophone literature and culture: pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries

Elective courses constitute half of the total credit for the degree and may be chosen from graduate courses both in and outside the English department. Students may wish to explore opportunities for interdisciplinary study, language study, experience in theory and practice of writing, or specialization in a field of literary scholarship.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

Completion of the M.A. requires either a thesis or a portfolio. Students submit a written description of their choice to the director of the program before the semester in which they plan to graduate.

M.A. Thesis

Students who choose to write a thesis must submit a brief prospectus approved by a thesis director before they register for thesis credit and at least one semester before they submit the thesis. The thesis committee consists of the thesis director, the director of the M.A. program, and one other faculty member. The thesis is evaluated by the committee as either satisfactory or unsatisfactory.

A copy of the thesis must be presented to the Graduate College for approval. For detailed information about Graduate College deadlines and policies, see the Manual of Rules and Regulations of the Graduate College.

Portfolio

Near the end of their course work, students who do not choose the thesis option must submit a portfolio of work to the M.A. examination committee, which consists of the director of the M.A. program and two other English faculty members. All three read the full portfolio. To pass, the candidate must have a majority vote of the committee members.

Students take the first step toward preparing to submit a portfolio by meeting with the director of the M.A. program to discuss the portfolio, early during the semester in which they plan to graduate. After fulfilling all distribution and eligibility requirements and clearing all incomplete grades, students present the director with a draft of the portfolio’s introductory statement. Students planning to graduate at the end of fall semester should present the statement by the first week of October; those who plan to graduate at the end of spring semester should present the statement by the first week of March. Once the director approves the statement, the student must submit three copies of the full portfolio; the submission deadline is November 1 for students planning to graduate at the end of fall semester and April 1 for those who will graduate at the end of spring semester.

The work in the portfolio should demonstrate the student’s knowledge of literature as a broad historical and theoretical inquiry. Students submit approximately 50 pages (12,500 words) of their best work, along with a self-reflective introductory statement of five to seven pages. The body of the portfolio should contain papers originally produced for classes, revised for a broader audience unfamiliar with the original classes. The introduction should detail the student’s trajectory in the program and the literary-critical or methodological skills gained. It also should explain the contents of the portfolio; contextualize each paper; and give a brief overview of the writing. Students are expected to describe the research methods used in assembling their portfolios and the critical practices that ground their work.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by January 1. Applicants should submit their applications and supporting materials to the University of Iowa Office of Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.
Career Advancement

The Master of Arts in English degree helps prepare students for careers in professional writing, editing, web design, and publishing. It also is desirable for teachers seeking to enhance their credentials.
English (creative writing), M.F.A.

The Master of Fine Arts in English with a subprogram in creative writing features advanced courses in writing fiction and poetry. Students in creative writing study at the Iowa Writers' Workshop, renowned as a pioneer in teaching writers since its founding in 1936.

Requirements

The Master of Fine Arts program in English with a subprogram in creative writing requires a minimum of 48 s.h. of graduate credit. The degree is offered through the Creative Writing Program (Iowa Writers' Workshop), a two-year residency program that culminates in a creative thesis, such as a novel, a collection of stories, or a book of poetry.

Throughout the program, workshop students craft their manuscripts and engage in an exchange of ideas about writing and reading with each other and with the renowned teacher-authors who make up the workshop's faculty.

Admission to the program is competitive.

For details about the M.F.A. in English (creative writing) and about the Iowa Writers' Workshop, see Creative Writing (Iowa Writers' Workshop) [p. 297] in the Catalog.
English (nonfiction writing), M.F.A.

The Master of Fine Arts in English with a subprogram in nonfiction writing, known as the Nonfiction Writing Program, is one of the few programs in the nation that offers a full range of graduate courses in nonfiction.

Requirements

The Master of Fine Arts program English with a subprogram in nonfiction writing requires 48 s.h. of graduate credit. It is designed for accomplished students and writers of literary nonfiction; most complete it in three years. The program culminates in a thesis of at least 75 pages.

M.F.A. students must complete 32 s.h. in residence at the University of Iowa, in courses specified by the program. They may choose electives widely, from courses offered by the English department and by all other University of Iowa departments.

Department of English graduate courses are repeatable with the written approval of the department's director of graduate studies.

In addition to completing course work, students are required to enroll for at least 2 s.h. and no more than 8 s.h. of thesis credit. The thesis may be a single extended piece of nonfiction, a collection of shorter nonfiction pieces, or a collection of essays. Whatever the project, the thesis is expected to be of publishable quality.

For more information, consult the director of the Nonfiction Writing Program.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by January 1. Applicants should submit their applications and supporting materials to the University of Iowa Office of Admissions website.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Graduate scholarships, fellowships, and teaching and research assistantships are awarded on a competitive basis. The department strives to provide three years of support for students who maintain good standing, which requires a University of Iowa g.p.a. of at least 3.00, full-time enrollment, and satisfactory progress through the program.

Financial aid applications are considered only from students who have applied or been admitted to a degree program in the Graduate College. Applications and all necessary supporting material must be submitted by the end of January for the following academic year. Forms are available from the Department of English and the University's Office of Admissions.
English, Ph.D.

The Doctor of Philosophy program in English is designed as preparation for the teaching, publishing, and administrative service required of a career in academia and to provide depth of study in the field of English.

For further information, see Ph.D. in English on the department’s website.

Requirements

The Doctor of Philosophy program in English requires a minimum of 72 s.h. of graduate credit. Concentrations are offered in areas such as literary history and critical theory, as well as interdisciplinary areas such as cultural studies and transnational studies.

Of the minimum 72 s.h. required for the degree, at least 51 s.h. must be graded course work at the 3000-level or above. Of those, at least 30 s.h. must be in English courses at the 5000-level or above.

Students must gain formal admission to Ph.D. candidacy by a vote of the Graduate Steering Committee, usually during the third semester of doctoral study.

Students complete course work in literature and culture of any four of these historical periods, as expressed in texts of the English-speaking and -writing world (usually but not always British or American): pre-1500, 1500-1660, 1660-1800, 1800-1900, 20th and 21st centuries. They also complete three seminars in the Department of English at the University of Iowa.

Students also must fulfill the program's language requirement, usually by completing an advanced undergraduate course numbered 3000 or above in a language other than English.

The comprehensive examination consists of the following: a portfolio of five scholarly questions based on a period of literary history (usually British or American); a review essay and annotated bibliography in a special area of interest; two course syllabi; an article to be submitted for publication; and an introduction to the portfolio that synthesizes its parts in preparation for a two-hour oral exam.

A dissertation is required. Students present their prospectus formally to a faculty committee and must undergo a final exam defending the dissertation.

All doctoral candidates are strongly advised to gain some teaching experience, preferably in the College of Liberal Arts and Sciences Department of Rhetoric and in General Education Program [p. 464] literature courses.

For application forms and a complete description of the Ph.D. program, contact the department's graduate program academic coordinator.

Admission

Applications and all supporting documents for graduate admission must be submitted electronically by January 1.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Financial Support

Graduate scholarships, fellowships, and teaching and research assistantships are awarded on a competitive basis. The department strives to provide five years of support for students who enter with an M.A. and six years of support for students who enter with a B.A. Students must be in good standing, which requires a University of Iowa g.p.a. of at least 3.00, full-time enrollment, and satisfactory progress through the program.

Financial aid applications are considered only from students who have applied or been admitted to a degree program in the Graduate College. Applications and all necessary supporting material must be submitted by the end of January for the following academic year. Forms are available from the Department of English and the University’s Office of Admissions.

Career Advancement

Most Ph.D. graduates seek employment at colleges and universities. Although the Department of English cannot guarantee such employment, it does supply vigorous assistance. Because there is no certainty that all doctoral graduates in English will find continuing academic employment, it is valuable to remain open to the opportunity of jobs outside the profession of teaching. A number of graduates are finding employment in academic administration, the digital humanities, business, and government.

See information about Ph.D. job placement within and without academia at Ph.D. Placement on the department's website.
English as a Second Language

Director
• Maureen Burke

Assistant Directors
• Jeffrey Knowling, Melissa Meisterheim

Faculty: https://clas.uiowa.edu/esl/people
Website: https://clas.uiowa.edu/esl/

The University of Iowa offers English as a Second Language (ESL) instruction in three distinct, but related, programs: ESL credit classes, the Iowa Intensive English Program (IIEP), and the Teaching Assistant Preparation in English program (TAPE).

These programs meet the needs of students whose first language is not English. ESL credit classes help students raise their English proficiency so they can complete a degree successfully. IIEP provides intensive instruction for students who must raise their English proficiency to gain admission to a university or college. TAPE helps students improve their oral competence in English so they may assume classroom teaching responsibilities.

Programs

ESL Credit Program

English as a Second Language credit classes bridge the gap between full-time language instruction and full-time academic work, serving students who score a minimum of 80-100 (Internet-based) with no subscore below 17 on the Test of English as a Foreign Language (TOEFL). ESL courses are offered to help students increase their proficiency in four skill areas: reading, writing, speaking, and listening. A course in grammar also is available. Each course offers 3 s.h. of credit, which undergraduates may count as elective credit toward graduation. Courses are taught by ESL lecturers and by teaching assistants pursuing advanced degrees in linguistics.

Acceptable TOEFL scores may change. Check with the Office of Admissions for more information.

Courses taken to meet the College of Liberal Arts and Sciences English proficiency requirement must be completed with a grade of C or higher. If a student earns a grade of C− or lower in an ESL course, the course must be retaken in order for the student to fulfill the ESL course requirement. An ESL course must be taken for a letter grade and may not be taken pass/nonpass. English as a Second Language (ESL) courses may not be taken as satisfactory/unsatisfactory. In order to enroll in ESL courses, undergraduates must score 80 (Internet-based) or higher on the Test of English as a Foreign Language (TOEFL), or the equivalent; graduate students must score 81 (Internet-based) or higher on TOEFL, or the equivalent. Consent of ESL director is required for all courses.

ESL:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities).

ESL:1005 ESL Special Topics 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings). Same as CLAS:1005.

ESL:4100 English as a Second Language: Academic Oral Skills 3 s.h.
Speaking skills for the U.S. academic setting and society: pronunciation, grammar, vocabulary; structured opportunity to develop fluency.
ESL:4130 English as a Second Language: Academic Listening Skills 3 s.h.
Development of listening skills for students whose first language is not English; focus on listening skills necessary for success in a U.S. academic setting; academic lectures, note-taking skills, fast-paced classroom discussions. Requirements: undergraduate standing.

ESL:4160 English as a Second Language Grammar 3 s.h.
English structure; troublesome grammar patterns.

ESL:4190 English as a Second Language: Academic Writing 3 s.h.
Complex grammatical constructions, discourse considerations, formal vocabulary use expected of university students; organization styles, types of argumentation, analytic methods used in academic writing. Requirements: undergraduate standing.

ESL:4200 English as a Second Language: Academic Reading Skills 3 s.h.
Increasing reading speed and comprehension of university-level writing and vocabulary; exercises, discussion, and note-taking assignments to develop critical analysis skills.

ESL:6000 English as a Second Language: Writing Skills for Graduate Students 3 s.h.
Discourse considerations; styles of organization, types of argumentation, methods of analysis expected of graduate students. Requirements: TOEFL score of at least 550 (paper-based) or 81 (Internet-based).

Iowa Intensive English Program (IIEP) Courses

These courses are for students whose first language is not English. The Iowa Intensive English Program primarily serves students on conditional admission, those who have not yet been admitted to the University, and those who score below 80 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

IIEP:0001 Iowa Intensive English Program Orientation 0 s.h.
Acquaint new intensive English students with Iowa City, the University, and the intensive English program; policies and procedures, classroom expectations, and cultural differences. Requirements: enrollment in intensive English program.

IIEP:0115 Iowa Intensive English Communication Skills: Beginning 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0135 Iowa Intensive English Reading: Beginning 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0145 Iowa Intensive English Grammar: Beginning 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0155 Iowa Intensive English Writing: Beginning 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0170 Iowa Intensive English: Communication Skills for Professionals 0 s.h.
Listening and speaking skills for international professionals; conversational fluency, language for professional interactions (e.g., discussions and presentations).

IIEP:0215 Iowa Intensive English Communication Skills: Low Intermediate 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0235 Iowa Intensive English Reading: Low Intermediate 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0245 Iowa Intensive English Grammar: Low Intermediate 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0255 Iowa Intensive English Writing: Low Intermediate 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0315 Iowa Intensive English Communication Skills: Intermediate 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.
IIEP:0335 Iowa Intensive English Reading: Intermediate 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0345 Iowa Intensive English Grammar: Intermediate 0 s.h.
Correct use of the grammatical structures of English; learning grammar in a systematic and logical way; extensive practice to meet the goal of communicative competence in English.

IIEP:0355 Iowa Intensive English Writing: Intermediate 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0415 Iowa Intensive English Communication Skills: High Intermediate 0 s.h.
Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0435 Iowa Intensive English Reading: High Intermediate 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0455 Iowa Intensive English Writing: High Intermediate 0 s.h.
Personal and formal writing; varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0465 IIE Listening Skills: High Intermediate 0 s.h.
Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

IIEP:0515 Iowa Intensive English Communication Skills: Advanced 0 s.h.
Spoken English and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0535 Iowa Intensive English Reading: Advanced 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0555 Iowa Intensive English Writing: Advanced 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0565 IIE Listening Skills: Advanced 0 s.h.
Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

IIEP:0915 Special Program Iowa Intensive English Program Communication Skills 0 s.h.
Focus on aural comprehension, spoken English, and American attitudes, values, and customs; practice giving and receiving information; learn language more quickly in a comfortable, familiar environment; understand and accept cultural differences; gain positive feelings toward American culture; provides link between classroom and community; interview Americans, class discussions.

IIEP:0935 Special Program Iowa Intensive English Program Reading 0 s.h.
Comprehensive reading curriculum designed to help students become effective readers; variety of skills and opportunities to practice many strategies while reading different kinds of written material (i.e., newspapers, magazines, schedules, documents, textbooks, correspondence, literature); emphasis on learning by doing; eclectic teaching approach.

IIEP:0955 Special Program Iowa Intensive English Program Writing 0 s.h.
Personal and formal writing; experiment with varied forms of writing, from journal entries and letters to critiques, essay examinations, and short papers that involve use of the library; students read and respond to each other's writing, and in the process become more aware of their own strengths and weaknesses as writers.

IIEP:0965 Special Program Iowa Intensive English Program Listening 0 s.h.
Listening skills needed for academic success; note taking and listening skills associated with small group discussions and everyday conversations.

Teaching Assistant Preparation in English (TAPE) Courses

The TAPE program is designed for prospective teaching assistants whose first language is not English and who need additional work on English communication skills. Entry to the program is determined by a test.

TAPE:5100 Pronunciation, Fluency Building, and Culture 0 s.h.
Attain greater fluency for teaching by making short presentations and participating in natural interactions about U.S. culture; intensive work on pronunciation to help future teaching assistants attain maximum intelligibility.
TAPE:5220 TA Preparation in English: Pronunciation 0 s.h.
Intensive work toward maximum intelligibility; emphasis on stress, timing, intonation.

TAPE:5300 TA Preparation in English: Presentation Skills 0 s.h.
Intelligibility of speech and clarity of expression in presenting and responding; practice in videotaped lectures.

TAPE:5330 TA Preparation in English: Orientation 0 s.h.
Student expectations, typical teacher/student relationships, basic classroom management at the University.
Enterprise Leadership

Director, Division of Interdisciplinary Programs
• Helena R. Dettmer

Director, Enterprise Leadership
• David K. Hensley

Undergraduate major: enterprise leadership (B.A.)
Website: https://www.iowajpec.org/students/academics/ba-enterprise-leadership

The enterprise leadership major provides an option for students who want to focus on entrepreneurial business leadership. The major presents a unique blend of skills, theory, and content, encouraging students to apply their knowledge and skills to entrepreneurial and growing organizations. It is designed to prepare students for career success—whether they desire to be an innovator inside a large organization or aspire to be an entrepreneur and launch their own business. The program offers a combination of business and liberal arts approaches and allows students to hone their skills in innovation, entrepreneurship, communication, critical thinking, problem solving, and leadership.

Enterprise Leadership is one of the academic units in the Division of Interdisciplinary Programs [p. 321].

The major in enterprise leadership is offered jointly by the College of Liberal Arts and Sciences and the John Pappajohn Entrepreneurial Center in the Tippie College of Business. The degree is awarded by the College of Liberal Arts and Sciences.

Programs

Undergraduate Program of Study

Major
• Major in Enterprise Leadership (Bachelor of Arts) [p. 384]
Enterprise Leadership, B.A.

Requirements

The Bachelor of Arts with a major in enterprise leadership requires a minimum of 120 s.h., including a minimum of 47 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The B.A. in enterprise leadership may be earned at the Iowa City campus, the Des Moines campus, or online; more online courses are added each year.

Students may double-count a maximum of 6 s.h. earned for another major, minor, or certificate toward the B.A. in enterprise leadership, with the exception of the business administration minor. Enterprise leadership majors may double-count a maximum of three courses toward their major and a business minor.

Enterprise leadership majors may not earn the Certificate in Entrepreneurial Management.

Students may use transfer course work to fulfill Entrepreneurship and Business Core requirements in place of ENTR:1350 Foundations in Entrepreneurship and ENTR:2000 Entrepreneurship and Innovation. A minimum of 27 s.h. toward the major must be taken at the University of Iowa.

Students who wish to enroll in an online course should register in an EX section.

The B.A. with a major in enterprise leadership requires the following course work.

Capstone Experience

Students engage in an entrepreneurial leadership experience and apply their knowledge and skills through a business consulting/field study project or internship with an external business or nonprofit organization. The capstone experience should be related to a student’s career goals and involve the development and application of professional business skills such as project management; market research, analysis and planning; financial management and forecasting; operations management; sales; organizational leadership; or professional business communications. Students also may choose to plan and launch their own business to meet the capstone requirement.

Students also may choose an experiential learning course not listed below from another College of Liberal Arts and
Sciences major, with prior approval from the John Pappajohn Entrepreneurial Center.

One of these:
- ENTR:3000 Practicum in Entrepreneurship 3
- ENTR:4100 International Entrepreneurship and Culture 1-3
- ENTR:4200 Entrepreneurship: Business Consulting (section EX) 3
- ENTR:4300 Entrepreneurship: Advanced Business Planning (section EX) 3
- ENTR:4900 Academic Internship 3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Students must earn a minimum of 49 s.h. of work for the major. They must maintain a University of Iowa cumulative g.p.a. of 3.50 and a g.p.a. of at least 3.50 in all course work for the major. Students must earn at least 6 s.h. of honors or honors-designated course work for the major. They also must complete an honors thesis in ENTR:4999 Honors Thesis in Entrepreneurial Studies by creating original research in partnership with a full-time faculty member. In addition, students must complete the capstone experience required for the major.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the enterprise leadership major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the fifth semester begins: six courses in the major
Before the seventh semester begins: four more courses in the major and at least 90 s.h. earned toward the degree
Before the eighth semester begins: four more courses in the major
During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

**Career Advancement**

Enterprise leadership students develop a solid foundation in entrepreneurial management, and leadership and communication skills that will prepare them for a variety of professional career opportunities or prepare them to start their own business. Students are able to apply their innovative problem solving and critical thinking skills to contemporary issues, to develop strategies to seize upon opportunities, and to build and lead successful teams.

Graduates find rewarding careers in general management, business analysis, marketing and professional communications, management consulting, project management, and as founders or executives in start-up businesses. Students are prepared to work in large corporations, small- to medium-sized businesses, and nonprofit organizations.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Environmental Policy and Planning

Chair, Department of Geographical and Sustainability Sciences
  • David A. Bennett

Coordinator, Environmental Policy and Planning
  • Richard Tyler Priest (History)

Undergraduate major: environmental policy and planning (B.A., B.S.)
Undergraduate minor: environmental policy and planning
Faculty: https://clas.uiowa.edu/geography/people/faculty
Website: https://clas.uiowa.edu/geography/undergraduate-program/environmental-policy-and-planning-eppl-babs

The undergraduate programs of study in environmental policy and planning are administered by the Department of Geographical and Sustainability Sciences [p. 475].

Programs

Undergraduate Programs of Study

Majors
  • Major in Environmental Policy and Planning (Bachelor of Arts) [p. 389]
  • Major in Environmental Policy and Planning (Bachelor of Science) [p. 392]

Minor
  • Minor in Environmental Policy and Planning [p. 395]
Environmental Policy and Planning, B.A.

Requirements

The Bachelor of Arts with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 43-49 s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Transfer students must complete at least 21 s.h. of work for the major in residence at the University of Iowa.

The major in environmental policy and planning concentrates on the social science and policy dimensions of environmental problems, which often are caused by people and may have significant economic effects. Environmental issues are embedded in a complex mesh of economics, politics, culture, and behavior. Planners and policy makers must understand the human dimensions of these factors in order to solve environmental problems.

The environmental policy and planning major is interdisciplinary; it draws courses from geographical and sustainability sciences, anthropology, economics, political science, and other disciplines. Work for the major includes introductory courses, methods courses, intermediate courses, and one of two tracks: the planning track or the policy track.

Students who earn a second major in anthropology, geography, or political science must complete a minimum of 12 s.h. of course work in the second major that they do not also count toward the major in environmental policy and planning. The 12 s.h. of courses must be offered by the second major's administrative home: anthropology (prefix ANTH), geographical and sustainability sciences (prefix GEOG), or political science (prefix POLI). This requirement applies whether students earn the same degree (B.A. or B.S.) with both majors or earn a B.A. with one major and a B.S. with the other. However, honors students in environmental policy and planning may count their honors thesis credit toward this 12 s.h. requirement.

Students may not use a course to satisfy more than one requirement of the major.

The B.A. with a major in environmental policy and planning requires the following course work.

<table>
<thead>

</tbody>
</table>
Tracks

Students choose either the planning track or the policy track and complete their track's required course work.

Planning Track

The planning track requires 12 s.h. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course or seek permission of the instructor.

This course:
ECON:3625/URP:3135 Environmental and Natural Resource Economics 3

Three of these:
ECON:3640/URP:3134 Regional and Urban Economics 3
GEOG:2410 Environment and Development 3
GEOG:2930 Water Resources 3
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3
GEOG:3350 Urban Ecology 3
GEOG:3400 Iowa Environmental Policy in Practice 3
GEOG:3750/GHS:3760 Hazards and Society 3
GEOG:4770 Environmental Justice 3
URP:3001/GEOP:3920 Planning Livable Cities 3
URP:3350/ECON:3750/GEOP:3940 Transportation Economics 3

Policy Track

The policy track requires 13 s.h. Some of these courses have prerequisites; students must complete all of a course's prerequisites before they may register for the course.

This course:
GEOG:4750/URP:4750 Environmental Impact Analysis 4

Three of these:
ANTH:3237/MUSM:3237 Politics of the Archaeological Past 3
ANTH:3240 Cultural Resources Management Archaeology; Practice and Practicalities 3
GEOG:3331 Human Dimensions of Climate 3
GEOG:3400 Iowa Environmental Policy in Practice 3
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3
HIST:3230 American Environmental History 3

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors students in the program must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the major’s honors program by the first semester of their senior year or earlier.

Honors students in environmental policy and planning pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Students earn credit for the thesis by registering for GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis, or for both ANTH:4995 Honors Research Seminar and ANTH:4996 Honors Research. Students may substitute GEOG:4030 Senior Project Seminar for GEOG:4995 or POLI:4601, or for both ANTH:4995 and ANTH:4996 as long as they continue to work on the thesis under the direction of a faculty member.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental policy and planning major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: one introductory course in the major

Before the fifth semester begins: four courses in the major
**Before the seventh semester begins:** eight courses in the major and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 11 courses in the major

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

| Elective course | | 3 |
| Elective course | | 3 |
| **Hours** | | 15 |

**Total Hours 120-128**

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Environmental Policy and Planning, B.S.

Requirements

The Bachelor of Science with a major in environmental policy and planning requires a minimum of 120 s.h., including at least 50-56 s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]. Transfer students must complete at least 21 s.h. of work for the major in residence at the University of Iowa.

The major in environmental policy and planning concentrates on the social science and policy dimensions of environmental problems, which often are caused by people and may have significant economic effects. Environmental issues are embedded in a complex mesh of economics, politics, culture, and behavior. Planners and policy makers must understand the human dimensions of these factors in order to solve environmental problems.

The environmental policy and planning major is interdisciplinary; it draws courses from geographical and sustainability sciences, anthropology, economics, political science, and other disciplines. Work for the major includes introductory courses, methods courses, intermediate courses, and one of two tracks: the planning track or the policy track.

Students who earn a second major in anthropology, geography, or political science must complete a minimum of 12 s.h. of course work in the second major that they do not also count toward the major in environmental policy and planning. The 12 s.h. of courses must be offered by the second major's administrative home: anthropology (prefix ANTH), geographical and sustainability sciences (prefix GEOG), or political science (prefix POLI). This requirement applies whether students earn the same degree (B.A. or B.S.) with both majors or earn a B.A. with one major and a B.S. with the other. However, honors students in environmental policy and planning may count their honors thesis credit toward this 12 s.h. requirement.

Students may not use a course to satisfy more than one requirement of the major.

The B.S. with a major in environmental policy and planning requires the following course work.

| Introductory Courses | 13-14 |
| Intermediate Courses | 9 |
| Methods Courses | 13 |
| Capstone Course/Research Project | 3-6 |
| Track Courses | 12-13 |
| Total Hours | 50-55 |

### Introductory Courses

| Both of these: |  |
| ECON:1100 | Principles of Microeconomics | 4 |
| GEOG:1070 | Contemporary Environmental Issues | 3 |

One of these:

| ANTH:1046/ | Big Ideas: People and the Environment | 3 |
| GEOG:1046/ | Environment - Technology, Culture, and Social Justice | 3 |
| GWSS:1046 |  |
| ANTH:2261 | Human Impacts on the Environment | 3 |

One of these:

| EES:1080/ | Introduction to Environmental Science | 3-4 |
| ENVS:1080 |  |
| GEOG:1020 | The Global Environment | 3 |

### Intermediate Courses

This course:

One of these:

| AINS:3276/RELS:3976 | American Indian Environmentalism | 3 |
| ANTH:3103 | Environment and Culture | 3 |
| ANTH:4130/RELS:4730 | Religion and Environmental Ethics | 3 |

One of these:

| POLI:1400 | Introduction to Comparative Politics | 3 |
| POLI:3111 | American Public Policy | 3 |
| POLI:3126 | Environmental Policy | 3 |

### Methods Courses

All of these:

| GEOG:1050 | Foundations of GIS | 3 |
| GEOG:3520 | GIS for Environmental Studies | 3 |
| STAT:4143/PSQF:4143 | Introduction to Statistical Methods | 3 |
| STAT:6513/PSQF:6243 | Intermediate Statistical Methods | 4 |

### Capstone Course/Research Project

Students complete a capstone course or research project. Capstone or research project courses are typically taken by students during their senior year. Students who choose GEOG:4995 Honors Thesis, POLI:4601 Honors Senior Thesis, or ANTH:4996 Honors Research must make arrangements with a faculty advisor.

One of these:

| GEOG:4030 | Senior Project Seminar | 3 |
| GEOG:4995 | Honors Thesis | 3 |
| POLI:4601 | Honors Senior Thesis | 3 |

Or, students may take both of these:

| ANTH:4995 | Honors Research Seminar | 3 |
| ANTH:4996 | Honors Research | 2-3 |

### Tracks

Students choose either the planning track or the policy track and complete their track's required course work.

#### Planning Track

The planning track requires 12 s.h. Some of these courses have prerequisites; students must complete all of a course's
prerequisites before they may register for the course or seek permission of the instructor.

