GRADUATE COLLEGE

Doctor of Philosophy

Nidal Harb Al-Huniti
Pharmacy. Thesis: The Pharmacokinetics/Pharmacodynamics of Erythropoietin

Melissa Susan Gaido Allen, Iowa City
Art History. Thesis: Donald Judd and the Marfa Objective

Karthikayan Balakrishnan, Tonjore, India
Physics. Thesis: Dose Fractionation and Single Subject Studies in PET

Alvaro Antonio Bernal, Bogotá, Columbia
Spanish. Thesis: Percepciones e imágenes de Bogotá: Expresiones literarias urbanas

Brenda Marie Kapler Boleyn, Bettendorf
Education. Thesis: Experiences Revealed in One Teacher Education Program: (En)Gendering Prescription, Currency, and Constraint

Sarah Anne Burke Odland, Iowa City

Jie Cai, Iowa City
Business Administration. Thesis: Three Essays on Executive Compensation, Mergers and Acquisitions, and Index Changes

Jorge Alberto Calles Santillana

John Robert Chambers
Psychology. Thesis: The Use of Different Standards in Self and Social Judgments

Li-Chuan Chen, Taipei, Taiwan
Civil and Environmental Engineering. Thesis: An Investigation of the Moisture Maximization for the Probable Maximum Precipitation

Deokhee Chon
Biomedical Engineering. Thesis: Xe-CT: Methods Development and Assessment of Gas Properties for Regional Characterization of Pulmonary V and V/Q

Gail Ann Corbin, Iowa City
Microbiology. Thesis: Antigen-specific CD4+ and CD8+ T Cell Responses to Listeria monocytogenes Infection: In vivo Homeostasis and Regulation of Cytokine Production

Elizabeth Corsun
English. Thesis: Comic Pragmatism: Dickens and Early-Victorian Stage Farce

Kathleen Ann Costello

Joy Elizabeth Crowther
Immunology. Thesis: Pulmonary Surfactant Protein A Interactions with Human Macrophages: Binding and Trafficking of SP-A, and Alteration of the Respiratory Burst

Robert Kay Crumm

Anne Dougherty Cummings
Education. Thesis: Administrative and Pedagogical Uses of Computers in Foreign Language Classrooms: A Survey of Spanish Teachers’ Beliefs and Practices

Anne Jennifer Cushwa, New Orleans, LA

Ajai Arvind Dandekar, Marion
Immunology. Thesis: The Role of B Cells and γδ T Cells in the Pathogenesis of Mouse Hepatitis Virus Induced Demyelination

Joseph Allen Dangerfield, Fayetteville, WV

Darcie A. Davis-Gage, Tahlequah, OK
Education. Thesis: Mental Health Counseling Site Supervisors: An Examination of Supervisory Style and Emphasis

Sara Yemimah Del Valle, Clifton, NJ

Katherine Boris Dernbach, Iowa City

Ahmed Diallo
Physics. Thesis: Ion Density Fluctuations in Phase Space

Catherine Marie-Josephe Douillet

Jason Edward Dues, Sun Prairie, WI
Molecular Biology. Thesis: Stress Induced Changes in the Signaling Lipid PI3,5P2, Are Transient and Independently Controlled by Vac7p and the Vac14p/ Fig4p Complex

Jillian M. Duquaine-Watson, Iowa City
Women’s Studies. Thesis: Negotiating Need: Single Mother College Students in the Post-Welfare Reform U.S.

Lu Ann Dvorak, Iowa City
Education. Thesis: Experiences in Whiteness: Entering the Academic Discourse Community

Ray Alan Fagenbaum
Exercise Science. Thesis: Gender Differences in Lower Extremity Kinetics and Kinematics during Anticipated and Unanticipated Cutting Maneuvers

Cynthia M. Farthing, Wooster, OH

Yuxiang Gao, Hamilton, NY
History. Thesis: Sports, Gender, and Nation-State during China’s “National Crisis” from 1931 to 1945

Julianne Gassman, Cedar Falls
Education. Thesis: Contracting Military Child Care: A Case Study of the Military Child Care Act and Camp Adventure

Shadi Faiz Gharaibeh, Irbid, Jordan
Pharmacy. Thesis: The Use of the Compression Calorimeter for the Estimation of Thermodynamic Parameters Associated with the Compaction of Binary Powder Mixtures

Kristin King Gilbert, London, United Kingdom
Art History. Thesis: Pedagogical Innovation and Reform at the Académie de France à Rome during the Directorate of Charles-Joseph Natoire (1752-1775)

Guojin Gong, Iowa City
Business Administration. Thesis: Consistent Earnings Surprises and Behavioral Biases in Analyst Earnings Forecasts

Marty Russell Gould, Bakersfield, CA
English. Thesis: Role Britannia: Theatricality and Empire in the Victorian Period

Paul Marc Grandgenett

Betty Jane Greer
Education. Thesis: Overcoming Academic Challenges: The Experiences of Mainland Chinese Graduate Students at an American University
Victoria Jeanne Grube, Iowa City
Education. Thesis: Full Brush: The Symbol, Intersubjectivity and Memetics in Preschool Art Making

Tamara Dawn Hamilton, Yarmouth, Nova Scotia

Faith Hilary Harrison
Microbiology. Thesis: Peripheral Pathways of Anaerobic Benzoate Degradation in Rhodopseudomonas palustris

Mary Hayes, Morristown, NJ
English. Thesis: Still Small Voice: Silence in Medieval English Devotion and Literature

Charles Alford Hays, Kamloops, Canada

Wendy Sue Hilton-Morrow, East Moline, IL
Communication Studies. Thesis: Local News, National Story: Television’s Construction of Viewer Subject Positions during the Iraq War

Elizabeth Jeanne Hollingworth
Education. Thesis: Complicated Conversations: Race and Ideology in an Elementary Classroom

Beeta Yazmeen Homaifar

Janet Rae Hume
Microbiology. Thesis: BPI-mediated Delivery of Endotoxin-rich Particles to Human CD14+ Monocytes: Molecular Determinants and Fate of Endotoxin

Hector Ibarra, Iowa City
Science Education. Thesis: Constructivist Teaching Behaviors of Recipients of Presidential Awards for Excellence in Mathematics and Science Teaching

Kaveri Jain
Chemical and Biochemical Engineering. Thesis: Applications of Microemulsions in Producing Monomers and Polymers: Epoxidation of Soybean Oil and Design of Polymers with Regulated Molecular Weight and Specified End-groups

Ying Kang, Iowa City
Pharmacy. Thesis: Total Syntheses of Anti-HIV Natural Product Daurichromenic Acid, Rhododaurichromanic Acids A and B; Syntheses of Anticancer Natural Product OSW-1 and Its Analogs; and Studies toward the Total Synthesis of Anticancer Natural Products Superstolide A

Carl Aegir Karlsson, Iowa City
Psychology. Thesis: The Neural Substrates of Atonia and Myoclonic Twitching during Sleep in Infant Rats

Chulmin Kim, Seoul, Korea

Donald George Klepser

Brenda Jean Krueger, Iowa City
Chemistry. Thesis: The Heterogeneous Chemistry of Mineral Dust and Sea Salt and Their Components with Trace Atmospheric Gases

Gonghu Li, Wuhan, China
Chemistry. Thesis: FT-IR Studies of Zeolite Materials: Characterization and Environmental Applications

Li Li
Physics. Thesis: The Effects of Large Field Cutoffs for Quantum Field Theory

Timothy Eric Lindley, Alexandria, MN
Anatomy and Cell Biology. Thesis: Oxidative Stress in the Brain Is Involved in the Pathogenesis of Heart Failure

Mark Allen Lowry, Fontanelle
Chemistry. Thesis: Studies of Capillary Electrophromatography and Retention in Reversed-phase Chromatographic Stationary Phases Using Confocal Fluorescence Microscopy

Kirk Robert MacGregor, Iowa City

R. Timothy Marler, Philadelphia, PA
Mechanical Engineering. Thesis: A Study of Multi-objective Optimization Methods for Engineering Applications

Alberto E. Marrero

Julianne Kirgis McNalley, Iowa City
Education. Thesis: ‘We Value Diversity, but . . .’: Academic Achievement of White, Middle Class Elementary Students in Segregated and Integrated Schools

William Jesus Medina Jerez, Colombia
Science Education. Thesis: Student Border Crossings between Local Cultures and Classroom Science: The Transition of Urban and Provincial Students in Colombia

Lina Arbash Meinel, Damascus, Syria
Biomedical Engineering. Thesis: Development of Computer-aided Diagnostic System for Breast MRI Lesion Classification

Beth Ann Merritt Miller, Sacramento, CA
Education. Thesis: Factors Affecting Degree Completion and Persistence of Academically Disqualified and Reinstated Native Students and Transfer Students

James Robert Morgan

Michael Joshua Mulnix
Philosophy. Thesis: Mill’s Liberty Principle and the Conditions of Happiness

Donald Dean Nolting, Preston
Chemistry. Thesis: Polynuclear Lanthanide and Yttrium Complex and Tungsten Bromide Cluster Chemistries Relevant to Diagnostic Imaging and Protein Crystallographic Phasing

Apawan Nookong, Iowa City
Nursing. Thesis: Familial Caregivers’ Management Behaviors and Quality of Life for Children with Asthma

Mary E. O’Donnell

Paul David Ogg, Rochester Hills, MI
Molecular Biology. Thesis: Regulation of Programmed Cell Death by Herpes Simplex Virus Type-1

Russell Leslie Peterson, Iowa City
American Studies. Thesis: Strange Bedfellows: The Politics of Late-night Television Comedy

Kirk Tollef Phillips, Iowa City
Interdisciplinary Studies. Thesis: Design and Testing of a Knowledge-base System for Treatment of Heart Failure Patients in a Hospital System

Christine L. Potter, Iowa City
Education. Thesis: Reading Older Women: Aging, Literacy, and Constructing Identity in the Nautilus Club
Mary Nona Pugh, Davenport

Russ Patrick Reeves, Oak Forest, IL
Religious Studies. Thesis: Countering Revivalism and Revitalizing Protestantism: High Church, Confessional, and Romantic Critiques of Second Great Awakening Revivalism, 1835 to 1852

Dino Konstantinos Ress, Iowa City
Chemistry. Thesis: Progress in the Synthesis of Sialic Acid Containing C-Glycosides of Potentially Therapeutic Carbohydrate Epitopes

Kenneth Erwin Richardson, Tempe, AZ
Molecular Biology. Thesis: Calcium-dependent Signaling in Cardiac Hypertrophy: Dissection of a Pathway

Bianca Rizzoli
Women’s Studies. Thesis: Fan and Journalist Discourses on the Music of Queen: An International Perspective

Stephanie S. Rollie

Osama Ibrahim Saba, Ramallah, Palestine
Biomedical Engineering. Thesis: A Characterization of Normal Human Airway Tree Geometry in vivo over Multiple Lung Volumes via Standardized Methods for Volumetric CT Imaging

Gitti Salami, Krefeld, Germany
Art History. Thesis: Ordinarily Extraordinary: Yakurr Priest-Chiefs’ Ritual Performances and the Leboku Festival

Maneewan Sanubol, Bangkok, Thailand
Nursing. Thesis: Reliability of Six Outcomes from the Nursing Outcomes Classification (NOC) and the Relationships of Organizational, Patient and Nurse Characteristics to These Outcomes

Atmaja Virendra Saxena, Pune, India
Pharmacy. Thesis: Active Site Residues Important for the Stereospecificity of Aryl (Phenol) Sulfotransferase IV

Renita Revland Schmidt, Iowa City
Education. Thesis: Broken Trust: Teachers’ Talk about Literacy Teaching in Times of Mandates

Judy Lynn Howk Schreiber, Davenport
Business Administration. Thesis: The Dynamic Framing of Progress: “Temporal Framing” as a Marketing Intervention in Extended Consumer Experience

Jessica Lynn Schultz, Iowa City
Health and Sport Studies. Thesis: Moments of Impact: Race, Injury, and Football History in Iowa’s Collective Memory

Rebecca Elizabeth Schultz, Iowa City
Genetics. Thesis: Identification of Genetic Loci Involved in Nonsyndromic Cleft Lip with or without Cleft Palate

Ramya Seshadri, Iowa City
Pharmacy. Thesis: Mechanism Studies on the Oxidation of Isoeugenol by Nocardia sp. NRRL 5646

Min Shi

Yu Shi

Mark Paul Simons, North Liberty
Molecular Biology. Thesis: Interactions of Neisseria gonorrhoeae with Polymorphonuclear Leukocytes

Darrell Randall Simpson, Dawson, TX
Microbiology. Thesis: Development of a Large Scale Coenzyme F420 Production Process and Molecular Tools for Investigation of Related Gene Systems in Rhodococcus and Mycobacterium

Pamela Stucky Skinner, Saint Louis, MO

Richard Bernard Sullivan, Waterloo
Education. Thesis: The Rescue of Inactive Items by a Rescoring Scheme of Partial Credit: A Feasibility Student

Hsiao-Chen Tang, Taiwan, Taiwan
Nursing. Thesis: Hospital Nurses’ Perceptions of Family Responsive Workplace Policies: Relationship to Job Satisfaction and Intent to Stay

Narisara Thongboonchoo, Bangkok, Thailand
Chemical and Biochemical Engineering. Thesis: Multi-pollutant Air Quality in Thailand: A Regional to Urban Perspective

Sokol Todi, Tirana, Albania

Ye Tong, Harbin, China
Education. Thesis: Comparisons of Methodologies and Results in Vertical Scaling for Educational Achievement Tests

Rachel Sigrid VanGilder
Epidemiology. Thesis: Risk Factors for Inappropriate Medication Use and Adverse Drug Events in a Mobility-impaired Population

Dushyant Brajendra Varshney
Chemistry. Thesis: Controlling Reactivity in Molecular Solids Using Linear Templates

Yianna Vovides, Famagusta, Cyprus
Education. Thesis: Investigating Learning from Hypermedia via the Implementation of a Computer-based Metacognition Training Regimen and a Hypermedia Program

Hongjing Wang, Iowa City

JoyceAnne Munson Welsh, Iowa City
Education. Thesis: Rights and Responsibilities of Citizens: Are Graduates of Special Education Programs Prepared to Accept Them?

Ellen Jane Wright, Newton, MA
Psychology. Thesis: Trapped in Negative Self-focus: The Implications of Emerging Self-focused Emotion Regulation and Increased Depression Risk Following Pubertal Onset in Females

Fuxing Yang

Tao Yang, Iowa City
Genetics. Thesis: Study of Inherited Hearing Disease

Xinquan Yang
Biostatistics. Thesis: The Posterior Probability of Linkage Allowing for Linkage Disequilibrium and a New Estimate of Disequilibrium between a Trait and a Marker

Ki-Young Yi, Iowa City
Mechanical Engineering. Thesis: Design Sensitivity Analysis and Optimization of Nonlinear Shell Structure with Contact Problem

Jeremy Roger Youde, Cedar Falls
Haining Yu  

Hui Zhang  
Biology. Thesis: Several Independent Signal Transduction Pathways Emanating from Different Phases of a Natural CAMP Wave Play Important Roles in Regulating *Dictyostelium* Chemotaxis

Jānis Zvingelis  
Business Administration. Thesis: Essays in Finance

HENRY B. TIPPIE
COLLEGE OF BUSINESS

The University of Iowa has offered courses in economics and business administration for more than a century. A School of Commerce was formally established in 1914 and the College of Business Administration, which was founded in 1921, received national accreditation in 1923. The College was renamed the Henry B. Tippie College of Business in 1999. Today, there are more than 2,000 students in the College working toward Bachelor of Business Administration (B.B.A.), Master of Accountancy (M.Ac.), Master of Business Administration (M.B.A.) and doctoral (Ph.D.) degrees.

