The Lewis and Clark Expedition in Its Relation to Iowa History and Geography
The party had now reached a place so near the southwest corner of the present state of Iowa that during the day they passed that point. We quote from the journal:

July 18th Wednesday 1804—a fair morning the river falling fast. Set out this morning at Sun rise under a Gentle Breeze from the S. E. by S passing over the Prairie, at about 3 Miles we passed the head of the Island L. S. called by the French Chauve or Bald pate opposit the middle of (1) this Island the creek on the S. S. is nearest the river. In high water an Island is formed in the bend above the last (2). Measured the Current and found that in forty one Seconds it run 50 fathom but little timber is to be Seen except in the Low points on Islands & on creeks, the Groth of timber is generally Cotton Mulberry Elm Sycamore &c. &c. passed a Island on the 2d. point to the S. S. opposit the water (3) when high passes out in the Plain. oppsed this Island on the L. S. the hills jut to the river (4) this Hill has Sliped from the top which forms a Bluff above & 200 foot above the water, about ¾ of a mile in length & about 200 feet in Depth, has Sliped into the river, it is Composed of Sand Stone intermixed with an indiffert. Iron ore near the bottom or next to the water is a Soft Slate Stone, Some pebble is also

---

1As announced in the October number our plan is, that when in the progress of the narrative the expedition reaches the border of what is now the state of Iowa, to quote verbatim the text of the Lewis and Clark journal as set out in the "Original Journals of the Lewis and Clark Expedition, Edited, with Introduction, Notes, etc.," by Reuben Gold Thwaites, published by Dodd, Mead & Company, New York, 1864, accompanying those quotations with abstracts and quotations from the "History of the Expedition of Lewis and Clark," by Elliott Cones, published by Francis P. Harper, New York, 1883, and with information from other sources, all in the form of footnotes. These entries in the journal made each day as they proceeded up the west border of what is now Iowa were all made, according to Thwaites, by Captain Clark.—Editor.

2In the journal they use the abbreviation "L. S." for the nautical term, "larboard side," where a landsman would say "left side," and "S. S." for "starboard side," or "right side."—Editor.

3These numbers in parentheses indicate the locations alluded to in the "Course, Distance and References" table set out at the end of each day's journal.—Editor.

intirmixt. We passed a very bad sand bar and incamped on the L. S. at the lower point of the Oven Islands & opposit the Prairie, Calld. by the french *Four le tourtere* [Baker's Oven]. Saw a Dog nearly Starved on the bank, gave him som meet, he would not follow, our hunters killed 2 Deer to day.

**Course distance & reffers. July 18th**

Iss. in a Deep bend on the L. S. a Sand bar S. S. (4)^

July 20th, Friday 1804—a cool morning passed a large Willow Island (1) on the S. S. and the mouth of Creek about 25 yds wide on the L. S. called by the french l'Eau qui pleure, or the Water which cry's [weeping water],^ this Creek falls into the river above a Clift of brown Clay opposit the Willow Island, I went out above the mouth of this Creek and walked the greater part of the day thro: Plains interspersed with small Groves of Timber on the branches, and some scattering trees about the heads of the runs, I Killed a very large yellow Wolf, The Soil of those Prairies appears rich^ but much Parched with the frequent fires. after I returned to the Boat we proceeded around a large Sand bar making out from the L. S. opsd. a fountain of water coming out of a hill L. S. and affording water sufficient to turn a mill. The Prairies as far as I was out appeared to be well watered, with small Stremes of running water^ Serjt. Pryor & Jo. Fields brought in two Deer this evening, a very Pleasant Breeze from the N. W all night, river falling a little. It is worthy of observation to mention that our Party has been much healthier on the Voyage than parties of the same number is in any other Situation. Tumors have been troublesome to them all.12^ 

7^A little above the present site of Nebraska City, Nebraska, near the boundary between Cass and Otoe Counties, Nebraska; on the other hand is Fremont County, Iowa."—Coues, Vol. I, p. 49.  
9^Weeping Water, the "stream which makes into the Missouri at the junction of Otoe and Cass Counties."—Coues, Vol. I, p. 50.  
11^"Here is also a certain Five Barrel creek on the north[east] not noticed in our text but so named on Nicolett's and on Owen's map. * * * a creek on the right hand (in Iowa) marked Kegg creek on Owen's map and Keg Creek on Lien. G. K. Warren's (about 1859); it retains the latter name."—Coues, Vol. I, p. 50.  
12^"For a month past the party have been troubled with boils, and occasionally with dysentery. These were large tumors, which broke out under the arms, on the legs, and generally in the parts most exposed to action, which sometimes became too painful to permit the men to work. After remaining some days, they disappeared without any assistance, except a poultice of the bark of the elm, or of Indian meal. This disorder, which we ascribe to the mudiness of the river water, has not affected the general health of the party, which is quite as good as, if not better than, that of the same number of men in any other situation."—Coues, Vol. I, p. 50.

From this evenings encampment a man may walk to the Pani [Pawnee] Village on the S bank of the Platt River in two days, and to the Otteaus in one day, all those Indians are Situated on the South Bank of the Platt River, as those Indians are now out in the Praries following & Hunting the buffalow, I fear we will not sec them.

July 21st Saturday 1804—Set out early under a gentle breeze from the S. E. proceeded on very well, passed (1) a willow Island on the L. S. opposit a bad Sand hur. Some high lands covered with timber L. S. in this hill is limestone and semented rock of shells &c (2) in high water the opposit Side is cut thro: by several Small channels, forming Small Islands, a large Sand bar opposit the Hill, at 7 oClock the wind luled and it Comms'd raining, arrived at the lower Mouth of the Great River Platt at 10 oClock, (about 3 ms. above the Hill of wood land) the Same range of High land continus withiun ¾ of a mile of the Mouth below This Great river being much more rapid than the Missourie forces its Current against the opposit Shore. The Current of this river comes with great velocity roleing its Sands into the Missouri, filling up its Bead & Compelling it to incroach on the S [North] Shore. we found great difficulty in passing around the Sand at the Mouth of this River. Capt. Lewis and Myself with 6 men in a perogue went up this Great river Platt about 2 [one] Miles, found the Current very rapid roleing over Sands, passing through different Channels none of them more than five or Six feet deep, about 900 [000] yards Wide at the Mouth, I am told by one of our Party who wintered two winters on this river, that "it is much wider above, and does not rise more than five or six feet" Spreds very wide [with many small islands scattered thro' it.] and

This camp was on the southern [western] shore. See Coues, Vol. I, p. 50.