This course:
ECON:3625/URP:3135 Environmental and Natural Resource Economics 3

Three of these:
ECON:3640/URP:3134 Regional and Urban Economics 3
GEOG:2410 Environment and Development 3
GEOG:2930 Water Resources 3
GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3
GEOG:3350 Urban Ecology 3
GEOG:3400 Iowa Environmental Policy in Practice 3
GEOG:3760/GHS:3760 Hazards and Society 3
GEOG:4770 Environmental Justice 3
URP:3001/URP:3920 Planning Livable Cities 3
URP:3350/URP:3750/GEOG:3940 Transportation Economics 3

Policy Track
The policy track requires 13 s.h. Some of these courses have prerequisites; students must complete all of a course’s prerequisites before they may register for the course.

This course:
GEOG:4750/URP:4750 Environmental Impact Analysis 4

Three of these:
ANTH:3237/MUSM:3237 Politics of the Archaeological Past 3
ANTH:3240 Cultural Resources Management Archaeology: Practice and Practicalities 3
GEOG:3331 Human Dimensions of Climate 3
GEOG:3400 Iowa Environmental Policy in Practice 3
GEOG:3750 Environmental Quality: Science, Technology, and Policy 3
HIST:3230 American Environmental History 3
POLI:3100 American State Politics 3
POLI:3102 The U.S. Congress 3
POLI:3110 Local Politics 3
POLI:3111 American Public Policy 3
POLI:3117 Bureaucratic Politics and Public Administration 3
POLI:3118 Interest Groups 3
POLI:3122 Public Choice 3

POLI:3123 State Politics in Iowa (section EX) 3
POLI:3126 Environmental Policy 3
POLI:3204/SOC:3525 Public Opinion 3
POLI:3408 Chinese Politics and Society 3

Honors

Honors in the Major
Students have the opportunity to graduate with honors in the major. Honors students in the program must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. They must be admitted to the major’s honors program by the first semester of their senior year or earlier.

Honors students in environmental policy and planning pursue study beyond the typical undergraduate level. In order to graduate with honors in the major, they work under the direction of a faculty member to conduct original research and then prepare and present an honors thesis based on their research. The thesis is reviewed by a committee of at least three faculty members. Students earn credit for the thesis by registering for GEOG:4995 Honors Thesis or POLI:4601 Honors Senior Thesis, or ANTH:4995 Honors Research Seminar and ANTH:4996 Honors Research.

University of Iowa Honors Program
In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program; visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental policy and planning major.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan. Courses in the major are those required to complete the major; they may be offered by departments other than the major department.

Before the third semester begins: one introductory course in the major

Before the fifth semester begins: five courses in the major

Before the seventh semester begins: eight courses in the major and at least 90 s.h. earned toward the degree

Before the eighth semester begins: 12 courses in the major

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate
# Sample Plan of Study

## Career Advancement

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Environmental Policy and Planning, Minor

The undergraduate minor in environmental policy and planning requires a minimum of 18 s.h., including 12 s.h. in University of Iowa courses numbered 3000 or above. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. For help in selecting courses, students should contact the department secretary to request an advisor for the minor.

Students may apply a maximum of 6 s.h. toward both the minor in environmental policy and planning and any major or minor in the Departments of Anthropology, Geographical and Sustainability Sciences, or Political Science.

The minor in environmental policy and planning requires three core courses plus three courses from the student’s choice of track: the planning track or the policy track. Students may not use a course to satisfy more than one requirement of the minor.

**Core Courses**

All students complete three core courses.

This course:

- GEOG:1070 Contemporary Environmental Issues 3

One of these:

- ANTH:2261 Human Impacts on the Environment 3
- ANTH:3103 Environment and Culture 3
- ANTH:4130/RELS:4730 Religion and Environmental Ethics 3

One of these:

- POLI:1400 Introduction to Comparative Politics 3
- POLI:3111 American Public Policy 3

Students also complete course work in a single track, choosing three courses from either the planning track list or the policy track list below.

Environmental Sciences

Chair, Department of Earth and Environmental Sciences

• Charles "Tom" Foster Jr.

Coordinators, Environmental Sciences

• E. Arthur Bettis III, Andrew A. Forbes

Undergraduate major: environmental sciences (B.A., B.S.)
Undergraduate minor: environmental sciences

Faculty: https://clas.uiowa.edu/envsci/people
Website: https://clas.uiowa.edu/envsci/

The Environmental Sciences Program provides rigorous interdisciplinary training in the scientific study of the environment. It promotes an understanding of the earth as a complex network of interacting organic and inorganic systems. The program’s undergraduate curricula reflect the diversity in the broad field of environmental sciences and draw upon the College of Liberal Arts and Sciences’ disciplinary strengths, giving students the opportunity to develop particular areas of expertise.

Hands-on field experience is a crucial component of the program. Students are strongly encouraged to engage in research and study abroad.

The Department of Earth and Environmental Sciences [p. 326] is the administrative home for the Environmental Sciences Program.

Programs

Undergraduate Programs of Study

Majors

• Major in Environmental Sciences (Bachelor of Arts) [p. 398]
• Major in Environmental Sciences (Bachelor of Science) [p. 402]

Minor

• Minor in Environmental Sciences [p. 411]

Facilities

Depending on their choice of track and/or course selection, students majoring in environmental sciences may have the opportunity to take courses at Iowa Lakeside Laboratory, a field station located on West Lake Okoboji, in northwestern Iowa. Run cooperatively by the University of Iowa, Iowa State University, and the University of Northern Iowa, the laboratory offers courses at the undergraduate and graduate levels and provides excellent conditions for summer study in several disciplines. See Iowa Lakeside Laboratory [p. 1701] (University College) in the Catalog or visit the Lakeside Laboratory website.

Courses

Environmental Sciences Courses

ENVS:1080 Introduction to Environmental Science
3-4 s.h.
Biological and physical character of the Earth; interaction of humans with the environment, including impacts on ecosystems, climate, natural processes, resources; alternative options, including sustainability, waste management, energy, land reform. GE: Natural Sciences with Lab; Natural Sciences without Lab. Same as EES:1080.

ENVS:1085 Fundamentals of Environmental Science
4 s.h.
Interdisciplinary study of how Earth’s natural systems interact, how these systems affect society, and how they respond to human activity; how environmental problems can be solved and avoided by drawing upon knowledge in disciplines as diverse as ecology, anthropology, economics, chemistry, and political science; blended instructional environment, including traditional lectures, discussions in TILE classrooms, laboratory, online learning, peer-reviewed writing exercises, and service learning. Offered fall semesters. GE: Natural Sciences with Lab. Same as EES:1085.

ENVS:1090 Introduction to Environmental Sciences Laboratory
1 s.h.
Laboratory component of EES:1080. Requirements: completion of 3 s.h. in EES:1080 or ENVS:1080; or 3 s.h. of transfer equivalent. GE: Natural Sciences Lab only. Same as EES:1090.

ENVS:1115 Big Ideas: The History and Science of Oil
3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth’s deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, GEOG:1115, HIST:1115.

ENVS:2001 Second-Year Field Trip for Earth and Environmental Sciences
1 s.h.
Opportunity for students to begin developing an appreciation of earth system and earth history scales; application of classroom learning to field-based inquiry; real-world examples of introductory course material in an outdoor classroom setting. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Requirements: geoscience or environmental sciences major. Same as EES:2001.

ENVS:2200 Historical Geology
4 s.h.
Framework of earth history that is essential to understand how the earth system works; investigation of physical, biological, atmospheric, oceanographic, and chemical history of the earth to prepare for further earth and environmental science courses. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080. Same as EES:2200.

ENVS:2673 Ecology
3-4 s.h.
Adaptations of organisms to their physical and biological environments; organism-environment interactions; population biology; interactions between species; ecology of communities, ecosystems; human impact on ecosystems. Prerequisites: BIOL:1411 and BIOL:1412 and (MATH:1460 or MATH:1850 or MATH:1550). Recommendations: a basic statistics course. Same as BIOL:2673.
ENVS:3000 Environmental Sciences Seminar 1 s.h.
Role of sciences in environmental issues and problems; progression from observation to evaluation to design of better questions and experiments. Requirements: environmental sciences major.

ENVS:3001 Third-Year Field Trip for Earth and Environmental Sciences 1 s.h.
Opportunity for students to apply their major course work to real-world problems; field trip to visit parks, mines, and/or quarries in Missouri and Arkansas that illustrate many of the lessons learned in EES:2410 and EES:3500. Prerequisites: EES:1030 or EES:1050 or EES:1080 or ENVS:1080 or EES:2410. Requirements: geoscience or environmental sciences major, and junior standing. Same as EES:3001.

ENVS:3020 Earth Surface Processes 3 s.h.
Basic geomorphic and environmental processes that shape the earth’s surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Prerequisites: EES:1080 or EES:1050 or EES:1080 or EOG:1020. Same as EES:3020, EOG:3020.

ENVS:3050 Geology of Iowa 2 s.h.
Exploration of geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; background of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms, utilizing natural landscapes in Iowa. Same as EES:3050.

ENVS:3051 Geology of Iowa Field Trip 1 s.h.
Exploration of the geologic history responsible for landscape, soil, rocks, fossils, water, and natural resources of Iowa; field-based examples of Iowa's natural history; preparation for K-12 educators to deliver earth and environmental science content in their own classrooms utilizing the natural landscapes in Iowa. Recommendations: EES:3050. Same as EES:3051.

ENVS:3095 Field Ecology 4 s.h.
Analysis and interpretation of patterns and underlying physical and biotic basis for regional and local distributions of plants and animals of eastern Iowa; field observation, sampling, and laboratory analysis; conduction of several field research projects requiring collection, statistical analysis, and interpretation of data in short reports; field-oriented course. Recommendations: advanced undergraduate standing or graduate standing in ecology, environmental sciences, or geoscience.

ENVS:3096 Winter Ecology 2 s.h.
How seasons occur, thermoregulation, microhabitats, what animals are active, and winter plant identification; local area field work.

ENVS:3097 Introduction to Bird Study 2 s.h.
Basic identification skills, bird banding, and bird ecology; Hageboeck Hall of Birds at the UI Museum of Natural History; local field study.

ENVS:3100 Introduction to Applied Remote Sensing 4 s.h.
Remote sensing of the earth’s surface from aircraft, satellites; aerial photograph interpretation; remote sensing systems, methods, data analysis using electromagnetic spectrum and digital processing techniques, including visible, infrared, microwave radiation; remote sensing applied to geologic and environmental problems. Prerequisites: EES:1050 or EES:1080 or EES:1030. Same as EES:3100.

ENVS:3110 Chemical Evolution of the Oceans 3 s.h.
Investigation of various physicochemical states oceans have assumed over the past four billion years of Earth history; use of isotope geochemistry as a proxy for ancient ocean conditions; focus on integrated Earth system science, paleoceanographic and paleoclimate modeling, role of chemical stratigraphy in deciphering past climate states of ocean-atmosphere system; relationship between chemical changes in ocean/atmosphere and biological systems of the Earth. Same as EES:3110.

ENVS:4001 Fourth-Year Field Trip for Earth and Environmental Sciences 2 s.h.
Application of core course learning to real-world examples; students develop a broader understanding of interrelated aspects of earth and environmental sciences as truly integrated scientific endeavors; field trip to Big Bend National Park to highlight a wide range of geoscience and environmental science studies and provide students an opportunity to apply all aspects of their training to the amazing geologic landscape of southwest Texas; capstone field experience for students heading into their senior year. Prerequisites: EES:2831. Requirements: geoscience or environmental sciences major, and senior standing. Same as EES:4001.

ENVS:4700 Evolution of Ecosystems 3 s.h.
Evolutionary history of terrestrial and marine ecosystems; ecological processes from population to ecosystem levels; community assembly, trophic levels, networks, biodiversity dynamics; practical aspects of paleoecological data collection, statistical analysis, modeling. Requirements: two courses in geoscience, biology, environmental sciences, anthropology, or geography. Same as EES:4700.
Environmental Sciences, B.A.

Requirements

The Bachelor of Arts with a major in environmental sciences requires a minimum of 120 s.h., including a minimum of 63 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]; some courses required for the major in environmental sciences may be used to satisfy General Education Program requirements.

Bachelor of Arts students majoring in environmental sciences complete requirements in four areas: the science and mathematics foundation, the environmental sciences foundation, environmental sciences field study, and environmental sciences track courses.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on the geomorphic and environmental processes that shape the Earth’s surface, the ecological factors that influence the distribution and abundance of organisms, and a choice of one course that deals with remote sensing techniques or with the use of geographic information technologies. The environmental sciences field study gives students hands-on experience with methods of analysis and interpretation of natural systems/organisms.

Each of the program’s four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

Students select one course from each of the four tracks in order to develop breadth of understanding and skill in these areas.

The B.A. in environmental sciences requires the following course work.

**B.A. with Teacher Licensure**

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science—and earn a Bachelor of Science degree. They may apply for admission to the Teacher Education Program. See B.S. in Science Education [p. 1186] in the Teaching and Learning (College of Education) section of the Catalog.
Joint B.A./M.A.T. with Science Education Subprogram

B.A. students who are interested in pursuing a graduate degree in teaching may apply to the joint Bachelor of Arts/ Master of Arts in Teaching program offered by the College of Liberal Arts and Sciences and the College of Education. Designed for undergraduates majoring in biology, chemistry, environmental sciences, or physics, the joint program enables students to earn a B.A. and M.A.T. in five years by beginning to earn graduate credit during their fourth year of undergraduate study and by counting up to 18 s.h. of qualifying credit toward both degrees. For more information, see “Joint B.A./M.A.T. with Science Education Subprogram” under Science Education [p. 499] in Master of Arts in Teaching (College of Education) section of the Catalog. Interested students should consult an advisor.

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

Students must fulfill the following requirements:

- complete a B.A. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and
- present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program’s affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake. Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor’s supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program. [p. 464]

2. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

3. Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Environmental Sciences, B.S.

Requirements

The Bachelor of Science with a major in environmental sciences requires a minimum of 120 s.h., including 75-78 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464]; some courses required for the major in environmental sciences may be used to satisfy General Education Program requirements.

Bachelor of Science students majoring in environmental sciences must complete requirements in three areas: the science and mathematics foundation, the environmental sciences foundation, and one of four environmental sciences tracks. During their third year of study, students are assigned a faculty advisor who specializes in their track.

The science and mathematics foundation develops fundamental skills and comprehension in biology, chemistry, geology, mathematics, and statistics. The environmental sciences foundation includes an introductory course in environmental science and additional courses that focus on remote sensing techniques, design and use of geographic information technologies, the geomorphic and environmental processes that shape the earth's surface, and ecological factors that influence the distribution and abundance of organisms.

Each of the program's four tracks focuses on areas of specialization within environmental sciences:

- biosciences (green) track—biological systems and ecological approaches;
- chemical sciences (yellow) track—environmental systems and chemistry;
- geosciences (brown) track—earth materials and surficial geologic processes; and
- hydrosciences (blue) track—hydrogeology and hydrogeologic systems, and water chemistry.

The tracks aim to prepare scientists who can tackle problems that require particular areas of expertise, and to help students develop the skills needed for future employment or graduate study.

The B.S. with a major in environmental sciences requires the following course work.

Science and Mathematics Foundation Courses 27
Environmental Sciences Foundation Courses 15
Environmental Sciences Track Courses 33-36
Total Hours 75-78

Science and Mathematics Foundation

Students must complete at least 27 s.h. of course work, as follows.

All of these:
BIOL:1411 Foundations of Biology 4

Environmental Sciences Foundation

Students must complete 15 s.h. of course work, as follows.

All of these:
ENVS:1085/EES:1085 | Fundamentals of Environmental Science | 4     |
ENVS:2673/BIOL:2673 | Ecology | 3     |
ENVS:3000 | Environmental Sciences Seminar (taken twice for a total of 2 s.h.) | 2     |
ENVS:3020/EES:3020/GEOG:3020 | Earth Surface Processes | 3     |
GEOG:1050 | Foundations of GIS | 3     |

Environmental Sciences Track Courses

Students majoring in environmental sciences must choose one of the following four tracks. Each track includes required general sciences courses, track foundation courses, field study courses, and elective courses.

Biosciences (Green) Track

The biosciences track provides the essential skills for entry-level positions that require a good knowledge of biotic systems and the ability to inventory biologic resources. The track's aim is to produce scientists who are capable of tackling environmental problems in which links and interactions with life sciences are crucial and in which a substantial knowledge of biological/ecological sciences is required. The track also provides a strong foundation for graduate or professional training in disciplines such as ecology, wildlife management, and natural resource management.

Students must complete at least 33 s.h., including one field study course, as follows.

Biosciences Track: Foundation

These three courses:
BIOL:2512 | Fundamental Genetics | 4     |
BIOL:3172 | Evolution | 4     |
GEOG:2374/BIOL:2374 | Biogeography | 3     |

At least 9 s.h. from these:
ENVS:3100/EES:3100 | Introduction to Applied Remote Sensing | 4     |
or GEOG:3500  
Introduction to Environmental Remote Sensing

ENVS:4700/ EES:4700  
Evolution of Ecosystems 3

EES:3070  
Marine Ecosystems and Conservation 3

EES:3220  
Evolution of the Vertebrates 3

EES:4440  
Phylogenetics and Biodiversity 3

GEOG:2950  
Environmental Conservation 3

GEOG:3350  
Urban Ecology 3

Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor.

**Biosciences Track: Field Study**

One of these:

ENVS:3095  
Field Ecology 4

IALL:3103  
Aquatic Ecology 4

IALL:3109  
Ecology and Systematics of Algae 4

IALL:3117  
Ecology and Systematics of Diatoms 4

IALL:3122  
Prairie Ecology 4

IALL:3126  
Ornithology 4

IALL:3163  
Conservation Biology 4

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor.

**Biosciences Track: Electives**

Biosciences track students must complete at least 6 s.h. of elective course work, additional field study and foundation courses may be approved for elective credit:

BIOL:1261  
Introduction to Botany 4

BIOL:3244  
Animal Behavior 3

BIOL:3663  
Plant Response to the Environment 3

BIOL:3676

STAT:6513/ PSQF:6243  
Intermediate Statistical Methods 4

**Biosciences Track: Policy**

Biosciences track students must complete one of the following courses:

BIOL:1260  
Plants and Human Affairs 3

ECON:3625/ URP:3135  
Environmental and Natural Resource Economics 3

EES:1115/ ENVS:1115/ GEOG:1115/ HIST:1115  
Big Ideas: The History and Science of Oil 3

GEOG:1070  
Contemporary Environmental Issues 3

GEOG:3340  
Ecosystem Services: Human Dependence on Natural Systems 3

GEOG:3750  
Environmental Quality: Science, Technology, and Policy 3

GEOG:3780/ GHS:3780  
U.S. Energy Policy in Global Context 3

GEOG:4750/ URP:4750  
Environmental Impact Analysis 4

GEOG:4770  
Environmental Justice 3

**Chemical Sciences (Yellow) Track**

The chemical sciences track provides the essential skills for entry-level positions that require a basic understanding of chemical principles and a working knowledge of basic chemical concepts as applied in the environment. The track's aim is to produce scientists who are capable of tackling environmental problems in which chemical and molecular processes play an important role. The track also provides a strong foundation for graduate or professional training in environmental chemistry.

Students must complete at least 33 s.h. of course work, as follows.

**Chemical Sciences Track: Foundation**

These three courses:

CHEM:2210  
Organic Chemistry I 3

CHEM:3120  
Analytical Chemistry II 3

CHEM:3250  
Inorganic Chemistry 3

And 9 s.h. from this list (at least 3 s.h. must be lab hours):

CHEM:2220  
Organic Chemistry II 3

CHEM:2410  
Organic Chemistry Laboratory 3

CHEM:3110  
Analytical Chemistry I 3

CHEM:3120  
Analytical Chemistry II 3

CHEM:3440

**Chemical Sciences Track: Lab and Field Study**

This course:

CHEM:3430  
Analytical Measurements 3

**Chemical Sciences Track: Electives**
Chemical sciences track students must complete at least 9 s.h. of elective courses chosen from the following lists; students may petition the chemistry department's environmental sciences advisor to use appropriate Department of Chemistry courses numbered 3000 and above as electives; additional foundation courses may be approved for elective credit:

**Geosciences (Brown) Track**

The geosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of basic geologic concepts applied in the environmental industry. The track's aim is to produce scientists who are capable of tackling environmental problems in which earth materials and surficial geologic processes are of primary importance. The track also lays a strong foundation for graduate study in environmental geology, engineering geology, and natural hazards assessment.

Students must complete at least 35 s.h. of course work, as follows.

**Geosciences Track: General Sciences**

These two courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH:1860</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>PHYS:1400</td>
<td>Basic Physics</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are strongly encouraged to take additional course work in physics

**Geosciences Track: Foundation**

These two courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EES:2410</td>
<td>Mineralogy</td>
<td>4</td>
</tr>
<tr>
<td>EES:3300</td>

Hydrosciences (Blue) Track

The hydrosciences track provides the essential skills for entry-level positions that require a basic understanding of geologic principles and a working knowledge of hydrogeology and hydrogeochemistry. The track's aim is to produce scientists who are capable of tackling environmental problems that emphasize hydrogeologic systems and for which substantial knowledge of hydrogeology and water chemistry are essential. The track also lays a strong foundation for graduate education in hydrogeology, hydrology, geochemistry, and aqueous chemistry.

Students must complete at least 36 s.h. of course work, as follows.

Hydrosciences Track: General Sciences

These three courses:
- MATH:1860 Calculus II 4
- PHYS:1511 College Physics I 4
- PHYS:1512 College Physics II 4

Hydrosciences Track: Foundation

These two courses:
- EES:4630 Hydrogeology 3
- EES:4790 Engineering Geology 3

And 6 s.h. from these:
- EES:3380/CEE:3328 Fluvial Geomorphology 3
- EES:3390 Integrated Watershed Analysis 3
- EES:4490 Elements of Geochemistry 3

Hydrosciences Track: Field Study

One of these:
- CEE:4103 Water Quality 3
- EES:4680 Field Methods in Hydrologic Science 3

Hydrosciences Track: Electives

Hydrosciences track students must complete at least 6 s.h. of elective courses chosen from the following list, additional field study and foundation courses may be approved for elective credit:
- ENVS:3100/ EES:3100 Introduction to Applied Remote Sensing 4
- ENVS:3110/ EES:3110 Chemical Evolution of the Oceans 3
- CEE:2150/ GHS:2150 Natural Environmental Systems 3
- CEE:3371 Principles of Hydraulics and Hydrology 3
- CEE:4103 Water Quality 3
- CEE:4378 Hydrometeorology 3
- CEE:5154 Environmental Microbiology 3
- EES:3080 Introduction to Oceanography 2
- EES:3190 Directed Study arr.
- EES:3360 Sedimentary Geology 4
- EES:3360/ GEOG:3360 Soil Genesis and Geomorphology 3
- EES:4660/CEE:4104 Groundwater Modeling 3
- EES:4800 Solid Earth Geophysics 3
- EES:4870/ GEOG:4870 Applied Geostatistics 3
- GEOG:2310/ EES:2310 Introduction to Climatology 3
- GEOG:2950 Environmental Conservation 3
- GEOG:3320/ EES:3260 Wetlands: Function, Geography, and Management 3

Hydrosciences Track: Policy

Hydrosciences track students must complete at least one of the following courses:
- BIOL:1260 Plants and Human Affairs 3
- ECON:3625/ URP:3135 Environmental and Natural Resource Economics 3
- GEOG:1070 Contemporary Environmental Issues 3
- GEOG:2930 Water Resources 3
- GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3
- GEOG:3750 Environmental Quality: Science, Technology, and Policy 3
- GEOG:4750/ URP:4750 Environmental Impact Analysis 4
- GEOG:4770 Environmental Justice 3
B.S. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Students with a strong interest in science teaching may complete a science education major. Students choose one of five emphases—biology, chemistry, earth science, physics, or all-science. They may apply for admission to the Teacher Education Program. See B.S. in Science Education [p. 1186] in the Teaching and Learning (College of Education) section of the Catalog.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Honors study provides students with opportunities to engage in independent research under the guidance of a faculty sponsor chosen from affiliated faculty of the Environmental Sciences Program. The program draws faculty members from the Departments of Anthropology, Biology, Chemistry, Civil and Environmental Engineering, Earth and Environmental Sciences, and Geographical and Sustainability Sciences. Honors students learn how to write the results of their research in the format of a scientific paper, and they have the experience of formally presenting their research as either a short seminar or a poster.

Students must fulfill the following requirements:

- complete a B.S. with a major in environmental sciences with a g.p.a. of at least 3.33 in all work for the major;
- submit a research proposal to the honors director within two months of the beginning of the semester in which the research is initiated;
- complete a minimum of 6 s.h. of honors research taken over two semesters in BIOL:4999 Honors Research in Biology, CHEM:3994 Undergraduate Research, EES:3190 Directed Study, or GEOG:3992 Undergraduate Research, depending on the departmental affiliation of the faculty sponsor;
- prepare a thesis presenting the research in the format of a scientific paper with abstract, introduction, methods, results, discussion, and conclusions; the thesis must include a title page and an abstract formatted according to the specifications of the honors program and must be submitted to the honors director at least one week before the honors program deadline for submission; and present either a short seminar or a poster about the research at a professional meeting and/or at the University of Iowa.

Beginning in their sophomore or junior year, students should identify potential faculty sponsors by conducting a web-based survey of the research interests of the program's affiliated faculty. The student should contact potential sponsors to determine who would be willing to sponsor an honors student and what research projects the student might undertake.

Students who choose a sponsor whose faculty appointment is not in the College of Liberal Arts and Sciences must choose a cosponsor who has a faculty appointment in CLAS.

After the student has identified a sponsor and the two have agreed on a project, the sponsor guides the student in the preparation of a research proposal that identifies the background, goals, methods, and significance of the research project. The proposal serves as the foundation of the honors thesis, which the student prepares under the sponsor’s supervision upon completion of the research. Once the thesis is nearing completion or is completed, the student presents a short seminar or a poster detailing the purpose of the research.

For examples of honors projects in environmental sciences, see Honors Projects on the Environmental Sciences Program website.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the environmental sciences major.

Academic Plans

Four-Year Graduation Plan

The Four-Year Graduation Plan is not available for the environmental sciences major. Students work with their advisors on individual graduation plans.

Sample Plans of Study

Environmental Sciences (B.S.)

B.S. students majoring in environmental sciences must choose one of the four following tracks: biosciences (green) track, chemical sciences (yellow) track, geosciences (brown) track, or hydrosciences (blue) track. Each track includes required general science courses, track foundation courses, field study courses, and elective courses.

Biosciences (Green) Track

2. Students may use their elective courses to complete a double major, minors, or certificates.
3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
Career Advancement

Graduates are prepared for careers in conservation, environmental assessment, hazardous waste management, park inspection and compliance, or pollution control and monitoring.

The undergraduate degree program also prepares students for graduate study in disciplines such as biology, chemistry, ecosystem sciences, environmental engineering, environmental law, environmental science, environmental sustainability, geoscience, hydrologic sciences, natural resource management, remote sensing and landscape modeling, renewable energy, and urban and regional planning.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Environmental Sciences, Minor

The undergraduate minor in environmental sciences requires a minimum of 15 s.h. in University of Iowa environmental sciences course work. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor in environmental sciences requires the following course work:

One of these:
- ENVS:1080/ EES:1080 Introduction to Environmental Science 4
- ENVS:1085/ EES:1085 Fundamentals of Environmental Science 4

One environmental sciences foundation course, chosen from these:
- ENVS:2673/ BIOL:2673 Ecology 3
- ENVS:3020/ EES:3020/ GEOG:3020 Earth Surface Processes 3
- ENVS:3100/ EES:3100 Introduction to Applied Remote Sensing 4
- GEOG:1050 Foundations of GIS 3
- GEOG:3500 Introduction to Environmental Remote Sensing 3

And:
- Courses in one of the four environmental sciences tracks below 7-8

Tracks

Track courses must include one track foundation course (3-4 s.h.) and one track field study course (3-4 s.h.). The tracks are biosciences, chemical sciences, geosciences, and hydrosciences.