The Undergraduate Program provides a broad business education along with specializations in the areas of accounting, economics, finance, marketing, management and organizations, and management information systems. Student organizations, a Business Communications Center, and specialized programming for targeted student groups provide a full-service educational experience. In addition, students can earn certificates in International Business and Entrepreneurship.

The Tippie M.B.A. program provides advanced management education that expands a student’s ability to excel in the business world. The full range of M.B.A. programs is listed in the adjacent column. The Master of Accountancy program is intended for students seeking a career in public accounting. The College’s Ph.D. program prepares individuals for faculty positions in academia, as well as for business or government careers.

The College hosts a number of centers that promote research and opportunities within specialized career areas. The Hawkinson Institute provides opportunities for students interested in working in the investment community, while the new Emmett J. Vaughan Institute for Risk Management and Insurance helps students explore careers in the insurance industry. The Institute for Economic Research and the RSM McGladrey Institute of Accounting Education and Research provide research and services to their respective fields. The John Pappajohn Entrepreneurial Center offers a full spectrum of programming for both student and community-based entrepreneurs.

HENRY B. TIPPIE
SCHOOL OF MANAGEMENT

Created by Dean Sidney Winter in 1960, the Master of Business Administration (M.B.A.) program at The University of Iowa was “born into a secure future as the College’s flagship.” Now, boasting an enrollment of nearly 1,000 students, the M.B.A. Program is recognized as being among the top 50 programs in the world.

The M.B.A. Program at the Henry B. Tippie School of Management provides its students the opportunity to broaden their managerial skills and enhance their professional careers in the business or public sector. The curriculum is designed for college graduates in any field but emphasizes the importance of professional work experience prior to enrollment.

Students have the option of pursuing the M.B.A. degree on campus through the Full-Time M.B.A. Program, part-time through the M.B.A. for Professionals and Managers (M.B.A.-PM), or via the Executive M.B.A. Program. M.B.A.-PM classes are offered in the Quad Cities, Cedar Rapids and Des Moines. Students may pursue Executive M.B.A. classes in Iowa City, Beijing, or Hong Kong.

The School participates in several joint-degree programs for students enrolled full-time. These include the M.B.A./M.A. Program in Library and Information Science with the School of Library and Information Science, the M.B.A./J.D. Program with the College of Law, the M.B.A./M.S.N. Program with the College of Nursing, the M.B.A./M.D. Program with the Carver College of Medicine, and the M.B.A./M.H.A. Program with the College of Public Health.

More than 5,000 graduates now hold an M.B.A. degree from The Henry B. Tippie School of Management. Successful alumni can be found worldwide, in every facet of today’s global economy.

COLLEGE OF DENTISTRY

Dental education began at The University of Iowa in 1882 with 14 students, four faculty members, and a first year’s budget of just over $1,000. Patients were treated in an improvised clinic equipped with borrowed barber chairs. Today the College of Dentistry is ranked among the leading dental schools in the United States. An integral part of The University of Iowa Health Sciences Center, the college has an enrollment of 299 dental students and 78 advanced education and graduate students in programs representing all the dental specialties as well as Bachelor’s in Oral Health Science and Master’s and Ph.D. programs in oral science.

The Dental Science Building affords faculty and students of the college excellent facilities for their many programs of research into the nature and treatment of oral diseases. These investigations have resulted in a number of significant advances in dental science.

Faculty, postdoctoral and predoctoral students extend service to hundreds of thousands of Iowa citizens in the patient-care clinics of the Dental Science Building. Students also provide dental care to Iowa communities through the college’s extramural programs in hospitals, community health centers and nursing homes. Dental health educational presentations are regularly provided by dental students in schools, nursing homes and other locations throughout the state.

The College has a long history of graduating students who become nationally prominent clinicians, dental educators, and researchers. More than 3,000 living alumni perpetuate the college’s tradition of excellence as they distinguish themselves with contributions to their professions and our society.
COLLEGE OF EDUCATION

The University of Iowa College of Education had its beginning when the University established the nation’s first professorial chair in education at the university level in 1872. Now comprising four departments, the College carries on its programs in conjunction with the other colleges of the University, particularly the College of Liberal Arts and Sciences and the Graduate College.

Undergraduate students preparing to be teachers are admitted to the College of Education for the sequence of courses in professional education culminating in student teaching. Both elementary and secondary education students receive their degrees from the College of Liberal Arts and Sciences. The College of Education is the recommending agency for teacher licensure.

The College of Education enrolls approximately 1,000 undergraduate students in programs preparing them for licensure in early childhood, elementary and secondary education.

Approximately 1,000 graduate students are engaged in College of Education programs for master’s, specialist, and doctoral degrees in such diverse fields as rehabilitation counseling, testing and measurement, and teacher education.

From nationally recognized literacy projects to internationally renowned testing instruments, College of Education faculty produce meaningful and applicable research. They work collaboratively with K-12 teachers, assist school districts with curriculum development, provide consultation and counseling services, and offer a wide variety of professional development workshops and other continuing education programs.

COLLEGE OF ENGINEERING

Engineering is a profession devoted to applying knowledge of the mathematical and natural sciences to the discovery and development of efficient ways to use the materials and forces of nature for the benefit of society.

Career opportunities in engineering are numerous and diverse. In preparing men and women for these opportunities, The University of Iowa College of Engineering seeks to produce high-caliber professionals with interdisciplinary interests and strong backgrounds in engineering fundamentals. It offers students engineering education in the context of a diversified university with a strong College of Liberal Arts and Sciences and outstanding professional colleges.