"The Platte is the great western tributary of the lower Missouri, draining most of Nebraska and portions of Wyoming and Colorado. This point conventionally divides the lower from the upper Missouri. The river Platte is regarded by the navigators of the Missouri as a point of as much importance as the equinocial line amongst mariners. All those who had not passed it before were required to be shaved, unless they could compromise the matter by a treat. Much merriment was indulged on the occasion. From this we enter what is called the upper Missouri."—Coues, Vol. I, p 51.
from its rapidity & roiling Sands Cannot be naviagated with Boats or Perogues. The Indians pass this river in Skin Boats which is flat and will not turn over. The Otteaus a Small nation reside on the South Side 10 Leagues up, the Panics on the Same Side 5 Leagues higher up. about 10 Leagues up this river on the S. Side a Small river Comes into the Platt Called Salt River, "the water So brackish that it Can't be Drank at Some Seasons, above this river & on the North Side a Small river falls into the platt Called Elk (Horn) River this river runs Parralal with the Missouri. at 3 miles passed a Small river on the L. S. Called Papillion or Butterfly C: 18 yds wide a large Sand bar off the mouth, we proceeded on to get to a good place to Camp and Delay a few days, passed around this Sand bar: and Campd. for the night on the L. S. a very hard wind from the N. W. I went on Shore S. S.37 and proceeded up one mile thro: high Bottom land open a great number of wolves about us this evening

Course Distance & Refrs. July 21st.

July 22nd. Sunday 1804—Set out very early with a view of Getting Some Situation above in time to take equal altitudes and take observations, as well as one Calculated to make our party Comfortable in a Situation where they Could receive the benefit of a Shade. passed a large Sand bar opposit a Small river on the L. S. at 3 miles above Platt Called Papillion, or Butterfly Creek a Sand bar & a Willow Island opposit a Creek 9 Ms. above the Platt on the S. S. Called Morqueton Creek19 Prarie on both Sides of the river, Came too and formed a Camp on the S. S. above a Small Willow Island, and opposit the first

16This camp was on the Nebraska side and just above the mouth of the Platte.—Editor.

17The Iowa side and almost due west of the present city of Glenwood.—Editor.

19This is Mosquito Creek (see Coves, Vol. I, p. 53). Its source is in Shelby County, Iowa, and it runs down through the west part of Pottawattamie County and enters the Missouri about two miles below the boundary between Pottawattamie and Mills counties.—Editor.
Hill which approach the river on the L. S. and covered with timber of Oak, Walnut, Elm &c. &c. This being a good situation and much nearer the Otteaus town than the Mouth of the Platt, we concluded to delay at this place a few days and send for some of the Chiefs of that nation, to let them know of the change of Government and the wishes of our government to cultivate friendship with them, the objects of our journey and to present them with a flag and some small presents.

Some of our provisions in the French Perogue being wet it became necessary to dry them a few days, wind hard from N. W., five Deer killed to day, the river rise a little.

The course & distance from the Plate river to Camp N. 15° W. 10 Miles, psd. 5 pts. L. S. & 2 pts. S. S.

**Camp White Catfish Nine [10] Miles above the Platt River, Monday the 23d. of July 1804**—A fair morning set a party to look for timber for Ores, two parties to hunt, at 11 o'clock sent off George Drewyer & Peter Crousett with some tobacco to invite the Otteaus if at their town and Panies if they saw them, to come and talk with us at our Camp &c. &c. (at this season the Indians on this river are in the Prairies hunting the Buffalo, but from some signs of hunters, near this place & the Plains being on fire near their towns induce a belief that they this nation have returned to get some green Corn or roasting Ears) raised a flag staff sund and dried our provisions &c. I commence copying a map of the river below to send to the P. [President—Ed.] U. S., five Deer killed to day one man with a tumor on his breast, prepared our camp the men put their arms in order, wind hard this afternoon from the N. W.

**Whitefish Camp 10 Ms. above Platt 24th of July 1804 Tuesday—a fair day the wind blows hard from the South, the breezes which are very frequent in this part of the Missouri is cool and refreshing. Several hunters out to day, but as the game of all kinds are scarce only two Deer were brought in. I am much engaged drawing off a map, Capt. Lewis also much engaged in preparing Papers to send back by a perogue—which we intended to send back from the river Platt observations at this place makes the Latitude 41° 8' 19" North.

---

20 This is the first time the party made camp on what is now Iowa soil. Of it Cones says, Vol. I, p. 52, "The camp of this day, July 22d, is on the east side of the Missouri, by estimate ten miles above the Platte; it is therefore on or close to the boundary between Mills and Pottawattamie Cos., Ia., and nearly or about the same distance below the present site of Council Bluffs and Omaha." They remained there several days.—Editor.

22 Cones says, Vol. I, p. 54, that nothing was sent back to the President, however, until April 7, 1805. This would be from Fort Mandan.—Editor.