Biosciences Track

**Foundation Courses**
- BIOL:2346 Vertebrate Zoology 4
- BIOL:2512 Fundamental Genetics 4
- BIOL:3172 Evolution 4
- EES:3070 Marine Ecosystems and Conservation 3
- EES:3220 Evolution of the Vertebrates 3
- EES:4440 Phyllogenetics and Biodiversity 3
- EES:4700/ ENVS:4700 Evolution of Ecosystems 3
- GEOG:2374/ BIOL:2374 Biogeography 3
- GEOG:2950 Environmental Conservation 3
- IALL:3117 Ecology and Systematics of Diatoms 4

Other Iowa Lakeside Laboratory courses (prefix IALL) may be approved in consultation with an environmental sciences advisor.

Chemical Sciences Track

**Foundation Courses**
- CHEM:2210 Organic Chemistry I 3
- CHEM:2220 Organic Chemistry II 3
- CHEM:2230 Organic Chemistry I for Majors 3
- CHEM:2240 Organic Chemistry II for Majors 3
- CHEM:3110 Analytical Chemistry I 3
- CHEM:3120 Analytical Chemistry II 3
- CHEM:4431 Physical Chemistry I 3
- CHEM:4432 Physical Chemistry II 3

**Field Study Courses**
- CHEM:2410 Organic Chemistry Laboratory 3
- CHEM:3430 Analytical Measurements 3

Geosciences Track

**Foundation Courses**
- EES:2410 Mineralogy 4
- EES:3300 Sedimentary Geology 4
- EES:3360/ GEOG:3360 Soil Genesis and Geomorphology 3
- EES:3500 Igneous and Metamorphic Petrology 4
- EES:3840 Structural Geology 4
- EES:4790 Engineering Geology 3

**Field Study Courses**
- CEE:4103 Water Quality 3
- EES:2831 Geologic Field Methods 3
- EES:4680 Field Methods in Hydrologic Science 3
- EES:4832 Geologic Field Analysis 3
- GEOG:4010 Field Methods in Physical Geography 3

Hydrosciences Track

**Foundation Courses**
- EES:3380/CEE:3328 Fluvial Geomorphology 3
- EES:3390 Integrated Watershed Analysis 3
- EES:4490 Elements of Geochemistry 3
- EES:4630 Hydrogeology 3
- EES:4790 Engineering Geology 3

**Field Study Course**
- CEE:4103 Water Quality 3
- EES:4680 Field Methods in Hydrologic Science 3
Ethics and Public Policy

Chair, Department of Philosophy
• David Cunning

Codirectors, Ethics and Public Policy
• Richard Fumerton (Philosophy), Diane Jeske (Philosophy)

Undergraduate major: ethics and public policy (B.A.)
Faculty: https://clas.uiowa.edu/ethics/steering-committee
Website: https://clas.uiowa.edu/ethics/

Ethics and public policy is an interdisciplinary major that presents perspectives on intersecting issues that connect the study of philosophy, economics, law, political science, and sociology. All of these disciplines involve a focus on practical questions concerning how individuals ought to behave and how they ought to regulate the behavior of others.

For example, law exists in order to regulate human behavior, enforce human ideals, and resolve human conflict; most people agree that what society should do depends in part on the actual or potential consequences of its actions; and some of the most important consequences of actions and policies are economic. So it is folly to try to reason clearly about how to rectify injustice without thinking long and hard about the economic impact of one’s plans. But law and social policy affect more than economics; they have a role in constructing the very fabric of society and the nature of the political state in which we want to live.

Students choose one field of specialization for the major and may find it easy to pursue a second major in another of the major's specialization fields, thus broadening their prospects for choosing graduate schools or beginning professional careers.

The Departments of Economics, Philosophy, Political Science, and Sociology collaborate to present the major in ethics and public policy; the major is administered by the Department of Philosophy [p. 769].

Programs

Undergraduate Program of Study

Major
• Major in Ethics and Public Policy (Bachelor of Arts) [p. 413]
Ethics and Public Policy, B.A.

Requirements

The Bachelor of Arts with a major in ethics and public policy requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

The curriculum includes foundation courses and the work for one field of specialization.

The B.A. with a major in ethics and public policy requires the following course work.

| Philosophy Foundation Courses | 6 |
| Economics Foundation Courses | 7 |
| Political Science Foundation Courses | 6 |
| Sociology Foundation Courses | 6-7 |
| Fields of Specialization Courses | 12 |

Total Hours 37-38

Foundation Courses

Foundation courses introduce students to each of the disciplines that participate in the major: philosophy, economics, political science, and sociology. These courses provide students with the basic reasoning skills they will need for advanced study. The foundation courses also help students make an informed selection of their specialization field.

All students are required to take PHIL:1636 Principles of Reasoning: Argument and Debate or PHIL:2603 Introduction to Symbolic Logic in order to gain facility with abstract, formal reasoning.

Some courses may be listed in both a foundation area and a specialization field; students may use a course to fulfill only one requirement for the major.

**Student-Designed Field**

In rare circumstances, a student may be given permission to design a specialization field. The student specifies four courses numbered 3000 or above, or as considered advanced by the department offering the course. Courses should be interconnected and must suggest a coherent interest. The student-designed field may not duplicate any of the established specialization fields for the major. It also may not include a course that satisfies another requirement for the major.

Students interested in designing their own specialization field should speak with an advisor as early as possible. They
must obtain approval from their advisor and from the steering
committee of the major in ethics and public policy as soon
as possible after they declare the major and before they
complete the designated course work.

Honors

Honors in the Major
Students have the opportunity to graduate with honors in
the major. Honors students must maintain a g.p.a. of at least
3.50 in work for the major and a cumulative University of Iowa
g.p.a. of at least 3.50. In order to graduate with honors in the
major, they must complete all work for the major and write an
acceptable honors thesis on a significant topic related to the
major. Students who write their honors thesis in philosophy
should consider preparing for the thesis by taking PHIL:3950
Readings in Philosophy; students who write in economics
should consider taking ECON:3999 Honors Seminar; students
who write in political science should take POLI:4000 Honors
Seminar on the Study of Politics; and students who write in
sociology should consider taking SOC:4997 Honors Seminar.
Contact the coordinator of the Ethics and Public Policy
Program for more information.

University of Iowa Honors
Program
In addition to honors in the major, students have a variety
of opportunities for honors study and activities through
membership in the University of Iowa Honors Program.
Visit Honors at Iowa to learn about the University's honors
program.

Membership in the UI Honors Program is not required to earn
honors in the ethics and public policy major.

Academic Plans

Four-Year Graduation Plan
The following checkpoints list the minimum requirements
students must complete by certain semesters in order to stay
on the University's Four-Year Graduation Plan. Courses in the
major are those required to complete the major.

Before the third semester begins: at least one course in the
major
Before the fifth semester begins: at least three courses in the
major
Before the seventh semester begins: at least seven
courses in the major and at least 90 s.h. earned toward the
degree
Before the eighth semester begins: at least nine courses in the
major
During the eighth semester: enrollment in all remaining
course work in the major, all remaining General Education
courses, and a sufficient number of semester hours to

1. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2. Students may use their elective courses to complete a double major, minors, or certificates.

3. Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

Career Advancement

The ethics and public policy major provides an ideal background for law school. It brings an important background to legal studies in fields that will both explicitly and implicitly arise in the context of pursuing a J.D. The study of reasoning, an important component of the major, is useful in preparing for the LSAT, GMAT, and MCAT. The major also prepares students to bring a sophisticated, cross-disciplinary perspective to diverse fields such as government, urban and regional planning, social work, and business.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Event Planning

• Heather Spangler (Journalism and Mass Communication)

Undergraduate certificate: event planning
Website: https://clas.uiowa.edu/sjmc/undergraduate-programs/event-planning-certificate

Nearly every kind of organization has a need to create and manage events, from corporations to recreational centers, from hotels to sports teams. The Certificate in Event Planning is designed to serve the career goals of a growing number of students who want to learn about the profession and wish to enter the field. It combines experiential learning with academic course work, preparing students with the practical and intellectual skills necessary to succeed in the industry. The certificate is both interdisciplinary and intercollegiate.

The Departments of Communication Studies [p. 246], Health and Human Physiology [p. 528], the School of Journalism and Mass Communication [p. 652] (College of Liberal Arts and Sciences), and the Department of Marketing [p. 1045] (Tippie College of Business) collaborate to offer the certificate. The Certificate in Event Planning is administered by the School of Journalism and Mass Communication.

Event Planning Courses

EVNT:2110 Internship in Event Planning 3 s.h.
Internship for event planning certificate. Prerequisites: (EVNT:3154 or JMC:3154 or SRM:3154) and (EVNT:3260 or JMC:3260 or SRM:3147). Same as JMC:2110.

EVNT:3154 Foundations of Event Management 3 s.h.
Large, major special events, professional meetings, and conferences; development and planning, implementation of events, management and evaluation of events; development requirements of planning events, development strategies, budgeting, staffing requirements, resource allocation, site planning, basic risk management requirements, emergency procedures; event implementation policy and procedures; relationship to elements within development stages; event management and evaluation procedures. Same as JMC:3154.

EVNT:3185 Topics in Event Planning 3 s.h.
Focus on particular area, issue, approach, or body of knowledge in the world of event planning; topics may include political campaign events, social media events, diversity issues, and risk management.

EVNT:3260 Event Planning Workshop 3 s.h.
Hands-on experience in event planning; working with clients, conceptualizing events, lining up small and large details, promoting events via social media and other means, carrying out events, and reflecting on outcomes; meet with event planning professionals; complete individual and group projects. Same as JMC:3260.

EVNT:3270 Event Planning and the Arts 3 s.h.
Development, planning, and implementation of events with relation to the arts. Same as JMC:3270.
Event Planning, Certificate

Students who earn the undergraduate Certificate in Event Planning will know and be able to demonstrate the basic principles of organizing a successful event. They will gain a robust understanding of the diverse field of event planning and careers in the event planning industry.

In addition to these core competencies, students gain proficiency in:

• strategic and professional communication (oral, written, visual/design, interpersonal, group, professional, social media, and marketing);
• project management (goal setting, time management, financial, risk management, site and staff management, event design, and technology); and
• cultural and social awareness (religious, cultural, physical, and social nuances that impact event planning choices; best practices for safe, inclusive events; and legal and ethical issues).

The undergraduate certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program.

The Certificate in Event Planning requires a minimum of 21 s.h. of credit. Students may only take two elective courses at the 1000 level. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students can count a maximum of 6 s.h. completed for a major toward the Certificate in Event Planning. Both core courses must be completed prior to enrollment in the internship.

Some of the certificate courses have prerequisites not included in the certificate requirements. Students should select courses for which they have met the prerequisites.

The Certificate in Event Planning requires the following course work.

**Core Courses**

One of these:

- **EVNT:3154**/**JMC:3154** Foundations of Event Management 3
- **SRM:3154** Foundations of Event Management 3

And one of these:

- **EVNT:3260**/**JMC:3260** Event Planning Workshop 3
- **SRM:3147** Sport Event Management 3

**Internship**

The core courses must be completed prior to enrollment in the internship.

One of these:

- **EVNT:2110**/**JMC:2110** Internship in Event Planning 3
- **SRM:4197** Sport and Recreation Field Experience (must enroll in at least 3 s.h.) arr.

**Focused Electives**

A minimum of 12 s.h. chosen from these (6 s.h. of focused elective course work must be numbered 2000 or above):

- **EVNT:3185** Topics in Event Planning 3
- **EVNT:3260**/**JMC:3260** Event Planning Workshop (if not used to satisfy core requirement) 3
- **ARTS:1070** Elements of Graphic Design 3
- **COMM:1809** Social Marketing Campaigns 3
- **COMM:1816** Business and Professional Communication 3
- **COMM:1818** Communication Skills for Leadership 3
- **COMM:1819** Organizational Leadership 2-3
- **COMM:1830** Solving Public Problems: Dialogue and Deliberation for Democracy 3
- **COMM:2044** Political Communication 3
- **ENTR:1350** Foundations in Entrepreneurship 2
- **ENTR:3595**/**MGMT:3500**/**MUSM:3500**/**NURS:3595**/**RELS:3700**/**SSW:3500** Nonprofit Organizational Effectiveness I 3
- **FPC:3100**/**JMC:3101** Fundraising Fundamentals 3
- **FPC:3185**/**JMC:3100** Fundraising and Philanthropy Communication 3
- **FPC:3633**/**JMC:3633** Philanthropy Communication in a Digital World 3-4
- **JMC:2200** Principles of Strategic Communication 3
- **JMC:3126** Social Media Marketing 3
- **JMC:3181**/**SPST:3181** The Business of Sport Communication 3
- **MKTG:3000** Introduction to Marketing Strategy 3
- **MKTG:4275** Social Media Marketing 3
- **POLI:3202** Political Psychology 3
- **POLI:3602** New Media and Politics 3
- **SRM:2065** The Experience Economy 3
- **SRM:3147** Sport Event Management (if not used to satisfy core requirement) 3
- **SRM:3158** Sport and Recreation Promotion 3
- **SRM:3175** Sales in Sport 3
- **SRM:3178** Communications and Public Relations in Sports 3
- **SRM:4197** Sport and Recreation Field Experience (if not used to satisfy internship requirement) 1-3

French and Italian

Director, Division of World Languages, Literatures, and Cultures
• Russell Ganim

Chair, Department of French and Italian
• Russell Ganim

General Education Language Coordinators
• Cinzia Blum (Italian), Roxanna Curto (French), Emilie Destrue-Johnson (French), Dénès Gaezi (Arabic), Blandina Giblin (Swahili)

Undergraduate majors: French (B.A.); Italian (B.A.)
Undergraduate minors: Arabic language; French; Italian
Graduate degrees: M.A. in French and Francophone world studies; Ph.D. in French and Francophone world studies

Faculty: https://clas.uiowa.edu/dwllc/french-italian/people
Website: https://clas.uiowa.edu/dwllc/french-italian

The Department of French and Italian introduces students to the cultures of France, the Francophone world, Italy, and parts of the Middle East and Africa, providing an understanding of those countries' historical and contemporary importance. It also facilitates development of proficiency in the French, Italian, Arabic, and Swahili languages and fosters critical appreciation of French, Francophone, Italian, and Arabic literatures and cultures.

Faculty expertise enables the department to offer courses in the traditionally recognized historical periods of French literature, various literary genres, and critical theories as well as the Francophone literatures of Canada, North and Sub-Saharan Africa, the Caribbean, and the Indian Ocean. The department has particular strengths in interdisciplinary studies, notably in the areas of comparative arts, film studies, history, and second language acquisition.

Undergraduate students in all majors may satisfy the World Languages requirement of the General Education Program [p. 464] with courses in Arabic, French, Italian, or Swahili; see "Language for General Education" below. The department offers other General Education courses, and entering students may take the department's First-Year Seminars.

The Department of French and Italian is one of the academic units in the Division of World Languages, Literatures, and Cultures [p. 324].

Language for General Education

The Department of French and Italian provides course sequences in four languages—French, Italian, and Swahili—that students in all majors may use to fulfill the World Languages requirement of the College of Liberal Arts and Sciences General Education Program [p. 464]. It also offers a variety of language courses that nonmajors may take to satisfy their own educational goals and interests.

Arabic

The department is the administrative home for Arabic language and culture courses. It offers elementary, intermediate, and advanced Arabic as well as conversational Arabic, for which ARAB:1002 Elementary Modern Standard Arabic II is prerequisite. Students without background in Arabic should begin with ARAB:1001 Elementary Modern Standard Arabic I. Students who have a background in

Arabic should contact the general education coordinator to determine the level at which they should begin Arabic language study at the University of Iowa. See Courses [p. 421] in this section of the Catalog for a list of departmental courses.

Students who wish to fulfill the General Education Program's World Languages requirement with Arabic should complete the following course sequence.

<table>
<thead>
<tr>
<th>Course</th>

French

Students who have a background in French should take the online placement test, which helps determine the level at which a student could begin French language study at the University of Iowa. Students without background in French should begin with FREN:1001 Elementary French I.

Students who wish to fulfill the General Education Program's World Languages requirement with French should complete the following sequence.

<table>

Italian

Students who have a background in Italian should contact the general education coordinator to determine the level at which they should begin Italian language study at the University of Iowa. Students without background in Italian should begin with ITAL:1101 Elementary Italian.

Students who wish to fulfill the General Education Program's World Languages requirement with Italian should complete the following course sequence.

<table>
<thead>
<tr>
<th>Course</th>

Swahili

The department is the administrative home for Swahili courses. Students may fulfill the General Education Program’s World Languages requirement by taking the following four-semester sequence. Students who have a background in Swahili should contact the general education coordinator to determine the level at which they should begin Swahili language study at the University of Iowa.

<table>

Study Abroad

The department participates in several study abroad programs. Some of them are the University Study Abroad Consortium (USAC) French Studies in Pau and Lyon; University of Minnesota/Paul Valery University Study Abroad in Montpellier; and the Committee on Institutional Cooperation (CIC) Summer French Program in Quebec at the Université Laval. For information about these and other programs abroad, contact International Programs/Study Abroad and use its programs search; or see Study Abroad (p. 1721) (University College) in the Catalog.

Courses

The department offers courses in French, Italian, Arabic, and Swahili. For a detailed description of courses offered each semester, contact the Department of French and Italian. French courses are conducted in French, and Italian courses are conducted in Italian, unless otherwise indicated. Students may not receive credit for a course that is prerequisite to, or whose equivalent is prerequisite to, a higher-level course they have already completed.

French courses numbered 4000-4999 are intended primarily for advanced undergraduates; graduate students should consult with their advisors before registering for these courses.

Undergraduates may count a maximum of one course taught in English toward requirements for the major in French. This restriction does not apply to courses taught in English with an additional semester hour in French. Students should consult with their advisors before registering.

Students who have had significant experience with French through living or studying abroad should consult with the department before enrolling in any French course.

</table>
FREN:1040 French for Travelers 2 s.h.
Basic language skills for tourists wanting to increase their French language skills.

FREN:1510 Cultural Misunderstandings: France and U.S.A. 3 s.h.
Key moments in the history of relations between the United States and France, from similarities underlying democratic principles to recent divergent worldviews. Taught in English. GE: International and Global Issues.

FREN:1600 French and Francophone Cultural Activities 1 s.h.
Credit for attendance and participation at French and Francophone cultural events, including scholarly talks, film screenings, art exhibits, literary readings, conversation hours, French Culture Club meetings, and volunteering as a translator for a medical clinic.

FREN:2001 Intermediate French I 5 s.h.
Prerequisites: FREN:1010 or FREN:1002 or French Placement score of 176 or higher. Requirements: completion of prerequisites or two years of high school French. GE: World Languages Second Level Proficiency.

FREN:2002 Intermediate French II 5 s.h.
Continuation of FREN:2001. Prerequisites: FREN:2001 or French Placement score of 231 or higher. Requirements: completion of prerequisites or three years of high school French. GE: World Languages Fourth Level Proficiency.

FREN:3000 Third-Year French 3 s.h.
Development of reading skills in French; composition and review of basic grammar structures. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.

FREN:3007 French Phonetics 3 s.h.
Introduction to French phonetics; sounds of French in isolation and in context to improve pronunciation; audio exercises that emphasize sounds (nasal vowels, [u]-[y] contrast) and prosodic features (intonation, syllabification, liaison). Requirements: FREN:2002.

FREN:3020 Oral Expression in French I 2 s.h.
First in a two-course sequence. Prerequisites: FREN:2001 or French Placement score of 231 or higher. Requirements: FREN:2001 or three years of high school French.

FREN:3030 Paris and the Art of Urban Life 3 s.h.
City of Paris examined in varied historical, artistic, and cultural contexts; interdisciplinary. Taught in English. Same as ARTH:3020.

FREN:3060 Introduction to Reading and Writing in Literature 3 s.h.
Development of analytical, organizational skills for interpretation of literature; readings in prose, poetry, drama, criticism; emphasis on reading and essay writing. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.

FREN:3110 French Civilization 3 s.h.
Institutions and events from the beginning of French civilization to the Renaissance. Prerequisites: FREN:3060. GE: Historical Perspectives.

FREN:3120 French Civilization 3 s.h.
From Renaissance to Revolution. Prerequisites: FREN:3060. GE: Historical Perspectives.

FREN:3130 French-Speaking Cultures 3 s.h.
Features of cultures in which French is spoken; North Africa, Sub-Saharan Africa, the Indian Ocean, Indochina, the Caribbean, Canada, Europe; cinema, music, literature, the arts, the media. Prerequisites: FREN:3060.

FREN:3160 Study Abroad: Culture 3 s.h.
Geography, history, architecture, painting, music of France; readings, slides, video and audio cassettes, visits to sites of cultural significance. Prerequisites: FREN:2002.

FREN:3190 Psycholinguistic Aspects of Bilingualism 3-4 s.h.
Interaction of two languages in a bilingual in terms of sound system, words, and grammar; different meanings of bilingualism, how bilingualism and multilingualism can change across lifespan. Taught in English. Requirements: linguistics or language acquisition course. Same as SPAN:3190.

FREN:3225 Studies in Modern France 3 s.h.
Introduction to the study of Modern France (1815-present); history, literature, politics, and culture of the period; emphasis on interdisciplinary investigation of diverse cultural forms. Prerequisites: FREN:3060.

FREN:3250 Topics in French Studies I 3 s.h.
Prerequisites: FREN:3060.

FREN:3300 French Grammar 3 s.h.
Study of word forms, sentence patterns for more accurate use of French. Prerequisites: FREN:2002 or French Placement score of 311 or higher. Requirements: completion of prerequisites or four years of high school French.

FREN:3360 Study Abroad: Language 3 s.h.
Written and spoken French; listening, speaking, reading, writing in cultural contexts. Prerequisites: FREN:2002.

FREN:3410 Business French 3 s.h.
Language of economics and business; practice in business correspondence and communication, active use of business vocabulary. Offered fall semesters. Prerequisites: FREN:3300.

FREN:4007 Topics in French Linguistics 3 s.h.
Concepts to aid in understanding how the French language works; major areas of linguistics—pronunciation (phonetics and phonology), the structure of words (morphology), the structure of sentences (syntax) and meaning (semantics). Prerequisites: FREN:3300.

FREN:4015 Francophone Cinema 3-4 s.h.
Introduction to the cinema of French-speaking countries outside of France; history, production, distribution; issues of colonialism, postcolonial identities, gender, social realism, diasporas, popular culture. Taught in English.

FREN:4020 Oral Expression in French II 2 s.h.
Last in a two-course sequence. Prerequisites: FREN:3020 or FREN:2002 or French Placement score of 311 or higher.

FREN:4026 French Women Writers 3-4 s.h.
Survey of 20th-century French women writers with emphasis on Simone de Beauvoir; broad range of literary works by writers including de Beauvoir, Colette, Marguerite Yourcenar, Nathalie Sarraute, Marguerite Duras, Sarah Kofman, Annie Ernaux, Christiane Rachefort; French feminist theorists who followed in de Beauvoir’s footsteps, including Helene Cixous, Julia Kristeva, Luce Irigaray. Taught in English. Prerequisites: FREN:3060 and FREN:3300. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as GWSS:4026.
FREN:4030 Aspects of Poetry 3-4 s.h.
Introduction to study of French poetry through genres, versification (metrics and rhythms), sounds, themes, styles, poetics, and significant movements; may include additional instruction in English to allow work on translations and practice perceiving forms in French different from English/ American verse traditions. Prerequisites: FREN:3060 and FREN:3300.

FREN:4070 Introduction to Pragmatics 3 s.h.
Introduction to the study of meanings and language use in context; meaning outside the literal semantic interpretation of words used including presuppositions and goals of speaker, expectation of listener, speech acts, conversational implicatures, deixis, discourse functions, and other relevant topics. Taught in English. Prerequisites: LING:3001. Same as LING:4070.

FREN:4080 Post-Colonial Literature in France 3 s.h.
Literatures and cultures of Arabo-French (Beur) and Afro-French immigrations. Prerequisites: FREN:3300 and FREN:3060. Same as CL:4368.

FREN:4090 Quebecois Literature 3 s.h.
Introduction to Francophone literature and culture of Canada; 19th- and 20th-century novels and other cultural practices (e.g., theater, chansons, films). Prerequisites: FREN:3300 and FREN:3060.

FREN:4100 French Cinema 3-4 s.h.
Taught in English. GE: Literary, Visual, and Performing Arts.

FREN:4110 Francophone Literature of the African Diaspora 3 s.h.
Literatures and cultures of Francophone West Africa, the Caribbean, and the Indian Ocean analyzed through fiction, essays, films, visual arts. Prerequisites: FREN:3060 and FREN:3300.

FREN:4433 France Under Nazi Occupation, 1940-1944 3-4 s.h.
Political, economic, social, and cultural conditions that prevailed following the Nazi conquest of France in 1940; examination of this period of upheaval through work of prominent historians of France; representations of occupied France in literary works, documentary, and fictional films produced during the war and in the politically fraught culture of collective memorialization that formed in aftermath of this national trauma. Taught in English. Same as HIST:4433.

FREN:4466 France and Algeria from Pirates to Terrorism 3 s.h.
Long, complex history of relationship between France and Algeria since 18th century; early modern conflicts over Barbary piracy, French invasion, and colonization of Algeria in 19th century; brutal Algerian War of Independence, postcolonial migration, and ongoing war of memory over shared Franco-Algerian history of colonization and decolonization. Taught in English. Same as HIST:4466.

FREN:4520 Versailles under the Sun King 3-4 s.h.
Survey of culture and literature related to the court of King Louis XIV at Versailles, France. Taught in English.

FREN:4540 Gender and Sexuality in French Cinema 3-4 s.h.
Cultural, historical, semiotic approach to studying construction of gender identity and sexual codes in French cinema from 1920s to present. Taught in English. Same as GWSS:4540.

FREN:4750 Topics in French Studies II 3 s.h.
French and/or Francophone literature or culture. Prerequisites: FREN:3060 and FREN:3300.

FREN:4890 Techniques of Translation 3 s.h.
Prerequisites: FREN:3300. Same as TRNS:4497.

FREN:4911 French for Reading/Research 2 s.h.
FREN:4912 French for Reading/Research 2 s.h.

FREN:4990 Independent Study 3 s.h.
Prerequisites: FREN:3300 and FREN:3060.

FREN:4995 Honors Research and Thesis 3 s.h.
Prerequisites: FREN:3300 and FREN:3060.

FREN:5000 Teaching and Learning Languages 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Same as GRMN:5001, SLA:5000, SPAN:5000, WLLC:5000.

FREN:5001 Introduction to Graduate Study 2 s.h.
Expectations, resources, and opportunities of graduate study; introduction to course work, development of preprofessional competencies. Same as SPAN:5001.

FREN:5020 Comparative Stylistics 3 s.h.
Translation from English to French, including literary texts. Same as CL:5510.

FREN:5031 Topics in French Linguistics 3 s.h.
Basics of French language; main areas of linguistics—phonetics and phonology, morphology, semantics, pragmatics, and syntax; introduction to sociolinguistics and language variation; concepts and basic tools needed for linguistic analysis of language; brief historical overview; standard variety of French and its role in linguistic study of language; exploration of subdisciplines with practical exercises that implement principles presented in class and readings.

FREN:5300 The Humboldt Current: Travel, Science, and the Spatial Imagination in Latin America 3 s.h.
Travel writings of environmental studies pioneer and Prussian explorer, Alexander von Humboldt, who led a five-year expedition to South America, Mexico, and Cuba in the late 18th century; his writing ushered in an idea of nature central to the Latin American imagination; topics include "Humboldtian science", the scientific traveler's persona, and rhetoric of travel; Humboldt's mapping of the Orinoco, Mexico, and the Caribbean, negotiating the tradition of European cartography with indigenous spatial practices; contribution of Humboldt's travels to a spatial imagination in Latin America; students develop an original research project. Recommendations: one graduate-level course in colonial, 19th-century Latin American literature, and/or ecocriticism and theory (this last course could be taken in related departments, such as English). Same as CL:5300, SPAN:5300, WLLC:5300.

