tion speach & the Col made a short & verry apropiate respond in
presence of Geni Rice & his staff one lady was present on horse back
in the square

March 23. Early in the morning we packed up & prepared for our
march at 9 Oe A M we formed on our parade ground & marched out
on our Drill ground by the St John Hospital & formed the brigade &
at ½ past 10 Oe A M we started & marched out on the Benton Road
some 12 miles through a poor stoney desolate country & camped at 4
Oe on Fouch Bayou on the Howard plantation it is desolate & ruined
we passed through Genl Fagans plantation the land, stone, gravel &
some of the timber is there but all the buildings fences bricks that ware
in his residence all like himself are absent from home. The rebs made
a dash on our Pickets at this place last night killed 2 & took 2 or 3
prisoners & some 12 or 15 horses, we do not know what damage they
received.

March 24. At 8 Oe A M we started from camp on Fouch Bayou &
marched through a poor sandy & gravelly country, passed through Ben-
ton the County Seat of Saline County & halted for the night on Saline
river about 2 miles south west of Benton & some 32 miles from Little
Rock, we are camped on grounds where the Rebs have been camped
from the signs; the First Iowa Cav captured a Reb Scout & male
carrier at Benton, he was dressed in Federal uniform there was a small
Reb force at Benton but they fled on the aproach of our men, we stoped
about 5 Oe clock evening, & one of our Pickets was shot & killed by the
Rebs before dark Benton is a small delapadated looking place, there is
a small fortification there throughed up by our folks & then abandoned
it from appearance has been a town of 4 or 5 hundred inhabitants, but
now perhaps 100 & not more the Court House is a 2 story brick about
40 ft square & roofed from each side up to the center & then a bal-
coney, there are some 3 or 4 small one story brick houses in the place &
some 3 two story frames the other buildings are one story frame & log.
Some of the riges over which we came today are red sand almost as red
as good brick.

March 25. At 8 Oe A. M. we started from our bivouack on Saline
River & marched through the swamps & mud on the bottom, after
crossing the river, on a tree that the Pioneers fell across the river it
was about 40 or 45 ft wide where we crossed it & the teams all &
artillery forded it was some wider where they forded & was about two
feet deep the river is verry low, it is about 75 yds between its second
banks, the land over which we marched is poor, after we got off ove
the bottom the land was a stickecy yellow clay & verry hard traveling in
We Bivyacked in a thicket of pines & jack Oaks at 3½ Oe P M hung

out our blankets to dry & enjoyed ourselves finely the advance ware fired on by a Co of Rebs about noon but no one was hurt, they captured 2 of the Rebs & killed three of them & burnt the cotton gin & buildings where the Rebs ware the country is literally deserted

March 26. At 8 Oc A. M we formed in line on our sleeping ground & started on our march from Brush Creek a small branch on which we Bivouacked & we arrived at Rock port, on the Ouachita River at 3½ Oc this river is about one hundred yds wide & at times navigable for small boats to this place it is now fordable here, a natural curiosity here from which this place takes its name, is a large white & gray flint Rock, through which to all appearance the river has cut a channel some 30 or 35 yds wide from this side the Rock extends out half way across the river & it extends in a short distance from the opposite side, & they run back in the main land & are nearly if not quite high enough for abutments for a bridge & the citizens say there was once a bridge built across on them, on this side a house stands on the rock, this is the county Seat of Hot Springs Co & about 22 miles South of them & has perhaps had a population of some three hundred, but is now almost entirely deserted, & is truly a rickety desolate looking place, with perhaps not to exceed four to six families now in it & they are too poor to get away, there is a two story Brick Court house 40 ft square roofed from each side & a belfry on the center. The stories are, lower one about 9 feet & upper one about 10 feet & there are four fire places above & four below The houses of the town are of frame & log small & with the exception of 2 or 3 are one story & I think none of them have been painted the town is on a high sand & gravel ridge & surrounded with timber & we are bivouacked in a pine groove at its edge. The road over which we came this day is mostly sand & gravel & the Country very poor & almost entirely deserted; our advance ware fired on across the River when they came into this place by a band of Rebs but no harm done them they took four Rebs here.

Sunday, March 27. The army commenced to move early the teams all & artillery forded the Ouachita about one mile below Rock Port the water in the deepest place there came only to the bottom of the hind axletrees the river there was about 150 yds wide & the Infty crossed on our Pontoon bridge it was noon by the time our Regt got to start & soon as we crossed the river the 4 companies on the left ware detained as a rear guard, & it was some time after dark when the Pontoon was loaded up & started, & it was after 10 Oc night when we got into camp we got our supper & spread our blankets before 11 Oc, it was then perfectly clear & by midnight it was poring down rain and lightning, we had to get up take our gun blankets from the ground & spread them on the top of our other blankets, but soon the water was raising under us & we had to get up out of it, this ended a Sabbath in which many solemn thoughts & deep sighs have prevailed my breast. It was five years ago this afternoon & it too was the Sabbath when the best temporal gift of God to me took to himself the wife of my bosom.
fell asleep in Jesus & never can I forget her triumphant death. Oh how sad the years have been to me. I have also suffered very severely the last 48 hours with neuralgla in my face & teeth. Our advance had a little skirmish this day but suffered no loss. They killed one Reb Capt & took some 4 prisoners, there was three Rebs came into Rock Port & gave themselves up.