23 It is hard to reconcile this astronomical observation with the other markings. Ten miles above the mouth of Platte River, past the mouth of the Mosquito Creek, would apparently place the camp where Cones says it was, "on or close to the boundary between Mills and Pottawattamie Cos." But 41° 8' 19" is some six miles south of the line between the two counties.—Editor.
This evening Guthrie caught a White Catfish, its eyes Small & tale much like that of a Dolphin. 25

White Catfish Camp 25th of July Wednesday—a fair morning Several hunters out to day, at 2 oClock Drewyer & Peter returned from the Otteau village, and informs that no Indians were at their towns, they saw Some fresh Signs of a Small party But Could not find them. in their rout to the Towns (which is about 18 miles West) they passed thro a open Prairie crossed Papillion or Butterfly Creek and a Small butfull river which run into the Plate a little below the Town called Corne de charf [corne de Cerf] or Elk Horn river this river is about 100 yards wide with Clear water & a gravelly Channel. wind from the S. E. two Deer killed to day 1 Turkey Several Grous* Seen to day.—

Catfish which is White Camp—26th of July Thursday 1804—the wind Blustering and hard from the South all day which blewed the clouds of Sand in Such a manner that I could not complete my pan [plan] in the tent, the Boat roled in Such a manner that I could do nothing in that, & was Compressed [compelled] to go to the woods and combat with the Musquetors, I opened the Tumer of a man on the left breast, wblcb discharged half a point [pint].

five Beaver Cough[t] near the Camp the flesh of which we made use of. This evening we found verry pleasant. only one Deer killed to day. The country back from Camp on the S. S. is a bottom of about five mile wide, one half the distance wood & the bals. plain high & Dry. The opposit Side a high Hill about 170 foot rock foundation Covd. with timber, back & below is a Plain. 26

White Catfish Camp 10 ms. above Platt 27th of July Friday,—a small Shower of rain this morning, at 10 oClock Commence Loading the Boat & perogue, had all the ores completely fixed; Swim over the two remaining horses to the L. S. with the view of the Hunters going on that Side, after getting evrything complete, we Set Sale under a gentle breeze from the South and proceeded on, passed a Island (formd. by a Pond fed by Springs) on the L. S. of high Land covered with timber, in the 2nd. bend to the right a large Sand Island in the river a high Prairie on the S. S. as we were Setting out to day one man Killed a Buck & another Cut his Knee verry bad. Camped in a Bend on the L. Side 29 in a cops [copse] of Trees, a verry agreeable Breeze from the N. W. this evening. I killed a Deer in the Prairie and found the Musquitos so thick & troublesom that it was disagreeable and painful to Continue a moment still.

26"These are the pinnated grouse, or prairie hen * * * * Tympa nuchus Americana."—Coues, Vol. I, p. 54.
29"Today's camp is on the west side of the river, in Douglas Co., Neb.; and if 15 miles were made, as said, the expedition is already past the present sites of Omaha, Neb., and Council Bluffs, la.—a point to be remembered in locating the 'Council-bluff' of our text."—Coues, Vol. I, p. 61.

\[36\]That is, Indian Knob Creek (Pigeon Creek) at that point flows within
twenty feet of the river, and is five feet higher than the river.—Editor.
\[37\]A map of Wisconsin and Iowa territories, traced from the Judson map
of 1835, and numerous other old maps in possession of the Historical Depart-
ment of Iowa, show the Boyer River as having its source in Boyer Lake, since
called Wall Lake, Sac County, Iowa. The fact, however, is Boyer River has
its source in the south part of Buena Vista County, flows south through Sac
County and passes some three miles west of Wall Lake and does not connect
with that lake, as it drains through Indian Creek into the Coon River. Boyer
River then flows on through Crawford and Harrison counties and the corner of
Puttawattamie before entering the Missouri. Cones says, Vol. I, p. 82, that the
Boyer River was explored by Thomas Say in 1820, during Major Long's ex-
one man in attempting to cross this Creek on a log let his gun fall in, 
R. Fields Dived & brought it up proceeded on to a Point on the S. S. 
and Camped.

petition. He also says, "Three miles above its mouth, across the Missouri, in what is now Washington Co., Neb., Major Long established himself Sep. 18, 1818, and named the place Engineer Cantonement, the latitude of which he determined to be 41° 23' 63.9". This spot was a half mile below a trading post called Fort Lisa * * *, and five miles below the Council-bluff of Lewis and Clark."

—Editor.

38This is the third camp they made on the Iowa side, and was nearly nine miles above the mouth of the Boyer River, and three miles below the place they landed next day and held council with the Indians. However, the windings of the river must be considered. These windings are shown by the "Course, Distance and Reference" table at the end of each day's journal, showing each day's travel, and published herewith. Concerning these windings of the river Coues in his edition of the journal says, Vol. I. pp. 62-3. "The Missouri is much more crooked since we passed the Platte, though generally speaking not so rapid; there is more of prairie, with less timber. * * *" This winding course and the character of the soil cause the river to frequently change its channel, so the exact position of the river in 1804 is in many places difficult to determine.—Editor.

40Thwaites, Vol. I. Part I. p. 94, gives this footnote: "This camp is quite near Fort Calhoun.—E. E. Blackman (of Nebraska State Historical Society)." Fort Calhoun is in the southeast part of Washington County, Nebraska. For further discussion of the location of this camp, see note 36.—Editor.
posted out our guard and sent out 4 men, Capt'n Lewis & [I] went up
the Bank and walked a Short Distance in the high Prairie this Prairie is
Covered with Grass of 10 or 12 inches in height, Soil of good quality &
at the Distance of about a mile still further back the Countrey rises
about 80 or 90 feet higher, and is one Continued Plain as far as Can
be seen, from the Bluff on the 2d. rise immediately above our Camp, the
most butifull prospect of the River up & Down and the Countrey Opsd.
prosected it Self which I ever beheld; The River meandering the open
and butifull Plains, interspursed with Groves of timber, and each point
Covered with Tall timber, Such as Willow Cotton sum Mulberry, Elm,
Sucamore Lynn & ash (The Groves contain Hickory, Walnut, Coffee nut
& Oake in addition) Two ranges of High Land parrellel to each other,
and from 4 to 10 Miles Distant, between which the river & its bottoms
are Contained. (from 70 to 300 feet high)

Joseph Fields Killed and brought in an anamale Called by the
French Brarow, and by the Panies Cho eav tooch this Anamale Bur-
rows in the Ground and feeds on Flesh, (Prairie Dogs) Bug & Vigatables'
"his Shape & Size is like that of a Beaver, his head mouth &c. is like
a Dogs with Short Ears, his Tail and Hair like that of a Ground Hog,
and longer; and lighter. his Internals like the internals of a Hog, his
Skin, thick and loose, his Belly is White and the Hair Short, a white
Streek from his nose to his Sholders. The toe nails of his fore feet is
one Inch & ¾ long, & feet large; the nails of his hind feet ¾ of an Inch
long, the hind feet Small and toes Crooked, his legs are short and when
he moves Just sufficient to raise his body above the Ground He is of
the Bear Species. We have his skin stuffed.

Jo, & R. Fields did not return this evening, Several men with very
bad Boils. Cat fish is caught in any part of the river Turkeys Geese
& a Beaver Killed & Cought every thing in prime order men in high
Spirits. a fair Still evening Great no. Musquitors this evening42

July 31st Tuesday—a fair Day three Hunters out, Took Meridian
altitude made the Lattd. 41°. 18'. 1" 5/10 N.43 R, & Jo. Fields re-
turned to Camp they Killed 3 Deer; The Horses Strayed off last night.
Drewyer Killed a Buck one inch of fat on the ribs, R. & Jo. Fields re-
turned without any meet having been in persuit of the horses. The
Indians not yet arrived. Cought a young Beaver alive which is already
quite tame. Cought a Buffalow fish. The evening very Cool, the
Musqu[il]tors are yet troublesom.44

August the 1st 1804—a fair morning Despatched two men after the
horses lost yesterday, one man back to the place from which the Mes-
singer was Sent for the Ottoes to see if any Indians was or had
been there sense our deptr he return'd and informed that no person
had been there Sence we left it. The Praire which is situated below

41Said by Thwaites (Vol. I, Part I, p. 95) to be a badger (Taxidea Americana).
43This observation was surely at fault. See note 56.—Editor.
our Camp is above the high water level and rich covered with Grass from 5 to 8 feet high interspersed with copse of Hazel, Plumbs, Currents (like those of the U. S.) Rasberries & Grapes of Dist. Kinds. also producing a variety of Plants and flowers not common in the United States, two Kind of honeysuckle one which grows to a kind of a Scrub Common about Harrodsburgh in Kentucky the other are not so large or tall and bears a flour in clusters short and of a light Pink colour, the leaves differ from any of the other Kinds in as much as the Lieves are destinet & does not surround the stalk as all other kind do.

One Elk and three Deer Killed to day also two Beever Cought
The wind rose at 10 oClock from the W. S. W. and blew a steady and agreeable Breeze all Day.

The Musquitoes very troublesome this evening in the bottom.

The Indians not yet arrived we fear Something amiss with our messenger or them.45

_August 2nd: Thursday 1804—a very pleasant Breeze from the S. E._
The Two men Drewyer & Colter returned with the horses loaded with Elk, those horses they found about 12 miles in a Southerly Derection from Camp.

The Country thro which they passed is Similar to what we see from Camp. one Beaver & a foot [of Beaver caught in trap] Cought this morning

_at Sunset Mr. Fairfong (Ottos interpreter resident with them) and a pt. of Otteau & Missourie Nation Came to Camp, among those Indians 6 were Chiefs, (not the principal Chiefs) Capt. Lewis & myself met those Indians & informed them we were glad to see them, and would speak to them tomorrow, Sent them Some roasted meat, Pork flour & meal, in return they sent us Water millions. every man on his Guard & ready for any thing._

Three fat Bucks Killed this evening, the 4 qrs. of one weighed 147 lbs.46

_August 3rd Friday 1804—Mad up a Small present for those people in perpotion to their Consiquence, also a package with a Meadle to accompany a Speech for the Grand Chief after Brackfast we collected those Indians under an owning of our Main Sail, in presence of our Party paraded & Delivered a long Speech to them expressive of our journey the wishes of our Government, Some advice to them and Directions how they were to conduct themselves. The principal Chief for the Nation being absent, we Sent him the Speech flag Meadel & Some Cloathes. after hering what they had to say Delivered a Medal of Second Grade to one for the Ottos & one for the Missourie and present 4 medals of a third Grade to the inferior chiefs two for each tribe.47 (Those two parts

47Thwaites, Vol. I. Part I. p. 97, quotes Biddle to the effect that the customary mode of recognizing a chief was to place a medal around his neck, which is considered among his tribe as a proof of his consideration abroad.—Editor.
LEWIS AND CLARK EXPEDITION

of nations Ottos & Missouries now residing together is about 250 men
the Ottos composing % and Missouris % part)

The names of the Chiefs made [we acknowledged] this day are as follows viz:

These Chiefs all Delivered a Speech, acknowledging their approbation to the Speech and promising to pursue the advice & Directions given them that they were happy to find that they had fathers which might be depended on &c.

We gave them a Cannister of Powder and a Bottle of Whiskey and delivered a few presents to the whole, after giving a Br. Cth. [Breech Cloth] some Paint quartering & a Meadell to those we made Chiefs, after Capt. Lewis's Shooting the air gun a few Shots (which astonished those natives) we Set out and proceeded on five miles on a Direct line passed a point on the S. S. & around a large Sand bar on the L. S. & Camped on the upper point, the Misquitors excessively troublesome this evening. Great appearance of wind and rain to the N. W. we prepare to rec've it. The man Liberty whom we Sent for the Ottos has not Come up he left the Ottos Town one Day before the Indians. This man has either tired his horse or, lost himself in the Plains Some Indians are to hunt for him.

The Situation of our last Camp Council Bluffs or Handsome Prairie, 48

48This camp was on the Nebraska side. See Coues, Vol. I, p. 60.

This Frenchman, Liberty, also mentioned in the journal of July 29, and of August 6, August 7, and August 17, never returned to them.—Editor.

49The location of this camp where Lewis and Clark held the famous council with the Indians, has been a subject of some controversy. The astronomical observation made on July 31, and recorded in the journal, 41° 18' 1 3/10" is surely at fault. All the other evidence shows the location to be in the southeast part of what is now Washington County, Nebraska. The journal shows the expedition to be thirteen miles above the mouth of Pigeon Creek and eight miles above the mouth of Boyer River. Old maps (see American Atlas, published in 1822, by H. C. Carey and I. Lea, of Philadelphia) show this place, Council Bluff, on the west side of the river and at about the above indicated number of miles above the mouths of those streams, while Mr. Blackman, of the Nebraska State Historical Society, already quoted in note 40, says the camp was near Fort Calhoun, which is in the southeast part of Washington County, Nebraska. Then (see note 37) Major Long's observation at a point a little below this, and named Engineer Cantonement, which place is shown on the old maps, was 41° 25' 03.9". It looks like the true location of the camp at Council Bluff was nearer 41° 28' than 41° 18'. Concerning the variations of the observations made by Captain Lewis and the latitude as now shown on the maps, note the following from Mr. George E. Oliver, Civil Engineer of Onawa, Iowa, in a letter to the Historical Department of Iowa, dated February 13, 1922:

I have noticed that the observations of the expedition do not check with those shown on present maps, but I can see where there could be a variation of a few minutes. Note then in a few instances where observations are shown that there has been a correction to apply. Possibly they did not show in their
(25 Days from this to Santa Fe) appears to be a very proper place for a Trading establishment & fortification. The Soil of the Bluff well adapted for Brick, Great deal of timber above in the two Points—many other advantages of a small nature. and I am told Senteral to Several nations viz. one Days march from the Ottoc Town, one Day & a half from the great Pania village, 2 days from the Mahar Towns, two 1/4 Days from the Loups village, & convenient to the Country thro: which Bands of the Soux [rove §] hunt. perhaps no other Situation is as well Calculated for a Trading establishment.

The air is pure and helthy so far as we can judge.

Course of Augt. 3rd. 
N. 5° E 5 Ms. to a pt. on L. S. psd. a pt. on the S. S. & a Sand bar L. S. 51

August 4th Saturday—Set out early. (at 7 oClock last night we had a violent wind from the N. W. Some little rain succeeded, the wind lasted with violence for one hour after the wind it was clear screen and cool all night,) proceeded on passed thro between Snags which was quit across the River the Channel confined within 200 yards one side [S. S.] a Sand pt. the other a Bend, the Banks washing away & trees falling in constantly for 1 mile, above this place is the remains of an old Trading establishment L. S. where Petr. Crusett one of our hands stayed two years & traded with the Mahars a Short distance above is a Creek (3) the out let of three Ponds, comunicating with each other, those Ponds or rether Lakes are fed by Springs & Small runs from the hills. (2) a large Sand Island opposit this Creek, Makeing out from the L. Point, from the Camp of last night to this Creek, the river has latterly changed its bed incroaching on the L. Side, on this Sand bar I saw great nos. of wild gees passed a small creek on the L. S. about 3 miles above this Creek's are out lets from the Small Lake which re[c]ive their water from the Small Streems running from the high land. great many Pumey stones on the Shore of various sises the wind blew hard. Reed a man who went back to camp for his knife has not joined us. we camped at a Beaver house on the L. S. one Buck Killed to day.

Course Distance & refs. 4th August 1804
S. 80° W. 1/2 Ms. to an old Trading House on the L. S. passed a Sd. pt. from S. S. (1)

notes every instance where this correction was necessary, or maybe at the time Dr. Coues made his copy the figures for the correction in the original MSS. were not legible. Try the following:

"Take the latitude of the Little Sioux River and Blackbird Hill as shown by the observations of the explorers and compute the distance between them and then compare this distance to that as shown on the present maps and you will notice that it checks very closely, thus denoting that the coefficient of error in these cases was almost constant and was probably due to their sextant being out of adjustment. Possibly they did not make correction for the index error of the sextant."—Editor.

here the high Land is Some Distance from the river on both Sides, and at this place the high lands are at least 12 or 15 miles a part, the range of high land on the S. S. appear to contain Some timber. that on the L. S. appear to be entirely clear of any thing but what is common in an open Plain, Some Scattering timber or wood is to be seen in the revcnn, and where the Creeks pass into the Hill. the points and wet lands contain tall timber back of the willows which is generally situated back of a large Sand bar from the Points.52

5th of August Sunday 1804—Set out early great appearance of wind and rain (I have observed that Thunder & lightning is not as common in this Country as it is in the atlantic States) Snakes are not plenty, one was killed to day large and resembling the rattle Snake, only something lighter. I walked on Shore this evening S. S. in Pursuing Some turkeys I struck the river twelve miles below within 370 yards, the high water passes thro' this Peninsula, and agreeable to the customary changes of the river, I condl [should calculate] that in two years the main current of the river will pass through. In every bend the banks are falling in from the current being thrown against those bends by the Sand points which inlarges and the Soil I believe from unquestionable appears of the entire Bottom from one hill to the other being the Mud or Ooze of the river at Some former Period mixed with Sand and Clay easily melts and Slips into the River, and the mud mixes with the water & the Sand is washed down and lodges on the points. Great quantities of Grapes on the banks, I observe three different kinds at this time ripe, one of the no. is large & has the flavor of the Purple grape, camped on the S. S. the Musquitors very troublesome. The man who went back after his knife has not yet come up, we have some reasons to believe he has Deserted.

9th August Thursday 1804—The fog being thick detained us until half passd. 7 oClock at which time we Set out and proceeded on under Gentle Breeze from the S. E.63 I walked on Shore, Saw an Elk, crossed

61This camp was just within the southwest corner of Monona County (see Coupes, Vol. I. p. 76). We have in our possession a map of the west part of Monona County made by George E. Oliver, a civil engineer, of Onawa, and presented by him to this department. It is a copy of a map made by Mitchell Vincent in 1894, corrected by later surveys. This map is reproduced as an illustration in this edition of the ANNALS. It shows the course of the Missouri River in 1804 and the camping sites of the Lewis and Clark party. Both Mr. Vincent and Mr. Oliver had the advantage of the formal notes and courses of the Lewis and Clark expedition, furnished by Dr. Elliott Coupes, and both studied the surface of the ground and the abandoned river beds. With the exception that it appears to us that the camp of August 8 should be placed on the east bank (see the journal as shown above given by Thwailes, and see Coupes, Vol. I. p. 79), this map is perhaps as nearly correct as is possible to make, and is a valuable contribution to the history of the expedition.—Editor.

63Coupes says, Vol. I, p. 71, "After passing two sand-bars we reached, at 7½ miles, a point of high land on the left, near which the river has forced itself a channel across a peninsula, leaving on the right a circuit of twelve or eighteen miles, which is now recognized by the ponds and islands it contains. The hills are at a great distance from the river for the last several days; the land on both sides is low, and covered with cottonwood and abundance of grapevines."
Map of Monona County, Iowa, showing the camping sites of the Lewis and Clark Expedition, 1804, made from Lewis and Clark's notes by Mitchell Vincent in 1894, revised by George E. Oliver in 1921. Footnote 61.

the Musquitoes verry troublesom, Great Nos. of Herrons. this evening.

I have observed a number of places where the River has onced run and now filled, or filling up & growing with willows & Cottonwood. 72

12th August, Sunday 1804—Set out early under a gentle Breeze from the South the river wider than usual and Shallow

(1) at 12 oClock we halted to take a meridean alt. of the Sun & Sent a man back or I may Say across to the Bend of the river where Capt. Lewis took the Mdn. altitude yesterday, to Step off the distance, he made it 974 yards across, the Distance around the bend is 18¾ miles. about 4 miles above this bend on the L. S. is the Commencement of a Bluff which is about 4 miles extending on the river, of yellow and brown Clay in Some parts in it near the water a Soft Sand Stone is imbeded on the top (which is from 20 to 150 feet above the water, & rises back) is Covered with timber, a flew red Cecedor is on this Bluff, the wind comes round to the S. E. a Prairie Wolf come near the bank and Barked at us this evening, we made an attempt but could not git him, the animale Barkes like a large fierce Dog. Deever is verry Plenty on this part of the river. I prepare Some presents for to give the Indians of the Mahars Nation. Wiser apt. Cook & Superintdt. of the Provisions of Sergt. Floyds Squad. We Camped on a Sand Island in a bend to the S. S. 73 Musquitoes verry troublesom untill the wind rose. at one or 2 oClock.

Course Distance &c. August 12th.

N. 45° W. 1½ Ms. to a pt. of willows on the L. S.

S. 42° W. ½ Mi. to a Sand on the L. point

---

71Coutes here makes the journal say they camped on the “north side,” which means to us the east side, as they considered the general direction of the river course to be from west to east. This camp is placed by Coutes near the present Badger Lake, and by the Vincent-Oliver map on the northeast corner of Badger Lake, which is a part of the old river channel. The location is three miles west and two miles north of the town of Whiting.—Editor.

73Coutes says, Vol. I. p. 73, “Apparently just over the border of Woodbury Co., Ia., and near a lake marked on some maps Crooked lake. But there is now no such bend in the river as the text described, and the point cannot be located exactly.”

we formed a Camp on a Sand bar on the L. S. & Detached Sergt. Ordeway Peter Crusatt, George Shannon. Werner & Carrn. [Carson—Ed.] to the Mahar Village with a flag & Some Tobacco to invite the Nation to see & talk with us on tomorrow, we took some Luner observation this evening, the air Pleasant.

14th August Tuesday 1804—a fine morning wind from the S. E. The men Sent to the Mahar Town last evening has not returned we Conclude to send a Spye to Know the Cause of their delay, at about 12

75Coues, Vol. I, p. 74, locates this camp "very nearly opposite the present site of Onadi, in Dakota Co., Neb., and not far from a creek of the same name."
76Coues, Vol. I, p. 74, says the different variations of the name of these Indians were Mahas, Mahar, Maha, La Mar, and Omaha, and that "they are a tribe of the great Siouxan family." He says this village was in Dakota County, Nebraska, a little south of Dakota City.—Editor.
78Coues says, Vol. I, p. 75, that Sergeant Ordway and his party found the trip "very fatiguing, as they were forced to break their way through grass, sunflowers, and thistles, all above ten feet high and interspersed with wild pea."
oClock the Party returned and informed us that they could not find the Indians, nor any fresh sign, those people have not returned from their Buffalo hunt. Those people having no houses no corn or anything more than the graves of their ancestors to attach them to the old village, continue in pursuit of the Buffalo longer than others who has greater attachments to their native village. The ravages of the Small Pox (which swept off [about 4 years ago] 400 men & Womans & children in peroporation) has reduced this nation not exceeding 300 men and left them to the insults of their weaker neighbours, which before was glad to be on friendly terms with them. I am told when this fatal malady was among them they carried their frenzy to very extraordinary length, not only of burning their Village, but they put their wives & children to death with a view of their all going together to some better country. They bury their dead on the top of high hills and raise mounds on the top of them. The cause or way those people took the Small Pox is uncertain, the most probable, from some other nation by means of a warparty.

August 15th, Wednesday, 1804. Camp three miles N. E. of the Mahar Village. I went with ten men to a creek dammed by the Beavers about half way to the Village, with some small Willows & bark we made a drag and hauled up the creek, and caught 318 fish of different kind i. e. Pike, Bass, Salmon, perch, red horse, small cat, and a kind of perch called Silver fish, on the Ohio. I caught a Shrimp precisely of shape size & flavour of those about N. Orleans & the lower part of the Mississippi in this creek which is only the pass or strait from (one—Ed.) Beaver Pond to another, is crowded with large mussels very fat, Ducks, plover of different kinds are on those ponds as well as on the river. In my absence Capt. Lewis sent Mr. Durione the Sioux interpreter & three men to examine a fire which threw up an emence smoke from the praries on the NE side of the river and at no great distance from Camp. the object of this party was to find some bands of Sioux which the intpr. thought was near the smoke and get them to come in. In the evening this party returned and informed, that the fire arose from some trees which had been left burning by a small party of Sioux, who had passed [by that place] several days, the wind setting from that point, blew the smoke from that pt. over our camp. our party all in health and spirits. The men sent to the ottoes & in pursuit of the deserter Reed has not yet returned or joined our party.

16th August Thursday 1804. Fishing Camp 3 Ms. N. E. of the Mahar. A very cool morning the wind as usual from the NW. Cap. Lewis took 12 men and went to the Pond & creek between camp and the old village and caught upwards of 800 fine fish, 79 Pike, 8 salmon resembling Trout [8 fish resemble salmon trout] 1 Rock, 1 flat back, 127 Buffalo

[80] Coues, Vol. I, p. 75, gives the observation the party made here as showing latitude 42° 18' 41".—Editor.
& red horse 4 Bass & 493 Cats, with many Small Silver fish. (& Srimp)
I had a Mast made and fixed to the Boat today, the Party Sent to
the ottoes not yet joined us. the wind shifted around to the S. E.
evrry evening a Breeze rises which blows off the Musquitoes & cools
the atmispere.82

17th August Friday 1804.—a fine morning the wind from the S. E.
I collected a grass much resembling Wheet in its growth the grain like
Rye, also Some resembling Rye & Barly. a kind of Timothey, the Seed
which branches from the main Stalk & is more like a flax Seed than
that of Timothey.

at 6 oClock this evening Labieche one of the Party sent to the Ottoes
joined, and informed that the Party was behind with one of the De-
serters M. B. Reed and the 3 principal Chiefs of the Nations. La Liberty
they caught but he decived them and got away. the object of those
Chiefs comencing forward is to make a peace with the Mahars thro: us.
as the Mahars are not at home this great Object cannot be accomplished
at this time. Set the Praries on fire to bring the Mahars & Soues if
any were near, this being the usual Signal.

a cool evening two Beaver caught to day.83

18th August, Sat'day 1804.—a fine morning. Wind from the S. E.
in the after part of the Day the Party with the Indians arrivd. we
meet them under a Shade near the Boat and after a Short talk we gave
them Provisions to eat & proceeded to the trial of Reed, he confessed
that he "Deserted & stold a public Rifle Shot-pouch Powder & Ball"
and requested we would be as favourable with him as we Could consis-
tantly with our Oathes—which we were and only Sentenced him to
run the Gantlet four times through the Party & that each man with
9 Swichies Should punish him and for him not to be considered in
future as one of the Party. The three principal Chiefs petitioned for
Pardin for this man after we explained the injurey such men could doe
dem by false representations, & expaln'g the Customs of our Countrey
they were all Satisfied with the propriety of the Sentence & was Wit-
ness to the punishment. after which we had Some talk with the Chiefs
about the orrigan of the war between them & the Mahars &c &c. It
Commenced in this way in two of the Missouries Tribes residing with the
Ottoes went to the Mahars to steel horses, the Killed them both which
was a cause of revenge on the part of the Missouris & Ottoes, they
also brought war on themselves Nearly in the same way with the Pania
Loups, and they are greatly in fear of a just revenge from the Panies84
for taking their Corn from the Pania Towns in their absence hunting
this Summer. Cap L. Birth day the evening was closed with an extra
gill of whiskey and a Dance untill 11 oClock.85

19th August Sunday 1804—a fine morning wind from the S. E. prepared a Small Present for the Chiefs and Warriors present. the main chief Brackfast with us & beged for a Sun glass, those People are all naked, Covered only with Breech Clouts Blankets or Buffalow Roabes, the flesh Side Painted of Different colours and figures. At 10 o Clock we assembled the Chiefs and warriors 9 in number under an owning, and Cap. Lewis [we] explaind the Speech Sent to the Nation from the Council Bluffs by Mr. Faufon. The 3 Chiefs and all the men or warriors made short Speecches approving the advice & Council their great father had Sent them, and concluded by giving themselves some Credit for their acts.

We then brought out the presents and exchanged the Big horses Meadel and gave him one equal to the one Sent to the Little Thief & gave all Some Small articles & 8 Carrots of Tobacco, we gave one Small Meadel to one of the Chiefs and a Sertificate to the others of their good intentions.

Names.
The Little Thief Grd. Chiefs I have mentioned before.
The Big Horse
Crowes Head (or) Kar Ka paha—Missory
Black Cat (or) Ne na Sa we—do
Iron Eyes (or) Sar na no no—Ottoe
Big Ax (or) Nee Swar Unja—do
Big Blue Eyes— Star gea Hun ja do
Brave Man (or) War sar Sha Co

one of those Indians after receiving his Certificate delivd. it again to me the Big blue eyes the Chief petitioned for the Ctft. again, we would not give the Certft., but rebuked them verry roughly for having in object goods and not peace with their neighbours. this language they did not like at first, but at length all petitioned for us to give back the Certificate to the Big blue eyes he came forward and made a plausible excuse, I then gave the Certificate [to] the Great Chief to bestow it to the most Worthy, they gave it to him, we then gave them a Dram and broke up the Council, the Chiefs requested we would not leave them this side. The captains carried with them a large number of 'Indian Commissions,' or certificates, on printed blanks measuring 7½x12½ inches, which they would fill out with the chiefs' names. These read as follows:

THOMAS JEFFERSON, PRESIDENT OF THE UNITED STATES OF AMERICA.

From the powers vested in us and by the above authority: To all who shall see these presents, Greeting:

Know Ye, that from the special confidence reposed by us in the sincere and unalterable attachment of chief of the Nation to the United States, as also from the abundant proofs given by him of his amicable disposition to cultivate peace, harmony, and good neighbourhood with the said States, and the citizens of the same; we do by the authority vested in us, require and charge, all citizens of the United States, all Indian Nations, in treaty with the same, and all other persons whomsoever, to acknowledge, and treat the said and his in the most friendly manner, declaring him to be the friend and ally of the said States; the government of which will at all times be extended to their protection, so long as they do acknowledge the authority of the same.