FREN:6020 Studies in the Seventeenth Century 3 s.h.
FREN:6050 Realism and Naturalism 3 s.h.
Representative novels of Realist and Naturalist movements, in historical, literary, and theoretical context.

FREN:6080 Modern French Novel 3 s.h.
FREN:6120 Literature of Immigration in France 3 s.h.
Contemporary literature written by non-European immigrants in France; issues of identity, institutional power, exclusion, displacement; rhetorical strategies used in these decentered texts to open a discursive/subversive space in canonical literary discourse.
ITAL:2013 Everyday Italian I 2 s.h.
Students learn how to ask and answer questions dealing with topics of daily life; emphasis on oral expression. Prerequisites: ITAL:1102 or ITAL:3002.

ITAL:2014 Everyday Italian II 2 s.h.
Students learn how to ask and answer questions dealing with topics of daily life; emphasis on oral expression. Prerequisites: ITAL:3002 or ITAL:1102.

ITAL:2203 Intermediate Italian 4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:1102 or ITAL:3002. GE: World Languages Second Level Proficiency.

ITAL:2204 Intermediate Italian II 4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of elementary Italian. Prerequisites: ITAL:2203. GE: World Languages Fourth Level Proficiency.

ITAL:2550 Images of Modern Italy 3-4 s.h.
Survey of Italy's history since Unification; diverse aspects of modern Italian culture and society through visual and textural materials. Requirements: for students earning 4 s.h.—ITAL:2204. GE: Historical Perspectives; Values and Culture.

ITAL:2990 Independent Study arr.

ITAL:3002 Intensive Elementary Italian 4,6 s.h.
ITAL:1101 and ITAL:1102 combined in one semester; fundamentals of Italian language and culture including reading, writing, comprehension, and speaking skills. Requirements: two years of another foreign language. GE: World Languages Second Level Proficiency.

ITAL:3305 Advanced Italian 3-4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.

ITAL:3306 Advanced Italian II 3-4 s.h.
Improvement of skills in writing, speaking, and comprehension beyond the level of intermediate Italian; activities include class discussions, oral presentations, compositions, readings of modern texts, review and expansion of grammar. Prerequisites: ITAL:2204.

ITAL:4350 Studies in Italian Language 3 s.h.
Prerequisites: ITAL:3306.

ITAL:4633 Dante's Inferno 3-4 s.h.
A virtual poetic journey through Hell; critical reading of Dante's Inferno, the first volume of The Divine Comedy, and the many ways this text has been interpreted and reinterpreted; while primary focus is on Dante's work, other texts and media are introduced to enhance the reading. Taught in English; discussion sessions in Italian. Requirements: for Italian majors taking 4 s.h. option—ITAL:2204.

ITAL:4634 The Italian Renaissance 3 s.h.
Introduction to literature and culture of the Italian Renaissance; readings address various aspects of late medieval and renaissance culture including mysticism, humanism, women's position vis-à-vis literary tradition, and the relationship between literature and the arts. Taught in Italian. Prerequisites: ITAL:2204.

ITAL:4667 Modern Italian Fiction 3 s.h.
Prerequisites: ITAL:2204.
Arabic Courses

ARAB:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.

ARAB:1001 Elementary Modern Standard Arabic I 5 s.h.
Speaking, listening, reading, and writing skills. GE: World Languages First Level Proficiency.

ARAB:1002 Elementary Modern Standard Arabic II 5 s.h.

ARAB:1020 Study Abroad: Language (Elementary) 5 s.h.
Modern Standard Arabic (MSA); speaking, reading, listening and writing skills. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement.

ARAB:1050 Topics in Middle East/Muslim World Studies I 3 s.h.
Contemporary cultural questions and debates in the Muslim and Arabic-speaking world. Taught in English.

ARAB:1000 First-Year Seminar 1 s.h.

ARAB:2000 Intermediate Modern Standard Arabic I 5 s.h.

ARAB:2002 Intermediate Modern Standard Arabic II 5 s.h.

ARAB:2020 Study Abroad: Language (Intermediate) 6 s.h.
Modern Standard Arabic (MSA); speaking, reading, listening and writing. Requirements: non-native speaker of Arabic; heritage speaker of Arabic should contact the course supervisor for appropriate placement. Recommendations: one year of Arabic study.

ARAB:2025 Study Abroad: Culture and Society 1 s.h.
Introduction to Moroccan culture and society through direct observation and interaction; intensive orientation, cultural exchange activities, learning excursions outside Fez, homestay with a Moroccan family.

ARAB:2030 Formal Spoken Arabic 2 s.h.
Conversational practice with a native speaker; for students who have completed fourth-semester Arabic. Requirements: ARAB:1002 or ARAB:2002; non-native or non-heritage speaker of Arabic.

ARAB:3005 Culture and Resistance: The Modern Middle East 3-4 s.h.
Introduction to literature, cinema, and music of the Modern Middle East; how artists from Arab world, Turkey, and Iran explore their political terrain; how they depict issues of gender and sexuality; impact of the Arab Spring; exploration of art as expression and resistance; intersection between cultural and political; short stories, graphic novels, film, music, and visual arts. Taught in English.

ARAB:3011 Advanced Modern Standard Arabic I 3 s.h.
Advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:2002.

ARAB:3012 Advanced Modern Standard Arabic II 3 s.h.
Continuation of ARAB:3011; advanced Arabic grammar and syntax, composition writing, formal conversation (similar to conversations on Arabic mass media); classical Arabic texts, other materials written for persons whose first or official language is Arabic. Requirements: ARAB:3011.

ARAB:3050 Arab Culture Through Dialects 3 s.h.
Communication in dialectal Arabic, Arabic dialectology, cultural topics, music and film in dialectal Arabic. Requirements: ARAB:1001; non-native or non-heritage speaker of Arabic.

ARAB:3011 Advanced Modern Standard Arabic I 3 s.h.

ARAB:4512 Topics in Global and Transnational Culture 3-4 s.h.
In-depth look at a theme in cultural expression arising from interactions between countries and regions; focus on contemporary or historical issues; use of materials ranging from literature and the visual arts to music, mass media, and more; general processes through which cultures are formed in mutual and uneven relationships; research project. Recommendations: completion of an international and global issues GE course. Same as GRMN:4512, WLLC:4512.

ARAB:4990 Independent Study arr.
Material not covered in regularly offered courses; independent study guided by an instructor.

Swahili Courses

SWAH:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Taught in English. Requirements: first- or second-semester standing.
SWAH:3000 Introduction to Swahili Language and Culture for Travelers  2 s.h.
Introduction to Swahili language, history, and culture for anyone who would like to learn more about East Africa, Swahili language, and culture; multidisciplinary sources include texts, newspapers, booklets, films, music videos, pictures, handouts, websites, and a taste of Swahili cuisine; provides a bird's eye view of East African culture; previous knowledge of Swahili not required.

SWAH:3001 Elementary Swahili I  4 s.h.
GE: World Languages First Level Proficiency.

SWAH:3002 Elementary Swahili II  4 s.h.
GE: World Languages Second Level Proficiency.

SWAH:3003 Intermediate Swahili I  4 s.h.
GE: World Languages Second Level Proficiency.

SWAH:3004 Intermediate Swahili II  4 s.h.
GE: World Languages Fourth Level Proficiency.

SWAH:3006 Conversational Swahili  3 s.h.
Extensive practice in production and comprehension of spoken Swahili. Corequisites: SWAH:3002 or SWAH:3004.

SWAH:3007 Advanced Swahili  3 s.h.
Advanced speaking, listening, reading, and writing skills. Prerequisites: SWAH:3004.

SWAH:4050 Kiswahili in Cyberspace  3 s.h.
First-hand experience in the Kiswahili cyberworld; how to text in Kiswahili; what is in the Kiswahili blogosphere; where to find news, job and business opportunities, and discussions of health and environmental issues in Kiswahili on the Internet; why and how do residents of the Kiswahili-speaking nations of East Africa, from farmers and school teachers to health professionals and business entrepreneurs, use cyberspace; taught primarily in Kiswahili. Prerequisites: SWAH:3002.
French, B.A.

Requirements

The Bachelor of Arts with a major in French requires a minimum of 120 s.h., including 31-36 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464). Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

Students majoring in French complete a set of four foundation courses plus the requirements for one of four tracks: the French and Arabic track; the language track; the literature and culture track; or the teaching track.

The B.A. with a major in French requires the following course work.

<table>
<thead>
<tr>
<th>Foundation Courses</th>
<th>10-11</th>
</tr>
</thead>
<tbody>
<tr>
<td>Track Courses</td>
<td>21-25</td>
</tr>
<tr>
<td>Total Hours</td>
<td>31-36</td>
</tr>
</tbody>
</table>

**Foundation Courses**

All of these:

- FREN:3060 Introduction to Reading and Writing in Literature 3
- FREN:3300 French Grammar 3
- FREN:4020 Oral Expression in French II 2

One of these:

- FREN:3007 French Phonetics 3
- FREN:3020 Oral Expression in French I 2

Students must maintain portfolios documenting their progress toward attaining the objectives of the French major.

A maximum of one course taught in English may be counted toward the major, except with the French and Arabic track; courses taught in English with an additional semester hour in French are exempt from this rule. Students should consult with their advisors before registering.

Transfer credit may be accepted, and students are encouraged to participate in study abroad, but the last two courses in the major ordinarily must be completed at the University of Iowa. Transfer credit is evaluated on an individual basis by the faculty in charge of study abroad.

Students choose an emphasis in one of the following four tracks when they declare the major (or later, but before their fourth year).

**Tracks**

**French and Arabic Track**

The French and Arabic track is designed for students interested in combining study of the French and Arabic languages with history, politics, and religions of Middle Eastern cultures and with a major in another area, such as comparative literature, political science, geography, or history.

Requirements for the French and Arabic track include the following seven or eight courses (25 s.h.) in addition to the foundation course work in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Three courses in French language, or literature and culture, taught in French, with at least one numbered above 4000 9
Two or three courses in Arabic language beyond first year 10
Two courses on Middle Eastern cultures (prefix FREN), taught in French or, approved courses from other departments 6

**Language Track**

The language track is designed for students with an interest in language and translation, as well as French and Francophone literature and culture. Students work in specific areas such as international business, comparative stylistics, and translation.

Requirements for the language track include the following seven courses (21 s.h.) in addition to the foundation course work in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

- FREN:3410 Business French 3
- FREN:4890 Techniques of Translation 3
- Five courses in French language, or literature and culture 15

All language track students take FREN:3410 Business French and FREN:4890 Techniques of Translation. Of the remaining five courses, only one may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. Students must complete at least one course numbered above 4000, in addition to the required course FREN:4890.

Courses in French stylistics and textual analysis, another language, economics, political science, and/or business are recommended as adjunct electives.

**Literature and Culture Track**

The literature and culture track is designed for students who are interested in combining study of French and Francophone literatures and cultures with a major in another area, such as cinema, communication studies, comparative literature, history, international studies, political science, or journalism.

Requirements for the literature and culture track include the following seven courses (21 s.h.) in addition to the foundation course work in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

- Five courses in literature and culture 15
- Two courses in language, or literature and culture 6

Only one of these courses may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. At least two courses must be numbered above 4000.

**Teaching Track**

The teaching track is designed for students who intend to earn licensure to teach in elementary and/or secondary schools. Students must successfully complete the requirements for the major in French with the teaching track and must complete
the College of Education's Teacher Education Program (TEP), which requires several education courses and student teaching (see "B.A. with Teacher Licensure" below).

Requirements for the French major's teaching track include the following seven courses (21 s.h.) in addition to the foundation course work in French. Refer to "Literature and Culture, Language Courses" below for French courses that will satisfy that requirement.

Four courses in literature and culture 12
Three courses from these areas: language, literature and culture 9

Only one of these courses may be taught in English under the French department (prefix FREN). This restriction does not apply to courses taught in English with an additional semester hour in French. At least two courses must be numbered above 4000.

Literature and Culture, Language Courses

Students can select courses from the following to satisfy track requirements. All courses are taught in French unless otherwise indicated.

Literature and Culture

B.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements of their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral. Majors who want to earn teacher licensure should choose the French teaching track. See "Teaching Track" above.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 for work undertaken in the department.

To graduate with honors in the major, departmental honors students must register for FREN:4995 Honors Research and Thesis or one honors-designated course numbered above 4000. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in French and must present their work to a faculty committee.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the French major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the third semester begins: competence in first-year French

Before the fifth semester begins: second-year French (FREN:2002 Intermediate French II)

Before the seventh semester begins: FREN:3020 Oral Expression in French I, two semesters of third-year French, FREN:3060 Introduction to Reading and Writing in Literature,
FREN:3300 French Grammar, one or two other courses in the major, and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** FREN:4020 Oral Expression in French II and three more courses in the major; for the French language track, FREN:3410 Business French and FREN:4890 Techniques of Translation

**During the eighth semester:** enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

2. General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

3. Students may use their elective courses to complete a double major, minors, or certificates.

### Career Advancement

Students majoring in French may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as French, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. Or they may combine other skills and studies with their major in French to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Italian, B.A.

Requirements

The Bachelor of Arts with a major in Italian requires a minimum of 120 s.h., including 32-33 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

Students may count a maximum of 9 s.h. (three courses) of approved upper-level transfer or study abroad credit toward the major in Italian, but they must take either ITAL:3305 Advanced Italian or ITAL:3306 Advanced Italian II at the University of Iowa. Furthering Language Incentive Program (FLIP) credit may not be counted toward the major.

The B.A. with a major in Italian requires the following course work.

All of these:
ITAL:2203 Intermediate Italian 4
ITAL:2204 Intermediate Italian II 4
ITAL:3305 Advanced Italian 4
ITAL:3306 Advanced Italian II 4
ITAL:4633 Dante's Inferno 4
ITAL:4634 The Italian Renaissance 3
ITAL:4667 Modern Italian Fiction 3
ITAL:4668 Modern Italian Poetry and Theater 3

One of these:
ITAL:2550 Images of Modern Italy 4
An additional course taught in Italian numbered above ITAL:3002 3

B.A. with Teacher Licensure

Majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education’s Teacher Education Program (TEP) in addition to the requirements of their major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Student Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Majors who want to earn teacher licensure should include an additional 2 s.h. in their work for the major, in either ITAL:2013 Everyday Italian I or ITAL:2014 Everyday Italian II.

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must have a g.p.a. of at least 3.50 for work undertaken in the department.

To graduate with honors in the major, students must register for ITAL:4998 Honors Research and Thesis and one honors-designated course numbered above 3002. They must complete an honors thesis or the equivalent (e.g., translation, comparative stylistics, cultural studies, or research) in Italian and must present their work to a faculty committee.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the Italian major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

Before the third semester begins: competence in first-year Italian

Before the fifth semester begins: competence in second-year Italian (ITAL:2204 Intermediate Italian II)

Before the seventh semester begins: four courses in the major numbered above ITAL:3002 Intensive Elementary Italian and at least 90 s.h. earned toward the degree

Before the eighth semester begins: a total of at least five courses in the major numbered above ITAL:3002

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

3 Students may use their elective courses to complete a double major, minors, or certificates.
4 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.
5 Actual course offerings vary by semester. Consult the Department of Italian for appropriate sequencing of Italian courses beyond ITAL:2204 Intermediate Italian II.

Career Advancement

A background in Italian is advantageous for students planning careers in international business, tourism, and teaching, as well as for opera singers, musicians, art and art history majors, and for those who study architecture, fashion, and design. With more than a thousand Italian companies doing business in the United States, the major in Italian combines well with career options in a wide variety of fields.

Students majoring in Italian may combine their studies with courses in education to prepare for jobs in high school teaching. They may go on to graduate study in areas such as Italian, comparative literature, and other interdisciplinary areas as preparation for college-level teaching. A number of Italian majors go on to law school. Or they may combine other skills and studies with their major in Italian to prepare for challenging career opportunities in international government, business, finance, travel, communications, and other fields where the knowledge of more than one language is essential.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Arabic Language, Minor

The undergraduate minor in Arabic language requires a minimum of 15 s.h. earned in Arabic courses (prefix ARAB) considered intermediate (2000 level) or advanced (3000 level) for the minor, including 12 s.h. taken at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in Arabic.
French, Minor

The undergraduate minor in French requires a minimum of 15 s.h., including 12 s.h. earned in courses considered advanced for the minor; 9 s.h. of the 12 s.h. in advanced courses must be taken at the University of Iowa in courses numbered 3000 or above (prefix FREN). Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. All courses for the minor must be taught in French. Furthering Language Incentive Program (FLIP) credit may not be counted toward the minor.

Credit from the University Studies Abroad Consortium (USAC) programs in Pau and Lyon, France, and the Study in Montpellier program in France counts as University of Iowa credit for the minor; 6 s.h. earned in other study abroad programs may be counted toward the minor.

Those who plan to use their work toward a minor in French as academic background for earning teacher licensure should contact the Office of Student Services about requirements.
Italian, Minor

The undergraduate minor in Italian requires a minimum of 15 s.h., including 12 s.h. earned in advanced Italian courses (prefix ITAL) numbered above 3002 taken at the University of Iowa. All courses for the minor must be taught in Italian. Images of Modern Italy (ITAL:2550) and Dante’s Inferno (ITAL:4633), if taken for 4 s.h. (includes discussion section in Italian), will count toward the 12 s.h. of advanced courses required for the minor. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass. Furthering Language Incentive Program (FLIP) credit may not be counted toward the minor.

Those who plan to use their work toward a minor in Italian as academic background for earning teacher licensure should contact the Office of Student Services about requirements.
French and Francophone World Studies, M.A.

The Master of Arts in French and Francophone world studies is offered with an optional French education emphasis.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian or visit its website. The department also publishes the Guide for Graduate Students and Assistants.

Requirements

The Master of Arts program in French and Francophone world studies requires a minimum of 30 s.h. of graduate credit and is offered with or without thesis.

Thesis students may apply up to 6 s.h. of thesis credit toward the 30 s.h. required for the degree. They must take a written and oral examination on their areas of study and must defend their thesis at the time of the comprehensive examination. The thesis prospectus must be accepted one year before a student defends the thesis.

Nonthesis students must pass a written and oral examination. With permission of the director of graduate studies and the department chair, nonthesis students may earn up to 6 s.h. of the required 30 s.h. outside the department or transfer up to 6 s.h. of course work completed at another institution.

All M.A. students must complete the following course work.

<table>

M.A. with French Education Emphasis

The Master of Arts program with French education emphasis requires a minimum of 38 s.h. of graduate credit in French. The program is intended primarily for prospective secondary school and community college teachers. Candidates must pass a final written and oral examination.

All French education emphasis students must complete the following course work.

<table>

Admission

Applicants must have completed the equivalent of the University of Iowa undergraduate major in French. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants for fall semester whose application materials are received in the department by January 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, Graduate Record Examination (GRE) General Test results, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

Financial Support

Teaching assistantships are offered through the department, and University fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.
French and Francophone World Studies, Ph.D.

For more detailed information on graduate degrees in French and Francophone world studies, contact the Department of French and Italian or visit its website. The department also publishes the Guide for Graduate Students and Assistants.

Requirements

The Doctor of Philosophy program in French and Francophone world studies requires a minimum of 72 s.h. of graduate credit, including credit earned for the M.A.

The Ph.D. takes at least three years of graduate study, including at least one year spent in residence at the University of Iowa. Students must pass a comprehensive examination and make a successful oral defense of their dissertation.

Requirements for the Ph.D. with a major in French and Francophone world studies include the following.

<table>

</tr>
</tbody>
</table>

Students must possess fifth-semester or equivalent proficiency in a foreign language other than French. They are required to spend at least one year teaching as graduate assistants in the department.

Admission

An M.A. in French is prerequisite to admission to the Ph.D. program in French and Francophone world studies. However, successful completion of an M.A. in French does not necessarily qualify a student for doctoral study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College.

Applicants for fall semester whose application materials are received in the department by January 15 have the best chance to be admitted and receive financial aid. They must submit academic transcripts, letters of recommendation from three persons familiar with their past academic work, Graduate Record Examination (GRE) General Test results, a statement of purpose in taking graduate work, and one or more samples of original writing, one of which should be in French, that show their ability to pursue graduate work in French (an honors thesis, term paper, seminar paper, or other course papers).

Financial Support

Teaching assistantships are offered through the department, and University fellowships and scholarships are available through the Graduate College. Contact the Department of French and Italian for details.

Exchange assistantship agreements with the University of Pau and the University of Poitiers provide one year of residence at these universities in France for graduate students.

Career Advancement

The Ph.D. program is designed to prepare students for research, teaching, and professional service normally required of college and university faculty members.
Fundraising and Philanthropy Communication

Director, School of Journalism and Mass Communication
• David M. Ryfe

Coordinator, Fundraising and Philanthropy Communication
• Jenifer A. Vick (Journalism and Mass Communication)

Undergraduate certificate: fundraising and philanthropy communication
Website: https://clas.uiowa.edu/sjmc/philanthropy-certificate

The Certificate in Fundraising and Philanthropy Communication (FPC) is designed to provide an understanding of the profession of fundraising, philanthropy, fundraising communication, and nonprofit marketing. It concentrates on best practices in the field of fundraising and nonprofit communication. In addition to learning the fundamentals of fundraising, the certificate’s core courses offer hands-on opportunities for students to work directly with local nonprofits creating fundraising plans and materials, and social media calendars and content.

Students who plan to earn the certificate come from a wide range of majors, including art and art history, communication studies, finance, health and human physiology, history, international studies, journalism, leisure studies, management, marketing, political science, sport and recreation management, among others.

In addition to preparing students for the career of professional fundraiser, the FPC certificate readies students for meaningful careers in the nonprofit sector, including volunteer management, donor database management, grant writing, event planning, graphic design, and nonprofit communications, public relations, and marketing.

The certificate program also can be beneficial to students who envision themselves in a for-profit or corporate career. Since employers value community involvement, this program prepares students to make an impact in their community through volunteer activities such as assisting with fundraising campaigns and serving on nonprofit organization boards and committees.

The Certificate in Fundraising and Philanthropy Communication is administered by the School of Journalism and Mass Communication [p. 652].

Programs

Undergraduate Program of Study
Certificate
• Certificate in Fundraising and Philanthropy Communication [p. 438]

Courses

Fundraising and Philanthropy Communication Courses

FPC:2100 Internship in Fundraising and Philanthropy Communication 1-3 s.h.
Faculty-supervised professional work experience in fundraising and philanthropy communication.

FPC:2200 Communication and Public Relations 3 s.h.
Theory and practice of public relations; cultural, social, and organizational roles of public relations, opportunities, problems, and solutions.

FPC:3100 Fundraising Fundamentals 3 s.h.
Nonprofit organization reliance on raised funds to survive and thrive; basic concepts of fundraising for successful nonprofit organization; work with a nonprofit organization to explore basic fundraising techniques that nonprofits typically use including donor research, annual fund campaigns (phone, mail, email), capital campaigns, events, cause-related marketing, grants, planned giving, and donor stewardship; when and how to use different fundraising strategies to meet an organization’s goals. Same as JMC:3101.

FPC:3185 Fundraising and Philanthropy Communication 3 s.h.
Practical experience planning and writing fundraising materials; how yearly fundraising helps approximately 1.5 million nonprofit organizations receive more than $3 billion from individuals, foundations, and corporations to help people in need, advocate for causes, support research/arts/culture, and enhance opportunities for public and/or their members. Prerequisites: FPC:3100 or MGMT:3500. Same as JMC:3100.

FPC:3633 Philanthropy Communication in a Digital World 3-4 s.h.
World of philanthropy and nonprofit work that changes rapidly with and in response to developments in digital communications; campaigns and fundraisers driven by free agents on social networking sites as an example of how philanthropists and nonprofit workers operate in digital environment; overview of trends in areas of philanthropy and nonprofit work; practical skills to help communicate, create, and disseminate messages using multiple digital tools and social media; analysis of communication/media strategies; media production. Prerequisites: (JMC:2010 and JMC:2020) or FPC:3100 or MGMT:3500. Same as JMC:3633.
Fundraising and Philanthropy Communication, Certificate

The undergraduate Certificate in Fundraising and Philanthropy Communication (FPC) is designed to provide an understanding of the profession of fundraising, philanthropy, fundraising communication, and nonprofit marketing.

There are many reasons why students might consider earning the FPC certificate—they might be interested in a career in the nonprofit sector after they graduate; they might plan a career in a related field and believe that the FPC certificate would enhance their major; or they might feel passionately about community engagement and making a greater impact in the world, so they want to learn more in the area of philanthropy.

The certificate requires a minimum of 18 s.h. The certificate may be earned by any student admitted to the University of Iowa who is not concurrently enrolled in a UI graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate.

Students majoring in journalism and mass communication may count toward the certificate a maximum of 7 s.h. of journalism credit (prefix JMC) that they earn for the major. The certificate cannot be used to satisfy the major's concentration area requirement. Students minoring in mass communication may count toward the certificate a maximum of 7 s.h. of journalism credit (prefix JMC) that they earn for the minor.

When certificate students register for fundraising and philanthropy communication courses (prefix FPC) that are cross-listed with journalism and mass communication (prefix JMC), they should register for the FPC course number.

The Certificate in Fundraising and Philanthropy Communication requires the following course work.

Core Courses

Of the 18 s.h. required to earn the certificate, at least 9 s.h. must taken in core courses.

Both of these:

Internship

FPC:2100 | Internship in Fundraising and Philanthropy Communication | 1-3 |

Students complete the remaining semester hours with elective course work or an optional internship as listed below, or with a core course not already taken. Certain special topics courses may fulfill the elective requirement; consult the certificate program coordinator.
Gender, Women's, and Sexuality Studies

Chair
• Rachel Marie-Crane Williams

Director, Graduate Studies
• Ellen Lewin

Director, Undergraduate Studies
• Mary Ann Rasmussen

Undergraduate majors: gender, women's, and sexuality studies (B.A.); social justice (B.A.)
Undergraduate minors: gender, health, and healthcare equity; gender, women's, and sexuality studies; social justice
Graduate certificate: gender, women's, and sexuality studies

Faculty: https://clas.uiowa.edu/gwss/people
Website: https://clas.uiowa.edu/gwss/

Gender, women’s, and sexuality studies (GWSS) is an interdisciplinary field that promotes social justice and full citizenship by asking when and how gender intersects with sexuality, class, race, ethnicity, nationality, globalization, and physical ability in ways that can exclude and oppress but that also can enrich cultures and expand opportunities. GWSS trains students to investigate how gender and sexuality shape challenges people face in areas such as the environment, culture and the media, education, health, violence, and the economy. Critical thinking and analysis and development of expertise in writing, research, and presentation provide the program’s graduates with the professional skills they will need to pursue careers or graduate study in a wide variety of fields or academic disciplines.

Courses

Gender, Women's, and Sexuality Studies Courses

GWSS:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

GWSS:1001 Introduction to Gender, Women’s, and Sexuality Studies 3 s.h.
Introduction to feminist interdisciplinary study of women’s lives, with emphasis on race, class, sexualorientation; work, family, culture, political and social change. GE: Values and Culture.

GWSS:1002 Diversity and Power in the U.S. 3 s.h.
How the intersection of gender, race, class affects individual experience, national ideology, social institutions; interdisciplinary perspective. GE: Values and Culture.

GWSS:1003 Introduction to Social Justice 3 s.h.
Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. Same as SJUS:1001.

GWSS:1005 Topics in Gender, Women’s, and Sexuality Studies 3 s.h.

GWSS:1046 Big Ideas: People and the Environment - Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GEOG:1046.

GWSS:1060 Sex and Popular Culture in the Postwar U.S. 3 s.h.
Critical and historical introduction to representation of human sexuality in American popular culture from World War II to the present. GE: Values and Culture. Same as AMST:1060, ENGL:1410.

GWSS:1070 Asian American Women Writers 3 s.h.
Introduction to major Asian American writers of 20th and 21st centuries; construction of gender within Asian American communities and diverse experiences of Asians in America; novels, short stories, memoirs, films, and historical and critical texts.

GWSS:1074 Inequality in American Sport 3 s.h.
Cultural meanings of sport in contemporary U.S. culture; American dream as promoted, challenged in sport; sport experiences, inclusion, and exclusion as affected by gender and sexuality, race and ethnicity, social class, age, physical ability/disability, and nationalism. GE: Values and Culture. Same as AMST:1074, SPST:1074.
GWSS:1100 Contraception Across Time and Cultures 3 s.h.
Methods and history of contraception and abortion; issues of unwanted pregnancy and birth control in fiction, film, and media around the world. Same as CLSA:1100, GHS:1100, GRMN:1100, WLLC:1100.

GWSS:1310 Gender and Society 3-4 s.h.
Role and status of women in society; sex differences, sex role socialization, theories about origin and maintenance of sexual inequalities, changes in social life cycle of women, implications for social institutions and processes; focus on contemporary United States. GE: Values and Culture. Same as SOC:1310.

GWSS:1600 Wonder Woman Unleashed: A Hero for Our Times 3 s.h.
Development of the woman warrior archetype in mythology (Athena/Minerva and Artemis/Diana), literature (Camilla from The Aeneid by Virgil), and history (Artemisia and Joan of Arc); focus on the development of Amazon narratives in Metamorphoses by Ovid, The Book of the City of Ladies by Christine de Pizan, and On Famous Women by Boccaccio; students read Wonder Woman Chronicles and one or two critical studies on the subject, which may include The Secret History of Wonder Woman by Jill Lepore. Requirements: ENGL:1200. Same as CL:1600.

GWSS:2000 Desire, Consent, and Sex in U.S. Culture(s): Replacing Coercion and Violence with Respect 3 s.h.
Exploration of desire, sex, consent, and sexual violence in practical and theoretical dimensions; recent demands by students to change the way sexual violence is addressed; theory and sources from popular media; lectures by scholars, activists, and professionals; sexual violence, rape culture, and sexuality-based oppression confronted with academic/therapeutic/political knowledge; real world strategies to help better understand and combat sexual violence, theories. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as RHET:2031.

GWSS:2041 Gender, Communication, and Culture 3 s.h.
Social construction of gender and gendered identities across a range of communicative settings in contemporary U.S. society, including relationships, schools, organizations, media, and social movements; how communication creates, reproduces, sustains, and sometimes challenges and changes the meaning of gender and, with that, cultural structures and practices. Same as COMM:2041.

GWSS:2045 Working for Social Justice 1-3 s.h.
Identification and pursuit of careers in a wide range of fields where people advocate for and engage issues of social justice; writing self-assessments, résumés, sample employment application letters, statements of purpose; development of e-portfolios that highlight areas of student research and expertise; mock interview practice; Pomerantz Career Center resources; interviewing professionals in careers focused on social justice and feminist issues; local internship and volunteer possibilities; national and international educational and career opportunities for making a difference in the world.

GWSS:2052 Women in Islam and the Middle East 3 s.h.
Women in the Islamic community and in non-Muslim Middle Eastern cultures; early rise of Islam to modern times; references to women in the Qur'an and Sunnah, stories from Islamic history; women and gender issues. GE: International and Global Issues; Values and Culture. Same as RELS:2852.

GWSS:2055 Persuasion and Advocacy 3 s.h.
History of women’s rhetoric in the West and ways in which these approaches can be adapted to modern demands; strategies of prominent women rhetors analyzed from antiquity to present; how our own historical moment constrains, shapes, and enables women’s public speaking and writing today; projects that take advantage of multimodal presentation platforms and apply insights from class to causes of interest to UI students; enables students from all disciplinary and professional backgrounds to improve persuasive skills relevant to their careers. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as RHET:2055.

GWSS:2075 Gender, Sexuality, and Media 3 s.h.
Mediated representations of gender and sexuality (television, film, and internet) to understand how these complex and complicated codes influence meaning of sex, sexuality, and gender; contemporary and historical examples used to engage texts that illuminate cultural conceptions of femininity, masculinity, heterosexuality, and homosexuality; cases that confuse and trouble the stability of these categories. Same as COMM:2075.

GWSS:2078 Women, Sport, and Culture 3 s.h.
Feminist analysis of girls’ and women’s sports experiences, including reproduction of gender through sport, recent changes in women’s intercollegiate athletics, media representations of women’s sport, feminist critiques, alternatives to sport. Same as SPST:2078.

GWSS:2080 The Cultural Politics of HIV-AIDS 3 s.h.
Complex historical shifts in cultural perceptions about HIV-AIDS in the U.S. and transnationally; controversies around HIV-AIDS and their links with questions of gender and sexuality; how HIV-AIDS subsequently became the basis of a transnational industry comprising nongovernmental organizations, donors, and activists across the global north and south, starting from 1980s in the U.S. when HIV-AIDS first emerged into public sphere as a gay disease; link between HIV-AIDS and ideologies of development or progress, neocolonialism, and emergence of lesbian, gay, bisexual, transgender, intersex, and questioning (LGBTIQ) movements in many parts of world. Recommendations: background in gender studies, and completion of Rhetoric or at least one social sciences course. Same as GHS:2080.

GWSS:2102 Anthropology of Marriage and Family 3 s.h.
Classic anthropological theories of kinship and marriage, including topics such as cousin marriage and incest; recent work on new reproductive technologies and transnational marriage. Same as ANTH:2102.

GWSS:2108 Gendering India 3 s.h.
Aspects of Indian culture, including nation, family, sexuality, work, and religion, through the lens of gender; Hindu India, differences in region, caste, and class. Same as ANTH:2108.

GWSS:2110 Diversity in American Religious History: Experimenting with Gender and Sexuality 3 s.h.
Introduction to select popular, alternative, and communal religious groups from the 19th and 20th centuries that have challenged society’s norms for gender and sexuality. Same as HIST:2210, RELS:2110.
GWSS:2151 Global Migration in the Contemporary World 3 s.h.  
Examination of social, economic, and cultural dimensions of global migration in the contemporary world from a transnational and anthropological perspective; primary focus is on Asian migration to the United States, but in comparison to other migration trajectories. Recommendations: an introductory course in cultural anthropology is useful, but not required. Same as ANTH:2151, IS:2151.

GWSS:2172 The History of African American Women from Slavery to Freedom 3 s.h.  
Survey of African American women’s history from its beginnings through emancipation and Reconstruction; expansion of slavery in the South and its gendered implications, ways black women influenced antebellum slave culture, female modes of resistance, abolition of slavery in the North, and ways Northern emancipation shaped black women's experiences in the region; development of a free black community and black women’s roles in these new social configurations; African American female body under slavery; impact of war and revolution on African American women’s lives; black women’s experiences during Reconstruction.

GWSS:2193 Literature, Culture, and Women 3 s.h.  
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:2193.

GWSS:2222 Women in Premodern East Asian Literature 3 s.h.  
Reading of East Asian literature portraying women from the first millennium B.C.E. through the 1800s; discussion of issues related to representations of women and conventional social, familial roles in premodern China, Korea, and Japan; cross-cultural comparison of different perceptions and portrayals of women in premodern East Asian literary traditions. Taught in English. Recommendations: completion of all ESL courses. Same as ASIA:2222, CL:2222.

GWSS:2250 The History of Social Justice Movements 3 s.h.  
History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as HIST:2250, SJUS:2250.

GWSS:2400 Health Disparities and Intersectionality with U.S. Latina/o Peoples 3 s.h.  
Exploration of intersectionality (related to gender, immigration status, and more) and U.S. health disparities, particularly as they impact U.S. Latina/o peoples; Latina/o as a heterogeneous group, originating from a variety of countries, with families that may have mixed immigration, education, class, and/or nationality status; public health approaches and concepts; intersectionality, social determinants of health, the Social Ecological Model, Ecosocial Theory, and Critical Race Theory; examination of various levels of racism, sexism, and other forms of intersectional discrimination. Same as LATS:2400.

GWSS:2500 Love, War, Activism: Stories About Women from Across the World 3 s.h.  
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, SJUS:2500.

GWSS:2600 Men, Masculinity, Identity, and Health 3 s.h.  
Impact of male gender roles, masculine identity, and biology on men's health throughout the life course; focus on description, causes, and possible solutions for health related disparities for men in general and for men of color; concepts including machismo, caballerismo, John Henryism, Man Points, hegemonic, and other gender roles related to promoting and reducing quality of health and well-being of U.S. males.

GWSS:2651 Gender and Sexuality in the Ancient World 3 s.h.  
Survey of gender and sexuality issues in the social, political, and religious life of ancient Greece and Rome; evidence from literature, the visual arts, archaeology. Requirements: completion of rhetoric requirement and sophomore standing. GE: Values and Culture. Same as CLSA:2651.

GWSS:2700 Transgender People, Politics, and Cultures 3 s.h.  
How people live across and beyond social differentiation of sex and gender; how practices of identity building and political resistance transform or negotiate with social structures of gender, race, and class; burgeoning field of transgender studies which pushes to interrogate some fundamental aspects of human societies and question how supposedly “natural” categories of sex and gender are constructed and transformed; exploration of lives, politics, and subcultures of people who differ from gender norms in the United States and across the world; how transgender cultures and politics negotiate with structures of race and class. Recommendations: background in gender studies or social sciences.

GWSS:2771 Sexual Ethics 3 s.h.  
Introduction to religion and ethics; diverse secular, Jewish, and Christian perspectives on human sexuality and sexual activity; religious views underlying divergent attitudes toward same-gender sexuality and abortion. Same as RELS:2771.

GWSS:2800 African American Women, Health, Hair, and Sexuality 3 s.h.  
From the exotic to the erotic, African American women’s bodies have been constructed to fulfill a variety of personal and cultural fantasies as well as social functions that are "killing us softly"; how cultural icons and myths of Black women—Jezebel, Mammy, Tragic Mulatto, Aunt Jemima, Sapphire, Matriarch, Welfare Queen, and more recently, the overarching Black woman—shape and create restrictions and visions of the self that contribute to health disparities; engaging Black Feminist/Womanist theory to explore how larger images influence everyday acts of self-care and pleasure, such as hair and sexuality, on the health of African American women. Same as AFAM:2800.

GWSS:3005 Gender, Women’s, and Sexuality Studies Practicum 3-4 s.h.  
Experience in volunteer work for organizations that provide services for women. Prerequisites: GWSS:1001.
GWSS:3010 Transnational Sexualities 3 s.h.  
How ideas about normative and nonnormative sexuality, gender/sexual identities, and related social movements travel across geographical, political, and cultural boundaries; potentials and limits of using conceptual frameworks (i.e., sexuality, gender, LGBT, queer) across the west and global south; how sexuality always intersects with race, class, nationhood, and transnational systems of power; power structures that shape gender/sexuality through a transnational approach; connection of inequalities within the United States with those across the world. Same as GHS:3015.

GWSS:3050 Topics in Gender, Women's, and Sexuality Studies 1.3 s.h.  
Representative topics: American Indian/First Nations Women; population and the environment; feminism and the family; women, health, and healing; women of color.

GWSS:3100 LGBT/Q Queer Studies 3 s.h.  

GWSS:3101 Anthropology of Sexuality 3 s.h.  
Practice, definition, and regulation of sex in different cultures and times; use of anthropological tools, including cross-cultural comparison and social constructionist analysis; how social and historical forces shape sex; how a range of topics relate to sexuality, including science, love, work, globalization, ethnicity, health, aging, pornography, and deviance; focus on ways that dynamics (i.e., class, race, gender norms) shape people's culturally- and historically-specific ways of having and thinking about sex. Same as ANTH:3101.

GWSS:3118 Politics of Reproduction 3 s.h.  
Debates over women's reproductive experience, including its medicalization. Same as ANTH:3118.

GWSS:3120 Prose by Women Writers 3 s.h.  
English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Varies by semester. Same as ENGL:3120.

GWSS:3121 Love, Marriage, and Family in India 3 s.h.  
Anthropological understandings of love in India and the region of South Asia more broadly; emphasis on contemporary society; filial and motherly love, arranged marriage and romantic love, devotional and artistic expressions, love between siblings. Same as ANTH:3121.

GWSS:3131 Gender and Sexuality in Asia 3 s.h.  
Conceptions of sex, gender, and sexuality in the religions of China, Korea, and Japan; asceticism and celibacy; sexual alchemy; the difference between male and female bodies and souls; intersexed persons; female saints and immortals; transgressive sexuality; gender and sexuality in colonial Asia; East Asian religions and postcolonial feminism. Same as RELS:3431.

GWSS:3138 Writing to Change the World 3 s.h.  
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; how language, imagery, popular culture, and history affect perceptions of gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as RHET:3138, SJUS:3138.

GWSS:3140 Feminist Anthropology 3 s.h.  
Development and evolution of feminist critiques in cultural anthropology; readings from early studies by women ethnographers, classic writings that sought to give women cross-cultural visibility, recent experimental texts. Same as ANTH:3140.

GWSS:3154 Sexuality in the United States 3 s.h.  
History of gender and sexuality as components in international human rights activism and law; current debates, representative topics. Same as HIST:3157.

GWSS:3173 Gender, Sexuality, and Literature 3 s.h.  
Representations of gender, class, and sexuality in British, American, or postcolonial literature. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:3173.

GWSS:3177 Women and Their Bodies in Health and Illness 3 s.h.  
Basic facts about structure and functioning of female body; particular attention to adjustments the body makes during normal physiological events (menstruation, sexuality, reproduction, menopause) and during illness processes; women's mental and physical health issues in relation to women's lives and roles in society; relationship of women as consumers, practitioners, and activists to health system; achievements and limitations of women's health movements; anti-oppression, intersectionalities, and cross-cultural perspectives. Same as NURS:3739.

GWSS:3185 Global Women's Cinema 3 s.h.  
Introduction to contemporary women's cinema and feminist filmmaking from around the world; emphasis on post-1968 period and cinema produced outside the United States. Same as WLLC:3185.

GWSS:3190 Tell Magazine Writing and Publishing Workshop 3 s.h.  
Students serve as editorial, writing, and production staff for Tell, the Department of Gender, Women's, and Sexuality Studies' digital magazine; Tell explores issues of race, class, gender, sexuality, ability, national identity, and other differences of power and privilege often absent in mainstream publications; students learn technical aspects of digital publication management, write their own stories and columns for the magazine and its ongoing blog, create digital and graphic materials, organize outreach events and manage social media outlets for the magazine, and work as editors and collaborative partners with one another and with writers and artists who submit work for publication. Requirements: gender, women's, and sexuality studies or social justice major or advanced minor.
GWSS:3200 Feminist Debates and Social Movements 3 s.h.
Historical and contemporary feminist analyses of women's position in culture and society; variety of theoretical approaches, political perspectives; contemporary issues, controversies.

GWSS:3266 Women and Nonfiction 3 s.h.
Issues of representation and self-representation by and about women through the study of documentary film and personal essay; focus on paired texts in literature and cinema for analysis and critical reflection; development along historical and transnational lines of inquiry to explore literary and cinematic depictions of racial and cultural identity; motherhood, friendship, and the family; women during wartime, violence against women, domestic and industrial women's work. Requirements: junior or senior standing.

GWSS:3280 Women and Power in U.S. History Through the Civil War 3 s.h.
Exploration of how women, as political actors, shaped the outcome of familiar events (the American Revolution, the Civil War); how they organized social movements around important issues of their lives such as the abolition of slavery and the right to consent to sexual intimacy; how women's inequality was established in law and social practice; how women thought about and challenged inequality, both as individuals and in social movements. Same as HIST:3280.

GWSS:3282 Women and Power in U.S. History Since the Civil War 3 s.h.
Major events and themes in U.S. women's history from late 19th century to present; how women's experiences have differed from men's; exploration of distinct, but interconnected histories of different groups of women; changing ideals of femininity; women's experience of industrialization, immigration, depression, war, and sexual revolution; women's activism for social reform, women's rights, labor, civil rights, peace, and the New Right. Same as HIST:3282.

GWSS:3300 Mothers and Motherhood 3 s.h.
Treatment of motherhood; role of motherhood and devaluation of social status. Same as ANTH:3300.

GWSS:3326 The Politics of Progress: NGOs, Development, and Sexuality 3 s.h.
How nonprofit sector increasingly plays a significant role in countering socioeconomic inequalities in the United States and global south; role of nonprofit organizations in relation to governmental policies of development, transnational funders, and ideas of sexual progress; critics of development institutions' arguments that western ideas of progress impose and adversely affect groups they claim to empower, yet also may foster struggles for social justice that go beyond development policy; examination of transnational nonprofit sector in relation to gender/sexuality and how it impacts women and gender/sexual minorities around the world. Recommendations: background in gender studies or social sciences. Same as GHS:3327.

GWSS:3350 Transnational Feminism 3 s.h.
Exploration of feminist perspectives from the United States and outside of the United States; how geopolitics shapes understanding of familiar feminist issues (e.g., reproduction, cultural practices, sexualities, poverty); emphasis on global south regions and populations. Same as ANTH:3125, IS:3350.

GWSS:3360 Latin American Women Writers 3 s.h.
Focus on 20th century; how Latin American women subjects view themselves through literature; textual practice specific to women; psychoanalytic approaches, contemporary feminist criticism. Requirements: at least one course taught in Spanish at the 2000 level or above. Same as SPAN:3360.

GWSS:3375 Women and Poverty 3 s.h.
Examination of women's experiences of poverty in the U.S.; scholarship that seeks to better understand the complex intersections of gender and class, with specific emphasis on poverty; students meet and interact with professionals working in Iowa, addressing poverty and related issues, and engage in an ongoing dialogue about the causes, consequences, and possible solutions to poverty in communities and beyond; course work and discussions focus specifically on unique challenges women encounter as they navigate their way through and/or out of poverty using an intersectional approach.

GWSS:3400 GWSS Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequalities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as SJUS:3400.

GWSS:3415 Cultural Diversity and Identity 3 s.h.
Nature of personal and cultural identity within a pluralistic society; race, ethnicity, national identity, class, sexuality, and gender as categories of cultural difference. Same as THTR:3415.

GWSS:3421 Performing Autobiography 3 s.h.
Write and perform original pieces stemming from personal experiences and interests; readings and videos; genre of contemporary autobiographical performance as established artists have developed it; improvisational performance and writing exercises to foster deeper reflection on personal experiences; final staging of students' original work. Recommendations: RHET:1030. Same as THTR:3421.

GWSS:3425 Women, Crime, and Justice 3 s.h.
Overview of women's experiences with crime and criminal justice system, with reference to experiences of men for purposes of comparison; role of race, ethnicity, and poverty in women's experiences; causes of crime, inequalities in police-citizen interactions, imprisonment, and other aspects of criminal justice system experience. Same as CRIM:3425.

GWSS:3450 Writing About Girls 3 s.h.
Examination of a wide range of critical and creative works by contemporary women writers on girlhood; common use of the word "girls" to describe adult women; representations of girls in film and television; role of media in sexualization of girls; impact of gender, race, and class in girls' lives; nature of girls' relationships with one another; ways in which girlhood traumas can continue into adult life; contemporary issues of body image and sexuality (e.g., pressures to be thin, disparagement of sexually active girl as "slut"); poverty, hunger, and homelessness; resistance and rebellion. Same as ENGL:3820.
GWSS:3460 Girls' Studies 3 s.h.
Introduction to the interdisciplinary field of girls' studies; examination of social constructions of girlhood with focus on contemporary girls in the U.S. and globally; media and popular culture representations of girls; girl culture and psychology; girls' lived experiences of sexism, racism, classism, and homophobia; topics include body, sexuality and identity, education, differences of race, class and nationality, and forms of girls' political activism.

GWSS:3525 Gender, Race, and Citizenship in North and South America 3 s.h.
Interaction between race, gender, and citizenship throughout the 18th, 19th, and 20th centuries in North and South America; comparative study of how men and women engaged in the practice of citizenship; analysis of primary sources and identification of similarities and differences in gender norms and race; how these factors influence the rights, duties, and obligations of citizenship across time and location. Same as HIST:3125.

GWSS:3570 Transnational and Postcolonial Writing by Women 3 s.h.
English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as CL:3570, ENGL:3570.

GWSS:3600 Art, Feminist Practice, and Social Justice 3 s.h.
Issues related specifically to gender, women's, and sexuality studies through the arts; themes include broad social issues such as violence, sexual assault, incarceration, reproduction, immigration, and labor; students explore a theme and work with community partners to address the theme through social practice in the arts. Recommendations: prior courses in gender, women's, and sexuality studies, or courses in social work, art education, or studio arts.

GWSS:3610 Writing in the Presence of Death: Rhetoric, Narrative, and Hospice 3 s.h.
Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Requirements: satisfactory completion of General Education rhetoric requirement. Same as ASP:3610, RHET:3610.

GWSS:3700 Narratives of Gender and Masculinity 3 s.h.
Engaging with and deconstructing the stories men and women tell about what it means to be a man in the 21st century; topics may include cultural differences in the construction of gender and masculinity, queer masculinity, masculinity and social justice movements (especially feminism), history of the present moment in masculinity, masculinity from a non-binary perspective, literary representations of masculinity, and masculinity in mass culture. Requirements: completion of rhetoric requirement. Same as RHET:3150.

GWSS:3710 African American Women Writers 3 s.h.
Introduction to major African American women authors of the 19th, 20th, and 21st centuries; major debates of black feminist literary scholarship; analyze African American literary representations by reading novels, poetry, short stories, plays, relevant historical and critical texts. Same as AFAM:3710.

GWSS:3750 Born in the USA: Fertility and Reproduction 3 s.h.
Exploration of when, why, how, and with whom Americans bear children; comparison to other developed and developing countries in the world; infertility and its treatments; ethics of surrogacy; voluntary childlessness; rapid rise of nonmarital childbearing in the U.S. and other countries; politics of childbirth; declining populations; rapid aging of rich where women have basically stopped having children. Same as SOC:3750.

GWSS:3950 Academic Internship 1-3 s.h.
Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self- evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as SJUS:3950.

GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies arr.

GWSS:4000 Sex/Text:: Engendering the Essay 3 s.h.
Analyze and discuss significant essays that have engaged and articulated sexuality and gender in contemporary societies, in the U.S. as well as other cultures; students write and workshop on these topics: bodies are battlegrounds, gender is convoluted, sex is serious; gender and sexuality are emotionally charged, politically volatile, and socially complex issues. Recommendations: major or minor in writing-intensive disciplines, or previous writing classes.

GWSS:4026 French Women Writers 3-4 s.h.
Survey of 20th-century French women writers with emphasis on Simone de Beauvoir; broad range of literary works by writers including de Beauvoir, Colette, Marguerite Yourcenar, Nathalie Sarraute, Marguerite Duras, Sarah Kofman, Annie Ernaux, Christiane Rachefort; French feminist theorists who followed in de Beauvoir's footsteps, including Helene Cixous, Irigaray. Taught in English. Prerequisites: FREN:3060 and FREN:3300. Requirements: for 4 s.h. option—FREN:3060 and FREN:3300. Same as FREN:4026.

GWSS:4050 Introduction to the Capstone Research Project 1 s.h.
Opportunity to plan and begin work on capstone senior research projects in gender, women's, and sexuality studies and social justice; capstone project builds on course work, knowledge, and academic skills, activism and engagement in the community, and personal experiences and interests; topics include how to choose a subject area and focus, develop key questions, define a problem, find and use sources, identify research archives, employ different methodologies and forms of writing, and link research to creative work. Prerequisites: GWSS:1001 and GWSS:1002.

GWSS:4090 Senior Research Seminar 3 s.h.
Design and development of individual creative or scholarly projects in the field of gender, women's and sexuality studies; emphasis on strengthening students' research and writing skills; synthesizing and extending work already completed in the major. Prerequisites: GWSS:1001. Requirements: two women's studies courses numbered above GWSS:1001.
GWSS:4095 Honors Senior Thesis arr.
Supervised research, writing. Requirements: honors standing and completion of course work for minor in women's studies.

GWSS:4140 Feminist Activism and Global Health 3 s.h.
How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: ANTH:1101. Same as ANTH:4140, CBH:4140, GHS:4140.

GWSS:4169 Feminist Rhetorics 3 s.h.
Exploration of multiple, varied, and complex histories of U.S. feminisms from rhetorical perspectives; focus on primary documents, the letters, speeches, essays, and manifestos/manifesto/as that shaped women's movements and inspire social change from late 18th century to present; social, political, and personal issues that feminists sought to address and transform, communicative and rhetorical methods utilized, and implications of these efforts for women's lives and broader U.S. American culture. Prerequisites: (4 of the following are required: COMM:1112 or COMM:1170), (COMM:1117 or COMM:1130), (COMM:1168 or COMM:1174), (COMM:1301, COMM:1305) and (2 of the following are required: COMM:2010, COMM:2011, COMM:2040, COMM:2041, COMM:2042, COMM:2044, COMM:2048, COMM:2051, COMM:2052, COMM:2053, COMM:2054, COMM:2057, COMM:2058, COMM:2064, COMM:2065, COMM:2069, COMM:2075, COMM:2076, COMM:2077, COMM:2079, COMM:2080, COMM:2085, COMM:2086, COMM:2087, COMM:2088, COMM:2089, COMM:2090, COMM:2091). Same as COMM:4169.

GWSS:4180 Women’s Lives in Alternative Texts 3 s.h.
Work of contemporary memoir creators; how they craft memoir-based texts that explore intersections of aging, sexuality, race, gender, and relationships. Same as INTM:4780.

GWSS:4283 U.S. Women's History as the History of Human Rights 3-4 s.h.
History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as AMST:4283, HIST:4283, HRTS:4283.

GWSS:4427 Society and Gender in Europe 1200-1789 3 s.h.
Social and gender ideologies as inscribed in patterns of authority (household, church, state); ranges of human endeavor (intellectual, psychological, biological); community organization (social, economic, legal, sexual); their influence on concept of community. Same as HIST:4427.

GWSS:4540 Gender and Sexuality in French Cinema 3-4 s.h.
Cultural, historical, semiotic approach to studying construction of gender identity and sexual codes in French cinema from 1920s to present. Taught in English. Same as FREN:4540.

GWSS:4725 Women and Gender in African History 3 s.h.
Importance of female agency in African history; African women's history in historiographical framework of women's history, challenges historians face in exploring African women's past; varied sources (e.g., novels, films, court records) from sub-Saharan Africa, urban and rural settings; current literature on African women, African women's experiences in a comparative context. Same as HIST:4725.

GWSS:4820 Sociology of Sexuality 3 s.h.
Sociological perspectives on sexuality, including theoretical and conceptual developments, empirical regularities, and social implications; sexual expression in the United States. Prerequisites: SOC:1010 or SOC:1020. Same as SOC:4820.

GWSS:5000 Foundations for Feminist Inquiry I 3 s.h.
Theory, critique, methodology, practice.

GWSS:5120 Reading Transnational Feminist Theory 3 s.h.
Issues in transnational feminist scholarship, including colonialism, globalization, the nation-state, religion, cultural traditions, and human rights, in global and U.S. domestic contexts; interdisciplinary readings with focus on anthropology, other social sciences. Same as ANTH:5120.

GWSS:6050 Topics in Gender, Women's, and Sexuality Studies 3 s.h.
Special topics in women's studies.

GWSS:6125 Seminar: Feminist Ethnography 3 s.h.
Feminist critiques of traditional ethnographies; informed by contemporary feminisms. Same as ANTH:6125.