With educational courses dating back more than 100 years, the College today has an enrollment of about 1,680 students—1,200 of whom are undergraduates. About 68 percent of undergraduate enrollment comes from the state of Iowa, with another 29 percent attending from contiguous states. Women make up more than 26 percent of undergraduates.

There are 86 faculty serving six undergraduate programs in biomedical, chemical, civil, electrical, industrial, and mechanical engineering.

Student achievement has become a hallmark of the college. The college is among the top 15 percent of undergraduate and graduate programs nationally, according to U.S. News & World Report. Average ACT scores are consistently in the top 10th percentile.

Even though engineering students represent only 5 percent of University enrollment, they are awarded many top first-year merit scholarships. Since 1980, 17 engineering students have earned the prestigious University Hancher-Finkbine Medallion for achievement. The College is the first in the U.S. to offer a Technological Entrepreneurship Certificate with an engineering degree.

The college offers graduate programs in biomedical, chemical and biochemical, civil and environmental, electrical and computer, industrial, and mechanical engineering. Research units of the college include the Center for Bioinformatics and Computational Biology, Center for Computer-Aided Design, IIHR—Hydroscience and Engineering, and the Iowa Spine Research Center.

GRADUATE COLLEGE

The University of Iowa’s Graduate College was founded in 1900 and that year awarded its first doctorate to Fred D. Merritt in political science. Since then it has conferred 68,684 master’s, 515 specialist, and 16,841 doctoral degrees. With more than 5,400 students, the college now accounts for nearly one-fifth of the University’s total enrollment, in more than 100 different programs of advanced study, research, and artistic creation. The Graduate College is a proud supporter of interdisciplinary programs, including a unique, individualized interdisciplinary studies doctorate program.

All faculty members with professorial rank in the academic divisions of the University hold membership on the Graduate College faculty; thus, almost all of the University’s 1,713 faculty members participate in graduate instruction. Because academic programs involve specialists from different disciplines and because many faculty members hold appointments in more than one department, school, or college, graduate instruction is assured a healthy interaction and collaboration among disciplines.

A number of the University’s graduate programs are recognized as the finest, or among the finest, in the nation, including six programs ranked in the top quartile nationally. The Graduate College boasts three winners of the prestigious UMI/CGS Dissertation Prize, tied with Ohio State University, Princeton University, and Yale University for the most awarded to any doctoral institution since the inception of the award. In 2001 the college inaugurated its Graduate College Outstanding Mentor Awards. The awards for the 2004-05 academic year were made to Professors Thomas Casavant, Electrical and Computer Engineering, and Charles Whiteman, Economics, in recognition of their outstanding contributions to graduate education.
College of Law

The University of Iowa College of Law is the oldest law school in continuous operation west of the Mississippi. Established in Des Moines in 1865, it was moved to Iowa City in 1868 to become part of the University. Today it has an enrollment of more than 700 students and a faculty of 50 full-time teachers. While most of its students come from the Midwest, more than 98 colleges and universities were represented in the 2004 entering class.

The College’s educational objectives are to help each student learn the fundamentals of critical reading and logical analysis, oral and written communication and argumentation, research, interviewing and counseling, technical drafting, transaction planning, and litigation.

First-year students spend part of their time in large classes, participating with their teachers in a Socratic dialogue—a method of questioning designed to develop and exercise analytical abilities and argumentation skills. Writing and research are practiced in small classes offered every semester, where each student receives individual attention.

In the second and third years, seminars, tutorials, clinical assignments, independent research, writing for the college’s legal journals, oral advocacy competitions, and litigation skills training all supplement more traditionally taught courses.

Aside from the skills instruction, the curriculum focuses on the overriding importance of high personal standards of ethics and professional responsibility and their role in guiding the behavior of lawyers.

College of Liberal Arts and Sciences

The College of Liberal Arts and Sciences encompasses study in nearly the entire range of human learning: the fine arts, the humanities, the social sciences, and the natural and mathematical sciences. We are committed to the ideal of an undergraduate education that integrates teaching and research and prompts students to develop their capacity to ask significant questions, think analytically, draw conclusions from what they know, and discover and advocate for workable solutions. These abilities are the basis of lifelong learning, and they prepare our graduates to continually acquire the information and skills they need to meet the challenges of a rapidly changing world. Moreover, we prepare our students to be not only knowledgeable individuals, but active and participatory citizens.

Although a liberal arts and sciences education had been available at Iowa since the University first began offering instruction in 1855, the “College of Liberal Arts” was not created until the beginning of the 1900–01 academic year. In the years that followed, other colleges evolved out of that first college: Engineering in 1905, Education in 1913, and Commerce (now the Tippie College of Business) in 1921. In fall 2001, the College of Liberal Arts became the “College of Liberal Arts and Sciences,” taking a name that recognizes the breadth of the College’s teaching and research.

In 1900–01, the College had about 600 students in its four “courses of study,” and a faculty consisting of only 28 professors and assistant professors. Today, more than 90 percent of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award more than 70 percent of the University’s undergraduate degrees. Every year, more than 16,500 undergraduate students are enrolled, pursuing one or more of our nearly 60 majors, which prepare students for work in a wide range of careers, as well as for further study in graduate and professional schools. More than 600 tenured and tenure-track faculty members in our 37 departments provide research, teaching, and service to our students, the state, and the world.

