Clinton announces agreement on sanctions for Iran nuclear

Clinton announced agreement on sanctions against Iran -- the day after Iran agreed on nuclear swap with Turkey and Brazil. It is breaking news according to The Washington Post.

News Alert: Clinton: U.S., partners agree on plan for new sanctions against Iran

Search term: I searched and could not find a 'clean' way to do the search. I settled on **Iran nuclear sanctions**. But it starts before the breaking news announcement, and potentially could continue long past reaction to the multi-state agreement.

The first search produced 740 tweets ranging back as far as May 12, 2010. So I will have to look for a bump in the messaging for the impact of the 'breaking news.'

News Alert: U.N. Security Council votes to impose new sanctions on Iran
11:32 AM EDT Wednesday, June 9, 2010
---------------------

The U.N. Security Council voted 12 to 2 to impose a fourth round of sanctions on Iran, bringing to a close months of diplomatic efforts by the Obama administration to penalize Tehran for building a covert nuclear facility and accelerating its enrichment of uranium.

Brazil and Turkey voted against the measure, while Lebanon abstained. The measure modestly reinforces a range of economic, high-technology and military sanctions against Iran, and targets more than 40 Iranian elites and companies linked to the nation's nuclear program with a travel ban and an asset freeze.
