Sergeant Floyd’s Journal

Sergeant Charles Floyd was one of the outstanding members of the Lewis and Clark expedition. His grandfather, William Floyd, migrated from Wales to Virginia early in the eighteenth century. He died in Amherst County in 1779, leaving five sons and seven daughters. In the fall of 1779 eight of these children, four sons and four daughters, migrated to Kentucky and settled at Bear Grass in Jefferson County near Louisville. The best known of these brothers was Colonel John Floyd, an officer in the Revolutionary War. Another brother, Charles, a surveyor and a friend of Daniel Boone, is supposed to have been the father of Sergeant Charles Floyd. Although the birth date of Sergeant Floyd is unknown, he is believed to have been born in Jefferson County, Kentucky, sometime between the years 1780 and 1785.

The Floyd family has given to America some notable pioneers, Indian fighters, soldiers, and statesmen. The family was on intimate terms with the Boones and the Clarks. The choice of William Clark as one of the two leaders of the Lewis and Clark expedition may account in part at least for the enlistment of Charles Floyd as one of the
nine Kentuckians to embark on this great adventure.

The Floyd Journal which follows is necessarily the briefest of all the journals kept on the expedition. The first entry was made on May 13th and the last on August 18th, two days before Floyd's death. These dates cover ninety-nine days, thirty-one of which record his adventures along the western border of Iowa. For several days in late June, Floyd was unable to make his own entries because "my hand is painfull." Again, on July 31st, Floyd wrote: "I am very Sick and Has ben for Somtime but have Recovered my helth again." Thereafter his entries were normal in length until August 16th.

Sergeant Floyd recorded the departure of Lewis and Clark from Camp Dubois on a "Showerry" Monday in May. The swift waters of the Missouri were difficult to stem and Floyd ordered his men to pitch camp on the north bank of the Big Muddy six miles above its mouth. Early the following afternoon the expedition arrived at St. Charles and awaited the arrival of Lewis from St. Louis. On May 21st they left St. Charles, making a scant four miles upstream. The following day they made fifteen miles before encamping. Indians arrived with four deer and were given two quarts of whiskey.

On May 23 the expedition passed the Femme Osage River where some Kentuckians, including
Daniel Boone, had settled just before the turn of the century. On May 25 they pitched camp near a French village which Floyd described as the "Last Setelment of whites on this River." Two days later they passed the mouth of the Gasconade and on June 1st reached the Osage River. On June 2nd, while most of the men were engaged in measuring the width of the Missouri and the Osage, some hunters went out and killed four deer. Upon their return they reported to Floyd that the land they traversed was "as Good as any they ever saw."

Continuing upstream past the mouth of the Kansas River, the expedition slowly approached the mouths of the rivers that had their headwaters in southwestern Iowa. The following is the complete Floyd Journal from July 4 until his death.

Sergeant Floyd became ill the next day and died on August 20th. The following spring Lewis wrote Jefferson that he had sent the Floyd journal to Captain Stoddard in St. Louis. Some years later it was acquired by Dr. Lyman C. Draper and deposited in the State Historical Society of Wisconsin where Dr. Reuben G. Thwaites discovered it in 1893 among the Draper papers. It was written in a 5 7/8 by 7 1/2 inch notebook with marble boards.

The Floyd Monument at Sioux City stands as a fitting memorial to the young Kentuckian who died while passing along the western border of Iowa. The inscription on the obelisk reads:
