Hosted by Iowa Research Online
The matter of establishing a Hall of Public Archives for the care and preservation of the archives of the State of Iowa had been frequently agitated by Charles Aldrich, founder and curator of the State Historical Department, Dr. Benjamin F. Shambaugh, of the Iowa State University, Judge Horace E. Deemer, of the Supreme Court of Iowa, and other men of prominence in the State. In the *Annals of Iowa*, April, 1901, Mr. Aldrich points out the necessity for and strongly urges the establishment of a Hall of Public Archives, also in his Biennial reports for the State Historical Department in 1901 and 1905 he reinforces his former suggestions.

The Thirty-first General Assembly of the State of Iowa passed the following:

AN ACT providing for the care and permanent preservation of the public archives, and making an appropriation therefor:

Section 1. That for the care and preservation of the public archives the state library and historical department of Iowa are hereby given the custody of all the original public documents, papers, letters, records and other official manuscripts of the State executive and administrative departments, offices or officers, councils, boards, bureaus and commissions, ten years after the date or current use of such public documents, papers, letters, records or other of-
A Capitol garret from which was removed a confused mass of materials embracing all data concerning the erection of the new capitol; all population schedules census of 1870 and early records of a number the State Departments.
official manuscripts. Provided, that the executive council shall have the
power and authority to order the transfer of such records or any
part thereof at any time prior to the expiration of the limit of ten
years hereinbefore provided or to retain the same in the respective
offices beyond such limit according as in the judgment of the council
the public interest or convenience may require.

Sec. 2. That the several state executive and administrative de-
partments, officers or offices, councils, boards, bureaus and commis-
sioners, are hereby authorized and directed to transfer and deliver
to the state library and historical department, such of the public
archives as are designated in Section one (1) of this act, except
such as in the judgment of the executive council should be longer
retained in the respective offices.

Sec. 3. That the state library and historical department is hereby
authorized and directed to receive such of the public archives and
records as are designated in section (1') of this act and provide
that the same be properly arranged, classified, labeled, filed and cal-
endared.

Sec. 4. That for the care and permanent preservation by the
state library and historical department of the public archives
hereinbefore designated, the executive council is hereby authorized
and directed to provide, furnish and equip such room or rooms in
the historical, memorial and art building (now in process of erec-
tion) as may be deemed necessary for the purposes of this act, and
the room or rooms thus provided for shall be known as the hall of
public archives.

Sec. 5. That for carrying out the purposes of this act there is
hereby appropriated out of any monies in the state treasury not oth-
erwise appropriated the sum of two thousand dollars ($2,000) per
annum for three years to be expended under the direction of the
board of trustees of the State Library and Historical Department.

Approved April 10, A. D. 1906.

The trustees of the State Library and Historical Depart-
ment assigned the work to Dr. Benjamin F. Shambaugh of
the State University of Iowa, who spent the first year in in-
vestigation and preliminary work, which he reported in full
in two reports, September 18, 1906, and May 11, 1907. These
were published by the State Historical Department at Des
Moines.

The Thirty-second General Assembly increased the appro-
priation and placed the supervision of the work and the dis-
bursement of the appropriation under the direction of the
Executive Council instead of the Board of Trustees of the State Library and Historical Department. The general supervision of the work under the Executive Council was given Mr. A. H. Davison, its secretary, who devised our system of cleaning and filing. The writer was employed by the Executive Council in September, 1907, since which time he has had direction of the classification, arrangement, etc.

A great deal of the old material at the Capitol was found covered with dust, with packages broken open and papers scattered. In some instances they were ready to crumble to pieces. This was caused mainly by storage in hot, unventilated vaults and by frequent shifting into any available nook to give space for new material. During the session of the Thirty-fourth General Assembly, I was called to the Capitol to inspect some material found in one of the garrets. Investigation was extended to all the garrets and a dray load of valuable documents was removed to the Archives Department. Among them were the earlier records of the commission which built the present Capitol. There were all the plans, tracings, blue prints, etc., of the Capitol and the Historical building, the earlier records of the Agricultural Department, Geological Department, Railroad Commissioners, Superintendent of Public Instruction, population schedules of the census of Iowa, etc., etc. These were from earlier, sometimes obsolete offices, had cumbered the present offices, and were "in the way" until "stored away."