March 28. At about 1 Oc morning we had to get up out of the water that arose about & under us; built large rail fires & dried our cloths some; One of the men of the 2nd Mo Battery was found dead with his thought cut the wind pipe cut off, he was near the head of our Regt & it is believed he killed himself, a raisor with blood on was found in his pocket. At 6 Oc A M our Regt started our march in the mud again & marched through a poor sandy gravely broken pine country & bivacked on George Greens place on Bayou Debel & Ouachita junction at 4 Oc P M the advance had a little skirmishing with no loss on our side they killed 2 Rebs & took 3 or 4 Prisoners. About 3 Oc we passed the plantation of — Morrison it is a nice place & the only one I have seen this side Little Rock that I could be induced to live on he has run to Texas with his family & Negrows & two widows live on the place.

March 29. At 7 Oc A M we started from our camp at the junction of Bayou Debel & Ouachita River & arrived at Arkadelphia County Seat of Clark Co. on the Ouachita River at 3 Oc P M this is a pleasant village; here we captured some 50 kegs of powder & four rifled 6 pound guns, but they were spiked & plugged, the advance had a little skirmish with the Rebs but I believe none was hurt on either side we captured some Rebs & among them one a bearer of dispatches from Genl Fagan. The Country as we see it is distressed in appearance the most of the places deserted we crossed, about 10 Oc a rocky stream called Bayou Derouch & about 12½ Oc we crossed a good mill stream called Cadow from that to this city the Country has some better appearance than any we have seen in Ark in this City there was a Reb Arsinel & quite a place for the manufacturer of Powder but they have all been destroyed, there are Salt works on the opposite bank of the river here This City they say contained some fifteen hundred inhabitants before the war & they say now the population is about two hundred & fifty & not to exceed 20 men & they mostly invidlees or old women & children constitute the present population, with a few slave women.

March 30. We remained at Arkadelphia this day, & I took a ramble through the place there are 3 churches one a very nice one storey brick belonging to the Presbyterians the Baptist & M E Church South each frame & the Staple for Methodist Church is making an effort to secede from the main building the roof having parted most of the way, the residence of the Reb Governor Flanigan is here, & now Occupied as the blind asylum with only one blind person a man perhaps 22 years old his mother is with him, the Governors house is a one storey frame with two small rooms he has found it convenient to leave home with his family, as most of the other nobility have, & there is not one article of
goods, tea, coffee, sugar tobacco, or anything else in the city to sell; & the remaining inhabitants say that starvation stares them now full in the face. the store rooms are all open & vacated, some of them nicely finished rooms, there are some nicely finished store rooms but they are empty others owners gone

March 31. At 3 Oc P. M. I took charge of the Picket Guards of Our Reg & marched out to the line, & relieved a Lieut of the 43 Indiana Infty, I Stationed my centinals & reconnoitered the line which was on the bluffs of the Ouachita just above the City of Arkadelphia those hills are gravel & sand, of the appearance of a sea shore, one Reb Soldier came to the line & gave himself up I delivered him to Swarts assistant Provo martial.

April 1. At 6 Oc A M Capt Hale Officer of the day came out to my Picket line & Ordered me to have my men get ready & at 7 Oc A M to leave the line & report my Pickets to the Regt to march, & at 9 Oc Our Regt was in motion we ware distributed among the Supply traine as guards at 10 Oc we ware halted & orders to load our guns the day passed without us seeing any Rebs that we knew to be such & at 6 Oc P M we Bivouacked at Spoonville some 12 miles from Arkadelphia this village contains two houses & at present one family; the Country we passed in the forenoon is verry poor sand & gravel land afternoon the land was of a much better quality & but little pine timber to be seen we passed a few good plantations & one large field of cotton not picked.

April 2. We left our camp at Spoonville at 6 Oc A M our Brigade in the advance & we marched some 20 odd miles over the best country by far that we have seen since we left Little Rock & we arived at the Little Mo River & crossed at Elkinford & Bivouacked on the South bank of the river; the main body of the Army remained on the west side in the heaviest grove of Holly timber that I have even seen, & a rich bottom on both sides but no house within a mile of the ford, there has not been any pine timber in sight this day except an occasional tree & we have passed some fine plantations but no signs of taste or enterprise about the residences, there was an attack in front on our Cavelry on the Washington Road near Antwine a village some 10 or 12 miles from Spoonville on the Washington road but we took the Camden road about ½ way between these places & came by the way of Okolona a village of some 5 houses & 1 blacksmith shop some 5 or 6 miles from this ford. The attack above referred to was made by Cabell Commanding the Rebs & our loss was one killed 2 wounded & 1 missing of the 1st Iowa Cav. & in our rear Genl Shelby attacked our train with a heavy force & the 29th Iowa lost in killed 2 wounded & missing about 20 but the traine was all saved