GWSS:6130 Studies in Francophone Literatures 3 s.h.
Historical, anthropological, comparative approach to Francophone literatures and cultures; Afro/Indo-Caribbean religions in literatures, theoretical and critical discourses, women's literature and cinema. Same as FREN:6130.

GWSS:6238 Gender and Education in Historical Perspective 3 s.h.
Gender in context of history of education in the United States; coeducation in common schools, academies, and high schools; women's arrival and experiences as college students; masculinity in higher education; single-sex versus coeducation; emphasis on conflicting historical interpretations. Same as EPLS:6238.

GWSS:6310 Anthropology of Science, Technology, and Gender 3 s.h.
Science and technology done in particular social and structural contexts; theoretical approaches for understanding cultures of science and social uses of technology; focus on gender-related aspects of real world cases. Recommendations: graduate standing in any discipline with interest in understanding cultural context of scientific practice. Same as ANTH:6310.

GWSS:6350 Gender and Religion 3 s.h.
What contemporary religious and spiritual groups and their members believe about sex, sexuality, and gender; how they define and redefine what it means to be a “man” and a “woman”; exploration of contemporary “conservative” and “progressive” cosmologies and theologies; underlying beliefs that construct these perspectives and the impact on individual and group practices; broader implications of individual and group beliefs and practices on national and global policies. Same as RELS:6350.
GWSS:6415 Seminar: Language, Gender, and Sexuality 3 s.h.
Role of language and discourse in cultural constructions of gender identities and relations, including domination and subordination; theoretical perspective and methodological approaches that have shaped thought on the language/gender nexus. Same as ANTH:6415, LING:6415.

GWSS:6710 Seminar: Women in Sport 3 s.h.
Women’s sport involvement in historical and/or contemporary contexts; focus on social class, religion, race, ethnicity, sexuality, medical opinion, economic considerations, political events, and educational philosophies that have influenced women’s participation. Same as AMST:6078, SPST:6078.

GWSS:6990 Independent Study arr.

GWSS:7020 Feminist Research Seminar arr.
Feminist research methodologies; how to conduct original research, write a research proposal and research paper, and read and critique others’ work. Same as HIST:7120.

GWSS:7205 Gender and Race in Nineteenth-Century U.S. arr.
Same as AFAM:7205, HIST:7205.

GWSS:7214 Readings: African American Women’s History arr.
Same as AFAM:7214, HIST:7214.

GWSS:7220 Readings: History of Sexuality arr.
History of sexuality within the family, its move into the marketplace; social customs and taboos, methods of birth control and abortion, religion, medical and psychological writings, state policies. Same as HIST:7220.

GWSS:7275 Readings in the History of Women and Gender in the U.S.A. arr.
Same as HIST:7275.

GWSS:7289 Readings: Gender in Latin American History arr.
Same as HIST:7589.

GWSS:7400 Graduate Research Conference Presentation 1 s.h.
Presentation of conference paper based on current research activities; for students pursuing the Certificate in Gender, Women’s, and Sexuality Studies. Requirements: gender, women’s, and sexuality studies graduate certificate standing.

GWSS:7435 Readings: Women, Men, and Gender in Modern Europe arr.
Same as HIST:7435.

GWSS:7920 Innovative Methods in Pedagogy: Radical Feminist Pedagogy 3 s.h.
Readings in history, theory, and practice of pedagogical innovations appropriate to composition instruction and other interdisciplinary teaching; project-based assignments that produce materials appropriate for classroom use. Same as RHET:7920.

Social Justice Courses

SJUS:1001 Introduction to Social Justice 3 s.h.
Introduction to principles and theories of social justice; students examine the history of influential social movements in the United States and the world in the last century; how intersectionality can create tensions between and among members of social movements; how race, class, gender, age, geography, and our bodies play a role in the application of theories of social justice. Same as GWSS:1003.

SJUS:2250 The History of Social Justice Movements 3 s.h.
History of contemporary social movements in the U.S. and how these movements have directly affected policies related to environment, food, reproductive justice, civil rights, immigration, labor, race, and gender; students read, explore, discuss, and write about the history of contemporary social movements in the U.S. that had lasting effects on policies related to environment, agriculture, health, reproductive justice, civil rights, labor, race, gender, and immigration; exploration of multiple modes of representation and resistance including protests, boycotts, strikes, music, art, writing, riots, civil disobedience, theater, poetry, dance, and poetry. Same as GWSS:2250, HIST:2250.

SJUS:2500 Love, War, Activism: Stories About Women from Across the World 3 s.h.
Literary and cinematic representations of gender in works by authors and directors from the Global South; development of historical and cultural lines of inquiry to examine artistic representations of love, sexuality, friendship, and parenting; shifts in gender identities and relations that result from social and political crises. English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Postcolonial Studies. PERIOD: 20th/21st-Century Literature. Same as ENGL:2570, GWSS:2500.

SJUS:3138 Writing to Change the World 3 s.h.
Writers who can frame questions, weigh competing perspectives, structure an argument, and write with clarity and respect for diverse audiences as powerful agents for social change; writers who have inspired human rights movements; public forms of writing with local organizations whose missions are shaped by social attitudes to gender and sexuality; how language, imagery, popular culture, and history affect perceptions of gender and sexuality; conducting research and evaluation of evidence; best practices for communicating and collaborating; skills needed to be an effective advocate. Prerequisites: RHET:1030 or RHET:1040 or RHET:1060. Same as GWSS:3138, RHET:3138.

SJUS:3250 Literature and Social Justice 3 s.h.
How literature from various time periods, both American and global, has enacted, represented, depicted, or encouraged forms and acts of social justice; students study various genres (e.g., essay, poem, autobiography, short story, fiction) and learn how literature has been used to conceptualize social justice, address national and global inequities, and take up complex and intersecting issues of power and privilege.

SJUS:3400 GWSS Advocacy and Engagement Colloquium 1-3 s.h.
How to capitalize on volunteer experience; how experience can lead to careers in health care, law, advocacy, social work, social justice, education; issues related to domestic violence, community education, sexual assault; health care for women, youth, and LGBTQ populations; health care inequities, social justice; field journal. Recommendations: active volunteer work at feminist-centered organizations in Iowa, completion of 40-hour training, plan to serve organization for up to ten or more hours each month, and attendance at regularly scheduled volunteer meetings. Same as GWSS:3400.
SJUS:3950 Academic Internship 1-3 s.h.
Work under supervision of a faculty member on a scholarly or creative project related to the department or campus, or work with the director of undergraduate studies as a media, digital publishing, or teaching intern; students receive credit for the internship depending on the number of hours they work, learning objectives they develop, and meetings, written reports, and other research-related or self-evaluative writing they contract to do with the supervising faculty member. Prerequisites: GWSS:1001. Requirements: gender, women's, and sexuality studies or social justice major or minor. Same as GWSS:3950.

SJUS:4080 Advocacy and Engagement Capstone 3 s.h.
Design and development of individual creative or scholarly projects in the field of social justice; emphasis on strengthening student's research and writing skills; synthesizing and extending work already completed in the social justice major. Prerequisites: SJUS:1001 and GWSS:1002 and GWSS:3138 and PHIL:1034 and SOC:2810.
Gender, Women's, and Sexuality Studies, B.A.

Students who major in gender, women's, and sexuality studies acquire knowledge of the field’s major theories, gender and sexuality outside the United States and Western Europe, major feminist ideas and debates, and the impact and effects of difference and diversity in individual lives. During their senior year, students apply this knowledge in individual capstone research projects.

Requirements

The Bachelor of Arts with a major in gender, women’s, and sexuality studies (GWSS) requires a minimum of 120 s.h., including at least 37 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464).

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 24 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 12 s.h. of transfer credit may be counted toward the degree. Students earning more than one major may count a maximum of three courses completed for another major toward the gender, women's, and sexuality studies major.

Work for the major consists of the undergraduate core, distribution requirements, and electives. The undergraduate core includes a practicum and culminates in a research seminar.

The B.A. with a major in gender, women’s, and sexuality studies requires the following course work.

<table>
<thead>
<tr>
<th>Undergraduate Core</th>
<th>13-14</th>

</thead>
<tbody>
<tr>
<td>Distribution Requirements</td>
<td>12</td>
</tr>
<tr>
<td>Electives</td>
<td>12</td>
</tr>
<tr>
<td>Total Hours</td>
<td>37-38</td>
</tr>
</tbody>
</table>

Undergraduate Core

The undergraduate core consists of five courses (minimum of 13 s.h.). Two introductory courses, GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and GWSS:1002 Diversity and Power in the U.S., orient students to the major conceptual areas that constitute GWSS as an interdisciplinary field: GWSS:1001 introduces the study of cultural and social beliefs about sex, gender, race, class, and sexuality; GWSS:1002 examines issues of race, class, and gender in the United States and the consequences of inequity for communities and individuals.

Gender, Women’s, and Sexuality Studies Practicum (GWSS:3005) allows students to explore the intersection of race, sexuality, class, and gender, focusing on social justice issues, through a practicum experience in collaboration with community partners. Students earn 3-4 s.h. for the practicum, depending on the semester in which they take it.

GWSS capstone courses help students envision, design, and develop individual creative or scholarly projects in their senior year. Students take GWSS:4050 Introduction to the Capstone Research Project, an eight-week fall semester course for 1 s.h. and GWSS:4090 Senior Research Seminar, a 3 s.h. course in the spring semester. Members of the University of Iowa Honors Program who decide to write honors theses take GWSS:4095 Honors Senior Thesis in the spring semester for 3 s.h. Thesis writers may decide, in consultation with the thesis advisor, to opt to enroll in the fall in GWSS:4050 Introduction to the Capstone Research Project.

The undergraduate core includes the following course work.

<table>
<thead>
<tr>
<th>All of these:</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>One of these:</td>
</tr>
<tr>
<td>GWSS:4090</td>
</tr>
<tr>
<td>GWSS:4095</td>
</tr>
</tbody>
</table>

Distribution Requirements

The distribution requirements (total of at least 12 s.h.) are chosen from the following lists. They include one GWSS theory course, one transnational theory course, one GWSS course with a global/comparative focus, and one GWSS or other course with a race/ethnicity focus. Students may request permission from the director of undergraduate studies to use courses not on these lists; ideally, these courses should be offered by GWSS (prefix GWSS). At least half of the material in global/comparative topics courses must have a non-U.S. context.

Any African American studies course (prefix AFAM) numbered 2000 or above
Any American Indian and native studies course (prefix AINS) numbered 2000 or above

Electives

Students choose elective courses from the list below. They must complete at least four electives (minimum of 12 s.h.), earning at least 6 s.h. in courses numbered 3000 or above. With the instructor's permission, honors students may enroll in a graduate-level course numbered 5000 or above and count it toward the electives requirement. In choosing electives, students are encouraged to pursue a course of study that emphasizes breadth and depth in a focus area. They may choose courses that they gain deeper knowledge within a specific discipline, such as anthropology, communication studies, English, history, and social work. Students that pursue double majors may be able to count a maximum of three courses toward the GWSS major and their second major. Students also may choose courses that allow them to focus on interdisciplinary fields such as sexuality studies, girls’ and women’s studies, global and transnational studies, studies in race and ethnicity, or in subject areas such as social justice or health. Students may request permission to use upper-level courses not listed below, but at least half of a course’s content and requirements must focus on gender and/or sexuality. For information on requesting permission to use a course not listed below, contact the GWSS undergraduate advisor. Students select at least four of these courses (minimum of 12 s.h.), with a minimum of 6 s.h. numbered 3000 or above.

GWSS:1000  First-Year Seminar 1
GWSS:1005  Topics in Gender, Women’s, and Sexuality Studies 3
GWSS:1060/AMST:1060/ENGL:1410  Sex and Popular Culture in the Postwar U.S. 3
GWSS:1074/AMST:1074/SPST:1074  Inequality in American Sport 3
GWSS:1310/SOC:1310  Gender and Society 3-4

Honors

Honors in the Major

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.50 in the major. Students must write an honors thesis that requires two semesters of work during the senior year: fall (thesis research) and spring (thesis writing).

Students who intend to graduate with honors in the major should meet with the GWSS director of undergraduate study before the end of their junior year. They also must select a faculty member to serve as their honors thesis supervisor before they begin their thesis work. The department recommends that students consider faculty members from whom they have taken GWSS courses.

Students have three options for conducting honors research. They can work with a faculty member in GWSS:3990 Independent Readings and Research in Gender, Women's, and Sexuality Studies for 3 s.h.; create an honors contract for a GWSS course numbered 3000 or above taught by the honors thesis supervisor; or complete a graduate readings course or seminar related to their thesis subject.

Students write their honors theses during the spring semester of their senior year in GWSS:4095 Honors Senior Thesis. Although enrolled in this class, honors students work throughout the semester with students in GWSS:4090 Senior Research Seminar. Participation in this class allows them to share their research and writing and participate in the department's end of the year Senior Research Poster Presentation. Students have the option to enroll in GWSS:4050 Introduction to the Capstone Research Project in the fall semester.

A GWSS student earning honors in more than one major may choose to complete a single thesis that satisfies the honors requirements of both departments. Students must have thesis advisors in both departments, and both advisors must approve the final project.

University of Iowa Honors Program

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University's honors program.

Membership in the UI Honors Program is not required to earn honors in the gender, women's, and sexuality studies major.

Academic Plans

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan.

Before the third semester begins: GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies

Before the seventh semester begins: one GWSS distribution course (theory or comparative/non-U.S. focus) and at least 90 s.h. earned toward the degree

Before the eighth semester begins: GWSS:3005 Gender, Women's, and Sexuality Studies Practicum, GWSS:4050 Introduction to the Capstone Research Project, one more GWSS distribution course (theory or comparative/non-U.S. focus), and at least one more GWSS elective

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Sample Plan of Study

Gender, Women's, and Sexuality Studies (B.A.)

Course | Title | Hours
--- | --- | ---
GWSS:1001 | Introduction to Gender, Women's, and Sexuality Studies (also GE: Values and Culture [p. 473]) | 3
RHET:1030 | Rhetoric (GE: Rhetoric or other General Education course [p. 464]) | 4
GE: Diversity and Inclusion [p. 470] | 3

Total Hours 120-128

1 General Education (GE) courses may be completed in any order unless used as a prerequisite for another course. Students should consult with an advisor about the best sequencing of courses. For more information, view the General Education Program [p. 464].

2 Students may use their elective courses to complete a double major, minors, or certificates.

3 Students who have completed four years of a single language in high school have satisfied the College of Liberal Arts and Sciences GE: World Languages requirement. Enrollment in world languages courses requires a placement exam, unless enrolling in a first-semester-level course.

### Career Advancement
Gender, women's, and sexuality studies (GWSS) majors can work in numerous settings, such as research, advocacy, policy and programming, government and nonprofit agencies, human resources, fundraising, counseling, education, publishing, international development, or activist work. Students also can continue their studies in numerous academic programs or professional schools, such as women's and gender studies, history, anthropology, area studies, and schools of law, public health, business, and journalism.

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Social Justice, B.A.

Students who major in social justice expand their knowledge integrating theory and engagement with “real world” field experiences. They approach social justice through the arts, history, literature, comparative religious studies, political science, philosophy, health education, and gender, women’s, and sexuality studies.

Social justice students:

• explore how the intersections of geography, race, class, gender, sexuality, health, economics, and history create networks of privilege and oppression across the globe through course work and reflect on situations they encounter in the field;
• read, write, listen, and act through course work and fieldwork in order to understand how conditions are created for change on the local, regional, and national level historically, ethically, politically, and personally;
• learn about selected history of social movements, how those movements emerged, and the impacts those movements had on policy, populations, the environment, and culture through engagement in a core course;
• develop a deeper understanding of issues, practice, research, and theory related to social justice in one or more areas of study within the traditional disciplines of the liberal arts through 9 s.h. of course work in an area of specialization; and
• prepare for employment and/or for graduate study in various fields through high quality internships and educational experiences, including anthropology, political science, law, criminology, health, the cultural sector, social services, business, nonprofit management, or public history projects.

Requirements

The Bachelor of Arts with a major in social justice requires a minimum of 120 s.h., including at least 39 s.h. of work for the major. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program [p. 464].

Students may declare the major at any time. They are advised by the Academic Advising Center until they have earned 24 s.h. of credit. Transfer credit is evaluated case by case; a maximum of 6 s.h. of transfer credit may be counted toward the degree. Foundation courses must be completed at the University of Iowa. Students earning more than one major may count a maximum of 6 s.h. completed for another major toward the social justice major.

Work for the major consists of foundation course work, core courses, an emphasis area, and a capstone experience.

The B.A. with a major in social justice requires the following course work:

| Foundation Courses | 15 |
| Core Courses | 9 |
| Emphasis Area | 9 |
| Capstone | 6 |
| Total Hours | 39 |

Foundation Courses

The foundation consists of five courses (minimum of 15 s.h.). Two introductory courses, SJUS:1001 Introduction to Social Justice and GWSS:1002 Diversity and Power in the U.S., orient students to the major conceptual areas that constitute social justice as an interdisciplinary field: SJUS:1001 introduces students to the principles and theories of social justice; GWSS:1002 examines issues of race, class, and gender in the United States and the consequences of inequity for communities and individuals.

| All of these: |
| SJUS:1001 | Introduction to Social Justice | 3 |
| GWSS:1002 | Diversity and Power in the U.S. | 3 |
| GWSS:3138/ RHET:3138/SJUS:3138 | Writing to Change the World | 3 |
| PHIL:1034 | Liberty and the Pursuit of Happiness | 3 |
| SOC:2810 | Social Inequality | 3 |

Core Courses

History and Social Movement

Two of these:

| AFAM:3500/RELS:3808 | Malcolm X, King, and Human Rights | 3 |
| COMM:2054 | Movements, Protest, Resistance | 3 |
| HIST:3232 | History of American Inequality | 3 |
| HIST:4101 | History of Human Rights | 3 |
| HIST:4252 | American Labor in the Twentieth Century | 3 |
| HIST:4260 | The Sixties in America | 3 |
| SOC:4540 | Political Sociology and Social Movements | 3 |

Human Rights, Diversity, and Ethics

One of these:

| AFAM:1020/AMST:1030 | Introduction to African American Culture | 3 |
| AINS:1049/AMST:1049 | Introduction to American Indian and Native Studies | 3 |
| HIST:2280/LATS:2280/SPAN:2280 | Introduction to Latina/o Studies | 3 |
| HRTS:2115/IS:2115 | Introduction to Human Rights | 3 |
| HRTS:3910/IS:3910 | Human Rights Advocacy | 3 |
| PHIL:2402 | Introduction to Ethics | 3 |
| PHIL:3430 | Philosophy of Human Rights | 3 |
Emphasis Area

Students choose one emphasis area from the following lists and complete three courses (9 s.h.); two of the courses must be numbered 3000 and above. A course used to satisfy the foundation, core, or human rights, diversity, and ethics requirement cannot be taken to satisfy an emphasis area requirement. Students may substitute courses with approval of the social justice advisor. They also may include one study abroad course related to social justice, including the India Winterim Program; see Study Abroad [p. 1721] in the Catalog. In addition, students may create their own emphasis area in collaboration with the social justice advisor.

International History, Theory, and Action

GWSS:3010/ GHS:3015 Transnational Sexualities 3

#### Capstone

Students complete all of the requirements for either Option A or Option B (6 s.h.).

### Option A

Students complete a senior project and the following three courses.
Students prepare for the capstone by completing GWSS:4090 Senior Research Seminar, in which they enact research methodologies and prepare a final project that culminates in a substantial written or creative work that focuses on a topic related to course work in their emphasis area. The creative work is presented to the GWSS faculty during the senior research presentation day. During the fall of their last year of study, students enroll in GWSS:4050 and GWSS:3990 to complete a semester-long individual research-related literature review and proposal. Students complete the course and project under the supervision of a faculty mentor.

<tr>
<td>GWSS:4090</td>
<td>Senior Research Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>
**Option B**

Option B requires two semesters of course work. In the fall semester of their final year, students complete an experiential learning activity and earn 3 s.h. through an accredited program such as study abroad, the Pomerantz Career Center, Iowa Center for Research by Undergraduates (ICRU), or an independent study project with preapproval from a social justice faculty member. Students also could choose to take SJUS:3400.

During their senior year, students must complete one of the writing courses from the list below or take SJUS:4080.

Students submit a final project in the form of a written essay, research paper, or creative work during their last year that ties the work in their emphasis area to their experiential learning activity under the supervision of a faculty mentor. This work is showcased in the department's annual spring semester Senior Research Poster Session. Students with interest in Option B should speak with the social justice advisor about procedures and formulating a timeline.

Students complete 6 s.h. for capstone requirement as follows.

One of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SJUS:3400</td>

</tr>
</tbody>
</table>

**Honors in the Major**

Students have the opportunity to graduate with honors in the major. Departmental honors students must maintain a cumulative University of Iowa g.p.a. of at least 3.33 and a g.p.a. of at least 3.33 in all work for the major. Honors students must complete Capstone Option A.

**Capstone Option A**

</tr>
<tr>
<td>GWSS:4090</td>
<td>Senior Research Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

**University of Iowa Honors Program**

In addition to honors in the major, students have opportunities for honors study and activities through membership in the University of Iowa Honors Program. Visit Honors at Iowa to learn about the University’s honors program.

Membership in the UI Honors Program is not required to earn honors in the social justice major.

**Four-Year Graduation Plan**

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University’s Four-Year Graduation Plan.

**Before the fifth semester begins:** SJUS:1001 Introduction to Social Justice, GWSS:1002 Diversity and Power in the U.S., GWSS:3138 Writing to Change the World, PHIL:1034 Liberty and the Pursuit of Happiness, and SOC:2810 Social Inequality

**Before the seventh semester begins:** two history and social movement courses; the human rights, diversity and ethics course; and at least 90 s.h. earned toward the degree

**Before the eighth semester begins:** 9 s.h. in the emphasis area and plan a capstone option with advisor

**During the eighth semester:** capstone requirement, all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

**Career Advancement**

The Pomerantz Career Center offers multiple resources to help students find internships and jobs.
Gender, Health, and Healthcare Equity, Minor

The undergraduate minor in gender, health, and healthcare equity requires a minimum of 15 s.h. in course work, including at least 12 s.h. completed at the University of Iowa. Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass.

Health care is rapidly evolving and people who are knowledgeable about health and health care will be in high demand nationally and internationally. Upon completion of this minor, students will possess the knowledge and skills necessary to think critically about and understand the complex intersections of gender, race, sexuality, and class in relation to health, illness, health care, and social justice, and to assist individuals and communities to better understand the personal, social, and environmental factors that influence health-related behaviors and disparities.

Students will have the opportunity to demonstrate their skills, knowledge and theoretical understandings through an internship, research presentation, or creative scholarship. All students in the minor are evaluated through a public presentation and are required to create a poster that summarizes and defines the individual learning outcomes of their capstone experience. Posters are assessed by the supervising faculty member and other Department of Gender, Women's, and Sexuality Studies (GWSS) faculty at one of these events: the University of Iowa Fall and Spring Undergraduate Research Festivals or the annual GWSS Senior Research Poster Presentation (spring).

Students earning a gender, women's, and sexuality studies (GWSS) major also may earn the minor; however, no more than 6 s.h. of work in GWSS courses can be counted toward the minor. Students may not include the capstone course toward the 6 s.h.

The minor in gender, health, and healthcare equity requires the following course work.

**Capstone Course**

Students who choose to take CCP:1005 for 0 s.h. must register for 1-3 s.h. in GWSS:3990 for the credit necessary to satisfy the minimum semester hours required for the minor. In GWSS:3990, students work with an advisor to conceptualize and create a research poster.

One of these:

Gender, Women's, and Sexuality Studies, Minor

The undergraduate minor in gender, women's, and sexuality studies requires a minimum of 15 s.h. in course work, including at least 12 s.h. completed at the University of Iowa. Students must take GWSS:1001 Introduction to Gender, Women's, and Sexuality Studies and 12 s.h. in courses numbered 2000 or above. Students may count GWSS:1002 Diversity and Power in the U.S. toward the 12 s.h. requirement.

Students must maintain a g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work for the minor may not be taken pass/nonpass. Students may count a maximum of 3 s.h. of work in courses focused on gender and/or sexuality for another University of Iowa major, minor, or certificate toward the GWSS minor.
### Social Justice, Minor

The undergraduate minor in social justice requires a minimum of 15 s.h. of course work, including at least 12 s.h. in courses numbered 2000 or above completed at the University of Iowa. Students must maintain a cumulative g.p.a. of at least 2.00 in all courses for the minor and in all UI courses for the minor. Course work in the minor may not be taken pass/nonpass.

The minor in social justice requires the following course work.

#### Foundation Courses

Two of these:

- GWSS:3138/ RHET:3138/ SJUS:3138 **Writing to Change the World** 3
- SOC:2810 **Social Inequality** 3
- SJUS:1001/ GWSS:1003 **Introduction to Social Justice** 3
- GWSS:1002 **Diversity and Power in the U.S.** 3
- PHIL:1034 **Liberty and the Pursuit of Happiness** 3

#### Social Movements

One of these:

- AFAM:3500/ RELS:3808 **Malcolm X, King, and Human Rights** 3
- HIST:3232 **History of American Inequality** 3
- HIST:4101 **History of Human Rights** 3
- HIST:4252 **American Labor in the Twentieth Century** 3
- HIST:4260 **The Sixties in America** 3
- SOC:4540 **Political Sociology and Social Movements** 3

#### Human Rights, Diversity, and Ethics

One of these:

- HRTS:3906 **Human Rights Systems: Institutions and Mechanisms Enforcing and Implementing Human Rights** 3
- HRTS:3910/ IS:3910 **Human Rights Advocacy** 3
- PHIL:3430 **Philosophy of Human Rights** 3
- SSW:3847 **Discrimination, Oppression, and Diversity** 3

#### Elective

A course used to satisfy the foundation, social movements, or human rights, diversity, and ethics requirement cannot be taken to satisfy the elective requirement.

One of these:

- GWSS:3005 **Gender, Women's, and Sexuality Studies Practicum** 3
- GWSS:3010/ GHS:3015 **Transnational Sexualities** 3
- GWSS:3100/ COMM:3100 **LGBTQ/Queer Studies** 3
- GWSS:3118/ ANTH:3118 **Politics of Reproduction** 3
- GWSS:3157/ HIST:3157 **Gender, Sexuality, and Human Rights** 3
- GWSS:3200 **Feminist Debates and Social Movements** 3
- GWSS:3300/ ANTH:3300 **Mothers and Motherhood** 3
- GWSS:3326/ GHS:3327 **The Politics of Progress: NGOs, Development, and Sexuality** 3
- GWSS:3450/ ENGL:3820 **Writing About Girls** 3
- AFAM:3500/ RELS:3808 **Malcolm X, King, and Human Rights** 3
- AFAM:4195/ HIST:4295 **African American History 1619-1865** 3
- AINS:3002/ HIST:3202 **Introduction to American Indian History and Policy** 3
- ANTH:3103 **Environment and Culture** 3
- ANTH:3110/ AINS:3110/ GHS:3110 **Health of Indigenous Peoples** 3
- ANTH:3151/ ASP:3151/ GHS:3151 **The Anthropology of the Beginnings and Ends of Life** 3
- ANTH:3152/ ASP:3152/ GHS:3152 **Anthropology of Caregiving and Health** 3
- ANTH:4130/ RELS:4730 **Religion and Environmental Ethics** 3
- ANTH:4140/ CBH:4140/ GHS:4140/ GWSS:4140 **Feminist Activism and Global Health** 3
- ASP:3150 **Psychology of Aging** 3
- COMM:4131/ IS:4131 **Globalization and Culture** 3
- COMM:4169/ GWSS:4169 **Feminist Rhetorics** 3
- CPH:3400/ GEOG:3210 **Health, Work, and the Environment** 3
- CPH:3500/ GHS:3500 **Global Public Health** 3
- EES:3070 **Marine Ecosystems and Conservation** 3
- ENGL:3444 **Literatures of the American Peoples** 3
- ENGL:3555/ AFAM:3555 **Topics in African Cinema (when topic is visualizing human rights)** 3
- ENGL:3580 **Identity and Social Issues** 3
- GEOG:3340 **Ecosystem Services: Human Dependence on Natural Systems** 3

Gender, Women's, and Sexuality Studies, Graduate Certificate

The graduate Certificate in Gender, Women's, and Sexuality Studies (GWSS) requires 16 s.h., including a foundations course, one approved theory course, several elective courses, and a capstone course (1 s.h.), for which students attend a GWSS conference and present their own research there. Students frequently receive advising assistance from the director of graduate studies. Students must maintain a g.p.a. of at least 3.00 in work for the certificate.