In classifying the material I find thousands of valuable documents are missing. A large number of them have been destroyed, some by fire. The original manuscripts of others, such as reports, messages, etc., I have observed in my experience in subordinate situations in State offices, have gone to the printer for copy and when returned have been thrown into the waste basket. In some cases original papers instead of copies were delivered to the public when a call was made for them. A great many were scattered or lost by the several removals from one Capitol to another. Many of the documents supposed to be lost are now being found scattered among the different offices. Hundreds of these are returned to the
offices where they originated and to which they belong. While classifying the proceedings of the Constitutional Convention of 1844, in the office of Secretary of State, I found the original manuscripts of the minutes and journals missing. I have since found them among materials from the office of Auditor of State.

All manuscripts and records are retained in the Archives Department. The printed materials are turned over to the Library and Historical Department.

All manuscript materials are treated in the following manner: They are thrown, first, into main divisions, for the office in which we are working. Then the actual work of classification begins. The papers are next all read and placed under proper divisions. Where possible many of these divisions are combined. Each division is then taken up separately and subdivided by subjects until the lowest subdivision is reached. They are then arranged in alphabetical order.

Next they are unfolded, dusted, repaired, cleaned with a wet sponge, pressed out flat between blotters and placed in heavy tag board folders, similar to those for vertical filing. These folders are legal size, with an index upon one of the inner pages. When properly labeled, these folders are placed in boxes made of binders’ board, cloth-covered and dust-proof, and the boxes and bound records are placed in fireproof steel cases especially constructed for that purpose.

An idea of the amount of material and labor in the Department can be gained from the fact that we have now on file from the three offices of Governor, Secretary of State and Auditor: 1871 bound volumes; 1,250,000 sheet documents (estimated by the average number to each box); 2,225,000 unbound census schedules (population schedules).

The archives of all the other offices are in the storage cases, where there are awaiting us thousands upon thousands of unclassified documents from the garrets of the Capitol, from the State storage building, from the old Arsenal, and elsewhere. Among these are the records and proceedings of the different commissions appointed from time to time; of the
Custodian of Public Buildings; of the Geological Department; of the Agricultural Department; of the Railroad Commissioners; of the State Board of Health; Labor Commissioner; Superintendent of Public Instruction and Adjutant General. In addition to these there is still an immense amount of material in the vaults of the various State offices to be removed to the Archives Department as rapidly as storage room will permit.

Of the material now in the Department we have classified and filed the offices of Governor and of Secretary of State and are about three-fourths through with the office of Auditor of State. The last has been classified and a part of it cleaned and filed.

That such a department exists is rapidly becoming known, and personal applications and written requests for reference to material on file are more and more frequent. A great many come direct to the department in addition to those made to the different State offices and by them referred to the department. They come from attorneys, students and persons engaged in historical research, and from representatives of similar departments established or in contemplation in other States.

Iowa seems to have been one of the pioneers in the work. Several States had taken some prior steps toward the preservation of the public archives but had done very little systematic work. In the last two or three years the vital historical importance of public archives has aroused keener interest in a great many States and in the National Congress. This is due, to a great extent, to agitation by the American Historical Association, through its Public Archives Commission.

From information gleaned from all available sources it can be safely said that Iowa is excelled by none and equalled by only a few States in the advancement made toward the preservation of public archives. Having the reputation of never doing things by halves, it is safe to predict that in future Iowa will be found up to its standard: "In all that is good Iowa affords the best."
Below is given our classification for the office of Governor. It enters into detail more than simple outlines should for the reason that it must serve as a temporary index until each office is catalogued and indexed, when revision may take place.

**GOVERNOR'S OFFICE.**

In making the classification in this office the matter has been arranged in chronological order and in every case, where practicable, is in alphabetical order.

Commissions are arranged in alphabetical order under each division.

In Correspondence under criminal matters all papers belonging to each case are combined and the cases are arranged in alphabetical order by defendants' names. The same in Appointments under names of applicants.

Under each subdivision in Correspondence the letters are arranged in alphabetical order by the names of the writers.

Extraditions are classified by States in chronological order.

Proclamations are classified by States in chronological order.

Reports are arranged in chronological order by the different departments, institutions, etc., which make them.

Vouchers are arranged by numbers and by the months for each calendar year.

The same general plan has been followed in each of the remaining divisions.

Following is the classification:

**GOVERNOR'S OFFICE—CLASSIFICATION.**