In addition to teaching and mentoring our students, our faculty add to the store of knowledge that is shaping the world we live in. Faculty in every area of the College have national and international reputations for research and creative work. They include Fulbright scholars and Guggenheim fellows, winners of fellowships from the National Endowment for the Humanities, principal investigators on dozens of grants from the National Institutes of Health and the National Science Foundation, and distinguished fellows of professional and disciplinary organizations from across the liberal arts and sciences. Our faculty are recognized on campus as well, routinely winning University-wide teaching awards.

Our students are also recognized for their achievements. Every year, more than 200 College of Liberal Arts and Sciences students graduate “with honors” in their major. Even more graduate “with distinction,” “with high distinction,” or “with highest distinction.” Our students participate in departmental honor societies, and in national honor societies including Phi Beta Kappa, Mortar Board, and Omicron Delta Kappa. We are pleased to recognize student achievement in other ways, too. Each year, the College provides many scholarships recognizing student achievement as well as research funding for our undergraduates. For example, the Dewey Stuit Fund in Liberal Arts and Sciences provides support for undergraduate travel, research, and mentoring projects.

The College collaborates with other University units to foster scholarship, teaching, and service. With the Office of International Programs, we offer a major in International Studies as well as a number of certificate programs. We offer two majors with the Carver College of Medicine, a major and two certificate programs with the Tippie College of Business, as well as a certificate program with the College of Public Health. We are working with the College of Education to revitalize the preparation of secondary teachers in mathematics and science, to ensure that our programs are rich in science content as well as in teaching methodology. Also with the College of Education, we have established a Hearing Impaired Endorsement as part of Iowa’s teaching licensure programs.
We are expanding our work with the Division of Continuing Education to provide more opportunities for part-time and non-traditional students. In order to serve more students who have commitments that prevent them from taking courses during the day, we are using innovative multimedia course work and offering more evening and weekend courses.

We are proud of our history and our current endeavors. Despite the challenges we continue to face in an uncertain economic climate and a world that grows more complicated every day, we remain dedicated to our College’s mission: to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to conduct these activities in a culturally diverse, humane, technologically advanced, and increasingly global environment.

ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Carver College of Medicine admits students to the four-year curriculum leading to the Doctor of Medicine degree as well as to the programs in the associated medical sciences each year. Its faculty members also provide instruction to several thousand students each year from the Graduate College, the colleges of Dentistry, Nursing, Pharmacy, and Public Health, and the life science areas of the College of Liberal Arts and Sciences. The clinical faculty additionally provides instruction for nearly 600 physicians in residency and fellowship training in all the medical and surgical specialties.

Each year, several thousand physicians and other health professionals update their knowledge and skills in the College’s continuing medical education programs.

The Statewide Family Practice Residency Program, training 138 physicians at 11 hospitals (10 community-based plus UI Hospitals and Clinics), has attracted nationwide attention and plays a major role in increasing the number of primary care physicians practicing in Iowa.

The spectrum of new knowledge in medicine is such that health care problems need to be approached by an integration of relevant disciplines and a melding of faculty expertise into groups of scholars with a common purpose.

The UI Carver College of Medicine is a national leader in biomedical research, ranking 11th among public medical schools in funding from the National Institutes of Health and second among Big Ten universities. The research funding and reputation emanate from the efforts of faculty, students and postdoctoral trainees working in the laboratories of some of the nation’s premier biomedical scientists in leading interdisciplinary research and training programs.

COLLEGE OF NURSING

The University of Iowa College of Nursing has offered basic nursing education since the turn of the 20th century and baccalaureate and master’s degree programs for more than 50 years. A Ph.D. program in nursing began in 1988. The College is an integral part of the health sciences campus, sharing in and contributing to teaching, research, and patient-care resources, which have earned international recognition.

Undergraduate students enter the nursing program after completing the preprofessional course. Six semesters of study in nursing are required to complete the undergraduate degree.

All senior undergraduates have a clinical internship that facilitates the transition from student to staff nurse. Internships are supervised by 300 staff nurse preceptors across the state.

Special program options are available for registered nurses pursuing the BSN. Registered nurses may study on campus or in satellite centers in several locations in the state.

The professional Master’s in Nursing and Healthcare Practice is a post-baccalaureate program for people who are interested in pursuing a nursing career. This pre-licensure program prepares students as entry-level nurses who are eligible to sit for the NCLEX licensure exam.

The master’s degree program provides a flexible curriculum tailored to meet individual career goals for advanced clinical practice. The Master of Science in Nursing (M.S.N.) degree is available with preparation for certification and licensure as a nurse practitioner, psychiatric/mental health nurse specialist or nurse anesthetist. Master’s level programs of study are available with preparation in nursing service administration, gerontological nursing, genetics, community health, occupational health, and informatics. Two joint degrees are offered in collaboration with other colleges: the M.S.N./M.B.A. offered with the Tippie College of Business, and the M.S.N./M.P.H. offered with the College of Public Health.