The certificate program is open to University of Iowa graduate students working toward a degree; interested students should contact the director of graduate studies.

The Certificate in Gender, Women's, and Sexuality Studies requires the following course work. Students may not use one course to satisfy more than one certificate requirement.

**Certificate Core**

Both of these:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>Foundations for Feminist Inquiry l</td>
<td>3</td>
</tr>
<tr>
<td>One approved course on theory of gender, women, or sexuality</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

**Electives**

Students may count up to 6 s.h. of elective credit earned in GWSS courses that are cross-listed with their major department. Courses that are not cross-listed may be counted with permission of the director of graduate studies.

All of these, one of which must be numbered 5000 or above:

<table>
<thead>
<tr>

General Education Program

Website: https://clas.uiowa.edu/clas-core/requirements

The College of Liberal Arts and Sciences General Education Program provides students with a broad foundation of knowledge and a focused practice of transferable skills necessary for a lifetime of learning.

General Education courses are particularly valuable for students making the transition into the University of Iowa. They help students understand the expectations of the College of Liberal Arts and Sciences while providing the tools needed for more advanced academic work in the major.

All students in the College of Liberal Arts and Sciences who wish to earn an undergraduate degree—Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), or Bachelor of Music (B.M.)—must complete the requirements of the CLAS General Education Program.

General Education Areas and Requirements

The General Education Program has 11 required areas, grouped into three categories. Students must fulfill the requirements in each General Education area. The requirements below are for students who enter the University of Iowa during Summer 2017 or after. Students who entered during a previous semester are held to different requirements as indicated on the student's degree audit.

Communication and Literacy:

- Rhetoric [p. 464]: a minimum of 4 s.h.
- World Languages [p. 465]: required credit varies by language (see "World Languages" below)
- Interpretation of Literature [p. 465]: a minimum of 3 s.h.

Natural, Quantitative, and Social Sciences:

- Natural Sciences [p. 468]: a minimum of 7 s.h.; must include one lab
- Quantitative or Formal Reasoning [p. 469]: a minimum of 3 s.h.
- Social Sciences [p. 469]: a minimum of 3 s.h.

Culture, Society, and the Arts:

- Diversity and Inclusion [p. 470]: a minimum of 3 s.h.
- Historical Perspectives [p. 470]: a minimum of 3 s.h.
- International and Global Issues [p. 471]: a minimum of 3 s.h.
- Literary, Visual, and Performing Arts [p. 472]: a minimum of 3 s.h.
- Values and Culture [p. 473]: a minimum of 3 s.h.

Students may count transfer credit and/or credit by exam toward some General Education Program requirements. See General Education Policies for details regarding use of transfer credit, credit by exam, and other policies for how General Education requirements may be fulfilled.

Communication and Literacy

Rhetoric

Rhetoric courses develop speaking, writing, listening, and critical reading skills and build competence in research, analysis, and argumentation.

All entering first-year students are required to complete RHET:1030 Rhetoric (4-5 s.h.). Because rhetorical skills lay the foundation for further study at the University, most students register for RHET:1030 during their first year at Iowa.

Students in some majors, such as English or journalism and mass communication, enroll in RHET:1030 during their first semester.

Students who must enroll in English as a Second Language (ESL) courses as determined by their English proficiency evaluation must complete all ESL courses before they may register for RHET:1030 Rhetoric.

Transfer students who have transfer credit in composition, speech, and argumentation but have not been granted an A.A. degree must complete the equivalent of RHET:1030 Rhetoric and often must take RHET:1040 Writing and Reading or RHET:1060 Speaking and Reading in addition to their transfer courses in composition and/or speech.

Each entering student's degree audit shows the course(s) that must be completed in order to fulfill the Rhetoric requirement.

The following courses are approved for the Rhetoric area.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>RHET:1030</td>
<td>Rhetoric</td>
<td>4-5</td>
</tr>
<tr>
<td>RHET:1040</td>
<td>Writing and Reading</td>
<td>3</td>
</tr>
<tr>
<td>RHET:1060</td>
<td>Speaking and Reading</td>
<td>3</td>
</tr>
</tbody>
</table>

Transfer of Credit for Rhetoric

Transfer students who have been granted an Associate of Arts (A.A.) degree from an Iowa community college, Waldorf College in Iowa, or Black Hawk College in Illinois have satisfied the Rhetoric requirement.

Transfer credit for students without an A.A. degree is evaluated as follows:

- transfer students who have completed composition I, composition II, and speech at another institution have satisfied the General Education Program's Rhetoric requirement of RHET:1030 Rhetoric;
- transfer students who have completed only composition I must complete RHET:1030 Rhetoric at the University of Iowa;
- transfer students who have completed composition I and speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed only speech must complete RHET:1040 Writing and Reading at the University of Iowa;
- transfer students who have completed composition I and II or only composition II must complete RHET:1060 Speaking and Reading at the University of Iowa;
- for transfer students who have completed any other course at another institution that may be equivalent to RHET:1030 Rhetoric, the University of Iowa Office of Admissions examines the content of the course and decides on equivalency based on the content of that course, conferring with the Department of Rhetoric on the correct equivalency, if necessary.
**Interpretation of Literature**

Courses in the Interpretation of Literature area focus on the major genres of literature (short and long fiction, nonfiction, poetry, and drama), improving students' abilities to read and analyze a variety of texts. Small group discussions in these courses challenge students to think critically, to share insights, and to listen thoughtfully to the arguments of others.

All students must complete at least 3 s.h. of course work in the Interpretation of Literature area. The following courses are approved for the area.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL:1510</td>
<td>Ghost Stories and Tales of the Weird in Pre-Modern Chinese Literature</td>

<td>Nature/Ecology French Philosophy and Fiction</td>
<td>3</td>
</tr>
<tr>
<td>HONR:1885</td>
<td>Reading the Ancient City</td>
<td>3</td>
</tr>
</tbody>
</table>

**World Languages**

Courses in the World Languages area provide students with speaking, listening, reading, and writing skills in a second language as well as knowledge of the culture in which the language is spoken. To fulfill the World Languages requirement, students must:

- complete the fourth year in a world language in high school; or
- complete four semesters in an approved General Education world language course sequence at the University of Iowa (note the exception for Latin) or the equivalent courses at another college or university or during study abroad; or
- pass a written and oral achievement test measuring proficiency in a world language taught at the University of Iowa, equivalent to that usually attained after four semesters of college study; or
- achieve a passing score on Advanced Placement, International Baccalaureate, or other approved college-level world languages examination program.

1 Students may be required to complete fewer than four semesters based on their language placement test results.

For information about proficiency examinations and guidelines for taking them, see the World Languages web page. The page also provides information about how students whose first language is not English may fulfill the World Languages requirement.

Once students have completed the World Languages requirement, they may earn up to 8 s.h. of additional credit in language study; see the Furthering Language Incentive Program (FLIP) web page.

Students may use the following language course sequences to fulfill the World Languages requirement. To avoid duplication or regression, consult the appropriate language department before registering for courses.

**American Sign Language**

Courses in American Sign Language (ASL) are offered by the American Sign Language [p. 39] Program. The following sequence fulfills the General Education Program's World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASL:1001</td>
<td>American Sign Language I</td>
<td>4</td>
</tr>
<tr>
<td>ASL:1002</td>
<td>American Sign Language II</td>
<td>4</td>
</tr>
<tr>
<td>ASL:2001</td>
<td>American Sign Language III</td>
<td>4</td>
</tr>
<tr>
<td>ASL:2002</td>
<td>American Sign Language IV</td>
<td>4</td>
</tr>
</tbody>
</table>

Students with previous knowledge of American Sign Language should consult the ASL program for placement.

**Arabic**

Courses in Arabic are offered by the Department of French and Italian [p. 420]. The following sequence fulfills the General Education Program's World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARAB:1001</td>
<td>Elementary Modern Standard Arabic I</td>
<td>5</td>
</tr>
<tr>
<td>ARAB:1002</td>
<td>Elementary Modern Standard Arabic II</td>
<td>5</td>
</tr>
<tr>
<td>ARAB:2001</td>
<td>Intermediate Modern Standard Arabic I</td>
<td>5</td>
</tr>
<tr>
<td>ARAB:2002</td>
<td>Intermediate Modern Standard Arabic II</td>
<td>5</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Arabic should consult the department for appropriate placement.

**Chinese**

Courses in Chinese are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. For students without previous knowledge of Chinese, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN:1111</td>
<td>First-Year Chinese: First Semester</td>
<td>5</td>
</tr>
<tr>
<td>CHIN:1112</td>
<td>First-Year Chinese: Second Semester</td>
<td>5</td>
</tr>
<tr>
<td>CHIN:2101</td>
<td>Second-Year Chinese: First Semester</td>
<td>5</td>
</tr>
<tr>
<td>CHIN:2102</td>
<td>Second-Year Chinese: Second Semester</td>
<td>5</td>
</tr>
</tbody>
</table>

Students may use varied combinations of Chinese language courses approved for General Education to fulfill the World Languages requirement. Heritage learners and students who have studied Chinese abroad may be able to fulfill the requirement by substituting CHIN:2103 Accelerated Second-Year Chinese: First Semester and CHIN:2104 Accelerated Second-Year Chinese: Second Semester for CHIN:2101 and CHIN:2102. Consult the department for more information.

**French**

Courses in French are offered by the Department of French and Italian [p. 420]. For students without previous knowledge of French, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.
Students may use varied combinations of French language courses approved for General Education to fulfill the World Languages requirement. Those with previous knowledge of French may be able to fulfill the requirement by substituting FREN:1010 First-Year French Review for FREN:1001 and FREN:1002 in the sequence above. Some students may be evaluated as ready for FREN:2001 or FREN:2002. Consult the department for appropriate placement.

German

Courses in German are offered by the Department of German [p. 501]. For students without previous knowledge of German, the department recommends the following sequence to fulfill the General Education Program’s World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GRMN:1001</td>
<td>Elementary German I</td>
<td>4</td>
</tr>
<tr>
<td>GRMN:1002</td>
<td>Elementary German II</td>
<td>4</td>
</tr>
<tr>
<td>GRMN:2001</td>
<td>Intermediate German I</td>
<td>4</td>
</tr>
<tr>
<td>GRMN:2002</td>
<td>Intermediate German II</td>
<td>4</td>
</tr>
</tbody>
</table>

Students may use varied combinations of German language courses approved for General Education to fulfill the World Languages requirement. Those with previous knowledge of German may be able to fulfill the requirement by substituting GRMN:1010 First-Year German Review for GRMN:1001 and GRMN:1002 in the sequence above. Some students may be evaluated as ready for GRMN:2001 or GRMN:2002. Consult the department for appropriate placement.

The department also offers accelerated intensive courses, GRMN:1020 Intensive Elementary German and GRMN:2020 Intensive Intermediate German, which may be appropriate for students with strong language learning abilities or experience. The intensive courses may be combined with nonintensive courses to create other sequences that may be used to fulfill the General Education World Languages requirement. Consult the department to identify an appropriate course sequence.

Greek

Courses in Greek are offered by the Department of Classics [p. 205]. Students without previous knowledge of Greek should fulfill the General Education Program’s World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLSG:1001</td>
<td>Classical and New Testament Greek I</td>
<td>3-5</td>
</tr>
<tr>
<td>CLSG:1002</td>
<td>Classical and New Testament Greek II</td>
<td>3-5</td>
</tr>
<tr>
<td>CLSG:2001</td>
<td>Second-Year Greek I</td>
<td>3</td>
</tr>
<tr>
<td>CLSG:2002</td>
<td>Second-Year Greek II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Greek should consult the department for appropriate placement.

Hindi-Urdu

Courses in Hindi-Urdu are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. Students without previous knowledge of Hindi-Urdu should fulfill the General Education Program’s World Languages requirement with the following sequence. Each of these courses is open to entering first-year students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOAS:2101</td>
<td>First-Year Hindi-Urdu: First Semester</td>
<td>5</td>
</tr>
<tr>
<td>SOAS:2102</td>
<td>First-Year Hindi-Urdu: Second Semester</td>
<td>5</td>
</tr>
<tr>
<td>SOAS:3101</td>
<td>Second-Year Hindi-Urdu: First Semester</td>
<td>4</td>
</tr>
<tr>
<td>SOAS:3102</td>
<td>Second-Year Hindi-Urdu: Second Semester</td>
<td>4</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Hindi-Urdu should consult the department for appropriate placement.

Italian

Courses in Italian are offered by the Department of French and Italian [p. 420]. Students without previous knowledge of Italian should fulfill the General Education Program’s World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL:1101</td>
<td>Elementary Italian</td>
<td>5</td>
</tr>
<tr>
<td>ITAL:1102</td>
<td>Elementary Italian II</td>
<td>5</td>
</tr>
<tr>
<td>ITAL:2203</td>
<td>Intermediate Italian</td>
<td>4</td>
</tr>
<tr>
<td>ITAL:2204</td>
<td>Intermediate Italian II</td>
<td>4</td>
</tr>
</tbody>
</table>

Students with strong language learning abilities or a background in another Romance language may be able to complete the requirement by substituting ITAL:3002 Intensive Elementary Italian for ITAL:1101 and ITAL:1102 in the sequence above. Consult the department for appropriate placement.

Japanese

Courses in Japanese are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. For students without previous knowledge of Japanese, the department recommends the following sequence to fulfill the General Education Program’s World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JPNS:1001</td>
<td>First-Year Japanese: First Semester</td>
<td>5</td>
</tr>
<tr>
<td>JPNS:1002</td>
<td>First-Year Japanese: Second Semester</td>
<td>5</td>
</tr>
</tbody>
</table>

Students may use varied combinations of Japanese language courses approved for General Education to fulfill the World Languages requirement. Those with previous knowledge of Japanese should consult the department for appropriate placement.

Korean

Courses in Korean are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. For students without previous knowledge of Korean, the department recommends the following sequence to fulfill the General Education Program’s World Languages requirement.
Students with previous knowledge of Russian should consult the department for appropriate placement.

Latin
Courses in Latin are offered by the Department of Classics [p. 205]. Students without previous knowledge of Latin should fulfill the General Education Program's World Languages requirement with the following sequence. Students must take both CLSL:2001 and CLSL:2002 in order to fulfill the GE World Languages requirement. These courses require a similar knowledge of Latin, but one focuses on poetry and the other on prose. Other world languages permit a student to complete the last courses in the sequence to meet the CLAS GE requirement since the final course is more difficult than the previous ones. This is not true with the Latin sequence, and thus, both courses must be successfully completed.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLSL:1001</td>
<td>Elementary Latin I</td>
<td>3-5</td>
</tr>
<tr>
<td>CLSL:1002</td>
<td>Elementary Latin II</td>
<td>3-5</td>
</tr>
<tr>
<td>CLSL:2001</td>
<td>World of Cicero</td>
<td>3</td>
</tr>
<tr>
<td>CLSL:2002</td>
<td>Golden Age of Roman Poetry</td>
<td>3</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Latin should consult the department for appropriate placement.

Portuguese
Courses in Portuguese are offered by the Department of Spanish and Portuguese [p. 915]. Two sequences in Portuguese are approved to fulfill the General Education Program's World Languages requirement. All courses are open to entering first-year students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT:2010</td>
<td>Elementary Portuguese I</td>
<td>3</td>
</tr>
<tr>
<td>PORT:2015</td>
<td>Elementary Portuguese II</td>
<td>3</td>
</tr>
<tr>
<td>PORT:2510</td>
<td>Intermediate Portuguese I</td>
<td>3</td>
</tr>
<tr>
<td>PORT:2515</td>
<td>Intermediate Portuguese II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may also substitute PORT:2000 Accelerated Elementary Portuguese for PORT:2010 and PORT:2015 or they may use PORT:2500 Accelerated Intermediate Portuguese as a substitute for PORT:2510 or PORT:2515 in the sequence above.

Students with previous knowledge of Portuguese should consult the department for appropriate placement.

Russian
Courses in Russian are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. Students without previous knowledge of Russian should fulfill the General Education Program's World Languages requirement with the following sequence.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLAV:1111</td>
<td>First-Year Russian I</td>
<td>5</td>
</tr>
<tr>
<td>SLAV:1112</td>
<td>First-Year Russian II</td>
<td>5</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Russian should consult the department for appropriate placement.

Sanskrit
Courses in Sanskrit are offered by the Department of Asian and Slavic Languages and Literatures [p. 123]. Students without previous knowledge of Sanskrit should fulfill the General Education Program's World Languages requirement with the following sequence. Each of these courses is open to entering first-year students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOAS:2901/CLA:2901</td>
<td>First-Year Sanskrit: First Semester</td>
<td>4</td>
</tr>
<tr>
<td>SOAS:2902/CLA:2902</td>
<td>First-Year Sanskrit: Second Semester</td>
<td>4</td>
</tr>
<tr>
<td>SOAS:3901/CLA:3901</td>
<td>Second-Year Sanskrit: First Semester</td>
<td>3</td>
</tr>
<tr>
<td>SOAS:3902/CLA:3902</td>
<td>Second-Year Sanskrit: Second Semester</td>
<td>3</td>
</tr>
</tbody>
</table>

Students with previous knowledge of Sanskrit should consult the department for appropriate placement.

Spanish
Courses in Spanish are offered by the Department of Spanish and Portuguese [p. 915]. For students without previous knowledge of Spanish, the department recommends the following sequence to fulfill the General Education Program's World Languages requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN:1001</td>
<td>Elementary Spanish I</td>
<td>5</td>
</tr>
<tr>
<td>SPAN:1002</td>
<td>Elementary Spanish II</td>
<td>5</td>
</tr>
<tr>
<td>SPAN:1501</td>
<td>Intermediate Spanish I</td>
<td>5</td>
</tr>
<tr>
<td>SPAN:1502</td>
<td>Intermediate Spanish II</td>
<td>5</td>
</tr>
</tbody>
</table>

Students may use varied combinations of Spanish language courses approved for General Education to fulfill the General Education World Languages requirement. Those with previous knowledge of Spanish may be able to fulfill the requirement by substituting SPAN:1003 Elementary Spanish Review for SPAN:1001 and SPAN:1002 in the sequence above.

The accelerated course SPAN:1503 Accelerated Intermediate Spanish, which combines SPAN:1501 and SPAN:1502, may be appropriate for some students.

Students may substitute SPAN:1504 Spanish for Healthcare Providers in place of SPAN:1502 as the last course to fulfill the General Education Program's World Languages requirement.

Students with previous knowledge of Spanish should take the language placement test in Spanish to help determine proper placement.

Swahili
Courses in Swahili are offered by the Department of French and Italian [p. 420]. The following sequence fulfills the General Education Program's World Languages requirement. Each of these courses is open to entering first-year students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SWAH:3001</td>
<td>Elementary Swahili I</td>
<td>4</td>
</tr>
<tr>
<td>SWAH:3002</td>
<td>Elementary Swahili II</td>
<td>4</td>
</tr>
<tr>
<td>SWAH:3003</td>
<td>Intermediate Swahili I</td>
<td>4</td>
</tr>
</tbody>
</table>
Students with previous knowledge of Swahili should consult the department for appropriate placement.

Other Course Sequences

A student who successfully completes a four-semester world language sequence that has not been approved for General Education may have the sequence substituted for a proficiency test to fulfill the General Education requirement. Students who complete a world language sequence this way should notify the department that offers the sequence; the department will contact Graduation Analysis in the Office of the Registrar, which will update a student's degree audit to show fulfillment of the World Languages requirement.

Natural, Quantitative, and Social Sciences

Natural Sciences

Courses in the Natural Sciences area explore the scope and major concepts of a scientific discipline. Students learn the attitudes and practices of scientific investigators: logic, precision, experimentation, tentativeness, and objectivity. In courses with a laboratory component, students gain experience in the methods of scientific inquiry.

All students must complete at least 7 s.h. of course work in the Natural Sciences area, including at least one natural science lab component. The following courses are approved for the area; courses with a lab component are noted "(lab)."

Quantitative or Formal Reasoning
Courses in the Quantitative or Formal Reasoning area help develop analytical skills through the practice of quantitative or formal symbolic reasoning. Courses focus on presentation and evaluation of evidence and argument; understanding the use and misuse of data; and organization of information in quantitative or other formal symbolic systems, including those used in computer science, linguistics, mathematics, philosophy, and statistics.

All students must complete at least 3 s.h. of course work in the Quantitative or Formal Reasoning area. Students may fulfill this requirement of the General Education Program by completing a course that lists an approved course as a prerequisite. The following courses are approved for the area.

Social Sciences
Courses in the Social Sciences area focus on human behavior and the institutions and social systems that shape and are shaped by that behavior. Courses provide an overview of one or more social science disciplines, their theories, and their methods.

All students must complete at least 3 s.h. of course work in the Social Sciences area. The following courses are approved for the area.

General Education Program

Courses in the Diversity and Inclusion area help to develop students' recognition of their positions in an increasingly pluralistic world while fostering an understanding of social and cultural differences. Students reflect critically on their own social and cultural perspectives while increasing their ability to engage with people who have backgrounds or ideas different from their own. Students also explore the historical and structural bases of inequality and the benefits and challenges of diversity.

Transfer credit is not accepted for the Diversity and Inclusion requirement; students must complete this requirement with course work taken at the University of Iowa.

All students must complete at least 3 s.h. of course work in the Diversity and Inclusion area. The following courses are approved for the area.

Historical Perspectives

Courses in the Historical Perspectives area help students comprehend the historical processes of change and continuity; develop the ability to generalize, explain, and interpret historical change; and understand the past in its own terms.

All students must complete at least 3 s.h. of course work in the Historical Perspectives area. The following courses are approved for the area.

Culture, Society, and the Arts

Diversity and Inclusion

Courses in the Diversity and Inclusion area help to develop students' recognition of their positions in an increasingly pluralistic world while fostering an understanding of social and cultural differences. Students reflect critically on their own social and cultural perspectives while increasing their ability to engage with people who have backgrounds or ideas different from their own. Students also explore the historical and structural bases of inequality and the benefits and challenges of diversity.

Transfer credit is not accepted for the Diversity and Inclusion requirement; students must complete this requirement with course work taken at the University of Iowa.

All students must complete at least 3 s.h. of course work in the Diversity and Inclusion area. The following courses are approved for the area.

International and Global Issues

Courses in the International and Global Issues area focus predominantly on countries or issues outside the United States, encouraging students to understand contemporary issues from an international perspective. Students develop knowledge of one or more contemporary global or international issues, gain a greater awareness of varied international perspectives, and improve their skills of analysis and critical inquiry.

All students must complete at least 3 s.h. of course work in the International and Global Issues area. The following courses are approved for the area.

### Literary, Visual, and Performing Arts

Courses in the Literary, Visual, and Performing Arts area provide students with opportunities to appreciate the arts and to analyze them within their historical and theoretical contexts. They also help students develop the analytic, expressive, and imaginative abilities necessary for understanding, appreciating, and creating art.

All students must complete at least 3 s.h. of course work in the Literary, Visual, and Performing Arts area. The following courses are approved for the area.

Geographical and Sustainability Sciences

Chair
• David A. Bennett

Director, Undergraduate Studies
• Marc A. Linderman

Director, Graduate Studies
• Eric Tate

Undergraduate major: geography (B.A., B.S.)
Undergraduate minors: geographic information science; geography
Undergraduate certificate: geographic information science
Graduate degrees: M.A. in geography; Ph.D. in geography
Faculty: https://clas.uiowa.edu/geography/people/faculty
Website: https://clas.uiowa.edu/geography/

The importance of geographical and sustainability sciences is rooted in the complexity of social and environmental problems. We live on a dynamic planet, one that is constantly changing in response to human and natural processes that are highly interconnected. Geographers study the interactions of people and their environment to better understand these intricately related processes. At the University of Iowa, the department teaches and conducts research on human and natural systems and how interactions between these systems shape the world we live in. Cutting edge technologies, such as geographic information systems (GIS), satellite imagery, and Global Positioning System (GPS), are used to help inform decision making at geographic scales and to analyze and visualize geographic processes.

The Department of Geographical and Sustainability Sciences offers undergraduate programs leading to a Bachelor of Arts or Bachelor of Science degree. Undergraduate students select from three tracks: environmental studies, geographic information science (GISci), and health and society. Each track requires introductory and upper-level geography and sustainability courses, as well as course work from other departments. The department also offers a minor in geography and a minor and certificate in geographic information science. It administers the interdisciplinary environmental policy and planning major and collaborates with other departments to offer the undergraduate Certificate in Social Science Analytics, Sustainability, and Wind Energy. The department also participates in the University’s internship program for students; see Career Center Programs [p. 1688] (University College) in the Catalog.

Geography and sustainability courses provide a background for many related professions including law, health care, planning (urban, regional, environmental, or transportation), environmental or transportation engineering, and international business, and are commonly required for students preparing to teach at elementary and secondary levels.

Geographical and sustainability science students acquire valuable skills in computer-based geographic information systems (GIS) software used to investigate and solve many environmental and social problems. Opportunities for graduates with GIS training are growing rapidly in both private and governmental organizations. To gain related knowledge, get hands-on experience, and conduct independent research, students have access to the department’s state-of-the-art Geographical Information Systems Instructional Lab (GISIL). For more information, see Facilities [p. 476] in this section of the Catalog.

The Department of Geographical and Sustainability Sciences offers a Master of Arts and Doctor of Philosophy degrees. Graduate programs focus on studies that extend understanding of the environmental consequences of human decisions at local, regional, and global scales; processes that lead to geographic patterns in health and disease; technologies that help capture, represent, visualize, and analyze geographic patterns and processes; and processes that produce ecosystem services and sustainable futures. Within this broad domain, the department has strengths in environmental justice, environmental modeling, urban ecology, GIScience and GIS, land use/land cover change, and health geography. The mission of the graduate program is to empower graduates with the ability to conduct significant research. In addition to offering graduate degree programs, the department administers the geoinformatics subprogram of the graduate informatics certificate; see Certificate in Informatics [p. 1374] (Graduate College) in the Catalog.

Courses for General Education

The Department of Geographical and Sustainability Sciences offers a number of courses that students in other majors may use to satisfy requirements of College of Liberal Arts and Sciences General Education Program. Look for courses with the prefix GEOG under “Natural Sciences,” “Social Sciences,” and “International and Global Issues” in the General Education Program [p. 464] section of the Catalog. Nonmajors also may choose geographical and sustainability sciences courses as electives.

Certificate in Social Science Analytics

The Department of Geographical and Sustainability Sciences collaborates with the Departments of Political Science, Sociology, and Statistics and Actuarial Science to offer the undergraduate program in social science analytics; see Certificate in Social Science Analytics [p. 875] (College of Liberal Arts and Sciences) in the Catalog.

Certificate in Sustainability

The Department of Geographical and Sustainability Sciences collaborates with the Departments of Biology, Earth and Environmental Science, Civil and Environmental Engineering, and Urban and Regional Planning as well as the Tippie College of Business to offer the undergraduate program in sustainability; see Certificate in Sustainability [p. 1739] (University College) in the Catalog.