Sunday, April 3. At 7 Oc was ordered to go in charge with other Officers of men from the 43rd Indiana & the 36th Iowa a forageing we got some Baken & about 30 small hogs & returned to camp by 1 Oc P. M. & there was then some skirmishing in front & we ware at once or-
dered in line & companies A, D & G marched out but the cavalry drove the rebs back & at 4 Oc we were Ordered back to camp & about 5 Oc a few more guns were fired & we three Companies were ordered again to the front Our Capt being Officer of the day I was in command of our Co, but we found no enemy we were posted by Lieut Col F M Drake & we spread our blankets & laid on our arms for the night. This day one of Co E who died yesterday in the Ambulance on the road, & one of Co D that died this morning both were buried in one lonesome grave on the South bank of the Little Mo river, just above Elkin ford, they were both Recruits, & died of Measels

April 4. At 3¼ Oc I was up & had the men up folded their blankets, & packed knapsacks, at day lite I let the men make fires & cook & make coffee, they hurried expecting an early attack & before all was done breakfast the firing commenced on our pickets & they fell back to us & the cavalry went over to the right & by ½ past 5 Oc A. M. we were exchanging shots with the rebs, & about the third fire from them Corp Wm O Garl was shot through the knee by my side I helped him up Capt Fee now arrived to us & led him back we held the Rebs about ½ hour when we fell back, & finding many of our men had left their knapsacks we advanced got our things & again fell back, just then a Lieut on Marmadukes Staff rode forward & before he was aware was close on Co D & Capt Hale ordered him to halt & surrender, which he saw was his only hope of life, he was with his fine horse sent back to head qrs there was at this time a few moments of rest but only to be renewed with double energy the rebs advanced & fought bravely & we three Companies spread out & took trees stumps & dirt banks & fought against fearfull odds, Lt Col F M Drake commanding us, we fought & fell back & continued untill after 10 Oc when we were back, to our Battery the 2nd Mo when the 7 companies of our reg rose up from behind a little ridge in a little field & opened on the rebs by volleys when they retired in double quick time our battery playing on them fearfully this closed up the rebble fireing with small arms for this day & this was the first relief that us 3 Companies got this day except just a few moments at the time we took the Lieut above named, & strange to tell no men in either of the companys were killed Co A had 5 wounded Co D had 2 wounded & we had Corp Garl Corp Silas Moreland & Private Abraham Humble he was shot through the loins & Private N F Mottoo shot through the left thigh the bone badly shattered Corp Wm O Garl through the left knee leg amputated Corp Moreland left shin slight wound & right foot badly shot some other cloths & books cut by balls, & it was only the protecting care of God that prevented the rest of us from being killed or wounded the shell canister & grape & bullets whistling & bursting

amongst us constantly & the trees & brush give evidence of a hotly contested battle.

April 5. At 4 Oc we ware up & ready for to go into action if need be but we had the pleasure of a pleasant rest this day as the rebs chose to keep at a proper distance from us one of Co A George Miles that was wounded yesterday in the fight died this morning & was buried by the side of those two that ware buried on the 3rd, we bivouacked last night on the South Side of Howard Creek over which our Battery played some of the time at the Rebs yesterday.

April 6. At 4 Oc A M we received orders to prepare to march by 6 Oc, & it was about 7 Oc before the part of the army that marches in advance this day got past & by 7 Oc we ware in the march & we could now hear skirmishing in the advance we passed through the timber where on the 4th we had braved the storm for five hours & the timber is perfectly ridled & it is only a merecle that so few of us ware hurt in that fight. There was some skirmishing in the advance but I believe no one on our side hurt the Rebs had logs piled on the hills as a kind of breast work but they fled from them, the bottom land is low & marshy & here we saw for the first on this march the palm of which the fans are made, they are quite numerous on black Bayou a small Streem over which we crossed in this bottom, our march was very slow as the artillery & trains could not move fast, & at 1 Oc P M. we Bivouacked on the farm of the widow a Malinda Cornelias three & a half miles from Elkin ford, this was a short tedious march in which we encountered thousands of large & small ticks, Mrs Cornelias & her son-in-law told us that Marmaduke, Cable, Green & Shelby, ware all here with their forces, & we saw here the graves of 6 Rebs that fell in our fight on monday, they are Lieut Wm keith 4 Mo Cav T. S Vaughan 4 Mo Cav A Y Warren 4th Mo Cav A H Whittenburg 4 Mo Cav — Dyson 4 Mo Cav & Wm McCulough 4th Mo Cav & Mrs Cornelias told us that there ware 23 Rebs that ware very seriously wounded many of them mortal & also we ware told here that some 20 had been buried a short distance from this place, this place we call Spring hill from the Springs on it. At 4 Oc I was ordered to report with other officers to go in command of some 150 men as guards to a forageing train, but after we had got out beyond the lines the wagon master found he was deficient several wagons & we ware returned to camp this is poor high gravelly land & we are again among the pine timber.