The Doctor of Philosophy degree program provides learning and research opportunities in gerontological nursing, child and family nursing, informatics, or nursing service administration. Faculty research in these areas and others is well-supported by external funding and offers students a broad array of support. Students may also pursue an individualized program of study.
COLLEGE OF PHARMACY

The College was originated by a forward-thinking group of pharmacists from the Iowa Pharmaceutical Association in 1885 and was one of the first Colleges of Pharmacy in the nation associated with a major public university. This nationally ranked program is located in the Health Center on the west side of the University’s main campus in close proximity to the Colleges of Medicine, Nursing, Dentistry, Public Health and the University Hospital. In addition, faculty in the College of Liberal Arts and Sciences and the Tippie College of Business contribute to the educational programs in Pharmacy.

The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to dispensing medicines to patients. A recent concept in the delivery of pharmacy services is pharmaceutical care—the responsible provision of drug therapy to achieve defined outcomes that improve patients’ quality of life. These outcomes include preventing, arresting, or reducing a disease, and/or eliminating or reducing its symptoms.

Implementation of the pharmaceutical care model is expected to enhance health care in all settings. In order to carry out these responsibilities, pharmacists specialize in the science of drugs and drug information.

The familiar picture of the pharmacist in the corner pharmacy is only one part of the mosaic. Pharmacists also are active in research, clinical practice, teaching, and counseling. While training in science and drug preparation, they also learn the business and communication skills necessary for their multifaceted careers.

Demand for qualified pharmacists is high. Iowa’s graduates enjoy a 100-percent placement rate. Iowa’s pharmacy students study with professors who, in many cases, are pioneering the development of new drugs to solve chronic health problems. They also enjoy advanced research facilities, including those of Iowa’s drug research and manufacturing area, where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The Doctor of Pharmacy (Pharm.D.) degree combines didactic course work with extensive clinical clerkship involvement to prepare a pharmacist for an extended role in monitoring, evaluating, and optimizing drug therapy in hospitalized and ambulatory patients. Students graduating from the college enjoy a wide variety of professional opportunities in community pharmacy, hospital pharmacy, government, and the pharmaceutical industry.

The college also has an extensive research and graduate education program leading to both masters and doctoral degrees in the pharmaceutical, clinical, and social and administrative sciences related to pharmacy. Graduates of these programs are actively sought by the pharmaceutical industry, government and also for academic positions.

The Division of Drug Information Service (DDIS), one of the college’s three service divisions, provides drug information to health centers and health colleges throughout the world. Pharmaceutical Service is a unique research and development facility in which new chemical compounds are researched for drug usage and prepared for clinical trial. The Center for Advanced Drug Design (CADD) has the capability to engage in the full range of the drug development process.

COLLEGE OF PUBLIC HEALTH

Formed in July 1999, the College of Public Health is the newest collegiate unit at The University of Iowa. Building on the University’s long tradition of public health training, research, and service—including programs targeting agricultural safety and health, cancer and birth defects monitoring, health services planning, and women’s health—the establishment of this college marked a renewed and expanded commitment to improving the health of all Iowans.

The College of Public Health consists of five academic departments: biostatistics, community and behavioral health, epidemiology, health management and policy, and occupational and environmental health; the newly formed Program in Public Health Genetics is the College’s sixth academic unit. Numerous centers and programs within these departments focus attention on the unique health concerns of Iowans, especially the needs of its large rural and agricultural population and its growing number of elderly residents.

Iowa’s Center for Agricultural Safety and Health, the Institute for Public Health Practice, the Center for Public Health Statistics, the Preventive Intervention Center, and the Institute for Quality Healthcare are just a few of the 28 centers based in the College of Public Health. These multidisciplinary centers focus research efforts on important public health topics and also provide a platform for an array of outreach, service, and policy activities. These centers also provide a framework for extensive interdisciplinary collaboration involving College of Public Health investigators and colleagues throughout the University and at other Regent institutions and governmental agencies.
GRADUATION HONORS

High scholastic achievement is recognized at graduation time in two ways: graduation with distinction, based on grades only, and graduation with honors in a particular field, based upon both grades and the completion of special work as outlined by the college and the major department.

**Graduation with Distinction.** The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

<table>
<thead>
<tr>
<th>Grade-Point Range</th>
<th>Distinction Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50-3.74 GPA</td>
<td>With High Distinction</td>
</tr>
<tr>
<td>3.75-3.79 GPA</td>
<td>With Distinction</td>
</tr>
</tbody>
</table>

In the College of Nursing, distinction recognition is determined as follows:

<table>
<thead>
<tr>
<th>Grade-Point Range</th>
<th>Distinction Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.80-3.89 GPA</td>
<td>With High Distinction</td>
</tr>
<tr>
<td>3.90 GPA or above</td>
<td>With Distinction</td>
</tr>
</tbody>
</table>

In the College of Pharmacy, distinction recognition is determined as follows:

<table>
<thead>
<tr>
<th>Grade-Point Range</th>
<th>Distinction Designation</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.75 GPA or above</td>
<td>With High Distinction</td>
</tr>
<tr>
<td>3.50-3.74 GPA</td>
<td>With Distinction</td>
</tr>
<tr>
<td>3.25-3.49 GPA</td>
<td>Distinction</td>
</tr>
</tbody>
</table>

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation with highest distinction; two, with high distinction; and one, with distinction.

**Graduation with Honors Degrees.** An honors student may complete work for an honors degree in one of many fields of concentration. Honors students are admitted to work in candidacy for an honors degree, normally not later than the junior year, upon application to and formal acceptance by the department of their choice. At the option of the department, the special honors work may be planned as an addition to the regular requirements for the major or in substitution for some part of these requirements.

Liberal Arts and Sciences candidates who are graduating with honors in a particular field wear white cords draped over the shoulders.

