Dada No. 15

Surrealism
Lequeu
An Architectural Enigma
Philippe Duboy
Foreword by Robin Middleton
"Jean-Jacques Lequeu does in fact hide behind the most enigmatic and controversial smile in the history of art," writes Philippe Duboy in a book that is one of the most tantalizing examples of architectural investigation ever produced. It is an extraordinary compilation—part speculative biography, part meticulous research, with hundreds of intriguing drawings, many in color—that unravels the mystery of this eighteenth-century maverick artist whose drawings have established him variously as a visionary architect associated with Boullee and Ledoux, forerunner of surrealism, and inventor of bad taste.

Lequeu's architectural drawings from the legendary portfolios Architecture civile and Nouvelle methode are presented here in their entirety, along with his "Lewd Figures."

The Originality of the Avant Garde and Other Modernist Myths
Rosalind E. Krauss
In these essays Krauss explores the ways in which the break in style that produced postmodernism has forced a change in our various understanding of 20th century art, beginning with the almost mythic idea of the avant-garde.

"All of her observations are unfailingly original and provocative." —Art Documentation

A journal sponsored by the Association for the Study of Dada and Surrealism, published and distributed by The University of Iowa. Dada/Surrealism invites a wide range of approaches to the verbal and visual productions of the two movements seen in their least limited senses as historical and living phenomena. We are especially receptive to manuscripts that use interdisciplinary techniques, reexamine basic concepts, or raise theoretical issues of contemporary interest. Each issue is organized around a special topic.