Certificate in Wind Energy

The Department of Geographical and Sustainability Sciences (College of Liberal Arts and Sciences) and the Departments of Mechanical and Industrial Engineering, Civil and Environmental Engineering, and Electrical and Computer Engineering (College of Engineering) administer the undergraduate certificate program in wind energy; see Certificate in Wind Energy [p. 1329] (College of Engineering) in the Catalog.
Related Certificate: Transportation Studies

The Transportation Studies Program offers the Certificate in Transportation Studies. The program focuses on the varied and complex problems of transportation and on interdisciplinary approaches to addressing them. The Departments of Civil and Environmental Engineering, Mechanical and Industrial Engineering, and Geographical and Sustainability Sciences and the School of Urban and Regional Planning participate in the program. The certificate is coordinated by the School of Urban and Regional Planning. See Certificate in Transportation Studies (p. 1393) (Graduate College) in the Catalog.

Programs

Undergraduate Programs of Study

Majors

• Major in Geography (Bachelor of Arts) [p. 482]
• Major in Geography (Bachelor of Science) [p. 488]

Minors

• Minor in Geographic Information Science [p. 494]
• Minor in Geography [p. 495]

Certificate

• Certificate in Geographic Information Science [p. 496]

Graduate Programs of Study

Majors

• Master of Arts in Geography [p. 497]
• Doctor of Philosophy in Geography [p. 499]

Facilities

The department houses three geographic information computational laboratories. They support a variety of geographic information system (GIS) software packages, including the latest software from Esri (ArcGIS) and Erdas (Imagine) as well as a suite of other commercial and open-source software. All lab computers are regularly updated to ensure that they are capable of running the latest software at peak performance.

The Geographical Information Systems Instructional Lab (GISIL) is the department's center for GIS teaching as well as a place where students conduct geographic and GIS-related projects. It is equipped with 27 networked student workstations, instructional support technology (e.g., CRT projection), and a suite of peripherals, including a LiDAR 3-D scanner, high-end global positioning system (GPS) units, and a large-format printer.

The environmental modeling and GIS research laboratories contain state-of-the-art machines (Windows and Linux platforms), geoprocessing and statistical software, and an array of software development tools. Projects requiring massive storage or high-performance computing have access to additional resources managed by the University's Information Technology Services research support group. The University of Iowa is a charter member of Internet2, with a high-performance network link to the Department of Geographical and Sustainability Sciences. The University also is a member of the University Consortium on Geographic Information Science.

To aid studies of water resources and physical geography, the department has a laboratory for the analysis of vegetation, soil, and water quality. The laboratory has a variety of field equipment, including soil probes, portable meteorological stations, GPS, ground-based 3-D LiDAR, anemometers, spectrometers, light sensors, and data loggers.

Faculty and graduate students participate in multidisciplinary working groups through the University's Program in Applied Mathematical and Computational Sciences (p. 1339), the Center for Global and Regional Environmental Research, the Center for Health Effects of Environmental Contamination, International Programs, the Institute for Rural and Environmental Health, the Iowa Quaternary Studies Group, and the Public Policy Center. Participation in interdisciplinary working groups also is available through interdisciplinary research grants with investigators from other University of Iowa academic units, for example, the College of Engineering, the Carver College of Medicine, and the College of Public Health.

Geographic researchers also have access to other University of Iowa resources, such as the University's Main Library, whose collections include more than 115,500 maps; 3,600 atlases and reference works; and around 100,000 aerial photographs, primarily of Iowa.

Courses

Geography Courses

GEOG:1000 First-Year Seminar 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities). Requirements: first- or second-semester standing.

GEOG:1010 Introduction to Human Geography 3 s.h.
People and the places they inhabit; how geography relates to other social science subjects, such as economics, politics, history, and modern languages. GE: Social Sciences.

GEOG:1020 The Global Environment 3 s.h.
Underlying processes driving human/environment interaction, including climate change, deforestation, and natural disasters; environmental challenges, including declining biological diversity; human response to more frequent severe climate events; production of a more sustainable future. GE: Natural Sciences without Lab.

GEOG:1021 The Global Environment Lab 1 s.h.
Laboratory application of concepts discussed in GEOG:1020; computer-based and traditional approaches to the investigation of earth's processes, including earthquakes, water and energy balances, climate and weather, and soil development. Corequisites: GEOG:1020, if not taken as a prerequisite. GE: Natural Sciences Lab only.

GEOG:1030 Our Digital Earth 3 s.h.
New technologies that have revolutionized how people navigate in unfamiliar places, locate friends and colleagues, manage cities, and confront environmental problems during the past decade; fundamental concepts related to how geographic information is used to better understand and manage the world and our everyday lives.
GEOG:1046 Big Ideas: People and the Environment - Technology, Culture, and Social Justice 3 s.h.
How resources, commodities, people, and ideas cross borders; examination of globalization through issues of technology, social justice, environment; perspectives from anthropology, gender studies, geography, energy science, and development. GE: International and Global Issues. Same as ANTH:1046, GWSS:1046.

GEOG:1050 Foundations of GIS 3 s.h.
Introduction to concepts and methods associated with geographical information systems (GIS) technology; remote sensing, map making, data collection, and application of GIS to real-world problem solving.

GEOG:1060 Geography of Asia: From Japan to Pakistan 3 s.h.
Varied cultures and environments of Asia; different geographic regions and processes in Asian development. GE: International and Global Issues.

GEOG:1065 Introduction to Spatial Analysis: Patterns and Processes 3 s.h.
Fundamental concepts and applications of spatial analysis; how clusters of crime in a community are identified; how patterns of disease are described within a community.

GEOG:1070 Contemporary Environmental Issues 3 s.h.
Global environmental challenges; ecological, economical, cultural, and geographical causes and effects; underlying science and potential solutions to global issues of sustainability. GE: International and Global Issues; Social Sciences.

GEOG:1090 Globalization and Geographic Diversity 3 s.h.
World regions including their physical environment, culture, economy, politics, and relationships with other regions; students learn about conflicts within and between regions. GE: International and Global Issues; Social Sciences.

GEOG:1115 Big Ideas: The History and Science of Oil 3 s.h.
Historical perspective on business, science, geology, technology, politics, environment, and culture of the global oil industry; the rise of oil as the most influential international business of the last 150 years, the material foundation of economies, a major force in world politics, a shaper of daily life, and a guide to understanding Earth's deep history. Offered fall semesters. GE: Historical Perspectives. Same as EES:1115, ENVIS:1115, HIST:1115.

GEOG:2013 Introduction to Sustainability arr.
Introduction to sustainability knowledge, skills, and habits as a means to shape one's vision of a sustainable citizen; emphasis on basic skills of literacy, applied math, and finding information; traditional sustainability knowledge areas related to society, economy, and environment; intersecting themes (e.g., informed consumerism, eco-economics, and livable environments). Same as BUS:2013, URP:2013.

GEOG:2110 Seven Billion and Counting: Introduction to Population Dynamics 3 s.h.
How dramatic changes to the size of population has changed fundamental characteristics of populations and processes, such as food and water scarcity, climate change and biodiversity, rise of megacities, health and disease, migration, social networks, economics, environment, and household structure. GE: Social Sciences. Same as GHS:2110.

GEOG:2130 World Cities 3 s.h.
Important urban centers, past and present, with focus on why cities exist and how they are organized; examination of different historical eras, including ancient, medieval, and modern; analysis of urban physical structures.

GEOG:2310 Introduction to Climatology 3 s.h.
Introduction to atmospheric processes that determine weather and climate; flow of energy through the atmosphere, distribution and movement of moisture and air, and atmospheric disturbances such as cyclones, hurricanes and tornadoes, and climate change. Recommendations: GEOG:1020 or similar earth systems science course. Same as EES:2310.

GEOG:2374 Biogeography 3 s.h.
Introduction to processes that lead to the patterns of plant and animal distributions we see across the globe; processes of focus include plate tectonics, climate, and human-ecological interactions; species management and conservation in relationship to climate and change in human patterns of environment. Prerequisites: BIOL:1141 or BIOL:1370 or BIOL:1261 or GEOG:1020 or BIOL:1412. Same as BIOL:2374.

GEOG:2410 Environment and Development 3 s.h.
Investigation of questions that surround human-environment interactions; case studies highlight approaches (e.g., political economy, gender, sustainability) to addressing and understanding human relationship to environmental change.

GEOG:2910 The Global Economy 3 s.h.
Examination of contemporary economic geography; types of national economies, uneven development, role of government in shaping economy, multinational corporations; foundation for understanding national economies and economic statistics; contemporary issues including economic globalization, commodification of nature, de-industrialization. GE: International and Global Issues; Social Sciences.

GEOG:2930 Water Resources 3 s.h.
Introduction to science and policy issues affecting water resources management in the U.S.; how the intersection of people, climate, technology, and geography affects the quality, availability, and demand for freshwater resources.

GEOG:2950 Environmental Conservation 3 s.h.
Scientific foundations of biological conservation; strategies used to better connect conservation practice with needs of a growing human population. Prerequisites: EES:1080 or GEOG:1020 or GEOG:1070.

GEOG:2990 Readings for Undergraduates arr.
Supervised readings in geography.

GEOG:3001 Special Topics arr.
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.

GEOG:3010 Geographic Information Systems and Science 3 s.h.
Solid foundation and introduction to GIS and digital map making; what GIS is and how GIS can contribute to research, careers, and everyday life; fundamentals that underlie GIS, including methods for GIS data collection and georeferencing, spatial modeling, spatial data analysis, and visualization; GIS trends including mobile GIS and the Web.
GEOG:3020 Earth Surface Processes 3 s.h.
Basic geomorphic and environmental processes that shape the earth's surface; emphasis on erosion, transport, deposition by land mass movement (creep, landslides, earth flow), fluid agents (wind, water, ice); methods used to study these processes. Prerequisites: EES:1080 or EES:1050 or EES:1080 or GEOG:1020. Same as EES:3020, ENVS:3020.

GEOG:3070 Hungry Planet: Global Geographies of Food 3 s.h.
Societal and environmental implications of past, current, and future global food supply examined from a geographical perspective; focus on questions of who eats what, where, and why; transformative history of agriculture, modern agribusiness and alternative food supplies, geopolitical implications of food production, food scarcity and rising food costs, urban versus rural agriculture, the obesity epidemic versus malnutrition, and the future of food. Same as GHS:3070.

GEOG:3110 Geography of Health 3 s.h.
Provision of health care in selected countries, with particular reference to the Third World; focus on problems of geographical, economic, cultural accessibility to health services; disease ecology, prospective payment systems, privatization, medical pluralism. Same as GHS:3111.

GEOG:3210 Health, Work, and the Environment 3 s.h.
Survey of environmental and occupational health hazards and the associated health risks of exposure; how public health protects society from these hazards; how public health policy can be influenced by science. Same as CPH:3400.

GEOG:3310 Landscape Ecology 3 s.h.
Landscapes as complex systems that arise from interactions among physical environments and species, including humans; exploration of how these interactions shape landscape ecosystems and influence landscape change through lecture, computer and field labs, and research discussion; key topics include causes and consequences of landscape pattern, techniques used to quantify and model landscape pattern, the role of humans in determining landscape structure and function, and conservation and management of species and landscapes. Prerequisites: GEOG:2374 or BIOL:2673 or BIOL:2673. Requirements: ecology course numbered 1000-4999.

GEOG:3320 Wetlands: Function, Geography, and Management 3 s.h.
Hydrological, geomorphological, and ecological processes and their interaction in wetlands; geographic differences in wetlands based on climate and hydrology; wetlands, lakes, and rivers; role of wetlands in drainage basin hydrology and flooding; values and valuation of wetlands; wetland law and wetland delineation; wetlands and water resources. Prerequisites: GEOG:2310 or GEOG:2374. Same as EES:3260.

GEOG:3331 Human Dimensions of Climate 3 s.h.
How climate shapes human societies; focus on how climate and climate variability affects food production, water use, energy use, and human disease systems (e.g., influenza, malaria, air pollution, diarrheal disease); climate change impacts (e.g., sea level rise, droughts, wildfires, famine); societal impact, adaptation and vulnerability, mitigation strategies; policy.

GEOG:3340 Ecosystem Services: Human Dependence on Natural Systems 3 s.h.
Ecosystem services—valuable goods and services produced by ecosystems (e.g., flood control, food production, water purification)—from an interdisciplinary perspective centering on geographic techniques used to measure, map, and model ecosystem services; methods used to incorporate ecosystem services into decision and policy making; how human activities alter these services. Prerequisites: GEOG:1050 and (GEOG:2374 or GEOG:3310 or EES:1080 or BIOL:2673 or BIOL:1370 or GEOG:1070 or EES:1080 or BIOL:2673 or GEOG:1020).

GEOG:3350 Urban Ecology 3 s.h.
Urban ecology as an interdisciplinary field that investigates relationships between natural and the systems in urban environments; students explore urban ecosystems through lecture, discussion of current research, and field-based research projects; and identify how cities can become more sustainable systems. Prerequisites: BIOL:2673 or BIOL:2673 or GEOG:2374. Requirements: GEOG:2374 or ENVS:2673 or introductory course in ecology, and junior standing.

GEOG:3360 Soil Genesis and Geomorphology 3 s.h.
Introduction to soil genesis, soil geomorphology, and classification including the basics of soil profile description and soil-landscape, soil-vegetation, and soil-climate relationships; emphasis on study of soils as the interface between living and non-living Earth systems and the role of soils in sustaining ecosystems and human societies; short field excursions and a weekend field trip. Requirements: college earth science and chemistry. Same as GHS:3360.

GEOG:3400 Iowa Environmental Policy in Practice 3 s.h.
How Iowa government addresses environmental policy development and implementation; policy process and current environmental issues; students attend meetings with Iowa State legislators and relevant agency personnel in Des Moines, Iowa, to observe how policies move into practice in agency offices. Prerequisites: GEOG:1070 or POLI:3111 or GEOG:3780 or ANTH:3102. Requirements: college level standing.

GEOG:3420 Sustainable Development and Green Building Concepts 3 s.h.
Green building and sustainable development trends and theories: water policy, ecosystem services, climate change, and public health; LEED certified building process and each of the associated credit categories (Sustainable Sites, Energy and Atmosphere, and Water Efficiency); how knowledge of green building and sustainable development can help lessen the environmental impact of built environments, improve the bottom line, and better plan for great communities.

GEOG:3500 Introduction to Environmental Remote Sensing 3 s.h.
Basic concepts and principles of remote sensing; sources of data; georegistration; digital processing and classification of remotely sensed images for extraction of environmental information; linkage of remote sensing techniques with GIS analysis.

GEOG:3505 Foundations of GIS 3 s.h.
Cartography, map analysis, and geographic information systems; map projections and scale; data collection, remote sensing, GPS; data structures and organization; cartometry; symbolization and visualization.
GEOG:3520 GIS for Environmental Studies 3 s.h.
Students learn new, more advanced techniques for the representation and study of human and natural systems using geographic information systems (GIS); application of this new knowledge to environmental management and problem solving. Prerequisites: GEOG:1050.

GEOG:3540 Introduction to Geographic Visualization 3 s.h.
Introduction of basic concepts and techniques that underlie cartographic representation, interaction, and geovisualization; map symbolization and visual variables; spatiotemporal visualization, multivariate mapping, interactive cartography, animation, geovisual analytics, 3-D visualization, virtual and augmented reality. Prerequisites: GEOG:1050. Same as IGPI:3540.

GEOG:3550 Integrating Time into GIS 3 s.h.
Fundamental concepts for integrating temporal elements into geographic information systems (GIS); conceptual and formal models of time, models of change, event-based modeling, modeling of moving entities; topics related to fundamentals of spatiotemporal databases and query languages. Prerequisites: GEOG:1050.

GEOG:3560 Spatial Analyses of Wind Energy 3 s.h.
Underlying processes, measurement methods, and spatial analyses related to wind energy; students explore techniques for data collection and analysis; GIS-based approaches to renewable energy siting.

GEOG:3570 Light Detection and Ranging (LiDAR): Principles and Applications 3 s.h.
Basic principles and applications of Light Detection and Ranging (LiDAR); LiDAR as an essential technology for mapping and analyzing a vast range of topics, including hydrology flooding, transportation planning, and 3-D modeling. Recommendations: GEOG:3500 or EES:3100.

GEOG:3750 Environmental Quality: Science, Technology, and Policy 3 s.h.
Interpretation of pollutants and water pollutants; emphasis on environmental standards under existing laws, setting environmental priorities, risk assessments and comparisons; local, regional, national and international case studies in environment and health; socioeconomic and institutional considerations in designing environmental protection strategies; selected field trips. Prerequisites: STAT:1020.

GEOG:3760 Hazards and Society 3 s.h.
Examination of the impact and societal responses to natural and technological hazards; using case studies from around the world, students explore relationships between extreme events, human behavior, disaster management, public policy, and technology to understand what makes people and places vulnerable to hazards. Same as GHS:3760.

GEOG:3780 U.S. Energy Policy in Global Context 3 s.h.
Historical and contemporary aspects of U.S. governmental planning and policy on a wide range of energy issues in global context. Same as GHS:3780.

GEOG:3800 Environmental Economics and Policy 3 s.h.
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies.

GEOG:3920 Planning Livable Cities 3 s.h.
Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as URP:3001.

GEOG:3940 Transportation Economics 3 s.h.
Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: ECON:1100 and ECON:1200. Same as ECON:3750, URP:3350.

GEOG:3992 Undergraduate Research arr.
Opportunity for undergraduate students to participate in faculty-led research projects.

GEOG:4010 Field Methods in Physical Geography 3 s.h.
Introduction to basic approaches to research design and of sampling environmental variables commonly used in environmental sciences; basic methods of sampling and lab analyses of vegetation, land cover, soils, and more.

GEOG:4020 Field Methods: Mapping and Mobile Computing 3 s.h.
Mapping techniques and mobile computing applications associated with GPS, wireless technologies, and data sampling techniques.

GEOG:4030 Senior Project Seminar 3 s.h.
Development of an independent research project, preparation of a research report, and presentation of the associated outcomes. Offered spring semesters.

GEOG:4150 Health and Environment: GIS Applications 3 s.h.
Introduction to how geographic information systems (GIS) and spatial statistics are used in the study of patterns of health and disease in space and time. Same as GHS:4150.

GEOG:4500 Applications in Environmental Remote Sensing 4 s.h.
Theory and practice of remote sensing and digital image processing; practical applications to human-environment interactions. Recommendations: GEOG:3500 or EES:3110 or ENVS:3110.

GEOG:4520 GIS for Environmental Studies: Applications 3 s.h.
Project-driven course to advance student knowledge of geographic information systems (GIS); application of GIS to environmental change analysis, environmental assessment, hazard/risk analysis, and environmental decision making. Prerequisites: GEOG:3520.

GEOG:4570 Spatial Analysis and Location Models 3 s.h.
Application of location models within GIS environments to support decision making; small area demographic forecasting, location-allocation models, regionalization problems, shortest path models, other spatial analysis methods used to support spatial decisions. Prerequisites: GEOG:1050.

GEOG:4580 Introduction to Geographic Databases 3 s.h.
Introduction to basic building blocks of spatial database design, spatial data models, structures, relationships, queries (SQL), indexing, and geoprocessing; design and construction of various types of spatial databases, including relational and big data approaches such as ArcGIS geodatabase, PostGIS/PostgreSQL, and MongoDB. Prerequisites: GEOG:1050. Same as IGPI:4581.
GEOG:4650 Simulation in Environmental Geography 3 s.h.
Exploration of how computer simulations are used in environmental studies, with focus on landscape ecology; students learn the basics of performing simulations and the principles and applications of simulation through readings and labs. Requirements: advanced courses in environmental geography or environmental science and senior standing.

GEOG:4750 Environmental Impact Analysis 4 s.h.
In-depth exposure to the history and evolution of the U.S. Environmental Impact Assessment (EIA) process; discussion of major court cases; ecological, economic, and political aspects of current environmental controversies; exposure to real-world scenarios that are crucial to understanding the EIA process in action; field trips to six or seven environmental control facilities in Iowa City and neighboring areas. Prerequisites: GEOG:1070. Same as URP:4750.

GEOG:4770 Environmental Justice 3 s.h.
Introduction to the field of environmental justice: understanding and addressing the processes that lead poor and marginalized communities to face a disproportionate degree of environmental risks and hazards.

GEOG:4870 Applied Geostatistics 3 s.h.
Applications of geostatistical methods to geology, geography, hydrology, environmental sciences, and engineering; variogram, Kriging, analysis of spatial-varied data with various computer software in participants' specialties. Same as EES:4870.

GEOG:4930 Urban Geography 3 s.h.
Central ideas of modern urban geography, their links to social theory; focus on interrelation between social change, urban environment; evolution of urban systems, emergence of the capitalist city, urban social and residential differentiation, local politics of uneven development.

GEOG:4990 Senior Thesis 3 s.h.
Original research. Requirements: senior standing.

GEOG:4995 Honors Thesis 3 s.h. (arr.)
Original research. Requirements: honors standing.

GEOG:5001 Readings (arr.)
Supervised readings by graduate students in topics of their choice.

GEOG:5010 Fundamentals of Geography 3 s.h.
Geography as an academic discipline; history, advances, epistemology, common themes.

GEOG:5050 Research and Writing in Geography 3 s.h.
Identification of research areas; research questions and hypotheses; responsible conduct of research; methodological decisions; research proposal and paper writing.

GEOG:5070 Special Topics (arr.)
Contemporary fields of inquiry, such as biophysical systems, GIS, locational analysis, water resources, economic geography, demographic analysis, environment, urbanization, transportation, and regional development.

GEOG:5129 Information Systems for Resource Management 3 s.h.
Understanding and managing natural and engineered resources requiring data-reach foundation; management of data; complex data-driven technologies integrated into data and information systems (DIS); hands-on opportunity to develop or use capabilities of DIS for study or research area of interest (science, engineering, industrial operation); wind power generation, an emerging field in Iowa, used as a case study for illustrating key DIS components, links, and functionalities. Same as CEE:5129, ECE:5129, IE:5129, ME:5129.

GEOG:5550 Modeling Space and Time 3 s.h.
How to generate time-space-resolved estimates of sociophysical environmental contexts with the aid of modern geo-spatial technologies; how to model social, behavioral, and health outcomes with reference to multilevel time-space-resolved sociophysical environmental contexts; environmental contexts from air pollution and pesticide concentration to neighborhood diversity; statistical modeling of varied social, behavioral, and health outcomes such as dropping out of college, smoking, excessive weight, asthma, mental and physical disability. Requirements: a course in statistics and good understanding of correlation and regression.

GEOG:5650 Simulations in Landscape Ecology 3 s.h.
Dynamics of land use and land cover change explored through advanced use of computer simulations in landscape ecology; how simulation is used in the field; simulations based on landscape ecology questions, with analysis of results using typical landscape ecology metrics. Prerequisites: GEOG:4650.

GEOG:5800 Environmental Economics and Policy 3 s.h.
Reasons why markets fail in environmental realm (e.g., externalities, common pool resources, club goods, public goods); ecosystem services and techniques used for their valuation; revealed and stated preferences; cost-benefit analysis and role in policy-making process; tools to address environmental market failures, particularly command and control, taxes and subsidies, and mitigation markets; focus on air pollution, climate change, and water-related policies.

GEOG:6100 Seminar in Health and Environment 3 s.h.
Research on health and environment.

GEOG:6264 Planning Sustainable Transportation 2-4 s.h.
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as URP:6265.

GEOG:6300 Seminar in Environment, Conservation, and Land Use 1-3 s.h.
Research on land use, water resources, conservation.

GEOG:6500 Seminar in Spatial Analysis and Modeling 1-3 s.h.
Research themes in spatial analysis, GIScience, simulation, remote sensing. Same as IGPI:6501.

GEOG:6635 Crossing Borders Seminar 2-3 s.h.

GEOG:7000 Geography Colloquium 1 s.h.

GEOG:7150 Research in Health and Environment 1-3 s.h.
Directed research in health and environment.
GEOG:7350 Research in Environment, Conservation, and Land Use 1-3 s.h.
Directed research in land use, water resources, conservation.

GEOG:7550 Research in Spatial Analysis and Modeling 1-3 s.h.
Directed research in spatial analysis, GIScience, simulation.

GEOG:7750 Research in Environmental Policy 1-3 s.h.
Directed research in environmental justice and policy.

GEOG:7999 Thesis  arr.
Geography, B.A.

Requirements

The Bachelor of Arts with a major in geography requires a minimum of 120 s.h., including at least 38-42 s.h. of work for the major. Credit required for the major depends on a student's choice of track. Students must maintain a g.p.a. of at least 2.00 in all courses for the major and in all UI courses for the major. They also must complete the College of Liberal Arts and Sciences General Education Program (p. 464). Transfer students must earn a minimum of 15 s.h. for the major in residence at the University of Iowa.

Geography majors may not earn the minor in geographic information science.

The major in geography is appropriate preparation for advanced training or careers in geographical and sustainability sciences.

Students choose one of three tracks in the major: environmental studies, geographic information science (GISci), or health and society. All students majoring in geography complete a common set of foundation courses in addition to the requirements for their choice of track.

Consistent with the College of Liberal Arts and Sciences maximum semester hours rule, students may count a maximum of 56 s.h. earned in their major department toward graduation.

The B.A. with a major in geography requires the following work.

**Common Requirements**

Students may not use a course to fulfill more than one major requirement.

One of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:1010</td>
<td>Introduction to Human Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:1090</td>
<td>Globalization and Geographic Diversity</td>
<td>3</td>
</tr>
</tbody>
</table>

All of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:1020</td>
<td>The Global Environment</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:1021</td>
<td>The Global Environment Lab</td>
<td>1</td>
</tr>
<tr>
<td>GEOG:1050</td>
<td>Foundations of GIS</td>
<td>3</td>
</tr>
</tbody>
</table>

One of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:1060</td>
<td>Geography of Asia: From Japan to Pakistan</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:1070</td>
<td>Contemporary Environmental Issues</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:1090</td>
<td>Globalization and Geographic Diversity</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:2110/ GHS:2110</td>
<td>Seven Billion and Counting: Introduction to Population Dynamics</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:2130</td>
<td>World Cities</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:2910</td>
<td>The Global Economy</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:2950</td>
<td>Environmental Conservation</td>
<td>3</td>
</tr>
</tbody>
</table>

Statistics Courses

Students must earn a minimum of 3 s.h. in statistics by completing one of the following courses or a statistics course equivalent to or numbered above one of these.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:1065</td>
<td>Introduction to Spatial Analysis: Patterns and Processes</td>
<td>3</td>
</tr>
<tr>
<td>PSQF:4143/ STAT:4143</td>
<td>Introduction to Statistical Methods</td>
<td>3</td>
</tr>
<tr>
<td>STAT:1020/ PSQF:1020</td>
<td>Elementary Statistics and Inference</td>
<td>3</td>
</tr>
</tbody>
</table>

One of these (not required for GISci track students):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:3340</td>
<td>Ecosystem Services: Human Dependence on Natural Systems</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:3500</td>
<td>Introduction to Environmental Remote Sensing</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:3520</td>
<td>GIS for Environmental Studies</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:3540</td>
<td>Introduction to Geographic Visualization</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:3560</td>
<td>Spatial Analyses of Wind Energy</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:3570</td>
<td>Light Detection and Ranging (LiDAR): Principles and Applications</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:4010</td>
<td>Field Methods in Physical Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:4020</td>
<td>Field Methods: Mapping and Mobile Computing</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:4150/ GHS:4150</td>
<td>Health and Environment: GIS Applications</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:4650</td>
<td>Simulation in Environmental Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

One of these:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:4030</td>
<td>Senior Project Seminar</td>
<td>3</td>
</tr>
<tr>
<td>GEOG:4995</td>
<td>Honors Thesis (must enroll for 3 s.h.)</td>
<td>3</td>
</tr>
</tbody>
</table>

One of these (at least 1 s.h. required):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG:3400</td>
<td>Iowa Environmental Policy in Practice</td>
<td>3</td>
</tr>
<tr>