**Presidential Emblem**

The jeweled gold medallion worn by The University of Iowa president during commencement ceremonies and other formal academic events on the campus was designed as an emblem of the University’s presidency by a UI graduate student in the School of Art and Art History, Karen Cantine.

Featuring an abstract UI motif in the University’s colors—old gold and black—the emblem was first used in the inauguration of Howard R. Bowen as the University’s fourteenth president during inauguration ceremonies December 5, 1964.

Four and one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Mrs. Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Mrs. Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is almost an inch in diameter. A slightly smaller topaz is set in the link which attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one being placed at the end of each “spoke” which bears a UI motif.

Designing and making the presidential emblem was part of Mrs. Cantine’s work for a Master of Arts degree in metalwork and jewelry.

The academic degree offerings of the College of Public Health include the Master of Public Health degree, with subtracks in biostatistics, community and behavioral health, epidemiology, ergonomics, health communication, health policy and administration, and occupational and environmental health and focus areas in aging studies, clinical investigation, nutrition and exercise, maternal, family and child health, and global health studies. The Master of Public Health program offers combined degrees with the UI Carver College of Medicine, the College of Nursing, the College of Pharmacy, and Iowa State University. The College also offers the Master of Health Administration degree. This program offers combined degrees with the College of Law, the Tippie College of Business, the College of Pharmacy, and the Urban and Regional Planning Program. In addition, master of science and doctoral degrees are offered in biostatistics, epidemiology, community and behavioral health, and occupational and environmental health. The community and behavioral health master of science program offers a subtrack in health communication. The occupational and environmental health master of science program offers an emphasis in industrial hygiene and a combined degree with urban and regional planning. Additional doctoral degrees are offered in statistical genetics; industrial hygiene, which is a subtrack of occupational and environmental health; addiction studies and health communication, which are subtracks of community and behavioral health. The College also offers a Certificate in Public Health and a Certificate in Statistical Genetics. More than 300 students are currently enrolled in degree programs within the College of Public Health.
ACADEMIC COSTUME

The history of academic dress reaches far back into the early days of the oldest universities. A statute of 1321 required that all “Doctors, Licentiates, and Bachelors” of the University of Coimbra wear gowns. It is still a vexing question whether academic dress finds its sources chiefly in ecclesiastical or in secular dress. Gowns may have been necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until they were superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as “academic.”

Over the many years of development, a great diversity of academic apparel made its appearance. When American colleges and universities desired to adopt some suitable system of academic apparel more than a century ago, it seemed to them best to agree on some definite system which all might follow. Accordingly, there was held on May 16, 1895 at Columbia University a conference of representatives of the governing boards of various interested institutions. The outgrowth of that meeting was the establishment of “The Academic Costume Code.” The code has been revised several times since its initial approval. The most recent change was in 1959. In nearly every instance of the many hundreds of colleges and universities of the United States which have adopted academic dress, the standards thus prescribed have been adopted and followed, either wholly or at least in the main.

The academic costume code recognizes three styles of gowns: a bachelor’s gown, a master’s gown, and a doctor’s gown. In conjunction with its centennial celebration in May 2000, the Graduate College inaugurated a new doctor’s gown. The differences in these gowns are mainly in the cut and shape of the sleeves and in the trimming. Hoods are also recognized for each of the above degrees. They vary in shape, size, and length, the larger and more elaborate designating the doctoral level. The shell of the hood matches the black material of the gown, and is lined with the color or colors of the institution conferring the degree—in the instance of The University of Iowa, old gold. The velvet border of the hood is of a color indicative of the field of learning to which the degree pertains. An abbreviated list of these colors as they apply to The University of Iowa follows:

- Arts and Letters, white
- Business and Accounting, sapphire blue
- Dentistry, lilac
- Engineering, orange
- Law, purple
- Medicine, green
- Music, pink
- Nursing, apricot
- Pharmacy, olive green
- Philosophy, dark blue
- Science, golden yellow
- The Oxford cap, proper for all degrees, is worn both indoors and outdoors with academic costume. The tassel, worn over the left eye, is also symbolic of the degree to be conferred on the wearer and conforms to the code colors for hood trimming.

Practice at The University of Iowa varies slightly from that established by the code. Candidates for degrees may be identified with the colleges from which they are to secure their degrees by the color of the tassels they wear. Colleges are designated by tassel colors as follows:

- Business, sapphire blue
- Dentistry, lilac
- Engineering, orange
- Graduate, black
- Law, purple
- Liberal Arts and Sciences, white
- Medicine, green
- Nursing, apricot
- Pharmacy, olive green
- Only candidates for the doctoral-level degrees (Doctor of Philosophy, Doctor of Audiology, Doctor of Musical Arts, Doctor of Physical Therapy, Doctor of Dental Surgery, Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy) wear hoods. The velvet trim on the hoods for these degrees conforms to the colors set forth in the intercollegiate code, and, with the exception of the Doctor of Philosophy and Doctor of Musical Arts hoods, are the same color as the tassel. The Doctor of Philosophy hood is trimmed in blue, the color appropriate to philosophy, and the Doctor of Musical Arts hood is trimmed in pink, the color for music. In both cases, the tassel worn is black.

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, national origin, color, creed, religion, sex, age, disability, veteran status, sexual orientation, gender identity, or associational preference. The University also affirms its commitment to providing equal opportunities and equal access to University facilities.
