This diary was written by twenty-year-old Mary St. John, with some contributions by her sister, Esther, twenty-two. The women came to Iowa from near Walton, New York in 1858 with their family: father Isaac, fifty-two (1806-1883), mother Rhoda Lindsley, forty-eight (1810-1871), brothers Aaron, seventeen, Benjamin, ten, and sister Emma, eighteen. Isaac St. John farmed the family land near Walton, but in the 1850s he sold the farm to enter a partnership in a Walton tannery. Within a few years the partnership dissolved and he decided to seek more productive farm land in the West.

Hearing of a land sale at Osage, Iowa in the spring of 1857, he set out as an "advance agent" for his family. When he reached Iowa, he located the Seely family, former neighbors from Walton, and with their help purchased a suitable piece of land at the head of Crane Creek, three miles northwest of Saratoga (between Riceville and Cresco).

Mary's diary spans the year 1858. Unfortunately, she makes scant mention of the family's travel preparations. On February 23 she records that they began to assemble things to pack and on February 25 she notes that "Father had an auction for the purpose of selling our furniture. . . . most of them sold as well as could be expected."

The St. Johns left their New York home around the first of March. They "took the cars" for the West. "Today is the first time I was ever in a car in my life," Mary wrote. "I like riding in them first rate." The St. Johns, who took the opportunity to visit friends and relatives along the way, rode the "cars" to Chicago, Milwaukee, and finally to Prairie du Chien. On March 31 they crossed the Mississippi River into Iowa where they soon reached their new homesite.

Due to Isaac's firm belief in education, all the older chil-
dren had received schooling back in New York. Mary obtained a teaching certificate shortly after arriving in Iowa. Sometime around the first of June, 1858, Mary left for Round Grove where she taught and was "boarded." The diary was continued without interruption by a second writer, probably her sister Esther, judging from internal references to other family members. The change in handwriting indicates that Mary took over again in the fall but soon turned the diary back to the second writer.

Mary later married Charles D. Cutting on September 3, 1863 and gave birth to her only child, William, on February 11, 1865. If she kept other diaries between 1858 and her death at the early age of 31 on June 3, 1869, they unfortunately are not extant. The portions of the diary reproduced here have been slightly altered to aid readability. They are presented with the kind consent and cooperation of Mary St. John Cutting's granddaughters, Merle Cutting Bohnet and Verna Cutting Lusher of Rancho Cordova, California.

MARCH, 1858