Having signed with our hands and affixed our seals this day of 180—Thwaites, Vol. I, Part I, p. 115.
evening we determined to Set out early in the morning we Showed them many Curiosities and the air gun which they were much astonished at. those people beged much for Whiskey. Sergeant Floyd is taken very bad all at once with a Bilose Chorlick we attempt to relieve him without success as yet, he gets worst and we are much allarm'd at his Situation, all [give] attention to him.57

20th August Monday 1804.—Sergeant Floyd much weaker and no better. Made Mr. Faufonn the interpreter a few presents, and the Indians a Canister of Whiskey We Set out under a gentle breeze from the S. E and proceeded on very well. Sergeant Floyd as bad as he can be no pulse & nothing will Stay a moment on his Stomach or bowels. Passed two Islands on the S. S. and at the first Bluff on the S. S. Serj. Floyd Died with a great deal of Composure, before his death he Said to me, “I am going away” I want you to write me a letter.” We buried him on the top of the bluff ½ Mile below a Small river to which we Gave his name, he was buried with the Honors of War much lamented, a Seeder post with the (1) Name Sergt. C. Floyd died here 20th of august 1804 was fixed at the head of his grave.58 This Man at all times gave us proofs of his firmness and Determined resolution to doe Service to his Country and honor to himself after paying all the honor to our Deceased brother we camped in the Mouth of floyds River about 300 yards wide, a butifulfull evening.

21st August Tuesday 1804.—We Set out very early this morning and proceeded on under a gentle Breeze from the S. E. passed Willow Creek59 Small on the S. S. below a Bluff of about 170 feet high and one ½ Mls. above Floyds River at 1½ Miles higher & above the Bluff passed the Sowes River S. S. this River is about the Size of Grand

58“The journal kept by Sergeant Floyd (which will be published in full in the present work) ends abruptly on August 18. He was buried at a spot which is now in the southern part of Sioux City, In. The inroads of the Missouri River having partly washed away Floyd’s grave, his remains were reburied (May 28, 1857) in a safer place, some 200 yards back of the original grave: and on Aug. 20, 1893, the spot was marked with a slab. A monumental shaft to his memory was erected May 20, 1901. See Reports of Floyd Memorial Association (Sioux City, 1897, 1901).”—Thwaites, Vol. I. Part I, p. 114.
60Coues, Vol. I, p. 81, says this is now called Perry Creek, and that this bluff marks the present site of Sioux City.
THE FLOYD MONUMENT
Erected near Sioux City and Dedicated May 30, 1901
LEWIS AND CLARK EXPEDITION

river and as Mr. Durrien our Sques intpr. says "is navagable to the
tails 70 or 80 Leagues and above these tails Still further, those tails
are 20 feet or there abouts and has two princepal pitches, and heads
with the St. peters [now Minnesota River—Ed.] passing the head of
the Demoin, on the right below the tails a Creek coms in which passes
tho Cliffs of red rock which the Indians make pipes of, and when
the different “nations meet at those quarries all is peace.” [a sort of asy-
lum for all nations, no fightg there] passed a place in a Prarie on the
L. S. where the Mahars had a Village formerly.

We have now completed the purpose of these articles, namely,
to show the inception and organization of this great expedition,
and to set out in detail its progress along the western boundary
of what is now Iowa.

The whole story of the trip abounds in interest. They spent
the winter of 1804-5 with the Mandan Indians at Fort Mandan,
some thirty miles above where Bismarck is now located. The
season of 1805 they ascended the Missouri to its source and went
down the Columbia and spent the winter of 1805-6 near the
mouth of the Columbia River. In March, 1806, they began their
return trip, going up the Columbia, and re-crossing the moun-
tains. Here the party divided for a time, some going down the
Yellowstone and some down the Missouri. The party was re-
united below the mouth of the Yellowstone on August 12, 1806.
Their trip down the Missouri was made quite rapidly. On
September 4 they reached the mouth of the Big Sioux River,
visited the grave of Sergeant Floyd, which they found had been
opened by the Indians. They refilled it and passed on. Some
days by help of the current, and their sails and oars, they made
as much as seventy miles. By September 9 they had passed
what is now the southwest corner of Iowa, being only five days in
traversing what took them on their upstream trip over a month.
On September 21 they reached St. Charles where they were re-
ceived with great hospitality by the inhabitants. On September
23, 1806, these travel weary explorers reached St. Louis and,
“having fired a salute, went on shore and received most hospitable
welcome from the whole village.”

91”The celebarted ‘Red Pipestone Quarrry’ in Pipestone County, S. W. Min-
nesota; it was first described by George Catlin, who visited it in 1836; the
stone (a red quartzite) was named in honor of him, ‘culminate.’ See his N. Amer
The stone is even yet worked, although in crude fashion, by the Sipux In-

Thus ended the great expedition. The actual distance traveled, including the side trips, was about 8,000 miles. This cost but one life, that of Sergeant Floyd, "and was done without another serious casualty, though often with great hardship, sometimes much suffering, and occasional imminent peril." The comparatively youthful captains developed the qualities of ideal leaders, resourceful, vigilant, and brave, and the information they secured concerning the Northwest was of great value to their country.

\[92\text{Cones, Vol. I, p. V.}\]

---

**IT'S HARD UPON US**

Cold weather has come at last. Stoves are passing to and fro in every direction. Wood is snatched at a good round price, after it reaches the city; and sometimes from private woodyards, without waiting to enquire the price. Overcoats are in good demand; fires are comfortable; health is improving; spirits are reviving; business increasing; mortality among the Brussel gentry daily expected. Dress warm, and prevent bad colds. Stop up the cracks in the house, and prevent the old women from scolding. Keep good fires, and prevent the squalling of the young ones. Go ahead; who cares for consequences?—*Weekly Miner's Express*, Dubuque, Iowa, October 27, 1847. (In the newspaper collection of the Historical Department of Iowa.)

---

**DEATH OF MAJOR MILLS**

It is with extreme regret that we announce the death of our friend, Maj. F. D. Mills, of [Burlington] Iowa, on the field of battle, before the city of Mexico. He was a young gentleman of the highest order of talents and one of the very first legal men of the state. The news of his death is eminently calculated to mingle sorrow with the rejoicings of the people of Iowa, in view of the late brilliant victory.—*Weekly Miner's Express*, Dubuque, Iowa, September 29, 1847. (In the newspaper collection of the Historical Department of Iowa.)
